Proclamation

OFFICE OF THE MAYOR

WHEREAS, the Key Biscayne community wishes to recognize and honor the life, legacy, and dedicated service of Ronald "Ron" Andrew Erbel, who faithfully served the Village of Key Biscayne as a firefighter for over 26 years; and

WHEREAS, Ron was not only a founding member of the Fire Department, but selflessly served his fellow residents as a volunteer firefighter for many years prior to the Village's incorporation; and

WHEREAS, as a firefighter, Ron also served as the Fire Department's Chaplin, giving support and counseling to Key Biscayne's firefighters for over 20 years; and

WHEREAS, it was in this spirit of selflessness and duty that Ron volunteered to be part of the rescue and recovery teams that searched through the rubble and ruins of the 9/11 terrorist attacks at Ground Zero. Tragically over the years exposure to toxic materials in the aftermath have claimed numerous lives like Ron's; and

WHEREAS, before his passing, Ron and his wife, Victoria, benevolently created a scholarship for longtime serving Key Biscayne firefighters' children and grandchildren to assist with their educational needs and goals; and

WHEREAS, for those who were lucky enough to know Ron, he was a true friend, a kind neighbor, a hero. He had an easy smile and a warm heart. Ron loved nature, the ocean, the trees, he loved riding his motorcycle and… he loved taking care of bees.

NOW, THEREFORE, I, JOE RASCO, MAYOR OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, DO HEREBY HONOR THE MEMORY, THE SACRIFICE, AND THE LEGACY OF RONALD ANDREW ERBEL.

IN WITNESS WHEREOF, I HAVE HEREUNTO SET MY HAND AND OFFICIAL SEAL OF THE VILLAGE OF KEY BISCAYNE THIS 19TH DAY OF AUGUST, 2025.

JOE I. RASCO, MAYOR

CREATED & DESIGNED BY ISLAND RESIDENTS: CONCHITA ALVAREZ, JAMES BREWSTER & GEORGE EARL JR.

The resolution, as amended, was approved by a 7-0 voice vote. The vote was as follows: Councilmembers Bracken, Caplan, London, Stoner, Vazquez, Vice Mayor Sardiñas, and Mayor Rasco voting Yes.

11. **REPORTS AND RECOMMENDATIONS:** The following items were discussed:

At this time Councilmember Bracken addressed the administration regarding installation of a barrier on Crandon Boulevard's right turn lane. There was discussion from Council, Director Calleros Gauger, and Director Miranda regarding safety, roadway pavement markers, green painted bike lanes, looking at possible solutions for this area, and meeting with Miami-Dade County. Miami-Dade County's approval would be needed for any modifications. Director Calleros Gauger will report back at a future meeting date to be determined.

At this time Councilmember Bracken addressed the administration regarding Impact Fees applied to residential construction to offset costs of road repair. There was extensive discussion from Council, the Manager, Director Calleros Gauger, and the Attorney regarding Impact Fee criteria, homes being replaced with larger homes, and Impact Fee consultants. Director Calleros Gauger will look into this item and report back at a future meeting date to be determined.

There was additional discussion from Council and the Manager regarding damage occurring and not just impact, a bond for damages to the right of way, enforcement issues, and fines for construction sites.

At this time Mayor Rasco addressed the Council regarding informing the Clerk when an advisory board member resigns and forwarding resumes of residents who are interested in applying.

At this time Mayor Rasco reappointed the current board members of the Sustainability Advisory Board for an additional two year term. The members are: Derek Duzoglou, Michael Schmale, Helena Iturralde, Jacqueline Kellogg, Karen Beber Futernick, Anne Rothe, and Kristin Kundahl. There was no objection by Council to reconfirm the reappointments.

At this time Mayor Rasco addressed the Council regarding the Zoning Ordinance Review Committee's (ZORC) plan and timeline. Mayor Rasco recognized Councilmember Caplan as the committee's liaison who reported there will be two meetings a month for approximately three months and the committee has identified a relevant but limited scope of work. There was

discussion from Council, Director Calleros Gauger, and the Manager regarding the committee and that a report and draft ordinances will be provided by the October or November 2025 Regular Council meeting.

The Attorney addressed the Council regarding Senate Bill 180. This bill includes a provision that would prevent all governments in the State of Florida from adopting more restrictive zoning ordinances or comprehensive plan ordinances until sometime in 2027 and potentially void any of those ordinances that were adopted from August 2024. This provision is retroactive and prospective and presents restrictions for this committee that may need to be evaluated. The Manager will share additional information from the Florida League of Cities regarding SB180 with the Council.

At this time Mayor Rasco addressed the Council regarding the July 29th, 2025 meeting date. It was the consensus of Council to cancel this meeting. There was discussion from Council and the Manager regarding the canceled meeting date.

At this time Mayor Rasco addressed the Council regarding a streetlight project update. There was discussion from Council and Director Miranda regarding developing a scope of work to move forward with a complete assessment of the Village's streetlight system. The goal is to modernize and have a unified lighting system to improve the safety throughout the entire Village. There was discussion from Councilmember London and Director Miranda on a solar lighting pilot project location and solar lighting's quality of light.

At this time Mayor Rasco addressed the Council regarding the Building Department's metrics. Director Calleros Gauger addressed the Council regarding producing reports from Accela, costs for producing detailed reports, a possible quarterly posting on the website for public viewing, and the department's turnaround timelines. Director Calleros Gauger will report back at a future meeting date to be determined.

Village Manager. The Manager addressed the Council reporting that staff will hold a hurricane training exercise on June 18th and that there is an upcoming in-person emergency training class available for elected officials.

The Manager reported on an update regarding State legislative items: Dissipators for the Stormwater Project and Police radios have passed the House and Senate so far. And on the Federal level: the Zone 1 Stormwater System Upgrade and the Hybrid Reef for Shoreline Stabilization Study are both currently being reviewed by committees.

At this time Mayor Rasco addressed the Council regarding potential changes to property taxes. There was discussion from Council regarding the above items, ad valorem taxes, homestead exemptions, and protecting infrastructure. The Manager and CFO Nussbaum will report at the Budget Workshop on recommendations on how to diversify revenues using different scenarios.

There was discussion from Councilmember Bracken and the Manager regarding a high-water vehicle. The Manager is reviewing this matter with the Fire Department and will report back at a future meeting date to be determined.

The Manager addressed the Council regarding the June 2nd rainstorm event. Director Miranda reported 3.5 inches of rain fell which then funneled to low lying areas causing 14 to 16 inches of water around the K-8 Center. This event occurred at high tide and there were approximately 7 cars (mostly electric) and golf carts stranded. There was discussion from Council, Director Miranda, and the Manager regarding the above rain event, the water which receded within 6 to 8 hours, the next day's clean-up efforts, and redeveloping the wells on Ocean Lane Drive. There was additional discussion regarding screening over the inlets, debris from construction sites, water flow, and palm fronds and branches clogging and blocking drains.

The Manager addressed the Council stating that City of Miami Commissioner Ralph Rosado was elected to District 4.

Mayor and Councilmembers: These discussion items were addressed earlier in the evening.

Village Attorney. The Attorney did not submit a report.

Village Clerk. The Clerk did not submit a report.

12. **OTHER BUSINESS/GENERAL DISCUSSION:** There was no further business discussed.

13. **SCHEDULE OF FUTURE MEETINGS/EVENTS:** A schedule of future meetings and events was presented to the Council.

14. **ADJOURNMENT:** The meeting was adjourned at 9:14 p.m.

MEMORANDUM

DATE: August 19, 2025

TO: Honorable Mayor and Councilmembers

FROM: Steven C. Williamson, Village Manager

RE: Florida Department of Transportation Transit Development Grant for Freebee Transit Service

RECOMMENDATION

Recommend the Village Council authorize the Village Manager to accept the Florida Department of Transportation Transit (FDOT) Development Program grant in the amount of $203,083, which would fund 50% of the cost for four of a nine-vehicle Freebee transit fleet. The Village's 50% local match of $203,083 would be funded through Citizen's Independent Transportation Trust (CITT) allocations.

BACKGROUND

The Village has successfully secured FDOT Transit Development Program funding for 2024 and 2025. This grant agreement is the third year the Village has been awarded funding through the program.

- Year 1 (2024): $166,679 (50% cost share for three vehicles)
- Year 2 (2025): $152,312 (50% cost share for three vehicles)
- Year 3 (2026): $203,083 (50% cost share for four vehicles)

CURRENT SERVICE STATUS

The Village's Freebee Public Transit Service currently operates nine 5-passenger electric vehicles, including one ADA-accessible vehicle. The service operates Sunday through Thursday from 8am to 8pm, Friday from 8am to 10pm, and Saturday from 10am to 10pm, with one vehicle serving as a quasi-circulator along Harbor Drive from 7:00-9:00am Monday through Friday to provide last-mile service to County bus riders.

This transit service allows users to request rides from anywhere in the Village to travel freely within Village boundaries, as well as Bill Baggs State Park and Crandon Beach Park. The service also connects passengers to Miami-Dade County's public transit system, functioning as a critical first and last mile connection.

GOALS OF CONTINUED TRANSIT SERVICE

The nine-vehicle fleet enables us to:

- Maintain ridership levels exceeding 10,000+ rides per month
- Sustain annual ridership above 120,000+ rides per year
- Reduce average wait times for passengers
- Service increased trip demand generated by the three new beach access paths
- Provide enhanced mobility options for residents and visitors

FINANCIAL IMPACT

The total annual cost for the operation of four Freebee vehicles for the fiscal year 2026 is projected to be $406,166, with the grant covering 50% ($203,083) of these costs. The 50% local match required ($203,083) will be funded through the Village's CITT allocation, which is restricted for transportation purposes and comes from the People's Transportation Plan Municipal Transportation Program approved by County referendum in 2002.

CONCLUSION

The Freebee transit service has proven to be an essential component of our Village's transportation infrastructure, helping reduce traffic congestion, providing convenient mobility options for residents and visitors, and supporting our sustainability goals. This FDOT Transit Development Program grant enables us to maintain the expanded service level that has demonstrated significant benefits to our island community.

STRATEGIC CONNECTION (GOAL / FOCUS AREA)

RESOLUTION NO. 2025-_____

A RESOLUTION OF THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, ACCEPTING A FLORIDA DEPARTMENT OF TRANSPORTATION (FDOT) PUBLIC TRANSIT SERVICE DEVELOPMENT PROGRAM GRANT IN THE AMOUNT OF $203,083 RELATING TO THE VILLAGE'S ON-DEMAND TRANSIT SERVICE; PROVIDING FOR AUTHORIZATION; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, on June 6, 2023, the Village Council of the Village of Key Biscayne ("Village") adopted Resolution No. 2023-33, selecting BeeFree, LLC d/b/a FreeBee ("FreeBee") for the provision of on-demand transit services in the Village (the "Services") pursuant to Request for Proposal No. 2023-02 and authorizing the Village Manager to negotiate and execute an agreement with FreeBee; and

WHEREAS, the Florida Department of Transportation ("FDOT") has awarded the Village a Public Transit Service Development Program Grant (the "Grant") in the amount of $203,083 to expand the Services offered by the Village through FreeBee for Fiscal Year 2025-2026, which the Village will match using $203,083 in Citizens' Independent Transportation Trust ("CITT") surtax proceeds; and

WHEREAS, the Village Council desires to accept the Grant funds from FDOT in the amount of $203,083 and authorize the Village Manager to negotiate and enter into a Grant Agreement with FDOT (the "Grant Agreement"); and

WHEREAS, the Village Council finds that this Resolution is in the best interest and welfare of the residents of the Village.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, AS FOLLOWS:

Section 1. Recitals. That each of the above-stated recitals are hereby adopted, confirmed, and incorporated herein.

Section 2. **Acceptance.** That the Village Council hereby accepts the Grant funds in an amount of $203,083 from FDOT.

Section 3. **Authorization.** That the Village Council hereby authorizes the Village Manager to negotiate and execute a Grant Agreement, subject to the Village Attorney's approval as to form, content, and legal sufficiency, and any subsequent amendments or related documents necessary to implement the Grant Agreement, subject to the Village Attorney's approval as to form, content, and legal sufficiency.

Section 4. **Implementation.** That the Village Manager and Village Attorney are hereby authorized to take such further action as may be necessary to implement the purpose and provisions of this Resolution.

Section 5. **Effective Date.** That this Resolution shall be effective immediately upon adoption.

MEMORANDUM

TO: Honorable Mayor and Councilmembers

FROM: Steven C. Williamson, Village Manager

RE: Florida Department of Environmental Protection (FDEP) Beach Management Funding Assistance Program Agreement 26DA2 in support of 2025/2026 Beach Monitoring

RECOMMENDATION

Recommend the Village Council authorize the Village Manager to accept the Grant Agreement for the Florida Department of Environmental Protection (FDEP) Beach Management Funding Assistance Program grant 26DA2 to be used as the mechanism for obtaining reimbursement for expenses incurred during the monitoring of the most recent beach renourishment completed in 2024.

DISCUSSION

Purpose: The FDEP Beach Management Funding Assistance Program (BMFAP) is the primary mechanism for the Village of Key Biscayne to obtain funds from the State of Florida to offset the costs to the Village for renourishing and monitoring the beach post construction.

Background: The FDEP seeks to enter into a new agreement (26DA2) with the Grantee (VKB) for permit required post-construction monitoring in FY 2025/26 effective June 1, 2024 and expiring December 31, 2028. Due to the effects of hurricane Ian and Nicole, the Village was successful in being awarded additional funds from the State of Florida to complete an emergency beach renourishment in early 2024 offsetting the normally planned renourishment for 2025.

Justification: The funds available through Grant Agreement 26DA2 would be used for necessary existing monitoring or rolled forward to 2026 as they may be needed for future monitoring. Executing 26DA2 secures the match funding for present and future monitoring.

Implementation/Integration Plan: Physical and biological monitoring is undertaken annually in the summer for three years post construction as required by permitting agency.

RESOURCE IMPACT

Recurring Funding: This is a matching grant and the Village applies to the grant program annually.

Personnel: Work is undertaken by the Village's ocean engineering consultant and appropriate sub-

consultants.

Equipment: NOT APPLICABLE

Facilities: NOT APPLICABLE

Training: NOT APPLICABLE

FUNDING SOURCES

The total amount of funding of the 26DA2 agreement is $91,460 requiring a local match of $108,540 bringing the total project total to $200,000. The funds secured from the BMFAP will be used to cover the costs for:

- Monitoring

This is a cost reimbursable grant with a match requirement that is covered by dedicated funds from the Village Capital Improvement Program.

- ***Budget Line-Item***: *?*
- ***Amount***: *$200,000 (DEP $91,460 + VKB match $108,540)*
- ***Maintenance & Repair:*** NOT APPLICABLE

STRATEGIC CONNECTION (GOAL / FOCUS AREA)

These grant dollars from the FDEP are critical to maintaining beaches and enhancing shoreline protection.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
STANDARD TERMS AND CONDITIONS
APPLICABLE TO GRANT AGREEMENTS

ATTACHMENT 1

1. Entire Agreement.

This Grant Agreement, including any Attachments and Exhibits referred to herein and/or attached hereto (Agreement), constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior agreements, whether written or oral, with respect to such subject matter. Any terms and conditions included on Grantee's forms or invoices shall be null and void.

2. Grant Administration.

a. Order of Precedence. If there are conflicting provisions among the documents that make up the Agreement, the order of precedence for interpretation of the Agreement is as follows:
   i. Standard Grant Agreement
   ii. Attachments other than Attachment 1, in numerical order as designated in the Standard Grant Agreement
   iii. Attachment 1, Standard Terms and Conditions
   iv. The Exhibits in the order designated in the Standard Grant Agreement

b. All approvals, written or verbal, and other written communication among the parties, including all notices, shall be obtained by or sent to the parties' Grant Managers. All written communication shall be by electronic mail, U.S. Mail, a courier delivery service, or delivered in person. Notices shall be considered delivered when reflected by an electronic mail read receipt, a courier service delivery receipt, other mail service delivery receipt, or when receipt is acknowledged by recipient. If the notice is delivered in multiple ways, the notice will be considered delivered at the earliest delivery time.

c. If a different Grant Manager is designated by either party after execution of this Agreement, notice of the name and contact information of the new Grant Manager will be submitted in writing to the other party and maintained in the respective parties' records. A change of Grant Manager does not require a formal amendment or change order to the Agreement.

d. This Agreement may be amended, through a formal amendment or a change order, only by a written agreement between both parties. A formal amendment to this Agreement is required for changes which cause any of the following:
   (1) an increase or decrease in the Agreement funding amount;
   (2) a change in Grantee's match requirements;
   (3) a change in the expiration date of the Agreement;
   (4) changes to the cumulative amount of funding transfers between approved budget categories, as defined in Attachment 3, Grant Work Plan, that exceeds or is expected to exceed twenty percent (20%) of the total budget as last approved by Department; and/or
   (5) any changes to the terms and conditions of the Agreement other than the specific instances enumerated below when a change order may be used.
   A change order to this Agreement may be used when:
   (1) task timelines within the current authorized Agreement period change;
   (2) the cumulative transfer of funds between approved budget categories, as defined in Attachment 3, Grant Work Plan, are less than twenty percent (20%) of the total budget as last approved by Department;
   (3) changing the current funding source as stated in the Standard Grant Agreement; and/or
   (4) fund transfers between budget categories for the purposes of meeting match requirements.
   This Agreement may be amended to provide for additional services if additional funding is made available by the Legislature.

e. All days in this Agreement are calendar days unless otherwise specified.

3. Agreement Duration.

The term of the Agreement shall begin and end on the dates indicated in the Standard Grant Agreement, unless extended or terminated earlier in accordance with the applicable terms and conditions. The Grantee shall be eligible for reimbursement for work performed on or after the date of execution through the expiration date of this Agreement, unless otherwise specified in Attachment 2, Special Terms and Conditions. However, work performed prior to the

execution of this Agreement may be reimbursable or used for match purposes if permitted by the Special Terms and Conditions.

4. Deliverables.

The Grantee agrees to render the services or other units of deliverables as set forth in Attachment 3, Grant Work Plan. The services or other units of deliverables shall be delivered in accordance with the schedule and at the pricing outlined in the Grant Work Plan. Deliverables may be comprised of activities that must be completed prior to Department making payment on that deliverable. The Grantee agrees to perform in accordance with the terms and conditions set forth in this Agreement and all attachments and exhibits incorporated by the Standard Grant Agreement.

5. Performance Measures.

The Grantee warrants that: (1) the services will be performed by qualified personnel; (2) the services will be of the kind and quality described in the Grant Work Plan; (3) the services will be performed in a professional and workmanlike manner in accordance with industry standards and practices; (4) the services shall not and do not knowingly infringe upon the intellectual property rights, or any other proprietary rights, of any third party; and (5) its employees, subcontractors, and/or subrecipients shall comply with any security and safety requirements and processes, if provided by Department, for work done at the Project Location(s). The Department reserves the right to investigate or inspect at any time to determine whether the services or qualifications offered by Grantee meet the Agreement requirements. Notwithstanding any provisions herein to the contrary, written acceptance of a particular deliverable does not foreclose Department's remedies in the event deficiencies in the deliverable cannot be readily measured at the time of delivery.

6. Acceptance of Deliverables.

a. Acceptance Process. All deliverables must be received and accepted in writing by Department's Grant Manager before payment. The Grantee shall work diligently to correct all deficiencies in the deliverable that remain outstanding, within a reasonable time at Grantee's expense. If Department's Grant Manager does not accept the deliverables within 30 days of receipt, they will be deemed rejected.

b. Rejection of Deliverables. The Department reserves the right to reject deliverables, as outlined in the Grant Work Plan, as incomplete, inadequate, or unacceptable due, in whole or in part, to Grantee's lack of satisfactory performance under the terms of this Agreement. The Grantee's efforts to correct the rejected deliverables will be at Grantee's sole expense. Failure to fulfill the applicable technical requirements or complete all tasks or activities in accordance with the Grant Work Plan will result in rejection of the deliverable and the associated invoice. Payment for the rejected deliverable will not be issued unless the rejected deliverable is made acceptable to Department in accordance with the Agreement requirements. The Department, at its option, may allow additional time within which Grantee may remedy the objections noted by Department. The Grantee's failure to make adequate or acceptable deliverables after a reasonable opportunity to do so shall constitute an event of default.

7. Financial Consequences for Nonperformance.

a. Withholding Payment. In addition to the specific consequences explained in the Grant Work Plan and/or Special Terms and Conditions, the State of Florida (State) reserves the right to withhold payment when the Grantee has failed to perform/comply with provisions of this Agreement. None of the financial consequences for nonperformance in this Agreement as more fully described in the Grant Work Plan shall be considered penalties.

b. Invoice reduction
If Grantee does not meet a deadline for any deliverable, the Department will reduce the invoice by 1% for each day the deadline is missed, unless an extension is approved in writing by the Department.

c. Corrective Action Plan. If Grantee fails to correct all the deficiencies in a rejected deliverable within the specified timeframe, Department may, in its sole discretion, request that a proposed Corrective Action Plan (CAP) be submitted by Grantee to Department. The Department requests that Grantee specify the outstanding deficiencies in the CAP. All CAPs must be able to be implemented and performed in no more than sixty (60) calendar days.
    i. The Grantee shall submit a CAP within ten (10) days of the date of the written request from Department. The CAP shall be sent to the Department's Grant Manager for review and approval. Within ten (10) days of receipt of a CAP, Department shall notify Grantee in writing whether the CAP proposed has been accepted. If the CAP is not accepted, Grantee shall have ten (10) days from receipt of Department letter rejecting the proposal to submit a revised proposed CAP. Failure to obtain Department approval of a CAP as specified above may result in Department's termination of this Agreement for cause as authorized in this Agreement.

ii. Upon Department's notice of acceptance of a proposed CAP, Grantee shall have ten (10) days to commence implementation of the accepted plan. Acceptance of the proposed CAP by Department does not relieve Grantee of any of its obligations under the Agreement. In the event the CAP fails to correct or eliminate performance deficiencies by Grantee, Department shall retain the right to require additional or further remedial steps, or to terminate this Agreement for failure to perform. No actions approved by Department or steps taken by Grantee shall preclude Department from subsequently asserting any deficiencies in performance. The Grantee shall continue to implement the CAP until all deficiencies are corrected. Reports on the progress of the CAP will be made to Department as requested by Department's Grant Manager.

iii. Failure to respond to a Department request for a CAP or failure to correct a deficiency in the performance of the Agreement as specified by Department may result in termination of the Agreement.

8. Payment.

a. Payment Process. Subject to the terms and conditions established by the Agreement, the pricing per deliverable established by the Grant Work Plan, and the billing procedures established by Department, Department agrees to pay Grantee for services rendered in accordance with section 215.422, Florida Statutes (F.S.).

b. Taxes. The Department is exempted from payment of State sales, use taxes and Federal excise taxes. The Grantee, however, shall not be exempted from paying any taxes that it is subject to, including State sales and use taxes, or for payment by Grantee to suppliers for taxes on materials used to fulfill its contractual obligations with Department. The Grantee shall not use Department's exemption number in securing such materials. The Grantee shall be responsible and liable for the payment of all its FICA/Social Security and other taxes resulting from this Agreement.

c. Maximum Amount of Agreement. The maximum amount of compensation under this Agreement, without an amendment, is described in the Standard Grant Agreement. Any additional funds necessary for the completion of this Project are the responsibility of Grantee.

d. Reimbursement for Costs. The Grantee shall be paid on a cost reimbursement basis for all eligible Project costs upon the completion, submittal, and approval of each deliverable identified in the Grant Work Plan. Reimbursement shall be requested on Exhibit C, Payment Request Summary Form. To be eligible for reimbursement, costs must be in compliance with laws, rules, and regulations applicable to expenditures of State funds, including, but not limited to, the Reference Guide for State Expenditures, which can be accessed at the following web address: https://www.myfloridacfo.com/docs-sf/accounting-and-auditing-libraries/state-agencies/reference-guide-for-state-expenditures.pdf.

e. Rural Communities and Rural Areas of Opportunity. If Grantee is a county or municipality that qualifies as a "rural community" or "rural area of opportunity" (RAO) as defined in subsection 288.0656(2), F.S., such Grantee may request from the Department that all invoice payments under this Agreement be directed to the relevant county or municipality or to the RAO itself. The Department will agree to Grantee's request if:

i. Grantee demonstrates that it is a county or municipality that qualifies as a "rural community" or "rural area of opportunity" under subsection 288.0656(2), F.S.;

ii. Grantee demonstrates current financial hardship using one (1) or more of the "economic distress" factors defined in subsection 288.0656(2)(c), F.S.;

iii. Grantee's performance has been verified by the Department, which has determined that Grantee is eligible for invoice payments and that Grantee's performance has been completed in accordance with this Agreement's terms and conditions; and

iv. Applicable federal and state law(s), rule(s) and regulation(s) allow for such payments.

This subsection may not be construed to alter or limit any other applicable provisions of federal or state law, rule, or regulation. A current list of Florida's designated RAOs can be accessed at the following web address: https://floridajobs.org/community-planning-and-development/rural-community-programs/rural-areas-of-opportunity.

f. Invoice Detail. All charges for services rendered or for reimbursement of expenses authorized by Department pursuant to the Grant Work Plan shall be submitted to Department in sufficient detail for a proper pre-audit and post-audit to be performed. The Grantee shall only invoice Department for deliverables that are completed in accordance with the Grant Work Plan.

g. State Funds Documentation. Pursuant to section 216.1366, F.S., if Grantee meets the definition of a non-profit organization under section 215.97(2)(m), F.S., Grantee must provide the Department with documentation that indicates the amount of state funds:

i. Allocated to be used during the full term of the contract or agreement for remuneration to any member of the board of directors or an officer.
ii. Allocated under each payment by the public agency to be used for remuneration of any member of the board of directors or an officer.

The documentation must indicate the amounts and recipients of the remuneration. Such information must be posted on the State's the contract tracking system and maintained pursuant to section 215.985, F.S., and must be posted on the Grantee's website, if Grantee maintains a website.

h. Interim Payments. Interim payments may be made by Department, at its discretion, if the completion of deliverables to date have first been accepted in writing by Department's Grant Manager.

i. Final Payment Request. A final payment request should be submitted to Department no later than sixty (60) days following the expiration date of the Agreement to ensure the availability of funds for payment. However, all work performed pursuant to the Grant Work Plan must be performed on or before the expiration date of the Agreement.

j. Annual Appropriation Contingency. The State's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature. This Agreement is not a commitment of future appropriations. Authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of Department if the Legislature reduces or eliminates appropriations.

k. Interest Rates. All interest rates charged under the Agreement shall be calculated on the prevailing rate used by the State Board of Administration. To obtain the applicable interest rate, please refer to: https://www.myfloridacfo.com/division/aa/local-governments/judgement-interest-rates.

l. Refund of Payments to the Department. Any balance of unobligated funds that have been advanced or paid must be refunded to Department. Any funds paid in excess of the amount to which Grantee or subgrantee is entitled under the terms of the Agreement must be refunded to Department. If this Agreement is funded with federal funds and the Department is required to refund the federal government, the Grantee shall refund the Department its share of those funds.

9. Documentation Required for Cost Reimbursement Grant Agreements and Match.

If Cost Reimbursement or Match is authorized in Attachment 2, Special Terms and Conditions, the following conditions apply. Supporting documentation must be provided to substantiate cost reimbursement or match requirements for the following budget categories:

a. Salary/Wages. Grantee shall list personnel involved, position classification, direct salary rates, and hours spent on the Project in accordance with Attachment 3, Grant Work Plan in their documentation for reimbursement or match requirements.

b. Overhead/Indirect/General and Administrative Costs. If Grantee is being reimbursed for or claiming match for multipliers, all multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by Grantee exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate.

c. Contractual/Subaward Costs (Subcontractors/Subrecipients). Match or reimbursement requests for payments to subcontractors/subrecipients must be substantiated by copies of invoices with backup documentation identical to that required from Grantee. Subcontracts/subawards which involve payments for direct salaries shall clearly identify the personnel involved, salary rate per hour, and hours spent on the Project. All eligible multipliers used (i.e., fringe benefits, overhead, indirect, and/or general and administrative rates) shall be supported by audit. If Department determines that multipliers charged by any subcontractor/subrecipient exceeded the rates supported by audit, Grantee shall be required to reimburse such funds to Department within thirty (30) days of written notification. Interest shall be charged on the excessive rate. Nonconsumable and/or nonexpendable personal property or equipment costing $5,000 or more purchased for the Project under a subcontract/subaward is subject to the requirements set forth in chapters 273 and/or 274, F.S., and Chapter 69I-72, Florida Administrative Code (F.A.C.) and/or Chapter 69I-73, F.A.C., as applicable. For grants funded with federal funds, nonconsumable and/or nonexpendable personal property or equipment costing $10,000 or more purchased for the Project under a subcontract/subaward is subject to the requirements set forth in 2 CFR 200. The Grantee shall be responsible for maintaining appropriate property records for any subcontracts/subawards that include the purchase of equipment as part of the delivery of services. The Grantee shall comply with this requirement and ensure its subcontracts/subaward issued under this Agreement, if any, impose this requirement, in writing, on its subcontractors/subrecipients.

i. For fixed-price (vendor) subcontracts/subawards, the following provisions shall apply: The Grantee may award, on a competitive basis, fixed-price subcontracts/subawards to consultants/contractors in performing the work described in Attachment 3, Grant Work Plan. Invoices submitted to Department for fixed-price subcontracted/subawarded activities shall be supported with a copy of the subcontractor/subrecipient's invoice and a copy of the tabulation form for the competitive procurement process (e.g., Invitation to Bid, Request for Proposals, or other similar competitive procurement document) resulting in the fixed-price subcontract/subaward. The Grantee may request approval from Department to award a fixed-price subcontract/subaward resulting from procurement methods other than those identified above. In this instance, Grantee shall request the advance written approval from Department's Grant Manager of the fixed price negotiated by Grantee. The letter of request shall be supported by a detailed budget and Scope of Services to be performed by the subcontractor/subrecipient. Upon receipt of Department Grant Manager's approval of the fixed-price amount, Grantee may proceed in finalizing the fixed-price subcontract/subaward.

ii. If the procurement is subject to the Consultant's Competitive Negotiation Act under section 287.055, F.S., or the Brooks Act, Grantee must provide documentation clearly evidencing it has complied with the statutory or federal requirements.

d. Travel. All requests for match or reimbursement of travel expenses shall be in accordance with section 112.061, F.S.

e. Direct Purchase Equipment. For grants funded fully or in part with state funds, equipment is defined as capital outlay costing $5,000 or more. For grants funded fully with federal funds, equipment is defined as capital outlay costing $10,000 or more. Match or reimbursement for Grantee's direct purchase of equipment is subject to specific approval of Department and does not include any equipment purchased under the delivery of services to be completed by a subcontractor/subrecipient. Include copies of invoices or receipts to document purchases, and a properly completed Exhibit B, Property Reporting Form**.**

f. Rental/Lease of Equipment. Match or reimbursement requests for rental/lease of equipment must include copies of invoices or receipts to document charges.

g. Miscellaneous/Other Expenses. If miscellaneous or other expenses, such as materials, supplies, non-excluded phone expenses, reproduction, or mailing, are reimbursable or available for match or reimbursement under the terms of this Agreement, the documentation supporting these expenses must be itemized and include copies of receipts or invoices. Additionally, independent of Grantee's contract obligations to its subcontractor/subrecipient, Department shall not reimburse any of the following types of charges: cell phone usage; attorney's fees or court costs; civil or administrative penalties; or handling fees, such as set percent overages associated with purchasing supplies or equipment.

h. Land Acquisition. Reimbursement for the costs associated with acquiring interest and/or rights to real property (including access rights through ingress/egress easements, leases, license agreements, or other site access agreements; and/or obtaining record title ownership of real property through purchase) must be supported by the following, as applicable: Copies of Property Appraisals, Environmental Site Assessments, Surveys and Legal Descriptions, Boundary Maps, Acreage Certification, Title Search Reports, Title Insurance, Closing Statements/Documents, Deeds, Leases, Easements, License Agreements, or other legal instrument documenting acquired property interest and/or rights. If land acquisition costs are used to meet match requirements, Grantee agrees that those funds shall not be used as match for any other Agreement supported by State or Federal funds.

10. Status Reports.

The Grantee shall submit status reports quarterly, unless otherwise specified in the Attachments, on Exhibit A, Progress Report Form**,** to Department's Grant Manager describing the work performed during the reporting period, problems encountered, problem resolutions, scheduled updates, and proposed work for the next reporting period. Quarterly status reports are due no later than twenty (20) days following the completion of the quarterly reporting period. For the purposes of this reporting requirement, the quarterly reporting periods end on March 31, June 30, September 30 and December 31. The Department will review the required reports submitted by Grantee within thirty (30) days.

11. Retainage.

The following provisions apply if Department withholds retainage under this Agreement:

a. The Department reserves the right to establish the amount and application of retainage on the work performed under this Agreement up to the maximum percentage described in Attachment 2, Special Terms and Conditions. Retainage may be withheld from each payment to Grantee pending satisfactory completion of work and approval of all deliverables.

b. If Grantee fails to perform the requested work or fails to perform the work in a satisfactory manner, Grantee shall forfeit its right to payment of the retainage associated with the work. Failure to perform includes, but is not limited to, failure to submit the required deliverables or failure to provide adequate documentation that the work was actually performed. The Department shall provide written notification to Grantee of the failure to perform that shall result in retainage forfeiture. If the Grantee does not correct the failure to perform within the timeframe stated in Department's notice, the retainage will be forfeited to Department.
c. No retainage shall be released or paid for incomplete work while this Agreement is suspended.
d. Except as otherwise provided above, Grantee shall be paid the retainage associated with the work, provided Grantee has completed the work and submits an invoice for retainage held in accordance with the invoicing procedures under this Agreement.

12. Insurance.

a. Insurance Requirements for Subrecipients and/or Subcontractors. The Grantee shall require its subrecipients and/or subcontractors, if any, to maintain insurance coverage of such types and with such terms and limits as described in this Agreement. The Grantee shall require all its subrecipients and/or subcontractors, if any, to make compliance with the insurance requirements of this Agreement a condition of all contracts that are related to this Agreement. Subrecipients and/or subcontractors must provide proof of insurance upon request.
b. Deductibles. The Department shall be exempt from, and in no way liable for, any sums of money representing a deductible in any insurance policy. The payment of such deductible shall be the sole responsibility of the Grantee providing such insurance.
c. Proof of Insurance. Upon execution of this Agreement, Grantee shall provide Department documentation demonstrating the existence and amount for each type of applicable insurance coverage ***prior to*** performance of any work under this Agreement. Upon receipt of written request from Department, Grantee shall furnish Department with proof of applicable insurance coverage by standard form certificates of insurance, a self-insured authorization, or other certification of self-insurance.
d. Duty to Maintain Coverage. In the event that any applicable coverage is cancelled by the insurer for any reason, or if Grantee cannot get adequate coverage, Grantee shall immediately notify Department of such cancellation and shall obtain adequate replacement coverage conforming to the requirements herein and provide proof of such replacement coverage within ten (10) days after the cancellation of coverage.
e. Insurance Trust. If the Grantee's insurance is provided through an insurance trust, the Grantee shall instead add the Department of Environmental Protection, its employees, and officers as an additional covered party everywhere the Agreement requires them to be added as an additional insured.

13. Termination.

a. Termination for Convenience. When it is in the State's best interest, Department may, at its sole discretion, terminate the Agreement in whole or in part by giving 30 days' written notice to Grantee. The Department shall notify Grantee of the termination for convenience with instructions as to the effective date of termination or the specific stage of work at which the Agreement is to be terminated. The Grantee must submit all invoices for work to be paid under this Agreement within thirty (30) days of the effective date of termination. The Department shall not pay any invoices received after thirty (30) days of the effective date of termination.
b. Termination for Cause. The Department may terminate this Agreement if any of the events of default described in the Events of Default provisions below occur or in the event that Grantee fails to fulfill any of its other obligations under this Agreement. If, after termination, it is determined that Grantee was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of Department. The rights and remedies of Department in this clause are in addition to any other rights and remedies provided by law or under this Agreement.
c. Grantee Obligations upon Notice of Termination. After receipt of a notice of termination or partial termination unless as otherwise directed by Department, Grantee shall not furnish any service or deliverable on the date, and to the extent specified, in the notice. However, Grantee shall continue work on any portion of the Agreement not terminated. If the Agreement is terminated before performance is completed, Grantee shall be paid only for that work satisfactorily performed for which costs can be substantiated. The Grantee shall not be entitled to recover any cancellation charges or lost profits.
d. Continuation of Prepaid Services. If Department has paid for any services prior to the expiration, cancellation, or termination of the Agreement, Grantee shall continue to provide Department with those services for which it has already been paid or, at Department's discretion, Grantee shall provide a refund for services that have been paid for but not rendered.

e. Transition of Services Upon Termination, Expiration, or Cancellation of the Agreement. If services provided under the Agreement are being transitioned to another provider(s), Grantee shall assist in the smooth transition of Agreement services to the subsequent provider(s). This requirement is at a minimum an affirmative obligation to cooperate with the new provider(s), however additional requirements may be outlined in the Grant Work Plan. The Grantee shall not perform any services after Agreement expiration or termination, except as necessary to complete the transition or continued portion of the Agreement, if any.

14. Notice of Default.

If Grantee defaults in the performance of any covenant or obligation contained in the Agreement, including, any of the events of default, Department shall provide notice to Grantee and an opportunity to cure that is reasonable under the circumstances. This notice shall state the nature of the failure to perform and provide a time certain for correcting the failure. The notice will also provide that, should the Grantee fail to perform within the time provided, Grantee will be found in default, and Department may terminate the Agreement effective as of the date of receipt of the default notice.

15. Events of Default.

Provided such failure is not the fault of Department or outside the reasonable control of Grantee, the following non-exclusive list of events, acts, or omissions, shall constitute events of default:

a. The commitment of any material breach of this Agreement by Grantee, including failure to timely deliver a material deliverable, failure to perform the minimal level of services required for a deliverable, discontinuance of the performance of the work, failure to resume work that has been discontinued within a reasonable time after notice to do so, or abandonment of the Agreement;
b. The commitment of any material misrepresentation or omission in any materials, or discovery by the Department of such, made by the Grantee in this Agreement or in its application for funding;
c. Failure to submit any of the reports required by this Agreement or having submitted any report with incorrect, incomplete, or insufficient information;
d. Failure to honor any term of the Agreement;
e. Failure to abide by any statutory, regulatory, or licensing requirement, including an entry of an order revoking the certificate of authority granted to the Grantee by a state or other licensing authority;
f. Failure to pay any and all entities, individuals, and furnishing labor or materials, or failure to make payment to any other entities as required by this Agreement;
g. Employment of an unauthorized alien in the performance of the work, in violation of Section 274 (A) of the Immigration and Nationality Act;
h. Failure to maintain the insurance required by this Agreement;
i. One or more of the following circumstances, uncorrected for more than thirty (30) days unless, within the specified 30-day period, Grantee (including its receiver or trustee in bankruptcy) provides to Department adequate assurances, reasonably acceptable to Department, of its continuing ability and willingness to fulfill its obligations under the Agreement:
    i. Entry of an order for relief under Title 11 of the United States Code;
    ii. The making by Grantee of a general assignment for the benefit of creditors;
    iii. The appointment of a general receiver or trustee in bankruptcy of Grantee's business or property; and/or
    iv. An action by Grantee under any state insolvency or similar law for the purpose of its bankruptcy, reorganization, or liquidation.

16. Suspension of Work.

The Department may, in its sole discretion, suspend any or all activities under the Agreement, at any time, when it is in the best interest of the State to do so. The Department shall provide Grantee written notice outlining the particulars of suspension. Examples of reasons for suspension include, but are not limited to, budgetary constraints, declaration of emergency, or other such circumstances. After receiving a suspension notice, Grantee shall comply with the notice. Within 90 days, or any longer period agreed to by the parties, Department shall either: (1) issue a notice authorizing resumption of work, at which time activity shall resume; or (2) terminate the Agreement. If the Agreement is terminated after 30 days of suspension, the notice of suspension shall be deemed to satisfy the thirty (30) days' notice required for a notice of termination for convenience. Suspension of work shall not entitle Grantee to any additional compensation.

17. Force Majeure.

The Grantee shall not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of Grantee or its employees or agents contributed to the delay and the delay is due directly to acts of God, wars, acts

of public enemies, strikes, fires, floods, or other similar cause wholly beyond Grantee's control, or for any of the foregoing that affect subcontractors/subrecipients or suppliers if no alternate source of supply is available to Grantee. In case of any delay Grantee believes is excusable, Grantee shall notify Department in writing of the delay or potential delay and describe the cause of the delay either (1) within ten days after the cause that creates or will create the delay first arose, if Grantee could reasonably foresee that a delay could occur as a result; or (2) if delay is not reasonably foreseeable, within five days after the date Grantee first had reason to believe that a delay could result. **THE FOREGOING SHALL CONSTITUTE THE GRANTEE'S SOLE REMEDY OR EXCUSE WITH RESPECT TO DELAY**. Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages, other than for an extension of time, shall be asserted against Department. The Grantee shall not be entitled to an increase in the Agreement price or payment of any kind from Department for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist Grantee shall perform at no increased cost, unless Department determines, in its sole discretion, that the delay will significantly impair the value of the Agreement to Department, in which case Department may: (1) accept allocated performance or deliveries from Grantee, provided that Grantee grants preferential treatment to Department with respect to products subjected to allocation; (2) contract with other sources (without recourse to and by Grantee for the related costs and expenses) to replace all or part of the products or services that are the subject of the delay, which purchase may be deducted from the Agreement quantity; or (3) terminate Agreement in whole or in part.

18. Indemnification.

a. The Grantee shall be fully liable for the actions of its agents, employees, partners, and subcontractors/subrecipients and shall fully indemnify, defend, and hold harmless Department and its officers, agents, and employees, from suits, actions, damages, and costs of every name and description arising from or relating to:
    i. personal injury and damage to real or personal tangible property alleged to be caused in whole or in part by Grantee, its agents, employees, partners, and subcontractors/subrecipients; provided, however, that Grantee shall not indemnify for that portion of any loss or damages proximately caused by the negligent act or omission of Department;
    ii. the Grantee's breach of this Agreement or the negligent acts or omissions of Grantee.

b. The Grantee's obligations under the preceding paragraph with respect to any legal action are contingent upon Department giving Grantee: (1) written notice of any action or threatened action; (2) the opportunity to take over and settle or defend any such action at Grantee's sole expense; and (3) assistance in defending the action at Grantee's sole expense. The Grantee shall not be liable for any cost, expense, or compromise incurred or made by Department in any legal action without Grantee's prior written consent, which shall not be unreasonably withheld.

c. Notwithstanding sections a. and b. above, the following is the sole indemnification provision that applies to Grantees that are governmental entities: Each party hereto agrees that it shall be solely responsible for the negligent or wrongful acts of its employees and agents. However, nothing contained herein shall constitute a waiver by either party of its sovereign immunity or the provisions of section 768.28, F.S. Further, nothing herein shall be construed as consent by a state agency or subdivision of the State to be sued by third parties in any matter arising out of any contract or this Agreement.

d. No provision in this Agreement shall require Department to hold harmless or indemnify Grantee, insure or assume liability for Grantee's negligence, waive Department's sovereign immunity under the laws of Florida, or otherwise impose liability on Department for which it would not otherwise be responsible. Any provision, implication or suggestion to the contrary is null and void.

19. Limitation of Liability.

The Department's liability for any claim arising from this Agreement is limited to compensatory damages in an amount no greater than the sum of the unpaid balance of compensation due for goods or services rendered pursuant to and in compliance with the terms of the Agreement. Such liability is further limited to a cap of $100,000.

20. Remedies.

Nothing in this Agreement shall be construed to make Grantee liable for force majeure events. Nothing in this Agreement, including financial consequences for nonperformance, shall limit Department's right to pursue its remedies for other types of damages under the Agreement, at law or in equity. The Department may, in addition to

other remedies available to it, at law or in equity and upon notice to Grantee, retain such monies from amounts due Grantee as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against it.

21. Waiver.

The delay or failure by Department to exercise or enforce any of its rights under this Agreement shall not constitute or be deemed a waiver of Department's right thereafter to enforce those rights, nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right.

22. Statutory Notices Relating to Unauthorized Employment and Subcontracts/Subawards.

a. The Department shall consider the employment by any Grantee of unauthorized aliens a violation of Section 274A(e) of the Immigration and Nationality Act. If Grantee/subcontractor/subrecipient knowingly employs unauthorized aliens, such violation shall be cause for unilateral cancellation of this Agreement. The Grantee shall be responsible for including this provision in all subcontracts/subawards with private organizations issued as a result of this Agreement.

b. Pursuant to sections 287.133, 287.134, and 287.137 F.S., the following restrictions apply to persons placed on the convicted vendor list, discriminatory vendor list, or the antitrust violator vendor list:

   i. Public Entity Crime. A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in section 287.017, F.S., for CATEGORY TWO for a period of 36 months following the date of being placed on the convicted vendor list.

   ii. Discriminatory Vendors. An entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity.

   iii. Antitrust Violator Vendors. A person or an affiliate who has been placed on the antitrust violator vendor list following a conviction or being held civilly liable for an antitrust violation may not submit a bid, proposal, or reply on any contract to provide any good or services to a public entity; may not submit a bid, proposal, or reply on any contract with a public entity for the construction or repair of a public building or public work; may not submit a bid, proposal, or reply on leases of real property to a public entity; may not be awarded or perform work as a Grantee, supplier, subcontractor, or consultant under a contract with a public entity; and may not transact new business with a public entity.

   iv. Notification. The Grantee shall notify Department if it or any of its suppliers, subcontractors, or consultants have been placed on the convicted vendor list, the discriminatory vendor list, or antitrust violator vendor list during the life of the Agreement. The Florida Department of Management Services is responsible for maintaining the discriminatory vendor list and the antitrust violator vendor list and posts the list on its website. Questions regarding the discriminatory vendor list or antitrust violator vendor list may be directed to the Florida Department of Management Services, Office of Supplier Development, at (850) 487-0915.

23. Compliance with Federal, State and Local Laws.

a. The Grantee and all its agents shall comply with all federal, state and local regulations, including, but not limited to, nondiscrimination, wages, social security, workers' compensation, licenses, and registration requirements. The Grantee shall include this provision in all subcontracts/subawards issued as a result of this Agreement.

b. The Grantee, its subrecipients, subcontractors and agents must also comply with the following civil rights laws and regulations:

   i. Title VI of the Civil Rights Act of 1964 as amended (prohibiting discrimination in federally assisted programs on the basis of race, color, or national origin in the delivery of services or benefits);

ii. Section 13 of the 1972 Amendment to the Federal Water Pollution Control Act (prohibiting discrimination on the basis of sex in the delivery of services or benefits under the Federal Water Pollution Control Act as amended);
iii. Section 504 of the Rehabilitation Act of 1973 (prohibiting discrimination in federally assisted programs on the basis of disability, both in employment and in the delivery of services and benefits);
iv. Age Discrimination Act of 1975 (prohibiting discrimination in federally assisted programs on the basis of age in the delivery of services or benefits);
v. 40 C.F.R. Part 7, (implementing Title VI of the Civil Rights Act of 1964, Section 13 of the 1972 Amendments to the Federal Water Pollution Control Act, and Section 504 of the Rehabilitation Act of 1973);
vi. Florida Civil Rights Act of 1992 (Title XLIV Chapter 760, Sections 760.01, 760.11 and 509.092, F.S.), including Part I, chapter 760, F.S. (prohibiting discrimination on the basis of race, color, religion, sex, pregnancy, national origin, age, handicap, or marital status).

c. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida.
d. Any dispute concerning performance of the Agreement shall be processed as described herein. Jurisdiction for any damages arising under the terms of the Agreement will be in the courts of the State, and venue will be in the Second Judicial Circuit, in and for Leon County. Except as otherwise provided by law, the parties agree to be responsible for their own attorney fees incurred in connection with disputes arising under the terms of this Agreement.

24. Build America, Buy America Act (BABA) - Infrastructure Projects with Federal Funding.
This provision does not apply to Agreements that are wholly funded by Coronavirus State and Local Fiscal Recovery Funds under the American Rescue Plan Act. Also, this provision does not apply where there is a valid waiver in place. However, the provision may apply to funds expended before the waiver or after expiration of the waiver.

If applicable, Recipients or Subrecipients of an award of Federal financial assistance from a program for infrastructure are required to comply with the Build America, Buy America Act (BABA), including the following provisions:

a. All iron and steel used in the project are produced in the United States--this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;
b. All manufactured products used in the project are produced in the United States-this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation; and
c. All construction materials are manufactured in the United States-this means that all manufacturing processes for the construction material occurred in the United States.

The Buy America preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project but are not an integral part of the structure or permanently affixed to the infrastructure project.

25. Investing in America

Grantees of an award for construction projects in whole or in part by the Bipartisan Infrastructure Law or the Inflation Reduction Act, including the following provision:

a. Signage Requirements

a. Investing in America Emblem: The recipient will ensure that a sign is placed at construction sites supported in whole or in part by this award displaying the official Investing in America emblem and must identify the project as a “project funded by President Biden’s Bipartisan Infrastructure Law” or “project funded by President Biden’s Inflation Reduction Act” as applicable. The sign must be placed at construction sites in an easily visible location that can be directly linked to the work taking place and must be maintained in good condition throughout the construction period.

The recipient will ensure compliance with the guidelines and design specifications provided by EPA for using the official Investing in America emblem available at: https://www.epa.gov/invest/investing-america-signage.

b. Procuring Signs: Consistent with section 6002 of RCRA, 42 U.S.C. 6962, and 2 CFR 200.323, recipients are encouraged to use recycled or recovered materials when procuring signs. Signage costs are considered an allowable cost under this assistance agreement provided that the costs associated with signage are reasonable. Additionally, to increase public awareness of projects serving communities where English is not the predominant language, recipients are encouraged to translate the language on signs (excluding the official Investing in America emblem or EPA logo or seal) into the appropriate non-English language(s). The costs of such translation are allowable, provided the costs are reasonable.

26. Scrutinized Companies.

a. Grantee certifies that it is not on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel. Pursuant to section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.

b. If this Agreement is for more than one million dollars, the Grantee certifies that it is also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in section 287.135, F.S. Pursuant to section 287.135, F.S., the Department may immediately terminate this Agreement at its sole option if the Grantee is found to have submitted a false certification; or if the Grantee is placed on the Scrutinized Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

c. As provided in subsection 287.135(8), F.S., if federal law ceases to authorize these contracting prohibitions, then they shall become inoperative.

27. Lobbying and Integrity.

The Grantee agrees that no funds received by it under this Agreement will be expended for the purpose of lobbying the Legislature or a State agency pursuant to section 216.347, F.S., except that pursuant to the requirements of section 287.058(6), F.S., during the term of any executed agreement between Grantee and the State, Grantee may lobby the executive or legislative branch concerning the scope of services, performance, term, or compensation regarding that agreement. The Grantee shall comply with sections 11.062 and 216.347, F.S.

28. Record Keeping.

The Grantee shall maintain books, records and documents directly pertinent to performance under this Agreement in accordance with United States generally accepted accounting principles (US GAAP) consistently applied. The Department, the State, or their authorized representatives shall have access to such records for audit purposes during the term of this Agreement and for five (5) years following the completion date or termination of the Agreement. In the event that any work is subcontracted or subawarded, Grantee shall similarly require each subcontractor/subrecipient to maintain and allow access to such records for audit purposes. Upon request of Department's Inspector General, or other authorized State official, Grantee shall provide any type of information the Inspector General deems relevant to Grantee's integrity or responsibility. Such information may include, but shall not be limited to, Grantee's business or financial records, documents, or files of any type or form that refer to or relate to Agreement. The Grantee shall retain such records for the longer of: (1) three years after the expiration of the Agreement; or (2) the period required by the General Records Schedules maintained by the Florida Department of State (available at: http://dos.myflorida.com/library-archives/records-management/general-records-schedules/).

29. Audits.

a. Inspector General. The Grantee understands its duty, pursuant to section 20.055(5), F.S., to cooperate with the inspector general in any investigation, audit, inspection, review, or hearing. The Grantee will comply with this duty and ensure that its subrecipients and/or subcontractors issued under this Agreement, if any, impose this requirement, in writing, on its subrecipients and/or subcontractors, respectively.

b. Physical Access and Inspection. Department personnel shall be given access to and may observe and inspect work being performed under this Agreement, with reasonable notice and during normal business hours, including by any of the following methods:

i. Grantee shall provide access to any location or facility on which Grantee is performing work, or storing or staging equipment, materials or documents;
ii. Grantee shall permit inspection of any facility, equipment, practices, or operations required in performance of any work pursuant to this Agreement; and,
iii. Grantee shall allow and facilitate sampling and monitoring of any substances, soils, materials or parameters at any location reasonable or necessary to assure compliance with any work or legal requirements pursuant to this Agreement.

c. Special Audit Requirements. The Grantee shall comply with the applicable provisions contained in Attachment 5, Special Audit Requirements. Each amendment that authorizes a funding increase or decrease shall include an updated copy of Exhibit 1, to Attachment 5. If Department fails to provide an updated copy of Exhibit 1 to include in each amendment that authorizes a funding increase or decrease, Grantee shall request one from the Department's Grants Manager. The Grantee shall consider the type of financial assistance (federal and/or state) identified in Attachment 5, Exhibit 1 and determine whether the terms of Federal and/or Florida Single Audit Act Requirements may further apply to lower tier transactions that may be a result of this Agreement. For federal financial assistance, Grantee shall utilize the guidance provided under 2 CFR §200.331 for determining whether the relationship represents that of a subrecipient or vendor. For State financial assistance, Grantee shall utilize the form entitled "Checklist for Nonstate Organizations Recipient/Subrecipient vs Vendor Determination" (form number DFS-A2-NS) that can be found under the "Links/Forms" section appearing at the following website: https:\\apps.fldfs.com\fsaa.

d. Proof of Transactions. In addition to documentation provided to support cost reimbursement as described herein, Department may periodically request additional proof of a transaction to evaluate the appropriateness of costs to the Agreement pursuant to State guidelines (including cost allocation guidelines) and federal, if applicable. Allowable costs and uniform administrative requirements for federal programs can be found under 2 CFR 200. The Department may also request a cost allocation plan in support of its multipliers (overhead, indirect, general administrative costs, and fringe benefits). The Grantee must provide the additional proof within thirty (30) days of such request.

e. No Commingling of Funds. The accounting systems for all Grantees must ensure that these funds are not commingled with funds from other agencies. Funds from each agency must be accounted for separately. Grantees are prohibited from commingling funds on either a program-by-program or a project-by-project basis. Funds specifically budgeted and/or received for one project may not be used to support another project. Where a Grantee's, or subrecipient's, accounting system cannot comply with this requirement, Grantee, or subrecipient, shall establish a system to provide adequate fund accountability for each project it has been awarded.
i. If Department finds that these funds have been commingled, Department shall have the right to demand a refund, either in whole or in part, of the funds provided to Grantee under this Agreement for non-compliance with the material terms of this Agreement. The Grantee, upon such written notification from Department shall refund, and shall forthwith pay to Department, the amount of money demanded by Department. Interest on any refund shall be calculated based on the prevailing rate used by the State Board of Administration. Interest shall be calculated from the date(s) the original payment(s) are received from Department by Grantee to the date repayment is made by Grantee to Department.
ii. In the event that the Grantee recovers costs, incurred under this Agreement and reimbursed by Department, from another source(s), Grantee shall reimburse Department for all recovered funds originally provided under this Agreement and interest shall be charged for those recovered costs as calculated on from the date(s) the payment(s) are recovered by Grantee to the date repayment is made to Department.
iii. Notwithstanding the requirements of this section, the above restrictions on commingling funds do not apply to agreements where payments are made purely on a cost reimbursement basis.

30. Conflict of Interest.

The Grantee covenants that it presently has no interest and shall not acquire any interest which would conflict in any manner or degree with the performance of services required.

31. Independent Contractor.

The Grantee is an independent contractor and is not an employee or agent of Department.

32. Subcontracting/Subawards.

a. Unless otherwise specified in the Special Terms and Conditions, all services contracted for are to be performed solely by Grantee.

b. The Department may, for cause, require the replacement of any Grantee employee, subcontractor/subrecipient, or agent. For cause, includes, but is not limited to, technical or training qualifications, quality of work, change in security status, or non-compliance with an applicable Department policy or other requirement.
c. The Department may, for cause, deny access to Department's secure information or any facility by any Grantee employee, subcontractor/subrecipient, or agent.
d. The Department's actions under paragraphs b. or c. shall not relieve Grantee of its obligation to perform all work in compliance with the Agreement. The Grantee shall be responsible for the payment of all monies due under any subcontract/subaward. The Department shall not be liable to any subcontractor/subrecipient for any expenses or liabilities incurred under any subcontract/subaward, and Grantee shall be solely liable to the subcontractor for all expenses and liabilities incurred under any subcontract/subaward.
e. The Department will not deny Grantee's employees, subcontractors/subrecipients, or agents access to meetings within the Department's facilities, unless the basis of Department's denial is safety or security considerations.
f. A list of minority-owned firms that could be offered subcontracting opportunities may be obtained by contacting the Office of Supplier Development at (850) 487-0915.
g. The Grantee shall not be liable for any excess costs for a failure to perform, if the failure to perform is caused by the default of a subcontractor/subrecipient at any tier, and if the cause of the default is completely beyond the control of both Grantee and the subcontractor(s)/subrecipient(s), and without the fault or negligence of either, unless the subcontracted/subawarded products or services were obtainable from other sources in sufficient time for Grantee to meet the required delivery schedule.

33. Guarantee of Parent Company.

If Grantee is a subsidiary of another corporation or other business entity, Grantee asserts that its parent company will guarantee all of the obligations of Grantee for purposes of fulfilling the obligations of Agreement. In the event Grantee is sold during the period the Agreement is in effect, Grantee agrees that it will be a requirement of sale that the new parent company guarantee all of the obligations of Grantee.

34. Survival.

The respective obligations of the parties, which by their nature would continue beyond the termination or expiration of this Agreement, including without limitation, the obligations regarding confidentiality, proprietary interests, and public records, shall survive termination, cancellation, or expiration of this Agreement.

35. Third Parties.

The Department shall not be deemed to assume any liability for the acts, failures to act or negligence of Grantee, its agents, servants, and employees, nor shall Grantee disclaim its own negligence to Department or any third party. This Agreement does not and is not intended to confer any rights or remedies upon any person other than the parties. If Department consents to a subcontract/subaward, Grantee will specifically disclose that this Agreement does not create any third-party rights. Further, no third parties shall rely upon any of the rights and obligations created under this Agreement.

36. Severability.

If a court of competent jurisdiction deems any term or condition herein void or unenforceable, the other provisions are severable to that void provision, and shall remain in full force and effect.

37. Grantee's Employees, Subcontractors/Subrecipients and Agents.

All Grantee employees, subcontractors/subrecipients, or agents performing work under the Agreement shall be properly trained technicians who meet or exceed any specified training qualifications. Upon request, Grantee shall furnish a copy of technical certification or other proof of qualification. All employees, subcontractors/subrecipients, or agents performing work under Agreement must comply with all security and administrative requirements of Department and shall comply with all controlling laws and regulations relevant to the services they are providing under the Agreement.

38. Assignment.

The Grantee shall not sell, assign, or transfer any of its rights, duties, or obligations under the Agreement, or under any purchase order issued pursuant to the Agreement, without the prior written consent of Department. In the event of any assignment, Grantee remains secondarily liable for performance of the Agreement, unless Department expressly waives such secondary liability. The Department may assign the Agreement with prior written notice to Grantee of its intent to do so.

39. Compensation Report.

If this Agreement is a sole-source, public-private agreement or if the Grantee, through this agreement with the State, annually receive 50% or more of their budget from the State or from a combination of State and Federal funds, the Grantee shall provide an annual report, including the most recent IRS Form 990, detailing the total compensation for

the entities' executive leadership teams. Total compensation shall include salary, bonuses, cashed-in leave, cash equivalents, severance pay, retirement benefits, deferred compensation, real-property gifts, and any other payout. The Grantee must also inform the Department of any changes in total executive compensation between the annual reports. All compensation reports must indicate what percent of compensation comes directly from the State or Federal allocations to the Grantee.

40. Disclosure of Gifts from Foreign Sources.

If the value of the grant under this Agreement is $100,000 or more, Grantee shall disclose to Department any current or prior interest of, any contract with, or any grant or gift received from a foreign country of concern, as defined in section 286.101, F.S., if such interest, contract, or grant or gift has a value of $50,000 or more and such interest existed at any time or such contract or grant or gift was received or in force at any time during the previous 5 years. Such disclosure shall include the name and mailing address of the disclosing entity, the amount of the contract or grant or gift or the value of the interest disclosed, the applicable foreign country of concern and, if applicable, the date of termination of the contract or interest, the date of receipt of the grant or gift, and the name of the agent or controlled entity that is the source or interest holder. If the disclosure requirement is applicable as described above, then within 1 year before applying for any grant, Grantee must also provide a copy of such disclosure to the Department of Financial Services.

41. Food Commodities.

To the extent authorized by federal law, the Department, its grantees, contractors and subcontractors/subrecipients shall give preference to food commodities grown or produced in this state when purchasing food commodities, including farm products as defined in section 823.14, F.S., of any class, variety, or use thereof in their natural state or as processed by a farm operation or processor for the purpose of marketing such product.

42. Anti-human Trafficking.

If the Grantee is a nongovernmental entity, the Grantee must provide the Department with an affidavit signed by an officer or a representative of the Grantee under penalty of perjury attesting that the Grantee does not use coercion for labor or services as defined in section 787.06, F.S.

43. Iron and Steel for Public Works Projects.

If this Agreement funds a "public works project" as defined in section 255.0993, F.S., or the purchase of materials to be used in a public works project, any iron or steel permanently incorporated in the Project must be "produced in the United States," as defined in section 255.0993, F.S. This requirement does not apply if the Department determines that any of the following circumstances apply to the Project:

(1) iron or steel products produced in the United States are not produced in sufficient quantities, reasonably available, or of satisfactory quality;
(2) the use of iron or steel products produced in the United States will increase the total cost of the project by more than twenty percent (20%); or
(3) complying with this requirement is inconsistent with the public interest.

Further, this requirement does not prevent the Contractor's minimal use of foreign steel and iron materials if:

(1) such materials are incidental or ancillary to the primary product and are not separately identified in the project specifications; and
(2) the "cost" of such materials, as defined in section 255.0993, F.S., does not exceed one-tenth of one percent (1%) of the total Project Cost under this Agreement or $2,500, whichever is greater.

Electrical components, equipment, systems, and appurtenances, including supports, covers, shielding, and other appurtenances related to an electrical system that are necessary for operation or concealment (excepting transmission and distribution poles) are not considered to be iron or steel products and are, therefore, exempt from the requirements of this paragraph.

This provision shall be applied in a manner consistent with and may not be construed to impair the state's obligations under any international agreement.

44. Complete and Accurate information.

Grantee represents and warrants that all statements and information provided to DEP are current, complete, and accurate. This includes all statements and information in this Grant, as well as its Attachments and Exhibits.

45. Execution in Counterparts and Authority to Sign.

This Agreement, any amendments, and/or change orders related to the Agreement, may be executed in counterparts, each of which shall be an original and all of which shall constitute the same instrument. In accordance with the Electronic Signature Act of 1996, electronic signatures, including facsimile transmissions, may be used and shall have the same force and effect as a written signature. Each person signing this Agreement warrants that he or she is duly authorized to do so and to bind the respective party to the Agreement.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Terms and Conditions
AGREEMENT NO. 26DA2

ATTACHMENT 2

These Special Terms and Conditions shall be read together with general terms outlined in the Standard Terms and Conditions, Attachment 1. Where in conflict, these more specific terms shall apply.

1. Scope of Work.
The Project funded under this Agreement is the Key Biscayne Beach Nourishment Project. The Project is defined in more detail in Attachment 3, Grant Work Plan.

2. Duration.
a. Reimbursement Period. The reimbursement period for this Agreement is the same as the term of the Agreement.
b. Extensions. There are extensions available for this Project.
c. Service Periods. Additional service periods are not authorized under this Agreement.

3. Payment Provisions.
a. Compensation. This is a cost reimbursement Agreement. The Grantee shall be compensated under this Agreement as described in Attachment 3.
b. Invoicing. Invoicing will occur as indicated in Attachment 3.
c. Advance Pay. Advance Pay is not authorized under this Agreement.

4. Cost Eligible for Reimbursement or Matching Requirements.
Reimbursement for costs or availability for costs to meet matching requirements shall be limited to the following budget categories, as defined in the Reference Guide for State Expenditures, as indicated:

Reimbursement	Match	Category
☐	☐	Salaries/Wages
		Overhead/Indirect/General and Administrative Costs:
☐	☐	a. Fringe Benefits, N/A.
☐	☐	b. Indirect Costs, N/A.
☒	☐	Contractual/Subaward (Subcontractors/Subrecipients)
☐	☐	Travel, in accordance with Section 112, F.S.
☐	☐	Equipment
☐	☐	Rental/Lease of Equipment
☐	☐	Miscellaneous/Other Expenses
☐	☐	Land Acquisition

5. Equipment Purchase.
No Equipment purchases shall be funded under this Agreement.

6. Land Acquisition.
There will be no Land Acquisitions funded under this Agreement.

7. Match Requirements
See Attachment 3, Grant Work Plan.

8. Insurance Requirements
Required Coverage. At all times during the Agreement the Grantee, at its sole expense, shall maintain insurance coverage of such types and with such terms and limits described below. The limits of coverage under each policy

maintained by the Grantee shall not be interpreted as limiting the Grantee's liability and obligations under the Agreement. All insurance policies shall be through insurers licensed and authorized to issue policies in Florida, or alternatively, Grantee may provide coverage through a self-insurance program established and operating under the laws of Florida. Additional insurance requirements for this Agreement may be required elsewhere in this Agreement, however the minimum insurance requirements applicable to this Agreement are:

a. Commercial General Liability Insurance.
The Grantee shall provide adequate commercial general liability insurance coverage and hold such liability insurance at all times during the Agreement. The Department, its employees, and officers shall be named as an additional insured on any general liability policies. The minimum limits shall be $250,000 for each occurrence and $500,000 policy aggregate.

b. Commercial Automobile Insurance.
If the Grantee's duties include the use of a commercial vehicle, the Grantee shall maintain automobile liability, bodily injury, and property damage coverage. Insuring clauses for both bodily injury and property damage shall provide coverage on an occurrence basis. The Department, its employees, and officers shall be named as an additional insured on any automobile insurance policy. The minimum limits shall be as follows:

$200,000/300,000	Automobile Liability for Company-Owned Vehicles, if applicable
$200,000/300,000	Hired and Non-owned Automobile Liability Coverage

c. Workers' Compensation and Employer's Liability Coverage.
The Grantee shall provide workers' compensation, in accordance with Chapter 440, F.S. and employer liability coverage with minimum limits of $100,000 per accident, $100,000 per person, and $500,000 policy aggregate. Such policies shall cover all employees engaged in any work under the Grant.

d. Other Insurance. None.

9. Quality Assurance Requirements.
There are no special Quality Assurance requirements under this Agreement.

10. Retainage.
Retainage is permitted under this Agreement. Retainage may be up to a maximum of 10% of the total amount of the Agreement.

11. Subcontracting/Subawards.
The Grantee may subcontract/subaward work under this Agreement without the prior written consent of the Department's Grant Manager except for certain fixed-price subcontracts/subawards pursuant to this Agreement, which require prior approval. The Grantee shall submit a copy of the executed subcontracts/subaward to the Department prior to submitting any invoices for subcontracted/subawarded work. Regardless of any subcontract/subaward, the Grantee is ultimately responsible for all work to be performed under this Agreement.

12. State-owned Land.
The Board of Trustees of the Internal Improvement Trust Fund must be listed as additional insured to general liability insurance required by the Agreement and, if the Grantee is a non-governmental entity, indemnified by the Grantee.

13. Office of Policy and Budget Reporting.
There are no special Office of Policy and Budget reporting requirements for this Agreement.

14. Common Carrier.

a. Applicable to contracts/subawards with a common carrier – firm/person/corporation that as a regular business transports people or commodities from place to place. If applicable, Contractor/Subrecipient must also fill out and return PUR 1808 before contract/subaward execution. If Contractor/Subrecipient is a common carrier pursuant to section 908.111(1)(a), Florida Statutes, the Department will terminate this Agreement immediately if Contractor/Subrecipient is found to be in violation of the law or the attestation in PUR 1808.

b. Applicable to solicitations for a common carrier – Before contract execution, the winning Contractor(s) must fill out and return PUR 1808, and attest that it is not willfully providing any service in furtherance of

transporting a person into this state knowing that the person unlawfully present in the United States according to the terms of the federal Immigration and Nationality Act, 8 U.S.C. ss. 1101 et seq. The Department will terminate a contract immediately if Contractor is found to be in violation of the law or the attestation in PUR 1808.

15. Financial Assistance and Payment of Invoices to Rural Communities or Rural Areas of Opportunity
This agreement does not provide federal or state financial assistance to a county or municipality that is a rural community or rural area of opportunity as those terms are defined in s. 288.0656(2).

16. Additional Terms.
None**.**

ATTACHMENT 3
GRANT WORK PLAN

PROJECT TITLE: Key Biscayne Beach Nourishment Project

PROJECT LOCATION: The Project is located between Department of Environmental Protection (Department or DEP) reference monuments R101.3 and R107.6 along the Atlantic Ocean, in the Village of Key Biscayne in Miami-Dade County, Florida.

PROJECT BACKGROUND: The Key Biscayne Beach Nourishment Project is located between DEP monuments R101.3 and R107.6 in Miami-Dade County. The project was initially restored in 1987 and has received six additional renourishments since. The renourishment interval occurs every 3-4 years. The most recent nourishment completed June 2024, and permit-required post-construction monitoring is ongoing.

PROJECT DESCRIPTION: The Project consists of monitoring.

PROJECT ELIGIBILITY: The Department has determined that 91.46 percent of the non-federal Project cost is eligible for state cost sharing. Therefore, the Department's financial obligation shall not exceed the sum of $91,460.00 for this Project or up to 45.73 percent of the non-federal Project cost, if applicable, for the specific eligible Project items listed, whichever is less. Any indicated federal cost sharing percentage is an estimate and shall not affect the cost sharing percentages of the non-federal share. The parties agree that eligibility for cost sharing purposes will be maintained pursuant to 62B-36, Florida Administrative Code (F.A.C.).

The Local Sponsor will be responsible for auditing all travel reimbursement expenses based on the travel limits established in section 112.061, Florida Statute (F.S.).

Pursuant to sections 161.091 - 161.161, F.S., the Department provides financial assistance to eligible governmental entities for beach erosion control and inlet management activities under the Florida Beach Management Funding Assistance Program.

Pursuant to 62B-36.005(1)(d), F.A.C., the Local Sponsor has resolved to support and serve as local sponsor, has demonstrated a financial commitment, and has demonstrated the ability to perform the tasks associated with the beach erosion control project as described herein.

The Project shall be conducted in accordance with the terms and conditions set forth under this Agreement, all applicable Department permits and the eligible Project task items established below. All data collection and processing, and the resulting product deliverables, shall comply with the standards and technical specifications contained in the Department's Monitoring Standards for Beach Erosion Control Projects (2014) and all associated state and federal permits, unless otherwise specified in the approved scope of work for an eligible Project item. The monitoring standards may be found at:

https://floridadep.gov/sites/default/files/PhysicalMonitoringStandards.pdf

One (1) electronic copy of all written reports developed under this Agreement shall be forwarded to the Department, unless otherwise specified.

Acronyms:

DEP – Florida Department of Environmental Protection
F.A.C. – Florida Administrative Code
F.S. – Florida Statutes
FWC – Florida Fish and Wildlife Conservation Commission

TASKS and DELIVERABLES:

The Local Sponsor will provide detailed scopes of work or a letter requesting advance payment if authorized by Attachment 2, for all tasks identified below, which shall include a narrative description of work to be completed, a corresponding cost estimate and a proposed schedule of completion for the proposed work and associated deliverables. Each scope of work shall be approved in writing by the DEP Project Manager to be included into this work plan for reimbursement.

Task 1: Monitoring
State and federal monitoring required by permit is eligible for reimbursement pursuant to program statute and rule. In order to comply with Florida Auditor General report 2014-064 regarding conflicts of interest and to be consistent with section 287.057(19)(a)(1), F.S., all monitoring data and statistical analysis must be provided directly and concurrently from the monitoring contractor to the Department/Local Sponsor permittee/engineering consultant. The Local Sponsor's engineering consultant must provide an adequate mitigation plan, consistent with section 287.057(19)(a)(1), F.S., including a description of organizational, physical, and electronic barriers to be used by the Local Sponsor's engineering consultant, that addresses conflicts of interest when contracting multi-disciplinary firms for Project engineering and post-construction environmental monitoring services, or when the Project engineering consultant firm subcontracts for post-construction environmental monitoring. Environmental monitoring includes hardbottom, seagrass, and mangrove resources. Department approval of the consultant's mitigation plan will be required prior to execution of this Agreement. If at any time the Local Sponsor and/or its engineering consultant fails to comply with this provision, the Local Sponsor agrees to reimburse the Department all funds provided by the Department associated with environmental monitoring for the Project listed.

Task Description: This task includes activities associated with permit-required monitoring conducted in accordance with the conditions specified by state or federal regulatory agencies. All monitoring tasks must be located within or adjacent to the Project area and follow the Department's Regional Coastal Monitoring Program and FWC's marine turtle and shorebird monitoring programs. Guidance for monitoring of nearshore resources is available in the Department's Standard Operation Procedures For Nearshore Hardbottom Monitoring Of Beach Nourishment Projects. The Local Sponsor must submit work products directly to the appropriate state or federal regulatory agencies in accordance with permit conditions to be eligible for reimbursement under this task, unless otherwise directed.

Deliverable: For each interim or final payment, the Local Sponsor will provide a Task Summary Report signed by Local Sponsor containing; 1) An itemized listing of all monitoring activities completed or in progress during the payment request period and, 2) Documentation of submittal to state and federal regulatory agencies of completed monitoring data, surveys and final reports for permit-required work under this task description.

Performance Standard: The DEP Project Manager will review the task deliverable and any associated work products as necessary to verify they meet the specifications in the Grant Work Plan and this task description.

Payment Request Schedule: Payment requests may be submitted after the deliverable is received and accepted and may be submitted no more frequently than quarterly.

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Public Records Requirements

Attachment 4

1. **Public Records.**

a. If the Agreement exceeds $35,000.00, and if Grantee is acting on behalf of Department in its performance of services under the Agreement, Grantee must allow public access to all documents, papers, letters, or other material, regardless of the physical form, characteristics, or means of transmission, made or received by Grantee in conjunction with the Agreement (Public Records), unless the Public Records are exempt from section 24(a) of Article I of the Florida Constitution and section 119.07(1), F.S.

b. The Department may unilaterally terminate the Agreement if Grantee refuses to allow public access to Public Records as required by law.

2. **Additional Public Records Duties of Section 119.0701, F.S., If Applicable.**
For the purposes of this paragraph, the term "contract" means the "Agreement." If Grantee is a "contractor" as defined in section 119.0701(1)(a), F.S., the following provisions apply and the contractor shall:

a. Keep and maintain Public Records required by Department to perform the service.

b. Upon request, provide Department with a copy of requested Public Records or allow the Public Records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, F.S., or as otherwise provided by law.

c. A contractor who fails to provide the Public Records to Department within a reasonable time may be subject to penalties under section 119.10, F.S.

d. Ensure that Public Records that are exempt or confidential and exempt from Public Records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the contractor does not transfer the Public Records to Department.

e. Upon completion of the contract, transfer, at no cost, to Department all Public Records in possession of the contractor or keep and maintain Public Records required by Department to perform the service. If the contractor transfers all Public Records to Department upon completion of the contract, the contractor shall destroy any duplicate Public Records that are exempt or confidential and exempt from Public Records disclosure requirements. If the contractor keeps and maintains Public Records upon completion of the contract, the contractor shall meet all applicable requirements for retaining Public Records. All Public Records stored electronically must be provided to Department, upon request from Department's custodian of Public Records, in a format specified by Department as compatible with the information technology systems of Department. These formatting requirements are satisfied by using the data formats as authorized in the contract or Microsoft Word, Outlook, Adobe, or Excel, and any software formats the contractor is authorized to access.

f. **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, F.S., TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THE CONTRACT, CONTACT THE DEPARTMENT'S CUSTODIAN OF PUBLIC RECORDS AT:**

STATE OF FLORIDA
DEPARTMENT OF ENVIRONMENTAL PROTECTION
Special Audit Requirements
(State and Federal Financial Assistance)

Attachment 5

The administration of resources awarded by the Department of Environmental Protection *(which may be referred to as the "Department", "DEP", "FDEP" or "Grantor", or other name in the agreement*) to the recipient *(which may be referred to as the "Recipient", "Grantee" or other name in the agreement)* may be subject to audits and/or monitoring by the Department of Environmental Protection, as described in this attachment.

MONITORING

In addition to reviews of audits conducted in accordance with 2 CFR Part 200, Subpart F-Audit Requirements, and Section 215.97, F.S., as revised (see "AUDITS" below), monitoring procedures may include, but not be limited to, on-site visits by DEP Department staff, limited scope audits as defined by 2 CFR 200.425, or other procedures. By entering into this Agreement, the recipient agrees to comply and cooperate with any monitoring procedures/processes deemed appropriate by the Department of Environmental Protection. In the event the Department of Environmental Protection determines that a limited scope audit of the recipient is appropriate, the recipient agrees to comply with any additional instructions provided by the Department to the recipient regarding such audit. The recipient further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer (CFO) or Auditor General.

AUDITS

PART I: FEDERALLY FUNDED

This part is applicable if the recipient is a State or local government or a non-profit organization as defined in 2 CFR §200.330

1. A recipient that expends $1,000,000 or more in Federal awards in its fiscal year, must have a single or program-specific audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F. EXHIBIT 1 to this Attachment indicates Federal funds awarded through the Department of Environmental Protection by this Agreement. In determining the federal awards expended in its fiscal year, the recipient shall consider all sources of federal awards, including federal resources received from the Department of Environmental Protection. The determination of amounts of federal awards expended should be in accordance with the guidelines established in 2 CFR 200.502-503. An audit of the recipient conducted by the Auditor General in accordance with the provisions of 2 CFR Part 200.514 will meet the requirements of this part.

2. For the audit requirements addressed in Part I, paragraph 1, the recipient shall fulfill the requirements relative to auditee responsibilities as provided in 2 CFR 200.508-512.

3. A recipient that expends less than $1,000,000 in federal awards in its fiscal year is not required to have an audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F-Audit Requirements. If the recipient expends less than $1,000,000 in federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of 2 CFR 200, Subpart F-Audit Requirements, the cost of the audit must be paid from non-federal resources (i.e., the cost of such an audit must be paid from recipient resources obtained from non-federal entities).

4. The recipient may access information regarding the Catalog of Federal Domestic Assistance (CFDA) via the internet at https://sam.gov/content/assistance-listings.

PART II: STATE FUNDED

This part is applicable if the recipient is a nonstate entity as defined by Section 215.97(1)(n), Florida Statutes.

1. In the event that the recipient expends a total amount of state financial assistance equal to or in excess of $750,000 in any fiscal year of such recipient (for fiscal years ending June 30, 2017, and thereafter), the recipient must have a State single or project-specific audit for such fiscal year in accordance with Section 215.97, F.S.; Rule Chapter 69I-5, F.A.C., State Financial Assistance; and the current Rules of the Auditor General. EXHIBIT 1 to this form lists the state financial assistance awarded through the Department of Environmental Protection by this agreement. In determining the state financial assistance expended in its fiscal year, the recipient shall consider all sources of state financial assistance, including state financial assistance received from the Department of Environmental Protection, other state agencies, and other nonstate entities. State financial assistance does not include federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.

2. In connection with the audit requirements addressed in Part II, paragraph 1; the recipient shall ensure that the audit complies with the requirements of Section 215.97(8), Florida Statutes. This includes submission of a financial reporting package as defined by Section 215.97(2), Florida Statutes, and the current Rules of the Auditor General.

3. If the recipient expends less than $750,000 in state financial assistance in its fiscal year (for fiscal year ending June 30, 2017, and thereafter), an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, is not required. In the event that the recipient expends less than $750,000 in state financial assistance in its fiscal year, and elects to have an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, the cost of the audit must be paid from the non-state entity's resources (i.e., the cost of such an audit must be paid from the recipient's resources obtained from other than State entities).

4. For information regarding the Florida Catalog of State Financial Assistance (CSFA), a recipient should access the Florida Single Audit Act website located at https://apps.fldfs.com/fsaa for assistance. In addition to the above websites, the following websites may be accessed for information: Legislature's Website at http://www.leg.state.fl.us/Welcome/index.cfm, State of Florida's website at http://www.myflorida.com/, Department of Financial Services' Website at https://www.myfloridacfo.com/ and the Auditor General's Website at http://www.myflorida.com/audgen/.

PART III: OTHER AUDIT REQUIREMENTS

(NOTE: This part would be used to specify any additional audit requirements imposed by the State awarding entity that are solely a matter of that State awarding entity's policy (i.e., the audit is not required by Federal or State laws and is not in conflict with other Federal or State audit requirements). Pursuant to Section 215.97(8), Florida Statutes, State agencies may conduct or arrange for audits of State financial assistance that are in addition to audits conducted in accordance with Section 215.97, Florida Statutes. In such an event, the State awarding agency must arrange for funding the full cost of such additional audits.)

MEMORANDUM

DATE: August 19th, 2025

TO: Honorable Mayor and Councilmembers

FROM: Steven C. Williamson, Village Manager

RE: Continuing Geotechnical and Survey Services Contract

RECOMMENDATION

Request the Village Council authorizes the Village Manager to enter into contracts with KCI Technologies Inc., Colliers Engineering & Design Inc., and Longitude Surveyors LLC for the provision of continuing geotechnical and survey services. The agreement will be for an initial three (3) year term with three (3) optional one-year extensions.

DISCUSSION

Purpose: This contract establishes a pool of qualified consultants to support Village infrastructure and public works projects requiring geotechnical and surveying expertise. These services will be used on an as-needed basis and are essential to planning, design, and construction oversight.

Background: The Village issued RFQ No. 2025-11 on April 2, 2025, soliciting qualifications from firms capable of providing geotechnical and survey support. Nine proposals were received and reviewed by an Evaluation Committee composed of Village department leaders. After a two-step evaluation process including qualifications review and presentations, the top three firms were selected based on overall scoring and alignment with the Village's needs.

Justification: Selected Firms and Qualifications:

- KCI Technologies Inc. – 70 years of experience; ranked highest by the Committee.
- Colliers Engineering & Design Inc. – 40 years of experience; strong organizational profile and project approach.
- Longitude Surveyors LLC – 21 years of experience; solid performance and technical capabilities.

All selected firms demonstrated compliance with licensure requirements, depth of experience, and access to necessary testing and mapping technologies, including GIS integration.

Implementation/Integration Plan: Upon Council approval, the Village will execute agreements with each of the selected firms. Task orders will be issued through the Public Works Department

on a project-specific basis. These firms will support ongoing and upcoming CIP and operational initiatives.

RESOURCE IMPACT

Recurring Funding: Operational and Capital Budgets (project dependent)

Personnel: No new personnel required

Equipment: No new Village equipment required

Facilities: Not applicable

- **Budget Line-Item**: HVAC Maintenance / Capital Projects
- **Amount**: Varies by task and scope of services
- **Maintenance & Repair:** Covered by Facilities operating budget
- **Replacement Units:** Funded through Capital Improvements Program

STRATEGIC CONNECTION (GOAL / FOCUS AREA)

Supports the Village's Strategic Focus Areas of Resilient Infrastructure, Operational Excellence, and Proactive Asset Management by ensuring timely access to essential technical expertise needed for the maintenance and improvement of Village facilities and systems.

Jennifer Rodero – Chief of Staff
Christopher Miranda – Public Works Director

FROM: Daren Jairam, Procurement Officer

RE: Procurement Recommendation to Award for RFQ No. 2025-11 – Continuing Geotechnical and Survey Services

RECOMMENDATION

It is recommended the Village Manager negotiate an agreement with **KCI Technologies Inc., Colliers Engineering & Design Inc., and Longitude Surveyors LLC.** the three highest ranked proposals, for Continuing Geotechnical and Survey Services. The proposed agreement will be for a three (3) year term with three (3) optional one-year extensions.

BACKGROUND

In accordance with government procurement best practices, and as part of a larger effort to ensure best value and promote fair and open competition for Village contracts, the decision was made to go out to market for these services.

The Village issued an RFQ (Request for Qualifications) on April 02, 2025. The RFQ was posted to the Village's website and Notice Board, DemandStar and Miami Herald. A non-mandatory pre-conference meeting was held for interested vendors where a bid summary was given.

The RFQ allows potential vendors to submit their best proposal based on specified deliverables, qualifications, experience, and capabilities. Vendors are then ranked to allow the Village the opportunity to negotiate the best and final offer with the highest ranked vendor.

SCOPE OF WORK

The Village intends to select qualified firms to provide geotechnical and survey services. The firms will assist the Village in various public works and infrastructure projects within the Village of Key Biscayne. The selected consultant will provide technical expertise in soil, foundation, and subsurface investigations to support planning, design, and construction activities in full accordance with the specifications, terms and conditions contained in Section 2 of the Request for Qualifications (RFQ).

To qualify for award, prospective Proposers were required to:

A. Meet the objectives set in the RFQ Scope of Services.
B. Licensed professional engineers with geotechnical expertise and surveyors.
C. Have at least five years' experience.

D. Access to certified laboratories for testing and ability to provide digital mapping and GIS integration.
E. Must be appropriately licensed and in good standing with the Florida Department of Professional Regulation.

EVALUATION AND RANKING PROCESS

On May 20, 2025, nine (9) proposals were received from the following firms:

No.	Proposer	Years Experience	
1.	Ardaman & Associates Inc.	66	
2.	Colliers Engineering & Design Inc.	40	
3	KCI Technologies Inc.	70	
4.	Longitude Surveyors LLC.	21	
5.	NOVA Engineering & Environmental LLC.	28	
6.	Premiere Design Solutions Inc.	17	
7.	Professional Service Industries Inc.	40	
8.	Radise International LLC.	27	
9.	WSB LLC.	30	

The Evaluation Committee comprises the following individuals:

1. Colleen Durfee, CIP and Grants Manager
2. Jeremy Calleros Gauger, BZP Director
3. Roland Samimy, Chief Resilience and Sustainability Officer
4. Saivy Nasser, VKB Engineer
5. Todd Hofferberth, PROS Director

Procurement conducted a thorough due diligence review of the proposals and determined that the nine proposals were deemed responsive, with no material defects identified in the proposals or the qualifications of the proposers. Each proposer is properly licensed and qualified to perform the work, has provided the required certifications and references, and no issues were found indicating that any of the responsive proposers would be incapable of delivering the services.

The Evaluation Committee received the proposals and held its initial meeting on June 24, 2025, to review, discuss, hear presentations, and evaluate the submissions. After thorough discussion, the Committee initially agreed to shortlist four (4) proposals.

NEGOTIATION PROCEESS

On July 22, 2025, the committee members reviewed the negotiated rates of KCI Technologies Inc., Colliers Engineering & Design Inc., and Longitude Surveyors LLC.

RECOMMENDATION

The Evaluation Committee recommends that the Village Manager approve the proposed hourly rate package and proceed with executing a contract—substantially in the form attached as Exhibit A—with **KCI Technologies Inc., Colliers Engineering & Design Inc., and Longitude Surveyors LLC.**

In the event an agreement cannot be reached with any of the top-ranked Proposers, it is further recommended that the Village Manager terminate negotiations with that firm and proceed with negotiations with the next highest-ranked Proposers until an agreement can be reached.

Public Entity Crimes Affidavit

I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentations.

I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime; or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, and partners, shareholders, employees, members, and agents who are active in management of an entity.

Based on information and belief, the statement, which I have marked below, is true in relations to the entity submitting this sworn statement.

(INDICATE WHICH STATEMENT APPLIES.)

[X] Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with ad convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives partners, shareholders, employees, members, or agents who are active in the management of the entity,

or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida , Division of Administrative Hearings and the final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list (attach a copy of the final order).

I understand that the submission of this form to the contracting officer for the public entity identified in paragraph 1 above is for that public entity only and that this form is valid through December 31 of the calendar year in which it is filed. I also understand that I am required to inform the public entity prior to entering into a contract in excess of the threshold amount provided in Section 287.017, Florida Statutes for category two of any change in the information contained in this form.

Business Entity Affidavit

Proposer hereby recognizes and certifies that no elected official, board member, or employee of the Village of Key Biscayne (the " Village") shall have a financial interest directly or indirectly in this transaction or any compensation to be paid under or through this transaction, and further, that no Village employee, nor any elected or appointed officer (including Village board members) of the Village, nor any spouse, parent or child of such employee or elected or appointed officer of the Village, may be a partner, officer, director or proprietor of Proposer or Vendor, and further, that no such Village employee or elected or appointed officer, or the spouse, parent or child of any of them, alone or in combination, may have a material interest in the Vendor or Proposer. Material interest means direct or indirect ownership of more than 5% of the total assets or capital stock of the Proposer. Any exception to these above-described

restrictions must be expressly provided by applicable law or ordinance and be confirmed in writing by Village. Further, Proposer recognizes that with respect to this transaction or bid, if any Proposer violates or is a party to a violation of the ethics ordinances or rules of the Village, the provisions of Miami-Dade County Code Section 2-11.1, as applicable to Village, or the provisions of Chapter 112, part III, Fla. Stat., the Code of Ethics for Public Officers and Employees, such Proposer may be disqualified from furnishing the goods or services for which the bid or proposal is submitted and may be further disqualified from submitting any future bids or proposals for goods or services to Village.

Scrutinized Company Certification

1. Proposer certifies that it and its subcontractors are not on the Scrutinized Companies that Boycott Israel List. Pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer or its subcontractors are found to have submitted a false certification; or if the Proposer, or its subcontractors are placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
2. If the Agreement that may result from this ITB is for more than one million dollars, the Proposer certifies that it and its subcontractors are also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer, its affiliates, or its subcontractors are found to have submitted a false certification; or if the Proposer, its affiliates, or its subcontractors are placed on the Scrutinized

Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

3. The Proposer agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under the Agreement that may result from this ITB. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize the above-stated contracting prohibitions then they shall become inoperative.

DRUG FREE WORKPLACE

The undersigned proposer in accordance with Chapter 287.087, Florida Statutes, hereby certifies that KCI Technologies, Inc. does:

(Name of proposer)

1. Publish a statement notifying employees that the unlawful manufacturing, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the contractual services described in the RFQ document a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the contractual services described in the RFQ or the Agreement, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

7. As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

3. My name is: James Gellenthin
(print name of individual signing this document)

and my relationship to the entity is: Vice President

4. I understand that a "public entity crime" as defined in §287.133(1)(g), Florida Statutes means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United states, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

5. I understand that a "convicted" or "conviction" as defined in §287.133(1)(b), Florida Statutes, means a finding of guilt of a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

6. I understand that an "affiliate" as defined in §287.133(1)(a), Florida Statutes means:

(a) A predecessor or successor of a person or a corporation convicted of a public entity crime; or

(b) An entity under the control of any natural person who is active in the

management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, share holders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima-facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

7. I understand that a "person" as defined in §287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which binds or applies to bids on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

8. Based on the information and belief, the statement that I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies)

   a. __X__Neither the entity submitting the sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity nor any affiliate of the entity have been charged with and convicted of a public entity crime subsequent to July 1, 1989.

   b. ____The entity submitting this sworn statement, or one or more of the officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989 and (Please indicate which additional statement applies)

      1) ____There has been a proceeding concerning the conviction before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. (Please attach a copy of the final order)

      2) ____The person or affiliate was placed on the convicted list. There has been a subsequent proceeding before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or affiliate from the convicted vendor list. Explanation for question number 2:

To date, KCI has knowledge of three circumstances in which our contract was terminated for convenience. One contract was terminated because the owner's right-of-way (ROW) requirements did not align with the design requirements. The owner and KCI separated without formal dispute, and the owner proceeded with the project with a different consultant. A second contract was terminated shortly after KCI acquired a firm in litigation. The last known instance of contract termination occurred when the owner discontinued the project due to changes in Federal regulations related to compliance with the Clean Water Act, which required additional work that would increase both design and construction costs.

Re: Request for Qualifications Continuing Geotechnical and Survey Services, RFQ # 2025-11

Dear Selection Committee,

KCI Technologies, Inc. (KCI) is pleased to submit our qualifications to the Village of Key Biscayne (Village) for Continuing Geotechnical and Survey Services. As a multidisciplinary engineering, consulting, and construction firm founded in 1955 and with over 55 years in Florida, KCI offers deep experience in Florida's municipal landscape and a client-first approach to every assignment. Our Miami office, located at 5835 Waterford District Drive, will serve as the primary hub for this contract, supported by a statewide team spanning eight additional Florida locations and approximately 150 Surveying and Subsurface Utility Engineering (SUE) staff across the Southeastern United States.

KCI is a 100-percent employee-owned firm with approximately 2,300 employee-owners operating out of more than 70+ offices in 19 states and the District of Columbia. With revenues of approximately $512 million in 2024, KCI has consistently been ranked among the top consulting engineering firms in the United States by *Engineering News-Record*. This national strength, combined with local familiarity and substantial resources, positions KCI to deliver the responsive, high-quality services the Village requires.

KCI will serve as the prime provider of surveying services under this contract. Our team brings extensive experience within the Village of Key Biscayne, having provided continuous surveying services over the past five years. Most notably, KCI was commissioned by the Village's Public Works Department to perform a comprehensive mapping of all visible features within the public rights-of-way, covering more than 24 miles of roadway. This effort included the development of a detailed Digital Terrain Model (DTM) and the collection of building facade data along the entire route. To complete this critical assignment, we leveraged cutting-edge technology, deploying both mobile and terrestrial 3D LiDAR scanners and enhancing the dataset with aerial LiDAR acquisition. This advanced approach demonstrates our capability to deliver complex and detailed deliverables on time and to the Village's high standards.

For geotechnical services, KCI has partnered with two highly qualified Miami-Dade County minority-owned subconsultants: AREHNA Engineering, Inc., and GCME, Inc.

- AREHNA Engineering, Inc. provides innovative and comprehensive geotechnical and structural forensic engineering, as well as full-service materials testing and inspection services throughout the State of Florida. Founded on the principles of quality service, technical expertise, responsiveness, and value, AREHNA brings an experienced staff of engineers who work closely with clients and project teams to deliver cost-effective, practical solutions tailored to each project's unique challenges.
- GCME, Inc. is a full-service State/FDOT/County certified SBE/DBE geotechnical engineering company, established in Florida in 2001. GCME has completed more than 300 public sector projects, including several projects for the Village as a subconsultant to KCI under our current Continuing Service Contract. GCME's depth of knowledge and extensive public sector experience. See below suggestions for technically sound and highly reliable geotechnical support for every assignment.

Together, KCI's internal resources, supplemented by the expertise of AREHNA and GCME, create a robust, responsive, and highly qualified team ready to support the Village's ongoing infrastructure initiatives. Our combined capabilities confirm that surveying and geotechnical services are delivered seamlessly, efficiently, and to the highest standards of technical excellence.

KCI fully understands the Village of Key Biscayne's commitment to maintaining resilient, sustainable, and high-quality infrastructure within a dynamic coastal environment. Our team applies rigorous quality assurance and quality control (QA/QC) protocols across all phases of our projects, from field investigations through deliverable preparation, ensuring precision, regulatory compliance, and stakeholder confidence. We also recognize the importance of maintaining schedule adherence and providing responsive communication to Village staff.

We believe that KCI is the most qualified team for this contract because of:

- Extensive Local Experience: Our proven history of service to the Village and deep familiarity with its infrastructure and operational expectations.
- Technical Excellence and Innovation: Application of advanced survey technologies, including 3D terrestrial, mobile, and aerial LiDAR, along with geotechnical expertise spanning forensic, public works, and transportation projects.
- Strong and Diverse Team Resources: A large internal team complemented by two minority-owned firms with exceptional geotechnical credentials.
- Commitment to Client Service: A steadfast focus on responsiveness, quality, and exceeding client expectations.
- KCI is excited about the opportunity to continue serving the Village of Key Biscayne. We are committed to delivering services that uphold the Village's standards of excellence, support its resiliency goals, and contribute to the community's continued success.

Sincerely,

James Gellenthin, PSM
Vice President

4. Deliverables, Tasks, and Activities

KCI Technologies, Inc. (KCI), along with our qualified subconsultants AREHNA Engineering, Inc., and GCME, Inc., will provide all deliverables, tasks, and activities as outlined in the Village's Scope of Services for Continuing Geotechnical and Survey Services. Our approach ensures that deliverables are completed accurately, on schedule, and in full compliance with the Village's technical standards and quality expectations.

Geotechnical Services Deliverables:

- **Preliminary Geotechnical Report:** KCI's geotechnical team, led by our subconsultants AREHNA and GCME, will prepare a Preliminary Geotechnical Report summarizing initial site findings, exploration methods, field observations, and preliminary engineering recommendations. This report will help inform early project design decisions and identify any critical geotechnical considerations.
- **Final Geotechnical Report:** Following any necessary design refinements or additional investigations, a Final Geotechnical Report will be developed. This report will include a detailed analysis of subsurface conditions, laboratory testing results, engineering evaluation of foundation and pavement recommendations, groundwater conditions, and construction considerations. The report will be certified by a licensed Professional Engineer registered in the State of Florida.
- **Boring Logs, Laboratory Test Results, and Site Investigation Data:** Complete boring logs with stratigraphic profiles, groundwater readings, Standard Penetration Test (SPT) data, and recovery rates will be provided. Laboratory test results for soil classification, strength, and other parameters will accompany the final documentation. All field and laboratory data will be clearly referenced and included as supporting documentation.

Surveying Services Deliverables

- **Certified Survey Maps and Plats:** KCI's surveying team will prepare certified maps and plats to meet the Village's requirements, including adherence to Florida Administrative Code (FAC) Chapter 5J-17 standards and other applicable municipal and regulatory guidelines. Surveys will clearly depict property boundaries, rights-of-way, easements, improvements, and topographic features as required.
- **Legal Descriptions and Supporting Documentation:** When needed for property acquisitions, easements, or dedications, KCI will prepare accurate legal descriptions and accompanying sketches, supported by certified survey data and boundary analysis. Supporting documentation, such as closure reports, will be included to validate all legal deliverables.
- **CAD and GIS Files in Compatible Formats:** KCI will provide CAD files prepared in AutoCAD Civil 3D format and GIS deliverables compatible with the Village's current systems. Metadata and coordinate system information will be included to confirm full usability and integration into the Village's asset management or design platforms.
- **Field Notes, Control Points, and Data Reports:** KCI will maintain detailed field notes documenting survey methodologies, instrument setups, and site conditions. Horizontal and vertical control points established for the project will be fully documented and tied to the appropriate datums (NAVD88/NAD83). A comprehensive data report summarizing field activities, control establishment, and data verification procedures will accompany all major deliverables.

Tasks and Activities to Achieve Deliverables

- Conduct site-specific project planning to determine exploration and survey needs.
- Perform field investigations, including soil borings, in-situ testing, and GPS/GNSS surveys.
- Execute laboratory testing for geotechnical parameters.
- Perform topographic, boundary, right-of-way, and construction surveys.
- Prepare preliminary reports, maps, and datasets for review and comment.
- Finalize and confirm all deliverables based on Village review feedback.
- Maintain ongoing communication with Village staff regarding progress and any unforeseen site issues.
- Implement internal quality control and quality assurance reviews prior to submission.

Through this structured approach, KCI and our team are committed to delivering precise, high-quality geotechnical and surveying deliverables that support the Village's infrastructure initiatives and project success.

TAB C – QUALIFICATIONS AND EXPERIENCE

KCI

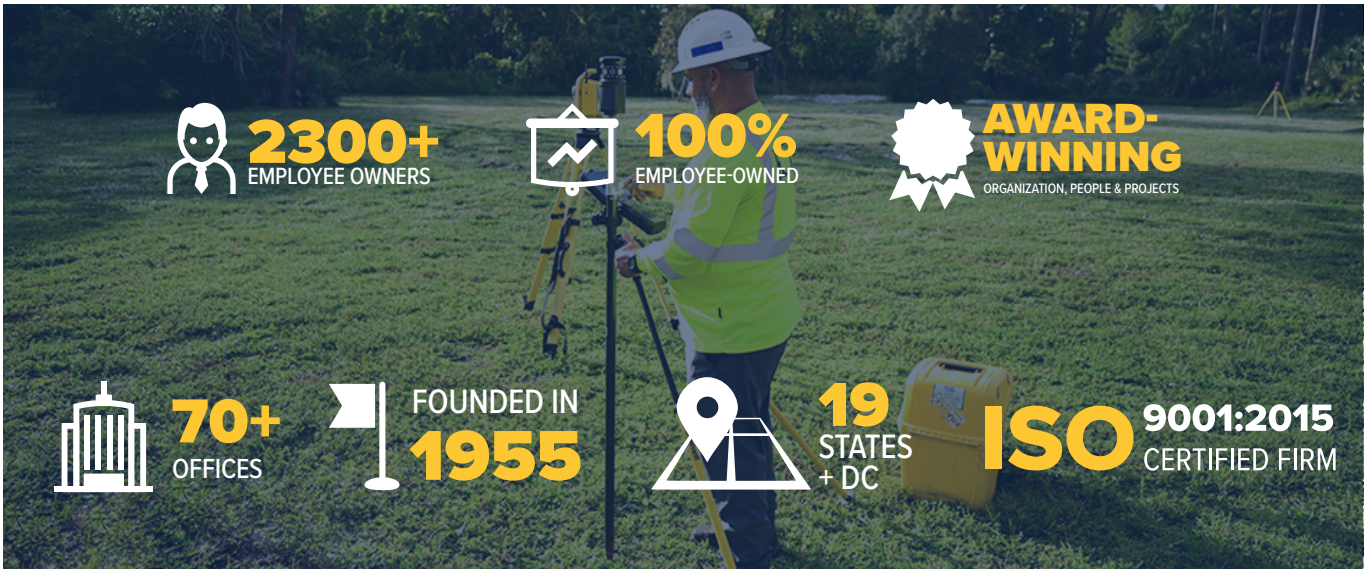
1. Qualifications

KCI is a 100% employee-owned, sub-chapter S corporation incorporated in the state of Delaware. The firm's history can be traced to a small firm operating out of the basement of the co-founder's home in 1955. By its second year, the company took up residence in a proper facility, only to change locations several times over the next decade in a succession of moves that paralleled its growth. Since 1991, KCI Technologies, Inc. has been operating with a workforce of over 2,300 employee-owners across more than 70 offices in 19+ states, as well as the District of Columbia. With revenues of approximately $512 million in 2024, the *Engineering News-Record* consistently places KCI among the top consulting engineering firms in the country.

1a. Qualification of the Firm

With over 70 years of experience serving municipalities and 55 years in Florida, KCI is a premier, full-service engineering and consulting company. Our team offers extensive multidisciplinary expertise in engineering, land surveying, mapping, and landscape architecture.

KCI is equipped to provide state and local government agencies with services that maintain public works facilities, enhance multi-modal transportation methods, design parks and recreational assets, and preserve our natural environment. We support the daily operations of state and local governments by implementing innovative technology solutions. The KCI team is proud to have partnered with numerous municipalities across Florida, establishing a robust history of successful collaborations. Our commitment to excellence has fostered strong relationships, and we are pleased to highlight our recent clients, showcasing our dedication to serving communities effectively.



1b. Qualification of Staff

KCI's office staff, subconsultant, and field crews have the technical ability to perform all tasks within the provided scope of services while adhering to the Florida requirements codes. Our bank of resources includes our qualified and experienced subconsultant with a proven track record of success with advanced geotechnical techniques. For this contract, **AREHNA**, a certified (CBE) Certified Business Enterprise with Broward County, a Certified State of Florida Minority Business Enterprise (MBE), and Disadvantage Business Enterprise, and FDOT Disadvantage Business Enterprise (DBE) that provides innovative and comprehensive geotechnical and materials testing and inspection services throughout the State of Florida. Additionally, to support geotechnical efforts, we have **GCME**, a full-service State/FDOT/County certified (SBE/DBE) geotechnical engineering company, which has successfully provided geotechnical services to the Village.

The Village stands to gain significantly from the efficient and high-quality results of our shared efforts. With a clear understanding of achieving our common goals, we have eliminated any obstacles arising from communication or procedures, which has resulted in a smooth and productive working relationship. This enduring partnership has cultivated a strong commitment to collaboration, enabling us to work seamlessly together.

BENJAMIN HOYLE, PSM
Contract Manager

Benjamin Hoyle, PSM, will serve as the Contract Manager for this contract. A South Florida native and University of Central Florida graduate with a Bachelor of Science in Engineering Technology, Mr. Hoyle has over 25 years of experience in Surveying and Mapping across Florida. He began his career in 2000, advancing from a rod person to Field Crew Supervisor at Keith & Schnars, where he obtained his Professional Surveyor and Mapper License in 2009. Mr. Hoyle has also earned OSHA30 safety training, CSX Railroad training, and First Aid/CPR certifications, and is an active member of the National Society of Professional Surveyors (NSPS) and the Florida Surveying and Mapping Society (FSMS), where he serves as the Broward County Chapter President. Currently, he holds the role of Survey Practice Leader for KCI and has led significant projects like the Village of Key Biscayne's Stormwater Drainage and Master Island Survey, overseeing the mapping of over 24 miles of roadway using advanced 3D LiDAR technology. His extensive knowledge of Florida's subtropical environment and professional integrity are essential to KCI's commitment to supporting community initiatives.

JAMES GELLENTHIN, PSM
QA/QC Manager

James "Jim" Gellenthin, PSM, will be responsible for overseeing the QA/QC for this contract. As a third-generation surveyor, spending early childhood family time as a rear chainman, pulling chains and collecting pins with his brothers. Mr. Gellenthin took those skills learned to KCI and led the effort to open the first KCI Survey Florida office located in Tampa in 1997. Jim has proudly and successfully mentored incoming survey talent from field to finish. Serving as Chief of Surveys, he takes great pride in making sure all our surveying and mapping products are delivered with the utmost quality. With extensive experience in supervising surveys for military, federal, state, municipal, and private clients, he possesses a wide range of expertise to manage the QA/QC for this County project.

NEWTON MENDONCA, PSM
Project Surveyor

With over 25 years of hands-on experience in land surveying across Florida and Brazil, coupled with a Bachelor of Science degree in Surveying Engineering, Project Surveyor, Newton Mendonca, PSM, brings a wealth of expertise to the table. His professional journey encompasses a diverse range of specialties, including roadway design surveys, right-of-way control mapping, boundary and topographic surveys, tunnel surveys, construction layout, geodetic control surveys, ALTA/NSPS surveys, canal cross-section surveying, hydrographic surveys, bathymetric surveys, as-built surveys, and 3D modeling. This breadth of knowledge extends to both public and private sectors, as well as utility surveying, showcasing his versatility and proficiency in the field.

MAX GEORGE, PSM
Project Surveyor

Max George is a skilled Project Surveyor specializing in survey and mapping, with extensive experience in personnel and project management. His expertise covers a broad range of surveying services, including ALTA, topographic, and boundary surveys, supporting site development on rural properties over

400 acres and urban lots in major metropolitan areas. He is a Florida Licensed Surveyor and Mapper (PSM) and Certified Floodplain Manager (CFM) with specialized experience in FEMA flood mapping, elevation certifications, and Base Flood Elevation (BFE) determinations. His dual credentials ensure the Village of Key Biscayne receives accurate, regulation-compliant survey data to support ongoing stormwater infrastructure improvements, enhance flood resilience, and guide responsible development within vulnerable coastal zones.

ALEKSANDR BRIDWELL
Survey Technician/LiDAR Specialist

Aleksandr Bridwell will serve as Survey Technician/LiDAR Specialist. Mr. Bridwell received a Bachelor of Science in Geomatics from Florida Atlantic University and is a certified remote pilot. He has extensive experience throughout the state, including the preparation of easements via sketch and legal description, ALTA/NSPS surveys, boundary surveys, construction layout, topographic surveys, bathymetric surveys, as-built surveys, 3D modeling, LiDAR scanning, and UAS flights

CHRIS WIDMER
Survey Technician/LiDAR Specialist

Chris Widmer will be the senior LiDAR Specialist for this contract. Mr. Widmer has 18 years of experience in 3D laser scanning and managing 3D laser scanning crews. Chris oversees all cloud registrations and evaluates each project to assemble a scanning plan with production in the field as a priority to streamline and complete the projects in the least amount of time and within budget.

RICHARD DUBAJ
SUE Supervisor

Richard Dubaj will be leading KCI's SUE efforts during this contract. He offers utility mapping services across different quality tiers, adhering to ASCE's Standard Guidelines CI/ASCE 38-02. His duties span utility condition assessment, conveying utility data to relevant stakeholders, and executing utility accommodation policies. Additionally, he oversees record research, supervises field crews, develops project sketches, and scrutinizes final CADD drawings, ensuring comprehensive quality control across various facets of the project.

BRENT REEVES
GIS Technician

GIS tasks will be overseen by Brent Reeves, a Senior Project Manager in KCI's Technology and Innovation Market. His primary responsibilities are to manage and provide support for data compilation projects, manage a team of GIS and subject matter experts to complete data collection and provide mapping, particularly for storm drain and stormwater management inventory and inspection tasks, floodplain geodatabase development, developing and managing stormwater databases, mapping, and inventory for SWPPPs, and providing support to Phase I and Phase II NPDES MS4 permit holders.

BENJAMIN KOUBEK, ISA, FNGLA, LIAF
Arborist

Benjamin Koubek, ISA, FNGLA, LIAF, will be the arborist for this contract. Mr. Koubek has broad and unique experience in the municipal, utility, and commercial tree care industries. He is one of only a handful of Certified Arborists in Florida, and he holds the ISA Municipal Specialist and Utility Specialist Certification.

ANGELA ALBA, PE
Chief Geotechnical Engineer

Ms. Alba has provided geotechnical engineering services on numerous geotechnical explorations over the past 26 years, including serving as the Geotechnical Discipline Lead for the I-595 Corridor Improvement project in Broward County, Florida, which was the first Public Private Partnership project ever awarded by FDOT. Ms. Alba has been involved in the planning, analysis, execution, and review of geotechnical projects to determine soil and rock properties for use in the design of foundations for projects ranging from roadway and railways to complex roadway bridge and tunnel projects to commercial high-rise buildings, school projects, and other local municipality projects. Ms. Alba has performed evaluations for retaining walls, shallow foundations, driven piles, drilled shafts, augercast piles, micropiles, and pressure-injected footings. Ms. Alba's experience has also included finite element analysis, slope stability evaluations, soil nail wall design, evaluation of geosynthetics applications, and geotechnical ground improvement techniques. She has served as part of a team with KCI survey on Village projects in the Garden Disctrict and on several current Broward County Projects.

PARTHA GHOSH, PE
Chief Support Geotechnical Engineer

Mr. Ghosh is a registered Professional Engineer in the State of Florida, with over 32 years of comprehensive experience working with the Village of Key Biscayne, FDOT Districts (specifically South Florida), and Florida's Turnpike Enterprise (FTE) in Geotechnical and Materials Engineering. He has served as the Senior Engineer/Project Manager and Geotechnical Engineer of Record for more than 350 major FDOT/FTE and other public sector projects in South Florida. His extensive experience includes conducting field and in-house investigations for roadway and bridge foundations, quality control and assurance of construction engineering inspections, and utilizing the Standard Index System. He has also prepared geotechnical reports for major FDOT Highway and Bridge projects.

1c. Industry Knowledge and Expertise

KCI is actively implementing the essential practices to fulfill this on-call contract successfully. Our team has the experience to manage any surveying and mapping project, consistently meets all expectations, and achieves successful completion within any required timeframe, even while handling multiple assignments simultaneously.

We have participated in a diverse range of projects across Florida, from large-scale construction under-takings valued at over $200 million to smaller initiatives, including culvert replacements, pavement rehabilitation, and the design of bicycle and pedestrian facilities.

We take pride in our adaptability and responsiveness to our clients' needs. The KCI team remains flexible in customizing our approach to meet both technical and non-technical requirements. We can quickly adjust our strategies when conditions change and can leverage our extensive resources to honor any scheduling commitments. Our staff's commitment to utilizing state-of-the-art surveying and mapping technology and practices has enabled KCI to stand out as a provider of exceptional and impactful solutions.

Our team utilizes advanced surveying technologies such as:

- Global Positioning System (GPS) Receivers
- Data Collectors
- Robotic Total Stations
- Digital Levels
- Photogrammetry
- Terrestrial LiDAR 3D Scanners
- Hydrographic Surveys
- SUE Designating Equipment
- SUE Data Collection Equipment
- SUE Locating Equipment
- Ground Penetrating Radar

1d. Project Management and Special Services pertinent to this Solicitation; and Past Performance

KCI Technologies, Inc. brings unmatched familiarity with the Village of Key Biscayne's infrastructure, regulatory environment, and resilience goals. As the Village's prime contractor for extensive topographic and utility mapping along over 24 miles of roadway, our team has developed an intimate understanding of the local conditions, permitting challenges, and community priorities. This prior experience includes preparing and submitting data products that aligned with the Village's standards and coordinating with multiple Village departments, including Public Works, Parks, Building, and Resilience.

Our team includes Florida-licensed professional surveyors, mappers, and certified floodplain managers uniquely qualified to address the village's ongoing stormwater and sea level adaptation initiatives. We are well-versed in South Florida's regulatory environment, including permitting support for agencies such as DERM and Miami-Dade County, and we maintain a proven track record of delivering accurate, QA/QC-verified geospatial data that supports infrastructure planning, grant compliance, and capital project execution.

KCI also brings extensive experience collaborating with leading geotechnical engineering subconsultants, including those previously engaged in Village and South Florida projects. These partnerships have yielded seamless integration between subsurface investigations and surface data collection, enhancing our ability to deliver complete, high-quality datasets that support informed design and permitting decisions. Our subconsultants are not only familiar with coastal conditions and fill profiles unique to barrier island environments but also understand the Village's expectations for responsiveness, documentation, and QA/QC.

Through this continued engagement, KCI has developed institutional knowledge that allows us to operate efficiently within the Village's workflows, minimize onboarding time, and offer innovative, scalable, dependable, and technically sound services that align with local priorities and the demands of coastal municipal infrastructure projects.

Project Management

Mr. Benjamin Hoyle has a distinguished career in providing comprehensive surveying and mapping services to municipalities across South Florida. His roles have spanned Senior Surveyor, Project Manager, and QA/QC Manager, each of which has sharpened his expertise in managing complex projects. Mr. Hoyle's skill in team coordination is demonstrated by his ability to synchronize efforts among various stakeholders, including clients, survey staff, and the public, fostering smooth communication and project alignment.

In his capacity as Project Manager, Mr. Hoyle has demonstrated exceptional proficiency in maintaining real-time awareness of project status, facilitating transparent and proactive updates to clients. This has been instrumental in promoting trust and making sure that client expectations are consistently met or surpassed. For instance, during a large-scale municipal mapping project, Mr. Hoyle effectively

coordinated with survey teams to gather precise data while simultaneously liaising with municipal officials to address regulatory requirements and community concerns.

As Contract Manager, Mr. Hoyle has and will continue to implement rigorous quality assurance protocols with James Gellenthin (QA/QC Manger), who will make certain all deliverables meet the highest standards of accuracy and reliability. His commitment to continuous improvement is evident in his proactive approach to identifying and implementing efficiencies in project delivery. This includes leveraging advanced technologies and methodologies to streamline workflows and enhance productivity.

Mr. Hoyle's extensive experience in project management, coupled with his proven capabilities in client and team coordination, uniquely qualifies him as our project/contract manager. His dedication to addressing current project needs, while consistently seeking innovative solutions to optimize project outcomes, underscores his value to our organization.

Special Services

SUBSURFACE UTILITY ENGINEERING (SUE/SUI)

The accurate detection of underground infrastructure, such as utilities and anomalies like sinkholes, remains a critical challenge in design and construction projects globally. Misidentified or unmapped utilities can pose serious risks to workers and the public, leading to project delays and increased costs.

KCI's Subsurface Utility Engineering (SUE) division specializes in precise mapping of existing underground utilities, helping to prevent conflicts and construction delays. Our team, comprised of SUE professionals, engineers, and surveyors, employs advanced technologies and adheres to CI/ASCE 38-02 guidelines to deliver cost-effective solutions.

KCI's SUE services include:

- Utility Quality Level A (QL-A): Precise horizontal and vertical location of utilities through minimally intrusive excavation techniques, achieving vertical accuracy of 0.5 inches (15mm).
- Utility Quality Level B (QL-B): Identification of the approximate horizontal position of subsurface utilities using surface geophysical methods and documenting this information for project plans.
- Utility Quality Level C (QL-C): Data collected from visible above-ground features combined with professional judgment to correlate with other utility information.

ARBORIST SERVICES

KCI's arborists and horticulturalists aid communities in the assessment of existing trees, diagnosis of potential issues, and recommendations for proposed plantings or tree removal. Through their services, they help preserve healthy trees, provide maintenance recommendations, promote safety from trees in decline, recommend suitable plant materials based on site-specific soil, climate, and light conditions, and assist in enhancing the character of the landscapes. Aiding in creating a sustainable, attractive functioning landscape that provides shade and wind protection, promotes biodiversity, attracts pollinators, and minimizes project risks are their objectives.

Contract Number: 2020-04

Term of Engagement: 2022 - 2025

Under the awarded miscellaneous Surveying Services contract awarded to KCI, the Village of Key Biscayne Public Works Department tasked KCI to map all the public right-of-way of over 14 miles of roadway and up to the face of all buildings with road frontage. KCI applied the resources of its mobile and terrestrial 3D LiDAR scanner and supplemented data with aerial LiDAR provided by its subconsultant. KCI set survey control on 24 miles of roadway and mapped it all with the mobile, aerial, and terrestrial LiDAR 3D laser scanners. KCI established the right-of-way along the roadways. As a separate task, KCI established the finished floor elevation of every building in the Village, totaling more than 1,600 structures, and obtained the location and height of over 25,000 trees in the right-of-way. All this data was used by designers, architects, engineers, FEMA, and contractors for stormwater utility and right-of-way improvements.

The Village wanted more surveying services than could be financed within the budget. KCI consulted on the different services and guided the Village in ways to phase the services so the project could move forward while additional funds were gathered to complete the non-critical surveying services. One method employed was to use LiDAR technology to capture all the field data in one mobilization but wait until a further time to extract the data from the field collection until funding was in place. Another solution was to forfeit the task of mapping all underground utilities at the start of the project, wait until a preliminary drainage design was in place, and strategically target the areas needed for underground utility investigation. KCI also proposed phasing the project so the survey data could be used on multiple projects underway within the Village, eliminating the need for supplemental surveys, allowing the Village to save money and keep all improvement projects on schedule.

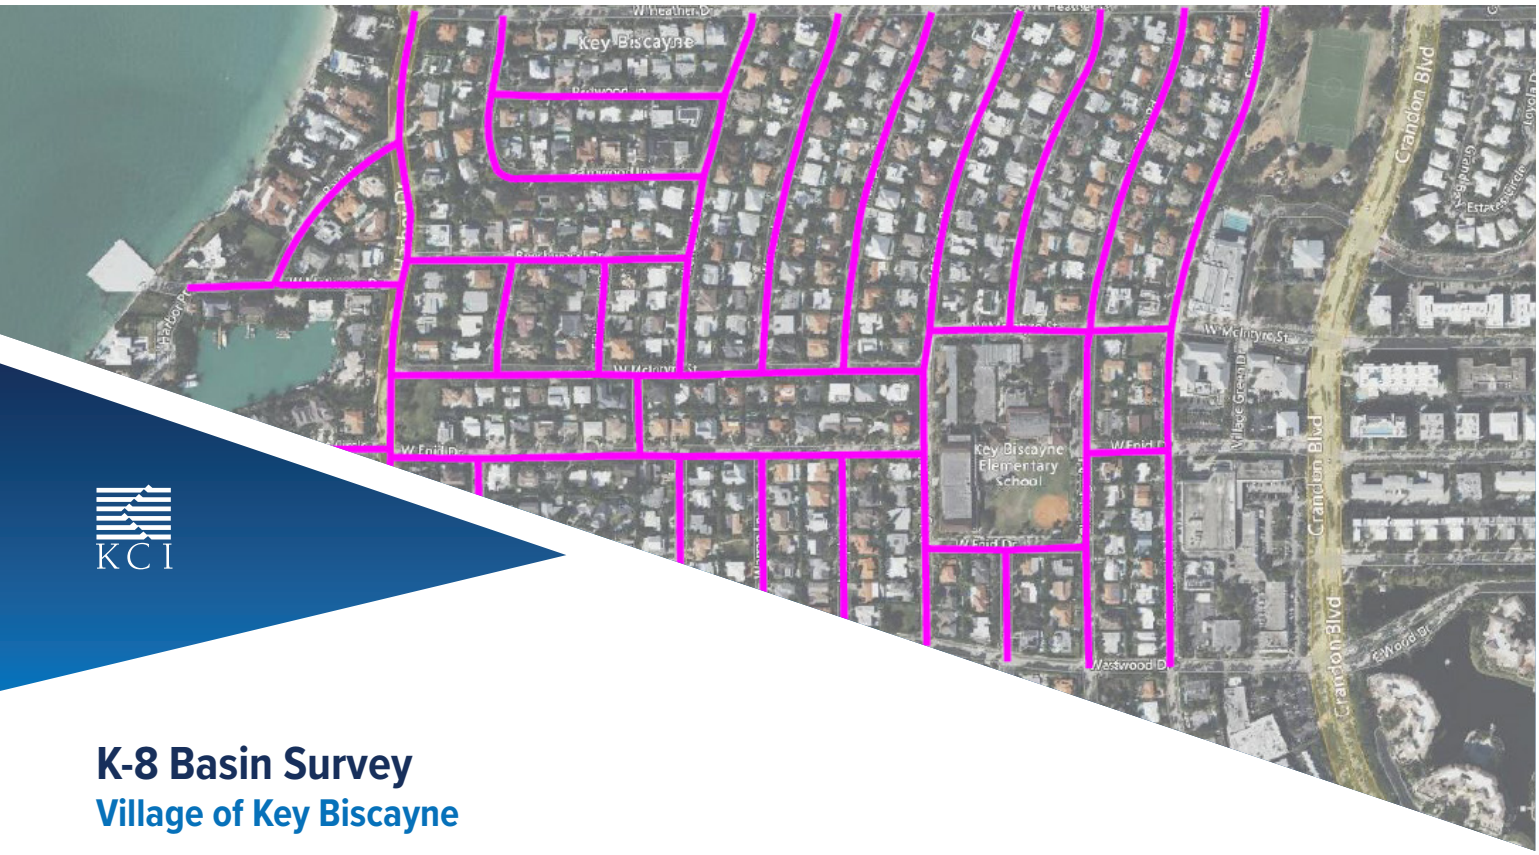
Contract Number: 24-0233

Term of Engagement: 2024 - 2025

KCI provided comprehensive surveying and subsurface utility engineering (SUE) services for the Village of Key Biscayne's Garden District Drainage Improvements, a FEMA HMGP-funded resilience project addressing recurrent flooding across 37.66 acres of high-density residential development. The area, bordered by East Enid Drive, Galen Drive, Sunrise Drive, and Ocean Lane, faces chronic inundation during low to high-intensity storm events, affecting over 1,500 households. The design will protect against a 100-year, 72-hour storm event and align with the Village's Stormwater Master Plan, which is based on a previously prepared survey completed by KCI.

KCI's work supported the design of a new stormwater infrastructure system, including 760 linear feet of 24-inch HDPE conveyance, a new pump station with three injection wells, and rehabilitation of five existing drainage wells. Survey tasks included updating the existing topographic and DTM data for Ocean Drive, East Enid, and Galen Drive using RTK GNSS tied to the Village's control network. KCI verified and extended horizontal and vertical control, delivered topographic, gravity utility as-builts, and conducted Quality Level B SUE designations across all project corridors and Quality Level A SUE utility excavation at utility conflict points selected by the Engineer of Record. Deliverables included a signed/sealed surveyor's report and AutoCAD Civil 3D files on the NAD83/2011 and NAVD88 datums. The design will protect against a 100-year, 72-hour storm event and align with the Village's Stormwater Master Plan, which was completed by KCI.



K-8 Basin Survey

Cost of Services: $457,445

Contract Number: 2020-03

Term of Engagement: 2023 - 2024

The Village of Key Biscayne engaged KCI through AECOM to provide a comprehensive suite of surveying and subsurface utility engineering services to support stormwater and infrastructure planning in the K-8 Basin area. These services helped the Village identify existing above- and below-ground conditions, which in turn informed future design and construction projects to enhance drainage, sea-level resilience, and infrastructure capacity.

KCI conducted detailed boundary and topographic surveys, including the establishment of mean high water (MHW) lines, for several waterfront properties along Harbor Drive, Matheson Drive, Sunset Circle, and Harbor Circle. A supplemental bathymetric survey of a 4.5-acre section of Hurricane Harbor was carried out using a dual-frequency echosounder and RTK GPS to map underwater features in relation to NAVD88.

KCI updated the previous survey base files to include Quality Level C data for sanitary laterals, incorporating cleanout locations and inverted elevations as referenced in the plans provided by the client. At Harbor Park, KCI performed Quality Level B utility designation using electromagnetic (EM) and Ground Penetrating Radar (GPR) technologies to locate and sketch utilities and subsurface anomalies. Results were integrated into the final surveys, with all work carried out by UTA-certified technicians following ASCE 38-22 and FDOT utility location protocols.

Deliverables included AutoCAD Civil 3D files (.dwg, 2018–2020 format), Digital Terrain Models (DTM) for bathymetric data, GIS utility sketches, signed and sealed survey drawings, and an Excel summary of sanitary cleanout elevations.

Term of Engagement: 2018 - 2019

KCI was commissioned by Florida Power & Light to provide comprehensive surveying and mapping services in support of the Bayfront Park Solar Circle project at the FPL Amphitheater in Downtown Miami. Bayfront Park is a historic 32-acre public space on Biscayne Bay, renowned for hosting major events such as Super Bowl festivities, music festivals, and national celebrations. The FPL Solar Amphitheater, with a seating capacity of 10,000, incorporates advanced bifacial solar panel technology supported by a custom-fabricated steel canopy.

KCI's services included detailed topographic surveys, LiDAR scanning of the amphitheater structure, gravity utility surveys, review and plotting of easements, and digital terrain modeling (DTM) to support solar canopy design and easement planning. The surveys mapped buildings, pavement, fences, trees, and existing FPL transmission and distribution easements. A sketch and description were prepared for the solar circle easement, interconnection path, and utility corridor. Final deliverables included signed and sealed survey files, AutoCAD (.dwg) drawings, DTM surfaces, and Point Cloud (.e57) data. KCI's precision layout supported the integration of curved structural steel supports in a high-visibility urban venue.

Cost of Services: $139,400

Contract Number: 2023-11-01

Term of Engagement: 2024 - 2025

KCI was commissioned by the City of Aventura to provide surveying and mapping and Subsurface Utility Engineering (SUE) services for this project. KCI conducted a utility designation to identify and map existing utility lines using electromagnetic induction and ground-penetrating radar (GPR) methods. This includes conductive and non-conductive utilities within designated sections of NE 191st Street, NE 29th Avenue, and NE 188th Street. The collected data enhanced the accuracy of utility designation and guided further field investigations. KCI provided detailed documentation and field sketches, offering optional vacuum excavation services to expose and verify underground utilities.

In addition to utility designation, KCI performed a comprehensive topographic survey and developed a digital terrain model (DTM) to enhance infrastructure planning. These tasks documented existing surface features, right-of-way lines, native trees, and elevation data critical for understanding site conditions and guiding stormwater drainage design. DTM incorporated LiDAR-derived data to map surface flow patterns adjacent to NE 191st Street — deliverables included signed and sealed survey files and digital terrain data.

Contract Number: N/A

Term of Engagement: 2018 - 2022

KCI was engaged by Power Engineers, Inc., on behalf of Florida Power & Light (FPL), to support the design and construction of a 2.5-mile underground 69kV transmission line traversing dense urban corridors, public parks, and submerged sovereign lands across Miami Beach, Florida. The project connected key FPL substations along 4th Street, Michigan Avenue, and 19th Street through the Alton and Venetian corridors, crossing Biscayne Bay via the MacArthur Causeway.

KCI performed full boundary and topographic route surveys on land and across submerged state waters, including bathymetric and subaqueous utility mapping, digital terrain modeling (DTM), and extensive SUE investigations. The scope encompassed ALTA/NSPS surveys, tree inventories, sketches and descriptions for temporary and permanent easements, and sovereign submerged land lease exhibits for FDEP approval. KCI also led seawall investigations using pile exposure, tieback mapping, and parallel seismic testing.

To confirm accurate utility conflict resolution and design clearance, KCI conducted SUE Level C investigations of 175 gravity structures and followed with targeted Level A and B investigations along the proposed alignment, including test holes, trench pits, and Z-cuts. Work was executed under comprehensive Temporary Traffic Control Plans approved by Miami Beach, Miami-Dade County, and FDOT. Deliverables included signed and sealed survey documents, AutoCAD base files, DTM surfaces, easement exhibits, and geophysical test data.

Geotechnical and Engineering Testing Services Continuing Services Agreement

Sunrise, Florida

Project Summary

AREHNA serves as the Prime consultant and supports geotechnical engineering and materials testing on this task-order contract. Projects under this contract include buildings/facilities, roadway and intersection improvements, bike lanes, sidewalks and pedestrian safety improvements, traffic signal, ITS, multimodal, stormwater and drainage improvements, potable water, reclaimed water, and wastewater treatment plants design and construction.

Scope includes soils, pavement and asphalt testing, concrete and field soil densities, percolation testing, foundations materials testing, and geotechnical analysis and recommendations.

Projects Include:

- Wastewater Treatment Plant (MW1A)
- Sawgrass Headworks Influent Line Improvements
- Lead and Asbestos Testing – Sawgrass WWTP

2b. Teams' Roles, Responsibilities, Relevant Experience, and Education

Benjamin Hoyle, PSM

Mr. Hoyle is a project surveyor with over two decades of experience throughout the state of Florida. His experience includes transmission line route surveys, preparation of easements via sketch and legal description, ALTA/NSPS surveys, boundary surveys, construction layout, topographic surveys, hydrographic surveys, bathymetric surveys, as-built surveys, and 3D modeling. Mr. Hoyle has experience in today's newest state-of-the-art software and equipment including AutoCAD, TDS collection, dual-frequency/survey-grade GPS, and terrestrial LiDAR scanning equipment and software.

RELEVANT PROJECT EXPERIENCE

Village of Key Biscayne, Professional Survey Services for Stormwater Utility and Right-of-Way Improvements. Contract Manager. KCI provided a comprehensive 24-mile right-of-way mapping and LiDAR-based DTM project commissioned by the Village of Key Biscayne. KCI established horizontal and vertical control, extracted finished floor elevations for 1,600+ buildings, and mapped over 25,000 trees and all visible ROW features using mobile, terrestrial, and aerial LiDAR sources. Deliverables support long-term infrastructure and drainage planning.

City of Miami Beach, Miscellaneous Survey and Mapping Services Contract. Contract Manager. KCI has performed a number of task orders on this ongoing contract for various locations/projects, including Maurice Gibb Memorial Park Boundary and Topographic Survey, Bonita Drive Topographic Survey, 5th Street Monumentation Topographic Survey, Madeline Village Crespi Boulevard Boundary and Topographic Survey, Belle Isle Park Topographic Survey, MacArthur Pedestrian Bridge Topographic Survey, as well as Allison Park Boundary and Topographic Survey.

City of Miami, Miscellaneous Survey and Mapping Services Contract. Contract Manager. KCI performed a number of task orders on this ongoing contract, including ADA Homeless Remodel, Fire Training Facility, Douglas Park, Stearns & Martell Parks Boundary and Topographic Surveys, Little Haiti Soccer Park Boundary and Topographic Survey, Fire Station #3 Boundary Survey, Fire Station #4 Boundary Survey, Fire Station #10 Boundary Survey, Fire Station #12 Boundary Survey, Marlins Park Monitoring Wells, Athalie Range Park Boundary and Topographic Survey, Lemon City Park Boundary and Topographic Survey, Communications Generator at Fire Headquarters, Police Headquarters Boundary Survey, Bay of Pigs Park Topographic Survey, 104 NW 1st Avenue Sketch and Description, Special Ops Command Center Boundary and Topographic Survey, FDOT Parcels 3831 & 4236 Sketch and Descriptions, Miamarina Parkway Drive Mitigation Area 3 Sketch and Description, Miami Riverside Center Boundary Survey, OMNI CRA Amendment Legal Description Preparation, and James L. Knight Center Seawall Survey.

City of Riviera Beach, Riviera Beach Topographic Survey. Contract Manager. KCI prepared a topographic survey of 5.67+/- miles of city streets. The survey included power/utility poles, overhead wires, asphalt, curbing, driveways, fences, trees/hedge lines, manholes, drainage structures including inverts, and surface features of utilities.

Miami-Dade County, Miami-Dade County Miscellaneous Survey and Mapping Services Contract. Contract Manager. Under this ongoing contract, KCI has performed multiple projects that include stormwater infrastructure surveying services to include the location, measurements, and status inspection of the following types of structures: catch basins, manholes, grease interceptors/structures, outfalls, and culverts on SW 130th Avenue (from SW 27th Street to SW 42nd Street), boundary survey for Parcels 1 & 2, boundary and hydrographic survey for Card Sound Road, staff gauge installation, topographic and bathymetric survey of Card Sound Road and Card Sound Canal, topographic and bathymetric survey of Florida City Canal, topographic and hydrographic survey of the beaches, topographic survey Wagner Creek, and post-construction topographic and hydrographic survey at the beaches.

James Gellenthin, PSM

Mr. Gellenthin serves as KCI's National Chief of Surveys and has nearly 40 years of survey experience with the firm. He provides QA/QC oversight of survey projects and oversees the review of contract documents and agreements. Mr. Gellenthin has extensive experience supervising surveys for military, federal, state, municipal, and private clients. His expertise includes ALTA and boundary surveys, route surveys, utility surveys, GPS control surveys, topographic surveys, environmental surveys, as well as construction staking. He oversees KCI's survey field crews and their training on using the current survey technologies, including LiDAR and UAS. Mr. Gellenthin also provides oversight of the office technicians processing the survey data and preparing the various survey deliverables.

RELEVANT PROJECT EXPERIENCE

Village of Key Biscayne, Professional Survey Services for Stormwater Utility and Right-of-Way Improvements. QA/QC Manager. KCI provided a comprehensive 24-mile right-of-way mapping and LiDAR-based DTM project commissioned by the Village of Key Biscayne. KCI established horizontal and vertical control, extracted finished floor elevations for 1,600+ buildings, and mapped over 25,000 trees and all visible ROW features using mobile, terrestrial, and aerial LiDAR sources. Deliverables support long-term infrastructure and drainage planning.

Village of Key Biscayne, K-8 Basin Survey. QA/QC Manager. KCI provided comprehensive surveying and SUE services to support drainage and resiliency planning for the K-8 Basin. Services included topographic and boundary surveys with mean high water (MHW) line establishment, bathymetric mapping of Hurricane Harbor, Quality Level B utility designations using GPR and EM methods at Harbor Park, and integration of sanitary cleanouts into the survey basemap. Deliverables featured CAD base files, digital terrain models, GIS utility sketches, and signed/sealed drawings. Field and data coordination efforts aligned with ASCE 38-22 and FDOT protocols, enabling AECOM and the Village to advance critical stormwater infrastructure planning.

City of Aventura, NE 191st System Stormwater Drainage and Roadway Improvement. QA/QC Manager. KCI provided surveying, mapping, and SUE services for this multi-corridor drainage and roadway improvement project. The team conducted utility designation using electromagnetic induction and ground-penetrating radar (GPR) to map existing utilities along NE 191st Street, NE 29th Avenue, and NE 188th Street. This data improved utility accuracy and supported further investigations. KCI also supplied detailed documentation and optional vacuum excavation services to verify underground utilities. Additionally, KCI performed a topographic survey and developed a digital terrain model (DTM) to assist with infrastructure planning. This process included documenting surface features, right-of-way lines, native trees, and elevation data essential for stormwater drainage design. The DTM utilized LiDAR data to map surface flow patterns near NE 191st Street, providing signed and sealed survey files and digital terrain data.

Miami-Dade County, Miami-Dade County Miscellaneous Survey and Mapping Services Contract. QA/QC Manager. Under this ongoing contract, KCI has performed multiple projects that include stormwater infrastructure surveying services to include the location, measurements, and status inspection of the following types of structures: catch basins, manholes, grease interceptors/structures, outfalls, and culverts on SW 130th Avenue (from SW 27th Street to SW 42nd Street), boundary survey for Parcels 1 & 2, boundary and hydrographic survey for Card Sound Road, staff gauge installation, topographic and bathymetric survey of Card Sound Road and Card Sound Canal, topographic and bathymetric survey of Florida City Canal, topographic and hydrographic survey of the beaches, topographic survey Wagner Creek, and post-construction topographic and hydrographic survey at the beaches.

Mr. Mendonca is a licensed project surveyor with six years of experience throughout Florida and over 20 years of experience in Brazil. His experience includes roadway design surveys, right-of-way control mapping, boundary and topographic surveys, tunnel surveys, construction layout and geodetic control surveys, ALTA/NSPS surveys, hydrographic surveys, bathymetric surveys, as-built surveys, and 3D modeling. Mr. Mendonca is skilled in today's newest state-of-the-art software and equipment, including AutoCAD, TDS collection, dual-frequency/survey-grade GPS, and terrestrial LiDAR scanning equipment and software.

RELEVANT PROJECT EXPERIENCE

Village of Key Biscayne, K-8 Basin Survey. Senior Project Surveyor. KCI provided comprehensive surveying and SUE services to support drainage and resiliency planning for the K-8 Basin. Services included topographic and boundary surveys with mean high water (MHW) line establishment, bathymetric mapping of Hurricane Harbor, Quality Level B utility designations using GPR and EM methods at Harbor Park, and integration of sanitary cleanouts into the survey basemap. Deliverables featured CAD base files, digital terrain models, GIS utility sketches, and signed/sealed drawings. Field and data coordination efforts aligned with ASCE 38-22 and FDOT protocols, enabling AECOM and the Village to advance critical stormwater infrastructure planning.

Village of Key Biscayne, VKB Garden District. Senior Project Surveyor. KCI provided survey and SUE efforts for this FEMA HMGP-funded stormwater improvement project, supporting design of a new conveyance system, pump station with injection wells, and rehabilitation of drainage infrastructure. KCI performed GNSS control extensions tied to the Village network, topographic updates, Quality Level B utility designations, and gravity utility as-builts along Ocean Drive, East Enid Drive, and Galen Drive. Final deliverables included Civil 3D files and a sealed surveyor's report.

City of Miami, Miscellaneous Survey and Mapping Services Contract. Senior Project Surveyor. KCI has provided a variety of survey services for this on-call contract, including general land surveying, right-of-way or boundary surveys, GPS mapping, GPR surveys, engineering and construction surveys, specific purpose surveys, topographic surveys, mean high water lines, submerged or filled lands, elevation certificates, and subsurface utility engineering (SUE).

City of Aventura, NE 191st Street Survey. Senior Project Surveyor. KCI provided surveying, mapping, and SUE services for this multi-corridor drainage and roadway improvement project. Maxcell R. George, PSM, CFM

Mr. George has over 30 years of experience providing a wide range of survey services. His expertise includes ALTA, boundary, corridor, and topographic mapping for sites that range from complex urban areas to rural lands covering hundreds of acres. He also delivers plating, land divisions, easements, and hydrographic surveys. His ability to integrate the right technologies and processes with project results in economical, value-added survey products that clients can confidently rely on. Examples of technologies Mr. George utilizes in his award-winning projects include terrestrial and airborne LiDAR, subsurface utility engineering, aerial photogrammetry, mapping, and sonar. He has assisted a diverse clientele, including individuals, government agencies, and private companies across the Industrial, commercial, retail, residential, environmental, military, healthcare, utility, and transportation sectors.

RELEVANT PROJECT EXPERIENCE

Kimley-Horn, Tampa East RV ALTA Survey, Dover, FL. Project Surveyor. KCI was engaged by Kimley-Horn to provide professional surveying services for the Tampa East ALTA/NSPS Land Title Survey, covering the Greenacres and KOA Campgrounds in Dover, Florida. This project involved a detailed boundary and topographic survey adhering to current state and national standards, supporting due diligence for real estate and development planning. KCI's responsibilities included integrating field data with client-supplied zoning and title information, assessing utility presence, and preparing certified deliverables tailored to the needs of lenders, insurers, and stakeholders. The survey assisted in identifying physical site characteristics, easements, and access conditions critical to informed decision-making in property transactions.

City of Tampa Water Department, N Habana Ave Survey, Tampa, FL. Project Surveyor. Performed under the Utility Locating Services continuing contract, KCI delivered comprehensive Subsurface Utility Engineering (SUE) and topographic surveying services for the City of Tampa along a designated area of North Habana Avenue. Spanning approximately 500 feet south from Bel Aire Circle, this project integrated advanced electromagnetic and ground-penetrating radar technologies to accurately designate both conductive and non-conductive underground utilities. The work included full utility mapping, elevation data collection, and detailed survey deliverables conforming to City of Tampa standards. With GIS-based outputs and AutoCAD Civil 3D files, this project enhanced infrastructure planning by providing critical subsurface data and precise surface mapping, and will enable informed decision-making for future utility and roadway improvements.

City of Tampa As-Builts, Gulf Coast Custom Cable. Project Surveyor. KCI provided comprehensive land surveying and Subsurface Utility Engineering (SUE) services to deliver certified as-built documentation for approximately 4,800 linear feet of newly installed fiber optic cable for the City of Tampa, and Gulf Coast Custom Cable. Utilizing electromagnetic induction methods and trace wire-based utility designation, the KCI team accurately located and recorded horizontal and vertical positions of the utility corridor. Survey data collection was conducted using GPS real-time kinematic (RTK) methods aligned to NAVD 88 vertical datum and integrated with GIS-based right-of-way mapping derived from Hillsborough County property data. Deliverables included AutoCAD Civil 3D drawings with detailed coordinate tables, aerial overlays, and sealed certification by a Florida Professional Surveyor and Mapper.

Town of Surfside, Surfside Underground Utilities Phase II. Survey Technician/LiDAR Specialist. The Town of Surfside requested KCI to prepare a topographic survey and determine the right-of-way of an alleyway that is situated between Collins Avenue and Harding Avenue, located between 94th Street and 96th Street, to determine town right-of-way location and prepare a maintenance right-of-way map to be recorded with Miami-Dade County. The topographic features are being used by engineers and others for design purposes and re-location of above ground utilities to be moved underground. All survey work was performed in accordance with the Standards of Practice as set forth by the Board of Surveyors and Mappers pursuant to Rule 5J-17 of the Florida Administrative Code, pursuant to Section 472.027 Florida Statutes.

Miami-Dade County, 5th Street Metromover Station. Survey Technician/LiDAR Specialist. KCI prepared design development drawings and is working on the construction documents related to implementing improvements to this park site in a dense urban area. KCI performed site analysis and inventory, created concept designs and budgeting, and worked with Miami Dade County Parks, Recreation and Open Spaces to realize their vision. The programmed elements include a nature-based playground (age range 2-5 and 5-12), hardscape improvements, site lighting, park site amenities (benches, trash cans, dog waste stations), walkway through the site, landscape improvements, irrigation system, entrance improvements, and fencing.

Town of Miami Lakes, Miscellaneous Survey Services Contract. Survey Technician/LiDAR Specialist. Chris Widmer is a Reality Capture Manager at KCI Technologies, Inc. He has 19 years of experience in the land surveying industry, specializing in 3D laser scanning, mobile/aerial LiDAR, drones, and other reality capture technologies. Chris has managed hundreds of laser scanning projects of every variety and is a company-wide resource for scanning workflows and quality assurance. He oversees laser scanning field crews and all pointcloud registrations for his region. Mr. Widmer also has significant experience in boundary, topographic, and utility surveying.

RELEVANT PROJECT EXPERIENCE

Village of Key Biscayne, Professional Survey Services for Stormwater Utility and Right-of-Way Improvements. Survey Technician/LiDAR Specialist. KCI provided a comprehensive 24-mile right-of-way mapping and LiDAR-based DTM project commissioned by the Village of Key Biscayne. KCI established horizontal and vertical control, extracted finished floor elevations for 1,600+ buildings, and mapped over 25,000 trees and all visible ROW features using mobile, terrestrial, and aerial LiDAR sources. Deliverables support long-term infrastructure and drainage planning.

The Beck Group, Tampa International Airport, Airside F Terminal. Survey Technician/ LiDAR Specialist. KCI provided surveying and mapping services for this project that involves mapping all publicly-owned ROW. KCI set survey control on 24 miles of roadway and mapped it with mobile, aerial, and terrestrial LiDAR 3D laser scanners. KCI also established the finished floor elevation of every building in the Village, more than 1,600 structures.

Hartsfield-Jackson Atlanta International Airport (ATL), Hartsfield-Jackson Atlanta International Airport Terminals. Survey Technician/LiDAR Specialist. KCI provided 3D laser scans of the entire lengths of airport terminals T, A, B, C, and D, covering approximately 1,268,000 square feet. After completion, 3D laser scans were collected above the ceiling tiles and plenum of the exact same areas. The client used these scans to design all new interior and exterior sections for renovations and placement of TSA areas. The airport used the 3D scan data to precisely locate the expansion joints of all MEP above the ceiling for their reference.

FDOT District 7, I-75 at Fowler Interchange, Hillsborough County, FL. Mobile Reality Capture Manager. This was a stand-alone landscape project on the southeast quadrant of the interchange that includes land sculpting to provide visual interest at the large flat clearing. The landscape theme shows the different ecosystems of Florida taking advantage of the modified terrain, which also includes some decorative gabion walls and rip rap design features.

Georgia Department of Transportation, 2018 Bridge Bundle #2, Contract 3, Hancock, Johnson, and Emanuel Counties, GA. Mobile Reality Capture Manager. As part of the GDOT Bridge Bundle Program, KCI is completing four bridge replacement projects. Each of these projects has its own individual challenges, but especially with environ-mental resources. There are streams, wetlands, historic properties, and protected species. These are standalone projects, so there are four separate plan sets and NEPA environmental documents. As a result of a late NTP on Task Order #1, the design team began the projects on a recovery schedule and are nearly back to the baseline schedule due to the technical abilities of the roadway and bridge design teams.

Brent Reeves

GIS Specialist

Mr. Reeves is a Senior Project Manager in KCI's Geospatial Solutions Practice with a water resources background. His primary responsibility over his 24 years of experience has been to manage and conduct office and field efforts for storm drain and stormwater management inventory and inspection tasks, floodplain geodatabase development, developing and managing stormwater databases, mapping and inventory for SWPPPs, and providing support to Phase I and Phase II NPDES MS4 permit holders. Mr. Reeves is proficient in the use of Esri GIS software including ArcGIS, ArcPro, Collector, and Survey123 as well as MicroStation, Microsoft Access, and water resources modeling applications. Other specialties include data collection using out-of-the-box and custom Esri-based field and office editing applications, developing requirements and workflows for data collection, managing projects related to NPDES and TMDL compliance, and performing QA/QC of submittals. Mr. Reeves has gained a vast amount of subject matter expertise including data collection techniques, software solutions for data collection, developing and orchestrating training sessions with stakeholders, and full program workflow strategies for cost and time savings for GIS related full delivery projects.

RELEVANT PROJECT EXPERIENCE

Prince George's County, Floodplain Mapping / Floodplain Digitizing. GIS Specialist. KCI was tasked to digitize the 100-yr floodplain boundary and cross-section information from more than 1,800 floodplain studies throughout the County. This task included reviewing floodplain mapping documentation, georeferencing more than 3,000 plan sheets, and populating a floodplain geodatabase. Mr. Reeves was responsible for performing project manager duties, including client and stakeholder communications; developing and tracking the schedule; identifying and assigning backlog and tasks; tracking and reporting project status; managing up to 6 data compilers, including subconsultants; orchestrating project status meetings; overseeing the project quality control and submittals; and providing metadata to accompany the data products. He led a team of GIS and subject matter experts to determine the workflow; requirements and deliverables were met; and provide a successful project to the client.

Town of Ridgely, Infrastructure Mapping. GIS Specialist. KCI was tasked to complete an inventory and condition assessment of the Town's water and sewer systems. Mr. Reeves developed the database schema for the water and sewer features; researched water and sewer design plans; developed the field data collection solution; provided hands-on training of the application functionality; compiled water and sewer systems in a geometric network; and performed quality control of the resultant field data collection.

Frederick County Board of County Commissioners, Grass Swale QC District 6. GIS Specialist. As part of the Frederick County's NDPES and TMDL programs, the County initiated a grass swale determination program that evaluated existing ditches and channels to determine if the feature meet design criteria of a grass swale therefore allowing impervious treatment credit. KCI was tasked to provide support and quality control of the County's grass swale determination program. Mr. Reeves provided interpretation of the standard operating procedures; reviewed the grass swale determination results; performed quality control versus the standard operating procedures and analysis guidelines; and reported issues and program recommendations to the stakeholders.

St. Mary's County, Planimetric Geodatabase Update - St. GIS Specialist. KCI provided support to St. Mary's County, MD to perform GIS updates to the planimetric geodatabase layers for bridges, buildings, hydrology, transportation, utility poles, and other asset features. Mr. Reeves oversaw the GIS team that performed the planimetric geodatabase updates; coordinated the task with the client stakeholders; planned backlog and action items; and performed quality control of the resultant compilation.

Benjamin Koubek, ISA, FNGLA, LIAF

Mr. Koubek has broad and unique experience in the municipal, utility, and commercial tree care industry. He is one of only a handful of Certified Arborists in Florida to hold both the ISA Municipal Specialist and Utility Specialist Certification. Mr. Koubek has an extensive background relating to utility vegetation management, plant deficiencies, and fertilization, pest identification and treatment, and knowledge of laws, codes, and ordinances relating to trees and plant material. Fully trained in Florida Grades and Standards for nursery plants, Mr. Koubek is a LIAF Certified Landscape Inspector with key experience that includes inspecting work performed in the field to see that standard operation procedures are followed, and performance standards are met, assisting in both drafting and administering City and County ordinances, and reviewing plans and availability of plant material as per specifications.

RELEVANT PROJECT EXPERIENCE

Turtle Run Community Development District, Turtle Run Civil Engineering. Arborist. KCI has served as District Engineer for the Turtle Run Community Development District (TRCDD) for more than 25 years. In the capacity of District Engineer, KCI attends all board meetings and coordinates closely with the District management team, board members and council on a variety of projects within the district. KCI reviews engineering permit plans submitted for compliance with District criteria and best engineering practices and techniques. In addition, KCI has also provided surveying, design, permitting, bidding and negotiation, construction management, and inspection services for various district projects.

City of Coconut Creek, SR 7/US 441 Landscape Design (HBC Grant). Arborist. KCI provided landscape post-design services and inspection for this streetscape, including new landscape, hardscape, and irrigation. This highway beautification grant project is in the City of Coconut Creek along US 441 from Cullum Road to Sawgrass Expressway. The project included an arborist's tree inventory and evaluation.

Florida Department of Transportation District Six, SR 826 from Flagler Street to NW 154th Street and SR 93/I-75 from SR 826 to NW 170 Street. Arborist. KCI provided landscape architecture, CEI, and establishment period monitoring for this project. The project was part of a series of stand-alone landscape interchange beautification projects along the Palmetto, increasing the urban forest with 4,400 trees and 126,000 shrubs. Following the landscape designs were required construction meetings and continuous site inspections for plan compliance. Mr. Koubek performed evaluation of trees and palms from tree survey to verify suitability for relocation. He provided landscape CEI after relocation, including ongoing monitoring and reporting during plant establishment.

Florida Department of Transportation District Six, SR 836/I-395 West of I-95. Arborist. This project consists of I-95 concrete pavement reconstruction for Miami-Dade County, Florida. The scope of work includes design to replace all concrete pavement within the I-95 corridor in a 1.6-mile-long section from NW 8th street to NW 29th Street.

Florida Department of Transportation District Four, Pompano Beach Mobility Sidewalks. Arborist. The project included the removal and construction of concrete sidewalks, gravity walls with handrails, concrete ditch pavement, curb ramps and curb & gutter, asphalt widening, replacement of driveways and harmonization to existing pavement, removal, relocation, and replacement of drainage structure and connecting pipes, placement and establishment of Bahia grass sod, removal, and replacement of thermoplastic and pre-formed striping, and removal and installation of single post signs.

Career Summary

Ms. Alba has provided geotechnical engineering services on numerous geotechnical explorations over the past 26 years, including serving as the Geotechnical Discipline Lead for the I-595 Corridor Improvement project in Broward County, Florida, which is the first Public-Private-Partnership (P3) project ever awarded by FDOT. Ms. Alba has been involved in the planning, analysis, execution, and review of geotechnical projects ranging from roadway and railways to complex roadway bridge and tunnel projects to commercial high-rise buildings, school projects, and other local municipality projects. Ms. Alba has performed evaluations for retaining walls, drainage structures, shallow foundations, driven piles, drilled shafts, augercast piles, micropiles, and pressure injected footings. Ms. Alba's experience has also included finite element analysis, slope stability evaluations, soil nail wall design, and evaluation of geosynthetics applications, and geotechnical ground improvement techniques.

Project Experience

Soils, Foundation, and Materials Testing Services, Miami-Dade County, Florida Ms. Alba served as the Project Manager/Senior Geotechnical Engineer for this contract, which included geotechnical, construction materials testing and inspection services for the construction of various improvement projects, including water main extensions, intersection improvements, and sidewalks, for various Miami-Dade County departments, including Miami-Dade Water and Sewer, Public Works, Dade Aviation Consultants, and Parks and Recreation.

City of Miami, Miscellaneous Engineering Services, Miami, Florida Ms. Alba supports this contract on an as-needed basis. Scope includes roadway and drainage improvements, storm water management, Sea level rise and resilience, utility coordination, post design, Civil Engineering, Structural Engineering, Environmental Engineering, Marine & Coastal Engineering, Construction Engineering and Inspection (CEI) Services.

Miami Seaport Redevelopment Program, Project No. 5, Mobile Gangway Pads, Port of Miami, Miami, Florida Ms. Alba served as the Senior Geotechnical Engineer for the proposed Mobile Gangway Pads. Ms. Alba performed engineering analysis to determine lateral pressures imparted by the proposed Mobile Gangway Pads to the existing anchored bulkhead. Provided shallow and deep foundation recommendations.

City of Sunrise Geotechnical Engineering and Testing Continuing Services Contract (#2022000266), Sunrise, Florida AREHNA serves as the Prime subconsultant on this task-order contract. Ms. Alba serves as a Senior Geotechnical Engineer and overseas geotechnical engineering services, project oversight, field and laboratory coordination, analysis and recommendations. Projects include Wastewater Treatment Plant Replacement and pre-demolition of two buildings Sawgrass Wastewater Treatment Plant.

Professional Services Continuing Services for Design Projects, District Four, Florida Ms. Alba serves as a Senior Geotechnical Engineer for geotechnical services associated with this task workorder contract associated with roadway improvements that include milling and resurfacing, traffic safety, lighting structures, overhead sign structures, mast arm structures, and drainage structures. Geotechnical engineering services included drilling, laboratory testing, engineering analysis and reporting, utility coordination, permitting and (MOT) maintenance of traffic.

Miami-Dade Park & Recreation Department, (Crandon Park Golf Course Clubhouse), Miami, Florida Ms. Alba's responsibilities included technical oversight, foundation certification report preparation, and project management for the installation of the deep foundations for the new clubhouse.

A/E Parks and Recreation Design Continuing Services, Broward County, Florida AREHNA provides geotechnical engineering services for this task order contract which includes, park improvements, with new grandstands, concrete concourse, and drainage improvements. Ms. Alba serves as a Senior Geotechnical Engineer and provides recommendations for site preparation, foundation, pavement, and stormwater design.

District-Wide Geotechnical and Materials Testing, District Six, Florida Ms. Alba served as a Senior Geotechnical Engineer for this task-order contract. Scope of work has included pavement coring and geotechnical support of in-house design projects.

PARTHA GHOSH, PE
President / Principal Geotechnical Engineer

Years of Experience: 33

KEY QUALIFICATION

Partha Ghosh has 33+ years of comprehensive experience working with the Florida's Turnpike Enterprise (FTE) and FDOT Districts (specifically District IV & VI) in the field of Geotechnical and Materials Engineering. He has served as the Senior Engineer/Project Manager and Geotechnical Engineer of Record for major FDOT/FTE projects in South Florida. He has extensive experience in performing field and in-house investigation for roadway and bridge foundations, quality control/assurance of Construction Engineering Inspection and utilizing the Standard Index System, and prepared the geotechnical reports for major FTE/FDOT Highway and Bridge projects.

EDUCATION & PROFESSIONAL REGISTRATIONS

RELEVANT WORK EXPERIENCE

Mr. Ghosh has served as the Senior Engineer/Project Manager and Geotechnical Engineer of Record (GeoEOR) for the following FDOT / FTE projects:

Interstate I-95 HOV Lanes, From South of PGA Boulevard to South of Donald Ross Road, Palm Beach County, FL: Widening of I-95 for 3 miles, which included widening two existing bridges, MSE and sheet pile walls for grade separation, noise barrier walls, and sign and miscellaneous structures. The foundation system at one bent for one of the bridges used drilled shafts to minimize/eliminate the effect of any vibration caused due to foundation construction to the existing underground drainage structures.

Interstate I-95 HOV Lanes, From Linton Blvd. to LWDD L-30 Canal, Palm Beach County, FL: Widening of I-95 from Linton Boulevard to LWDD L-30, which included replacement/widening five existing bridges, MSE and sheet pile walls for grade separation and sign and miscellaneous structures.

Interstate I-95 HOV Lanes, From LWDD L-30 Canal to Gateway Boulevard, Palm Beach County, FL: Widening of I-95 for about 4 miles, which included replacement/widening two existing bridges, MSE and sheet pile walls for grade separation and sign and miscellaneous structures.

Interstate I-95 HOV Lanes, From Gateway Boulevard to 6th Avenue, Palm Beach County, FL: Widening of I-95 for about 4 miles, which included replacement/widening two existing bridges, MSE and sheet pile walls for grade separation and sign and miscellaneous structures.

Interstate I-95 HOV Lanes, 6th Avenue to Forest Hill Blvd., Palm Beach County, FL: Widening of I-95 for about 4 miles, which included replacement/widening five existing bridges, MSE and sheet pile walls for grade separation, noise barrier walls, and sign and miscellaneous structures.

Interstate I-95 HOV Lanes, From Forest Hill Boulevard to Congress Avenue, Palm Beach County, FL: Widening of I-95 for about 5 miles, which included replacement/widening three existing bridges, MSE and sheet pile walls for grade separation, noise barrier walls, and sign and miscellaneous structures.

2c. Relevant Experience of Each Team Member

The information regarding relevant experience can be found in the personnel resumes.

2d. Team's Approach in Providing Services to the Village

KCI, supported by AREHNA and GCME, will deliver coordinated, responsive, and technically rigorous geotechnical and surveying services to the Village of Key Biscayne. Our approach emphasizes immediate responsiveness, advanced technology, quality assurance, and alignment with the Village's resiliency and sustainability goals.

Integrated Team Structure

KCI will serve as the Prime Consultant, overseeing surveying and subsurface services. AREHNA will leverage its deep technical expertise across municipal and coastal infrastructure projects. GCME's extensive public-sector project experience, including prior work for the Village, confirms reliable, technically sound deliverables.

By combining these strengths, the Village benefits from a comprehensive, highly experienced team with the flexibility to adapt to small and large assignments.

Service Methodology Highlights

- **Responsiveness:** Local Miami office and dedicated South Florida crews enable rapid mobilization and support.
- **Technology Leadership:** cutting-edge terrestrial/mobile LiDAR, UAV drone surveys, hydrographic scanners, and robotic total stations for surveying operations. Similarly, geotechnical investigations will utilize the latest field exploration methods and laboratory testing technologies to support resilient, future-ready design.
- **Village Alignment:** Assignments directly support the Village's strategic priorities, including flood protection, shoreline reinforcement, and stormwater improvements.
- **QA/QC Commitment:** KCI maintains an ISO 9001:2015-certified quality program. All deliverables undergo multi-tiered technical reviews to confirm compliance with applicable standards.
- **Transparent Communication:** The contract manager, Benjamin Hoyle, will maintain proactive communication by providing regular updates, milestone reviews, and real-time field coordination with Village staff.
- **Flexibility:** KCI can scale resources within 24 to 48 hours, making sure the project schedules are met even during urgent or peak demands.

Through this integrated approach, KCI, AREHNA, and GCME will deliver resilient, innovative, and responsive services that the Village of Key Biscayne requires. Our focus on innovation, technical excellence, and client partnership confirms that every assignment directly advances the Village's infrastructure modernization and coastal resiliency goals.

KCI is dedicated to fostering strong working relationships through consistent, open communication. Establishing a clear communication channel is essential for effectively managing any project. We promote teamwork by making sure there is complete clarity and alignment on the goals of each task order, resulting in tangible outcomes. Our work process involves the entire team outlined in this statement of qualifications, engaging them from inception to successful completion. Our extensive experience with municipal projects in South Florida, including the Village, has prepared KCI to implement and enhance these practices successfully, confirming positive results every time.

By keeping lines of communication open, engaging in proactive problem-solving, and prioritizing quality control, our team strives to deliver projects that align with the City's objectives and contribute to the community's long-term improvement. Our team will schedule in-person meetings and will also be available via MS Teams, depending on the Village's preference and availability.

3a. Personnel Plan

Role	Firm	Personnel	Key Responsibilities	Daily	Weekly	Monthly
Contract Manager / Survey Lead	KCI	Benjamin Hoyle	Primary POC for Village. Manages staffing, QA/QC alignment, schedule adherence, and coordination across all task orders.	✓	✓	✓
QA/QC Manager	KCI	James Gellenthin	Technical oversight of all deliverables, reviews final reports/maps/plats, ensures compliance with Village and FAC 5J-17 standards.	As Needed	✓	✓

Operating Plan Summary

- **Work Authorization Process:** Upon receiving a Work Authorization, KCI's Contract Manager and Project Surveyors determine staffing needs based on project complexity, schedule, and deliverables. Internal resources and subconsultants are assigned accordingly.
- **Daily Operations:** Crews conduct field surveys, utility designations, and data capture. Analysts process data concurrently to maintain turnaround efficiency. Surveyors and SUE supervisors confirm in-field quality and responsiveness.
- **Weekly Operations:** Project Surveyors and QA/QC Manager conduct technical reviews of collected data and draft deliverables. Status updates and scheduling calls with Village staff occur weekly.
- **Monthly Operations:** QA/QC oversight, invoicing reviews, and long-range task planning are conducted. GIS and Arborist deliverables are updated and compiled where applicable.
- **Surge Capacity & Flexibility:** KCI maintains the ability to scale services (field crews, CAD support, geo teams) within 24 - 48 hours based on the Village's needs. Staff are full-time and supported by KCI's broader Florida operations.

3b. Personnel Plan

Staffing Basis

KCI has structured a strong and flexible project team to support the Village's Continuing Geotechnical and Survey Services Contract. Staffing levels are based on our direct experience providing services to the Village over the past five years, anticipated future work authorizations, and similar municipal continuing contracts across South Florida. Our model anticipates simultaneous small-to-medium assignments, which align with the Village's infrastructure maintenance, capital improvement, and resiliency goals.

Our proposed baseline staffing includes:

- Principal and QA/QC Manager
- Contract Manager / Survey Tasks Manager
- Project Surveyors
- Survey/LiDAR/UAV Analysts
- SUE Supervisor
- Certified Arborist
- GIS Supervisor
- Seven dedicated local Survey/SUE Field Crews
- Chief Geotechnical Engineer | AREHNA
- Chief Support Geotechnical Engineer | GCME

This team is supplemented by over 150 surveying and SUE professionals across KCI's Southeastern operations.

Employee Qualifications

The proposed team includes the following key personnel:

Jim Gellenthin, PSM – Principal | QA/QC Manager

As KCI's Chief Surveyor and QA/QC Manager, Jim brings over 39 years of experience managing and delivering high-precision survey data for transportation, municipal, utility, and environmental projects across Florida and the Southeast region, ensuring technical accuracy, regulatory compliance, and seamless coordination between field teams, engineers, and clients. His comprehensive knowledge includes ALTA/NSPS land title surveys, GPS control networks, utility mapping, construction staking, wetland delineation, and 3D topographic modeling. Jim has led survey efforts for complex projects for FDOT, managing LiDAR data acquisition, hydrographic mapping, and right-of-way analysis across multi-mile corridors. For municipal clients such as the Cities of Riviera Beach, Fort Myers, and Miami, he has overseen large-scale drainage and ADA compliance surveys involving thousands of structures and dozens of miles of roadway. Jim's extensive knowledge of UAV workflows, digital terrain modeling, and field-to-finish QA protocols makes him a trusted authority in advancing innovative survey-driven infrastructure solutions. Responsible for technical oversight, quality control, and deliverable certification, Jim is the current QA/QC Manager on the existing Village surveying contract.

Benjamin Hoyle, PSM – Contract Manager | Survey Tasks Manager

Benjamin Hoyle, PSM, is a veteran Survey Manager with over 25 years of experience delivering complex, high-accuracy geospatial and surveying solutions across Florida. As a licensed Professional Surveyor and Mapper, and Survey Practice Leader for KCI's Fort Lauderdale and Miami offices, Ben leads multidisciplinary teams on some of the state's most high-profile infrastructure projects, providing expert oversight in boundary, topographic, ALTA/NSPS, hydrographic, bathymetric, construction layout, and 3D modeling surveys. His portfolio spans municipal, utility, transportation, and environmental sectors, supporting agencies such as FDOT, FPL, and dozens of Florida cities and counties, including the City of Miami, the City of Miami Beach, and Miami-Dade County. Ben is skilled in the integration of mobile, aerial, and terrestrial LiDAR with conventional survey methods to create design-grade datasets that inform stormwater modeling, utility undergrounding, ADA improvements, and resilience planning. He has led large-scale efforts mapping hundreds of miles of public right-of-way, thousands of drainage structures, and entire municipal stormwater systems. Known for his precision, project leadership, and deep technical acumen in CAD, GNSS, and control network design, Ben makes sure every delivery meets the highest standards of accuracy, compliance, and client satisfaction. *Benjamin serves as the current Contract Manager on the existing Village surveying contract, being the direct point of contact for the Village and responsible for overall task order management.*

Newton Mendonca, PSM – Project Surveyor

A seasoned Project Surveyor with over 26 years of global experience delivering complex geospatial solutions across Florida and Brazil. Licensed in Florida and certified as an FAA Part 107 UAS Drone Pilot, Newton brings technical mastery in boundary, topographic, hydrographic, ALTA/NSPS, tunnel, and geodetic control surveys. His expertise spans high-precision 3D LiDAR scanning, DTM, and right-of-way mapping for roadway and bridge design, utility undergrounding, and major infrastructure planning. Newton has managed multi-phased public-sector projects for municipalities such as the City of Riviera Beach and the Town of Surfside, contributing critical survey data for utility relocation, bridge repair, and plat reviews. Fluent in the latest survey technologies, including AutoCAD, terrestrial LiDAR, and survey-grade GPS, he combines field expertise with advanced modeling to confirm accurate, design-ready deliverables for engineers and public agencies alike. Skilled in field crew supervision, right-of-way mapping, and construction surveys. Newton is the current project surveyor for the existing Village surveying contract.

Max George, PSM – Project Surveyor

With over three decades of leadership in land surveying and geospatial services, Max R. George, PSM, CFM, brings unmatched technical depth and operational excellence to every project. A licensed surveyor in Florida, Michigan, and Indiana, Max has successfully managed multimillion-dollar survey operations across urban and rural environments, including ALTA, boundary, topographic, and SUE-integrated surveys. His expertise spans UAV photogrammetry, LiDAR, right-of-way mapping, plating, floodplain management, and GIS integration. His prior work includes transportation design surveys, FEMA compliance products, and developing award-winning survey workflows and QA programs. Known for optimizing budgets, expanding services across states, and building high-retention teams, Max is a strategic asset for projects demanding precision, innovation, and leadership in surveying.

Aleksandr Bridwell – Survey/LiDAR/UAV Analyst

Aleksandr Bridwell is a skilled Survey Technician with over 9 years of experience delivering advanced geospatial services throughout Florida. A graduate of Florida Atlantic University's Geomatics Program and a certified remote pilot, Aleks combines deep field expertise with cutting-edge technology, including mobile/aerial/terrestrial LiDAR, 3D modeling, and UAV-based data collection. His portfolio spans major public and private infrastructure projects, including ADA compliance assessments, stormwater modeling, transmission line routing, hydrographic surveys, and roadway right-of-way mapping. Aleks has supported landmark efforts like the Village of Key Biscayne's stormwater utility survey and Fort Myers' Edgewood Neighborhood drainage design, delivering survey-grade data through a blend of LiDAR, UAS, and traditional methods. Proficient in AutoCAD, GPS/GNSS systems, and LiDAR extraction tools such as Cyclone and TopoDOT, Aleks consistently provides highly accurate and design-ready deliverables across municipal, utility, transportation, and environmental projects. Aleks is a Survey/LiDAR Analyst on the existing Village surveying contract.

Chris Widmer – Survey/LiDAR/UAV Analyst

Chris Widmer brings over 18 years of specialized expertise in 3D laser scanning, mobile LiDAR, and geospatial reality capture for transportation, infrastructure, and aviation projects. As a seasoned Mobile Reality Capture Manager and UAS Operator, Chris has led scanning operations across diverse environments, consistently delivering precise, high-resolution datasets for design, permitting, and construction. His experience includes overseeing full-scope field-to-finish scanning workflows, managing cloud registrations,

and streamlining production to meet tight schedules and budgets. Chris has supported major DOT projects for FDOT, GDOT, and local governments, including complex bridge replacements, urban road widenings, and airport facility surveys. His technical leadership has been instrumental in integrating laser scan data into AutoCAD and 3D modeling environments, enhancing design accuracy and interdisciplinary coordination. Chris is a Survey/LiDAR Analyst on the existing Village surveying contract.

Rick Dubaj – SUE Supervisor

Rick Dubaj is a highly experienced SUE Project Manager with over 36 years of technical expertise in utility mapping, field operations, and infrastructure coordination. With a strong foundation in telecommunications and certified as a UTA Utility Locator, Rick leads utility designation and condition assessment efforts across Florida, delivering SUE services at all ASCE 38-02 quality levels (A–D). His work spans high-profile projects for the City of Tampa, Tampa Electric Company, and FDOT, where he has managed complex underground utility investigations, conflict analysis, and vacuum excavation services. From overseeing Sunshine 811 utility locate programs involving tens of thousands of annual tickets to supporting design-build stormwater infrastructure and power distribution improvements, Rick is known for his precision, client communication, and ability to coordinate field crews and CADD deliverables under tight deadlines. His leadership confirms the integrity of existing utility systems during design and construction, safeguarding public infrastructure and project success. Rick is the SUE supervisor for the existing Village surveying contract.

Benjamin Koubek – Certified Arborist

Benjamin Koubek, ISA, FNGLA, LIAF, is a seasoned Senior Construction Inspector with 18 years of specialized experience in landscape, irrigation, and arboricultural inspection services across Florida's transportation and public infrastructure sectors. With over a dozen professional certifications, including ISA Certified Arborist, Utility Specialist, and Municipal Specialist, Ben brings exceptional technical knowledge to every project, ensuring regulatory compliance, long-term landscape success, and ecological sensitivity. He has led landscape and irrigation CEI for major FDOT and Florida's Turnpike Enterprise projects, overseeing complex beautification initiatives, palm relocations, native plant installations, and hardscape integrations. Known for his detailed establishment period monitoring and field inspection reporting, Ben's expertise confirms sustainable outcomes across urban corridors, highway interchanges, and environmentally sensitive regions. His deep understanding of plant material standards, stormwater BMPs, and FDOT requirements makes him a key asset to multidisciplinary project teams across the state. Ben is the current Arborist on the existing Village surveying contract.

Brent Reeves – GIS Supervisor

Brent Reeves is a Senior Project Manager with over 22 years of environmental and geospatial expertise specializing in stormwater infrastructure, NPDES compliance, and GIS-driven asset management. With dual degrees in Environmental Science and Geology, Brent has led dozens of complex stormwater, drainage, and water quality programs across the Southeast and Mid-Atlantic regions, including South Florida. He is a recognized subject matter expert in developing geospatial solutions that integrate field data collection, impervious accounting, BMP inspections, and database-driven reporting for clients such as FDOT, MDOT SHA, DelDOT, and numerous county governments. Brent has managed statewide programs supporting MS4 permit compliance, TMDL tracking, illicit discharge detection, and stormwater retrofit design using Esri-based platforms, including Collector, Survey123, and ArcGIS Online. From designing inspection workflows and training consultants to overseeing storm drain and BMP inventory spanning thousands of features, Brent delivers scalable, data-rich solutions that optimize infrastructure performance and regulatory reporting.

Seven Survey/SUE Field Crews

Experienced in boundary, topographic, hydrographic/bathymetric, and utility surveys; MOT-certified; dedicated to Village project support, KCI's field crews are Survey Technicians on the existing Village surveying contract.

Angela Alba, PE – Chief Geotechnical Engineer | AREHNA

Ms. Alba has provided geotechnical engineering services on numerous geotechnical explorations over the past 26 years, including serving as the Geotechnical Discipline Lead for the I-595 Corridor Improvement project in Broward County, Florida, which is the first Public-Private-Partnership (P3) project ever awarded by FDOT. Ms. Alba has been involved in the planning, analysis, execution, and review of geotechnical projects ranging from roadway and railways to complex roadway bridge and tunnel projects to commercial high-rise buildings, school projects, and other local municipality projects. Ms. Alba has performed evaluations for retaining walls,

drainage structures, shallow foundations, driven piles, drilled shafts, augercast piles, micropiles, and pressure-injected footings. Ms. Alba's experience has also included finite element analysis, slope stability evaluations, soil nail wall design, evaluation of geosynthetics applications, and geotechnical ground improvement techniques.

Partha Ghosh, PE – Chief Support Geotechnical Engineer | GCME

Licensed Professional Engineer in Florida with 32+ years of geotechnical and materials engineering experience. Mr. Ghosh has managed over 350 major FDOT, FTE, and municipal projects, specializing in foundation evaluations, materials testing, and geotechnical reporting for roadway and bridge projects.

Tab C, Section 2 provides resumes for these key personnel detailing years of experience, education, professional certifications, and sample projects for reference.

Full-Time/Part-Time Status

All proposed KCI staff and field crews assigned to this contract will be allocated on a full-time basis to make sure consistent service delivery, schedule adherence, and responsiveness to the Village's project needs. Leveraging KCI's extensive staffing resources throughout Florida and the Southeastern United States, we are able to maintain dedicated key personnel for Village projects without interruption. Additional staffing demands arising from other projects are managed internally through our broad organizational bench, making sure uninterrupted support for the Village at all times.

KCI has strategically partnered with two qualified geotechnical consulting firms, AREHNA and GCME, to provide additional flexibility. Should one of these small businesses encounter a temporary high workload, the Village will still have immediate access to a larger pool of qualified geotechnical personnel. This approach confirms the continuous availability of specialized expertise, even during periods of peak demand.

In addition to surveying and geotechnical services, KCI's South Florida offices have in-house capabilities in landscape architecture, transportation engineering, civil engineering, CEI, available on an as-needed basis to support task-specific requirements if the Village requests them.

Staffing Process and Determination

Upon receipt of a Work Authorization, KCI's Contract Manager (Benjamin Hoyle, PSM) and Task Managers will evaluate the assignment's specific scope, complexity, and schedule requirements. Staffing assignments are determined based on:

- Required technical expertise, such as conventional surveying, LiDAR data collection, UAV mapping, subsurface utility engineering, or geotechnical investigation.
- Scope of deliverables, such as sketches and legal descriptions, boundary surveys, digital terrain models (DTMs), or geotechnical foundation recommendations.
- Turnaround time expectations and the Village's desired schedule.

Assignments are staffed from KCI's local pool of dedicated resources to confirm continuity, responsiveness, and institutional knowledge retention. Geotechnical engineering tasks are assigned through the integration of our subconsultants AREHNA and GCME, confirming the appropriate expertise is matched to each assignment.

Process for Adjustments

KCI maintains flexibility in scaling resources up or down depending on the Village's evolving needs. If accelerated schedules or expanded scopes arise, additional licensed surveyors, engineers, CADD technicians, or field crews can be reassigned from our South Florida operations within 24 to 48 hours. Our internal resource management system, combined with coordination between our contract manager, QA/QC manager, technical leads, and subconsultants, confirms that the Village consistently receives the necessary staffing and technical support to meet its service needs. KCI's commitment to flexibility has already been demonstrated during our previous work for the Village. For example, during the topographic survey and geotechnical soil borings performed at the K-8 School basketball courts, our team rapidly mobilized field crews and drilling teams during the winter break. By executing field operations while the school was closed, we avoided delays and minimized costs by eliminating the need for extensive safety planning associated with active school operations. This proactive and responsive approach exemplifies the level of service the Village can expect throughout the term of the Continuing Services Contract.

3d. Position's Role and Responsibilities

Role	Personnel	Responsibilities
Principal / QA/QC Manager	James Gellenthin, PSM	Responsible for technical oversight, quality assurance/quality control (QA/QC) of all survey and geotechnical deliverables, and certification of final products. Review preliminary and final reports, plats, and legal descriptions, and confirm compliance with Village standards and Florida statutes.
Contract Manager / Survey Tasks Manager	Benjamin Hoyle, PSM	Serves as the primary point of contact for the Village. Oversees contract execution, manages task order assignments, confirms schedule adherence, and coordinates with internal and subconsultant teams. Oversees survey activities with Project Surveyors.
Project Surveyor	Newton Mendonca, PSM / Max George, PSM	Directs daily field operations, oversees survey crew activities, reviews field data for completeness, prepares draft sketches and field notes, and supports CADD and deliverable production.
Survey/LiDAR/UAV Analyst	Aleksandr Bridwell / Chris Widmer	Processes field-collected data, including conventional survey data, mobile/terrestrial LiDAR scans, and UAV imagery. Prepares digital terrain models (DTMs), topographic base files, and supports CAD/GIS deliverables.
SUE Supervisor	Rick Dubaj	Manages subsurface utility engineering (SUE) activities including Quality Level B (utility designation) and Level A (vacuum excavation) investigations. Prepares utility maps, coordinates field activities, and confirms compliance with ASCE 38-22 standards.
Certified Arborist	Benjamin Koubek, ISA, FNGLA, LIAF	Conducts tree location surveys, health assessments, and provides recommendations for tree protection or mitigation in coordination with survey deliverables.
GIS Supervisor	Brent Reeves	Oversees the integration of survey and SUE data into GIS platforms. Prepares metadata, ensures coordinate system compatibility, and delivers GIS-compatible files and datasets to the Village.
Survey/SUE Field Crews	Seven Field Crews	Conduct all field data collection activities, including boundary surveys, topographic mapping, utility designation, and construction staking. Field staff are trained in GNSS, total station, and LiDAR equipment operations.
Chief Geotechnical Engineer | AREHNA	Angela Alba, PE	Oversee geotechnical investigations, including boring programs, laboratory testing, and preparation of preliminary and final geotechnical reports. Serves as Engineer of Record for geotechnical deliverables.
Chief Support Geotechnical Engineer | GCME	Partha Ghosh, PE	Will likely mirror responsibilities related to coordination of geotechnical field work, lab analysis, and reporting.

AREHNA is currently partnering with KCI on multiple Florida municipal contracts, including an active engagement for Broward County. GCME has worked directly with KCI on previous assignments for the Village, including geotechnical and SUE support for stormwater improvement projects. Both firms bring decades of experience supporting complex infrastructure, transportation, and municipal projects.

Management and Oversight

Geotechnical services will be scoped, scheduled, and reviewed by KCI's Contract Manager, Benjamin Hoyle, PSM, and all deliverables will undergo QA/QC review by KCI's Principal Surveyor, Jim Gellenthin, PSM. Subconsultant geotechnical reports and recommendations will be developed and certified by the licensed Geotechnical Managers noted above, ensuring conformance with the Village's design standards, resiliency goals, and regulatory expectations.

Monitoring and Compliance

This subcontracting plan will be incorporated into KCI's contract with the Village and monitored throughout the life of the agreement. Subconsultant participation will be tracked and reported by category of work under each task order. KCI's internal resource management platform and ISO 9001:2015-certified QA/QC program will support continuous performance tracking, schedule alignment, and technical quality assurance for all subcontracted services.

TAB E – PROPOSAL APPROACH

KCI

E. Proposal Approach

Approach to Implementation

KCI is uniquely positioned to provide the Village of Key Biscayne with high-quality, responsive geotechnical and surveying services under this continuing services contract. Our approach is rooted in decades of municipal experience, a proven track record of performance, and a commitment to advancing the Village's goals of resiliency, sustainability, infrastructure modernization, and placemaking.

From initial coordination through final deliverables, KCI brings comprehensive technical capabilities, strategic scheduling, and an emphasis on innovation to confirm that each assignment supports the Village's broader goals in infrastructure resiliency, coastal protection, stormwater management, and community development.

GEOTECHNICAL SERVICES APPROACH

Our Geotechnical Services team will deliver site investigation, analysis, reporting, and construction support to enhance the resiliency and longevity of Village assets, supporting strategies such as fortifying seawalls, improving flood protection, and designing sustainable infrastructure.

KEY ELEMENTS OF KCI'S GEOTECHNICAL APPROACH

- Project Set-Up and Coordination. Each task order begins with a detailed scoping and scheduling effort led by the Project Manager. Kickoff meetings will align Village needs with field operations, emphasizing critical areas such as flood-prone zones or infrastructure slated for upgrades under the Resiliency and Future initiatives.
- Field Investigations. AREHNA and GCME will deploy experienced field teams using state-of-the-art drilling rigs, CPT equipment, and in-house certified laboratories for soil and rock testing. We will conduct borings, test pits, groundwater monitoring, and laboratory analyses as required.
- Advanced Analysis and Reporting. Our geotechnical engineers will evaluate subsurface conditions and provide comprehensive recommendations for foundations, pavement design, slope stability, dewatering, and mitigation of liquefaction or settlement risks. Reports will be tailored to support strategic priorities like elevating structures and securing stormwater systems.
- Construction Support. AREHNA and GCME will provide real-time construction monitoring, compaction testing, submittal review, and dewatering consultation, ensuring compliance with Village resiliency objectives and minimizing environmental impacts.
- Documentation. Deliverables will include preliminary and final geotechnical reports, boring logs, engineering recommendations, and meeting participation to support stakeholder decision-making.

SURVEY SERVICES APPROACH

KCI understands that high-quality survey data is fundamental to resilient design, smart infrastructure investment, and maintaining the character of Key Biscayne. Our Survey Division, backed by Florida-licensed Professional Surveyors and Mappers and seven local field crews, will deliver responsive, accurate services across all requested survey categories.

Key Elements of KCI's Surveying Approach

- Boundary and Right-of-Way Surveys. Certified boundary and ROW surveys will support projects aligned with updated development regulations, resilient streetscapes, and coastal protection efforts.
- Topographic and Hydrographic Surveys. Topographic data and hydrographic mapping will directly support drainage improvements, shoreline fortification, and flood mitigation planning efforts per the Village's Resiliency and Future plan.
- Construction Layout and As-Builts. We will provide high-accuracy construction staking, verification surveys, and as-builts to expedite project delivery and uphold quality control across capital projects.
- Advanced Technologies.
  - Terrestrial, mobile, and drone-based LiDAR to create highly accurate Digital Terrain Models (DTMs)
  - GIS integration for asset management and long-term resiliency tracking

- Remote-controlled hydrographic surveying for stormwater and coastal projects

- Data and Deliverables. All deliverables (survey maps, plats, CAD files, GIS databases) will be formatted to seamlessly integrate with Village systems and support engineering, design, FEMA submittals, and environmental permitting.

Commitment to Innovation and Sustainability

KCI is committed to integrating innovative technology and sustainable practices into all project phases to support the Village's goals for resilience, sustainability, and placemaking. Our approach will:

- Leverage mobile and terrestrial LiDAR, drone photogrammetry, and ground-penetrating radar (GPR) to minimize field disruptions and maximize data precision.
- Expedite the adoption of resilient design best practices by delivering timely, reliable data for flood protection, green infrastructure, and seawall strengthening initiatives.
- Align geotechnical and survey efforts with the Village's Resiliency and Future strategies, including securing flood protection, enhancing stormwater storage, and reinforcing the Village's coastal and bayside infrastructure.

Qualifications and Experience

- The institutional knowledge of our Contract Manager, Benjamin Hoyle, and his supporting staff is of great value, as it complements the expertise of many of the Village's currently employed staff. This continuity will lead to less rework and faster project execution.
- Experienced, Florida-licensed Professional Surveyors and Engineers with municipal infrastructure specialization.
- Certified laboratories for geotechnical testing, ISO 9001:2015-certified QA/QC program, and a robust internal project tracking system.
- A demonstrated history of successful delivery for projects directly supporting coastal resilience, drainage improvements, public parks, and right-of-way enhancements.

Previous Experience

KCI has surveyed the entire Village public rights-of-way and more in the last five years. Our deep understanding, established survey control, and records put us in the position to provide the quickest and cheapest survey deliverables for the Village due to this unique experience and data from our past performance, including:

Master Island Survey (boundary, topographic, hydrographic, and floodplain surveys): KCI prepared a comprehensive survey for the Village of Key Biscayne in Florida, completed within 14 months that included mapping of all visible features within the public right-of-way spanning over 24 miles of roadway, inclusive of a Digital Terrain Model (DTM) and the facades of all buildings lining the route. Leveraging our expertise and cutting-edge technology, KCI deployed both mobile and terrestrial 3D LiDAR scanners to collect data, further enhancing the dataset with aerial LiDAR. In parallel, KCI established a robust network of horizontal and vertical control points to precisely delineate the 24-mile right-of-way along the road network. Additionally, KCI meticulously determined the finished floor elevation for more than 1,600 structures across the Village and mapped the location and height of over 25,000 trees within the right-of-way.

- **Boundary Surveys:** KCI has prepared numerous Boundary Surveys and title review of various parcels, including review of abstract of title, providing opinions of statements of boundary determinations for the Hacienda Canal.
- **Geotechnical Engineering and Topographic Surveys:** KCI and our subconsultant, GCME, partnered together to provide Subsurface Utility Engineering (SUE) utility designates, soil borings and testing, and topographic survey of the sports field at St. Agnes Catholic Church and performed the same services at the basketball courts for the Key Biscayne K-8 Center.
- **Hydrographic/Bathymetric and Mean High-Water (MHW) Surveys:** KCI has prepared hydrographic surveys for the Village of the Hacienda Canal and Hurricane Harbor. These surveys were used to prepare MHW surveys for boundary determination, seawall design, and hydraulic calculations/analysis for the design of new stormwater drainage outfalls.
- **Utility Mapping and As-Built Surveys:** KCI's Survey and SUE Team have obtained hundreds of sanitary and stormwater gravity structures as-builts and miles of underground utility mapping for the K-8 Basin and Garden District stormwater design.
- **Sketch and Descriptions:** KCI has prepared several public beach access descriptions, drainage easements, and temporary construction easements for recording in Miami-Dade County on behalf of the Village.

Workload Management and Prioritization

KCI maintains a robust bench of qualified personnel to support Surveying services and is fully committed to making sure that the key staff listed in our proposal remain dedicated to the Village of Key Biscayne projects. When workload demands increase, KCI strategically assigns overflow work to our broader support team, prioritizing the availability of key personnel for Village-specific tasks. To support Geotechnical services, KCI has partnered with two experienced small-business subconsultants. This dual-firm approach provides built-in redundancy and flexibility, making sure that if one firm experiences high demand, the other can maintain progress without delay. This structure allows us to uphold an aggressive project schedule, as needed, to meet the Village's expectations.

Facilities, Technology, and Resources

KCI deploys a full suite of state-of-the-art technologies to support Village projects:

- Robotic Total Stations and Dual-Frequency GPS.
- Static, Mobile, and Drone-Based LiDAR Systems.
- Tablet-Based Real-Time Data Collectors.
- Hydrographic Surveying Platforms.
- AutoCAD Civil 3D, ArcGIS, and advanced geospatial software.

Commitment to Timeliness and Quality Control

Continuous communication between KCI and the Village staff is crucial. We believe this is key to success at every level of project management. Each assignment will include:

- Tailored QA/QC plan under ISO 9001:2015 standards
- Concurrent field and office workflows
- Same-day field-to-office data transfers where feasible
- Dedicated senior reviewers for all deliverables
- Transparent communication with Village project managers throughout project execution

Conclusion

KCI is honored to continue supporting the Village of Key Biscayne in its commitment to resiliency, sustainability, infrastructure modernization, and quality of life enhancement. Through responsive service, advanced technology, and local expertise, we will deliver the geotechnical and survey services necessary to help the Village navigate climate challenges, foster vibrant places, and preserve its unique coastal character for future generations.

Public Entity Crimes Affidavit

I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentations.

I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime; or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, and partners, shareholders, employees, members, and agents who are active in management of an entity.

Based on information and belief, the statement, which I have marked below, is true in relations to the entity submitting this sworn statement.

(INDICATE WHICH STATEMENT APPLIES.)

[X] Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with ad convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives partners, shareholders, employees, members, or agents who are active in the management of the entity,

or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida , Division of Administrative Hearings and the final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list (attach a copy of the final order).

I understand that the submission of this form to the contracting officer for the public entity identified in paragraph 1 above is for that public entity only and that this form is valid through December 31 of the calendar year in which it is filed. I also understand that I am required to inform the public entity prior to entering into a contract in excess of the threshold amount provided in Section 287.017, Florida Statutes for category two of any change in the information contained in this form.

Business Entity Affidavit

Proposer hereby recognizes and certifies that no elected official, board member, or employee of the Village of Key Biscayne (the " Village") shall have a financial interest directly or indirectly in this transaction or any compensation to be paid under or through this transaction, and further, that no Village employee, nor any elected or appointed officer (including Village board members) of the Village, nor any spouse, parent or child of such employee or elected or appointed officer of the Village, may be a partner, officer, director or proprietor of Proposer or Vendor, and further, that no such Village employee or elected or appointed officer, or the spouse, parent or child of any of them, alone or in combination, may have a material interest in the Vendor or Proposer. Material interest means direct or indirect ownership of more than 5% of the total assets or capital stock of the Proposer. Any exception to these above-described

restrictions must be expressly provided by applicable law or ordinance and be confirmed in writing by Village. Further, Proposer recognizes that with respect to this transaction or bid, if any Proposer violates or is a party to a violation of the ethics ordinances or rules of the Village, the provisions of Miami-Dade County Code Section 2-11.1, as applicable to Village, or the provisions of Chapter 112, part III, Fla. Stat., the Code of Ethics for Public Officers and Employees, such Proposer may be disqualified from furnishing the goods or services for which the bid or proposal is submitted and may be further disqualified from submitting any future bids or proposals for goods or services to Village.

Scrutinized Company Certification

1. Proposer certifies that it and its subcontractors are not on the Scrutinized Companies that Boycott Israel List. Pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer or its subcontractors are found to have submitted a false certification; or if the Proposer, or its subcontractors are placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
2. If the Agreement that may result from this ITB is for more than one million dollars, the Proposer certifies that it and its subcontractors are also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer, its affiliates, or its subcontractors are found to have submitted a false certification; or if the Proposer, its affiliates, or its subcontractors are placed on the Scrutinized

Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

3. The Proposer agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under the Agreement that may result from this ITB. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize the above-stated contracting prohibitions then they shall become inoperative.

Truth in Negotiation Certification

The CONTRACTOR hereby certifies, covenants, and warrants that wage rates and other factual unit costs supporting the compensation for this project's agreement are accurate, complete, and current at the time of contracting.

The CONTRACTOR further agrees that the original agreement price and any additions thereto shall be adjusted to exclude any significant sums by which the Village determines the agreement price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such agreement adjustments shall be made within (1) year following the end of the contract. For purposes of this certificate, the end of the agreement shall be deemed to be the date of the final billing or acceptance of the work by the Village, whichever is later.

DRUG FREE WORKPLACE

The undersigned proposer in accordance with Chapter 287.087, Florida Statutes, hereby certifies that Colliers Engineering & Design, Inc. does:

(Name of proposer)

1. Publish a statement notifying employees that the unlawful manufacturing, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the contractual services described in the RFQ document a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the contractual services described in the RFQ or the Agreement, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

7. As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

Social Security Number: N/A

(if the entity has no FEIN, include the Social Security Number of the individual signing this sworn statement)

3. My name is: Michael Ehrhart, PSM
(print name of individual signing this document)

and my relationship to the entity is: Principal Associate

4. I understand that a "public entity crime" as defined in §287.133(1)(g), Florida Statutes means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United states, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

5. I understand that a "convicted" or "conviction" as defined in §287.133(1)(b), Florida Statutes, means a finding of guilt of a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

6. I understand that an "affiliate" as defined in §287.133(1)(a), Florida Statutes means:

(a) A predecessor or successor of a person or a corporation convicted of a public entity crime; or

(b) An entity under the control of any natural person who is active in the

management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, share holders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima-facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

7. I understand that a "person" as defined in §287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which binds or applies to bids on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

8. Based on the information and belief, the statement that I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies)

   a. __X__ Neither the entity submitting the sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity nor any affiliate of the entity have been charged with and convicted of a public entity crime subsequent to July 1, 1989.

   b. ____ The entity submitting this sworn statement, or one or more of the officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989 and (Please indicate which additional statement applies)

      1) ____ There has been a proceeding concerning the conviction before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. (Please attach a copy of the final order)

      2) ____ The person or affiliate was placed on the convicted list. There has been a subsequent proceeding before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or affiliate from the convicted vendor list. (Please attach a copy of the final order)

      3) ____ The person or affiliate has not been placed on the convicted vendor list. (Please describe any action taken by or pending with the Department of

(Address)

to furnish all materials, equipment, and labor and to perform all work in accordance with the Contract Documents for:

CONTINNUING GEOTECHNICAL AND SURVEY SERVICES

("THE PROJECT")

TO: Village of Key Biscayne
Attn: Village Clerk
88 West McIntyre Street, Suite 220
Key Biscayne, Florida 33149

The undersigned, as Bidder, hereby declares that the only person or persons interested in the Bid, as principal or principals, is or are named herein and that no other person than herein mentioned has any interests in the Bid or the Contract to which the Work pertains; that this Bid is made without connection or arrangement with any other person, company, or parties making Bids or Proposals and that the Bid is in all respects fair and made in good faith without collusion or fraud.

The Bidder further declares that he or she has examined the geographic location and sites of the Work; that he has made sufficient investigations to fully satisfy himself that such sites are suitable for this Work; and he assumes full responsibility therefore; that he has examined the specifications for the Work and from his own experience or from professional advice that the specifications are sufficient for the Work to be done and he has examined the other Contract Documents relating thereto, including the Instructions to Bidders, the Contract, Bid, Detailed Scope of Work/Specifications, Qualification Statement, Public Entity Crime Form, and Insurance requirements

and he has read all addenda prior to the opening of Bids, and that he has satisfied himself fully, relative to all matters and conditions with respect to the Work to which this Bid pertains.
The Bidder proposes and agrees, if this Bid is accepted, to timely execute the Contract with the Village in the form attached and to furnish all necessary materials, all equipment, all necessary machinery, tools, apparatus, means of transportation, and labor necessary to complete the Work specified in the Bid and the Contract, and called for by the drawings and specifications and in the manner specified and to timely submit all required bonds and insurance certificates.

***NOTE:* THIS SCHEDULE OF BID ITEMS IS MERELY ILLUSTRATIVE OF THE MINIMUM AMOUNT/QUANTITY OF WORK TO BE PERFORMED UNDER THE CONTRACT. IN THE CASE OF ANY CONFLICT BETWEEN THIS SCHEDULE OF BID ITEMS AND THE DETAILED SPECIFICATIONS, THE DETAILED SPECIFICATIONS WILL PREVAIL.**

The Bidder further proposes and agrees to comply in all respects with the time limits for commencement and completion of the Work as stated in the Contract.

The Bidder agrees to execute the Contract and furnish the executed Contract, all required bonds, insurance certificates, and other required information to Village within ten (10) ten calendar days after written notice of the Award of Contract. Failure on the part of the Bidder to timely comply with this provision shall give Village all rights and remedies set forth in the Instructions to Bidders.

The undersigned agrees to accept as full compensation therefore the total of the lump sum prices and extended unit prices items named in the following schedule. It is understood that the unit prices quoted or established for a particular item are to be used for computing the amount to be paid to the Contractor, based on the Work actually performed as determined by the Contract and the Village. However, in utilizing the schedule, the Bidder agrees that in no event shall compensation paid to the Bidder under the Contract exceed the dollar amount of the Bidder's Bid amount, as set forth in the attached Bid.

It is intended that all Work to be performed under this Bid shall commence approximately thirty (30) days after Contract execution.

In no event shall Village be obligated to pay for Work not performed or materials not furnished. Bidder's

RFQ # 2025-11

Dear Professional Services Committee,

Colliers Engineering & Design (CED) appreciates the opportunity to submit our response for providing Continuing Geotechnical and Survey Services for the Village of Key Biscayne (Village). Our professional team has an excellent track record for consistent, accurate, and thorough contract management execution and product delivery. We meet our client's expectations through a coordinated team effort combining skilled personnel and the latest technological instrumentation.

CED is a multi-disciplinary professional services firm and has been providing geotechnical engineering, materials testing, and survey services in Florida since 2013. With all required services under one roof, we can find efficiencies through communication and collaboration to help manage your physical assets and leverage our relative experience to bring solutions beyond the current scope of work. CED brings an excellent reputation for responsive project management, quality deliverables, and experience to perform all the services identified by the Village.

CED understands the importance of representing the best interests of the Village through this on-call services contract. We are committed to establishing a long-term relationship with the Village by providing quality services, leveraging the talent of our staff, utilizing emerging technology, and applying a proven contract management approach to ultimately conserve budgets and time.

This contract will be managed from our local Miami office, located at 7400 Corporate Center Drive, Ste C, Miami, Florida 33126. CED's additional seven Florida offices will also be available to provide support services under this contract as needed.

Mr. Eugene Collings-Bonfill, PE, PSM will serve as the Contract/Project Manager and primary point of contact. He has over 26 years of experience in Florida and is very familiar with the Miami-Dade County region, and more specifically the Village of Key Biscayne. Eugene understands the Village's requirements for this contract and will communicate directly with the Village PM and respond to all questions in a timely manner.

Mr. Michael Ehrhart, PSM is an authorized signatory with full authority to make representations and to negotiate for the firm. As Principal Associate and Regional Manager, I personally commit CED's priority effort to meet all of your requirements efficiently and effectively on schedule and within budget.

If there are any questions or you require further information, please feel free to contact our Project Manager and first Point of Contact for this contract, Eugene Collings-Bonfill, PE, PSM via email at eugene.collingsbonfill@collierseng.com or at 305.938.9074 or myself at 239.994.5713 or via email at michael.ehrhart@collierseng.com.

Sincerely,
CED

Why CED ....

- All locally based in-house services
- CED lives, works, and plays in the areas where we hold client relationships. With this in mind we operate as a family-like team. This also includes volunteering with all of our local communities. We enjoy the local areas especially when we are apart of successful improvement projects such as parks, schools, churches, and infrastructure, and more
- CED's Subject Matter Experts in geotechnical and survey services ensure expert, precise work that meets industry standards.
- Secure cloud based CMT reporting system that greatly reduces the time from site to the Village receiving final CMT reports.
- Turnkey Knowledge & Expertise of ACSE 38-22 Standards. No Learning Curve!
- Multi-discipline firm that provides more than geotechnical, materials testing, and survey services, allowing for expanded opportunities and new technology on projects.

Executive Summary

CED is a multi-disciplinary professional services firm with expertise in a wide range of geotechnical engineering and surveying services. In Florida, we have eight offices with over 160 employees and have been serving the local area since 1984. Our proposed Project Manager, Eugene Collings-Bonfill, PE, PSM will oversee and manage this contract from our local office at **7400 Corporate Center Drive, Ste C, Miami, Florida 33126**. We also have additional staff available from our Ft. Lauderdale and Boca Raton offices to help ensure all deadline are met. Given our staff location and availability, we will meet the Village's expectations for responsiveness and are prepared to immediately provide staff and resources as needed to support this important contract.

The CED team is qualified and able to provide all of the professional services required for this contract in-house. This supports efficient testing and scheduling as needed for our clients. The CED team is composed of licensed professional engineers, surveyors, and technical staff with extensive experience on a wide variety of similar contracts.

CED professionals provide a full range of services to assist municipalities, authorities, and state agencies.

- Licensed Geotechnical Engineers and Field Staff
- FDOT/ACI Accredited Field (CMT) Testing
- Professional Land Surveyors
- Geographical Information System Professionals (GISP)
- Licensed Civil/Transportation Engineers
- CMEC Accredited Laboratory
- LEED® Accredited Staff
- Professional Traffic Operations Engineers (PTOE)
- Licensed Professional Land Planners
- Environmental Scientists & Engineers
- Licensed Professional Geologists
- Licensed Professional Architects
- Licensed Professional Landscape Architects
- Grant Writers
- Archaeologists
- Certified CEI & CBI Inspectors
- NICET Level III and IV Staff

We have worked with similar clients in Florida for over 11 years and throughout the United States for over 38 years. CED consistently strives to provide proactive, viable solutions to local public clients and governmental agencies to help meet diverse planning, infrastructure, and capital improvement goals while maintaining function, natural resources, aesthetics, and quality of life. Our services encompass all aspects of public endeavors including local and regional utilities, water resources, parks and recreational spaces, public facilities, roadways, and streetscape design.

Our professionals instill a proactive approach in assisting public clients with their long and short-term objectives. A brief list of our similar on-call services contracts that provide geotechnical and survey services with local governmental agencies include (abbreviated list):

Understanding the Village's Needs

The Village stands at a pivotal moment in its infrastructure planning, with a growing emphasis on resilience, sustainability, and community safety. With the implementation of its Capital Improvement Plan (CIP) along with the Resilient Infrastructure and Adaptation Program, the Village is proactively addressing critical needs such as stormwater infrastructure upgrades, roadway improvements, sea level rise adaptation, and utility modernization. CED is uniquely positioned to support the Village in advancing these goals through the delivery of high-quality geotechnical and surveying services that are timely, precise, and tailored to the Village's coastal conditions and community values.

Success for this contract will be achieved through technical innovation, effective communication, coordination, and collaboration between our CED team, stakeholders and the Village. Efficient collection of enhanced geotechnical and topographic information will provide significant benefits for the Village's on-going focus on flood control, water supply planning, water quality improvement, ecosystem restoration and resiliency/sustainability efforts.

We are also distinguished by our direct experience working within the Village itself. CED's Project Manager, Eugene Collings-Bonfill, PE, PSM is a seasoned engineering professional who recently served as Interim Public Works Director for the Village and previously held the role of Assistant Public Works Director for the City of Doral. In this capacity, Mr. Collings-Bonfill gained firsthand experience with the Village's infrastructure network, CIP priorities, permitting processes, and inter-agency coordination needs. **His leadership ensures that our team brings not only technical excellence but institutional knowledge that can be applied immediately and efficiently.**

We are intimately familiar with the Village's overall goals, which include:

- **Stormwater system improvements** to reduce flooding and adapt to future sea level rise
- **Roadway and utility infrastructure rehabilitation,** particularly along Crandon Boulevard and other critical corridors
- **Parks and public space enhancements** that require precise surveying and subsurface validation
- **Coordination with Miami-Dade County,** FDOT, and FEMA on grant-funded infrastructure and mitigation projects
- **Coordination with AECOM and Black and Veatch** as the Village's Program Managers for the Resilient Infrastructure and Adaptation Program

CED understands the urgency of these projects and the importance of clear, concise, and responsive communication. Our surveying and geotechnical teams are equipped with advanced field technologies, licensed professionals, and a streamlined QA/QC process to deliver data and recommendations that are field-verified, regulation-compliant, and construction-ready.

Our local presence, multidisciplinary capabilities, and experience navigating the complexities of coastal development give us a distinct advantage in helping the Village move forward confidently with its infrastructure investments.

CED understands the importance of representing the best interests of the Village through this on-call services contract. We are committed to establishing a long-term relationship supporting the Village's vision of a safe, resilient, and thriving island community by providing quality and committed services, leveraging the talent of our staff, utilizing emerging technology, and applying a proven contract management approach to ultimately conserve budgets and time.

Qualifications and Experience

Qualifications

Firm Qualifications & Industry Knowledge and Experience

Our engineers, surveyors, and technical staff take a responsive approach to help public clients achieve their objectives. Our experience with both public and private applications gives us unique insight into the review process, and our in-house support streamlines communication, ensuring the best value for our clients.

Geotechnical Capabilities

Geotechnical Services. Our local geotechnical engineers and staff can provide a complete range of geotechnical testing and consulting services for all types of projects. This would include roadways, bridges, utilities, parks, wastewater and water treatment plants, educational facilities, school developments, parking garages, airports, communication structures, and land development sites.

Our geotechnical engineers have extensive familiarity with difficult soil and subsurface conditions requiring engineered solutions. Ground improvement methodologies, such as dynamic compaction, grouting, deep vibratory compaction, in-situ mixing, soil additives and geosynthetics, have been especially useful tools in our store of methods to conserve your time and money on difficult projects.

CED and our team will provide all supplemental services required for borings, cone penetration, coring and probes to soil/rock samples in the field. We will also utilize our in-house laboratory for testing services along with our teaming partners, laboratory services. We are also able to store collected samples for the required time limit (180 days or as noted) along with taking samples in canals, channels, and creeks. With our comprehensive range of internal services, such as surveying, we effectively meet client needs by leveraging specialized, discipline-specific equipment.

Geophysical Services. CED is also able to provide geophysical services. Our personnel are certified and experienced to provide a range of geophysical techniques, such as Ground-Penetrating Radar (GPR), Electrical-Resistivity Imaging (ERI), and Multi-Channel Analysis of Surface Waves (MASW) testing. These cutting edge technologies can provide valuable information that our geophysicists can also analyze for subsurface anomalies that could indicate geotechnical issues.

Construction Materials Testing. CED provides testing and analysis of the properties and performance behavior of soils and all forms of materials used in the construction and development industries, including field testing of soils, asphalt, road base, concrete and masonry.

Our geophysical capabilities significantly exceed those requested by this solicitation. These are further detailed below. These next generation capabilities increase the value and amount of information that can be acquired to the benefit of the Village.

We can respond to the Village's requests for services within two hours or less, and will be at the job site at the times requested for construction materials testing and sample gathering. A preliminary copy of the test results can be submitted to the Village within one hour after completion of testing. Our staff is available nights, weekends and holidays, and all staff are equipped with smart phones and other devices for responsive communication. **CED uses a cloud based CMT reporting system to provide real time reporting and results in an accelerated deliverable time to traditional methods.**

Our **in-house laboratory facility is accredited** by CMEC and FDOT with FDOT test methods to help clients meet all applicable building codes and project requirements with quality materials testing provided in a timely, cost effective, and practical manner. Our on-site professionals are CTQP (FDOT) and ACI certified and have performed testing for various projects as part of the geotechnical exploration and construction inspection and testing services.

Our soil testing capabilities include basic index testing such as particle size analysis, hydrometer, moisture content, Atterberg Limits, proctors and organic content to more advanced soil testing such as CBR/LBR, Consolidation, Direct Shear, Permeability and Tri-Axial (UC, UU and CU). Our rock testing capabilities include unconfined compressive strength. Our concrete testing capabilities include compressive strength testing of cylinders, prisms, cubes and cores and flexural strength of beams.

CED staff includes FDOT CEI inspectors that can easily provide CMT services for testing soils, pipe back fill, road subbase, road base, concrete and masonry.

CMT Services will follow the most current versions of the American Society for Testing Materials (ASTM), Florida Department of Transportation (FDOT) and/or the American Association of State Highway and Transportation Officials (AASHTO) specifications for the required test. Our staff is also capable of performing construction observations and quality control operations

Common Material Testing Procedures are Listed Below (but not limited to):

Concrete Cylinders (ASTM C39-10)	Proctors (ASTM D1557-09/ D698)	Limerock Thickness Determinations (& More)	Field Densities (Drive Cylinder, Sand Cone & Nuclear Method) (ASTM D6938-10)
Quality Limerock Chemical Analysis	Limerock Bearing Ratio (FM 5-515)	Soil Cement Mix Design	Percolation and infiltration testing
Monitoring Soil Cement Installation	Comprehensive Strength of Soil Cement Cores	Soil Classifications per (ASTM D2487) and (AASHTO M145)	Sieve Analysis of Fine & Course Aggregates (ASTM C136-06)
Permeability of Granular Soils (Falling & Constant Head) (ASTM D5084-10)	Test Strip for Asphaltic Concrete Laydown	Resistance to Abrasion by Use of the Los Angeles Machine (ASTM C535-09)	Soundness of Aggregates by Use of Sodium Sulfate or Magnesium Sulfate (ASTM C88-05)
Resistivity of Soil and Water (ASTM G187-05)	Determining pH of Soil and Water (FM 5-550)	Sulfate in Soil and Water	Chloride in Soil and Water
Specific Gravity of Course Aggregate (ASTM C127-07)	Bulk Specific Gravity of In-Place Bituminous Pavement Cores	Organic Content (ASTM D 2974)	Hand Auger Borings (ASTM D 1452)
Corrosivity Series (ASTM G-162-99) (10)	Marshall stability and flow (ASTM D-1559)	Beam Preparation of Fresh Concrete & Pickup (ASTM C31)	Air Content of Fresh Concrete (C138)
Rebound Number of Hardened Concrete (ASTM C805-08)	Laboratory Flexural Strength of Molded Beams (C42-10)	Laboratory Compression of Concrete Cores (ASTM C39)	Coring of Hardened Concrete (ASTM C42-10)
Dry Rodded Unit Weight of Fine or Coarse Aggregate (ASTM C29-09)	Specific Gravity & Absorption of Fine Aggregate (ASTM C128-07)	Quantitative Determination of Asphalt Content From Asphalt Paving Mixtures	Determination of the Relative Density of Hot Mix Asphalt (Super Pave) (ASTM D6925-09)
Maximum Specific Gravity of Bituminous Paving Mixtures	Mechanical Analysis of Extracted Aggregate (ASTM D5444-08)	Density of Bituminous Concrete Mixtures In-Place by the Nuclear Metho (ASTM D-2950-09)	

such as rebar placement verification, structural steel erection verification, pre-cast concrete field-review, pavement construction observations, welding inspections, pile installation monitoring, and aggregate/base source specification compliance. We also provide seismographic equipment for on-demand construction vibration monitoring or for post-construction forensic analysis. Laboratory services are accredited with a closely controlled QA/QC program to provide quality results in all areas requested in this proposal. The full service laboratory is staffed to provide response in a timely manner to the Village. In addition, our staff is cross trained to allow for quick identification of issues and/or challenges in integrating the laboratory results into our actual materials testing program.

Survey Capabilities

Boundary Surveys. For boundary projects, all parent parcel corners are located, as well as important corners from plats, right of way maps, lines of occupation, and other reference material that may be used to develop a strong boundary determination. All of these locations are made using redundant measurements using the proper tool for the job. A Professional Surveyor and Mapper will weigh the evidence located and make a boundary determination.

In instances where boundaries are ambiguous or may be otherwise challenging, a second Professional Surveyor and Mapper will review this information, and a consensus boundary determination will be made. The resulting boundary survey will depict all information found with notations as to its position and impact on the subject parcel boundary. When available, a title commitment or ownership and encumbrance report will be reviewed for information that can impact the boundary determination. These reports will also supply critical information on documents of record that can affect the subject property. All this information will be mapped on the survey and added to the report on the face of the survey for easy cross-referencing by the user.

Topographic Surveys. A typical project will usually consist of establishing secondary control to assist in the collection of the topographic features (curb, sidewalks, stripping, signs, utilities, drainage Survey for inlets at street intersections, bridge components, sign clearances, trees, etc.). Acquiring Topographic features and elevations for the Digital Terrain Model (DTM) (3D Surface) would be collected using either tradition trigonometric locations with a Total Station and Data Collector, Static LiDAR (Leica P40/ P50), Mobile LiDAR (Riegl VMX-450 or 1HA), Unmanned Aerial System LiDAR (VAPOR 55), or any combination of two or more of these methods. Check sections would be collected to compare to the TIN / DTM.

Construction Surveys Including As-built Surveys. Construction Surveying is time-sensitive, safety sensitive, and accuracy and quality control are vital to project success. When a construction survey request is received, a qualified member of our staff will review all plans and documentation related to the request to confirm necessary information is received. If additional information is needed, this need will be immediately communicated to the project team so that as little time as possible is lost to information gathering. To the greatest extent possible, tasks will be pre-calculated to include all required QC field checks. This allows field crews to work efficiently and will keep the overall project flowing. Crews collect data on all points set and return this information to the office where all checks are confirmed, and collected data is compared to calculated positions to ensure quality. Communication with contractors before, during and after construction tasks is a vital part of maintaining schedule and quality. A CED project surveyor will always coordinate all activities with the contractor and Village staff. When published as-builts are required, Mr. Collings-Bonfill will review minimum as-built requirements for each project. If any data is gathered that does not meet minimum requirements, CED will perform a second QC check of our data, then contact the contractor and/or the Village representative to make the non-conforming issue known prior to issuance of the survey. If necessary, CED's crews will return to the site to gather new data to resolve any issues. Final drawings are then issued with confidence that the project won't be delayed by survey as-built issues.

Right-of-Way Mapping and Surveys. We would perform the necessary reconnaissance, recover survey control and relevant local monumentation. A Project Network Control will be set, and positioning determined by Static GPS and conventional Traverse will be performed to verify GPS coordinates. If vertical information is required, a Digital Level would be used to establish elevations. GPS vectors will be processed, and traverse adjusted with Village approved software and procedures. Recovered Historical Baseline / alignment points, subdivision ties, section corners and ¼ section corners, block corners, monumentation, occupation, and side street(s) will be surveyed in accordance with Standard Procedures.

General Land and Aerial Photography Surveying Services. We provide comprehensive land and aerial photography surveying services. Our offerings include detailed land surveys conducted through both traditional ground-based methods and cutting-edge aerial imaging techniques. Our team utilizes state-of-the-art equipment and technology to capture high-resolution images and data for accurate mapping and analysis. Whether for land development, infrastructure planning, environmental assessment, or other purposes, our surveying services deliver precise and reliable results tailored to meet the project needs of this contract.

CED can deploy one of our USA made, Department of Homeland Security compliant unmanned aerial system platforms outfitted with the Riegl VUX Lidar system. With 500,000 points per second and a 45-minute flight duration before the need to change batteries, these unmanned aerial vehicle platforms fly at low altitudes and generate up to 12 pulse returns per point, ensuring that true ground is measured and allowing point cloud density that can't be matched by typical manned-flight airborne LiDAR. We utilize this data for Topographic Surveys, Existing Condition Reports, Inventory Management, and CEI applications. Leveraging these technologies gives our clients options to reduce contract costs and schedules, increase product quality and efficiency, more effectively manage projects and communication; and dramatically increase safety for our staff and the traveling public by keeping our survey crews out of the roadways.

Subsurface Utility Engineering, GPR Surveys, and Utility locations (SUE)

SUE operations will be carried out by adhering to the ASCE Standard Guideline for the Collection and Depiction of Existing Subsurface Utility Data (ASCE CI 38-22). Our utility coordination staff will initiate the process by contacting Sunshine 811 to register a design ticket. Following thorough research, we will identify utilities within the project area. Using specialized radio frequency designator (RFD) equipment, our staff will mark the known utilities accurately. Subsequently, our SUE team will employ dual-frequency GPR units to validate these designations and detect any additional anomalies that may suggest the presence of further utilities. The results will meet Level B criteria according to the ASCE CI 38-22 standards. These findings can be communicated through on-site markings, survey-grade mapping, or a combination of both methods. By gathering Quality Level B data prior to design, projects have the best chance of avoiding the delays and costs associated with unforeseen utility conflicts during construction. When design is at an advanced stage and possible conflict points have been identified, CED's SUE crews are ready to perform non- destructive Vacuum Excavation (soft dig) test holes (Quality Level A), verified vertical and horizontal location at these locations so that final design can best eliminate these conflicts.

Geophysical Services. CED is also able to provide geophysical services. Our personnel are certified and experienced to provide a range of geophysical techniques, such as Ground-Penetrating Radar (GPR), Electrical-Resistivity Imaging (ERI), and Multi-Channel Analysis of Surface Waves (MASW) testing. These cutting edge technologies can provide valuable information that our geophysicists can also analyze for subsurface anomalies that could indicate geotechnical issues.

GIS Technical Support

CED offers dedicated technical support for GIS and asset management software, assisting with ArcGIS upgrades, troubleshooting, and software selection and installation to ensure seamless operations. Based on the needs of Village, our technical team will be available to discuss current workflow processes that could be made more efficient using eGIS applications.

The process for such workflow discussions is typically developed into a needs assessment report, if desired. The results of workflow assessments and data gathering with stakeholders deliver a recommendation report, known as an implementation plan. The identified workflow processes to be moved into the eGIS program carry details on cost and approach of the identified implementation, including training of staff. This service could be of benefit to the Village.

GIS Analysis & Visualization. Our team conducts spatial analyses to support infrastructure planning and decision-making. We create GIS-based exhibits, reports, and metadata structures to maintain data integrity while producing high-quality maps and visualizations for Village use. Browser-based mapping provides Village personnel, or the public, the opportunity to interact with the data and collaborate without specific software.

Data Integration & Asset Management. We facilitate seamless GIS integration with asset management and land use systems, converting CAD data, digitizing and georeferencing historical records, and ensuring all GIS data aligns with Village applications. CED is a certified partners with" off the shelf" commercial GIS Asset and Facility Management programs, that are Esri partner products for enterprise asset management solutions. These products deepen the use of GIS for analysis of vertical and horizontal assets, providing an overlay of condition, risk and valuation of assets. These software tools provide reporting and capital project planning applications that dive into the Esri utility network data that is collected by field and office staff. Our team is well versed in asset and facility management principles for utility systems and will provide the best approach based on your requirements if asset management processes are desired.

Ongoing Support. CED provides continued consulting to enhance the Village's GIS capabilities, offering proactive recommendations for system improvements, database enhancements, and expanded functionality. We will act as an extended arm to your current GIS workforce. With extensive experience supporting municipalities across the country, CED's GIS team brings a Geospatial Commitment that delivers precise, innovative, and scalable GIS services tailored to the Village's ever evolving needs. Our team will provide reliable data, optimized workflows, and actionable insights to enhance Village operations and we work closely with other CED disciplines to accomplish these goals as a team.

Past Performance

We understand the Village's overall needs and expectations for this contract as we have served multiple similar clients within Florida and across the US. We will leverage this experience to help manage and execute this contract successfully for the Village.

Client Contact	**Contract | Description**
Florida Keys Aqueduct Authority Representative Ricardo Borromeo, PE P: 813.394.8914 E: rborromeo@carollo.com	**Plantation Key Utility Replacement Project, Plantation Key, FL.** The project consisted of over 5 miles of geotechnical exploration along US Highway 1 on Plantation Key including right-of-way, mainline, and bridges. CED provided topographic survey, SUE, and geotechnical services for this project. • Provided geotechnical exploration and provided corrosivity data, installation recommendations, and soil parameters for the installation process. • Re-established the right of way limits and mapped per recovered monumentation, deeds and plats of record. • Established the horizontal and vertical controls. Set control points throughout the project's corridor. • Field located and mapped of all aboveground topographic features with the project limits such as pavements, curbing, above ground utilities, signs, structures, walls, fences, ditches, and swales, etc. • Field collected and mapped cross-section elevations within the project limits at fifty-foot intervals.
Miami-Dade County (Client Representative) Curtis + Rogers Design Studio Jennie Rogers P: 305.442.1774 E: jennie@curtisrogers.com	**Rocky Creek Playground Improvements, Miami, FL.** CED provided geotechnical exploration for the rehabilitation of the playground area at Rocky Creek Park. Exploration included SPT borings and permeability tests. From the data collected, laboratory tests were performed and soil parameters for design of the foundation elements was provided. Coordination between the County, the design studio, and parks staff was critical to maintaining a safe exploration program in an active park. CED observed all safety regulations and scheduling requests to provide a satisfactory experience for all parties. The CED team has a long history of working on parks and recreation projects and find each project to be unique, allowing particularly for opportunities for value engineering. This project was no different, and several different options were considered to provide the best foundations value to the County.

Staff Qualifications

For this contract, we have structured the team to be led by our Project Manager, **Eugene Collings-Bonfill, PE, PSM**, who will be supported by the core management team of qualified senior discipline leads. This allows for an internal and external streamlined process. CED values our clients and strives to build a positive and trust-based working relationship. We believe the core management team structure best serves this goal.

CED's proposed key staff have worked together on multiple projects and pursuits. Due to our nature as a multi-disciplinary professional services firm, our discipline leads have naturally worked together on different aspects of previous projects that are combined into a well coordinated final product.

Full detailed descriptions of key personnel roles, responsibilities, experience, and education can be found on individual resumes starting on page 15.

Key Personnel

Michael Ehrhart, PSM, will serve as the Principal-in-Charge, and is the Southeast Regional Manager with over 17 years of management experience and a wide array of survey projects, Mr. Ehrhart is responsible for implementing and leveraging advanced technologies into current operations to control costs, reduce scheduling, and increase safety.

Eugene Collings-Bonfill, PE, PSM will serve as the Project Manager and Primary point of contact with the Village. Mr. Collings-Bonfill brings over 26 years of diverse and in-depth experience in the engineering and construction industry. His professional background includes a strong foundation in land surveying, engineering design, geotechnical coordination, program and project management, and construction oversight, particularly for public-sector infrastructure projects. He has successfully led multi-disciplinary teams on complex, high-profile projects for municipalities and government agencies, demonstrating a keen ability to manage schedules, budgets, regulatory compliance, and stakeholder communication. His familiarity with South Florida's regulatory environment and site-specific geotechnical challenges positions him to deliver practical, data-driven solutions tailored to the region's unique coastal conditions.

Notably, he has held leadership roles in municipal public works departments, including serving as Assistant Public Works Director for the City of Doral and, most recently, a brief term as Interim Public Works Director for the Village of Key Biscayne. These roles have provided him with direct insight into the operational, engineering, and infrastructure priorities of the Village, allowing him to anticipate local needs and deliver results that align with agency standards, community expectations, and environmental considerations. His experience working within the Village's framework ensures that he can provide efficient, responsive, and high-quality support for any surveying or geotechnical services assigned under this contract. His integrated approach to project delivery emphasizes proactive planning, risk mitigation, and a collaborative working relationship with municipal staff and stakeholders.

Pavel Drachev, PE, will serve as the Deputy Project Manager. With over 15 years in engineering and project management, Mr. Drachev leads geotechnical projects involving detailed assessments and material testing, compliant with ASTM and regulatory standards. His expertise covers field observation and testing for earthwork, reinforcing steel, and concrete sampling across various constructions. Additionally, Pavel coordinates geotechnical exploration, including field observation and lab testing. His collaborative approach ensures all projects adhere to the highest safety and quality standards while tackling complex geotechnical challenges and maintaining regulatory compliance.

Greg Stevens, PE, will serve as the Geotechnical Services Lead. Mr. Stevens has over 20 years of experience. He has managed geotechnical design projects for numerous public and private sector clients. He has organized and executed geotechnical explorations, performed analyses and designs, prepared technical reports, and maintained project budgets. Mr. Stevens' geotechnical analyses and design experience includes shallow and deep foundations, berm stability, transportation, land development, forensics, sinkholes, ponds, and pavement coring. He is well-versed in industry software such as FB-Deep, L-Pile, Settle3D, Geoslope Suite (Seep/W and Slope/W), Allpile, and SigmaPlot.

Aimara Diaz La Rosa, PSM, will serve as the Survey Services Lead. Ms. Diaz La Rosa has more than 25 years of experience in surveying and mapping for commercial, residential, and governmental clients including right-of-way mapping, subdivision platting, design surveys, various constructions projects, topographic surveys for water and sewer departments, and various boundary, topographic and specific purpose survey projects for private clients, public agencies, and developers. Her experience also includes review of control surveys, right-of-way maps, and design surveys while employed at FDOT D6 Surveying and Mapping office.

Denis, Denis, PE, PSM, will serve as a Senior Surveyor. Mr. Denis has over 18 years of surveying expertise in design and construction and has successfully completed numerous projects, ranging from small-scale land surveys to large-scale construction and infrastructure developments. His expertise includes control and right of way mapping surveys; design surveys for engineering projects; route surveys for highways; utility, topographic, and as-built surveys; ALTA/NSPS land title surveys; and construction support surveys for commercial and high-rise building projects.

Suzanne Zitzman, GISP will serve as the GIS Lead. Ms. Zitzman has over 39 years of extensive GIS/GPS project management, design, and mapping experience in the transportation, and civil engineering fields. She manages the firms national GIS Asset Management Services Division. Her skills include various aspects of utilizing web-based geographic information systems involving utilities, land use, property assessment, environmental and transportation assets.

CED is not your typical Survey/SUE firm because of our in-house services we can provide.

This benefit saves our clients time and money because they have our full suite of services supporting them in multiple ways if needed. Such as emergency response, site/civil design, geotechnical or environmental engineering.

From example: Traditionally, SUE firms within Florida use their GPR results solely for QL-B utility designation, as is requested in this RFP.

GPR results can also provide valuable information that geophysicists (typically found in only geotechnical engineering firms) can also analyze for subsurface anomalies that could indicate geotechnical issues.

CED is fairly unique as it not only provides full level SUE capabilities, but also in-house geophysical analyses that can analyze the collected data for indications of buried debris, indications of karst activity, and other problematic soil conditions. ***This dual use of the collected information significantly increases the value of the deliverable to the client***. Particularly, we have found this combination to be very effective when analyzing utility issues, such as utility failures or distresses.

Michael Ehrhart, PSM

Principal-In-Charge| Geospatial Regional Manager

Mr. Ehrhart is a Geospatial Regional Manager in Tampa, FL with over 17 years of experience with a wide array of survey projects, including topographic and tunnel verification surveys; GIS based structure inventory; property line restoration, public records research; and department of transportation (DOT) surveys. Mr. Ehrhart is responsible for implementing and leveraging advanced technologies into current survey operations to control cost, reduce scheduling, and increase safety in all survey operations. He specifically utilizes this technology in 3D Hi-Definition Laser Scanning (HDS) and Mobile LiDAR technologies for infrastructure analysis, design survey, and 3D modeling.

Key Projects

Charlotte County Subsurface Utility Engineering Verification, *Charlotte County, FL*
CED is currently under contract with the County to provide SUE services to update and complete an accurate inventory of underground assets. Mr. Ehrhart serves as the Principal for this contract.

City of Tampa Professional Engineering Services for Survey and Subsurface Utility Engineering (SUE), *City of Tampa, FL*
CED provided Quality Level A and B subsurface utility investigations. Quality Level A involves the use of nondestructive digging equipment at critical points to allow for survey of the horizontal and vertical position of underground utilities, as well as the type, size, condition, material, and other characteristics. Quality Level B involves the use of surface geophysical techniques to determine the existence and horizontal position of underground utilities.

District Wide SUE Designate, Locate and Coordination, FDOT D1, *Districtwide, FL*
Performed task work orders to provide Quality Level A and B subsurface utility investigations. Quality Level A involves the use of the use of nondestructive digging equipment at critical points to determine the precise horizontal and vertical position of underground utilities, as well as the type, size, condition, material, and other characteristics. Quality Level B involves the use of surface geophysical techniques to determine the existence and horizontal position of underground utilities

Continuing Services Contract- Legacy Trail Bridge, FDOT D1, *Venice, FL.*
CED acted as a subconsultant to Horizon Engineering Group, Inc. in support of the design of highway widening and various other improvements along State Route 417 from Landstar Boulevard to Boggy Creek Road. The survey scope of work included planimetric mapping and digital terrain modeling of the entire project corridor, from Right of Way to Right of Way for over four miles of highway and cross streets. CED provided underground utility designates and locates, Mobile LiDAR, and UAS LiDAR, which were used to locate and document existing ground features along the roadway. Areas not visible for LIDAR collection, such as drainage ditches and wooded areas, were collected conventionally by RTK GPS or Total station. The resulting datasets were merged to create a highly detailed and comprehensive final design survey deliverable. Mr. Ehrhart was the lead for CED's design survey and LiDAR services for this contract.

Eugene Collings-Bonfill, PE, PSM

Project Manager | Civil/Site

Eugene Collings-Bonfill, PE, PSM brings over 26 years of comprehensive experience in the engineering and construction industry, with expertise spanning surveying, engineering design, program and project management, and construction oversight. His career has been largely focused on municipal infrastructure, with a strong emphasis on parks and public spaces. Notably, Mr. Collings-Bonfill served as the Program Manager for the City of Doral's Parks Bond Program, where he was responsible for the day-to-day planning, coordination, and execution of multiple park improvement projects under the bond initiative. In this role, he led the successful delivery of the majority of the City's bond-funded projects—many of which were completed ahead of schedule and under budget—in collaboration with this CES Team. His proven ability to manage complex, multi-stakeholder projects within a public agency framework makes him uniquely qualified to support the City of Fort Lauderdale's Parks Bond Program. He understands the importance of aligning project delivery with bond compliance, community expectations, and City objectives—ensuring transparency, fiscal responsibility, and timely execution across all phases of program implementation.

Key Projects

Doral Central Park, *Doral, FL*

At 82 acres, Doral Central Park will be the largest park in the city, and one of the largest in the region. The community's vision for this park reflects Doral's populace in that it is both bold and diverse. Located in one of the fastest growing areas of the city, Doral Central Park is envisioned to be a multi-generational destination park for all Doral residents, regardless of age or ability, that seamlessly blends outdoor recreation, indoor recreation, and aquatics in a sustainable and community-centric way. Central Park is envisioned to be the recreation and special-events hub in Doral, and is anticipated to provide over 30 different components and programmatic areas, including: 70,000 SF recreation center, Canoe/Kayak launch, boardwalk trail, nature pavilion, competition pool, dog parks, basketball courts, picnic shelters, volleyball court, tennis courts, events pavilion, bike/exercise loop, community garden, playgrounds, skate park, aquatics center, and an amphitheater.

NW 102 Avenue between NW 66 Street and NW 74 Street – New roadway construction, *Doral, FL*

Mr. Collings-Bonfill served as the project manager with the City of Doral for the design, post-design, and construction of the new roadway corridor for NW 102 Avenue between NW 66 Street and NW 74 Street. The project included Right-of-Way acquisition, Maintenance of Traffic, clearing and grubbing, curb and gutter, retaining wall, roadway base and stabilized subgrade, milling, paving, lighting, drainage, roadway signing and pavement markings.

Doral Boulevard Median Landscaping Improvements – Phase 1, *Doral, FL*

Mr. Collings-Bonfill served as the project manager with the City of Doral for the design, post-design, and construction of the Median Landscaping improvements. The project consisted of the construction and installation of landscaping improvements to include an irrigation system, lighting, and other roadway/landscaping improvements as necessary to adapt the corridor to the Doral Boulevard Beautification Master Plan.

Pavel Drachev, PE

Deputy Project Manager | Geotechnical Services

Mr. Drachev is a Project Engineer with over 15 years of geotechnical engineering, construction observation, and materials testing experience. His construction experience includes field observation and testing services related to earthwork (e.g. subgrade stability; fill placement and compaction testing); cast-in-place concrete sampling and testing for foundations, slabs-on-grade, and slabs-on-metal deck; post-installed anchor installation; spread footing construction; and auger-cast-in-place piles. His geotechnical engineering experience includes coordinating and executing geotechnical exploration programs, including field observation and logging of the exploratory work (test borings and test pits); assignment and execution of laboratory test programs; assistance with geotechnical evaluations (e.g. bearing capacity and settlement determinations); and technical report preparation.

Key Projects

RSW International Airport Expansion, Fort Myers, *Lee County, FL*
Project facilitator and project engineer managing all field staff for the Quality Assurance testing (construction materials testing) for the terminal expansion of RSW. Also charged with preparing all deliverables including daily field reports, laboratory testing, and notifications to clients. Services provided include:

- Field testing of sitework and other improvements to verify general compliance with plans and specifications.
- Auger Cast Pile Observation
- Static Load Test Observation
- CMT laboratory testing on soil and concrete samples

SRQ International Airport, Sarasota-Bradenton, *Lee County, FL*
Project Facilitator and project engineer managing all field staff for a number of tasks including geotechnical exploration/evaluation QA testing and Construction Materials Testing - CMT). Served on multiple projects for varying purposes and roles as a team member with EG Solutions. Projects include:

- Pavement and geotechnical exploration with sitework recommendations for commercial apron expansion of the airport.
- CMT laboratory testing on soil samples to be used for commercial apron expansion.
- QA (Quality Assurance) Construction Materials Testing on the commercial apron expansion including density tests, concrete testing, cement-treated base backfill, and field observations

SFRTA Railway Maintenance Station, *Palm Beach County, FL*
Project Engineer responsible for managing field operations, managing field personnel, and organizing explorations and safety programs with the transit authority. Improvements include sound walls, rail tracks, light structures, buildings, and ponds. Mr. Drachev provided a wide range of geotechnical recommendations for the proposed improvements, as well as remediation recommendations for the issues encountered, based on the results of the exploration.

Mr. Stevens has managed geotechnical design projects for numerous public and private sector clients. He has organized and executed geotechnical explorations, performed geotechnical analyses and designs, prepared technical reports, and maintained project budgets. Mr. Stevens has managed projects and contracts for clientele including the Florida Department of Transportation, Manatee County, Sarasota County, City of Sarasota, Florida Power and Light, Charlotte County Utilities, Charlotte County, and numerous private clients.

Mr. Stevens' geotechnical analyses and design experience includes shallow and deep foundations, berm stability, transportation, land development, forensics, sinkholes, ponds, and pavement coring. He is well-versed in industry software such as FB-Deep, L-Pile, Settle3D, Geoslope Suite (Seep/W and Slope/W), Allpile, and SigmaPlot.

Key Projects

Citywide Drainage Evaluation, *City of Bradenton Beach, FL*
Senior Project Manager responsible as the client representative and geotechnical engineer for the project. Duties included managing all client interactions for direction with the drainage improvements as well as geotechnical concerns. Geotechnical interactions included pavement explorations, soil explorations and forensic evaluations of pavement distresses.

Longboat Pass Drawbridge, *Town of Longboat Key, Manatee County, FL*
Project Engineer and Project Manager responsible for supervising the forensic investigation regarding the movement of the Longboat Pass drawbridge. Geotechnical explorations were performed to develop recommendations for a remediation pile bent to support the distressed bent. Oversaw monitoring services and reviewed PDA services during construction of the project. Contact: Mark Laukner, P.E. / PGA / 813-978-3100

FDOT District 1, Continuing Services Contract - Legacy Trail Bridge, *Venice, FL*
Project Engineer and Project Manager responsible for supervising the geotechnical explorations. Developed geotechnical analyses, including settlement analyses for the Legacy Trail Bridge which is the first GRS-IBI bridge system designed and built by FDOT.

Continuing Services Geotechnical Contract, *Manatee County, FL*
Contract manager and project manager for this contract. Responsibilities included acting as Senior Project Engineer for geotechnical exploration and evaluation, and Responsible Engineer in Charge of QC testing (Construction Materials Testing - CMT). Mr. Stevens served on multiple projects for varying purposes and roles for the County.

Continuing Services Contract, *Sarasota County, FL*
Contract manager and project manager for this contract. Responsibilities included acting as senior project engineer for geotechnical exploration and evaluation, and Responsible Engineer in Charge of CMT testing.

Aimara Diaz La Rosa, PSM

Survey Services Lead | Survey

Ms. Diaz La Rosa has more than 25 years of experience in surveying and mapping for commercial, residential, and governmental clients including right-of-way mapping, subdivision platting, design surveys, various constructions projects, topographic surveys for water and sewer departments, and various boundary, topographic and specific purpose survey projects for private clients, public agencies, and developers. Her experience also includes review of control surveys, right-of-way maps, and design surveys while employed at FDOT D6 Surveying and Mapping office.

She is highly involved in the majority of all the projects, coordinating with the field crews as well as the clients in order to come up with an accurate and time-efficient final product. Her specialties also include Construction layout survey, ALTA-NSPS land title surveys; right-ofway- control surveys; legal descriptions and utility easements; water and sewer as-built surveys; right-of-way surveys; engineering design surveys; construction engineering and inspection (CEI) surveys; route surveys for highways; condominium surveys, and tentative plats and final plats.

Key Projects

City of Miami, Miscellaneous Surveying & Mapping Services, *Miami, FL*
Project Manager: Oversees miscellaneous work orders providing surveying and mapping services, including photogrammetry, boundary surveys, as-built drawings, legal descriptions for right-of-way acquisitions, plats/maps, certification of plats for code compliance, vertical control networks, topographic surveys, construction layouts, drainage surveys, utility designation/coordination, and water boundary surveys.

Morningside Park, City of Miami Miscellaneous Surveying Services Contract, Miami, FL
Project Manager: Managed property boundaries, interior/right-of-way improvements, tree and building locations, elevations, invert elevations, inlets/manholes, easements, site benchmarks, and bathymetric survey around the dock and boat ramp. Morningside Park, approximately 42 acres, is near NE 7th Ave and NE 55th Terrace. Responsible for supervising field and office procedures, ensuring compliance with Florida Standards of Practice and QA/QC.

SR 973 (SW 87 Ave.) from SR 5 (US 1) to SR 90 (SW 8 St.) ROW Control Survey, ROW Map, & ROW Monumentation Map FDOT District 6, *Miami-Dade County, FL*
Project Surveyor & QA/QC Manager. Colliers Engineering & Design is supporting the District with the development of this ROW Map and Monumentation Map effort as a subconsultant to HDR via a GEC contract. The project scope included performing the necessary research and survey to prepare a ROW Control Survey, a ROW Map, and monumenting the ROW and preparing a ROW Monumentation Map. Ms. Diaz La Rosa served as Project Surveyor and QA/QC Manager for this TWO.

SR A1A (Collins Ave. / Indian Creek Dr.) from 5800 Block to 63rd St. and from 26 St. to 44 St, Design Survey FDOT District 6, Miami-Dade County, FL
Project Surveyor & QA/QC Manager. Includes 3D design survey and DTMs performed using Terrestrial Static LiDAR and conventional survey methods; alignment retracement; check cross sections; drainage survey; primary horizontal and vertical control networks; preparation of survey files.

Denis Denis, PE, PSM

Senior Surveyor | Survey

Mr. Denis is a licensed Professional Surveyor and Mapper and a licensed Professional Engineer in Florida and is a proctor for the National Society of Professional Surveyors (NSPS) Certified Survey Technician (CST) program. With over 18 years of surveying expertise in design and construction, Denis has successfully completed numerous projects, ranging from small-scale land surveys to large-scale construction and infrastructure developments. He has worked with multiple Districts of the Florida Department of Transportation (FDOT) and has also served as in-house consultant to FDOT District 6 Surveying and Mapping office. His expertise includes control and right of way mapping surveys; design surveys for engineering projects; route surveys for highways; utility, topographic, and as-built surveys; ALTA/NSPS land title surveys; and construction support surveys for commercial and high-rise building projects.

Miscellaneous Location Survey Consultant and Right of Way (ROW) Mapping Consultant Contracts, FDOT District 6, *Miami-Dade & Monroe Counties, FL*
Contract Project Manager. The D6 Districtwide (DW) Location Survey and ROW Mapping contracts are on-call contracts with work performed on a Task Work Order (TWO) basis for assignments located throughout Miami-Dade and Monroe Counties. Typical services performed include ROW surveys, sectional retracement, ROW alignment, ROW Mapping, Maintenance Mapping and Control Surveys, as well as horizontal and vertical control, topographic, as-built, and quantity surveys. To date, as the PM for the DW Location Survey Contract C-AF60 and the DW ROW Mapping Contract 20 & 57 C-A730, Mr. Denis has successfully completed 18 TWOs and 55 TWOs, respectively.

ROW Mapping & Monumentation, FDOT District 6, *Miami-Dade & Monroe Counties, FL*
Project Manager | Survey. Colliers Engineering & Design has completed numerous ROW Maps and Monumentation Surveys on a Task Work Order basis under several D6 GEC contracts. Mr. Denis has been in responsible charge for the ROW Mapping and Monumentation Surveys for the following: SR 5 (Overseas Highway) from mile marker 3.8 to 6.5, Monroe County; SR 5 (Overseas Highway) from mile marker 46.8 to 54, Monroe County; and SR 7 (SW/NW 8th Avenue) from SW 8th Street to NW 14th Street, Miami-Dade County.

SR 860 (Miami Gardens Dr) from NW 87 Ave to NW 57 Ave – Design & Control Survey, FDOT District 6, *Miami-Dade County, FL*
Project Manager | PSM. Includes 3D design survey and DTMs performed using Terrestrial Static and Mobile LiDAR methods; alignment retracement; check cross sections; drainage survey; primary horizontal and vertical control networks; recovery of section and ¼ section corners and subdivision blocks; preparation of R/W Control Survey Map.

Monumentation Maps, FDOT District 6, *Miami- Dade County, FL*
Project Manager | PSM. Responsible for establishing project control and Baseline of Survey, surveying section and ¼ section corners and subdivision blocks, monumenting baseline and r/w lines, and preparing R/W Maps and R/W Monumentation Maps.

Suzanne Zitzman, GISP

GIS Lead

Ms. Zitzman, a Senior Principal at the firm, has over 38 years of extensive GIS/GPS project management, design, and mapping experience in the transportation, and civil engineering fields. She manages the firms national GIS Asset Management Services Division. Her skills include various aspects of utilizing web-based geographic information systems involving utilities, land use, property assessment, environmental and transportation assets.

Her experience includes managing a total of 25 GIS needs assessment and implementation planning for a variety of client types such as county, and local government; and utility authorities

She has been a keynote speaker on GIS asset management technology applications at state level conferences and received a national recognition award for her achievements in implementing web-based GIS asset management and public communication portal programs for local government.

Key Projects

eGIS Asset Management Program, *Tenafly Borough, Bergen County, NJ*
Implemented an Esri ArcServer commercial off the shelf Asset Management program (AMP) for the Borough of Tenafly Public Works department. Work Orders are handled using mobile GIS applications using IOS digital pad hardware. Staff can view work order assignments, complete the task, and closeout the work request paperless in a connected and disconnected internet environment. The AMP contains all transportation assets such as streetlights, signs, road pavement, parks and recreational assets.

New York City, Economic Development Corporation
Stormwater Conveyance System Inventory, *New York City, Queens County, NY*
Our team performed the collection and inventory of the client's stormwater conveyance system on designated properties owned throughout New York City's waterfront properties. Using GPS centimeter grade accuracy units, we conducted the collection by use of GPS and management mobile tools Esri Survey123, and Collector for GIS. A dashboard was used to track progress of the field teams. The final deliverable contains a standardized Esri geodatabase, with reports describing the findings of the field collection. During the collection, areas needing further investigation by means of dye testing and tracking of waterflow were reported to NYCEDC. The second phase of the project had our GIS team and water/wastewater engineers returning to some of the sites to perform further investigation measures to complete the stormwater conveyance system mapping.

North Carolina Department of Transportation (NCDOT) Atlas Program
Sewer Service Area Dataset, *North Carolina*
Ms. Zitzman managed services to create a sanitary sewer service Esri geodatabase for over 600 utility systems statewide. Our team created a web based spread sheet to track interaction with utility owners, and catalog existing data acquired during the existing data compilation process.

Our GIS staff standardize the datasets and confirmed sanitary sewer service area outlines with collaboration with our Wastewater professional engineers and utility owners. The Atlas Program is a living depository of over 400 state level GIS datasets varying from land use, environmental constraints, and cadastral datasets.

Personnel Plan

Operating Plan

Our team has decades of experience working on continuing services contracts just like this. In our experience, clear, concise communication is key to a successful relationship. **Our team also provides value added as they act not just as technical experts, but also as project leaders who are well versed in all the engineering and survey disciplines.** We also have an in-house grants discipline that we regularly interact with to enhance outside funding possibilities on all projects.

We maintain open communication, availability, and accessibility to implement the plan and schedule. The CED Team PM and Key Staff are available to attend meetings face to face, on-site, or virtually over Teams or WebEx with the Village PM or staff members. Weekly team production and progress reporting meetings involving all team members and openly shared with all team members provides transparent communication and fosters opportunities for coordination and supervision.

Mr. Collings-Bonfill, and key teams staff members will attend pre-scheduled project meetings in person with the Village PM, or other staff members unless virtual meetings are preferred for an individual meeting. Sharing of contact information of all Key Team Members, meeting notes and project status reports, encourages and demonstrates accessibility for all team members and Village staff. The Village is a priority client for the CED project team, and through established communication protocols, transparent communication, and committed Sr. staff assigned to the production team, we can ensure availability during this contract.

All professional engineering documents will be signed and sealed by the responsible Florida Professional Engineer or Surveyor that is working on the project, with direct oversight over any field staff and/or other staff working on the project. Our field staff all have years of experience working on Florida contracts just like this, and are comfortable in their roles with the technical qualifications to back up their experience. In addition, mentorship across staff is encouraged to ensure that lessons learned about how the Village would like us to operate are continuously communicated to the entire team. This positive feedback loop ensures continually improving service to the client.

Specifically, during design phase, Mr. Collings-Bonfill will be primary point of contact to receive all communications regarding assignments. He will then pass the request on to the team for any comments or requests for additional information. A clear and concise request for any additional information will then be returned (if necessary) to the Village within 24 hours. Once any additional information has been received, our team will meet to prepare the proposed scope while also planning the most efficient and experienced team from our capabilities to service the project. This allows us to hit the ground running after approval of the work order by the Village.

Once approved to begin work, our team that has been preorganized will be immediately ready to start working on the project. It is important to note that our QA/QC program has already begun during the proposal phase, but is particularly critical during the planning phase of the project. Making sure that any field operations such as CMT testing or field explorations are clear and organized is a priority for us, as we know that our presence on any site is a representation of the Village. Mr. Collings-Bonfill and Mr. Drachev will both spend time reviewing the exploration program to make sure that it meets the Village requirements and also will provide a smooth operation in the field.

Once exploration is complete, the QA/QC process will continue with all members of our team reviewing information as it becomes available for issues. If any major site issues or concerns for development are apparent, we will immediately contact the Village representative so they can bring the design team in as necessary to discuss modifications that may be necessary to the overall development plan.

As the report is prepared and sent to the client, the strength of our immersive QA/QC program becomes apparent as the Village and design team are all on the same page, so it becomes easy to have the report match the intent and requirements of the Village and the design team. In addition, we use advanced software in the preparation of our analyses as well as reporting to provide efficient and high quality deliverables to the Village.

The roles/responsibilities of our team are clearly defined. Mr. Collings-Bonfill (as lead) meets multiple times a week with Mr. Drachev. This team attacks all issues with any assignments directly, and also coordinates the rest of the technical team to provide the best possible product to the Village. Mr. Collings-Bonfill and Mr. Ehrhart regularly meet as well to make sure that the strategic vision of the company meets the needs of this particular contract and that any major modifications to equipment and staffing are promptly handled so that the contract can run smoothly. From a technical perspective, Mr. Drachev, and Mr. Stevens are predominantly involved with leading the Geotechnical team, while Mr. Denis and Ms. Diaz La Rosa lead the Survey team.

Staffing Information, Workload, & Availability

CED holds several Work Order based contracts with state and local agencies that will continue through the duration of this contract. Our history of performance illustrates our ability to manage multiple active contracts and projects by focusing on communication, collaboration, and work-sharing. Our local management staff constantly forecasts our clients' needs and upcoming commitments to develop staffing requirements to meet all expectations and commitments. We are confident that supporting the projected projects/contracts included in the team availability table on the following page will not diminish our ability to maintain capacity or our commitment to the Village under this contract.

Our leadership team in the Miami office manages weekly utilization meetings with all key staff for the purpose of evaluating daily workload projections for the week ahead. Following this meeting is a Southeast based operations meeting discussing the same item and uses this as a gauge for filling gaps where staff is needed. Having these weekly operations meetings provides project managers the ability to forecast project completion dates and allowing them to rely on this information to keep projects on schedule. CED's location and labor management structure and processes allow our firm to provide the Village with the highest level of attentiveness, responsiveness, availability, and flexibility to successfully complete all tasks.

CED's management staff carefully allocates the firm's resources to address the constantly shifting market demand for projects. We promote a management philosophy that supports cross-training our staff to prepare them to be available on short notice and to be qualified to support the variety of disciplines which have the potential to be included in Village requested projects. This enables CED to maintain optimum utilization of highly trained individuals who provide resources for "Fast-Track" project completion. This approach has enabled us to maintain a steady stream of projects, while enabling us to allocate adequate resources to immediately respond to new task order assignments from the Village.

Proposal Approach

Project Management Approach

CED employs a proven and comprehensive approach to project management by engaging established procedures that are utilized uniformly throughout the corporate enterprise. Our professionals work diligently with our clients to ensure successful project delivery in compliance with approved schedules, design, budgeting, permitting, and administration while maintaining quality standards from initial assessment through project completion.

CED believes the foundation of successful service is communication. Mr. Collings-Bonfill will be available as the primary point of contact, to listen and understand the needs of Village for each task. From this, Mr. Collings-Bonfill will make sure a work plan is put in place to meet the needs of scope, representation, schedule, and budget. All task plans will start with the intent to perform work with minimal impact to daily campus activities, even if that means working after normal campus hours or on weekends.

During the initial review of the project scope of work a risk analysis assessment will be performed to identify project related impediments that may have the potential to negatively impact the schedule, budget, or both. Identifying potential problems early during the initial project life will help determine a more realistic project schedule and budget and increase project success. Early identification of potential impacts and mitigation measures will prevent these occurring at a future date, potentially overwhelming project resources with devastating effects. The final scope of work approved by the client forms the baseline for the official project budget and project schedule.

After a task request has been received, Mr. Collings-Bonfill will thoroughly review the scope of services with our Deputy PM, Pavel Drachev, PE, and assigned CED staff to confirm we have a good understanding of the tasks to be performed. Our management team will then meet with the Village Project Manager and the applicable Village staff to ensure a clear understanding of the project goals, needs and expectations, including deliverables and milestone scheduling. Following this meeting Mr. Collings-Bonfill will prepare a draft of the revised scope, staff hour, fee estimate and schedule duration for review, negotiation, and approval. When time is of the essence, CED will provide a proposal within 24 hours of the request.

After completion of the negotiation phase and upon notice to proceed (NTP) , Mr. Collings-Bonfill will hold a kickoff meeting with all key personnel to discuss project milestones, schedules, accuracies, deliverables, and QA/QC procedures. All key staff will be given the work program schedule that identifies critical milestones for each stage of the project.

Status Reporting. With each monthly invoice submittal, Mr. Collings-Bonfill will provide a status report for all open task assignments to the Village. These reports will include the schedule status and percent complete billings for all assignments. Report formatting will be consistent among our team members and each Work Order will contain a checklist of items specific to the assignment and project coordination.

At a minimum these reports will include documentation of any submittals; percent complete reporting for each task element; meetings held, planned or requested, including minutes thereof; issues or problems encountered and how they were addressed or resolved; invoicing and payment details; and production goals for the next reporting period.

Team Approach

CED has been assembled with the goal to combine and maximize the strengths of our creative and talented professional and technical staff. Our extensive knowledge, additional resources, technical expertise, and trusted collaboration provides a solid team the Village can depend on. Our proactive teamwork, coordination and collaboration will directly result in quality on every assignment.

Communication

Effective communication, coordination, and collaboration between our team, external team members such as the Village's civil engineering consultants, and the Contract Manager will be vital throughout this contract. This will be achieved through developing a clear understanding of the scope, defining roles and expectations, establishing clear communication protocols, open and clear collaboration and reporting, and transparency regarding

both achievements and challenges. The agenda for the kick-off meeting for each task and subsequent weekly team meetings include discussions regarding project goals, schedule, progress and performance with input welcome from all of the members of the project team. In this way, our team members are fully informed regarding project status and their individual responsibilities. If issues or challenges arise during the course of a project, they are discussed with various team members, a plan of action formulated, and instructions regarding the way forward disseminated appropriately for implementation. Bi-weekly written reports will be submitted to the Village's Project Manager for all assignments with status updates for all established milestones.

Task Management

Upon receipt of any task request, Mr. Collings-Bonfill will thoroughly review the scope of services and related information provided by the Village to assess the project characteristics, determine safety needs, and note any special coordination, access issues or potential permits required. This review will allow us to respond with the appropriate method of approach, taking into consideration scope requirements, schedule and economics. A plan of action on task requests will be discussed with the Village Project Manager for consensus prior to staff hour development. Preparation of the staff hour estimate and fee will then be completed and submitted to the Village for review and negotiation. Once Notice to Proceed is received the Task Order specific project team, including CST certified field staff and survey technicians, are then included in a kickoff meeting to review the approach, schedule milestones, site specific safety requirements, field documentation of control monumentation and project specific QC plan. A review of current schedule, quality and cost progress occurs at each project milestone. If Specific Challenges are encountered, CED will review the challenges internally first to determine if we can overcome the challenge and deliver to the Village as originally planned. If challenges cannot be overcome with impact to deliverables and schedule, the challenges will be communicated with Village staff along with Proposed Solutions, and adjustments to the schedule and deliverable may be discussed to best meet Village needs. Following field and in-house reviews of the final work product, the deliverable is submitted to the Village's Project Manager for review and comment, with the review notes and CED's responses then incorporated into the project files.

Schedule

Our success on similar on-call survey contracts is largely due to our commitment of resources and attention to critical path delivery schedules. We want you to be confident in assigning task authorizations to the CED Team. It is our goal to track our capacity and available resources while also utilizing our team members responsibly to ensure timely delivery of services and all commitments are met on every task authorization. Mr. Collings-Bonfill will coordinate with the Village Project Manager to develop a proposed work plan that includes specific tasks, milestones, deliverables, completion schedules.

Mr. Collings-Bonfill will coordinate with the Village's Project Manager to develop a proposed work plan that includes specific tasks, milestones, deliverables, and completion schedule.

The status of each task order will be closely monitored on a weekly basis to make sure all tasks remain on schedule. Supporting this contract for the Village is not only a priority of our Miami office, but also, our Florida leadership. Our survey production management staff holds daily scheduling and weekly project management meetings, which include leadership from all Florida offices. This allows our team to leverage resources regionally and prioritize task authorizations with the appropriate staff levels to ensure the quality and responsiveness you expect from our team is maintained without sacrificing other obligations. We envision our relationship with the Village will develop quickly and strengthen with this contract and CED is prepared to grow with your needs as an organization and succeed with each task order.

For complex projects, Microsoft Projects is used to create a schedule based on critical path timelines. Daily staff assignments are made collaboratively by our project management team in Microsoft Teams group that is accessible to all staff, assuring that our staff talents are deployed to effectively service Village schedules. ***CED is committed to meeting all of the "project specific" time and budget requirements for the agreed upon scope of services negotiated for each task order under this contract.***

Control of Budget

This is a Work Order-based contract with each assignment negotiated on an individual basis. Mr. Collings-Bonfill' experience with a wide variety Geotechnical and CEI assignments makes him familiar with the level of effort required for performing specific work elements included in various types of projects. Having negotiated numerous work orders on previous contracts, he understands the

typical expectations regarding anticipated work efforts and how to efficiently utilize personnel. Mr. Collings-Bonfill will be responsible for the cost control and overall budget maintenance of the contract. **Budgets for each assignment will be tracked and maintained on a weekly basis using the project management portals included in BST Financial Software (Ver.10).** This allows for monitoring of project financial details to quickly determine which activities are negatively impacting the schedule or budgets and institute aggressive corrections including adding resources to prevent cost overruns. Invoicing will be prepared monthly and/or to coincide with milestone deliverables and will document the percent complete status for each assignment.

CED is committed to meeting all "phase specific" time and budget requirements for the agreed upon scope of services negotiated for each task work order in this contract.

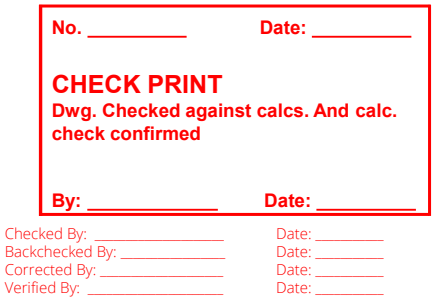
QA/QC Program

It is CED's policy to establish, commit to, implement, and monitor a QA/QC plan for every project, ensuring quality deliverables for our clients. Our overall QA/QC program is continually monitored to maximize its success and to identify possible improvements. **Each CED employee is a part of this QA/QC program, and it applies to all our disciplines and office locations.** The CED QA/QC Program manual is designed to help Project Managers implement practices for effective project management and incorporates department-specific guidelines as they are developed.

All assignments performed for this contract will have a project specific QC plan and QC procedures will be implemented to mirror Village requirements to ensure product standardization and acceptance. Procedures will include in-process reviews to confirm compliance with and understanding of production processes, implementation of corrective actions as early as possible, and identification of process improvements.

Quality is achieved through a series of systematic reviews throughout the survey and document production process. In general, equipment calibration and tests are performed on a routine basis to verify proper and reliable operation of all equipment. Our workflows include standardized field procedures and generally accepted survey practices which significantly reduce the chance for error. CED takes full responsibility for the quality of our project submittals, including components. To achieve the highest possible quality, deliverables for each task order will be reviewed by a qualified independent reviewer from the appropriate technical discipline.

Our QA/QC process for all submittals is redundant in nature, having a minimum of two reviewers for every task order. As depicted in the diagram below, each reviewer follows a strict order of process which involves thorough back-checking of all documentation. The reviewer's comments will be coded in **RED**, plans will be updated per the comments and noted in **GREEN**, and the back checker will verify the changes are made with **BLUE** ink. The final step of the process is a QA review by senior project management to ensure the QCP process was followed.



Final deliverable formatting will be consistent and prepared in accordance with Florida Statutes Chapters 472 and 177, Florida Administrative Code Chapter 5J17 and Village Codes as well as any project specific requirements. A workplan will be developed containing a checklist of items specific to the project. Submittals will be made only after our staff ensures that each deliverable meets the required standards and specifications.

Safety

Safety is a core value for CED. We have adopted the Behavior Based Safety (BBS) model as an enhancement to our existing safety program to live a Safety Culture at work and home. CED crew members and project management maintain Intermediate Maintenance of Traffic (IMOT) certifications as well as OSHA 10-hour, OSHA 30-hour, OSHA HazWOPER, confined space entry, coalition for construction safety (CCS), E-Rail Safe, and first aid/CPR training. We regularly inventory all personnel and vehicle safety equipment and use daily Health & Safety Checklists forms and on-site "tail gate" meetings to assess and mitigate for potential hazards. We commit to using remote sensing and mobile LiDAR scanning technology to stay out of travel lanes. All field activities will involve MOT certified personnel and will include a site-specific safety meeting to review potential hazards and safety protocols. Each of our employees has the authority to "Stop Work" in the event a potential hazard is observed to discuss and implement a corrective action plan. All required temporary traffic control or maintenance of traffic required to gather survey safely will be planned and submitted for Village approval prior to commencing any field activities. For best assurance that our staff contribute to the safety of staff, and the general public, our safety program includes following the most comprehensive drug-free workplace program in the industry.

Innovative Technologies

CED is constantly evaluating and acquiring new technology. Below is a brief listing of our innovative survey, geotech, and SUE technologies that we utilize to serve our clients:

- ***Mobile LiDAR –*** Allowing the capture of survey grade design information while traveling at normal roadway speeds, eliminating the need for crews to be in roadways.
- ***UAS LiDAR*** – "Drone" LiDAR is an effective method to gather topographic data over sites, from bare-earth to wooded parcels, accurately and efficiently.
- ***Terrestrial LiDAR*** – Also known as high-definition scanning, this allows for highly accurate data capture while maintaining safety.
- ***Hydrographic Drone*** – Using a small remote-controlled vessel outfitted with survey grade GPS and a single beam sonar scanner, this tool is an effective means of gathering topographic information of the bottoms of inland waters.
- ***NavVis VLX3*** – This wearable dynamic scanning system is a new tool that is excellent for interiors and close quarters collecting highly detailed reality capture data.
- ***Real Time Data Reporting (Geotechnical)*** – CED uses a cloud based CMT reporting system to provide real time reporting and results in an accelerated deliverable time to traditional methods.
- ***Real Time Data Reporting (SUE)*** – CED utilizes a custom mobile reporting platform through Fulcrum that is geospatially accurate and provides real time data reporting to the Project Management team. We also utilize Basecamp, a web-based office/mobile data sharing platform that includes all internal and external team members. These mobile reporting platforms immediately involve all team members necessary to address or resolve any issue. The data received from these mobile platforms also provide additional QA/QC data points to ensure thoroughly reviewed and correct deliverables.
- ***In-house GIS Services*** - CED provides a complete in-house serve team for the Village.

The most effective part of innovation is the integration of new technologies into real-world solutions. CED has processes in place that integrate these technologies into our workflows that will benefit the Village.

In-house Fort Myers CMT Materials Testing Laboratory

CED's Materials Testing Laboratory provides a full range of construction and geotechnical engineering materials testing services consisting of geotechnical (soil/rock), aggregate & concrete.

Our facility is accredited by CMEC with FDOT test methods to help clients meet all applicable building codes and project requirements with quality materials testing provided in a timely, cost effective, and practical manner.
Our on-site professionals are ACI and NICET certified and have performed testing for various projects as part of the geotechnical exploration and construction inspection and testing services.

Our soil testing capabilities include basic index testing such as particle size analysis, hydrometer, moisture content, Atterberg Limits, proctors and organic content to more advanced soil testing such as CBR/LBR, Consolidation, Direct Shear, Permeability and Tri-Axial (UC, UU and CU). Our rock testing capabilities include unconfined compressive strength.

Our concrete testing capabilities include compressive strength testing of cylinders, prisms, cubes and cores and flexural strength of beams.

Public Entity Crimes Affidavit

I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentations.

I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime; or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, and partners, shareholders, employees, members, and agents who are active in management of an entity.

Based on information and belief, the statement, which I have marked below, is true in relations to the entity submitting this sworn statement.

(INDICATE WHICH STATEMENT APPLIES.)

☑ Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with ad convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives partners, shareholders, employees, members, or agents who are active in the management of the entity,

or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida , Division of Administrative Hearings and the final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list (attach a copy of the final order).

I understand that the submission of this form to the contracting officer for the public entity identified in paragraph 1 above is for that public entity only and that this form is valid through December 31 of the calendar year in which it is filed. I also understand that I am required to inform the public entity prior to entering into a contract in excess of the threshold amount provided in Section 287.017, Florida Statutes for category two of any change in the information contained in this form.

No Conflict of Interest or Contingent Fee Affidavit

Proposer warrants that neither it nor any principal, employee, agent, representative nor family member has paid or will pay any fee or consideration that is contingent on the award or execution of a contract arising out of this solicitation. Proposer also warrants that neither it nor any principal, employee, agent, representative nor family member has procured or attempted to procure this contract in violation of any of the provisions of the Miami-Dade County conflict of interest or code of ethics ordinances. Further, Proposer acknowledges that any violation of these warrants will result in the termination of the contract and forfeiture of funds paid or to be paid to the Proposer should the Proposer be selected for the performance of this contract.

Business Entity Affidavit

Proposer hereby recognizes and certifies that no elected official, board member, or employee of the Village of Key Biscayne (the " Village") shall have a financial interest directly or indirectly in this transaction or any compensation to be paid under or through this transaction, and further, that no Village employee, nor any elected or appointed officer (including Village board members) of the Village, nor any spouse, parent or child of such employee or elected or appointed officer of the Village, may be a partner, officer, director or proprietor of Proposer or Vendor, and further, that no such Village employee or elected or appointed officer, or the spouse, parent or child of any of them, alone or in combination, may have a material interest in the Vendor or Proposer. Material interest means direct or indirect ownership of more than 5% of the total assets or capital stock of the Proposer. Any exception to these above-described

restrictions must be expressly provided by applicable law or ordinance and be confirmed in writing by Village. Further, Proposer recognizes that with respect to this transaction or bid, if any Proposer violates or is a party to a violation of the ethics ordinances or rules of the Village, the provisions of Miami-Dade County Code Section 2-11.1, as applicable to Village, or the provisions of Chapter 112, part III, Fla. Stat., the Code of Ethics for Public Officers and Employees, such Proposer may be disqualified from furnishing the goods or services for which the bid or proposal is submitted and may be further disqualified from submitting any future bids or proposals for goods or services to Village.

Scrutinized Company Certification

1. Proposer certifies that it and its subcontractors are not on the Scrutinized Companies that Boycott Israel List. Pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer or its subcontractors are found to have submitted a false certification; or if the Proposer, or its subcontractors are placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
2. If the Agreement that may result from this ITB is for more than one million dollars, the Proposer certifies that it and its subcontractors are also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer, its affiliates, or its subcontractors are found to have submitted a false certification; or if the Proposer, its affiliates, or its subcontractors are placed on the Scrutinized

Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

3. The Proposer agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under the Agreement that may result from this ITB. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize the above-stated contracting prohibitions then they shall become inoperative.

and my relationship to the entity is: President

4. I understand that a "public entity crime" as defined in §287.133(1)(g), Florida Statutes means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United states, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

5. I understand that a "convicted" or "conviction" as defined in §287.133(1)(b), Florida Statutes, means a finding of guilt of a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

6. I understand that an "affiliate" as defined in §287.133(1)(a), Florida Statutes means:

(a) A predecessor or successor of a person or a corporation convicted of a public entity crime; or

(b) An entity under the control of any natural person who is active in the

management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, share holders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima-facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

7. I understand that a "person" as defined in §287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which binds or applies to bids on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

8. Based on the information and belief, the statement that I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies)

   a. ☑ Neither the entity submitting the sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity nor any affiliate of the entity have been charged with and convicted of a public entity crime subsequent to July 1, 1989.

   b. ____The entity submitting this sworn statement, or one or more of the officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989 and (Please indicate which additional statement applies)

      1) ____There has been a proceeding concerning the conviction before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. (Please attach a copy of the final order)

      2) ____The person or affiliate was placed on the convicted list. There has been a subsequent proceeding before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or affiliate from the convicted vendor list. LONGITUDE SURVEYORS

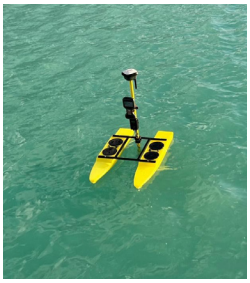
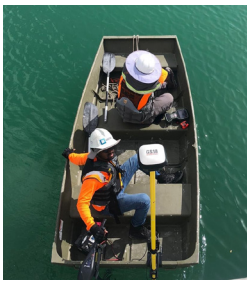
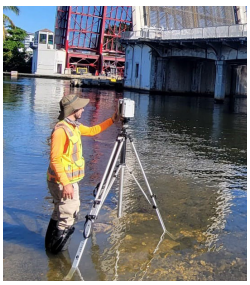
3. 4. & 5. Executive Summary







The **Village of Key Biscayne** is a unique and vibrant coastal community located just off the coast of Miami, known for its scenic beauty, well-planned neighborhoods, and commitment to maintaining a high quality of life for its residents. As a municipality that balances environmental preservation with thoughtful development, the Village requires precise and dependable surveying services to support infrastructure improvements, public works projects, and community planning initiatives.

While we have not yet had the opportunity to work directly with the Village of Key Biscayne, our extensive experience collaborating as a sub-consultant on various projects within the Village has provided us with a strong understanding of its unique needs, challenges, and goals. With a deep familiarity of its neighborhoods, zoning regulations, and local nuances, we are fully prepared to offer comprehensive surveying services tailored to the specific requirements of the Village.

Longitude Surveyors (Longitude) understands the scope and objectives of the work outlined in the Request for Qualifications (RFQ) and is fully committed to delivering exceptional results. Our firm recognizes the importance of accuracy, timeliness, and professionalism in carrying out the necessary tasks and is prepared to mobilize our resources accordingly.

Longitude believes we are uniquely qualified to provide the comprehensive surveying services identified in the Village of Key Biscayne's scope of work, based on our deep experience, technical expertise, and proven track record serving municipal clients throughout South Florida since 2004. Our firm offers a full range of surveying and geospatial services—including boundary and property surveys, topographic and hydrographic surveys, right-of-way and easement mapping, and GIS/digital mapping integration—all supported by licensed professional surveyors and a skilled technical team well-versed in local, state, and federal standards. We have successfully completed similar assignments for numerous public works departments, transportation agencies, and coastal communities, bringing a high level of accuracy, responsiveness, and professionalism to every project. Our familiarity with South Florida's unique coastal environment, regulatory framework, and infrastructure challenges enables us to deliver precise data, certified survey maps, and digital deliverables that directly support the Village's planning, development, and compliance needs. Our in-house resources, advanced surveying equipment, and commitment to timely, coordinated execution ensure that we can meet the Village's schedule requirements while maintaining the highest standards of quality and reliability.

Below, you will find a detailed presentation of our qualifications and experience, which demonstrates our readiness to start working on day one and our commitment to act as a seamless extension of your staff.

OUR TEAM

Longitude's rapid-response team comprises of highly qualified and experienced professionals who are dedicated to meeting the Village of Key Biscayne's surveying needs. Our team members possess the necessary certifications and experience to handle a wide range of projects, both planned and unplanned.

OUR APPROACH

Our approach is centered around a proactive attitude and a strong commitment to supporting our clients through continuing service contracts. We understand the

importance of flexibility and responsiveness in addressing the diverse challenges that arise in municipal projects. This is why we prioritize maintaining a can-do attitude and a clear focus on our mission.

OUR CAPABILITIES

Immediate Readiness: Our team is prepared to begin work immediately, ensuring that there are no delays in project initiation or execution.
Professional Expertise: Each member of our team brings specialized knowledge and a wealth of experience, enabling us to provide high-quality surveying services.
Client-Centric Service: We pride ourselves on being an extension of your staff, fully integrating with your team to deliver seamless service.
Proactive Engagement: Our ability to engage in both planned and unplanned projects ensures that we can meet your needs as they arise, providing consistent support throughout the duration of the contract.

Since our inception in 2004, Longitude has consistently developed innovative solutions, providing 21 years of superior surveying and mapping services and overseeing all types of projects throughout South Florida. We have significant experience with continuing professional services agreements for numerous municipalities, counties, and agencies across South Florida, including:

- City of Miami Beach (Awarded a second new contract in 2024)
- City of Coral Gables
- City of Homestead
- City of Miami Gardens
- Miami-Dade County Water and Sewer (Awarded a second new contract in 2025)
- Miami-Dade County Department of Transportation
- Florida Department of Transportation (FDOT) District 6. (Two Contracts Misc. and Construction Surveying)
- City of Dania Beach
- City of Oakland Park
- Town of Southwest Ranches

Our project performance with these agencies, and many other local clients, continually leads to multiple repeat selections for continuing services and other contracts. We believe that Longitude is uniquely qualified to perform the work due to our extensive experience in the field, skilled professionals, and proven track record of delivering high-quality surveying services on time and within budget. Our team's expertise, combined with our commitment to utilizing the latest technology and industry best practices, positions us to execute this contract efficiently and to the highest standards. Longitude's Core Ideology is to provide world class service and stewardship, to always provide our clients with unsurpassed support through a hyper-focused understanding of their expectations, project needs, requirements, deliverables, and budgets.

Longitude will partner with Geosol, Inc. as a sub-consultant to provide geotechnical engineering services in support of this contract. Geosol, Inc. is a well-established geotechnical and environmental engineering firm serving the South Florida region since 2000. Geosol provides a comprehensive suite of services including geotechnical engineering, subsurface exploration, construction materials testing, and environmental assessments. The firm has played a critical role in numerous municipal and infrastructure projects, offering expertise in soil analysis, groundwater remediation, and site evaluation. Led by President and Senior Geotechnical Engineer Oracio Riccobono, P.E., who brings over two decades of professional experience, Geosol is supported by a highly skilled team of engineers, field technicians, CAD professionals, and administrative staff. As a minority-owned business, Geosol reflects the diversity of the communities it serves and is committed to delivering accurate, timely, and cost-effective engineering solutions. With a proven track record of excellence and reliability, Geosol is a trusted partner for agencies and municipalities seeking high-quality geotechnical and environmental services.

c. Industry Knowledge and Expertise

At Longitude Surveyors, we bring over two decades of specialized industry knowledge to support municipalities like the Village of Key Biscayne with high-quality geotechnical and survey services. Since our establishment in 2004, we have delivered comprehensive Surveying and Mapping solutions throughout South Florida, earning a reputation for accuracy, reliability, and deep technical understanding. Our experienced team includes licensed surveyors and skilled technicians who are well-versed in control, topographic, right-of-way, and design surveys essential for effective municipal infrastructure planning and development.

We pair this expertise with a commitment to innovation, integrating advanced geospatial technologies such as LiDAR, 3D laser scanning, and GPS-guided data collection to enhance the precision and efficiency of our services. Our Subsurface Utility Engineering (SUE) capabilities, including utility designation and soft dig locating, ensure thorough and non-destructive subsurface investigations critical for geotechnical coordination. These services are performed with an awareness of local site conditions, environmental sensitivities, and regulatory requirements specific to coastal communities like Key Biscayne.

As a certified SBE, CBE, DBE, MBE, and AC-DBE firm, Longitude Surveyors is proud to support public sector clients with a dependable team that understands the unique needs of local governments. Our longstanding experience with continuing services contracts means we are prepared to respond quickly, work collaboratively with engineers and stakeholders, and consistently deliver results that exceed expectations. For the Village of Key Biscayne, our deep industry knowledge ensures that every survey and geotechnical effort is executed with precision, professionalism, and care.

In summary, at Longitude Surveyors, we're proud to offer the Village of Key Biscayne high-quality surveying services that not only meet your needs but also support your ongoing planning and development goals. We understand the unique challenges that coastal communities like the Village face and are committed to providing efficient, cost-effective solutions tailored specifically to your projects. Our team is dedicated to delivering reliable and precise data you can trust whether for new initiatives or enhancements to existing infrastructure.

We take a proactive approach to problem-solving and continually seek innovative ways to improve processes and outcomes. With extensive experience in public sector projects and a deep understanding of regulatory requirements, we ensure that our services align with the Village's priorities for safety, sustainability, and resilience.

As partners in your success, we are here to support the Village's vision by providing the precise data and technical expertise needed to bring each project to completion with the highest standards of quality, professionalism, and reliability.

d. Past Performance

Longitude Surveyors has successfully completed numerous continuing services contracts for public agencies throughout South Florida, including Miami-Dade County, the City of Coral Gables, City of Miami Beach, and the Florida Department of Transportation (FDOT). Our past performance includes a strong portfolio of municipal infrastructure projects, utility improvement programs, roadway reconstructions, and coastal resiliency initiatives. We consistently receive commendations for our responsiveness, attention to detail, and ability to adapt to changing site conditions while maintaining quality and schedule integrity.

At Longitude, we believe in working hand-in-hand with Village staff, engineers, and project partners to help make every initiative a success. We're more than just a service provider we pride ourselves on being responsive, adaptable, and easy to work with as the Village's needs grow and change. Our team is here to support the Village of Key Biscayne with reliable, high-quality surveying services delivered on time.

What truly sets us apart is our unwavering dedication to transparency and communication. We believe that clear, open dialogue with our clients throughout the process leads to better outcomes. From the initial consultation to the final report, we ensure that every client is informed and confident in the work we do. Our team's combination of expertise, technology, and personalized attention means that we don't just meet industry standards we aim to exceed them, offering results that are not only precise but also aligned with the specific goals of each project.

Following this page, you will find our detailed Project Profiles highlighting past performance on contracts similar to the Village of Key Biscayne's request. These examples showcase our experience and capabilities in meeting the specific requirements outlined in the RFQ. Each profile demonstrates our ability to successfully deliver projects that align with the scope and objectives you've identified, reflecting our commitment to high-quality, reliable results.

Rickenbacker Causeway - Comfort Station No.2

Key Biscayne, FL

LONGITUDE SURVEYORS

Scope of Services:

Longitude Surveyors provided comprehensive Surveying and Mapping services for the Rickenbacker Causeway Comfort Station No. 2 Project, including the preparation of a detailed Topographic Survey. As part of the scope, the team conducted a right-of-way analysis within the survey limits, which was clearly depicted in graphical form. A graphical baseline was established, and all above-ground features such as buildings, roadways, pavements, trees, palms, curbs, signage, poles, guardrails, sidewalks, medians, and utility covers were accurately located.

Elevation data was collected on a 25-foot grid across the survey area to support the development of a precise Digital Terrain Model (DTM). In addition, the team gathered detailed information on existing drainage and sanitary systems, including rim elevations, pipe sizes, materials, flow directions, and invert elevations.
To ensure survey accuracy, Longitude established at least two Temporary Benchmarks (TBMs) within the limits of the survey by executing a closed-level bench loop from two known and certified benchmarks.

Central District Wastewater Treatment Plant

Key Biscayne, FL

Scope of Services:

Longitude provided surveying work for the Thickening and Dewatering Building at the Central District WWTP.

The project involved locating and identifying all improvements, including but not limited to asphalt pavement, pavement markings, buildings, concrete slabs, sidewalks, hydrants, valve boxes, water/electrical meter boxes, electrical pull boxes, telephone/cable risers, fences, guy wires, utility poles, overhead electrical lines, culverts, guardrails, pavement limits, landscaping, trees with a diameter of three inches or greater, traffic signage, other signage, pavement striping, and any other visible improvements within the project limits, along with any relevant utility records.

Surveying also included locating and/or providing permanent construction controls on-site in state plane coordinates, as well as vertical control based on the National Geodetic Vertical Datum of 1929 (NGVD29).

In addition, platted rights-of-way monumentation and/or re-establishment were performed to define rights-of-way lines throughout the project limits. This process required field recovery of centerline control and property corners along each listed street. ADTM (Adjusted Terrain Model) was applied to areas equivalent to a 20-foot grid, including elevations at the centerline, edge of pavement, top of curb, back of sidewalk, low and high points, lane lines, and drainage ditches (when applicable).

Key Biscayne, FL

Scope of Services:

Longitude Surveyors provided 3D Laser Scanning services for Pump Station 0137, located just north of the intersection of W Mashta Drive and N Mashta Drive in Key Biscayne, Florida. As part of the project scope, all pump station structures were scanned to generate detailed CAD models reflecting the existing conditions. In addition to the scanning work, Longitude conducted and prepared a comprehensive Topographic Survey of the site. The team also completed two soft digs to accurately locate vertical valve housings (VVHs) associated with AT&T utilities.

Topographic Survey for Village of Key Biscayne K-8 School

Key Biscayne, FL

Scope of Services:

Longitude Surveyors conducted a Boundary Survey with elevations, which included a graphical representation of right-of-way lines, property boundaries within the project area, side lot lines, and adjacent parcels located within the survey limits. The survey accurately located overhead and surface utilities, sidewalks, curbs and gutters, paved roadways, driveways, light poles, power poles, fire hydrants, fences, signage, trees, manholes, catch basins, valves, valve boxes, and other notable above-ground improvements.

All trees and palms with a diameter of 3 inches or greater at breast height (DBH) were located, though a formal Tree Survey was not performed. Elevation data including rim, bottom, and invert elevations was collected for all drainage and sanitary structures. Where accessible, the team also determined pipe diameters and materials. The survey further included the collection of Finish Floor Elevations (FFE) for buildings within the limits.

All control points were referenced to the Florida State Plane Coordinate System (NAD83/2011), and vertical data was based on the National Geodetic Vertical Datum of 1929 (NGVD29). As part of the final deliverables, a Sketch to Accompany Legal Description was also prepared.

Pump Station 0132 located at approximately Ocean Drive and Crandon Boulevard and Harbor Plaza

Key Biscayne, FL

Scope of Services:

Longitude Surveyors (LS) performed and prepared a comprehensive Boundary and Topographic Survey for Pump Station 0132. The scope of work included the identification and graphical representation of key cadastral elements such as rights-of-way lines, subdivision lines, section lines, lot lines, baseline alignments, and easement boundaries as required by the project specifications. This detailed mapping supported accurate site planning and engineering design.

To ensure the precision of boundary locations, LS conducted extensive research and analysis, referencing official right-of-way maps, Miami-Dade Water and Sewer Department (MD-WASD) records, and utility easements available in the public domain. All relevant data was incorporated into the final deliverables to reflect true and current conditions on-site. The survey provided a reliable foundation for subsequent engineering, permitting, and construction efforts.

Topographic Survey Along Ridgewood Road, Glenridge Road, and West Enid Road in the Vicinity of Westwood Drive and West McIntyre Street Intersections

Key Biscayne, FL

Scope of Services:

Longitude Surveyors performed a Topographic Survey in accordance with special instructions, which included the establishment and depiction of right-of-way lines and a clearly defined graphical baseline. The survey identified and documented all significant above-ground features within the project limits, including edge of pavement, sidewalks, driveway approaches, trees, paved surfaces, utility castings, curbs and gutters, signage, utility poles, walls, and fences.

For each tree within the survey area, Longitude provided detailed measurements, including Diameter at Breast Height (DBH), canopy spread, and overall height, ensuring a complete representation of the existing landscape. Elevation data was collected on a 25-foot grid to support detailed surface modeling and was referenced to the National Geodetic Vertical Datum of 1929 (NGVD29). All survey control points were established with Northing and Easting coordinates based on the Florida State Plane Coordinate System, using the North American Datum of 1983/2011 (NAD83/2011), ensuring precision and consistency across the deliverables.

Stormwater Master Plan - Outfalls

Key Biscayne, FL

Scope of Services:

Longitude Surveyors conducted a Topographic Survey of multiple sites, encompassing a range of surface features such as roadways, sidewalks, fences, walls, paved areas, drainage structures, planters, utilities, light poles, power poles, driveways, catch basins, curbs, signs, and all other notable above-ground improvements within the designated survey limits. All collected data points included elevation components to support detailed surface modeling and design.

The survey documented invert elevations, pipe sizes, materials, and flow directions for all drainage structures. Additionally, the survey incorporated the delineation of right-of-way and property lines within the project area and adjacent parcels. Control points were established using Northing and Easting coordinates referenced to the Florida State Plane Coordinate System (NAD 83/90), and all vertical data was tied to the National Geodetic Vertical Datum of 1929 (NGVD29).

Longitude performed research using public records to identify existing easements impacting the properties; however, no formal title searches were conducted. The scope of work included the survey of 17 outfalls identified in the Village of Key Biscayne's Stormwater Atlas and Stormwater Master Plan Update, as provided by the client. Each survey extended from the outfall to the landward connecting structure and spanned a width of approximately 50 feet—25 feet on either side of the connecting line. Final deliverables included original signed and sealed hard copies of the survey, along with corresponding digital files.

Indian Creek Drive Seawall Elevations

Miami Beach, FL

Scope of Services:

Longitude Surveyors established vertical control within the survey limits, referencing elevations to the North American Vertical Datum of 1988 (NAVD88). Elevation data was collected at key features throughout the project area, including rim elevations for all manholes and utility vaults located between the seawall and barrier wall, as well as top and bottom elevations of the seawall and barrier wall at 20-foot intervals—capturing both the sidewalk and current soil elevations between these structures. Soil elevations were gathered every 20 feet between the seawall and barrier wall, with points taken at the seawall, barrier wall, and midpoint.

Additional elevations included the sidewalk at the crosswalk near Collins Avenue, the top of all traffic signal concrete footers within the seawall-barrier wall area, and all bus stop pads (including corners and edges). Longitude collected elevation data for all edges and corners of the walkway at the pedestrian bridge between 28th and 29th Streets, including the adjacent north-side bus pad. Elevations were also recorded at the top of sheet pile caps at 35th, 37th, and 38th Streets; at the top of footings for two light poles at 36th Street and between 36th and 37th Streets; at the seawall's 90-degree west turn at 39th Street; and at all existing sidewalks and bus landing areas between 39th and 41st Streets every 20 feet, primarily along the west side of the walkway. Top and bottom elevations of the wall near the utility area just south of 31st Street were also documented.

Venetian Causeway Sovereign Submerged Land Lease Survey and Sketch & Legal

Miami Beach, FL

Scope of Services:

Longitude Surveyors prepared a Sketch to Accompany Legal Description for an easement supporting a subaqueous crossing, ensuring compliance with Florida Department of Environmental Protection (FDEP) standards.

Additionally, Longitude completed a Sovereign Submerged Land Lease Survey, incorporating rights-of-way by analyzing field evidence, plats, deeds, and other relevant documentation. Lot lines and ownership boundaries—including locations, bearings, and dimensions within the survey limits—were graphically depicted. Easements, covenants, restrictions, and other encumbrances identified in public records or provided by the client were reviewed and shown on the survey.

Longitude established horizontal and vertical control throughout the project area, collected significant aboveground improvements, and determined the Mean High Water (MHW) line within the survey limits to support the project's regulatory and design requirements.

North Shore D Neighborhood Improvement Project

Miami Beach, FL

Scope of Services:
Longitude Surveyors provided comprehensive Surveying, Mapping, Bathymetric, and Subsurface Utility Engineering (SUE) services for the project. The survey included the depiction of rights-of-way based on field evidence, plats, deeds, and other relevant documentation. All lot and ownership lines within the survey limits including locations, bearings, and dimensions were graphically represented. Easements, covenants, restrictions, and other encumbrances identified through public records were incorporated into the survey.

Longitude established horizontal and vertical control across the project area and collected all significant aboveground improvements. Elevation data was gathered on a 25-foot grid, including key features such as the crown of the road, edge of pavement, top of curb, and driveway elevations at right-of-way lines, with additional elevations collected to capture grade changes and site features.

Longitude also collected Finish Floor Elevations (FFE) for all structures or buildings with doorways or entrances along the right-of-way within the survey limits. All trees and palms with a diameter of three inches or greater at breast height (DBH) or a height of 12 feet or more were located, with recorded data including scientific name, common name, DBH, height, and canopy, presented in a Tree Table. Existing drainage and sanitary structures were surveyed, with data collected on rim elevations, structure bottom elevations, pipe sizes, materials, flow directions, and inverts.

A Digital Terrain Model (DTM) was created and delivered. In addition, Longitude performed Quality Level “B” SUE Designation services in accordance with ASCE standards, utilizing electromagnetic locators and ground-penetrating radar (GPR) to identify underground utilities within the survey limits. Utility data was compiled into a Civil 3D CAD file, georeferenced to the Florida State Plane Coordinate System.

GEOSOL, INC.

SR 90/Tamiami Trail, Design-Build, 2.6-Mile Bridging, Miami, FL

DESCRIPTION OF WORK

FDOT District 6 recently improved SR 90/US 41/Tamiami Trail from East of Osceola Camp (MP14.038) to West of Airboat Association of Florida (MP 17.230) in Miami-Dade County. In this section, Tamiami Trail was an undivided two-lane two-way highway, consisting of 12-foot travel lanes, and 8-foot paved outside shoulders, and traversing the Everglades in western Miami-Dade County. The highway was designated part of the National Highway System (NHS) with a classification of Rural Principal Arterial.

The overall purpose of this project was Everglades restoration. Specifically, the Congressionally authorized purpose was "to restore more natural flow to Everglades National Park and Florida Bay, restoring habitat within the Park and ecological connectivity between the Park and the Water Conservation Areas." The project included design and construction of 2 new 2-lane bridges and associated Mechanically Stabilized Earth (MSE) walls. Bridge 1 had a length of 7,565 feet, and Bridge 2 a length of 4,650 feet. The addition of the new bridges created conveyance openings and drainage improvements through Tamiami Trail by removing the sections of the existing highway corresponding to the location of the new bridge spans.

Geosol, Inc. was the Geotechnical Engineer of Record during design and construction responsible for all of the field exploration and laboratory testing programs, foundation analysis, design and preparation of all geotechnical reports. The project included 100% dynamic load testing of 650 piles, vibration monitoring, and foundation certifications.

Design-Build for Golden Glades Multimodal Transportation Facility, Parking Garage & Pedestrian Bridge, Miami, FL.

DESCRIPTION OF WORK

The Florida Department of Transportation (FDOT) has recently designed and the construction is underway for the Golden Glades Park & Ride Center in Miami-Dade County. A new and modern integrated Multimodal Transportation Facility is being built to upgrade the existing Golden Glades Park & Ride Center. This project will improve the connectivity between transportation modes, as well as increase transfer efficiency, accessibility, safety, security and capacity. This project, in partnership with Miami-Dade County, will enhance the overall aesthetics of the Park & Ride area, while increasing visibility from the roadways. Key project features include: 2,150 parking spaces, 4,500 sq. ft. transit hub, 10,450 sq. ft. retail space, new designated passenger waiting areas, direct access to Tri-Rail Station from new parking garage, bicycle parking, bus terminals, bicycle paths, drainage improvements.

Geosol, Inc. was the Geotechnical Engineer of Record during design and construction responsible for all of the field exploration and laboratory testing programs, foundation analysis, design and preparation of all geotechnical reports. d. Approach of Team Providing Services to the Village

Longitude Surveyors is committed to delivering precise, timely, and professional surveying services to the Village of Key Biscayne through a collaborative and client-focused approach. Our team understands the unique geographic, environmental, and regulatory conditions of the Village and brings extensive experience in municipal surveying projects throughout South Florida.

Our meeting approach and forms of Communication:

- **Biweekly Coordination Meetings:**
  Our team will hold biweekly meetings with Village staff either in person at the Village's offices or via virtual platforms such as Microsoft Teams. These meetings will cover progress updates, upcoming fieldwork, deliverable timelines, and any coordination or permitting needs. Meeting agendas and minutes will be prepared and shared for transparency and recordkeeping.

- **Weekly Email Updates:**
  A concise project status email will be sent weekly by the Village's assigned Project Manager, outlining completed tasks, ongoing work, and any issues requiring attention. These updates help ensure stakeholders are kept informed without needing to wait for formal meetings.

- **Field Reports & Daily Logs:**
  For active or ongoing fieldwork, our survey crew chiefs will maintain daily logs summarizing site activities, weather conditions, encountered obstacles, safety notes, and progress milestones. These can be submitted to the Village on a daily or weekly basis, depending on project intensity.

- **Cloud-Based File Sharing:**
  Longitude Surveyors can set up a shared folder using platforms such as Dropbox, Google Drive, or SharePoint. This allows Village staff secure, 24/7 access to project documents, survey data, maps, reports, and schedules. Folder structures can be customized for easy navigation and version control.

- **Phone & Text Communication:**
  For urgent matters or quick clarifications, your Project Manager and field supervisors are reachable via direct phone lines or text messaging. This ensures rapid response and flexibility, particularly when decisions need to be made in real time during field operations.

- **Emergency or After-Hours Contact:**
  For time-sensitive or construction-related tasks, we provide a secondary point of contact who is available after hours or on weekends if needed. This ensures continuous support for the Village in critical situations.

Field operations will be executed using the latest geospatial technologies, including GPS, robotic total stations, and 3D scanning equipment, to ensure accuracy and efficiency.

Our licensed surveyors and experienced technicians adhere to all applicable standards, including FDOT and Miami-Dade County specifications. Quality control is built into each stage of our workflow, from data collection through final deliverables.

Position	Daily Tasks	Weekly Tasks	Monthly Tasks
SURVEY TECHNICIANS	Review active project schedules and ensure field crews are assigned appropriately for Key Biscayne work. Coordinate with Village staff, engineers, and consultants to confirm scope, priorities, and any schedule changes. Monitor field crew progress and respond to real-time issues such as access limitations, data needs, or resident concerns. Ensure field data meets Village standards for accuracy, control, and completeness before passing to CADD staff. Update task tracking systems or logs for each active project assigned by the Village. Review emails, work orders, or service requests from the Village and provide timely responses or updates. Coordinate with the CADD team to prioritize drafting tasks and verify that drafting standards match Village specifications.	Hold coordination meetings with field crews and CADD staff to review active and upcoming Village projects. Communicate with Village of Key Biscayne staff to provide project updates, confirm deliverable timelines, and address any scope adjustments or concerns. Review and approve time sheets, field logs, and daily reports related to Village work for accuracy and completeness. Conduct QA/QC reviews on collected field data and preliminary drawings to ensure they meet Village standards. Coordinate with utility agencies or Village departments (e.g., Public Works) for permits, clearances, or utility designation requests. Update internal project tracking systems with status reports, percent complete, and labor hours for each active Village project.	Prepare and submit detailed progress reports to the Village, including completed tasks, deliverables, field activity summaries, and any project challenges or delays. Review all submitted survey deliverables (e.g., topographic surveys, right-of-way surveys, utility locates) to confirm compliance with Village standards and specifications. Lead internal review meetings to assess team performance, workflow efficiency, and data quality for the Village's projects. Coordinate with Village staff to review project priorities, adjust timelines, and plan for upcoming requests or task orders. Support the preparation of invoices by reviewing labor hours, deliverables, reimbursables, and backup documentation for all work performed that month.
CAD TECHNICIANS	Import and process field data to draft topographic, boundary, and utility surveys according to Village CAD standards. Coordinate with field crews and Project Managers to resolve data discrepancies and clarify survey notes. Ensure all drawings follow Village's specific title blocks, and digital file formatting requirements.	Draft and update survey base maps using field data and notes. Coordinate with survey managers and field crews to resolve data issues. Perform quality checks and prepare CAD files for weekly submittals.	Prepare final survey deliverables and as-built drawings for submission. Update and maintain CAD standards and templates for each project. Conduct a review of completed drawings for consistency and accuracy across all tasks.

Position	Daily Tasks	Weekly Tasks	Monthly Tasks
GEOTECHNICAL ENGINEER	Review ongoing field investigation activities and address technical questions. Monitor soil and materials testing progress and results. Communicate with field crews and lab technicians on data collection. Provide technical support to project managers and survey teams. Document daily site conditions or unexpected findings.	Analyze collected geotechnical data and prepare preliminary recommendations. Coordinate with the client and project team on site conditions and design input. Review lab test results and ensure data quality. Attend project meetings to report progress and technical issues. Update the project schedule and adjust fieldwork plans as needed.	Prepare and submit geotechnical reports with design recommendations. Review project performance, budgets, and resource needs. Meet with Village officials to present findings and address questions. Evaluate site conditions for upcoming phases of work. Update standard procedures and incorporate lessons learned from completed tasks.

STAFFING LEVELS AND BASIS

Staffing levels are based on project volume, turnaround timelines, and task durations for similar municipal clients in Miami-Dade County.

Standard staffing includes:

- 1 full-time Project Manager
- 1 full-time Survey Field Crew (2-3 members)
- 1 full time Survey Technician (2-3 members)
- 1 full-time CAD Technician (2-3 members)
- 3 full-time Geotechnical Engineers (via subconsultant)

STAFFING DETERMINATIONS & ADJUSTMENTS

Staffing levels for this contract will be determined based on the scope of work, project milestones, and the complexity of the tasks required. The project team will continuously assess workload and performance to ensure appropriate staffing throughout the contract.

Key factors in staffing determinations include:

- Size and type of survey/geotechnical task (e.g., topographic survey, boundary survey, boring program, lab testing).
- Project schedule and deadlines established by the Village.
- Technical complexity and specialized expertise required.
- Number of active work sites or simultaneous tasks.

Adjustment Process:

- Weekly progress meetings will be held to review workload, performance, and upcoming needs.
- Staffing adjustments (adding or reassigning personnel) will be made in consultation with the Project Manager and technical leads based on progress, unforeseen site conditions, or changes in scope.
- Resource sharing between surveying and geotechnical teams will be coordinated as necessary to meet peak

demands.
- Overtime or additional crews may be deployed to ensure adherence to critical deadlines.
- Regular communication with the Village will ensure transparency and proactive management of staffing changes.

ROLE AND RESPONSIBILITIES

Surveying Principal
Provides overall project leadership, ensures quality control, oversees client relations, and approves final deliverables.

Project Manager
Manages day-to-day operations, coordinates between teams, monitors schedule and budget, and serves as the main point of contact with the Village.

Survey Technicians
The Survey Technician is responsible for coordinating and monitoring field crew assignments, liaising with Village staff and consultants to confirm project scope and schedule changes, addressing real-time field issues, ensuring data accuracy and compliance with Village standards, updating project tracking systems, responding to Village communications, and collaborating with the CADD team to prioritize and verify drafting tasks according to Village specifications.

Surveying Field Crews
Performs field data collection, boundary and topographic surveys, construction staking, and provides accurate field notes.

CAD Technicians
Prepare and update survey drawings, process field data, ensure CAD standards compliance, and generate deliverables.

Geotechnical Engineers
Plan and oversee field investigations, analyze soil and material data, prepare geotechnical reports, and provide foundation and design recommendations.

Proposal Approach

Proposal Approach

Longitude Surveyors proposes a comprehensive and proactive approach to providing surveying services for the Village of Key Biscayne, aligning with the Scope of Work outlined in Section 2 of the RFQ. Our implementation strategy emphasizes efficiency, quality, and innovation, ensuring all services are delivered accurately, timely, and in compliance with Village, local, state, and federal standards.

Eduardo M. Suarez, PSM will serve as the Project Manager for the Village of Key Biscayne under this contract, leading a team of licensed Professional Surveyors and Mappers (PSMs) experienced in municipal and public works projects to oversee all project phases. Our approach begins with a collaborative project kickoff meeting with Village staff to confirm project priorities, establish clear communication channels, and set scheduling expectations. Coordination with the Public Works Department will be maintained throughout to ensure seamless scheduling of field surveys and alignment with Village timelines.

Boundary & Property Surveys:
Boundary Surveys are performed with comprehensive deed research, record review, and field verification to ensure accurate establishment of property lines, rights-of-way, and easements. Certified boundary maps, legal descriptions, and documentation of encroachments or regulatory issues will be provided per Village requirements.

Topographic Surveys:
Longitude will deploy a combination of total stations, GNSS equipment, and UAV (drone) photogrammetry to collect precise elevation and feature data efficiently. The resulting topographic maps will identify utilities, drainage structures, and natural features, with Digital Terrain Models (DTM) and contour maps delivered in CAD and GIS-compatible formats for municipal use.

Construction Surveying:
Construction Surveying services will include layout and staking for infrastructure improvements, utilities, roads, and buildings, verifying horizontal and vertical control, and preparing certified as-built surveys to document completed work in compliance with design specifications.

Hydrographic and Floodplain Surveys:
Longitude will utilize hydrographic survey equipment (such as sonar and RTK-GNSS integration) to collect bathymetric data for canals, bays, and water bodies, supporting floodplain mapping and stormwater management efforts. We will determine base flood elevations and prepare floodplain maps following FEMA and NFIP guidelines.

Right-of-Way & Easement Surveys:
Our team will document existing and proposed corridors, prepare legal descriptions, and assist the Village in identifying encroachments or inconsistencies.

GIS & Digital Mapping Services:
Longitude will integrate all collected data into the Village's GIS system, develop and maintain geospatial databases for infrastructure assets, and provide digital deliverables compatible with the Village's CAD and GIS platforms.

Deliverables & Documentation:
All deliverables including certified survey maps and plats, legal descriptions, field notes, control reports, CAD files, GIS data, and supporting documentation will be submitted in accordance with Village standards and formats. Regular progress updates will be provided through status reports, project tracking logs, and scheduled coordination meetings.

Innovative Technology Solutions:

Longitude Surveyors is committed to employing innovative technologies to enhance data quality and project efficiency. Our approach includes:

- UAV (Drone) Mapping for rapid topographic data collection in large or inaccessible areas.
- 3D Laser Scanning for high-accuracy mapping of structures and complex sites.
- Real-time GPS/GNSS equipment to improve field productivity and positional accuracy.

By leveraging these technologies, we will reduce field time, improve data completeness, and deliver accurate, high-quality survey products that support the Village's infrastructure, floodplain management, and development needs.

We utilize state-of-the-art equipment, technological advances have given sophistication and promptness to our profession however, the roots of surveying stay unchanged. Longitude's office and field procedures remain true to basic surveying principles as we, every day, master the integration of conventional methods with most advanced geospatial data collection and mapping tools.

Approach to Projects

The surveying services outlined in this request for qualifications encompass disciplines that Longitude has consistently delivered to municipalities and government entities across South Florida. With hundreds of similar projects completed for various government and municipal organizations, as well as major private, commercial, industrial, and institutional clients, we possess the local expertise necessary to execute all assignments under this continuing professional agreement with precision. This commitment ensures a uniquely positive experience for the Village of Key Biscayne.

OUR PROCESS:

Project Understanding and Planning:

- Initial meetings with Village officials to understand project requirements, objectives, and constraints.
- Detailed review of existing survey data, if available, to identify gaps and areas needing further investigation.
- Define project scope, deliverables, timelines, and budgetary considerations.

Field Surveying:

- Deployment of experienced survey teams equipped with state-of-the-art surveying instruments and technology.
- Conducting precise measurements and data collection using total stations, GPS/GNSS receivers, 3D laser scanners, drones, etc.
- Ensuring adherence to surveying standards and protocols established by relevant authorities.

Data Processing and Analysis:

- Processing raw survey data using specialized software for adjustment, georeferencing, and quality control.
- Integration of various data sources to create comprehensive datasets.
- Analyzing survey data to extract relevant information for decision-making and project planning.

Quality Assurance and Validation:

- Implementation of rigorous quality assurance procedures to validate survey data accuracy and completeness.
- Cross-referencing survey data with existing records and conducting field checks to identify discrepancies or anomalies.
- Longitude will use an iterative review process to ensure alignment with project requirements and standards.

Report Generation and Documentation:

- Preparation of detailed survey reports encompassing methodology, findings, conclusions, and recommendations.
- Clear presentation of survey results through maps, charts, graphs, and other visual aids.
- Documentation of survey procedures, data sources, and any limitations or assumptions made during the survey process.

Client Consultation and Presentation:

- Engagement with the Village stakeholders to present survey findings, address inquiries, and solicit feedback.
- Collaboration with relevant departments or agencies to incorporate survey results into infrastructure development, or regulatory processes.
- Provision of ongoing support and consultation as needed.

At Longitude Surveyors, we understand that continuing, task-driven service contracts require a team that can respond quickly and manage multiple assignments efficiently. These projects often have tight timelines, unique scopes, and demand flexible staff resources. Our team is built to handle exactly that.

Drawing on years of experience with similar municipal contracts, Longitude is equipped with the manpower, scheduling systems, and technical expertise to meet your needs. Whether the assignment is large or small, simple or complex, our staff is prepared to deliver timely and accurate results. This contract has our full attention, and we're committed to supporting the Village of Key Biscayne at every step.

Our goal is to provide responsive service, clear communication, and high-quality work delivered on schedule and within budget. We've structured our team to act as an extension of Village staff, minimizing disruption to daily operations. Health and Safety will always remain top priorities.

We recognize that no two survey projects are alike. Regardless of scope or complexity, our approach is guided by key principles:

- Establish clear lines of communication with the Village's Project Manager and remain available for consultation.
- Ensure effective coordination between all team members.
- Maintain a qualified, adequately staffed team.
- Clearly define scope, schedule, budget, and responsibilities from the outset.
- Comply with all applicable Federal, State, Municipal, and departmental standards.
- Execute all technical work with precision and accuracy.
- Implement a rigorous Quality Assurance/Quality Control (QA/QC) plan.
- Maintain detailed records of all technical and administrative documentation.

Longitude's experience on both small- and large-scale projects allows us to anticipate potential challenges and create realistic, achievable project timelines. We account for various influencing factors including weather to ensure steady progress.

PROJECT UNDERSTANDING AND TECHNICAL APPROACH

Every successful Longitude project starts by listening to our client. We align our work with your goals and implement efficient, proven systems to deliver cost-effective, timely results. Our process is built on a foundation of strong communication, technical accuracy, and compliance with all regulatory requirements.

Critical success factors for this contract include:

- Responsive and proactive team communication.
- Cost-conscious planning and execution.
- Frequent coordination meetings with Village staff.
- Thorough document preparation and internal review before submission.
- Constructability reviews during design.
- Continuous schedule and budget monitoring.
- Regular updates for project stakeholders.
- Strict adherence to our QA/QC plan.
- Early and ongoing coordination with utility agencies to avoid conflicts.
- Starting permitting processes early to align with final submittals.

SCHEDULING AND COST CONTROL

Longitude will develop a project specific schedule based on the approved scope of work and the Village's timeline for project development and implementation. Key milestones will be established, and time will be allocated for each task and phase to ensure clarity and accountability from the start.

Effective schedule control begins with setting a realistic, proactive timeline that includes built-in flexibility to expedite tasks when needed before issues arise, not after. From the outset of each assignment, Longitude will also create a master schedule with integrated project controls to guide the work from start to finish.

We emphasize strong schedule and cost management on every project through proper planning, continuous monitoring, and timely adjustments. Oversight is provided by experienced project staff, with coordination led by your dedicated Project Manager and support from Longitude's leadership team.

Thanks to our deep bench of resources and technical expertise, we are often able to complete tasks ahead of schedule while maintaining quality and accuracy. Clear, ongoing communication with Village staff ensures we stay aligned, anticipate potential delays, and quickly adapt as needed.

Longitude ensures schedule adherence through project management software that tracks deadlines, milestones, deliverables, and review points, while maintaining close communication with Village staff and coordinating efficiently across the project team to address issues early and manage staffing effectively.

SAFETY

At Longitude Surveyors, safety is our top priority in all surveying projects. We are committed to create a safe working environment for our team, clients, and the community. Our staff undergoes comprehensive training in safety protocols, including awareness of surroundings, equipment handling, and emergency procedures.

During our surveying projects, we prioritize the following:

Regular Safety Training:
Our crews receive ongoing training in OSHA standards, confined space operations, and traffic control measures to ensure compliance and best practices.

Community Consideration:
We work diligently to minimize disruptions to local traffic and pedestrian flow, implementing effective measures to protect public safety during operations.

Risk Assessment:
Each project begins with a thorough risk assessment to identify potential hazards and develop strategies to mitigate them.

By fostering a culture of safety and vigilance, we strive to ensure the well-being of our team, the public, and the integrity of each project.

PROJECT DOCUMENT CONTROL

Longitude has an established standard protocol for the management of project documentation. This protocol includes procedures for receiving, storing, transmitting, and tracking all project documents (technical and administrative).

Our Project Document Control procedures ensures the City that all the information related to this contract will be managed accordingly.

QA/QC PROCESS

Longitude's QA/QC Plan is a fundamental part of our project delivery approach. It ensures that all work products meet the highest standards of accuracy, consistency, and compliance with applicable regulations. The plan consists of two core components: the quality of personnel involved and the methodology used to review deliverables. Together, they form a structured, repeatable system that supports successful outcomes across all surveying tasks.

1. Quality Personnel
Longitude places a strong emphasis on assembling a team of experienced professionals who bring technical expertise and attention to detail to every stage of the project.

- Qualified personnel are assigned to each phase of the project, including fieldwork, data processing, and final QA/QC.
- Peer reviews are performed by senior staff who were not directly involved in the initial task to provide an objective perspective.
- Your Project Manager and QA/QC Manager jointly oversee the process to ensure all project standards and client expectations are met.
- Licensed Professional Surveyors and Mappers (PSMs) are actively involved in the oversight and review process.

2. Review Methodology and Deliverable Review
Longitude implements a detailed and methodical process to review every deliverable before submission.

- All survey data is checked for accuracy, completeness, and consistency with the scope of work.
- Deliverables undergo multiple levels of review, including in-house checks, cross-checking between field and office data, and final approval by senior staff.
- We use specialized software tools for precision checks, error detection, and data integrity validation.
- Final products are reviewed against current regulatory and technical standards at the municipal, state, and federal levels.
- A checklist-based system is used to verify that each deliverable meets format, accuracy, and submission requirements.

Geosol, Inc. (Geotechnical Engineer) Approach

Geosol, Inc. is prepared to deliver the geotechnical services outlined in Section 2 of the RFQ through a comprehensive, coordinated, and efficient approach tailored to meet the needs of the Village of Key Biscayne.

Our team of licensed professional engineers and experienced staff will ensure all services are performed in full compliance with the project scope, schedule, and applicable regulations.

We will begin by conducting a thorough site investigation, including:

- Site reconnaissance and review of existing geotechnical data
- Soil borings, test pits, and other subsurface explorations
- Laboratory testing in our certified facilities to determine critical soil and rock properties (grain size, moisture content, density, shear strength, and bearing capacity)
- Preparation of detailed boring logs and stratigraphic profiles to clearly illustrate subsurface conditions

Our engineers will analyze the collected data to develop practical recommendations for:

- Foundation design for buildings, retaining walls, and other structures
- Slope stability and earthwork
- Pavement design based on soil conditions and anticipated traffic loads
- Assessment of potential risks, including liquefaction, settlement, and excavation challenges
- Ground improvement techniques, if required

All findings will be communicated through a preliminary and final geotechnical report, accompanied by engineering drawings, design calculations, and supporting documentation.

Throughout construction, Geosol will provide ongoing support by:

- Monitoring foundation preparation and earthwork
- Conducting compaction testing to verify compliance with project specifications
- Evaluating groundwater conditions and recommending dewatering methods as needed
- Reviewing contractor submittals related to geotechnical aspects and offering timely technical guidance

To enhance efficiency and accuracy, we will employ innovative technology solutions, including digital data collection, GIS-based mapping, and real-time reporting tools. This integrated approach ensures seamless management of field and lab data, promotes collaboration, and facilitates faster, more informed decision-making for project stakeholders.

Geosol's methodology includes:

- Project initiation and review of all available data
- Identification and allocation of necessary resources
- Field reconnaissance to inform the scope of work and optimize field activities
- Cross-referencing our in-house geotechnical database for existing data within the project area, identifying opportunities for efficiencies

We will prepare a detailed Scope of Services for review and approval by the Design Project Manager, outlining the specific geotechnical services, anticipated schedule, and key project milestones. All services will comply with the latest Florida Department of Transportation (FDOT) Soils and Foundations Handbook (2025 edition), as well as Miami-Dade County Public Works standards, unless otherwise directed by the Owner.

All required materials testing will be conducted by certified laboratories and qualified personnel to ensure compliance with industry standards.

The geotechnical data will support analysis and design for:

- Pavement resurfacing and reconstruction
- Pavement type selection and subgrade preparation
- Treatment of unsuitable soils (e.g., organic or highly plastic soils)
- Determination of the Seasonal High Groundwater Table (SHGWT)
- Drainage improvements, dewatering requirements, and excavation recommendations

Our findings will be documented in a comprehensive Geotechnical Report, incorporated into the project's design and construction documents. Geosol's quality assurance and quality control (QA/QC) process aligned with FDOT's Plans Preparation Manual includes systematic quality checks, back-checking, verification, and internal peer reviews under the oversight of our Project Manager to ensure accuracy and compliance at every stage.

Upon completion, all deliverables will be submitted electronically to the Project Manager and Owner. Geosol is highly experienced in preparing electronic submittals, routinely providing this format for FDOT and municipal contracts, ensuring streamlined, compliant, and efficient delivery of all project documentation.

Dear Eduardo Suarez,

Miami-Dade County Office of Small Business Development (SBD), has completed the review of your application and attachments submitted for certification. Your firm is officially certified as a Miami-Dade County Small Business Enterprise. The Small Business Enterprise (SBE) programs are governed by Sections 2-8.1.1.1.1; 2-8.1.1.1.2; 2-10.4.01; 10-33.02 of Miami-Dade County's Codes. This Small Business Enterprise - Architectural & Engineering (SBE-A&E) certification is valid for three (3) years. However, to validate continuing eligibility, SBD may conduct random audit(s) within the three (3) year certification period. **Failure to provide required documentation for a random audit will initiate the decertification process.**

At the time of expiration, your firm will submit a Re-certification Application at least one hundred and eighty (180) days, but not less than, ninety (90) days, prior to the end of the three (3) year certification term via the County's web-based system, Business Management Workforce System (BMWS). This will ensure sufficient time for process by SBD. **Failure to provide the re-certification application and required supporting documentation will initiate the decertification process.**

If at any time there is a material or business structure change in the firm including, but not limited to, ownership, officers, director, scope of work being performed, daily operations, affiliations(s) with other businesses or the physical location of the firm, you must notify this office within thirty (30) calendar days of the effective date of the change(s) via the BMWS. Notification should include supporting documentation. You will receive timely instructions from this office as to how you should proceed, if necessary. **Failure to notify SBD of any changes may result in immediate action to decertify the firm.**

This letter will be the only approval notification issued for the duration of your firm's three-year certification. If the firm attains graduation or becomes ineligible during the three-year certification period, you will be properly notified following an administrative process that your firm's certification has been removed pursuant to the code. Your firm's name and tier level will be listed in the directory for all SBE certified firms, which can be accessed through Miami-Dade County's SBD website: https://www.miamidade.gov/global/business/smallbusiness/home.page. The categories as listed below affords you the opportunity to bid and participate on contracts with Small Business Enterprise measures.

It is strongly recommended that you register your firm as a bidder with Miami-Dade County. To register, you may visit: https://www.miamidade.gov/global/business/procurement/home.page. Thank you for your interest in doing business with Miami-Dade County. If you have any questions or concerns, you may contact our office at 305-375-3111 or via email at sbdcert@miamidade.gov.

Sincerely,

Jeanise Cummings-Labossiere

Approval Date: September 27, 2024 - Disadvantaged Business Enterprise (DBE)
Anniversary Date: November 30, 2025

Dear Eduardo Suarez,

Miami-Dade County Office of Small Business Development (SBD), is pleased to notify you that your firm is certified under the Florida Unified Certification Program (UCP). Your firm meets the eligibility requirements for certification as a Disadvantaged Business Enterprise (DBE) in accordance with 49 CFR Part 26.

DBE certification is continuous with no expiration date; however, firms are required to attest that there are no changes via the No Change Declaration form on or before the firm's anniversary date to remain certified. You will be notified of your annual responsibilities in advance of the Anniversary Date listed above. You must submit the annual No Change Declaration form no later than the Anniversary Date to maintain your eligibility. Your firm will be listed in the UCP DBE Directory which can be accessed through the Florida Department of Transportation's website: http://www3b.dot.state.fl.us/EqualOpportunityOfficeBusinessDirectory/.

DBE certification is NOT a guarantee of work, but it enables the firm to compete for and perform contract work on all USDOT Federal Aid (FAA, FTA and FHWA) projects in Florida as a DBE contractor, sub-contractor, consultant, sub-consultant or material supplier.

If at any time there is a material change in your firm, you must advise this office by sworn affidavit and supporting documentation within thirty (30) days. Changes include, but are not limited to ownership, officers, directors, management, key personnel, scope of work performed, daily operations, on-going business relationships with other firms, individuals or the physical location of your firm. After our review, you will receive instructions as to how you should proceed, if necessary. Failure to comply will result in action to remove your firm's DBE certification.

It is strongly recommended that you register your firm as a vendor with Miami-Dade County. To register, you may visit: http://www.miamidade.gov/procurement/vendor-registration.asp. Thank you for your interest in doing business with Miami-Dade County. If you have any questions or concerns, you may contact our office at 305-375-3111 or sbdcert@miamidade.gov.

Sincerely,

Jeanise Cummings-Labossiere

MEMORANDUM

DATE: August 19th, 2025

TO: Honorable Mayor and Councilmembers

FROM: Steven C. Williamson, Village Manager

RE: HVAC Maintenance and Repair Services Contract

RECOMMENDATION

Recommend the Village Council authorize the Village Manager to enter into an agreement with Con-Mech Inc. for Village-wide HVAC maintenance, emergency repair, and replacement services.

DISCUSSION

Purpose: This item provides the Village with comprehensive HVAC support, including scheduled maintenance, emergency repairs, and full system replacements. The contract structure addresses both daily operational needs and long-term capital planning goals.

Background: As part of our facilities operations, Village HVAC systems require regular servicing and prompt repairs to avoid disruptions in essential services. A solicitation was issued for these services, and Con-Mech Inc. was identified as the most responsive and qualified proposer. Their experience in municipal HVAC support and competitive pricing make them a practical and reliable choice.

Justification: Con-Mech Inc. was selected based on their extensive experience with public-sector HVAC services, their ability to respond quickly to emergency calls, and the overall value of their proposal.

- Competitive pricing across maintenance and labor categories
- Capability to handle both scheduled and emergency service needs
- Strong references and performance history in similar municipal contracts

Alternative vendors were reviewed, but Con-Mech's proposal provided the best balance of service level and cost. Their structure also allows the Village to manage costs across both operating and capital budgets.

Implementation/Integration Plan: The contract will begin upon Council approval. Routine maintenance will follow a set schedule coordinated by the Public Works Department. Emergency services will be available on-call. Capital replacements will be planned and scheduled through the CIP as funding becomes available.

RESOURCE IMPACT

Recurring Funding: Routine maintenance and emergency response services will be funded through the Facilities Division's operational budget, with an annual allocation of $85,000. Capital HVAC replacements will be funded separately through the Capital Improvements Program (CIP), with a current allocation of $250,000 designated for this purpose.

Personnel: No new personnel required; contract will supplement current internal oversight.

Equipment: No new Village equipment required.

Facilities: All facilities

- **Budget Line-Item**: HVAC Maintenance / Capital Projects
- **Amount**: Varies by task and scope of services
- **Maintenance & Repair:** Covered by Facilities operating budget
- **Replacement Units:** Funded through Capital Improvements Program

STRATEGIC CONNECTION (GOAL / FOCUS AREA)

Supports the Village's Strategic Focus Areas of Resilient Infrastructure, Operational Excellence, and Proactive Asset Management. This contract ensures the continued functionality of HVAC systems throughout municipal facilities, minimizing service disruptions and extending the useful life of critical assets.

Work associated with this contract will be tracked through the Village's CityWorks asset management system, allowing for greater transparency, accountability, and data-driven decision-making. By logging all work orders, labor hours, and associated costs, the Village can better monitor system performance, manage expenditures, and plan future capital investments in alignment with long-term infrastructure goals.

PROFESSIONAL SERVICES AGREEMENT

BETWEEN

THE VILLAGE OF KEY BISCAYNE

AND

CON-MECH INC.

THIS AGREEMENT (this "Agreement") is made effective as of the _____ day of _____, 2025 (the "Effective Date"), by and between the **VILLAGE OF KEY BISCAYNE, FLORIDA,** a Florida municipal corporation, (the "Village"), and **CON-MECH INC.**, a Florida profit corporation (hereinafter, the "Contractor").

WHEREAS, the Village desires to retain a contract that is capable of providing HVAC replacement, repair, and maintenance services on an as-needed basis (the "Services"), all as set forth in greater detail in the Scope of Services, including Appendix A and B to the scope, attached hereto as Exhibit "A"; and

WHEREAS, the Contractor will perform services on behalf of the Village, all as further set forth in the Proposal, attached hereto as Exhibit "B"; and

WHEREAS, compensation for the Services provided by the Contractor on an as-needed basis for the Village shall be in accordance with the Rate Schedule attached hereto as Exhibit "C"; and

WHEREAS, the Village desires to engage the Contractor to perform the Services and provide the deliverables as specified below.

NOW, THEREFORE, in consideration of the mutual covenants and conditions contained herein, the Contractor and the Village agree as follows:

1. **Scope of Services.**

1.1. Services. Contractor shall provide the Services in accordance with the Scope of Services and the Contractor's Proposal attached hereto as Exhibits "A" and "B," respectively, for various projects required by the Village (each a "Project"), as requested by the Village and detailed in a "Statement of Work" which the Village will provide to the Contractor when engaging the Contractor to work on a specific Project.

1.2. Statement of Work. Prior to commencement of work on a specific Project, the Contractor will provide the Village with a fixed lump sum cost for the Services set forth in the Statement of Work calculated using the rates set forth on the Rate Schedule attached hereto as Exhibit "C." If the Village approves the fixed lump sum cost for the Project, the Village will provide the Contractor with a Notice to Proceed to perform the Services set forth in the Statement of Work. Contractor acknowledges that it shall not undertake to perform any Services on any Project until it has received from the Village the Notice to Proceed on such Project.

1.3. Bonds. Prior to performing any Services for each Project, the Contractor shall deliver to Village the Bonds required to be provided by Contractor hereunder (the bonds referenced in this Section are collectively referred to herein as the "Bonds"). Pursuant to and in accordance with Section 255.05, Florida Statutes, the Contractor shall obtain and thereafter at all times during the performance of the Services maintain a separate performance bond and labor and material payment bond for the Services, each in an amount equal to one hundred percent (100%) of the work order proposal approved for the Project and each in the form provided herein as Exhibit "D" or in other form satisfactory to and approved in writing by Village and executed by a surety of recognized standing with a rating of B plus or better for bonds up to Two Million Dollars. The surety providing such Bonds must be licensed, authorized and admitted to do business in the State of Florida and must be listed in the Federal Register (Dept. of Treasury, Circular 570). The cost of the premiums for such Bonds shall be included in the work order proposal for each Project. If notice of any change affecting the scope of the Services for each Project is required by the provisions of any bond to be given to a surety, the giving of any such notice shall be Contractor's sole responsibility, and the amount of each applicable bond shall be adjusted accordingly. If the surety is declared bankrupt or becomes insolvent or its right to do business in Florida is terminated or it ceases to meet applicable law or regulations, the Contractor shall, within five (5) days of any such event, substitute another bond (or Bonds as applicable) and surety, all of which must be satisfactory to Village.

The Village may waive the bond requirements provided herein for individual Projects if the cost of the Project is exempt from payment and performance bond requirements pursuant to Section 255.20, Florida Statutes.

1.4. Contractor shall furnish all reports, documents, and information obtained pursuant to this Agreement, and recommendations during the term of this Agreement (hereinafter "Deliverables") to the Village.

2. <u>Term/Commencement Date</u>.

2.1. The term of this Agreement shall be from the Effective Date through one year thereafter, unless earlier terminated in accordance with Paragraph 8. Additionally, the Village Manager may renew this Agreement for four additional one year periods on the same terms as set forth herein upon written notice to the Contractor.

2.2. Contractor agrees that time is of the essence and Contractor shall complete the Services within the term of this Agreement, unless extended by the Village Manager.

3. <u>Compensation and Payment</u>.

3.1. Compensation for the Services provided by the Contractor shall be in accordance with the approved fixed lump sum set forth in the Statement of Work and/or the Notice to Proceed for such Project, which shall be based on the Rate Schedule attached hereto as Exhibit "C."

3.2. Contractor shall deliver an invoice to Village no more often than once per month detailing Services completed and the amount due to Contractor under this Agreement. Fees shall be paid in arrears each month, pursuant to Contractor's invoice, which shall be based upon the percentage of work completed for each task invoiced. The Village shall pay the Contractor

in accordance with the Florida Prompt Payment Act after approval and acceptance of the Services by the Village Manager.

3.3. Contractor's invoices must contain the following information for prompt payment:

3.3.1. Name and address of the Contractor;

3.3.2. Purchase Order number;

3.3.3. Contract number;

3.3.4. Date of invoice;

3.3.5. Invoice number (Invoice numbers cannot be repeated. Repeated invoice numbers will be rejected);

3.3.6. Name and type of Services;

3.3.7. Timeframe covered by the invoice; and

3.3.8. Total value of invoice.

Failure to include the above information will result in the delay of payment or rejection of the invoice. All invoices must be submitted electronically to payables@keybiscayne.fl.gov.

4. Subconsultants.

4.1. The Contractor shall be responsible for all payments to any subconsultants and shall maintain responsibility for all work related to the Services.

4.2. Contractor may only utilize the services of a particular subconsultant with the prior written approval of the Village Manager, which approval may be granted or withheld in the Village Manager's sole and absolute discretion.

5. Village's Responsibilities.

5.1. Village shall make available any maps, plans, existing studies, reports, staff and representatives, and other data pertinent to the Services and in possession of the Village, and provide criteria requested by Contractor to assist Contractor in performing the Services.

5.2. Upon Contractor's request, Village shall reasonably cooperate in arranging access to public information that may be required for Contractor to perform the Services.

6. Contractor's Responsibilities; Representations and Warranties.

6.1. The Contractor shall exercise the same degree of care, skill and diligence in the performance of the Services as is ordinarily provided by a consultant under similar circumstances. If at any time during the term of this Agreement or within two (2) years from the completion of this Agreement, it is determined that the Contractor's Deliverables

or Services are incorrect, not properly rendered, defective, or fail to conform to Village requests, the Contractor shall at Contractor's sole expense, immediately correct its Deliverables or Services.

6.2. The Contractor hereby warrants and represents that at all times during the term of this Agreement it shall maintain in good standing all required licenses, certifications and permits required under Federal, State and local laws applicable to and necessary to perform the Services for Village as an independent contractor of the Village. Contractor further warrants and represents that it has the required knowledge, expertise, and experience to perform the Services and carry out its obligations under this Agreement in a professional and first class manner.

6.3. The Contractor represents that is an entity validly existing and in good standing under the laws of Florida. The execution, delivery and performance of this Agreement by Contractor have been duly authorized, and this Agreement is binding on Contractor and enforceable against Contractor in accordance with its terms. No consent of any other person or entity to such execution, delivery and performance is required.

7. Conflict of Interest.

7.1. To avoid any conflict of interest or any appearance thereof, Contractor shall not, for the term of this Agreement, provide any consulting services to any private sector entities (developers, corporations, real estate investors, etc.), with any current, or foreseeable, adversarial issues in the Village.

8. Termination.

8.1. The Village Manager, without cause, may terminate this Agreement upon five (5) calendar days' written notice to the Contractor, or immediately with cause.

8.2. Upon receipt of the Village's written notice of termination, Contractor shall immediately stop work on the project unless directed otherwise by the Village Manager.

8.3. In the event of termination by the Village, the Contractor shall be paid for all work accepted by the Village Manager up to the date of termination, provided that the Contractor has first complied with the provisions of Paragraph 8.4.

8.4. The Contractor shall transfer all books, records, reports, working drafts, documents, maps, and data pertaining to the Services and the project to the Village, in a hard copy and electronic format within fourteen (14) days from the date of the written notice of termination or the date of expiration of this Agreement.

9. Insurance.

9.1. Contractor shall secure and maintain throughout the duration of this agreement insurance of such types and in such amounts not less than those specified below as satisfactory to Village, naming the Village as an Additional Insured, underwritten by a firm rated A-X or better by A.M. Best and qualified to do business in the State of Florida. The insurance coverage shall be primary insurance with respect to the Village, its officials, employees,

agents, and volunteers naming the Village as additional insured. Any insurance maintained by the Village shall be in excess of the Contractor's insurance and shall not contribute to the Contractor's insurance. The insurance coverages shall include at a minimum the amounts set forth in this section and may be increased by the Village as it deems necessary or prudent.

9.1.1. Commercial General Liability coverage with limits of liability of not less than a $1,000,000 per Occurrence combined single limit for Bodily Injury and Property Damage. This Liability Insurance shall also include Completed Operations and Product Liability coverages and eliminate the exclusion with respect to property under the care, custody and control of Contractor. The General Aggregate Liability limit and the Products/Completed Operations Liability Aggregate limit shall be in the amount of $2,000,000 each.

9.1.2. Workers Compensation and Employer's Liability insurance, to apply for all employees for statutory limits as required by applicable State and Federal laws. The policy(ies) must include Employer's Liability with minimum limits of $1,000,000.00 each accident. No employee, subcontractor or agent of the Contractor shall be allowed to provide Services pursuant to this Agreement who is not covered by Worker's Compensation insurance.

9.1.3. Business Automobile Liability with minimum limits of $1,000,000 per occurrence, combined single limit for Bodily Injury and Property Damage. Coverage must be afforded on a form no more restrictive than the latest edition of the Business Automobile Liability policy, without restrictive endorsements, as filed by the Insurance Service Office, and must include Owned, Hired, and Non-Owned Vehicles.

9.1.4. Professional Liability Insurance in an amount of not less than One Million Dollars ($1,000,000.00) per occurrence, single limit.

9.2. Certificate of Insurance. Certificates of Insurance shall be provided to the Village, reflecting the Village as an Additional Insured (except with respect to Professional Liability Insurance and Worker's Compensation Insurance), no later than ten (10) days after award of this Agreement and prior to the execution of this Agreement by Village and prior to commencing Services. Each certificate shall include no less than (30) thirty-day advance written notice to Village prior to cancellation, termination, or material alteration of said policies or insurance. The Contractor shall be responsible for assuring that the insurance certificates required by this Section remain in full force and effect for the duration of this Agreement, including any extensions or renewals that may be granted by the Village. The Certificates of Insurance shall not only name the types of policy(ies) provided, but also shall refer specifically to this Agreement and shall state that such insurance is as required by this Agreement. The Village reserves the right to inspect and return a certified copy of such policies, upon written request by the Village. If a policy is due to expire prior to the completion of the Services, renewal Certificates of Insurance shall be furnished thirty (30) calendar days prior to the date of their policy expiration. Each policy certificate shall be endorsed with a provision that not less than thirty (30) calendar days' written notice shall be provided to the Village before any policy or coverage is cancelled or restricted. Acceptance of the Certificate(s) is subject to approval of the Village.

9.3. Additional Insured. Except with respect to Professional Liability Insurance and Worker's Compensation Insurance**,** the Village is to be specifically included as an Additional Insured for the liability of the Village resulting from Services performed by or on behalf of the Contractor in performance of this Agreement. The Contractor's insurance, including that applicable to the Village as an Additional Insured, shall apply on a primary basis and any other insurance maintained by the Village shall be in excess of and shall not contribute to the Contractor's insurance. The Contractor's insurance shall contain a severability of interest provision providing that, except with respect to the total limits of liability, the insurance shall apply to each Insured or Additional Insured (for applicable policies) in the same manner as if separate policies had been issued to each.

9.4. Deductibles. All deductibles or self-insured retentions must be declared to and be reasonably approved by the Village. The Contractor shall be responsible for the payment of any deductible or self-insured retentions in the event of any claim.

9.5. The provisions of this section shall survive termination of this Agreement.

10. Nondiscrimination. During the term of this Agreement, Contractor shall not discriminate against any of its employees or applicants for employment because of their race, color, religion, sex, or national origin, and will abide by all Federal and State laws regarding nondiscrimination.

11. Attorneys Fees and Waiver of Jury Trial.

11.1. In the event of any litigation arising out of this Agreement, the prevailing party shall be entitled to recover its attorneys' fees and costs, including the fees and expenses of any paralegals, law clerks and legal assistants, and including fees and expenses charged for representation at both the trial and appellate levels.

11.2. IN THE EVENT OF ANY LITIGATION ARISING OUT OF THIS AGREEMENT, EACH PARTY HEREBY KNOWINGLY, IRREVOCABLY, VOLUNTARILY AND INTENTIONALLY WAIVES ITS RIGHT TO TRIAL BY JURY.

12. Indemnification.

12.1. Contractor shall indemnify and hold harmless the Village, its officers, agents and employees, from and against any and all demands, claims, losses, suits, liabilities, causes of action, judgment or damages, arising from Contractor's performance or non-performance of any provision of this Agreement, including, but not limited to, liabilities arising from contracts between the Contractor and third parties made pursuant to this Agreement. Contractor shall reimburse the Village for all its expenses including reasonable attorneys' fees and costs incurred in and about the defense of any such claim or investigation and for any judgment or damages arising from Contractor's performance or non-performance of this Agreement.

12.2. Nothing herein is intended to serve as a waiver of sovereign immunity by the Village nor shall anything included herein be construed as consent to be sued by third

parties in any matter arising out of this Agreement or any other contract. The Village is subject to section 768.28, Florida Statutes, as may be amended from time to time.

12.3. The provisions of this section shall survive termination of this Agreement.

13. Notices/Authorized Representatives. Any notices required by this Agreement shall be in writing and shall be deemed to have been properly given if transmitted by hand-delivery, by registered or certified mail with postage prepaid return receipt requested, or by a private postal service, addressed to the parties (or their successors) at the addresses listed on the signature page of this Agreement or such other address as the party may have designated by proper notice.

14. Governing Law and Venue. This Agreement shall be construed in accordance with and governed by the laws of the State of Florida. Venue for any proceedings arising out of this Agreement shall be proper exclusively in Miami-Dade County, Florida.

15. Entire Agreement/Modification/Amendment.

15.1. This writing contains the entire Agreement of the parties and supersedes any prior oral or written representations. No representations were made or relied upon by either party, other than those that are expressly set forth herein.

15.2. No agent, employee, or other representative of either party is empowered to modify or amend the terms of this Agreement, unless executed with the same formality as this document.

16. Ownership and Access to Records and Audits.

16.1. Contractor acknowledges that all inventions, innovations, improvements, developments, methods, designs, analyses, drawings, reports, compiled information, and all similar or related information (whether patentable or not) which relate to Services to the Village which are conceived, developed or made by Contractor during the term of this Agreement ("Work Product") belong to the Village. Contractor shall promptly disclose such Work Product to the Village and perform all actions reasonably requested by the Village (whether during or after the term of this Agreement) to establish and confirm such ownership (including, without limitation, assignments, powers of attorney and other instruments).

16.2. Contractor agrees to keep and maintain public records in Contractor's possession or control in connection with Contractor's performance under this Agreement. The Village Manager or her designee shall, during the term of this Agreement and for a period of three (3) years from the date of termination of this Agreement, have access to and the right to examine and audit any records of the Contractor involving transactions related to this Agreement. Contractor additionally agrees to comply specifically with the provisions of Section 119.0701, Florida Statutes. Contractor shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed, except as authorized by law, for the duration of the Agreement, and following completion of the Agreement until the records are transferred to the Village.

16.3. Upon request from the Village's custodian of public records, Contractor shall provide the Village with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided by Chapter 119, Florida Statutes, or as otherwise provided by law.

16.4. Unless otherwise provided by law, any and all records, including but not limited to reports, surveys, and other data and documents provided or created in connection with this Agreement are and shall remain the property of the Village.

16.5. Upon completion of this Agreement or in the event of termination by either party, any and all public records relating to the Agreement in the possession of the Contractor shall be delivered by the Contractor to the Village Manager, at no cost to the Village, within seven (7) days. All such records stored electronically by Contractor shall be delivered to the Village in a format that is compatible with the Village's information technology systems. Once the public records have been delivered upon completion or termination of this Agreement, the Contractor shall destroy any and all duplicate public records that are exempt or confidential and exempt from public records disclosure requirements.

16.6. Any compensation due to Contractor shall be withheld until all records are received as provided herein.

16.7. Contractor's failure or refusal to comply with the provisions of this section shall result in the immediate termination of this Agreement by the Village.

16.8. **Notice Pursuant to Section 119.0701(2)(a), Florida Statutes.** **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS.**

17. Nonassignability. This Agreement shall not be assignable by Contractor unless such assignment is first approved by the Village Manager. The Village is relying upon the apparent qualifications and expertise of the Contractor, and such firm's familiarity with the Village's area, circumstances and desires.

18. Severability. If any term or provision of this Agreement shall to any extent be held invalid or unenforceable, the remainder of this Agreement shall not be affected thereby, and each

remaining term and provision of this Agreement shall be valid and be enforceable to the fullest extent permitted by law.

19. **Independent Contractor.** The Contractor and its employees, volunteers and agents shall be and remain an independent contractor and not an agent or employee of the Village with respect to all of the acts and services performed by and under the terms of this Agreement. This Agreement shall not in any way be construed to create a partnership, association or any other kind of joint undertaking, enterprise or venture between the parties.

20. **Compliance with Laws.** The Contractor shall comply with all applicable laws, ordinances, rules, regulations, and lawful orders of public authorities in carrying out Services under this Agreement, and in particular shall obtain all required permits from all jurisdictional agencies to perform the Services under this Agreement at its own expense.

21. **Waiver.** The failure of either party to this Agreement to object to or to take affirmative action with respect to any conduct of the other which is in violation of the terms of this Agreement shall not be construed as a waiver of the violation or breach, or of any future violation, breach or wrongful conduct.

22. **Survival of Provisions.** Any terms or conditions of either this Agreement that require acts beyond the date of the term of the Agreement, shall survive termination of the Agreement, shall remain in full force and effect unless and until the terms or conditions are completed and shall be fully enforceable by either party.

23. **Prohibition of Contingency Fees.** The Contractor warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Contractor, to solicit or secure this Agreement, and that it has not paid or agreed to pay any person(s), company, corporation, individual or firm, other than a bona fide employee working solely for the Contractor, any fee, commission, percentage, gift, or any other consideration, contingent upon or resulting from the award or making of this Agreement.

24. **State Required Affidavits.** By entering into this Agreement, the Contractor agrees to review and comply with the following state affidavit requirements:

    24.1. Public Entity Crimes Affidavit. Contractor shall comply with Section 287.133, Florida Statutes (Public Entity Crimes Statute), notification of which is hereby incorporated herein by reference, including execution of any required affidavit.

    24.2. Scrutinized Companies. Contractor certifies that it is not on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel. Pursuant to section 287.135, Florida Statues, the Village may immediately terminate this Agreement at its sole option if the Contractor is found to have submitted a false certification; or if the Contractor is placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement. If this Agreement is for more than one million dollars, the Contractor certifies that it is also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Terrorism Sectors List, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, Florida Statutes. Pursuant to Section 287.135, Florida Statutes, the Village may

immediately terminate this Agreement at its sole option if the Contractor is found to have submitted a false certification; or if the Contractor is placed on the Scrutinized Companies with Activities in Sudan List, Scrutinized Companies with Activities in the Iran Terrorism Sectors List, Scrutinized Companies with Activities in Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

24.3. E-Verify Affidavit. In accordance with Section 448.095, Florida Statutes, the Village requires all contractors doing business with the Village to register with and use the E-Verify system to verify the work authorization status of all newly hired employees. The Village will not enter into a contract unless each party to the contract registers with and uses the E-Verify system. The contracting entity must provide of its proof of enrollment in E-Verify. For instructions on how to provide proof of the contracting entity's participation/enrollment in E-Verify, please visit: https://www.e-verify.gov/faq/how-do-i-provide-proof-of-my-participationenrollment-in-e-verify. By entering into this Agreement, the Contractor acknowledges that it has read Section 448.095, Florida Statutes; will comply with the E-Verify requirements imposed by Section 448.095, Florida Statutes, including but not limited to obtaining E-Verify affidavits from subcontractors; and has executed the required affidavit attached hereto and incorporated herein.

24.4. Noncoercive Conduct Affidavit. Pursuant to Section 787.06, Florida Statutes, a nongovernmental entity executing, renewing, or extending a contract with a governmental entity is required to provide an affidavit, signed by an officer or a representative of the nongovernmental entity under penalty of perjury, attesting that the nongovernmental entity does not use coercion for labor or services as defined in Section 787.06(2)(a), Florida Statutes. By entering into this Agreement, the Contractor acknowledges that it has read Section 787.06, Florida Statutes, and will comply with the requirements therein, and has executed the required affidavit attached hereto and incorporated herein.

24.5. Prohibition on Contracting with Entities of Foreign Concern. Pursuant to Section 287.138, Florida Statutes (which is expressly incorporated herein by reference), a governmental entity may not knowingly enter into a contract with an entity which would give access to an individual's personal identifying information if (a) the entity is owned by the government of a foreign country of concern; (b) the government of a foreign country of concern has a controlling interest in the entity; or (c) the entity is organized under the laws of or has its principal place of business in a foreign country of concern. By entering into this Agreement, the Contractor acknowledges that it has read Section 287.138, Florida Statutes, and complies with the requirements therein, and has executed the required affidavit attached hereto and incorporated herein.

25. Counterparts. This Agreement may be executed in several counterparts, each of which shall be deemed an original and such counterparts shall constitute one and the same instrument.

26. Conflicts; Order of Priority. This document without exhibits is referred to as the "Base Agreement." In the event of a conflict between the terms of this Base Agreement and any exhibits or attachments hereto, or any documents incorporated herein by reference, the conflict shall be resolved in the following order of priorities and the more stringent criteria for performance of the Services shall apply:

26.1. First Priority: this Base Agreement;

26.2. Second Priority: Change Orders with later date taking precedence;
26.3. Third Priority: Exhibit C – Rate Schedule;
26.4. Fourth Priority: Exhibit A – Scope of Services;
26.5. Fifth Priority: Exhibit B – Contractor's Proposal; and
26.6. Sixth Priority: Statement of Work, with later date taking precedence.

EXHIBIT A
SCOPE OF SERVICES

2.1 INTRODUCTION:

The Village of Key Biscayne is seeking qualified contractors to provide comprehensive HVAC services, including system replacement, installation, preventive maintenance, emergency repairs, and ongoing maintenance for municipal facilities. The selected contractor will play a critical role in ensuring the continuous and efficient operation of HVAC systems, prioritizing occupant comfort, energy efficiency, and full compliance with regulatory standards. This contract aims to support the Village's commitment to maintaining high-performance building systems that enhance sustainability and operational reliability.

The Village of Key Biscayne reserves the right to award one or more contracts at its sole discretion, which may include separating construction services from maintenance services. This decision will be made in the best interest of the Village to ensure efficiency, cost-effectiveness, and the highest quality of service.

2.2 SCOPE OF WORK:

See Appendix "A" for-replacement units.

2.2.1 HVAC System Replacement & Installation

The Village hereby retains the Contractor to perform the following HVAC replacement services, and the Contractor hereby agrees that, in exchange for the payments set forth below, the Contractor will provide the replacement services (the "Work") during the term of this Agreement to the Equipment. The Contractor will be responsible for the removal and disposal of existing HVAC units and the supply and installation of new energy-efficient units for all designated locations, including but not limited to the Fire Department, Village Hall, and Community Center, as of the date of this contract. If additional equipment is added or deleted, the price will be adjusted accordingly.

All replacement units will be installed in compliance with local, state, and federal regulations, including obtaining necessary permits and ensuring successful inspections. New installations will include properly sizing and securing units, integrating with existing ductwork and controls, and ensuring compatibility with building automation systems where applicable.

The Contractor will perform all necessary work to ensure the safe and efficient operation of the new HVAC systems, including but not limited to:

- Removal and environmentally compliant disposal of old HVAC units
- Installation of new units, including electrical and refrigerant connections
- Testing and commissioning of the new systems to verify proper functionality
- Insulation and sealing of ductwork as needed to maintain system efficiency
- Ensuring units meet all required energy efficiency standards

- Training designated personnel on the proper operation and basic troubleshooting of installed systems

Warranty coverage will be provided for all new equipment installed under this agreement. The Contractor shall coordinate with the manufacturer to ensure warranty compliance and assist in processing any claims that arise within the warranty period. Any necessary adjustments, minor repairs, or additional support needed to ensure proper operation will be covered within the first 90 days of installation.

All control system integrations, programming, and calibration will remain the responsibility of the Village. The Contractor will not be responsible for any adjustments or modifications to the building's EMS system. Any structural modifications or electrical service upgrades required for proper HVAC installation shall be discussed with and approved by the Village before proceeding.

- Removal and proper disposal of existing HVAC units following all environmental and safety regulations.

- Supply and installation of new energy-efficient HVAC systems, including but not limited to air handlers, condensers, heat exchangers, chillers, boilers, ductwork, thermostats, sensors, and controls.

- Ensure all installations comply with local, state, and federal regulations, including required permits and inspections.

- Testing, commissioning, and balancing of installed systems to ensure optimal performance.

- Provide warranty coverage, troubleshooting, and post-installation support.

- Install and integrate smart and programmable thermostats for energy efficiency.

- Ensure seamless integration with existing building automation systems.

2.2.2 Preventive Maintenance

See Appendix B for maintenance units.

The Village hereby retains the Contractor to perform the following maintenance services, and the Contractor hereby agrees that, in exchange for the payments set forth below, Contractor will provide the maintenance services (the "Work"), during the term of this Agreement, to the Equipment. Contractor will perform maintenance inspections monthly for all units outlined in Appendix "B" at the Fire Department, Village Hall, and Community Center as of the date of this contract. If additional equipment is added or deleted, the price will be adjusted accordingly.

At the end of each month, the Contractor shall submit a detailed report outlining the maintenance activities performed on each unit, including a summary of work completed, identified issues, and any corrective actions taken. The report must also include before and after pictures of all serviced equipment to ensure transparency and proper documentation of the work performed.

Filters and belts are included as part of the contract at no extra cost, as well as their replacement along with the cleaning of the drain pans as needed and flushing of the drain lines. Filters provided

will be MERV 8 pleated type filters, replaced as needed for each piece of equipment. Condenser coil cleanings for all rooftop or outdoor equipment (a water spigot must be present on the roof) will be performed on a semi-annual basis depending on the condition of the coils. If it is deemed that the coils should not be cleaned due to their condition, we will advise and provide a price to replace the coil. Evaporator coil cleanings are not included in this service agreement.

Trane should be retained by the customer exclusively to provide service and maintenance on the entire EMS system as needed. The Contractor will not be responsible for any controls work or maintenance as part of this agreement.

Comprehensive HVAC Maintenance Scope of Work

1. Inspect and clean drain pans and drain lines to prevent clogs and overflow issues.
2. Inspect and clean blower wheels to maintain airflow efficiency.
3. Inspect and service blower motors to ensure proper function.
4. Inspect and tighten all electrical connections and components.
5. Inspect and test safety controls for proper operation.
6. Check system amperage to ensure compliance with manufacturer's specifications.
7. Inspect and measure temperature differentials across coils for efficiency.
8. Inspect and secure cabinet integrity to prevent air leaks.
9. Test and inspect heating elements and ignition systems.
10. Inspect, test, and calibrate thermostats and humidity controls.
11. Perform a comprehensive leak check for refrigerant lines and components.
12. Lubricate all moving parts, including bearings and motors, as needed.
13. Inspect and adjust fan belts and pulleys, replacing if necessary.
14. Replace air filters with MERV 8 pleated type filters as required.
15. Check refrigerant charge and adjust as necessary per manufacturer guidelines.
16. Inspect and maintain oil levels in applicable systems.
17. Test and inspect compressor function and operation.
18. Inspect and secure hurricane attachments for outdoor units.
19. Inspect and clean energy recovery wheels per manufacturer’s recommendations.

DRAFT

20. Inspect and clean outdoor air intake hoods and mesh filters.

21. Inspect, clean, and maintain condenser coils on a semi-annual basis.

22. Inspect evaporator coils and recommend cleaning or replacement as necessary.

23. Generate and submit a detailed service report identifying any follow-up work needed.

2.2.3 Repair Services

The Contractor shall provide comprehensive HVAC repair services, including but not limited to the following:

- Emergency Repair Services: Provide 24/7 emergency repair services for critical HVAC failures. Response time for emergency calls shall not exceed four (4) hours.

- Troubleshooting & Diagnostics: Identify and diagnose HVAC system failures, including refrigerant leaks, compressor malfunctions, electrical failures, and airflow obstructions.

- Component Replacement & Repair: Repair or replace faulty components such as compressors, motors, capacitors, fans, valves, heat exchangers, coils, and expansion tanks.

- Leak Detection & Refrigerant Management: Conduct leak detection tests, repair refrigerant lines, and ensure compliance with EPA regulations for refrigerant handling and disposal.

- Ductwork & Airflow Repairs: Repair or replace ductwork, insulation, diffusers, dampers, and grilles to maintain proper airflow and indoor air quality.

- Control Systems & Automation: Diagnose, repair, or replace control systems, actuators, sensors, thermostats, and HVAC automation components.

- System Rebalancing: Ensure proper airflow balance and system calibration for optimal performance.

- Safety Compliance: Ensure all repairs comply with OSHA safety regulations and industry standards.

- Follow-Up Inspections: Provide post-repair inspections and ensure systems are operating efficiently before finalizing repairs.

2.2.4 System Optimization & Energy Efficiency

The Contractor shall take proactive measures to improve the energy efficiency and longevity of HVAC systems, including:

- Energy Audits & Efficiency Analysis: Conduct energy audits to identify inefficiencies, provide cost-saving recommendations, and optimize HVAC performance.

- Equipment Upgrades: Recommend and install high-efficiency equipment, including energy-efficient compressors, variable speed motors, and advanced filtration systems.

- Demand-Controlled Ventilation: Implement demand-based ventilation strategies to optimize indoor air quality and energy usage.

- Building Automation Integration: Ensure proper integration with the building's automation system to maximize efficiency and performance monitoring.

- Smart Thermostat & Control Upgrades: Install and configure smart thermostats and programmable controls for optimized energy use.

- Indoor Air Quality (IAQ) Enhancements: Implement IAQ solutions, including high-efficiency air filters, UV purification systems, and humidity control enhancements.

2.2.5 Reporting & Documentation

The Contractor shall provide thorough documentation and reporting, including:

- Maintenance & Repair Logs: Maintain detailed records of all maintenance, repairs, and replacements performed on HVAC equipment.

- Service Reports: Provide detailed service reports, including before and after images of repairs and maintenance tasks.

- Regulatory Compliance Documentation: Maintain and submit reports related to refrigerant usage, disposal, and environmental compliance per EPA regulations.

- Work Order Tracking: Log all completed and pending work orders, ensuring transparency and accountability.

- Performance Recommendations: Submit recommendations for system improvements, component replacements, and lifecycle planning.

2.3 PERFORMANCE REQUIREMENTS

To ensure optimal operation and longevity of HVAC systems, the Contractor shall adhere to the following performance standards:

- System Uptime & Efficiency: Maintain all HVAC systems at peak operational efficiency with minimal downtime.

- Emergency Response Time: Respond to emergency repair calls within four (4) hours of notification.

- Compliance & Safety Standards: Ensure all services comply with local, state, and federal regulations, including OSHA, EPA, and industry best practices.

- Qualified Personnel: Provide certified HVAC technicians trained in system maintenance, repair, and installation.

- Inventory Management: Maintain an inventory of commonly used replacement parts to facilitate timely repairs and minimize downtime.

- Manufacturer Guidelines & Warranty Protection: Ensure all work performed complies with manufacturer specifications and does not void warranty conditions.

- Conduct energy audits to identify inefficiencies and recommend cost-saving measures.

- Upgrade outdated HVAC equipment to improve energy efficiency and sustainability.

- Implement demand-controlled ventilation and advanced airflow management strategies.

- Integrate high-efficiency filtration systems to improve indoor air quality.

- Recommend and implement upgrades to meet LEED and Energy Star standards where applicable.

2.4 CONTRACT TERMS

- **Contract Duration:** The initial contract term shall be one year, with an option for renewal based on the contractor's performance and the Village's needs. Any contract extension shall be mutually agreed upon in writing.

- **Scope of Work Compliance:** The Contractor must adhere to the detailed scope of work outlined in this agreement, ensuring all HVAC maintenance, repair, and installation tasks are completed per industry standards and manufacturer specifications.

- **Payment Terms:** Payments will be processed on a Net 30 basis upon invoice approval. All invoices must include detailed descriptions of the services performed, itemized costs, and supporting documentation.

- **Warranty Requirements:** The Contractor shall provide a warranty for all work performed, including labor and materials, for a minimum period of one year. Warranty claims shall be addressed promptly, and the Contractor shall correct any deficiencies at no additional cost to the Village.

- **Regulatory Compliance:** The Contractor shall comply with all applicable local, state, and federal regulations, including but not limited to OSHA safety standards, EPA refrigerant handling protocols, and industry best practices.

- **Insurance Requirements:** The Contractor must maintain and provide proof of general liability insurance, workers' compensation insurance, and vehicle insurance in accordance with Village requirements. The Village shall be listed as an additional insured.

- **Emergency Services:** The Contractor shall maintain availability for emergency repairs 24/7 and respond to emergency calls within a four-hour window.

- **Performance Reviews:** The Village reserves the right to conduct periodic performance evaluations. Failure to meet contractual obligations may result in contract termination.

- **Work Hours:** Routine maintenance and non-emergency repairs shall be conducted during normal business hours unless prior approval is obtained for after-hours work.

The Village of Key Biscayne retains full discretion over the selection and timing of HVAC unit replacements. Not all units listed in the pricing schedule will be replaced simultaneously or within the same fiscal period. The Village reserves the exclusive right to determine which units require replacement based on operational needs, budgetary constraints, and the overall condition of existing equipment. The inclusion of a unit in this schedule does not constitute a guarantee of replacement. Additionally, the Village may defer, modify, or cancel the replacement of any unit at its sole discretion without any obligation to the Contractor. The Contractor shall not proceed with any unit replacement without explicit written authorization from the Village. Pricing provided in this schedule shall remain valid for the duration of the agreement or as otherwise negotiated. Any deviations from the agreed-upon scope or costs must be pre- approved in writing by the Village.

FORM OF PAYMENT AND PERFORMANCE BOND
FORM OF PAYMENT AND PERFORMANCE BONDS

PAYMENT BOND

BY THIS BOND, we, _____, as Principal, (the "Contractor") and _____, as Surety, are bound to the Village of Key Biscayne (the "Village"), as Obligee, in the amount of __ _____Dollars ($_____) for the payment whereof Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally.

WHEREAS, Contractor has by written agreement entered into a Contract pursuant to ITB No. 2025-XX, which was awarded on _____, 2025, pursuant to Resolution No. ___, with the Village, which contract documents are by reference incorporated herein and made a part hereof, and specifically include provision for liquidated and other damages, and for the purpose of this Bond are referred to as the "Contract."

NOW, THEREFORE, THE CONDITION OF THIS PAYMENT BOND/OBLIGATION are that if Contractor shall promptly make payment to all claimants, as herein below defined, then this obligation shall be void; otherwise, this Bond shall remain in full force and effect, subject to the following terms and conditions:

1. A claimant is defined as any person supplying the Principal with labor, material and supplies, used directly or indirectly by the said Principal or any subcontractor in the prosecution of the work provided for in said Contract, and is further defined in Section 255.05(1) of the Florida Statutes; and
2. The above named Principal and Surety hereby jointly and severally agree with the Owner that every claimant as herein defined, who has not been paid in full before the expiration of a period of ninety (90) days after performance of the labor or after complete delivery of materials and supplies by such claimant, may sue on this Bond for the use of such claimant, prosecute the suit to final judgment for such sum or sums as may be justly due claimant, and have execution thereon. The Owner shall not be liable for the payment of any costs or expenses of any such suit; and
3. No suit or action shall be commenced hereunder by any claimant:
    a. Unless claimant, other than one having a direct contract with the Principal, shall within forty-five (45) days after beginning to furnish labor, materials or supplies for the prosecution of the work, furnish the Principal with a notice that he intends to look to this bond for protection;
    b. Unless claimant, other than one having a direct contract with the Principal, shall within ninety (90) days after such claimant's performance of the labor or complete delivery of materials and supplies, deliver to the Principal written notice of the performance of such labor or delivery of such material and supplies and the nonpayment therefore;
    c. After the expiration of one (1) year from the performance of the labor or completion of delivery of the materials and supplies; it being understood, however, that if any limitation embodied in this Bond is prohibited by any law controlling the construction hereof such limitations shall be deemed to be amended so as to be equal to the minimum period of limitation permitted by such law;
    d. Other than in a state court of competent jurisdiction in and for the county or other political subdivision of the state in which the project, or any part thereof, is situated, or in the United States District Court for the district in which the project, or any part thereof, is situated, and not elsewhere.
4. The Principal and the Surety jointly and severally, shall repay the Owner any sum which the Owner may be compelled to pay because of any lien for labor or materials furnished for any work included in or provided by said Contract.
5. The Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration of or addition to the terms of the Contract or to the work to be performed thereunder or the Specifications

applicable thereto shall in any way affect its obligations on this Bond, and the Surety hereby waives notice of any such change, extension of time, alterations of or addition to the terms of the Contract, or to the work or to the Specifications.

6. The Surety represents and warrants to the Owner that they have a Best's Key Rating Guide General Policyholder's rating of "_____" and Financial Category of "Class _____".

IN WITNESS WHEREOF, the above bounded parties executed this instrument under their several seals, this _____ day of _____2025, A.D., the name and corporate seal of each corporate party being hereto affixed and these presents duly signed by its undersigned representative, pursuant to authority of its governing body.

PERFORMANCE BOND

BY THIS BOND, we, _____, as Principal, (the "Contractor") and _____, as Surety, are bound to the Village of Key Biscayne (the "Village"), as Obligee, in the amount of _____Dollars ($_____) for the payment whereof Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally.

WHEREAS, Contractor has by written agreement entered into Contract ITB No. 2025-XX, awarded on _____, 2025, pursuant to Resolution No. _____, with the Village, which contract documents are by reference incorporated herein and made a part hereof, and specifically include provision for liquidated and other damages, and for the purpose of this Bond are referred to as the "Contract."

NOW, THEREFORE, THE CONDITION OF THIS PERFORMANCE BOND is that if Contractor:

7. Performs the Contract between Contractor and Village for the services defined in the Contract, the Contract being made a part of this Bond by reference, at the times and in the manner prescribed in the Contract; and
8. Pays the Village all losses, damages, liquidated damages, expenses, costs, and any and all attorney's fees, including for appellate proceedings, that the Village sustains as a result of default by Contractor under the Contract; and
9. Performs the guarantee of all work and materials furnished under the Contract for the time specified in the Contract, THEN THIS BOND WILL BE VOID. OTHERWISE, IT WILL REMAIN IN FULL FORCE AND EFFECT SUBJECT, HOWEVER, TO THE FOLLOWING CONDITIONS:
10. Whenever Contractor is, and declared by the Village to be, in default under the Contract, the Village having performed the Village's obligations, the Surety may promptly remedy the default or will promptly:
    a. Complete the services defined in the Contract in accordance with the terms and conditions of the Contract; or
    b. Obtain a bid or bids for completing the services defined in the Contract in accordance with the terms and conditions of the Contract, and upon determination by Surety of the lowest responsible bidder, or if the Village elects, upon determination by the Village and Surety jointly of the lowest responsible bidder, arrange for a contract between such bidder and the Village, and make available as work progresses (even though there should be a default or a succession of defaults under the Contract of completion arranged under this paragraph) sufficient funds to pay the cost of completion less the balance of the Contract Price, but not exceeding, including other costs and damages for which the Surety may be liable hereunder, the amount set forth in the first paragraph hereof. The term "balance of the Contract Price," as used in this paragraph, will mean the total amount payable by the Village to Contractor under the Contract and any amendments thereto, less the amount properly paid by the Village to Contractor.

IT IS FURTHER AGREED THAT no right of action will accrue on this Bond to or for the use of any person or corporation other than the Village; and

IT IS FURTHER AGREED THAT the Surety hereby waives notice of and agrees that any changes in or under the Contract and compliance or noncompliance with any formalities connected with the Contract or the changes does not affect Surety's obligations under this Bond.

Public Entity Crimes Affidavit

I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentations.

I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime; or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, and partners, shareholders, employees, members, and agents who are active in management of an entity.

Based on information and belief, the statement, which I have marked below, is true in relations to the entity submitting this sworn statement.

(INDICATE WHICH STATEMENT APPLIES.)

[**X**] Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with ad convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives partners, shareholders, employees, members, or agents who are active in the management of the entity,

or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida , Division of Administrative Hearings and the final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list (attach a copy of the final order).

I understand that the submission of this form to the contracting officer for the public entity identified in paragraph 1 above is for that public entity only and that this form is valid through December 31 of the calendar year in which it is filed. I also understand that I am required to inform the public entity prior to entering into a contract in excess of the threshold amount provided in Section 287.017, Florida Statutes for category two of any change in the information contained in this form.

Business Entity Affidavit

Proposer hereby recognizes and certifies that no elected official, board member, or employee of the Village of Key Biscayne (the " Village") shall have a financial interest directly or indirectly in this transaction or any compensation to be paid under or through this transaction, and further, that no Village employee, nor any elected or appointed officer (including Village board members) of the Village, nor any spouse, parent or child of such employee or elected or appointed officer of the Village, may be a partner, officer, director or proprietor of Proposer or Vendor, and further, that no such Village employee or elected or appointed officer, or the spouse, parent or child of any of them, alone or in combination, may have a material interest in the Vendor or Proposer. Material interest means direct or indirect ownership of more than 5% of the total assets or capital stock of the Proposer. Any exception to these above-described

restrictions must be expressly provided by applicable law or ordinance and be confirmed in writing by Village. Further, Proposer recognizes that with respect to this transaction or bid, if any Proposer violates or is a party to a violation of the ethics ordinances or rules of the Village, the provisions of Miami-Dade County Code Section 2-11.1, as applicable to Village, or the provisions of Chapter 112, part III, Fla. Stat., the Code of Ethics for Public Officers and Employees, such Proposer may be disqualified from furnishing the goods or services for which the bid or proposal is submitted and may be further disqualified from submitting any future bids or proposals for goods or services to Village.

Scrutinized Company Certification

1. Proposer certifies that it and its subcontractors are not on the Scrutinized Companies that Boycott Israel List. Pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer or its subcontractors are found to have submitted a false certification; or if the Proposer, or its subcontractors are placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
2. If the Agreement that may result from this ITB is for more than one million dollars, the Proposer certifies that it and its subcontractors are also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer, its affiliates, or its subcontractors are found to have submitted a false certification; or if the Proposer, its affiliates, or its subcontractors are placed on the Scrutinized

Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

3. The Proposer agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under the Agreement that may result from this ITB. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize the above-stated contracting prohibitions then they shall become inoperative.

DRUG FREE WORKPLACE

The undersigned proposer in accordance with Chapter 287.087, Florida Statutes, hereby certifies that Con-Mech, Inc does:

(Name of proposer)

1. Publish a statement notifying employees that the unlawful manufacturing, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the contractual services described in the ITB document a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the contractual services described in the ITB or the Agreement, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

7. As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

PUBLIC ENTITY CRIMES

Sworn Statement Under §287.133(3)(a), Florida Statutes

(This form must be signed in the presence of a notary public or other officer authorized to administer oaths.)

1. This sworn statement is submitted with Bid, Proposal or contract No. **ITB 2025-05**

2. This sworn statement is submitted by: **Con-Mech, Inc**
(name of entity submitting sworn statement)

whose business address is: **9802 NW 80th Ave. Unit 38. Hialeah Gardens, Fl 33016**

Federal Identification Number (FEIN) is: **81-4945498**
(if applicable)

Social Security Number: _____

(if the entity has no FEIN, include the Social Security Number of the individual signing this sworn statement)

3. My name is: **Yudel Cubillas**
(print name of individual signing this document)

and my relationship to the entity is: **President**

4. I understand that a "public entity crime" as defined in §287.133(1)(g), Florida Statutes means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United states, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

5. I understand that a "convicted" or "conviction" as defined in §287.133(1)(b), Florida Statutes, means a finding of guilt of a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

6. I understand that an "affiliate" as defined in §287.133(1)(a), Florida Statutes means:
   (a) A predecessor or successor of a person or a corporation convicted of a public

entity crime; or

(b) An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima-facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

7. I understand that a "person" as defined in §287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which binds or applies to bids on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

8. Based on the information and belief, the statement that I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies)

   a. __X__Neither the entity submitting the sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity nor any affiliate of the entity have been charged with and convicted of a public entity crime subsequent to July 1, 1989.

   b. ____The entity submitting this sworn statement, or one or more of the officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989, and (Please indicate which additional statement applies)

      1) ____There has been a proceeding concerning the conviction before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. (Please attach a copy of the final order)

      2) ____The person or affiliate was placed on the convicted list. There has been a subsequent proceeding before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or

affiliate from the convicted vendor list. (Please attach a copy of the final order)

3) ____The person or affiliate has not been placed on the convicted vendor list. (Please describe any action taken by or pending with the Department of General Services)

to furnish all materials, equipment, and labor and to perform all work in accordance with the Contract Documents for:

HVAC REPLACEMENT, REPAIRS AND MAINTENANCE SERVICES
("THE PROJECT")

TO: Village of Key Biscayne
Attn: Village Clerk
88 West McIntyre Street, Suite 220
Key Biscayne, Florida 33149

The undersigned, as Bidder, hereby declares that the only person or persons interested in the Bid, as principal or principals, is or are named herein and that no other person than herein mentioned has any interests in the Bid or the Contract to which the Work pertains; that this Bid is made without connection or arrangement with any other person, company, or parties making Bids or Proposals and that the Bid is in all respects fair and made in good faith without collusion or fraud.

The Bidder further declares that he or she has examined the geographic location and sites of the Work; that he has made sufficient investigations to fully satisfy himself that such sites are suitable for this Work; and he assumes full responsibility therefore; that he has examined the specifications for the Work and from his own experience or from professional advice that the specifications are sufficient for the Work to be done and he has examined the other Contract Documents relating thereto, including the Instructions to Bidders, the Contract, Bid, Detailed Scope of Work/Specifications, Qualification Statement, Public Entity Crime Form, and Insurance requirements and he has read all addenda prior to the opening of Bids, and that he has satisfied himself fully, relative to all matters and conditions with respect to the Work to which this Bid pertains.

The Bidder proposes and agrees, if this Bid is accepted, to timely execute the Contract with the Village in the form attached and to furnish all necessary materials, all equipment, all necessary machinery, tools, apparatus, means of transportation, and labor necessary to complete the Work specified in the Bid and the Contract, and called for by the drawings and specifications and in the manner specified and to timely submit all required bonds and insurance certificates.

***NOTE:* THIS SCHEDULE OF BID ITEMS IS MERELY ILLUSTRATIVE OF THE MINIMUM AMOUNT/QUANTITY OF WORK TO BE PERFORMED UNDER THE CONTRACT. IN THE CASE OF ANY CONFLICT BETWEEN THIS SCHEDULE OF BID ITEMS AND THE DETAILED SPECIFICATIONS, THE DETAILED SPECIFICATIONS WILL PREVAIL.**

The Bidder further proposes and agrees to comply in all respects with the time limits for commencement and completion of the Work as stated in the Contract.

The Bidder agrees to execute the Contract and furnish the executed Contract, all required bonds, insurance certificates, and other required information to Village within ten (10) ten calendar days after written notice of the Award of Contract. Failure on the part of the Bidder to timely comply with this provision shall give Village all rights and remedies set forth in the Instructions to Bidders.

The undersigned agrees to accept as full compensation therefore the total of the lump sum prices and extended unit prices items named in the following schedule. It is understood that the unit prices quoted or established for a particular item are to be used for computing the amount to be paid to the Contractor, based on the Work actually performed as determined by the Contract and the Village. However, in utilizing the schedule, the Bidder agrees that in no event shall compensation paid to the Bidder under the Contract exceed the dollar amount of the Bidder's Bid amount, as set forth in the attached Bid.

It is intended that all Work to be performed under this Bid shall commence approximately thirty (30) days after Contract execution.

In no event shall Village be obligated to pay for Work not performed or materials not furnished. Bidder's

EXHIBIT A

SCOPE OF SERVICES

The Scope of Services are those contained in the Proposal Section 2. dated 03/25/2025, 2025 , attached hereto and incorporated herein by reference.

SECTION 2. SCOPE OF WORK / TECHNICAL SPECIFICATIONS

2.1 INTRODUCTION:

The Village of Key Biscayne is seeking qualified contractors to provide comprehensive HVAC services, including system replacement, installation, preventive maintenance, emergency repairs, and ongoing maintenance for municipal facilities. The selected contractor will play a critical role in ensuring the continuous and efficient operation of HVAC systems, prioritizing occupant comfort, energy efficiency, and full compliance with regulatory standards. This contract aims to support the Village's commitment to maintaining high-performance building systems that enhance sustainability and operational reliability.

The Village of Key Biscayne reserves the right to award one or more contracts at its sole discretion, which may include separating construction services from maintenance services. This decision will be made in the best interest of the Village to ensure efficiency, cost-effectiveness, and the highest quality of service.

2.2 SCOPE OF WORK:

See Exhibit "A" for-replacement units.

2.2.1 HVAC System Replacement & Installation

The Village hereby retains the Contractor to perform the following HVAC replacement services, and the Contractor hereby agrees that, in exchange for the payments set forth below, the Contractor will provide the replacement services (the "Work") during the term of this Agreement to the Equipment. The Contractor will be responsible for the removal and disposal of existing HVAC units and the supply and installation of new energy-efficient units for all designated locations, including but not limited to the Fire Department, Village Hall, and Community Center, as of the date of this contract. If additional equipment is added or deleted, the price will be adjusted accordingly.

All replacement units will be installed in compliance with local, state, and federal regulations, including obtaining necessary permits and ensuring successful inspections. New installations will include properly sizing and securing units, integrating with existing ductwork and controls, and ensuring compatibility with building automation systems where applicable.

The Contractor will perform all necessary work to ensure the safe and efficient operation of the new HVAC systems, including but not limited to:

- Removal and environmentally compliant disposal of old HVAC units
- Installation of new units, including electrical and refrigerant connections
- Testing and commissioning of the new systems to verify proper functionality
- Insulation and sealing of ductwork as needed to maintain system efficiency
- Ensuring units meet all required energy efficiency standards
- Training designated personnel on the proper operation and basic troubleshooting of installed systems

Warranty coverage will be provided for all new equipment installed under this agreement. The Contractor shall coordinate with the manufacturer to ensure warranty compliance and assist in processing any claims that arise within the warranty period. Any

necessary adjustments, minor repairs, or additional support needed to ensure proper operation will be covered within the first 90 days of installation.

All control system integrations, programming, and calibration will remain the responsibility of the Village. The Contractor will not be responsible for any adjustments or modifications to the building's EMS system. Any structural modifications or electrical service upgrades required for proper HVAC installation shall be discussed with and approved by the Village before proceeding.

- Removal and proper disposal of existing HVAC units following all environmental and safety regulations.
- Supply and installation of new energy-efficient HVAC systems, including but not limited to air handlers, condensers, heat exchangers, chillers, boilers, ductwork, thermostats, sensors, and controls.
- Ensure all installations comply with local, state, and federal regulations, including required permits and inspections.
- Testing, commissioning, and balancing of installed systems to ensure optimal performance.
- Provide warranty coverage, troubleshooting, and post-installation support.
- Install and integrate smart and programmable thermostats for energy efficiency.
- Ensure seamless integration with existing building automation systems.

2.2.2 Preventive Maintenance

See Exhibit B for maintenance units.

The Village hereby retains the Contractor to perform the following maintenance services, and the Contractor hereby agrees that, in exchange for the payments set forth below, Contractor will provide the maintenance services (the "Work"), during the term of this Agreement, to the Equipment. Contractor will perform maintenance inspections monthly for all units outlined in Exhibit "B" at the Fire Department, Village Hall, and Community Center as of the date of this contract. If additional equipment is added or deleted, the price will be adjusted accordingly.

At the end of each month, the Contractor shall submit a detailed report outlining the maintenance activities performed on each unit, including a summary of work completed, identified issues, and any corrective actions taken. The report must also include before and after pictures of all serviced equipment to ensure transparency and proper documentation of the work performed.

Filters and belts are included as part of the contract at no extra cost, as well as their replacement along with the cleaning of the drain pans as needed and flushing of the drain lines. Filters provided will be MERV 8 pleated type filters, replaced as needed for each piece of equipment. Condenser coil cleanings for all rooftop or outdoor equipment (a water spigot must be present on the roof) will be performed on a semi-annual basis depending on the condition of the coils. If it is deemed that the coils should not be cleaned due to their condition, we will advise and provide a price to replace the coil. Evaporator coil cleanings are not included in this service agreement.

Trane should be retained by the customer exclusively to provide service and maintenance on the entire EMS system as needed. The Contractor will not be responsible for any controls work or maintenance as part of this agreement.

Comprehensive HVAC Maintenance Scope of Work

1. Inspect and clean drain pans and drain lines to prevent clogs and overflow issues.
2. Inspect and clean blower wheels to maintain airflow efficiency.
3. Inspect and service blower motors to ensure proper function.
4. Inspect and tighten all electrical connections and components.
5. Inspect and test safety controls for proper operation.
6. Check system amperage to ensure compliance with manufacturer's specifications.
7. Inspect and measure temperature differentials across coils for efficiency.
8. Inspect and secure cabinet integrity to prevent air leaks.
9. Test and inspect heating elements and ignition systems.
10. Inspect, test, and calibrate thermostats and humidity controls.
11. Perform a comprehensive leak check for refrigerant lines and components.
12. Lubricate all moving parts, including bearings and motors, as needed.
13. Inspect and adjust fan belts and pulleys, replacing if necessary.
14. Replace air filters with MERV 8 pleated type filters as required.
15. Check refrigerant charge and adjust as necessary per manufacturer guidelines.
16. Inspect and maintain oil levels in applicable systems.
17. Test and inspect compressor function and operation.
18. Inspect and secure hurricane attachments for outdoor units.
19. Inspect and clean energy recovery wheels per manufacturer’s recommendations.
20. Inspect and clean outdoor air intake hoods and mesh filters.
21. Inspect, clean, and maintain condenser coils on a semi-annual basis.
22. Inspect evaporator coils and recommend cleaning or replacement as necessary.
23. Generate and submit a detailed service report identifying any follow-up work needed.

2.2.3 Repair Services

The Contractor shall provide comprehensive HVAC repair services, including but not limited to the following:

- Emergency Repair Services: Provide 24/7 emergency repair services for critical HVAC failures. Response time for emergency calls shall not exceed four (4) hours.
- Troubleshooting & Diagnostics: Identify and diagnose HVAC system failures, including refrigerant leaks, compressor malfunctions, electrical failures, and airflow obstructions.
- Component Replacement & Repair: Repair or replace faulty components such as compressors, motors, capacitors, fans, valves, heat exchangers, coils, and expansion tanks.

- Leak Detection & Refrigerant Management: Conduct leak detection tests, repair refrigerant lines, and ensure compliance with EPA regulations for refrigerant handling and disposal.
- Ductwork & Airflow Repairs: Repair or replace ductwork, insulation, diffusers, dampers, and grilles to maintain proper airflow and indoor air quality.
- Control Systems & Automation: Diagnose, repair, or replace control systems, actuators, sensors, thermostats, and HVAC automation components.
- System Rebalancing: Ensure proper airflow balance and system calibration for optimal performance.
- Safety Compliance: Ensure all repairs comply with OSHA safety regulations and industry standards.
- Follow-Up Inspections: Provide post-repair inspections and ensure systems are operating efficiently before finalizing repairs.

2.2.4 System Optimization & Energy Efficiency

The Contractor shall take proactive measures to improve the energy efficiency and longevity of HVAC systems, including:

- Energy Audits & Efficiency Analysis: Conduct energy audits to identify inefficiencies, provide cost-saving recommendations, and optimize HVAC performance.
- Equipment Upgrades: Recommend and install high-efficiency equipment, including energy-efficient compressors, variable speed motors, and advanced filtration systems.
- Demand-Controlled Ventilation: Implement demand-based ventilation strategies to optimize indoor air quality and energy usage.
- Building Automation Integration: Ensure proper integration with the building's automation system to maximize efficiency and performance monitoring.
- Smart Thermostat & Control Upgrades: Install and configure smart thermostats and programmable controls for optimized energy use.
- Indoor Air Quality (IAQ) Enhancements: Implement IAQ solutions, including high-efficiency air filters, UV purification systems, and humidity control enhancements.

2.2.5 Reporting & Documentation

The Contractor shall provide thorough documentation and reporting, including:

- Maintenance & Repair Logs: Maintain detailed records of all maintenance, repairs, and replacements performed on HVAC equipment.
- Service Reports: Provide detailed service reports, including before and after images of repairs and maintenance tasks.
- Regulatory Compliance Documentation: Maintain and submit reports related to refrigerant usage, disposal, and environmental compliance per EPA regulations.

- Work Order Tracking: Log all completed and pending work orders, ensuring transparency and accountability.
- Performance Recommendations: Submit recommendations for system improvements, component replacements, and lifecycle planning.

2.3 PERFORMANCE REQUIREMENTS

To ensure optimal operation and longevity of HVAC systems, the Contractor shall adhere to the following performance standards:

- System Uptime & Efficiency: Maintain all HVAC systems at peak operational efficiency with minimal downtime.
- Emergency Response Time: Respond to emergency repair calls within four (4) hours of notification.
- Compliance & Safety Standards: Ensure all services comply with local, state, and federal regulations, including OSHA, EPA, and industry best practices.
- Qualified Personnel: Provide certified HVAC technicians trained in system maintenance, repair, and installation.
- Inventory Management: Maintain an inventory of commonly used replacement parts to facilitate timely repairs and minimize downtime.
- Manufacturer Guidelines & Warranty Protection: Ensure all work performed complies with manufacturer specifications and does not void warranty conditions.
- Conduct energy audits to identify inefficiencies and recommend cost-saving measures.
- Upgrade outdated HVAC equipment to improve energy efficiency and sustainability.
- Implement demand-controlled ventilation and advanced airflow management strategies.
- Integrate high-efficiency filtration systems to improve indoor air quality.
- Recommend and implement upgrades to meet LEED and Energy Star standards where applicable.

2.4 CONTRACT TERMS

- **Contract Duration:** The initial contract term shall be one year, with an option for renewal based on the contractor's performance and the Village's needs. Any contract extension shall be mutually agreed upon in writing.
- **Scope of Work Compliance:** The Contractor must adhere to the detailed scope of work outlined in this agreement, ensuring all HVAC maintenance, repair, and installation tasks are completed per industry standards and manufacturer specifications.
- **Payment Terms:** Payments will be processed on a Net 30 basis upon invoice approval. All invoices must include detailed descriptions of the services performed, itemized costs, and supporting documentation.
- **Warranty Requirements:** The Contractor shall provide a warranty for all work performed, including labor and materials, for a minimum period of one year. Warranty claims shall be addressed promptly, and the Contractor shall correct any deficiencies at no additional cost to the Village.

- **Regulatory Compliance:** The Contractor shall comply with all applicable local, state, and federal regulations, including but not limited to OSHA safety standards, EPA refrigerant handling protocols, and industry best practices.
- **Insurance Requirements:** The Contractor must maintain and provide proof of general liability insurance, workers' compensation insurance, and vehicle insurance in accordance with Village requirements. The Village shall be listed as an additional insured.
- **Emergency Services:** The Contractor shall maintain availability for emergency repairs 24/7 and respond to emergency calls within a four-hour window.
- **Performance Reviews:** The Village reserves the right to conduct periodic performance evaluations. Failure to meet contractual obligations may result in contract termination.
- **Work Hours:** Routine maintenance and non-emergency repairs shall be conducted during normal business hours unless prior approval is obtained for after-hours work.

2.5 SUBMISSION REQUIREMENTS

Interested contractors must submit a complete proposal that includes the following:

- **Company Profile & Experience:** Provide an overview of the company, its history, and previous experience in HVAC maintenance, repair, and installation services for municipal or commercial clients.
- **Licensing & Certification:** Submit copies of all required licenses and certifications demonstrating compliance with industry regulations and legal requirements.
- **References:** Provide at least five (5) references from similar projects completed within the past five years, including contact information for verification.
- **Pricing Schedule:** Complete and submit the pricing schedule as detailed in Exhibit B, including unit pricing for maintenance, repairs, and replacements.
- **Proof of Insurance & Bonding:** Submit proof of required insurance coverage and any applicable bonding information.
- **Service Response Time & Emergency Call Procedures:** Outline the company's ability to meet required response times for emergency and non-emergency service calls.
- **Quality Assurance & Compliance Measures:** Describe internal quality control measures and compliance monitoring procedures to ensure service excellence.
- **Equipment & Workforce Availability:** Provide details on the availability of necessary tools, equipment, and qualified personnel required to fulfill the contract obligations.
- **Proposed Work Plan & Execution Timeline:** Submit a detailed plan describing how the contractor will execute routine maintenance, repairs, and replacements, including estimated completion timelines.

2.6 EVALUATION CRITERIA

Proposals will be evaluated based on the following criteria:

- **Competitive Pricing:** Cost-effectiveness of the bid in comparison to industry standards and other submitted proposals.

- **Experience & Qualifications:** The contractor's experience, expertise, and ability to provide the required HVAC services.
- **Response Time & Availability:** The contractor's ability to meet response times for routine and emergency services.
- **Regulatory Compliance:** Compliance with all applicable industry regulations, safety standards, and legal requirements.
- **References & Past Performance:** Feedback from references and demonstrated success in previous projects of similar scope.
- **Quality of Proposal:** The completeness, clarity, and professionalism of the submitted proposal.
- **Resources & Workforce Availability:** The contractor's ability to allocate necessary personnel, tools, and equipment to meet contract demands.

The Village of Key Biscayne retains full discretion over the selection and timing of HVAC unit replacements. Not all units listed in the pricing schedule will be replaced simultaneously or within the same fiscal period. The Village reserves the exclusive right to determine which units require replacement based on operational needs, budgetary constraints, and the overall condition of existing equipment. The inclusion of a unit in this schedule does not constitute a guarantee of replacement. Additionally, the Village may defer, modify, or cancel the replacement of any unit at its sole discretion without any obligation to the Contractor. The Contractor shall not proceed with any unit replacement without explicit written authorization from the Village. Pricing provided in this schedule shall remain valid for the duration of the agreement or as otherwise negotiated. Any deviations from the agreed-upon scope or costs must be pre-approved in writing by the Village.

Expiration Date: August 31, 2026

Dear Yudel Cubillas,

Miami-Dade County Small Business Development (SBD), a division of the Internal Services Department (ISD), has completed the review of your application and attachments submitted for certification. Your firm is officially certified as a Miami-Dade County Small Business Enterprise. The Small Business Enterprise (SBE) programs are governed by Sections 2-8.1.1.1.1; 2-8.1.1.1.2; 2-10.4.01; 10-33.02 of Miami-Dade County's Codes. This Small Business Enterprise - Construction (SBE-Con) certification is valid for three (3) years. However, to validate continuing eligibility, SBD may conduct random audit(s) within the three (3) year certification period. **Failure to provide required documentation for a random audit will initiate the decertification process.**

At the time of expiration, your firm will submit a Re-certification Application at least one hundred and eighty (180) days, but not less than, ninety (90) days, prior to the end of the three (3) year certification term via the County's web-based system, Business Management Workforce System (BMWS). This will ensure sufficient time for process by SBD. **Failure to provide the re-certification application and required supporting documentation will initiate the decertification process.**

If at any time there is a material or business structure change in the firm including, but not limited to, ownership, officers, director, scope of work being performed, daily operations, affiliations(s) with other businesses or the physical location of the firm, you must notify this office within thirty (30) calendar days of the effective date of the change(s) via the BMWS. Notification should include supporting documentation. You will receive timely instructions from this office as to how you should proceed, if necessary. **Failure to notify SBD of any changes may result in immediate action to decertify the firm.**

This letter will be the only approval notification issued for the duration of your firm's three-year certification. If the firm attains graduation or becomes ineligible during the three-year certification period, you will be properly notified following an administrative process that your firm's certification has been removed pursuant to the code. Your firm's name and tier level will be listed in the directory for all SBE certified firms, which can be accessed through Miami-Dade County's SBD website: https://www.miamidade.gov/global/business/smallbusiness/home.page. The categories as listed below affords you the opportunity to bid and participate on contracts with Small Business Enterprise measures.

It is strongly recommended that you register your firm as a bidder with Miami-Dade County. To register, you may visit: https://www.miamidade.gov/global/business/procurement/home.page. Thank you for your interest in doing business with Miami-Dade County. If you have any questions or concerns, you may contact our office at 305-375-3111 or via email at sbdcert@miamidade.gov.

Sincerely,

Jeanise Cummings-Labossiere
Section Chief, Small Business Development

ACTIVITY

Provide all equipment, parts, materials and labor for the replacement, repair, service, and maintenance of HVAC equipment as described in Section 2, Exhibits A and B of the Bid Documents.

Company Background

Founded in January 2017, Con-Mech, Inc is a Florida Certified Mechanical Contracting company serving commercial, and residential customers in Miami-Dade, Broward, Monroe and Palm Beach counties. With personnel with more than 20 years of experience in the field, including our founder Yudel Cubillas, a Mechanical Engineer graduated in Cuba in 2006, we combine expertise with honesty, punctuality, respectfulness, and reliability; values that must be an integral part of a company in pursue of complete customer satisfaction.

Our company is proud of being a Miami-Dade County Certified Small Business Enterprise (SBE) and has been able to participate and complete projects for Miami Dade Water and Sewer Department, Miami International Airport, City of Hollywood Regional Waste Water Treatment Plant, among other municipalities. We have been also able to build a long

lasting relationship with private commercial customers and buildings HOA as Ocean 3 Condo, The Grand Condominium, and Grove Gardens Condo for only cite a few of them.

Being an authorized contractor for well known manufacturers like Trane, Carrier, Rheem, Mitsubishi, Aaon, Marley and others, we have been able to complete projects of all sizes, from small residential units to large capacity Air Cooled Chillers, RTUs, Water Source Heatpumps, Condensing Units, Cooling Towers and all associated condensate water piping and pumps.

Response Time and Resources

As we understand the importance of air conditioning, ventilation, and mechanical systems we have developed a system that allows us to minimize the response time to provide emergency services to our customers. We answer calls 24/7 and dispatch technicians to jobsites within 2 hours in most cases. Our service vehicles are well equipped with most common parts and materials required to repair equipment right on the spot. In our warehouse we have most heavy tools and equipment required to accomplish large repairs without having to rent specialty tools that may not be readily available when needed. But for those cases that require it, we have partnered with reliable companies and now have a very trustful network of specialized companies (i.e. crane, freight) that share our same values towards customer satisfaction.

Proposed Project Schedule

I- Replacement HVAC Units

a) City Hall CU replacement: To minimize downtime, traffic interruption, and considering the complexity of the ridging process due to the location of the units to be replaced and the fact that the parking lot by the Police Department cannot be used (as information provided during the Pre-Bid Meeting), and to reduce the permit fees to be paid by customer for crane and police, we recommend the following schedule:

Day 1 to be a Thursday starting after office hours: Recovering of refrigerant and disconnection of both CUs so they are ready for next day early morning commence the removal process

Day 2 Friday: Crane day. Removal of existing and set new CUs in place and commence connection/installation labor procedure. We will continue to work during the weekend (while the office is closed) and both CUs should be up and running by Monday morning.

Day 3 Saturday: Completing installation, connection and pre-start-up procedure.

Day 4 Sunday (if required): Start-Up

Following this schedule, while the completion time is expected to be 3-4 days, the effective downtime for the replacement of both CUs will be only 1 day.

If weekend work is not allowed, then the same schedule would be followed, choosing the three consecutive working days that best suits the customer's needs.

b) Community Center:

Option A. Removal and set in place of all three units same day. Advantage: Minimizes traffic closure/disruption to just one day. Also reduce the permit fees to be paid by customer for crane and police. Disadvantage: All three sections of the community center being served by the three units to be replaced will be without AC at the same time.

Day 1 (Weekday to be chosen by customer): Crane day. Disconnection and removal of existing Units. Installation of curb adapter (where required), and set in place of all three new units. Pre-start-up and start-up of one unit (the unit that customer deems more important to be operative next day).

Day 2: Pre-start-up and start-up of the other two units that were not started-up on Day 1.

Option B. Removal and installation of one unit per day. Advantage: Minimizes the downtime to only one day per section served by the AC being replaced. Disadvantage: Increases traffic closure/disruption and increases costs for permit and police fees.

Day 1 (Weekday chosen by customer): Crane day. Disconnection and removal of existing Unit. Installation of curb adapter (where required), set in place, pre-start-up, and start-up procedure of newly installed Unit.

II. Maintenance HVAC Units.

To be determined after meeting with customer to know details about offices' peak hours, accessibility and priorities to effectively create a maintenance plan to minimize service interruptions.

Con-Mech, Inc intends to conduct maintenance procedure at a pace of 4 Units per day, completing all units in 7 consecutive days (working days). Reports will be provided to customer 48-72 after completion of each maintenance period. For those units which immediate corrective actions/repairs are required, customer will be informed immediately after completion of maintenance/inspection for said Unit.

Customer Relationship

It is Con-Mech, Inc goal to provide dedicated service for those customers under direct contract with the company. For that purpose, Con-Mech, Inc will designate an account manager, senior technician, and helper for this specific contract. Our experience has demonstrated that this is the best approach as it increases and facilitates to build an in depth relationship with customers and reduces the service time because technician become very familiar with all the equipment involved at the different locations/buildings included in the contract.

In addition to being able to call our office 24/7 to request a service call, as a preferred customer you will be provided with the technician(s) and account manager mobile phone so you can reach them directly at any time. That is sometimes a time and money saving approach!

MEMORANDUM

DATE: August 19, 2025

TO: Honorable Mayor and Councilmembers

FROM: Steven C. Williamson, Village Manager

RE: Grant Administration Support Services Contract

RECOMMENDATION

Recommend the Village Council authorize the Village Manager to negotiate and execute an agreement with BellTower Consulting Group LLC for Grant administration support services. The agreement will be for a one-year term with four optional one-year extensions at hourly rates for services, with the first year not to exceed $49,500.

DISCUSSION

Purpose: This agreement will provide comprehensive grant administration support services to assist the Village in maximizing grant funding opportunities, ensuring compliance with grant requirements, and optimizing financial management of grant funds from local, state, and federal sources.

Background: The Village of Key Biscayne has secured numerous grants over recent years, including FDOT Transit Development Program funding, Hazard Mitigation Grant Program awards, and Resilient Florida Infrastructure grants. These grants have provided millions of dollars for critical infrastructure improvements, transit services, and resilience projects. The increasingly complex grant landscape and competitive funding environment necessitates professional grant administration support to maintain and expand our success rate.

Justification: With BellTower's support, the Village will be able to continue to pursue new grant opportunities without over burdening internal resources and systems. The Village of Key Biscayne manages a complex portfolio of grants from federal, state, and local sources, with multiple specialists. currently supporting various grant programs. This decentralized approach, while leveraging subject-matter expertise, has created challenges in coordination, compliance tracking, and administrative efficiency. The selection of BellTower Consulting Group LLC as the Village's grant support consultant addresses these critical operational needs by establishing comprehensive data collection, tracking, and reporting systems that will fundamentally transform our grant management approach from fragmented to fully integrated.

BellTower will serve as administrative and reporting support, providing essential coordination and integration services. Their responsibilities will include:

- **Standardized Systems and Processes:** Creation of a unified Grant Tracking Tool and Grant

Documentation Standard Operating Procedures (SOP) to ensure consistency across all grant programs, regardless of which consultant or staff member is involved. This standardization will improve audit readiness and streamline reimbursement.

- **Pursuit Support**: Provide personalized grant opportunities to the Village to meet strategic programming and project needs.
- **Administrative Integration:** Acting as the "internal translator" between different grant management systems (FEMA GO, FDOT, DEP) and Village processes, ensuring seamless communication.
- **Gap Identification and Coverage:** Providing direct grant writing and administration services where no specialized consultants are currently engaged, while also filling administrative gaps (such as reimbursement submissions and compliance reviews) that existing consultants don't cover under their current scopes.
- **Strategic Coordination:** Facilitating collaboration between existing specialized consultants on multi-source applications and joint funding opportunities, maximizing the Village's ability to leverage multiple funding streams for complex projects.

BellTower's has demonstrated ability to work collaboratively with other consultants, a comprehensive understanding of various grant systems, and commitment to developing customized tracking and management tools specific to the Village's needs.

The investment in this support will yield returns through increased success rates on multi-source applications, improved speed of reimbursements, improved grant compliance, reduced staff time on administrative tasks, and enhanced audit readiness across all grant programs.

Implementation/Integration Plan
Upon contract execution, BellTower will begin providing grant administration services including opportunity research, grant writing, compliance monitoring, and technical assistance. One of their first tasks will be to set up a grant tracking and reporting dashboard which will streamline access to data and metrics on grants village wide. The first contract year will function on an hourly basis not to exceed the framework. This will allow the Village to gauge the annual cost for this type of support and evaluate its effectiveness before signing on for multiple years.

RESOURCE IMPACT

Recurring Funding: The contract provides for annual renewals up to four additional years, subject to satisfactory performance and budget availability.

Personnel: No additional Village staff required; this contract provides specialized grant expertise without expanding internal staffing.

Training: BellTower will provide ongoing technical assistance and knowledge transfer to Village staff as part of their services.

GL Code: 001-1610-516-34.90
Budget Line-Item: Professional Services - Grant Administration
Amount: Not to exceed $49,500 for Year 1

STRATEGIC CONNECTION (GOAL / FOCUS AREA)

This contract supports multiple Village strategic goals by:

- Maximizing external funding sources to reduce taxpayer burden
- Enhancing fiscal sustainability through diversified revenue streams
- Improving operational efficiency through professional grant management

PROFESSIONAL SERVICES AGREEMENT

BETWEEN

THE VILLAGE OF KEY BISCAYNE

AND

BELLTOWER CONSULTING GROUP, LLC

THIS AGREEMENT (this "Agreement") is made effective as of the _____ day of _____, 2025 (the "Effective Date"), by and between the **VILLAGE OF KEY BISCAYNE, FLORIDA,** a Florida municipal corporation, (the "Village"), and **BELLTOWER CONSULTING GROUP, LLC,** a Florida limited liability company (hereinafter, the "Consultant").

WHEREAS, on February 20, 2025, the Village issued Request for Qualifications No. 2025-01 (the "RFQ") seeking proposals from qualified firms to provide grant administration support services (the "Services"), which scope of services is attached hereto as Exhibit "A"; and

WHEREAS, on August 19, 2025, the Village Council adopted Resolution No. 2025-__ selecting the Consultant for the Services and authorizing the Village Manager to negotiate and execute an agreement with the Consultant; and

WHEREAS, the Consultant will perform services on behalf of the Village, all as further set forth in the Proposal dated _____, 2025, attached hereto as Exhibit "A" (the "Services"); and

WHEREAS, the Consultant and Village, through mutual negotiation, have agreed upon a fee for the Services; and

WHEREAS, the Village desires to engage the Consultant to perform the Services and provide the deliverables as specified below.

NOW, THEREFORE, in consideration of the mutual covenants and conditions contained herein, the Consultant and the Village agree as follows:

1. **Scope of Services.**

1.1. Consultant shall provide the Services set forth in the Scope of Services attached hereto as Exhibit "A" and the Proposal attached hereto as Exhibit "B" and incorporated herein by reference (the "Services").

1.2. Consultant shall furnish all reports, documents, and information obtained pursuant to this Agreement, and recommendations during the term of this Agreement (hereinafter "Deliverables") to the Village.

2. **Term/Commencement Date.**

2.1. The term of this Agreement shall be from the Effective Date through one year thereafter, unless earlier terminated in accordance with Paragraph 8. Additionally, the Village

Manager may renew this Agreement for four additional one-year periods on the same terms as set forth herein upon written notice to the Consultant.

2.2. Consultant agrees that time is of the essence and Consultant shall complete the Services within the term of this Agreement, unless extended by the Village Manager.

3. Compensation and Payment.

3.1. Compensation for Services provided by Consultant shall be in accordance with the Proposal attached hereto as Exhibit "A." Consultant shall be compensated in an amount not to exceed $49,500 annually.

3.2. Consultant shall deliver an invoice to Village no more often than once per month detailing Services completed and the amount due to Consultant under this Agreement. Fees shall be paid in arrears each month, pursuant to Consultant's invoice, which shall be based upon the percentage of work completed for each task invoiced. The Village shall pay the Consultant in accordance with the Florida Prompt Payment Act after approval and acceptance of the Services by the Village Manager.

3.3. Contractor's invoices must contain the following information for prompt payment:

3.3.1. Name and address of the Consultant;

3.3.2. Purchase Order number;

3.3.3. Contract number;

3.3.4. Date of invoice;

3.3.5. Invoice number (Invoice numbers cannot be repeated. Repeated invoice numbers will be rejected);

3.3.6. Name and type of Services;

3.3.7. Timeframe covered by the invoice; and

3.3.8. Total value of invoice.

Failure to include the above information will result in the delay of payment or rejection of the invoice. All invoices must be submitted electronically to payables@keybiscayne.fl.gov.

4. Subconsultants.

4.1. The Consultant shall be responsible for all payments to any subconsultants and shall maintain responsibility for all work related to the Services.

4.2. Consultant may only utilize the services of a particular subconsultant with the prior written approval of the Village Manager, which approval may be granted or withheld in the Village Manager's sole and absolute discretion.

5. Village's Responsibilities.

5.1. Village shall make available any maps, plans, existing studies, reports, staff and representatives, and other data pertinent to the Services and in possession of the Village, and provide criteria requested by Consultant to assist Consultant in performing the Services.

5.2. Upon Consultant's request, Village shall reasonably cooperate in arranging access to public information that may be required for Consultant to perform the Services.

6. Consultant's Responsibilities; Representations and Warranties.

6.1. The Consultant shall exercise the same degree of care, skill and diligence in the performance of the Services as is ordinarily provided by a consultant under similar circumstances. If at any time during the term of this Agreement or within two (2) years from the completion of this Agreement, it is determined that the Consultant's Deliverables or Services are incorrect, not properly rendered, defective, or fail to conform to Village requests, the Consultant shall at Consultant's sole expense, immediately correct its Deliverables or Services.

6.2. The Consultant hereby warrants and represents that at all times during the term of this Agreement it shall maintain in good standing all required licenses, certifications and permits required under Federal, State and local laws applicable to and necessary to perform the Services for Village as an independent contractor of the Village. Consultant further warrants and represents that it has the required knowledge, expertise, and experience to perform the Services and carry out its obligations under this Agreement in a professional and first class manner.

6.3. The Consultant represents that is an entity validly existing and in good standing under the laws of Florida. The execution, delivery and performance of this Agreement by Consultant have been duly authorized, and this Agreement is binding on Consultant and enforceable against Consultant in accordance with its terms. No consent of any other person or entity to such execution, delivery and performance is required.

7. Conflict of Interest.

7.1. To avoid any conflict of interest or any appearance thereof, Consultant shall not, for the term of this Agreement, provide any consulting services to any private sector entities (developers, corporations, real estate investors, etc.), with any current, or foreseeable, adversarial issues in the Village.

8. Termination.

8.1. The Village Manager, without cause, may terminate this Agreement upon five (5) calendar days' written notice to the Consultant, or immediately with cause.

8.2. Upon receipt of the Village's written notice of termination, Consultant shall immediately stop work on the project unless directed otherwise by the Village Manager.

8.3. In the event of termination by the Village, the Consultant shall be paid for all work accepted by the Village Manager up to the date of termination, provided that the Consultant has first complied with the provisions of Paragraph 8.4.

8.4. The Consultant shall transfer all books, records, reports, working drafts, documents, maps, and data pertaining to the Services and the project to the Village, in a hard copy and electronic format within fourteen (14) days from the date of the written notice of termination or the date of expiration of this Agreement.

9. Insurance.

9.1. Consultant shall secure and maintain throughout the duration of this agreement insurance of such types and in such amounts not less than those specified below as satisfactory to Village, naming the Village as an Additional Insured, underwritten by a firm rated A-X or better by A.M. Best and qualified to do business in the State of Florida. The insurance coverage shall be primary insurance with respect to the Village, its officials, employees, agents, and volunteers naming the Village as additional insured. Any insurance maintained by the Village shall be in excess of the Consultant's insurance and shall not contribute to the Consultant's insurance. The insurance coverages shall include at a minimum the amounts set forth in this section and may be increased by the Village as it deems necessary or prudent.

9.1.1. Commercial General Liability coverage with limits of liability of not less than a $1,000,000 per Occurrence combined single limit for Bodily Injury and Property Damage. This Liability Insurance shall also include Completed Operations and Product Liability coverages and eliminate the exclusion with respect to property under the care, custody and control of Consultant. The General Aggregate Liability limit and the Products/Completed Operations Liability Aggregate limit shall be in the amount of $2,000,000 each.

9.1.2. Workers Compensation and Employer's Liability insurance, to apply for all employees for statutory limits as required by applicable State and Federal laws. The policy(ies) must include Employer's Liability with minimum limits of $1,000,000.00 each accident. No employee, subcontractor or agent of the Consultant shall be allowed to provide Services pursuant to this Agreement who is not covered by Worker's Compensation insurance.

9.1.3. Business Automobile Liability with minimum limits of $1,000,000 per occurrence, combined single limit for Bodily Injury and Property Damage. Coverage must be afforded on a form no more restrictive than the latest edition of the Business Automobile Liability policy, without restrictive endorsements, as filed by the Insurance Service Office, and must include Owned, Hired, and Non-Owned Vehicles.

9.1.4. Professional Liability Insurance in an amount of not less than One Million Dollars ($1,000,000.00) per occurrence, single limit.

9.2. Certificate of Insurance. Certificates of Insurance shall be provided to the Village, reflecting the Village as an Additional Insured (except with respect to Professional Liability Insurance and Worker's Compensation Insurance), no later than ten (10) days

DRAFT

after award of this Agreement and prior to the execution of this Agreement by Village and prior to commencing Services. Each certificate shall include no less than (30) thirty-day advance written notice to Village prior to cancellation, termination, or material alteration of said policies or insurance. The Consultant shall be responsible for assuring that the insurance certificates required by this Section remain in full force and effect for the duration of this Agreement, including any extensions or renewals that may be granted by the Village. The Certificates of Insurance shall not only name the types of policy(ies) provided, but also shall refer specifically to this Agreement and shall state that such insurance is as required by this Agreement. The Village reserves the right to inspect and return a certified copy of such policies, upon written request by the Village. If a policy is due to expire prior to the completion of the Services, renewal Certificates of Insurance shall be furnished thirty (30) calendar days prior to the date of their policy expiration. Each policy certificate shall be endorsed with a provision that not less than thirty (30) calendar days' written notice shall be provided to the Village before any policy or coverage is cancelled or restricted. Acceptance of the Certificate(s) is subject to approval of the Village.

9.3. Additional Insured. Except with respect to Professional Liability Insurance and Worker's Compensation Insurance**,** the Village is to be specifically included as an Additional Insured for the liability of the Village resulting from Services performed by or on behalf of the Consultant in performance of this Agreement. The Consultant's insurance, including that applicable to the Village as an Additional Insured, shall apply on a primary basis and any other insurance maintained by the Village shall be in excess of and shall not contribute to the Consultant's insurance. The Consultant's insurance shall contain a severability of interest provision providing that, except with respect to the total limits of liability, the insurance shall apply to each Insured or Additional Insured (for applicable policies) in the same manner as if separate policies had been issued to each.

9.4. Deductibles. All deductibles or self-insured retentions must be declared to and be reasonably approved by the Village. The Consultant shall be responsible for the payment of any deductible or self-insured retentions in the event of any claim.

9.5. The provisions of this section shall survive termination of this Agreement.

10. Nondiscrimination. During the term of this Agreement, Consultant shall not discriminate against any of its employees or applicants for employment because of their race, color, religion, sex, or national origin, and will abide by all Federal and State laws regarding nondiscrimination.

11. Attorneys Fees and Waiver of Jury Trial.

11.1. In the event of any litigation arising out of this Agreement, the prevailing party shall be entitled to recover its attorneys' fees and costs, including the fees and expenses of any paralegals, law clerks and legal assistants, and including fees and expenses charged for representation at both the trial and appellate levels.

11.2. IN THE EVENT OF ANY LITIGATION ARISING OUT OF THIS AGREEMENT, EACH PARTY HEREBY KNOWINGLY, IRREVOCABLY,

VOLUNTARILY AND INTENTIONALLY WAIVES ITS RIGHT TO TRIAL BY JURY.

12. Indemnification.

12.1. Consultant shall indemnify and hold harmless the Village, its officers, agents and employees, from and against any and all demands, claims, losses, suits, liabilities, causes of action, judgment or damages, arising from Consultant's performance or non-performance of any provision of this Agreement, including, but not limited to, liabilities arising from contracts between the Consultant and third parties made pursuant to this Agreement. Consultant shall reimburse the Village for all its expenses including reasonable attorneys' fees and costs incurred in and about the defense of any such claim or investigation and for any judgment or damages arising from Consultant's performance or non-performance of this Agreement.

12.2. Nothing herein is intended to serve as a waiver of sovereign immunity by the Village nor shall anything included herein be construed as consent to be sued by third parties in any matter arising out of this Agreement or any other contract. The Village is subject to section 768.28, Florida Statutes, as may be amended from time to time.

12.3. The provisions of this section shall survive termination of this Agreement.

13. Notices/Authorized Representatives. Any notices required by this Agreement shall be in writing and shall be deemed to have been properly given if transmitted by hand-delivery, by registered or certified mail with postage prepaid return receipt requested, or by a private postal service, addressed to the parties (or their successors) at the addresses listed on the signature page of this Agreement or such other address as the party may have designated by proper notice.

14. Governing Law and Venue. This Agreement shall be construed in accordance with and governed by the laws of the State of Florida. Venue for any proceedings arising out of this Agreement shall be proper exclusively in Miami-Dade County, Florida.

15. Entire Agreement/Modification/Amendment.

15.1. This writing contains the entire Agreement of the parties and supersedes any prior oral or written representations. No representations were made or relied upon by either party, other than those that are expressly set forth herein.

15.2. No agent, employee, or other representative of either party is empowered to modify or amend the terms of this Agreement, unless executed with the same formality as this document.

16. Ownership and Access to Records and Audits.

16.1. Consultant acknowledges that all inventions, innovations, improvements, developments, methods, designs, analyses, drawings, reports, compiled information, and all similar or related information (whether patentable or not) which relate to Services to the Village which are conceived, developed or made by Consultant during the term of this

Agreement ("Work Product") belong to the Village. Consultant shall promptly disclose such Work Product to the Village and perform all actions reasonably requested by the Village (whether during or after the term of this Agreement) to establish and confirm such ownership (including, without limitation, assignments, powers of attorney and other instruments).

16.2. Consultant agrees to keep and maintain public records in Consultant's possession or control in connection with Consultant's performance under this Agreement. The Village Manager or her designee shall, during the term of this Agreement and for a period of three (3) years from the date of termination of this Agreement, have access to and the right to examine and audit any records of the Consultant involving transactions related to this Agreement. Consultant additionally agrees to comply specifically with the provisions of Section 119.0701, Florida Statutes. Consultant shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed, except as authorized by law, for the duration of the Agreement, and following completion of the Agreement until the records are transferred to the Village.

16.3. Upon request from the Village's custodian of public records, Consultant shall provide the Village with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided by Chapter 119, Florida Statutes, or as otherwise provided by law.

16.4. Unless otherwise provided by law, any and all records, including but not limited to reports, surveys, and other data and documents provided or created in connection with this Agreement are and shall remain the property of the Village.

16.5. Upon completion of this Agreement or in the event of termination by either party, any and all public records relating to the Agreement in the possession of the Consultant shall be delivered by the Consultant to the Village Manager, at no cost to the Village, within seven (7) days. All such records stored electronically by Consultant shall be delivered to the Village in a format that is compatible with the Village's information technology systems. Once the public records have been delivered upon completion or termination of this Agreement, the Consultant shall destroy any and all duplicate public records that are exempt or confidential and exempt from public records disclosure requirements.

16.6. Any compensation due to Consultant shall be withheld until all records are received as provided herein.

16.7. Consultant's failure or refusal to comply with the provisions of this section shall result in the immediate termination of this Agreement by the Village.

16.8. **Notice Pursuant to Section 119.0701(2)(a), Florida Statutes. IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS.**

17. **Nonassignability.** This Agreement shall not be assignable by Consultant unless such assignment is first approved by the Village Manager. The Village is relying upon the apparent qualifications and expertise of the Consultant, and such firm's familiarity with the Village's area, circumstances and desires.

18. **Severability.** If any term or provision of this Agreement shall to any extent be held invalid or unenforceable, the remainder of this Agreement shall not be affected thereby, and each remaining term and provision of this Agreement shall be valid and be enforceable to the fullest extent permitted by law.

19. **Independent Contractor.** The Consultant and its employees, volunteers and agents shall be and remain an independent contractor and not an agent or employee of the Village with respect to all of the acts and services performed by and under the terms of this Agreement. This Agreement shall not in any way be construed to create a partnership, association or any other kind of joint undertaking, enterprise or venture between the parties.

20. **Compliance with Laws.** The Consultant shall comply with all applicable laws, ordinances, rules, regulations, and lawful orders of public authorities in carrying out Services under this Agreement, and in particular shall obtain all required permits from all jurisdictional agencies to perform the Services under this Agreement at its own expense.

21. **Waiver.** The failure of either party to this Agreement to object to or to take affirmative action with respect to any conduct of the other which is in violation of the terms of this Agreement shall not be construed as a waiver of the violation or breach, or of any future violation, breach or wrongful conduct.

22. **Survival of Provisions.** Any terms or conditions of either this Agreement that require acts beyond the date of the term of the Agreement, shall survive termination of the Agreement, shall remain in full force and effect unless and until the terms or conditions are completed and shall be fully enforceable by either party.

23. **Prohibition of Contingency Fees.** The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant, to solicit or secure this Agreement, and that it has not paid or agreed to pay any person(s), company, corporation, individual or firm, other than a bona fide employee working solely for the Consultant, any fee, commission, percentage, gift, or any other consideration, contingent upon or resulting from the award or making of this Agreement.

24. **State Required Affidavits.** By entering into this Agreement, the Consultant agrees to review and comply with the following state affidavit requirements:

24.1. Public Entity Crimes Affidavit. Consultant shall comply with Section 287.133, Florida Statutes (Public Entity Crimes Statute), notification of which is hereby incorporated herein by reference, including execution of any required affidavit.

24.2. Scrutinized Companies. Consultant certifies that it is not on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel. Pursuant to section 287.135, Florida Statues, the Village may immediately terminate this Agreement at its sole option if the Consultant is found to have submitted a false certification; or if the Consultant is placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement. If this Agreement is for more than one million dollars, the Consultant certifies that it is also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Terrorism Sectors List, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, Florida Statutes. Pursuant to Section 287.135, Florida Statutes, the Village may immediately terminate this Agreement at its sole option if the Consultant is found to have submitted a false certification; or if the Consultant is placed on the Scrutinized Companies with Activities in Sudan List, Scrutinized Companies with Activities in the Iran Terrorism Sectors List, Scrutinized Companies with Activities in Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

24.3. E-Verify Affidavit. In accordance with Section 448.095, Florida Statutes, the Village requires all contractors doing business with the Village to register with and use the E-Verify system to verify the work authorization status of all newly hired employees. The Village will not enter into a contract unless each party to the contract registers with and uses the E-Verify system. The contracting entity must provide of its proof of enrollment in E-Verify. For instructions on how to provide proof of the contracting entity's participation/enrollment in E-Verify, please visit: https://www.e-verify.gov/faq/how-do-i-provide-proof-of-my-participationenrollment-in-e-verify. By entering into this Agreement, the Consultant acknowledges that it has read Section 448.095, Florida Statutes; will comply with the E-Verify requirements imposed by Section 448.095, Florida Statutes, including but not limited to obtaining E-Verify affidavits from subcontractors; and has executed the required affidavit attached hereto and incorporated herein.

24.4. Noncoercive Conduct Affidavit. Pursuant to Section 787.06, Florida Statutes, a nongovernmental entity executing, renewing, or extending a contract with a governmental entity is required to provide an affidavit, signed by an officer or a representative of the nongovernmental entity under penalty of perjury, attesting that the nongovernmental entity does not use coercion for labor or services as defined in Section 787.06(2)(a), Florida Statutes. By entering into this Agreement, the Consultant acknowledges that it has read Section 787.06, Florida Statutes, and will comply with the requirements therein, and has executed the required affidavit attached hereto and incorporated herein.

24.5. Prohibition on Contracting with Entities of Foreign Concern. Pursuant to Section 287.138, Florida Statutes (which is expressly incorporated herein by reference), a governmental entity may not knowingly enter into a contract with an entity which would give access to an individual's personal identifying information if (a) the entity is owned by the government of a foreign country of concern; (b) the government of a foreign country of concern has a controlling interest in the entity; or (c) the entity is organized under the

laws of or has its principal place of business in a foreign country of concern. By entering into this Agreement, the Consultant acknowledges that it has read Section 287.138, Florida Statutes, and complies with the requirements therein, and has executed the required affidavit attached hereto and incorporated herein.

25. Counterparts. This Agreement may be executed in several counterparts, each of which shall be deemed an original and such counterparts shall constitute one and the same instrument.

26. Conflicts. In the event of a conflict between the terms of this Agreement and any exhibits or attachments hereto, the terms of this Agreement shall control.

SECTION 1. INFORMATION FOR THE PROPOSERS

1.1 GENERAL INFORMATION/STATEMENT OF PURPOSE

The Village of Key Biscayne (the "Village"), a municipality located in Miami-Dade County, Florida, is requesting proposals from qualified and experienced firm to provide comprehensive grant administration support services.

Services shall be in full accordance with the specifications, terms and conditions contained in Section 2 of this Request for Qualifications (RFQ).

1.2 INTRODUCTION/BACKGROUND

The Village of Key Biscayne (the “Village”) is located on an island approximately six (6) miles into Biscayne Bay and connected to the mainland via the Rickenbacker Causeway. Crandon Boulevard, a four-lane road with a median, bisects the Village. Shopping centers and single purpose commercial buildings line Crandon Boulevard. Towards the west lies single family homes. The east side of Crandon Boulevard contains mid to high rise multiple family buildings, one single family district, townhomes, and another single-family area that is part of a planned unit development. The incorporated Village is flanked by two large parks: Crandon Park to the north and Bill Baggs Cape Florida Recreation Area to the south. The latter receives over a million visitors per year and is a major contributor to traffic congestion on the weekends and holidays. The Village is the home to approximately 15,000 residents residing on 1.25 square miles.

The Village is committed to efficient government administration. A small core of the Village staff has been serving its residents, businesses, and visitors exceptionally well through their dedication and with the help of consultants, contractors, and service providers who also have been committed to providing quality products at competitive prices. We expect to continue this tradition.

1.3 FEDERAL/STATE OR LOCAL GRANT FUNDED

Grants may be funded by a variety of entities, including local, state, federal agencies, or a combination of these sources. The selected firm will play a critical role in assisting the Village with the comprehensive management of these diverse funding streams. Responsibilities will include ensuring compliance with applicable regulations, preparing and submitting required documentation, and effectively monitoring and reporting on grant activities.

To optimize the full potential of each grant, the firm must possess extensive knowledge and demonstrated experience in navigating the complexities of grants at all levels. This includes understanding the unique requirements, deadlines, and reporting criteria for each funding source, as well as identifying opportunities to leverage additional funding where possible. The Village seeks a partner capable of maximizing resource allocation while ensuring transparency, accountability, and successful program outcomes.

1.4 SUSPENSION/DEBARMENT

A prospective Bidder that is listed on the government-wide Excluded Parties List System in the System for Award Management (www.SAM.gov), or that is suspended or debarred by the State of Florida, cannot be awarded a contract.

1.5 DISADVANTAGED BUSINESS & WORKER UTILIZATION

Bidders are encouraged to utilize small, women and minority-owned businesses as subcontractors whenever possible. Lists of local certified businesses are available on Miami-Dade County's website at https://mdcsbd.gob2g.com/frontend/searchcertifieddirectory.asp In addition, Proposers may request assistance from organizations such as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Proposers who intend to hire additional workers for Village projects are encouraged to hire local workers. CareerSource South Florida maintains a job clearinghouse that can assist in connecting contractors with trained local construction workers.

1.6 VILLAGE RIGHTS

The Village reserves the right to award one or more contract(s) to the Respondent(s) in accordance with what the Village deems in its best interest. Notwithstanding, the Village may, at its sole discretion, reject all responses and cancel the solicitation, in which case no award will be made.

The Village reserves the right to accept or reject any or all Responses, based upon its deliberations and opinions. In making such determination, the Village reserves the right to investigate the financial capability, integrity, experience and quality of performance of each Consultant, including officers, principals, senior management and supervisors as well as the staff identified in the RFQ.

The Village also reserves the right to waive minor variations or irregularities in the Responses.

1.7 SCHEDULE OF EVENTS

The Village, at its sole discretion, may delay the scheduled due dates if it is to the advantage of the Village to do so. The Village will notify Contractors of all changes in scheduled due dates by written addendum through DemandStar. The following schedule shall govern this RFQ. The Village reserves the right to change the scheduled dates and times at its sole discretion.

1.8 REQUEST FOR INFORMATION (RFI)

Vendors may request additional information, clarification, or modifications in the form of a Request for Information ("RFI"). Vendors seeking such information must email their RFIs to procurement@keybiscayne.fl.gov in order to receive a response. The request must include the contractor's name, the RFQ number, and RFQ title. Any RFI must be submitted prior to the deadline for questions indicated in the schedule of events in Section 1.7 to receive a response. Late or mis-delivered requests may not receive a Village response.

The Village will issue responses to RFIs, and any other corrections or amendments it deems necessary, in the form of a written addendum. The Village, at its sole discretion, may not issue a response to an RFI. Vendors should not rely on any representations made outside of these written addenda. Where a conflict appears between the RFQ and any issued addenda, the last addendum issued will prevail.

1.9 ADDENDA

Should revisions to the procurement documents become necessary, the Village will post any addendum(s) to DemandStar and the Village of Key Biscayne website www.keybiscayne.fl.gov/procurement. If a Contractor fails to acknowledge receipt of any such Addendum when submitting its SOQ, its SOQ will nevertheless be construed as though the Addendum had been received and acknowledged, and the submission of its SOQ will constitute acknowledgement of the receipt of the same. However, the Village may also, at its discretion, deem the SOQ as non-responsive.

Any Addenda prepared and issued by the Village prior to opening of SOQs for the purpose of changing the intent of the plans or specifications or clarifying the meaning of same shall be binding in the same way as if written in the specifications. Any Addenda issued prior to the execution of the contract shall be binding upon the Contractor after the execution of the agreement.

1.10 DISCREPANCIES, ERRORS AND OMISSIONS

Any discrepancies, errors, or ambiguities in the RFQ or addenda (if any) should be reported in writing to the Procurement Division at procurement@keybiscayne.fl.gov. If applicable, the Village will issue a written addendum to the RFQ clarifying such conflicts or ambiguities. It is agreed that any such alleged discrepancies, errors, or omissions will not be construed against the drafting party.

1.11 CERTIFICATION

The signer of the Response (to this RFQ) must declare by signing the Forms included in Section 6 that the person(s), firm(s) and parties identified in the Response are interested in and available for providing the Services; that the Response is made without collusion with any other person(s), firm(s) and parties; that the Response is fair in all respects and is made in good faith without fraud; and that the signer of the cover letter of the Response has full authority to bind the person(s), firm(s) and parties identified in the Response.

1.12 PRE-SUBMITTAL CONFERENCE

A **NON-MANDATORY** Pre-Submittal conference meeting/site visit will be held on **March 11, 2025,** at 10:00 a.m. at the **Key Biscayne BZP Conference Room, Suite # 250, Key Biscayne, Florida 33149.** All interested proposers are encouraged to attend.

It is the sole responsibility of the Proposer to inspect the project site and become familiar with the scope of the Village's requirements and systems prior to submitting a proposal. No variation in price or

conditions shall be permitted based upon a claim of ignorance. Submission of a proposal will be considered evidence that the Proposer is familiar with the nature and extent of the work, equipment, materials, and labor required.

1.13 VILLAGE AUTHORITY

Proposals will be selected at the sole discretion of the Village. The Village reserves the right to waive any irregularities in the request process, to reject any or all proposals, reject a proposal which is in any way incomplete or irregular, re-bid the entire solicitation or enter into agreements with more than one Proposer. Proposals received after the deadline provided in this RFQ will not be considered.

1.14 RESPONSE/PRESENTATION COSTS

The Village shall not be liable for any costs, fees, or expenses incurred by any Vendor in responding to this RFQ, nor subsequent inquiries or presentations relating to its Response.

1.15 TERMS OF ENGAGEMENT

The Vendor, by submission of its Proposal, agrees to the terms and conditions contained in its contract and further agrees to execute the Contract without change. Notwithstanding, the Village, in its sole discretion, reserves the right to negotiate the final contract price or any terms and conditions.

The initial contract term is for three (3) years with the option to extend at its sole discretion for two (2) one-year (1-year) renewal terms for the maximum of five (5) years. The Proposer understands that this RFP does not constitute an agreement or a contract with the Proposer. A proposal is not binding until proposals are approved by the Village of Key Biscayne Council and both parties execute a written contract.

Proposals that are conditioned to additions, deletions, or revisions to the Contract's terms and conditions will be rejected as non-responsive.

1.16 NOTICE TO PROCEED

The Successful Proposer shall not begin work until the Village issues a written Notice to Proceed ("NTP"). Work performed by the Successful Proposer prior to receiving NTP shall be deemed non-compensable by the Village. The Successful Proposer shall not have any recourse against the Village for prematurely performing unauthorized work.

END OF SECTION 1.

SECTION 2. SCOPE OF SERVICES

2.1 PROJECT DESCRIPTION:

The Village of Key Biscayne seeks a qualified firm to provide comprehensive grant administration support services. The firm will assist the Village in administering various grants and loans, ranging from local, state, and federal levels, including but not limited to:

- FDOT (Florida Department of Transportation)
- Miami-Dade County TPO
- FDEP (Florida Department of Environmental Protection)

These services will ensure compliance with grant requirements and optimize financial management of grant funds.

2.2 KEY RESPONSIBILITIES

1. Grant Reporting and Documentation
   - Prepare and submit required reports to grant issuing agencies.
   - Maintain accurate records of grant activities, including performance metrics, spending, and outcomes.
   - Track progress of grant-funded projects and prepare progress reports for Village Staff and leadership as needed.
   - When necessary, compile internal Village of Key Biscayne Staff hours worked for reimbursement.
2. Compliance Management
   - Ensure compliance with all local, state, and federal regulations regarding grants, including procurement and financial management standards.
   - Advise the Village on necessary procurement requirements and contract provisions for goods and services funded with grant dollars based on grant funding source (state, federal, etc.) prior to grant application submission.
   - Coordinate responses to requests for information (RFIs) or audits from grant administrators.
3. Reimbursement Management and Invoicing
   - Track and manage invoices related to grant-funded projects to ensure timely submission and payment.
   - Submit reimbursement requests. Compile supporting documentation such as invoices, receipts, and other proof of expenditures.
4. Grant Tracking and Financial Management

- Adapt and improve upon the Village's current grant tracking system to manage grant timelines, key deadlines, deliverables, and financial data.
- Track and report on the financial status of each grant, including funds remaining, funds spent, funds received in reimbursement, and outstanding reimbursements.

5. Grant Opportunity Evaluation and Identification
   - Monitor and track changes in grant program priorities and goals and advise the Village on how to adapt to these changes to remain competitive.
   - Research and evaluate potential grant opportunities that align with the Village's strategic goals, projects, annual budget cycle, and funding needs.
   - Assist the Village in preparing applications for new grants, including gathering required documents, developing grant narratives, and project descriptions.
6. Meeting Attendance
   - Attend Council meetings upon request.
   - Attend staff meetings upon request.

2.3 REQUIRED QUALIFICATIONS:

- At least five years' experience administering a variety of grant types, including Federal, State and local agency grants.
- Proven record of managing large-scale, multi-year grants, including complex reimbursement processes where a project may have several grants attached to different components of it.
- In-depth knowledge of requirements of using federal and state dollars related to procurement, financial reporting, and compliance. Strong knowledge of Federal Compliance including 2 CFR Part 200.
- Familiarity with granting agency reporting platforms such as FEMA GO, Grants.gov, etc.
- Ability to manage multiple grants simultaneously, ensuring timely completion of reporting and reimbursement requests.
- Experience creating and managing internal tracking systems to stay ahead of deadlines and ensure compliance.
- Ability to function as liaison between Village staff, project managers, and other consultants to gather necessary data and documents for grant management.

2.4 SCOPE OF ANNUAL SERVICES TO BE PROVIDED:

This contract aims to support Village staff in managing and administering specific grant awards, easing the administrative load associated with these projects. The Village currently has about 20 active grants constantly evaluates grant pursuit opportunities. As the Village continues to secure awards, this contract will ensure that dedicated resources are available to manage awarded grants effectively. This approach allows the Village to maintain focus on pursuing new opportunities while efficiently administering the existing grants. In addition to the Key Responsibilities listed above, the following deliverables will be included in this scope of work.

3.11 INTERPERPRETATIONS AND INQUIRIES

A. Submission of a proposal shall serve as prima facie evidence that the proposer has examined the Agreement and is fully aware of all conditions affecting the provision of services.

B. No person is authorized to give oral interpretations of, or make oral changes to, the RFQ or the Agreement. Therefore, oral statements shall not be binding and should not be relied upon.

C. Any interpretation of, or changes to, the RFQ or the Agreement shall be made in the form of a written addendum to the RFQ or the Agreement and shall be furnished by the Village to all proposers who attend the mandatory pre-proposal conference. Only those interpretations of, or changes to, the RFQ or the Agreement that are made in writing and furnished to the proposers by the Village may be relied upon.

3.12 IRREGULARITIES & RESERVATION OF RIGHTS

Proposals will be selected at the sole discretion of the Village. The Village reserves the right to waive any irregularities in the request process, to reject any or all proposals, reject a proposal which is in any way incomplete or irregular, re-bid the entire solicitation or enter into agreements with more than one respondent. Proposals received after the deadline provided in this RFP will not be considered.

The Village reserves the right to award one or more contract(s) to the Contractor who will best serve the interests of the Village and whose Proposals meet the requirements and criteria set forth in this RFP. Notwithstanding, the Village may, at its sole discretion, reject all Proposals and cancel the solicitation, in which case no award will be made.

The Village reserves the right to accept or reject any or all Proposals, based upon its deliberations and opinions. In making such determination, the Village reserves the right to investigate the financial capability, integrity, experience and quality of performance of each Contractor, including officers, principals, senior management and supervisors, as well as the staff identified in the Proposal.

Proposers shall furnish additional information as the Village may require. This includes information that indicates financial resources as well as ability to provide the requisite services. The Village reserves the right to make investigations of the qualifications of the firm as it deems appropriate, including but not limited to background investigations and checking references.

3.13 PROPOSAL/PRESENTATION COSTS

The Village shall not be liable for any costs, fees, or expenses incurred by any Consultant in responding to this RFP, nor subsequent inquiries or presentations relating to its Proposal.

END OF SECTION 3.

SECTION 4. EVALUATION OF PROPOSALS

4.1 SELECTION COMMITTEE

Proposals submitted shall be evaluated by the Selection Committee. The Selection Committee shall convene at a publicly noticed meeting to review submissions, rank and evaluate the proposals, and provide a recommendation for the award. Each Selection Committee Member shall complete and execute an independence affidavit.

4.2 ADMINISTRATION REVIEW OF PASS/FAIL CRITERIA

SOQs will be reviewed initially for overall compliance with the RFQ requirements and to determine if mandatory pass/fail criteria are met (Licensing Requirements (Tab 5), Proof of Insurance and Bonding (Tab 6), and Claims History (Tab 7)). Failure to meet mandatory pass/fail criteria may result in rejection of the SOQ.

4.3 EVALUATION OF SOQS FOR SHORT LISTING

SOQs deemed to have met the pass/fail criteria will be evaluated in accordance with section 287.055, Florida Statutes, and the Evaluation Criteria set forth in Section III of this RFQ. The shortlist will only include the Proposers deemed by the Village, in the Village's sole discretion, to be the most highly qualified Contractors based on the Evaluation Criteria set forth in Section III and based on a subjective weighing of the Evaluation Criteria. The Village intends to shortlist, if reasonably possible, no less than three (3) Proposers that it deems are the most highly qualified.

4.4 BASIS OF AWARD

After shortlisting, the Village will then conduct interviews and presentations of the shortlisted Proposers to score the shortlisted Proposers using the following maximum point system:

Category	Score (Points)
Project Approach (Tab 2)	30
Organizational Profile (Tab 3)	30
Project Experience/Qualifications (Tab 4)	40
Total:	**100 Points**

The Village will score each shortlisted Contractor based on the Evaluation Criteria, evidenced through the Proposers' SOQs and their interviews and presentations, and use the scores to determine its recommendation for the final ranking. The Village will then make a final recommendation of the ranking of the shortlisted Proposers to the Village Manager. The Village may also perform additional due diligence on Proposers, including through reference checks, which may then become part of the evaluation process.

The Village will take its recommendation for the final ranking of the shortlisted Proposers to the Village Council for approval and permission to negotiate the contract with the top- ranked Proposer. The Village Council will select, in order of preference, based on the above information, the most highly qualified Proposer(s) to perform the requested Scope of Work. The extent and scope of the Scope of Work, along with the fees for such Work will be negotiated with the top-selected Proposer(s) but will be subject to approval by the Village. Should the Village be unable to negotiate a satisfactory contract with the Proposer considered to be the most qualified, at a price the Village determines to be fair, competitive and reasonable, negotiations with that Proposers shall be terminated. The Village shall then undertake negotiations with the next ranked Proposer, and if necessary, additional Proposers in accordance with the

ranking. The Village reserves the right to award any or all of the advertised Project subject to the availability of funding.

The selected Proposer will be required to execute a truth-in-negotiation certificate stating that wage rates and other factual unit costs supporting the negotiated and agreed upon compensation are accurate, complete, and current at the time of contracting.

All decisions will be final and shall represent the best interest for the Village. All recommendations and decisions regarding award of the Project shall be made at open public meetings in accordance with the requirements of Florida Statute 286.011, and all interested parties are invited to attend such meetings.

The Village reserves the right to waive any irregularity or informality in the SOQs received, to determine, in its sole discretion, whether or not the informality is minor, to reject or accept any or all SOQs and to select the Contractors based on criteria which serves the best interests of the Village.

4.5 NOTICE OF INTENT TO AWARD

A Public Notice of Intent to Award shall be posted to DemandStar. The notice shall include:

- The awarded Contractor(s)

A contract shall not exist until approved by the appropriate levels of the Village and properly executed.

4.6 INQUIRIES/QUESTIONS

All inquiries shall be made in writing and addressed to procurement@keybiscayne.fl.gov.

Inquiries shall be made at least ten (10) calendar days prior to the SOQ opening date.

Replies will be issued to all bidders of record as Addenda. If questions are related to the Drawings and Specifications, replies will be issued via Addendum and posted to Demandstar and will become part of the contract.

5.5 LAWS, ORDINANCES

The Vendor shall observe and comply with all federal, state, and local laws, including ordinances, rules, regulations and professional standards that would apply to the contract.

5.6 NON-APPROPRIATION OF FUNDS

In the event that insufficient funds are appropriated, and budgeting or funding is otherwise unavailable or not allocated in any fiscal period for the Agreement, the Village shall have the unqualified right to terminate the Work Order(s), and/or Agreement, upon written notice to the Successful Proposer, without any penalty or expense to the Village or recourse against the Village. No guarantee, promise, warranty, or representation is made that any work or project(s) will be assigned to the Successful Proposer.

5.7 PUBLIC ENTITY CRIMES ACT

In accordance with the Public Entity Crimes Act, (Section 287.133, Florida Statutes) a person or affiliate who is a contractor, who had been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to the Village, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases or real property to the Village, may not be awarded or perform work as a contractor, supplier, subcontractor, or CONTRACTOR under a contract with any public entity, and may not transact business with the Village in excess of the threshold amount provided in Section 287.917, Florida Statutes, for Category Two for a period of 36 months form the date of being placed on the convicted vendor list. Violation of this section by the Contractor shall result in rejection of the Bid, termination of the contract, and may cause Contractor debarment.

5.8 KEY PERSONNEL

Subsequent to submission of a Proposal and prior to award of an Agreement, Key Personnel shall not be changed. Proposers shall not change any member of their Key Personnel without just cause and prior

written approval by the Village. The Village reserves the right to request additional documentation, as required by the RFQ prior to making its determination. If the Village does not accept the proposed change(s), the Proposal may be rejected and not considered for award.

5.9 E-VERIFY

Successful Bidder shall utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Contractor during the term of the Contract and shall expressly require any Subcontractor performing work or providing services pursuant to the Contract to likewise utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Subcontractor during the Contract term.

5.10 CONFLICT OF INTEREST

Proposers, by responding to this RFQ, certify that to the best of their knowledge and belief, no elected/appointed official or employee of the Village is financially interested, directly or indirectly, in the purchase of goods/services specified in this RFQ. Any such interests on the part of the Proposer or its employees shall be disclosed in writing to the Village. Further, Proposers shall disclose the name of any Village employee who owns, directly or indirectly, an interest of five percent (5%) or more of the total assets of capital stock of the Proposing firm.

5.11 DEBARRED/SUSPENDED VENDORS

An entity or affiliate who has been placed on the State of Florida or Federal debarred or suspended vendor list may not: a) submit a Proposal on a contract to provide goods or services to a public entity; b) may not submit a Proposal on a contract with a public entity for the construction or repair of a public building or public work; c) may not submit a Proposal on leases of real property to a public entity; d) may not be awarded or perform work as a contractor, design-builder, supplier, subcontractor, or consultant under contract with any public entity; and e) may not transact business with any public entity.

5.12 NON-DISCRIMINATION

Proposer agrees that it shall not discriminate by race, gender, color, age, religion, national origin, marital status, or disability in connection with its performance under this RFQ. Furthermore, Proposer agrees that no otherwise qualified individual shall solely by reason of his/her race, gender, color, age, religion, national origin, marital status, or disability be excluded from the participation in, be denied benefits of, or be subjected to, discrimination under any program or activity called for or required in connection with services rendered under this Agreement.

5.13 UNETHICAL BUSINESS PRACTICE PROHIBITIONS

Proposer represents and warrants to the Village that it has not employed or retained any person or company employed by the Village to solicit or secure the award of the Agreement and that it has not offered to pay, paid, or agreed to pay any person any fee, commission, percentage, brokerage fee, or gift of any kind, contingent upon or in connection with, the award of the Contract.

5.14 ADDITIONAL TERMS AND CONDITIONS

No additional terms and conditions included with the Proposal shall be evaluated or considered, and any and all such additional terms and conditions shall have no force or effect and are inapplicable to this solicitation. If submitted purposely, through either intent or design, or inadvertently, appearing separately in transmittal letters, specifications, literature, price lists, or warranties, it is understood and agreed that the General and Special Conditions in this solicitation are the only conditions applicable to this solicitation

and that the Proposer's authorized signature affixed to the Proposer's acknowledgment form, attests to this.

5.15 ASSIGNMENT, NON-TRANSFERABILITY OF PROPOSAL

A. Proposals shall not be assigned or transferred. A proposer who is, or may be, purchased by or merged with any other corporate entity during any stage of the proposal process, through to and including awarding of and execution of the Agreement, is subject to having its proposal disqualified as a result of such transaction. The Village Manager shall determine whether a proposal is to be disqualified in such instances.

B. If, at any time during the proposal process, filings, notices or like documents are submitted to any regulatory agency concerning the potential acquisition of proposer, or the sale of a controlling interest in the proposer, or any similar transaction, the proposer shall immediately disclose such information to the Village. Failure to do so may result in the proposal being disqualified, at the Village's sole discretion.

5.16 PUBLIC RECORDS

Upon award recommendation or 30 days after proposal opening, whichever is earlier, any material submitted in response to this RFP shall become a "public record" and shall be subject to public disclosure consistent with Chapter 119, Florida Statutes (Public Records Law). Proposers shall claim the applicable exemptions to disclosure provided by law in their response to the RFP by identifying materials to be protected and shall state the reasons why such exclusion from public disclosure is necessary and legal. The Village reserves the right to make all final determination(s) of the applicability of the Florida Public Records Law.

5.17 PUBLIC ENTITIES CRIME

A. A person or affiliate as defined in Section 287.133, Florida Statutes, who or which has been placed on the convicted vendor list maintained by the Florida Department of Management Services following a conviction for a public entity crime, may not submit a proposal to provide any goods or services to the Village and may not transact business with the Village in an amount set forth in Section 287.017, Florida Statutes, for Category Two for a period of 36 months from the date of being placed on the convicted vendor list.

B. By submitting a response, the proposer certifies that it is qualified under Section 287.133, Florida Statutes, to provide the services set forth in the Agreement.

5.18 SCRUTINIZED COMPANIES

Pursuant to Section 287.135, Florida Statutes, a Proposer is ineligible to, and may not submit a Proposal for, or enter into or renew a contract with VILLAGE for goods or services if at the time of submitting a Proposal for a new contract or renewal of an existing contract:

A. for any contract amount, if the Proposer is on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, or is engaged in a boycott of Israel;

B. if $1 million or more and the Proposer is on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; or

C. if $1 million or more and the Proposer is engaged in business operations in Cuba or Syria.

5.19 EXAMINATION OF CONDITIONS

It shall be the Proposer's responsibility to visit the proposed work site(s) and to thoroughly familiarize himself with the nature and extent of the work to be performed and all local existing site conditions, to make his own estimate of the facilities and difficulties attending the execution of the work; no allowance shall be made by the Village for the Proposer's failure to do so.

5.20 INSURANCE REQUIREMENTS

The Successful Proposer(s) shall, within ten (10) days of receipt of a written notice of the Award of the Contract, deliver to the Village a fully executed Contract and all requested certificates of insurance and bonds.

5.21 DISCRIMINATORY VENDORS

Discriminatory Vendors List: Pursuant to Section 287.134 , Florida Statues, an entity or affiliate who has been placed on the discriminatory vendor list may not submit a SOQ, bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity.

5.22 NON-COLLUSION CERTIFICATION

By submitting a SOQ, bid, or proposal to the Village, the individual signing the bid/proposal on behalf of the Contractor (Contractor) certifies that the bid/proposal is genuine, accurate and factual, and that:

i. The Contactor has not colluded, conspired or agreed directly or indirectly with any other person or entity in any way to fix the price, terms, or otherwise secure an advantage over the Village or any person interested in the proposed contract.
ii. The price of the bid/proposal was determined independently of outside consultation and was not influenced by any other company, client or Contractor.
iii. No company, client or Contractor has been solicited to propose a fake or sham bid or proposal, or to refrain from bidding or submitting any form of noncompetitive bid, proposal or response.
iv. The price of the bid/proposal has not been disclosed to any client, company or Contractor, and will not be disclosed until after the formal date the subject bid or proposal is awarded by the Village.
v. The Proposer also certifies that its bid is in all respects fair and without outside control, collusion, fraud, or otherwise illegal action.

5.22 CONE OF SILENCE

To ensure fair consideration for all Proposers, a Cone of Silence is encourage starting on the posting date of the proposal. Proposers are asked not to communicate any department, division, or employee from the submission package concerning the proposal until an award decision has been made. Any communication between Proposer and the Village in order to obtain information or clarification needed to develop a proper, accurate evaluation of the proposal should be conducted through the Village Procurement Officer, Daren Jairam at djairam@keybiscayne.fl.gov or procurement@keybiscayne.fl.gov.

5.23 COMPLIANCE WITH FEDERAL REQUIREMENTS

The Successful Proposer shall be required to adhere to (1) all FEMA Guidelines, including the Hazard Mitigation Assistance Program and Policy Guide, as may be amended from time to time; (2) the contract provisions listed under 2 CFR Part 200, Appendix II; (3) all applicable contract provisions and guidance in the FEMA Contract Provisions Guide, as may be amended from time to time; and (4) the Federally-Funded Subaward and Grant Agreement No. H0970 attached hereto as Exhibit "H." Furthermore, the Successful Proposer acknowledges and agrees that the following contractual provisions shall govern this procurement and any contract that may be competitively awarded pursuant to this RFP:

5.23.1 Equal Employment Opportunity. During the performance of the Services, the Successful Proposer agrees as follows:

5.23.1.1 The Successful Proposer will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The Successful Proposer will take affirmative action to ensure that applicants are employed,

and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Successful Proposer agrees to post in conspicuous places, available to employees and applicants for_employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

5.23.1.2 The Successful Proposer will, in all solicitations or advertisements for employees placed by or on behalf of the Successful Proposer, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

5.23.1.3 The Successful Proposer will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the Successful Proposer's legal duty to furnish information.

5.23.1.4 The Successful Proposer will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the Successful Proposer's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

5.23.1.5 The Successful Proposer will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

5.23.1.6 The Successful Proposer will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

5.23.1.7 In the event of the Successful Proposer's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the Successful Proposer may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures_authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

5.23.1.8 The Successful Proposer will include the portion of the sentence immediately preceding subsection 2.22.1.1 through 2.22.1.8 in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The Successful Proposer will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a Successful Proposer becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the Successful Proposer may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: Provided, That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a Successful Proposer debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

5.23.2 Compliance with the Davis-Bacon Act. As applicable, during the performance of the Services, the Successful Proposer agrees as follows:

a. All transactions regarding this contract shall be done in compliance with the Davis-Bacon Act (40 U.S.C. 3141- 3144, and 3146-3148) and the requirements of 29 C.F.R. pt. 5 as may be applicable. The Successful Proposer shall comply with 40 U.S.C. 3141-3144, and 3146-3148 and the requirements of 29 C.F.R. pt. 5 as applicable.

b. Successful Proposers are required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor.

c. Additionally, Successful Proposers are required to pay wages not less than once a week.

5.23.3 Compliance with the Copeland "Anti-Kickback" Act. As applicable, during the performance of the Services, the Successful Proposer agrees as follows:

a. Successful Proposer. The Successful Proposer shall comply with 18 U.S.C. § 874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.

b. Subcontracts. The Successful Proposer or subcontractor shall insert in any subcontracts the clause above and such other clauses as FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime Successful Proposer shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

c. Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a Successful Proposer and subcontractor as provided in 29 C.F.R. § 5.12.

5.23.4 Compliance with the Contract Work Hours and Safety Standards Act. As applicable, during the performance of the Services, the Successful Proposer agrees as follows:

5.23.4.1 Overtime requirements. The Successful Proposer or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall not require nor permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

5.23.4.2 Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in subsection 28.2.1. of this section the Successful Proposer and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, the Successful Proposer and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in subsection 28.2.1. of this section, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in 28.2.1. of this section.

5.23.4.3 Withholding for unpaid wages and liquidated damages. The Village shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the Successful Proposer or subcontractor under any such contract or any other Federal contract with the same prime Successful Proposer, or any other federally-assisted contract subject to the *Contract Work Hours and Safety Standards Act*, which is held by the same prime Successful Proposer, such sums as may be determined to be necessary to satisfy any liabilities of such Successful Proposer or subcontractor for

unpaid wages and liquidated damages as provided in the clause set forth in subsection 28.2.2. of this section.

5.23.4.4 Subcontracts. The Successful Proposer or subcontractor shall insert in any subcontracts the clauses set forth in subsections 28.2.1 through 28.2.4. of this section and a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime Successful Proposer shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in subsections 28.2.1. through 28.2.4. of this section.

5.23.5 Rights to Inventions Made under this Agreement.

5.23.5.1 As applicable, if the Successful Proposer is engaged for the performance of experimental, developmental, or research, the Successful Proposer's work shall provide for the rights of the Federal Government and the recipient in any resulting invention in accordance with 37 CFR part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the Federal Government.

5.23.6 Clean Air Act and Federal Water Pollution Control Act. As required by Federal program legislation, the Successful Proposer agrees to comply with the following federal requirements:

5.23.6.1 *Clean Air Act*.

5.23.6.1.1 The Successful Proposer agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. (2)

5.23.6.1.2 The Successful Proposer agrees to report each violation to the Village and understands and agrees that the Village will, in turn, report each violation as required to assure notification to the State of Florida, Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

5.23.6.1.3 The Successful Proposer agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

5.23.6.2 *Federal Water Pollution Control Act.*

5.23.6.2.1 The Successful Proposer agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

5.23.6.2.2 The Successful Proposer agrees to report each violation to the Village and understands and agrees that the Village will, in turn, report each violation as required to assure notification to The State of Florida, Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

5.23.6.2.3 The Successful Proposer agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

5.23.7 Debarment and Suspension. During the performance of the Services, the Successful Proposer agrees as follows:

5.23.7.1 This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the Successful Proposer is required, and will, verify that neither Successful Proposer, its principals (defined at 2 C.F.R. § 180.995), nor its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

5.23.7.2 The Successful Proposer will comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters.

5.23.7.3 Successful Proposer's certification is a material representation of fact relied upon by the Village. If it is later determined that the Successful Proposer did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the State of Florida, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

5.23.7.4 The Successful Proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C throughout the period this Agreement. The Successful Proposer further agrees to include a provision requiring such compliance in its lower-tier covered transactions.

5.23.8 Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended). During the performance of the Services, the Successful Proposer agrees as follows:

5.23.8.1 The Successful Proposer certifies to the Village that it has not and will not use Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. *The required Certification is attached to this Agreement*.

5.23.8.2 Successful Proposer will also ensure that each tier of subcontractor(s) shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures will be forwarded from tier-to-tier up to the Village.

5.23.9 Procurement of Recovered Materials. As required by federal program legislation, Successful Proposer agrees to the following:

5.23.9.1 In the performance of this contract, the Successful Proposer shall make maximum use of products containing recovered materials that are EPA-designated items unless the product cannot be acquired:

5.23.9.1.1 competitively within a timeframe providing for compliance with the contract performance schedule;

5.23.9.1.2 meeting contract performance requirements; or

5.23.9.1.3 at a reasonable price.

5.23.9.2 Information about this requirement, along with the list of EPA-designate items, is available at EPA's Comprehensive Procurement Guidelines web site, https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program.

5.23.9.3 The Successful Proposer also agrees to comply with all other applicable requirements of Section 6002 of the Solid Waste Disposal Act.

5.23.10 DHS Seals, Logos, and Flags. The Successful Proposer shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval.

5.23.11 Compliance with Federal Law, Regulations, and Executive Orders. The Successful Proposer acknowledges that FEMA financial assistance will be used to fund the all or a portion of the contract. The Successful Proposer will comply will all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives.

5.23.12 No Obligation by Federal Government. Successful Proposer acknowledges that the Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, Successful Proposer, or any other party pertaining to any matter resulting from the contract.

5.23.13 Program Fraud and False or Fraudulent Statements or Related Acts. The Successful Proposer acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Successful Proposer actions pertaining to this Agreement.

5.23.14 Access to Records.

5.23.14.1 The Successful Proposer agrees to provide the State of Florida, the Village, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the Successful Proposer which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.

5.23.14.2 The Successful Proposer agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

5.23.14.3 The Successful Proposer agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract.

5.23.14.4 In compliance with the Disaster Recovery Act of 2018, the Village and the Successful Proposer acknowledge and agree that no language in this Agreement is intended to prohibit audits or internal reviews by the FEMA Administrator or the Comptroller General of the United States.

5.23.15 Affirmative Socioeconomic Steps/Small and Minority Businesses, Women's Business Enterprises.

5.23.15.1 Successful Proposer shall comply with 2 C.F.R. § 200.321, "Contracting with small and minority businesses, women's business enterprises, and labor surplus area firms."

5.23.15.2 If subcontracts are to be let, the Successful Proposer is required to take all necessary steps identified in 2 C.F.R. § 200.321(b)(1)-(5) to ensure that small and minority businesses, women's business enterprises, and labor surplus area firms are used when possible.

5.23.16 Change or Modification. To be eligible for FEMA assistance under a FEMA grant or cooperative agreement, the cost of a change, modification, change order, or constructive change must be allowable, allocable, within the scope of the grant or cooperative agreement, and reasonable for the completion of the project scope. Accordingly, the Successful Proposer shall comply with the following:

5.23.16.1 Without invalidating the Agreement, Village reserves and shall have the right, from time to time to make such increases, decreases or other changes in the character or quantity of the work as may be considered necessary or desirable to fully and properly complete the project in a satisfactory manner in accordance with the scope of the FEMA grant or cooperative agreement. Any extra or additional work within the scope of this Agreement must be accomplished by means of appropriate Field Orders or Change Orders.

5.23.16.2 The Village shall have the right to approve and issue Field Orders setting forth written interpretations of the intent of the project documents and ordering minor changes in work execution, providing the Field Order involves no change in the Agreement Price or the Agreement Time.

5.23.16.3 Changes in the quantity or character of the Work or Services within the scope of the Project which are not properly the subject of Field Orders, including all changes resulting in changes in the Agreement Price, or the Agreement Time, shall be authorized only by Change Orders approved in advance and issued in accordance with the provisions of Village's Procurement Code, as amended from time to time.

5.23.17 Remedies. Village confirms that it is entitled to exercise all administrative, contractual, or other remedies permitted by law to enforce Successful Proposer's compliance with the terms of this Agreement, except to the extent expressly provided otherwise by this Agreement.

5.23.18 Prohibition on Contracting for Covered Telecommunications Equipment or Services. If applicable, the Successful Proposer shall agree as follows:

5.23.18.1 The Village and the Successful Proposer must comply with the Section 889(b)(1) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (FY2019 NDAA) and 2 C.F.R. 200.216, which prohibits the obligation or expending of federal award funds on certain telecommunication products or from certain entities for national security reasons. Towards that end, the Successful Proposer shall ensure that the Successful Proposer and its subcontractors do not:

5.23.18.2 Procure or obtain any equipment, system, or service that uses covered telecommunications equipment of services as a substantial or essential component of any system, or as critical technology of any system;

5.23.18.3 Enter into, extend, or renew a contract to procure or obtain any equipment, system, or service that uses covered telecommunications equipment or services as substantial or essential component of any system or as critical technology of any system; or

5.23.18.4 Enter into, extend or renew contracts with entities that use covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

Additional information, including definitions for this requirement can be found in FEMA Policy 405-143-1. Prohibitions on Expending FEMA Award Funds for Covered Telecommunications Equipment or Services (Interim).

5.23.19 Domestic Preference for Procurements. As appropriate, and to the extent consistent with law, the Successful Proposer should, to the greatest extent practicable, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States. This includes, but is not limited to iron, aluminum, steel, cement, and other manufactured products. For purposes of this clause:

5.23.19.1 *Produced in the United States* means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

5.23.19.2 *Manufactured products* mean items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

5.23.20 License and Delivery of Works Subject to Copyright and Data Rights. If applicable, the Successful Proposer shall agree as follows:

5.23.20.1 The Successful Proposer grants to the Village, a paid-up, royalty-free, nonexclusive, irrevocable, worldwide license in data first produced in the performance of this contract to reproduce, publish, or otherwise use, including prepare derivative works, distribute copies to the public, and perform publicly and display publicly such data. For data required by the contract but not first produced in the performance of this contract, the Successful Proposer will identify such data and grant to the Village or acquires on its behalf a license of the same scope as for data first produced in the performance of this contract. Data, as used herein, shall include any work subject to copyright under 17 U.S.C. § 102, for example, any written reports or literary works, software and/or source code, music, choreography, pictures or images, graphics, sculptures, videos, motion pictures or other audiovisual works, sound and/or video recordings, and architectural works. Upon or before the completion of this contract, the Successful Proposer will deliver to the Village data first produced in the performance of this contract and data required by the contract but not first produced in the performance of this contract in formats acceptable by the Village.

5.23.21 Safeguarding of Sensitive Information and Information Technology Security and Privacy Training.

5.23.21.1 Applicability. This clause is applicable when the Successful Proposer has access to sensitive information or the Successful Proposer's IT system as defined in the agreement that are used to input, store, process, output and/or transmit sensitive data. If applicable, this clause shall apply to the Successful Proposer, its subcontractors, and Successful Proposer employees (hereafter referred to collectively as "Successful Proposer"). The Successful Proposer shall insert the substance of this clause in all subcontracts.

5.23.21.2 Definitions. As used in this clause— "Personally Identifiable Information (PII)" means information that can be used to distinguish or trace an individual's identity, such as name, social security number, or biometric records, either alone, or when combined with other personal or identifying information that is linked or linkable to a specific individual, such as date and place of birth, or mother's maiden name. The definition of PII is not anchored to any single category of information or technology. Rather, it requires a case-by-case assessment of the specific risk that an individual can be identified. In performing this assessment, it is important for an agency to recognize that non-personally identifiable information can become personally identifiable information whenever additional information is made publicly available—in any medium and from any source—that, combined with other available information, could be used to identify an individual.

PII is a subset of sensitive information. Examples of PII include, but are not limited to: name, date of birth, mailing address, telephone number, Social Security number (SSN), email address, zip code, account numbers, certificate/license numbers, vehicle identifiers including license plates, uniform resource locators (URLs), static Internet protocol addresses, biometric identifiers such as fingerprint, voiceprint, iris scan, photographic facial images, or any other unique identifying number or characteristic, and any information where it is reasonably foreseeable that the information will be linked with other information to identify the individual.

(a) *Sensitive Information,* as used in this clause, means any information, which if lost, misused, disclosed, or, without authorization is accessed, or modified, could adversely affect the national or homeland security interest, the conduct of Federal programs, or the privacy to which individuals are entitled under section 552a of title 5, United States Code (the Privacy Act), but which has not been specifically authorized under criteria established by an Executive Order or an Act of Congress to be kept secret in the interest of national defense, homeland security or foreign policy. This definition includes the following categories of information:

(1) Protected Critical Infrastructure Information (PCII) as set out in the Critical Infrastructure Information Act of 2002 (Title II, Subtitle B, of the Homeland Security Act, Pub. L. 107-296, 196 Stat. 2135), as amended, the implementing regulations thereto (Title 6, Code of Federal Regulations, part 29) as amended, the applicable PCII Procedures Manual, as amended, and any supplementary guidance officially communicated by an authorized official of the Department of Homeland Security (including the PCII Program Manager or his/her designee);

(2) Sensitive Security Information (SSI), as defined in Title 49, Code of Federal Regulations, part 1520, as amended, "Policies and Procedures of Safeguarding and Control of SSI," as amended, and any supplementary guidance officially communicated by an authorized official of the Department of Homeland Security (including the Assistant Secretary for the Transportation Security Administration or his/her designee);

(3) Information designated as "For Official Use Only," which is unclassified information of a sensitive nature and the unauthorized disclosure of which could adversely impact a person's privacy or welfare, the conduct of Federal programs, or other programs or operations essential to the national or homeland security interest; and

(4) Any information that is designated "sensitive" or subject to other controls, safeguards or protections in accordance with subsequently adopted homeland security information handling procedures.

(b) “Information Technology Resources” include, but are not limited to, computer equipment, networking equipment, telecommunications equipment, cabling, network drives, computer drives, network software, computer software, software programs, intranet sites, and internet sites.

(c) Successful Proposer employees working on this contract must complete such forms as may be necessary for security or other reasons, including the conduct of background investigations to determine suitability. Completed forms shall be submitted as directed by the Contracting Officer. Upon the Contracting Officer's request, the Successful Proposer's employees shall be fingerprinted, or subject to other investigations as required. All Successful Proposer’s employees requiring recurring access to Government facilities or access to sensitive information or IT resources are required to have a favorably adjudicated background investigation prior to commencing work on this contract unless this requirement is waived under Departmental procedures.

(d) The Contracting Officer may require the Successful Proposer to prohibit individuals from working on the contract if the Government deems their initial or continued employment contrary to the public interest for any reason, including, but not limited to, carelessness, insubordination, incompetence, or security concerns.

(e) Work under this contract may involve access to sensitive information. Therefore, the Successful Proposer shall not disclose, orally or in writing, any sensitive information to any person unless authorized in writing by the Contracting Officer. For those Successful Proposer employees authorized access to sensitive information, the Successful Proposer shall ensure that these persons receive training concerning the protection and disclosure of sensitive information both during and after contract performance.

(f) The Successful Proposer shall include the substance of this clause in all subcontracts at any tier where the subcontractor may have access to Government facilities, sensitive information, or resources.

Public Entity Crimes Affidavit

I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentations.

I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime; or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, and partners, shareholders, employees, members, and agents who are active in management of an entity.

Based on information and belief, the statement, which I have marked below, is true in relations to the entity submitting this sworn statement.

(INDICATE WHICH STATEMENT APPLIES.)

[ ] Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with ad convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives partners, shareholders, employees, members, or agents who are active in the management of the entity,

or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida , Division of Administrative Hearings and the final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list (attach a copy of the final order).

I understand that the submission of this form to the contracting officer for the public entity identified in paragraph 1 above is for that public entity only and that this form is valid through December 31 of the calendar year in which it is filed. I also understand that I am required to inform the public entity prior to entering into a contract in excess of the threshold amount provided in Section 287.017, Florida Statutes for category two of any change in the information contained in this form.

Business Entity Affidavit

Proposer hereby recognizes and certifies that no elected official, board member, or employee of the Village of Key Biscayne (the " Village") shall have a financial interest directly or indirectly in this transaction or any compensation to be paid under or through this transaction, and further, that no Village employee, nor any elected or appointed officer (including Village board members) of the Village, nor any spouse, parent or child of such employee or elected or appointed officer of the Village, may be a partner, officer, director or proprietor of Proposer or Vendor, and further, that no such Village employee or elected or appointed officer, or the spouse, parent or child of any of them, alone or in combination, may have a material interest in the Vendor or Proposer. Material interest means direct or indirect ownership of more than 5% of the total assets or capital stock of the Proposer. Any exception to these above-described

restrictions must be expressly provided by applicable law or ordinance and be confirmed in writing by Village. Further, Proposer recognizes that with respect to this transaction or bid, if any Proposer violates or is a party to a violation of the ethics ordinances or rules of the Village, the provisions of Miami-Dade County Code Section 2-11.1, as applicable to Village, or the provisions of Chapter 112, part III, Fla. Stat., the Code of Ethics for Public Officers and Employees, such Proposer may be disqualified from furnishing the goods or services for which the bid or proposal is submitted and may be further disqualified from submitting any future bids or proposals for goods or services to Village.

Scrutinized Company Certification

1. Proposer certifies that it and its subcontractors are not on the Scrutinized Companies that Boycott Israel List. Pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer or its subcontractors are found to have submitted a false certification; or if the Proposer, or its subcontractors are placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
2. If the Agreement that may result from this ITB is for more than one million dollars, the Proposer certifies that it and its subcontractors are also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer, its affiliates, or its subcontractors are found to have submitted a false certification; or if the Proposer, its affiliates, or its subcontractors are placed on the Scrutinized

Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

3. The Proposer agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under the Agreement that may result from this ITB. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize the above-stated contracting prohibitions then they shall become inoperative.

Truth in Negotiation Certification

The CONTRACTOR hereby certifies, covenants, and warrants that wage rates and other factual unit costs supporting the compensation for this project's agreement are accurate, complete, and current at the time of contracting.

The CONTRACTOR further agrees that the original agreement price and any additions thereto shall be adjusted to exclude any significant sums by which the Village determines the agreement price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such agreement adjustments shall be made within (1) year following the end of the contract. For purposes of this certificate, the end of the agreement shall be deemed to be the date of the final billing or acceptance of the work by the Village, whichever is later.

PUBLIC ENTITY CRIMES

Sworn Statement Under §287.133(3)(a), Florida Statutes

(This form must be signed in the presence of a notary public or other officer authorized to administer oaths.)

1. This sworn statement is submitted with Bid, Proposal or contract No. _____

2. This sworn statement is submitted by:_____
(name of entity submitting sworn statement)

whose business address is: _____

_____

_____

Federal Identification Number (FEIN) is: _____
(if applicable)

Social Security Number: _____

(if the entity has no FEIN, include the Social Security Number of the individual signing this sworn statement)

3. My name is: _____
(print name of individual signing this document)

and my relationship to the entity is:_____

4. I understand that a "public entity crime" as defined in §287.133(1)(g), Florida Statutes means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United states, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

5. I understand that a "convicted" or "conviction" as defined in §287.133(1)(b), Florida Statutes, means a finding of guilt of a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

6. I understand that an "affiliate" as defined in §287.133(1)(a), Florida Statutes means:

(a) A predecessor or successor of a person or a corporation convicted of a public entity crime; or

(b) An entity under the control of any natural person who is active in the

management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, share holders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima-facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

7. I understand that a "person" as defined in §287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which binds or applies to bids on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

8. Based on the information and belief, the statement that I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies)

    a. ____Neither the entity submitting the sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity nor any affiliate of the entity have been charged with and convicted of a public entity crime subsequent to July 1, 1989.

(Address)

to furnish all materials, equipment, and labor and to perform all work in accordance with the Contract Documents for:

VILLAGE OF KEY BISCAYNE GRANT ADMINISTRATION SUPPORT SERVICES

("THE PROJECT")

TO: Village of Key Biscayne
Attn: Village Clerk
88 West McIntyre Street, Suite 220
Key Biscayne, Florida 33149

The undersigned, as Bidder, hereby declares that the only person or persons interested in the Bid, as principal or principals, is or are named herein and that no other person than herein mentioned has any interests in the Bid or the Contract to which the Work pertains; that this Bid is made without connection or arrangement with any other person, company, or parties making Bids or Proposals and that the Bid is in all respects fair and made in good faith without collusion or fraud.

The Bidder further declares that he or she has examined the geographic location and sites of the Work; that he has made sufficient investigations to fully satisfy himself that such sites are suitable for this Work; and he assumes full responsibility therefore; that he has examined the specifications for the Work and from his own experience or from professional advice that the specifications are sufficient for the Work to be done and he has examined the other Contract Documents relating thereto, including the Instructions to Bidders, the Contract, Bid, Detailed Scope of Work/Specifications, Qualification Statement, Public Entity Crime Form, and Insurance requirements

and he has read all addenda prior to the opening of Bids, and that he has satisfied himself fully, relative to all matters and conditions with respect to the Work to which this Bid pertains.
The Bidder proposes and agrees, if this Bid is accepted, to timely execute the Contract with the Village in the form attached and to furnish all necessary materials, all equipment, all necessary machinery, tools, apparatus, means of transportation, and labor necessary to complete the Work specified in the Bid and the Contract, and called for by the drawings and specifications and in the manner specified and to timely submit all required bonds and insurance certificates.

***NOTE:* THIS SCHEDULE OF BID ITEMS IS MERELY ILLUSTRATIVE OF THE MINIMUM AMOUNT/QUANTITY OF WORK TO BE PERFORMED UNDER THE CONTRACT. IN THE CASE OF ANY CONFLICT BETWEEN THIS SCHEDULE OF BID ITEMS AND THE DETAILED SPECIFICATIONS, THE DETAILED SPECIFICATIONS WILL PREVAIL.**

The Bidder further proposes and agrees to comply in all respects with the time limits for commencement and completion of the Work as stated in the Contract.

The Bidder agrees to execute the Contract and furnish the executed Contract, all required bonds, insurance certificates, and other required information to Village within ten (10) ten calendar days after written notice of the Award of Contract. Failure on the part of the Bidder to timely comply with this provision shall give Village all rights and remedies set forth in the Instructions to Bidders.

The undersigned agrees to accept as full compensation therefore the total of the lump sum prices and extended unit prices items named in the following schedule. It is understood that the unit prices quoted or established for a particular item are to be used for computing the amount to be paid to the Contractor, based on the Work actually performed as determined by the Contract and the Village. However, in utilizing the schedule, the Bidder agrees that in no event shall compensation paid to the Bidder under the Contract exceed the dollar amount of the Bidder's Bid amount, as set forth in the attached Bid.

It is intended that all Work to be performed under this Bid shall commence approximately thirty (30) days after Contract execution.

In no event shall Village be obligated to pay for Work not performed or materials not furnished. Bidder's

PROFESSIONAL SERVICES AGREEMENT
BETWEEN
THE VILLAGE OF KEY BISCAYNE
AND
NAME OF ENTITY

THIS AGREEMENT (this "Agreement") is made effective as of the _____ day of _____ _____, 2025 (the "Effective Date"), by and between the **VILLAGE OF KEY BISCAYNE, FLORIDA,** a Florida municipal corporation, (the "Village"), and **NAME OF ENTITY**, a Florida [type of entity] (hereinafter, the "Consultant").

WHEREAS, the Village desires certain **VILLAGE OF KEY BISCAYNE GRANT ADMINISTRATION SUPPORT SERVICES:** and

WHEREAS, the Consultant will perform services on behalf of the Village, all as further set forth in the Proposal dated _____, 2024, attached hereto as Exhibit "A" (the "Services"); and

WHEREAS, the Consultant and Village, through mutual negotiation, have agreed upon a fee for the Services; and

WHEREAS, the Village desires to engage the Consultant to perform the Services and provide the deliverables as specified below.

NOW, THEREFORE, in consideration of the mutual covenants and conditions contained herein, the Consultant and the Village agree as follows:

1. Scope of Services.

1.1. Consultant shall provide the Services set forth in the Proposal attached hereto as Exhibit "A" and incorporated herein by reference (the "Services").

1.2. Consultant shall furnish all reports, documents, and information obtained pursuant to this Agreement, and recommendations during the term of this Agreement (hereinafter "Deliverables") to the Village.

2. Term/Commencement Date.

2.1. The term of this Agreement shall be from the Effective Date through three (3) years thereafter, unless earlier terminated in accordance with Paragraph 8. Additionally, the Village Manager may renew this Agreement for two (2) additional one (1) year periods on the same terms as set forth herein upon written notice to the Consultant.

SAMPLE

Consultant agrees that time is of the essence and Consultant shall complete the Services within the term of this Agreement, unless extended by the Village Manager.

3. Compensation and Payment.

3.1. Compensation for Services provided by Consultant shall be in accordance with the Proposal attached hereto as Exhibit "A." Consultant shall be compensated a flat rate, lump sum fee in the amount of $XXXX.XX per month.

3.2. Consultant shall deliver an invoice to Village no more often than once per month detailing Services completed and the amount due to Consultant under this Agreement. Fees shall be paid in arrears each month, pursuant to Consultant's invoice, which shall be based upon the percentage of work completed for each task invoiced. The Village shall pay the Consultant in accordance with the Florida Prompt Payment Act after approval and acceptance of the Services by the Village Manager.

3.3. Contractor's invoices must contain the following information for prompt payment:

3.3.1. Name and address of the Consultant;

3.3.2. Purchase Order number;

3.3.3. Contract number;

3.3.4. Date of invoice;

3.3.5. Invoice number (Invoice numbers cannot be repeated. Repeated invoice numbers will be rejected);

3.3.6. Name and type of Services;

3.3.7. Timeframe covered by the invoice; and

3.3.8. Total value of invoice.

Failure to include the above information will result in the delay of payment or rejection of the invoice. All invoices must be submitted electronically to payables@keybiscayne.fl.gov.

4. Subconsultants.

4.1. The Consultant shall be responsible for all payments to any subconsultants and shall maintain responsibility for all work related to the Services.

4.2. Consultant may only utilize the services of a particular subconsultant with the prior written approval of the Village Manager, which approval may be granted or withheld in the Village Manager's sole and absolute discretion.

5. Village's Responsibilities.

SAMPLE

Village shall make available any maps, plans, existing studies, reports, staff and representatives, and other data pertinent to the Services and in possession of the Village,

5.1. and provide criteria requested by Consultant to assist Consultant in performing the Services.

5.2. Upon Consultant's request, Village shall reasonably cooperate in arranging access to public information that may be required for Consultant to perform the Services.

6. Consultant's Responsibilities; Representations and Warranties.

6.1. The Consultant shall exercise the same degree of care, skill and diligence in the performance of the Services as is ordinarily provided by a consultant under similar circumstances. If at any time during the term of this Agreement or within two (2) years from the completion of this Agreement, it is determined that the Consultant's Deliverables or Services are incorrect, not properly rendered, defective, or fail to conform to Village requests, the Consultant shall at Consultant's sole expense, immediately correct its Deliverables or Services.

6.2. The Consultant hereby warrants and represents that at all times during the term of this Agreement it shall maintain in good standing all required licenses, certifications and permits required under Federal, State and local laws applicable to and necessary to perform the Services for Village as an independent contractor of the Village. Consultant further warrants and represents that it has the required knowledge, expertise, and experience to perform the Services and carry out its obligations under this Agreement in a professional and first class manner.

6.3. The Consultant represents that is an entity validly existing and in good standing under the laws of Florida. The execution, delivery and performance of this Agreement by Consultant have been duly authorized, and this Agreement is binding on Consultant and enforceable against Consultant in accordance with its terms. No consent of any other person or entity to such execution, delivery and performance is required.

7. Conflict of Interest.

7.1. To avoid any conflict of interest or any appearance thereof, Consultant shall not, for the term of this Agreement, provide any consulting services to any private sector entities (developers, corporations, real estate investors, etc.), with any current, or foreseeable, adversarial issues in the Village.

8. Termination.

8.1. The Village Manager, without cause, may terminate this Agreement upon five (5) calendar days' written notice to the Consultant, or immediately with cause.

8.2. Upon receipt of the Village's written notice of termination, Consultant shall immediately stop work on the project unless directed otherwise by the Village Manager.

8.3. In the event of termination by the Village, the Consultant shall be paid for all work accepted by the Village Manager up to the date of termination, provided that the Consultant has first complied with the provisions of Paragraph 8.4.

SAMPLE

8.4. The Consultant shall transfer all books, records, reports, working drafts, documents, maps, and data pertaining to the Services and the project to the Village, in a hard copy and electronic format within fourteen (14) days from the date of the written notice of termination or the date of expiration of this Agreement.

9. Insurance.

9.1. Consultant shall secure and maintain throughout the duration of this agreement insurance of such types and in such amounts not less than those specified below as satisfactory to Village, naming the Village as an Additional Insured, underwritten by a firm rated A-X or better by A.M. Best and qualified to do business in the State of Florida. The insurance coverage shall be primary insurance with respect to the Village, its officials, employees, agents, and volunteers naming the Village as additional insured. Any insurance maintained by the Village shall be in excess of the Consultant's insurance and shall not contribute to the Consultant's insurance. The insurance coverages shall include at a minimum the amounts set forth in this section and may be increased by the Village as it deems necessary or prudent.

9.1.1. Commercial General Liability coverage with limits of liability of not less than a $1,000,000 per Occurrence combined single limit for Bodily Injury and Property Damage. This Liability Insurance shall also include Completed Operations and Product Liability coverages and eliminate the exclusion with respect to property under the care, custody and control of Consultant. The General Aggregate Liability limit and the Products/Completed Operations Liability Aggregate limit shall be in the amount of $2,000,000 each.

9.1.2. Workers Compensation and Employer's Liability insurance, to apply for all employees for statutory limits as required by applicable State and Federal laws. The policy(ies) must include Employer's Liability with minimum limits of $1,000,000.00 each accident. No employee, subcontractor or agent of the Consultant shall be allowed to provide Services pursuant to this Agreement who is not covered by Worker's Compensation insurance.

9.1.3. Business Automobile Liability with minimum limits of $1,000,000 per occurrence, combined single limit for Bodily Injury and Property Damage. Coverage must be afforded on a form no more restrictive than the latest edition of the Business Automobile Liability policy, without restrictive endorsements, as filed by the Insurance Service Office, and must include Owned, Hired, and Non-Owned Vehicles.

9.1.4. Professional Liability Insurance in an amount of not less than One Million Dollars ($1,000,000.00) per occurrence, single limit.

9.2. Certificate of Insurance. Certificates of Insurance shall be provided to the Village, reflecting the Village as an Additional Insured (except with respect to Professional Liability Insurance and Worker's Compensation Insurance), no later than ten (10) days after award of this Agreement and prior to the execution of this Agreement by Village and prior to commencing Services. Each certificate shall include no less than (30) thirty-day advance written notice to Village prior to cancellation, termination, or material alteration of said policies or insurance. The Consultant shall be responsible for assuring that the insurance certificates required by this Section remain in full force and effect for the duration of this Agreement, including any extensions or renewals that may be granted by the Village. The Certificates of Insurance shall not only name the types

SAMPLE

of policy(ies) provided, but also shall refer specifically to this Agreement and shall state that such insurance is as required by this Agreement. The Village reserves the right to inspect and return a certified copy of such policies, upon written request by the Village. If a policy is due to expire prior to the completion of the Services, renewal Certificates of Insurance shall be furnished thirty (30) calendar days prior to the date of their policy expiration. Each policy certificate shall be endorsed with a provision that not less than thirty (30) calendar days' written notice shall be provided to the Village before any policy or coverage is cancelled or restricted. Acceptance of the Certificate(s) is subject to approval of the Village.

9.3. Additional Insured. Except with respect to Professional Liability Insurance and Worker's Compensation Insurance**,** the Village is to be specifically included as an Additional Insured for the liability of the Village resulting from Services performed by or on behalf of the Consultant in performance of this Agreement. The Consultant's insurance, including that applicable to the Village as an Additional Insured, shall apply on a primary basis and any other insurance maintained by the Village shall be in excess of and shall not contribute to the Consultant's insurance. The Consultant's insurance shall contain a severability of interest provision providing that, except with respect to the total limits of liability, the insurance shall apply to each Insured or Additional Insured (for applicable policies) in the same manner as if separate policies had been issued to each.

9.4. Deductibles. All deductibles or self-insured retentions must be declared to and be reasonably approved by the Village. The Consultant shall be responsible for the payment of any deductible or self-insured retentions in the event of any claim.

9.5. The provisions of this section shall survive termination of this Agreement.

10. Nondiscrimination. During the term of this Agreement, Consultant shall not discriminate against any of its employees or applicants for employment because of their race, color, religion, sex, or national origin, and will abide by all Federal and State laws regarding nondiscrimination.

11. Attorneys Fees and Waiver of Jury Trial.

11.1. In the event of any litigation arising out of this Agreement, the prevailing party shall be entitled to recover its attorneys' fees and costs, including the fees and expenses of any paralegals, law clerks and legal assistants, and including fees and expenses charged for representation at both the trial and appellate levels.

11.2. IN THE EVENT OF ANY LITIGATION ARISING OUT OF THIS AGREEMENT, EACH PARTY HEREBY KNOWINGLY, IRREVOCABLY, VOLUNTARILY AND INTENTIONALLY WAIVES ITS RIGHT TO TRIAL BY JURY.

12. Indemnification.

12.1. Consultant shall indemnify and hold harmless the Village, its officers, agents and employees, from and against any and all demands, claims, losses, suits, liabilities, causes of action, judgment or damages, arising from Consultant's performance or non-performance of any provision of this Agreement, including, but not limited to, liabilities arising from contracts between the Consultant and third parties made pursuant to this Agreement. Consultant shall

SAMPLE

reimburse the Village for all its expenses including reasonable attorneys' fees and costs incurred in and about the defense of any such claim or investigation and for any judgment or damages arising from Consultant's performance or non-performance of this Agreement.

12.2. Nothing herein is intended to serve as a waiver of sovereign immunity by the Village nor shall anything included herein be construed as consent to be sued by third parties in any matter arising out of this Agreement or any other contract. The Village is subject to section 768.28, Florida Statutes, as may be amended from time to time.

12.3. The provisions of this section shall survive termination of this Agreement.

13. Notices/Authorized Representatives. Any notices required by this Agreement shall be in writing and shall be deemed to have been properly given if transmitted by hand-delivery, by registered or certified mail with postage prepaid return receipt requested, or by a private postal service, addressed to the parties (or their successors) at the addresses listed on the signature page of this Agreement or such other address as the party may have designated by proper notice.

14. Governing Law and Venue. This Agreement shall be construed in accordance with and governed by the laws of the State of Florida. Venue for any proceedings arising out of this Agreement shall be proper exclusively in Miami-Dade County, Florida.

15. Entire Agreement/Modification/Amendment.

15.1. This writing contains the entire Agreement of the parties and supersedes any prior oral or written representations. No representations were made or relied upon by either party, other than those that are expressly set forth herein.

15.2. No agent, employee, or other representative of either party is empowered to modify or amend the terms of this Agreement, unless executed with the same formality as this document.

16. Ownership and Access to Records and Audits.

16.1. Consultant acknowledges that all inventions, innovations, improvements, developments, methods, designs, analyses, drawings, reports, compiled information, and all similar or related information (whether patentable or not) which relate to Services to the Village which are conceived, developed or made by Consultant during the term of this Agreement ("Work Product") belong to the Village. Consultant shall promptly disclose such Work Product to the Village and perform all actions reasonably requested by the Village (whether during or after the term of this Agreement) to establish and confirm such ownership (including, without limitation, assignments, powers of attorney and other instruments).

16.2. Consultant agrees to keep and maintain public records in Consultant's possession or control in connection with Consultant's performance under this Agreement. The Village Manager or her designee shall, during the term of this Agreement and for a period of three (3) years from the date of termination of this Agreement, have access to and the right to examine and audit any records of the Consultant involving transactions related to this Agreement. Consultant additionally agrees to comply specifically with the provisions of Section 119.0701, Florida Statutes. Consultant shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed, except as authorized by law, for

SAMPLE

the duration of the Agreement, and following completion of the Agreement until the records are transferred to the Village.

16.3. Upon request from the Village's custodian of public records, Consultant shall provide the Village with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided by Chapter 119, Florida Statutes, or as otherwise provided by law.

16.4. Unless otherwise provided by law, any and all records, including but not limited to reports, surveys, and other data and documents provided or created in connection with this Agreement are and shall remain the property of the Village.

16.5. Upon completion of this Agreement or in the event of termination by either party, any and all public records relating to the Agreement in the possession of the Consultant shall be delivered by the Consultant to the Village Manager, at no cost to the Village, within seven (7) days. All such records stored electronically by Consultant shall be delivered to the Village in a format that is compatible with the Village's information technology systems. Once the public records have been delivered upon completion or termination of this Agreement, the Consultant shall destroy any and all duplicate public records that are exempt or confidential and exempt from public records disclosure requirements.

16.6. Any compensation due to Consultant shall be withheld until all records are received as provided herein.

16.7. Consultant's failure or refusal to comply with the provisions of this section shall result in the immediate termination of this Agreement by the Village.

16.8. **Notice Pursuant to Section 119.0701(2)(a), Florida Statutes.** **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS.**

17. **Nonassignability.** This Agreement shall not be assignable by Consultant unless such assignment is first approved by the Village Manager. The Village is relying upon the apparent qualifications and expertise of the Consultant, and such firm's familiarity with the Village's area, circumstances and desires.

18. **Severability.** If any term or provision of this Agreement shall to any extent be held invalid or unenforceable, the remainder of this Agreement shall not be affected thereby, and each remaining term and provision of this Agreement shall be valid and be enforceable to the fullest extent permitted by law.

19. **Independent Contractor.** The Consultant and its employees, volunteers and agents shall be and remain an independent contractor and not an agent or employee of the Village with respect to all of the acts and services performed by and under the terms of this Agreement. This Agreement shall not in any way be construed to create a partnership, association or any other kind of joint undertaking, enterprise or venture between the parties.

20. **Compliance with Laws.** The Consultant shall comply with all applicable laws, ordinances, rules, regulations, and lawful orders of public authorities in carrying out Services under this Agreement, and in particular shall obtain all required permits from all jurisdictional agencies to perform the Services under this Agreement at its own expense.

21. **Waiver.** The failure of either party to this Agreement to object to or to take affirmative action with respect to any conduct of the other which is in violation of the terms of this Agreement shall not be construed as a waiver of the violation or breach, or of any future violation, breach or wrongful conduct.

22. **Survival of Provisions.** Any terms or conditions of either this Agreement that require acts beyond the date of the term of the Agreement, shall survive termination of the Agreement, shall remain in full force and effect unless and until the terms or conditions are completed and shall be fully enforceable by either party.

23. **Prohibition of Contingency Fees.** The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant, to solicit or secure this Agreement, and that it has not paid or agreed to pay any person(s), company, corporation, individual or firm, other than a bona fide employee working solely for the Consultant, any fee, commission, percentage, gift, or any other consideration, contingent upon or resulting from the award or making of this Agreement.

24. **State Required Affidavits.** By entering into this Agreement, the Consultant agrees to review and comply with the following state affidavit requirements:

    24.1. Public Entity Crimes Affidavit. Consultant shall comply with Section 287.133, Florida Statutes (Public Entity Crimes Statute), notification of which is hereby incorporated herein by reference, including execution of any required affidavit.

    24.2. E-Verify Affidavit. In accordance with Section 448.095, Florida Statutes, the Village requires all contractors doing business with the Village to register with and use the E-Verify system to verify the work authorization status of all newly hired employees. The Village will not enter into a contract unless each party to the contract registers with and uses the E-Verify

SAMPLE

system. The contracting entity must provide of its proof of enrollment in E-Verify. For instructions on how to provide proof of the contracting entity's participation/enrollment in E-Verify, please visit: https://www.e-verify.gov/faq/how-do-i-provide-proof-of-my-participationenrollment-in-e-verify. By entering into this Agreement, the Consultant acknowledges that it has read Section 448.095, Florida Statutes; will comply with the E-Verify requirements imposed by Section 448.095, Florida Statutes, including but not limited to obtaining E-Verify affidavits from subcontractors; and has executed the required affidavit attached hereto and incorporated herein.

24.3. Noncoercive Conduct Affidavit. Pursuant to Section 787.06, Florida Statutes, a nongovernmental entity executing, renewing, or extending a contract with a governmental entity is required to provide an affidavit, signed by an officer or a representative of the nongovernmental entity under penalty of perjury, attesting that the nongovernmental entity does not use coercion for labor or services as defined in Section 787.06(2)(a), Florida Statutes. By entering into this Agreement, the Consultant acknowledges that it has read Section 787.06, Florida Statutes, and will comply with the requirements therein, and has executed the required affidavit attached hereto and incorporated herein.

24.4. Prohibition on Contracting with Entities of Foreign Concern. Pursuant to Section 287.138, Florida Statutes (which is expressly incorporated herein by reference), a governmental entity may not knowingly enter into a contract with an entity which would give access to an individual's personal identifying information if (a) the entity is owned by the government of a foreign country of concern; (b) the government of a foreign country of concern has a controlling interest in the entity; or (c) the entity is organized under the laws of or has its principal place of business in a foreign country of concern. By entering into this Agreement, the Consultant acknowledges that it has read Section 287.138, Florida Statutes, and complies with the requirements therein, and has executed the required affidavit attached hereto and incorporated herein.

25. Counterparts. This Agreement may be executed in several counterparts, each of which shall be deemed an original and such counterparts shall constitute one and the same instrument.

26. Conflicts. In the event of a conflict between the terms of this Agreement and any exhibits or attachments hereto, the terms of this Agreement shall control.

Addendum No. 1

RFQ for Village of Key Biscayne Grant Administration Support Services
Addendum Release Date March 18, 2025

RFQ # 2025-01

ITB Due Date/Time: April 03, 2024, 11:30 a.m. Eastern Standard Time

Submit To: DemandStar
https://www.demandstar.com

The purpose of this Addendum is to answer questions received from potential proposers or provide additional information as it relates to this solicitation.

IMPORTANT NOTE – the following is added to RFQ # 2025-01. It is the Proposer's responsibility to use the revised information when preparing the response.

1. Q: Please provide insight into the anticipated division of services between grant writing and grant management. Understanding the approximate percentage of each component within the scope of work would be incredibly helpful as we prepare our response.
   A: I would assume mostly management work including reporting, tracking progress, and submitting reimbursements, among other tasks as described in the RFQ. That may fluctuate depending on the granting agency requirements and each year depending on what grants the village wants to apply for.

2. Q: What is the budget?
   A: The cost of the services to be provided on an annual basis will be negotiated with the selected firm. Because this is an RFQ, price is not a factor in the selection process. The annual budget will include a line item for this contract.

3. Q: Does the Village currently have a contract for grant administration support services? If yes, what firm holds the current contract?
   A: We currently utilize different firms for various grant pursuits depending on their specialty and the technical nature of the grant application. We engage these firms as needed, not through an annual contract.

4. Q: Does the Village have a software/cloud-based program it uses for grant writing and management? If so, which product(s) is the Village using?
   A: No, we do not.

5. Q: Are there expected funding levels by Village program, or will grant opportunities be researched on an as-needed basis for each area?
   A: Grant opportunities will be researched on an as-needed basis.

6. Q: The RFQ states that there is a 30-page limit for all responses, excluding the cover sheet. Can you confirm if all 15 forms are included in this page limit?
   A: The 30-page limit does not include the Village required documents.

7. Q: With this RFQ advertising professional services associated with grant administration, would the Village accept our firm's insurance certificate in lieu of Form 16, which appears to be geared toward construction services?
   A: Yes.

8. Q: The indemnity provision section 12. Indemnification on pages 70 and 71 of the proposal is not in compliance with FL Statute 725.08 and is unenforceable. Will you agree to reword the indemnification to conform with the statute? Suggested language per FL Statute 725.08: "The design professional shall indemnify and hold harmless the agency, and its officers and employees, from liabilities, damages, losses, and costs, including, but not limited to, reasonable attorneys' fees, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the design professional and other persons employed or utilized by the design professional in the performance of the contract."
   A: No. The Village is seeking general grant administration support services, which services do not entail or require any architectural, landscape architecture, engineering, or land surveying and mapping work.

9. Q: Would the Village please revise Section 20 "Compliance with Laws" to clarify that the Consultant shall obtain required "professional" permits to perform the Services? We cannot warrant that agencies will approve of all permits requested by the Village.
   A: The Village requires any work to be conducted in compliance with applicable laws, ordinances, rules, and regulations, and, if applicable, the work must be performed pursuant to a valid permit.

10. Q: The other agreement questions received
    A: The Village will address any non-material contract negotiations relating to this clause after ranking, evaluation, and selection of the Successful Respondent(s).

11. Q: What is the difference between "cover sheet" and "title page" in the proposal submission requirements? Please clarify what you want here.
    A: Cover sheet should be like a cover letter. The title page is just a title page.

12. Q: The sections required in the proposal "Service Team and Resume" and "Personnel Plan" are essentially asking for the same content. Org charts, qualifications, proposed team. Do you really want the same information presented twice?
    A: No, once is enough.

13. Q: Does the resumes for each individual count toward the 30 page limit?
    A: Yes.

14. Q: Is there a DBE percentage participation goal requirement?
    A: No.

15. Q: Do subconsultants need to submit any of the Required Forms?
    A: No.

16. Q: Tab D. Subcontracting plan states to specify proposed dollars amount of subcontracting effort by category. Since this is an on-call contract, would the Village accept TBD or a percentage as a response?
    A: Percentage would work

17. Q: Is there a Tab F? There is not one listed in 3.5 Proposal Format.
A: No.

18. Q: Could the Village clarify the proposal scoring for each category/tab?
A:

Category	**Score (Points)**
Project Approach	30
Organizational Profile	30
Project Experience/Qualifications	40
Total:	**100 Points**

PROFESSIONAL SERVICES AGREEMENT

BETWEEN

THE VILLAGE OF KEY BISCAYNE

AND

BELLTOWER CONSULTING GROUP LLC.

THIS AGREEMENT (this "Agreement") is made effective as of the _____ day of _____, 2025 (the "Effective Date"), by and between the **VILLAGE OF KEY BISCAYNE, FLORIDA,** a Florida municipal corporation, (the "Village"), and **BELLTOWER CONSULTING GROUP LLC.,** a Florida limited liability company (hereinafter, the "Consultant").

WHEREAS, on February 20, 2025, the Village issued Request for Qualification No. 2025-01 (the "RFQ") for Village of Key Biscayne Grant Administration Support Services, which the RFQ is incorporated herein by reference; and

WHEREAS, the services needed by the Village are specifically identified in Section 2 of the RFQ (the "Services"), which Section 2 of the RFQ is incorporated herein and attached hereto as Exhibit "A"; and

WHEREAS, in response to the RFQ, the Consultant submitted the proposal attached hereto as Exhibit "B" (the "Proposal"); and

WHEREAS, the Consultant and Village, through mutual negotiation, have agreed upon a fee for the Services; and

WHEREAS, the Village desires to engage the Consultant to perform the Services and provide the deliverables as specified below.

NOW, THEREFORE, in consideration of the mutual covenants and conditions contained herein, the Consultant and the Village agree as follows:

1. Scope of Services.

1.1. Consultant shall provide the Services set forth in the Proposal attached hereto as Exhibit "A" and incorporated herein by reference (the "Services").

1.2. Consultant shall furnish all reports, documents, and information obtained pursuant to this Agreement, and recommendations during the term of this Agreement (hereinafter "Deliverables") to the Village.

2. Term/Commencement Date.

2.1. The term of this Agreement shall be from the Effective Date through one year thereafter, unless earlier terminated in accordance with Paragraph 8. Additionally, the Village

Manager may renew this Agreement for four additional one-year periods on the same terms as set forth herein upon written notice to the Consultant.

2.2. Consultant agrees that time is of the essence and Consultant shall complete the Services within the term of this Agreement, unless extended by the Village Manager.

3. Compensation and Payment.

3.1. Compensation for Services provided by Consultant shall be in accordance with the Proposal attached hereto as Exhibit "B." in the amount of $49,500.00 not exceed in the first year.

3.2. Consultant shall deliver an invoice to Village no more often than once per month detailing Services completed and the amount due to Consultant under this Agreement. Fees shall be paid in arrears each month, pursuant to Consultant's invoice, which shall be based upon the percentage of work completed for each task invoiced. The Village shall pay the Consultant in accordance with the Florida Prompt Payment Act after approval and acceptance of the Services by the Village Manager.

3.3. Contractor's invoices must contain the following information for prompt payment:

3.3.1. Name and address of the Consultant;

3.3.2. Purchase Order number;

3.3.3. Contract number;

3.3.4. Date of invoice;

3.3.5. Invoice number (Invoice numbers cannot be repeated. Repeated invoice numbers will be rejected);

3.3.6. Name and type of Services;

3.3.7. Timeframe covered by the invoice; and

3.3.8. Total value of invoice.

Failure to include the above information will result in the delay of payment or rejection of the invoice. All invoices must be submitted electronically to payables@keybiscayne.fl.gov.

4. Subconsultants.

4.1. The Consultant shall be responsible for all payments to any subconsultants and shall maintain responsibility for all work related to the Services.

4.2. Consultant may only utilize the services of a particular subconsultant with the prior written approval of the Village Manager, which approval may be granted or withheld in the Village Manager's sole and absolute discretion.

5. Village's Responsibilities.

5.1. Village shall make available any maps, plans, existing studies, reports, staff and representatives, and other data pertinent to the Services and in possession of the Village, and provide criteria requested by Consultant to assist Consultant in performing the Services.

5.2. Upon Consultant's request, Village shall reasonably cooperate in arranging access to public information that may be required for Consultant to perform the Services.

6. Consultant's Responsibilities; Representations and Warranties.

6.1. The Consultant shall exercise the same degree of care, skill and diligence in the performance of the Services as is ordinarily provided by a consultant under similar circumstances. If at any time during the term of this Agreement or within two (2) years from the completion of this Agreement, it is determined that the Consultant's Deliverables or Services are incorrect, not properly rendered, defective, or fail to conform to Village requests, the Consultant shall at Consultant's sole expense, immediately correct its Deliverables or Services.

6.2. The Consultant hereby warrants and represents that at all times during the term of this Agreement it shall maintain in good standing all required licenses, certifications and permits required under Federal, State and local laws applicable to and necessary to perform the Services for Village as an independent contractor of the Village. Consultant further warrants and represents that it has the required knowledge, expertise, and experience to perform the Services and carry out its obligations under this Agreement in a professional and first class manner.

6.3. The Consultant represents that is an entity validly existing and in good standing under the laws of Florida. The execution, delivery and performance of this Agreement by Consultant have been duly authorized, and this Agreement is binding on Consultant and enforceable against Consultant in accordance with its terms. No consent of any other person or entity to such execution, delivery and performance is required.

7. Conflict of Interest.

7.1. To avoid any conflict of interest or any appearance thereof, Consultant shall not, for the term of this Agreement, provide any consulting services to any private sector entities (developers, corporations, real estate investors, etc.), with any current, or foreseeable, adversarial issues in the Village.

8. Termination.

8.1. The Village Manager, without cause, may terminate this Agreement upon five (5) calendar days' written notice to the Consultant, or immediately with cause.

8.2. Upon receipt of the Village's written notice of termination, Consultant shall immediately stop working on the project unless directed otherwise by the Village Manager.

8.3. In the event of termination by the Village, the Consultant shall be paid for all work accepted by the Village Manager up to the date of termination, provided that the Consultant has first complied with the provisions of Paragraph 8.4.

8.4. The Consultant shall transfer all books, records, reports, working drafts, documents, maps, and data pertaining to the Services and the project to the Village, in a hard copy and electronic format within fourteen (14) days from the date of the written notice of termination or the date of expiration of this Agreement.

9. Insurance.

9.1. Consultant shall secure and maintain throughout the duration of this agreement insurance of such types and in such amounts not less than those specified below as satisfactory to Village, naming the Village as an Additional Insured, underwritten by a firm rated A-X or better by A.M. Best and qualified to do business in the State of Florida. The insurance coverage shall be primary insurance with respect to the Village, its officials, employees, agents, and volunteers naming the Village as additional insured. Any insurance maintained by the Village shall be in excess of the Consultant's insurance and shall not contribute to the Consultant's insurance. The insurance coverages shall include at a minimum the amounts set forth in this section and may be increased by the Village as it deems necessary or prudent.

9.1.1. Commercial General Liability coverage with limits of liability of not less than a $1,000,000 per Occurrence combined single limit for Bodily Injury and Property Damage. This Liability Insurance shall also include Completed Operations and Product Liability coverages and eliminate the exclusion with respect to property under the care, custody and control of Consultant. The General Aggregate Liability limit and the Products/Completed Operations Liability Aggregate limit shall be in the amount of $2,000,000 each.

9.1.2. Workers Compensation and Employer's Liability insurance, to apply for all employees for statutory limits as required by applicable State and Federal laws. The policy(ies) must include Employer's Liability with minimum limits of $1,000,000.00 each accident. No employee, subcontractor or agent of the Consultant shall be allowed to provide Services pursuant to this Agreement who is not covered by Worker's Compensation insurance.

9.1.3. Business Automobile Liability with minimum limits of $1,000,000 per occurrence, combined single limit for Bodily Injury and Property Damage. Coverage must be afforded on a form no more restrictive than the latest edition of the Business Automobile Liability policy, without restrictive endorsements, as filed by the Insurance Service Office, and must include Owned, Hired, and Non-Owned Vehicles.

9.1.4. Professional Liability Insurance in an amount of not less than One Million Dollars ($1,000,000.00) per occurrence, single limit.

9.2. Certificate of Insurance. Certificates of Insurance shall be provided to the Village, reflecting the Village as an Additional Insured (except with respect to Professional

Liability Insurance and Worker's Compensation Insurance), no later than ten (10) days after award of this Agreement and prior to the execution of this Agreement by Village and prior to commencing Services. Each certificate shall include no less than (30) thirty-day advance written notice to Village prior to cancellation, termination, or material alteration of said policies or insurance. The Consultant shall be responsible for assuring that the insurance certificates required by this Section remain in full force and effect for the duration of this Agreement, including any extensions or renewals that may be granted by the Village. The Certificates of Insurance shall not only name the types of policy(ies) provided, but also shall refer specifically to this Agreement and shall state that such insurance is as required by this Agreement. The Village reserves the right to inspect and return a certified copy of such policies, upon written request by the Village. If a policy is due to expire prior to the completion of the Services, renewal Certificates of Insurance shall be furnished thirty (30) calendar days prior to the date of their policy expiration. Each policy certificate shall be endorsed with a provision that not less than thirty (30) calendar days' written notice shall be provided to the Village before any policy or coverage is cancelled or restricted. Acceptance of the Certificate(s) is subject to approval of the Village.

9.3. Additional Insured. Except with respect to Professional Liability Insurance and Worker's Compensation Insurance**,** the Village is to be specifically included as an Additional Insured for the liability of the Village resulting from Services performed by or on behalf of the Consultant in performance of this Agreement. The Consultant's insurance, including that applicable to the Village as an Additional Insured, shall apply on a primary basis and any other insurance maintained by the Village shall be in excess of and shall not contribute to the Consultant's insurance. The Consultant's insurance shall contain a severability of interest provision providing that, except with respect to the total limits of liability, the insurance shall apply to each Insured or Additional Insured (for applicable policies) in the same manner as if separate policies had been issued to each.

9.4. Deductibles. All deductibles or self-insured retentions must be declared to and be reasonably approved by the Village. The Consultant shall be responsible for the payment of any deductible or self-insured retentions in the event of any claim.

9.5. The provisions of this section shall survive termination of this Agreement.

10. Nondiscrimination. During the term of this Agreement, Consultant shall not discriminate against any of its employees or applicants for employment because of their race, color, religion, sex, or national origin, and will abide by all Federal and State laws regarding nondiscrimination.

11. Attorneys Fees and Waiver of Jury Trial.

11.1. In the event of any litigation arising out of this Agreement, the prevailing party shall be entitled to recover its attorneys' fees and costs, including the fees and expenses of any paralegals, law clerks and legal assistants, and including fees and expenses charged for representation at both the trial and appellate levels.

11.2. IN THE EVENT OF ANY LITIGATION ARISING OUT OF THIS AGREEMENT, EACH PARTY HEREBY KNOWINGLY, IRREVOCABLY, VOLUNTARILY AND INTENTIONALLY WAIVES ITS RIGHT TO TRIAL BY JURY.

12. Indemnification.

12.1. Consultant shall indemnify and hold harmless the Village, its officers, agents and employees, from and against any and all demands, claims, losses, suits, liabilities, causes of action, judgment or damages, arising from Consultant's performance or non-performance of any provision of this Agreement, including, but not limited to, liabilities arising from contracts between the Consultant and third parties made pursuant to this Agreement. Consultant shall reimburse the Village for all its expenses including reasonable attorneys' fees and costs incurred in and about the defense of any such claim or investigation and for any judgment or damages arising from Consultant's performance or non-performance of this Agreement.

12.2. Nothing herein is intended to serve as a waiver of sovereign immunity by the Village nor shall anything included herein be construed as consent to be sued by third parties in any matter arising out of this Agreement or any other contract. The Village is subject to section 768.28, Florida Statutes, as may be amended from time to time.

12.3. The provisions of this section shall survive termination of this Agreement.

13. Notices/Authorized Representatives. Any notices required by this Agreement shall be in writing and shall be deemed to have been properly given if transmitted by hand-delivery, by registered or certified mail with postage prepaid return receipt requested, or by a private postal service, addressed to the parties (or their successors) at the addresses listed on the signature page of this Agreement or such other address as the party may have designated by proper notice.

14. Governing Law and Venue. This Agreement shall be construed in accordance with and governed by the laws of the State of Florida. Venue for any proceedings arising out of this Agreement shall be proper exclusively in Miami-Dade County, Florida.

15. Entire Agreement/Modification/Amendment.

15.1. This writing contains the entire Agreement of the parties and supersedes any prior oral or written representations. No representations were made or relied upon by either party, other than those that are expressly set forth herein.

15.2. No agent, employee, or other representative of either party is empowered to modify or amend the terms of this Agreement, unless executed with the same formality as this document.

16. Ownership and Access to Records and Audits.

16.1. Consultant acknowledges that all inventions, innovations, improvements, developments, methods, designs, analyses, drawings, reports, compiled information, and all similar or related information (whether patentable or not) which relate to Services to the Village which are conceived, developed or made by Consultant during the term of this Agreement ("Work Product") belong to the Village. Consultant shall promptly disclose such Work Product to the Village and perform all actions reasonably requested by the Village (whether during or after the term of this Agreement) to establish and confirm such ownership (including, without limitation, assignments, powers of attorney and other instruments).

16.2. Consultant agrees to keep and maintain public records in Consultant's possession or control in connection with Consultant's performance under this Agreement. The Village Manager or her designee shall, during the term of this Agreement and for a period of three (3) years from the date of termination of this Agreement, have access to and the right to examine and audit any records of the Consultant involving transactions related to this Agreement. Consultant additionally agrees to comply specifically with the provisions of Section 119.0701, Florida Statutes. Consultant shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed, except as authorized by law, for the duration of the Agreement, and following completion of the Agreement until the records are transferred to the Village.

16.3. Upon request from the Village's custodian of public records, Consultant shall provide the Village with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided by Chapter 119, Florida Statutes, or as otherwise provided by law.

16.4. Unless otherwise provided by law, any and all records, including but not limited to reports, surveys, and other data and documents provided or created in connection with this Agreement are and shall remain the property of the Village.

16.5. Upon completion of this Agreement or in the event of termination by either party, any and all public records relating to the Agreement in the possession of the Consultant shall be delivered by the Consultant to the Village Manager, at no cost to the Village, within seven (7) days. All such records stored electronically by Consultant shall be delivered to the Village in a format that is compatible with the Village's information technology systems. Once the public records have been delivered upon completion or termination of this Agreement, the Consultant shall destroy any and all duplicate public records that are exempt or confidential and exempt from public records disclosure requirements.

16.6. Any compensation due to Consultant shall be withheld until all records are received as provided herein.

16.7. Consultant's failure or refusal to comply with the provisions of this section shall result in the immediate termination of this Agreement by the Village.

16.8. **Notice Pursuant to Section 119.0701(2)(a), Florida Statutes. IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS.**

17. **Nonassignability.** This Agreement shall not be assignable by Consultant unless such assignment is first approved by the Village Manager. The Village is relying upon the apparent qualifications and expertise of the Consultant, and such firm's familiarity with the Village's area, circumstances and desires.

18. **Severability.** If any term or provision of this Agreement shall to any extent be held invalid or unenforceable, the remainder of this Agreement shall not be affected thereby, and each remaining term and provision of this Agreement shall be valid and be enforceable to the fullest extent permitted by law.

19. **Independent Contractor.** The Consultant and its employees, volunteers and agents shall be and remain an independent contractor and not an agent or employee of the Village with respect to all of the acts and services performed by and under the terms of this Agreement. This Agreement shall not in any way be construed to create a partnership, association or any other kind of joint undertaking, enterprise or venture between the parties.

20. **Compliance with Laws.** The Consultant shall comply with all applicable laws, ordinances, rules, regulations, and lawful orders of public authorities in carrying out Services under this Agreement, and in particular shall obtain all required permits from all jurisdictional agencies to perform the Services under this Agreement at its own expense.

21. **Waiver.** The failure of either party to this Agreement to object to or to take affirmative action with respect to any conduct of the other which is in violation of the terms of this Agreement shall not be construed as a waiver of the violation or breach, or of any future violation, breach or wrongful conduct.

22. **Survival of Provisions.** Any terms or conditions of either this Agreement that require acts beyond the date of the term of the Agreement, shall survive termination of the Agreement, shall remain in full force and effect unless and until the terms or conditions are completed and shall be fully enforceable by either party.

23. **Prohibition of Contingency Fees.** The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant, to solicit or secure this Agreement, and that it has not paid or agreed to pay any person(s), company, corporation, individual or firm, other than a bona fide employee working solely for the Consultant, any fee, commission, percentage, gift, or any other consideration, contingent upon or resulting from the award or making of this Agreement.

24. **State Required Affidavits.** By entering into this Agreement, the Consultant agrees to review and comply with the following state affidavit requirements:

24.1. **Public Entity Crimes Affidavit.** Consultant shall comply with Section 287.133, Florida Statutes (Public Entity Crimes Statute), notification of which is hereby incorporated herein by reference, including execution of any required affidavit.

24.2. **Scrutinized Companies.** Consultant certifies that it is not on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel. Pursuant to section 287.135, Florida Statues, the Village may immediately terminate this Agreement at its sole option if the Consultant is found to have submitted a false certification; or if the Consultant is placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement. If this Agreement is for more than one million dollars, the Consultant certifies that it is also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Terrorism Sectors List, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, Florida Statutes. Pursuant to Section 287.135, Florida Statutes, the Village may immediately terminate this Agreement at its sole option if the Consultant is found to have submitted a false certification; or if the Consultant is placed on the Scrutinized Companies with Activities in Sudan List, Scrutinized Companies with Activities in the Iran Terrorism Sectors List, Scrutinized Companies with Activities in Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

24.3. **E-Verify Affidavit.** In accordance with Section 448.095, Florida Statutes, the Village requires all contractors doing business with the Village to register with and use the E-Verify system to verify the work authorization status of all newly hired employees. The Village will not enter into a contract unless each party to the contract registers with and uses the E-Verify system. The contracting entity must provide of its proof of enrollment in E-Verify. For instructions on how to provide proof of the contracting entity's participation/enrollment in E-Verify, please visit: https://www.e-verify.gov/faq/how-do-i-provide-proof-of-my-participationenrollment-in-e-verify. By entering into this Agreement, the Consultant acknowledges that it has read Section 448.095, Florida Statutes; will comply with the E-Verify requirements imposed by Section 448.095, Florida Statutes, including but not limited to obtaining E-Verify affidavits from subcontractors; and has executed the required affidavit attached hereto and incorporated herein.

24.4. **Noncoercive Conduct Affidavit.** Pursuant to Section 787.06, Florida Statutes, a nongovernmental entity executing, renewing, or extending a contract with a governmental entity is required to provide an affidavit, signed by an officer or a representative of the

nongovernmental entity under penalty of perjury, attesting that the nongovernmental entity does not use coercion for labor or services as defined in Section 787.06(2)(a), Florida Statutes. By entering into this Agreement, the Consultant acknowledges that it has read Section 787.06, Florida Statutes, and will comply with the requirements therein, and has executed the required affidavit attached hereto and incorporated herein.

24.5. Prohibition on Contracting with Entities of Foreign Concern. Pursuant to Section 287.138, Florida Statutes (which is expressly incorporated herein by reference), a governmental entity may not knowingly enter into a contract with an entity which would give access to an individual's personal identifying information if (a) the entity is owned by the government of a foreign country of concern; (b) the government of a foreign country of concern has a controlling interest in the entity; or (c) the entity is organized under the laws of or has its principal place of business in a foreign country of concern. By entering into this Agreement, the Consultant acknowledges that it has read Section 287.138, Florida Statutes, and complies with the requirements therein, and has executed the required affidavit attached hereto and incorporated herein.

25. Counterparts. This Agreement may be executed in several counterparts, each of which shall be deemed an original and such counterparts shall constitute one and the same instrument.

26. Conflicts. In the event of a conflict between the terms of this Agreement and any exhibits or attachments hereto, the terms of this Agreement shall control.

[Remainder of page intentionally left blank. Signature pages follow.]

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed the day and year as first stated above.

THE E-VERIFY
MEMORANDUM OF UNDERSTANDING
FOR EMPLOYERS

ARTICLE I
PURPOSE AND AUTHORITY

The parties to this agreement are the Department of Homeland Security (DHS) and the BELLTOWER CONSULTING GROUP (Employer). The purpose of this agreement is to set forth terms and conditions which the Employer will follow while participating in E-Verify.

E-Verify is a program that electronically confirms an employee's eligibility to work in the United States after completion of Form I-9, Employment Eligibility Verification (Form I-9). This Memorandum of Understanding (MOU) explains certain features of the E-Verify program and describes specific responsibilities of the Employer, the Social Security Administration (SSA), and DHS.

Authority for the E-Verify program is found in Title IV, Subtitle A, of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (IIRIRA), Pub. L. 104-208, 110 Stat. 3009, as amended (8 U.S.C. § 1324a note). The Federal Acquisition Regulation (FAR) Subpart 22.18, "Employment Eligibility Verification" and Executive Order 12989, as amended, provide authority for Federal contractors and subcontractors (Federal contractor) to use E-Verify to verify the employment eligibility of certain employees working on Federal contracts.

ARTICLE II
RESPONSIBILITIES

A. RESPONSIBILITIES OF THE EMPLOYER

1. The Employer agrees to display the following notices supplied by DHS in a prominent place that is clearly visible to prospective employees and all employees who are to be verified through the system:

   a. Notice of E-Verify Participation

   b. Notice of Right to Work

2. The Employer agrees to provide to the SSA and DHS the names, titles, addresses, and telephone numbers of the Employer representatives to be contacted about E-Verify. The Employer also agrees to keep such information current by providing updated information to SSA and DHS whenever the representatives' contact information changes.

3. The Employer agrees to grant E-Verify access only to current employees who need E-Verify access. Employers must promptly terminate an employee's E-Verify access if the employer is separated from the company or no longer needs access to E-Verify.

4. The Employer agrees to become familiar with and comply with the most recent version of the E-Verify User Manual.

5. The Employer agrees that any Employer Representative who will create E-Verify cases will complete the E-Verify Tutorial before that individual creates any cases.

a. The Employer agrees that all Employer representatives will take the refresher tutorials when prompted by E-Verify in order to continue using E-Verify. Failure to complete a refresher tutorial will prevent the Employer Representative from continued use of E-Verify.

6. The Employer agrees to comply with current Form I-9 procedures, with two exceptions:

a. If an employee presents a "List B" identity document, the Employer agrees to only accept "List B" documents that contain a photo. (List B documents identified in 8 C.F.R. § 274a.2(b)(1)(B)) can be presented during the Form I-9 process to establish identity.) If an employee objects to the photo requirement for religious reasons, the Employer should contact E-Verify at 888-464-4218.

b. If an employee presents a DHS Form I-551 (Permanent Resident Card), Form I-766 (Employment Authorization Document), or U.S. Passport or Passport Card to complete Form I-9, the Employer agrees to make a photocopy of the document and to retain the photocopy with the employee's Form I-9. The Employer will use the photocopy to verify the photo and to assist DHS with its review of photo mismatches that employees contest. DHS may in the future designate other documents that activate the photo screening tool.

Note: Subject only to the exceptions noted previously in this paragraph, employees still retain the right to present any List A, or List B and List C, document(s) to complete the Form I-9.

7. The Employer agrees to record the case verification number on the employee's Form I-9 or to print the screen containing the case verification number and attach it to the employee's Form I-9.

8. The Employer agrees that, although it participates in E-Verify, the Employer has a responsibility to complete, retain, and make available for inspection Forms I-9 that relate to its employees, or from other requirements of applicable regulations or laws, including the obligation to comply with the antidiscrimination requirements of section 274B of the INA with respect to Form I-9 procedures.

a. The following modified requirements are the only exceptions to an Employer's obligation to not employ unauthorized workers and comply with the anti-discrimination provision of the INA: (1) List B identity documents must have photos, as described in paragraph 6 above; (2) When an Employer confirms the identity and employment eligibility of newly hired employee using E-Verify procedures, the Employer establishes a rebuttable presumption that it has not violated section 274A(a)(1)(A) of the Immigration and Nationality Act (INA) with respect to the hiring of that employee; (3) If the Employer receives a final nonconfirmation for an employee, but continues to employ that person, the Employer must notify DHS and the Employer is subject to a civil money penalty between $550 and $1,100 for each failure to notify DHS of continued employment following a final nonconfirmation; (4) If the Employer continues to employ an employee after receiving a final nonconfirmation, then the Employer is subject to a rebuttable presumption that it has knowingly

employed an unauthorized alien in violation of section 274A(a)(1)(A); and (5) no E-Verify participant is civilly or criminally liable under any law for any action taken in good faith based on information provided through the E-Verify.

b. DHS reserves the right to conduct Form I-9 compliance inspections, as well as any other enforcement or compliance activity authorized by law, including site visits, to ensure proper use of E-Verify.

9. The Employer is strictly prohibited from creating an E-Verify case before the employee has been hired, meaning that a firm offer of employment was extended and accepted and Form I-9 was completed. The Employer agrees to create an E-Verify case for new employees within three Employer business days after each employee has been hired (after both Sections 1 and 2 of Form I-9 have been completed), and to complete as many steps of the E-Verify process as are necessary according to the E-Verify User Manual. If E-Verify is temporarily unavailable, the three-day time period will be extended until it is again operational in order to accommodate the Employer's attempting, in good faith, to make inquiries during the period of unavailability.

10. The Employer agrees not to use E-Verify for pre-employment screening of job applicants, in support of any unlawful employment practice, or for any other use that this MOU or the E-Verify User Manual does not authorize.

11. The Employer must use E-Verify for all new employees. The Employer will not verify selectively and will not verify employees hired before the effective date of this MOU. Employers who are Federal contractors may qualify for exceptions to this requirement as described in Article II.B of this MOU.

12. The Employer agrees to follow appropriate procedures (see Article III below) regarding tentative nonconfirmations. The Employer must promptly notify employees in private of the finding and provide them with the notice and letter containing information specific to the employee's E-Verify case. The Employer agrees to provide both the English and the translated notice and letter for employees with limited English proficiency to employees. The Employer agrees to provide written referral instructions to employees and instruct affected employees to bring the English copy of the letter to the SSA. The Employer must allow employees to contest the finding, and not take adverse action against employees if they choose to contest the finding, while their case is still pending. Further, when employees contest a tentative nonconfirmation based upon a photo mismatch, the Employer must take additional steps (see Article III.B. below) to contact DHS with information necessary to resolve the challenge.

13. The Employer agrees not to take any adverse action against an employee based upon the employee's perceived employment eligibility status while SSA or DHS is processing the verification request unless the Employer obtains knowledge (as defined in 8 C.F.R. § 274a.1(l)) that the employee is not work authorized. The Employer understands that an initial inability of the SSA or DHS automated verification system to verify work authorization, a tentative nonconfirmation, a case in continuance (indicating the need for additional time for the government to resolve a case), or the finding of a photo mismatch, does not establish, and should not be interpreted as, evidence that the employee is not work authorized. In any of such cases, the employee must be provided a full and fair opportunity to contest the finding, and if he or she does so, the employee may not be terminated or suffer any adverse employment consequences based upon the employee's perceived employment eligibility status

(including denying, reducing, or extending work hours, delaying or preventing training, requiring an employee to work in poorer conditions, withholding pay, refusing to assign the employee to a Federal contract or other assignment, or otherwise assuming that he or she is unauthorized to work) until and unless secondary verification by SSA or DHS has been completed and a final nonconfirmation has been issued. If the employee does not choose to contest a tentative nonconfirmation or a photo mismatch or if a secondary verification is completed and a final nonconfirmation is issued, then the Employer can find the employee is not work authorized and terminate the employee's employment. Employers or employees with questions about a final nonconfirmation may call E-Verify at 1-888-464-4218 (customer service) or 1-888-897-7781 (worker hotline).

14. The Employer agrees to comply with Title VII of the Civil Rights Act of 1964 and section 274B of the INA as applicable by not discriminating unlawfully against any individual in hiring, firing, employment eligibility verification, or recruitment or referral practices because of his or her national origin or citizenship status, or by committing discriminatory documentary practices. The Employer understands that such illegal practices can include selective verification or use of E-Verify except as provided in part D below, or discharging or refusing to hire employees because they appear or sound "foreign" or have received tentative nonconfirmations. The Employer further understands that any violation of the immigration-related unfair employment practices provisions in section 274B of the INA could subject the Employer to civil penalties, back pay awards, and other sanctions, and violations of Title VII could subject the Employer to back pay awards, compensatory and punitive damages. Violations of either section 274B of the INA or Title VII may also lead to the termination of its participation in E-Verify. If the Employer has any questions relating to the anti-discrimination provision, it should contact OSC at 1-800-255-8155 or 1-800-237-2515 (TDD).

15. The Employer agrees that it will use the information it receives from E-Verify only to confirm the employment eligibility of employees as authorized by this MOU. The Employer agrees that it will safeguard this information, and means of access to it (such as PINS and passwords), to ensure that it is not used for any other purpose and as necessary to protect its confidentiality, including ensuring that it is not disseminated to any person other than employees of the Employer who are authorized to perform the Employer's responsibilities under this MOU, except for such dissemination as may be authorized in advance by SSA or DHS for legitimate purposes.

16. The Employer agrees to notify DHS immediately in the event of a breach of personal information. Breaches are defined as loss of control or unauthorized access to E-Verify personal data. All suspected or confirmed breaches should be reported by calling 1-888-464-4218 or via email at E-Verify@dhs.gov. Please use "Privacy Incident – Password" in the subject line of your email when sending a breach report to E-Verify.

17. The Employer acknowledges that the information it receives from SSA is governed by the Privacy Act (5 U.S.C. § 552a(i)(1) and (3)) and the Social Security Act (42 U.S.C. 1306(a)). Any person who obtains this information under false pretenses or uses it for any purpose other than as provided for in this MOU may be subject to criminal penalties.

18. The Employer agrees to cooperate with DHS and SSA in their compliance monitoring and evaluation of E-Verify, which includes permitting DHS, SSA, their contractors and other agents, upon

reasonable notice, to review Forms I-9 and other employment records and to interview it and its employees regarding the Employer's use of E-Verify, and to respond in a prompt and accurate manner to DHS requests for information relating to their participation in E-Verify.

19. The Employer shall not make any false or unauthorized claims or references about its participation in E-Verify on its website, in advertising materials, or other media. The Employer shall not describe its services as federally-approved, federally-certified, or federally-recognized, or use language with a similar intent on its website or other materials provided to the public. Entering into this MOU does not mean that E-Verify endorses or authorizes your E-Verify services and any claim to that effect is false.

20. The Employer shall not state in its website or other public documents that any language used therein has been provided or approved by DHS, USCIS or the Verification Division, without first obtaining the prior written consent of DHS.

21. The Employer agrees that E-Verify trademarks and logos may be used only under license by DHS/USCIS (see M-795 (Web)) and, other than pursuant to the specific terms of such license, may not be used in any manner that might imply that the Employer's services, products, websites, or publications are sponsored by, endorsed by, licensed by, or affiliated with DHS, USCIS, or E-Verify.

22. The Employer understands that if it uses E-Verify procedures for any purpose other than as authorized by this MOU, the Employer may be subject to appropriate legal action and termination of its participation in E-Verify according to this MOU.

B. RESPONSIBILITIES OF FEDERAL CONTRACTORS

1. If the Employer is a Federal contractor with the FAR E-Verify clause subject to the employment verification terms in Subpart 22.18 of the FAR, it will become familiar with and comply with the most current version of the E-Verify User Manual for Federal Contractors as well as the E-Verify Supplemental Guide for Federal Contractors.

2. In addition to the responsibilities of every employer outlined in this MOU, the Employer understands that if it is a Federal contractor subject to the employment verification terms in Subpart 22.18 of the FAR it must verify the employment eligibility of any "employee assigned to the contract" (as defined in FAR 22.1801). Once an employee has been verified through E-Verify by the Employer, the Employer may not create a second case for the employee through E-Verify.

a. An Employer that is not enrolled in E-Verify as a Federal contractor at the time of a contract award must enroll as a Federal contractor in the E-Verify program within 30 calendar days of contract award and, within 90 days of enrollment, begin to verify employment eligibility of new hires using E-Verify. The Employer must verify those employees who are working in the United States, whether or not they are assigned to the contract. Once the Employer begins verifying new hires, such verification of new hires must be initiated within three business days after the hire date. Once enrolled in E-Verify as a Federal contractor, the Employer must begin verification of employees assigned to the contract within 90 calendar days after the date of enrollment or within 30 days of an employee's assignment to the contract, whichever date is later.

b. Employers enrolled in E-Verify as a Federal contractor for 90 days or more at the time of a contract award must use E-Verify to begin verification of employment eligibility for new hires of the Employer who are working in the United States, whether or not assigned to the contract, within three business days after the date of hire. If the Employer is enrolled in E-Verify as a Federal contractor for 90 calendar days or less at the time of contract award, the Employer must, within 90 days of enrollment, begin to use E-Verify to initiate verification of new hires of the contractor who are working in the United States, whether or not assigned to the contract. Such verification of new hires must be initiated within three business days after the date of hire. An Employer enrolled as a Federal contractor in E-Verify must begin verification of each employee assigned to the contract within 90 calendar days after date of contract award or within 30 days after assignment to the contract, whichever is later.

c. Federal contractors that are institutions of higher education (as defined at 20 U.S.C. 1001(a)), state or local governments, governments of Federally recognized Indian tribes, or sureties performing under a takeover agreement entered into with a Federal agency under a performance bond may choose to only verify new and existing employees assigned to the Federal contract. Such Federal contractors may, however, elect to verify all new hires, and/or all existing employees hired after November 6, 1986. Employers in this category must begin verification of employees assigned to the contract within 90 calendar days after the date of enrollment or within 30 days of an employee's assignment to the contract, whichever date is later.

d. Upon enrollment, Employers who are Federal contractors may elect to verify employment eligibility of all existing employees working in the United States who were hired after November 6, 1986, instead of verifying only those employees assigned to a covered Federal contract. After enrollment, Employers must elect to verify existing staff following DHS procedures and begin E-Verify verification of all existing employees within 180 days after the election.

e. The Employer may use a previously completed Form I-9 as the basis for creating an E-Verify case for an employee assigned to a contract as long as:

i. That Form I-9 is complete (including the SSN) and complies with Article II.A.6,

ii. The employee's work authorization has not expired, and

iii. The Employer has reviewed the Form I-9 information either in person or in communications with the employee to ensure that the employee's Section 1, Form I-9 attestation has not changed (including, but not limited to, a lawful permanent resident alien having become a naturalized U.S. citizen).

f. The Employer shall complete a new Form I-9 consistent with Article II.A.6 or update the previous Form I-9 to provide the necessary information if:

i. The Employer cannot determine that Form I-9 complies with Article II.A.6,

ii. The employee's basis for work authorization as attested in Section 1 has expired or changed, or

iii. The Form I-9 contains no SSN or is otherwise incomplete.

Note: If Section 1 of Form I-9 is otherwise valid and up-to-date and the form otherwise complies with

Article II.C.5, but reflects documentation (such as a U.S. passport or Form I-551) that expired after completing Form I-9, the Employer shall not require the production of additional documentation, or use the photo screening tool described in Article II.A.5, subject to any additional or superseding instructions that may be provided on this subject in the E-Verify User Manual.

g. The Employer agrees not to require a second verification using E-Verify of any assigned employee who has previously been verified as a newly hired employee under this MOU or to authorize verification of any existing employee by any Employer that is not a Federal contractor based on this Article.

3. The Employer understands that if it is a Federal contractor, its compliance with this MOU is a performance requirement under the terms of the Federal contract or subcontract, and the Employer consents to the release of information relating to compliance with its verification responsibilities under this MOU to contracting officers or other officials authorized to review the Employer's compliance with Federal contracting requirements.

C. RESPONSIBILITIES OF SSA

1. SSA agrees to allow DHS to compare data provided by the Employer against SSA's database. SSA sends DHS confirmation that the data sent either matches or does not match the information in SSA's database.

2. SSA agrees to safeguard the information the Employer provides through E-Verify procedures. SSA also agrees to limit access to such information, as is appropriate by law, to individuals responsible for the verification of Social Security numbers or responsible for evaluation of E-Verify or such other persons or entities who may be authorized by SSA as governed by the Privacy Act (5 U.S.C. § 552a), the Social Security Act (42 U.S.C. 1306(a)), and SSA regulations (20 CFR Part 401).

3. SSA agrees to provide case results from its database within three Federal Government work days of the initial inquiry. E-Verify provides the information to the Employer.

4. SSA agrees to update SSA records as necessary if the employee who contests the SSA tentative nonconfirmation visits an SSA field office and provides the required evidence. If the employee visits an SSA field office within the eight Federal Government work days from the date of referral to SSA, SSA agrees to update SSA records, if appropriate, within the eight-day period unless SSA determines that more than eight days may be necessary. In such cases, SSA will provide additional instructions to the employee. If the employee does not visit SSA in the time allowed, E-Verify may provide a final nonconfirmation to the employer.

Note: If an Employer experiences technical problems, or has a policy question, the employer should contact E-Verify at 1-888-464-4218.

D. RESPONSIBILITIES OF DHS

1. DHS agrees to provide the Employer with selected data from DHS databases to enable the Employer to conduct, to the extent authorized by this MOU:

a. Automated verification checks on alien employees by electronic means, and

b. Photo verification checks (when available) on employees.

2. DHS agrees to assist the Employer with operational problems associated with the Employer's participation in E-Verify. DHS agrees to provide the Employer names, titles, addresses, and telephone numbers of DHS representatives to be contacted during the E-Verify process.

3. DHS agrees to provide to the Employer with access to E-Verify training materials as well as an E-Verify User Manual that contain instructions on E-Verify policies, procedures, and requirements for both SSA and DHS, including restrictions on the use of E-Verify.

4. DHS agrees to train Employers on all important changes made to E-Verify through the use of mandatory refresher tutorials and updates to the E-Verify User Manual. Even without changes to E-Verify, DHS reserves the right to require employers to take mandatory refresher tutorials.

5. DHS agrees to provide to the Employer a notice, which indicates the Employer's participation in E-Verify. DHS also agrees to provide to the Employer anti-discrimination notices issued by the Office of Special Counsel for Immigration-Related Unfair Employment Practices (OSC), Civil Rights Division, U.S. Department of Justice.

6. DHS agrees to issue each of the Employer's E-Verify users a unique user identification number and password that permits them to log in to E-Verify.

7. DHS agrees to safeguard the information the Employer provides, and to limit access to such information to individuals responsible for the verification process, for evaluation of E-Verify, or to such other persons or entities as may be authorized by applicable law. Information will be used only to verify the accuracy of Social Security numbers and employment eligibility, to enforce the INA and Federal criminal laws, and to administer Federal contracting requirements.

8. DHS agrees to provide a means of automated verification that provides (in conjunction with SSA verification procedures) confirmation or tentative nonconfirmation of employees' employment eligibility within three Federal Government work days of the initial inquiry.

9. DHS agrees to provide a means of secondary verification (including updating DHS records) for employees who contest DHS tentative nonconfirmations and photo mismatch tentative nonconfirmations. This provides final confirmation or nonconfirmation of the employees' employment eligibility within 10 Federal Government work days of the date of referral to DHS, unless DHS determines that more than 10 days may be necessary. In such cases, DHS will provide additional verification instructions.

ARTICLE III
REFERRAL OF INDIVIDUALS TO SSA AND DHS

A. REFERRAL TO SSA

1. If the Employer receives a tentative nonconfirmation issued by SSA, the Employer must print the notice as directed by E-Verify. The Employer must promptly notify employees in private of the finding and provide them with the notice and letter containing information specific to the employee's E-Verify

case. The Employer also agrees to provide both the English and the translated notice and letter for employees with limited English proficiency to employees. The Employer agrees to provide written referral instructions to employees and instruct affected employees to bring the English copy of the letter to the SSA. The Employer must allow employees to contest the finding, and not take adverse action against employees if they choose to contest the finding, while their case is still pending.

2. The Employer agrees to obtain the employee's response about whether he or she will contest the tentative nonconfirmation as soon as possible after the Employer receives the tentative nonconfirmation. Only the employee may determine whether he or she will contest the tentative nonconfirmation.

3. After a tentative nonconfirmation, the Employer will refer employees to SSA field offices only as directed by E-Verify. The Employer must record the case verification number, review the employee information submitted to E-Verify to identify any errors, and find out whether the employee contests the tentative nonconfirmation. The Employer will transmit the Social Security number, or any other corrected employee information that SSA requests, to SSA for verification again if this review indicates a need to do so.

4. The Employer will instruct the employee to visit an SSA office within eight Federal Government work days. SSA will electronically transmit the result of the referral to the Employer within 10 Federal Government work days of the referral unless it determines that more than 10 days is necessary.

5. While waiting for case results, the Employer agrees to check the E-Verify system regularly for case updates.

6. The Employer agrees not to ask the employee to obtain a printout from the Social Security Administration number database (the Numident) or other written verification of the SSN from the SSA.

B. REFERRAL TO DHS

1. If the Employer receives a tentative nonconfirmation issued by DHS, the Employer must promptly notify employees in private of the finding and provide them with the notice and letter containing information specific to the employee's E-Verify case. The Employer also agrees to provide both the English and the translated notice and letter for employees with limited English proficiency to employees. The Employer must allow employees to contest the finding, and not take adverse action against employees if they choose to contest the finding, while their case is still pending.

2. The Employer agrees to obtain the employee's response about whether he or she will contest the tentative nonconfirmation as soon as possible after the Employer receives the tentative nonconfirmation. Only the employee may determine whether he or she will contest the tentative nonconfirmation.

3. The Employer agrees to refer individuals to DHS only when the employee chooses to contest a tentative nonconfirmation.

4. If the employee contests a tentative nonconfirmation issued by DHS, the Employer will instruct the

employee to contact DHS through its toll-free hotline (as found on the referral letter) within eight Federal Government work days.

5. If the Employer finds a photo mismatch, the Employer must provide the photo mismatch tentative nonconfirmation notice and follow the instructions outlined in paragraph 1 of this section for tentative nonconfirmations, generally.

6. The Employer agrees that if an employee contests a tentative nonconfirmation based upon a photo mismatch, the Employer will send a copy of the employee's Form I-551, Form I-766, U.S. Passport, or passport card to DHS for review by:

a. Scanning and uploading the document, or

b. Sending a photocopy of the document by express mail (furnished and paid for by the employer).

7. The Employer understands that if it cannot determine whether there is a photo match/mismatch, the Employer must forward the employee's documentation to DHS as described in the preceding paragraph. The Employer agrees to resolve the case as specified by the DHS representative who will determine the photo match or mismatch.

8. DHS will electronically transmit the result of the referral to the Employer within 10 Federal Government work days of the referral unless it determines that more than 10 days is necessary.

9. While waiting for case results, the Employer agrees to check the E-Verify system regularly for case updates.

ARTICLE IV
SERVICE PROVISIONS

A. NO SERVICE FEES

1. SSA and DHS will not charge the Employer for verification services performed under this MOU. The Employer is responsible for providing equipment needed to make inquiries. To access E-Verify, an Employer will need a personal computer with Internet access.

ARTICLE V
MODIFICATION AND TERMINATION

A. MODIFICATION

1. This MOU is effective upon the signature of all parties and shall continue in effect for as long as the SSA and DHS operates the E-Verify program unless modified in writing by the mutual consent of all parties.

2. Any and all E-Verify system enhancements by DHS or SSA, including but not limited to E-Verify checking against additional data sources and instituting new verification policies or procedures, will be covered under this MOU and will not cause the need for a supplemental MOU that outlines these changes.

B. TERMINATION

1. The Employer may terminate this MOU and its participation in E-Verify at any time upon 30 days prior written notice to the other parties.

2. Notwithstanding Article V, part A of this MOU, DHS may terminate this MOU, and thereby the Employer's participation in E-Verify, with or without notice at any time if deemed necessary because of the requirements of law or policy, or upon a determination by SSA or DHS that there has been a breach of system integrity or security by the Employer, or a failure on the part of the Employer to comply with established E-Verify procedures and/or legal requirements. The Employer understands that if it is a Federal contractor, termination of this MOU by any party for any reason may negatively affect the performance of its contractual responsibilities. Similarly, the Employer understands that if it is in a state where E-Verify is mandatory, termination of this by any party MOU may negatively affect the Employer's business.

3. An Employer that is a Federal contractor may terminate this MOU when the Federal contract that requires its participation in E-Verify is terminated or completed. In such cases, the Federal contractor must provide written notice to DHS. If an Employer that is a Federal contractor fails to provide such notice, then that Employer will remain an E-Verify participant, will remain bound by the terms of this MOU that apply to non-Federal contractor participants, and will be required to use the E-Verify procedures to verify the employment eligibility of all newly hired employees.

4. The Employer agrees that E-Verify is not liable for any losses, financial or otherwise, if the Employer is terminated from E-Verify.

ARTICLE VI
PARTIES

A. Some or all SSA and DHS responsibilities under this MOU may be performed by contractor(s), and SSA and DHS may adjust verification responsibilities between each other as necessary. By separate agreement with DHS, SSA has agreed to perform its responsibilities as described in this MOU.

B. Nothing in this MOU is intended, or should be construed, to create any right or benefit, substantive or procedural, enforceable at law by any third party against the United States, its agencies, officers, or employees, or against the Employer, its agents, officers, or employees.

C. The Employer may not assign, directly or indirectly, whether by operation of law, change of control or merger, all or any part of its rights or obligations under this MOU without the prior written consent of DHS, which consent shall not be unreasonably withheld or delayed. Any attempt to sublicense, assign, or transfer any of the rights, duties, or obligations herein is void.

D. Each party shall be solely responsible for defending any claim or action against it arising out of or related to E-Verify or this MOU, whether civil or criminal, and for any liability wherefrom, including (but not limited to) any dispute between the Employer and any other person or entity regarding the applicability of Section 403(d) of IIRIRA to any action taken or allegedly taken by the Employer.

E. The Employer understands that its participation in E-Verify is not confidential information and may be disclosed as authorized or required by law and DHS or SSA policy, including but not limited to,

Congressional oversight, E-Verify publicity and media inquiries, determinations of compliance with Federal contractual requirements, and responses to inquiries under the Freedom of Information Act (FOIA).

F. The individuals whose signatures appear below represent that they are authorized to enter into this MOU on behalf of the Employer and DHS respectively. The Employer understands that any inaccurate statement, representation, data or other information provided to DHS may subject the Employer, its subcontractors, its employees, or its representatives to: (1) prosecution for false statements pursuant to 18 U.S.C. 1001 and/or; (2) immediate termination of its MOU and/or; (3) possible debarment or suspension.

G. The foregoing constitutes the full agreement on this subject between DHS and the Employer.

To be accepted as an E-Verify participant, you should only sign the Employer's Section of the signature page. If you have any questions, contact E-Verify at 1-888-464-4218.

Contract No. 2025-01

EXHIBIT A
SCOPE OF SERVICES

The Scope of Services are those contained in Section 2 of the RFQ, attached hereto and incorporated herein by reference.

2.1 PROJECT DESCRIPTION:

The Village of Key Biscayne seeks a qualified firm to provide comprehensive grant administration support services. The firm will assist the Village in administering various grants and loans, ranging from local, state, and federal levels, including but not limited to:

- FDOT (Florida Department of Transportation)
- Miami-Dade County TPO
- FDEP (Florida Department of Environmental Protection)
- FDEP CWSRF (Clean Water State Revolving Loan Fund)
- FDEM (Florida Division of Emergency Management)
- FEMA Hazard Mitigation Grant Program (HMGP)
- Federal Community Funding Projects / Environmental Protection Agency (EPA)
- Miami-Dade County Road Impact Fee/Multi-modal Fee (RIF/MMF) Joint Partnership Agreements (JPA)

These services will ensure compliance with grant requirements and optimize financial management of grant funds.

2.2 KEY RESPONSIBILITIES

1. Grant Reporting and Documentation
   - Prepare and submit required reports to grant issuing agencies.
   - Maintain accurate records of grant activities, including performance metrics, spending, and outcomes.
   - Track progress of grant-funded projects and prepare progress reports for Village Staff and leadership as needed.
   - When necessary, compile internal Village of Key Biscayne Staff hours worked for reimbursement.
2. Compliance Management
   - Ensure compliance with all local, state, and federal regulations regarding grants, including procurement and financial management standards.
   - Advise the Village on necessary procurement requirements and contract provisions for goods and services funded with grant dollars based on grant funding source (state, federal, etc.) prior to grant application submission.
   - Coordinate responses to requests for information (RFIs) or audits from grant administrators.
3. Reimbursement Management and Invoicing
   - Track and manage invoices related to grant-funded projects to ensure timely submission and payment.
   - Submit reimbursement requests. Compile supporting documentation such as invoices, receipts, and other proof of expenditures.

4. Grant Tracking and Financial Management
    - Adapt and improve upon the Village's current grant tracking system to manage grant timelines, key deadlines, deliverables, and financial data.
    - Track and report on the financial status of each grant, including funds remaining, funds spent, funds received in reimbursement, and outstanding reimbursements.
5. Grant Opportunity Evaluation and Identification
    - Monitor and track changes in grant program priorities and goals and advise the Village on how to adapt to these changes to remain competitive.
    - Research and evaluate potential grant opportunities that align with the Village's strategic goals, projects, annual budget cycle, and funding needs.
    - Assist the Village in preparing applications for new grants, including gathering required documents, developing grant narratives, and project descriptions.
6. Meeting Attendance
    - Attend Council meetings upon request.
    - Attend staff meetings upon request.

2.3 REQUIRED QUALIFICATIONS:

- At least five years' experience administering a variety of grant types, including Federal, State and local agency grants.
- Proven record of managing large-scale, multi-year grants, including complex reimbursement processes where a project may have several grants attached to different components of it.
- In-depth knowledge of requirements of using federal and state dollars related to procurement, financial reporting, and compliance. Strong knowledge of Federal Compliance including 2 CFR Part 200.
- Familiarity with granting agency reporting platforms such as FEMA GO, Grants.gov, etc.
- Ability to manage multiple grants simultaneously, ensuring timely completion of reporting and reimbursement requests.
- Experience creating and managing internal tracking systems to stay ahead of deadlines and ensure compliance.
- Ability to function as liaison between Village staff, project managers, and other consultants to gather necessary data and documents for grant management.

2.4 SCOPE OF ANNUAL SERVICES TO BE PROVIDED:

This contract aims to support Village staff in managing and administering specific grant awards, easing the administrative load associated with these projects. The Village currently has about 20 active grants constantly evaluates grant pursuit opportunities. As the Village continues to secure awards, this contract will ensure that dedicated resources are available to manage awarded grants effectively. This approach allows the Village to maintain focus on pursuing new opportunities while efficiently administering the existing grants. In addition to the Key Responsibilities listed above, the following deliverables will be included in this scope of work.

2.4.1 Contract Deliverables (Year 1 of Contract)

- Grant reimbursement tracking system

Public Entity Crimes Affidavit

I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentations.

I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime; or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, and partners, shareholders, employees, members, and agents who are active in management of an entity.

Based on information and belief, the statement, which I have marked below, is true in relations to the entity submitting this sworn statement.

(INDICATE WHICH STATEMENT APPLIES.)

[X] Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with ad convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives partners, shareholders, employees, members, or agents who are active in the management of the entity,

or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida , Division of Administrative Hearings and the final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list (attach a copy of the final order).

I understand that the submission of this form to the contracting officer for the public entity identified in paragraph 1 above is for that public entity only and that this form is valid through December 31 of the calendar year in which it is filed. I also understand that I am required to inform the public entity prior to entering into a contract in excess of the threshold amount provided in Section 287.017, Florida Statutes for category two of any change in the information contained in this form.

Proposer Initials

No Conflict of Interest or Contingent Fee Affidavit

Proposer warrants that neither it nor any principal, employee, agent, representative nor family member has paid or will pay any fee or consideration that is contingent on the award or execution of a contract arising out of this solicitation. Proposer also warrants that neither it nor any principal, employee, agent, representative nor family member has procured or attempted to procure this contract in violation of any of the provisions of the Miami-Dade County conflict of interest or code of ethics ordinances. Further, Proposer acknowledges that any violation of these warrants will result in the termination of the contract and forfeiture of funds paid or to be paid to the Proposer should the Proposer be selected for the performance of this contract.

Proposer Initials

Business Entity Affidavit

Proposer hereby recognizes and certifies that no elected official, board member, or employee of the Village of Key Biscayne (the " Village") shall have a financial interest directly or indirectly in this transaction or any compensation to be paid under or through this transaction, and further, that no Village employee, nor any elected or appointed officer (including Village board members) of the Village, nor any spouse, parent or child of such employee or elected or appointed officer of the Village, may be a partner, officer, director or proprietor of Proposer or Vendor, and further, that no such Village employee or elected or appointed officer, or the spouse, parent or child of any of them, alone or in combination, may have a material interest in the Vendor or Proposer. Material interest means direct or indirect ownership of more than 5% of the total assets or capital stock of the Proposer. Any exception to these above-described

restrictions must be expressly provided by applicable law or ordinance and be confirmed in writing by Village. Further, Proposer recognizes that with respect to this transaction or bid, if any Proposer violates or is a party to a violation of the ethics ordinances or rules of the Village, the provisions of Miami-Dade County Code Section 2-11.1, as applicable to Village, or the provisions of Chapter 112, part III, Fla. Stat., the Code of Ethics for Public Officers and Employees, such Proposer may be disqualified from furnishing the goods or services for which the bid or proposal is submitted and may be further disqualified from submitting any future bids or proposals for goods or services to Village.

Proposer Initials

Anti-Collusion Affidavit

1. Proposer/Bidder has personal knowledge of the matters set forth in its Proposal/Bid and is fully informed respecting the preparation and contents of the attached Proposal/Bid and all pertinent circumstances respecting the Proposal/Bid;
2. The Proposal/Bid is genuine and is not a collusive or sham Proposal/Bid; and
3. Neither the Proposer/Bidder nor any of its officers, partners, owners, agents, representatives, employees, or parties in interest, including Affiant, has in any way colluded, conspired, connived, or agreed, directly or indirectly with any other Proposer/Bidder, firm, or person to submit a collusive or sham Proposal/Bid, or has in any manner, directly or indirectly, sought by agreement or collusion or communication or conference with any other Proposer/Bidder, firm, or person to fix the price or prices in the attached Proposal/Bid or of any other Proposer/Bidder, or to fix any overhead, profit, or cost element of the Proposal/Bid price or the Proposal/Bid price of any other Proposer/Bidder, or to secure through any collusion, conspiracy, connivance or unlawful agreement any advantage against the Village of Key Biscayne or any person interested in the proposed Contract.

Proposer Initials

Scrutinized Company Certification

1. Proposer certifies that it and its subcontractors are not on the Scrutinized Companies that Boycott Israel List. Pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer or its subcontractors are found to have submitted a false certification; or if the Proposer, or its subcontractors are placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
2. If the Agreement that may result from this ITB is for more than one million dollars, the Proposer certifies that it and its subcontractors are also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer, its affiliates, or its subcontractors are found to have submitted a false certification; or if the Proposer, its affiliates, or its subcontractors are placed on the Scrutinized

Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

3. The Proposer agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under the Agreement that may result from this ITB. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize the above-stated contracting prohibitions then they shall become inoperative.

Proposer Initials

Acknowledgment, Warranty, and Acceptance

1. CONTRACTOR warrants that it is willing and able to comply with all applicable state of Florida laws, rules and regulations.
2. CONTRACTOR warrants that it has read, understands, and is willing to comply with all requirements of **RFQ # 2025-01 VILLAGE OF KEY BISCAYNE GRANT ADMINISTRATION SUPPORT SERVICES** and any addendum/addenda related thereto.
3. CONTRACTOR warrants that it will not delegate or subcontract its responsibilities under an agreement without the prior written permission of the Village Council or Village Manager, as applicable.
4. CONTRACTOR warrants that all information provided by it in connection with this Proposal is true and accurate.

Proposer Initials

Truth in Negotiation Certification

The CONTRACTOR hereby certifies, covenants, and warrants that wage rates and other factual unit costs supporting the compensation for this project's agreement are accurate, complete, and current at the time of contracting.

The CONTRACTOR further agrees that the original agreement price and any additions thereto shall be adjusted to exclude any significant sums by which the Village determines the agreement price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such agreement adjustments shall be made within (1) year following the end of the contract. For purposes of this certificate, the end of the agreement shall be deemed to be the date of the final billing or acceptance of the work by the Village, whichever is later.

DRUG FREE WORKPLACE

The undersigned proposer in accordance with Chapter 287.087, Florida Statutes, hereby certifies that

BellTower Consulting Group, LLC does:

(Name of proposer)

1. Publish a statement notifying employees that the unlawful manufacturing, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the contractual services described in the RFQ document a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the contractual services described in the RFQ or the Agreement, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

7. As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

RE: RFQ # 2025-01, Grant Administration Support Services

To the Review Committee:

Thank you for considering BellTower Consulting Group, LLC for your grant writing needs. Our team stands ready to guide the Village of Key Biscayne through every step of the grant-seeking process. Since 2009, our team has provided grant writing and support services to local governments in Florida with excellent results. Our clients have secured over **$150 million in critical Federal, State, Local, and Private grant funding**.

BellTower specializes in helping cities and counties navigate the full grant lifecycle. BellTower's team can quickly assist the Village in identifying grants to match its strategic priorities. Since BellTower focuses on supporting local governments in Florida, we are keenly aware of available grant opportunities and have established a working rapport with many of the contract managers of the State's top funding agencies. Additionally, BellTower supports local governments with strategic planning, policy and procedure development, state revolving loan fund reporting, legislative appropriation requests, post-award management, and monitoring new developments associated with the flow of federal funding, such as the Bipartisan Infrastructure Law and the Inflation Reduction Act.

BellTower's subcontractor, RJ Behar & Company, Inc., strengthens our capability to assist in administering the Village's grant-funded projects. RJ Behar delivers expertise in civil planning, engineering, and grant management of construction projects. Its team can also prepare technical documents for grant applications (such as benefit-cost analysis, preliminary design cost estimates, preparation of project schedules, or conceptual drawings). BellTower and RJ Bejar's experience with grant research, strategic planning, grant writing, compliance, project management, state and federal funds management, and technical implementation skills uniquely position us as a partner that the Village of Key Biscayne can rely on.

Letter of Transmittal

I am confident that BellTower can meet the Village's needs, as indicated in the Scope of Work. If you have any questions, please do not hesitate to contact me at (786)-232-0771 or via e-mail at lakeesha@BellTowergroup.org. Thank you in advance for your time and consideration.

Kind Regards,

LaKeesha Morris-Moreau, MSW, GPC*

B: Executive Summary

BellTower Consulting Group, LLC was incorporated in Florida on October 20, 2009, and is a single-member S-Corporation. At the helm of BellTower is a credentialed grant professional with nearly 25 years of experience, LaKeesha Morris-Moreau, MSW, GPC. In 2016, LaKeesha earned the Grant Professional Certified (GPC) designation, the only nationally accredited professional credential for individuals in the grants field. It is a clear mark of her experience, dedication, and success in the field.

LaKeesha now serves as the Vice President of the National Board of Directors for the Grant Professionals Certification Institute and GPC Exam Administration Chair. In this role, she aids in developing and maintaining the GPC exam and has the pleasure of being the first to welcome new credentialed grant professionals.

BellTower has a team of seven (7) staff members and is growing. It utilizes its entire team to support our clients. Grants are assigned based on the grant writer's expertise. BellTower is a full-service grant consultancy agency serving all city departments (Public Works, Police, Parks and Recreation, Library, Transit, etc.). BellTower supports the full lifecycle of the grant process, in many cases becoming the Grants Department for cities without dedicated personnel.

Belltower maintains contracts or has worked with the following local governments in Florida:

- Town of Cutler Bay
- Miami Shores Village
- City of Miami Springs
- City of Hallandale Beach
- City of North Miami Beach
- City of North Las Vegas Police Dept.
- City of Homestead
- City of Florida City
- City of South Miami
- City of North Miami
- Town of Miami Lakes
- City of Plantation
- North Bay Village
- Bay Harbor Islands
- Miami-Dade County Public Housing

BellTower excels in obtaining funding for municipal services and capital investments like those sought by the Village of Key Biscayne. BellTower regularly works with every city department to research and write grants. No project is too big or too small; grant awards have ranged from a $1,000 small police equipment purchase to a transformative $14,879,219 award for sewer system modernization. BellTower works with our clients to identify their funding priorities and tracks the flow of funding at the Federal, State, and Local levels. We then work with our client to develop a plan of action to increase the city's chances of winning the grant award.

Our proven approach to winning grants has resulted in funding awards in the following program areas:

- Rebuild Florida CDBG-Mitigation Program
- US Department of Environmental Protection Public Works Program
- Florida Department of Environmental Protection Parks and Recreation
- Florida Department of Environmental Protection Water Quality Grants
- Protecting Florida Together Water Quality/Resilient Florida Initiative
- Florida Department of Transportation – TAP Grant Complete Streets and Roadway Improvements & Beautification Projects
- Florida Department of Transportation – Public Transit, Traffic Safety, Vehicle Purchase
- Safe Routes to School
- US Department of Transportation Safe Streets for All
- US Department of Justice (Accreditation, Smart Policing, Body Worn Cameras)
- Hazard Mitigation Grant Program
- Hazard Loss Mitigation Grant Program
- Florida Department of State Library Funding
- National Fish and Wildlife– Resiliency and Sustainability
- South Florida Water Management District
- Florida Department of Commerce-Economic Development
- Florida Department of Emergency Management – Flood Mitigation Planning
- Energy Conservation, Efficiency, and Sustainability Initiative
- Programs for Youth and Older Adults
- Florida Communities Trust – Land Acquisition
- Community Development Block Grant
- Florida Inland Navigation District

BellTower does not desire to list any exceptions to this RFQ.

C: Qualifications & Experiences

BellTower thoroughly understands the scope of services outlined in the Village's RFQ for Grant Administration Support Services. Our team is well-versed in identifying and prioritizing grant funding needs, developing strategic plans for grant applications, and ensuring compliance with grant requirements. BellTower's experience with State and Federal grants aligns with the Village's funding priorities, and our proactive approach includes regular communication and detailed reporting. BellTower expertly manages the entire grant lifecycle, from research and writing to post-award administration, showcasing its capability to meet the Village's needs efficiently and effectively. Below are examples of grant awards and our role as grant writers, grant administrators, or both over the last five (5) years.

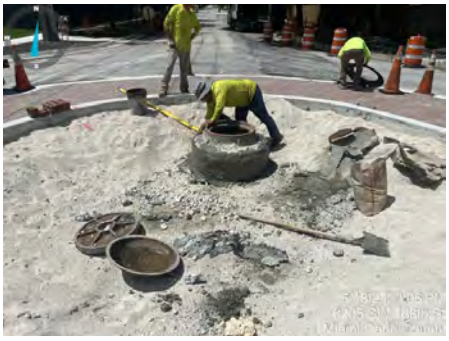
R.J. Behar & Company, Inc. (RJ Behar) was contracted by Kimley-Horn and Associates, Inc. and the Town of Cutler Bay to provide construction engineering inspections services for the SW 82nd Avenue Roadway Improvements and Traffic Roundabout Project. This project received Federal funding via the Florida Department of Transportation (FDOT) Local Agency Program (LAP). In addition to the inspection and coordination, RJ Behar facilitated providing the required information needed to ensure compliance with FDOT and the reimbursement process.

RJ Behar provided the services necessary to coordinate the activities of all parties involved in completing this project, which included maintaining records of the project events witnessed by our inspection staff; properly documenting any significant Project changes, assisting the Town with interpreting plans, specifications, and construction contract provisions; making recommendations to the Town to resolve disputes, maintaining an adequate level of surveillance of the Contractor's operations; and coordinating with FDOT to ensure compliance with their programs.

The project limits were Old Cutler Road to SW 184th Street on SW 82nd Avenue. The scope of the work consisted of storm drainage improvements (inlets, manholes, culverts, exfiltration trenches), the installation of 5' foot wide concrete sidewalks 6" thickness, ADA crosswalks, concrete curb and gutter, traffic circle SW 82nd Avenue and SW 188th Street, milling and resurfacing of the existing asphalt, signing and pavement markings, site restoration, back of sidewalk harmonization, and landscaping. Utilization of these services required close coordination with the Town.



Qualifications of Project Team

By partnering with BellTower Consulting Group and RJ Behar, the Village of Key Biscayne will bring all of its grant writing and administrative needs under one umbrella. We are delivering a full-service Grants Department with a combined 100 years of experience delivering for local governments in Florida.

We are committed to continuing education in the grants field. BellTower is a Grant Professionals Association member, allowing access to hundreds of relevant training webinars and resources. Employees responsible for grant management attend a Federal Grant Management Bootcamp, and BellTower maintains a library of resources and templates to aid in developing standard operating procedures. In addition, our team provides grant writing and management workshops at the local and national levels, training other grant professionals and grant writing novices.

Dear LaKeesha:

Congratulations! You have obtained the Grant Professional Certification and completed the requirements to work as a GPC practitioner.

The Grant Professional Certification (GPC) is designed to identify individuals with broad-based knowledge and real-world experience in the field of grantsmanship. The GPC will provide widely recognized affirmation of the GPC practitioner as a person of integrity whose broad interest is in building social capital and helping guide less knowledgeable stakeholders to become truly professional and altruistic practitioners.

You will receive an official notification letter with your certificate within the next few weeks. It will also be posted to our website by November 16, 2016. Your name will appear as: LaKeesha Morris-Moreau, Miami, FL. If you need to make a correction to the way your name is presented, please email me prior to that date.

I wish to be among the first to welcome you to the GPC family and on behalf of the board, send our sincerest congratulations for being a trailblazer within our profession. Your willingness to seek credentialing is a testament to your dedication to our work. We applaud and appreciate you!

Sincerely,

Bonnie Houk, GPC

R.J. Behar & Company, Inc.

RJ Behar was founded in 1999 as an S-Corporation in Florida to provide consulting engineering services to public sector clients. The firm has grown during that time to 34 employees. Its growth is based on providing quality services with a client-service-oriented approach. RJ Behar's services include:

- Grant Management & Assistance
- Transportation Engineering & Highway, Engineering
- Civil Engineering
- Traffic Engineering
- Structural Engineering
- Construction Engineering Management & Inspections
- Water Resources & Stormwater Master Planning
- Environmental Engineering

Grant Management Expertise - RJ Behar can take a project from obtaining the grant to constructing it. For example, the organization provided engineering support for the Town of Medley, Florida's Tobie Wilson Park Seawall grant application. The engineering support included the preparation of a preliminary design cost estimate, preliminary construction cost estimate, preparation of a preliminary schedule, and reviewing the grant application for compliance with the proposed design. The Florida Department of Environmental Protection (FDEP) awarded the funding request, and RJ Behar provided post-award support. RJ Behar completed plans for the seawall and performed a construction inspection to ensure it was built according to plans. Services also included acting as the project liaison for coordinating site inspections provided by the FDEP contract managers and preparing all programmatic and reimbursement reports, including the project close-out.

Engineering Expertise – RJ Behar's engineering inspectors hold various certifications from government agencies such as FDOT, FHWA, FDEP, FEMA, Mitigation Grants, and the United States Army Corps of Engineers. Some of these certifications are through the FDOT Construction Training Qualification Program (CTQP) program in Concrete, Asphalt, Drill Shafts, MSE Walls, Pile Driving, Quality Control, Maintenance of Traffic, and Stormwater inspection, including floating turbidity inspection for numerous water resource projects. When providing additional services concerning construction management, RJ Behar assists the City with the documentation needed to facilitate a seamless reimbursement process.

Experienced in Managing Major Construction Projects

RJ Behar specializes in the management of Community Development Block Grants (CDBG), State of Florida Local Programs (LAP), American Rescue Plan Act (ARPA), Federal Emergency Management Agency (FEMA), Florida Department of Environmental (FDEP) State Resilience Florida Program (SRF), Resilience and Coastal Protection, including LPA, SRF, Financial Readiness Program (FRP), and Mitigation (MT) Grants along with the various reporting requirements associated with these Grants. Professional services support for the Village's various grant projects will facilitate achieving full reimbursement.

The scope of work includes the following:

- Providing a Grant Project Manager to assist the Village's various departments with achieving compliance with the numerous grants the Village has either obtained or is in the process of obtaining funds from multiple agencies and their programs.
- Conducting research and compiling data for and preparing monthly, annual, and special reports.
- Assisting with coordinating the various phases of work for the grant being monitored.
- Reviewing the processes or supporting documentation for accuracy before transmitting the submittals to the benefactor.
- Assisting with preparing, formulating, and justifying all material necessary for the grant programs.
- Conducting complex and detailed reviews and analyses of the grant budget and allocating those funds against the funds expended by the Village during the construction phase, ensuring that reimbursement funds are received from the corresponding agency.
- Assisting in establishing and monitoring performance measures to identify and achieve desired outcomes strategically.
- Researching and responding to special funding opportunities requiring adherence to strict guidelines.
- Establishing a reporting process to monitor and maintain accountability to all funding sources, ensuring the Village follows and complies with all requirements of its respective grants.
- Assisting in representing the Village before the various funding sources when called upon to comply with the Federal requirements regarding bid packages, requests for proposals (RFPs), executed contracts, and monthly or quarterly reporting.
- Performing other related duties as requested and/or required.

Experience in Complying with Federal Funding and FEMA Reimbursements

During times of natural disasters, BellTower and RJ Behar's staff is available to support with expense recovery so that the Village of Key Biscayne can focus on public health and safety. RJ Behar provided funding criteria for compliance with the South Florida Water Management District (SFWMD) and Federal Emergency Management Agency (FEMA) Financial Assistance. SFWMD coordinated Hazard Mitigation Grant work and recovery work related to natural disasters. These events are typically declared presidential disasters and qualify the SFWMD for reimbursement of costs through FEMA. Audit-ready documentation was developed and maintained on a project-by-project basis in accordance with 44 CFR Parts 13, 14, and 206 and OMB Circular A-87 to qualify for reimbursement. The recovery and hazard mitigation began with a detailed post-disaster damage assessment, the creation of Project Worksheets (PWs) for each damaged site, cost tracking, and the final inspection and financial review to determine the total eligible costs for reimbursement. All the projects were subject to audit as required by the Single Audit Act of 1984 and could have been audited by the Federal government.

Florida Department of Transportation Local Agency Program (FDOT-LAP) Federal Certification Process

RJ Behar assisted the Town of Southwest Ranches, the Town of Davie, and the Town of Cutler Bay in obtaining the Florida Department of Transportation (FDOT) agencies' certification for Local Agency Program (LAP) funding of agency capital projects. Moreover, RJ Behar assisted the Town of Southwest Ranches in obtaining funding to construct the Stirling Road Loop Multipurpose Trail. The funding was obtained from the Metropolitan Planning Organization (MPO) and coordinated through FDOT and Broward County.

RJ Behar fully understands the importance of submitting the required documentation to meet the schedule guidelines and uphold LAP compliance. As part of the contract administration tasks, we will confirm the adequacy of the contract in all areas, including:

- LAP Agreement with FDOT
- Project Advertisement
- Competitive Bidding
- Award and Selection
- Required Contract Provisions
- Appropriate Wage Rate Tables
- DBE Participation

Operational Plan

BellTower and R.J. Behar seek to become an extension of the Village's team. When onboarding a new client, the grant consultant(s) assigned to the Village's first action step is to become familiar with the Village's website. This includes becoming familiar with the Village's Council and key staff members, existing grant resources, demographics, capital improvement projects, and available Master Plans (i.e., Multimodal Transportation Plan, Comprehensive Plan, Floodplain Plan, Parks and Recreation Master Plan, etc.). We believe that doing our homework improves efficiency during the grant writing process. BellTower's **Three-Step Framework** helps our clients navigate the full grant lifecycle.

I. Plan

BellTower Consulting Group will schedule a kick-off meeting with key members of the Village. Your grant consultants use this time to assess grant readiness. This phase includes identifying project priorities and status (shovel-ready projects, design phase projects, and matching funds availability). Within the first 30 days of service, BellTower will provide the designated Village staff member with a grant calendar or funding needs analysis aligned with the Village's project priorities and Capital Improvement Plan. The grant calendar will include a list of grant opportunities, funding levels, eligible projects, and a timeline for submittal. The Village is asked to review the grant calendar and determine which opportunities to pursue in the current fiscal year based on the project completion timeline and the funding source's scoring rubric.

The Village's grant calendar is a living document updated regularly as new opportunities are released, due dates are finalized, and priorities shift. When a grant on the grant calendar is released, a summary of the RFQ will be submitted to the Village (appropriate Department head) via e-mail. BellTower will also bring to the Village's attention any details to consider before agreeing to move forward with proposal development. This might include public involvement requirements, letters of support/approval from the County or state agencies, cost-share details, requirements for council approval, and scoring criteria.

Grant Research Strategies: BellTower uses multiple open-source and subscription-based grant research tools such as eCivis, GrantFinder, Grants.gov, and GrantStation.com. BellTower also maintains a database of grant opportunities based on our many years of experience in the grant writing field. BellTower uses this data to publish a monthly "Grants for Cities" e-newsletter curated by BellTower with grant opportunities based on identified funding priorities. Additionally, the Grant Writing Team meets each Friday to discuss grant opportunities that align with our clients' needs.

Another key part of Grant Research is understanding how the Village's projects align with regional and national goals and objectives. BellTower reviews strategic plans developed at the county, state, and federal levels to demonstrate project alignment and strengthen the Village's proposals. This research helps to identify opportunities for partnership and other pass-through grants.

When a grant is released at the federal level, the state might set a deadline earlier than the one advertised by the federal government or common grant databases such as those mentioned above. BellTower follows key state agencies to receive notifications directly and avoid missed opportunities to apply for pass-through funding.

An example template of a Grant Calendar for planning purposes:

Month to pursue	Funder	Project	Request Amount	Match	Due Date	Action / Notes
January	FDEP-LWCF	New City Park	$1.5 Million	$1$1	3/15/24	Requires public involvement phase; Requires Proof of Site Control

II. Create

The grant writing phase results in BellTower delivering grant proposals in compliant formats to the Village for submittal. BellTower's strategy for grant writing includes the following:

1. Project Kick-Off: Once the Village "green lights" an RFQ, BellTower will host a kick-off meeting to interview the key people involved. BellTower will collect any documents from the Village to understand the project fully. BellTower will also attend bidder's conferences (if available) and contact funders to clarify any questions about the grant submission process. BellTower will provide the Village with a checklist of application-specific items needed to complete the application and a timeline for project completion.

2. Write and Submit 1st Draft: BellTower will write the grant application following the specified RFQ requirements. Additionally, BellTower will identify opportunities for interagency collaboration, draft public notices, draft support letters, develop grant-related resolutions and agenda items, and prepare PowerPoint presentations or other documents needed to complete the application process. Once the first draft of the grant application and supporting documents are completed, they are submitted to the Village for review and approval. BellTower will make any requested edits until the grant is approved by the Village and ready for submission.

3. Submit Application to Funder: BellTower collates and labels all grant documents based on the funding agency's packaging requirements. It is the Village's responsibility to secure the necessary signatures. The Village submits the grant application to the funding agency with BellTower's guidance. Alternatively, the Village may give BellTower access to apply on behalf of the Village. A copy of the final application package and proof of submittal are provided to the Village for its records.

4. Follow-up: Sometimes, the funding agency requests additional information related to the grant application. These requests go directly to the Village. BellTower will provide technical assistance in responding to these requests. In addition, BellTower will track the status of the application until a funding decision is made.

III. Manage

The Grant Management and Administration Services phase results in BellTower and RJ Behar (the Grants Team) ensuring that the Village complies with post-award reporting requirements. Your grants team is available to provide on-demand technical assistance and staff training to ensure that the projects remain compliant with the grant requirements and that the Village draws down 100% of eligible expenses from the grant award. Here is an overview of BellTower's approach to developing a successful grant management program.

1. **Contract Execution:** The Grants Team will support Village Staff by completing the necessary documents (work plan, budget, attestation forms, match commitment forms, etc.) to allow the Funding Agency to develop the contract agreement. We can also prepare the Management Letter/Memo and Resolution to authorize the Village Manager to accept the grant award and enter into a contract agreement.

2. Project Orientation: We aim to ensure that the Village is supported in complying with the responsibilities listed in its grant contracts and is well prepared for the annual fiscal audits. BellTower conducts a project orientation to ensure the entire team is aware of key elements of the contract, project deliverables, project timelines, and documentation requirements.

If necessary, the Grants Team will assist the Village in developing a Grant Management Manual or updating its policies and procedures to comply with state or federal regulations. For example, the Grants Management Manual might include a fiscal compliance checklist, public notice templates, Section 3 compliance, ADA Compliance, Limited English Proficiency, Equal Employment Opportunity, Conflict of Interest, and Contractor Oversight. BellTower is also available to assist the engineering team and key personnel in developing bid documents that comply with state or federal regulations, understanding that funding guidelines flow to the Village's contractors and subcontractors. In addition, BellTower will work with the engineering team and key personnel to ensure that all contractors comply with the policies and procedures outlined in the bidding documents.

This task will be accomplished by any combination of strategies, such as providing an overview of compliance requirements during the kick-off meeting with vendor(s), developing checklists to share with the project team, and periodically conducting administrative monitoring of the vendors for compliance. All contractors and subcontractors must know the contract requirements to protect the Village from having its grant reimbursement requests denied due to non-compliance.

BellTower will attend any necessary meetings and work proactively with key personnel to ensure the team knows the data needed to complete progress reports, staffing reports, fiscal reports, and reimbursement requests. This information will be collected from key personnel regularly and compiled to complete the appropriate report forms. The completed report and backup documentation will be provided to the Village's project lead for submission to the funding agency.

3. Grant Reporting and Closeout: The Grants Team will facilitate the grant reporting and closeout process. This task includes compiling all deliverables identified in the Grant Agreement, collecting invoices and proof of payment, obtaining the Engineer's Certification, collecting project photographs, and filing other requested documents. The completed reports will be submitted to the Village's project lead for review, and once all authorized representatives approve it, it will be submitted to the funding agency. Finally, BellTower will provide the Village with a project folder containing all reports and documents prepared on behalf of the Village. The Village shall maintain all documents for five (5) years of project closeout or as indicated in each grant agreement.

Records Management Approach

Our approach to **records management is tailored to meet the needs of our clients.** BellTower has created a customized grant dashboard for our clients. It provides an easily accessible way for clients to keep track of grant-funded projects. The Village's dashboard will be branded with its logo and color scheme.

BellTower will work with the Village to identify any additional data tracking that needs to be added to the dashboard. The benefit of BellTower's system is that clients do not need to log in to a system to find the documents needed. The dashboard provides an easy-to-navigate snapshot of all grant-related activities and post-award reporting. From the dashboard, the Village will see the status of grant awards for each department, including the project work plan and timeline and how much money has been awarded vs. reimbursed to the Village.

The Village will have access to the software system to view its dashboard anytime. In addition to the dashboard, the project management tool serves as a repository for grant applications, contract agreements, and reports. During the grant management phase, BellTower communicates with the Village directly from the software system. The benefit of this is that all communications related to a particular grant project are maintained in the system, eliminating lost emails.

The Village can use this customized dashboard for all its grant projects, even if BellTower is not writing or administering it. Click the link to view a brief demonstration of the Customized Grant Dashboard.

Any person(s) or organization(s) for whom you have agreed in writing in a contract or agreement that such person(s) or organization(s) be added as an additional insured on your policy.

E-Mail Address:

A. **SECTION II – WHO IS AN INSURED** is amended to include as an additional insured the person(s) or organization(s) shown in the **SCHEDULE** above, but only with respect to liability for "bodily injury", "property damage", "personal and advertising injury" or "wrongful acts" caused, in whole or in part, by your acts or omissions or the acts or omissions of those acting on your behalf:

1. In the performance of your ongoing operations; or
2. In connection with your premises owned by or rented to you.

However:

1. The insurance afforded to such additional insured only applies to the extent permitted by law; and
2. If coverage provided to the additional insured is required by a contract or agreement, the insurance afforded to such additional insured will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

B. With respect to the insurance afforded to these additional insureds, the following is added to **LIMITS OF INSURANCE** section of the coverage form

If coverage provided to the additional insured is required by a contract or agreement, the most we will pay on behalf of the additional insured is the amount of insurance:

1. Required by the contract or agreement; or
2. Available under the applicable limits of insurance shown in the Declarations;

whichever is less.

C. If this policy is cancelled or nonrenewed for any reason, we will deliver notice of the cancellation or non-renewal to any Designated Person or Organization shown in the **SCHEDULE** above at the e-mail address shown above.

Request for Taxpayer Identification Number and Certification

Go to *www.irs.gov/FormW9* for instructions and the latest information.

Give form to the requester. Do not send to the IRS.

Before you begin. For guidance related to the purpose of Form W-9, see *Purpose of Form*, below.

Print or type. See ***Specific Instructions*** on page 3.

1 Name of entity/individual. An entry is required. (For a sole proprietor or disregarded entity, enter the owner's name on line 1, and enter the business/disregarded entity's name on line 2.)

Bell Tower Consulting Group, LLC

2 Business name/disregarded entity name, if different from above.

3a Check the appropriate box for federal tax classification of the entity/individual whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor ☐ C corporation ☐ S corporation ☐ Partnership ☐ Trust/estate

☑ LLC. Enter the tax classification (C = C corporation, S = S corporation, P = Partnership) . . . . . **S**

Note: Check the "LLC" box above and, in the entry space, enter the appropriate code (C, S, or P) for the tax classification of the LLC, unless it is a disregarded entity. A disregarded entity should instead check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) _____

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) _____

Exemption from Foreign Account Tax Compliance Act (FATCA) reporting code (if any) _____

(Applies to accounts maintained outside the United States.)

3b If on line 3a you checked "Partnership" or "Trust/estate," or checked "LLC" and entered "P" as its tax classification, and you are providing this form to a partnership, trust, or estate in which you have an ownership interest, check this box if you have any foreign partners, owners, or beneficiaries. See instructions . . . . . ☐

5 Address (number, street, and apt. or suite no.). See instructions.

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. See also *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and, generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they

Village Manager
Steven C. Williamson

MEMORANDUM

DATE: August 19, 2025

TO: Honorable Mayor and Councilmembers

FROM: Steven C. Williamson, Village Manager

RE: Sound, Stage, Lighting, and Equipment Rental Services Contract Agreements

RECOMMENDATION

Recommend the Village Council authorize the Village Manager to negotiate and enter into agreement with Reflections Productions, Signature Production Services, and Event Factor Inc. for sound, stage, lighting, and equipment rental services. The proposed agreements will each be for an initial three (3) year term with two (2) optional one-year extensions, in amounts not to exceed the approved annual budget.

DISCUSSION

Purpose: The agreements will support the Village's ability to host high-quality outdoor events and community programs by contracting with experienced vendors for sound systems, stage setups, lighting, and related equipment. These services are essential to ensuring high quality event production, public safety, and positive attendee experience. The procurement process established clear vendor responsibilities, including timely delivery, setup, on-site technical support, and coordination with Village staff for event execution.

Background: In response to the need for consistent, high-quality production services for Village-sponsored events, the Village issued Request for Proposals No. 2025-08 on April 29, 2025, seeking qualified production companies. The RFP was publicly advertised on the Village's website, Notice Board, DemandStar, and in the Miami Herald. A non-mandatory pre-bid meeting was held to provide vendors with a scope summary. Proposals were due by June 10, 2025.

Five proposals were received and evaluated by a committee of Village staff. Scoring was based on experience, qualifications, proposed service plan, and cost. After technical and financial evaluations, the top three ranked firms were Reflections Productions, Signature Production Services, and Event Factor Inc.

Justification: The recommendation is based on the Evaluation Committee's scoring, which ranked Reflections Productions, Signature Production Services, and Event Factor Inc. as the highest overall among five proposers. All three firms submitted complete and responsive

proposals, are licensed in the State of Florida, and demonstrated the qualifications, references, and technical capabilities required for Village events.

Although two other proposers submitted lower prices, they were not selected due to lower technical scores or incomplete documentation. For example, Stage Digital Advisors, despite offering competitive pricing, was not ranked in the top three due to a failure to respond to required questions and non-responsive references. The recommended firms offer the best combination of technical merit, reliability, and value.

Implementation/Integration Plan: The selected firms will be integrated into the Village's event planning process following execution of agreements. Reflections Productions and Signature Production Services will be the Village's primary providers for production services, with Event Factor Inc. serving as secondary provider in the event of scheduling conflicts, availability issues, or specific event needs. Vendors will coordinate with Parks and Recreation staff on logistics, setup, and on-site operations.

RESOURCE IMPACT

Recurring Funding: Expenses will remain within budget funding allocations – $85,000 annually.

Personnel: PROS staff will continue to coordinate and manage vendor logistics and event operations.

FUNDING SOURCES

Production services are funded through multiple Parks Department line items for community and cultural programming and events.

- ***GL Code**:* 001-72-572-48002, 001-72-572-48007, 001-72-572-48011, 001-72-572-48044, 001-72-572-48045
- ***Budget Line-Item**:* Community and Cultural Event, Winterfest, Concert Series, Lighthouse Run, Fall Festival, and the different Community Programs & Events.
- ***Amount**:* $60,000 to $100,000 annually

STRATEGIC CONNECTION (GOAL / FOCUS AREA)

Formalizing production service agreements supports Village goals for community engagement, improving the public event experience, and operational reliability.

RESOLUTION NO. 2025-_____

A RESOLUTION OF THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, SELECTING REFLECTIONS PRODUCTIONS, INC., THE GERSIL GROUP INC. D/B/A SIGNATURE PRODUCTION SERVICES, AND EVENT FACTOR, INC. FOR SOUND, STAGE, LIGHTING, AND EQUIPMENT RENTAL SERVICES ON AN AS-NEEDED BASIS; PROVIDING FOR AUTHORIZATION; PROVIDING FOR IMPLEMENTATION; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Village of Key Biscayne (the "Village") issued Request for Proposals No. 2025-08 (the "RFP") seeking proposals from vendors for sound systems, stage setups, lighting, and related equipment rental services on an as-needed basis (the "Services"); and

WHEREAS, five sealed proposals were received by the RFP deadline; and

WHEREAS, the Village Manager recommends that the Village Council select Reflections Productions, Inc., the Gersil Group Inc. d/b/a Signature Production Services, and Event Factor Inc. (collectively, the "Contractors") to provide the Services; and

WHEREAS, the Village Council desires to select the Contractors to perform the Services and authorize the Village Manager to negotiate and execute an agreement, in substantially the form attached hereto as Exhibit "A," with each of the Contractors; and

WHEREAS, the Village Council finds that this Resolution is in the best interest and welfare of the residents of the Village.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, AS FOLLOWS:

Section 1. Recitals. That each of the above-stated recitals are hereby adopted, confirmed, and incorporated herein.

Section 2. Selection. That the Village Council hereby selects the Contractors for the Services.

PROFESSIONAL SERVICES AGREEMENT

BETWEEN

THE VILLAGE OF KEY BISCAYNE

AND

NAME OF ENTITY

THIS AGREEMENT (this "Agreement") is made effective as of the _____ day of _____, 2025 (the "Effective Date"), by and between the **VILLAGE OF KEY BISCAYNE, FLORIDA,** a Florida municipal corporation, (the "Village"), and **NAME OF ENTITY**, a Florida [type of entity] (hereinafter, the "Consultant").

WHEREAS, on April 28, 2025, the Village issued Request for Proposals No. 2025-08 (the "RFP") seeking proposals from vendors for sound systems, stage setups, lighting, and related equipment rental services (the "Services"), all as set forth in greater detail in the Scope of Services attached hereto as Exhibit "A"; and

WHEREAS, on August 19, 2025, the Village Council adopted Resolution No. 2025-XX, selecting the Contractor for the provision of the Services; and

WHEREAS, the Consultant will perform the Services on behalf of the Village, all as further set forth in the Proposal, attached hereto as Exhibit "B"; and

WHEREAS, compensation for the provision of the Services shall be in accordance with the Rate Schedule attached hereto as Exhibit "C"; and

WHEREAS, the Village desires to engage the Consultant to perform the Services and provide the deliverables as specified below.

NOW, THEREFORE, in consideration of the mutual covenants and conditions contained herein, the Consultant and the Village agree as follows:

1. **Scope of Services.**

1.1. Consultant shall provide the Services set forth in the Scope of Services and the Consultant's Proposal attached hereto as Exhibits "A" and "B," respectively, and incorporated herein by this reference.

1.2. Consultant shall furnish all reports, documents, and information obtained pursuant to this Agreement, and recommendations during the term of this Agreement (hereinafter "Deliverables") to the Village.

2. **Term/Commencement Date.**

2.1. The term of this Agreement shall be from the Effective Date through three years thereafter, unless earlier terminated in accordance with Paragraph 8. Additionally, the Village Manager may renew this Agreement for two additional one year periods on the same terms as set forth herein upon written notice to the Consultant.

2.2. Consultant agrees that time is of the essence and Consultant shall complete the Services within the term of this Agreement, unless extended by the Village Manager.

3. Compensation and Payment.

3.1. Compensation for Services provided by Consultant shall be in accordance with Rate Schedule attached hereto as Exhibit "C."

3.2. Consultant shall deliver an invoice to Village no more often than once per month detailing Services completed and the amount due to Consultant under this Agreement. Fees shall be paid in arrears each month, pursuant to Consultant's invoice, which shall be based upon the percentage of work completed for each task invoiced. The Village shall pay the Consultant in accordance with the Florida Prompt Payment Act after approval and acceptance of the Services by the Village Manager.

3.3. Contractor's invoices must contain the following information for prompt payment:

3.3.1. Name and address of the Consultant;

3.3.2. Purchase Order number;

3.3.3. Contract number;

3.3.4. Date of invoice;

3.3.5. Invoice number (Invoice numbers cannot be repeated. Repeated invoice numbers will be rejected);

3.3.6. Name and type of Services;

3.3.7. Timeframe covered by the invoice; and

3.3.8. Total value of invoice.

Failure to include the above information will result in the delay of payment or rejection of the invoice. All invoices must be submitted electronically to payables@keybiscayne.fl.gov.

4. Subconsultants.

4.1. The Consultant shall be responsible for all payments to any subconsultants and shall maintain responsibility for all work related to the Services.

4.2. Consultant may only utilize the services of a particular subconsultant with the prior written approval of the Village Manager, which approval may be granted or withheld in the Village Manager's sole and absolute discretion.

5. Village's Responsibilities.

5.1. Village shall make available any maps, plans, existing studies, reports, staff and representatives, and other data pertinent to the Services and in possession of the Village,

DRAFT

and provide criteria requested by Consultant to assist Consultant in performing the Services.

5.2. Upon Consultant's request, Village shall reasonably cooperate in arranging access to public information that may be required for Consultant to perform the Services.

6. Consultant's Responsibilities; Representations and Warranties.

6.1. The Consultant shall exercise the same degree of care, skill and diligence in the performance of the Services as is ordinarily provided by a consultant under similar circumstances. If at any time during the term of this Agreement or within two (2) years from the completion of this Agreement, it is determined that the Consultant's Deliverables or Services are incorrect, not properly rendered, defective, or fail to conform to Village requests, the Consultant shall at Consultant's sole expense, immediately correct its Deliverables or Services.

6.2. The Consultant hereby warrants and represents that at all times during the term of this Agreement it shall maintain in good standing all required licenses, certifications and permits required under Federal, State and local laws applicable to and necessary to perform the Services for Village as an independent contractor of the Village. Consultant further warrants and represents that it has the required knowledge, expertise, and experience to perform the Services and carry out its obligations under this Agreement in a professional and first class manner.

6.3. The Consultant represents that is an entity validly existing and in good standing under the laws of Florida. The execution, delivery and performance of this Agreement by Consultant have been duly authorized, and this Agreement is binding on Consultant and enforceable against Consultant in accordance with its terms. No consent of any other person or entity to such execution, delivery and performance is required.

7. Conflict of Interest.

7.1. To avoid any conflict of interest or any appearance thereof, Consultant shall not, for the term of this Agreement, provide any consulting services to any private sector entities (developers, corporations, real estate investors, etc.), with any current, or foreseeable, adversarial issues in the Village.

8. Termination.

8.1. The Village Manager, without cause, may terminate this Agreement upon five (5) calendar days' written notice to the Consultant, or immediately with cause.

8.2. Upon receipt of the Village's written notice of termination, Consultant shall immediately stop work on the project unless directed otherwise by the Village Manager.

8.3. In the event of termination by the Village, the Consultant shall be paid for all work accepted by the Village Manager up to the date of termination, provided that the Consultant has first complied with the provisions of Paragraph 8.4.

8.4. The Consultant shall transfer all books, records, reports, working drafts, documents, maps, and data pertaining to the Services and the project to the Village, in a hard copy and electronic format within fourteen (14) days from the date of the written notice of termination or the date of expiration of this Agreement.

9. Insurance.

9.1. Consultant shall secure and maintain throughout the duration of this agreement insurance of such types and in such amounts not less than those specified below as satisfactory to Village, naming the Village as an Additional Insured, underwritten by a firm rated A-X or better by A.M. Best and qualified to do business in the State of Florida. The insurance coverage shall be primary insurance with respect to the Village, its officials, employees, agents, and volunteers naming the Village as additional insured. Any insurance maintained by the Village shall be in excess of the Consultant's insurance and shall not contribute to the Consultant's insurance. The insurance coverages shall include at a minimum the amounts set forth in this section and may be increased by the Village as it deems necessary or prudent.

9.1.1. Commercial General Liability coverage with limits of liability of not less than a $1,000,000 per Occurrence combined single limit for Bodily Injury and Property Damage. This Liability Insurance shall also include Completed Operations and Product Liability coverages and eliminate the exclusion with respect to property under the care, custody and control of Consultant. The General Aggregate Liability limit and the Products/Completed Operations Liability Aggregate limit shall be in the amount of $2,000,000 each.

9.1.2. Workers Compensation and Employer's Liability insurance, to apply for all employees for statutory limits as required by applicable State and Federal laws. The policy(ies) must include Employer's Liability with minimum limits of $1,000,000.00 each accident. No employee, subcontractor or agent of the Consultant shall be allowed to provide Services pursuant to this Agreement who is not covered by Worker's Compensation insurance.

9.1.3. Business Automobile Liability with minimum limits of $1,000,000 per occurrence, combined single limit for Bodily Injury and Property Damage. Coverage must be afforded on a form no more restrictive than the latest edition of the Business Automobile Liability policy, without restrictive endorsements, as filed by the Insurance Service Office, and must include Owned, Hired, and Non-Owned Vehicles.

9.1.4. Professional Liability Insurance in an amount of not less than One Million Dollars ($1,000,000.00) per occurrence, single limit.

9.2. Certificate of Insurance. Certificates of Insurance shall be provided to the Village, reflecting the Village as an Additional Insured (except with respect to Professional Liability Insurance and Worker's Compensation Insurance), no later than ten (10) days after award of this Agreement and prior to the execution of this Agreement by Village and prior to commencing Services. Each certificate shall include no less than (30) thirty-day advance written notice to Village prior to cancellation, termination, or material alteration of said policies or insurance. The Consultant shall be responsible for assuring that the

insurance certificates required by this Section remain in full force and effect for the duration of this Agreement, including any extensions or renewals that may be granted by the Village. The Certificates of Insurance shall not only name the types of policy(ies) provided, but also shall refer specifically to this Agreement and shall state that such insurance is as required by this Agreement. The Village reserves the right to inspect and return a certified copy of such policies, upon written request by the Village. If a policy is due to expire prior to the completion of the Services, renewal Certificates of Insurance shall be furnished thirty (30) calendar days prior to the date of their policy expiration. Each policy certificate shall be endorsed with a provision that not less than thirty (30) calendar days' written notice shall be provided to the Village before any policy or coverage is cancelled or restricted. Acceptance of the Certificate(s) is subject to approval of the Village.

9.3. Additional Insured. Except with respect to Professional Liability Insurance and Worker's Compensation Insurance**,** the Village is to be specifically included as an Additional Insured for the liability of the Village resulting from Services performed by or on behalf of the Consultant in performance of this Agreement. The Consultant's insurance, including that applicable to the Village as an Additional Insured, shall apply on a primary basis and any other insurance maintained by the Village shall be in excess of and shall not contribute to the Consultant's insurance. The Consultant's insurance shall contain a severability of interest provision providing that, except with respect to the total limits of liability, the insurance shall apply to each Insured or Additional Insured (for applicable policies) in the same manner as if separate policies had been issued to each.

9.4. Deductibles. All deductibles or self-insured retentions must be declared to and be reasonably approved by the Village. The Consultant shall be responsible for the payment of any deductible or self-insured retentions in the event of any claim.

9.5. The provisions of this section shall survive termination of this Agreement.

10. Nondiscrimination. During the term of this Agreement, Consultant shall not discriminate against any of its employees or applicants for employment because of their race, color, religion, sex, or national origin, and will abide by all Federal and State laws regarding nondiscrimination.

11. Attorneys Fees and Waiver of Jury Trial.

11.1. In the event of any litigation arising out of this Agreement, the prevailing party shall be entitled to recover its attorneys' fees and costs, including the fees and expenses of any paralegals, law clerks and legal assistants, and including fees and expenses charged for representation at both the trial and appellate levels.

11.2. IN THE EVENT OF ANY LITIGATION ARISING OUT OF THIS AGREEMENT, EACH PARTY HEREBY KNOWINGLY, IRREVOCABLY, VOLUNTARILY AND INTENTIONALLY WAIVES ITS RIGHT TO TRIAL BY JURY.

12. Indemnification.

12.1. Consultant shall indemnify and hold harmless the Village, its officers, agents and employees, from and against any and all demands, claims, losses, suits, liabilities, causes of action, judgment or damages, arising from Consultant's performance or non-performance of any provision of this Agreement, including, but not limited to, liabilities arising from contracts between the Consultant and third parties made pursuant to this Agreement. Consultant shall reimburse the Village for all its expenses including reasonable attorneys' fees and costs incurred in and about the defense of any such claim or investigation and for any judgment or damages arising from Consultant's performance or non-performance of this Agreement.

12.2. Nothing herein is intended to serve as a waiver of sovereign immunity by the Village nor shall anything included herein be construed as consent to be sued by third parties in any matter arising out of this Agreement or any other contract. The Village is subject to section 768.28, Florida Statutes, as may be amended from time to time.

12.3. The provisions of this section shall survive termination of this Agreement.

13. Notices/Authorized Representatives. Any notices required by this Agreement shall be in writing and shall be deemed to have been properly given if transmitted by hand-delivery, by registered or certified mail with postage prepaid return receipt requested, or by a private postal service, addressed to the parties (or their successors) at the addresses listed on the signature page of this Agreement or such other address as the party may have designated by proper notice.

14. Governing Law and Venue. This Agreement shall be construed in accordance with and governed by the laws of the State of Florida. Venue for any proceedings arising out of this Agreement shall be proper exclusively in Miami-Dade County, Florida.

15. Entire Agreement/Modification/Amendment.

15.1. This writing contains the entire Agreement of the parties and supersedes any prior oral or written representations. No representations were made or relied upon by either party, other than those that are expressly set forth herein.

15.2. No agent, employee, or other representative of either party is empowered to modify or amend the terms of this Agreement, unless executed with the same formality as this document.

16. Ownership and Access to Records and Audits.

16.1. Consultant acknowledges that all inventions, innovations, improvements, developments, methods, designs, analyses, drawings, reports, compiled information, and all similar or related information (whether patentable or not) which relate to Services to the Village which are conceived, developed or made by Consultant during the term of this Agreement ("Work Product") belong to the Village. Consultant shall promptly disclose such Work Product to the Village and perform all actions reasonably requested by the Village (whether during or after the term of this Agreement) to establish and confirm such ownership (including, without limitation, assignments, powers of attorney and other instruments).

16.2. Consultant agrees to keep and maintain public records in Consultant's possession or control in connection with Consultant's performance under this Agreement. The Village Manager or her designee shall, during the term of this Agreement and for a period of three (3) years from the date of termination of this Agreement, have access to and the right to examine and audit any records of the Consultant involving transactions related to this Agreement. Consultant additionally agrees to comply specifically with the provisions of Section 119.0701, Florida Statutes. Consultant shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed, except as authorized by law, for the duration of the Agreement, and following completion of the Agreement until the records are transferred to the Village.

16.3. Upon request from the Village's custodian of public records, Consultant shall provide the Village with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided by Chapter 119, Florida Statutes, or as otherwise provided by law.

16.4. Unless otherwise provided by law, any and all records, including but not limited to reports, surveys, and other data and documents provided or created in connection with this Agreement are and shall remain the property of the Village.

16.5. Upon completion of this Agreement or in the event of termination by either party, any and all public records relating to the Agreement in the possession of the Consultant shall be delivered by the Consultant to the Village Manager, at no cost to the Village, within seven (7) days. All such records stored electronically by Consultant shall be delivered to the Village in a format that is compatible with the Village's information technology systems. Once the public records have been delivered upon completion or termination of this Agreement, the Consultant shall destroy any and all duplicate public records that are exempt or confidential and exempt from public records disclosure requirements.

16.6. Any compensation due to Consultant shall be withheld until all records are received as provided herein.

16.7. Consultant's failure or refusal to comply with the provisions of this section shall result in the immediate termination of this Agreement by the Village.

16.8. **Notice Pursuant to Section 119.0701(2)(a), Florida Statutes.** **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS.**

17. **Nonassignability.** This Agreement shall not be assignable by Consultant unless such assignment is first approved by the Village Manager. The Village is relying upon the apparent qualifications and expertise of the Consultant, and such firm's familiarity with the Village's area, circumstances and desires.

18. **Severability.** If any term or provision of this Agreement shall to any extent be held invalid or unenforceable, the remainder of this Agreement shall not be affected thereby, and each remaining term and provision of this Agreement shall be valid and be enforceable to the fullest extent permitted by law.

19. **Independent Contractor.** The Consultant and its employees, volunteers and agents shall be and remain an independent contractor and not an agent or employee of the Village with respect to all of the acts and services performed by and under the terms of this Agreement. This Agreement shall not in any way be construed to create a partnership, association or any other kind of joint undertaking, enterprise or venture between the parties.

20. **Compliance with Laws.**

    20.1. The Consultant shall comply with all applicable laws, ordinances, rules, regulations, and lawful orders of public authorities in carrying out Services under this Agreement, and in particular shall obtain all required permits from all jurisdictional agencies to perform the Services under this Agreement at its own expense.

    20.2. **Background Checks.** Prior to the execution of this Agreement, the Consultant must undergo a Level II/Vechs screening and background check for the Consultant, its officials, agents, employees, subcontractors, volunteers, or other individuals engaged in providing the Services under this Agreement. The Consultant shall be responsible for updating the Village in writing with any additions and deletions of the individuals authorized to provide Services under this Agreement. In the event that additional individuals are authorized to perform such Services, the Consultant must ensure that such additional individual(s) undergo a Level II/Vechs screening and background check prior to such individual commencing such Services. It shall be in the Village's complete and sole discretion as to whether the type of check and the results are acceptable pursuant to and in accordance with the Village's policies. Failure to comply with the provisions of this Section shall be grounds for terminating this Agreement for cause.

21. **Waiver.** The failure of either party to this Agreement to object to or to take affirmative action with respect to any conduct of the other which is in violation of the terms of this Agreement shall not be construed as a waiver of the violation or breach, or of any future violation, breach or wrongful conduct.

22. **Survival of Provisions.** Any terms or conditions of either this Agreement that require acts beyond the date of the term of the Agreement, shall survive termination of the Agreement, shall remain in full force and effect unless and until the terms or conditions are completed and shall be fully enforceable by either party.

23. **Prohibition of Contingency Fees.** The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant, to solicit or secure this Agreement, and that it has not paid or agreed to pay any person(s), company, corporation, individual or firm, other than a bona fide employee working solely for the Consultant, any fee, commission, percentage, gift, or any other consideration, contingent upon or resulting from the award or making of this Agreement.

24. **State Required Affidavits.** By entering into this Agreement, the Consultant agrees to review and comply with the following state affidavit requirements:

24.1. Public Entity Crimes Affidavit. Consultant shall comply with Section 287.133, Florida Statutes (Public Entity Crimes Statute), notification of which is hereby incorporated herein by reference, including execution of any required affidavit.

24.2. Scrutinized Companies. Consultant certifies that it is not on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel. Pursuant to section 287.135, Florida Statues, the Village may immediately terminate this Agreement at its sole option if the Consultant is found to have submitted a false certification; or if the Consultant is placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement. If this Agreement is for more than one million dollars, the Consultant certifies that it is also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Terrorism Sectors List, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, Florida Statutes. Pursuant to Section 287.135, Florida Statutes, the Village may immediately terminate this Agreement at its sole option if the Consultant is found to have submitted a false certification; or if the Consultant is placed on the Scrutinized Companies with Activities in Sudan List, Scrutinized Companies with Activities in the Iran Terrorism Sectors List, Scrutinized Companies with Activities in Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

24.3. E-Verify Affidavit. In accordance with Section 448.095, Florida Statutes, the Village requires all contractors doing business with the Village to register with and use the E-Verify system to verify the work authorization status of all newly hired employees. The Village will not enter into a contract unless each party to the contract registers with and uses the E-Verify system. The contracting entity must provide of its proof of enrollment in E-Verify. For instructions on how to provide proof of the contracting entity's participation/enrollment in E-Verify, please visit: https://www.e-verify.gov/faq/how-do-i-provide-proof-of-my-participationenrollment-in-e-verify. By entering into this Agreement, the Consultant acknowledges that it has read Section 448.095, Florida Statutes; will comply with the E-Verify requirements imposed by Section 448.095, Florida Statutes, including but not limited to obtaining E-Verify affidavits from subcontractors; and has executed the required affidavit attached hereto and incorporated herein.

24.4. Noncoercive Conduct Affidavit. Pursuant to Section 787.06, Florida Statutes, a nongovernmental entity executing, renewing, or extending a contract with a governmental entity is required to provide an affidavit, signed by an officer or a representative of the nongovernmental entity under penalty of perjury, attesting that the nongovernmental entity does not use coercion for labor or services as defined in Section 787.06(2)(a),

Florida Statutes. By entering into this Agreement, the Consultant acknowledges that it has read Section 787.06, Florida Statutes, and will comply with the requirements therein, and has executed the required affidavit attached hereto and incorporated herein.

24.5. Prohibition on Contracting with Entities of Foreign Concern. Pursuant to Section 287.138, Florida Statutes (which is expressly incorporated herein by reference), a governmental entity may not knowingly enter into a contract with an entity which would give access to an individual's personal identifying information if (a) the entity is owned by the government of a foreign country of concern; (b) the government of a foreign country of concern has a controlling interest in the entity; or (c) the entity is organized under the laws of or has its principal place of business in a foreign country of concern. By entering into this Agreement, the Consultant acknowledges that it has read Section 287.138, Florida Statutes, and complies with the requirements therein, and has executed the required affidavit attached hereto and incorporated herein.

25. Counterparts. This Agreement may be executed in several counterparts, each of which shall be deemed an original and such counterparts shall constitute one and the same instrument.

26. Conflicts; Order of Priority. This document without exhibits is referred to as the "Base Agreement." In the event of a conflict between the terms of this Base Agreement and any exhibits or attachments hereto, or any documents incorporated herein by reference, the conflict shall be resolved in the following order of priorities and the more stringent criteria for performance of the Services shall apply:

26.1. First Priority: this Base Agreement;
26.2. Second Priority: Change Orders with later date taking precedence;
26.3. Third Priority: Exhibit C – Rate Schedule;
26.4. Fourth Priority: Exhibit A – Scope of Services;
26.5. Fifth Priority: Exhibit B – Contractor's Proposal; and
26.6. Sixth Priority: Statement of Work, with later date taking precedence.

VILLAGE OF KEY BISCAYNE

RFP # 2025-08

Dear Hiring Committee,

This letter expresses our interest in the Sound, Stage, Lighting Service Provider position with the Village of Key Biscayne. SPSAV possesses a strong background in the management, planning, and execution of a wide range of events, and we have cultivated robust skills that we believe directly align with your requirements for production services.

Our experience in coordinating diverse production elements has provided us with the ability to effectively manage logistics and ensure clear communication among all team members involved. We are dedicated to a service-oriented approach, prioritizing exceptional support for both indoor and outdoor programs that foster community engagement. We recognize the critical role of high- quality sound and lighting for creating memorable experiences; we are committed to excellence in every aspect of our service.

Our hands-on experience offers valuable insights into creating effective production environments, from selecting the right equipment to conducting pre-event needs assessments and adhering to budgets. We are enthusiastic about the possibility of supporting the Village of Key Biscayne's projects. Our commitment to outstanding service aligns with your mission, and we would welcome the opportunity to discuss how we can contribute to your future events.

Thank you for your consideration

Sincerely,

SPSAV

Proposer Initials

Public Entity Crimes Affidavit

I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentations.

I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime; or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, and partners, shareholders, employees, members, and agents who are active in management of an entity.

Based on information and belief, the statement, which I have marked below, is true in relation to the entity submitting this sworn statement.

(INDICATE WHICH STATEMENT APPLIES.)

[ ] Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with ad convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime after July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime after July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida , Division of Administrative Hearings and the final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list (attach a copy of the final order).

I understand that the submission of this form to the contracting officer for the public entity identified in paragraph 1 above is for that public entity only and that this form is valid through December 31 of the calendar year in which it is filed. I also understand that I am required to inform the public entity prior to entering a contract in excess of the threshold amount provided in Section 287.017, Florida Statutes for category two of any change in the information contained in this form.

Business Entity Affidavit

Proposer hereby recognizes and certifies that no elected official, board member, or employee of the Village of Key Biscayne (the " Village") shall have a financial interest directly or indirectly in this transaction or any compensation to be paid under or through this transaction, and further, that no Village employee, nor any elected or appointed officer (including Village board members) of the Village, nor any spouse, parent or child of such employee or elected or appointed officer of the Village, may be a partner, officer, director or proprietor of Proposer or Vendor, and further, that no such Village employee or elected or appointed officer, or the spouse, parent or child of any of them, alone or in combination, may have a material interest in the Vendor or Proposer. Material interest means direct or indirect ownership of more than 5% of the total assets or capital stock of the Proposer. Any exception to these above-described restrictions must be expressly provided by applicable law or ordinance and be confirmed in writing by Village. Further, Proposer recognizes that with respect to this transaction or bid, if any Proposer violates or is a party to a violation of the ethics ordinances or rules of the Village, the provisions of Miami-Dade

County Code Section 2-11.1, as applicable to Village, or the provisions of Chapter 112, part III, Fla. Stat., the Code of Ethics for Public Officers and Employees, such Proposer may be disqualified from furnishing the goods or services for which the bid or proposal is submitted and may be further disqualified from submitting any future bids or proposals for goods or services to Village.

Proposer Initials

Anti-Collusion Affidavit

1. Proposer/Bidder has personal knowledge of the matters set forth in its Proposal/Bid and is fully informed respecting the preparation and contents of the attached Proposal/Bid and all pertinent circumstances respecting the Proposal/Bid;
2. The Proposal/Bid is genuine and is not a collusive or sham Proposal/Bid; and
3. Neither the Proposer/Bidder nor any of its officers, partners, owners, agents, representatives, employees, or parties in interest, including Affiant, has in any way colluded, conspired, connived, or agreed, directly or indirectly with any other Proposer/Bidder, firm, or person to submit a collusive or sham Proposal/Bid, or has in any manner, directly or indirectly, sought by agreement or collusion or communication or conference with any other Proposer/Bidder, firm, or person to fix the price or prices in the attached Proposal/Bid or of any other Proposer/Bidder, or to fix any overhead, profit, or cost element of the Proposal/Bid price or the Proposal/Bid price of any other Proposer/Bidder, or to secure through any collusion, conspiracy, connivance or unlawful agreement any advantage against the Village of Key Biscayne or any person interested in the proposed Contract.

Proposer Initials

Scrutinized Company Certification

1. Proposer certifies that it and its subcontractors are not on the Scrutinized Companies that Boycott Israel List. Pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this RFP at its sole option if the Proposer or its subcontractors are found to have submitted a false certification; or if the Proposer, or its subcontractors are placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
2. If the Agreement that may result from this RFP is for more than one million dollars, the Proposer certifies that it and its subcontractors are also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this RFP at its sole option if the Proposer, its affiliates, or its subcontractors are found to have submitted a false certification; or if the Proposer, its affiliates, or its subcontractors are placed on the Scrutinized Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

3. The Proposer agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under the Agreement that may result from this RFP. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize the above-stated contracting prohibitions then they shall become inoperative.

Proposer Initials

Acknowledgment, Warranty, and Acceptance

1. CONTRACTOR warrants that it is willing and able to comply with all applicable state of Florida laws, rules and regulations.
2. CONTRACTOR warrants that it has read, understands, and is willing to comply with all requirements of **RFP # 2025-08 SOUND, STAGE, LIGHTING AND EQUIPMENT RENTAL SERVICES** and any addendum/addenda related thereto.
3. CONTRACTOR warrants that it will not delegate or subcontract its responsibilities under an agreement without the prior written permission of the Village Council or Village Manager, as applicable.
4. CONTRACTOR warrants that all information provided by it in connection with this Proposal is true and accurate.

Proposer Initials

Truth in Negotiation Certification

The CONTRACTOR hereby certifies, covenants, and warrants that wage rates and other factual unit costs supporting the compensation for this project's agreement are accurate, complete, and current at the time of contracting.

The CONTRACTOR further agrees that the original agreement price and any additions thereto shall be adjusted to exclude any significant sums by which the Village determines the agreement price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such agreement adjustments shall be made within (1) year following the end of the contract. For the purposes of this certificate, the end of the agreement shall be deemed to be the date of the final billing or acceptance of the work by the Village, whichever is later.

I am THOMAS G. MITCHELL of REFLECTIONS PRODUCTIONS, INC., the proposer that has submitted the attached proposal;

I hereby certify to the best of my knowledge that neither I nor any of those persons residing in my household have or have had during the past five years, any relationships (professional, financial, familial or otherwise) with the VILLAGE (or any of its districts), its elected or appointed officials, its employees or agents, or any member or alternate member of the Selection Committee.

A "relationship" for the purpose of this affidavit shall include but not be limited to employer/employee, consultant, contractor, subcontractor, associate, officer, partnership, joint venture, ownership greater than one percent, landlord/tenant, or creditor/debtor, gift donor/recipient (in excess of $100.00), past or on-going personal relationships, or joint involvement with charitable/voluntary activities. **Relationship includes having a prior or current contract with the VILLAGE.**

Except as set forth below, I hereby certify to the best of my knowledge that neither I nor any of those persons residing in my household have received any promise of compensation, remuneration, gift, discount, or other gratuity in exchange for my proposal.

I understand and agree that I shall give the VILLAGE written notice of any other relationships (as defined above) that I enter into with the VILLAGE (or any of its districts), its elected or appointed officials, its employees or agents, or any member or alternate member of the Selection Committee during the period of the Agreement.

I set forth below any exceptions to the aforementioned (if none, write "None"):

DRUG FREE WORKPLACE

The undersigned proposer in accordance with Chapter 287.087, Florida Statutes, hereby certifies that Reflections Productions Inc does:

(Name of proposer)

1. Publish a statement notifying employees that the unlawful manufacturing, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the contractual services described in the RFP document a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the contractual services described in the RFP or the Agreement, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

7. As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

FORM 8

CERTIFICATION TO ACCURACY OF PROPOSAL

The proposer, by executing this form, hereby certifies and attests that all forms, affidavits and documents related thereto that it has enclosed in the proposal in support of its proposal are true and accurate. Failure by the proposer to attest to the truth and accuracy of such forms, affidavits and documents shall result in the proposal being deemed non-responsive and such proposal will not be considered.

By submitting a proposal to do the work, the proposer certifies that a careful review of the RFP and the Agreement has taken place, and that the proposer is fully informed and understands the requirements of the RFP and the Agreement and the quality and quantity of service to be performed.

The undersigned individual, being duly sworn, deposes and says that:

1. He/She is Thomas G Mitchell of Reflections Productions Inc. the proposer that has submitted the attached proposal;
2. He/She is fully informed respecting the preparation and contents of the attached proposal and of all forms, affidavits and documents submitted in support of such proposal;
3. All forms, affidavits and documents submitted in support of this proposal and included in this proposal are true and accurate;
4. No information that should have been included in such forms, affidavits and documents has been omitted; and
5. No information that is included in such forms, affidavits or documents is false or misleading.

Federal Identification Number (FEIN) is: 59-1880542
(if applicable)

Social Security Number: 265-37-9357

(if the entity has no FEIN, include the Social Security Number of the individual signing this sworn statement)

3. My name is: THOMAS G. MITCHELL
(print name of individual signing this document)

and my relationship to the entity is: PRESIDENT

4. I understand that a "public entity crime" as defined in §287.133(1)(g), Florida Statutes means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United states, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

5. I understand that a "convicted" or "conviction" as defined in §287.133(1)(b), Florida Statutes, means a finding of guilt of a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

6. I understand that an "affiliate" as defined in §287.133(1)(a), Florida Statutes means:
   (a) A predecessor or successor of a person or a corporation convicted of a public entity crime; or

(b) An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima-facie case that one person controls another person. A person who knowingly enters a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

7. I understand that a "person" as defined in §287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which binds or applies to bids on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

8. Based on the information and belief, the statement that I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies)

   a. ✓ Neither the entity submitting the sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity nor any affiliate of the entity have been charged with and convicted of a public entity crime after July 1, 1989.

   b. ____The entity submitting this sworn statement, or one or more of the officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989 and (Please indicate which additional statement applies)

      1) ____There has been a proceeding concerning the conviction before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. (Please attach a copy of the final order)

      2) ____The person or affiliate was placed on the convicted list. There has been a subsequent proceeding before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or affiliate from the convicted vendor list. (Please attach a copy of the final order)

3) ____The person or affiliate has not been placed on the convicted vendor list. (Please describe any action taken by or pending with the Department of General Services)

(Address)

to furnish all materials, equipment, and labor and to perform all work in accordance with the Contract Documents for:

SOUND, STAGE, LIGHTING AND EQUIPMENT RENTAL SERVICES

("THE PROJECT")

TO: Village of Key Biscayne
Attn: Village Clerk
88 West McIntyre Street, Suite 220
Key Biscayne, Florida 33149

The undersigned, as Bidder, hereby declares that the only person or persons interested in the Bid, as principal or principals, is or are named herein and that no other person than herein mentioned has any interests in the Bid or the Contract to which the Work pertains; that this Bid is made without connection or arrangement with any other person, company, or parties making Bids or Proposals and that the Bid is in all respects fair and made in good faith without collusion or fraud.

The Bidder further declares that he or she has examined the geographic location and sites of the Work; that he has made sufficient investigations to fully satisfy himself that such sites are suitable for this Work; and he assumes full responsibility therefore; that he has examined the specifications for the Work and from his own experience or from professional advice that the specifications are sufficient for the Work to be done and he has examined the other Contract Documents relating thereto, including the Instructions to Bidders, the Contract, Bid, Detailed Scope of Work/Specifications, Qualification Statement, Public Entity Crime Form, and Insurance requirements

and he has read all addenda prior to the opening of Bids, and that he has satisfied himself fully, relative to all matters and conditions with respect to the Work to which this Bid pertains.

The Bidder proposes and agrees, if this Bid is accepted, to timely execute the Contract with the Village in the form attached and to furnish all necessary materials, all equipment, all necessary machinery, tools, apparatus, means of transportation, and labor necessary to complete the Work specified in the Bid and the Contract, and called for by the drawings and specifications and in the manner specified and to timely submit all required bonds and insurance certificates.
***NOTE:* THIS SCHEDULE OF BID ITEMS IS MERELY ILLUSTRATIVE OF THE MINIMUM AMOUNT/QUANTITY OF WORK TO BE PERFORMED UNDER THE CONTRACT. IN THE CASE OF ANY CONFLICT BETWEEN THIS SCHEDULE OF BID ITEMS AND THE DETAILED SPECIFICATIONS, THE DETAILED SPECIFICATIONS WILL PREVAIL.**

The Bidder further proposes and agrees to comply in all respects with the time limits for commencement and completion of the Work as stated in the Contract.

The Bidder agrees to execute the Contract and furnish the executed Contract, all required bonds, insurance certificates, and other required information to Village within ten (10) ten calendar days after written notice of the Award of Contract. The failure on the part of the Bidder to timely comply with this provision shall give Village all rights and remedies set forth in the Instructions to Bidders.

The undersigned agrees to accept as full compensation therefore the total of the lump sum prices and extended unit prices items named in the following schedule. It is understood that the unit prices quoted or established for a particular item are to be used for computing the amount to be paid to the Contractor, based on the Work actually performed as determined by the Contract and the Village. However, in utilizing the schedule, the Bidder agrees that in no event shall compensation paid to the Bidder under the Contract exceed the dollar amount of the Bidder's Bid amount, as set forth in the attached Bid.

It is intended that all Work to be performed under this Bid shall commence approximately thirty (30) days after Contract execution.

In no event shall Village be obligated to pay for Work not performed or materials not furnished. Bidder's

ATTACHMENT A

SERVICES AGREEMENT BETWEEN THE VILLAGE OF KEY BISCAYNE AND NAME OF ENTITY

THIS AGREEMENT (this "Agreement") is made effective as of the 9th day of JUNE, 2025 (the "Effective Date"), by and between the **VILLAGE OF KEY BISCAYNE, FLORIDA,** a Florida municipal corporation, (the "Village"), and **NAME OF ENTITY**, a Florida [type of entity] (hereinafter, the "Consultant").

WHEREAS, the Village desires certain **SOUND, STAGE, LIGHTING AND EQUIPMENT RENTAL SERVICES** and

WHEREAS, the Consultant will perform services on behalf of the Village, all as further set forth in the Proposal dated 6/9/25, 2025, attached hereto as Exhibit "A" (the "Services"); and

WHEREAS, the Consultant and Village, through mutual negotiation, have agreed upon a fee for the Services; and

WHEREAS, the Village desires to engage the Consultant to perform the Services and provide the deliverables as specified below.

NOW, THEREFORE, in consideration of the mutual covenants and conditions contained herein, the Consultant and the Village agree as follows:

1. **Scope of Services.**

   1.1. Consultant shall provide the Services set forth in the Proposal attached hereto as Exhibit "A" and incorporated herein by reference (the "Services").

   1.2. Consultant shall furnish all reports, documents, and information obtained pursuant to this Agreement, and recommendations during the term of this Agreement (hereinafter "Deliverables") to the Village.

2. **Term/Commencement Date.**

   2.1. The term of this Agreement shall be from the Effective Date through one (1) years thereafter, unless earlier terminated in accordance with Paragraph 8. Additionally, the Village Manager may renew this Agreement for four (4) additional one (1) year periods on the same terms as set forth herein upon written notice to the Consultant.

   2.2. Consultant agrees that time is of the essence and Consultant shall complete the Services within the term of this Agreement, unless extended by the Village Manager.

3. **Compensation and Payment.**

SAMPLE

3.1. Compensation for Services provided by Consultant shall be in accordance with the Proposal attached hereto as Exhibit "A." Consultant shall be compensated a flat rate, lump sum fee in the amount of $XXXX.XX per month.

3.2. Consultant shall deliver an invoice to Village no more often than once per month detailing Services completed and the amount due to Consultant under this Agreement. Fees shall be paid in arrears each month, pursuant to Consultant's invoice, which shall be based upon the percentage of work completed for each task invoiced. The Village shall pay the Consultant in accordance with the Florida Prompt Payment Act after approval and acceptance of the Services by the Village Manager.

3.3. Contractor's invoices must contain the following information for prompt payment:

3.3.1. Name and address of the Consultant;

3.3.2. Purchase Order number;

3.3.3. Contract number;

3.3.4. Date of invoice;

3.3.5. Invoice number (Invoice numbers cannot be repeated. Repeated invoice numbers will be rejected);

3.3.6. Name and type of Services;

3.3.7. Timeframe covered by the invoice; and

3.3.8. Total value of invoice.

Failure to include the above information will result in a delay of payment or rejection of the invoice. All invoices must be submitted electronically to payables@keybiscayne.fl.gov.

4. Subconsultants.

4.1. The Consultant shall be responsible for all payments to any subconsultants and shall maintain responsibility for all work related to the Services.

4.2. Consultant may only utilize the services of a particular subconsultant with the prior written approval of the Village Manager, which approval may be granted or withheld in the Village Manager's sole and absolute discretion.

5. Village's Responsibilities.

5.1. Village shall make available any maps, plans, existing studies, reports, staff and representatives, and other data pertinent to the Services and in possession of the Village, and provide criteria requested by Consultant to assist Consultant in performing the Services.

5.2. Upon Consultant's request, Village shall reasonably cooperate in arranging access to public information that may be required for Consultant to perform the Services.

SAMPLE

6. Consultant's Responsibilities; Representations and Warranties.

6.1. The Consultant shall exercise the same degree of care, skill and diligence in the performance of the Services as is ordinarily provided by a consultant under similar circumstances. If at any time during the term of this Agreement or within two (2) years from the completion of this Agreement, it is determined that the Consultant's Deliverables or Services are incorrect, not properly rendered, defective, or fail to conform to Village requests, the Consultant shall at Consultant's sole expense, immediately correct its Deliverables or Services.

6.2. The Consultant hereby warrants and represents that at all times during the term of this Agreement it shall maintain in good standing all required licenses, certifications and permits required under Federal, State and local laws applicable to and necessary to perform the Services for Village as an independent contractor of the Village. Consultant further warrants and represents that it has the required knowledge, expertise, and experience to perform the Services and carry out its obligations under this Agreement in a professional and first-class manner.

6.3. The Consultant represents that is an entity validly existing and in good standing under the laws of Florida. The execution, delivery and performance of this Agreement by Consultant have been duly authorized, and this Agreement is binding on Consultant and enforceable against Consultant in accordance with its terms. No consent of any other person or entity to such execution, delivery and performance is required.

7. Conflict of Interest.

7.1. To avoid any conflict of interest or any appearance thereof, Consultant shall not, for the term of this Agreement, provide any consulting services to any private sector entities (developers, corporations, real estate investors, etc.), with any current, or foreseeable, adversarial issues in the Village.

8. Termination.

8.1. The Village Manager, without cause, may terminate this Agreement upon five (5) calendar days' written notice to the Consultant, or immediately with cause.

8.2. Upon receipt of the Village's written notice of termination, Consultant shall immediately stop work on the project unless directed otherwise by the Village Manager.

8.3. In the event of termination by the Village, the Consultant shall be paid for all work accepted by the Village Manager up to the date of termination, provided that the Consultant has first complied with the provisions of Paragraph 8.4.

8.4. The Consultant shall transfer all books, records, reports, working drafts, documents, maps, and data pertaining to the Services and the project to the Village, in a hard copy and electronic format within fourteen (14) days from the date of the written notice of termination or the date of expiration of this Agreement.

9. Insurance.

9.1. Consultant shall secure and maintain throughout the duration of this agreement insurance of such types and in such amounts not less than those specified below as satisfactory to Village,

naming the Village as an Additional Insured, underwritten by a firm rated A-X or better by A.M. Best and qualified to do business in the State of Florida. The insurance coverage shall be primary insurance with respect to the Village, its officials, employees, agents, and volunteers naming the Village as additional insured. Any insurance maintained by the Village shall be in excess of the Consultant's insurance and shall not contribute to the Consultant's insurance. The insurance coverage shall include at a minimum the amounts set forth in this section and may be increased by the Village as it deems necessary or prudent.

9.1.1. Commercial General Liability coverage with limits of liability of not less than a $1,000,000 per Occurrence combined single limit for Bodily Injury and Property Damage. This Liability Insurance shall also include Completed Operations and Product Liability coverages and eliminate the exclusion with respect to property under the care, custody and control of Consultant. The General Aggregate Liability limit and the Products/Completed Operations Liability Aggregate limit shall be in the amount of $2,000,000 each.

9.1.2. Workers Compensation and Employer's Liability insurance, to apply to all employees for statutory limits as required by applicable State and Federal laws. The policy(ies) must include Employer's Liability with minimum limits of $1,000,000.00 for each accident. No employee, subcontractor or agent of the Consultant shall be allowed to provide Services pursuant to this Agreement who is not covered by Worker's Compensation insurance.

9.1.3. Business Automobile Liability with minimum limits of $1,000,000 per occurrence, combined single limit for Bodily Injury and Property Damage. Coverage must be afforded on a form no more restrictive than the latest edition of the Business Automobile Liability policy, without restrictive endorsements, as filed by the Insurance Service Office, and must include Owned, Hired, and Non-Owned Vehicles.

9.1.4. Professional Liability Insurance in an amount of not less than One Million Dollars ($1,000,000.00) per occurrence, single limit.

9.2. **Certificate of Insurance.** Certificates of Insurance shall be provided to the Village, reflecting the Village as an Additional Insured (except with respect to Professional Liability Insurance and Worker's Compensation Insurance), no later than ten (10) days after award of this Agreement and prior to the execution of this Agreement by Village and prior to commencing Services. Each certificate shall include no less than (30) thirty-day advance written notice to Village prior to cancellation, termination, or material alteration of said policies or insurance. The Consultant shall be responsible for assuring that the insurance certificates required by this Section remain in full force and effect for the duration of this Agreement, including any extensions or renewals that may be granted by the Village. The Certificates of Insurance shall not only name the types of policy(ies) provided, but also shall refer specifically to this Agreement and shall state that such insurance is as required by this Agreement. The Village reserves the right to inspect and return a certified copy of such policies, upon written request by the Village. If a policy is due to expire prior to the completion of the Services, renewal Certificates of Insurance shall be furnished thirty (30) calendar days prior to the date of their policy expiration. Each policy certificate shall be endorsed with a provision that not less than thirty (30) calendar days' written notice shall be provided to the Village before any policy or coverage is cancelled or restricted. Acceptance of the Certificate(s) is subject to approval of the Village.

9.3. **Additional Insured.** Except with respect to Professional Liability Insurance and Worker's Compensation Insurance, the Village is to be specifically included as an Additional Insured for the liability of the Village resulting from Services performed by or on behalf of the Consultant in performance of this Agreement. The Consultant's insurance, including that applicable to the Village as an Additional Insured, shall apply on a primary basis and any other insurance maintained by the Village shall be in excess of and shall not contribute to the Consultant's insurance. The Consultant's insurance shall contain a severability of interest provision providing that, except with respect to the total limits of liability, the insurance shall apply to each Insured or Additional Insured (for applicable policies) in the same manner as if separate policies had been issued to each.

9.4. **Deductibles.** All deductibles or self-insured retentions must be declared to and be reasonably approved by the Village. The Consultant shall be responsible for the payment of any deductible or self-insured retentions in the event of any claim.

9.5. The provisions of this section shall survive termination of this Agreement.

10. **Nondiscrimination.** During the term of this Agreement, Consultant shall not discriminate against any of its employees or applicants for employment because of their race, color, religion, sex, or national origin, and will abide by all Federal and State laws regarding nondiscrimination.

11. **Attorney's Fees and Waiver of Jury Trial.**

11.1. In the event of any litigation arising out of this Agreement, the prevailing party shall be entitled to recover its attorneys' fees and costs, including the fees and expenses of any paralegals, law clerks and legal assistants, and including fees and expenses charged for representation at both the trial and appellate levels.

11.2. IN THE EVENT OF ANY LITIGATION ARISING OUT OF THIS AGREEMENT, EACH PARTY HEREBY KNOWINGLY, IRREVOCABLY, VOLUNTARILY AND INTENTIONALLY WAIVES ITS RIGHT TO TRIAL BY JURY.

12. **Indemnification.**

12.1. Consultant shall indemnify and hold harmless the Village, its officers, agents and employees, from and against any and all demands, claims, losses, suits, liabilities, causes of action, judgment or damages, arising from Consultant's performance or non-performance of any provision of this Agreement, including, but not limited to, liabilities arising from contracts between the Consultant and third parties made pursuant to this Agreement. Consultant shall reimburse the Village for all its expenses including reasonable attorneys' fees and costs incurred in and about the defense of any such claim or investigation and for any judgment or damages arising from Consultant's performance or non-performance of this Agreement.

12.2. Nothing herein is intended to serve as a waiver of sovereign immunity by the Village nor shall anything included herein be construed as consent to be sued by third parties in any matter arising out of this Agreement or any other contract. The Village is subject to section 768.28, Florida Statutes, as may be amended from time to time.

12.3. The provisions of this section shall survive termination of this Agreement.

13. **Notices/Authorized Representatives.** Any notices required by this Agreement shall be in writing and shall be deemed to have been properly given if transmitted by hand-delivery, by registered or certified mail with postage prepaid return receipt requested, or by a private postal service, addressed to the parties (or their successors) at the addresses listed on the signature page of this Agreement or such other address as the party may have designated by proper notice.

14. **Governing Law and Venue**. This Agreement shall be construed in accordance with and governed by the laws of the State of Florida. Venue for any proceedings arising out of this Agreement shall be proper exclusively in Miami-Dade County, Florida.

15. **Entire Agreement/Modification/Amendment.**

15.1. This writing contains the entire Agreement of the parties and supersedes any prior oral or written representations. No representations were made or relied upon by either party, other than those that are expressly set forth herein.

15.2. No agent, employee, or other representative of either party is empowered to modify or amend the terms of this Agreement, unless executed with the same formality as this document.

16. **Ownership and Access to Records and Audits.**

16.1. Consultant acknowledges that all inventions, innovations, improvements, developments, methods, designs, analyses, drawings, reports, compiled information, and all similar or related information (whether patentable or not) which relate to Services to the Village which are conceived, developed or made by Consultant during the term of this Agreement ("Work Product") belong to the Village. Consultant shall promptly disclose such Work Product to the Village and perform all actions reasonably requested by the Village (whether during or after the term of this Agreement) to establish and confirm such ownership (including, without limitation, assignments, powers of attorney and other instruments).

16.2. Consultant agrees to keep and maintain public records in Consultant's possession or control in connection with Consultant's performance under this Agreement. The Village Manager or her designee shall, during the term of this Agreement and for a period of three (3) years from the date of termination of this Agreement, have access to and the right to examine and audit any records of the Consultant involving transactions related to this Agreement. Consultant additionally agrees to comply specifically with the provisions of Section 119.0701, Florida Statutes. Consultant shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed, except as authorized by law, for the duration of the Agreement, and following completion of the Agreement until the records are transferred to the Village.

16.3. Upon request from the Village's custodian of public records, Consultant shall provide the Village with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided by Chapter 119, Florida Statutes, or as otherwise provided by law.

16.4. Unless otherwise provided by law, any and all records, including but not limited to reports, surveys, and other data and documents provided or created in connection with this Agreement are and shall remain the property of the Village.

16.5. Upon completion of this Agreement or in the event of termination by either party, any or all public records relating to the Agreement in the possession of the Consultant shall be delivered by the Consultant to the Village Manager, at no cost to the Village, within seven (7) days. All such records stored electronically by Consultant shall be delivered to the Village in a format that is compatible with the Village's information technology systems. Once the public records have been delivered upon completion or termination of this Agreement, the Consultant shall destroy any and all duplicate public records that are exempt or confidential and exempt from public records disclosure requirements.

16.6. Any compensation due to Consultant shall be withheld until all records are received as provided herein.

16.7. Consultant's failure or refusal to comply with the provisions of this section shall result in the immediate termination of this Agreement by the Village.

16.8. **Notice Pursuant to Section 119.0701(2)(a), Florida Statutes.** **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS.**

17. Nonassignability. This Agreement shall not be assignable by Consultant unless such assignment is first approved by the Village Manager. The Village is relying upon the apparent qualifications and expertise of the Consultant, and such firm's familiarity with the Village's area, circumstances and desires.

18. Severability. If any term or provision of this Agreement shall to any extent be held invalid or unenforceable, the remainder of this Agreement shall not be affected thereby, and each remaining term and provision of this Agreement shall be valid and be enforceable to the fullest extent permitted by law.

19. Independent Contractor. The Consultant and its employees, volunteers and agents shall be and remain an independent contractor and not an agent or employee of the Village with respect to all of the acts and services performed by and under the terms of this Agreement. This Agreement shall not in any way be construed to create a partnership, association or any other kind of joint undertaking, enterprise or venture between the parties.

20. Compliance with Laws. The Consultant shall comply with all applicable laws, ordinances, rules, regulations, and lawful orders of public authorities in carrying out Services under this Agreement, and in particular shall obtain all required permits from all jurisdictional agencies to perform the Services under this Agreement at its own expense.

21. **Waiver.** The failure of either party to this Agreement to object to or to take affirmative action with respect to any conduct of the other which is in violation of the terms of this Agreement shall not be construed as a waiver of the violation or breach, or of any future violation, breach or wrongful conduct.

22. **Survival of Provisions.** Any terms or conditions of either this Agreement that require acts beyond the date of the term of the Agreement, shall survive termination of the Agreement, shall remain in full force and effect unless and until the terms or conditions are completed and shall be fully enforceable by either party.

23. **Prohibition of Contingency Fees.** The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant, to solicit or secure this Agreement, and that it has not paid or agreed to pay any person(s), company, corporation, individual or firm, other than a bona fide employee working solely for the Consultant, any fee, commission, percentage, gift, or any other consideration, contingent upon or resulting from the award or making of this Agreement.

24. **Public Entity Crimes Affidavit.** Consultant shall comply with Section 287.133, Florida Statutes (Public Entity Crimes Statute), notification of which is hereby incorporated herein by reference, including execution of any required affidavit.

25. **Counterparts.** This Agreement may be executed in several counterparts, each of which shall be deemed an original and such counterparts shall constitute one and the same instrument.

26. **Conflicts.** In the event of a conflict between the terms of this Agreement and any exhibits or attachments hereto, the terms of this Agreement shall control.

27. **E-Verify Affidavit.** In accordance with Section 448.095, Florida Statutes, the Village requires all contractors doing business with the Village to register with and use the E-Verify system to verify the work authorization status of all newly hired employees. The Village will not enter into a contract unless each party to the contract registers with and uses the E-Verify system. The contracting entity must provide its proof of enrollment in E-Verify. For instructions on how to provide proof of the contracting entity's participation/enrollment in E-Verify, please visit: https://www.e-verify.gov/faq/how-do-i-provide-proof-of-my-participationenrollment-in-e-verify. By entering into this Agreement, the Contractor acknowledges that it has read Section 448.095, Florida Statutes; will comply with the E-Verify requirements imposed by Section 448.095, Florida Statutes, including but not limited to obtaining E-Verify affidavits from subcontractors; and has executed the required affidavit attached hereto and incorporated herein.

Public Entity Crimes Affidavit

I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentations.

I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime; or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, and partners, shareholders, employees, members, and agents who are active in management of an entity.

Based on information and belief, the statement, which I have marked below, is true in relation to the entity submitting this sworn statement.

(INDICATE WHICH STATEMENT APPLIES.)

[X] Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with ad convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime after July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime after July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida , Division of Administrative Hearings and the final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list (attach a copy of the final order).

I understand that the submission of this form to the contracting officer for the public entity identified in paragraph 1 above is for that public entity only and that this form is valid through December 31 of the calendar year in which it is filed. I also understand that I am required to inform the public entity prior to entering a contract in excess of the threshold amount provided in Section 287.017, Florida Statutes for category two of any change in the information contained in this form.

No Conflict of Interest or Contingent Fee Affidavit

Proposer warrants that neither it nor any principal, employee, agent, representative nor family member has paid or will pay any fee or consideration that is contingent on the award or execution of a contract arising out of this solicitation. Proposer also warrants that neither it nor any principal, employee, agent, representative nor family member has procured or attempted to procure this contract in violation of any of the provisions of the Miami-Dade County conflict of interest or code of ethics ordinances. Further, Proposer acknowledges that any violation of these warrants will result in the termination of the contract and forfeiture of funds paid or to be paid to the Proposer should the Proposer be selected for the performance of this contract.

Business Entity Affidavit

Proposer hereby recognizes and certifies that no elected official, board member, or employee of the Village of Key Biscayne (the " Village") shall have a financial interest directly or indirectly in this transaction or any compensation to be paid under or through this transaction, and further, that no Village employee, nor any elected or appointed officer (including Village board members) of the Village, nor any spouse, parent or child of such employee or elected or appointed officer of the Village, may be a partner, officer, director or proprietor of Proposer or Vendor, and further, that no such Village employee or elected or appointed officer, or the spouse, parent or child of any of them, alone or in combination, may have a material interest in the Vendor or Proposer. Material interest means direct or indirect ownership of more than 5% of the total assets or capital stock of the Proposer. Any exception to these above-described restrictions must be expressly provided by applicable law or ordinance and be confirmed in writing by Village. Further, Proposer recognizes that with respect to this transaction or bid, if any Proposer violates or is a party to a violation of the ethics ordinances or rules of the Village, the provisions of Miami-Dade

County Code Section 2-11.1, as applicable to Village, or the provisions of Chapter 112, part III, Fla. Stat., the Code of Ethics for Public Officers and Employees, such Proposer may be disqualified from furnishing the goods or services for which the bid or proposal is submitted and may be further disqualified from submitting any future bids or proposals for goods or services to Village.

Scrutinized Company Certification

1. Proposer certifies that it and its subcontractors are not on the Scrutinized Companies that Boycott Israel List. Pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this RFP at its sole option if the Proposer or its subcontractors are found to have submitted a false certification; or if the Proposer, or its subcontractors are placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
2. If the Agreement that may result from this RFP is for more than one million dollars, the Proposer certifies that it and its subcontractors are also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this RFP at its sole option if the Proposer, its affiliates, or its subcontractors are found to have submitted a false certification; or if the Proposer, its affiliates, or its subcontractors are placed on the Scrutinized Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

3. The Proposer agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under the Agreement that may result from this RFP. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize the above-stated contracting prohibitions then they shall become inoperative.

Truth in Negotiation Certification

The CONTRACTOR hereby certifies, covenants, and warrants that wage rates and other factual unit costs supporting the compensation for this project's agreement are accurate, complete, and current at the time of contracting.

The CONTRACTOR further agrees that the original agreement price and any additions thereto shall be adjusted to exclude any significant sums by which the Village determines the agreement price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such agreement adjustments shall be made within (1) year following the end of the contract. For the purposes of this certificate, the end of the agreement shall be deemed to be the date of the final billing or acceptance of the work by the Village, whichever is later.

DRUG FREE WORKPLACE

The undersigned proposer in accordance with Chapter 287.087, Florida Statutes, hereby certifies that Signature Production Services does:

(Name of proposer)

1. Publish a statement notifying employees that the unlawful manufacturing, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the contractual services described in the RFP document a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the contractual services described in the RFP or the Agreement, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

7. As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima-facie case that one person controls another person. A person who knowingly enters a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

7. I understand that a "person" as defined in §287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which binds or applies to bids on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

8. Based on the information and belief, the statement that I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies)

   a. _X_ Neither the entity submitting the sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity nor any affiliate of the entity have been charged with and convicted of a public entity crime after July 1, 1989.

   b. ____ The entity submitting this sworn statement, or one or more of the officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989 and (Please indicate which additional statement applies)

      1) ____ There has been a proceeding concerning the conviction before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. (Please attach a copy of the final order)

      2) ____ The person or affiliate was placed on the convicted list. There has been a subsequent proceeding before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or affiliate from the convicted vendor list. (Please attach a copy of the final order)

3) ____The person or affiliate has not been placed on the convicted vendor list. (Please describe any action taken by or pending with the Department of General Services)

SOUND, STAGE, LIGHTING AND EQUIPMENT RENTAL SERVICES

("THE PROJECT")

TO: Village of Key Biscayne
Attn: Village Clerk
88 West McIntyre Street, Suite 220
Key Biscayne, Florida 33149

The undersigned, as Bidder, hereby declares that the only person or persons interested in the Bid, as principal or principals, is or are named herein and that no other person than herein mentioned has any interests in the Bid or the Contract to which the Work pertains; that this Bid is made without connection or arrangement with any other person, company, or parties making Bids or Proposals and that the Bid is in all respects fair and made in good faith without collusion or fraud.

The Bidder further declares that he or she has examined the geographic location and sites of the Work; that he has made sufficient investigations to fully satisfy himself that such sites are suitable for this Work; and he assumes full responsibility therefore; that he has examined the specifications for the Work and from his own experience or from professional advice that the specifications are sufficient for the Work to be done and he has examined the other Contract Documents relating thereto, including the Instructions to Bidders, the Contract, Bid, Detailed Scope of Work/Specifications, Qualification Statement, Public Entity Crime Form, and Insurance requirements

and he has read all addenda prior to the opening of Bids, and that he has satisfied himself fully, relative to all matters and conditions with respect to the Work to which this Bid pertains.

The Bidder proposes and agrees, if this Bid is accepted, to timely execute the Contract with the Village in the form attached and to furnish all necessary materials, all equipment, all necessary machinery, tools, apparatus, means of transportation, and labor necessary to complete the Work specified in the Bid and the Contract, and called for by the drawings and specifications and in the manner specified and to timely submit all required bonds and insurance certificates.
***NOTE:* THIS SCHEDULE OF BID ITEMS IS MERELY ILLUSTRATIVE OF THE MINIMUM AMOUNT/QUANTITY OF WORK TO BE PERFORMED UNDER THE CONTRACT. IN THE CASE OF ANY CONFLICT BETWEEN THIS SCHEDULE OF BID ITEMS AND THE DETAILED SPECIFICATIONS, THE DETAILED SPECIFICATIONS WILL PREVAIL.**

The Bidder further proposes and agrees to comply in all respects with the time limits for commencement and completion of the Work as stated in the Contract.

The Bidder agrees to execute the Contract and furnish the executed Contract, all required bonds, insurance certificates, and other required information to Village within ten (10) ten calendar days after written notice of the Award of Contract. The failure on the part of the Bidder to timely comply with this provision shall give Village all rights and remedies set forth in the Instructions to Bidders.

The undersigned agrees to accept as full compensation therefore the total of the lump sum prices and extended unit prices items named in the following schedule. It is understood that the unit prices quoted or established for a particular item are to be used for computing the amount to be paid to the Contractor, based on the Work actually performed as determined by the Contract and the Village. However, in utilizing the schedule, the Bidder agrees that in no event shall compensation paid to the Bidder under the Contract exceed the dollar amount of the Bidder's Bid amount, as set forth in the attached Bid.

It is intended that all Work to be performed under this Bid shall commence approximately thirty (30) days after Contract execution.

In no event shall Village be obligated to pay for Work not performed or materials not furnished. Bidder's

V. Tab E - Proposal Approach

PROPOSAL APPROACH

Stage .-

Upon site inspection or notification, we will determine the appropriate size and type of stage for your event. All built stages are constructed using OSHA approved 4’ x 8’ decks, with proper leveling and a reinforced structure. To protect the setup surface, whether it is grass or tiles, we utilize proper wood pads under each stage leg.

Lighting .-

Lighting fixture positions will be determined based on the specific requirements of each project. We can provide either a static wash lighting or dynamic effects managed through a connectivity system overseen by a lighting designer.

Audio .-

We exclusively use professional audio equipment from Clair Brothers / Clair Global. We offer a variety of consoles suitable for both community events and touring acts. Our audio services include a professional microphone package, smart subsnake systems, and active wireless technology for optimal frequency accessibility. Frequency management is also available.

Public Entity Crimes Affidavit

I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentations.

I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime; or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, and partners, shareholders, employees, members, and agents who are active in management of an entity.

Based on information and belief, the statement, which I have marked below, is true in relation to the entity submitting this sworn statement.

(INDICATE WHICH STATEMENT APPLIES.)

[ ] Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with ad convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime after July 1, 1989.

TAB A /Form 6A: Single Execution Affidavits

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime after July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida , Division of Administrative Hearings and the final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list (attach a copy of the final order).

I understand that the submission of this form to the contracting officer for the public entity identified in paragraph 1 above is for that public entity only and that this form is valid through December 31 of the calendar year in which it is filed. I also understand that I am required to inform the public entity prior to entering a contract in excess of the threshold amount provided in Section 287.017, Florida Statutes for category two of any change in the information contained in this form.

Scrutinized Company Certification

1. Proposer certifies that it and its subcontractors are not on the Scrutinized Companies that Boycott Israel List. Pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this RFP at its sole option if the Proposer or its subcontractors are found to have submitted a false certification; or if the Proposer, or its subcontractors are placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
2. If the Agreement that may result from this RFP is for more than one million dollars, the Proposer certifies that it and its subcontractors are also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this RFP at its sole option if the Proposer, its affiliates, or its subcontractors are found to have submitted a false certification; or if the Proposer, its affiliates, or its subcontractors are placed on the Scrutinized Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

3. The Proposer agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under the Agreement that may result from this RFP. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize the above-stated contracting prohibitions then they shall become inoperative.

The undersigned proposer in accordance with Chapter 287.087, Florida Statutes, hereby certifies that Event Factor does:

(Name of proposer)

1. Publish a statement notifying employees that the unlawful manufacturing, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the contractual services described in the RFP document a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the contractual services described in the RFP or the Agreement, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

and he has read all addenda prior to the opening of Bids, and that he has satisfied himself fully, relative to all matters and conditions with respect to the Work to which this Bid pertains.

The Bidder proposes and agrees, if this Bid is accepted, to timely execute the Contract with the Village in the form attached and to furnish all necessary materials, all equipment, all necessary machinery, tools, apparatus, means of transportation, and labor necessary to complete the Work specified in the Bid and the Contract, and called for by the drawings and specifications and in the manner specified and to timely submit all required bonds and insurance certificates.

***NOTE:* THIS SCHEDULE OF BID ITEMS IS MERELY ILLUSTRATIVE OF THE MINIMUM AMOUNT/QUANTITY OF WORK TO BE PERFORMED UNDER THE CONTRACT. IN THE CASE OF ANY CONFLICT BETWEEN THIS SCHEDULE OF BID ITEMS AND THE DETAILED SPECIFICATIONS, THE DETAILED SPECIFICATIONS WILL PREVAIL.**

The Bidder further proposes and agrees to comply in all respects with the time limits for commencement and completion of the Work as stated in the Contract.

The Bidder agrees to execute the Contract and furnish the executed Contract, all required bonds, insurance certificates, and other required information to Village within ten (10) ten calendar days after written notice of the Award of Contract. The failure on the part of the Bidder to timely comply with this provision shall give Village all rights and remedies set forth in the Instructions to Bidders.

The undersigned agrees to accept as full compensation therefore the total of the lump sum prices and extended unit prices items named in the following schedule. It is understood that the unit prices quoted or established for a particular item are to be used for computing the amount to be paid to the Contractor, based on the Work actually performed as determined by the Contract and the Village. However, in utilizing the schedule, the Bidder agrees that in no event shall compensation paid to the Bidder under the Contract exceed the dollar amount of the Bidder's Bid amount, as set forth in the attached Bid.

It is intended that all Work to be performed under this Bid shall commence approximately thirty (30) days after Contract execution.

In no event shall Village be obligated to pay for Work not performed or materials not furnished. Bidder's

SERVICES AGREEMENT BETWEEN
THE VILLAGE OF KEY BISCAYNE
AND
Event Factor Inc

THIS AGREEMENT (this "Agreement") is made effective as of the _____ day of _____ _____, 2024 (the "Effective Date"), by and between the **VILLAGE OF KEY BISCAYNE, FLORIDA,** a Florida municipal corporation, (the "Village"), and **Event Factor**, a Florida S Corp (hereinafter, the "Consultant").

WHEREAS, the Village desires certain **SOUND, STAGE, LIGHTING AND EQUIPMENT RENTAL SERVICES** and

WHEREAS, the Consultant will perform services on behalf of the Village, all as further set forth in the Proposal dated June 6th 2025 , 2025, attached hereto as Exhibit "A" (the "Services"); and

WHEREAS, the Consultant and Village, through mutual negotiation, have agreed upon a fee for the Services; and

WHEREAS, the Village desires to engage the Consultant to perform the Services and provide the deliverables as specified below.

NOW, THEREFORE, in consideration of the mutual covenants and conditions contained herein, the Consultant and the Village agree as follows:

1. **Scope of Services**.

   1.1. Consultant shall provide the Services set forth in the Proposal attached hereto as Exhibit "A" and incorporated herein by reference (the "Services").

   1.2. Consultant shall furnish all reports, documents, and information obtained pursuant to this Agreement, and recommendations during the term of this Agreement (hereinafter "Deliverables") to the Village.

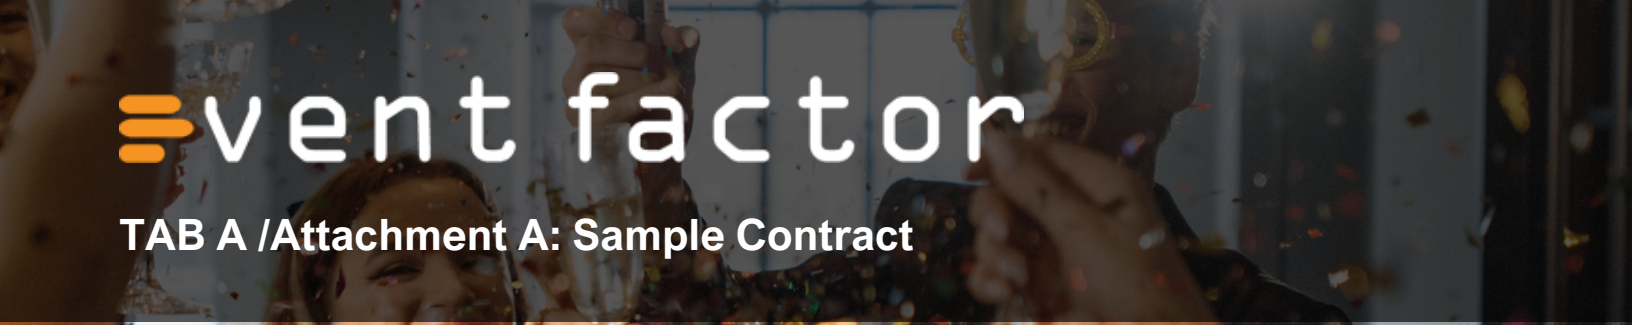
2. **Term/Commencement Date**.

   2.1. The term of this Agreement shall be from the Effective Date through one (1) years thereafter, unless earlier terminated in accordance with Paragraph 8. Additionally, the Village Manager may renew this Agreement for four (4) additional one (1) year periods on the same terms as set forth herein upon written notice to the Consultant.

   2.2. Consultant agrees that time is of the essence and Consultant shall complete the Services within the term of this Agreement, unless extended by the Village Manager.

3. **Compensation and Payment**.

SAMPLE



3.1. Compensation for Services provided by Consultant shall be in accordance with the Proposal attached hereto as Exhibit "A." Consultant shall be compensated a flat rate, lump sum fee in the amount of $XXXX.XX per month.

3.2. Consultant shall deliver an invoice to Village no more often than once per month detailing Services completed and the amount due to Consultant under this Agreement. Fees shall be paid in arrears each month, pursuant to Consultant's invoice, which shall be based upon the percentage of work completed for each task invoiced. The Village shall pay the Consultant in accordance with the Florida Prompt Payment Act after approval and acceptance of the Services by the Village Manager.

3.3. Contractor's invoices must contain the following information for prompt payment:

3.3.1. Name and address of the Consultant;

3.3.2. Purchase Order number;

3.3.3. Contract number;

3.3.4. Date of invoice;

3.3.5. Invoice number (Invoice numbers cannot be repeated. Repeated invoice numbers will be rejected);

3.3.6. Name and type of Services;

3.3.7. Timeframe covered by the invoice; and

3.3.8. Total value of invoice.

Failure to include the above information will result in a delay of payment or rejection of the invoice. All invoices must be submitted electronically to payables@keybiscayne.fl.gov.

4. Subconsultants.

4.1. The Consultant shall be responsible for all payments to any subconsultants and shall maintain responsibility for all work related to the Services.

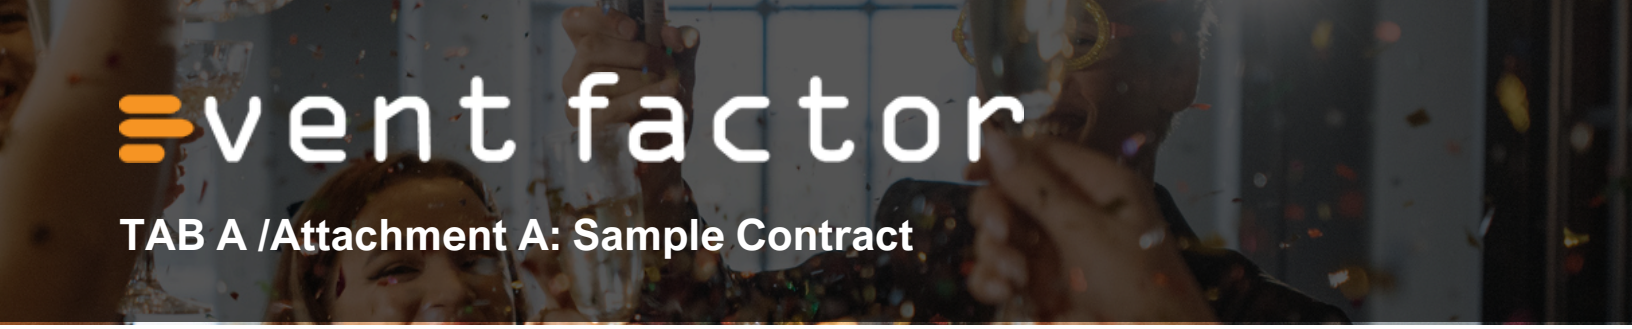
4.2. Consultant may only utilize the services of a particular subconsultant with the prior written approval of the Village Manager, which approval may be granted or withheld in the Village Manager's sole and absolute discretion.

5. Village's Responsibilities.

5.1. Village shall make available any maps, plans, existing studies, reports, staff and representatives, and other data pertinent to the Services and in possession of the Village, and provide criteria requested by Consultant to assist Consultant in performing the Services.

5.2. Upon Consultant's request, Village shall reasonably cooperate in arranging access to public information that may be required for Consultant to perform the Services.

SAMPLE



6. **Consultant's Responsibilities; Representations and Warranties.**

6.1. The Consultant shall exercise the same degree of care, skill and diligence in the performance of the Services as is ordinarily provided by a consultant under similar circumstances. If at any time during the term of this Agreement or within two (2) years from the completion of this Agreement, it is determined that the Consultant's Deliverables or Services are incorrect, not properly rendered, defective, or fail to conform to Village requests, the Consultant shall at Consultant's sole expense, immediately correct its Deliverables or Services.

6.2. The Consultant hereby warrants and represents that at all times during the term of this Agreement it shall maintain in good standing all required licenses, certifications and permits required under Federal, State and local laws applicable to and necessary to perform the Services for Village as an independent contractor of the Village. Consultant further warrants and represents that it has the required knowledge, expertise, and experience to perform the Services and carry out its obligations under this Agreement in a professional and first-class manner.

6.3. The Consultant represents that is an entity validly existing and in good standing under the laws of Florida. The execution, delivery and performance of this Agreement by Consultant have been duly authorized, and this Agreement is binding on Consultant and enforceable against Consultant in accordance with its terms. No consent of any other person or entity to such execution, delivery and performance is required.

7. **Conflict of Interest.**

7.1. To avoid any conflict of interest or any appearance thereof, Consultant shall not, for the term of this Agreement, provide any consulting services to any private sector entities (developers, corporations, real estate investors, etc.), with any current, or foreseeable, adversarial issues in the Village.

8. **Termination.**

8.1. The Village Manager, without cause, may terminate this Agreement upon five (5) calendar days' written notice to the Consultant, or immediately with cause.

8.2. Upon receipt of the Village's written notice of termination, Consultant shall immediately stop work on the project unless directed otherwise by the Village Manager.

8.3. In the event of termination by the Village, the Consultant shall be paid for all work accepted by the Village Manager up to the date of termination, provided that the Consultant has first complied with the provisions of Paragraph 8.4.

8.4. The Consultant shall transfer all books, records, reports, working drafts, documents, maps, and data pertaining to the Services and the project to the Village, in a hard copy and electronic format within fourteen (14) days from the date of the written notice of termination or the date of expiration of this Agreement.

9. **Insurance.**

9.1. Consultant shall secure and maintain throughout the duration of this agreement insurance of such types and in such amounts not less than those specified below as satisfactory to Village,

SAMPLE

naming the Village as an Additional Insured, underwritten by a firm rated A-X or better by A.M. Best and qualified to do business in the State of Florida. The insurance coverage shall be primary insurance with respect to the Village, its officials, employees, agents, and volunteers naming the Village as additional insured. Any insurance maintained by the Village shall be in excess of the Consultant's insurance and shall not contribute to the Consultant's insurance. The insurance coverage shall include at a minimum the amounts set forth in this section and may be increased by the Village as it deems necessary or prudent.

9.1.1. Commercial General Liability coverage with limits of liability of not less than a $1,000,000 per Occurrence combined single limit for Bodily Injury and Property Damage. This Liability Insurance shall also include Completed Operations and Product Liability coverages and eliminate the exclusion with respect to property under the care, custody and control of Consultant. The General Aggregate Liability limit and the Products/Completed Operations Liability Aggregate limit shall be in the amount of $2,000,000 each.

9.1.2. Workers Compensation and Employer's Liability insurance, to apply to all employees for statutory limits as required by applicable State and Federal laws. The policy(ies) must include Employer's Liability with minimum limits of $1,000,000.00 for each accident. No employee, subcontractor or agent of the Consultant shall be allowed to provide Services pursuant to this Agreement who is not covered by Worker's Compensation insurance.

9.1.3. Business Automobile Liability with minimum limits of $1,000,000 per occurrence, combined single limit for Bodily Injury and Property Damage. Coverage must be afforded on a form no more restrictive than the latest edition of the Business Automobile Liability policy, without restrictive endorsements, as filed by the Insurance Service Office, and must include Owned, Hired, and Non-Owned Vehicles.

9.1.4. Professional Liability Insurance in an amount of not less than One Million Dollars ($1,000,000.00) per occurrence, single limit.

9.2. **Certificate of Insurance.** Certificates of Insurance shall be provided to the Village, reflecting the Village as an Additional Insured (except with respect to Professional Liability Insurance and Worker's Compensation Insurance), no later than ten (10) days after award of this Agreement and prior to the execution of this Agreement by Village and prior to commencing Services. Each certificate shall include no less than (30) thirty-day advance written notice to Village prior to cancellation, termination, or material alteration of said policies or insurance. The Consultant shall be responsible for assuring that the insurance certificates required by this Section remain in full force and effect for the duration of this Agreement, including any extensions or renewals that may be granted by the Village. The Certificates of Insurance shall not only name the types of policy(ies) provided, but also shall refer specifically to this Agreement and shall state that such insurance is as required by this Agreement. The Village reserves the right to inspect and return a certified copy of such policies, upon written request by the Village. If a policy is due to expire prior to the completion of the Services, renewal Certificates of Insurance shall be furnished thirty (30) calendar days prior to the date of their policy expiration. Each policy certificate shall be endorsed with a provision that not less than thirty (30) calendar days' written notice shall be provided to the Village before any policy or coverage is cancelled or restricted. Acceptance of the Certificate(s) is subject to approval of the Village.

SAMPLE

9.3. **Additional Insured.** Except with respect to Professional Liability Insurance and Worker's Compensation Insurance, the Village is to be specifically included as an Additional Insured for the liability of the Village resulting from Services performed by or on behalf of the Consultant in performance of this Agreement. The Consultant's insurance, including that applicable to the Village as an Additional Insured, shall apply on a primary basis and any other insurance maintained by the Village shall be in excess of and shall not contribute to the Consultant's insurance. The Consultant's insurance shall contain a severability of interest provision providing that, except with respect to the total limits of liability, the insurance shall apply to each Insured or Additional Insured (for applicable policies) in the same manner as if separate policies had been issued to each.

9.4. **Deductibles.** All deductibles or self-insured retentions must be declared to and be reasonably approved by the Village. The Consultant shall be responsible for the payment of any deductible or self-insured retentions in the event of any claim.

9.5. The provisions of this section shall survive termination of this Agreement.

10. **Nondiscrimination.** During the term of this Agreement, Consultant shall not discriminate against any of its employees or applicants for employment because of their race, color, religion, sex, or national origin, and will abide by all Federal and State laws regarding nondiscrimination.

11. **Attorney's Fees and Waiver of Jury Trial.**

11.1. In the event of any litigation arising out of this Agreement, the prevailing party shall be entitled to recover its attorneys' fees and costs, including the fees and expenses of any paralegals, law clerks and legal assistants, and including fees and expenses charged for representation at both the trial and appellate levels.

11.2. IN THE EVENT OF ANY LITIGATION ARISING OUT OF THIS AGREEMENT, EACH PARTY HEREBY KNOWINGLY, IRREVOCABLY, VOLUNTARILY AND INTENTIONALLY WAIVES ITS RIGHT TO TRIAL BY JURY.

12. **Indemnification.**

12.1. Consultant shall indemnify and hold harmless the Village, its officers, agents and employees, from and against any and all demands, claims, losses, suits, liabilities, causes of action, judgment or damages, arising from Consultant's performance or non-performance of any provision of this Agreement, including, but not limited to, liabilities arising from contracts between the Consultant and third parties made pursuant to this Agreement. Consultant shall reimburse the Village for all its expenses including reasonable attorneys' fees and costs incurred in and about the defense of any such claim or investigation and for any judgment or damages arising from Consultant's performance or non-performance of this Agreement.

12.2. Nothing herein is intended to serve as a waiver of sovereign immunity by the Village nor shall anything included herein be construed as consent to be sued by third parties in any matter arising out of this Agreement or any other contract. The Village is subject to section 768.28, Florida Statutes, as may be amended from time to time.

12.3. The provisions of this section shall survive termination of this Agreement.

SAMPLE

13. **Notices/Authorized Representatives.** Any notices required by this Agreement shall be in writing and shall be deemed to have been properly given if transmitted by hand-delivery, by registered or certified mail with postage prepaid return receipt requested, or by a private postal service, addressed to the parties (or their successors) at the addresses listed on the signature page of this Agreement or such other address as the party may have designated by proper notice.

14. **Governing Law and Venue**. This Agreement shall be construed in accordance with and governed by the laws of the State of Florida. Venue for any proceedings arising out of this Agreement shall be proper exclusively in Miami-Dade County, Florida.

15. **Entire Agreement/Modification/Amendment.**

15.1. This writing contains the entire Agreement of the parties and supersedes any prior oral or written representations. No representations were made or relied upon by either party, other than those that are expressly set forth herein.

15.2. No agent, employee, or other representative of either party is empowered to modify or amend the terms of this Agreement, unless executed with the same formality as this document.

16. **Ownership and Access to Records and Audits.**

16.1. Consultant acknowledges that all inventions, innovations, improvements, developments, methods, designs, analyses, drawings, reports, compiled information, and all similar or related information (whether patentable or not) which relate to Services to the Village which are conceived, developed or made by Consultant during the term of this Agreement ("Work Product") belong to the Village. Consultant shall promptly disclose such Work Product to the Village and perform all actions reasonably requested by the Village (whether during or after the term of this Agreement) to establish and confirm such ownership (including, without limitation, assignments, powers of attorney and other instruments).

16.2. Consultant agrees to keep and maintain public records in Consultant's possession or control in connection with Consultant's performance under this Agreement. The Village Manager or her designee shall, during the term of this Agreement and for a period of three (3) years from the date of termination of this Agreement, have access to and the right to examine and audit any records of the Consultant involving transactions related to this Agreement. Consultant additionally agrees to comply specifically with the provisions of Section 119.0701, Florida Statutes. Consultant shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed, except as authorized by law, for the duration of the Agreement, and following completion of the Agreement until the records are transferred to the Village.

16.3. Upon request from the Village's custodian of public records, Consultant shall provide the Village with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided by Chapter 119, Florida Statutes, or as otherwise provided by law.

16.4. Unless otherwise provided by law, any and all records, including but not limited to reports, surveys, and other data and documents provided or created in connection with this Agreement are and shall remain the property of the Village.

SAMPLE

16.5. Upon completion of this Agreement or in the event of termination by either party, any or all public records relating to the Agreement in the possession of the Consultant shall be delivered by the Consultant to the Village Manager, at no cost to the Village, within seven (7) days. All such records stored electronically by Consultant shall be delivered to the Village in a format that is compatible with the Village's information technology systems. Once the public records have been delivered upon completion or termination of this Agreement, the Consultant shall destroy any and all duplicate public records that are exempt or confidential and exempt from public records disclosure requirements.

16.6. Any compensation due to Consultant shall be withheld until all records are received as provided herein.

16.7. Consultant's failure or refusal to comply with the provisions of this section shall result in the immediate termination of this Agreement by the Village.

16.8. **Notice Pursuant to Section 119.0701(2)(a), Florida Statutes.** **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS.**

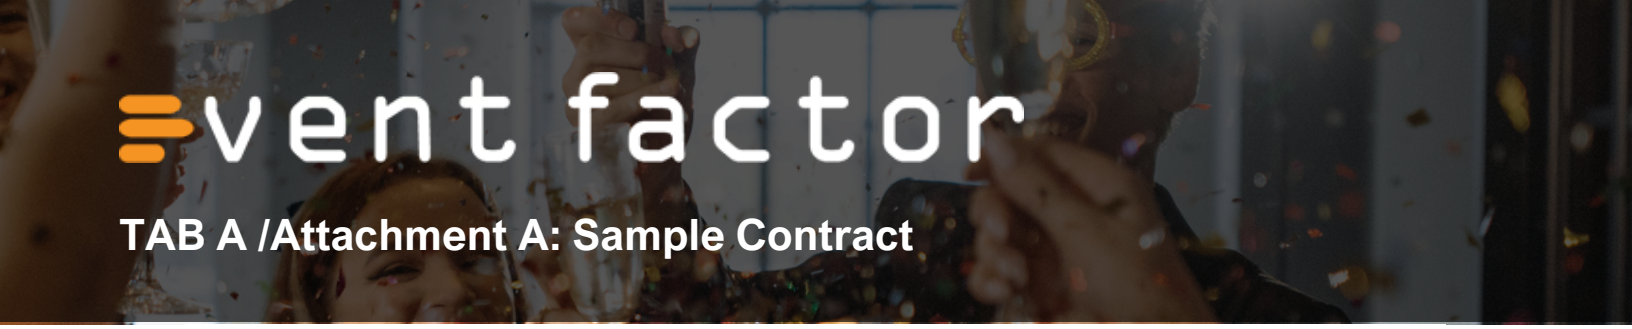
17. Nonassignability. This Agreement shall not be assignable by Consultant unless such assignment is first approved by the Village Manager. The Village is relying upon the apparent qualifications and expertise of the Consultant, and such firm's familiarity with the Village's area, circumstances and desires.

18. Severability. If any term or provision of this Agreement shall to any extent be held invalid or unenforceable, the remainder of this Agreement shall not be affected thereby, and each remaining term and provision of this Agreement shall be valid and be enforceable to the fullest extent permitted by law.

19. Independent Contractor. The Consultant and its employees, volunteers and agents shall be and remain an independent contractor and not an agent or employee of the Village with respect to all of the acts and services performed by and under the terms of this Agreement. This Agreement shall not in any way be construed to create a partnership, association or any other kind of joint undertaking, enterprise or venture between the parties.

20. Compliance with Laws. The Consultant shall comply with all applicable laws, ordinances, rules, regulations, and lawful orders of public authorities in carrying out Services under this Agreement, and in particular shall obtain all required permits from all jurisdictional agencies to perform the Services under this Agreement at its own expense.

SAMPLE



21. **Waiver.** The failure of either party to this Agreement to object to or to take affirmative action with respect to any conduct of the other which is in violation of the terms of this Agreement shall not be construed as a waiver of the violation or breach, or of any future violation, breach or wrongful conduct.

22. **Survival of Provisions.** Any terms or conditions of either this Agreement that require acts beyond the date of the term of the Agreement, shall survive termination of the Agreement, shall remain in full force and effect unless and until the terms or conditions are completed and shall be fully enforceable by either party.

23. **Prohibition of Contingency Fees.** The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant, to solicit or secure this Agreement, and that it has not paid or agreed to pay any person(s), company, corporation, individual or firm, other than a bona fide employee working solely for the Consultant, any fee, commission, percentage, gift, or any other consideration, contingent upon or resulting from the award or making of this Agreement.

24. **Public Entity Crimes Affidavit.** Consultant shall comply with Section 287.133, Florida Statutes (Public Entity Crimes Statute), notification of which is hereby incorporated herein by reference, including execution of any required affidavit.

25. **Counterparts.** This Agreement may be executed in several counterparts, each of which shall be deemed an original and such counterparts shall constitute one and the same instrument.

26. **Conflicts.** In the event of a conflict between the terms of this Agreement and any exhibits or attachments hereto, the terms of this Agreement shall control.

27. **E-Verify Affidavit.** In accordance with Section 448.095, Florida Statutes, the Village requires all contractors doing business with the Village to register with and use the E-Verify system to verify the work authorization status of all newly hired employees. The Village will not enter into a contract unless each party to the contract registers with and uses the E-Verify system. The contracting entity must provide its proof of enrollment in E-Verify. For instructions on how to provide proof of the contracting entity's participation/enrollment in E-Verify, please visit: https://www.e-verify.gov/faq/how-do-i-provide-proof-of-my-participationenrollment-in-e-verify. By entering into this Agreement, the Contractor acknowledges that it has read Section 448.095, Florida Statutes; will comply with the E-Verify requirements imposed by Section 448.095, Florida Statutes, including but not limited to obtaining E-Verify affidavits from subcontractors; and has executed the required affidavit attached hereto and incorporated herein.

Event Factor Inc.
June 10, 2025

To Whom It May Concern,

Event Factor Inc. is pleased to submit this Statement of Financial Stability as part of our response to RFP #2025-08 – Sound, Stage, Lighting, and Equipment Rental Services for the Village of Key Biscayne.

Since our establishment, Event Factor Inc. has maintained a solid financial position, enabling us to support the scope, scale, and complexity of public-sector event production contracts. We are financially capable of delivering all services outlined in this solicitation, including equipment rental, staging, sound, lighting, and on-site technical support, with full operational and financial continuity.

As evidence of our financial stability, we confirm the following:

- Positive and reliable cash flow, with access to sufficient working capital and credit lines to support multi-day and multi-phase public events.
- No record of bankruptcy, liens, or pending litigation that would impede our ability to meet contract obligations.
- Strong vendor and subcontractor relationships, supported by a history of timely payments and positive credit references.
- Current insurance coverage and bonding capacity fully aligned with the requirements of RFP #2025-08.
- Willingness to provide supporting documentation—such as financial statements, bank references, or tax filings—upon request from the Village.

Event Factor Inc. remains committed to fiscal responsibility and is confident in our ability to execute this contract with financial reliability and professional excellence. We thank the Village of Key Biscayne for this opportunity and look forward to the potential of working together.

Sincerely,

Michael Feria
President
Event Factor Inc.

Event Factor Inc.
RFP #2025-08 – Sound, Stage, Lighting, and Equipment Rental Services
Village of Key Biscayne

Event Factor Inc. is pleased to submit this proposal to provide professional sound, stage, lighting, and equipment rental services to the Village of Key Biscayne. With over 15 years of industry experience, Event Factor has established itself as a premier full-service event production company in South Florida, offering cutting-edge technology, technical expertise, and unparalleled customer service to municipalities, corporate clients, non-profits, and cultural organizations.

Our company specializes in turnkey event solutions for both indoor and outdoor productions, including concerts, community events, festivals, corporate gatherings, and public ceremonies. We have consistently demonstrated our ability to meet and exceed the demands of high-profile events by providing reliable, safe, and innovative production services. Our commitment to professionalism and excellence ensures that each project is delivered on time, within budget, and with outstanding technical execution.

Led by President Michael Feria, Event Factor operates with a highly trained in-house staff of production managers, certified audio engineers, lighting designers, stage technicians, and logistics coordinators. This vertically integrated team allows us to provide complete control over quality and responsiveness. We own and operate an extensive inventory of professional-grade equipment including modular staging systems, line-array speaker systems, digital mixing consoles, intelligent and architectural lighting fixtures, truss structures, video walls, and backup power solutions.

Event Factor is intimately familiar with the unique challenges and opportunities of producing events in coastal and municipal environments like Key Biscayne. We maintain a rigorous safety and logistics protocol to account for weather conditions, crowd control, and site-specific requirements. All staff adhere to OSHA and local safety guidelines, and our equipment is maintained to the highest industry standards. We are fully licensed and insured, and we collaborate closely with fire, police, and municipal agencies to ensure smooth event operations.

TAB B - EXECUTIVE SUMMARY

Our prior experience includes successful partnerships with municipalities such as the City of Miami, Coral Gables, Hialeah, and Miami Beach, where we have delivered comprehensive production services for public concerts, holiday celebrations, parades, and other civic events. We understand the public visibility and stakeholder importance of municipal events and take pride in our ability to deliver results that reflect positively on our clients and their communities.
Why Event Factor is Best Qualified

Event Factor believes we are best qualified to serve the Village of Key Biscayne for the following reasons:

1. Proven Track Record with Municipal Clients – Our portfolio includes numerous recurring public sector contracts, with consistently high satisfaction ratings from city officials, residents, and attendees alike.
2. State-of-the-Art Equipment and Expertise – We invest in the latest technology and continually train our staff to ensure optimal sound, lighting, and stage production performance.
3. Comprehensive, Turnkey Solutions – From planning to execution, we manage every detail to minimize risk and maximize impact, reducing the burden on municipal staff.
4. Safety, Compliance, and Insurance – Event Factor operates with full compliance to all regulatory standards and carries comprehensive insurance coverage for personnel and equipment.
5. Client-Centered Service Philosophy – We prioritize clear communication, transparency, and flexibility to adapt to evolving event needs, always striving to exceed expectations.
6.

In conclusion, Event Factor Inc. is uniquely positioned to provide the Village of Key Biscayne with dependable, high-quality event production services that align with the goals and values of the community. We bring the technical proficiency, creative vision, and operational reliability required to support successful public events that enrich the lives of residents and visitors alike. We welcome the opportunity to serve as your trusted partner for this RFP and beyond.

Sincerely,

Michael Feria
President and CEO
Event Factor

TAB B - Deliverables

Event Factor Inc. will provide the following deliverables for each event supported under this contract:

- Professional-grade sound system scaled to the event's audience and venue.
- Modular staging platform with safety rails, steps, skirting, and ADA-compliant access, as needed.
- Custom lighting system including LED wash lights, intelligent moving heads, gobos, truss, and control consoles.
- Power distribution and backup systems, including generators and UPS as needed.
- Audio/video engineering and technical staff including FOH audio engineers, lighting designers, and stage technicians.
- Event load-in, setup, operation, strike, and load-out.
- On-site technical support throughout each event.
- Transportation and logistics coordination for all production equipment.
- Compliance documentation including insurance certificates, permits, and safety checklists.
- Post-event summary report (upon request), including incident logs, photos, and equipment condition notes.

A. Pre-Event Planning

- Participate in pre-production meetings with Village staff.
- Conduct site visits and evaluate power, stage placement, and safety considerations.
- Coordinate logistics and technical requirements based on event schedule.
- Develop a technical plan including layouts, schedules, and contingency strategies.
- Submit necessary documentation such as insurance, safety plans, and production timelines.

B. Equipment Provision and Setup

- Deliver and install professional staging systems appropriate to event scope.
- Configure and test audio systems, including main speakers, monitors, microphones, DI boxes, and mixing consoles.
- Set up lighting systems including truss, LED fixtures, control systems, and specialty lighting where applicable.
- Install power and backup solutions to support all systems safely.
- Conduct pre-event inspections and sound/light checks.

C. Event Operation

- Operate sound and lighting systems throughout the event.
- Provide on-site technicians to adjust sound and lighting levels in real-time.
- Ensure all equipment runs without disruption and adheres to technical plans.

D. Post-Event Breakdown

- De-rig and remove all equipment in a safe and efficient manner.
- Restore venue to its original condition.
- Provide documentation or reports as needed to Village staff.

event factor

TAB B - List of Exceptions

Event Factor Inc. provides comprehensive services with very limited exceptions. However, the following items are outside the base scope and would require prior coordination or client-provided services:

- **Permits and Event Licenses:** Event Factor will assist in identifying permit needs but assumes the Village will secure necessary city or county event permits unless specified otherwise.
- **Security, Fire, and Police Coordination:** Event Factor will collaborate with public safety departments but does not provide security or emergency personnel.
- **Artist Booking and Performance Management:** While we support artists' technical riders, we do not engage in talent acquisition or entertainment management under this contract.
- **Ground Infrastructure or Construction Services:** Event Factor does not provide ground leveling, tenting, fencing, or structural construction unrelated to staging.
- **Inclement Weather Cancellations:** Equipment and labor costs incurred prior to cancellation due to weather or force majeure are non-refundable but rescheduling can be accommodated.
- **Venue-specific Restrictions:** Event Factor relies on the Village to disclose venue limitations (e.g., curfews, noise ordinances, load-in restrictions).

a. Qualification of Firm

Event Factor Inc. is a South Florida-based full-service event production company with over 15 years of experience delivering professional sound, stage, lighting, and equipment rental services for public, private, and non-profit events. Our team has successfully supported numerous municipal and community events, including large-scale concerts, parades, festivals, and official ceremonies. Event Factor is fully licensed and insured, with a proven track record of reliability, compliance, and creativity. We own and operate an expansive inventory of state-of-the-art AV and staging equipment, eliminating the need for outsourcing and ensuring complete control over quality and logistics.

b. Qualification of Staff

Our team consists of highly experienced and certified professionals in the fields of event production, technical operations, and logistics management. Key personnel include:

- **Michael Feria, President** – With over two decades of industry experience, Michael leads the company's strategic planning and client relations and is involved in all major contracts.
- **Production Managers and Technical Directors** – All possess over 10 years of hands-on experience in managing municipal and live productions.
- **Certified Audio Engineers and Lighting Designers** – Skilled in both digital and analog systems, line arrays, DMX programming, and live event troubleshooting.
- **Stage Crew and Logistics Coordinators** – Trained in OSHA safety standards, with expertise in rigging, load-ins/outs, and complex outdoor installations.

Each member of our core team is cross-trained to ensure flexibility, speed, and consistency in service delivery.

c. Industry Knowledge and Expertise

Event Factor stays at the forefront of live event technology and trends. We regularly invest in training and equipment upgrades to meet the evolving needs of both clients and audiences. Our leadership is involved in regional industry associations and maintains working relationships with leading manufacturers and vendors. We are highly experienced with the challenges of outdoor, waterfront, and municipal events, including environmental conditions, permitting, power distribution, and crowd control coordination.

d. Project Management and Special Services

Event Factor uses a comprehensive project management approach tailored to each event's scope and budget. Our services include:

- Pre-event planning and consultation
- Site analysis and technical drawings
- Detailed production timelines and contingency plans
- Turnkey logistics coordination
- Real-time on-site troubleshooting
- Post-event breakdown and reporting

We offer scalable solutions and are capable of managing concurrent events and last-minute changes without compromising service quality. Our in-house inventory and staffing model ensure maximum responsiveness and cost control.

e. Past Performance

Event Factor has delivered consistent, high-quality service for the following recent and relevant contracts:

1. **City of Miami – Bayfront Park New Year's Eve Celebration**
   - Contract: Multi-year annual production
   - Services: Full stage, sound, lighting, video wall, and power
   - Contact: David Torres, Events Manager – (305) 555-0138
2. **City of Coral Gables – Holiday Spectacular**
   - Contract: Annual lighting and sound production for tree lighting and performances
   - Services: Sound, lighting design, custom gobos, and stage management
   - Contact: Alicia Gomez, Special Events – (305) 555-0176
3. **City of Hialeah – 4th of July Celebration**

TAB E - STANDARD MODULAR STAGE SETUP FOR KEY BISCAYNE VENUES

Introduction

The Event Factor is pleased to offer a comprehensive modular staging solution customized for Key Biscayne's unique venues and environmental conditions. Our system is designed to provide a safe, adaptable, and visually appealing platform that meets the highest standards of quality and safety, ensuring flawless event execution regardless of weather or venue constraints.

1. Stage Design & Configuration

- Modular Platforms:
- Utilizing 4' x 8' stage modules that can be configured to fit event requirements,
f from small intimate setups (16'x16') to larger presentations and performances (up to 32'x24'). Adjustable stage height ranges between 12" and 36".
- Structural Integrity:
- Constructed from durable, corrosion-resistant aluminum frames with non-slip decking surfaces. Engineered to safely support equipment and performer loads, exceeding local safety codes.
- Accessibility:
- Compliant with ADA standards, with ramps and safety railings available upon request.
- Trussing and Backdrop Options:
- Fully integrated trussing systems for lighting and audio rigging, along with customizable stage backdrops tailored to the event's branding or theme.

2. Weather Preparedness & Environmental Adaptations

- Coastal-Grade Materials:
- All stage components are resistant to corrosion and designed to withstand the humid and saline air typical of Key Biscayne's coastal environment.
- Protective Coverings:
- Deployable canopy systems and weatherproof tents safeguard performers and equipment from sun and rain.
- Wind Load Stability:
- Anchoring systems with weighted bases ensure the stage remains stable under coastal wind conditions.
- Emergency Weather Protocol:
- Rapid disassembly and protective storage plans activated if severe weather threatens event safety.

3. Safety and Compliance

- Site-Specific Assessments:
- Prior to each event, our team conducts a detailed venue inspection to ensure compliance with local regulations and identify any potential hazards.
- Professional Assembly:
- Stages are assembled and inspected by certified technicians, with on-site safety monitoring throughout the event.
- Emergency Management:
- Clear evacuation procedures and trained staff ready to respond to emergencies, ensuring guest safety at all times.

4. Operational Assurance: Ensuring Disruption-Free Events

- Advance Setup and Testing:
- Full technical setup completed prior to event start, including sound, lighting, and structural checks.
- Redundancy and On-Site Support:
- Backup audio and lighting equipment on hand, with technicians available for immediate troubleshooting.
- Weather Monitoring:
- Continuous tracking of weather conditions with proactive communication to event organizers and venue managers, enabling timely adjustments.

Conclusion

The Event Factor’s modular stage system delivers a versatile, secure, and weather-resilient solution that aligns perfectly with Key Biscayne’s venues and safety requirements. Our commitment to excellence and meticulous operational planning guarantees a smooth, memorable event experience for clients and guests alike.

MEMORANDUM

DATE: August 19, 2025

TO: Honorable Mayor and Councilmembers

FROM: Steven C. Williamson, Village Manager

RE: Iguana Control Contract

RECOMMENDATION

Recommended the Village Council authorize the Village Manager to negotiate and enter into an agreement with IggyTrap of Florida LLC, the highest ranked proposal for Iguana Pest Control Services. The proposed agreement will be for an initial one (1) year term with four (4) optional one-year extensions in an amount not to exceed $65,000 annually.

DISCUSSION

Purpose: Improved iguana population control will enhance the usability of our public spaces and assist with ensuring community safety. Iguana removal addresses public nuisance and infrastructure degradation caused by the overpopulation of this invasive species.

Background: In response to the need to improve the control of the iguana population in our public spaces, the Village issued Request for Proposals No. 2025-02 on March 17, 2025 soliciting qualified and experienced company to minimize the impact of green iguana in our public spaces. The bid was publicly advertised, posted on the Village's website and DemandStar, and supported by a non-mandatory pre-bid meeting held on April 8, 2025. Bids were due on May 1, 2025

The Village previously solicited iguana control service in 2020 and again in 2023. The same vendor was selected on both occasions. While initial performance was acceptable the provider is no longer meeting the Village's expectations.

Justification: Iggy Trap of Florida provided the most comprehensive package with multiple methods of trapping and catching and demonstrated an understanding of the Village's priorities and offered tailored remediation and removal solutions using advanced invasive species technology and innovative services.

Implementation/Integration Plan: Once the Village enters into the agreement with IggyTrap of Florida LLC it will terminate the existing agreement with Blue Iguana Pest Control, Inc. executed in 2023. The Village used IggyTrap on a trail basis to remove iguanas prior to the opening of the under 5 playground and they excelled in both effectiveness as well as pre and post visit communication. The $8,215 in budget remaining will fund the program until the FY 26 budget is adopted.

RESOURCE IMPACT

Recurring Funding: $65,000 annual with a potential five year full-term total of $325,000. The annual not to exceed annual budget will be evaluated annually.

Personnel: PROS staff currently manage the coordination and oversight of the iguana control program and that would remain at the same level under the new agreement.

FUNDING SOURCES

The $8,215 budgeted funds remaining will fund the program until the FY 26 budget is adopted.

PROFESSIONAL SERVICES AGREEMENT

BETWEEN

THE VILLAGE OF KEY BISCAYNE

AND

IGGY TRAP OF FLORIDA, LLC

THIS AGREEMENT (this "Agreement") is made effective as of the _____ day of _____, 2025 (the "Effective Date"), by and between the **VILLAGE OF KEY BISCAYNE, FLORIDA,** a Florida municipal corporation, (the "Village"), and **IGGY TRAP OF FLORIDA, LLC**, a Florida limited liability company (hereinafter, the "Consultant").

WHEREAS, the Village is in need of iguana pest control services, all as set forth in greater detail in the Scope of Services attached hereto as Exhibit "A" (the "Services"); and

WHEREAS, on May 1, 2025, the Village issued Request for Proposal No. 2025-02 ("RFP") for the Services

WHEREAS, in response to the RFP, the Consultant submitted a proposal to perform the Services on behalf of the Village in an amount not to exceed $65,000 annually, all as further set forth in the Consultant's Proposal attached hereto as Exhibit "B"; and

WHEREAS, the Village desires to engage the Consultant to perform the Services and provide the deliverables as specified below.

NOW, THEREFORE, in consideration of the mutual covenants and conditions contained herein, the Consultant and the Village agree as follows:

1. **Scope of Services.**

1.1. Consultant shall provide the Services set forth in the Scope of Services attached hereto as Exhibit "A" and the Proposal attached hereto as Exhibit "B," which Exhibits are incorporated herein by reference.

1.2. Consultant shall furnish all reports, documents, and information obtained pursuant to this Agreement, and recommendations during the term of this Agreement (hereinafter "Deliverables") to the Village.

2. **Term/Commencement Date.**

2.1. The term of this Agreement shall be from the Effective Date through one (1) year thereafter, unless earlier terminated in accordance with Paragraph 8. Additionally, the Village Manager may renew this Agreement for four additional one (1) year periods on the same terms as set forth herein upon written notice to the Consultant.

2.2. Consultant agrees that time is of the essence and Consultant shall complete the Services within the term of this Agreement, unless extended by the Village Manager.

3. Compensation and Payment.

3.1. Compensation for Services provided by Consultant shall be in an amount not to exceed $65,000 annually in accordance with the Proposal attached hereto as Exhibit "B."

3.2. Consultant shall deliver an invoice to Village no more often than once per month detailing Services completed and the amount due to Consultant under this Agreement. Fees shall be paid in arrears each month, pursuant to Consultant's invoice, which shall be based upon the percentage of work completed for each task invoiced. The Village shall pay the Consultant in accordance with the Florida Prompt Payment Act after approval and acceptance of the Services by the Village Manager.

3.3. Contractor's invoices must contain the following information for prompt payment:

3.3.1. Name and address of the Consultant;

3.3.2. Purchase Order number;

3.3.3. Contract number;

3.3.4. Date of invoice;

3.3.5. Invoice number (Invoice numbers cannot be repeated. Repeated invoice numbers will be rejected);

3.3.6. Name and type of Services;

3.3.7. Timeframe covered by the invoice; and

3.3.8. Total value of invoice.

Failure to include the above information will result in the delay of payment or rejection of the invoice. All invoices must be submitted electronically to payables@keybiscayne.fl.gov.

4. Subconsultants.

4.1. The Consultant shall be responsible for all payments to any subconsultants and shall maintain responsibility for all work related to the Services.

4.2. Consultant may only utilize the services of a particular subconsultant with the prior written approval of the Village Manager, which approval may be granted or withheld in the Village Manager's sole and absolute discretion.

5. Village's Responsibilities.

5.1. Village shall make available any maps, plans, existing studies, reports, staff and representatives, and other data pertinent to the Services and in possession of the Village, and provide criteria requested by Consultant to assist Consultant in performing the Services.

DRAFT

5.2. Upon Consultant's request, Village shall reasonably cooperate in arranging access to public information that may be required for Consultant to perform the Services.

6. Consultant's Responsibilities; Representations and Warranties.

6.1. The Consultant shall exercise the same degree of care, skill and diligence in the performance of the Services as is ordinarily provided by a consultant under similar circumstances. If at any time during the term of this Agreement or within two (2) years from the completion of this Agreement, it is determined that the Consultant's Deliverables or Services are incorrect, not properly rendered, defective, or fail to conform to Village requests, the Consultant shall at Consultant's sole expense, immediately correct its Deliverables or Services.

6.2. The Consultant hereby warrants and represents that at all times during the term of this Agreement it shall maintain in good standing all required licenses, certifications and permits required under Federal, State and local laws applicable to and necessary to perform the Services for Village as an independent contractor of the Village. Consultant further warrants and represents that it has the required knowledge, expertise, and experience to perform the Services and carry out its obligations under this Agreement in a professional and first class manner.

6.3. The Consultant represents that is an entity validly existing and in good standing under the laws of Florida. The execution, delivery and performance of this Agreement by Consultant have been duly authorized, and this Agreement is binding on Consultant and enforceable against Consultant in accordance with its terms. No consent of any other person or entity to such execution, delivery and performance is required.

7. Conflict of Interest.

7.1. To avoid any conflict of interest or any appearance thereof, Consultant shall not, for the term of this Agreement, provide any consulting services to any private sector entities (developers, corporations, real estate investors, etc.), with any current, or foreseeable, adversarial issues in the Village.

8. Termination.

8.1. The Village Manager, without cause, may terminate this Agreement upon five (5) calendar days' written notice to the Consultant, or immediately with cause.

8.2. Upon receipt of the Village's written notice of termination, Consultant shall immediately stop work on the project unless directed otherwise by the Village Manager.

8.3. In the event of termination by the Village, the Consultant shall be paid for all work accepted by the Village Manager up to the date of termination, provided that the Consultant has first complied with the provisions of Paragraph 8.4.

8.4. The Consultant shall transfer all books, records, reports, working drafts, documents, maps, and data pertaining to the Services and the project to the Village, in a hard copy and

DRAFT

electronic format within fourteen (14) days from the date of the written notice of termination or the date of expiration of this Agreement.

9. Insurance.

9.1. Consultant shall secure and maintain throughout the duration of this agreement insurance of such types and in such amounts not less than those specified below as satisfactory to Village, naming the Village as an Additional Insured, underwritten by a firm rated A-X or better by A.M. Best and qualified to do business in the State of Florida. The insurance coverage shall be primary insurance with respect to the Village, its officials, employees, agents, and volunteers naming the Village as additional insured. Any insurance maintained by the Village shall be in excess of the Consultant's insurance and shall not contribute to the Consultant's insurance. The insurance coverages shall include at a minimum the amounts set forth in this section and may be increased by the Village as it deems necessary or prudent.

9.1.1. Commercial General Liability coverage with limits of liability of not less than a $1,000,000 per Occurrence combined single limit for Bodily Injury and Property Damage. This Liability Insurance shall also include Completed Operations and Product Liability coverages and eliminate the exclusion with respect to property under the care, custody and control of Consultant. The General Aggregate Liability limit and the Products/Completed Operations Liability Aggregate limit shall be in the amount of $2,000,000 each.

9.1.2. Workers Compensation and Employer's Liability insurance, to apply for all employees for statutory limits as required by applicable State and Federal laws. The policy(ies) must include Employer's Liability with minimum limits of $1,000,000.00 each accident. No employee, subcontractor or agent of the Consultant shall be allowed to provide Services pursuant to this Agreement who is not covered by Worker's Compensation insurance.

9.1.3. Business Automobile Liability with minimum limits of $1,000,000 per occurrence, combined single limit for Bodily Injury and Property Damage. Coverage must be afforded on a form no more restrictive than the latest edition of the Business Automobile Liability policy, without restrictive endorsements, as filed by the Insurance Service Office, and must include Owned, Hired, and Non-Owned Vehicles.

9.1.4. Professional Liability Insurance in an amount of not less than One Million Dollars ($1,000,000.00) per occurrence, single limit.

9.2. Certificate of Insurance. Certificates of Insurance shall be provided to the Village, reflecting the Village as an Additional Insured (except with respect to Professional Liability Insurance and Worker's Compensation Insurance), no later than ten (10) days after award of this Agreement and prior to the execution of this Agreement by Village and prior to commencing Services. Each certificate shall include no less than (30) thirty-day advance written notice to Village prior to cancellation, termination, or material alteration of said policies or insurance. The Consultant shall be responsible for assuring that the insurance certificates required by this Section remain in full force and effect for the duration of this Agreement, including any extensions or renewals that may be granted by

the Village. The Certificates of Insurance shall not only name the types of policy(ies) provided, but also shall refer specifically to this Agreement and shall state that such insurance is as required by this Agreement. The Village reserves the right to inspect and return a certified copy of such policies, upon written request by the Village. If a policy is due to expire prior to the completion of the Services, renewal Certificates of Insurance shall be furnished thirty (30) calendar days prior to the date of their policy expiration. Each policy certificate shall be endorsed with a provision that not less than thirty (30) calendar days' written notice shall be provided to the Village before any policy or coverage is cancelled or restricted. Acceptance of the Certificate(s) is subject to approval of the Village.

9.3. Additional Insured. Except with respect to Professional Liability Insurance and Worker's Compensation Insurance**,** the Village is to be specifically included as an Additional Insured for the liability of the Village resulting from Services performed by or on behalf of the Consultant in performance of this Agreement. The Consultant's insurance, including that applicable to the Village as an Additional Insured, shall apply on a primary basis and any other insurance maintained by the Village shall be in excess of and shall not contribute to the Consultant's insurance. The Consultant's insurance shall contain a severability of interest provision providing that, except with respect to the total limits of liability, the insurance shall apply to each Insured or Additional Insured (for applicable policies) in the same manner as if separate policies had been issued to each.

9.4. Deductibles. All deductibles or self-insured retentions must be declared to and be reasonably approved by the Village. The Consultant shall be responsible for the payment of any deductible or self-insured retentions in the event of any claim.

9.5. The provisions of this section shall survive termination of this Agreement.

10. Nondiscrimination. During the term of this Agreement, Consultant shall not discriminate against any of its employees or applicants for employment because of their race, color, religion, sex, or national origin, and will abide by all Federal and State laws regarding nondiscrimination.

11. Attorneys Fees and Waiver of Jury Trial.

11.1. In the event of any litigation arising out of this Agreement, the prevailing party shall be entitled to recover its attorneys' fees and costs, including the fees and expenses of any paralegals, law clerks and legal assistants, and including fees and expenses charged for representation at both the trial and appellate levels.

11.2. IN THE EVENT OF ANY LITIGATION ARISING OUT OF THIS AGREEMENT, EACH PARTY HEREBY KNOWINGLY, IRREVOCABLY, VOLUNTARILY AND INTENTIONALLY WAIVES ITS RIGHT TO TRIAL BY JURY.

12. Indemnification.

12.1. Consultant shall indemnify and hold harmless the Village, its officers, agents and employees, from and against any and all demands, claims, losses, suits, liabilities, causes

of action, judgment or damages, arising from Consultant's performance or non-performance of any provision of this Agreement, including, but not limited to, liabilities arising from contracts between the Consultant and third parties made pursuant to this Agreement. Consultant shall reimburse the Village for all its expenses including reasonable attorneys' fees and costs incurred in and about the defense of any such claim or investigation and for any judgment or damages arising from Consultant's performance or non-performance of this Agreement.

12.2. Nothing herein is intended to serve as a waiver of sovereign immunity by the Village nor shall anything included herein be construed as consent to be sued by third parties in any matter arising out of this Agreement or any other contract. The Village is subject to section 768.28, Florida Statutes, as may be amended from time to time.

12.3. The provisions of this section shall survive termination of this Agreement.

13. Notices/Authorized Representatives. Any notices required by this Agreement shall be in writing and shall be deemed to have been properly given if transmitted by hand-delivery, by registered or certified mail with postage prepaid return receipt requested, or by a private postal service, addressed to the parties (or their successors) at the addresses listed on the signature page of this Agreement or such other address as the party may have designated by proper notice.

14. Governing Law and Venue. This Agreement shall be construed in accordance with and governed by the laws of the State of Florida. Venue for any proceedings arising out of this Agreement shall be proper exclusively in Miami-Dade County, Florida.

15. Entire Agreement/Modification/Amendment.

15.1. This writing contains the entire Agreement of the parties and supersedes any prior oral or written representations. No representations were made or relied upon by either party, other than those that are expressly set forth herein.

15.2. No agent, employee, or other representative of either party is empowered to modify or amend the terms of this Agreement, unless executed with the same formality as this document.

16. Ownership and Access to Records and Audits.

16.1. Consultant acknowledges that all inventions, innovations, improvements, developments, methods, designs, analyses, drawings, reports, compiled information, and all similar or related information (whether patentable or not) which relate to Services to the Village which are conceived, developed or made by Consultant during the term of this Agreement ("Work Product") belong to the Village. Consultant shall promptly disclose such Work Product to the Village and perform all actions reasonably requested by the Village (whether during or after the term of this Agreement) to establish and confirm such ownership (including, without limitation, assignments, powers of attorney and other instruments).

DRAFT

16.2. Consultant agrees to keep and maintain public records in Consultant's possession or control in connection with Consultant's performance under this Agreement. The Village Manager or her designee shall, during the term of this Agreement and for a period of three (3) years from the date of termination of this Agreement, have access to and the right to examine and audit any records of the Consultant involving transactions related to this Agreement. Consultant additionally agrees to comply specifically with the provisions of Section 119.0701, Florida Statutes. Consultant shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed, except as authorized by law, for the duration of the Agreement, and following completion of the Agreement until the records are transferred to the Village.

16.3. Upon request from the Village's custodian of public records, Consultant shall provide the Village with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided by Chapter 119, Florida Statutes, or as otherwise provided by law.

16.4. Unless otherwise provided by law, any and all records, including but not limited to reports, surveys, and other data and documents provided or created in connection with this Agreement are and shall remain the property of the Village.

16.5. Upon completion of this Agreement or in the event of termination by either party, any and all public records relating to the Agreement in the possession of the Consultant shall be delivered by the Consultant to the Village Manager, at no cost to the Village, within seven (7) days. All such records stored electronically by Consultant shall be delivered to the Village in a format that is compatible with the Village's information technology systems. Once the public records have been delivered upon completion or termination of this Agreement, the Consultant shall destroy any and all duplicate public records that are exempt or confidential and exempt from public records disclosure requirements.

16.6. Any compensation due to Consultant shall be withheld until all records are received as provided herein.

16.7. Consultant's failure or refusal to comply with the provisions of this section shall result in the immediate termination of this Agreement by the Village.

16.8. **Notice Pursuant to Section 119.0701(2)(a), Florida Statutes.** **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS.**

17. **Nonassignability.** This Agreement shall not be assignable by Consultant unless such assignment is first approved by the Village Manager. The Village is relying upon the apparent qualifications and expertise of the Consultant, and such firm's familiarity with the Village's area, circumstances and desires.

18. **Severability.** If any term or provision of this Agreement shall to any extent be held invalid or unenforceable, the remainder of this Agreement shall not be affected thereby, and each remaining term and provision of this Agreement shall be valid and be enforceable to the fullest extent permitted by law.

19. **Independent Contractor.** The Consultant and its employees, volunteers and agents shall be and remain an independent contractor and not an agent or employee of the Village with respect to all of the acts and services performed by and under the terms of this Agreement. This Agreement shall not in any way be construed to create a partnership, association or any other kind of joint undertaking, enterprise or venture between the parties.

20. **Compliance with Laws.** The Consultant shall comply with all applicable laws, ordinances, rules, regulations, and lawful orders of public authorities in carrying out Services under this Agreement, and in particular shall obtain all required permits from all jurisdictional agencies to perform the Services under this Agreement at its own expense.

21. **Waiver.** The failure of either party to this Agreement to object to or to take affirmative action with respect to any conduct of the other which is in violation of the terms of this Agreement shall not be construed as a waiver of the violation or breach, or of any future violation, breach or wrongful conduct.

22. **Survival of Provisions.** Any terms or conditions of either this Agreement that require acts beyond the date of the term of the Agreement, shall survive termination of the Agreement, shall remain in full force and effect unless and until the terms or conditions are completed and shall be fully enforceable by either party.

23. **Prohibition of Contingency Fees.** The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant, to solicit or secure this Agreement, and that it has not paid or agreed to pay any person(s), company, corporation, individual or firm, other than a bona fide employee working solely for the Consultant, any fee, commission, percentage, gift, or any other consideration, contingent upon or resulting from the award or making of this Agreement.

24. **State Required Affidavits.** By entering into this Agreement, the Consultant agrees to review and comply with the following state affidavit requirements:

    24.1. Public Entity Crimes Affidavit. Consultant shall comply with Section 287.133, Florida Statutes (Public Entity Crimes Statute), notification of which is hereby incorporated herein by reference, including execution of any required affidavit.

24.2. Scrutinized Companies. Consultant certifies that it is not on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel. Pursuant to section 287.135, Florida Statues, the Village may immediately terminate this Agreement at its sole option if the Consultant is found to have submitted a false certification; or if the Consultant is placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement. If this Agreement is for more than one million dollars, the Consultant certifies that it is also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Terrorism Sectors List, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, Florida Statutes. Pursuant to Section 287.135, Florida Statutes, the Village may immediately terminate this Agreement at its sole option if the Consultant is found to have submitted a false certification; or if the Consultant is placed on the Scrutinized Companies with Activities in Sudan List, Scrutinized Companies with Activities in the Iran Terrorism Sectors List, Scrutinized Companies with Activities in Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

24.3. E-Verify Affidavit. In accordance with Section 448.095, Florida Statutes, the Village requires all contractors doing business with the Village to register with and use the E-Verify system to verify the work authorization status of all newly hired employees. The Village will not enter into a contract unless each party to the contract registers with and uses the E-Verify system. The contracting entity must provide of its proof of enrollment in E-Verify. For instructions on how to provide proof of the contracting entity's participation/enrollment in E-Verify, please visit: https://www.e-verify.gov/faq/how-do-i-provide-proof-of-my-participationenrollment-in-e-verify. By entering into this Agreement, the Consultant acknowledges that it has read Section 448.095, Florida Statutes; will comply with the E-Verify requirements imposed by Section 448.095, Florida Statutes, including but not limited to obtaining E-Verify affidavits from subcontractors; and has executed the required affidavit attached hereto and incorporated herein.

24.4. Noncoercive Conduct Affidavit. Pursuant to Section 787.06, Florida Statutes, a nongovernmental entity executing, renewing, or extending a contract with a governmental entity is required to provide an affidavit, signed by an officer or a representative of the nongovernmental entity under penalty of perjury, attesting that the nongovernmental entity does not use coercion for labor or services as defined in Section 787.06(2)(a), Florida Statutes. By entering into this Agreement, the Consultant acknowledges that it has read Section 787.06, Florida Statutes, and will comply with the requirements therein, and has executed the required affidavit attached hereto and incorporated herein.

24.5. Prohibition on Contracting with Entities of Foreign Concern. Pursuant to Section 287.138, Florida Statutes (which is expressly incorporated herein by reference), a governmental entity may not knowingly enter into a contract with an entity which would give access to an individual's personal identifying information if (a) the entity is owned by the government of a foreign country of concern; (b) the government of a foreign country of concern has a controlling interest in the entity; or (c) the entity is organized under the laws of or has its principal place of business in a foreign country of concern. By entering into this Agreement, the Consultant acknowledges that it has read Section 287.138, Florida Statutes, and complies with the requirements therein, and has executed the required affidavit attached hereto and incorporated herein.

25. Counterparts. This Agreement may be executed in several counterparts, each of which shall be deemed an original and such counterparts shall constitute one and the same instrument.

26. Conflicts; Order of Priority. This document without exhibits is referred to as the "Base Agreement." In the event of a conflict between the terms of this Base Agreement and any exhibits or attachments hereto, or any documents incorporated herein by reference, the conflict shall be resolved in the following order of priorities and the more stringent criteria for performance of the Services shall apply:

26.1.1. First Priority: Base Agreement;

26.1.2. Second Priority: Exhibit "A," the Scope of Services"; and

26.1.3. Third Priority: Exhibit "B," the Consultant's Proposal.

RE: Procurement Recommendation to Award for RFP No. 2025-02 – Iguana Pest Control Services

RECOMMENDATION

It is recommended the Village Manager negotiate an agreement with **IggyTrap of Florida LLC.** the top highest ranked proposals, for Iguana Pest Control Services. The proposed agreement will be for an initial one (1) year term with four (4) optional one-year extensions.

BACKGROUND

In accordance with government procurement best practices, and as part of a larger effort to ensure best value and promote fair and open competition for Village contracts, the decision was made to go out to market for these services.

The Village issued an RFP on March 17, 2025. The RFP was posted to the Village's website and Notice Board, DemandStar and Miami Herald. A non-mandatory pre-conference meeting was held for interested vendors where a bid summary was given.

The RFP allows potential vendors to submit their best proposals based on the defined scope of services, focusing not solely on pricing but on proposed approaches, creativity, and technical solutions that align with the Village's needs. It also provides the Village the opportunity to negotiate a best and final offer.

SCOPE OF WORK

The Village intends to select a qualified and experienced company to management the Green Iguana population within the Village. The selected Respondent shall provide support services to assist the Village in minimizing the impact of green iguanas in both private and public areas. This includes, but is not limited to, snaring, live trapping, capturing and removal (by hand or other methods), and nest destruction in full accordance with the specifications, terms and conditions contained in Section 2 of the Request for Proposal (RFP).

To qualify for award, prospective Proposers were required to:

A. Meet the objectives set in the RFP Scope of Services.
B. Have experience and qualified staff to manage and execute the requested services.
C. Be a licensed, permitted, certifications and insured vendor/business in the State of Florida.

EVALUATION AND RANKING PROCESS

On May 1, 2025, six (6) proposals were received from the following firms:

No.	Proposer	Years Experience	Price Per Iguana
1.	*Blue Iguana Pest Control	16	$ 20.00
2.	IggyTrap of Florida LLC.	4	$ 100.00
3	Redline Iguana Removal	7	$ 34.00 + Daily Service Fee $ 10.00
4.	Tower Pest Control	30	$ 100.00
5.	Human Iguana Control	Non-Responsive	
6.	Pest Brothers	Non-Responsive	

* Village Current Vendor

The Evaluation Committee comprises the following individuals:

1. Anthony Garcia, Facilities Maintenance Technician
2. Nathanael Diaz, PW Maintenance Supervisor
3. Todd Hofferberth, Parks, Recreation and Open Space Director

Procurement conducted a thorough due diligence review of the proposals and determined that two proposals were non-responsive. The remaining four proposals were deemed responsive, with no material defects identified in the proposals or the qualifications of the proposers. Each proposer is properly licensed and qualified to perform the work, has provided the required certifications and references, and no issues were found indicating that any of the responsive proposers would be incapable of delivering the services.

The Evaluation Committee was provided with the proposals and on May 29, 2025, conducted its first meeting to discuss, review, hear presentations, score, and/or rank the proposals. Upon reviewing and discussing the four (4) Proposals the members proceeded to score. Once the technical scores were finalized, the pricing scores for each vendor were added resulting in the following ranking:

a. Experience / Qualifications / Work Reference of Entity and Success – 20 pts.
b. Experience / Qualifications of Personnel – 20 pts.
c. Service / Program Plan / Approach – 35 pts.
d. Price (20) / Financial Strength and Sustainability (5) – 25 pts.

1. Iggy Trap of Florida LLC.
2. Blue Iguana Pest Control Inc.
3. Redline Iguana Removal
4. Tower Pest Control

RECOMMENDATION

Based on the Evaluation Committee's short list, it is recommended that the Village Manager executes a contract, substantially in the form attached as Exhibit A, with the top-ranked Proposer **Iggy Trap of Florida LLC.,** due to the following:

a. Provided the most comprehensive package with multiple methods of trapping and catching.
b. Demonstrated an understanding of the Village's priorities and offered tailored remediation and removal solutions using advanced invasive species technology and innovative services.
c. Over the past four (4) years, the company has emerged as a leader in its patented IggyTrap invasive species technology and innovation.

In the event an agreement cannot be reached with the top-ranked Proposer, it is further recommended that the Village Manager terminate negotiations with that firm and proceed with negotiations with the next highest-ranked Proposers until an agreement can be reached.

SECTION 1. INFORMATION FOR THE PROPOSERS

1.1 GENERAL INFORMATION/STATEMENT OF PURPOSE

The Village of Key Biscayne (the "Village"), a municipality located in Miami-Dade County, Florida, hereby requests proposals as further defined in Section 2 of this request for proposals ("Services") for management of the Green Iguana population within the Village. The selected Respondent shall provide support services to assist the Village in minimizing the impact of green iguanas in both private and public areas. This includes, but is not limited to, snaring, live trapping, capturing and removal (by hand or other methods), and nest destruction in full accordance with the specifications, terms and conditions contained in Section 2 of this Request for Proposal (RFP).

1.2 INTRODUCTION/BACKGROUND

The Village of Key Biscayne (the "Village") is located on an island approximately six (6) miles into Biscayne Bay and connected to the mainland via the Rickenbacker Causeway. Crandon Boulevard, a four-lane road with a median, bisects the Village. Shopping centers and single purpose commercial buildings line Crandon Boulevard. Towards the west lies single family homes. The east side of Crandon Boulevard contains mid to high rise multiple family buildings, one single family district, townhomes, and another single-family area that is part of a planned unit development. The incorporated Village is flanked by two large parks: Crandon Park to the north and Bill Baggs Cape Florida Recreation Area to the south. The latter receives over a million visitors per year and is a major contributor to traffic congestion on the weekends and holidays. The Village is the home to approximately 15,000 residents residing on 1.25 square miles.

The Village is committed to efficient government administration. A small core of the Village staff has been serving its residents, businesses, and visitors exceptionally well through their dedication and with the help of consultants, contractors, and service providers who also have been committed to providing quality products at competitive prices. We expect to continue this tradition.

1.3 N/A

1.4 SUSPENSION/DEBARMENT

A prospective Bidder that is listed on the government-wide Excluded Parties List System in the System for Award Management (www.SAM.gov), or that is suspended or debarred by the State of Florida, cannot be awarded a contract.

1.5 DISADVANTAGED BUSINESS & WORKER UTILIZATION

Bidders are encouraged to utilize small, women and minority-owned businesses as subcontractors whenever possible. Lists of local certified businesses are available on Miami-Dade County's website at https://mdcsbd.gob2g.com/frontend/searchcertifieddirectory.asp In addition, Proposers may request assistance from organizations such as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Proposers who intend to hire additional workers for Village projects are encouraged to hire local workers. CareerSource South Florida maintains a job clearinghouse that can assist in connecting contractors with trained local construction workers.

1.6 VILLAGE RIGHTS

The Village reserves the right to award one or more contract(s) to the Respondent(s) in accordance with what the Village deems in its best interest. Notwithstanding, the Village may, at its sole discretion, reject all responses and cancel the solicitation, in which case no award will be made.

The Village reserves the right to accept or reject any or all Responses, based upon its deliberations and opinions. In making such determination, the Village reserves the right to investigate the financial capability, integrity, experience and quality of performance of each Consultant, including officers, principals, senior management and supervisors as well as the staff identified in the RFP.

The Village also reserves the right to waive minor variations or irregularities in the Responses.

1.7 SCHEDULE OF EVENTS

The following schedule shall govern this RFP. The Village reserves the right to change the scheduled dates and times at its sole discretion.

1.8 REQUEST FOR INFORMATION (RFI)

Vendors may request additional information, clarification, or modifications in the form of a Request for Information ("RFI"). Vendors seeking such information must email their RFIs to procurement@keybiscayne.fl.gov in order to receive a response. The request must include the vendor's name, the RFP number, and RFP title. Any RFI must be submitted prior to the deadline for questions indicated in the schedule of events in Section 1.4 to receive a response. Late or mis-delivered requests may not receive a Village response.

The Village will issue responses to RFIs, and any other corrections or amendments it deems necessary, in the form of a written addendum. The Village, at its sole discretion, may not issue a response to an RFI. Vendors should not rely on any representations made outside of these written addenda. Where a conflict appears between the RFP and any issued addendum, the last addendum issued will prevail.

Addenda will be made available on the Village of Key Biscayne website www.keybiscayne.fl.gov/procurement and DemandStar. It is the vendor's sole responsibility to ensure receipt of all addenda prior to submitting a response.

1.9 ADDENDA

If the Village finds it necessary to add to, or amend this RFP prior to the Response submittal deadline, the Village will issue written addenda/addendum. Each Vendor must acknowledge receipt of each addendum by signing the acknowledgement (Section 6) and providing it with its Response.

1.10 DISCREPANCIES, ERRORS AND OMISSIONS

Any discrepancies, errors, or ambiguities in the RFP or addenda (if any) should be reported in writing to the Procurement Division at procurement@keybiscayne.fl.gov. If applicable, the Village will issue a written addendum to the RFP clarifying such conflicts or ambiguities. It is agreed that any such alleged discrepancies, errors, or omissions will not be construed against the drafting party.

1.11 CERTIFICATION

The signer of the Response (to this RFP) must declare by signing the Forms included in Section 6 that the person(s), firm(s) and parties identified in the Response are interested in and available for providing the Services; that the Response is made without collusion with any other person(s), firm(s) and parties; that the Response is fair in all respects and is made in good faith without fraud; and that the signer of the cover letter of the Response has full authority to bind the person(s), firm(s) and parties identified in the Response.

1.12 PRE-CONFERENCE MEETING/SITE VISIT

A **NON-MANDATORY** Pre-Conference meeting/site visit will be held on **April 08 2025,** at 10:00 a.m. at the **Village of Key BZP Conference Room, 88 West McIntyre Street, Suite # 250, Key Biscayne, Florida 33149.** All interested Proposers are encouraged to attend.

It is the sole responsibility of the Proposer to inspect the project site and become familiar with the scope of the Village's requirements and systems prior to submitting a proposal. No variation in price or conditions shall be permitted based upon a claim of ignorance. Submission of a proposal will be considered evidence that the Proposer is familiar with the nature and extent of the work, equipment, materials, and labor required.

1.13 VILLAGE AUTHORITY

Proposals will be selected at the sole discretion of the Village. The Village reserves the right to waive any irregularities in the request process, to reject any or all proposals, reject a proposal which is in any way incomplete or irregular, re-bid the entire solicitation or enter into agreements with more than one Proposer. Proposals received after the deadline provided in this RFP will not be considered.

1.14 RESPONSE/PRESENTATION COSTS

The Village shall not be liable for any costs, fees, or expenses incurred by any Vendor in responding to this RFP, nor subsequent inquiries or presentations relating to its Response.

1.15 TERMS OF ENGAGEMENT

The Vendor, by submission of its Proposal, agrees to the terms and conditions contained in the contract attached hereto as Attachment "A," ("Contract") and further agrees to execute the Contract without

change. Notwithstanding, the Village, in its sole discretion, reserves the right to negotiate the final contract price or any terms and conditions.

The initial contract term is for one (1) years with the option to extend at its sole discretion for four (4) one-year (1-year) renewal terms for the maximum of five (5) years. The Proposer understands that this RFP does not constitute an agreement or a contract with the Proposer. A proposal is not binding until proposals are approved by the Village of Key Biscayne Council and both parties execute a written contract.

Proposals that are conditioned to additions, deletions, or revisions to the Contract's terms and conditions will be rejected as non-responsive.

1.16 NOTICE TO PROCEED

The Successful Proposer shall not begin work until the Village issues a written Notice to Proceed ("NTP"). Work performed by the Successful Proposer prior to receiving the NTP shall be deemed non-compensable by the Village. The Successful Proposer shall not have any recourse against the Village for prematurely performing unauthorized work.

SECTION 2. PROJECT DESCRIPTION

2.1 SCOPE OF WORK:

The Village seeks a certified Iguana Pest Control company for the management of the Green Iguana population within the Village. The selected Respondent shall provide support services to assist the Village in minimizing the impact of green iguanas in both private and public areas. This includes, but is not limited to, snaring, live trapping, capturing and removal (by hand or other methods), and nest destruction.

2.2 PROJECT OVERVIEW:

Services shall be provided and billed on a monthly basis. Monitoring of bridges, water basins, common access grounds, and other areas is to be conducted on a daily basis. Services will include, but not be limited to:

2.2.1 Minimizing the population and impact of green iguanas in public and private areas (land and water), using a wide variety of capturing techniques.

2.2.2 The contractor shall only access private property if an iguana nest is identified on the property through a visual inspection from outside the property, the contractor shall not enter private property unless explicitly directed by the Village."

2.2.3 Conducting a preliminary inspection in order to make an assessment of all areas requiring attention.

2.2.4 Responding to calls requesting assistance for removal and disposal of iguanas as needed.

2.2.5 If using traps, the traps must be checked at least once every 24 hours.

2.2.6 Working closely with the Village's Parks and Recreation department for maximum results and provide regular progress reports and photos.

2.2.7 Evaluating the effects of the project on an on-going basis to determine the effectiveness and merit of the program and its impact in the Village.

2.2.8 Services must be provided a minimum of two days per week.

2.3 TECHNICAL SPECIFICATIONS:

2.3.1 The Contractor shall locate trap, and remove iguanas (e.g., green Mexican spiny tailed and black spiny tailed) and other invasive lizard species (e.g., black and white tegu and monitor), The Village reserves the right to validate that the Contractor possess the ability to perform services referenced with this contract, including access to all equipment, hardware, labor and service experience and expertise.

2.3.2 The Contractor will perform an aggressive removal, focusing in the areas highly populated by iguanas. Once the highly populated areas are cleared, the Contractor will sweep the remaining areas.

2.3.3 The Contractor will perform services during the location operation hours, throughout the duration of the contract. Iguana removal will not occur on federal holidays, and when unsafe

to do so (e.g., tropical storms, hurricanes, wildfires, pandemics), in coordination with the Village Representative.

2.3.4 The Contractor will implement the most effective capture techniques(s) for the individual removal sites including but not limited to hand capture, catch poles, live trapping and egg removal. The extermination must be in accordance with all State, County and Local laws.

2.3.5 The Contractor will place traps in areas where snaring is not possible, the Contractor will incorporate custom built traps that are able to catch multiple iguanas. Traps will be placed in discrete areas and contact information will be displayed on them. The Contractor traps will be checked daily to ensure humane treatment of the animals.

2.3.6 The Contractor shall provide all labor, materials, equipment and supervisors necessary for the operation of services provided. All vehicles and trailers should be clearly marked with the company name and phone number.

2.3.7 Any night-time removal efforts will be conducted in a manner to minimize disturbance to people utilizing the parks or adjacent residential areas. The Contractor and staff will conduct themselves Iguana and Non-Native Lizard Removal Services professionally and will always consider public safety during the project.

2.3.8 The Contractor will visit waterways by boat, if necessary.

2.3.9 The Contractor will search for burrows and remove any eggs found. Burrows will collapse and filled in.

2.3.10 The Contractor will perform night visits to collect hatchlings, to be scheduled in coordination with the Village Representative.

2.3.11 The Contractor must be available twenty-four (24) hours a day, seven (7) days a week on an emergency basis. In an emergency situation where services are required immediately outside of the Village's business hours, the Village will contact the Contractor and the Contractor shall respond to the work within two (2) hours. The Contractor will provide a telephone number and email for use during emergency response.

2.3.12 The Contractor will provide a weekly report of findings in writing by Monday, 10:00 A.M. from the previous week to Village Representative, the report should include the following:

a. Date of service.
b. Location of service.
c. Number of iguana's removed per site.
d. Number of burrows filled per site.
e. Any additional comments.

Once a proposal has been submitted by the Proposal Submittal Deadline, it shall not be returned to the proposer.

3.8 PROPOSAL GUARANTEE

All proposals shall be guaranteed firm for a minimum of 90 calendar days after the submission of the proposal.

3.9 MULTIPLE PROPOSAL PROHIBITED

More than one proposal from an individual, firm, partnership, corporation, or association under the same or different names shall not be considered. Reasonable grounds for believing that a proposer participates in more than one proposal for the same work shall be cause for rejection of all proposals in which such

proposers are believed to be involved. In addition, a single proposal from more than one individual, firm, partnership, corporation, or association under the same or different names shall not be considered. Joint ventures shall be permitted; however, such arrangements shall designate a single primary proposer or shall be combined into a single legal entity. The Village shall only consider one proposal from one proposer.

3.10 ADDITIONAL TERMS AND CONDITIONS

Proposer shall state any exceptions/deviations from the RFP requirements or Agreement. Exceptions to the Agreement should contain a summary of every objection or deviation with adherence to specific RFP or Agreement sections.

3.11 INTERPERPRETATIONS AND INQUIRIES

A. Submission of a proposal shall serve as prima facie evidence that the proposer has examined the Agreement and is fully aware of all conditions affecting the provision of services.

B. No person is authorized to give oral interpretations of, or make oral changes to, the RFP or the Agreement. Therefore, oral statements shall not be binding and should not be relied upon.

C. Any interpretation of, or changes to, the RFP or the Agreement shall be made in the form of a written addendum to the RFP or the Agreement and shall be furnished by the Village to all proposers who attend the mandatory pre-proposal conference. Only those interpretations of, or changes to, the RFP or the Agreement that are made in writing and furnished to the proposers by the Village may be relied upon.

3.12 IRREGULARITIES & RESERVATION OF RIGHTS

Proposals will be selected at the sole discretion of the Village. The Village reserves the right to waive any irregularities in the request process, to reject any or all proposals, reject a proposal which is in any way incomplete or irregular, re-bid the entire solicitation or enter into agreements with more than one respondent. Proposals received after the deadline provided in this RFP will not be considered.

The Village reserves the right to award one or more contract(s) to the Contractor who will best serve the interests of the Village and whose Proposals meet the requirements and criteria set forth in this RFP. Notwithstanding, the Village may, at its sole discretion, reject all Proposals and cancel the solicitation, in which case no award will be made.

The Village reserves the right to accept or reject any or all Proposals, based upon its deliberations and opinions. In making such determination, the Village reserves the right to investigate the financial capability, integrity, experience and quality of performance of each Contractor, including officers, principals, senior management and supervisors, as well as the staff identified in the Proposal.

Proposers shall furnish additional information as the Village may require. This includes information that indicates financial resources as well as ability to provide the requisite services. The Village reserves the right to make investigations of the qualifications of the firm as it deems appropriate, including but not limited to background investigations and checking references.

3.13 PROPOSAL/PRESENTATION COSTS

The Village shall not be liable for any costs, fees, or expenses incurred by any Consultant in responding to this RFP, nor subsequent inquiries or presentations relating to its Proposal.

END OF SECTION

SECTION 4. EVALUATION OF THE PROPOSAL

4.1 SELECTION COMMITTEE

Proposals submitted shall be evaluated by the Selection Committee. The Selection Committee shall convene at a publicly noticed meeting to review submissions, rank and evaluate the proposals, and provide a recommendation for the award. Each Selection Committee Member and the Technical Advisor shall complete and execute an independence affidavit.

4.2 QUALIFICATION EVALUATION

A. The evaluation of proposals and the determination of responsiveness and responsibility shall be the responsibility of the Selection Committee. Such a determination shall be based on information furnished by the proposer, as well as other information reasonably available to the Village.

B. The Selection Committee shall examine the documentation submitted in the proposal to determine the responsiveness of each proposer. Failure to provide the required information may disqualify any such proposal as non-responsive and such proposal may not be considered. The Selection Committee may disqualify any proposers that make exaggerated or false statements.

C. The Selection Committee may make such investigations as it deems necessary to determine the responsibility and ability of the proposer and the proposer shall furnish the Village all such information for this purpose as the Village may request before and during the proposal period. The Selection Committee reserves the right to make additional inquiries, interview some or all proposers, make site visits, obtain credit reports, or take any other action it deems necessary to fairly evaluate all proposers. The Selection Committee may reject a proposer or qualify a proposer.

4.3 RESPONSIVENESS

The factors to be considered in determining the responsiveness of each proposer include but are not limited to the following:

A. Completion, accuracy, and submission of all required documentation.

B. Compliance with all requirements of the RFP, including adherence to all RFP instructions.

C. Consistency of the offered goods or services as set forth in the Agreement.

D. Accuracy of mathematical calculations.

4.4 RESPONSIBILITY

The factors to be considered in determining the responsibility of a proposer shall include but not be limited to the following:

A. Proposers experience and performance.

B. Financial ability to perform the services described in the Agreement. Proposers must demonstrate financial stability. Proposers shall provide a statement of their financial stability,

including information as to current or prior bankruptcy proceedings by providing the following:

i. A copy of the most recent audited annual financial statements containing a balance sheet, an income statement, and a statement of cash flows;
OR

ii. Non-audited financial statements containing a balance sheet, an income statement, and a statement of cash flows plus a complete federal tax return for the last two (2) years.

Social Security and/or bank account numbers should be redacted on the statements/federal tax returns.

In lieu of submitting the above documentation, proposer may submit alternative documentation that demonstrates their financial ability to perform the services described herein; however, a complete financial evaluation cannot be conducted without the above documentation.

C. The financial statements requested are developed into nine financial ratios which include the following:

i. Liquidity - measures a business's ability to cover its obligations, without having to borrow or invest money in the business.
ii. Working Capital - measures liquid assets that provide a safety cushion to creditors.
iii. Solvency - assesses a company's ability to meet its long-term obligations and therefore remain solvent and avoid bankruptcy.
iv. Gross Margin - indicates the percentage of sales (revenue) dollars available for expenses and profit after the cost of materials is deducted from the sales (revenue).
v. Free Cash Flow - tells how much cash is left over from operations after a company pays for its capital expenditures.
vi. Account Receivables – as a percentage of current assets, which will provide information about assets not yet received and therefore unavailable at the present time to be used as resources.
vii. Receivables to Current Assets - receivables as a percentage of current assets that would reveal the size of receivables in current assets and the opportunity cost associated with it.
viii. Long Term Debt - measurements representing the percentage of a corporation's assets that are financed with loans and financial obligations lasting more than one year.
ix. Cash Ratio - an indicator of a company's liquidity by measuring the amount of cash, cash equivalents or invested funds there are in current assets to cover current liabilities.

**Proposers will only be compared to other firms that submit a proposal, to determine relative positions of financial ability and stability. **

D. Litigation history

E. The scope and content of any investigations, reports or audits relating to, or communications

with, the proposer that have been commenced or issued by any local, state, or federal law enforcement agency, criminal justice agency, health and safety agency or inspector general office.

F. Whether the proposer has failed to disclose or made misrepresentations to any governmental entity regarding conflicts of interest or potential or apparent conflicts of interest.

G. Availability of appropriate material, equipment, facility and personnel resources and expertise, or the ability to obtain them, to meet all requirements of the Agreement.

H. Whether the proposer or its partners, officers or key personnel or its subsidiaries or parent company have been engaged in any criminal activity or have been convicted of any crimes.

4.5 EVALUATION PROCESS

A. The Selection Committee shall convene at a publicly noticed meeting and collectively discuss and review the proposals. Each member of the Selection Committee shall evaluate and rank each proposal in each of the categories listed in this section and compute a final ranking. The Selection Committee Chairperson shall tally the final rankings and announce the final total ranking. A sample of the ranking form used by the Selection Committee is included in this Section.

B. Proposals shall be evaluated and ranked based on the following categories:

Category	**Score (Points)**
Experience / Qualifications / Work Reference of Entity and Success	20
Experience / Qualifications / Work Reference of Personnel	20
Service / Program Plan / Approach	35
Price(20)/Financial Strength and Sustainability(5)	25
Total:	**100 Points**

C. The Selection Committee may interview some or all the proposers. During the evaluation process, the Selection Committee may request any or all proposers to make oral presentations. Based on the final rankings resulting from the process described above, the Selection Committee will make a recommendation for award of the Agreement.

D. In the event of a tie, the price proposal shall be the basis for determining the award recipient.

4.6 AWARD

Following notification of the firm(s) selected, the Village Council may authorize the Village Manager to execute an agreement with the top ranked proposer, and if determined to be in the best interest of the Village, any additional proposers, in order of rank.

END OF SECTION

SECTION 5. GENERAL REQUIREMENTS

5.1 RETENTION OF PROPOSAL

The Village reserves the right to retain all Proposals submitted and use any ideas contained in any Proposals, regardless of whether that Bidder is selected.

5.2 PUBLIC RECORDS

Florida law provides that municipal records should be open for inspection by any person under Chapter 119, F.S. Public Records law. All information and materials received by the Village in connection with the Proposals shall become property of the Village and shall be deemed to be public records subject to public inspection.

5.3 LOBBYIST REGISTRATION

Respondents must comply with the Village's lobbyist regulations. Please contact the Village Clerk at (305) 365-5506 for additional information.

5.4 PERMITS, TAXES, LICENSES

The Vendor shall, at its own expense, obtain all necessary permits, pay all licenses, fees and taxes required to comply with all local ordinances, state and federal laws, rules, regulations and professional standards that would apply to this contract.

5.5 LAWS, ORDINANCES

The Vendor shall observe and comply with all federal, state, and local laws, including ordinances, rules, regulations and professional standards that would apply to the contract.

5.6 NON-APPROPRIATION OF FUNDS

In the event that insufficient funds are appropriated, and budgeting or funding is otherwise unavailable or not allocated in any fiscal period for the Agreement, the Village shall have the unqualified right to terminate the Work Order(s), and/or Agreement, upon written notice to the Successful Proposer, without any penalty or expense to the Village or recourse against the Village. No guarantee, promise, warranty, or representation is made that any work or project(s) will be assigned to the Successful Proposer.

5.7 PUBLIC ENTITY CRIMES ACT

In accordance with the Public Entity Crimes Act, (Section 287.133, Florida Statutes) a person or affiliate who is a contractor, who had been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to the Village, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases or real property to the Village, may not be awarded or perform work as a contractor, supplier, subcontractor, or CONTRACTOR under a contract with any public entity, and may not transact business with the Village in excess of the threshold amount provided in Section 287.917, Florida Statutes, for Category Two for a period of 36 months form the date of being placed on the convicted vendor list. Violation of this section by the Contractor shall result in rejection of the Bid, termination of the contract, and may cause Contractor debarment.

5.8 KEY PERSONNEL

Subsequent to submission of a Proposal and prior to award of an Agreement, Key Personnel shall not be changed. Proposers shall not change any member of their Key Personnel without just cause and prior

written approval by the Village. The Village reserves the right to request additional documentation, as required by the RFP prior to making its determination. If the Village does not accept the proposed change(s), the Proposal may be rejected and not considered for award.

5.9 E-VERIFY

Successful Bidder shall utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Contractor during the term of the Contract and shall expressly require any Subcontractor performing work or providing services pursuant to the Contract to likewise utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Subcontractor during the Contract term.

5.10 CONFLICT OF INTEREST

Proposers, by responding to this RFP, certify that to the best of their knowledge and belief, no elected/appointed official or employee of the Village is financially interested, directly or indirectly, in the purchase of goods/services specified in this RFP. Any such interests on the part of the Proposer or its employees shall be disclosed in writing to the Village. Further, Proposers shall disclose the name of any Village employee who owns, directly or indirectly, an interest of five percent (5%) or more of the total assets of capital stock of the Proposing firm.

5.11 DEBARRED/SUSPENDED VENDORS

An entity or affiliate who has been placed on the State of Florida or Federal debarred or suspended vendor list may not: a) submit a Proposal on a contract to provide goods or services to a public entity; b) may not submit a Proposal on a contract with a public entity for the construction or repair of a public building or public work; c) may not submit a Proposal on leases of real property to a public entity; d) may not be awarded or perform work as a contractor, design-builder, supplier, subcontractor, or consultant under contract with any public entity; and e) may not transact business with any public entity.

5.12 NON-DISCRIMINATION

Proposer agrees that it shall not discriminate by race, gender, color, age, religion, national origin, marital status, or disability in connection with its performance under this RFP. Furthermore, Proposer agrees that no otherwise qualified individual shall solely by reason of his/her race, gender, color, age, religion, national origin, marital status, or disability be excluded from the participation in, be denied benefits of, or be subjected to, discrimination under any program or activity called for or required in connection with services rendered under this Agreement.

5.13 UNETHICAL BUSINESS PRACTICE PROHIBITIONS

Proposer represents and warrants to the Village that it has not employed or retained any person or company employed by the Village to solicit or secure the award of the Agreement and that it has not offered to pay, paid, or agreed to pay any person any fee, commission, percentage, brokerage fee, or gift of any kind, contingent upon or in connection with, the award of the Contract.

5.14 ADDITIONAL TERMS AND CONDITIONS

No additional terms and conditions included in the Proposal shall be evaluated or considered, and any and all such additional terms and conditions shall have no force or effect and are inapplicable to this solicitation. If submitted purposely, through either intent or design, or inadvertently, appearing separately in transmittal letters, specifications, literature, price lists, or warranties, it is understood and agreed that the General and Special Conditions in this solicitation are the only conditions applicable to this solicitation

and that the Proposer's authorized signature affixed to the Proposer's acknowledgment form, attests to this.

5.15 ASSIGNMENT, NON-TRANSFERABILITY OF PROPOSAL

A. Proposals shall not be assigned or transferred. A proposer who is, or may be, purchased by or merged with any other corporate entity during any stage of the proposal process, through to and including awarding of and execution of the Agreement, is subject to having its proposal disqualified as a result of such transaction. The Village Manager shall determine whether a proposal is to be disqualified in such instances.

B. If, at any time during the proposal process, filings, notices or like documents are submitted to any regulatory agency concerning the potential acquisition of proposer, or the sale of a controlling interest in the proposer, or any similar transaction, the proposer shall immediately disclose such information to the Village. Failure to do so may result in the proposal being disqualified, at the Village's sole discretion.

5.16 PUBLIC RECORDS

Upon award recommendation or 30 days after proposal opening, whichever is earlier, any material submitted in response to this RFP shall become a "public record" and shall be subject to public disclosure consistent with Chapter 119, Florida Statutes (Public Records Law). Proposers shall claim the applicable exemptions to disclosure provided by law in their response to the RFP by identifying materials to be protected and shall state the reasons why such exclusion from public disclosure is necessary and legal. The Village reserves the right to make all final determination(s) of the applicability of the Florida Public Records Law.

5.17 PUBLIC ENTITIES CRIME

A. A person or affiliate as defined in Section 287.133, Florida Statutes, who or which has been placed on the convicted vendor list maintained by the Florida Department of Management Services following a conviction for a public entity crime, may not submit a proposal to provide any goods or services to the Village and may not transact business with the Village in an amount set forth in Section 287.017, Florida Statutes, for Category Two for a period of 36 months from the date of being placed on the convicted vendor list.

B. By submitting a response, the proposer certifies that it is qualified under Section 287.133, Florida Statutes, to provide the services set forth in the Agreement.

5.18 SCRUTINIZED COMPANIES

Pursuant to Section 287.135, Florida Statutes, a Proposer is ineligible to, and may not submit a Proposal for, or enter into or renew a contract with VILLAGE for goods or services if at the time of submitting a Proposal for a new contract or renewal of an existing contract:

A. for any contract amount, if the Proposer is on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, or is engaged in a boycott of Israel;

B. if $1 million or more and the Proposer is on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; or

C. if $1 million or more and the Proposer is engaged in business operations in Cuba or Syria.

5.19 EXAMINATION OF CONDITIONS

It shall be the Proposer's responsibility to visit the proposed work site(s) and to thoroughly familiarize himself with the nature and extent of the work to be performed and all local existing site conditions, to make his own estimate of the facilities and difficulties attending the execution of the work; no allowance shall be made by the Village for the Proposer's failure to do so.

5.20 BID GUARANTY - N/A

5.21 BONDS – N/A

5.22 INSURANCE REQUIREMENTS

Proposer shall secure and maintain throughout the duration of the Contract, if selected, insurance of such types and in such amounts not less than those specified below as satisfactory to Village, naming the Village as an Additional Insured, underwritten by a firm rated A-X or better by A.M. Best and qualified to do business in the State of Florida. The insurance coverage shall be primary insurance with respect to the Village, its officials, employees, agents and volunteers naming the Village as additional insured. Any insurance maintained by the Village shall be in excess of the Proposer's insurance and shall not contribute to the Proposer's insurance. The insurance coverage shall include at a minimum the amounts set forth in this section and may be increased by the Village as it deems necessary or prudent. Copies of the Proposer's actual Insurance Policies as required herein and Certificates of Insurance shall be provided to the Village, reflecting the Village as an Additional Insured. Each Policy and certificate shall include no less than (30) thirty-day advance written notice to Village prior to cancellation, termination, or material alteration of said policies or insurance. All coverage forms must be primary and non-contributory, and the Proposer shall provide a waiver of subrogation for the benefit of the Village. The Proposer shall be responsible for assuring that the insurance policies and certificates required by this Section remain in full force and effect for the duration of the Project.

a) Commercial General Liability coverage with limits of liability of not less than a $1,000,000 per Occurrence combined single limit for Bodily Injury and Property Damage. This Liability Insurance shall also include Completed Operations and Product Liability coverages and eliminate the exclusion with respect to property under the care, custody and control of Proposer. The General Aggregate Liability limit and the Products/Completed Operations Liability Aggregate limit shall be in the amount of $2,000,000 each.

b) Workers Compensation and Employer's Liability insurance, to apply for all employees for statutory limits as required by applicable State and Federal laws. The policy(ies) must include Employer's Liability with minimum limits of $1,000,000.00 for each accident. No employee, subcontractor or agent of the Proposer shall be allowed to provide Services pursuant to this RFP who is not covered by Worker's Compensation insurance.

c) Business Automobile Liability with minimum limits of $1,000,000.00 per Occurrence, combined single limit for Bodily Injury and Property Damage. Coverage must be afforded on a form no more restrictive than the latest edition of the Business Automobile Liability policy, without restrictive endorsements, as filed by the Insurance Service Office, and must include Owned, Hired, and Non- Owned Vehicles.

The Successful Proposer(s) shall, within ten (10) days of receipt of a written notice of the Award of the Contract, deliver to the Village a fully executed Contract and all requested certificates of insurance and bonds.

5.23 CONE OF SILENCE

To ensure fair consideration for all Proposers, a Cone of Silence is enforced starting on the posting date of the proposal submission. Proposers are asked not to communicate with any department, division, or employee from the submission package concerning the proposal until an award decision has been made. Any communication between Proposer and the Village in order to obtain information or clarification needed to develop a proper, accurate evaluation of the proposal should be conducted through the Village Procurement Officer, Daren Jairam at djairam@keybiscayne.fl.gov or procurement@keybiscayne.fl.gov.

- The Fair Housing Act as amended 42 USC Section 3601-3631.

Proposer Initials

Public Entity Crimes Affidavit

I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentations.

I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime; or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, and partners, shareholders, employees, members, and agents who are active in management of an entity.

Based on information and belief, the statement, which I have marked below, is true in relation to the entity submitting this sworn statement.

(INDICATE WHICH STATEMENT APPLIES.)

[ ] Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with ad convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime after July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime after July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida , Division of Administrative Hearings and the final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list (attach a copy of the final order).

I understand that the submission of this form to the contracting officer for the public entity identified in paragraph 1 above is for that public entity only and that this form is valid through December 31 of the calendar year in which it is filed. I also understand that I am required to inform the public entity prior to entering a contract in excess of the threshold amount provided in Section 287.017, Florida Statutes for category two of any change in the information contained in this form.

Proposer Initials

No Conflict of Interest or Contingent Fee Affidavit

Proposer warrants that neither it nor any principal, employee, agent, representative nor family member has paid or will pay any fee or consideration that is contingent on the award or execution of a contract arising out of this solicitation. Proposer also warrants that neither it nor any principal, employee, agent, representative nor family member has procured or attempted to procure this contract in violation of any of the provisions of the Miami-Dade County conflict of interest or code of ethics ordinances. Further, Proposer acknowledges that any violation of these warrants will result in the termination of the contract and forfeiture of funds paid or to be paid to the Proposer should the Proposer be selected for the performance of this contract.

Proposer Initials

Business Entity Affidavit

Proposer hereby recognizes and certifies that no elected official, board member, or employee of the Village of Key Biscayne (the " Village") shall have a financial interest directly or indirectly in this transaction or any compensation to be paid under or through this transaction, and further, that no Village employee, nor any elected or appointed officer (including Village board members) of the Village, nor any spouse, parent or child of such employee or elected or appointed officer of the Village, may be a partner, officer, director or proprietor of Proposer or Vendor, and further, that no such Village employee or elected or appointed officer, or the spouse, parent or child of any of them, alone or in combination, may have a material interest in the Vendor or Proposer. Material interest means direct or indirect ownership of more than 5% of the total assets or capital stock of the Proposer. Any exception to these above-described restrictions must be expressly provided by applicable law or ordinance and be confirmed in writing by Village. Further, Proposer recognizes that with respect to this transaction or bid, if any Proposer violates or is a party to a violation of the ethics ordinances or rules of the Village, the provisions of Miami-Dade

County Code Section 2-11.1, as applicable to Village, or the provisions of Chapter 112, part III, Fla. Stat., the Code of Ethics for Public Officers and Employees, such Proposer may be disqualified from furnishing the goods or services for which the bid or proposal is submitted and may be further disqualified from submitting any future bids or proposals for goods or services to Village.

Proposer Initials

Anti-Collusion Affidavit

1. Proposer/Bidder has personal knowledge of the matters set forth in its Proposal/Bid and is fully informed respecting the preparation and contents of the attached Proposal/Bid and all pertinent circumstances respecting the Proposal/Bid;
2. The Proposal/Bid is genuine and is not a collusive or sham Proposal/Bid; and
3. Neither the Proposer/Bidder nor any of its officers, partners, owners, agents, representatives, employees, or parties in interest, including Affiant, has in any way colluded, conspired, connived, or agreed, directly or indirectly with any other Proposer/Bidder, firm, or person to submit a collusive or sham Proposal/Bid, or has in any manner, directly or indirectly, sought by agreement or collusion or communication or conference with any other Proposer/Bidder, firm, or person to fix the price or prices in the attached Proposal/Bid or of any other Proposer/Bidder, or to fix any overhead, profit, or cost element of the Proposal/Bid price or the Proposal/Bid price of any other Proposer/Bidder, or to secure through any collusion, conspiracy, connivance or unlawful agreement any advantage against the Village of Key Biscayne or any person interested in the proposed Contract.

Proposer Initials

Scrutinized Company Certification

1. Proposer certifies that it and its subcontractors are not on the Scrutinized Companies that Boycott Israel List. Pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this RFP at its sole option if the Proposer or its subcontractors are found to have submitted a false certification; or if the Proposer, or its subcontractors are placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
2. If the Agreement that may result from this RFP is for more than one million dollars, the Proposer certifies that it and its subcontractors are also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this RFP at its sole option if the Proposer, its affiliates, or its subcontractors are found to have submitted a false certification; or if the Proposer, its affiliates, or its subcontractors are placed on the Scrutinized Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

3. The Proposer agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under the Agreement that may result from this RFP. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize the above-stated contracting prohibitions then they shall become inoperative.

Proposer Initials

Acknowledgment, Warranty, and Acceptance

1. CONTRACTOR warrants that it is willing and able to comply with all applicable state of Florida laws, rules and regulations.
2. CONTRACTOR warrants that it has read, understands, and is willing to comply with all requirements of **RFP # 2025-02 IGAUNA PEST CONTROL SERVICES** and any addendum/addenda related thereto.
3. CONTRACTOR warrants that it will not delegate or subcontract its responsibilities under an agreement without the prior written permission of the Village Council or Village Manager, as applicable.
4. CONTRACTOR warrants that all information provided by it in connection with this Proposal is true and accurate.

Proposer Initials

Truth in Negotiation Certification

The CONTRACTOR hereby certifies, covenants, and warrants that wage rates and other factual unit costs supporting the compensation for this project's agreement are accurate, complete, and current at the time of contracting.

The CONTRACTOR further agrees that the original agreement price and any additions thereto shall be adjusted to exclude any significant sums by which the Village determines the agreement price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such agreement adjustments shall be made within (1) year following the end of the contract. For the purposes of this certificate, the end of the agreement shall be deemed to be the date of the final billing or acceptance of the work by the Village, whichever is later.

I am Pierce Kennamer of Iggy Trap of Florida LLC, the proposer that has submitted the attached proposal;

I hereby certify to the best of my knowledge that neither I nor any of those persons residing in my household have or have had during the past five years, any relationships (professional, financial, familial or otherwise) with the VILLAGE (or any of its districts), its elected or appointed officials, its employees or agents, or any member or alternate member of the Selection Committee.

A "relationship" for the purpose of this affidavit shall include but not be limited to employer/employee, consultant, contractor, subcontractor, associate, officer, partnership, joint venture, ownership greater than one percent, landlord/tenant, or creditor/debtor, gift donor/recipient (in excess of $100.00), past or on-going personal relationships, or joint involvement with charitable/voluntary activities. **Relationship includes having a prior or current contract with the VILLAGE.**

Except as set forth below, I hereby certify to the best of my knowledge that neither I nor any of those persons residing in my household have received any promise of compensation, remuneration, gift, discount, or other gratuity in exchange for my proposal.

I understand and agree that I shall give the VILLAGE written notice of any other relationships (as defined above) that I enter into with the VILLAGE (or any of its districts), its elected or appointed officials, its employees or agents, or any member or alternate member of the Selection Committee during the period of the Agreement.

I set forth below any exceptions to the aforementioned (if none, write "None"):

DRUG FREE WORKPLACE

The undersigned proposer in accordance with Chapter 287.087, Florida Statutes, hereby certifies that Iggy Trap of Florida LLC does:

(Name of proposer)

1. Publish a statement notifying employees that the unlawful manufacturing, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the contractual services described in the RFP document a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the contractual services described in the RFP or the Agreement, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

7. As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

PUBLIC ENTITY CRIMES

Sworn Statement Under §287.133(3)(a), Florida Statutes

(This form must be signed in the presence of a notary public or other officer authorized to administer oaths.)

1. This sworn statement is submitted with Bid, Proposal or contract No. RFP # 2025-02

2. This sworn statement is submitted by: Iggy Trap of Florida LLC
(name of entity submitting sworn statement)

whose business address is: 1330 NW 14th Street Boca Raton, FL 33486

Federal Identification Number (FEIN) is: 92-2335539
(if applicable)

Social Security Number: N/A

(if the entity has no FEIN, include the Social Security Number of the individual signing this sworn statement)

3. My name is: Pierce Kennamer
(print name of individual signing this document)

and my relationship to the entity is: President and Founder of Iggy Trap of Florida LLC

4. I understand that a "public entity crime" as defined in §287.133(1)(g), Florida Statutes means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United states, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

5. I understand that a "convicted" or "conviction" as defined in §287.133(1)(b), Florida Statutes, means a finding of guilt of a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

6. I understand that an "affiliate" as defined in §287.133(1)(a), Florida Statutes means:
   (a) A predecessor or successor of a person or a corporation convicted of a public entity crime; or

(b) An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima-facie case that one person controls another person. A person who knowingly enters a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

7. I understand that a "person" as defined in §287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which binds or applies to bids on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

8. Based on the information and belief, the statement that I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies)

   a. __X__Neither the entity submitting the sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity nor any affiliate of the entity have been charged with and convicted of a public entity crime after July 1, 1989.

   b. _____The entity submitting this sworn statement, or one or more of the officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989 and (Please indicate which additional statement applies)

      1) _____There has been a proceeding concerning the conviction before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. (Please attach a copy of the final order)

      2) _____The person or affiliate was placed on the convicted list. There has been a subsequent proceeding before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or affiliate from the convicted vendor list. (Please attach a copy of the final order)

3) ____The person or affiliate has not been placed on the convicted vendor list. (Please describe any action taken by or pending with the Department of General Services)

to furnish all materials, equipment, and labor and to perform all work in accordance with the Contract Documents for:

IGUANA PEST CONTROL SERVICES

("THE PROJECT")

TO: Village of Key Biscayne
Attn: Village Clerk
88 West McIntyre Street, Suite 220
Key Biscayne, Florida 33149

The undersigned, as Bidder, hereby declares that the only person or persons interested in the Bid, as principal or principals, is or are named herein and that no other person than herein mentioned has any interests in the Bid or the Contract to which the Work pertains; that this Bid is made without connection or arrangement with any other person, company, or parties making Bids or Proposals and that the Bid is in all respects fair and made in good faith without collusion or fraud.

The Bidder further declares that he or she has examined the geographic location and sites of the Work; that he has made sufficient investigations to fully satisfy himself that such sites are suitable for this Work; and he assumes full responsibility therefore; that he has examined the specifications for the Work and from his own experience or from professional advice that the specifications are sufficient for the Work to be done and he has examined the other Contract Documents relating thereto, including the Instructions to Bidders, the Contract, Bid, Detailed Scope of Work/Specifications, Qualification Statement, Public Entity Crime Form, and Insurance requirements

and he has read all addenda prior to the opening of Bids, and that he has satisfied himself fully, relative to all matters and conditions with respect to the Work to which this Bid pertains.

The Bidder proposes and agrees, if this Bid is accepted, to timely execute the Contract with the Village in the form attached and to furnish all necessary materials, all equipment, all necessary machinery, tools, apparatus, means of transportation, and labor necessary to complete the Work specified in the Bid and the Contract, and called for by the drawings and specifications and in the manner specified and to timely submit all required bonds and insurance certificates.

***NOTE:* THIS SCHEDULE OF BID ITEMS IS MERELY ILLUSTRATIVE OF THE MINIMUM AMOUNT/QUANTITY OF WORK TO BE PERFORMED UNDER THE CONTRACT. IN THE CASE OF ANY CONFLICT BETWEEN THIS SCHEDULE OF BID ITEMS AND THE DETAILED SPECIFICATIONS, THE DETAILED SPECIFICATIONS WILL PREVAIL.**

The Bidder further proposes and agrees to comply in all respects with the time limits for commencement and completion of the Work as stated in the Contract.

The Bidder agrees to execute the Contract and furnish the executed Contract, all required bonds, insurance certificates, and other required information to Village within ten (10) ten calendar days after written notice of the Award of Contract. The failure on the part of the Bidder to timely comply with this provision shall give Village all rights and remedies set forth in the Instructions to Bidders.

The undersigned agrees to accept as full compensation therefore the total of the lump sum prices and extended unit prices items named in the following schedule. It is understood that the unit prices quoted or established for a particular item are to be used for computing the amount to be paid to the Contractor, based on the Work actually performed as determined by the Contract and the Village. However, in utilizing the schedule, the Bidder agrees that in no event shall compensation paid to the Bidder under the Contract exceed the dollar amount of the Bidder's Bid amount, as set forth in the attached Bid.

It is intended that all Work to be performed under this Bid shall commence approximately thirty (30) days after Contract execution.

In no event shall Village be obligated to pay for Work not performed or materials not furnished. Bidder's

ATTACHMENT A

SERVICES AGREEMENT BETWEEN THE VILLAGE OF KEY BISCAYNE AND NAME OF ENTITY

THIS AGREEMENT (this "Agreement") is made effective as of the _____ day of _____ _____, 2024 (the "Effective Date"), by and between the **VILLAGE OF KEY BISCAYNE, FLORIDA,** a Florida municipal corporation, (the "Village"), and **NAME OF ENTITY**, a Florida [type of entity] (hereinafter, the "Consultant").

WHEREAS, the Village desires certain **IGUANA PEST CONTROL SERVICES** and

WHEREAS, the Consultant will perform services on behalf of the Village, all as further set forth in the Proposal dated _____, 2025, attached hereto as Exhibit "A" (the "Services"); and

WHEREAS, the Consultant and Village, through mutual negotiation, have agreed upon a fee for the Services; and

WHEREAS, the Village desires to engage the Consultant to perform the Services and provide the deliverables as specified below.

NOW, THEREFORE, in consideration of the mutual covenants and conditions contained herein, the Consultant and the Village agree as follows:

1. **Scope of Services.**

   1.1. Consultant shall provide the Services set forth in the Proposal attached hereto as Exhibit "A" and incorporated herein by reference (the "Services").

   1.2. Consultant shall furnish all reports, documents, and information obtained pursuant to this Agreement, and recommendations during the term of this Agreement (hereinafter "Deliverables") to the Village.

2. **Term/Commencement Date.**

   2.1. The term of this Agreement shall be from the Effective Date through one (1) years thereafter, unless earlier terminated in accordance with Paragraph 8. Additionally, the Village Manager may renew this Agreement for four (4) additional one (1) year periods on the same terms as set forth herein upon written notice to the Consultant.

   2.2. Consultant agrees that time is of the essence and Consultant shall complete the Services within the term of this Agreement, unless extended by the Village Manager.

3. **Compensation and Payment.**

3.1. Compensation for Services provided by Consultant shall be in accordance with the Proposal attached hereto as Exhibit "A." Consultant shall be compensated a flat rate, lump sum fee in the amount of $XXXX.XX per month.

3.2. Consultant shall deliver an invoice to Village no more often than once per month detailing Services completed and the amount due to Consultant under this Agreement. Fees shall be paid in arrears each month, pursuant to Consultant's invoice, which shall be based upon the percentage of work completed for each task invoiced. The Village shall pay the Consultant in accordance with the Florida Prompt Payment Act after approval and acceptance of the Services by the Village Manager.

3.3. Contractor's invoices must contain the following information for prompt payment:

3.3.1. Name and address of the Consultant;

3.3.2. Purchase Order number;

3.3.3. Contract number;

3.3.4. Date of invoice;

3.3.5. Invoice number (Invoice numbers cannot be repeated. Repeated invoice numbers will be rejected);

3.3.6. Name and type of Services;

3.3.7. Timeframe covered by the invoice; and

3.3.8. Total value of invoice.

Failure to include the above information will result in a delay of payment or rejection of the invoice. All invoices must be submitted electronically to payables@keybiscayne.fl.gov.

4. Subconsultants.

4.1. The Consultant shall be responsible for all payments to any subconsultants and shall maintain responsibility for all work related to the Services.

4.2. Consultant may only utilize the services of a particular subconsultant with the prior written approval of the Village Manager, which approval may be granted or withheld in the Village Manager's sole and absolute discretion.

5. Village's Responsibilities.

5.1. Village shall make available any maps, plans, existing studies, reports, staff and representatives, and other data pertinent to the Services and in possession of the Village, and provide criteria requested by Consultant to assist Consultant in performing the Services.

5.2. Upon Consultant's request, Village shall reasonably cooperate in arranging access to public information that may be required for Consultant to perform the Services.

6. **Consultant's Responsibilities; Representations and Warranties.**

6.1. The Consultant shall exercise the same degree of care, skill and diligence in the performance of the Services as is ordinarily provided by a consultant under similar circumstances. If at any time during the term of this Agreement or within two (2) years from the completion of this Agreement, it is determined that the Consultant's Deliverables or Services are incorrect, not properly rendered, defective, or fail to conform to Village requests, the Consultant shall at Consultant's sole expense, immediately correct its Deliverables or Services.

6.2. The Consultant hereby warrants and represents that at all times during the term of this Agreement it shall maintain in good standing all required licenses, certifications and permits required under Federal, State and local laws applicable to and necessary to perform the Services for Village as an independent contractor of the Village. Consultant further warrants and represents that it has the required knowledge, expertise, and experience to perform the Services and carry out its obligations under this Agreement in a professional and first-class manner.

6.3. The Consultant represents that is an entity validly existing and in good standing under the laws of Florida. The execution, delivery and performance of this Agreement by Consultant have been duly authorized, and this Agreement is binding on Consultant and enforceable against Consultant in accordance with its terms. No consent of any other person or entity to such execution, delivery and performance is required.

7. **Conflict of Interest.**

7.1. To avoid any conflict of interest or any appearance thereof, Consultant shall not, for the term of this Agreement, provide any consulting services to any private sector entities (developers, corporations, real estate investors, etc.), with any current, or foreseeable, adversarial issues in the Village.

8. **Termination.**

8.1. The Village Manager, without cause, may terminate this Agreement upon five (5) calendar days' written notice to the Consultant, or immediately with cause.

8.2. Upon receipt of the Village's written notice of termination, Consultant shall immediately stop work on the project unless directed otherwise by the Village Manager.

8.3. In the event of termination by the Village, the Consultant shall be paid for all work accepted by the Village Manager up to the date of termination, provided that the Consultant has first complied with the provisions of Paragraph 8.4.

8.4. The Consultant shall transfer all books, records, reports, working drafts, documents, maps, and data pertaining to the Services and the project to the Village, in a hard copy and electronic format within fourteen (14) days from the date of the written notice of termination or the date of expiration of this Agreement.

9. **Insurance.**

9.1. Consultant shall secure and maintain throughout the duration of this agreement insurance of such types and in such amounts not less than those specified below as satisfactory to Village,

naming the Village as an Additional Insured, underwritten by a firm rated A-X or better by A.M. Best and qualified to do business in the State of Florida. The insurance coverage shall be primary insurance with respect to the Village, its officials, employees, agents, and volunteers naming the Village as additional insured. Any insurance maintained by the Village shall be in excess of the Consultant's insurance and shall not contribute to the Consultant's insurance. The insurance coverage shall include at a minimum the amounts set forth in this section and may be increased by the Village as it deems necessary or prudent.

9.1.1. Commercial General Liability coverage with limits of liability of not less than a $1,000,000 per Occurrence combined single limit for Bodily Injury and Property Damage. This Liability Insurance shall also include Completed Operations and Product Liability coverages and eliminate the exclusion with respect to property under the care, custody and control of Consultant. The General Aggregate Liability limit and the Products/Completed Operations Liability Aggregate limit shall be in the amount of $2,000,000 each.

9.1.2. Workers Compensation and Employer's Liability insurance, to apply to all employees for statutory limits as required by applicable State and Federal laws. The policy(ies) must include Employer's Liability with minimum limits of $1,000,000.00 for each accident. No employee, subcontractor or agent of the Consultant shall be allowed to provide Services pursuant to this Agreement who is not covered by Worker's Compensation insurance.

9.1.3. Business Automobile Liability with minimum limits of $1,000,000 per occurrence, combined single limit for Bodily Injury and Property Damage. Coverage must be afforded on a form no more restrictive than the latest edition of the Business Automobile Liability policy, without restrictive endorsements, as filed by the Insurance Service Office, and must include Owned, Hired, and Non-Owned Vehicles.

9.1.4. Professional Liability Insurance in an amount of not less than One Million Dollars ($1,000,000.00) per occurrence, single limit.

9.2. **Certificate of Insurance.** Certificates of Insurance shall be provided to the Village, reflecting the Village as an Additional Insured (except with respect to Professional Liability Insurance and Worker's Compensation Insurance), no later than ten (10) days after award of this Agreement and prior to the execution of this Agreement by Village and prior to commencing Services. Each certificate shall include no less than (30) thirty-day advance written notice to Village prior to cancellation, termination, or material alteration of said policies or insurance. The Consultant shall be responsible for assuring that the insurance certificates required by this Section remain in full force and effect for the duration of this Agreement, including any extensions or renewals that may be granted by the Village. The Certificates of Insurance shall not only name the types of policy(ies) provided, but also shall refer specifically to this Agreement and shall state that such insurance is as required by this Agreement. The Village reserves the right to inspect and return a certified copy of such policies, upon written request by the Village. If a policy is due to expire prior to the completion of the Services, renewal Certificates of Insurance shall be furnished thirty (30) calendar days prior to the date of their policy expiration. Each policy certificate shall be endorsed with a provision that not less than thirty (30) calendar days' written notice shall be provided to the Village before any policy or coverage is cancelled or restricted. Acceptance of the Certificate(s) is subject to approval of the Village.

9.3. **Additional Insured.** Except with respect to Professional Liability Insurance and Worker's Compensation Insurance, the Village is to be specifically included as an Additional Insured for the liability of the Village resulting from Services performed by or on behalf of the Consultant in performance of this Agreement. The Consultant's insurance, including that applicable to the Village as an Additional Insured, shall apply on a primary basis and any other insurance maintained by the Village shall be in excess of and shall not contribute to the Consultant's insurance. The Consultant's insurance shall contain a severability of interest provision providing that, except with respect to the total limits of liability, the insurance shall apply to each Insured or Additional Insured (for applicable policies) in the same manner as if separate policies had been issued to each.

9.4. **Deductibles.** All deductibles or self-insured retentions must be declared to and be reasonably approved by the Village. The Consultant shall be responsible for the payment of any deductible or self-insured retentions in the event of any claim.

9.5. The provisions of this section shall survive termination of this Agreement.

10. **Nondiscrimination.** During the term of this Agreement, Consultant shall not discriminate against any of its employees or applicants for employment because of their race, color, religion, sex, or national origin, and will abide by all Federal and State laws regarding nondiscrimination.

11. **Attorney's Fees and Waiver of Jury Trial.**

11.1. In the event of any litigation arising out of this Agreement, the prevailing party shall be entitled to recover its attorneys' fees and costs, including the fees and expenses of any paralegals, law clerks and legal assistants, and including fees and expenses charged for representation at both the trial and appellate levels.

11.2. IN THE EVENT OF ANY LITIGATION ARISING OUT OF THIS AGREEMENT, EACH PARTY HEREBY KNOWINGLY, IRREVOCABLY, VOLUNTARILY AND INTENTIONALLY WAIVES ITS RIGHT TO TRIAL BY JURY.

12. **Indemnification.**

12.1. Consultant shall indemnify and hold harmless the Village, its officers, agents and employees, from and against any and all demands, claims, losses, suits, liabilities, causes of action, judgment or damages, arising from Consultant's performance or non-performance of any provision of this Agreement, including, but not limited to, liabilities arising from contracts between the Consultant and third parties made pursuant to this Agreement. Consultant shall reimburse the Village for all its expenses including reasonable attorneys' fees and costs incurred in and about the defense of any such claim or investigation and for any judgment or damages arising from Consultant's performance or non-performance of this Agreement.

12.2. Nothing herein is intended to serve as a waiver of sovereign immunity by the Village nor shall anything included herein be construed as consent to be sued by third parties in any matter arising out of this Agreement or any other contract. The Village is subject to section 768.28, Florida Statutes, as may be amended from time to time.

12.3. The provisions of this section shall survive termination of this Agreement.

13. **Notices/Authorized Representatives.** Any notices required by this Agreement shall be in writing and shall be deemed to have been properly given if transmitted by hand-delivery, by registered or certified mail with postage prepaid return receipt requested, or by a private postal service, addressed to the parties (or their successors) at the addresses listed on the signature page of this Agreement or such other address as the party may have designated by proper notice.

14. **Governing Law and Venue**. This Agreement shall be construed in accordance with and governed by the laws of the State of Florida. Venue for any proceedings arising out of this Agreement shall be proper exclusively in Miami-Dade County, Florida.

15. **Entire Agreement/Modification/Amendment.**

15.1. This writing contains the entire Agreement of the parties and supersedes any prior oral or written representations. No representations were made or relied upon by either party, other than those that are expressly set forth herein.

15.2. No agent, employee, or other representative of either party is empowered to modify or amend the terms of this Agreement, unless executed with the same formality as this document.

16. **Ownership and Access to Records and Audits.**

16.1. Consultant acknowledges that all inventions, innovations, improvements, developments, methods, designs, analyses, drawings, reports, compiled information, and all similar or related information (whether patentable or not) which relate to Services to the Village which are conceived, developed or made by Consultant during the term of this Agreement ("Work Product") belong to the Village. Consultant shall promptly disclose such Work Product to the Village and perform all actions reasonably requested by the Village (whether during or after the term of this Agreement) to establish and confirm such ownership (including, without limitation, assignments, powers of attorney and other instruments).

16.2. Consultant agrees to keep and maintain public records in Consultant's possession or control in connection with Consultant's performance under this Agreement. The Village Manager or her designee shall, during the term of this Agreement and for a period of three (3) years from the date of termination of this Agreement, have access to and the right to examine and audit any records of the Consultant involving transactions related to this Agreement. Consultant additionally agrees to comply specifically with the provisions of Section 119.0701, Florida Statutes. Consultant shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed, except as authorized by law, for the duration of the Agreement, and following completion of the Agreement until the records are transferred to the Village.

16.3. Upon request from the Village's custodian of public records, Consultant shall provide the Village with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided by Chapter 119, Florida Statutes, or as otherwise provided by law.

16.4. Unless otherwise provided by law, any and all records, including but not limited to reports, surveys, and other data and documents provided or created in connection with this Agreement are and shall remain the property of the Village.

16.5. Upon completion of this Agreement or in the event of termination by either party, any or all public records relating to the Agreement in the possession of the Consultant shall be delivered by the Consultant to the Village Manager, at no cost to the Village, within seven (7) days. All such records stored electronically by Consultant shall be delivered to the Village in a format that is compatible with the Village's information technology systems. Once the public records have been delivered upon completion or termination of this Agreement, the Consultant shall destroy any and all duplicate public records that are exempt or confidential and exempt from public records disclosure requirements.

16.6. Any compensation due to Consultant shall be withheld until all records are received as provided herein.

16.7. Consultant's failure or refusal to comply with the provisions of this section shall result in the immediate termination of this Agreement by the Village.

16.8. **Notice Pursuant to Section 119.0701(2)(a), Florida Statutes.** **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS.**

17. Nonassignability. This Agreement shall not be assignable by Consultant unless such assignment is first approved by the Village Manager. The Village is relying upon the apparent qualifications and expertise of the Consultant, and such firm's familiarity with the Village's area, circumstances and desires.

18. Severability. If any term or provision of this Agreement shall to any extent be held invalid or unenforceable, the remainder of this Agreement shall not be affected thereby, and each remaining term and provision of this Agreement shall be valid and be enforceable to the fullest extent permitted by law.

19. Independent Contractor. The Consultant and its employees, volunteers and agents shall be and remain an independent contractor and not an agent or employee of the Village with respect to all of the acts and services performed by and under the terms of this Agreement. This Agreement shall not in any way be construed to create a partnership, association or any other kind of joint undertaking, enterprise or venture between the parties.

20. Compliance with Laws. The Consultant shall comply with all applicable laws, ordinances, rules, regulations, and lawful orders of public authorities in carrying out Services under this Agreement, and in particular shall obtain all required permits from all jurisdictional agencies to perform the Services under this Agreement at its own expense.

21. **Waiver.** The failure of either party to this Agreement to object to or to take affirmative action with respect to any conduct of the other which is in violation of the terms of this Agreement shall not be construed as a waiver of the violation or breach, or of any future violation, breach or wrongful conduct.

22. **Survival of Provisions.** Any terms or conditions of either this Agreement that require acts beyond the date of the term of the Agreement, shall survive termination of the Agreement, shall remain in full force and effect unless and until the terms or conditions are completed and shall be fully enforceable by either party.

23. **Prohibition of Contingency Fees.** The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant, to solicit or secure this Agreement, and that it has not paid or agreed to pay any person(s), company, corporation, individual or firm, other than a bona fide employee working solely for the Consultant, any fee, commission, percentage, gift, or any other consideration, contingent upon or resulting from the award or making of this Agreement.

24. **Public Entity Crimes Affidavit.** Consultant shall comply with Section 287.133, Florida Statutes (Public Entity Crimes Statute), notification of which is hereby incorporated herein by reference, including execution of any required affidavit.

25. **Counterparts.** This Agreement may be executed in several counterparts, each of which shall be deemed an original and such counterparts shall constitute one and the same instrument.

26. **Conflicts.** In the event of a conflict between the terms of this Agreement and any exhibits or attachments hereto, the terms of this Agreement shall control.

27. **E-Verify Affidavit.** In accordance with Section 448.095, Florida Statutes, the Village requires all contractors doing business with the Village to register with and use the E-Verify system to verify the work authorization status of all newly hired employees. The Village will not enter into a contract unless each party to the contract registers with and uses the E-Verify system. The contracting entity must provide its proof of enrollment in E-Verify. For instructions on how to provide proof of the contracting entity's participation/enrollment in E-Verify, please visit: https://www.e-verify.gov/faq/how-do-i-provide-proof-of-my-participationenrollment-in-e-verify. By entering into this Agreement, the Contractor acknowledges that it has read Section 448.095, Florida Statutes; will comply with the E-Verify requirements imposed by Section 448.095, Florida Statutes, including but not limited to obtaining E-Verify affidavits from subcontractors; and has executed the required affidavit attached hereto and incorporated herein.

IGGYTRAP™
Florida's Iguana Solution

Executive Summary

IggyTrap is Florida's fastest growing Invasive Species Removal Company. Over the course of the past 4 Years, IggyTrap has become the leader in invasive species technology and innovation. Through our patented IggyTrap, we have completely changed the game in Iguana and Non-Native Lizard removal. Our patented, Multi-Capture Traps have answered the years-long question of how to safely and humanely remove iguanas in mass numbers. Gone are the days of using traditional nuisance traps (catching one at a time)- that is if you can even trap your targeted species. IggyTrap's smart door technology allows for non-target native animals, such as raccoons and opossums, to escape the traps, while leaving the iguanas trapped behind.

IggyTrap Innovation addresses concerns that municipalities deal with on a daily basis- "How do we best carry out iguana removals in the public eye, with our citizens and visitors seeing?" and "We aren't getting enough removal time- the technician isn't here long enough!" IggyTraps' design allows for 24 hour operation, with each commercial cage unit able to trap up to 20+ at a single time. Even when the IggyTrap team isn't on-site, you can be assured that you're receiving around the clock remediation efforts. IggyTrap also understands the sensitivity of this issue- at the end of the day, it's animal removal; Everyone has differing opinions and feelings about it. IggyTrap does the very best in humane operations. Every trap is equipped with food, bowls filled with fresh water, and a sun shade camouflage net for the animals- as well as discreteness to blend traps into landscaping and other areas.

The IggyTrap team is fully committed to achieving the goals of the Village of Key Biscayne. Our missions are aligned: Serve the community with a service that they will be pleased that their dollars are paying for, and complete the task in its entirety- remove and see a noticeable positive change in the effects of the non-native lizard populations. We are the only Iguana Removal Company in Florida that mass manufactures our own equipment. Our traps are not for sale (no matter how many pest control companies and other Iguana Removal companies ask for them), we do not subcontract any work, and we truly believe our team provides the most professional and complete service available.

IggyTrap has a full team of technicians with years of wildlife removal experience. We conduct Iguana Remediation and removal efforts for Commercial and Residential Properties in Miami-Dade, Martin, Monroe, Broward, Palm Beach Hendry, and Collier Counties with offices in Palm Beach, Broward, and Monroe Counties. We also offer a number of other iguana exclusion products, including our IggyWrap Tree Wrap, and IggySkirt Lanai Screen Protector.

Our Iguana Removal team is trained and highly skilled in all forms of removals- from trapping, live noosing, air gun removal, egg and burrow removal, and the removal of hatchlings. Our technicians are each equipped with different size telescoping noose poles to capture even the most difficult to reach iguanas. IggyTrap also has recently introduced a successful multi-capture hatchling trap, which has proved to catch iguana hatchlings with little to no effort. We would happily deploy these

IGGYTRAP™
Florida's Iguana Solution

inconspicuous traps during the iguana breeding season around the Village. IggyTrap also has a custom application which allows for reports to be auto generated with latitude/longitude coordinates, names of properties, technicians, photos of removals, dates/times, even different removal methods. This data can be shared immediately with city staff and officials- showing you real-time ROI and gives the county more information on what is working, where the iguanas are most often, and can allow the county to better plan for remediation efforts in the coming years.

The Village of Key Biscayne has tried the same old ways- and it hasn't worked. The bid pricing structure and the comments made by staff in the pre big meeting showed that the results weren't what the Village had been looking for. However, this bid structure is shifting all liability to the vendor, which is going to lead to high per iguana costs to ensure overhead and operational costs are covered. We propose the Village should look towards a larger, long-term approach- IggyTrap is prepared to invest in Key Biscayne, offering an on-island resident liaison/technician to manage everything invasive for the island year round. This would cover all areas of the island, both public areas and be available to private homeowners. This is outside of the request of this RFP, but will be much more appropriate and needed. Keeping operations on the island could offer much better returns long-term for the island. I suggest we explore this together.

We offer The Village products and services that no other company can provide- every other company is going to provide a different version of the same thing. It's time to give innovation a serious chance to make a big difference for the Island. We are constantly designing new equipment and products for invasive species- because our state desperately needs it. We hope for your serious consideration and we look forward to the opportunity to provide top quality services to your constituents.

Best,

Pierce Kennamer, President and Founder

Deliverables:

1. **Iguana Trapping and Removal Services:** Utilization of IggyTrap Commercial Multi-Capture Traps, IggyTrap Residential Multi-Capture Traps, IggyMini Traps, BabyIggy Traps, Traditional Nuisance Traps, Noosing, air gun removal (in coordination with city officials, when applicable or requested), live removal by hand, Burrow Filling, Backfilling, and Egg Removal. Services will be provided at a minimum 2 days per week, per RFP 2.2.8.
2. **Property Assessments:** Conducting site-visits when requested to access areas for removal.
3. **Call Response:** Answering and returning calls of residents and staff in a timely manner and providing any assistance needed.
4. **Off-Island Disposal:** deceased Iguanas will not be disposed of in any Village garbage receptacles.
5. **Off-Site Euthanasia:** All iguanas captured will be transported live off-island for humane euthanasia. No euthanasia will be conducted in the public eye.
6. **Trap Checking:** IggyTrap will be in accordance with all state laws and will coordinate to have traps monitored every 24 hours.
7. **Progress Reports:** Photo Reports will be generated via IggyTrap Trapping Tracker App for ROI, Record Keeping, and communication. Reports will be provided weekly, with master reports combined at the end of each month.
8. **Providing Equipment:** All equipment needed to satisfy this RFP will be provided by IggyTrap.
9. **Logoed Uniforms:** All employees will be clearly marked with company uniforms and logoed PPE gear, when necessary.
10. **Open Communication:** IggyTrap will communicate with staff to coordinate removal efforts.

IGGYTRAP™
Florida's Iguana Solution

Exceptions:

1. **2.3.8. The Contractor will visit waterways by boat, if necessary.**

- IggyTrap will be unable to comply with this service request, as IggyTrap does not own or operate the boat in question.

2. **2.3.11.The Contractor must be available twenty-four (24) hours a day, seven (7) days a week on an emergency basis. In an emergency situation where services are required immediately outside of the Village's business hours, the Village will contact the Contractor and the Contractor shall respond to the work within two (2) hours. The Contractor will provide a telephone number and email for use during emergency response.**

- Due to the pricing structure in this RFP, IggyTrap cannot honor our normal 24/7 emergency response services. If the Village of Key Biscayne wishes to have this service provided, they will need to amend the agreement to agree to pay our emergency response pay structure rather than per iguana.
