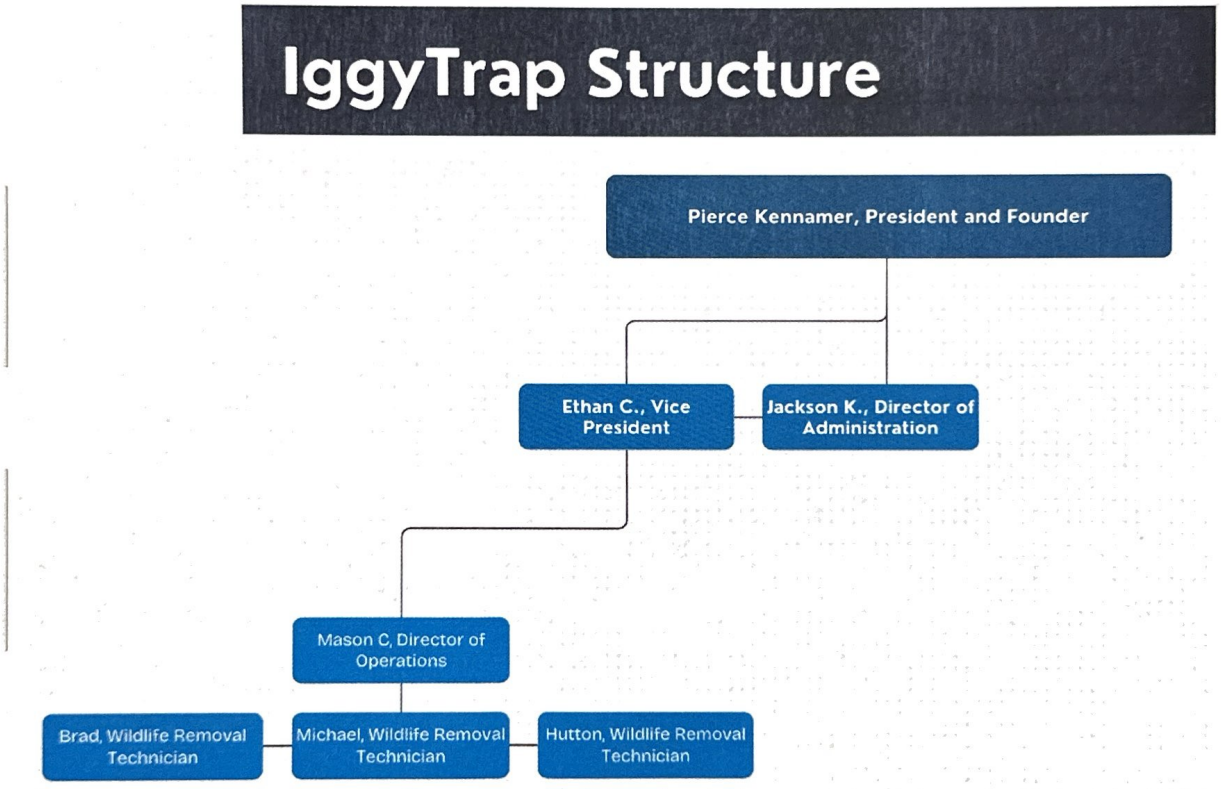
IggyTrap has mastered the Iguana space. In order to design the IggyTrap, we first had to master the ecology and behavior of iguanas and non-native lizards. We had to understand every nuance, every habit, even down to their muscle movements in order to design the most effective and the **only** iguana-specific, multi-capture trap that exists. This is our space- IggyTrap has spent thousands of hours of R&D, field time, and job hours to effectively master this space. We've independently published population estimates and research through our website, which has been picked up by numerous media applications. We've also been called in to provide industry insight on numerous podcasts and radio programs.

d. **Project Management:**
IggyTrap has conducted numerous large-scale removal projects that encompass different areas, terrain, population, and removal methods that will be prevalent to the same as to Key Biscayne. We have conducted trapping removals of Spiny Tail iguanas in Crandon Park, Green Iguanas in other Miami-Dade PROS properties, and other municipal properties across Miami Dade, Broward, and Palm Beach Counties. These areas all require special attention to discreteness and a willingness to educate the public- our technicians carry educational materials on public properties for this very reason. Also traps need to be camouflaged/hidden in order to maintain the lowest possible profile. We have a very high satisfaction rate with our clients and have high success rates in creating "containment" areas where iguana damages and populations have been diminished. Contract numbers and customer contact information outside of listed references can be discussed and provided upon intent to award.

IGGYTRAP™
Florida's Iguana Solution

Service Team and Personnel Plan:

a). Key Biscayne IggyTrap Team Structure



b). Role Descriptions

- **Pierce Kennamer, President:** Will oversee all operations and iguana removal program on Key Biscayne. Will work directly on structuring the program with the Village, provide insight, and lead the team with strong leadership and goal-setting.
- **Ethan Cotto, Vice President:** Will maintain quality and service control over the wildlife removal team. The Vice President will serve as the company liaison with the Village and can provide any support that the village needs.
- **Jackson K, Director of Administration:** Will be responsible for all invoicing, billing, and photo removal reports being sent to the Village contact.
- **Mason C, Director of Operations:** The Director of Operations is responsible for the carrying out of all services provided to The Village. The Director of Operations will communicate directly and

clearly with the Village to provide insight and reports as to the status of the iguana removal program.

- **Wildlife Removal Technicians:** Responsible for carrying out the work of trapping and removing iguanas. Wildlife Removal Technicians are trained in noosing, trapping, hand catching, and all other forms of removal necessary to carry out the work required by this RFP.

*All these positions are full time positions, 40 hours/week.

*Full Resumes can be made available upon Intent to Award. Resumes contain sensitive and private personal contact information of employees and will not be made available for public records.

c). Relevant Experience

- Our wildlife removal team has grown with our company; Our team has combined tens of thousands of hours in the field trained in removing invasive lizards and iguanas. The relevant experience of each team member lies in their performance with our company. Our Director of Operations and Vice President have been with the company over 2 years each and have grown with the company. Each team member is trained and licensed in Wildlife Removal and each carry a copy of our company Conditional Nonnative Species Permit.

d). Approach

- IggyTrap believes open communication between parties is the ultimate key to success in an iguana removal program. In addition to our weekly photo removal reports (see attached sample), we will have write-up summaries prepared to explain findings, provide additional recommendations, and any other comments our team deems appropriate for the Village. We will propose a quarterly in-person meeting with Village Iguana Program Leadership to review progress and strategically plan to ensure lasting and continuing success.

IGGYTRAP™
Florida's Iguana Solution

Proposal Approach:

Our goal is simple- remove as many iguanas as possible from the Village of Key Biscayne. Our proposal is rooted in our proprietary trapping technology, IggyTrap. Our patented, Multi-Capture Traps have answered the years-long question of how to safely and humanely remove iguanas in mass numbers. Gone are the days of using traditional nuisance traps (catching one at a time)- that is if you can even trap your targeted species. IggyTrap's smart door technology allows for non-target native animals, such as raccoons and opossums, to escape the traps, while leaving the iguanas trapped behind.

IggyTrap Innovation addresses concerns that municipalities deal with on a daily basis- "How do we best carry out iguana removals in the public eye, with our citizens and visitors seeing?" and "We aren't getting enough removal time- the technician isn't here long enough!" IggyTraps' design allows for 24 hour operation, with each commercial cage unit able to trap up to 20+ at a single time. Even when the IggyTrap team isn't on-site, you can be assured that you're receiving around the clock remediation efforts. IggyTrap also understands the sensitivity of this issue- at the end of the day, it's animal removal; Everyone has differing opinions and feelings about it. IggyTrap does the very best in humane operations. Every trap is equipped with food, bowls filled with fresh water, and a sun shade camouflage net for the animals- as well as discreteness to blend traps into landscaping and other areas.

According to the addendum, services will be conducted in PROS areas and grounds, in addition to swales and public right-of-ways. However, we will likely need to take a broader look at the entire issue. Many of the iguanas aren't living in the swales, or on public right-of-ways; The iguanas are living, residing, and causing issues on private properties as well. A conversation will need to be had with Village leadership on how to address private properties and the iguanas that are multiplying in those areas as well, especially once all the PROS properties are free of iguanas.

We will make the splash pad areas and playground spaces an immediate priority for remediation. We cannot have iguana droppings where our kids play in the water and go down slides- it's a public health hazard. We will make it a top priority to ensure these areas are clean of iguanas and stay clean! Other areas of PROS will need remediation as well- we need to keep our parks as clean as possible. We will deploy IggyTraps and conduct live noosing to remediate these areas; If air gun remediation is deemed necessary, we will coordinate with the Village on timing and planning for the efforts to be carried out.

IggyTrap will work closely with Village program leaders to schedule different areas that will be in need of remediation across the island. The more participation we can gather, the larger impact we can make. This will include coordinating digging out of burrows and egg collection, collecting of hatchlings, potential night visits, etc.

Village properties will be remediated at a minimum twice per week- if there are high iguana populations in the areas available to remediate, additional visits will be added in order to maximize capture quantity. IggyTrap will also field phone calls from the Village to report sightings and areas where iguanas have been spotted in order to maximize responsiveness and to see immediate results.

IGGYTRAP™
Florida's Iguana Solution

However, due to the structure of this RFP, there is a heavy deal of liability placed on the vendor- no operational costs are covered outside of paying per iguana caught, which can quickly cause operational friction if we are not permitted to carry out the services in the manner that is our professional opinion. Trap placement and remediation will be coordinated and recommended by IggyTrap- we will not place traps or spend many hours remediating areas by request of the village if they are not deemed to be areas where iguanas are present.

Furthermore, the rate per iguana is a surcharged amount above industry standard due to liability risk placed on the vendor. After-hours, overnight, and Emergency visits as required by this RFP will only be paid out if iguanas are captured. If the iguana moves by the time the call is responded to, we could potentially be left with non-payment for a 2AM service call. In order to mitigate this reality, the cost per iguana will be surcharged to account for all operational costs, insurance, and labor.

I strongly advise the Village to re-consider the pricing structure of this bid. The program didn't work due to the methodology and inefficient work by low cost providers. We bring a fresh methodology to the table, and are even proposing that we open a specific office that can be sponsored by the Village to serve all your residents and properties. This could be a much better and sustainable long-term solution.

I'd be MORE than happy to design a custom program with the Village and a price structure that works for both parties that will yield fantastic results, and we can have a program with great checks and balances that can fit exactly to your budget.

THE #1 CHOICE FOR MUNICIPALITIES AND GOVERNMENTS

IGGYTRAP™ Designed Specifically to Stop the Spread of Iguanas

The Iguana population is exploding and it is causing millions of dollars in damage each year. IggyTrap™ was designed and has been proven to be the best short- and long-term solution in Iguana remediation.

The Advantages of IggyTrap™:

- Catches dozens of Iguanas in a single unit
- Designed to catch iguanas of all sizes
- The BEST gun free solution
- Quiet operation and camouflaged for optimum discreetness
- No on-site euthanasia
- Traps ONLY Iguanas - no "non-target" animal captures
- Commercial construction for years of performance
- Designed for temporary or semi-permanent installation offering 24/7/365 operation

IGGYTRAP™
Florida's Iguana Solution

SCAN FOR SERVICES

IggyTrap™ is the only multi-capture trap designed to be discreet, non-intrusive and blend into the natural landscaping and catch ONLY Iguanas. The perfect solution for "Gun Free" areas like – Municipal Parks, Golfs Courses, Schools, Beaches, and public spaces where the use of guns will cause public distress. IggyTrap™ is humane and will not harm the iguanas while they're in the trap.

*Patent Pending

PERFECT FOR COMMERCIAL APPLICATIONS AND PROPERTIES:
GOLF COURSES, NATURE PRESERVES, PARKS, RECREATIONAL FACILITIES, HOA COMMUNITIES, APARTMENT COMPLEXES, INDUSTRIAL BUILDINGS

1021

IGGYTRAP™ Designed for Maximum Performance To Manage and Stop the Spread of Invasive Iguanas

Multi Trap Design for Semi-Permanent or Temporary Installation with 24/365 Operation

IggyTrap™ is a Patent Pending, modular design allowing for multiple trap configurations to accommodate any property. IggyTrap™ will capture dozens upon dozens of iguanas at a time, making it the most economical and effective method for managing the ever-growing iguana population.

One of the key design features of the IggyTrap™ is it is installed on a semi-permanent basis. This allows the trap to actively trap iguanas 24/7/365 before they have a chance to do any damage to your property. When the trap is serviced, the holding compartment is simply exchanged out, taking only a few moments to complete so to minimize any disturbance to patrons.

NEW! IggyWrap™ - The Preventive Solution

- Prevents Iguanas from Climbing Trees
- Eliminates a Critical Part of Their Habitat
- Does Not Harm the Trees
- Lightweight, Durable, Clear Polymer Almost Unnoticeable
- Fits Almost Any Size Trees
- Weatherproof
- Prices start as low as $25/tree

IggyWrap™ is a lightweight, durable, clear polymer that prevents Iguanas from climbing trees.

Captures Dozens of Iguanas at a Time... Depending on Their Size!

Let IggyTrap™ Develop an Effective Mitigation Program for You Today!

Florida needs a innovative solution that can be deployed on a major scale that will significantly reduce the Iguana population. IggyTrap™ was designed to:

- Active 24/7/365
- Captures ONLY Iguanas
- Inspected in accordance with FWC regulations
- Non-intrusive Servicing
- Weekly/Monthly Trapping Reports (as Requested)
- Meets FWC Regulations
- Direct Line of Communication

MEMORANDUM

DATE: August 19, 2025

TO: Honorable Mayor and Councilmembers

FROM: Steven C. Williamson, Village Manager

RE: Special Events Rental Supplies Contract Agreements

RECOMMENDATION

Recommended the Village Council authorize the Village Manager to negotiate and enter into agreements with Island Party Place LLC. and Mega Party Events Inc. for special rental supplies. The proposed agreements will both be for an initial three (3) year term with two (2) optional one-year extensions, in amounts not to exceed the approved annual budget.

DISCUSSION

Purpose: The agreements will support the Village's ability to host well-organized, high-quality public events by contracting vendors to provide the essential supplies and services required including tables, tents, chairs, and linens.

Background: In response to the need to ensure timely and professional delivery of rental supplies for community events, the Village issued Request for Quotations No. 25-01 on June 13, 2025, soliciting qualified and experienced event rental companies to furnish tables, tents, chairs, and linens in support of Village-hosted public events. The RFQT was publicly advertised, posted on the Village's website and DemandStar, and was open to all eligible vendors. Proposals were due by July 15, 2025, at 11:30 A.M. The procurement effort reflects the Village's ongoing commitment to maintaining high standards in event planning, public engagement, and operational efficiency.

Justification: The recommendation to award agreements to Island Party Place LLC. and Mega Party Events Inc. is based on their status as the most responsive and responsible proposers among the four submissions received. While two vendors, Jormak Equipment & Consulting Inc. and Tents n Events Inc., submitted lower bids, their proposals were deemed non-compliant due to incomplete or insufficient documentation, including missing bid schedules and lack of required information necessary to evaluate their capabilities. The Procurement Officer contacted both Jormak Equipment & Consulting Inc. and Tents n Events Inc. to request the missing information to bring them in to compliance. However, they did not respond and their submissions remained non-compliant as of the evaluation deadline.

Island Party Place LLC. and Mega Party Events Inc. submitted complete and compliant proposals. They

met all qualification criteria, received positives references, and demonstrated the ability to provide a diverse inventory of high-quality event rental items. They represent the best value to the Village, balancing cost with reliability, capacity, and performance assurance.

Implementation/Integration Plan: Island Party Place is a vendor frequently used by the department and will serve as the primary vendor for special events rental supplies under the new agreement. Upon execution of the agreement, the Village will continue coordinating with Island Party Place for upcoming events. In the event of a scheduling conflict, service limitation, or inability to meet the Village's needs, Mega Party Events will be utilized as the secondary vendor to ensure continuity of service and avoid disruptions to planned events.

The procurement process also establishes clear responsibilities for the vendors, including the delivery, setup, and removal of equipment; maintenance of quality and cleanliness standards; and availability of varied options to accommodate different event types. Vendors are also required to coordinate closely with Village staff to ensure proper logistics, timely execution, and on-site responsiveness. This structured approach strengthens the Village's operational readiness and ability to consistently deliver successful community events.

RESOURCE IMPACT

Recurring Funding: The annual expected expense will depend on the quantity of events conducted each year but it is expected to range between $20,000 to $25,000 annually. With the number of Village-sponsored events increasing, and additional programming being added through community events, the Village recently purchased fifty event chairs to internally support smaller-scale events without needing to rent chairs.

Personnel: PROS staff currently manage the coordination and oversight rental supplies.

FUNDING SOURCES

The rental items are funded through several different line items across the Parks Department budget.

- ***GL Code:*** 001-72-572-48002, 001-72-572-48007, 001-72-572-48011, 001-72-572-48041, 001-72-572-48044, 001-72-572-48045
- ***Budget Line-Item:*** Community and Cultural Event, Winterfest, Concert Series, Veteran's & Memorial Day Ceremony, Lighthouse Run, Fall Festival, and the different Community Programs & Events.
- ***Amount:*** $20,000 to $25,000 annually

STRATEGIC CONNECTION (GOAL / FOCUS AREA)

Formalizing the special events equipment rentals aligns with the goals of community engagement, public experience enhancement and operational efficiency.

RESOLUTION NO. 2025-_____

A RESOLUTION OF THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, SELECTING ISLAND PARTY PLACE LLC AND MEGA PARTY EVENTS INC. FOR SPECIAL EVENTS RENTAL SUPPLIES SERVICES ON AN AS-NEEDED BASIS; PROVIDING FOR AUTHORIZATION; PROVIDING FOR IMPLEMENTATION; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, on June 13, 2025, the Village of Key Biscayne (the "Village") issued Request for Quotations No. 25-01 (the "RFQT") requesting bids for the provision of high-quality linens, tables, tents, and chairs to support the diverse needs of events hosted by the Village on an as-needed basis (the "Services"); and

WHEREAS, two responsive sealed quotes were received by the RFQT deadline; and

WHEREAS, the Village Manager recommends that the Village Council select Island Party Place LLC and Mega Party Events Inc. (collectively, the "Contractors") to provide the Services; and

WHEREAS, the Village Council desires to select the Contractors to perform the Services and authorize the Village Manager to negotiate and execute an agreement, in substantially the form attached hereto as Exhibit "A," with each of the Contractors; and

WHEREAS, the Village Council finds that this Resolution is in the best interest and welfare of the residents of the Village.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, AS FOLLOWS:

Section 1. Recitals. That each of the above-stated recitals are hereby adopted, confirmed, and incorporated herein.

Section 2. Selection. That the Village Council hereby selects the Contractors for the Services.

Section 3. **Authorization.** That the Village Council hereby authorizes the Village Manager to negotiate and execute an agreement with each of the Contractors, in substantially the form attached hereto as Exhibit "A," subject to the final approval of the Village Attorney as to form, content, and legal sufficiency.

Section 4. **Implementation.** That the Village Manager and Village Attorney are hereby authorized to take such further action as may be necessary to implement the purpose and provisions of this Resolution.

Section 5. **Effective Date.** That this Resolution shall be effective immediately upon adoption.

PASSED and ADOPTED this _____ day of _____, 2025.

PROFESSIONAL SERVICES AGREEMENT

BETWEEN

THE VILLAGE OF KEY BISCAYNE

AND

NAME OF ENTITY

THIS AGREEMENT (this "Agreement") is made effective as of the _____ day of _____, 2025 (the "Effective Date"), by and between the **VILLAGE OF KEY BISCAYNE, FLORIDA,** a Florida municipal corporation, (the "Village"), and **NAME OF ENTITY**, a Florida [type of entity] (hereinafter, the "Consultant").

WHEREAS, on June 13, 2025, the Village issued Request for Quotations No. 25-01 (the "RFQT") requesting bids for the provision of high-quality linens, tables, tents, and chairs to support the diverse needs of events hosted by the Village (the "Services"), all as set forth in greater detail in the Scope of Services attached hereto as Exhibit "A"; and

WHEREAS, on August 19, 2025, the Village Council adopted Resolution No. 2025-XX, selecting the Contractor for the provision of the Services; and

WHEREAS, the Consultant will perform the Services on behalf of the Village, all as further set forth in the Proposal, attached hereto as Exhibit "B"; and

WHEREAS, compensation for the provision of the Services shall be in accordance with the Rate Schedule attached hereto as Exhibit "C"; and

WHEREAS, the Village desires to engage the Consultant to perform the Services and provide the deliverables as specified below.

NOW, THEREFORE, in consideration of the mutual covenants and conditions contained herein, the Consultant and the Village agree as follows:

1. **Scope of Services.**

1.1. Consultant shall provide the Services set forth in the Scope of Services and the Consultant's Proposal attached hereto as Exhibits "A" and "B," respectively, and incorporated herein by this reference.

1.2. Consultant shall furnish all reports, documents, and information obtained pursuant to this Agreement, and recommendations during the term of this Agreement (hereinafter "Deliverables") to the Village.

2. **Term/Commencement Date.**

2.1. The term of this Agreement shall be from the Effective Date through three years thereafter, unless earlier terminated in accordance with Paragraph 8. Additionally, the Village Manager may renew this Agreement for two additional one year periods on the same terms as set forth herein upon written notice to the Consultant.

2.2. Consultant agrees that time is of the essence and Consultant shall complete the Services within the term of this Agreement, unless extended by the Village Manager.

3. Compensation and Payment.

3.1. Compensation for Services provided by Consultant shall be in accordance with Rate Schedule attached hereto as Exhibit "C."

3.2. Consultant shall deliver an invoice to Village no more often than once per month detailing Services completed and the amount due to Consultant under this Agreement. Fees shall be paid in arrears each month, pursuant to Consultant's invoice, which shall be based upon the percentage of work completed for each task invoiced. The Village shall pay the Consultant in accordance with the Florida Prompt Payment Act after approval and acceptance of the Services by the Village Manager.

3.3. Contractor's invoices must contain the following information for prompt payment:

3.3.1. Name and address of the Consultant;

3.3.2. Purchase Order number;

3.3.3. Contract number;

3.3.4. Date of invoice;

3.3.5. Invoice number (Invoice numbers cannot be repeated. Repeated invoice numbers will be rejected);

3.3.6. Name and type of Services;

3.3.7. Timeframe covered by the invoice; and

3.3.8. Total value of invoice.

Failure to include the above information will result in the delay of payment or rejection of the invoice. All invoices must be submitted electronically to payables@keybiscayne.fl.gov.

4. Subconsultants.

4.1. The Consultant shall be responsible for all payments to any subconsultants and shall maintain responsibility for all work related to the Services.

4.2. Consultant may only utilize the services of a particular subconsultant with the prior written approval of the Village Manager, which approval may be granted or withheld in the Village Manager's sole and absolute discretion.

5. Village's Responsibilities.

5.1. Village shall make available any maps, plans, existing studies, reports, staff and representatives, and other data pertinent to the Services and in possession of the Village,

DRAFT

and provide criteria requested by Consultant to assist Consultant in performing the Services.

5.2. Upon Consultant's request, Village shall reasonably cooperate in arranging access to public information that may be required for Consultant to perform the Services.

6. Consultant's Responsibilities; Representations and Warranties.

6.1. The Consultant shall exercise the same degree of care, skill and diligence in the performance of the Services as is ordinarily provided by a consultant under similar circumstances. If at any time during the term of this Agreement or within two (2) years from the completion of this Agreement, it is determined that the Consultant's Deliverables or Services are incorrect, not properly rendered, defective, or fail to conform to Village requests, the Consultant shall at Consultant's sole expense, immediately correct its Deliverables or Services.

6.2. The Consultant hereby warrants and represents that at all times during the term of this Agreement it shall maintain in good standing all required licenses, certifications and permits required under Federal, State and local laws applicable to and necessary to perform the Services for Village as an independent contractor of the Village. Consultant further warrants and represents that it has the required knowledge, expertise, and experience to perform the Services and carry out its obligations under this Agreement in a professional and first class manner.

6.3. The Consultant represents that is an entity validly existing and in good standing under the laws of Florida. The execution, delivery and performance of this Agreement by Consultant have been duly authorized, and this Agreement is binding on Consultant and enforceable against Consultant in accordance with its terms. No consent of any other person or entity to such execution, delivery and performance is required.

7. Conflict of Interest.

7.1. To avoid any conflict of interest or any appearance thereof, Consultant shall not, for the term of this Agreement, provide any consulting services to any private sector entities (developers, corporations, real estate investors, etc.), with any current, or foreseeable, adversarial issues in the Village.

8. Termination.

8.1. The Village Manager, without cause, may terminate this Agreement upon five (5) calendar days' written notice to the Consultant, or immediately with cause.

8.2. Upon receipt of the Village's written notice of termination, Consultant shall immediately stop work on the project unless directed otherwise by the Village Manager.

8.3. In the event of termination by the Village, the Consultant shall be paid for all work accepted by the Village Manager up to the date of termination, provided that the Consultant has first complied with the provisions of Paragraph 8.4.

8.4. The Consultant shall transfer all books, records, reports, working drafts, documents, maps, and data pertaining to the Services and the project to the Village, in a hard copy and electronic format within fourteen (14) days from the date of the written notice of termination or the date of expiration of this Agreement.

9. Insurance.

9.1. Consultant shall secure and maintain throughout the duration of this agreement insurance of such types and in such amounts not less than those specified below as satisfactory to Village, naming the Village as an Additional Insured, underwritten by a firm rated A-X or better by A.M. Best and qualified to do business in the State of Florida. The insurance coverage shall be primary insurance with respect to the Village, its officials, employees, agents, and volunteers naming the Village as additional insured. Any insurance maintained by the Village shall be in excess of the Consultant's insurance and shall not contribute to the Consultant's insurance. The insurance coverages shall include at a minimum the amounts set forth in this section and may be increased by the Village as it deems necessary or prudent.

9.1.1. Commercial General Liability coverage with limits of liability of not less than a $1,000,000 per Occurrence combined single limit for Bodily Injury and Property Damage. This Liability Insurance shall also include Completed Operations and Product Liability coverages and eliminate the exclusion with respect to property under the care, custody and control of Consultant. The General Aggregate Liability limit and the Products/Completed Operations Liability Aggregate limit shall be in the amount of $2,000,000 each.

9.1.2. Workers Compensation and Employer's Liability insurance, to apply for all employees for statutory limits as required by applicable State and Federal laws. The policy(ies) must include Employer's Liability with minimum limits of $1,000,000.00 each accident. No employee, subcontractor or agent of the Consultant shall be allowed to provide Services pursuant to this Agreement who is not covered by Worker's Compensation insurance.

9.1.3. Business Automobile Liability with minimum limits of $1,000,000 per occurrence, combined single limit for Bodily Injury and Property Damage. Coverage must be afforded on a form no more restrictive than the latest edition of the Business Automobile Liability policy, without restrictive endorsements, as filed by the Insurance Service Office, and must include Owned, Hired, and Non-Owned Vehicles.

9.1.4. Professional Liability Insurance in an amount of not less than One Million Dollars ($1,000,000.00) per occurrence, single limit.

9.2. Certificate of Insurance. Certificates of Insurance shall be provided to the Village, reflecting the Village as an Additional Insured (except with respect to Professional Liability Insurance and Worker's Compensation Insurance), no later than ten (10) days after award of this Agreement and prior to the execution of this Agreement by Village and prior to commencing Services. Each certificate shall include no less than (30) thirty-day advance written notice to Village prior to cancellation, termination, or material alteration of said policies or insurance. The Consultant shall be responsible for assuring that the

insurance certificates required by this Section remain in full force and effect for the duration of this Agreement, including any extensions or renewals that may be granted by the Village. The Certificates of Insurance shall not only name the types of policy(ies) provided, but also shall refer specifically to this Agreement and shall state that such insurance is as required by this Agreement. The Village reserves the right to inspect and return a certified copy of such policies, upon written request by the Village. If a policy is due to expire prior to the completion of the Services, renewal Certificates of Insurance shall be furnished thirty (30) calendar days prior to the date of their policy expiration. Each policy certificate shall be endorsed with a provision that not less than thirty (30) calendar days' written notice shall be provided to the Village before any policy or coverage is cancelled or restricted. Acceptance of the Certificate(s) is subject to approval of the Village.

9.3. Additional Insured. Except with respect to Professional Liability Insurance and Worker's Compensation Insurance**,** the Village is to be specifically included as an Additional Insured for the liability of the Village resulting from Services performed by or on behalf of the Consultant in performance of this Agreement. The Consultant's insurance, including that applicable to the Village as an Additional Insured, shall apply on a primary basis and any other insurance maintained by the Village shall be in excess of and shall not contribute to the Consultant's insurance. The Consultant's insurance shall contain a severability of interest provision providing that, except with respect to the total limits of liability, the insurance shall apply to each Insured or Additional Insured (for applicable policies) in the same manner as if separate policies had been issued to each.

9.4. Deductibles. All deductibles or self-insured retentions must be declared to and be reasonably approved by the Village. The Consultant shall be responsible for the payment of any deductible or self-insured retentions in the event of any claim.

9.5. The provisions of this section shall survive termination of this Agreement.

10. Nondiscrimination. During the term of this Agreement, Consultant shall not discriminate against any of its employees or applicants for employment because of their race, color, religion, sex, or national origin, and will abide by all Federal and State laws regarding nondiscrimination.

11. Attorneys Fees and Waiver of Jury Trial.

11.1. In the event of any litigation arising out of this Agreement, the prevailing party shall be entitled to recover its attorneys' fees and costs, including the fees and expenses of any paralegals, law clerks and legal assistants, and including fees and expenses charged for representation at both the trial and appellate levels.

11.2. IN THE EVENT OF ANY LITIGATION ARISING OUT OF THIS AGREEMENT, EACH PARTY HEREBY KNOWINGLY, IRREVOCABLY, VOLUNTARILY AND INTENTIONALLY WAIVES ITS RIGHT TO TRIAL BY JURY.

12. Indemnification.

12.1. Consultant shall indemnify and hold harmless the Village, its officers, agents and employees, from and against any and all demands, claims, losses, suits, liabilities, causes of action, judgment or damages, arising from Consultant's performance or non-performance of any provision of this Agreement, including, but not limited to, liabilities arising from contracts between the Consultant and third parties made pursuant to this Agreement. Consultant shall reimburse the Village for all its expenses including reasonable attorneys' fees and costs incurred in and about the defense of any such claim or investigation and for any judgment or damages arising from Consultant's performance or non-performance of this Agreement.

12.2. Nothing herein is intended to serve as a waiver of sovereign immunity by the Village nor shall anything included herein be construed as consent to be sued by third parties in any matter arising out of this Agreement or any other contract. The Village is subject to section 768.28, Florida Statutes, as may be amended from time to time.

12.3. The provisions of this section shall survive termination of this Agreement.

13. Notices/Authorized Representatives. Any notices required by this Agreement shall be in writing and shall be deemed to have been properly given if transmitted by hand-delivery, by registered or certified mail with postage prepaid return receipt requested, or by a private postal service, addressed to the parties (or their successors) at the addresses listed on the signature page of this Agreement or such other address as the party may have designated by proper notice.

14. Governing Law and Venue. This Agreement shall be construed in accordance with and governed by the laws of the State of Florida. Venue for any proceedings arising out of this Agreement shall be proper exclusively in Miami-Dade County, Florida.

15. Entire Agreement/Modification/Amendment.

15.1. This writing contains the entire Agreement of the parties and supersedes any prior oral or written representations. No representations were made or relied upon by either party, other than those that are expressly set forth herein.

15.2. No agent, employee, or other representative of either party is empowered to modify or amend the terms of this Agreement, unless executed with the same formality as this document.

16. Ownership and Access to Records and Audits.

16.1. Consultant acknowledges that all inventions, innovations, improvements, developments, methods, designs, analyses, drawings, reports, compiled information, and all similar or related information (whether patentable or not) which relate to Services to the Village which are conceived, developed or made by Consultant during the term of this Agreement ("Work Product") belong to the Village. Consultant shall promptly disclose such Work Product to the Village and perform all actions reasonably requested by the Village (whether during or after the term of this Agreement) to establish and confirm such ownership (including, without limitation, assignments, powers of attorney and other instruments).

16.2. Consultant agrees to keep and maintain public records in Consultant's possession or control in connection with Consultant's performance under this Agreement. The Village Manager or her designee shall, during the term of this Agreement and for a period of three (3) years from the date of termination of this Agreement, have access to and the right to examine and audit any records of the Consultant involving transactions related to this Agreement. Consultant additionally agrees to comply specifically with the provisions of Section 119.0701, Florida Statutes. Consultant shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed, except as authorized by law, for the duration of the Agreement, and following completion of the Agreement until the records are transferred to the Village.

16.3. Upon request from the Village's custodian of public records, Consultant shall provide the Village with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided by Chapter 119, Florida Statutes, or as otherwise provided by law.

16.4. Unless otherwise provided by law, any and all records, including but not limited to reports, surveys, and other data and documents provided or created in connection with this Agreement are and shall remain the property of the Village.

16.5. Upon completion of this Agreement or in the event of termination by either party, any and all public records relating to the Agreement in the possession of the Consultant shall be delivered by the Consultant to the Village Manager, at no cost to the Village, within seven (7) days. All such records stored electronically by Consultant shall be delivered to the Village in a format that is compatible with the Village's information technology systems. Once the public records have been delivered upon completion or termination of this Agreement, the Consultant shall destroy any and all duplicate public records that are exempt or confidential and exempt from public records disclosure requirements.

16.6. Any compensation due to Consultant shall be withheld until all records are received as provided herein.

16.7. Consultant's failure or refusal to comply with the provisions of this section shall result in the immediate termination of this Agreement by the Village.

16.8. **Notice Pursuant to Section 119.0701(2)(a), Florida Statutes.** **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS.**

Custodian of Records: **Jocelyn B. Koch**
Mailing address: **88 West McIntyre Street**
Key Biscayne, FL 33149
Telephone number: **305-365-5506**

Email: jkoch@keybiscayne.fl.gov

17. **Nonassignability.** This Agreement shall not be assignable by Consultant unless such assignment is first approved by the Village Manager. The Village is relying upon the apparent qualifications and expertise of the Consultant, and such firm's familiarity with the Village's area, circumstances and desires.

18. **Severability.** If any term or provision of this Agreement shall to any extent be held invalid or unenforceable, the remainder of this Agreement shall not be affected thereby, and each remaining term and provision of this Agreement shall be valid and be enforceable to the fullest extent permitted by law.

19. **Independent Contractor.** The Consultant and its employees, volunteers and agents shall be and remain an independent contractor and not an agent or employee of the Village with respect to all of the acts and services performed by and under the terms of this Agreement. This Agreement shall not in any way be construed to create a partnership, association or any other kind of joint undertaking, enterprise or venture between the parties.

20. **Compliance with Laws.**

    20.1. The Consultant shall comply with all applicable laws, ordinances, rules, regulations, and lawful orders of public authorities in carrying out Services under this Agreement, and in particular shall obtain all required permits from all jurisdictional agencies to perform the Services under this Agreement at its own expense.

    20.2. **Background Checks.** Prior to the execution of this Agreement, the Consultant must undergo a Level II/Vechs screening and background check for the Consultant, its officials, agents, employees, subcontractors, volunteers, or other individuals engaged in providing the Services under this Agreement. The Consultant shall be responsible for updating the Village in writing with any additions and deletions of the individuals authorized to provide Services under this Agreement. In the event that additional individuals are authorized to perform such Services, the Consultant must ensure that such additional individual(s) undergo a Level II/Vechs screening and background check prior to such individual commencing such Services. It shall be in the Village's complete and sole discretion as to whether the type of check and the results are acceptable pursuant to and in accordance with the Village's policies. Failure to comply with the provisions of this Section shall be grounds for terminating this Agreement for cause.

21. **Waiver.** The failure of either party to this Agreement to object to or to take affirmative action with respect to any conduct of the other which is in violation of the terms of this Agreement shall not be construed as a waiver of the violation or breach, or of any future violation, breach or wrongful conduct.

22. **Survival of Provisions.** Any terms or conditions of either this Agreement that require acts beyond the date of the term of the Agreement, shall survive termination of the Agreement, shall remain in full force and effect unless and until the terms or conditions are completed and shall be fully enforceable by either party.

DRAFT

23. **Prohibition of Contingency Fees.** The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant, to solicit or secure this Agreement, and that it has not paid or agreed to pay any person(s), company, corporation, individual or firm, other than a bona fide employee working solely for the Consultant, any fee, commission, percentage, gift, or any other consideration, contingent upon or resulting from the award or making of this Agreement.

24. **State Required Affidavits.** By entering into this Agreement, the Consultant agrees to review and comply with the following state affidavit requirements:

24.1. Public Entity Crimes Affidavit. Consultant shall comply with Section 287.133, Florida Statutes (Public Entity Crimes Statute), notification of which is hereby incorporated herein by reference, including execution of any required affidavit.

24.2. Scrutinized Companies. Consultant certifies that it is not on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel. Pursuant to section 287.135, Florida Statues, the Village may immediately terminate this Agreement at its sole option if the Consultant is found to have submitted a false certification; or if the Consultant is placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement. If this Agreement is for more than one million dollars, the Consultant certifies that it is also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Terrorism Sectors List, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, Florida Statutes. Pursuant to Section 287.135, Florida Statutes, the Village may immediately terminate this Agreement at its sole option if the Consultant is found to have submitted a false certification; or if the Consultant is placed on the Scrutinized Companies with Activities in Sudan List, Scrutinized Companies with Activities in the Iran Terrorism Sectors List, Scrutinized Companies with Activities in Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

24.3. E-Verify Affidavit. In accordance with Section 448.095, Florida Statutes, the Village requires all contractors doing business with the Village to register with and use the E-Verify system to verify the work authorization status of all newly hired employees. The Village will not enter into a contract unless each party to the contract registers with and uses the E-Verify system. The contracting entity must provide of its proof of enrollment in E-Verify. For instructions on how to provide proof of the contracting entity's participation/enrollment in E-Verify, please visit: https://www.e-verify.gov/faq/how-do-i-provide-proof-of-my-participationenrollment-in-e-verify. By entering into this Agreement, the Consultant acknowledges that it has read Section 448.095, Florida Statutes; will comply with the E-Verify requirements imposed by Section 448.095, Florida Statutes, including but not limited to obtaining E-Verify affidavits from subcontractors; and has executed the required affidavit attached hereto and incorporated herein.

24.4. Noncoercive Conduct Affidavit. Pursuant to Section 787.06, Florida Statutes, a nongovernmental entity executing, renewing, or extending a contract with a governmental entity is required to provide an affidavit, signed by an officer or a representative of the nongovernmental entity under penalty of perjury, attesting that the nongovernmental entity does not use coercion for labor or services as defined in Section 787.06(2)(a),

Florida Statutes. By entering into this Agreement, the Consultant acknowledges that it has read Section 787.06, Florida Statutes, and will comply with the requirements therein, and has executed the required affidavit attached hereto and incorporated herein.

24.5. Prohibition on Contracting with Entities of Foreign Concern. Pursuant to Section 287.138, Florida Statutes (which is expressly incorporated herein by reference), a governmental entity may not knowingly enter into a contract with an entity which would give access to an individual's personal identifying information if (a) the entity is owned by the government of a foreign country of concern; (b) the government of a foreign country of concern has a controlling interest in the entity; or (c) the entity is organized under the laws of or has its principal place of business in a foreign country of concern. By entering into this Agreement, the Consultant acknowledges that it has read Section 287.138, Florida Statutes, and complies with the requirements therein, and has executed the required affidavit attached hereto and incorporated herein.

25. Counterparts. This Agreement may be executed in several counterparts, each of which shall be deemed an original and such counterparts shall constitute one and the same instrument.

26. Conflicts; Order of Priority. This document without exhibits is referred to as the "Base Agreement." In the event of a conflict between the terms of this Base Agreement and any exhibits or attachments hereto, or any documents incorporated herein by reference, the conflict shall be resolved in the following order of priorities and the more stringent criteria for performance of the Services shall apply:

26.1. First Priority: this Base Agreement;
26.2. Second Priority: Change Orders with later date taking precedence;
26.3. Third Priority: Exhibit C – Rate Schedule;
26.4. Fourth Priority: Exhibit A – Scope of Services;
26.5. Fifth Priority: Exhibit B – Contractor's Proposal; and
26.6. Sixth Priority: Statement of Work, with later date taking precedence.

AFFIDAVIT ATTESTING TO
NONCOERCIVE CONDUCT FOR LABOR OR SERVICES

Effective July 1, 2024, Section 787.06, Florida Statutes, a nongovernmental entity executing, renewing, or extending a contract with a governmental entity is required to provide an affidavit, signed by an officer or a representative of the nongovernmental entity under penalty of perjury, attesting that the nongovernmental entity does not use coercion for labor or services as defined in Section 787.06(2)(a), Florida Statutes.

By signing below, **I hereby affirm under penalty of perjury that**:

1. I have read Section 787.06, Florida Statutes, and understand that this affidavit is provided in compliance with the requirement that, upon execution, renewal, or extension of a contract between a nongovernmental entity and a governmental entity, the nongovernmental entity must attest to the absence of coercion in labor or services.

2. I am an officer or representative of _____, a nongovernmental entity.

3. _____ does not use coercion for labor or services as defined in the relevant section of the law.

MEMORANDUM

DATE: July 25, 2025

TO: Steven Williamson – Village Manager
CC: Benjamin Nussbaum – Village Chief Financial Officer
Todd Hofferberth – PROS Director

FROM: Daren Jairam, Procurement Officer

RE: Procurement Recommendation to Award for RFQT No. 25-01
Village of Key Biscayne Special Events Rental Supplies

RECOMMENDATION

It is recommended the Village Manager negotiate an agreement with **Island Party Place LLC. and Mega Party Events Inc.**, the two most responsive responsible bids for Village of Key Biscayne Special Events Rental Supplies. The proposed agreement will be for a three (3) year term with two (2) optional one-year extensions.

BACKGROUND

In accordance with government procurement best practices, and as part of a larger effort to ensure best value and promote fair and open competition for Village contracts, the decision was made to go out to market for these services.

The Village issued a Request for Quotations (RFQT) on June 13, 2025. The RFQT was posted to the Village's website and Notice Board, DemandStar and Miami Herald.

The RFQT allows potential vendors to submit their best price specific to the scope of services. The vendor with the lowest bid, most responsive and responsible is recommended to the Village Manage and Council to be awarded. If the recommended vendor isn't the lowest bid a justification is given explaining why the vendor wasn't chosen.

SCOPE OF WORK

The Village of Key Biscayne seeks qualified, licensed event/party rental company with experience to supply high-quality linens, tables, tents, and chairs to support the diverse needs of events hosted by the Village of Biscayne as defined in the Scope of Work.

Contractor shall provide all necessary labor, materials, and equipment for servicing the Village facilities as specified herein in full accordance with the specifications, terms and conditions contained in the Request for Quotation (RFQT).

To qualify for award, prospective Proposers were required to:

A. Have extensive experience in linen, tables, tents, and chairs for events of varying scales and formats.
B. Must have a diverse inventory, be reliable and responsive according to specified guidelines.

Docusign Envelope ID: 55C1A664-34EC-4CA3-A64D-3DF920D65BF4

C. Committed to quality assurance and excellent customer service skills.
D. Be a licensed, permitted, certifications and insured vendor/business in the State of Florida.

EVALUATION AND RANKING PROCESS

On July 15, 2025, four (4) bids were received from the following contractors:

No.	Proposer	Years Experience	Total Cost
1.	Island Party Place LLC.	20	$ 15,145.00
2.	Jormak Equipment & Consulting Inc. – (Submitted Bid Schedule Only)	?	$ 12,687.50
3.	Mega Party Events Inc.	21	$ 17,444.00
4.	Tents n Events Inc. – (Incomplete Bid Schedule)	30	$ 9,042.50

Procurement conducted a due diligence review of all submitted bids to assess responsiveness and responsibility. Jormak Equipment & Consulting Inc. and Tents n Events Inc. submitted the lowest pricing; however, it was not chosen due to insufficient information and incomplete packages. Among the bidders, **Island Party Place LLC. and Mega Party Events Inc.** was determined to be the most responsive and responsible. The companies are appropriately licensed, meet all qualification requirements, and provide the necessary certifications and strong references. No issues were identified that would suggest any of the responsive proposers were incapable of performing the required services.

RECOMMENDATION

It is recommended that the Village Manager execute a contract, substantially in the form attached as Exhibit A, with the most responsive, responsible Bidder – **Island Party Place LLC. and Mega Party Events Inc.** I

In the event an agreement cannot be reached with the Bidder, it is further recommended that the Village Manager terminate negotiations with that firm and proceed to go back out to Bidder.

SECTION 1. INFORMATION FOR THE BIDDERS

1.1 GENERAL INFORMATION/STATEMENT OF PURPOSE

The Village of Key Biscayne (the "Village"), a municipality located in Miami-Dade County, Florida, hereby requests bids from a event/party rental company that can supply high-quality linens, tables, tents, and chairs to support the diverse needs of events hosted by the Village Key Biscayne as further defined in Section 2 of this invitation to bid ("Services").

Contractor shall provide all necessary labor, materials, and equipment for servicing the Village as specified herein in full accordance with the specifications, terms and conditions contained in Section 2 of this Invitation to Bid (ITB).

1.2 INTRODUCTION/BACKGROUND

The Village of Key Biscayne (the "Village") is located on an island approximately six (6) miles into Biscayne Bay and connected to the mainland via the Rickenbacker Causeway. Crandon Boulevard, a four-lane road with a median, bisects the Village. Shopping centers and single purpose commercial buildings line Crandon Boulevard. Towards the west lies single family homes. The east side of Crandon Boulevard contains mid to high rise multiple family buildings, one single family district, townhomes, and another single-family area that is part of a planned unit development. The incorporated Village is flanked by two large parks: Crandon Park to the north and Bill Baggs Cape Florida Recreation Area to the south. The latter receives over a million visitors per year and is a major contributor to traffic congestion on the weekends and holidays. The Village is the home to approximately 15,000 residents residing on 1.25 square miles.

The Village is committed to efficient government administration. A small core of the Village staff has been serving its residents, businesses, and visitors exceptionally well through their dedication and with the help of consultants, contractors, and service providers who also have been committed to providing quality products at competitive prices. We expect to continue this tradition.

1.3 FEDERAL FUNDING – N/A

1.4 SUSPENSION/DEBARMENT

A prospective Bidder that is listed on the government-wide Excluded Parties List System in the System for Award Management (www.SAM.gov), or that is suspended or debarred by the State of Florida, cannot be awarded a contract.

1.5 DISADVANTAGED BUSINESS & WORKER UTILIZATION

Bidders are encouraged to utilize small, women and minority-owned businesses as subcontractors whenever possible. Lists of local certified businesses are available on Miami-Dade County's website at https://mdcsbd.gob2g.com/frontend/searchcertifieddirectory.asp In addition, Bidders may request assistance from organizations such as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Bidders who intend to hire additional workers for Village projects are encouraged to hire local workers. CareerSource South Florida maintains a job clearinghouse that can assist in connecting contractors with trained local construction workers.

1.6 VILLAGE RIGHTS

The Village reserves the right to award one or more contract(s) to the Respondent(s) in accordance with what the Village deems in its best interest. Notwithstanding, the Village may, at its sole discretion, reject all responses and cancel the solicitation, in which case no award will be made.

The Village reserves the right to accept or reject any or all Responses, based upon its deliberations and opinions. In making such determination, the Village reserves the right to investigate the financial capability, integrity, experience and quality of performance of each Consultant, including officers, principals, senior management and supervisors as well as the staff identified in the ITB.

The Village also reserves the right to waive minor variations or irregularities in the Responses.

1.7 SCHEDULE OF EVENTS

The following schedule shall govern this ITB. The Village reserves the right to change the scheduled dates and times at its sole discretion.

No.	Event	Date
1	Advertisement/ Distribution of ITB	April 28, 2025
3	**Closing Date for Bidder Questions**	**May 09, 2025 at 9:00 AM**
4	Village's Answers to Questions by Bidders	May 15, 2025
5	**Bid Due and Opening on Zoom**	**May 29, 2025 at 11:30 AM**
6	Staff Member's Review of Technical Submissions	June 03, 2025
7	Reference Checks	June 03, 2025
8	Evaluator Review	June 03, 2025
9	Presentations	TBD
10	Final Selection/Rank	June 06, 2025
11	Award Recommendation	June 10, 2025 or later
12	Contract Negotiation	June 12, 2025 or later

1.8 REQUEST FOR INFORMATION (RFI)

Vendors may request additional information, clarification, or modifications in the form of a Request for Information ("RFI"). Vendors seeking such information must email their RFIs to procurement@keybiscayne.fl.gov in order to receive a response. The request must include the vendor's name, the ITB number, and ITB title. Any RFI must be submitted prior to the deadline for questions indicated in the schedule of events in Section 1.4 to receive a response. Late or mis-delivered requests may not receive a Village response.

The Village will issue responses to RFIs, and any other corrections or amendments it deems necessary, in the form of a written addendum. The Village, at its sole discretion, may not issue a response to an RFI. Vendors should not rely on any representations made outside of these written addenda. Where a conflict appears between the ITB and any issued addenda, the last addendum issued will prevail.
Addenda will be made available on the Village of Key Biscayne website www.keybiscayne.fl.gov/procurement and DemandStar. It is the vendor's sole responsibility to ensure receipt of all addenda prior to submitting a response.

1.9 ADDENDA

If the Village finds it necessary to add to, or amend this ITB prior to the Response submittal deadline, the Village will issue written addenda/addendum. Each Vendor must acknowledge receipt of each addendum by signing the acknowledgement (Section 4) and providing it with its Response.

1.10 DISCREPANCIES, ERRORS AND OMISSIONS

Any discrepancies, errors, or ambiguities in the ITB or addenda (if any) should be reported in writing to the Procurement Division at procurement@keybiscayne.fl.gov. If applicable, the Village will issue a written addendum to the ITB clarifying such conflicts or ambiguities. It is agreed that any such alleged discrepancies, errors, or omissions will not be construed against the drafting party.

1.11 CERTIFICATION

The signer of the Response (to this ITB) must declare by signing the Forms included in Section 5 that the person(s), firm(s) and parties identified in the Response are interested in and available for providing the Services; that the Response is made without collusion with any other person(s), firm(s) and parties; that the Response is fair in all respects and is made in good faith without fraud; and that the signer of the cover letter of the Response has full authority to bind the person(s), firm(s) and parties identified in the Response.

1.12 PRE-BID MEETING/SITE VISIT - N/A

A **NON-MANDATORY** Pre-Bid meeting on site will be held on, **May 19, 2025,** at 10:00 am at the **Village of Key Biscayne BZP Conference Room, Suite # 250, 88 West McIntyre Street, Key Biscayne, Florida 33149.** All interested Bidders are encouraged to attend.

It is the sole responsibility of the Bidder to inspect the project site and become familiar with the scope of the Village's requirements and systems prior to submitting a bid. No variation in price or conditions shall be permitted based upon a claim of ignorance. Submission of a bid will be considered evidence that the Bidder is familiar with the nature and extent of the work, equipment, materials, and labor required.

1.13 VILLAGE AUTHORITY

Bids will be selected at the sole discretion of the Village. The Village reserves the right to waive any irregularities in the request process, to reject any or all bidders, reject a bid which is in any way incomplete or irregular, re-bid the entire solicitation or enter into agreements with more than one Bidder. Bids received after the deadline provided in this ITB will not be considered.

1.14 RESPONSE/PRESENTATION COSTS

The Village shall not be liable for any costs, fees, or expenses incurred by any Vendor in responding to this ITB, nor subsequent inquiries or presentations relating to its Response.

1.15 TERMS OF ENGAGEMENT

The Vendor, by submission of its Bid, agrees to the terms and conditions contained in the contract attached hereto as Attachment "A," ("Contract") and further agrees to execute the Contract without change. Notwithstanding, the Village, in its sole discretion, reserves the right to negotiate the final contract price or any terms and conditions.

The The initial contract term is for three (3) years with the option to extend at its sole discretion for two (2) one-year (1-year) renewal terms for the maximum of five (5) years. The Proposer understands that

this ITB does not constitute an agreement or a contract with the Proposer. A proposal is not binding until proposals are approved by the Village of Key Biscayne Council and both parties execute a written contract.

Bids that are conditioned to additions, deletions, or revisions to the Contract's terms and conditions will be rejected as non-responsive.

1.16 NOTICE TO PROCEED

The Successful Bidder shall not begin work until the Village issues a written Notice to Proceed ("NTP"). Work performed by the Successful Bidder prior to receiving the NTP shall be deemed non-compensable by the Village. The Successful Bidder shall not have any recourse against the Village for prematurely performing unauthorized work.

END OF SECTION 1.

SECTION 2. SCOPE OF WORK / TECHNICAL SPECIFICATIONS

2.1 INTRODUCTION:

The primary objective of this project is to identify and contract with rental companies that can supply high-quality linens, tables, tents, and chairs to support the diverse needs of events hosted by the Village of Key Biscayne (Village). By partnering with experienced rental providers, the Village aims to create comfortable and functional event spaces that accommodate attendees and enhance their overall experience. The Village reserves the right to award multiple companies.

2.2 SCOPE OF WORK:

The contractor shall furnish all labor, equipment, materials, permits, insurance, and supervision necessary to perform the following tasks:

2.2.1 Tables:

The vendor shall be responsible for the delivery of tables, including set-up. The tables must be made of high-quality materials and must be visually appealing. The contractor shall provide a minimum of three options. The tables must be durable and properly anchored.

2.2.2 Tents:

The vendor shall be responsible for the delivery of tents, including set-up. The tents must be made of high-quality materials and must be visually appealing. The tents must be durable and properly anchored. Staking the tents into the ground is rarely an option for Village events.

2.2.3 Chairs:

The vendor shall be responsible for the delivery of chairs, including set-up. The chairs must be made of high-quality materials and must be visually appealing. The contractor shall provide a minimum of three options for chairs. The chairs must be durable, and in good working conditions.

2.2.3 Linens:

The Village aims to ensure the provision of high-quality linen products, including specialty linens, to meet the Village's needs for various events and functions including but not limited to:

- Standard linens (tablecloths, table runners, chair covers, etc.)
- Specialty linens such as satin, silk, rosettes, organza, and other unique fabrics, available upon request and subject to availability

2.3 RESPONSIBILITY OF RENTAL COMPANY:

The selected rental providers will be responsible for:

- Offering a wide selection of tables, tents, and chairs in various styles, sizes, and configurations to suit different types of events and spaces.
- Collaborating with event organizers to assess the seating and shelter requirements based on the event's size, layout, and anticipated attendance.

- Delivering and setting up rental equipment at designated event locations within the Village and adjacent areas in a timely and professional manner.

- Ensuring that all rental items are clean, well-maintained, and in good working conditions, adhering to hygiene and safety standards.

- Providing on-site support and assistance as needed during the event, including troubleshooting and addressing any issues related to the rental equipment.

- Coordinating with Village's event coordinators and staff to facilitate seamless logistics and execution of rental services.

2.4 SERVICE DETAILS:

2.4.1 Rental Period:
The rental period shall be determined based on the specific requirements of each event or function. The duration may vary from single-day rentals to extended rental periods as needed.

2.4.2 Delivery and Pickup:
The vendor will handle the delivery and pick up of all the equipment rented to and from the Village's designated location(s) at the agreed-upon times.

2.4.3 Quality Assurance:
All the equipment provided by the Vendor shall undergo thorough inspection and maintenance to ensure cleanliness, quality, and presentability.

2.4.4 Customization:
Vendor offers customization options such as color selection, sizing, and branding to align with the Village's event themes and branding guidelines.

2.4.5 Support Services:
The vendor will provide dedicated support personnel to assist with any inquiries, requests, or issues related to the equipment rentals promptly.

2.5 ADDITIONAL EQUIPMENT/SERVICES:
Companies are encouraged to list any additional equipment or services they provide that may not have been outlined in the ITB.

2.6 PERFORMANCE EVALUATION:
The Village is committed to maintaining high standards of service and accountability in all vendor relationships. This Vendor Performance Evaluation Form is designed to assess the quality and effectiveness of services provided by contracted vendors. The information collected through this evaluation will be used to inform future contract decisions, support performance improvement efforts, and ensure that community expectations are consistently met.

Completed evaluations will be retained by the Village for a period of five years and will serve as a valuable resource during the selection, renewal, or extension of service contracts. Your feedback plays a vital role

in promoting transparency, fostering accountability, and enhancing the overall quality of services delivered to our community.

2.7 QUALIFICATIONS:

- Extensive experience in supplying linen, tables, tents, and chairs for events of varying scales and formats.
- A diverse inventory of rental equipment, including different styles and configurations, to accommodate various event requirements.
- Reliability and responsiveness in delivering rental services on schedule and according to specified guidelines.
- Commitment to quality assurance, with well-maintained and clean rental items that meet or exceed industry standards.
- Excellent customer service skills and the ability to communicate effectively with event organizers and staff to fulfill specific event needs.

END OF SECTION 2.

SECTION 3. BID SUBMISSION REQUIREMENTS

3.1 GENERAL BID INSTRUCTIONS

Bids are to be **uploaded on DemandStar** by no later than the Bid Due date and time listed in Section 1.7. Any Bid received after the deadline or delivered in any other manner shall not be considered for award. Bidders are responsible for ensuring that their Bid is delivered by the deadline.

Bids should be signed by an official authorized to bind. Bids are to remain valid for at least 180 days. Upon award of an Agreement, the contents of the Successful Bidder Bid shall be incorporated within and included as part of the Agreement.

The responsibility for submitting a Bid before the stated time and date is solely and strictly that of the Bidder. The Village is not responsible for any delayed, late, misdelivered, or non-delivered Bids, no matter the cause.

3.2 DEFINITIONS

1. **Days:** Days shall mean calendar days.
2. **Responsible Bidder:** To be considered a "responsible" bidder, the Bidder must have adequate equipment and personnel to do the Work within the time limits that are established, has adequate financial status to meet the obligations to perform the Work and has not defaulted on a prior contract.
3. **Responsive Bidder:** Any person, firm, or corporation submitting a Bid for the Work whose Bid form is complete and includes all required attachments and enclosures, free from exclusions or special conditions and has no alternative Bids for any items, unless alternatives are requested in the specifications.
4. **Work:** The services required by the Contract Documents, including labor and materials.

3.3 ELIGIBILITY

In addition to other requirements stated in this document, to be eligible for award, Bidders must demonstrate the following in their response:

1. Bidder must be a vendor appropriately licensed and in good standing with the Florida Department of Professional Regulation

2. Bidder must have three (3) years of continuous operation under the same name providing similar Services.

3. Bidder's project team must have prior experience within the past five (5) years in the same field as the Services.

4. Bidder's principal-in-charge must have a minimum of five (5) years of experience within the same field as the Services; and

5. Bidder's project manager must have a minimum of five (5) years of experience in the same field as the Services with prior project management experience and must be capable of speaking and making decisions on behalf of the Respondent.

Each Bidder shall meet all legal, technical, and professional requirements for providing the requested Services.

The Bidder shall furnish such additional information as the Village may reasonably require. This includes information that indicates financial resources as well as ability to provide the Services. The Village reserves the right to make investigations of the Bidders' qualifications or any of its agents, as it deems appropriate.

3.4 BID SUBMISSION

The Bidder shall submit an original Bid on the bid forms attached to this ITB. The Bidder shall fill in all the blank spaces completely for each and every unit item for which a Bid is tendered. The Bidder shall state the price, for which s/he proposes to do each item of Work. The Bid shall include:

a) Bid Forms as specified in Section 5.

b) Certificate or Evidence of Insurance.

c) Project Schedule

d) Bid Guarantee.

e) Contact information (name, telephone, and email) for at least five (5) references for similar projects performed within the last five (5) years.

f) Copies of any relevant business licenses, including occupation, and Florida registration (Company certifications, not personal) and a copy of State Corporate or other proof from the State of Florida that Bidder is authorized to do business in this State.

3.5 SUBMITTAL, RECEIPT AND OPENING OF BIDS

CONTRACTOR's solicitation response must be submitted electronically through DemandStar (www.demandstar.com), the Village's designated electronic bidding system. It is solely the CONTRACTOR's responsibility to assure its response is submitted and received in DemandStar by the date and time specified in the solicitation. The Village will not consider responses received by any other means. The official time for electronic submittals is the DemandStar server. All parties will, without reservation, accept the official time. Any bid may be rejected for noncompliance to requirements after a full review by the Village. The sealed submittals will be publicly opened at the Village of Key Biscayne, Village Hall online after the Bid Submittal Deadline. Award of a bid will be made at a Village Council meeting.

Meeting ID: 894 2694 1350

Passcode: 276052

May 29, 2025, at 11:35 a.m.

3.6 INVESTIGATION OF BIDDERS

Bidders are responsible for thoroughly reading and understanding the information, instructions, and specifications contained in the Invitation for Bids, and for investigating the site conditions at the Project location(s), if applicable. At bid opening, each Bidder will be presumed to have read and to be thoroughly familiar with the plans, specifications and contract documents (including all addenda). The failure or omission of any bidder to examine any form, instrument, or document shall in no way relieve the Bidder from any obligation in respect to their Bid.

3.7 QUALIFICATION OF BIDDERS

The Village reserves the right to request any additional information necessary, including available facilities, equipment and technological capabilities, in order to ascertain the Bidders capability to perform the Work.

3.8 BID GUARANTY - N/A

A certified or cashier's check drawn on a national or state bank, or bid bond, in the amount of **five percent (5%)** of the total bid, shall accompany each bid as a guarantee that the Bidder will, if award is made, execute a Contract to do the Work for the amount proposed and furnish any required certificates of insurance and bond documents. The bid bond shall be from a surety with an A-rating or better under Best's Guidelines, made payable to: The Village of Key Biscayne.

Bid surety received from unsuccessful Bidders will be returned after the Contract is awarded and executed, if requested by unsuccessful Bidder.

The failure of the successful Bidder(s) to execute a Contract and submit required insurance certificates and bonds will result in forfeit of the Award. Each Bidder agrees in advance that the Village will sustain certain damages too difficult to accurately ascertain. Accordingly, if the Award is forfeited under this Section, the amount of the Bid Guaranty of the forfeiting Bidder will be retained by the Village, not as forfeiture or a penalty, but as liquidated damages.

3.9 WITHDRAWAL OF A BID

A Bidder may withdraw its Bid at any date and time prior to the time the Bids are scheduled to be opened. Notice of withdrawal shall be emailed directly to the Village Procurement Division, at procurement@keybiscayne.fl.gov.

3.10 FAMILIARITY WITH LAWS

The Bidder is assumed to be familiar with all applicable Federal, State, and local laws, ordinances, rules, and regulations that may in any manner affect the Work.

3.11 ASSIGNMENT, NON-TRANSFERABILITY OF BID

A. Bids shall not be assigned or transferred. A bidder who is, or may be, purchased by or merged with any other corporate entity during any stage of the bidding process, through to and including awarding of and execution of the Agreement, is subject to having its bid disqualified as a result of such transaction. The Village Manager shall determine whether a bid is to be disqualified in such instances.

B. If, at any time during the bidding process, filings, notices or like documents are submitted to

any regulatory agency concerning the potential acquisition of bidder, or the sale of a controlling interest in the bidder, or any similar transaction, the bidder shall immediately disclose such information to the Village. Failure to do so may result in the bid being disqualified, at the Village's sole discretion.

3.12 TIME AND AWARD

Bids shall be held firm for ninety (90) days from the date of bid opening to allow for the Village review, award, and execution of the Contract. No modifications shall be submitted by Bidder or accepted by the Village.

3.13 AWARD OF CONTRACT

The Award of the Contract will be to the lowest Responsive and Responsible Bidder(s), whose qualifications indicate the Award will be in the best interest of the Village and whose Bid(s) complies with the requirements of these specifications. The Village, as part of its evaluation may perform an examination of the Bidder's facilities, including, but not be limited to, all properties operated by the Bidder, all equipment used in the performance of business by the Bidder, and/or any other evidence, tangible or intangible, that the Village may deem necessary to substantiate the technical and other qualifications, and the abilities of the Bidder to perform the Work.

In no case will the Award be made until all necessary investigations have been made into the responsibility of the Bidder(s) and the Village Manager is satisfied that the Bidder is qualified to do the Work and have the necessary organization, capital and equipment to carry out the Work in the specified timeframes. In evaluating responsibility, the Village may also consider previous contracts with the Village, past performance and experience with other contracts, compatibility of the project team with Village personnel, and any other criteria deemed relevant by the Village.

If the successful Bidder to whom a Contract is awarded forfeits the Award by failing to meet the conditions of award, the Village may award the Contract to the next lowest Responsive and Responsible Bidder or reject all Bids or re-advertise the Work.

3.14 BONDS – N/A

A Performance and a Payment Bond for the full amount of the Contract shall be required in connection with this Contract.

3.15 INSURANCE REQUIREMENTS

Bidder shall secure and maintain throughout the duration of the Contract, if selected, insurance of such types and in such amounts not less than those specified below as satisfactory to Village, naming the Village as an Additional Insured, underwritten by a firm rated A-X or better by A.M. Best and qualified to do business in the State of Florida. The insurance coverage shall be primary insurance with respect to the Village, its officials, employees, agents and volunteers naming the Village as additional insured. Any insurance maintained by the Village shall be in excess of the Bidder's insurance and shall not contribute to the Bidder's insurance. The insurance coverages shall include at a minimum the amounts set forth in this section and may be increased by the Village as it deems necessary or prudent. Copies of Bidder's actual Insurance Policies as required herein and Certificates of Insurance shall be provided to the Village, reflecting the Village as an Additional Insured. Each Policy and certificate shall include no less than (30) thirty-day advance written notice to Village prior to cancellation, termination, or material alteration of

SECTION 4. GENERAL REQUIREMENTS

4.1 RETENTION OF BID

The Village reserves the right to retain all Proposals submitted and use any ideas contained in any Bids, regardless of whether that Bidder is selected.

4.2 PUBLIC RECORDS

Florida law provides that municipal records should be open for inspection by any person under Chapter 119, F.S. Public Records law. All information and materials received by the Village in connection with Bids shall become property of the Village and shall be deemed to be public records subject to public inspection.

4.3 LOBBYIST REGISTRATION

Respondents must comply with the Village's lobbyist regulations. Please contact the Village Clerk at (305) 365-5506 for additional information.

4.4 PERMITS, TAXES, LICENSES

The Vendor shall, at its own expense, obtain all necessary permits, pay all licenses, fees and taxes required to comply with all local ordinances, state and federal laws, rules, regulations and professional standards that would apply to this contract.

4.5 LAWS, ORDINANCES

The Vendor shall observe and comply with all federal, state, and local laws, including ordinances, rules, regulations and professional standards that would apply to the contract.

4.6 SCRUTINIZED COMPANIES

Pursuant to Section 287.135, Florida Statutes, a Bidder is ineligible to, and may not submit a Bid for, or enter into or renew a contract with VILLAGE for goods or services if at the time of submitting a Bid for a new contract or renewal of an existing contract:

A. for any contract amount, if the Bidder is on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, or is engaged in a boycott of Israel;

B. if $1 million or more and the Bidder is on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; or

C. if $1 million or more and the Bidder is engaged in business operations in Cuba or Syria.

4.7 NON-APPROPRIATION OF FUNDS

In the event that insufficient funds are appropriated, and budgeting or funding is otherwise unavailable or not allocated in any fiscal period for the Agreement, the Village shall have the unqualified right to terminate the Work Order(s), and/or Agreement, upon written notice to the Successful Bidder, without any penalty or expense to the Village or recourse against the Village. No guarantee, promise, warranty, or representation is made that any work or project(s) will be assigned to the Successful Bidder.

4.8 PUBLIC ENTITY CRIMES ACT

In accordance with the Public Entity Crimes Act, (Section 287.133, Florida Statutes) a person or affiliate who is a contractor, who had been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to the Village, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases or real property to the Village, may not be awarded or perform work as a contractor, supplier, subcontractor, or CONTRACTOR under a contract with any public entity, and may not transact business with the Village in excess of the threshold amount provided in Section 287.917, Florida Statutes, for Category Two for a period of 36 months form the date of being placed on the convicted vendor list. Violation of this section by the Contractor shall result in rejection of the Bid, termination of the contract, and may cause Contractor debarment.

4.9 KEY PERSONNEL

Subsequent to submission of a Bid and prior to award of an Agreement, Key Personnel shall not be changed. Bidders shall not change any member of their Key Personnel without just cause and prior written approval by the Village. The Village reserves the right to request additional documentation, as required by the ITB prior to making its determination. If the Village does not accept the proposed change(s), the Bid may be rejected and not considered for award.

4.10 E-VERIFY

Successful Bidder shall utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Contractor during the term of the Contract and shall expressly require any Subcontractor performing work or providing services pursuant to the Contract to likewise utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Subcontractor during the Contract term.

4.11 CONFLICT OF INTEREST

Bidders, by responding to this ITB, certify that to the best of their knowledge and belief, no elected/appointed official or employee of the Village is financially interested, directly or indirectly, in the purchase of goods/services specified in this ITB. Any such interests on the part of the Bidder or its employees shall be disclosed in writing to the Village. Further, Bidders shall disclose the name of any Village employee who owns, directly or indirectly, an interest of five percent (5%) or more of the total assets of capital stock of the Bidding firm.

4.12 DEBARRED/SUSPENDED VENDORS

An entity or affiliate who has been placed on the State of Florida or Federal debarred or suspended vendor list may not: a) submit a Bid on a contract to provide goods or services to a public entity; b) may not submit a Bid on a contract with a public entity for the construction or repair of a public building or public work; c) may not submit a Bid on leases of real property to a public entity; d) may not be awarded or perform work as a contractor, design-builder, supplier, subcontractor, or consultant under contract with any public entity; and e) may not transact business with any public entity.

4.13 NON-DISCRIMINATION

The Bidder agrees that it shall not discriminate by race, gender, color, age, religion, national origin, marital status, or disability in connection with its performance under this ITB. Furthermore, Bidder agrees that no otherwise qualified individual shall solely by reason of his/her race, gender, color, age, religion, national origin, marital status, or disability be excluded from the participation in, be denied benefits of, or be

subjected to, discrimination under any program or activity called for or required in connection with services rendered under this Agreement.

4.14 UNETHICAL BUSINESS PRACTICE PROHIBITIONS

The Bidder represents and warrants to the Village that it has not employed or retained any person or company employed by the Village to solicit or secure the award of the Agreement and that it has not offered to pay, paid, or agreed to pay any person any fee, commission, percentage, brokerage fee, or gift of any kind, contingent upon or in connection with, the award of the Contract.

4.15 ADDITIONAL TERMS AND CONDITIONS

No additional terms and conditions included with the Bid shall be evaluated or considered, and any and all such additional terms and conditions shall have no force or effect and are inapplicable to this solicitation. If submitted purposely, through either intent or design, or inadvertently, appearing separately in transmittal letters, specifications, literature, price lists, or warranties, it is understood and agreed that the General and Special Conditions in this solicitation are the only conditions applicable to this solicitation and that the Bidder's authorized signature affixed to the Bidder's acknowledgment form, attests to this.

4.16 CONE OF SILENCE

To ensure fair consideration for all Bidders, a Cone of Silence is encourage starting on the posting of the bid submission. Bidders are asked not to communicate any department, division, or employee from the submission package concerning the bid until an award decision has been made. Any communication between Bidder and the Village in order to obtain information or clarification needed to develop a proper, accurate evaluation of the bid should be conducted through the Village Procurement Officer, Daren Jairam at djairam@keybiscayne.fl.gov or procurement@keybiscayne.fl.gov.

FORM 6A

SINGLE EXECUTION AFFIDAVITS

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS.

THIS FORM COMBINES SEVERAL AFFIDAVIT STATEMENTS TO BE SWORN TO BY THE PROPOSER OR BIDDER AND NOTARIZED BELOW. IN THE EVENT THE PROPOSER OR BIDDER CANNOT SWEAR TO ANY OF THESE AFFIDAVIT STATEMENTS, THE PROPOSER OR BIDDER IS DEEMED TO BE NON-RESPONSIBLE AND IS NOT ELIGIBLE TO SUBMIT A PROPOSAL/BID.

THESE SINGLE EXECUTION AFFIDAVITS ARE SUBMITTED TO THE VILLAGE OF KEY BISCAYNE AND ARE STATEMENTS MADE:

By: Francisco Oliva

For (Name of Proposing or Bidding Entity): Island Party Place LLC

Whose business address is: 300 Galen Drive, Key Biscayne Fl 33149

And (if applicable) its Federal Employer Identification Number (FEIN) is: 33-3812156

(if the entity does not have an FEIN, include the Social Security Number of the individual signing this sworn statement. SS#:)

Americans with Disabilities Act Compliance Affidavit

The above-named firm, corporation or organization is in compliance with and agrees to continue to comply with, and assure that any subcontractor, or third-party contractor under this project complies with all applicable requirements of the laws listed below including, but not limited to, those provisions pertaining to employment, provision of programs and services, transportation, communications, access to facilities, renovations, and new construction.

- The American with Disabilities Act of 1990 (ADA), Pub. L. 101-336, 104 Stat 327, 42 USC 1210112213 and 47 USC Sections 225 and 661 including Title I, Employment; Title II, Public Services; Title III, Public Accommodations and Services Operated by Private entities; Title IV, Telecommunications; and Title V, Miscellaneous Provisions.
- The Florida Americans with Disabilities Accessibility Implementation Act of 1993, Section 553.501-553.513, Florida Statutes:
- The Rehabilitation Act of 1973, 229 USC Section 794;
- The Federal Transit Act, as amended 49 USC Section 1612;
- The Fair Housing Act as amended 42 USC Section 3601-3631.

Proposer Initials

Public Entity Crimes Affidavit

I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentations.

I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime; or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, and partners, shareholders, employees, members, and agents who are active in management of an entity.

Based on information and belief, the statement, which I have marked below, is true in relations to the entity submitting this sworn statement.

(INDICATE WHICH STATEMENT APPLIES.)

[✓] Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with ad convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives partners, shareholders, employees, members, or agents who are active in the management of the entity,

or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida , Division of Administrative Hearings and the final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list (attach a copy of the final order).

I understand that the submission of this form to the contracting officer for the public entity identified in paragraph 1 above is for that public entity only and that this form is valid through December 31 of the calendar year in which it is filed. I also understand that I am required to inform the public entity prior to entering into a contract in excess of the threshold amount provided in Section 287.017, Florida Statutes for category two of any change in the information contained in this form.

_____
Proposer Initials

No Conflict of Interest or Contingent Fee Affidavit

Proposer warrants that neither it nor any principal, employee, agent, representative nor family member has paid or will pay any fee or consideration that is contingent on the award or execution of a contract arising out of this solicitation. Proposer also warrants that neither it nor any principal, employee, agent, representative nor family member has procured or attempted to procure this contract in violation of any of the provisions of the Miami-Dade County conflict of interest or code of ethics ordinances. Further, Proposer acknowledges that any violation of these warrants will result in the termination of the contract and forfeiture of funds paid or to be paid to the Proposer should the Proposer be selected for the performance of this contract.

_____
Proposer Initials

Business Entity Affidavit

Proposer hereby recognizes and certifies that no elected official, board member, or employee of the Village of Key Biscayne (the " Village") shall have a financial interest directly or indirectly in this transaction or any compensation to be paid under or through this transaction, and further, that no Village employee, nor any elected or appointed officer (including Village board members) of the Village, nor any spouse, parent or child of such employee or elected or appointed officer of the Village, may be a partner, officer, director or proprietor of Proposer or Vendor, and further, that no such Village employee or elected or appointed officer, or the spouse, parent or child of any of them, alone or in combination, may have a material interest in the Vendor or Proposer. Material interest means direct or indirect ownership of more than 5% of the total assets or capital stock of the Proposer. Any exception to these above-described

restrictions must be expressly provided by applicable law or ordinance and be confirmed in writing by Village. Further, Proposer recognizes that with respect to this transaction or bid, if any Proposer violates or is a party to a violation of the ethics ordinances or rules of the Village, the provisions of Miami-Dade County Code Section 2-11.1, as applicable to Village, or the provisions of Chapter 112, part III, Fla. Stat., the Code of Ethics for Public Officers and Employees, such Proposer may be disqualified from furnishing the goods or services for which the bid or proposal is submitted and may be further disqualified from submitting any future bids or proposals for goods or services to Village.

_____
Proposer Initials

Anti-Collusion Affidavit

1. Proposer/Bidder has personal knowledge of the matters set forth in its Proposal/Bid and is fully informed respecting the preparation and contents of the attached Proposal/Bid and all pertinent circumstances respecting the Proposal/Bid;
2. The Proposal/Bid is genuine and is not a collusive or sham Proposal/Bid; and
3. Neither the Proposer/Bidder nor any of its officers, partners, owners, agents, representatives, employees, or parties in interest, including Affiant, has in any way colluded, conspired, connived, or agreed, directly or indirectly with any other Proposer/Bidder, firm, or person to submit a collusive or sham Proposal/Bid, or has in any manner, directly or indirectly, sought by agreement or collusion or communication or conference with any other Proposer/Bidder, firm, or person to fix the price or prices in the attached Proposal/Bid or of any other Proposer/Bidder, or to fix any overhead, profit, or cost element of the Proposal/Bid price or the Proposal/Bid price of any other Proposer/Bidder, or to secure through any collusion, conspiracy, connivance or unlawful agreement any advantage against the Village of Key Biscayne or any person interested in the proposed Contract.

_____
Proposer Initials

Scrutinized Company Certification

1. Proposer certifies that it and its subcontractors are not on the Scrutinized Companies that Boycott Israel List. Pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer or its subcontractors are found to have submitted a false certification; or if the Proposer, or its subcontractors are placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
2. If the Agreement that may result from this ITB is for more than one million dollars, the Proposer certifies that it and its subcontractors are also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer, its affiliates, or its subcontractors are found to have submitted a false certification; or if the Proposer, its affiliates, or its subcontractors are placed on the Scrutinized

Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

3. The Proposer agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under the Agreement that may result from this ITB. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize the above-stated contracting prohibitions then they shall become inoperative.

_____
Proposer Initials

Acknowledgment, Warranty, and Acceptance

1. CONTRACTOR warrants that it is willing and able to comply with all applicable state of Florida laws, rules and regulations.

CONTRACTOR warrants that it has read, understands, and is willing to comply with all requirements of **VILLAGE OF KEY BISCAYNE SPECIAL EVENTS RENTAL SUPPLIES** and any addendum/addenda related thereto.

2. CONTRACTOR warrants that it will not delegate or subcontract its responsibilities under an agreement without the prior written permission of the Village Council or Village Manager, as applicable.
3. CONTRACTOR warrants that all information provided by it in connection with this Proposal is true and accurate.

_____
Proposer Initials

Truth in Negotiation Certification

The CONTRACTOR hereby certifies, covenants, and warrants that wage rates and other factual unit costs supporting the compensation for this project's agreement are accurate, complete, and current at the time of contracting.

The CONTRACTOR further agrees that the original agreement price and any additions thereto shall be adjusted to exclude any significant sums by which the Village determines the agreement price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such agreement adjustments shall be made within (1) year following the end of the contract. For purposes of this certificate, the end of the agreement shall be deemed to be the date of the final billing or acceptance of the work by the Village, whichever is later.

FORM 6B

INDEPENDENCE AFFIFAVIT

The undersigned individual, being duly sworn, deposes and says that:

I am Francisco Oliva of Island Party Place, the proposer that has submitted the attached proposal;

I hereby certify to the best of my knowledge that neither I nor any of those persons residing in my household have or have had during the past five years, any relationships (professional, financial, familial or otherwise) with the VILLAGE (or any of its districts), its elected or appointed officials, its employees or agents, or any member or alternate member of the Selection Committee.

A "relationship" for the purpose of this affidavit shall include but not be limited to employer/employee, consultant, contractor, subcontractor, associate, officer, partnership, joint venture, ownership greater than one percent, landlord/tenant, or creditor/debtor, gift donor/recipient (in excess of $100.00), past or on-going personal relationships, or joint involvement with charitable/voluntary activities. **Relationship includes having a prior or current contract with the VILLAGE.**

Except as set forth below, I hereby certify to the best of my knowledge that neither I nor any of those persons residing in my household have received any promise of compensation, remuneration, gift, discount, or other gratuity in exchange for my proposal.

I understand and agree that I shall give the VILLAGE written notice of any other relationships (as defined above) that I enter into with the VILLAGE (or any of its districts), its elected or appointed officials, its employees or agents, or any member or alternate member of the Selection Committee during the period of the Agreement.

I set forth below any exceptions to the aforementioned (if none, write "None"):

NON-COLLUSION AFFIDAVIT

The undersigned individual, being duly sworn, deposes and says that:

1. He/She is Francisco Oliva of Island Party Place LLC, proposer that has submitted the attached proposal;

2. He/She is fully informed respecting the preparation and contents of the attached proposal and of all pertinent circumstances respecting such proposal;

3. Such proposal is genuine and is not a collusive or sham proposal;

4. Neither said proposer nor any of its officers, partners, owners, agents, representatives, employees, or parties in interest, including this affiant, has in any way colluded, connived, or agreed, directly or indirectly, with any other proposer, firm or person to submit a collusive or sham proposal in connection with the Agreement for which the attached proposal has been submitted or to refrain from proposing in connection with the Agreement, or has in any manner, directly or indirectly, sought by agreement of collusion or communication of conference with any other proper, firm, or person to fix the price or prices in the attached proposal, or of any other proposer, or to fix any overhead, profit or cost element of the proposal or the response of any other proposer, or to secure through any collusion, connivance, or unlawful agreement any advantage against the Village of Key Biscayne, Florida, or any person interested in the Agreement; and

5. The response to the attached ITB is fair and proper and is not tainted by any collusion, conspiracy, connivance, or unlawful agreement on the part of the proposer or any of its agents, representatives, owners, employees, or parties in interest, including this affiant.

FORM 7

DRUG FREE WORKPLACE

The undersigned proposer in accordance with Chapter 287.087, Florida Statutes, hereby certifies that island party place LLC does:

1. Publish a statement notifying employees that the unlawful manufacturing, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the contractual services described in the ITB document a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the contractual services described in the ITB or the Agreement, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

7. As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

CERTIFICATION TO ACCURACY OF PROPOSAL

The proposer, by executing this form, hereby certifies and attests that all forms, affidavits and documents related thereto that it has enclosed in the proposal in support of its proposal are true and accurate. Failure by the proposer to attest to the truth and accuracy of such forms, affidavits and documents shall result in the proposal being deemed non-responsive and such proposal will not be considered.

By submitting a proposal to do the work, the proposer certifies that a careful review of the ITB and the Agreement has taken place and that the proposer is fully informed and understands the requirements of the ITB and the Agreement and the quality and quantity of service to be performed.

The undersigned individual, being duly sworn, deposes and says that:

1. He/She is francisco oliva of island party place, the proposer that has submitted the attached proposal;
2. He/She is fully informed respecting the preparation and contents of the attached proposal and of all forms, affidavits and documents submitted in support of such proposal;
3. All forms, affidavits and documents submitted in support of this proposal and included in this proposal are true and accurate;
4. No information that should have been included in such forms, affidavits and documents has been omitted; and
5. No information that is included in such forms, affidavits or documents is false or misleading.

FORM 10

PUBLIC ENTITY CRIMES

Sworn Statement Under §287.133(3)(a), Florida Statutes

(This form must be signed in the presence of a notary public or other officer authorized to administer oaths.)

1. This sworn statement is submitted with Bid, Proposal or contract No. ITB # 2025-09 Island Party place

2. This sworn statement is submitted by: (name of entity submitting sworn statement)

whose business address is: 300 galen drive apt 405 key biscayne fl, 33149

Federal Identification Number (FEIN) is: 33-

(if applicable) 33-9812156

Social Security Number:

(if the entity has no FEIN, include the Social ~~Security Number of the individual signing this sworn~~ statement)

3. My name is: francisco oliva

(print name of individual signing this document)

and my relationship to the entity is: President

4. I understand that a "public entity crime" as defined in §287.133(1)(g), Florida Statutes means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United states, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

5. I understand that a "convicted" or "conviction" as defined in §287.133(1)(b), Florida Statutes, means a finding of guilt of a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

6. I understand that an "affiliate" as defined in §287.133(1)(a), Florida Statutes means:
   (a) A predecessor or successor of a person or a corporation convicted of a public

entity crime; or

(b) An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima-facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

7. I understand that a "person" as defined in §287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which binds or applies to bids on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

8. Based on the information and belief, the statement that I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies)

   a. ✓ Neither the entity submitting the sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity nor any affiliate of the entity have been charged with and convicted of a public entity crime subsequent to July 1, 1989.

   b. ____ The entity submitting this sworn statement, or one or more of the officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989, and (Please indicate which additional statement applies)

      1) ____ There has been a proceeding concerning the conviction before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. (Please attach a copy of the final order)

      2) ____ The person or affiliate was placed on the convicted list. There has been a subsequent proceeding before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or

affiliate from the convicted vendor list. (Please attach a copy of the final order)

3) ____The person or affiliate has not been placed on the convicted vendor list. (Please describe any action taken by or pending with the Department of General Services)

VILLAGE OF KEY BISCAYNE

BIDDER'S REPRESENTATION

VILLAGE OF KEY BISCAYNE SPECIAL EVENTS RENTAL SUPPLIES

Proposal of Island party place

(Name)

300 Galen drive apt 405, key Biscayne fl, 33149

(Address)

to furnish all materials, equipment, and labor and to perform all work in accordance with the Contract Documents for:

VILLAGE OF KEY BISCAYNE SPECIAL EVENTS RENTAL SUPPLIES
("THE PROJECT")

TO: Village of Key Biscayne
Attn: Village Clerk
88 West McIntyre Street, Suite 220
Key Biscayne, Florida 33149

The undersigned, as Bidder, hereby declares that the only person or persons interested in the Bid, as principal or principals, is or are named herein and that no other person than herein mentioned has any interests in the Bid or the Contract to which the Work pertains; that this Bid is made without connection or arrangement with any other person, company, or parties making Bids or Proposals and that the Bid is in all respects fair and made in good faith without collusion or fraud.

The Bidder further declares that he or she has examined the geographic location and sites of the Work; that he has made sufficient investigations to fully satisfy himself that such sites are suitable for this Work; and he assumes full responsibility therefore; that he has examined the specifications for the Work and from his own experience or from professional advice that the specifications are sufficient for the Work to be done and he has examined the other Contract Documents relating thereto, including the Instructions to Bidders, the Contract, Bid, Detailed Scope of Work/Specifications, Qualification Statement, Public Entity Crime Form, and Insurance requirements

and he has read all addenda prior to the opening of Bids, and that he has satisfied himself fully, relative to all matters and conditions with respect to the Work to which this Bid pertains.

The Bidder proposes and agrees, if this Bid is accepted, to timely execute the Contract with the Village in the form attached and to furnish all necessary materials, all equipment, all necessary machinery, tools, apparatus, means of transportation, and labor necessary to complete the Work specified in the Bid and the Contract, and called for by the drawings and specifications and in the manner specified and to timely submit all required bonds and insurance certificates.
NOTE: THIS SCHEDULE OF BID ITEMS IS MERELY ILLUSTRATIVE OF THE MINIMUM AMOUNT/QUANTITY OF WORK TO BE PERFORMED UNDER THE CONTRACT. IN THE CASE OF ANY CONFLICT BETWEEN THIS SCHEDULE OF BID ITEMS AND THE DETAILED SPECIFICATIONS, THE DETAILED SPECIFICATIONS WILL PREVAIL.

The Bidder further proposes and agrees to comply in all respects with the time limits for commencement and completion of the Work as stated in the Contract.

The Bidder agrees to execute the Contract and furnish the executed Contract, all required bonds, insurance certificates, and other required information to Village within ten (10) ten calendar days after written notice of the Award of Contract. Failure on the part of the Bidder to timely comply with this provision shall give Village all rights and remedies set forth in the Instructions to Bidders.

The undersigned agrees to accept as full compensation therefore the total of the lump sum prices and extended unit prices items named in the following schedule. It is understood that the unit prices quoted or established for a particular item are to be used for computing the amount to be paid to the Contractor, based on the Work actually performed as determined by the Contract and the Village. However, in utilizing the schedule, the Bidder agrees that in no event shall compensation paid to the Bidder under the Contract exceed the dollar amount of the Bidder's Bid amount, as set forth in the attached Bid.

It is intended that all Work to be performed under this Bid shall commence approximately thirty (30) days after Contract execution.

In no event shall Village be obligated to pay for Work not performed or materials not furnished. Bidder's

Certificate of Competency No._____

ATTACHMENT A

SERVICES AGREEMENT BETWEEN THE VILLAGE OF KEY BISCAYNE AND NAME OF ENTITY

THIS AGREEMENT (this "Agreement") is made effective as of the _____ day of _____ _____, 2025 (the "Effective Date"), by and between the **VILLAGE OF KEY BISCAYNE, FLORIDA,** a Florida municipal corporation, (the "Village"), and **NAME OF ENTITY,** a Florida [type of entity] (hereinafter, the "Consultant").

WHEREAS, the Village desires certain **VILLAGE OF KEY BISCAYNE SPECIAL EVENTS RENTAL SUPPLIES** and

WHEREAS, the Consultant will perform services on behalf of the Village, all as further set forth in the Proposal dated _____, 2025, attached hereto as Exhibit "A" (the "Services"); and

WHEREAS, the Consultant and Village, through mutual negotiation, have agreed upon a fee for the Services; and

WHEREAS, the Village desires to engage the Consultant to perform the Services and provide the deliverables as specified below.

NOW, THEREFORE, in consideration of the mutual covenants and conditions contained herein, the Consultant and the Village agree as follows:

1. **Scope of Services.**

   1.1. Consultant shall provide the Services set forth in the Proposal attached hereto as Exhibit "A" and incorporated herein by reference (the "Services").

   1.2. Consultant shall furnish all reports, documents, and information obtained pursuant to this Agreement, and recommendations during the term of this Agreement (hereinafter "Deliverables") to the Village.

2. **Term/Commencement Date.**

   2.1. The term of this Agreement shall be from the Effective Date through three (3) years thereafter, unless earlier terminated in accordance with Paragraph 8. Additionally, the Village Manager may renew this Agreement for two (2) additional one (1) year periods on the same terms as set forth herein upon written notice to the Consultant.

   2.2. Consultant agrees that time is of the essence and Consultant shall complete the Services within the term of this Agreement, unless extended by the Village Manager.

3. Compensation and Payment.

3.1. Compensation for Services provided by Consultant shall be in accordance with the Proposal attached hereto as Exhibit "A." Consultant shall be compensated a flat rate, lump sum fee in the amount of $XXXX.XX per month.

3.2. Consultant shall deliver an invoice to Village no more often than once per month detailing Services completed and the amount due to Consultant under this Agreement. Fees shall be paid in arrears each month, pursuant to Consultant's invoice, which shall be based upon the percentage of work completed for each task invoiced. The Village shall pay the Consultant in accordance with the Florida Prompt Payment Act after approval and acceptance of the Services by the Village Manager.

3.3. Contractor's invoices must contain the following information for prompt payment:

3.3.1. Name and address of the Consultant;

3.3.2. Purchase Order number;

3.3.3. Contract number;

3.3.4. Date of invoice;

3.3.5. Invoice number (Invoice numbers cannot be repeated. Repeated invoice numbers will be rejected);

3.3.6. Name and type of Services;

3.3.7. Timeframe covered by the invoice; and

3.3.8. Total value of invoice.

Failure to include the above information will result in the delay of payment or rejection of the invoice. All invoices must be submitted electronically to payables@keybiscayne.fl.gov.

4. Subconsultants.

4.1. The Consultant shall be responsible for all payments to any subconsultants and shall maintain responsibility for all work related to the Services.

4.2. Consultant may only utilize the services of a particular subconsultant with the prior written approval of the Village Manager, which approval may be granted or withheld in the Village Manager's sole and absolute discretion.

5. Village's Responsibilities.

5.1. Village shall make available any maps, plans, existing studies, reports, staff and representatives, and other data pertinent to the Services and in possession of the Village, and provide criteria requested by Consultant to assist Consultant in performing the Services.

5.2. Upon Consultant's request, Village shall reasonably cooperate in arranging access to public information that may be required for Consultant to perform the Services.

6. Consultant's Responsibilities; Representations and Warranties.

6.1. The Consultant shall exercise the same degree of care, skill and diligence in the performance of the Services as is ordinarily provided by a consultant under similar circumstances. If at any time during the term of this Agreement or within two (2) years from the completion of this Agreement, it is determined that the Consultant's Deliverables or Services are incorrect, not properly rendered, defective, or fail to conform to Village requests, the Consultant shall at Consultant's sole expense, immediately correct its Deliverables or Services.

6.2. The Consultant hereby warrants and represents that at all times during the term of this Agreement it shall maintain in good standing all required licenses, certifications and permits required under Federal, State and local laws applicable to and necessary to perform the Services for Village as an independent contractor of the Village. Consultant further warrants and represents that it has the required knowledge, expertise, and experience to perform the Services and carry out its obligations under this Agreement in a professional and first class manner.

6.3. The Consultant represents that is an entity validly existing and in good standing under the laws of Florida. The execution, delivery and performance of this Agreement by Consultant have been duly authorized, and this Agreement is binding on Consultant and enforceable against Consultant in accordance with its terms. No consent of any other person or entity to such execution, delivery and performance is required.

7. Conflict of Interest.

7.1. To avoid any conflict of interest or any appearance thereof, Consultant shall not, for the term of this Agreement, provide any consulting services to any private sector entities (developers, corporations, real estate investors, etc.), with any current, or foreseeable, adversarial issues in the Village.

8. Termination.

8.1. The Village Manager, without cause, may terminate this Agreement upon five (5) calendar days' written notice to the Consultant, or immediately with cause.

8.2. Upon receipt of the Village's written notice of termination, Consultant shall immediately stop work on the project unless directed otherwise by the Village Manager.

8.3. In the event of termination by the Village, the Consultant shall be paid for all work accepted by the Village Manager up to the date of termination, provided that the Consultant has first complied with the provisions of Paragraph 8.4.

8.4. The Consultant shall transfer all books, records, reports, working drafts, documents, maps, and data pertaining to the Services and the project to the Village, in a hard copy and electronic format within fourteen (14) days from the date of the written notice of termination or the date of expiration of this Agreement.

9. Insurance.

9.1. Consultant shall secure and maintain throughout the duration of this agreement insurance of such types and in such amounts not less than those specified below as satisfactory to Village, naming the Village as an Additional Insured, underwritten by a firm rated A-X or better by A.M. Best and qualified to do business in the State of Florida. The insurance coverage shall be primary insurance with respect to the Village, its officials, employees, agents, and volunteers naming the Village as additional insured. Any insurance maintained by the Village shall be in excess of the Consultant's insurance and shall not contribute to the Consultant's insurance. The insurance coverages shall include at a minimum the amounts set forth in this section and may be increased by the Village as it deems necessary or prudent.

9.1.1. Commercial General Liability coverage with limits of liability of not less than a $1,000,000 per Occurrence combined single limit for Bodily Injury and Property Damage. This Liability Insurance shall also include Completed Operations and Product Liability coverages and eliminate the exclusion with respect to property under the care, custody and control of Consultant. The General Aggregate Liability limit and the Products/Completed Operations Liability Aggregate limit shall be in the amount of $2,000,000 each.

9.1.2. Workers Compensation and Employer's Liability insurance, to apply for all employees for statutory limits as required by applicable State and Federal laws. The policy(ies) must include Employer's Liability with minimum limits of $1,000,000.00 each accident. No employee, subcontractor or agent of the Consultant shall be allowed to provide Services pursuant to this Agreement who is not covered by Worker's Compensation insurance.

9.1.3. Business Automobile Liability with minimum limits of $1,000,000 per occurrence, combined single limit for Bodily Injury and Property Damage. Coverage must be afforded on a form no more restrictive than the latest edition of the Business Automobile Liability policy, without restrictive endorsements, as filed by the Insurance Service Office, and must include Owned, Hired, and Non-Owned Vehicles.

9.1.4. Professional Liability Insurance in an amount of not less than One Million Dollars ($1,000,000.00) per occurrence, single limit.

9.2. Certificate of Insurance. Certificates of Insurance shall be provided to the Village, reflecting the Village as an Additional Insured (except with respect to Professional Liability Insurance and Worker's Compensation Insurance), no later than ten (10) days after award of this Agreement and prior to the execution of this Agreement by Village and prior to commencing Services. Each certificate shall include no less than (30) thirty-day advance written notice to Village prior to cancellation, termination, or material alteration of said policies or insurance. The Consultant shall be responsible for assuring that the insurance certificates required by this Section remain in full force and effect for the duration of this Agreement, including any extensions or renewals that may be granted by the Village. The Certificates of Insurance shall not only name the types of policy(ies) provided, but also shall refer specifically to this Agreement and shall state that such insurance is as required by this Agreement. The Village reserves the right to inspect and return a certified copy of such policies, upon written request by the Village. If a policy is due to expire prior to the completion of the Services, renewal Certificates of Insurance shall be furnished thirty (30) calendar days prior to the date of their policy expiration. Each policy certificate shall be

endorsed with a provision that not less than thirty (30) calendar days' written notice shall be provided to the Village before any policy or coverage is cancelled or restricted. Acceptance of the Certificate(s) is subject to approval of the Village.

9.3. **Additional Insured.** Except with respect to Professional Liability Insurance and Worker's Compensation Insurance, the Village is to be specifically included as an Additional Insured for the liability of the Village resulting from Services performed by or on behalf of the Consultant in performance of this Agreement. The Consultant's insurance, including that applicable to the Village as an Additional Insured, shall apply on a primary basis and any other insurance maintained by the Village shall be in excess of and shall not contribute to the Consultant's insurance. The Consultant's insurance shall contain a severability of interest provision providing that, except with respect to the total limits of liability, the insurance shall apply to each Insured or Additional Insured (for applicable policies) in the same manner as if separate policies had been issued to each.

9.4. **Deductibles.** All deductibles or self-insured retentions must be declared to and be reasonably approved by the Village. The Consultant shall be responsible for the payment of any deductible or self-insured retentions in the event of any claim.

9.5. The provisions of this section shall survive termination of this Agreement.

10. **Nondiscrimination.** During the term of this Agreement, Consultant shall not discriminate against any of its employees or applicants for employment because of their race, color, religion, sex, or national origin, and will abide by all Federal and State laws regarding nondiscrimination.

11. **Attorneys Fees and Waiver of Jury Trial.**

11.1. In the event of any litigation arising out of this Agreement, the prevailing party shall be entitled to recover its attorneys' fees and costs, including the fees and expenses of any paralegals, law clerks and legal assistants, and including fees and expenses charged for representation at both the trial and appellate levels.

11.2. IN THE EVENT OF ANY LITIGATION ARISING OUT OF THIS AGREEMENT, EACH PARTY HEREBY KNOWINGLY, IRREVOCABLY, VOLUNTARILY AND INTENTIONALLY WAIVES ITS RIGHT TO TRIAL BY JURY.

12. **Indemnification.**

12.1. Consultant shall indemnify and hold harmless the Village, its officers, agents and employees, from and against any and all demands, claims, losses, suits, liabilities, causes of action, judgment or damages, arising from Consultant's performance or non-performance of any provision of this Agreement, including, but not limited to, liabilities arising from contracts between the Consultant and third parties made pursuant to this Agreement. Consultant shall reimburse the Village for all its expenses including reasonable attorneys' fees and costs incurred in and about the defense of any such claim or investigation and for any judgment or damages arising from Consultant's performance or non-performance of this Agreement.

12.2. Nothing herein is intended to serve as a waiver of sovereign immunity by the Village nor shall anything included herein be construed as consent to be sued by third parties in any matter

arising out of this Agreement or any other contract. The Village is subject to section 768.28, Florida Statutes, as may be amended from time to time.

12.3. The provisions of this section shall survive termination of this Agreement.

13. Notices/Authorized Representatives. Any notices required by this Agreement shall be in writing and shall be deemed to have been properly given if transmitted by hand-delivery, by registered or certified mail with postage prepaid return receipt requested, or by a private postal service, addressed to the parties (or their successors) at the addresses listed on the signature page of this Agreement or such other address as the party may have designated by proper notice.

14. Governing Law and Venue. This Agreement shall be construed in accordance with and governed by the laws of the State of Florida. Venue for any proceedings arising out of this Agreement shall be proper exclusively in Miami-Dade County, Florida.

15. Entire Agreement/Modification/Amendment.

15.1. This writing contains the entire Agreement of the parties and supersedes any prior oral or written representations. No representations were made or relied upon by either party, other than those that are expressly set forth herein.

15.2. No agent, employee, or other representative of either party is empowered to modify or amend the terms of this Agreement, unless executed with the same formality as this document.

16. Ownership and Access to Records and Audits.

16.1. Consultant acknowledges that all inventions, innovations, improvements, developments, methods, designs, analyses, drawings, reports, compiled information, and all similar or related information (whether patentable or not) which relate to Services to the Village which are conceived, developed or made by Consultant during the term of this Agreement ("Work Product") belong to the Village. Consultant shall promptly disclose such Work Product to the Village and perform all actions reasonably requested by the Village (whether during or after the term of this Agreement) to establish and confirm such ownership (including, without limitation, assignments, powers of attorney and other instruments).

16.2. Consultant agrees to keep and maintain public records in Consultant's possession or control in connection with Consultant's performance under this Agreement. The Village Manager or her designee shall, during the term of this Agreement and for a period of three (3) years from the date of termination of this Agreement, have access to and the right to examine and audit any records of the Consultant involving transactions related to this Agreement. Consultant additionally agrees to comply specifically with the provisions of Section 119.0701, Florida Statutes. Consultant shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed, except as authorized by law, for the duration of the Agreement, and following completion of the Agreement until the records are transferred to the Village.

16.3. Upon request from the Village's custodian of public records, Consultant shall provide the Village with a copy of the requested records or allow the records to be inspected or copied within

a reasonable time at a cost that does not exceed the cost provided by Chapter 119, Florida Statutes, or as otherwise provided by law.

16.4. Unless otherwise provided by law, any and all records, including but not limited to reports, surveys, and other data and documents provided or created in connection with this Agreement are and shall remain the property of the Village.

16.5. Upon completion of this Agreement or in the event of termination by either party, any and all public records relating to the Agreement in the possession of the Consultant shall be delivered by the Consultant to the Village Manager, at no cost to the Village, within seven (7) days. All such records stored electronically by Consultant shall be delivered to the Village in a format that is compatible with the Village's information technology systems. Once the public records have been delivered upon completion or termination of this Agreement, the Consultant shall destroy any and all duplicate public records that are exempt or confidential and exempt from public records disclosure requirements.

16.6. Any compensation due to Consultant shall be withheld until all records are received as provided herein.

16.7. Consultant's failure or refusal to comply with the provisions of this section shall result in the immediate termination of this Agreement by the Village.

16.8. **Notice Pursuant to Section 119.0701(2)(a), Florida Statutes.** **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS.**

Custodian of Records:	**Jocelyn B. Koch**
Mailing address:	**88 West McIntyre Street**
	Key Biscayne, FL 33149
Telephone number:	**305-365-5506**
Email:	**jkoch@keybiscayne.fl.gov**

17. Nonassignability. This Agreement shall not be assignable by Consultant unless such assignment is first approved by the Village Manager. The Village is relying upon the apparent qualifications and expertise of the Consultant, and such firm's familiarity with the Village's area, circumstances and desires.

18. Severability. If any term or provision of this Agreement shall to any extent be held invalid or unenforceable, the remainder of this Agreement shall not be affected thereby, and each remaining term and provision of this Agreement shall be valid and be enforceable to the fullest extent permitted by law.

19. Independent Contractor. The Consultant and its employees, volunteers and agents shall be and remain an independent contractor and not an agent or employee of the Village with respect to all of the acts and services performed by and under the terms of this Agreement. This Agreement shall not

in any way be construed to create a partnership, association or any other kind of joint undertaking, enterprise or venture between the parties.

20. **Compliance with Laws.** The Consultant shall comply with all applicable laws, ordinances, rules, regulations, and lawful orders of public authorities in carrying out Services under this Agreement, and in particular shall obtain all required permits from all jurisdictional agencies to perform the Services under this Agreement at its own expense.

21. **Waiver.** The failure of either party to this Agreement to object to or to take affirmative action with respect to any conduct of the other which is in violation of the terms of this Agreement shall not be construed as a waiver of the violation or breach, or of any future violation, breach or wrongful conduct.

22. **Survival of Provisions.** Any terms or conditions of either this Agreement that require acts beyond the date of the term of the Agreement, shall survive termination of the Agreement, shall remain in full force and effect unless and until the terms or conditions are completed and shall be fully enforceable by either party.

23. **Prohibition of Contingency Fees.** The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant, to solicit or secure this Agreement, and that it has not paid or agreed to pay any person(s), company, corporation, individual or firm, other than a bona fide employee working solely for the Consultant, any fee, commission, percentage, gift, or any other consideration, contingent upon or resulting from the award or making of this Agreement.

24. **Public Entity Crimes Affidavit.** Consultant shall comply with Section 287.133, Florida Statutes (Public Entity Crimes Statute), notification of which is hereby incorporated herein by reference, including execution of any required affidavit.

25. **Counterparts.** This Agreement may be executed in several counterparts, each of which shall be deemed an original and such counterparts shall constitute one and the same instrument.

26. **Conflicts.** In the event of a conflict between the terms of this Agreement and any exhibits or attachments hereto, the terms of this Agreement shall control.

27. **E-Verify Affidavit.** In accordance with Section 448.095, Florida Statutes, the Village requires all contractors doing business with the Village to register with and use the E-Verify system to verify the work authorization status of all newly hired employees. The Village will not enter into a contract unless each party to the contract registers with and uses the E-Verify system. The contracting entity must provide of its proof of enrollment in E-Verify. For instructions on how to provide proof of the contracting entity's participation/enrollment in E-Verify, please visit: https://www.e-verify.gov/faq/how-do-i-provide-proof-of-my-participationenrollment-in-e-verify. By entering into this Agreement, the Contractor acknowledges that it has read Section 448.095, Florida Statutes; will comply with the E-Verify requirements imposed by Section 448.095, Florida Statutes, including but not limited to obtaining E-Verify affidavits from subcontractors; and has executed the required affidavit attached hereto and incorporated herein.

[Remainder of page intentionally left blank. Signature pages follow.]

IN WITNESS WHEREOF, the parties hereto have caused this Contract to be executed the day and year as first stated above.

AFFIDAVIT ATTESTING TO NONCOERCIVE CONDUCT FOR LABOR OR SERVICES

Effective July 1, 2024, Section 787.06, Florida Statutes, a nongovernmental entity executing, renewing, or extending a contract with a governmental entity is required to provide an affidavit, signed by an officer or a representative of the nongovernmental entity under penalty of perjury, attesting that the nongovernmental entity does not use coercion for labor or services as defined in Section 787.06(2)(a), Florida Statutes.

By signing below, **I hereby affirm under penalty of perjury that**:

1. I have read Section 787.06, Florida Statutes, and understand that this affidavit is provided in compliance with the requirement that, upon execution, renewal, or extension of a contract between a nongovernmental entity and a governmental entity, the nongovernmental entity must attest to the absence of coercion in labor or services.

2. I am an officer or representative of Island Party Place LLC, a nongovernmental entity.

3. _____ does not use coercion for labor or services as defined in the relevant section of the law.

- Completed forms are to be sent to Daren Jairam at djairam@keybiscayne.fl.gov

Ratings Guidelines:

Rating #1 (Unsatisfactory) - Work required extensive revisions; included numerous & significant errors; consultant was unable or unwilling to perform consistently; required an inordinate amount of supervision, and/or failed to meet professional standards or project objectives.

Rating #2 (Fair) – Performance was marginal; execution of contractual objectives required more review and included more errors than would normally be anticipated; level of service or expertise below average.

Rating #3 (Satisfactory) – Performance and work were satisfactory; services provided were at least of industry standard; no significant errors or problems; contractual objectives met.

Rating #4 (Good) - Vendor work is better than that of the average consultant.

Rating #5 (Excellent) – Performance was clearly above standard; expectations exceeded; objectives were met with a higher level of professional expertise.

Request for Quotation
RFQT 25-01: VILLAGE OF KEY BISCAYNE SPECIAL EVENTS RENTAL SUPPLIES

SCOPE OF WORK

1.1 INTRODUCTION:

The primary objective of this project is to identify and contract with rental companies that can supply high-quality linens, tables, tents, and chairs to support the diverse needs of events hosted by the Village of Key Biscayne (Village). By partnering with experienced rental providers, the Village aims to create comfortable and functional event spaces that accommodate attendees and enhance their overall experience. The Village reserves the right to award multiple companies.

Vendors are not required to bid on all items

1.2 SCOPE OF WORK:

The contractor shall furnish all labor, equipment, materials, permits, insurance, and supervision necessary to perform the following tasks:

1.2.1 Tables:

The vendor shall be responsible for the delivery of tables, including set-up. The tables must be made of high-quality materials and must be visually appealing. The contractor shall provide a minimum of three options. The tables must be durable and properly anchored.

1.2.2 Tents:

The vendor shall be responsible for the delivery of tents, including set-up. The tents must be made of high-quality materials and must be visually appealing. The tents must be durable and properly anchored. Staking the tents into the ground is rarely an option for Village events.

1.2.3 Chairs:

The vendor shall be responsible for the delivery of chairs, including set-up. The chairs must be made of high-quality materials and must be visually appealing. The contractor shall provide a minimum of three options for chairs. The chairs must be durable, and in good working conditions.

1.2.3 Linens:

The Village aims to ensure the provision of high-quality linen products, including specialty linens, to meet the Village's needs for various events and functions including but not limited to:

- Standard linens (tablecloths, table runners, chair covers, etc.)
- Specialty linens such as satin, silk, rosettes, organza, and other unique fabrics, available upon request and subject to availability

1.3 RESPONSIBILITY OF RENTAL COMPANY:

The selected rental providers will be responsible for:

- Offering a wide selection of tables, tents, and chairs in various styles, sizes, and configurations to suit different types of events and spaces.

- Collaborating with event organizers to assess the seating and shelter requirements based on the event's size, layout, and anticipated attendance.
- Delivering and setting up rental equipment at designated event locations within the Village and adjacent areas in a timely and professional manner.
- Ensuring that all rental items are clean, well-maintained, and in good working conditions, adhering to hygiene and safety standards.
- Providing on-site support and assistance as needed during the event, including troubleshooting and addressing any issues related to the rental equipment.
- Coordinating with Village's event coordinators and staff to facilitate seamless logistics and execution of rental services.

1.4 SERVICE DETAILS:

1.4.1 Rental Period:
The rental period shall be determined based on the specific requirements of each event or function. The duration may vary from single-day rentals to extended rental periods as needed.

1.4.2 Delivery and Pickup:
The vendor will handle the delivery and pick up of all the equipment rented to and from the Village's designated location(s) at the agreed-upon times.

1.4.3 Quality Assurance:
All the equipment provided by the Vendor shall undergo thorough inspection and maintenance to ensure cleanliness, quality, and presentability.

1.4.4 Customization:
Vendor offers customization options such as color selection, sizing, and branding to align with the Village's event themes and branding guidelines.

1.4.5 Support Services:
The vendor will provide dedicated support personnel to assist with any inquiries, requests, or issues related to the equipment rentals promptly.

1.5 ADDITIONAL EQUIPMENT/SERVICES:
Companies are encouraged to list any additional equipment or services they provide that may not have been outlined in the ITB.

1.6 PERFORMANCE EVALUATION:
The Village is committed to maintaining high standards of service and accountability in all vendor relationships. This Vendor Performance Evaluation Form is designed to assess the quality and effectiveness of services provided by contracted vendors. The information collected through this evaluation will be used to inform future contract decisions, support performance improvement efforts, and ensure that community expectations are consistently met.

Completed evaluations will be retained by the Village for a period of five years and will serve as a valuable resource during the selection, renewal, or extension of service contracts. Your feedback plays a vital role in promoting transparency, fostering accountability, and enhancing the overall quality of services delivered to our community.

1.7 QUALIFICATIONS:

- Extensive experience in supplying linen, tables, tents, and chairs for events of varying scales and formats.
- A diverse inventory of rental equipment, including different styles and configurations, to accommodate various event requirements.
- Reliability and responsiveness in delivering rental services on schedule and according to specified guidelines.
- Commitment to quality assurance, with well-maintained and clean rental items that meet or exceed industry standards.
- Excellent customer service skills and the ability to communicate effectively with event organizers and staff to fulfill specific event needs.

1.8 INSTRUCTIONS:

1. VENDORS submitting the bid should include the attached Table 1 – Price Sheet with their bid. Bids are due on July 15, 2025, at 11:30 AM. Bids should be emailed to procurement@keybiscayne.fl.gov.

2. Questions regarding this quotation can be submitted to Daren Jairam, Procurement Officer, by email at procurement@keybiscayne.fl.gov.

3. All the requirements stated herein and the attached Terms and Conditions of the Village of Key Biscayne Purchase Order shall apply.

4. The Village reserves the right to:
   - **A.** Award the VENDOR or VENDORS as determined to be in the best interest of the Village.
   - **B.** Reject any or all submittals if found not to be in the best interest of the Village.

1.9 BID REQUIREMENTS:

A. Bid Proposal:

- Complete filling out of Bid Schedule.
- Submit required documents.
- Include all costs, including taxes, fees, delivery charges, and any other applicable charges.

B. Terms of Engagement:

The Vendor, by submission of its Bid, agrees to the terms and conditions contained in the contract attached hereto as Attachment "A," ("Contract") and further agrees to execute the Contract without change. Notwithstanding, the Village, in its sole discretion, reserves the right to negotiate the final contract price or any terms and conditions.

The initial contract term is for three (3) years with the option to extend at its sole discretion for two (2) one-year (1-year) renewal terms for the maximum of five (5) years. The Proposer understands that this ITB does not constitute an agreement or a contract with the Proposer. A proposal is not binding until proposals are approved by the Village of Key Biscayne Council and both parties execute a written contract.

Bids that are conditioned to additions, deletions, or revisions to the Contract's terms and conditions will be rejected as non-responsive.

C. **Additional Information:**
- Provide any additional information relevant to the bid, including contact person, and any other pertinent details.

1.10 SUBNISSION INSTRUCTIONS:
- **Format:** Submit your bid proposal in a PDF format.
- **Submission Method:** Email your bid proposal to procurement@keybiscayne.fl.gov.
- **Deadline:** All bid proposals must be received by **July 15, 2025, 11:30 A.M.** Late submissions will not be considered.

1.11 EVALUATION CRITERA:

Bids will be evaluated based on the following criteria:
- Compliance with specifications.
- Total cost, including any incentives and discounts.
- Availability and delivery timeframe.
- Warranty and service offerings.
- Overall value and additional benefits.

1.12 CONTACT FOR QUESTIONS:

For any questions or clarifications regarding this RFQT, please contact:

Name: Procurement Officer – Daren Jairam
Email: procurement@keybiscayne.fl.gov

1.13 CONE OF SILENCE:

To ensure fair consideration for all Proposers, a Cone of Silence is enforced starting on the posting date of the proposal submission. Proposers are asked not to communicate with any department, division, or employee from the submission package concerning the proposal until an award decision has been made. Any communication between Proposer and the Village in order to obtain information or clarification needed to develop a proper, accurate evaluation of the proposal should be conducted through the Village Procurement Officer, Daren Jairam at djairam@keybiscayne.fl.gov or procurement@keybiscayne.fl.gov.

Americans with Disabilities Act Compliance Affidavit

The above-named firm, corporation or organization is in compliance with and agrees to continue to comply with, and assure that any subcontractor, or third-party contractor under this project complies with all applicable requirements of the laws listed below including, but not limited to, those provisions pertaining to employment, provision of programs and services, transportation, communications, access to facilities, renovations, and new construction.

- The American with Disabilities Act of 1990 (ADA), Pub. L. 101-336, 104 Stat 327, 42 USC 1210112213 and 47 USC Sections 225 and 661 including Title I, Employment; Title II, Public Services; Title III, Public Accommodations and Services Operated by Private entities; Title IV, Telecommunications; and Title V, Miscellaneous Provisions.
- The Florida Americans with Disabilities Accessibility Implementation Act of 1993, Section 553.501-553.513, Florida Statutes:
- The Rehabilitation Act of 1973, 229 USC Section 794;
- The Federal Transit Act, as amended 49 USC Section 1612;
- The Fair Housing Act as amended 42 USC Section 3601-3631.

MPE

Proposer Initials

Public Entity Crimes Affidavit

I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentations.

Type text here

I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime; or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, and partners, shareholders, employees, members, and agents who are active in management of an entity.

Based on information and belief, the statement, which I have marked below, is true in relations to the entity submitting this sworn statement.

(INDICATE WHICH STATEMENT APPLIES.)

[X] Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with ad convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives partners, shareholders, employees, members, or agents who are active in the management of the entity,

or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida , Division of Administrative Hearings and the final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list (attach a copy of the final order).

I understand that the submission of this form to the contracting officer for the public entity identified in paragraph 1 above is for that public entity only and that this form is valid through December 31 of the calendar year in which it is filed. I also understand that I am required to inform the public entity prior to entering into a contract in excess of the threshold amount provided in Section 287.017, Florida Statutes for category two of any change in the information contained in this form.

Proposer Initials

No Conflict of Interest or Contingent Fee Affidavit

Proposer warrants that neither it nor any principal, employee, agent, representative nor family member has paid or will pay any fee or consideration that is contingent on the award or execution of a contract arising out of this solicitation. Proposer also warrants that neither it nor any principal, employee, agent, representative nor family member has procured or attempted to procure this contract in violation of any of the provisions of the Miami-Dade County conflict of interest or code of ethics ordinances. Further, Proposer acknowledges that any violation of these warrants will result in the termination of the contract and forfeiture of funds paid or to be paid to the Proposer should the Proposer be selected for the performance of this contract.

Proposer Initials

Business Entity Affidavit

Proposer hereby recognizes and certifies that no elected official, board member, or employee of the Village of Key Biscayne (the " Village") shall have a financial interest directly or indirectly in this transaction or any compensation to be paid under or through this transaction, and further, that no Village employee, nor any elected or appointed officer (including Village board members) of the Village, nor any spouse, parent or child of such employee or elected or appointed officer of the Village, may be a partner, officer, director or proprietor of Proposer or Vendor, and further, that no such Village employee or elected or appointed officer, or the spouse, parent or child of any of them, alone or in combination, may have a material interest in the Vendor or Proposer. Material interest means direct or indirect ownership of more than 5% of the total assets or capital stock of the Proposer. Any exception to these above-described

restrictions must be expressly provided by applicable law or ordinance and be confirmed in writing by Village. Further, Proposer recognizes that with respect to this transaction or bid, if any Proposer violates or is a party to a violation of the ethics ordinances or rules of the Village, the provisions of Miami-Dade County Code Section 2-11.1, as applicable to Village, or the provisions of Chapter 112, part III, Fla. Stat., the Code of Ethics for Public Officers and Employees, such Proposer may be disqualified from furnishing the goods or services for which the bid or proposal is submitted and may be further disqualified from submitting any future bids or proposals for goods or services to Village.

Proposer Initials

Anti-Collusion Affidavit

1. Proposer/Bidder has personal knowledge of the matters set forth in its Proposal/Bid and is fully informed respecting the preparation and contents of the attached Proposal/Bid and all pertinent circumstances respecting the Proposal/Bid;
2. The Proposal/Bid is genuine and is not a collusive or sham Proposal/Bid; and
3. Neither the Proposer/Bidder nor any of its officers, partners, owners, agents, representatives, employees, or parties in interest, including Affiant, has in any way colluded, conspired, connived, or agreed, directly or indirectly with any other Proposer/Bidder, firm, or person to submit a collusive or sham Proposal/Bid, or has in any manner, directly or indirectly, sought by agreement or collusion or communication or conference with any other Proposer/Bidder, firm, or person to fix the price or prices in the attached Proposal/Bid or of any other Proposer/Bidder, or to fix any overhead, profit, or cost element of the Proposal/Bid price or the Proposal/Bid price of any other Proposer/Bidder, or to secure through any collusion, conspiracy, connivance or unlawful agreement any advantage against the Village of Key Biscayne or any person interested in the proposed Contract.

MPE
Proposer Initials

Scrutinized Company Certification

1. Proposer certifies that it and its subcontractors are not on the Scrutinized Companies that Boycott Israel List. Pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer or its subcontractors are found to have submitted a false certification; or if the Proposer, or its subcontractors are placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
2. If the Agreement that may result from this ITB is for more than one million dollars, the Proposer certifies that it and its subcontractors are also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer, its affiliates, or its subcontractors are found to have submitted a false certification; or if the Proposer, its affiliates, or its subcontractors are placed on the Scrutinized

Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

3. The Proposer agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under the Agreement that may result from this ITB. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize the above-stated contracting prohibitions then they shall become inoperative.

Acknowledgment, Warranty, and Acceptance

1. CONTRACTOR warrants that it is willing and able to comply with all applicable state of Florida laws, rules and regulations.

CONTRACTOR warrants that it has read, understands, and is willing to comply with all requirements of **VILLAGE OF KEY BISCAYNE SPECIAL EVENTS RENTAL SUPPLIES** and any addendum/addenda related thereto.

2. CONTRACTOR warrants that it will not delegate or subcontract its responsibilities under an agreement without the prior written permission of the Village Council or Village Manager, as applicable.
3. CONTRACTOR warrants that all information provided by it in connection with this Proposal is true and accurate.

MPE

Proposer Initials

Truth in Negotiation Certification

The CONTRACTOR hereby certifies, covenants, and warrants that wage rates and other factual unit costs supporting the compensation for this project's agreement are accurate, complete, and current at the time of contracting.

The CONTRACTOR further agrees that the original agreement price and any additions thereto shall be adjusted to exclude any significant sums by which the Village determines the agreement price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such agreement adjustments shall be made within (1) year following the end of the contract. For purposes of this certificate, the end of the agreement shall be deemed to be the date of the final billing or acceptance of the work by the Village, whichever is later.

FORM 6B

INDEPENDENCE AFFIFAVIT

The undersigned individual, being duly sworn, deposes and says that:

I am SR. ACCOUNT EXECUTIVE of MEGA PARTY EVENTS, INC, the proposer that has submitted the attached proposal;

I hereby certify to the best of my knowledge that neither I nor any of those persons residing in my household have or have had during the past five years, any relationships (professional, financial, familial or otherwise) with the VILLAGE (or any of its districts), its elected or appointed officials, its employees or agents, or any member or alternate member of the Selection Committee.

A "relationship" for the purpose of this affidavit shall include but not be limited to employer/employee, consultant, contractor, subcontractor, associate, officer, partnership, joint venture, ownership greater than one percent, landlord/tenant, or creditor/debtor, gift donor/recipient (in excess of $100.00), past or on-going personal relationships, or joint involvement with charitable/voluntary activities. **Relationship includes having a prior or current contract with the VILLAGE.**

Except as set forth below, I hereby certify to the best of my knowledge that neither I nor any of those persons residing in my household have received any promise of compensation, remuneration, gift, discount, or other gratuity in exchange for my proposal.

I understand and agree that I shall give the VILLAGE written notice of any other relationships (as defined above) that I enter into with the VILLAGE (or any of its districts), its elected or appointed officials, its employees or agents, or any member or alternate member of the Selection Committee during the period of the Agreement.

I set forth below any exceptions to the aforementioned (if none, write "None"):

DRUG FREE WORKPLACE

The undersigned proposer in accordance with Chapter 287.087, Florida Statutes, hereby certifies that MEGA PARTY EVENTS, INC does:

(Name of proposer)

1. Publish a statement notifying employees that the unlawful manufacturing, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the contractual services described in the RFQT document a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the contractual services described in the RFQT or the Agreement, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

7. As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

FORM 8

CERTIFICATION TO ACCURACY OF PROPOSAL

The proposer, by executing this form, hereby certifies and attests that all forms, affidavits and documents related thereto that it has enclosed in the proposal in support of its proposal are true and accurate. Failure by the proposer to attest to the truth and accuracy of such forms, affidavits and documents shall result in the proposal being deemed non-responsive and such proposal will not be considered.

By submitting a proposal to do the work, the proposer certifies that a careful review of the RFQT and the Agreement has taken place and that the proposer is fully informed and understands the requirements of the RFQT and the Agreement and the quality and quantity of service to be performed.

The undersigned individual, being duly sworn, deposes and says that:

1. He/She is SR. ACCOUNT EXECUTIVE of MEGA PARTY EVENTS, INC, the proposer that has submitted the attached proposal;
2. He/She is fully informed respecting the preparation and contents of the attached proposal and of all forms, affidavits and documents submitted in support of such proposal;
3. All forms, affidavits and documents submitted in support of this proposal and included in this proposal are true and accurate;
4. No information that should have been included in such forms, affidavits and documents has been omitted; and
5. No information that is included in such forms, affidavits or documents is false or misleading.

PUBLIC ENTITY CRIMES

Type text here

Sworn Statement Under §287.133(3)(a), Florida Statutes

(This form must be signed in the presence of a notary public or other officer authorized to administer oaths.)

1. This sworn statement is submitted with Bid, Proposal or contract No. 25-01

2. This sworn statement is submitted by: MEGA PARTY EVENTS, INC
(name of entity submitting sworn statement)

whose business address is: 22840 S DIXIE HWY MIAMI, FL 33170

Federal Identification Number (FEIN) is: 20-0804979
(if applicable)

Social Security Number: N/A

(if the entity has no FEIN, include the Social Security Number of the individual signing this sworn statement)

3. My name is: JUAN RUIZ
(print name of individual signing this document)

and my relationship to the entity is: PROFESSIONAL

4. I understand that a "public entity crime" as defined in §287.133(1)(g), Florida Statutes means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United states, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

5. I understand that a "convicted" or "conviction" as defined in §287.133(1)(b), Florida Statutes, means a finding of guilt of a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

6. I understand that an "affiliate" as defined in §287.133(1)(a), Florida Statutes means:
   (a) A predecessor or successor of a person or a corporation convicted of a public

entity crime; or

(b) An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima-facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

7. I understand that a "person" as defined in §287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which binds or applies to bids on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

8. Based on the information and belief, the statement that I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies)

   a. X Neither the entity submitting the sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity nor any affiliate of the entity have been charged with and convicted of a public entity crime subsequent to July 1, 1989.

   b. ____The entity submitting this sworn statement, or one or more of the officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989, and (Please indicate which additional statement applies)

      1) ____There has been a proceeding concerning the conviction before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. (Please attach a copy of the final order)

      2) ____The person or affiliate was placed on the convicted list. There has been a subsequent proceeding before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or

affiliate from the convicted vendor list. (Please attach a copy of the final order)

3) ____The person or affiliate has not been placed on the convicted vendor list. (Please describe any action taken by or pending with the Department of General Services)

DISPUTE DISCLOSURE

Answer the following questions by placing an "X" after "Yes" or "No". If you answer "Yes", please explain in the space provided, or on a separate sheet attached to this form.

1. Has your firm or any of its officers, received a reprimand of any nature or been suspended by the Department of Professional Regulations or any other regulatory agency or professional associations within the last five (5) years?

YES _____ NO X

2. Has your firm, or any member of your firm, been declared in default, terminated or removed from a contract or job related to the services your firm provides in the regular course of business within the last five (5) years?

YES _____ NO X

3. Has your firm had against it or filed any requests for equitable adjustment, contract claims, Bid protests, or litigation in the past five (5) years that is related to the services your firm provides in the regular course of business?

YES _____ NO X

If yes, state the nature of the request for equitable adjustment, contract claim, litigation, or protest, and state a brief description of the case, the outcome or status of the suit and the monetary amounts of extended contract time involved.

I hereby certify that all statements made are true and agree and understand that any misstatement or misrepresentation of falsification of facts shall be cause for forfeiture of rights for further consideration of this Bid for the Village of Key Biscayne.

VILLAGE OF KEY BISCAYNE

BIDDER'S REPRESENTATION

VILLAGE OF KEY BISCAYNE SPECIAL EVENTS RENTAL SUPPLIES

Proposal of MEGA PARTY EVENTS, INC

(Name)

22840 S DIXIE HWY MIAMI, FL 33170

(Address)

to furnish all materials, equipment, and labor and to perform all work in accordance with the Contract Documents for:

VILLAGE OF KEY BISCAYNE SPECIAL EVENTS RENTAL SUPPLIES
("THE PROJECT")

TO: Village of Key Biscayne
Attn: Village Clerk
88 West McIntyre Street, Suite 220
Key Biscayne, Florida 33149

The undersigned, as Bidder, hereby declares that the only person or persons interested in the Bid, as principal or principals, is or are named herein and that no other person than herein mentioned has any interests in the Bid or the Contract to which the Work pertains; that this Bid is made without connection or arrangement with any other person, company, or parties making Bids or Proposals and that the Bid is in all respects fair and made in good faith without collusion or fraud.

The Bidder further declares that he or she has examined the geographic location and sites of the Work; that he has made sufficient investigations to fully satisfy himself that such sites are suitable for this Work; and he assumes full responsibility therefore; that he has examined the specifications for the Work and from his own experience or from professional advice that the specifications are sufficient for the Work to be done and he has examined the other Contract Documents relating thereto, including the Instructions to Bidders, the Contract, Bid, Detailed Scope of Work/Specifications, Qualification Statement, Public Entity Crime Form, and Insurance requirements

and he has read all addenda prior to the opening of Bids, and that he has satisfied himself fully, relative to all matters and conditions with respect to the Work to which this Bid pertains.

The Bidder proposes and agrees, if this Bid is accepted, to timely execute the Contract with the Village in the form attached and to furnish all necessary materials, all equipment, all necessary machinery, tools, apparatus, means of transportation, and labor necessary to complete the Work specified in the Bid and the Contract, and called for by the drawings and specifications and in the manner specified and to timely submit all required bonds and insurance certificates.
NOTE: THIS SCHEDULE OF BID ITEMS IS MERELY ILLUSTRATIVE OF THE MINIMUM AMOUNT/QUANTITY OF WORK TO BE PERFORMED UNDER THE CONTRACT. IN THE CASE OF ANY CONFLICT BETWEEN THIS SCHEDULE OF BID ITEMS AND THE DETAILED SPECIFICATIONS, THE DETAILED SPECIFICATIONS WILL PREVAIL.

The Bidder further proposes and agrees to comply in all respects with the time limits for commencement and completion of the Work as stated in the Contract.

The Bidder agrees to execute the Contract and furnish the executed Contract, all required bonds, insurance certificates, and other required information to Village within ten (10) ten calendar days after written notice of the Award of Contract. Failure on the part of the Bidder to timely comply with this provision shall give Village all rights and remedies set forth in the Instructions to Bidders.

The undersigned agrees to accept as full compensation therefore the total of the lump sum prices and extended unit prices items named in the following schedule. It is understood that the unit prices quoted or established for a particular item are to be used for computing the amount to be paid to the Contractor, based on the Work actually performed as determined by the Contract and the Village. However, in utilizing the schedule, the Bidder agrees that in no event shall compensation paid to the Bidder under the Contract exceed the dollar amount of the Bidder's Bid amount, as set forth in the attached Bid.

It is intended that all Work to be performed under this Bid shall commence approximately thirty (30) days after Contract execution.

In no event shall Village be obligated to pay for Work not performed or materials not furnished. Bidder's

Certificate of Competency No._____

AFFIDAVIT REGARDING PROHIBITION ON CONTRACTING WITH ENTITIES OF FOREIGN COUNTRIES$$ OF CONCERN

Pursuant to Section 287.138, Florida Statutes (which is expressly incorporated herein by reference), a governmental entity may not knowingly enter into a contract with an entity which would give access to an individual's personal identifying information if (a) the entity is owned by ethe government of a foreign country of concern; (b) the government of a foreign country of concern has a controlling interest in the entity; or (c) the entity is organized under the laws of or has its principal place of business in a foreign country of concern.

This affidavit must be completed by an officer or representative of an entity submitting a bid, proposal, or reply to, or entering into, renewing, or extending, a contract with a governmental entity which would grant the entity access to an individual's personal identifying information.

1. MEGA PARTY EVENTS, INC ("entity") does not meet any of the criteria in paragraphs (2)(a)-(c) of Section 287.138, F.S.

Village Council
Joe I. Rasco, *Mayor*
Oscar Sardiñas, *Vice Mayor*
Michael F. Bracken
Franklin H. Caplan
Edward London
Nancy Stoner
Fernando A. Vazquez

Village Manager
Steven C. Williamson

MEMORANDUM

DATE: August 19, 2025

TO: Honorable Mayor and Councilmembers

FROM: Steven C. Williamson, Village Manager

RE: Mechanical Rides, Inflatables, and Entertainment Services Contract Agreements

RECOMMENDATION

Recommend the Village Council authorize the Village Manager to negotiate and enter into agreements with Event Max – Braxus Industries LLC. and Mega Party Events Inc. for the provision of mechanical rides, inflatables, and entertainment services. The proposed agreements will be for an initial three (3) year term, with two (2) optional one-year extensions, in amounts not to exceed the approved annual budget.

DISCUSSION

Purpose: These agreements will support the Village's ability to host engaging, family-friendly public events by contracting with qualified vendors to provide mechanical rides, inflatables, and a variety of entertainers. These services enhance the overall community experience and are key components of the Village's seasonal festivals, youth activities, and cultural events. Vendors are expected to deliver, set up, operate, and remove all equipment, while ensuring compliance with safety, licensing, and insurance requirements.

Background: To maintain a high standard of service and value, the Village issued Request for Quotations No. 25-02 on June 17, 2025, soliciting proposals from licensed providers of mechanical rides, inflatables, and entertainment services. The RFQT was publicly advertised on the Village website, Notice Board, DemandStar, and the *Miami Herald*. Proposals were due by July 18, 2025, and four proposals were received.

After a thorough review by Procurement staff, Event Max – Braxus Industries LLC. and Mega Party Events Inc. were determined to be the most responsive and responsible vendors. Both firms met all qualification criteria and submitted complete proposals with proper licensing, insurance, certifications, and references.

Justification: Event Max – Braxus Industries LLC. and Mega Party Events Inc. demonstrated the strongest overall compliance with the RFQT requirements, providing competitive pricing and solid references. While Mega Party Events Inc. submitted the lowest bid, Event Max – Braxus Industries LLC. offered comparable value and has extensive experience. Both vendors have a

diverse inventory and a proven track record of safe and professional service delivery. The recommendation ensures the Village has reliable partners in place to support its growing slate of events and community programs.

Implementation/Integration Plan: Upon execution of the agreements, the Village will continue working with Mega Party Events Inc., a vendor previously used for similar services. Event Max – Braxus Industries LLC., which recently acquired All Star Events, a company that had previously provided services for many of the Village's major events will be integrated into the Village's event planning and logistics schedule. Parks and Recreation staff will coordinate directly with both vendors to ensure timely setup, adherence to safety protocols, and delivery of high-quality customer service.

RESOURCE IMPACT

Recurring Funding: Expenses will remain within budget funding allocations of $85,000

Personnel: PROS staff will continue to coordinate and manage vendor logistics and event operations.

FUNDING SOURCES

Production services are funded through multiple Parks Department line items for community and cultural programming and events.

RESOLUTION NO. 2025-_____

A RESOLUTION OF THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, SELECTING BRAXUS INDUSTRIES LLC D/B/A EVENT MAX AND MEGA PARTY EVENTS INC. FOR MECHANICAL RIDES, INFLATABLES, AND ENTERTAINMENT SERVICES; PROVIDING FOR AUTHORIZATION; PROVIDING FOR IMPLEMENTATION; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, on June 17, 2025, the Village of Key Biscayne (the "Village") issued Request for Quotations No. 25-02 (the "RFQT") requesting bids for the provision of mechanical rides, inflatables, and a variety of entertainers (the "Services") for the Village's seasonal festivals, youth activities, and cultural events; and

WHEREAS, two responsive sealed bids were received by the RFQT deadline; and

WHEREAS, Braxus Industries LLC d/b/a Event Max ("Event Max") and Mega Party Events Inc. ("MPE") (collectively, the "Contractors") submitted quotes to provide the Services in an amount not to exceed $49,985 and $44,235 annually, respectively; and

WHEREAS, the Village Manager recommends that the Village Council select the Contractors for the provision of the Services; and

WHEREAS, the Village Council desires to select the Contractors to perform the Services and authorize the Village Manager to negotiate and execute an agreement, in substantially the form attached hereto as Exhibit "A," with Event Max and MPE in an amount not to exceed $49,985 and $44,235 annually, respectively; and

WHEREAS, the Village Council finds that this Resolution is in the best interest and welfare of the residents of the Village.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, AS FOLLOWS:

Section 1. **Recitals.** That each of the above-stated recitals are hereby adopted, confirmed, and incorporated herein.

Section 2. **Selection.** That the Village Council hereby selects the Contractors for the Services.

Section 3. **Authorization.** That the Village Council hereby authorizes the Village Manager to negotiate and execute an agreement with Event Max and MPE, in substantially the form attached hereto as Exhibit "A," in an amount not to exceed $49,985 and $44,235 annually, respectively, subject to the final approval of the Village Attorney as to form, content, and legal sufficiency.

Section 4. **Implementation.** That the Village Manager and Village Attorney are hereby authorized to take such further action as may be necessary to implement the purpose and provisions of this Resolution.

Section 5. **Effective Date.** That this Resolution shall be effective immediately upon adoption.

PASSED and ADOPTED this _____ day of _____, 2025.

PROFESSIONAL SERVICES AGREEMENT

BETWEEN

THE VILLAGE OF KEY BISCAYNE

AND

NAME OF ENTITY

THIS AGREEMENT (this "Agreement") is made effective as of the _____ day of _____, 2025 (the "Effective Date"), by and between the **VILLAGE OF KEY BISCAYNE, FLORIDA,** a Florida municipal corporation, (the "Village"), and **NAME OF ENTITY**, a Florida [type of entity] (hereinafter, the "Consultant").

WHEREAS, on June 17, 2025, the Village issued Request for Quotations No. 25-02 (the "RFQT") requesting bids for the provision of mechanical rides, inflatables, and a variety of entertainers for the Village's seasonal festivals, youth activities, and cultural events (the "Services"), all as set forth in greater detail in the Scope of Services attached hereto as Exhibit "A"; and

WHEREAS, on August 19, 2025, the Village Council adopted Resolution No. 2025-XX, selecting the Contractor for the provision of the Services; and

WHEREAS, the Consultant will perform the Services on behalf of the Village, all as further set forth in the Proposal, attached hereto as Exhibit "B"; and

WHEREAS, compensation for the provision of the Services shall be in accordance with the Rate Schedule attached hereto as Exhibit "C"; and

WHEREAS, the Village desires to engage the Consultant to perform the Services and provide the deliverables as specified below.

NOW, THEREFORE, in consideration of the mutual covenants and conditions contained herein, the Consultant and the Village agree as follows:

1. **Scope of Services.**

1.1. Consultant shall provide the Services set forth in the Scope of Services and the Consultant's Proposal attached hereto as Exhibits "A" and "B," respectively, and incorporated herein by this reference.

1.2. Consultant shall furnish all reports, documents, and information obtained pursuant to this Agreement, and recommendations during the term of this Agreement (hereinafter "Deliverables") to the Village.

2. **Term/Commencement Date.**

2.1. The term of this Agreement shall be from the Effective Date through three years thereafter, unless earlier terminated in accordance with Paragraph 8. Additionally, the Village

Manager may renew this Agreement for two additional one year periods on the same terms as set forth herein upon written notice to the Consultant.

2.2. Consultant agrees that time is of the essence and Consultant shall complete the Services within the term of this Agreement, unless extended by the Village Manager.

3. Compensation and Payment.

3.1. Compensation for Services provided by Consultant shall be in accordance with Rate Schedule attached hereto as Exhibit "C."

3.2. Consultant shall deliver an invoice to Village no more often than once per month detailing Services completed and the amount due to Consultant under this Agreement. Fees shall be paid in arrears each month, pursuant to Consultant's invoice, which shall be based upon the percentage of work completed for each task invoiced. The Village shall pay the Consultant in accordance with the Florida Prompt Payment Act after approval and acceptance of the Services by the Village Manager.

3.3. Contractor's invoices must contain the following information for prompt payment:

3.3.1. Name and address of the Consultant;

3.3.2. Purchase Order number;

3.3.3. Contract number;

3.3.4. Date of invoice;

3.3.5. Invoice number (Invoice numbers cannot be repeated. Repeated invoice numbers will be rejected);

3.3.6. Name and type of Services;

3.3.7. Timeframe covered by the invoice; and

3.3.8. Total value of invoice.

Failure to include the above information will result in the delay of payment or rejection of the invoice. All invoices must be submitted electronically to payables@keybiscayne.fl.gov.

4. Subconsultants.

4.1. The Consultant shall be responsible for all payments to any subconsultants and shall maintain responsibility for all work related to the Services.

4.2. Consultant may only utilize the services of a particular subconsultant with the prior written approval of the Village Manager, which approval may be granted or withheld in the Village Manager's sole and absolute discretion.

5. Village's Responsibilities.

DRAFT

5.1. Village shall make available any maps, plans, existing studies, reports, staff and representatives, and other data pertinent to the Services and in possession of the Village, and provide criteria requested by Consultant to assist Consultant in performing the Services.

5.2. Upon Consultant's request, Village shall reasonably cooperate in arranging access to public information that may be required for Consultant to perform the Services.

6. Consultant's Responsibilities; Representations and Warranties.

6.1. The Consultant shall exercise the same degree of care, skill and diligence in the performance of the Services as is ordinarily provided by a consultant under similar circumstances. If at any time during the term of this Agreement or within two (2) years from the completion of this Agreement, it is determined that the Consultant's Deliverables or Services are incorrect, not properly rendered, defective, or fail to conform to Village requests, the Consultant shall at Consultant's sole expense, immediately correct its Deliverables or Services.

6.2. The Consultant hereby warrants and represents that at all times during the term of this Agreement it shall maintain in good standing all required licenses, certifications and permits required under Federal, State and local laws applicable to and necessary to perform the Services for Village as an independent contractor of the Village. Consultant further warrants and represents that it has the required knowledge, expertise, and experience to perform the Services and carry out its obligations under this Agreement in a professional and first class manner.

6.3. The Consultant represents that is an entity validly existing and in good standing under the laws of Florida. The execution, delivery and performance of this Agreement by Consultant have been duly authorized, and this Agreement is binding on Consultant and enforceable against Consultant in accordance with its terms. No consent of any other person or entity to such execution, delivery and performance is required.

7. Conflict of Interest.

7.1. To avoid any conflict of interest or any appearance thereof, Consultant shall not, for the term of this Agreement, provide any consulting services to any private sector entities (developers, corporations, real estate investors, etc.), with any current, or foreseeable, adversarial issues in the Village.

8. Termination.

8.1. The Village Manager, without cause, may terminate this Agreement upon five (5) calendar days' written notice to the Consultant, or immediately with cause.

8.2. Upon receipt of the Village's written notice of termination, Consultant shall immediately stop work on the project unless directed otherwise by the Village Manager.

DRAFT

8.3. In the event of termination by the Village, the Consultant shall be paid for all work accepted by the Village Manager up to the date of termination, provided that the Consultant has first complied with the provisions of Paragraph 8.4.

8.4. The Consultant shall transfer all books, records, reports, working drafts, documents, maps, and data pertaining to the Services and the project to the Village, in a hard copy and electronic format within fourteen (14) days from the date of the written notice of termination or the date of expiration of this Agreement.

9. Insurance.

9.1. Consultant shall secure and maintain throughout the duration of this agreement insurance of such types and in such amounts not less than those specified below as satisfactory to Village, naming the Village as an Additional Insured, underwritten by a firm rated A-X or better by A.M. Best and qualified to do business in the State of Florida. The insurance coverage shall be primary insurance with respect to the Village, its officials, employees, agents, and volunteers naming the Village as additional insured. Any insurance maintained by the Village shall be in excess of the Consultant's insurance and shall not contribute to the Consultant's insurance. The insurance coverages shall include at a minimum the amounts set forth in this section and may be increased by the Village as it deems necessary or prudent.

9.1.1. Commercial General Liability coverage with limits of liability of not less than a $1,000,000 per Occurrence combined single limit for Bodily Injury and Property Damage. This Liability Insurance shall also include Completed Operations and Product Liability coverages and eliminate the exclusion with respect to property under the care, custody and control of Consultant. The General Aggregate Liability limit and the Products/Completed Operations Liability Aggregate limit shall be in the amount of $2,000,000 each.

9.1.2. Workers Compensation and Employer's Liability insurance, to apply for all employees for statutory limits as required by applicable State and Federal laws. The policy(ies) must include Employer's Liability with minimum limits of $1,000,000.00 each accident. No employee, subcontractor or agent of the Consultant shall be allowed to provide Services pursuant to this Agreement who is not covered by Worker's Compensation insurance.

9.1.3. Business Automobile Liability with minimum limits of $1,000,000 per occurrence, combined single limit for Bodily Injury and Property Damage. Coverage must be afforded on a form no more restrictive than the latest edition of the Business Automobile Liability policy, without restrictive endorsements, as filed by the Insurance Service Office, and must include Owned, Hired, and Non-Owned Vehicles.

9.1.4. Professional Liability Insurance in an amount of not less than One Million Dollars ($1,000,000.00) per occurrence, single limit.

9.2. Certificate of Insurance. Certificates of Insurance shall be provided to the Village, reflecting the Village as an Additional Insured (except with respect to Professional Liability Insurance and Worker's Compensation Insurance), no later than ten (10) days

DRAFT

after award of this Agreement and prior to the execution of this Agreement by Village and prior to commencing Services. Each certificate shall include no less than (30) thirty-day advance written notice to Village prior to cancellation, termination, or material alteration of said policies or insurance. The Consultant shall be responsible for assuring that the insurance certificates required by this Section remain in full force and effect for the duration of this Agreement, including any extensions or renewals that may be granted by the Village. The Certificates of Insurance shall not only name the types of policy(ies) provided, but also shall refer specifically to this Agreement and shall state that such insurance is as required by this Agreement. The Village reserves the right to inspect and return a certified copy of such policies, upon written request by the Village. If a policy is due to expire prior to the completion of the Services, renewal Certificates of Insurance shall be furnished thirty (30) calendar days prior to the date of their policy expiration. Each policy certificate shall be endorsed with a provision that not less than thirty (30) calendar days' written notice shall be provided to the Village before any policy or coverage is cancelled or restricted. Acceptance of the Certificate(s) is subject to approval of the Village.

9.3. **Additional Insured.** Except with respect to Professional Liability Insurance and Worker's Compensation Insurance**,** the Village is to be specifically included as an Additional Insured for the liability of the Village resulting from Services performed by or on behalf of the Consultant in performance of this Agreement. The Consultant's insurance, including that applicable to the Village as an Additional Insured, shall apply on a primary basis and any other insurance maintained by the Village shall be in excess of and shall not contribute to the Consultant's insurance. The Consultant's insurance shall contain a severability of interest provision providing that, except with respect to the total limits of liability, the insurance shall apply to each Insured or Additional Insured (for applicable policies) in the same manner as if separate policies had been issued to each.

9.4. **Deductibles.** All deductibles or self-insured retentions must be declared to and be reasonably approved by the Village. The Consultant shall be responsible for the payment of any deductible or self-insured retentions in the event of any claim.

9.5. The provisions of this section shall survive termination of this Agreement.

10. **Nondiscrimination.** During the term of this Agreement, Consultant shall not discriminate against any of its employees or applicants for employment because of their race, color, religion, sex, or national origin, and will abide by all Federal and State laws regarding nondiscrimination.

11. **Attorneys Fees and Waiver of Jury Trial.**

11.1. In the event of any litigation arising out of this Agreement, the prevailing party shall be entitled to recover its attorneys' fees and costs, including the fees and expenses of any paralegals, law clerks and legal assistants, and including fees and expenses charged for representation at both the trial and appellate levels.

11.2. IN THE EVENT OF ANY LITIGATION ARISING OUT OF THIS AGREEMENT, EACH PARTY HEREBY KNOWINGLY, IRREVOCABLY,

VOLUNTARILY AND INTENTIONALLY WAIVES ITS RIGHT TO TRIAL BY JURY.

12. Indemnification.

12.1. Consultant shall indemnify and hold harmless the Village, its officers, agents and employees, from and against any and all demands, claims, losses, suits, liabilities, causes of action, judgment or damages, arising from Consultant's performance or non-performance of any provision of this Agreement, including, but not limited to, liabilities arising from contracts between the Consultant and third parties made pursuant to this Agreement. Consultant shall reimburse the Village for all its expenses including reasonable attorneys' fees and costs incurred in and about the defense of any such claim or investigation and for any judgment or damages arising from Consultant's performance or non-performance of this Agreement.

12.2. Nothing herein is intended to serve as a waiver of sovereign immunity by the Village nor shall anything included herein be construed as consent to be sued by third parties in any matter arising out of this Agreement or any other contract. The Village is subject to section 768.28, Florida Statutes, as may be amended from time to time.

12.3. The provisions of this section shall survive termination of this Agreement.

13. Notices/Authorized Representatives. Any notices required by this Agreement shall be in writing and shall be deemed to have been properly given if transmitted by hand-delivery, by registered or certified mail with postage prepaid return receipt requested, or by a private postal service, addressed to the parties (or their successors) at the addresses listed on the signature page of this Agreement or such other address as the party may have designated by proper notice.

14. Governing Law and Venue. This Agreement shall be construed in accordance with and governed by the laws of the State of Florida. Venue for any proceedings arising out of this Agreement shall be proper exclusively in Miami-Dade County, Florida.

15. Entire Agreement/Modification/Amendment.

15.1. This writing contains the entire Agreement of the parties and supersedes any prior oral or written representations. No representations were made or relied upon by either party, other than those that are expressly set forth herein.

15.2. No agent, employee, or other representative of either party is empowered to modify or amend the terms of this Agreement, unless executed with the same formality as this document.

16. Ownership and Access to Records and Audits.

16.1. Consultant acknowledges that all inventions, innovations, improvements, developments, methods, designs, analyses, drawings, reports, compiled information, and all similar or related information (whether patentable or not) which relate to Services to the Village which are conceived, developed or made by Consultant during the term of this

Agreement ("Work Product") belong to the Village. Consultant shall promptly disclose such Work Product to the Village and perform all actions reasonably requested by the Village (whether during or after the term of this Agreement) to establish and confirm such ownership (including, without limitation, assignments, powers of attorney and other instruments).

16.2. Consultant agrees to keep and maintain public records in Consultant's possession or control in connection with Consultant's performance under this Agreement. The Village Manager or her designee shall, during the term of this Agreement and for a period of three (3) years from the date of termination of this Agreement, have access to and the right to examine and audit any records of the Consultant involving transactions related to this Agreement. Consultant additionally agrees to comply specifically with the provisions of Section 119.0701, Florida Statutes. Consultant shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed, except as authorized by law, for the duration of the Agreement, and following completion of the Agreement until the records are transferred to the Village.

16.3. Upon request from the Village's custodian of public records, Consultant shall provide the Village with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided by Chapter 119, Florida Statutes, or as otherwise provided by law.

16.4. Unless otherwise provided by law, any and all records, including but not limited to reports, surveys, and other data and documents provided or created in connection with this Agreement are and shall remain the property of the Village.

16.5. Upon completion of this Agreement or in the event of termination by either party, any and all public records relating to the Agreement in the possession of the Consultant shall be delivered by the Consultant to the Village Manager, at no cost to the Village, within seven (7) days. All such records stored electronically by Consultant shall be delivered to the Village in a format that is compatible with the Village's information technology systems. Once the public records have been delivered upon completion or termination of this Agreement, the Consultant shall destroy any and all duplicate public records that are exempt or confidential and exempt from public records disclosure requirements.

16.6. Any compensation due to Consultant shall be withheld until all records are received as provided herein.

16.7. Consultant's failure or refusal to comply with the provisions of this section shall result in the immediate termination of this Agreement by the Village.

16.8. **Notice Pursuant to Section 119.0701(2)(a), Florida Statutes. IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS.**

17. **Nonassignability.** This Agreement shall not be assignable by Consultant unless such assignment is first approved by the Village Manager. The Village is relying upon the apparent qualifications and expertise of the Consultant, and such firm's familiarity with the Village's area, circumstances and desires.

18. **Severability.** If any term or provision of this Agreement shall to any extent be held invalid or unenforceable, the remainder of this Agreement shall not be affected thereby, and each remaining term and provision of this Agreement shall be valid and be enforceable to the fullest extent permitted by law.

19. **Independent Contractor.** The Consultant and its employees, volunteers and agents shall be and remain an independent contractor and not an agent or employee of the Village with respect to all of the acts and services performed by and under the terms of this Agreement. This Agreement shall not in any way be construed to create a partnership, association or any other kind of joint undertaking, enterprise or venture between the parties.

20. **Compliance with Laws.**

    20.1. The Consultant shall comply with all applicable laws, ordinances, rules, regulations, and lawful orders of public authorities in carrying out Services under this Agreement, and in particular shall obtain all required permits from all jurisdictional agencies to perform the Services under this Agreement at its own expense.

    20.2. Background Checks. Prior to the execution of this Agreement, the Consultant must undergo a Level II/Vechs screening and background check for the Consultant, its officials, agents, employees, subcontractors, volunteers, or other individuals engaged in providing the Services under this Agreement. The Consultant shall be responsible for updating the Village in writing with any additions and deletions of the individuals authorized to provide Services under this Agreement. In the event that additional individuals are authorized to perform such Services, the Consultant must ensure that such additional individual(s) undergo a Level II/Vechs screening and background check prior to such individual commencing such Services. It shall be in the Village's complete and sole discretion as to whether the type of check and the results are acceptable pursuant to and in accordance with the Village's policies. Failure to comply with the provisions of this Section shall be grounds for terminating this Agreement for cause.

21. **Waiver.** The failure of either party to this Agreement to object to or to take affirmative action with respect to any conduct of the other which is in violation of the terms of this Agreement shall not be construed as a waiver of the violation or breach, or of any future violation, breach or wrongful conduct.

22. **Survival of Provisions.** Any terms or conditions of either this Agreement that require acts beyond the date of the term of the Agreement, shall survive termination of the Agreement, shall remain in full force and effect unless and until the terms or conditions are completed and shall be fully enforceable by either party.

23. **Prohibition of Contingency Fees.** The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant, to solicit or secure this Agreement, and that it has not paid or agreed to pay any person(s), company, corporation, individual or firm, other than a bona fide employee working solely for the Consultant, any fee, commission, percentage, gift, or any other consideration, contingent upon or resulting from the award or making of this Agreement.

24. **State Required Affidavits.** By entering into this Agreement, the Consultant agrees to review and comply with the following state affidavit requirements:

    24.1. Public Entity Crimes Affidavit. Consultant shall comply with Section 287.133, Florida Statutes (Public Entity Crimes Statute), notification of which is hereby incorporated herein by reference, including execution of any required affidavit.

    24.2. Scrutinized Companies. Consultant certifies that it is not on the Scrutinized Companies that Boycott Israel List or engaged in a boycott of Israel. Pursuant to section 287.135, Florida Statues, the Village may immediately terminate this Agreement at its sole option if the Consultant is found to have submitted a false certification; or if the Consultant is placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement. If this Agreement is for more than one million dollars, the Consultant certifies that it is also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Terrorism Sectors List, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, Florida Statutes. Pursuant to Section 287.135, Florida Statutes, the Village may immediately terminate this Agreement at its sole option if the Consultant is found to have submitted a false certification; or if the Consultant is placed on the Scrutinized Companies with Activities in Sudan List, Scrutinized Companies with Activities in the Iran Terrorism Sectors List, Scrutinized Companies with Activities in Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

    24.3. E-Verify Affidavit. In accordance with Section 448.095, Florida Statutes, the Village requires all contractors doing business with the Village to register with and use the E-Verify system to verify the work authorization status of all newly hired employees. The Village will not enter into a contract unless each party to the contract registers with and uses the E-Verify system. The contracting entity must provide of its proof of enrollment in E-Verify. For instructions on how to provide proof of the contracting entity's participation/enrollment in E-Verify, please visit: https://www.e-verify.gov/faq/how-do-i-provide-proof-of-my-participationenrollment-in-e-verify. By entering into this Agreement, the Consultant acknowledges that it has read Section 448.095, Florida Statutes; will comply with the E-Verify requirements imposed by Section 448.095, Florida Statutes, including but not limited to obtaining E-Verify affidavits from subcontractors; and has executed the required affidavit attached hereto and incorporated herein.

24.4. Noncoercive Conduct Affidavit. Pursuant to Section 787.06, Florida Statutes, a nongovernmental entity executing, renewing, or extending a contract with a governmental entity is required to provide an affidavit, signed by an officer or a representative of the nongovernmental entity under penalty of perjury, attesting that the nongovernmental entity does not use coercion for labor or services as defined in Section 787.06(2)(a), Florida Statutes. By entering into this Agreement, the Consultant acknowledges that it has read Section 787.06, Florida Statutes, and will comply with the requirements therein, and has executed the required affidavit attached hereto and incorporated herein.

24.5. Prohibition on Contracting with Entities of Foreign Concern. Pursuant to Section 287.138, Florida Statutes (which is expressly incorporated herein by reference), a governmental entity may not knowingly enter into a contract with an entity which would give access to an individual's personal identifying information if (a) the entity is owned by the government of a foreign country of concern; (b) the government of a foreign country of concern has a controlling interest in the entity; or (c) the entity is organized under the laws of or has its principal place of business in a foreign country of concern. By entering into this Agreement, the Consultant acknowledges that it has read Section 287.138, Florida Statutes, and complies with the requirements therein, and has executed the required affidavit attached hereto and incorporated herein.

25. Counterparts. This Agreement may be executed in several counterparts, each of which shall be deemed an original and such counterparts shall constitute one and the same instrument.

26. Conflicts; Order of Priority. This document without exhibits is referred to as the "Base Agreement." In the event of a conflict between the terms of this Base Agreement and any exhibits or attachments hereto, or any documents incorporated herein by reference, the conflict shall be resolved in the following order of priorities and the more stringent criteria for performance of the Services shall apply:

26.1. First Priority: this Base Agreement;
26.2. Second Priority: Change Orders with later date taking precedence;
26.3. Third Priority: Exhibit C – Rate Schedule;
26.4. Fourth Priority: Exhibit A – Scope of Services;
26.5. Fifth Priority: Exhibit B – Contractor's Proposal; and
26.6. Sixth Priority: Statement of Work, with later date taking precedence.

MEMORANDUM

DATE: July 25, 2025

TO: Steven Williamson – Village Manager
CC: Benjamin Nussbaum – Village Chief Financial Officer
Todd Hofferberth – PROS Director

FROM: Daren Jairam, Procurement Officer

RE: Procurement Recommendation to Award for RFQT No. 25-02 Village of Key Biscayne Mechanical Rides, Inflatables and Entertainment Services.

RECOMMENDATION

It is recommended the Village Manager negotiate an agreement with **Event Max – Braxus Industries LLC. and Mega Party Events Inc.**, the two most responsive responsible bids for Village of Key Biscayne Special Events Rental Supplies. The proposed agreement will be for a three (3) year term with two (2) optional one-year extensions.

BACKGROUND

In accordance with government procurement best practices, and as part of a larger effort to ensure best value and promote fair and open competition for Village contracts, the decision was made to go out to market for these services.

The Village issued a Request for Quotations (RFQT) on June 17, 2025. The RFQT was posted to the Village's website and Notice Board, DemandStar and Miami Herald.

The RFQT allows potential vendors to submit their best price specific to the scope of services. The vendor with the lowest bid, most responsive and responsible is recommended to the Village Manage and Council to be awarded. If the recommended vendor isn't the lowest bid a justification is given explaining why the vendor wasn't chosen.

SCOPE OF WORK

The Village of Key Biscayne seeks qualified, licensed amusement event companies that can supply high-quality carnival rides, inflatables, and entertainers to support the diverse needs of events hosted by the Village of Key Biscayne. By partnering with experienced amusement event providers, the Village aims to create comfortable and functional event spaces that accommodate attendees and enhance their overall experience to support the diverse needs of events hosted by the Village as defined in the Scope of Work.

Contractor shall provide all necessary labor, materials, and equipment for servicing the Village facilities as specified herein in full accordance with the specifications, terms and conditions contained in the Request for Quotation (RFQT).

To qualify for award, prospective Proposers were required to:

88 West McIntyre Street • Key Biscayne, Florida 33149 (305) 365-5511 • www.keybiscayne.fl.gov
MISSION STATEMENT: "TO PROVIDE A SAFE, QUALITY COMMUNITY ENVIRONMENT FOR ALL ISLANDERS THROUGH RESPONSIBLE GOVERNMENT."

Docusign Envelope ID: 29941160-AC88-402A-B507-75BCCEF08E55

A. Have extensive experience in supplying mechanical rides, inflatables, and entertainers for events of varying scales and formats.
B. Must have a diverse inventory, be reliable and responsive according to specified guidelines.
C. Committed to quality assurance and excellent customer service skills.
D. Be a licensed, permitted, certifications and insured vendor/business in the State of Florida.

EVALUATION AND RANKING PROCESS

On July 18, 2025, four (4) bids were received from the following contractors:

No.	Proposer	Years Experience	Total Cost
1.	Event Max – Braxus Industries LLC.	15	$ 49,985.00
2.	Kids Fairland LLC.	25	$ 73,196.00
3.	Mega Party Events Inc.	21	$ 44,235.00
4.	Social Crafting LLC.	8	Non-Responsive

Procurement conducted a due diligence review of all submitted bids to assess responsiveness and responsibility. Social Crafting LLC. was non-responsive for not meeting specifications of the RFQT. Among the bidders, **Event Max – Braxus Industries LLC. and Mega Party Events Inc.** was determined to be the most responsive and responsible. The companies are appropriately licensed, meet all qualification requirements, and provide the necessary certifications and strong references. No issues were identified that would suggest any of the responsive proposers were incapable of performing the required services.

RECOMMENDATION

It is recommended that the Village Manager execute a contract, substantially in the form attached as Exhibit A, with the most responsive, responsible Bidder – **Event Max – Braxus Industries LLC. and Mega Party Events Inc.**

In the event an agreement cannot be reached with the Bidder, it is further recommended that the Village Manager terminate negotiations with that firm and proceed to go back out to Bidder.

FORM 6A

SINGLE EXECUTION AFFIDAVITS

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS.

THIS FORM COMBINES SEVERAL AFFIDAVIT STATEMENTS TO BE SWORN TO BY THE PROPOSER OR BIDDER AND NOTARIZED BELOW. IN THE EVENT THE PROPOSER OR BIDDER CANNOT SWEAR TO ANY OF THESE AFFIDAVIT STATEMENTS, THE PROPOSER OR BIDDER IS DEEMED TO BE NON-RESPONSIBLE AND IS NOT ELIGIBLE TO SUBMIT A PROPOSAL/BID.

THESE SINGLE EXECUTION AFFIDAVITS ARE SUBMITTED TO THE VILLAGE OF KEY BISCAYNE AND ARE STATEMENTS MADE:

By: Danny Morera

For (Name of Proposing or Bidding Entity). Braxus Industries LLC DBA Event MAX

Whose business address is: 13050 NW 43 Ave Opa Locka, FL 33054

And (if applicable) its Federal Employer Identification Number (FEIN) is: _____

(if the entity does not have an FEIN, include the Social Security Number of the individual signing this sworn statement. SS#:_____)

Americans with Disabilities Act Compliance Affidavit

The above-named firm, corporation or organization is in compliance with and agrees to continue to comply with, and assure that any subcontractor, or third-party contractor under this project complies with all applicable requirements of the laws listed below including, but not limited to, those provisions pertaining to employment, provision of programs and services, transportation, communications, access to facilities, renovations, and new construction.

- The American with Disabilities Act of 1990 (ADA), Pub. L. 101-336, 104 Stat 327, 42 USC 1210112213 and 47 USC Sections 225 and 661 including Title I, Employment; Title II, Public Services; Title III, Public Accommodations and Services Operated by Private entities; Title IV, Telecommunications; and Title V, Miscellaneous Provisions.
- The Florida Americans with Disabilities Accessibility Implementation Act of 1993, Section 553.501-553.513, Florida Statutes:
- The Rehabilitation Act of 1973, 229 USC Section 794;
- The Federal Transit Act, as amended 49 USC Section 1612;
- The Fair Housing Act as amended 42 USC Section 3601-3631.

DM
Proposer Initials

Public Entity Crimes Affidavit

I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentations.

I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime; or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, and partners, shareholders, employees, members, and agents who are active in management of an entity.

Based on information and belief, the statement, which I have marked below, is true in relations to the entity submitting this sworn statement.

(INDICATE WHICH STATEMENT APPLIES.)

[✓] Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with ad convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives partners, shareholders, employees, members, or agents who are active in the management of the entity,

or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida , Division of Administrative Hearings and the final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list (attach a copy of the final order).

I understand that the submission of this form to the contracting officer for the public entity identified in paragraph 1 above is for that public entity only and that this form is valid through December 31 of the calendar year in which it is filed. I also understand that I am required to inform the public entity prior to entering into a contract in excess of the threshold amount provided in Section 287.017, Florida Statutes for category two of any change in the information contained in this form.

_____
Proposer Initials

No Conflict of Interest or Contingent Fee Affidavit

Proposer warrants that neither it nor any principal, employee, agent, representative nor family member has paid or will pay any fee or consideration that is contingent on the award or execution of a contract arising out of this solicitation. Proposer also warrants that neither it nor any principal, employee, agent, representative nor family member has procured or attempted to procure this contract in violation of any of the provisions of the Miami-Dade County conflict of interest or code of ethics ordinances. Further, Proposer acknowledges that any violation of these warrants will result in the termination of the contract and forfeiture of funds paid or to be paid to the Proposer should the Proposer be selected for the performance of this contract.

_____
Proposer Initials

Business Entity Affidavit

Proposer hereby recognizes and certifies that no elected official, board member, or employee of the Village of Key Biscayne (the " Village") shall have a financial interest directly or indirectly in this transaction or any compensation to be paid under or through this transaction, and further, that no Village employee, nor any elected or appointed officer (including Village board members) of the Village, nor any spouse, parent or child of such employee or elected or appointed officer of the Village, may be a partner, officer, director or proprietor of Proposer or Vendor, and further, that no such Village employee or elected or appointed officer, or the spouse, parent or child of any of them, alone or in combination, may have a material interest in the Vendor or Proposer. Material interest means direct or indirect ownership of more than 5% of the total assets or capital stock of the Proposer. Any exception to these above-described

restrictions must be expressly provided by applicable law or ordinance and be confirmed in writing by Village. Further, Proposer recognizes that with respect to this transaction or bid, if any Proposer violates or is a party to a violation of the ethics ordinances or rules of the Village, the provisions of Miami-Dade County Code Section 2-11.1, as applicable to Village, or the provisions of Chapter 112, part III, Fla. Stat., the Code of Ethics for Public Officers and Employees, such Proposer may be disqualified from furnishing the goods or services for which the bid or proposal is submitted and may be further disqualified from submitting any future bids or proposals for goods or services to Village.

Proposer Initials

Anti-Collusion Affidavit

1. Proposer/Bidder has personal knowledge of the matters set forth in its Proposal/Bid and is fully informed respecting the preparation and contents of the attached Proposal/Bid and all pertinent circumstances respecting the Proposal/Bid;
2. The Proposal/Bid is genuine and is not a collusive or sham Proposal/Bid; and
3. Neither the Proposer/Bidder nor any of its officers, partners, owners, agents, representatives, employees, or parties in interest, including Affiant, has in any way colluded, conspired, connived, or agreed, directly or indirectly with any other Proposer/Bidder, firm, or person to submit a collusive or sham Proposal/Bid, or has in any manner, directly or indirectly, sought by agreement or collusion or communication or conference with any other Proposer/Bidder, firm, or person to fix the price or prices in the attached Proposal/Bid or of any other Proposer/Bidder, or to fix any overhead, profit, or cost element of the Proposal/Bid price or the Proposal/Bid price of any other Proposer/Bidder, or to secure through any collusion, conspiracy, connivance or unlawful agreement any advantage against the Village of Key Biscayne or any person interested in the proposed Contract.

Proposer Initials

Scrutinized Company Certification

1. Proposer certifies that it and its subcontractors are not on the Scrutinized Companies that Boycott Israel List. Pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer or its subcontractors are found to have submitted a false certification; or if the Proposer, or its subcontractors are placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
2. If the Agreement that may result from this ITB is for more than one million dollars, the Proposer certifies that it and its subcontractors are also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer, its affiliates, or its subcontractors are found to have submitted a false certification; or if the Proposer, its affiliates, or its subcontractors are placed on the Scrutinized

Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

3. The Proposer agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under the Agreement that may result from this ITB. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize the above-stated contracting prohibitions then they shall become inoperative.

_____
Proposer Initials

Acknowledgment, Warranty, and Acceptance

1. CONTRACTOR warrants that it is willing and able to comply with all applicable state of Florida laws, rules and regulations.

CONTRACTOR warrants that it has read, understands, and is willing to comply with all requirements of **VILLAGE OF KEY BISCAYNE MECHANICAL RIDES, INFLATABLES AND ENTERTAINMENT SERVICES** and any addendum/addenda related thereto.

2. CONTRACTOR warrants that it will not delegate or subcontract its responsibilities under an agreement without the prior written permission of the Village Council or Village Manager, as applicable.
3. CONTRACTOR warrants that all information provided by it in connection with this Proposal is true and accurate.

_____
Proposer Initials

Truth in Negotiation Certification

The CONTRACTOR hereby certifies, covenants, and warrants that wage rates and other factual unit costs supporting the compensation for this project's agreement are accurate, complete, and current at the time of contracting.

The CONTRACTOR further agrees that the original agreement price and any additions thereto shall be adjusted to exclude any significant sums by which the Village determines the agreement price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such agreement adjustments shall be made within (1) year following the end of the contract. For purposes of this certificate, the end of the agreement shall be deemed to be the date of the final billing or acceptance of the work by the Village, whichever is later.

DRUG FREE WORKPLACE

The undersigned proposer in accordance with Chapter 287.087, Florida Statutes, hereby certifies that Brakes Industries LLC does:

(Name of proposer)

1. Publish a statement notifying employees that the unlawful manufacturing, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the contractual services described in the ITB document a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the contractual services described in the ITB or the Agreement, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

CERTIFICATION TO ACCURACY OF PROPOSAL

The proposer, by executing this form, hereby certifies and attests that all forms, affidavits and documents related thereto that it has enclosed in the proposal in support of its proposal are true and accurate. Failure by the proposer to attest to the truth and accuracy of such forms, affidavits and documents shall result in the proposal being deemed non-responsive and such proposal will not be considered.

By submitting a proposal to do the work, the proposer certifies that a careful review of the ITB and the Agreement has taken place and that the proposer is fully informed and understands the requirements of the ITB and the Agreement and the quality and quantity of service to be performed.

The undersigned individual, being duly sworn, deposes and says that:

1. He/She is Danny Moreira of Braves Industries LLC the proposer that has submitted the attached proposal;
2. He/She is fully informed respecting the preparation and contents of the attached proposal and of all forms, affidavits and documents submitted in support of such proposal;
3. All forms, affidavits and documents submitted in support of this proposal and included in this proposal are true and accurate;
4. No information that should have been included in such forms, affidavits and documents has been omitted; and
5. No information that is included in such forms, affidavits or documents is false or misleading.

FORM 10

PUBLIC ENTITY CRIMES

Sworn Statement Under §287.133(3)(a), Florida Statutes

(This form must be signed in the presence of a notary public or other officer authorized to administer oaths.)

1. This sworn statement is submitted with Bid, Proposal or contract No. _____

2. This sworn statement is submitted by: Bruxus Industries LLC
(name of entity submitting sworn statement)

whose business address is: 14359 Miramar Pkwy #333
Miramar, fl 33027

Federal Identification Number (FEIN) is: 84-2052275
(if applicable)

Social Security Number: _____

(if the entity has no FEIN, include the Social Security Number of the individual signing this sworn statement)

3. My name is: Danny Morais
(print name of individual signing this document)

and my relationship to the entity is: CEO.

4. I understand that a "public entity crime" as defined in §287.133(1)(g), Florida Statutes means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United states, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

5. I understand that a "convicted" or "conviction" as defined in §287.133(1)(b), Florida Statutes, means a finding of guilt of a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

6. I understand that an "affiliate" as defined in §287.133(1)(a), Florida Statutes means:
   (a) A predecessor or successor of a person or a corporation convicted of a public

entity crime; or

(b) An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima-facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

7. I understand that a "person" as defined in §287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which binds or applies to bids on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

8. Based on the information and belief, the statement that I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies)

   a. ____Neither the entity submitting the sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity nor any affiliate of the entity have been charged with and convicted of a public entity crime subsequent to July 1, 1989.

   b. ____The entity submitting this sworn statement, or one or more of the officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989, and (Please indicate which additional statement applies)

      1) ____There has been a proceeding concerning the conviction before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. (Please attach a copy of the final order)

      2) ____The person or affiliate was placed on the convicted list. There has been a subsequent proceeding before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or

affiliate from the convicted vendor list. (Please attach a copy of the final order)

3) ___The person or affiliate has not been placed on the convicted vendor list. (Please describe any action taken by or pending with the Department of General Services)

BIDDER'S REPRESENTATION

VILLAGE OF KEY BISCAYNE MECHANICAL RIDES, INFLATABLES AND ENTERTAINMENT SERVICES

Proposal of Braxus Industries LLC Ernst Max

(Name)

13050 NW 43rd Ave Opa Locka FL 33054

(Address)

to furnish all materials, equipment, and labor and to perform all work in accordance with the Contract Documents for:

VILLAGE OF KEY BISCAYNE MECHANICAL RIDES, INFLATABLES AND ENTERTAINMENT SERVICES
("THE PROJECT")

TO: Village of Key Biscayne
Attn: Village Clerk
88 West McIntyre Street, Suite 220
Key Biscayne, Florida 33149

The undersigned, as Bidder, hereby declares that the only person or persons interested in the Bid, as principal or principals, is or are named herein and that no other person than herein mentioned has any interests in the Bid or the Contract to which the Work pertains; that this Bid is made without connection or arrangement with any other person, company, or parties making Bids or Proposals and that the Bid is in all respects fair and made in good faith without collusion or fraud.

The Bidder further declares that he or she has examined the geographic location and sites of the Work; that he has made sufficient investigations to fully satisfy himself that such sites are suitable for this Work; and he assumes full responsibility therefore; that he has examined the specifications for the Work and from his own experience or from professional advice that the specifications are sufficient for the Work to be done and he has examined the other Contract Documents relating thereto, including the Instructions to Bidders, the Contract, Bid, Detailed Scope of Work/Specifications, Qualification Statement, Public Entity Crime Form, and Insurance requirements

E-VERIFY AFFIDAVIT

In accordance with Section 448.095, Florida Statutes, the Village requires all contractors doing business with the Village to register with and use the E-Verify system to verify the work authorization status of all newly hired employees. The Village will not enter into a contract unless each party to the contract registers with and uses the E-Verify system.

The contracting entity must provide of its proof of enrollment in E-Verify. For instructions on how to provide proof of the contracting entity's participation/enrollment in E-Verify, please visit: https://www.e-verify.gov/faq/how-do-i-provide-proof-of-my-participationenrollment-in-e-verify

By signing below, the contracting entity acknowledges that it has read Section 448.095, Florida Statutes and will comply with the E-Verify requirements imposed by it, including but not limited to obtaining E-Verify affidavits from subcontractors.

☐ **Check here to confirm proof of enrollment in E-Verify has been attached to this Affidavit.**

Request for Quotation

RFQT 25-02: VILLAGE OF KEY BISCAYNE MECHANICAL RIDES, INFLATABLES AND ENTERTAINMENT SERVICES

SCOPE OF WORK

1.1 INTRODUCTION:

The primary objective of this project is to identify and contract with amusement event companies that can supply high-quality carnival rides, inflatables, and entertainers to support the diverse needs of events hosted by the Village of Key Biscayne (Village). By partnering with experienced amusement event providers, the Village aims to create comfortable and functional event spaces that accommodate attendees and enhance their overall experience.

Vendors are not required to bid on all items

1.2 SCOPE OF WORK:

The contractor shall furnish all labor, equipment, materials, permits, insurance, and supervision necessary to perform the following tasks:

1.2.1 Mechanical Rides:

The vendor shall be responsible for the delivery, set-up, and breakdown of mechanical carnival rides. The rides must be made of high-quality materials, free of defects, and recently inspected, if required by state regulations. The contractor shall provide a minimum of three ride options that offer similar entertainment experiences and value. All mechanical rides must be durable, properly assembled, and in compliance with safety standards.

1.2.2 Inflatables:

The vendor shall be responsible for the delivery, set-up, and breakdown of inflatables. The inflatables must be made of high-quality materials, visually appealing, and free of defects. They must be durable and properly anchored. Staking the inflatables into the ground is rarely an option for Village events, so alternative anchoring methods must be provided. Inflatables must be in compliance with safety standards.

1.2.3 Entertainers:

The vendor shall be responsible for providing entertainers such as Santa Claus, petting zoos, face painters, or any fictitious or religious characters as requested by the Village. The entertainers must be of high reputation, dependable, and punctual. The vendor must ensure all entertainers are experienced and provide a positive experience for attendees.

1.3 RESPONSIBILITY OF RENTAL COMPANY:

The selected rental providers will be responsible for:

- Offering a wide selection of mechanical rides, inflatables, and entertainment in various styles, sizes, and configurations to suit different types of events and spaces.

- Collaborating with event organizers to assess the requirements based on the event's size, layout, and anticipated attendance.

- Delivering and setting up rental equipment at designated event locations within the Village and adjacent areas in a timely and professional manner.
- Ensuring that all rental items are clean, well-maintained, and in good working conditions, adhering to state and compliance with safety standards.

- Ensuring entertainers prompt arrival.

- Providing on-site attendants and assistance as needed during the event, including troubleshooting and addressing any issues related to the mechanical rides, inflatables, and entertainers.

- Coordinating with the Village's event coordinators and staff to facilitate seamless logistics and execution of contracted services.

- Providing supporting equipment such as generators, blowers, wraps, pens, or any related equipment to support the rides, inflatables, and entertainment.

1.4 SERVICE DETAILS:

1.4.1 Rental Period:
The rental period shall be determined based on the specific requirements of each event or function. The duration may vary from single-day rentals to extended rental periods as needed.

1.4.2 Delivery and Pickup:
The vendor will handle the delivery and pick up of all the equipment rented to and from the Village's designated location(s) at the agreed-upon times.

1.4.3 Quality Assurance:
All the equipment provided by the Vendor shall undergo thorough inspection and maintenance to ensure cleanliness, quality, and presentability.

1.4.4 Customization:
Vendor offers customization options such as color selection, sizing, and branding to align with the Village's event themes and branding guidelines.

1.4.5 Support Services:
The vendor will provide dedicated support personnel to assist with any inquiries, requests, or issues related to the equipment rentals promptly.

1.5 ADDITIONAL EQUIPMENT/SERVICES:
Companies are encouraged to list any additional equipment or services they provide that may not have been outlined in the RFQT.

1.6 PERFORMANCE EVALUATION:
The Village is committed to maintaining high standards of service and accountability in all vendor relationships. This Vendor Performance Evaluation Form is designed to assess the quality and effectiveness of services provided by contracted vendors. The information collected through this

evaluation will be used to inform future contract decisions, support performance improvement efforts, and ensure that community expectations are consistently met.
Completed evaluations will be retained by the Village for a period of five years and will serve as a valuable resource during the selection, renewal, or extension of service contracts. Your feedback plays a vital role in promoting transparency, fostering accountability, and enhancing the overall quality of services delivered to our community.

1.7 QUALIFICATIONS:

- Extensive experience in supplying mechanical rides, inflatables, and entertainers for events of varying scales and formats.
- A diverse inventory of rental equipment, including different styles and configurations, to accommodate various event requirements.
- Reliability and responsiveness in delivering rental services on schedule and according to specified guidelines.
- Commitment to quality assurance, with well-maintained and clean rental items that meet or exceed industry standards.
- Excellent customer service skills and the ability to communicate effectively with event organizers and staff to fulfill specific event needs.

1.8 INSTRUCTIONS:

1. VENDORS submitting the bid should include the attached Table 1 – Price Sheet with their bid. Bids are due on July 15, 2025, at 11:30 AM. Bids should be emailed to procurement@keybiscayne.fl.gov.

2. Questions regarding this quotation can be submitted to Daren Jairam, Procurement Officer, by email at procurement@keybiscayne.fl.gov.

3. All the requirements stated herein and the attached Terms and Conditions of the Village of Key Biscayne Purchase Order shall apply.

4. The Village reserves the right to:
   A. Award the VENDOR or VENDORS as determined to be in the best interest of the Village.
   B. Reject any or all submittals if found not to be in the best interest of the Village.

1.9 BID REQUIREMENTS:

A. Bid Proposal:

- Complete filling out of Bid Schedule.
- Submit required documents.
- Include all costs, including taxes, fees, delivery charges, and any other applicable charges.

B. Terms of Engagement:

The Vendor, by submission of its Bid, agrees to the terms and conditions contained in the contract attached hereto as Attachment "A," ("Contract") and further agrees to execute the Contract without change. Notwithstanding, the Village, in its sole discretion, reserves the right to negotiate the final contract price or any terms and conditions.

The initial contract term is for three (3) years with the option to extend at its sole discretion for two (2) one-year (1-year) renewal terms for the maximum of five (5) years. The Proposer understands that this ITB does not constitute an agreement or a contract with the Proposer. A proposal is not binding until proposals are approved by the Village of Key Biscayne Council and both parties execute a written contract.

Bids that are conditioned to additions, deletions, or revisions to the Contract's terms and conditions will be rejected as non-responsive.

C. Additional Information:

- Provide any additional information relevant to the bid, including contact person, and any other pertinent details.

1.10 SUBNISSION INSTRUCTIONS:

- **Format:** Submit your bid proposal in a PDF format.
- **Submission Method:** Email your bid proposal to procurement@keybiscayne.fl.gov.
- **Deadline:** All bid proposals must be received by **July 18, 2025, 11:30 A.M.** Late submissions will not be considered.

1.11 EVALUATION CRITERA:

Bids will be evaluated based on the following criteria:

- Compliance with specifications.
- Total cost, including any incentives and discounts.
- Availability and delivery timeframe.
- Warranty and service offerings.
- Overall value and additional benefits.

1.12 CONTACT FOR QUESTIONS:

For any questions or clarifications regarding this RFQT, please contact:

Name: Procurement Officer – Daren Jairam
Email: procurement@keybiscayne.fl.gov

1.13 CONE OF SILENCE:

To ensure fair consideration for all Proposers, a Cone of Silence is enforced starting on the posting date of the proposal submission. Proposers are asked not to communicate with any department, division, or employee from the submission package concerning the proposal until an award decision has been made. Any communication between Proposer and the Village in order to obtain information or clarification needed to develop a proper, accurate evaluation of the proposal should be conducted through the Village Procurement Officer, Daren Jairam at djairam@keybiscayne.fl.gov or procurement@keybiscayne.fl.gov.

And (if applicable) its Federal Employer Identification Number (FEIN) is: 20-0804979

(if the entity does not have an FEIN, include the Social Security Number of the individual signing this sworn statement. SS#: N/A)

Americans with Disabilities Act Compliance Affidavit

The above-named firm, corporation or organization is in compliance with and agrees to continue to comply with, and assure that any subcontractor, or third-party contractor under this project complies with all applicable requirements of the laws listed below including, but not limited to, those provisions pertaining to employment, provision of programs and services, transportation, communications, access to facilities, renovations, and new construction.

- The American with Disabilities Act of 1990 (ADA), Pub. L. 101-336, 104 Stat 327, 42 USC 1210112213 and 47 USC Sections 225 and 661 including Title I, Employment; Title II, Public Services; Title III, Public Accommodations and Services Operated by Private entities; Title IV, Telecommunications; and Title V, Miscellaneous Provisions.
- The Florida Americans with Disabilities Accessibility Implementation Act of 1993, Section 553.501-553.513, Florida Statutes:
- The Rehabilitation Act of 1973, 229 USC Section 794;
- The Federal Transit Act, as amended 49 USC Section 1612;
- The Fair Housing Act as amended 42 USC Section 3601-3631.

MPE

Proposer Initials

Public Entity Crimes Affidavit

I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentations.

I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime; or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, and partners, shareholders, employees, members, and agents who are active in management of an entity.

Based on information and belief, the statement, which I have marked below, is true in relations to the entity submitting this sworn statement.

(INDICATE WHICH STATEMENT APPLIES.)

[X] Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with ad convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives partners, shareholders, employees, members, or agents who are active in the management of the entity,

or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida , Division of Administrative Hearings and the final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list (attach a copy of the final order).

I understand that the submission of this form to the contracting officer for the public entity identified in paragraph 1 above is for that public entity only and that this form is valid through December 31 of the calendar year in which it is filed. I also understand that I am required to inform the public entity prior to entering into a contract in excess of the threshold amount provided in Section 287.017, Florida Statutes for category two of any change in the information contained in this form.

MPE

Proposer Initials

No Conflict of Interest or Contingent Fee Affidavit

Proposer warrants that neither it nor any principal, employee, agent, representative nor family member has paid or will pay any fee or consideration that is contingent on the award or execution of a contract arising out of this solicitation. Proposer also warrants that neither it nor any principal, employee, agent, representative nor family member has procured or attempted to procure this contract in violation of any of the provisions of the Miami-Dade County conflict of interest or code of ethics ordinances. Further, Proposer acknowledges that any violation of these warrants will result in the termination of the contract and forfeiture of funds paid or to be paid to the Proposer should the Proposer be selected for the performance of this contract.

MPE

Proposer Initials

Business Entity Affidavit

Proposer hereby recognizes and certifies that no elected official, board member, or employee of the Village of Key Biscayne (the " Village") shall have a financial interest directly or indirectly in this transaction or any compensation to be paid under or through this transaction, and further, that no Village employee, nor any elected or appointed officer (including Village board members) of the Village, nor any spouse, parent or child of such employee or elected or appointed officer of the Village, may be a partner, officer, director or proprietor of Proposer or Vendor, and further, that no such Village employee or elected or appointed officer, or the spouse, parent or child of any of them, alone or in combination, may have a material interest in the Vendor or Proposer. Material interest means direct or indirect ownership of more than 5% of the total assets or capital stock of the Proposer. Any exception to these above-described

restrictions must be expressly provided by applicable law or ordinance and be confirmed in writing by Village. Further, Proposer recognizes that with respect to this transaction or bid, if any Proposer violates or is a party to a violation of the ethics ordinances or rules of the Village, the provisions of Miami-Dade County Code Section 2-11.1, as applicable to Village, or the provisions of Chapter 112, part III, Fla. Stat., the Code of Ethics for Public Officers and Employees, such Proposer may be disqualified from furnishing the goods or services for which the bid or proposal is submitted and may be further disqualified from submitting any future bids or proposals for goods or services to Village.

MPE
Proposer Initials

Anti-Collusion Affidavit

1. Proposer/Bidder has personal knowledge of the matters set forth in its Proposal/Bid and is fully informed respecting the preparation and contents of the attached Proposal/Bid and all pertinent circumstances respecting the Proposal/Bid;
2. The Proposal/Bid is genuine and is not a collusive or sham Proposal/Bid; and
3. Neither the Proposer/Bidder nor any of its officers, partners, owners, agents, representatives, employees, or parties in interest, including Affiant, has in any way colluded, conspired, connived, or agreed, directly or indirectly with any other Proposer/Bidder, firm, or person to submit a collusive or sham Proposal/Bid, or has in any manner, directly or indirectly, sought by agreement or collusion or communication or conference with any other Proposer/Bidder, firm, or person to fix the price or prices in the attached Proposal/Bid or of any other Proposer/Bidder, or to fix any overhead, profit, or cost element of the Proposal/Bid price or the Proposal/Bid price of any other Proposer/Bidder, or to secure through any collusion, conspiracy, connivance or unlawful agreement any advantage against the Village of Key Biscayne or any person interested in the proposed Contract.

MPE
Proposer Initials

Scrutinized Company Certification

1. Proposer certifies that it and its subcontractors are not on the Scrutinized Companies that Boycott Israel List. Pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer or its subcontractors are found to have submitted a false certification; or if the Proposer, or its subcontractors are placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
2. If the Agreement that may result from this ITB is for more than one million dollars, the Proposer certifies that it and its subcontractors are also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer, its affiliates, or its subcontractors are found to have submitted a false certification; or if the Proposer, its affiliates, or its subcontractors are placed on the Scrutinized

Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

3. The Proposer agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under the Agreement that may result from this ITB. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize the above-stated contracting prohibitions then they shall become inoperative.

1. CONTRACTOR warrants that it is willing and able to comply with all applicable state of Florida laws, rules and regulations.
   CONTRACTOR warrants that it has read, understands, and is willing to comply with all requirements of **VILLAGE OF KEY BISCAYNE MECHANICAL RIDES, INFLATABLES AND ENTERTAINMENT SERVICES** and any addendum/addenda related thereto.
2. CONTRACTOR warrants that it will not delegate or subcontract its responsibilities under an agreement without the prior written permission of the Village Council or Village Manager, as applicable.
3. CONTRACTOR warrants that all information provided by it in connection with this Proposal is true and accurate.

MPE

Proposer Initials

Truth in Negotiation Certification

The CONTRACTOR hereby certifies, covenants, and warrants that wage rates and other factual unit costs supporting the compensation for this project's agreement are accurate, complete, and current at the time of contracting.

The CONTRACTOR further agrees that the original agreement price and any additions thereto shall be adjusted to exclude any significant sums by which the Village determines the agreement price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such agreement adjustments shall be made within (1) year following the end of the contract. For purposes of this certificate, the end of the agreement shall be deemed to be the date of the final billing or acceptance of the work by the Village, whichever is later.

FORM 6B

INDEPENDENCE AFFIFAVIT

The undersigned individual, being duly sworn, deposes and says that:

I am SR. ACCOUNT EXECUTIVE of MEGA PARTY EVENTS INC., the proposer that has submitted the attached proposal;

I hereby certify to the best of my knowledge that neither I nor any of those persons residing in my household have or have had during the past five years, any relationships (professional, financial, familial or otherwise) with the VILLAGE (or any of its districts), its elected or appointed officials, its employees or agents, or any member or alternate member of the Selection Committee.

A "relationship" for the purpose of this affidavit shall include but not be limited to employer/employee, consultant, contractor, subcontractor, associate, officer, partnership, joint venture, ownership greater than one percent, landlord/tenant, or creditor/debtor, gift donor/recipient (in excess of $100.00), past or on-going personal relationships, or joint involvement with charitable/voluntary activities. **Relationship includes having a prior or current contract with the VILLAGE.**

Except as set forth below, I hereby certify to the best of my knowledge that neither I nor any of those persons residing in my household have received any promise of compensation, remuneration, gift, discount, or other gratuity in exchange for my proposal.

I understand and agree that I shall give the VILLAGE written notice of any other relationships (as defined above) that I enter into with the VILLAGE (or any of its districts), its elected or appointed officials, its employees or agents, or any member or alternate member of the Selection Committee during the period of the Agreement.

I set forth below any exceptions to the aforementioned (if none, write "None"):

NON-COLLUSION AFFIDAVIT

The undersigned individual, being duly sworn, deposes and says that:

1. He/She is SR. ACCOUNT EXECUTIVE of MEGA PARTY EVENTS INC., proposer that has submitted the attached proposal;

2. He/She is fully informed respecting the preparation and contents of the attached proposal and of all pertinent circumstances respecting such proposal;

3. Such proposal is genuine and is not a collusive or sham proposal;

4. Neither said proposer nor any of its officers, partners, owners, agents, representatives, employees, or parties in interest, including this affiant, has in any way colluded, connived, or agreed, directly or indirectly, with any other proposer, firm or person to submit a collusive or sham proposal in connection with the Agreement for which the attached proposal has been submitted or to refrain from proposing in connection with the Agreement, or has in any manner, directly or indirectly, sought by agreement of collusion or communication of conference with any other proper, firm, or person to fix the price or prices in the attached proposal, or of any other proposer, or to fix any overhead, profit or cost element of the proposal or the response of any other proposer, or to secure through any collusion, connivance, or unlawful agreement any advantage against the Village of Key Biscayne, Florida, or any person interested in the Agreement; and

5. The response to the attached RFQT is fair and proper and is not tainted by any collusion, conspiracy, connivance, or unlawful agreement on the part of the proposer or any of its agents, representatives, owners, employees, or parties in interest, including this affiant.

DRUG FREE WORKPLACE

The undersigned proposer in accordance with Chapter 287.087, Florida Statutes, hereby certifies that MEGA PARTY EVENTS INC. does:

(Name of proposer)

1. Publish a statement notifying employees that the unlawful manufacturing, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the contractual services described in the RFQT document a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the contractual services described in the RFQT or the Agreement, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

7. As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

CERTIFICATION TO ACCURACY OF PROPOSAL

The proposer, by executing this form, hereby certifies and attests that all forms, affidavits and documents related thereto that it has enclosed in the proposal in support of its proposal are true and accurate. Failure by the proposer to attest to the truth and accuracy of such forms, affidavits and documents shall result in the proposal being deemed non-responsive and such proposal will not be considered.

By submitting a proposal to do the work, the proposer certifies that a careful review of the RFQT and the Agreement has taken place and that the proposer is fully informed and understands the requirements of the RFQT and the Agreement and the quality and quantity of service to be performed.

The undersigned individual, being duly sworn, deposes and says that:

1. He/She is SR. ACCOUNT EXECUTIVE of MEGA PARTY EVENTS INC., the proposer that has submitted the attached proposal;
2. He/She is fully informed respecting the preparation and contents of the attached proposal and of all forms, affidavits and documents submitted in support of such proposal;
3. All forms, affidavits and documents submitted in support of this proposal and included in this proposal are true and accurate;
4. No information that should have been included in such forms, affidavits and documents has been omitted; and
5. No information that is included in such forms, affidavits or documents is false or misleading.

FORM 10

PUBLIC ENTITY CRIMES

Sworn Statement Under §287.133(3)(a), Florida Statutes

(This form must be signed in the presence of a notary public or other officer authorized to administer oaths.)

1. This sworn statement is submitted with Bid, Proposal or contract No. RFQ # 25-01

2. This sworn statement is submitted by: MEGA PARTY EVENTS INC.
(name of entity submitting sworn statement)

whose business address is: 22840 S DIXIE HWY MIAMI, FL 33170

Federal Identification Number (FEIN) is: 20-0804979
(if applicable)

Social Security Number: _____

(if the entity has no FEIN, include the Social Security Number of the individual signing this sworn statement)

3. My name is: JUAN RUIZ
(print name of individual signing this document)

and my relationship to the entity is: PROFESSIONAL

4. I understand that a "public entity crime" as defined in §287.133(1)(g), Florida Statutes means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United states, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

5. I understand that a "convicted" or "conviction" as defined in §287.133(1)(b), Florida Statutes, means a finding of guilt of a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

6. I understand that an "affiliate" as defined in §287.133(1)(a), Florida Statutes means:
   (a) A predecessor or successor of a person or a corporation convicted of a public

entity crime; or

(b) An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima-facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

7. I understand that a "person" as defined in §287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which binds or applies to bids on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

8. Based on the information and belief, the statement that I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies)

   a. _X_ Neither the entity submitting the sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity nor any affiliate of the entity have been charged with and convicted of a public entity crime subsequent to July 1, 1989.

   b. ____ The entity submitting this sworn statement, or one or more of the officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989, and (Please indicate which additional statement applies)

      1) ____ There has been a proceeding concerning the conviction before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. (Please attach a copy of the final order)

      2) ____ The person or affiliate was placed on the convicted list. There has been a subsequent proceeding before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or

affiliate from the convicted vendor list. (Please attach a copy of the final order)

3) ____The person or affiliate has not been placed on the convicted vendor list. (Please describe any action taken by or pending with the Department of General Services)

VILLAGE OF KEY BISCAYNE

BIDDER'S REPRESENTATION

VILLAGE OF KEY BISCAYNE MECHANICAL RIDES, INFLATABLES AND ENTERTAINMENT SERVICES

Proposal of MEGA PARTY EVENTS, INC

(Name)

22840 S DIXIE HWY MIAMI, FL 33170

(Address)

to furnish all materials, equipment, and labor and to perform all work in accordance with the Contract Documents for:

VILLAGE OF KEY BISCAYNE MECHANICAL RIDES, INFLATABLES AND ENTERTAINMENT SERVICES

("THE PROJECT")

TO: Village of Key Biscayne
Attn: Village Clerk
88 West McIntyre Street, Suite 220
Key Biscayne, Florida 33149

The undersigned, as Bidder, hereby declares that the only person or persons interested in the Bid, as principal or principals, is or are named herein and that no other person than herein mentioned has any interests in the Bid or the Contract to which the Work pertains; that this Bid is made without connection or arrangement with any other person, company, or parties making Bids or Proposals and that the Bid is in all respects fair and made in good faith without collusion or fraud.

The Bidder further declares that he or she has examined the geographic location and sites of the Work; that he has made sufficient investigations to fully satisfy himself that such sites are suitable for this Work; and he assumes full responsibility therefore; that he has examined the specifications for the Work and from his own experience or from professional advice that the specifications are sufficient for the Work to be done and he has examined the other Contract Documents relating thereto, including the Instructions to Bidders, the Contract, Bid, Detailed Scope of Work/Specifications, Qualification Statement, Public Entity Crime Form, and Insurance requirements

and he has read all addenda prior to the opening of Bids, and that he has satisfied himself fully, relative to all matters and conditions with respect to the Work to which this Bid pertains.

The Bidder proposes and agrees, if this Bid is accepted, to timely execute the Contract with the Village in the form attached and to furnish all necessary materials, all equipment, all necessary machinery, tools, apparatus, means of transportation, and labor necessary to complete the Work specified in the Bid and the Contract, and called for by the drawings and specifications and in the manner specified and to timely submit all required bonds and insurance certificates.
NOTE: THIS SCHEDULE OF BID ITEMS IS MERELY ILLUSTRATIVE OF THE MINIMUM AMOUNT/QUANTITY OF WORK TO BE PERFORMED UNDER THE CONTRACT. IN THE CASE OF ANY CONFLICT BETWEEN THIS SCHEDULE OF BID ITEMS AND THE DETAILED SPECIFICATIONS, THE DETAILED SPECIFICATIONS WILL PREVAIL.

The Bidder further proposes and agrees to comply in all respects with the time limits for commencement and completion of the Work as stated in the Contract.

The Bidder agrees to execute the Contract and furnish the executed Contract, all required bonds, insurance certificates, and other required information to Village within ten (10) ten calendar days after written notice of the Award of Contract. Failure on the part of the Bidder to timely comply with this provision shall give Village all rights and remedies set forth in the Instructions to Bidders.

The undersigned agrees to accept as full compensation therefore the total of the lump sum prices and extended unit prices items named in the following schedule. It is understood that the unit prices quoted or established for a particular item are to be used for computing the amount to be paid to the Contractor, based on the Work actually performed as determined by the Contract and the Village. However, in utilizing the schedule, the Bidder agrees that in no event shall compensation paid to the Bidder under the Contract exceed the dollar amount of the Bidder's Bid amount, as set forth in the attached Bid.

It is intended that all Work to be performed under this Bid shall commence approximately thirty (30) days after Contract execution.

In no event shall Village be obligated to pay for Work not performed or materials not furnished. Bidder's

Certificate of Competency No._____

Bidder's Occupational License No. 5027578

AFFIDAVIT ATTESTING TO NONCOERCIVE CONDUCT FOR LABOR OR SERVICES

Effective July 1, 2024, Section 787.06, Florida Statutes, a nongovernmental entity executing, renewing, or extending a contract with a governmental entity is required to provide an affidavit, signed by an officer or a representative of the nongovernmental entity under penalty of perjury, attesting that the nongovernmental entity does not use coercion for labor or services as defined in Section 787.06(2)(a), Florida Statutes.

By signing below, **I hereby affirm under penalty of perjury that:**

1. I have read Section 787.06, Florida Statutes, and understand that this affidavit is provided in compliance with the requirement that, upon execution, renewal, or extension of a contract between a nongovernmental entity and a governmental entity, the nongovernmental entity must attest to the absence of coercion in labor or services.

2. I am an officer or representative of MEGA PARTY EVENTS INC., a nongovernmental entity.

3. MEGA PARTY EVENTS INC. does not use coercion for labor or services as defined in the relevant section of the law.

AFFIDAVIT REGARDING PROHIBITION ON CONTRACTING WITH ENTITIES OF FOREIGN COUNTRIES OF CONCERN

Pursuant to Section 287.138, Florida Statutes (which is expressly incorporated herein by reference), a governmental entity may not knowingly enter into a contract with an entity which would give access to an individual's personal identifying information if (a) the entity is owned by ethe government of a foreign country of concern; (b) the government of a foreign country of concern has a controlling interest in the entity; or (c) the entity is organized under the laws of or has its principal place of business in a foreign country of concern.

This affidavit must be completed by an officer or representative of an entity submitting a bid, proposal, or reply to, or entering into, renewing, or extending, a contract with a governmental entity which would grant the entity access to an individual's personal identifying information.

1. MEGA PARTY EVENTS INC. ("entity") does not meet any of the criteria in paragraphs (2)(a)-(c) of Section 287.138, F.S.

In response to the Village's invitation to bid and in compliance with the RFQT requirements, the undersigned bidder to provide all labor, materials and equipment, all supervision, coordination, all related incidentals necessary to **VILLAGE OF KEY BISCAYNE MECHANICAL RIDES, INFLATABLES AND ENTERTAINMENT SERVICES** located at the Village of Key Biscayne, Florida.

In strict accordance with the Bid Documents dated 6/24/2025 including Addenda numbered _____ through _____, inclusive, for an all-inclusive Base Bid for **VILLAGE OF KEY BISCAYNE MECHANICAL RIDES, INFLATABLES AND ENTERTAINMENT SERVICES** includes all incidental costs.

The Contractor understands and agrees that the prices submitted is for the services as indicated in the Scope of Service, including but not limited to, all labor, materials, equipment and permitting.

TABLE – VILLAGE OF KEY BISCAYNE MECHANICAL RIDES, INFLATABLES AND ENTERTAINMENT SERVICES

The following table provides the unit pricing structure for bidding purposes. Contractors shall complete the table with their proposed unit costs. Units to be replaced must be of the same manufacturer and specifications as the existing units unless otherwise specified or instructed by the Village.

Vendors are not required to bid on all items

Number	Title & Location	Event Date(s)	Equipment	Quantity	Unit Cost	Total	Notes
Event #1	Fall Festival	10/19/2025	Pumpkin Pad	1			The equipment must be delivered and set up by 11:00 AM on 10/19/25. This includes time for state inspection if needed. Equipment removal may begin at 4:00 PM on 10/19/25 and must be completed by 7:00 PM. Please include cost for inspection, attendant, and generators.

STAFF MEMORANDUM

DATE: August 19, 2025

TO: Honorable Mayor and Councilmembers

FROM: Steven C. Williamson, Village Manager

RE: FY 24-25 Budget Amendment #2 (2nd Reading): Rickenbacker Causeway Feasibility Assessment and Concept Refinement

RECOMMENDATION

Recommend the Village Council approve, on second reading, to amend the Fiscal Year 2024-2025 Budget by reprogramming $950,000 from General Fund Reserves into the Capital Improvement Fund to support a feasibility assessment and concept refinement for the Rickenbacker Causeway "Shoreline" project.

DISCUSSION

Purpose: This reprogramming of funds reflects the Village's strong commitment to advancing the Rickenbacker Causeway "Shoreline" concept. The project will support a feasibility assessment and concept refinement that prioritizes the interests of our residents while also benefiting neighboring county communities.

Background: The Village of Key Biscayne and its residents have long expressed concern over traffic flow and safety along the Rickenbacker Causeway, the Village's sole access route. In response, the Village has taken a proactive role in identifying mobility solutions for the causeway and the Bear Cut Bridge. In 2021, the Village developed its own concept outlining practical improvements and key objectives, with the intent of clearly communicating to Miami-Dade County the community's desire for an enhanced causeway that reflects local needs.

Building on this initiative, the County launched the Rickenbacker Causeway Master Plan to address the Village's priorities while incorporating input from stakeholders and residents across the County. As the County's planning evolved, a new concept emerged proposing a raised highway with local roads beneath it along the Virginia Key segment. This design emphasized prioritizing through-traffic, improving access and safety to nearby venues, and reclaiming land for public open space.

On May 6, 2025, Commissioner Regalado and the Plusurbia Design Team presented their concept to the Village, generating significant interest from both the community and Councilmembers. To facilitate further analysis, Mayor Rasco scheduled a workshop on June 17, 2025, where the Plusurbia Team provided a detailed presentation and engaged in open dialogue with the Council regarding the proposal's merits.

At the conclusion of the workshop, Commissioner Regalado asked the Village to commit $950,000 to advance the concept and align it with the ongoing Bear Cut Bridge Project Development and Environmental Study (PD&E). In response, the Council reached consensus to place the funding request on the agenda for the July 1, 2025, Council Meeting. On first reading, the Council approved the reprogramming of funds and directed the Administration to develop a framework for executing the project in a manner that reflects the Village's priorities and expectations.

Justification: The budget amendment provides the Village with a strategic opportunity to advance the Rickenbacker Causeway "Shoreline" concept to a more developed stage, enabling a thorough assessment of its technical feasibility while aligning with Miami-Dade County's Bear Cut Bridge PD&E study.

This concept is designed to reflect the Village's priorities by improving traffic flow and safety, optimizing intersections and access to key venues, and creating clear separation between vehicles, bicycles, and pedestrians. It also integrates with current and future planning initiatives, addresses critical resiliency and drainage needs, and establishes a sustainable framework for governance, financing, and long-term operations and maintenance.

By investing in this effort, the Village positions itself to lead the causeway's transformation in collaboration with the right partners and stakeholders—ensuring the final concept is comprehensive, technically sound, and responsive to the community's needs and aspirations.

Implementation: If approved, the Village intends to enter into a partnership agreement with the Friends of the Underline, enabling both organizations to collaboratively assess the feasibility of the Rickenbacker Causeway "Shoreline" project and refine the concept. The scope of work includes:

1. **Agency Coordination & Status Review:** Determine the project's standing with Miami-Dade County, the City of Miami, and the Florida Department of Transportation, including current planning status, required approvals, and agency positions.
2. **Comprehensive Technical Baseline Assessment:** Conduct a full evaluation of existing conditions through data collection and analysis, including traffic patterns and trends, infrastructure inventory, utility mapping, environmental assessment, geotechnical investigation, topographic and boundary surveys, and land use and zoning analysis.
3. **Feasibility Assessment Report:** Produce a detailed report encompassing traffic analysis, engineering evaluation, integration with the Bear Cut Bridge PD&E study, utility conflict assessment, environmental, resilience, and drainage review, agency regulatory requirements, cost implications, and a risk matrix with mitigation strategies.
4. **Concept Plan Update:** Refine the Concept Plan with annotated renderings and design rationale informed by technical data and feasibility findings.
5. **Basis of Design Report:** Draft a report aligned with the updated Concept Plan and feasibility outcomes, including design criteria, technical assumptions, and preliminary cost estimates suitable for advancing to schematic design.
6. **Business Plan:** Create a comprehensive business plan outlining governance structure, infrastructure operations and maintenance, public space management, programming and

security, pro forma financial statements, and capital funding and sustainment financing mechanisms.

7. **Stakeholder & Community Engagement:** Facilitate meaningful engagement to gather input, build consensus, and ensure the proposed transformation reflects the needs, values, and concerns of users and surrounding communities.

The work will be performed by the Plusurbia Design Team as a continuation of the "Shoreline" Concept presented to the Village Council on June 17, 2025. As partners, the Village and the Friends of the Underline will guide the team's efforts to ensure the scope of work is fulfilled and the outcomes align with the Village's priorities and residents' interests. The Key Biscayne Community Foundation will also join the initiative to ensure robust community involvement throughout the development process.

RESOURCE IMPACT

The funds will be allocated to support the feasibility assessment and refinement of the Shoreline concept, in an amount not to exceed $950,000. The transfer will be made from the General Fund Reserve to the Capital Improvement Fund, while maintaining the total reserve balance above the Village's stipulated 50% policy threshold.

STRATEGIC CONNECTION (GOAL / FOCUS AREA)

The Rickenbacker Causeway Feasibility Assessment Concept Refinement and is directly in line with the Village's goal of creating an *accessible, connected, and mobile transportation network.* It also supports one of its most important focus areas of *alleviating traffic* by specifically pursuing the intent of five supporting actions:

- Partner with M-DC to improve traffic mobility and safety along Rickenbacker Causeway
- Partner with M-DC to replace Bear Cut Bridge
- Conduct Rickenbacker Causeway-Crandon Blvd corridor traffic data collection and analysis
- Advance regional partner coordination and relationships
- Enhance community engagement and relationships

MEMORANDUM

DATE: August 19, 2025

TO: Honorable Mayor and Councilmembers

FROM: Steven C. Williamson, Village Manager

RE: Purchase Replacement Police Radios and Communication System

RECOMMENDATION

Recommend the Village Council approve the capital project authorizing ordinance to purchase forty-two (42) Motorola Police Radios, two (2) APX dispatch Consolettes, and related services in the amount of $556,051.92.

DISCUSSION

Purpose: There is a need to replace our entire allotment of police radios and existing dispatch consolettes, as the equipment has reached end of life. Additionally, due to the age of our radio inventory, the communication devices are breaking down more frequently. The department requests the purchase approval to continue our public safety operations and ensure officer safety.

Background: Miami Dade County Sheriff's Office, who is our current 9-11 emergency dispatch center, transitioned to the Motorola Radio platform in 2024. Our current radio provider Harris is supported by the system but will become non-serviceable. Our existing radios, the Harris 7300, were discontinued in 2021. Due to the age of our radio inventory, the communication devices are breaking down more frequently.

Justification: The purchase of the Motorola radio platform will ensure continuity of operations and replace end-of-life legacy radio equipment to modernize the Village of Key Biscayne Police Department.

Operational Benefits:

- Enhanced officer safety and situational awareness for command
- Improved communications and operational efficiency across facilities and transports
- Mitigate liability with existing end-of-life radio equipment
- Our law enforcement partners at the Miami Dade Sheriff's Office and the City of Miami Police Department are currently utilizing the Motorola radios.
- Several agencies in Miami Dade County have transitioned to the Motorola platform.

Warranty and Cost:

The purchase of Motorola radios is the total cost of ownership. It includes seven years of subscription services and warranty. Additionally, the 7-year commitment locks in the 2025 pricing through 2032.

The Village of Key Biscayne will piggy-back the existing Motorola Sourcewell Contract #042021-MOT.

Implementation/Integration Plan: Upon Council approval, the radios will be ordered. Once Motorola receives the order, Motorola will work with the Miami Dade County radio shop to program the purchased equipment for deployment. The time frame provided by Motorola is six-eight weeks. The payment to Motorola will be divided into two payments. A 50% deposit will be applied from the Police FY 2025 budget. Upon approval of the proposed 2026 CIP budget, a final payment will be made to Motorola for the outstanding balance. After the radios are programmed, a roll-call training will be conducted for all department personnel, and the radios will be in-service.

RESOURCE IMPACT

Recurring Funding: No additional funding is requested for the first seven years of the purchase. Upon completion of year seven, the department would assume an annual subscription rate for each radio. (see Motorola attachment)

Equipment: No additional equipment needed. Radios come with all accessories required.

Training: The department is currently testing demo radios in the field. Once the radios are programmed, a roll-call training will be conducted for all department personnel, and the radios will be in-service.

FUNDING SOURCES

Funding in the amount of $556,051.92 will come from the following sources:

- The FY 2025 Police budget not to exceed $278,025.00
- Proposed FY 2026 Capital Improvement Plan (CIP) Budget for Motorola Police Radios not to exceed $278,025.00.
- ***GL Code:*** 01-21-521.64004 & FY 26 CIP
- ***Budget Line-Item:*** Police Department Capital Outlay / FY25/26 proposed budget (CIP)
- ***Amount:*** $278,025.00 / $278,025.00

STRATEGIC CONNECTION (GOAL / FOCUS AREA)

- Goal – Safe & Secure Village
- Focus Area – Ensure Community Safety
- Action – Purchase and deploy new police Motorola radios

ORDINANCE NO. 2025-_____

A CAPITAL PROJECT AUTHORIZING ORDINANCE OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, APPROVING THE PURCHASE OF MOTOROLA POLICE RADIOS, APX DISPATCH CONSOLETTES, AND RELATED SERVICES FROM MOTOROLA SOLUTIONS, INC. IN AN AMOUNT NOT TO EXCEED $556,051.92; PROVIDING FOR AUTHORIZATION; PROVIDING FOR IMPLEMENTATION; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Village of Key Biscayne (the "Village") Police Department needs to replace its existing police radios and dispatch consolettes as the equipment has reached the end of its useful life and the Miami-Dade County Sheriff's Office, which serves as the Village's 911 emergency dispatch center, has transitioned to the Motorola Radio platform; and

WHEREAS, the Village desires to purchase 42 Motorola police radios, two APX dispatch consolettes, and related services (collectively, the "Equipment") to replace the Village's existing police radios and dispatch consolettes; and

WHEREAS, the type of purchase contemplated by the Village has been competitively bid by Sourcewell, a local government and service cooperative created under the laws of the State of Minnesota, which has entered into Sourcewell Contract No. 042021-MOT ("Sourcewell Contract") with Motorola Solutions, Inc. (the "Vendor") for the Equipment; and

WHEREAS, in accordance with Section 2-86 of the Village Code of Ordinances, the Village Council desires to authorize the Village Manager to purchase the Equipment from the Vendor in an amount not to exceed $556,051.92 consistent with the Vendor's quote attached hereto as Exhibit "A" (the "Quote") and the Sourcewell Contract, as the pricing offered pursuant to the Sourcewell Contract is in the Village's best interest; and

WHEREAS, the Village Council finds that this Capital Project Authorizing Ordinance is in the best interest and welfare of the residents of the Village.

NOW, THEREFORE, IT IS HEREBY ORDAINED BY THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, AS FOLLOWS:

Section 1. **Recitals.** The above-stated recitals are true and correct and are incorporated herein by this reference.

Section 2. **Approval.** That the Village Council hereby approves the purchase of the Equipment from the Vendor in an amount not to exceed $556,051.92.

Section 3. **Authorization.** That the Village Council hereby authorizes the Village Manager to purchase the Equipment in an amount not to exceed $556,051.92, consistent with the Quote attached hereto as Exhibit "A" and the Sourcewell Contract.

Section 4. **Implementation.** The Village Council hereby authorizes the Village Manager to execute any purchase order or required documentation for the purchases described in this Ordinance, subject to approval by the Village Attorney as to form, content, and legal sufficiency, and to take any action that is reasonably necessary to implement the purpose of this Ordinance.

Section 5. **Effective Date.** This Ordinance shall become effective immediately upon adoption on second reading.

PASSED on first reading on the _____ day of _____, 2025.

PASSED AND ADOPTED on second reading on the _____ day of _____, 2025.

RE: Regulating Electric Bicycles, Motorized Scooters, and other Modernized Mobility Devices

RECOMMENDATION

Recommend the Village Council approve the modification to Chapter 26 regulating the use of electric bicycles, motorized scooters, and other modernized mobility devices within the entire geographical boundary of the Village of Key Biscayne.

DISCUSSION

Purpose: The purpose of the ordinance is to set forth the terms and conditions for individuals to operate an electric bicycle, motorized scooter, and any other modernized mobility devices in the Village of Key Biscayne.

Background: The Village Manager and Key Biscayne Police Department have been working with the Village Attorney and State Representatives to regulate the age for the operation of electric bicycles, motorized scooters, and other modernized mobility devices.

Since 2022, discussions and modifications have been made to Chapter 26, including a full ban village-wide on mobility devices. House Bill 462 was passed during the 2025 legislative session allowing municipalities to establish a minimum age requirement, along with possessing a government-issued photographic dentification.

Justification: The regulation effectively addresses the community's safety concerns, as they relate to the use and operation of the devices within the Village. It helps the Village control usage by location, vehicle type, and age of user. Additionally, the modification of Chapter 26 will allow adults to utilize micro-mobility devices around the Village.

With safety as the Administration's top priority, the convenience of micro-mobility devices and the positive impact they may have on reducing vehicular traffic is recognized. However, it remains imperative that regulations be put in place to ensure the safety and security of ***all*** members of the Key Biscayne community.

Implementation/Integration Plan: If approved, Chapter 26 would be revised to state the following:

- Only Class 1 Electronic Devices may be used
- Operators must be 18 years of age
- Operators must possess a government-issued photographic dentification
- The Police will reinforce no usage on sidewalks
- There will be an evaluation period for Administration assessment and feedback

RESOURCE IMPACT

Personnel: Police department personnel will educate and enforce the modification to Chapter 26.

STRATEGIC CONNECTION (GOAL / FOCUS AREA)

- Goal – Safe & Secure Village
- Focus Area – Ensure Community Safety
- Action – Improve golf cart, motorized scooter, and electric bike safety

Prepared by: Francis J. Sousa | Police Chief

Reviewed by Mr. Chad Friedman from Weiss Serota Helfman Cole & Bierman as to form and legal sufficiency.

ORDINANCE NO. 2025-___

AN ORDINANCE OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, AMENDING ARTICLE V, CHAPTER 26, "ELECTRIC BICYCLES, MOTORIZED SCOOTERS, AND OTHER MOTORIZED MOBILITY DEVICES" OF THE VILLAGE CODE OF ORDINANCES RELATING TO THE OPERATION OF ELECTRIC BICYCLES, MOTORIZED SCOOTERS, AND OTHER MOTORIZED MOBILITY DEVICES WITHIN THE VILLAGE; RENAMING OF THE ARTICLE TO "MICROMOBILITY DEVICES" AND PROVIDING FOR THE PROHIBITION AND REGULATION OF SUCH DEVICES; PROVIDING FOR SEVERABILITY; PROVIDING FOR CODIFICATION; PROVIDING FOR CONFLICTS; PROVIDING FOR VILLAGE MANAGER REVIEW AND RECOMMENDATION; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, on June 11, 2024, the Village Council adopted Ordinance 2024-12 prohibiting and regulating the use of electric bicycles, motorized scooters and other motorized mobility devices (the "Devices") on Designated Streets within the Village (the "2024 Ordinance"); and

WHEREAS, as provided in the 2024 Ordinance's whereas clauses, which are incorporated herein by reference, the Village Council adopted temporary or experimental regulations because of special conditions within the Village and the fact that the Devices are incompatible with the normal and safe movement of traffic on the Village's heavily traveled streets; and

WHEREAS, in the 2024 Ordinance, the Village Council also expressed its intent to adopt a minimum age limit for the operation of the electric bicycles and motorized scooters, but pursuant to the advice of the Village Attorney, the Village was limited only to regulating the movement and parking of such devices; and

WHEREAS, in 2025, the Florida Legislature adopted Senate Bill 462 (Chapter 2025-149, Laws of Florida) authorizing local governments, in part, to establish minimum age limits for the operation of electric bicycles and motorized scooters; and

WHEREAS, as a result of the change in law, the Village Council desires to amend its regulations to establish minimum age limits and other regulations for the operation of certain Devices within the Village; and

WHEREAS, the Village Council hereby finds that this Ordinance is in the best interest and welfare of the residents of the Village.

NOW, THEREFORE, IT IS HEREBY ORDAINED BY THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, AS FOLLOWS:[1]

Section 1. Recitals. That each of the above recitals are true and correct and incorporated herein by this reference.

Section 2. Amendment Chapter 26 of the Village Code, Article V. That Chapter 26 of the Code of Key Biscayne, Florida is hereby amended to read as follows:

ARTICLE V. MICROMOBILITY DEVICES ~~ELECTRIC BICYCLES, MOTORIZED SCOOTERS, AND OTHER MOTORIZED MOBILITY DEVICES~~

***

Sec. 26-61. Legislative intent.

It is the intent of this Article to prohibit or otherwise regulate the use of ~~Electric Bicycles, Motorized Scooters, and other~~ ~~Motorized M~~Micromobility Devices within the Village.

***

Sec. 26-62. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning.

Bicycle Path. As defined in F.S. § 316.003(6), as amended, a Bicycle Path is any road, path, or way that is open to bicycle travel, which road, path, or way is physically separated from motorized vehicular traffic by an open space or by a barrier and is located either within the highway right-of-way or within an independent right-of-way.

Bicycle Lane. As defined in Section F.S. § 316.003(6), as amended, a Bicycle Lane is any portion of a roadway or highway which is designated by pavement markings and signs for preferential or exclusive use by bicycles.

Designated Streets. All streets within the Village except Crandon Boulevard.

Electric Bicycle. As defined in F.S. § 316.003(23), as amended, an Electric Bicycle is a bicycle or tricycle equipped with fully operable pedals, a seat or saddle for the use of the rider, and an electric motor of less than 750 watts which meets the requirements of one of the following three classifications:

(1) *Class 1 Electric Bicycle* means an electric bicycle equipped with a motor that provides assistance only when the rider is pedaling and that ceases to provide assistance when the electric bicycle reaches the speed of 20 miles per hour.

(2) *Class 2 Electric Bicycle* means an electric bicycle equipped with a motor that may be used exclusively to propel the electric bicycle and that ceases to provide assistance when the electric bicycle reaches the speed of 20 miles per hour.

[1] Coding: ~~Strikethrough words~~ are deletions to the existing words. Underlined words are additions to the existing words. Changes between first and second reading are indicated with highlighted ~~double strikethrough~~ and double underline.

(3) *Class 3 Electric Bicycle* means an electric bicycle equipped with a motor that provides assistance only when the rider is pedaling and that ceases to provide assistance when the electric bicycle reaches the speed of 28 miles per hour.

This term does not include motorized scooters.

~~*Motorized M*~~*Micromobility Devices.* As defined in Section 316.003(41), Florida Statutes, as amended, a Micromobility Device is a motorized transportation device for individual use which is typically 20 to 36 inches in width and 50 pounds or less in weight and which operates at a speed of typically less than 15 miles per hour but no more than 28 miles per hour. This term includes both human powered and nonhuman-powered device such as a bicycle, electric bicycle, motorized scooter, or any other device that is owned by an individual or part of a shared fleet. ~~Any personal device that is powered by a motor with or without a seat or saddle for the use of the rider, which is designed to travel on one or more wheels including, but not limited to, boards, skateboards, skates, hoverboards, or other similar personal mobility devices.~~ This definition shall not include golf carts or a motorized wheelchair or similar mobility device used for mobility purposes by persons with disabilities.

Motorized Scooters. As defined in F.S. § 316.003(48), as amended, a Motorized Scooter is any vehicle or micromobility device that is powered by a motor with or without a seat or saddle for the use of the rider, which is designed to travel on not more than three wheels, and which is not capable of propelling the vehicle at a speed greater than 20 miles per hour on level ground. This term does not include an electric bicycle.

***

Sec. 26-63. Prohibited and Permitted uses.

(a) Prohibited Use.

(i) *Designated Streets, Beaches, Dunes.* Unless otherwise authorized under this Article, all ~~Electric Bicycles, Motorized Scooters, and Motorized M~~Micromobility Devices shall be prohibited from operating on Designated Streets, including streets and highways, sidewalks or sidewalk areas, or upon any bicycle path, multiuse path, or trail network, or over a beach as defined in F.S. § 161.54(3), as amended, or a dune as defined in F.S. § 161.54(4), as amended, under the Village's jurisdiction.

~~(b)~~ (ii) *Crandon Boulevard.* The operation of micromobility devices on Crandon Boulevard, as defined in Section 2-98.3(3) of the Miami-Dade County Code of Ordinances, are subject to the provisions of Section 2-98.3 of the Miami-Dade County Code of Ordinances and any additional regulations agreed to in an interlocal agreement between the Village and Miami-Dade County.

(b) Permitted Use.

(i) Class 1 Electric Bicycles and Motorized Scooters are the only Micromobility Devices permitted to operate on Designated Streets, subject to the following regulations:

(a) Operators must be at least 18 years old; and

(b) Operators must have a government-issued photographic identification.

(c) The provisions of this Article shall not apply to:

(1) Governmental personnel on official business, emergency vehicles, or the use of special mobile equipment for repair or maintenance of public property.

(2) A person with a disability who uses a motorized wheelchair or similar mobility device for mobility purposes.

***

Section 3. Codification. That it is the intention of the Village Council, and it is hereby ordained that the provisions of this Ordinance shall become and be made a part of the Village's Code of Ordinances, and that the sections of this Ordinance may be renumbered or relettered to accomplish such intentions, and that the word Ordinance shall be changed to Section or other appropriate word.

Section 4. Severability. If any section, sentence, clause, or phrase of this Ordinance is held to be invalid or unconstitutional by any court of competent jurisdiction, then said holding shall in no way affect the validity of the remaining portions of this Ordinance.

Section 5. Conflicts. That all ordinances or parts of ordinances, resolutions or parts of resolutions, in conflict herewith, are repealed to the extent of such conflict.

Section 6. Village Manager Review and Recommendation. Upon one year from adoption of this Ordinance, the Village Manager shall make a recommendation to the Village Council of any modifications to the Ordinance that may be necessary.

Section 7. Effective Date. That this Ordinance shall become effective immediately upon final adoption on second reading.

PASSED on first reading on the _____ day of _____ 2025.

PASSED AND ADOPTED on second reading on the ____ day of _____ 2025.

ORDINANCE NO. 2025-_____

AN ORDINANCE OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, AMENDING SECTION 2-10, "ADVISORY BOARDS," OF CHAPTER 2 OF THE VILLAGE CODE OF ORDINANCES RELATING TO ADVISORY BOARD ADMINISTRATION AND BOARD MEMBER REQUIREMENTS; PROVIDING FOR SEVERABILITY; PROVIDING FOR CODIFICATION; PROVIDING FOR CONFLICTS; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Village Council of the Village of Key Biscayne ("Village") desires to revise provisions relating to advisory board administration and board member requirements for all Village boards created pursuant to Section 2-10, "Advisory Boards" of the Village Code of Ordinances; and

WHEREAS, the Village Council finds that adoption of this Ordinance is in the best interest and welfare of the Village and its residents.

NOW, THEREFORE, BE IT ORDAINED BY THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, AS FOLLOWS:[1]

Section 1. Recitals. The above-stated recitals are true and correct and are incorporated herein by this reference.

Section 2. Amending Section 2-10, "Advisory Boards" of the Village Code. That Section 2-10, "Advisory Boards" of the Code of Key Biscayne, Florida, is hereby amended to read as follows:

CHAPTER 2 – ADMINISTRATION

* * *

Article I. – IN GENERAL

* * *

Sec. 2-10. Advisory boards.

* * *

(e) Unless otherwise provided by the ordinance which establishes a specific board, board reports which are presented to the Council shall include the following components:

(1) *Name*. The name of the board making the report, a listing of officers, an attendance table including members and any other person(s) who attended the meetings, all agendas, minutes, staff reports, and any other documents that were reviewed by the board. This information may be complied in a separate document.

[1] Coding: ~~Strikethrough words~~ are deletions to the existing words. Underlined words are additions to the existing words. Changes between first and second reading are indicated with ~~**double strikethrough**~~ and double underline.

(2) *Methodology*. The report shall include a description of the way in which the board undertook its charge.

(3) *Facts found*. The report shall include the facts uncovered or information obtained.

(4) *Recommendations*. The report shall include the recommendations of the board, preferably in a form suitable for framing of a motion for the Village Council to consider.

(5) *Timing of report*. Boards shall submit an annual progress report to the Village Council at the first Council meeting in December of each year. The annual progress report shall include a listing of the boards' work program for the following calendar year. The boards' work program shall be subject to approval by the Village Council. Those boards of limited duration which have completed their work prior to the December timeframe set forth above, shall ~~earlier~~ present their report to the Council once their assigned work has been completed. In addition, ~~the Chairperson or designated member(s) of each~~ upon the Village Council's request, a board shall provide and present a ~~quarterly verbal~~ report to the Village Council ~~which addresses the progress that the board has made in completing the board's work program. The quarterly progress reports shall be presented at the first Village Council meeting in each of the following months: March, June and September. The annual progress report in December shall serve as the progress report for that quarter~~. As background information for ~~the quarterly~~ reports of the board, Village staff shall provide the Village Council with an attendance chart of the board, board agendas, board minutes, the yearly work program of the board, and a list of the accomplishments that the board has achieved during the prior quarter.

(6) *Signatures*. All members of the board who concur with the report must sign the report. The Chairperson may sign the report only if a majority of the members of the board approve the report and authorize the Chairperson to sign. Those members who do not concur with the report shall be listed as dissenting members. The dissenting members may submit their own report(s) in the same format as presented above.

(7) *Resolution*. The board's report may include a proposed resolution for consideration by the Village Council as a vehicle for adopting the recommendations of the board.

* * *

(h) Board members must be residents of the Village who are 18 years of age or older and may only serve on one board.

* * *

Section 3. Severability. That the provisions of this Ordinance are declared to be severable and if any section, sentence, clause or phrase of this Ordinance shall for any reason be held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining sections, sentences, clauses, and phrases of this Ordinance but they shall remain in effect, it being the legislative intent that this Ordinance shall stand notwithstanding the invalidity of any part.

Section 4. Codification. That it is the intention of the Village Council and it is hereby ordained that the provisions of this Ordinance shall become and be made a part of the

Village's Code of Ordinances, and that the sections of this Ordinance may be renumbered or relettered to accomplish such intentions, and that the word Ordinance shall be changed to Section or other appropriate word.

Section 5. Conflicts. That all ordinances or parts of ordinances, resolutions or parts of resolutions, in conflict herewith, are repealed to the extent of such conflict.

Section 6. Effective Date. That this Ordinance shall become effective immediately upon final adoption on second reading.

PASSED on first reading on the _____ day of _____, 2025.

MEMORANDUM

DATE: August 19, 2025

TO: Honorable Mayor and Councilmembers

FROM: Steven C. Williamson, Village Manager

RE: Modification of the Maximum Stormwater Rate

RECOMMENDATION

Recommend the Village Council amend the maximum rate for the Stormwater Utility Fee.

DISCUSSION

Purpose: Increasing the maximum stormwater rate will enable the Village to pursue a $60 million low-interest construction loan through the Florida Department of Environmental Protection's Clean Water State Revolving Fund (CWSRF) program for the Zone 1 portion of the Resilient Infrastructure and Adaptation Plan (RIAP).

This maximum rate adjustment serves **solely to demonstrate the Village's financial capacity to repay the loan and does not constitute an actual fee increase**. Any future changes to actual stormwater rates must be separately approved by the Village Council.

Background: On June 22, 1993, the Village passed Ordinance 93-11 to provide for the collection, storage, treatment and conveyance of stormwater within the Village. Pursuant to Chapter 166 and Section 403 of the Florida Statutes, the Village is authorized to construct, reconstruct, repair, and extend stormwater drainage management systems and to establish just and equitable rates, fees and charges for the services and facilities provided by the stormwater system. The fees have been modified over the years as follows:

Resolution	Date	Monthly Rate / ERU
1993-46	Oct-1993	$ 5.00
2011-04	Mar-2011	$ 8.90
2019-60	Sep-2019	$ 16.90

On December 8, 2020, the Village passed Ordinance 2020-08 amending Section 29-5 of the Village Code to allow the Village to utilize the Uniform Method to levy, collect, and enforce non-

ad valorem assessments pursuant to Section 403.0893(3) as provided for in Section 197.3632 of the Florida Statutes.

On August 24, 2022, The Village passed Ordinance 2022-05 transitioning from an Equivalent Residential Unit ("ERU") methodology for allocating stormwater utility fees among properties in the Village to a two-part allocation methodology (the "Stormwater Ordinance").

The first part of the methodology is for the Base Fee which relates to roadways, sidewalks, and other governmental public areas. This area accounts for 14.34% of the total Impervious Area of the Village. This portion is then apportioned to each parcel based on the estimated number of trips generated by such parcel based on land use, as provided in the Stormwater Ordinance.

With respect to the calculation of the annual Base Fee, there is an estimated total average daily trip generation within the Village of 63,227. The Stormwater Ordinance provides that the average daily trip generation shall be calculated for all Developed Property within the Village as follows:

a. For each Single-Family Residential Property Dwelling Unit the average daily trip generation is 9.43 trips.
b. For each Multifamily Residential Property Dwelling Unit the average daily trip generation is 4.54 trips.
c. For each Non-Residential Developed Property per 1,000 square feet of non-residential building space the average daily trip generation is 21.00 trips.

The second part of the fee is a Parcel fee using impervious square feet area of developed properties because permeability characteristics vary widely among single family, multi-family, and commercial properties. The Parcel Fee is allocated to the areas not relating to roadways, sidewalks, and governmental properties and accounts for 85.66% of the total Impervious Area of the Village. This charge is apportioned to each parcel based on such Developed Property's Impervious Area calculated as set forth in the Stormwater Ordinance

On September 15, 2023, the Village passed Resolution 2023-54, establishing maximum stormwater rates of $10.0075 per trip and $0.2436 per square foot of impervious area.

On June 10, 2025, the Village passed Resolution 2025-21, setting current stormwater rates for fiscal year 2025-26 at $5.0038 per trip and $0.1340 per square foot of impervious area. While these current rates remain 82% below the maximum rates established in Resolution 2023-54, the maximum rates must be increased to **demonstrate adequate revenue capacity** for the requested $60 million construction loan through the Clean Water State Revolving Fund (CWSRF) program.

On July 1, 2025, the Village Council adopted Resolution 2025-25 to declare the Village's intent to increase the maximum fee and declare a public hearing prior to the final adoption of the increased fee.

Justification: The Clean Water State Revolving Fund requires loan applicants to maintain a debt service coverage ratio of at least 115%, meaning net revenues must equal or exceed 115% of annual debt service obligations. Based on projected operational expenses, existing debt service, additional Zone 1 operational costs, and the proposed $60 million construction loan, the Village must increase maximum stormwater rates by to meet CWSRF requirements.

RESOLUTION NO. 2025-_____

A RESOLUTION OF THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, AMENDING THE MAXIMUM RATE FOR THE STORMWATER UTILITY FEE RELATING TO THE STORMWATER MANAGEMENT SYSTEM; PROVIDING FOR AUTHORITY, PURPOSE, AND DEFINITIONS; CONFIRMING THE INITIAL RATE RESOLUTION; PROVIDING FOR EQUALIZATION, FILING, AND LIEN ON PROPERTIES TO BE ASSESSED; PROVIDING FOR EFFECT OF ADOPTION OF FINAL ASSESSMENT RESOLUTION; PROVIDING FOR FILING; PROVIDING FOR CONFLICTS; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, on June 22, 1993, the Village Council of the Village of Key Biscayne (the "Village") adopted Ordinance 93-11, establishing the Village's stormwater utility (the "Stormwater Utility"), which is codified in Chapter 29 of the Village's Code of Ordinances (the "Stormwater Ordinance"); and

WHEREAS, the Village collects a Stormwater Utility Fee using the property tax bill as authorized by 197.3632, Florida Statutes (the "Uniform Method"), and the Stormwater Code; and

WHEREAS, on September 15, 2023, the Village Council held a public hearing on and adopted Resolution No. 2023-54 (the "2023 Rate Resolution"), establishing, among other things, the Village's Maximum Rate for the Stormwater Utility Fee, including a maximum rate for the Base Fee and the Parcel Fee (which includes the cost of collection); and

WHEREAS, the Uniform Method provides that any increase in rates above the maximum rate previously established may only be levied after providing for a public hearing on such increase and after providing published and mailed notice of the public hearing to the property owners subject to such increase; and

WHEREAS, on June 10, 2025, the Village Council adopted Resolution No. 2025-21 (the "2025 Rate Resolution"), to increase the annual Stormwater Utility rates for Fiscal Year 2025-26 in an amount not to exceed the Maximum Rates established by the FY 2023 Rate Resolution and approve the

Stormwater Utility Fee Non-Ad Valorem Assessment Roll for Fiscal Year 2025-26 (the "FY 2025 Assessment Roll") attached hereto as Exhibit "A"; and

WHEREAS, on July 1, 2025, the Village Council adopted Resolution No. 2025-26 (the "Initial Rate Resolution"), to declare the Village's intent to increase the maximum Stormwater Utility Fee and declare a public hearing prior to the final adoption of the increased maximum Stormwater Utility Fee rates, including a maximum Base Fee and Parcel Fee; and

WHEREAS, the Final Assessment Roll has heretofore been made available for inspection by the public, as required by the Stormwater Ordinance and the Uniform Collection Act; and

WHEREAS, the Village provided notice of a public hearing relating to this Final Rate Resolution by mail to each person owning property subject to the Stormwater Utility Fee and by publication in a newspaper of general circulation, as shown in the affidavit of mailing and proof of publication attached hereto as Exhibits "A" and "B," respectively; and

WHEREAS, the Village Council held a public hearing on August 19, 2025, to receive and consider the comments and objections of all interested persons regarding the proposed increase to the maximum Stormwater Utility Fee, as required by the Uniform Method and the Stormwater Ordinance; and

WHEREAS, any and all complaints as to the Rate per Trip, the Rate Per Impervious Area, the individual Developed Properties Base Fee and Parcel Fee have been considered by the Village Council meeting for the purpose of considering the equalization of individual assessments; and

WHEREAS, the Village Council desires to adopt this Final Rate Resolution to increase the maximum Stormwater Utility Fee for Fiscal Year 2026-27 and future fiscal years as set forth herein; and

WHEREAS, the Village Council finds that this Resolution is in the best interest and welfare of the residents of the Village.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, AS FOLLOWS:

Section 1. Recitals. That each of the above-stated recitals is hereby adopted, confirmed, and incorporated herein.

Section 2. Purpose, Definitions, and Authority.

a. **Purpose.** This Resolution constitutes the Final Rate Resolution required by the Stormwater Ordinance to adopt the increase to the maximum Stormwater Utility Fee.

b. **Definitions.** All capitalized words and terms not otherwise defined herein shall have the meanings set forth in the Stormwater Ordinance.

c. **Authority.** This Final Rate Resolution is adopted pursuant to the provisions of the Stormwater Ordinance, Sections 166.021 and 166.041, Florida Statutes, the Uniform Collection Act, and other applicable provisions of law.

Section 3. Establishing Maximum Stormwater Utility Fees. Having considered all testimony provided at the public hearing and based on the findings and professional reports described in the 2023 Resolution, including the Final Stormwater Fee Report, and the Initial Rate Resolution, the Village Council has determined that it is appropriate, advisable, and in the best interests of the Village, its residents, and property owners, to increase the maximum Stormwater Utility Fee rates for Fiscal Year 2026-27 and future fiscal years as follows:

a. The Base Fee Maximum Rate is hereby established in an amount not to exceed a Per Trip Rate of $16.8126 in order to account for any future escalations in Annual Stormwater Management System Costs.

b. The Parcel Fee Maximum Rate, which includes the cost of collection and early payment discount, is hereby established in an amount not to exceed a Rate Per Impervious Area of

$0.4092 in order to account for any future escalations in Annual Stormwater Management System Costs.

The determinations made by the Village pursuant to Sections 4 and 5 of the 2023 Rate Resolution, as amended by the 2025 Rate Resolution relating to Annual Stormwater Management System Costs, the Base Fee rate, the Parcel Fee rate, and the cost of collection and early payment discount are hereby confirmed and incorporated herein except as amended herein. The levy and imposition of Fiscal Year 2025-26 Base Fees and Parcel Fees as determined by applying the current Rate per Trip and Rate Per Impervious Area assessed against the Developed Properties described in the Final Assessment Roll attached hereto as Exhibit "C" shall be in accordance with the 2023 Rate Resolution, as amended by the 2025 Rate Resolution.

Section 4. Confirmation of Initial Rate Resolution. The Initial Rate Resolution, as modified, amended and supplemented herein, is hereby confirmed.

Section 5. Equalization. Having considered all complaints as to individual Fees, the Village Council has determined that no adjustment or equalization is necessary to provide for a just and fair result.

Section 6. Effect of Adoption of Resolution. The adoption of this Final Rate Resolution shall be the final adjudication of the issues presented (including, but not limited to, the method of apportionment and levy, the maximum rates of the Stormwater Utility Fee, the Final Assessment Roll, and the levy and lien of the Stormwater Utility Fee), unless proper steps shall be initiated in a court of competent jurisdiction within thirty (30) days from the date of adoption of this Resolution.

Section 7. Revisions to Assessments. If any Stormwater Utility Fee made under the provisions of this Final Rate Resolution is either in whole or in part annulled, vacated, or set aside by the judgment of any court, or if the Village Council is satisfied that any such Stormwater Utility Fee is so irregular or defective that the same cannot be enforced or collected, or if the Village Council has

failed to include or omitted any Developed Property or Dwelling Unit with respect to any Multi-family Residential Property on the Final Assessment Roll which property should have been so included, the Village Council may take all necessary steps to impose a new Stormwater Utility Fee against any such property using the Stormwater Management System following as nearly as may be practicable, the provisions of the Stormwater Ordinance and the Uniform Collection Act and in case such second Stormwater Utility Fee is annulled, vacated, or set aside, the Village Council may obtain and impose other Stormwater Utility Fees until a valid Stormwater Utility Fee is imposed.

Section 8. Filing. Upon adoption, this Resolution shall immediately be filed with the Village Clerk, and the Final Assessment Roll shall be filed with the Village Council, Village Clerk and the Miami-Dade Property Appraiser and Tax Collector in the manner provided in the Stormwater Ordinance and the Uniform Collection Act.

Section 9. Conflicts. All Resolutions or parts thereof in conflict herewith are hereby repealed to the extent of such conflict.

Section 10. Severability. The provisions of this resolution are declared to be severable and if any section, sentence, clause or phrase of this resolution shall for any reason be held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining sections, sentences, clauses, and phrases of this resolution but they shall remain in effect, it being the legislative intent that this resolution shall stand notwithstanding the invalidity of any part.

Section 11. Effective Date. This Final Rate Resolution shall take effect immediately upon its passage and adoption.

PASSED and ADOPTED this _____ day of _____, 2025.

Martin County Fire Rescue paramedics watch a loggerhead sea turtle make her way to the ocean after being rescued from being wedged in rocks on House of Refuge Beach on Wednesday.

Martin County firefighters, FWC officers, rescue loggerhead turtle wedged in rocks

BY DAVID GOODHUE
dgoodhue@miamiherald.com

Florida Fish and Wildlife Conservation Commission officers and Martin County firefighters rescued a giant loggerhead sea turtle that became trapped in rocks on the beach earlier this week.

The female reptile, which weighed about 300 pounds, was spotted by a local photographer who was shooting sunrise pictures at House of Refuge Beach in Stuart Wednesday morning, according to an FWC Facebook post.

She called FWC, and officers arrived, as did Martin County Fire Rescue paramedics, the agency said. They were able to lift the large turtle, and she was able to make her way back to the ocean unharmed, the FWC said.

The FWC asks anyone who sees injured wildlife to call the agency's hotline at 888-404-3922 (FWCC).

'Don't Lie for the Other Guy.' ATF targets straw purchases of guns

BY ISABEL RIVERA
irivera@miamiherald.com

In the year Ashley Perez has worked as a cashier for an indoor gun range, she has witnessed a grim trend that firearm retailers have seen in recent years.

"I had a homeless lady come in. ... She was trying to purchase a gun, but just with dollar bills. ... [Another time] a mother came in to buy her younger son a gun, saying, 'It's for me,' while the son was saying it's for him," the 24-year-old described seeing last summer.

Perez and her team at Top Gun Indoor Range Florida in Kendall identified the pattern in both cases almost instantly. They were tell-tale attempts at straw purchases — buying firearms for people legally prohibited from owning them.

It's a federal crime that could land an a offender a $250,000 fine and a 15-year prison sentence. A 2022 act signed by then-President Joe Biden tacks on 10 more years behind bars if the gun is used to commit a felony, an act of terrorism or a drug-trafficking crime.

In a public campaign, the Bureau of Alcohol, Tobacco, Firearms and Explosives is warning potential straw purchasers about those steep penalties.

"The message behind the campaign is simple: If you're buying a gun for someone who can't legally own one, you are committing a crime," said Florida Department of Law Enforcement Special Agent John Vecchio during a Friday press conference at the gun range. "You're helping potentially arm someone with dangerous intentions."

Vecchio joined the ATF, Miami-Dade Sheriff's Office and National Shooting Sports Foundation at Top Gun to announce the newest iteration of the "Don't Lie for the Other Guy" campaign, which aims to curb the crime.

Next month, South Floridians can expect to see billboards and posters with messaging that includes "Buy a gun for someone who can't and buy yourself 15 years in jail." Listeners of top radio stations and podcasts will hear the same. The 25-year-old, nationwide campaign isn't changing its strategies, but instead focusing on South Florida, which is a magnet for domestic and international gun trafficking.

"The availability of firearms is higher here and the restrictions on sales are a little bit less than they are in some states," explained Rob Cekada, the ATF's deputy director, on why the crime is prevalent in the area. "One of the reasons we picked Miami ... there's a lot of firearms trafficking that begins here and ends up in the Caribbean and also ends up in Mexico as well."

But the real danger behind straw-purchasing, Cekada says, is how it arms South Florida felons and encourages violent crimes.

The deputy director's latest investigation, he shared, is still turning up illegally traded guns at crime scenes that happened in Miami and Margate and are linked to two Florida straw purchasers who bought more than 48 firearms.

A 2024 ATF report confirms the pipeline nationwide, revealing that of the 7,000+ cases between 2017 and 2021 in which firearms were peddled, 60% of the "end users" had at least one prior felony conviction.

"Rarely do we recover a firearm at a crime scene that was purchased by the perpetrator," said Hayden O'Byrne, the United States Attorney for the Southern District of Florida, at the briefing.

He added that retailers such as Top Gun and other federal firearm licensees play a large role in preventing straw purchases, calling them "the first line of defense." FFLs are individuals or businesses allowed to manufacture, import and deal firearms and are required to renew the permit with ATF every three years.

Because Florida gun laws require only federal firearm licensees — not private sellers — to conduct background checks when transferring firearms, employees such as Perez are crucial to preventing the crime.

"We look out for signs, that's the first thing we do. The second we see a person walk through the door, we see the way they stand, the way they're speaking, if they're grabbing their phone too much," she said. "We want our hands [clean], and we want to do it the right way and the legal way."

That's why the "Don't Lie for the Other Guy" campaign is teaching retailers how to identify straw-purchasers.

"This is a two-prong approach," said Joseph Bartozzi, president of the NSSF, which launched the campaign with the ATF in 2000. "Part of it is we help to work with the retailers like this to teach them about how to identify the red flags."

The other half? To warn everyday people unaware of the crime's severity before they make the mistake.

Bartozzi said that though money is a key motivator for those initiating straw purchases, it's not the only one.

Peer pressure and "a sense of loyalty" to family or friends explain why some participate in the crime. Others are emotionally manipulated or threatened with physical harm by those barred from owning guns themselves. .

"It's not just criminal, but even unwitting, law-abiding people that might be caught up with a boyfriend or girlfriend," he said. "We want to make sure everyone understands that it is a crime, even if it's unintentionally related to a crime that's going to be committed later on."

PUBLISHED NOTICE

NOTICE OF PUBLIC HEARING RELATING TO THE

MAXIMUM STORMWATER UTILITY FEES IN THE VILLAGE OF KEY BISCAYNE

Notice is hereby given that the Village Council of the Village of Key Biscayne (the "Village") will hold a public hearing on August 19, 2025, at 6:30 p.m. or as soon as practicable thereafter, during the Village Council Meeting at the Council Chambers located at 560 Crandon Boulevard, Key Biscayne, FL 33149, for the purpose of considering an increase to the Maximum Stormwater Utility Fee that may be collected commencing October 1, 2026, and in subsequent fiscal years. All affected property owners have a right to appear at the hearing and to file written objections with the Village Council within 20 days of this notice.

The purpose of the Stormwater Utility Fee is to fund the planning, construction, operation, and maintenance of the Village Stormwater Management System, which stormwater management system is required pursuant to Section 403.0891, Florida Statutes. The Stormwater Utility Fee is comprised of two components: (A) a Base Fee attributable to the Stormwater Management System for roadways and sidewalks allocated upon a Rate Per Trip basis, and (B) a Parcel Fee based upon the impervious area relating to each developed property.

For Fiscal Year 2025-26, the estimated revenue to be collected within the Village from the Stormwater Utility Fee, is estimated to be $2,435,200.16, of which $348,574.00 is associated with the 15.5% Base Fee and the remaining $2,086,626.16 is associated with the Parcel Fee, including the cost of collection. For future fiscal years, the maximum revenue that may be collected from the proposed Maximum Stormwater Utility Fee is $7,436,720.85 (including cost of collection), of which $1,064,725.15 is associated with the 15.5% Base Fee and the remaining $6,371,995.70 is associated with the Parcel Fee, including the cost of collection.

With respect to the calculation of the FY 2025-26 Base Fee, a Per Trip Rate of $5.5042 shall be imposed. The annual Base Fee is calculated by dividing each property's average daily trip generation. In order to provide for any escalation in Annual Stormwater Management System Costs for any future Fiscal Years, a Base Fee Maximum Rate is proposed in an amount not to exceed a Per Trip Rate of $16.8126.

With respect to the calculation of the FY 2025-26 Parcel Fee, a Rate Per Impervious Area of $0.1340, which includes the cost of collection, shall be imposed. The Parcel Fee to be collected is based upon the impervious area for each developed property. In order to provide for any escalation in Annual Stormwater Management System Costs for any future Fiscal Years, a Parcel Fee Maximum Rate, which includes the cost of collection, is proposed in an amount not to exceed a Rate Per Impervious Area of $0.4092.

Annual Stormwater Utility Fees are collected by the Miami-Dade County Tax Collector through the tax bill to be mailed in November 2025 and subsequent years pursuant to Section 197.3632, Florida Statutes and Section 29-5 of the Village Code of Ordinance. Failure to pay the fee will cause a tax certificate to be issued against the property which may result in a loss of title.

Pursuant to Section 286.0105, Florida Statutes, if you decide to appeal any decision made by the Village Council with respect to any matter considered at the hearing or at any subsequent meeting to which the Village Council has continued its deliberations, you will need a record of the proceedings and may need to ensure that a verbatim record is made, including the testimony and evidence upon which the appeal is to be made. In accordance with the Americans with Disabilities Act, persons needing a special accommodation or an interpreter to participate in this proceeding should contact the Village Clerk, at (305)365-5506 at least seven days prior to the hearing.

Unless proper steps are initiated in a court of competent jurisdiction to secure relief within 20 days from the date of Village Council action at the above hearing, such action shall be the final adjudication of the issues presented. If you have any questions, please contact the Village Clerk's Office at 305-365-5506.

PUBLISHED NOTICE

NOTICE OF PUBLIC HEARING RELATING TO THE

MAXIMUM STORMWATER UTILITY FEES IN THE VILLAGE OF KEY BISCAYNE

Notice is hereby given that the Village Council of the Village of Key Biscayne (the "Village") will hold a public hearing on August 19, 2025, at 6:30 p.m. or as soon as practicable thereafter, during the Village Council Meeting at the Council Chambers located at 560 Crandon Boulevard, Key Biscayne, FL 33149, for the purpose of considering an increase to the Maximum Stormwater Utility Fee that may be collected commencing October 1, 2026, and in subsequent fiscal years. All affected property owners have a right to appear at the hearing and to file written objections with the Village Council within 20 days of this notice.

The purpose of the Stormwater Utility Fee is to fund the planning, construction, operation, and maintenance of the Village Stormwater Management System, which stormwater management system is required pursuant to Section 403.0891, Florida Statutes. The Stormwater Utility Fee is comprised of two components: (A) a Base Fee attributable to the Stormwater Management System for roadways and sidewalks allocated upon a Rate Per Trip basis, and (B) a Parcel Fee based upon the impervious area relating to each developed property.

For Fiscal Year 2025-26, the estimated revenue to be collected within the Village from the Stormwater Utility Fee, is estimated to be $2,435,200.16, of which $348,574.00 is associated with the 15.5% Base Fee and the remaining $2,086,626.16 is associated with the Parcel Fee, including the cost of collection. For future fiscal years, the maximum revenue that may be collected from the proposed Maximum Stormwater Utility Fee is $7,436,720.85 (including cost of collection), of which $1,064,725.15 is associated with the 15.5% Base Fee and the remaining $6,371,995.70 is associated with the Parcel Fee, including the cost of collection.

With respect to the calculation of the FY 2025-26 Base Fee, a Per Trip Rate of $5.5042 shall be imposed. The annual Base Fee is calculated by dividing each property's average daily trip generation. In order to provide for any escalation in Annual Stormwater Management System Costs for any future Fiscal Years, a Base Fee Maximum Rate is proposed in an amount not to exceed a Per Trip Rate of $16.8126.

With respect to the calculation of the FY 2025-26 Parcel Fee, a Rate Per Impervious Area of $0.1340, which includes the cost of collection, shall be imposed. The Parcel Fee to be collected is based upon the impervious area for each developed property. In order to provide for any escalation in Annual Stormwater Management System Costs for any future Fiscal Years, a Parcel Fee Maximum Rate, which includes the cost of collection, is proposed in an amount not to exceed a Rate Per Impervious Area of $0.4092.

Annual Stormwater Utility Fees are collected by the Miami-Dade County Tax Collector through the tax bill to be mailed in November 2025 and subsequent years pursuant to Section 197.3632, Florida Statutes and Section 29-5 of the Village Code of Ordinance. Failure to pay the fee will cause a tax certificate to be issued against the property which may result in a loss of title.

Pursuant to Section 286.0105, Florida Statutes, if you decide to appeal any decision made by the Village Council with respect to any matter considered at the hearing or at any subsequent meeting to which the Village Council has continued its deliberations, you will need a record of the proceedings and may need to ensure that a verbatim record is made, including the testimony and evidence upon which the appeal is to be made. In accordance with the Americans with Disabilities Act, persons needing a special accommodation or an interpreter to participate in this proceeding should contact the Village Clerk, at (305)365-5506 at least seven days prior to the hearing.

Unless proper steps are initiated in a court of competent jurisdiction to secure relief within 20 days from the date of Village Council action at the above hearing, such action shall be the final adjudication of the issues presented. If you have any questions, please contact the Village Clerk's Office at 305-365-5506.

MEMORANDUM

DATE: August 19th, 2025

TO: Honorable Mayor and Councilmembers

FROM: Steven C. Williamson, Village Manager

RE: Milling and Paving of Village Roadways Work Order

RECOMMENDATION

Request the Village Council authorizes the Village Manager to execute a work order, not to exceed $492,850, with The Stout Group LLC to perform milling and paving services across various Village roadways (see attached map). The award shall not exceed the established unit price schedule and total budget allocation.

DISCUSSION

Purpose: This work order enables the Village to conduct critical resurfacing and roadway rehabilitation projects that preserve infrastructure integrity, improve safety, and maintain drivability.

Background: The Village issued ITB No. 2025-10 to secure a qualified contractor for comprehensive milling and paving services. The scope includes full removal and replacement of asphalt, ADA-compliant restoration, and reinstallation of traffic-calming features. Four responses were received, and a thorough evaluation determined The Stout Group LLC offered the best combination of experience, responsiveness, and readiness. Metro Express Inc., a highly qualified secondary vendor, is designated as a backup contractor.

Justification: The Village's roadway network is subject to consistent vehicular use and environmental exposure, leading to natural deterioration over time. Milling and resurfacing are essential maintenance activities that extend the service life of pavement, enhance safety, and reduce long-term repair costs. The selected contractor, The Stout Group LLC, has demonstrated the capability to deliver these services efficiently and at competitive unit prices. Proceeding with this contract will ensure that critical segments of the Village's roadway infrastructure are rehabilitated promptly, in line with scheduled capital improvement priorities.

Implementation/Integration Plan: Upon Council approval, the Public Works Department will coordinate phased execution to minimize traffic disruption. Residents will be notified in advance of any work. The secondary vendor may only be activated under clear and documented conditions where the primary vendor is unable to perform.

Cost Overview by Road Segment:

- **Calusa Park:** 3,399 SY – $ 78,186

- **Cape Florida Drive:** 4,679 SY – $ 107,617
- **Knollwood Drive:** 3,154 SY – $ 72,553
- **Island Drive:** 7,750 SY – $170,498
- **Mariner Drive:** 2,782 SY – $63,995
- **Total Estimated Cost:** $492,850

These costs are based on the square yard unit pricing submitted by The Stout Group, varying by roadway size and asphalt thickness. Final costs may vary should unforeseen site conditions arise during milling or resurfacing operations.

RESOURCE IMPACT

Recurring Funding: Capital Budgets / Maintenance & Repair

FUNDING SOURCES

- **GL Code**: 301-41-541-63097
- **Budget Line-Item**: REPAVE ROADWAY VILLAGE-WIDE / Capital Projects
- **Amount**: As noted above: "Cost Overview by Segment

STRATEGIC CONNECTION (GOAL / FOCUS AREA)

- Goal - Accessible, Connected, and Mobile Transportation Network
- Focus Area – Alleviate Traffic
- Action - Repave residential roadways to improve traffic mobility and safety and drainage

- Goal – Safe & Secure Village
- Focus Area – Maintain Safe Streets

RESOLUTION NO. 2025- _____

A CAPITAL PROJECT AUTHORIZING RESOLUTION OF THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, AUTHORIZING THE VILLAGE MANAGER TO ISSUE A WORK ORDER TO THE STOUT GROUP LLC FOR ROADWAY MILLING AND PAVING IN AN AMOUNT NOT TO EXCEED $492,850; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, on March 27, 2025, the Village of Key Biscayne (the "Village") issued Invitation to Bid No. 2025-10 (the "ITB") seeking bids from qualified firms for milling and paving roadway construction services (the "Services") on an as-needed basis; and

WHEREAS, on June 10, 2025, the Village Council adopted Resolution No. 2025-23, selecting The Stout Group LLC (the "Contractor") as the primary contractor to provide the Services and authorized the Village Manager to negotiate and execute an agreement with the Contractor for the Services; and

WHEREAS, on July 30, 2025, the Village entered into a contract with the Contractor for the Services (the "Agreement"); and

WHEREAS, the Village is in need of the Services for the roadways located along Calusa Park, Cape Florida Drive, Knollwood Drive, Island Drive, and Mariner Drive (collectively, the "Project"); and

WHEREAS, the Village Council desires to authorize the Village Manager to issue a work order to the Contractor for the Project in an amount not to exceed $492,850 pursuant to the terms and conditions of the Agreement; and

WHEREAS, the Village Council finds that this Capital Project Authorizing Resolution is in the best interest and welfare of the residents of the Village.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, AS FOLLOWS:

Section 1. **Recitals.** That each of the above-stated recitals are hereby adopted, confirmed, and incorporated herein.

Section 2. **Authorization.** That the Village Council hereby authorizes the Village Manager to issue a work order to the Contractor to provide the Services for the Project in an amount not to exceed $492,850 pursuant to the terms and conditions of the Agreement.

Section 3. **Effective Date.** That this Resolution shall be effective immediately upon adoption.

PASSED and ADOPTED this _____ day of _____, 2025.

(if the entity does not have an FEIN, include the Social Security Number of the individual signing this sworn statement. SS#: N/A)

Americans with Disabilities Act Compliance Affidavit

The above-named firm, corporation or organization is in compliance with and agrees to continue to comply with, and assure that any subcontractor, or third-party contractor under this project complies with all applicable requirements of the laws listed below including, but not limited to, those provisions pertaining to employment, provision of programs and services, transportation, communications, access to facilities, renovations, and new construction.

- The American with Disabilities Act of 1990 (ADA), Pub. L. 101-336, 104 Stat 327, 42 USC 1210112213 and 47 USC Sections 225 and 661 including Title I, Employment; Title II, Public Services; Title III, Public Accommodations and Services Operated by Private entities; Title IV, Telecommunications; and Title V, Miscellaneous Provisions.
- The Florida Americans with Disabilities Accessibility Implementation Act of 1993, Section 553.501-553.513, Florida Statutes:
- The Rehabilitation Act of 1973, 229 USC Section 794;
- The Federal Transit Act, as amended 49 USC Section 1612;
- The Fair Housing Act as amended 42 USC Section 3601-3631.

Proposer Initials

Public Entity Crimes Affidavit

I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentations.

I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime; or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, and partners, shareholders, employees, members, and agents who are active in management of an entity.

Based on information and belief, the statement, which I have marked below, is true in relations to the entity submitting this sworn statement.

(INDICATE WHICH STATEMENT APPLIES.)

[X] Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with ad convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives partners, shareholders, employees, members, or agents who are active in the management of the entity,

or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida , Division of Administrative Hearings and the final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list (attach a copy of the final order).

I understand that the submission of this form to the contracting officer for the public entity identified in paragraph 1 above is for that public entity only and that this form is valid through December 31 of the calendar year in which it is filed. I also understand that I am required to inform the public entity prior to entering into a contract in excess of the threshold amount provided in Section 287.017, Florida Statutes for category two of any change in the information contained in this form.

Proposer Initials

No Conflict of Interest or Contingent Fee Affidavit

Proposer warrants that neither it nor any principal, employee, agent, representative nor family member has paid or will pay any fee or consideration that is contingent on the award or execution of a contract arising out of this solicitation. Proposer also warrants that neither it nor any principal, employee, agent, representative nor family member has procured or attempted to procure this contract in violation of any of the provisions of the Miami-Dade County conflict of interest or code of ethics ordinances. Further, Proposer acknowledges that any violation of these warrants will result in the termination of the contract and forfeiture of funds paid or to be paid to the Proposer should the Proposer be selected for the performance of this contract.

Proposer Initials

Business Entity Affidavit

Proposer hereby recognizes and certifies that no elected official, board member, or employee of the Village of Key Biscayne (the " Village") shall have a financial interest directly or indirectly in this transaction or any compensation to be paid under or through this transaction, and further, that no Village employee, nor any elected or appointed officer (including Village board members) of the Village, nor any spouse, parent or child of such employee or elected or appointed officer of the Village, may be a partner, officer, director or proprietor of Proposer or Vendor, and further, that no such Village employee or elected or appointed officer, or the spouse, parent or child of any of them, alone or in combination, may have a material interest in the Vendor or Proposer. Material interest means direct or indirect ownership of more than 5% of the total assets or capital stock of the Proposer. Any exception to these above-described

restrictions must be expressly provided by applicable law or ordinance and be confirmed in writing by Village. Further, Proposer recognizes that with respect to this transaction or bid, if any Proposer violates or is a party to a violation of the ethics ordinances or rules of the Village, the provisions of Miami-Dade County Code Section 2-11.1, as applicable to Village, or the provisions of Chapter 112, part III, Fla. Stat., the Code of Ethics for Public Officers and Employees, such Proposer may be disqualified from furnishing the goods or services for which the bid or proposal is submitted and may be further disqualified from submitting any future bids or proposals for goods or services to Village.

Proposer Initials

Anti-Collusion Affidavit

1. Proposer/Bidder has personal knowledge of the matters set forth in its Proposal/Bid and is fully informed respecting the preparation and contents of the attached Proposal/Bid and all pertinent circumstances respecting the Proposal/Bid;
2. The Proposal/Bid is genuine and is not a collusive or sham Proposal/Bid; and
3. Neither the Proposer/Bidder nor any of its officers, partners, owners, agents, representatives, employees, or parties in interest, including Affiant, has in any way colluded, conspired, connived, or agreed, directly or indirectly with any other Proposer/Bidder, firm, or person to submit a collusive or sham Proposal/Bid, or has in any manner, directly or indirectly, sought by agreement or collusion or communication or conference with any other Proposer/Bidder, firm, or person to fix the price or prices in the attached Proposal/Bid or of any other Proposer/Bidder, or to fix any overhead, profit, or cost element of the Proposal/Bid price or the Proposal/Bid price of any other Proposer/Bidder, or to secure through any collusion, conspiracy, connivance or unlawful agreement any advantage against the Village of Key Biscayne or any person interested in the proposed Contract.

Proposer Initials

Scrutinized Company Certification

1. Proposer certifies that it and its subcontractors are not on the Scrutinized Companies that Boycott Israel List. Pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer or its subcontractors are found to have submitted a false certification; or if the Proposer, or its subcontractors are placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
2. If the Agreement that may result from this ITB is for more than one million dollars, the Proposer certifies that it and its subcontractors are also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer, its affiliates, or its subcontractors are found to have submitted a false certification; or if the Proposer, its affiliates, or its subcontractors are placed on the Scrutinized

Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

3. The Proposer agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under the Agreement that may result from this ITB. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize the above-stated contracting prohibitions then they shall become inoperative.

Proposer Initials

Acknowledgment, Warranty, and Acceptance

1. CONTRACTOR warrants that it is willing and able to comply with all applicable state of Florida laws, rules and regulations.

CONTRACTOR warrants that it has read, understands, and is willing to comply with all requirements of **MILLING AND PAVING ROADWAYS IN VILLAGE OF KEY BISCAYNE** and any addendum/addenda related thereto.

2. CONTRACTOR warrants that it will not delegate or subcontract its responsibilities under an agreement without the prior written permission of the Village Council or Village Manager, as applicable.
3. CONTRACTOR warrants that all information provided by it in connection with this Proposal is true and accurate.

Proposer Initials

Truth in Negotiation Certification

The CONTRACTOR hereby certifies, covenants, and warrants that wage rates and other factual unit costs supporting the compensation for this project's agreement are accurate, complete, and current at the time of contracting.

The CONTRACTOR further agrees that the original agreement price and any additions thereto shall be adjusted to exclude any significant sums by which the Village determines the agreement price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such agreement adjustments shall be made within (1) year following the end of the contract. For purposes of this certificate, the end of the agreement shall be deemed to be the date of the final billing or acceptance of the work by the Village, whichever is later.

FORM 6B

INDEPENDENCE AFFIFAVIT

The undersigned individual, being duly sworn, deposes and says that:

I am Manager of The Stout Group, LLC, the proposer that has submitted the attached proposal;

I hereby certify to the best of my knowledge that neither I nor any of those persons residing in my household have or have had during the past five years, any relationships (professional, financial, familial or otherwise) with the VILLAGE (or any of its districts), its elected or appointed officials, its employees or agents, or any member or alternate member of the Selection Committee.

A "relationship" for the purpose of this affidavit shall include but not be limited to employer/employee, consultant, contractor, subcontractor, associate, officer, partnership, joint venture, ownership greater than one percent, landlord/tenant, or creditor/debtor, gift donor/recipient (in excess of $100.00), past or on-going personal relationships, or joint involvement with charitable/voluntary activities. **Relationship includes having a prior or current contract with the VILLAGE.**

Except as set forth below, I hereby certify to the best of my knowledge that neither I nor any of those persons residing in my household have received any promise of compensation, remuneration, gift, discount, or other gratuity in exchange for my proposal.

I understand and agree that I shall give the VILLAGE written notice of any other relationships (as defined above) that I enter into with the VILLAGE (or any of its districts), its elected or appointed officials, its employees or agents, or any member or alternate member of the Selection Committee during the period of the Agreement.

I set forth below any exceptions to the aforementioned (if none, write "None"):

NON-COLLUSION AFFIDAVIT

The undersigned individual, being duly sworn, deposes and says that:

1. He/She is Manager of The Stout Group, LLC, proposer that has submitted the attached proposal;

2. He/She is fully informed respecting the preparation and contents of the attached proposal and of all pertinent circumstances respecting such proposal;

3. Such proposal is genuine and is not a collusive or sham proposal;

4. Neither said proposer nor any of its officers, partners, owners, agents, representatives, employees, or parties in interest, including this affiant, has in any way colluded, connived, or agreed, directly or indirectly, with any other proposer, firm or person to submit a collusive or sham proposal in connection with the Agreement for which the attached proposal has been submitted or to refrain from proposing in connection with the Agreement, or has in any manner, directly or indirectly, sought by agreement of collusion or communication of conference with any other proper, firm, or person to fix the price or prices in the attached proposal, or of any other proposer, or to fix any overhead, profit or cost element of the proposal or the response of any other proposer, or to secure through any collusion, connivance, or unlawful agreement any advantage against the Village of Key Biscayne, Florida, or any person interested in the Agreement; and

5. The response to the attached ITB is fair and proper and is not tainted by any collusion, conspiracy, connivance, or unlawful agreement on the part of the proposer or any of its agents, representatives, owners, employees, or parties in interest, including this affiant.

DRUG FREE WORKPLACE

The undersigned proposer in accordance with Chapter 287.087, Florida Statutes, hereby certifies that The Stout Group, LLC does:

(Name of proposer)

1. Publish a statement notifying employees that the unlawful manufacturing, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the contractual services described in the ITB document a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the contractual services described in the ITB or the Agreement, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

7. As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

CERTIFICATION TO ACCURACY OF PROPOSAL

The proposer, by executing this form, hereby certifies and attests that all forms, affidavits and documents related thereto that it has enclosed in the proposal in support of its proposal are true and accurate. Failure by the proposer to attest to the truth and accuracy of such forms, affidavits and documents shall result in the proposal being deemed non-responsive and such proposal will not be considered.

By submitting a proposal to do the work, the proposer certifies that a careful review of the ITB and the Agreement has taken place and that the proposer is fully informed and understands the requirements of the ITB and the Agreement and the quality and quantity of service to be performed.

The undersigned individual, being duly sworn, deposes and says that:

1. He/She is Manager of The Stout Group, LLC, the proposer that has submitted the attached proposal;
2. He/She is fully informed respecting the preparation and contents of the attached proposal and of all forms, affidavits and documents submitted in support of such proposal;
3. All forms, affidavits and documents submitted in support of this proposal and included in this proposal are true and accurate;
4. No information that should have been included in such forms, affidavits and documents has been omitted; and
5. No information that is included in such forms, affidavits or documents is false or misleading.

FORM 10

PUBLIC ENTITY CRIMES

Sworn Statement Under §287.133(3)(a), Florida Statutes

(This form must be signed in the presence of a notary public or other officer authorized to administer oaths.)

1. This sworn statement is submitted with Bid, Proposal or contract No. ITB# 2025-10

2. This sworn statement is submitted by: The Stout Group, LLC
(name of entity submitting sworn statement)

whose business address is: 10850 NW 138 Street Bay 3

Hialeah Gardens, FL 33018

Federal Identification Number (FEIN) is: 45-5312119

(if applicable)

Social Security Number: N/A

(if the entity has no FEIN, include the Social Security Number of the individual signing this sworn statement)

3. My name is: Jose M. Sanchez

(print name of individual signing this document)

and my relationship to the entity is: Manager

4. I understand that a "public entity crime" as defined in §287.133(1)(g), Florida Statutes means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United states, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

5. I understand that a "convicted" or "conviction" as defined in §287.133(1)(b), Florida Statutes, means a finding of guilt of a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

6. I understand that an "affiliate" as defined in §287.133(1)(a), Florida Statutes means:
   (a) A predecessor or successor of a person or a corporation convicted of a public

entity crime; or

(b) An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima-facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

7. I understand that a "person" as defined in §287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which binds or applies to bids on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

8. Based on the information and belief, the statement that I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies)

   a. X Neither the entity submitting the sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity nor any affiliate of the entity have been charged with and convicted of a public entity crime subsequent to July 1, 1989.

   b. ____The entity submitting this sworn statement, or one or more of the officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989, and (Please indicate which additional statement applies)

      1) ____There has been a proceeding concerning the conviction before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. (Please attach a copy of the final order)

      2) ____The person or affiliate was placed on the convicted list. There has been a subsequent proceeding before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or

affiliate from the convicted vendor list. (Please attach a copy of the final order)

3) ____The person or affiliate has not been placed on the convicted vendor list. (Please describe any action taken by or pending with the Department of General Services)

FORM 11

DISPUTE DISCLOSURE

Answer the following questions by placing an "X" after "Yes" or "No". If you answer "Yes", please explain in the space provided, or on a separate sheet attached to this form.

1. Has your firm or any of its officers, received a reprimand of any nature or been suspended by the Department of Professional Regulations or any other regulatory agency or professional associations within the last five (5) years?

YES _____ NO __X_____

2. Has your firm, or any member of your firm, been declared in default, terminated or removed from a contract or job related to the services your firm provides in the regular course of business within the last five (5) years?

YES _____ NO __X_____

3. Has your firm had against it or filed any requests for equitable adjustment, contract claims, Bid protests, or litigation in the past five (5) years that is related to the services your firm provides in the regular course of business?

YES _____ NO __X_____

If yes, state the nature of the request for equitable adjustment, contract claim, litigation, or protest, and state a brief description of the case, the outcome or status of the suit and the monetary amounts of extended contract time involved.

I hereby certify that all statements made are true and agree and understand that any misstatement or misrepresentation of falsification of facts shall be cause for forfeiture of rights for further consideration of this Bid for the Village of Key Biscayne.

FORM 16

INSURANCE AND LICENSE CERTIFICATES

VILLAGE OF KEY BISCAYNE

BIDDER'S REPRESENTATION

MILLING AND PAVING ROADWAYS IN VILLAGE OF KEY BISCAYNE

Proposal of The Stout Group, LLC

(Name)

10850 NW 138th Street Bay #3, Hialeah Gardens, FL 33018

(Address)

to furnish all materials, equipment, and labor and to perform all work in accordance with the Contract Documents for:

MILLING AND PAVING ROADWAYS IN VILLAGE OF KEY BISCAYNE
("THE PROJECT")

TO: Village of Key Biscayne
Attn: Village Clerk
88 West McIntyre Street, Suite 220
Key Biscayne, Florida 33149

The undersigned, as Bidder, hereby declares that the only person or persons interested in the Bid, as principal or principals, is or are named herein and that no other person than herein mentioned has any interests in the Bid or the Contract to which the Work pertains; that this Bid is made without connection or arrangement with any other person, company, or parties making Bids or Proposals and that the Bid is in all respects fair and made in good faith without collusion or fraud.

The Bidder further declares that he or she has examined the geographic location and sites of the Work; that he has made sufficient investigations to fully satisfy himself that such sites are suitable for this Work; and he assumes full responsibility therefore; that he has examined the specifications for the Work and from his own experience or from professional advice that the specifications are sufficient for the Work to be done and he has examined the other Contract Documents relating thereto, including the Instructions to Bidders, the Contract, Bid, Detailed Scope of Work/Specifications, Qualification Statement, Public Entity Crime Form, and Insurance requirements and he has read all addenda prior to the opening of Bids, and that he has satisfied himself fully, relative to all matters and conditions with respect to the Work to which this Bid pertains.

The Bidder proposes and agrees, if this Bid is accepted, to timely execute the Contract with the Village in the form attached and to furnish all necessary materials, all equipment, all necessary machinery, tools, apparatus, means of transportation, and labor necessary to complete the Work specified in the Bid and the Contract, and called for by the drawings and specifications and in the manner specified and to timely submit all required bonds and insurance certificates.

***NOTE:* THIS SCHEDULE OF BID ITEMS IS MERELY ILLUSTRATIVE OF THE MINIMUM AMOUNT/QUANTITY OF WORK TO BE PERFORMED UNDER THE CONTRACT. IN THE CASE OF ANY CONFLICT BETWEEN THIS SCHEDULE OF BID ITEMS AND THE DETAILED SPECIFICATIONS, THE DETAILED SPECIFICATIONS WILL PREVAIL.**

The Bidder further proposes and agrees to comply in all respects with the time limits for commencement and completion of the Work as stated in the Contract.

The Bidder agrees to execute the Contract and furnish the executed Contract, all required bonds, insurance certificates, and other required information to Village within ten (10) ten calendar days after written notice of the Award of Contract. Failure on the part of the Bidder to timely comply with this provision shall give Village all rights and remedies set forth in the Instructions to Bidders.

The undersigned agrees to accept as full compensation therefore the total of the lump sum prices and extended unit prices items named in the following schedule. It is understood that the unit prices quoted or established for a particular item are to be used for computing the amount to be paid to the Contractor, based on the Work actually performed as determined by the Contract and the Village. However, in utilizing the schedule, the Bidder agrees that in no event shall compensation paid to the Bidder under the Contract exceed the dollar amount of the Bidder's Bid amount, as set forth in the attached Bid.

It is intended that all Work to be performed under this Bid shall commence approximately thirty (30) days after Contract execution.

In no event shall Village be obligated to pay for Work not performed or materials not furnished. Bidder's

Certificate of Competency No. E1400317

Bidder's Occupational License No. CUC1224022 / CGC1507974

AFFIDAVIT ATTESTING TO NONCOERCIVE CONDUCT FOR LABOR OR SERVICES

Effective July 1, 2024, Section 787.06, Florida Statutes, a nongovernmental entity executing, renewing, or extending a contract with a governmental entity is required to provide an affidavit, signed by an officer or a representative of the nongovernmental entity under penalty of perjury, attesting that the nongovernmental entity does not use coercion for labor or services as defined in Section 787.06(2)(a), Florida Statutes.

By signing below, **I hereby affirm under penalty of perjury that:**

1. I have read Section 787.06, Florida Statutes, and understand that this affidavit is provided in compliance with the requirement that, upon execution, renewal, or extension of a contract between a nongovernmental entity and a governmental entity, the nongovernmental entity must attest to the absence of coercion in labor or services.

2. I am an officer or representative of The Stout Group, LLC, a nongovernmental entity.

3. The Stout Group, LLC does not use coercion for labor or services as defined in the relevant section of the law.

AFFIDAVIT REGARDING PROHIBITION ON CONTRACTING WITH ENTITIES OF FOREIGN COUNTRIES OF CONCERN

Pursuant to Section 287.138, Florida Statutes (which is expressly incorporated herein by reference), a governmental entity may not knowingly enter into a contract with an entity which would give access to an individual's personal identifying information if (a) the entity is owned by ethe government of a foreign country of concern; (b) the government of a foreign country of concern has a controlling interest in the entity; or (c) the entity is organized under the laws of or has its principal place of business in a foreign country of concern.

This affidavit must be completed by an officer or representative of an entity submitting a bid, proposal, or reply to, or entering into, renewing, or extending, a contract with a governmental entity which would grant the entity access to an individual's personal identifying information.

1. The Stout Group, LLC ("entity") does not meet any of the criteria in paragraphs (2)(a)-(c) of Section 287.138, F.S.

The Stout Group, LLC
10850 NW 138th Street
Hialeah Gardens, FL 33018

SURETY:
(Name, legal status and principal place of business)

Berkley Insurance Company
475 Steamboat Road
Greenwich, CT 06830

This document has important legal consequences. Consultation with an attorney is encouraged with respect to its completion or modification.

Any singular reference to Contractor, Surety, Owner or other party shall be considered plural where applicable.

OWNER:
(Name, legal status and address)

Village of Key Biscayne
88 West McIntyre Street
Key Biscayne, FL 33149

BOND AMOUNT: $ 5%

Five Percent of Amount Bid

PROJECT:
(Name, location or address, and Project number, if any)

ITB# 2025-10 Milling and Paving Roadways in Village of Key Biscayne

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters into a contract with the Owner in accordance with the terms of such bid, and gives such bond or bonds as may be specified in the bidding or Contract Documents, with a surety admitted in the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof; or (2) pays to the Owner the difference, not to exceed the amount of this Bond, between the amount specified in said bid and such larger amount for which the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60) days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60) days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

POWER OF ATTORNEY
BERKLEY INSURANCE COMPANY
WILMINGTON, DELAWARE

KNOW ALL MEN BY THESE PRESENTS, that BERKLEY INSURANCE COMPANY (the "Company"), a corporation duly organized and existing under the laws of the State of Delaware, having its principal office in Greenwich, CT, has made, constituted and appointed, and does by these presents make, constitute and appoint: ***Charles D. Nielson; Charles J. Nielson; Donald A. Lambert, III; Joseph P. Nielson; Jarrett Merlucci; David R. Hoover; Brett Rosenhaus; Laura D. Mosholder; Dale A. Belis; or Kevin R. Wojtowicz of Acrisure Southeast Partners Insurance Services, LLC of Leesburg, FL*** its true and lawful Attorney-in-Fact, to sign its name as surety only as delineated below and to execute, seal, acknowledge and deliver any and all bonds and undertakings, with the exception of Financial Guaranty Insurance, providing that no single obligation shall exceed **One Hundred Million and 00/100 U.S. Dollars (U.S.$100,000,000.00),** to the same extent as if such bonds had been duly executed and acknowledged by the regularly elected officers of the Company at its principal office in their own proper persons.

This Power of Attorney shall be construed and enforced in accordance with, and governed by, the laws of the State of Delaware, without giving effect to the principles of conflicts of laws thereof. This Power of Attorney is granted pursuant to the following resolutions which were duly and validly adopted at a meeting of the Board of Directors of the Company held on January 25, 2010:

RESOLVED, that, with respect to the Surety business written by Berkley Surety, the Chairman of the Board, Chief Executive Officer, President or any Vice President of the Company, in conjunction with the Secretary or any Assistant Secretary are hereby authorized to execute powers of attorney authorizing and qualifying the attorney-in-fact named therein to execute bonds, undertakings, recognizances, or other suretyship obligations on behalf of the Company, and to affix the corporate seal of the Company to powers of attorney executed pursuant hereto; and said officers may remove any such attorney-in-fact and revoke any power of attorney previously granted; and further

RESOLVED, that such power of attorney limits the acts of those named therein to the bonds, undertakings, recognizances, or other suretyship obligations specifically named therein, and they have no authority to bind the Company except in the manner and to the extent therein stated; and further

RESOLVED, that such power of attorney revokes all previous powers issued on behalf of the attorney-in-fact named; and further

RESOLVED, that the signature of any authorized officer and the seal of the Company may be affixed by facsimile to any power of attorney or certification thereof authorizing the execution and delivery of any bond, undertaking, recognizance, or other suretyship obligation of the Company; and such signature and seal when so used shall have the same force and effect as though manually affixed. The Company may continue to use for the purposes herein stated the facsimile signature of any person or persons who shall have been such officer or officers of the Company, notwithstanding the fact that they may have ceased to be such at the time when such instruments shall be issued.

IN WITNESS WHEREOF, the Company has caused these presents to be signed and attested by its appropriate officers and its corporate seal hereunto affixed this 2nd day of May, 2024.

A. Temporary Substitute Auto Physical Damage

SECTION I – COVERED AUTOS, **C. Certain Trailers, Mobile Equipment And Temporary Substitute Autos** is changed by adding the following:

If Physical Damage coverage is provided by this Coverage Form, the following types of vehicles are also covered "autos" for Physical Damage coverage:

1. Any "auto" you do not own while used with the permission of its owner as a temporary substitute for a covered "auto" you own that is out of service because of its:

a. Breakdown;

b. Repair;

c. Servicing;

d. "Loss"; or

e. Destruction.

B. Who Is An Insured

SECTION II – COVERED AUTOS LIABILITY COVERAGE, A. Coverage, 1. Who Is An Insured is changed by adding the following:

1. Broad Form Insured

For any covered "auto", any subsidiary, affiliate or organization, other than a partnership or joint venture, as may now exist or hereafter be constituted over which you assume active management or maintain ownership or majority interest, provided that you notify us within ninety (90) days from the date that any such subsidiary or affiliate is acquired or formed and that there is no similar insurance available to that organization. However, coverage does not apply to "bodily injury" or "property damage" that occurred before you acquired or formed the organization.

2. Employees As Insureds

Any "employee" of yours is an "insured" while using a covered "auto" you don't own, hire or borrow, in your business or your personal affairs.

3. Additional Insured By Contract, Agreement Or Permit

Any person or organization with whom you have agreed in writing in a contract, agreement or permit, to provide insurance such as is provided under this policy, provided that the "bodily injury" or "property damage" occurs subsequent to the execution of the written contract, agreement or permit.

4. Employee Hired Autos

An "employee" of yours is an "insured" while operating an "auto" hired or rented under a contract or agreement in that "employee's" name, with your permission, while performing duties related to the conduct of your business.

© 2013 X.L. America, Inc. All Rights Reserved.
May not be copied without permission.
Includes copyrighted material of Insurance Services Office, Inc., with its permission.

SECTION IV – BUSINESS AUTO CONDITIONS, B. General Conditions, 5. Other Insurance, b. is replaced with the following:

b. For Hired Auto Physical Damage Coverage, the following are deemed to be covered "autos" you own:

(1) Any covered "auto" you lease, hire, rent or borrow; and

(2) Any covered "auto" hired or rented by your "employee" under a contract in that individual "employee's" name, with your permission, while performing duties related to the conduct of your business.

However, any "auto" that is leased, hired, rented or borrowed with a driver is not a covered "auto".

C. Supplementary Payments

SECTION II – COVERED AUTOS LIABILITY COVERAGE, A. Coverage, 2. Coverage Extensions, a. Supplementary Payments is changed as follows:

Item **(2)** is deleted and replaced by the following:

(2) Up to $3,500 for cost of bail bonds (including bonds for related traffic law violations) required because of an "accident" we cover. We do not have to furnish these bonds.

Item **(4)** is deleted and replaced by the following:

(4) All reasonable expenses incurred by the "insured" at our request, including actual loss of earnings up to $500 a day because of time off from work.

D. Amended Fellow Employee Exclusion

SECTION II – COVERED AUTOS LIABILITY COVERAGE, B. Exclusions, 5. Fellow Employee does not apply.

The insurance provided under this Provision **D.** is excess over any other collectible insurance.

E. Physical Damage Coverage

SECTION III – PHYSICAL DAMAGE COVERAGE, A. Coverage is changed by adding the following:

1. Rental Reimbursement

a. We will pay for rental reimbursement expenses incurred by you for the rental of an "auto" because of "loss" to a covered "auto". Payment applies in addition to the otherwise applicable amount of each coverage you have on a covered "auto". No deductibles apply to this coverage.

b. We will pay only for those expenses incurred during the policy period beginning twenty-four (24) hours after the "loss" and ending, regardless of the policy's expiration, with the lesser of the following number of days:

© 2013 X.L. America, Inc. All Rights Reserved.
May not be copied without permission.
Includes copyrighted material of Insurance Services Office, Inc., with its permission.

(1) The number of days reasonably required to repair or replace the covered "auto". If "loss" is caused by theft, this number of days is added to the number of days it takes to locate the covered "auto" and return it to you.

(2) Thirty (30) days.

c. Our payment is limited to the lesser of the following amounts:

(1) Necessary and actual expenses incurred.

(2) $50 any one day per private passenger "auto";
$100 any one day per truck;
$1,500 any one period per private passenger "auto";
$3,000 any one period per truck; or
Higher limits if shown elsewhere in this policy.

d. This coverage does not apply while there are spare or reserve "autos" available to you for your operations.

e. If "loss" results from the total theft of a covered "auto" of the private passenger type, we will pay under this coverage only that amount of your rental reimbursement expenses which is not already provided for under the Physical Damage Coverage Extension.

2. Extra Expense – Broadened Coverage

We will pay for the expense of returning a stolen covered "auto" to you.

3. Personal Effects Coverage

If you have purchased Comprehensive Coverage on this policy for an "auto" you own and that "auto" is stolen, we will pay, without application of a deductible, up to $500 for "personal effects" stolen from the "auto".

As used in this endorsement, "personal effects" means tangible property that is worn or carried by an "insured". "Personal effects" does not include tools, jewelry, money or securities.

4. Lease Gap

In the event of a total "loss" to a covered "auto" shown in the Declarations, we will pay any unpaid amount due on the lease or loan for a covered "auto", less:

a. The amount paid under the Physical Damage Coverage Section of the policy; and

b. Any:

(1) Overdue lease/loan payments at the time of the "loss";

(2) Financial penalties imposed under a lease for excessive use, abnormal wear and tear or high mileage;

(3) Security deposits not returned by the lessor;

(4) Costs for extended warranties, Credit Life Insurance, Health, Accident or Disability Insurance purchases with the loan or lease; and

(5) Carry-over balances from previous loans or leases.

© 2013 X.L. America, Inc. All Rights Reserved.
May not be copied without permission.
Includes copyrighted material of Insurance Services Office, Inc., with its permission.

5. Glass Repair – Waiver Of Deductible

No deductible applies to glass damage if the glass is repaired rather than replaced.

F. Physical Damage Coverage Extensions

SECTION III – PHYSICAL DAMAGE COVERAGE, A. Coverage, 4. Coverage Extensions is amended by the following:

1. Additional Transportation Expense

Sections a. and **b.** are amended to provide a limit of $50 per day and a maximum limit of $1,000.

2. Hired Auto Physical Damage

The following section is added:

Any "auto" you lease, hire, rent or borrow is deemed to be a covered "auto" for physical damage coverage. The most we will pay for each covered "auto" is the lesser of:

(1) the actual cash value;

(2) the cost for repair or replacement; or

(3) $50,000, or higher limit if shown on the Declarations for Hired Auto Physical Damage Coverage.

For each covered "auto" a deductible of $100 for Comprehensive Coverage and $1,000 for Collision Coverage will apply.

G. Business Auto Conditions

SECTION IV – BUSINESS AUTO CONDITIONS, A. Loss Conditions is changed by the following:

1. Notice Of Occurrence

Section 2. – Duties In The Event Of Accident, Claim, Suit Or, Loss, a. is changed by adding the following:

If you report an injury to an "employee" to your workers' compensation carrier and if it is subsequently determined that the injury is one to which this insurance may apply, any failure to comply with this condition will be waived if you provide us with the required notice as soon thereafter as practicable after you know or reasonably should have known that this insurance may apply.

2. Waiver Of Subrogation

Section 5. Transfer Of Rights Of Recovery Against Others To Us is changed by adding the following:

However, this Condition does not apply to any person(s) or organization(s) with whom you have a written contract, but only to the extent that subrogation is waived prior to the "accident" or the "loss" under such contract with that person or organization.

© 2013 X.L. America, Inc. All Rights Reserved.
May not be copied without permission.
Includes copyrighted material of Insurance Services Office, Inc., with its permission.

SECTION IV – BUSINESS AUTO CONDITIONS, B. General Conditions is changed by the following:

3. Unintentional Failure To Disclose Hazards

The following condition is added:

Your unintentional failure to disclose all hazards as of the inception date of the policy shall not prejudice any insured with respect to the coverage afforded by this policy.

4. Primary Insurance

Condition 5. Other Insurance is changed by adding the following:

For any covered "auto" this insurance shall apply as primary and not contribute with any other insurance where such requirement is agreed in a written contract executed prior to a "loss".

H. Bodily Injury Redefined

SECTION V – DEFINITIONS, C. "Bodily injury" is replaced by the following:

"Bodily injury" means bodily injury, sickness or disease sustained by a person including mental anguish, mental injury, shock, fright or death resulting from any of these at any time.

I. Extended Cancellation Condition

COMMON POLICY CONDITIONS (Form IL 00 17), A. Cancellation, 2.b. is replaced by the following:

The greater of sixty (60) days or the time required by any applicable state amendatory endorsement before the effective date of cancellation if we cancel for any other reason.

All other terms and conditions of this policy remain unchanged.

Insurance Company	CorePointe Insurance Company				

Countersigned by _____

JOSE M. SANCHEZ III, P.E.

Jose M Sanchez III, better known as Joey, since young age started working at his father's company Horizon Contractors, Inc. His hard work has allowed him to promote his way up from the unofficial ranks of unskilled laborer, skilled laborer, heavy equipment operator, surveyor's rod man, surveyor party chief, foreman and superintendent. He has performed every field job within the Engineering Contracting genre.

From 2000 to 2012, he worked his way up from the official positions of Assistant Project Manager, Project Manager, Project Engineer and Vice President. During this time, not only did he move up the ranks within his father's company, but he also completed his curriculum in FIU and graduated with a Bachelor of Science in Civil Engineering (2003).

Once Joey received his degree from FIU, he did not stop there. He then obtained the following licensures:

- Florida Professional Engineering License (PE)
- Florida Certified General Contractor License (CGC)
- Florida Certified Underground Contractors License (CUC)
- Florida Certified Home Inspector License
- Miami Dade County Engineering Contractors License
- Broward County Engineering Contractors License.

Along with these licensures, Joey has obtained many State Contracting Certifications allowing him to perform various specialized scopes within state projects.

In the Spring of 2012, The Stout Group was created. Joey has been the Managing Member/ Chief Estimator/Sr. Project Manager. Joey has a vast knowledge of all aspects of underground and highway projects.

EXPERTISE

Over 25 years of experience in the following types of projects:

- Water/Sewer Installation
- Watermain Installation
- Force Main/ Pump Stations
- Highway Construction
- Street Lighting Construction
- Drainage Installation
- Bridge Deck and Pilling Install
- Structural Work
- Asphalt and Concrete Paving
- Signalization Construction

Joey has worked on many of projects from beginning to end.
Please see attached a list of other sample projects relative to this bid.

- Water/Sewer Installation
- Drainage Installation
- Watermain Installation
- Signalization Construction
- Bridge Deck and Pilling Install
- Asphalt and Concrete Paving
- Signalization Construction
- Highway Construction
- Force Main/ Pump Stations
- Structural Work

LICENSURE

- OSHA Certificate
- Nuclear Gauge Safety Certificate
- MOT Cert

OVERVIEW

I have a vast knowledge of all aspects of underground and highway projects. I have directly supervised over $200,000,000 worth of projects from beginning to end, including:

REFERENCE QUESTIONNAIRE

Reference for Contractor: The Stout Group, LLC
Agency Giving Reference: Calvin Giordano & Associates
Person Giving Reference: Bernnon Artola
Telephone: 786-367-4674
E-Mail: BArtola@cgasolutions.com
Name of Project Completed by Contractor: FDOT - T6450 - Campbell Drive
What was the Dollar value of the Project: $ 1,874,496.45
What was the Completion Date of the Project: 3/2021
Provide a reference for the above named firm by indicating below the level of satisfaction (Satisfactory or Unsatisfactory) with services provided to your agency.

	Rating				
Question	**Excellent**	**Good**	**Fair**	**Poor**	**Unacceptable**
Did the contractor complete the project on time, in accordance with specifications?	X				
Did the contractor submit excessive change orders? If yes, how many? _____		**YES**		**NO** (circled)	
How would you rate the firm's responsiveness on administrative and service issues?	X				
How would you rate the quality and experience of the firm's project manager and on-site personnel?	X				
Was this awarded under a competitive process? The Contract was awarded by FDOT as an A+B (Cost plus time bid process).		Yes			
How would you rate the contractor's project management, including management of sub contractors?	X				
Would you use the contractor again?		**YES** (circled)		**NO**	
Overall, what would you rate their performance?	X				

The undersigned does hereby certify that the foregoing and subsequent statements are true and correct and are made independently, free from vendor interference/collusion.

Print Name:_____ Title: Project Administrator

Print Name: Bernnon Artola Date: 3/16/21

Additional Comments: The Contract was awareded based on combination of Cost (lowest bid) and Time (calendar days) required to complete the project. The Contractor was both the lowest bid and least time impact to the public. They actively pursued the work and completed the Contract under Time and under budget.

THE STOUT GROUP, LLC.

Experience

To Whom It May Concern,

Please find below completed projects within the last three (3) years, in which The Stout Group, LLC with Jose Maria Sanchez III (Joey)) as the Project Manager, provided Florida cities, countiesor other Florida governmental agencies similar services.

A. COMPLETED PROJECTS

1. Florida Department of Transportation – T6524 - SR 969/Milam Dairy Rd./NW 72 Ave.
   a. Owner Name: Florida Department of Transportation
      Contact Person: Francisco Lledo – Construction Project Manager
      Phone Number: 305-619-7144
      Email Address: Francisco.lledo@dot.state.fl.us
   b. Narrative:

   c. Contract amount: $711,881.95
   d. Completion Date: 6/15/2022

2. Miami Dade County – 422003-17-003 – Rickenbacker Causeway, Green Bike Lanes Segment A – Phase I
   a. Owner Name: Miami Dade County
      Contact Person: Lin Li P.E
      Phone Number: 786-268-5283
      Email Address: lin.li@miamidade.gov
   b. Narrative:
      On the aforementioned project, The Stout Group, LLC performed various scopes within the project limits. The scopes performed were modification of bike lanes with green coating painted bike lanes, milling and resurfacing, pavement, thermoplastic, pavement markings and reflective markers.
   c. Contract Amount: $2,138,892.50
   d. Completion Date: 10/29/2021

3. City of Miami Gardens – ITB # 18-19-011 – 203rd Street Outfall Modification
    a. Owner Name: City of Miami Gardens
    Contact Person: Leslie Pettit P.E
    Phone Number: 954-325-8487
    Email Address: lpettit@miamigardens-fl.gov
    b. Narrative:
    On the aforementioned project, The Stout Group, LLC performed various scopes within the project limits. The scopes performed were installation of new pipes and structures, replacement and installation of draining ditches, excavation and backfill restoration to level grade.
    c. Contract Amount: $486,918.15
    d. Completion Date: 08/31/2021

4. Miami Dade County – Miami Dade WASD Central District WWTP
    a. Owner Name: Miami Dade County. Dynalectric Company
    Contact Person: Ron Taylor
    Project Address:
    b. Narrative:
    The Stout Group, LLC performed various scopes within the project limits. The scopes performed were installed precast structures of different sizes, performed multiple duct bank of different measurements, excavation, restoration.
    c. Contract amount: $244,929.00.
    d. Completion Date: 06/05/2021

5. City of Hollywood – Project No 19-11044 – City-Wide Miscellaneous Drainage Improvements
    a. Owner Name: City of Hollywood – Public Utilities
    Contact Person: Raul Wainer – Project Manager
    Phone Number: 954-921-3930
    Email Address: rwainer@hollywoodfl.org
    b. Narrative:
    On the aforementioned project, The Stout Group, LLC is performing various scopes within the project limits of City of Hollywood. The scopes included Drainage, roadway restoration, concrete curb and gutter, concrete sidewalks, landscaping, regrade swale, milling and resurfacing.
    c. Contract Amount: $730,737.00
    d. Completion Date: 05/03/2021

6. Florida Department of Transportation – T4534 – Rock Island Rd
    a. Owner Name: Florida Department of Transportation
    Contact Person: Alejandro Pina – S.E.T. Project Administrator
    Phone Number: 954-958-7629
    Email Address: alejandro.pina@dot.state.fl.us
    b. Narrative:
    On the aforementioned project, The Stout Group, LLC is performing various scopes within the project limits of Rock Island Rd. The scopes included roadway widening, concrete curb and gutter, concrete sidewalks, landscaping, milling, and resurfacing, and striping.
    c. Contract Amount: $1,247,199.00
    d. Completion Date: 03/19/2021

7. Florida Department of Transportation – T6450 – Campbell Dr – Horizon Contractors, Inc.
    a. Owner Name: Florida Department of Transportation
    Contact Person: Bernon Artola – Project Administrator
    Phone Number: 786-367-4674
    Email Address: bartola@cgasolutions.com
    b. Narrative:
    On the aforementioned project, The Stout Group, LLC performed various scopes within the project limits of Campbell Drive. The scopes self-performed included the removal and replacement of a live lift station, removal and replacement of a live sanitary sewer and the installation of drainage.
    c. Contract Amount: $16,300,000.00
    d. Completion Date: 03/23/2021

8. Florida Department of Transportation – T4509 – Hollywood Blvd
    a. Owner Name: Florida department of Transportation
    Contact Person: Mackendy Philippi – Construction Project Administrator II
    Phone Number: 954-958-7693
    Email Address: mackendy.philippi@dot.state.fl.us
    b. Narrative:
    On the aforementioned project, The Stout Group, LLC self-performed various scopes of work including drainage and water main installation along the project corridor, roadway restoration, concrete curb and gutter, concrete sidewalks, regrade swale, milling and resurfacing and striping.
    c. Contract Amount: $3,049,774.59
    d. Completion Date: 12/03/2020

9. Florida Department of Transportation – T6401 – Biscayne Blvd Roadway Improvements
    a. Owner Name: Florida Department of Transportation
    Contact Person: Jonathan Fundora – Construction Senior Project Manager
    Phone Number: 305-962-3653
    Email Address: jonathan.fundora@dot.state.fl.us
    b. Narrative:
    On the aforementioned project, The Stout Group, LLC performed various scopes within the project limits of Biscayne Blvd. The scopes self-performed included were major drainage upgrades along the project corridor, water main upgrades, and sewer main upgrades. The sewer main upgrades included bypassing sewer mains. Full reconstruction of the roadway, concrete curb and gutter, concrete sidewalks, paver sidewalks, lighting upgrades, full intersection signalization installation, pedestrian signalization upgrades, milling and resurfacing, striping, and guardrail installation.
    c. Contract Amount: $5,700,000.00
    d. Completion Date: 05/03/2019

THE STOUT GROUP, LLC.

RE: CERTIFICATE OF QUALIFICATION

The Department of Transportation has qualified your company for the type of work indicated below.

FDOT APPROVED WORK CLASSES:
DRAINAGE, FENCING, FLEXIBLE PAVING, GRADING, GRASSING, SEEDING AND SODDING, HOT PLANT-MIXED BITUM. COURSES, PAVEMENT MARKING, ROADWAY SIGNING, SIDEWALK, LIFT STATION, SHEET PILING, UNDERGROUND UTILITIES (WATER AND SEWER), UNDERGROUND UTILITIES (ELECTRIC)

Unless notified otherwise, this Certificate of Qualification will expire **6/30/2026.**

In accordance with Section 337.14(1), Florida Statutes, an application for qualification must be filed within (4) months of the ending date of the applicant's audited annual financial statements.

If the company's maximum capacity has been revised, it may be accessed by logging into the Contractor Prequalification Application System via the following link:
HTTPS://fdotwp1.dot.state.fl.us/ContractorPreQualification

Once logged in, select "View" for the most recently approved application, and then click the "Manage" and "Application Summary" tabs.

The company may apply for a Revised Certificate of Qualification at any time prior to the expiration date of this certificate according to Section 14-22.0041(3), Florida Administrative Code (F.A.C.), by accessing the most recently approved application as shown above and choosing "Update" instead of "View." If certification in additional classes of work is desired, documentation is needed to show that the company has performed such work.

All prequalified contractors are required by Section 14-22.006(3), F.A.C., to certify their work underway monthly in order to adjust maximum bidding capacity to available bidding capacity. You can find the link to this report at the website shown above.

Sincerely,

James E. Taylor II

James E. Taylor II, Prequalification Supervisor

Hialeah Gardens, FL 33018

Approval Date: December 19, 2024 - Disadvantaged Business Enterprise (DBE)
Anniversary Date: October 2, 2025

Dear Yvette Zuluaga,

Miami-Dade County Office of Small Business Development (SBD), is pleased to notify you that your firm is certified under the Florida Unified Certification Program (UCP). Your firm meets the eligibility requirements for certification as a Disadvantaged Business Enterprise (DBE) in accordance with 49 CFR Part 26.

DBE certification is continuous with no expiration date; however, firms are required to attest that there are no changes via the No Change Declaration form on or before the firm's anniversary date to remain certified. You will be notified of your annual responsibilities in advance of the Anniversary Date listed above. You must submit the annual No Change Declaration form no later than the Anniversary Date to maintain your eligibility. Your firm will be listed in the UCP DBE Directory which can be accessed through the Florida Department of Transportation's website: http://www3b.dot.state.fl.us/EqualOpportunityOfficeBusinessDirectory/.

DBE certification is NOT a guarantee of work, but it enables the firm to compete for and perform contract work on all USDOT Federal Aid (FAA, FTA and FHWA) projects in Florida as a DBE contractor, sub-contractor, consultant, sub-consultant or material supplier.

If at any time there is a material change in your firm, you must advise this office by sworn affidavit and supporting documentation within thirty (30) days. Changes include, but are not limited to ownership, officers, directors, management, key personnel, scope of work performed, daily operations, on-going business relationships with other firms, individuals or the physical location of your firm. After our review, you will receive instructions as to how you should proceed, if necessary. Failure to comply will result in action to remove your firm's DBE certification.

It is strongly recommended that you register your firm as a vendor with Miami-Dade County. To register, you may visit: http://www.miamidade.gov/procurement/vendor-registration.asp. Thank you for your interest in doing business with Miami-Dade County. If you have any questions or concerns, you may contact our office at 305-375-3111 or sbdcert@miamidade.gov.

Sincerely,

Jeanise Cummings-Labossiere
Section Chief, Small Business Development

Form **W-9**
(Rev. October 2018)
Department of the Treasury
Internal Revenue Service

Request for Taxpayer Identification Number and Certification

▶ **Go to *www.irs.gov/FormW9* for instructions and the latest information.**

Give Form to the requester. Do not send to the IRS.

Print or type. See **Specific Instructions** on page 3.

1 Name (as shown on your income tax return). Name is required on this line; do not leave this line blank.

The Stout Group, LLC

2 Business name/disregarded entity name, if different from above

3 Check appropriate box for federal tax classification of the person whose name is entered on line 1. Check only **one** of the following seven boxes.

☐ Individual/sole proprietor or single-member LLC ☐ C Corporation ☐ S Corporation ☐ Partnership ☐ Trust/estate

☑ Limited liability company. Enter the tax classification (C=C corporation, S=S corporation, P=Partnership) ▶

Note: Check the appropriate box in the line above for the tax classification of the single-member owner. Do not check LLC if the LLC is classified as a single-member LLC that is disregarded from the owner unless the owner of the LLC is another LLC that is **not** disregarded from the owner for U.S. federal tax purposes. Otherwise, a single-member LLC that is disregarded from the owner should check the appropriate box for the tax classification of its owner.

☐ Other (see instructions) ▶

4 Exemptions (codes apply only to certain entities, not individuals; see instructions on page 3):

Exempt payee code (if any) _____

Exemption from FATCA reporting code (if any) _____

(Applies to accounts maintained outside the U.S.)

5 Address (number, street, and apt. or suite no.) See instructions.

10850 NW 138th Street Bay 3

Requester's name and address (optional)

6 City, state, and ZIP code

Hialeah Gardens, FL 33018

7 List account number(s) here (optional)

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number

			–			–				

or

Employer identification number

4	5	–	5	3	1	2	1	1	9

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

Sign Here Signature of U.S. person ▶ Ruth Zuluaga Date ▶ 1/30/2025

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to *www.irs.gov/FormW9*.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, *later.*

State of Florida
Department of State

I certify from the records of this office that THE STOUT GROUP, LLC is a limited liability company organized under the laws of the State of Florida, filed on May 23, 2012, effective May 18, 2012.

The document number of this limited liability company is L12000069574.

I further certify that said limited liability company has paid all fees due this office through December 31, 2025, that its most recent annual report was filed on January 15, 2025, and that its status is active.

MEMORANDUM

DATE: August 19th, 2025

TO: Honorable Mayor and Councilmembers

FROM: Steven C. Williamson, Village Manager

RE: Streetlighting Conversion and Transfer Project

RECOMMENDATION

Request the Village Council authorize the Village Manager to execute a contract and award Task Work Order No. 05 to BCC Engineering in the amount of $316,835.30 under the Village's Continuing Architectural & Engineering Services Agreement (RFQ 2021-08). This Task Work Order covers professional engineering services in support of the Village-wide Streetlighting Conversion Project.

DISCUSSION

Purpose: This Task Work Order advances the Village's comprehensive effort to modernize and improve its streetlighting system by expanding coverage, improving energy efficiency, and transitioning ownership of eligible lighting assets to Florida Power & Light (FPL).

Background: The project is a phased initiative designed to assess, upgrade, and standardize the Village's streetlighting infrastructure. Task Work Order No. 05 was developed in coordination with BCC Engineering and its subconsultant, TEC. The scope of services includes full field verification, photometric design, construction plans at 30%, 90%, and 100% completion, and coordination with FPL and Miami-Dade County for utility conversion and compliance.

Justification The modernization of the streetlighting system directly improves public safety, environmental sustainability, and operational efficiency. BCC Engineering's expertise, familiarity with Village infrastructure, and prior experience on related projects make them uniquely positioned to carry out this work.

Implementation/Integration Plan: Following Council approval, BCC Engineering will begin implementation immediately. Deliverables will be provided on a phased basis, including final construction-ready documents. Coordination with FPL and the County will be managed through the Public Works Department.

RESOURCE IMPACT

Recurring Funding: Not a Recurring expense.

Personnel: No new personnel required.

Equipment: BCC to determine if any new equipment will be required.

Facilities: All work will take place in the Right-of-Way

Training: Not applicable.

FUNDING SOURCES

- **GL Code**: 301-41-541-63095
- **Budget Line-Item**: HVAC Maintenance / Capital Projects
- **Amount**: $316,835.30
- **Replacement Units:** Funded through Capital Improvements Program

STRATEGIC CONNECTION (GOAL / FOCUS AREA)

- Goal – Safe and Secure Village
- Focus Area – Maintain Safe Streets
- Action – Improve Village-wide streetlight coverage and maintenance

ATTACHMENT(S)

- BCC Proposal
- Streetlight Inventory

RESOLUTION NO. 2025-_____

A RESOLUTION OF THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, AUTHORIZING THE VILLAGE MANAGER TO ISSUE A WORK ORDER TO BCC ENGINEERING, LLC FOR PROFESSIONAL ENGINEERING SERVICES RELATING TO THE STREETLIGHTING CONVERSION AND TRANSFER PROJECT IN AN AMOUNT NOT TO EXCEED $316,835.30; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Village of Key Biscayne ("Village") issued Request for Qualifications No. 2021-08 ("RFQ") for continuing professional services relating to architecture and engineering services (the "Services"); and

WHEREAS, pursuant to the RFQ, the Village Council selected BCC Engineering, LLC (the "Consultant") as one of the Consultants to provide the Services and authorized the Village Manager to execute an agreement with Consultant; and

WHEREAS, the Consultant has provided a proposal, attached hereto as Exhibit "A" (the "Proposal"), to perform the Services for the Streetlighting Conversion and Transfer Project (the "Project"), which includes, among other things, full field verification, photometric design, construction plans at 30%, 90%, and 100% completion, and coordination with FPL and Miami-Dade County for utility conversion and compliance; and

WHEREAS, the Village Council desires to authorize the Village Manager to issue a work order to the Consultant to perform the Services for the Project in an amount not to exceed $316,835.30, consistent with the Proposal attached hereto as Exhibit "A" and the agreement entered into between the Village and Consultant; and

WHEREAS, the Village Council finds that this Resolution is in the best interest and welfare of the residents of the Village.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE COUNCIL OF THE

EXHIBIT A

Re: **Task Work Order #05: Village of Key Biscayne – Comprehensive Roadway Lighting Assessment, FPL Streetlight Transfer, LED Conversion, and New Streetlight Installation.**

Via email: cmiranda@keybiscayne.fl.gov

Mr. Miranda,

At the request of the **Village of Key Biscayne** ("the CLIENT"), **BCC Engineering, LLC** ("CONSULTANT") is pleased to submit this **Task Work Order** ("TWO") proposal for with professional services in the form of evaluating the existing roadway lighting system, identifying deficiencies, transitioning the VILLAGE's-owned streetlights to Florida Power & Light ("FPL"), converting existing lights to LED, and installing new lighting in the location of deficiencies..

This TWO order will be an integral part of the Continuing Architectural & Engineering Services Agreement - RFQ 2021-08 (the "Agreement") dated November 1st, 2021, between the VILLAGE and the CONSULTANT.

This proposal defines the description of the project, scope of work, schedule, compensation, and scope of work exclusions for this project's professional engineering services.

PROJECT UNDERSTANTING

The primary goal is to provide civil engineering to support the VILLAGE with the analysis of the existing streetlight infrastructure information, the coordination with the VILLAGE Stakeholders, FPL, and Miami-Dade County and the implementation efforts required for a successful transition to an optimized and sustainable streetlighting system.

SCOPE OF SERVICES

Meetings & Coordination

Task 1.0 – Project Coordination & Reporting

As part of this task BCC will provide project coordination and management activities.

In addition, BCC will prepare for and attend team meetings, as necessary. Representation at recurring team meetings will be vested in the project manager, with the inclusion of team experts as considered essential for specific disciplines.

BCC will provide support to the VILLAGE in coordinating project activities during the duration of the project with the designated consultants. BCC will facilitate effective communication channels, schedule meetings, and foster collaboration among all stakeholders involved.

Civil Engineering

Task 2.0 – Photometric Analysis & Lighting System Assessment

As part of this task, BCC will perform field investigations to document existing lighting conditions, including pole locations, fixture types, and ownership status. In addition, BCC will perform a photometric analysis to

identify the areas of non-compliance, assess the Wildlife Sensitive Areas and Dark Sky Compliance to ensure minimal impact.

BCC will prepare a Lighting Design Analysis Report that includes the Lighting Design Criteria, Photometric Calculation Results, Deficiency Assessment, Existing Luminaire Cut Sheets and improvements recommendations for the implementation phase.

BCC will retain TEC to perform the asset ownership status and coordination of the stakeholders

Task 2.1 – 30% Design Documents

BCC will prepare a 30% Design Documents Package. Prior to the submittal of the 30% Design Documents, BCC will submit a final force mains route alignment plan for

Deliverables

1. Field Verification of Lighting Conditions.
2. Initial Coordination with FPL & MDC.
3. Initial Lighting Analysis Report.

Task 2.2 – 90% Design Documents

BCC will prepare a 90% Design Documents Package based on the comments received by the VILLAGE on the 30% Design Documents.

Deliverables

1. Preliminary Photometrics Calculations.
2. Identification of light deficient areas
3. Draft Transfer Agreement for FPL.
4. Progress Lighting Analysis Report.

Task 2.3 – 100% Design Documents

BCC will prepare a 100% Design Documents Package based on the comments received by the VILLAGE on the 90% Design Documents.

Deliverables

1. Final Photometrics Calculations.
2. Final Lighting Analysis Report with recommendations.

Task 3.0 – Streetlight Transfer, LED Conversions, and Installations

As part of this task, BCC will identify the VILLAGE owned Lighting assets that are eligible for transfer to FPL. BCC will develop with the VILLAGE an implementation plan for transitioning the existing fixtures to LED lighting and a streetlight placement plan.

BCC will retain TEC to prepare the Transfer Agreements, conduct stakeholders' meetings and assist will the progress milestones.

Task 3.1 – Streetlight Transfer to FPL

BCC will retain TEC to perform the identification of all VILLAGE-owned lighting assets eligible for transfer and work with FPL to establish transfer agreements, ownership terms, and maintenance responsibilities.

Deliverables

1. Transfer Agreements.

Task 3.2 – LED Conversions

BCC will develop a plan to transition existing fixtures to energy-efficient LEDs, ensuring compliance with VILLAGE specifications and Dark-Sky standards. A phased replacement approach will be coordinated with FPL and Miami-Dade County.

Deliverables

1. LED Conversion Implementation Plan

Task 3.3 – New Streetlight Installations

BCC will use photometric analysis to identify areas with insufficient lighting and develop a streetlight placement plan. In coordination with FPL and Miami-Dade County, BCC will assess infrastructure needs, permitting, and funding options. Stakeholder meetings will ensure community engagement and alignment with VILLAGE aesthetic preferences.

Deliverables

1. New Streetlight location Plan.
2. VILLAGE GIS Update

EXCLUSIONS

The following items are exclusions from our Basic Services (Scope of Services):

1. Any construction or environmental permitting services (i.e., building, wetlands, trees, marina, etc.)
2. Surveying, geotechnical investigations, wind studies, vibration studies, site-specific seismic analysis or testing, and environmental assessments.
3. Any services normally provided by an electrical engineer (e.g., site lighting, building lighting design, etc.)
4. Any services normally provided by a plumbing engineer (e.g., grease trap design or sand/oil interceptor design, etc.)
5. Site structures such as retaining walls, stairs, sidewalks, flagpoles, light poles, swimming pools, etc.
6. Any other services not specifically included in the Scope of Services.
7. Any construction assistant services (i.e., inspections, certifications, pump station startups etc.)

ITEMS TO BE PROVIDED BY CLIENT

Upon execution of this agreement and prior to the receipt of notice to proceed, the Client will provide BCC the following:

1. Existing GIS Access
2. Existing Lighting Agreements & Historical report
3. Scheduling Assistance (Field Visits and Meeting Coordination)
4. Review and Approve Reports within the agreed timeline

SUBCONSULTANTS

The following listed Subconsultants will assist in the performance of the Work.

Subconsultant Name	**Specialty or Expertise**
The Engineering Group (TEC)	Asset Transfer Coordination / Documentation

SCHEDULE

The schedule for delivering the services described in this proposal is presented below for all Tasks.

DELIVERABLES SCHEDULE			
Task #	**Task Description**		**Estimated Duration per Task**
1.0	Project Coordination and Project Management		Project Duration
2.0	Photometric Analysis & Lighting System Assessment		
	2.1	30% Design Documents	2 months
	2.2	90% Design Documents	3 months
	2.3	100% Design Documents	2 months
3.0	Streetlight Transfer, LED Conversion & New Installations		
	3.1	Streetlight Transfer to FPL	1 months
	3.2	LED Conversions	3 months
	3.3	New Streetlight Installations	6 months

FEE AND BILLING

Services described in Tasks 1.0-3.3 will be performed on a ***Lump Sum Basis*** for a total of ***$296,986.00***. The total fee includes a ***contingency fee*** for design services of ***$14,849.30***, and a ***reimbursable allowance*** of ***$5,000.00***. ***Exhibit 'C'*** includes a detailed man-hour estimate for work outlined in the Scope of Work.

COMPENSATION SCHEDULE				
Task #	**Task Description**		**Fee**	**LS/TM**
1.0	Project Coordination and Project Management		$ 45,336.00	LS
2.0	Photometric Analysis & Lighting System Assessment			
	2.1	30% Design Documents	$ 51,408.00	LS
	2.2	90% Design Documents	$ 54,680.00	LS
	2.3	100% Design Documents	$ 42,220.00	LS
3.0	Streetlight Transfer, LED Conversion & New Installations			
	3.1	Streetlight Transfer to FPL	$ 15,906.00	LS
	3.2	LED Conversions	$ 32,476.00	LS
	3.3	New Streetlight Installations	$ 54,960.00	LS
Subtotal			**$ 296,986.00**	
Contingency Fee (5%)			$ 14,849.30	
Reimbursable Allowance			$ 5,000.00	
Total Fee			**$ 316,835.30**	

Services not included in the Scope of Services will require additional compensation and a new Fee Proposal for the additional work required.

Reimbursable expenses and Additional Services will be billed monthly as they are incurred.

We appreciate this opportunity to provide these services for you. Please contact us if you have any questions.

Sincerely,
BCC ENGINEERING, LLC.

Victor Herrera, PE
Senior Vice President

THE ENGINEERING COMPANY

Date: May 1st , 2025

Carlos Morales

Civil Division Manager

BCC Engineering

6401 SW 87th Avenue, Suite 200, Miami, FL 33173

Subject: Proposal for Streetlight Assessment, FPL Streetlight Transfer, LED Conversion, and New Streetlight Installation for the Village of Key Biscayne

Dear Carlos:

The Engineering Company, LLC is pleased to submit the subject proposal for your review and approval.

Let me know if you have any questions.

We look forward to delivering this project for the Village of Key Biscayne.

Sincerely,

OMAR HERRERA, PE

PRINCIPAL

THE ENGINEERING COMPANY, LLC

info@theengineeringco.com

SCOPE OF SERVICES

PROJECT TITLE:
Village of Key Biscayne – Streetlight Assessment, FPL Streetlight Transfer, LED Conversion, and New Streetlight Installation

1.0 BACKGROUND:

The Village of Key Biscayne ("VILLAGE") is undertaking a comprehensive streetlighting project to evaluate the existing roadway lighting system, identify deficiencies, transition VILLAGE-owned streetlights to Florida Power & Light ("FPL"), convert existing lights to LED, and install new lighting where necessary. The project will be managed under the Continuing Architectural & Engineering Services Agreement RFQ NO. 2021-08.
This Scope of Services outlines the engineering, analysis, coordination, and implementation efforts required for a successful transition to an optimized and sustainable streetlighting system.

2.0 PROJECT PURPOSE:

The project serves two primary objectives:

1. Facilitate the **transfer of VILLAGE-owned streetlights to FPL**, implement **LED conversions**, and oversee the **installation of new streetlights** in dark or underserved areas.

3.0 SCOPE OF SERVICES:

Task 1: Project Coordination & Reporting

Description:

TEC will lead and manage coordination with the VILLAGE, Florida Power & Light (FPL), and Miami-Dade County (MDC) throughout the duration of the project. This includes verifying infrastructure records, confirming ownership statuses, and reviewing any existing agreements related to the streetlighting system. TEC will also conduct regular meetings to track progress, align deliverables, and ensure transparency across all stakeholders. A live GIS-based system will be maintained to monitor streetlight status, ownership, and maintenance activities. Monthly progress reports will document accomplishments, challenges, and upcoming actions.

Deliverables:

- Verified ownership spreadsheet with agency feedback
- Updated GIS and inventory database with ownership and conversion status
- Initial and ongoing meeting agendas, minutes, and correspondence logs

- Monthly progress reports summarizing milestones, issues, and recommendations

Task 2: Review of Existing Lighting Assessment for Ownership Transfer Preparation

Description:

TEC will review the previously completed “Existing Lighting Conditions Analysis Report” provided by the VILLAGE to TEC, dated May 2024, which includes the current conditions of the existing lighting infrastructure, fixture types, pole quantities, and ownership status. The objective of this task is to extract and consolidate all relevant data necessary to initiate the transfer of VILLAGE-owned streetlighting assets to Florida Power & Light (FPL). It is anticipated that most of the lights are eligible for transfer, and TEC will use this data to begin preparing the necessary documentation for ownership transition. TEC shall not be liable for inaccuracies in the “Existing Lighting Conditions Analysis Report”, dated May 2024.

TEC will also conduct limited site verifications as needed, to clarify report / field discrepancies. Three site visits have been included in this task.

Deliverables:

- Summary report of findings relevant to the ownership transfer
- Consolidated inventory of VILLAGE-owned lighting assets, including fixture type, quantity, and location, with an initial asset transfer spreadsheet tracker to be used in coordination with FPL

Task 3: Streetlight Transfer, LED Conversion & New Installations

Task 3.1: Streetlight Transfer to FPL

Description:

TEC will identify the VILLAGE-owned streetlighting assets eligible for transfer to FPL and will facilitate the process of establishing transfer agreements, including defining long-term ownership and maintenance responsibilities. TEC will not draft the transfer agreements. Drafting of the agreements shall be done by the Legal Departments of the VILLAGE and FPL.

Deliverables:

- List of VILLAGE-owned assets proposed for transfer
- Correspondence log and summary report of coordination with FPL

Task 3.2: Led Conversion Planning

Description:

TEC will develop a comprehensive implementation plan for upgrading all existing fixtures to LED, including Dark-Sky compliant standards. Coordination with FPL and Miami-Dade County will ensure proper phasing and specification alignment.

Deliverables:

- LED conversion plan with spreadsheet for tracking completed conversions

Task 3.3: New Streetlight Installations

Description:

TEC will support the planning of new streetlight installations throughout the VILLAGE. While TEC will not be responsible for conducting the photometric analysis, we will review the results of a photometric study provided by BCC Engineering. Based on this analysis, TEC will identify areas with insufficient lighting and provide recommendations for new streetlight placements.

TEC will coordinate with FPL and Miami-Dade County to assess infrastructure needs and permitting pathways. TEC will also facilitate stakeholder engagement to ensure community input and alignment with the VILLAGE's aesthetic and functional goals.

Deliverables:

- Technical memorandum summarizing review of photometric study and recommended streetlight locations
- Meeting summaries or support documentation of coordination with FPL and Miami-Dade County regarding permitting and infrastructure
- Stakeholder meeting materials (presentation slides, feedback summaries)

4.0 PROJECT ASSUMPTIONS

1. **Agency Coordination & Permitting**

    - TEC is not responsible for delays resulting from Florida Power & Light (FPL), Miami-Dade County (MDC), or other regulatory agencies in providing data, feedback, or executing agreements.

- If permitting is required through the Village or other jurisdictions, TEC will not be liable for delays associated with the permit application, review, or approval process.
- This fee proposal excludes completing and submitting permit applications.

2. Material Procurement & Lead Times

- TEC is not liable for delays associated with FPL or MDC procurement processes, material fabrication, or equipment delivery times for new streetlight installations.
- It is assumed that procurement and installation will follow standard utility lead times and will not impact TEC's deliverables or scope.

3. Construction & Installation Timeline

- TEC will not provide construction management and inspections services and is not responsible for contractor delays, unforeseen site conditions, or changes in construction schedules.
- It is assumed that contractors and utilities will coordinate their own work per schedule and regulatory guidelines.
- The repairs, installations and conversions are to be performed by FPL, Miami Dade County, and VILLAGE. Thus, TEC shall not be liable for malfunctioning of streetlight infrastructure, for the quality of the repairs performed, or for time delays.

4. GIS and Inventory Data

- TEC assumes that access to the VILLAGE's GIS platform (if applicable) and relevant base data will be granted promptly upon project initiation.

5. Permitting Coordination

- TEC will assist with permitting coordination but is not responsible for permit issuance timelines or agency review durations.

6. Community Engagement

- TEC will support stakeholder engagement; however, delays in community feedback or extended public review periods may impact project timelines.

7. Scope Changes

- Any changes in project scope, including expansion of service areas, additional scope, additional lighting evaluations, or changes in design criteria, will require a formal amendment to this agreement.

5.0 SCHEDULE

The estimated project schedule is shown below by task.

- Task 1: 10 months from NTP
- Task 2: 1 month from NTP
- Task 3.1: 1 month from Task 2 completion
- Task 3.2: 3 months from Task 2 completion
- Task 3.3: 6 months from completion of Photometric Analysis & Lighting System Assessment. Assuming that approvals are being done promptly, and materials arrive on time.

FEE SCHEDULE AND PAYMENT TERMS

A detailed fee schedule is included below, breaking out each of the tasks. Each task will be billed in lump sum on a percent complete basis. The Engineering Company, LLC's invoices shall be paid within 30 days of invoice submission.

SUMMARY OF THE FEE AND HOUR BREAKDOWN							
	Project Manager	Project Engineer	Senior Inspector	Senior Engineer	Total Hours	Labor	Subtotal

MEMORANDUM

DATE: August 19, 2025

TO: Honorable Mayor and Councilmembers

FROM: Steven C. Williamson, Village Manager

RE: Purchase of High-Water Vehicle for Fire Rescue Response

RECOMMENDATION

Recommend the Village Council approve the purchase of one (1) Polaris Ranger XD 1500 high-water response vehicle for the Fire Rescue Department. The total cost is $63,874.53, with $44,840 funded through the FY 2023 UASI Grant and the remaining $19,034.53 allocated from the FY 2025 Emergency Management budget.

DISCUSSION

Purpose: The Polaris Ranger XD 1500 is a high-water rapid response vehicle designed to enhance emergency operations during critical incidents, particularly in areas affected by flooding or difficult terrain. Its deployment will significantly improve our ability to respond swiftly and effectively to emergencies, thereby increasing public safety and operational readiness.

Background: Fire Rescue Departments are always ready to provide quick, personalized responses to emergencies, offering residents peace of mind. First responders protect by land and sea, often switching between roles throughout the day, whether by car, bicycle, foot, boat or ATV. The Emergency Management Team focuses on hurricane preparedness and clear communication during crises, ensuring swift and effective responses to disasters.

The purchase includes one (1) Polaris Ranger high-water crew XD 1500 vehicle equipment listed in Quote # QUO-68328-F6C2F5 from Polaris Sales, Inc., utilizing the Sourcewell Purchasing Agreement Program(1222220-PSI) to ensure competitive pricing and procurement efficiency.

The quote (Exhibit A) from Polaris Sales, Inc. reflects competitive pricing secured through the Sourcewell cooperative purchasing program. This unit will be assigned to the Fire Department for the purpose of supporting and enhancing the operational emergency response(s) and community event support for the citizens and visitors of the Village of Key Biscayne.

Justification: The increasing frequency of weather-related incidents, including flooding, necessitates enhanced mobility and response capabilities. The Polaris Ranger XD 1500 will allow our personnel to reach affected areas more quickly and safely, reducing response times and improving outcomes during emergencies. Additionally, the vehicle will support logistical and safety operations during community events, areas that are non-accessible to full size vehicles, beach access, while reinforcing our commitment to proactive public service and preparedness.

Implementation/Integration Plan:

- Engage and review all fire personnel for input on the vehicle capabilities and limitations as needed
- Update our SOPs to include deployment criteria and maintenance
- Develop training and incorporate as part of drills
- Outreach to inform the public of public safety benefits and disaster readiness

RESOURCE IMPACT

Recurring Funding: Maintenance as necessary or recommended by Polaris maintenance schedule. (every 200 interval hours or 12 months); include the regular maintenance of this vehicle in maintenance agreement with the City of Miami. Maintenance estimated at $3000 annually.

Personnel: No additional personnel required / Will be used by existing fire personnel

Training: Staff will be trained in-house, while on duty (between calls for service)

FUNDING SOURCES

- ***GL Code: 001-22-522-5502-00000***
- ***Budget Line-Item:*** UASI Grant (FY2023) & General Emergency Management (FY2025)

RESOLUTION NO. 2025-_____

A CAPITAL PROJECT AUTHORIZING RESOLUTION OF THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, APPROVING THE PURCHASE OF A HIGH-WATER RAPID RESPONSE VEHICLE FROM POLARIS SALES, INC. IN AN AMOUNT NOT TO EXCEED $63,874.53; PROVIDING FOR AUTHORIZATION; PROVIDING FOR IMPLEMENTATION; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Village of Key Biscayne ("Village") Fire Rescue Department is in need of a high-water rapid response vehicle to enhance its emergency operations during critical incidents, particularly in areas affected by flooding or difficult terrain; and

WHEREAS, the Village desires to purchase a Polaris Ranger XD 1500 high-water rapid response vehicle, inclusive of equipment for the vehicle (the "Vehicle") from Polaris Sales Inc. (the "Supplier") in the amount of $63,874.53, consistent with the quote attached hereto as Exhibit "A" (the "Quote"); and

WHEREAS, the type of purchase contemplated by the Village has been competitively bid by Sourcewell, a local government and service cooperative created under the laws of the State of Minnesota, which has entered into Sourcewell Contract No. 091024 ("Sourcewell Contract") with the Supplier; and

WHEREAS, in accordance with Section 2-86 of the Village's Code of Ordinances, the Village Council seeks to authorize the Village Manager to purchase the Vehicle from the Supplier in an amount not to exceed $63,874.53, consistent with the Sourcewell Contract and the Supplier's Quote attached hereto as Exhibit "A," as the pricing offered pursuant to the Sourcewell Contract is in the Village's best interest; and

WHEREAS, the Village Council finds that this Capital Project Authorizing Resolution is in the best interest and welfare of the residents of the Village.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE COUNCIL OF THE

VILLAGE OF KEY BISCAYNE, FLORIDA, AS FOLLOWS:

Section 1. Recitals. That each of the above-stated recitals are hereby adopted, confirmed, and incorporated herein.

Section 2. Approval. That the Village Council hereby approves the purchase of the Vehicle from the Supplier**.**

Section 3. Authorization. That the Village Council hereby authorizes the Village Manager to purchase the Vehicle in an amount not to exceed $63,874.53, consistent with the Quote attached hereto as Exhibit "A" and the Sourcewell Contract.

Section 4. Implementation. The Village Council hereby authorizes the Village Manager to execute any purchase order or required documentation for the purchases described in this Resolution, subject to approval by the Village Attorney as to form, content, and legal sufficiency, and to take any action that is reasonably necessary to implement the purposes of this Resolution.

Section 5. Effective Date. That this Resolution shall be effective immediately upon adoption.

PASSED and ADOPTED this _____ day of _____, 2025.

Re: Village of Key Biscayne Extension Letter – UASI 2023GY

Dear Chief Davis:

This letter serves as official notification that Key Biscayne has received an extension for the following project:

Grant Year	Line Item	Description of Project	Allocation
2023	2023-10C	Rapid Response Vehicle	$ 44,840.00

Please refer to the Funding Year of 2023 Miami UASI MOA (Agreement #RO924) between the City of Miami and the Village of Key Biscayne for more information and stipulations.

The period of performance for the UASI 2023 projects expire December 31, 2025, and the reimbursement packages are to be submitted no later than January 15, 2026.

Project timelines and benchmarks shall be clearly communicated to the administrating agency (City of Miami) upon request. Failure to comply with timelines and benchmarks will result in the de-obligation of funds for these projects.

If you have any questions, please do not hesitate to contact UASI Program Manager, Andrea Becraft at (305) 416-5454 or via email at abecraft@miamigov.com.

Sincerely,

Grant Musser, Assistant Fire Chief
Emergency Manager/ UASI Administrator

RE: Procurement Recommendation to Award for RFQ No. 2025-13 – Zone 1 Alternative Stormwater Modeling and Planning

RECOMMENDATION

It is recommended that the Village Manager negotiate an agreement with **GIT Consulting LLC.,** the highest ranked proposal, for Zone 1 Alternative Stormwater Modeling and Planning. The proposed agreement will be for a four (4) month term with three (3) optional four-month extensions not to exceed twelve (12) months.

BACKGROUND

In accordance with government procurement best practices, and as part of a larger effort to ensure best value and promote fair and open competition for Village contracts, the decision was made to go out to market for these services.

The Village issued an RFQ (Request for Qualifications) on June 20, 2025. The RFQ was posted to the Village's website and Notice Board, DemandStar and Miami Herald. A non-mandatory pre-conference meeting was held for interested vendors where a bid summary was given.

The RFQ allows potential vendors to submit their best proposal based on specified deliverables, qualifications, experience, and capabilities. Vendors are then ranked to allow the Village the opportunity to negotiate the best and final offer with the highest ranked vendor.

SCOPE OF WORK

The Village intends to select qualified and experienced firm to provide updated stormwater plan for Zone 1 of the Village to include updated hydraulic modeling and recommended drainage solutions with a focus on the K8 School area. The new study should be developed using previous Stormwater Master Plan data, surveys, and models as a baseline and attempt to incorporate existing village systems and plans if applicable with the revised design criteria, in full accordance with the specifications, terms and conditions contained in Section 2 of the Request for Qualifications (RFQ).

To qualify for award, prospective Proposers were required to:

A. Meet the objectives set in the RFQ Scope of Services.
B. Have a minimum of five (5) years' experience, principal, project manager and company.

C. Must be appropriately licensed and in good standing with the Florida Department of Professional Regulation.

EVALUATION AND RANKING PROCESS

On April 03, 2025, three (03) proposals were received from the following firms:

No.	Proposer	Years Experience	
1.	CES Consultants Inc.	24	
2.	EAC Consulting Inc.	30	
3	GIT Consulting LLC.	18	

The Evaluation Committee comprises the following individuals:

1. Edward London – Council Member / AdHoc
2. Fernando Vazquez – Council Member / AdHoc
3. Michael Bracken – Council Member / AdHoc

Christopher Miranda – Public Works Director and Roland Samimy – Chief Resilience and Sustainability Officer were in attendance as Village subject matter experts. Fernando Vazquez recused himself from the committee.

Procurement conducted a thorough due diligence review of the proposals and determined that the proposals were deemed responsive, with no material defects identified in the proposals or the qualifications of the proposers. Each proposer is properly licensed and qualified to perform the work, has provided the required certifications and references, and no issues were found indicating that any of the responsive proposers would be incapable of delivering the services.

The Evaluation Committee received the proposals and held its initial meeting on July 31, 2025, to review, discuss, hear presentations, and evaluate the submissions. Once the presentations were completed members proceeded to score and rank based on the following criteria.

a. Project Approach – 40 pts.
b. Organizational Profile – 30 pts.
c. Experience and Qualifications – 30 pts.

Committee Member	**CES Consultants Inc.**		**EAC Consulting Inc.**		**GIT Consulting LLC.**	
	Scores	**Rank**	**Scores**	**Rank**	**Scores**	**Rank**
Edward London	70	3	75	2	90	1

Final Ranking	**2**		**3**		**1**	
	CES Consultants Inc.		**EAC Consulting Inc.**		**GIT Consulting LLC.**	

88 West McIntyre Street • Key Biscayne, Florida 33149 (305) 365-5511 • www.keybiscayne.fl.gov

MISSION STATEMENT: "TO PROVIDE A SAFE, QUALITY COMMUNITY ENVIRONMENT FOR ALL ISLANDERS THROUGH RESPONSIBLE GOVERNMENT."

Proposers were scored out of 300 points then ranked with no. 1 being most favorable in the following order:

1. GIT Consulting LLC. – 183 points
2. CES Consultants Inc. – 165 points
3. EAC Consulting Inc. – 162 points

NEGOTIATION PROCEESS

The Village will take its recommendation for the final ranking of the shortlisted Proposers to the Village Council for approval and permission to negotiate the contract with the top- ranked Proposer.

RECOMMENDATION

The Evaluation Committee recommends that the Village Manager approve the recommendation and recommend to the Village Council that a contract be executed —substantially in the form attached as Exhibit A—with **GIT Consulting LLC.** The recommendation is based on the following key factors:

- The Principal-in-Charge of GIT Consulting Group LLC previously served under EAC Consulting Inc. on the Village's 2015 Stormwater Modeling and Planning Project, demonstrating direct experience with the Village's infrastructure and planning approach.
- GIT proposed additional alternatives, including a retrofit system and a decentralized solution, offering the Village innovative options beyond the previously established plan.

In the event an agreement cannot be reached with the top-ranked Proposer, it is further recommended that the Village Manager terminate negotiations with that firm and proceed with negotiations with the next highest-ranked Proposers until an agreement can be reached.

RESOLUTION NO. 2025- _____

A RESOLUTION OF THE VILLAGE COUNCIL OF THE VILLAGE OF KEY BISCAYNE, FLORIDA, SELECTING GIT CONSULTING LLC PURSUANT TO REQUEST FOR QUALIFICATIONS (RFQ) NO. 2025-13 FOR ZONE 1 ALTERNATIVE STORMWATER MODELING AND PLANNING SERVICES; PROVIDING FOR AUTHORIZATION; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, on February 11, 2025, the Village Council of the Village of Key Biscayne ("Village") established an Ad Hoc Committee (the "Committee") to evaluate the level of service and design criteria to streamline and reduce costs related to the stormwater system requirements and construction the K-8 School (Zone 1) Stormwater Drainage Improvements Project (the "Project"); and

WHEREAS, based on the feedback received by the Committee, the Village issued Request for Qualifications No. 2025-13 ("RFQ") for Zone 1 Alternative Stormwater Modeling and Planning services (the "Services") for the Project; and

WHEREAS, three firms submitted qualifications by the RFQ deadline; and

WHEREAS, the Committee, serving as an Evaluation Committee, short listed firms and ranked GIT Consulting LLC (the "Consultants") as the most qualified firms for the Services; and

WHEREAS, the Committee recommends that the Village Council select the Consultant to perform the Services; and

WHEREAS, the Village Council desires to select the Consultant as the most qualified firms for the Services and authorize the Committee to negotiate an agreement with the Consultant, which agreement shall be presented to the Village Council for approval at a future meeting; and

WHEREAS, the Village Council finds that this Resolution is in the best interest and welfare of the residents of the Village.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE COUNCIL OF THE

VILLAGE OF KEY BISCAYNE, FLORIDA, AS FOLLOWS:

Section 1. **Recitals.** That each of the above-stated recitals are hereby adopted, confirmed, and incorporated herein.

Section 2. **Selection.** That the Village Council hereby selects the Consultant for the Services.

Section 3. **Authorization.** That the Village Council hereby authorizes the Committee to negotiate an agreement with the Consultant for the Services, which agreement shall be presented to the Village Council for approval at a future meeting. If an agreement cannot be reached with the top-ranked Consultant, the Committee is authorized to negotiate with the next highest ranked firm until an agreement in the best interest of the Village is reached.

Section 4. **Effective Date.** That this Resolution shall be effective immediately upon adoption.

PASSED and ADOPTED this _____ day of _____, 2025.

FORMS AND SUBMISSIONS

Attachment A – Sample Contract 66

SECTION 1. INFORMATION FOR THE PROPOSERS

1.1 GENERAL INFORMATION/STATEMENT OF PURPOSE

The Village of Key Biscayne (the "Village"), a municipality located in Miami-Dade County, Florida, is requesting proposals from qualified and experienced firms to provide an updated stormwater plan for Zone 1 of the Village per Figure 1 below to include updated hydraulic modeling and recommended drainage solutions with a focus on the K8 School area. The new study should be developed using previous Stormwater Master Plan data, surveys, and models as a baseline and attempt to incorporate existing village systems and plans if applicable with the revised design criteria.

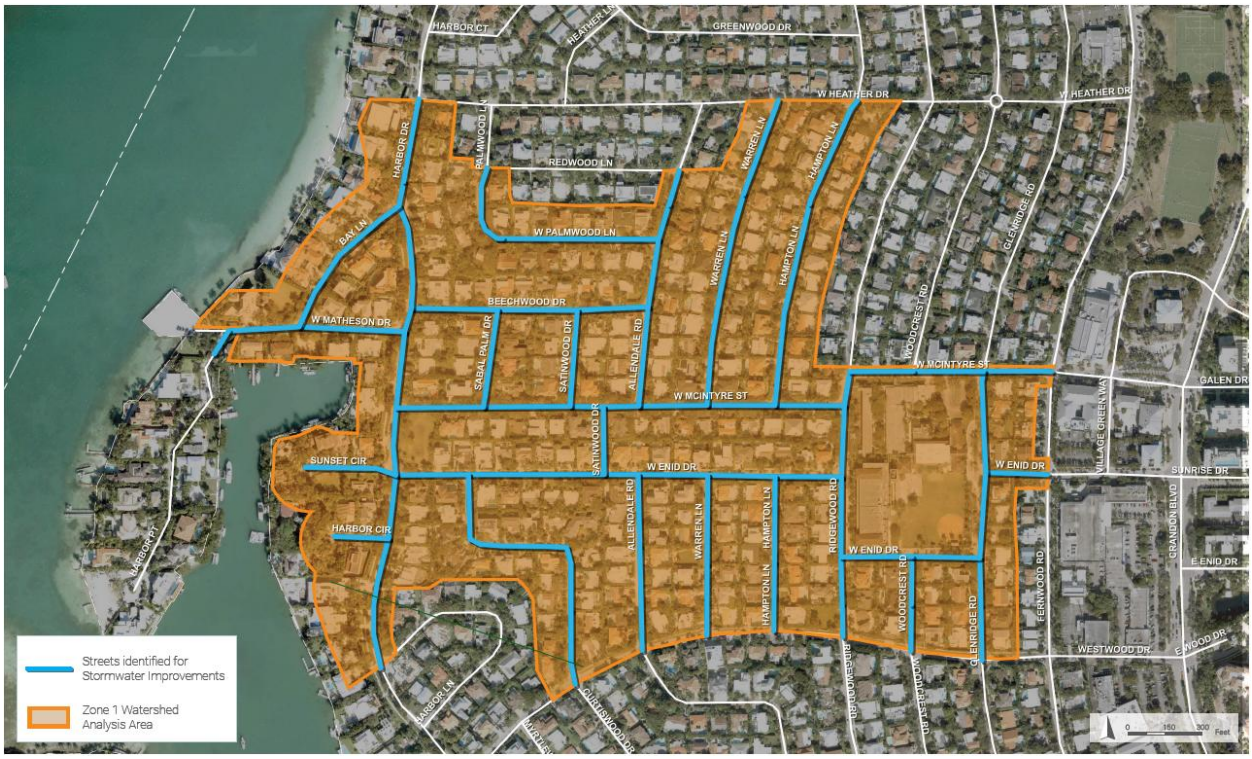

Figure 1. The location for Zone 1 work is the K-8 Basin, which is located in the center of Key Biscayne highlighted in Figure 1; it is generally south of West Heather Dr., north of Westwood Dr, and west of Crandon Blvd.

Services shall be in full accordance with the specifications, terms and conditions contained in Section 2 of this Request for Qualifications (RFQ).

1.2 INTRODUCTION/BACKGROUND

The Village of Key Biscayne (the "Village") is located on an island approximately six (6) miles into Biscayne Bay and connected to the mainland via the Rickenbacker Causeway. Crandon Boulevard, a four-lane road with a median, bisects the Village. Shopping centers and single purpose commercial buildings line Crandon Boulevard. Towards the west lies single family homes. The east side of Crandon Boulevard contains mid to high rise multiple family buildings, one single family district, townhomes, and another single-family area that is part of a planned unit development. The incorporated Village is flanked by two large parks: Crandon Park to the north and Bill Baggs Cape Florida Recreation Area to the south. The latter receives

over a million visitors per year and is a major contributor to traffic congestion on the weekends and holidays. The Village is the home to approximately 15,000 residents residing on 1.25 square miles.

The Village is committed to efficient government administration. A small core of the Village staff has been serving its residents, businesses, and visitors exceptionally well through their dedication and with the help of consultants, contractors, and service providers who also have been committed to providing quality products at competitive prices. We expect to continue this tradition.

1.3 FEDERAL/STATE OR LOCAL GRANT FUNDED

This projects, in whole or in part, may be funded through grants from various entities, including local, state, and federal agencies, or a combination of these sources. The selected firm will be required to adhere to the applicable guidelines as necessary.

1.4 SUSPENSION/DEBARMENT

A prospective Bidder that is listed on the government-wide Excluded Parties List System in the System for Award Management (www.SAM.gov), or that is suspended or debarred by the State of Florida, cannot be awarded a contract.

1.5 DISADVANTAGED BUSINESS & WORKER UTILIZATION

Bidders are encouraged to utilize small, women and minority-owned businesses as subcontractors whenever possible. Lists of local certified businesses are available on Miami-Dade County's website at https://mdcsbd.gob2g.com/frontend/searchcertifieddirectory.asp In addition, Proposers may request assistance from organizations such as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Proposers who intend to hire additional workers for Village projects are encouraged to hire local workers. CareerSource South Florida maintains a job clearinghouse that can assist in connecting contractors with trained local construction workers.

1.6 VILLAGE RIGHTS

The Village reserves the right to award one or more contract(s) to the Respondent(s) in accordance with what the Village deems in its best interest. Notwithstanding, the Village may, at its sole discretion, reject all responses and cancel the solicitation, in which case no award will be made.

The Village reserves the right to accept or reject any or all Responses, based upon its deliberations and opinions. In making such determination, the Village reserves the right to investigate the financial capability, integrity, experience and quality of performance of each Consultant, including officers, principals, senior management and supervisors as well as the staff identified in the RFQ.

The Village also reserves the right to waive minor variations or irregularities in the Responses.

1.7 SCHEDULE OF EVENTS

The Village, at its sole discretion, may delay the scheduled due dates if it is to the advantage of the Village to do so. The Village will notify Contractors of all changes in scheduled due dates by written addendum through DemandStar. The following schedule shall govern this RFQ. The Village reserves the right to change the scheduled dates and times at its sole discretion.

No.	Event	Date
1	Advertisement/ Distribution of RFQ	June 20, 2025
2	**Pre-Submittal Conference Meeting** Key Biscayne BZP Conference Room, Suite # 250 88 West McIntyre Street, Key Biscayne, Florida 33149	**July 1, 2025** at 10:00 AM
3	**Closing Date for Proposal Questions**	**July 3, 2025 at 9:00 AM**
4	Village's Answers to Questions by Proposers	July 10, 2025
5	**Proposals Due / Opening Online See Section 3.5**	**July 25, 2025 at 11:30 AM**
6	Staff Member's Review of Technical Proposals	July 29, 2025
7	Reference Checks	July 29, 2025
8	Evaluation Committee Meeting / Short List	August 8, 2025
9	Presentations	TBD
10	Final Selection/Rank	August 13, 2025
11	Award Recommendation	August 19, 2025 or later
12	Contract Negotiation	August 20, 2025 or later

1.8 REQUEST FOR INFORMATION (RFI)

Vendors may request additional information, clarification, or modifications in the form of a Request for Information ("RFI"). Vendors seeking such information must email their RFIs to procurement@keybiscayne.fl.gov in order to receive a response. The request must include the contractor's name, the RFQ number, and RFQ title. Any RFI must be submitted prior to the deadline for questions indicated in the schedule of events in Section 1.7 to receive a response. Late or mis-delivered requests may not receive a Village response.

The Village will issue responses to RFIs, and any other corrections or amendments it deems necessary, in the form of a written addendum. The Village, at its sole discretion, may not issue a response to an RFI. Vendors should not rely on any representations made outside of these written addenda. Where a conflict appears between the RFQ and any issued addenda, the last addendum issued will prevail.

1.9 ADDENDA

Should revisions to the procurement documents become necessary, the Village will post any addendum(s) to DemandStar and the Village of Key Biscayne website www.keybiscayne.fl.gov/procurement. If a Contractor fails to acknowledge receipt of any such Addendum when submitting its SOQ, its SOQ will nevertheless be construed as though the Addendum had been received and acknowledged, and the submission of its SOQ will constitute acknowledgement of the receipt of the same. However, the Village may also, at its discretion, deem the SOQ as non-responsive.

Any Addenda prepared and issued by the Village prior to opening of SOQs for the purpose of changing the intent of the plans or specifications or clarifying the meaning of same shall be binding in the same way as if written in the specifications. Any Addenda issued prior to the execution of the contract shall be binding upon the Contractor after the execution of the agreement.

1.10 DISCREPANCIES, ERRORS AND OMISSIONS

Any discrepancies, errors, or ambiguities in the RFQ or addenda (if any) should be reported in writing to the Procurement Division at procurement@keybiscayne.fl.gov. If applicable, the Village will issue a written addendum to the RFQ clarifying such conflicts or ambiguities. It is agreed that any such alleged discrepancies, errors, or omissions will not be construed against the drafting party.

1.11 CERTIFICATION

The signer of the Response (to this RFQ) must declare by signing the Forms included in Section 6 that the person(s), firm(s) and parties identified in the Response are interested in and available for providing the Services; that the Response is made without collusion with any other person(s), firm(s) and parties; that the Response is fair in all respects and is made in good faith without fraud; and that the signer of the cover letter of the Response has full authority to bind the person(s), firm(s) and parties identified in the Response.

1.12 PRE-SUBMITTAL CONFERENCE

A **NON-MANDATORY** Pre-Submittal conference meeting/site visit will be held on **July 1, 2025,** at 10:00 a.m. at the **Key Biscayne BZP Conference Room, Suite # 250, Key Biscayne, Florida 33149.** All interested proposers are encouraged to attend.

It is the sole responsibility of the Proposer to inspect the project site and become familiar with the scope of the Village's requirements and systems prior to submitting a proposal. No variation in price or conditions shall be permitted based upon a claim of ignorance. Submission of a proposal will be considered evidence that the Proposer is familiar with the nature and extent of the work, equipment, materials, and labor required.

1.13 VILLAGE AUTHORITY

Proposals will be selected at the sole discretion of the Village. The Village reserves the right to waive any irregularities in the request process, to reject any or all proposals, reject a proposal which is in any way incomplete or irregular, re-bid the entire solicitation or enter into agreements with more than one Proposer. Proposals received after the deadline provided in this RFQ will not be considered.

1.14 RESPONSE/PRESENTATION COSTS

The Village shall not be liable for any costs, fees, or expenses incurred by any Vendor in responding to this RFQ, nor subsequent inquiries or presentations relating to its Response.

1.15 TERMS OF ENGAGEMENT

The Vendor, by submission of its Proposal, agrees to the terms and conditions contained in its contract and further agrees to execute the Contract without change. Notwithstanding, the Village, in its sole discretion, reserves the right to negotiate the final contract price or any terms and conditions.

The initial contract term is for four (4) months with the option to extend at its sole discretion for two four (4) month renewal terms for the maximum of twelve (12) months. The Proposer understands that this RFQ does not constitute an agreement or a contract with the Proposer. A proposal is not binding until proposals are approved by the Village of Key Biscayne Council and both parties execute a written contract.

Proposals that are conditioned to additions, deletions, or revisions to the Contract's terms and conditions will be rejected as non-responsive.

1.16 NOTICE TO PROCEED

The Successful Proposer shall not begin work until the Village issues a written Notice to Proceed ("NTP"). Work performed by the Successful Proposer prior to receiving NTP shall be deemed non-compensable by

the Village. The Successful Proposer shall not have any recourse against the Village for prematurely performing unauthorized work.

END OF SECTION 1.

SECTION 2. SCOPE OF SERVICES

2.1 PROJECT DESCRIPTION:

The Village of Key Biscayne (VKB) is requesting a quotation to provide updated stormwater modeling, proposed system solutions, high level cost estimates, and a qualitative risk assessment for the Zone 1 area of the Village with a focus on immediate flood relief for the K8 School area.

As part of the execution of this Work Order (WO), CONSULTANT will have access to VKB documents from prior stormwater plans and any current Village studies, models, and/or input data. Consultant will be able to coordinate meetings with Village Staff for any additional information that may be needed.

2.2 SCOPE OF WORK

Work Order consists of the following tasks and subtasks:

- **Task 1** – Update stormwater model to determine discharge requirements with provided design criteria for the Zone 1 area
    - Subtask 1.1 – Update model results for Zone 1 for provided level of service and design criteria requirements using existing stormwater models as a baseline
    - Subtask 1.2 – Provide a system level recommendation for proposed solutions for Zone 1 taking into consideration existing infrastructure and nature-based solutions
    - Subtask 1.3 – Provide a detailed stormwater system recommendation for the K8 School area
    - Subtask 1.4 – Provide cost estimates for construction of recommended systems
- **Task 2** – Conduct Risk Assessment of recommended solutions with regards to Village priorities and future well being
- **Task 3** – Perform associated communications and coordination

The detailed Scope of Work (SOW) of WO is presented below.

2.3 TASK 1.

Update stormwater model to determine discharge requirements with provided design criteria

CONSULTANT will provide an updated stormwater model for the Zone 1 area to determine discharge requirements and provide system level solutions for baseline flood mitigation. CONSULTANT will have access to existing model inputs from the previous AECOM Village Wide Drainage Assessment and Zone 1 Integrated Infrastructure Project as well as the 2015 EAC report and the referenced Tetra Tech Stormwater Master Plan which modeling results are derived.

2.3.1 Subtask 1.1 Run updated stormwater model for Zone 1 discharge assessment

CONSULTANT will provide an updated hydraulic model to determine a stormwater discharge approach for the following design criteria:

- Design time: 2050
- Sea Level Rise Curve: NOAA Intermediate

- Design Storm: SFWMD 5-year, 24-hour
- Residential Home Elevation: Base Flood Elevation + 3'
- Residential Contributing Area: 25' from Right of Way
- Road Height Minimum: Mean Sea Level + 1'

Level of Service: Maximum depth of 14" over low crown of road for no longer than 3.5 hours.

CONSULTANT may use existing modeling data from previous Village studies to include:

- Village Wide Drainage Assessment, by AECOM - 2024
- Hydraulic and Hydrologic Analyses Report (VKB Implementation of SWMP), By EAC - 2015
- Stormwater Management Master Plan Update, By Tetra Tech – 2011
- Village GIS database and LiDAR survey

CONSULTANT will provide updated discharge requirements for Zone 1 taking into consideration groundwater table elevations presently and in the future (2050) and address how that discharge capacity could change over the design life.

2.3.2 Subtask 1.2 Provide recommendations on a system level for Zone 1 solutions

CONSULTANT will review current federal, state, county and local codes and regulations and apply to recommended stormwater solutions to meet the above level of service. Considerations should be taken to include nature based and non-structural solutions, integration with the existing infrastructure, and synchronization with previously proposed solutions. Any permitting considerations should be noted to include Village of Key Biscayne Public Works, Florida Department of Environmental Protection (FDEP), Division of Environmental Resources Management (DERM), United States Army Corps of Engineers (USACE), and South Florida Water Management District (SFWMD).

2.3.3 Subtask 1.3 Provide detailed recommended solution for the K8 School Area

CONSULTANT will provide detailed recommendation for system to provide immediate relief to the K8 School area. The geographic area will be determined based on requirements of recommended system to keep streets **immediately surrounding** the school at the above provided level of service. Solution recommendations for K8 School Area should be provided as part of overall Village plan but capable of being performed as a standalone system.

2.3.3 Subtask 1.4 Provide Construction Cost Estimates and Schedules

CONSULTANT will provide high level construction cost estimates (Class 5) and construction schedules for new recommendations. Cost estimates should include engineering design, construction labor, material, permitting, mobilization and coordination costs, and construction management costs. Expected escalation for construction schedule should be included in estimate. Construction schedule should include time for design, procurement, permitting, and construction.

2.4 TASK 2.
Conduct Risk Assessment for Village Prioritization and Future Wellbeing

CONSULTANT will provide a qualitative assessment of benefits and risk of constructing the proposed drainage approach for Zone 1 as it relates to funding, quality of life and adaptability to changing environmental conditions. The risk assessment should take into consideration:

- Expected protection to resident life, health, safety, and quality of life
- Protection of residential and public property
- Acceptability within industry and supporting agencies to include ability to permit, design complexity, and industry interest.
- Ability to adapt to future conditions
- Ability to integrate solutions with existing Village infrastructure

2.5 TASK 3.
Communications and Considerations

As part of the delivery scope above and beyond the routine project management interactions, the CONSULTANT shall upon request, attend public meetings, and prepare presentations or communication materials to inform the Village stakeholders through community or townhall meetings, or other mediums desired by the Village to interact with its stakeholders. The CONSULTANT to provide an hourly rate to include the ability to support the below specific tasks:

- Support in development of one (1) presentation to Council or Committee
- Development and support of Community information materials
- Participation in up to three (3) meetings with Village staff or stakeholders

2.6 SCHEDULE

- WO expected to last approximately three to four months from the time of contract.

2.7 ASSUMPTIONS

- Work will be executed on a Time and Materials (T&M) basis, not-to-exceed the below amount.

2.8 COMPENSATION

CONSULTANT will provide the aforementioned services for a not-to-exceed fee of **$TBD**, based on the estimated time and material level of effort to provide the services noted above. Please include a fee breakdown, including description of hours and rates for CONSULTANT team members and other expenses. Invoices will be provided to VKB on a monthly basis and will be based on percent completion.

END OF SECTION 2.

SECTION 3. PROPOSAL SUBMISSION REQUIREMENTS

3.1 PROPOSAL SUBMITTAL DEADLINE

The Proposal Submittal Deadline is included in Section 1 - Notice to Proposers, of this RFQ. It is not required to include Section 1 – 5 of the RFQ with Proposal.

3.2 INTENT

The Village is requesting proposals from qualified and experienced firms to provide ZONE 1 ALTERNATIVE STORMWATER MODELING AND PLANNING under a continuing services contract. The intent is to demonstrate the qualifications, competence and capacity of the firms seeking to undertake the ZONE 1 ALTERNATIVE STORMWATER MODELING AND PLANNING for the Village in conformity with the requirements of this Request for Qualifications.

3.3 ELIGIBILITY

In addition to other requirements stated in this document, to be eligible for award, Proposer must demonstrate the following in their response:

1. Must be appropriately licensed and in good standing with the Florida Department of Professional Regulation

2. Must have five (5) years of continuous operation under the same name providing the same Services.

3. Proposer's project team must have prior experience within the past five (5) years in the same field as the Services.

4. Proposer's principal-in-charge must have a minimum of five (5) years of experience within the same field as the Services; and

5. Proposer's project manager must have a minimum of five (5) years of experience in the same field as the Services with prior project management experience and must be capable of speaking and making decisions on behalf of the Respondent.

Each Bidder shall meet all legal, technical, and professional requirements for providing the requested Services.

The Bidder shall furnish such additional information as the Village may reasonably require. This includes information that indicates financial resources as well as ability to provide the Services. The Village reserves the right to make investigations of the Bidders' qualifications or any of its agents, as it deems appropriate.

3.4 RFQ DOCUMENTS

These RFQ documents consist of the Proposal Documents and the Agreement Documents. All forms and documents contained within the RFQ, and the Agreement shall be completed and submitted. A proposer's failure to comply with any provisions in the RFQ or the Agreement may result in a determination of non-responsibility and/or non-responsiveness, at the sole discretion of the Village. All instructions in the RFQ must be adhered to.

3.5 PROPOSAL FORMAT

A. The proposal shall be typewritten 8½ x 11-inch white paper.

B. All pages are to be consecutively numbered. If there is insufficient space for a response on a form, the response may be continued on a blank page immediately following the form. The additional pages are to be numbered the same as the form with the addition of the letter "a", "b", "c", etc. If a form is provided and additional pages are needed, the form may be copied. The copied pages are to be numbered the same as the form with the addition of the letter "a", "b", "c", etc.

C. In instances where a response is not required, or is not applicable or material to the proposal, a response such as "no response is required" or "not applicable" is acceptable.

D. The proposer shall compile and organize the responses according to the tabs listed below. Within the tabbed section, clearly organize and mark your responses according to the topics outlined below. It is very important to follow the format outlined below to assist the Village in the evaluation process. All proposals must include the following items. Responses must be in the same order as, and responsive to, the information requested. Unnecessarily elaborate proposals and/or lengthy presentations are not desired or required by the Village:

I. Tab A - Representations and Certifications

- Cover Sheet
- Proposal Forms listed in Section 6.
- Statement of Financial Stability

II. Tab B – Executive Summary

The proposer shall provide the following information in the order outlined below:

1. A title page.
2. A table of contents
3. Executive Summary: This summary, limited to two typewritten pages, should provide a high-level description of the Proposer's ability to meet the requirements of the RFQ and a statement describing why the proposer believes itself to be best qualified to provide the identified services.
4. Deliverables, tasks, activities, etc. as outlined in the Scope of Services.
5. List any exceptions to this RFQ. Exceptions listed elsewhere will not be recognized.

III. Tab C – Qualifications and Experience

The proposer shall provide the following information in the order outlined below:

1. **Qualifications:** Provide a brief description of your firm, including:
   a. Qualification of Firm
   b. Qualification of Staff
   c. Industry Knowledge and Expertise
   d. Project Management and Special Services pertinent to this Solicitation; and Past Performance (The evaluation should consider past performance information regarding predecessor companies, key personnel who have relevant experience, or subcontractors that will perform major or critical aspects of the requirement when such information is relevant to this solicitation. Past performance

information should also include recent and relevant contracts for the same or similar items and other references including contract numbers, points of contact with telephone numbers and other relevant information).

2. Service Team and Resume

a. Provide an organizational chart of the team that would serve the Village.
b. Provide detailed descriptions of each team member's role, responsibilities, experience, and education. Also provide a current one-page resume for each member.
c. Provide information on the relevant experience of each team member.
d. Describe what approach the team would take in providing services to Village. Indicate type and frequency of meetings and other forms of communications.

3. Provide a Personnel Plan that includes:

a. A complete operating plan with organizational chart and supporting information which illustrates the proposed staffing plan for each operation on a daily, weekly, and monthly basis for all types of positions included in the proposal.
b. Provide data for which staffing levels are based and include employee qualifications for the positions, full-time/part-time status, process for staffing and determinations and process for adjustments.
c. The organizational chart must include managerial positions assigned to VILLAGE and Corporate levels for the Proposer's company with the corresponding roles to VILLAGE staff.
d. Provide detailed description of each position's role and responsibilities.

IV. Tab D – Subcontracting Plan

The proposer shall submit a subcontracting plan with the proposal. The plan shall specifically identify names of potential subcontractor(s), or area to be subcontracted, field of expertise, number of years in the field, proposed dollars amount of subcontracting effort by category and references. This plan will be incorporated into the winning contractor's contract and monitored throughout the life of the contract for compliance.

V. TAB E – Proposal Approach

The Proposer must submit a comprehensive approach to implementation of the Project in accordance with the Scope of Work in Section 2, of this RFQ. The comprehensive approach must provide information regarding the documentation and ability to furnish the services necessary to implement the Project in accordance with the Package, and the any innovative technology solutions to be employed in the provision of the Services for the Project. The approach should include the ability to work with existing ICPR and InfoSWMM model data. The approach should include the ability to prioritize recommended solutions in a time phased manner with budget and construction considerations.

VI. TAB G – Insurance.

Proposers must provide evidence of insurance currently in place that meets or exceeds the specifications herein or a commitment from an insurance company that such insurance coverage may be obtained by the Proposer prior to entering into an agreement with the Village. The successful Proposer(s) must submit, prior to signing of a contract, a Certificate of Insurance naming the Village as an additional insured and meeting the requirements set forth in the form of Design-Build Contract attached to this RFP as Attachment "B."

The Village may require higher limits of insurance or additional coverage if deemed necessary.

E. The following items shall be submitted by the successful proposer after the award of the Agreement (at the time specified herein).

- Exhibit A: Certificate of Insurance

3.6 SUBMITTAL, RECEIPT AND OPENING OF PROPOSALS

CONTRACTOR's solicitation response must be submitted electronically through DemandStar (www.demandstar.com), the Village's designated electronic bidding system. It is solely the CONTRACTOR's responsibility to assure its response is submitted and received in DemandStar by the date and time specified in the solicitation. The Village will not consider responses received by any other means. The official time for electronic submittals is the DemandStar server. All parties will, without reservation, accept the official time. Any bid may be rejected for noncompliance to requirements after a full review by the Village. The sealed submittals will be publicly opened at the Village of Key Biscayne, Village Hall after the Proposal Submittal Deadline. Award of a proposal will be made at a Village Council meeting.

Meeting ID: 815 3094 5349
Passcode: 476896

Date: July 25, 2025, 11:35 a.m.

3.7 WITHDRAWAL OR REVISION OF PROPOSAL PRIOR TO AND AFTER SUBMITTAL DEADLINE

Once a proposal has been submitted by the Proposal Submittal Deadline, it shall not be returned to the proposer.

3.8 PROPOSAL GUARANTEE

All proposals shall be guaranteed firm for a minimum of 90 calendar days after the submission of the proposal.

3.9 MULTIPLE PROPOSAL PROHIBITED

More than one proposal from an individual, firm, partnership, corporation, or association under the same or different names shall not be considered. Reasonable grounds for believing that a proposer is involved in more than one proposal for the same work shall be cause for rejection of all proposals in which such proposers are believed to be involved. In addition, a single proposal from more than one individual, firm, partnership, corporation, or association under the same or different names shall not be considered. Joint ventures shall be permitted; however, such arrangements shall designate a single primary proposer or shall be combined into a single legal entity. The Village shall only consider one proposal from one proposer.

3.10 ADDITIONAL TERMS AND CONDITIONS

Proposer shall state any exceptions/deviations from the RFQ requirements or Agreement. Exceptions to the Agreement should contain a summary of every objection or deviation with adherence to specific RFQ or Agreement sections.

3.11 INTERPERPRETATIONS AND INQUIRIES

A. Submission of a proposal shall serve as prima facie evidence that the proposer has examined the Agreement and is fully aware of all conditions affecting the provision of services.

B. No person is authorized to give oral interpretations of, or make oral changes to, the RFQ or the Agreement. Therefore, oral statements shall not be binding and should not be relied upon.

C. Any interpretation of, or changes to, the RFQ or the Agreement shall be made in the form of a written addendum to the RFQ or the Agreement and shall be furnished by the Village to all proposers who attend the non-mandatory pre-proposal conference. Only those interpretations of, or changes to, the RFQ or the Agreement that are made in writing and furnished to the proposers by the Village may be relied upon.

3.12 IRREGULARITIES & RESERVATION OF RIGHTS

Proposals will be selected at the sole discretion of the Village. The Village reserves the right to waive any irregularities in the request process, to reject any or all proposals, reject a proposal which is in any way incomplete or irregular, re-bid the entire solicitation or enter into agreements with more than one respondent. Proposals received after the deadline provided in this RFP will not be considered.

The Village reserves the right to award one or more contract(s) to the Contractor who will best serve the interests of the Village and whose Proposals meet the requirements and criteria set forth in this RFP. Notwithstanding, the Village may, at its sole discretion, reject all Proposals and cancel the solicitation, in which case no award will be made.

The Village reserves the right to accept or reject any or all Proposals, based upon its deliberations and opinions. In making such determination, the Village reserves the right to investigate the financial capability, integrity, experience and quality of performance of each Contractor, including officers, principals, senior management and supervisors, as well as the staff identified in the Proposal.
Proposers shall furnish additional information as the Village may require. This includes information that indicates financial resources as well as ability to provide the requisite services. The Village reserves the

right to make investigations of the qualifications of the firm as it deems appropriate, including but not limited to background investigations and checking references.

3.13 PROPOSAL/PRESENTATION COSTS

The Village shall not be liable for any costs, fees, or expenses incurred by any Consultant in responding to this RFP, nor subsequent inquiries or presentations relating to its Proposal.

END OF SECTION 3.

SECTION 4. EVALUATION OF PROPOSALS

4.1 SELECTION COMMITTEE

Proposals submitted shall be evaluated by the Selection Committee. The Selection Committee shall convene at a publicly noticed meeting to review submissions, rank and evaluate the proposals, and provide a recommendation for the award. Each Selection Committee Member shall complete and execute an independence affidavit.

4.2 ADMINISTRATION REVIEW OF PASS/FAIL CRITERIA

SOQs will be reviewed initially for overall compliance with the RFQ requirements and to determine if mandatory pass/fail criteria are met (Licensing Requirements (Tab 5), Proof of Insurance and Bonding (Tab 6), and Claims History (Tab 7)). Failure to meet mandatory pass/fail criteria may result in rejection of the SOQ.

4.3 EVALUATION OF SOQS FOR SHORT LISTING

SOQs deemed to have met the pass/fail criteria will be evaluated in accordance with section 287.055, Florida Statutes, and the Evaluation Criteria set forth in Section III of this RFQ. The shortlist will only include the Proposers deemed by the Village, in the Village's sole discretion, to be the most highly qualified Contractors based on the Evaluation Criteria set forth in Section III and based on a subjective weighing of the Evaluation Criteria. The Village intends to shortlist, if reasonably possible, no less than three (3) Proposers that it deems are the most highly qualified.

4.4 BASIS OF AWARD

After shortlisting, the Village will then conduct interviews and presentations of the shortlisted Proposers to score the shortlisted Proposers using the following maximum point system:

Category	Score (Points)
Project Approach (Tab E)	40
Organizational Profile (Tab C)	30
Project Experience/Qualifications (Tab C)	30
Total:	**100 Points**

The Village will score each shortlisted Contractor based on the Evaluation Criteria, evidenced through the Proposers' SOQs and their interviews and presentations, and use the scores to determine its recommendation for the final ranking. The Village will then make a final recommendation of the ranking of the shortlisted Proposers to the Village Council. The Village may also perform additional due diligence on Proposers, including through reference checks, which may then become part of the evaluation process.

The Village will take its recommendation for the final ranking of the shortlisted Proposers to the Village Council for approval and permission to negotiate the contract with the top- ranked Proposer. The Village Council will select, in order of preference, based on the above information, the most highly qualified Proposer(s) to perform the requested Scope of Work. The extent and scope of the Scope of Work, along with the fees for such Work will be negotiated with the top-selected Proposer(s) but will be subject to approval by the Village. Should the Village be unable to negotiate a satisfactory contract with the Proposer considered to be the most qualified, at a price the Village determines to be fair, competitive and reasonable, negotiations with that Proposers shall be terminated. The Village shall then undertake negotiations with the next ranked Proposer, and if necessary, additional Proposers in accordance with the

ranking. The Village reserves the right to award any or all of the advertised Project subject to the availability of funding.

The selected Proposer will be required to execute a truth-in-negotiation certificate stating that wage rates and other factual unit costs supporting the negotiated and agreed upon compensation are accurate, complete, and current at the time of contracting.

All decisions will be final and shall represent the best interest for the Village. All recommendations and decisions regarding award of the Project shall be made at open public meetings in accordance with the requirements of Florida Statute 286.011, and all interested parties are invited to attend such meetings.

The Village reserves the right to waive any irregularity or informality in the SOQs received, to determine, in its sole discretion, whether or not the informality is minor, to reject or accept any or all SOQs and to select the Contractors based on criteria which serves the best interests of the Village.

4.5 NOTICE OF INTENT TO AWARD

A Public Notice of Intent to Award shall be posted to DemandStar. The notice shall include:

- The awarded Contractor(s)

A contract shall not exist until approved by the appropriate levels of the Village and properly executed.

4.6 INQUIRIES/QUESTIONS

All inquiries shall be made in writing and addressed to procurement@keybiscayne.fl.gov.

Inquiries shall be made at least ten (10) calendar days prior to the SOQ opening date.

Replies will be issued to all bidders of record as Addenda. If questions are related to the Drawings and Specifications, replies will be issued via Addendum and posted to Demandstar and will become part of the contract.

END OF SECTION 4.

SECTION 5. GENERAL REQUIREMENTS

5.1 RETENTION OF PROPOSAL

The Village reserves the right to retain all Proposals submitted and use any ideas contained in any Proposals, regardless of whether that Bidder is selected.

5.2 PUBLIC RECORDS

Florida law provides that municipal records should be open for inspection by any person under Chapter 119, F.S. Public Records law. All information and materials received by the Village in connection with Proposals shall become property of the Village and shall be deemed to be public records subject to public inspection.

5.3 LOBBYIST REGISTRATION

Respondents must comply with the Village's lobbyist regulations. Please contact the Village Clerk at (305) 365-5506 for additional information.

5.4 PERMITS, TAXES, LICENSES

The Vendor shall, at its own expense, obtain all necessary permits, pay all licenses, fees and taxes required to comply with all local ordinances, state and federal laws, rules, regulations and professional standards that would apply to this contract.

5.5 LAWS, ORDINANCES

The Vendor shall observe and comply with all federal, state, and local laws, including ordinances, rules, regulations and professional standards that would apply to the contract.

5.6 NON-APPROPRIATION OF FUNDS

In the event that insufficient funds are appropriated, and budgeting or funding is otherwise unavailable or not allocated in any fiscal period for the Agreement, the Village shall have the unqualified right to terminate the Work Order(s), and/or Agreement, upon written notice to the Successful Proposer, without any penalty or expense to the Village or recourse against the Village. No guarantee, promise, warranty, or representation is made that any work or project(s) will be assigned to the Successful Proposer.

5.7 PUBLIC ENTITY CRIMES ACT

In accordance with the Public Entity Crimes Act, (Section 287.133, Florida Statutes) a person or affiliate who is a contractor, who had been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to the Village, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases or real property to the Village, may not be awarded or perform work as a contractor, supplier, subcontractor, or CONTRACTOR under a contract with any public entity, and may not transact business with the Village in excess of the threshold amount provided in Section 287.917, Florida Statutes, for Category Two for a period of 36 months form the date of being placed on the convicted vendor list. Violation of this section by the Contractor shall result in rejection of the Bid, termination of the contract, and may cause Contractor debarment.

5.8 KEY PERSONNEL

Subsequent to submission of a Proposal and prior to award of an Agreement, Key Personnel shall not be changed. Proposers shall not change any member of their Key Personnel without just cause and prior

written approval by the Village. The Village reserves the right to request additional documentation, as required by the RFQ prior to making its determination. If the Village does not accept the proposed change(s), the Proposal may be rejected and not considered for award.

5.9 E-VERIFY

Successful Bidder shall utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Contractor during the term of the Contract and shall expressly require any Subcontractor performing work or providing services pursuant to the Contract to likewise utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Subcontractor during the Contract term.

5.10 CONFLICT OF INTEREST

Proposers, by responding to this RFQ, certify that to the best of their knowledge and belief, no elected/appointed official or employee of the Village is financially interested, directly or indirectly, in the purchase of goods/services specified in this RFQ. Any such interests on the part of the Proposer or its employees shall be disclosed in writing to the Village. Further, Proposers shall disclose the name of any Village employee who owns, directly or indirectly, an interest of five percent (5%) or more of the total assets of capital stock of the Proposing firm.

5.11 DEBARRED/SUSPENDED VENDORS

An entity or affiliate who has been placed on the State of Florida or Federal debarred or suspended vendor list may not: a) submit a Proposal on a contract to provide goods or services to a public entity; b) may not submit a Proposal on a contract with a public entity for the construction or repair of a public building or public work; c) may not submit a Proposal on leases of real property to a public entity; d) may not be awarded or perform work as a contractor, design-builder, supplier, subcontractor, or consultant under contract with any public entity; and e) may not transact business with any public entity.

5.12 NON-DISCRIMINATION

Proposer agrees that it shall not discriminate by race, gender, color, age, religion, national origin, marital status, or disability in connection with its performance under this RFQ. Furthermore, Proposer agrees that no otherwise qualified individual shall solely by reason of his/her race, gender, color, age, religion, national origin, marital status, or disability be excluded from the participation in, be denied benefits of, or be subjected to, discrimination under any program or activity called for or required in connection with services rendered under this Agreement.

5.13 UNETHICAL BUSINESS PRACTICE PROHIBITIONS

Proposer represents and warrants to the Village that it has not employed or retained any person or company employed by the Village to solicit or secure the award of the Agreement and that it has not offered to pay, paid, or agreed to pay any person any fee, commission, percentage, brokerage fee, or gift of any kind, contingent upon or in connection with, the award of the Contract.

5.14 ADDITIONAL TERMS AND CONDITIONS

No additional terms and conditions included with the Proposal shall be evaluated or considered, and any and all such additional terms and conditions shall have no force or effect and are inapplicable to this solicitation. If submitted purposely, through either intent or design, or inadvertently, appearing separately in transmittal letters, specifications, literature, price lists, or warranties, it is understood and agreed that the General and Special Conditions in this solicitation are the only conditions applicable to this solicitation

and that the Proposer's authorized signature affixed to the Proposer's acknowledgment form, attests to this.

5.15 ASSIGNMENT, NON-TRANSFERABILITY OF PROPOSAL

A. Proposals shall not be assigned or transferred. A proposer who is, or may be, purchased by or merged with any other corporate entity during any stage of the proposal process, through to and including awarding of and execution of the Agreement, is subject to having its proposal disqualified as a result of such transaction. The Village Manager shall determine whether a proposal is to be disqualified in such instances.

B. If, at any time during the proposal process, filings, notices or like documents are submitted to any regulatory agency concerning the potential acquisition of proposer, or the sale of a controlling interest in the proposer, or any similar transaction, the proposer shall immediately disclose such information to the Village. Failure to do so may result in the proposal being disqualified, at the Village's sole discretion.

5.16 PUBLIC RECORDS

Upon award recommendation or 30 days after proposal opening, whichever is earlier, any material submitted in response to this RFP shall become a "public record" and shall be subject to public disclosure consistent with Chapter 119, Florida Statutes (Public Records Law). Proposers shall claim the applicable exemptions to disclosure provided by law in their response to the RFP by identifying materials to be protected and shall state the reasons why such exclusion from public disclosure is necessary and legal. The Village reserves the right to make all final determination(s) of the applicability of the Florida Public Records Law.

5.17 PUBLIC ENTITIES CRIME

A. A person or affiliate as defined in Section 287.133, Florida Statutes, who or which has been placed on the convicted vendor list maintained by the Florida Department of Management Services following a conviction for a public entity crime, may not submit a proposal to provide any goods or services to the Village and may not transact business with the Village in an amount set forth in Section 287.017, Florida Statutes, for Category Two for a period of 36 months from the date of being placed on the convicted vendor list.

B. By submitting a response, the proposer certifies that it is qualified under Section 287.133, Florida Statutes, to provide the services set forth in the Agreement.

5.18 SCRUTINIZED COMPANIES

Pursuant to Section 287.135, Florida Statutes, a Proposer is ineligible to, and may not submit a Proposal for, or enter into or renew a contract with VILLAGE for goods or services if at the time of submitting a Proposal for a new contract or renewal of an existing contract:

A. for any contract amount, if the Proposer is on the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, or is engaged in a boycott of Israel;

B. if $1 million or more and the Proposer is on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to Section 215.473, Florida Statutes; or

C. if $1 million or more and the Proposer is engaged in business operations in Cuba or Syria.

5.19 EXAMINATION OF CONDITIONS

It shall be the Proposer's responsibility to visit the proposed work site(s) and to thoroughly familiarize himself with the nature and extent of the work to be performed and all local existing site conditions, to make his own estimate of the facilities and difficulties attending the execution of the work; no allowance shall be made by the Village for the Proposer's failure to do so.

5.20 INSURANCE REQUIREMENTS

Proposer shall secure and maintain throughout the duration of the Contract, if selected, insurance of such types and in such amounts not less than those specified below as satisfactory to Village, naming the Village as an Additional Insured, underwritten by a firm rated A-X or better by A.M. Best and qualified to do business in the State of Florida. The insurance coverage shall be primary insurance with respect to the Village, its officials, employees, agents and volunteers naming the Village as additional insured. Any insurance maintained by the Village shall be in excess of the Proposer's insurance and shall not contribute to the Proposer's insurance. The insurance coverages shall include at a minimum the amounts set forth in this section and may be increased by the Village as it deems necessary or prudent. Copies of Proposer's actual Insurance Policies as required herein and Certificates of Insurance shall be provided to the Village, reflecting the Village as an Additional Insured. Each Policy and certificate shall include no less than (30) thirty-day advance written notice to Village prior to cancellation, termination, or material alteration of said policies or insurance. All coverage forms must be primary and non-contributory and the Proposer shall provide a waiver of subrogation for the benefit of the Village. The Proposer shall be responsible for assuring that the insurance policies and certificates required by this Section remain in full force and effect for the duration of the Project.

a) Commercial General Liability coverage with limits of liability of not less than a $1,000,000 per Occurrence combined single limit for Bodily Injury and Property Damage. This Liability Insurance shall also include Completed Operations and Product Liability coverages and eliminate the exclusion with respect to property under the care, custody and control of Proposer. The General Aggregate Liability limit and the Products/Completed Operations Liability Aggregate limit shall be in the amount of $2,000,000 each.

b) Workers Compensation and Employer's Liability insurance, to apply for all employees for statutory limits as required by applicable State and Federal laws. The policy(ies) must include Employer's Liability with minimum limits of $1,000,000.00 each accident. No employee, subcontractor or agent of the Proposer shall be allowed to provide Services pursuant to this RFQ who is not covered by Worker's Compensation insurance.

c) Business Automobile Liability with minimum limits of $1,000,000.00 per Occurrence, combined single limit for Bodily Injury and Property Damage. Coverage must be afforded on a form no more restrictive than the latest edition of the Business Automobile Liability policy, without restrictive endorsements, as filed by the Insurance Service Office, and must include Owned, Hired, and Non- Owned Vehicles.

The Successful Proposer(s) shall, within ten (10) days of receipt of a written notice of the Award of the Contract, deliver to the Village a fully executed Contract and all requested certificates of insurance and bonds.

5.21 DISCRIMINATORY VENDORS

Discriminatory Vendors List: Pursuant to Section 287.134 , Florida Statues, an entity or affiliate who has been placed on the discriminatory vendor list may not submit a SOQ, bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity.

5.22 NON-COLLUSION CERTIFICATION

By submitting a SOQ, bid, or proposal to the Village, the individual signing the bid/proposal on behalf of the Contractor (Contractor) certifies that the bid/proposal is genuine, accurate and factual, and that:

i. The Contactor has not colluded, conspired or agreed directly or indirectly with any other person or entity in any way to fix the price, terms, or otherwise secure an advantage over the Village or any person interested in the proposed contract.
ii. The price of the bid/proposal was determined independently of outside consultation and was not influenced by any other company, client or Contractor.
iii. No company, client or Contractor has been solicited to propose a fake or sham bid or proposal, or to refrain from bidding or submitting any form of noncompetitive bid, proposal or response.
iv. The price of the bid/proposal has not been disclosed to any client, company or Contractor, and will not be disclosed until after the formal date the subject bid or proposal is awarded by the Village.
v. The Proposer also certifies that its bid is in all respects fair and without outside control, collusion, fraud, or otherwise illegal action.

5.22 CONE OF SILENCE

To ensure fair consideration for all Proposers, a Cone of Silence is encourage starting on the posting date of the proposal. Proposers are asked not to communicate any department, division, or employee from the submission package concerning the proposal until an award decision has been made. Any communication between Proposer and the Village in order to obtain information or clarification needed to develop a proper, accurate evaluation of the proposal should be conducted through the Village Procurement Officer, Daren Jairam at djairam@keybiscayne.fl.gov or procurement@keybiscayne.fl.gov.

5.23 COMPLIANCE WITH FEDERAL REQUIREMENTS

The Successful Proposer shall be required to adhere to (1) all FEMA Guidelines, including the Hazard Mitigation Assistance Program and Policy Guide, as may be amended from time to time; (2) the contract provisions listed under 2 CFR Part 200, Appendix II; (3) all applicable contract provisions and guidance in the FEMA Contract Provisions Guide, as may be amended from time to time; and (4) the Federally-Funded Subaward and Grant Agreement No. H0970 attached hereto as Exhibit "H." Furthermore, the Successful Proposer acknowledges and agrees that the following contractual provisions shall govern this procurement and any contract that may be competitively awarded pursuant to this RFP:

5.23.1 Equal Employment Opportunity. During the performance of the Services, the Successful Proposer agrees as follows:

5.23.1.1 The Successful Proposer will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The Successful Proposer will take affirmative action to ensure that applicants are employed,

and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Successful Proposer agrees to post in conspicuous places, available to employees and applicants for_employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

5.23.1.2 The Successful Proposer will, in all solicitations or advertisements for employees placed by or on behalf of the Successful Proposer, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

5.23.1.3 The Successful Proposer will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the Successful Proposer's legal duty to furnish information.

5.23.1.4 The Successful Proposer will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the Successful Proposer's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

5.23.1.5 The Successful Proposer will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

5.23.1.6 The Successful Proposer will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

5.23.1.7 In the event of the Successful Proposer's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the Successful Proposer may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures_authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

5.23.1.8 The Successful Proposer will include the portion of the sentence immediately preceding subsection 2.22.1.1 through 2.22.1.8 in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The Successful Proposer will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a Successful Proposer becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the Successful Proposer may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: Provided, That if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a Successful Proposer debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

5.23.2 Compliance with the Davis-Bacon Act. As applicable, during the performance of the Services, the Successful Proposer agrees as follows:

a. All transactions regarding this contract shall be done in compliance with the Davis-Bacon Act (40 U.S.C. 3141- 3144, and 3146-3148) and the requirements of 29 C.F.R. pt. 5 as may be applicable. The Successful Proposer shall comply with 40 U.S.C. 3141-3144, and 3146-3148 and the requirements of 29 C.F.R. pt. 5 as applicable.

b. Successful Proposers are required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor.

c. Additionally, Successful Proposers are required to pay wages not less than once a week.

5.23.3 Compliance with the Copeland "Anti-Kickback" Act. As applicable, during the performance of the Services, the Successful Proposer agrees as follows:

a. Successful Proposer. The Successful Proposer shall comply with 18 U.S.C. § 874, 40 U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.

b. Subcontracts. The Successful Proposer or subcontractor shall insert in any subcontracts the clause above and such other clauses as FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime Successful Proposer shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

c. Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a Successful Proposer and subcontractor as provided in 29 C.F.R. § 5.12.

5.23.4 Compliance with the Contract Work Hours and Safety Standards Act. As applicable, during the performance of the Services, the Successful Proposer agrees as follows:

5.23.4.1 Overtime requirements. The Successful Proposer or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall not require nor permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

5.23.4.2 Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in subsection 28.2.1. of this section the Successful Proposer and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, the Successful Proposer and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in subsection 28.2.1. of this section, in the sum of $10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in 28.2.1. of this section.

5.23.4.3 Withholding for unpaid wages and liquidated damages. The Village shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the Successful Proposer or subcontractor under any such contract or any other Federal contract with the same prime Successful Proposer, or any other federally-assisted contract subject to the *Contract Work Hours and Safety Standards Act*, which is held by the same prime Successful Proposer, such sums as may be determined to be necessary to satisfy any liabilities of such Successful Proposer or subcontractor for

unpaid wages and liquidated damages as provided in the clause set forth in subsection 28.2.2. of this section.

5.23.4.4 Subcontracts. The Successful Proposer or subcontractor shall insert in any subcontracts the clauses set forth in subsections 28.2.1 through 28.2.4. of this section and a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime Successful Proposer shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in subsections 28.2.1. through 28.2.4. of this section.

5.23.5 Rights to Inventions Made under this Agreement.

5.23.5.1 As applicable, if the Successful Proposer is engaged for the performance of experimental, developmental, or research, the Successful Proposer's work shall provide for the rights of the Federal Government and the recipient in any resulting invention in accordance with 37 CFR part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the Federal Government.

5.23.6 Clean Air Act and Federal Water Pollution Control Act. As required by Federal program legislation, the Successful Proposer agrees to comply with the following federal requirements:

5.23.6.1 *Clean Air Act*.

5.23.6.1.1 The Successful Proposer agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. (2)

5.23.6.1.2 The Successful Proposer agrees to report each violation to the Village and understands and agrees that the Village will, in turn, report each violation as required to assure notification to the State of Florida, Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

5.23.6.1.3 The Successful Proposer agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

5.23.6.2 *Federal Water Pollution Control Act.*

5.23.6.2.1 The Successful Proposer agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

5.23.6.2.2 The Successful Proposer agrees to report each violation to the Village and understands and agrees that the Village will, in turn, report each violation as required to assure notification to The State of Florida, Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

5.23.6.2.3 The Successful Proposer agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

5.23.7 Debarment and Suspension. During the performance of the Services, the Successful Proposer agrees as follows:

5.23.7.1 This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the Successful Proposer is required, and will, verify that neither Successful Proposer, its principals (defined at 2 C.F.R. § 180.995), nor its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

5.23.7.2 The Successful Proposer will comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters.

5.23.7.3 Successful Proposer's certification is a material representation of fact relied upon by the Village. If it is later determined that the Successful Proposer did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the State of Florida, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

5.23.7.4 The Successful Proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C throughout the period this Agreement. The Successful Proposer further agrees to include a provision requiring such compliance in its lower-tier covered transactions.

5.23.8 Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended). During the performance of the Services, the Successful Proposer agrees as follows:

5.23.8.1 The Successful Proposer certifies to the Village that it has not and will not use Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. *The required Certification is attached to this Agreement*.

5.23.8.2 Successful Proposer will also ensure that each tier of subcontractor(s) shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures will be forwarded from tier-to-tier up to the Village.

5.23.9 Procurement of Recovered Materials. As required by federal program legislation, Successful Proposer agrees to the following:

5.23.9.1 In the performance of this contract, the Successful Proposer shall make maximum use of products containing recovered materials that are EPA-designated items unless the product cannot be acquired:

5.23.9.1.1 competitively within a timeframe providing for compliance with the contract performance schedule;

5.23.9.1.2 meeting contract performance requirements; or

5.23.9.1.3 at a reasonable price.

5.23.9.2 Information about this requirement, along with the list of EPA-designate items, is available at EPA's Comprehensive Procurement Guidelines web site, https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program.

5.23.9.3 The Successful Proposer also agrees to comply with all other applicable requirements of Section 6002 of the Solid Waste Disposal Act.

5.23.10 DHS Seals, Logos, and Flags. The Successful Proposer shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval.

5.23.11 Compliance with Federal Law, Regulations, and Executive Orders. The Successful Proposer acknowledges that FEMA financial assistance will be used to fund the all or a portion of the contract. The Successful Proposer will comply will all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives.

5.23.12 No Obligation by Federal Government. Successful Proposer acknowledges that the Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, Successful Proposer, or any other party pertaining to any matter resulting from the contract.

5.23.13 Program Fraud and False or Fraudulent Statements or Related Acts. The Successful Proposer acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the Successful Proposer actions pertaining to this Agreement.

5.23.14 Access to Records.

5.23.14.1 The Successful Proposer agrees to provide the State of Florida, the Village, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representatives access to any books, documents, papers, and records of the Successful Proposer which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.

5.23.14.2 The Successful Proposer agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

5.23.14.3 The Successful Proposer agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract.

5.23.14.4 In compliance with the Disaster Recovery Act of 2018, the Village and the Successful Proposer acknowledge and agree that no language in this Agreement is intended to prohibit audits or internal reviews by the FEMA Administrator or the Comptroller General of the United States.

5.23.15 Affirmative Socioeconomic Steps/Small and Minority Businesses, Women's Business Enterprises.

5.23.15.1 Successful Proposer shall comply with 2 C.F.R. § 200.321, "Contracting with small and minority businesses, women's business enterprises, and labor surplus area firms."

5.23.15.2 If subcontracts are to be let, the Successful Proposer is required to take all necessary steps identified in 2 C.F.R. § 200.321(b)(1)-(5) to ensure that small and minority businesses, women's business enterprises, and labor surplus area firms are used when possible.

5.23.16 Change or Modification. To be eligible for FEMA assistance under a FEMA grant or cooperative agreement, the cost of a change, modification, change order, or constructive change must be allowable, allocable, within the scope of the grant or cooperative agreement, and reasonable for the completion of the project scope. Accordingly, the Successful Proposer shall comply with the following:

5.23.16.1 Without invalidating the Agreement, Village reserves and shall have the right, from time to time to make such increases, decreases or other changes in the character or quantity of the work as may be considered necessary or desirable to fully and properly complete the project in a satisfactory manner in accordance with the scope of the FEMA grant or cooperative agreement. Any extra or additional work within the scope of this Agreement must be accomplished by means of appropriate Field Orders or Change Orders.

5.23.16.2 The Village shall have the right to approve and issue Field Orders setting forth written interpretations of the intent of the project documents and ordering minor changes in work execution, providing the Field Order involves no change in the Agreement Price or the Agreement Time.

5.23.16.3 Changes in the quantity or character of the Work or Services within the scope of the Project which are not properly the subject of Field Orders, including all changes resulting in changes in the Agreement Price, or the Agreement Time, shall be authorized only by Change Orders approved in advance and issued in accordance with the provisions of Village's Procurement Code, as amended from time to time.

5.23.17 Remedies. Village confirms that it is entitled to exercise all administrative, contractual, or other remedies permitted by law to enforce Successful Proposer's compliance with the terms of this Agreement, except to the extent expressly provided otherwise by this Agreement.

5.23.18 Prohibition on Contracting for Covered Telecommunications Equipment or Services. If applicable, the Successful Proposer shall agree as follows:

5.23.18.1 The Village and the Successful Proposer must comply with the Section 889(b)(1) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (FY2019 NDAA) and 2 C.F.R. 200.216, which prohibits the obligation or expending of federal award funds on certain telecommunication products or from certain entities for national security reasons. Towards that end, the Successful Proposer shall ensure that the Successful Proposer and its subcontractors do not:

5.23.18.2 Procure or obtain any equipment, system, or service that uses covered telecommunications equipment of services as a substantial or essential component of any system, or as critical technology of any system;

5.23.18.3 Enter into, extend, or renew a contract to procure or obtain any equipment, system, or service that uses covered telecommunications equipment or services as substantial or essential component of any system or as critical technology of any system; or

5.23.18.4 Enter into, extend or renew contracts with entities that use covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system.

Additional information, including definitions for this requirement can be found in FEMA Policy 405-143-1. Prohibitions on Expending FEMA Award Funds for Covered Telecommunications Equipment or Services (Interim).

5.23.19 Domestic Preference for Procurements. As appropriate, and to the extent consistent with law, the Successful Proposer should, to the greatest extent practicable, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States. This includes, but is not limited to iron, aluminum, steel, cement, and other manufactured products. For purposes of this clause:

5.23.19.1 *Produced in the United States* means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

5.23.19.2 *Manufactured products* mean items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

5.23.20 License and Delivery of Works Subject to Copyright and Data Rights. If applicable, the Successful Proposer shall agree as follows:

5.23.20.1 The Successful Proposer grants to the Village, a paid-up, royalty-free, nonexclusive, irrevocable, worldwide license in data first produced in the performance of this contract to reproduce, publish, or otherwise use, including prepare derivative works, distribute copies to the public, and perform publicly and display publicly such data. For data required by the contract but not first produced in the performance of this contract, the Successful Proposer will identify such data and grant to the Village or acquires on its behalf a license of the same scope as for data first produced in the performance of this contract. Data, as used herein, shall include any work subject to copyright under 17 U.S.C. § 102, for example, any written reports or literary works, software and/or source code, music, choreography, pictures or images, graphics, sculptures, videos, motion pictures or other audiovisual works, sound and/or video recordings, and architectural works. Upon or before the completion of this contract, the Successful Proposer will deliver to the Village data first produced in the performance of this contract and data required by the contract but not first produced in the performance of this contract in formats acceptable by the Village.

5.23.21 Safeguarding of Sensitive Information and Information Technology Security and Privacy Training.

5.23.21.1 Applicability. This clause is applicable when the Successful Proposer has access to sensitive information or the Successful Proposer's IT system as defined in the agreement that are used to input, store, process, output and/or transmit sensitive data. If applicable, this clause shall apply to the Successful Proposer, its subcontractors, and Successful Proposer employees (hereafter referred to collectively as "Successful Proposer"). The Successful Proposer shall insert the substance of this clause in all subcontracts.

5.23.21.2 Definitions. As used in this clause— "Personally Identifiable Information (PII)" means information that can be used to distinguish or trace an individual's identity, such as name, social security number, or biometric records, either alone, or when combined with other personal or identifying information that is linked or linkable to a specific individual, such as date and place of birth, or mother's maiden name. The definition of PII is not anchored to any single category of information or technology. Rather, it requires a case-by-case assessment of the specific risk that an individual can be identified. In performing this assessment, it is important for an agency to recognize that non-personally identifiable information can become personally identifiable information whenever additional information is made publicly available—in any medium and from any source—that, combined with other available information, could be used to identify an individual.

PII is a subset of sensitive information. Examples of PII include, but are not limited to: name, date of birth, mailing address, telephone number, Social Security number (SSN), email address, zip code, account numbers, certificate/license numbers, vehicle identifiers including license plates, uniform resource locators (URLs), static Internet protocol addresses, biometric identifiers such as fingerprint, voiceprint, iris scan, photographic facial images, or any other unique identifying number or characteristic, and any information where it is reasonably foreseeable that the information will be linked with other information to identify the individual.

(a) *Sensitive Information,* as used in this clause, means any information, which if lost, misused, disclosed, or, without authorization is accessed, or modified, could adversely affect the national or homeland security interest, the conduct of Federal programs, or the privacy to which individuals are entitled under section 552a of title 5, United States Code (the Privacy Act), but which has not been specifically authorized under criteria established by an Executive Order or an Act of Congress to be kept secret in the interest of national defense, homeland security or foreign policy. This definition includes the following categories of information:

(1) Protected Critical Infrastructure Information (PCII) as set out in the Critical Infrastructure Information Act of 2002 (Title II, Subtitle B, of the Homeland Security Act, Pub. L. 107-296, 196 Stat. 2135), as amended, the implementing regulations thereto (Title 6, Code of Federal Regulations, part 29) as amended, the applicable PCII Procedures Manual, as amended, and any supplementary guidance officially communicated by an authorized official of the Department of Homeland Security (including the PCII Program Manager or his/her designee);

(2) Sensitive Security Information (SSI), as defined in Title 49, Code of Federal Regulations, part 1520, as amended, "Policies and Procedures of Safeguarding and Control of SSI," as amended, and any supplementary guidance officially communicated by an authorized official of the Department of Homeland Security (including the Assistant Secretary for the Transportation Security Administration or his/her designee);

(3) Information designated as "For Official Use Only," which is unclassified information of a sensitive nature and the unauthorized disclosure of which could adversely impact a person's privacy or welfare, the conduct of Federal programs, or other programs or operations essential to the national or homeland security interest; and

(4) Any information that is designated "sensitive" or subject to other controls, safeguards or protections in accordance with subsequently adopted homeland security information handling procedures.

(b) “Information Technology Resources” include, but are not limited to, computer equipment, networking equipment, telecommunications equipment, cabling, network drives, computer drives, network software, computer software, software programs, intranet sites, and internet sites.

(c) Successful Proposer employees working on this contract must complete such forms as may be necessary for security or other reasons, including the conduct of background investigations to determine suitability. Completed forms shall be submitted as directed by the Contracting Officer. Upon the Contracting Officer's request, the Successful Proposer's employees shall be fingerprinted, or subject to other investigations as required. All Successful Proposer’s employees requiring recurring access to Government facilities or access to sensitive information or IT resources are required to have a favorably adjudicated background investigation prior to commencing work on this contract unless this requirement is waived under Departmental procedures.

(d) The Contracting Officer may require the Successful Proposer to prohibit individuals from working on the contract if the Government deems their initial or continued employment contrary to the public interest for any reason, including, but not limited to, carelessness, insubordination, incompetence, or security concerns.

(e) Work under this contract may involve access to sensitive information. Therefore, the Successful Proposer shall not disclose, orally or in writing, any sensitive information to any person unless authorized in writing by the Contracting Officer. For those Successful Proposer employees authorized access to sensitive information, the Successful Proposer shall ensure that these persons receive training concerning the protection and disclosure of sensitive information both during and after contract performance.

(f) The Successful Proposer shall include the substance of this clause in all subcontracts at any tier where the subcontractor may have access to Government facilities, sensitive information, or resources.

FORM 6A

SINGLE EXECUTION AFFIDAVITS

THIS FORM MUST BE SIGNED AND SWORN TO IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS.

THIS FORM COMBINES SEVERAL AFFIDAVIT STATEMENTS TO BE SWORN TO BY THE PROPOSER OR BIDDER AND NOTARIZED BELOW. IN THE EVENT THE PROPOSER OR BIDDER CANNOT SWEAR TO ANY OF THESE AFFIDAVIT STATEMENTS, THE PROPOSER OR BIDDER IS DEEMED TO BE NON-RESPONSIBLE AND IS NOT ELIGIBLE TO SUBMIT A PROPOSAL/BID.

THESE SINGLE EXECUTION AFFIDAVITS ARE SUBMITTED TO THE VILLAGE OF KEY BISCAYNE AND ARE STATEMENTS MADE:

By: _____

For (Name of Proposing or Bidding Entity): _____

Whose business address is: _____

And (if applicable) its Federal Employer Identification Number (FEIN) is: _____

(if the entity does not have an FEIN, include the Social Security Number of the individual signing this sworn statement. SS#: _____)

Americans with Disabilities Act Compliance Affidavit

The above-named firm, corporation or organization is in compliance with and agrees to continue to comply with, and assure that any subcontractor, or third-party contractor under this project complies with all applicable requirements of the laws listed below including, but not limited to, those provisions pertaining to employment, provision of programs and services, transportation, communications, access to facilities, renovations, and new construction.

- The American with Disabilities Act of 1990 (ADA), Pub. L. 101-336, 104 Stat 327, 42 USC 1210112213 and 47 USC Sections 225 and 661 including Title I, Employment; Title II, Public Services; Title III, Public Accommodations and Services Operated by Private entities; Title IV, Telecommunications; and Title V, Miscellaneous Provisions.
- The Florida Americans with Disabilities Accessibility Implementation Act of 1993, Section 553.501-553.513, Florida Statutes:
- The Rehabilitation Act of 1973, 229 USC Section 794;
- The Federal Transit Act, as amended 49 USC Section 1612;
- The Fair Housing Act as amended 42 USC Section 3601-3631.

_____
Proposer Initials

Public Entity Crimes Affidavit

I understand that a "public entity crime" as defined in Paragraph 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentations.

I understand that "convicted" or "conviction" as defined in Paragraph 287.133(1)(b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

I understand that an "affiliate" as defined in Paragraph 287.133(1)(a), Florida Statutes, means:

1. A predecessor or successor of a person convicted of a public entity crime; or
2. An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

I understand that a "person" as defined in Paragraph 287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, and partners, shareholders, employees, members, and agents who are active in management of an entity.

Based on information and belief, the statement, which I have marked below, is true in relations to the entity submitting this sworn statement.

(INDICATE WHICH STATEMENT APPLIES.)

[ ] Neither the entity submitting this sworn statement, nor any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity has been charged with ad convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives partners, shareholders, employees, members, or agents who are active in the management of the entity,

or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989.

[ ] The entity submitting this sworn statement, or one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989. However, there has been a subsequent proceeding before a Hearing Officer of the State of Florida , Division of Administrative Hearings and the final Order entered by the Hearing Officer determined that it was not in the public interest to place the entity submitting this sworn statement on the convicted vendor list (attach a copy of the final order).

I understand that the submission of this form to the contracting officer for the public entity identified in paragraph 1 above is for that public entity only and that this form is valid through December 31 of the calendar year in which it is filed. I also understand that I am required to inform the public entity prior to entering into a contract in excess of the threshold amount provided in Section 287.017, Florida Statutes for category two of any change in the information contained in this form.

_____
Proposer Initials

No Conflict of Interest or Contingent Fee Affidavit

Proposer warrants that neither it nor any principal, employee, agent, representative nor family member has paid or will pay any fee or consideration that is contingent on the award or execution of a contract arising out of this solicitation. Proposer also warrants that neither it nor any principal, employee, agent, representative nor family member has procured or attempted to procure this contract in violation of any of the provisions of the Miami-Dade County conflict of interest or code of ethics ordinances. Further, Proposer acknowledges that any violation of these warrants will result in the termination of the contract and forfeiture of funds paid or to be paid to the Proposer should the Proposer be selected for the performance of this contract.

_____
Proposer Initials

Business Entity Affidavit

Proposer hereby recognizes and certifies that no elected official, board member, or employee of the Village of Key Biscayne (the " Village") shall have a financial interest directly or indirectly in this transaction or any compensation to be paid under or through this transaction, and further, that no Village employee, nor any elected or appointed officer (including Village board members) of the Village, nor any spouse, parent or child of such employee or elected or appointed officer of the Village, may be a partner, officer, director or proprietor of Proposer or Vendor, and further, that no such Village employee or elected or appointed officer, or the spouse, parent or child of any of them, alone or in combination, may have a material interest in the Vendor or Proposer. Material interest means direct or indirect ownership of more than 5% of the total assets or capital stock of the Proposer. Any exception to these above-described

restrictions must be expressly provided by applicable law or ordinance and be confirmed in writing by Village. Further, Proposer recognizes that with respect to this transaction or bid, if any Proposer violates or is a party to a violation of the ethics ordinances or rules of the Village, the provisions of Miami-Dade County Code Section 2-11.1, as applicable to Village, or the provisions of Chapter 112, part III, Fla. Stat., the Code of Ethics for Public Officers and Employees, such Proposer may be disqualified from furnishing the goods or services for which the bid or proposal is submitted and may be further disqualified from submitting any future bids or proposals for goods or services to Village.

_____
Proposer Initials

Anti-Collusion Affidavit

1. Proposer/Bidder has personal knowledge of the matters set forth in its Proposal/Bid and is fully informed respecting the preparation and contents of the attached Proposal/Bid and all pertinent circumstances respecting the Proposal/Bid;
2. The Proposal/Bid is genuine and is not a collusive or sham Proposal/Bid; and
3. Neither the Proposer/Bidder nor any of its officers, partners, owners, agents, representatives, employees, or parties in interest, including Affiant, has in any way colluded, conspired, connived, or agreed, directly or indirectly with any other Proposer/Bidder, firm, or person to submit a collusive or sham Proposal/Bid, or has in any manner, directly or indirectly, sought by agreement or collusion or communication or conference with any other Proposer/Bidder, firm, or person to fix the price or prices in the attached Proposal/Bid or of any other Proposer/Bidder, or to fix any overhead, profit, or cost element of the Proposal/Bid price or the Proposal/Bid price of any other Proposer/Bidder, or to secure through any collusion, conspiracy, connivance or unlawful agreement any advantage against the Village of Key Biscayne or any person interested in the proposed Contract.

_____
Proposer Initials

Scrutinized Company Certification

1. Proposer certifies that it and its subcontractors are not on the Scrutinized Companies that Boycott Israel List. Pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer or its subcontractors are found to have submitted a false certification; or if the Proposer, or its subcontractors are placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of the Agreement.
2. If the Agreement that may result from this ITB is for more than one million dollars, the Proposer certifies that it and its subcontractors are also not on the Scrutinized Companies with Activities in Sudan, Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria as identified in Section 287.135, F.S. pursuant to Section 287.135, F.S., the Village may immediately terminate the Agreement that may result from this ITB at its sole option if the Proposer, its affiliates, or its subcontractors are found to have submitted a false certification; or if the Proposer, its affiliates, or its subcontractors are placed on the Scrutinized

Companies with Activities in Sudan List, or Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or engaged with business operations in Cuba or Syria during the term of the Agreement.

3. The Proposer agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under the Agreement that may result from this ITB. As provided in Subsection 287.135(8), F.S., if federal law ceases to authorize the above-stated contracting prohibitions then they shall become inoperative.

_____
Proposer Initials

Acknowledgment, Warranty, and Acceptance

1. CONTRACTOR warrants that it is willing and able to comply with all applicable state of Florida laws, rules and regulations.
2. CONTRACTOR warrants that it has read, understands, and is willing to comply with all requirements of **RFQ # 2025-13 ZONE 1 ALTERNATIVE STORMWATER MODELING AND PLANNING** and any addendum/addenda related thereto.
3. CONTRACTOR warrants that it will not delegate or subcontract its responsibilities under an agreement without the prior written permission of the Village Council or Village Manager, as applicable.
4. CONTRACTOR warrants that all information provided by it in connection with this Proposal is true and accurate.

_____
Proposer Initials

Truth in Negotiation Certification

The CONTRACTOR hereby certifies, covenants, and warrants that wage rates and other factual unit costs supporting the compensation for this project's agreement are accurate, complete, and current at the time of contracting.

The CONTRACTOR further agrees that the original agreement price and any additions thereto shall be adjusted to exclude any significant sums by which the Village determines the agreement price was increased due to inaccurate, incomplete, or noncurrent wage rates and other factual unit costs. All such agreement adjustments shall be made within (1) year following the end of the contract. For purposes of this certificate, the end of the agreement shall be deemed to be the date of the final billing or acceptance of the work by the Village, whichever is later.

INDEPENDENCE AFFIFAVIT

The undersigned individual, being duly sworn, deposes and says that:

I am _____ of _____, the proposer that has submitted the attached proposal;

I hereby certify to the best of my knowledge that neither I nor any of those persons residing in my household have or have had during the past five years, any relationships (professional, financial, familial or otherwise) with the VILLAGE (or any of its districts), its elected or appointed officials, its employees or agents, or any member or alternate member of the Selection Committee.

A "relationship" for the purpose of this affidavit shall include but not be limited to employer/employee, consultant, contractor, subcontractor, associate, officer, partnership, joint venture, ownership greater than one percent, landlord/tenant, or creditor/debtor, gift donor/recipient (in excess of $100.00), past or on-going personal relationships, or joint involvement with charitable/voluntary activities. **Relationship includes having a prior or current contract with the VILLAGE.**

Except as set forth below, I hereby certify to the best of my knowledge that neither I nor any of those persons residing in my household have received any promise of compensation, remuneration, gift, discount, or other gratuity in exchange for my proposal.

I understand and agree that I shall give the VILLAGE written notice of any other relationships (as defined above) that I enter into with the VILLAGE (or any of its districts), its elected or appointed officials, its employees or agents, or any member or alternate member of the Selection Committee during the period of the Agreement.

I set forth below any exceptions to the aforementioned (if none, write "None"):

DRUG FREE WORKPLACE

The undersigned proposer in accordance with Chapter 287.087, Florida Statutes, hereby certifies that _____ does:

(Name of proposer)

1. Publish a statement notifying employees that the unlawful manufacturing, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3. Give each employee engaged in providing the contractual services described in the RFQ document a copy of the statement specified in subsection (1).

4. In the statement specified in subsection (1), notify the employee that, as a condition of working on the contractual services described in the RFQ or the Agreement, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

7. As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

FORM 10

PUBLIC ENTITY CRIMES

Sworn Statement Under §287.133(3)(a), Florida Statutes

(This form must be signed in the presence of a notary public or other officer authorized to administer oaths.)

1. This sworn statement is submitted with Bid, Proposal or contract No. _____

2. This sworn statement is submitted by:_____
(name of entity submitting sworn statement)

whose business address is: _____

_____

_____

Federal Identification Number (FEIN) is: _____
(if applicable)

Social Security Number: _____

(if the entity has no FEIN, include the Social Security Number of the individual signing this sworn statement)

3. My name is: _____
(print name of individual signing this document)

and my relationship to the entity is:_____

4. I understand that a "public entity crime" as defined in §287.133(1)(g), Florida Statutes means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or with the United states, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.

5. I understand that a "convicted" or "conviction" as defined in §287.133(1)(b), Florida Statutes, means a finding of guilt of a conviction of a public entity crime, with or without an adjudication of guilt, in any federal or state trial court of record relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolo contendere.

6. I understand that an "affiliate" as defined in §287.133(1)(a), Florida Statutes means:

(a) A predecessor or successor of a person or a corporation convicted of a public entity crime; or

(b) An entity under the control of any natural person who is active in the

management of the entity and who has been convicted of a public entity crime. The term "affiliate" includes those officers, directors, executives, partners, share holders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm's length agreement, shall be a prima-facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.

7. I understand that a "person" as defined in §287.133(1)(e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which binds or applies to bids on contracts for the provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

8. Based on the information and belief, the statement that I have marked below is true in relation to the entity submitting this sworn statement. (Please indicate which statement applies)

    a. ____Neither the entity submitting the sworn statement, nor any officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity nor any affiliate of the entity have been charged with and convicted of a public entity crime subsequent to July 1, 1989.

    b. ____The entity submitting this sworn statement, or one or more of the officers, directors, executives, partners, shareholders, employees, members or agents who are active in management of the entity, or an affiliate of the entity has been charged with and convicted of a public entity crime subsequent to July 1, 1989 and (Please indicate which additional statement applies)

        1) ____There has been a proceeding concerning the conviction before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. (Please attach a copy of the final order)

        2) ____The person or affiliate was placed on the convicted list. There has been a subsequent proceeding before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or affiliate from the convicted vendor list. (Please attach a copy of the final order)
        3) ____The person or affiliate has not been placed on the convicted vendor list. (Please describe any action taken by or pending with the Department of

General Services)

FORM 11

DISPUTE DISCLOSURE

Answer the following questions by placing an "X" after "Yes" or "No". If you answer "Yes", please explain in the space provided, or on a separate sheet attached to this form.

1. Has your firm or any of its officers, received a reprimand of any nature or been suspended by the Department of Professional Regulations or any other regulatory agency or professional associations within the last five (5) years?

YES _____ NO _____

2. Has your firm, or any member of your firm, been declared in default, terminated or removed from a contract or job related to the services your firm provides in the regular course of business within the last five (5) years?

YES _____ NO _____

3. Has your firm had against it or filed any requests for equitable adjustment, contract claims, Bid protests, or litigation in the past five (5) years that is related to the services your firm provides in the regular course of business?

YES _____ NO _____

If yes, state the nature of the request for equitable adjustment, contract claim, litigation, or protest, and state a brief description of the case, the outcome or status of the suit and the monetary amounts of extended contract time involved.

I hereby certify that all statements made are true and agree and understand that any misstatement or misrepresentation of falsification of facts shall be cause for forfeiture of rights for further consideration of this Bid for the Village of Key Biscayne.

VILLAGE OF KEY BISCAYNE

PROPOSER'S REPRESENTATION

ZONE 1 ALTERNATIVE STORMWATER MODELING AND PLANNING

Proposal of _____

(Name)

_____

(Address)

to furnish all materials, equipment, and labor and to perform all work in accordance with the Contract Documents for:

ZONE 1 ALTERNATIVE STORMWATER MODELING AND PLANNING

("THE PROJECT")

TO: Village of Key Biscayne
Attn: Village Clerk
88 West McIntyre Street, Suite 220
Key Biscayne, Florida 33149

The undersigned, as Bidder, hereby declares that the only person or persons interested in the Bid, as principal or principals, is or are named herein and that no other person than herein mentioned has any interests in the Bid or the Contract to which the Work pertains; that this Bid is made without connection or arrangement with any other person, company, or parties making Bids or Proposals and that the Bid is in all respects fair and made in good faith without collusion or fraud.

The Bidder further declares that he or she has examined the geographic location and sites of the Work; that he has made sufficient investigations to fully satisfy himself that such sites are suitable for this Work; and he assumes full responsibility therefore; that he has examined the specifications for the Work and from his own experience or from professional advice that the specifications are sufficient for the Work to be done and he has examined the other Contract Documents relating thereto, including the Instructions to Bidders, the Contract, Bid, Detailed Scope of Work/Specifications, Qualification Statement, Public Entity Crime Form, and Insurance requirements

and he has read all addenda prior to the opening of Bids, and that he has satisfied himself fully, relative to all matters and conditions with respect to the Work to which this Bid pertains.
The Bidder proposes and agrees, if this Bid is accepted, to timely execute the Contract with the Village in the form attached and to furnish all necessary materials, all equipment, all necessary machinery, tools, apparatus, means of transportation, and labor necessary to complete the Work specified in the Bid and the Contract, and called for by the drawings and specifications and in the manner specified and to timely submit all required bonds and insurance certificates.

***NOTE:* THIS SCHEDULE OF BID ITEMS IS MERELY ILLUSTRATIVE OF THE MINIMUM AMOUNT/QUANTITY OF WORK TO BE PERFORMED UNDER THE CONTRACT. IN THE CASE OF ANY CONFLICT BETWEEN THIS SCHEDULE OF BID ITEMS AND THE DETAILED SPECIFICATIONS, THE DETAILED SPECIFICATIONS WILL PREVAIL.**

The Bidder further proposes and agrees to comply in all respects with the time limits for commencement and completion of the Work as stated in the Contract.

The Bidder agrees to execute the Contract and furnish the executed Contract, all required bonds, insurance certificates, and other required information to Village within ten (10) ten calendar days after written notice of the Award of Contract. Failure on the part of the Bidder to timely comply with this provision shall give Village all rights and remedies set forth in the Instructions to Bidders.

The undersigned agrees to accept as full compensation therefore the total of the lump sum prices and extended unit prices items named in the following schedule. It is understood that the unit prices quoted or established for a particular item are to be used for computing the amount to be paid to the Contractor, based on the Work actually performed as determined by the Contract and the Village. However, in utilizing the schedule, the Bidder agrees that in no event shall compensation paid to the Bidder under the Contract exceed the dollar amount of the Bidder's Bid amount, as set forth in the attached Bid.

It is intended that all Work to be performed under this Bid shall commence approximately thirty (30) days after Contract execution.

In no event shall Village be obligated to pay for Work not performed or materials not furnished. Bidder's

Certificate of Competency No._____

ATTACHMENT A

PROFESSIONAL SERVICES AGREEMENT
BETWEEN
THE VILLAGE OF KEY BISCAYNE
AND
NAME OF ENTITY

THIS AGREEMENT (this "Agreement") is made effective as of the _____ day of _____ _____, 2025 (the "Effective Date"), by and between the **VILLAGE OF KEY BISCAYNE, FLORIDA,** a Florida municipal corporation, (the "Village"), and **NAME OF ENTITY**, a Florida [type of entity] (hereinafter, the "Consultant").

WHEREAS, the Village desires certain **ZONE 1 ALTERNATIVE STORMWATER MODELING AND PLANNING** and

WHEREAS, the Consultant will perform services on behalf of the Village, all as further set forth in the Proposal dated _____, 2024, attached hereto as Exhibit "A" (the "Services"); and

WHEREAS, the Consultant and Village, through mutual negotiation, have agreed upon a fee for the Services; and

WHEREAS, the Village desires to engage the Consultant to perform the Services and provide the deliverables as specified below.

NOW, THEREFORE, in consideration of the mutual covenants and conditions contained herein, the Consultant and the Village agree as follows:

1. Scope of Services.

1.1. Consultant shall provide the Services set forth in the Proposal attached hereto as Exhibit "A" and incorporated herein by reference (the "Services").

1.2. Consultant shall furnish all reports, documents, and information obtained pursuant to this Agreement, and recommendations during the term of this Agreement (hereinafter "Deliverables") to the Village.

2. Term/Commencement Date.

2.1. The term of this Agreement shall be from the Effective Date through six (6) months thereafter, unless earlier terminated in accordance with Paragraph 8. Additionally, the Village Manager may renew this Agreement for two (2) additional six (6) month on the same terms as set forth herein upon written notice to the Consultant.

SAMPLE

Consultant agrees that time is of the essence and Consultant shall complete the Services within the term of this Agreement, unless extended by the Village Manager.

3. Compensation and Payment.

3.1. Compensation for Services provided by Consultant shall be in accordance with the Proposal attached hereto as Exhibit "A." Consultant shall be compensated a flat rate, lump sum fee in the amount of $XXXX.XX per month.

3.2. Consultant shall deliver an invoice to Village no more often than once per month detailing Services completed and the amount due to Consultant under this Agreement. Fees shall be paid in arrears each month, pursuant to Consultant's invoice, which shall be based upon the percentage of work completed for each task invoiced. The Village shall pay the Consultant in accordance with the Florida Prompt Payment Act after approval and acceptance of the Services by the Village Manager.

3.3. Contractor's invoices must contain the following information for prompt payment:

3.3.1. Name and address of the Consultant;

3.3.2. Purchase Order number;

3.3.3. Contract number;

3.3.4. Date of invoice;

3.3.5. Invoice number (Invoice numbers cannot be repeated. Repeated invoice numbers will be rejected);

3.3.6. Name and type of Services;

3.3.7. Timeframe covered by the invoice; and

3.3.8. Total value of invoice.

Failure to include the above information will result in the delay of payment or rejection of the invoice. All invoices must be submitted electronically to payables@keybiscayne.fl.gov.

4. Subconsultants.

4.1. The Consultant shall be responsible for all payments to any subconsultants and shall maintain responsibility for all work related to the Services.

4.2. Consultant may only utilize the services of a particular subconsultant with the prior written approval of the Village Manager, which approval may be granted or withheld in the Village Manager's sole and absolute discretion.

5. Village's Responsibilities.

SAMPLE

Village shall make available any maps, plans, existing studies, reports, staff and representatives, and other data pertinent to the Services and in possession of the Village,

5.1. and provide criteria requested by Consultant to assist Consultant in performing the Services.

5.2. Upon Consultant's request, Village shall reasonably cooperate in arranging access to public information that may be required for Consultant to perform the Services.

6. Consultant's Responsibilities; Representations and Warranties.

6.1. The Consultant shall exercise the same degree of care, skill and diligence in the performance of the Services as is ordinarily provided by a consultant under similar circumstances. If at any time during the term of this Agreement or within two (2) years from the completion of this Agreement, it is determined that the Consultant's Deliverables or Services are incorrect, not properly rendered, defective, or fail to conform to Village requests, the Consultant shall at Consultant's sole expense, immediately correct its Deliverables or Services.

6.2. The Consultant hereby warrants and represents that at all times during the term of this Agreement it shall maintain in good standing all required licenses, certifications and permits required under Federal, State and local laws applicable to and necessary to perform the Services for Village as an independent contractor of the Village. Consultant further warrants and represents that it has the required knowledge, expertise, and experience to perform the Services and carry out its obligations under this Agreement in a professional and first class manner.

6.3. The Consultant represents that is an entity validly existing and in good standing under the laws of Florida. The execution, delivery and performance of this Agreement by Consultant have been duly authorized, and this Agreement is binding on Consultant and enforceable against Consultant in accordance with its terms. No consent of any other person or entity to such execution, delivery and performance is required.

7. Conflict of Interest.

7.1. To avoid any conflict of interest or any appearance thereof, Consultant shall not, for the term of this Agreement, provide any consulting services to any private sector entities (developers, corporations, real estate investors, etc.), with any current, or foreseeable, adversarial issues in the Village.

8. Termination.

8.1. The Village Manager, without cause, may terminate this Agreement upon five (5) calendar days' written notice to the Consultant, or immediately with cause.

8.2. Upon receipt of the Village's written notice of termination, Consultant shall immediately stop work on the project unless directed otherwise by the Village Manager.

8.3. In the event of termination by the Village, the Consultant shall be paid for all work accepted by the Village Manager up to the date of termination, provided that the Consultant has first complied with the provisions of Paragraph 8.4.

SAMPLE

8.4. The Consultant shall transfer all books, records, reports, working drafts, documents, maps, and data pertaining to the Services and the project to the Village, in a hard copy and electronic format within fourteen (14) days from the date of the written notice of termination or the date of expiration of this Agreement.

9. Insurance.

9.1. Consultant shall secure and maintain throughout the duration of this agreement insurance of such types and in such amounts not less than those specified below as satisfactory to Village, naming the Village as an Additional Insured, underwritten by a firm rated A-X or better by A.M. Best and qualified to do business in the State of Florida. The insurance coverage shall be primary insurance with respect to the Village, its officials, employees, agents, and volunteers naming the Village as additional insured. Any insurance maintained by the Village shall be in excess of the Consultant's insurance and shall not contribute to the Consultant's insurance. The insurance coverages shall include at a minimum the amounts set forth in this section and may be increased by the Village as it deems necessary or prudent.

9.1.1. Commercial General Liability coverage with limits of liability of not less than a $1,000,000 per Occurrence combined single limit for Bodily Injury and Property Damage. This Liability Insurance shall also include Completed Operations and Product Liability coverages and eliminate the exclusion with respect to property under the care, custody and control of Consultant. The General Aggregate Liability limit and the Products/Completed Operations Liability Aggregate limit shall be in the amount of $2,000,000 each.

9.1.2. Workers Compensation and Employer's Liability insurance, to apply for all employees for statutory limits as required by applicable State and Federal laws. The policy(ies) must include Employer's Liability with minimum limits of $1,000,000.00 each accident. No employee, subcontractor or agent of the Consultant shall be allowed to provide Services pursuant to this Agreement who is not covered by Worker's Compensation insurance.

9.1.3. Business Automobile Liability with minimum limits of $1,000,000 per occurrence, combined single limit for Bodily Injury and Property Damage. Coverage must be afforded on a form no more restrictive than the latest edition of the Business Automobile Liability policy, without restrictive endorsements, as filed by the Insurance Service Office, and must include Owned, Hired, and Non-Owned Vehicles.

9.1.4. Professional Liability Insurance in an amount of not less than One Million Dollars ($1,000,000.00) per occurrence, single limit.

9.2. Certificate of Insurance. Certificates of Insurance shall be provided to the Village, reflecting the Village as an Additional Insured (except with respect to Professional Liability Insurance and Worker's Compensation Insurance), no later than ten (10) days after award of this Agreement and prior to the execution of this Agreement by Village and prior to commencing Services. Each certificate shall include no less than (30) thirty-day advance written notice to Village prior to cancellation, termination, or material alteration of said policies or insurance. The Consultant shall be responsible for assuring that the insurance certificates required by this Section remain in full force and effect for the duration of this Agreement, including any extensions or renewals that may be granted by the Village. The Certificates of Insurance shall not only name the types

SAMPLE

of policy(ies) provided, but also shall refer specifically to this Agreement and shall state that such insurance is as required by this Agreement. The Village reserves the right to inspect and return a certified copy of such policies, upon written request by the Village. If a policy is due to expire prior to the completion of the Services, renewal Certificates of Insurance shall be furnished thirty (30) calendar days prior to the date of their policy expiration. Each policy certificate shall be endorsed with a provision that not less than thirty (30) calendar days' written notice shall be provided to the Village before any policy or coverage is cancelled or restricted. Acceptance of the Certificate(s) is subject to approval of the Village.

9.3. Additional Insured. Except with respect to Professional Liability Insurance and Worker's Compensation Insurance**,** the Village is to be specifically included as an Additional Insured for the liability of the Village resulting from Services performed by or on behalf of the Consultant in performance of this Agreement. The Consultant's insurance, including that applicable to the Village as an Additional Insured, shall apply on a primary basis and any other insurance maintained by the Village shall be in excess of and shall not contribute to the Consultant's insurance. The Consultant's insurance shall contain a severability of interest provision providing that, except with respect to the total limits of liability, the insurance shall apply to each Insured or Additional Insured (for applicable policies) in the same manner as if separate policies had been issued to each.

9.4. Deductibles. All deductibles or self-insured retentions must be declared to and be reasonably approved by the Village. The Consultant shall be responsible for the payment of any deductible or self-insured retentions in the event of any claim.

9.5. The provisions of this section shall survive termination of this Agreement.

10. Nondiscrimination. During the term of this Agreement, Consultant shall not discriminate against any of its employees or applicants for employment because of their race, color, religion, sex, or national origin, and will abide by all Federal and State laws regarding nondiscrimination.

11. Attorneys Fees and Waiver of Jury Trial.

11.1. In the event of any litigation arising out of this Agreement, the prevailing party shall be entitled to recover its attorneys' fees and costs, including the fees and expenses of any paralegals, law clerks and legal assistants, and including fees and expenses charged for representation at both the trial and appellate levels.

11.2. IN THE EVENT OF ANY LITIGATION ARISING OUT OF THIS AGREEMENT, EACH PARTY HEREBY KNOWINGLY, IRREVOCABLY, VOLUNTARILY AND INTENTIONALLY WAIVES ITS RIGHT TO TRIAL BY JURY.

12. Indemnification.

12.1. Consultant shall indemnify and hold harmless the Village, its officers, agents and employees, from and against any and all demands, claims, losses, suits, liabilities, causes of action, judgment or damages, arising from Consultant's performance or non-performance of any provision of this Agreement, including, but not limited to, liabilities arising from contracts between the Consultant and third parties made pursuant to this Agreement. Consultant shall

SAMPLE

reimburse the Village for all its expenses including reasonable attorneys' fees and costs incurred in and about the defense of any such claim or investigation and for any judgment or damages arising from Consultant's performance or non-performance of this Agreement.

12.2. Nothing herein is intended to serve as a waiver of sovereign immunity by the Village nor shall anything included herein be construed as consent to be sued by third parties in any matter arising out of this Agreement or any other contract. The Village is subject to section 768.28, Florida Statutes, as may be amended from time to time.

12.3. The provisions of this section shall survive termination of this Agreement.

13. Notices/Authorized Representatives. Any notices required by this Agreement shall be in writing and shall be deemed to have been properly given if transmitted by hand-delivery, by registered or certified mail with postage prepaid return receipt requested, or by a private postal service, addressed to the parties (or their successors) at the addresses listed on the signature page of this Agreement or such other address as the party may have designated by proper notice.

14. Governing Law and Venue. This Agreement shall be construed in accordance with and governed by the laws of the State of Florida. Venue for any proceedings arising out of this Agreement shall be proper exclusively in Miami-Dade County, Florida.

15. Entire Agreement/Modification/Amendment.

15.1. This writing contains the entire Agreement of the parties and supersedes any prior oral or written representations. No representations were made or relied upon by either party, other than those that are expressly set forth herein.

15.2. No agent, employee, or other representative of either party is empowered to modify or amend the terms of this Agreement, unless executed with the same formality as this document.

16. Ownership and Access to Records and Audits.

16.1. Consultant acknowledges that all inventions, innovations, improvements, developments, methods, designs, analyses, drawings, reports, compiled information, and all similar or related information (whether patentable or not) which relate to Services to the Village which are conceived, developed or made by Consultant during the term of this Agreement ("Work Product") belong to the Village. Consultant shall promptly disclose such Work Product to the Village and perform all actions reasonably requested by the Village (whether during or after the term of this Agreement) to establish and confirm such ownership (including, without limitation, assignments, powers of attorney and other instruments).

16.2. Consultant agrees to keep and maintain public records in Consultant's possession or control in connection with Consultant's performance under this Agreement. The Village Manager or her designee shall, during the term of this Agreement and for a period of three (3) years from the date of termination of this Agreement, have access to and the right to examine and audit any records of the Consultant involving transactions related to this Agreement. Consultant additionally agrees to comply specifically with the provisions of Section 119.0701, Florida Statutes. Consultant shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed, except as authorized by law, for

SAMPLE

the duration of the Agreement, and following completion of the Agreement until the records are transferred to the Village.

16.3. Upon request from the Village's custodian of public records, Consultant shall provide the Village with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided by Chapter 119, Florida Statutes, or as otherwise provided by law.

16.4. Unless otherwise provided by law, any and all records, including but not limited to reports, surveys, and other data and documents provided or created in connection with this Agreement are and shall remain the property of the Village.

16.5. Upon completion of this Agreement or in the event of termination by either party, any and all public records relating to the Agreement in the possession of the Consultant shall be delivered by the Consultant to the Village Manager, at no cost to the Village, within seven (7) days. All such records stored electronically by Consultant shall be delivered to the Village in a format that is compatible with the Village's information technology systems. Once the public records have been delivered upon completion or termination of this Agreement, the Consultant shall destroy any and all duplicate public records that are exempt or confidential and exempt from public records disclosure requirements.

16.6. Any compensation due to Consultant shall be withheld until all records are received as provided herein.

16.7. Consultant's failure or refusal to comply with the provisions of this section shall result in the immediate termination of this Agreement by the Village.

16.8. **Notice Pursuant to Section 119.0701(2)(a), Florida Statutes.** **IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS.**

SAMPLE

17. **Nonassignability.** This Agreement shall not be assignable by Consultant unless such assignment is first approved by the Village Manager. The Village is relying upon the apparent qualifications and expertise of the Consultant, and such firm's familiarity with the Village's area, circumstances and desires.

18. **Severability.** If any term or provision of this Agreement shall to any extent be held invalid or unenforceable, the remainder of this Agreement shall not be affected thereby, and each remaining term and provision of this Agreement shall be valid and be enforceable to the fullest extent permitted by law.

19. **Independent Contractor.** The Consultant and its employees, volunteers and agents shall be and remain an independent contractor and not an agent or employee of the Village with respect to all of the acts and services performed by and under the terms of this Agreement. This Agreement shall not in any way be construed to create a partnership, association or any other kind of joint undertaking, enterprise or venture between the parties.

20. **Compliance with Laws.** The Consultant shall comply with all applicable laws, ordinances, rules, regulations, and lawful orders of public authorities in carrying out Services under this Agreement, and in particular shall obtain all required permits from all jurisdictional agencies to perform the Services under this Agreement at its own expense.

21. **Waiver.** The failure of either party to this Agreement to object to or to take affirmative action with respect to any conduct of the other which is in violation of the terms of this Agreement shall not be construed as a waiver of the violation or breach, or of any future violation, breach or wrongful conduct.

22. **Survival of Provisions.** Any terms or conditions of either this Agreement that require acts beyond the date of the term of the Agreement, shall survive termination of the Agreement, shall remain in full force and effect unless and until the terms or conditions are completed and shall be fully enforceable by either party.

23. **Prohibition of Contingency Fees.** The Consultant warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant, to solicit or secure this Agreement, and that it has not paid or agreed to pay any person(s), company, corporation, individual or firm, other than a bona fide employee working solely for the Consultant, any fee, commission, percentage, gift, or any other consideration, contingent upon or resulting from the award or making of this Agreement.

24. **State Required Affidavits.** By entering into this Agreement, the Consultant agrees to review and comply with the following state affidavit requirements:

    24.1. Public Entity Crimes Affidavit. Consultant shall comply with Section 287.133, Florida Statutes (Public Entity Crimes Statute), notification of which is hereby incorporated herein by reference, including execution of any required affidavit.

    24.2. E-Verify Affidavit. In accordance with Section 448.095, Florida Statutes, the Village requires all contractors doing business with the Village to register with and use the E-Verify system to verify the work authorization status of all newly hired employees. The Village will not enter into a contract unless each party to the contract registers with and uses the E-Verify

SAMPLE

system. The contracting entity must provide of its proof of enrollment in E-Verify. For instructions on how to provide proof of the contracting entity's participation/enrollment in E-Verify, please visit: https://www.e-verify.gov/faq/how-do-i-provide-proof-of-my-participationenrollment-in-e-verify. By entering into this Agreement, the Consultant acknowledges that it has read Section 448.095, Florida Statutes; will comply with the E-Verify requirements imposed by Section 448.095, Florida Statutes, including but not limited to obtaining E-Verify affidavits from subcontractors; and has executed the required affidavit attached hereto and incorporated herein.

24.3. Noncoercive Conduct Affidavit. Pursuant to Section 787.06, Florida Statutes, a nongovernmental entity executing, renewing, or extending a contract with a governmental entity is required to provide an affidavit, signed by an officer or a representative of the nongovernmental entity under penalty of perjury, attesting that the nongovernmental entity does not use coercion for labor or services as defined in Section 787.06(2)(a), Florida Statutes. By entering into this Agreement, the Consultant acknowledges that it has read Section 787.06, Florida Statutes, and will comply with the requirements therein, and has executed the required affidavit attached hereto and incorporated herein.

24.4. Prohibition on Contracting with Entities of Foreign Concern. Pursuant to Section 287.138, Florida Statutes (which is expressly incorporated herein by reference), a governmental entity may not knowingly enter into a contract with an entity which would give access to an individual's personal identifying information if (a) the entity is owned by the government of a foreign country of concern; (b) the government of a foreign country of concern has a controlling interest in the entity; or (c) the entity is organized under the laws of or has its principal place of business in a foreign country of concern. By entering into this Agreement, the Consultant acknowledges that it has read Section 287.138, Florida Statutes, and complies with the requirements therein, and has executed the required affidavit attached hereto and incorporated herein.

25. Counterparts. This Agreement may be executed in several counterparts, each of which shall be deemed an original and such counterparts shall constitute one and the same instrument.

26. Conflicts. In the event of a conflict between the terms of this Agreement and any exhibits or attachments hereto, the terms of this Agreement shall control.

[Remainder of page intentionally left blank. Signature pages follow.]

SAMPLE

E-VERIFY AFFIDAVIT

In accordance with Section 448.095, Florida Statutes, the Village requires all contractors doing business with the Village to register with and use the E-Verify system to verify the work authorization status of all newly hired employees. The Village will not enter into a contract unless each party to the contract registers with and uses the E-Verify system.

The contracting entity must provide of its proof of enrollment in E-Verify. For instructions on how to provide proof of the contracting entity's participation/enrollment in E-Verify, please visit: https://www.e-verify.gov/faq/how-do-i-provide-proof-of-my-participationenrollment-in-e-verify

By signing below, the contracting entity acknowledges that it has read Section 448.095, Florida Statutes and will comply with the E-Verify requirements imposed by it, including but not limited to obtaining E-Verify affidavits from subcontractors.

☐ **Check here to confirm proof of enrollment in E-Verify has been attached to this Affidavit.**

ACKNOWLEDGMENT

State of Florida

County of _____

The foregoing instrument was acknowledged before me by means of ☐ physical presence or ☐ online notarization, this _____ day of _____, 20____, by_____ (name of person) as _____ (type of authority) for _____ _____ (name of party on behalf of whom instrument is executed).

_____

Notary Public (Print, Stamp, or Type as Commissioned)

_____Personally known to me; or

_____Produced identification (Type of Identification:_____)

_____Did take an oath; or

_____Did not take an oath

AFFIDAVIT ATTESTING TO NONCOERCIVE CONDUCT FOR LABOR OR SERVICES

Effective July 1, 2024, Section 787.06, Florida Statutes, a nongovernmental entity executing, renewing, or extending a contract with a governmental entity is required to provide an affidavit, signed by an officer or a representative of the nongovernmental entity under penalty of perjury, attesting that the nongovernmental entity does not use coercion for labor or services as defined in Section 787.06(2)(a), Florida Statutes.

By signing below, **I hereby affirm under penalty of perjury that**:

1. I have read Section 787.06, Florida Statutes, and understand that this affidavit is provided in compliance with the requirement that, upon execution, renewal, or extension of a contract between a nongovernmental entity and a governmental entity, the nongovernmental entity must attest to the absence of coercion in labor or services.

2. I am an officer or representative of _____, a nongovernmental entity.

3. _____ does not use coercion for labor or services as defined in the relevant section of the law.

In the presence of:

_____

Witness #1 Print Name: _____

AFFIDAVIT REGARDING PROHIBITION ON CONTRACTING WITH ENTITIES OF FOREIGN COUNTRIES OF CONCERN

Pursuant to Section 287.138, Florida Statutes (which is expressly incorporated herein by reference), a governmental entity may not knowingly enter into a contract with an entity which would give access to an individual's personal identifying information if (a) the entity is owned by ethe government of a foreign country of concern; (b) the government of a foreign country of concern has a controlling interest in the entity; or (c) the entity is organized under the laws of or has its principal place of business in a foreign country of concern.

This affidavit must be completed by an officer or representative of an entity submitting a bid, proposal, or reply to, or entering into, renewing, or extending, a contract with a governmental entity which would grant the entity access to an individual's personal identifying information.

1. _____ ("entity") does not meet any of the criteria in paragraphs (2)(a)-(c) of Section 287.138, F.S.

In the presence of:

Addendum No. 1

RFQ for Zone 1 Alternative Stormwater Modeling and Planning
Addendum Release Date July 10, 2025

RFQ # 2025-11

ITB Due Date/Time: July 25, 2025, 11:30 a.m. Eastern Standard Time

Submit To: DemandStar
https://www.demandstar.com

The purpose of this Addendum is to answer questions received from potential proposers or provide additional information as it relates to this solicitation.

IMPORTANT NOTE – the following is added to RFQ # 2025-11. It is the Proposer's responsibility to use the revised information when preparing the response.

1. Q: What software was used to create the current hydrologic/hydraulic model?
   A: The Models were created using the traditional ICPR4 model one-dimensional (1D) model features.

2. Q: Can the latest itemized construction cost estimate for the ongoing Zone 1 stormwater improvements design be provided?
   A: The intent of Subtask 1.4 is to develop an independent cost estimate of a new stormwater system based on different design criteria. We would like the new cost estimate to be completed with impartiality. The existing AECOM Zone 1 cost estimate may be made available for comparison if needed.

3. Q: Can a copy of the 2015 EAC Stormwater Master Plan be provided?
   A: Yes, see addendum included.

4. Q: Page 14, Tab A-Representations and Certifications, States to provide a "Statement of Financial Stability". Would the Village please elaborate on what they want us to provide to proof this (i. e. a general statement from our leadership on our letterhead, a letter from our bank, or financial documents, which we would need to submit confidentially as we are a privately held company per Florida Statutes and Public Records Act.)?
   A: Any of the following can be provided:
   - **A general statement of financial stability on our company letterhead, signed by our leadership.**
   - **A letter from our financial institution affirming our financial standing.**
   - **Submission of financial documents (e.g., balance sheets, income statements), with confidentially clearly marked on each page.**

5. Q: Page 14, Tab B-Executive Summary, #4 states "Deliverables, tasks, activities, etc. as outlined in the Scope of Services". Please elaborate on how you would like firms to answer this request.
   A: Provide the approach including deliverables, tasks, and activities your team will take to provide the updated model for Zone 1, the stem level recommended solution, detailed solution for K8 area, construction cost estimate, risk assessment, and requested communications.

procurement@keybiscayne.fl.gov
www.keybiscayne.fl.gov

6. Q: Page 15, Tab C-Qualifications and Experience, "3. Provide a Personnel Plan…", states that we need to provide a complete operating plan that illustrates the proposal staffing plan for each operation on a daily, weekly, and monthly basis. Will the Village please confirm Requests A thru D in this section are not needed for this Design RFQ? As Proposal section "C 2. Service Team and Resume" sections A thru D already asks for an organization chart, resumes, and qualifications for each proposed staff member.
   A: The Organizational Chart will be enough.

7. Q: Page 15, Tab D-Subcontracting Plan, states that we need to provide "proposed dollars amount of subcontracting effort by category and references". Please confirm we do not need to provide any costs, and please elaborate on what references you would like to see from subconsultants.
   A: No cost information is required. Only the subcontractor details requested in Form 12 (page 63) are needed with the submittal.

8. Q: Please confirm if we ignore the Bonding and Claims history requests?
   A: No Bond is required. Claims against the company will be taken into consideration.

1.0 INTRODUCTION

The Village of Key Biscayne ("Village" or VKB), a municipality located in Miami-Dade County, Florida, issued a request for qualifications (RFQ) solicitation for the selection of a firm to provide professional engineering services to the Village for the purpose of preparing and assisting in the stormwater improvement implementation plan for the Village's stormwater improvement projects. The intent of this request was to assist the Village in fulfilling goals and projects established in its Stormwater Master Plan (SWMP) in order to maximize fiscal efficacy and ensure compliance with the latest local, state, and federal regulations.

EAC Consulting, Inc., was selected by the Village Council as the Consultant to perform the requisite services to plan, engineer and administer the construction of the needed infrastructure improvements towards protecting the Village's residents and stakeholders from unnecessary flooding and effecting an enhanced level of service for all the Village's stormwater management and associated infrastructure.

1.1 Background

The Village of Key Biscayne - encompasses 850 acres and is characterized by terrain topography that is predominantly flat and low lying in relation to sea level. The elevations of the roadways are approximately 3.5 feet to nearly 6 feet above mean sea level (MSL) which, only provides a buffer of 2 to 4 feet above the average high tide elevations. Due to its close proximity to Biscayne Bay and the Atlantic Ocean, the Village's stormwater management system is completely influenced by tidal waters, which presents a challenge for stormwater disposal systems. The Village is Florida's southernmost barrier island and is susceptible to the potential impacts of Sea Level Rise and Climate Change.

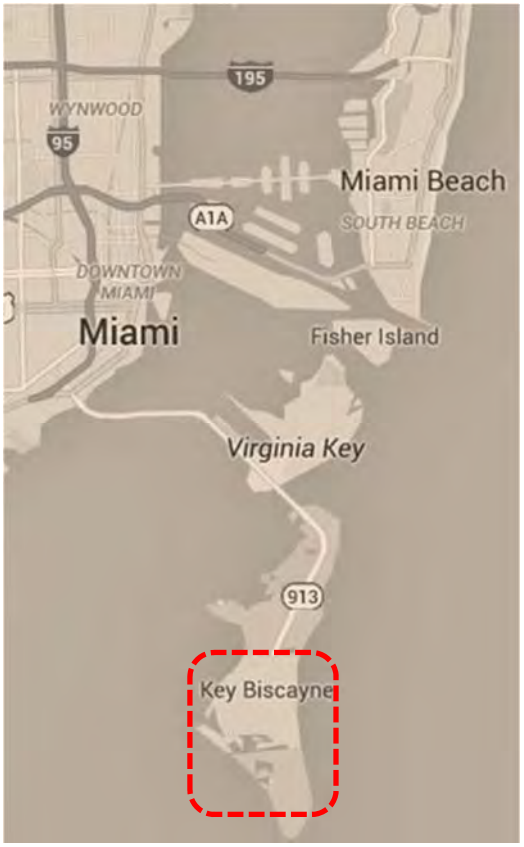

Figure 1-1: Location Map

The fluctuating sea levels directly affect the boundary conditions of the stormwater drainage systems within the Village. These issues, if not well understood can compromise and ultimately reduce the capacity of existing drainage systems that will result in flooding during severe storm events typically witnessed in Miami-Dade County. With this knowledge, our team will implement a project approach methodology that proposes measures and systems that will serve to protect the Village. These measures will protect residents and stakeholders from property damage and quality of life disruptions that are associated with excessive flooding and prolonged staging of storm water runoff on roadways and private parcels.

1.2 Purpose & Scope of Work

The implementation of the Village's SWMP ("the project") has two main task elements:

1. ***Hydraulic and Hydrologic Analyses and Evaluation*** of VKB's Storm Watershed incorporating recent infrastructure improvements undertaken by the Village, proposed implementation tasks identified in the Village's RFQ as well as the proposed improvements needed to achieve an acceptable stormwater management level of service for the Village.

   This effort will be cognizant of sea level rise considerations and will ensure that proposed improvements are sustainable and adequate to mitigate storm events consistent with current regulatory and jurisdictional standards.

2. ***Engineering Design and the Development of Construction Documents*** for each of the resulting stormwater management deficient locations including the priority basins as outlined in the VKB's RFQ document. This task will include the necessary data collection (surveying, subsurface utility engineering and geotechnical), civil engineering, electrical engineering and environmental assessments required for the project(s). Included in this element is the securing of all required jurisdictional approvals/permits, support during the procurement of construction and construction observation services to extent authorized by VKB. This element of the project will also encompass the public outreach/ workshops to be performed during the process of implementing the improvements.

1.3 Task 1- Hydraulic & Hydrologic Analyses

This Hydraulic and Hydrologic (H&H) Analyses report documents the process of analyses including the methodology, assumptions and assessment of findings. The report is organized in accordance with tasks undertaken as well the engineering and technical basis for the proposed analyses. The following tasks and report sections are included in this report:

- Section 1 – Introduction
- Section 2 – Data Collection & Evaluation
- Section 3 - Level of Service (LOS) Criteria
- Section 4 – Existing Conditions H&H Modeling & Analyses
- Section 5 – Proposed "Solution" Conditions H&H Modeling & Analyses
- Section 6 - Green Infrastructure
- Section 7 - Capital Projects Plan
- Section 8 - Public Outreach Efforts

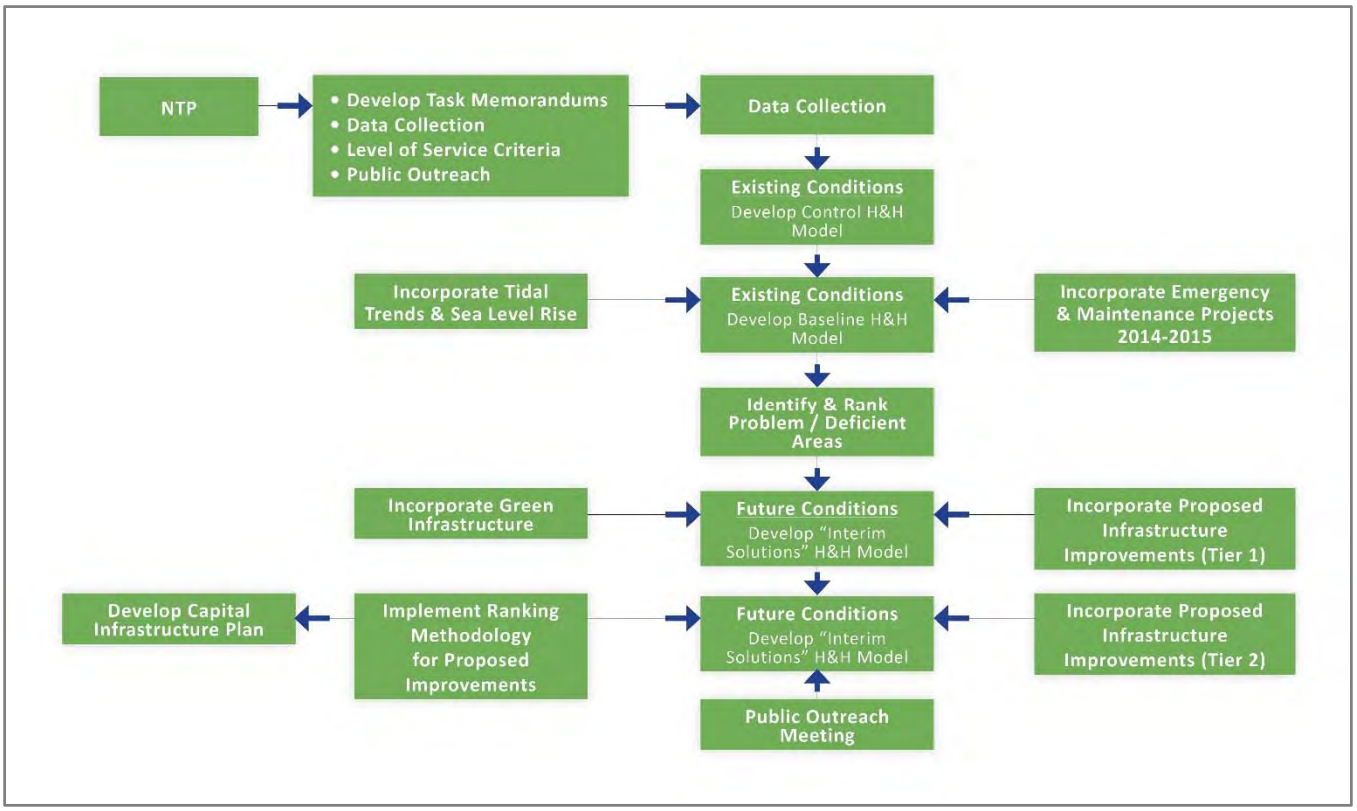

Figure 1-2: SWMP Implementation Plan Work Flow

2.0 DATA COLLECTION AND UTILIZATION

This section provides a detailed description of the efforts undertaken in gathering and collecting data, materials, and other relevant information required for the analyses of the Village's stormwater infrastructure system. The data collection is both an important and integral task towards embarking on the implementation of infrastructure repairs, rehabilitation, replacements and improvements as needed for improving and optimizing the Village's storm water management systems. The section summarizes the various data and data sources collected and utilized for Hydraulic & Hydrologic analyses of the Village's watershed.

The analyses to be performed under Task 1 will take into consideration the elements and components of the existing system within the Village including but, not limited to collection drainage structures, conveyance pipes, outfall structures, system junctions, and disposal infrastructure. The analyses also must consider the hydrologic conditions within the Village such as topography, ground cover, location, and characteristics of water bodies, ground water, rainfall amounts/patterns, and other pertinent specific local conditions including vulnerability to high tides and Sea Level Rise (SLR).

The narrative also provides relevant information on the applicability of the data to the H&H Analyses effort.

2.1 Data Sources

The data collection efforts encompassed a coordinated streamlined approach that involved reaching out to several entities with jurisdiction or that maintain existing records or have been tasked by VKB's Public Works and Stormwater Representative with the responsibility to handle certain functions on the Village's behalf. The following entities were contacted and coordinated with:

i. Village of Key Biscayne – Public Works Department
ii. Tetra Tech, Inc
iii. Jaffer Well Drilling, A Division of A.C. Schultes of Florida, Inc.
iv. Layne Inliner Products
v. A&A Drainage, Inc
vi. Florida International University (FIU)
vii. Federal Emergency Management Agency (FEMA) - National Flood Insurance Program
viii. Florida Department of Transportation (FDOT)
ix. Florida Department of Environmental Protection (FDEP) (Underground Injection Control Program)
x. Miami-Dade County Regulatory and Economic Resources (RER)
xi. Miami-Dade Transportation and Public Works (DTPW)
xii. Miami-Dade County Information Technology Department (ITD)
xiii. South Florida Water Management District (SFWMD)
xiv. National Oceanic and Atmospheric Administration (NOAA)
xv. United States Army Corps of Engineers (USACE)
xvi. United States Geological Survey (USGS)
xvii. Pollution Elimination Corporation (PELCO)
xviii. Natural Resources Conservation Service (NRCS)
xix. MODUS

2.2 Data Collection

The following subsections detail the items collected under this data collection task.

2.2.1 Village Public Works Inventory & Worksheets

The Village also provided an Existing Drainage Structure Inventory excel spreadsheet documenting what appears to be the assumptions used for the development of the InfoSWMM model network and a

Permitted Outfall inventory table identifying all of the Villages permitted outfalls which the Village is in the process of inspecting.

2.2.2 Village Public Works - Stormwater Improvement Project As-Builts

The Village provided as-builts for the "*Stormwater Improvement Plan Basins 1-8 and Water Distribution Improvements"* project showing a submitted date of August 14, 1996, on the cover of the digital set provided. These as-builts were for an extensive stormwater improvement project throughout the Village. It is understood that these as-builts were the initial basis for the GIS based stormwater infrastructure feature classes available from the Village and currently maintained by an external consultant.

The Village also provided additional design and as-built records for other completed or ongoing projects within the Village based on their availability.

These items were evaluated for inclusion into the InfoSWMM model update to be performed by EAC for this project.

2.2.3 2011 Stormwater Master Plan Report & Models

The existing 2011 SWMP Update developed by Tetra Tech, Inc. was provided in PDF format by the Village. This report provided a detailed description of the activities and analyses performed for the development of the SWMP and the findings substantiated by the analyses performed. Pertinent exhibits and appendices were also provided by the Village.

The 2011 SWMP InfoSWMM models including the hydraulic network, hydrologic parameters, and results files for the simulations performed as part of the Stormwater Master Plan update were also collected as part of this data collection task. The InfoSWMM model version is documented as version 9.0.

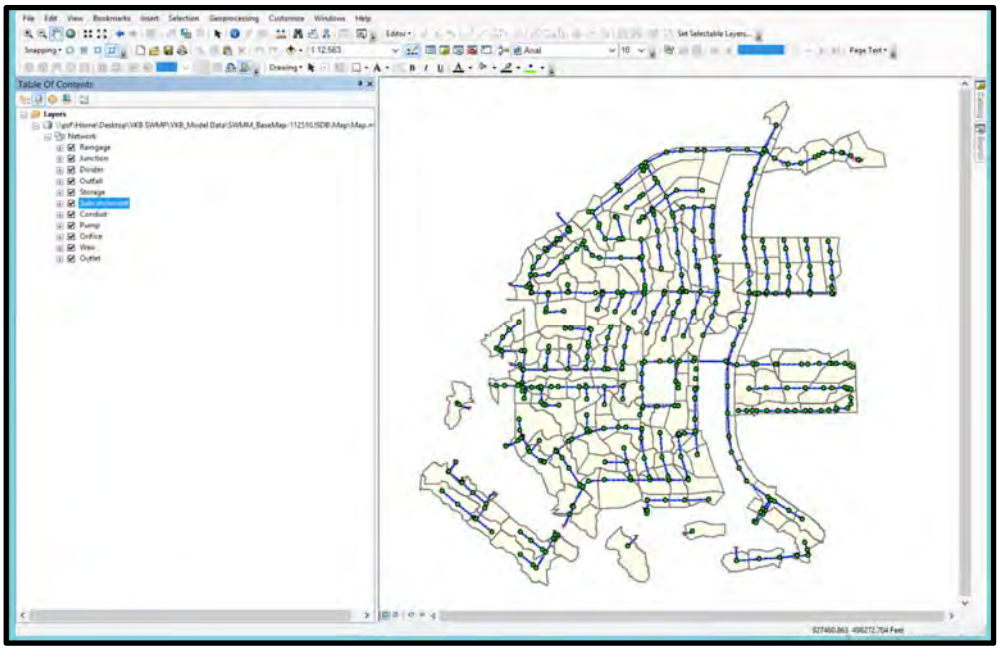

Figure 2-1 – Village of Key Biscayne InfoSWMM Network Schematic in ArcMap

In addition to the 2011 SWMP Update, the Village also provided the 1993 Stormwater Management Master Plan report prepared by Williams, Hatfield, and Stoner, Inc. (WHS), which also documents the observations, testing, analytical methodologies, findings, and recommendations as of 1993.

2.2.4 Topographic Data

The most readily available topographic data for large expanses of land is typically LiDAR based topographic data. LiDAR, which stands for Light Detection and Ranging, is a remote sensing method that uses a pulsed laser to measure the distance between the Earth and the collection unit typically based onboard a plane. These distance measurements, combined with other data recorded by the plane's airborne systems, can be used to generate topographic elevations points which can then be used to prepare detailed topographic models of the shape of the surface surveyed.

LiDAR data was available for the Village's geographic limits from a central repository of LiDAR data hosted by Florida International University (FIU) at their GIS-RS Center. The LiDAR dataset is a topographic survey conducted for the State of Florida Division of Emergency Management LiDAR Project under the guidance of a Licensed and Professional Surveyor/Mapper. This data is intended to support the creation and refinement of integrated ground and surface water models and Federal Emergency Management Agency Flood Insurance Rate Maps (FEMA FIRM).

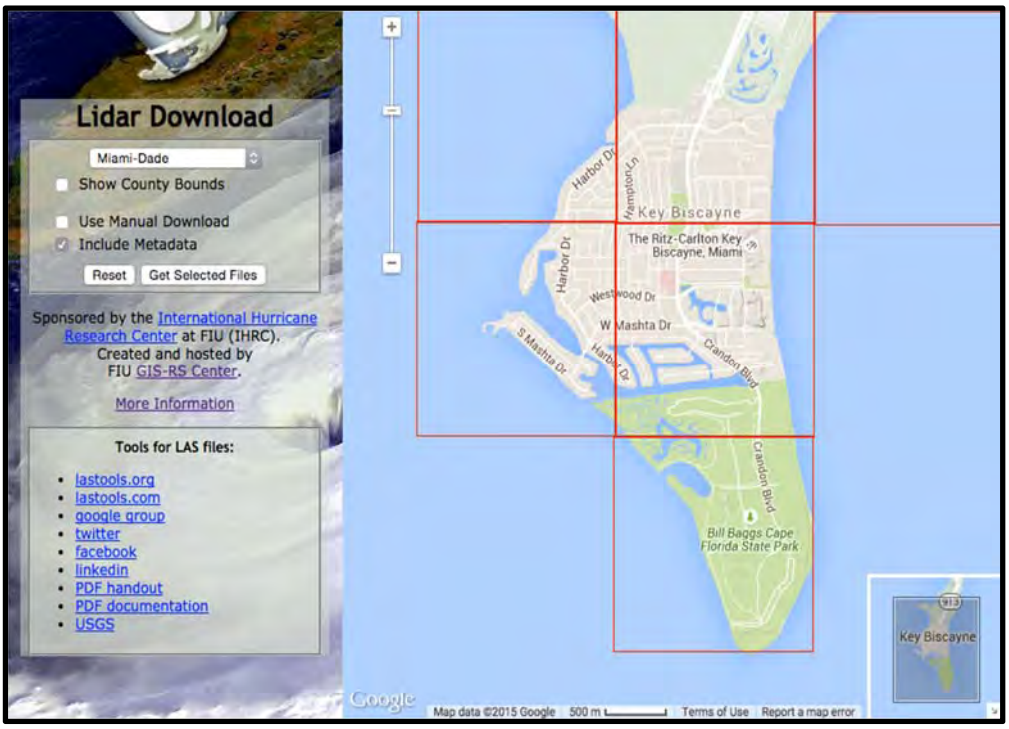

Figure 2-2 – Florida International University's Web Based LiDAR Data Repository

The most readily available LiDAR based data points were collected from August 2007 through January 2008. According to datasets metadata, the point cloud was collected at a density sufficient to support a maximum final post spacing of 4 feet for unobscured areas. The LiDAR data is available in 5000 feet by 5000 feet tiles, four of which encompass the Village.

EAC approached Miami-Dade County in June 2015 in order to verify that the data collected from FIU was the latest LiDAR based topographic dataset available. According to a representative from the Stormwater Utility Planning Division within Miami-Dade County (County), the County was in the process of collecting new LiDAR data and the LiDAR data was not going to be available in the near future. This newer data set would represent a more accurate and detailed representation of the topography of the Village and should be considered for future inclusion into the Village's GIS data repository and into the Village's InfoSWMM models utilized for the next VKB Stormwater Master Plan update.

EAC also approached the original developers of the 2011 SWMP Update in order to collect the topographic DEM used for the SWMP.

2.2.5 Geographic Information Systems (GIS) Data

Miami-Dade County's (County) Information Technology Department (ITD) through its GIS Division maintains a central repository of geographic data comprised of numerous layers; the street network and property (parcel) layers being the primary base layers. This GIS data is available through the County's GIS Self Services website. This website allows users to search through and choose GIS data that is pertinent to their interests.

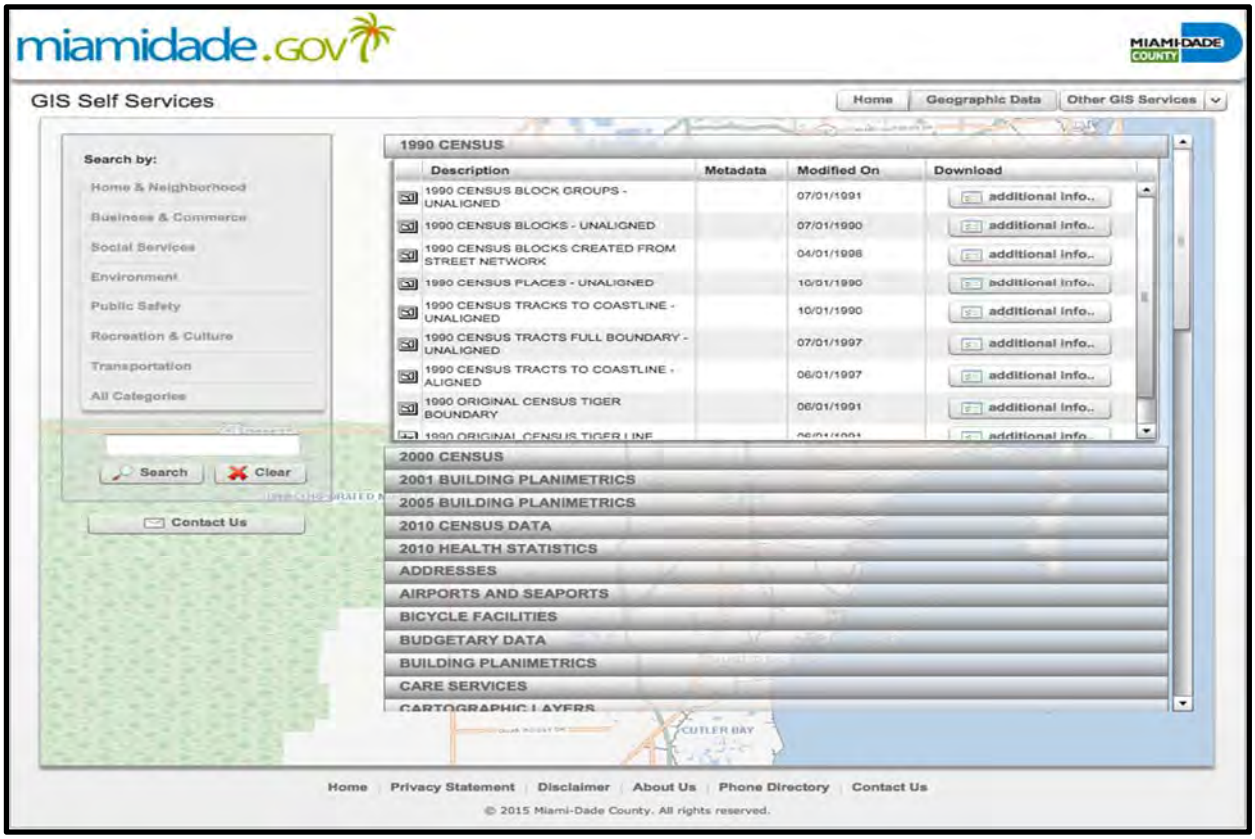

Figure 2-3 – Miami-Dade County GIS Self Service Website

In addition, EAC coordinated with the Village to collect GIS data maintained by the Village. The data includes two geodatabases that represent the available GIS feature classes maintained and used by the Village. The following is a listing and short description of the individual feature classes within the two geodatabases provided:

1. VKB_Stormwater_2015 (Personal Geodatabase and associated Feature Classes)
    a. ComplaintAreas - This dataset includes complaints logged and identified by parcel boundaries with physical address and SWMP basin area name.
    b. Exfiltration - This dataset seems to be exfiltration trenches done for a specific project, Civic Center, and provides the length of each segment.
    c. MiamiDadeBM - This dataset includes Miami-Dade County benchmarks near the Village and includes the benchmark name and source.

d. NGS_BM - This dataset includes benchmarks identified in NOAA's National Geodetic Survey (NGS), which includes the data source, datum, adjusted elevation, and condition of the benchmark.
e. parcel_centroids_address_file - This dataset includes the centroid of the parcel boundaries within the Village.
f. Pipes_07192011 - This dataset includes the pipe network within the Village and includes the pipe diameter, pipe type, comments (most comments state assumption of pipe diameter), inverts, editor and last update date, which appears to have last been last updated in June 2015.
g. Flow - This dataset includes the same information as Pipes_07192011, but with data that does not match Pipes_07192011 in the each item. This dataset does not include the editor and last edited date.
h. RLP - The dataset contains parcel boundaries of Repeated Loss Properties (RLP) with its corresponding physical address and the type of complaint.
i. StudyArea - This dataset contains the Village's study area limits and excludes the majority of parcels along the east coast of the Village.
j. SW_Structures - This dataset includes the stormwater structures data. It includes an associated project name, Design ID, rim elevation, invert elevation, the SWMP basin name, and the editor and last edited date.
k. Strucs_07192011 - This dataset appears to be the same as the SW_Structures dataset, but created prior to SW_Structures.
l. SWMMP2010Update_Basin - This dataset includes the Village basin boundary of the Village's SWMP 2010 Update.
m. SWMMP2010Update_SubCatchment - This dataset includes the Village sub-basin boundary of the Village's SWMP 2010 Update.
n. VKB_Boundary - This dataset includes geographic boundary of Miami-Dade County and the Village.

2. Base (File Geodatabase and associated Feature Classes)
   a. BuildingFootprints - This dataset includes the building footprint shapes last updated in November 2008.
   b. CriticalMeterParcels - This dataset appears to include the critical facilities. There are several parcels identified within the Village, along with the facility type (school, police, and utility). The facilities identified are St. Agnes School, Key Biscayne Elementary School, Key Biscayne Police Department, and Key Biscayne Fire Rescue)
   c. CriticalSiteParcels - This dataset also appears to include the critical facilities. There are several parcels identified within the Village, along with the facility type (library, parks, helicopter landing, and other). The facilities identified are Miami-Dade Public Library Key Biscayne Branch, Village Green Park, St. Christopher's by-the-Sea, Key Biscayne Community Church, and Key Biscayne Presbyterian Church.
   d. EdgeOfPavement - This dataset represents the edge of pavement with the Village. Edge of pavement (roadway depicted).
   e. GolfCourses - Not applicable to Village.
   f. Hydrolines_24K - This dataset does not contain any features within the Village. However, per metadata, this data was collected as part of the National Mapping Program and contains Hydrological Line Features from the USGS 1:24000 scale DLG's.
   g. Land_24K - This dataset is the land boundary. Per metadata, this dataset contains Hydrological Poly Features from the USGS 1:24000 scale DLG's.
   h. LandArea - This dataset represents the land area/shoreline in coastal areas, but does not contain features with the Village.
   i. MajorHydro - Not applicable to Village.

j. Municipal - Not applicable to Village. This dataset seems to be only applicable for Port St. Lucie, St. Lucie Village, and Fort Pierce.
k. MunicipalBoundaries - This dataset includes the geographical Village boundary.
l. NHDPlus_Flowlines_ 100K - Not applicable to Village.
m. NHDPlus_ WaterBodies_100K - Not applicable to Village.
n. Parcels - This dataset includes parcel boundaries. However, no data for parcels is provided within the Village boundary. Therefore, it is not applicable.
o. Parks - This dataset includes the park areas with the Village.
p. ParksPreserves - Not applicable to Village.
q. Railroad - Not applicable to Village.
r. Riverlines - Not applicable to Village.
s. Streets - This dataset includes the streets layer in Miami-Dade County & St. Lucie County.
t. WaterBodies - Not applicable to Village.
u. WaterBodies_24K - This dataset includes the boundaries of water bodies. Per metadata, the dataset contains Hydrological Poly Features from the USGS 1:24000 scale DLG's.

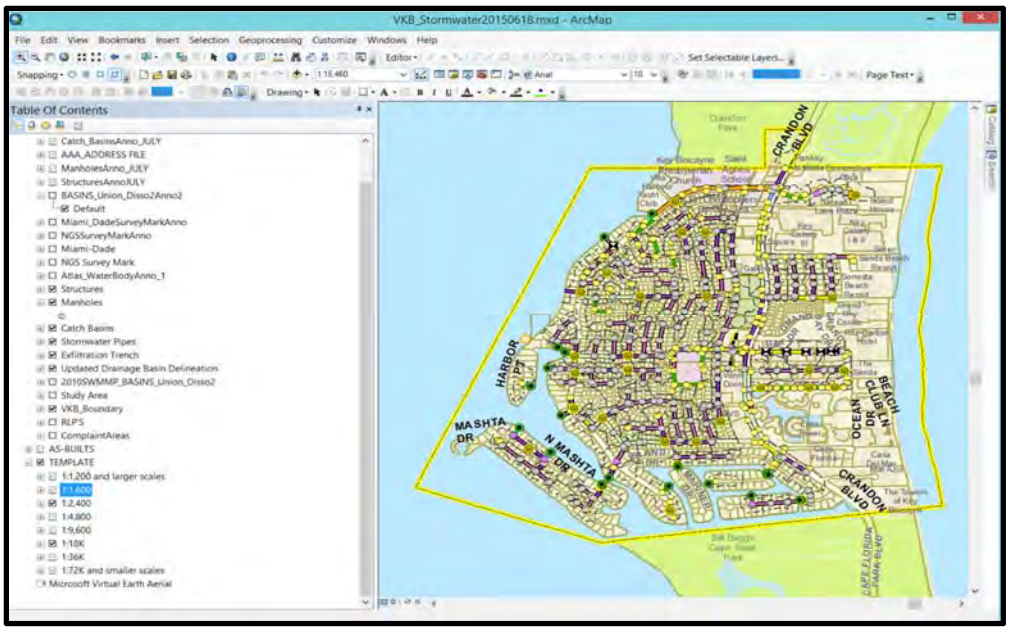

Figure 2-4 – Village of Key Biscayne GIS-based Stormwater Infrastructure Data

The feature classes related to stormwater infrastructure also contain edit tracking which will enable the EAC team to focus updates to the InfoSWMM models based on what items have changed since the development of the 2011 SWMP InfoSWMM models – currently there are modifications to 135 pipe segments and 8 drainage structures/manholes. Additionally, the Village maintains a GIS feature class which collects annotated data from the Village staff pinpointing areas in need of additional investigation by the Village's contractors. This feature class logs all inquiries as they are input and addressed.

Lastly, a map exhibit illustrating flood prone areas was reviewed on-site at the Village. This map shows areas where flooding has been observed throughout the Village based on documented site visits by Village staff.

2.2.6 Village Stormwater Management System Maintenance Records

The Village maintains two contractors (vendors) under contract for the purposes of maintaining their stormwater infrastructure. Jaffer Well Drilling (Jaffer), A Division of A.C. Schultes of Florida, is a well drilling contractor specializing in the development and maintenance of wells. A&A Drainage, Inc (A&A) is a maintenance contractor specializing in the maintenance and physical inspecting of stormwater infrastructure systems.

Jaffer Well Drilling is tasked with testing, maintaining, and redeveloping the existing 28 Village owned wells, at the discretion of the Village. The Village maintains a program where, depending on available funding, a specific number of wells are identified for cleaning/maintenance on a rotating basis. Jaffer provides the Village with flow rates prior to and after cleaning/maintenance activities; the testing and maintenance records are maintained by the Village and updated regularly using the data provided by Jaffer.

The Village Public Works staff provided EAC with a table identifying the wells and their locations; the physical dimensions of the wells including cased and uncased depths; the depth of sedimentation observed prior to cleaning; the date of the most recent cleaning/maintenance/; the pre- and post-maintenance flow rates; and the date the activities were performed.

A&A Drainage Inc., was recently tasked with cleaning and surveying the Village's stormwater infrastructure systems. Based on our understanding, A&A Drainage Inc., follows the Village's maintenance program, at the discretion of the Village, and provides input for refining the Village's GIS based stormwater infrastructure feature classes. A&A Drainage Inc., surveys the Village's stormwater management systems and inputs their findings into an ArcGIS Online-based maintenance feature class maintained by the Village. These findings are compared to the existing stormwater infrastructure data and are then propagated into the Village's master stormwater infrastructure feature classes.

The well data available from Jaffer and the field-verified stormwater infrastructure data available from A&A Drainage, Inc was evaluated for inclusion into the InfoSWMM model update to be performed by the EAC for this project.

2.2.7 Existing Stormwater Pump Station(s) Operating Conditions

EAC collected the daily operating data from the existing pump stations remotely (via telemetry) through the SCADA system set up by PELCO. PELCO is the approved vendor of the Village and has an agreement in place to maintain the existing stations operational. The SCADA data received provides the following specific information:

- Daily Runtime (minutes) Per Pump
- Daily No of Starts Per Pump
- Daily Average (Minutes / Start)
- Weekly Alarm Call Outs (including Total Events and Notification Attempts)
- Real time RTU Transmissions
- Response Times

2.2.8 South Florida Water Management District (SFWMD)

EAC contacted SFWMD to verify the availability of recent data that may facilitate the process of the H&H Analyses. SFWMD has GIS Data titled "*2007-08 Miami Dade 5-ft DEM*". This raster dataset is a 5-ft digital elevation model (DEM) of bare earth for eastern and southern portions of Miami-Dade County, as well as relatively small portions of Monroe County that are adjacent to Miami-Dade's southern and southwestern border. Elevation values are in feet, North American Datum of 1988 (NAVD 1988).

The DEM was created using data from the 2007 Florida Division of Emergency Management (FDEM) Statewide Coastal LiDAR project (Delivery Blocks 3, 4 and 5; flown between Jul 2007 and Apr 2008).

According to SFWMD sources, the District used the last known set of accepted vendor deliverables from FDEM's delivery blocks 3, 4 and 5. These 3 blocks consist of a total of 1219 tiles, with each tile sized 5000-ft by 5000-ft, in accordance with FDEM's tiling system. Block 5 is the northernmost block, approximately north of Coral Way/ SW 24th Street.

2.2.9 Federal Emergency Management Agency (FEMA)

EAC also retrieved important information from FEMA with respect to its National Flood Insurance Program (NFIP). The FEMA Flood Map Service Center (MSC) is the official public source for flood hazard information produced in support of the NFIP. The Flood Insurance Rate Map (FIRM) is the official map that illustrates the flood plains for special hazard areas and risk premiums zones as delineated by FEMA. FEMA is able to display areas and or locations that are within the 100 year flood boundary by using a FIRM. For the Village, four panels are ascribed to the Village depending on geographic location within the Key.

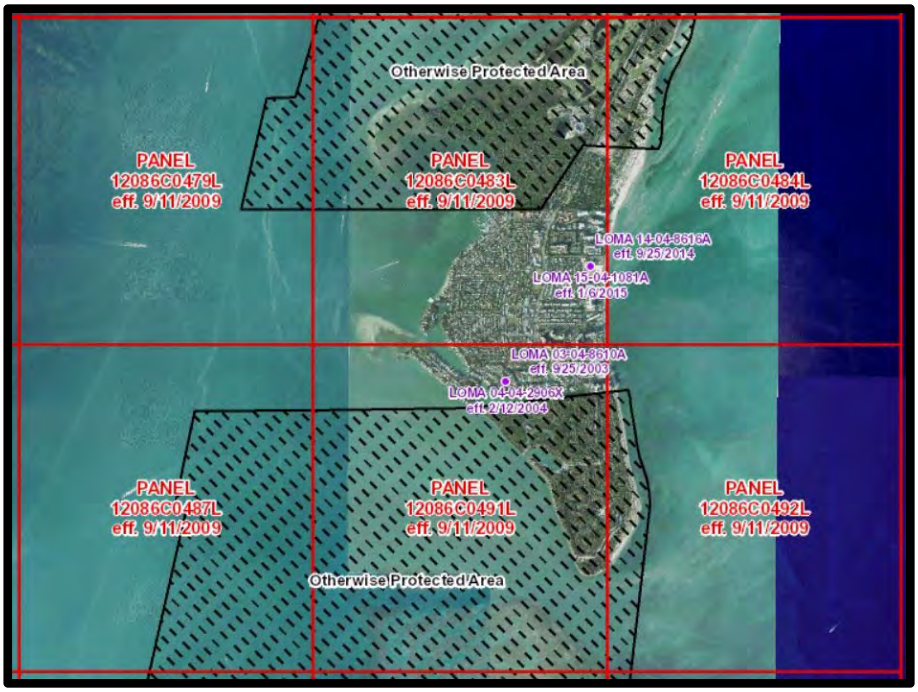

Figure 2-5 – Village of Key Biscayne FEMA FIRM Maps

2.2.10 National Oceanic and Atmospheric Administration (NOAA)

The National Oceanic and Atmospheric Administration (NOAA) is a federal agency focused on the conditions of oceans and the atmosphere. NOAA guides the protection of ocean and costal resources as well as environmental information which manifest itself in a multitude of various applications, where the production of weather warnings and forecasts is one of its main objectives. This information is vital for civil engineers and city planners in coastal communities along South Florida who must constantly guard against the threat of the next big hurricane and rising sea levels.

NOAA is the authoritative source for accurate and reliable water-level measurements throughout the United States. NOAA has been measuring the sea for over 150 years and has been able to prepare gauges representing the expected high tides and sea level rise projections at various locations throughout

the United States and the world. EAC utilized information on the NOAA website for the purpose of incorporating pertinent data into the H&H model.

2.2.11 United States Geological Survey (USGS)

The USGS maintains a network of groundwater wells that are monitored continuously in cooperation with SFWMD. There are no active groundwater wells is within the Village. In general, groundwater stage data can be obtained from the following website:

a) Main USGS data portal - http://www.sflorida.er.usgs.gov/
b) Data access site - www.sflorida.er.usgs.gov/ddn_data/index.html

EAC reviewed information from the USGS portal to have a comprehension of the most recent water levels (in feet. National Geodetic Vertical Datum of 1929 (NGVD 29)) from groundwater wells and stream gauges located in close proximity.

2.2.12 United States Army Corps of Engineers (USACE)

USACE has as part of its library of publications an Engineering Circular that discusses future potential sea level changes and their effects on managing, planning, engineering, designing, constructing, operating, and maintaining USACE projects and systems of projects in coastal regions. This document references various locations in South Florida. This document is available via the web at the following location:

a) USACE Main Engineer Circular Portal - http://140.194.76.129/publications/eng-circulars/
b) USACE Sea Level Change Engineer Circular (EC 1165-2-211) http://140.194.76.129/publications/eng-circulars/EC_1165-2-212.pdf

2.2.13 Natural Resources Conservation Service (NRCS)

The NRCS is a federal agency under the United States Department of Agriculture (USDA) which performs and maintains soil survey information for the United States. Through the USDA's Geospatial Data Gateway site, soil maps and data are accessible online for counties within the State of Florida. The site is updated and maintained as an authoritative source of soil survey information and can be accessed via the web at the following location:

a) Main Geospatial Data Gateway Portal - http://datagateway.nrcs.usda.gov

Additional data is available through this system including digital ortho-imagery, digital elevation models, and other cultural and demographic data.

2.2.14 Picture Records from Site Visits

EAC obtained photo records from the Village's Public Works Department and visited the Village several times during the process of the H&H analyses task. EAC's main goals for the site visits were to assess prevailing conditions and performance of the existing storm water management system after short duration and prolonged storms. Furthermore, EAC needed to observe the response of the Village's infrastructure to tidal conditions without the occurrence of a rainfall or no precipitation.

Representative photographs are provided on the following pages.

3.0 LEVEL OF SERVICE (LOS) & APPLICABLE CRITERIA

This section provides a detailed description of the Village's expectations as it relates to the level of service anticipated for storm water infrastructure under its jurisdiction as well as pertinent and applicable criteria and guidelines governing the levels of operational performance.

3.1 Level of Service (LOS) Criteria

The primary purpose of establishing or defining LOS criteria is to protect public safety and property. The existing land uses in the Village are defined predominantly by location west or east of Crandon Boulevard. To the west, exists a large cluster of single family homes, a public recreational area, an elementary school centrally located within the neighborhood and commercial development along Crandon Boulevard. To the east, the land use is primarily multi-family high-rise residential with some hotel/ commercial development as well as an area designated as single family between East Drive and north of Galen Drive.

As noted in the 2011 SWMP Update, the Village is considered completely developed for the purpose of this stormwater evaluation process and future land use changes will considered with negligible variation.

The establishment of LOS criteria for the purpose of this effort is aimed at ensuring that all roadways are maintained for public use, roadways accessible during high precipitation events and to ensure that infrastructure are in place to control flood stages below homes and buildings as practicable. The LOS criteria were used to identify and define potential problem areas after performing all H&H calculations and analyses. Once areas of deficiencies were identified, improvements were developed and the LOS criteria were then used to evaluate the effectiveness of proposed infrastructure improvements.

The adopted LOS criteria play a significant role in the capital improvements proposed as they directly affect the size, cost and schedule of proposed infrastructure improvements. All of the Village's current stormwater management LOS as established in the 2011 SWMP Update will be maintained with several modifications to ensure congruency with applicable jurisdictional guidelines. These "adjustments" were made based on:

a) Input from the Village's Public Works Department
b) New & updated Hydraulic & Hydrologic (H&H) data
c) New industry accepted storm water drainage management practices such as Sea Level Rise (SLR)

The LOS Criteria established for this evaluation are itemized as follows:

1. The total contributory area was maintained as per the 2011 SWMP Update.
2. The vertical datum for elevation references is the North American Vertical Datum of 1988 (NAVD 88).
3. Consistent with the 2011 SWMP Update, all analyses and design evaluations for the Village's storm water management infrastructure will incorporate high tidal elevations in the Bay as the tailwater condition(s) for theH&H model. For specificity purposes, this value has been determined in addition to sea level rise considerations derived as part of the analyses procedures.
4. The SFWMD standard rainfall depths and distribution curves for the various storms were utilized as required for the H&H Analyses.
5. Peak elevations and flows were determined for each of the basins within VKB's storm water watershed model for the following design storm events for the following events:
    - 5-year, 72-hours
    - 10-year, 72-hours
    - 25-year, 72-hours
    - 100-year,72-hours

6. Roadway Flooding Criteria : Miami-Dade County Department of Transportation and Public Works (DTPW) Criteria

7. Design Storm Frequencies and Flood Limits (established in the Miami-Dade County Public Works Manual, Part 2, Design and Construction)

Design Storm Frequencies and Flood Limits		
Roadway Location & Type	Rainfall Frequency	Flood Limits
Residential and Commercial Areas	5-year	To Crown of Street or within 15 feet of dwelling or occupied building, whichever is lower
2-Lane Roads in Residential and Commercial Areas	5-year (10-year for Bridges)	To Crown of Street
4-Lane Roads in High Traffic & Density Areas	10-year	To outer edge of Traffic Lanes

8. Existing Basins as delineated in the 2011 SWMP Update (identifying 14 separate individual basins) were maintained. However, LIDAR information obtained from the County were utilized to verify the delineations and applicable adjustments made to reflect topography information.

9. Positive Discharge: All existing outfalls were to be field verified by the Village Public Works Department prior to finalization of the H&H Analyses & Evaluation process. The results of the findings shall be appropriately incorporated into the effort.

10. Pipe Hydraulic Opening Reduction: Various existing cast iron / metal piping have recently undergone rehabilitation via pipe lining. The H&H model has been updated to include their respective hydraulic opening appropriately reduced to reflect loss of area. All other existing cast iron/metal pipes within the system will assumed to have lost 50% of the hydraulic opening due to the expected degradation of this pipe material under the subsurface ground water conditions within the Village. The Village will implement a capital program that involves relining all metal pipes Village-wide.

11. It was assumed that for this effort, the storm water infrastructure and hydraulic inter-connectivity presented in the 2011 SWMP Update were accurate. No revisions or changes were proposed to the existing interconnections for the purpose of analyzing existing conditions, with the exception of updates based on recent improvements by the Village.

12. Pump Stations: To facilitate the ability of underground injection wells to function in low lying areas, the Village staff is in favor of evaluating the use of pumps to enable and expedite disposal of runoff through injection wells. The Village's preference for pump stations is for proposed systems to be submersible, duplex and capable of long term use in salt water conditions.

13. Backflow Prevention: The analyses will factor in the placement of conventional backflow prevention devices, specifically at the outfalls and at points of interconnection of the central storm water trunk system along Crandon Boulevard.

14. Green Infrastructure: The project will take into consideration implementation of "Green Infrastructure" where opportunities exist. The use of "Green Infrastructure" will provide better long term planning strategy which is environmentally conscious and results in lower capital and maintenance costs. A toolbox of "Green Infrastructure" components will be developed for this project and will integrate urban and engineering practices to provide overall better

preservation of the existing site hydrology by reducing the runoff volume and peak flows while increasing aquifer recharge, reducing pollution, reducing the impacts of Sea Level Rise and climate change and associated mitigation costs. The toolbox will include cost efficient components for increasing the storage and infiltration of storm water, reducing the paved surfaces and improving the conveyances.

15. Key Colony: Key Colony improvements will not be included in these analyses since the Condominium has hired an engineering firm to propose design improvements (including drainage wells redevelopment) to limit flows from Key Colony across the Sonesta Drive wall. The EAC team will coordinate with this engineering firm to ensure that this conditions are maintained.

3.2 Other Jurisdictional Criteria

Stormwater management systems must adhere to mandated water quality and quantity criteria set forth by various local, state, and federal agencies with jurisdiction within the State of Florida. Existing systems when rehabilitated or retrofitted have to comply with all regulatory requirements irrespective of the pre-existing conditions. The improvements that the Village will undertake will ensure that applicable regulatory requirements, codes, ordinances and criteria are complied with thoroughly.

Due to the location of the coastline location of the Village, jurisdiction for storm water management extends across Federal, State and Local agency criteria that must be strictly adhered to. Each design improvement depending on its complexity, extent and impact to inland and coastal / environmental resources will generate its own respective specific set of requirements.

The following agencies are expected to be involved with proposed design improvements:

a) Florida Department of Environmental Protection (FDEP)
b) Florida Department of Transportation (FDOT)
c) South Florida Water Management District (SFWMD)
d) Miami Dade Regulatory and Economic Resources (RER)
e) Florida Fish and Wildlife Conservation Commission (FFWCC)
f) United States Army Corps of Engineers (USACE)
g) United States Coast Guard (USCG)
h) Village of Key Biscayne Public Works Department
i) Village of Key Biscayne Building Department

The following regulatory requirements are applicable:

3.2.1 Water Quality Regulatory Requirements

Water Quality Regulatory Requirements govern the release of pollutants into water resources, including surface water and ground water. Within the Village of Key Biscayne, tFDEP, SFWMD)and RER have jurisdiction over stormwater quality criteria. The following subsections outline the current requirements mandated by these entities. All proposed stormwater infrastructure systems to be constructed in response to deficiencies and inadequacies within the Key shall be designed and permitted to comply fully with the most stringent of these requirements.

3.2.1.1 Florida Department of Environmental Protection (FDEP)

The Federal Clean Water Act (CWA) provides the statutory basis for state water quality standards programs. The regulatory requirements governing these water quality standards programs also known as "*Water Quality Standards Regulation*" are published in ***40 CFR 131***. States are responsible for reviewing, establishing, and revising water quality standards. Florida's surface water quality standards

system is published in ***62-302*** and ***62-302.530*** of the ***Florida Administrative Code (F.A.C.)***. The components of this system include: classifications, criteria, including site specific criteria, an anti-degradation policy, and special protection of certain waters (Outstanding Florida Waters).

FDEP is currently in the process of proposing several new water quality criteria. As of the date of this report, FDEP has initiated the current Triennial Review of State surface water quality standards and is considering revisions to several rule sections. The first series of public workshops was held in June, 2015. Additional public workshops will be conducted in the future.

3.2.1.2 South Florida Water Management District (SFWMD)

SFWMD requires that all projects meet State surface water quality standards as set forth in Chapters 62-4 and 62-302, F.A.C., including the anti-degradation provisions of paragraphs 62-4.242(1)(a) and (b), 62-4.242(2) and (3), F.A.C., and Rule 62-302.300, F.A.C., and the special standards for Outstanding Florida Waters and Outstanding National Resource Waters set forth in subsections 62-4.242(2) and (3), F.A.C and the groundwater standards in Chapters 62-520 and 62-550 F.A.C. The volume of runoff to be treated from a site shall be determined by the type of treatment system.

Effective October 1, 2013, the Environmental Resource Permitting (ERP) rules have changed. The ERP program is now implemented through a statewide rule, Chapter 62-330, F.A.C., and changes to the 40E chapters of F.A.C. To assure that these criteria are met, the proposed improvements must meet the described in the SFWMD Permit Manual (2014) Applicants Handbooks 1 and 2.

a) Volumetric Requirements

Retention, detention, or both retention and detention in the overall system, including swales, lakes, canals, greenways, etc., shall be provided for one of the three following criteria or equivalent combinations thereof:

1) For wet detention systems, the first one inch of runoff from the project or the total runoff from 2.5 inches times the percent impervious, whichever is greater, must be detained on site.
2) Dry detention systems must only provide 75 percent of the required wet detention volume. Dry detention systems maintain the control elevation at or above one (1) foot above the seasonal high ground water elevation.
3) Retention volume shall be provided equal to 50 percent of the above amounts computed for wet detention. Retention volume included in flood protection calculations requires a guarantee of long term operation and maintenance of system bleed-down ability.

Systems with inlets in grassed areas will be credited with up to 0.2 inches of the required wet detention amount for the contributing areas. Full credit will be based on a ratio of 10:1 impervious area (paved or building area) to pervious area (i.e. the grassed area) with proportionately less credit granted for greater ratios.

b) Land Use and Coverage Criteria

Commercial or industrial zoned projects shall provide at least one-half inch of dry detention or retention pretreatment as part of the required retention / detention, unless reasonable assurances can be offered that hazardous materials will not enter the project's surface water management system. Such assurances include deed restrictions on property planned for re-sale, type of occupancy, recorded lease agreements, local government restrictive codes, ordinances, licenses, and separate containment systems designed to prevent discharge.

Projects having greater than 40% impervious area and which discharge directly to the following receiving waters shall provide at least one half inch of dry detention or retention pretreatment as part of the required retention / detention:

1) Lake Okeechobee and the Kissimmee River.
2) Water bodies designated as Class I or Class II waters by FDEP.
3) Canals back-pumped to Lake Okeechobee or to the Conservation areas, or proposed for back-pumping.
4) Other areas, such as the Savannas in St. Lucie and Martin Counties; the Six Mile Cypress Strand; the Big Cypress area of Collier County; and lands acquired by the District pursuant to Section 373.59, F.S. Water Management Lands Trust Fund (Save Our Rivers); and mitigation bank lands;
5) Outstanding Florida Waters as defined in Chapter 62-302, F.A.C.; and Aquatic Preserves as created and provided for in Chapter 258, F.S.; and
6) Water bodies within a District permitted public water supply well field cone-of-depression which are not separated from the aquifer by strata at least ten feet thick and having an average saturated hydraulic conductivity of less than 0.1 foot per day; where the cone- of-depression is defined by one the District's applicable conditions.

c) Flexibility for State Transportation Projects and Facilities

In cases of widening existing urban public highway projects, SFWMD shall reduce the water quality requirements, if the applicant provides documentation which demonstrates that all reasonable design alternatives have been considered, and which provides evidence that the alternatives are all cost-prohibitive. Based on the SFWMD Permit Manual, State linear transportation projects and facilities (collectively referred to) often have unique design limitations.

In recognition of this, SFWMD is mandated by state statutes to consider and balance the expenditure of public funds for storm water treatment with the benefits to the public in providing the most cost-efficient and effective method of achieving the treatment objectives of storm water management systems when reviewing such projects.

To accomplish this, alternatives to on-site treatment for water quality will be considered including regional storm water treatment systems, off-site compensating treatment, and incorporation of off-site runoff into the treatment system for the project.

3.2.1.3 Miami Dade Regulatory and Economic Resources (RER)

Miami-Dade County RER and
Miami-Dade County Department of Transportation and Public Works (DTPW) are consistent with the State Water quality standards and requires that storm water management systems demonstrate full compliance with SFWMD's mandated regulations. RER requires that projects be designed so water quality standards, as set forth in Chapter 17-302, Florida Administrative Code are maintained.

To comply with this standard, one hundred percent (100%) of the water quality volume must be retained on site. The volume is taken from the first one-inch of runoff from the project total area. The approach for estimating this requirement is detailed in the County's Policy for the Design of Drainage Structures, December 1980.

3.2.2 Water Quantity Standards

The following subsections outline the most stringent stormwater quantity requirements applicable to proposed stormwater infrastructure design and construction within the Village. Depending on specific circumstances, the requirements of the FDEP, FDOT, SFWMD and Miami-Dade RER may govern.

3.2.2.1 Florida Department of Environmental Protection (FDEP)

According to the FDEP publication on the "*Evaluation of Current Stormwater Design Criteria within the State of Florida*", the goals for stormwater management within the State of Florida are outlined in Chapter 62-40 of the Florida Administrative Code (FAC), titled "Water Resource Implementation Rule". This rule provides general guidelines related to surface water management, flood protection, and minimum flows and levels. Criteria for stormwater management systems permitted within the State of Florida are outlined in Chapter 62-25, titled "Regulations of Stormwater Discharge".

Minimum design and performance standards for stormwater management systems are listed in Chapter 62-25.025, titled "Design and Performance Standards".

STORMWATER SYSTEM TYPE	DESIGN PARAMETER	CRITERIA
Retention	Treatment Volume	Runoff from the first 1" of rainfall; or as an option, for projects < 100 ac, 0.5" of runoff
	Volume Recovery	< 72 hours following storm using percolation, evaporation, or evapotranspiration
Swales	Treatment Volume	Percolate 80% of the runoff from a 3-year/1-hour storm within 72 hours following storm
	Volume Recovery	< 72 hours following storm using percolation, evaporation, or evapotranspiration
Dry Detention	Treatment Volume	Runoff from the first 1" of rainfall; or as an option, for projects < 100 ac, 0.5" of runoff
	Volume Recovery	< 72 hours following storm
Filter Systems (if applicable)	Filter Design	Permeability ≥ surrounding soil
		Media washed with <1% silt, clay, and organic matter
		Media uniformity coefficient > 1.5
		Effective grain size from 0.20-0.55 mm
		Designed with Safety Factor of 2
Wet Detention	Treatment Volume	1.00-inch of runoff
	Volume Recovery	< 50% in 60 hours following storm
	Detention Time	Minimum 14 days
	Littoral Zone	Minimum 30% of pond area
	Pond Depth	Maximum 8-10 feet below control elevation
	Fencing	Required for wet ponds unless side slopes are less than 4:1

a) Underground Injection Control (UIC)

The FDEP regulates underground discharge via pressurized or gravity drainage wells through its Underground Injection Control (UIC) program. Drainage wells can only discharge into or above an aquifer that contains a total dissolved solids concentration of less than 10,000 milligrams per liter.

For the purposes of the Village of Key Biscayne's analyses and evaluation the following will be maintained:

i. All existing wells are assumed to comply with this criteria. Drainage Well evaluation efforts will be required for each priority basin for design purposes and appropriate adjustments made during this H&H analyses effort.
ii. Existing wells are assumed to function at only 75% of the estimated capacities to reflect long term usage.
iii. Within the H&H model, drainage well capacities shall be updated based on all recent well redefinition efforts undertaken by the Village's Public Works Department.
iv. In the absence of field measured well capacities, all drainage wells capacities shall default to a determined well capacity estimated by local hydrogeologists familiar with the Village of Key Biscayne and other County barrier municipalities.

3.2.2.2 Florida Department of Transportation (FDOT)

FDOT requires that proposed drainage systems meet the offsite discharge requirements outlined in F.A.C. Chapter 14-86. The following items are applicable regarding the FDOT criteria for the transfer of stormwater to the FDOT right-of-way as a result of manmade changes to adjacent properties:

1. The offsite discharge criteria is based on a critical storm frequency analysis including storm events with 2- to 100-year frequencies and 1-hour to 10-day durations for closed sub-basins and 3-day durations for sub-basins with positive outlets.
2. Any discharging pipe establishing or constituting a drainage connection to the FDOT's right-of-way is limited in size based on the pre-improvement discharge rate, downstream conveyance limitations, downstream tailwater influences, and design capacity restrictions imposed by applicable other governmental entities.
3. The peak discharge rates and total volumes allowed by applicable local regulations are not exceeded.
4. The improvements shall not increase stormwater discharge rates above the predevelopment conditions.

In addition to these criteria, FDOT District 6 has set forth specific criteria with regards to design storm events that must be adhered to.

3.2.2.3 South Florida Water Management District (SFWMD)

SFWMD's requirements and procedures for evaluating compliance with water quantity and other regulatory standards are outlined in the SFWMD Environmental Resource Permit (ERP) Applicant's Handbook Volumes I & II. The criteria contained in the ERP Applicant's Handbook were established with the primary goal of meeting water resource objectives as set forth in Part IV of Chapter 373, the Florida Statutes.

SFWMD is amenable to other methods of meeting overall objectives of the District and which meet the conditions for issuance set forth in Rules 62-330.301 and 62-330.302, F.A.C., when necessary.

The regulatory requirements pertaining to storm water quantity are outlined as follows:

a) Discharge Rates
SFWMD requires that off-site discharge rate be limited to rates not causing adverse impacts to existing off-site properties, and:

i. Historic discharge rates
ii. Rates determined in previous SFWMD permit action, or
iii. Basin allowable discharge rates.

b) Design Storm
Unless otherwise specified by previous SFWMD permits or criteria, SFWMD requires that a storm event of 3-day duration and 25-year return frequency be used in computing off-site discharge rates. In general, the flows during a 25-year, 72-hour rainfall event are not increased during the post development condition. However, SFWMD also specifies that local drainage districts or local governments may require more stringent design storm criteria.

c) Flood Protection for Roads
In the absence of a local governing code or regulatory criteria, SFWMD specifies the following design criteria for drainage and flood protection:

i. Frequency - 5 years
ii. Duration - 1 day (road centerlines)

d) Flood Protection for Buildings
Building floors shall be at or above the 100-year flood elevations, as determined from the most appropriate information, including Federal Flood Insurance Rate Maps. Both tidal flooding and the 100-year, 3-day storm event shall be considered in determining elevations.

e) Flood Plain Encroachment
No net encroachment into the floodplain, between the average wet season water table and that encompassed by the 100-year event, which will adversely affect the existing rights of others, will be allowed.

f) Historic Basin Storage
Provision must be made to replace or otherwise mitigate the loss of historic basin storage provided by the project site.

3.2.2.4 Miami-Dade County Regulatory and Economic Resources (RER)

Based on Table 1 of the County's Public Works Manual - Water Control Section D4, Miami-Dade County RER requires that stages for two-lane local roadways be kept to crown of the road for a 5-year storm event. Miami-Dade County RER criteria also require that Exfiltration Trench Systems (or French drains) be designed so that the volume of storage and exfiltration during 1 hour is equal to the design runoff volume. Applicable sections of the Miami-Dade County Code, also govern storm water quantity regulations and standards.

For roadway improvements, the County requires that French drains provide full onsite attenuation of the 5-year event with a safety factor of two at a minimum, the first inch of runoff be retained for varying storm events, with no overflow from the system's mass balance relationship.

For projects that discharge to Miami-Dade County canals, the specific allowable discharge criteria for that canal must be met. Designers must coordinate with Miami-Dade County RER to obtain the applicable discharge criteria of the specific receiving Miami-Dade County canal or water body.

3.3 Outstanding Florida Waters (OFW)

An Outstanding Florida Water, (OFW), is a water designated as such due to its natural attributes and importance. This special designation is applied to those water bodies to protect existing good water quality. Most OFWs are areas managed by the state or federal government.

Systems discharging to a waterbody that has been identified as impaired by FDEP pursuant to 403.067, F.S., or to an Outstanding Florida Water, shall be designed in accordance with the procedures established by the SFWMD. Specifically, systems which have a direct discharge to an OFW, must provide an additional fifty percent of the required treatment.

Waters of Biscayne Bay Aquatic Preserve and Biscayne National Park are classified as Outstanding Florida Waters (OFWs), and as such are subject to the above mentioned criteria.

4.0 EXISTING CONDITIONS H&H MODELING & ANALYSES

This section of our technical report provides a description of the methodology that the EAC team utilized in evaluating existing conditions within the Key. Following the completion of the data gathering the EAC team proceeded with the analyses and evaluation of exisitng conditions utilizing the InfoSWMM software. According to Innovyze©, developers of the software, InfoSWMM is ArcGIS integrated, highly advanced, and comprehensive hydrologic, hydraulic and simulation model for the effective management of urban stormwater and wastewater collection systems. The program is built on ESRI's ArcGIS platform using the latest Microsoft.NET and ESRI ArcObjects component technologies. InfoSWMM seamlessly integrates advanced stormsewer collection systems modeling and optimization functionality with the latest generation of ArcGIS.

Hydrologic and hydraulic modeling was performed to evaluate existing conditions and also to determine the extent of deficiencies in comparison to the established LOS. InfoSWMM offers the capability to simulate various rainfall events under varying hydrologic and hydraulic conditions. VKB's most recent SWMP Update was undertaken using this software making it the most cost effective and reasonable approach to performing the services required under this task.

4.1 Development of H&H "Baseline" Conditions Model

The existing Village wide's H&H model from the 2011 SWMP Update was developed using InfoSWMM 9.0. This model utilizes a dynamic water solution to simulate runoff and flow routing through the system during a rainfall event. It is also capable of simulating ground infiltration, runoff, hydraulic grade lines, pipe storage, weirs, pump stations, tidal fluctuations, and drainage wells. Additionally, the model runs within Arc-GIS environment allowing for a graphical representation of the model. The georgaphic area considered as part of the SWMP Update encompasses the entire area within the Village municipal boundary, although the study area, for purposes of master plan recommendations, did not provide full coverage of the entire Village.

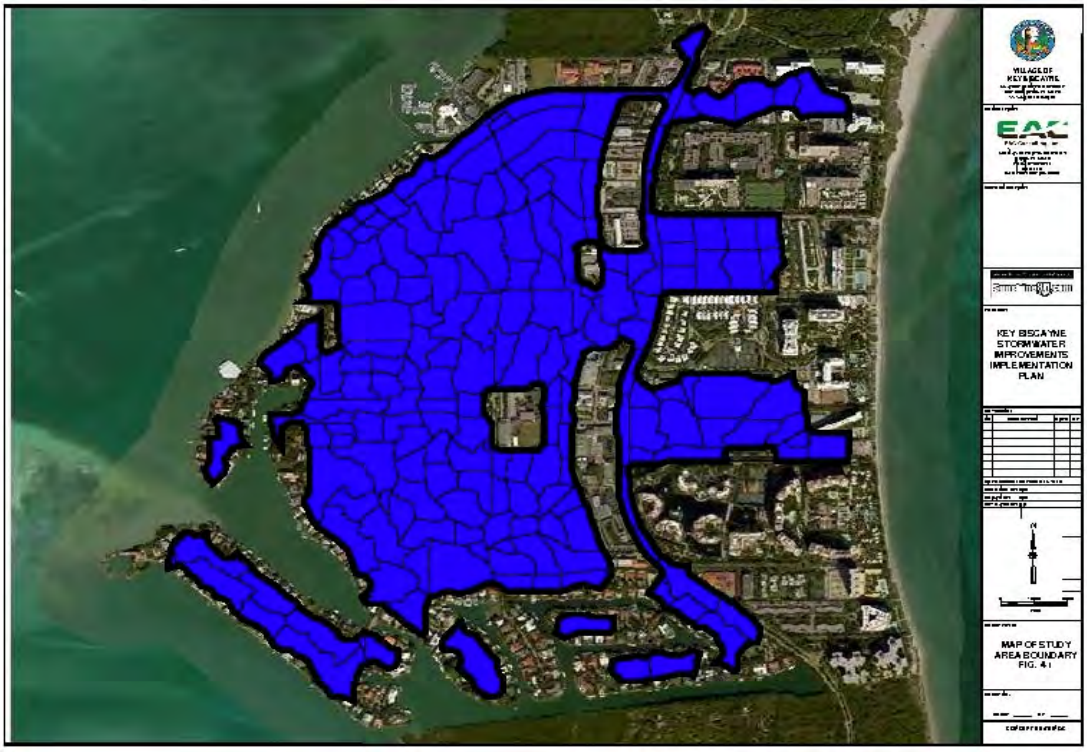

Figure 4-1 Map of Study Area Boundary

As documented in the SWMP Update, the model is composed of the following:

- 14 Drainage Basins with the areas listed below:

Basin Description	Acreage (acres)	Basin Description	Acreage (acres)
Basin No. 1	12.50	Basin No. 7A	42.96
Basin No. 2	11.65	Basin No. 7B	24.13
Basin No. 3	74.27	Basin No. 8	49.88
Basin No. 4	4.31	Basin No. 9	88.59
Basin No. 5	33.27	Basin No. 9A	12.80
Basin No. 6A	41.00	Basin No. 10	22.60
Basin No. 6B	23.00	Basin No. 11	35.30

- 184 Sub-catchments which, represent the total area that drains into VKB's stormwater management system.
- 441 Conduits representing the main trunk line of VKB's stormwater management system.
- 438 Junctions representing the structures joining the main trunk line of the Village's stormwater management system.
- 2 Stormwater disposal pump stations within the VKB.
- 13 weirs representing the weirs within the stormwater management system.
- 17 Outfalls representing the outfall to Biscayne Bay
- 31 Outlets representing the flow into gravity drainage wells.

The SWMP was completed utilizing an older version of InfoSWMM and thus required update to the newer version. The newer version provides additional features that are beneficial to the H&H analyses process. The modeling update went through a four-step update and refinement process with the intent of providing additional enhancements to the model using the most readily available and recent infrastructure data.

The four-step process is outlined as follows:

1. Innovyze InfoSWMM Model version update from version 9.0 (based on EPA-SWMM 5.0.018) to version13.0 (based on EPA-SWMM 5.1.007).
2. Incorporate field verified infrastructure data to existing model connectivity.
3. Provide additional sub-basin interconnectivity based on recent topographic maps.
4. Modify model input parameters to improve model stability and accuracy.

The completion of steps 1 through 4 resulted in a new 2015 Baseline Existing Conditions model that was the basis for the analysis and the proposed improvements.

4.1.1 Updating the 2011 H&H Model

There have been numerous updates, changes and fixes between InfoSWMM 9.0 and InfoSWMM 13. A complete listing of changes is summarized on the software developer's website at www.innovyze.com. As with most conversion processes for software update, there were some initial instabilities and excess continuity errors observed once the software update was utilized in evaluating VKB's watershed conditions. These instabilities were primarily due to the revisions in the operating parameters between the different versions. The EAC team's approach to resolving these instabilities was modifying the following simulation parameters in the Model Scenario Manager:

- Time Step for Conduit Lengthening (sec) = 7
- Safety Factor (%) = 65

- Inertial Terms = Ignore

These modifications were implemented in consultation with service representatives from Innovyze©. The objective of reducing continuity errors and improving model stability was to ensure performance level of consistency (or improvements) between the 2011 SWMP Update H&H model and the 2015 Baseline H&H model by comparing the continuity error from different precipitation events.

Through this procedure the following comparisons were achieved:

Storm event	Continuity Error		
	2011 SWMP Update Model	2015 Initial Model Conversion	2015 Established Baseline Model
5-yr – 24 hour	-2.000%	*-17.024%*	**-0.945%**
10-yr - 24 hour	-2.053%	*-10.502%*	**0.585%**
25-yr - 72 hour	-3.631%	*-9.829%*	**-0.680%**
100-yr – 72 hour	-4.018%	*-5.382%*	**-0.214%**

Further refinements in the model input parameters did not yield any marked improvements in the continuity error documented in the model results.

4.2 Development of H&H "Control" Conditions Model

The effort to implement the 2011 SWMP Update requires that present (year 2015) existing conditions be analyzed and evaluated for improvements where LOS deficiencies are prevalent. It is, therefore, important to enhance the conditions in the 2015 Baseline H&H model to reflect the stormwater infrastructure and management conditions presently existent within the Key. Since the 2011 SWMP Update was completed, there has been several initiatives that have been embarked on and completed by the Village.

These initiatives have added new components and conditions to the stormwater management system and performance within VKB. The result of incorporating critical initiatives and new LOS expectations is a refined H&H Control Conditions model that serves as the realistic basis for future infrastructure needs and or improvements.

4.2.1 Stormwater Sewer Drainage System Field Verification Efforts

Currently, the Village is in the process of field verifying the existing systems located throughout the Village with the intent of inspecting the condition of the existing systems, identifying connectivity, detailing physical dimensions, and locating critical failures in the systems. VKB has contracted ***A&A Drainage, Inc*** (A&A), a maintenance contractor specializing in the maintenance and physical inspecting of stormwater infrastructure systems. A&A surveys the Village's stormwater management systems and provides findings into an ArcGIS Online-based maintenance feature class maintained by the Village.

The field verification process was in the initial stages of being performed during the development of this study; as a result, only a limited portion of the system was field verified (see Figure 4-2).

This included portions of:

- Harbor Drive
- Crandon Boulevard
- Hampton Lane
- Cypress Drive
- West Heather Drive
- Fernwood Road
- West Palmwood Lane
- West Enid Drive

Figure 4-2 : Field Verification of Storm Sewer System

4.2.2 Stormwater Sewer Drainage Metal Pipe Relining Program

As a result of field verification and pipe condition inspection efforts, several segments of metal pipes have been found to be in poor conditions. Some of the pipes (including the outfalls pipes) show significant distress, cracking and complete collapse. As a proactive measure, the Village is implementing a metal pipe relining program. VKB has contracted ***Layne Inliner, LLC*** to undertake the installation of Cured-In-Place-Pipe (CIPP) lining.

The Inliner® cured-in-place pipe is a proven, cost effective solution to problems normally associated with leaking or deteriorated pipelines, and its trenchless installation minimizes or eliminates the inconveniences caused by excavating roadways to perform replacement or rehabilitation. The Inliner® resin impregnated tube is designed as a fully structural pipe or to serve as an interior infiltration barrier.

The Inliner® cured-in-place pipe is installed using one of two methods: direct inversion (ASTM F1216) or pulled in place (ASTM F1743). Curing begins after the liner is in place. This process can be achieved utilizing hot water, steam, or ultraviolet light system by surface, roadway and private property excavations.

To adjust for the incorporation of the CIPP lining, all known and verified metal pipes within the watershed were adjusted in the model for a slight loss in opening diameter. It is acknowledged that the relining program is ongoing, however, the reduction in pipe area by approximately 2-inches provided a greater confidence level for modelling purposes.

4.2.3 Drainage Well Redevelopment and Maintenance Program

The Village through its Public Works division performs yearly maintenance activities for its drainage wells. The objective of this program is to proactively maintain VKB's gravity wells in optimal conditions given the available funding. Currently, VKB maintains and operates 32 gravity wells located throughout the Key; however, only 29 of these wells are tied to the overall VKB Stormwater Management System. The wells under this program are only those under the jurisdiction of the VKB. Other privately owned and installed wells are not covered under this program. The well maintenance program consists of cleaning, and in some cases, redeveloping a specified number of wells on a yearly basis. The tabulation below provides a listing of the wells located within the Village and their verified capacities. The wells highlighted have recently been redeveloped.

Well I.D	Year Constructed	Original Total Depth (feet)	Current Total Depth (feet)	Pre-Development Capacity (gpm/ft)	Post-Development Capacity (gpm/ft)
1(w)	1995	115.50	109.00	100	1150
2(e)	1995	100.00	89.00	95	1100
3(w)	1995	88.00	66.00	1150	1500+
4(e)	1995	89.00	76.00		
S-29(e)	1995	86.00	82.00		
S13(w)	1995	118.00	117.00	1100	1500+
3-A	1997	53.00	54.00	350	640
3-B	1997	54.00	53.00	240	330
3-C	1997	80.00	74.00	250	1200
3-D	1997	80.00	72.00	130	500
4-11	1997	57.00	51.00		
5-15	1997	60.00	55.00		
6-A	1997	80.00	77.00		
6-B	1997	80.00	73.00	160	1200
6-C	1997	80.00	71.00	250	1200
6-D	1997	80.00	75.00		
7-A	1997	100.00	92.00	200	760
7-B	1997	120.00	121.00	300	900
7-C	1997	100.00	89.00	300	1500
7-D	1997	80.00	76.00		
8-A	1997	81.00	82.00		
8-B	1997	80.00	73.00		
8-C	1997	80.00	73.00		
1--28	1997	80.00	74.00		
2--24	1997	60.00	54.00		
S-20	1998	90.00	85.00	175	1500
1(w)	1999	96.00	98.00	310	1500
2(c)	1999	95.00	98.00	570	1500
3(e)	1999	69.00	66.00		

The verified well capacities were incorporated into the InfoSWMM model. In addition, the well capacities currently coded in the model that were in excess of 1500 gpm per foot of head were reduced to a minimum of 1500 gpm per foot of head to reflect a more realistic representation of the conditions of the wells in the absence of redevelopment or prolonged usage.

It is recommended that during the design phase, test wells be performed meeting FDEP's Reasonable Assurance procedures to establish verifiable basis for proposed infrastructure improvements.

4.2.4 Emergency Stormwater Management Capital Projects

Since the 2011 SWMP Update, the Village of Key Biscayne has completed several emergency stormwater management capital improvements projects. As part of the data collection phase, VKB staff provided project as-built information for projects completed as of June 2015. The capital improvement projects completed are:

- 260 Harbor Dr. Outfall O-16 – Outfall Reconstruction: Completed in September 2013, this project included the complete removal and replacement of the existing collapsed outfall.
- 398 Harbor Dr. Outfall O-15R – Outfall Reconstruction: Completed Construction June 2015, this project included the complete repairs to the outfall structure and replacement of the outfall piping as well as the installation of a "Duckbill" back flow system.
- K-8 Area Drainage Improvements – Completed in June 2015, this project included the installation of two gravity drainage wells, improvements to stormwater conveyance system and the installation of a "Duckbill" back flow system between the K-8 School and Crandon Boulevard.

4.2.5 Model Improvements & Refinements

In addition to the items noted previously, other items were incorporated and coded within the model to provide a more accurate representation of the existing conditions.

4.2.5.1 Tidal Curve at Outfalls

VKB currently has several outfalls that discharge into the Bay. In order to simulate the tail water conditions, a consideration for the impacts of high tide, which the Bay experiences frequently, must be provided in the analyses. To accomplish this, the EAC team introduced a Tidal Curve Time Series feature within the model to represent the condition of how each of these outfalls behave when there is a high tide.

The selected Tidal Curve used for this model update were obtained from Astronomical Tide values. This is the method typically chosen by the Florida Department of Transportation (FDOT) for simulating tides. The Tidal Curve Time Series was also extended over the rainfall period and shifted so that the high tide would coincide with the peak storm intensity.

4.2.5.2 Subcatchment Interconnectivity

An additional component of the model update and refinement task, involved the inter-basin connectivity within the model. The original 2011 Existing Conditions Model did not contain overland weirs for areas where potential overland connections existed within the Key. These areas included mostly low-lying areas such as those along the roadways where the conveyance of stormwater runoff would not be impeded between adjacent sub-basins that do not have interconnecting stormwater management systems.

Figure 4-3 below shows the locations of the new overland weirs introduced into the Control Model representing the interface of runoff between sub-basins throughout the Village. The overland weirs allow

the model to convey stormwater runoff between adjacent sub-basins instead of limiting the connectivity to only those areas where stormwater infrastructure exists.

Figure 4-3 : Overland Weirs within H&H Control Model

4.2.5.3 Subcatchment Storage Capacity

The original model defined 500 sq-ft of storage above the rim elevation of all the junction nodes representing each sub-catchments irrespective of size. This was found to cause instabilities within the current model and was adjusted to reflect representative conditions based on the size of each catchment. The following procedure was developed to derive new storage values for the catchments:

1. The total lot size for each individual private parcel and the building foot-print area for multi-family condominiums was subtracted from the total sub-catchment area. This was done to ensure that no storage was made available within an area occupied by a private parcels and or building/structures.

2. The remainder area with each subcatchment is thus made up of the planometric area representing roads, sidewalks and grass swales within right-of-way. The effective storage area was then determined as fifty percent of the remaining area.

4.3 Assumptions & Considerations for H&H "Control" Model Conditions

The development of the Control Model required that several assumptions and important considerations inreference to the provided SWMP model and prevailing LOS conditions be established and accepted by EAC in coordination with VKB.

Below is a list of the key assumptions established.

1. While, the 2011 Existing Conditions model sufficiently detailed representation of the Village's stormwater drainage infrastructure for 2011, adjustments to coding of several hydraulic links were

needed to provide a representative condition of some of the existing conveyance infrastructure within the Key.

2. In the absence of field topography survey, the LiDAR delineated sub-catchment areas and properties (Curve Number, Percent Impervious). This is an acceptable approximation of the hydrologic coverage for analyses and modeling purposes.
3. Inspite of variations in pipe material and in the absence of complete as-built records for the Key, all pipe materials will be modelled with a Manning's Coefficient (n) of 0.0120.
4. In the absence of field topography survey and complete as-built records, the sizing of pipe openings within the 2011 Existing Conditions model is assumed to be accurate. Upon receipt of updated information through VKB's ongoing pipe condition assessment program or new topography survey records, these pipe sizes will be revised to reflect the field conditions. As infrastructure improvements are implemented in the system, pipe sizes will also be updated in the model. This will keep the model current at any stage during the capital improvements program.
5. In lieu of specific located field measurements, NOAA's Astronomical Tide Data for site(s) in close proximity to the Village were used to developed the tide time series for the modeling procedure.
6. The H&H model was coded to maximize the available head for gravity wells at one (1) foot. This limiting condition was established due to the low topography within the Key and the reoccuring elevated ground water levels.
7. The Third National Climate Assessment (2014) reported that climate change, once considered an issue of a distant realization has moved firmly into the present. One of the critical aspects for coastal communities such as the Village of Key Biscayne is Sea Level Rise (SLR). Satellite data in the last two decades confirms gradual rise of sea level. Sea level projections were based on computations developed by National Climate Assessment. For the next 15 years, sea level rise projections are estimated at 6-inches.

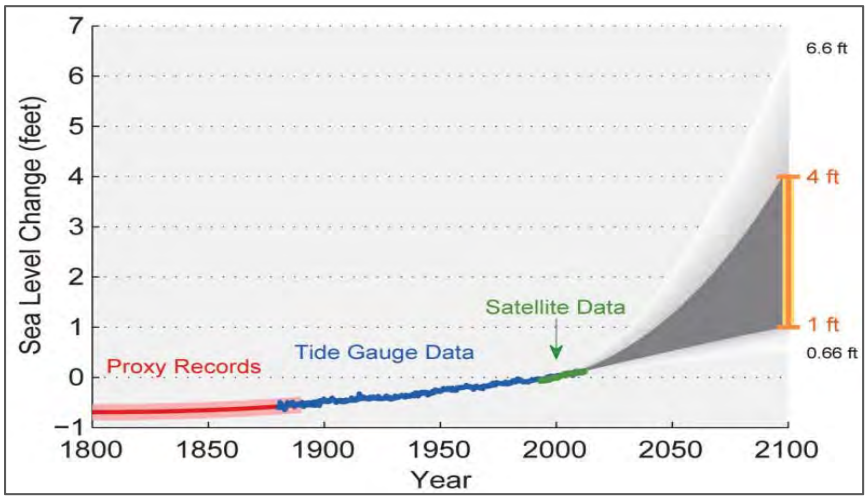

Figure 4-4 : Past and Projected Changes in Global Sea Level

For inland hydrology and gravity drainage systems, the effects of SLR manisfests as the elevated sea levels, reduced gradient of water profiles and causes delays and/or inhibited drainage and storm water conveyance and disposal. Furthermore, during high tides, if the discharge elevation is greater than the inland drainage elevation, the flow direction in stormwater pipes may be reversed; instead of stormwater discharging into the bay, it may backflow from the bay to the inland, thus, exacerbating the ponding.

4.4 2015 H&H Control Model Results

Once the model refinements and updates were completed, the EAC team proceeded to simulate the performance of the Village's infrastructure for the following events:

1. 5 year -72 hour rainfal event
2. 10 year-72 hour rainfal event
3. 25 year- 72 hour rainfal event
4. 100 year-72 hour rainfal event.

The results from the analyses effort were first compared to established LOS criteria and then followed an assessment of deficient or problem areas throughout the Village.

The resulting stages from each rainfall event were correlated with:

1. The Village staff's historically observed conditions as illiustrated in the Village's maintenance flood maps.
2. The Village's repetitive loss areas maps which show the properties that have filed claims for flood insurance.

The results were also converted into a graphic aerial map by spatial geo-processing the output from the InfoSWMM model & ARC GIS into AutoCAD Civil 3D format. The ponding levels or depths were then digitized to depict in different colors various depths of ponding. The depth of ponding was determined by the difference between topographical ground elevations within the Key and the ponding elevations that resulted from the modeling/simulation efforts.

The ponding depths were stratified in 6-inches increments according the tabulation below:

Ponding Level	Depth of Ponding	Color Code
1	0 – 6 inches	Blue
2	Greater than 6 inches to 12 inches	Green
3	Greater than 12 inches to 18 inches	Yellow
4	Greater than 18 inches	Red

The resulting maps for the 2015 Control Conditions are provided in Figures 4-5 through 4-8 provided on the following pages.

4.5 Identification of Problem Areas

Miami-Dade RER has established procedures and criteria to identify problem areas when H&H analyses are undertaken for watersheds. These procedures and criteria are docuemented in Part I, Volume 3, "Stormwater Planning Procedures," dated March 1995. Although, not explicitely utilized for this SWMP Implementation effort, the recommendations in RER's publication have been adapted to identifying the problem areas within the Key.

In general, the presence and severity of stormwater ponding serves as the basis for identifying the problem areas. These areas are those depicted on Figures 4-5 through 4-8 which, indicate excessive ponding depths with prolonged recovery times.

Accordingly, the completed H&H indicates that 14 major areas within the Villiage shall be included in a Capital Improvements Program (CIP). The problem areas requiring infrastructure improvements are listed as follows:

1. K-8 School Central Basin
2. K-8 School South Basin
3. West Heather Drive
4. West of the Village Green Park Area
5. Holiday Colony
6. The Gardens District
7. Ocean Lane Drive
8. Harbor Dr. Corridor
9. West wood Drive Corridor
10. Allendale Road., Warren Lane and Hampton Lane Corridors
11. West Enid Drive Corridor
12. Palmwood Drive Corridor
13. Sabal Drive Corridor
14. Curtiswood Corridor

Figure 4-9 : 2015 H&H Control Model – Problem Areas

5.0 PROPOSED "SOLUTION" H&H MODELING & ANALYSES

This section of our technical report provides a description of the methodology that the EAC team utilized to develop and evaluate measures and infrastructure improvements to enhance the Village's existing storm water management system. These improvements will be necessary to reduce repetitive loss claims and enhance the level of service / performance of VKB maintained infrastructure. In order to maximize the benefit to all residents and stakeholders within the Village, a holistic approach encompassing the evaluation of the impacts of each type of alternative on the village storm water management system as a whole was adopted. The approach allows for the Village to effect improvcements that benefit the entirety of the Village in lieu of targeting improvements to more localized areas. Furthermore, the topography of the Village is generally flat and the interdependency of the subcatchments delineated for the watershed facilitates the selected approach.

This approach involved incorporating adverse ponding mitigation infrastructure and measures within the 2015 "control" H&H model as necessary to understand and comprehend the benefits of each respective action plan. InfoSWMM, through its ArcGIS integrated environment provided a user friendly platform with the ability to readily and easily assess the effectiveness and viability these stormwater management alternatives before extensive and detailed design calculations are carried out.

The result of these analyses yielded a **two tiered approach** to enhancing the LOS throughout the village.

5.1 Tier 1 Infrastructure Improvements

Tier 1 Improvements comprise of mitigating and reducing the impacts resulting from consistent tidal flutuations. These improvements comprise of implementing a strategy to relieve the Key of high tide ponding conditions that occur predomintly on the west side of the Village. These conditions if not addressed are likely to be further excarcebated considering the effects of global warming and associated sea level rise (SLR).

The resulting effects that high tide conditions have on the village stormwater management include the following:

1. The presence of nuisance ponding on streets (travel lanes) and driveways occasionally affecting traffic flow and resulting in unnnecessary delays.
2. Salt-water intrusion into the upstream existing drainage infrastructure potentially impacting on mechanical components of the existing pumps. This may impact on the reliability and performance of pump stations and need for frequent maintenance.
3. The high tides are responsible for increased frequency of pump turn ons which ultimately the performance of the existing stations, reduces the reliability and further increases the potential need for frequent maintenance.
4. The presence of significantly corroded metal pipes is also a potential consequence of hight tides with higher salinity levels triggering the need for capital improvements to repair or replace pipe segments.
5. Gravity wells are potentially affected by the hightides often imposing a back pressure on the disposal capability consequenting in inefficient management of stormwater runoff.

EAC recommends that the Village embark on a high tide mitigation progrram that targets twenty (20) identified storm water outfalls. The improvements will also be extended to include tie in points from the Village's maintained system to Crandon Boulevard at the following locations:

- @ the intersection of Crandon Blvd & Galen Drive
- @ the intersection of Crandon Blvd & East Heather Drive
- @ the intersection of Crandon Blvd & Ocean Lane Drive

The High tide mitigation program will involve the selection of devices and ancilliary stormwater and site infrastructure improvements to facilitate their installation.

5.1.1 Alternatives for High Tide Mitigation Improvements

Several alternatives for high tide mitigation systems, measures, valves and equipment were evaluated for implementation. Several factors were considered in making a thorough asessment and determination of benefits and disadvantages associated with each of the options considered. Some of the factors considered included:

i. Installation Costs
ii. Ease of Maintenance
iii. Reliability in Saltwater Environment
iv. Ease of Installation
v. Local Availability
vi. Durability to Tidal Effects / Forces
vii. Need for Installation from the Outlet End
viii. Industry Acceptance & Reputation
ix. Fabrication Size Range
x. Familiarity with VKB Public Works staff
xi. Type of Material
xii. Duration of Construction
xiii. Ability to Operate Valve Manually During an Event
xiv. Flow Efficiency
xv. Debris Control
xvi. Suitability to Outfall Conditions

Some of the systems reviewed include:

5.1.1.1 Flap Gates

Flat Gates are systems which when at the end of a outfall pipe prevents the flow of water in the upstream direction. This is achieved through a hinged mechanism that only allows water to flow in a particular direction. Flap gates are typically made out of galvanized cast iron or stainless steel, however some rubber or plastic material types are available. Flap gates would have to be installed at the outlet end or would require installation inside structures upstream of the outfall culvert or pipe.

5.1.1.2 Inline Check Valves

Inline Check valves are systems which, when places inside a pipe, prevents the flow of water in the reverse direction upstream. These devises are made of a specialized rubber material and are unibody. The advantage of inline check valves is that they can be installed upstream of an outfall. The environmental and regulatory concerns when installing this type of systems is comparatively minimal. However, there are associated installation constraints and limitations that must be evaluated prior to use.

5.1.1.3 Outlet "Duckbill" Check Valves

Duckbilled valves when placed at outfall locations prevent the flow of water in the upstream direction by effectively closing the opening into pipe. Flow through a "duckbill" valve is always monodirectional (i.e. from upstream to downstream), as the valve remains shut otherwise. This type valve is typically made out a specialized rubber material and are also unibody. The Village has recently installed these valves and Public Works staff are familiar with it. Environmental conditions however have to be considered when they are utilized when they have to be installed on the outlet end.

5.1.1.4 Slide Gates

Slide gates are systems typically installed at outfall locations which interrupt the flow of water by essentially closing the pipe opening. These mechanical appurtenances are typically made of stainless steel and can either be operated manually or remotely. Remotely operated slide gates would require additionally considerations to be accounted for including the need fo electrical/power installations and telemetry connectivity.

5.2 Tier 2 Infrastructure Improvements

Tier 2 Improvements encompass the implementation of a stormwater capital projects plan village-wide with the objective of improving conditions currently experienced in the Key after rainfall events. These improvements are goaled at ensuring that regulatory required LOS is maintained within right of ways under the jurisdicction of the Village. These improvements involve retrofiting and rehabilitation of existing infratsructure, removal and abadonment of unreliable systems and proposing new and modern techniques of managing stormwater after precipitation events.

The capital projects conceived as part of the SWMP implementation, are capable of ensuring that storm water collection, conveyance and disposal occur in a seamless process ensuring that adverse ponding on streets are significantly minimized. The projects also consider utilizing all existing infrastructure deemed tobe in acceptable working conditions, thereby reducing capital costs and construction schedule. The improvements are also carefully developed to minimize impacting on environmental constraints associated with implementing infrastructure construction in close proximity to the Bay and other sensitive plant/marine life.

The goal of the EAC team in proposing the improvements specified for the problem areas is to ensure that necessary measures can be undertaken in an economical, environmentally safe and efficient manner.

5.2.1 Alternatives for Tier 2 Capital Improvements

Following the completion and identification the problem areas, the EAC team started to evaluate and analyse different infrastructure systems to be implemented to address the needs identified. Coastal communities, such as the Village of Key Biscayne, have a limited range of infrastructure systems that are practical due to low topography and subsurface conditions that render many other approaches ineffective.

The following improvement measures and approaches were reviewed and evaulated by the EAC team:

5.2.1.1 Conveyance Piping Upgrades

A review of the existing stormwater atlas and as-builts provided to EAC team revealed that conveyance piping improvements are needed to facilitate the flow of runoff between various locations villagewide. The improved interconnectivity will also serve to maximize disposal through drainage wells and at the outfalls. Adequately sized piping will also improve flow conditions that may be inhibited by undersize piping and or damaged (or significantly corroded) pipe segments. Adequate conveyance is a major attribute of efficient stormwater management systems and will be an important consideration in improving the performance of VKB's system. Futhermore upgrades are necessary to bring existing infrastructure up to industry standard.

5.2.1.2 Additional Outfalls

Outfalls facilitate disposal of stormwater into of surface waters. One approach considered involves the installation of additional outlet points into the Bay. Additional outlets would provide relief to existing

outfalls some of which are significantly undersized or partially damaged hindering their effectiveness. If implemented these additional outfalls would discharge directly into Biscayne Bay a State of Florida classified Outstanding Florida Water (OFW). Discharge into OFWs require increased regulatory standards. Furthermore, the feasibility of additional outfalls may be diminished especially considering the need for extensive coordination associated with acquiring easement and licensed agreements from private property owners.

5.2.1.3 New Gravity Drainage Wells

For stormwater disposal purposes drainage wells are utilized to transmit runoff directly into a subsurface non-potable aquifer where seepage or transmissivity is very low or non- existent. The design hydraulic head for gravity drainage wells is limited by the maximum allowable stage upstream of the drainage wells. In locations where the topography is low or critically low lying, the hydraulic head is further restricted because of high water table and head losses resulting from the density variance between fresh and saltwater. Gravity wells have wide spread usage through out the Village and have been an important part of the storm water management system. Provided that there are no anomalies with the structural integrity of subsurface, drainage wells will continue to be the an important method of stormwater disposal for VKB.

5.2.1.4 Redevelopment of Existing Gravity Drainage Wells

The village currently operates and maintains 29 drainage wells . These drainage wells have been in operation for a sustained period of time. Over time the hydraulic disposal capacities of wells reduce significantly. This reduction in capacity delays stormwater disposal and increases street ponding of runoff. VKB's Public Works division has in place an ongoing Drainage Well Redevelopment and Mainatenance Program that has been significantly valuable and beneficial to the stormwater management system. This program is strongly recommended to continue and existing wells where feasible should be redeveloped to increase their capacities to reduce and possibly eliminate prolonged ponding. As established in Section 4 of this report, several wells are in need of redevelopment to ensure that they are in optimum working condition and also to ascertain their disposal capabilities.

5.2.1.5 Stormwater Pump Stations and Pressurized Injection Wells

In extreme cases where the available head to facilitate disposal through gravity wells is inadequate to achieve the desired LOS, it is necessary to introduce an external source to produce the hydraulic head needed. A stormwater pump station equipped with adequately sized pumps are necessary to remove stormwater streets that cannot be otherwise drained by gravity. Because of high costs,, their use is recommended only where other systems are not feasible. They are however extremely effective when planned and designed effciently. Pump stations work in tandem with drainage wells which are manifolded to the pump outlet pipe making them "pressurized" and capable of injecting flow into the non potable aquifer at a higher head pressure.

FDEP mandated regulatory requirements limit the maximum amount of head that can be utilized in order to ensure the integrity of the subsurface. Other considerations must also be taken into account when proposing stormwater pump station including pump redundancy, electric/power requirements, land availability and sizing, salinity conditions, maintenance needs and screening conditions.

5.3 Evaluation of Deficiencies throughout Village of Key Biscayne

In proposing each improvement or combination of improvements to address deficiencies in the probelem areas, the EAC team considered several factors. These factors or indicators presumably served as the sources or causes for the adverse stormwater management concerns exhibited.

The factors considered include the following:

i. Extremely Low Topography (i.e. elevations less than or equal to 4.00 ft NAVD)
ii. Inadequate Infrastructure either due to the lack of infrastructure or presence of undersized infrastructure.
iii. Limited interconnectivity within subcatchments
iv. Proximity to Existing Outfalls
v. Available space within Right of Way
vi. Roadway or Street Crossection conditions
vii. Roadway or Street Swale definition and conditions
viii. Presence of and Spacing of Drainage collection structures
ix. Presence of Decorative Landscaping & Hardscape

Other factors considered that relate to the level, type and number of improvements proposed include:

i. Construction Costs
ii. Construction Schedule
iii. Proximity to and Interconnection with systems owned and maintained by other jurisdictions
iv. Easement Acquisition and or License Agreements
v. Permitting Requirements
vi. Environmental Impacts
vii. VKB Public Works Familiarity & Maintenance Needs
viii. Impacts to homeswith building pads below FEMA Flood Criteria

5.4 Tier 1 Improvements H&H Model

The 2015 Control H&H model was updated to incorporate backflow prevention at the twenty locations previously described. To compensate for the effects of the backflow systems, additional head losses were coded at the outfalls and at tie-ins to the Crandon Boulevard system. These new components and conditions to the stormwater management system model introduced new instabilities to the model. These instabilities were primarily due to the interaction of these new components on the rest of the system. The EAC team's approach to resolving these instabilities by modifying the following simulation parameters in the Model Scenario Manager:

- Time Step for Conduit Lengthening (sec) = 7
- Safety Factor (%) = (varies)
- Inertial Terms = Ignore

These modifications were implemented in consultation with service representatives from Innovyze©. The objective of reducing continuity errors and improving model stability was to ensure performance level of consistency for comparison purposes between 2015 H&H Control Model and the 2015 Tier 1 Model when analyzing and evaluating the improvements to LOS for the different precipitation events. Through this procedure the following acceptable comparisons were achieved:

Storm event	Continuity Error	
	2015 H&H Control Model	2015 Tier 1 Model
5-yr – 24 hour	-0.945%	-0.607%
10-yr - 24 hour	0.585%	1.025%
25-yr - 72 hour	-0.680%	-0.930%
100-yr – 72 hour	-0.214%	1.643%

Further refinements in the model input parameters did not yield any marked improvements in the continuity error documented in the model results.

5.4.1 Assumptions & Considerations for Tier 1 Improvements Model

The development of the Tier 1Model required additional assumptions and important considerations as follows:

1. The backflow prevention systems will be installed at every outfall location in accordance with the High Mitigation Improvements program previously described. Although due to field conditions, it may be infeasible to install the systems within or on the outfall culvert/pipe, the systems will be installed within the upstream drainage structure preceding the each respective outfall. Careful field engineering decisions will have to be taken to ensure the installation complies with the conditions coded within the Tier 1 H&H model.

2. There is no groundwater infiltration into the stormwater system. This model assumes that the effect of groundwater infiltrating into the stormwater system via pipe openings or through drainage wells backflow is negligible

5.4.2 Tier 1 Model Results

Once the model refinements and updates were completed, the EAC team proceeded to simulating the performance of the Village's infrastructure for the following events:

1. 5 year -72 hour rainfal event
2. 10 year-72 hour rainfal event
3. 25 year- 72 hour rainfal event
4. 100 year-72 hour rainfal event.

The results for from this analysis effort were then compared to the established LOS criteria as well as results from the H&H analyses for the 2015 Control conditions.

The results were also converted into a graphic aerial map by spatial geoprocessing the output from the InfoSWMM model & ARC GIS into AutoCAD Civil 3D format. The ponding levels or depths were then digitized to depict in different colors various depths of ponding. The depth of ponding was determined as the difference between topographical ground elevations within the Key and the ponding elevations resulting from the modeling/simulation efforts.

The ponding depths were stratified in 6-inches increments according the tabulation below:

Ponding Level	Depth of Ponding	Color Code
1	0 – 6 inches	Blue
2	Greater than 6 inches to 12 inches	Green
3	Greater than 12 inches to 18 inches	Yellow
4	Greater than 18 inches	Red

Figures 5-1 through 5-4 illustrate results obtained from the analyses.

5.5 Tier 2 Improvements H&H Model

The Tier 1 Improvements model was updated with capital improvement measures and systems. The task of updating Tier 1 Model to the Tier 2 Model involved the implementation of a combination of the infrastructure types previously described with the objective of achieving the LOS established as an indicator of acceptable performance. In general, the methodology followed in proposing improvements was:

1. Redevelopment of existing wells if present within problem area
2. Retrofit of existing stormwater pump station if present within problem area
3. Provide system adequate interconnectivity between sub-catchments.
4. Upgrading of Existing Infrastructure – For this step the model inputs and outputs were analyzed to determine whether or not continuing upgrade the existing infrastructure had the desired effect.
5. Introduction of additional drainage wells– For this step, the model inputs and outputs were analyzed to determine whether or not adding more drainage wells were feasible
6. Introduction of new stormwater Pump stations
7. Upgrade Gravity Wells to Pressurized Injection Wells
8. Provide New Pressurized Injection Wells.
9. Evaluate futher need for Outfall Improvements and/or Additions

The new components and conditions to the stormwater management system model introduced new instabilities to the model. These instabilities were primarily due to the interaction of these new components on the rest of the system. The EAC team's approach to resolving these instabilities by modifying the following simulation parameters in the Model Scenario Manager:

- Time Step for Conduit Lengthening (sec) = 7
- Safety Factor (%) = (varies)
- Inertial Terms = Ignore

The objective of reducing continuity errors and improving model stability was to ensure performance level of consistency for comparison purposes between 2015 Control Model 2015, Tier 1 Model and the 2015 Tier 2 Model when analyzing and evaluating the improvements to LOS for the different precipitation events. Through this procedure the following acceptable comparisons were achieved:

Storm event	Continuity Error		
	2015 H&H Control Model	2015 Tier 1 Model	2015 Tier 2 Model
5-yr – 24 hour	-0.945%	-0.607%	-0.607%
10-yr - 24 hour	0.585%	1.025%	1.025%
25-yr - 72 hour	-0.680%	-0.930%	-0.930%
100-yr – 72 hour	-0.214%	1.643%	1.643%

Further refinements in the model input parameters did not yield any marked improvements in the continuity error documented in the model results.

5.5.1 Assumptions & Considerations for Tier 2 Improvements Model

The development of the Tier 2 Model required additional assumptions and important considerations as follows:

1. The backflow prevention systems outlined in the Tier 1 Improvements will be installed at every outfall location in accordance with the High Mitigation Improvements program as previously described. Careful field engineering decisions will have to be taken to ensure the installation complies with the conditions coded within the Tier 1 H&H model.
2. There is no groundwater infiltration into the stormwater system. This model assumes that the effect of groundwater infiltrating into the stormwater system via pipe openings or through drainage wells backflow is negligible
3. Future redevelopment within the village will not significantly impact runoff. Therefore, the proposed runoff coefficients for each sub-catchment will remain the same as the existing conditions.
4. All new and redeveloped drainage wells are coded with 850 GMP/ft-head capacity, to account for a long term utilization rate.
5. Available right-of-way from detention/retention system is not existent and acquisition of more right-of-way will remain infeasible due high land costs.
6. The material for all new stormwater pipes will have with a manning's coefficient 'n' = 0.0120.
7. All new and retrofitted pumps will exhibit a maximum capacity of 22 cfs.
8. All new and retroffited pumps will have stainless steel and corrossion proof components.
9. No collection system improvements are proposed due to the EAc team's understanding that the collection infrastructure are in good operating and maintained conditions and spot repairs or rehabilitation will performed under maintenance operations by VKB Public Works Division.

5.5.2 Tier 2 Model Results

Once the model refinements and updates were completed, the EAC team proceeded to simulating the performance of the Village's infrastructure for the following events:

1. 5 year -72 hour rainfal event
2. 10 year-72 hour rainfal event
3. 25 year- 72 hour rainfal event
4. 100 year-72 hour rainfal event.

The results were also converted into a graphic aerial map by spatial geoprocessing the output from the InfoSWMM model & ARC GIS into AutoCAD Civil 3D format. The ponding levels or depths were then digitized to depict in different colors various depths of ponding. The ponding depths were stratified in 6-inches increments according the tabulation below:

Ponding Level	Depth of Ponding	Color Code
1	0 – 6 inches	Blue
2	Greater than 6 inches to 12 inches	Green
3	Greater than 12 inches to 18 inches	Yellow
4	Greater than 18 inches	Red

5.6 Capital Projects

To address the LOS deficiencies in the 14 identified problem areas infrastructure improvements must be design, permitted and constructed in accordance with a VKB established Stormwater CIP program. Some of the improvements proposed will require coordination with residents and stakeholders located with the respective street corridors that require the improvements. The coordination with residents is recommended to occur during the design phase as well as during the construction.

The following specific improvements are proposed based on the H&H analyses process that was performed:

5.6.1 Area 1 - K-8 School Central Basin

The total area is 28.94 acres. This area is centered around the Key Biscayne K-8 Center. This area runs along Ridgewood Drive, Woodcrest Drive and Glenridge Drive starting north of Westwood Drive and ending south of West Heather Drive. It also includes portion of Fernwood Drive. The design proposes includes (1) stormwater drainage improvements to the conveyance system along Ridgewood Road, (2)Woodcrest Road, (3) Glenridge Road, (4)Fernwood Road, (5) West McIntyre Street and (6) West Enid Drive. The design also proposes (6) the redevelopment of two drainage wells and (7) the addition of six gravity drainage wells.

Estimated Number of Households Within Area:
124

Estimate of Probable Cost / Cost per Household:
$2,310,000 / $19,000

5.6.2 Area 2 - K-8 School South Basin

The total area is 26.04 acres and it is located south the Key Biscayne K-8 Center. This area runs along Ridgewood Drive, Woodcrest Drive and Glenridge Drive starting at West Masha Drive and ending south of West Enid Drive. The design proposes includes (1) stormwater drainage improvements to the conveyance system along Ridgewood Road, (2)Woodcrest Road, (3) Glenridge Road, (4)Fernwood Road, (5) West Mashta Drive and (6) West Enid Drive. The design also proposes (6) the redevelopment of two drainage wells and (7) the addition of five gravity drainage wells.

Estimated Number of Households Area:
10

Estimate of Probable Cost / Cost per Household:
$$2,080,000 / $21,000

5.6.3 Area 3 - West Heather Dr. Corridor

The total area is 20.27 and is located to the west of the village. It runs along West Heather Drive and includes portions of Allendale Road, Warren Lane and Hampton Lane.The design proposes includes (1) stormwater drainage improvements to the conveyance system along West Heather Drive, (2)Allendale Road, (3)Warren Lane and (4)Hampton Lane. The design also proposes (5) the redevelopment of one drainage wells and (6) the addition of seven gravity drainage wells.

Estimated Number of Households Area:
124

Estimate of Probable Cost / Cost per Household:
$1,930,000 / $16,000

5.6.4 Area 4 - Village Green Park

The total area is 29.94 acres and it is located just west of the Village Green Park. It runs along Ridgewood Road, Woodcrest Road, Glenridge Road and Fernwood Road starting north of West McIntyre Street end ending south of Hampton Lane and Woodcrest Lane.The design proposes includes (1) stormwater drainage improvements to the conveyance system along Ridgewood Road, (2)Woodcrest Road, (3) Glenridge Road, (4)Fernwood Road and (5) West Heather Drive. The design also proposes (6) the redevelopment of one drainage well and (7) the addition of six gravity drainage wells.

Estimated Number of Households Within Area:
151

Estimate of Probable Cost / Cost per Household:
$1,810,000 / $12,000

5.6.5 Area 5 - Holiday Colony

This area is approximately 24.41 acres and is located east of the village, to the right of Crandon Boulevard. It is composed entirely of the Holiday Colony area.The design proposes includes (1) stormwater drainage improvements to the conveyance system along East Heather Drive (2) the redevelopment of two gravity drainage wells and (3) the retrofit of the existing stormwater pump.

Estimated Number of Households Area:
55

Estimate of Probable Cost / Cost per Household:
$1,290,000 / $24,000

5.6.6 Area 6 - The Gardens District

This area is approximately 37.66 acres and it is located east of the village, to the right of Crandon Boulevard. It is composed entirely of the area knows at the Gardens District. The design proposes includes (1) stormwater drainage improvements to the conveyance system along East Enid Drive, (2)Sunrise Drive, (3) Galen Drive and (4) Ocean Lane. The design also proposes (5) the redevelopment of four drainage wells, (8) the addition on stormwater pump station with (9) three injection wells..

Estimated Number of Households Area:
1,500+

Estimate of Probable Cost / Cost per Household:
$2,930,000 / $2,000

5.6.7 Area 7 - Ocean Lane Drive

This area approximately 14.32 acres and is located to the north of the village and to left of Crandon Boulevard. It is composed of entirely of Ocean Lane Drive, from its start at the intersection of Crandon Boulevard and Ocean Lane Drive all the way to the entrance to the Island House Apartments. The proposed design includes (1) improvements to the stormwater conveyance system along Ocean Lane (2) redevelopment of the existing injection wells and (3) the retrofit of an existing pump station.

Estimated Number of Households Area:
1,099

Estimate of Probable Cost / Cost per Household:
$1,390,000/ $2,000

5.6.8 Area 8 - Harbor Drive Corridor

This area is approximately 13.18 acres. It is located west of the village along Harbor Drive starting at West McIntyre Street and ending just north of Westwood Drive. It also includes Harbor Lane and Sunset Circle.The proposed design includes (1) improvements to the stormwater conveyance system along Harbor Drive (2) redevelopment of three gravity drainage wells and (3) the installation of four additional gravity drainage wells.

Estimated Number of Households Within Area:
54

Estimate of Probable Cost / Cost per Household:
$760,000 / $15,000

5.6.9 Area 9 - Westwood Drive Corridor

This area is approximately 13.18 acres. It is located to the south west of the village Westwood Drive starting at just west of Ridgewood Road and ending at Harbor Drive. It also includes portions of Hampton Lane, Warren Lane, Allendale Road, Curtiswood Drive and Myrtlewood Lane. The proposed design includes (1) improvements to the stormwater conveyance system along Westwood Drive, (2) Hampton Lane, (3) Warren Lane, (4) Allendale Road, and (5) Harbor Drive. The design also proposes (6) redevelopment of two gravity drainage wells and (7) the installation of eleven additional gravity drainage wells.

Estimated Number of Households Area:
92

Estimate of Probable Cost / Cost per Household:
$1,820,000 / $20,000

5.6.10 Area 10 - Allendale Rd, Warren Ln and Hampton Ln Corridors

This area is approximately 13.01 acres and it is located just west of the Key Biscayne K-8 Center. The area runs long West McIntyre Street starting just west of Ridgewood Road and ending at Satinwood Road. It also includes portions of Hampton Lane, Warren Lane and Allendale Road.The proposed design includes (1) improvements to the stormwater conveyance system along West McIntyre Street, (2) Hampton Lane, (3) Warren Lane, (4) Allendale Road, and (5) Satinwood Road. The design also proposes (6) redevelopment of one gravity drainage well and (7) the installation of ten additional gravity drainage wells.

Estimated Number of Households Area:
106

Estimate of Probable Cost / Cost per Household:
$1,760,000 / $17,000

5.6.11 Area 11 - West Enid Drive Corridor

This area is approximately 8.31 acres and it is located just west of the Key Biscayne K-8 Center. The area runs long West Enid Drive starting just west of Ridgewood Road and ending at Satinwood Road. It also includes portions of Hampton Lane, Warren Lane and Allendale Road. The proposed design includes (1) improvements to the stormwater conveyance system along West Enid Drive, (2) Hampton Lane, (3) Warren Lane, (4) Allendale Road, and (5) Satinwood Road. The design also proposes (6) redevelopment of one gravity drainage well and (7) the installation of seven additional gravity drainage wells.

5.7 Methodology for Prioritization and Ranking of Capital Projects

In light of the funding constraints and to efficiently organize and implement the proposed capital improvements the EAC team has developed an objective ranking methodology to assist the village in the prioritization and allocation of funds. The ranking methodology takes into consideration the following variables.

1. Presence of and/or Proximity to Public Use Facility
2. Depth and Extent of Ponding
3. Susceptibility to Ponding
4. Estimated Cost of Improvements
5. Presence and Extent of Existing Functional Infrastructure
6. Proximity to Functioning Outfall
7. Repetitive Loss Claim / Historical Flooding

Weights are assigned to variables in order of importance to the Village and each of the projects is ranked according to each variable on an ordinal basis. Since there are fourteen (14) projects proposed, the highest ranked project for each variable scores ***14 points*** and the lowest ranked project scores ***1 point***. When the variables are assigned a weight factor, the raw points are multiplied by the the weight factor. In the event of a tie, the next ordinal rank(s) are skipped based on the quantity of ties, i.e. Project A, Project B and Project C are ranked at 12, then the next ranked project is at 9.

Once all the variables are reviewed for all the projects the total allocated points for each project is determined and the ranking or prioritization determined in order of total points for each project. A brief discussion of the variables is provided as follows:

5.7.1 Presence of and/or Proximity to Public Use Facility

Public Use facilities are large traffic generators and should be operable and accessible after reainfall events. Several public use facilities are located within the Key including the K-8 Center, the Fire Station, the Village Green Park and the Village Hall.

5.7.2 Depth and Extent of Ponding

Based on the ponding depths and coverage of ponding as illustrated in Figures 5-5 through 5-8, deeper ponding depths and wider coverages receive a higher points.

5.7.3 Susceptibility to Ponding

Low laying topography areas are susceptible to ponding. The problem areas are ranked in order of exposure to this susceptibility, with points assigned based on how low each problem area's ground elevations are.

5.7.4 Estimated Cost of Improvements

Based on the number of households within a problem area, cost ratio per household is determined based on the estimated cost. Point are allocated based on the lowest cost ratio being the highest prefereed project.

5.7.5 Presence and Extent of Existing Functional Infrastructure

Problem areas with minimal or no existing infrastructure or those with impaired or undersized oinfrastructure reeive a higher ranking than those with currently functioning systems.

5.7.6 Proximity to Functioning Outfall

Problem Areas with no connections to outfalls or further away from outfall locations receive a higher ranking

5.7.7 Repetitive Loss Claims

Areas with repetitive loss claims are ranked higher than those that have no repetitive loss claims.

5.8 Final Ranking Tabulation

Area ID	Name	Presence of and/or Proximity to Public Facility		Depth and Extent of Stages		Susceptibility to Ponding		Estimated Cost of Improvements		Presence and Extent of Existing Functional Infrastructure		Proximity to Functioning Outfall		Repetitive Loss Claims/Historical Flooding		TOTAL	RANKING

6.0 GREEN INFRASTRUCTURE

This section provides a summary of the green infrastructure components, a discussion on the overall environmental benefits of Green Infrastructure (GI) implementation in the stormwater improvements. The narrative provides guidance for future stormwater improvements which will aim at increasing the required storage volume of stormwater on site and accomplishing minimized stormwater discharge through appropriate implementation of GI components. It is anticipated that proposed GI will increase aquifer recharge and enhance water quality treatment, while potentially reducing the conveyance costs by reducing the runoff rates. Additional optimization of the thoroughfare components (pavement, sidewalks, on-street parking) will include gradual implementation of pervious materials where possible.

The implementation of improvements should be able to utilize GI components for stormwater management. The objective of implementation of GI are three fold as follows:

i. Minimize the impervious infrastructure
ii. Increase the surface of pervious areas
iii. Reduce the overall costs of stormwater systems.

6.1 Introduction to Green Infrastructure

Typically, conventional stormwater systems capture the runoff in pipes and culverts route it downstream in the fastest way. The conventional stormwater management system also requires initial storage of the runoff with corresponding storage tanks. In addition to disturbing the natural hydrological cycle, the conventional systems increase the overall costs of site development.

Watersheds contain the human habitat and preservation of the services provided by the watersheds, including water quality and quantity; biodiversity and assimilative capacity are essential for sustainability. The continuous expansion of the infrastructure of human society increases the stress and impacts the natural, sustainable conditions of the watersheds. Minimization of the impact of built environment is critical for maintaining the ecological balance and biodiversity of ecosystems within a watershed. Since watersheds contain the human habitat, the preservation of services (water quality and quantity, biodiversity and assimilative capacity) are essential for sustainability.

Green infrastructure includes strategies for storing the stormwater runoff within each block on site, or route it to a system of centrally located lakes, which reduces the volumes which are discharged off-site. The replacement of impervious with semipervious areas reduce the stormwater run-off during rainfall events which results in reduced peak amplitude and volume of runoff, and increased aquifer recharge. Conversion of green areas to natural preserves and detention areas will increase the local storage and treatment of stormwater. The principles of GI, which will be considered and implemented in this project, offer strategies for minimization of the overall impact of built environment. The tools of Green Infrastructure integrate urban and engineering practices to offer a sustainable framework for development on regional, neighborhood and block scales and to support sustained growth while preserving natural resources; protect biodiversity; reduce pollution and reduce consumption of two resources: energy and land.

Green Infrastructure tools ensure sustainability of watersheds on regional, neighborhood and block levels and prevent disruption and damage in urban/suburban areas, loss of biodiversity, and ecosystem changes. These tools are calibrated with strategies of prioritizing compact and mixed use urban patterns, increased density and walkable urban areas, energy and environmental sustainability. Thus, GI naturally accommodates a broader range of development standards necessary for community-oriented design. The development which uses GI strategies provides better environmental performance in comparison to conventional planning practices which lack connectivity. The main effects of GI applications include enhanced watershed protection, which are accomplished by employing environmental and sustainability concepts to minimize the effects of the impervious surfaces. The proposed GI strategies promote

numerous environmental qualities characteristic and include technologies for preserving the natural hydrological cycle including pervious pavements, light infrastructure, natural drainage, gravel swales and very light infrastructure with reduced amounts of curbs. Furthermore, reduced maintenance is accomplished by using xeriscape and reducing the irrigation, elimination of the pesticides and pollution.

Stormwater quality control measures that incorporate GI principles are placed throughout the site in small, discrete units and distributed near the source of impacts. Green Infrastructure strategies are designed to protect surface and groundwater quality, maintain the integrity of ecosystems, and preserve the physical integrity of receiving waters by managing stormwater runoff at or close to the source. The purpose of Green Infrastructure is to reduce and/or eliminate the altered areas of the post-development hydrograph, by reducing the peak discharge rate, volume, and duration of flow through the use of site design and stormwater quality measures. The benefits of reduced stormwater runoff volume include reduced pollutant loadings and increased groundwater recharge and evapotranspiration rates.

6.2 Green Infrastructure Applications

Increasing the storage and infiltration capacity of soil are the two major aspects of GI applications. On local scale (parcel, block) two main components can be used:

- Stormwater retainage trees and plantings can be implemented to retain certain volume of water during rainfall.
- Rain gardens can be incorporated within the right of way to provide additional storage. For urban settings, rain gardens can be developed using shallow retaining walls. For more rural settings (individual parcels), rain gardens can be implemented as shallow swales planted with native vegetation.

On a larger scale, additional GI components which can be used for stormwater management include natural preserves, lakes, detention ponds and other larger facilities which are mostly implemented out of the right-of-way. In general, GI strategies are designed to use of bioretention/infiltration landscape areas, disconnected hydrologic flow paths, reduced impervious areas, functional landscaping, and grading to maintain natural hydrologic functions that existed prior to development, such as interception, shallow surface storage, infiltration, evapotranspiration, and groundwater recharge. By implementing GI strategies, a project site can be designed to be an integral part of the environment by maintaining undeveloped hydrologic functions through the use of stormwater quality control and storage measures.

Historically, stormwater management systems consist of a network of impervious surfaces that directly convey stormwater runoff to curb and gutter systems, the storm drain conveyance system, and downstream receiving waters. Until recently, conventional storm drain and flood control systems were designed to convey stormwater away from developed areas as quickly as possible to manage the risk of floods for homes and development. In the recent years, GI strategies have been developed for better management of stormwater by increasing the distributed storage within the site to retain and treat fraction of the water on site.

The implementation GI strategies as part of the design improvements for the Village's SWMP implementation is strongly recommended. The benefits encompasses developing a more hydraulically-functional watershed for the Village, helping to maximize the effectiveness of on-site retention, and reducing the adverse effects of street ponding.

6.3 Implementing Green Infrastructure in Stormwater Infrastructure Projects

Green Infrastructure strategies are recommended to be implemented with stormwater improvement projects proposed. They should be implemented on as need and availability basis in accordance with

resultant efficiency and overall environmental effect. For the implementation of GI, the following analytical steps are required:

1. *Topography and Grading*: Topography and grading are important factors to ensure that the distributed storage components provide the storm water storage. The volume of the stormwater which the green components will retain is defined by the topography and geometric configuration.
2. *Soils and Hydraulic Conductivity*: Hydraulic conductivity of the soil layer defines the infiltration rate and the fraction of subsurface storage that will be available during intense rainfall events. Permeability testing at the Village of Key Biscayne site, identified low infiltration rates which indicates that storage in detention areas or lakes would be more appropriate than using dry retention or natural preserves (which rely on high infiltration rates to disperse the accumulated water). Previously collected data shows that the silty soils in the Village occur as deep as 25 feet below ground and the percolation rate of the soil is only 0.0001 cubic feet per second (per square foot per foot of head), which is very slow. This is equivalent to 8.64 ft/day.
3. *Groundwater:* In general, the Village has high groundwater table that may preclude infiltration since there is less than 10 feet of separation between the infiltration surface and the seasonal high groundwater or mounded groundwater level.
4. *Catchments:* The surface drainage patterns were determined from the LiDARr topography. For each stormwater improvement action, the effect of including GI components were analyzed on a catchment scale. During specific design projects all opportunities should be explored to incorporate GI.
5. *Reduce Impervious Surfaces:* Minimizing impervious area will reduce the stormwater runoff coefficient, which is directly proportional to the volume of stormwater runoff that must be retained on-site. Pollutants deposited on impervious areas are easily mobilized and transported by stormwater runoff. Minimizing impervious area is an important method to reducing the pollutant load in stormwater runoff. The following strategies for minimizing impervious areas are recommended:
    - Using the minimum allowable roadway and sidewalk cross sections, driveway lengths, and parking stall sizes.
    - Reducing new building and parking lot footprints. Building footprints may be additionally reduced by building taller.
    - Utilizing pervious pavement material, such as modular paving blocks, turf blocks, porous concrete and asphalt, brick, and gravel or cobble.
    - Maximizing tree preservation or tree planting.
    - Utilizing vegetated swales to convey stormwater runoff instead of paved gutters.

6.4 Summary of Recommendations

The VKB SWMP implantation initiative will be able to utilize to a great extent Green Infrastructure components for stormwater management. The objectives of implementation of GI are two-fold:

i. Minimize the impervious infrastructure by increasing the surface of pervious areas.
ii. Reducing the overall costs by requiring less stormwater infrastructure systems.

Proposed GI will increase aquifer recharge and enhance water quality treatment, while potentially reducing the conveyance costs by reducing the runoff rates. Additional optimization of the thoroughfare elements will include gradual implementation of pervious materials where possible. Typically, conventional stormwater systems capture the runoff in pipes and culverts route it downstream in the fastest way often disturbing the natural hydrological cycle.

GI offers a responsible and environmentally safe approach to managing storm water systems while also maintaining its reliability over prolonged periods of time.

7.0 CAPITAL IMPROVEMENTS PLAN (CIP)

This section of the technical report provides a recommended approach to the Village in implementing its stormwater infrastructure as described in previous sections.

7.1 Tiered Approach

In light of funding constraints, the EAC team had discussions with the Village staff on developing a practical approach to embarking on the needed improvements within the Key. Implementing a tiered and phased approach to implementing the infrastructure construction, provides the Village with the flexibility to address the identified issues and locations on an immediate basis. This will attain a gradual and steady reduction towards the elimination of stormwater management issues. EAC recommends this phased implementation program to address the identified LOS deficiencies within the Key to commence as funding becomes available.

Accordingly, EAC is proposing two tiers of improvements:

7.1.1 Tier 1 – High Tide Mitigation Program

The Key is low lying and is very much susceptible to the adverse effects of tidal fluctuations in Biscayne Bay. According to the National Oceanic and Atmospheric Administration (NOAA), tides are one of the most reliable phenomena in the world because our ocean waters regularly rise and fall along shores. Tides are very long-period waves created in response to the forces exerted by the moon and sun. These originate in the oceans and present themselves along our nation's coastlines as they manifest as the visual rise and fall of the sea surface. Although this phenomena is a glamorous feature of the environmental, its impacts documented over the years has been adverse in several instances.

VKB's low lying topography and geographic proximity to the bay renders it to the immediate effects of this natural phenomena. Through this course of the assessments undertaken for the SWMP implementation supported by past records, VKB frequently witnesses "ponding" conditions from the horizontal movement of water which often accompanies tidal fluctuations. Even in the absence of rainfall events, there are several locations within the Key that exhibit accumulation of water on the roadways and driveways.

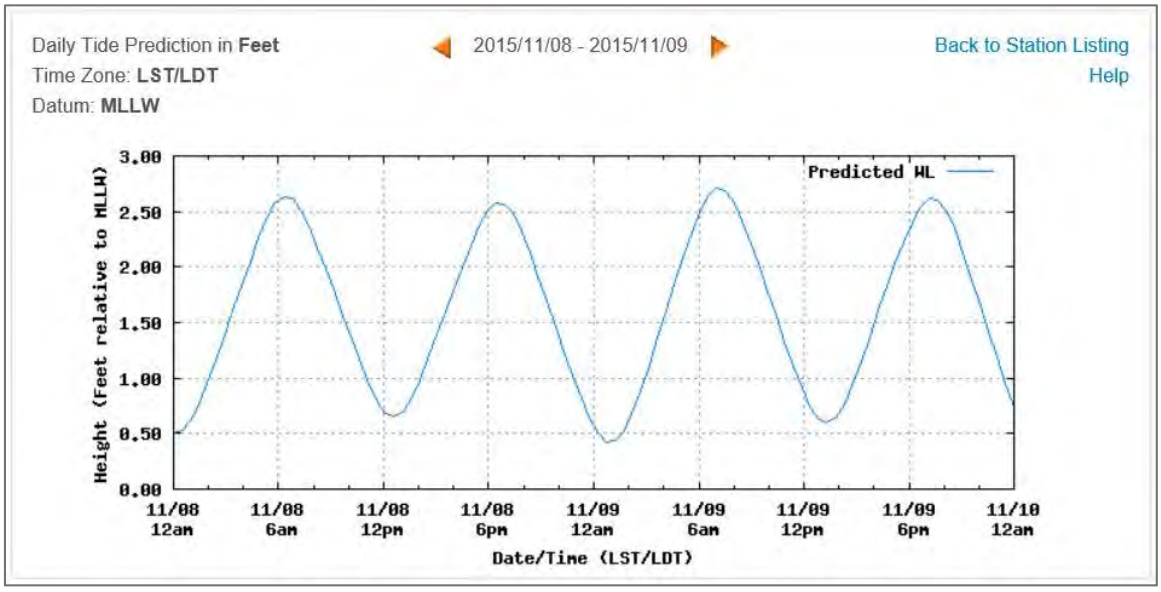

Figure 7-1: Daily High Tide Fluctuation Predication
(Source: http://tidesandcurrents.noaa.gov/tide_predictions.html)

The Tier 1 improvements (also referred to as the High Tide Mitigation Improvements) will involve proposing carefully engineered systems to prevent and/or reduce staging that results from high tides. The high tide mitigation infrastructure will be proposed at twenty (20) identified locations summarized below:

Location	Description	Location	Description
1	Outfall No. 1 – 151 Cape Florida Dr	11	Outfall No. 11 - 700 Harbor Dr.
2	Outfall No. 2 – 103 Cape Florida Dr.	12	Outfall No. 12 – 645 Sunset Circle
3	Outfall No. 3A – 105 Knollwood Dr.	13	Outfall No. 13 – 10 Harbor Point
	Outfall No. 3B – 90 Knollwood Dr.	14	Outfall No. 14 – 460 W. Matheson Dr.
4	Outfall No. 4 – 250 Knollwood Dr.	15	Outfall No. 15 – 540 Harbor Dr.
5	Outfall No. 5 – 950 Harbor Dr.	16	Outfall No. 17–Harbor Dr. (Yatch Club)
6	Outfall No. 6 – 377 W. Mashta Dr.	17	Crandon South 1 (Pines Canal)
7	Outfall No. 7 – 403 W. Mashta Dr.	18	Crandon Blvd / Galen Dr. Intersection
8	Outfall No. 8 – 862 Mariner Dr.	19	Crandon Blvd / E. Heather Dr. Intersection
9	Outfall No. 9 – 631 N. Mashta Dr.	20	Crandon Blvd / Ocean Lane Dr. Intersection
10	Outfall No. 10 – 731 N. Mashta Dr.		

Tier 1 Improvements will focus immediately on these **twenty (20) locations** and shall include implementing a program of installing ground water levels/flow monitoring devices at up to five (5) selected locations within the Village. Continuous surface and groundwater monitoring is proposed to provide information which will be used to better understand the hydrology of VKB in terms of surface and groundwater levels and salt water intrusion. The information which will be obtained from the surface and groundwater monitoring effort will provide long term data which will be used to determine the water level trends within the Key.

7.1.2 Tier 2 – Infrastructure Improvements Program

According to the severity of street staging and ponding depths as well as the levels to which the established LOS standards are not being met, infrastructure improvements comprising of varying measures are proposed as part of the SWMP implementation plan. The improvements proposed are targeted mainly at the conveyance and onsite disposal systems that will provide the needed mitigation to adverse existing conditions. Specific improvements to the collection infrastructure and outfalls are not proposed under Tier 2 due to the EAC team's understanding that those are in significantly better conditions due to VKB's Public Works Department's attentive and responsive maintenance activities. Localized improvements when needed at collection structures will be repaired and/or rectified through the Public Works routine operations program.

7.1.2.1 Conveyance Improvements

Conveyance improvements consist of recommendations made to upgrade existing mainline piping to facilitate both storage and pipe flow regimes throughout the Key. Undersized pipe create bottle necks in the system resulting in inefficient stormwater management and upstream ponding. Pipe size upgrades were recommended within each of the 14 identified improvement areas described in Section 4 and 5 of this report. Included in these improvements is the incorporation of maintenance access structures at predetermined offsets along the alignment of the proposed conveyance mainline improvements.

Control structures are also proposed at strategic locations system-wide to help facilitate the onsite disposal where necessary.

The pipe upgrades recommended consists of 24-inch diameter, 30-inch diameter and 36-inch diameter storm drain pipes. The maintenance structures shall be minimum 48-inch internal diameter or 48-inch square.

7.1.2.2 Disposal Improvements

For stormwater management purposes, drainage wells are proposed to transmit surface water directly into a subsurface non-potable aquifer. Drainage wells are infrastructure utilized to dispose of storm runoff where seepage or transmissivity is very low or non-existent. They are typically utilized and effective east of the Miami-Dade County established "Saltwater Intrusion Line (1000mg/l chloride line)". FDEP and Miami-Dade RER (formerly DERM) maintain jurisdiction over the installation of wells in Miami-Dade County and their regulatory requirements govern the design, permitting, installation and maintenance.

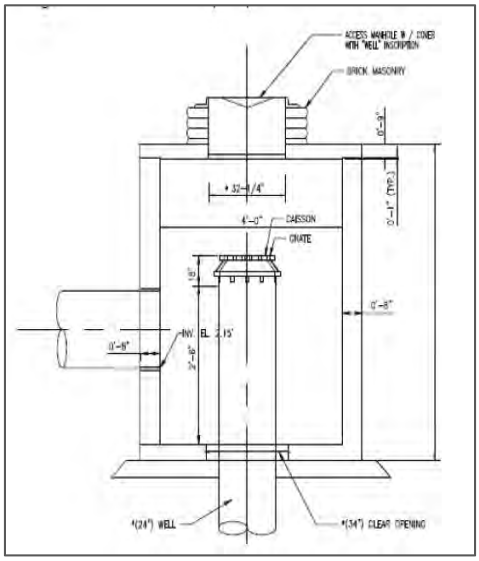

Figure 7-2: Drainage Well Schematic

The design of drainage wells requires hydrologic analyses and determination of the design peak runoff rate of discharge from the project area. In the absence anomalies with the structural integrity of existing infrastructure, the analyses of existing wells will follow the regimen of what would be required for new designs as the analyses. This involves evaluating the catchment area and determining the sufficiency of the existing infrastructure to satisfy prevailing criteria. As part of the implementation of improvements for the VKB SWMP, several existing wells within the Key have been proposed for redevelopment due to their age and long term usage. Drainage well redevelopment is an economical approach to reestablishing disposal capability within existing infrastructure avoiding the need for replacement.

In addition to re-utilizing existing wells either to remain operation or via redevelopment efforts, new gravity based drainage wells are proposed to augment the existing conditions. The new gravity wells will increase the disposal rates currently achieved and will be important in reducing the excess ponding and staging resulting from precipitation. Prior to implementing the design and construction of new wells, a reasonable assurance procedure must be engaged to ensure that the wells are disposing into a non-potable aquifer meeting the thresholds established by FDEP for total dissolved solids (TDS).

7.1.2.3 Pump Stations

The design hydraulic head for gravity drainage wells is limited by the maximum allowable stage upstream of the drainage wells. In locations where the topography is low lying such as in VKB, this hydraulic head is further restricted because of the minimal vertical separation available between the ground elevations and the groundwater table. Factoring system losses, the hydraulic head to facilitate disposal injection becomes significantly reduced. In this instance, it is necessary to introduce an external source to produce the hydraulic head to function. A stormwater pump station equipped with adequately sized pump equipment is utilized for this purpose.

The evaluations conducted recommend pump stations at various locations throughout the Key. Presently the Village owns and maintains two pump stations that are being recommended to be retrofitted from the current above ground pump configuration to a submersible system.

To assure the integrity of the subsurface, FDEP mandates a maximum head at the pumps header at no more than 8.00-foot NGVD29. The design of the stormwater pump station must include this limiting head condition and then evaluated using standard design methods for pump sizing and selection. Various factors that are considered in the pump station calculations include pumps redundancy, electric/power requirements, location, salinity conditions, maintenance needs and screening of solids within the stormwater flow stream.

Complementing the use of pump stations will be the installation of injection wells. Injection wells are "pressurized" wells dispose of storm runoff via injection based on a developed hydraulic head originating from a hydraulic pump system. The design considerations are similar to the gravity wells with the exception of system head being derived based on the pump station characteristics. Several injection wells are recommended for installation throughout the Key.

7.2 Cost Estimates

Budget-level cost estimates were prepared for both the Tier 1 and Tier 2 Infrastructure Improvements as recommended. Costs for furnish and installation inclusive of labor and materials were based on unit pricing data from several sources, including recent Village of Key Biscayne bids, where applicable, FDOT Item Average Unit Costs, and the EAC team's proprietary unit cost records.

To reflect a more representative cost of implementing the improvements, incidental items were added to the breakdown of expenditures. These incidental items include:

1. Incidental Roadway Restoration Costs
2. Incidental Repair to Existing Infrastructure - 25% of probable direct construction cost
3. Mobilization– 8% of probable direct construction cost
4. Insurance & General Conditions - 5% of probable direct construction cost
5. Maintenance of Traffic (MOT) – 5% to10% of probable direct construction cost
6. Permits / Fees - 3% of probable direct construction cost
7. Construction Contingency – 10% to 15% overall costs
8. Engineering Design & Construction Administration Costs – 12% to 15% overall costs
9. CEI Oversight – 10% to 12% overall costs

Based on the cost estimating effort, the projected costs for Capital Improvements based on Year 2015 Dollars is summarized as follows;

Description	Estimated Costs
Tier 1 Infrastructure Improvements	$ 845,519
Tier 2 Infrastructure Improvements	$ 24,018,795
Total Costs	**$ 24, 864,314**

The following pages provide specific cost breakdowns as estimated to accomplish the improvements proposed.

7.5 Project Phasing

Following the ranking methodology and analyses utilized in Section 5 of this report, EAC recommends that the Village implements a phased implementation of Tier 2 corresponding with the priorities established as well as funding availability. It is imperative for the Village to maintain its focus on implementing the needed solutions to address LOS deficiencies within the Key within the foreseeable future – possibly a time period not exceeding ten years.

To facilitate the VKB's ability to undertake this capital program, external funding must be solicited to augment the internal funding reserves available for these expenditures of this type. Furthermore, the Village may creatively combine storm water improvements with impending or planned roadway improvements to help leverage the multiple funding sources.

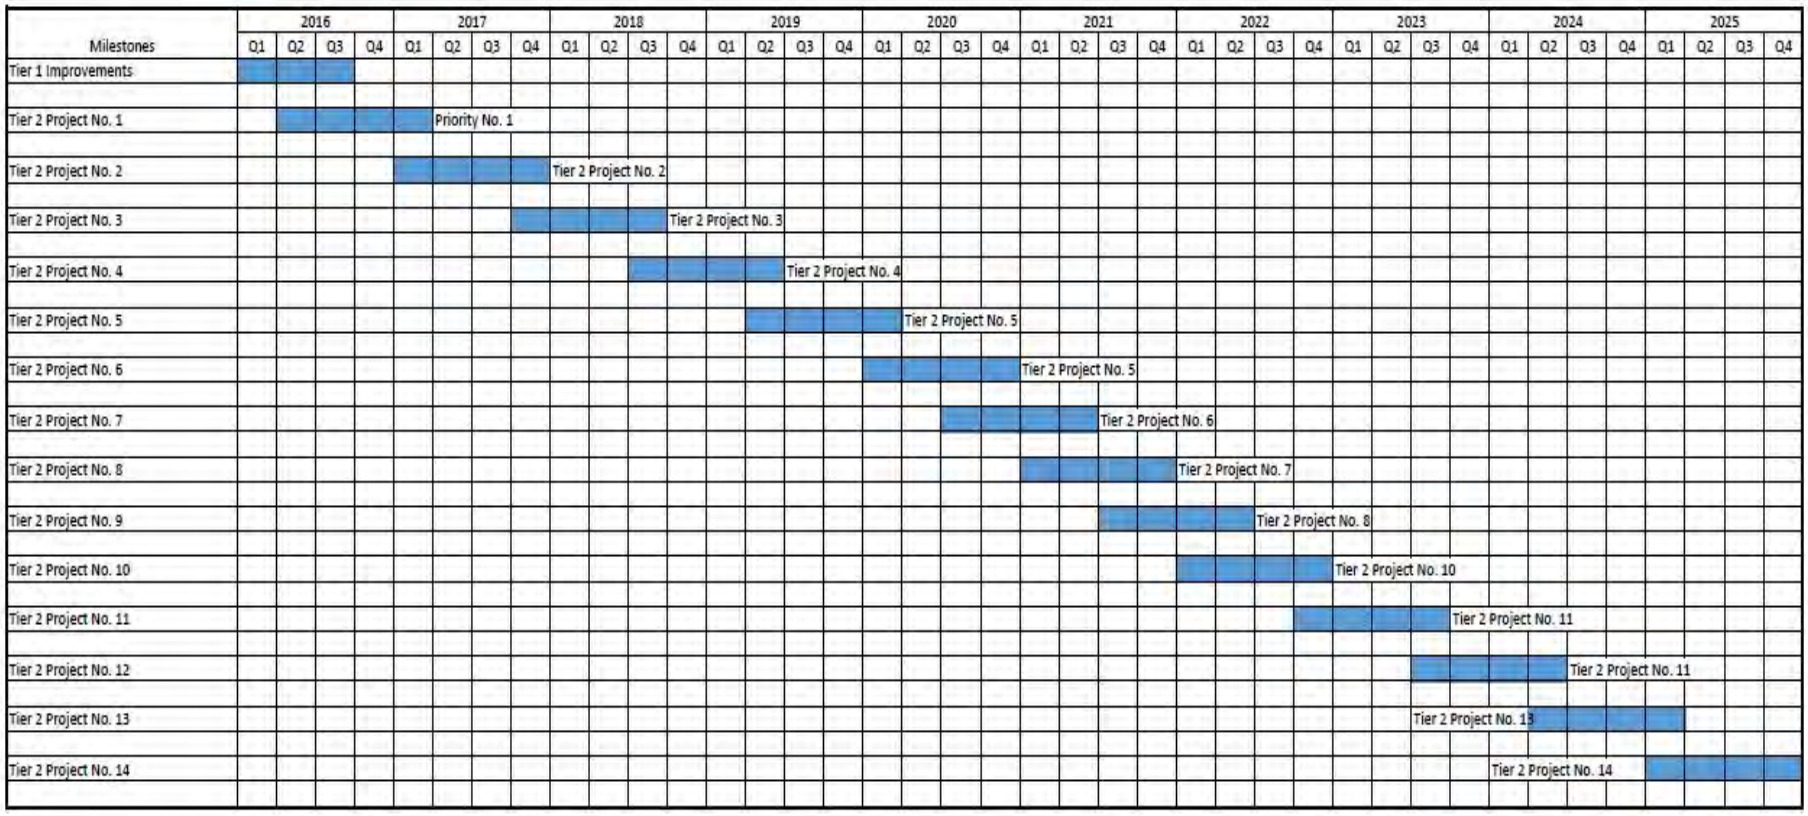

Figure 7-3: Ten Year CIP Schedule

8.0 PUBLIC OUTREACH

This section of our technical report provides a detailed description of of the public information methodology executed as part of Task 1 of the Village of Key Biscayne's Project Implementation for Stormwater Infrastructure Improvements. This section also provides a narrative of a recommended action plan for interfacing and facilitation resident involvement and feedack toward implementing proposed infrastructure design and construction packages for various locations within the Key.

8.1 Task 1 - Public Outreach Approach

The main objectives of the public involvement effort for Task 1 were to educate the public on what is involved in the initial analysis performed for the SWMP and to garner feedback from residents about their experience(s) with flooding which can be used to address impacts within future design plans.

EAC Consulting, Inc serving as an extension of staff to the Village of Key Biscayne (VKB) and as a liaison between the Village staff and residents, worked in coordination VKB staff to ensure the Village residents received information on the project in a timely manner and in a method that would actively engage residents, keeping in mind their various lifestyle patterns.

During Task 1, the project team proposed to the Village staff various strategies to disseminate vital information at little to no cost to the Village and to establish a single point of contact that could answer stakeholder questions and alleviate their concerns. A public involvement implementation plan technical memorandum was submitted to the Village in July 2015. The plan included the activities listed below that were implemented to inform residents of the work being performed on the management plan and to generate interest for and encourage the participation and attendance at the community workshop.

8.1.1 Notifications

Notifications were performed utilizing various methods:

- ***The Islander News:*** The project team drafted the notification for the October public workshop and submitted to The Islander News, not only to advertise the workshop but, to also provide the Editor with current information to be including in informational news briefs.

  EFFECT: An advertisement for the meeting was successfully placed and write-up for the project was also published by The Islander on behalf of the project. This method will be used for future work involving locations where proposed improvements are to be constructed.

- ***E-mail Blasts***: Email correspondence was sent to residents by the Village staff. This method allows for notifications to be sent quickly and is the most cost efficient method for informing residents of important information and providing updates.

  EFFECT: Notices were sent to residents listed within the database. It is suggested that the Village IT staff provide analytics on the number of residents reached to determine the success of this method and if this method will be used for future work involving locations where proposed improvements are to be constructed.

- ***Homeowner / Condominium Association Newsletters/Websites:*** The project team proposes that homeowner / condo association (HOA) representatives be personally engaged to assist with distribution of all notifications through their current database of members.

***EFFECT*:** The EAC team encourages the Village to promote specific outreach, when appropriate, to HOA representatives to foster more participation at the workshops held for future work involving locations where proposed improvements are to be constructed.

- ***Resident Surveys***: Resident surveys are useful in gaining information on an individual basis. Surveys allow property owners to share their unique experience and have an outlet to provide details specific to how they are affected. The EAC team can benefit from gaining this information early in the design process from those most impacted by flooding. EAC can also use this information to gauge and guide public expectations of the outcome of this initiative.

  ***EFFECT*:** The EAC team recommends to the Village to issue surveys to residents to gain vital feedback for use on future work involving locations where proposed improvements are to be constructed. This is important in order for Village staff and EAC to be able to address concerns prior to upcoming public workshops.

- ***Fact Sheets:*** A fact sheet, germane to all proposed work locations should be prepared for use within each respective location for use at future public workshops. Information should be updated as needed throughout the life of the project.

  ***EFFECT*:** The EAC team can develop this document on behalf of the Village and disseminate electronically on an intermittent basis to keep residents engaged in the process during future work involving locations where proposed improvements are to be constructed.

8.1.2 Website / Webpage

The EAC team developed updates for the Village website, which were approved by Village staff and disseminated through the Village's Information Technology Department. The updates were used to advise property owners and other stakeholders of the progress of the overall project and to provide notification on the October 6th public workshop. In future work involving locations where proposed improvements are to be constructed, updates and notifications should utilize this platform.

The project team will continue to prepare website content and suggests using the website for future updates. Though the phone line has not yet been established, the project team will recommend for use to share information to include any necessary construction alerts during future work involving locations where proposed improvements are to be constructed.

8.1.3 Dedicated Phone Line / Response Center

Additionally, the EAC team recommends that the Village set up a phone line specific to the stormwater improvements initiative for use by residents to share comments and have any individual concerns addressed personally and directly.

8.1.4 Social Media

Social media has been very useful through Task 1. The EAC team is confident that it will continue to be help through the future phases of this initiative. Social Media is a powerful tool in announcing public meetings, issuing emergency correspondence and obtaining stakeholder feedback. The EAC team worked with the Village Web Manager by developing content and providing a dissemination schedule for Facebook posts.

8.1.5 Community Outreach Workshop

The first Community Outreach Workshop to solicit public input from potentially affected property owners was hosted on October 6, 2015. In keeping with past workshops, this workshop was held in the Village Council Chambers. Notifications were drafted and sent to Village staff for review, approval and dissemination. The project team coordinated with local newspaper "The Islander News" and a notice was advertised as well as informational columns regarding the status of the storm water improvements initiative. Property owner notifications were disseminated via electronic distribution using the Village's existing database.

This workshop was used as a *MODEL/TEMPLATE f*or subsequent planned workshops.

As with the October 6th workshop, future workshops will involve EAC's responsibility of covering location, logistics (set up, break down), meeting collaterals (any handouts such as fact sheets and newsletters, sign in sheets, etc.) and the preparation of meeting summation/records.

8.2 Summary

The goals of the outreach plan were met with satisfactory results, however, the use of a variety of traditional and cost effective public involvement methods provided below average results. Though participation at public workshops is not a true gauge of stakeholder interest (as workshops dates and times may not be convenient for residents or may conflict with other local events),the project team strongly feels that additional efforts should be executed and a strong public education campaign should be developed for future work involving locations where proposed improvements are to be constructed.

APPENDIX A

VKB SWMP Implementation
Technical Memorandums

Technical Memorandum No.1
Public Outreach and Involvement Methodology

Technical Memorandum No. 1

Public Outreach & Involvement Methodology

DATE: July 9th, 2015

TO: Tony Brown, Village of Key Biscayne Public Works Department
Jose Lopez, Village of Key Biscayne Public Works Department

FROM: Michael Adeife, P.E., Project Manager, EAC Consulting, Inc.
Michelle Simmons, Senior Public Information Officer, Media Relations Group, LLC

SUBJECT: Village of Key Biscayne – Implementation of Storm water Master Plan (SWMP)

This technical memorandum provides a detailed description of the public information methodology to be executed as part of the Village of Key Biscayne's project implementation for storm water infrastructure improvements.

1.0 Background

The Village of Key Biscayne (VKB) Council and staff as a result of RFQ 14-02 contracted EAC Consulting, Inc. (EAC), to perform the requisite services to plan, engineer and administer the construction of the needed infrastructure improvements consistent with the Village's Storm water Masterplan. This effort is primarily goaled at protecting the village's residents and business owners from unnecessary flooding and promoting a higher standard of living and storm water serviceability for all the Village's stakeholders.

The implementation of the Village's SWMP ("the project)" has two main task elements:

1. Hydraulic and Hydrologic Analyses and Evaluation of VKB's Storm Watershed.
2. Engineering Design and the Development of Construction Documents for Priority Basins.

Task 1 - Hydraulic and Hydrologic Analyses and Evaluation of VKB's Storm Watershed includes all necessary engineering and technical services to successfully perform the analyses of storm water infrastructure existing village wide currently under the jurisdiction and ownership of the Village (Public Works Department). The effort requires incorporating recent infrastructure improvements undertaken by the Village, updating the existing SWMP to reflect more accurate representative data and other updates the watershed as reflected in new information collected from various sources. In addition, opportunities to incorporate green infrastructure as part of the overall storm water management plan will now be explored in an effort to streamline the amount of new infrastructure required to address determined deficiencies. The Task 1 effort is necessary to properly determine the extent of improvements required consistent with the proposed implementation tasks identified in VKB's RFQ document.

This effort will also incorporate the required sea level rise considerations that will ensure that proposed improvements are sustainable for the next 25 years (YR 2040) and adequate enough to mitigate storm events consistent with current regulatory and jurisdictional standards.

2.0 Public Outreach Approach

The key goals of the public involvement effort for Task 1 will be to educate the public on what is involved in the initial analysis performed for the SWMP and to garner feedback from residents about their experiences with flooding which can be used to address impacts within future design plans.

The project team will serve as an extension of staff to the Village of Key Biscayne and as a liaison between the Village staff and Village residents. The EAC team will work in coordination with Mariana Dominguez-Hardie, VKB's CRS Coordinator to ensure the Village and its residents receive information that are timely and in a method that actively engages residents, keeping in mind their various lifestyle patterns.

Maintaining open lines of communication between residents, business owners and other key stakeholders is crucial to a successful public outreach campaign. During Task 1 and all subsequent Tasks, the project team will identify strategies to disseminate vital information at little to no cost to the Village and to establish a single point of contact that can answer stakeholder questions and alleviate their concerns. Using traditional public outreach techniques along with newer technology strategically, the outreach staff will assist the design team in its fact finding efforts which will be critical during Task 1.

The various outreach activities listed below will be implemented:

2.1 Community Outreach Workshop

A Community Outreach Workshop to solicit public input from potentially affected property owners will be hosted by officials of VKB supported by the EAC team. In keeping with past workshops, this workshop will be held in the Village Council Chambers. Once the date has been confirmed, notifications will be drafted and sent to Village staff for review and approval. The project team will coordinate with local newspaper "The Islander News" to arrange for notice placement in weekly publications (Thursdays) as well as informational columns regarding the status of the project. This workshop will be used as a **MODEL/TEMPLATE** for subsequent planned workshops. After this workshop the EAC project team will work with the Village to define an action plan for the remaining high priority areas, area by area. As part of the EAC team, Media Relations Group (MRG) will tasked with the responsibility for workshop location logistics (set up, break down), meeting collaterals (any handouts such as fact sheets and newsletters, sign in sheets, etc.) and the preparation of meeting summation/records. Property owner notifications will be disseminated via electronic distribution. The project team will work with the Village and distribute using its existing database.

2.2 Community Outreach Notifications

The Islander News: MRG will work with The Islander News, not only to advertise the public meeting but to also provide the Editor with current information to be including in informational news briefs.

E-mail blasts: To ensure a cost effective process of notification, the EAC team will primarily correspond with residents via email. This method can be used to announce the public workshops, and in the future issue emergency correspondence and obtain stakeholder feedback.

Homeowner Association Newsletters/Websites: HOA or Condominium Association representatives will be engaged to assist with distribution of all notifications through their current database of members.

Resident Surveys: Resident surveys can be useful in gaining information on an individual basis. Surveys allow property owners to share their unique experience and have an outlet to provide details specific to how they are affected. During Task 1, it will be vital to gain this information early from those most impacted by flooding. The project team will also use this information to gauge and guide public expectations of the outcome of this project.

Fact Sheets: A fact sheet will be prepared which will be germane to all basins and used for each area and at each of the eight public workshops. Information will be updated as needed throughout the life of the project. This document will be shared with all concerned stakeholders and interested parties.

2.3 Village Website and Project Phone Line

The project team will develop periodic updates, for approval by the Village staff and dissemination through the Village's Information Technology Department for posting. These updates will be used to advise property owners and other stakeholders of the progress of the overall project and details of any necessary construction alerts. This effort, used during Task 1, will serve as back up support to other workshop notifications. Additionally, the EAC project team will request that the Village set up a phone line specific to this project for use by residents to share comments and have any individual concerns addressed.

2.4 Village Phone Line / Message Repository

The EAC project team will request that the Village set up a phone line specific to this project for use by residents to share comments and have any individual concerns addressed.

2.5 Social Media

Social media will be very helpful throughout the life of the project. It can be used to announce public meetings, issue emergency correspondence and obtain stakeholder feedback. The Village has the option of serving as the administrator of the accounts, with the EAC team uploading messages, while tracking and monitoring comments. To assist in managing public opinion, comments can be kept private. The project team will work with the Village Web Manager on this effort.

Technical Memorandum No.2
Level of Service (LOS) & Applicable Criteria

Technical Memorandum No. 2

Level of Service (LOS) & Applicable Criteria

DATE: July 9th, 2015

TO: Tony Brown, Village of Key Biscayne Public Works Department
Jose Lopez, Village of Key Biscayne Public Works Department

FROM: Michael Adeife, P.E., Project Manager, EAC Consulting, Inc.

SUBJECT: Village of Key Biscayne – Implementation of Storm water Master Plan (SWMP)

This technical memorandum provides a detailed description of the Village's expectations as it relates to the level of service anticipated for storm water infrastructure under its jurisdiction as well as pertinent and applicable criteria and guidelines governing the levels of operational performance.

1.0 Background

The Village of Key Biscayne (VKB) Council and staff as a result of RFQ 14-02 contracted EAC Consulting, Inc. (EAC), to perform the requisite services to plan, engineer and administer the construction of the needed infrastructure improvements consistent with the Village's Storm water Masterplan. This effort is primarily goaled at protecting the village's residents and business owners from unnecessary flooding and promoting a higher standard of living and storm water serviceability for all the Village's stakeholders.

The implementation of the Village's SWMP ("the project)" has two main task elements:

1. Hydraulic and Hydrologic Analyses and Evaluation of VKB's Storm Watershed.
2. Engineering Design and the Development of Construction Documents for Priority Basins.

Task 1 - Hydraulic and Hydrologic Analyses and Evaluation of VKB's Storm Watershed includes all necessary engineering and technical services to successfully perform the analyses of storm water infrastructure existing village wide currently under the jurisdiction and ownership of the Village (Public Works Department). The effort requires incorporating recent infrastructure improvements undertaken by the Village, updating the existing SWMP to reflect more accurate representative data and other updates the watershed as reflected in new information collected from various sources. In addition, opportunities to incorporate green infrastructure as part of the overall storm water management plan will now be explored in an effort to streamline the amount of new infrastructure required to address determined deficiencies. The Task 1 effort is necessary to properly determine the extent of improvements required consistent with the proposed implementation tasks identified in VKB's RFQ document. . This effort will also incorporate the required sea level rise considerations that will ensure that proposed improvements are sustainable for the next 25 years (YR 2040) and adequate enough to mitigate storm events consistent with current regulatory and jurisdictional standards.

To accurately closely simulate, represent and define the storm water management & flooding conditions as determined through hydraulic and hydrologic modeling analyses, it is imperative to establish acceptable levels of service (LOS) criteria and standards. These criteria will be based on applicable jurisdictional regulations maintained within the State of Florida and Miami Dade County. Furthermore, these criteria and conditions will those developed specific to the Village of Key Biscayne as mandated by the Village's Public Works Department. The established LOS will be utilized as the benchmark for determining deficiencies in the VKB's infrastructure system and for proposing infrastructure improvements in areas where deficiencies are identified.

2.0 Level of Service (LOS) and Applicable Criteria

The primary purposes of LOS criteria are to protect public safety and property. The existing land uses in the Village are defined predominantly by location west or east of Crandon Boulevard. To the west, there exists a large cluster of single family homes, a public recreational area, an elementary school centrally located within the neighborhood and commercial development along Crandon Boulevard. To the east, the land use is primarily multi-family high-rise residential, with some hotel/ commercial development as well as an area designated as single family between East Drive and north of Galen Drive.

As noted in the 2011 SWMP, the village is considered completely developed for the purpose of this storm water evaluation process and future land use changes will considered with negligible variation.

The establishment of LOS for the purpose of this effort is aimed at ensuring that all roadways are maintained for general use, evacuation routes passable for emergencies during high precipitation events and to ensure that infrastructure are in place to control flood stages below homes and buildings as practicable. The LOS criteria will be used to identify and define potential problem after performing all hydraulic and hydrologic calculations and analyses. As previously mentioned, once areas of deficiencies are identified, the LOS criteria will then be used again to evaluate the effectiveness of proposed infrastructure improvements.

The adopted LOS criteria will play a significant role in the capital improvements proposed as they will directly affect the size and cost of proposed infrastructure improvements.

All of the village's current storm water management LOS as established in the 2011 SWMP will be maintained with several modifications for to ensure congruency with applicable jurisdictional guidelines.

Variations have also be made in part based on:

A. Input from the Village's Public Works Department
B. New & updated Hydraulic &Hydrologic (H&H) data
C. Current conventional storm water drainage design practices

The LOS and Criteria established for this evaluation is outlined as follows;

1. The land area encompassed by the public rights-of-way plus an additional 25 feet on either side of each roadway. The 2011 SWMP update limited this criteria to 15 feet on either side of each roadway.
2. The vertical datum for elevation references will be the datum referenced will be the North American Vertical Datum of 1988 (NAVD 88).
3. Consistent with the 2011 SWMP update, all analyses and design evaluations for the Village's storm water management infrastructure shall utilize high tidal elevations in the bay as the tail water condition(s) for the Hydraulics and Hydrologic model. For specificity purposes, this value has been will be determined based on sea level rise considerations derived as part of the analyses procedures. The basis for the determined values will be documented in the H&H Analyses Technical Memorandum.
4. The South Florida Water Management District (SFWMD) standard rainfall and distribution curves for the various storms will be utilized as required for the H&H Analyses.
5. Peak elevations and flows will be determined for each of the basins within VKB's storm water watershed model for the following design storm events for the following events:
    a. 5-year, 72-hours
    b. 10-year, 72-hours
    c. 25-year, 72-hours
    d. 100-year,72-hours

6. Roadway Flooding Criteria : Miami-Dade County RER criteria shall be adhered to requiring the following:

Design Storm Frequencies and Flood Limits		
Roadway Location & Type	Rainfall Frequency	Flood Limits
Residential and Commercial Areas	5-year	To Crown of Street or within 15 feet of dwelling or occupied building
2-Lane Roads in Residential Areas	5-year (10-year for Bridges)	To Crown of Street or within 15 feet of dwelling or occupied building
4-Lane Roads in High Traffic & Density Areas	10-year	To outer edge of Traffic Lanes

7. Other Applicable Criteria:

Design Storm Frequencies and Flood / Discharge Limits		
Roadway Location & Type	Rainfall Frequency	Flood / Discharge Limits
Building Pad /Finish Floor Protection	100-year	Shall not exceed minimum Building Finish Floor Elevation
Outfall Discharges	25-year	Shall not exceed existing discharge rates or established conditions

8. State surface water quality standards as set forth in Chapters 62-4 and 62-302, F.A.C., including the anti-degradation provisions of paragraphs 62-4.242(1)(a) and (b), 62-4.242(2) and (3), F.A.C., and Rule 6 2-302.300, F.A.C., and the special standards for Outstanding Florida Waters and Outstanding National Resource Waters set forth in subsections 62-4.242(2) and (3), F.A.C and the groundwater standards in Chapters 62-520 and 62-550 F.A.C. For design purposes, the volume of runoff to be treated from a site shall be determined by the type of treatment system.

   In general, pollution abatement shall be accomplished by requiring storm water management systems to retain or detain with filtration, the run-off generated from the first inch of rainfall on developed sites, or 2.5 inches of run-off generated over the entire site for the percentage of imperviousness on the site, whichever is greater.
9. Water Quantity standards shall be in accordance with SFWMD and Miami Dade RER regulatory requirements.
10. Underground Injection Discharge: The Florida Department of Environmental Protection (FDEP) regulates underground discharge via pressurized or gravity drainage wells through its Underground Injection Control (UIC) program. Wells can only discharge into or above an aquifer that contains a total dissolved solids concentration of less than 10,000 milligrams per liter. For the purposes of these analyses and evaluation the following will be maintained:
    a. All existing wells are assumed to comply with this criteria. Drainage Well evaluation efforts will be required for each priority basin for design purposes and appropriate adjustments made during Task 2 of the SWMP Implementation effort.
    b. Existing wells will be assumed to function at only ***75%*** of the estimated capacities to reflect long term usage.
    c. Within the H&H model, drainage well capacities shall be updated based on all recent well redefinition efforts undertaken by the Village's Public Works Department.

d. In the absence of field measured well capacities, all drainage wells capacities shall default to a determined well capacity estimated by local hydrogeologists familiar with the Village of Key Biscayne and other County barrier municipalities.

11. Existing Basins as delineated in the 2011 SWMP update (identifying 14 separate individual basins) will be maintained. However LIDAR information obtained from the County will be utilized to verify the delineations and applicable adjustments made to reflect topography information.
12. Positive Discharge: All existing outfalls will be field verified by the Village Public Works department prior to finalization of the H&H Analyses & Evaluation process. The results of the findings shall be appropriately incorporated into the effort.
13. Pipe Hydraulic Opening Reduction: All existing cast iron / metal piping that have recently undergone rehabilitation via pipe lining, shall have their respective hydraulic opening appropriately reduced to reflect loss of area. All other existing cast iron/metal pipes within the system will assumed to have lost 50% of the hydraulic opening due to the expected degradation of this pipe material under the subsurface ground water conditions within the Village. The City will implement a capital program that involves relining all metal pipes village-wide.
14. Monitoring Stations: Establishing monitoring locations or stations for groundwater elevations as well above ground flooding information. The EAC team will coordinate this effort with Mission Communications, Inc.
15. It is assumed that for this effort, the storm water infrastructure and hydraulic inter-connectivity presented in the 2011 SWMP update is accurate. No revisions or changes will be proposed to the existing interconnections for the purpose of analyzing existing conditions.
16. Pump Stations: To facilitate the ability of underground injection wells to function in low lying areas, the Village is amenable to evaluating the use of pumps to enable and expedite flows to the non-potable aquifer. The Village's preference for pump stations is for proposed systems to be submersible, duplex and capable of long term use in salt water conditions.
17. Backflow Prevention: The analyses will factor in the placement of conventional back flow prevention devices, specifically at the outfalls and at points of interconnection the central storm water trunk system along Crandon Boulevard. Where the analyses reveals adverse effects due to the incorporation of these devices, the EAC Team will recommend eliminating from proposed infrastructure designs.
18. Green Infrastructure: The project will take into consideration implementation of "Green Infrastructure" where opportunities exist. The use of "Green Infrastructure" will provide better long term planning strategy which is environmentally conscious and results in lower capital and maintenance costs. A toolbox of "Green Infrastructure" components will be developed for this project and will integrate urban and engineering practices to provide overall better preservation of the existing site hydrology by reducing the runoff volume and peak flows while increasing aquifer recharge, reducing pollution, reducing the impacts of Sea Level Rise and climate change and associated mitigation costs. The toolbox will include cost efficient components for increasing the storage and infiltration of storm water, reducing the paved surfaces and improving the conveyances.
19. Key Colony: For the purpose of analyses, no impacts resulting from Key Colony will be included since the Condominium has hired an engineering firm to design improvements (including wells redevelopment) to limit flows from Key Colony across the Sonesta Drive wall. The EAC team will coordinate with the engineer for this project to ensure that this conditions are maintained.

Technical Memorandum No.3
Data Collection

Technical Memorandum No. 3

Data Collection

DATE: July 14th, 2015

TO: Tony Brown, Village of Key Biscayne Public Works Department
Jose Lopez, Village of Key Biscayne Public Works Department

FROM: Michael Adeife, P.E., Project Manager, EAC Consulting, Inc.

SUBJECT: Village of Key Biscayne – Implementation of Storm water Master Plan (SWMP)

This technical memorandum provides a detailed description of the efforts undertaken in gathering and collecting data, materials, and other relevant information required for the analyses of the Village's storm water infrastructure system. The data collection is both an important and integral task towards embarking on the implementation of infrastructure repairs, rehabilitation, replacements and improvements as needed for improving and optimizing the Village's storm water management systems.

1.0 Background

The Village of Key Biscayne (VKB) Council and staff, as a result of RFQ 14-02, contracted EAC Consulting, Inc. (EAC) to perform the requisite services to plan, engineer, and administer the construction of the needed infrastructure improvements consistent with the Village's Stormwater Master Plan (SWMP). This effort is primarily goaled at protecting the Village's residents and business owners from unnecessary flooding and promoting a higher standard of living and storm water serviceability for all of the Village's stakeholders.

The implementation of the Village's SWMP has two main task elements:

1. Hydraulic and Hydrologic Analyses and Evaluation of VKB's Storm Watershed.
2. Engineering Design and the Development of Construction Documents for Priority Basins.

Task 1 - Hydraulic and Hydrologic Analyses and Evaluation of the Village's Storm Watershed includes all necessary engineering and technical services to successfully perform the analyses of the Village-wide existing stormwater infrastructure currently under the jurisdiction and ownership of the Village's Public Works Department. This effort requires incorporating recent infrastructure improvements undertaken by the Village, updating the existing SWMP to reflect more accurate representative data, and other updates to the watershed as reflected in new information collected from various sources. In addition, opportunities to incorporate green infrastructure as part of the overall SWMP will now be explored in an effort to streamline the amount of new infrastructure required to address identified deficiencies. The Task 1 effort is necessary to properly determine the extent of improvements required consistent with the proposed implementation tasks identified in the Village's RFQ document. This effort will also incorporate the required sea level rise (SLR) considerations that will ensure that proposed improvements are sustainable for the next 25 years (YR 2040) and adequate enough to mitigate storm events consistent with current regulatory and jurisdictional standards.

The analyses to be performed under Task 1 will take into consideration the elements and components of the existing system within the Village including but not limited to collection drainage structures, conveyance pipes, outfall structures, system junctions, and disposal infrastructure. The analyses also must consider the hydrologic conditions within the Village such as topography, ground cover, location,

and characteristics of water bodies, ground water, rainfall amounts/patterns, and other pertinent specific local conditions including vulnerability to high tides and SLR.

2.0 Data Gathering Sources

The data collection efforts encompassed a coordinated streamlined approach that involved reaching out to several entities with jurisdiction or that maintain existing records or have been tasked by VKB with the responsibility to handle certain functions on the Village's behalf. The following entities were contacted and coordinated with:

i. Village of Key Biscayne – Public Works Department
ii. Tetra Tech, Inc
iii. Jaffer Well Drilling, A Division of A.C. Schultes of Florida, Inc
iv. Layne Inliner Products
v. A&A Drainage, Inc
vi. Florida International University (FIU)
vii. Federal Emergency Management Agency (FEMA) - National Flood Insurance Program
viii. Florida Department of Transportation (FDOT)
ix. Florida Department of Environmental Protection (FDEP) (Underground Injection Control Program)
x. Miami-Dade County Regulatory and Economic Resources (RER)
xi. Miami-Dade Public works & Waste Management (PWWM)
xii. Miami-Dade County Information Technology Department (ITD)
xiii. South Florida Water Management District (SFWMD)
xiv. National Oceanic and Atmospheric Administration (NOAA)
xv. United States Army Corps of Engineers (USACE)
xvi. United States Geological Survey (USGS)
xvii. Pollution Elimination Corporation (PELCO)
xviii. MODUS

3.0 Data Collection

The following subsections detail the items collected under this data collection task.

3.1 VKB Public Works Inventory & Worksheets

The Village also provided an Existing Drainage Structure Inventory excel spreadsheet documenting what appears to be the assumptions used for the development of the InfoSWMM model network and a Permitted Outfall inventory table identifying all of the Villages permitted outfalls which the Village is in the process of inspecting.

3.2 VKB Public Works - Stormwater Improvement Project As-Builts

The Village provided as-builts for the *Stormwater Improvement Plan Basins 1-8 and Water Distribution Improvements* project showing a submitted date of 8/14/1996 on the cover of the digital set provided. These as-builts are for an extensive stormwater improvement project throughout the Village. It is understood that these as-builts were the initial basis for the GIS based stormwater infrastructure feature classes available from the Village and currently maintained by Tetra Tech.

It is our understanding that that the Village will provide additional design and as-built records for other completed or ongoing projects within the Village.

These items will be evaluated for inclusion into the InfoSWMM model update to be performed by the EAC Team for this project.

3.3 2011 Stormwater Master Plan Report & Models

The existing 2011 SWMP Update developed by Tetra Tech, Inc. was provided in PDF format by the Village. This report provides a detailed description of the activities and analyses performed for the development of the SWMP and the findings substantiated by the analyses performed. Pertinent exhibits and appendices were also provided by the Village.

The 2011 SWMP INFOSWMM models including the hydraulic network, hydrologic parameters, and results files for the simulations performed as part of the Stormwater Master Plan update were also collected as part of this data collection task. The InfoSWMM model version is documented as version 9.0.

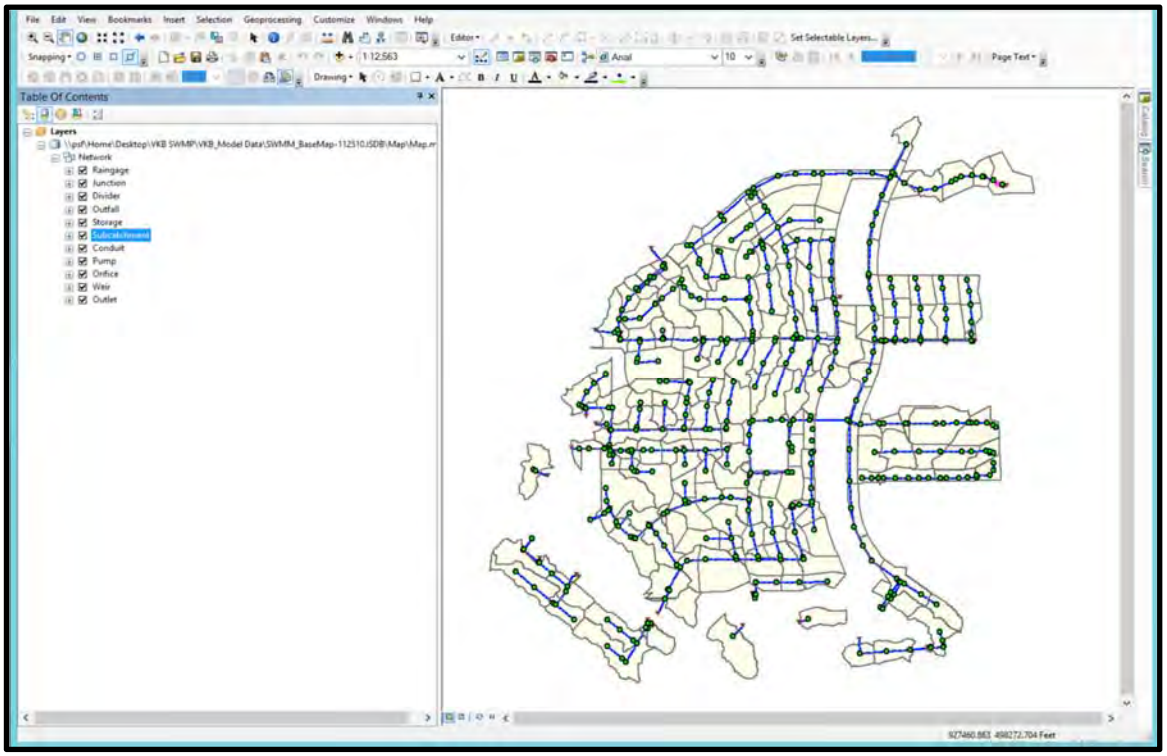

Figure 1 – Village of Key Biscayne InfoSWMM Network Schematic in ArcMap

In addition to the 2011 SWMP, the Village also provided the 1993 Stormwater Management Master Plan report prepared by Williams, Hatfield, and Stoner, Inc. (WHS) which documents the observations, testing, analytical methodologies, findings, and recommendations developed by WHS.

3.4 Topographic Data

The most readily available topographic data for large expanses of land is typically LiDAR based topographic data. LIDAR, which stands for Light Detection and Ranging, is a remote sensing method that uses a pulsed laser to measure the distance between the Earth and the collection unit typically based onboard a plane. These distance measurements, combined with other data recorded by the plane's airborne systems, can be used to generate topographic elevations points which can then be used to prepare detailed topographic models of the shape of the surface surveyed.

LiDAR data was available for VKB's geographic limits from a central repository of LiDAR data hosted by Florida International University (FIU) at their GIS-RS Center and sponsored by the International Hurricane Research Center at FIU. The LiDAR dataset is a topographic survey conducted for the State of Florida Division of Emergency Management LiDAR Project under the guidance of a Licensed and

Professional Surveyor/Mapper. This data is intended to support the creation and refinement of integrated ground and surface water models and Federal Emergency Management Agency Flood Insurance Rate Maps (FEMA FIRM).

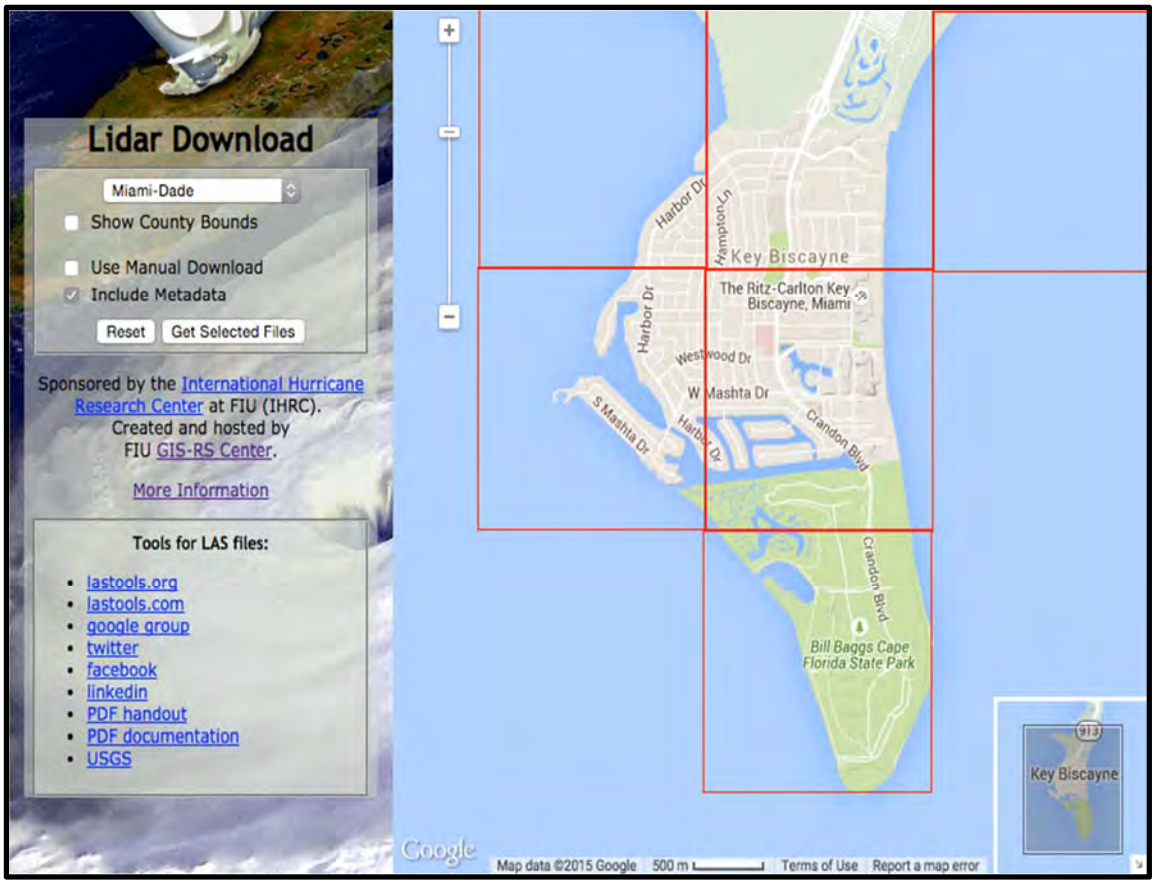

Figure 2 – Florida International University's Web Based LiDAR Data Repository

The most readily available LiDAR based data points were collected from August 2007 through January 2008. According to datasets metadata, the point cloud was collected at a density sufficient to support a maximum final post spacing of 4 feet for unobscured areas. The LiDAR data is available in 5000' by 5000' tiles, four of which encompass the Village. The LiDAR data is a bare earth representation of the topography where buildings and canopy are removed from the dataset.

The EAC team approached Miami-Dade County in June 2015 in order to verify that the data collected from FIU was the latest LiDAR based topographic dataset available. According to a representative from the Stormwater Utility Planning Division within Miami-Dade County (County), the County was in the process of collecting new LiDAR data and the LiDAR data was not going to be available in the near future. This newer data set would represent a more accurate and detailed representation of the topography of the Village and should be considered for future inclusion into the Village's GIS data repository and into the Village's InfoSWMM models utilized for the Stormwater Master Plan.

The EAC team has also approached the original developers of the 2011 SWMP Update in order to collect the topographic DEM used for the SWMP. This process is being finalized and the DEM will also be verified for conformance with retrieved information previously described.

3.5 GIS Data

Miami-Dade County's (County) Information Technology Department (ITD) through its GIS Division maintains a central repository of geographic data comprised of numerous layers; the street network and property (parcel) layers being the primary base layers. This GIS data is available through the County's GIS Self Services website. This website allows users to search through and choose GIS data that is pertinent to their interests.

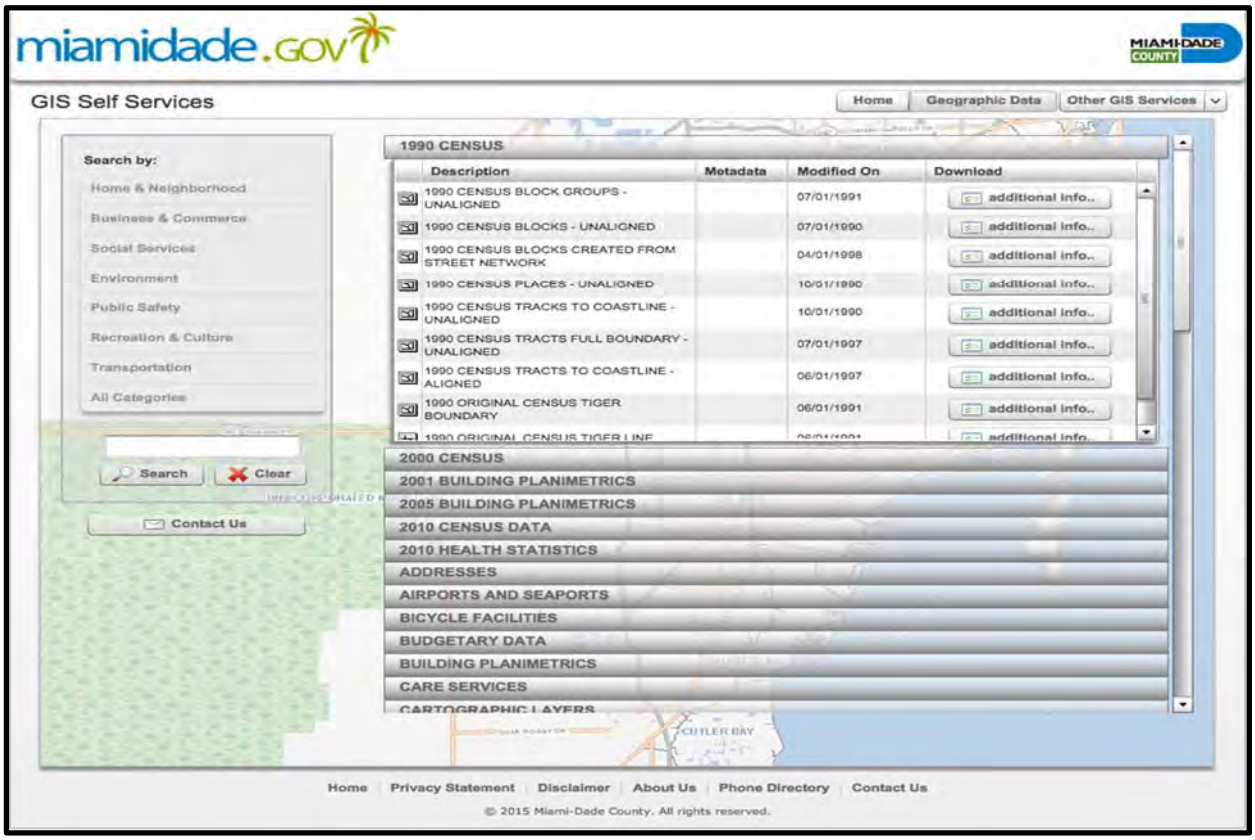

Figure 3 – Miami-Dade County GIS Self Service Website

In addition, the EAC team coordinated with the Village to collect GIS data that is maintained by the Village. The data includes two geodatabases that represent the available GIS feature classes maintained and used by the Village. The following is a listing and short description of the individual feature classes within the two geodatabases provided:

1. VKB_Stormwater2015 (Personal Geodatabase and associated Feature Classes)
    a. ComplaintAreas - This dataset includes complaints logged and identified by parcel boundaries with physical address and SWMP basin area name.
    b. Exfiltration - This dataset seems to be exfiltration trenches done for a specific project, Civic Center, and provides the length of each segment.
    c. MiamiDadeBM - This dataset includes Miami-Dade County benchmarks near the Village and includes the benchmark name and source.
    d. NGS_BM - This dataset includes benchmarks identified in NOAA's National Geodetic Survey (NGS), which includes the data source, datum, adjusted elevation, and condition of the benchmark.

e. parcel_centroids_address_file - This dataset includes the centroid of the parcel boundaries within the Village.
f. Pipes_07192011 - This dataset includes the pipe network within the Village and includes the pipe diameter, pipe type, comments (most comments state assumption of pipe diameter), inverts, editor and last update date, which appears to have last been last updated in June 2015.
g. Flow - This dataset includes the same information as Pipes_07192011, but with data that does not match Pipes_07192011 in the each item. This dataset does not include the editor and last edited date.
h. RLP - The dataset contains parcel boundaries of Repeated Loss Properties (RLP) with its corresponding physical address and the type of complaint.
i. StudyArea - This dataset contains the Village's study area limits and excludes the majority of parcels along the east coast of the Village.
j. SW_Structures - This dataset includes the stormwater structures data. It includes an associated project name, Design ID, rim elevation, invert elevation, the SWMP basin name, and the editor and last edited date.
k. Strucs_07192011 - This dataset appears to be the same as the SW_Structures dataset, but created prior to SW_Structures.
l. SWMMP2010Update_Basin - This dataset includes the Village basin boundary of the Village's SWMP 2010 Update.
m. SWMMP2010Update_SubCatchment - This dataset includes the Village sub-basin boundary of the Village's SWMP 2010 Update.
n. VKB_Boundary - This dataset includes geographic boundary of Miami-Dade County and the Village.

2. Base (File Geodatabase and associated Feature Classes)
   a. BuildingFootprints - This dataset includes the building footprint shapes last updated in November 2008.
   b. CriticalMeterParcels - This dataset appears to include the critical facilities. There are several parcels identified within the Village, along with the facility type (school, police, and utility). The facilities identified are St. Agnes School, Key Biscayne Elementary School, Key Biscayne Police Department, and Key Biscayne Fire Rescue)
   c. CriticalSiteParcels - This dataset also appears to include the critical facilities. There are several parcels identified within the Village, along with the facility type (library, parks, helicopter landing, and other). The facilities identified are Miami-Dade Public Library Key Biscayne Branch, Village Green Park, St. Christopher's by-the-Sea, Key Biscayne Community Church, and Key Biscayne Presbyterian Church.
   d. EdgeOfPavement - This dataset represents the edge of pavement with the Village.
      Edge of pavement (roadway depicted)
   e. GolfCourses - Not applicable to Village.
   f. Hydrolines_24K - This dataset does not contain any features within the Village. However, per metadata, this data was collected as part of the National Mapping Program and contains Hydrological Line Features from the USGS 1:24000 scale DLG's.
   g. Land_24K - This dataset is the land boundary. Per metadata, this dataset contains Hydrological Poly Features from the USGS 1:24000 scale DLG's.
   h. LandArea - This dataset represents the land area/shoreline in coastal areas, but does not contain features with the Village.
   i. MajorHydro - Not applicable to Village.
   j. Municipal - Not applicable to Village. This dataset seems to be only applicable for Port St. Lucie, St. Lucie Village, and Fort Pierce.
   k. MunicipalBoundaries - This dataset includes the geographical Village boundary.

l. NHDPlus_Flowlines_ 100K - Not applicable to Village.
m. NHDPlus_ WaterBodies_100K - Not applicable to Village.
n. Parcels - This dataset includes parcel boundaries. However, no data for parcels is provided within the Village boundary. Therefore, it is not applicable.
o. Parks - This dataset includes the park areas with the Village.
p. ParksPreserves - Not applicable to Village.
q. Railroad - Not applicable to Village.
r. Riverlines - Not applicable to Village.
s. Streets - This dataset includes the streets layer in Miami-Dade County & St. Lucie County.
t. WaterBodies - Not applicable to Village.
u. WaterBodies_24K - This dataset includes the boundaries of water bodies. Per metadata, the dataset contains Hydrological Poly Features from the USGS 1:24000 scale DLG's.

The feature classes related to stormwater infrastructure also contain edit tracking which will enable the EAC team to focus updates to the InfoSWMM models based on what items have changed since the development of the 2011 SWMP InfoSWMM models – currently there are modifications to 135 pipe segments and 8 drainage structures/manholes.

Additionally, VKB maintains a GIS feature class which collects annotated data from the VKB staff pinpointing areas in need of additional investigation by the Village's contractors. This feature class logs all inquiries as they are input and addressed.

Lastly, a map exhibit illustrating flood prone areas was reviewed on-site at the Village. This map shows areas where flooding has been observed throughout the VKB based on documented site visits by Village staff.

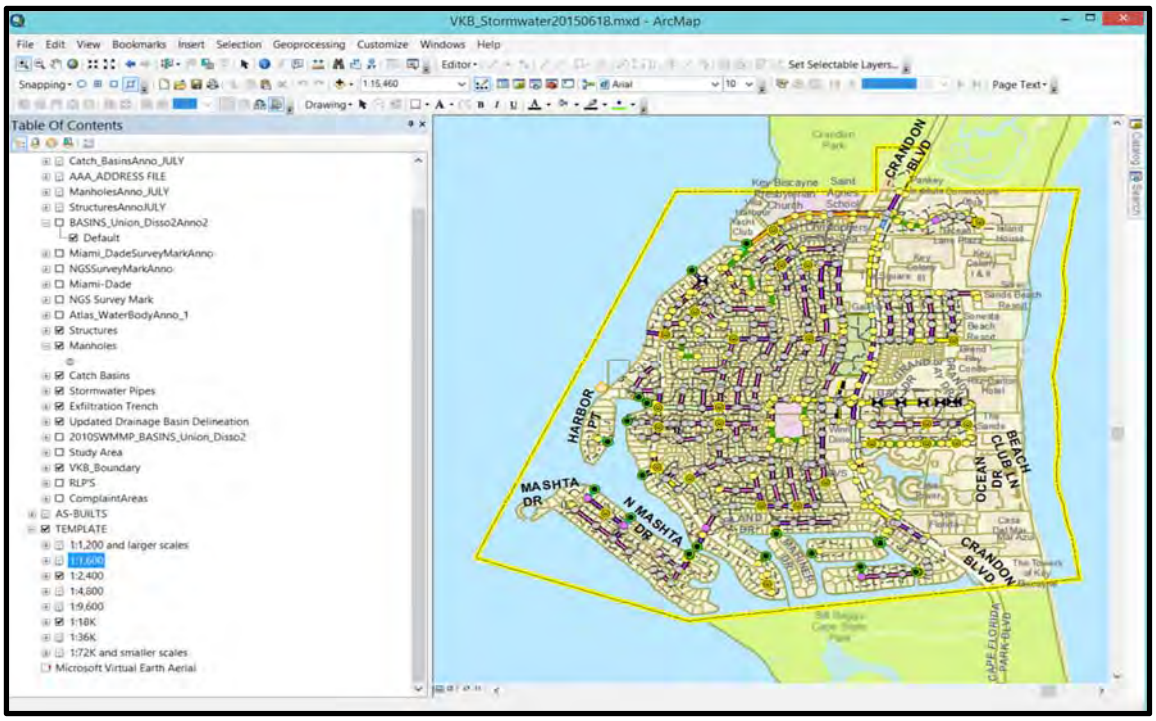

Figure 4 – Village of Key Biscayne GIS-based Stormwater Infrastructure Data

3.6 Village Stormwater Management System Maintenance Records

The Village maintains two companies under contract for the purposes of maintaining their stormwater infrastructure. As of this writing, Jaffer Well Drilling, A Division of A.C. Schultes of Florida, Inc. (Jaffer) and A&A Drainage, Inc. (A&A) have active contracts. Jaffer is a well drilling contractor specializing in the development and maintenance of wells. A&A is a maintenance contractor specializing in the maintenance and physical inspecting of stormwater infrastructure systems.

Jaffer Well Drilling is tasked with testing, maintaining, and redeveloping the existing 28 Village owned wells, at the discretion of the Village. The Village maintains a program where, depending on available funding, a specific number of wells are identified for cleaning/maintenance on a rotating basis. Jaffer provides the Village with flow rates prior to and after cleaning/maintenance activities and the testing and maintenance records are maintained by the Village and updated regularly using the data provided by Jaffer.

VKB Public Works staff provided the EAC team with a table identifying the wells and their locations; the physical dimensions of the wells including cased and uncased depths; the depth of sedimentation observed prior to cleaning; the date of the most recent cleaning/maintenance/; the pre- and post-maintenance flow rates; and the date the activities were performed.

A&A Drainage, Inc was recently tasked with cleaning and surveying the Villages stormwater infrastructure systems. Based on our understanding, A&A Drainage, Inc follows the Village's maintenance program, at the discretion of the Village, and provides input for refining the Village's GIS based stormwater infrastructure feature classes. A&A surveys the Village's stormwater management systems and inputs their findings into an ArcGIS Online-based maintenance feature class maintained by the Village. These findings are compared to the existing stormwater infrastructure data and are then propagated into the Village's master stormwater infrastructure feature classes.

The well data available from Jaffer and the field-verified stormwater infrastructure data available from A&A Drainage, Inc will be evaluated for inclusion into the InfoSWMM model update to be performed by the EAC team for this project.

Public Meeting Records

Public Workshop Report
October 6, 2015

DATE: October 11, 2015

TO: Tony Brown, Village of Key Biscayne Public Works Department
Jose Lopez, Village of Key Biscayne Public Works Department

FROM: Michael Adeife, P.E., Project Manager, EAC Consulting, Inc.

SUBJECT: Village of Key Biscayne – Implementation of Storm water Master Plan (SWMP)

Attendees:

Name	Organization	Email
Mayra Peña Lindsay, Mayor	VKB	
John Gilbert, Village Manager	VKB	jgilbert@keybiscayne.fl.gov
Jud Kurlancheek, Director,	VKB	jkurlancheek@keybiscayne.fl.gov
Jose G. Lopez	VKB	jlopez@keybiscayne.fl.gov

Michelle Simmons	MRG	MSimmons@mrgmiami.com

Summary:

The public meeting was held on Tuesday, October 6, 2015, from 6pm until 8pm at the Village Council Chamber. Residents were invited to attend the open house portion of the workshop from 6:00pm until 6:30pm.

All residents in attendance had the opportunity to speak with the project team and discuss their individual concerns. The presentation began at 6:40pm, with opening remarks from the Village Manager and a welcome address from the Mayor. Jose Lopez opened the workshop, with various members of staff providing detailed information about the implementation plan.

After the presentation, the project team conducted a Q&A session. All residents were provided comment cards and given the opportunity to speak publicly. Questions were addressed to the project team and all comments were documented for future action. The presentation ended at 7:28pm. There were a total of 10 residents present. No comment cards were left at the public workshop.

Tuesday, October 6, 2015, 6 p.m. to 8 p.m.

****
Node Flooding Summary
****

Flooding refers to all water that overflows a node, whether it ponds or not.

Node	Hours Flooded	Maximum Rate CFS	Time of Max Occurrence days	hr:min	Total Flood Volume 10^6 gal	Maximum Ponded Depth Feet
J-102	13.08	4.33	2	11:13	0.033	1.181
