   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: Hunter Contracting Co.
Chuck English, President
701 North Cooper Road
Gilbert, Arizona 85233
Phone: 480.892.0521
Email: chucke@huntercontracting.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
KBE BUILDING CORPORATION

CONTRACT NO. 2025096

This JOB ORDER CONTRACT FOR Category 4: Steel Building/Structure Construction Services (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and KBE Building Corporation, a Connecticut corporation (the "Contractor"). This Contract is for Steel Building/Structure Construction Services, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – General for "Category 4: Steel Building/Structure Construction Services (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing Steel Building/Structure Construction Services.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to Steel Building/Structure Construction Services for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC Steel Building/Structure Construction Services category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

"Differing Site Conditions" means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

"Final Acceptance" means the completion of the Project as prescribed in Article 10.

"Float" means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

"Legal Requirements" means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

"Liquidated Damages" means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments' (MAG) Uniform Standard Specifications and Details for Public Works Construction.

"Materials" means goods, items, or supplies utilized in the completion of the Work.

"Notice to Proceed" or "NTP" means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

"Payment Application" means the City form used by the Contractor to request payment for Work performed.

"Product Data" means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

"Project" means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

"Project Schedule" means a schedule as prescribed in this Contract or subsequent Job Orders.

"Project Record Documents" means the documents created pursuant to Article 12.

"Samples" means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

"Schedule of Construction" means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: KBE Building Corporation
Cort Darling, Regional Manager
9977 N. 90th Street, Suite 150
Scottsdale, Arizona 25852
Phone: 602.466.9454
Email: cdarling@kbebuilding.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

AND
HUNTER CONTRACTING CO.

CONTRACT NO. 2025108

This JOB ORDER CONTRACT FOR Category 2: Water Production Facility Infrastructure (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and Hunter Contracting Co., an Arizona corporation (the "Contractor"). This Contract is for Water Production Facility Infrastructure, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – Water/Wastewater for "Category 2: Water Production Facility Infrastructure (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing Water Production Facility Infrastructure.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to Water Production Facility Infrastructure for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC Water Production Facility Infrastructure category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

"Differing Site Conditions" means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

"Final Acceptance" means the completion of the Project as prescribed in Article 10.

"Float" means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

"Legal Requirements" means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

"Liquidated Damages" means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments' (MAG) Uniform Standard Specifications and Details for Public Works Construction.

"Materials" means goods, items, or supplies utilized in the completion of the Work.

"Notice to Proceed" or "NTP" means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

"Payment Application" means the City form used by the Contractor to request payment for Work performed.

"Product Data" means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

"Project" means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

"Project Schedule" means a schedule as prescribed in this Contract or subsequent Job Orders.

"Project Record Documents" means the documents created pursuant to Article 12.

"Samples" means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

"Schedule of Construction" means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: Hunter Contracting Co.
Chuck English, President
701 North Cooper Road
Gilbert, Arizona 85233
Phone: 480.892.0521
Email: chucke@huntercontracting.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
SCHOFIELD CIVIL CONSTRUCTION LLC

CONTRACT NO. 2025109

This JOB ORDER CONTRACT FOR Category 2: Water Production Facility Infrastructure (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and Schofield Civil Construction LLC, an Arizona limited liability company (the "Contractor"). This Contract is for Water Production Facility Infrastructure, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – Water/Wastewater for "Category 2: Water Production Facility Infrastructure (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing Water Production Facility Infrastructure.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to Water Production Facility Infrastructure for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC Water Production Facility Infrastructure category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

“Differing Site Conditions” means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

“Final Acceptance” means the completion of the Project as prescribed in Article 10.

“Float” means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

“Legal Requirements” means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

“Liquidated Damages” means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments’ (MAG) Uniform Standard Specifications and Details for Public Works Construction.

“Materials” means goods, items, or supplies utilized in the completion of the Work.

“Notice to Proceed” or “NTP” means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

“Payment Application” means the City form used by the Contractor to request payment for Work performed.

“Product Data” means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

“Project” means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

“Project Schedule” means a schedule as prescribed in this Contract or subsequent Job Orders.

“Project Record Documents” means the documents created pursuant to Article 12.

“Samples” means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

“Schedule of Construction” means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: Schofield Civil Construction LLC
Eddie Hawley, JOC Account Manager
22849 N. 19th Avenue #110
Phoenix, Arizona 85027
Phone: 406.390.4000
Email: ech@schofieldcivil.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
HAYDON COMPANIES, LLC

CONTRACT NO. 2025082

This JOB ORDER CONTRACT FOR Category 1: Street Maintenance (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and Haydon Companies, LLC, an Arizona limited liability company (the "Contractor"). This Contract is for Street Maintenance, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – General for "Category 1: Street Maintenance (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing Street Maintenance.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to Street Maintenance for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC Street Maintenance category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

“Differing Site Conditions” means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

“Final Acceptance” means the completion of the Project as prescribed in Article 10.

“Float” means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

“Legal Requirements” means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

“Liquidated Damages” means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments’ (MAG) Uniform Standard Specifications and Details for Public Works Construction.

“Materials” means goods, items, or supplies utilized in the completion of the Work.

“Notice to Proceed” or “NTP” means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

“Payment Application” means the City form used by the Contractor to request payment for Work performed.

“Product Data” means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

“Project” means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

“Project Schedule” means a schedule as prescribed in this Contract or subsequent Job Orders.

“Project Record Documents” means the documents created pursuant to Article 12.

“Samples” means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

“Schedule of Construction” means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: Haydon Companies, LLC
Katie Haydon, President and CEO
4640 E. Cotton Gin Loop
Phoenix, Arizona 85040
Phone: 602.296.1496
Email: khaydon@haydonbc.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
M. R. TANNER DEVELOPMENT AND CONSTRUCTION, LLC

CONTRACT NO. 2025081

This JOB ORDER CONTRACT FOR Category 1: Street Maintenance (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and M. R. Tanner Development and Construction, LLC, an Arizona limited liability company (the "Contractor"). This Contract is for Street Maintenance, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – General for "Category 1: Street Maintenance (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing Street Maintenance.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to Street Maintenance for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC Street Maintenance category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

“Differing Site Conditions” means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

“Final Acceptance” means the completion of the Project as prescribed in Article 10.

“Float” means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

“Legal Requirements” means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

“Liquidated Damages” means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments’ (MAG) Uniform Standard Specifications and Details for Public Works Construction.

“Materials” means goods, items, or supplies utilized in the completion of the Work.

“Notice to Proceed” or “NTP” means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

“Payment Application” means the City form used by the Contractor to request payment for Work performed.

“Product Data” means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

“Project” means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

“Project Schedule” means a schedule as prescribed in this Contract or subsequent Job Orders.

“Project Record Documents” means the documents created pursuant to Article 12.

“Samples” means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

“Schedule of Construction” means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: M. R. Tanner Development and Construction, LLC
Josh Skinner, JOC Account Manager
1327 W. San Pedro Street
Gilbert, Arizona 85233
Phone: 480.633.8500
Email: jskinner@mrtanner.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

SEE FOLLOWING PAGES

ALL EXHIBITS ARE ON FILE IN THE OFFICE OF THE CITY CLERK

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
SUNLAND ASPHALT & CONSTRUCTION, LLC

CONTRACT NO. 2025083

This JOB ORDER CONTRACT FOR Category 1: Street Maintenance (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and Sunland Asphalt & Construction, LLC, a Delaware limited liability company (the "Contractor"). This Contract is for Street Maintenance, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – General for "Category 1: Street Maintenance (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing Street Maintenance.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to Street Maintenance for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC Street Maintenance category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

"Differing Site Conditions" means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

"Final Acceptance" means the completion of the Project as prescribed in Article 10.

"Float" means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

"Legal Requirements" means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

"Liquidated Damages" means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments' (MAG) Uniform Standard Specifications and Details for Public Works Construction.

"Materials" means goods, items, or supplies utilized in the completion of the Work.

"Notice to Proceed" or "NTP" means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

"Payment Application" means the City form used by the Contractor to request payment for Work performed.

"Product Data" means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

"Project" means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

"Project Schedule" means a schedule as prescribed in this Contract or subsequent Job Orders.

"Project Record Documents" means the documents created pursuant to Article 12.

"Samples" means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

"Schedule of Construction" means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: Sunland Asphalt & Construction, LLC
Chance Cherry, Project Manager
3030 S. 7th St.
Phoenix, Arizona 85040
Phone: 602.639.1247
Email: ccherry@sunlandasphalt.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

ALL EXHIBITS ARE ON FILE IN THE OFFICE OF THE CITY CLERK

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
TALIS CONSTRUCTION CORPORATION

CONTRACT NO. 2025084

This JOB ORDER CONTRACT FOR Category 1: Street Maintenance (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and TALIS Construction Corporation, an Arizona corporation (the "Contractor"). This Contract is for Street Maintenance, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – General for "Category 1: Street Maintenance (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing Street Maintenance.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to Street Maintenance for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC Street Maintenance category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

“Differing Site Conditions” means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

“Final Acceptance” means the completion of the Project as prescribed in Article 10.

“Float” means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

“Legal Requirements” means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

“Liquidated Damages” means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments’ (MAG) Uniform Standard Specifications and Details for Public Works Construction.

“Materials” means goods, items, or supplies utilized in the completion of the Work.

“Notice to Proceed” or “NTP” means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

“Payment Application” means the City form used by the Contractor to request payment for Work performed.

“Product Data” means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

“Project” means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

“Project Schedule” means a schedule as prescribed in this Contract or subsequent Job Orders.

“Project Record Documents” means the documents created pursuant to Article 12.

“Samples” means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

“Schedule of Construction” means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: TALIS Construction Corporation
Manuel Lopez, President
1167 West Javelina Ave.
Mesa, Arizona 85210
Phone: 602.397.4833
Email: mlopez@talis.us

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
WILLMENG CONSTRUCTION, INC.

CONTRACT NO. 2025085

This JOB ORDER CONTRACT FOR Category 2: General Construction Services (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and Willmeng Construction, Inc., an Arizona corporation (the "Contractor"). This Contract is for General Construction Services, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – General for "Category 2: General Construction Services (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing General Construction Services.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to General Construction Services for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC General Construction Services category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

"Differing Site Conditions" means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

"Final Acceptance" means the completion of the Project as prescribed in Article 10.

"Float" means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

"Legal Requirements" means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

"Liquidated Damages" means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments' (MAG) Uniform Standard Specifications and Details for Public Works Construction.

"Materials" means goods, items, or supplies utilized in the completion of the Work.

"Notice to Proceed" or "NTP" means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

"Payment Application" means the City form used by the Contractor to request payment for Work performed.

"Product Data" means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

"Project" means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

"Project Schedule" means a schedule as prescribed in this Contract or subsequent Job Orders.

"Project Record Documents" means the documents created pursuant to Article 12.

"Samples" means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

"Schedule of Construction" means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: Willmeng Construction, Inc.
Parrish Rowland, JOC Division Manager
1702 E. Highland Ave.
Phoenix, Arizona 85016
Phone: 480.686.4821
Email: prowland@willmeng.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
HAYDON COMPANIES, LLC

CONTRACT NO. 2025086

This JOB ORDER CONTRACT FOR Category 2: General Construction Services (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and Haydon Companies, LLC, an Arizona limited liability company (the "Contractor"). This Contract is for General Construction Services, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – General for "Category 2: General Construction Services (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing General Construction Services.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to General Construction Services for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC General Construction Services category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

"Differing Site Conditions" means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

"Final Acceptance" means the completion of the Project as prescribed in Article 10.

"Float" means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

"Legal Requirements" means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

"Liquidated Damages" means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments' (MAG) Uniform Standard Specifications and Details for Public Works Construction.

"Materials" means goods, items, or supplies utilized in the completion of the Work.

"Notice to Proceed" or "NTP" means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

"Payment Application" means the City form used by the Contractor to request payment for Work performed.

"Product Data" means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

"Project" means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

"Project Schedule" means a schedule as prescribed in this Contract or subsequent Job Orders.

"Project Record Documents" means the documents created pursuant to Article 12.

"Samples" means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

"Schedule of Construction" means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: Haydon Companies, LLC
Katie Haydon, President and CEO
4640 E. Cotton Gin Loop
Phoenix, Arizona 85040
Phone: 602.296.1496
Email: khaydon@haydonbc.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
J. BANICKI CONSTRUCTION, INC.

CONTRACT NO. 2025087

This JOB ORDER CONTRACT FOR Category 2: General Construction Services (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and J. Banicki Construction, Inc., an Arizona corporation (the "Contractor"). This Contract is for General Construction Services, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – General for "Category 2: General Construction Services (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing General Construction Services.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to General Construction Services for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC General Construction Services category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

"Differing Site Conditions" means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

"Final Acceptance" means the completion of the Project as prescribed in Article 10.

"Float" means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

"Legal Requirements" means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

"Liquidated Damages" means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments' (MAG) Uniform Standard Specifications and Details for Public Works Construction.

"Materials" means goods, items, or supplies utilized in the completion of the Work.

"Notice to Proceed" or "NTP" means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

"Payment Application" means the City form used by the Contractor to request payment for Work performed.

"Product Data" means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

"Project" means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

"Project Schedule" means a schedule as prescribed in this Contract or subsequent Job Orders.

"Project Record Documents" means the documents created pursuant to Article 12.

"Samples" means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

"Schedule of Construction" means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: J. Banicki Construction, Inc.
Mike Abraham, President
4720 E. Cotton Gin Loop, Ste. 240
Phoenix, Arizona 85040
Phone: 602.390.1243
Email: mabraham@banicki.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

ALL EXHIBITS ARE ON FILE IN THE OFFICE OF THE CITY CLERK

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
BRYCON CORPORATION

CONTRACT NO. 2025088

This JOB ORDER CONTRACT FOR Category 2: General Construction Services (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and Brycon Corporation, a New Mexico corporation (the "Contractor"). This Contract is for General Construction Services, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – General for "Category 2: General Construction Services (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing General Construction Services.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to General Construction Services for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC General Construction Services category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

"Differing Site Conditions" means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

"Final Acceptance" means the completion of the Project as prescribed in Article 10.

"Float" means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

"Legal Requirements" means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

"Liquidated Damages" means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments' (MAG) Uniform Standard Specifications and Details for Public Works Construction.

"Materials" means goods, items, or supplies utilized in the completion of the Work.

"Notice to Proceed" or "NTP" means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

"Payment Application" means the City form used by the Contractor to request payment for Work performed.

"Product Data" means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

"Project" means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

"Project Schedule" means a schedule as prescribed in this Contract or subsequent Job Orders.

"Project Record Documents" means the documents created pursuant to Article 12.

"Samples" means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

"Schedule of Construction" means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: Brycon Corporation
Kevin Freis, Vice President of Construction
6915 W. Frye Rd.
Chandler, Arizona 85226
Phone: 602.920.6341
Email: kfreis@brycon.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
S.D. CRANE BUILDERS, INC.

CONTRACT NO. 2025089

This JOB ORDER CONTRACT FOR Category 2: General Construction Services (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and S.D. Crane Builders, Inc., an Arizona corporation (the "Contractor"). This Contract is for General Construction Services, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – General for "Category 2: General Construction Services (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing General Construction Services.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to General Construction Services for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC General Construction Services category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

"Differing Site Conditions" means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

"Final Acceptance" means the completion of the Project as prescribed in Article 10.

"Float" means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

"Legal Requirements" means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

"Liquidated Damages" means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments' (MAG) Uniform Standard Specifications and Details for Public Works Construction.

"Materials" means goods, items, or supplies utilized in the completion of the Work.

"Notice to Proceed" or "NTP" means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

"Payment Application" means the City form used by the Contractor to request payment for Work performed.

"Product Data" means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

"Project" means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

"Project Schedule" means a schedule as prescribed in this Contract or subsequent Job Orders.

"Project Record Documents" means the documents created pursuant to Article 12.

"Samples" means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

"Schedule of Construction" means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: S.D. Crane Builders, Inc.
Keith Burns, Director of Construction
1215 W. Rio Salado Pkwy., Suite 109
Tempe, Arizona 85281
Phone: 480.832.1777
Email: kburns@sdcranebuilders.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
HAYDON COMPANIES, LLC

CONTRACT NO. 2025090

This JOB ORDER CONTRACT FOR Category 3: Road Construction Services (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and Haydon Companies, LLC, an Arizona limited liability company (the "Contractor"). This Contract is for Road Construction Services, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – General for "Category 3: Road Construction Services (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing Road Construction Services.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to Road Construction Services for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC Road Construction Services category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

“Differing Site Conditions” means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

“Final Acceptance” means the completion of the Project as prescribed in Article 10.

“Float” means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

“Legal Requirements” means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

“Liquidated Damages” means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments’ (MAG) Uniform Standard Specifications and Details for Public Works Construction.

“Materials” means goods, items, or supplies utilized in the completion of the Work.

“Notice to Proceed” or “NTP” means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

“Payment Application” means the City form used by the Contractor to request payment for Work performed.

“Product Data” means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

“Project” means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

“Project Schedule” means a schedule as prescribed in this Contract or subsequent Job Orders.

“Project Record Documents” means the documents created pursuant to Article 12.

“Samples” means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

“Schedule of Construction” means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: Haydon Companies, LLC
Katie Haydon, President and CEO
4640 E. Cotton Gin Loop
Phoenix, Arizona 85040
Phone: 602.296.1496
Email: khaydon@haydonbc.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
J. BANICKI CONSTRUCTION, INC.

CONTRACT NO. 2025091

This JOB ORDER CONTRACT FOR Category 3: Road Construction Services (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and J. Banicki Construction, Inc., an Arizona corporation (the "Contractor"). This Contract is for Road Construction Services, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – General for "Category 3: Road Construction Services (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing Road Construction Services.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to Road Construction Services for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC Road Construction Services category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

"Differing Site Conditions" means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

"Final Acceptance" means the completion of the Project as prescribed in Article 10.

"Float" means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

"Legal Requirements" means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

"Liquidated Damages" means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments' (MAG) Uniform Standard Specifications and Details for Public Works Construction.

"Materials" means goods, items, or supplies utilized in the completion of the Work.

"Notice to Proceed" or "NTP" means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

"Payment Application" means the City form used by the Contractor to request payment for Work performed.

"Product Data" means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

"Project" means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

"Project Schedule" means a schedule as prescribed in this Contract or subsequent Job Orders.

"Project Record Documents" means the documents created pursuant to Article 12.

"Samples" means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

"Schedule of Construction" means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326

If intended for Contractor, to: J. Banicki Construction, Inc.
Mike Abraham, President
4720 E. Cotton Gin Loop, Ste. 240
Phoenix, Arizona 85040
Phone: 602.390.1243
Email: mabraham@banicki.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

ALL EXHIBITS ARE ON FILE IN THE OFFICE OF THE CITY CLERK

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
COMBS CONSTRUCTION COMPANY, INC.

CONTRACT NO. 2025092

This JOB ORDER CONTRACT FOR Category 3: Road Construction Services (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and Combs Construction Company, Inc., an Arizona corporation (the "Contractor"). This Contract is for Road Construction Services, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – General for "Category 3: Road Construction Services (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing Road Construction Services.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to Road Construction Services for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC Road Construction Services category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

“Differing Site Conditions” means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

“Final Acceptance” means the completion of the Project as prescribed in Article 10.

“Float” means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

“Legal Requirements” means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

“Liquidated Damages” means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments’ (MAG) Uniform Standard Specifications and Details for Public Works Construction.

“Materials” means goods, items, or supplies utilized in the completion of the Work.

“Notice to Proceed” or “NTP” means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

“Payment Application” means the City form used by the Contractor to request payment for Work performed.

“Product Data” means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

“Project” means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

“Project Schedule” means a schedule as prescribed in this Contract or subsequent Job Orders.

“Project Record Documents” means the documents created pursuant to Article 12.

“Samples” means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

“Schedule of Construction” means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: Combs Construction Company, Inc.
Michael Sullivan, Vice President/Project Manager
1903 W. Parkside Ln, Suite 100
Phoenix, Arizona 85027
Phone: 623.308.7368
Email: msullivan@combsaz.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
SUNLAND ASPHALT & CONSTRUCTION, LLC

CONTRACT NO. 2025093

This JOB ORDER CONTRACT FOR Category 3: Road Construction Services (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and Sunland Asphalt & Construction, LLC, a Delaware limited liability company (the "Contractor"). This Contract is for Road Construction Services, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – General for "Category 3: Road Construction Services (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing Road Construction Services.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to Road Construction Services for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC Road Construction Services category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

"Differing Site Conditions" means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

"Final Acceptance" means the completion of the Project as prescribed in Article 10.

"Float" means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

"Legal Requirements" means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

"Liquidated Damages" means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments' (MAG) Uniform Standard Specifications and Details for Public Works Construction.

"Materials" means goods, items, or supplies utilized in the completion of the Work.

"Notice to Proceed" or "NTP" means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

"Payment Application" means the City form used by the Contractor to request payment for Work performed.

"Product Data" means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

"Project" means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

"Project Schedule" means a schedule as prescribed in this Contract or subsequent Job Orders.

"Project Record Documents" means the documents created pursuant to Article 12.

"Samples" means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

"Schedule of Construction" means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: Sunland Asphalt & Construction, LLC
Rick Risner, Project Manager
3030 S. 7th St.
Phoenix, Arizona 85040
Phone: 602.705.1041
Email: rrisner@sunlandasphalt.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

ALL EXHIBITS ARE ON FILE IN THE OFFICE OF THE CITY CLERK

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
M. R. TANNER DEVELOPMENT AND CONSTRUCTION, LLC

CONTRACT NO. 2025094

This JOB ORDER CONTRACT FOR Category 3: Road Construction Services (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and M. R. Tanner Development and Construction, LLC, an Arizona limited liability company (the "Contractor"). This Contract is for Road Construction Services, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – General for "Category 3: Road Construction Services (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing Road Construction Services.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to Road Construction Services for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC Road Construction Services category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

"Differing Site Conditions" means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

"Final Acceptance" means the completion of the Project as prescribed in Article 10.

"Float" means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

"Legal Requirements" means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

"Liquidated Damages" means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments' (MAG) Uniform Standard Specifications and Details for Public Works Construction.

"Materials" means goods, items, or supplies utilized in the completion of the Work.

"Notice to Proceed" or "NTP" means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

"Payment Application" means the City form used by the Contractor to request payment for Work performed.

"Product Data" means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

"Project" means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

"Project Schedule" means a schedule as prescribed in this Contract or subsequent Job Orders.

"Project Record Documents" means the documents created pursuant to Article 12.

"Samples" means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

"Schedule of Construction" means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: M. R. Tanner Development and Construction, LLC
Josh Skinner, JOC Account Manager
1327 W. San Pedro Street
Gilbert, Arizona 85233
Phone: 480.633.8500
Email: jskinner@mrtanner.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
S.D. CRANE BUILDERS, INC.

CONTRACT NO. 2025095

This JOB ORDER CONTRACT FOR Category 4: Steel Building/Structure Construction Services (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and S.D. Crane Builders, Inc., an Arizona corporation (the "Contractor"). This Contract is for Steel Building/Structure Construction Services, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – General for "Category 4: Steel Building/Structure Construction Services (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing Steel Building/Structure Construction Services.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to Steel Building/Structure Construction Services for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC Steel Building/Structure Construction Services category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

"Differing Site Conditions" means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

"Final Acceptance" means the completion of the Project as prescribed in Article 10.

"Float" means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

"Legal Requirements" means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

"Liquidated Damages" means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments' (MAG) Uniform Standard Specifications and Details for Public Works Construction.

"Materials" means goods, items, or supplies utilized in the completion of the Work.

"Notice to Proceed" or "NTP" means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

"Payment Application" means the City form used by the Contractor to request payment for Work performed.

"Product Data" means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

"Project" means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

"Project Schedule" means a schedule as prescribed in this Contract or subsequent Job Orders.

"Project Record Documents" means the documents created pursuant to Article 12.

"Samples" means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

"Schedule of Construction" means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: S.D. Crane Builders, Inc.
Keith Burns, Director of Construction
1215 W. Rio Salado Pkwy., Suite 109
Tempe, Arizona 85281
Phone: 480.832.1777
Email: kburns@sdcranebuilders.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

AND
BWC ENTERPRISES, INC. DBA WOODRUFF CONSTRUCTION

CONTRACT NO. 2025097

This JOB ORDER CONTRACT FOR Category 4: Steel Building/Structure Construction Services (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and BWC Enterprises, Inc. dba Woodruff Construction, an Arizona corporation (the "Contractor"). This Contract is for Steel Building/Structure Construction Services, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – General for "Category 4: Steel Building/Structure Construction Services (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing Steel Building/Structure Construction Services.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to Steel Building/Structure Construction Services for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC Steel Building/Structure Construction Services category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

"Differing Site Conditions" means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

"Final Acceptance" means the completion of the Project as prescribed in Article 10.

"Float" means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

"Legal Requirements" means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

"Liquidated Damages" means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments' (MAG) Uniform Standard Specifications and Details for Public Works Construction.

"Materials" means goods, items, or supplies utilized in the completion of the Work.

"Notice to Proceed" or "NTP" means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

"Payment Application" means the City form used by the Contractor to request payment for Work performed.

"Product Data" means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

"Project" means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

"Project Schedule" means a schedule as prescribed in this Contract or subsequent Job Orders.

"Project Record Documents" means the documents created pursuant to Article 12.

"Samples" means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

"Schedule of Construction" means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: BWC Enterprises, Inc. dba Woodruff Construction
Wade Woodruff, President
9401 N. 7th Avenue
Phoenix, Arizona 85282
Phone: 480.921.1925
Email: wade.woodruff@woodruffaz.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
ACHEN-GARDNER CONSTRUCTION, LLC

CONTRACT NO. 2025100

This JOB ORDER CONTRACT FOR Category 1: Water/Wastewater Pipeline Utility & Infrastructure (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and Achen-Gardner Construction, LLC, an Arizona limited liability company (the "Contractor"). This Contract is for Water/Wastewater Pipeline Utility & Infrastructure, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – Water/Wastewater for "Category 1: Water/Wastewater Pipeline Utility & Infrastructure (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing Water/Wastewater Pipeline Utility & Infrastructure.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to Water/Wastewater Pipeline Utility & Infrastructure for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC Water/Wastewater Pipeline Utility & Infrastructure category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

"Differing Site Conditions" means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

"Final Acceptance" means the completion of the Project as prescribed in Article 10.

"Float" means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

"Legal Requirements" means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

"Liquidated Damages" means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments' (MAG) Uniform Standard Specifications and Details for Public Works Construction.

"Materials" means goods, items, or supplies utilized in the completion of the Work.

"Notice to Proceed" or "NTP" means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

"Payment Application" means the City form used by the Contractor to request payment for Work performed.

"Product Data" means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

"Project" means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

"Project Schedule" means a schedule as prescribed in this Contract or subsequent Job Orders.

"Project Record Documents" means the documents created pursuant to Article 12.

"Samples" means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

"Schedule of Construction" means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: Achen-Gardner Construction, LLC
Dan Spitza, President
2195 W. Chandler Blvd, Suite 200
Chandler, Arizona 85224
Phone: 480.403.9432
Email: dspitza@achen.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
B & F CONTRACTING, INC.

CONTRACT NO. 2025101

This JOB ORDER CONTRACT FOR Category 1: Water/Wastewater Pipeline Utility & Infrastructure (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and B & F Contracting, Inc., an Arizona corporation (the "Contractor"). This Contract is for Water/Wastewater Pipeline Utility & Infrastructure, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – Water/Wastewater for "Category 1: Water/Wastewater Pipeline Utility & Infrastructure (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing Water/Wastewater Pipeline Utility & Infrastructure.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to Water/Wastewater Pipeline Utility & Infrastructure for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC Water/Wastewater Pipeline Utility & Infrastructure category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

"Differing Site Conditions" means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

"Final Acceptance" means the completion of the Project as prescribed in Article 10.

"Float" means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

"Legal Requirements" means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

"Liquidated Damages" means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments' (MAG) Uniform Standard Specifications and Details for Public Works Construction.

"Materials" means goods, items, or supplies utilized in the completion of the Work.

"Notice to Proceed" or "NTP" means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

"Payment Application" means the City form used by the Contractor to request payment for Work performed.

"Product Data" means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

"Project" means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

"Project Schedule" means a schedule as prescribed in this Contract or subsequent Job Orders.

"Project Record Documents" means the documents created pursuant to Article 12.

"Samples" means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

"Schedule of Construction" means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6225

If intended for Contractor, to: B & F Contracting, Inc.
Josh Onstott, Executive Director
11011 N. 23rd Avenue
Phoenix, Arizona 85029
Phone: 480.403.9432
Email: jonstott@bfcontracting.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

JOB ORDER CONTRACT
BETWEEN
CITY OF BUCKEYE
AND
HAYDON COMPANIES, LLC

CONTRACT NO. 2025102

This JOB ORDER CONTRACT FOR Category 1: Water/Wastewater Pipeline Utility & Infrastructure (the "Contract") is made and entered into, by and between the City of Buckeye, an Arizona municipal corporation (the "City") and Haydon Companies, LLC, an Arizona limited liability company (the "Contractor"). This Contract is for Water/Wastewater Pipeline Utility & Infrastructure, and issued as required by award of individual Job Orders (the "Project").

RECITALS

A. The City issued a Request for Qualifications entitled "Job Order Contracting – Water/Wastewater for "Category 1: Water/Wastewater Pipeline Utility & Infrastructure (the "RFQ") incorporated herein by reference, seeking proposals from vendors interested in providing Water/Wastewater Pipeline Utility & Infrastructure.

B. The Contractor submitted a statement of qualifications (the "SOQ"), attached hereto as Exhibit A, in response to the RFQ, attached hereto as Exhibit B, and both Exhibits are incorporated herein by reference, and the City desires to enter into an Agreement with the Contractor for indefinite quantity and indefinite delivery for various projects related to Water/Wastewater Pipeline Utility & Infrastructure for the City. The Projects may include Design Services, preconstruction services, permitting regulatory requirements and as-built/close-out documents (collectively the "Services").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises, covenants and agreements stated herein, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged, the City and the Contractor agree as follows:

ARTICLE 1
CONTRACT TERM

1. This Contract has a base period of one (1) year and four (4) option periods of one (1) year each that may be exercised in the sole discretion of the City. Any exercise of any option to renew this Contract beyond the base period will only be effective upon written notice from the City. The time period during which this Contract is in effect is the "Term".

2. The Contract Time for each Job Order shall start with the Notice to Proceed ("NTP") and end with Final Acceptance, as set forth below. The NTP will not be issued until prior approval and acceptance by the City of the Job Order.

3. The Contract Time is identified in the Job Order as the Contract Duration in terms of calendar days. Contractor agrees that it will commence performance of the Work after receiving an official NTP letter and complete the Project through both Substantial Completion (if applicable) and Final Completion within the Contract Time.

4. Time is of the essence of this Contract, and each Job Order issued hereunder, for each Project, and for each phase and/or designed milestone thereof.

5. Failure on the part of Contractor to adhere to the approved Project Schedule will be deemed a material breach and sufficient grounds for termination of a specific Job Order and/or this Contract by the City. The City will assess liquidated damages as described in each Job Order for each calendar day of delay beyond the Final Completion date.

ARTICLE 2
OVERVIEW OF JOB ORDER CONTRACTING UNDER THIS CONTRACT

1. This Contract establishes an indefinite delivery, indefinite quantity, Job Order Contract for such Services within the scope of this Contract as the City may request from time to time by issuance of an individual Job Order for each Project. Unless otherwise specified in a specific Job Order, Job Orders generally will not include Design Services and that where Design Services are necessary, the City will provide them under separate contract. There will be a separate Job Order for each Project that will describe the Work to be provided by Contractor for that Project. There may be multiple projects and therefore multiple Job Orders under this Contract.

2. The amount to be paid by the City for the Project under each Job Order is the Contract Price for that Job Order. The Job Order price will include a total amount for each Job Order priced for the Work described for that Job Order. The Contract Price for any Job Order will be established as a Firm Fixed Price, subject to the following:

   (a) Estimated values for individual projects are estimated at $100,000.00 to $1,000,000.00. Most projects will be completed within the same fiscal year they are initiated in or within three hundred sixty-five (365) days from the Notice to Proceed. Projects may extend into the next fiscal year and beyond, but in no instance will any one project under this Contract exceed $2,000,000.00. The total Job Orders for a single contractor issued during a single fiscal year will not exceed $6,000,000.00.

   (b) There is no limit on the number of Job Orders that the City may issue to the Contractor during the term of this Contract. Likewise, there is no requirement that the City issue any Job Orders to the Contractor during the Term of this Contract.

3. This Contract is non-exclusive. The City shall have the right to engage other contractors to perform the Services or to self-perform the Services.

4. No Contract in relation to any specific Work is in effect until a Job Order has been fully executed by the City and Contractor.

5. During the Term of this Contract, the City will issue an individual Job Order request for proposal to the Contractors under the JOC Water/Wastewater Pipeline Utility & Infrastructure category for each Project or negotiate directly with a contractor. Each Job Order will have specific instructions concerning that Job Order. The Contractor will follow these specific instructions when preparing a response in the form of a Job Order Proposal.

6. The general steps for development of a Job Order are:

   (a) When the City identifies a need for performance of a Project under a Job Order; the City will issue an RFP to the Contractor and also advise the Contractor of the nature of the Work to be done. This is done either by a delivery order request for proposal or through direct negotiations utilizing the rankings from the RFQ evaluation process as specified in the RFQ. At the same time, the City will advise the Contractor if Design Services are required and how those services will be provided. Within seven (7) working days of receipt of this notification, the Contractor will:

      (i) Visit the proposed Project Site with City designated representatives; and
      (ii) Arrange with the City to further define the scope of the Project.

   The Contractor shall thoroughly acquaint itself with all available information concerning the conditions of the Work under each Job Order and is responsible for correctly and fully estimating the difficulty of performing the Work, the actions required to perform the Work and the cost of successfully performing the Work under each Job Order.

   (b) The City may arrange for any needed Design Services to produce the Drawings and Specifications. Design Services will not begin until the scope of Design Services is approved by the City. The Drawings and Specifications developed by the Design Services are subject to approval by the City. If there are no Design Services, the City will develop Drawings and Specifications consisting of a line drawing and a written description of the contemplated Work.

   (c) Upon establishment of the scope of work, the Contractor will prepare its proposal for accomplishment of the Project. The proposal will include pricing and schedule for completion of the Project.

7. Upon award of a Job Order, a signed copy of the Job Order will be mailed or electronically forwarded to the Contractor. Failure by the Contractor to pick up or receive the mailed or

electronic orders shall not relieve the Contractor from the obligation to complete the Work under the Job Order in accordance with the terms of this Contract or the terms of each Job Order.

8. The City may provide a verbal NTP for the Work in advance of issuing the formal NTP letter (which will be followed up with a written NTP). Normally, NTP will be issued under separate cover from the Job Order. The Contract duration starts with the date on the NTP letter.

ARTICLE 3
DEFINITIONS

"Addenda" means written or graphic instruments issued prior to the submittal of the Proposal(s), which clarify, correct or change the Proposal(s) requirements.

"Agreement" or "Contract" means the executed agreement between the City and Contractor, including any amendments to the executed Agreement.

"Certificate for Payment" means the City form issued by the City to certify amount due and payable by the City to the Contractor.

"Certificate of Final Completion" means the City form issued by the City to the Contractor stating the Work required under the Contract has been completed.

"Certificate of Substantial Completion" means the City form issued by the City to the Contractor certifying that the Work under the Contract is considered sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Change Order" means a written instrument issued after execution of a Job Order or this Contract signed by the City and the Contractor, stating their agreement upon all of the following: the scope of the change in the Work; the amount of the adjustment to the Contract Price; and the extent of the adjustment to the Contract Time(s). A Change Order is an amendment to the Agreement.

"City" means the City of Buckeye, a municipal corporation, with whom Contractor has entered into this Contract and for whom the Services is to be provided pursuant to said Contract.

"City's Project Criteria" means information developed by or for the City to describe the City's program requirements and objectives for the Project, including use, space, price, time, site and expandability requirements, as well as submittal requirements and other requirements governing Contractor's performance of the Work. The City's Project Criteria may include conceptual documents, design criteria, performance requirements and other Project-specific technical materials and requirements.

"City's Representative" means the person designated within this Contract.

"Commissioning" means the process for achieving, validating and documenting the performance of the Project including any works and its systems to meet the design needs and requirements of the City.

"Construction Documents" means the plans, specifications and drawings prepared by the Contractor or a Consultant.

"Construction Drawings" means the detailed drawings approved as part of the approved Construction Documents.

"Construction Work" means the construction component of the Project.

"Contract Documents" means the following items and documents in descending order of precedence: (i) all written modifications, amendments and Change Orders to this Contract; (ii) this Contract, including all exhibits and attachments, executed by the City and Contractor to include each Job Order; (iii) written supplementary conditions; (iv) Construction Documents prepared and approved; (v) Contractor's approved Variations of the City's Project Criteria, as contained in Exhibit A.; (vi) City's Project Criteria; (vii) Contractor's Proposal(s), except for accepted Variations of the City's Project Criteria, submitted in response to City's Project Criteria.

"Contract Price" means the amount or amounts set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Contract Time" means the Days set forth in each awarded Job Order subject to adjustment in accordance with this Contract.

"Job Order" means a specific written agreement between the City and the Contractor for Work to be performed under this Contract for an individual, mutually agreed upon scope of work, schedule and price.

"Day(s)" means calendar days unless otherwise specifically noted in the Contract Documents.

"Deliverables" means the work products prepared by the Contractor in performing the scope of work described in each Job Order.

"Design Services" means all professional services to be performed or procured by the Contractor or by the City to provide required Project design under this Contract and any subsequent amendments.

"Job Order Contractor" means the firm, corporation, or other approved legal entity with whom the City has entered into this Contract to provide services as detailed in this Contract. The term Contractor may be used to identify the Job Order Contractor.

“Differing Site Conditions” means concealed or latent physical conditions or subsurface conditions at the Site that, (i) materially differ from the conditions indicated in the Scope of Work issued with each Job Order or (ii) are of an unusual nature, differing materially from the conditions ordinarily encountered and generally recognized as inherent in the Work.

“Final Acceptance” means the completion of the Project as prescribed in Article 10.

“Float” means the number of Days by which an activity can be delayed without lengthening the Critical Path and extending the Substantial Completion date.

“Legal Requirements” means all applicable federal, state and local laws, codes, ordinances, rules, regulations, orders and decrees of any government or quasi-government entity having jurisdiction over the Project or Site, the practices involved in the Project or Site, or any Work.

“Liquidated Damages” means a specified amount due by the Contractor when in breach of the Contract. The amount is determined based off of the Contract Price and predetermined amounts from the Maricopa Association of Governments’ (MAG) Uniform Standard Specifications and Details for Public Works Construction.

“Materials” means goods, items, or supplies utilized in the completion of the Work.

“Notice to Proceed” or “NTP” means the directive issued by the City, authorizing the Contractor to start Work or a portion of the work.

“Payment Application” means the City form used by the Contractor to request payment for Work performed.

“Product Data” means illustrations, standard schedules, performance charts, instructions, brochures, diagrams and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

“Project” means the Work to be completed in the execution of any awarded Job Order and as amended and as prescribed as any Scope of Work in identified in each awarded Job Order. Project means the Work associated with each awarded Job Order issued under this Contract.

“Project Schedule” means a schedule as prescribed in this Contract or subsequent Job Orders.

“Project Record Documents” means the documents created pursuant to Article 12.

“Samples” means physical examples which illustrate materials, equipment or workmanship and establish standards by which the Work will be judged.

“Schedule of Construction” means the timeline submitted by the Contractor for the completion of the Work.

"Schedule of Values (SOV)", means the Document specified in the construction phase, which divides the Contract Price into pay items, such that the sum of all pay items equals the awarded Job Order Price for the Work, or for any portion of the Work having a separate specified Contract Price.

"Shop Drawings" mean drawings, diagrams, schedules and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier or distributor to illustrate some portion of the Work.

"Scheduled Substantial Completion Date" means the calendar date equal to the Notice to Proceed date established plus the number of Days established in each Job Order.

"Site" means the land or locations on which the Project is located, as more particularly described in the Job Order.

"Subcontractor" or "Sub consultant*"* means any person or entity retained by Contractor as an independent contractor to perform a portion of the Work and shall include material, men and suppliers.

"Substantial Completion" means the date on which the Work, or an agreed upon portion of the Work, is sufficiently complete so that the City can occupy and use the Project or a portion thereof for its intended purposes.

"Technical Consultant" means an agent of the City who furnishes project management assistance (if applicable to a Job Order).

"Variations of the City's Project Criteria" means agreed changes to the City's Project Criteria by both Parties.

"Work" means as defined in Article 5, Paragraph 2.

ARTICLE 4
DESIGN PHASE AND DESIGN SERVICES

1. Costs for Preconstruction services will be included in Contractor's firm fixed price cost proposal.

2. Normally the City will obtain Design Services from a consultant or prepare design documents using City Staff. However, Contractor may also be required to provide incidental Design Services for all or a portion of the Work to be constructed under a specific Job Order. If consulting services for design and the preparation of Plans and Specifications are required; they will be paid for as a separate line item in the Contractor's price proposal.

ARTICLE 5
CONSTRUCTION SERVICES

1. Contractor shall perform all Work necessary to construct the Project in accordance with all applicable Legal Requirements, this Contract and the specifications outlined in each Job Order, and render the Project and all its components operational and functionally and legally usable for their intended purpose.

2. The term "Work" shall mean whatever is done by or required of Contractor to perform and complete its duties relating to the construction of each Job Order under the Contract, including, without limitation, the following:

   A. Construction of the whole and all parts of the Project in full and strict conformity with each Job Order;

   B. The provision and furnishing, and prompt payment therefore, of all labor, supervision, services, materials, supplies, equipment, fixtures, appliances, facilities, tools, transportation, storage, power, fuel, heat, light, cooling, other utilities and things required for the construction of each Job Order;

   C. The procurement and furnishing of all necessary permits and other permits required for the construction of each Job Order;

   D. The creation and submission to the City of detailed as-built drawings depicting all as-built construction;

   E. The furnishing of any required surety bonds and insurance as may be required by each Job Order;

   F. The furnishing of all equipment and product warranties, manuals, test results and user guides required by each Job Order or otherwise reasonably available to Contractor;

   G. The furnishing of all other services and things required or reasonably inferable from the Contract Documents, including the provisions of Article 6 below.

ARTICLE 6
TIME FOR CONSTRUCTION: THE CONTRACT TIME

1. After the City has awarded each Job Order, the City shall issue a NTP directing Contractor to proceed with the Work on the date indicated in the notice (the "Commencement Date"). Work shall commence within ten (10) days of the Commencement Date.

2. Contractor shall commence the Work within ten (10) days of the Commencement Date, and the Work shall be carried out regularly and without interruption. Contractor shall substantially complete the Work no later than the date established in each Job Order or such other date as may be issued by a Change Order (the "Scheduled Completion Date"). The number of calendar days between the effective date of the Contract and the Scheduled Completion Date is the "Contract Time". Contractor shall achieve Final Completion of the Work no later than thirty (30) calendar days after achieving Substantial Completion.

3. Contractor understands that if Substantial Completion for entire project is not attained by the Scheduled Substantial Completion date, the City will suffer damages which are difficult to determine and accurately specify. Contractor agrees that if Substantial Completion is not attained by the Scheduled Substantial Completion Date, Contractor shall pay the City the amount established in each Job Order as liquidated damages for each day that Substantial completion extends beyond the Scheduled Substantial Completion Date.

4. All limitations of time set forth in each Job Order are material and time is of the essence of each Job Order.

ARTICLE 7
ADDITIONAL DUTIES AND RESPONSIBILITIES OF CONTRACTOR

1. The intent of this Contract is to require complete, correct and timely execution of all Job Orders awarded for the Construction Work. Any and all Construction Work that may be required reasonably implied or reasonably inferred by each Job Order as necessary to produce the intended result shall be provided by Contractor for the Construction Price as provided in each awarded Job Order.

2. All Work performed by Contractor shall be in strict compliance with each Job Order. "Substantial Compliance" is not strict compliance. Any Construction Work not in strict compliance with each Job Order is defective.

3. The Construction Work shall be strictly supervised and directed using Contractors best and highest skill and effort. Contractor shall bear full responsibility for any and all acts or omissions of those engaged in the Construction Work on behalf of the Contractor.

4. Contractor warrants and guarantees to the City that all labor furnished to perform the Construction Work under each Job Order will be competent to perform the tasks undertaken and is the best quality obtainable, that the product of such labor will yield only superior results in strict compliance with the requirements of each Job Order, that materials and equipment furnished will be of high quality and new unless otherwise permitted by the Job Order, and that the Construction Work will be of high quality, free

from faults and defects and in strict conformance with the requirements found in each Job Order. Any and all Construction Work not strictly conforming to these requirements shall be considered defective and shall constitute a breach of Contractor's warranty.

5. Special or specific guarantees and warranties which are required by each Job Order to run for a fixed period of time shall commence running on the date of Substantial Completion of all Construction Work. In general, Contractor warrants all work, including labor and materials, for a period of two (2) years from the date of Substantial Completion, unless otherwise specified in the Job Order.

6. Contractor, within fifteen (15) days after the Commencement Date, shall submit to the Manager of Construction and Contracting for his information, and shall comply with, Contractor's Schedule of Construction for each Job Order awarded. The Schedule of Construction shall reflect the performance of all Construction Work on weekdays and non-holidays. The Schedule of Construction shall be a detailed critical path (CPM) schedule in a form acceptable to the City. The Schedule of Construction shall be revised at least monthly and shall be revised to reflect conditions encountered from time to time and shall be related to the entire Project awarded as a Job Order. Each such revision shall be furnished to the City. Strict compliance with the requirements of this Paragraph shall be a condition precedent for payment to Contractor, and failure to strictly comply with this requirement shall constitute a material breach of the Contract. No claim for an increase in the Construction Price shall be allowed as a result of Contractor basing the Construction Price upon an early completion schedule, or as a result of delays and costs attributable to completion later than the planned early completion date.

7. Contractor shall continuously maintain at the Site, for the benefit of the City, an updated copy of the awarded Job Order, including one record copy of the Job Order Documents marked to record on a current basis changes, selections and modifications made during construction. Additionally, Contractor shall maintain at the Site, for the benefit of the City, a copy of all Shop Drawings, Product Data, Samples, and other Submittals, if any, that are specified in the awarded Job Order. Upon Final Completion of the Construction Work, or upon the City's request, all of the documents described in this Paragraph shall be finalized and delivered to the City and shall become the property of the City.

8. Contractor shall review, study, and approve, or take other necessary action upon all Shop Drawings, Product Data, Samples, and other Submittals to ensure that each Job Order will be constructed in a timely fashion in strict compliance with the requirements of the Contract and Job Order. No deviation from, substitution for or other modification from the Documents shall be allowed by Contractor in a shop drawing or submittal without written approval, in the form of a Change Order from the City, and signed by the parties hereto. Contractor shall engage in prompt and adequate review of Shop Drawing and other Submittals to maintain the Construction Schedule; Contractor also warrants it will

use its best independent professional judgment in its review to determine compliance with the Contract Documents.

9. The City shall also, in its discretion, have the right to review and approve Submittals. In the event that the City exercises the foregoing right to review, Contractor shall not perform any portion of the Construction Work unless and until the City approves in writing such Submittal. Any such approval shall not be evidence that Construction Work installed pursuant to the City's approval conforms to the requirements of the Contract nor shall such approvals relieve Contractor of any of its responsibilities or warranties under the Contract. If the City elects to review Submittals, Contractor shall maintain a Submittal log which shall include, at a minimum, the date of each Submittal, the date of any resubmittal, the date of any approval or rejection, and the reason for any approval or rejection. Contractor shall have the duty to carefully review, inspect and examine any and all Submittals before submission of same to the City. Shop Drawings and other Submittals from Contractor do not constitute a part of this Contract.

10. Contractor shall procure from all Subcontractors and Suppliers and shall transmit to the City, all warranties required by the Contract. Contractor shall review all such warranties and shall certify to the City that the warranties are in strict compliance with the requirements of the Contract.

11. Contractor shall prepare or procure and shall transmit to the City all documentation required by this Contract regarding the operation and recommended maintenance programs relating to the various elements of the Construction Work.

12. If required in the Job Order, Contractor shall prepare and provide to the City a complete set of all as-built drawings which shall be complete and, except as specifically noted, shall reflect performance of the Construction Work in strict compliance with the requirements of this Contract.

13. Contractor shall assume all labor responsibility for all personnel assigned to or contracted for the performance of the Construction Work and agrees to strictly comply with all its obligations as employer with respect to said personnel under all applicable labor laws.

14. Contractor shall be responsible for procuring all tests and inspections required by sound professional practices and by governmental authorities having jurisdiction over the Project. Contractor shall submit certified results of such tests to the City. If the laws, ordinances, rules, regulations or orders of any public authority having jurisdiction require any Construction Work to be specifically inspected, tested, or approved, Contractor shall assume full responsibility therefore, pay all costs in connection therewith and furnish to the City the required certificates of inspection, testing or approval.

15. Contractor shall, during the course of the Construction Work, comply with any regulations or guidelines prescribed by the City. Contractor warrants that it will comply with all public laws, ordinances, rules and regulations applicable to the services to be performed under the Contract, including without limitation, those relating to the terms and conditions of the employment of any person by Contractor in connection with the Construction Work to be performed under the Contract.

16. Contractor shall perform the Construction Work in accordance with all construction codes, laws, ordinances or regulations applicable to the design and execution of the Construction Work. Any fine or penalty which may be imposed as consequence of any violation of this provision shall be paid by Contractor, and Contractor, to the fullest extent permitted by the law, shall fully defend, indemnify and hold the City harmless for, from and against all loss, damage, and expense, including attorney's fees, resulting from any such violation or alleged violation of codes, laws, ordinances, or regulations, regardless of a concurrent contribution by the City, through negligence or other wrongful act, to such loss, damage, or expense, except that such indemnity shall not apply if the violation is solely and directly caused by a negligent or willful act or omission of the City, its officers, agents, or employees.

17. All construction and building permits, licenses and authorizations necessary for the construction of the Project shall be secured and paid for by Contractor. Contractor shall notify the City when it has received said permits, licenses, and authorizations, and upon receipt shall supply the City with copies of same. The originals of permits, licenses and authorizations shall be delivered to the City upon completion of the Construction Work, and receipt of these documents by the City shall be a condition precedent to final payment. Contractor shall also give and maintain any and all notices required by applicable laws pertaining to the construction of the Construction Work.

18. While on the City's property, all Contractor's employees and Subcontractors shall confine themselves to areas designated by the City and will be subject to the City's badge and pass requirements, if any, in effect at the Site of the Construction Work.

19. Contractor shall take all reasonable steps and legally required measures at the site to comply with applicable safety regulations and standards and to adequately protect the Construction Work, stored materials, and temporary structures located on the premises, and to prevent unauthorized persons from entering upon the site. Contractor shall at all times safeguard the City's property and employees from injury or loss in connection with the performance of the Contract. Contractor shall at all times safeguard and protect its own partially or completely finished Construction Work and that of the adjacent property and all adjacent construction Work from damage. Contractor shall protect the City's equipment, apparatus, machinery, and other property and all adjacent construction Work with boarding and other safeguards so as to keep the premises free

from dampness, dirt, dust, or other damage and shall remove all such temporary protection upon completion of the Construction Work.

20. Unless otherwise instructed by the City, Contractor shall repair and return to original condition all buildings, streets, curbs, sidewalks, utilities or other facilities affected by Contractor's performance of the Construction Work.

21. Contractor shall keep the site reasonably clean during performance of the Construction Work. Upon Final Completion of the Construction Work, Contractor shall thoroughly clean the site and the Project and remove all waste, debris, trash and excess materials or equipment, together with Contractor's property therefrom.

22. At all times relevant to the Contract, Contractor shall provide access to the Construction Work to the City and its designees without formality or other procedure.

23. The City's decisions in matters relating to aesthetic standards and effect shall be final.

24. In performing both Design Services and Construction Work under this Contract, the relationship between the City and Contractor is that of independent contractor, and the execution of this Contract does not change the independent status of Contractor. Contractor shall exercise independent judgment in performing its duties under this Contract and is solely responsible for setting working hours, scheduling or prioritizing the Contract work flow and determining how all Contract work is to be performed. No term or provision of this Contract or act of Contractor in the performance of this Contract shall be construed as making Contractor the agent, servant or employee of the City, or making Contractor or any of its employees eligible for the fringe benefits, such as retirement, insurance and worker's compensation, which the City provides its employees.

ARTICLE 8
CONTRACT PRICE

1. The City shall pay, and Contractor shall accept, as full and complete payment for all Work associated with each Job Order the amount approved and awarded to the Contractor as a Job Order. Each Job Order will be a separate contract under this Contract. The general terms and conditions will be established by this Contract and special contract provisions will be established within each Job Order.

2. Job Order Construction Price, unless changed by Change Order, represents the absolute limit of obligation or liability that the City may ever have insofar as the cost for full and final completion of the Work, and the total of all payments to Contractor or its Subcontractors are concerned. Should additional amounts be required to be expended, over and above a Job Order Construction Price, to achieve completion of the Construction Work, including Project construction, and payment to Contractor, in accordance with this

Contract and any Special Provisions included in each awarded Job Order, liability for and payment of such additional amounts shall be the sole responsibility of Contractor and its Contract Surety herein, and the City shall never be liable for same.

3. In addition to the Construction Work Contractor will perform, it will also provide all the usual and necessary traditional construction management services incident to construction projects of the nature and scope of this Project, for which the Contract Price described in this Contract is paid. Such construction management services are not intended in any manner to diminish the overall responsibility of Contractor for the full and final completion of the Construction Work within the time and cost constraints specified in this Contract.

4. The City agrees to pay Contractor for the Cost of the Construction Work as defined in each Job Order, subject to submission by Contractor of all backup substantiation as may be reasonably required by the City. In no event shall the sum of payments for the Cost of the Construction Work and any other Contractor compensation exceed the Construction Price, as adjusted by Change Order. The term "Cost of the Construction Work" shall be defined in each Job Order and be established as a Firm-Fixed Price Contract.

ARTICLE 9
PAYMENT OF THE CONTRACT PRICE

1. Payments of the Contract Price will be made monthly as Work progresses. Payment Applications, covering labor, material, equipment, supplies, and other items completed, delivered or suitably stored on site during a period ending on the last calendar day of each month, shall be submitted to the City by the Contractor on the current edition of AIA Documents G702 and G703, within five (5) days after end of the period. Payment Applications shall be notarized shall be supported by such data substantiating the Contractor's right to payment as the City may require, and reflect retainage, if any, as is provided. All payments shall be subject to any offset or retainage provisions of the Contract.

2. Each payment made to the Contractor shall be on account of the total amount payable to the Contractor, and title to all Work covered by a paid partial payment shall thereupon pass to the City. Nothing in this section shall be construed as relieving the Contractor from the sole responsibility for care and protection of materials and Work upon which payments have been made, for restoration of any damaged Work, or as a waiver of the right of the City to require fulfillment of all terms of Contract Documents.

3. The City, within seven (7) days after receipt of the Payment Application, will either issue a Certificate for Payment for such amount as is properly due or issue written notice of the reasons for withholding such a certificate.

4. The issuance of a Certificate for Payment will constitute a representation by the City, observations at the site and the data comprising the Payment Application, that the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in his certificate); and that the Contractor is entitled to payment in the amount certified.

5. Payment may be withheld in whole or in part to protect the City on account of:

    a. Unsatisfactory job progress as determined by the City.
    b. Defective Work or materials not remedied.
    c. Disputed Work or materials.
    d. Claims or other encumbrances filed or reasonable evidence indicating probable filing of claims or other encumbrances by Subcontractors or Suppliers, or others.
    e. Failure of the Contractor to make payment to Subcontractors or Suppliers within seven (7) days after receipt of each progress payment.
    f. A reasonable doubt as determined by the City that the Work can be completed for the unpaid balance of the Contract Price or within the Contract Time.
    g. The Contractor's failure to perform any of its contractual obligations under the Contractor Documents, or any other Contract with the City.
    h. Deficiencies or claims asserted by the City against Contractor arising from any other project. Within fourteen (14) days following the receipt of the Certificate for Payment, the City shall pay to the Contractor 90% of the value of the Work in place and materials suitably stored at the Site. The remaining 10% shall be retained by the City until the Contract is 50% completed at which time the retainage shall be reduced to 5%; provided that: (a) the Contractor is making satisfactory progress on the Contract; and (b) in the City's sole judgment, there is no specific cause or claim requiring a greater amount than 5% to be retained. Thereafter, the City shall pay the Contractor 95% of the value of the Work, unless and until it determines satisfactory progress is not being made, at which time the 10% retainage may be reinstated. Such 10% reinstatement would be 10% of the total contract value of Work in place and materials stored. The City's sole judgment concerning the satisfactory progress of the Work shall be final.

6. Within sixty (60) days after the issuance of the Certificate of Final Completion by the City and receipt of all other documents required by the Contract, all retained amounts shall be paid to Contractor as part of Final Payment:

a. The Final Payment shall not become due until the Contractor delivers to the City full and final unconditional releases from subcontractors and major suppliers acknowledging payment in full. Any claim filed thereafter shall be the responsibility of the Contractor.
b. If any claim remains unsatisfied after all payments are made, the Contractor shall immediately upon demand refund to the City all monies that the latter may be compelled to pay in discharging such claim including all costs, interest and attorneys' fees.

ARTICLE 10
SUBSTANTIAL AND FINAL COMPLETION

1. "Substantial Completion" means that stage in the progression of the Construction Work, as approved by the City in writing, when the Project is sufficiently complete in accordance with the Contract that the City can enjoy beneficial use or occupancy of the entire Project and can utilize it for all of its intended purposes. A condition precedent to Substantial Completion is the receipt by the City of all necessary authorizations for the use of the Project required by any governmental or regulatory authority. The City reserves the right to use any part, phase or system of the Project when such part, phase or system is substantially completed, but such partial use of the Project shall not result in the Project being deemed substantially complete, and such partial use shall not be evidence of Substantial Completion.

2. When Contractor believes that the Construction Work is substantially complete, Contractor shall notify the City in writing and shall submit to the City a list of items remaining to be completed or corrected. The City, the City's designee, (or an independent consultant hired by the City) will perform an inspection. If the Construction Work is substantially complete, in the sole opinion of the City, the City will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion. The Certificate of Substantial Completion shall state the responsibilities of the City and Contractor for Project security, maintenance, damage to the Construction Work, and insurance, and shall fix the date, not more than 30 days after the established date of Substantial Completion, within which Contractor shall complete any items of incomplete or defective Construction Work. The Certificate of Substantial Completion shall be submitted to Contractor for its written acceptance of the responsibilities assigned to it in such certificate.

3. Within thirty (30) days following (a) Substantial Completion of the Construction Work, and (b) the parties' execution of the Certificate of Substantial Completion the City will remit payment of all sums due Contractor, including such amount of retainage based upon the value of remaining performance, less the reasonable costs for completing all incomplete Construction Work and/or any Design Services, correcting and bringing into strict conformance all defective and nonconforming Construction Work, and

handling all outstanding or threatened claims. Such payment less reasonable costs shall be determined by the City in its sole and absolute discretion.

4. "Final Completion" means the completion of all Work required by, and in strict compliance with, this Contract, the Job Order, including Contractor's provision to the City of all documents and deliverables required to be provided by the Contract.

5. When Contractor believes that all of the Construction Work is finally complete, and Contractor is ready for a final inspection, Contractor shall so notify the City in writing. The City (or an independent consultant hired by the City) will then make final inspection of the Construction Work and, if the Construction Work is complete in strict accordance with the Contract, and the Contract has been fully performed, then the City will issue a Certificate for Final Payment, providing for payment of the remainder of the Contract Price, less any amount withheld pursuant to the Contract.

6. The City shall make final payment of all remaining sums due to Contractor within thirty (30) days after Final Completion as reflected by the City's Certificate for Final Payment, provided that all documents and deliverables required to be delivered to the City under this Contract have been delivered as required, and provided that all other conditions precedent to payment have been satisfied.

7. Prior to being entitled to receive final payment, and as a condition precedent thereto, Contractor shall furnish the City, in the form and manner required by the City, the following:

    (a) a signed and notarized statement of final payment and release, in particular certifying that all Subcontractors and Suppliers have been paid all sums lawfully due to them, and releasing the City from all claims that Contractor had or might have asserted during the performance of this Contract;
    (b) if required by the City, separate releases of lien or lien waivers from each Subcontractor, lower tier subcontractor, laborer, Supplier or other person or entity who has, or might assert a claim against the City or the City's property;
    (c) consent of surety to final payment;
    (d) a complete set of the as-built drawings to include AutoCAD disks and the record set of Contract Documents; and
    (e) All product warranties, operating manuals, instruction manuals and other record documents, drawings and things customarily required of a Contractor, or expressly required herein, as a part of or prior to Project closeout.

8. Acceptance by Contractor of final payment shall constitute a waiver and release of all claims against the City by Contractor except for those claims previously made in writing against the City by Contractor, pending at the time of final payment and specifically identified on Contractor's pay request for final payment as unsettled at the time it submits its pay request.

ARTICLE 11
CITY'S DUTIES, OBLIGATIONS, AND RESPONSIBILITIES

In addition to payment, the City shall undertake to perform the following:

1. The City shall provide Contractor with information regarding the City's requirements for the Project including any desired or required design or construction schedule.

2. The City shall review any documents submitted by Contractor requiring the City's decision, and shall render any required decisions pertaining thereto.

3. In the event the City has actual knowledge of (a) any material fault or defect in the Construction Work, (b) nonconformance with the Contract, or (c) errors, omissions or inconsistencies in the Design Documents, the City shall give prompt written notice thereof to Contractor.

4. The City shall provide Contractor access to the Site and to the Construction Work, and shall provide Contractor with such information, existing and reasonably available, necessary to Contractor's performance of the Contract as Contractor may request.

5. The City shall cooperate with Contractor in securing any necessary licenses, permits, approvals or other necessary authorizations for the design, construction and certification of the Project.

6. The City shall perform the duties set forth in this Article 11 in a reasonably timely manner so as to permit the orderly and timely progress of Contractor's Design Services and of the Construction Work.

7. The City's review, inspection, or approval of any Construction Work, Design Documents, Submittals, or pay requests by Contractor shall be solely for the purpose of determining whether such Construction Work and such documents are generally consistent with the City's construction program and requirements. No review, inspection, or approval by the City of the Construction Work or documents shall relieve Contractor of its responsibility for the performance of its obligations under the Contract or the accuracy, adequacy, fitness, suitability, or coordination of its Design Services or the Construction Work. Approval by any governmental or other regulatory agency or other governing body of any Construction Work, Design Documents, or

Contract Documents shall not relieve Contractor of responsibility for the strict performance of its obligations under the Contract. Payment by the City pursuant to the Contract shall not constitute a waiver of any of the City's rights under the Contract or at law, and Contractor expressly accepts the risk that defects in its performance, if any, may not be discovered until after payment, including final payment, is made by the City.

8. The City's agreement not to exercise, or its delay or failure to exercise, any right under the Contract or to require strict compliance with any obligation of Contractor under the Contract shall not be a waiver of the right to exercise such right or to insist on such compliance at any other time or on any other occasion.

9. The City shall furnish to Contractor, prior to the execution of each Job Order, any and all written and tangible material knowingly in its possession concerning conditions below ground at the site of the Project. Such written and tangible material is furnished to Contractor only in order to make complete disclosure of such material and for no other purpose. By furnishing such material, the City does not represent, warrant, or guarantee its accuracy or completeness either in whole or in part, and shall have no liability therefore. If Contractor requests in writing, the City shall also furnish surveys, legal limitations, and utility locations (if known), and a legal description of the Project site.

10. The City shall obtain all easements required for construction, and shall pay for necessary assessments and charges required for use and occupancy of the Construction Work. Contractor shall render such assistance as the City may request in obtaining such easements, certificates of occupancy, and the like.

11. In the event Contractor fails or refuses to perform the Construction Work in strict accordance with the Contract, or is otherwise in breach of this Contract in any way, the City may, at its option, instruct Contractor to cease and desist from performing further Construction Work, or any part thereof. Upon receipt of such instruction from the City in writing, Contractor shall immediately cease and desist as instructed by the City and shall not proceed further until the cause for the City's instructions has been corrected, no longer exists, or the City instructs that the Construction Work may resume.

12. In the event the City issues such instructions to stop Construction Work, and in the further event that Contractor fails and refuses within seven (7) days of receipt of same to provide adequate assurance to the City that the cause of such instructions will be eliminated or corrected, then the City shall have the right to carry out the Construction Work with its own forces, or with the forces of other contractors, and Contractor shall be fully responsible for the costs incurred in correcting any defective or deficient Construction Work. The rights set forth in Article 11, Paragraph 11 and

this Article 11, Paragraph 12 are in addition to, and without prejudice to, any other rights or remedies the City may have against Contractor, including the rights to terminate or withhold payment as provided herein.

ARTICLE 12
JOB ORDER (PROJECT) DOCUMENTATION

1. Contractor shall maintain and protect all records relating in any manner whatsoever to the Project (the "Project Records") for no less than four (4) years after Final Completion of the Project, and for any longer period of time as may be required by law or good management practice.

2. All Project Records which are in the possession of Contractor or Contractors Subcontractors shall be made available to the City for inspection and copying upon the City's request at any time. Additionally, such records shall be made available upon request by the City to any state, federal or other regulatory authorities and any such authority may review, inspect and copy such records. The Project Records include, without limitation, all drawings, plans, specifications, Submittals, correspondence, logs, minutes, memoranda, photographs, audio or video recordings, or other writings or things which document the Project, its design, or its construction. Said records include those documents reflecting the cost of design and construction to Contractor.

ARTICLE 13
PERSONNEL, SUBCONTRACTORS AND SUPPLIERS

1. A "Subcontractor" means an entity which has a direct contract with Contractor to perform a portion of the Construction Work or the Design Services. For purposes of the Contract, Subcontractors shall also include those furnishing any equipment and materials for the Project.

2. A "Supplier" means an entity providing only equipment or materials for the performance of the Construction Work.

3. Upon execution of this Contract, and at such later times as may be applicable, Contractor shall furnish the City, in writing, the names of persons or entities proposed by Contractor to act as Subcontractors on the Project. Contractor shall provide such information regarding such proposed Subcontractors as the City deems necessary. The City shall promptly reply to Contractor, in writing, stating any objections the City may have to such proposed Subcontractors (“disapproved Subcontractor”). With respect to this Contract and the subject matter hereto, Contractor shall not engage the services of or otherwise enter into a contract with a disapproved Subcontractor. Notwithstanding the foregoing, any consent or failure to reject a subcontractor by the City shall in no way relieve Contractor of any of its duties or warranties under this Contract.

4. All subcontracts and purchase orders with Subcontractors shall afford Contractor rights against the Subcontractor which correspond to those rights afforded to the City against Contractor under this Contract, including those rights of Contract suspension, termination, and stop Construction Work orders as set forth in this Contract. It is expressly agreed that no relationship of agency, employment, contract, obligation or otherwise shall be created between the City and any Subcontractor of Contractor, and a provision to this effect shall be incorporated into all agreements between Contractor and its Subcontractors.

5. Should Contractor subcontract all or any part of the Construction Work, such subcontracting of the Construction Work shall not relieve Contractor from any liability or obligation under the Contract or under any applicable policy, law or regulation, and Contractor shall be responsible for all and any acts, defaults, omissions or negligence of Contractor's subcontractors, suppliers, and contractors.

6. In accordance with Article 7, Paragraph 4 above, Contractor shall employ and assign only qualified and competent personnel to perform any service or task concerning the Project. Contractor shall designate one such person as the Project Contractor. Absent written instruction from Contractor to the contrary, the Project Contractor shall be deemed to be Contractor's authorized representative and shall be authorized to receive and accept any and all communications from the City. Key design and supervisory personnel assigned by Contractor to each Job Order will be provided at the time the contractor submits the RFP pricing package. The contractor shall conform to all requirements established in each Job Order RFP issued by the City.

7. If, at any time during the course of the Project, the City reasonably determines that the performance of any Subcontractor or any member of Contractor's staff construction working on the Project is unsatisfactory, the City's Representative may require Contractor to remove such Subcontractor or staff member from the Project immediately and replace the staff member at no cost or penalty to the City for delays or inefficiencies the change may cause.

ARTICLE 14
CHANGES AND EXTENSIONS OF TIME

1. Changes in the Design Services (if required) or the Construction Work under this Contract, consisting of additions, deletions, revisions or any combination thereof, may be ordered unilaterally by the City without invalidating the Contract. Such changes shall be communicated by Change Order as applicable. Contractor shall proceed diligently with any changes, and same shall be accomplished in strict accordance with the terms and conditions as set forth in this Contract/Job Order.

2. All change orders, changes requested by Contractor, or extensions of Contract Time occurring during construction of the Project related to actual Construction Work shall be governed by the applicable provisions of this Contract/Job Order. All requests for additional compensation due to a change in the scope, and all requests for an extension of time to the Schedule, shall include sufficient backup documentation to reasonably understand the request and the amount of time or compensation requested and determines the merits of the request.

3. Upon the occurrence of a change order for Construction Work which increases the Cost of the Construction Work, the Construction Price will thereafter include such Cost of the Construction Work and Services attributable to such change to the extent allowed.

4. In the event the parties are unable to agree on the terms of a Change Order or Supplemental Agreement, then Contractor shall continue to diligently perform the Work, including any change directed by the City by Change Order or Supplemental Agreement, and shall keep thorough records of the cost of performance of such Change Order or Supplemental Agreement.

5. Contractor recognizes and accepts a fiduciary relationship of trust and confidence hereby established between Contractor and the City and agrees that it shall at all times in good faith use its best efforts to advance the City's interests and agrees to perform the Work in the highest professional manner.

ARTICLE 15
CLAIMS BY CONTRACTOR

1. Claims by Contractor against the City are subject to the terms and conditions of this Article 15, and strict compliance herewith shall be a condition precedent to any liability of the City therefore.

2. All claims for additional compensation or additional time, regardless of their nature, when they occur, or whether they occur during the design or construction phase, shall be governed by the City of Buckeye Procurement Code.

3. Contractor shall provide, and continue to provide, to the City all such documentation, including cost and time records, as and when the City may request so that the City may evaluate Contractor's claim.

4. Contractor shall continue its performance under this Contract regardless of the existence of any claims submitted by Contractor against the City.

5. In the event Contractor seeks to make a claim for an increase in the Construction Price, as a condition precedent to any liability of the City for any claim, Contractor shall strictly comply with the requirements of Paragraph 2 above and such notice shall be given by Contractor before proceeding to execute any alleged additional or changed Construction Work. Failure of the condition precedent to occur shall constitute a waiver by Contractor of any claim.

6. In connection with any claim by Contractor against the City for compensation in excess of the Construction Price, any liability of the City shall be strictly limited to the Cost of the Construction Work and Design Services if required as defined and allowed in this Contract and subsequent Job Orders and shall in no event include, indirect, consequential, impact or other costs, expenses or damages of Contractor or its Subcontractors. The City shall not be liable to Contractor for claims of third parties, including Subcontractors, for acts, omissions, events, or conditions for which the City would not be liable to Contractor under the terms of the Contract. As a condition precedent to the City's liability to Contractor for any loss or damage resulting from claims of third parties, including Subcontractors, such third parties must have complied with all conditions contained in their agreements with Contractor and such claims must have been submitted to the City by Contractor in strict compliance with all the requirements of this Article. The City shall not be liable to Contractor for claims of third parties including Subcontractors, unless and until the liability of Contractor has been established in a court of competent jurisdiction.

7. The resolution of any claim under this Article shall be reflected by a Change Order or Supplemental Agreement executed by the City and Contractor.

ARTICLE 16
UNCOVERING AND CORRECTING CONSTRUCTION WORK

1. If any of the Construction Work is covered, concealed or obscured contrary to the written request of the City, or contrary to any provision of the Contract, said Construction Work shall, if required by the City, be uncovered for inspection and shall be properly replaced at Contractor's expense without change in the Contract Time.

2. If any of the Construction Work is covered, concealed or obscured in a manner not inconsistent with Paragraph 1 above, it shall, if required by the City, be uncovered for inspection. If such Construction Work conforms strictly to the Contract, the cost of uncovering and proper replacement shall be charged to the City. If such Construction Work does not strictly conform to the Contract, Contractor shall pay the cost of uncovering and proper replacement.

3. Contractor shall immediately proceed to correct Construction Work rejected by the City as defective or failing to conform to the Contract. Contractor shall pay all costs

and expenses associated with correcting such rejected Construction Work, including any additional testing and inspections made necessary thereby.

4. In addition to its warranty obligations set forth elsewhere herein, Contractor shall be specifically obligated to correct at its cost and expense any and all defective or nonconforming Construction Work for a period of twelve (12) months following Final Completion upon written direction from the City. This obligation shall survive final payment by the City and termination of the Contract.

5. Nothing contained in Paragraph 4 shall establish any period of limitation with respect to other obligations which Contractor has under the Contract. Establishment of the one-year time period in Paragraph 4 above relates only to the duty to Contractor to specifically correct the Construction Work.

6. The City may, but shall in no event be required to, choose to accept defective or nonconforming Construction Work. In such event, the Contract Price shall be reduced by the reasonable costs of removing and correcting the defective or nonconforming Construction Work. The City shall be entitled to a reduction in the Construction Price regardless of whether the City has, in fact, removed and corrected such defective Construction Work. If the unpaid balance of the Construction Price, if any, is insufficient to compensate the City for the acceptance of defective or nonconforming Construction Work, Contractor shall, upon written demand from the City, pay the City such additional compensation for accepting defective or nonconforming Construction Work.

ARTICLE 17
SUSPENSION AND TERMINATION

1. The City may for any reason whatsoever suspend performance under the Contract. The City shall give written notice of such suspension to Contractor specifying when such suspension is to become effective.

2. From and upon the effective date of any Suspension ordered by the City, Contractor shall incur no further expense or obligations in connection with this Contract and Contractor shall cease its performance. Contractor shall also, at the City's direction, either suspend or assign to the City any of its open or outstanding subcontracts or purchase orders.

3. In the event the City directs a suspension of performance under this Article 17, through no fault of Contractor, and provided Contractor submits a proper claim as provided in this Contract, the City shall pay Contractor as full compensation for such suspension Contractor's reasonable costs, actually incurred and paid, of:

(a) Demobilization and remobilization, including such costs paid to Subcontractors
(b) Preserving and protecting Construction Work in place;
(c) Storage of materials or equipment purchased for the Project, including Insurance.
(d) Performing in a later, or during a longer, time frame than that contemplated by this contract.

4. If the City lifts the suspension it shall do so in writing and Contractor shall promptly resume performance of the Contract unless, prior to receiving the notice to resume, Contractor has exercised its right of termination as provided herein.

5. The City reserves the right, for any reason whatsoever (including, but not limited to, the City's failure to appropriate funding for this Contract), or without reason, terminate performance under the Contract by Contractor for convenience. The City shall give thirty (30) calendar days advance written notice of termination for convenience to Contractor. Contractor shall incur no further obligations in connection with the Contract and Contractor shall stop Work when such termination becomes effective. Contractor shall also, at the City's direction, either terminate or assign to the City outstanding orders and subcontracts. Contractor shall settle the liabilities and claims arising out of any terminated subcontracts and orders. The City may direct Contractor to assign Contractor's right, title and interest under terminated orders or subcontracts to the City or its designee. Contractor shall transfer title and deliver to the City such completed or partially completed Design Documents (if any), Construction Work and materials, equipment, parts, fixtures, information and Contract rights as Contractor has.

6. When terminated for convenience, Contractor shall be compensated as follows:

(a) Contractor shall submit a termination claim to the City specifying the amounts believed to be due because of the termination for convenience together with costs, pricing or other data required by the City. If Contractor fails to file a termination claim within three (3) months from the effective date of termination, the City shall pay Contractor an amount derived in accordance with Subparagraph (c) below;
(b) The City and Contractor may agree to the compensation, if any, due to Contractor under this paragraph;
(c) Absent agreement to the amount due to Contractor, the City shall pay Contractor, as full compensation for termination for convenience, the following amounts:

(i) the Cost of the Construction Work and Services, as defined and allowed by to the extent incurred or paid prior to receipt by Contractor of the notice of termination;
(ii) such portion of Work which is completed and unpaid as of the date of receipt by Contractor of the notice of termination; and

(iii) Reasonable costs of settling and paying claims arising out of the termination of subcontracts or orders hereinabove. These costs shall not include amounts paid in accordance with other provisions of this Contract. In no event shall Contractor be entitled to recover lost profits or other incidental or consequential damages from the City on account of a termination for convenience, or an erroneous termination for cause as described below.

7. If Contractor does not perform the Construction Work, or any part thereof, in a timely manner, supply adequate labor, supervisory personnel or proper equipment or materials, or if it fails to timely discharge its obligations for labor, equipment and materials, or proceeds to disobey applicable laws, ordinances, rules, regulations or orders of any public authority having jurisdiction, or otherwise commits a violation of a material provision of the Contract, then the City may by written notice to Contractor, without prejudice to any other right or remedy against Contractor or others, terminate the performance of Contractor and take possession of the Project site and of all materials and equipment at the site and may finish the Construction Work by whatever methods it may deem expedient. In such cases, Contractor shall not be entitled to receive any further payment until the Construction Work is finished.

8. In the event the employment of Contractor is terminated by the City for cause and it is subsequently determinedly a court or other tribunal of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a Termination for Convenience under this Paragraph and the provisions of this Paragraph regarding compensation shall apply.

ARTICLE 18
INDEMNITY

1. To the fullest extent permitted by law, Contractor agrees to defend, indemnify and hold the City, its elected officials, officers, agents and employees, harmless for, from and against any and all claims, lawsuits, judgments, costs and expenses for personal injury (including death), property damage or other harm for which recovery of damages is sought, suffered by any person or persons, that may arise out of or be occasioned by Contractor's breach of any of the terms or provisions of this Contract, or by any negligent, grossly negligent or strictly liable act or omission of Contractor, its officers, agents, or employees, in the performance of this Contract; except that the indemnity provided for in this paragraph shall not apply to any liability resulting from the sole negligence or fault of the City, its elected officials, officers, agents, employees or separate contractors. The provisions of this paragraph are solely for the benefit of the parties hereto and are not intended to create or grant any rights, contractual or otherwise, to any other person or entity.

ARTICLE 19
INSURANCE AND BONDS

See *Exhibit C.*

ARTICLE 20
CANCELLATION UNDER A.R.S. § 38-511

1. This Contract may be cancelled pursuant to the terms of Arizona Revised Statutes Section 38-511 as amended.

ARTICLE 21
GIFT TO PUBLIC SERVANT

1. The City may terminate this Contract immediately if Contractor has offered, conferred, or agreed to confer any benefit upon a City of Buckeye employee or official that the City of Buckeye employee or official is prohibited by law from accepting.

2. For purposes of this section, "benefit" means anything reasonably regarded as pecuniary gain or pecuniary advantage, including benefit to any other person in whose welfare the beneficiary has a direct or substantial interest, but does not include a contribution or expenditure made and reported in accordance with law.

3. Notwithstanding any other legal remedies, the City may require Contractor to remove any employee of Contractor from the Project who has violated the restrictions of this section or any similar state or federal law, and obtain reimbursement for any expenditures made to Contractor as a result of the improper offer, agreement to confer, or conferring of a benefit to a City employee or official.

ARTICLE 22
NONDISCRIMINATION

1. As a condition of this Contract, Contractor covenants that Contractor will take all necessary actions to insure that, in connection with any work under this Contract, Contractor, his associates and subcontractors, will not discriminate in the treatment or employment of any individual or groups of individuals on the grounds of race, color, religion, national origin, age, sex, or handicap unrelated to job performance, either directly, indirectly or through contractual or other arrangements. Contractor shall also comply with all applicable requirements of the Americans with Disabilities Act, 42 U.S.C.A. §§12101-12213, as amended. In this regard, Contractor shall keep, retain and safeguard all records relating to this Contract or work performed hereunder for a minimum period of three (3) years from final Contract completion, with full access allowed to authorized representatives of the City, upon request, for purposes of evaluating compliance with this and other provisions of the Contract.

2. Subject to existing law, and regulations, illegal or undocumented persons will not be employed by the Contractor for any work or services to be performed pursuant to this contract. The Contractor will ensure that this provision is expressly incorporated into any and all subcontracts or subordinate agreements issued in support of this contract. Contractor shall notify the City upon the selection and agreement with any sub-contractor, and shall notify the City prior to any subcontractor being on site doing work. Contractor agrees to comply with the provisions of section 274A(a)(1)(A) and 274A(a)(2) of the Immigration and Nationality Act ("INA") (8 U.S.C.1324a(a)(1)(A), 1324a(a)(2)) (the "INA employment provisions"), and any amendments thereto, prohibiting the unlawful employment of illegal or undocumented persons. Under the terms of this agreement, the Contractor shall not knowingly hire or employ for any work performed pursuant to this contract any workers or employees not lawfully authorized to work in the United States under the provisions of the INA or any other applicable federal or state laws. Violation of the provisions of this Article 22 shall be deemed a material breach of this Contract.

ARTICLE 23
MISCELLANEOUS PROVISIONS

1. This Contract shall be governed by the laws and court decisions of the State of Arizona. This Contract is performed in Maricopa County, Arizona, and exclusive venue for the enforcement of rights or legal obligations under this Contract shall be in Maricopa County, Arizona.

2. This Contract shall be binding upon and inure to the benefit of the parties to this Contract and their respective successors and, except as otherwise provided in this Contract, their assigns.

3. Contractor shall not assign this Contract, or any part of this Contract, without prior written consent of the City.

4. All notices, communications, and reports required or permitted under this Contract shall be personally delivered or mailed to the respective parties by depositing same in the United States mail, postage prepaid, at the addresses shown below, unless and until either party is otherwise notified in writing by the other party, at the following addresses. Mailed notices shall be deemed communicated as of five days after mailing.

If intended for the City, to:

William Kauppi
Chief Financial Officer, Finance
City of Buckeye
530 E. Monroe Ave.
Buckeye, Arizona 85326
Phone: 623.349.6161

If intended for Contractor, to: Haydon Companies, LLC
Katie Haydon, President and CEO
4640 E. Cotton Gin Loop
Phoenix, Arizona 85040
Phone: 602.296.1496
Email: khaydon@haydonbc.com

5. No information relative to the existence or the details of the Design Services or the Construction Work shall be released by Contractor, either before or after completion of the Project, for publication, advertising or any commercial purposes without the City's prior written consent.

6. In the event that any portion or any portions of this Contract are held to be unenforceable by a court of competent jurisdiction, then the remainder of this Contract shall be enforced as though such portions had not been included, unless to do so would cause this Contract to fail of its essential purposes.

7. This Contract, with all Exhibits and incorporated or referenced attachments, and any Job Order, together with Contractor's and Surety's performance and payment bonds for the Project, constitute the entire and exclusive agreement between the City and Contractor with reference to the Project. This Contract supersedes any and all prior documents, discussions, communications, representations, understandings, negotiations or agreements by and between the parties.

8. If the City Council does not appropriate funds to continue this Contract or any Job Order into a subsequent fiscal year, and pay for charges hereunder or under any current Job Order for a Project that extends into a new fiscal year, the City may terminate this Contract at the end of the current fiscal period, or at the time that funds are no longer available to meet the City's payment obligations hereunder. The City agrees to give written notice of termination to the Contractor at least thirty (30) days prior to any termination for a lack of funds and will pay to the Contractor all approved charges incurred prior to Contractor's receipt of such notice, subject to the availability of funds therefore.

9. Cooperative Purchasing- Specific eligible political subdivisions and nonprofit educational or health institutions ("Eligible Procurement Unit(s)") are permitted to utilize procurement agreements developed by the City, at their discretion and with the agreement of the awarded Consultant. Consultant may, at its sole discretion, accept orders from Eligible Procurement Unit(s) for the purchase of the Materials and/or Services at the prices and under the terms and conditions of this Agreement, in such quantities and configurations as may be agreed upon between the parties. All cooperative procurements under this Agreement shall be transacted solely between the requesting Eligible Procurement Unit and Consultant. Payment for such purchases will be

the sole responsibility of the Eligible Procurement Unit. The exercise of any rights, responsibilities or remedies by the Eligible Procurement Unit shall be the exclusive obligation of such unit. The City assumes no responsibility for payment, performance or any liability or obligation associated with any cooperative procurement under this Agreement. The City shall not be responsible for any disputes arising out of transactions made by others.

ARTICLE 24
E-VERIFY

1. E-Verify Requirements. To the extent applicable under Ariz. Rev. Stat. §41-4401, Contractor and its subconsultants warrant compliance with all federal immigration laws and regulations that relate to their employees and compliance with the E-verify requirements under Ariz. Rev. Stat. §23-214(A). The Contractor or its subcontractor's failure to comply with such warranty shall be deemed a material breach of this Agreement and may result in the termination of this Agreement by the City.

2. The Contractor and its subcontractors warrant to keep the papers and records open for random inspection during normal business hours by the City. The Contractor and its subcontractors shall cooperate with the City's random inspections including granting the City's entry rights onto its property to perform the random inspections and waiving their respective rights to keep such papers and records confidential.

ARTICLE 25
ISRAEL

1. To the extent required by applicable law, pursuant to Arizona Revised Statute § 35-393.01, Contractor certifies that it is not currently engaged in, and agrees for the duration of the Contract to not engage in, a boycott of Israel, or any entity that does business in Israel or any territories controlled by Israel.

Regular Council Meeting
COUNCIL ACTION REPORT

MEETING DATE: 09/03/24	**AGENDA ITEM:** 4.Q. FIN - Federal Emergency Management Agency (FEMA) Hazard Mitigation Grant Program (HMGP) Post-Fire - Arizona Department of Emergency and Military Affairs (AZDEMA)
DATE PREPARED: 08/29/24	**DISTRICT NO.:** All
STAFF LIAISON: Rob Roach, Grant Program Manager, rroach@buckeyeaz.gov, (623) 349-6165	
DEPARTMENT: Financial Services	**AGENDA ITEM TYPE:** Consent Agenda Items / New Business

ACTION/MOTION: (This language identifies the formal motion to be made by the Council)
Council to take action on the submission of a $670,000 Federal Emergency Management Agency (FEMA) Hazard Mitigation Grant Program (HMGP) Post-Fire Grant application through the Arizona Department of Emergency and Military Affairs (AZDEMA) for the removal of fire fuel to mitigate the risk of wildfire in the White Tank Mountain Range which borders the master-planned community of Verrado.

SUMMARY

PROJECT DESCRIPTION:
The City of Buckeye seeks to address the current community wildfire risk by submitting a grant application that supports the removal of fire fuel to mitigate the risk of wildfire to the White Tank Mountains and the communities that abut the White Tank Mountain Range. The grant funds the removal effort over a three-year period.

BENEFITS:
The fire fuel removal will improve firefighter and public safety, reduce wildfire risk to humans and property, and improve fire prevention and suppression. This project will also help protect Skyline Regional Park and its users.

FUTURE ACTION:
After all grant funds have been expended, any future maintenance for this wildfire mitigation will become a part of the Community Services Department's budget, unless future grant opportunities arise, in which the City will pursue.

FINANCIAL IMPACT STATEMENT:
The federal grant portion is $502,500, with a $167,500 match from the City of Buckeye. The total project cost is $670,000.

CURRENT FISCAL YEAR TOTAL COST:
None

BUDGETED:
Yes

FISCAL YEAR:
2025-2028

Total	$670,000

Cost Estimate Breakdown Category #1 Personnel

Personnel costs are estimated as follows: It is anticipated that the contractor will utilize a project manager at $120 per hour for 300 hours for a cost of $36,000. Two field supervisors at $85 per hour for 300 hours will cost $51,000. Eight field workers at $800 per hour for 300 hours will cost $192,000. One administrative staff at $70 per hour for 300 hours will cost $21,000. Total personnel costs are $300,000.

Cost Estimate Breakdown Category #2 Equipment

Equipment rental costs are estimated at $153,000. Equipment needed is anticipated to be: Four brush cutters at $50 per hour for 300 hours is $60,000. Six chainsaws at $30 per hour for 300 hours is $54,000. Ten sets of safety gear at $300 per set is $3,000. Transportation and miscellaneous equipment rental is $36,000. Total equipment rental cost is $153,000.

Cost Estimate Breakdown Category #3 Materials

Supplies in the form of herbicides, PPE, and treated area markers will cost $67,000.

Cost Estimate Breakdown Category #4 Monitoring and Evaluations

Monitoring and evaluation of the effectiveness of the mitigation efforts is estimated to cost $150,000.

Benefit Cost Analysis (BCA) Narrative for a Project under $1 Million

Subapplicant: City of Buckeye

Project Title: Buckeye White Tank Mountain Skyline Wildfire Mitigation

Hazard Type: Wildfire

Mitigation Action: Fire fuel removal

(a) Removal of fire fuel sufficient distance from residential structures to abate the wildfire risk.

(b) The benefitted area is the residential area within the protected structure area identified in 12C.

Total Project Cost: Total cost of the project is $670,000, of which the Federal share is $502,500 (75%) and the Non-Federal share is $167,500 (25%).

Annual Maintenance Cost: The committed annual maintenance cost is estimated to be $200,000

Hazard Properties

How often does the hazard being mitigated occur?

The last recorded wildfire hazard occurred at this project area in May, 2020 according to the following:

(https://www.wtmconservancy.org/after-the-white-tank-fire-collecting-data-in-the-

sonoran-desert/).

Standard Benefits

Population: How many people benefit from the proposed mitigation project, and how was this number determined?

The proposed mitigation project of removing fire fuel will benefit an estimated 14,000 households living next to the White Tank Mountain. This information was obtained through the BuckeyeGIS tool and the Verrado | Genuine Smalltown Charm website. This project will also benefit hikers, campers, and wildlife within the White Tank Mountain Range.

Structure/Infrastructure/Building Contents: What structures, infrastructure, and/or building contents, if any, will be damaged if the project is not implemented?

If the proposed mitigation project is not implemented, the White Tank Mountain and abutting residential properties will be at risk of burning from wildfire. Wildfire may damage homes and other structures in this area.

Critical Services: What public services (including public safety, transportation, and utilities) and/or businesses, if any, would lose function during future hazard events if the project is not implemented?

If fires spread beyond the residential area, numerous adjacent businesses could be damaged. Additionally, smoke from the fires could impact Interstate 10, a major cross-country highway that is immediately south of the impact area.

Additional Benefits

Are there any additional benefits directly attributable to the proposed project that are not captured elsewhere in the cost-effectiveness narrative?

The project could prevent injuries or deaths to residents, hikers, and campers. The project also protects wildlife and the recreational value of White Tank Mountain and Skyline Regional Park.

Scope of Work

Buckeye proposes to remove fire fuel from the eastern slopes of the White Tank Mountain Range abutting the Verrado community of residences in Buckeye, Arizona. Buckeye will retain the services of an outside contractor to execute the project. The contractor will manually remove the fire fuel.

Step one - Treat the area with herbicide. The timeframe is estimated at 12 months.

Step two – Use chainsaws to remove larger vegetation. The timeframe is estimated at 6 months.

Step three – Remove smaller vegetation with hand tools. The timeframe is estimated at 15 months.

Based upon the available budget, it is anticipated that the budget may allow for up to 300 hours of fire fuel removal. Buckeye and the contractor will assess the area to determine the best use of the 300 hours of fire fuel removal.

Design Plan -

During the project area assessment, Buckeye will identify the appropriate areas for removal of fire fuel within the project area that abuts the protected area.

Advanced Transportation Technology and Innovation (ATTAIN) Grant Application Summary Recap

Project Description:

The City of Buckeye seeks to address the current community wildfire risk by submitting a grant application that supports the removal of fire fuel to mitigate the risk of wildfire to the communities that abut the White Tank Mountain Range. The grant funds the removal effort for three years.

Project Cost

- $ 670,000

Required Match

- $ 167,500

Grant Amount

- $ 502,500

Plans Once Grant Expires:

- After all grant funds have been expended, any future maintenance for this wildfire mitigation will become a part of the Community Services Department's budget, unless future grant opportunities arise, of which the City will pursue.

Objectives and Expected Outcomes

- The fire fuel removal will improve firefighter and public safety, reduce wildfire risk to humans and property, and improve fire prevention and suppression.
- The expected outcome is increased protection of Skyline Regional Park and its users.

Time Period for the Grant

- FY 2025 and FY 2027

CITY OF BUCKEYE
Regular Council Meeting
COUNCIL ACTION REPORT

MEETING DATE: 09/03/24	**AGENDA ITEM:** 4.R. CIP - No. 109260 Verrado North Fire Station Land Acquisition - DMB
DATE PREPARED: 08/29/24	**DISTRICT NO.:** 6
STAFF LIAISON: James Zwerg, CIP Project Manager, jzwerg@buckeyeaz.gov, (602) 558-2076	
DEPARTMENT: Engineering	**AGENDA ITEM TYPE:** Consent Agenda Items / New Business

ACTION/MOTION: (This language identifies the formal motion to be made by the Council)
Council to take action on the Memorandum of Understanding (MOU) between the City of Buckeye, an Arizona municipal corporation, and DMB White Tank, LLC, an Arizona limited liability company (DMB), related to the dedication of real property located West of Verrado High School and North of Indian School Road for the proposed future site for Victory Fire Station #708, related to CIP No. 109260 Verrado North Fire Station Land Acquisition, and authorize the City Manager to execute and deliver the MOU on behalf of the City of Buckeye.

SUMMARY

PROJECT DESCRIPTION:
The dedication of this site fulfills original PADA obligations to provide land for the future Victory Fire Station #708, as specified in CIP No. 109260 Verrado North Fire Station Land Acquisition. The newly proposed site, encompassing approximately 1.5 acres west of Verrado High School and North of Indian School Road, offers a more strategic and suitable location for the design and construction of a fully functional fire station. This site will significantly enhance response times and provide improved access to Indian School Road, thereby ensuring more efficient emergency services for residents in the surrounding area. The strategic location underscores our commitment to public safety and aligns with long-term urban planning objectives.

BENEFITS:
The site’s strategic positioning ensures enhanced response times and improved access to Indian School Road, thereby optimizing emergency service delivery for residents. This proposal aligns with urban planning objectives, reinforces our commitment to public safety, and provides a more suitable area for the design and construction of a fully functional fire station, ensuring long-term benefits for the community.

FUTURE ACTION:
Dedication of property will be received for the future planning, design, and construction of Victory Fire Station #708.

PRE-ANNEXATION AND DEVELOPMENT AGREEMENT

THIS PRE-ANNEXATION AND DEVELOPMENT AGREEMENT ("Agreement") is entered into by and between the TOWN OF BUCKEYE, an Arizona municipal corporation (the "Town") and DMB WHITE TANK, LLC, an Arizona limited liability company (the "Developer").

RECITALS

A. The property is located within Maricopa County, Arizona and the Town and consists of approximately 8,800 acres as legally described and depicted on Exhibit A attached hereto and incorporated herein by this reference (the "Property"). The owners of the Property are Developer and Caterpillar Foundation, an Illinois not-for-profit corporation ("Caterpillar"). Caterpillar has consented to Developer entering into this Agreement.

B. Developer and the Town desire that the portions of the Property not already within the corporate limits of the Town be annexed into the corporate limits of the Town and be developed as an integral part of the Town. The annexation and development of the Property pursuant to this Agreement and the Community Master Plan ("CMP"), which is attached as Exhibit B, is acknowledged by the parties hereto to be consistent with the Town's General Plan, as may be amended concurrently with this Agreement, and to operate to the benefit of the Town, the Developer and the general public. The annexation of the Property would allow the Town to provide for high-quality development in the area and ensure orderly, controlled and quality growth in the Town.

C. Developer and the Town are entering into this Agreement pursuant to the provisions of Arizona Revised Statutes ("A.R.S.") § 9-500.05 in order to facilitate the annexation, proper municipal zoning designation and development of the Property by providing for, among other things: (i) conditions, terms, restrictions and requirements for the annexation of the unincorporated portions of the Property by the Town; (ii) conditions, terms, restrictions and requirements for the construction and installation of public services/infrastructure improvements; (iii) the permitted uses for the Property; (iv) the density and intensity of such uses; and (v) other matters related to the development of the Property.

D. A blank annexation petition has been filed with Maricopa County and meetings and hearings have been held in connection with the annexation of the Property in to the Town. The Town agrees that the Planned Community District zoning designation is an appropriate designation for this Property and that the CMP is designed to establish proper and beneficial land

use designations and regulations, densities, provisions for public facilities, design regulations, procedures for administration and implementation and other matters related to the development of the Property in accordance with the Planned Community District zoning designation. Prior to its execution of this Agreement, the Town has held public hearings and received public comment and has otherwise duly considered all such matters.

E. Developer and the Town acknowledge that the ultimate development of the Property within the Town is a project of such magnitude that Developer requires assurances from the Town that Developer has the right to complete the development of the Property pursuant to the CMP before it will expend substantial efforts and costs in the development of the Property, and the Town requires assurances from Developer that development of the Property will be in accordance with the CMP and the terms and conditions of this Agreement.

F. Without limiting the foregoing, the Town and Developer acknowledge that the development of the Property pursuant to this Agreement will result in significant planning and economic benefits to the Town by: (i) encouraging investment in and commitment to comprehensive planning, which will result in efficient utilization of municipal and other public resources; (ii) requiring development of the Property to be consistent with the Town's General Plan and the approved CMP: (iii) providing for the planning, design, engineering, construction, acquisition, and/or installation of public infrastructure in order to support anticipated development of the Property and the larger land area that includes the Property; (iv) increasing tax and other revenues to the Town based on improvements to be constructed on the Property; (v) creating employment through development of the Property consistent with this Agreement; and (vi) creating quality housing and other uses for citizens of the Town. The Town and Developer acknowledge that the development of the Property pursuant to this Agreement will result in significant benefits to Developer by providing certainty in order to avoid the waste of resources, including present and future assurances to Developer that it will have the ability to develop the Property in accordance with this Agreement and the CMP.

G. Among other things, development of the Property in accordance with this Agreement and the CMP will result in the planning, design, engineering, construction, acquisition, installation, and/or provision of public services/infrastructure improvements that will support development of the Property.

H. The public services/infrastructure improvements to be provided by Developer, while necessary to serve development within the Property, also are needed in certain instances to facilitate and support the ultimate development of a larger land area that includes the Property. Given the regional significance of such public services/infrastructure improvements and development of the Property, the Town is willing to use good faith efforts to facilitate the utilization of various public and/or quasi-public financing methods as provided in this Agreement.

I. The Town acknowledges that portions of such public services/infrastructure improvements will be provided as part of the early phases of development of the Property, prior to the time when such public services/infrastructure improvements would otherwise be required to serve completed phases of the development within the Property, and therefore prior to the time Developer might otherwise be required to provide or contribute to the cost of same and prior to

the time that the expense of such public services/infrastructure improvements otherwise would be justified by the phasing of development of the Property. Developer is willing to provide such public services/infrastructure improvements earlier than otherwise required for its private development of the Property only with the assurances that it will be able to complete development of the Property as provided in this Agreement. In this respect, the public services/infrastructure improvements and dedications provided for herein, together with the development contemplated by this Agreement, are interdependent and together comprise an indivisible project.

NOW, THEREFORE, in consideration of the foregoing premises and the mutual promises and agreements set forth herein, the parties hereto state, confirm and agree as follows:

AGREEMENT

I. ANNEXATION AND DEVELOPMENT PLANS.

1.1 Annexation Petition. The Town, having held public meetings thereon, has, concurrently with its approval of this Agreement, duly considered and approved the annexation of the portions of the Property not already in the Town to the Town. As soon as reasonably possible after execution of this Agreement by the Town and Developer, Developer shall deliver to the Town an appropriate Petition for Annexation duly executed by all necessary property owners (the "Annexation Petition"). Upon receipt of the Annexation Petition, the Town agrees to comply with the provisions of A.R.S. § 9-471 *et seq.* and, if determined to be in the best interest of the Town, adopt the final ordinance annexing the Property into the corporate limits of the Town, which ordinance shall contain a provision providing for the immediate rescission of the annexation ordinance by the Town if: (a) any party files a verified petition with the Town challenging the validity of the annexation; (b) the Town does not approve the Planned Community District zoning designation and the CMP immediately following the annexation of the Property by the Town; (c) any party files a verified referendum petition with the Town challenging the Planned Community District zoning designation or the CMP; or (d) any party files a verified referendum petition with the Town challenging the validity of this Agreement. The Town expressly acknowledges and agrees that the Annexation Petition and this Agreement will have been executed and delivered to the Town contingent on the Town's adoption of the ordinance described in the preceding sentence, including the rescission provisions. The Town also expressly acknowledges and agrees that it shall take all appropriate action to rescind this Agreement immediately if the Town does not adopt the final ordinance annexing the Property into the corporate limits of the Town immediately following approval of this Agreement.

1.2 Community Master Plan.

(a) General. Concurrently with the approval and execution of this Agreement and upon the Town's review and due consideration with all required reviews and public hearing, the Town hereby approves the densities, intensities, land uses, public services/infrastructure improvements, and other matters set forth in the CMP for the development of the Property. Development of the Property shall be in accordance with the CMP, as may be amended from time to time in accordance with Paragraph (b) below, including all improvements, facilities and

structures contemplated in this Agreement. Such improvements, facilities, and structures may include (without limitation) the planning, design, engineering, construction, acquisition, installation, and/or provision of improvements of any sort or nature, including public infrastructure and other public facilities and services related to development of the Property, whether located within or outside the Property. The CMP, if determined to be in the best interest of the Town, will be adopted by the Town as part of the Planned Community District zoning designation, which will be considered for approval concurrently with the approval and execution of this Agreement. This Agreement satisfies Section 7-3-3 of the Town of Buckeye's Development Code, which requires that a CMP be adopted with a development agreement. Upon the approval of the Planned Community District zoning designation and the CMP, Developer shall be authorized to implement the types of uses, densities and intensities of uses, as set forth in the CMP, and will be accorded all approvals necessary to permit Developer to implement the CMP, subject to the Town's review and approvals of site plans, subdivision plats and other similar items in accordance with the Town's zoning, subdivision and other, applicable ordinances as established in Paragraph 1.4. As more particularly set forth in the CMP, the Town hereby authorizes Developer to include types of uses that are the same as or similar to (as determined by the Town's Planning Director), and densities and intensities of uses equal to or less than, those set forth in the CMP. The Town, having exercised its discretion in approving the CMP, agrees to cooperate reasonably in processing the approval or issuance of such permits, plans, specifications, plats and/or other development approvals of or for the Property as may be requested by Developer in order to implement, and which are reasonably consistent with the CMP; provided that Developer complies with all applicable requirements, as established in Paragraph 1.4, pays all applicable fees, including without limitation, grading permit fees, building permit fees, engineering inspection fees, and fees set forth at Exhibit C and subject to the Town's review and approval thereof, in accordance with its zoning, subdivision, and other applicable ordinances, as established in Paragraph 1.4. The Town and Developer agree that in addition to the types of uses and the densities and intensities of uses, the Town's General Plan and the CMP provide for, among other things, the establishment of golf courses, resorts and recreational facilities, sanitation and treatment facilities, residential, office and commercial activity centers, educational, worship and municipal facilities, and other facilities typically found in mixed-use master planned communities. The Town hereby acknowledges and agrees that the CMP may hereafter be amended to include alternative plans and land use designations that shall become applicable if Developer elects to include the Additional Property referenced in Paragraph 1.6.

(b) CMP Amendment. The Town and the Developer acknowledge that amendments to the CMP may be necessary from time to time. When the parties agree that changes or adjustments are necessary or appropriate from time to time they shall, unless otherwise required by applicable law as established in Paragraph 1.4 or by state or federal statute, effectuate minor changes or adjustments through administrative amendments approved by the Town's Planning Director, which, after execution, shall be attached to the CMP as an addendum and become a part thereof. If, in the future, the Town amends one or more of its zoning designations and/or districts, Developer shall have the option to convert the zoning designation(s) under the CMP to the equivalent zoning designations under such amended development ordinance(s), subject to notice and hearing requirements of applicable law. The exercise by Developer of such option and any approval by the Town shall not be deemed to constitute or to necessitate an amendment of this Agreement, and, unless otherwise required by

law, no such minor amendments shall require prior notice or hearing. All major changes or amendments shall be reviewed by the Community Planning and Development Board and approved by the Town Council. The following are major changes:

(1) Any substantial alteration to the list of permitted uses of the Property set forth in the CMP, as deemed to be substantial by the Planning Director;

(2) An overall increase in either residential units or commercial/mixed-use square footage for the Property, except as otherwise allowed by the CMP;

(3) The reallocation of residential dwelling units within Planning Units and from one Planning Unit to another in a manner that results in any of the following, as measured against the original Land Use Budget set forth in the CMP: (a) an increase in the number of residential dwelling units for any one particular Planning Unit of greater than twenty percent (20%) of the total number allocated to such Planning Unit in the CMP; (b) an increase in the number of residential dwelling units for any combination of three (3) Planning Units of greater than fifteen percent (15%) of the total number allocated to the aggregate of such combination in the CMP; and (c) a decrease in the number of residential dwelling units of any Planning Unit that would leave less than twenty percent (20%) of the total number allocated to such Planning Unit in the CMP;

(4) Any reallocation of commerical/mixed use square footage (excluding resort and related uses) between or among any of Planning Units 4, 5, 6, and 7; and

(5) The allocation of residential dwelling units to Planning Unit 1.

The following are minor changes:

(1) Any reallocation of residential dwelling units that does not meet the parameters set forth in subparagraph (3) immediately above;

(2) Any reallocation of commerical/mixed use square footage between or among any of Planning Units 1, 2, and 3; and

(3) Any minor alteration to the list of permitted uses of the Property set forth in the CMP, as deemed to be minor by the Planning Director.

The parties shall cooperate in good faith to agree upon and use reasonable best efforts to process any minor or major amendments to the CMP.

1.3 Density. The Town and Developer hereby acknowledge and agree that the CMP provides for a maximum number of residential units and commercial/mixed use square footage and resort use for the Property (the "Maximum Density") and the CMP and this Agreement provide parameters for reallocation of residential dwelling units and commercial/mixed use

square footage and resort use. Regardless of any reallocation, Developer shall not exceed the Maximum Density for the Property without prior amendment of the CMP, which amendments shall be reviewed by the Community Planning and Development Board and approved by the Town Council. Except as otherwise provided in the CMP, neither the Community Planning and Development Board nor the Town Council shall be required or obligated to approve an increase in the Maximum Density, although they may elect, in their discretion, to do so.

1.4 Regulation of Development.

(a) The Applicable Rules. Whenever reference is made in this Agreement to the ordinances, rules, regulations, permit requirements, development fees, other requirements, and/or official policies of the Town that apply to the development of the Property in accordance with the CMP, this Paragraph 1.4(a) shall define said applicable ordinances, rules, regulations, permit requirements, development fees, other requirements, and/or official policies. Except as otherwise expressly provided in this Agreement and the CMP, the ordinances, rules, regulations, permit requirements, development fees (as defined in A.R.S. § 9-463.05), other infrastructure fees, however denominated, exactions, other requirements, and/or official policies of the Town applicable to and governing the development of the Property shall be those ordinances, rules, regulations, permit requirements, development fees, other exactions and requirements, and/or official policies that are existing and in force for the Town as of the execution of this Agreement or, in the case of development and other fees, as contained in this Agreement. Except as otherwise expressly provided in this Agreement, and in consideration of the premises stated in the recitals to this Agreement and hereinafter detailed, the Town shall not impose or enact any additional conditions, zoning or other exactions, requirements, dedications, development or other fees, rules or regulations applicable to or governing the development of the Property, including any requirement for the dedication of land or property, or the payment of fees or money for the planning, design, engineering, construction, acquisition, improvement, or provision of public services or infrastructure improvements to lessen, offset, mitigate, or compensate for the burdens of the development of the Property on the Town, the Town having acknowledged that all such burdens have been considered and are adequately accounted for by the conditions to development of the Property set forth in the CMP and this Agreement. The Town hereby agrees that it shall take all actions legally available to it to include the Property within any growth boundary, urban boundary, urban service boundary or other similar purpose land use regulatory device that may be established by the Town or local or state law, referendum, or initiative in the future (collectively, "Growth Boundary"). The Town also shall support the defense of the Property's inclusion in any Growth Boundary, and shall not institute any action challenging or give any affirmative defense against the Property's inclusion in any such Growth Boundary. To the extent that the Town incurs costs in its support of the Property's inclusion in the Growth Boundary, Developer shall reimburse such reasonable attorneys' fees and out-of-pocket costs to the Town. Except as required by law, the Town shall not take any affirmative action or position that would have the effect of subjecting the timing or development of the Property to procedures and limitations that may be a part of any Growth Boundary.

(b) The Permissible Additions to the Applicable Rules. Notwithstanding the provisions of subparagraph (a) above and the provisions of Paragraph 1.5 below, the Town may enact the following provisions, and take the following actions, which shall be applicable to and

binding on the development of the Property, provided however, that with respect to subparagraphs (i), (iii), and (iv) through (vi) below, the Town shall use its best efforts to alleviate any adverse material impacts to development of the Property associated with such actions and enactments and provide Developer with an opportunity to suggest methods of enacting and implementing such provisions to the Property:

(i) future land use ordinances, rules, regulations, permit requirements, other requirements and official policies of the Town that are consistent with the express provisions of this Agreement, such as the adoption of Planned Community District zoning designation to provide for implementation of this Agreement and the CMP, and not contrary to the existing land use regulations applicable to and governing the development of the Property, as established in subparagraph (a) above, provided that such land use ordinances, rules, regulations, permit requirements, other requirements, and official policies shall, to the extent applicable, not involve the modification of any factual determinations of the Town memorialized in this Agreement and shall not materially impair the Developer's ability to develop the Property in the manner provided in the CMP and this Agreement;

(ii) other future land use ordinances, rules, regulations, permit requirements, development fees, other requirements, and/or official policies that the Developer may agree in writing apply to the development of the Property;

(iii) future land use ordinances, rules, regulations, permit requirements, other requirements, and official policies of the Town enacted as necessary to comply with mandatory requirements imposed on the Town by county, state or federal laws and regulations, court decisions, and other similar superior external authorities beyond the control of the Town, provided that in the event any such mandatory requirement prevents or precludes compliance with this Agreement, if permitted by law, such affected provisions of this Agreement shall be modified as may be necessary to achieve the minimum permissible variance from the terms of this Agreement in order to achieve compliance with such mandatory requirement. To the extent such compliance requires any discretionary factual determination by the Town, such determinations shall be consistent with the Town's findings memorialized in this Agreement. This subparagraph shall not permit the Town to exclude the Property from any Growth Boundary or subject the timing of development of the Property to any procedures and limitations that may be a part of such Growth Boundary, except as provided in Paragraph 1.4(a) above;

(iv) future land use and other ordinances, rules, regulations, permit requirements, other requirements and official policies of the Town of uniform application and reasonably necessary to alleviate legitimate threats to public health and safety, provided that such land use ordinances, rules, regulations, permit requirements, other requirements, and official policies shall, to the extent applicable, not involve the modification of any material factual determinations of the Town memorialized in this Agreement;

(v) future updates of, and amendments to, existing building, plumbing, mechanical, electrical, dangerous buildings, drainage, and similar construction and safety related codes, such as the Uniform Building Code, which updates and amendments are generated by a nationally recognized construction/safety organization, such as the International Conference of

Building Officials, or by the county, state or federal governments or by the Maricopa County Association of Governments; and

(vi) Amendments to such construction and safety codes generated by the Town for the purpose of conforming such codes to conditions generally existing in the Town, such as the absence of snowfall within the Town.

Nothing in this Agreement, however, shall be interpreted as relieving Developer of any obligation that it may have either currently or in the future, to comply with all governmental rules and regulations, enacted by entities other than the Town, that apply to the Property, provided that, to the extent such compliance involves factual findings or discretionary determinations by the Town, all such findings and/or discretionary determinations shall be consistent with the Town's findings and determinations memorialized in this Agreement..

1.5 Anti-Moratorium. The parties hereby acknowledge and agree that the CMP contemplates and provides for the phasing of the development of the Property and that for the term of this Agreement, no moratorium, or future ordinance, resolution or other land use rule or regulation imposing a limitation on the conditioning, rate, timing or sequencing of the development of property within the Town and affecting the Property or any portion thereof shall apply to or govern the development of the Property during the term hereof, including any Growth Boundary, whether affecting parcel or subdivision maps, building permits, occupancy permits or other entitlements to use issued or granted by the Town, except as otherwise provided in Paragraph 1.4, other provisions of this Agreement, or as specifically required by any Growth Boundary, in which case the Town shall support the defense of the Property's inclusion in any Growth Boundary or any Growth Boundary's inapplicability to the Property, and shall not institute any action challenging or give any affirmative defense against the Property's inclusion in or governance under any such Growth Boundary. To the extent that the Town incurs costs in its support of the Property's inclusion in the Growth Boundary, Developer shall reimburse such reasonable attorneys' fees and out-of-pocket costs to the Town. Nothing in this Paragraph 1.5 shall prohibit the Town from withholding the issuance of Certificates of Occupancy for a structure to be occupied if the Infrastructure/Services set forth in the CMP, Planning Unit Plans, and any plats or site plans as required to serve the applicable portion of the Property on which the structure to be occupied is located will not be in place prior to occupation of such structure.

1.6 Additional Property. The Town hereby agrees to consider, and, if in the best interest of the Town, amend this Agreement from time to time solely at the request of Developer to incorporate into this Agreement the whole or any portion of additional properties adjacent to or proximate to the Property (the "Additional Property") if and when Developer acquires such Additional Property. The Town and the Developer agree that if Developer elects to incorporate such Additional Property or portions thereof: (1) thereafter, such Additional Property shall be included in the Property and shall be subject to and shall benefit from all provisions of this Agreement applicable thereto and any reference herein to the Property shall include such Additional Property, which may increase the Maximum Density of the Property; (2) the Town and Developer shall cooperate in order for the Additional Property to receive the necessary land use approvals, including any necessary amendment to the CMP; and (3) the plans and land use

designations approved for any Additional Property shall thereafter apply to the Property and the applicable Additional Property

1.7 **Phasing**.

(a) Phasing Plan. The development planned for the Property, including the infrastructure, is intended by Developer to be carried out in phases over a number of years. Development of the Property is contemplated to progress in phases that may be non-contiguous until all of the Property is developed. The exact boundaries of each phase shall be established in the Planning Unit Plan process set forth in the CMP.

(b) Modification of Phasing and Schedules. The phasing plan, as and when determined, shall be subject to modification by Developer based upon changing residential real estate market conditions, industry factors, and/or business considerations. Any such modification shall not necessitate an amendment to this Agreement, but shall be retained in the Town's official file for the Property.

1.8 Changes to Zoning. For the duration of this Agreement, the Town shall not initiate any changes or modifications to the Planned Community District zoning designation as applicable to the Property, except at the request of the owner of the portion of the Property for which such change is sought. Any such request for change shall be processed in the manner then set forth in the Town's zoning ordinance for amendments. Any changes or modifications to the Planned Community District zoning designation as applicable to any part of the Property in which Developer has an interest in fee or beneficial title initiated by the Town shall become effective only upon Developer's consent. Nothing set forth in this Paragraph shall be deemed to require Town approval of changes to the Planned Community District zoning designation as applicable to this Property after the effective date of this Agreement.

1.9 Vested Rights. The Town agrees that, for the term of this Agreement, Developer shall have a vested right to develop the Property in accordance with this Agreement, the CMP, and the Planned Community District zoning designation. This paragraph shall survive termination of this Agreement pursuant to Paragraph 7.6(c) of this Agreement. The determinations of the Town memorialized in this Agreement, together with the assurances provided to Developer in this Agreement, including this Section I, are provided pursuant to and as contemplated by A.R.S. § 9-500.05 and other applicable law, bargained for and in consideration for the undertakings of Developer set forth herein and contemplated by the CMP, and are intended to be and have been relied upon by Developer to its detriment in undertaking the obligations of Developer under this Agreement and the CMP generally and in expending monies and undertaking to purchase the Property and conduct the planning, design, engineering, construction, acquisition, installation, and/or provision of public services/infrastructure improvements within and benefiting the Property and a larger land area in which the Property is located.

II. INFRASTRUCTURE.

2.1 Public Benefits. The parties acknowledge that a primary purpose of this Agreement is to provide for the coordinated planning, design, engineering, construction, acquisition, installation, and/or provision of public services/infrastructure improvements as set forth in the CMP and as contemplated by the Planning Unit Plan process described therein (the "Infrastructure Plan"). The Infrastructure Plan specifically includes, but is not limited to, the Master Drainage Plan, the Master Street and Circulation Plan, the Master Potable Water Plan, the Master Wastewater Plan and the Master Public Facilities Plan, all of which are included in the CMP. The Town acknowledges and agrees with Developer's conclusions that the Infrastructure Plan contemplates the necessary public services/infrastructure improvements of the type described therein for the planned development of the Property.

2.2 Infrastructure Plan. Concurrently with the approval and execution of this Agreement and having reviewed and considered the anticipated public health, safety, and welfare needs of future residents of the Property, the Town approves the Infrastructure Plan and acknowledges and agrees that refinements to the Infrastructure Plan will be made in the Planning Unit Plan process. Except as otherwise specifically provided in this Agreement, the Infrastructure Plan shall entitle Developer, so long as Developer proceeds with the development of the Property, to implement the public services/infrastructure improvements, including but not limited to acquisition of underlying land, in conformance with the Infrastructure Plan (the "Services/Infrastructure"), and the Town shall not require any additional Services/Infrastructure of the nature and type provided for in the Infrastructure Plan, as the same may be refined from time to time in the Planning Unit Plan process. Notwithstanding the previous sentence, if assumptions in the CMP are incorrect or change (for example, if the freeway interchange at Interstate 10 and Airport Road is not constructed for whatever reason), Developer shall revise the applicable portion of the Infrastructure Plan to take into account the changed or incorrect assumptions. The Town shall not be responsible for any additional Services/Infrastructure not contemplated in the Infrastructure Plan that the parties mutually determine is necessary due to changed or incorrect assumptions.

2.3 Construction. The parties hereto acknowledge and agree that, to the extent the Developer develop the Property, they shall have the right and the obligation, at any time after the execution of this Agreement, to dedicate land, subject to the Town's or other applicable jurisdiction's acceptance, and/or construct or cause to be constructed and installed any or all portions of the Services/Infrastructure that relate to the segments of the Property developed by Developer. All such construction performed by Developer shall be performed in compliance with all applicable requirements, standards, codes, rules, or regulations of the Town as established in paragraph 1.4 and in compliance with all permit requirements, standards, codes, rules or regulations of (i) Maricopa County and the Maricopa Association of Governments that have been incorporated by the Town into the Town standards, codes, rules, or regulations, (ii)the State of Arizona, and (iii) the United States of America, as applicable, in effect at the time of such construction. Developer, its agents, and employees, shall have the additional right, upon receipt from the Town of an appropriate encroachment permit, to enter and remain upon and

cross over any Town easements or rights-of-way to the extent reasonably necessary to facilitate such construction, or to perform necessary maintenance or repairs of such Services/Infrastructure, provided that Developer's use of such easements and rights-of-way shall not impede or adversely affect the Town's use and enjoyment thereof and provided that the Developer shall restore such easements and rights-of-way to their condition prior to Developer's entry upon completion of such construction, repairs or maintenance. To the extent permitted by law and subject to obtaining an encroachment permit from the Town, the prior dedication of any easements or rights-of-way shall not affect or proscribe Developer's right to construct, install, and/or provide Services/Infrastructure thereon or thereover. The parties hereto acknowledge and agree that the Town, as necessary to implement the Infrastructure Plan, shall cooperate reasonably with and assist in: a) at the sole cost of Developer, the abandonment of any unnecessary public rights-of-way or easements currently located on the Property and not otherwise used or required by other members of the public; (b) at the cost of Developer, the acquisition and/or condemnation of any necessary public rights-of-way or easements not currently located on the Property and required to be consistent with the Master Street and Circulation Plan and Planning Unit plans or provide access to the Property pursuant to the Master Street and Circulation Plan and Planning Unit plans; and (c) submitting requests or filing applications, or entering into appropriate intergovernmental agreements with Maricopa County or other appropriate governmental entities regarding the abandonment or acquisition of public rights-of-way or easements necessary to develop the Property.

2.4 Infrastructure Assurance. The parties hereto acknowledge and agree that it shall be condition to the issuance of a building permit or permits that the Town shall have been provided with the types of assurances as contained in Section 4.08.A of the CMP or a letter of credit or such other security acceptable to the Town to assure that the installation of Services/Infrastructure directly related to such building permit or permits will be completed ("Infrastructure Assurance"). The Town agrees that within twenty (20) days from the Town's approval of the particular completed Services/Infrastructure for which the Town has required and Developer has provided Infrastructure Assurance, the Town shall release (or, in the case of a letter of credit, accept a substitute letter of credit) such Infrastructure Assurance, in whole or in part as may be appropriate under the circumstances.

2.5 Dedication/Acceptance of Services/Infrastructure. The parties hereto acknowledge and agree that the CMP provides that the Town will own certain completed segments of the Services/Infrastructure, including but not limited to the underlying land (the "Public Services/Infrastructure").

(a) Dedication. Ownership of all completed segments of the Public Services /Infrastructure shall be dedicated without cost (other than subsequent operational and maintenance costs) by Developer to the Town within sixty (60) days after completion of any segment of the Public Services/Infrastructure in accordance with the Infrastructure Plan, the final map of dedication therefor and the CMP's Planning Unit Plans, or within such other time period as may be agreed to by Developer and the Town, and subject to acceptance by the Town as hereinafter set forth. Developer agrees to warrant the construction of all Public

Services/Infrastructure against defective workmanship and for materials for a period of one (1) year from the dedication of such Public Services/Infrastructure.

(b) Acceptance, Operation, and Maintenance. So long as such Public Services/Infrastructure are constructed in accordance with the approved plans and the requirements of Paragraph 2.3, as verified by the inspection of the completed improvements by the Town Engineer, and all punch list items have been completed, the Town shall immediately thereafter accept such dedication(s) of Public Services/Infrastructure, and shall, at its own cost and expense, maintain, repair and operate such Public Services/Infrastructure, including areas of landscaping, in accordance with its customary standards, subject to subparagraph (c) of this Paragraph. Notwithstanding the foregoing, if Developer desires that the Town accept the production component of the Water System and the treatment components of the Water and Wastewater Systems or other Public Services/Infrastructure, such as a regional park (but specifically excluding the Temporary and Permanent Facilities, as defined in Paragraph 2.12), that requires operational and maintenance expenditures in excess of revenues to the Town generated by the Property, Developer and the Town shall negotiate an acceptance agreement that addresses operational and maintenance deficits prior to the Town's acceptance of such Public Services/Infrastructure.

(c) Landscape Maintenance. Developer and Town shall enter into a landscape maintenance agreement that provides for Developer's maintenance (or contracting for the maintenance) of the landscaping located in the public rights-of-way ("Landscaping"). The Town currently does not have standards for maintaining the Landscaping. If the Town establishes Landscaping standards, then Developer will maintain the Landscaping to the Town's Landscaping standards, and such maintenance costs, if the maintenance services are publicly bid, will be reimbursed to Developer from the Town. The maintenance agreement also shall permit Developer to maintain, or cause to be maintained, the Landscaping at a level higher than the Town's Landscaping standards, in which case Developer shall receive reimbursement from the Town only for that portion of the maintenance costs attributable to maintenance at the Town's Landscaping standards unless the Town has received or will receive funds earmarked for such enhanced maintenance from other sources as provided for in Section 3 hereof. Developer may assign its rights and obligations to either a master property owners' association or a CFD (as defined in Paragraph 3.2).

(d) Fiber Easement. Developer may reserve prior to dedication to the Town, in any public street on the Property, an easement for the installation, operation, and maintenance of any public or private fiber optics or telecommunications facilities ("Fiber Easement"). Developer and Town shall enter into an agreement that establishes the procedures for coordinating the location of facilities in the Fiber Easement and nearby public easements and the procedures and standards for maintenance and repair of facilities located in the Fiber Easement. Any construction or maintenance activities conducted within the Fiber Easement shall be subject to obtaining any necessary encroachment permit from the Town. Developer agrees that, although the Fiber Easement will be established prior to dedication of the public right-of-way, each party shall be required to restore to substantially original condition any facilities damaged by the other in exercising their respective rights to use, in Developer's case, the Fiber Easement, and, in the Town's case, the public rights-of-way. The Town agrees that it will not take any action that may frustrate Developer's ability to utilize the Fiber Easement for the installation,

operation, and maintenance of any public or private fiber optics or telecommunications facilities located in the Fiber Easement, and agrees that such facilities may connect to facilities external to the Property. Developer shall have the exclusive right to select providers of fiber optics and telecommunications services for the Property. To the extent that the Town, pursuant to statute and applicable law, adopts any franchise fees, sales taxes or other rates, taxes, assessments or charges ("Town Fees"), which the Town imposes on an operator or franchisee providing fiber optics and telecommunications services on a Town-wide basis including the Property, this subparagraph shall not operate to prohibit the Town from collecting such Town Fees from such franchisee or operator relating to such operations and services on the Property; provided, however, that nothing contained herein shall constitute contractual authority for imposition of such Town Fees.

2.6 **Transportation.** Developer will construct or arrange for the construction of, in phases, and in accordance with the Master Street and Circulation Plan and the Planning Unit Plans, streets, roadways, and parking facilities to be used for motorized vehicular travel, ingress, egress, and parking and pedestrian, bicycle or other facilities to be used for non-motor vehicular travel, ingress, egress, and parking to, through, within, and from the Property, including street lighting with underground electric service distribution, and all striping, traffic signals, street sign posts, street name signs, stop signs, speed limit signs, and all other directional/warning/advisory signage as required. Developer acknowledges and agrees that, except for those roads on which the final layer of paving has not been constructed, it will use its best reasonable efforts to avoid open cut trenching in streets dedicated to the Town for a period of five (5) years following the Town's acceptance of any dedicated street. The Town will permit, however, directional boring during such five (5) year period. Developer may dedicate, and the Town shall accept, collector and arterial roads that are fully constructed except for the final layer of paving material; provided, however, that the Developer shall complete construction of such collector and arterial roads with the final layer of paving material at the time agreed to by the Developer and the Town in the conveyance documents.

2.7 **Drainage Improvements.** Developer will construct or arrange for the construction of in phases and in accordance with the Master Drainage Plan and Planning Unit Drainage Plans and after consultation with the Maricopa County Flood Control District, drainage and flood control systems and facilities for collection, diversion, detention, retention, dispersal, use, and discharge.

2.8 **Water**.

(a) **Water Service.** Developer, at its expense, from funding sources identified in Section 3 hereof, or through a private water provider(s), will arrange for the design, engineering, construction, acquisition installation, and/or permitting of, in phases, and in accordance with the Master Potable Water Plan and Planning Unit Potable Water Plans, a water production, storage, treatment, and delivery system ("Water System") that meets all applicable federal, state and local standards. Developer has explored several options for the provision of water service to the Property, including the primary option identified in the CMP, which requires treatment of

groundwater with a high level of dissolved solids, and ultimate ownership of the Water System by the Town. The second option identified in the CMP is the provision of water service from a private water provider. Developer and the Town recognize that the cost of implementing the primary option identified in the CMP may render the primary option practically infeasible; therefore, the parties currently are considering whether an alternative option may be more cost-effective for Developer. The parties, for a period of nine (9) months after the effective date of this Agreement, shall in good faith explore such alternative options to determine whether an alternative option would permit the Town to own and operate the Water System without a material difference to Developer in either the cost of or timing to design, engineer, construct, acquire, install and/or operate the Water System as compared to the costs of and timing associated with the provision of water service by a private water provider(s). If such alternative exists, the parties shall in good faith implement such alternative; if such alternative does not exist, then Developer shall have the right, at its option, to seek and enter into one or more agreements for water service in the future from other private water companies who are subject to regulation by the Arizona Corporation Commission as water providers, and the Town (i) will not veto or object to the expansion of the certificate of convenience and necessity of such other private water company(ies) to include the Property and (ii) will take the steps necessary to permit such other private water company(ies) to locate facilities in the public rights-of-way either by license, agreement, or, if necessary, by franchise election, which election shall be held at no cost to the Town and which shall take place as soon as is reasonably practicable after request by Developer to the Town.

(b) Funding/Town Service. If Developer forms a water improvement district as permitted under applicable State law, the Town will cooperate and, at no cost to the Town, give its approval. Alternatively, Developer may request, and the Town shall cooperate to undertake the actions and procedures required to form a CFD, as defined in Paragraph 3.2, in order to provide for the design, engineering, construction, acquisition, installation, permitting, and/or operation of the Water System, as provided in Paragraph 3.2 hereof. If the parties agree to implement an alternative that contemplates the Town acquiring ownership of the Water System, then Developer shall offer and the Town agrees to accept ownership of and operational responsibility for any complete phase of, or the entirety of the Water System so long as the transfer is at no cost to the Town (other than subsequent operational and maintenance costs) to acquire the Water System, except new public service and infrastructure funding sources as provided for in Section 3 hereof. Notwithstanding any provision herein to the contrary, acceptance of any phase or all of the treatment component of the Water System may be subject to an agreement by Developer to subsidize operational and maintenance costs for the phase of the treatment component to be accepted for that time period that such phase of the treatment component of the Water System does not generate sufficient revenues to cover operating and maintenance costs. Upon transfer to the Town of such ownership and operational responsibility, the Town hereby agrees to serve water to the Property in quantity and quality sufficient to satisfy the contemplated normal present and future domestic, municipal and commercial demands for potable water at the Property as and when required in connection with the development of the Property, subject to any cause of water disruption or degradation of water quality that is outside the control of the Town and further subject to the Town's reasonably enacted and imposed standard terms and conditions of delivery. Upon dedication of any phase of the Water System, Developer shall provide to the Town all applicable as-built drawings, operation and maintenance manuals, operation records, and the like.

(c) **Fees.** The Town shall receive no monthly charges for water service until, and if, the Town accepts ownership of and operational responsibility for the Water System, after which time the Town shall be entitled to the monthly charges for water service as necessary to recoup the costs associated with providing such water services.

(d) **Non-Potable Water**. Developer also retains the right at its option to develop a non-potable water system that utilizes effluent and other non-potable water sources to serve various needs of the Property, including supplying water for golf course irrigation.

(e) **Assured Water Supply**. The Town agrees to cooperate with Developer, at no cost to the Town, to assist the Developer and its respective successors and assigns in obtaining a Certificate of Assured Water Supply from DWR for the Property, or portions thereof, as the Property is developed in accordance with this Agreement. Developer or any successor owner or owners and assigns of all or a portion of the Property, may elect from time to time to qualify the Property (or any portion thereof) as member land in the Central Arizona Groundwater Replenishment District (the "District") pursuant to then applicable law. If the Town is the water provider for the Property, the Town agrees to cooperate with Developer and its successor owner or owners in qualifying the Property or portions thereof as member land in the District by, among other things, recording an instrument or instruments relative to the Property or portions thereof and reasonably acceptable to Developer (or successor owner) and the District, which instrument(s) will satisfy the requirements of A.R.S. § 48-3774, as amended. Developer may qualify the Property as member land in the District in phases and the Town will cooperate with respect to each phase as stated herein.

2.9 Wastewater Treatment.

(a) **Wastewater Services**. Developer, at its expense, from funding sources identified in Section 3 hereof, or through a private wastewater provider, will arrange for the design, engineering, construction, acquisition, installation, and/or permitting of, in phases, and in accordance with the CMP's Master Wastewater Plan, a wastewater collection, storage, treatment, and disposal system ("Wastewater System") that will treat and dispose of wastewater generated at the Property in a manner that meets all applicable federal, state, and local standards. Developer has explored several options for the provision of wastewater service to the Property. The parties, for a period of nine (9) months after the effective date of this Agreement, shall in good faith explore such alternative options to determine whether an alternative option would permit the Town to own and operate the Wastewater System without a material difference to Developer in either the cost of or timing to design, engineer, construct, acquire, install and/or operate the Wastewater System as compared to the costs of and timing associated with the provision of wastewater service by a private wastewater service provider(s). If such alternative exists, the parties shall in good faith implement such alternative; if such alternative does not exist, then Developer retains the right, at its option, to seek and enter into one or more agreements for wastewater service from other private wastewater service providers. The method of treatment shall be approved by the appropriate governmental health agencies.

(b) **Funding/Capacity Rights.** If Developer forms a sewer improvement district as permitted by Arizona Revised Statutes, Town will cooperate and, at no cost to the Town, give

its approval. Alternatively, Developer may request, and the Town shall cooperate to undertake the actions and procedures required to form a CFD, as defined in Paragraph 3.2, in order to provide for the design, engineering, construction, acquisition, installation, permitting, and/or operation of the Wastewater System, as provided in Paragraph 3.2 hereof. The Town further agrees that the Developer may form or contract with a private sewer service, and that the Town will not object to such private company obtaining a certificate of convenience and necessity to provide sewer services to the Property. If the parties agree to implement an alternative that contemplates the Town acquiring ownership of the Wastewater System, then the Developer shall offer and the Town agrees to accept ownership of and operational responsibility for any complete phase of or the entirety of the Wastewater System so long as the transfer is at no cost to the Town (other than subsequent operational and maintenance costs) to acquire the Wastewater System, except new public service and infrastructure funding sources as provided for in Section 3 hereof. Notwithstanding any provision herein to the contrary, acceptance of any phase or all of the treatment component of the Wastewater System may be subject to an agreement by Developer to subsidize operational and maintenance costs for the phase of the treatment component to be accepted for that time period that such phase of the treatment component of the Wastewater System does not generate sufficient revenues to cover operating and maintenance costs. Upon such transfer, Town hereby agrees to reserve and provide sufficient capacity to serve the existing and contemplated normal future needs of the Property as and when required in connection with the development of the Property. Upon dedication of any phases of the Wastewater System, Developer shall provide to the Town all applicable as-built drawings, operation and maintenance manuals, operation records, and the like.

(c) Fees. The Town shall receive no monthly charges for sewer service until, and if, the Town accepts ownership of and operational responsibility for the Wastewater System, after which time the Town shall be entitled to the monthly charges for sewer service as necessary to recoup the costs associated with providing such wastewater service.

2.10 Effluent.

(a) Service. Developer, at its expense, from funding sources identified in Section 3 hereof, or through a private provider, may elect itself or arrange for the design, engineering, construction, acquisition, installation, and/or permitting of in phases, effluent reuse/disposal facilities and a delivery system as part of the non-potable water system ("Effluent Facilities") that meets all applicable federal, state and local standards. Developer retains the right, at its option, to seek and enter into an agreement for effluent service in the future from other private companies if the Town does not provide wastewater service to the Property.

(b) Funding/Capacity Rights. If the Town provides wastewater service to the Property, the Developer shall offer and the Town agrees to accept ownership of any complete phase of, or the entirety of the Effluent Facilities so long as the transfer is at no cost to the Town (other than subsequent operational and maintenance costs) to acquire the Effluent Facilities. Upon transfer to the Town of such ownership, the Town hereby agrees to serve effluent to the Property in quantity and quality sufficient to satisfy the contemplated normal present and future demands (including supplying water for golf course irrigation) for effluent at the Property as and when required in connection with the development of the Property, subject to any cause of water

disruption or degradation of water quality that is outside the control of the Town and further subject to the Town's standard terms and conditions of delivery. Upon dedication of any phase of the Effluent System, Developer shall provide to the Town all applicable as-built drawings, operation and maintenance manuals, operation records, and the like.

(c) **Fees.** Except as provided in this paragraph, if the Town owns the Wastewater System, the treated effluent will be delivered at no cost, other than monthly charges for sewer service that are charged uniformly to all property owners receiving Town sewer service, in amounts and at times designated by Developer. If alternative disposal methods for disposing treated wastewater permit a lower level of treatment than is required for effluent reuse, Developer shall pay monthly charges for effluent that represent the direct incremental costs associated with treating the wastewater to the higher standards required for effluent reuse.

2.11 Private Streets, Continuation, and Improvements; Address Naming . The Town and Developer hereby acknowledge and agree that Developer will have the right to retain and/or acquire ownership to some interior local streets and other rights-of-way located within the Property ("Private Rights-of-Way"). In addition, some or all of the Private Rights-of-Way may be conveyed to one or more homeowners associations created by Developer and/or any successor of Developer for this and other purposes. Developer shall have the right to install access control structures within the medians of the Private Rights-of-Way at any portions of the Property. Developer shall grant to the Town an easement for police, fire, ambulance, garbage collection, water or sewer line installation and repair, and other similar public purposes, over the Private Rights-of-Way. Developer shall have the right to name private streets and any new public streets not a continuation of an already named public street. Developer shall have the right to rename the continuation of Airport Road and Camelback Road as they run through the Property. Developer is not required to connect or continue outside streets through the Property unless indicated on the Master Street and Planning Unit Plans. With the exception of the west one half of Jackrabbit Trail, Developer is not required to improve or dedicate right-of-way on the half streets contained on the perimeter of the Property. The timing of dedication and construction of any portion of the west one-half side of Jackrabbit Trail shall be determined as part of the Planning Unit Plan(s) for the portion of the Property adjacent to Jackrabbit Trail. Developer shall have the right to determine the designation of addresses for properties in the Property after consultation with the appropriate Town and U.S. Postal Service personnel.

2.12 Fire Protection. The Town and Developer hereby acknowledge and agree that the proposed development for the Property requires a full-time, professional fire service with adequate fire fighting response time capabilities. Therefore, the Town shall provide professional fire service that meets the requirements set forth below. The Town shall use its best efforts to staff the Temporary and Permanent Facilities (as defined below) as provided in this Paragraph 2.12. Developer recognizes that the Town may experience temporary staffing shortages due to termination, resignation, and the like, and agrees that, provided Town's best efforts are used to staff the Temporary and Permanent Facilities as provided below, temporary staffing shortages shall not constitute a default under this Agreement.

(a) Upon commencement of any construction activity on the Property, Developer shall provide to the Town, at Developer's expense, a brush truck, which shall be housed temporarily by the Town at the Rancho Sunora fire station.

(b) Upon commencement of vertical construction on the Property, Developer shall provide to the Town a temporary fire protection facility, at a location selected by Developer, and consisting of a modular building with a concrete base, awning to cover the equipment, and on-site utilities including water, electricity, and air conditioning ("Temporary Facility"). The Temporary Facility shall include sleeping quarters for four (4) firefighters. The Town shall move the brush truck provided by Developer pursuant to (a) above to the Temporary Facility. The Town also shall provide, at its expense, a pumper truck in good working order, which shall be housed at the Temporary Facility. The Town shall staff the Temporary Facility with at least two (2) paid firefighters and volunteer firefighters as necessary for ten (10) hours each day during construction hours. Such firefighters shall have Emergency Medical Training ("EMT") and Firefighter II certifications from the State of Arizona.

(c) Upon issuance of the first Certificate of Occupancy for a permanent residential or commercial structure on the Property, in addition to the requirements of (b) above, Town shall increase the hours for the two (2) existing paid firefighters to twenty-four (24) hours each day and add to the staff of the Temporary Facility a sufficient number of volunteer firefighters to adequately serve the Property. The paid firefighters shall have EMT and Firefighter II certifications from the State of Arizona. In addition, the Town shall pay the cost of operating and maintaining the Temporary Facility in a manner that the service provided, excluding any consideration of water service if the Town is not the water provider for the Property, meets or exceeds Insurance Service Organization ("ISO") 6 standards.

(d) Upon the later of (i) twenty-four (24) months after issuance of the first Certificate of Occupancy for a permanent residential or commercial structure on the Property, or (ii) that time that the Certificate of Occupancy for the two hundredth (200th) residential structure is issued or one hundred thousand (100,000) square feet of commercial space is occupied (or same proportionate combination thereof), Developer shall dedicate one two (2) acre site for the location of a permanent joint fire protection and police facility on the Property ("Joint Facility"). Upon such dedication, the Town shall diligently commence the design and diligently pursue the commencement and completion of construction of the Joint Facility. Prior to the Town's commencement of construction, Developer shall review and approve the design of the Joint Facility for compliance with the design standards and conditions, covenants, and restrictions applicable to the Property, which approval shall not unreasonably be withheld. Developer shall pay to the Town the Town's cost of designing and constructing the Joint Facility, up to a maximum of seven hundred and fifty thousand dollars ($750,000), which maximum shall be adjusted on an annual basis beginning one (1) year after adoption of this Agreement in an amount equal to the amount of the CPI increase (consumer price index for all urban customers, all cities – all items, 1982-1984). The Town shall pay: (i) any additional costs associated with the design and construction of the Joint Facility over and above Developer's seven hundred and fifty thousand dollar ($750,000) contribution (as adjusted); (ii) the cost of staffing the Joint Facility with at least four (4) paid firefighters for twenty-four (24) hours each day, which firefighters shall have EMT and Firefighter II certifications from the State of Arizona and (iii) the cost of operating and maintaining the Joint Facility in a manner that the service provided,

excluding any consideration of water service if the Town is not the water provider for the Property, meets or exceeds ISO 6 standards. The Town shall move the equipment (including the brush truck and the pumper truck) from the Temporary Facility to the Joint Facility.

(e) Upon the later of (i) forty-eight (48) months after issuance of the first Certificate of Occupancy for a permanent residential structure on the Property, or (ii) at that time that the Certificate of Occupancy for the one thousandth ($1,000^{th}$) permanent residential structure is issued, the Town shall, at its expense, equip the Joint Facility with an Advanced Life Support ("ALS")/paramedic apparatus and staff the Joint Facility with at least six (6) paid firefighters for twenty-four (24) hours each day. At least two (2) of the six (6) firefighters shall be ALS certified, and all firefighters shall have EMT and Firefighter II certifications from the State of Arizona. In addition, the Town shall pay the cost of operating and maintaining the Joint Facility in a manner that the service provided, excluding any consideration of water service if the Town is not the water provider for the Property, meets or exceeds ISO 6 standards.

(f) If necessary to meet ISO 6 standards, Developer shall dedicate a one and one-half (1 ½) acre site for the location of a permanent fire protection facility in addition to the Joint Facility at such time as the Town is prepared to construct, staff, operate, and maintain such additional permanent fire protection facility in a manner that meets ISO 6 standards.

2.13 Police Protection. The Town agrees to provide police services to the Property in a manner and at a level comparable to that provided to other residents of the Town. Developer shall provide dedicated office space adjacent to the sales office or commercial space for use by Town police at the time such office space is available on the Property ("Temporary Police Office"). Developer also shall pay to the Town twenty-five thousand dollars ($25,000) to set up the Temporary Police Office. The Town shall man the Temporary Police Office twenty-four (24) hours per day for the benefit of the Property as well as the surrounding areas of the Town. Upon completion of construction of the Joint Facility referenced in Paragraph 2.11(d) above, Developer shall pay to the Town an additional twenty-five thousand dollars ($25,000) to set up a permanent branch police office ("Permanent Police Facility"), and the Town shall move its operations to the Joint Facility and abandon the Temporary Police Facility. The Town shall man the Permanent Police Facility twenty-four (24) hours per day for the benefit of the Property as well as the surrounding areas of the Town.

2.14 Municipal Services Generally. The Town acknowledges that, among other things, the need for public services/infrastructure improvements other than transportation, drainage, water, and wastewater public services/infrastructure improvements, such as, for example, police, fire, schools, parks, and open space areas for public assembly and recreation, is substantially offset or accounted for by virtue of the accommodations and facilities contemplated by the Master Public Facilities Plan, the CMP, and this Agreement (such public services/infrastructure being included in the references herein to Services/Infrastructure). The Town and Developer acknowledge and agree that various public facilities and services such as, but not limited to, police, fire, schools and parks as identified in the CMP and to be identified in the Planning Unit Plans will be sited, provided, maintained and operated in accordance with this Agreement and the CMP and the public facility standards contained therein. The Town further

acknowledges that provisions in the CMP for recreation facilities, parks, view corridors and open-space areas meet or exceed the level of service standards of the Town and, if and when constructed, will offset or otherwise account for any burden that otherwise might be imposed upon the Town as the result of development of the Property. In addition, the CMP and this Agreement contemplate the provision of adequate fire and emergency medical services (it being acknowledged and agreed that the planned services and facilities, will similarly offset or account for any burden that otherwise might be imposed upon the Town). The Town agrees to provide garbage and refuse collection and other municipal services to the Property in a manner and at a level comparable to that provided to other residents of the Town. Developer shall dedicate a two (2) acre site to the Town for the construction of library facilities at such time as the Town commits to fund the design and construction of the library facilities within one (1) year of the dedication.

2.15 Schools. The Property is located in the Ruth Fisher School District, the Litchfield Park Elementary School District, the Agua Fria High School District, the Liberty Elementary School District, and the Buckeye High School District (collectively, the "Districts"). Developer will work diligently with the Districts to ensure that the educational needs of Property residents are met.

2.16 Town's Review of Plans and Construction. Whenever in this Agreement Developer is required to design a building, structure, or project that Town will own, Town shall have the right to review and approve the final plans and specifications prior to commencement of construction. In the event the Town reasonably objects to any aspect of such final plans and specifications within thirty (30) days after the Town's receipt of such plans and specifications, the Town and Developer shall use good faith efforts to resolve the Town's objections and, if no resolution is reached within thirty (30) days after Developer's receipt of the Town's objections, such matter shall be submitted for resolution to binding arbitration governed by the rules of the American Arbitration Association and the Arizona Uniform Arbitration Act, A.R.S. § 12-1501 *et seq.*, and judgment upon the award rendered by the arbitrator(s) may be entered in any court of competent jurisdiction.

2.17 Development Fees. Consistent with the provisions of A.R.S. § 9-463.05, the Town has evaluated the CMP and this Agreement and has considered the contribution made or to be made in the future on account of taxes (including sales taxes), other fees, and assessments paid by Developer and the anticipated future residents of the Property. The Town has determined that all Services/Infrastructure necessary to serve the anticipated needs of the future residents of the Property are provided for in the CMP and this Agreement, or will be provided for through the payment of such taxes, other fees, and assessments. Without limiting the foregoing, the Town acknowledges that such Services/Infrastructure will meet or exceed the level of service standards of the Town and, if and when constructed, will offset or account for the burden that would otherwise be imposed upon the Town to provide such Services/Infrastructure. The Town further acknowledges that effectuation of the Infrastructure Plan will confer a benefit on the Property and, in certain instances, the larger land area served, or potentially served, by the public services/infrastructure improvements planned, designed, engineered, constructed, acquired,

installed, and/or provided in accordance with the Infrastructure Plan in that, among other things, anticipated planning and development within such larger area necessarily will result in the need for public services, including infrastructure. In addition, the Town has reviewed the cost estimates for the Services/Infrastructure prepared by Wood Patel, Inc. dated September 17, 1999, and agrees that such cost estimates are a reasonable approximation of the costs associated with the planning, design, engineering, construction, acquisition, installation, and/or provision of such Services/Infrastructure for purposes of determining the development fees applicable to the Property. The Town acknowledges and agrees that Developer has established certain aspects of, and is in the process of further developing, a plan of finance intended to provide for the planning, design, engineering, construction, acquisition, installation, and/or provision of various components of such Services/Infrastructure as and when development, market, and other conditions indicated that proceeding with such activities is appropriate. Based on that portion of the plan of finance that has been completed as of the date of this Agreement, which the Town has reviewed and evaluated, the Town acknowledges and agrees that it is appropriate to establish the amount of such development fees applicable to the Property as set forth in Exhibit D, which is consistent with a written report provided to the Town that includes the cost estimates referenced above. The Town's agreement, however, is expressly conditioned upon Developer completing and, at the appropriate stages of development, implementing such Services/Infrastructure, including appropriate provisions for funding the cost of such Services/Infrastructure that is not funded through the payment of development fees. The Town will cooperate with Developer in effectuating the Services/Infrastructure plan of finance, including taking reasonable action, at Developer's expense, to facilitate utilization of other public services and infrastructure financing mechanisms in amounts sufficient to pay the cost of the Services/Infrastructure in conjunction with the development fees. Subject to the foregoing, the maximum total development fee for residential and commercial/industrial development is fixed by Exhibit D; however, the Town acknowledges and agrees that, upon Developer's reasonable request supported by third-party documentation, the development fee for any individual development fee category set forth in Exhibit D may be adjusted (i.e., increased or decreased) based on actual costs, as and when other elements of Developer's Services/Infrastructure plan of finance are established. This paragraph shall survive the termination of this Agreement pursuant to Paragraph 7.6(c) of this Agreement.

2.18 Development Fee Credit. The Town acknowledges and agrees that the Services/Infrastructure to be provided by Developer under the Infrastructure Plan, and certain additional Public Infrastructure Improvements that may be provided from time to time under this Agreement, will confer a benefit on the Property and, in certain instances, may confer a benefit on land areas outside the Property. In recognition of such benefits, the Town acknowledges and agrees that the Town shall take into account and credit Developer dollar for dollar against the sum total of all development fees owed by Developer or anticipated builders/residents on the Property. Such credit shall equal the sum of all costs associated with constructing, acquiring, and/or installing the Services/Infrastructure, including, but not limited to, costs for design, engineering, surveying, permits, taxes, fees, bonds, labor, materials, land, and construction administration. Any credits shall be freely assignable by Developer. Developer and the Town shall compute the credits outstanding on a quarterly basis. This paragraph shall survive the termination of this Agreement pursuant to Paragraph 7.6 (c) of this Agreement.

2.19 Development Fee Program. The Town has approved a written report based on documentation supporting the findings and determinations of the Town as described in Paragraph 2.17. Based on such written report and on any additional documentation supplied by Developer, and at Developer's request, the Town shall provide the required notice of intention to assess a new development fee and release to the public the written report, together with the documentation, in accordance with A.R.S. § 9-463.05. Thereafter, the Town shall conduct a public hearing, as required by the statute, and adopt one or more ordinances that provide for the payment of development fees to defray the costs of providing necessary Services/Infrastructure within and without the Property, as contemplated under Paragraph 2.17 and A.R.S. § 9-463.05. The ordinance shall include and be subject to the provisions contained in Exhibit E. Without limiting the foregoing, upon the adoption of such an ordinance, the development fees applicable to the Property shall be those set forth in Exhibit D, but the reimbursement procedures set forth in such ordinance may be utilized by Developer in lieu of the credit provisions set forth in Paragraph 2.18 herein. If at any time the Town determines to, or does, adopt any other ordinance or ordinances for the purpose of assessing development fees in respect of development that includes the Property, the Town acknowledges and agrees that so long as Developer has completed the applicable portions of the Services/Infrastructure and has made appropriate arrangements to pay for those components of the Services/Infrastructure required on account of actual development of portions of the Property, development fees assessed in respect of the Property shall not exceed the amount, scope, or range of development fees set forth on Exhibit D. This paragraph shall survive the termination of this Agreement pursuant to Paragraph 7.6 (c) of this Agreement.

III. ALTERNATIVES FOR FINANCING INFRASTRUCTURE IMPROVEMENTS.

3.1 Town Obtains Additional Funds. If the Town, alone or in conjunction with other public bodies, obtains State, federal or other funds specifically designated for the planning, design, engineering, construction, installation, acquisition, or provision of that certain planned freeway interchange at the juncture of Interstate 10 and the alignment of Airport Road or any other portion of the Services/Infrastructure, including Services/Infrastructure that is within the jurisdiction of the State, Maricopa County, or public bodies either together with or independent of the Town, and/or land upon which the said freeway interchange or any component of such other Services/Infrastructure is to be located is conveyed to the Town, such funds (and/or land, if applicable) shall be applied to, or made available for, the planning, design, engineering, construction, acquisition, installation, and/or provision (as applicable) of such freeway interchange or any other portion of the Services/Infrastructure and related facilities and public infrastructure.

3.2 Community Facility Districts. The Town acknowledges and agrees that the Services/Infrastructure comprise the kinds of public services and improvements that will be in the public interest and convenience of, among others, the future residents of the Property. Upon (and only upon) the written petition of Developer, and subject to the provisions of this Paragraph 3.2, the Town shall use good faith efforts to adopt a resolution of intention and conduct such procedures as are necessary to form one or more Community Facilities District ("CFD") pursuant to A.R.S. § 48-701 *et seq.*, and/or one or more other municipal special taxing districts

as are now, or hereinafter, authorized under applicable law (any such CFD, and/or special taxing districts are interchangeably referred to herein as a "District") to provide for the planning, design, financing, re-financing, construction, acquisition, installation, conversion, and/or renovation, and/or maintenance of Services/Infrastructure, whether located within or outside the Property, as may be within the permitted purposes of a District under applicable law. If Developer's application is signed by 100% of the owners of the land located and 100% of any qualified electors within the boundaries of the proposed District, and such application is accompanied by all items required as a prerequisite to the adoption of a resolution of intention to form a District, and formation of such District will not result in any out-of-pocket cost to the Town except such costs as will be paid by Developer or such other new funding sources resulting from the formation of the District and the issuance of bonds, the Town shall use good faith efforts to conduct such procedures, including adopting an appropriate resolution for the formation of the District and otherwise use its best efforts to expedite formation of the District, subject to the requirements that must be observed to validly form the District under applicable law. If Developer's application is signed by less than 100% of the owners of the land and 100% of any qualified electors located within the boundaries of the proposed District, but more than the number of landowners required, under applicable law, to permit the Town to proceed to adopt an appropriate resolution of intention and conduct such other procedures as are required to validly form a District, and Developer's application is accompanied by one or more studies or reports prepared, on an arms-length basis, by third-party consultants reasonably acceptable to the Town that demonstrate benefits to the Town and the land area proposed to be included within the boundaries of the proposed District that are proportionate to, or greater than, the anticipated costs associated with the formation of the District and the issuance of bonds, on account of, e.g., the planning, engineering, financing, re-financing, construction, acquisition, improvement, installation, and/or renovation of the Services/Infrastructure that are intended (and permitted under applicable law) to be the purpose of the proposed District, the Town shall not unreasonably withhold its consent to the formation of such District and, if the Town is able to confirm, to its reasonable satisfaction, that such benefits and costs are substantially as represented in Developer's submittals, shall conduct such procedures as are necessary to validly form such District, including adopting one or more resolutions of intention to form such District as required under applicable law. When a District is formed and all necessary legal requirements have been satisfied, the District may, in its sole and absolute discretion, take other action necessary to issue bonds in one or more series and in amounts supported by the submittals made and approved at the time of formation or in such amounts as are later determined by the District, as appropriate. Such bonds shall finance all costs of design, planning, financing, re-financing, constructing, acquiring, installing, converting, and/or renovating (as applicable) the Services/Infrastructure that are the subject of such District, including costs of issuance. The agreed-upon guidelines for CFDs are attached as Exhibit F. If the Town forms a CFD for street maintenance within the Property, the appropriate homeowners association shall be reimbursed, from the proceeds of such CFD tax levy, for some percentage, as shall be agreed to by the Town and the homeowners association, of the total cost associated with maintenance of landscaping within or immediately adjacent to the public use easement area and/or right-of-way.

3.3 Implementation Of This Agreement. Immediately upon formation and as a condition of formation of a CFD, the Town, Developer, and CFD shall enter into an intergovernmental, financing participation, and development agreement as permitted by A.R.S. §

48-709 and 11-952, and the Town and Board of Directors of the CFD ("CFD Board") shall administer the implementation of such Agreement as it relates to the CFD and the real property included therein. It shall be a condition to Developer's participation in the formation of a CFD that the CFD Board shall meet promptly following such formation and adopt a resolution that includes as a part thereof a ratification of such Agreement. Such ratification shall constitute an acknowledgment by the Town and the CFD that: (i) the portion, if any, of the Services/Infrastructure to be constructed by the CFD as provided in its general plan (which shall correlate to the applicable portion of the Infrastructure Plan) is intended to be funded by the CFD; and (ii) that it is the intention of the CFD to reimburse Developer, to the extent permitted by law, for the costs of the Services/Infrastructure, or any portion thereof, constructed by Developer prior to the availability of CFD funds to finance construction or acquisition of such Services/Infrastructure. Nothing in this paragraph shall be construed to relieve the Town of the Town's obligations under this Agreement. Nothing herein shall be construed as an approval by the Town or its representatives of any action of the CFD provided for or required by, or to be taken as a result of, this Agreement upon formation of any CFD. Moreover, the Town shall not be responsible for the compliance by the CFD with, or performance of any obligation of the CFD pursuant to, this Agreement.

3.4 Other Financing Methods. Upon the Developer's request, the Town, at its sole and absolute discretion, may take such action necessary to form one or more municipal property corporations or industrial development authorities or to implement other sources of development financing for the purpose of financing the cost of construction and maintenance of any or all portion of the Services/Infrastructure, including, without limitation, sewer, drainage, bridge, roadway, flood control and recreational improvements, and whether or not the construction of such improvements is the responsibility of the Developer or any CFD formed pursuant hereto

3.5 Over-sizing. If and to the extent the Town requires Developer to plan, design, engineer, construct, acquire, install, or otherwise provide Services/Infrastructure that exceed the capacity required to serve the development within the Property, and such Services/Infrastructure are not subject to a development fee reimbursement agreement or other similar mechanism whereby Developer will be repaid Developer's additional cost incurred directly related to the over-sizing to plan, design, engineer, construct, acquire, install or otherwise provide such Services/Infrastructure, Developer shall be entitled to be reimbursed in whole, and shall be entitled to receive satisfactory financial assurances of payment prior to the commencement of construction of such Services/Infrastructure, for all costs attributable to such oversizing, including a reasonable allowance for a proportionate share of the cost of any additional land needed to accommodate such over-sized Services/Infrastructure. Developer, at its expense, shall prepare a regional analysis that will be used to determine over-sizing requirements.

IV. COOPERATION AND ALTERNATIVE DISPUTE RESOLUTION.

4.1 Appointment of Representatives. To further the commitment of the parties to cooperate in the implementation of this Agreement, the Town and the Developer each shall designate and appoint a representative to act as a liaison between the Town and its various

departments and the Owner. The Town Council or the Developer may change their representative at any time, but each party agrees to have a current active representative appointed for discussion and review as further detailed in this Agreement. The initial representative for the Town (the "Town Representative") shall be Joseph Blanton, the initial representative for the Developer shall be John Bradley (the "Developer Representative"), and the initial representative for Caterpillar shall be Bo Mattson ("Caterpillar Representative"). The representatives shall be available at all reasonable times to discuss and review the performance of the parties to this Agreement and the development of the Property pursuant to the approved CMP. The representatives may recommend amendments to the CMP or this Agreement which may be agreed upon by the parties.

4.2 Timing. The Town acknowledges the necessity for expeditious review by the Town of all plans and other materials ("Submitted Materials") submitted by Developer to the Town hereunder or pursuant to any zoning, platting, permit, or other governmental procedure pertaining to the development of the Property and agrees to review the Submitted Materials in the timeframes set forth in Exhibit C.

4.3 Expedited Town Decisions. The implementation of the CMP shall be in accordance with the development review process of the Town. The Town and the Developer agree that the Developer must be able to proceed rapidly with the development of the Property and that, accordingly, an expedited Town review and land development and construction inspection process is necessary. Accordingly, the parties agree that if at any time Developer believes that an impasse has been reached with the Town Staff on any issue affecting the Property, the Developer shall have the right to immediately appeal to the Town Manager for an expedited decision pursuant to this paragraph. Developer recognizes that staffing changes and employee workloads may make the timeframes detailed in this Paragraph impractical. Thus, Developer and the Town agree that the timeframes set forth in this Paragraph 4.3 shall be adhered to as closely as is practical under the circumstances, but failure to adhere strictly to such timeframes shall not constitute a default under this Agreement.

If the issue on which an impasse has been reached is an issue where a final decision can be reached by the Town Staff, the Town Manager shall give Developer a final decision within fifteen (15) days after Developer's request for an expedited decision. If the issue on which an impasse has been reached is one where a final decision requires action by the Town Council, the Town Manager shall be responsible for scheduling a Town Council hearing on the issue within four (4) weeks after Developer's request for an expedited decision; provided, however, that if the issue is appropriate for review by the Town's Community Planning and Development Board, the matter shall be submitted to the Development Board first, and then to the Town Council. Both parties agree to continue to use reasonable good faith efforts to resolve any impasse pending any such expedited decision. Notwithstanding anything contained herein to the contrary, in the event the Town does not have a sufficient number of personnel to implement the expedited development review process or the expedited land development and construction inspection services, Developer may elect to pay the costs incurred by the Town for such private, independent consultants and advisors which may be retained by the Town, as necessary, to assist

the Town in the review and/or inspection process; provided, however, that such consultants shall take instructions from, be controlled by, and be responsible to, the Town and not Developer.

4.4 Default. Failure or unreasonable delay by either party to perform or otherwise act in accordance with any term or provision of this Agreement for a period of thirty (30) days (the "Cure Period") after written notice thereof from the other party, shall constitute a default under this Agreement; provided, however, that if the failure or delay is such that more than thirty (30) days would reasonably be required to perform such action or comply with any term or provision hereof, then such party shall have such additional time as may be necessary to perform or comply so long as such party commences performance or compliance within said thirty (30) day period and diligently proceeds to complete such performance or fulfill such obligation. Said notice shall specify the nature of the alleged default and the manner in which said default may be satisfactorily cured, if possible. In the event such default is not cured within the Cure Period, the non-defaulting party shall have all rights and remedies that are set forth in Paragraph 4.5 of this Agreement.

4.5 Dispute Resolution/Remedies. Except as provided in Paragraph 2.16, the parties shall be limited to the remedies and the dispute resolution procedure set forth on Exhibit G and in this Paragraph. Any dispute, controversy, claim or cause of action arising out of or relating to this Agreement shall be governed by Arizona law. Developer and the Town agree that any decision rendered by the Panel (as defined in Exhibit G) pursuant to the provisions of Exhibit G shall be binding on both parties unless and until a court of competent jursidiction renders its final decision on the disputed issue, and if either party does not abide by the decision rendered by the Panel during the pendency of an action before the court of competent jurisdiction or otherwise (if no court action), the other party may institute an action for money damages on the issues that were the subject of the Panel's decision and/or any other relief as may be permitted by law.

V. NOTICES AND FILINGS.

5.1 Manner of Serving. All notices, filings, consents, approvals and other communications provided for herein or given in connection herewith shall be validly given, filed, made, delivered or served if in writing and delivered personally or sent by certified United States Mail, postage prepaid, return receipt requested, if to:

The Town:

Town Manager
Joseph Blanton
Town of Buckeye
100 North Apache Road
Buckeye, AZ 85326

or to such other addresses as either party hereto may from time to time designate in writing and delivery in a like manner.

5.2 Mailing Effective. Notices, filings. consents, approvals and communication given by mail shall be deemed delivered forty-eight (48) hours following deposit in the U.S. mail, postage prepaid and addressed as set forth above.

VI. MISCELLANEOUS.

6.1 Operations During Construction. The Town hereby acknowledges and agrees that mining (for purposes of on-site material usage), blasting and batch plant operations shall be allowed on-site during construction of the improvements. The location of such operations shall be subject to review and approval by the appropriate Town officials and any other agencies that have jurisdiction over such operations.

6.2 Hierarchy of Documents. There are numerous documents that affect the subject matter of this Agreement. In the event of a conflict or inconsistency between or among any or all of these documents, the documents shall take priority in the following order, unless the documents expressly provide a contrary order of priority: (a) this Agreement; (b) the CMP; and (c) the applicable ordinances, rules, regulations, permit requirements, development fees, other requirements, and/or official policies of the Town as established in Paragraph 1.4 hereof entitled "Regulation of Development."

6.3 Billboard Relocation. The property currently contains four billboard sites whose location may be impacted by future highway improvements. The Town hereby acknowledges and agrees that Developer shall be allowed to relocate the same number and size of billboards to new sites on the Property subject to appropriate Federal Highway Administration and Arizona Department of Transportation review and approval, and that Developer has a vested right to locate four billboards on the Property and oriented to Interstate 10.

6.4 Community Identification Signs. Developer shall have the right to construct and maintain up to four (4) community identification signs, provided that such signs meet the following parameters: (i) no community identification sign shall exceed sixty-five (65) feet in height; (ii) no sign face shall exceed five hundred and sixty (560) square feet; and (iii) all such signs shall be located within five hundred (500) feet of Arizona Department of Transportation right-of-way. Developer shall maintain the community identification signs in a commercially reasonable manner and shall remove the signs at such time as Developer has reached eighty

percent (80%) build-out on the Property. Developer may not lease the community identification signs to third parties or use the signs for any purpose other than community identification.

6.5 Condemnation. The Town hereby acknowledges and agrees that the development of a water/wastewater treatment campus and other infrastructure systems to be owned by Town serving the Property and potentially other properties is subject to locational factors that may require development of such campus and systems partially or wholly outside of the boundaries of the Property. Upon request by Developer, and solely at the cost of Developer, the Town agrees to acquire or condemn any necessary public rights-of-way, easements, or property outside the boundaries of the Property necessary for the water-wastewater treatment campus and any other Public Services/Infrastructure.

6.6 ADOT Sponsorship. At the request of Developer, Town agrees to provide written and verbal support to achieve approval by the Arizona Department of Transportation and the FHWA of the circulation system's interrelationship with the highway design, such as the location of highway interchanges, as reflected in the Master Street and Circulation Plan.

6.7 ADOT Surplus Property. Town agrees to initiate the acquisition process and acquire on the Developer's behalf the parcels of land as identified in Exhibit H that are classified as surplus property by ADOT and located near the southern boundary of the Property and Interstate Route 10. Developer shall pay all Town acquisition costs for such parcels.

6.8 Flood Control District Cooperation. The Town hereby agrees to cooperate reasonably with and assist Developer in amendments to any Maricopa County Flood Control District drainage reports or other applicable government reports in order to prevent or eliminate flood plain designation on any Federal Emergency Management Agency maps, so long as such amendment does not negatively impact other landowners.

VII. GENERAL.

7.1 Waiver. No delay in exercising any right or remedy shall constitute a waiver thereof, and no waiver by the Town or Developer of the breach of any covenant of this Agreement shall be construed as a waiver of any preceding or succeeding breach of the same or any other covenant or condition of this Agreement.

7.2 Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together constitute one and the same instrument. The signature pages from one or more counterparts may be removed from such counterparts and such signature pages all attached to a single instrument so that the signatures of all parties may be physically attached to a single document.

7.3 **Headings.** The descriptive headings of the paragraphs of this Agreement are inserted for convenience only and shall not control or affect the meaning or construction of any of the provisions hereof.

7.4 **Exhibits and Recitals.** Any exhibit attached hereto shall be deemed to have been incorporated herein by this reference with the same force and effect as if fully set forth in the body hereof. The Recitals set forth at the beginning of this agreement are hereby acknowledged and incorporated herein and the parties hereby confirm the accuracy thereof.

7.5 **Further Acts.** Each of the parties hereto shall promptly execute and deliver all such documents and perform all such acts as reasonably necessary, from time to time, to carry out the matters contemplated by this Agreement.

7.6 **Future Effect.**

(a) **Time of Essence and Successors.** Time is of the essence in implementing the terms of this Agreement. All of the provisions hereof shall inure to the benefit of and be binding upon the successors and assigns of the parties hereto pursuant to A.R.S. § 9-500.05(D), except as provided below; provided, however, Developer's rights and obligations hereunder may only be assigned to a person or entity that has acquired the Property or a portion thereof and only by a written instrument, recorded in the official records of Maricopa County, Arizona, expressly assigning such rights and obligations.

Notwithstanding the foregoing, the Town agrees that the ongoing ownership, operation and maintenance obligations provided by this Agreement may be assigned to a homeowners' association to be established by Developer. Developer agrees to provide the Town with written notice of any assignment of Developer's rights or obligations within a reasonable period of time following such assignment. Except as otherwise provided in this Agreement, in the event of a complete assignment by Developer of all rights and obligations of Developer hereunder, Developer's liability hereunder shall terminate effective upon the assumption by Developer's assignee. Nothing in this Agreement shall operate to restrict Developer's ability to assign less than all of its rights and obligations under this Agreement to those entities that acquire any portion of the Property.

Notwithstanding any other provisions of this Agreement, Developer may assign all or part of its rights and duties under this Agreement to any financial institution from which Developer has borrowed funds for use in constructing the Infrastructure Improvements or otherwise developing the Property. Additionally, Developer may assign its rights and duties under this Agreement to another developer or owner.

(b) **Term.** The term of this Agreement shall commence on the date and at the time an ordinance approving and adopting this Agreement is approved by the Town Council, and shall automatically terminate on the twenty-fifth (25th) anniversary of such date. However, if any of the Property still is subject to this Agreement twenty-five (25) years after the effective date of this Agreement, this Agreement shall automatically extend without the necessity of any

notice, agreement, or recording by or between the parties an additional ten (10) years, for a total of thirty-five (35) years, at which time this Agreement shall automatically terminate as to the Property without the necessity of any notice, agreement, or recording by or between the parties.

(c) **Termination Upon Sale to Public.** Except as otherwise provided herein, the Town and Developer hereby acknowledge and agree that this Agreement is not intended to and shall not create conditions or exceptions to title or covenants running with the Property. Therefore, in order to alleviate any concern as to the effect of this Agreement on the status of title to any of the Property other than the streets contained within the Property as provided in Paragraph 2.11 so long as not prohibited by law, this Agreement shall terminate without the execution or recordation of any further document or instrument as to any lot which has been finally subdivided and individually (and not in "bulk") leased (for a period of longer than one year) or sold to the end purchasers or users thereof (a "Public Lot") and thereupon such Public Lot shall be released from and no longer be subject to or burdened by the provisions of this Agreement. This subparagraph shall not apply to Paragraphs 1.9 and 2.17-2.19 of this Agreement.

7.7 No Partnership; Third Parties. It is not intended by this Agreement to, and nothing contained in this Agreement shall, create any partnership, joint venture or other arrangement between Developer and the Town. No term or provision of this Agreement is intended to, or shall, be for the benefit of any person, firm, organization or corporation not a party hereto, and no such other person, firm, organization or corporation shall have any right to cause of action hereunder.

7.8 Entire Agreement. This Agreement constitutes the entire agreement between the parties hereto pertaining to the subject matter hereof all prior and contemporaneous agreements, representations and understandings of the parties, oral or written, are hereby superseded and merged herein.

7.9 Amendment. No change or addition is to be made to this Agreement except by a written amendment executed by the Town and Developer. Within ten (10) days after any approved amendment to this Agreement, such approved amendment shall be recorded in the Official Records of Maricopa County, Arizona.

7.10 Names and Plans. Developer shall be the sole owner of all names, titles, plans, drawings, specifications, ideas, programs, designs and work products of every nature at any time developed, formulated or prepared by or at the instance of Developer in connection with the Property; provided, however, that in connection with any conveyance of portions of the Property to the Town, such rights pertaining to the portions of the Property so conveyed shall be assigned to the extent that such rights are assignable, to the Town. Notwithstanding the foregoing, the Developer shall be entitled to utilize all such materials described herein to the extent required for Developer to construct, operate or maintain improvements relating to the Property.

7.11 **Good Standing; Authority.** Each of the parties represents to the other that : (i) it is duly formed and validly existing under the laws of Arizona, with respect to Developer, or is duly formed and validly existing under the laws of Illinois, with respect to Caterpillar, or is a municipal corporation within the State of Arizona, with respect to the Town; (ii) it is an Arizona limited liability company, with respect to Developer, an Illinois not-for-profit corporation, with respect to Caterpillar, or a municipal corporation duly qualified to do business in the State of Arizona, with respect to the Town, and is in good standing under applicable state laws, and (iii) that the individual(s) executing this Agreement on behalf of the respective parties are authorized and empowered to bind the party on whose behalf each such individual is signing.

7.12 **Severability.** If any provision of this Agreement or the CMP is declared void or unenforceable, such provision shall be severed from this Agreement and/or the CMP, which shall otherwise remain in full force and effect. If any applicable law or court of competent jurisdiction prohibits or excuses one party from undertaking any contract commitment to perform any act hereunder, then the other party may, at such other party's sole discretion, after giving the first party notice to cure in accordance with Paragraph 4.4 above, after the first party's failure to cause cure or legal inability to cure, terminate this Agreement or proceed with all of the Agreement not prohibited by law. The parties acknowledge and agree that, although the parties believe that the terms and conditions contained in this Agreement do not constitute an impermissible restriction of the police power of the Town, and that it is their express intention that such terms and conditions be construed and applied as provided herein, to the fullest extent possible, it is their further intention that, to the extent any such term or condition is found to constitute an impermissible restriction of the police power of the Town, such term or condition shall be construed and applied in such lesser fashion as may be necessary to reserve to the Town all such power and authority that cannot be restricted by contract.

7.13 **Governing Law.** This Agreement is entered into in Arizona and shall be construed and interpreted under the laws of Arizona. In particular, this Agreement is subject to the provisions of A.R.S. § 38-511.

7.14 **Recordation.** This Agreement shall be recorded in its entirety in the Official Records of Maricopa County, Arizona not later than ten (10) days after this Agreement is executed by the Town, Developer, and Caterpillar.

7.15 **No Developer Representations.** Nothing contained herein or in the CMP shall be deemed to obligate the Town or Developer to complete any part or all of the development of the Property in accordance with the CMP or any other plan, and the CMP shall not be deemed a representation or warranty by Developer of any kind whatsoever.

7.16 **Status Statements.** Any party to this agreement (the "requesting party") may, at any time, and from time to time, deliver written notice to any other party requesting such other party (the "providing party") to provide in writing that, to the knowledge of the providing party, (a) this Agreement is in full force and effect and a binding obligation of the parties, (b) this

Agreement has not been amended or modified either orally or in writing, and if so amended, identifying the amendments, and (c) the requesting party is not in default in the performance of its obligations under this Agreement, or if in default, to describe therein the nature and amount of any such defaults (a "Status Statement"). A party receiving a request hereunder shall execute and return such Status Statement within 10 days following the receipt thereof. The Town Manager or any Assistant Town Manager shall have the right to execute any Status Statement requested by Developer hereunder. The Town acknowledges that a Status Statement hereunder may be relied upon by transferees and mortgagees. The Town shall have no liability for monetary damages to Developer, and transferee or mortgagee, or any other person in connection with, resulting from or based upon the issuance of any Status Statement hereunder.

7.17 Mortgage Provisions

(a) Mortgagee Protection. This Agreement shall be superior and senior to any future lien placed upon the Project, or any portion thereof, including the lien of any mortgage or deed of trust (herein "Mortgage"). However, no breach hereof shall invalidate or impair the lien of any Mortgage made in good faith and for value, and any acquisition or acceptance of title or any right or interest in or with respect to the Property or any portion thereof by a mortgagee (herein defined to include a beneficiary under a deed of trust), whether under or pursuant to a mortgage foreclosure, trustee's sale or deed in lieu of foreclosure or trustee's sale, or otherwise, shall be subject to all of the terms and conditions contained in this Agreement. No mortgagee shall have an obligation or duty under this Agreement to perform Developer's obligations or other affirmative covenants of Developer hereunder, or to guarantee such performance; except that to the extent that any covenant to be performed by Developer is a condition to the performance of a covenant by the Town, the performance thereof shall continue to be a condition precedent to the Town's performance hereunder.

(b) Bankruptcy. If any mortgagee is prohibited from commencing or prosecuting foreclosure or other appropriate proceedings in the nature thereof by any process or injunction issued by any court or by reason of any action by any court having jurisdiction of any bankruptcy or insolvency proceeding involving Developer, the times specified above for commencing or prosecuting foreclosure or other proceedings shall be extended for the period of the prohibition, provided that such mortgagee is proceeding expeditiously to terminate such prohibition and in no event for a period longer than two years.

7.18 Assignment.

(a) Prohibition. Developer shall not assign or encumber any of its rights and obligations hereunder without the express written consent of the Caterpillar (which consent may be withheld in its sole and absolute discretion) so long as Caterpillar holds an interest in the Property as: (i) a beneficiary under a trust; (ii) a lienholder or (iii) in any capacity. This subparagraph (a) shall not apply to Developer's assignment of all or any portion of its rights and obligations hereunder as part of a sale or transfer of all or any portion of the Property or to Developer's dedication to the Town of Public Services/Infrastructure, including the land on which such Public Services/Infrastructure is constructed.

(b) **Rights of Caterpillar**. Notwithstanding what may otherwise be provided herein, in the event Developer loses its ownership (or beneficial) interest in the Property through forfeiture, foreclosure, trustees sale or otherwise (except for sales or dedications of all or a portion of the Property in the ordinary course of Developer's business, or as otherwise provided in this Agreement) Caterpillar shall have the right, in its sole and absolute discretion, to cause the automatic assignment to a third party of any or all of the Developer's rights and benefits hereunder upon the recording of a notice of assignment (in a form acceptable to Caterpillar in its sole and absolute discretion) with the office of the Maricopa County Recorder (the "Notice of Assignment") and filing a copy of the Notice of Assignment with the Town. The Notice of Assignment shall identify the rights and benefits being assigned together with the name and address of the assignee thereunder. Such assignment shall be effective upon the recording of the Notice of Assignment.

IN WITNESS WHEREOF, the parties have executed this Agreement to be effective on the date and at the time an ordinance approving and adopting this Agreement is approved by the Town Council of the Town of Buckeye.

PARCEL DESCRIPTION

Section 1, Township 1 North, Range 3 West;

THENCE leaving said south line, North 00 degrees 14 minutes 20 seconds West, a distance of 4485.83 feet;

Unofficial Document

THENCE North 78 degrees 35 minutes 03 seconds East, a distance of 2537.96 feet, to a point on the east line of said Section 31;

THENCE along said east line, South 00 degrees 13 minutes 21 seconds East, a distance of 2345.41 feet, to the east quarter corner of said Section 31;

THENCE continuing along said east line, South 00 degrees 12 minutes 22 seconds East, a distance of 2641.08 feet, to the POINT OF BEGINNING.

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 10:

A parcel of land lying within Section 31, Township 2 North, Range 2 East, of the Gila and Salt River Meridian, Maricopa County, Arizona, more particularly described as follows:

COMMENCING at the northwest corner of said Section 31;

THENCE along the west line of said Section 31, South 00 degrees 07 minutes 44 seconds East, a distance of 1313.31 feet, to the POINT OF BEGINNING;

THENCE leaving said west line, North 78 degrees 35 minutes 03 seconds East, a distance of 2856.28 feet;

THENCE South 00 degrees 14 minutes 20 seconds East, a distance of 4485.83 feet, to a point on the south line of said Section 31, said point also being the northeast corner of Section 1, Township 1 North, Range 3 West, and the northwest corner of Section 6, Township 1 North, Range 2 West;

PARCEL DESCRIPTION

THENCE along the south line of said Section 31, South 89 degrees 16 minutes 01 seconds West, a distance of 2634.48 feet, to the north quarter of said Section 1;

Unofficial Document

THENCE continuing along said south line, South 89 degrees 35 minutes 34 seconds West, a distance of 174.95 feet, to the southwest corner of said Section 31;

THENCE along the west line of said Section 31, North 00 degrees 08 minutes 13 seconds West, a distance of 2642.08 feet, to the west quarter corner of said Section 31;

THENCE continuing along said west line, North 00 degrees 07 minutes 44 seconds West, a distance of 1313.32 feet, to the POINT OF BEGINNING.

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 11:

That portion of Section 30, Township 2 North, Range 2 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, more particularly described as follows:

BEGINNING at the Northeast corner of said Section 30, said point being a 3-1/4 inch aluminum cap;

THENCE South 00 degrees 06 minutes 35 seconds East along said East line of said Section 30, a distance of 2622.91 feet to the East quarter corner of said Section 30;

THENCE South 89 degrees 25 minutes 58 seconds West, a distance of 441.06 feet to a point of curvature of a tangent curve concave to the South;

THENCE Westerly along the arc of said curve to the left, having a radius of 1500.00 feet, a central angle of 19

degrees 28 minutes 58 seconds, and an arc length of 510.06 feet to a point of tangency;

Unofficial Document

THENCE South 70 degrees 00 minutes 00 seconds West, a distance of 1728.96 feet;

THENCE North 20 degrees 00 minutes 00 seconds West, a distance of 50.00 feet to a point of curvature of a tangent curve concave to the East;

THENCE Northerly along the arc of said curve to the right, having a radius of 1000.00 feet, a central angle of 19 degrees 54 minutes 00 seconds, and an arc length of 347.32 feet to a point of tangency;

THENCE North 00 degrees 06 minutes 00 seconds West, a distance of 2901.73 feet to the North line of said Section 30;

THENCE North 89 degrees 34 minutes 27 seconds East along said North line of said Section 30, a distance of 2642.76 feet to the Northeast corner of said Section 30, said point also being the point of beginning;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 12:

That portion of Section 30, Township 2 North, Range 2 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, more particularly described as follows:

BEGINNING at the Northwest corner of said Section 30, said point being a G.L.O. brass cap;

PARCEL DESCRIPTION

THENCE North 89 degrees 34 minutes 51 seconds East, a distance of 2641.88 feet along the North line of said Section 30;

Unofficial Document

THENCE South 00 degrees 06 minutes 00 seconds East, a distance of 2901.73 feet to a point of curvature of a tangent curve concave to the East;

THENCE Southerly along the arc of said curve to the left, having a radius of 1000.00 feet, a central angle of 19 degrees 54 minutes 00 seconds, and an arc length of 347.32 feet to a point of tangency;

THENCE South 20 degrees 00 minutes 00 seconds East, a distance of 50.00 feet;

THENCE South 70 degrees 00 minutes 00 seconds West, a distance of 1795.40 feet to a point of curvature of a tangent curve concave to the North;

THENCE Westerly along the arc of said curve to the right, having a radius of 1500.00 feet, a central angle of 23 degrees 46 minutes 34 seconds, and an arc length of 622.46 feet to a point of tangency;

THENCE North 86 degrees 13 minutes 26 seconds West, a distance of 334.04 feet to a point on the arc of a non-tangent curve concave to the East, a radial line of said curve through said point having a bearing of North 86 degrees 13 minutes 26 seconds West;

THENCE Northerly along the arc of said curve to the right, having a radius of 1500.00 feet, a central angle of 14 degrees 13 minutes 14 seconds, and an arc length of 372.29 feet to a point of tangency;

THENCE North 17 degrees 59 minutes 48 seconds East, a distance of 835.53 feet to a point of curvature of a tangent curve concave to the West;

THENCE Northerly along the arc of said curve to the left, having a radius of 1500.00 feet, a central angle of 37 degrees 50 minutes 47 seconds and an arc length of 990.81 feet to a point of tangency;

Unofficial Document

THENCE North 19 degrees 50 minutes 58 seconds West, a distance of 794.67 feet to a point of curvature of a tangent curve concave to the East;

THENCE Northerly along the arc of said curve to the right, having a radius of 1500.00 feet, a central angle of 15 degrees 36 minutes 40 seconds, and an arc length of 408.70 feet to a point of tangency;

THENCE North 04 degrees 14 minutes 18 seconds West, a distance of 672.77 feet to the point of beginning;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 13:

That portion of Section 25, Township 2 North, Range 3 West and Section 30, Township 2 North, Range 2 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, described as follows:

BEGINNING at the Southeast corner of said Section 25, said point being a G.L.O. brass cap;

THENCE North 89 degrees 52 minutes 15 seconds West along the South line of said Section 25, a distance of 2635.19 feet to the South quarter corner of said Section 25;

THENCE North 89 degrees 41 minutes 17 seconds West along said

South line, a distance of 2641.10 feet to the Southwest corner of said Section 30;

Unofficial Document

THENCE North 00 degrees 04 minutes 16 seconds West along the West line of said Section 25, a distance of 1000.00 feet;

THENCE North 75 degrees 41 minutes 52 seconds East, a distance of 5874.45 feet;

THENCE South 17 degrees 59 minutes 48 seconds West, a distance of 835.53 feet to a point of curvature of a tangent curve concave to the East;

THENCE Southerly along the arc of said curve to the left, having a radius of 1500.00 feet, a central angle of 14 degrees 13 minutes 14 seconds, and an arc length of 372.29 feet to a point of tangency;

THENCE South 03 degrees 46 minutes 34 seconds West, a distance of 1315.07 feet to the Southeast corner of Section 25, said point also being the point of beginning;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 14:

That portion of Sections 23 and 24, Township 2 North, Range 3 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, more particularly described as follows:

BEGINNING at the Southwest corner of said Section 23, said point being a G.L.O. brass cap;
THENCE North 00 degrees 05 minutes 59 seconds West along the West line of said Section 23, a distance of 600.00 feet;

PARCEL DESCRIPTION

THENCE North 67 degrees 14 minutes 01 seconds East, a distance of 5728.70 feet to a point on the East line of the Southeast quarter of said Section 23;

Unofficial Document

THENCE continuing North 67 degrees 14 minutes 01 seconds East, a distance of 1068.51 feet to a point on the arc of a non-tangent curve concave to the Northeast, a radial line of said curve through said point having a bearing of South 75 degrees 26 minutes 44 seconds West;

THENCE Southeasterly along the arc of said curve to the left, having a radius of 4400.00 feet, a central angle of 31 degrees 16 minutes 47 seconds, and an arc length of 2402.11 feet to a non-tangent line, a radial line of said curve through said point having a bearing of South 44 degrees 09 minutes 57 seconds West;

THENCE South 44 degrees 09 minutes 57 seconds West, a distance of 1689.79 feet to a point on the South line of the Southwest quarter corner of said Section 24;

THENCE North 89 degrees 44 minutes 36 seconds West along said South line of said Section 24, a distance of 1000.00 feet to the Southwest corner of said Section 24;

THENCE North 89 degrees 42 minutes 50 seconds West along the South line of said Section 23, a distance of 2641.62 feet to the South quarter corner of said Section 23;

THENCE North 89 degrees 40 minutes 59 seconds West along the South line of said Section 23, a distance of 2640.87 feet to the Southwest corner of said Section 23, said point also being the point of beginning;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential

to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

Unofficial Document

PARCEL NO. 15:

That portion of Section 23, Township 2 North, Range 3 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, more particularly described as follows:

BEGINNING at the Northwest corner of said Section 23, said point being a G.L.O. brass cap;

THENCE South 89 degrees 47 minutes 21 seconds East along the North line of said Section 23, a distance of 1857.42 feet;

THENCE South 53 degrees 00 minutes 55 seconds East, a distance of 2857.55 feet;

THENCE South 00 degrees 01 minutes 18 seconds East, a distance of 1216.34 feet;

THENCE South 67 degrees 14 minutes 01 seconds West, a distance of 4481.73 feet to a point on the West line of the Southeast quarter corner of Section 23;

THENCE North 00 degrees 05 minutes 59 seconds West along said West line, a distance of 2043.82 feet to the West quarter corner of said Section 23;

THENCE North 00 degrees 05 minutes 41 seconds West along said West line, a distance of 2632.79 feet to the Northwest corner of Section 23, said point also being the point of beginning;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of

PARCEL DESCRIPTION

commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

Unofficial Document

PARCEL NO. 16:

That portion of Sections 23 and 24, Township 2 North, Range 3 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, more particularly described as follows:

BEGINNING at the Northwest corner of said Section 24, said point bearing South 00 degrees 01 minutes 18 seconds East, a distance of 6.60 feet from a G.L.O. brass cap witness corner;

THENCE South 89 degrees 44 minutes 26 seconds East along the North line of said Section 24, a distance of 810.49 feet;

THENCE South 02 degrees 00 minutes 00 seconds East, a distance of 1065.56 feet to a point of curvature of a tangent curve concave to the East;

THENCE Southerly along the arc of said curve to the left, having a radius of 4400.00 feet, a central angle of 12 degrees 33 minutes 16 seconds, and an arc length of 964.11 feet to a non-tangent line, a radial line of said curve through said point having a bearing of South 75 degrees 26 minutes 44 seconds West;

THENCE South 67 degrees 14 minutes 01 seconds West, a distance of 1068.51 feet to a point on the West line of the Southwest quarter corner of said Section 24;

THENCE continuing South 67 degrees 14 minutes 01 seconds West, a distance of 1246.97 feet;

THENCE North 00 degrees 01 minutes 18 seconds West, a distance of 1216.34 feet;

THENCE North 53 degrees 00 minutes 55 seconds West, a distance of 2857.55 feet to a point on the North line of the

PARCEL DESCRIPTION

Northwest corner of said Section 23;

THENCE South 89 degrees 47 minutes 21 seconds East, a distance of 788.00 feet to the North quarter corner of said Section 23:

Unofficial Document

THENCE South 89 degrees 39 minutes 30 seconds East along the North line of said Section 23, a distance of 2644.01 feet to the Northeast corner of Section 23, said point also being the point of beginning;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 17:

That portion of Section 24, Township 2 North, Range 3 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, lying Northerly of the following described property:

BEGINNING at the Southeast corner of said Section 24, said point being a G.L.O. brass cap;

THENCE South 01 degrees 16 minutes 12 seconds West, a distance of 12.38 feet to a point on the arc of a non-tangent curve concave to the North, a radial line of said curve through said point having a bearing of South 00 degrees 25 minutes 09 seconds East;

THENCE Westerly along the arc of said curve to the right, having a radius of 4400.00 feet, a central angle of 05 degrees 01 minutes 39 seconds, and an arc length of 386.07 feet to a point on the South line of said Section 24;

PARCEL DESCRIPTION

THENCE continuing Northwesterly along the arc of said curve to the right, having a radius 4400.00 feet, a central angle of 70 degrees 50 minutes 15 seconds, and an arc length of 5439.92 feet to a non-tangent line, a radial line of said curve through said point having a bearing of South 75 degrees 26 minutes 44 seconds West;

Unofficial Document

THENCE North 75 degrees 23 minutes 57 seconds East, a distance of 4425.12 feet to a point on the East line of the Northeast quarter of said Section 24;

THENCE South 00 degrees 08 minutes 44 seconds East along said East line, a distance of 1757.45 feet to the East quarter corner of said Section 24, which bears North 00 degrees 56 minutes 58 seconds West along the East line of the Southeast quarter of said Section 24, a distance of 19.93 feet from the West quarter corner of Section 19, Township 2 North, Range 2 West;

THENCE South 00 degrees 05 minutes 59 seconds East along said East line, a distance of 2639.86 feet to the Southeast corner of said Section 24, said point also being the point of beginning;

EXCEPT the following described property:

BEGINNING at the Northwest corner of said Section 24, said point bearing South 00 degrees 01 minutes 18 seconds East, a distance of 6.60 feet from a G.L.O. brass cap witness corner;

THENCE South 89 degrees 44 minutes 26 seconds East along the North line of said Section 24, a distance of 810.49 feet;

THENCE South 02 degrees 00 minutes 00 seconds East, a distance of 1065.56 feet to a point of curvature of a tangent curve concave to the East;

THENCE Southerly along the arc of said curve to the left, having a radius of 4400.00 feet, a central angle of 12

PARCEL DESCRIPTION

degrees 33 minutes 16 seconds, and an arc length of 964.11 feet to a non-tangent line, a radial line of said curve through said point having a bearing of South 75 degrees 26 minutes 44 seconds West;

Unofficial Document

THENCE South 67 degrees 14 minutes 01 seconds West, a distance of 1068.51 feet to a point on the West line of the Southwest quarter corner of said Section 24;

THENCE continuing South 67 degrees 14 minutes 01 seconds West, a distance of 1246.97 feet;

THENCE North 00 degrees 01 minutes 18 seconds West, a distance of 1216.34 feet;

THENCE North 53 degrees 00 minutes 55 seconds West, a distance of 2857.55 feet to a point on the North line of the Northwest corner of said Section 23;

THENCE South 89 degrees 47 minutes 21 seconds East, a distance of 788.00 feet to the North quarter corner of said Section 23;

THENCE South 89 degrees 39 minutes 30 seconds East along the North line of said Section 23, a distance of 2644.01 feet to the Northeast corner of Section 23, said point also being the point of beginning;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL DESCRIPTION

Revised June 14, 1999
June 7, 1999
WP #97678.03

PARCEL NO. 18:

That portion of Sections 24 and 25, Township 2 North, Range 3 West and Section 30, Township 2 North, Range 2 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, more particularly described as follows:

Unofficial Document

BEGINNING at the Northwest corner of said Section 30, said point being a G.L.O. brass cap;

THENCE South 04 degrees 14 minutes 18 seconds East, a distance of 672.77 feet to a point of curvature of a tangent curve to the East;

THENCE Southerly along the arc of said curve to the left, having a radius of 1500.00 feet, a central angle of 15 degrees 36 minutes 40 seconds, and an arc length of 408.70 feet to a point of tangency;

THENCE South 19 degrees 50 minutes 58 seconds East, a distance of 794.67 feet to a point of curvature of a tangent curve concave to the West;

THENCE Southerly along the arc of said curve to the right, having a radius of 1500.00 feet, a central angle of 37 degrees 50 minutes 47 seconds, and an arc length of 990.81 feet to a non-tangent line, a radial line of said curve through said point having a bearing of South 72 degrees 00 minutes 12 seconds East;

THENCE South 75 degrees 41 minutes 52 seconds West, a distance of 5874.45 feet to a point on the West line of the Southwest quarter corner of said Section 25;

THENCE North 00 degrees 04 minutes 18 seconds West along said West line, a distance of 1639.32 feet to the West quarter corner of said Section 25;

PARCEL DESCRIPTION

THENCE North 00 degrees 01 minutes 21 seconds West along said West line, a distance of 2637.50 feet to the Northwest corner of said Section 25;

Unofficial Document

THENCE South 89 degrees 44 minutes 36 seconds East along the North line of said Section 25, a distance of 1000.00 feet;

THENCE North 44 degrees 09 minutes 57 seconds East, a distance of 1689.79 feet to a point on the arc of a non-tangent curve concave to the Northeast, a radial line of said curve through said point having a bearing of South 44 degrees 09 minutes 57 seconds West;

THENCE Southeasterly along the arc of said curve to the left, having a radius of 4400.00 feet, a central angle of 39 degrees 33 minutes 28 seconds, and an arc length of 3037.82 feet to a point of curvature of a curve concave to the North, said point being a point on the South line of the Southeast quarter of said Section 24;

THENCE continuing Southeasterly along the arc of said curve to the left, having a radius of 4400.00 feet, a central angle of 05 degrees 01 minutes 39 seconds, and an arc length of 386.07 feet to the point of beginning;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 19:

That portion of Sections 24 and 25, Township 2 North, Range 3 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, more particularly described as follows:

PARCEL DESCRIPTION

BEGINNING at the Southeast corner of said Section 24, said point being a G.L.O. brass cap;

THENCE South 01 degrees 16 minutes 12 seconds West, a distance of 12.38 feet to a non-tangent curve concave to the North, a radial line of said curve through said point having a bearing of South 00 degrees 25 minutes 09 seconds East;

Unofficial Document

THENCE Westerly along the arc of said curve to the right, having a radius of 4400.00 feet, a central angle of 05 degrees 01 minutes 39 seconds, and an arc length of 386.07 feet to a point on the South line of said Section 24;

THENCE continuing Northwesterly along the arc of said curve to the right, having a radius of 4400.00 feet, a central angle of 70 degrees 50 minutes 15 seconds, and an arc length of 5439.92 feet to a non-tangent line, a radial line of said curve through said point having a bearing of South 75 degrees 26 minutes 44 seconds West;

THENCE North 75 degrees 23 minutes 57 seconds East, a distance of 4425.12 feet to a point on the East line of the Northeast quarter of said Section 24;

THENCE South 00 degrees 08 minutes 44 seconds East along said East line, a distance of 1757.45 feet to the East quarter corner of said Section 24, which bears North 00 degrees 56 minutes 58 seconds West along the East line of the Southeast quarter of said Section 24, a distance of 19.93 feet from the West quarter corner of Section 19, Township 2 North, Range 2 West;

THENCE South 00 degrees 05 minutes 59 seconds East along said East line, a distance of 2639.86 feet to the Southeast corner of said Section 24, said point also being the point of beginning;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential

PARCEL DESCRIPTION

to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 20:

Unofficial Document

Lots 1, 2, 3 and 4, the South half of the North half, and the South half of Section 3, Township 2 North, Range 3 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 21:

Sections 10, 11, 12 and 13, Township 2 North, Range 3 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

Containing 8639.41 acres, or 376,332,700 square feet of land, more or less.

All parcels subject to existing rights-of-way and easements.

Unofficial Document

A parcel of land lying within Section 6, Township 1 North, Range 2 West, of the Gila and Salt River Meridian, Maricopa County, Arizona, more particularly described as follows:

COMMENCING at the northwest corner of said Section 6, said point also being the POINT OF BEGINNING of the herein described parcel;

THENCE along the north line of Section 6 per the Results of Survey as recorded in Book 499, page 48, Maricopa County Records, North 89 degrees 57 minutes 39 seconds East, a distance of 2437.60 feet to the northwest corner of Parcel No. 3 of a Quit-Claim Deed as recorded in Docket 10822, page 9, Maricopa County Records;

THENCE leaving said north line, along the westerly line of said Parcel No. 3, South 14 degrees 06 minutes 52 seconds East, a distance of 206.19 feet, to the southeast corner of said Parcel No. 3 and to a point on the east line of Section 6 per said Results of Survey;

THENCE leaving said westerly line, along said east line, South 00 degrees 04 minutes 51 seconds East, a distance of 491.44 feet, to a point on the northerly right-of-way line of Interstate 10 and the beginning of a non-tangent curve;

THENCE leaving said east line, along said right-of-way line, westerly along said curve, having a radius of 11602.57 feet, concave southerly, whose radius bears South 02 degrees 39 minutes 27 seconds East, through a central angle of 12 degrees 26 minutes 54 seconds, a distance of 2520.84 feet, to a point on the west line of Section 6 per said Results of Survey, and a point of intersection with a non-tangent line;

THENCE leaving said northerly right-of-way line, along said west line, North 00 degrees 09 minutes 05 seconds West, a distance of 1078.18 feet, to the POINT OF BEGINNING.

Containing 47.77 acres, or 2,080,805 square feet of land, more or less.

Subject to existing rights-of-way and easements.

PARCEL DESCRIPTION
PARCEL "C"

Unofficial Document

PARCEL NO. 1:

The West 1240.84 feet of the following described parcel:

Lots 1 and 2, and the South half of the Northeast quarter of Section 1, Township 1 North, Range 3 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, lying North of the land conveyed to the State of Arizona by and through the Department of Transportation in Docket 11015, page 374 and in Docket 11052, page 724.

PARCEL NO. 2:

Lots 1 and 2, and the South half of the Northeast quarter of Section 1, Township 1 North, Range 3 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, lying North of the land conveyed to the State of Arizona by and through the Department of Transportation in Docket 11015, page 374 and in Docket 11052, page 724;

EXCEPT the West 1240.84 feet.

PARCEL NO. 3:

The Northeast quarter of Section 1, Township 1 North, Range 3 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, lying South of the land conveyed to the State of Arizona by and through the Department of Transportation in Docket 11015, page 374 and in Docket 11052, page 724.

Containing 111.87 acres, or 4,872,970 square feet of land, more or less.

All parcels subject to existing rights-of-way and easements.

Caterpillar
COMMUNITY MASTER PLAN

INTRODUCTION

Unofficial Document

Caterpillar is envisioned to be the finest master planned community given the time, location, and market. As such, the goal of Caterpillar is to be a sustainable community with a variety of jobs, housing, recreational, and cultural opportunities. The significant planning effort undertaken for the project will help ensure that Caterpillar will truly be a special and unique place to live, work, shop, and play.

PROJECT OVERVIEW

Physical Setting

The Caterpillar master planned community (hereinafter referred to as "Caterpillar" or the "Property") is comprised of approximately 8,800 acres located in the northeastern portion of the Town of Buckeye (the "Town") and on the eastern side of the White Tank Mountains which provide a natural western boundary for the Phoenix metropolitan area. The Property is more particularly described in **Exhibit A**. Caterpillar is bound on the west by the summit of the White Tank Mountains and on the east by Tuthill Road with a small section extending to Jackrabbit Trail. The Property's northern boundary is comprised of the Glendale Avenue and the Northern Avenue alignments. The southern boundary lies north and south of Interstate 10. Adjacent neighbors of the Property include the White Tank Mountain Regional Park and Arizona State Land Department to the north and Bureau of Land Management property to the west. The majority of the land to the east and south is privately owned.

Caterpillar benefits from exceptional views of the Phoenix metropolitan area and surrounding mountain ranges as well as the Agua Fria River and Gila River valleys. The Property rises in elevation from 1,075 feet above sea level at the southeast corner to 3,671 feet above sea level at the highest peak of the Property.

The Caterpillar development team (the "Development Team") is dedicated to maintaining significant natural features of the Property and in some cases

improving existing conditions. For example, many areas on the Property impacted by previous activity will be improved through the development of the community.

An on-site pathway and trail network is intended to provide important linkages to parks, schools, churches, commercial sites, resort sites, municipal facilities, an Unofficial Document as well as linkages to off-site locations.

The Caterpillar Community Master Plan (the "CMP") includes a variety of land uses contained within distinct "Planning Units". These Planning Units will be linked through an integrated circulation system, including a pathway and trail system, as well as an overall thematic character that will define the Caterpillar community.

Caterpillar is planned to have an overall density of 14,080 residential dwelling units on approximately 8,800 acres creating an overall gross density of approximately 1.60 dwelling units per acre. The intent of the CMP is to provide a cohesive framework that incorporates a variety of housing types and community support uses linked to form a flexible and vibrant community to grow and thrive as the Town continues to expand and mature.

Applicant

The Applicant for the CMP is DMB White Tank, LLC, an Arizona limited liability company ("DMB White Tank"). DMB White Tank shall be hereinafter referred to as the "Developer".

Caterpillar Foundation, an Illinois not-for-profit corporation ("Caterpillar Foundation") is the owner of Parcel A and DMB White Tank is the owner of Parcels B and C as more particularly described in **Exhibit A**.

DMB Associates, Inc. ("DMB"), parent of DMB White Tank, is a diversified real estate investment and development firm. Since its inception in 1984, DMB has been a major developer and owner of commercial real estate in metropolitan Phoenix. In the past ten years, community development has become a central focus of DMB's real estate endeavors. DMB has distinguished itself as one of the nation's premier master plan community developers by successfully creating communities that function and last. Special emphasis is placed on elements such as education, recreation, technology, health and wellness, and governance. Some of its communities

include DC Ranch in Scottsdale, Power Ranch in Gilbert, Superstition Springs in Mesa, Forest Highlands in Flagstaff, Ladera Ranch in Orange County, California, Lahontan in Tahoe, California, and Black Mountain Ranch in San Diego, California. DMB's vision is that its communities become "home" in the truest sense of the word and endure as meaningful places for the people that live there. DMB strives to create livable neighborhoods, not just subdivisions, beca Unofficial Document s communities to develop and mature over decades to come.

Caterpillar Foundation is a not-for-profit philanthropic company based in Peoria, Illinois. Established in 1952, the Foundation provides funds for educational, cultural, and community activities throughout the country. The Caterpillar Foundation is the owner of approximately 8,640 acres of the Property and intends to use proceeds from the sale of the Property in its continued philanthropic endeavors. The chairman of Caterpillar Inc., Glen A. Barton, is a member of the Board of Directors of the Caterpillar Foundation.

Development Team

The Development Team has been assembled with the specific charge to create a vision and plan for a world-class master planned community. The Development Team is comprised of planners, architects, archeologists, biologists, hydrologists, geologists, engineers, and legal counsel with significant experience in the planning and development of first-class master planned communities. The expertise gathered for this project will help to ensure that Caterpillar will be a true asset to the Town, its residents, and the region.

The Caterpillar design team is led by EDAW, Inc. along with Swaback Partners pllc, both internationally renowned architecture/planning firms.

EDAW Inc. is a multi-disciplinary firm that has been a guiding force in the fields of planning, urban design, and landscape architecture for over half a century. EDAW's special emphasis upon the broad and increasingly complex issues of land use planning and design both encourages appropriate use of resources and enhances the environment.

Much of EDAW's work involves large-scale master planning for new communities worldwide. Each of these projects involves a comprehensive approach to planning, one that incorporates every aspect of environmental

management and community building. Projects by EDAW include Celebration in Florida, Desert Mountain in Arizona, Ladera Ranch and Valencia Town Center in California, Las Campanas in New Mexico, and Summerlin Town Center in Nevada.

Vernon Swaback, a protégé of Frank Lloyd Wright, is known as the expert in sensitive developme Unofficial Document esert. Mr. Swaback has been involved in several significant projects in Arizona including the Arizona Biltmore in Phoenix, DC Ranch in Scottsdale, and Superstition Mountain in the East Valley.

COMMUNITY VISION

Vision Statement

Caterpillar is planned to be a sustainable community with a strong identity and vision that integrates diverse residential neighborhoods with commercial uses including employment and resort opportunities. The Caterpillar CMP provides a framework to preserve and celebrate the natural features of the Property and provide a truly special place to live, work, shop, and play.

Caterpillar is envisioned to set a new standard for development in the West Valley. It is the intent of the Development Team to define the quality of development in the region, establish the framework for responsible future development, and set new standards for future master planned communities in the region.

GOALS AND OBJECTIVES

Environmental Sensitivity

The Caterpillar CMP has been planned to embrace and enhance the varied topography and other natural features of the Property. In addition, the plant palette for Caterpillar will consist of both native and non-native desert plant material to supplement the existing flora on the Property.

Phasing of Development

The creation of a successful and sustainable master planned community requires a commitment to long range land use planning. As such, the community and all the associated infrastructure will be built in phases. The ultimate schedule of phasing will be dependent upon the market and economic conditions, aUnofficial Document construction logistics.

Creation of Quality and Connected Neighborhoods

The residents of Caterpillar will be connected via internal linkages including multi-use and pedestrian pathways to schools, parks, shopping, and other community amenities. The CMP will provide residents with a means of traveling throughout the community without relying strictly on the automobile. The CMP provides for a variety of housing types and a private governance structure which will establish quality control throughout the Property for the life of the project and beyond the last house built. Finally, the CMP will provide opportunities to accommodate ever-changing lifestyles and communication needs.

Design and Creation of a Strong Thematic Character

The Caterpillar CMP sets forth the framework to embrace the existing natural features of the Property. By integrating a cohesive theme and by designing and using appropriate materials, colors, and forms, the long-term value of the Property will be preserved. The attention to these details is critical to the long-term success of Caterpillar.

EXISTING CONDITIONS

Overview

The following Section provides an overview of the existing conditions on the Property, as well as surrounding areas. Detailed analyses of site characteristics including natural resources, cultural resources, and other environmental characteristics have been undertaken and are summarized below.

Existing Conditions

The Property was historically used by Caterpillar, Inc. for equipment testing and demonstration from 1948 until 1989. Most of the existing site improvements and access features are a result of Caterpillar, Inc. uses during this approximately forty (40) year period. The majority of the Property is undisturbed.

Unofficial Document

Regional Drainage Patterns

The majority of the property drains southeasterly through a series of washes (White Granite Wash, Diversion Dike Wash, Tractor Wash, Osborn Road Wash, and Bulldozer Wash) to a drainage corridor along the west side of the Tuthill Road alignment (Tuthill Dike Wash). This drainage corridor leads to the southeast corner of the site where it crosses under Interstate 10 before reaching the White Tanks Flood Retarding Structure ("FRS") No. 4. This structure is located along the north side of the Van Buren Street alignment, between Tuthill Road and Jackrabbit Trail, and has a total drainage area of approximately twenty (20) square miles. A portion of the north end of the Property drains easterly to the White Tanks FRS No. 3, generally located east and north of the Jackrabbit Trail and Bethany Home Road alignments.

Topography and Slope Analysis

The topography of the site varies greatly with the White Tank Mountains along the west side of the Property. The Property rises in elevation from 1,075 feet above sea level at the southeast corner of the site to 3,671 feet at the highest peak near the northwest corner of the site. From the low point of the Property, the topography rises gently in a northwesterly direction into the White Tank Mountains. Small hill forms are also present within the Property. Slopes on the site vary from approximately one (1) percent to greater than thirty (30) percent. Approximately one half (½) of the Property has less than a five (5) percent slope.

Geology

Soils Association

The Property has been extensively surveyed for soil types and conditions. No significant impacts are anticipated in developable

areas due to relatively homogeneous site soils classified as silty sand with gravel.

Seismic

Although there are potentially active faults and/or fault zones in the general vicinity c[illegible] Unofficial Document are no known or mapped faults on the site that are younger than the tertiary age. Additionally, the geologic information on the faults indicates that they have a relatively long reoccurrence interval, and the potential for large, structure-damaging earthquakes is relatively minor. Seismic activity should not have a significant impact on the design of structures located on the Property.

Hydrogeology

Groundwater which exists within the boundaries of the Property is estimated to be located at a depth of 350 to 450 feet below the ground surface. Hydrogeologic conditions surrounding the Property provide several options for water delivery to the site.

Biology

A Natural Resources Overview was prepared for the Property by SWCA, Inc. which provides a listing of common vertebrate wildlife species recorded on the Property as well as a description and mapping of vegetation association in the project area.

A detailed review of the Property together with the habitat requirements of threatened and endangered species identified by the United States Fish and Wildlife Service revealed that there are no federally-listed species on or near the project area, including the Cactus ferrugineous pygmy-owl.

Cultural Resources

The Property was extensively surveyed for cultural resources by Soil Systems, Inc. Although no human remains or burial goods have been identified, if they are encountered during construction activities,

construction will halt and the Arizona Museum will be notified in accordance with Arizona Revised Statutes §41-865.

Native Vegetation

Vegetation within the Property is characterized as the Arizona Upland and Lower ColoUnofficial Documentons of the Sonoran Desertscrub Biome.

Caterpillar
COMMUNITY MASTER PLAN

I. REZONING PROCESS

Unofficial Document

1.01 PLANNED COMMUNITY LAND USE DISTRICT

The legislative action contemplated in response to the Developer's application is a rezoning -- specifically, a rezoning of the Property to the Planned Community Land Use District and the approval of the Caterpillar Community Master Plan ("CMP"). The Planned Community Land Use District (the "PC District") was designed by the Town to accommodate land uses and development standards approved by the Town as part of a Community Master Plan.

1.02 COMMUNITY MASTER PLAN

A. Purpose

Pursuant to the Development Code of the Town (the "Development Code"), the purpose of a Community Master Plan is to provide a means of regulating large master planned developments in the PC District. A Community Master Plan establishes land use designations and regulations, intensities, provisions for public facilities, design regulations, phasing schedules, and procedures for administration and implementation.

B. Conformance with the General Plan

The CMP reflects the goals and objectives of the General Plan of the Town (the "General Plan") and is consistent with its purpose and intent. Specifically, the CMP will achieve the following goals:

- Creation of a strong sense of community.
- Identification of the unique physical setting at the base of the White Tank Mountains to clearly distinguish Caterpillar from other master planned communities.

- Creation of a sustainable community where residential, civic, cultural, educational, retail, recreational, and employment areas are located within close proximity to one another and are easily accessible.

- Provision of a hierarchy of streets for a balanced mix of pedestrians and automobiles.

Unofficial Document

- Provision of recreational amenities which are accessible to all and are appropriately placed within walking distance of residential areas, employment areas, and resorts.

- Inclusion of a mix of residential densities and subdivision designs to reflect the physical terrain and provide a broad matrix of housing opportunities necessary for a sustainable community.

C. Relationship to the Land Use District Map

Pursuant to the Development Code, the CMP establishes land use designations for the Property. Land uses for the Property shall only be permitted if in accordance with the CMP, unless specifically approved otherwise.

D. Relationship with the Development Code

The regulations and provisions for land use and property development standards contained in the CMP take precedence over regulations covering land use and property development standards in the Development Code. Administrative procedures contained in the Development Code not covered by the CMP remain applicable to development within the Property. In the event of a conflict between the provisions of the CMP and the Development Code, the provisions of the CMP shall prevail.

E. Development Agreement

The CMP shall be adopted as part of a Development Agreement between the Town and the Applicant in accordance with Section 7-8-4 of the Development Code.

F. Amendments to the Community Master Plan

Amendments to the CMP may be necessary from time to time to reflect changes in market conditions and development financing and/or to meet new requirements of one or more of the potential users or builders of any part of the Property. When changes or adjustments are necessary or appropriate from time to time, sı Unofficial Document unless otherwise required by applicable law, be effectuated as a minor change to the CMP through the administrative approval of the Town's Planning and Development Director (the "Planning Director") which, after approval, shall be attached to the CMP as an addendum and become a part hereof. No such minor change shall require prior notice or hearing. All major changes shall be reviewed by the Development Board and approved by the Town Council and shall be subject to all typically applicable notice and hearing requirements.

The following are major changes:

(1) Any substantial alteration to the list of permitted uses of the Property set forth in this CMP, as deemed to be substantial by the Planning Director;

(2) An overall increase in either residential units or commercial/mixed-use square footage for the Property, except as otherwise allowed by the CMP;

(3) The reallocation of residential dwelling units within Planning Units and from one Planning Unit to another in a manner that results in any of the following, as measured against the original Land Use Budget set forth in the CMP: (a) an increase in the number of residential dwelling units for any one particular Planning Unit of greater than twenty (20) percent of the total number allocated to such Planning Unit in the CMP; (b) an increase in the number of residential dwelling units for any combination of three (3) Planning Units of greater than fifteen (15) percent of the total number allocated to the aggregate of such combination in the CMP; and (c) a decrease in the number of residential dwelling units of any Planning Unit what would leave less than twenty (20) percent of the total number allocated to such Planning Unit in the CMP;

(4) Any reallocation of commercial/mixed use square footage (excluding resort and related uses) between or among any of Planning Units 4, 5, 6 and 7; and

(5) The allocation of residential dwelling units to Planning Unit 1.

The following are minor Unofficial Document

(1) Any reallocation of residential dwelling units that does not meet the parameters set forth in subparagraph (3) immediately above;

(2) Any reallocation of commercial/mixed use square footage between or among any of Planning Units 1, 2, and 3; and

(3) Any minor alteration to the list of permitted uses of the Property set forth in the CMP, as deemed to be minor by the Planning Director.

G. Appendices and Exhibits

Each Appendix and Exhibit referenced in the CMP is incorporated by this reference as if fully set forth herein.

1.03 Definitions

Definitions provided in the Development Code shall be utilized when interpreting the CMP unless an alternative definition is provided below or elsewhere in the CMP, in which case, the definitions contained in the CMP shall apply. In the event of a conflict between the definitions provided in the CMP and those provided in the Development Code, the definitions in the CMP shall prevail.

Adult Uses: Any establishment that offers live, transmitted, or recorded entertainment where specified anatomical areas can be seen by patrons. Such establishments may feature dancers, go-go dancers, exotic dancers, strippers, or other similar entertainers, any of whom perform topless. Adult uses are also any establishment with a principal use characterized by the sale or distribution of merchandise with a predominant emphasis on the display, depiction, description, or relation to sexual activities or specified anatomical areas. Merchandise includes, but is not limited to, motion pictures, cassettes, films, books, magazines, posters, cards, pictures, periodicals, instruments, devices, equipment, paraphernalia, or

other similar products. For the purpose of this definition, ten (10) percent or more of the merchandise constitutes a principal use.

Building Height: The vertical distance of a building as measured from finished grade to the highest point of the roof.

Common Area: Natural are Unofficial Document lways, drainageways, arroyos, paths and trails, golf courses, active and passive parks, view corridors, and other private and public recreation areas.

Cut: The land surface which is shaped through the removal of soil, rock, or other materials.

Disturbed Area: That area of natural ground that has been or is proposed to be altered through grading, cut and fill, removal of natural vegetation, placement of material, trenching, or by any means that causes a change in the undisturbed natural surface of the land or natural vegetation.

Fill: The deposit of soil, rock, or other materials placed by man.

Finished Grade: The final grade and elevation of the ground surface after grading is completed.

Grading: Any excavating, filling, or combination thereof, including the conditions resulting from any excavation or fill.

Guest House: An attached or detached building to be used for dwelling purposes situated on the same lot as a primary residence.

Health Club: A place or building where active exercise and related activities are performed utilizing weight control or muscle building equipment or apparatus for the purpose of physical fitness. It shall also mean a place or building which provides massage, exercise, and related activities with or without such equipment or apparatus.

Hotel/Motel: A residence facility designed for occupancy by transients or as a residence for periods of less than one year. A hotel/motel shall contain rooms and/or units and shall customarily provide housekeeping, bellhop, laundry, and on-site recreation services. Hotel/motel uses shall be classified within the Land Use Budget as Commercial/Mixed Use and shall not count against the resort room allocation nor the residential dwelling unit allocation for the Property. The square

footage of a hotel/motel shall be allocated toward the Commercial/Mixed Use square footage as set forth in the Land Use Budget.

Lot Coverage: The total structural coverage provided on a lot or site inclusive of all roofed areas or structures capable of supporting a roof divided by the net area of the lot or parcel. The first three feet of roof overhang or projection shall not be included in the lot coverage. Unofficial Document

Multiple Family Dwelling: A building, or portion thereof, used for occupancy by two (2) or more families living independently of each other, with the units completely separated by a common wall, floor, and/or ceiling.

Natural Grade: The grade and elevation of the ground surface in its natural, undisturbed state.

Net Area: The area included within lot or parcel lines after all right-of-way dedications have been made.

Planning Director: Person designated by the Town Manager as having the primary responsibility for administering and enforcing the CMP.

Resort: A building or a group of buildings containing guest rooms providing recreation activities such as golf, tennis, horseback riding, swimming, or spa related services for guests. A resort may provide services customarily furnished by a hotel including restaurants, bars, and convention facilities. A resort may contain dwelling units (including Timeshare Units) in conjunction with guest rooms.

Retaining Wall: A wall used solely to retain more than eighteen (18) inches of material but not to support or to provide a foundation or wall for a building.

Setback (front): Measured from property line.

Signature Architecture: Buildings of architectural significance via their purpose or location in the community such as municipal use buildings, recreational facilities, religious facilities, educational facilities, resort facilities, etc. In addition, signature architecture includes icon buildings that may be other than previously listed such as, but not limited to, residential and commercial uses that are to be focal accents due to their location at intersections or at the axial alignment of transportation corridors. Due to their prominence, these facilities may have unique architectural elements, distinctive color, or overall form that celebrate their prominence and significance in the community.

Spill: To cause or allow earth or other material to fall, flow, or run down a slope, thereby creating a change in the natural appearance and topography.

Timeshare Units: Units in which a purchaser receives the right in perpetuity, for life, or for a term of years to the recurrent, exclusive use or occupancy of a lot, parcel, unit, or segment of real property, annually or on some other periodic basis, for a period of time that has Unofficial Document ted from the use or occupancy periods into which the unit has been divided, or a unit in which a license or contractual or membership right of occupancy is not coupled with an estate in the real property; except that a unit in which such right to exclusive use or occupancy is available only for intervals of more than thirty (30) days shall not be considered a timeshare unit. Each Timeshare Unit shall count against the Commercial/Mix Used square footage as set forth in the Land Use Budget, or each Timeshare Unit may count against the residential dwelling unit allocation for the Property at a rate of .5 residential dwelling unit per Timeshare Unit. The election to count Timeshare Units against the Commercial/Mixed Use square footage allocation or the residential dwelling unit allocation shall be made by the applicant at the time of Development Site Plan submittal.

II. PLANS

Development of the magnitude contemplated by the CMP requires planning for both public and private infrastructure, as well as planning for the actual development which such infrastructure supports. It is anticipated that infrastructure planning will occur at varying times and at varying levels of detail, depending on the nature and geographic scope of the plan. The CMP identifies three levels of infrastructure planning, 1) Project Master Plans, 2) Planning Unit Plans, and 3) Development Site Plans.

Unofficial Document

2.01 PROJECT MASTER PLANS

Project Master Plans are required by the Town as part of the CMP approval and provide community-wide infrastructure plans for Caterpillar. Appendices which set forth the Master Drainage Plan, Master Street and Circulation Plan, Master Potable Water Plan, and Master Wastewater Plan are incorporated into the CMP by this reference as if set forth in full herein. Changes to and refinements of the Project Master Plans shall be submitted to the Town Manager as Planning Unit Plans required pursuant to **Section 2.02**.

A. Master Drainage Plan

The Master Drainage Plan provides a conceptual hydrologic and hydraulic analysis of the Property's existing and proposed drainage system and sets drainage requirements for development of the Property.

The drainage system has been designed to utilize the existing washes for stormwater conveyance. Wherever possible, the existing one hundred (100) year water surface elevations and one hundred (100) year floodplain limits on major washes will not be increased. Where modifications to these floodplains are necessary, processing will be required through the Federal Emergency Management Administration (FEMA) in the form of Conditional Letter of Map Revision (CLOMR) and Letter of Map Revision (LOMR) submittals. In addition, one hundred (100) year stormwater flows leaving the Property are to be maintained at or below the existing peak flow rates.

Stormwater detention/retention basins will be utilized to maintain the pre-development peak flows by implementing one, or a combination of, but not limited to, the following alternatives:

- Utilize existing detention/retention basins and, where necessary, increase or decrease the volume of the basins to accommodate the increased one hundred (100) year runoff volume due to development.

- Relocate the existing detention/retention basins by providing more advantageous locations to accommodate the existing and post-development run Unofficial Document

Exhibit B shows the conceptual locations and sizes of the major drainage structures. The Master Drainage Plan for the Property prepared by Wood, Patel & Associates, Inc., dated August 16, 1999 is set forth in **Appendix A** and is incorporated by this reference as if fully set forth herein. A detailed and refined analysis of the drainage system for each Planning Unit will be completed with submission of each Planning Unit Drainage Plan.

B. Master Street and Circulation Plan

The Master Street and Circulation Plan for the Property is set forth in **Exhibit C**. Roadway standards applicable to the Property, including roadway classifications for arterials, collectors, and local streets, are set forth in **Exhibit D**. The phased development of the internal street network will be based on actual traffic volumes recorded on arterial and collector streets within the Property and shall be in accordance with the traffic analysis prepared by Kirkham Michael, dated September 1999 set forth in **Appendix B** and incorporated by this reference as if fully set forth herein (the "Traffic Analysis").

The staged improvement of roadways will be a function of the ultimate classification of a roadway segment and of the traffic volumes recorded. The threshold volume which shall trigger the need to design an additional on-site roadway segment or improvement is eighty (80) percent of the design capacity of the existing improvement (e.g., two lane roadway = 12,000 vehicles per day, 4 lane roadway = 28,000 vehicles per day). The threshold volume which shall trigger the need to construct or improve an on-site roadway segment is ninety (90) percent of the design capacity. Once this threshold is met, either additional lanes will be added until the ultimate roadway geometry is met, or another roadway will be added to divert traffic from the existing roadway segments. The foregoing notwithstanding and subject to approval by the Town Engineer, the Developer shall not be obligated to construct or improve a roadway segment if the Developer can demonstrate that traffic expected to be generated from the remaining

development of the Property will not cause design capacity of the subject roadway segment to be exceeded.

Once a roadway segment is identified for widening, construction is anticipated to commence within one (1) year.

The traffic volumes w Unofficial Document a typical weekday (Tuesday, Wednesday, or Thursday) in March of each year until build-out of the Property. March is generally the peak month of the year for traffic volumes in the Phoenix metropolitan area.

Arterial and major collector street intersections on-site will be monitored annually until build-out of the Property to evaluate intersection delays and the potential for signalization. When an intersection reaches a Level-of-Service (LOS) D or worse, the need for auxiliary lanes will be evaluated to potentially mitigate the LOS deficiency.

Conceptual locations of major roadways within the Property are provided in the Traffic Analysis. The design and locations of street and circulation improvements shall be further defined in each Planning Unit Street and Circulation Plan required to be submitted pursuant to **Section 2.02**.

C. Master Potable Water Plan

The Master Potable Water Plan meets the Town's requirements and provides general locations and sizes of the major water infrastructure needed to provide potable water service to the Property. This infrastructure includes the development of domestic wells, a water treatment plant, water transmission lines, booster pumping stations, pressure reducing valves, and water storage tanks.

The Property may be served by a water treatment plant located south of the Property. The water treatment plant may be incorporated within the wastewater treatment facility in a "water campus" concept.

A review of groundwater quality records available in the vicinity of the Property indicates that the groundwater may have total dissolved solids (TDS) in the range of 600 to 4,000 mg/l. It is desirable to deliver potable water with TDS below approximately 700 mg/l. There are basically two proven processes that can be utilized for removal of TDS: membrane treatment with either reverse osmosis (RO) or electro-dialysis reversal

(EDR). It may not be necessary to treat all of the groundwater. Blending of treated water and groundwater to produce acceptable water quality may be utilized.

A phased potable water system has been developed based on the potential location of the water treatment plant south of the Property and based on three population threshUnofficial Document thresholds are the low, mid, and high-range development densities projected for the Property. The high range population threshold is consistent with the CMP. The sizing and conceptual locations for the major water transmission mains, booster pump stations, pressure reducing valves, and water storage tanks are shown in **Exhibit E**. Actual on-site phasing will dictate the timing of water storage tank, transmission line, and booster pump station construction. A detailed analysis of the water distribution system for each Planning Unit will be completed with submission of each Planning Unit Potable Water Plan.

The Master Potable Water Plan for the Property prepared by Wood, Patel & Associates, Inc, dated July 30, 1999, is set forth in **Appendix C** and is incorporated by this reference as if fully set forth herein. Final design and locations of water improvements shall be defined in each Planning Unit Potable Water Plan required to be submitted pursuant to **Section 2.02**.

In the event that an alternative water source or water treatment becomes available, which alternative may include, but not be limited to, higher quality groundwater available from the Town or a private water provider, such alternative shall be allowed in accordance with the terms of the Development Agreement and subject to technical review and approval by the Town Engineer, which approval shall not be unreasonably withheld. Any alternative water source or water treatment shall be identified in each Planning Unit Potable Water Plan.

D. Master Wastewater Plan

The Master Wastewater Plan has been prepared in accordance with the requirements of the Town. The Master Wastewater Plan provides general locations and sizes of the major wastewater infrastructure needed to provide service for the Property. This infrastructure includes the development of a wastewater treatment facility, major sewer lines, and wastewater pumping stations where required due to the existing topography of the site.

Caterpillar will be served by a wastewater treatment facility located south of the Property. The facility will be designed to provide preliminary, primary, secondary, and tertiary wastewater treatment, as well as disinfection. Wastewater treatment will generate residuals that require disposal. Sludge will be hauled off-site for disposal.

The wastewater treatm Unofficial Document esigned to produce an effluent suitable for irrigation of golf courses and other landscaped areas in conformance with State and Maricopa County reuse regulations. Through much of the year, the effluent will be pumped to on-site storage lakes for supply to irrigate the golf courses.

Based on the natural topography, the majority of the Property can be served by gravity sewer lines to the proposed wastewater treatment facility. Three areas on the Property cannot be served by the proposed on-site gravity sewer lines due to topographical constraints. The first area includes approximately three hundred (300) acres located between Tuthill and Jackrabbit Trails north of the Indian School Road alignment. The second area includes land at the north end of the Property between the Bethany Home Road and Glendale Avenue alignments. The third area is the north half of Planning Unit VII. These areas will need to be served by lift stations to pump the wastewater to the proposed gravity sewer.

A phased wastewater sewer system has been developed based on the preferred location of the wastewater treatment facility site and three population thresholds. The population thresholds are the low, mid, and high-range development densities projected for the Property. The high range population threshold is consistent with the CMP. The sizing and conceptual locations for the major sewer lines and lift stations are shown in **Exhibit F**. Actual on-site phasing will dictate the timing of sewer line and lift station construction. A detailed analysis of the wastewater collection system for each Planning Unit will be completed with submission of each Planning Unit Wastewater Plan.

The Master Wastewater Plan for the Property prepared by Wood, Patel & Associates, Inc., dated July 30, 1999 is set forth in **Appendix D** and is incorporated by this reference as if fully set forth herein. Final design and locations of wastewater improvements shall be defined in each Planning Unit Wastewater Plan required to be submitted pursuant to **Section 2.02**. In the event that an alternative wastewater disposal or treatment solution for the Property becomes available, such alternative shall be allowed subject to

approval by the Town Engineer, which approval shall not be unreasonably withheld. Any alternative wastewater disposal or treatment solution shall be identified in each Planning Unit Wastewater Plan.

E. Master Pedestrian and Trails Plan

A comprehensive systUnofficial Documentl trails is intended to link each neighborhood to various common areas and recreational uses. The Pedestrian and Trails Plan provides an important part of the overall circulation system for the Property by linking neighborhoods to community facilities, retail, shopping, schools, and employment uses.

The pathways and trails will be located near or adjacent to community streets and roads and, where possible, will have significant separation from vehicular traffic. Pathways and trails will also utilize wash features and natural arroyos between common areas and neighborhoods, and may be combined with the drainage system for the Property to allow joint use of underpass areas for grade separated crossings. As necessary, grade separated crossings may be utilized to facilitate continuous pathways and trails throughout the Property.

Pathway and trail surface materials may include, but not be limited to, natural soil, stabilized decomposed granite, concrete, and/or asphalt.

The Master Pedestrian and Trails Plan for the Property, including cross sections for the hierarchy for both public and private pathways and trails, is set forth in **Exhibit G**. Final path and trail locations and design criteria, including trail surface materials, shall be defined in each Planning Unit Environmental Design Plan required to be submitted pursuant to **Section 2.02**.

F. Master Public Facilities Plan

1. Schools

At the time of adoption of the CMP, portions of the Property lie within the boundaries of the Liberty Elementary School District, the Buckeye Union High School District, the Ruth Fisher School District, the Litchfield Park Elementary School District, and the Agua Fria Union High School District. The Developer shall identify sites within the Property to accommodate the needs of students generated as a result

of the development of the Property. The Developer shall consider student generation rates agreed upon after consultation with each applicable school district to determine the number of sites necessary. The number of school sites and their locations within each Planning Unit shall be identified in each Planning Unit Environmental Design Plan.

Unofficial Document

2. Police, Fire, and Emergency Services

At the time of submittal of each Planning Unit Environmental Design Plan, the Developer shall identify the need for additional fire, police, and emergency services which may be necessary to serve the Property. Caterpillar will identify at least one (1) police/fire station site to serve the Property and the surrounding area. The ultimate location of the police/fire station site will be determined as part of a coordinated effort between the Town, the Developer, and adjacent land owners to ensure the most efficient placement of the fire station.

3. Parks

Caterpillar will create a strong sense of community through a system of parks designed to meet a variety of active and passive recreational needs. Each park will be programmed individually in terms of size, amenities, landscaping, and, where appropriate, incorporation of natural features.

A hierarchy of parks is planned for the Property. This hierarchy may include regional, community, and neighborhood parks. A regional park and smaller community parks may include active and passive recreation areas, mountainous areas, arroyos, and other natural features. Neighborhood parks may include the above uses in addition to linear greenbelts, pocket parks, and more intimate green spaces provided in select locations throughout the residential areas of the Property.

4. Common Areas

Caterpillar will provide a minimum of 1,082 acres of common areas located throughout the Property which may include any of the following land uses or features: natural area open space, floodways, drainageways, arroyos, paths and trails, golf courses, active and

passive parks, view corridors, and other private and public recreation areas.

The locations of public facilities and the identification of Common Areas shall be provided in each Planning Unit Environmental Design Plan required to be submitted pursuant to **Section 2.02.**

Unofficial Document

G. Master Phasing Plan

The development of Caterpillar is anticipated to begin in the southern portions of the Property (Planning Units I, II, and III) and move to the northern portions of the Property. The infrastructure, public facilities, and other community amenities will be built in phases and in many cases will be constructed concurrently with adjacent parcels. The phasing for development infrastructure shall be identified in the various Planning Unit infrastructure reports required pursuant to **Section 2.02.**

H. Master Village Center and Neighborhood Concept Plan

The Property will include a variety of neighborhoods linked together with areas of community activity which are envisioned to include commercial, retail, resort, and recreational uses. Commercial core areas will serve the needs of the Caterpillar community and in some cases the needs of the regional population.

Neighborhood cores may include focal points such as parks, schools, libraries, and other community facilities. Surrounding these cores, multiple neighborhoods with diverse housing types will contribute to the Caterpillar goal of creating a balanced community. These neighborhood concepts will promote numerous opportunities for social interaction.

Villages and neighborhoods may also be concentrated around resort uses, which may include a destination-oriented resort with significant commercial, recreational, and cultural activities.

2.02 PLANNING UNIT PLANS

The following Planning Unit Plans shall be submitted to the Town Manager, or his/her designee, prior to the approval of any preliminary plat or Development Site Plan within each respective Planning Unit. The Town Manager, or his/her designee, shall review the Planning Unit Plans for completeness and compliance

with the requirements of this Section. The approximate location of Planning Unit boundaries is shown on the Planning Unit Map as set forth in **Exhibit H**. The numbering of the Planning Units depicted on the Planning Unit Map is for reference only and does not suggest any particular sequence of development. Planning Unit Plans shall be updated when necessary to reflect modifications thereto or to refine phasing within the respective Planning Unit. Planning Unit Plans may address a portion of a Planning Unit, a co Unofficial Document , and/or more than one Planning Unit.

A. Planning Unit Drainage Plan

Each Planning Unit Drainage Plan shall demonstrate that runoff has been managed from upper watershed reaches to outlets. Each Planning Unit Drainage Plan will address any increase or decrease in runoff from upstream Planning Units or within the current Planning Unit that may occur as development progresses and densities change. Each Planning Unit Drainage Plan shall be prepared by a registered professional engineer who is licensed to practice in the State of Arizona.

1. The Planning Unit Drainage Plan shall contain the following:

   a. Maps showing all those watersheds draining onto, or through, the Planning Unit, with estimates of peak flows for ten (10), fifty (50), and one hundred (100) year flood events.

   b. Special flood hazard areas and flood insurance zones, including depths and velocities of flows.

   c. Proposed measures necessary to comply with Town Ordinances and FEMA requirements in order to secure Letters of Map Revisions for development in Special Flood Hazard Areas.

   d. Estimated peak flows and volumes of runoff exiting the Planning Unit for both developed and undeveloped conditions.

   e. Conceptual design of stormwater management systems which mitigate the flooding potential, including peak discharge reduction and storage facilities consistent with the Town's requirements.

f. Basis of design for flood protection to all structures, in or out of Special Flood Hazard Areas.

g. Location and estimated size of all major drainage facilities, including retention/detention basins, channels, etc.

h. Proposed Unofficial Document :tion necessary to mitigate high velocity damage to the stormwater management devices and adjacent lands.

i. An implementation and phasing plan for the establishment of the necessary drainage system within each respective Planning Unit.

B. Planning Unit Street and Circulation Plan

Each Planning Unit Street and Circulation Plan shall address any increase or decrease in traffic volumes from other Planning Units and within the current Planning Unit which may occur as development progresses and densities change. The Planning Unit Street and Circulation Plan shall graphically illustrate, but not be limited to, the following components:

1. A complete plan showing the following elements (the Developer may elect to show individual elements on separate plans):

   a. Primary public and private streets and extended access ways, including street classification, required right-of-way, and improvements.

   b. The locations of auxiliary lanes as determined by a traffic impact analysis submitted by the Developer.

   c. The locations of potential bus bay pull-outs.

   d. All intersections, including intersections for which traffic signals may be required and a statement regarding responsibility for signal participation by Development Site.

2. A street and circulation phasing plan that contains the following:

   a. Proposed development sequence by Development Site.

b. Proposed roadway, drainage feature, and traffic signal construction schedule to accommodate each stage of phased development.

c. Phasing of required right-of-way dedications.

Unofficial Document

3. Major access points for commercial development, including median breaks and driveways.

4. A statement of conformance with the state air quality plan, as developed by M.A.G., for all proposed transportation improvements.

C. Planning Unit Potable Water Plan

Each Planning Unit Potable Water Plan shall address any increase or decrease in water demand from other Planning Units and the current Planning Unit which may occur as development progresses and densities change. Each Planning Unit Potable Water Plan shall include any off-site lines and shall be prepared by a registered professional engineer who is licensed to practice in the State of Arizona. Each Planning Unit Potable Water Plan shall address the following:

1. The conceptual location and size of all necessary potable water system components, including both on- and off-site lines, pump stations, and storage facilities needed to serve the development.

2. An implementation and phasing plan for the construction of the necessary potable water system.

3. A flow and pressure analysis of the proposed system which includes a simulation of the system operation for each pressure zone within the development using a computer model with average day demands, maximum day demands with estimated required fire flow peak and any requirements to meet the Insurance Service Office standards, and peak hour demands.

4. A plan showing preliminary development sites and rights-of-way, topographic contours and benchmarks, existing utilities, and fire hydrants within four hundred (400) feet of the proposed development, any features such as watercourses and drainage facilities which may

influence the location of underground utilities, and a general layout of the proposed water mains and other required water facilities.

5. Anticipated golf course water supply, necessary infrastructure requirements, reclamation sources, and construction timing and responsibilities (if applicable).

Unofficial Document

D. Planning Unit Wastewater Plan

Each Planning Unit Wastewater Plan shall address any increase or decrease in wastewater generation from upstream Planning Units and the current Planning Unit which may occur as development progresses and densities change. The Planning Unit Wastewater Plan shall include any off-site lines and shall be prepared by a registered professional engineer who is licensed to practice in the State of Arizona. The Planning Unit Wastewater Plan shall address the following:

1. The conceptual location, size, type, and capacity of the necessary wastewater collection, transmission, treatment system components and effluent re-use/disposal facilities needed to serve the Planning Unit with wastewater demand generation factors based upon land use.

2. An implementation and phasing plan for the construction of the necessary wastewater system.

3. The calculations necessary to substantiate the selection of the sizes, types, and capacities of the wastewater transmission, wastewater treatment, and effluent re-use/disposal facilities.

E. Planning Unit Environmental Design Plan

Each Planning Unit Environmental Design Plan shall address, but not be limited to, the following:

1. Site Analysis

   Location and identification of clearly visible and unique natural features, clearly visible or known historical and archaeological sites,

and proposed conceptual methods for their preservation and design within the development to minimize their disturbance.

2. Common Areas

   a. Identification of public and private Common Areas, which may include, bUnofficial Documented to natural area open space, floodways, drainageways, arroyos, pathways and trails, golf courses, active and passive parks, view corridors, and other private and public recreation areas.

   b. Conceptual golf course locations and design concepts.

3. Pathways and Trails

   a. The conceptual location, size, and type of pedestrian and trail facilities within the Planning Unit.

   b. The potential ownership and maintenance entities for pedestrian and trail facilities within the Planning Unit.

   c. The hierarchy of pedestrian improvements, pathways, and trails within the Planning Unit.

   d. Identification of at-grade and grade separated crossings, as necessary, within the Planning Unit.

   e. Identification of surface materials which may include, but not be limited to, concrete, asphalt, stabilized decomposed granite, and earthen materials, as necessary.

   f. Identification of locations where pathways and/or trails may be limited to one side of a roadway.

   g. Provisions which address access to pedestrian improvements, pathways, and trails within the Planning Unit.

   h. An implementation and phasing plan for the construction of pedestrian and trail facilities within the Planning Unit.

4. Public Facilities

The conceptual location, size, and type of any public facilities contemplated in the Master Public Facilities Plan, as well as the phasing of development of such public facilities.

5. Landscaping Unofficial Document

a. Proposed plant and landscape character, including a native plant relocation program and revegetation guidelines.

b. The conceptual plant types to be used for all land uses and Development Options within the Planning Unit, including landscaping within the public right-of-way. All landscaping shall conform with the Landscape Plant Palette set forth in **Exhibit M**.

c. The potential ownership and maintenance entities for landscaping and irrigation systems within the Planning Unit.

d. Minimum and maximum heights of landscaping within sight distance triangles and safe stopping sight distance areas in the public right-of-way.

e. The proposed theme and corresponding design standards for landscaping within the Planning Unit.

6. Signage

Signage will be coordinated throughout the entire Property, with different areas within Planning Units having their own themes. These areas may include urban, mixed-use entertainment areas, employment and commercial areas, parks and recreation areas, residential villages, residential hillsides, resort areas, pathways and trails, public and private roadways, and areas for temporary directional signage. Although there may be individual themes within different areas of the Property, continuity in appearance will be recognizable through the use of color, material, form, and character.

a. The conceptual location, size, height, and type of signage for all land uses and Development Options within the Planning Unit, including street signage.

b. The potential ownership and maintenance entities for signage within the Planning Unit.

Unofficial Document

c. The proposed theme and corresponding design standards for signage within the Planning Unit, including types of materials.

d. A statement that all traffic control signage meets the minimum Town requirements for public use.

e. A list of prohibited signs within the Planning Unit.

7. Lighting

This section of the Planning Unit Environmental Designing Plan focuses on the quantity and quality of light envisioned for each Planning Unit within the Property. The concept is that there will be areas of varying lighting standards, even within an individual Planning Unit. Areas with varying lighting standards may include urban, mixed-use entertainment areas, employment and commercial areas, parks and recreation areas, residential villages, residential hillsides, resort areas, and roadways.

a. The conceptual location, size, height, intensity, and type of lighting fixtures for all land uses and Development Options within the Planning Unit, including street lighting.

b. The potential ownership and maintenance entities for lighting within the Planning Unit.

c. The proposed theme and corresponding design standards for lighting fixtures within the Planning Unit, including types of materials.

d. Methods for shielding light from neighboring properties.

e. Identification of areas where light fixtures may be prohibited such as, but not limited to, sensitive hillside areas.

2.03 SITE PLAN APPROVAL

Site plan approval shall be required for all development within the Property with the exception of subdivision plats and single-family homes. Site plans shall be submitted to and approved by the Development Board prior to issuance of a building permit upon a showi Unofficial Document meets all of the development standards of the applicable Development Option as set forth in the CMP. The discretion of the Development Board shall be limited to site design.

Upon receipt of a request for site plan approval, the Development Board shall schedule a public meeting to take action on the request for site plan approval. Notice shall be given at least ten (10) days before the meeting in the following manner:

A. Publication at least once in a newspaper of general circulation published or circulated in the Town;

B. Posting on the subject property in a manner legible from the public right-of-way; and

C. Notice by first class mail to each real property owner, as shown on the last assessment, of all property owners within three hundred feet (300') of the proposed application.

III. LAND USE PLAN

3.01 LAND USE DESIGNATIONS

A. Residential

Unofficial Document

The Residential land use designation is intended to allow for residential development with a range of lot sizes depending on topography and site conditions, as well as market influences. This designation includes eight (8) development options which provide a range of residential lot sizes and housing products and establishes minimum property development standards ("Development Options"). Certain essential and complementary uses are also permitted under conditions and standards which ensure their compatibility with the character of residential land uses.

A key objective of the Caterpillar CMP is to create a community that emphasizes residential housing diversity. Housing types and configurations should respond to a variety of income levels, family types, and lifestyles. Opportunities for a diverse mix of housing sizes and types will create a distinct, vital, neighborhood fabric and add value to the overall Caterpillar community. These housing types range from low density, large lot home programs to high density, multi-family housing.

1. Permitted Uses

a. Single or multi-family dwelling units, including assisted living and senior housing;
b. Publicly or privately owned and maintained parks, recreation areas, pathways, trails, and recreation centers;
c. Public and private schools, including institutions of higher education;
d. Religious facilities;
e. Golf courses;
f. Guest houses, attached or detached;
g. Temporary Uses including sales/marketing facilities, model home complexes, and related accessory uses;
h. Facilities and storage, incidental to a construction project and located on the project site;
i. Public utility buildings and facilities;
j. Governmental uses;

k. Parking structures;
l. Accessory buildings;
m. Home occupations, subject to the following:
   i. The number of employees shall be limited to one non-family member or permanent resident in addition to the principal occupant;
   ii. Ac Unofficial Document :o the hours between 7 a.m. and 10 p.m;
   iii. Heavy machinery or outdoor storage shall not be permitted.
   iv. Signage shall be limited to a maximum of six (6) square feet, non-lighted, and located on-site for the purpose of business identification only.
n. Cellular communication facilities.

2. Prohibited Uses

a. Adult uses.

3. Development Options

One of the following Residential Development Options shall be selected at the point of or prior to subdivision plat submittal or Development Site Plan review and shall be subject to the development standards set forth herein for each respective Development Option. Diagrams describing the measurement of lot widths and depths are set forth in **Exhibit I**.

Large Estate and **Estate** Residential Development Options are intended to facilitate large, single-family sites (typically custom or semi-custom homes) often located in the steeper sloped areas and at the higher hillside elevations of the community. Additionally, these lot types may occur at lower elevations and flatter terrain, creating an "urban" estate character. Lots may be irregular in shape and size to conform to the varied topography and other natural features. Typically, these lots will incorporate building areas that ensure minimum impact to natural vegetation and features.

a. Large Estate

Min. Lot Size:	35,000 s.f.
Min. Lot Width and Depth:	120'
Min. Front Setback:	
Fr	
Side Garage:	10'
Living:	12'
Min. Side Setback:	10'; 30' aggregate; 5' additional setback for side abutting public street
Min. Rear Setback:	35'; 15' if adjacent to open space greater than 30'
Projections:	Maximum 3' into any required setback
Max. Bldg. Height:	30'
Max. Lot Coverage:	40%
Min. Separation of Bldgs On Same Lot:	10'
Min. Separation of Bldgs On Adjacent Lots:	20'

Min. Separation of Bldgs On Same Lot:	10'
Min. Separation of Bldgs On Adjacent Lots:	0'; 10' if setback is provided on at least one lot

Unofficial Document

f. **Residential Medium**

Min. Lot Size:	3,500 s.f.
Min. Lot Width and Depth:	Fifty percent (50%) of all lots within an individual platted subdivision shall be a minimum of 40' and fifty percent (50%) shall be a minimum of 45'
Min. Front Setback:	
Front Garage:	18'
Side Garage:	10'
Living:	8'
Min. Side Setback:	0'; 5' aggregate; where a side yard setback is provided, it must be a minimum of 5'; 5' additional setback for side abutting public street
Min. Rear Setback:	15'
Projections:	Maximum 3' into any required setback
Max. Bldg. Height:	30'
Max. Lot Coverage:	65%
Min. Separation of Bldgs On Same Lot:	10'
Min. Separation of Bldgs On Adjacent Lots:	0'; 10' if setback is provided on at least one lot

Residential High, Platted Lots and **Residential High, Development Site Plan** Development Options allow for multi-family or attached, single-family residential uses intended to provide for the development of higher density duplexes, townhomes, rowhouses, condominiums, seniors' apartments, assisted living and congregate care facilities, and apartments. The Unofficial Document will provide an important balance to the community, allowing alternative housing opportunities for various lifestyles and income levels. Building configurations include front-loaded and alley-loaded multi-family housing types to create diversity within these neighborhoods. These residential types may be located adjacent to high-intensity land uses such as resort, employment, business, and retail.

g. Residential High, Platted Lots

Min. Subdivision Size:	One acre
Min. Lot Size:	1,000 s.f.
Min. Lot Width:	20'
Min. Lot Depth:	40'
Min. Front Setback:	18' or greater; or 3' or less
Min. Side Setback:	0'; where a side yard setback is provided, it must be a minimum of 5';
Min. Rear Setback:	3'
Max. Bldg. Height:	40'
Max. Lot Coverage:	75%
Min. Open Space:	10% open space within platted subdivision
Min. Separation of Bldgs On Same Lot:	10'
Min. Separation of Bldgs On Adjacent Lots:	0'; 10' if setback is provided on at least one lot

h. Residential High, Development Site Plan

Min. Parcel Size:	One acre
Perimeter Setback:	20'
Projections:	Maximum 3' into any required setback

Max. Bldg. Height:	48' or 4 stories
Max. Site Coverage:	75%
Min. Open Space:	10% open space within parcel, not including setback area
Min. Separation of Bldgs On Same Parcel:	10' for single story structures; 20' structures exceeding a single story

Unofficial Document

B. Commercial/Mixed Use

The Commercial/Mixed Use land designation is designed to accommodate general commercial, retail, employment, residential, civic, cultural, entertainment, recreational, and industrial uses.

The Commercial/Mixed Use land designation provides the opportunity to create economic vitality for the Town by expanding its employment and commercial base. This designation will provide opportunities for a balanced range of land uses serving the needs of the Caterpillar community. Three (3) Commercial/Mixed Use Development Options provide a range of land use intensities from suburban to more intense, urban uses.

1. Permitted Uses

a. All uses permitted in the Residential Land Use Designation;
b. Residential uses located above, below, or adjacent to commercial uses;
c. Resorts (and all associated facilities including spa and golf uses);
d. Retail sales, specifically including but not limited to liquor sales and automobile sales;
e. Professional, business, and administrative offices;
f. Personal service businesses such as but not limited to beauty shops, barber shops, laundry and dry cleaning establishments;
g. Bars and restaurants;
h. Night clubs;
i. Banking and financial services;
j. Child care facilities;
k. Entertainment uses including museums, theaters, cinemas, auditoriums, and places of public assembly, excluding adult theaters and adult live entertainment;

l. Sports facilities including, but not limited to, professional sports facilities;
m. Hotels/motels;
n. Health clubs;
o. Copying and printing businesses;
p. Self-storage facilities *;
q. Wholesal[i] Unofficial Document [o]n *;
r. Medical offices and clinical laboratories;
s. Hospitals;
t. Veterinary offices and clinical laboratories;
u. Veterinary hospitals;
v. Motion picture production, radio, and television broadcast studios;
w. Manufacturing and assembly *;
x. Mortuaries and crematoriums;
y. Convenience uses including drive-in uses;
z. Gas/service stations, including automobile repair;
aa. Recreational vehicles storage facilities *;
bb. Used car sales, provided that such sales are ancillary to a new automobile sales establishment.
(Note: "*" indicates an industrial use.)

2. Prohibited Uses

a. Adult uses.

3. Development Options

One of the following Commercial/Mixed Use Development Options shall be selected at the point of or prior to Development Site Plan review and shall be subject to the development standards set forth herein for each respective Development Option.

a. Commercial/Mixed Use, Low

Max. Height:	3 stories or 40'
Min. Open Space (may include setback area):	25%
Perimeter Setback:	20'

b. Commercial/Mixed Use, Medium

Max. Height:	4 stories or 60'
Min. Open Space (may include setback area):	20%
Perimeter Setback:	10'

Unofficial Document

c. Commercial/Mixed Use, High

Max. Height:	6 stories or 84'
Min. Open Space (may include setback area):	5%
Perimeter Setback:	0'

C. Resort Overlay

One thousand (1,000) resort rooms shall be permitted on the Property. Any resort use shall be designed and developed to fit into the unique and special environs of the Property and shall be subject to the development standards in any of the three (3) Commercial/Mixed-Use Development Options set forth in **Section 3.01.B**.

3.02 LAND USE BUDGET

Maximum intensities for the Land Use Designations described in **Section 3.01** are provided in the Land Use Budget set forth in **Exhibit J**.

A. Land Use Intensity -- Residential

A maximum of 14,080 residential units shall be permitted on the Property. The allocation of residential units within each Planning Unit shall be as set forth in the Land Use Budget, subject to the provisions of **Sections 3.02.E and 3.02.F**.

B. Land Use Intensity -- Commercial/Mixed Use

A total of 4,028,750 square feet of gross floor area shall be permitted for all commercial/mixed-use development on the Property. The allocation of total gross floor area for commercial development within each Planning Unit shall be as set forth in the Land Use Budget, subject to the provisions of **Sections 3.02.E and 3.02.F**.

C. **Land Use Intensity -- Resort Overlay**

A maximum of one thousand (1,000) resort rooms shall be permitted on the Property. Additional resort rooms are allowed at a reduction of overall residential units of 0.5 residential units for each additional resort unit.

D. **Land Use Designatior** Unofficial Document

The specific location of each Land Use Designation within a Planning Unit shall be determined at the time of preliminary plat or Development Site Plan approval.

E. **Land Use Intensity Transfers**

The owner of any portion of the Property may transfer residential dwelling units or commercial/mixed-use square footage and amend the preliminary allocation within Planning Units, and from one Planning Unit to another, subject to approved documentation as required in **Section 3.02.F**. Reallocation of units or square footage in accordance with this Section shall be subject to the provisions of **Section 1.02.F**.

F. **Documentation of Intensity Transfer**

Any submittal to the Planning Director which includes a request for an intensity transfer shall include: (1) the written consent of the Developer; and (2) documentation which sets forth the reallocation of dwelling units or commercial/mixed-use square footage within the Land Use Budget and which indicates the Planning Units that have a reduction or increase in the number of dwelling units or amount of commercial/mixed-use square footage. At the time of final plat approval or Development Site Plan approval, the Developer shall submit to the Planning Director documentation for inclusion in the Land Use Budget indicating the final status of intensity of the affected Planning Units.

G. **Residential Dwelling Unit Bonus**

As an inducement to provide Common Areas throughout the Property, the total number of residential units allowed on the Property may be increased as described in the Residential Dwelling Unit Bonus table set forth in **Exhibit K**.

3.03 GENERAL DEVELOPMENT STANDARDS

The purpose of general development standards contained in the CMP is not to restrict imagination, innovation, or variety, but rather to assist in focusing on those elements of design which can produce creative solutions that will develop a satisfactory visual appearance, preserve property values, limit incompatibilities, and promote the public health, saf Unofficial Document fare.

The use, construction, improvement, or other development of any portion of the Property shall be subject to all of the property development standards contained in the CMP, except as may be modified by each Planning Unit Plan required to be submitted pursuant to **Section 2.02.**

A. Perimeter Transition Areas

A perimeter transition area with an average width of one hundred (100) feet and a minimum width of fifty (50) feet shall be provided along the eastern boundary of the Property as depicted in **Exhibit L** (the "Perimeter Transition Area"). Any development within the Perimeter Transition Area shall be limited to a height not to exceed thirty (30) feet.

B. Setback and Height Exceptions

1. Structure projections (bay windows, balconies, overhangs, etc.) will be allowed to extend three (3) feet beyond any setback line. Further projection may be allowed by the Planning Director for buildings over two (2) stories provided that such projection will not adversely impact any adjacent properties.

2. The height regulations of the CMP shall not apply to spires, belfries, chimneys, cooling towers, elevator bulkheads, fire towers, monuments, stacks, radio or television aerials, cellular communication facilities, ornamental towers, or necessary mechanical structures as long as the above features do not exceed seventy-five (75) feet in height from finished grade for all Development Options, except for the Commercial/Mixed-Use, High Development Option where such features shall not exceed one hundred (100) feet in height from finished grade. If attached to a building, such features shall not occupy a horizontal area in excess of twenty-five (25) percent of the entire roof area of the building. In addition, height regulations of the

CMP shall not apply to hospitals, resorts, signature architecture, or water tanks.

C. **Residential Accessory Buildings**, (including detached guest houses)

1. Accessory buildings shall not:

Unofficial Document

a. Exceed the height of the primary residence;

b. Be located within ten (10) feet of the primary residence;

c. Be constructed prior to the construction of the primary residence.

D. **Air Quality**

1. Purpose and Intent

Air quality within the Town is a natural asset. It is the intent of the CMP to maintain air quality by controlling dust caused by new development and motor vehicle traffic.

2. Conformity

Each Planning Unit Street and Circulation Plan shall include a statement of conformance with the state air quality plan, as developed by the Maricopa Association of Governments for all proposed transportation improvements.

3. Construction

Maricopa County air quality regulations shall be adhered to for all construction activities on the Property.

4. Surface and Traffic Control

a. For any drive-in establishment, a directional sign shall be posted to encourage reduced vehicle idling.

b. Development plans shall be designed to reduce traffic flows and encourage efficient traffic circulation.

c. Parking, loading, and vehicle storage areas shall be maintained in a manner that minimizes dust emissions.

d. Vacant property which is not in its natural vegetative state and which was not disturbed prior to the adoption of the CMP shall be contr [boilerplate: Unofficial Document] dust emissions beyond the boundaries of the site.

e. Air blowers used for landscape maintenance having a fifty (50) cubic centimeter engine or larger shall be prohibited.

E. Building Construction

1. General Requirements

a. All buildings and structures, both existing and new, shall be maintained in a safe and sanitary manner.

b. All construction or work for which a permit is required shall be subject to inspection by the Building Inspector, in accordance with the applicable provisions of the Uniform Building Code.

2. Uniform Codes Applicable to the Property

The following uniform codes are hereby made part of the CMP. In the event the Town adopts an updated version of any or all of the following uniform codes, the most-recently adopted version shall prevail.

UNIFORM BUILDING CODE, 1991 edition, published by the International Conference of Building Officials,
NATIONAL ELECTRICAL CODE, 1990 edition, published by the National Fire Protection Association,
UNIFORM PLUMBING CODE, 1991 edition, published by the International Association of Plumbing and Mechanical Officials,
UNIFORM MECHANICAL CODE, 1991 edition, published by the International Association of Plumbing and Mechanical Officials,
UNIFORM FIRE CODE, 1991 edition, published by the International Conference of Building Officials and the Western Fire Chiefs Association,

UNIFORM CODE FOR THE ABATEMENT OF DANGEROUS BUILDINGS, 1991 edition, published by the International Conference of Building Officials, and any and all supplements to said codes.

3. Licenses Required

The design an Unofficial Document buildings shall be under the supervision of licensed engineers, contractors, or architects when required by applicable state law. The Town shall enforce and require adherence to state laws governing such and may refuse to issue permits if documentation on licensing requirements is not provided.

F. Residential Density

Gross density for the Property shall be in accordance with **Section 3.02** and the Land Use Budget set forth in **Exhibit J**. Residential densities for the Property shall be allowed to vary within and between neighborhoods. Residential densities may range from approximately one (1) dwelling unit per ten (10) acres to fifty (50) dwelling units per acre.

G. Flood Control

1. Floodplain Management

The Maricopa County Flood Control District (the "FCD") is responsible for all floodplain management activities within the corporate limits of the Town. The FCD is authorized to exercise the powers and duties set forth in Title 45, Chapter 10, Article 4, Arizona Revised Statutes.

2. Drainage Provisions

a. General Requirements

Provisions for drainage shall meet the requirements of the Uniform Drainage Policies and Standards for Maricopa County. Drainage facilities shall be installed to provide for the adequate containment and disposal of surface water and to maintain any natural drainage course on the Property.

b. Drainage Report

Prior to approval of any commercial or residential development, a drainage report shall be submitted to and approved by the Town Engineer.

c. Drainage Clearance

Drainage Unofficial Document required prior to permit issuance for any development or substantial improvement which may have an adverse effect on existing drainage.

d. Final Inspection

Drainage inspection approval shall be obtained prior to issuance of a Certificate of Occupancy or final building inspection of any site or structure.

3. Drainage Design

a. General

The entire drainage detention/retention and runoff conveyance system shall be designed to eliminate or minimize storm water runoff effects and convey the runoff through the development with minimum detrimental effect. No system shall be approved if the effect may cause an increase in the peak discharge or velocity of runoff or change the point of entry of drainage onto adjacent properties during the runoff event.

b. Storm Frequency Criteria

The rainfall event based upon the one hundred (100) year storm frequency generating the peak discharge for the area contributing runoff to the development shall be used in designing the overall drainage system.

c. Detention/Retention of Storm Drainage

i. The detention/retention system shall be designed to retain the increase in runoff volume due to development and reduce the post-development peak discharge to

less than or equal to the pre-development peak discharge.

ii. On-site detention/retention facilities may include natural depressions or man-made basins. Dry wells are permitted.

Unofficial Document

iii. Individual lot detention/retention shall not be permitted in residential subdivisions with a lot size less than one-half (½) acre, except in conjunction with development pursuant to either the Residential High, Platted Lot or the Residential High, Development Site Plan Development Options set forth in Section 3.01. A.2.g-h.

iv. Detention/retention can occur in the Town's right-of-way upon approval of the Town Engineer.

v. A public utility easement shall not be designated for detention/retention without approval of affected utility companies.

vi. Off-site drainage shall either be to the street or to a designated wash or drainage structure with adequate capacity and outfall.

vii. Detention/retention can occur in public areas and parks.

d. Storm Water Disposal

On-site runoff that has been detained/retained shall be disposed of within thirty-six (36) hours either by percolation, dry wells, catch basins, or drainage into an approved drainage way. One hundred (100) year peak discharge flows from the Property shall not exceed pre-development flows and shall be in the location and direction of the historic off-site flows.

e. Finished Floor Elevation

Finished floors shall be elevated a minimum of fourteen (14) inches above the low adjacent top of curb or lot outfall elevation, or twelve (12) inches above the computed one

hundred (100) year water surface elevation, whichever is greater. A finished floor elevation may be other than the minimum permitted provided it is determined by technical data certified by a registered professional engineer who is licensed to practice in the State of Arizona to be the minimum necessary to be safe from inundation by the one hundred (100) year peal Unofficial Document inished floor elevation shall be referenced to a known benchmark.

f. Drainage Easements

Drainage easements or tracts may be required to preserve washes, streams and channels (drainageways). The width of the drainage easements or tracts shall be defined by the water surface during the 100-year storm event, and may include buffer areas. The need for a drainage easement or tract, and its width and location will be determined on a case by case basis.

H. Landscaping

1. Purpose

Landscaping has a two-fold purpose: 1) to create an aesthetic environment, and 2) to maintain groundcover for control of dust and weeds.

2. Landscaping Required

All development within the Property shall meet or exceed the landscaping requirements of this Section and shall conform with the Landscape Plant Palette set forth in **Exhibit M**. The plant palette expands on the approved Arizona Department of Water Resources list to allow greater flexibility in design concepts while ensuring environmental sensitivity. The Landscape Plant Palette appropriately provides botanical diversity given the regional context.

a. All commercial and industrial uses shall provide landscaping within the front setback area or between the building and the street frontage, whichever is less. On corner lots, landscaping is to be provided on both street frontages within the setback

area or between the building(s) and the street frontages, whichever is less.

b. Landscaping shall be provided by the Developer or subdivider between the public roadway improvements and the adjacent property line.

Unofficial Document

c. Landscaping within the public right-of-way on Principal Arterial streets shall include one (1) tree and three (3) shrubs for each twenty (20) feet of street frontage. A minimum of sixty percent (60%) of the required trees shall be twenty four inch (24") box or larger.

d. Landscaped areas along Principal Arterial streets shall be contoured or bermed to provide variations in grade.

e. All landscape areas shall be finished with a natural topping material which may include, but not be limited to, the following: turf, groundcover, decomposed granite, river run rock, native soils or expanded shale.

f. All residential uses shall be landscaped in accordance with the Landscape Plant Palette set forth in **Exhibit M**.

3. Irrigation and Maintenance

All landscaping improvements shall include a suitable method for irrigation.

4. Right-of-Way Encroachment

Landscaping allowed within sight distance triangles and safe stopping sight distance areas in the public right-of-way shall be a maximum height of three (3) feet. Landscaping in the public right-of-way not within sight distance triangles and safe stopping sight distance areas may exceed three (3) feet in height. Trees and turf may be allowed in the public right-of-way, subject to applicable governmental regulations. Trees within sight distance triangles and safe stopping sight distance areas may be allowed in the public right-of-way if branches are trimmed up to six (6) feet above ground level. The Public Works Director shall have the authority to order removal of any

landscaping or trees which, in the opinion of the Public Works Director, poses a hazard to the public.

I. Lighting

1. Applicability

Unofficial Document

Indoor or outdoor lighting that is one hundred fifty (150) watts or less shall be exempt from the provisions of this Section.

2. General Standards

   a. Sources of illumination that are directly visible from a public street or residential property shall be minimized to reduce glare.

   b. Light intensity shall not exceed one (1) foot-candle on any adjacent property.

3. Lighting Requirements

   a. All fixtures are to be fully shielded. Metal halide and florescent fixtures shall be filtered. Mercury vapor fixtures are prohibited.

   b. Fixtures over two hundred (200) watts shall be directed downwards.

   c. The height of any fixture shall not exceed:

      i. Fifteen (15) feet for residential uses;

      ii. Twenty (20) feet for commercial uses;

      iii. Forty (40) feet for industrial uses;

      iv. Thirty-five (35) feet for any recreational or public use (ballfields and arenas exempted).

4. Street lighting requirements will be addressed by each Planning Unit Environmental Design Plan and may or may not include continuous lighting other than at major intersections.

J. Outdoor Storage

1. General Standards

Unofficial Document

a. Storage of materials, supplies, or similar matter is prohibited outside an enclosed structure, unless associated with an industrial use, which shall be screened from view. Storage of inventory, materials, or other debris outside an enclosed building is prohibited in conjunction with a residential or commercial use.

b. Storage associated with an industrial use shall only be allowed within the confines of a solid fence or landscape screen not less than six (6) feet in height, unless no practicable alternative is available.

c. Merchandise which is offered for sale may be displayed beyond the confines of an enclosed structure, the area of which shall not exceed ten (10) percent of the principal building floor area, unless such merchandise is a type customarily displayed outdoors, such as automobiles, garden supplies, and seasonal sales.

d. No display or storage of any type shall be permitted within the one-half (½) of the required front or side street setback nearest the street, nor within any required interior side or rear setback.

2. Vehicle Storage

a. Mobile or manufactured homes are allowed to be stored only in conjunction with an industrial use and shall be placed in the rear half of the lot and completely screened from view of a public street.

b. Recreational vehicles shall be parked to the rear of the front setback line.

c. Parking of commercial vehicles in residential districts is limited to one (1) commercial vehicle with a one (1) ton chassis, having a capacity of not more than ten thousand (10,000) pounds gross vehicle weight rating (GVWR).

d. Inoperable vehicles shall be stored only in conjunction with an industrial Unofficial Document ned from view of a public street.

e. There shall not be any type of vehicle stored on a vacant parcel of land.

3. Temporary Storage

These regulations shall not be applicable to any storage being placed in a certain location less than twenty-four (24) hours, unless the storage constitutes a public hazard or nuisance.

K. Parking and Traffic Circulation

1. Purpose

Contained herein are standards intended to provide for attractive, effectively developed parking, including, but not limited to, on-street, parallel, and diagonal parking with sufficient room for maneuvering and landscaping.

2. Traffic Access

a. Every lot shall have access that is sufficient to afford a reasonable means of ingress and egress for emergency vehicles as well as for all those likely to need or desire access to the Property in its intended use.

b. All driveway entrances and other openings onto streets within the Property shall be constructed so that:

i. Vehicles can enter and exit from the lot in question without posing any substantial danger to themselves, pedestrians, or vehicles traveling on abutting streets.

ii. Interference with the free and convenient flow of traffic in abutting or surrounding streets is minimized.

c. Minimum lot width at the driveway access point on a single lot shall be twenty (20) feet. If two or more adjacent flag lots share a common driveway, the minimum combined lot width at the drivev Unofficial Document ll be thirty (30) feet, as set forth in **Exhibit I**.

d. Up to six (6) platted residential lots may be accessed from a common driveway, unless otherwise approved by the Town Engineer.

e. Unless no other practicable alternative is available, all driveways and other openings for commercial/mixed-use development shall be located a minimum of:

i. Seventy-five (75) feet from a street intersection;

ii. Forty (40) feet from another access driveway;

f. Shared driveways for commercial/mixed-use development shall be encouraged.

3. Parking Requirements

a. Standards

i. Off street parking spaces shall be provided as set forth in **Table A**. Loading spaces shall be provided as per **Table B**. Fractional results shall be rounded up to the nearest whole number if the fraction is 0.5 or greater.

ii. In the case of mixed uses, the total number of spaces shall be based on parking demand as determined by a parking study as set forth in **Section 3.03.K.4**.

iii. Accessible parking spaces shall comprise five (5) percent of the total required spaces when over ten (10) spaces are required.

iv. An emergency access lane having twenty (20) feet of unobstructed width shall be provided when required by the Property's emergency service provider. The twenty (20) foot width can consist of sixteen (16) feet of paved lane with two (2) foot shoulders on each side with plantings less than eighteen (18) inches in height within the

Unofficial Document

TABLE A — **PARKING SPACES REQUIRED (BY LAND USE TYPE)**

Unofficial Document

	REQUIRED PARKING	MINIMUM SPACES TO BE PROVIDED (by development site)
SINGLE FAMILY	2	2
MULTIPLE FAMILY	1.5 per unit	4
SENIOR HOUSING		
Assisted Living	0.75 per unit	2
Independent Living	1.5 per unit	2
Nursing Home	.5 per bed	2

OFFICE	1.5 (1)	2
INDUSTRIAL	1 (1)	4
SERVICE ESTABLISHMENT	3 (1)	4
PUBLIC ASSEMBLY	3 (1)	10

(1) Parking spaces per 1,000 square feet of gross floor area.

TABLE B — **LOADING SPACES REQUIRED FOR NEW DEVELOPMENT (BY LAND USE TYPE)**

Unofficial Document

	LOADING SPACES TO BE PROVIDED PER 10,000 SQUARE FEET OF GROSS FLOOR AREA [1]	MINIMUM SPACES TO BE PROVIDED [2]
SINGLE FAMILY	N/A	N/A
MULTIPLE FAMILY	N/A	N/A
COMMERCIAL	1	1
OFFICE	1	N/A
INDUSTRIAL	0.2	2
SERVICE ESTABLISH.	2	1
PUBLIC ASSEMBLY	1	N/A

[1] Loading spaces are to be to the rear or side of the building
[2] The minimum number of loading spaces may be waived by the Planning Director upon a showing that the spaces are not necessary in the ordinary course of a particular use.

b. Design

i. To control dust and drainage, parking areas shall be constructed with dust-free materials including but not limited to stabilized, decomposed granite.

ii. Dimension requirements as set forth in **Table C** shall be followed in the construction or modification of any parking area.

iii. The preferred location for parking shall be the interior of the lot, exclusive of on-street parking.

iv. Paving shall be provided to a sufficient thickness to withstand repeated vehicular traffic, except for single-family dwelling uses.

4. Parking Study Option

As an alternative Unofficial Document listed elsewhere in this Section, a parking plan may be submitted for approval by the Planning Director, which plan shall find that an alternate design or a reduction in the total number of parking spaces required would fulfill the intent and purpose of this Section. The Planning Director may require the study to be completed by a registered traffic engineer.

TABLE C **PARKING / LOADING SPACE DESIGN REQUIREMENTS**

	90 DEGREE SPACES[1]	60 DEGREE SPACES[1]	45 DEGREE SPACES[2]	LOADING SPACES
WIDTH (STD)	9'	9'	9'	12
WIDTH (ACC)	13'	13'	13'	N / A
LENGTH (STD)	18'	18'	18'	55
LENGTH (ACC)	18'	18'	18'	N / A
AISLE WIDTH	25'	20'	15'	25

[1] For 90 and 60 degree parking, aisle dimensions are 2 - way.
[2] For 45 degree parking, aisle dimensions are 1 - way.

L. Screening

1. General Requirements

a. Fences may be allowed within the public right-of-way upon approval of the Public Works Director. The height of any fence within the public right-of-way shall be a maximum of three (3) feet. The Public Works Director shall have the authority to

order removal of any fence which, in the opinion of the Public Works Director, poses a threat to public safety.

b. The height of any fence located between the principal structure and the rear or side property line shall not exceed six (6) feet within any residential designation and eight (8) feet within any commerci Unofficial Document ation, unless associated with an industrial use, in which case the fence may extend to a height of ten (10) feet.

c. Material used for fences shall be limited to those listed in **Table D**.

2. Required Screening

New development shall provide screening in accordance with **Table D** for those uses and improvements specified.

3. Roof-Mounted Equipment

All roof-mounted equipment shall be completely screened from view from ground level of adjacent property. The parapet, if provided, shall be architecturally compatible with the primary building.

4. Swimming Pool Enclosure

The following swimming pool enclosure regulations shall apply to the Property. Unless otherwise provided herein, swimming pools shall be entirely enclosed by a protective fence or solid wall of not less than five (5) feet in height.

a. Applicability

The provisions of this Section shall apply to the following:

i. Swimming pools used in conjunction with single-family dwellings, including single-family cluster developments.

ii. Swimming pools used in conjunction with a multiple-family use.

iii. Swimming pools used in conjunction with a commercial or public use.

TABLE D **REQUIRED SCREENING**

Unofficial Document

	MINIMUM HEIGHT REQUIRED FOR SCREENING	MATERIALS ALLOWED TO BE USED FOR SCREENING[1,2]
REFUSE CONTAINER	6'	1
VEHICLE DISPLAY	2.5'	1,2,3
PARKING AREA	3'	1,3
OUTDOOR STORAGE	6'	1,4,5
MECHANICAL EQUIP.	3.5'	1,3,5

[1] Materials for fence construction shall be limited to the following:

1. masonry block
2. wrought iron
3. landscape screen
4. chain - link with slats
5. wood

[2] Other materials may be allowed upon the Planning Director finding that they are similar to those listed above.

b. Design

i. The pool enclosure shall be set a minimum of twenty (20) inches from the edge of the water.

ii. The protective fence or wall shall have no vertical opening larger than four (4) inches. Wrought iron and wood fences shall be constructed with at least fifty-four (54) inches between the horizontal members.

iii. Gates shall be self-closing, self-latching, with latches being a minimum of fifty-four (54) inches above ground level. Gates shall swing out, away from pool. Those gates not used for normal access to and from the pool do not need to be self-closing if secured by a padlock or other similar device in lieu of a latch.

Unofficial Document

iv. The protective fence or wall shall be located a minimum horizontal distance of fifty-four (54) inches from any structure, storage, or equipment that could be used to climb the wall or fence from the outside.

v. The protective fence or wall shall contain no opening, handhold, or other means accessible from the exterior side of the enclosure that could be used to climb the wall or fence.

vi. The protective fence or wall shall be constructed of block, wrought iron, wood, or other similar material approved by the Planning Director. Chain link material shall not be used as a protective fence.

vii. All ground level doors with direct access to the pool area must be equipped with self-latching devices which shall be located at least fifty-four (54) inches above the floor and must be self-closing and must open in a direction away from the pool area.

viii. All emergency escape and/or rescue windows of sleeping rooms with direct access to the pool area must be equipped with a self-closing and self-latching device located no less than fifty-four (54) inches above the floor.

ix. All other openable dwelling unit or guest room windows with access to the pool area must be equipped with: 1) screwed in place wire mesh screens, 2) keyed locks that prevent opening the window more than four (4) inches, or 3) self-closing and self-latching devices located no less than fifty-four (54) inches above the floor.

c. Owner Responsibility

It is the responsibility of the property owner to ensure that any pool enclosure fence and its appurtenances (i.e. gates, latching devices, locks, etc.) are maintained in safe and good working c Unofficial Document

M. Signs

1. Permit Required

The placement of signs, except as listed below, shall require a sign permit issued by the Planning Director in accordance with the procedures set forth in the Development Code. Signs listed as follows are exempt from obtaining a permit:

a. Political signs and banners;

b. Directional and traffic signs, including temporary variable street construction signs;

c. Window signs not exceeding twenty (20) percent of the window area;

d. Signs not visible from off property or business;

e. Signs pertaining to the lease, sale, or rental of land or buildings, the size of which are six (6) square feet or less for parcels up to five (5) acres and twenty-four (24) square feet or less for parcels more than five (5) acres.

2. Prohibited Signs

The following types of signs are prohibited:

a. Signs with audible devices, moving parts, or flashing lights. This shall also include electronic messaging boards with moving words or letters;

b. "Sandwich" or portable signs and outdoor banners displaying product information;

c. Roof mounted signs or signs projecting above the roof line of a building;

d. Signs plaUnofficial Document right-of-way;

e. All signs mounted on, or applied to trees, utility poles, or public structures, except as otherwise provided;

f. Any sign determined to be a safety hazard to the flow of traffic;

g. Commercial signs remaining at an abandoned or vacant building for a period exceeding one hundred eighty (180) days.

3. Design Standards

a. Signs shall not exceed the dimensions set forth in **Table E** and **Table F**.

b. Signs shall be located on the same parcel as the use for which they advertise, except freeway commercial signs.

c. Illuminated signs may be internally lighted in the Commercial/Mixed Use designation. The source of illumination of any sign is to be shielded so that it is not visible from or causes glare or reflection onto adjacent properties and streets.

TABLE E

MAXIMUM SIZE ALLOWED FOR FREE - STANDING SIGNS (BY LAND USE TYPE)

Unofficial Document

	HEIGHT ALLOWED	MAXIMUM SIGN AREA (IN SQUARE FEET) ALLOWED
MULTIPLE FAMILY	3.5'	18
PUBLIC ASSEMBLY	3.5'	18
COMMERCIAL	20'	72

SERVICE ESTABLISHMENT	15'	32
FREEWAY COMMERCIAL	65' *	300
INDUSTRIAL	20'	48

* Freeway commercial and billboard signs shall be allowed to extend sixty-five (65) feet above the grade of the freeway nearest the sign.

TABLE F

MAXIMUM SIZE ALLOWED FOR ATTACHED SIGNS (BY LAND USE TYPE)

Unofficial Document

	SIGN AREA ALLOWED (IN SQUARE FEET) FOR EACH LINEAL FOOT OF BUILDING FACING THE STREET FRONTAGE
MULTIPLE FAMILY	0.25
PUBLIC ASSEMBLY	0.25
COMMERCIAL	1.00
OFFICE	0.50
SERVICE ESTABLISH.	0.75
FREEWAY COMM.	1.00
INDUSTRIAL	0.50

* Attached signs shall be placed below roof eave line.
* Each side of a building having a street frontage may be counted separate and used to place signs.
* Buildings located over fifty (50) feet from the street frontage are allowed to double the allowed sign area amount.

N. Topography

The provisions of this Section shall apply to all new development activities within the Property. The foregoing notwithstanding, regrading or reshaping activities in areas of disturbance which occurred prior to the adoption of the CMP shall be exempt f Unofficial Document f this Section.

1. Grading

The purpose of this Section is to set forth the objectives and engineering standards for the grading and earthwork elements for the development of the Property. The grading elements include street and parking lot cut and fill limits, site grading limits, slope control or soil stabilization, mitigation of adverse conditions including boulder instability, slope instability, soil erosion, and drainage disruption, and landscaping of scarred areas due to grading.

a. General

A grading plan shall be approved by the Town Engineer prior to any grubbing, grading, or clearing. All grading shall be in accordance with all applicable M.A.G. standards or the uniform building code, whichever is applicable to the site.

b. Cut and Fill

Cut and fill slopes, except for those required for roadway improvements, shall meet the following requirements:

i. Cut and fill slopes shall not be steeper than 3:1, except stable rock which may be vertical. Steeper slopes will be allowed when justified by adequate engineering analysis and documentation, subject to approval by the Town Engineer.

ii. Cut and fill slopes within drainage retention and detention basins shall be no steeper than 4:1. Steeper slopes will be allowed when justified by adequate engineering analysis and documentation, subject to approval by the Town Engineer.

iii. The maximum height of cut is not to exceed eighty (80) feet and the maximum height of fill shall not exceed sixty (60) feet, unless otherwise approved by the Town Engineer. All exposed cuts and fills are subject to the mitigation criteria established herein.

Unofficial Document

c. Retaining Walls

Retaining walls may be used to reduce the horizontal distance required to construct cut and fill slopes. Retaining walls may include masonry, rigid concrete structures, earth filled bins, gabions, and any other form of structural elements used to retain and support cut or fill slopes.

Retaining walls up to twenty (20) feet shall be allowed. Retaining walls higher than twenty (20) feet may be approved by the Town Engineer. Retaining walls shall be designed by a registered professional engineer who is licensed to practice in the State of Arizona.

d. Revegetation

Revegetation for landscaping or erosion and sediment control is an integral part of grading activity. Graded areas that are to be revegetated shall be revegetated with those plants included in the Landscape Plant Palette as set forth in **Exhibit M**.

e. Dust Control

All dust control activities shall comply with all Federal, state, and county dust control requirements.

2. Hillside

It is the purpose of this Section to establish regulations which recognize that development of hillside areas on the Property involves special considerations. Hillside development standards apply to all land wherever the natural terrain of the proposed disturbance areas within any lot or parcel has a slope of fifteen (15) percent or greater as determined by a registered professional engineer who is licensed

to practice in the State of Arizona ("Hillside Area"). All land use designations and respective development options contained herein may be developed within Hillside Areas and shall be governed by the provisions of this Section and the standards of each respective development option set forth in **Section 3.01.A.2** and **Section 3.01.B.2**. In the event of a conflict between the development standards of thi Unofficial Document standards set forth in **Section 3.01.A.2** and **Section 3.01.B.2**, the provisions of this Section shall prevail.

a. General Provisions for Construction in Hillside Areas

In addition to drawings, plans, specifications and details necessary to obtain a building permit, the following documentary requirements and certifications shall be provided for review by the Town Engineer and Town Building Inspector:

i. A topographic map at an appropriate scale on a 24" x 36" sheet presenting the total lot and a twenty (20) foot area beyond the property line. This map shall show existing and proposed finished contours at two (2) foot intervals within a twenty (20) foot perimeter from any proposed building, five (5) foot intervals elsewhere. Existing contours shall be shown with dashed lines. This map shall show limits of excavation and fill, slope of cut and fill, and total cubic yards of excavation and fill.

ii. Detailed site plans and landscape plans at an appropriate scale which show the following: grade and slope in percent of all disturbed areas; dimensions and calculations of all cut and fill for the building site, roads, drives, swimming pools, and the method of concealment for each fill or exposed cut; dimensions of length and height of retaining walls, fences, and other attachments; the location and grade of all drainage channels, swales, drain pipes, etc.; and the amount and degree of surface disturbance, destruction, or removal of natural vegetation.

iii. Cross-sections at 1:1 scale at two (2) or more locations perpendicular to the contours through the building site. Locations of the cross-sections shall be clearly shown on the topographic map. Properties impacting ridge lines shall provide additional cross-sections indicating their relation and impact on such ridge lines.

Unofficial Document

iv. An overall excavation, grading, and drainage plan prepared and certified by a registered professional engineer who is licensed to practice in the State of Arizona.

v. Where possible and appropriate, the combining of the above maps into one drawing may be acceptable.

b. Heights and Appearances

i. For development within Hillside Areas, the height of structures shall be determined by the following and not by the definition of building height as described in **Section 1.03**:

> No part of any structure shall penetrate an imaginary plane (the "Sloping Plane of Measurement"), the height of which is thirty (30) feet measured vertically from the highest ridge or parapet of the building to the existing natural grade directly beneath that point. Minor topographic variations may be excluded from those measurements if those areas are less than twenty-five (25) feet in width. Exposed building walls measured in a vertical plane shall not exceed a height of thirty (30) feet measured from the lowest point of the wall to the top of the wall. In addition, the overall projected height will be measured from the lowest wall improvement attached to the main structure to the highest ridge or parapet, and be limited to forty-five (45) feet. Exceptions to the maximum height requirements are allowed for architectural features that are less than ten (10) percent of the

entire roof area. A diagram depicting height measurements in Hillside Areas is set forth in **Exhibit N**.

ii. Materials used for exterior surfaces of all structures shall blend in color, hue, and tone with the surrounding na Unofficial Document d high contrasts. The overall intent is to create a materials and color palette that when utilized is deemed complementary and compatible to the desert setting.

(a) Structures, walls, roofs and fences shall blend with the surrounding terrain and there shall be no material or colors used which have a light reflecting value (LRV) greater than thirty-five (35) percent.

(b) Mirror surfaces, or any treatment which changes ordinary glass into a mirror surface, is prohibited. Bright, untarnished copper or other metallic surfaces shall be treated so they are non-reflective.

(c) All electrical service equipment and subpanels and all mechanical equipment including, but not limited to, air conditioning and pool equipment, solar panels, and antennas shall not be visible from outside the property when viewed from the same or a lower elevation. Restrictions of solar panels and mechanical equipment may be modified if they are integrated into the roof design.

iii. Fences or walls on lots within a Hillside Area, excluding retaining walls, shall be restricted to privacy walls attached to or directly screening a portion of the main residence.

c. Disturbed Area

Lots in Hillside Areas shall be developed to provide for the minimum amount of ground disturbance during the time of construction so as to prevent rock slides and falls, erosion, and seepage. At final construction, disturbed areas shall be hidden or suppor Unofficial Document , buildings, finished surfaces, or shall be landscaped.

i. All buildings, structures, and roads shall, to the fullest extent practicable, utilize the natural contours of the land so as to minimize the disturbed area.

ii. The maximum height of any cut or fill used to establish a building site or a driveway shall not exceed fifteen (15) feet. The maximum height of any cut or fill used to establish a road or roadway shall not exceed thirty (30) feet.

iii. The limits of construction and proposed disturbed areas shall be clearly designated on the property prior to and during construction with flags or visible roping. No disturbance outside the designated area shall take place.

iv. All surplus excavated material shall be removed from the lot.

d. Roadways and Driveways

i. The roadway standards for the CMP set forth in **Exhibit D** include roadway cross-sections that minimize the impact of roads in Hillside Areas. The roadway standards include narrow street sections, custom street turn-around configurations, and custom cul-de-sac termination details all designed to minimize the intrusion of roadways within Hillside Areas.

ii. If any portion of a driveway grade is more than twenty (20) percent, the entire residence and all accessory buildings over one hundred twenty (120) square feet of

roof area shall be protected with an approved fire sprinkling system.

iii. Driveways with turning radii of less than thirty five (35) feet may be used provided all structures are protected with an approved fire sprinkling system.

Unofficial Document

iv. Any driveway cut greater than twelve (12) feet in depth shall not have a length greater than two hundred (200) feet.

e. Retaining Walls and Erosion Control Measures

i. The design of all retaining walls and erosion control measures shall be prepared by a registered professional engineer or architect who is licensed to practice in the State of Arizona.

ii. Raw spill slopes are prohibited.

iii. All exposed disturbed area fill shall be contained behind retaining walls or landscaped.

iv. Retaining walls shall not exceed twenty (20) feet in height. If additional height is needed, the wall shall be offset at a minimum of four (4) feet or one (1) foot per one (1) foot of height. Privacy walls may be erected on a retaining wall so long as the total height does not exceed twenty (20) feet.

f. Lighting and Utilities

i. All outdoor lighting concepts, fixture types, lamps, and wattage for lot development shall be indicated on the site plan.

ii. Street lighting is discouraged unless deemed necessary for safety.

iii. All sources of exterior lighting shall be screened to minimize impact on adjacent properties. All building

mounted light fixtures will be encouraged to shed light downward.

iv. The use of fixtures to floodlight the exterior of a structure is prohibited; except if the structure is considered to be Signature Architecture.

Unofficial Document

v. Recessed soffit mounted fixtures must have the lamp recessed into the soffit a minimum of 3".

vi. Only low voltage or incandescent type fixtures of a maximum of seventy-five (75) watts shall be allowed for exterior lighting, unless otherwise approved by the Planning Director.

vii. Exterior landscape lighting requirements shall encourage "moonlighting" techniques where a path or tree is highlighted from above, rather than aiming fixtures up at the tree.

viii. Exterior spotlights may only be used for security purposes and must be set on a timer for a maximum of twenty (20) minutes. The light source must be shielded from view from adjacent properties.

ix. All on-site utilities shall be placed underground.

g. Landscaping

Landscaping in Hillside Areas shall be limited to the Desert Wash/Sonoran Landscape component of the Landscape Plant Palette set forth in **Exhibit M**. However, within courtyards or outdoor spaces enclosed by site walls, plants from the entire Landscape Plant Palette may be used, except for trees that have a mature growth beyond twenty-five (25) feet in height.

O. Utilities

1. Wastewater Facilities

Wastewater facilities for the Property shall conform to the Master Wastewater Plan and any refinements thereto contained in any Planning Unit W Unofficial Document

2. Water Supply System

The water supply system for the Property shall conform to the Master Potable Water Plan and any refinements thereto contained in any Planning Unit Potable Water Plan.

3. Underground Service Lines

All utility lines, including irrigation service lines, but not including transformers or enclosures containing equipment such as switches, meters or capacitors which are ground mounted, shall be placed underground in accordance with the specifications and policies of the respective utility company.

4. Refuse Service

All commercial development shall provide refuse enclosures for solid waste collection in accordance with the following:

a. Located so as to facilitate collection and minimize any negative impact on persons occupying the development site, neighboring properties, or public rights-of-way.

b. Constructed according to specifications established by the Public Works Director to allow for collection without damage to the development site or the collection vehicle.

P. Public Area Improvements

1. Purpose

The purpose of these requirements is to promote road safety, assure adequate access for fire and rescue vehicles, and promote adequate vehicular circula Unofficial Document

2. Coordination of Streets

a. All new streets required pursuant to the Master Street and Circulation Plan and each Planning Unit Street and Circulation Plan shall intersect with surrounding existing streets at safe and convenient locations.

b. The Town may require temporary turnarounds to be constructed for temporary cul-de-sacs between development phases.

3. Street Layout

a. All permanent dead end streets shall be developed as cul-de-sacs. Cul-de-sacs shall extend no further than six hundred (600) feet as measured from the center of the last intersection or intermediate turnaround. This length may be exceeded with approval of the Fire Chief upon submittal of a Preliminary Plat.

b. If automatic sprinkler systems are used for fire protection, cul-de-sacs shall extend no further than one thousand five hundred (1,500) feet as measured from the center of the last intersection or intermediate turnaround. This length may be exceeded with approval of the Fire Chief on cul-de-sacs serving twenty-five (25) or fewer residential units.

c. Turnarounds shall be of either a circular or hammerhead configuration in accordance with the standards set forth in **Exhibit O**.

d. The right-of-way of a cul-de-sac shall have a minimum radius of forty-five (45) feet. The radius of the paved area of a turnaround shall be forty (40) feet. If the center of a circular

turnaround is left unpaved, the area shall be landscaped and the pavement width shall be a minimum of sixteen (16) feet.

e. Half streets (i.e., streets of less than the full right-of-way and pavement width) with a minimum pavement width of twenty four (24) feet to accommodate two-way traffic shall be allowed as an inte Unofficial Document

4. Street Intersections

a. Streets shall intersect as nearly as possible at right angles, and no more than two (2) streets may intersect at any one (1) point. Arterials shall have no more than five (5) degrees from ninety (90) degrees at intersections. Collectors and Local streets shall be allowed up to fifteen (15) degrees from ninety (90) degrees at intersections.

b. Where a centerline offset (jog) occurs at an intersection, the distance between centerlines of the intersecting streets shall be not less than one hundred fifty (150) feet.

c. Except when no other alternative is practicable or legally possible, no two (2) collector streets may intersect with any other collector street on the same side at a distance of less than three hundred (300) feet from centerline to centerline of the intersecting collector streets. When the intersected street is an arterial, the distance between intersecting collector streets shall be at least six hundred (600) feet.

5. Street Design Standards

Streets shall be designed and constructed in accordance with the roadway standards set forth in **Exhibit D**. Typical cross-sections depicting roadway standards are also set forth in **Exhibit D**.

6. Right-of-Way Landscaping

Landscaping shall be provided in all public rights-of-way in conjunction with development of adjacent parcels. All right-of-way and drainage areas not used for street or sidewalk improvements

shall be left in a natural state or improved with landscaping in accordance with **Section 3.03.H.**

7. Bridges

All bridges shall be designed by a registered professional engineer who is licensed tUnofficial Documente of Arizona in accordance with standard design criteria and approved by the Town Engineer.

8. Fire Hydrants

a. All development within the Property shall include a system of fire hydrants which are constructed according to M.A.G. standards.

b. The Fire Chief shall determine the precise location, number, and type of all hydrants depending on the location, building size, density and lot size of the subject development.

c. Water lines that serve hydrants shall be at least six (6) inches in diameter if looped or eight (8) inches in diameter for dead-end lines. Unless no other practicable alternative is available, dead-end lines shall be allowed; provided, however, the maximum length of dead-end lines shall be one thousand five hundred (1,500) feet, with fire hydrants spaced along the alignment. A water system analysis shall be prepared to show that the farthest fire hydrant from the looped main on a dead-end line meets the minimum fire flow requirements.

d. The maximum spacing for fire hydrants shall be five hundred (500) feet for detached residential land uses and three hundred (300) feet for attached residential, commercial/mixed-use, and resort land uses. If automatic sprinkler systems are used for fire protection, the maximum spacing for fire hydrants may be increased to one thousand (1,000) feet for detached residential land uses and seven hundred (700) feet for attached residential, commercial/mixed use, and resort land uses. Fire hydrants shall be located at maximum intervals of a quarter mile along unloaded traffic corridors.

9. Lighting Requirements

All lighting for streets, sidewalks, and other common areas or facilities in all public rights-of-way shall be in accordance with the lighting standards as provided in the CMP.

10. Non-Vehicular C Unofficial Document

Non-vehicular circulation improvements shall be in accordance with the Planning Unit Pedestrian and Trails Plan required in **Section 2.02.E**.

IV. LAND SUBDIVISION

4.01 GENERAL PROVISIONS

Land to be subdivided shall be of such character that it can be used for building purposes without danger to health or peril from fire, flood, or other menace, and land shall not be subdivided until available public facilities and improvements exist and proper provision has been made for drainage, water, wastewater, and public facilities as specified in the applicable Planning Unit Plans required to be submitted pursuant to **Section 2.02**.

Unofficial Document

4.02 STREET NAMING

The Developer shall have the authority to establish street names throughout the Property. The Developer shall indicate street names for public streets on all preliminary plats.

Street signs shall be placed at all street intersections by the Developer and shall be in place when street paving is completed.

4.03 LAND SPLITS

A. Purpose

Land splits are regulated for the purpose of ensuring each parcel of land within the Town has sufficient public access, provision for water and waste disposal, adequate parcel size and dimensions for the use intended, and availability of public services.

B. Requirements

The following requirements shall be met for any land split within the jurisdiction of the Town:

1. Parcel size and dimensions shall meet the requirements of the applicable Development Option.

2. Adequate access for ingress/egress shall be provided.

3. Adequate provision for utilities, including electric, water, and wastewater service shall be available and such availability shall be indicated on a survey submitted with a request for a land split.

C. Approval

A request for a land spUnofficial Document l by the Planning Director if the application meets all the requirements as stated in **Section 4.03.B**.

4.04 PRELIMINARY PLAT

A. Significance of Preliminary Plat Approval

Preliminary plat approval constitutes authorization to proceed with preparation of the final plat and the engineering plans and specifications for public improvements. Preliminary plat approval is based on the following terms:

1. The basic conditions under which approval of the preliminary plat is granted will not be substantially changed prior to the expiration date of the preliminary plat.

2. Approval is valid for a period of twelve (12) months from the date of Development Board approval to the date of submittal to the Town of a final plat. Six (6) month extensions of the preliminary plat approval may be granted by the Development Board upon receipt of a letter from the applicant prior to the expiration date indicating proper cause.

B. Required Information for Preliminary Plat

The information required as part of the preliminary plat submittal shall be shown graphically, by note on plans, or by written report, and may comprise several sheets showing various elements of required data. All mapped data for the same plat shall be drawn at the same standard engineering scale, said scale having not more than one hundred (100) feet to an inch. Whenever practical, scale shall be adjusted to produce an overall drawing measuring twenty-four (24) by thirty-six (36) inches.

1. Identification and Descriptive Data

   a. Proposed name of subdivision and its location by section, township, and range; reference by dimension and bearing to a section corner or quarter section corner.

   b. Name, ac[illegible] Unofficial Document [illegible]mber of applicant.

   c. Name, address, and phone number of person preparing plat.

   d. Scale, north point, and date of preparation, including dates of any subsequent revisions.

   e. A location map which shall show the relationship of the proposed subdivision to existing community facilities which serve or influence it, including main traffic arterials, public transportation lines, shopping areas, elementary and high schools, parks and playgrounds, and churches. This map may be on the preliminary plat if practicable, or if not, a separate map showing title, scale, north point, and site data.

   f. Identification of applicable Development Option.

2. Existing Conditions Data

   a. Topography by contours or spot elevations related to U.S.G.S. survey datum, or other datum approved by the Town Engineer, shown on the same map as the proposed subdivision layout. Contour intervals shall be such as to adequately reflect the character and drainage of the land.

   b. Location of water wells, streams, canals, irrigation laterals, private ditches, washes, lakes, or other water features; direction of flow; location and extent of areas subject to inundation, whether such inundation be frequent, periodic, or occasional.

   c. Location, widths, and names of all platted streets, railroads, utility right-of-way of public record, public areas, permanent structures to remain, including Town utilities and municipal corporation lines within or adjacent to the tract. Two (2) copies

of a preliminary title report showing the above shall be submitted.

d. Name, book, and page numbers of adjacent subdivisions, along with county assessor number of all adjacent parcels having a common boundary with the tract.

Unofficial Document

e. By note, the existing land use district classification of the subject and surrounding tracts.

f. By note, the acreage of the subject tract.

g. Boundaries of the tract to be subdivided shall be delineated and fully dimensioned.

h. By note, reference to the recorded Master Covenants, Conditions and Restrictions for Caterpillar.

3. Proposed Conditions Data

a. Street layout, including location, width of public and private streets, alleys, crosswalks, centerline geometry, and easements; connections to adjoining platted tracts.

b. Typical lot dimensions (scaled); dimensions of all corner lots and lots of curvilinear sections of streets; each lot numbered individually; total number of lots.

c. Locations, width, and use of easements.

d. Designation of all land to be dedicated or reserved for public use with use indicated.

e. Typical lot details showing proposed setbacks.

f. Proposed water, sewer and non-potable water pipelines with respective sizes; locations of valves and fire hydrants.

g. Any updates to completed Planning Unit Plans necessary as a result of changes affecting potable water, wastewater, drainage or street and circulation infrastructure.

4. Proposed Utility Methods

a. Statement as to the type of wastewater disposal facilities and effluent re-use facilities, in general conformance to the respective Planning Unit Wastewater Plan.

Unofficial Document

b. Statement as to the type of potable water facilities and the existence of a one hundred (100) year assured water supply as required by the Arizona Department of Water Resources, in general conformance with the respective Planning Unit Potable Water Plan.

c. Preliminary Drainage Report which includes hydrologic calculations, the layout of proposed drainage system and locations of retention/detention areas.

d. Statement as to the provision of other utilities being supplied to the plat area such as electric, phone, gas, and irrigation.

4.05 FINAL PLAT

A. General Requirements for Filing

1. The final plat shall substantially conform to the approved preliminary plat.

2. Land uses proposed shall be in conformance with the CMP.

3. Prior to the filing of the final plat, the subdivider shall obtain approval from the applicable utility interests for easement location and width as required for utility purposes.

B. Required Information for Final Plat

The final plat shall be drawn with India ink on linen or mylar having a left-hand margin of two (2) inches on a sheet size of twenty-four (24) by thirty-six (36) inches. If more than two (2) sheets are required for the drafting of the final plat, an index sheet shall be filed showing the entire subdivision on one sheet and the portion thereof contained on the other sheets. Copies of the final plat shall be reproduced in the form of blue or black line prints on a

white background. The final plat shall be drawn to a scale not to exceed one (1) inch equals one hundred (100) feet from an accurate survey.

1. Identification Data Required

   a. A title which includes the name of the subdivision and its location by Unofficial Document , township, range, and county.

   b. Name, address, and registration number of seal of the registered civil engineer or registered land surveyor preparing the plat.

   c. Scale, north arrow, and date of plat preparation.

   d. A legal description of the property to be subdivided shall be shown on the cover sheet.

2. Survey Data Required

   a. Boundaries of the tract to be subdivided fully balanced and closed, showing all bearing and distances, determined by an accurate survey in the field. All dimensions shall be expressed in feet and decimals thereof.

   b. Any excepted parcel(s) within the plat boundaries shall show all bearings and distances, determined by an accurate survey in the field. All dimensions shall be expressed in feet and decimals thereof.

   c. Location and description of cardinal points to which all dimensions, angles, bearings, and similar data on the plat shall be referenced; each of two (2) corners of the subdivision traverse shall be tied by separate course and distance to separate section corner or quarter section corners.

   d. Location of all physical encroachments upon the boundaries of the tract.

3. Descriptive Data Required

a. Name, right-of-way lines, courses, lengths, width of all public streets, crosswalks, and utility easements; radii, points of tangency and central angles of all curvilinear streets; radii of all rounded street line intersections.

Unofficial Document

b. All drainage ways shall be shown on the plat. The rights-of-way of all major drainage ways, as designated by the Town Engineer, shall be dedicated to the public.

c. All easements for rights-of-way provided for public services or utilities and any limitations of the easements. Construction within the easement shall be limited to utilities, and wood, wire, or removable type fencing.

d. Location and dimensions of all lots.

e. All lots shall be numbered by consecutive numbers through the plat. "Exceptions," "tracts", and "private parks" shall be so designated, lettered or named, and clearly dimensioned.

f. Location, dimensions, bearing, radii, arcs, and central angles of all sites to be dedicated to the public with the use clearly indicated.

g. Location of all adjoining subdivisions with date, book, and page number of recordation noted, or if unrecorded or unsubdivided, so marked.

h. The recorded Master Covenants, Conditions and Restrictions for Caterpillar shall be referenced on the final plat.

4. Dedication and Acknowledgment

a. Dedication: Statement of dedication of all streets, crosswalks, drainage ways, pedestrian ways, and other easements for public use by the person holding title of record, by persons holding titles as vendees under land contract, by spouse of said parties, lienholder and all other parties having an interest in the property. If lands dedicated are mortgaged, the

mortgagee shall also sign the plat. Dedication shall include a written location by section, township, and range of the tract.

b. Acknowledgment of Dedication: Execution of dedication acknowledged and certified by a notary public.

5. Required Certifi[c] Unofficial Document

a. Certification by the registered civil engineer or registered land surveyor making the final plat that the final plat is correct and accurate and that the monuments described in it have either been set or located as described. The certification shall be accompanied by the signature and seal of such civil engineer or surveyor.

b. Certification by the Planning Director that all lots shown upon the plat conform to the CMP and are suitable for the purpose for which they are subdivided.

c. Certification by the Town Engineer that all engineering conditions and requirements of the CMP have been complied with.

d. Certification by the Town Clerk of the date the final plat was approved by the Town Council.

e. Certification of recordation by the Maricopa County Recorder.

4.06 SUBDIVISION DESIGN

All subdivisions within the Property shall meet or exceed the minimum development standards set forth in the CMP.

4.07 ENGINEERING AND CONSTRUCTION PLANS

It shall be the responsibility of the subdivider to have prepared by registered professional engineer who is licensed to practice in the State of Arizona, a complete set of engineering plans and a Final Drainage Report in accordance with all applicable Town codes and the CMP, for the construction of all required subdivision

improvements. Such plans and Final Drainage Report shall be in conformance with the approved preliminary plat and Preliminary Drainage Report.

The Town Engineer shall approve the engineering plans and Final Drainage Report unless they fail to conform with one or more requirements of the CMP, or the plans differ substantially from the approved preliminary plat and Preliminary Drainage Report.

Unofficial Document

4.08 RESPONSIBILITY FOR PUBLIC IMPROVEMENTS

A. Financial Guarantee

The Town Council shall require the subdivider to guarantee that all required improvements will be completed in a manner satisfactory to the Town using either of the following methods:

1. A performance bond, an irrevocable letter of credit, assurance of construction of subdivision improvements, funds in a restricted escrow account, or other financial guarantee approved by the Town Attorney prior to the recordation of the final plat.

    a. The financial guarantee shall be one hundred (100) percent of the cost of the labor and materials necessary to complete the required subdivision improvements based upon a construction cost estimate prepared by a registered professional engineer who is licensed to practice in the State of Arizona.

    b. The period within which required improvements must be completed shall be specified and shall not exceed two (2) years from the date of final approval.

2. As an alternative procedure, the Town Council may approve a Final Plat and the Planning Director may record the Final Plat but withhold the issuance of a Certificate of Occupancy until such time that all required subdivision improvements have been completed.

B. Inspection of Improvements

Prior to the approval of the required improvements by the Town Engineer, an engineer retained by the applicant shall certify to the Town that all facilities and improvements to be dedicated to the Town have been constructed in

accordance with the requirements of the CMP and applicable provisions of the Development Code. The Town Engineer shall also inspect all required improvements and certify that they comply with all specifications as set forth in the approved improvement plans. Any inspection expenses incurred by the Town shall be reimbursed by the applicant.

Unofficial Document

V. PROJECT GOVERNANCE

5.01 PROJECT GOVERNANCE

Unofficial Document

The purpose of the Caterpillar project governance structure is to insure that there is a workable, thorough, and enforceable mechanism in place which implements the vision of excellence for Caterpillar. The internal governance and regulatory system must combine a sense of stewardship with workable enforcement techniques. The governance structure must work under the period of control by the Developer and after the Developer passes the powers of governance to property owners within Caterpillar. The Caterpillar CMP creates a framework to allow additional planning throughout the development of the Property. This flexibility, however, requires assurances to the broader community that fundamental goals and concepts developed for Caterpillar will be met. Project governance is a way to provide such assurance.

In addition to the Caterpillar CMP and applicable Town codes, rules, guidelines, and official policies controlling permitted uses of the Property, it is important for orderly development of the Property to establish a cohesive concept and enforceable structure for project governance. In this context, project governance contemplates three elements:

A. Governance Entities

The creation of appropriate entities empowered with creation and administration of private governance processes, empowered by recorded covenants, conditions and restrictions (the "CC&Rs) which bind all present and future owners within Caterpillar and provide for the perpetual support and maintenance of the Caterpillar governance entities and processes. A conceptual outline of the CC&R's for Caterpillar is set forth in **Exhibit P**.

B. Design Standards

Enforceable architectural and landscape design standards shall be applicable to all development within the Property. Although intended to be created on a phased basis throughout the years of development of the Property, the general elements to be addressed in design review guidelines developed for Caterpillar are set forth in **Exhibit Q**.

C. Common Area Management

Creation of a conceptual framework for ownership and management by various respective private governance entities of the broad matrix of location and character of common areas throughout the Property, including provisions for public access.

PARCEL DESCRIPTION

Unofficial Document

PARCEL NO. 1:

The South half of Section 20, Township 2 North, Range 2 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 3:

Lots 1, 2, 3 and 4, the East half of the West half, and the East half of Section 7, Township 2 North, Range 2 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 4:

That portion of Section 19, Township 2 North, Range 2 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, more particularly described as follows:

PARCEL DESCRIPTION

BEGINNING at the Southwest corner of said Section 19, said point being a G.L.O. brass ca Unofficial Document 1 degrees 16 minutes 12 seconds East along the West line of said Section 19, a distance of 12.38 feet from the Southeast corner of Section 24, Township 2 North, Range 3 West;

THENCE North 00 degrees 05 minutes 12 seconds West, continuing along said West line, a distance of 1662.38 feet;

THENCE North 89 degrees 34 minutes 51 seconds East, a distance of 1787.58 feet;

THENCE North 49 degrees 16 minutes 47 seconds East, a distance of 1245.15 feet;

THENCE South 40 degrees 43 minutes 13 seconds East, a distance of 2304.31 feet to a point of curvature of a tangent curve concave to the West;

THENCE Southerly along the arc of said curve to the right, having a radius of 1000.00 feet, a central angle of 40 degrees 17 minutes 40 seconds, and an arc length of 703.27 feet to a point of tangency;

THENCE South 00 degrees 25 minutes 33 seconds East, a distance of 63.42 feet to a point on the South line of the Southeast quarter of said Section 19;

THENCE South 89 degrees 34 minutes 27 seconds West along said South line, a distance of 1832.76 feet to the South quarter corner of said Section 19;

THENCE South 89 degrees 34 minutes 51 seconds West along the South line of the Southwest quarter of said Section 19, a distance of 2641.88 feet to the TRUE POINT OF BEGINNING;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of

PARCEL DESCRIPTION

Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved [illegible] and recorded June 30, 1978 in Docket 15005, page 205.

Unofficial Document

PARCEL NO. 5:

That portion of Section 19, Township 2 North, Range 2 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, described as follows:

COMMENCING at the Northwest corner of said Section 19, said point being a 1/2 inch ACP stamped LS 19324;

THENCE South 00 degrees 08 minutes 44 seconds East along the East line of Section 24, Township 2 North, Range 3 West, a distance of 856.96 feet to the TRUE POINT OF BEGINNING, said point being on the arc of a non-tangent curve concave to the Northwest, a radial line of said curve through said point having a bearing of South 22 degrees 42 minutes 19 seconds East;

THENCE Northeasterly along the arc of said curve to the left, having a radius of 1500.00 feet, a central angle of 03 degrees 02 minutes 28 seconds, and an arc length of 79.62 feet to a point of tangency;

THENCE North 64 degrees 15 minutes 13 seconds East, a distance of 1571.18 feet to a point of curvature of a tangent curve concave to the South;

THENCE Easterly along the arc of said curve to the right, having a radius of 1500.00 feet, a central angle of 25 degrees 33 minutes 20 seconds, and an arc length of 669.05 feet to a point on the North line of said Section 19;

THENCE North 89 degrees 48 minutes 33 seconds East along said North line, a distance of 150.00 feet;

PARCEL DESCRIPTION

THENCE South 04 degrees 07 minutes 50 seconds West, a distance of 1265.21 feet to a point of curvature of a tangent curve concave to the East;

Unofficial Document

THENCE Southerly along the arc of said curve to the left, having a radius of 2000.00 feet, a central angle of 44 degrees 51 minutes 03 seconds, and an arc length of 1565.59 feet to a point of tangency;

THENCE South 40 degrees 43 minutes 13 seconds East, a distance of 100.00 feet;

THENCE South 49 degrees 16 minutes 47 seconds West, a distance of 1245.15 feet;

THENCE South 89 degrees 34 minutes 51 seconds West, a distance of 1787.47 feet to a point on the West line of the Southwest quarter of said Section 19;

THENCE North 00 degrees 05 minutes 12 seconds West along said West line, a distance of 969.93 feet to the West quarter corner of said Section 19;

THENCE North 00 degrees 56 minutes 58 seconds West along said West line, a distance of 19.93 feet to the East quarter corner of Section 24, Township 2 North, Range 2 West;

THENCE North 00 degrees 08 minutes 44 seconds West along the East line of said Section 24, a distance of 1757.45 feet to the TRUE POINT OF BEGINNING;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL DESCRIPTION

PARCEL NO. 6:

Sections 18 and 19, Township 2 North, Range 2 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona;

Unofficial Document

EXCEPT that portion of said Section 19 described as follows:

BEGINNING at the Southwest corner of said Section 19, said point being a G.L.O. brass cap which bears South 01 degrees 16 minutes 12 seconds East along the West line of said Section 19, a distance of 12.38 feet from the Southeast corner of Section 24, Township 2 North, Range 3 West;

THENCE North 00 degrees 05 minutes 12 seconds West, continuing along said West line, a distance of 1662.38 feet;

THENCE North 89 degrees 34 minutes 51 seconds East, a distance of 1787.58 feet;

THENCE North 49 degrees 16 minutes 47 seconds East, a distance of 1245.15 feet;

THENCE South 40 degrees 43 minutes 13 seconds East, a distance of 2304.31 feet to a point of curvature of a tangent curve concave to the West;

THENCE Southerly along the arc of said curve to the right, having a radius of 1000.00 feet, a central angle of 40 degrees 17 minutes 40 seconds, and an arc length of 703.27 feet to a point of tangency;

THENCE South 00 degrees 25 minutes 33 seconds East, a distance of 63.42 feet to a point on the South line of the Southeast quarter of said Section 19;

THENCE South 89 degrees 34 minutes 27 seconds West along said South line, a distance of 1832.76 feet to the South quarter corner of said Section 19;

PARCEL DESCRIPTION

THENCE South 89 degrees 34 minutes 51 seconds West along the South line of the Southwest quarter of said Section 19, a distance of 2641.88 feet to tl[illegible] TRUE POINT OF BEGINNING; and

Unofficial Document

EXCEPT that portion of said Section 19 described as follows:

COMMENCING at the Northwest corner of said Section 19, said point being a 1/2 inch ACP stamped LS 19324;

THENCE South 00 degrees 08 minutes 44 seconds East along the East line of Section 24, Township 2 North, Range 3 West, a distance of 856.96 feet to the TRUE POINT OF BEGINNING, said point being on the arc of a non-tangent curve concave to the Northwest, a radial line of said curve through said point having a bearing of South 22 degrees 42 minutes 19 seconds East;

THENCE Northeasterly along the arc of said curve to the left, having a radius of 1500.00 feet, a central angle of 03 degrees 02 minutes 28 seconds, and an arc length of 79.62 feet to a point of tangency;

THENCE North 64 degrees 15 minutes 13 seconds East, a distance of 1571.18 feet to a point of curvature of a tangent curve concave to the South;

THENCE Easterly along the arc of said curve to the right, having a radius of 1500.00 feet, a central angle of 25 degrees 33 minutes 20 seconds, and an arc length of 669.05 feet to a point on the North line of said Section 19;

THENCE North 89 degrees 48 minutes 33 seconds East along said North line, a distance of 150.00 feet;

THENCE South 04 degrees 07 minutes 50 seconds West, a distance of 1265.21 feet to a point of curvature of a tangent curve concave to the East;

THENCE Southerly along the arc of said curve to the left, having a radius of 2000.00 feet, a central angle of 44

degrees 51 minutes 03 seconds, and an arc length of 1565.59 feet to a point of tangency;

Unofficial Document

THENCE South 40 degrees 45 minutes 15 seconds East, a distance of 100.00 feet;

THENCE South 49 degrees 16 minutes 47 seconds West, a distance of 1245.15 feet;

THENCE South 89 degrees 34 minutes 51 seconds West, a distance of 1787.47 feet to a point on the West line of the Southwest quarter of said Section 19;

THENCE North 00 degrees 05 minutes 12 seconds West along said West line, a distance of 969.93 feet to the West quarter corner of said Section 19;

THENCE North 00 degrees 56 minutes 58 seconds West along said West line, a distance of 19.93 feet to the East quarter corner of Section 24, Township 2 North, Range 2 West;

THENCE North 00 degrees 08 minutes 44 seconds West along the East line of said Section 24, a distance of 1757.45 feet to the TRUE POINT OF BEGINNING;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 7:

That portion of Sections 30 and 31, Township 2 North, Range 2 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, more particularly described as follows:

PARCEL DESCRIPTION

BEGINNING at the Southwest corner of said Section 30, said point being a G.L.O. brass cap;

Unofficial Document

THENCE North 03 degrees 46 minutes 34 seconds East, a distance of 1315.07 feet;

THENCE South 86 degrees 13 minutes 26 seconds East, a distance of 334.04 feet to a point of curvature of a tangent curve concave to the North;

THENCE Easterly along the arc of said curve to the left, having a radius of 1500.00 feet, a central angle of 23 degrees 46 minutes 34 seconds, and an arc length of 622.46 feet to a point of tangency;

THENCE North 70 degrees 00 minutes 00 seconds East, a distance of 1795.40 feet;

THENCE South 20 degrees 00 minutes 00 seconds East, a distance of 42.78 feet to a point of curvature of a tangent curve concave to the West;

THENCE Southerly along the arc of said curve to the right, having a radius of 1000.00 feet, a central angle of 19 degrees 47 minutes 00 seconds, and an arc length of 345.28 feet to a point of tangency;

THENCE South 00 degrees 13 minutes 00 seconds East, a distance of 1584.28 feet to a point on the South line of said Section 30;

THENCE continuing South 00 degrees 13 minutes 00 seconds East, a distance of 776.75 feet;

THENCE South 78 degrees 35 minutes 03 seconds West, a distance of 2856.28 feet to a point on the West line of the Northwest quarter corner of said Section 31;

THENCE North 00 degrees 07 minutes 44 seconds West along said West line, a distance of 1313.31 feet to the Northwest corner

of said Section 31, said point also being the point of beginning;

Unofficial Document

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 8:

That portion of Sections 30 and 31, Township 2 North, Range 2 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, more particularly described as follows:

BEGINNING at the Southeast corner of said Section 30, said point being a 3-1/2 inch aluminum cap;

THENCE South 00 degrees 13 minutes 21 seconds East along the East line of said Section 31, a distance of 300.00 feet;

THENCE South 78 degrees 35 minutes 03 seconds West, a distance of 2537.96 feet;

THENCE North 00 degrees 13 minutes 00 seconds West, a distance of 776.75 feet to a point on the North line of said Section 31;

THENCE continuing North 00 degrees 13 minutes 00 seconds West, a distance of 1584.28 feet to a point of curvature of a tangent curve concave to the West;

THENCE Northerly along the arc of said curve to the left, having a radius of 1000.00 feet, a central angle of 19 degrees 47 minutes 00 seconds, and an arc length of 345.28 feet to a point of tangency;

PARCEL DESCRIPTION

THENCE North 20 degrees 00 minutes 00 seconds West, a distance of 42.78 feet;

Unofficial Document

THENCE North 70 degrees 00 minutes 00 seconds East, a distance of 1728.96 feet to a point of curvature of a tangent curve concave to the South;

THENCE Easterly along the arc of said curve to the right, having a radius of 1500.00 feet, a central angle of 19 degrees 28 minutes 58 seconds, and an arc length of 510.06 feet to a point of tangency;

THENCE North 89 degrees 28 minutes 58 seconds East, a distance of 441.06 feet to the East quarter corner of said Section 30;

THENCE South 00 degrees 06 minutes 50 seconds East along the East line of said Section 30, a distance of 2622.84 feet to the point of beginning;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 9:

A parcel of land lying within Section 31, Township 2 North, Range 2 East, of the Gila and Salt River Meridian, Maricopa County, Arizona, more particularly described as follows:

COMMENCING at the southeast corner of said Section 31, said point being the POINT OF BEGINNING of the herein described parcel;

THENCE along the south line of said Section 31, South 89 degrees 57 minutes 41 seconds West, a distance of 2487.65 feet, to the northwest corner of Section 6, Township 1 North, Range 2 West, said point also being the northeast corner of

PARCEL DESCRIPTION

Section 1, Township 1 North, Range 3 West;

THENCE leaving said south line, North 00 degrees 14 minutes 20 seconds West, a distance of 4485.83 feet;

Unofficial Document

THENCE North 78 degrees 35 minutes 03 seconds East, a distance of 2537.96 feet, to a point on the east line of said Section 31;

THENCE along said east line, South 00 degrees 13 minutes 21 seconds East, a distance of 2345.41 feet, to the east quarter corner of said Section 31;

THENCE continuing along said east line, South 00 degrees 12 minutes 22 seconds East, a distance of 2641.08 feet, to the POINT OF BEGINNING.

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 10:

A parcel of land lying within Section 31, Township 2 North, Range 2 East, of the Gila and Salt River Meridian, Maricopa County, Arizona, more particularly described as follows:

COMMENCING at the northwest corner of said Section 31;

THENCE along the west line of said Section 31, South 00 degrees 07 minutes 44 seconds East, a distance of 1313.31 feet, to the POINT OF BEGINNING;

THENCE leaving said west line, North 78 degrees 35 minutes 03 seconds East, a distance of 2856.28 feet;

THENCE South 00 degrees 14 minutes 20 seconds East, a distance of 4485.83 feet, to a point on the south line of said Section 31, said point also being the northeast corner of Section 1, Township 1 North, Range 3 West, and the northwest corner of Section 6, Township 1 North, Range 2 West;

PARCEL DESCRIPTION

THENCE along the south line of said Section 31, South 89 degrees 16 minutes 01 seconds West, a distance of 2634.48 feet, to the north quarter of said Section 1;

Unofficial Document

THENCE continuing along said south line, South 89 degrees 35 minutes 34 seconds West, a distance of 174.95 feet, to the southwest corner of said Section 31;

THENCE along the west line of said Section 31, North 00 degrees 08 minutes 13 seconds West, a distance of 2642.08 feet, to the west quarter corner of said Section 31;

THENCE continuing along said west line, North 00 degrees 07 minutes 44 seconds West, a distance of 1313.32 feet, to the POINT OF BEGINNING.

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 11:

That portion of Section 30, Township 2 North, Range 2 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, more particularly described as follows:

BEGINNING at the Northeast corner of said Section 30, said point being a 3-1/4 inch aluminum cap;

THENCE South 00 degrees 06 minutes 35 seconds East along said East line of said Section 30, a distance of 2622.91 feet to the East quarter corner of said Section 30;

THENCE South 89 degrees 25 minutes 58 seconds West, a distance of 441.06 feet to a point of curvature of a tangent curve concave to the South;

THENCE Westerly along the arc of said curve to the left, having a radius of 1500.00 feet, a central angle of 19

degrees 28 minutes 58 seconds, and an arc length of 510.06 feet to a point of tangency;

Unofficial Document

THENCE South 70 degrees 00 minutes 00 seconds West, a distance of 1728.96 feet;

THENCE North 20 degrees 00 minutes 00 seconds West, a distance of 50.00 feet to a point of curvature of a tangent curve concave to the East;

THENCE Northerly along the arc of said curve to the right, having a radius of 1000.00 feet, a central angle of 19 degrees 54 minutes 00 seconds, and an arc length of 347.32 feet to a point of tangency;

THENCE North 00 degrees 06 minutes 00 seconds West, a distance of 2901.73 feet to the North line of said Section 30;

THENCE North 89 degrees 34 minutes 27 seconds East along said North line of said Section 30, a distance of 2642.76 feet to the Northeast corner of said Section 30, said point also being the point of beginning;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 12:

That portion of Section 30, Township 2 North, Range 2 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, more particularly described as follows:

BEGINNING at the Northwest corner of said Section 30, said point being a G.L.O. brass cap;

PARCEL DESCRIPTION

THENCE North 89 degrees 34 minutes 51 seconds East, a distance of 2641.88 feet along the North line of said Section 30;

Unofficial Document

THENCE South 00 degrees 06 minutes 00 seconds East, a distance of 2901.73 feet to a point of curvature of a tangent curve concave to the East;

THENCE Southerly along the arc of said curve to the left, having a radius of 1000.00 feet, a central angle of 19 degrees 54 minutes 00 seconds, and an arc length of 347.32 feet to a point of tangency;

THENCE South 20 degrees 00 minutes 00 seconds East, a distance of 50.00 feet;

THENCE South 70 degrees 00 minutes 00 seconds West, a distance of 1795.40 feet to a point of curvature of a tangent curve concave to the North;

THENCE Westerly along the arc of said curve to the right, having a radius of 1500.00 feet, a central angle of 23 degrees 46 minutes 34 seconds, and an arc length of 622.46 feet to a point of tangency;

THENCE North 86 degrees 13 minutes 26 seconds West, a distance of 334.04 feet to a point on the arc of a non-tangent curve concave to the East, a radial line of said curve through said point having a bearing of North 86 degrees 13 minutes 26 seconds West;

THENCE Northerly along the arc of said curve to the right, having a radius of 1500.00 feet, a central angle of 14 degrees 13 minutes 14 seconds, and an arc length of 372.29 feet to a point of tangency;

THENCE North 17 degrees 59 minutes 48 seconds East, a distance of 835.53 feet to a point of curvature of a tangent curve concave to the West;

PARCEL DESCRIPTION

THENCE Northerly along the arc of said curve to the left, having a radius of 1500.00 feet, a central angle of 37 degrees 50 minutes 47 seconds, and an arc length of 990.81 feet to a point of tangency;

Unofficial Document

THENCE North 19 degrees 50 minutes 58 seconds West, a distance of 794.67 feet to a point of curvature of a tangent curve concave to the East;

THENCE Northerly along the arc of said curve to the right, having a radius of 1500.00 feet, a central angle of 15 degrees 36 minutes 40 seconds, and an arc length of 408.70 feet to a point of tangency;

THENCE North 04 degrees 14 minutes 18 seconds West, a distance of 672.77 feet to the point of beginning;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 13:

That portion of Section 25, Township 2 North, Range 3 West and Section 30, Township 2 North, Range 2 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, described as follows:

BEGINNING at the Southeast corner of said Section 25, said point being a G.L.O. brass cap;

THENCE North 89 degrees 52 minutes 15 seconds West along the South line of said Section 25, a distance of 2635.19 feet to the South quarter corner of said Section 25;

THENCE North 89 degrees 41 minutes 17 seconds West along said

South line, a distance of 2641.10 feet to the Southwest corner of said Section 30;

Unofficial Document

THENCE North 00 degrees 04 minutes 18 seconds West along the West line of said Section 25, a distance of 1000.00 feet;

THENCE North 75 degrees 41 minutes 52 seconds East, a distance of 5874.45 feet;

THENCE South 17 degrees 59 minutes 48 seconds West, a distance of 835.53 feet to a point of curvature of a tangent curve concave to the East;

THENCE Southerly along the arc of said curve to the left, having a radius of 1500.00 feet, a central angle of 14 degrees 13 minutes 14 seconds, and an arc length of 372.29 feet to a point of tangency;

THENCE South 03 degrees 46 minutes 34 seconds West, a distance of 1315.07 feet to the Southeast corner of Section 25, said point also being the point of beginning;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 14:

That portion of Sections 23 and 24, Township 2 North, Range 3 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, more particularly described as follows:

BEGINNING at the Southwest corner of said Section 23, said point being a G.L.O. brass cap;
THENCE North 00 degrees 05 minutes 59 seconds West along the West line of said Section 23, a distance of 600.00 feet;

PARCEL DESCRIPTION

THENCE North 67 degrees 14 minutes 01 seconds East, a distance of 5728.70 feet to a point on the East line of the Southeast quarter of said Section 25;

Unofficial Document

THENCE continuing North 67 degrees 14 minutes 01 seconds East, a distance of 1068.51 feet to a point on the arc of a non-tangent curve concave to the Northeast, a radial line of said curve through said point having a bearing of South 75 degrees 26 minutes 44 seconds West;

THENCE Southeasterly along the arc of said curve to the left, having a radius of 4400.00 feet, a central angle of 31 degrees 16 minutes 47 seconds, and an arc length of 2402.11 feet to a non-tangent line, a radial line of said curve through said point having a bearing of South 44 degrees 09 minutes 57 seconds West;

THENCE South 44 degrees 09 minutes 57 seconds West, a distance of 1689.79 feet to a point on the South line of the Southwest quarter corner of said Section 24;

THENCE North 89 degrees 44 minutes 36 seconds West along said South line of said Section 24, a distance of 1000.00 feet to the Southwest corner of said Section 24;

THENCE North 89 degrees 42 minutes 50 seconds West along the South line of said Section 23, a distance of 2641.62 feet to the South quarter corner of said Section 23;

THENCE North 89 degrees 40 minutes 59 seconds West along the South line of said Section 23, a distance of 2640.87 feet to the Southwest corner of said Section 23, said point also being the point of beginning;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential

PARCEL DESCRIPTION

to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13002, page 205.

Unofficial Document

PARCEL NO. 15:

That portion of Section 23, Township 2 North, Range 3 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, more particularly described as follows:

BEGINNING at the Northwest corner of said Section 23, said point being a G.L.O. brass cap;

THENCE South 89 degrees 47 minutes 21 seconds East along the North line of said Section 23, a distance of 1857.42 feet;

THENCE South 53 degrees 00 minutes 55 seconds East, a distance of 2857.55 feet;

THENCE South 00 degrees 01 minutes 18 seconds East, a distance of 1216.34 feet;

THENCE South 67 degrees 14 minutes 01 seconds West, a distance of 4481.73 feet to a point on the West line of the Southeast quarter corner of Section 23;

THENCE North 00 degrees 05 minutes 59 seconds West along said West line, a distance of 2043.82 feet to the West quarter corner of said Section 23;

THENCE North 00 degrees 05 minutes 41 seconds West along said West line, a distance of 2632.79 feet to the Northwest corner of Section 23, said point also being the point of beginning;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of

PARCEL DESCRIPTION

commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

Unofficial Document

PARCEL NO. 16:

That portion of Sections 23 and 24, Township 2 North, Range 3 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, more particularly described as follows:

BEGINNING at the Northwest corner of said Section 24, said point bearing South 00 degrees 01 minutes 18 seconds East, a distance of 6.60 feet from a G.L.O. brass cap witness corner;

THENCE South 89 degrees 44 minutes 26 seconds East along the North line of said Section 24, a distance of 810.49 feet;

THENCE South 02 degrees 00 minutes 00 seconds East, a distance of 1065.56 feet to a point of curvature of a tangent curve concave to the East;

THENCE Southerly along the arc of said curve to the left, having a radius of 4400.00 feet, a central angle of 12 degrees 33 minutes 16 seconds, and an arc length of 964.11 feet to a non-tangent line, a radial line of said curve through said point having a bearing of South 75 degrees 26 minutes 44 seconds West;

THENCE South 67 degrees 14 minutes 01 seconds West, a distance of 1068.51 feet to a point on the West line of the Southwest quarter corner of said Section 24;

THENCE continuing South 67 degrees 14 minutes 01 seconds West, a distance of 1246.97 feet;

THENCE North 00 degrees 01 minutes 18 seconds West, a distance of 1216.34 feet;

THENCE North 53 degrees 00 minutes 55 seconds West, a distance of 2857.55 feet to a point on the North line of the

PARCEL DESCRIPTION

Northwest corner of said Section 23;

THENCE South 89 degrees 47 minutes 21 seconds East, a distance of 788.00 feet to the North quarter corner of said Section 23:

Unofficial Document

THENCE South 89 degrees 39 minutes 30 seconds East along the North line of said Section 23, a distance of 2644.01 feet to the Northeast corner of Section 23, said point also being the point of beginning;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 17:

That portion of Section 24, Township 2 North, Range 3 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, lying Northerly of the following described property:

BEGINNING at the Southeast corner of said Section 24, said point being a G.L.O. brass cap;

THENCE South 01 degrees 16 minutes 12 seconds West, a distance of 12.38 feet to a point on the arc of a non-tangent curve concave to the North, a radial line of said curve through said point having a bearing of South 00 degrees 25 minutes 09 seconds East;

THENCE Westerly along the arc of said curve to the right, having a radius of 4400.00 feet, a central angle of 05 degrees 01 minutes 39 seconds, and an arc length of 386.07 feet to a point on the South line of said Section 24;

PARCEL DESCRIPTION

THENCE continuing Northwesterly along the arc of said curve to the right, having a radius 4400.00 feet, a central angle of 70 degrees 50 minu[boilerplate: Unofficial Document] arc length of 5439.92 feet to a non-tangent line, a radial line of said curve through said point having a bearing of South 75 degrees 26 minutes 44 seconds West;

THENCE North 75 degrees 23 minutes 57 seconds East, a distance of 4425.12 feet to a point on the East line of the Northeast quarter of said Section 24;

THENCE South 00 degrees 08 minutes 44 seconds East along said East line, a distance of 1757.45 feet to the East quarter corner of said Section 24, which bears North 00 degrees 56 minutes 58 seconds West along the East line of the Southeast quarter of said Section 24, a distance of 19.93 feet from the West quarter corner of Section 19, Township 2 North, Range 2 West;

THENCE South 00 degrees 05 minutes 59 seconds East along said East line, a distance of 2639.86 feet to the Southeast corner of said Section 24, said point also being the point of beginning;

EXCEPT the following described property:

BEGINNING at the Northwest corner of said Section 24, said point bearing South 00 degrees 01 minutes 18 seconds East, a distance of 6.60 feet from a G.L.O. brass cap witness corner;

THENCE South 89 degrees 44 minutes 26 seconds East along the North line of said Section 24, a distance of 810.49 feet;

THENCE South 02 degrees 00 minutes 00 seconds East, a distance of 1065.56 feet to a point of curvature of a tangent curve concave to the East;

THENCE Southerly along the arc of said curve to the left, having a radius of 4400.00 feet, a central angle of 12

PARCEL DESCRIPTION

degrees 33 minutes 16 seconds, and an arc length of 964.11 feet to a non-tangent line, a radial line of said curve through said point having a bearing of South 75 degrees 26 minutes 44 seconds West;

Unofficial Document

THENCE South 67 degrees 14 minutes 01 seconds West, a distance of 1068.51 feet to a point on the West line of the Southwest quarter corner of said Section 24;

THENCE continuing South 67 degrees 14 minutes 01 seconds West, a distance of 1246.97 feet;

THENCE North 00 degrees 01 minutes 18 seconds West, a distance of 1216.34 feet;

THENCE North 53 degrees 00 minutes 55 seconds West, a distance of 2857.55 feet to a point on the North line of the Northwest corner of said Section 23;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL DESCRIPTION

Revised June 14, 1999
June 7, 1999
WP #97678.03

PARCEL NO. 18:

That portion of Sections 24 and 25, Township 2 North, Range 3 West and Section 30, Township 2 North, Range 2 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, more particularly described as follows:

Unofficial Document

BEGINNING at the Northwest corner of said Section 30, said point being a G.L.O. brass cap;

THENCE South 04 degrees 14 minutes 18 seconds East, a distance of 672.77 feet to a point of curvature of a tangent curve to the East;

THENCE Southerly along the arc of said curve to the left, having a radius of 1500.00 feet, a central angle of 15 degrees 36 minutes 40 seconds, and an arc length of 408.70 feet to a point of tangency;

THENCE South 19 degrees 50 minutes 58 seconds East, a distance of 794.67 feet to a point of curvature of a tangent curve concave to the West;

THENCE Southerly along the arc of said curve to the right, having a radius of 1500.00 feet, a central angle of 37 degrees 50 minutes 47 seconds, and an arc length of 990.81 feet to a non-tangent line, a radial line of said curve through said point having a bearing of South 72 degrees 00 minutes 12 seconds East;

THENCE South 75 degrees 41 minutes 52 seconds West, a distance of 5874.45 feet to a point on the West line of the Southwest quarter corner of said Section 25;

THENCE North 00 degrees 04 minutes 18 seconds West along said West line, a distance of 1639.32 feet to the West quarter corner of said Section 25;

PARCEL DESCRIPTION

THENCE North 00 degrees 01 minutes 21 seconds West along said West line, a distance of 2637.50 feet to the Northwest corner of said Section 25;

Unofficial Document

THENCE South 89 degrees 44 minutes 36 seconds East along the North line of said Section 25, a distance of 1000.00 feet;

THENCE North 44 degrees 09 minutes 57 seconds East, a distance of 1689.79 feet to a point on the arc of a non-tangent curve concave to the Northeast, a radial line of said curve through said point having a bearing of South 44 degrees 09 minutes 57 seconds West;

THENCE Southeasterly along the arc of said curve to the left, having a radius of 4400.00 feet, a central angle of 39 degrees 33 minutes 28 seconds, and an arc length of 3037.82 feet to a point of curvature of a curve concave to the North, said point being a point on the South line of the Southeast quarter of said Section 24;

THENCE continuing Southeasterly along the arc of said curve to the left, having a radius of 4400.00 feet, a central angle of 05 degrees 01 minutes 39 seconds, and an arc length of 386.07 feet to the point of beginning;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, as reserved in the Patent to said land recorded June 30, 1978 in Docket 13003, page 205.

PARCEL NO. 19:

That portion of Sections 24 and 25, Township 2 North, Range 3 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, more particularly described as follows:

PARCEL DESCRIPTION

BEGINNING at the Southeast corner of said Section 24, said point being a G.L.O. brass cap;

THENCE South 01 degrees 16 minutes 12 seconds West, a distance of 12.38 feet to a p[illegible] n-tangent curve concave to the North, a radial line of said curve through said point having a bearing of South 00 degrees 25 minutes 09 seconds East;

Unofficial Document

THENCE Westerly along the arc of said curve to the right, having a radius of 4400.00 feet, a central angle of 05 degrees 01 minutes 39 seconds, and an arc length of 386.07 feet to a point on the South line of said Section 24;

THENCE continuing Northwesterly along the arc of said curve to the right, having a radius of 4400.00 feet, a central angle of 70 degrees 50 minutes 15 seconds, and an arc length of 5439.92 feet to a non-tangent line, a radial line of said curve through said point having a bearing of South 75 degrees 26 minutes 44 seconds West;

THENCE North 75 degrees 23 minutes 57 seconds East, a distance of 4425.12 feet to a point on the East line of the Northeast quarter of said Section 24;

THENCE South 00 degrees 08 minutes 44 seconds East along said East line, a distance of 1757.45 feet to the East quarter corner of said Section 24, which bears North 00 degrees 56 minutes 58 seconds West along the East line of the Southeast quarter of said Section 24, a distance of 19.93 feet from the West quarter corner of Section 19, Township 2 North, Range 2 West;

THENCE South 00 degrees 05 minutes 59 seconds East along said East line, a distance of 2639.86 feet to the Southeast corner of said Section 24, said point also being the point of beginning;

EXCEPTING THEREFROM all uranium, thorium, or any other material which is or may be determined by the laws of the State, the United States, or competent judicial decision of Federal or State of Arizona Court to be peculiarly essential

Unofficial Document

A parcel of land lying within Section 6, Township 1 North, Range 2 West, of the Gila and Salt River Meridian, Maricopa County, Arizona, more particularly described as follows:

COMMENCING at the northwest corner of said Section 6, said point also being the POINT OF BEGINNING of the herein described parcel;

THENCE along the north line of Section 6 per the Results of Survey as recorded in Book 499, page 48, Maricopa County Records, North 89 degrees 57 minutes 39 seconds East, a distance of 2437.60 feet to the northwest corner of Parcel No. 3 of a Quit-Claim Deed as recorded in Docket 10822, page 9, Maricopa County Records;

THENCE leaving said north line, along the westerly line of said Parcel No. 3, South 14 degrees 06 minutes 52 seconds East, a distance of 206.19 feet, to the southeast corner of said Parcel No. 3 and to a point on the east line of Section 6 per said Results of Survey;

THENCE leaving said westerly line, along said east line, South 00 degrees 04 minutes 51 seconds East, a distance of 491.44 feet, to a point on the northerly right-of-way line of Interstate 10 and the beginning of a non-tangent curve;

THENCE leaving said east line, along said right-of-way line, westerly along said curve, having a radius of 11602.57 feet, concave southerly, whose radius bears South 02 degrees 39 minutes 27 seconds East, through a central angle of 12 degrees 26 minutes 54 seconds, a distance of 2520.84 feet, to a point on the west line of Section 6 per said Results of Survey, and a point of intersection with a non-tangent line;

THENCE leaving said northerly right-of-way line, along said west line, North 00 degrees 09 minutes 05 seconds West, a distance of 1078.18 feet, to the POINT OF BEGINNING.

Containing 47.77 acres, or 2,080,805 square feet of land, more or less.

Subject to existing rights-of-way and easements.

Intersection sight distance, left (S1), ft.	240		240			295			395		[illegible]	500	650	
Intersection sight distance, right (S2), ft.	280		280			340			450		[illegible]	620	860	
Average Daily Traffic range	-		1,500 max.			1,500 - 5,000			5,000 - 15,000		15,000 [illegible]00	25,000 - 35,000	35,000 - 55,000	
Minimum Grade, %	0.25		0.25			0.25			0.25		[illegible]	0.40	0.40	
Maximum Grade, %	15 (*3)		15 (*3)			12			12		[illegible]	9	9	

Notes:
*1 Adequate left turn lanes may be required at intersections. Provide 3-lane sections in areas with many access points.
*2 Minimum width - may vary.
*3 May be exceeded with approval from the Town Engineer.
*4 If curve radii are at least 50% greater than the radii required by design speed, the tangent sections can be eliminated.
*5 Pedestrian pathways may meander into tracts or easements.
*6 Optional median
*7 Pedestrian pathways are not required on local residential streets if an alternate pedestrian transportation system is provided.
*8 A single 8-foot wide multi-use pathway may be used in lieu of two 6-foot wide pedestrian pathways.

a - Based on 1990 AASHTO Manual, Low Speed Urban Streets, p.188 (design speeds up to 40 mph).
b - Based on 1990 AASHTO Manual, High Speed Urban Highways, p. 153.
$R = V^2/15(e+f)$, where V = design speed, f = friction factor, e = -0.02 normal crown, e = 0.02 superelevated
c - Based on 1990 AASHTO Manual, stopping sight distance - wet pavements (average), p. 120.
$K = S^2/1329$ when S < L, where S = stopping sight distance, L = length of curve (for crest vertical curve determined by stopping sight distance)
$K = S^2/(400+3.5S)$ when S < L, where S = stopping sight distance, L = length of curve (for sag vertical curve determined by stopping sight distance)
d - Based on 1990 AASHTO Manual, minimum passing sight distance for design of two-lane highways, p. 133.

Town Fees

A. Plan Review Fees.*

Plan Review Fees shall be paid to the Town on a per sheet basis for construction plans for all residential and commercial development. The Plan Review Fee shall apply per sheet for all paving, water, sewer, improvement, storm drain, reclaimed water, striping, traffic signal, grading, drainage, landscape, irrigation, street light, and all other construction plans. Cover sheets, typical sections, quantity sheets, special details, and index maps shall be counted towards the plan review fee calculation. Plan sheets containing standard notes and details as approved by the Town shall not be counted towards the Plan Review Fee calculation.

Paving, water, sewer, and storm drain plans shall be submitted at a horizontal scale of one (1) inch equals twenty (20) feet and a vertical scale of one (1) inch equals two (2) feet. Grading, drainage, and striping plans shall be submitted at a horizontal scale of one (1) inch equals forty (40) feet. The plan review fee shall include the first and second reviews, and thereafter all reviews will be billed at $100 per hour if such reviews are required because of Developer's actions or failure to act, but shall not be billed at all if such reviews are required to address issues that could have been raised as part of the first or second reviews. The Plan Review Fees shall be due and payable upon submittal of the plans. For standard review times, the first review period shall be no more than twenty-five (25) business days; the second review period shall be no more than fifteen (15) business days, and the third review period shall be no more than ten (10) business days. For expedited review times, the first review period shall be no more than fifteen (15) business days; and the second and the third review periods shall each be no more than ten (10) business days for the second review and five (5) business days for the third review. Developer may elect a standard or expedited review time at the time of plan submittal.

Plan Review Fee: $200/sheet.
Expedited Review Fee: $350/sheet.

B. Report Review Fees.*

Report Review Fees shall be paid to the Town on a per report basis for master plans, studies, and drainage reports for all residential and commercial developments. The Report Review Fee shall apply per each report for all drainage, water, wastewater, street and circulation, and environmental design master plans, studies, and reports. The Report Review Fee shall include the first and second reviews. Additional reviews shall be conducted at $100 per hour if such reviews are required because of Developer's actions or failure to act, but shall not be billed at all if such reviews are required to address issues that could have been raised as part of the first or second reviews. The Report Review Fees shall be due and payable upon submittal of the report. For standard review times, the first review period for any report submitted shall be no more than twenty-five (25) business days; the second review period shall be no more than fifteen(15) business days, and the third review period shall be no more than ten (10) business

days. For expedited review times, the first review period for any report submitted shall be no more than fifteen (15) business days; and the second and the third review periods shall each be no more than ten (10) business days for the second review and five (5) business days for the third review. Developer may elect a standard or expedited review time at the time of report submittal.

Report Review Fee: $600/report.
Expedited Review Fee: $800/report.

C. Preliminary Plat Fees.*

Initial Submittal Fee: $500.
Additional Fee: $10 per lot or tract included in preliminary plat.

D. Final Plat Fees.*

Initial Submittal Fee: $1,000.
Additional Fee: $10 per lot or tract included in final plat.

E. Development Site Plan Fees (for residential and commercial plans).*

Initial Submittal Fee: $100
Additional Fee: $50/acre.

F. Planning Unit Plan Fees.

In addition to Plan Review Fees and Report Review Fees, Developer shall pay development application fees for each planning unit submittal as provided below:

Planning Unit	Fee
I	$ 1,632.86
II	$ 2,992.86
III	$ 7,222.86
IV	$12,412.86
V	$20,712.86
VI	$32,802.85
VII	$11,222.85

* The Plan Review, Report Review, Preliminary Plat, Final Plat, and Development Site Plan Review Fees shall equal the amounts set forth in this Exhibit C for a period of five (5) years from the effective date of this Agreement. Beginning on the date that is five (5) years after the effective date of this Agreement, the Plan Review and Report Review Fees shall be subject to an annual adjustment in an amount equal to the amount of the CPI increase (consumer price index for all urban customers, all cities-all items, 1982-1984), but such adjustment shall not take into account any adjustments for that period of time prior to the date that is five (5) years after the effective date of this Agreement.

Exhibit D

Development Fees

The development fees applicable to the Property are as follows:

Residential Development Fees*

	Large Estate, Estate, Very Low, Low, Low/Medium, and Medium Residential	High Platted and High Development Site Plan Residential
	(per dwelling unit)	(per dwelling unit)
Transportation	$2,200	$ 1580
Water System	$1,250	$ 900
Water Resource	$1,200	$ 860
Wastewater System	$1,100	$ 800
Recreation	$ 100	$ 75
Police, Fire, and EMS	$ 150	$ 150
Total	$6,000	$4,365

Commercial and Resort Development Fees*

	Commercial (per square foot)	Resort (per unit)
Transportation	$0.78	$ 1580
Water System	$0.30	$1,125
Water Resource	$0.32	$1,080
Wastewater System	$0.30	$1,035
Recreation	$0	$0
Police, Fire, and EMS	$0.15	$0
Total	$1.85	$4,820

* The Development Fees shall equal the amounts set forth in this Exhibit D for a period of ten (10) years from the effective date of this Agreement. Beginning on the date that is ten (10) years after the effective date of this Agreement, all Development Fees shall be subject to an annual adjustment in an amount equal to the amount of the CPI increase (consumer price index for all urban customers, all cities-all items, 1982-1984), but such adjustment shall not take into account any adjustments for that period of time prior to the date that is ten (10) years after the effective date of this Agreement.

Exhibit E

Development (Impact) Fee Ordinance

General Guidelines

A. The primary purpose of adopting a Development (Impact) Fee Ordinance ("Ordinance") is to establish a financing mechanism to fund necessary public services/infrastructure improvements (the "Services/Infrastructure") provided to developments, consistent with the provisions of A.R.S. § 9-463.05.

B. The Town of Buckeye ("Town") will assume responsibility for the ownership, operation and maintenance of all completed public infrastructure comprising Services/Infrastructure that are the subject of an Ordinance, subject to any agreements requesting the developer(s) or property owners' association(s) to maintain and operate any Services/Infrastructure for such period of time as determined by the parties.

C. The Town acknowledges that a developer may fund the construction of Services/Infrastructure with its own monies. So long as the construction complies with applicable Town standards, the developer shall be entitled to a credit, dollar-for-dollar, against applicable development (impact) fees. In the event Services/Infrastructure comprising all or any portion of the Services/Infrastructure that are the subject of an Ordinance is competitively bid in accordance with the requirements of Title 34, the developer may be entitled to reimbursement of the applicable components of the development (impact) fees assessed pursuant to such Ordinance. In addition, the Town agrees that it may be in the public's interest and convenience to assign the construction bidding process to the developer (with the Town's supervision), subject to the following conditions: (i) the plans, specifications and the bidding and contract documents prepared by the developer shall be approved by the Town Manager or his/her designee, (ii) the developer shall advertise (with the Town's supervision) for bids for the construction of public infrastructure in conformance with the standard procedures and requirements of the Town with respect to its public works projects and the competitive bidding requirements under Title 34, and (iii) contracts for construction of the Services/Infrastructure shall be awarded to the lowest responsible bidder pursuant to the requirements of Title 34 as determined by the Town Manager or his/her designee in consultation with the developer.

D. The Town acknowledges that some public infrastructure comprising Services/Infrastructure, and that is funded through the payment of development (impact) fees under an Ordinance, may also serve to benefit other surrounding developments. In that event, the Town shall consider subjecting the other benefited developments to the assessment of development (impact) fees under such Ordinance in order to allow these other developments to pay their fair share of the costs.

E. Development (impact) fees assessed under an Ordinance shall be determined with reference to equivalent dwelling units ("EDUs"), a number that represents the demand that a

particular land use type places on each category of Services/Infrastructure compared to the demand created by a standard density detached single family dwelling unit on each such category. The number will be represented as a ratio determined by dividing an indicator of the non-residential demand by an indicator of the standard density detached single-family dwelling unit demand.

F. Categories of Services/Infrastructure for which development (impact) fees may be assessed under an Ordinance are: major streets, bridges, and other transportation facilities; recreational facilities (including neighborhood, community and district parks and related facilities and equipment, aquatic facilities, neighborhood, community, adult, teen, and multi-generational centers, and pedestrian paths and trails); wastewater system; water system; water resources; and police/fire/EMS.

G. Prior to assessment of a development (impact) fee, the Town shall approve a written report ("Report"), which shall include all documentation that supports the assessment of a new or increased development (impact) fee. The Report shall be prepared by or at the direction of the Town Manager. The Report shall describe the extent of the Services/Infrastructure needed to serve the anticipated future development of the development(s) under consideration consistent with the Town's general plan. The Report shall specify needs for each category of Services/Infrastructure. The needs for each category of Services/Infrastructure shall be based on the same standard of service being required within the remainder of the Town. Only those categories of Services/Infrastructure identified herein shall be included in any Report or shall be subject to the assessment of a development (impact) fee. The Report shall estimate the total cost for Services/Infrastructure made necessary by new development including land acquisition, studies leading to design, construction, financing and administrative costs, but shall not include costs for ongoing operation and maintenance, nor for replacement to the extent that replacement facilities do not increase service capacity. The Report shall include offsets against the total cost of Services/Infrastructure from alternative funding sources that can be used, or are reasonably anticipated to be used, to assist in the provision of Services/Infrastructure identified in the Report. These offsets shall include, e.g., a reduction for the initial value of bonds that can be supported with available revenues from secondary property taxes, Arizona Highway User Revenues, solid waste fees, sewer rate revenues, and water rate revenues.

H. Net costs for the Services/Infrastructure shall be calculated by reducing the total cost, as described above, by the offsets described above. The Report shall project the number of EDUs, excluding those for "public and quasi-public facilities" within the development(s) under consideration for assessment of a development (impact) fee. "Public and quasi-public facilities", as used herein, shall mean schools, hospitals, churches, cemeteries and public facilities such as community centers, libraries, and police and fire stations. Net costs for the Services/Infrastructure shall be allocated to EDUs, excluding those for public or quasi-public facilities, projected to be constructed within the development(s) under consideration for the assessment of development (impact) fees. The Report shall include an estimate of the timing of construction of public infrastructure comprising all or a portion of the necessary public services within the development(s) under consideration for assessment of development impact fees. The estimate shall be related to the rate of new development projected to occur within such development(s). The net cost per EDU may be reduced for a period of time not to exceed four

years for one or more categories of Services/Infrastructure, such reduction to be made pursuant to a phasing schedule included in the Report. The phasing schedule shall identify the date on which the full development (impact) fee shall be charged and the dates on which increases in the development (impact) fee shall take place prior to charging of the full development (impact) fee.

I. Each new development, except for public or quasi-public facilities, within the development(s) for which development (impact) fees have been established and assessed shall be assessed a uniform fee per EDU according to the following calculations: (a) determine the number of EDUs projected to be established within the particular new development; (b) calculate a preliminary uniform per-EDU cost by category of necessary public services for the particular new development by adding: the net cost of Services/Infrastructure per-EDU by category and any "Non-standard Costs" uniquely necessary to serve the new development. "Non-standard Costs", as used herein, shall mean those costs to provide Services/Infrastructure to a particular development that are in addition to the ordinary costs of those Services/Infrastructure due to unique conditions of the development project and not otherwise required by the infrastructure financing plan that is the subject of the applicable Report (such conditions including, but not limited to the type of development and the geophysical features of the development location). Thereafter, there shall be subtracted the following credits and offsets from the preliminary uniform per-EDU cost: the uniform amount per-EDU of credits including contributions, payments, construction or dedications made by the Developer and the value of offsets from funding sources attributable to the particular new development and specifically and historically dedicated to be used for the Services/Infrastructure needs of new development in development(s) subject to the Ordinance.

J. Any such Ordinance shall be administered by the Town Manager, or his/her designee. Development (impact) fees shall be paid at the time of the issuance of a building permit for the development. No building permit shall be issued until the applicable development impact fee (if any) has been paid. The development (impact) fee shall be assessed using the applicable development (impact) fee schedule in effect at the time the permit is issued. Any applicant for annexation, rezoning, subdivision or site plan approval by the Town who may be eligible for reimbursement or credits against a development (impact) fee otherwise assessable to the development may receive a fee determination from the Town Manager or his/her designee. The Town Manager or his/her designee shall establish procedures for calculation of the reimbursement or credits in estimating the development (impact) fee.

K. Development (impact) fees collected by the Town shall be placed in separate, interest-bearing accounts for each category of Services/Infrastructure within the land area that is the subject of the development (impact) fee. Development (impact) fees, and any interest thereon, collected shall be spent for Services/Infrastructure, including public infrastructure that provide a beneficial use to the development that paid the fee, and including services costs incurred in connection with the provision of such Services/Infrastructure.

Exhibit F

Community Facilities District Financing
General Guidelines

A. The primary purpose of forming a community facilities district ("CFD") is to establish a financing mechanism to finance, acquire, construct, operate and maintain public infrastructure that benefits the real property comprising the Caterpillar Project ("Project") and its ultimate users.

B. The public infrastructure and public infrastructure purposes anticipated to be financed by the CFD may include all public infrastructure and public infrastructure purposes allowable pursuant to A.R.S. § 48-701, et. seq. The Town of Buckeye ("Town") agrees to assume responsibility for the ownership, operation and maintenance of all completed public infrastructure acquired or constructed by the CFD subject to any agreements requesting Developer to maintain and operate any facility or improvement comprising all or a portion of such completed public infrastructure for such period of time as determined by the parties. Furthermore, the Town agrees to cooperate and pursue intergovernmental agreements with other public bodies, as applicable, to secure the ownership, operation, and maintenance of completed public infrastructure acquired or constructed with CFD funds that are typically not owned, operated, and maintained by the Town. Concurrently with the formation of any CFD, an election shall be held to, among other things, establish the initial authorization for the issuance of bonds by the CFD and the levy of an ad valorem tax, not exceeding $.30 per $100 of secondary assessed valuation, to pay for the administrative costs of the CFD and the operation and maintenance of CFD public infrastructure financed by or located within any CFD. In addition to any other agreements that may require Developer to pay for administration, operation and/or maintenance costs, in return for the Town's agreement to operate or maintain such public infrastructure and in return for the Town's agreement to administer the CFD, Developer agrees to approve, in any such election, the levy of an ad valorem tax to pay for the administrative, operation and maintenance costs of such public infrastructure, not to exceed $0.30 per $100 of secondary assessed valuation. When authorized by election, the CFD will levy an ad valorem tax of $0.30 per $100 of secondary assessed valuation to cover such costs.

C. The Town and Developer acknowledge that Developer may fund the construction of public infrastructure with its own monies and, if agreed to by the CFD, the CFD may use CFD funds (including the proceeds of the sale of CFD bonds) to acquire public infrastructure. Developer acknowledges that the construction of public infrastructure must comply with applicable Town standards, except as otherwise provided in this Agreement, so that the public infrastructure may be dedicated to the Town once acquired by the CFD. The acquisition price may include all allowable costs and expenses included under A.R.S. § 48-701, et. seq. provided, however the CFD will determine the acquisition price to be paid when it determines the amount of any CFD funding including the amount of any CFD bond issue. All construction of public infrastructure with CFD funds shall be competitively bid in accordance with the requirements of Title 34; in such event the Town agrees it may be in the public's interest and convenience to assign the construction bidding process to Developer (with the Town's supervision), subject to

the following conditions: (i) the plans, specifications and the bidding and contract documents prepared by Developer shall be approved by the Town's Public Works Department and/or (if applicable) the CFD engineer, (ii) Developer shall advertise (with the Town's supervision) for bids for the construction of the public infrastructure in conformance with the standard procedures and requirements of the Town with respect to its public works projects and the competitive bidding requirements under Title 34, and (iii) the contracts for construction of the public infrastructure shall be awarded to the lowest responsible bidder as determined by the CFD engineer in consultation with Developer.

D. The CFD may, in its sole discretion, issue bonds from time to time in one or more series to fund directly the acquisition or construction of public infrastructure. The Town agrees that any public infrastructure directly funded with CFD bonds that have been issued and sold will release Developer from having to post security or financial assurances (e.g., performance bonds) for public infrastructure to be acquired or constructed with CFD bond proceeds.

E. Generally, the boundary of the CFD is anticipated to encompass solely the boundaries of the Project. However, the Town and Developer understand that some of the public infrastructure funded through the CFD may also serve to benefit other surrounding developments, businesses and property owners. In that event, Developer, the CFD and the Town shall consider including the other benefited properties within the boundaries of the CFD in a manner that would allow these properties to pay their fair share of the cost to acquire or construct the applicable public infrastructure. Alternatively, Developer, at its option, may request the CFD and the Town, with the Town to approve at its discretion, the establishment of one or more separate cost reimbursement agreements or districts (or similar mechanisms) including such benefited property or other users benefited by the public infrastructure funded by the CFD. Proceeds from these separate cost reimbursement agreements, districts or mechanisms would be paid to reimburse the CFD for debt service and/or to pay CFD indebtedness, if the CFD funds the applicable public infrastructure, or to Developer if Developer funds the applicable public infrastructure. The Town shall undertake to amend its Code to provide for the creation of such reimbursement agreements or districts if such reimbursement agreements or districts are currently not provided for in the Town Code. In addition, the Town acknowledges that the Project is presently divided between the Ruth Fisher School District and the Litchfield/Agua Fria/Liberty/Buckeye School Districts and agrees to cooperate in the formation of CFDs and the issuance of bonds on terms and conditions, and subject to the limitations, set forth in paragraph H below.

F. The CFD may issue revenue bonds, general obligation bonds, and/or special assessment bonds from time to time to construct and/or acquire authorized public infrastructure. It is expected that CFD bonds issued from time-to-time will have a minimum term of 25 years. In the case of special assessment bonds, the CFD shall use its best efforts to implement the bond issue on the basis of a lien to market value ratio of 1 to 3 (33%), provided the issue is sold through a private non-rated offering to investors meeting the investor suitability standards established by the CFD. Market value as defined in this paragraph means the bulk or wholesale value of the property assuming that the public infrastructure to be constructed with CFD proceeds has been installed and is operational as of the date of the valuation. Additionally, in the case of special assessment bonds, Developer and/or other future property owners within the CFD, will have the ability to prepay their special assessment in whole or in part, on any interest payment date.

G. The CFD agrees to support the establishment of an Equivalent Tax Rate, for CFD debt service, of $5.30 per $100.00 of secondary assessed value. The term "Equivalent Tax Rate" shall mean the annual aggregate CFD tax levied by all CFDs, expressed as a function of dollars per $100 of secondary assessed valuation, established in order to pay debt service in respect of any outstanding CFD general obligation bonds, together with the aggregate annual operations and maintenance levy of up to $.30 per $100 of secondary assessed valuation for each CFD, combined with an amount derived by calculating the amount that, expressed as a function of dollars per $100 of secondary assessed valuation of the assessed property, would required to pay annual debt service in respect of any outstanding CFD special assessment bonds. By way of example, if the annual CFD tax levied in order to pay debt service in respect of outstanding CFD general obligation bonds is $3.50 per $100 of secondary assessed valuation, the annual operations and maintenance levy is $.30 per $100 of secondary assessed valuation and the amount derived by calculating the amount that, expressed as a function of dollars per $100 of secondary assessed valuation of the assessed property, would be required to pay scheduled annual debt service in respect of outstanding CFD special assessment bonds is $1.20 per $100 of secondary assessed valuation, the Equivalent Tax Rate would be $5.00 per $100 of secondary assessed valuation.

H. The Town acknowledges that the Project is presently divided between the Ruth Fisher School District and the Litchfield/Agua Fria/Liberty/Buckeye School Districts, and there presently exists a substantial disparity between the property tax rates (e.g. Ruth Fisher $5.8356 per $100 of assessed value and Litchfield Park $16.0260 per $100 of assessed value). If and to the extent a disparity continues to exist, the Town agrees to cooperate in the formation of two CFDs having boundaries that are coterminous, within the Project, with the boundaries of the Ruth Fisher School District (the "Ruth Fisher CFD") and the Litchfield/Agua Fria/Liberty/Buckeye School District (the "Other CFD"), respectively, insofar as such boundaries adjoin and/or intersect the Project. In such event, it is contemplated that bonds issued by the Ruth Fisher CFD may result in an "Equivalent Tax Rate" (as defined in paragraph G below) that exceeds $5.30 per $100 of secondary assessed valuation on property in the Ruth Fisher CFD so long as the following condition is satisfied: (i) the resulting Equivalent Tax Rate in the Ruth Fisher CFD will not (or, in the feasibility study prepared in connection with the issuance of such bonds, is reasonably projected to not) exceed $7.30 per $100 of secondary assessed valuation, following stabilization; and (ii) the "Average Equivalent Tax Rate" in respect of assessed property within the Project, overall, does not exceed $5.30 per $100 of secondary assessed valuation (such average to be determined by averaging the Equivalent Tax Rates in the two CFDs, with such average weighted and adjusted to take into account the difference between the amount of the total secondary assessed valuation of the assessed property located in the Ruth Fisher CFD and the amount of the total secondary assessed valuation of assessed property located in the Other CFD, respectively). If only one CFD is formed that includes the Project, it is contemplated that bonds could be issued with respect to portions of the Project lying within the boundaries of the Ruth Fisher School District upon the same terms and conditions as if two CFDs had been formed in the manner described in the foregoing provisions of this paragraph. Alternatively, if one CFD is formed that includes the entire Project, the Town will cooperate in the formation of a second CFD overlaying the portion of the Project lying within the boundaries of the Ruth Fisher School

District and in the issuance of CFD Bonds by such CFD with respect to portions of the Project included therein, upon the same terms and conditions as if two separate, non-overlapping CFDs had been formed in the manner described in the foregoing provisions of this paragraph.

I. It is contemplated that Developer will advance funds related to the formation of the CFD and for public infrastructure purposes. After bond proceeds are used to pay the actual direct costs of financing, acquiring or constructing public infrastructure, bond proceeds may be used to reimburse Developer for costs incurred and directly related to the planning and engineering of the public infrastructure, or for other public infrastructure purposes permitted by the CFD and allowed pursuant to A.R.S. § 48-701, et. seq.

J. At any time after the formation of the CFD and until such time as Developer owns less than twenty five percent (25%) of the Property by acreage, Developer shall have the sole right to initiate any application, including submitting to the CFD Board any feasibility study, concerning the construction, acquisition, and/or financing public infrastructure or public infrastructure purposes. After such time, the CFD Board on its own initiative may consider applications or feasibility studies not submitted by Developer.

Exhibit G

Dispute Resolution/Remedies

A. The dispute resolution process ("Process") and remedies set forth herein shall not apply to an action by the Town to condemn or acquire by inverse condemnation all or any portion of the Property, and in the event of any such action by the Town, Developer shall have all rights and remedies available to it at law or in equity.

B. If an event of default is not cured within the Cure Period, the non-defaulting party may institute the Process by providing written notice initiating the Process ("Initiation Notice") to the defaulting party.

C. Within fifteen (15) days after delivery of the Initiation Notice, each party shall appoint one person to serve on an arbitration panel ("Panel"). Within twenty-five (25) days after delivery of the Initiation Notice, the persons appointed to serve on the Panel shall themselves appoint one person to serve as the third member of the Panel. The third person selected shall function as the Chairman of the Panel.

D. The parties agree that the remedies available for award by the Panel shall be limited to specific performance, declaratory relief, and injunctive relief.

E. The parties have structured this Process with the goal of providing for the prompt and efficient resolution of all disputes falling within the purview of this Process. To that end, either party can petition the Panel for an expedited hearing if circumstances justify it. Such circumstances shall be similar to what a court would view as appropriate for injunctive relief or temporary restraining orders. In any event, the hearing of any dispute not expedited will commence as soon as practicable, but in no event later than forty-five (45) days after selection of the Chairman. This deadline can be extended only with the consent of both parties to the dispute, or by decision of the Panel upon a showing of emergency circumstances.

F. The Chairman will conduct the hearing pursuant to the Center For Public Resources' Rules for Non-Administered Arbitration of Business Disputes then in effect. The Chairman shall determine the nature and scope of discovery, if any, and the manner of presentation of relevant evidence consistent with the deadlines provided herein, and the parties' objective that disputes be resolved in a prompt and efficient manner. No discovery may be had of privileged materials or information. The Chairman upon proper application shall issue such orders as may be necessary and permissible under law to protect confidential, proprietary or sensitive materials or information from public disclosure or other misuse. Any party may make application to the Maricopa County Superior Court to have a protective order entered as may be appropriate to confirm such orders of the Chairman.

G. In order to effectuate the parties' goals, the hearing, once commenced, will proceed from business day to business day until concluded, absent a showing of emergency circumstances. Except as otherwise provided herein, the Process shall be governed by the Uniform Arbitration Act as enacted in Arizona at A.R.S. § 12-1501 *et seq.*

H. The Panel shall, within fifteen (15) days from the conclusion of any hearing, issue its decision. The decision shall be rendered in accordance with the Agreement and the laws of the State of Arizona.

I. Either party may appeal the decision of the Panel to the Maricopa County Superior Court ("Court") for a de novo review of the issues decided by the Panel, if such appeal is made within thirty (30) days after the Panel issues its decision. Except as provided in Paragraphs A and I of this Exhibit G, the parties agree that the remedies available for award by the Court shall be limited to specific performance, declaratory relief, and injunctive relief. The decision of the Panel shall be binding on both parties until the Court renders a binding decision. If the non-prevailing party in the Process fails to appeal to the Court within the timeframe set forth herein, the decision of the Panel shall be final and binding. If one party does not comply with the decision of the Panel during the pendency of the action before the Court or otherwise, then the other party shall be entitled to exercise all rights and remedies that may be available under law or equity, including without limitation the right to institute an action for money damages related to the default that was the subject of the Panel's decision and the provisions of this Exhibit G shall not apply to such an exercise of rights and remedies.

J. All fees and costs associated with any Process before the Panel, including without limitation the fees of the Panel, other fees, and the prevailing party's attorneys' fees, expert witness fees and costs, will be paid by the non-prevailing party. The determination of prevailing and non-prevailing parties, and the appropriate allocation of fees and costs, will be included in the decision by the Panel. Similarly, all fees and costs associated with an appeal to the Court or any appellate court thereafter, including without limitation, the prevailing party's attorneys' fees, expert witness fees and costs, will be paid by the non-prevailing party. The determination of prevailing and non-prevailing parties, and the appropriate allocation of fees and costs, will be included in the decision by the Court.

MEMORANDUM OF UNDERSTANDING
DMB / CITY OF BUCKEYE
FIRE STATION SITE

This Memorandum of Understanding ("**MOU**") is made and entered into as of _____, ("**Effective Date**") by and between DMB White Tank, LLC, an Arizona limited liability company ("**DMB**"), and the City of Buckeye, Arizona, an Arizona municipal corporation (the "**City**") (collectively, the "**Parties**"). By signing below, DMB and the City mutually agree to the following:

1. In satisfaction of the requirements of Section 2.12 (f) of the Pre-Annexation and Development Agreement entered into on November 24, 1999 between the City and DMB and recorded in the Records of the Maricopa County Recorder as Document Number 99-1071208 ("**PADA**"), DMB shall dedicate and convey title – free of monetary liens - consisting of 1.5 acres of real property (the "**Site**") to serve as a location for a future fire station , as reflected in a commitment for policy of title insurance approved by the City. The proposed Site is located at the northwest corner of Indian School Road and Tuthill Wash as generally depicted on the attached exhibit entitled "**Map of Understanding**". It is acknowledged that upon conveyance of this Site, DMB has satisfied any and all required obligations pertaining to provision of fire facilities for the Verrado Master Planned Community, including the conveyance of land, capital contributions or any expenses related to operations and maintenance of such facilities; provided, however, the City is not hereby assuming or agreeing to pay, perform and discharge any other liability or liabilities of DMB set forth in the PADA.

   The Parties shall reasonably cooperate to mutually agree upon final Site legal description, based on the City's site planning requirements, no later than October 31, 2024.

2. DMB shall deliver a mass graded Site to the City in a compacted, engineered fill condition to ensure the City has sufficient soil on the Site to perform finish grading and drainage with the City's onsite work. The Site is to be rough graded within +/- 0.2' of existing high curb along the Indian School Rd. frontage. The City is to perform their own soil/compaction testing prior to the start of fire station construction.

3. With exception to Paragraph 2 above, the City shall provide all site planning, engineering and construction of offsite and onsite work to be performed at the City's expense. The City shall provide site planning and building design development documentation to DMB as a courtesy and to allow DMB to make any reasonable design requests to the City that relate to appearance and aesthetics

4. The City acknowledges that, at the City's request, DMB offered a site which is located at the southwest corner of Verrado Way and Highlands Park Drive, intended to be conveyed to the City during DMB's development of the Highlands Phase 1 subdivision: Parcel 502-92-737 per the County's Assessors records (the "**Highlands Site**"). Notwithstanding communications between the City and DMB to utilize the Highlands Site for a fire station, the City determined that the Highlands Site is not suitable for a permanent fire station.

DMB is left with an unsubdivided/un-platted parcel/tract of land which DMB calculates as an opportunity cost of 3 lots at 50' x $2,500/ff = $375,000. The City agrees to allow and to facilitate such parcel to be subdivided/replatted in the future for two to three residential home sites, subject to typical minimum development standards in conformance with the Verrado Community Master Plan ("**CMP**") as may be amended from time to time, as required by the City, which includes public access, public utilities easements, and building, fire- and life-safety codes.

The City acknowledges that upon conveyance of the Site from DMB to the City, DMB's obligations under Section 2.12 (f) of the PADA have been satisfied; provided, however, the City is not hereby assuming or agreeing to pay, perform and discharge any other liability or liabilities of DMB set forth in the PADA. Site shall be conveyed to the City within sixty (60) days of mutual agreement of the Parties of Site legal description, satisfaction of Paragraph 2 and subject to delivery of a policy for title insurance. Upon conveyance of the Site, the City shall commence construction of the fire station facilities within twenty-four (24) months from the later of: (i) appropriation of funding, and (ii) approval by City Council, both of which must occur. The Parties understand and agree that there currently is no funding in place to construct and operate the permanent fire station. Parties further understand and agree that the inability of the City to construct and operate the permanent fire station will not restrict, delay or impede DMB in the development of any portion of the Verrado/Victory project consistent with the PADA and/or approved entitlements, whether based on emergency response time or otherwise.

5. Miscellaneous Provisions.

   a. All disputes, claims, and controversies between the Parties hereto arising out of or related to this MOU may only be brought in a court of competent jurisdiction in Maricopa County, Arizona. This MOU is governed by the laws of the State of Arizona.

   b. In the event of any claim, controversy or legal action including arbitration arises under this MOU, the prevailing Party will be entitled to recover from the non-prevailing Party its reasonable attorneys' fees, costs, and expenses.

   c. This MOU is subject to the cancellation provisions of Ariz. Rev. Stat. § 38-511.

   d. Time is of material importance to each of the provisions hereof.

   e. Notices and communications required by or concerning this MOU must be in writing and sent by certified mail, by courier, or by hand-delivery, addressed as follows:

City of Buckeye Dan Cotterman, City Manager 530 E Monroe Ave Buckeye AZ 85326	DMB White Tank, LLC Dan Kelly, General Manager 6263 N. Scottsdale Road, #330 Scottsdale, AZ 85250

With a copy to: City of Buckeye K. Scott McCoy, City Attorney 530 E Monroe Ave Buckeye AZ 85326	

Notice will be deemed received three business days after depositing into the mail, one business day after deposit with a courier, or on the same day as personal delivery. Change of address shall be given by written notice to the other Party.

f. All attachments to this MOU are incorporated herein by reference.

g. The Parties will execute any further instruments and perform any further act that is reasonably necessary to carry out the terms of this MOU.

h. The terms and conditions of this MOU are for the benefit of the Parties and there are no intended third-party beneficiaries under this MOU.

i. Each Party will be considered the drafter of this MOU and this MOU will not be construed against either Party as the drafter hereof.

CITY OF BUCKEYE
Regular Council Meeting
COUNCIL ACTION REPORT

MEETING DATE: 09/03/24	**AGENDA ITEM:** 4.S. CIP - No. 100680 Blue Horizons Fire Station #707 - APS Utility Easement Agreement
DATE PREPARED: 08/29/24	**DISTRICT NO.:** 5
STAFF LIAISON: Steve Riley, Construction Project Manager, sriley@buckeyeaz.gov, (623) 687-8442	
DEPARTMENT: Engineering	**AGENDA ITEM TYPE:** Consent Agenda Items / New Business

ACTION/MOTION: (This language identifies the formal motion to be made by the Council)
Council to take action on the grant of a utility easement, as set forth in the Utility Easement Agreement between the City of Buckeye, an Arizona municipal corporation, and Arizona Public Service Company (APS), an Arizona corporation; and authorize the City Manager to execute and deliver said Agreement on behalf of the City of Buckeye.

SUMMARY

PROJECT DESCRIPTION:
CIP No. 100680 Blue Horizons Fire Station #707 requires the installation and connection of electrical lines to APS to ensure its full operational capability. This includes constructing, reconstructing, replacing, repairing, operating, and maintaining electrical lines and associated facilities and fixtures necessary for the transmission and distribution of electricity to, through, across, and beyond the property. Additionally, it encompasses the installation, operation, and maintenance of telecommunication wires, cables, conduits, fixtures, and facilities for the sole use of APS to supplying electricity. This is a crucial measure for the project's overall operation and functionality.

BENEFITS:
A fully operational fire station ensures rapid emergency response times, enhancing community safety and potentially saving lives and property during fires and other emergencies. Reliable power enables the station to maintain essential communication systems, operate emergency medical equipment, and support the overall readiness of firefighting personnel.

FUTURE ACTION:
Delivery of a complete and constructed Fire Station #707.

FINANCIAL IMPACT STATEMENT:
$1 from project funds.

CURRENT FISCAL YEAR TOTAL COST:
$1 from project funds.

BUDGETED:
Yes

FISCAL YEAR:
FY25

FUND/DEPARTMENT:

CITY OF BUCKEYE-APS
UTILITY EASEMENT

CITY OF BUCKEYE, a municipal corporation of the State of Arizona, (hereinafter called "Grantor"), is the owner of the following described real property located in Maricopa County, Arizona (hereinafter called "Grantor's Property"):

SEE EXHIBIT "A" ATTACHED HERETO AND MADE A PART HEREOF

Grantor, for and in consideration of One Dollar ($1.00) and other valuable consideration, receipt of which is hereby acknowledged, does hereby grant and convey to **ARIZONA PUBLIC SERVICE COMPANY**, an Arizona corporation, (hereinafter called "Grantee"), and to its successors and assigns, a non-exclusive right, privilege, and easement, 8 feet in width or as further described in attached exhibits at locations and elevations, in, upon, over, under, through and across, a portion of Grantor's Property described as follows (herein called the "Easement Premises"):

SEE EXHIBIT "B" ATTACHED HERETO AND MADE A PART HEREOF

Grantee is hereby granted the right to: construct, reconstruct, replace, repair, operate and maintain electrical lines, together with appurtenant facilities and fixtures for use in connection therewith, for the transmission and distribution of electricity to, through, across, and beyond Grantor's Property; and install, operate and maintain telecommunication wires, cables, conduits, fixtures and facilities solely for Grantee's own use incidental to supplying electricity (said electrical and telecommunication lines, facilities and fixtures collectively herein called "Grantee Facilities"). Grantee Facilities shall consist of underground electric lines and appurtenant facilities including pad mounted equipment, the locations of which are set forth in Exhibit "B." In no event may any overhead electric lines and associated overhead equipment be installed unless in an emergency to restore power. Grantee shall at all times have the right of full and free ingress and egress to and along the Easement Premises for the purposes herein specified.

Grantee is hereby granted the right, but not the obligation, to trim, prune, cut, and clear away trees, brush, shrubs, or other vegetation on, or adjacent to, the Easement Premises whenever in Grantee's judgment the same shall be necessary for the convenient and safe exercise of the rights herein granted.

Grantor shall not locate, erect or construct, or permit to be located, erected or constructed, any building or other structure or drill any well within the limits of the Easement Premises; nor shall Grantor plant or permit to be planted any trees within the limits of the Easement Premises without the prior written consent of Grantee. However, Grantor reserves all other rights, interests and uses of the Easement Premises that are not inconsistent with Grantee's easement rights herein conveyed and which do not interfere with or endanger any of the Grantee Facilities, including, without limitation, granting others the right to use all or portions of the Easement Premises for utility or roadway purposes and constructing improvements within the Easement Premises such as paving, sidewalks, landscaping, driveways, and curbing. Notwithstanding the foregoing, Grantor shall not have the right to lower by more than one foot or raise by more than two feet the surface grade of the Easement Premises without the prior written consent of Grantee, and in no event shall a change in the grade compromise Grantee's minimum cover requirements or interfere with Grantee's operation, maintenance or repair.

Grantee shall not have the right to use the Easement Premises to store gasoline or petroleum products, hazardous or toxic substances, or flammable materials; provided however, that this prohibition shall not apply to any material, equipment or substance contained in, or a part of, the Grantee Facilities, provided that Grantee must comply with all applicable federal, state and local laws and regulations in connection therewith. Additionally, the Easement Premises may not be used for the storage of construction-related materials or to park or store construction-related vehicles or equipment except on a temporary basis to construct, reconstruct, replace, repair, operate, or maintain the Grantee Facilities.

Grantor shall maintain clear areas that extend: 1) 3 feet from and around all edges of all switching cabinet pads and 2 feet from and around all edges of all transformer pads and other equipment pads, and 2) a clear operational area that extends 10 feet immediately in front of all transformer, switching cabinet and other equipment openings, and 3) a 6 feet by 6 feet hot-stick operating area off the front left corner of all transformers, all as shown on Exhibit "B" attached hereto and made a part hereof. No obstructions, trees, shrubs, large landscape rocks, fences, fixtures, or permanent structures shall be placed by Grantor within said clear areas; nor shall Grantor install landscape irrigation or sprinkler systems within said clear areas. Landscape irrigation or sprinkler systems installed adjacent to the clear areas shall be installed and maintained so that the transformers, switching cabinets or any other equipment do not get wet by spray or irrigation.

By accepting and utilizing this easement, Grantee agrees that following any installation, excavation, maintenance, repair, or other work by Grantee within the Easement Premises, the affected area will be restored by Grantee to as close to original condition as is reasonably practicable, at the expense of Grantee; and that Grantee shall indemnify Grantor, to the extent required by law, for any loss, cost or damage incurred by Grantor as a result of any negligent installation, excavation, maintenance, repair or other work performed by Grantee within the Easement Premises.

Grantee shall exercise reasonable care to avoid damage to the Easement Premises and all improvements thereon and agrees that following any installation, excavation, maintenance, repair, or other work by Grantee within the Easement Premises, the affected area, including without limitation, all pavement, landscaping, cement, and other improvements permitted within the Easement Premises pursuant to this easement will be restored by Grantee to as close to original condition as is reasonably possible, at the expense of Grantee.

Grantor reserves the right to require the relocation of Grantee Facilities to a new location within Grantor's Property; provided however, that: (1) Grantor pays the entire cost of redesigning and relocating Grantee Facilities; and (2) Grantor provides Grantee with a new easement in a form and location acceptable to Grantee and at no cost to Grantee. Upon the acceptance by Grantee of a new easement and after the relocation of Grantee Facilities to the new easement area, Grantee shall abandon its rights to use the Easement Premises granted in this easement. The easement granted herein shall not be deemed abandoned except upon Grantee's execution and recording of a formal instrument abandoning the easement.

If any of Grantee's electric facilities in this easement are not being used or are determined not to be useful, Grantor may request that the facilities that are no longer needed be removed and that portion of the easement be abandoned. Grantee will execute and record a formal instrument abandoning the easement, or a portion thereof. Any facilities that are determined to still be needed for Grantee's electrical system can be relocated pursuant to the above relocation requirements.

Grantee shall not have the right to transfer, convey or assign its interests in this easement to any individual, corporation, or other entity (other than to an affiliated entity of Grantee or an entity that acquires from Grantee substantially all of Grantee's electric distribution facilities within the area of Grantor's Property) without the prior written consent of Grantor, which consent shall not be unreasonably withheld. Grantee shall notify Grantor of the transfer, conveyance or assignment of any rights granted herein.

The covenants and provisions herein set forth shall extend and inure in favor and to the benefit of, and shall be binding on the heirs, administrators, executors, successors in ownership and estate, assigns and lessees of Grantor and Grantee.

[THE REST OF THIS PAGE IS INTENTIONALLY LEFT BLANK.]

LEGAL DESCRIPTION OF GRANTOR'S PROPERTY AS RECORDED IN INSTRUMENT NUMBER 20110399496 M.C.R.

Legal description of Fire Station Site

Tract M of Parcel 5 of Blue Horizons, according to the Final Plat for Parcel 5 of Blue Horizons recorded in Book 822 of Maps, Page 4, official records of Maricopa County, Arizona;

EXCEPTING therefrom the following described property:

A parcel of land situated in a portion of Tract L and Tract M as shown on the Plat of Blue Horizons Parcel 5, recorded at Book 822 of Maps, Page 4, Maricopa County Recorder's Office, Maricopa County, Arizona and also being a portion of the Southwest quarter of Section 8, Township l North, Range 2 West of the Gila and Salt River Base and Meridian, Maricopa County, Arizona, more particularly described as follows:

Beginning at the southerly most common corner of said Tract L. and Tract M;

thence North 89°44' 13" West along the southerly line of said Tract L, a distance of 10.00 feet to a point on a line parallel with and 10.00 feet westerly of the easterly line of said Tract L;

thence North 00°15'47" East along said parallel line, a distance of 189.59 feet to a point on a line parallel with and 189.59 feet northerly of the southerly line of Tract L;

thence South 89°44' 13" East along said parallel line, a distance of 131.30 feet to a point on a line parallel with and 121.30 feet easterly of the westerly line of said Tract M;

thence South 00°15'47" West along said parallel line, a distance of 189.59 feet to a point on the southerly line of Tract M;

thence North 89°44'13" West along said southerly line, a distance of 121.30 feet to the point of beginning and the southerly most common corner of said Tract M and Tract L.

June 4, 2024

EXHIBIT "B"

ARIZONA PUBLIC SERVICE JOB #WA759369

A Utility Easement situated within the Southwest quarter of Section 8, Township 1 North, Range 2 West of the Gila and Salt River Meridian, Maricopa County, Arizona, more particularly described as follows:

COMMENCING at the Southwest corner of Tract M, BLUE HORIZONS PARCEL 5, according to the plat of record in the office of the County Recorder of Maricopa County, Arizona, recorded in Book 822 of Maps, Page 4;

THENCE North 00 degrees 15 minutes 47 seconds East, along the West line of said Tract M, a distance of 189.59 feet to the Northwest corner of that parcel of land described in Document #2009-1012781 of the Maricopa County Recorder's office, conveyed to the Town of Buckeye and the POINT OF BEGINNING of this Utility Easement description;

THENCE continuing North 00 degrees 15 minutes 47 seconds East, along the West line of said Tract M, a distance of 8.00 feet;

THENCE departing the West line of said Tract M, South 89 degrees 44 minutes 13 seconds East, a distance of 125.09 feet;

THENCE North 47 degrees 16 minutes 39 seconds East, a distance of 97.56 feet;

THENCE North 89 degrees 59 minutes 51 seconds East, a distance of 85.73 feet;

THENCE South 68 degrees 11 minutes 31 seconds East, a distance of 38.27 feet;

THENCE North 89 degrees 59 minutes 51 seconds East, a distance of 12.19 feet;

THENCE South 00 degrees 00 minutes 09 seconds East, a distance of 18.25 feet;

THENCE South 89 degrees 59 minutes 51 seconds West, a distance of 15.33 feet;

THENCE North 00 degrees 00 minutes 09 seconds West, a distance of 10.89 feet;

THENCE North 68 degrees 11 minutes 31 seconds West, a distance of 36.54 feet;

THENCE South 89 degrees 59 minutes 51 seconds West, a distance of 81.06 feet;

THENCE South 47 degrees 16 minutes 39 seconds West, a distance of 97.58 feet;

THENCE North 89 degrees 44 minutes 13 seconds West, a distance of 6.94 feet to the Northeast corner of said Town of Buckeye parcel;

THENCE North 89 degrees 44 minutes 13 seconds West, along the North line of said parcel, a distance of 121.30 feet to the POINT OF BEGINNING.

Contains an area of 3028.52 square feet, more or less.
