

Alameda County Transportation Commission (Commission) Meeting Agenda Thursday, October 22, 2026, 2:00 PM

The Commission and its Standing Committees will meet in the Mary V. King Conference Room at Alameda CTC's offices at 1111 Broadway, Suite 800, Oakland, CA 94607. The live stream of each Alameda CTC Commission and Standing Committee meeting is available for public viewing at www.alamedactc.org/all-meetings by clicking on **View Event** next to the meeting in the list of Upcoming Events.

Members of the public may submit public comments that are addressed to the Commission or Committee members on topics germane to the jurisdiction of the Alameda CTC in person by attending the meeting in Alameda CTC's offices. Alameda CTC conducts orderly meetings to fulfill its mandate. Discriminatory statements or conduct that would potentially violate the federal Civil Rights Act of 1964 and/or the California Fair Employment and Housing Act, California Penal Code sections 403 or 415 is per se disruptive to a meeting and will not be tolerated. Please see [Alameda CTC's Meeting Code of Conduct](#) for more information.

Additionally, comments may be submitted by email sent to the Clerk of the Commission at clerk@alamedactc.org, including the words "Public Comment" and the meeting to which it pertains in the email's subject line. Public comments received by 5:00 p.m. the day before the scheduled meeting will be distributed to Commissioners or Committee members before the meeting and posted on the Alameda CTC website; comments submitted after that time will be distributed to Commissioners or Committee members and posted as soon as possible.

As a convenience, members of the public may also make comments remotely during the meeting by accessing the Zoom link listed below, using the "Raise Hand" feature on their phone, tablet or other device during the relevant agenda item, and waiting to be recognized by the Chair. If calling into the meeting from a telephone, you can press the star key (*) and then the number 9 (*9) to raise/lower your hand. Comments made in person or via Zoom will generally be limited to three minutes in length, or as specified by the Chair. Alameda CTC cannot guarantee that the public's access to Zoom via phone or other device will be uninterrupted, and technical difficulties may occur from time to time. Unless required by the Brown Act, the meeting will continue despite technical difficulties for participants using the Zoom option.

Chair: David Haubert
Vice Chair: Marilyn Ezzy Ashcraft

Executive Director: Tony Tavares
Clerk of the Commission: Elizabeth (Liz) Lake

9. Adjournment

Next Meeting:

December 10, 2026

Notes:

- All items on the agenda are subject to action and/or change by the Commission/Committee.
- To comment on an item not on the agenda, submit a speaker card to the Clerk or follow remote instructions listed in the agenda preamble.
- Meeting agendas and staff reports are available on the [website calendar](#).
- Alameda CTC is located near 12th St. Oakland City Center BART station and AC Transit bus lines. [Directions and parking information](#) are available online.
- For language assistance, please call (510) 208-7475. We request at least five working days' notice to accommodate your request.

- Para obtener asistencia de idioma, comuníquese al (510) 208-7475. Para hacer lugar a su pedido, solicitamos que nos avise con una anticipación mínima de cinco días hábiles.
- 如需语言协助，请致电 (510) 208-7475. 请至少提前五个工作日通知，以便满足您的要求。
- Para sa tulong sa wika, tumawag sa (510) 208-7475. Mag-abiso nang limang araw na may pasok o mas maaga para mapagbigyan ang inyong kahilingan.
- Để được hỗ trợ ngôn ngữ, vui lòng gọi (510) 208-7475. Chúng tôi yêu cầu quý vị thông báo ít nhất năm ngày làm việc để có thể đáp ứng được yêu cầu của quý vị.
- Call (510) 208-7450 (Voice) or 1(800) 855-7100 (TTY) five days in advance of the meeting to request a sign-language interpreter.
- Call (510) 208-7400 48 hours in advance to request other accommodations or assistance at this meeting.

Alameda County Transportation Commission Meeting Minutes Thursday, September 24, 2026, 2:00 p.m.

6.1

1111 Broadway, Suite 800, Oakland, CA 94607

• PH: (510) 208-7400

• www.AlamedaCTC.org

1. Call to Order

2. Roll Call

A roll call was conducted. All members were present except Commissioners Balch, Fortunato Bas, Miley, Salinas, and Singh.

Commissioner Bowen attended as the alternate for Commissioner Tam.
Commissioner Jenkins attended as the alternate for Commissioner Brown.
Commissioner McCorriston attended as the alternate for Commissioner Hu.
Commissioner Zhang attended as the alternate for Commissioner Salwan.

3. Public Comment

There were six verbal public comments.

This item was presented after item 4.

4. Chair and Vice Chair Report

Chair Haubert shared a brief report.

This item was presented before item 3.

5. Executive Director's Report

Executive Director Tony Tavares provided the Commission with several updates.

6. Consent Calendar

6.1 Approve the July 23, 2026 Commission Meeting Minutes

6.2 Fiscal Year 2025-26 Fourth Quarter Report of Claims Acted Upon Under the Government Claims Act Update

6.3 Approve an Update to Alameda CTC's Conflict of Interest Code

6.4 Approve an Update to the Alameda CTC Investment Policy

6.5 I-580 and I-680 Express Lanes Quarterly Operations Update

6.6 Approve Resolution 26-005 including Actions Associated with Allocation of Regional Measure 3 funds for the Port of Oakland Green Power Microgrid Project

6.7 Alameda CTC Fiscal Year 2026-27 Capital Program Update

6.8 2028 Comprehensive Investment Plan Application Summary

6.9 Congestion Management Program: Summary of Alameda CTC's Review and Comments on Environmental Documents and General Plan Amendments Update

6.10 Federal, State, Regional and Local Legislative Activities Update

6.11 Community Committee Appointments Update

Commissioner Marchand made a motion to approve the Consent Calendar. Commissioner Jordan seconded the motion. The motion passed with the following roll call vote:

Yes: Bowen, Ezzy Ashcraft, Fife, González, Hannon, Haubert, Hernandez, Jenkins, Jordan, Marchand, Márquez, McCarthy, McCorriston, Solomon, Taplin, Young, Zhang

No: None

Abstain: None

Absent: Balch, Fortunato Bas, Miley, Salinas, Singh

7. Committee Reports

7.1 Bicycle and Pedestrian Advisory Committee Update

There was no committee report.

7.2 Independent Watchdog Committee Update

Independent Watchdog Committee (IWC) Chair Damian Park provided a report from the July IWC meeting.

7.3 Paratransit Advisory and Planning Committee Update

Paratransit Advisory and Planning Committee (PAPCO) Chair Sandra Johnson provided a report the July Joint PAPCO and Paratransit Technical Advisory Committee meeting.

8. Regular Matters

8.1 Approve the East Bay Greenway Multimodal – North Segment, Oakland North Construction Package Construction Contract Award

Matthew Bomberg recommended that the Commission award construction contract A27-0004 to Bay Cities Paving and Grading, Inc. for construction of the East Bay Greenway Multimodal – North Segment, Oakland North Construction Package.

Commissioner Fife made a motion to approve the item. Commissioner Jenkins seconded the motion. The motion passed with the following roll call vote:

Yes: Bowen, Ezzy Ashcraft, Fife, González, Hannon, Haubert, Hernandez, Jenkins, Jordan, Marchand, Márquez, McCarthy, McCorriston, Solomon, Taplin, Young, Zhang

No: None

Abstain: None

Absent: Balch, Fortunato Bas, Miley, Salinas, Singh

8.2 Central County Community Connections Plan Update

Shannon McCarthy provided an update on the Central County Community Connections Plan. This item was for information only.

9. Closed Session

9.1 CONFERENCE WITH LEGAL COUNSEL - EXISTING LITIGATION (Pursuant to Government Code §54956.9(a) and (d)(4)) - ROCKY RIDGE LLC vs. ALAMEDA COUNTY TRANSPORTATION COMMISSION, and DOES 1 through 10, inclusive, (Alameda Superior Ct. Case No. 26CV175916)

9.2 Report on Closed Session

With a unanimous vote of the members present, the Commission approved a settlement agreement whereby the Alameda County Transportation Commission (Alameda CTC) will pay Rocky Ridge LLC \$539,500, in exchange for a dismissal of the litigation with prejudice, and releases a promise to reimburse Alameda CTC if Rocky Ridge LLC receives reimbursement for this loss from its insurance or any other source in cooperation with Alameda CTC.

Angelina Leong, Principal Program Analyst

SUBJECT: Approve Administrative Amendments to Extend Agreement Expiration Dates

Recommendation

It is recommended that the Commission approve administrative amendments to Agreements A15-0034 and A21-0001 in Attachment A, in support of Alameda CTC implemented projects.

Summary

Staff recommends that the Commission approve and authorize the administrative amendment requests as listed in Attachment A.

Background

Alameda CTC directly implements capital projects throughout Alameda County. Alameda CTC enters into Professional Service Agreements (PSAs) with consultants to support projects implemented by Alameda CTC. All agreements are entered into based upon estimated known project needs for scope, cost and schedule.

Throughout the duration of these agreements, situations may arise to warrant a time extension and amendment to terms of the agreement. The most common justifications for a time extension include: (1) project delays, and (2) extended phase and/or project closeout activities.

The Commission considers certain amendments to be “administrative” if they include time extensions or minor project delivery plan adjustments. Amendments are evaluated by Alameda CTC staff to confirm the amendment is reasonably justified, the original project scope and deliverables are not compromised, there are no conflicts with the Levine Act, and the proposed time extension supports timely delivery of the project.

Alameda CTC's current procurement policy allows for a one-time, 12-month time extension approval by the Executive Director, which would not be included in this item. Time extensions greater than one-year or those that have previously utilized the one-time 12-month extension are brought to the Commission for approval.

The administrative amendment requests shown in Attachment A have been evaluated and are recommended for approval. Additional information related to these requests is provided in Attachment A.

Levine Act Statement: Parsons Transportation Group Inc. (A15-0034), BKF Engineers (A21-0001), and their subconsultants did not report any conflicts in accordance with the Levine Act.

Fiscal Impact: There is no fiscal impact with the requested actions.

Christine Shin, Senior Program Analyst

SUBJECT: Approve Administrative Amendments to Various Project Funding Agreements

Recommendation

It is recommended that the Commission approve the administrative amendments to Project Funding Agreements (PFAs) receiving Alameda CTC-administered funds, as identified in Attachment A: Project Funding Agreement Amendment Summary.

Summary

Amendments to funding agreements are requested to facilitate project delivery.

Background

Alameda CTC enters into PFAs with project sponsors receiving Alameda CTC-administered funding sources, including Measure B, Measure BB, Vehicle Registration Fee (VRF), and Transportation Fund for Clean Air (TFCA) funds. These agreements establish the mutually agreed-upon project scope, budget, schedule, funding requirements, and agreement expiration dates.

During project implementation, sponsors may encounter delays related to procurement, interagency coordination, design review, or project closeout activities. In such events, amendments may be needed to extend agreement deadlines or adjust project budgets while maintaining the approved scope. Staff has reviewed and recommends the approval of the amendment requests identified in Attachment A.

Fiscal Impact: There is no fiscal impact with the requested action.

Attachment:

A. Project Funding Agreement Amendment Summary

Attachment A - Project Funding Agreement Amendment Summary

No.	Agency	Project	Agreement No.	Amendment History/ Current Request	Amendment History and Request Justification
1	Alameda Contra Costa Transit District	Fruitvale Corridor	A23-0027	A1. 36-month extension from 12/31/26 to 12/31/29. (current request)	Project Sponsor encountered delays in obligating federal funds and finalizing its Cooperative Agreement with City of Oakland. As a result, project design will commence in early 2027. Request also includes funding reallocation from the Planning/Scoping phase to the Final Design phase.
2	Bay Area Rapid Transit (BART)	Dublin/Pleasanton BART Station Active Access Improvements	A23-0037	A1. 12-month extension from 12/31/26 to 12/31/27. (current request)	Project Sponsor encountered issues with Right of Way, and delays with procurement and advertisement. Construction phase now anticipated to begin in October 2026.
3	City of Alameda	Clement Avenue East Extension and Tilden Way Project	A18-0058	A1. 24-month extension from 12/31/20 to 12/31/22. A2. 48-month extension from 12/31/22 to 12/31/26. A3. 24-month extension from 12/31/26 to 12/31/28. (current request)	Project Sponsor's prior amendments included extensions to pre-construction phases for extended review of mitigation measures, and the encumbrance of a construction allocation. The Project Sponsor reported that prolonged wet weather in Winter and Spring 2026 delayed construction startup activities, resulting in the need for an extension of the construction phase timeline.
4	City of Alameda	Neighborhood Greenway Crossings: Safety & Connectivity Improvements	A25-0032	A1. 48-month extension from 12/31/2026 to 12/31/30. (current request)	Project Sponsor encountered delays with federal funding and PS&E phase, which is anticipated to finish in June 2027. Additional time is requested to complete the design and construction phases.
5	City of Berkeley	Adeline Corridor Project at Ashby BART Station (Berkeley)	A23-0035	A1. 36-month extension from 12/31/26 to 12/31/29. (current request)	Project Sponsor secured external funding to deploy quick build delivery to gather data and improve overall project design, which has delayed the completion of the Preliminary Engineering phase.
6	City of Emeryville	40th Street Multimodal Improvements Project	A23-0040	A1. 24-month extension from 12/31/27 to 12/31/29. (current request)	Project Sponsor has experienced delays securing federal funding, obtaining permits, and finalizing agreements with partner agencies. Construction is now expected to begin in early 2027.

No.	Agency	Project	Agreement No.	Amendment History/ Current Request	Amendment History and Request Justification
7	City of Fremont	East Bay Greenway Trail (Irvington to Fremont BART)	A23-0055	A1. 36-month extension from 12/31/26 to 12/31/29. (current request)	NEPA clearance was deferred by design to avoid premature impact assumptions and Initial Site Assessment (ISA) expiration, which has delayed the environmental phase later than originally scheduled. Project Sponsor requests a time extension to accommodate the resulting cultural resource studies and Caltrans reviews.
8	City of Hayward	Downtown Bike Loop	A25-0045	A1. 12-month extension from 12/31/26 to 12/30/27. (current request)	Project Sponsor did not receive adequate responsive proposals through the procurement process and has elected to deliver the project design phase in-house, necessitating additional time to advance the design phase.
9	City of Hayward	D Street Traffic Calming Project	A25-0046	A1. 12-month extension from 12/31/26 to 12/31/27. (current request)	Project Sponsor released PS&E RFPs six months later than expected and experienced further delay from contract negotiations, necessitating additional time to address advance the design phase.
10	City of Livermore	Stanley Boulevard at Isabel Avenue Connector Ramp Crossing Improvements Project	A25-0047	A1. 36-month extension from 12/31/26 to 12/31/29. (current request)	Project Sponsor has been waiting on Caltrans review of Encroachment Permit application. As a result, construction will not begin until early June 2027. Additional time is requested to complete construction.
11	City of Oakland	East 12th Street Bikeway	A17-0114	A1. 36-month extension from 12/31/20 to 12/31/23. A2. 36-month extension from 12/31/23 to 12/31/26. A3. 24-month extension from 12/31/26 to 12/31/28. (current request)	Project Sponsor's prior amendments included extensions to pre-construction phases. Project Sponsor encountered delays in the contracting and advertisement process for the current construction phase, and as a result construction will not begin until early 2027. Additional time is requested to complete construction.
12	City of Oakland	West Oakland Transit Improvements	A22-0033	A1. 24-month extension from 12/31/24 to 12/31/26. A2. Administrative cost detail adjustments. A3. 12-month extension from 12/31/26 to 12/31/27. (current request)	Project Sponsor indicates utility coordination issues and storm water system installations delaying the project. Additional time is requested to complete construction.

No.	Agency	Project	Agreement No.	Amendment History/ Current Request	Amendment History and Request Justification
13	City of Oakland	Construction of I-880/ 42nd High Street Access improvements	A20-0028	A1. Phase and fund source reallocation. A2. 60-month extension from 12/31/26 to 12/31/32. (current request)	Project Sponsor's prior amendments included a shift in funding due to securing additional STIP funding. Project Sponsor experienced delays in contract renewals and right of way negotiations and expects to release construction RFPs in July 2027. Additional time is requested to complete construction.
14	City of Oakland	Laurel Access to Mills, Maxwell Park, and Seminary (LAMMPS) Phase 2 Project	A23-0047	A1. 12-month extension from 12/31/26 to 12/31/27. (current request)	Project Sponsor is finalizing the PS&E package and initiating the federal ROW certification process. To ensure all design-phase deliverables are completed in full compliance with federal and state requirements, the City requests a 12-month extension.
15	City of Pleasanton	I-580 Overcrossing Bicycle and Pedestrian Improvements (Final Design Phase)	A25-0054	A1. 12-month extension from 12/31/26 to 12/31/27. (current request)	Project Sponsor is experiencing delays in obtaining Caltrans Permit and project advertisements efforts due to staffing resources. Additional time is requested for the design phase.
16	County of Alameda / ACPWA	East Lewelling Blvd. Streetscape Improvements Phase II	A22-0020	A1. 24-month extension from 12/31/24 to 12/31/26. A2. 12-month extension from 12/31/26 to 12/31/27. (current request)	Prior amendment included an extension to the pre-construction phases. Project Sponsor is experiencing delays in construction due to several PG&E facilities that need to be relocated/ adjusted. Additional time is requested to complete construction.
17	County of Alameda / ACPWA	Alameda County - Mission Blvd. Phase III Corridor Improvements	A22-0021	A1. 12-month extension for TFCA funds. A2. 24-month extension from 12/31/27 to 12/30/29. (current request)	Project Sponsor's prior amendments adjusted the expenditure date for TFCA funding only. Project Sponsor is experiencing delays with RFP and federal funding compliance requirements. Construction began in September 2026. Additional time is requested for construction.
18	Livermore Amador Valley Transportation Authority	Wheels Access – Expanding Mobility Options in the Tri-Valley	A24-0019	A1. Scope revision. (current request)	Project Sponsor experienced challenges with procurement and is requesting a scope reduction to remove a mobility management component of its program as it explores alternative pathways to support program objectives.
19	Metropolitan Transportation Commission (MTC)	I-80 / Powell Street Interchange Modification Project	A20-0019	A1. 24-month extension from 12/31/22 to 12/31/24. A2. 24-month extension from 12/31/24 to 12/31/26. A3. 24-month extension from 12/31/26 to 12/31/28.	Project Sponsor's prior amendments included extensions to pre-construction phases. Currently, Project Sponsor is experiencing delays associated with evaluating whether to proceed with the Design Engineering Evaluation Report (DEER) process and coordinating with AC Transit and EBMUD. MTC is working with a consultant to rescope the project to complete a PSR-PR.

No.	Agency	Project	Agreement No.	Amendment History/ Current Request	Amendment History and Request Justification
20	San Joaquin Regional Rail Commission	Newark-Albrae Siding Connection Project	A22-0037	A1. 36-month extension from 12/31/24 to 12/31/27. A2. 36-month extension from 12/31/27 to 12/31/30. (current request)	Prior amendments included extensions to pre-construction phases. Project Sponsor encountered delays in obtaining environmental permits from resource agencies which has impacted the delivery of the Final Design. Construction is expected to begin in October 2027. Additional time is requested to complete construction.

Christine Shin, Senior Program Analyst
Seon Joo Kim, Senior Program Analyst

SUBJECT: Approve Nominations for the 2028 Comprehensive Investment Plan – One Bay Area Grant Cycle 4 County and Community Action Resource & Empowerment Programs

Recommendation

It is recommended that the Commission approve the recommended nominations for the federal One Bay Area Grant Cycle 4 (OBAG 4) County and the regional Community Action Resource & Empowerment (CARE) Programs.

Summary

This item presents the first phase of the 2028 Comprehensive Investment Plan (CIP) programming process, including staff recommendations to nominate eleven (11) projects for OBAG 4 funds and one (1) project for CARE funds to the Metropolitan Transportation Commission (MTC). MTC is expected to adopt the final OBAG 4 county programs of projects in early 2027. Projects not selected for OBAG 4 or CARE funding will be considered during the second phase of the 2028 CIP programming process, with recommendations for the remaining CIP funds anticipated in May 2027.

Background

Alameda CTC programs and allocates transportation funding through its CIP, a biennial process that coordinates multiple funding sources into a single programming cycle to advance the goals of the Countywide Transportation Plan and voter-approved transportation expenditure plans.

On May 28, 2026, Alameda CTC released the 2028 CIP Call for Projects, making approximately \$200 million available from locally administered fund sources, federal OBAG 4 funds, and regional CARE funds. By the July 27, 2026 application deadline, Alameda CTC had received sixty-eight (68) applications requesting approximately \$272.9 million.

To align with the procedures and timelines of the available funding sources, the 2028 CIP programming recommendations will be developed in two phases. The first major milestone is the Commission's consideration of OBAG 4 and CARE - Community-Based Transportation Plan Project Development Technical Assistance (CARE CBTP-TA) project nominations that are required to be submitted to MTC by October 31, 2026 (the subject of this item).

For the OBAG 4 program evaluation, twenty-five (25) of the sixty-eight (68) CIP applications requested OBAG 4 funding consideration. These applications were initially screened for consistency with the 2026 Countywide Transportation Plan and evaluated using the Commission-approved criteria and requirements for the 2028 CIP, OBAG 4, and CARE programs, adopted in May 2026.

Alameda CTC staff recommends nominating a program of projects for OBAG 4 funding achieving the \$77.7 million Alameda County OBAG 4 target level prescribed by MTC. This includes eleven (11) projects nominated for funding. Should additional OBAG 4 funding capacity become available, the nomination lists also includes three additional contingency projects as identified in Attachments A and B.

Additionally, the OBAG 4 nomination includes funding for countywide priorities, including \$9.2 million for the Alameda Countywide Safe Routes to School (SR2S) Program and \$4.0 million for County Transportation Agency (CTA) planning and programming activities. These funds will support required countywide planning, programming, and monitoring functions.

For the CARE Program, staff recommends one (1) project for the \$3.1 million available in CARE CBTP-TA funding as identified in Attachment C.

Following submission of Alameda County's nominations, MTC will evaluate the proposed projects alongside nominations from the other Bay Area counties and is expected to adopt the final OBAG 4 county programs of projects in early 2027. Should any projects included in the nomination list be awarded external funding that changes the project's funding need, staff will work with the Project Sponsor and MTC to address the issue, and provide an update to the Commission as part of the overall 2028 CIP program recommendation process.

Following MTC's action, Alameda CTC will evaluate projects not selected for OBAG 4 or CARE funding, as currently shown in Attachment D, for consideration under the remaining CIP funding sources with recommendations to be presented in May 2027.

Fiscal Impact

There is no fiscal impact. This item is for information only.

Memorandum

6.5

1111 Broadway, Suite 800, Oakland, CA 94607

• PH: (510) 208-7400

• www.AlamedaCTC.org

DATE: October 15, 2026

TO: Alameda County Transportation Commission

FROM: Colin Dentel-Post, Assistant Director of Planning
Aleida Andrino-Chavez, Associate Transportation Planner

SUBJECT: Congestion Management Program: Summary of Alameda CTC's Review and Comments on Environmental Documents and General Plan Amendments Update

Recommendation

It is recommended that the Commission receive an update on the Congestion Management Program (CMP): Summary of Alameda CTC's Review and Comments on Environmental Documents and General Plan Amendments. This item is for information only.

Summary

Commenting on Notices of Preparation (NOPs) and Draft Environmental Impact Reports (DEIRs) fulfills one of the requirements under the Land Use Analysis Program (LUAP) element of the CMP. As part of the LUAP, Alameda CTC reviews NOPs, General Plan Amendments, and DEIRs prepared by local jurisdictions and comments on the potential impact of proposed land development on the regional transportation system.

Between August 16, 2026, and September 15, 2026, Alameda CTC submitted comments on one NOP, the City of Emeryville's NOP of the Sutter Hospital Medical Center DEIR.

Fiscal Impact

There is no fiscal impact. This item is for information only.

Attachments:

- A. Comments on the City of Emeryville's NOP of the Sutter Hospital Medical Center DEIR

September 14, 2026

Miroo Desai, AICP, Planning Manager
City of Emeryville
1333 Park Avenue
Emeryville, CA 94608

SUBJECT: Response to the Notice of Preparation (NOP) of the ***Sutter Hospital Medical Center Project***

Dear Ms. Desai,

Thank you for the opportunity to comment on the Notice of Preparation (NOP) for the **Sutter Hospital Medical Center Draft Environmental Impact Report (EIR)**. The proposed project would redevelop an approximately 12-acre site within the City of Emeryville that is part of the larger 22-acre Emeryville Life Sciences Center Planned Unit Development/Preliminary Development Plan (PUD-3), also known as the Chiron PUD/PDP.

The project site is generally bounded by Stanford Avenue to the north, Hollis Street to the east, 46th and 53rd Streets to the south, and Horton Street, Horton Landing Park, and Emeryville Greenway to the west. The site is located within a well-connected urban area, approximately 0.2 miles from the Emeryville Amtrak Station, 1.7 miles from MacArthur BART Station, and 2.4 miles from West Oakland BART Station. It is also served by local and regional transit, bicycle facilities, and pedestrian connections, including access to the Bay Street Emeryville mixed-use development via the South Bayfront Bridge. The proposed project consists of the redevelopment of the site into a comprehensive medical campus, including a hospital, medical office buildings, open space and circulation improvements, parking facilities, and a project variant that would include either an additional medical office building or housing. Given the scale of the proposed development and its location within a transit-rich area, Alameda CTC is particularly interested in the project's potential transportation, circulation, pedestrian, bicycle, transit, and traffic-related impacts, as well as opportunities to support safe and sustainable multimodal access to the site.

Basis for Congestion Management Program (CMP) Review

- It appears that the proposed project will generate at least 100 p.m. peak hour trips over existing conditions, and therefore the CMP Land Use Analysis Program requires the project sponsor to conduct a transportation impact analysis of the project on the nearby CMP roadway network. Per the NOP filing documents, the Transportation Analysis for the project's EIR will include the required CMP analysis. For information on the CMP, please visit: <https://www.alamedactc.org/planning/congestion-management-program/>. This transportation impact analysis may be submitted separately from the EIR as this analysis is no longer part of the CEQA requirements.

Use of Countywide Travel Demand Model

- The Alameda Countywide Travel Demand Model should be used for CMP Land Use Analysis purposes. The CMP requires local jurisdictions to conduct travel model runs themselves or through a consultant. The City of Emeryville and the Alameda CTC signed a Countywide Model Agreement on March 9, 2009. Before the model can be used for this project, a letter must be submitted to the Alameda CTC requesting use of the model and describing the project. A copy of a sample letter agreement is available upon request. The most current version of the [Alameda CTC Countywide Travel Demand Model](#) was updated in October, 2025 to be consistent with the assumptions of Plan Bay Area 2050.

Use of the Alameda County Transportation Commission Vehicle Miles Traveled (VMT) Reduction Calculator Tool

- Alameda CTC has developed a [VMT Reduction Calculator Tool](#) to assist its member agencies in complying with the requirements of SB 743 for the analysis of traffic impacts of certain land use projects under CEQA. The Tool estimates reductions in VMT derived from the implementation of Transportation Demand Management (TDM) Strategies with the project. The proposed project is partially located in an area with an average VMT per employee that is 5.41% higher than the Alameda County average. According to CEQA Guidelines Section 15064.3(b)(1), the project is presumed to have a significant impact on the transportation network.
- Alameda CTC recommends that the EIR evaluate opportunities to enhance multimodal access to the project site and reduce vehicle miles traveled (VMT) and associated impacts on the transportation network. The project's location within a transit-rich area, with convenient access to regional rail services, local and regional bus routes, and protected bicycle facilities, presents a significant opportunity to encourage travel by transit, bicycling, and walking for employees, patients, and visitors. Promoting these transportation options can help reduce reliance on single-occupancy vehicles and the project's impacts on the transportation system.
- The Transportation Analysis Scope of Work for the EIR indicates that the project will incorporate strategies to reduce single-occupancy vehicle travel and encourage multimodal transportation. Alameda CTC supports this approach and recommends that the EIR thoroughly evaluate the effectiveness of these strategies, identify additional transportation demand management measures where appropriate, and assess how they may reduce VMT and transportation-related impacts.

The discussion below provides additional detail regarding anticipated transportation impacts and considerations for the project.

Impacts

- Although SB 743 requires the use of VMT analysis rather than Level of Service (LOS) analysis to determine projects' transportation impacts under CEQA and automobile delay cannot be deemed a significant environmental impact, Government Code Section 65089(b) and the Congestion Management Program (CMP) Land Use Analysis continue to require jurisdictions to analyze each project's potential impacts on the CMP roadway network. The required LOS analysis on the CMP roadway network may be included in an appendix to the project EIR or as a separate document.
 - CMP Tier 1 roadway facilities in the project area include:
 - I-80
 - I-580
 - I-880
 - SR-123 (San Pablo Avenue)

- SR-13 (Ashby Avenue)
 - For the purposes of CMP Land Use Analysis, the Highway Capacity Manual freeway and urban streets methodologies are the preferred methodologies to study vehicle delay impacts.
 - The Alameda CTC has *not* adopted any policy for determining a threshold of significance for Level of Service for the Land Use Analysis Program of the CMP. Professional judgment should be applied to determine the significance of project impacts.
- The EIR should address potential impacts of the project on Metropolitan Transportation System (MTS) transit operators.
 - MTS transit operators potentially affected by the project include: Alameda Contra Costa Transit (AC Transit), Bay Area Rapid Transit (BART), and Amtrak.
 - Transit impacts for consideration include the effects of project vehicle traffic on mixed flow transit operations, transit capacity, transit access/egress, need for future transit service, and consistency with adopted plans. See [Appendix E of the 2025 CMP](#) for more details.
- The EIR should address potential impacts of the project to people biking and walking in and near the Project area, especially nearby roads included in the [Countywide High-Injury Network \(HIN\)](#), [the Proactive Safety Network \(PSN\)](#), and the [Countywide Bikeways Network](#) as well as the major barriers identified in the 2019 [Countywide Active Transportation Plan](#).
 - Impacts to consider on conditions for pedestrians and cyclists include effects of vehicle traffic on safety and conditions for people walking, bicycling, and rolling; site development; roadway improvements; and consistency with adopted plans. [See Appendix E of the 2025 CMP](#) for more details.

Mitigation Measures

- Alameda CTC's policy regarding mitigation measures is that to be considered adequate they must be:
 - Adequate to sustain CMP transit service standards, and/or reduce VMT below the applicable level of significance;
 - Fully funded; and
 - Consistent with project funding priorities established in the Capital Improvement Program of the CMP, the Countywide Transportation Plan (CTP), and the Regional Transportation Plan (RTP) or the Federal Transportation Improvement Program, if the agency relies on state or federal funds programmed by Alameda CTC.
- The EIR should discuss the adequacy of proposed mitigation measures according to the criteria above. In particular, the EIR should detail when proposed roadway or transit route improvements are expected to be completed, how they will be funded, and the effect on service standards if only the funded portions of these mitigation measures are built prior to Project completion. The EIR should also address the issue of transit funding as a mitigation measure in the context of the Alameda CTC mitigation measure criteria discussed above.
- Project sponsors are encouraged to discuss multimodal tradeoffs associated with mitigation measures or project elements that involve changes in roadway geometry, intersection control, or other changes to the transportation network. This analysis should identify impacts on automobiles, transit, bicyclists, and pedestrians. The Highway Capacity Manual (HCM) 2010 Multi Modal LOS

methodology is encouraged as a tool to evaluate these tradeoffs, but project sponsors may use other methodologies as appropriate for particular contexts or types of mitigations.

- The EIR should consider the use of TDM measures, in conjunction with roadway and transit improvements, as a means of attaining acceptable levels of service. Whenever possible, mechanisms that encourage ridesharing, flextime, transit, bicycling, telecommuting and other means of reducing peak hour traffic trips should be considered.

Thank you for the opportunity to comment on this NOP. Please contact me at (510) 208-7474, or Aleida Andrino-Chavez, Associate Transportation Planner, at (510) 208-7480, if you have any questions.

Sincerely,

Colin Dentel-Post

Assistant Director of Planning

FROM: Kristen Villanueva, Director of Planning and Programs
Chris G. Marks, Senior Transportation Planner
Grasielita Diaz, Associate Transportation Planner

SUBJECT: Approve the 2026 Countywide Transportation Plan and the Alameda County Mobility Needs Assessment for Older Adults and People with Disabilities

Recommendation

It is recommended that the Commission approve the 2026 Countywide Transportation Plan (CTP) and the Alameda County Mobility Needs Assessment for Older Adults and People with Disabilities.

Summary

The 2026 CTP is the culmination of almost three years of community and stakeholder discussions, technical analysis, and policy development on a shared vision of the future of transportation in Alameda County. The CTP identifies projects, programs, and concrete actions that support local, countywide, and regional priorities necessary to achieve that vision.

Since April's CTP update to the Commission, staff conducted a final round of public engagement, collaborated with partner agencies and community-based organizations to review the final recommendations, and finalized plan content. Based on discussion at the Planning, Policy and Legislation Committee, a statistic comparing sidewalk-fall injuries among older adults to those caused by motor vehicles was added to Chapter 3, Countywide Needs.

This item recommends approval of the 2026 CTP, its accompanying Project and Program List, and the Mobility Needs Assessment for Older Adults and People with Disabilities. These documents are included as Attachments A, B and C, respectively, to this staff report. A summary of the final round of engagement is included as Attachment D.

2026 CTP Recommendations and Initial Actions

The CTP includes two primary components: a list of projects and programs that advance the vision over a long-term horizon and a set of more near-term strategies and actions that inform Alameda CTC's workplan. As shown in Attachment B and described in Chapter 4 of the Plan, the CTP includes over 400 projects and programs totaling \$64 billion, submitted by local jurisdictions and partner agencies—organized into 12 categories such as multimodal corridors, transit, trails, and resiliency projects, along with ongoing community programs. Inclusion in the CTP is a requirement for many funding programs and for consideration for inclusion in the Regional Transportation Plan. The last chapter of the CTP describes how strategies will be turned into action, including identifying a short-list of projects by planning area that are highly aligned with the goals and objectives of the CTP and describing actions organized around the plan's priority themes.

Several of these actions are already underway through dedicated planning efforts, including the Countywide Ramp Intersection Safety Plan, the Central County Community Connections Plan, the Safe Routes to School Capital Program, and the Priority Corridors Safety Initiative, each of which seek to address key needs identified in the CTP.

The CTP's core recommendations are informed by a parallel and complementary planning process with Alameda County's older adults and disability communities, which allowed for more detailed discussions of the unique needs and opportunities for transportation for this segment of the population. This effort culminated in the 2026 Mobility Needs Assessment for Older Adults and People with Disabilities (e.g. Paratransit Needs Assessment or PNA). The PNA includes recommendations to improve accessible transportation services across the county. In addition to community input, the PNA incorporates feedback provided by the Commission at its November 2025 and May 2026 meetings.

Development Process and Engagement

Alameda CTC updates the CTP approximately every four to six years to respond to changing conditions and evaluate new opportunities and demands placed on the transportation system. Recommendations from the CTP inform Alameda CTC's funding and legislative advocacy, programming actions, capital project development, program delivery, and priorities for planning initiatives. It also directly feeds into regional planning led by the Metropolitan Transportation Commission (MTC).

The 2026 CTP's [Policy Blueprint](#) was adopted by the Commission in October 2024 to define goals and objectives for the plan and other agency initiatives. The CTP was developed through robust engagement with local jurisdictions and agencies, community-based organizations, public engagement, public committees, and the Commission. Across several rounds of stakeholder and community engagement in 2025 and 2026, the CTP team led community events, meetings, and collected survey responses reaching more than 6,000 in-person and digital touchpoints in five languages. To ensure the CTP reflects local needs and priorities, staff held more than 40 workshops and one-on-one discussions with local jurisdictions and agencies to define priorities and identify the projects that most meaningfully advance the goals.

This summer, Alameda CTC released public drafts of the CTP and PNA and conducted a final round of engagement to support public review. This review period generated more than 100 public comments submitted through the website or by email as well as 1,000 in-person interactions at community meetings and events. Feedback generally reinforced priorities identified through earlier engagement and informed updates to the Final CTP and PNA as described in Attachment D.

Next Steps

After the CTP is finalized, Alameda CTC will advance the plan's strategies and associated actions—organized by immediate, near-term, and mid-term timelines—and identify efforts for collaboration with partner agencies. A concurrent update to the agency's Active Transportation Plan will provide information on how to advance strategies and actions specific to walking and bicycling. Staff plans to bring an update to the Commission on the Active Transportation Plan in early 2027.

Fiscal Impact

There is no fiscal impact. This item is for information only.

DATE: October 15, 2026

TO: Alameda County Transportation Commission

FROM: Remy Goldsmith, Assistant Director of Policy and Government Affairs

SUBJECT: Federal, State, Regional and Local Legislative Activities Update

Recommendation

This item will provide the Commission with an update on federal, state, regional and local legislative activities.

Summary

This item provides an update on federal, state, regional and local legislative activities.

Background

Each month, staff brings items to the Commission guided by the priorities identified in Alameda CTC's 2026 Legislative Program, approved by the Commission in December 2025 and included as Attachment A. The Legislative Program informs Alameda CTC's legislative activities, including recommended positions on pending legislation and updates on relevant legislative and policy developments. A summary of positions taken by the Commission this session is included in Table 1.

Federal Update

Both the House and the Senate have recessed until after the mid-term elections. They may take up appropriations and reauthorization of the five-year surface transportation bill when they return following mid-term elections in November, but the timing and approach remain uncertain.

State Update

The state legislative session concluded at the end of August and the Governor had through September 30th to sign or veto legislation. He signed all six bills supported by the Commission. Table 1 summarizes the approved legislation.

Among bills the Governor approved was AB 2788, the Transportation Omnibus bill. The legislation included enabling the California Transportation Commission (CTC) to approve an amendment to the State Route 238 Local Alternative Transportation Improvement Program (SR 238 LATIP), including a priority project list. Alameda CTC will lead the process with the local jurisdictions, including the cities of Hayward and San Leandro and Alameda County, to develop the SR 238 LATIP amendment, which will go before each local jurisdiction's governing body as well as the Commission for approval before submittal to the CTC.

Table 1. Summary of Bill Positions and Status as of October 22, 2026

Bill	Summary	Analysis	Commission Position & Bill Status
<u>SB 1087</u> <u>(Cabaldon)</u> Streamlines state transportation planning law.	Existing law requires metropolitan planning organizations to adopt Regional Transportation Plans (RTPs) every four years. Existing state law requires a Sustainable Communities Strategy (SCS) to achieve regional targets for the reduction of greenhouse gas emissions be included in each RTP. This bill would require the SCS element be included every eight years.	SB 1087 seeks to streamline the development and implementation process of RTP/SCSs to allow for more focus on implementation and better balance statewide and regional objectives. These goals directly support the work of Alameda CTC by refocusing staff resources and funding at the regional level with an emphasis on implementing projects, programs and policies.	Support Signed into law on September 30th. Chapter 1005, Statutes of 2026.
<u>SB 830</u> <u>(Arreguín and Wiener)</u> Revises original legislation authorizing	Existing law authorizes a sales tax applicable to Alameda, Contra Costa, San Mateo and Santa Clara counties and the City and County of San Francisco to support public transit to be placed on the November	SB 830 updates specific election procedures should a measure be placed on the November 2026 ballot. The updates will improve the clarity and	Support Signed into law on July 16th. Chapter 101, Statutes of 2026.

Bill	Summary	Analysis	Commission Position & Bill Status
regional sales tax measure.	2026 ballot. Existing law establishes specified procedures for that election. This bill revises election procedures by, among other things, requiring the measure to be identified on the ballot by the designation “Regional Transit Measure” and requiring each county elections official in the district to select arguments in favor of, and against, the measure to be included in the county voter information guide of each county, as specified.	transparency for voters should a measure qualify for the ballot by allowing county-specific arguments to be included in voter information guides. Assemblymember Wicks is a principal co-author, and Assemblymembers Bonta and Ortega are co-authors.	
<u>AB 2015 (Wicks)</u> Department of Transportation: third-party navigation applications: study and report.	AB 2015 would require California Department of Transportation (Caltrans), in consultation with the California State Transportation Agency (CalSTA) and local authorities, to conduct a pilot study in a region or area of the state, as determined by the department, on the impact of third-party navigation applications on the state highway system and local street and road networks. The pilot study would analyze how third-party navigation applications affect congestion	The study would analyze the impacts of third-party applications on the roadway network, including a focus on local congestion and neighborhood streets, safety, local infrastructure impact, and emergency response.	Support Signed into law on September 14th. Chapter 207, Statutes of 2026.

Bill	Summary	Analysis	Commission Position & Bill Status
	displacement, local infrastructure, safety metrics, and emergency response. Caltrans must include policy recommendations for regulatory or legislative action to improve the alignment between third-party navigation applications and state and local traffic management goals. Caltrans must submit the study to the legislature on or before January 1, 2029.		
SB 1167 (Blakespear) Electric Bicycle Safety.	SB 1167 makes comprehensive revisions to definitions of e-bikes and electric cycle or e-motos or mopeds, including definitions of speeds and motor power, and updates labeling and disclosure requirements for manufacturers and sellers of these devices. It also expands prohibitions on false advertising related to e-bikes. The bill additionally establishes new operational and safety requirements, as specified, expands reckless driving provisions to include bicycles, and imposes additional reporting requirements on law enforcement.	SB 1167 takes a targeted approach to advancing safety by focusing on clarifying which electric devices qualify as e-bikes and establishing clearer rules for devices that are higher-speed or higher-powered, which are recognized as posing greater safety risks. This approach strengthens safety and oversight, without limiting access to the e-bikes that support sustainability, mobility, and accessibility goals.	Support Signed into law on September 30th. Chapter 846, Statutes of 2026.

Bill	Summary	Analysis	Commission Position & Bill Status
<u>AB 1837</u> <u>(González, Mark)</u> Video imaging of parking violations.	Would extend until January 1, 2034 the expiration date of existing authorization allowing public transit operators to enforce parking violations in transit-only traffic lanes and transit stops through the use of video imaging. The current authorization is set to expire January 1, 2027.	Helps support transit operators' ability to operate on time schedules and encourage ridership while deterring traffic violations. AC Transit has taken a support position and is a co-sponsor of the bill. MTC has taken a support position on the bill.	Support Signed into law on September 30th. Chapter 900, Statutes of 2026.
<u>AB 2788</u> <u>(Assembly Transportation Committee)</u> Transportation Omnibus bill.	Among its provisions, authorizes Alameda CTC to amend SR 238 Local Alternative Transportation Improvement Program to update with a new priority project list and funding allocations.	Allows participating local jurisdictions to update and approve the SR 238 LATIP for submission to the California Transportation Commission, allowing remaining SR 238 property-sale revenues to be directed to current transportation priorities.	Sponsor Signed into law on September 14th. Chapter 223, Statutes of 2026.

Fiscal Impact

A. Alameda CTC 2026 Legislative Program

2026 Legislative Program

The Alameda County Transportation Commission (Alameda CTC) legislative program identifies core legislative priorities to support and advance the vision and goals adopted in the Policy Blueprint for the 2026 Countywide Transportation Plan. Alameda CTC will develop strategic partnerships and support efforts to increase transportation funding and support policies that advance this legislative program.

Core Legislative Priorities
Transportation Funding: Advocate for increased transportation funding and protection of existing funding to support projects, programs, and operations and seek to leverage local funds to the maximum extent possible to implement transportation improvements and services in Alameda County through grants and partnerships with regional, state and federal agencies. Advocate for sustainable funding to support transit agencies. Support efforts to advance full implementation of Cap-and-Invest Program to ensure revenues effectively benefit transit, sustainable transportation, and community investments.
Safety: Advocate for resources and legislation that enable Alameda CTC to deliver safe, multimodal infrastructure that prioritizes the safety of all users. Support opportunities for local jurisdictions to advance initiatives to increase safety in their communities.
Economic Vitality: Advocate for policies and investments that strengthen Alameda County's economy by supporting an efficient, reliable transportation system that provides access to opportunity and sustains prosperity across the Northern California megaregion. Support modernization of goods movement infrastructure, improvements to safety and reliability, and integration of transportation and land use to promote a cleaner, more resilient economy.
Healthy Communities: Support legislation, strategies and investments that reduce pollution to create sustainable and healthy communities and increase the resilience of our transportation system and communities, especially for low-income communities and those historically underserved by high-quality transportation. Promote initiatives that increase resiliency of the transportation system and support funding and investments to reduce pollution and improve air quality.
Equity: Advocate for resources, legislation, and initiatives that expand access to safe, affordable, and reliable transportation options throughout Alameda County, with focused support for low-income and underserved communities. Advance inclusion, economic opportunity, and healthy communities throughout the legislative program.
Effective Project Delivery and Operations: Support policies that facilitate efficient and expedited project development and delivery processes, effective and efficient transportation system operations, and innovative and timely project delivery.

In-depth Core Legislative Priorities

Transportation Funding: Advocate for increased transportation funding and protection of existing funding to support projects, programs, and operations and seek to leverage local funds to the maximum extent possible to implement transportation improvements and services in Alameda County through grants and partnerships with regional, state and federal agencies. Advocate for sustainable funding to support transit agencies. Support efforts to advance full implementation of Cap-and-Invest Program to ensure revenues effectively benefit transit, sustainable transportation, and community investments. Seek, acquire, accept and implement grants to advance project and program delivery.

- Support efforts to increase transportation funding and advance priority projects and programs in Alameda County, including regional transportation measures.
- Support transit agencies as they improve fiscal solvency and ridership, including regional efforts to secure sustainable multi-year funding and improve service for the public.
- Support efforts that protect against transportation funding diversions.
- Ensure fair share of sales tax allocations from new laws and regulations.
- Protect and enhance voter-approved funding. Support efforts to lower the two-thirds voter threshold for voter-approved transportation measures including funding for delivery of programs and operations.
- Support rewarding Self-Help Counties and states that provide significant transportation funding.
- Support efforts to increase funding and advance policies that support transit, paratransit, and multimodal transportation incorporating multiple modes of transportation.
- Support efforts to increase funding to advance safety and active transportation.
- Support policies and funding that enhance Bay Area goods movement and passenger rail funding, delivery and advocacy that improve the economy, local communities, and the environment.
- Support policies and programs that improve transportation services and infrastructure and do not create unfunded mandates.

Safety: Advocate for resources and legislation that enable Alameda CTC to deliver safe, multimodal infrastructure that prioritizes the safety of all users. Support opportunities for local jurisdictions to advance initiatives to increase safety in their communities.

- Expand multimodal options, shared mobility and innovative technology.
- Support investments in active transportation, including for improved safety and advance Vision Zero strategies to reduce speeds and protect communities.
- Support allowing cities the discretion to use more effective methods of speed enforcement within their jurisdictions.
- Support policies that advance safety for all users of the transportation system, including roadways, sidewalks and transit infrastructure.

- Support advocacy of cooperation and partnership with railroads to advance projects, with a particular interest in rail safety projects.

Economic Vitality: Advocate for policies and investments that strengthen Alameda County's economy by supporting an efficient, reliable transportation system that provides access to opportunity and sustains prosperity across the Northern California megaregion. Support modernization of goods movement infrastructure, improvements to safety and reliability, and integration of transportation and land use to promote a cleaner, more resilient economy.

- Support investments that strengthen Alameda County's role as the Bay Area's primary intermodal hub, improving goods movement infrastructure and ensuring that economic benefits are shared across local communities.
- Advance policies and funding that connect transportation and land use to expand access to quality jobs, education, and services, particularly in areas where improved mobility can unlock new opportunities.
- Promote infrastructure and programs that enhance reliability, affordability, and sustainability, supporting a resilient economy that benefits residents and businesses countywide.

Healthy Communities: Support legislation, strategies and investments that reduce pollution to create sustainable and healthy communities and increase the resilience of our transportation system and communities, especially for low-income communities and those historically underserved by high-quality transportation. Promote initiatives that increase resiliency of the transportation system and support funding and investments to reduce pollution and improve air quality.

- Support funding for infrastructure, operations, and programs to relieve congestion, improve air quality, reduce emissions, expand resiliency and support economic development, including to support transitioning to a cleaner transportation system.
- Support emerging technologies such as alternative fuels and technology to reduce greenhouse gas (GHG) emissions and encourage continued access to the electric grid for charging to support reliable operations.
- Support legislation to modernize the Congestion Management Program, supporting the linkage between transportation, housing, and multimodal performance monitoring.
- Support efforts to increase transit throughout the transportation system, such as on freeway corridors and bridges.
- Support efforts to address climate adaptation and resiliency including planning, funding and implementation support.
- Support legislation and policies to facilitate deployment of connected and autonomous vehicles in Alameda County to enhance last mile connectivity to transit, including data sharing that will enable long-term planning and analysis of benefits and impacts.
- Continue to support legislation that furthers flexibility and reduces barriers for infrastructure improvements that support the linkage between transportation, housing and jobs and leverage opportunities for implementing transportation-oriented

development and Priority Development Areas (PDA), the latter which are places near public transit planned for new homes, jobs and community amenities. This includes transportation corridor investments that link PDAs.

Equity: Advocate for resources, legislation, and initiatives that expand access to safe, affordable, and reliable transportation options throughout Alameda County, with focused support for low-income and underserved communities. Advance inclusion, economic opportunity, and health communities throughout the legislative program.

- Support investments in transportation that enhance access to goods, services, jobs and education.
- Support means-based fare programs while being fiscally responsible.
- Support policies and funding to develop and implement equitable mobility improvements.
- Support projects and programs that reduce emissions with a particular emphasis on communities historically disproportionately burdened by pollution from the transportation sector.
- Support expanding economic opportunities for small and local businesses by leveraging our procurement, contracting and hiring processes and supporting businesses that are disadvantaged or underrepresented.

Effective Project Delivery and Operations: Support policies that facilitate efficient and expedited project development and delivery processes, effective and efficient operations of the transportation system, and support innovative and timely project delivery.

- Advance innovative and cost-effective project delivery.
- Advance efficient and effective operations and governance of the express lane and high-occupancy vehicle (HOV) systems.
- Support environmental streamlining, efforts that reduce project and program implementation costs, and expedited project delivery, including contracting flexibility and innovative project delivery methods.
- Support funding and policies to implement transportation projects that create jobs and economic growth, including apprenticeships and workforce training programs.
- Support HOV/managed lane policies and efforts that promote effective and efficient lane implementation and operations, protect toll operators' management of lane operations and performance, toll rate setting and toll revenue reinvestments, deployment of new technologies and improved enforcement.
- Oppose legislation that degrades HOV lanes that could increase congestion and decrease efficiency.

DATE: October 15, 2026

TO: Alameda County Transportation Commission

FROM: Farid Javandel, Director of Project Delivery
Mike Chan, Agency Construction Manager
Matthew Bomberg, Principal Transportation Engineer

SUBJECT: Approve the San Pablo Avenue Parallel Bike Improvements Project Construction Package Construction Contract Award

Recommendation

It is recommended that the Commission approve the Executive Director or designee to award construction contract A27-0013 for \$8,448,360.70 to Sposeto Engineering, Inc. as the lowest responsible and responsive bidder for construction of the San Pablo Avenue Parallel Bike Improvements Project.

Summary

Alameda CTC is the Project Sponsor of the San Pablo Avenue Parallel Bike Improvements project, which will construct bicycle boulevard and traffic calming improvements along local streets parallel and connecting to San Pablo Avenue in the cities of Albany, Berkeley, Oakland, and Emeryville. The project achieved the Ready-to-List (RTL) milestone in July 2026 and all required funding approvals have been obtained to support the award of a construction contract. The project was advertised on August 10, 2026, bids were opened on September 21, 2026, and 8 bids were received. This action by the Commission will authorize the Executive Director or designee to award Construction Contract A27-0013 to the lowest responsible and responsive bidder for construction of the project.

Background

The San Pablo Avenue Parallel Bike Improvements Project will construct bicycle boulevard and traffic calming improvements along local streets parallel and connecting to San Pablo Avenue in the cities of Albany, Berkeley, Oakland, and Emeryville. Project elements will include traffic circles, traffic diverters, speed humps/tables, curb extensions, new flashing beacons and pedestrian signals, intersection daylighting (red curb), curb ramps, street paving, and landscaping improvements.

Alameda CTC has environmentally cleared and secured approximately \$12.6 million in external One Bay Area Grant funding for the Project. Alameda CTC, as the lead agency for the California Environmental Quality Act, cleared the project through a Categorical Exemption in July 2025. Caltrans, as the lead agency for the National Environmental Policy Act, approved a Categorical Exclusion in February 2026. The project achieved the RTL milestone (final Plans, Specifications, and Estimates and right-of-way certification) in July 2026.

The Commission approved release of an invitation for bid in April 2024 allowing staff to advertise the project based on grant funding requirements. The project was advertised on August 10, 2026, and was downloaded by at least 32 self-identified prime contractors and at least 18 self-identified subcontractors or suppliers. Bids were due on September 21, 2026 and 8 bids were received. The bidders (in alphabetical order) and amounts are listed in Table A below.

Table A: Bid Results

Contractor	Bid Amount
Bauman Landscape and Construction, Inc.	\$8,981,806.00
Bay Cities Paving & Grading, Inc.	\$10,371,338.60
DeSilva Gates Construction	\$9,700,700.00
Ghilotti Bros., Inc.	\$9,094,092.00
Ghilotti Construction Company, Inc.	\$9,988,688.44
McGuire and Hester	\$10,282,130.00
Redgwick Construction Co	\$10,729,457.40
Sposeto Engineering Inc	\$8,448,360.70

The project team analyzed the bids received to confirm the lowest priced responsible and responsive bidder and notified the bidders with a Notice of Intent to Award letter on October 6, 2026. Alameda CTC's Construction Management Administration Guide provides five business days for a bid protest period. No bid protests were received within the protest period, so staff requests an action to award the construction contract to the lowest responsible and responsive bidder at the October 22, 2026 Commission meeting.

Levine Act Statement: Sposeto Engineering, Inc. and their subcontractors did not report any conflicts in accordance with the Levine Act.

Fiscal Impact

The fiscal impact for approving this item is \$8,448,360.70, which was included in the budget adopted for Fiscal Year 2026-27.

October 22, 2026

San Pablo Ave Multimodal Corridor Plan

Goals

- Enhance **safety** for all travel modes
- Improve **comfort and quality** of trips for all users
- Support a **strong local economy** and efficiently accommodate **growth** while respecting local contexts
- Promote **equitable** transportation and design solutions for diverse communities throughout corridor

San Pablo Avenue Parallel Bike Improvements Project

Needs and Opportunities

- Safety:
 - San Pablo Ave. is third worst corridor on the county-wide high injury network (length and severity)
 - 74% of pedestrian collisions occur in crosswalks
 - Speeding is one of the largest causes of collisions.
- Transit:
 - In the peak, transit is ~ 30% slower than auto travel
 - Transit is unreliable: Transit trip times vary considerably more than auto trip times
- Growth: Entire length of San Pablo is designated as Priority Development Area and is actively developing today

Michael Consunji, Associate Program Analyst

SUBJECT: Student Transit Pass Program Update

Recommendation

This item will provide the Commission with an update on the Student Transit Pass Program (STPP). This item is for information only.

Summary

Initiated by the 2014 Measure BB Transportation Expenditure Plan, STPP provides unlimited free bus rides for qualifying middle and high school students in Alameda County. The pass also includes 50% off BART fares and youth discounts on other Bay Area transit systems.

The program serves 163 schools across 17 school districts countywide, with more than 32,000 students currently enrolled. This item provides a status update on the program, including activities required to streamline operations for the start of the 2026-27 school year and initial findings from the multi-year evaluation that will inform an upcoming strategic plan.

Program Background

STPP began in 2016 as a pilot program in five high schools and four middle schools, with the Commission approving a program expansion plan in December 2018. Expansion to all eligible schools was completed in the 2024-25 school year. STPP utilizes two eligibility models, Universal and Means Based, to determine which students at each school district qualify for the program. For Universal districts, all students in grades 6-12 are eligible, while in Means Based districts, students in grades 6-12 whose families meet the income eligibility guidelines for free or reduced-price meals qualify for the program. Attachment A lists the schools currently participating in the program. Of the 163 participating schools, 107 are under the Universal model and 56 are Means Based.

The program is operated in close partnership with transit operators, school site administrators, Alameda CTC staff, and consultants. The program's bus pass is on Youth Clipper cards so that rides can be tracked and reimbursed at the youth fare to Alameda CTC. Families apply to the program through the Alameda CTC agency website, school site

administrators verify eligibility and distribute cards to students, and transit operators produce and send the Clipper cards to each school.

2026-2027 School Year Fall Rush Update

Since most students apply during the August-October back to school period, card production during “fall rush” has historically been a bottleneck, particularly for schools served by AC Transit. Alameda CTC and AC Transit staff worked closely together to address this key issue. Last year, turnaround from application to card delivery took 6-8 weeks for AC Transit-served districts. This year, Alameda CTC staff are supporting AC Transit with physical card production. The program has also distributed new temporary Clipper cards to all AC Transit and Union City Transit-served schools so that students can start using the program while they wait for the official pass. Additionally, New Haven Unified School District was transitioned to the Universal eligibility model this fall and extensive back-to-school outreach has been effective in reaching families. As of September 18th, nearly 6,000 students countywide have requested a pass (including new and replacements), and more than 5,000 temporary passes have been distributed to students while they wait for their pass to arrive.

In response to Commission feedback, the program team held discussions with transit operators regarding free transit for all youth. Transit operators were concerned about the financial and operational impacts of this approach, particularly given the current financial challenges facing transit agencies and uncertainty over future service levels. The team will continue to explore options for program expansion as part of the upcoming strategic plan.

Six-Year (2019-2025) Evaluation

STPP grew dramatically from 2019 to 2025, as shown in Figure 1. Eligible students have nearly doubled, participants more than doubled, and annual rides tripled to more than 2.1 million a year by school year 2024-25. AC Transit absorbed most of this growth, adding 95 schools and more than 14,500 participating students. Students have become a larger share of total system riders than before the pandemic for LAVTA, making the program a structurally important part of its ridership base. Attachment C details the program’s growth over the six-year period.

Figure 1. Program Boardings, School Year 2019-20 through 2024-25

A third of passholders use their pass at least once a month. A recent survey of students and caregivers shows that 85% of respondents rated the pass easy to use, but their use may be limited by not needing transit, family preference, safety concerns, and confusion navigating the transit system. Once students start using their pass, usage is consistent, with about 75% riding at least a few times a week.

Annual program costs, which include both the youth fare costs for each trip taken by students and program administration, increased with growing program participation, from approximately \$1.35 million in 2019-20 to \$3.47 million in 2024-25¹. Administrative costs have consistently exceeded the Commission's adopted 5-8% target range, running as high as 30%, due to the high level of effort currently required to produce and ship Clipper cards and individually coordinate with each of the 160 schools that help administer the program. Streamlining program administration and pass production and distribution processes will be a key focus area for the strategic plan.

Peer Youth Fare Programs Review Key Takeaways

As the program is maturing, the team is looking at other agency's youth fare products for any applicable lessons for Alameda CTC's program.² Peer youth fare programs generally prioritize low-barrier access for students over strict verification and serve youth of all ages and income levels. Peer programs are typically embedded within transit agencies with minimal outside staffing, and simple, consistent messaging supports program success. Peer agencies that discussed operational impacts raised concerns about overcrowding on heavily used school routes, coordination with districts on field trip capacity, and challenges with service area or eligibility boundaries. Attachment D provides a comparison of the peer youth fare programs discussed. Findings from these interviews will inform the strategic plan.

Next Steps

Staff will initiate the program's strategic plan to guide future program changes and longer-term needs, working in close collaboration with our transit agency partners, and return to the Commission next year with recommendations from the strategic plan.

Fiscal Impact

There is no fiscal impact. This item is for information only.

Attachment B: Commission Adopted Goals from 2016

Attachment C: Six-Year Program Growth (2019-2025)

Summary

Since 2019, the Student Transit Pass Program has grown substantially in both reach and use. The number of participating districts grew from 11 to 17, and the number of participating schools nearly tripled, from 58 to 161, reflecting the program's expansion across Alameda County. That growth in participation was matched by a similar increase in ridership, with student boardings rising from about 818,000 in the 2019-20 school year to 2.17 million in 2024-25. The sections below detail this district and school growth, along with trends in boardings, over the program's first six years.

Participation

One of the goals of the Student Transit Pass Program is to reduce barriers to transportation access to and from schools. One way we measure progress toward that goal is by looking at the overall participation rate, which is the share of eligible students in each district who sign up for a pass. Any student who signs up to receive a transit pass is considered a “participant” regardless of how often they use the pass. The figure below illustrates total participation by school year and includes the total number of eligible students.

District and School Growth

In 2019, 11 school districts were included in the Student Transit Pass program: four new and seven returning. When the program reached scale by the end of 2025, 17 Alameda County school districts participated while the total number of participating schools rose from 58 to 161. The chart below shows the count of Participating schools by school district and year joined.

Year Joined	School District	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25
2016-17	Livermore Valley JUSD	9	9	9	9	9	9
2016-17	New Haven USD	5	5	5	5	5	5
2016-17	Oakland USD	14	17	17	42	48	52
2016-17	San Leandro USD	4	4	4	4	4	4
2017-18	Hayward USD	9	9	9	9	10	13
2018-19	Fremont USD	2	5	5	14	14	14
2018-19	Newark USD	4	4	4	4	4	4
2019-20	Alameda County Office of Education	2	2	2	4	8	11
2019-20	Alameda USD	1	3	3	7	7	10
2019-20	Emery USD	2	2	2	2	2	2
2019-20	Pleasanton USD	6	6	6	6	6	6
2020-21	Berkeley USD	0	3	3	5	5	5
2020-21	Castro Valley USD	0	4	4	4	4	4
2020-21	San Lorenzo USD	0	7	7	7	7	9
2021-22	Dublin USD	0	0	6	6	7	8
2023-24	Albany USD	0	0	0	0	1	2
2023-24	Piedmont USD	0	0	0	0	3	3
	TOTAL SCHOOLS	58	80	86	128	144	161

Boardings

Student Transit Pass participants represent a portion of each transit agency’s total ridership, and the goal of the program is to both build ongoing, long-term support for public transit while at the same time ensuring that operational capacity is not overwhelmed. As highlighted in the figure below, during the 2019–20 school year, students took around 818,000 rides; in the 2024–25 school year, that number nearly tripled to 2.17 million. Even considering that transit agencies stopped collecting fares in March 2020, that represents a massive increase, most likely due to the increase in participants in the program as well as general pandemic recovery.

Attachment D: Peer Agency Youth Programs Comparison

Program	Eligibility	Access Media	Access Process	Participant Estimates	Funding	Year Started
Youth Ride Free (King County Metro)	All youth 18 and under; older students can receive cards through their schools	No pass	Youth ORCA card encouraged but not required; all youth ride free	329,000 K–12 students	Annual Transit Support Grants from Washington State; funded via Climate Commitment Act and Move Ahead Washington	2022
Youth Ride Free (Spokane Transit Authority)	All youth 18 and under	No pass	Rider's License (youth card) encouraged but not required; all youth ride free	65,000 TK–12 students	Annual Transit Support Grants from Washington State; funded via Climate Commitment Act and Move Ahead Washington	2022
Free Muni for Youth (SFMTA)	All youth 18 and under	No pass	No pass required; all youth ride free	50,000 TK–12 students	SFMTA operating budget supported by voter-approved revenue measures	2013 (pilot); 2021 (application requirement removed)
GoPass (LA Metro)	Students at over 1,600 area K-12 schools and community colleges	Pass on annual transit card	LA Metro sends blank TAP cards and activation codes to schools. Schools are responsible for distribution. Students activate GoPass by filling out an online form with personal info and their code. Passes expire annually.	500,000 registered students	Schools and districts opt in and pay per student (using state education funding), plus Metro operating funds	2021
RydeFreeRT Pass (SacRT)	Students in grades TK-12 who live or work in the Sacramento area	Flash pass	SacRT sends flash passes with annual expiration dates to schools, libraries, and the customer service center. Students show pass to ride.	320,000 students	Cost-sharing model with SacRT covering the majority (~85%) and city/county/school districts splitting the rest	2019
Youth Opportunity Pass (SANDAG)	All youth 18 and under in the San Diego region	Youth transit card	Youth obtain a PRONTO card on their own, then make an online account and upload proof of age. MTS reviews applications with an automated script (typically ~24 hours).	113,000 Youth PRONTO cards	Funded by SANDAG (via CMAQ Program) and the County of San Diego (via American Rescue Plan Act)	2022 (pilot; scheduled to end June 2027)

ALAMEDA COUNTY TRANSPORTATION COMMISSION

Student Transit Pass Program

A presentation to the Alameda County Transportation Commission
October 22, 2026

Agenda

- Program Overview and Administration
- Recent Program Highlights
- Six-Year Evaluation Preliminary Key Findings
- Peer Program Key Takeaways
- Next Steps
- Questions

Alameda CTC Student Transit Pass Program Update

Overview

- Program developed as part of Measure BB Transportation Expenditure Plan.
- Provides unlimited free rides on AC Transit, Union City Transit, and Wheels, 50% off BART fares, and discounts on other Bay Area transit systems.
- Program coordinates implementation with three transit agency partners and site administrators at schools and districts.
- Two models for school districts– Free/Universal (107 schools) and Means-Based/Free (56 schools).
- Four Commission adopted goals and evaluation metrics guide the program.

Program Administration

- Majority of applications received and STPP cards produced occur during the fall.
- Consultants provide trainings to all site administrators during the beginning of the school year.
- Program team attends fall back-to-school night and school orientation events to enroll students and increase participation.
- Throughout the year, schools help promote the program, verify student applications and enrollment, and coordinate distribution of new cards to students.

Recent Program Highlights

- 2026: transitioned 4 districts to Free/Universal
 - Hayward USD
 - San Leandro USD
 - San Lorenzo USD
 - New Haven USD
- Fall 2026-27 Rush Process Improvements
 - **Provided additional card production support** to AC Transit via Alameda CTC program consultant and staff
 - **Implemented temporary passes** pilot Spring 2026; **established for all** AC Transit-served schools Fall 2026
 - **Proposed Free Transit for Youth** and **transitioning remaining districts to Free/Universal**, however, transit operators expressed initial concern; the program team will be revisiting those proposals with them during the strategic planning process

Six-Year Evaluation Preliminary Key Findings

- **The program grew dramatically** across every measure of participation from 2019 to 2025, despite the pandemic. Eligible students nearly doubled, participants more than doubled, and annual rides tripled to 2.17 million by 2024-25.
- **AC Transit absorbed most of the impact** of that growth, adding 95 schools and over 14,500 participating students, without a matching increase in administrative staff.
- **Only a third of passholders use their pass at least once a month.** The 2026 survey suggests this isn't about pass usability (85%+ rated it easy to use) but about not needing the bus, safety concerns, and confusion navigating transit.
- **Once students start riding, usage is consistent:** about three-quarters ride at least a few times a week.
- **Program costs rose mainly due to pass costs tracking ridership growth** (\$1.35 million in 2019-20 to \$3.47 million in 2024-25), and labor costs have consistently exceeded the Commission's 5-8% target, running as high as 30%.

Participation by SY, 2019–2025

Note: Any student who signs up to receive a transit pass is considered a "participant" regardless of how often they use the pass. Boxed total above each column are the number of participating schools for each given school year.

Alameda CTC Student Transit Pass Program Update

8

Peer Youth Fare Programs Review Key Takeaways

- Interviewed peer agencies such as King County Metro, Spokane Transit Authority, SFMTA, LA Metro, SANDAG, Sacramento RTD, and the Washington State DOT
- Key themes:
 - No comparable program requires individual card registration through schools
 - Several leading programs require no pass at all
 - Programs embedded within transit agencies operate with far less coordination
 - Pass-free programs reduce labor substantially but require alternative data strategies for funding reimbursement

Next Steps

- Continued focus on pass production and distribution, and program outreach
- Initiate Strategic Plan
- Coordination with transit agency partners and school districts on a phased implementation/strategic plan
- Update Commission in Spring 2027 on initial recommendations
