III) PUBLIC COMMENTS

Minutes: The Public Comments were as follows:

IV) WORKSHOP

1. Discussion Regarding School Board Member Election Boundaries

Minutes: The Board held a discussion regarding the possibility of moving current District voting boundaries to align with the Boundaries of the County Commission. Mr. Stephen Dye, Board Attorney, provided the School Board with background information and noted the Florida Statute and the School District Policies that pertain to the movement of boundaries. Mr. Dye advised the Board on the process and noted that District lines are typically reviewed following updated Census data.

Mr. Joeseph Ranaldi, Deputy Superintendent of Operations, provided handouts to the Board and shared four maps:

- Current School Board Member Districts
- County's Board of County Commissioners' Districts
- A map overlaying the County's boundaries with the School Board's boundaries
- A map including roadways and boundaries

Board Member Foreman inquired about the current data. Mr. Ranaldi stated that the data for the handouts came from the 2020 Census and confirmed that it was the same data that the Board had previously used for establishing boundaries. Mr. Ranaldi also informed the Board about the process the District goes through to ensure the boundary lines produce balanced Districts.

Vice-Chair Spray and Board Member Tatem responded with their desire to realign the School District with the County Commissioners.

After question posed by Board Member Foreman, School Board Attorney Stephen Dye provided additional information regarding the language of the relevant Statutes. Board Member Foreman stated that she would not be in support of redistricting the School District to align with the County.

Board Member Messenger agreed that it is easier for the voters if the County and School Board have the same Districts but noted that she does not agree with the process the County followed. Board Member Messenger noted that if re-aligned, it would cause a precinct change that would take away the ability for many people to vote at the next school board election, after having missed the previous election due to a boundary change as well. She stated that she would not be able to support this item if it comes to vote.

Chair Choate stated that he would be in favor of following the same boundaries as the County, noting that it is better for the voters to have the District boundaries align.

2. Community Use of School District Sites After Hours

Minutes: The Board held discussion regarding the possibility of allowing public citizens to use School District sites after school hours.

Information on the subject was delivered to the School Board by Mr. Joseph Ranaldi, Deputy Superintendent of Operations; Principal Dustin Dahlquist, Lakewood Ranch High School; Principal Michael Mullen, King Middle School, and Mr. Willie Clark, Executive Director of Secondary Schools. Key factors of consideration noted by District staff included the following:

- Cost of Implementation
- Cost of Maintenance and repairs due to potential damage.
- Support staff required to open, close and clean locations.
- Potential security costs and upgrades – Insurance / Liability issues
- Site hours of availability
- Facilitron System that currently allows for public to secure the use School District Sites

The Board asked questions and continued discussion. Mr. Dahlquist noted that general access to an entire facility could be un-safe and would be potentially limiting to the school-based clubs and activities that currently exist. He noted another concern is security, which is expensive and would be a significant cost to the participating school and District.

Mr. Mike Mullen, Principal of King Middle School spoke to the Board and noted the use of facilities does include safety concerns. He stated there are currently MOUs in place for various organizational access of King Middle School facilities, and issues still arise on the school campus.

Mr. Willie Clark, Executive Director of Secondary Schools, informed the Board that the existing Facilitron Management System allows the community to request access and use of the School District facilities with a written request through the system, and once the requirements are met.

The Board considered the following issues:

- Strategic placement of 'open' facilities for students
- Full-usage agreements

Vice-Chair Spray noted she would not be in favor of every facility to be open, including the new turf fields. Board Member Messenger noted the facilities are already allowed if they go thru the Facilitrion process.

Chair Choate called a recess at 11:25 AM. and the Board returned at 11:36 AM.

Mrs. Spray left the meeting at 11:25 AM.

Title
Bradenton Lions Club

Executive Summary
The Bradenton Lions Club has a long history of providing free vision screening for students of the School District of Manatee County. During the 2022-2023 school year, the club provided vision screening and assisted in hearing screening for over 12,500 students. This school year, the club has already screened over 6,000 students, averaging three screenings per week since August.

The club utilizes state-of-the-art screening equipment that rapidly detects many vision problems that would not be detected by a simple eye-chart test. The equipment has been purchased through fundraising and grants from community and Lions foundations.

The club also works closely with school and health department nurses in coordinating the screening schedule. Vision referrals are handled by the nurses. If a child is found to be in need of vision care, not covered by insurance, and in financial need, the nurses are able to request a voucher from our Manatee County Lions Sight Foundation to obtain an exam and glasses.

There is no cost to the parents for the service provided. In the event a child is found to have a more serious ophthalmologic condition, that student can be referred to the state foundation to obtain needed care.

This item aligns with the District's Strategic Plan Goal(s) which state(s):

Ready To Grow | Goal 7
Promote our schools and District as remaining highly competitive and uniquely designed to produce top-notch graduates, great neighbors, and responsible citizens

School Board of Manatee County
December 12, 2023 - Regular Board Meeting and Public Hearing
Action Item

Title
Approval of the Report of Teachers Out-of-Field Content, Reading, ESOL (English for Speakers of Other Languages), and/or Long-Term Substitutes (No Financial Impact)

Executive Summary
The Out-of-Field Plan for Manatee County Schools provides that teachers are notified of their out-of-field status at the point that their current certification does not meet the required certification for the subject(s) they are teaching. State School Board Rule 6A-1.0503 provides that any out-of-field teacher must be appointed as out-of-field after verifying that an appropriately certified teacher is unavailable. The School Board appointed the attached list of teachers as out-of-field. These teachers can pass the subject area exam or complete a minimum of six semester hours annually toward certification until such time they can pass the test, if applicable.

The Multicultural and Educational Training Advocacy (META) Consent Decree requires that all teachers of English Language Learners (ELLs) receive training in English for Speakers of Other Languages (ESOL) strategies. The required training hours range from 18 to 300 hours and are categorized by the subject in which the teacher gives instruction. Categories are I, II, III, and IV. The category also drives the timeline for completing training hours. Specifics are given to each teacher at the time of hire or when there is a change of assignment. Category I Teachers who are not ESOL Certified or Endorsed must be reported to the Board as out-of-field. The attached list contains the teachers' names that must be reported to the Board.

This item aligns with the District's Strategic Plan Goal(s) which state(s):

Ready To Grow | Goal 1
Develop a competitive employee salary schedule to keep and attract the best talent and continue to provide quality customer service to our staff and parents

Ready To Grow | Goal 2
Strengthen our new employee orientation and development program to foster, promote, and retain extraordinary educators and staff

Recommendation
The Superintendent recommends approval of the report of teachers out-of-field content, reading, ESOL (English for Speakers of Other Languages), and/or long-term substitutes. (No Financial Impact)

Financial Impact
There is no financial impact.

Abstract (Required, but no points assigned)

Provide a brief summary of no more than 500 words describing the proposed project for the Stronger Connections Grant and the intended safe and healthy student outcomes. The summary must include the goals and objectives for each year of the grant.

The School District of Manatee County (SDMC) provides over 52,000 students in both public and charter schools with an exemplary student-focused education that develops them into lifelong learners to be globally competitive. Through funding from the Stronger Connections Grant, the district will provide a safe and academically rigorous environment, aligned to the new resiliency instruction, to prepare all students, especially English Language Learners (ELL) and Students with Disabilities (SWD), to become productive global citizens equipped with problem-solving skills, creativity, critical thinking, leadership, initiative, and self-direction. SDMC proactively developed strategies and interventions that will meet the needs of all of its students - especially those who are underserved or at-risk. Of its over 52,000 students, 15.9% are Students with Disabilities (non-gifted) and 12.5% are English Language Learners.

The School District of Manatee County intends to implement *Building Resiliency Now and Beyond* initiative to support students, staff, teachers, and families to improve the school environment, including but not limited to engagement, belonging, and GRIT. After identifying and comprehensively analyzing the many challenges facing the underserved students of Manatee County, it was determined that there is a critical need for resiliency work to support ELL and ESE students. *Building Resiliency Now and Beyond* is designed to provide tiered support for ELL and ESE students in the areas of instruction, achievement, and leadership skills. Through the interdepartmental collaboration of the ESE Department, ELL/Dual Language, Curriculum, and Professional Learning the School District of Manatee County will develop and implement strategic professional development, activities, and projects that will enhance instructional practices to support the facets of resiliency to our most fragile students, SWD and ELL. SDMC will enhance elements of the Professional Learning department to ensure all resiliency projects, activities, and training implemented will directly impact the district's ESE and ELL students. To cultivate systemic change in schools, all district leaders, school administrators, teachers, support staff, and stakeholders must utilize the same language to ensure a supportive, healthy, engaging learning environment to improve resiliency and academic achievement.

The *Building Resiliency Now and Beyond* was created with the overarching goal of increasing student resiliency and a sense of belonging within the School District of Manatee County. Based on Spring 2023 Climate Survey data, 31% of secondary students in SDMC felt a sense of belonging at their respective schools; 22% felt attentive and/or engaged in classroom instruction; 40% felt they could regulate their emotions.

This data demonstrates a strong need for *Building Resiliency Now and Beyond* in the School District of Manatee County. By September 2026, there will be a favorable increase of 20% on the SDMC Climate Survey for school environment that is disseminated twice a year. As student resiliency increases, student engagement and student achievement will therefore be positively impacted (Brown, 2023).

The SDMC will implement the following programs: Increasing student connection and sense of belonging through ongoing job embedded professional development, promoting supportive school climates, enhancing a healthy learning environment through evidenced based strategies, and parent involvement through resiliency resources and outreach.

Stakeholder Engagement (15 points possible)

Describe stakeholder engagement for the SCG. Include the types and number of stakeholders engaged and the method of engagement during the development of the application. Summarize the comments and feedback received during stakeholder engagement, and describe how feedback was incorporated during the development of the application. Describe the plan for the frequency and method of continuous stakeholder engagement during the project period and the topics in which stakeholders will be engaged.

Numerous stakeholders were engaged, leading to meaningful contributions towards the design and development of the Stronger Connections Grant (SCG). The types of stakeholders and number of stakeholders, as well as the methods of engagement that contributed to the development of the SCG are as follows:

•Parents (1573+) – 1. Surveys, quantitative parent input of needs and ideas were captured by Title I, Part A (1,545) and Title I, Part C (28), and furnished to assist with the writing of the Stronger Connections Grant. 2. Informal Dialogue - Qualitative parental input at individual school events and the District Community Resource Fairs as they engaged in Q&A and sharing of ideas at these events (3000+ attended events).

•Students (3,280) – Surveys - District-wide annual Student Climate Survey (3,280).

•Teachers (1160) – Surveys and Dialogue at trainings and meetings such as: Title I Teacher Survey (510), Mentor Teacher PD (120), CHAMPS/Spark trainings (150), and New Teacher trainings (280).

•School Leaders (District and Schools) (88) – Meetings at the district level administration (16) Department meetings (42). These meetings include leaders from Curriculum (all subject areas), Project Heart, ESOL, ESE, Music & Performing Arts, Drop Out Prevention, Assessment and Accountability, and Human Resources. Additionally, school level leaders participated in the Code of Conduct Committee meetings (25), which is a district-wide committee that examines discipline, school climate, impacts of discipline policy, and makes recommendations to the superintendent and schoolboard.

•Community members and Organizations (40+) – 1. Meetings include monthly Whole Child Manatee (40) (includes county wide non-profits to share input to challenges observed in our community). At these meetings community organizations discuss current issues to create awareness, problem-solve, and many volunteer services as part of a solution to presented challenges. 2. Dialogue at district-wide events such as the District Community Resource Fairs where community organizations such as MCR Health, Manatee Migrant Head Start, and Project Light participated in assisting families.

•Local government representatives (2) – Meetings include local police department representatives who participated in the Code of Conduct Committee meetings (2), which is a district-wide committee that examines discipline, school climate, impacts of discipline policy, and makes recommendations to the superintendent and schoolboard.

A summary of all the feedback received from all stakeholders is as follows:

•Teachers need and want training/professional development that focuses on teaching strategies and classroom management strategies, and how to meet the needs of ESE and ELL students. Teachers and administrators do not feel that most professional development should focus on how to utilize programs.

•The two most pressing conditions for improvement to favorable student experiences regarding Classroom/School Environment include Climate and Engagement. When analyzing Climate, ELL students fall at the 30th percentile while ESE students are at the 20th percentile (compared to other students in the nation). Climate at the secondary school level ranks both groups below the 10th percentile in the nation. Engagement at the elementary school level is at the 30th percentile for ESE and ELL students. Engagement for secondary students is at or below the 10th percentile in the country.

•Only 45% of parents surveyed had a strong feeling that, “There is a high level of trust between parents, teachers, administrators, and students at their child’s school.”

The feedback provided by our stakeholders is the principle reason this SCG application will focus heavily on utilizing professional development, supports for school climate, resources to elevate the learning environment, and increased parent engagement as a district-wide strategy to support ESE and ELL students. The areas in which teachers have expressed that there is a need for further training and professional growth can be linked directly to reducing the number of referrals received by ESE and ELL students. Staff learning to engage ESE and ELL students will also reduce the number of referrals but will also be aimed towards closing the achievement gap. Thus, the feedback of our stakeholders is clearly incorporated into the development of this application.

The engagement of our stakeholders will continue in the same manner their feedback was collected. The School District of Manatee County will once again hold Community Resource Events, schedule monthly Department meetings, and hold the Student Code of Conduct Committee meetings in the second semester of the school year. Furthermore, the School District of Manatee County will continue the practice of collecting annual student survey data, semi-annual parent survey data from Title I, Part A and Title I, Part C.

Needs Assessment (10 points possible)

Provide a summary of the needs assessment that includes:

- the identified need(s) and greatest challenges that could be addressed with SCG funds;
- a description of the sources and findings of data reviewed;
- a description of how stakeholder groups were engaged in the analysis and prioritization of identifying needs; and
- a description of any programs, activities, and resources already being used to address the identified need(s).

Note: Programs outlined in the program implementation section must have a demonstrated connection to the identified needs and challenges outlined in this summary.

As a result of stakeholder engagement that was included in the overall Comprehensive Needs Assessment, the School District of Manatee County aims to close the ELA academic achievement gap of ELL and ESE students. To achieve this objective, the School District of Manatee County will utilize the SCG for professional development focused on developing teacher efficacy in the professional practices that most directly impact the greatest needs of our ESE and ELL student population (Reference stakeholder engagement narrative). The two most pressing conditions for improvement to favorable student experiences regarding Classroom/School Environment include Climate and Engagement, which based on research impacts student achievement. Some of the needs of our ESE and ELL students are evidenced by the following data:

- ELA Standardized State Tests demonstrate an academic gap in proficiency for ESE and ELL students. There is a 25% gap in proficiency between ELL students and non-ELL students. The gap between ESE students and non-ESE students is 32%.
- When analyzing Climate, ELL students fall at the 30th percentile while ESE students are at the 20th percentile (compared to other students in the nation). Climate at the secondary school level ranks both groups below the 10th percentile in the nation.
- Nationally, Engagement at the elementary school level is at the 30th percentile for ESE and ELL students. Engagement for secondary students is at or below the 10th percentile in the country.

Stakeholders were engaged in the analysis and prioritization of identifying needs, especially through the Stakeholder Engagement process. Various types of meetings described in Stakeholder Engagement discussed topics and even possible solutions to address the needs of our ESE and ESOL students. Some examples from above include:

Parents – 1. Surveys - Only 45% of parents surveyed had a strong feeling that, “There is a high level of trust between parents, teachers, administrators, and students at their child’s school.” 2. Informal Dialogue - Qualitative parental input at individual school events and the District Community Resource Fairs as they engaged in Q&A and sharing of ideas at these events (3000+ attended events).

Students - Surveys - District-wide annual Student Climate Survey (3,280). Stakeholders such as students provided the data, through surveys, which led to information about the greatest priorities to be addressed (School Environment). Teachers– Surveys and Dialogue at trainings and meetings – teachers discussed their current needs and solutions to their needs. Teachers report a need and want for training/professional development that focuses on teaching strategies and classroom management strategies, and how to meet the needs of ESE and ELL students. Teachers and administrators do not feel that most professional development should focus on how to utilize programs.

School Leaders (District and Schools) – Meetings at the district level administration Department meetings analyzed data, identified areas of concern, and offered potential solutions. These meetings included leaders from Curriculum (all subject areas), Project Heart, ESOL, ESE, Music & Performing Arts, Drop Out Prevention, Assessment and Accountability, and Human Resources. Additionally, school level leaders participated in the Code of Conduct Committee meetings, which is a district-wide committee that examines discipline, school climate, impacts of discipline policy, and makes recommendations to the superintendent and schoolboard. Community members and Organizations – 1. Meetings include monthly Whole Child Manatee (includes county wide non-profits to share input to challenges observed in our community). At these meetings community organizations discuss current issues to create awareness, problem-solve, and many volunteer services as part of a solution to presented challenges. 2. Dialogue at district-wide events such as the District Community Resource Fairs where community organizations such as MCR Health, Manatee Migrant Head Start, and Project Light participated in assisting families. Local government representatives – Meetings include local police department representatives who participated in the Code of Conduct Committee meetings, which is a district-wide committee that examines discipline, school climate, impacts of discipline policy, and makes recommendations to the superintendent and schoolboard.

Some programs/activities/resources currently being used to address the identified needs include:

A districtwide behavior framework, CHAMPS, New Teacher Mentor Program, Ellevation, and multiple District Community Resource Fairs offered semiannually.

Program Implementation (35 points possible)

Describe the program and the specific activities within in it the LEA plans to implement with SCG funds. For each proposed program, provide the following information in the template:

- the goals, objectives, and anticipated student outcomes;
- the implementation timeline including the expected grant year; and
- the program measures that will be used to monitor for implementation effectiveness.

At least one program must prioritize the provision of safe, healthy, and supportive learning environments for only ELLs and/or SWDs to improve their academic achievement and resiliency and/or reduce absenteeism.

All programs must prioritize the provision of safe, healthy, and supportive learning environments for ELLs and/or SWDs.

Note: Five program activity templates are included in this application. If additional program activity templates are needed, copy, cut, and paste additional tables. If less than five are needed, delete the extra templates.

Objective 1: Sandy Hook Assemblies and Save Promise Clubs: Together, the School District and Sandy Hook Promise will deliver training at the secondary schools over the next two years. The educational Know the Signs programs including Start with Hello and Say Something will teach students and staff how to prevent school violence or other harmful acts and how to identify at-risk behaviors. Both programs will be delivered in person at each school via an assembly format with options for virtual training. Each school will also participate in Students Against Violence Everywhere (SAVE) Promise Clubs. The Clubs empower students to take charge of keeping schools safe by modeling and reinforcing the message to sustain a Caring, Connected School Community. This will be a peer-led effort to impact school climate and school safety. Established clubs will meet weekly at various times.

Objective 2: Trauma-Informed practices (Restorative Practices) The department will train personnel at each school site around Restorative Practices. School culture is the foundation of relationship building strategies that establish, maintain, and restore empathy, trust, and compassion amongst a community of staff and scholars. By implementing the foundational skills of community and restorative practices, it will help move a school from the mindset of survival to the mindset of thriving.

When analyzing Climate survey data, ELL students fall at the 30th percentile while ESE students are at the 20th percentile (compared to other students in the nation). Climate at the secondary school level ranks both groups below the 10th percentile in the nation. This shows a need for the activities listed above in program two to improve school climate.

4. Identify which group of students will be impacted by the program activity and the approximate number of students that will be served.

All students K-12, approximately 52,000 students, will be impacted through program two. There will be an emphasis on ESE students (11,325) and ELL students (7,720) feeling safe, welcomed and accepted within their school community.

5. Explain how ELLs and SWDs will be prioritized.

While all students will benefit from the assemblies, clubs, and restorative practices these activities were created to support the specific needs of ESE and ELL students as outlined by school climate survey data.

6. Outline the goals, objectives, and anticipated student outcomes.

By September 2026, there will be a favorable increase of 20% on the SDMC Climate Survey is disseminated twice a year on the following areas belonging, self-regulation, engagement and grit which demonstrated the greatest area of need based on student data. Building capacity of teachers currently servings ESE and ELL students through increased student engagement and classroom climate as evidenced through the semiannual Panorama survey data.

7. Provide the implementation timeline including the expected grant year.

Project Period	Program & Objective	Activity	Deliverable	Expected Completion Date	Person Responsible
Year 1, Quarter 3 Year 2, Quarter 3	2,1	***Sandy Hook Assemblies and Save Promise Club*** Sandy Hook Promise Organization will come to Manatee County and provide training to teachers, students, school administrators, and staff on resiliency strategies to implement within the school and personal lives. 8. Explain the program measures that will be used to monitor implementation effectiveness.

Program measures to monitor increasing student connection and sense of belonging by promoting supportive school climates will include SDMC Student Climate survey and family/community surveys.

By September 2026, there will be a favorable increase of 20% on the SDMC Climate Survey for school environment. The SDMC climate survey for school environment is taken two times per year. After each survey, data will be analyzed for progress towards the 2026 goal of a 20% increase.

Program Implementation

PROGRAM #3 – Enhancing a healthy learning environment through best practices and evidenced based strategies

1. Select the primary type of safe and healthy program or activity.

Providing additional resources, materials, supplies, and/or equipment to create or enhance a safe and healthy learning environment

2. Describe how the program will be implemented with specific activities included.

Objective 1: Ellevation – First implemented one year ago, The Curriculum Associates' Ellevation Platform offers a "a comprehensive ELL program management tool that organizes all ELL student data that supports critical meeting and monitoring processes, enables accurate reporting, and supports instructional planning for multilingual students." Additionally, it is a "teacher capacity solution, that offers a set of research-based instructional practices and activities to help classroom teachers plan instruction and help ELLs acquire language while mastering grade-level content." This platform is currently being implemented with success in many Florida school districts, including Sarasota County, Hillsborough County, Miami-Dade County, and Broward County. The SDMC will utilize funds to continue the use of Ellevation.

The district will provide professional learning opportunities to teaching staff on the continued implementation of Ellevation. The ESOL resource teachers and district level ESOL specialists will be the points of contact at each school site for support.

This will continue to be implemented to support ELL learners while also utilizing the strategies to support ESE students.

Objective 2: Curriculum Writing- The School District of Manatee County curriculum guides will be updated to include evidenced-based strategies for ESE and ELL students. ESE, ESOL, Curriculum and core identified teachers will work together to update the 24-25 curriculum maps to have ESE and ELL evidenced-based strategies.

3. Explain how the program connects to the SCG needs assessment.

Based on the needs assessments, engagement at the elementary school level is at the 30th percentile for ESE and ELL students. Engagement for secondary students is at or below the 10th percentile in the country. Ellevation will provide teachers will research-based strategies to plan engaging, high quality lessons to positively impact not only student achievement, but student climate.

4. Identify which group of students will be impacted by the program activity and the approximate number of students that will be served.

All ELL students served in the School District of Manatee County (7,720) will be impacted through the continued implementation of Ellevation. As teachers build their repertoire of ESOL strategies, all students may benefit from the engaging, research-based teaching strategies.

5. Explain how ELLs and SWDs will be prioritized.

The Ellevation Platform offers a comprehensive ELL program management tool that organizes all ELL student data that supports critical meeting and monitoring processes, enables accurate reporting, and supports instructional planning for multilingual students. This program was selected to aid teachers build capacity and

knowledge of research-based strategies. The teachers will strengthen their skills to utilize these strategies and best practices to reach ELL students, ESE and students in the general education population will also benefit.

6. Outline the goals, objectives, and anticipated student outcomes.

This program will build capacity of teachers currently serving ELL students through increased student engagement and classroom climate as evidenced through the semiannual Panorama survey data. Increased student engagement will also be evidenced through increased student achievement. Improved teaching practices and engagement strategies to meet needs of ELL students (and ultimately ESE students as well) as evidenced through their increased growth and achievement scores. The capacity of sites will be improved as effective professional learning models are in place and supported.

7. Provide the implementation timeline including the expected grant year.

Project Period	Program & Objective	Activity	Deliverable	Expected Completion Date	Person Responsible
Year 1, Quarter 3 *(Activities occur through the end of project.)*	3,1	***Elevation Implementation and Monitoring*** • Elevation will be used to support instructional personnel in the area of using evidence-based instruction strategies to support ELL and ESE learners.	Contract and Invoice	September 2026 *SDMC is currently using the program for ELL strategies. Will add ESE during the Fall of 2024.*	Director of ESOL, Migrant, and Dual Language
Year 1 Quarter 2 (Activities occur through the grant project.)	3,2	**Curriculum Writing and Enhancement** The School District of Manatee County curriculum guides will be updated to include evidenced-based strategies for ESE and ELL students. ESE, ESOL, Curriculum and core identified teachers will work together to update the 24-25 curriculum maps to have ESE and ELL evidenced-based strategies embedded.		April 2024 to July 2026	Director of Elementary and Secondary Curriculum

8. Explain the program measures that will be used to monitor implementation effectiveness.

Program measures to monitor Ellevation include user management reports and student compliance reports. The ESOL Specialists will monitor the implementation of the Ellevation platform. They will utilize the user management and student compliance reports daily to ensure effective ongoing usage of the program.

The SDMC climate survey will be used to evaluate increased student engagement through the effective use of the ESOL strategies provided through the Ellevation platform. By September 2026, there will be a favorable increase of 20% on the SDMC Climate Survey for school environment. The SDMC climate survey for school environment is taken two times per year. After each survey, data will be analyzed for progress towards the 2026 goal of a 20% increase.

Increased student engagement will lead to increased academic growth. Student academic growth and achievement of ELL and ESE populations will be monitored utilizing FAST progress monitoring, three times per year. By September 2026, there will be a 5% decrease in the achievement gap of ESE and ELL students as to compared to the general education student population.

Program Implementation

PROGRAM #4 –Parent Involvement Through Resiliency Resources and Outreach

1. Select the primary type of safe and healthy program or activity.

Promoting parent and community involvement in schools

2. Describe how the program will be implemented with specific activities included.

Objective 1: Training of School and District personnel to support parent outreach and training

The school district and school staff need to connect and build positive relationships with parents before parents can be effectively engaged in supporting school climate programs and resiliency education. The first tier of developing parental involvement through resiliency resources and outreach will be to provide district personnel and staff ample professional development in areas of effective family engagement strategies. These strategies will be utilized to develop a coordinated district framework for family engagement. The district family engagement framework will be used as a comprehensive approach to connect district resources, school resources, and community resources to family needs. Identified school and district staff will participate in facilitated training. Identified staff will develop training curricula and resources to train and provide to families. Data from families will be collected on a quarterly basis to gather parent input and feedback regarding the trainings and serve in the development of the coordinated family engagement framework. Lastly, the coordinated family engagement framework will be presented at the District SAC meeting to involve all school personnel and families.

Objective 2: Engage Families in Resiliency Education

An engaged family becomes part of the school's decision-making process. To increase family engagement in resiliency education the School District of Manatee County will establish positive connections to provide family workshops in resiliency education through various activities and opportunities to allow families to engage and become active participants with their children. SDMC staff will be trained to conduct workshops throughout district Schools, Community Resource Events, and not limited to District SAC meetings. Staff will be trained in evidence-based strategies to support family engagement that will lead to increased student achievement and building a sense of belonging throughout the School District of Manatee.

Objective 3: Parent workshops

The School District of Manatee County (SDMC) will partner with community-based organizations like Whole Child Manatee, Parenting Matters, and Centerstone to name a few to provide evidence-based parent workshops aimed to better equip parents with skills needed to support their children in the arena of critical thinking and problem-solving skills. SDMC is looking to provide 300-plus families each year the opportunity to participate in these engaging interactive workshops.

3. Explain how the program connects to the SCG needs assessment.

The needs assessment revealed that, "Only 45% of parents surveyed had a strong feeling that, 'There is a high level of trust between parents, teachers, administrators, and students at their child's school.'" This data prompted the creation of the parent trainings and workshops to engage families. Increased parental engagement will lead to higher levels of trust.

4. Identify which group of students will be impacted by the program activity and the approximate number of students that will be served.

All families served in the SDMC (over 52,000 students) will be provided with the parent resiliency information through trainings at SAC meetings at each school site as well as District SAC meetings. It is also the goal to have 300 plus families participate in interactive workshops offered through community-based organizations.

5. Explain how ELLs and SWDs will be prioritized.

While all families are invited to participate and attend resiliency trainings, families of ELL and ESE students will be prioritized. The SDMC is prioritizing Parent Resiliency Trainings as this is a need of the district's ESE and ELL families. The following departments will campaign to gain ESE and ELL parental participation: ESOL, Migrant, and ESE.

6. Outline the goals, objectives, and anticipated student outcomes.

By September 2026, there will be a favorable increase of 20% on the SDMC Climate Survey is disseminated twice a year on the following areas belonging, self-regulation, engagement and grit which demonstrated the greatest area of need based on student data. Building trust among the families and the district through multiple workshops and trainings will lead to increased student engagement and positive classroom climate as evidenced through the semiannual Panorama survey data. Additionally, parent surveys and informal dialogue will be used to gather feedback from resiliency parent trainings.

7. Provide the implementation timeline including the expected grant year.

8. Explain the program measures that will be used to monitor implementation effectiveness.

Program measures to monitor parent involvement through resiliency resources and outreach will include SDMC family surveys.

By September 2026, there will be a favorable increase of 20% on the SDMC Climate Survey for school environment. The SDMC climate survey for school environment is taken two times per year. After each survey, data will be analyzed for progress towards the 2026 goal of a 20% increase.

Evidence-based Programs (15 points possible)

For each proposed program, identify the tier of evidence and describe how project activities are supported by evidence-based research.

The tiers of evidence are as follows:

- Tier 1-Strong Evidence: Well-designed and implemented experimental study, meets What Works Clearinghouse (WWC) standards without reservations.
- Tier 2-Moderate Evidence: Well-designed and implemented quasi-experimental study, meets WWC standards with reservations.
- Tier 3-Promising Evidence: Well-designed and implemented correlational study, statistically controls for selection bias.
- Tier 4-Demonstrates a Rationale: Well-defined logic model based on rigorous research.
    - Demonstrates a rationale based on high-quality research findings or positive evaluation that such activity, strategy, or intervention is likely to improve student outcomes or other relevant outcomes; and
    - Includes ongoing efforts to examine the effects of such activity, strategy, or intervention.

Professional development is an evidence-based intervention that demonstrates a significant positive impact on improving student achievement and outcomes. Each program previously described in the grant is rooted in professional development surrounding resiliency activities and strategies, professional development for educators to support ESE and ELL students and strategies and resources for ELL students. Through professional learning, SMDC educators, both teachers and paraprofessionals, will be provided with specific trainings and strategies to provide safe, welcoming and inclusive learning environments to students, especially ESE and ELL scholars. This impact is supported through the following ways:

Quality Instruction: Effective professional development equips educators with the knowledge and skills to enhance their teaching methods. This, in turn, leads to improved instruction in the classroom, including better lesson planning, classroom management, and pedagogical techniques.
Informed Decision-Making: Educators who receive ongoing professional development are better equipped to make data-driven decisions. They can analyze student performance data and tailor their teaching to address specific learning needs, thereby maximizing student growth.
Teacher Collaboration: Professional development often promotes collaboration among teachers, allowing them to share best practices, strategies, and resources. This collaborative environment fosters a culture of continuous improvement within the school or districts, allowing the ESE and ELL departments to continuously collaborate with school sites to reach the needs of the students.
Student-Centered Approaches: Many professional development programs emphasize student-centered teaching strategies. Educators learn how to differentiate instruction to accommodate diverse learning styles and needs, resulting in more engaged and successful
Research-Based Methods: Evidence-based professional development incorporates the latest educational research and best practices. This ensures that educators are using methods and approaches that have been proven to be effective in promoting student achievement.
Enhanced Motivation: Teachers who engage in ongoing professional development tend to be more motivated and satisfied in their roles. This enthusiasm can be contagious and positively affect the learning environment, leading to better student outcomes.
Improved Classroom Management: Professional development often includes training on classroom management techniques. Teachers who can maintain an orderly and respectful classroom environment are more likely to create conditions conducive to learning.
Long-Term Impact: Research has shown that sustained professional development over an extended period has a more significant and lasting effect on student outcomes compared to short-term, one-off training sessions.

Overall, professional development, when based on research and tailored to the needs of educators and students, has a substantial and positive impact on enhancing teaching quality and, consequently, student achievement. The evidence supporting this intervention underscores its importance to student growth and achievement.

Program Evaluation (15 points possible)

Describe the evaluation framework and methodology. Include measurable goals and objectives associated with the anticipated outcomes. Identify the specific data that will be collected and the process for collecting outcome data including at what points in the program period it will be collected. Describe the data analysis process to evaluate achievement of the goals and objectives.

If the LEA will select an external evaluator, describe the process for the selection of an external evaluator, including qualifications and how the LEA will ensure the evaluator will provide the evaluation requirements outlined above.

Prior to program implementation, a detailed evaluation plan outlining the data collection, analysis, reporting, and dissemination procedures will be completed and presented to the district administration for approval by the Executive Director of School Improvement. Project goals, objectives, and outcomes will serve as the basis for the evaluation plan along with any set Performance Measures as designated by the Florida Department of Education. The Executive Director of School Improvement will be responsible for the collection of qualitative and quantitative data through the Student Management Information System and survey data, as well as anecdotal information critical to the program evaluation design to ensure an ongoing review of the project's progress toward meeting objectives and its overall effectiveness. Process measures include tracking activities through quarterly stakeholder meetings, professional development feedback forms, SDMC Student Climate survey, and family/community surveys as needed. Student growth and achievement of ELL and ESE populations will be monitored.
Program outcome measures will assess whether goals and objectives are met, evaluation reports will include aggregate summary information to ensure student privacy. All data will be analyzed with descriptive statistics and stored in locked file cabinets or on a password-protected computer for confidentiality.

Demonstrating a periodic assessment of progress, process information will be gathered and documented on an ongoing basis throughout the grant cycle to describe how the SDMC is implementing the comprehensive plan, to document any deviations from the plan, and to relay this information back to project staff providing a formative analysis.

Reporting includes semi-annual presentations to school leadership, SDMC administration, the School Board of Manatee County, the families of SDMC, and stakeholders as appropriate.

Budget (5 points possible)

Provide a budget using the DOE Form 101S that includes a narrative reflecting the objectives and proposed costs of the project. All proposed line items must be clearly defined as a measurable objective(s) that are clearly identified as reasonable, necessary and allowable according to the funding purpose and priorities. The link between the budget line items and the proposed programs must be evident.

Any additional narrative or justification the LEA would like considered may be included below.

See attached detailed budget.

The School District of Manatee County through coordinated efforts to utilize all stakeholder feedback developed the budget for *Building Resiliency Now and Beyond* to ensure all students, instructional staff, and administration will benefit from the grant funds. Each activity identified in the plan and the budget encompasses the students, staff, and families not only within the schools in Manatee County but also charter and private schools.

Sustainability (5 points possible)

Identify actions the LEA will take to continue the program and/or activities beyond the life of the grant. Include sufficient resources (human, fiscal, operational, external partnerships, etc.) that support the implementation and sustainability of the evidence-based programs and or activities implemented through this grant.

The School District of Manatee County has considered all factors within the grant and has created a plan to sustain the activities requested to ensure students and teachers continue to receive professional development and growth to address student resiliency and academic achievement. Funding through this grant will support the specific goals, objectives, and strategies put forth in this proposal. The program and activities described build capacity, allowing for a high level of interval support by district personnel who transition to the trainer role and become experts based on the professional conferences, professional development, and trainings they will have received during the 2024-2026 grant period. SDMC will continue to leverage networks including FDLRS and FINN to provide ongoing learning opportunities, collaboration, and mentorship at no cost to the district. The district will also continue to assess the impact of professional development efforts to gather feedback and adjust programs accordingly to ensure ELL and ESE students receive support for their evolving needs. Quarterly meetings will be held to review data and/or feedback, assess program activities, and review the budget. District leadership will also continue to promote a culture of continuous learning and professional development where resiliency and high standards of academic achievement are prioritized allowing students, staff, and teachers to grow and thrive professionally.

It is anticipated that the positions and programs outlined in this proposal will have a lasting and positive effect. With evidence demonstrating the success of this all-encompassing plan, the aspiration is that the school district will shift its budgetary resources and prioritize support for resiliency-targeted efforts, by maintaining the two Instructional Specialists on the Professional Learning Team. By combining these strategies, The School District of Manatee County can sustain a culture of ongoing learning and development that extends beyond the duration of the *Building Resiliency Now and Beyond* project. Sustainability will also rest in SDMC's fiscal capacity to implement federal funds with fidelity to the program and proper stewardship of funds. This process includes a formalized system of articulated roles and responsibilities, approval processes, and an internal control system to mitigate any cause for error.

For details, refer to: http://www.ed.gov/fund/grant/apply/appforms/gepa427.pdf.

The School District recognizes the importance of equitable access to, and participation in, federally assisted programs for students, teachers, and their beneficiaries with special needs. Potential barriers that can impede equitable access to and participation in these programs includes gender, race, national origin, color, disability, and/or age.

Individuals who are members of special populations will be provided with equal access to enrollment and placement in educational programs available to individuals who are not members of special populations, including specific courses, apprenticeship programs, Title I, and to the extent practicable, comprehensive career guidance and counseling services, and shall not be discriminated against on the basis of their status as members of special populations.

Descriptions of the steps the School District will employ to overcome these barriers are as follows:

1. Ensuring accessibility of facilities and programs for all students, teachers, and other stakeholders, by eliminating natural barriers for the enhancement of mobility and accessibility.
2. Staff Development for teaching students in the least restrictive environment.
3. Providing academic adjustments and modifications in curriculum and instruction.
4. Equipment adaptation to ensure special populations can use equipment appropriately.
5. Providing related services such as occupational and physical therapy services, transportation, etc., to enhance participation programs.
6. Utilizing classroom assistants and tutors to enhance inclusionary practices.
7. Having psychologists provide in-service training on teaching strategies for regular classroom teachers.

Support for Strategic Imperatives (Required, but no points assigned)

Describe how the project will incorporate one or more of the goals included in the Florida's PreK-20 Education Strategic Plan.
URL: http://www.fldoe.org/policy/state-board-of-edu/strategic-plan.stml

The School District of Manatee County, through implementation of the project, *Building Resiliency Now and Beyond*, is designed to provide innovative initiatives and activities that are aligned to the Florida Department of Education PreK-20 Education Strategic Plan that supports Goal 1, Higher Student Achievement:

As a result of stakeholder consultation included in the overall Comprehensive Needs Assessment, the School District of Manatee County has included private school participation. All eligible private schools were invited to participate in a a face-to-face meeting. One-on-one consultation meetings were also offered to all eligible private schools. The ideas and needs submitted by private schools were considered in the development of this grant application. With the overall aim in mind to improve ESE and ELL student academic achievement and classroom environment, private schools will be invited and encouraged to participate in SCG programs included within this grant. This includes, but is not limited to, participation in professional development training.

A future face-to-face private school consultation meeting is scheduled in January of 2024. Additional on-going private school consultations will be afforded to private schools February through April of 2024. AGENDA ITEM NO. 11.5

School Board of Manatee County
December 12, 2023 - Regular Board Meeting and Public Hearing
Action Item

Title
Approval to Apply, Accept and Expend the Green Our Planet Combined Garden Connect and Hydro Connect Grants and Corresponding Memorandum of Understanding between Manatee Elementary School and Green Our Planet, in the Amount of $11,500.00 in the Form of Material Supplies and Curriculum (Incoming Goods in Lieu of Funds; Additional $2,000.00 Expenditure from Community Partnership Donation)

Executive Summary
The School District of Manatee County refers to 'Education and Innovative Initiatives' in its Strategic Plan and specifically highlights Community Partnership Schools. The plan states that "community partnerships extend students' opportunities for learning far beyond the school walls and the limits of the school day by creating connections between the school, local businesses, organizations, caregivers and families, and all education stakeholders. These partnerships also help to integrate other important components of students' lives into their learning." Manatee Elementary School is such a Community Partnership School and aims to reach beyond the school day instruction by educating its community and thereby improving the quality of life for its students and parents.

The Green Our Planet combined Garden Connect and Hydro Connect grants support the goals and initiatives of the SDMC's strategic plan by becoming the first and only organization in the United States to run a school garden and hydroponics program accredited by STEMworks. STEMworks is a national organization that conducts a rigorous evaluation process to validate educational programs or institutions for their adherence to high standards in science, technology, engineering, and mathematics (STEM) education. Green Our Planet trains teachers to use school gardens and hydroponic laboratories to teach students STEM, conservation, nutrition, and entrepreneurship in a hands-on engaging way. Learning in gardens ignites students' curiosity, creates connections to the natural world and empowers the next generation of scientists, conservationists, farmers, chefs, engineers, and entrepreneurs.

Approval of the grant would not only support STEM learning and initiatives but at the same time support Manatee Elementary School as a Community Partnership School. The awarded grant is worth $13,500.00 and aims to have a hydroponics unit in every classroom at the school. The value of this opportunity for Manatee Elementary School students goes beyond learning about life science standards in a real-world context using cutting-edge growing technology by providing access to fresh grown fruits and vegetables for its community. The projected start of the grant is January 2024, with conclusion in January 2025.

The purpose and scope of this program is a year-long STEM program that will train school-based staff on the utilization of provided materials for them to establish practical STEM outdoor laboratories, form a school team to use, manage, and maintain them, utilize Green Our Planet STEMWorks accredited school curricula and other provided resources, and how to form the next generation of scientists, chefs, and entrepreneurs. The Green Our Planet Program agrees to deliver materials and perform the services needed to establish a successful Garden Connect and Hydro Connect program.

This item aligns with the District's Strategic Plan Goal(s) which state(s):

Ready For Life | Goal 1
Improve easy access to quality family resources that support student learning

Ready For Life | Goal 6
Continue implementation of innovative technology advancements that improve classroom and school

environments for exceptional learning

Recommendation
The Superintendent recommends approval to apply, accept and expend the Green Our Planet combined Garden Connect and Hydro Connect grants and corresponding Memorandum of Understanding between Manatee Elementary School and Green Our Planet, in the amount of $11,500.00 in the form of material, supplies and curriculum. (Goods in Lieu of Funds; Additional $2,000.00 Expenditure from Community Partnership Donation)

Financial Impact

There will be no cost to the General Fund. Participation in the above stated grant and memorandum of understanding will be funded by the Green Our Planet programming in the amount of $11,500.00. The remaining $2,000.00 will be funded via the Community Partnership donation to the school.

There will not be a financial impact on the School District of Manatee County or to Manatee Elementary School specifically. The value of the grant however will go beyond provided training and necessary equipment by providing fresh fruits and vegetables to its students and community.

I. SCHOOL RESPONSIBILITIES

A. Form a Garden Team of Teachers: School agrees to choose at least one staff member (teacher or administrator) to serve as Garden Team Leader and one teacher per grade level to serve as the School Garden Team. Other staff may also be part of the Garden team. **Each member of the garden team will join the GoP Magic Portal.** All teachers at the school will be welcome to also join the GoP Magic Portal.
   1. Please note that if the school is participating in both GardenConnect and HydroConnect programs, different Team Leads must serve for each program. GoP does not recommend one teacher being in charge of two programs, as it inhibits the success of the programs.

B. Provide Contact Information: School will provide GoP with contact information for all selected Garden Team Leaders and/or Co-Leaders, School Garden Team members, and others who wish to participate in training and reporting.
   1. GoP will send out a form to collect this information.

C. Show Program Presentation Video: Principal agrees to show GoP's 30-minute, GardenConnect Program Presentation at one of their staff meetings with their team within 1 month of the start of school so that teachers at the school will be familiar with the benefits of the program and how they can participate.
   1. This video will be shared along with other onboarding materials.

D. Participate in Community Collaboration:

1. Participate in Data Collection: In order for GoP to provide the best possible support, Garden Team Lead will keep GoP informed on the progress of the GardenConnect Program by completing Quarterly Surveys. Garden Team Members will provide feedback, photos, and updates through Monthly Reports. GoP reserves the right to use such photographs for promotional purposes. These data collection efforts are designed to give GoP important information regarding the teachers' experiences with the program, gauge student success and help improve the program. Data collection includes but is not limited to:
    (1) Four (4) Quarterly Surveys (for all Garden Team leads)
    (2) Nine (9) Monthly Reports during the months of September through May (for Garden Team members)
    (3) Beginning of Term "Teaching in the Garden Pre-Survey" (for all teachers at the school)
    (4) End of Term "Teaching in the Garden Post-Survey" (for all teachers at the school)
    (5) Beginning of Year "Benchmark" student surveys (for all students at the school)
        (i) Dependent upon approval by District IRB Department if needed
    (6) End of Year "Benchmark" student surveys (for all students at the school)
        (i) Dependent upon approval by District IRB Department if needed
    (7) Mid-Year survey for teachers, parents, and principals.

E. Keep GoP Informed: The Garden Team Leader will keep GoP informed about events such as harvest parties, tastings, chef-to-school events, or farmers markets related to the GardenConnect Program via forum posts and/or including them in monthly or quarterly progress reports.
    1. GoP will provide this information to funders and sponsors for reporting purposes and to secure funding for programming.

F. Keep Program Resources and Curriculum Available to Teachers: School will make sure that all teachers on campus have access to GardenConnect Program resources and GoP's PreK-5 Outdoor Garden STEM Curriculum by creating a Google or similar folder that is shared with all staff and/or inviting staff to join the GoP Magic Portal.

G. Use Curriculum and Outdoor Garden for Teaching: In order to fulfill best practices recommendations, School will work toward the goal of teachers using the GoP Outdoor Garden STEM Curriculum, MS-HS Health Curriculum, Vocational Guide, or Financial Literacy Lessons and outdoor school garden to teach STEM subjects once a week.

H. Make an Effort to Take Care of School Garden: School will develop a strategy that allows interested teachers and students to participate in the on-going operations and maintenance of the outdoor school garden.

I. Provide Supplies for School Garden: School will be responsible for replenishing all supplies needed for the outdoor garden.

J. GoP will provide advice on which supplies should be purchased. GoP will provide the school with resources outlining recommended items for purchase as well as personalized advice.

K. Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60–1.3 must include the equal opportunity clause provided under 41 CFR 60–1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964–1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141–3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141–3144, and 3146–3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701–3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

G. Clean Air Act (42 U.S.C. 7401–7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251–1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401–7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251–1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

H. Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement

Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

I. Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

Project Performance Accountability Information, Instructions, and Form

NOTE: The following pages are included in the RFA (DOE 900D) template and are to be completed by the applicant.
The Florida Department of Education has a standardized process for preparing applications for discretionary funds. This section of the RFA, Project Performance Accountability, is to assure proper accountability and compliance with applicable state and federal requirements.

The Department's project managers will:

- track each project's performance based on the information provided and the stated criteria for successful performance
- verify the receipt of required deliverables prior to payment

For projects funded via Cash Advance, the Department's project managers will verify that the project activities/deliverables are progressing in a satisfactory manner, consistent with the Scope of Work/Project Narrative and Performance Expectations, on a quarterly basis.

The Scope of Work/ Project Narrative must include the specific tasks that the grantee is required to perform.
Deliverables must:

- be directly linked to a specific line item/cost item that in turn links to the specific task/activity/service
- identify the minimum level of service to be performed
- be quantifiable, measurable, and verifiable. (*how many, how often, duration*). Effectiveness (*a method demonstrating the success such as a scale goals to be attained is necessary*). Evidence or proof that the activity took place (*examples of deliverables: documents, manuals, training materials and other tangible product to be developed by the project, training & technical assistance and the method of provision, number of clients or individuals served, the method of providing the service and frequency).* Criteria for acceptance may vary based on the services being provided. Specific criteria will need to be developed by the program office, communicated to the provider, articulated in the deliverable form, and will become part of the project award.

The applicant must complete the information related to the required tasks to be performed and timelines/due dates for the respective tasks/deliverables consistent with the provided instructions. Per Chapter 215.971 F.S. financial consequences will be applied if the subrecipient fails to perform the minimum level of services required by the agreement. Unit cost is not necessary for each item but can be used to establish a methodology for reduction in the event minimum performance is not met.

SCHOOL DISTRICT OF MANATEE COUNTY

December 1, 2023
Project Narrative

Through a partnership with the Guy Harvey Foundation, the School District of Manatee County will use the provided funds to expand on the first ever Guy Harvey Academy of Arts and Science at Anna Maria Elementary School to extend student learning experiences by installing outdoor learning laboratories as well as extend programming into King Middle School and Manatee High School through developing a Marine Science Career Pathway. This project will provide teachers with professional learning, curriculum, and equipment to strengthen student and teachers content knowledge of the Florida's State Academic Standards for Science.

Opportunities will be available to students interested in following a career pathway in Marine Science from Anna Maria Elementary to King Middle School and finally Manatee High School. A focus on aquaculture will be the bedrock of the career pathway through vertically aligned lessons developed in partnership with The Guy Harvey Foundation, hands-on opportunities for learning for students and teachers through partnership with The Guy Harvey Foundation and community partner, Mote Marine Laboratory and Aquarium. Students and teachers will have the chance to work with each campus' aquaponic systems and aquariums. Additionally, students and teachers will have access to Florida Academic Standards for Science aligned curriculum developed by the Guy Harvey Foundation on the following: K-5 Marine Science Modules, K-5 Webcam Modules, Mangrove Modules, K-12 Lionfish Modules, Guy Harvey Modules, Outdoor Learning Modules, Middle School Marine Science Modules, 6-12 Aquarium Modules, High School Interpreting Scientific Research Module, and High School Marine Careers Module.

Professional learning will be a foundation of the program so that teachers across grade bands feel comfortable teaching their students about these complex topics. Opportunities for teacher trainings include a 3-day immersive experience at Marine Lab in Key Largo, Florida, in-district professional learning workshops in partnership with The Guy Harvey Foundation and Mote Marine Laboratory and Aquarium, the opportunity to join and attend the Florida Marine Science Educators Association Conference in Juno Beach (FMSEA), as well as onsite support by the School District of Manatee County Elementary and Secondary Science Curriculum Coordinators. All professional learning will be focused on supporting teacher clarity on the Florida's State Academic Standards for Science.

The School District of Manatee County currently serves 66 total schools, 47 traditional public schools (31 elementary, 9 middle, 7 high schools), 3 non-traditional public schools, Mantatee Technical College, and 15 charter schools. Student demographics for the district include, 51% Male, 49% Female, 46% White, 35% Hispanic, 11% African American, 5% Multi-Racial, 2% Asian, and 0.1% Indian.

This project is a K-12 initiative focused on further developing The Guy Harvey Academy of Arts and Science at Anna Maria Elementary and extending and developing a Marine Science Career Pathway through middle and high school. Due to the project's scope, most of the funding will be spent supporting student and teacher learning at the following three schools: Anna Maria Elementary, King Middle School, and Manatee High School. Currently, there are 208 students enrolled at Anna Maria Elementary, 879 students at King Middle School, and 1,997 students at Manatee High School where 571 students are taking a course in marine science. The School District of Manatee County will make lessons developed during this project available to all schools. Learning opportunities will be extended to all district students with an interest in marine science topics or careers through summer camps.

The goal of this project is that there will be an increase in teacher clarity and confidence to engage students in standards-aligned, inquiry-based science lessons focused on marine science and marine science careers. Students will gain exposure to the many opportunities for careers in marine science, will have experiences that support their learning of the Florida Academic Standards in Science, as well as find a passion that they can grow from elementary through high school and beyond. Another goal of this project is to increase enrollment at Anna Maria Elementary, King Middle School and enrollment in marine science courses at Manatee High School. Our enrollment numbers below are a comparison from 2022 to 2023.

Enrollment		
School	2022-2023	2023-2024
Anna Maria Elementary	209	208
King Middle School	987	879
Manatee High School – marine science courses	330	571

To evaluate the success of the project, the School District of Manatee County will gather feedback from teachers, students, parents, and administrators throughout their experience. The following qualitative and quantitative data will be used to evaluate the project outcomes:

Title
Approval to Accept and Expend the 2023-2024 Manatee County Government Student Driver Education Program Grant, in the Amount of $201,532.00 (Incoming Grant Funds)

Executive Summary
On April 11, 2023, the Board approved for the Secondary Education Department to apply for the Driver Education Program Grant with the Manatee County Government.

The Manatee County Government will provide funding from the Dori Slosberg Education Safety Trust Fund Grant in the amount of $201,532.00, for the driver enhancement services provided by the School Board of Manatee County during the interlocal agreement period dating back to October 1, 2023, through September 30, 2024.

With this agreement, the School District shall enhance current driver education program services by providing driver education courses to introduce traffic laws and defensive driving techniques as described in the Florida Driving Manual, testing of traffic laws in conjunction with assessment of student driving skills by using the State of Florida Driving Skills Test, and issue operator driver license waivers for student operator licenses on Saturdays during the school year and throughout the summer.

In the 2002 Legislative Session, Representative Irv Slosberg introduced a bill, which was passed by the Legislature, allowing school districts to petition county commissioners to pass a county ordinance to add a $3.00 surcharge to all civil traffic violations. Funds generated must be used to pay the direct educational expenses of driver education in county, public and private schools.

By providing students with the driver education program, they will form knowledge, skills in good driving habits, and become a responsible driver in our community.

In addition to the foregoing, to the extent the School Board is a HIPAA Covered Entity or Business Associate (as defined in HIPAA), the School Board shall enter into a HIPAA business associate agreement with any Business Associate that will have access to PHI, and shall provide the County, upon the County's request, copies of same.

g. Other Conditions and Obligations.

i. Compliance with Section 448.095(5), Florida Statutes. The School Board shall register with and use the E-Verify system to verify the work authorization status of all new employees of the School Board. The School Board hereby represents and warrants that it has, and shall remain throughout the duration of this contract, registered with, and use and shall continue to use, the E-Verify system. The School Board shall not enter into any contract with a subcontractor for services hereunder unless such subcontractor also has registered with and uses the E-Verify system. If the School Board enters into a contract with a subcontractor, the subcontractor shall provide the Agency with an affidavit stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien. The School Board shall maintain a copy of such affidavit for the duration of this Agreement.

ii. Pursuant to Section 488.095(5)(c)3, Florida Statutes, the County is authorized to terminate this Agreement if it has a good faith belief that the School Board , or its subcontractor, has knowingly violated section 448.09(1), Florida Statutes, regarding the employment of someone not authorized to work by the immigration laws of the United States, the U.S. Attorney General, or the Secretary of the Department of Homeland Security. Such termination action is not considered a breach of contract.

iii. Compliance with Section 125.0156, Florida Statutes. No funds provided by the County pursuant to this Agreement shall be used for the purpose of issuing an identification card or document to an individual who does not provide proof of lawful presence in the United States.

iv. The School Board shall use its best efforts to attend and participate in meetings regarding County funding, as requested by the County's representative.

v. The funds paid to the School Board by the County are not for the benefit of any individual but are provided to assist the School Board in developing and maintaining the Program of public services deemed beneficial to the health, safety, and welfare of the community. Matters contained in this Agreement such as target populations, client eligibility, and unit of service costs whether covering all or a portion of the School Board's cost of providing the Program, are provided to apportion payment to the School Board and represent the minimum level of service the School Board must provide during the term of this Agreement.

vi. Payment of County funds for this program is for the actual expenses associated with the Program, and only for Program services actually rendered by the School Board. The parties acknowledge that payment for part of the cost of the Program may be available from other governmental or third-party sources. If the School Board receives such revenues which then exceed the actual Program costs, the School Board shall notify the County's representative and shall coordinate the appropriate refund of County funds or reduction in County payments.

vii. With respect to Program files and/or individual Client (as specifically defined in Attachment "A") files documenting services:

a. The County's representative shall have the option of reviewing the contents of the files.

b. The School Board shall make the following information available during all site visits:

The School Board shall maintain Program records that provide evidence of Client eligibility including the Client's date of birth and residential address of the Client within Manatee County. Post office boxes shall not be considered residential addresses. For minors, a parent or guardian must provide the evidence of child's birthdate and residency.

3. Program Services Documentation. The School Board shall maintain sufficient records to document units of service provided in accordance with Attachment "A" of this Agreement.

viii. The County's representative may request, and the School Board shall provide, additional information for the County's periodic review, School Board payment requests, site visits, annual monitoring, and other Agreement-related tasks.

ix. The County's representative shall have the authority to approve the final format of the requested documentation referenced in this Agreement and its Attachments.

x. Because the services provided by the School Board are funded in whole or in part by the County, the School Board agrees to require each Client receiving services (or legal guardian of Client where applicable) to execute a Consent Form.

a. The Consent Form shall contain an acknowledgment of the Client or guardian that he/she understands that the County's representative may request access to any or all School Board records relating to the Program and/or the delivery of Services for the purposes of evaluating or monitoring the Program or delivery of Service to the Client, and that he/she consents to the release of records for these purposes.

b. The Consent Form shall be drafted by the School Board and shall be subject to review and approval by the County's representative prior to use.

c. The County's representative may waive this requirement for group educational and similar programs.

h. Records; Audits.

i. The School Board shall maintain records, accounts, property records, and personnel records in accordance with generally accepted accounting principles, as deemed necessary by the County to assure proper accounting of funds and compliance with the provisions of this Agreement.

ii. The School Board shall provide the County's representative with all necessary information, records, and contracts required by this Agreement as requested by the County's representative for monitoring and evaluation of services within three (3) business days following the date of such request, or as otherwise agreed upon by the County's representative. The School Board's information shall be made available to the County for audit, inspection, or copying during normal business hours and as often as County may deem necessary, except for Client records protected by Client confidentiality rules or regulations established by state or federal law. In cases where Client confidentiality applies, the School Board shall provide requested records in a fashion which maintains confidentiality. The County shall have the right to obtain and inspect any audit pertaining to the performance of this Agreement or the School Board made by any local, state or federal agency. The School Board and the County shall each retain all records and supporting documents related to this Agreement and the Program in accordance with all applicable laws, rules and regulations, including but not limited to Florida's Public Records Law, Chapter 119, Florida Statutes.

IF THE VENDOR HAS QUESTION REGARDING THE APPLICATION OF CHAPTER 119, FLROIDA STATUTES, TO THE AGENCY'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS, LACY PRITCHARD AT 941-742-5845, LACY.PRITCHARD@MYMANATEE.ORG, MANATEE COUNTY GOVERNMENT, ATTN: CUSTODIAN OF PUBLIC RECORDS, P.O. BOX 1000, BRADENTON, FL 34206-1000.

iii. The submission of documentation by the School Board shall serve as its certification and representation that the information contained therein is true and correct. The School Board recognizes that the County has relied upon or will rely upon records provided by the School Board in making its determination to provide funds to the School Board in the manner provided

in this Agreement. If at any time the County determines that the information submitted is not true and correct, the County may immediately terminate this Agreement and seek to recover any funds paid to the School Board.

Payment of such funds shall be made on a reimbursement basis in accordance with Attachment B.

a. Limitation of Costs and Payments. The School Board shall be paid by the County in accordance with Attachment B for the Program. No agent or employee of the County may authorize an increase in the above amount. Any increase in total compensation must be authorized in writing pursuant to a written amendment to this Agreement approved by the Board of County Commissioners.

b. Withholding of Payments. If the School Board fails to comply with the terms of this Agreement, the County Administrator, County representative, or other designee may, upon written notification to the School Board, withhold payment until the School Board complies. The notice shall specify the manner in which the School Board has failed to comply. In the event the School Board does not correct and cure such failure to comply within thirty (30) days of receipt of such notice, the County may exercise its right of termination pursuant to Article 3, and pursue all remedies available pursuant to Article 4.2.

2.3 Annual Appropriation. The County's obligation pursuant to Section 2.2 shall be contingent upon and subject to the Board of County Commissioners budgeting and appropriating legally available funds.

The County shall not be liable to any person, firm, or corporation that is employed by, contracts with, or provides goods or services to the School Board in connection with the Program, or for debts or claims accruing to such parties. The School Board shall promptly pay, discharge or promptly take such action as may be necessary and reasonable to settle such debts or claims.

c. Indemnification. Each party, as a political subdivision as defined by Florida Statute § 768.28, shall indemnify the other party and hold it harmless as to any claim, judgment, or damage award whatsoever arising out of or related to that indemnifying party's own negligent or wrongful acts or omissions, to the extent permitted by law, and subject to the dollar limitations set forth in Florida Statutes § 768.28. The parties understand that pursuant to Florida Statutes § 768.28(19), no party is entitled to be indemnified or held harmless by another party for its own negligent or wrongful acts or omissions. Nothing herein is intended to serve as a waiver of sovereign immunity by any party to which sovereign immunity may be applicable, and each party claims all of the privileges and immunities and other benefits and protections afforded by Florida Statutes § 163.01(9). The parties to this Agreement do not intend that this Agreement benefit any third party, and nothing herein should be construed as consent by a state agency or political subdivision of the State of Florida to be sued by third parties in any matter arising out of this Agreement.

2.5 Insurance.

Approval of Purchase and Sale of New Steer Agreements, Purchase and Sale of New Swine Agreements, and Purchase and Sale of New Poultry Agreements Between the School District of Manatee County and Various Buyers of the National FFA Chapter Animals to be Sold at the 2024 Manatee County Fair (No Financial Impact)

Executive Summary
The School District agriculture teachers train students to raise, care for, and groom steer, swine and poultry at the schools, leading to them being sold at the Manatee County Fair. For agriculture students to participate in this type of learning experience at our middle and high schools where Agriscience is taught, our National FFA Chapters sell one steer and one swine at the Fair each year, with the purchase price, following the processing costs, being returned to the schools to subsidize the programs. “Buyer” is the person or entity which was the successful bidder for steer or swine at the Fair from the Exhibitor by way of the Exhibitor’s Agent. The following schools currently have an Agriscience program: Braden River, Buffalo Creek, Haile, Lincoln, Nolan, and Sugg middle schools; Braden River, Lakewood Ranch, Palmetto, Parrish Community and Southeast high schools.

This item aligns with the District’s Strategic Plan Goal(s) which state(s):

This **AGREEMENT** is made on the 13th day of January, 20 24, between _____ (hereinafter referred to as the "Buyer"), located at [ADDRESS]_____, [CITY]_____, [STATE]_____[ZIP CODE]_____[PHONE NUMBER](_____)_____and the SCHOOL BOARD OF MANATEE COUNTY , FLORIDA, (hereinafter referred to as "Exhibitor"), located at [ADDRESS] 215 Manatee Ave. W _____, [CITY] Bradenton, [STATE] FL [ZIP CODE] 34205 [PHONE NUMBER] (941) 708-8770.

WHEREAS, the Manatee River Fair Association, Inc. (the "Fair Association" or "Agent") is a not-for-profit corporation established under the laws of Florida generally to hold, provide, cause to be conducted, operated and carry on County Fairs. As part of its services, the Fair Association conducts auctions of steer for interested exhibitors at the Manatee County Fair (the "Fair"). The Exhibitor is exhibiting and showing steer at the Fair, and in connection therewith, housing, storing, showing, exhibiting and selling said steer on Fair property during the Fair. The Exhibitor has agreed to allow the Fair Association to act as the Exhibitor's "Agent" in exhibiting, showing, housing, storing, locating, auctioning, and selling Exhibitor's steer at the Fair and, if necessary in collecting the purchase price from a Buyer. The Buyer is a person or entity which was the successful bidder for steer, by way of bid during public auction, at the Fair from the Exhibitor by way of the Fair Association. At this time, the Buyer and Exhibitor desire to enter into this Agreement so that the Exhibitor can sell and the Buyer can purchase the steer hereunder described.

NOW, THEREFORE, in consideration of the recitals hereinabove and other relevant facts and circumstances taken into account, the receipt and adequacy of which is hereby acknowledged, and for mutual covenants set forth herein, the Buyer and Exhibitor agree as follows:

1. **INTERPRETATIONS AND INCLUSION OF RECITALS**. The Buyer and Exhibitor, where the context of the text in this Agreement requires, are collectively referred to as the "Parties." The recitals above are hereby included and form part of this Agreement.

2. **PURCHASE AND SALE OF STEER**.

2.1 Description of Steer. Tag # 01 ; Sale # ; Weight _____pounds.

2.2 Sale of Steer. The Buyer agrees to buy **as is**, and the Exhibitor agrees to sell, certain steer as described in Section 2.1 for $_____ per pound. The total amount due to Exhibitor from Buyer is $, which reflects the total weight of the steer multiplied by $ (the "Purchase "Price"), less the Administrative Expenses referenced below. The Fair Association shall deduct six (6%) percent of Purchase Price to assist in covering administrative and other expenses related to the activities considered pursuant to the Agreement ("Administrative Expenses"). The Administrative Expenses are to be deducted from the full Purchase Price once the Fair Association is in receipt of full Purchase Price from Buyer.

2.3 Resale. The Buyer may elect not to receive the above-described steer, but instead pay the full Purchase Price and then allow the Fair Association to resell said steer to a third party. There will be no additional Administrative Expenses related to resale to a third party.

2.4 Delivery of Steer. Upon the execution of this Agreement, the Fair Association shall organize the shipping of the purchased steer to a slaughterhouse to be determined by the Buyer, to be slaughtered or butchered. All of the expenses related to shipping, cutting, wrapping and any other expense related to the slaughtering of the steer shall be the sole responsibility of the Buyer. After the purchased steer has been slaughtered or butchered, the Buyer must be ready, willing, and able to pick up and remove the purchased steer at Buyer's own expense. In the case of a resale of a steer prior to the Buyer obtaining the steer, all expenses referenced in this Section 2.4 shall be the responsibility of the third party resale purchaser.

2.5 Delivery of Purchase Price. Buyer hereby agrees to pay the full Purchase Price as prescribed above, within fifteen (15) days of the execution of this Agreement to the Fair Association. Buyer's method of paying the Purchase Price shall be by cashier's check or money order. The cashier's check or money order shall be deemed delivered on the date of actual receipt by the Fair Association. In the event that the full Purchase Price is not paid or received by Fair Association within fifteen (15) days of the execution of this Agreement, the Buyer shall be in default hereunder this Agreement.

3. **FAIR ASSOCIATION**. Buyer and Exhibitor acknowledge and accept that the Fair Association is merely acting as an Agent of the Exhibitor and is not part of this Agreement. Likewise, Buyer and Exhibitor acknowledge that this Agreement imposes no contractual or other obligations upon the Fair Association and that both Buyer and Exhibitor shall look solely to each other for remedy or relief with regard to any default hereunder. Both Buyer and Exhibitor further agree that no officer, director, employee, agent, independent contractor or consultant of the Fair Association shall be liable to either Buyer or Exhibitor in the event of any default or breach hereunder by either Party.

4. **REPRESENTATIONS AND WARRANTIES**. The Buyer covenants, represents and warrants unto Exhibitor as follows: Buyer has the full right, power and authority to acquire the steer and does not need any further consents, joinders or authorizations from any governmental or private entity, corporation, partnership, firm, individual or other entity to execute, deliver and perform its obligations under this Agreement and to consummate the transactions contemplated hereby; and even though Buyer may be buying steer on behalf of or for someone other than the above-named Buyer, Buyer shall remain responsible to Exhibitor for the full Purchase Price. The Exhibitor covenants, represents and warrants to Buyer as follows: Exhibitor has all necessary power and authority to enter into this Agreement and to perform all of the obligations to be performed by Exhibitor hereunder; and Exhibitor has no knowledge of the existence of any defect in the steer.

b. Where a party to this Agreement is either the State of Florida or political subdivision or agency thereof ("Government Party"), paragraph 5(a) shall not apply only to any Government Party, and the following indemnification shall apply instead of and in place of paragraph 5(a) to any said Government Party: Notwithstanding any other provision of this Agreement and only to the extent permitted by law and subject to the applicable limitations set forth in Section 768.28, Florida Statutes, Buyer and Exhibitor shall indemnify and hold the Fair Association harmless from and against any and all claims, demands, suits, actions, proceedings, costs, damages, losses, expenses, injuries, death or other disputes (collectively, the "Claims") arising out of this Agreement. However, nothing herein shall be considered a waiver of sovereign immunity or other rights afforded consistent with Section 768.28, Florida Statutes, and the Parties and Fair Association agree that Exhibitor shall not be responsible for negligent or intentionally wrongful acts of any other party including third parties.

6. **DEFAULT**. If Buyer shall default in any of the terms, covenants and/or provisions of this Agreement on the part of Buyer to be performed, then Exhibitor or the Fair Association, as Exhibitor's Agent, shall have all rights to enforce this Agreement pursuant to law, including the right to pursue any and all legal action against the Buyer for damages. If Exhibitor shall default in any of the terms, covenants and/or provisions of this Agreement, then Buyer shall only have the right to terminate the Agreement and collect such part of the Purchase Price already delivered to the Exhibitor through the Fair Association. Buyer shall look solely to the Exhibitor to collect all monies due to Buyer pursuant to this Paragraph.

7. **MISCELLANEOUS**.

7.1 Applicable Law. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida. Venue for any proceeding related to this Agreement shall be in the courts in or for Manatee County, Florida.

7.3 Entire Agreement and Amendment. This Agreement, and all Exhibits attached hereto, if any, and incorporated herein by this reference, constitute the entire agreement between the parties concerning the subject matter hereof. This Agreement may not be modified or amended except by written instrument signed by the parties hereto. The preparation of this Agreement has been a joint effort of the Parties and the resulting documents shall not, solely as a matter of judicial construction, be construed more severely against one of the Parties than the other.

7.4 Limitation on Benefits on this Agreement. It is the explicit intention of the parties that: (i) no person or entity other than the Parties (or their respective successors and assigns as permitted hereunder) and the Fair Association, as Exhibitor's Agent, shall be entitled to bring any action to enforce any provision of this Agreement; and (ii) the covenants, undertakings and agreements set forth in this Agreement shall be solely for the benefit of, and shall be enforceable only by, the Parties and the Fair Association (or their respective successors and assigns as permitted hereunder).

As part of its services, the Fair Association conducts auctions of steer for interested exhibitors at the Manatee County Fair (the "Fair"). The Exhibitor is exhibiting and showing steer at the Fair, and in connection therewith, housing, storing, showing, exhibiting and selling said steer on Fair property during the Fair. The Exhibitor has agreed to allow the Fair Association to act as the Exhibitor's "Agent" in exhibiting, showing, housing, storing, locating, auctioning, and selling Exhibitor's steer at the Fair and, if necessary in collecting the purchase price from a Buyer. The Buyer is a person or entity which was the successful bidder for steer, by way of bid during public auction, at the Fair from the Exhibitor by way of the Fair Association. NOW, THEREFORE, in consideration of the recitals hereinabove and other relevant facts and circumstances taken into account, the receipt and adequacy of which is hereby acknowledged, and for mutual covenants set forth herein, the Buyer and Exhibitor agree as follows:

1. **INTERPRETATIONS AND INCLUSION OF RECITALS**. The Buyer and Exhibitor, where the context of the text in this Agreement requires, are collectively referred to as the "Parties." The recitals above are hereby included and form part of this Agreement.

The Fair Association shall deduct six (6%) percent of Purchase Price to assist in covering administrative and other expenses related to the activities considered pursuant to the Agreement ("Administrative Expenses"). The Administrative Expenses are to be deducted from the full Purchase Price once the Fair Association is in receipt of full Purchase Price from Buyer.
   - 2.3 Resale. The Buyer may elect not to receive the above-described steer, but instead pay the full Purchase Price and then allow the Fair Association to resell said steer to a third party. There will be no additional Administrative Expenses related to resale to a third party.
   - 2.4 Delivery of Steer. Upon the execution of this Agreement, the Fair Association shall organize the shipping of the purchased steer to a slaughterhouse to be determined by the Buyer, to be slaughtered or butchered. All of the expenses related to shipping, cutting, wrapping and any other expense related to the slaughtering of the steer shall be the sole responsibility of the Buyer. After the purchased steer has been slaughtered or butchered, the Buyer must be ready, willing, and able to pick up and remove the purchased steer at Buyer's own expense. In the case of a resale of a steer prior to the Buyer obtaining the steer, all expenses referenced in this Section 2.4 shall be the responsibility of the third party resale purchaser.

Likewise, Buyer and Exhibitor acknowledge that this Agreement imposes no contractual or other obligations upon the Fair Association and that both Buyer and Exhibitor shall look solely to each other for remedy or relief with regard to any default hereunder. Both Buyer and Exhibitor further agree that no officer, director, employee, agent, independent contractor or consultant of the Fair Association shall be liable to either Buyer or Exhibitor in the event of any default or breach hereunder by either Party.
4. **REPRESENTATIONS AND WARRANTIES**. However, nothing herein shall be considered a waiver of sovereign immunity or other rights afforded consistent with Section 768.28, Florida Statutes, and the Parties and Fair Association agree that Exhibitor shall not be responsible for negligent or intentionally wrongful acts of any other party including third parties.
6. **DEFAULT**. If Buyer shall default in any of the terms, covenants and/or provisions of this Agreement on the part of Buyer to be performed, then Exhibitor or the Fair Association, as Exhibitor's Agent, shall have all rights to enforce this Agreement pursuant to law, including the right to pursue any and all legal action against the Buyer for damages. If Exhibitor shall default in any of the terms, covenants and/or provisions of this Agreement, then Buyer shall only have the right to terminate the Agreement and collect such part of the Purchase Price already delivered to the Exhibitor through the Fair Association.    - 7.3 Entire Agreement and Amendment. This Agreement, and all Exhibits attached hereto, if any, and incorporated herein by this reference, constitute the entire agreement between the parties concerning the subject matter hereof. This Agreement may not be modified or amended except by written instrument signed by the parties hereto. NOW, THEREFORE, in consideration of the recitals hereinabove and other relevant facts and circumstances taken into account, the receipt and adequacy of which is hereby acknowledged, and for mutual covenants set forth herein, the Buyer and Exhibitor agree as follows:

The Fair Association shall deduct six (6%) percent of Purchase Price to assist in covering administrative and other expenses related to the activities considered pursuant to the Agreement ("Administrative Expenses"). The Administrative Expenses are to be deducted from the full Purchase Price once the Fair Association is in receipt of full Purchase Price from Buyer.

2.3 Resale. The Buyer may elect not to receive the above-described steer, but instead pay the full Purchase Price and then allow the Fair Association to resell said steer to a third party. There will be no additional Administrative Expenses related to resale to a third party.

2.4 Delivery of Steer. Upon the execution of this Agreement, the Fair Association shall organize the shipping of the purchased steer to a slaughterhouse to be determined by the Buyer, to be slaughtered or butchered. All of the expenses related to shipping, cutting, wrapping and any other expense related to the slaughtering of the steer shall be the sole responsibility of the Buyer. After the purchased steer has been slaughtered or butchered, the Buyer must be ready, willing, and able to pick up and remove the purchased steer at Buyer's own expense. In the case of a resale of a steer prior to the Buyer obtaining the steer, all expenses referenced in this Section 2.4 shall be the responsibility of the third party resale purchaser.

2.5 Delivery of Purchase Price. Buyer hereby agrees to pay the full Purchase Price as prescribed above, within fifteen (15) days of the execution of this Agreement to the Fair Association. Buyer's method of paying the Purchase Price shall be by cashier's check or money order. Likewise, Buyer and Exhibitor acknowledge that this Agreement imposes no contractual or other obligations upon the Fair Association and that both Buyer and Exhibitor shall look solely to each other for remedy or relief with regard to any default hereunder. Both Buyer and Exhibitor further agree that no officer, director, employee, agent, independent contractor or consultant of the Fair Association shall be liable to either Buyer or Exhibitor in the event of any default or breach hereunder by either Party.

4. **REPRESENTATIONS AND WARRANTIES**. The Buyer covenants, represents and warrants unto Exhibitor as follows: Buyer has the full right, power and authority to acquire the steer and does not need any further consents, joinders or authorizations from any governmental or private entity, corporation, partnership, firm, individual or other entity to execute, deliver and perform its obligations under this Agreement and to consummate the transactions contemplated hereby; and even though Buyer may be buying steer on behalf of or for someone other than the above-named Buyer, Buyer shall remain responsible to Exhibitor for the full Purchase Price. The Exhibitor covenants, represents and warrants to Buyer as follows: Exhibitor has all necessary power and authority to enter into this Agreement and to perform all of the obligations to be performed by Exhibitor hereunder; and Exhibitor has no knowledge of the existence of any defect in the steer.

However, nothing herein shall be considered a waiver of sovereign immunity or other rights afforded consistent with Section 768.28, Florida Statutes, and the Parties and Fair Association agree that Exhibitor shall not be responsible for negligent or intentionally wrongful acts of any other party including third parties.

6. **DEFAULT**. If Buyer shall default in any of the terms, covenants and/or provisions of this Agreement on the part of Buyer to be performed, then Exhibitor or the Fair Association, as Exhibitor's Agent, shall have all rights to enforce this Agreement pursuant to law, including the right to pursue any and all legal action against the Buyer for damages. If Exhibitor shall default in any of the terms, covenants and/or provisions of this Agreement, then Buyer shall only have the right to terminate the Agreement and collect such part of the Purchase Price already delivered to the Exhibitor through the Fair Association. Buyer shall look solely to the Exhibitor to collect all monies due to Buyer pursuant to this Paragraph.

7. **MISCELLANEOUS**.

7.1 Applicable Law. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida. Venue for any proceeding related to this Agreement shall be in the courts in or for Manatee County, Florida.

This Agreement, and all Exhibits attached hereto, if any, and incorporated herein by this reference, constitute the entire agreement between the parties concerning the subject matter hereof. This Agreement may not be modified or amended except by written instrument signed by the parties hereto. The preparation of this Agreement has been a joint effort of the Parties and the resulting documents shall not, solely as a matter of judicial construction, be construed more severely against one of the Parties than the other.

7.4 Limitation on Benefits on this Agreement. It is the explicit intention of the parties that: (i) no person or entity other than the Parties (or their respective successors and assigns as permitted hereunder) and the Fair Association, as Exhibitor's Agent, shall be entitled to bring any action to enforce any provision of this Agreement; and (ii) the covenants, undertakings and agreements set forth in this Agreement shall be solely for the benefit of, and shall be enforceable only by, the Parties and the Fair Association (or their respective successors and assigns as permitted hereunder).

3. **FAIR ASSOCIATION**. Buyer and Exhibitor acknowledge and accept that the Fair Association is merely acting as an Agent of the Exhibitor and is not part of this Agreement. Fair Association does not make representations or warrant the quality of the livestock or products derived therefrom. Likewise, Buyer and Exhibitor acknowledge that this Agreement imposes no contractual or other obligations upon the Fair Association and that both Buyer and Exhibitor shall look solely to each other for remedy or relief with regard to any default hereunder. Both Buyer and Exhibitor further agree that no officer, director, employee, agent, independent contractor or consultant of the Fair Association shall be liable to either Buyer or Exhibitor in the event of any default or breach hereunder by either Party.

4. **REPRESENTATIONS AND WARRANTIES**. The Buyer covenants, represents and warrants unto Exhibitor as follows: Buyer has the full right, power and authority to acquire the swine and does not need any further consents, joinders or authorizations from any governmental or private entity, corporation, partnership, firm, individual or other entity to execute, deliver and perform its obligations under this Agreement and to consummate the transactions contemplated hereby; and even though Buyer may be buying swine on behalf of or for someone other than the above-named Buyer, Buyer shall remain responsible to Exhibitor for the full Purchase Price. The Exhibitor covenants, represents and warrants to Buyer as follows: Exhibitor has all necessary power and authority to enter into this Agreement and to perform all of the obligations to be performed by Exhibitor hereunder; and Exhibitor has no knowledge of the existence of any defect in the swine.

b. Where a party to this Agreement is either the State of Florida or political subdivision or agency thereof ("Government Party"), paragraph 5(a) shall not apply only to any Government Party, and the following indemnification shall apply instead of and in place of paragraph 5(a) to any said Government Party: Notwithstanding any other provision of this Agreement and only to the extent permitted by law and subject to the applicable limitations set forth in Section 768.28, Florida Statutes, Buyer and Exhibitor shall indemnify and hold the Fair Association harmless from and against any and all claims, demands, suits, actions, proceedings, costs, damages, losses, expenses, injuries, death or other disputes (collectively, the "Claims") arising out of this Agreement. However, nothing herein shall be considered a waiver of sovereign immunity or other rights afforded consistent with Section 768.28, Florida Statutes, and the Parties and Fair Association agree that Exhibitor shall not be responsible for negligent or intentionally wrongful acts of any other party including third parties.

6. **DEFAULT**. If Buyer shall default in any of the terms, covenants and/or provisions of this Agreement on the part of Buyer to be performed, then Exhibitor or the Fair Association, as Exhibitor's Agent, shall have all rights to enforce this Agreement pursuant to law, including the right to pursue any and all legal action against the Buyer for damages. If Exhibitor shall default in any of the terms, covenants and/or provisions of this Agreement, then Buyer shall only have the right to terminate the Agreement and collect such part of the Purchase Price already delivered to the Exhibitor through the Fair Association. Buyer shall look solely to the Exhibitor to collect all monies due to Buyer pursuant to this Paragraph.

7. **MISCELLANEOUS**.

7.1 Applicable Law. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida. Venue for any proceeding related to this Agreement shall be in the courts in or for Manatee County, Florida.

Costs shall include, without limitation, all attorneys' fees incurred in negotiations, mediations, arbitrations, trials, administrative proceedings, bankruptcy proceedings and any appeals from any such proceedings, as well as post-judgment collection efforts.

7.3 Entire Agreement and Amendment. This Agreement, and all Exhibits attached hereto, if any, and incorporated herein by this reference, constitute the entire agreement between the parties concerning the subject matter hereof. This Agreement may not be modified or amended except by written instrument signed by the parties hereto. The preparation of this Agreement has been a joint effort of the Parties and the resulting documents shall not, solely as a matter of judicial construction, be construed more severely against one of the Parties than the other.

7.4 Limitation on Benefits on this Agreement. It is the explicit intention of the parties that: (i) no person or entity other than the Parties (or their respective successors and assigns as permitted hereunder) and the Fair Association, as Exhibitor's Agent, shall be entitled to bring any action to enforce any provision of this Agreement; and (ii) the covenants, undertakings and agreements set forth in this Agreement shall be solely for the benefit of, and shall be enforceable only by, the Parties and the Fair Association (or their respective successors and assigns as permitted hereunder).

The Administrative Expenses are to be deducted from the full Purchase Price once the Fair Association is in receipt of full Purchase Price from Buyer.

2.3 Resale. The Buyer may elect not to receive the above-described swine, but instead pay the full Purchase Price and then allow the Fair Association to resell said swine to a third party. There will be no additional Administrative Expenses related to resale to a third party.

This **AGREEMENT** is made on the 20th day of January, 20 24, between _____ (hereinafter referred to as the "Buyer"), located at [ADDRESS]_____, [CITY]_____, [STATE]_____[ZIP CODE]_____[PHONE NUMBER](_____)_____and the SCHOOL BOARD OF MANATEE COUNTY , FLORIDA, (hereinafter referred to as "Exhibitor"), located at [ADDRESS] 215 Manatee Ave. W., [CITY] Bradenton, [STATE] FL [ZIP CODE] 34205 [PHONE NUMBER] (941) 708-8770.

WHEREAS, the Manatee River Fair Association, Inc. (the "Fair Association" or "Agent") is a not-for-profit corporation established under the laws of Florida generally to hold, provide, cause to be conducted, operated and carry on County Fairs. As part of its services, the Fair Association conducts auctions of swine for interested exhibitors at the Manatee County Fair (the "Fair"). The Exhibitor is exhibiting and showing swine at the Fair, and in connection therewith, housing, storing, showing, exhibiting, and selling said swine on Fair property during the Fair. The Exhibitor has agreed to allow the Fair Association to act as the Exhibitor's "Agent" in exhibiting, showing, housing, storing, locating, auctioning, and selling Exhibitor's swine at the Fair and, if necessary in collecting the purchase price from a Buyer. The Buyer is a person or entity which was the successful bidder for swine, by way of bid during public auction, at the Fair from the Exhibitor by way of the Fair Association. At this time, the Buyer and Exhibitor desire to enter into this Agreement so that the Exhibitor can sell, and the Buyer can purchase the swine hereunder described.

NOW, THEREFORE, in consideration of the recitals hereinabove and other relevant facts and circumstances taken into account, the receipt and adequacy of which is hereby acknowledged, and for mutual covenants set forth herein, the Buyer and Exhibitor agree as follows:

1. **INTERPRETATIONS AND INCLUSION OF RECITALS**. The Buyer and Exhibitor, where the context of the text in this Agreement requires, are collectively referred to as the "Parties." The recitals above are hereby included and form part of this Agreement.

2. **PURCHASE AND SALE OF SWINE**.

2.1 Description of Swine. Tag # 596 ; Sale # ; Weight _____pounds.

2.2 Sale of Swine. The Buyer agrees to buy **as is**, and the Exhibitor agrees to sell, certain swine as described in Section 2.1 for $_____per pound. The total amount due to Exhibitor from Buyer is $, which reflects the total weight of the swine multiplied by $ (the "Purchase "Price"), less the Administrative Expenses referenced below. The Fair Association shall deduct six (6%) percent of Purchase Price to assist in covering administrative and other expenses related to the activities considered pursuant to the Agreement ("Administrative Expenses"). The Administrative Expenses are to be deducted from the full Purchase Price once the Fair Association is in receipt of full Purchase Price from Buyer.

2.3 Resale. The Buyer may elect not to receive the above-described swine, but instead pay the full Purchase Price and then allow the Fair Association to resell said swine to a third party. There will be no additional Administrative Expenses related to resale to a third party.

2.4 Delivery of Swine. Upon the execution of this Agreement, the Fair Association shall organize the shipping of the purchased swine to a slaughterhouse to be determined by the Buyer, to be slaughtered or butchered. All of the expenses related to shipping, cutting, wrapping and any other expense related to the slaughtering of the swine shall be the sole responsibility of the Buyer. After the purchased swine has been slaughtered or butchered, the Buyer must be ready, willing, and able to pick up and remove the purchased swine at Buyer's own expense. In the case of a resale of a swine prior to the Buyer obtaining the swine, all expenses referenced in this Section 2.4 shall be the responsibility of the third-party resale purchaser.

2.5 Delivery of Purchase Price. Buyer hereby agrees to pay the full Purchase Price as prescribed above, within fifteen (15) days of the execution of this Agreement to the Fair Association. Buyer's method of paying the Purchase Price shall be by cashier's check or money order. The cashier's check or money order shall be made out to and delivered, either by hand or certified mail, to the Manatee River Fair Association, located at 1402 14th Avenue West, Palmetto, Florida 34221, within fifteen (15) days of the execution of this Agreement. The cashier's check or money order shall be deemed delivered on the date of actual receipt by the Fair Association. In the event that the full Purchase Price is not paid or received by Fair Association within fifteen (15) days of the execution of this Agreement, the Buyer shall be in default hereunder this Agreement.

3. **FAIR ASSOCIATION**. Buyer and Exhibitor acknowledge and accept that the Fair Association is merely acting as an Agent of the Exhibitor and is not part of this Agreement. Fair Association does not make representations or warrant the quality of the livestock or products derived therefrom. Likewise, Buyer and Exhibitor acknowledge that this Agreement imposes no contractual or other obligations upon the Fair Association and that both Buyer and Exhibitor shall look solely to each other for remedy or relief with regard to any default hereunder. Both Buyer and Exhibitor further agree that no officer, director, employee, agent, independent contractor or consultant of the Fair Association shall be liable to either Buyer or Exhibitor in the event of any default or breach hereunder by either Party.

4. **REPRESENTATIONS AND WARRANTIES**. The Buyer covenants, represents and warrants unto Exhibitor as follows: Buyer has the full right, power and authority to acquire the swine and does not need any further consents, joinders or authorizations from any governmental or private entity, corporation, partnership, firm, individual or other entity to execute, deliver and perform its obligations under this Agreement and to consummate the transactions contemplated hereby; and even though Buyer may be buying swine on behalf of or for someone other than the above-named Buyer, Buyer shall remain responsible to Exhibitor for the full Purchase Price. The Exhibitor covenants, represents and warrants to Buyer as follows: Exhibitor has all necessary power and authority to enter into this Agreement and to perform all of the obligations to be performed by Exhibitor hereunder; and Exhibitor has no knowledge of the existence of any defect in the swine.

b. Where a party to this Agreement is either the State of Florida or political subdivision or agency thereof ("Government Party"), paragraph 5(a) shall not apply only to any Government Party, and the following indemnification shall apply instead of and in place of paragraph 5(a) to any said Government Party: Notwithstanding any other provision of this Agreement and only to the extent permitted by law and subject to the applicable limitations set forth in Section 768.28, Florida Statutes, Buyer and Exhibitor shall indemnify and hold the Fair Association harmless from and against any and all claims, demands, suits, actions, proceedings, costs, damages, losses, expenses, injuries, death or other disputes (collectively, the "Claims") arising out of this Agreement. However, nothing herein shall be considered a waiver of sovereign immunity or other rights afforded consistent with Section 768.28, Florida Statutes, and the Parties and Fair Association agree that Exhibitor shall not be responsible for negligent or intentionally wrongful acts of any other party including third parties.

6. **DEFAULT**. If Buyer shall default in any of the terms, covenants and/or provisions of this Agreement on the part of Buyer to be performed, then Exhibitor or the Fair Association, as Exhibitor's Agent, shall have all rights to enforce this Agreement pursuant to law, including the right to pursue any and all legal action against the Buyer for damages. If Exhibitor shall default in any of the terms, covenants and/or provisions of this Agreement, then Buyer shall only have the right to terminate the Agreement and collect such part of the Purchase Price already delivered to the Exhibitor through the Fair Association. WHEREAS, the Manatee River Fair Association, Inc. (the "Fair Association" or "Agent") is a not-for-profit corporation established under the laws of Florida generally to hold, provide, cause to be conducted, operated and carry on County Fairs. As part of its services, the Fair Association conducts auctions of swine for interested exhibitors at the Manatee County Fair (the "Fair"). The Exhibitor is exhibiting and showing swine at the Fair, and in connection therewith, housing, storing, showing, exhibiting, and selling said swine on Fair property during the Fair. The Exhibitor has agreed to allow the Fair Association to act as the Exhibitor's "Agent" in exhibiting, showing, housing, storing, locating, auctioning, and selling Exhibitor's swine at the Fair and, if necessary in collecting the purchase price from a Buyer. The Buyer is a person or entity which was the successful bidder for swine, by way of bid during public auction, at the Fair from the Exhibitor by way of the Fair Association. At this time, the Buyer and Exhibitor desire to enter into this Agreement so that the Exhibitor can sell, and the Buyer can purchase the swine hereunder described.

NOW, THEREFORE, in consideration of the recitals hereinabove and other relevant facts and circumstances taken into account, the receipt and adequacy of which is hereby acknowledged, and for mutual covenants set forth herein, the Buyer and Exhibitor agree as follows:

1. **INTERPRETATIONS AND INCLUSION OF RECITALS**. The Buyer and Exhibitor, where the context of the text in this Agreement requires, are collectively referred to as the "Parties." The recitals above are hereby included and form part of this Agreement.

2. **PURCHASE AND SALE OF SWINE**.

2.1 Description of Swine. Tag # 708 ; Sale # ; Weight _____pounds.

2.2 Sale of Swine. The Buyer agrees to buy **as is**, and the Exhibitor agrees to sell, certain swine as described in Section 2.1 for $_____ _____per pound. The total amount due to Exhibitor from Buyer is $, which reflects the total weight of the swine multiplied by $ (the "Purchase "Price"), less the Administrative Expenses referenced below. The Fair Association shall deduct six (6%) percent of Purchase Price to assist in covering administrative and other expenses related to the activities considered pursuant to the Agreement ("Administrative Expenses"). The Administrative Expenses are to be deducted from the full Purchase Price once the Fair Association is in receipt of full Purchase Price from Buyer.

2.3 Resale. The Buyer may elect not to receive the above-described swine, but instead pay the full Purchase Price and then allow the Fair Association to resell said swine to a third party. There will be no additional Administrative Expenses related to resale to a third party.

2.4 Delivery of Swine. Upon the execution of this Agreement, the Fair Association shall organize the shipping of the purchased swine to a slaughterhouse to be determined by the Buyer, to be slaughtered or butchered. All of the expenses related to shipping, cutting, wrapping and any other expense related to the slaughtering of the swine shall be the sole responsibility of the Buyer. After the purchased swine has been slaughtered or butchered, the Buyer must be ready, willing, and able to pick up and remove the purchased swine at Buyer's own expense. In the case of a resale of a swine prior to the Buyer obtaining the swine, all expenses referenced in this Section 2.4 shall be the responsibility of the third-party resale purchaser.

2.5 Delivery of Purchase Price. Buyer hereby agrees to pay the full Purchase Price as prescribed above, within fifteen (15) days of the execution of this Agreement to the Fair Association. Buyer's method of paying the Purchase Price shall be by cashier's check or money order. The cashier's check or money order shall be made out to and delivered, either by hand or certified mail, to the Manatee River Fair Association, located at 1402 14th Avenue West, Palmetto, Florida 34221, within fifteen (15) days of the execution of this Agreement. The cashier's check or money order shall be deemed delivered on the date of actual receipt by the Fair Association. In the event that the full Purchase Price is not paid or received by Fair Association within fifteen (15) days of the execution of this Agreement, the Buyer shall be in default hereunder this Agreement.

3. **FAIR ASSOCIATION**. Buyer and Exhibitor acknowledge and accept that the Fair Association is merely acting as an Agent of the Exhibitor and is not part of this Agreement. Fair Association does not make representations or warrant the quality of the livestock or products derived therefrom. Likewise, Buyer and Exhibitor acknowledge that this Agreement imposes no contractual or other obligations upon the Fair Association and that both Buyer and Exhibitor shall look solely to each other for remedy or relief with regard to any default hereunder. Both Buyer and Exhibitor further agree that no officer, director, employee, agent, independent contractor or consultant of the Fair Association shall be liable to either Buyer or Exhibitor in the event of any default or breach hereunder by either Party.

4. **REPRESENTATIONS AND WARRANTIES**. The Buyer covenants, represents and warrants unto Exhibitor as follows: Buyer has the full right, power and authority to acquire the swine and does not need any further consents, joinders or authorizations from any governmental or private entity, corporation, partnership, firm, individual or other entity to execute, deliver and perform its obligations under this Agreement and to consummate the transactions contemplated hereby; and even though Buyer may be buying swine on behalf of or for someone other than the above-named Buyer, Buyer shall remain responsible to Exhibitor for the full Purchase Price. The Exhibitor covenants, represents and warrants to Buyer as follows: Exhibitor has all necessary power and authority to enter into this Agreement and to perform all of the obligations to be performed by Exhibitor hereunder; and Exhibitor has no knowledge of the existence of any defect in the swine.

5. **INDEMNIFICATION.**

a. Buyer and Exhibitor shall indemnify and hold the Fair Association harmless from and against any and all claims, demands, suits, actions, proceedings, costs, damages, losses, expenses, injuries, death or other disputes (collectively, the "Claims") arising out of this Agreement.

b. Where a party to this Agreement is either the State of Florida or political subdivision or agency thereof ("Government Party"), paragraph 5(a) shall not apply only to any Government Party, and the following indemnification shall apply instead of and in place of paragraph 5(a) to any said Government Party: Notwithstanding any other provision of this Agreement and only to the extent permitted by law and subject to the applicable limitations set forth in Section 768.28, Florida Statutes, Buyer and Exhibitor shall indemnify and hold the Fair Association harmless from and against any and all claims, demands, suits, actions, proceedings, costs, damages, losses, expenses, injuries, death or other disputes (collectively, the "Claims") arising out of this Agreement. However, nothing herein shall be considered a waiver of sovereign immunity or other rights afforded consistent with Section 768.28, Florida Statutes, and the Parties and Fair Association agree that Exhibitor shall not be responsible for negligent or intentionally wrongful acts of any other party including third parties.

6. **DEFAULT**. If Buyer shall default in any of the terms, covenants and/or provisions of this Agreement on the part of Buyer to be performed, then Exhibitor or the Fair Association, as Exhibitor's Agent, shall have all rights to enforce this Agreement pursuant to law, including the right to pursue any and all legal action against the Buyer for damages. If Exhibitor shall default in any of the terms, covenants and/or provisions of this Agreement, then Buyer shall only have the right to terminate the Agreement and collect such part of the Purchase Price already delivered to the Exhibitor through the Fair Association. Buyer shall look solely to the Exhibitor to collect all monies due to Buyer pursuant to this Paragraph.

7. **MISCELLANEOUS**.

7.1 Applicable Law. This Agreement shall be governed by and construed in accordance with the laws of the State of Florida. Venue for any proceeding related to this Agreement shall be in the courts in or for Manatee County, Florida.

7.3 Entire Agreement and Amendment. This Agreement, and all Exhibits attached hereto, if any, and incorporated herein by this reference, constitute the entire agreement between the parties concerning the subject matter hereof. This Agreement may not be modified or amended except by written instrument signed by the parties hereto. The preparation of this Agreement has been a joint effort of the Parties and the resulting documents shall not, solely as a matter of judicial construction, be construed more severely against one of the Parties than the other.

Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60–1.3 must include the equal opportunity clause provided under 41 CFR 60–1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964–1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141–3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141–3144, and 3146–3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701–3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary,

hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

G. Clean Air Act (42 U.S.C. 7401–7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251–1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401–7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251–1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

H. Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

I. Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

J. 200.323 Procurement of recovered materials. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

K. 200.216 Prohibition on certain telecommunications and video surveillance services or equipment.

(a) Recipients and subrecipients are prohibited from obligating or expending loan or grant funds to:

(1) Procure or obtain.

(2) Extend or renew a contract to procure or obtain; or

(3) Enter into a contract (or extend or renew a contract) to procure or obtain equipment, services, or systems that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. As described in Public Law 115-232, section 889, covered telecommunications equipment is telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities).

(b) In implementing the prohibition under Public Law 115-232, section 889, subsection (f), paragraph (1), heads of executive agencies administering loan, grant, or subsidy programs shall prioritize available funding and technical support to assist affected businesses, institutions and organizations as is reasonably necessary for those affected entities to transition from covered communications equipment and services, to procure replacement equipment and services, and to ensure that communications service to users and customers is sustained.

(c) See Public Law 115-232, section 889 for additional information.

(d) See also § 200.471.

L. 200.322 Domestic preferences for procurements.
(a) As appropriate and to the extent consistent with law, the non-Federal entity should, to the greatest extent practicable under a Federal award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards including all contracts and purchase orders for work or products under this award.

Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary,

hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

G. Clean Air Act (42 U.S.C. 7401–7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251–1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401–7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251–1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

H. Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

I. Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

J. 200.323 Procurement of recovered materials. A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

The supporting materials that Stantec will prepare include the following:

- An analysis of the requirements found in Exhibit C, School Site Plan Standards, as provided in the Interlocal Agreement, and LDC Section 350 – Public School Determinations of Consistency.

New Task 320 – School Site Plan Modification Application Processing and Public Hearings

Prior to formal submittal, Stantec will send the application to Manatee County Development Services staff for a preliminary review/ sit down completeness review.

New Task 410 - Transportation Methodology Statement

Stantec will prepare a transportation methodology statement that will stipulate the proposed procedures and assumptions to be utilized in the traffic analysis. Stantec will prepare the analysis in accordance with the approved methodology that meets the requirements of Manatee County. Trip generation estimates will be based on the Institute of Transportation Engineers (ITE), *Trip Generation – 11th Edition (2021)*. Trip assignment estimate of project traffic will utilize existing traffic patterns, the FDOT District One Regional Planning Model (D1RPM), information from Mantee County Schools regarding service area, and/or engineering judgment from past experience within the project area. This task includes:

- Preparation of a transportation impact analysis for submittal to the County which includes analysis of the project traffic impacts to the study network which is all roadway segments in which project traffic exceeds 5% of the maximum service volume and intersections at the end points of significantly impacted segments during the PM peak-hour of adjacent street traffic.
- A detailed PM peak hour capacity analysis for the roadway segments and intersections within the study area will be performed using Manatee County's Generalized LOS Tables, the Highway Capacity Software (HCS), or Synchro. General recommendations for needed roadway and operational improvements (if any) will be developed for the external roadway network affected by the development.

Re: Oneco Elementary School
New Addition and Renovation
Commissioning Services Proposal

Greetings Mr. Medwetz:

Thank you for allowing us to submit a proposal for the Oneco Elementary School New Addition and Renovation Project. We look forward to working with you, the design team, and the constructors on this project. TLC Engineering Solutions, Inc. (TLC) proposes to provide commissioning services for the project with the scope and fee as outlined below.

PROJECT SCOPE

We understand the construction project consists of renovating ten (10) buildings on the Oneco Elementary School campus located in Bradenton, FL. TLC's proposal is based on information provided in the documents from the e-mail link dated 9/14/2023. The project's MEP systems will include various air handling units, terminal units (VAVs), fans, pumps, a boiler, and a chiller. Commissioning services are requested to meet the requirements of the Florida Building Code.

BASIC SCOPE OF COMMISSIONING SERVICES

TLC will provide commissioning services in accordance with the Florida Building Code, 7th Edition (2020) Energy Conservation Section C408.

TLC's proposed Basic Scope of Commissioning Services is outlined below.

1. TLC will designate an individual as the Commissioning Provider (CxP) to lead, review and oversee the completion of the Cx process activities. The CxP will report results, findings, and recommendations directly to the Owner.

Design Phase: During the Commissioning Design Phase, TLC will provide the following.

2. Conduct a review of the design documents to become familiar with the project.

TLC Engineering Solutions, Inc.

3. Develop and implement the commissioning plan. The commissioning plan will be updated throughout the course of design and construction phases.

4. Develop pre-functional equipment checklists.

Construction Phase: During the Commissioning Construction Phase, TLC will provide the following.

5. Review contractor submittals applicable to systems being commissioned. This review will be concurrent with Architect/Engineer (A/E) reviews and submitted to the design team and the Owner.

6. Conduct periodic site observation visits to review the installation of systems being commissioned and witness some equipment start up. Up to five (5) site observation visits are anticipated, not including functional acceptance testing.

7. Participate in construction progress meetings and provide commissioning status updates with the O/A/E/C team. Up to ten (10) commissioning meetings are anticipated.

8. Verify the contractor implements equipment start-up procedures and completes commissioning checklists for all equipment being commissioned.

9. Maintain an Issues Log throughout the Cx process. The Issues Log will be provided to the Owner and the construction team after each site visit and with monthly progress reports.

Acceptance Phase: During the Commissioning Acceptance Phase, TLC will provide the following.

10. As part of the Cx Plan, develop functional performance testing for each piece of equipment and system to be commissioning, to measure discrete operations and the interoperability of systems and components, to verify all systems are operating in compliance with the construction documents, and the Cx plan

11. Lead the team in the Functional Performance Testing phase. Prior to commencement of Functional Performance Testing the CxP will review start-up reports, system readiness reports, test and balance reports, load bank tests reports, and other contractor completed quality control test documents for systems and equipment to be commissioned. We anticipate up to seven (7) days on site for functional testing.

12. Produce and distribute a Preliminary Cx Report to the Owner.

RE: School District of Manatee County – Palma Sola Renovations
Subsurface Utility Engineering (SUE) Services

Dear Mr. Maslowski:

Per your request, BGE, Inc. (BGE) is providing this proposal for the subject project.

1. OVERVIEW

1.1. School Board of Manatee County ("SBMC" or "Owner") desires to retain Fleischman Garcia Maslowski Architecture ("FG+M" or "Architect") to provide subsurface utility engineering (SUE) services for improvements to the existing Palma Sola Elementary School. BGE is a sub-consultant to FG+M and will provide the following scope of services for the project. BGE staff will provide all services described in the scope.

1.2. The property located at 6806 5th Ave. NW, Bradenton, FL 34209, Manatee County, Florida and is owned by the School Board of Manatee County.

2. SCOPE OF SERVICES

2.1. SUE Services

2.1.1. <u>SUE Utility Designates (Level B)</u>

Perform ASCE Quality Level B utility investigation (Designates), per the guidelines established in ASCE 38-22, "Standard Guidelines for the Collection and Depiction of Existing Subsurface Utility Data" to determine the horizontal location of existing underground utilities. This includes direct induction of toneable subsurface utility facilities from surface accessible features, and Ground Penetrating Radar sweep for non-toneable facilities. Mark detected facilities with American Public Works Association (APWA) compliant colors, flags on soft ground and washable chalk on hard surfaces.

This does not include irrigation nor water service lines. Other services lines will be mapped where found and identifiable.

SUE limits are the subject tract's property line or to the opposite right-of-way line

where applicable.

Deliverable will be the horizontal location of the found utilities shown on the Topographic Survey.

2.1.2. SUE Utility Test Holes (Level A)

Perform ASCE Quality Level A (Utility Test Holes) for up to twelve (12) holes within the project limits where accessible with a minimum request of four (4) holes per deployment/mobilization, per the guidelines established in ASCE 38-22, "Standard Guidelines for the Collection and Depiction of Existing Subsurface Utility Data".

The location of the Utility Test Holes shall be provided by the EOR or CLIENT.

Additional facilities found during the QLA investigation will also be documented.

Generally, utility facilities found by vacuum excavation can be visually exposed to a depth equal to the water table; an air lance probe will be used for deeper facilities; however, visual confirmation will not be possible for facilities lying below the water table or utilities within directional bores. Note that the absence of identified utilities does not guarantee "no utility conflict".

Deliverable will be Field Test Hole Inventory Data sheets with the obtainable data, location, digital photos, utility description, depth, size, type, direction, and material for each test hole.

3. GENERAL CONDITIONS AND UNDERSTANDINGS

3.1. PURSUANT TO FLORIDA STATUTES CHAPTER 558.0035, AN INDIVIDUAL EMPLOYEE OR AGENT MAY NOT BE HELD INDIVIDUALLY LIABLE FOR NEGLIGENCE.

4. EXCLUDED SERVICES

The professional services that BGE will provide include, and are limited to, those described under Scope of Services, Section 2. All other services are excluded. Specifically excluded items include:

- Survey services / Record Drawings
- Sketch and descriptions for easements

5. FEES

ITEM	SERVICE	FEE BASIS	FEE AMOUNT
2.1.	**SUE Services**		
2.1.1.	SUE Utility Designates (Level B)	Lump Sum	$21,500
2.1.2.	SUE Utility Test Holes (Level A)	Lump Sum	$10,200

This proposal is valid for 45 days from the date of this letter. The performance of the work associated with this project will be in accordance with the agreed upon Standard Terms and Conditions Agreement.

Client agrees that BGE shall have no obligation to and will not verify the accuracy of Sourced Data.

J. **Laboratory Services**: In performing services, BGE may request that Client provide independent testing laboratory services. Client agrees that BGE can and/or will rely on the accuracy of the testing laboratory services completed by independent testing laboratories. BGE will not, and Client shall not rely upon BGE to, check the quality or accuracy of the testing laboratory's services.

K. **Construction Services:**

1. BGE will not at any time select, evaluate, implement, supervise, direct, control, or have authority over any contractor's work, nor will BGE have authority over or be responsible for the means, methods, techniques, sequences, or procedures of construction selected or used by any contractor, or the selection, implementation, monitoring and/or evaluation of safety precautions and programs incident thereto, for security or safety at the Project site, nor for any failure of a contractor to comply with laws and regulations applicable to such contractor's furnishing and performing of its work.

2. BGE neither guarantees the performance of any contractor nor assumes responsibility for any contractor's failure to furnish and perform its work in accordance with the contract between Client and such contractor.

3. BGE will not be responsible for the acts or omissions of any contractor, subcontractor, or supplier, or of any of their agents or employees or of any other persons (except BGE's own employees) at the Project site or otherwise furnishing or performing any construction work; or for any decision made regarding the construction contract requirements, or any application, interpretation, or clarification of the construction contract other than those decisions made by BGE.

L. **Early Bid Documents:** If Client requests submission of early bid documents to contractors for bid purposes prior to completion of construction documents by BGE and other design disciplines, or prior to governmental approvals, Client acknowledges that the potential exists for additional design and construction costs resulting from subsequent revisions, additions, and corrections to BGE construction documents so as to conform to those of other design disciplines and/or governmental agencies.

M. **Opinions of Cost:** Any opinions or estimates of costs or timing, including but not limited to opinions related to construction and materials are estimates only, and reflect BGE's experience and judgment as a design professional familiar with the industry. Client acknowledges that BGE has no control of the cost of labor, materials, equipment or services furnished by others, methods of determining prices, quantities, or market conditions. BGE cannot and does not guarantee that proposals, bids, or construction costs will not vary from its opinion of cost. If Client requires greater assurance as to any cost, Client shall employ an independent cost estimator. BGE's services required to bring costs within any limitation established by the Client will be paid for as Additional Services.

N. **Changed Conditions**: Client and BGE acknowledge the possibility of occurrences and/or discoveries that were not originally contemplated by and/or known to the BGE and/or Client. Should Client and/or BGE call for contract renegotiation, the party seeking said renegotiation shall identify the changed conditions necessitating renegotiation, and BGE and the Client shall promptly and in good faith enter into renegotiation of this Agreement. If the terms cannot be agreed to, the parties agree that either party has the right to terminate the Agreement without liability for consequential and/or any other damages.

O. **Project Enhancement**: If, due to BGE's error and/or omission, any required item and/or component of the Project is omitted from BGE's Documents, BGE shall not be responsible for paying any cost associated with and/or related to adding such item and/or component to the extent that such item or component would have been otherwise necessary to the Project or otherwise adds value and/or betterment to the Project. In no event will BGE and/or BGE Parties be responsible for any cost or expense that provides betterment, upgrade, and/or enhancement of the Project. In such instances in which the cost of installation exceeds such costs had the item and/or component been included in the original plans, BGE's liability in this regard shall be limited to the amount of the increase in cost of installation of the item and/or component.

P. **Delays**: Although BGE may specify completion date of the work, that date is subject to and shall be extended by delays caused by conditions beyond the control of BGE, including but not limited to, the availability of required materials; acts of or disputes with Client; change orders that expand the scope of the work or cause delay in acquisition of materials; riots, civil commotions, war, insurrections, strikes, lockouts, fire, or other casualty; acts of God; inclement weather which interferes with normal scheduling of the work; failure of Client to make timely decisions; judicial restraint or delays in issuance of governmental approvals, permits or other authorizations. In the event of such delay, BGE shall be entitled to an extension of time for performance and additional compensation.

Q. **Ownership of Documents:** All "design documents", including but not limited to reports, plans, drawings, specifications, estimates, computer files or programs stored electronically, field data, or notes prepared by BGE are exclusive to the Services described in this Agreement and are instruments of service to this project. BGE grants Client a limited license to use the design documents on the Project, subject to receipt by BGE of full payment for all services relating to preparation of the design documents and subject to the following limitations: (1) Client acknowledges that such design documents are not intended or represented to be suitable for use on the project unless completed by BGE, or for any other use or purpose, without written verification or adaptation by BGE; (2) any such use or reuse, or any modification of the design documents, without written verification, completion, or adaptation by BGE, as appropriate for the specific purpose intended, will be at Client's sole risk and without liability or legal exposure to BGE or to its officers, directors, members, partners, agents, employees, and consultants; (3) Client shall indemnify and hold harmless BGE and its officers, directors, shareholders, partners, agents, employees, and consultants from all claims, damages, losses, and expenses, including attorneys' fees, arising out of or resulting from any use, reuse, or modification of the design documents without written verification, completion, or adaptation by BGE; and (4) such limited license to Client shall not create any rights in third parties. BGE will be deemed the author of the work product and will retain common law, common statutory, and any other reserved rights. BGE's electronic files and source code developed in the development of application code remain the property of BGE and shall be provided to the Client only if expressly provided for in this Agreement. Notwithstanding the foregoing, work papers, proprietary information, processes, methodologies, know-how, software previously belonging or licensed by BGE ("BGE Data") used by BGE to provide the services and prepare the Design

Documents, shall remain the property of BGE. To the extent that the Design Documents contain BGE Data, BGE hereby grants to Client a non-exclusive, non-assignable, royalty-free, irrevocable license to use such BGE Data only in connection with the Project.

R. **Confidentiality:** The Client consents to BGE's use of photographs, facts, data, and information of the project obtained by BGE in the performance of services. In the event either Client and/or BGE seeks to terminate the Agreement based on the alleged and/or actual material breach of this Agreement, the party seeking to terminate the Agreement shall give written notice of the alleged breach and that party shall have ten (10) days after receipt of the written notice to cure the alleged breach. If the alleged breach has not been cured within that ten (10) day cure period and the breaching party has not made reasonable and diligent efforts to correct the breach, then the party claiming breach may terminate the Agreement for cause. Employment Eligibility Verification ("E-VERIFY")

By entering into a contract with the School District of Manatee County (a public employer in Florida) to provide goods or services in exchange for salary, wages or other renumeration, this section applies to verify employment eligibility. Therefore, pursuant to Section 448.095, Florida Statutes and beginning January 1, 2021, every public employer, Contractor and Subcontractor shall register with and use the United States Department of Homeland Security's E-Verify system, located at https://e-verify.uscis.gov/emp to verify the work authorization status of all newly hired employees. The Parties may not enter into a contract unless each party registers with and uses the federal E-Verify system.

The Contractor verifies its compliance with the E-Verify System by listing its E-Verify System Number on this document; by signature and submission of this contract, asserts it does not hire any employees, and it is not an unauthorized alien, as defined by this statute.

The Contractor will require all Subcontractors who work on this contract to use the E-Verify System for any subcontracted employees hired during this contract. The Contractor will verify Subcontractor's compliance with an affidavit stating whether the Subcontractor uses the E-Verify System as evidenced by Subcontractor's E-Verify System Number or that the Subcontractor is not an unauthorized alien and does not employ, contract with or subcontract with unauthorized aliens defined by this statute. The Contractor will maintain and provide the Subcontractor's affidavits to the School District on request during this contract.

Termination: With good faith belief that the Contractor knowingly violated this section, the School District will terminate the contract. Further, with good faith believe that the Subcontractor knowingly violated this section, the School District will promptly notify the Contractor and the Contractor will immediately terminate the Contractor's contract with the Subcontractor. A contract terminated for noncompliance with E-Verify is not a breach of contract and may not be considered as such.

To the extent required by applicable law, the Contractor is liable for any additional costs incurred by the School District resulting from a failure to comply with E-Verify. Additional costs may include but are not limited to higher costs for the same services and rebidding costs (if necessary). Likewise, the Contractor will be barred from any other contracts with the School Board for at least one year after the date the contract was terminated.

ADDENDUM No. I

Vehicle Fleet Maintenance and Repair Services, SDMC No. 24-0074-KD

Due to an unscheduled downtime with Vendorlink, this addendum is posted on October 20, 2023. Please see the Vendorlink downtime notice below.

The VendorLink site is currently down. We are working on the issue now. We apologize for the inconvenience.

Update: We are looking to have the site back up this evening. We found the issues and resolved most of them.

There were several MS Windows and Database updates that were applied that have serious issues when installed. We have contacted Microsoft and are working with them to track the problems with the updates.

We are also aware that we were not the only site that was affected by these updates.

Thank you,

VendorLink Support

The following change/clarification shall be made on the above referenced bid:

The cost of parts and materials shall be based on the Contractor's wholesale or purchase price from the supply house plus a percent mark-up. A mark-up on sales tax will not be allowed.

Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60–1.3 must include the equal opportunity clause provided under 41 CFR 60–1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964–1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141–3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141–3144, and 3146–3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701–3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary,

hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

Clean Air Act (42 U.S.C. 7401–7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251–1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401–7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251–1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

H. Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

I. Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. ADDENDUM No. I

Vehicle Fleet Maintenance and Repair Services, SDMC No. 24-0074-KD

Due to an unscheduled downtime with Vendorlink, this addendum is posted on October 20, 2023. Please see the Vendorlink downtime notice below.

The VendorLink site is currently down. We are working on the issue now. We apologize for the inconvenience.

Update: We are looking to have the site back up this evening. We found the issues and resolved most of them.

There were several MS Windows and Database updates that were applied that have serious issues when installed. We have contacted Microsoft and are working with them to track the problems with the updates.

We are also aware that we were not the only site that was affected by these updates.

Thank you,

VendorLink Support

The following change/clarification shall be made on the above referenced bid:

The cost of parts and materials shall be based on the Contractor's wholesale or purchase price from the supply house plus a percent mark-up. A mark-up on sales tax will not be allowed.

Due to an unscheduled downtime with Vendorlink, this addendum is posted on October 20, 2023. Please see the Vendorlink downtime notice below.

The VendorLink site is currently down. We are working on the issue now. We apologize for the inconvenience.

Update: We are looking to have the site back up this evening. We found the issues and resolved most of them.

There were several MS Windows and Database updates that were applied that have serious issues when installed. We have contacted Microsoft and are working with them to track the problems with the updates.

We are also aware that we were not the only site that was affected by these updates.

Thank you,

Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60–1.3 must include the equal opportunity clause provided under 41 CFR 60–1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964–1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141–3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141–3144, and 3146–3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701–3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60–1.3 must include the equal opportunity clause provided under 41 CFR 60–1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964–1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141–3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141–3144, and 3146–3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701–3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary,

hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

G. Clean Air Act (42 U.S.C. 7401–7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251–1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401–7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251–1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

H. Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

I. Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60–1.3 must include the equal opportunity clause provided under 41 CFR 60–1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964–1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141–3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141–3144, and 3146–3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701–3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary,

hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

G. Clean Air Act (42 U.S.C. 7401–7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251–1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401–7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251–1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

H. Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

I. Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60–1.3 must include the equal opportunity clause provided under 41 CFR 60–1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964–1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141–3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141–3144, and 3146–3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701–3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary,

hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

G. Clean Air Act (42 U.S.C. 7401–7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251–1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401–7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251–1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

H. Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

I. Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)—Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60–1.3 must include the equal opportunity clause provided under 41 CFR 60–1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964–1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141–3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141–3144, and 3146–3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701–3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary,

hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

H. Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

Appendix II to Part 200—Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non- Federal entity under the Federal award must contain provisions covering the following, as applicable.

A. Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

B. All contracts in excess of $10,000 must address termination for cause and for convenience by the non- Federal entity including the manner by which it will be effected and the basis for settlement.

C. Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60–1.3 must include the equal opportunity clause provided under 41 CFR 60–1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964–1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

D. Davis-Bacon Act, as amended (40 U.S.C. 3141–3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141–3144, and 3146–3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non- Federal entity must report all suspected or reported violations to the Federal awarding agency.

E. Contract Work Hours and Safety Standards Act (40 U.S.C. 3701–3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary,

hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

F. Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

G. Clean Air Act (42 U.S.C. 7401–7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251–1387), as amended—Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401–7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251–1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

H. Debarment and Suspension (Executive Orders 12549 and 12689)—A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

(a) Recipients and subrecipients are prohibited from obligating or expending loan or grant funds to:

(1) Procure or obtain.

(2) Extend or renew a contract to procure or obtain; or
