Notice of Meeting of the City Council of the City of Georgetown, Texas September 8, 2026

The Georgetown City Council will meet on September 8, 2026 at 3:00 PM at Council and Court Building, 510 W. 9th Street.

The City of Georgetown is committed to compliance with the Americans with Disabilities Act (ADA). If you require assistance in participating at a public meeting due to a disability, as defined under the ADA, reasonable assistance, adaptations, or accommodations will be provided upon request. Please contact the City Secretary's Office, at least three (3) days prior to the scheduled meeting date, at (512) 930-3652 or City Hall at 808 Martin Luther King Jr. Street, Georgetown, TX 78626 for additional information; TTY users route through Relay Texas at 711.

Policy Development and Discussion - Workshop

1.A Employee Recognition - Years of Service - August 2026
Presentation and recognition of the Years of Service and the value which the City of Georgetown Employees add to the organization, presented to those who have served at intervals of five years from the anniversary month in which they started -- David Morgan, City Manager, and City Council

1.B Downtown Sidewalk Cafe Program and Ordinance Discussion
Presentation and discussion regarding the establishment of a formal downtown sidewalk cafe program by ordinance as governed under Chapter 316 of the Texas Transportation Code -- Kelly Trietsch, Chief Development Officer

1.C Library Updates
Presentation and discussion regarding library programs, projects, and initiatives -- Sally Miculek, Library Director

Executive Session

In compliance with the Open Meetings Act, Chapter 551, Texas Government Code, Vernon's Codes, Annotated, the items listed below will be discussed in closed session and are subject to action in the regular session.

2.A Executive Session 09.08.2026

- City Manager Work Plan Update

Regular Session - This portion of the meeting will begin no earlier than 6:00 pm.

3.A Call to Order 09.08.2026
Pledge of Allegiance
Recognitions
Actions out of Executive Session

Public Wishing to Address Council

On a subject that is posted on this agenda: Please fill out a speaker registration form which can be found on the table at the entrance to the Council Chamber. Clearly print your name and the letter of the item on which you wish to speak and present it to the City Secretary on the dais, prior to the start of the meeting. You will be called forward to speak when the Council considers that item. Only persons who have delivered the speaker form prior to the meeting being called to order may speak. Speakers will be allowed up to three minutes to speak. If you wish to speak for six minutes, it is permissible to use another requestor's granted time to speak. No more than six minutes for a speaker may be granted. The requestor granting time to another speaker must also submit a form and be present at the meeting.

On a subject not posted on the agenda: An individual may address the Council at a regular City Council meeting by contacting the City Secretary no later than noon on the Wednesday prior to the Tuesday meeting, with the individual's name and a brief description of the subject to be addressed. Only those persons who have submitted a timely request will be allowed to speak. Speakers will be given up to three minutes to address the City Council. The City Secretary can be reached at (512) 931-7715 or cs@georgetowntexas.gov.

4.A Public Wishing to Address 09.01.2026
At the time of posting, no one had signed up to speak.

Statutory Consent Agenda

The Statutory Consent Agenda includes non-controversial and routine items which may be acted upon with one single vote. An item may be pulled from the Consent Agenda in order to be discussed and acted upon individually as part of the Regular Agenda.

5.A 09.08.2026 City Council Meeting Minutes
Consideration and possible action to approve the meeting minutes of the City Council meeting held on August 25, 2026 -- Robyn Densmore, City Secretary

5.B Appointment of FY 2027 Board and Commission and Chair Appointments
Consideration and possible action to confirm the Mayor's recommendations of the appointments of new and returning members, and chairs to the city Boards and Commissions -- Mayor Josh Schroeder

5.C Appointment of Ethics Commission
Consideration and possible action to confirm the appointment of the Ethics Commission, with designations by each councilmember -- Mayor Josh Schroeder

SUBJECT:
Downtown Sidewalk Cafe Program and Ordinance Discussion

SUGGESTED ACTION:
Presentation and discussion regarding the establishment of a formal downtown sidewalk cafe program by ordinance as governed under Chapter 316 of the Texas Transportation Code -- Kelly Trietsch, Chief Development Officer

ITEM SUMMARY:
The City of Georgetown proposes establishing a pilot sidewalk cafe and street patio program permitted under Chapter 316 of the Texas Transportation Code. The program enables restaurants and similar businesses within designated downtown blocks to apply for a permit to temporarily use portions of sidewalks and certain on-street parking spaces for outdoor dining.

The proposed ordinance outlines permit requirements, design and operational standards, insurance obligations, and enforcement mechanisms. Sidewalk cafe's, including street patios, must be ADA-compliant, maintain ADA-compliant pedestrian pathways, meet safety and drainage requirements, preserve utility access, and adhere to clear operational standards - especially where alcohol is served.

A permit would function as a revocable license, requiring annual renewal and strict compliance with maintenance, insurance, and public safety responsibilities. The City retains authority to temporarily or permanently remove any sidewalk cafe' installation if needed for municipal operations or emergency response. At the end of the proposed one-year pilot, the City Council may choose to extend, modify, or make the program permanent based on observed impacts and community benefit.

Sidewalk Café & Street Patio Pilot Program Ordinance Discussion

September 8, 2026 | City Council Workshop

Program Intent

- Enhance downtown economic vitality and & pedestrian activity
- Protect public safety, accessibility, drainage, utilities and municipal operations
- Evaluate real-world impacts during the pilot period

Presentation & Discussion

Sidewalk Café – An outdoor dining or customer seating area that is located on a Sidewalk or other approved portion of the public right-of-way adjacent to a business establishment and contains removable tables, chairs, planters, or related appurtenances.

Street Patio – A type of Sidewalk Café that is located within a parking space or spaces.

- Why **Chapter 316** Applies
- **Ordinance Overview**
  - Proposed Ordinance to establish a pilot sidewalk café program under Chapter 316 of the Texas Transportation Code
  - Ordinance aims to support downtown business activity while protecting public health, safety, accessibility, and the City's infrastructure.
- **Area/Eligibility,** Application **Requirements, Review, and Approval**
- Operational and Design **Standards**
- **Enforcement and Revocation** (and Ordinance Expiration)

Ch. 316 – TX Transportation Code

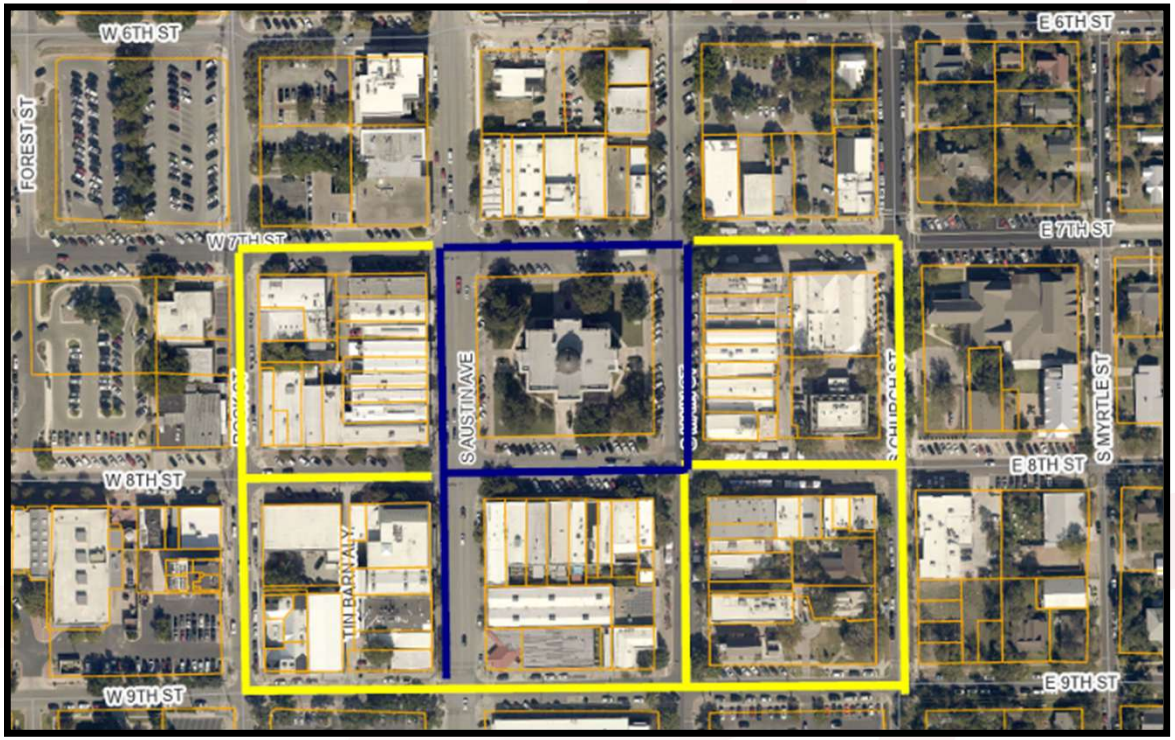
- The statutory definition of 'sidewalk' includes parking spaces adjacent to the roadway, making use of these spaces subject to Ch 316 regs
- A program must be created by ordinance to ensure legal compliance, manage liability, and provide for formal permitting processes
- Designates specific blocks to temporarily use portions of sidewalks and on-street parking spaces for outdoor seating/dining

Pilot Program Ordinance Overview

- Creates a one-year pilot period (unless renewed)
- Establishes:
  - Permitting
  - Licensing Agreement
  - Standards and Maintenance Responsibilities
  - Insurance Requirements
  - Enforcement
- Allows for Administrative Approval (City Manager/designee) unless Council approval is otherwise required

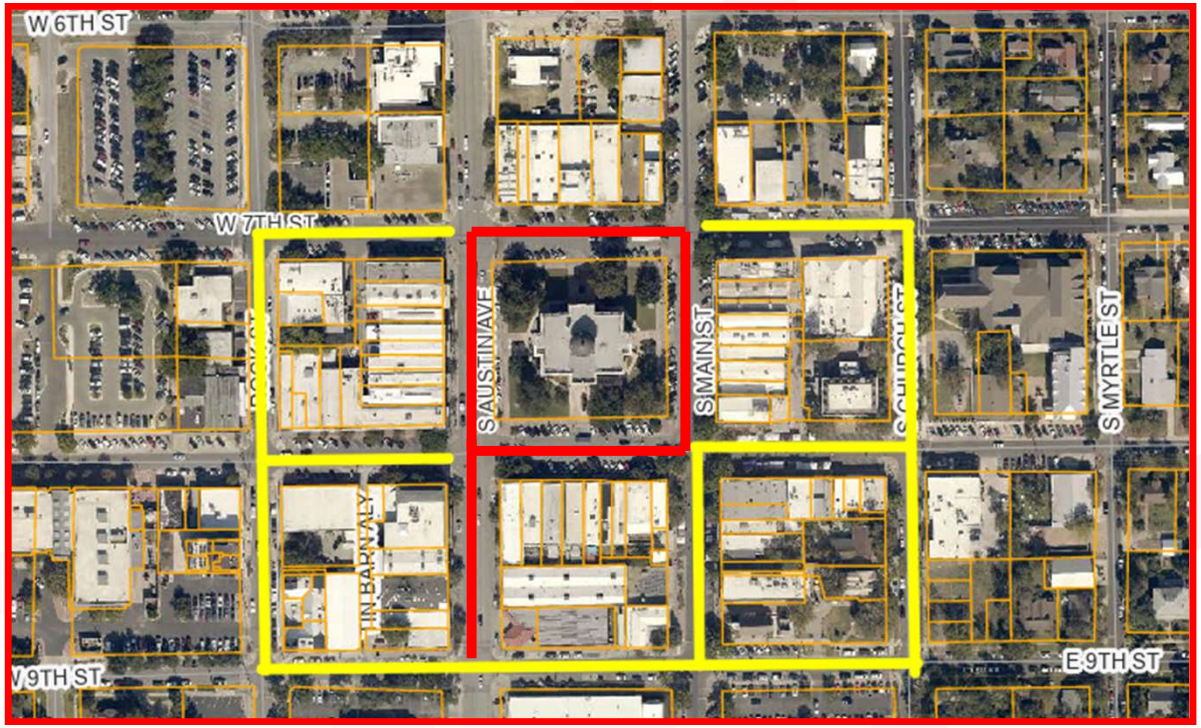
Permit Area and Eligibility

- Permit Area
  - Allowed only within designated downtown right-of-way blocks
    - Yellow = Sidewalk Café <u>OR</u> Street Patio
    - Blue = Sidewalk Café ONLY
- Eligibility
  - Fee title owners
  - Lawful tenants operating restaurants or similar businesses



Permit Area and Eligibility

- Sidewalk Café <u>OR</u> Street Patio
- Extension into adjacent business requires written consent
- *Street Patios are not* permitted on The Square or Austin Avenue



Application Requirements

- Fees (as established 12.035.19 – similar to Special Events Ordinance)
  - Application, License – Sidewalk (TUP) or Street (TUP + Parking)
- Proof of ownership/tenancy
- Scaled site plan
  - Dimensional
  - ADA clear paths and accessible routes
  - Obstructions, utilities, ingress & egress, etc.
  - Platforms (engineered if required) and furnishings
- Proof of Insurance (liability and liquor, if applicable, workers' comp, surety bond if required)
- Proof of Permits (food establishment / TABC)
- Additional architectural or engineered plans, if requested

Review and Approval

Review Criteria:

- Sidewalk Café / Street Patio does not intrude into roadway or pedestrian/ADA clear path
- No hazards to pedestrians, vehicles, public infrastructure or drainage
- Design minimalizes injury risk and preserves public access
- No interference with utilities or municipal operations
- Approval within 30 days (denial with failure to act)

Operational and Design Standards

- Must be contiguous to the business frontage and comply w/ ADA
- No fixed walls – open air only
- Barriers must be non-permanent, unless approved
- Alcohol service areas must be enclosed and monitored
- Platforms, decking, lighting – must meet City Code requirements
- Max 3 spaces for Street Patio
  - Prohibited in fire lanes, ADA spaces, loading zones, hazard areas, etc.
- Mandatory protective barriers and visibility standards
- Must maintain drainage flow and ensure removable platforms

Enforcement and Revocation -Sunset Provision

City may suspend/revoke:

- Violations
- Non-payment
- Lapse in insurance
- Any noncompliance in Ordinance or applicable City Codes
- Safety, Operations, Utilities, or Emergency reasons
- City may remove improvements for noncompliance at permit holder's expense

- Sunset Provision – 12-month expiration unless renewed by Council

*No permanent rights to parking space usage (see licensing agreement)

Council Feedback

1. Do you have any additional questions or discussion topics?
2. Do you support City Manager Authorization (Administrative Approval) for these license agreements?
3. Do you support delaying enforcement of the sidewalk café portion of the ordinance for 90 days to allow businesses time to come into compliance?
4. Do you support the Ordinance moving forward to the regular agenda?

THANK YOU!

GEORGETOWN
TEXAS

This License Agreement is entered into by and between the City of Georgetown, Texas, a home rule municipal corporation, _____, Georgetown, Texas 78627("Licensor") and _____, _____, _____, Texas 786__ ("Licensee").

1. Grant of License. In consideration of $10.00, other good and valuable consideration and the faithful performance of the covenants and conditions established in this License Agreement, Licensor hereby grants a License to Licensee across certain property owned by Licensor in the area of (insert street information) as depicted in Exhibit "A" attached hereto and made a part hereof (the "License Area" (also referred to as the "Permit Area" in applicable City ordinances)) for the purposes of allowing the use of the area for extended on premises restaurant, food establishment, or similar business and the encroachment of such personal property owned by Licensee (the "Improvements") into the License Area as is appropriate therefore.

Licensee shall, for the term of the License, have the right to:

a. Exclude such persons, visitors, and users from use of the License Area in the same manner as would be allowed on Licensee's business premises; and

b. Secure the License Area from the remainder of the public right of way as may be required for the practice of their business under State and local law; and

c. Install or cause the installation of such signage only as may be required to comply with State and local laws for the practice of Licensee's particular business or activity.

However, Licensee may not, at any time, exclude Licensor, its employees, contractors, or other such parties or persons from accessing the License Area in their official capacity.

2. No Abandonment. Neither the granting of the License, nor any related permit, constitutes an abandonment by Licensor of the License Area or any other rights in and to the License Area. Licensee neither asserts nor claims any interest or right whatsoever, whether legal, equitable or otherwise in or to the License Area.

3. No Interference with Utilities. The License granted herein is subject to the requirement that the Improvements shall not interfere with any electric, water, sewer, or other utility, or equipment, except as specifically approved by the appropriate departments of Licensor in writing.

4. Right of Use of Property by Licensor and Public Utilities. The Licensor reserves the right at all times, for itself and all public utilities authorized to use and maintain the area immediately adjacent to the License Area for public right-of-way, utility and drainage purposes, to perform construction, maintenance and operation activities on, under or above the License Area, including those that involve excavation, trenching, pole and wire placement, or other activities that may affect the Improvements or access to the Improvements.

Licensor further retains the right, in its sole discretion, to require the temporary or permanent closure, relocation, modification, suspension, or removal of the Improvements and Licensee's use of the License Area when reasonably necessary for municipal operations, utilities, drainage, construction, maintenance activities, emergency response, public safety, accessibility compliance, or any other public purpose. Licensee acknowledges and agrees that Licensor's exercise of such rights shall not constitute a taking or give rise to any claim for damages or compensation against Licensor.

5. Indemnity and Release.

a. LICENSEE COVENANTS AND AGREES TO INDEMNIFY, AND DOES HEREBY INDEMNIFY, HOLD HARMLESS AND DEFEND LICENSOR, ITS OFFICERS, AGENTS, CONTRACTORS, AND EMPLOYEES, FROM AND AGAINST ANY AND ALL CLAIMS, LOSSES, CAUSES OF ACTION OR SUITS FOR PROPERTY DAMAGE (INCLUDING DAMAGE TO IMPROVEMENTS) OR LOSS AND/OR PERSONAL INJURY, INCLUDING DEATH, INCLUDING ALL COSTS, ATTORNEYS' FEES, EXPERT FEES OR OTHER RELATED COSTS AND FEES TO ANY AND ALL PERSONS, OF WHATSOEVER KIND OR CHARACTER, WHETHER REAL OR ASSERTED, ARISING OUT OF OR IN CONNECTION WITH, DIRECTLY OR INDIRECTLY, THE CONSTRUCTION, MAINTENANCE, OCCUPANCY, USE, EXISTENCE OR LOCATION OF THE IMPROVEMENTS AND USES GRANTED HEREUNDER, WHETHER OR NOT CAUSED, IN WHOLE OR IN PART, BY ALLEGED NEGLIGENCE OF OFFICERS, AGENTS, SERVANTS, EMPLOYEES, CONTRACTORS, SUBCONTRACTORS, LICENSEES OR INVITEES OF LICENSOR; AND LICENSEE HEREBY ASSUMES ALL LIABILITY AND RESPONSIBILITY FOR SUCH CLAIMS OR SUITS. LICENSEE SHALL LIKEWISE ASSUME ALL LIABILITY AND RESPONSIBILITY AND SHALL INDEMNIFY LICENSOR FOR ANY AND ALL INJURY OR DAMAGE TO LICENSOR PROPERTY ARISING OUT OF OR IN CONNECTION WITH ANY AND ALL ACTS OR OMISSIONS OF LICENSEE, ITS OFFICERS, AGENTS, SERVANTS, EMPLOYEES, CONTRACTORS, SUBCONTRACTORS, LICENSEES, INVITEES, OR TRESPASSERS.

b. LICENSEE HEREBY RELEASES, RELINQUISHES, AND DISCHARGES LICENSOR, ITS OFFICERS, AGENTS, AND EMPLOYEES FROM ALL CLAIMS, DEMANDS, AND CAUSES OF ACTION OF EVERY KIND AND CHARACTER, INCLUDING THE COST OF DEFENSE THEREOF, FOR ANY INJURY TO OR DEATH OF ANY PERSON (WHETHER EMPLOYEES OF

EITHER PARTY OR OTHER THIRD PARTIES) AND ANY LOSS OF OR DAMAGE TO ANY PROPERTY (WHETHER PROPERTY OF LICENSOR, ITS EMPLOYEES, AGENTS, CONTRACTORS, LESSEES OR OF THIRD PARTIES) THAT IS CAUSED BY OR ALLEGED TO BE CAUSED BY, ARISING OUT OF, OR IN CONNECTION WITH LICENSOR'S OWNERSHIP, USE OR MAINTENANCE OF THE LICENSE AREA AND THE PERFORMANCE OF ANY MAINTENANCE, CONSTRUCTION, RECONSTRUCTION, REPAIR, RELOCATION, EXPANSION, OR REMOVAL OF ANY OF LICENSOR'S FACILITIES ON, ABOVE OR UNDER THE LICENSE AREA. THIS RELEASE SHALL APPLY REGARDLESS OF WHETHER SAID CLAIMS, DEMANDS, AND CAUSES OF ACTION ARE COVERED IN WHOLE OR IN PART BY INSURANCE, AND IN THE EVENT OF INJURY, DEATH, PROPERTY DAMAGE, OR LOSS SUFFERED BY LICENSEE, ANY SUBCONTRACTOR, OR ANY PERSON OR ORGANIZATION DIRECTLY OR INDIRECTLY EMPLOYED BY ANY OF THEM. THIS RELEASE SHALL APPLY REGARDLESS OF WHETHER SUCH INJURY, DEATH, LOSS, OR DAMAGE WAS CAUSED IN WHOLE OR IN PART BY THE NEGLIGENCE OF LICENSOR.

6. Obligations of Licensee.

a. Maintenance. Licensee shall operate and maintain its property and the License Area in a clean, safe, sanitary, accessible, and lawful condition at all times in accordance with all applicable federal, state, and local laws, ordinances, regulations, and accessibility requirements, including the Americans with Disabilities Act ("ADA"). Licensee shall maintain unobstructed pedestrian access and ADA-compliant clearances within and around the License Area and shall ensure that the Improvements do not obstruct drainage, utilities, emergency access, or the public right-of-way.

If Licensee fails to maintain the Improvements and License Area in the manner provided herein such that the License Area and/or Licensee property are in violation of applicable City of Georgetown ordinances, present a nuisance or hazard to the public, interfere with accessibility requirements, or interfere with Licensor's use of its property, Licensor may at its election and as sole discretion, revoke this license on terms described in Section 12 of this Agreement.

Licensee is fully and solely responsible for operating its business and undertaking any use of the License Area in compliance with all applicable laws, including all applicable Texas Alcoholic Beverage Commission regulations and requirements, if applicable.

b. Relocation. If the installation, maintenance, operation, or existence of the Improvements or Licensee's use of the License Area necessitates the relocation, removal, modification, protection, repair, or replacement of any existing or future utility, infrastructure, facility, or improvement owned by Licensor or located within the public right-of-way, Licensee shall be solely responsible for and shall promptly pay all any and costs and expenses associated therewith, as determined by Licensor in its sole discretion.

c. Restoration. Upon expiration, suspension, revocation, termination of this License Agreement, or upon request of Licensor, Licensee, at its sole expense and without liability to Licensor, shall promptly remove all Improvements, furnishings, barriers, appurtenances, and other personal property associated with Licensee's use of the License Area, unless otherwise approved in writing by Licensor. Licensee shall restore the License Area and any affected public improvements to substantially the same condition existing prior to installation of the Improvements, reasonable wear and tear excepted.

d. Extra Costs to Licensor. In the event that any installation, reinstallation, relocation or repair of any existing or future utility or improvements owned by Licensor, constructed by or on behalf of the public or at public expense is made more costly by virtue of the installation, maintenance or existence of the Improvements and Licensee's use of the License Area, Licensee shall pay to Licensor an additional amount equal to such additional cost as determined by Licensor's City Manager or designee.

7. Insurance. This License Agreement shall not be effective unless and until Licensee files with Licensor a certificate of liability insurance or other proof of insurance in a form acceptable to Licensor confirming that the Licensee has procured the following policy(s):

a. Commercial general liability insurance issued by an insurance company authorized to do business in the state of Texas. The insurance shall provide coverage in an amount of not less than $1,000,000.00 for each single occurrence and $2,000,000.00 in the aggrerate.

b. Worker's compensation insurance issued by an insurance company authorized to do business in the state of Texas. The insurance shall provide coverage in an amount of not less than $500,000.00 for each single occurrence.

c. Alcohol service insurance issued by an insurance company authorized to do business in the state of Texas. The insurance shall provide coverage in an amount of not less than $1,000,000.00 for each single occurrence

The policy(s) shall provide in substance that the insurer will defend against all claims and lawsuits which arise and will pay any final judgment of a court of competent jurisdiction against the city, its officers, agents or employees. The policy(s) of insurance shall name both Licensee and Licensor as insured parties to the full amount of the policy limits and include a waiver of subrogation in favor of Licensor. If the policy(s) is/are not kept in full force and effect throughout the term of this License Agreement, the License Agreement may be terminated by Licensor upon providing written notice of termination to Licensee.

Licensee shall maintain all insurance required herein continuously throughout the term of this License Agreement and any associated permit. Licensor reserves the right to require additional insurance coverage, endorsements, or increased coverage limits as reasonably necessary based on the nature of the permitted use or associated risks

8. Compliance with Laws and Regulations. Licensee agrees to comply with all applicable federal, state, and local laws, ordinances, rules, regulations, codes, permitting requirements, and accessibility standards in the construction, installation, maintenance, and operation of the Improvements and Licensee's use of the License Area, including compliance with the Americans with Disabilities Act and all applicable Texas Alcoholic Beverage Commission requirements, if applicable. Licensee shall maintain all permits, licenses, and approvals required for operation of its business and use of the License Area throughout the term of this License Agreement.

9. Removal of Improvements by Licensor.

a. Licensor retains the right, but not the obligation, to enter upon the License Area and, at Licensee's expense, temporarily or permanently remove, relocate, modify, suspend, or close any structure, Improvements, furnishings, barriers, or alterations that Licensor, in its determination, presents a threat of injury to persons or damage to property, interferes with municipal operations, utilities, drainage, construction, maintenance activities, emergency response, accessibility compliance, public safety, or any other public purpose. Except in the event of an emergency presenting an imminent threat to persons or property, Licensor will provide advance notice to Licensee of such determination.

b. In the event of an emergency, Licensor may immediately remove or relocate Improvements without prior notice to Licensee, and Licensee shall reimburse Licensor for all associated costs incurred by Licensor.

10. No Assignment. This License Agreement is personal to Licensee and may not be assigned, transferred, conveyed, sublicensed, or otherwise delegated, whether voluntarily, involuntarily, by operation of law, or otherwise, without the prior written consent of Licensor, which may be withheld in Licensor's sole discretion. Any attempted assignment or transfer without such consent shall be void and of no force or effect. Licensee shall provide any successor-in-interest to Licensee's adjacent property with factual notice of this License Agreement and the revocable nature of the License granted herein.

11. Term, Revocation, Termination, or Expiraton of License.

a. This License Agreement shall commence on the effective date and shall remain in effect for an initial term of one (1) year, unless sooner revoked or terminated as provided herein or by applicable law or ordinance.

b. Notwithstanding the foregoing, this License Agreement shall automatically expire upon the sunset date of the applicable City ordinance governing sidewalk cafés or upon the one-year anniversary of the effective date of this License Agreement, whichever occurs sooner, unless the City Council elects to make such ordinance permanent and Licensee renews this License Agreement in accordance with the applicable ordinance. This License Agreement may be renewed annually in accordance with the applicable provisions of City of Georgetown Ordinance 2026-_____ and any successor ordinance thereto.

c. Licensor may revoke or terminate this License Agreement and any associated permit upon written notice to Licensee if Licensee fails to comply with any covenant, condition, requirement, or obligation contained in this License Agreement or the applicable City ordinance governing sidewalk cafés, or if Licensee otherwise violates any applicable federal, state, or local law, ordinance, rule, or regulation. Licensor may also revoke this License Agreement as otherwise provided by City of Georgetown Ordinance 2026-_____. Such notice shall be considered rendered upon deposit with the United States Postal Service, addressed to Licensee at the address provided above.

d. Upon expiration, revocation, or termination of this License Agreement, this License shall immediately cease and be of no further force or effect. Licensee shall timely remove all property from the License Area and complete all required restorative activities in accordance with this License Agreement and the applicable ordinance

12. Survival of Obligations. The expiration, termination, revocation, suspension, or other cessation of this License Agreement or any associated permit shall not relieve Licensee of any obligation or liability arising from or related to Licensee's use or occupancy of the public right-of-way or the installation, existence, maintenance, repair, or removal of any improvements therein. Licensee's obligations concerning indemnification, liability, maintenance and repair, removal of improvements, and restoration of the public right-of-way shall survive and remain in full force and effect until all improvements have been removed and the public right-of-way has been restored to a condition acceptable to the City. Any other provision that, by its nature, is intended to survive expiration or termination shall likewise survive.

13. Integration; Amendments; No Warranty of Title. This License and assocatied permits constitute the entire agreement between Licensor and Licensee on this subject, and it may be amended only by written instrument executed by both parties. **THE LICENSOR MAKES NO WARRANTY OF TITLE IN CONNECTION WITH THIS AGREEMENT. THE LICENSEE ACKNOWLEDGES AND UNDERSTANDS THAT THIS LICENSE DOES NOT CONSTITUTE AN INTEREST IN REAL PROPERTY, AND THE LICENSEE FULLY ACCEPTS THE RISKS ASSOCIATED WITH MAKING ANY IMPROVEMENTS TO THE LICENSE AREA WHILE HAVING ONLY A REVOCABLE RIGHT TO USE THE LICENSE AREA.**

14. Venue. Exclusive venue for any legal dispute under this agreement is in the state court in Williamson County, Texas having jurisdiction over the dispute, or if in federal court, the United States District Court for the Western District of Texas, Austin Division.

15. The License may be filed of record in the Official Public Records of Williamson County, Texas.

- 163 Participants completed and returned Summer Reading Program game and reading log

GEORGETOWN TEXAS

Outreach and Offsite Services

Library access for the whole community:

- WOW Bookmobile
- Pop-Up Library
- GPL Express materials delivery and returns pickup
- Library card signups at community events
- Home Delivery program

Outreach

Bookmobile and Pop-up Library Visits

On-Board WOW Visits and Pop-up Library visits using WOW:HD Delivery van:

- 24 stops every four weeks
- Assisted living facilities, Senior living communities, apartment complexes, and childcare facilities or preschools.
- Stay inside City Limits
- Loaned over 18,000 items in the past year.

Outreach

GPL Express

- Twice weekly materials delivery to Carver Center for Families and Sun City Social Center.
- Over 23,000 items borrowed in the past year.
- Planned space for locker system at Customer Service Center
- Future opportunities west of I-35

Outreach

Community Events

GISD, City, County, NonProfit, and neighborhood events

- Library Card signups
- Explore the WOW
- Books giveaway
- Information about Library programs and services

GEORGETOWN TEXAS

Outreach

Home Delivery Program

Provides Library materials delivery to patrons who are not able to go to a WOW stop or the main Library.

- 50-70 households
- Spectrum of service depending on patron's needs
- Assistive devices and Talking Books Program certification for patrons with diminished eyesight.

RFID Upgrades

- RFID allows for batch handling and processing of materials.
- Library closed 8/9-16 to program and add RFID tag stickers to all checked-in volumes in the Library.
- Staff and volunteers continue to tag materials returned since 8/16
- To date, approximately 103,000 of the Library's approximately 109,000 volumes have been tagged.
- Materials check-in, staff-facilitated checkouts, and materials processing and routing will be handled using RFID readers

RFID Upgrades

Future opportunities:

- RFID wand to facilitate open inventory
- RFID-enabled bookdrop
- Automated materials handler
- Library browsing kiosks
- Self-service initiatives to increase access hours or allow for an unstaffed microbranch.

Facility Planning

Long-range plan calls for interior upgrades

- Working with Steinberg Hart Architects
- Areas of focus:
  - First floor public spaces
  - First floor staff workroom
  - Second floor Reference desk
  - Second-hand Prose bookstore
- Concept updates in coming months

Thank you!

City Council Meeting Minutes 08.25.2026.pdf

Minutes of the City Council
City of Georgetown, Texas
Tuesday, August 25, 2026

The Georgetown City Council met on Tuesday, August 25, 2026, at 3:00 PM at the Council and Court Building, 510 W. 9th Street.

The City of Georgetown is committed to compliance with the Americans with Disabilities Act (ADA). If you require assistance in participating at a public meeting due to a disability, as defined under the ADA, reasonable assistance, adaptations, or accommodations will be provided upon request. Please contact the City Secretary's Office, at least three (3) days prior to the scheduled meeting date, at (512) 930-3652 or City Hall at 808 Martin Luther King, Jr Street for additional information; TTY users route through Relay Texas at 711.

The following Members were in attendance: Amanda Parr, Kevin Pitts, Ben Stewart, Jake French, Josh Schroeder, Ron Garland, and Doug Noble. Councilmember Ben Butler was absent.

1. Policy Development and Discussion - Workshop

Mayor Schroeder called the meeting to order at 3:00 p.m.

1.A 2027 State Legislative Agenda

Presentation and discussion regarding the City of Georgetown 2027 State Legislative Agenda -- Jacob Reagan, Intergovernmental Relations Manager, and Amberly Kovar, Policy Analyst

Reagan presented and reviewed the Legislative program overview; the need for the program; Legislative Task Force and membership; State Legislative agenda and objectives; key features of the City's legislative agenda, including points on preserving local control, elections, municipal finance, responsibly managing growth, planning, transportation, Electric Utility, Water and Wastewater Utility, Information Technology, Fire, Police, Emergency Management, maintaining our historic character and high quality of life, economic development, downtown and tourism, and library services; and program next steps.

General discussion among Council and staff regarding the ways to use the task force outside of their set meeting times; recognition of the Task Force members; and appreciation for work done by staff and task force.

1.B West Oaks ETJ MUD request

Presentation and discussion regarding a potential ETJ Municipal Utility District (MUD) for the proposed West Oaks neighborhood -- Nick Woolery, Assistant City Manager

Woolery presented and reviewed the presentation purpose; project background;

and lotting summary. Then Peter Verdicchio with SEC Planning presented and reviewed the development vision; community goal; land use; site context; Future Land Use Plan; parks, trails, and amenities; amenity center program; neighborhood park program; neighborhood park; entry features; trails plan; landscape treatment; masonry wall; walls and columns; housing product; and enhanced building products. Woolery resumed the presentation and reviewed the MUD Policy key themes, including quality development, extraordinary benefits, parks, trails, and amenities, enhanced public service and safety, City exclusive provider, fiscally responsible finance plan, and additional requirements; and needed Council feedback and direction.

General discussion among Council, Verdicchio, John Zinsameyer with KB Home and Land, and staff regarding the location of future roads in the development; the density of the proposed project; the commitment to water conservation; and the current road that exists that does not appear to connect to anything else.

1.C YMCA Workshop presentation

Presentation and discussion regarding the City's partnership with the YMCA of Central Texas, including a project history, overview of the proposed Construction and Operating Agreements, and an update on construction activities and schedule -- Jack Daly, Assistant City Manager

Daly presented and reviewed the project background, agreement overview, and the two agreements on tonight's agenda, one for construction and one for operating. Jeff Andresen with YMCA presented and reviewed an update from the YMCA, the project progress to date, the future focus, the tentative project completion in December of 2027, project renderings, the site plan with pool, and a video showing current YMCA features and renderings of the proposed YMCA.

General discussion among Council, Andresen, and staff regarding handicap parking availability; timing of pool build; YMCA after-school programs will remain on the school campuses; the location of different sports fields; and the appreciation for work done on the project.

Mayor Schroeder recessed into Executive Session at 4:01 p.m.

2. Executive Session

In compliance with the Open Meetings Act, Chapter 551, Texas Government Code, Vernon's Codes, Annotated, the items listed below will be discussed in closed session and are subject to action in the regular session.

2.A **Executive Session 08.28.2026**

Sec. 551.071: Consultation with Attorney

Advice from the attorney about pending or contemplated litigation and other matters on which the attorney has a duty to advise the City Council, including agenda items.

- Litigation Update

- Charter Review

Sec.551.072: Deliberations about Real Property

- Deliberation regarding the purchase, exchange, lease, or value of certain real property situated in Williamson County, Texas, such property being more particularly identified by the Williamson County Central Appraisal District as Parcels R449674 and R656329

3. Regular Session - This portion of the meeting will begin no earlier than 6:00 pm.

Mayor Schroeder called the meeting to order at 6:00 p.m.

3.A **Call to Order 08.25.2026**

Pledge of Allegiance

Recognitions

- Proclamation of National Preparedness Month

Actions out of Executive Session

4. Public Wishing to Address Council

On a subject that is posted on this agenda: Please fill out a speaker registration form which can be found on the table at the entrance to the Council Chamber. Clearly print your name and the letter of the item on which you wish to speak and present it to the City Secretary on the dais, prior to the start of the meeting. You will be called forward to speak when the Council considers that item. Only persons who have delivered the speaker form prior to the meeting being called to order may speak. Speakers will be allowed up to three minutes to speak. If you wish to speak for six minutes, it is permissible to use another requestor's granted time to speak. No more than six minutes for a speaker may be granted. The requestor granting time to another speaker must also submit a form and be present at the meeting.

On a subject not posted on the agenda: An individual may address the Council at a regular City Council meeting by contacting the City Secretary no later than noon on the Wednesday prior to the Tuesday meeting, with the individual's name and a brief description of the subject to be addressed. Only those persons who have submitted a timely request will be allowed to speak. Speakers will be given up to three minutes to address the City Council. The City Secretary can be reached at (512) 931-7715 or cs@georgetowntexas.gov.

4.A **Public Wishing to Address 08.25.2026**

- Jordan Utter would like to address the Council regarding the cancellation of GoGeo in favor of ride GTX.

5. Statutory Consent Agenda

The Statutory Consent Agenda includes non-controversial and routine items which may be acted upon with one single vote. An item may be pulled from the Consent Agenda in order to be discussed and acted upon individually as part of the Regular Agenda.

Prior to the consent agenda being taken up for consideration, Mayor Schroeder recused himself due to a conflict on Item 5.N.

Moved by Doug Noble; seconded by Jake French to approve with the exception of Item 5.Z.
Motion Approved: 6 - 0
Voting For: Amanda Parr, Kevin Pitts, Ben Stewart, Jake French, Ron Garland, and Doug Noble
Voting Against: None

5.A 08.11.2026 and 08.17.2026 City Council Meeting Minutes
Consideration and possible action to approve the minutes of the City Council meeting held on August 11, 2026, and Special City Council meeting held on August 17, 2026 -- Robyn Densmore, City Secretary

Second Reading of an Ordinance approving the 2026 Annual Service Plan Update to the Service and Assessment Plan including an updated Assessment Roll for the Preserve at Water Oak Public Improvement District in accordance with Chapter 372 of the Texas Local Government Code -- Nick Woolery, Assistant City Manager, Andrea Barnes, P3Works, LLC, City of Georgetown's PID Administrator

5.AC Second Reading - Reinvestment Zone No. 2026-002
Second Reading of an Ordinance designating Reinvestment Zone No. 2026-002 -- Cameron Goodman, Economic Development Director

6. Legislative Regular Agenda

6.A First Reading - Contract Authority for Cooperative Agreements

First reading of an Ordinance Amending Sec. 4.08.010 of the Code of Ordinances to allow the Council to delegate approval of cooperative agreement contracts to the City Manager -- Leigh Wallace, Chief Financial Officer

Wallace presented and reviewed the need for the changes.

Moved by Ron Garland; seconded by Amanda Parr to approve as presented.
Motion Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Ben Stewart, Jake French, Ron Garland, and Doug Noble
Voting Against: None

6.B FY2027 Budget Public Hearing

Conduct a public hearing on the proposed FY2027 Annual Budget -- Randi Cormack, Budget Manager

Cormack presented and reviewed staff recognition for work done, budget key themes, overview of all budget funds, FY2027 major expense categories, FY2027 total staffing increase of 39.5 positions, FY2027 property tax rate, FY2027 Sales Tax, public outreach completed prior to budget adoption, feedback received from residents, and next steps.

Mayor Schroeder opened the public hearing at 6:13 p.m. There were no speakers. The public hearing closed by Council vote at 6:13 p.m.

Moved by Kevin Pitts; seconded by Ron Garland to approve closing the public hearing. **Motion** Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Ben Stewart, Jake French, Ron Garland, and Doug Noble
Voting Against: None

6.C Public Hearing on Proposed FY2027 Property Tax Rate

Conduct a public hearing on the proposed 2026 Property Tax Rate used for the FY2027 Annual Budget -- Randi Cormack, Budget Manager

Mayor Schroeder opened the public hearing at 6:14 p.m. There were no speakers. The public hearing closed by Council vote at 6:14 p.m.

Moved by Kevin Pitts; seconded by Doug Noble to Approve closing the public hearing. **Motion** Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Ben Stewart, Jake French, Ron Garland, and Doug Noble
Voting Against: None

6.D First Reading - Annual Operating Budget FY2027

First Reading of an Ordinance adopting the City of Georgetown Annual Budget for the fiscal year beginning October 1, 2026, and ending September 30, 2027 -- Randi Cormack, Budget Manager

Cormack read the Ordinance caption.

City Secretary Robyn Densmore performed a roll-call vote.

Moved by Kevin Pitts; seconded by Jake French to approve an Ordinance adopting the Fiscal Year 2027 annual budget.
Motion Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Ben Stewart, Jake French, Ron Garland, and Doug Noble
Voting Against: None

6.E Resolution - Ratify the Property Tax Rate Increase for FY2027 Budget

Consideration and possible action to approve a Resolution ratifying the property tax increase included in the FY2027 Annual Budget and acknowledging that the 2026 tax rate will raise more revenue from property taxes than the previous year -- Randi Cormack, Budget Manager

Cormack noted that this vote is required by state law and is not a vote on the tax rate.

She then read the Ordinance caption.

Moved by Kevin Pitts; seconded by Ron Garland to approve to ratify the property tax increase reflected in the Fiscal Year 2027 budget.
Motion Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Ben Stewart, Jake French, Ron Garland, and Doug Noble
Voting Against: None

6.F First Reading - Levying the Property Tax Rate

First Reading of an Ordinance levying a property tax rate for the City of Georgetown for the tax year 2026 -- Randi Cormack, Budget Manager

Cormack presented the item and noted the following: this item is to levy the tax rate. State law requires this to be a separate vote from adopting the budget and a separate vote from ratifying the tax rate; the proposed property tax rate is 36.3167 cents per $100 of assessed valuation, which is higher than the current tax rate, and total rate is comprised of 11.2630 cents for maintenance and operations and 25.0537 cents for interest and sinking (debt service); and the Operations and Maintenance portion of the rate has decreased by $0.001241 per $100 of valuation, and the Interest and Sinking (or debt service) portion is increasing by $0.011408. She added

that State law requires that the Operations and Maintenance portion of the tax rate revenue may only be increased by 3.5%, and the proposed rate complies with this requirement.

Cormack read the Ordinance caption.

General discussion among Council and staff regarding clarification on how the increase is calculated.

Moved by Kevin Pitts; seconded by Jake French to approve a tax rate of 11.2630 cents for the maintenance and operations component of the overall tax rate.
Motion Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Ben Stewart, Jake French, Ron Garland, and Doug Noble
Voting Against: None

Moved by Kevin Pitts; seconded by Jake French to approve a tax rate of 25.0537 cents for the debt service component of the overall tax rate.
Motion Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Ben Stewart, Jake French, Ron Garland, and Doug Noble
Voting Against: None

Moved by Kevin Pitts; seconded by Jake French to approve that the property tax rate be increased by the adoption of a tax rate of 36.3167 cents, which is effectively a 0.28 percent increase in the tax rate.
Motion Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Ben Stewart, Jake French, Ron Garland, and Doug Noble
Voting Against: None

6.G First Reading - Administrative Department Updates

First Reading of an Ordinance amending § 2.08.010. "Administrative Departments" of the Georgetown Code of Ordinances -- Randi Cormack, Budget Manager

Cormack presented the item and read the ordinance caption.

Moved by Kevin Pitts; seconded by Amanda Parr to approve as presented.
Motion Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Ben Stewart, Jake French, Ron Garland, and Doug Noble
Voting Against: None

6.H First Reading - Amendment to Miscellaneous Utility Account Fees
First Reading of an Ordinance amending Section 13.04.240 of Chapter 13.04, Article VII of the Code of Ordinances of the City of Georgetown, regarding the Meter Tampering Fee -- Cherie Hernandez, Customer Billing Manager

Hernandez presented and reviewed the purpose of the review; methodology; summary of proposed fee changes for the Meter Tampering Fee; explanation of the Meter Tampering Fee; and the financial impact.

General discussion among Council and staff regarding the breakdown of costs associated with meter tampering, and how the frequency of meter tampering is almost daily.

Hernandez read the Ordinance caption.

Moved by Jake French; seconded by Ron Garland to approve as presented.
Motion Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Ben Stewart, Jake French, Ron Garland, and Doug Noble
Voting Against: None

6.I Public Hearing and First Reading - 2026 Annual Service Plan Update and Assessment Roll for Georgetown Village PID

Public Hearing and First Reading of an Ordinance approving and adopting the final 2026 Annual Service Plan Update, 2026 Assessment Role, establishing classification for the apportionment of costs and the method of assessing special assessments for the supplemental services and improvements to the property in the Georgetown Village Public Improvement District No. 1 (GVPID), closing the hearing and levying assessments for the cost of certain supplemental services and improvements to be provided in the GVPID during FY27, fixing charges and liens against the property in the GVPID and against the owners thereof, and providing for the collection of the assessments -- Kyle Shafman, P3Works, LLC, City of Georgetown's PID Administrator

Andrea Barnes, P3 Works, presented and reviewed the item's purpose; original FY2026 budget comparison with approved and projected costs; revised FY2026 budget comparison with approved and projected costs; revenue for annual assessment rate; original FY2027 budget and next four years; revised FY2027 budget and next four years; and next steps.

General discussion among Council and Barnes regarding the maintenance related to the irrigation in the GVPID.

Skye Masson, City Attorney, read the Ordinance caption.

Mayor Schroeder opened and closed the public hearing at 6:35 p.m. as there were no speakers.

Moved by Kevin Pitts; seconded by Ben Stewart to approve as presented.
Motion Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Ben Stewart, Jake French, Ron Garland, and Doug Noble
Voting Against: None

6.J First Reading - Adoption of the 2026 National Electric Code

First Reading of an Ordinance to amend Chapter 15.16 of the Code of Ordinances adopting the 2026 National Electric Code with local amendments -- Greg Holt, Assistant Chief Building Official

Holt presented and noted that there were no updates since the proposed changes were presented at the August 11, 2026 workshop

Holt read the Ordinance caption.

There was no discussion by the Council on the item.

Moved by Jake French; seconded by to approve as presented.
Motion Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Ben Stewart, Jake French, Ron Garland, and Doug Noble
Voting Against: None

6.K First Reading - Adoption of the 2021 International Fire Code

First Reading of an Ordinance to amend Chapter 8.04 of the Code of Ordinances amending and adding to the City's local amendments to the 2021 International Fire Code - - Daniel Bilbrey, Deputy Fire Marshal

Daniel Bilbrey, Deputy Fire Marshal, presented and noted that there were no updates since the proposed changes were presented at the August 11, 2026 workshop

Bilbrey read the Ordinance caption.

There was no discussion by the Council on the item.

Moved by Jake French; seconded by Ron Garland to approve as presented.
Motion Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Ben Stewart, Jake French, Ron Garland, and Doug Noble
Voting Against: None

6.L First Reading - Amending Rates of Speed on Ronald Reagan Blvd

First Reading of an Ordinance to amend sections 10.12.090 & 10.12.130 of the Code of Ordinances related to the rates of speed on Ronald Reagan Blvd; extending the speed limit on Westinghouse Rd within the City limits; establishing a school zone on State Highway 195; and relocating a school zone on Woodlake Dr -- Lua Saluone, P.E., Transportation Manager

Saluone presented and reviewed: a map of Ronald Reagan where the proposed 55 mile per hour speed limit is being proposed; a map of Westinghouse Rd where the

proposed 45 mile per hour speed limit is being proposed; a map of SH195 where the proposed 35 mile per hour speed limit is being proposed for a school zone outside of Grace Academy; and a map of Woodlake Drive where the proposed 35 mile per hour speed limit is being proposed for a school zone.

Saluone read the Ordinance caption.

General discussion among Council and staff regarding signage updates that will be needed, County plans to widen portions of Ronald Reagan and how it will impact the current proposed speed limit, and timing of construction.

Thomas Mitchell addressed the Council regarding his traffic safety concerns on Ronald Reagan.

Moved by Ben Stewart; seconded by Jake French to approve as presented.
Motion Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Ben Stewart, Jake French, Ron Garland, and Doug Noble
Voting Against: None

6.M First Reading - 2025-2-PUD - Texas Municipal Center Planned Unit Development

Public Hearing and First Reading of an Ordinance on a request for a Zoning Map Amendment to rezone 1.322 acres of Block 23, Glasscock Addition, from the Mixed-Use Downtown (MU-DT) zoning district, and 0.257 acres of Lot 4, Lot 3 (SP), Block 21, and 0.414 acres of Lots 5-6, Lot 7 (SP), Block 21 of Glasscock Addition, from the Residential Single-Family (RS) zoning district to the Planned Unit Development (PUD) zoning district with a base zoning district of Mixed- Use Downtown (MU-DT), for the properties generally located at 205 E. University Avenue, 1014 Myrtle Street, and 1009 Church Street (2025-2-PUD) -- Allyson Iiams, Assistant Planning Director

Iiams presented and reviewed the Aerial Map; Future Land Use/Future Mobility Plan Map; Special Area (SA) zoning designation explanation; Mixed Density Neighborhood (MDN) zoning designation explanation; Zoning Map; current zoning types; Planned Unit Development (PUD) zoning designation; concept site plan; deviations from the UDC standards; and how the application complies with the approval criteria for UDC Sections 3.06.030 and 3.06.040. She added that notifications were sent and, to date, staff has received no comments. Iiams noted that at their July 21, 2026, meeting, the Planning and Zoning Commission recommended APPROVAL of the request with a 7-0 vote.

Iiams read the Ordinance caption.

Mayor Schroeder opened and closed the public hearing at 6:59 p.m. as there were no speakers.

General discussion among Council and staff regarding the basement usage, penthouse demolition, and appreciation of work done to date.

Moved by Jake French; seconded by Amanda Parr to approve as presented.
Motion Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Ben Stewart, Jake French, Ron Garland, and Doug Noble
Voting Against: None

6.N First Reading - 2025-8-SUP - 2815 N. Austin Ave

Public Hearing and First Reading of an Ordinance on a request for a Special Use Permit (SUP) for the specific use of "Car Wash" in the General Commercial (C-3) zoning district on the property located at 2815 North Austin Avenue, Georgetown, Texas, bearing the legal description of 1.951 acres out of the Antonio Flores Survey, Abstract No. 235 (2025-8-SUP) -- Matt Skawin, Planner

Skawin presented and reviewed the Aerial Map, Zoning Map, Concept Plan, landscaping, how the application complies, partially complies, and does not comply with the approval criteria for UDC Sections 3.07.030 and 3.06.030, and staff's recommendation for approval. He added that public notifications were sent, and to date staff has received no comments in favor or opposition. Skawin stated that at their August 4, 2026, meeting, the Planning & Zoning Commission recommended Approval of the request with a 7-0 vote and the condition of hours of operation being limited to 7:00 a.m. - 8:00 p.m.

Skawin read the Ordinance caption.

General discussion among Council and staff regarding a nearby gas station.

Mayor Schroeder opened and closed the public hearing at 7:07 p.m. as there were no speakers.

Moved by Jake French; seconded by Amanda Parr to Approve as presented.
Motion Approved: 6- 0
Voting For: Amanda Parr, Kevin Pitts, Ben Stewart, Jake French, Ron Garland, and Doug Noble
Voting Against: None

Adjournment

Mayor Schroeder adjourned the meeting at 7:08 p.m.

RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS ("GEORGETOWN") RELEASING APPROXIMATELY 30.01 ACRES OF LAND FROM THE CITY OF GEORGETOWN'S EXTRATERRITORIAL JURISDICTION ("ETJ"), SAID LAND IDENTIFIED BY THE WILLIAMSON COUNTY APPRAISAL DISTRICT AS PARCEL R333612, AND BEING LOCALLY KNOWN AS 707 COUNTY ROAD 105 SPUR, HUTTO, WILLIAMSON COUNTY, TEXAS, RESULTING IN A REDUCTION OF GEORGETOWN'S ETJ; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, on August 13, 2026, the City of Georgetown, Texas, received a petition requesting release from its ETJ of an approximately 30.01 acre tract of land in the John McQueen Survey (the "Petition"), a true and correct copy of such Petition being attached hereto as Exhibit A and incorporated herein by reference; and

WHEREAS, pursuant to Subchapter D of Chapter 42 of Local Government Code, landowners or residents may submit a petition seeking release of an area of land from the City's ETJ; and

WHEREAS, the City Secretary has reviewed the Petition and confirmed that it meets the requirements of Subchapter D of Chapter 42 of the Local Government Code and the petition requirements of Chapter 277 of the Election Code.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS:

SECTION 1. The City Council of the City of Georgetown, Texas ("**City Council**"), does hereby find that the forgoing recitals are true and correct and adopts the recitals by this reference for all purposes.

SECTION 2. To the extent required by state law, the City Council does hereby adjust the boundaries and limits of the ETJ of the City of Georgetown, Texas, such that the ETJ of the City of Georgetown, Texas, shall be and is hereby adjusted to release and remove the Area subject to the Petition, as such Area is more particularly described and depicted in Exhibit B attached hereto and incorporated herein by reference, from the ETJ of the City of Georgetown, Texas.

SECTION 3. The City Council is not consenting to this reduction of its ETJ except as required by state law.

SECTION 4. This Resolution shall take effect immediately upon its passage.

PASSED AND APPROVED by the City Council of the City of Georgetown, Texas, on the _____ day of _____, 2026.

DEED OF TRUST
SECURITY AGREEMENT-FINANCING STATEMENT
ASSIGNMENT OF RENTS

This Deed of Trust-Security Agreement-Financing Statement-Assignment of Rents is entered into by and between **Orangestone La Branch, LLC, a Texas limited liability company,** ("Grantor", whether one or more), **RAY A. GONZALES** ("Trustee") and **FALCON INTERNATIONAL BANK** ("Noteholder") on the terms and conditions hereinafter set out.

1. DEFINITIONS

1.1 The term "Indebtedness" shall mean and include:

1.1.1 Any sums becoming due and payable pursuant to the Note (as hereinafter defined);

1.1.2 Any sums becoming due and payable by Grantor to Noteholder, as the result of advancements made by Noteholder, pursuant to the terms and conditions of this Deed of Trust or any other instruments securing, executed in connection with or otherwise relating to the Note;

1.1.3 The full and complete performance of each and every obligation of Grantor contained herein or contained in any other instrument executed by Grantor pertaining to the Note or the security therefor;

1.1.4 Any other indebtedness or liability of all kind of Grantor to Noteholder, now existing or hereafter arising, whether fixed or contingent, joint and/or several, direct or indirect, primary or secondary, and regardless of how created or evidenced; and

1.1.5 Any renewals, modifications or extensions of the obligations of Grantor to Noteholder, whether or not Grantor executes any renewal or extension agreement.

1.1.6 **This conveyance is made in trust to secure: (1)(a) the payment of any and all instruments evidencing any indebtedness or other obligation of Grantor now or hereafter owing, whether such indebtedness be direct or indirect, primary or secondary, fixed or contingent, joint or several, regardless of how evidenced or arising, to the same extent and with like effect as though same were particularly described herein; it being contemplated that Grantor may hereafter become indebted to Noteholder in further sum or sums; and regardless of whether such indebtedness be evidenced by note, check, draft, endorsement, guaranty, bill of exchange, letter of credit, open account, overdraft, or in any other manner, and the exact amount of all such indebtedness may be ascertained**

at any time by inquiry made of Noteholder; and (b)any and all renewals, extensions, modifications, supplements, amendments, revisions and rearrangements of any and all of the above described indebtedness, said indebtedness hereby secured payable to the order of FALCON INTERNATIONAL BANK, whose mailing address is 5219 McPherson Road, Laredo, Texas 78041, hereafter called Noteholder, (which term shall include any assignee of or holder of the indebtedness hereby secured) both interest and principal being payable as it accrues at the office of Noteholder in Laredo, Webb County, Texas, payable and bearing interest as therein specified; (2) all of the covenants and obligations of Grantor to Noteholder, as contained in said instruments evidencing said indebtedness, and reference is here made to said indebtedness for the full terms and conditions thereof, and the same is hereby incorporated herein as fully as if written out verbatim therein and (3) all future advances from Noteholder to Grantor or other future obligations of Grantor under any and all instruments evidencing any indebtedness or other obligation of Grantor or now or hereafter owing, whether such indebtedness be direct or indirect, primary or secondary, fixed or contingent, joint or several, regardless of how evidenced or arising, to the same extent and with like effect as though same were particularly described herein; it being contemplated that Grantor may hereafter become indebted to Noteholder in further sum or sums; and regardless of whether such indebtedness be evidenced by note, check, draft, endorsement, guaranty, bill of exchange, letter of credit, open account, overdraft, or in any other manner, and the exact amount of all such indebtedness may be ascertained at any time by inquiry made of Noteholder; and (b)any and all renewals, extensions, modifications, supplements, amendments, revisions and rearrangements of any and all of the above described indebtedness, said indebtedness hereby secured payable to the order of FALCON INTERNATIONAL BANK, whose mailing address is 5219 McPherson Road, Laredo, Texas 78041, whether or not this Deed of Trust is specifically referenced. All future advances and other future obligations are secured as if made on the date of this Deed of Trust. Nothing in this Deed of Trust shall constitute a commitment to make additional or future loans or advances in any amount. Any such commitment must be agreed to in a separate writing.

AN
Grantor initials

1.2 The term "Mortgaged Additional Property" shall mean and include (i) all of the personal property and/or fixtures of every kind and nature whatsoever now or hereafter owned by Grantor, in or hereafter placed in or used or that may become used in connection with or in the operation of the Mortgaged Premises (as hereinafter defined), together with additions thereto, or replacements, and substitutions therefor, **(ii) any and all Contracts for Deed, Contracts for Sale, Earnest Money Contracts, all monetary payments and receipts on Contracts for Deed, Contracts for Sale, Earnest Money Contracts, Deposit Accounts (including accounts holding security deposit), funds, Accounts, Instruments, Documents, General Intangibles, and Chattel Paper, Software, and Payment Intangibles, now owned by Grantor or that may hereafter be acquired by Grantor, arising from the development, construction, use, occupancy, operation, maintenance, or enjoyment of the ownership of the Real Property described herein or by virtue of any transaction related to the Real Property described herein, including but not limited to the sale of lots or tracts, out of the land included herein, and (iii) the proceeds of all of the foregoing.**

1.3 The term "Mortgaged Premises" shall mean and include the Real Property described herein; together with (i) all building materials and equipment, fixtures and articles of personal property now or

hereafter attached to or placed in or used or that may become used in connection with or in the operation of the Real Property, including, but not limited to, all lighting, heating, ventilating, air-conditioning, plumbing and landscaping materials and supplies, together with additions thereto, replacements and substitutions thereof; (ii) all plans, specifications, site improvement data, surveys, engineering studies, maps, photographs, contracts and subcontracts relating to the Real Property, including but not limited to all construction contracts and all sales contracts and all Contracts for Deed; (iii) all permits, licenses, franchises, certificates and other rights and privileges obtained in connection with the Real Property; (iv) all proceeds payable under any policy of insurance relating to the Real Property, or resulting from the taking of all or part of the real property described herein or any rights appurtenant thereto for any public or quasi-public use by right of eminent domain, or by purchase in lieu thereof; (v) all other interests of every kind and character which Grantor now has or at any time hereafter acquires in and to the above real and personal property described herein, including but not limited to any mineral interests, oil and gas minerals, royalties, bonus rights or executive rights to the real property described herein (notwithstanding any reference to surface only in the legal description of the property); and (vi) the proceeds of all of the foregoing. It is hereby agreed that to the extent permitted by law, all of the foregoing personal property and fixtures are to be deemed to be a part of, and affixed to, the Real Property.

1.4 The term "Mortgaged Property" shall mean the Mortgaged Premises and Mortgaged **Additional** Property.

1.5 The term "Note" shall mean that certain Commercial Real Estate Lien Note of even date herewith in the principal sum of **TWO MILLION FIVE HUNDRED SEVENTY NINE THOUSAND FOUR HUNDRED AND NO/HUNDREDTHS DOLLARS ($2,579,400.00)**, executed by Grantor and payable to the order of Noteholder, (final maturity date is **JUNE 17, 2028**) and all notes given in renewal, extension or modification of the Note or any portion thereof.

1.6 The term "Real Property", "Mortgaged Property", "Mortgaged Additional Property" and "Mortgaged Premises" shall mean all rights and interest described in this Deed of Trust in reference to the following described real property:

SEE EXHIBIT "A" ATTACHED HERETO AND MADE A PART HEREOF

1.7 Should the Real Property, or a parcel of the Real Property, be located in an area designated by the Administrator of the Federal Emergency Management Agency as a special flood hazard area and in which flood insurance has been made available under the National Flood Insurance Act of 1968, 42 U.S.C. § 4001 et seq., the personal property secured by this Deed of Trust/Security Agreement/Financing Statement and located on the applicable parcel shall be limited to those items specifically covered (currently or hereafter) by Coverage A of the standard flood insurance policy issued in accordance with the National Flood Insurance Program or under equivalent coverage similarly issued by a private insurer to satisfy the National Flood Insurance Act (as amended).

2. CONVEYANCE IN TRUST

In consideration of Ten Dollars ($10.00) cash in hand paid, and of Noteholder's advancing or extending to Grantor the funds or credit constituting the Indebtedness, and the mutual covenants contained herein, the receipt and sufficiency of which are hereby acknowledged, Grantor hereby conveys to Trustee

the above-described Mortgaged Property, in trust, for the purpose of securing the Indebtedness, TO HAVE AND TO HOLD the Mortgaged Property, together with the rights, privileges and appurtenances thereto belonging unto the Trustee and his substitutes or successors forever, and Grantor is hereby bound to warrant and forever defend all the Mortgaged Property unto the Trustee, his substitutes or successors and their assigns, against the claims of all persons claiming any interest in the Mortgaged Property or any part thereof.

3. ADDITIONAL SECURITY

As further security for the Indebtedness:

3.1 Security Interest. The term "Debtor" shall refer to Grantor and the term "Secured Party" shall refer to Noteholder. Debtor, hereby grants and conveys to Secured Party, a security interest in and a lien on the following (the "Collateral") (i) the Mortgaged Additional Property; (ii) all building materials and equipment, fixtures, and articles of personal property now or hereafter attached to or placed in or used or that may become used, in connection with or in the operation of the Real Property, including but not limited to, all lighting, heating, ventilating, air-conditioning, plumbing, and landscaping materials and supplies, together with additions thereto, replacements and substitutions thereof; (iii) all plans, specifications, site improvement data, surveys, engineering studies, maps, photographs, contracts and subcontracts relating to the Mortgaged Property, including but not limited to all construction contracts and sales contracts, and all Contracts for Deed (iv) all permits, licenses, franchises, certificates and other rights and privileges obtained in connection with the Mortgaged Property, (v) all proceeds payable under any policy of insurance relating to the Real Property, or resulting from the taking of all or part of the real property described herein or any rights appurtenant thereto for any public or quasi public use by right of eminent domain, or by purchase in lieu thereof; (vi) all names, tradenames and trademarks under which the Mortgaged Property is operated or known; (vii) all other interests of every kind and character which Grantor now has or at any time hereafter acquires in and to the Real Property and personal property described herein; and (viii) the proceeds of all of the foregoing. Grantor hereby represents, warrants and covenants that (i) Grantor is the owner and holder of the Collateral, free and clear of any adverse claim, security interest or encumbrance, except those created herein; and (ii) Grantor will defend the Collateral and the priority of the security interest created herein as a valid first security interest against all claims and demands; (iii) there are no financing statements executed by Debtor now on file in any public office; and (iv) Grantor will deliver to Noteholder such other and further agreements, financing statements and assignments as Noteholder may request and authorizes Noteholder to file or record such statements in such offices and at such times as Noteholder deems necessary. Information concerning the security interest created by this instrument may be obtained from Noteholder and Grantor at the addresses set out hereinafter. Grantor authorizes Secured Party to file Financing Statements covering all of the above described collateral.

FIXTURE FILING COLLATERAL IS OR INCLUDES FIXTURES: This Deed of Trust shall also constitute a "fixture filing" for the purposes of the UCC against all of the Mortgage Additional Property and the other property described in the preceding paragraph, which is to become fixtures. Information concerning the security interest herein granted may be obtained at the addresses of Debtor (Grantor) and Secured Party (Noteholder) as set forth at the end of this Deed of Trust.

The term **"UCC"** is defined as the Uniform Commercial Code of the State of Texas in effect from time to time or, if the creation, perfection and enforcement of any security interest herein granted is governed by the laws of a state other than the State of Texas, then as to the matter in question, the Uniform Commercial Code in effect in that state from time to time.

3.2 Assignment of Condemnation Awards. To the extent of the full amount of the Indebtedness secured hereby and of cost and expenses (including reasonable attorneys' fees) incurred by Noteholder in the collection of any award or payment, Grantor hereby assigns to Noteholder any and all awards or payments, including all interest thereon, together with the right to receive the same, which may be made with respect to the Mortgaged Property as a result of (i) the exercise of the right to eminent domain; (ii) the alteration of the grade of any street; or (iii) any other injury to or decreased value in the Mortgaged Property. All such awards and payments shall be paid directly to Noteholder, and after first applying said sums to the payment of all costs and expenses (including reasonable attorneys' fees) incurred by Noteholder in obtaining such awards and payments, Noteholder may, at its option, apply the balance on the Indebtedness, in any order and whether or not then due, or to the restoration of the Mortgaged Property or release all or any portion of such awards and payments to Grantor. Any application of such awards or payments shall not cure or waive any default.

3.3 Assignment of Rents.

3.3.1 Absolute Assignment of Rents. As part of the consideration for the indebtedness evidenced by the Note, and for other valuable consideration, the receipt and sufficiency of which Grantor acknowledges, Grantor hereby assigns and transfers to Noteholder all Rents (as security for the repayment of the Indebtedness), including those now due, or to become due by virtue of any leases, sublease or other agreement for the occupancy or use of all or any part of the Mortgaged Property, regardless of to whom the Rents are payable. Grantor authorizes Noteholder or Noteholder's agents to collect the Rents and directs each tenant of the Mortgaged Property to pay such Rents to Noteholder and Noteholder's agents. Grantor shall apply all Rents collected by Grantors first to the payment of the Indebtedness in such manner as Noteholder elects and thereafter to the account of Grantors. All such Rents shall be deposited in a deposit account maintained at the offices of Noteholder. Grantor and Noteholder intend that Noteholder shall have the absolute right, power and authority to collect the Rents.

3.3.2 Event of Default. Upon the occurrence of an Event of Default, and without the necessity of Noteholder entering upon and taking and maintaining full control of the Mortgaged Property in person, by agent or by a court-appointed receiver, Noteholder shall immediately be entitled to possession of all the Rents specified in this Article as the same become due and payable, including without limitation Rents then due and unpaid, and all such Rents shall immediately be held by Grantor as trustee for the benefit of Noteholder only; provided, however, that the written notice to Grantor by Noteholder of the breach by Grantor shall contain a statement that Noteholder exercises its rights to such Rents. Grantor agrees that commencing upon delivery of such written notice of an Event of Default by Noteholder to Grantor, each tenant of the Mortgaged Property shall make such rents payable to and pay such Rents to Noteholder or Noteholder's agents on Noteholder's written demand to each tenant therefor, delivered to each tenant personally, by mail or by delivering such demand to each rental unit, without any liability on the part of any tenant to inquire further as to the existence of an Event of Default.

3.3.3 Grantor's Covenants. Grantor covenants that Grantor has not executed any prior assignment of the Rents or any portion thereof, that Grantor has not performed, and will not

perform, any acts and has not executed, and will not execute, any instrument which would prevent Noteholder from exercising its rights under this Article. Grantor covenants that Grantor will not hereafter collect or accept payment of any Rents more than thirty days prior to the due dates of such Rents without prior written consent of Noteholder. Grantor further covenants that Grantor will execute and delivery to Noteholder such further assignments of rents as Noteholder may from time to time request.

3.3.4 Appointment of Receiver; Possession of the Mortgaged Property: Upon the occurrence of an Event of Default, Noteholder may in person, by agent or by a court-appointed receiver, regardless of the adequacy of Noteholder's security, enter upon and take and maintain full control of the Mortgaged Property in order to perform all acts necessary and appropriate for the operation and maintenance thereof, including without limitation, the execution, cancellation or modification of leases or subleases, the collection of Rents, the making of repairs to the Mortgaged Property, and the execution or termination of contracts providing for the management or maintenance of the Mortgaged Property, all on such terms as are deemed best to protect the security of this Deed of Trust. In the event Noteholder elects to seek the appointment of a receiver for the Mortgaged Property upon the occurrence of an Event of Default, Grantor consents to the appointment of such receiver. Noteholder or the receiver shall be entitled to receive a reasonable fee for so managing the Mortgaged Property.

3.3.5 Application of Rents. All rents collected subsequent to the occurrence of an Event of Default shall be applied first to the costs, if any, of taking control of and managing the Mortgaged Property and collecting the Rents, including without limitation attorney's fees, receiver's fees, premiums on receiver's bonds, costs of repairs to the Mortgaged Property, premiums on insurance policies, taxes, assessments, and other charges on the Mortgaged Property, and the costs of discharging any obligation or liability of Grantor as lessor or landlord of the Mortgaged Property, and then to the sums secured by this instrument. Noteholder or the receiver shall have access to the books and records used in the operation and maintenance of the Mortgaged Property and shall be liable to account only for those Rents actually received. Noteholder shall not be liable to Grantor, anyone claiming under or through Grantor, or anyone having an interest in the Mortgaged Property by reason of anything done or left undone by Noteholder under this Article.

3.3.6 Insufficient Rents. If the Rents are not sufficient to meet the costs, if any, of taking control of and managing the Mortgaged Property and collecting the Rents, any funds expended by Noteholder for such purposes shall become an indebtedness of Grantor to Noteholder secured by this Deed of Trust. Unless Noteholder and Grantor agree in writing to other terms of payment, such amounts shall be payable upon notice from Noteholder to Grantor requesting payment thereof and shall bear interest from the date of disbursement at the rate stated in the Note unless payment of such interest at such rate would be contrary to applicable law, in which event such amounts shall bear interest at the highest rate which may be collected from Grantor under applicable law.

3.3.7 No Waiver; Term. Any entering upon and taking and maintaining of control of the Mortgaged Property by Noteholder or the receiver and any application of rents as provided

herein shall not cure or waive any default hereunder or invalidate any other right or remedy of Noteholder under applicable law or provided herein. This assignment of the Rents shall terminate at such time as this instrument ceases to secure the Indebtedness held by Noteholder.

3.3.8 Texas Assignment of Rents Act. Nothing in this Deed of Trust shall be deemed to constitute a waiver or modification of any rights or remedies of Noteholder under The Texas Assignment of Rents Act (Tex. Property Code Chapter 64, Act of June 17,2 011, 82nd Leg., R.C., ch. 636, 2011 Tex. Gen. Laws) as amended (the Assignment of Rents Statute). Upon occurrence of an Event of Default, Noteholder may enforce the assignment of rents set out in this Deed of Trust pursuant to the provision of the Assignment of Rents Statute or any other applicable law, at the option of the Noteholder.

3.3.9 Rights Relating to Rents. Grantor has, pursuant to Section [3.3.1] of this Deed of Trust, assigned to Noteholder all Rents under each of the Leases covering all or any portion of the Mortgaged Property. Noteholder, or Trustee on Noteholder's behalf, may at any time, and without notice, either in person, by agent, or by receiver to be appointed by a court, enter and take possession of the Mortgaged Property or any part thereof; and in its own name, sue for or otherwise collect the Rents **in accordance with the Texas Assignment of Rents Act**. Noteholder may (in its sole discretion), upon the occurrence of an Event of Default, **deliver a Rent Demand to Grantor or deliver a Notice of Enforcement to all or any of the Lessees. Grantor agrees that pursuant to Section 64.002(a)(3) of the Texas Assignment of Rents Act, any Rent Demand sent by Noteholder may be sent to Grantor pursuant to the notice provisions set forth in the Loan Agreement. As described in Section 64.060 of the Texas Assignment of Rents Act, Grantor shall, within ten days after its receipt of a Rent Demand, deliver to Noteholder such Rents as are described in the Rent Demand**. All Rents collected by Noteholder, or Trustee acting on Noteholder's behalf, shall be applied as provided for in Section [3.3.5], provided, however; that if the costs, expenses, and attorneys' fees shall exceed the amount of Rents collected, the excess shall be added to the Indebtedness, shall bear interest at the Default Interest Rate, and shall be immediately due and payable. The entrance upon and possession of the Mortgaged Property, the collection of Rents, and the application thereof as set forth above shall not cure or waive any Event of Default or notice of default, if any, hereunder nor invalidate any action pursuant to such notice. Failure or discontinuance by Noteholder, or Trustee on Noteholder's behalf, at any time or from time to time, to collect said Rents shall not in any manner impair the subsequent enforcement by Noteholder, or Trustee on Noteholder's behalf, of the right, power, and authority herein conferred upon it. Nothing contained herein, nor the exercise of any right, power, or authority herein granted to Noteholder, or Trustee on Noteholder's behalf, shall be, or shall be construed to be, an affirmation by it of any tenancy, lease, or option, nor an assumption of liability under, nor the subordination of, the lien or charge of this Deed of Trust, to any such tenancy, lease, or option, nor an election of judicial relief, if any such relief is requested or obtained as to Leases or Rents, with respect to the Mortgaged Property or any collateral given by Grantor to Noteholder. In addition, from time to time, Noteholder may elect, and notice hereby is given to each Lessee of such right, to subordinate the lien of this Deed of Trust to any Lease by unilaterally executing and recording an instrument of subordination, and upon such

election, the lien of this Deed of Trust shall be subordinate to the Lease identified in such instrument of subordination; provided, however, in each instance, such subordination will not affect or be applicable to (and will expressly exclude any) lien, charge, encumbrance, security interest, claim, easement, restriction, option, covenant, and other rights, titles, interests, or estates of any nature regarding all or any portion of the Mortgaged Property to the extent that the same may have arisen or intervened during the period between the recordation of this Deed of Trust and the execution of the Lease identified in such instrument of subordination.

3.3.10 Present Assignment. Grantor hereby presently and unconditionally GRANTS, BARGAINS, CONVEYS, ASSIGNS, TRANSFERS, and SETS OVER, unto Trustee and Noteholder, a security interest in, all of Grantors right, title and interest in the Rents, whether now owned by Grantor or hereafter acquired and whether now existing or hereafter coming into existence, as security for the repayment of the Indebtedness and performance of the Obligations, and to provide a source of future payment of the Indebtedness, it being the intention of Grantor and Noteholder that this conveyance be unconditional, presently, and immediately effective.

3.3.11 Collection of Rents. Subject to the terms and provisions of Section 3.3.9 above, Grantor may exercise and enjoy all incidences of the status of a lessor with respect to the Rents, including, without limitation, the right to collect, demand, sue for, attach, levy, recover, and receive the Rents, and to give proper receipts, releases, and acquittances therefor. Grantor shall receive all Rents and will apply the Rents so collected first to the payment of the Indebtedness, next to the performance and discharge of the Obligations, and next to the payment of operating expenses for the Mortgaged Property. Thereafter, Grantor may use the balance of the Rents collected in any manner consistent with the Loan Documents. Neither this assignment nor the receipt of Rents by Noteholder (except to the extent, if any, that Noteholder actually receives and applies such Rents to the Indebtedness at its election) shall effect a pro tanto payment of the Indebtedness. Rents actually received by Noteholder shall be applied by Noteholder as provided in Section 3.3.5. Noteholder shall not be deemed to have received Rents or to have applied Rents to the Indebtedness until the money is actually received by Noteholder at its principal office specified herein, or at such other place as Noteholder shall designate in writing. Noteholder shall not apply Rents to the Indebtedness after foreclosure or any other transfer of all or any part of the Mortgaged Property to Noteholder or any third party.

3.3.12 Reliance Upon Notice of Enforcement. All Notices of Enforcement shall be delivered to Lessees in accordance with the Texas Assignment of Rents Act. Upon receipt from Noteholder of a Notice of Enforcement, each Lessee is authorized and directed to pay directly to Noteholder all Rents thereafter accruing, and the receipt of Rents by Noteholder shall be a release of such Lessee to the extent of all amounts so paid. The receipt by a Lessee of a Notice of Enforcement shall be sufficient authorization for such Lessee to make all future payments of Rents directly to Noteholder and each such Lessee shall be entitled to rely on the Notice of Enforcement and shall have no liability to Grantor for any Rents paid to Noteholder after receipt of the Notice of Enforcement. Notwithstanding the provisions of Section 64.058 of the Texas Assignment of Rents Act, Grantor agrees that

Rents so received by Noteholder for any period prior to foreclosure under this Deed of Trust or acceptance of a deed in lieu of such foreclosure may be applied by Noteholder to the payment of the following (in such order and priority as Noteholder shall determine): (a) all operating expenses for the Mortgaged Property; (b) all expenses incident to taking and retaining possession of the Mortgaged Property and/or collecting Rent as it becomes due and payable; and (c) the Indebtedness. The Indebtedness will not be reduced under this Deed of Trust to the extent, if any, that Noteholder actually receives and applies any Rents to the Indebtedness, it being recognized that there is no obligation by Noteholder to do so. Grantor further acknowledges that Noteholder shall have no obligation to apply any Rents received by Noteholder toward the expenses of protecting or maintaining the Mortgaged Property. Without impairing its rights hereunder, Noteholder may, at its option, at any time and from time to time, release to Grantor any Rents so received by Noteholder. As between Grantor and Noteholder, and any Person claiming through or under Grantor, other than any Lessee who has not received a Notice of Enforcement, this assignment is intended to be unconditional, presently, and immediately effective. The Notice of Enforcement is intended solely for the benefit of the Lessees and shall never inure to the benefit of Grantor or any Person claiming through or under Grantor, other than a Lessee who has not received such Notice of Enforcement. It shall never be necessary for Noteholder to institute legal proceedings of any kind whatsoever to enforce the provisions of this Deed of Trust with respect to Rents. **GRANTOR SHALL HAVE NO RIGHT OR CLAIM AGAINST ANY LESSEE FOR THE PAYMENT OF ANY RENTS TO NOTEHOLDER HEREUNDER AND GRANTOR SHALL INDEMNIFY, DEFEND, AND HOLD FREE AND HARMLESS EACH LESSEE FROM AND AGAINST ALL LIABILITY, LOSS, COST, DAMAGE, OR EXPENSE SUFFERED OR INCURRED BY SUCH LESSEE BY REASON OF SUCH LESSEE'S COMPLIANCE WITH ANY NOTICE OF ENFORCEMENT.**

3.3.13 Collection of Rent. At any time during which Grantor is receiving Rents directly from any of the Lessees, Grantor shall, upon receipt of written direction from Noteholder, make demand and/or sue for all Rents due and payable under one or more Leases, as directed by Noteholder, as it becomes due and payable, including Rents that are past due and unpaid. If Grantor fails to take such action, or at any time durng which Grantor is not receiving Rents directly from Lessees, Noteholder may, without obligation, demand, collect, and sue for, in its own name or in the name of Grantor, all Rents due and payable under the Leases, as they become due and payable, including Rents that are past due and unpaid.

3.4 Assignment of Leases.

3.4.1 Assignment of Leases. Grantor assigns to Noteholder, and grants to Noteholder a security interest in, all of Grantor's rights, but not Grantor's obligations, under the Leases, including subleases, and any and all extensions, renewals, modifications, and replacements of such leases, upon any part of the Mortgaged Property, (the "Leases"). Grantor also assigns to Noteholder all guaranties of tenants' performance under the Leases. Prior to an Event of Default, Grantor shall have the right, without joinder of Noteholder, to enforce the Leases, unless Noteholder directs otherwise.

3.4.2 Warranties Concerning Leases and Rents. Grantor represents and warrants that: (i) Grantor has good title to the Leases hereby assigned and authority to assign them, and no other person or entity has any right, title or interest therein; (ii) all existing Leases are valid, unmodified and in full force and effect, except as indicated herein, and no default exists thereunder in any material manner or amount; (iii) Grantor has provided Noteholder with true and correct copies of all current written Leases; (iv) no Rents in any material manner or amount have been or will be anticipated, waived, released, discounted, set off or compromised; and (v) except as indicated in the Lease, Grantor has not received any funds or deposits from any tenant for which credit has not already been made on account of accrued Rents.

3.4.3 Grantor's Covenants of Performance. Grantor covenants to: (i) perform all of its obligations under the Leases and give prompt notice to Noteholder of any failure to do so; (ii) give immediate notice to Noteholder of any notice Grantor receives from any tenant or subtenant under any Lease, specifying any claimed default by any party under such leases, excluding, however, notice of defaults under residential leases; (iii) enforce the tenant's obligations under the Leases; (iv) defend, at Grantor's expense, any proceeding pertaining to the Leases including, if Noteholder so requests, any such proceeding to which Noteholder is a party; and (v) neither create nor permit any encumbrance upon its interest as lessor of the Leases, except this Deed of Trust and any other encumbrances permitted in this Deed of Trust.

3.4.4 Prior Approval for Actions Affecting Leases. Grantor shall not, without the prior written consent of Noteholder: (i) receive or collect rents under any Lease more than one month in advance; (ii) encumber or assign future rents; (iii) waive or release any obligation of any tenant under the Leases; (iv) cancel, terminate or modify any of the Leases, cause, permit to accept any cancellation, termination or surrender of any of the Leases, or commence any proceedings for dispossession of any tenant under any of the Leases; (v) renew or extend any of the Leases, except pursuant to terms in existing Leases; (vi) permit any assignment of the Leases; or (vii) enter into any Leases after the date hereof.

3.4.5 Attornment of Tenants. All Leases of the Mortgaged Property shall specifically provide that: (i) such Leases are subordinate to this Deed of Trust; (ii) that the tenant attorns to Noteholder, such attornment to be effective upon Noteholder's acquisition of title to the Mortgaged Property; (iii) that the tenant agrees to execute such further evidences of attornment as Noteholder may from time to time request; (iv) that the attornment of the tenant shall not be terminated by foreclosure; and (v) that Noteholder may, at Noteholder's option, accept or reject such attornments.

3.4.6 Settlement for Termination. Grantor agrees that no settlement for damages for termination of any of the Leases under the Federal Bankruptcy Code, or under any other federal, state or local statute, shall be made without the prior written consent of Noteholder, and any check in payment of such damages shall be made payable to both Grantor and Noteholder. Grantor hereby assigns any such payment to Noteholder, to be applied to the Indebtedness as Noteholder may elect, and Grantor agrees to endorse any check for such payment to the order of Noteholder.

3.4.7 Noteholder in Possession. Noteholder's acceptance of this assignment shall not, prior to entry upon and taking possession of the Mortgaged Property by Noteholder, be deemed to constitute Noteholder a "mortgagee in possession", nor obligate Noteholder to appear in or defend any proceeding relating to any of the Leases or to the Mortgaged Property, take any action hereunder, expend any money, incur any expenses, or perform any obligation or liability under the Leases, or assume any obligation for any deposits delivered to Grantor by any lessee and not delivered to Noteholder. Noteholder shall not be liable for any injury or damage to person or property in or about the Mortgaged Property.

3.4.8 Appointment of Attorney. Grantor hereby appoints Noteholder its attorney-in-fact, coupled with an interest, empowering Noteholder to subordinate any Leases to this Deed of Trust.

3.4.9 **INDEMNIFICATION; HOLD HARMLESS. GRANTOR HEREBY INDEMNIFIES AND HOLDS NOTEHOLDER HARMLESS FROM ALL LIABILITY, DAMAGE, OR EXPENSE INCURRED BY NOTEHOLDER FROM ANY CLAIMS UNDER THE LEASES, INCLUDING WITHOUT LIMITATION ANY CLAIMS BY GRANTOR WITH RESPECT TO RENTS PAID DIRECTLY TO NOTEHOLDER AFTER AN EVENT OF DEFAULT AND CLAIMS BY TENANTS FOR SECURITY DEPOSITS OR FOR RENTAL PAYMENTS MORE THAN ONE (1) MONTH IN ADVANCE AND NOT DELIVERED TO NOTEHOLDER. ALL AMOUNTS INDEMNIFIED AGAINST HEREUNDER, INCLUDING REASONABLE ATTORNEYS' FEES, IF PAID BY NOTEHOLDER SHALL BEAR INTEREST AT THE MAXIMUM LAWFUL RATE, SHALL BE PAYABLE BY GRANTOR IMMEDIATELY WITHOUT DEMAND, AND SHALL BE SECURED BY THIS DEED OF TRUST.**

3.4.10 Records. Upon request by Noteholder, Grantor shall deliver to Noteholder executed originals of all Leases and copies of all records relating thereto.

3.4.11 Merger. There shall be no merger of the leasehold estates, created by the Lease, with the fee estate of the Property without the prior written consent of Noteholder.

3.4.12 Right to Rely. Grantor hereby irrevocably authorizes and directs the tenants under the Leases to pay Rents to Noteholder upon written demand by Noteholder, without further consent of Grantor and regardless of whether Noteholder has taken possession of any other portion of the Mortgaged Property, and the tenants may rely upon any written statement delivered by Noteholder to the tenants. Any such payment to Noteholder shall constitute payment to Grantor under the Leases, and Grantor appoints Noteholder as Grantor's lawful attorney-in-fact for giving, and is hereby empowered to give, acquittances to any tenants for such payments to Noteholder after an Event of Default.

4. GRANTOR'S REPRESENTATIONS AND WARRANTIES

In order to induce Noteholder to lend the funds evidenced by the Note, Grantor represents and warrants that:

4.1 Accurate Loan Information. All information and financial statements furnished or to be furnished to Noteholder by or on behalf of Grantor in connection with the Indebtedness secured by this Deed of Trust is or will be complete and accurate in all material respects.

4.2 Valid Title. Grantor is the lawful owner of the Mortgaged Property and has good, right and lawful authority to mortgage and pledge the same.

4.3 Freedom from Encumbrances. The Mortgaged Property is free from any and all liens and encumbrances, (except Permitted Encumbrances) and Grantor does warrant and will defend title to the Mortgaged Property against all claims or demands by third parties whatsoever.

4.4 Maintenance of Lien Priority. Grantor shall take all steps necessary to preserve the validity and priority of the liens on the Mortgaged Property created hereby. Grantor shall execute, acknowledge and deliver such additional instruments as Noteholder may deem necessary in order to preserve, protect, continue, extend or maintain the liens and security interest created hereby as first liens on the Mortgaged Property. All costs and expenses incurred in connection with the protection, preservation, continuation, extension or maintaining of the security interest and the liens herein created as valid first and subsisting liens shall be paid by Grantor.

4.5 Representations, Warranties and Covenants as to Status of Grantor. Grantor hereby represents, warrants and covenants that:

4.5.1 Grantor is a duly formed Texas limited liability company;

4.5.2 Grantor exists and is in good standing with the State of Texas and all franchise taxes have been paid;

4.5.3 Grantor will not modify, amend or terminate its Certificate of Formation without the written consent of Noteholder; and

4.5.4 Grantor has been duly authorized to make this loan and execute this Deed of Trust.

5. COVENANTS OF GRANTOR

As long as any of the Indebtedness remains unpaid, Grantor covenants and agrees that:

5.1 Payment of Indebtedness. Grantor will pay the Indebtedness promptly when due and payable.

5.2 Payment of Taxes and Other Assessments. Grantor will pay all taxes, assessments and other governmental, municipal or other public dues, charges, fines, or impositions imposed or levied upon the Mortgaged Property or on the interest created by the Mortgaged Property or on the interest created by this Deed of Trust, or any tax or excise on rents or other tax, however described, assessed or levied by any state, federal or local taxing authority as a substitute, in whole or in part, for taxes assessed or imposed on the Mortgaged Property or on the interest created by this Deed of Trust, and at least ten (10) days before said taxes, liability, hazard and rental insurance premiums, assessments

and other governmental charges are delinquent will deliver paid receipts therefor to the Noteholder. If any tax or assessment is levied, assessed or imposed on Noteholder as a legal holder of the Note, on account of the ownership thereof by the authority of the State of Texas or any County or municipality in which the Mortgaged Property is situated, Grantor will pay all such taxes and assessments and at least ten (10) days before such taxes and assessments are delinquent will deliver paid receipts therefor to Noteholder, but if by law such tax or assessment is imposed on Noteholder and Grantor is not permitted to pay the same, Noteholder, at its option, may require the Indebtedness to be paid in full.

5.3 Insurance. Grantor shall keep the Mortgaged Property insured against loss or damage by fire, windstorm, extended coverage perils and such other hazards, casualties or other contingencies as from time to time may be required by Noteholder, and maintain rent or rental value insurance with respect to the Mortgaged Property covering the risk of loss due to the occurrence of any of the foregoing hazards, in each case and in such companies as the Noteholder may approve. All policies shall provide that any losses payable thereunder shall (pursuant to standard mortgage clauses without contribution to be attached to each policy) be payable to Noteholder. Grantor shall cause originals of any and all such insurance policies to be deposited with Noteholder. At least ten (10) days prior to the date the premiums on each such policy or policies shall become due and payable, Grantor shall furnish to Noteholder evidence of the payment of such premiums. Each of such policies shall contain an agreement by the insurer that the same shall not be canceled without at least ten (10) days prior written notice to Noteholder. Noteholder is hereby authorized, but not required, on behalf of Grantor, to collect for, adjust or compromise any losses under any insurance policy on the Mortgaged Property and to apply, at its option, the loss proceeds (less expenses of collection) on the Indebtedness, in any order and whether due or not, or to the restoration of the Mortgaged Property, or to be released to Grantor, but any such application shall not cure or waive any default. In case of sale pursuant to foreclosure of this Deed of Trust or other transfer of title to said property, or any portion thereof, in extinguishment of the Indebtedness, complete title to all policies held by Noteholder and all unearned premiums shall thereupon pass to and vest in the Purchaser or Grantee. In case of Grantor's failure to keep the Mortgaged Property properly insured as required herein, Noteholder, after notice to Grantor, at its option may (but shall no be required to) acquire such insurance as required herein at Grantor's sole expense. **TEXAS FINANCE CODE SECTION 307.052 COLLATERAL PROTECTION INSURANCE NOTICE: (A) GRANTOR IS REQUIRED TO (I) KEEP THE MORTGAGE PROPERTY INSURED AGAINST DAMAGE IN THE AMOUNT SPECIFIED HEREIN; (II) PURCHASE THE INSURANCE FROM AN INSURER THAT IS AUTHORIZED TO DO BUSINESS IN THE STATE OF TEXAS OR AN ELIGIBLE SURPLUS LINES INSURER OR OTHERWISE AS PROVIDED HEREIN; AND (III) NAME NOTEHOLDER AS THE PERSON TO BE PAID UNDER THE POLICY IN THE EVENT OF A LOSS AS PROVIDED HEREIN; (B) SUBJECT TO THE PROVISIONS HEREOF, GRANTORS MUST, IF REQUIRED BY NOTEHOLDER, DELIVER TO NOTEHOLDER A COPY OF THE POLICY AND PROOF OF THE PAYMENT OF PREMIUMS; AND (C) SUBJECT TO THE PROVISIONS HEREOF, IF GRANTOR FAILS TO MEET ANY REQUIREMENT LISTED IN THE FOREGOING SUBPARTS (A) OR (B), NOTEHOLDER MAY OBTAIN COLLATERAL PROTECTION INSURANCE ON BEHALF OF GRANTOR AT GRANTOR'S EXPENSE**

5.4 Escrow for Taxes and Insurance. In the event Noteholder so elects, Grantor shall pay, in addition to the installments payable under the Note, on the same day as such installments are due and payable, a sum equal to 1/12th of the estimated annual taxes, and liability, hazard and rental insurance premiums, and special assessments, if any, next due on the Mortgaged Property. If the amount so paid is not sufficient to pay such taxes, insurance premiums and assessments, when due, the Grantor will, within ten (10) days after demand, deposit with Noteholder amounts sufficient to pay the same. Funds deposited by Grantor pursuant to this provision shall be used to pay such taxes, insurance premiums and assessments when due, provided that Grantor has furnished Noteholder with all tax statements, premium notices and other such notices at least thirty (30) days prior to the date that any such taxes, premiums and assessments may be delinquent. If there is a default under the provisions of the Note or of this Deed of Trust, Noteholder may elect at any time after default to apply the funds accumulated under this provision against the Indebtedness in any manner or order. No interest shall accrue or be allowed on any payments under the provisions of this paragraph.

5.5 Waste, Demolition, Alteration or Replacement. Grantor will cause the Mortgaged Property and every part thereof to be maintained, preserved and kept in safe and good repair, working order and condition, will not commit or permit waste thereon, will not remove, demolish or alter the design or structural character of any building now or hereafter erected on the Mortgaged Premises without prior written consent of Noteholder, will comply with all laws and regulations of any governmental authority with reference to the Mortgaged Property and the manner and use of the same, and will from time to time make all necessary and proper repairs, renewals, additions and restorations thereto so that the value and efficient use thereof shall be fully preserved and maintained. Grantor agrees not to remove any of the fixtures or personal property included in the Mortgaged Property without the prior written consent of Noteholder and unless immediately replaced with like property of at least equal value. Upon request by Noteholder, Grantor shall provide for professional management of the Mortgaged Property by a property manager satisfactory to Noteholder, pursuant to a contract approved by Noteholder in writing.

5.6 Inventory of Personal Property. Upon request of Noteholder, Grantor shall deliver to Noteholder an inventory describing and showing the make, model, serial number and location of all fixtures and personal property used in the management, maintenance and operation of the Mortgaged Property (other than inventory or property, if any, expressly excluded from the operation of this Deed of Trust by separate written agreement) with a certification by Grantor that said inventory is a true and complete schedule of such fixtures and personal property used in the management, maintenance and operation of the Mortgaged Property and that such items specified in the inventory constitute all of the fixtures and personal properties required in the management, maintenance and operation of the Mortgaged Property and that all such items are owned by Grantor free and clear of conditional sales contracts or other title retention arrangements. Grantor hereby grants to Noteholder a security interest in all such items of fixtures and personal property under the terms and conditions of this Deed of Trust.

5.7 Reports.

5.7.1 Annually. As set out in the Loan Agreement of even or near even date herewith or if no Loan Agreement has been executed by the Grantor then upon written request of Noteholder, for each and every such year while any portion of the Indebtedness remains

unpaid, Grantor covenants and agrees to furnish or cause to be furnished to Noteholder (i) an operating statement setting forth in detail all of the gross income, including rents and all other income of every kind and all operating expenses from or related to or affecting the operations of the Mortgaged Property, certified as correct by Grantor; (ii) a balance sheet and statement of income and expenses of the Mortgaged Property for the preceding fiscal year prepared and signed by Grantor; (ii) a statement listing the name of each tenant of the Mortgaged Property, the space occupied by each tenant, the rental paid by each tenant, the term of each tenant lease and the amount, if any, of the security deposit paid by each tenant; At the time of delivering said annual statements and rent roll, Grantor shall also furnish to Noteholder duplicate originals of all leases entered into during said fiscal year. Without the prior written consent of Noteholder, Grantor shall not change the fiscal year for the Mortgaged Property.

5.8 Deed Restrictions. Grantor shall not impose any restrictive covenants or encumbrances upon the Mortgaged Premises nor execute or file any subdivision plat affecting the Mortgaged Premises, without the prior written consent of Noteholder, which consent shall not be unreasonably withheld.

5.9 Financial Statements. During the term of the note, hereby secured, to deliver to the Noteholder, as set out in the Loan Agreement of even or near even date herewith or if no Loan Agreement has been executed by the Grantor then upon written request of Noteholder, a copy of a current unaudited financial statement of the Grantor and of each Guarantor, acceptable to Noteholder, and certified by the Grantor and Guarantors, as the case may be, that the financial statement had been prepared in accordance with generally accepted accounting principles ("GAAP") consistently applied and constitute a fair presentation of the financial condition of the Grantor and each Guarantor.

5.10. U.S. Income Tax Returns. During the term of the note, hereby secured, to deliver to the Noteholder, as set out in the Loan Agreement of even or near even date herewith or if no Loan Agreement has been executed by the Grantor then upon written request of Noteholder, a copy of a current filed U.S. Income Tax Return for each calendar year of the Grantor. In the event the Federal Income Tax Returns are not filed by May 1 of said year, then Grantor must provide the Noteholder with it's filed extension request.

5.11 Encumbrances; Deed Restrictions; Plat. Grantor shall not impose any encumbrances, easements or restrictive covenants upon the Mortgaged Premises, shall not convey any interest in the Property or the Mortgaged Premises, shall not assign, lease, sever or convey any portion of any appurtenance or interest in the Property (including, without limitation any interest in the surface water, subsurface water or groundwater appurtenant to the Property) nor execute or file any subdivision plat affecting the Mortgaged Premises, without the prior written consent of Beneficiary

6. PAYMENT OF INDEBTEDNESS

If Grantor shall pay, or cause to be paid, all of the Indebtedness and does keep and perform each and every covenant, condition and stipulation herein, in the Note contained, or in any other instrument securing, evidencing or related to the Indebtedness, then this Deed of Trust and the grants and conveyances contained

herein shall become null and void, and the Mortgaged Property shall revert to Grantor and the entire estate, right, title and interest of the Trustee and Noteholder will thereupon cease; and the Noteholder in such case shall, upon the request of Grantor and at Grantor's costs and expense, deliver to Grantor proper instruments acknowledging satisfaction of this instrument; otherwise, this Deed of Trust shall remain in full force and effect.

7. EVENT OF DEFAULT

7.1 Acts Constituting Default. Grantor will be in default under this Deed of Trust upon the happening of any of the following events or conditions, or the happening of any other event of default as defined elsewhere in this Deed of Trust (hereinafter collectively referred to as an "Event of Default"):

7.1.1 Grantor fails to make when due any payment of principal or interest under the Indebtedness, or otherwise breaches any of the provisions contained in the Note;

7.1.2 Grantor fails to keep or perform any of the covenants, conditions or stipulations contained in this Deed of Trust or in any instruments securing, evidencing or related to the Indebtedness;

7.1.3 Any warranty or representation made in this Deed of Trust by Grantor is determined by Noteholder to be untrue in any material respect;

7.1.4 The Certificate of Formation for Grantor is amended, modified or terminated (whether voluntarily or involuntarily, or by operation of law or otherwise) without the prior written consent of the Noteholder;

7.1.5 Grantor, without the prior written consent of the Noteholder, sells, transfers, conveys, hypothecates or encumbers, or permits to be sold, transferred, conveyed, hypothecated or encumbered, its interest in the Mortgaged Property (or any part thereof) or Grantor's possessory rights in the Mortgaged Property are transferred, or if a controlling interest in Grantor is sold, conveyed, transferred, hypothecated or encumbered; and

7.1.6 Grantor (i) admits in writing its inability to pay its debts generally as they become due; (ii) files a petition or answer in bankruptcy seeking to be declared a bankrupt, or seeking reorganization or an arrangement or otherwise to take advantage of any State or Federal bankruptcy or insolvency law; (iii) makes an assignment for the benefit of creditors; (iv) files a petition for or consents to the appointment of a receiver for the assets or any part thereof, belonging to Grantor or any partner of Grantor; (v) is adjudicated a bankrupt; or (vi) has an order, decree or judgment, without Grantor's consent, entered by a court of competent jurisdiction appointing a receiver of the Mortgaged Property or approving a petition filed against Grantor seeking reorganization or an arrangement of Grantor under any bankruptcy or insolvency law, and such order, decree or judgment is not vacated, set aside or stayed within sixty (60) days from the date of entry.

7.1.7 **Capital from the Project or Real Property.** Grantor(s) understand and agree that all contributed or internally generated capital must remain in the real property and improvements (the project) until subject Indebtedness is converted to permanent financing or it is paid in full. Grantor(s) shall not withdraw any existing capital contribution from the Real Property or Improvements, or any capital subsequently generated from the Real Property and Improvements prior to any of the following events:

1) Converting subject Indebtedness to satisfactory permanent financing to Noteholder, as determined by Noteholder's sole, subjective discretion,

2) Selling the Real Property and Improvements and paying off the related indebtedness in its entirety, or

3) Paying off the Note/Indebtedness in its entirety.

Any such withdrawal of capital by Grantor(s) shall be a default under this Deed of Trust, and all other documents executed in connection herewith and the herein described Note.

7.1.8 The occurrence of an Event of Default, as defined or described in any other instrument, document or agreement securing, evidencing or related to the Indebtedness or executed in connection therewith.

8. RIGHTS OF NOTEHOLDER UPON DEFAULT

8.1 Waiver of Notice and Right to Hearing. Unless otherwise provided herein, Noteholder may exercise any right or take any action provided for herein upon the occurrence of an Event of Default, including, but not limited to, the right to declare the whole amount of the Indebtedness immediately due and payable without giving notice thereof to Grantor, and the right to sell the Mortgaged Property at foreclosure sale, as provided in the Texas Property Code, and, upon the occurrence of an Event of Default, Grantor hereby waives any and all rights it may have to a hearing before any judicial authority prior to the exercise by Noteholder of any of its rights under this Deed of Trust or any other agreements securing or executed in connection with the Indebtedness.

8.2 Operation of Property by Trustee. Upon the occurrence of an Event of Default, or at any time thereafter, in addition to all other rights herein conferred on the Trustee (or any person, firm or corporation designated by the Trustee) Trustee may, but will not be obligated to, enter upon and take possession of any or all of the Mortgaged Property, exclude Grantor therefrom, and hold, use, administer, manage and operate the same to the extent that Grantor could do so. If the Mortgaged Property includes any type of business enterprise, the Trustee may operate and manage such business without any liability to Grantor resulting therefrom (excepting failure to use ordinary care in the operation and management of the Mortgaged Property), and the Trustee may collect, receive and receipt for all proceeds accruing from such operation and management, make repairs and purchase needed additional property, and exercise every power, right and privilege of Grantor with respect to the Mortgaged Property. When and if the expenses of such operation and management have been paid and the Indebtedness has been paid, the Mortgaged Property shall be returned to Grantor (providing there has been no foreclosure sale). This provision is a right created by this contract and

cumulative of, and is not to affect in any way, the right of the Noteholder to the appointment of a receiver given the Noteholder by law.

8.3 Judicial Proceedings. Upon the occurrence of an Event of Default, or at any time thereafter, Noteholder, in lieu of or in addition to causing the Trustee to exercise the power of sale hereafter given, may proceed by suit for a foreclosure of its lien on the Mortgaged Property or to enforce any other appropriate legal or equitable right.

8.4 Foreclosure Sale.

8.4.1 Mechanics of Sale. Upon the occurrence of any Event of Default, or at any time thereafter, Noteholder may request Trustee to proceed with foreclosure, and in such event Trustee is hereby authorized and empowered, and it shall be Trustee's special duty, upon such request of Noteholder, to sell the Mortgaged Property, or any part thereof, to the highest bidder or bidders for cash or credit, as directed by Noteholder, at the county courthouse in the county in which the Mortgaged Property the subject of the lien is located, at the area at the courthouse designated by the Commissioner's Court of such county as the area where such sales are to take place; or if no area has been designated by the Commissioner's Court, then at the area at the courthouse designated in Noteholder's notice of sale, all as provided in the Texas Property Code; provided, that if the Mortgaged Property is situated in more than one county, then such sale of the Mortgaged Property, or part thereof, may be made in any county in the State of Texas wherein any part of the Mortgaged Property then subject to the lien hereof is situated. Any such sale shall be made at public outcry, between the hours of ten o'clock (10.00) a.m. and four o'clock (4.00) p.m. on the first (1st) Tuesday in any month. Written or printed notice of such sale shall be posted at the courthouse door in the county, or if more than one, then in each of the counties, wherein the Mortgaged Property then subject to the lien hereof is situated. Such notice shall designate the county where the Mortgaged Property, or part thereof, will be sold and the earliest time at which the sale will occur, and such notice shall be posted at least twenty-one (21) days before the date of sale. Such notice shall also be filed with the county clerk in the county, or if more than one, then in each of the counties wherein the Mortgaged Property is located. Noteholder shall, at least twenty-one (21) days preceding the date of sale, serve written notice of the proposed sale by certified mail on each debtor obligated to pay the Secured Indebtedness according to the records of Noteholder. After such sale, Trustee shall make to the purchaser or purchasers thereunder good and sufficient assignments, deeds, bills of sale, and other instruments, in the name of Grantor, conveying the Mortgaged Property, or part thereof, so sold to the purchaser or purchasers with general warranty of title by Grantor. The sale of a part of the Mortgaged Property shall not exhaust the power of sale, but sales may be made from time to time until the Secured Indebtedness is paid and performed in full. It shall not be necessary to have present or to exhibit at any such sale any of the Personal Property.

It is agreed that in the event a foreclosure hereunder should be commenced by the Trustee, or his substitute or successor, Noteholder may at any time before the sale of said Mortgaged Property direct the said Trustee to abandon the sale, and may then institute suit for the collection of the Note, and for the foreclosure of this Deed of Trust lien; it is further agreed

that if Noteholder should institute a suit for the collection thereof, and for a foreclosure of this Deed of Trust lien, that he may at any time before the entry of a final judgment in said suit dismiss the same, and require the Trustee, to sell the Mortgaged Property in accordance with the provisions of this Deed of Trust.

The Trustee may postpone the sale of all or any portion of the Mortgaged Property by public announcement at the time and place of such sale, and from time to time thereafter may further postpone such sale by public announcement made at the time of sale fixed by the preceding postponement. Grantor hereby authorizes and empowers the Trustee to sell the Mortgaged Property, together or in lots or in parcels, as the Trustee shall deem expedient. If the Mortgaged Property is located in more than one county, the notices shall be posted at the door of the courthouse of each county in which the Mortgaged Property is located (designating the county in which the sale will be held) and the Mortgaged Property may be sold at the courthouse of such designated counties, all as provided in the Texas Property Code.

Noteholder, if he is the highest bidder, shall have the right to purchase at any sale of the property, and to have the amount for which such property is sold credited on the debt then owing.

8.4.2 Sale of Collateral. On the happening of any Event of Default or at any time thereafter, Noteholder or Trustee shall have and may exercise with respect to the Collateral all rights, remedies and powers of a Secured Party under the Texas Business and Commerce Code with reference to the Collateral or any other items in which a security interest has been granted herein, including without limitation the right and power to sell at public or private sale or sales or otherwise dispose of, lease or utilize the Collateral and any part or parts thereof in any manner authorized or permitted under the Texas Business and Commerce Code after default by Grantor and apply the proceeds thereof toward the payment of all costs and expenses and reasonable attorney's fees incurred by Noteholder and toward the payment of the Indebtedness in such order or manner as Noteholder may elect. Among the rights of Noteholder in the Event of Default and without limitation, Noteholder shall have the right to take possession of the Collateral and to enter upon any premises where the same may be situated for the purpose of repossessing the same without being guilty of trespass and without liability for damages occasioned thereby and to take any action deemed appropriate or desirable by Noteholder, at its option and its sole discretion, to repair, restore or otherwise prepare the Collateral for sale or lease or other use or disposition as authorized herein. To the extent permitted by law, Grantor expressly waives any notice of sale or any other disposition of the Collateral and any rights or remedies of Grantor or the formalities prescribed by law relative to the sale or disposition of the Collateral or to the exercise of any other right or remedy of Noteholder existing after default. To the extent that such notice is required and cannot be waived, Grantor agrees that if such notice is mailed postage prepaid to Grantor at the address shown herein at least five (5) days before the time of the sale or disposition, such notice shall be deemed reasonable and shall fully satisfy any requirement for giving said notice.

Grantor agrees that Trustee or Noteholder may proceed to sell or dispose of both the real and personal property covered herein in accordance with the rights and remedies granted under this Deed of Trust with respect to the real property covered hereby. Grantor hereby grants Noteholder the right, at its option, after default by Debtor to transfer at any time to itself or its nominee the Collateral or any part thereof and to receive the monies, income, proceeds and benefits attributable to the same and to hold the same as Collateral or to apply it on the Indebtedness, whether or not then due, and in such order and manner as Noteholder may elect. Grantor covenants and agrees that all recitals and any instrument transferring, assigning, leasing or making other disposition of the Collateral or any part thereof shall be full proof of the matters stated therein and no other proof shall be required to establish the legal propriety of the sale or other action taken by Noteholder or Trustee and that all prerequisites of sale shall be presumed conclusively to have been performed or to have occurred. All rights to marshalling of assets of Grantor , including such rights with respect to the Collateral, are hereby waived. Upon request, Grantor shall assemble the Collateral and deliver the same to Noteholder at such reasonable location as Noteholder shall select.

8.4.3 Grantor's Warranties After Sale. Grantor hereby authorizes and empowers the Trustee to execute and deliver to the purchaser or purchasers of any of the Mortgaged Property sold in foreclosure sales good and sufficient deeds of conveyance thereto by fee simple title, with covenants of general warranty, and the title of such purchaser or purchasers when so made by the Trustee, Grantor binds itself to warrant and forever defend.

8.4.4 Application of Proceeds. The proceeds of any and all foreclosure sales of the Mortgaged Property shall be applied as follows: (i) To the payment of all necessary actions and expenses incident to the execution of said sale or sales, including a reasonable fee to the Trustee, not exceeding five (5) percent of the gross proceeds of the sale or sales of the Mortgaged Property; (ii) to the payment of the Indebtedness and the Note, to the amounts owed for charges which are neither interest nor principal including but not limited to late charges, taxes, special assessment fees, life or other hazard insurance escrow, to the amount of the accrued interest and then to the principal legally due thereon and all other sums secured hereby and to the payment of attorneys' fees as in the Note provided; to the holder or Noteholder of inferior lines (Trustee and Noteholder shall hereby to entitled to rely exclusively upon a commitment for title insurance issued by a title insurance company to determine such priority) and (iii) the remainder, if any, shall be paid to Grantor or such other person or persons entitled thereto by law.

8.4.5 Multiple Sales. Upon the occurrence of any Event of Default or at any time thereafter, the Noteholder shall have the option to proceed with foreclosure in satisfaction of said Event of Default, either through the courts or by directing the Trustee to proceed with foreclosure as provided for in this Deed of Trust, but without declaring the whole Indebtedness due, and provided that if any sale is made because of such Event of Default, such sale may be made subject to the unmatured part of the Note and Indebtedness secured by this Deed of Trust, and such sale, if so made, shall not in any manner affect the unmatured part of the Indebtedness secured by this Deed of Trust, but as to such unmatured part of the Indebtedness this Deed of Trust shall remain in full force and effect as though no sale had been made under the provisions of this paragraph. Several sales may be made

without exhausting the right of sale for any remaining part of the Indebtedness whether then matured or unmatured.

8.4.6 Waiver of Appraisement Laws. Grantor waives the benefit of all laws now existing or hereafter enacted providing for (i) any appraisement before sale of any portion of the Mortgaged Property (commonly known as Appraisement Laws), or (ii) any extension of time for the enforcement of the collection of the Indebtedness or any creation or extension of a period of redemption from any sale made in collecting the Indebtedness (commonly known as Stay Laws and Redemption Laws).

8.4.7 Prerequisites of Sales. In case of any foreclosure sale of the Mortgaged Property, all prerequisites to the sale shall be presumed to have been performed, and in any conveyance given hereunder, all statements of facts, or other recitals therein made to the nonpayment of money secured or as to the request of the Trustee to enforce this trust, or as to the proper and due appointment of any substitute trustee, or as to the advertisement of sale, or time, place and manner of sale, or as to any other preliminary fact or thing, shall be taken in all courts of law or equity as prima facie evidence that the facts so stated or recited are true.

8.4.8. **Waiver of Deficiency Statue.**

(a) **WAIVER. IN THE EVENT AN INTEREST IN ANY OF THE MORTGAGED PROPERTY IS FORECLOSED UPON PURSUANT TO A JUDICIAL OR NONJUDICIAL FORECLOSURE SALE, GRANTOR AGREES AS FOLLOWS: NOTWITHSTANDING THE PROVISIONS OF SECTION 51.003, 51.004 AND 51.005 OF THE PROPERTY CODE (AS THE SAME MAY BE AMENDED FROM TIME TO TIME), AND TO EXTENT PERMITTED BY LAW, GRANTOR AGREES THAT NOTEHOLDER SHALL BE ENTITLED TO SEEK A DEFICIENCY JUDGEMENT FROM GRANTOR AND ANY OTHER PARTY OBLIGATED ON THE NOTE EQUAL TO THE DEFICIENCY BETWEEN THE AMOUNT OWING ON THE NOTE AND THE AMOUNT FOR WHICH THE MORTGAGED PROPERTY WAS SOLD PURSUANT TO JUDICIAL OR NONJUDICIAL FORECLOSURE SALE. GRANTOR EXPRESSLY RECOGNIZES THAT THIS SECTION CONSTITUTES A WAIVER OF THE ABOVE-CITED PROVISIONS OF THE PROPERTY CODE WHICH WOULD OTHERWISE PERMIT GRANTOR AND OTHER PERSONS AGAINST WHOM RECOVERY OF DEFICIENCIES IS SOUGHT OR GUARANTOR INDEPENDENTLY (EVEN ABSENT THE INITIATION OF DEFICIENCY PROCEEDINGS AGAINST THEM) TO PRESENT COMPETENT EVIDENCE OF THE FAIR MARKET VALUE OF THE MORTGAGED PROPERTY AS OF THE DATE OF THE FORECLOSURE SALE AND OFFSET AGAINST ANY DEFICIENCY THE AMOUNT BY WHICH THE FORECLOSURE SALE PRICE IS DETERMINED TO BE LESS THAN SUCH FAIR MARKET VALUE. GRANTOR FURTHER RECOGNIZES AND AGREES THAT THIS WAIVER CREATES AN IRREBUTTABLE PRESUMPTION THAT THE FORECLOSURE SALE PRICE EQUAL TO THE FAIR MARKET VALUE OF THE MORTGAGED PROPERTY FOR PURPOSES OF CALCULATING DEFICIENCIES OWED BY GRANTOR,**

GUARANTOR, AND OTHER AGAINST WHOM RECOVERY OF A DEFICIENCY IS SOUGHT.

(b)Alternative to Waiver. Alternatively, in the event the waiver provided for in subsection (a) above is determined by a court of competent jurisdiction to be unenforceable, the following shall be the basis for the finder of fact's determination of the fair market value of the Mortgaged Property as of the date of the foreclosure sale in proceedings governed by Sections 51.003, 51.004 and 51.005 of the Property Code (as amended from time to time): (i)the Mortgaged Property shall be valued in an "as is" condition as of the date of the foreclosure sale, without any assumption or expectation that the Mortgaged Property will be repaired or improved in any manner before a resale of the Mortgaged Property after foreclosure; (ii) the valuation shall be based upon an assumption that the foreclosure purchaser desires a resale of the Mortgaged Property for cash promptly (but no later than twelve [12] months) following the foreclosure sale; (iii) all reasonable closing cost customarily borne by the seller in commercial real estate transactions should be deducted from the gross fair market value of the Mortgaged Property, including without limitation, brokerage commissions, title insurance, a survey of the Mortgaged Property, tax prorations, attorney's fees, and marketing cost; (iv) the gross fair market value of the Mortgaged Property shall be further discounted to account for any estimated holding costs associated with maintaining the Mortgaged Property pending sale, including, without limitation, utilities expenses, property management fees, taxes and assessments (to the extent not accounted for in (iii) above), and other maintenance, operational and ownership expenses; and (v) any expert opinion testimony given or considered in connection with a determination of the fair market value of the Mortgaged Property must be given by persons having at least five (5) years experience in appraising property similar to the Mortgaged Property and who have conducted and prepared a complete written appraisal of the Mortgaged Property taking into consideration the factors set forth above.

8.4.9 No Liability of Trustee. Trustee shall not be liable for any error of judgment or act done by the Trustee in good faith, or otherwise be responsible or accountable under any circumstances whatsoever (including Trustee's negligence), except for Trustee's gross negligence or willful misconduct, **IT BEING AGREED THAT GRANTOR EXPRESSLY RELEASES TRUSTEE FOR THE CONSEQUENCES OF TRUSTEE'S ORDINARY NEGLIGENCE, WHETHER SOLE ORDINARY NEGLIGENCE OR ORDINARY NEGLIGENCE CONCURRENT WITH NEGLIGENCE OF GRANTOR OR WITH ANY OTHER PERSON OR ENTITY.** Trustee shall have the right to rely on any instrument, document or signature authorizing or supporting any action taken or proposed to be taken by it hereunder, believed by it in good faith to be genuine. All moneys received by Trustee until used or applied as herein provided, shall be held in trust for the purposes for which they were received, but need not be segregated in any manner from any other moneys (except to the extent required bylaw), and Trustee shall be under no liability for interest on any moneys received by it hereunder. Grantor hereby ratifies and confirms any and all acts which the herein named Trustee or its successor or successors, substitute or substitutes, in this trust, shall do lawfully by virtue hereof and Grantor will reimburse Trustee for, and save it harmless against, any and all liability and expenses which may be incurred by it in the performance of its duties in accordance with the terms hereof. The

foregoing indemnity shall not terminate upon discharge of the secured Obligations or foreclosure, or release or other termination, of this Deed of Trust.

9. Special Conditions

This instrument is expressly made subject to the following special conditions:

9.1 Successor Trustees. At the option of the Noteholder, without cause or notice, a successor or substitute trustee may be appointed by the President or any Vice President, agent or attorney-in-fact of the Noteholder without procuring the resignation of the former Trustee and without any formality other than a designation in writing of a successor or substitute trustee, who shall thereupon become vested with and succeed to all the powers and duties given to the Trustee herein named, the same as if the successor or substitute trustee had been named original Trustee herein; and such right to appoint a successor or substitute trustee shall exist as often and whenever the Noteholder desires.

9.2 Waiver and Election. The exercise of any option given under the terms of this Deed of Trust shall not be considered as a waiver of the right to exercise any other option given herein, and the filing of a suit to foreclose the Deed of Trust granted by this Deed of Trust either on any matured portion of the indebtedness or for the whole of the Indebtedness, shall never be considered an election so as to preclude foreclosure under power of sale after a dismissal of the suit; nor shall the filing of the necessary notices for foreclosure, as provided in this Deed of Trust, preclude the prosecution of a later suit thereon.

9.3 Landlord-Tenant Relationship. Any sale of the Mortgaged Property under this Deed of Trust shall, without further notice, create the relationship of landlord and tenant at sufferance between the purchaser and Grantor; and upon failure to surrender possession thereof, Grantor may be removed by a writ of possession upon suit by the purchaser.

9.4 Usury. This Deed of Trust, the Note and all other agreements between Noteholder and Grantor are hereby expressly limited so that in no contingency or event whatsoever, whether acceleration of maturity of the Indebtedness or otherwise, shall the amount paid or agreed to be paid to the Noteholder for the use, forbearance or detention of the money advanced or to be advanced hereunder exceed the highest lawful rate permissible under the laws of the State of Texas and the United States of America as applicable to this transaction. In determining whether or not the rate of interest exceeds the highest lawful rate, Grantor and Noteholder intend that all sums paid hereunder which are deemed interest for the purposes of determining usury be prorated, allocated or spread in equal parts over the longest period of time permitted under the applicable laws of the State of Texas. If, from any circumstances whatsoever, fulfillment of any provision hereof, of the Note or of any other agreement securing the Indebtedness, at the time performance of such provision shall be due, shall involve the payment of interest in excess of that authorized by law, the obligation to be fulfilled shall be reduced to the limit so authorized by law, and if from any circumstances, Noteholder shall ever receive as interest an amount which would exceed the highest lawful rate, the amount which would be excessive shall be either applied to the reduction of the unpaid principal balance of the Indebtedness (and not to the payment of interest) or refunded to Grantor, and Noteholder shall not be subject to any penalty provided for the contracting for, charging or receiving

of interest in excess of the maximum lawful rate regardless of when or the circumstances under which such refund for application was made.

9.5 Enforceability. If any provision hereof is presently or at any time becomes invalid or unenforceable, the other provisions hereof shall remain in full force and effect, and the remaining provisions hereof shall be construed in favor of the Trustee and the Noteholder to effectuate the provisions hereof.

9.6 Application of Payments. If the lien or liens created by this Deed of Trust are invalid or unenforceable as to any part of the Indebtedness or if such lien or liens are invalid or unenforceable as to any part of the Mortgaged Property, the unsecured or partially secured portion of the Indebtedness shall be completely paid prior to the payment of the remaining secured or partially secured portion of the Indebtedness and all payments made on the Indebtedness, whether voluntary or under foreclosure or other enforcement action or procedures, shall be considered to have been first paid on and applied to the full payment of that portion of the Indebtedness which is not secured or not fully secured by the lien or liens created herein.

9.7 Meaning of Particular Terms. Whenever used, the singular number shall include the plural, the plural the singular, and the use of any gender shall include all genders. The words "Grantor" and "Noteholder" shall include their heirs, executors, administrators, successors and assigns and the word "Trustee" shall include his successors and substitute trustees.

9.8 Advances by Noteholder. If Grantor shall fail to comply with the provisions with respect to the securing of insurance, payment of taxes, assessments, attorney's fees, and other charges, the keeping of the Mortgaged Property in repair, or any other term or covenant herein contained, Noteholder may make advances against the note secured hereby to perform the same, and where necessary enter the Mortgaged Property for the purpose of performing any such term or covenant. Grantor agrees to repay all sums advanced upon demand, with interest from the date such advances are made, determined on the same basis as matured principal in the Note and all sums so advanced with interest shall be secured hereby. Grantor agrees the Noteholder can make advances against the note/indebtedness to pay all costs, expenses described herein including attorney's fees. Furthermore, in the event that in the Noteholder's sole discretion an appraisal is needed to be obtained by the Noteholder on the Mortgaged Property, the Noteholder may advance against the Note hereby secured to pay for such appraisal and it and/or its agents may enter the Mortgaged Property for the purposes of performing such appraisal. All amounts advanced under this section are secured by this deed of trust.

9.9 Release or Extension by Noteholder. Noteholder, without notice, may release any part of the Mortgaged Property or any person liable for the Indebtedness without in any way affecting the liens hereof on any part of the Mortgaged Property not expressly released and may agree with any party with an interest in the Mortgaged Property to extend the time for payment of all or any part of the Indebtedness or to waive the prompt and full performance of any term, condition or covenant of any instrument evidencing or securing the Indebtedness.

9.10 Partial Payments. Acceptance by Noteholder of any payment of less than the amount due on the Indebtedness shall be deemed acceptance on account only and the failure to pay the entire

amount then due shall be and continue to be a default; and at any time thereafter and until the entire amount due on the Indebtedness has been paid, Noteholder shall be entitled to exercise all rights conferred on it by the terms of this Deed of Trust upon the occurrence of an Event of Default.

9.11 Titles Not to be Considered. All section, subsection, paragraph or other titles contained in this Deed of Trust are for reference purposes only and this Deed of Trust shall be construed without reference to said titles.

9.12 Construction of Agreement. This Deed of Trust may be construed as a mortgage, deed of trust, chattel mortgage, conveyance, assignment, security agreement, pledge, financing statement, hypothecation or contract, or any one or more of them, in order fully to effectuate the lien hereof and the purposes and agreements herein set forth.

9.13 Notices. All notices required to be given Grantor or Noteholder hereunder shall be deemed given if made in writing and either delivered or deposited in the United States mail, postage prepaid, registered or certified, return receipt requested, and addressed to Grantor or Noteholder at the addresses set out hereinafter.

9.14 Prior Mortgage. In the event any of the Loan proceeds are used to discharge any prior mortgages on the Mortgaged Premises, Noteholder, its successors and assigns, are hereby subrogated to all the rights, titles, powers, liens and estates which accrued to the original holders and owners of the prior mortgages.

10. Use of Fire Insurance and Condemnation Proceeds for Reconstruction Purposes

10.1 In the event of payment to Noteholder of any condemnation award or insurance proceeds, Noteholder agrees to apply the award or proceeds to the payment of all costs and expenses incurred by Noteholder in obtaining such award or proceeds, and to hold the balance of the award or proceeds available for the restoration and repair of the Mortgaged Property upon the following terms and conditions:

10.1.1 Grantor shall cause an architect acceptable to Noteholder to prepare plans and specifications for the repair and restoration of the damaged property and a certified cost of construction statement showing the total cost of repair and restoration and shall promptly submit said plans and specifications and statement to Noteholder for approval, which approval will not be unreasonably withheld. Upon receipt of approval by Noteholder, Grantor will promptly commence and diligently pursue the work or repair and restoration;

10.1.2 If prior to the commencement, or at any time during, the restoration and repair of the Mortgaged Property, Noteholder shall determine that the total cost of restoration or repair shall exceed the balance of the awards of proceeds held in its possession, Grantor shall immediately pay, in cash, to Noteholder the amount of such excess costs. Until the amount of said excess costs is paid to Noteholder, Noteholder shall not be obligated to disburse any of the award or proceeds held by it. The awards or proceeds on the amount of excess costs paid by Grantor are hereinafter called "Construction Funds." The amount of such excess costs paid by Grantor shall be disbursed prior to the disbursement of any of the

awards or proceeds held by Noteholder;

10.1.3 The Construction Funds will be made available to Grantor as restoration repair work progresses pursuant to certificates of an architect acceptable in form and substance to Noteholder. Provided, however, if the Construction Funds are less than $100,000, the full amount shall be made available to Grantor at the time the plans and specifications are approved. If the amount of Construction Funds exceeds $100,000 the Construction Funds will be made available as restoration work and repair work progresses pursuant to certificates executed by Grantor;

10.1.4 There shall be delivered to Noteholder such other evidences as Noteholder may reasonably request, from time to time, during the restoration and repair, after the progress of the work, compliance with the approved plans and specifications, the cost of restoration and repair, the total cost needed to complete the restoration and repair, and lien waivers or evidence of no liens against the Mortgaged Property;

10.1.5 In the event Grantor, at any time, shall fail to promptly and fully perform the conditions and covenants set out herein, or in the event during the restoration and repair an Event of Default shall have occurred hereunder, Noteholder may, at its option, immediately cease making further payments to the Grantor for the restoration and repair, and may further, at its option, apply the Construction Funds then in its possession either to the reduction of the Indebtedness hereby secured or to the restoration of the Mortgaged Property in the manner above provided without affecting the lien of this Deed of Trust and/or the obligations hereunder. Any excess Construction Funds, at Noteholder's option, may be applied to the reduction of the Indebtedness hereby secured in the manner stated above; and

10.1.6 Provided, however, provisions of this Article 10 shall not be applicable and shall not supersede the provisions of Subparagraph 3.2 of Article 3 and Subparagraph 5.3 of Article 5, if any one of the following has occurred:

10.1.6.1 If at, or at any time after, the damage or destruction, there exists an event or act which is, or with the passage of time would be, an Event of Default under this Deed of Trust, or any instrument securing the Indebtedness; and

10.1.6.2 If the Lessee of a portion of the Mortgaged Property so damaged or destroyed elects to terminate or cancel the lease covering said portion.

11. NON-ASSUMPTION

The Note hereby secured contains a provision which provides that said Note may not be assumed by any other person or legal entity without the express written consent of the Holder of said Note, and upon failure thereof, the Holder of said Note may, at its option, upon thirty (30) days written notice, make demand for immediate payment of the entire principal balance and accrued interest then due and owing.

12. **NON-LIABILITY**

Any Grantor who signs this Deed of Trust but does not execute the Note secured hereby: (a) is signing this Deed of Trust only to mortgage, grant and convey that Grantor's interest in the Property covered by this Deed of Trust: (b) is not personally obligated to pay the sums secured by this Deed of Trust unless so obligated by each Grantor's execution of other documents creating such an obligation; and (c) agrees that the Noteholder and the Maker of the Notes hereby secured may agree to extend, modify, forbear or make any accommodation with respect to the terms of this Deed of Trust or the Notes secured hereby without that Grantor's consent.

13. **CROSS DEFAULT:**

Any default under the provisions of any other Note or indebtedness held by Noteholder and executed by Grantor hereunder, or under any Deed of Trust or other document securing such other Note, shall also constitute at Noteholder's option, a default under this Deed of Trust and under the Note secured hereby. Any default under the provisions of the Note or under this Deed of Trust or other documents securing the Note, shall also constitute a default under any other Deed of Trust, under or any other Note or Notes held by Noteholder.

14. **PURCHASE MONEY**

The Note hereby secured is given as a part of the purchase price of the herein above described property, and this Deed of Trust is in addition to the vendor's lien retained in a Deed given by **Red Horse Holdings, LLC** to **Orangestone La Branch, LLC** securing the payment of the indebtedness described herein; and it is expressly agreed that the same shall not operate as a waiver of the lien created by this Deed of Trust, it being agreed that said lien and rights created by this instrument shall be cumulative and in addition to said vendor's lien above mentioned, and that the owner or holder of the above described indebtedness may foreclose under either or both of said liens, as he or it may elect, without waiving the other, said deed above mentioned, together with its records, being here referred to and made a part of this instrument.

THIS INSTRUMENT CONTAINS INDEMNIFICATION PROVISIONS AND PROVISIONS LIMITING THE NOTEHOLDER'S LIABILITIES FOR NEGLIGENCE.

EXECUTED this 17TH day of JUNE, **2026.**

EXHIBIT "A"

Legal Description

Field notes for a tract of 30.01 acres of land out of the John McQueen Survey, Abstract Number 426, in Williamson County, Texas; being that tract described as containing 30.00 acres in a deed from First Texas Bank to Larry James Reid and wife, Rhonda G. Reid, dated July 2, 1993, and recorded in Volume 2330, Page 211 of the Official Records of Williamson County, Texas.

Beginning at a 1/2" rebar iron stake found marking the southeast corner of the above described Reid 30.00 acre tract; said stake also marking the southwest corner of that tract described as containing 36.63 acres in (1) a deed from Lou McLaurin and Michael McLaurin to Richard A. Sliva and Karen L. Thompson-Siva, dated May 27, 1997, and recorded in County Clerk's Document Number 1997024044 of said Official Records, and (2) a deed from First Texas Bank to Donna Lou Starr, dated February 7, 1994, and recorded in Volume 2465, Page 692 of said Official Records; said stake lying in/near the northerly margin of County Road 105; from said stake is found, for reference, a 1/2" rebar iron stake found, on the east side of an iron pipe fence corner post, marking the southeast corner of said Sliva/Starr 36.63 acre tract, which bears N67° 58'24"E, along the common southerly boundary of said 36.63 acre tract and northerly margin of said County Road 105, 575.83 ft. distant; said stake bearing N68°37'14"E 3442.33 ft., N68°47'55"E 471.87 ft. and S21°26'49"E 2769.80 ft. from the approximate northwest corner of said John McQueen Survey; for the POINT OF BEGINNING and Southeast corner hereof.

Thence leaving said County Road 105, and proceeding along the common easterly boundary of said Reid 30.00 acre tract and westerly boundary of said Sliva/Starr 36.63 acre tract, N21°26'49"W - at about 4 ft. pass about 0.8 ft. easterly of an iron pipe fence corner post at the southerly terminus of a wire fence which meanders in a northerly direction generally just westerly of said common boundary - in all 2769.80 ft. to a 1/2" rebar iron stake found, on the northerly side of a fence corner post, marking the common northeast corner of said Reid 30.00 acre tract and northwest corner of said Sliva/Starr 36.63 acre tract; said stake also lying in the southerly boundary of that tract described as containing 228.9 acres in (1) a deed from Gene Lawhon, et al, to Emma L. Lawhon Family Land Partnership, dated October 31, 2006, and recorded in County Clerk's Document Number 2006095405 of the Official Public Records of Williamson County, Texas, and (2) a deed from Madge Stanberry to Edwin L. Lawhon, et ux, dated September 8, 1959, and recorded in Volume 433, Page 369 of the Deed Records of Williamson County, Texas; said stake lying in the common northerly boundary of said McQueen Survey and southerly boundary of the Woodruff Stubblefield Survey, Abstract Number 556; for the Northeast corner hereof.

Thence leaving said Sliva/Starr 36.63 acre tract, and proceeding along the common northerly boundary of said Reid 30.00 acre tract and southerly boundary of said Lawhon 228.9 acre tract, along said common McQueen Survey northerly boundary and Stubblefield Survey southerly boundary, along/near which meanders an old wire fence, S68°47'55"W 471.87 ft. to a 1/2" rebar iron stake with a pink plastic cap stamped "TLS INC" found on the northerly side of an old cedar fence corner post at the northwest corner of said Reid 30.00 acre tract; said point being the common northeast corner of Lot 17, Block "D", of VALLEY VISTA, a subdivision of record in Cabinet P, Slide 18 of the Plat Records of Williamson County, Texas; for the Northwest corner hereof.

Thence leaving said Lawhon 228.9 acre tract and said Stubblefield Survey, and proceeding along the easterly boundary of said Block "D", VALLEY VISTA, common with the westerly boundary of said Reid 30.00 acre tract and, as follows:

(1) S21° 32'58"E, proceeding along the common easterly boundary of said Lot 17, along/near the meanders of a segment of wire fence - at about 103.2 ft. pass about 0.2 ft. westerly of the southerly terminus of said wire fence, at a metal corner post at the northerly terminus of a chain link security fence which meanders in a southerly direction generally just easterly of said common boundary - in all 174.20 ft. to a 1/2" rebar iron stake found, lying about 0.3 ft. westerly of said chain link fence, marking the common southeast corner of said Lot 17 and northeast corner of Lot 16 of said Block "D";

(2) S21° 20'53"E, proceeding along/near the common easterly boundary of said Lot 16 - pass the record common southeast corner of said Lot 16 and northeast corner of Lot 15 of said Block "D" - proceeding along/near the common easterly boundary of said Lot 15 - in all 254.03 ft. to a 1/2" rebar iron stake found, lying about 1.2 ft. westerly of said chain link fence, marking the common southeast corner of said Lot 15 and northeast corner of Lot 14 of said Block "D";

(3) S21° 40'33"E, proceeding along the common easterly boundary of said Lot 14, 105.10 ft. to a 1/2" rebar iron stake found, lying about 1 ft. westerly of said chain link fence, marking the common southeast corner of said Lot 14 and northeast corner of Lot 13 of said Block "D";

(4) S21° 41'45"E, proceeding along the common easterly boundary of said Lot 13, 104.79 ft. to a 1/2" rebar iron stake

EXHIBIT "A"

found, lying about 0.8 ft. westerly of said chain link fence, marking the common southeast corner of said Lot 13 and northeast corner of Lot 12 of said Block "D";

(5) S21° 24'27"E, proceeding along the common easterly boundary of said Lot 12, 105.17 ft. to a 1/2" rebar iron stake found, lying about 1 ft. westerly of said chain link fence, marking the common southeast corner of said Lot 12 and northeast corner of Lot 11 of said Block "D";

(6) S21°29'20"E, proceeding along the common easterly boundary of said Lot 11, 104.93 ft. to a 1/2" rebar iron stake found, lying about 1 ft. westerly of said chain link fence, marking the common southeast corner of said Lot 11 and northeast corner of Lot 10 of said Block "D";

(7) S21° 26'24"E, proceeding along the common easterly boundary of said Lot 10, 105.02 ft. to a 1/2" rebar iron stake found, lying about 1.3 ft. westerly of said chain link fence, marking the common southeast corner of said Lot 10 and northeast corner of Lot 9 of said Block "D";

(8) S21° 32'31"E, proceeding along/near the common easterly boundary of said Lot 9 - at about 44 ft. pass about 1.2 ft. westerly of a metal corner post at the southerly terminus of said chain link security fence, at the northerly terminus of a wire and cedar picket fence which meanders in a southerly direction generally just easterly of said common boundary - pass the record common southeast corner of said Lot 9 and northeast corner of Lot 8 of said Block "D" - proceeding along/near the common easterly boundary of said Lot 8 - in all 210.03 ft. to a 1/2" rebar iron stake found, lying about 1 ft. westerly of said wire/cedar picket fence, marking the common southeast corner of said Lot 8 and northeast corner of Lot 7 of said Block "D";

(9) S21° 28'55"E, proceeding along the common easterly boundary of said Lot 7, 105.00 ft. to a 1/2" rebar iron stake found, lying about 1 ft. westerly of said wire/cedar picket fence, marking the common southeast corner of said Lot 7 and northeast corner of Lot 6 of said Block "D";

(10) S21° 32'57"E, proceeding along the common easterly boundary of said Lot 6, 105.06 ft. to a 1/2" rebar iron stake found, lying about 0.8 ft. westerly of said wire/cedar picket fence, marking the common southeast corner of said Lot 6 and northeast corner of Lot 5 of said Block "D";

(11) S21° 42'32"E, proceeding along the common easterly boundary of said Lot 5, 104.55 ft. to a 1/2" rebar iron stake found, lying about 0.5 ft. westerly of said wire/cedar picket fence, marking the common southeast corner of said Lot 5 and northeast corner of Lot 4 of said Block "D";

(12) S21° 024'21"E, proceeding along/near the common easterly boundary of said Lot 4 - pass the record common southeast corner of said Lot 4 and northeast corner of Lot 3 of said Block "D" - proceeding along/near the common easterly boundary of said Lot 3 - in all 185.37 ft. to a 1/2" rebar iron stake with an orange plastic cap stamped "M. MEADOR RPLS 1966" set, on the northerly side of an old cedar fence corner post and lying about 1 ft. westerly of said wire/cedar picket fence, at an angle point in said Lot 3 easterly boundary, said stake lying along the northerly projection of the monumented easterly boundary of Lot 2 of said Block "D";

(13) S21° 21'02"E, continuing along the common easterly boundary of said Lot 3, along said Lot 2 easterly boundary projection, 25.00 ft. to a 1/2" rebar iron stake found, lying about 1 ft. westerly of said wire/cedar picket fence, marking the common southeast corner of said Lot 3 and northeast corner of said Lot 2, Block "D";

(14) S21° 21'02"E, proceeding along the common easterly boundary of said Lot 2, 105.13 ft. to a 1/2" rebar iron stake found, lying about 1 ft. westerly of said wire/cedar picket fence, marking the common southeast corner of said Lot 2 and northeast corner of Lot 1 of said Block "D"; and

(15) S21° 19'18"E, proceeding along the common easterly boundary of said Lot 1, 105.06 ft. to a 1/2" rebar iron stake found, lying about 1 ft. westerly of said wire/cedar picket fence, marking the common southeast corner of said Lot land the easterly terminus of the northerly margin of MADISON DRIVE. Thence leaving said Block "D", and proceeding along the easterly terminus of said MADISON DRIVE, common with said westerly boundary of said Reid 30.00 acre tract, S21° 21'02"E 49.92 ft. to a 1/2" rebar iron stake found, lying about 1 ft. westerly of said wire/cedar picket fence, marking the common easterly terminus of the southerly margin of said MADISON DRIVE and northeast corner of Lot 16, Block "C" of said VALLEY VISTA. Thence leaving said MADISON DRIVE, and proceeding along the easterly boundary of said Block

UNANIMOUS WRITTEN CONSENT OF THE MEMBERS AND MANAGERS

ORANGESTONE LA BRANCH, LLC

UNANIMOUS WRITTEN CONSENT OF THE MEMBERS AND MANAGERS

THE UNDERSIGNED, being all of the Members and Managers of **OrangeStone La Branch, LLC**, a Texas limited liability company (the "Company"), acting pursuant to the provisions of the Texas Business Organizations Code and the Operating Agreement of the Company, do hereby unanimously adopt, consent to, and approve the following recitals and resolutions in writing without a meeting:

WHEREAS, the Company is the owner or controlling entity of that certain real property located at **707 CR 105 Spur, Georgetown, Texas** (the "Property"); and

WHEREAS, the Property is currently situated within the Extraterritorial Jurisdiction ("ETJ") of the City of Georgetown, Williamson County, Texas; and

WHEREAS, the Members and Managers have determined that it is in the best interest of the Company to petition the City of Georgetown and/or the applicable governmental authorities to release the Property from the City of Georgetown's ETJ pursuant to applicable Texas law (including Chapter 42 of the Texas Local Government Code, as amended); and

WHEREAS, the Members and Managers desire to authorize **Hussain Nathoo**, in his capacity as **Manager** of the Company, to execute, deliver, and submit on behalf of the Company all necessary petitions, applications, certifications, affidavits, and related documents required to effectuate the ETJ release for the Property.

NOW, THEREFORE, BE IT RESOLVED AS FOLLOWS:

NOW, THEREFORE, BE IT RESOLVED, that **Hussain Nathoo**, Manager of the Company, be, and he hereby is, authorized, empowered, and directed, in the name and on behalf of the Company, to prepare, execute, sign, seal, verify, deliver, and file a formal petition to release the site at **707 CR 105 Spur, Georgetown, Texas** from the City of Georgetown's Extraterritorial Jurisdiction, along with all associated instruments, applications, agreements, and documentation required by the City of Georgetown, Williamson County, or any other authority having jurisdiction over the matter.

FURTHER RESOLVED, that **Hussain Nathoo**, Manager, is authorized and empowered to negotiate, finalize, modify, or supplement any terms, conditions, or filings related to said ETJ release, and to take all such further actions, pay any applicable fees, and execute and deliver all such additional documents, certificates, and instruments as he may, in his sole discretion, deem necessary, desirable, or advisable to carry out and fulfill the intent and purpose of the foregoing resolution.

FURTHER RESOLVED, that any and all actions previously taken by **Hussain Nathoo** or any authorized representative of the Company prior to the date hereof in connection with the petition for release of the

Property from the City of Georgetown's ETJ be, and they hereby are, ratified, confirmed, approved, and adopted in all respects as the official acts and deeds of the Company.

IN WITNESS WHEREOF, the undersigned Members and Managers have executed this Unanimous Written Consent as of the dates set forth below. This document may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. Delivery of an executed signature page by electronic transmission (including PDF or electronic signature) shall be as effective as delivery of a manually executed counterpart.

Exhibit B to Resolution

Legal Description and Map

EXHIBIT "A"

Legal Description

Field notes for a tract of 30.01 acres of land out of the John McQueen Survey, Abstract Number 426, in Williamson County, Texas; being that tract described as containing 30.00 acres in a deed from First Texas Bank to Larry James Reid and wife, Rhonda G. Reid, dated July 2, 1993, and recorded in Volume 2330, Page 211 of the Official Records of Williamson County, Texas.

Beginning at a 1/2" rebar iron stake found marking the southeast corner of the above described Reid 30.00 acre tract; said stake also marking the southwest corner of that tract described as containing 36.63 acres in (1) a deed from Lou McLaurin and Michael McLaurin to Richard A. Sliva and Karen L. Thompson-Siva, dated May 27, 1997, and recorded in County Clerk's Document Number 1997024044 of said Official Records, and (2) a deed from First Texas Bank to Donna Lou Starr, dated February 7, 1994, and recorded in Volume 2465, Page 692 of said Official Records; said stake lying in/near the northerly margin of County Road 105; from said stake is found, for reference, a 1/2" rebar iron stake found, on the east side of an iron pipe fence corner post, marking the southeast corner of said Sliva/Starr 36.63 acre tract, which bears N67° 58'24"E, along the common southerly boundary of said 36.63 acre tract and northerly margin of said County Road 105, 575.83 ft. distant; said stake bearing N68°37'14"E 3442.33 ft., N68°47'55"E 471.87 ft. and S21°26'49"E 2769.80 ft. from the approximate northwest corner of said John McQueen Survey; for the POINT OF BEGINNING and Southeast corner hereof.

Thence leaving said County Road 105, and proceeding along the common easterly boundary of said Reid 30.00 acre tract and westerly boundary of said Sliva/Starr 36.63 acre tract, N21°26'49"W - at about 4 ft. pass about 0.8 ft. easterly of an iron pipe fence corner post at the southerly terminus of a wire fence which meanders in a northerly direction generally just westerly of said common boundary - in all 2769.80 ft. to a 1/2" rebar iron stake found, on the northerly side of a fence corner post, marking the common northeast corner of said Reid 30.00 acre tract and northwest corner of said Sliva/Starr 36.63 acre tract; said stake also lying in the southerly boundary of that tract described as containing 228.9 acres in (1) a deed from Gene Lawhon, et al, to Emma L. Lawhon Family Land Partnership, dated October 31, 2006, and recorded in County Clerk's Document Number 2006095405 of the Official Public Records of Williamson County, Texas, and (2) a deed from Madge Stanberry to Edwin L. Lawhon, et ux, dated September 8, 1959, and recorded in Volume 433, Page 369 of the Deed Records of Williamson County, Texas; said stake lying in the common northerly boundary of said McQueen Survey and southerly boundary of the Woodruff Stubblefield Survey, Abstract Number 556; for the Northeast corner hereof.

Thence leaving said Sliva/Starr 36.63 acre tract, and proceeding along the common northerly boundary of said Reid 30.00 acre tract and southerly boundary of said Lawhon 228.9 acre tract, along said common McQueen Survey northerly boundary and Stubblefield Survey southerly boundary, along/near which meanders an old wire fence, S68°47'55"W 471.87 ft. to a 1/2" rebar iron stake with a pink plastic cap stamped "TLS INC" found on the northerly side of an old cedar fence corner post at the northwest corner of said Reid 30.00 acre tract; said point being the common northeast corner of Lot 17, Block "D", of VALLEY VISTA, a subdivision of record in Cabinet P, Slide 18 of the Plat Records of Williamson County, Texas; for the Northwest corner hereof.

Thence leaving said Lawhon 228.9 acre tract and said Stubblefield Survey, and proceeding along the easterly boundary of said Block "D", VALLEY VISTA, common with the westerly boundary of said Reid 30.00 acre tract and, as follows:

(1) S21° 32'58"E, proceeding along the common easterly boundary of said Lot 17, along/near the meanders of a segment of wire fence - at about 103.2 ft. pass about 0.2 ft. westerly of the southerly terminus of said wire fence, at a metal corner post at the northerly terminus of a chain link security fence which meanders in a southerly direction generally just easterly of said common boundary - in all 174.20 ft. to a 1/2" rebar iron stake found, lying about 0.3 ft. westerly of said chain link fence, marking the common southeast corner of said Lot 17 and northeast corner of Lot 16 of said Block "D";

(2) S21° 20'53"E, proceeding along/near the common easterly boundary of said Lot 16 - pass the record common southeast corner of said Lot 16 and northeast corner of Lot 15 of said Block "D" - proceeding along/near the common easterly boundary of said Lot 15 - in all 254.03 ft. to a 1/2" rebar iron stake found, lying about 1.2 ft. westerly of said chain link fence, marking the common southeast corner of said Lot 15 and northeast corner of Lot 14 of said Block "D";

(3) S21° 40'33"E, proceeding along the common easterly boundary of said Lot 14, 105.10 ft. to a 1/2" rebar iron stake found, lying about 1 ft. westerly of said chain link fence, marking the common southeast corner of said Lot 14 and northeast corner of Lot 13 of said Block "D";

(4) S21° 41'45"E, proceeding along the common easterly boundary of said Lot 13, 104.79 ft. to a 1/2" rebar iron stake

EXHIBIT "A"
Legal Description

found, lying about 0.8 ft. westerly of said chain link fence, marking the common southeast corner of said Lot 13 and northeast corner of Lot 12 of said Block "D";

(5) S21° 24'27"E, proceeding along the common easterly boundary of said Lot 12, 105.17 ft. to a 1/2" rebar iron stake found, lying about 1 ft. westerly of said chain link fence, marking the common southeast corner of said Lot 12 and northeast corner of Lot 11 of said Block "D";

(6) S21°29'20"E, proceeding along the common easterly boundary of said Lot 11, 104.93 ft. to a 1/2" rebar iron stake found, lying about 1 ft. westerly of said chain link fence, marking the common southeast corner of said Lot 11 and northeast corner of Lot 10 of said Block "D";

(7) S21° 26'24"E, proceeding along the common easterly boundary of said Lot 10, 105.02 ft. to a 1/2" rebar iron stake found, lying about 1.3 ft. westerly of said chain link fence, marking the common southeast corner of said Lot 10 and northeast corner of Lot 9 of said Block "D";

(8) S21° 32'31"E, proceeding along/near the common easterly boundary of said Lot 9 - at about 44 ft. pass about 1.2 ft. westerly of a metal corner post at the southerly terminus of said chain link security fence, at the northerly terminus of a wire and cedar picket fence which meanders in a southerly direction generally just easterly of said common boundary - pass the record common southeast corner of said Lot 9 and northeast corner of Lot 8 of said Block "D" - proceeding along/near the common easterly boundary of said Lot 8 - in all 210.03 ft. to a 1/2" rebar iron stake found, lying about 1 ft. westerly of said wire/cedar picket fence, marking the common southeast corner of said Lot 8 and northeast corner of Lot 7 of said Block "D";

(9) S21° 28'55"E, proceeding along the common easterly boundary of said Lot 7, 105.00 ft. to a 1/2" rebar iron stake found, lying about 1 ft. westerly of said wire/cedar picket fence, marking the common southeast corner of said Lot 7 and northeast corner of Lot 6 of said Block "D";

(10) S21° 32'57"E, proceeding along the common easterly boundary of said Lot 6, 105.06 ft. to a 1/2" rebar iron stake found, lying about 0.8 ft. westerly of said wire/cedar picket fence, marking the common southeast corner of said Lot 6 and northeast corner of Lot 5 of said Block "D";

(11) S21° 42'32"E, proceeding along the common easterly boundary of said Lot 5, 104.55 ft. to a 1/2" rebar iron stake found, lying about 0.5 ft. westerly of said wire/cedar picket fence, marking the common southeast corner of said Lot 5 and northeast corner of Lot 4 of said Block "D";

(12) S21° 024'21"E, proceeding along/near the common easterly boundary of said Lot 4 - pass the record common southeast corner of said Lot 4 and northeast corner of Lot 3 of said Block "D" - proceeding along/near the common easterly boundary of said Lot 3 - in all 185.37 ft. to a 1/2" rebar iron stake with an orange plastic cap stamped "M. MEADOR RPLS 1966" set, on the northerly side of an old cedar fence corner post and lying about 1 ft. westerly of said wire/cedar picket fence, at an angle point in said Lot 3 easterly boundary, said stake lying along the northerly projection of the monumented easterly boundary of Lot 2 of said Block "D";

(13) S21° 21'02"E, continuing along the common easterly boundary of said Lot 3, along said Lot 2 easterly boundary projection, 25.00 ft. to a 1/2" rebar iron stake found, lying about 1 ft. westerly of said wire/cedar picket fence, marking the common southeast corner of said Lot 3 and northeast corner of said Lot 2, Block "D";

(14) S21° 21'02"E, proceeding along the common easterly boundary of said Lot 2, 105.13 ft. to a 1/2" rebar iron stake found, lying about 1 ft. westerly of said wire/cedar picket fence, marking the common southeast corner of said Lot 2 and northeast corner of Lot 1 of said Block "D"; and

(15) S21° 19'18"E, proceeding along the common easterly boundary of said Lot 1, 105.06 ft. to a 1/2" rebar iron stake found, lying about 1 ft. westerly of said wire/cedar picket fence, marking the common southeast corner of said Lot land the easterly terminus of the northerly margin of MADISON DRIVE. Thence leaving said Block "D", and proceeding along the easterly terminus of said MADISON DRIVE, common with said westerly boundary of said Reid 30.00 acre tract, S21° 21'02"E 49.92 ft. to a 1/2" rebar iron stake found, lying about 1 ft. westerly of said wire/cedar picket fence, marking the common easterly terminus of the southerly margin of said MADISON DRIVE and northeast corner of Lot 16, Block "C" of said VALLEY VISTA. Thence leaving said MADISON DRIVE, and proceeding along the easterly boundary of said Block

EXHIBIT "A"

Legal Description

"C", VALLEY VISTA, common with said westerly boundary of said Reid 30.00 acre tract, as follows:

1) S21° 19'41"E, proceeding along the common easterly boundary of said Lot 16, 142.39 ft. to a 1/2" rebar iron stake found, lying about 0.8 ft. westerly of said wire/cedar picket fence, marking the common southeast corner of said Lot 16 and northeast corner of Lot 15 of said Block "C";

(2) S21° 21'48"E, proceeding along/near the common easterly boundary of said Lot 15 - pass the record common southeast corner of said Lot 15 and northeast corner of Lot 14 of said Block "C"- proceeding along/near the common easterly boundary of said Lot 14 - pass the record common southeast corner of said Lot 14, northeast corner of Lot 12 of said Block "C" and most northerly corner of Lot 11 of said Block "C"- proceeding along/near the common easterly boundary of said Lot 11 – in all 518.27 ft. to a 1/2" rebar iron stake found, lying about 0.5 ft. westerly of said wire/cedar picket fence, marking the common southeast corner of said Lot 11 and northeast corner of Lot 10 of said Block "C";

(3) S21° 17'41"E, proceeding along the common easterly boundary of said Lot 10, 137.85 ft. to a 1/2" rebar iron stake found, lying about 0.2 ft. westerly of said wire/cedar picket fence, at an angle point in said Lot 10 easterly boundary; and

Petitioned for ETJ Removal

ORANGESTONE LA BRANCH LLC

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
Resolution - Meet & Confer for Fire

SUGGESTED ACTION:
Consideration and possible action to approve a Resolution ratifying a Meet and Confer agreement with the Georgetown Association of Professional Fire Fighters -- Laura Maloy, Human Resources Director

ITEM SUMMARY:

Meet & Confer is a permissive process allowed and prescribed by Texas Local Government Code Chapter 142. The process provides an opportunity to supersede, modify, and improve upon the statutory requirements of Civil Service law.

The City entered into Meet & Confer agreements with Georgetown Association of Professional Fire Fighters (Association) in 2016, 2019 and again in 2022. That agreement is set to expire on September 30, 2026. Discussions regarding a new agreement began in January 2026 and concluded in August 2026. The new agreement includes the following provisions that are beneficial to all parties:

- Compensation & Recruitment:
  - Updated Market comparison for TCESD II.
  - Updated and increased education and certification incentives.
  - Removed daily Paramedic Credential Pay and semi-monthly Fire Investigator, Master Arson, and Fire Inspector pay.
  - Added Specialty Certification and Operational Assignment Stipends.
  - Added Paramedic FTO semi-monthly Stipend.
  - Updated hiring process to allow online and offsite entry examinations.
  - Creates lateral entry process for Firefighters and Paramedics.
  - Creates Healthcare Reimbursement Arrangement Program.
  - Funding for all pay items included in the FY27 budget
- Organizational Structure & Promotions:
  - Clarifies educational and certification requirements for promoted and appointed ranks.
  - Updates to promotional processes and expectations.
  - Updates to rank structure classifications.
- Contractual detail:
  - Updated contractual language clarifying the definition of “Paramedic”, “shall”, “should” and “may”, updated bulletin board article, updated hiring process, updated Labor Management Relations, updated articles to include Paramedic rank.

The term of the agreement is 4 years and is set to begin on October 1, 2026. Per Chapter 142, this agreement is enforceable once the Association conducts a ratification election of the Firefighters and the City Council ratifies the agreement by majority vote. Per President Colby Lyons, the Association completed their ratification election in late August 2026, a majority of the votes cast at the election favored ratification. Council ratification is the final step to the approval process.

FINANCIAL IMPACT:
All funding included in FY27 budget.

RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, RATIFYING A REVISED MEET AND CONFER AGREEMENT WITH THE GEORGETOWN PROFESSIONAL ASSOCIATION OF FIRE FIGHTERS PURSUANT TO SECTION 142.114 OF THE TEXAS LOCAL GOVERNMENT CODE.

WHEREAS, the City of Georgetown recognizes and respects the invaluable public safety service that the employees of the Fire Department provide for the citizens of Georgetown; and

WHEREAS, an open dialogue regarding Fire Department concerns contributes to the continued success of the department; and

WHEREAS, the City of Georgetown desires to facilitate strong relationships with its employees toward the common goal of providing superior public safety for our citizens; and

WHEREAS, the City of Georgetown and the Georgetown Association of Professional Fire Fighters agree the negotiated agreement is beneficial to both parties.

WHEREAS, the City of Georgetown and the Georgetown Association of Professional Fire Fighters has ratified the agreement by conducting a secret ballot election at which only the firefighters of the municipality in the association were eligible to vote, and a majority of the votes cast at the election favored ratifying the agreement.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN TEXAS:

SECTION 1. The facts and recitations contained in the preamble of this resolution are hereby found and declared to be true and correct, and are incorporated by reference herein and expressly made a part hereof, as is copied verbatim.

SECTION 2. The City Council hereby ratifies a Meet and Confer Agreement with the Georgetown Professional Association of Fire Fighters pursuant to Section 142.114 of the Texas Local Government Code.

SECTION 3. All resolutions that conflict with the provisions of this resolution are hereby repealed, and all other resolutions of the City no in conflict with the provisions of this resolution shall remain in full force and effect.

SECTION 4. If any provision of this resolution, or application thereof, to any person or circumstance, shall be held invalid, such invalidity shall not affect the other provisions, or

application thereof, of this resolution, which can be given effect without the invalid provision or application, and to this end the provisions of this resolution are hereby declared to be severable.

SECTION 5. The Mayor is hereby authorized to sign this Resolution and the City Secretary to attest. This Resolution shall become effective and be in full force and effect on October 1, 2026, in accordance with the provisions of the City Charter of the City of Georgetown.

PASSED AND APPROVED on the _____ day of _____, 2026.

DEFINITIONS

1. "Agreement" means the Meet and Confer Agreement entered between the Georgetown Association of Professional Fire Fighters and the City of Georgetown.

2. "Association" means the Georgetown Association of Professional Fire Fighters, Local 3991, its elected leaders and its collective membership.

3. "City" means the City of Georgetown, its mayor, city council members, city manager, fire chief and those persons designated by the City of Georgetown to manage the city and its fire department.

4. "Commission" means the City of Georgetown Firefighters' and Police Officers' Civil Service Commission.

5. The term "Department" means the Georgetown Fire Department.

6. The term "Department Head" means the Chief of the Georgetown Fire Department, designee, or an acting Chief of the Georgetown Fire Department.

7. The term "Firefighter" or "Paramedic" means a member of the Georgetown Fire Department serving in substantial compliance with Chapter 143 of the Texas Local Government Code who is entitled to civil service status under section 143.005 of the Texas Local Government Code.

8. "Parties" means the City of Georgetown and the Georgetown Association of Professional Fire Fighters, Local 3991.

9. "Good standing" is defined as an employee who has not served a suspension or an involuntary demotion within the last six months. The employee regains good standing six months following completion of the suspension or date of demotion.

10. "Shall" (Must) Indicates an action that is required by either the Department or the Member.

11. "Should" (Recommended) Indicates an action that is preferred by either the Department or the Member and is usually recommended for professional/organizational development or maintenance of good order and discipline.

12. "May" (Optional) Indicates an action that is at the discretion of the Department or Member for individual benefit.

ARTICLE 1
RECOGNITION

The CITY OF GEORGETOWN recognizes the GEORGETOWN ASSOCIATION OF PROFESSIONAL FIRE FIGHTERS, IAFF LOCAL NO. 3991, as the sole and exclusive bargaining agent for the covered Firefighters and Paramedics described in the petition for recognition, excluding the head of the Fire Department and Assistant Fire Chiefs.

ARTICLE 2
HIRING PROCESS

Section 1. Hiring Process

1. The Parties agree that the Department Head possesses the sole discretion and authority to establish, implement, and modify entry-level selection and testing procedures. The Department Head is authorized to fully or partially supplant, modify, delete, or replace the requirements of Texas Local Government Code 143.024, 143.025, and 143.026 including but not limited to notice posting timelines, physical testing location constraints, candidate-paid testing fees and single-date/time examination requirements.
2. The Department Head or Civil Service Director may authorize entry-level written examinations to be administered virtually, online, or through a designated third-party testing service. Testing may occur on a continuous, rolling, or multi-site basis. Candidates completing an authorized online or off-site proctored examination meeting the Department's established passing standard shall be placed on the entry-level eligibility list in accordance with Department policy and Local Civil Service Commission Rules.
3. Requirements for notice posting at specific physical locations for fixed durations prior to an examination is hereby waived and replaced with continuous digital recruitment and online application posting as determined by the Department Head and Civil Service Director.
4. In order to maintain situational awareness of the qualify and number of candidates in the hiring process, the Department Head agrees to include at least one (1) member of the Association's executive board or designee on the hiring interview panel.

Section 2. Eligibility for Beginning Position

A person may not be certified as eligible for a beginning position in the Department if the person is forty-five (45) years of age or older at time of hire.

Section 3. Probationary Period

A. The 12-month probationary period shall begin from the date of hire.

B. All Firefighter and/or Paramedic candidates that begin employment with the City of Georgetown after August 1, 2020, shall obtain and maintain DSHS EMT-P certification at a time that is operationally convenient for the City within 36 months of hire. The candidate is expected to attend and complete the Paramedic Program in one attempt. Failure to complete the Paramedic Program and obtain DSHS EMT-P certification within 180-days of the Paramedic Program conclusion shall be grounds for termination for failing to meet the minimum requirements of the Firefighter or Paramedic rank position. The Fire Chief may allow for additional completion time under extenuating circumstances.

C. Firefighters or Paramedics shall not be considered non-compliant with this mandate if the City is unable to enroll them in a program to meet these timelines.

D. Termination for failure to obtain and maintain DSHS EMT-P is a non-disciplinary termination and there is no right to appeal to the Civil Service Commission, Hearing Examiner or a court of appropriate jurisdiction. The Fire Chief's decision is final.

Section 4. Effect of Contract Expiration

The provisions of this Article shall remain in full force and effect after expiration of this Agreement as to any hiring process which has been commenced, in substantial reliance upon the provisions of this Article, as determined by the Chief. Any pool of eligible candidates created under the terms of this Article will remain in effect for six (6) months from the date of creation, notwithstanding the expiration of this Agreement, unless exhausted prior to the expiration of six (6) months or unless the duration of the list is set for twelve (12) months. All employees hired are governed by Section 3 of this Article.

Section 5. Statutory Override

This Article modifies sections 143.021, 143.023(b), 143.025, 143.026 143.041, 143.051, 143.052, 143.053, and 143.057 of the Texas Local Government Code. This Article further preempts, to the extent of any conflict, all other contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department Head or head of the City or by a division or agent of the City, such as the commission.

ARTICLE 3
LATERAL ENTRY HIRES

Section 1. Purpose

This program will help recruit qualified applicants for the position of Firefighter/Paramedic and/or Paramedics.

Section 2. Definitions

1) Qualifying Agency:
   a) Fire and/or EMS agency providing 911 service response to a population of 50,000 or greater, as determined by the most recent census or other official population estimates during the time the candidate was employed with the qualifying agency;
   b) The Department Head may consider commuter or tourist population estimates provided by the candidate, from an official source, in lieu of official population estimates.

2) Experience as a Firefighter/Paramedic and/or Paramedic:
   a) Service must have been with an agency that operates within a 911 system and the candidate actively assigned in an operational role to provide paramedic-level care.
   b) The Department Head will make final determinations regarding the candidates qualifying experience.

Section 3. Eligibility Requirements Applicants must:

1) Have a minimum of two (2) years paid, full-time experience as a Paramedic at a qualifying agency. The first year, with the qualifying agency, is considered probationary and shall not be included in the calculation of experience.
2) In-state applicants must be certified by the Texas Department of State Health Services (DSHS) at time of entry examination date and out-of-state applicants must challenge and pass the DSHS Paramedic exam to obtain Texas State certification, before a conditional job offer is made by the Department Head
3) Must not have a break in service of more than one (1) year from the time the candidate left a qualifying agency to the entry examination date;
4) Service time, for determining the starting salary, can include multiple agencies, if breaks in service are less than thirty days and all previous agencies meet the required criteria; The first year at each qualifying agency is considered probationary and not included in the calculation of experience.
5) Service time credit begins after the first year that the candidate actively operates as a Paramedic within the qualifying agency and as recognized Texas DSHS or out of state licensing agency; and
6) Must successfully complete all civil service and/or internal hiring requirements.

Section 4. Guidelines

1) The Lateral Entry Program is for pay purposes only. Lateral entry requirements are separate from promotional eligibility requirements. Seniority credit shall begin on the date of hire and not include any prior service credit.
2) The determination regarding whether an applicant qualifies for lateral entry will be made during the Chief's interview portion of the selection process and communicated to the applicant at time of conditional job offer.
3) Applicants hired under this program will be placed upon entry at the step in the department's step schedule based on whole years of eligible experience as follows:
   a) Candidates hired in FY2027 may be placed up to and including step two (2)
   b) Candidates hired in FY2028 may be placed up to and including step two (2)
   c) Candidates hired in FY2029, and beyond, may be placed up to and including step three (3)
4) The member will then progress through the steps as he/she completes his/her years of service.
5) Longevity -Pay will be calculated in the same manner as all other Firefighters and/or Paramedics. No credit will be given for completed years of service in other agencies.
6) Members hired under this program must also complete a one (1) year probationary period in accordance with Chapter 143 of the Texas Local Government Code.
7) The Department Head shall make the final determination of whether an applicant meets the eligibility requirements of the Lateral Entry Program. The Department Head' s final determination of whether an applicant meets the eligibility requirements of the Lateral Entry Program shall be final and non-appealable to the Civil Service Commission or to any court.

Section 5. Statutory Override

This Article modifies section 143. 041 of the Texas Local Government Code. This Article further preempts, to the extent of any conflict, all other contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department Head or Head of the City or by a division or agent of the City, such as the commission.

ARTICLE 4
RANK STRUCTURE

Section 1. Intent

In adopting this article, the parties agree to implement the following rank structure.

Section 2. Rank Structure

At the convenience of the City, the following rank structure shall be authorized for partial or full implementation and be filled in accordance with the approved hiring, promotional (per articles 5 and 6), appointment (per article 7), or assignment process.

A. <u>Operations & Support Division</u>
Firefighter (Beginning Positions)
Paramedic (Beginning Position)
Paramedic Field Training Officer (FTO) (Formerly Paramedic II) (Promoted)
Engineer (Promoted)
EMS Captain (Promoted)
Fire Captain (Promoted)
Battalion Chief (Promoted)
Assistant Chief (Appointed)

B. <u>Fire & Life Safety Division</u>
Fire & Life Safety Specialist (Promoted)
Deputy Fire Marshal (Promoted)
Fire Marshal (Appointed)

Section 3. Statutory Override

This Article modifies section 143.021 of the Texas Local Government Code. This Article further preempts, to the extent of any conflict, all contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department Head or head of the City or by a division or agent of the City, such as the commission.

ARTICLE 5
OPERATIONS AND SUPPORT DIVISION PROMOTIONS

Section 1. Intent

In adopting this Article, the Parties agree to implement a promotional system using an Assessment Center component in addition to the written examination. The Parties believe including an Assessment Center component to the selection process will improve the selection process and will provide promotional candidates a fair opportunity to display skills and abilities that serve as additional good indicators that they will perform well in the position of Paramedic FTO, Engineer, Fire Captain, EMS Captain, or Battalion Chief. Additionally, the Parties agree that both academic and professional education are important element in advancing the professionalism and capabilities of the department and its members. This article aspires to meet the NFPA 1020 recommendations as set forth within the 2025 Edition of the NFPA.

Section 2. Time in Rank and Minimum Promotional Qualifications

1. Completion of Task Books will be required for all promotional exams conducted after October 1, 2020.

2. Paramedic certification and paramedic credentialing within 180 days of completion of paramedic school, shall be considered a minimum requirement for all promoted positions for candidates hired after October 1, 2022.

3. For the purposes of this article "Credentialed" is defined as in receipt of Paramedic Credential Pay as seen in Workday.

4. "In Good Standing" status is a prerequisite qualification to be eligible for promotional testing within the Georgetown Fire Department.

5. Completion of the following minimum qualifications (or equivalent consolidated task books) apply for each rank to be eligible participate in the promotional examination process. The deadline for meeting the minimum requirements will be the day prior to the written exam date:

(a) Paramedic FTO:
    1. Two (2) years at the Firefighter and/or Paramedic rank
    2. Two (2) years as a Georgetown credentialed Paramedic
    3. Acting Paramedic FTO Task Book

(b) Engineer:
    1. Two (2) years at Firefighter rank
    2. Two (2) years TCFP Structural Firefighter certification
    3. Acting Engineer Task Book

(c) Fire Captain:
    1. Two (2) years at Engineer and/or Paramedic FTO rank

2. Four (4) years serving in a Firefighter classification under Georgetown Fire Department
3. Four (4) years at TCFP certificate Firefighters
4. Meet promotional educational requirements (Section 4)
5. Acting Engineer Task Book
6. Acting Captain Task Book

(d) EMS Captain:

1. Two (2) years at Engineer and/or Paramedic FTO rank
2. Four (4) years as a Georgetown credentialed Paramedic
3. Meet promotional educational requirements (Section 4)
4. Acting Paramedic FTO Task Book
5. Acting Captain Task Book

(e) Battalion Chief:

1. Two (2) years as a Fire Captain and/or EMS Captain
2. Meet promotional educational requirements (Section)
3. Acting Battalion Chief Task Books
   *Single role Paramedics are not eligible to test for Battalion Chief

Section 3. Task Book Timelines
Task Books started prior to October 1, 2026, and completed in accordance with specified timelines and requirements will be sufficient for meeting the promotional Task Book eligibility requirement.

All in-class and acting Task Books shall be completed within 12-months from initiation.

Once developed, all consolidated Task Books shall be completed within 18-months from assignment.

Task Books may be re-initiated or extended at the discretion of the Fire Chief based on mitigating circumstances.

Probationary Firefighter Task Book shall be completed within 12-months from date of hire

EMT or Paramedic Credentialing Task Books shall be completed within 180 days of issue

Higher class Task Books require a minimum of one (1) year in current position and completion of in-class Task Books prior to issuance.

A member that is already in the ranked position on October 1, 2026, but was not issued a Task Book, shall be required to complete the professional requirements at the operation convenience of the Department.

1. Task Books listed

   a. Probationary Firefighter Task Book
   b. EMT/Paramedic Credentialing
   c. Acting Engineer
   d. Engineer II

e. Acting Paramedic FTO
f. Paramedic FTO II
g. Acting Captain
h. Captain II
i. Acting Battalion Chief
j. Battalion Chief II

2. The following task books are listed for each position. Completion of both In-class and Higher-Class Task Books (or consolidated equivalents) is mandatory. Optional Task Books may be initiated at the members discretion upon completion of all required in-class and higher-class Task Books assigned to their current position

a. Firefighter:
In-Class: EMT/Paramedic Credentialing; Probationary Firefighter
Higher Class: Acting Engineer
Optional: Acting Paramedic FTO

b. Paramedic:
In Class: EMT/Paramedic Credentialing
Higher Class: Acting Paramedic FTO

c. Engineer:
In-Class: Engineer II
Higher Class: Acting Captain
Optional: Paramedic FTO II

d. Paramedic FTO:
In Class: Paramedic FTO II
Higher Class: Acting Captain
Optional: Engineer II

e. Fire Captain:
In Class: Fire/EMS Officer II
Higher Class: Acting Battalion Chief *
Optional: Paramedic FTO II

f. EMS Captain:
In Class: Fire/EMS Officer II
Higher Class: Acting Battalion Chief *
Optional: Engineer II

g. Battalion Chief:
In Class: Fire/EMS Officer IV

* Firefighter certified Fire and EMS Captains shall be required to complete the Acting Battalion Chief Task Book, but will not be mandated to fill Higher Class Battalion Chief positions unless desired by the individual.

3. Task Book Types
    a. Higher Class (HC) Task Books: Higher Class Task books shall be issued upon one year in rank.

    b. In Class Task Books: EMT/Paramedic credentialing and Firefighter Task Books shall be issued prior to completion of their respective academies. In Class Task Books for all promoted positions shall be issued automatically and within 30 days of promotion.

    c. Consolidated Task Books: It is the intent of the department to consolidate in-class and acting Task Books. Members who previously completed acting and in-class task books will be considered to have completed consolidated Task books

    d. Individuals shall notify admin if these books are not received within 30 days after meeting time in rank requirements or promotion.
4. Members shall not be denied requested optional task books, however shift commanders have discretion to determine timing to complete the task book within the 1-year period based on operational requirements.
5. For the purposes of minimum promotional qualifications, Task Books that are issued or completed will be exempt from any Task Book requirements changes as long as the Task Book is/was successfully completed within 12 months of issue.
6. A member shall be required to complete additional professional development requirements for the position at the discretion of the Operations Chief.

Section 4. Promotional Educational Requirements

1. The Parties agree that the following minimum credit/degree requirements apply for each rank in order to participate in the promotional examination process:

	Captain	**Battalion Chief**
FY27	45 credits	60 credits or Associates
FY28	45 credits	60 credits or Associates
FY29	60 credits or Associates	Associates
FY30	60 Credits or Associates	Associates

2. Credits towards promotional eligibility can be earned in two ways, academically or professionally. College credits will be applied on a 1:1 basis for credit hours earned at an accredited academic institution. Professional education credits (up to 15) will be awarded

in 3-point increments for each TCFP certifications earned above those required for promotional pre-requisites. Professional education credits can be earned for multiple courses within a series (e.g. ARFF basic and ARFF Intermediate would count as 3 credits each). The following are certifications eligible for substituted credit:

Captain:

Instructor: Level 2; Level 3; Level 3-Master

Fire Officer: 2; 3; 4

Hazardous Materials: Technician; Incident Commander

Rope Rescue: Awareness/Operations; Technician

Driver Operator: Aerial

Aircraft Rescue Fire Suppression (ARFF): Basic; Intermediate; Advanced; Master

Fire Investigator: Basic; Intermediate; Advanced; Master

Incident Safety Officer

Wildland Fire Protection: Basic; Intermediate

Plans Examiner

Fire & Life Safety Educator: 1; 2

Incident Commander

Fire Marshal: Basic; Intermediate; Advanced; Master

Inspector: Basic; Intermediate; Advanced; Master

Arson Investigator: Basic; Intermediate; Advanced; Master

Battalion Chief

Instructor: Level 3; Level 3-Master

Fire Officer: 4

Hazardous Materials: Technician; Incident Commander

Rope Rescue: Awareness/Operations; Technician

Driver Operator: Aerial

Aircraft Rescue Fire Suppression (ARFF): Basic; Intermediate; Advanced; Master

Fire Investigator: Basic; Intermediate; Advanced; Master

Incident Safety Officer

Wildland Fire Protection: Basic; Intermediate

Plans Examiner

Fire & Life Safety Educator: 1; 2

Incident Commander

Fire Marshal: Basic; Intermediate; Advanced; Master

Inspector: Basic; Intermediate; Advanced; Master

Arson Investigator: Basic; Intermediate; Advanced; Master

3. Promotional candidates are responsible for demonstrating completion of promotional educational requirements (defined as degree or credit hours have been awarded on an official transcript) at the time the employee completes the "Notice of Intent to Test" to the Civil Service Director as specified in Local Civil Service Rule 032. If there are not at least three candidates who meet the promotional educational requirement, the Department Head will determine the promotional eligibility requirements for the promotional examination.

Section 5. Promotional Examination Procedure

The promotional examination procedure for the positions of Paramedic FTO, Engineer, Fire Captain, EMS Captain, or Battalion Chief will consist of two parts:

1. a written examination, as defined in this Article, consisting of one-hundred (100) multiple choice questions; and, upon passing the written examination part of the promotional examination procedure

2. participation in all components of an Assessment Center.

3. The minimum passing score on the written examination is seventy percent (70%).

4. The minimum combined passing score of the Written and Assessment Center is seventy percent (70%).

5. The Commission shall adopt rules governing the promotional examination procedure and promotional eligibility lists in accordance with this Article for the promotional positions of Paramedic FTO, Engineer, Fire Captain, EMS Captain and Battalion Chief. Further, the Commission may adopt rules to provide for the efficient administration of a promotional examination for eligible promotional candidates who are members of the armed forces serving on active military duty which may include using only the written examination score for each such candidate for one hundred percent (100%) of all such promotional candidates' final scores. If a written examination is offered to an active-duty military candidate, and that candidate receives a minimum passing score, the remaining candidates shall only be required to take the written examination portion of that promotional process and Section 7

shall not apply to the examination. If the active-duty military candidate does not receive a minimum passing score, Section 7 (Assessment Center) shall still apply.

6. The third-party assessors selected to provide the Assessment Center shall meet the following criteria:

   a. Assessors shall be active-duty Firefighter(s) of similar rank to the promotion, or above, from agencies with a service population of 50,000 or greater;

   b. Assessors shall not reside in the City; and

   c. Shall not be a current or former employee of the City.

7. An emergency exception to the Assessment Center criteria shall be allowed on a case-by-case situation when mutually approved by the Civil Service Director and Association president.

8. A City employee holding the rank or higher than the promotional position will be present during the Assessment Center to act as a policy related subject matter expert (SME). This individual's interaction will be with the third-party provider of the Assessment Center, and interaction with the assessor panel will be kept to a minimum to preserve the integrity of the assessment. If there is disagreement on the designated SME, the SME shall be mutually agreed upon by the Department Head and the Association president prior to the initiation of the Assessment Center.

Section 6. Written Examination

The term "written examination" in this Article means the written examination provided for under Chapter 143 of the Texas Local Government Code and does not mean any written part of the Assessment Center. Upon passing the written examination part of the promotional examination procedure, the promotional candidate shall proceed to the Assessment Center. Fifty percent (50%) of a promotional candidate's preliminary score will be based on the written examination grade.

Section 7. Assessment Center

(a) Fifty percent (50%) of a promotional candidate's preliminary score will be based on the Assessment Center score.

(b) The approved contractor will develop an assessment instrument commensurate for the classification sought and shall consist of no less than four (4) performance exercises that test and allow for the objective evaluation of the candidates' possession of the following attributes including but not limited to:

- Leadership
- Decisiveness
- Self-Initiative

- Adaptability
- Interpersonal Skills
- Written Communication Skills
- Problem Analysis
- Problem Solving
- Critical Thinking
- Judgment
- Planning and Organizing
- Risk Management
- Technical Proficiency
- Tactical Proficiency

If any single portion of the performance exercises is compromised, that section may be withdrawn. Under these circumstances, a minimum of 3 portions must be evaluated. In the event multiple performance exercises are compromised, the assessment center portion of the exam may be discarded entirely. Both of these events require final adjudication of the Civil Service Commission

(c) The performance exercises shall be appropriate for the classification being tested for and may include but not limited to:

- Oral Presentations
- Leaderless Group Exercises
- Prioritization Exercises
- Structured Interviews
- Written Exercises (Analysis, Proposal, etc.)
- Role Play Exercises
- Tactical Exercise

(d) Neither the Department Head nor the Civil Service Director will be directly involved in the design of the assessment instrument other than the prerequisite interaction and dialogue with the contractor necessary to facilitate an effective and efficient assessment and in order to meet the contractor's informational needs for design.

(e) The contractor will make available an orientation to all candidates not more than 30 days nor less than 72 hours prior to the first day of the assessment. The orientation shall be designed to ease anxiety about what to expect from the assessment without revealing the totality of the instrument itself. In the event an assessment contractor utilizes an on-site orientation methodology, the orientation will occur no less than 24 hours prior to the assessment.

(f) Should any of the listed components be either unavailable or not recommended by the selected Assessment Center provider, a suitable alternate will be approved by

the Department Head and Civil Service Director and communicated, in writing, to participants prior to the Assessment Center.

Section 8. Procedure for Making Promotional Appointments

(a) The preliminary score for each candidate who has passed the written examination and proceeded through the Assessment Center shall be computed by taking the candidate's written examination grade and multiply the grade by 0.5 to account for fifty percent (50%) of the candidate's preliminary score; One seniority point shall then be awarded for each full year of a candidate's time within the Department; there shall be a maximum of ten (10) seniority points added to the candidate's preliminary score. Seniority points for a testing process will be calculated based on whole years of service completed as of the day prior to the written exam. Finally, the candidate's Assessment Center score will be multiplied by 0.5 to account for the remaining fifty percent (50%) of the preliminary score (see below).

Passing Grade on Written Examination x 0.5 for all promotional processes + applicable seniority points for time within the Department

+
Assessment Center score x 0.5 for all promotional processes
=
Overall Score

(b) After the calculation of all the overall scores, an eligibility list will be created and maintained pursuant to Section 9 below. The Department Head shall conduct an interview or interviews of promotional candidate(s) to fill promotional vacancies. The Department Head possesses the discretion regarding the number of candidates to interview based upon the number of vacancies at that time. The Department Head shall appoint the eligible promotional candidate having the highest overall score on the eligibility list unless the Department Head has a valid reason for not appointing the person as provided for under Section 143.036(f) and (g) of the Texas Local Government Code. If the Department Head has a valid reason for not appointing the eligible promotional candidate having the highest overall score, the Department Head shall personally discuss the reason with the person being bypassed before appointing another person. The Department Head shall also file the reason in writing with the commission and shall provide the person with a copy of the written notice.

Section 9. Effect of an Eligibility List Created Under this Article

A promotional eligibility list in existence at the time of the adoption of this Article shall continue in effect until its expiration in accordance with section 143.036(h) of the Texas Local Government Code. Any promotional eligibility list created under this Article will take effect upon the expiration of any existing applicable list and will remain in existence for 18 months. The 18-month window

will begin on the date of final certification of the eligibility list by the Civil Service Commission. In the event a list is exhausted prior to 18 months, or upon expiration of the eligibility list a new examination process should be held to minimize delays in maintaining an established promotional list.

Section 10. Appeal

(a) Written Examination

A promotional candidate may appeal the multiple-choice written examination under section 143.034 of the Texas Local Government Code. The invalidation of any question or any component of the written examination shall not invalidate the remainder of the written examination. Both parties agree to accept singular, multiple, or all answers to test questions, but reject the option to eliminate questions.

(b) Assessment Center

(1) A promotional candidate may not appeal or dispute the Assessment Center or scoring of the Assessment Center to an administrative or judicial body except as provided below.

(2) Engineer promotional candidate who attended the pre-assessment center training and overview offered to all candidates may appeal any of the required Assessment Center components stipulated in Section 7(b) of this article. The candidate must notify the SME of the appeal immediately after completion of the component and prior to the assessors grading and documenting the score. An appeal form will be provided to the candidate seeking an appeal, All appeals shall be submitted in writing to the SME, who will then discuss the appeal with the assessors and the representative from the Assessment Center provider. Once this discussion is finished, the SME will then make a ruling. Once the ruling is made the candidates score will be tallied and any adjustments needing to be made will be corrected on the score sheet and then the grade will be finalized.

(c) Passover

The appeal provisions of Texas Local Government Code 143.036 (f) and (g) apply to a person having the highest overall score if they are not appointed by the Department Head.

Section 11. Illness Provision

Promotional Exam Procedure for Personnel with Critical Illness/Injury

Promotional Exam procedures for candidates with critical illness/injury under limited circumstances will be accommodated in the form of an offsite written examination, within 72 hours of the posted examination date, for a candidate that meets all of the following criteria.

a) The candidate shall submit a letter to the Civil Service Director accompanied by a doctor's note no later than 21 days before the scheduled written examination. The letter and doctor's note need address the nature of the critical illness/injury as well as the accommodations requested. A letter submitted with less than a 21-days' notice must indicate good reason (such as new diagnosis) in order to be given consideration described in (c) and may be accommodated only when all elements of (c) can be satisfied within the shorter timeframe.

b) The critical illness/injury must be for the treatment of a significant health condition such as cancer, kidney disease, heart attack, major surgery, organ transplant, benign brain tumor, severe burns, or a similar condition. It may also include quarantine/isolation for an infectious disease.

c) The Civil Service Director will determine if the request meets the limited illness/injury criteria and what accommodations are workable. The Civil Service Director will then review the planned accommodations (or lack thereof) with the Department Head and Association President. If the Civil Service Director and Association President agree upon the accommodations, those will then be communicated back to the candidate by the Civil Service Director.

d) The accommodation will not impact the candidate's rights to appeal. They will retain the same appeal rights, under the same requirement to appeal within five business days of posted examination date as other testing candidates.

e) In the event that the employee or employees receiving accommodation per the illness provision impacts the number of employees who are present for the written examination to fall below the two required, the City will administer the examination to the one individual.

Section 12. Statutory Override

This Article modifies sections 143.030, 143.032, 143.033, 143.034, and 143.036 of the Texas Local Government Code. This Article further preempts, to the extent of any conflict, all contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department Head or head of the City or by a division or agent of the City, such as the commission.

ARTICLE 6
FIRE & LIFE SAFETY DIVISION - PROMOTIONS

Section 1. Intent

In adopting this Article, the Parties agree to implement a promotional system using an Assessment Center component in addition to the written examination. The Parties believe an Assessment Center component to the selection process will improve the selection process and provides promotional candidates a fair opportunity to display skills and abilities that serve as additional good indicators that they will perform well in the position of Fire & Life Safety Specialist and Deputy Fire Marshal.

Section 2. Implementation

(a) The City reserves the right to expand the candidate pool if there is an insufficient number of qualified candidates to participate and fill the authorized positions.

(b) FLS Promotions shall be open to all members of the Department that meet the criteria contained within this article.

(c) Completion of Task Books will be required for all promotional exams conducted after October 1, 2020.

Section 3. Time in Rank and Minimum Promotional Qualifications

Paramedic certification and paramedic credentialing shall be considered a minimum requirement for all promoted positions for candidates hired after October 1, 2022 at the discretion of the Department Head.

"In Good Standing" status is a prerequisite qualification to be eligible for promotional testing within the Georgetown Fire Department.

Completion of the following minimum qualifications (or equivalent consolidated task books) apply for each rank to be eligible to participate in the promotional examination process. The deadline for meeting the minimum requirements will be the day prior to the written exam date:

(a) Fire & Life Safety Specialist

a. Two (2) years at Firefighter rank;
b. Probationary Firefighter Task Book:
c. Engineer I Task Book;
d. TCFP Fire Inspector Certification:
e. TCFP Fire Investigator Certification.

(b) Deputy Fire Marshal:

1. Two (2) years at Fire & Life Safety Specialist;
2. Fire & Life Safety Specialist Task Book;
3. TCFP Basic Fire Marshal;
4. Meet promotional educational requirements as required for promotion to the Captain rank.

Section 4. Promotional Examination Procedure

(a) The promotional examination procedure for the positions of Fire Prevention Specialist and Deputy Fire Marshal will consist of two parts:

1. a written examination, as defined in this Article, consisting of a minimum of fifty (50) multiple choice questions; and, upon passing the written examination part of the promotional examination procedure.

2. Participation in a contractor proctored Assessment Center.

The minimum passing score on the written examination is seventy percent (70%)

The minimum combined passing score of the Written and Assessment Center is Seventy percent (70%).

(b) The Commission shall adopt rules governing the promotional examination procedure and promotional eligibility lists in accordance with this Article for the promotional positions of Fire Prevention Specialist and Deputy Fire Marshal. Further, the Commission may adopt rules to provide for the efficient administration of a promotional examination for eligible promotional candidates who are members of the armed forces serving on active military duty which may include using only the written examination score for each such candidate for one hundred percent (100%) of all such promotional candidates' final scores. If a written examination is offered to an active-duty military candidate, and that candidate receives a minimum passing score, the remaining candidates shall only be required to take the written examination portion of that promotional process and Section 6 shall not apply to the examination. If the active-duty military candidate does not receive a minimum passing score, Section 6 (Assessment Center) shall still apply.

(c) The City of Georgetown shall identify assessors that meet the following criteria for the Assessment Center:

1. Assessors shall be active members similar rank to the promotion, or above, from agencies with a service population of 50,000 or greater;

2. Assessors shall not reside in the City; and

3. Shall not be a current or former employee of the City.

(d) An emergency exception to the Assessment Center criteria shall be allowed on a case-by-case situation when mutually approved by the Civil Service Director and Association president.

(e) A City employee holding the rank or higher than the promotional position will be present during the Assessment Center to act as a policy related subject matter expert (SME). This individual's interaction will be with the third-party provider of the Assessment Center, and interaction with the assessor panel will be kept to a minimum to preserve the integrity of the assessment. The SME will be mutually agreed upon by the Department Head and the Association president. If there is disagreement on the designated SME, the SME shall be mutually agreed upon by the Department Head and the Association president prior to the initiation of the Assessment Center.

Section 5. Written Examination

The term "written examination" in this Article means the written examination provided for under Chapter 143 of the Texas Local Government Code and does not mean any written part of the Assessment Center. Upon passing the written examination part of the promotional examination procedure, the promotional candidate shall proceed to the Assessment Center. Fifty percent (50%) of a promotional candidate's preliminary score will be based on the written examination grade.

Section 6. Assessment Center

(a) Fifty percent (50%) of a promotional candidate's preliminary score will be based on an Assessment Center score.

(b) The Assessment instrument commensurate for the classification sought and shall consist of no less than four (4) performance exercises that test and allow for the objective evaluation of the candidates' possession of the following attributes including but not limited to:

- Leadership
- Decisiveness
- Self-Initiative
- Adaptability
- Interpersonal Skills
- Written Communication Skills
- Problem Analysis
- Problem Solving
- Critical Thinking
- Judgment
- Planning and Organizing
- Risk Management

- Technical Proficiency
- Tactical Proficiency

(c) The performance exercises shall be appropriate for the classification being tested for and may include but not limited to:

- Oral Presentations
- Leaderless Group Exercises
- Prioritization Exercises
- Structured Interviews
- Written Exercises (Analysis, Proposal, etc.)
- Role Play Exercises
- Tactical Exercise

(d) If any single portion of the performance exercises is compromised, that section may be withdrawn. Under these circumstances, a minimum of 3 portions must be evaluated. In the event multiple performance exercises are compromised, the assessment center portion of the exam may be discarded entirely. Both of these events require final adjudication of the Civil Service Commission.

(e) Neither the Department Head nor the Civil Service Director will be directly involved in the design or the assessment instrument other than the prerequisite interaction and dialogue with the contractor necessary to facilitate an effective and efficient assessment and in order to meet the contractor's informational needs for design.

(f) An orientation to all candidates not more than 30 days nor less than 72 hours prior to the first day of the assessment. The orientation shall be designed to ease anxiety about what to expect from the assessment without revealing the totality of the instrument itself. In the event an assessment contractor utilizes an on-site orientation methodology, the orientation will occur no less than 24 hours prior to the assessment.

(g) Should any of the listed components be either unavailable or not recommended by the selected Assessment Center provider, a suitable alternate will be approved by the Department Head and Civil Service Director and communicated, in writing, to participants prior to the Assessment Center.

Section 7. Procedure for Making Promotional Appointments

(c) The preliminary score for each candidate who has passed the written examination and proceeded through the Assessment Center shall be computed by taking the candidate's written examination grade and multiply the grade by 0.5 to account for fifty percent (50%) of the candidate's preliminary score; One seniority point shall then be awarded for each full year of a candidate's time within the Department; there shall be a maximum of ten (10)

seniority points added to the candidate's preliminary score. Seniority points for a testing process will be calculated based on whole years of service completed as of the day prior to the written exam. Finally, the candidate's Assessment Center score will be multiplied by 0.5 to account for the remaining fifty percent (50%) of the preliminary score (see below).

Passing Grade on Written Examination x 0.5 for all promotional processes + applicable seniority points for time within the Department

+
Assessment Center score x 0.5 for all promotional processes
=
Overall Score

The Department Head shall conduct an interview or interviews of promotional candidate(s) to fill promotional vacancies. The Department Head possesses the discretion regarding the number of candidates to interview based upon the number of vacancies at that time. The Department Head shall appoint the eligible promotional candidate having the highest overall score on the eligibility list unless the Department Head has a valid reason for not appointing the person as provided for under Section 143.036(f) and (g) of the Texas Local Government Code. If the Department Head has a valid reason for not appointing the eligible promotional candidate having the highest overall score, the Department Head shall personally discuss the reason with the person being bypassed before appointing another person. The Department Head shall also file the reason in writing with the Commission and shall provide the person with a copy of the written notice.

Section 8. Effect of an Eligibility List Created Under this Article

A promotional eligibility list in existence at the time of the adoption of this Article shall continue in effect until its expiration in accordance with section 143.036(h) of the Texas Local Government Code. Any promotional eligibility list created under this Article will take effect upon the expiration of any existing applicable list and will remain in existence for18 months. The 18-month window will begin on the date of final certification of the eligibility list by the Civil Service Commission.. In the event a list is exhausted prior to 18 months, or upon expiration of the eligibility list a new examination process should be held when a vacancy is anticipated and/or occurs to minimize delays in maintaining an established promotional list.

Section 9. Appeal

(a) Written Examination

A promotional candidate may appeal the multiple-choice written examination under section 143.034 of the Texas Local Government Code. The invalidation of any question or any component of the written examination shall not invalidate the remainder of the written examination. Both parties agree to accept singular, multiple, or all answers to test questions, but reject the option to eliminate questions.

(b) Assessment Center

A promotional candidate may not appeal or dispute the Assessment Center or scoring of the Assessment Center to an administrative or judicial body.

(c) Passover

The appeal provisions of Texas Local Government Code 143.036 (f) and (g) apply to a person having the highest overall score if they are not appointed by the Department Head.

Section 10. Illness Provision

Promotional Exam Procedure for Personnel with Critical Illness/Injury

Promotional Exam procedures for candidates with critical illness/injury under limited circumstances will be accommodated in the form of an offsite written examination, within 72 hours of the posted examination date, for a candidate that meets all of the following criteria.

a) The candidate shall submit a letter to the Civil Service Director accompanied by a doctor's note no later than 21 days before the scheduled written examination. The letter and doctor's note need address the nature of the critical illness/injury as well as the accommodations requested. A letter submitted with less than a 21-day notice must indicate good reason (such as new diagnosis) in order to be given consideration described in (c) and may be accommodated only when all elements of (c) can be satisfied within the shorter timeframe.

b) The critical illness/injury must be for the treatment of a significant health condition such as cancer, kidney disease, heart attack, major surgery, organ transplant, benign brain tumor, severe burns, or a similar condition. It may also include quarantine/isolation for an infectious disease.

c) The Civil Service Director will determine if the request meets the limited illness/injury criteria and what accommodations are workable. The Civil Service Director will then review the planned accommodations (or lack thereof) with the Department Head and Association President. If the Civil Service Director and Association President agree upon the accommodations, those will then be communicated back to the candidate by the Civil Service Director.

d) The accommodation will not impact the candidate's rights to appeal. They will retain the same appeal rights, under the same requirement to appeal within five business days of posted examination date as other testing candidates.

e) In the event that the employee or employees receiving accommodation per the illness provision impacts the number of employees who are present for the written examination

to fall below the two required, the City will administer the examination to the one individual.

Section 11. Statutory Override

This Article modifies sections 143.030, 143.032, 143.033, 143.034, and 143.036 of the Texas Local Government Code. This Article further preempts, to the extent of any conflict, all contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department Head or head of the City or by a division or agent of the City, such as the commission.

ARTICLE 7
APPOINTED POSITIONS

Section 1. Intent

This article is intended to establish the manner by which appointed ranks, referenced in article 4, are filled.

Section 2. Assistant Chief

Upon vacancy, up to three (3) Assistant Chief positions may be filled by an internal or external candidate by appointment by the Department Head pursuant to the process provided for in Section 143.014(e) of the Texas Local Government Code or proceed to an external appointment.

The following criteria applies to appointments for Assistant Chief:

(a) In the event that there are fewer than three (3) qualified internal candidates, the Department Head shall have the right to include Chief Officer candidates from outside of the Department. The selection criteria used for this external/internal hire/appointment must include the equivalent requirements for a qualified internal candidate and include an assessment process that is equivalent to or more comprehensive than the assessment process used for the promotion of a member to the Battalion Chief rank.

(b) For the purposes of this Agreement "qualified internal candidate" shall be defined as the member being in good standing; actively functioning in the rank of Captain or higher for a minimum of four (4) years; demonstrated competencies to function in the Battalion Chief rank as determined by the Chief; obtained at least a Bachelor's Degree from an accredited educational institution; and must be willing to accept the appointment and operate in either the Operational or Administrative Support division.

(c) An Assistant Fire Chief appointed from outside of the Department is not considered a civil service employee and is not entitled to the protections within Texas Local Government Code Chapter 143.

Section 3. Fire Marshal

Upon vacancy, up to one (1) Fire Marshal position may be filled by an internal or external candidate by appointment by the Department Head pursuant to the criteria contained herein:

(a) In the event that there are no qualified internal candidates, the Department Head shall have the right to appoint a Fire Marshal from outside of the Department. The selection criteria used for this external hire/appointment must include the

equivalent requirements for a qualified internal candidate and include an assessment process that is equivalent to or more comprehensive than the assessment process used for the promotion of a member to the Battalion Chief rank.

(b) For the purposes of this agreement "qualified internal candidate" shall be defined as the member being in good standing; actively functioning in the rank of Deputy Fire Marshal, or higher, for a minimum of two (2)) years; demonstrated competencies to function in the Fire Marshal position as determined by the Chief; obtained at lease a Bachelor's Degree from an accredited educational institution or demonstrated ability to complete the degree requirements within 24-months of appointment; and must be willing to accept the appointment and operate in the Fire & Life Safety Division.

(c) A Fire Marshal appointed from outside of the Department is not considered a civil service employee and is not entitled to the protections within Texas Local Government Code Chapter 143.

Section 4. Removal from Appointment Positions

(a) A person who is removed from an Assistant Chief Position appointment shall be reinstated in the Department and placed in the same classification, or its equivalent, to the rank of Battalion Chief and shall retain protection under the Civil Service regulations. An Assistant Chief hired from outside of the Department has no position to be reinstated to, so would separate from employment in a manner consistent with the city's personnel policies for at-will employees.

(b) A person who is removed from the Fire Marshal appointment shall be reinstated in the Department and placed in the rank that immediately preceded their appointment and shall retain protection under the Civil Service regulations. A Fire Marshal hired from outside of the Department has no position to be reinstated to, so would separate from employment in a manner consistent with the city's personnel policies for at-will employees.

Section 5. Statutory Override

This Article modifies sections 143.003 (4), 143.005, 143.014, 143.021, 143.028, 143.030, 143.032, 143.033, 143.036, and 143.085 of the Texas Local Government Code. This Article further preempts, to the extent of any conflict, all contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department Head or head of the City or by a division or agent of the City, such as the commission.

ARTICLE 8
COMPENSATION

Section 1. Base Pay Philosophy

The City recognizes that the recruitment and retention of highly capable and professional Firefighters and Paramedics is essential to the success of the Georgetown Fire Department. As such, it is the desire of the City to maintain a pay philosophy that considers the average pay for Firefighters and Paramedics as reflected in Section 3(a). The parties recognize financial limitations may face the City in challenging economic periods. Section 3(d) of this Article reflects the Parties' intent to address the current economic period and are not intended to serve as precedent in future agreements.

Section 2. Comparator Cities

Austin, Cedar Park, New Braunfels, Travis County ESD 2, Lewisville, Sugar Land, and Round Rock shall continue to be used as comparator cities for the salary survey to be conducted each year of this agreement. City staff will survey salary competitiveness in the first quarter of each calendar year. The results of each survey will be reviewed with Association leadership. Based on the survey information of the comparator cities and in the manner described in section 3, the average of base pay for minimums with the addition of a 2% aging factor for each rank shall be calculated and proposed for approval as a part of the budget process.

Section 3. Compensation Proposal Calculation

a) Compensation for the ranks of Firefighter, Engineer, Fire Captain, and Fire Battalion Chief shall be proposed based on the following calculations. The recommended base pay scale shall be calculated by the salary survey conducted in the first quarter of each calendar year of the Agreement, utilizing the average minimum base salary for each rank of the seven (7) comparator organizations as specified in this Agreement with the addition of a 2% aging factor. The recommendation will propose that the minimum base pay for each rank will receive an increase (should an increase be required) to match the survey average for base pay minimums with the addition of a 2% aging factor. For the purpose of evaluation, the cadent rank will not be used to determine market entry (e.g. TCESD II will be evaluated at the equivalent of the first step of a Firefighter)

b) Compensation for Paramedic, Paramedic FTO, Fire Lieutenant, Fire Prevention Specialist, Deputy Fire Marshal, and all appointed ranks will be at the discretion of the Department Head and Civil Service Director. However, the positions will be tied to existing benchmarked positions that correlate to the salary survey comparison and will reflect pay adjustments accordingly. Compensation will not be adjusted downward.

c) The pay plan recommended for implementation in October of 2026 reflects an updated tenure-based methodology agreed to by the City and the Association. For the purposes of this article, tenure means the total accumulated service (in full years) in all civil service classifications(s)

within this Department. The pay plan is attached as an Appendix to this agreement and includes the following elements and procedures:

- To allow overlap between ranks;
- Upon implementation, individuals move to reflective of their tenure
- To increase pay acceleration at early steps within the early-career ranks;
- Individuals stepping up to a higher class role as defined by departmental policy will be placed in the higher class rank reflective of their tenure; and
- Individuals that are promoted post-implementation will be placed in the new rank at the step reflective of their tenure.
- Demotions, will result in decrease to step reflective of their tenure.

d) Future fiscal years - the City commits to, at a minimum, proposing Sixty percent (60%) of the market gap using the same methodology described in section 3(a).

City staff shall prepare a report to the City Manager to be forwarded to the City Council at the time the proposed budget is submitted to the City Council that will show the cost of implementing the pay increase as calculated above.

Recommendations will include implementation during the first full pay period in October, unless otherwise determined by both parties through the Labor/Management Pay Subcommittee discussions.

Section 4. Override

This Article modifies 143.041(b) and 143.038 of the Texas Local Government Code.

Section 5. Funding Obligations

Depending upon the financial forecasts, the City may implement the compensation recommendations in Section 3 between the first pay period of the fiscal year and the first pay period of July of each fiscal year. The City presently intends to continue this Agreement each fiscal year through its term, to pay all payments due, and to fully and promptly perform the obligations of the City under this Agreement.

All obligations of the City shall be paid only out of current ongoing revenues or any other funds lawfully available for those obligations, including tax revenues reasonably anticipated at equal or higher total gross amounts as were collected in each preceding fiscal year respective to each year of the Agreement, and appropriated for such purpose by the City Council, in compliance with the Texas Constitution, Article XI, Sections 5 and 7.

Following the adoption of the annual budget that may establish a pay increase, should the City Council find it fiscally necessary to reduce base pay for non-civil service City employees, or implement other cost saving measures such as mandatory furloughs or a reduction-in-force, the increases recommended under this Article may be reduced accordingly.

If at any time during the term of this Agreement, or any extension thereof, the electorate of the City subjects the Government of the City to a rollback election; and, as a result of such rollback election, the City suffers a reduction in revenues due to a reduction in the tax rate, the Association agrees to reopen the salary and other compensation provisions of this Agreement for the purpose of renegotiating the same. If sixty (60) calendar days after these negotiations begin, no agreement has been reached; this Agreement shall terminate and be null and void in its entirety.

ARTICLE 9
OVERTIME CALCULATION

Section 1. Overtime Calculation

Per federal law and existing City policy, sick-leave and wellness time are considered non-productive time. Non-productive time taken by the employee is not considered time worked for the purposes of calculating overtime. In acknowledgement of the unique work and staffing requirements of Firefighters, the parties agree that, starting on October 28, 2019, this article will supersede City policy for all Firefighters assigned to a 56-hour workweek engaged in fire suppression activities. Thereafter, approved paid vacation and holiday leave time taken by said Firefighters shall be calculated as hours worked.

Section 2. Statutory Override

In accordance with the Fair Labor Standards Act (FLSA) Section 7(k), eligible department employees may be paid overtime on a "work period" basis. A work period may be from seven (7) consecutive days to twenty-eight (28) consecutive days in length. For work periods of at least seven (7) but less than twenty-eight (28) days, overtime pay is required when the number of hours worked exceeds the number of hours that bears the same relationship as two hundred and twelve (212) hours to twenty-eight (28) days in the work period. The overtime work period shall be defined by the City after consultation with the Association.

Section 3. Statutory Override

This Article preempts, to the extent of any conflict, all contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department Head or head of the City or by a division or agent of the City, such as the commission.

ARTICLE 10
STIPEND, EDUCATION, & INCENTIVE PAY

Section 1. Article Applicability

For the purposes of this Article, Firefighter or Paramedics to include Assistant Chiefs shall be entitled to the benefits of this Article.

Section 2. Stipend & Incentive Pay

The Parties agree that Department Head assigned roles performed by Firefighters and Paramedics shall receive stipend, education and/or incentive pay as defined below.

The parties agree that Firefighters and Paramedics to receive monetary awards in the same manner as all other City employees.

Section 3. Guidelines

This Article reflects monthly assignment stipends, education, and incentive amounts that shall replace prior assignments, education, and/or certification pay practices and become effective the first full pay period in January 2027.

All assignments, stipends, and incentive pay are at the discretion of the Department Head or designee. The Department Head shall make the final determination on eligibility for assignments, stipends, education, & incentives outlined in this article.

A. Language Proficiency Stipend
    1. Bilingual Stipend: Compensation shall be paid to Firefighters or Paramedics who qualify as per the City policy on bilingual pay. The payment for Bilingual Pay shall be governed by the City Policy & Procedures.

B. Medical Proficiency and Operational Assignment Stipend
    1. Ambulance Assignment Stipend: Individuals assigned to work a 24-hour shift assigned to an ambulance shall receive $50 per 24-hour shift.
        a. Exceptions:
            i. If shift is split between multiple employees, the full assignment pay will be granted to the employee who works the largest portion of that shift. If shift is evenly split, the full assignment pay will be granted to the employee working the first portion of the shift.
            ii. Peak Ambulance Assignment Stipend: In the event that a peak ambulance is deployed during the term of this agreement, the Department Head is authorized to adapt ambulance assignment pay

including to define the length of the applicable shift, the incent assigned employees.

iii. Employees assigned to an ambulance, as part of their training/credentialling or functioning as a third-out member, under a performance improvement plan (PIP), are not eligible for Ambulance Assignment Pay.

iv. Ambulance Assignment Pay is $50 a shift for dual medic ambulances. If a Paramedic is assigned to an ambulance with an EMT, then the Paramedic receives $75 and the EMT receives $25.

Paramedic Credential Stipend: A stipend that is equivalent to $533.34 per month is available to all employees who have met the credentialing standards set forth by the Medical Director and Department Head.

a. Employees receiving Paramedic Credential Pay are ineligible to receive Paramedic Certification Pay or Assignment Pay.
b. Determination of eligibility for Paramedic Credential Pay is made by the Department Head.

Paramedic Stipend: This stipend will be phased out over the term of this agreement. No new members will receive this compensation. Only existing, non-credentialed members, shall continue to be compensated at the rate of $150 per month for each month that they maintain their Texas DSHS Paramedic certification.

C. Specialty Certification and Operational Assignment Stipend

All assignments in the Fire Department are made at the discretion of the Fire Chief. No person has the right to determine where or when they will work. Approval or denial of assignments will be based upon the operational needs of the Department and mission-essential justification. Assigned members and reserve members must function in accordance with criteria and procedures adopted by the Fire Chief. Members may be assigned to multiple teams or specialties; however, they shall only be compensated for one of the following:

1. Team Manager: Individuals assigned to be Team Manager shall be compensated at a rate of $250 per month for each month they are assigned to perform that function and maintain the qualifications associated with managing the team. Team Managers will only qualify for this stipend and not the specialty stipend payable to other eligible team members.
2. Special Operations Stipend: Individuals assigned to the Special Operations Team shall be compensated at the rate of $150 per month for each month they are assigned to perform that function and maintain the qualifications associated with certifications. Reserve members are not eligible for the stipend.
3. Hazardous Material Stipend: Individuals assigned to the Hazardous Material Team shall be compensated at the rate of $150 per month for each month they are assigned

to perform that function and maintain the qualifications associated with certifications. Reserve members are not eligible for the stipend.

4. Dive Team Stipend: Individuals assigned to the Dive Team shall be compensated at the rate of $150 per month for each month they are assigned to perform that function and maintain the qualifications associated with certifications. Reserve members are not eligible for the stipend.
5. SWAT Stipend: Members assigned to the Central Texas Regional SWAT (CTRS) Team shall be compensated at a rate of $150 per month for each month they are assigned to perform that function and maintain the qualifications associated with the certification. Reserve members are not eligible for the stipend.
6. Field Training Officers (FTO) Stipend: Individuals assigned as an FTO shall be compensated at the rate of $300 per month for each month they are assigned to perform that function and maintain the qualifications associated with the certification. FTO reserve members who are not assigned to perform the duties of an FTO are ineligible for the stipend.
7. Fire Inspector Support Stipend: This stipend will be eliminated effective the first full pay period in January 2027. No new members will receive this compensation.
8. Fire Investigator Support Stipend: This stipend will be eliminated effective the first full pay period in January 2027. No new members will receive this compensation.
9. Master Arson Stipend: This stipend will be eliminated effective the first full pay period in January 2027. No new members will receive this compensation.
10. ICC Fire Inspector I Stipend: This stipend will only be available to members promoted and assigned to the Fire & Life Safety Division. Eligible members shall be compensated at the rate of $100 per month for each month they are assigned/promoted to perform that function and maintain the qualifications associated with the certification. CFI Stipend may be added as the sole additional assignment for members promoted to the FLS Division. Reserve members are not eligible for this stipend.
11. CFI Fire Investigator (FIT) Stipend: This stipend will only be available to members promoted and assigned to the Fire & Life Safety Division. Eligible members shall be compensated at the rate of $50 per month for each month they are assigned/promoted to perform that function and maintain the qualifications associated with certification. Reserve members are not eligible for the stipend.
12. Support Service Personnel: Individuals assigned to a full-time, non-operational Administrative position shall be eligible to receive a monthly stipend that is correlated to their current rank. This stipend does not apply to light duty and/or promoted Fire & Life Safety position. The monthly stiped is as follows:
    a. Firefighter and/or Paramedic: $200 per month
    b. Paramedic FTO and/or Engineer: $250 per month
    c. EMS Captain and/or Fire Captain: $300 per month
    d. Battalion Chief: $350 per month

D. Eligible Education & Certification Incentive Pay

It is understood that there are minimum requirements for the Department with respect to education and certification by the Texas Commission on Fire Protection. It is the members' responsibility to request and provide proof of the desired education or certification incentive. The incentive shall commence the first month following the Firefighter's and Paramedic's complete and valid written request to the Department Head or designee. Firefighters and Paramedics shall be entitled to receive either Certification or Education Incentive Pay for their level of education or certification (but not both), whichever is higher, in the following amounts:

1. TCFP Certification
    a. Intermediate: Active members that achieve the TCFP Intermediate Certification shall receive a certificate incentive of $50 per month.
    b. Advanced: Active members that achieve the TCFP Advanced Certification shall receive a certificate incentive of $100 per month.
    c. Masters: Active members that achieve the TCFP Masters Certification shall receive a certificate incentive of $150 per month.
2. Education Incentive
    a. Associates: Active members that achieve an Associate's Degree, from an accredited institution, and education incentive of $100 per month.
    b. Bachelors: Active members that achieve a Bachelor's Degree, from an accredited institution, and education incentive of $200 per month.
    c. Masters: Active members that achieve a Masters's Degree, from an accredited institution, and education incentive of $300 per month.

Section 3. Statutory Override

This Article modifies section 143.042 and 143.043 of the Texas Local Government Code. This Article further preempts, to the extent of any conflict, all other contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department Head or head of the City or by a division or agent of the City, such as the commission.

ARTICLE 11
HEALTHCARE REIMBURSEMENT ARRANGMENT PROGRAM (HRAP)

Section 1. Article Applicability.

For the purposes of this Article, Firefighter, Paramedics, and Assistant Chiefs shall be entitled to the benefits of this Article.

Section 2.

The City and the Association agree to establish and maintain a Health Reimbursement Arrangement ("HRA") for eligible sworn employees.

1. The purpose of this program is to establish post-retirement healthcare funding accounts designed to bridge the gap between employee retirement and Medicare eligibility. This program additionally serves to reduce city liability for employees having excessive leave banks and encourages responsible sick-leave utilization.

2. The City and Association agree that contributions to this account shall be deposited from the city into individual member HRA accounts via the following process:

    a. Beginning each fiscal year, all accrued sick leave balances exceeding one-thousand & eighty (1,080) hours (56hr/wk employees) or seven-hundred & twenty (720) hours (40 hr/wk employees) shall be evaluated for eligibility for the sick-leave conversion process.

    b. At no time shall the number of hours converted reduce a members sick-leave balance below the 1080-or-720-hour threshold.

    c. Members on a 56-hour workweek shall be eligible to have up to 240 hours annually of sick leave converted into a fiscal allotment into their HRA.

    d. Members on a 40-hour workweek shall be eligible to have up to 160 hours of annual sick leave converted into a fiscal allotment to their HRA.

    e. These hours will be converted on a 1-to-1 basis at the member's hourly base rate of pay.

    f. The number of eligible sick-leave hours to be converted shall be reduced on a 1-to-1 basis for each hour of sick-leave utilized by the member in the previous fiscal year.

g. Such converted amounts shall only be deposited into a members HRA and are available solely for eligible healthcare reimbursement purposes as defined by the governing HRA Plan Document.

h. Members shall not be eligible for direct compensation for any converted hours.

i. The process and timelines for annual funding shall be detailed within the plan document.

Example: FF Doe, a 56hr/wk employee ends the fiscal year with 1320 hours of sick-leave in their bank. FF Doe has 240 hours above the 1080 threshold. FF Doe utilized 48-hours of sick-leave this past fiscal year. FF Doe would now have 192 hours (240-48) converted on a 1-to-1 basis at his hourly pay rate ($30). This would result in FF Doe receiving a $5760 deposit (192 x $30) into their HRA account. FF Doe begins the next fiscal year with a sick-leave balance of 1128 hours (1080+48).

3. No portion of this section of the agreement shall negate the rights afforded under Texas Municipal Code 143.045

4. The parties acknowledge that the HRA established pursuant to this Section is intended to provide reimbursement for eligible medical expenses following separation from service and is not intended to create an additional pension, retirement allowance, deferred compensation benefit, or other post-employment benefit under applicable law.

5. The HRA shall be administered in accordance with applicable provisions of the Internal Revenue Code, Treasury Regulations, and regulations may change and other applicable federal and state laws. The Plan Document shall govern all matters relating to claims, reimbursements, participation, beneficiary provisions, and administration.

The HRA shall be governed exclusively by the terms of the applicable Plan Document and Trust Agreement, which may be amended from time to time therefore the City may need to re-structure the Program to maintain compliance with federal and state law. Employees shall have only those rights and benefits expressly provided under the Plan Document. and tax-free status. The Parties agree the City may re-structure the Program to the extent necessary to maintain the Program's legal compliance and tax-free status.

Section 7. [To insert Preemption Language]

ARTICLE 12
STANDBY PAY

Section 1. Standby Pay

Civil Service employees in certain roles are required to be available in standby status as part of their job. Civil Service law does not currently allow for standby pay. It is the desire of the City and Association to make the current City Standby Pay policy, currently policy number 211, applicable to Firefighters and Paramedics as designated by the Department Head based on their role.

Standby pay will take effect for employees designated by the Department Head beginning no sooner than October 28, 2019 and reflected on the November 15, 2019 paycheck.

This article will remain in effect for the duration of this agreement, regardless of whether the policy number is changed.

Section 2. Statutory Override

This Article modifies section 143.041 of the Texas Local Government Code. This Article further preempts, to the extent of any conflict, all other contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department Head or head of the City or by a division or agent of the City, such as the commission.

ARTICLE 13
REAPPOINTMENT AFTER RESIGNATION

Section 1. Purpose

A Classified employee who voluntarily resigns from the City of Georgetown Fire Department may be reappointed as a Firefighter or Paramedic with the Department, if there is an available spot, without taking another entrance examination or being placed on an Eligibility List.

Section 2. Guidelines

(1) The former Firefighter or Paramedic shall submit a written request to be reappointed, within twenty-four (24) months and/or a ranked position within twelve (12) months from the date of separation, to the Department Head, who makes the final recommendation to the City Manager for reappointment. A candidate for reappointment shall not be considered unless recommended by the Department Head. A candidate for reappointment may not appeal his/her rejection by the Department Head.

(2) Prior to recommending reappointment of a former classified employee to the department, the Department Head may review past performance records of the Firefighter or Paramedic, conduct a background investigation, require appropriate alcohol and drug tests and require any other portion of the employment process he/she deems appropriate.

(3) Upon receiving an offer of reappointment, the Firefighter or Paramedic shall pass a physical and psychological examination prescribed by the City.

(4) A candidate for reappointment shall fully meet the requirements for the position in which they may be reappointed.

(5) A former Firefighter or Paramedic may be reappointed regardless of the availability of a certified eligibility list. A ranked position candidate may only be reappointed at his/her prior rank if the department does not possess a certified eligibility list for that rank. If the department has a certified eligibility list, the ranked position candidate may be placed at the entry level Firefighter or Paramedic rank.

(6) In addition to the reasons for rejection listed in Section 143.023(C) of Georgetown local Civil Service Rules, a candidate for reappointment may be rejected for reasons related to previous work performance as a Georgetown Firefighter or Paramedic.

(7) Any candidate reappointed to the Fire Department shall serve a one (1) year probationary period and prior service shall not count toward service for promotional eligibility.

(8) The candidate's years of prior service may be counted to determine placement in the Appendix A Pay Plan.

(9) The candidate's years of prior service shall not count for determining vacation eligibility and rate.

(10) Civil Service age limitations do not apply to re-appointments.

(11) Reappointment of a classified employee is totally at the discretion of the Department Head.

Section 3. Statutory Override

This Article modifies section 143.023, 143.024, 143.025, 143.026, 143.027, and 143.041 of the Texas Local Government Code. This Article further preempts, to the extent of any conflict, all other contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department Head or head of the City or by a division or agent of the City, such as the commission.

ARTICLE 14
REPRESENTATION ON BENEFITS COMMITTEE

The Association may appoint one (1) member to the City's Benefit Committee. That appointee shall be a fully participating member of the Committee and perform the same duties as all other members of the Committee.

ARTICLE 15
LABOR/MANAGEMENT RELATIONS

Each Party shall designate up to five (5) representatives to serve on a joint Labor/Management Committee ("Committee"). This Committee should meet monthly, or minimally, quarterly at agreeable times and places to discuss matters of mutual concern. Such discussion shall be for the purpose of encouraging productive relations between the parties and the improvement of the emergency services to the community. The City Assistant Manager (Public Safety) or designee and Association President should attend a minimum of two meetings per year. The meeting will include discussion of pressing issues, such as staffing levels, for the Association and the City. Furthermore, the intent is to establish a list of topics/issues that may be discussed within the next formal meet and confer process. A minimum of two (2) members from each party must be present for a meeting to be held. The Department Head will make reasonable efforts to accommodate requests by Association members to attend if they are on duty. Both parties understand and agree that Committee meetings are not required on any issue, except where provided for in Article 20 of this Agreement, and are not a condition nor limitation on the management rights to make and enforce policies, rules, regulation, or operational decisions.

The work of the Committee shall be conducted on City time without loss of pay by Committee members; except that meetings which are scheduled at times when Association members who are not on duty, such members shall attend on their own time without compensation.

ARTICLE 16
BULLETIN BOARDS

Section 1. Bulletin Board Space

The Association shall be permitted to maintain, at each firehouse and the Public Safety Building, one (1) bulletin board to be used exclusively for Association business. These bulletin boards shall be allowed by the City, shall be consistent with the decor of the building, and located in suitable locations easily accessible to the employees for the purpose of posting notices of interest to members of the Association. In Departmental areas where a board is not present or feasible, the association is permitted to place productive notices in an acceptable area and will limit space usage to an area of equivalent or lesser size than a bulletin board.

Section 2. Maintenance of Posted Materials

The Association shall be responsible for maintaining all posted materials and shall ensure that all posted materials are compliant with any and all city policies relating to public postings. The City shall have the authority to remove any posted materials that are non-compliant with said policies.

ARTICLE 17
CONTRACT INTERPRETATION DISPUTE RESOLUTION PROCEDURE

Section 1. Scope of Procedure

The City and Association recognize that from time to time disagreements between the Parties may arise as to the application or interpretation of this Agreement. The Parties therefore agree that the purpose of this dispute resolution procedure is to provide a just and equitable method for resolving disagreements between the Parties regarding the application or interpretation of the provisions of this Agreement. Only matters involving the interpretation, application, or alleged violations of a specified provision of this Meet and Confer Agreement shall be subject to this dispute resolution procedure. Any matters for which the right of appeal or review is afforded by Chapter 143 of the Texas Local Government Code are excluded from the scope of this article.

Section 2. Application of Procedure

If the Association has a dispute with the City regarding this Agreement, the Association Executive Board, or Association's President's designee, should reduce the dispute to writing and deliver it to the City's designated representative, who shall be its Department Head or designee.

A Firefighter or Paramedic may not file a request for contract dispute resolution directly with the City; all resolution requests must be approved and come from the Association Executive Board.

Each dispute shall be submitted in writing, and must include, at minimum, the following information:

1. a brief statement of the dispute and the facts or events on which it is based;
2. the sections(s) of the Agreement alleged to have been violated;
3. the remedy or adjustment sought; and
4. the bargaining unit member's signature or, if filed by the Association Executive Board, the signature of the Association President or designee.

Any claim or dispute by a Firefighter or Paramedic, or group of Firefighters or Paramedics under this Agreement which includes a claim for pay or benefits for any past pay periods must be filed by the employee with the Association Executive Board within fifteen (15) business days of the date when the employee knew or reasonably should have known of the claim. Disputes by the Association Executive Board, or Firefighter or Paramedic shall proceed along the following steps:

Step 1. An aggrieved Firefighter or Paramedic must initiate a dispute with the Association Executive Board within fifteen (15) business days of the date upon which the Firefighter or Paramedic knew of or should have known of the facts giving rise to the dispute. A copy of notice or receipt of the dispute shall be forwarded to the Department Head by the Association Executive Committee within three (3) business days of the receipt of the dispute. The Association Executive Board shall within their sole discretion determine if a dispute exists within fifteen (15) business days of receipt of the dispute. If the Association determines that no dispute exists, the grievance will be deemed denied and it shall notify the Department Head in writing that no further

proceedings will be necessary. If the Association Executive Board determines that the dispute is valid, it will notify the Department Head of such and forward a copy of the grievance to the Department Head within fifteen (15) business days after determination.

Step 2. Any dispute found to be valid by the Association Executive Board shall be submitted to the Department Head within fifteen (15) business days of the Step 1 decision. After receipt of the dispute, the Department Head shall within fifteen (15) business days submit his/her response in writing to the Association Executive Board. If there is no timely reply from the Department Head the grievance is deemed denied and will proceed to the next step as indicated.

Step 3. If the dispute is not resolved in Step 2, the Association Executive Board may advance the dispute in writing to the City Manager or designee within fifteen (15) business days from receipt of the Step 2 decision of the Department Head. The City Manager or designated representative shall review the matter and render a decision in writing to the Association Executive Board within fifteen (15) business days of the receipt of the dispute in Step 3. The City Manager or designee may, at his/her discretion, conduct a conference to further explore the merits of the dispute and to explore resolution options.

Step 4. If the dispute is not resolved in either Step 2 or Step 3, either Party shall have the right to seek mediation of the dispute by requesting same in writing within fifteen (15) business days from the Department Head's response or the City Manager's response. The mediation will proceed before either a mediator with the Federal Mediation and Conciliation Service or before a mutually agreed mediator. The mediation shall be held in available facilities of the City of Georgetown.

Step 5. If the dispute is not resolved at Step 4, the Association Executive Board shall have fifteen (15) business days from the date of mediation to determine whether it will pursue the dispute under this article through arbitration. Under this step, the Association Executive Board must deliver a letter indicating its election to proceed to arbitration to the Department Head and City Manager.

Section 3. Arbitration Option

The Parties have agreed that all disputes under this Agreement, which concern the application and interpretation of this Agreement, shall be submitted to final and binding arbitration, and the Parties exclude from this Agreement disputes involving statutory application and interpretation for rights and claims not arising under sections 142 or 143 of the Texas Local Government Code. The terms of the Agreement, and any factual issues which are determinative in applying the Agreement, shall be the sole province of the designated arbitrator, and his or her decision shall be final. However, the City will only agree to arbitration on the condition that legal issues which are determinative in any contract dispute are subject to judicial review. This additional exception to the Parties' arbitration Agreement is a narrow one, as reflected by the bargaining history. This contract represents an agreement to submit disputes to arbitration within its scope, and otherwise preserves the existing jurisdiction of Texas Courts over any contract rights and claims not exclusively committed to arbitration. The Parties have agreed that questions of law, which involve either the interpretation and application of state statutes or the application of legal principles from Texas appellate court opinions (or the failure to properly apply such legal principles or opinions) to controversies under this article shall be submitted initially to arbitration, but that either party shall

have a limited right of appeal from an arbitration award in the Courts solely for the purpose of reviewing disputed issues of law. No such appeal from arbitration shall include review of any factual determinations by the arbitrator, including credibility of witnesses or weight of the evidence. If an appeal from arbitration based on erroneous application of the law is not successful, the appealing Party shall bear all costs of such appeal.

If a dispute is submitted to arbitration, either party may request the American Arbitration Association (AAA) provide a list of seven (7) qualified neutral arbitrators in accordance with its selection rules. Within seven (7) business days of receipt of the list from AAA, the Department Head and/or City and the Association shall select an arbitrator by alternately striking names. The process will be as follows: the Association shall strike the first name on the list with the first dispute brought under this article. Thereafter, the first strike shall alternate between the Parties. The arbitration should be held at the earliest available date but may be continued for good cause shown or upon mutual agreement. The parties, by mutual agreement, may select to use AAA expedited rules.
Upon written request delivered at least fourteen (14) calendar days prior to the date of the hearing, a party to the proceeding shall provide, no later than seven (7) days prior to the hearing, to the opposing party the names and addresses of witnesses expected to be called at the hearing. In the absence of good or excusable cause, the arbitrator may exclude the testimony of a witness upon the failure of a party to disclose such a witness. The parties, in writing, may request discovery from each other concerning the grievance. Should the opposing party not agree to provide the requested information within seven (7) calendar days of the request; the request shall be deemed denied. The requesting party may then apply to the arbitrator, who shall order such discovery consistent with, but not bound by, the rules of discovery in Texas civil cases. In considering the application, the arbitrator shall consider the burden and expense of producing the information, the need of the requesting party, the amount of time available prior to the hearing, and such other matters as he may deem material. In no event shall discovery be requested within thirty-five (35) calendar days prior to the hearing, unless agreed by the parties.

The hearing shall be held in available facilities of the City of Georgetown and shall be conducted informally, without strict evidentiary or procedural rules. The conduct of the hearing shall be governed by the standard rules of the American Arbitration Association. The arbitrator shall consider and decide only the issue(s) in the dispute statement or submitted in writing by agreement of the Parties. The hearing shall be concluded as expeditiously as possible and the arbitrator's written decision shall be based on a preponderance of evidence within thirty (30) days after close of the hearing, or after receipt of post-hearing briefs if applicable.

Section 4. Decision Final and Binding

If arbitration is selected, the Parties specifically agree that the arbitrator's authority shall be strictly limited to interpreting and applying the explicit provisions of this Agreement. The arbitrator shall not have authority to modify the Agreement or create additional provisions not included in the Agreement. The Parties agree that neither the City nor the Association shall have *ex parte* communications with the arbitrator concerning any matter involved in the dispute submitted to the arbitrator. Each Party shall be responsible for its own expenses in preparing for and representing itself at arbitration, but the fees and expenses of the arbitrator shall be borne equally by the Parties.

The written decision of the arbitrator shall be final and binding on both Parties and may not be appealed by either Party, except for any decision procured by fraud or collusion, or which exceeds the arbitrator's jurisdiction or which is based on legal conclusions or interpretations which are clearly contrary to existing law.

Section 5. Mutual Extension

All deadlines within this article may be extended by mutual agreement by the Parties.

Section 6. Grievances of Non-Association Members

Grievances of Non-Association members must follow the same procedure outlined by this article. However, should the grievance of a Non-Association member require that Association resources be used, the Non-Association member will be required to pay all expenses incurred while pursuing final disposition of their grievance. These shall include cost for payment of Arbitrator fees, counsel fees and any other fees directly related to the grievance. All disciplinary appeals shall follow the procedure as outlined in chapter 143 of the Local Government Code.

ARTICLE 18
MANAGEMENT RIGHTS AND MAINTENANCE OF STANDARDS

MANAGEMENT RIGHTS

Section 1.

The Parties understand and agree that the City as a duly constituted home rule municipality under the Constitution and Laws of the State of Texas, hereby retains all those powers, privileges, rights, and authority conferred upon it by law, and nothing in this Agreement shall be construed or interpreted as being in derogation of, or delegation of, those powers, privileges, rights, and authority, other than as required under Chapter 143 of the Texas Local Government Code.

Section 2.

The powers, privileges, authority, and responsibilities retained by the City includes, but are not necessarily limited to, the following subject matter areas, except as otherwise specifically identified by law and the terms of this Agreement:

a) General management and administrative control and authority over the Fire Department, including its properties, facilities, and equipment, operations, and staffing;

b) Determination of the Fire Department's overall budget from year to year;

c) Determination of which Fire Department programs, functions, and operations to implement;

d) Determination over the Fire Department's organizational structure, subject to any duly adopted rank and classification structure fixed by ordinance;

e) Continued authority over the implementation, maintenance, and updating to any and all written Standard Operating Procedures, Fire Department and City Policies created, adopted, or amended under the authority of the Department Head, the City Manager, or the City Council.

f) Scheduling of vacation leave, compensatory time leave, and any other paid time off, whether paid or unpaid;

g) Discretionary assignment and authorization to control allowance of overtime work, except as otherwise provided in this Labor Agreement;

h) Scheduling operations, assignment of shifts, and determination of appropriate staffing needs and requirements;

i) Control of performance, production and service standards within the Fire Department.

B. MAINTENANCE OF STANDARDS

Section 1.

All fiscal benefits, privileges, and working conditions existing in the Fire Department on the effective date of this Agreement, but which are not explicitly addressed in this Agreement, shall remain unchanged for the duration of this Agreement, so long as the maintenance of those benefits, privileges, and working conditions do not interfere with the operations of the Department.

Section 2.

The Parties expressly understand and agree that any modification or changes to existing practices and operations shall be consistent with the spirit and intent of this Article, that any such modifications or changes, if any, must be reasonably related to a legitimate administrative or operational needs of the Department and the City and must not conflict with any state law, federal law, governmental regulation, or any other provision of this Agreement.

Section 3.

This Section is intended to supplement the preceding Section on Management Rights, and shall not be construed as being in derogation, or further modification of, the management prerogatives and rights addressed in the section on Management Rights or those rights otherwise allowed by Texas law.

ARTICLE 19
TERM OF AGREEMENT

This Agreement shall have an effective date of October 1, 2026, and shall remain in full force and effect through September 30, 2030. The Agreement shall automatically renew for a one (1) year term on October 1, 2030and shall remain in full force and effect until September 30, 2031 unless superseded by a new agreement. This Agreement will expire after September 30, 2031, unless the parties mutually agree to an extension or renewal, in writing.

ARTICLE 20
SAVINGS CLAUSE, PREEMPTION PROVISION, AND COMPLETE AGREEMENT CLAUSE

Section 1. Savings Clause

If any provision of this Agreement is rendered invalid by a court of competent jurisdiction, such invalidity shall not affect any other provision of this Agreement, which shall continue to be in full force and effect for the duration of the Agreement, and the Parties shall meet as soon as possible to agree on a substitute provision. However, if the Parties are unable to agree within thirty (30) days following commencement of the initial meeting, then the matter shall be postponed until Meet and Confer negotiations are resumed. This deadline may be extended by mutual agreement by the Parties. To this end, the provisions of this Agreement are severable. This Agreement may be amended by written mutual agreement.

Section 2. Preemption Provision

The provisions of this Agreement shall supersede the provisions of any statute, Executive Order, local ordinance, or rule, which are in conflict herewith, including for example and not by way of limitation, the contrary provisions of Chapter 143; Ordinances of the City of Georgetown, Texas; and Rules and Regulations of the Firefighters' and Police Officers' Civil Service Commission for the City of Georgetown, Texas. This preemption provision is authorized by section 142.117 of the Texas Local Government Code, and the Parties have expressly agreed that each and every provision involving or creating such a conflict shall have the effect of superseding the statutory standard or result which would otherwise obtain, in the absence of this Agreement. This provision is of the essence to the bargain and Agreement, which has been reached.

Section 3. Complete Agreement Clause

The Parties agree that each has had full and unrestricted right and opportunity to make, advance and discuss all matters properly within the meet and confer process. This Agreement constitutes the full and complete Agreement of the Parties and there are no others, oral or written, except as specified in this Agreement.

DEFINITIONS

1. "Agreement" means the Meet and Confer Agreement entered between the Georgetown Association of Professional Fire Fighters and the City of Georgetown.

2. "Association" means the Georgetown Association of Professional Fire Fighters, Local 3991, its elected leaders and its collective membership.

3. "City" means the City of Georgetown, its mayor, city council members, city manager, fire chief and those persons designated by the City of Georgetown to manage the city and its fire department.

4. "Commission" means the City of Georgetown Firefighters' and Police Officers' Civil Service Commission.

5. The term "Department" means the Georgetown Fire Department.

6. The term "Department H~~h~~ead" means the Chief of the Georgetown Fire Department, designee, or an acting Chief of the Georgetown Fire Department.

7. The term "Firef~~ F~~ighter" or "Paramedic" means a member of the Georgetown Fire Department serving in substantial compliance with Chapter 143 of the Texas Local Government Code who is entitled to civil service status under section 143.005 of the Texas Local Government Code.

8. "Parties" means the City of Georgetown and the Georgetown Association of Professional Fire Fighters, Local 3991.

9. "Good standing" is defined as an employee who has not served a suspension or an involuntary demotion within the last six months. The employee regains good standing six months following completion of the suspension or date of demotion.

10. "Shall" (Must) Indicates an action that is required by either the Department or the Member.

11. "Should" (Recommended) Indicates an action that is preferred by either the Department or the Member and is usually recommended for professional/organizational development or maintenance of good order and discipline.

12. "May" (Optional) Indicates an action that is at the discretion of the Department or Member for individual benefit.

ARTICLE 1
RECOGNITION

The CITY OF GEORGETOWN recognizes the GEORGETOWN ASSOCIATION OF PROFESSIONAL FIRE FIGHTERS, IAFF LOCAL NO. 3991, as the sole and exclusive bargaining agent for the covered Firef~~e F~~ighters and Paramedics described in the petition for recognition, excluding the head of the Fire Department and Assistant Fire Chiefs.

ARTICLE 2
HIRING PROCESS

Section 1. Hiring Process

~~The Parties agree that the Department head possesses the discretion and authority to establish entry level selection procedures which need not be the same as those established by Chapter 143 and the Department head possesses authority under this article to entirely or partially supplant, delete, supplement or modify sections 143.025 and 143.026 of the hiring process. The Parties agree that the City retains responsibility for the hiring process and any liability for the hiring process.~~

1. The Parties agree that the Department Head possesses the sole discretion and authority to establish, implement, and modify entry-level selection and testing procedures. The Department Head is authorized to fully or partially supplant, modify, delete, or replace the requirements of Texas Local Government Code 143.024, 143.025, and 143.026 including but not limited to notice posting timelines, physical testing location constraints, candidate-paid testing fees and single-date/time examination requirements.
2. The Department Head or Civil Service Director may authorize entry-level written examinations to be administered virtually, online, or through a designated third-party testing service. Testing may occur on a continuous, rolling, or multi-site basis. Candidates completing an authorized online or off-site proctored examination meeting the Department's established passing standard shall be placed on the entry-level eligibility list in accordance with Department policy and Local Civil Service Commission Rules.
3. Requirements for notice posting at specific physical locations for fixed durations prior to an examination is hereby waived and replaced with continuous digital recruitment and online application posting as determined by the Department Head and Civil Service Director.
4. In order to maintain situational awareness of the qualify and number of candidates in the hiring process, the Department Head agrees to include at least one (1) member of the Association's executive board or designee on the hiring interview panel.

Section 2. Eligibility for Beginning Position

A person may not be certified as eligible for a beginning position in the Department if the person is forty-five (45) years of age or older at time of hire.

~~All Firefighter and/or Paramedic candidates that begin employment with the City of Georgetown after August 1, 2020, shall be required to obtain DSHS EMT-P certification within 48 months of hire date.~~

Section 3. Probationary Period

~~Effective for employees who begin employment following the first full pay period following the adoption of the revised Meet and Confer agreement the probation period shall be as follows:~~

A. The 12-month probationary period shall begin from the date of hire.

B. All Firefighter and/or Paramedic candidates that begin employment with the City of Georgetown after August 1, 2020, shall obtain and maintain DSHS EMT-P certification

at a time that is operationally convenient for the City ~~but no later than 48~~ within 36 months ~~from the date~~ of hire. The candidate is expected to attend and complete the Paramedic Program in one attempt. ~~Either (i) f~~Failure to complete the Paramedic Program and obtain DSHS EMT-P certification within 180-days of the Paramedic Program conclusion~~; or (ii) failure to obtain DSHS EMT-P certification within 48 months from the hire date;~~ shall be grounds for ~~a non-disciplinary~~ termination for failing to meet the minimum requirements of the Firefighter or Paramedic rank position. The Fire Chief may allow for additional completion time under extenuating circumstances. ~~For the avoidance of any doubt, a decision of the Fire Chief under this paragraph is non-appealable and the Fire Chief's decision is final.~~

C. Firefighters or Paramedics shall not be considered non-compliant with this mandate if the City is unable to enroll them in a program to meet these timelines.

~~B.~~D. Termination for failure to obtain and maintain DSHS EMT-P is a non-disciplinary termination and there is no right to appeal to the Civil Service Commission, Hearing Examiner or a court of appropriate jurisdiction. The Fire Chief's decision is final.

Section 4. Effect of Contract Expiration

The provisions of this Article shall remain in full force and effect after expiration of this Agreement as to any hiring process which has been commenced~~, as determined by the Chief~~, in substantial reliance upon the provisions of this Article, as determined by the Chief.~~.~~ Any pool of eligible candidates created under the terms of this Article will remain in effect for six (6) months from the date of creation, notwithstanding the expiration of this Agreement, unless exhausted prior to the expiration of six (6) months or unless the duration of the list is set for twelve (12) months. All employees hired are governed by Section 3 of this Article.

Section 5. Statutory Override

This Article modifies sections 143.021, 143.023(b), 143.025, 143.026 ~~and~~ 143.041, 143.051, 143.052, 143.053, and 143.057 of the Texas Local Government Code. This Article further preempts, to the extent of any conflict, all other contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department H~~h~~ead or head of the City or by a division or agent of the City, such as the commission.

ARTICLE 3
LATERAL ENTRY HIRES

Section 1. Purpose

This program will help recruit qualified applicants for the position of Firefighter/Paramedic and/or Paramedics.

Section 2. Definitions

1) Qualifying Agency:
   a) Fire and/or EMS agency providing 911 service response to a population of 50,000 or greater, as determined by the most recent census or other official population estimates during the time the candidate was employed with the qualifying agency;
   b) The Department Head may consider commuter or tourist population estimates provided by the candidate, from an official source, in lieu of official population estimates.

2) Experience as a Firefighter/Paramedic and/or Paramedic:
   a) Service must have been with an agency that operates within a 911 system and the candidate actively assigned in an operational role to provide paramedic-level care.
   b) The Department Head will make final determinations regarding the candidates qualifying experience.

Section 3. Eligibility Requirements Applicants must:

1) Have a minimum of two (2) years paid, full-time experience as a Paramedic at a qualifying agency. The first year, with the qualifying agency, is considered probationary and shall not be included in the calculation of experience.
2) In-state applicants must be certified by the Texas Department of State Health Services (DSHS) at time of entry examination date and out-of-state applicants must challenge and pass the DSHS Paramedic exam to obtain Texas State certification, before a conditional job offer is made by the Department Head
3) Must not have a break in service of more than one (1) year from the time the candidate left a qualifying agency to the entry examination date;
4) Service time, for determining the starting salary, can include multiple agencies, if breaks in service are less than thirty days and all previous agencies meet the required criteria; The first year at each qualifying agency is considered probationary and not included in the calculation of experience.
5) Service time credit begins after the first year that the candidate actively operates as a Paramedic within the qualifying agency and as recognized Texas DSHS or out of state licensing agency; and
6) Must successfully complete all civil service and/or internal hiring requirements.

Section 4. Guidelines

1) The Lateral Entry Program is for pay purposes only. Lateral entry requirements are separate from promotional eligibility requirements. Seniority credit shall begin on the date of hire and not include any prior service credit.
2) The determination regarding whether an applicant qualifies for lateral entry will be made during the Chief's interview portion of the selection process and communicated to the applicant at time of conditional job offer.
3) Applicants hired under this program will be placed upon entry at the step in the department's step schedule based on whole years of eligible experience as follows:
   a) Candidates hired in FY2027 may be placed up to and including step two (2)
   b) Candidates hired in FY2028 may be placed up to and including step two (2)
   c) Candidates hired in FY2029, and beyond, may be placed up to and including step three (3)
4) The member will then progress through the steps as he/she completes his/her years of service.
5) Longevity -Pay will be calculated in the same manner as all other Firefighters and/or Paramedics. No credit will be given for completed years of service in other agencies.
6) Members hired under this program must also complete a one (1) year probationary period in accordance with Chapter 143 of the Texas Local Government Code.
7) The Department Head shall make the final determination of whether an applicant meets the eligibility requirements of the Lateral Entry Program. The Department Head' s final determination of whether an applicant meets the eligibility requirements of the Lateral Entry Program shall be final and non-appealable to the Civil Service Commission or to any court.

Section 5. Statutory Override

This Article modifies section 143. 041 of the Texas Local Government Code. This Article further preempts, to the extent of any conflict, all other contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department Head or Head of the City or by a division or agent of the City, such as the commission.

ARTICLE 4~~3~~
RANK STRUCTURE

Section 1. Intent

In adopting this article, the parties agree to implement the following rank structure.

Section 2. Rank Structure

At the convenience of the City, the following rank structure shall be authorized for partial or full implementation and be filled in accordance with the approved hiring, promotional (per articles 5~~4~~ and 6~~5~~), appointment (per article 7~~6~~), or assignment process.

A. Operations & Support Division

Firefighter ~~and/or Paramedic~~ (Beginning Positions)
Paramedic (Beginning Position)
Paramedic Field Training Officer (FTO) (Formerly Paramedic II) ~~II~~ (Promoted)
~~Fire Driver~~ Engineer (Promoted)
~~Lieutenant (Promoted)~~
~~*Note: parties agree that the Lieutenant position will be phased out over an unspecified period of time and incumbents, within the Lieutenant Rank, must successfully pass a written examination to promote to the Captain rank. There will be no more tests or promotions to Lieutenant effective October 1, 2022. Effective October 1, 2022, the Lieutenant rank is no longer considered a required classification/rank for the purposes of promotion and/or higher-class.*~~
EMS Captain (Promoted)
Fire Captain (Promoted)
Battalion Chief (Promoted)
Assistant Chief (Appointed)

B. Fire & Life Safety Division

Fire ~~Prevention~~ & Life Safety Specialist (Promoted)
Deputy Fire Marshal (Promoted)
Fire Marshal (Appointed)

Section 3. Statutory Override

This Article modifies section 143.021 of the Texas Local Government Code. This Article further preempts, to the extent of any conflict, all contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department H~~h~~ead or head of the City or by a division or agent of the City, such as the commission.

ARTICLE 54
OPERATIONS AND SUPPORT DIVISION PROMOTIONS

Section 1. Intent

In adopting this Article, the Parties agree to implement a promotional system using an Assessment Center component in addition to the written examination. The Parties believe adding including an Assessment Center component to the selection process will improve the selection process and will provide promotional candidates a fair opportunity to display skills and abilities that serve as additional good indicators that they will perform well in the position of Paramedic IIFTO, Fire Driver,Engineer, Fire Captain, EMS Captain, or Battalion Chief. Additionally, the Parties agree that formal both academic and professional education is anare important element in advancing the professionalism and capabilities of the department and its members. This article aspires to meet the NFPA 10201 recommendations as set forth within the 20250 Edition of the NFPA.

Section 2. Time in Rank and Minimum Promotional Qualifications

1. Completion of Task Books will be required for all promotional exams conducted after October 1, 2020.

2. Paramedic certification and paramedic credentialing within 180 days of completion of paramedic school, shall be considered a minimum requirement for all promoted positions for candidates hired after October 1, 2022.

3. For the purposes of this article "Credentialed" is defined as in receipt of Paramedic Credential Pay as seen in Workday.

2.4. "In Good Standing" status is a prerequisite qualification to be eligible for promotional testing within the Georgetown Fire Department.

3.5. The Parties agree that Completion of the following minimum qualifications (or equivalent consolidated task books) apply for each rank in order to be eligible participate in the promotional examination process. The deadline for meeting the minimum requirements will be the day prior to the written exam date:

(a) Paramedic II: Completion of a minimum of two (2) years at Firefighter and/or Paramedic (single-role) rank; in good standing; Firefighters must complete the Firefighter Task Book AND completion of Driver/Operator I Task Book; Paramedic (single-role) must complete the Paramedic I Task Book.

(b) Fire Driver: Completion of a minimum of two (2) years at Firefighter rank; in good standing; completion of Driver/Operator I Task Book. Driver Engineer Pumper Task Book, or equivalent, for Firefighters hired after January 1, 2012. Additionally, a Paramedic II (single-role) is eligible to test if they complete a minimum of two (2) years at the Paramedic rank; are in good standing; possess TCFP fire

~~certification; completion of Paramedic II Task Book, Firefighter Task Book, AND Driver/Operator I Task Books.~~

~~(c) Captain: Completion of a minimum of two (2) years at Fire Driver rank or Paramedic II; in good standing; and completion of the Fire/EMS Officer I Task Book I. Additionally, promotional candidates must have a minimum of four years fire experience with the Department. Single role Paramedic II ranked members are not eligible to test for Captain.~~

~~(d) EMS Captain: Completion of a minimum of two (2) years at Fire Driver/Paramedic rank or Paramedic II; in good standing; and completion of the Fire/EMS Officer I Task Book I and Paramedic II Task Book.~~

~~(e) Battalion Chief: completion of a minimum of two (2) years as a Captain OR three (3) years combined experience at the Captain and EMS Captain/Lieutenant rank; in good standing; and shall complete the Fire/EMS Officer III Task Book. Single role Paramedic II ranked members are not eligible to test for Battalion Chief.~~

(a) Paramedic FTO:
1. Two (2) years at the Firefighter and/or Paramedic rank
2. Two (2) years as a Georgetown credentialed Paramedic
3. Acting Paramedic FTO Task Book

(b) Engineer:
1. Two (2) years at Firefighter rank
2. Two (2) years TCFP Structural Firefighter certification
3. Acting Engineer Task Book

(c) Fire Captain:
1. Two (2) years at Engineer and/or Paramedic FTO rank
2. Four (4) years serving in a Firefighter classification under Georgetown Fire Department
3. Four (4) years at TCFP certificate Firefighters
4. Meet promotional educational requirements (Section 4)
5. Acting Engineer Task Book
6. Acting Captain Task Book

(d) EMS Captain:
1. Two (2) years at Engineer and/or Paramedic FTO rank
2. Four (4) years as a Georgetown credentialed Paramedic
3. Meet promotional educational requirements (Section 4)
4. Acting Paramedic FTO Task Book
5. Acting Captain Task Book

(e) Battalion Chief:
1. Two (2) years as a Fire Captain and/or EMS Captain
2. Meet promotional educational requirements (Section)
3. Acting Battalion Chief Task Books

*Single role Paramedics are not eligible to test for Battalion Chief

Section 3. Task Book Timelines

Task Books started prior to October 1, 2026, and completed in accordance with specified timelines and requirements will be sufficient for meeting the promotional Task Book eligibility requirement.

All in-class and acting Task Books shall be completed within 12-months from initiation.

Once developed, all consolidated Task Books shall be completed within 18-months from assignment.

Task Books may be re-initiated or extended at the discretion of the Fire Chief based on mitigating circumstances.

Probationary Firefighter Task Book shall be completed within 12-months from date of hire

EMT or Paramedic Credentialing Task Books shall be completed within 180 days of issue

Higher class Task Books require a minimum of one (1) year in current position and completion of in-class Task Books prior to issuance.

A member that is already in the ranked position on October 1, 2026, but was not issued a Task Book, shall be required to complete the professional requirements at the operation convenience of the Department.

1. Task Books listed

~~a. Fire Fighter~~
~~b. EMT/Paramedic Credentialing~~

j. Battalion Chief II

2. The following task books are listed for each position. Completion of both In-class and Higher-Class Task Books (or consolidated equivalents) is mandatory. Optional Task Books may be initiated at the members discretion upon completion of all required in-class and higher-class Task Books assigned to their current position

   a. Firefighter:
      In-Class: EMT/Paramedic Credentialing; Probationary Firefighter
      Higher Class: Acting Engineer
      Optional: Acting Paramedic FTO

   b. Paramedic:
      In Class: EMT/Paramedic Credentialing
      Higher Class: Acting Paramedic FTO

   c. Engineer:
      In-Class: Engineer II
      Higher Class: Acting Captain
      Optional: Paramedic FTO II

   d. Paramedic FTO:
      In Class: Paramedic FTO II
      Higher Class: Acting Captain
      Optional: Engineer II

   e. Fire Captain:
      In Class: Fire/EMS Officer II
      Higher Class: Acting Battalion Chief *
      Optional: Paramedic FTO II

   f. EMS Captain:
      In Class: Fire/EMS Officer II
      Higher Class: Acting Battalion Chief *
      Optional: Engineer II

   g. Battalion Chief:
      In Class: Fire/EMS Officer IV

   * Firefighter certified Fire and EMS Captains shall be required to complete the Acting Battalion Chief Task Book, but will not be mandated to fill Higher Class Battalion Chief positions unless desired by the individual.

3. Task Book Types
   a. Higher Class (HC) Task Books: Higher Class Task books shall be issued upon one year in rank.

   b. In Class Task Books: EMT/Paramedic credentialing and Firefighter Task Books shall be issued prior to completion of their respective academies. In Class Task

Books for all promoted positions shall be issued automatically and within 30 days of promotion.

c. Consolidated Task Books: It is the intent of the department to consolidate in-class and acting Task Books. Members who previously completed acting and in-class task books will be considered to have completed consolidated Task books

d. Individuals shall notify admin if these books are not received within 30 days after meeting time in rank requirements or promotion.

4. Members shall not be denied requested optional task books, however shift commanders have discretion to determine timing to complete the task book within the 1-year period based on operational requirements.
5. For the purposes of minimum promotional qualifications, Task Books that are issued or completed will be exempt from any Task Book requirements changes as long as the Task Book is/was successfully completed within 12 months of issue.
6. A member shall be required to complete additional professional development requirements for the position at the discretion of the Operations Chief.

~~2. Higher Class (HC) Task Books: Paramedic I Task Book will be issued after completion of Paramedic Credentialing Task Book and completion of one year in rank. Fire/EMS Officer I Task Book will be issued after completion of Driver/Operator I Task Book and one year in rank. Fire/EMS Officer III will be issued upon request after completing 1 year in rank.~~

~~3. Position Task Books: Driver/Operator II, Paramedic II, Fire/EMS Officer II, and Fire Officer IV will be issued within 30 days of promotion.~~

~~Task Book that is issued or completed will be exempt from any additional requirements or changes as long as the Task Book is/was successfully completed within 12 months of issue.~~

~~A member may be required to complete additional continuing education requirements for the position.~~

~~The parties agree that the following timeline will be followed for distribution and completion of Task Books.~~

~~Fire Fighter, Driver/Operator I, Driver/Operator II, Paramedic I, Paramedic II, Fire/EMS Officer I, II, III, and IV Task Books must be completed within 12 months of issue.~~

~~EMT/Paramedic Credentialing Task Books must be completed within 180 days of issue.~~

~~4. New hires will be issued a Firefighter task book before the end of their fire academy. Upon successful completion of Fire Fighter Task Book, and one year in rank, a Driver/Operator Task Book will be issued.~~

~~New hires will be issued an EMT or Paramedic Credentialing Task Book before or on the first day of EMS academy.~~

5. ~~Driver Operator will be issued a Driver/Operator II Task Book within 30 days of promotion. A Fire/EMS Officer I Task Book will be issued upon completion of the Driver/Operator II Task Book and one year in rank. Paramedic I Task Book will be issued upon request and completion of Paramedic I Task Book.~~

6. ~~Paramedic II will be issued a Paramedic II task book within 30 days of promotion. A Driver/Operator II task book will be issued upon completion of Paramedic II task book. A Fire/EMS Officer I Task Book will be issued upon completion of the Driver/Operator II Task Book and one year in rank.~~

7. ~~EMS Captain will be issued a Fire/EMS officer II positional task book within 30 days of promotion. A Fire/EMS Officer III Task Book may be issued upon request after completing one year in rank. Single-role certified EMS Captains will not be eligible for the Fire/Ems Officer III Task Book.~~

8. ~~Fire Captain will be issued a Fire/EMS officer II task book within 30 days of promotion. A Fire/EMS officer III Task Book may be issued upon request after completing one year in rank.~~

9. ~~Battalion Chief will be issued a Fire/EMS officer IV task book within 30 days of promotion.~~

10. ~~Task Book Summary for all positions:~~

~~**Position**~~	~~**Task Books required**~~	~~**Task Book optional**~~
~~**FF EMT/P**~~	~~Fire Fighter~~	
	~~EMT/Paramedic Credentialing~~	
	~~Driver/Operator I~~	
	~~Paramedic I~~	
~~**Paramedic only**~~	~~EMT/Paramedic Credentialing~~	
	~~Paramedic I~~	
~~**Driver Operator**~~	~~Driver/Operator II~~	~~Paramedic I~~
	~~Fire/EMS Officer I~~	~~Paramedic II~~
~~**Paramedic II**~~	~~Paramedic II~~	
	~~Driver/Operator II~~	
	~~Fire/EMS Officer I~~	
~~**Captain**~~	~~Fire/EMS Officer II~~	~~Fire/EMS Officer III~~
~~**EMS Captain**~~	~~Fire/EMS Officer II~~	~~Fire/EMS Officer III (if elig.)~~
~~**Battalion Chief**~~	~~Fire/EMS Officer IV~~	

Section 4. Promotional Educational Requirements

~~The Parties agree that the following minimum college educational requirements apply for each rank in order to participate in the promotional examination process beginning on the dates described below:~~

	~~Captain~~	~~BC~~	~~New Hire~~
~~**October 2023**~~	~~15 credits~~	~~30 credits~~	~~Associates for Officer/Supervisor~~
~~**October 2024**~~	~~30 credits~~	~~45 credits~~	~~Associates for Officer/Supervisor~~
~~**October 2025**~~	~~45 credits~~	~~Associates~~	~~Associates for Officer/Supervisor~~

~~Promotional candidates are responsible for demonstrating completion of educational requirements at the time the employee completes the "Notice of Intent to Test" to the Civil Service Director as specified in Local Civil Service Rule 032. If there are not at least three candidates who meet the college educational requirement, eligibility for the promotional exam shall be opened up to all otherwise qualified candidates.~~

1. The Parties agree that the following minimum credit/degree requirements apply for each rank in order to participate in the promotional examination process:

	Captain	**Battalion Chief**
FY27	45 credits	60 credits or Associates
FY28	45 credits	60 credits or Associates
FY29	60 credits or Associates	Associates
FY30	60 Credits or Associates	Associates

2. Credits towards promotional eligibility can be earned in two ways, academically or professionally. College credits will be applied on a 1:1 basis for credit hours earned at an accredited academic institution. Professional education credits (up to 15) will be awarded in 3-point increments for each TCFP certifications earned above those required for promotional pre-requisites. Professional education credits can be earned for multiple courses within a series (e.g. ARFF basic and ARFF Intermediate would count as 3 credits each). The following are certifications eligible for substituted credit:

   Captain:

   Instructor: Level 2; Level 3; Level 3-Master

   Fire Officer: 2; 3; 4

   Hazardous Materials: Technician; Incident Commander

Rope Rescue: Awareness/Operations; Technician

Driver Operator: Aerial

Aircraft Rescue Fire Suppression (ARFF): Basic; Intermediate; Advanced; Master

Fire Investigator: Basic; Intermediate; Advanced; Master

Incident Safety Officer

Wildland Fire Protection: Basic; Intermediate

Plans Examiner

Fire & Life Safety Educator: 1; 2

Incident Commander

Fire Marshal: Basic; Intermediate; Advanced; Master

Inspector: Basic; Intermediate; Advanced; Master

Arson Investigator: Basic; Intermediate; Advanced; Master

Battalion Chief

Instructor: Level 3; Level 3-Master

Fire Officer: 4

Hazardous Materials: Technician; Incident Commander

Rope Rescue: Awareness/Operations; Technician

Driver Operator: Aerial

Aircraft Rescue Fire Suppression (ARFF): Basic; Intermediate; Advanced; Master

Fire Investigator: Basic; Intermediate; Advanced; Master

Incident Safety Officer

Wildland Fire Protection: Basic; Intermediate

Plans Examiner

Fire & Life Safety Educator: 1; 2

Incident Commander

Fire Marshal: Basic; Intermediate; Advanced; Master

Inspector: Basic; Intermediate; Advanced; Master

Arson Investigator: Basic; Intermediate; Advanced; Master

3. Promotional candidates are responsible for demonstrating completion of promotional educational requirements (defined as degree or credit hours have been awarded on an official transcript) at the time the employee completes the "Notice of Intent to Test" to the Civil Service Director as specified in Local Civil Service Rule 032. If there are not at least three candidates who meet the promotional educational requirement, the Department Head will determine the promotional eligibility requirements for the promotional examination.

Section 5. Promotional Examination Procedure

~~1. The promotional examination procedure for incumbent Lieutenants desiring to promote to the Captain rank shall consist solely of a written examination. Incumbent Lieutenants must achieve a minimum passing score of seventy percent (70%). A certified list of Lieutenants that successfully pass the written examination shall be established and used to promote existing Lieutenants to the Captain rank. The incumbent Lieutenants on the certified list shall have preference for all existing/vacant Captain positions. There will be a maximum of seven (7) Lieutenant positions that will be promoted to the Captain rank under this provision.~~

~~Note: This provision is intended to meet the "phase out" of the Lieutenant rank that is stipulated within Article 3, Section 2(A).~~

~~(b) With the exception of incumbent Lieutenants desiring to promote to the Captain rank, the promotional examination procedure for the positions of Paramedic II, Fire Driver, Captain, EMS Captain, or Battalion Chief will consist of two parts:~~

~~1. a written examination, as defined in this Article, consisting of one hundred (100) multiple choice questions; and, upon passing the written examination part of the promotional examination procedure~~

~~2. participation in all components of an Assessment Center.~~

~~(c) The minimum passing score on the written examination is fifty percent (50%) when combined with an Assessment Center. The minimum passing score shall be seventy percent (70%) when the written examination is not combined with an assessment center.~~

~~(d) The minimum combined passing score of the Written and Assessment Center is Seventy percent (70%).~~

~~(e) The Commission may adopt rules to provide for the efficient administration of a promotional examination for eligible promotional candidates who are members of the armed forces serving on active military duty which may include using only the written examination score for each such candidate for one hundred percent (100%)~~

~~of all such promotional candidates' final scores. If a written examination is offered to an active-duty military candidate, and that candidate receives a minimum passing score, the remaining candidates shall only be required to take the written examination portion of that promotional process and Section 3(b) 2 shall not apply to the examination. If the active-duty military candidate does not receive a minimum passing score, Section 3(b) 2 (Assessment Center) shall still apply.~~

~~(f) The third-party assessors selected to provide the Assessment Center shall meet the following criteria:~~

~~a. Assessors shall be active-duty firefighter(s) of similar rank to the promotion, or above, from cities with a service population of 60,000 or greater;~~

~~b. Assessors shall not reside in the City; and~~

~~c. Shall not be a current or former employee of the City.~~

~~(g) An emergency exception to the Assessment Center criteria shall be allowed on a case-by-case situation when mutually approved by the Civil Service Director and Association president.~~

~~1. Due to the public health crisis, Covid-19, all parties agree to forego administration of the assessment centers, for each promotional process, until safe and practical assessment can be conducted. The Department head, Civil Service Director and Association President will agree to conditions that allow for safe to administration of an assessment center. If all parties can't agree, the Civil Service Director will make the final decision.~~

~~(h) A City employee holding the rank or higher of the promotional position will be present during the Assessment Center to act as a policy related subject matter expert (SME). This individual's interaction will be with the third-party provider of the Assessment Center, and interaction with the assessor panel will be kept to a minimum to preserve the integrity of the assessment. The SME will be mutually agreed upon by the Department head and the Association president.~~

The promotional examination procedure for the positions of Paramedic FTO, Engineer, Fire Captain, EMS Captain, or Battalion Chief will consist of two parts:

1. a written examination, as defined in this Article, consisting of one-hundred (100) multiple choice questions; and, upon passing the written examination part of the promotional examination procedure

2. participation in all components of an Assessment Center.

3. The minimum passing score on the written examination is seventy percent (70%).

4. The minimum combined passing score of the Written and Assessment Center is seventy percent (70%).

5. The Commission shall adopt rules governing the promotional examination procedure and promotional eligibility lists in accordance with this Article for the promotional positions of Paramedic FTO, Engineer, Fire Captain, EMS Captain and Battalion Chief. Further, the Commission may adopt rules to provide for the efficient administration of a promotional examination for eligible promotional candidates who are members of the armed forces serving on active military duty which may include using only the written examination score for each such candidate for one hundred percent (100%) of all such promotional candidates' final scores. If a written examination is offered to an active-duty military candidate, and that candidate receives a minimum passing score, the remaining candidates shall only be required to take the written examination portion of that promotional process and Section 7 shall not apply to the examination. If the active-duty military candidate does not receive a minimum passing score, Section 7 (Assessment Center) shall still apply.

6. The third-party assessors selected to provide the Assessment Center shall meet the following criteria:

   a. Assessors shall be active-duty Firefighter(s) of similar rank to the promotion, or above, from agencies with a service population of 50,000 or greater;

   b. Assessors shall not reside in the City; and

   c. Shall not be a current or former employee of the City.

7. An emergency exception to the Assessment Center criteria shall be allowed on a case-by-case situation when mutually approved by the Civil Service Director and Association president.

8. A City employee holding the rank or higher than the promotional position will be present during the Assessment Center to act as a policy related subject matter expert (SME). This individual's interaction will be with the third-party provider of the Assessment Center, and interaction with the assessor panel will be kept to a minimum to preserve the integrity of the assessment. If there is disagreement on the designated SME, the SME shall be mutually agreed upon by the Department Head and the Association president prior to the initiation of the Assessment Center.

Section 6. Written Examination

The term "written examination" in this Article means the written examination provided for under Chapter 143 of the Texas Local Government Code and does not mean any written part of the Assessment Center. Upon passing the written examination part of the promotional examination procedure, the promotional candidate shall proceed to the Assessment Center. Fifty percent (50%) of a promotional candidate's preliminary score will be based on the written examination grade.

Section 7. Assessment Center

(a) Fifty percent (50%) of a promotional candidate's preliminary score will be based on the Assessment Center score.

(b) The approved contractor will develop an assessment instrument commensurate for the classification sought and shall consist of no less than four (4) performance exercises that test and allow for the objective evaluation of the candidates' possession of the following attributes including but not limited to:

- Leadership
- Decisiveness
- Self-Initiative
- Adaptability
- Interpersonal Skills
- Written Communication Skills
- Problem Analysis
- Problem Solving
- Critical Thinking
- Judgment
- Planning and Organizing
- Risk Management
- Technical Proficiency
- Tactical Proficiency

If any single portion of the performance exercises is compromised, that section may be withdrawn. Under these circumstances, a minimum of 3 portions must be evaluated. In the event multiple performance exercises are compromised, the assessment center portion of the exam may be discarded entirely. Both of these events require final adjudication of the Civil Service Commission

(c) The performance exercises shall be appropriate for the classification being tested for and may include but not limited to:

- Oral Presentations
- Leaderless Group Exercises
- Prioritization Exercises
- Structured Interviews
- Written Exercises (Analysis, Proposal, etc.)
- Role Play Exercises
- Tactical Exercise

(d) Neither the Department H~~h~~ead nor the Civil Service Director will be directly involved in the design of the assessment instrument other than the prerequisite interaction and dialogue with the contractor necessary to facilitate an effective and efficient assessment and in order to meet the contractor's informational needs for design.

(e) The contractor will make available an orientation to all candidates not more than 30~~15~~ days nor less than 72~~12~~ hours prior to the first day of the assessment. The orientation shall be designed to ease anxiety about what to expect from the assessment without revealing the totality of the instrument itself. In the event an assessment contractor utilizes an on-site orientation methodology, the orientation will occur no less than 24 hours prior to the assessment.

(f) Should any of the listed components be either unavailable or not recommended by the selected Assessment Center provider, a suitable alternate will be approved by the Department H~~h~~ead and Civil Service Director and communicated, in writing, to participants prior to the Assessment Center.

~~1. Due to the public health crisis, Covid-19, all parties agree to forego administration of the assessment centers, for each promotional process, until safe and practical assessment can be conducted. As Covid-19 is an unplanned event, it is agreed that the ninety (90) day notice does not apply. The Department head, Civil Service Director and Association President will agree to conditions that allow for safe to administration of an assessment center. If all parties can't agree, the Civil Service Director will make the final decision.~~

Section 8. Procedure for Making Promotional Appointments

~~(a) The preliminary score for each candidate who has passed the written examination and proceeded through the Assessment Center shall be computed by taking the candidate's written examination grade and multiply the grade by .50 to account for fifty percent (50%) of the candidate's preliminary score; and adding the candidate's Assessment Center score and multiply that score by .50 to account for fifty percent (50%) of the preliminary score (see below). The promotional candidate's overall score to be placed on the eligibility list shall be computed by adding the applicant's point(s) for seniority to the applicant's preliminary score. One seniority point shall be awarded for each full year of a candidate's time in his/her current rank classification; there shall be a maximum of ten (10) seniority points added to the candidate's preliminary score. A member shall receive credit for all years served in the Fire Driver and Paramedic II rank, up to a maximum of 10 points.~~

~~Passing Grade on Written Examination x 50% for all promotional processes~~
~~+~~
~~Assessment Center score x 50% for all promotional processes~~
~~=~~
~~[preliminary score] + applicable seniority points for time in rank = **overall score**~~

(a) The preliminary score for each candidate who has passed the written examination and proceeded through the Assessment Center shall be computed by taking the candidate's written examination grade and multiply the grade by 0.5 to account for fifty percent (50%) of the candidate's preliminary score; One seniority point shall

then be awarded for each full year of a candidate's time within the Department; there shall be a maximum of ten (10) seniority points added to the candidate's preliminary score. Seniority points for a testing process will be calculated based on whole years of service completed as of the day prior to the written exam. Finally, the candidate's Assessment Center score will be multiplied by 0.5 to account for the remaining fifty percent (50%) of the preliminary score (see below).

Passing Grade on Written Examination x 0.5 for all promotional processes + applicable seniority points for time within the Department

+
Assessment Center score x 0.5 for all promotional processes
=
Overall Score

(b) After the calculation of all the overall scores, an eligibility list will be created and maintained pursuant to Section 9~~7~~ below. The Department H~~h~~ead shall conduct an interview or interviews of promotional candidate(s) to fill promotional vacancies. The Department H~~h~~ead possesses the discretion regarding the number of candidates to interview based upon the number of vacancies at that time. The Department H~~h~~ead shall appoint the eligible promotional candidate having the highest overall score on the eligibility list unless the Department H~~h~~ead has a valid reason for not appointing the person as provided for under Section 143.036(f) and (g) of the Texas Local Government Code. If the Department H~~h~~ead has a valid reason for not appointing the eligible promotional candidate having the highest overall score, the Department H~~h~~ead shall personally discuss the reason with the person being bypassed before appointing another person. The Department H~~h~~ead shall also file the reason in writing with the commission and shall provide the person with a copy of the written notice.

Section 9. Effect of an Eligibility List Created Under this Article

A promotional eligibility list in existence at the time of the adoption of this Article shall continue in effect until its expiration in accordance with section 143.036(h) of the Texas Local Government Code. Any promotional eligibility list created under this Article will take effect upon the expiration of any existing applicable list and will remain in existence for ~~one (1) year~~18 months. The 18-month window will begin on the date of final certification of the eligibility list by the Civil Service Commission. ~~after the date on which the Assessment Center is completed and eligibility list created, unless the eligibility list is sooner exhausted. At the~~ In the event a list is exhausted prior to 18 months, or upon expiration of the eligibility list a new examination ~~may~~ process should be held~~.~~ to minimize delays in maintaining an established promotional list.

Section 10. Appeal

(a) Written Examination

A promotional candidate may appeal the multiple-choice written examination under section 143.034 of the Texas Local Government Code. The invalidation of any question or any component of the written examination shall not invalidate the remainder of the written examination. Both parties agree to accept singular, multiple, or all answers to test questions, but reject the option to eliminate questions.

(b) Assessment Center

(1) A promotional candidate may not appeal or dispute the Assessment Center or scoring of the Assessment Center to an administrative or judicial body except as provided below.

(2) ~~Fire Driver~~Engineer promotional candidate who attended the pre-assessment center training and overview offered to all candidates may appeal any of the required Assessment Center components stipulated in Section 7~~5~~(b)~~(b)~~ of this article. The candidate must notify the SME of the appeal immediately after completion of the component and prior to the assessors grading and documenting the score. An appeal form will be provided to the candidate seeking an appeal, All appeals shall be submitted in writing to the SME, who will then discuss the appeal with the assessors and the representative from the Assessment Center provider. Once this discussion is finished, the SME will then make a ruling. Once the ruling is made the candidates score will be tallied and any adjustments needing to be made will be corrected on the score sheet and then the grade will be finalized.

(c) Passover

The appeal provisions of Texas Local Government Code 143.036 (f) and (g) apply to a person having the highest overall score if they are not appointed by the Department H~~h~~ead.

Section 11. Illness Provision

Promotional Exam Procedure for Personnel with Critical Illness/Injury

Promotional Exam procedures for candidates with critical illness/injury under limited circumstances will be accommodated in the form of an offsite written examination, within 72 hours of the posted examination date, for a candidate that meets all of the following criteria.

a) The candidate shall submit a letter to the Civil Service Director accompanied by a doctor's note no later than 21 days before the scheduled written examination. The letter and doctor's note need address the nature of the critical illness/injury as well as the accommodations requested. A letter submitted with less than a 21-days' notice

must indicate good reason (such as new diagnosis) in order to be given consideration described in (c) and may be accommodated only when all elements of (c) can be satisfied within the shorter timeframe.

b) The critical illness/injury must be for the treatment of a significant health condition such as cancer, kidney disease, heart attack, major surgery, organ transplant, benign brain tumor, severe burns, or a similar condition. It may also include quarantine/isolation for an infectious disease.

c) The Civil Service Director will determine if the request meets the limited illness/injury criteria and what accommodations are workable. The Civil Service Director will then review the planned accommodations (or lack thereof) with the Department H~~h~~ead and Association President. If the Civil Service Director and Association President agree upon the accommodations, those will then be communicated back to the candidate by the Civil Service Director.

d) The accommodation will not impact the candidate's rights to appeal. They will retain the same appeal rights, under the same requirement to appeal within five business days of posted examination date as other testing candidates.

e) In the event that the employee or employees receiving accommodation per the illness provision impacts the number of employees who are present for the written examination to fall below the two required, the City will administer the examination to the one individual.

Section 12. Statutory Override

This Article modifies sections 143.030, 143.032, 143.033, 143.034, and 143.036 of the Texas Local Government Code. This Article further preempts, to the extent of any conflict, all contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department H~~h~~ead or head of the City or by a division or agent of the City, such as the commission.

ARTICLE 6~~5~~
FIRE & LIFE SAFETY DIVISION - PROMOTIONS

Section 1. Intent

In adopting this Article, the Parties agree to implement a promotional system using an Assessment Center component in addition to the written examination. The Parties believe an Assessment Center component to the selection process will improve the selection process and provides promotional candidates a fair opportunity to display skills and abilities that serve as additional good indicators that they will perform well in the position of Fire ~~Prevention~~ & Life Safety Specialist and Deputy Fire Marshal.

Section 2. Implementation

(a) The City reserves the right to expand the candidate pool if there is an insufficient number of qualified candidates to participate and fill the authorized positions.

(b) ~~Beginning FY21,~~ FLS Promotions shall be open to all members of the Department that meet the criteria contained within this article.

(c) Completion of Task Books will be required for all promotional exams conducted after October 1, 2020.

Section 3. Time in Rank and Minimum Promotional Qualifications

Paramedic certification and paramedic credentialing ~~may~~ shall be considered a minimum requirement for all promoted positions for candidates hired after October 1, 2022 at the discretion of the D~~d~~epartment H~~h~~ead.

"In Good Standing" status is a prerequisite qualification to be eligible for promotional testing within the Georgetown Fire Department.

Completion of ~~The parties agree that~~ the following minimum qualifications (or equivalent consolidated task books) apply for each rank to be eligible to ~~are required to~~ participate in the promotional examination process. The deadline for meeting the minimum requirements will be the day prior to the written exam date:~~:~~

~~(a) Fire Prevention Specialist: completion of a minimum of two (2) years at firefighter rank; in good standing; completion of Firefighter Task Book AND completion of Driver/Operator Task Book; TCFP Fire Inspector Certification or equivalent as determined by TCFP, TCFP Fire Investigator Certification.~~

~~(b) Deputy Fire Marshal: completion of a minimum of two (2) years at Fire Prevention Specialist; in good standing; completion of Firefighter Task Book AND completion~~

~~of Driver/Operator Task Book; TCFP Fire Inspector I and II or equivalent as determined by TCFP, TCFP Fire Investigator.~~

(a) Fire & Life Safety Specialist

a. Two (2) years at Firefighter rank;
b. Probationary Firefighter Task Book:
c. Engineer I Task Book;
d. TCFP Fire Inspector Certification:
e. TCFP Fire Investigator Certification.

(b) Deputy Fire Marshal:
1. Two (2) years at Fire & Life Safety Specialist;
2. Fire & Life Safety Specialist Task Book;
3. TCFP Basic Fire Marshal;
4. Meet promotional educational requirements as required for promotion to the Captain rank.

Section 4. Promotional Examination Procedure

(a) The promotional examination procedure for the positions of Fire Prevention Specialist and Deputy Fire Marshal will consist of two parts:

1. a written examination, as defined in this Article, consisting of a minimum of fifty (50) multiple choice questions; and, upon passing the written examination part of the promotional examination procedure.

2. Participation in a ~~Georgetown or~~ contractor proctored Assessment Center.

The minimum passing score on the written examination is ~~fifty~~ seventy percent (~~50~~70%) ~~when combined with an Assessment Center. The minimum passing score shall be seventy percent (70%) when the written examination is not combined with an assessment center.~~

The minimum combined passing score of the Written and Assessment Center is Seventy percent (70%).

(b) The Commission shall adopt rules governing the promotional examination procedure and promotional eligibility lists in accordance with this Article for the promotional positions of Fire Prevention Specialist and Deputy Fire Marshal. Further, the Commission may adopt rules to provide for the efficient administration of a promotional examination for eligible promotional candidates who are members of the armed forces serving on active military duty which may include using only the written examination score for each such candidate for one hundred percent (100%) of all such promotional candidates' final scores. If a written examination is

offered to an active-duty military candidate, and that candidate receives a minimum passing score, the remaining candidates shall only be required to take the written examination portion of that promotional process and Section ~~4(a) 2~~6 shall not apply to the examination. If the active-duty military candidate does not receive a minimum passing score, Section ~~4(a) 2~~6 (Assessment Center) shall still apply.

(c) The City of Georgetown shall ~~conduct the Assessment Center and shall choose~~ identify assessors that meet the following criteria for the Assessment Center:

1. Assessors shall be active members similar rank to the promotion, or above, from agencies ~~cities~~ with a service population of ~~60~~50,000 or greater;

2. Assessors shall not reside in the City; and

3. Shall not be a current or former employee of the City.

(d) An emergency exception to the Assessment Center criteria shall be allowed on a case-by-case situation when mutually approved by the Civil Service Director and Association president.

~~1. Due to the public health crisis, Covid-19, all parties agree to forego administration of the assessment centers, for each promotional process, until safe and practical assessment can be conducted. The Department head, Civil Service Director and Association President will agree to conditions that allow for safe to administration of an assessment center. If all parties can't agree, the Civil Service Director will make the final decision.~~

(e) A City employee holding the rank or higher ~~of~~ than the promotional position will be present during the Assessment Center to act as a policy related subject matter expert (SME). This individual's interaction will be with the third-party provider of the Assessment Center, and interaction with the assessor panel will be kept to a minimum to preserve the integrity of the assessment. The SME will be mutually agreed upon by the Department H~~h~~ead and the Association president. If there is disagreement on the designated SME, the SME shall be mutually agreed upon by the Department Head and the Association president prior to the initiation of the Assessment Center.

Section 5. Written Examination

The term "written examination" in this Article means the written examination provided for under Chapter 143 of the Texas Local Government Code and does not mean any written part of the Assessment Center. Upon passing the written examination part of the promotional examination procedure, the promotional candidate shall proceed to the Assessment Center. Fifty percent (50%) of a promotional candidate's preliminary score will be based on the written examination grade.

Section 6. Assessment Center

(a) Fifty percent (50%) of a promotional candidate's preliminary score will be based on an Assessment Center score.

(b) The Assessment instrument commensurate for the classification sought and shall consist of no less than four (4) performance exercises that test and allow for the objective evaluation of the candidates' possession of the following attributes including but not limited to:

- Leadership
- Decisiveness
- Self-Initiative
- Adaptability
- Interpersonal Skills
- Written Communication Skills
- Problem Analysis
- Problem Solving
- Critical Thinking
- Judgment
- Planning and Organizing
- Risk Management
- Technical Proficiency
- Tactical Proficiency

(c) The performance exercises shall be appropriate for the classification being tested for and may include but not limited to:

- Oral Presentations
- Leaderless Group Exercises
- Prioritization Exercises
- Structured Interviews
- Written Exercises (Analysis, Proposal, etc.)
- Role Play Exercises
- Tactical Exercise

(d) If any single portion of the performance exercises is compromised, that section may be withdrawn. Under these circumstances, a minimum of 3 portions must be evaluated. In the event multiple performance exercises are compromised, the assessment center portion of the exam may be discarded entirely. Both of these events require final adjudication of the Civil Service Commission.

~~(d)~~(e) Neither the Department H~~h~~ead nor the Civil Service Director will be directly involved in the design or the assessment instrument other than the prerequisite interaction and dialogue with the contractor necessary to facilitate an effective and efficient assessment and in order to meet the contractor's informational needs for design.

(f) An orientation to all candidates not more than ~~15~~ 30 days nor less than ~~12~~ 72 hours prior to the first day of the assessment. The orientation shall be designed to ease anxiety about what to expect from the assessment without revealing the totality of the instrument itself. In the event an assessment contractor utilizes an on-site orientation methodology, the orientation will occur no less than 24 hours prior to the assessment.

~~(e)~~

~~(f)~~(g) Should any of the listed components be either unavailable or not recommended by the selected Assessment Center provider, a suitable alternate will be approved by the Department H~~h~~ead and Civil Service Director and communicated, in writing, to participants prior to the Assessment Center.

~~1. Due to the public health crisis, Covid-19, all parties agree to forego administration of the assessment centers, for each promotional process, until safe and practical assessment can be conducted. As Covid-19 is an unplanned event, it is agreed that the ninety (90) day notice does not apply. The Department head, Civil Service Director and Association President will agree to conditions that allow for safe to administration of an assessment center. If all parties can't agree, the Civil Service Director will make the final decision.~~

Section 7. Procedure for Making Promotional Appointments

~~(a) The preliminary score for each candidate who has passed the written examination and proceeded through the Assessment Center shall be computed by taking the candidate's written examination grade and multiply the grade by .50 to account for fifty percent (50%) of the candidate's preliminary score; and adding the candidate's Assessment Center score and multiply that score by .50 to account for fifty percent (50%) of the preliminary score (see below). The promotional candidate's overall score to be placed on the eligibility list shall be computed by adding the applicant's point for seniority to the applicant's preliminary score. Seniority points will be based on the following:~~

~~i. For Fire Prevention Specialist: One seniority point shall be awarded for each full year of a candidate's time in department; there shall be a maximum of ten (10) seniority points added to the candidate's preliminary score.~~

~~ii. For Deputy Fire Marshal: One seniority point shall be awarded for each full year of a candidate's time in Fire and Life Safety division (assignment); there shall be a maximum of ten (10) seniority points added to the candidate's preliminary score.~~

~~Passing Grade on Written Examination x 50%~~
~~+~~

~~Assessment Center score x 50% for all promotional processes~~
~~=~~
~~[preliminary score] + applicable seniority points for time FPS department or DFM assignment= **overall score**~~

(c) The preliminary score for each candidate who has passed the written examination and proceeded through the Assessment Center shall be computed by taking the candidate's written examination grade and multiply the grade by 0.5 to account for fifty percent (50%) of the candidate's preliminary score; One seniority point shall then be awarded for each full year of a candidate's time within the Department; there shall be a maximum of ten (10) seniority points added to the candidate's preliminary score. Seniority points for a testing process will be calculated based on whole years of service completed as of the day prior to the written exam. Finally, the candidate's Assessment Center score will be multiplied by 0.5 to account for the remaining fifty percent (50%) of the preliminary score (see below).

Passing Grade on Written Examination x 0.5 for all promotional processes + applicable seniority points for time within the Department

+
Assessment Center score x 0.5 for all promotional processes
=
Overall Score

The Department H~~h~~ead shall conduct an interview or interviews of promotional candidate(s) to fill promotional vacancies. The Department H~~h~~ead possesses the discretion regarding the number of candidates to interview based upon the number of vacancies at that time. The Department H~~h~~ead shall appoint the eligible promotional candidate having the highest overall score on the eligibility list unless the Department H~~h~~ead has a valid reason for not appointing the person as provided for under Section 143.036(f) and (g) of the Texas Local Government Code. If the Department H~~h~~ead has a valid reason for not appointing the eligible promotional candidate having the highest overall score, the Department H~~h~~ead shall personally discuss the reason with the person being bypassed before appointing another person. The Department H~~h~~ead shall also file the reason in writing with the C~~c~~ommission and shall provide the person with a copy of the written notice.

Section 8. Effect of an Eligibility List Created Under this Article

A promotional eligibility list in existence at the time of the adoption of this Article shall continue in effect until its expiration in accordance with section 143.036(h) of the Texas Local Government Code. Any promotional eligibility list created under this Article will take effect upon the expiration of any existing applicable list and will remain in existence for-18 months. The 18-month window will begin on the date of final certification of the eligibility list by the Civil Service Commission.~~one (1) year after the date on which the Assessment Center is completed and eligibility list created, unless the eligibility list is sooner exhausted~~. In the event a list is exhausted prior to 18 months, or upon~~At the~~ expiration of the eligibility list a new examination process should be held when a vacancy is anticipated and/or occurs to minimize delays in maintaining an established promotional list. ~~may be held.~~

Section 9. Appeal

(a) Written Examination

A promotional candidate may appeal the multiple-choice written examination under section 143.034 of the Texas Local Government Code. The invalidation of any question or any component of the written examination shall not invalidate the remainder of the written examination. Both parties agree to accept singular, multiple, or all answers to test questions, but reject the option to eliminate questions.

(b) Assessment Center

A promotional candidate may not appeal or dispute the Assessment Center or scoring of the Assessment Center to an administrative or judicial body.

(c) Passover

The appeal provisions of Texas Local Government Code 143.036 (f) and (g) apply to a person having the highest overall score if they are not appointed by the Department H~~h~~ead.

Section 10. Illness Provision

Promotional Exam Procedure for Personnel with Critical Illness/Injury

Promotional Exam procedures for candidates with critical illness/injury under limited circumstances will be accommodated in the form of an offsite written examination, within 72 hours of the posted examination date, for a candidate that meets all of the following criteria.

a) The candidate shall submit a letter to the Civil Service Director accompanied by a doctor's note no later than 21 days before the scheduled written examination. The letter and doctor's note need address the nature of the critical illness/injury as well as the accommodations requested. A letter submitted with less than a 21-day notice must indicate good reason (such as new diagnosis) in order to be given consideration described in (c) and may be accommodated only when all elements of (c) can be satisfied within the shorter timeframe.

b) The critical illness/injury must be for the treatment of a significant health condition such as cancer, kidney disease, heart attack, major surgery, organ transplant, benign brain tumor, severe burns, or a similar condition. It may also include quarantine/isolation for an infectious disease.

c) The Civil Service Director will determine if the request meets the limited illness/injury criteria and what accommodations are workable. The Civil Service Director will then

review the planned accommodations (or lack thereof) with the Department H~~h~~ead and Association President. If the Civil Service Director and Association President agree upon the accommodations, those will then be communicated back to the candidate by the Civil Service Director.

d) The accommodation will not impact the candidate's rights to appeal. They will retain the same appeal rights, under the same requirement to appeal within five business days of posted examination date as other testing candidates.

e) In the event that the employee or employees receiving accommodation per the illness provision impacts the number of employees who are present for the written examination to fall below the two required, the City will administer the examination to the one individual.

Section 11. Statutory Override

This Article modifies sections 143.030, 143.032, 143.033, 143.034, and 143.036 of the Texas Local Government Code. This Article further preempts, to the extent of any conflict, all contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department H~~h~~ead or head of the City or by a division or agent of the City, such as the commission.

ARTICLE 7~~6~~
APPOINTED POSITIONS

Section 1. Intent

This article is intended to establish the manner by which appointed ranks, referenced in article 4~~3~~, are filled.

Section 2. Assistant Chief

Upon vacancy, up to three (3) Assistant Chief positions may be filled by an internal or external candidate by appointment by the Department H~~h~~ead pursuant to the process provided for in Section 143.014(e) of the Texas Local Government Code or proceed to an external appointment.

The following criteria applies to appointments for Assistant Chief:

(a) In the event that there are ~~no~~ fewer than three (3) qualified internal candidates, the Department H~~h~~ead shall have the right to ~~appoint an Assistant Fire Chief~~ include Chief Officer candidates from outside of the Department. The selection criteria used for this external/internal hire/appointment must include the equivalent requirements for a qualified internal candidate and include an assessment process that is equivalent to or more comprehensive than the assessment process used for the promotion of a member to the Battalion Chief rank.

(b) For the purposes of this Agreement "qualified internal candidate" shall be defined as the member being in good standing; actively functioning in the rank of Captain or higher for a minimum of four (4) years; demonstrated competencies to function in the Battalion Chief rank as determined by the Chief; obtained at least a Bachelor's Degree from an accredited educational institution; ~~completion of the Battalion Chief Task Book by the time of appointment;~~ and must be willing to accept the appointment and operate in either the Operational ~~and~~ or Administrative Support division.

(c) An Assistant Fire Chief appointed from outside of the Department is not considered a civil service employee and is not entitled to the protections within Texas Local Government Code Chapter 143. ~~.~~

Section 3. Fire Marshal

Upon vacancy, up to one (1) Fire Marshal position may be filled by an internal or external candidate by appointment by the Department H~~h~~ead pursuant to the criteria contained herein:

(a) In the event that there are no qualified internal candidates, the Department H~~h~~ead shall have the right to appoint a Fire Marshal from outside of the Department. The

selection criteria used for this external hire/appointment must include the equivalent requirements for a qualified internal candidate and include an assessment process that is equivalent to or more comprehensive than the assessment process used for the promotion of a member to the Battalion Chief rank.

(b) For the purposes of this agreement "qualified internal candidate" shall be defined as the member being in good standing; actively functioning in the rank of ~~Lieutenant~~Deputy Fire Marshal, or higher, for a minimum of ~~–~~two (2)~~four (4~~) years; demonstrated competencies to function in the Fire Marshal position as determined by the Chief; ~~completion of the Fire Marshal Chief Book by the time of appointment~~ obtained at lease a Bachelor's Degree from an accredited educational institution or demonstrated ability to complete the degree requirements within 24-months of appointment; and must be willing to accept the appointment and operate in the Fire & Life Safety Division.

(c) A Fire Marshal appointed from outside of the Department is not considered a civil service employee and is not entitled to the protections within Texas Local Government Code Chapter 143. ~~.~~

Section 4. Removal from Appointment Positions

(a) A person who is removed from an Assistant Chief Position appointment shall be reinstated in the Department and placed in the same classification, or its equivalent, to the rank of Battalion Chief and shall retain protection under the Civil Service regulations. An Assistant Chief hired from outside of the Department has no position to be reinstated to, so would separate from employment in a manner consistent with the city's personnel policies for at-will employees.

(b) A person who is removed from the Fire Marshal appointment shall be reinstated in the Department and placed in the rank that immediately preceded their appointment and shall retain protection under the Civil Service regulations. A Fire Marshal hired from outside of the Department has no position to be reinstated to, so would separate from employment in a manner consistent with the city's personnel policies for at-will employees.

Section 5. Statutory Override

This Article modifies sections 143.~~004~~ 003 (4), 143.005, 143.014, 143.021, 143.028, 143.030, 143.032, 143.033, 143.036, and 143.085 of the Texas Local Government Code. This Article further preempts, to the extent of any conflict, all contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department H~~h~~ead or head of the City or by a division or agent of the City, such as the commission.

ARTICLE 8~~7~~
COMPENSATION

Section 1. Base Pay Philosophy

The City recognizes that the recruitment and retention of highly capable and professional Firef~~F~~ighters and Paramedics is essential to the success of the Georgetown Fire Department. As such, it is the desire of the City to maintain a pay philosophy that considers the average pay for Firef~~F~~ighters and Paramedics as reflected in Section 3(a). The parties recognize financial limitations may face the City in challenging economic periods. Section 3(d) of this Article reflects the Parties' intent to address the current economic period and are not intended to serve as precedent in future agreements.

Section 2. Comparator Cities

Austin, Cedar Park, New Braunfels, Travis County ESD 2, Lewisville, Sugar Land, and Round Rock shall continue to be used as comparator cities for the salary survey to be conducted each year of this agreement. City staff will survey salary competitiveness in the first quarter of each calendar year. The results of each survey will be reviewed with Association leadership. Based on the survey information of the comparator cities and in the manner described in section 3, the average of base pay for minimums with the addition of a 2% aging factor for each rank shall be calculated and proposed for approval as a part of the budget process.

Section 3. Compensation Proposal Calculation

a) Compensation for the ranks of Firef~~ F~~ighter, ~~Fire Driver~~Engineer, Fire Captain, and Fire Battalion Chief shall be proposed based on the following calculations. The recommended base pay scale shall be calculated by the salary survey conducted in the first quarter of each calendar year of the Agreement, utilizing the average minimum base salary for each rank of the seven (7) comparator organizations as specified in this Agreement with the addition of a 2% aging factor. The recommendation will propose that the minimum base pay for each rank will receive an increase (should an increase be required) to match the survey average for base pay minimums with the addition of a 2% aging factor. For the purpose of evaluation, the cadent rank will not be used to determine market entry (e.g. TCESD II will be evaluated at the equivalent of the first step of a Firefighter)

b) Compensation for Paramedic, Paramedic ~~H~~FTO, Fire Lieutenant, Fire Prevention Specialist, Deputy Fire Marshal, and all appointed ranks will be at the discretion of the Department H~~h~~ead and Civil Service Director. However, the positions will be tied to existing benchmarked positions that correlate to the salary survey comparison and will reflect pay adjustments accordingly. Compensation will not be adjusted downward.

c) The pay plan recommended for implementation in ~~January of 2023~~October of 2026 reflects an updated tenure-based methodology agreed to by the City and the Association. For the purposes of this article, tenure means the total accumulated service (in full years) in all civil service

classifications(s) within this Department. The pay plan is attached as an Appendix to this agreement and includes the following elements and procedures:

- To allow overlap between ranks;
- Upon implementation, individuals move to reflective of their tenure
- To increase pay acceleration at early steps within the early-career ranks;
- Individuals stepping up to a higher class role as defined by departmental policy will be placed in the higher class rank reflective of their tenure; and
- Individuals that are promoted post-implementation will be placed in the new rank at the step reflective of their tenure.
- Demotions, will result in decrease to step reflective of their tenure.

d) Future fiscal years **-** ~~In future years, FY 23/24 and beyond,~~ the City commits to, at a minimum, proposing Sixty percent (60%) of the market gap using the same methodology described in section 3(a).

City staff shall prepare a report to the City Manager to be forwarded to the City Council at the time the proposed budget is submitted to the City Council that will show the cost of implementing the pay increase as calculated above.

Recommendations will include implementation during the first full pay period in October, unless otherwise determined by both parties through the Labor/Management Pay Subcommittee discussions.

Section 4. Override

This Article modifies 143.041(b) and 143.038 of the Texas Local Government Code.

Section 5. Funding Obligations

Depending upon the financial forecasts, the City may implement the compensation recommendations in Section 3 between the first pay period of the fiscal year and the first pay period of July of each fiscal year. The City presently intends to continue this Agreement each fiscal year through its term, to pay all payments due, and to fully and promptly perform the obligations of the City under this Agreement.

All obligations of the City shall be paid only out of current ongoing revenues or any other funds lawfully available for those obligations, including tax revenues reasonably anticipated at equal or higher total gross amounts as were collected in each preceding fiscal year respective to each year of the Agreement, and appropriated for such purpose by the City Council, in compliance with the Texas Constitution, Article XI, Sections 5 and 7.

Following the adoption of the annual budget that may establish a pay increase, should the City Council find it fiscally necessary to reduce base pay for non-civil service City employees, or implement other cost saving measures such as mandatory furloughs or a reduction-in-force, the increases recommended under this Article may be reduced accordingly.

If at any time during the term of this Agreement, or any extension thereof, the electorate of the City subjects the Government of the City to a rollback election; and, as a result of such rollback election, the City suffers a reduction in revenues due to a reduction in the tax rate, the Association agrees to reopen the salary and other compensation provisions of this Agreement for the purpose of renegotiating the same. If sixty (60) calendar days after these negotiations begin, no agreement has been reached; this Agreement shall terminate and be null and void in its entirety.

ARTICLE 9~~8~~
OVERTIME CALCULATION

Section 1. Overtime Calculation

Per federal law and existing City policy, sick-leave and wellness time are considered non-productive time. Non-productive time taken by the employee is not considered time worked for the purposes of calculating overtime. In acknowledgement of the unique work and staffing requirements of Firef~~ F~~ighters, the parties agree that, starting on October 28, 2019, this article will supersede City policy for all Firef~~ F~~ighters assigned to a 56-hour workweek engaged in fire suppression activities. Thereafter, approved paid vacation and holiday leave time taken by said Firef~~e F~~ighters shall be calculated as hours worked.

Section 2. Statutory Override

In accordance with the Fair Labor Standards Act (FLSA) Section 7(k), eligible department employees may be paid overtime on a "work period" basis. A work period may be from seven (7) consecutive days to twenty-eight (28) consecutive days in length. For work periods of at least seven (7) but less than twenty-eight (28) days, overtime pay is required when the number of hours worked exceeds the number of hours that bears the same relationship as two hundred and twelve (212) hours to twenty-eight (28) days in the work period. The overtime work period shall be defined by the City after consultation with the Association.

Section 3. Statutory Override

This Article preempts, to the extent of any conflict, all contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department H~~h~~ead or head of the City or by a division or agent of the City, such as the commission.

ARTICLE 10~~9~~
STIPEND, EDUCATION, & INCENTIVE ~~ASSIGNMENT~~ PAY

~~**Section 1. Assignment Pay**~~

~~The parties agree that certain specialized roles performed by Fire Fighters and assigned by the department head should receive assignment pay.~~

~~**Section 2. Guidelines**~~

~~As such, the following Assignment Pay plan, reflecting incentive amounts, shall become effective October 10, 2022 and reflected on the October 28, 2022 paycheck.~~

~~Eligible Assignments:~~

~~(a) Ambulance Assignment Pay $50 PER 24 HOUR SHIFT ASSIGNED~~

~~1. Ambulance Assignment Pay is available to all employees assigned to work a 24-hour shift assigned to an ambulance/TRV. If a shift is split between multiple employees, the full assignment pay will be granted to the employee who works the largest portion of that shift. If a shift is evenly split, the full assignment pay will be granted to the employee working the first portion of the shift. All assignments are at the discretion of the department head.~~

~~2. In the event that a 12-hour peak ambulance is deployed during the term of this agreement, the department head is authorized to create procedures to adapt ambulance assignment pay to incent assigned employees.~~

~~3. New employees assigned to an ambulance as part of their training are not eligible for Ambulance Assignment Pay.~~

~~4. Ambulance Assignment Pay is $50 a shift for dual medic ambulances. If a paramedic is assigned to an ambulance with an EMT, then the paramedic receives $75 and the EMT receives $25.~~

~~(b) Paramedic Credential Pay $533.34 PER MONTH~~

~~1. Paramedic Credential Pay is available to all employees who have met the credentialing standards set forth by the Medical Director and Department head.~~

~~2. Employees receiving Paramedic Credential Pay are ineligible to receive paramedic certification pay or assignment pay.~~

~~3. Determination of eligibility for Paramedic Credential Pay is made by the Department head.~~

Section 1. Article Applicability

For the purposes of this Article, Firefighter or Paramedics to include Assistant Chiefs shall be entitled to the benefits of this Article.

Section 2. Stipend & Incentive Pay

The Parties agree that Department Head assigned roles performed by Firefighters and Paramedics shall receive stipend, education and/or incentive pay as defined below.

The parties agree that Firefighters and Paramedics to receive monetary awards in the same manner as all other City employees.

Section 3. Guidelines

This Article reflects monthly assignment stipends, education, and incentive amounts that shall replace prior assignments, education, and/or certification pay practices and become effective the first full pay period in January 2027.

All assignments, stipends, and incentive pay are at the discretion of the Department Head or designee. The Department Head shall make the final determination on eligibility for assignments, stipends, education, & incentives outlined in this article.

A. Language Proficiency Stipend
    1. Bilingual Stipend: Compensation shall be paid to Firefighters or Paramedics who qualify as per the City policy on bilingual pay. The payment for Bilingual Pay shall be governed by the City Policy & Procedures.

B. Medical Proficiency and Operational Assignment Stipend
    1. Ambulance Assignment Stipend: Individuals assigned to work a 24-hour shift assigned to an ambulance shall receive $50 per 24-hour shift.
        a. Exceptions:
            i. If shift is split between multiple employees, the full assignment pay will be granted to the employee who works the largest portion of that shift. If shift is evenly split, the full assignment pay will be granted to the employee working the first portion of the shift.
            ii. Peak Ambulance Assignment Stipend: In the event that a peak ambulance is deployed during the term of this agreement, the Department Head is authorized to adapt ambulance assignment pay including to define the length of the applicable shift, the incent assigned employees.
            iii. Employees assigned to an ambulance, as part of their training/credentialling or functioning as a third-out member, under a performance improvement plan (PIP), are not eligible for Ambulance Assignment Pay.

iv. Ambulance Assignment Pay is $50 a shift for dual medic ambulances. If a Paramedic is assigned to an ambulance with an EMT, then the Paramedic receives $75 and the EMT receives $25.

Paramedic Credential Stipend: A stipend that is equivalent to $533.34 per month is available to all employees who have met the credentialing standards set forth by the Medical Director and Department Head.

a. Employees receiving Paramedic Credential Pay are ineligible to receive Paramedic Certification Pay or Assignment Pay.
b. Determination of eligibility for Paramedic Credential Pay is made by the Department Head.

Paramedic Stipend: This stipend will be phased out over the term of this agreement. No new members will receive this compensation. Only existing, non-credentialed members, shall continue to be compensated at the rate of $150 per month for each month that they maintain their Texas DSHS Paramedic certification.

C. Specialty Certification and Operational Assignment Stipend

All assignments in the Fire Department are made at the discretion of the Fire Chief. No person has the right to determine where or when they will work. Approval or denial of assignments will be based upon the operational needs of the Department and mission-essential justification. Assigned members and reserve members must function in accordance with criteria and procedures adopted by the Fire Chief. Members may be assigned to multiple teams or specialties; however, they shall only be compensated for one of the following:

1. Team Manager: Individuals assigned to be Team Manager shall be compensated at a rate of $250 per month for each month they are assigned to perform that function and maintain the qualifications associated with managing the team. Team Managers will only qualify for this stipend and not the specialty stipend payable to other eligible team members.
2. Special Operations Stipend: Individuals assigned to the Special Operations Team shall be compensated at the rate of $150 per month for each month they are assigned to perform that function and maintain the qualifications associated with certifications. Reserve members are not eligible for the stipend.
3. Hazardous Material Stipend: Individuals assigned to the Hazardous Material Team shall be compensated at the rate of $150 per month for each month they are assigned to perform that function and maintain the qualifications associated with certifications. Reserve members are not eligible for the stipend.
4. Dive Team Stipend: Individuals assigned to the Dive Team shall be compensated at the rate of $150 per month for each month they are assigned to perform that function and maintain the qualifications associated with certifications. Reserve members are not eligible for the stipend.

5. SWAT Stipend: Members assigned to the Central Texas Regional SWAT (CTRS) Team shall be compensated at a rate of $150 per month for each month they are assigned to perform that function and maintain the qualifications associated with the certification. Reserve members are not eligible for the stipend.
6. Field Training Officers (FTO) Stipend: Individuals assigned as an FTO shall be compensated at the rate of $300 per month for each month they are assigned to perform that function and maintain the qualifications associated with the certification. FTO reserve members who are not assigned to perform the duties of an FTO are ineligible for the stipend.
7. Fire Inspector Support Stipend: This stipend will be eliminated effective the first full pay period in January 2027. No new members will receive this compensation.
8. Fire Investigator Support Stipend: This stipend will be eliminated effective the first full pay period in January 2027. No new members will receive this compensation.
9. Master Arson Stipend: This stipend will be eliminated effective the first full pay period in January 2027. No new members will receive this compensation.
10. ICC Fire Inspector I Stipend: This stipend will only be available to members promoted and assigned to the Fire & Life Safety Division. Eligible members shall be compensated at the rate of $100 per month for each month they are assigned/promoted to perform that function and maintain the qualifications associated with the certification. CFI Stipend may be added as the sole additional assignment for members promoted to the FLS Division. Reserve members are not eligible for this stipend.
11. CFI Fire Investigator (FIT) Stipend: This stipend will only be available to members promoted and assigned to the Fire & Life Safety Division. Eligible members shall be compensated at the rate of $50 per month for each month they are assigned/promoted to perform that function and maintain the qualifications associated with certification. Reserve members are not eligible for the stipend.
12. Support Service Personnel: Individuals assigned to a full-time, non-operational Administrative position shall be eligible to receive a monthly stipend that is correlated to their current rank. This stipend does not apply to light duty and/or promoted Fire & Life Safety position. The monthly stiped is as follows:
    a. Firefighter and/or Paramedic: $200 per month
    b. Paramedic FTO and/or Engineer: $250 per month
    c. EMS Captain and/or Fire Captain: $300 per month
    d. Battalion Chief: $350 per month

D. Eligible Education & Certification Incentive Pay

It is understood that there are minimum requirements for the Department with respect to education and certification by the Texas Commission on Fire Protection. It is the members' responsibility to request and provide proof of the desired education or certification incentive. The incentive shall commence the first month following the Firefighter's and Paramedic's complete and valid written request to the Department Head or designee. Firefighters and Paramedics shall be entitled to receive either Certification or Education

Incentive Pay for their level of education or certification (but not both), whichever is higher, in the following amounts:

1. TCFP Certification
    a. Intermediate: Active members that achieve the TCFP Intermediate Certification shall receive a certificate incentive of $50 per month.
    b. Advanced: Active members that achieve the TCFP Advanced Certification shall receive a certificate incentive of $100 per month.
    c. Masters: Active members that achieve the TCFP Masters Certification shall receive a certificate incentive of $150 per month.
2. Education Incentive
    a. Associates: Active members that achieve an Associate's Degree, from an accredited institution, and education incentive of $100 per month.
    b. Bachelors: Active members that achieve a Bachelor's Degree, from an accredited institution, and education incentive of $200 per month.
    c. Masters: Active members that achieve a Masters's Degree, from an accredited institution, and education incentive of $300 per month.

Section 3. Statutory Override

This Article modifies section 143.042 and 143.043 of the Texas Local Government Code. This Article further preempts, to the extent of any conflict, all other contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department H~~h~~ead or h~~h~~ead of the City or by a division or agent of the City, such as the commission.

ARTICLE 11
HEALTHCARE REIMBURSEMENT ARRANGMENT PROGRAM (HRAP)

Section 1. Article Applicability.

For the purposes of this Article, Firefighter, Paramedics, and Assistant Chiefs shall be entitled to the benefits of this Article.

Section 2.

The City and the Association agree to establish and maintain a Health Reimbursement Arrangement ("HRA") for eligible sworn employees.

1. The purpose of this program is to establish post-retirement healthcare funding accounts designed to bridge the gap between employee retirement and Medicare eligibility. This program additionally serves to reduce city liability for employees having excessive leave banks and encourages responsible sick-leave utilization.

2. The City and Association agree that contributions to this account shall be deposited from the city into individual member HRA accounts via the following process:

    a. Beginning each fiscal year, all accrued sick leave balances exceeding one-thousand & eighty (1,080) hours (56hr/wk employees) or seven-hundred & twenty (720) hours (40 hr/wk employees) shall be evaluated for eligibility for the sick-leave conversion process.

    b. At no time shall the number of hours converted reduce a members sick-leave balance below the 1080-or-720-hour threshold.

    c. Members on a 56-hour workweek shall be eligible to have up to 240 hours annually of sick leave converted into a fiscal allotment into their HRA.

    d. Members on a 40-hour workweek shall be eligible to have up to 160 hours of annual sick leave converted into a fiscal allotment to their HRA.

    e. These hours will be converted on a 1-to-1 basis at the member's hourly base rate of pay.

    f. The number of eligible sick-leave hours to be converted shall be reduced on a 1-to-1 basis for each hour of sick-leave utilized by the member in the previous fiscal year.

g. Such converted amounts shall only be deposited into a members HRA and are available solely for eligible healthcare reimbursement purposes as defined by the governing HRA Plan Document.

h. Members shall not be eligible for direct compensation for any converted hours.

i. The process and timelines for annual funding shall be detailed within the plan document.

Example: FF Doe, a 56hr/wk employee ends the fiscal year with 1320 hours of sick-leave in their bank. FF Doe has 240 hours above the 1080 threshold. FF Doe utilized 48-hours of sick-leave this past fiscal year. FF Doe would now have 192 hours (240-48) converted on a 1-to-1 basis at his hourly pay rate ($30). This would result in FF Doe receiving a $5760 deposit (192 x $30) into their HRA account. FF Doe begins the next fiscal year with a sick-leave balance of 1128 hours (1080+48).

3. No portion of this section of the agreement shall negate the rights afforded under Texas Municipal Code 143.045

4. The parties acknowledge that the HRA established pursuant to this Section is intended to provide reimbursement for eligible medical expenses following separation from service and is not intended to create an additional pension, retirement allowance, deferred compensation benefit, or other post-employment benefit under applicable law.

5. The HRA shall be administered in accordance with applicable provisions of the Internal Revenue Code, Treasury Regulations, and regulations may change and other applicable federal and state laws. The Plan Document shall govern all matters relating to claims, reimbursements, participation, beneficiary provisions, and administration.

The HRA shall be governed exclusively by the terms of the applicable Plan Document and Trust Agreement, which may be amended from time to time therefore the City may need to re-structure the Program to maintain compliance with federal and state law. Employees shall have only those rights and benefits expressly provided under the Plan Document. and tax-free status. The Parties agree the City may re-structure the Program to the extent necessary to maintain the Program's legal compliance and tax-free status.

Section 7. [To insert Preemption Language]

ARTICLE 12~~0~~
STANDBY PAY

Section 1. Standby Pay

Civil Service employees in certain roles are required to be available in standby status as part of their job. Civil Service law does not currently allow for standby pay. It is the desire of the City and Association to make the current City Standby Pay policy, currently policy number 211, applicable to Fire~~f F~~ighters and Paramedics as designated by the D~~d~~epartment H~~h~~ead based on their role.

Standby pay will take effect for employees designated by the D~~d~~epartment H~~h~~ead beginning no sooner than October 28, 2019 and reflected on the November 15, 2019 paycheck.

This article will remain in effect for the duration of this agreement, regardless of whether the policy number is changed.

Section 2. Statutory Override

This Article modifies section 143.041 of the Texas Local Government Code. This Article further preempts, to the extent of any conflict, all other contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department H~~h~~ead or head of the City or by a division or agent of the City, such as the commission.

ARTICLE 13~~1~~
REAPPOINTMENT AFTER RESIGNATION

Section 1. Purpose

A Classified employee who voluntarily resigns from the City of Georgetown Fire Department may be reappointed as a Firefighter or Paramedic with the Department, if there is an available spot, without taking another entrance examination or being placed on an Eligibility List.

Section 2. Guidelines

(1) The former F~~f~~irefighter or Paramedic shall submit a written request to be reappointed, within twenty-four (24) months and/or a ranked position within twelve (12) months from the date of separation, to the D~~d~~epartment H~~h~~ead, who makes the final recommendation to the City Manager for reappointment. A candidate for reappointment shall not be considered unless recommended by the D~~d~~epartment H~~h~~ead. A candidate for reappointment may not appeal his/her rejection by the D~~d~~epartment H~~h~~ead.

(2) Prior to recommending reappointment of a former classified employee to the department, the D~~d~~epartment H~~h~~ead may review past performance records of the F~~f~~irefighter or Paramedic, conduct a background investigation, require appropriate alcohol and drug tests and require any other portion of the employment process he/she deems appropriate.

(3) Upon receiving an offer of reappointment, the F~~f~~irefighter or Paramedic shall pass a physical and psychological examination prescribed by the City.

(4) A candidate for reappointment shall fully meet the requirements for the position in which they may be reappointed.

(5) A former F~~f~~irefighter or Paramedic may be reappointed regardless of the availability of a certified eligibility list. A ranked position candidate may only be reappointed at his/her prior rank if the department does not possess a certified eligibility list for that rank. If the department has a certified eligibility list, the ranked position candidate may be placed at the entry level F~~f~~irefighter or Paramedic rank.

(6) In addition to the reasons for rejection listed in Section 143.023(C) of Georgetown local Civil Service Rules, a candidate for reappointment may be rejected for reasons related to previous work performance as a Georgetown Firefighter or Paramedic.

(7) Any candidate reappointed to the Fire Department shall serve a one (1) year probationary period and prior service shall not count toward service for promotional eligibility.

(8) The candidate's years of prior service may be counted to determine placement in the Appendix A Pay Plan.

(9) The candidate's years of prior service shall not count for determining vacation eligibility and rate.

(10) Civil Service age limitations do not apply to re-appointments.

(11) Reappointment of a classified employee is totally at the discretion of the D~~d~~epartment H~~h~~ead.

Section 3. Statutory Override

This Article modifies section 143.023, 143.024, 143.025, 143.026, 143.027, and 143.041 of the Texas Local Government Code. This Article further preempts, to the extent of any conflict, all other contrary state statutes, local ordinances, executive orders, civil service provisions, or rules adopted by the Department H~~h~~ead or head of the City or by a division or agent of the City, such as the commission.

ARTICLE 14~~2~~
REPRESENTATION ON BENEFITS COMMITTEE

The Association may appoint one (1) member to the City's Benefit Committee. That appointee shall be a fully participating member of the Committee and perform the same duties as all other members of the Committee.

ARTICLE 15~~3~~
LABOR/MANAGEMENT RELATIONS

Each Party shall designate ~~three (3)~~up to five (5) representatives to serve on a joint Labor/Management Committee ("Committee"). This Committee ~~shall~~ should meet monthly, or minimally, quarterly at agreeable times and places to discuss matters of mutual concern. Such discussion shall be for the purpose of encouraging productive relations between the parties and the improvement of the emergency services to the community. The City Assistant Manager (Public Safety) or designee and Association President ~~will each~~should attend a minimum of two meetings per year. The meeting will include discussion of pressing issues, such as staffing levels, for the Association and the City. Furthermore, the intent is to establish a list of topics/issues that may be discussed within the next formal meet and confer process. A minimum of two (2) members from each party must be present for a meeting to be held. The Department H~~h~~ead will make reasonable efforts to accommodate requests by Association members to attend if they are on duty. Both parties understand and agree that Committee meetings are not required on any issue, except where provided for in Article 20~~5~~ of this Agreement, and are not a condition nor limitation on the management rights to make and enforce policies, rules, regulation, or operational decisions.

The work of the Committee shall be conducted on City time without loss of pay by Committee members; except that meetings which are scheduled at times when Association members who are not on duty, such members shall attend on their own time without compensation.

ARTICLE 164
BULLETIN BOARDS

Section 1. Bulletin Board Space

The Association shall be permitted to maintain, at each firehouse and the Public Safety Building, one (1) bulletin board to be used exclusively for Association business. These bulletin boards shall be allowed by the City, shall be consistent with the decor of the building, and located in suitable locations easily accessible to the employees for the purpose of posting notices of interest to members of the Association. In Departmental areas where a board is not present or feasible, the association is permitted to place productive notices in an acceptable area and will limit space usage to an area of equivalent or lesser size than a bulletin board.

Section 2. Maintenance of Posted Materials

The Association shall be responsible for maintaining all posted materials and shall ensure that all posted materials are compliant with any and all city policies relating to public postings. The City shall have the authority to remove any posted materials that are non-compliant with said policies.

ARTICLE 17~~5~~
CONTRACT INTERPRETATION DISPUTE RESOLUTION PROCEDURE

Section 1. Scope of Procedure

The City and Association recognize that from time to time disagreements between the Parties may arise as to the application or interpretation of this Agreement. The Parties therefore agree that the purpose of this dispute resolution procedure is to provide a just and equitable method for resolving disagreements between the Parties regarding the application or interpretation of the provisions of this Agreement. Only matters involving the interpretation, application, or alleged violations of a specified provision of this Meet and Confer Agreement shall be subject to this dispute resolution procedure. Any matters for which the right of appeal or review is afforded by Chapter 143 of the Texas Local Government Code are excluded from the scope of this article.

Section 2. Application of Procedure

If the Association has a dispute with the City regarding this Agreement, the Association Executive Board, or Association's President's designee, should reduce the dispute to writing and deliver it to the City's designated representative, who shall be its Department H~~h~~ead or designee.

A Firefighter or Paramedic may not file a request for contract dispute resolution directly with the City; all resolution requests must be approved and come from the Association Executive Board.

Each dispute shall be submitted in writing, and must include, at minimum, the following information:

1. a brief statement of the dispute and the facts or events on which it is based;
2. the sections(s) of the Agreement alleged to have been violated;
3. the remedy or adjustment sought; and
4. the bargaining unit member's signature or, if filed by the Association Executive Board, the signature of the Association President or designee.

Any claim or dispute by a Firefighter or Paramedic, or group of Firefighters or Paramedics under this Agreement which includes a claim for pay or benefits for any past pay periods must be filed by the employee with the Association Executive Board within fifteen (15) business days of the date when the employee knew or reasonably should have known of the claim. Disputes by the Association Executive Board, or Firefighter or Paramedic shall proceed along the following steps:

Step 1. An aggrieved Firefighter or Paramedic must initiate a dispute with the Association Executive Board within fifteen (15) business days of the date upon which the Firefighter or Paramedic knew of or should have known of the facts giving rise to the dispute. A copy of notice or receipt of the dispute shall be forwarded to the Department H~~h~~ead by the Association Executive Committee within three (3) business days of the receipt of the dispute. The Association Executive Board shall within their sole discretion determine if a dispute exists within fifteen (15) business days of receipt of the dispute. If the Association determines that no dispute exists, the grievance will be deemed denied and it shall notify the Department H~~h~~ead in writing that no further

proceedings will be necessary. If the Association Executive Board determines that the dispute is valid, it will notify the Department Hhead of such and forward a copy of the grievance to the Department Hhead within fifteen (15) business days after determination.

Step 2. Any dispute found to be valid by the Association Executive Board shall be submitted to the Department Hhead within fifteen (15) business days of the Step 1 decision. After receipt of the dispute, the Department Hhead shall within fifteen (15) business days submit his/her response in writing to the Association Executive Board. If there is no timely reply from the Department Hhead the grievance is deemed denied and will proceed to the next step as indicated.

Step 3. If the dispute is not resolved in Step 2, the Association Executive Board may advance the dispute in writing to the City Manager or designee within fifteen (15) business days from receipt of the Step 2 decision of the Department Hhead. The City Manager or designated representative shall review the matter and render a decision in writing to the Association Executive Board within fifteen (15) business days of the receipt of the dispute in Step 3. The City Manager or designee may, at his/her discretion, conduct a conference to further explore the merits of the dispute and to explore resolution options.

Step 4. If the dispute is not resolved in either Step 2 or Step 3, either Party shall have the right to seek mediation of the dispute by requesting same in writing within fifteen (15) business days from the Department Hhead's response or the City Manager's response. The mediation will proceed before either a mediator with the Federal Mediation and Conciliation Service or before a mutually agreed mediator. The mediation shall be held in available facilities of the City of Georgetown.

Step 5. If the dispute is not resolved at Step 4, the Association Executive Board shall have fifteen (15) business days from the date of mediation to determine whether it will pursue the dispute under this article through arbitration. Under this step, the Association Executive Board must deliver a letter indicating its election to proceed to arbitration to the Department Hhead and City Manager.

Section 3. Arbitration Option

The Parties have agreed that all disputes under this Agreement, which concern the application and interpretation of this Agreement, shall be submitted to final and binding arbitration, and the Parties exclude from this Agreement disputes involving statutory application and interpretation for rights and claims not arising under sections 142 or 143 of the Texas Local Government Code. The terms of the Agreement, and any factual issues which are determinative in applying the Agreement, shall be the sole province of the designated arbitrator, and his or her decision shall be final. However, the City will only agree to arbitration on the condition that legal issues which are determinative in any contract dispute are subject to judicial review. This additional exception to the Parties' arbitration Agreement is a narrow one, as reflected by the bargaining history. This contract represents an agreement to submit disputes to arbitration within its scope, and otherwise preserves the existing jurisdiction of Texas Courts over any contract rights and claims not exclusively committed to arbitration. The Parties have agreed that questions of law, which involve either the interpretation and application of state statutes or the application of legal principles from Texas appellate court opinions (or the failure to properly apply such legal principles or opinions) to controversies under this article shall be submitted initially to arbitration, but that either party shall

have a limited right of appeal from an arbitration award in the Courts solely for the purpose of reviewing disputed issues of law. No such appeal from arbitration shall include review of any factual determinations by the arbitrator, including credibility of witnesses or weight of the evidence. If an appeal from arbitration based on erroneous application of the law is not successful, the appealing Party shall bear all costs of such appeal.

If a dispute is submitted to arbitration, either party may request the American Arbitration Association (AAA) provide a list of seven (7) qualified neutral arbitrators in accordance with its selection rules. Within seven (7) business days of receipt of the list from AAA, the Department Hhead and/or City and the Association shall select an arbitrator by alternately striking names. The process will be as follows: the Association shall strike the first name on the list with the first dispute brought under this article. Thereafter, the first strike shall alternate between the Parties. The arbitration should be held at the earliest available date but may be continued for good cause shown or upon mutual agreement. The parties, by mutual agreement, may select to use AAA expedited rules.
Upon written request delivered at least fourteen (14) calendar days prior to the date of the hearing, a party to the proceeding shall provide, no later than seven (7) days prior to the hearing, to the opposing party the names and addresses of witnesses expected to be called at the hearing. In the absence of good or excusable cause, the arbitrator may exclude the testimony of a witness upon the failure of a party to disclose such a witness. The parties, in writing, may request discovery from each other concerning the grievance. Should the opposing party not agree to provide the requested information within seven (7) calendar days of the request; the request shall be deemed denied. The requesting party may then apply to the arbitrator, who shall order such discovery consistent with, but not bound by, the rules of discovery in Texas civil cases. In considering the application, the arbitrator shall consider the burden and expense of producing the information, the need of the requesting party, the amount of time available prior to the hearing, and such other matters as he may deem material. In no event shall discovery be requested within thirty-five (35) calendar days prior to the hearing, unless agreed by the parties.

The hearing shall be held in available facilities of the City of Georgetown and shall be conducted informally, without strict evidentiary or procedural rules. The conduct of the hearing shall be governed by the standard rules of the American Arbitration Association. The arbitrator shall consider and decide only the issue(s) in the dispute statement or submitted in writing by agreement of the Parties. The hearing shall be concluded as expeditiously as possible and the arbitrator's written decision shall be based on a preponderance of evidence within thirty (30) days after close of the hearing, or after receipt of post-hearing briefs if applicable.

Section 4. Decision Final and Binding

If arbitration is selected, the Parties specifically agree that the arbitrator's authority shall be strictly limited to interpreting and applying the explicit provisions of this Agreement. The arbitrator shall not have authority to modify the Agreement or create additional provisions not included in the Agreement. The Parties agree that neither the City nor the Association shall have *ex parte* communications with the arbitrator concerning any matter involved in the dispute submitted to the arbitrator. Each Party shall be responsible for its own expenses in preparing for and representing itself at arbitration, but the fees and expenses of the arbitrator shall be borne equally by the Parties.

The written decision of the arbitrator shall be final and binding on both Parties and may not be appealed by either Party, except for any decision procured by fraud or collusion, or which exceeds the arbitrator's jurisdiction or which is based on legal conclusions or interpretations which are clearly contrary to existing law.

Section 5. Mutual Extension

All deadlines within this article may be extended by mutual agreement by the Parties.

Section 6. Grievances of Non-Association Members

Grievances of Non-Association members must follow the same procedure outlined by this article. However, should the grievance of a Non-Association member require that Association resources be used, the Non-Association member will be required to pay all expenses incurred while pursuing final disposition of their grievance. These shall include cost for payment of Arbitrator fees, counsel fees and any other fees directly related to the grievance. All disciplinary appeals shall follow the procedure as outlined in chapter 143 of the Local Government Code.

ARTICLE 18~~6~~
MANAGEMENT RIGHTS AND MAINTENANCE OF STANDARDS

MANAGEMENT RIGHTS

Section 1.

The Parties understand and agree that the City as a duly constituted home rule municipality under the Constitution and Laws of the State of Texas, hereby retains all those powers, privileges, rights, and authority conferred upon it by law, and nothing in this Agreement shall be construed or interpreted as being in derogation of, or delegation of, those powers, privileges, rights, and authority, other than as required under Chapter 143 of the Texas Local Government Code.

Section 2.

The powers, privileges, authority, and responsibilities retained by the City includes, but are not necessarily limited to, the following subject matter areas, except as otherwise specifically identified by law and the terms of this Agreement:

a) General management and administrative control and authority over the Fire Department, including its properties, facilities, and equipment, operations, and staffing;

b) Determination of the Fire Department's overall budget from year to year;

c) Determination of which Fire Department programs, functions, and operations to implement;

d) Determination over the Fire Department's organizational structure, subject to any duly adopted rank and classification structure fixed by ordinance;

e) Continued authority over the implementation, maintenance, and updating to any and all written Standard Operating Procedures, Fire Department and City Policies created, adopted, or amended under the authority of the Department H~~h~~ead, the City Manager, or the City Council.

f) Scheduling of vacation leave, compensatory time leave, and any other paid time off, whether paid or unpaid;

g) Discretionary assignment and authorization to control allowance of overtime work, except as otherwise provided in this Labor Agreement;

h) Scheduling operations, assignment of shifts, and determination of appropriate staffing needs and requirements;

i) Control of performance, production and service standards within the Fire Department.

B. MAINTENANCE OF STANDARDS

Section 1.

All fiscal benefits, privileges, and working conditions existing in the Fire Department on the effective date of this Agreement, but which are not explicitly addressed in this Agreement, shall remain unchanged for the duration of this Agreement, so long as the maintenance of those benefits, privileges, and working conditions do not interfere with the operations of the Department.

Section 2.

The Parties expressly understand and agree that any modification or changes to existing practices and operations shall be consistent with the spirit and intent of this Article, that any such modifications or changes, if any, must be reasonably related to a legitimate administrative or operational needs of the Department and the City and must not conflict with any state law, federal law, governmental regulation, or any other provision of this Agreement.

Section 3.

This Section is intended to supplement the preceding Section on Management Rights, and shall not be construed as being in derogation, or further modification of, the management prerogatives and rights addressed in the section on Management Rights or those rights otherwise allowed by Texas law.

ARTICLE 19~~7~~
TERM OF AGREEMENT

This Agreement shall have an effective date of October 1, ~~2022~~2026, and shall remain in full force and effect through September 30, ~~2026~~2030. The Agreement shall automatically renew for a one (1) year term on October 1, ~~2026~~ 2030and shall remain in full force and effect until September 30, ~~2027~~ 2031 unless superseded by a new agreement. This Agreement will expire after September 30, ~~2027~~2031, unless the parties mutually agree to an extension or renewal, in writing.

ARTICLE 20~~18~~
SAVINGS CLAUSE, PREEMPTION PROVISION, AND COMPLETE AGREEMENT CLAUSE

Section 1. Savings Clause

If any provision of this Agreement is rendered invalid by a court of competent jurisdiction, such invalidity shall not affect any other provision of this Agreement, which shall continue to be in full force and effect for the duration of the Agreement, and the Parties shall meet as soon as possible to agree on a substitute provision. However, if the Parties are unable to agree within thirty (30) days following commencement of the initial meeting, then the matter shall be postponed until Meet and Confer negotiations are resumed. This deadline may be extended by mutual agreement by the Parties. To this end, the provisions of this Agreement are severable. This Agreement may be amended by written mutual agreement.

Section 2. Preemption Provision

The provisions of this Agreement shall supersede the provisions of any statute, Executive Order, local ordinance, or rule, which are in conflict herewith, including for example and not by way of limitation, the contrary provisions of Chapter 143; Ordinances of the City of Georgetown, Texas; and Rules and Regulations of the Firefighters' and Police Officers' Civil Service Commission for the City of Georgetown, Texas. This preemption provision is authorized by section 142.117 of the Texas Local Government Code, and the Parties have expressly agreed that each and every provision involving or creating such a conflict shall have the effect of superseding the statutory standard or result which would otherwise obtain, in the absence of this Agreement. This provision is of the essence to the bargain and Agreement, which has been reached.

Section 3. Complete Agreement Clause

The Parties agree that each has had full and unrestricted right and opportunity to make, advance and discuss all matters properly within the meet and confer process. This Agreement constitutes the full and complete Agreement of the Parties and there are no others, oral or written, except as specified in this Agreement.

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
Resolution - Health District Annual Funding Agreement

SUGGESTED ACTION:
Consideration and possible action to approve a Resolution authorizing a funding agreement between the City of Georgetown and the Williamson County and Cities Health District for this agency to continue to provide services for the citizens of Georgetown for FY2027 -- Leigh Wallace, Chief Financial Officer

ITEM SUMMARY:
The cities of Georgetown, Cedar Park, Round Rock, and Taylor, along with Williamson County have been members of the public health district since it was established in 1989. The cities of Liberty Hill and Hutto joined the District in October 2007 and Leander in October 2013. The public health district is authorized by Chapter 121 of the Texas Health and Safety Code. Chapter 121 requires that the organization of the public health district and the rights and responsibilities of member governments be stated in a Cooperative Agreement. The Cooperative Agreement for the Williamson County and Cities Health District was last amended, restated and approved by member governments effective October 15, 2024, to align the fiscal year of the District with that of the Cities and County. The Health District continues to work with other non-participating Cities in Williamson County to encourage their future membership in the Health District.

The Williamson County and Cities Health District provides public health services to the residents and businesses of Georgetown. These services include personal health care services (immunizations, prenatal care, preventive child health care, adult health risk assessment and screening, TB and other infectious disease services), communicable disease control services including surveillance and investigation of reportable diseases and conditions, WIC nutrition services for infants and children, environmental health services (inspection of food establishments and registration of food handlers, etc.), other counseling, preventive and educational health services, and the operation of a Mosquito Surveillance and Control Program. The annual funding agreement for Georgetown for FY2027 is for $251,231.45.

The funding that is allocated in the City's base budget for the Williamson County and Cities Health District is based on the Census Bureau's July 1, 2026 population estimate for Georgetown of 106,907 at $2.35 percapita.

Approval of this resolution authorizes the Mayor to execute the renewal funding agreement for the in-kind services provided by the Williamson County and Cities Health District on behalf of the City of Georgetown.

FINANCIAL IMPACT:
Funding for this agreement is included in the FY2027 Annual Budget in the General Fund, General Government Contracts.

Williamson County and Cities Health District
355 Texas Avenue ○ Round Rock, TX 78664
512-943-3600 ○ www.wcchd.org

Dear Mayor Schroeder:

The cities of Cedar Park, Georgetown, Round Rock, and Taylor, together with Williamson County, have partnered in the Williamson County and Cities Health District (WCCHD) since its establishment in 1989. The cities of Liberty Hill and Hutto joined in October 2007, followed by Leander in October 2013. WCCHD operates under the authority of Chapter 121 of the Texas Health and Safety Code, with governance, responsibilities, and funding structure defined through the Cooperative Agreement among member governments. The current Cooperative Agreement was last amended and approved by all parties effective October 15, 2024.

WCCHD's funding is supported through a combination of member government contributions, Texas Department of State Health Services contracts, client fees, Medicaid reimbursements, and competitive grants. The proposed FY27 operating budget is $11,582,094. In accordance with the Cooperative Agreement, the Board of Health annually requests per capita contributions from member cities based on the most recent population estimates from the U.S. Census Bureau. This estimate is dated July 1, 2025, and can be found at: https://www.census.gov/quickfacts/table/PST045216/48491.

The per capita rate requested for FY2027 remains unchanged for the tenth consecutive year at $2.35 per resident. Based on the July 1, 2025, population estimate of 106,907 for the City of Georgetown, the total FY2027 contribution request is $251,231.45, supporting operations for the period of October 2026 through September 2027.

As Williamson County continues to experience sustained population growth, WCCHD remains committed to maximizing external funding sources while maintaining strong local partnerships. At the same time, increasing demand for core public health services underscores the importance of continued investment to ensure the District can effectively serve all residents now and in the years ahead.

We value the City of Georgetown's ongoing partnership and support in advancing community health. Please feel free to contact me if you, the Council, or your staff would like additional information or a briefing on current programs and priorities.

Sincerely,

Amber Erickson

Amber Erickson, DrPH, MPH
WCCHD Executive Director

Cindy Botts, Executive Assistant

RESOLUTION NO. _____

A Resolution authorizing a Funding Agreement Between the City of Georgetown and The Williamson County and Cities Health District, and for this agency to continue to provide services for the citizens of Georgetown, and authorizing the Mayor to execute same and the City Secretary to attest.

WHEREAS, the City Council finds that public health services are not adequately addressed or reasonably addressable by the private sector or other public entities; and,

WHEREAS, the City Council finds that the provision of such services accomplishes a public purpose and is beneficial to the community to meet the City's health, safety and welfare obligations; and

WHEREAS, the City of Georgetown and Williamson County and Cities Health District desire to enter into a funding agreement in the amount of $251,231.45 to assist the Health District in providing public health services to the citizens of Georgetown. These services include personal health care services (immunizations, prenatal care, preventive child health care, adult health risk assessment and screening, TB and other infectious disease services), communicable disease control services including surveillance and investigation of reportable diseases and conditions, WIC nutrition services for infants and children, environmental health services (inspection of food establishments and registration of food handlers, septic system permitting and inspection, etc.), other counseling, preventive and educational health services, and the operation of a Level II Mosquito Surveillance and Control Program.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

SECTION 1. The facts and recitations contained in the preamble of this resolution are hereby found and declared to be true and correct, and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

SECTION 2. The Mayor is hereby authorized to execute, and the City Secretary to attest thereto, a funding agreement with The Williamson County and Cities Health District, and on behalf of the City of Georgetown in substantially the same form as denoted in the attached exhibit.

SECTION 3. This resolution shall be effective immediately upon adoption.

RESOLVED this 8th day of September, 2025.

ATTEST:

Robyn Densmore, City Secretary

THE CITY OF GEORGETOWN:

Josh Schroeder, Mayor

APPROVED AS TO FORM:

Skye Masson
City Attorney

City of Georgetown, Texas
City Council

SUBJECT:
Resolution - Atmos Energy Rate Adoption & Settlement

SUGGESTED ACTION:
Consideration and possible action to approve a Resolution approving a negotiated settlement between the Atmos Cities Steering Committee (ACSC) and Atmos Energy Corporation, Mid-Tex Division regarding the 2026 Rate Review Mechanism filing -- David Morgan, City Manager

ITEM SUMMARY:
The City of Georgetown is a gas utility customer of Atmos Energy Corporation, Mid-Tex Division and a regulatory authority with an interest in the rates, charges, and services of Atmos Mid-Tex. As a member of the Atmos Cities Steering Committee (ACSC), Georgetown joined a coalition of cities in a legal review of the Atmos Mid-Tex 2026 Rate Review Mechanism filing to resolve any issues impacting cities. Per the recommendation of ACSC's legal counsel, staff recommend approval of the adjusted base rates for Atmos Mid-Tex that will go into effect October 1, 2026. The rate adjustments by Atmos reflect the negotiated settlement between Atmos and ACSC member cities.

FINANCIAL IMPACT:
The impact of the settlement on average residential rates is an increase of $13.37 on a monthly basis, or 14.15%. The increase for average commercial usage will be $44.82 or 9.90%.

MID-TEX DIVISION
ATMOS ENERGY CORPORATION

RATE SCHEDULE:	**R – RESIDENTIAL SALES**	
APPLICABLE TO:	**ALL CUSTOMERS IN THE MID-TEX DIVISION UNDER THE RRM TARIFF**	
EFFECTIVE DATE:	**Bills Rendered on or after 10/01/2026**	

Application
Applicable to Residential Customers for all natural gas provided at one Point of Delivery and measured through one meter.

Type of Service
Where service of the type desired by Customer is not already available at the Point of Delivery, additional charges and special contract arrangements between Company and Customer may be required prior to service being furnished.

Monthly Rate
Customer's monthly bill will be calculated by adding the following Customer and Ccf charges to the amounts due under the riders listed below:

Charge	Amount
Customer Charge per Bill	$ 24.35 per month
Rider CEE Surcharge	$ 0.05 per month[1]
Total Customer Charge	$ 24.40 per month
Commodity Charge – All Ccf	$ 1.03839 per Ccf

Gas Cost Recovery: Plus an amount for gas costs and upstream transportation costs calculated in accordance with Part (a) and Part (b), respectively, of Rider GCR.

Weather Normalization Adjustment: Plus or Minus an amount for weather normalization calculated in accordance with Rider WNA.

Franchise Fee Adjustment: Plus an amount for franchise fees calculated in accordance with Rider FF. Rider FF is only applicable to customers inside the corporate limits of any incorporated municipality.

Tax Adjustment: Plus an amount for tax calculated in accordance with Rider TAX.

Surcharges: Plus an amount for surcharges calculated in accordance with the applicable rider(s).

Agreement
An Agreement for Gas Service may be required.

Notice
Service hereunder and the rates for services provided are subject to the orders of regulatory bodies having jurisdiction and to the Company's Tariff for Gas Service.

[1]Reference Rider CEE - Conservation and Energy Efficiency as approved in GUD 19196. Surcharge billing effective July 1, 2026.

MID-TEX DIVISION
ATMOS ENERGY CORPORATION

RATE SCHEDULE:	**C – COMMERCIAL SALES**	
APPLICABLE TO:	**ALL CUSTOMERS IN THE MID-TEX DIVISION UNDER THE RRM TARIFF**	
EFFECTIVE DATE:	**Bills Rendered on or after 10/01/2026**	

Application
Applicable to Commercial Customers for all natural gas provided at one Point of Delivery and measured through one meter and to Industrial Customers with an average annual usage of less than 30,000 Ccf.

Type of Service
Where service of the type desired by Customer is not already available at the Point of Delivery, additional charges and special contract arrangements between Company and Customer may be required prior to service being furnished.

Monthly Rate
Customer's monthly bill will be calculated by adding the following Customer and Ccf charges to the amounts due under the riders listed below:

Charge	Amount
Customer Charge per Bill	$ 115.50 per month
Rider CEE Surcharge	$ 0.00 per month[1]
Total Customer Charge	$ 115.50 per month
Commodity Charge – All Ccf	$ 0.27784 per Ccf

Gas Cost Recovery: Plus an amount for gas costs and upstream transportation costs calculated in accordance with Part (a) and Part (b), respectively, of Rider GCR.

Weather Normalization Adjustment: Plus or Minus an amount for weather normalization calculated in accordance with Rider WNA.

Franchise Fee Adjustment: Plus an amount for franchise fees calculated in accordance with Rider FF. Rider FF is only applicable to customers inside the corporate limits of any incorporated municipality.

Tax Adjustment: Plus an amount for tax calculated in accordance with Rider TAX.

Surcharges: Plus an amount for surcharges calculated in accordance with the applicable rider(s).

Agreement
An Agreement for Gas Service may be required.

Notice
Service hereunder and the rates for services provided are subject to the orders of regulatory bodies having jurisdiction and to the Company's Tariff for Gas Service.

Presumption of Plant Protection Level
For service under this Rate Schedule, plant protection volumes are presumed to be 10% of normal, regular, historical usage as reasonably calculated by the Company in its sole discretion. If a customer believes it needs to be modeled at an alternative plant protection volume, it should contact the company at mdtx-div-plantprotection@atmosenergy.com.

[1] Reference Rider CEE - Conservation and Energy Efficiency as approved in GUD 19196. Surcharge billing effective July 1, 2026.

MID-TEX DIVISION
ATMOS ENERGY CORPORATION

RATE SCHEDULE:	**I – INDUSTRIAL SALES**	
APPLICABLE TO:	**ALL CUSTOMERS IN THE MID-TEX DIVISION UNDER THE RRM TARIFF**	
EFFECTIVE DATE:	**Bills Rendered on or after 10/01/2026**	

Application
Applicable to Industrial Customers with a maximum daily usage (MDU) of less than 200 MMBtu per day for all natural gas provided at one Point of Delivery and measured through one meter. Service for Industrial Customers with an MDU equal to or greater than 200 MMBtu per day will be provided at Company's sole option and will require special contract arrangements between Company and Customer.

Type of Service
Where service of the type desired by Customer is not already available at the Point of Delivery, additional charges and special contract arrangements between Company and Customer may be required prior to service being furnished.

Monthly Rate
Customer's monthly bill will be calculated by adding the following Customer and MMBtu charges to the amounts due under the riders listed below:

Charge	Amount
Customer Charge per Meter	$ 2,304.50 per month
First 0 MMBtu to 1,500 MMBtu	$ 0.9582 per MMBtu
Next 3,500 MMBtu	$ 0.7018 per MMBtu
All MMBtu over 5,000 MMBtu	$ 0.1505 per MMBtu

Gas Cost Recovery: Plus an amount for gas costs and upstream transportation costs calculated in accordance with Part (a) and Part (b), respectively, of Rider GCR.

Franchise Fee Adjustment: Plus an amount for franchise fees calculated in accordance with Rider FF. Rider FF is only applicable to customers inside the corporate limits of any incorporated municipality.

Tax Adjustment: Plus an amount for tax calculated in accordance with Rider TAX.

Surcharges: Plus an amount for surcharges calculated in accordance with the applicable rider(s).

Curtailment Overpull Fee
Upon notification by Company of an event of curtailment or interruption of Customer's deliveries, Customer will, for each MMBtu delivered in excess of the stated level of curtailment or interruption, pay Company 200% of the midpoint price for the Katy point listed in *Platts Gas Daily* published for the applicable Gas Day in the table entitled "Daily Price Survey."

Replacement Index
In the event the "midpoint" or "common" price for the Katy point listed in *Platts Gas Daily* in the table entitled "Daily Price Survey" is no longer published, Company will calculate the applicable imbalance fees utilizing a daily price index recognized as authoritative by the natural gas industry and most closely approximating the applicable index.

MID-TEX DIVISION
ATMOS ENERGY CORPORATION

RATE SCHEDULE:	**I – INDUSTRIAL SALES**	
APPLICABLE TO:	**ALL CUSTOMERS IN THE MID-TEX DIVISION UNDER THE RRM TARIFF**	
EFFECTIVE DATE:	**Bills Rendered on or after 10/01/2026**	

Agreement
An Agreement for Gas Service may be required.

Notice
Service hereunder and the rates for services provided are subject to the orders of regulatory bodies having jurisdiction and to the Company's Tariff for Gas Service.

Special Conditions
In order to receive service under Rate I, Customer must have the type of meter required by Company. Customer must pay Company all costs associated with the acquisition and installation of the meter.

Presumption of Plant Protection Level
For service under this Rate Schedule, plant protection volumes are presumed to be 10% of normal, regular, historical usage as reasonably calculated by the Company in its sole discretion. If a customer believes it needs to be modeled at an alternative plant protection volume, it should contact the company at mdtx-div-plantprotection@atmosenergy.com.

MID-TEX DIVISION
ATMOS ENERGY CORPORATION

RATE SCHEDULE:	**T – TRANSPORTATION**	
APPLICABLE TO:	**ALL CUSTOMERS IN THE MID-TEX DIVISION UNDER THE RRM TARIFF**	
EFFECTIVE DATE:	**Bills Rendered on or after 10/01/2026**	

Application
Applicable, in the event that Company has entered into a Transportation Agreement, to a customer directly connected to the Atmos Energy Corp., Mid-Tex Division Distribution System (Customer) for the transportation of all natural gas supplied by Customer or Customer's agent at one Point of Delivery for use in Customer's facility.

This tariff is not available to customers with a maximum daily demand of 1,000 MMBtu or greater and a daily/annual load factor of 10% or less. Load factor is calculated as follows: annual usage / (maximum daily connected demand X 365). Load factors will be recalculated once each year to determine appropriate eligibility for Rate T.

Type of Service
Company's receipt and delivery of all gas quantities under the applicable Transportation Agreement will be on a wholly interruptible basis subject to the Terms and Conditions incorporated in the Transportation Agreement. If Customer is an Industrial Customer, then Customer may elect, at the reasonable discretion of Company, to contract for Plant Protection transportation quantities defined as the minimum natural gas required to prevent physical harm and/or protect critical safety to the plant facilities, plant personnel, or the public when such protection cannot be achieved through the use of an alternate fuel. Where service of the type desired by Customer is not already available at the Point of Delivery, additional charges and special contract arrangements between Company and Customer may be required prior to service being furnished.

Monthly Rate
Customer's bill will be calculated by adding the following Customer and MMBtu charges to the amounts and quantities due under the riders listed below:

Charge	Amount
Customer Charge per Meter	$ 2,304.50 per month
First 0 MMBtu to 1,500 MMBtu	$ 0.9582 per MMBtu
Next 3,500 MMBtu	$ 0.7018 per MMBtu
All MMBtu over 5,000 MMBtu	$ 0.1505 per MMBtu

Upstream Transportation Cost Recovery: Plus an amount for upstream transportation costs in accordance with Part (b) of Rider GCR.

Retention Adjustment: Plus a quantity of gas as calculated in accordance with Rider RA.

Franchise Fee Adjustment: Plus an amount for franchise fees calculated in accordance with Rider FF. Rider FF is only applicable to customers inside the corporate limits of any incorporated municipality.

Tax Adjustment: Plus an amount for tax calculated in accordance with Rider TAX.

Surcharges: Plus an amount for surcharges calculated in accordance with the applicable rider(s).

RATE SCHEDULE:	**T – TRANSPORTATION**	
APPLICABLE TO:	**ALL CUSTOMERS IN THE MID-TEX DIVISION UNDER THE RRM TARIFF**	
EFFECTIVE DATE:	**Bills Rendered on or after 10/01/2026**	

Imbalance Fees
All fees charged to Customer under this Rate Schedule will be charged based on the quantities determined under the applicable Transportation Agreement and quantities will not be aggregated for any Customer with multiple Transportation Agreements for the purposes of such fees.

Monthly Imbalance Fees
Customer shall pay Company the greater of (i) $0.10 per MMBtu, or (ii) 150% of the difference per MMBtu between the highest and lowest "midpoint" price for the Katy point listed in *Platts Gas Daily* in the table entitled "Daily Price Survey" during such month, for the MMBtu of Customer's monthly Cumulative Imbalance, as defined in the applicable Transportation Agreement, at the end of each month that exceeds 10% of Customer's receipt quantities for the month.

Overpull Fee
Upon notification by Company of an event of interruption of Customer's deliveries, Customer will, for each MMBtu delivered in excess of the stated level of interruption, pay Company 200% of the midpoint price for the Katy point listed in *Platts Gas Daily* published for the applicable Gas Day in the table entitled "Daily Price Survey."

Replacement Index
In the event the "midpoint" or "common" price for the Katy point listed in *Platts Gas Daily* in the table entitled "Daily Price Survey" is no longer published, Company will calculate the applicable imbalance fees utilizing a daily price index recognized as authoritative by the natural gas industry and most closely approximating the applicable index.

Agreement
A transportation agreement is required.

Notice
Service hereunder and the rates for services provided are subject to the orders of regulatory bodies having jurisdiction and to the Company's Tariff for Gas Service.

Special Conditions
In order to receive service under Rate T, customer must have the type of meter required by Company. Customer must pay Company all costs associated with the acquisition and installation of the meter.

MID-TEX DIVISION
ATMOS ENERGY CORPORATION

RIDER:	**SUR – SURCHARGES**	
APPLICABLE TO:	**ALL CUSTOMERS IN THE MID-TEX DIVISION UNDER THE RRM TARIFF**	
EFFECTIVE DATE:	**Bills Rendered on or after 10/01/2026**	

Application

This Rider is applicable to customer classes in the incorporated areas under the RRM tariff as authorized by the state or any governmental entity, a municipality, or a regulatory authority pursuant to any statute, ordinance, order, rule, contract, or agreement.

Monthly Calculation

Surcharges will be calculated in accordance with the applicable statute, ordinance, order, rule, contract, or agreement.

FASB ASC 740-10 (Fin48) Refund

Applicable to Customers taking service under Rate Schedules R – Residential, C – Commercial, I – Industrial and T – Transportation.

To ensure that gas utility customers receive the benefit associated with the changes in the Company's Uncertain Tax Positions ("UTPs") arising from recognition of Texas Margin Tax returns.

The decrease shall be calculated as follows:

Beginning with implementation of rates from the negotiated RRM Tariff, and annually thereafter, the portion of UTP liabilities identified in Schedule FIN48-1.1 for the prior fiscal year shall be allocated based on the final class allocations of GUD No. 10170 as per the RRM Tariff, divided by the annual bill count to derive rates to be refunded through Rider SUR in the subsequent fiscal year. Each year's calculation will include a true-up (+ or -) due to account for over/under collections. Amounts identified in Schedule FIN48-1 shall be adjusted to reflect any audit adjustments received from the Texas Comptroller of Public Accounts.

No action on the part of the Regulatory Authority is required to give effect to the amount to be refunded to customers. However, any amount refunded to customers shall be fully subject to review for reasonableness and accuracy in the gas utility's next statement of intent proceeding with the Railroad Commission of Texas, and if applicable, the gas utility shall be required to reconcile any discrepancies.

The following refund as authorized in the most recent negotiated RRM Tariff shall be refunded to each Rate Schedules R – Residential, C – Commercial, I – Industrial and T – Transportation customer's monthly bill in each month for a 12-month period. The refund amount by month by Rate Schedule is shown in the table below:

Rate Schedules	Rate
Rate R – Residential Sales	$ (0.14)
Rate C – Commercial Sales	$ (0.49)
Rate I – Industrial Sales	$ (10.47)
Rate T – Transportation	$ (10.47)

MID-TEX DIVISION
ATMOS ENERGY CORPORATION

RIDER:	**SUR – SURCHARGES**	
APPLICABLE TO:	**ALL CUSTOMERS IN THE MID-TEX DIVISION UNDER THE RRM TARIFF**	
EFFECTIVE DATE:	**Bills Rendered on or after 10/01/2026**	

Unprotected Excess Deferred Income Tax Amortization

The allocated RRM Cities balance of the Unprotected portion of the Excess Deferred Income Taxes ("EDIT") remaining after implementation of rates at October 1, 2026 shall be applied to each Rate Schedules R – Residential, C – Commercial, I – Industrial and T – Transportation customer's monthly bill for a one-month period. The refund amount by Rate Schedule is shown in the table below:

Rate Schedules	Rate
Rate R – Residential Sales	$ (4.45)
Rate C – Commercial Sales	$ (14.80)
Rate I – Industrial Sales	$ (319.02)
Rate T – Transportation	$ (319.02)

Maximum Allowable Operating Pressure ("MAOP") Hydrostatic Testing Cost Recovery

The allocated RRM Cities balance of the MAOP Hydrostatic Testing Cost as of December 31, 2025 is to be recovered through a monthly rate. This monthly rate shall be applied to each Rate Schedules R – Residential, C – Commercial, I – Industrial and T – Transportation customer's monthly bill for approximately twelve (12) months or until all approved costs are recovered from the applicable customer classes. The monthly recovery rate by Rate Schedule is shown in the table below:

Rate Schedules	Rate
Rate R – Residential Sales	$ 0.30
Rate C – Commercial Sales	$ 0.98
Rate I – Industrial Sales	$ 21.17
Rate T – Transportation	$ 21.17

MID-TEX DIVISION
ATMOS ENERGY CORPORATION

RIDER:	**WNA – WEATHER NORMALIZATION ADJUSTMENT**	
APPLICABLE TO:	**ALL CUSTOMERS IN THE MID-TEX DIVISION UNDER THE RRM TARIFF**	
EFFECTIVE DATE:	**Bills Rendered on or after 10/01/2026**	

Provisions for Adjustment

The Commodity Charge per Ccf (100 cubic feet) for gas service set forth in any Rate Schedules utilized by the cities of the Mid-Tex Division service area for determining normalized winter period revenues shall be adjusted by an amount hereinafter described, which amount is referred to as the "Weather Normalization Adjustment." The Weather Normalization Adjustment shall apply to all temperature sensitive residential and commercial bills based on meters read during the revenue months of November through April. The five regional weather stations are Abilene, Austin, Dallas, Waco, and Wichita Falls.

Computation of Weather Normalization Adjustment

The Weather Normalization Adjustment Factor shall be computed to the nearest one-hundredth cent per Ccf by the following formula:

$$WNAF_i = R_i \frac{(HSF_i \times (NDD-ADD))}{(BL_i + (HSF_i \times ADD))}$$

Where

i = any particular Rate Schedule or billing classification within any such particular Rate Schedule that contains more than one billing classification

$WNAF_i$ = Weather Normalization Adjustment Factor for the ith rate schedule or classification expressed in cents per Ccf

R_i = Commodity Charge rate of temperature sensitive sales for the ith schedule or classification.

HSF_i = heat sensitive factor for the ith schedule or classification divided by the average bill count in that class

NDD = billing cycle normal heating degree days calculated as the simple ten-year average of actual heating degree days.

ADD = billing cycle actual heating degree days.

Bl_i = base load sales for the ith schedule or classification divided by the average bill count in that class

The Weather Normalization Adjustment for the jth customer in ith rate schedule is computed as:

$$WNA_i = WNAF_i \times q_{ij}$$

Where q_{ij} is the relevant sales quantity for the jth customer in ith rate schedule.

MID-TEX DIVISION

MODEL STAFF REPORT FOR RESOLUTION OR ORDINANCE

BACKGROUND AND SUMMARY

The City, along with 181 other Mid-Texas cities served by Atmos Energy Corporation, Mid-Tex Division ("Atmos Mid-Tex" or "Company"), is a member of the Atmos Cities Steering Committee ("ACSC"). In 2007, ACSC and Atmos Mid-Tex settled a rate application filed by the Company pursuant to Section 104.301 of the Texas Utilities Code for an interim rate adjustment commonly referred to as a GRIP filing (arising out of the Gas Reliability Infrastructure Program legislation). That settlement created a substitute rate review process, referred to as Rate Review Mechanism ("RRM"), as a substitute for future filings under the GRIP statute.

Since 2007, there have been several modifications to the original RRM Tariff. The most recent iteration of an RRM Tariff was reflected in an ordinance adopted by ACSC members in 2018. On or about April 1, 2026, the Company filed a rate request pursuant to the RRM Tariff adopted by ACSC members. The Company claimed that its cost-of-service in a test year ending December 31, 2025, entitled it to additional system-wide revenues of $291.1 million.

Application of the standards set forth in ACSC's RRM Tariff reduces the Company's request to $273.6 million. After reviewing the filing and conducting discovery, ACSC's consultants concluded that the system-wide deficiency under the RRM regime should be $253.4 million instead of the claimed $291.1 million.

After several settlement meetings, the parties have agreed to settle the case for $260.5 million. This is a reduction of over $30 million to the Company's initial request. This includes payment of ACSC's expenses. The Effective Date for new rates is October 1, 2026. ACSC members should take action approving the Resolution/Ordinance before October 1, 2026.

RATE TARIFFS

Atmos generated rate tariffs attached to the Resolution/Ordinance that will generate $260.5 million in additional revenues. Atmos also prepared a Proof of Revenues supporting the settlement figures. ACSC consultants have agreed that Atmos' Proof of Revenues is accurate.

BILL IMPACT

The impact of the settlement on average residential rates is an increase of $13.37 on a monthly basis, or 14.15%. The increase for average commercial usage will be $44.82 or 9.90%. Atmos provided bill impact comparisons containing these figures.

SUMMARY OF ACSC'S OBJECTION TO THE UTILITIES CODE SECTION 104.301 GRIP PROCESS

ACSC strongly opposed the GRIP process because it constitutes piecemeal ratemaking by ignoring declining expenses and increasing revenues while rewarding the Company for increasing capital investment on an annual basis. The GRIP process does not allow any review of the reasonableness of capital investment and does not allow cities to participate in the Railroad Commission's review of annual GRIP filings or allow recovery of Cities' rate case expenses. The Railroad Commission undertakes a mere administrative review of GRIP filings (instead of a full hearing) and rate increases go into effect without any material adjustments. In ACSC's view, the GRIP process unfairly raises customers' rates without any regulatory oversight. In contrast, the RRM process has allowed for a more comprehensive rate review and annual evaluation of expenses and revenues, as well as capital investment.

RRM SAVINGS OVER GRIP

While residents outside municipal limits must pay rates governed by GRIP, there are some cities served by Atmos Mid-Tex that chose to remain under GRIP rather than adopt RRM. Additionally, the City of Dallas adopted a variation of RRM which is referred to as DARR. When

new rates become effective on October 1, 2026, ACSC residents will maintain an economic monthly advantage over GRIP and will be comparable to DARR rates.

Comparison to Other Mid-Tex Rates (Residential)

	Average Bill	Compared to RRM Cities
RRM Cities:	$66.18	-
DARR:	$66.07	$0.11
ATM Cities:	$67.02	($0.84)
Environs:	$66.07	$0.11

Note: ATM Cities and Environs rates are as-filed. Also note that DARR uses a test year ending in September rather than December.

EXPLANATION OF "BE IT RESOLVED" PARAGRAPHS:

1. This section approves all findings in the Resolution/Ordinance.
2. This section adopts the RRM rate tariffs and finds the adoption of the new rates to be just, reasonable, and in the public interest.
3. This section makes it clear that Cities may challenge future costs associated with gas leaks.
4. This section finds that existing rates are unreasonable. Such finding is a necessary predicate to establishment of new rates. The new tariffs will permit Atmos Mid-Tex to recover an additional $260.5 million on a system-wide basis.
5. This section approves an exhibit that establishes a benchmark for pensions and retiree medical benefits to be used in future rate cases or RRM filings.
6. This section requires the Company to reimburse the City for expenses associated with review of the RRM filing, settlement discussions, and adoption of the Resolution/Ordinance approving new rate tariffs.
7. This section repeals any resolution or ordinance that is inconsistent with the Resolution/Ordinance.

8. This section finds that the meeting was conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

9. This section is a savings clause, which provides that if any section is later found to be unconstitutional or invalid, that finding shall not affect, impair, or invalidate the remaining provisions of this Resolution/Ordinance. This section further directs that the remaining provisions of the Resolution/Ordinance are to be interpreted as if the offending section or clause never existed.

10. This section provides for an effective date upon passage.

11. This section directs that a copy of the signed Resolution/Ordinance be sent to a representative of the Company and legal counsel for ACSC.

CONCLUSION

The Legislature's GRIP process allowed gas utilities to receive annual rate increases associated with capital investments. The RRM process has proven to result in a more efficient and less costly (both from a consumer rate impact perspective and from a ratemaking perspective) than the GRIP process. Given Atmos Mid-Tex's claim that its historic cost of service should entitle it to recover $291.1 million in additional system-wide revenues, the RRM settlement at $260.5 million for ACSC members reflects substantial savings to ACSC cities. Settlement at $260.5 million is fair and reasonable. The ACSC Executive Committee consisting of city employees of 18 ACSC members urges all ACSC members to pass the Resolution/Ordinance before October 1, 2026. New rates become effective October 1, 2026.

RESOLUTION NO. _____

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, AUTHORIZING A NEGOTIATED SETTLEMENT BETWEEN THE ATMOS CITIES STEERING COMMITTEE ("ACSC") AND ATMOS ENERGY CORP., MID-TEX DIVISION REGARDING THE COMPANY'S 2026 RATE REVIEW MECHANISM FILING; DECLARING EXISTING RATES TO BE UNREASONABLE; ADOPTING TARIFFS THAT REFLECT RATE ADJUSTMENTS CONSISTENT WITH THE NEGOTIATED SETTLEMENT; FINDING THE RATES TO BE SET BY THE ATTACHED SETTLEMENT TARIFFS TO BE JUST AND REASONABLE AND IN THE PUBLIC INTEREST; APPROVING AN ATTACHMENT ESTABLISHING A BENCHMARK FOR PENSIONS AND RETIREE MEDICAL BENEFITS; REQUIRING THE COMPANY TO REIMBURSE ACSC'S REASONABLE RATEMAKING EXPENSES; DETERMINING THAT THIS RESOLUTION WAS PASSED IN ACCORDANCE WITH THE REQUIREMENTS OF THE TEXAS OPEN MEETINGS ACT; ADOPTING A SAVINGS CLAUSE; DECLARING AN EFFECTIVE DATE; AND REQUIRING DELIVERY OF THIS RESOLUTION TO THE COMPANY AND THE ACSC'S LEGAL COUNSEL; REPEALING CONFLICTING RESOLUTIONS; INCLUDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

WHEREAS, the City Council desires to approve the settlement agreement between Atmos Cities Steering Committee ("ACSC") and Atmos Energy Corp., Mid-Tex Division ; and

WHEREAS, the City of Georgetown, Texas ("City") is a gas utility customer of Atmos Energy Corp., Mid-Tex Division ("Atmos Mid-Tex" or "Company"), and a regulatory authority with an interest in the rates, charges, and services of Atmos Mid-Tex; and

WHEREAS, the City is a member of the Atmos Cities Steering Committee ("ACSC"), a coalition of similarly-situated cities served by Atmos Mid-Tex ("ACSC Cities") that have joined together to facilitate the review of, and response to, natural gas issues affecting rates charged in the Atmos Mid-Tex service area; and

WHEREAS, ACSC and the Company worked collaboratively to develop a Rate Review Mechanism ("RRM") tariff that allows for an expedited rate review process by ACSC Cities as a substitute to the Gas Reliability Infrastructure Program ("GRIP") process instituted by the Legislature, and that will establish rates for the ACSC Cities based on the system-wide cost of serving the Atmos Mid-Tex Division; and

WHEREAS, the current RRM tariff was adopted by the City in a rate ordinance in 2018; and

WHEREAS, on about April 1, 2026, Atmos Mid-Tex filed its 2026 RRM rate request with ACSC Cities based on a test year ending December 31, 2026; and

WHEREAS, ACSC coordinated its review of the Atmos Mid-Tex 2026 RRM filing through its Executive Committee, assisted by ACSC's attorneys and consultants, to resolve issues identified in the Company's RRM filing; and

WHEREAS, the Executive Committee, as well as ACSC's counsel and consultants, recommend that ACSC Cities approve an increase in base rates for Atmos Mid-Tex of $260.5 million on a system-wide basis with an Effective Date of October 1, 2026; and

WHEREAS, ACSC agrees that Atmos' plant-in-service is reasonable; and

WHEREAS, with the exception of approved plant-in-service, ACSC is not foreclosed from future reasonableness evaluation of costs associated with incidents related to gas leaks; and

WHEREAS, the attached tariffs (Attachment 1) implementing new rates are consistent with the recommendation of the ACSC Executive Committee, are agreed to by the Company, and are just, reasonable, and in the public interest; and

WHEREAS, the settlement agreement sets a new benchmark for pensions and retiree medical benefits (Attachment 2); and

WHEREAS, the RRM Tariff contemplates reimbursement of ACSC's reasonable expenses associated with RRM applications; and

WHEREAS, the City Council finds it to be in the best interest of the public to approve the settlement, as set out herein.

NOW THEREFORE BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS:

Section 1. The meeting at which this resolution was approved was conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

Section 2. The facts and recitations contained in the preamble of this resolution are hereby found and declared to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

Section 3. That, without prejudice to future litigation of any issue identified by ACSC, the City Council finds that the settled amount of an increase in revenues of $260.5 million on a system-wide basis represents a comprehensive settlement of gas utility rate issues affecting the rates, operations, and services offered by Atmos Mid-Tex within the municipal limits arising from Atmos Mid-Tex's 2026 RRM filing, is in the public interest, and is consistent with the City's authority under Section 103.001 of the Texas Utilities Code.

Section 4. That despite finding Atmos Mid-Tex's plant-in-service to be reasonable, ACSC is not foreclosed in future cases from evaluating the reasonableness of costs associated with incidents involving leaks of natural gas.

Section 5. That the existing rates for natural gas service provided by Atmos Mid-Tex are unreasonable. The new tariffs attached hereto and incorporated herein as Attachment 1, are just and reasonable, and are designed to allow Atmos Mid-Tex to recover annually an additional $260.5 million on a system-wide basis, over the amount allowed under currently approved rates. Such tariffs are hereby adopted.

Section 6. That the ratemaking treatment for pensions and retiree medical benefits in Atmos Mid-Tex's next RRM filing shall be as set forth on Attachment 2, attached hereto and incorporated herein.

Section 7. That Atmos Mid-Tex shall reimburse the reasonable ratemaking expenses of the ACSC in processing the Company's 2026 RRM filing.

Section 8. That to the extent any resolution or ordinance previously adopted by the Council is inconsistent with this Resolution, it is hereby repealed.

Section 9. If any provision of this resolution, or application thereof, to any person or circumstance, shall be held invalid, such invalidity shall not affect the other provisions, or

application thereof, of this resolution, which can be given effect without the invalid provision or application, and to this end the provisions of this resolution are hereby declared to be severable.

Section 10. That consistent with the City Ordinance that established the RRM process, this Resolution shall become effective from and after its passage with rates authorized by attached tariffs to be effective for bills rendered on or after October 1, 2026.

Section 11. That a copy of this Resolution shall be sent to Atmos Mid-Tex, care of Chris Felan, Vice President of Rates and Regulatory Affairs Mid-Tex Division, Atmos Energy Corporation, 5420 LBJ Freeway, Suite 1862, Dallas, Texas 75240, and to Thomas Brocato, General Counsel to ACSC, at Lloyd Gosselink Rochelle & Townsend, P.C., 816 Congress Avenue, Suite 1900, Austin, Texas 78701**.**

Section 12. The Mayor is hereby authorized to sign this resolution and the City Secretary to attest. This resolution shall become effective and be in full force and effect October 1, 2026, in accordance with the provisions of the City Charter of the City of Georgetown.

SUBJECT:
Resolution - First Amendment to the Development and Construction Agreement Heirloom PID

SUGGESTED ACTION:
Consideration and possible action to approve the "First Amendment to the Development and Construction Agreement", between the City of Georgetown, Texas and Heirloom East TX, LLC, HEIRLOOMTX, LLC, and Georgetown Independent School District, relating to approximately 618.98 acres of land -- Nick Woolery, Assistant City Manager

ITEM SUMMARY:
By Resolution No. 082625-6.M dated August 25, 2026, the City Council approved that certain "Development and Construction Agreement" between the City, Heirloom East TX LLC and HEIRLOOMTX, LLC (collectively, "Heirloom"), and Georgetown Independent School District relating to approximately 618.98 acres of land generally situated north of Ronald W. Reagan Jr. Blvd. and west of Williams Drive in Williamson Couty, Texas recorded as Document No. 2026023941 in the Public Records of Williamson County, Texas (the "Original Agreement"), which, among other things, granted variances or waivers to the City's 2018 PID Policy.

Subsequently, Heirloom requested additional variances or waivers to the City's 2018 PID Policy – to add allow additional items to be financed with PID Bond proceeds distributed to Heirloom pre-construction (rather than after construction) and at a lower value-to-lien ratio, and to waive the requirement to pre-pay PID assessments for multifamily development, which requests were presented to and generally supported by the City Council at a Workshop on July 28, 2026.

The First Amendment to Development and Construction Agreement attached to this Resolution as Attachment 1 (the "First Amendment") memorializes the City Council's consent to granting the additional variances or waivers from the City's 2018 PID Policy as set forth in the attached First Amendment.

The attached First Amendment also modifies the Original Agreement to set forth the price and terms and conditions for the City's purchase of land for a fire station site and additional right of way along Williams Drive, and corrects a scrivener's error stating the total acreage of land subject to the Original Agreement, as amended by the First Amendment, and within the boundaries of the Public Improvement District is 622.525 acres.

RESOLUTION NO. _____

RESOLUTION OF THE CITY COUNCIL OF GEORGETOWN, TEXAS, APPROVING THE "FIRST AMENDMENT TO DEVELOPMENT AND CONSTRUCTION AGREEMENT" PERTAINING TO THE HEIRLOOM PUBLIC IMPROVEMENT DISTRICT; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; AND PROVIDING AN EFFECTIVE DATE.

RECITALS

WHEREAS, by Resolution No. 082625-6.M dated August 25, 2026, the City Council approved that certain "Development and Construction Agreement" between the City, Heirloom East TX LLC and HEIRLOOMTX, LLC (collectively, "**Heirloom**"), and Georgetown Independent School District relating to approximately 618.98 acres of land generally situated north of Ronald W. Reagan Jr. Blvd. and west of Williams Drive in Williamson Couty, Texas recorded as Document No. 2026023941 in the Public Records of Williamson County, Texas (the "**Original Agreement**"), which, among other things, granted variances or waivers to the City's 2018 PID Policy.

WHEREAS, subsequently, Heirloom requested additional variances or waivers to the City's 2018 PID Policy – to add allow additional items to be financed with PID Bond proceeds distributed to Heirloom pre-construction (rather than after construction) and at a lower value-to-lien ratio, and to waive the requirement to pre-pay PID assessments for multifamily development, which requests were presented to and generally supported by the City Council at a Workshop on July 28, 2026.

WHEREAS, the First Amendment to Development and Construction Agreement attached to this Resolution as ***Attachment 1*** (the "**First Amendment**") memorializes the City Council's consent to granting the additional variances or waivers from the City's 2018 PID Policy as set forth in the attached First Amendment.

WHEREAS, the attached First Amendment also modifies the Original Agreement to set forth the price and terms and conditions for the City's purchase of land for a fire station site and additional right of way along Williams Drive, and corrects a scrivener's error stating the total acreage of land subject to the Original Agreement, as amended by the First Amendment, and within the boundaries of the Public Improvement District is 622.525 acres

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

1. The meeting at which this Resolution was approved was in all things conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

2. The City Council hereby finds that the foregoing recitals are true and correct, and the recitals are hereby incorporated into this Resolution by reference for all purposes as set forth in full. The City Council hereby finds that this Resolution compliance with the Vision Statement of the City of Georgetown 2030 Comprehensive Plan.

3. The First Amendment to Development and Construction Agreement in substantially the form attached as ***Attachment 1*** to this Resolution is approved by the City Council and incorporated into this Resolution for all purposes.

4. If any provision of this Resolution or application thereof to any person or circumstance shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this Resolution which can be given effect without the invalid provision or application, and to this end the provisions of this Resolution are hereby declared to be severable.

5. The Mayor is authorized to sign this Resolution and First Amendment to Development and Construction Agreement attached as ***Attachment 1*** to this Resolution, and the City Secretary is authorized to attest.

6. This Resolution and the First Amendment to Development and Construction Agreement attached as ***Attachment 1*** to this Resolution will become effective in accordance with the terms and conditions stated in the First Amendment to Development and Construction Agreement and the City Charter.

FIRST AMENDMENT TO
DEVELOPMENT AND CONSTRUCTION AGREEMENT

(Heirloom)

This First Amendment to Development and Construction Agreement ("**First Amendment**") is by and between the CITY OF GEORGETOWN, a Texas home rule municipality (the "**City**"), GEORGETOWN INDEPENDENT SCHOOL DISTRICT, a political subdivision of the State of Texas ("**GISD**"), Heirloom East Tx, LLC, a Delaware limited liability company ("**Heirloom East**"), HEIRLOOMTX, LLC, a Delaware limited liability company ("**Heirloom Tx**") and consented to by Heirloom1 Communities TX, LLC, a Delaware limited liability company ("**Heirloom Communities**"). Heirloom East and Heirloom Tx may be referred to collectively as "**Heirloom Owner**." GISD, Heirloom Communities, and Heirloom Owner may be referred to herein individually as an "**Owner**" or collectively as the "**Owners**"). The City, GISD, Heirloom Communities and Heirloom Owner are sometimes referred to collectively herein as the "**Parties**."

RECITALS

WHEREAS, on August 26, 2025, the City Council of the City took the following actions: (*1*) passed and approved Resolution No. 082625-6.M approving that certain "Construction and Development Agreement Heirloom" (the "**Original Agreement**") by and among the City, GISD, Heirloom East, and Heirloom Tx pertaining to the development of that certain land described and defined in the Original Agreement (the "**Property**"), recorded in the Official Public Records of Williamson County, Texas as Document No. 2026023941; (2) passed and approved Ordinance No. 2025-45 annexing the Property into the City limits and zoning the Property as a Planned Unit Development; and (*3*) passed and approved Resolution No. 082625-6.P, authorizing and approving creation of a Public Improvement District on the Property, recorded as Document No. 2025071911 in the Official Public Records of Williamson County, Texas.

WHEREAS, subsequent to the date of the Original Agreement, Heirloom Tx conveyed a portion of the Property to Heirloom Communities.

WHEREAS, the Original Agreement misstated the total acreage of the Property and needs to be updated to reflect that the total acreage of the Property is approximately 622 acres.

WHEREAS, Section 10.04.03 of the Original Agreement allowed the Heirloom Owner to choose to Complete the Primary Collector first and all at once, rather than in

three segments over time, and if the former, approved certain variances from the City's PID Policy to aid the Heirloom Owner in financing the upfront Completion of the Primary Collector.

WHEREAS, Heirloom Owner has requested that the variances to the City's PID Policy granted in Section 10.04.03 of the Original Agreement pertaining to upfront construction of the Primary Collector also apply to certain other public improvements that are to be Completed by Heirloom Owner simultaneously with Completion of the Primary Collector (collectively, the "**Primary Collector-Related Public Improvements**", defined herein).

WHEREAS, Heirloom Owner has also requested a waiver from the City's PID Policy Article III, Section 11, which states that, "If multi-family rental units are included within the proposed assessments, all of the multi-family assessments must be prepaid by either the developer or builder, and such assessments and prepayment amounts thereof shall be excluded any reimbursements to the developer, including from PID Bonds."

WHEREAS, the Appraisal Report has been completed, enabling the Parties to establish the fair market values of the Fire Station Site under Section 5.06.02 of the Original Agreement and the Williams Drive ROW under Section 6.08 of the Original Agreement.

WHEREAS, the City has approved a general depiction of a roundabout as alternative (non-signalized) traffic control improvement and desires to amend the definition of "Intersection Improvements" in the Original Agreement to reference the depiction.

WHEREAS, for the reasons described above, the Parties desire to enter into this First Amendment to amend the sections of the Original Agreement as set forth below.

NOW THEREFORE, for and in consideration of the mutual covenants and agreements set forth herein, and other good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

AGREEMENT

1.01. **Amendment to Section 2.01.28.** Section 2.01.28 of the Original Agreement is hereby repealed in its entirety and replaced with the following:

2.01.28 *"GISD Property"* means that certain approximately 145 acres of land located in Williamson County, Texas which is more particularly described by metes and bounds on ***Exhibit "A-3"*** attached hereto."

1.02. **Amendment to Section 2.01.33.** Section 2.01.33 of the Original Agreement is hereby repealed in its entirety and replaced with the following:

2.01.28 "*Heirloom Property*" means that certain approximately 473 acres of land located in Williamson County, Texas which is more particularly described by metes and bounds on ***Exhibit A-1 and Exhibit A-2*** attached hereto.

1.03. **Amendment to Section 2.01.34** Section 2.01.37 of the Original Agreement is hereby repealed in its entirety and replaced with the following:

2.01.34 "*HOA Maintained Improvements/Areas*" means, collectively, the Private Drainage Facilities, the Parkland, the Parkland Improvements, and the Park Trails, and Landscaping Improvements in roadway medians, common areas, and other similar areas within the Property that are not owned by an End Buyer of a residential or commercial Lot.

1.04. **Amendment to Section 2.01.37.** Section 2.01.37 of the Original Agreement is hereby repealed in its entirety and replaced with the following:

2.01.37 "*Intersection Improvements*" means, collectively, those improvements required by the City, County, or TxDOT for the Intersections, which includes, without limitation, mast arms and traffic signals (including associated electrical and other equipment and appurtenances) or alternative (non-signalized) traffic control improvements if such are approved by the City (including roundabouts having the features depicted in ***Exhibit G*** attached to the First Amendment including having tinted and stamped concrete to identify the traffic circle and lanes, and a raised interior structure to prevent vehicular cut-throughs and assist drivers in yielding to traffic in the circle), land for dedicated turn lanes, land for dedicated bike lanes, lane and crosswalk striping or marking, ADA-compliant sidewalk ramps and pedestrian crossing signals, plus all other features, improvements, appurtenances, equipment, or facilities required by the Applicable Laws pertaining to traffic and pedestrian management and control at the Intersections.

1.05. **Amendment to Section 2.01.44.** Section 2.01.44 of the Original Agreement is hereby repealed in its entirety and replaced with the following:

2.01.44 "*Maintenance Agreement*" means one (1) or more agreements substantially in the form attached as ***Exhibit E*** to the First Amendment and related to maintenance in perpetuity of the HOA Maintained Improvements/Areas between the City, Heirloom Owner, and an HOA. The Maintenance Agreement shall also grant a license to the Heirloom Owner and/or the HOA, as applicable, to allow said party to enter onto City-owned areas (e.g., Parkland) to perform the maintenance obligations.

1.06. **Deletion of Sections 2.01.62, 2.01.63, and 2.01.64.** Sections 2.01.62, 2.01.63, and 2.01.64 of the Original Agreement, pertaining to segments of the Primary Collector, are hereby deleted in their entirety.

1.07. **Amendment to Add New Definitions to the Original Agreement:** The Original Agreement is hereby amended to include the following new defined terms:

2.01.84 "*Appraisal Report*" means that certain appraisal report dated May 11, 2026 prepared by Barletta & Associates, Inc. pertaining to the Property, which is on file with the City and which concludes that the current fair market value of the Property to be $132,420.00 per acre.

2.01.85 "*First Amendment Effective Date*" means the latest date accompanying the signatures of the duly authorized representatives of the Parties appearing on the First Amendment.

2.01.86 "*First PID Bond Issuance*" means the first in the series of PID Bonds, which must include, and must only include, bonds in an amount not to exceed the First PID Bond Issuance Amount, the proceeds of which are restricted to use for the Completion by Heirloom Owner of the Primary Collector and the Primary Collector-Related Improvements.

2.01.87 "*First PID Bond Issuance Amount*" means an amount not to exceed $20,895,000 which is the amount certified by the Engineer to be required for the Completion of the Primary Collector and the Primary Collector-Related Public Improvements per the PID Engineering Report, inclusive of bond issuance costs and deposit to the PID administrative fund as set forth in the Preliminary Service and Assessment Plan.

2.01.88 "*Landscaping Improvements*" means and includes all trees, shrubs, hedges, flowerbeds, turn, groundcover, irrigation systems, lighting, grading, hardscaping, and other natural or artificial landscape betterments.

2.01.89 "*PID Engineering Report*" means that certain report dated August 17, 2026 prepared and sealed by _____ of Gray Civil Inc., which is on file with the City.

2.01.90 "*Primary Collector-Related Public Improvements*" means the following public improvements, as each are more fully described in the PID Engineering Report: Street Improvements, Signalized Intersection Improvements, Wastewater Improvements, Water Improvements, Drainage Improvements, Erosion Control Improvements, Clearing and Grading Improvements, Soft Costs, and District Formation Costs.

1.08. **Amendment to Section 5.06.02 Fire Station**. Section 5.06.02 pertaining to Fire Station of the Original Agreement is hereby repealed and replaced with the following:

5.06.02 **Fire Station Site Conveyance**. Within twenty-one (21) days after the First Amendment Effective Date, Heirloom East agrees to provide to the City (i) a survey prepared by a registered professional land surveyor licensed to practice in the State of Texas for an approximately 3.0 acre portion of the Property situated in the southeast corner of the planned intersection of the Primary Collector and CR 248 (the "**Fire Station Site**") where generally depicted on the attached ***Exhibit H*** (to include a metes and bounds description and surveyor's sketch); (ii) a current title report and a preliminary title commitment for the Fire Station Site (prepared by a title company chosen by the City) showing only the standard pre-printed exceptions to title on the forms issued by the Texas Department of Insurance, with all liens and other monetary encumbrances removed or subordinated to the City and any non-monetary encumbrances approved in advance by the City Attorney; and (iii) a draft deed in a form approved by the City Attorney as evidenced by its signature thereon. Items (i) – (iii) shall collectively be referred to as the "**Fire Station Conveyance Documents**". The Parties agree that, the fair market value of the Fire Station Site will be the value per-acre set forth in the Appraisal Report. Closing of the conveyance of the Fire Station Site from Heirloom East to the City shall occur within 75 days after the date the Fire Station Conveyance Documents are provided to the City. If the Closing does not occur within said 75 day period, the value per-acre set forth in the Appraisal Report shall be void

and the City shall purchase the Fire Station Site for an amount not to exceed the then current fair market value as determined by a new appraisal performed by an independent, mutually acceptable, third-party certified professional appraiser, and the cost of the appraisal shall be shared equally by the City and Heirloom East.

1.09. **Amendment to Section 5.06.02 Hydrants.** Section 5.06.02 of the Original Agreement pertaining to Hydrants is hereby renumbered as Section 5.06.03.

1.10. **Amendment to Section 6.05.** Section 6.05 of the Original Agreement is hereby repealed in its entirety and replaced with the following:

6.05 Primary Collector. Heirloom Owner shall design and Complete, or cause to be designed and Completed, in accordance with the Applicable Laws and at no cost to the City, the Primary Collector as a roadway meeting the City's standards for a "major collector" roadway, as the term "major collector" is defined and described in the UDC. In addition, the following provisions shall apply:

6.05.01 If not conveyed at the time of construction plan approval, the first final plat application for the Property shall include (*a*) dedication to the City by the applicable Owner of the full right-of-way width (94 feet wide) for the Primary Collector, (*b*) dedication to the City by the applicable Owner of all land needed for the Primary Collector/Ronald Reagan Blvd. Intersection and the Primary Collector/Williams Drive Intersection, and (*c*) all easements, in Approved Form, for the Primary Collector-Related Public Improvements.

6.05.02 Construction plans for the Primary Collector must be submitted prior to an application for the first final plat of all or any portion of the Property, and must show Completion of the full cross section for a "major collector" roadway for the entire length of the Primary Collector (from its intersection with Ronald Reagan Blvd. to its intersection with Williams Drive) .

6.05.03 Applications for approval of the construction plans for the Primary Collector-Related Public Improvements must be submitted simultaneously with the construction plans for the Primary Collector.

1.11. **Amendment to Section 6.08.** Section 6.08 of the Original Agreement is hereby repealed and replaced with the following:

6.08 **Williams Drive ROW Conveyance**. Within twenty-one (21) days after the First Amendment Effective Date, Heirloom East and GISD (each a "**Conveying Party**") each agree to provide to the City (i) a survey prepared by a registered professional land surveyor licensed to practice in the State of Texas for a strip of land thirty-five feet wide alongside and bordering the west side of Williams Drive (the "**Williams Drive ROW**") for the length of their respective portions of the relevant Heirloom Property and the GISD Property (to include a metes and bounds description and surveyor's sketch); (ii) a current title report and a preliminary title commitment (prepared by a title company chosen by the City) showing only the standard pre-printed exceptions to title on the forms issued by the Texas Department of Insurance, with all liens and other monetary encumbrances removed or subordinated to the City and any non-monetary encumbrances approved in advance by the City Attorney; and (iii) a draft deed in a form approved by the City Attorney as evidenced by its signature thereon. Items (i) – (iii) shall collectively be referred to as the "**Williams Drive ROW Conveyance Documents**". The Parties agree that the fair market value of the Williams Drive ROW will be the value per-acre set forth in the Appraisal Report. Closing of the conveyances of the Williams Drive from the relevant Conveying Party to the City shall occur within 75 days after the date the Williams Drive ROW Conveyance Documents are provided to the City. Per the terms of this Agreement and the City's Interlocal Agreement with GISD, GISD's portion of the ROW shall be dedicated at no cost to the City as the future improvements to this portion of Williams Drive will directly benefit the GISD property. If the Closing does not occur within said 75 day period, the value per-acre set forth in the Appraisal Report shall be void and the City shall purchase the Willaims Drive ROW for an amount not to exceed the then current fair market value as determined by a new appraisal performed by an independent, mutually acceptable, third-party certified professional appraiser, and the cost of the appraisal shall be shared equally by the City and Heirloom East.

1.12. **Amendment to Section 6.10.02 and Section 6.10.03.** The following subsections of Section 6.10 of the Original Agreement are hereby repealed in their entirety and replaced with the following:

6.10.02 Primary Collector/CR 248 Intersection. Heirloom Owner shall Complete all Intersection Improvements related to the Primary Collector/CR 248 Intersection as specified and required by the City not later than the date of Completion of the Primary Collector and as a condition of the City's acceptance of the Primary Collector for ownership and maintenance. The City agrees that a roundabout constructed consistently with the depiction on ***Exhibit G*** attached to the First Amendment will suffice as traffic control for this intersection and Heirloom Owner agrees to include such roundabout in the construction plans for the Primary Collector. If the roundabout is Completed as required by this Agreement, the City agrees that the Warrant Study and Traffic Signalization requirements in **Section 6.11** will not apply to this intersection.

6.10.03 Primary Collector/Williams Drive Intersection. Heirloom Owner shall Complete all Intersection Improvements specified and required by the City, the County, or TxDOT to control traffic traveling to or from the Primary Collector via Williams Drive not later than the date of Completion of the Primary Collector and as a condition of the City's acceptance of the Primary Collector for ownership and maintenance. If the intersection is to be owned and controlled by the City, the City shall provide Heirloom Owner with the specifications and requirements for Intersection Improvements during construction plan review for the Primary Collector. If the intersection is to be owned and controlled by the County or TxDOT, Heirloom Owner shall provide the City with written documentation describing the Intersection Improvements prepared and signed by a duly authorized representative of the County or TxDOT, as applicable, with the construction plans for the Primary Collector.

1.13. **Amendment to Section 10.04.03.** Section 10.04.03 of the Original Agreement is hereby repealed in its entirety and replaced with the following:

Sec. 10.04.03. Variances from the City's PID Policy.

(a) In consideration for Heirloom Owner's agreement to construct the entire length of the Primary Collector (from its intersection with Ronald Reagan Blvd. to its intersection with Williams Drive) as a condition of the City's approval of the first final plat for any portion of the Property, the City Council hereby approves variances from 2018 PID Policy Article V, Section 1 and Section 10 for the First PID Bond Issuance to allow (x) the minimum appraised value to lien ratio at the date of said first PID bond issuance to be 2:1 (rather than 4:1 per 2018 PID Policy Article V, Section 1) and (y)

disbursement of proceeds of the First PID Bond Issuance for the Completion of the Primary Collector and the Primary Collector-Related Public Improvements prior to Completion of the Primary Collector and the Primary Collector-Related Public Improvements (rather than after Completion per 2018 PID Policy Article V, Section 10). Notwithstanding the generality of the foregoing sentences, Heirloom Owner understands and agrees that the City Council will condition its consent on inclusion in the PID Documents of special conditions including, for example, the following: (a) Heirloom Owner's evidence of financial security to fund the Completion of the Primary Collector and the Primary Collector-Related Public Improvements (prior to any use of PID assessments or PID bond proceeds) in the amount of the difference between the City-approved Engineer's cost estimate for Completion of the entire length of the Primary Collector and all of the Primary-Collector Related Public Improvements, and the amount of proceeds generated by the First PID Bond Issuance, which form of fiscal security shall be in cash or such other form of security acceptable to the City pursuant to the PID Documents; (b) terms and conditions regarding Completion of the Primary Collector and the Primary Collector-Related Public Improvements and disbursement of PID bond proceeds acceptable to the City; and (c) other conditions deemed advisable or necessary by the City in its sole discretion. Any waivers or variances from 2018 PID Policy Article V, Section 1 and Section 10 for the first PID bond issuance to accommodate construction of the Primary Collector and the Primary Collector-Related Public Improvements, shall not constitute City Council consent to granting any variances or waivers from the 2018 PID Policy Article V, Section 1 and Section 10 for any subsequent PID bond issuances or for any other reasons.

(b) If multi-family rental units are included within proposed Assessments, the Assessments shall not be required to be prepaid (rather than required to be prepaid by either the Developer or the builder per the City's PID Policy Article III, Section 11). In lieu of prepayment, the following restrictions, limitations, and conditions related to Assessments on multi-family rental units shall apply: PID Bonds secured by Assessments on multi-family rental units shall not be issued unless and until (i) the Developer has Completed construction of the Authorized Improvements (as that term is defined in the PID Act) that pertain to the applicable Improvement Area in accordance with all terms and conditions of the Development Agreement; (ii) the Developer has secured, or caused to be secured, all building permits needed for construction of multi-family residential units in the applicable

Improvement Area; and (iii) Developer is not in default under the PID Financing Agreement.

1.14. **Updated Exhibits and Amendment to Section 13.01.** Exhibit E is repealed and replaced with the corrected exhibit attached to this First Amendment; new, Exhibit G and Exhibit H attached to this First Amendment are added, and the Exhibit List in Section 13.01 is hereby amended to provide as follows:

Designation	Description	Location
Exhibit A-1	Heirloom Tx Property Description	First Amendment
Exhibit A-2	Heirloom East Property Description	First Amendment
Exhibit A-3	GISD Property Description	First Amendment
Exhibit B-1	Additional Land Development Standards	Original Agreement
Exhibit B-2	Additional Land Development Checklist	Original Agreement
Exhibit C	Conceptual Transportation Plan	Original Agreement
Exhibit D	Conceptual Water and Wastewater Plan	Original Agreement
Exhibit E	Form of Maintenance Agreement	First Amendment
Exhibit F	Form of Fiscal Security	Original Agreement
Exhibit G	Roundabout -- Pictorial Depiction	First Amendment
Exhibit H	Fire Station Site – General Location Map	First Amendment

1.15. **Effect of Recitals.** The Parties agree that the Recitals in this First Amendment are true and correct.

1.16. **Defined Terms.** Unless amended by this First Amendment, capitalized terms used in this First Amendment that are not otherwise defined in this First Amendment shall have the meanings set forth in the Original Agreement.

1.17. **Counterparts.** This First Amendment may be executed in multiple counterparts, each of which shall be deemed an original instrument, and all of which, taken together, shall constitute one and the same instrument. The signature of any party hereto to any counterpart hereof shall be deemed a signature to, and may be appended to, any other counterpart hereof.

1.18. **Effective Date:** This First Amendment will become effective on the latest date accompanying the signature lines of duly authorized representatives of the Parties appearing below.

1.19. **Recording.** This First Amendment will be recorded in the Official Records of Williamson County, Texas by Heirloom Owner at Heirloom Owner's expense.

361.943 ACRES
WILLIAMSON COUNTY, TEXAS

A DESCRIPTION OF 361.943 ACRES (APPROXIMATELY 15,766,246 SQ. FT.) IN THE CHARLES H. DELANEY SURVEY NO.11, ABSTRACT NO. 181 IN WILLIAMSON COUNTY, TEXAS, BEING ALL OF A 362.01 ACRE TRACT CONVEYED TO GVM III, LLC IN A SPECIAL WARRANTY DEED DATED JANUARY 30, 2019 AND RECORDED IN DOCUMENT NO. 2019009671 OF THE OFFICIAL PUBLIC RECORDS OF WILLIAMSON COUNTY, TEXAS; SAID 361.943 ACRES BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING at a 1/2" rebar found in the north right-of-way line of Ronald Reagan Boulevard (right-of-way width varies) as described in Document No. 2006073735 of the Official Public Records of Williamson County, Texas, being the southernmost southeast corner of the said 362.01 acre tract, being also the southwest corner of Lot 5, Block F, Wade Crossing Phase 1, a subdivision recorded in Cabinet T, Slide 61 of the Plat Records of Williamson County, Texas;

THENCE with the north right-of-way line of Ronald Reagan Boulevard and the south line of the said 362.01 acre tract, the following thirteen (13) courses and distances:

1. South 64°21'56" West, a distance of 61.85 feet to a 1/2" rebar with "RPLS 5784" cap found;

2. With a curve to the left, having a radius of 8650.00 feet, a delta angle of 04°26'04", an arc length of 669.48 feet, and a chord which bears South 62°20'34" West, a distance of 669.31 feet to a 1/2" rebar with "PBSJ" cap found;

3. North 30°06'18" West, a distance of 9.99 feet to a 1/2" rebar with "PBSJ" cap found;

4. With a curve to the left, having a radius of 8670.00 feet, a delta angle of 01°28'05", an arc length of 222.14 feet, and a chord which bears South 59°23'20" West, a distance of 222.14 feet to a 1/2" rebar with "RPLS 5784" cap found;

5. South 58°39'00" West, a distance of 254.37 feet to a 1/2" rebar with "PBSJ" cap found;

6. North 31°40'32" West, a distance of 9.94 feet to a 1/2" rebar with "PBSJ" cap found;

7. South 58°39'01" West, a distance of 1518.07 feet to a 1/2" rebar with "PBSJ" cap found;

8. South 31°34'30" East, a distance of 20.03 feet to a 1/2" rebar with "PBSJ" cap found;

9. South 58°39'20" West, a distance of 1706.47 feet to a 1/2" rebar with "PBSJ" cap found;

10. North 32°01'03" West, a distance of 9.97 feet to a 1/2" rebar with "PBSJ" cap found;

11. South 58°40'41" West, a distance of 382.01 feet to a 1/2" rebar with "PBSJ" cap found;

12. South 31°19'19" East, a distance of 10.14 feet a cotton spindle "Early Boundary" washer set;

13. South 58°40'41" West, a distance of 42.16 feet to a 1/2" rebar with "PBSJ" cap found for the southwest corner of said 362.01 acre tract, being the southeast corner of a 523.521 acre tract described in Document No. 2022010857 of the Official Public Records of Williamson County, Texas;

THENCE with the west line of said 362.01 acre tract and the east line of said 523.521 acre tract, the following six (6) courses and distances:

1. North 20°51'09" West, a distance of 1031.61 feet to a 1/2" rebar found in the west side of a live oak tree;

2. North 27°20'27" West, a distance of 238.87 feet to a 1/2" rebar with illegible cap found;

3. North 20°43'00" West, a distance of 451.23 feet to a 1/2" rebar with illegible cap found;

4. North 20°44'15" West, a distance of 766.10 feet to a 1/2" rebar with illegible cap found;

5. North 64°38'15" East, a distance of 15.94 feet to 1/2" rebar found;

6. North 21°03'54" West, a distance of 2128.29 feet to a 1/2" rebar with "RPLS 5784" cap found for the northwest corner of said 362.01 acre tract;

THENCE North 68°43'41" East, with the north line of the 362.01 acre tract and the south line of the 523.521 acre tract, passing a 1/2" rebar with "Bury" cap found at a distance of 729.11 feet and continuing for a total distance of 3065.64 feet to a 1/2" rebar found in the southwest right-of-way line of County Road 248, being the northeast corner of the said 362.01 acre tract, being the easternmost corner of the said 523.521 acre tract;

THENCE with the west right-of-way line of County Road 248 and the east line of the said 362.01 acre tract, the following five (5) courses and distances:

1. South 64°44'40" East, a distance of 923.60 feet to a 1/2" rebar found;

2. South 40°32'58" East, a distance of 91.06 feet to a 1/2" rebar found;

3. South 15°30'30" East, a distance of 728.47 feet to a 6" x 6" square metal fence post;

4. South 38°36'41" East, a distance of 440.03 feet to a 1/2" rebar found;

5. South 60°43'49" East, a distance of 359.07 feet to a 1/2" rebar in concrete found for a southeast corner of the said 362.01 acre tract, being an angle point in the north line of Lot 36, Block F, of said Wade Crossing Phase 1, from which a 1/2" rebar found for angle point in the south right-of-way line of County Road 248, being the northeast corner of Lot 36, bears North 14°44'57" East, a distance of 21.45 feet;

THENCE with the common line of the said 362.01 acre tract, said Wade Crossing Phase 1 and Wade Crossing Phase II, a subdivision recorded in Cabinet V, Slide 227 of the Plat Records of Williamson County, Texas, the following ten (10) courses and distances:

1. South 68°42'08" West, a distance of 700.14 feet to a 1/2" rebar with "Diamond" cap found for the northwest corner of said Lot 36, Block F, of said Wade Crossing Phase 1;

2. South 21°17'04" East, a distance of 160.18 feet to a 1/2" rebar found for the southwest corner of said Lot 36, being the northwest corner of Lot 32, Block F, of said Wade Crossing Phase II;

3. South 21°02'35" East, a distance of 157.37 feet to a 1/2" rebar with illegible cap found for the northwest corner of Lot 31, Block F, of said Wade Crossing Phase II;

4. South 21°13'20" East, a distance of 231.14 feet to a 1/2" rebar with illegible cap found for the southwest corner of said Lot 31, being the northwest corner of Lot 30, Block F, of said of said Wade Crossing Phase II;

5. South 21°10'18" East, a distance of 244.21 feet to a 1/2" rebar with illegible cap found for the southwest corner of said Lot 30, being the northwest corner of Lot 29, Block F, of said Wade Crossing Phase II;

6. South 21°13'23" East, a distance of 296.63 feet to a 1/2" rebar with illegible cap found for the southwest corner of said Lot 29;

7. South 21°15'05" East, a distance of 130.36 feet to a mag nail in concrete found for the southwest corner of Lot 28, Block F, of said Wade Crossing Phase II, from which a 1/2" rebar found, bears North 13°10'21" East, a distance of 0.72 feet;

8. North 69°15'03" East, a distance of 249.83 feet to a 1/2" rebar with illegible cap found for the southeast corner of said Lot 28, being the southwest corner of Lot 27, Block F, of said Wade Crossing Phase II;

9. North 69°12'00" East, a distance of 1231.49 feet to a 1/2" rebar found for the southeast corner of Lot 9, Block F, of said Wade Crossing Phase II;

10. South 17°40'36" East, a distance of 407.67 feet to the **POINT OF BEGINNING**, containing an area of 361.943 acres, more or less.

112.041 ACRES
WILLIAMSON COUNTY, TEXAS

A DESCRIPTION OF 112.041 ACRES (APPROXIMATELY 4,880,523 SQ. FT.) IN THE C.H. DELANEY SURVEY NO. 11, ABSTRACT NO. 181 IN WILLIAMSON COUNTY, TEXAS, BEING A PORTION OF LOT 5, M.C. HAMILTON'S SUBDIVISION, A SUBDIVISION OF RECORD IN VOLUME 27, PAGE 137 OF THE DEED RECORDS OF WILLIAMSON COUNTY, TEXAS, BEING A PORTION OF A 113.5 ACRE TRACT CONVEYED TO EMZIE FISHER IN A DEED DATED APRIL 11, 1979 AND RECORDED IN VOLUME 756, PAGE 287 OF THE DEED RECORDS OF WILLIAMSON COUNTY, TEXAS, SAVE AND EXCEPT A 10,000 SQ. FT. TRACT DESCRIBED IN A MEMORANDUM OF PCS SITE AGREEMENT DATED APRIL 26, 2001, AND RECORDED IN DOCUMENT NO. 2001040420 OF THE OFFICIAL PUBLIC RECORDS OF WILLIAMSON COUNTY, TEXAS, AND AMENDED IN DOCUMENT NO. 2017027880 OF THE OFFICIAL PUBLIC RECORDS OF WILLIAMSON COUNTY, TEXAS; SAID 112.041 ACRES BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING at a concrete highway monument found for a point of tangency in the west right-of-way line of Ranch Road 2338 (variable width right-of-way) as described in Volume 416, Page 60 of the Deed Records of Williamson County, Texas, and shown on TXDOT right-of-way strip map CSJ 2211-01-001, being in the south line of said 113.5 acre tract, same being the south line of said Lot 5, being also in the north line of a 50 acre tract described in Volume 353, Page 94 of the Deed Records of Williamson County, Texas;

THENCE South 69°10'58" West, with the south line of said 113.5 acre tract, same being the south line of said Lot 5, also being the north line of said 50 acre tract, a distance of 374.52 feet to a 1/2" rebar with "Steger Bizzell" cap found for the northernmost northeast corner of Lot 1, G.I.S.D. West Side, a subdivision of record in Document No. 2018043822 of the Official Public Records of Williamson County, Texas;

THENCE South 69°08'50" West, with the south line of said 113.5 acre tract, same being the south line of said Lot 5, also being the north line of said Lot 1, a distance of 1407.11 feet to a 1/2" rebar found;

THENCE South 69°20'01" West, continuing with the south line of said 113.5 acre tract, same being the south line of said Lot 5, also being the north line of said Lot 1, passing

at a distance of 1659.17 feet a 1/2” rebar with “Steger Bizzell” cap found in the east right-of-way line of County Road 248 (right-of-way width varies), being the northwest corner of said Lot 1, also being the northeast corner of a 1.43 acre right-of-way dedication shown on said G.I.S.D. West Side subdivision, passing at an additional distance of 23.47 feet a 1/2” rebar with “Steger Bizzell” cap found for the northwest corner of said 1.43 acre right-of-way dedication and continuing, in all, a total distance of 1730.44 feet to a calculated point in the center of the existing pavement of County Road 248;

THENCE with the centerline of the existing pavement of County Road 248, as approximated by the following courses and distances:

1. North 65°57'11" West, a distance of 456.27 feet to a calculated point;
2. North 67°52'24" West, a distance of 1147.05 feet to a calculated point;
3. North 60°21'36" West, a distance of 78.43 feet to a calculated point for the northwest corner of said 113.5 acre tract, being in the north line of said Lot 5;

THENCE North 68°39'29" East, with the north line of said 113.5 acre tract, same being the north line of said Lot 5, a distance of 45.32 feet to a bent 1/2” rebar found in the east right-of-way line of County Road 248, being the southeast corner of a right-of-way dedication shown on West Ridge Subdivision Section One, a subdivision of record in Cabinet P, Slide 358 of the Plat Records of Williamson County, Texas, also being the southwest corner of Block B of said West Ridge Subdivision Section One;

THENCE North 68°39'29" East, with the north line of said 113.5 acre tract, same being the north line of said Lot 5, and the south line of said Block B, West Ridge Subdivision Section One, and Block B, West Ridge Subdivision Section Two, a subdivision of record in Cabinet Q, Slide 82, of the Plat Records of Williamson County, Texas, and Block B, West Ridge Subdivision Section Three, a subdivision of record in Cabinet Q, Slide 84, of the Plat Records of Williamson County, Texas, and Block B, West Ridge Subdivision Section Four, a subdivision of record in Cabinet Q, Slide 311, of the Plat Records of Williamson County, Texas, a distance of 4632.80 feet to a calculated point for an angle point in the west right-of-way line of Ranch Road 2338, being the southwest corner of a 20’ right-of-way dedication shown on said West Ridge Subdivision Section Four;

THENCE North 68°39'29" East, with the right-of-way line of Ranch Road 2338 and the north line of said 113.5 acre tract, same being the north line of said Lot 5, passing at a distance of 18.99 feet to 1/2” rebar found, and continuing, in all, a total distance of 20.00 feet to a calculated point for an angle point in the west right-of-way line of Ranch Road 2338, from which:

- a concrete highway monument found for a point of tangency in the west right-of way line of Ranch Road 2338, bears North 22°14'26" West, a distance of 1814.24 feet,

- a concrete highway monument found in the east right-of-way line of Ranch Road 2338, bears North 22°14'26" West, a distance of 63.67 feet, and North 67°45'34" East, a distance of 80.00 feet;

THENCE crossing said 113.5 acre tract with the west right-of-way line of Ranch Road 2338, the following courses and distances:

1. South 22°14'26" East, a distance of 962.43 feet to a calculated point for a point of curvature, from which a disturbed concrete highway monument found, bears South 67°45'34" West, a distance of 1.30 feet;

2. With a curve to the right, having a radius of 11419.16 feet, a delta angle of 01°14'47", an arc length of 248.41 feet, and a chord which bears South 21°33'43" East, a distance of 248.40 feet to the **POINT OF BEGINNING**, containing an area of 112.271 acres, for a net acreage of 112.041 acres of land, more or less, *of which approximately 1.375 acres lies between the fence and the center of the existing pavement of County Road 248.*

1.633 ACRES
WILLIAMSON COUNTY, TEXAS

A DESCRIPTION OF 1.633 ACRES (APPROXIMATELY 71,135 SQ. FT.), IN THE CHARLES H. DELANEY SURVEY NO. 11, ABSTRACT NO. 181 IN WILLIAMSON COUNTY, TEXAS, BEING ALL OF A 1.63 ACRE TRACT CONVEYED TO GEORGETOWN INDEPENDENT SCHOOL DISTRICT IN A SPECIAL WARRANTY DEED DATED MARCH 9, 2023 AND RECORDED IN DOCUMENT NO. 2023018425 OF THE OFFICIAL PUBLIC RECORDS OF WILLIAMSON COUNTY, TEXAS; SAID 1.633 ACRES BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING at a 1/2” rebar with “Steger Bizzell” cap found in the west right-of-way line of Ranch Road 2338 (variable width right-of-way) as described in Volume 416, Page 60 of the Deed Records of Williamson County, Texas, being the northeast corner of the said 1.63 acre tract, being also in the east line of a 34.124 acre tract described in Document No. 2016000533 of the Official Public Records of Williamson County, Texas, from which a 1/2" rebar with “Steger Bizzell” cap found for an angle point in the west right-of-way line of Ranch Road 2338, for the northeast corner of the said 34.124 acre tract bears North 20°59'36" West, a distance of 735.82 feet;

THENCE South 20°59'36" East, with the west right-of-way line of Ranch Road 2338 and the east line of the said 1.63 acre tract, a distance of 144.06 feet to a calculated point for the southeast corner of the said 1.63 acre tract being the northeast corner of a 23.7011 acre tract described in Document No. 2025102042 of the Official Public Records of Williamson County, Texas, from which,

- a 1/2" rebar found bears South 38°00'01" West, a distance of 0.36 feet, and
- a 1/2” rebar with “PBS&J” cap found for an angle point in the west right-of-way line of Ranch Road 2338 and the east line of the said 23.7011 acre tract bears South 20°59'36" East, a distance of 158.27 feet;

THENCE with the south line of the said 1.63 acre tract and the north line of the said 23.7011 acre tract, the following courses and distances:

1. North 66°02'36" West, a distance of 35.50 feet to a 1/2” rebar with “Steger Bizzell” cap found;

2. South 69°58'28" West, a distance of 724.95 feet 1/2” rebar with “Steger Bizzell” cap found for the southwest corner of the said 1.63 acre tract, being the northwest corner of the said 23.7011 acre tract, being also in the east line of Lot 1, G.I.S.D. West Side, a subdivision of record in Document No. 2018043822 of the Official Public Records of Williamson County, Texas, from which a 1/2" rebar with illegible cap found for an angle point in the east line of said Lot 1 and the west line of the said 23.7011 acre tract bears South 20°59'26" East, a distance of 149.73 feet;

THENCE North 20°59'26" West, with the west line of the said 1.63 acre tract and the east line of said Lot 1, a distance of 94.01 feet to a 1/2” rebar with illegible cap found for the northwest corner of the said 1.63 acre tract, from which a 1/2" rebar with illegible cap found for an angle point in the east line of said Lot 1 and the west line of the said 34.124 acre tract bears North 20°59'26" West, a distance of 571.26 feet;

THENCE crossing the 34.124 acre tract with the north line of the said 1.63 acre tract, the following courses and distances:

1. North 69°58'28" East, a distance of 725.02 feet to a 1/2” rebar with “Steger Bizzell” cap found;

2. North 24°06'28" East, a distance of 35.37 feet to the **POINT OF BEGINNING**, containing 1.633 acres, more or less.

Surveyed on the ground on March 2, 2026.

DESCRIPTION OF

DESCRIPTION OF A 38.53 ACRE TRACT OF LAND LOCATED IN THE C.H. DILANEY SURVEY, ABSTRACT 181, WILLIAMSON COUNTY, TEXAS, BEING OUT OF THAT CERTAIN 50 ACRE TRACT OF LAND CONVEYED TO EMZIE LEE FISHER, ET UX, BY WARRANTY DEED OF RECORD IN VOLUME 354, PAGE 94, OF THE DEED RECORDS OF WILLIAMSON COUNTY, TEXAS, SAID 38.53 ACRE TRACT OF LAND BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

COMMENCING, at a 1/2 inch iron rod found on the west right-of-way line of RM 2338, also known as Williams Drive, an 80.00 foot wide roadway, as dedicated in Volume 416, Page 60, said Deed Records, at its intersection with the south line of said 50 acre tract of land, for the eastern most northeast corner of that certain 98.38 acre tract of land conveyed to the Georgetown Independent School District by Warranty Deed of record in Document No. 2006075903, of the Official Public Records of Williamson County, Texas, from which point a 1/2 inch iron rod with cap stamped "5784" found on said west right-of-way line of RM 2338, for the eastern most southeast corner of said 98.38 ac tract of land, same point being the northeast corner of that certain 34.124 acre tract of land conveyed to Troop Durgin Wright Properties, LP, by Special Warranty Deed of record in Document No. 2016000533, said Official Public Records bears South 21°01'00" East, with said right-of-way, a distance of 139.94 feet;

THENCE, South 69°36'44" West, with said south line of the 50 acre tract, same line being a north line of said 98.38 acre tract, a distance of 374.52 feet to a 1/2 inch iron rod with cap stamped "STEGER BIZZELL" set for the southeast corner and **POINT OF BEGINNING** of the herein described tract;

THENCE, South 69°36'44" West, continuing with the common line of the 50 acre tract and the 98.38 acre tract, a distance of 1466.64 feet, to a 1/2 inch iron rod found for the southwest corner of said 50 acre tract, same point being an interior corner of said 98.38 acre tract of land, and for the southwest corner of the herein described tract;

THENCE, with the west line of said 50 acre tract, same line being an east line of said 98.38 acre tract, the following seven (7) courses and distances:

1. North 20°59'16" West, a distance of 141.06 feet, to a 1/2 inch iron rod with cap stamped "STEGER BIZZELL" set;
2. North 20°29'49" West, a distance of 280.19 feet to a 40d nail in a fence post found;
3. North 21°33'45" West, a distance of 106.02 feet, to a 40d nail in a fence post found;
4. North 20°04'23" West, a distance of 64.17 feet, to a 40d nail in a fence post found;

5. North 18°37'34" West, a distance of 80.98 feet, to a 1/2 inch iron rod with cap stamped "STEGER BIZZELL" set;
6. North 14°06'04" West, a distance of 185.59 feet, to a 40d nail in a fence post found;
7. North 14°53'55" West, a distance of 295.09 feet, to a 1/2 inch iron rod found on the south line of that certain 113.5 acre tract of land conveyed to Emzie Lee Fisher by deed of record in Volume 756, Page 287, said Deed Records, for the northwest corner of said 50 acre tract, same point being the northern most northeast corner of said 98.38 acre tract of land, and for the northwest corner of the herein described tract;

THENCE, North 69°09'19" East, with the north line of said 50 acre tract, same line being said south line of the 113.5 acre tract of land, a distance of 1407.10 feet, to a /2 inch iron rod with cap stamped "STEGER BIZZELL" set for the northeast corner of the herein described tract, from which point a Texas Department of Transportation concrete monument with brass disc (TxDOT Type II) found on said west right-of-way line of RM 2338, bears North 69°09'19" East, a distance of 374.50 feet;

THENCE, South 20°59'55" East, severing said 50 acre tract, a distance of 1161.85 feet, to the **POINT OF BEGINNING**, and containing 38.53 acres of land, more or less, within these metes and bounds.

Bearings are based on the Texas Coordinate System of 1983, Central Zone (NAD_83 (2011)). All distances shown hereon are surface values represented in U.S. Survey Feet based on a Grid-to-Surface Combined Adjustment Factor of 1.00015.

The forgoing metes and bounds description and survey on which it is based is accompanied by and a part of survey map of the subject tract.

I certify that this description was prepared from a survey made on the ground in/on June and July 2017, under my supervision.

MAINTENANCE AGREEMENT
HEIRLOOM HOMEOWNERS ASSOCIATION, INC.

STATE OF TEXAS §

COUNTY OF WILLIAMSON §

This Maintenance Agreement (this "**Agreement**") is made to be effective as of the Effective Date (defined below) and is by and between the CITY OF GEORGETOWN, TEXAS, a home-rule city located in Williamson County, Texas (the "**City**"), Heirloom East Tx, LLC, a Delaware limited liability company ("**Heirloom East**"), HEIRLOOMTX, LLC, a Delaware limited liability company ("**Heirloom Tx**") (collectively the "**Heirloom Owner**s"), HEIRLOOM HOMEOWNERS ASSOCIATION, INC., a Texas non-profit corporation (the "**Association**"), (individually, a "**Party**" and collectively, the "**Parties**"), and is as follows:

RECITALS

WHEREAS, the Heirloom Subdivision is a subdivision development and public improvement district within the City's corporate limits known as the Heirloom Public Improvement District (the "**District**") authorized by Resolution No. 082625-6.P passed and approved by the Georgetown City Council on August 26, 2025 (the "**PID Creation Resolution**") containing approximately 618.98 contiguous acres and having (at full build out) a mix of residential, commercial, and school (civic) uses; and

WHEREAS, the City, Heirloom Owners, and the Georgetown Independent School District are parties to that certain Development and Construction Agreement dated to be effective on August 27, 2025 and recorded in the Official Public Records of Williamson County, Texas as Document No. 2026023941 and to the First Amendment to the Development and Construction Agreement dated to be effective on _____, 2026 and recorded in the Official Public Records of Williamson County, Texas as Document No. _____ (collectively, the "**Development Agreement**").

WHEREAS, the Development Agreement requires, among other things, creation of the Association and perpetual maintenance by the Association of the "**HOA Maintained Improvements/Areas**" (as that term is defined in the Development Agreement), which includes the Private Drainage Facilities, the

Parkland, the Parkland Improvements, and the Park Trails, and Landscaping Improvements in roadway medians, common areas, and other areas within the Property that are not owned by an End Buyer of a residential or commercial Lot (with each capitalized term as defined in the Development Agreement); and

WHEREAS, the Association is a nonprofit corporation having as its members all persons or entities becoming a holder of all or a portion of the fee simple interest (each, an "Owner") in any residential, final-platted subdivision lot shown on a recorded subdivision plat located in the District (each, a "Lot"), which membership in the Association is not severable from the ownership of the Lot, and created to, among other things, maintain all HOA Maintained Improvements/Areas within the District and otherwise administer the affairs of the Association in accordance with the terms of the Development Agreement and the Declaration of Covenants, Conditions and Restrictions for the Heirloom Subdivision (or similarly titled document governing the development, improvement, and sale of land in the District) dated to be effective _____, _____, and recorded as Document No. _____ of the Official Public Records of Williamson County, Texas; and

WHEREAS, the Association has the authority to levy HOA Assessments against the Lots within the District to provide a permanent source of funding for the Association to pay for performing its responsibilities under the Development Agreement and this Agreement; and

WHEREAS, pursuant to the Development Agreement all HOA Maintained Improvements/Areas *except* the Private Drainage Facilities have been or will be conveyed to the City, in trust for the public, and are required to be maintained by the Association; however, for clarity, it is restated that the Private Drainage Facilities are not and will not be conveyed to the City for ownership or maintenance or for any other purpose but will be owned and maintained by the Association; and

WHEREAS, the Association acknowledges and agrees that the City has the exclusive jurisdiction and control of the Parkland, the Parkland Improvements, and the Parkland Trails; and

NOW, THEREFORE, in consideration of the premises, in furtherance of the mutual benefits to be derived by the general public and the residents in the District and members of the Association, and other good and valuable consideration, the

receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1.01. **RECITALS AND AGREEMENT ADOPTED.** The recitals set out above are true and correct and are hereby incorporated into this Agreement by this reference as though each were set out in full herein. In addition, the Development Agreement is incorporated into this Agreement as if it was set out in full.

1.02. **DEFINITIONS**. In addition to the terms defined in the Recitals to this Agreement, the following words, shall, when capitalized, have the following meanings when used in this Agreement:

(a) "*HOA Assessments*" means the assessments the Association impose for the purposes of, among other things, funding its obligations under this Agreement.

(b) "*HOA Maintained Improvements/Areas*" has the meaning given in the Development Agreement.

(c) "*Landscaping Improvements*" has the meaning given in the Development Agreement.

(d) "*Parkland*" has the meaning given in the Development Agreement.

(e) "*Parkland Improvements*" has the meaning given in the Development Agreement.

(f) "*Parkland Trails*" has the meaning given in the Development Agreement.

(g) "*Private Drainage Facilities*" has the meaning given in the Development Agreement.

1.03. **GRANT OF LICENSE.** The City hereby grants the Association, and its duly authorized agents, a license to enter the Parkland for the purpose of performing, or causing to be performed, the maintenance responsibilities of the Association described in this Agreement.

1.01. **MAINTENANCE REQUIREMENTS.**

(a) The Association shall, at its sole cost and expense, perform or cause to be performed, all maintenance work for the HOA Maintained Improvements/Areas, including, but not limited to, regular irrigation, mowing, edging, trimming of shrubs and other plantings, mulching, weed and ant control, irrigation system and trail maintenance and repair, and equipment maintenance and repair. The Association shall be solely responsible for such maintenance and repair, and the City shall have no obligations for same.

(b) The Association shall, at its sole cost and expense, perform or cause to be performed, all maintenance and repair work related to the Private Drainage Facilities and Landscape Improvements including, but not limited to, regular mowing, clearing, and weed control, mulching, and keeping the areas free of all trash and debris and proper functioning as drainage facilities and/or landscape improvements (as appropriate).

(c) If damages to public infrastructure occur as a result of poor or inadequate maintenance of the Parkland, Parkland Trails, or Parkland Improvements, the Association shall pay the City for full reimbursement of all reasonable costs the City incurs repairing damages to the public infrastructure.

(d) Beginning after the Effective Date, between the dates December 1st and February 28th of the following year, and any time there is a possibility of freezing temperatures, the Association shall turn off the irrigation systems' timers and shall only operate the irrigation systems manually in order to prevent the icing of improved areas and equipment.

1.04. **NO LIENS.** The Association shall not cause, suffer, or allow any liens to be placed on the Parkland.

1.05. **HOA ASSESSMENTS/HEIRLOOM OWNER RESPONSIBILITIES**

(a) The Association shall levy HOA Assessments in such amounts necessary to perform its responsibilities under this Agreement.

(b) The Association shall levy HOA Assessments in amounts, as reasonably determined by the City, necessary to replace the Parkland Improvements at the end of their useful life.

(c) Until the later of (i) the date on which the assessments to be collected from Owners produce sufficient funds to perform the obligations of the Association under this Agreement, and (ii) the date on which Heirloom Owners Complete or cause Completion of construction of the HOA Maintained Improvements/Areas serving or located within the Property, Heirloom Owners will be jointly and severally responsible for performing the Association's obligations under this Agreement. For purposes hereof, the Association will be deemed to have sufficient funds to perform its obligations if the Association has operated for two (2) consecutive years after Completion of all HOA Maintained Improvements/Areas without requiring any subsidies from Heirloom Owners.

1.06. **CITY RIGHTS AND RESPONSIBILITIES FOR PARKLAND, PARKLAND TRAILS, AND PARKLAND IMPROVEMENTS**

(a) This Agreement is expressly subject and subordinate to the present and future right of the City, its successors, assigns, lessees, grantees, and licensees, to construct, install, establish, maintain, use, operate, and renew any public utility facilities, or franchised public utilities, on, over, or under the Parkland.

(b) The City shall be responsible for installing and maintaining one or more master meters to provide water and electric service to the Parkland, and for paying for water and electric service to the Parkland.

(c) Nothing in this Agreement shall be construed to limit in any way the power of the City to alter or improve the Parkland, Parkland Improvements, or the Parkland Trail pursuant to official action by the City or its successors. The City shall endeavor to provide the Association with notice of proposed alternations or improvements but shall be under no obligation to do so prior to commencement of work.

1.07. **INSURANCE.**

(a) Prior to the commencement of any work in the Parkland under this Agreement, the Association shall furnish copies of all required endorsements and an original completed Certificate(s) of Insurance to the City's City Manager, which shall be clearly labeled with the legal name of the Association in the Description of Operations block of the Certificate. The Certificate(s) shall be completed by an agent and signed by a person authorized by that insurer to bind coverage on its behalf. The City will not accept Memorandum of Insurance or Binders as proof of insurance. The Certificate(s) or form must have the agent's signature, including the signer's company affiliation, title and phone number, and be mailed, with copies of all applicable endorsements, directly from the insurer's authorized representative to the City. Failure to obtain and maintain the required insurance shall constitute a material default of this Agreement. The City shall have no duty to perform under this Agreement until such Certificate and endorsements have been received and approved by the City's City Manager. No officer or employee, other than the City's City Manager, shall have authority to waive this requirement.

(b) Notwithstanding the provisions of subsection (c) below, the City reserves the right to review the insurance requirements of this Article during the effective period of this Agreement and any extension or renewal hereof and to modify insurance coverages and their limits when deemed necessary and prudent by the City's City Manager based upon changes in statutory law, court decisions, or circumstances surrounding this Agreement. In no instance will the City allow modification at the request of the Association whereupon the City may incur increased risk.

(c) The Association's financial integrity is of interest to the City; therefore, subject to the Association's right to maintain reasonable deductibles in such amounts as are approved by the City, the Association shall obtain and maintain in full force and effect for the duration of this Agreement, and any extension hereof, at the Association's sole expense, insurance coverage written on an occurrence basis, by companies authorized and admitted to do business in the State of Texas and with an A.M. Best's rating of no less

than A- (VII), in the following types and for an amount not less than he amount listed:

TYPE	AMOUNTS
Workers' Compensation	Statutory
Employers' Liability	$1,000,000 / $1,000,000 / $1,000,000
Commercial General Liability Insurance to include coverage for the following: Premises operations *b. Independent Contractors Products/completed operations Personal Injury Contractual Liability *f. Environmental Impairment/Impact sufficiently broad to cover disposal liability *g. Broad form property damage, to include fire legal liability	For Bodily Injury and Property Damage of $1,000,000 per occurrence; $2,000,000 General Aggregate, or its equivalent in Umbrella or Excess Liability Coverage
Business Automobile Liability Owned/leased vehicle Non-owned vehicle Hired Vehicles	Combined Single Limit for Bodily Injury and Property Damage of $1,000,000 per occurrence

*May be waived by the City Manager if not applicable to activities performed by the Association.

(d) The City shall be entitled, upon request and without expense, to receive copies of the policies, declaration page and all endorsements thereto as they apply to the limits required by the City, and may require the deletion, revision, or modification of particular policy terms, conditions, limitations or exclusions (except where policy provisions are established by law or regulation binding upon either of

the parties hereto or the underwriter of any such policies) as may be required to comply with the terms of this Agreement. The Association shall be required to comply with any such requests and shall submit a copy of the replacement Certificate of insurance to the City at the address provided below within 30 days of the requested change. The Association shall pay any costs incurred resulting from said changes.

City of Georgetown
Attn. City Manager
P.O. Box 409
Georgetown, TX 78627

(e) The Association agrees that with respect to the above required insurance, all insurance policies are to contain or be endorsed to contain the following provisions:

(f) Name the City, its officers, officials, employees, volunteers, and elected representatives as additional insured's by endorsement, as respects operations and activities of, or on behalf of, the named insured performed under contract with the City, with the exception of the workers' compensation and professional liability policies; and

(g) Provide for an endorsement that the "other insurance" clause shall not apply to the City when the City is an additional insured shown on the policy; and

(h) Workers' compensation and employers' liability policies will provide a waiver of subrogation in favor of the City.

(i) The Association agrees to give the City written notice of any suspension, cancellation, non-renewal or material change in coverage of any of the insurance policies required to be obtained and maintained by the Association under the terms of this Agreement. Within five (5) calendar days of a suspension, cancellation or non-renewal of coverage, the Association shall provide a replacement Certificate of Insurance and applicable endorsements to the City. The City shall have the option to suspend the Association's authorization and liability under this Agreement should there be a lapse in coverage at any time during this

Agreement. Failure to provide and to maintain the required insurance shall constitute a material breach of this Agreement.

(j) Nothing herein contained shall be construed as limiting in any way the extent to which the Association may be held responsible for payments of damages to persons or property resulting from the Association's performance of the work covered under this Agreement.

(k) It is agreed that the Association's insurance shall be deemed primary and non- contributory with respect to any insurance or self-insurance carried by the City for liability arising out of operations under this Agreement.

(l) It is understood and agreed that the insurance required is in addition to and separate from any other obligation contained in this Agreement.

1.08. **INDEMNIFICATION. THE ASSOCIATION INDEMNIFIES THE CITY ONLY FOR CLAIMS ATTRIBUTED TO THE ASSOCIATION AND THE ASSOCIATION ASSUMES ENTIRE RESPONSIBILITY AND LIABILITY FOR ANY CLAIM OR ACTIONS BASED ON OR ARISING OUT OF INJURIES, INCLUDING DEATH, TO PERSONS OR DAMAGES TO OR DESTRUCTION OF PROPERTY, SUSTAINED OR ALLEGED TO HAVE BEEN SUSTAINED IN CONNECTION WITH OR TO HAVE ARISEN OUT OF OR INCIDENTAL TO THE PERFORMANCE OF THE MAINTENANCE SERVICES DESCRIBED IN THIS AGREEMENT BY THE ASSOCIATION, ITS AGENTS AND EMPLOYEES, AND ITS SUBCONTRACTORS, THEIR AGENTS AND EMPLOYEES.**

1.09. **Termination by the Association.** This Agreement may not be terminated by the Association or any Owner.

1.02. **Termination by the City.**

(a) This Agreement may be terminated at any time by the City, if such revocation is reasonably determined by the City to be required by the public interest, after providing at least 30 days written notice to the Association. Circumstances under which the City may revoke this Agreement, pursuant to this subsection include, but are not limited to, the following:

(1) Use of the Parkland becomes necessary for a different public purpose; or

(2) Despite 30 days written notice, the Association fails to maintain or make necessary alterations to prevent deterioration of the aesthetic or functional integrity of the Parkland, Parkland Improvements, or Parkland Trail; or

(3) The Association fails to comply with the terms and conditions of this Agreement, including but not limited to, the insurance requirements specified herein.

(b) Once this Agreement has been terminated, the City will perform maintenance on the Parkland, Parkland Improvements, and Parkland Trail consistent with the level of maintenance of other similar City-owned land and equipment (which may be a different or lesser standard than that of the Association).

(c) Notwithstanding anything to the contrary in this Agreement, the Association's responsibility to own and maintain the Private Drainage Facilities and the Landscaping Improvements will survive termination of this Agreement. Under no circumstances will the City will be responsible or liable for owning, maintaining, repairing, otherwise being responsible or liable for the Private Drainage Facilities or the Landscaping Improvements.

1.10. **Assignment.** The Association shall not assign, sublet, or transfer its interest in this Agreement without prior written consent of the City, which may be withheld for any reason. If such consent is granted, it shall then be the duty of the Association, its successors and assigns, to give prompt written notice to the City of any assignment or transfer of any of the Association's rights in this Agreement.

1.11. **Laws Observance.** The Association shall not do, nor suffer to be done, anything on the Parkland during the term of this Agreement in violation of the laws of the United States, the State of Texas, or any of the ordinances of the City.

1.12. **No Waiver.** No waiver by the City of any default or breach of any covenant, condition, or stipulation herein contained shall be treated as a waiver of any subsequent default or breach of the same or any other covenant, condition, or stipulation hereof.

1.13. **Severability.** In case any one or more of the provisions contained in this Agreement shall for any reason be held to be invalid, illegal, or unenforceable in any respect, such invalidity, illegality, or unenforceability shall not affect any other provision thereof, and this Agreement shall be considered as if such invalid, illegal, or unenforceable provision had never been contained herein.

1.14. **Notice.** Any notices required or appropriate under this Agreement shall be given in writing to the Association at the address shown below, and to the City at City of Georgetown, Attn. City Manager, P.O. Box 409, Georgetown, TX 78627.

1.15. **Headings.** The section and paragraph headings contained herein are for convenience of reference and are not intended to define, extend, or limit any provisions of this Agreement.

1.16. **Jurisdiction and Venue.** This Agreement will be interpreted according to the Constitution and laws of the State of Texas. Venue of any court action brought directly or indirectly by reason of this Agreement shall be in Williamson County, Texas. This Agreement is made and is to be performed in Williamson County, Texas, and is governed by the laws of the State of Texas.

1.17. **Authorization**. The signers of this Agreement each hereby represents that he or she has full authority to execute this Agreement on behalf of the Party for which he or she is acting.

1.18. **Entire Agreement.** This Agreement and any attached exhibits contain the final and entire agreement between the Parties hereto and contain all of the terms and conditions agreed upon, and supersedes all other agreements, oral or otherwise, regarding the maintenance of the Parkland, none of which shall hereafter be deemed to exist or to bind the Parties hereto; it being the intent of the Parties that neither shall be bound by any term, condition, or representation not herein written.

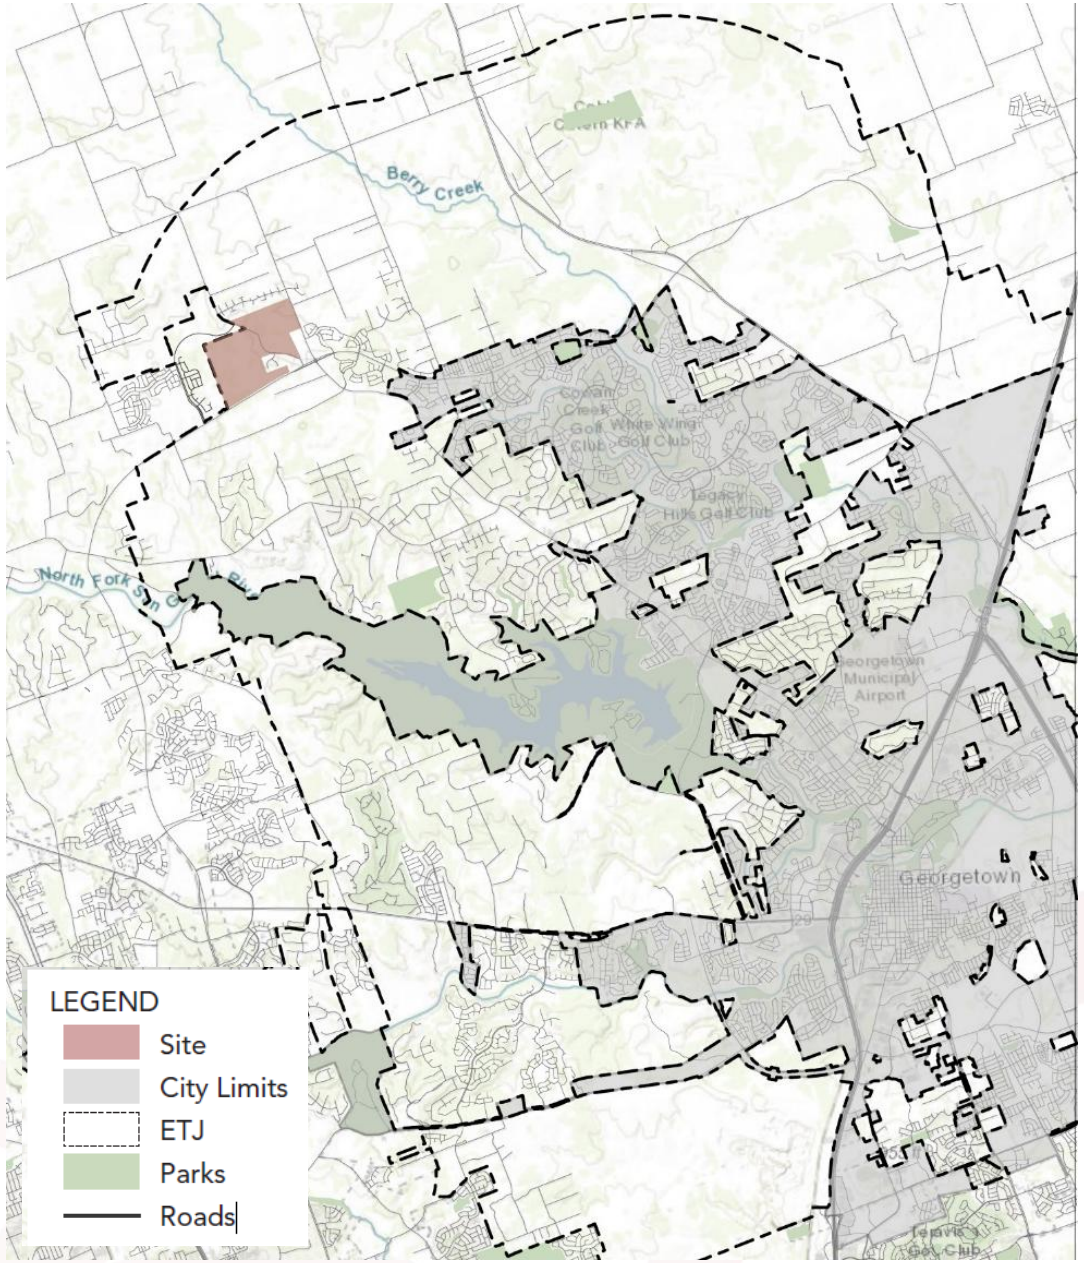
Location

- 618.98 acres North of Ronald Reagan Blvd and West of Williams Dr



Overview of Amendments

Section	Amendment
PID Construction Bond	PID variance expanded to included the Collector Road and Water, Wastewater and Park improvements in the Construction Bond Total authorized issuance not to exceed $20,895,000
Maintenance Agreement	Maintenance Agreement amended to include landscaping improvements as required to be maintained by the HOA
Multifamily Assessments	If multi-family rental units are included within proposed Assessments, the Assessments shall not be required to be prepaid (rather than required to be prepaid by either the Developer or the builder per the City's PID Policy Article III, Section 11)
Fire Site	Developer to sell the City at least 3 acres of land for a fire station site within 75 days of the agreement at the value described in the Appraisal Report
Williams Drive Right-of-Way	Developer to sell the City the reserved Right-of-Way along Williams Drive within 75 days of the agreement at the value described in the Appraisal Report

Action Requested

A RESOLUTION OF THE CITY COUNCIL OF GEORGETOWN, TEXAS, APPROVING THE "FIRST AMENDMENT TO THE DEVELOPMENT AND CONSTRUCTION AGREEMENT", PERTAINING TO THE HEIRLOOM PUBLIC IMPROVEMENT DISTRICT; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; AND PROVIDING AN EFFECTIVE DATE.

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
Resolution - Heirloom Public Improvement District (PID) - Cost Determination and Call for Public Hearing

SUGGESTED ACTION:
Consideration and possible action to approve a Resolution determining costs of the proposed public improvements in the Heirloom PID, approving a proposed Assessment Roll, calling a Public Hearing, and making findings and determination, in accordance with Chapter 372 of the Texas Local Government Code -- Nick Woolery, Assistant City Manager

ITEM SUMMARY:
A petition was submitted and filed with the City Secretary of the City of Georgetown, Texas on July 30, 2025pursuant to the Public Improvement District Assessment Act, Chapter 372, Texas Local Government Code, as amended (the "PID Act"), requesting the creation of a public improvement district located within the corporate limits of the City to be known as Heirloom Public Improvement District to provide public improvements within the District to include the design, acquisition, and construction of public improvement projects authorized by Section 372.003(b) of the PID Act that are necessary for development of the District, which public improvements will include, but not be limited to, streets, roadway construction, water, wastewater, and drainage facilities and improvements, parkland improvements and other improvement projects;

On August 26, 2025 after due notice, the City Council of the City held the public hearing on the advisability of the improvement projects described in the Petition and on August 26, 2025 the City Council made the findings required by Section 372.009(b) of the PID Act and, by Resolution No. 082625-6.P (the "Creation Resolution") authorized the creation of the District.

The District is expected to be developed in phases beginning with an area designated as the "Major Improvement Area" within the District, which consists of approximately 622 acres located within the District (the "Major Improvement Area"). The City has reviewed the Preliminary Service and Assessment Plan (PSAP) attached to this Resolution as "Exhibit A" and the proposed Major Improvement Area Assessment Roll attached as "Exhibit F" to the PSAP.

The purpose of the PID is to finance the actual costs of certain public improvements for the benefit of property within the PID through special assessments (“Assessments”) against parcels of land in the PID. The Texas Local Government Code Chapter 372 (the “PID Act”) requires preparation of a service plan covering a period of at least five years and defining the annual indebtedness and projected cost of the public improvements (“Authorized Improvements”) to be funded through Assessments. The PID Act also requires preparation of an assessment roll stating the amount of special assessment against individual parcels of land in the PID determined by the method chosen by the City consistent with the PID Act.

P3 Works, LLC (“P3”) has prepared, on behalf of the City, a Preliminary Service and Assessment Plan (“PSAP) which includes a description of the proposed Authorized Improvements, determines the

cost of those improvements, and includes a proposed Assessment Roll. This item requests that the City Council pass and approve the attached Resolution, which makes certain findings regarding the nature of the Authorized Improvements, the cost of the Authorized Improvements, and approving the proposed Assessment Roll (all of which information is included in the PSAP attached to the Resolution). On the City Council's approval, the proposed Assessment Roll will be made available for public inspection at the Office of the City Secretary. Later this month, in conjunction with the City Council's consideration of an ordinance levying Assessments on land in the PID, and after notice and hearing, City staff will bring forward a proposed ordinance levying special assessments on land in the PID, approving the final Service and Assessment Plan (SAP), approving the final Assessment Roll, and approving a Financing Agreement between the City and the project's developer.

FINANCIAL IMPACT:
None to the City.

RESOLUTION NO. ____

A RESOLUTION OF THE CITY OF GEORGETOWN, TEXAS, DETERMINING COSTS OF THE PROPOSED PUBLIC IMPROVEMENTS IN THE HEIRLOOM PUBLIC IMPROVEMENT DISTRICT, APPROVING A PROPOSED MAJOR IMPROVEMENT AREA ASSESSMENT ROLL, CALLING A PUBLIC HEARING, AND MAKING RELATED FINDINGS AND DETERMINATIONS, IN ACCORDANCE WITH CHAPTER 372 OF THE TEXAS LOCAL GOVERNMENT CODE.

WHEREAS, a petition was submitted and filed with the City Secretary (the "City Secretary") of the City of Georgetown, Texas (the "City") on July 30, 2025 (the "Petition") pursuant to the Public Improvement District Assessment Act, Chapter 372, Texas Local Government Code, as amended (the "PID Act"), requesting the creation of a public improvement district located within the corporate limits of the City to be known as Heirloom Public Improvement District (the "District" or "PID") to provide public improvements within the District to include the design, acquisition, and construction of public improvement projects authorized by Section 372.003(b) of the PID Act that are necessary for development of the District, which public improvements will include, but not be limited to, streets, roadway construction, water, wastewater, and drainage facilities and improvements, parkland improvements and other improvement projects; and

WHEREAS, the Petition contained the signatures of the record owners of taxable real property representing more than 50% of the appraised value of the real property liable for assessments within the District, as determined by the then current ad valorem tax rolls of the Williamson Central Appraisal District, and the signatures of record property owners who own taxable real property that constitutes more than 50% of the area of all taxable property that is liable for assessment within the District; and

WHEREAS, on August 26, 2025 after due notice, the City Council of the City (the "City Council") held the public hearing in the manner required by law on the advisability of the improvement projects described in the Petition as required by Section 372.009 of the PID Act and on August 26, 2025 the City Council made the findings required by Section 372.009(b) of the PID Act and, by Resolution No. 082625-6.P (the "Creation Resolution"), adopted by a majority of the members of the City Council, authorized the creation of the District in accordance with its finding as to the advisability of the improvement projects; and

WHEREAS, following the adoption of the Creation Resolution, the City filed a copy of the Creation Resolution with the County Clerk of Williamson County, Texas; and

WHEREAS, no written protests regarding the creation of the District from any owners of record of property within the District were filed with the City Secretary within 20 days after the effective date of the Creation Resolution; and

WHEREAS, the District is expected to be developed in phases beginning with an area designated as the "Major Improvement Area" within the District, which consists of approximately 622 acres located within the District (the "Major Improvement Area"); and

WHEREAS, the City has reviewed the Preliminary Service and Assessment Plan attached to this Resolution as **"Exhibit A"** (the "Preliminary Service and Assessment Plan"), and the proposed Major Improvement Area Assessment Roll attached as "Exhibit F" to the Preliminary Service and Assessment Plan (the "Proposed Major Improvement Area Assessment Roll"); and

WHEREAS, in accordance with Section 372.016 of the PID Act, the City Council desires to make certain determinations and findings with regard to the total cost of the "Authorized Improvements" set forth in the Preliminary Service and Assessment Plan attached to this Resolution as "**Exhibit A**"; and

WHEREAS, in accordance with Section 372.016 of the PID Act, the City Council also desires to approve the Proposed Major Improvement Area Assessment Roll, which is included in the Preliminary Service and Assessment Plan attached to this Resolution as "**Exhibit A,**" cause the Proposed Major Improvement Area Assessment Roll to be filed with the City Secretary, and to direct the City Secretary to make the Proposed Major Improvement Area Assessment Roll available for public inspection, and publish and mail notice of the City Council's intention to consider the Proposed Major Improvement Area Assessment Roll (in substantially the form attached hereto as "**Exhibit B**") at a public hearing, all in accordance with the requirements of the PID Act.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

Section 1. The findings set forth in the recitals of this Resolution are found to be true and correct and are incorporated into this Resolution for all purposes by this reference.

Section 2. The City Council hereby finds, declares, and directs:

(a) Determination of Cost. The cost determinations for the proposed Authorized Improvements set forth in the Preliminary Service and Assessment Plan attached to this Resolution as "**Exhibit A**" are hereby approved.

(b) Proposed Major Improvement Area Assessment Roll. The Proposed Major Improvement Area Assessment Roll included in "Exhibit F" in the Preliminary Service and Assessment Plan attached to this Resolution as "**Exhibit A,**" stating the assessment against each parcel of assessable land in the Major Improvement Area within the District as determined by the method of assessment set forth in said Preliminary Service and Assessment Plan is hereby approved, and the City Council declares that the Proposed Major Improvement Area Assessment Roll is hereby filed with the City Secretary. The City Council hereby directs the City

Secretary to make the Proposed Major Improvement Area Assessment Roll available for public inspection and publish and mail notice (in substantially the form attached hereto as "**Exhibit B**") of the City Council's intention to consider the proposed assessments at a public hearing, all in accordance with the requirements of the PID Act.

Section 3. The City Council hereby authorizes and directs the City Secretary to take the actions described in Section 2 of this Resolution and authorizes and directs staff to prepare the required resolutions, ordinances, agreements, service and assessment plan, assessment roll and other documents necessary for the City Council to effectuate the Creation Resolution and this Resolution.

Section 4. The City Council hereby declares that written notice of the date, hour and place of the meeting at which this Resolution was adopted, was posted and that such meeting was open to the public as required by law at all times when this Resolution and the subject matter hereof were discussed, considered, and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended.

Section 5. The Mayor is hereby authorized to sign this Resolution and the City Secretary is authorized to attest this Resolution. This Resolution shall take effect immediately from and after its passage in accordance with the provisions of the City Charter of the City of Georgetown.

INTRODUCTION

Capitalized terms used in this Service and Assessment Plan shall have the meanings given to them in **Section I** unless otherwise defined in this Service and Assessment Plan or unless the context in which a term is used clearly requires a different meaning. Unless otherwise defined, a reference to a "Section" or an "Exhibit" shall be a reference to a Section of this Service and Assessment Plan or an Exhibit attached to and made a part of this Service and Assessment Plan for all purposes.

On August 26, 2025 the City Council took the following actions:

- The City Council passed and approved Ordinance No. 2025-45 which (i) annexed into the corporate boundaries of the City approximately 620 acres of land (the "Property") which is more particularly described by metes and bounds on **Exhibit A** and by sketch on **Exhibit B**, and (ii) approved a Planned Unit Development zoning classification and plan for the Property (the "ANX-PUD Ordinance"). The ANX-PUD Ordinance was recorded in the Official Public Records of Williamson County, Texas on_____.
- The City Council passed and approved Resolution No. 082625-5.P. authorizing the creation of the District over the Property, in accordance with the PID Act which authorization was effective upon publication as required by the PID Act. The resolution was recorded in the Official Public Records of Williamson County, Texas on September 3, 2025 as Document No. 2025069384. The purpose of the District is to finance the Actual Costs of the Authorized Improvements for the benefit of the property within the District.
- The City Council passed and approved Resolution No. 082625-6.M, approving the Development and Construction Agreement and the resolution was recorded in the Official Public Records of Williamson County as Document No. 2026023941 on March 3, 2026.

On March 19, 2026, a Preliminary Plat for the District was approved by the City (City Project NO. 2025-10-PP-20260318).

On _____,2026, the City adopted Resolution No. _____ approving the First Amendment to Development and Construction Agreement (Heirloom).

On _____,2026, the City adopted Ordinance No._____ approving this Service and Assessment Plan and the Major Improvement Area Assessment Roll for the Heirloom Public Improvement District.

The PID Act requires a service plan covering a period of at least five years and defining the annual indebtedness and projected cost of the Authorized Improvements. The Service Plan is contained in **Section IV**.

The PID Act requires that the Service Plan include an assessment plan that assesses the Actual Costs of the Authorized Improvements against Assessed Property within the District based on the special benefits conferred on such property by the Authorized Improvements. The Assessment Plan is contained in **Section V**.

The PID Act requires an Assessment Roll that states the Assessment against each Parcel determined by the method chosen by the City. The Assessment against each Assessed Property must be sufficient to pay the share of the Actual Costs apportioned to the Assessed Property and cannot exceed the special benefit conferred on the Assessed Property by the Authorized Improvements. The Major Improvement Area Assessment Roll is contained in **Exhibit F**.

SECTION I: DEFINITIONS

"Actual Costs" mean, with respect to Authorized Improvements, the actual costs paid or incurred by or on behalf of the Developer of the District: (1) to plan, design, acquire, construct, install, and dedicate such improvements to the City; (2) to prepare plans, specifications (including bid packages), contracts, and as-built drawings; (3) to obtain zoning, licenses, plan approvals, permits, inspections, and other governmental approvals; (4) for third-party professional consulting services including but not limited to, engineering, surveying, geotechnical, land planning, architectural, landscaping, legal, accounting, and appraisals; (5) of labor, materials, equipment, fixtures, payment and performance bonds and other construction security, and insurance premiums; and (6) to implement, administer, and manage the above-described activities, including a 4% construction management fee. Actual Costs shall not include general contractor's fees in an amount that exceeds a percentage equal to the percentage of work completed or construction management fees in an amount that exceeds an amount equal to the construction management fee amortized in approximately equal monthly installments over the term of the applicable construction management contract. Amounts expended for costs described in subsection (3), (4), and (6) above shall be excluded from the amount upon which the general contractor and construction management fees are calculated.

"Additional Interest" means the amount collected by application of the Additional Interest Rate if PID Bonds are issued.

"Additional Interest Rate" means the 0.50% additional interest rate charged on an Assessment as authorized by Section 372.018 of the PID Act.

"Administrator" means the City or the person or independent firm designated by the City who shall have the responsibility provided in this Service and Assessment Plan, the Indenture, or any other agreement or document approved by the City Council related to the duties and responsibility of the administration of the District.

"Annual Collection Costs" means the actual or budgeted costs and expenses relating to collecting the Annual Installments, including, but not limited to, costs and expenses for: (1) the Administrator and City staff; (2) legal counsel, engineers, accountants, financial advisors, and other consultants engaged by the City; (3) calculating, collecting, and maintaining records with respect to Assessments and Annual Installments; (4) preparing and maintaining records with respect to Assessment Rolls and Annual Service Plan Updates; (5) paying, and redeeming PID Bonds, if issued; (6) investing or depositing Assessments and Annual Installments; (7) complying with this Service and Assessment Plan and the PID Act with respect to the administration of the District, including continuing disclosure requirements; and (8) the paying agent/registrar and

Trustee in connection with PID Bonds, if issued, including their respective legal counsel. Annual Collection Costs collected but not expended in any year shall be carried forward and applied to reduce Annual Collection Costs for subsequent years.

"Annual Installment" means the annual installment payment of an Assessment as calculated by the Administrator and approved by the City Council, that may include: (1) principal; (2) interest; (3) Annual Collection Costs; and (4) Additional Interest, as applicable.

"Annual Service Plan Update" means an update to this Service and Assessment Plan prepared no less frequently than annually by the Administrator and approved by the City Council, in accordance with the PID Act.

"**ANX-PUD Ordinance"** means Ordinance No. 2025-45 passed and approved by the City on August 26, 2025.

"Assessed Property" means any Parcel within the District that benefits from the Authorized Improvements and on which an Assessment is levied as shown on the Assessment Roll and which includes any and all Parcels within the District other than Non-Benefited Property.

"Assessment" means an assessment levied against a Parcel and imposed pursuant to an Assessment Ordinance and the provisions herein, as shown on the Assessment Roll, subject to reallocation upon the subdivision of such Parcel or reduction according to the provisions herein and in the PID Act.

"Assessment Ordinance" means the ordinance adopted by the City Council in accordance with the PID Act that approves the Service and Assessment Plan and levies the Assessment on all or a portion of the Assessed Property within the District, as shown on any Assessment Roll.

"Assessment Plan" means the methodology employed to assess the Actual Costs of the Authorized Improvements against Assessed Property within the District based on the special benefits conferred on such property by the Authorized Improvements, as more specifically described in **Section V.**

"Assessment Roll" means any Assessment Roll approved by an Assessment Ordinance that levies Assessments on property within the District, including the Major Improvement Area Assessment Roll, as updated, modified, or amended from time to time in accordance with the procedures set forth herein and in the PID Act, including updates prepared in connection with the issuance of PID Bonds, if issued, or in connection with any Annual Service Plan Update.

"Authorized Improvements" means Public Improvements authorized by Section 372.003 of the PID Act, including District Formation Expenses, First Year Annual Collections Costs (as described

in **Section III (E)** herein), and Bond Issuance Costs, if PID Bonds are issued, as more specifically described in **Section III.**

"Bond Issuance Costs" mean the costs associated with issuing PID Bonds, if issued, including but not limited to attorney fees, financial advisory fees, consultant fees, appraisal fees, printing costs, publication costs, City costs, capitalized interest, reserve fund requirements, underwriter discount, fees charged by the Texas Attorney General, and any other cost or expense directly associated with the issuance of PID Bonds, if bonds are issued.

"City" means the City of Georgetown, Texas.

"City Council" means the governing body of the City.

"County" means Williamson County, Texas.

"Creation Resolution" means Resolution No. 082625-5.P, approved by the City Council on, which authorized the creation of the District.

"Delinquent Collection Costs" mean, for an Assessed Property, interest, penalties, and other costs and expenses authorized by the PID Act that directly or indirectly relate to the collection of delinquent Assessments, delinquent Annual Installments, or any other delinquent amounts due under this SAP, including costs and expenses to foreclose liens.

"Developer" means Heirloom East TX, LLC. and HeirloomTX, LLC., collectively, and any successor developer of property within the District, or any portion thereof.

"Development and Construction Agreement" means that certain Development and Construction Agreement (Heirloom) between the City, the Georgetown Independent School District, and the Developer approved by the City Council via Resolution No. 082625-6.M and effective as of_____, as amended by the First Amendment to Development and Construction Agreement (Heirloom) approved by the City Council via Resolution No._____ and effective as of _____, 2026.

"District" means the Heirloom Public Improvement District containing approximately 622.525 acres within the corporate limits of the City, as described legally by metes and bounds on **Exhibit A** and as depicted by the map on **Exhibit B**.

"District Formation Expenses" means costs incurred creating the District, including attorney fees, consultant fees, and other fees and expenses related to the formation of the District and the levy of Assessments.

"Estimated Buildout Value" means the estimated buildout value of an Assessed Property at the time Assessments are levied, and shall be determined by the Administrator and confirmed by the City Council by considering such factors as density, lot size, proximity to amenities, view premiums, location, market conditions, historical sales, builder contracts, discussions with homebuilders, reports from third party consultants, or any other information that may impact value.

"Financing Agreement" means that certain "PID Construction, Financing and Reimbursement Agreement Heirloom Public Improvement District between the City, Georgetown Independent School District, Heirloom East TX, LLC and HEIRLOOM TX, LLC dated to be effective _____.

"Future Improvement Areas" means a distinct portion of the Major Improvement Area described by metes and bounds and developed as an individual improvement area which such area(s) to be described, designated, and subject to separate Assessments levied in the future to fund Future Improvement Area Improvements.

"Future Improvement Area Improvements" mean those Authorized Improvements which will confer a special benefit solely on the related Future Improvement Area.

"Indenture" means an Indenture of Trust entered into in connection with the issuance of PID Bonds, as amended or supplemented from time to time, between the City and the Trustee setting forth terms and conditions related to the PID Bonds, if issued.

"Landowner Certificate" means any Landowner Certificate executed by the respective Owner consenting to the levy of the Assessments dated ____, ____, as may be further amended.

"Lot" means (1) for any portion of the District for which a subdivision plat has been recorded in the official public records of the County, a tract of land described as a "lot" in such subdivision plat, and (2) for any portion of the District for which a subdivision plat has not been recorded in the official public records of the County, a tract of land anticipated to be described as a "lot" in a final recorded subdivision plat as shown on a concept plan or preliminary plat.

"Lot Type" means a classification of final building Lots with similar characteristics (e.g. lot size, home product, buildout value, etc.), as determined by the Administrator and confirmed and approved by the City Council. In the case of single-family residential Lots, the Lot Type shall be further defined by classifying the residential Lots by the Estimated Buildout Value of the Lot as calculated by the Administrator and confirmed and approved by the City Council.

"Major Improvement Area" means approximately 622.525 acres located within the District, as shown on **Exhibit B** and more specifically described in **Exhibit A**.

"Major Improvement Area Annual Installment" means the annual installment payment of the Major Improvement Area Special Assessment as calculated by the Administrator and approved by the City Council that may include: (1) principal, (2) interest, (3) Annual Collection Costs, and (4) Additional Interest, if PID Bonds are issued.

"Major Improvement Area Assessed Property" means any Parcel within the Major Improvement Area against which a Major Improvement Area Special Assessment is levied.

"Major Improvement Area Assessment Roll" means the assessment roll for the Major Improvement Area Assessed Property within the District and included in this Service and Assessment Plan as **Exhibit F,** as updated, modified, or amended from time to time in accordance with the procedures set forth herein and in the PID Act, including updates prepared in connection with the issuance of PID Bonds or in connection with any Annual Service Plan Update.

"Major Improvement Area Authorized Improvements" means, collectively, the Major Improvement Area Improvements, the First Year Annual Collection Costs allocable to the Major Improvement Area, and the Bond Issuance Costs related to the Major Improvement Area Bonds.

"Major Improvement Area Bonds" means those certain "City of Georgetown, Texas Special Assessment Revenue Bonds, Series 2026 (Heirloom Public Improvement District Major Improvement Area Project)", that are payable as provided in the Indenture relating to such bonds.

"Major Improvement Area Improvements" mean Authorized Improvements which only benefit Major Improvement Area Assessed Property as described in **Section III** and as shown on **Exhibit I**.

"Major Improvement Area Special Assessment" means an Assessment levied against Assessed Property within the Major Improvement Area and imposed pursuant to an Assessment Ordinance, as shown on the Major Improvement Area Assessment Roll, subject to reallocation upon the subdivision of such Parcel or reduction according to the provisions herein and in the PID Act.

"Maximum Assessment" means for each Lot Type within the District, at the time a new Lot is created by plat an Assessment equal to the amount calculated pursuant to **Section VI.A**. Maximum Assessment for future Improvement Areas will be determined in future Annual Service Plan updates.

"Non-Assessed Property" means approximately 121.86 acres of land located within the District against which a portion of the costs of the Major Improvement Area Improvements are

apportioned based on special conferred benefit which costs will be paid by the Developer without reimbursement from the City.

"Non-Benefited Property" means Parcels within the boundaries of the District that accrue no special benefit from Authorized Improvements as determined by the City Council.

"Owners" mean Heirloom East TX, LLC., Heirloom1 Communities Tx, LLC., HeirloomTX, LLC., and Georgetown Independent School District, and any successor owner of property within the District, or any portion thereof.

"Parcel(s)" means a property within the boundaries of the District, identified by either a tax map identification number assigned by the Williamson Central Appraisal District for real property tax purposes, by metes and bounds description, by lot and block number in a final subdivision plat recorded in the official public records of the County, or by any other means as determined by the City Council.

"PID Act" means Chapter 372, Texas Local Government Code, as amended.

"PID Bonds" mean any bonds issued in accordance with the PID Act, if applicable, that are secured by Assessments.

"Preliminary Plat" means that certain Preliminary Plat for a portion of the Property (361.85 acres) and the entire length of the Primary Collector approved by the City on March 19, 2026 (City Project No. 2025-10-PP-20260318).

"Prepayment" means the payment of all or a portion of an Assessment before the due date thereof. Amounts received at the time of a Prepayment which represent a payment of principal, interest, or penalties on a delinquent installment of Assessment are not to be considered a Prepayment, but rather are to be treated as a payment of the regularly scheduled Assessment.

"Prepayment Costs" mean interest, including Additional Interest (if applicable), and Annual Collection Costs incurred up to the date of Prepayment.

"Property" means the approximately 622.525 acres of land which is more particularly described by metes and bounds on **Exhibit A** and by sketch on **Exhibit B.**

"Service and Assessment Plan" or **"SAP"** means this Service and Assessment Plan as it may be modified, amended, supplemented, and updated from time to time.

"Service Plan" covers a period of at least five years and defines the annual indebtedness and projected costs of the Authorized Improvements, more specifically described in **Section IV**.

"Taken Property" shall have the meaning assigned to such term in **Section VI.F**.

"Taking" shall have the meaning assigned to such term in **Section VI.F**.

"Trigger Date" means, for each Parcel, the earlier of: (1) the date a final plat is filed and recorded in the real property records of the County which creates the Parcel, or (2) the date PID Bonds, if issued, secured by Assessments levied on the Parcel are issued. If the Trigger Date occurs on or before July 31st of the then current year, then Assessments will be due the January 31st of the following year. If the Trigger Date occurs after July 31st of the then current year, then the Assessments will be due on the second January 31st following the Trigger Date. Collection of the Annual Installments will in no case occur later than the two-year anniversary date of the levy of Assessments on the Parcel.

"Trustee" means the trustee (or successor trustee) under an Indenture.

SECTION II: THE DISTRICT

The District includes approximately 622.525 acres within the corporate limits of the City, as described legally by metes and bounds on **Exhibit A** and as depicted by the map on **Exhibit B**. Development of the District is governed by the ANX-PUD Ordinance and the Development and Construction Agreement. The District is to be developed as a mixed-use project. In general, the maximum number of residential units is 3,600 (unless an area reserved for school purposes is not developed as such, in which case the maximum number of residential units can increase by not more than 375 additional residential units). A variety of residential housing types and sizes are allowed, with maximum units by scale and maximum and minimum unit counts set forth in the ANX-PUD Ordinance. The ANX-PUD Ordinance requires 200,000 square feet of land to be used for commercial purposes to support the residential uses in the District and allows a variety of multifamily uses. Also included are associated rights-of-way, landscaping, and infrastructure necessary to provide roadways, drainage, and utilities to property within the District.

The Major Improvement Area includes approximately 622.525 acres as more particularly described on **Exhibit A** and depicted on **Exhibit B.** Development of the Major Improvement Area is anticipated to contain 1,333 single-family homes, 100 Townhome units, 116 Courtyard units, 100 Build-to-Rent units, 1,250 Multi-Family units, and 255,000 square feet of commercial space.

It is anticipated there will be additional Future Improvement Areas within the District. As the Future Improvements Areas are developed and in connection with the issuance of any PID Bonds, or the levy of Assessments in Future Improvement Areas pursuant to the Financing Agreement, this Service and Assessment Plan will be amended to update the Exhibits.

SECTION III: AUTHORIZED IMPROVEMENTS

The City, based on information provided by the Developer and its engineer and review by the City staff and by third-party consultants retained by the City, determined that the Authorized Improvements confer a special benefit on the Assessed Property. Major Improvement Area Improvements will be designed and constructed in accordance with City standards and will be owned and operated by the City once accepted unless specifically stated below. The budget for the Authorized Improvements, as well as the allocation of the Actual Costs of the Authorized Improvements, is shown on **Exhibit C**.

A. Major Improvement Area Improvements

- Streets

  With Phase 1, primary access to the District will be provided via the Heirloom Pkwy. extension, which will continue on the west side of Williams Drive opposite of the

existing section of Parmer Ranch Blvd. built with the Parmer Ranch Development. The Heirloom Pkwy. collector will then continue across the site, intersect with CR 248, and turn south before tying into the planned expanded section of Ronald Reagan Blvd. The subsequent residential phases of the development will branch off Heirloom Pkwy. for access. The collector will utilize a 96' ROW with a 4-lane divided 50' pavement section and 10' sidewalks on either side. Road section design is described in the Planned Unit Development Zoning Ordinance 2025-45-PUD. Proposed streets have been designed to urban standards consisting of concrete curb and gutter and will be designed with a flexible pavement section consisting of prepared subgrade, crushed limestone base, and hot mix asphaltic concrete (HMAC) pavement surface. The pavement recommendations can be found in the Heirloom tract Geotechnical Investigation reports prepared by MLA Geotechnical dated November 2025. The proposed street network meets City of Georgetown horizontal and vertical geometric design criteria. Ten-foot sidewalks with ADA ramps will be constructed along the collector on both sides of the street and will be constructed following standard specifications and details. Signage, valley gutters, excavation, embankment, clear and grub, and testing are also included within these improvements. See Heirloom Tract Phase 1 Construction plans prepared by Gray Civil for additional design information and street cross sections.

- Water

  The District will be served water by the City of Georgetown. An existing 24" line is located on the east side of CR 248, an existing 30" line is located on the south side of Ronald Reagan Blvd, and an existing 12" line is located on the west side of RM 2338. As part of the subdivision improvements, an 12" waterline is proposed to be constructed down the Parmer Ranch Blvd ROW and connected to the existing 30" waterline. The northern portion of the site will be served by a proposed 12" line to be connected to the existing 12" line. Water will be provided to the individual lots by proposed 8-inch and 12-inch water lines located within the public ROW. Utility line sizing is preliminary in nature and will ultimately depend on recommendation from GUS and their water model.

- Wastewater

  The portion of the District that generally slopes from northeast to southwest will gravity flow via a proposed 12" trunk line into an existing manhole offsite to the southwest corner of the site and to the existing Nolina lift station. A lift station will be constructed at the northeast corner for the remainder of the site and wastewater flows will be pumped back to an existing manhole connection to a 12" gravity wastewater line along RM 2338 via a force main. Phase 1 will include the construction of the 12" main trunk line through the site, while 8" local lines will be added with future phases.

Internal wastewater utilities will be typically located within the proposed right-of-way's standard assignments as established by the City of Georgetown. Internal water mains will be located outside of the pavement within the right-of-way per GUS standard assignment. The internal lines will be constructed in accordance with the GUS water and wastewater system design criteria and specifications. Improvements include trench excavation and embedment, trench safety, piping, valves, hydrants, manholes, service connections, testing, related earthwork, erosion controls and all necessary appurtenances.

- Drainage

  Stormwater runoff generated within the development will be conveyed by a system of curb and gutters, inlets, storm drains, channels, and ponds before being released into a tributary of either the North Fork San Gabriel River to the south or Berry Creek to the east, and onto neighboring properties. The drainage study performed for the preliminary plat utilizes the NRCS method to determine peak flow runoff for the 2-, 10-, 25-, and 100-year storms. The site is entirely within the Edwards Aquifer Contributing Zone and will therefore be required to provide water quality treatment and submit a related Contributing Zone Plan to TCEQ for all construction plan submittals.

  Most of the District generally slopes in a southerly direction and is bisected by a small tributary of the North Fork San Gabriel River, conveying offsite flows through the site. This tributary constitutes roughly 22.5 acres of existing calculated non-FEMA floodplain on the site and will necessitate two main culvert/bridge crossings. The portion of the District that flows to the northeast includes the 1 acre of FEMA zone A floodplain and constitutes a tributary to Berry Creek. Water Quality best management practices will be used to meet both the TCEQ's 80% TSS removal requirements along with the City of Georgetown's 85% removal requirement. Detention will be provided to reduce developed flows to pre-developed conditions for the 2, 10, 25, and 100-yr storm events.

  Drainage improvements include trench excavation and embankment, trench safety, piping, manholes, junction boxes, inlets, headwalls, channels, and associated outflow structures, testing, related earthwork, and erosion controls.

- Parkland

  The improvements to the parkland include the construction of a 10' wide paved hike and bike trail built to ADA standards along with associated benches and lighting. There will also be a network of bench cut, natural surface trails woven throughout the parkland/floodplain area.

- Soft Costs

Costs related to designing, constructing, installing, and financing the PID Improvements, including land planning and design, City fees, engineering, soil testing, survey, construction management, legal fees, consultant fees, contingency, inspection fees, district formation costs, landscaping and other PID costs incurred and paid by the developer.

C. District Formation Expenses

Costs incurred creating the District, including attorney fees, consultant fees, and other fees and expenses related to formation of the District and the levy of Assessments.

D. Bond Issuance Costs

- *Debt Service Reserve Requirement*
  Equals the amount required to fund a reserve under the Indenture in connection with the issuance of PID Bonds, if issued. This amount may be updated or revised at the time of issuance if PID Bonds are issued.

- *Capitalized Interest*
  Equals the amount of capitalized interest available for payment of interest on PID Bonds, if issued, as reflected in the Indenture. This amount may be updated or revised at the time of issuance if PID Bonds are issued.

- *Underwriter's Discount*
  Equals a percentage of the par amount of a particular series of PID Bonds, if issued, and includes a fee for underwriter's counsel. This amount may be updated or revised at the time of issuance if PID Bonds are issued.

- *Cost of Issuance*
  Costs associated with issuing PID Bonds, if issued, including but not limited to attorney fees, financial advisory fees, consultant fees, appraisal fees, printing costs, publication costs, City costs, fees charged by the Texas Attorney General, and any other cost or expense directly associated with the issuance of PID Bonds. This amount may be updated or revised at the time of issuance if PID Bonds are issued.

E. First Year Annual Collection Costs

Estimated cost of the 1st year Annual Collection Costs.

SECTION IV: SERVICE PLAN

The PID Act requires the Service Plan to cover a period of at least five years. The Service Plan is required to define the projected costs and annual indebtedness for the Authorized

Improvements undertaken within the District during the five-year period. The Service Plan must be reviewed and updated, at least annually, and approved by the City Council. **Exhibit D** summarizes the Service Plan for the District.

Exhibit E summarizes the sources and uses of funds required to construct the Authorized Improvements. The sources and uses of funds shown on **Exhibit E** shall be updated each year in the Annual Service Plan Update to reflect any budget revisions and Actual Costs.

SECTION V: ASSESSMENT PLAN

The PID Act requires the City to apportion the Actual Costs of the Authorized Improvements to the Assessed Property based on the special benefit received from the Authorized Improvements. The PID Act provides that such costs may be apportioned: (1) equally per front foot or square foot; (2) according to the value of property as determined by the City, with or without regard to improvements constructed on the property; or (3) in any other manner approved by the City that results in imposing equal shares of such costs on property similarly benefited. The PID Act further provides that the governing body may establish by ordinance or order reasonable classifications and formulas for the apportionment of the cost between the municipality and the area to be assessed and the methods of assessing the special benefits for various classes of improvements.

This section of this Service and Assessment Plan describes the special benefit received by each Assessed Property within the District as a result of the Authorized Improvements and provides the basis and justification for the determination that this special benefit exceeds the amount of the Assessments levied on the Assessed Property for such Authorized Improvements.

The determination by the City of the assessment methodologies set forth below is the result of the discretionary exercise by the City Council of its legislative authority and governmental powers and is conclusive and binding on the Owners and all future owners and developers of the Assessed Property.

A. Assessment Methodology

The City Council, acting in its legislative capacity based on information provided by the Developer and its engineer and reviewed by the City staff and by third-party consultants retained by the City, has determined that the costs of the Authorized Improvements shall be allocated as follows:

- The Major Improvement Area Improvements are allocated entirely to the Major Improvement Area Assessed Property.
- Bond Issuance Costs and First Year Annual Collection Costs shall be allocated entirely to the Assessed Property securing the applicable series of PID Bonds.

When, and if, a Future Improvement Area is developed and the issuance of additional PID Bonds are contemplated, this Service and Assessment Plan will be amended to determine the assessment methodology necessary to apply equal shares of Actual Costs of Future Improvement Area Improvements on Assessed Property similarly benefited within that Future Improvement Area.

B. Assessments

Major Improvement Area Assessments will be levied on the Major Improvement Area Assessed Property as shown on the Major Improvement Area Assessment Roll, attached hereto as **Exhibit F**. The projected Major Improvement Area Annual Installments are shown on **Exhibit G**, subject to revisions made during any Annual Service Plan Update**.**

When, and if, a Future Improvement Area is developed and the levy of Assessments on a Future Improvement Area is contemplated, this Service and Assessment Plan will be amended to determine the Assessment and Annual Installment associated with the costs of Future Improvement Area Improvements on each Lot located within the Future Improvement Area. The Assessment shall not exceed the benefit received by the Assessed Property. Prior to the Trigger Date for the collection of Annual Installments for a given Future Improvement Area Parcel, the Annual Collection Costs shall be billed and collected in the same manner as Annual Installments in the amounts set forth in each Annual Service Plan Update. Following the Trigger Date for the collection of Annual Installments, the Annual Collection Costs shall be collected as part of and in the same manner as Annual Installments in the amounts shown on the Assessment Roll, which may be revised based on actual costs incurred in Annual Service Plan Updates.

C. Findings of Special Benefit

The City Council, acting in its legislative capacity based on information provided by the Developer and its engineer and reviewed by the City staff and by third-party consultants retained by the City, has found and determined:

- The cost of Major Improvement Area Authorized Improvements equals $20,950,323 as shown on **Exhibit C**; and
- The Major Improvement Area Assessed Property receives special benefit from Major Improvement Area Authorized Improvements equal to or greater than the Actual Costs of the Major Improvement Area Authorized Improvements; and
- Major Improvement Area Assessed Property will be allocated 100% of the Major Improvement Area Assessments levied on the Major Improvement Area Assessed Property for Major Improvement Area Authorized Improvements, which equal $20,895,000, as shown on the Major Improvement Area Assessment Roll attached hereto as **Exhibit F;** and

- The special benefit (≥$20,950,323) received by the Major Improvement Area Assessed Property from the Major Improvement Area Authorized Improvements is greater than or equal to the amount of the Major Improvement Area Assessments ($20,895,000) levied on the Major Improvement Area Assessed Property for the Major Improvement Area Authorized Improvements; and
- At the time the City Council approved the Assessment Ordinance, the Owners owned 100% of Major Improvement Area. In a Landowner Certificate, each Owner acknowledged that the Major Improvement Area Authorized Improvements confer a special benefit on Major Improvement Area Assessed Property and consented to the imposition of the Major Improvement Area Assessments to pay for the Actual Costs associated therewith. The Owners ratified, confirmed, accepted, agreed to, and approved (1) the determinations and findings by the City Council as to the special benefits described herein and in the Assessment Ordinance, (2) the Service and Assessment Plan and the Assessment Ordinance, and (3) the levying of the Major Improvement Area Assessments on the Major Improvement Area Assessed Property.

D. Annual Collection Costs

The Annual Collection Costs shall be paid for on a pro rata basis by each Assessed Property based on the amount of outstanding Assessment remaining on the Assessed Property. Prior to the Trigger Date for the collection of Annual Installments for a given Parcel, the Annual Collection Costs shall be billed and collected in the same manner as Annual Installments in the amounts set forth in each Annual Service Plan Update. Following the Trigger Date for the collection of Annual Installments, the Annual Collection Costs shall be collected as part of and in the same manner as Annual Installments in the amounts shown on the Assessment Roll, which may be revised based on actual costs incurred in Annual Service Plan Updates.

E. Additional Interest

The interest rate on Assessments securing PID Bonds may exceed the interest rate on the PID Bonds by the Additional Interest Rate. If applicable, Additional Interest shall be collected as part of each Annual Installment and shall be deposited pursuant to the applicable Indenture.

SECTION VI: TERMS OF THE ASSESSMENTS

A. Reallocation of Assessments

1. *Upon Division Prior to Recording of Subdivision Plat*

Upon the division of any Assessed Property (without the recording of subdivision plat), the Administrator shall reallocate the Assessment for the Assessed Property prior to the division among the newly divided Assessed Properties according to the following formula:

$A = B \times (C \div D)$

Where the terms have the following meanings:

A = the Assessment for the newly divided Assessed Property
B = the Assessment for the Assessed Property prior to division
C = the Estimated Buildout Value of the newly divided Assessed Property
D = the sum of the Estimated Buildout Value for all the newly divided Assessed Properties

The sum of the Assessments for all newly divided Assessed Properties shall equal the Assessment for the Assessed Property prior to subdivision. The calculation shall be made separately for each newly divided Assessed Property. The reallocation of an Assessment for an Assessed Property that is a homestead under Texas law may not exceed the Assessment prior to the reallocation. Any reallocation pursuant to this section shall be reflected in the next Annual Service Plan Update and approved by the City Council.

2. Upon Subdivision by a Recorded Subdivision Plat

Upon the subdivision of any Assessed Property based on a recorded subdivision plat, the Administrator shall reallocate the Assessment for the Assessed Property prior to the subdivision among the new subdivided Lots based on Estimated Buildout Value according to the following formula:

$A = [B \times (C \div D)]/E$

Where the terms have the following meanings:

A = the Assessment for the newly subdivided Lot
B = the Assessment for the Parcel prior to subdivision
C = the sum of the Estimated Buildout Value of all newly subdivided Lots with the same Lot Type
D = the sum of the Estimated Buildout Value for all the newly subdivided Lots excluding Non-Benefited Property
E= the number of Lots with the same Lot Type

Prior to the recording of a subdivision plat, the Owner shall provide the City an Estimated Buildout Value as of the date of the recorded subdivision plat for each Lot created by the recorded subdivision plat.

The sum of the Assessments for all newly subdivided Lots shall not exceed the Assessment for the portion of the Assessed Property subdivided prior to subdivision. The calculation shall be made separately for each newly subdivided Assessed Property. The reallocation of an Assessment for an Assessed Property that is a homestead under Texas law may not exceed the Assessment prior to the reallocation. Any reallocation pursuant to this section shall be reflected in the next Annual Service Plan Update and approved by the City Council.

3. Upon Consolidation

If two or more Lots or Parcels are consolidated, the Administrator shall allocate the Assessments against the Lots or Parcels before the consolidation to the consolidated Lot or Parcel, which allocation shall be approved by the City Council in the next Annual Service Plan Update.

The Assessment for any resulting Lot will not exceed the Maximum Assessment for the applicable Lot Type, and compliance may require a mandatory prepayment of Assessments pursuant to **Section VI.B**.

B. True-up of Assessments if Maximum Assessment Exceeded

Prior to the City approving a final subdivision plat, the Administrator will certify that such plat will not result in the Assessment per Lot for any Lot Type to exceed the Maximum Assessment. If the Administrator determines that the resulting Assessment per Lot for any Lot Type will exceed the Maximum Assessment, then (i) the Assessment applicable to each Lot Type exceeding the Maximum Assessment shall be reduced to the Maximum Assessment, and (ii) the person or entity filing the plat shall pay to the City the amount the Assessment was reduced, plus Prepayment Costs and Delinquent Collection Costs, prior to the City approving the final plat. The City's approval of a final subdivision plat without payment of such amounts does not eliminate the obligation of the person or entity filing the plat to pay the amounts referenced in (ii) in the immediately preceding sentence.

C. Mandatory Prepayment of Assessments

If Assessed Property is transferred to a person or entity that is exempt from payment of the Assessments, the owner transferring the Assessed Property shall pay to the City or the Administrator on behalf of the City the full amount of the outstanding Assessment, plus Prepayment Costs and Delinquent Collection Costs, if any, for such Assessed Property, prior to the transfer. If the owner of the Assessed Property causes the Assessed Property to become Non-Benefited Property, the owner causing the change in status shall pay the full amount of the outstanding Assessment, plus Prepayment Costs and Delinquent Collection Costs, if any, prior to the change in status.

D. Reduction of Assessments

If as a result of cost savings or Authorized Improvements not being constructed, the Actual Costs of completed Authorized Improvements are less than the Assessments, (i) in the event PID Bonds are not issued, the City Council shall reduce each Assessment on a pro-rata basis such that the sum of the resulting reduced Assessments for all Assessed Property equals the reduced Actual Costs, or (ii) in the event PID Bonds are issued, the Trustee shall apply amounts on deposit in the applicable account of the project fund, relating to the PID Bonds, that are not expected to be used for purposes of the project fund to redeem outstanding PID Bonds, in accordance with the applicable Indenture. The Assessments shall not, however, be reduced to an amount less than the outstanding PID Bonds.

The Administrator shall update (and submit to the City Council for review and approval as part of the next Annual Service Plan Update) the Assessment Roll and corresponding Annual Installments to reflect the reduced Assessments.

E. Prepayment of Assessments

The owner of any Assessed Property may pay, at any time, all or any part of an Assessment in accordance with the PID Act. If PID Bonds are issued, interest costs from the date of prepayment to the date of redemption of the applicable PID Bonds, if any, may be paid from a reserve established under the applicable Indenture. If an Annual Installment has been billed prior to the Prepayment, the Annual Installment shall be due and payable and shall be credited against the Prepayment.

If an Assessment is pre-paid in full, with Prepayment Costs: (1) the Administrator shall cause the Assessment to be reduced to zero and the Assessment Roll to be revised accordingly; (2) the Administrator shall cause the revised Assessment Roll to be approved by the City Council as part of the next Annual Service Plan Update; (3) the obligation to pay the Assessment and corresponding Annual Installments shall terminate; and (4) the City shall provide the owner with a recordable "Notice of PID Assessment Termination," a form of which is attached as **Exhibit K**.

If an Assessment is pre-paid in part, with Prepayment Costs: (1) the Administrator shall cause the Assessment to be reduced and the Assessment Roll revised accordingly; (2) the Administrator shall cause the revised Assessment Roll to be approved by the City Council as part of the next Annual Service Plan Update; and (3) the obligation to pay the Assessment and corresponding Annual Installments shall be reduced to the extent of the Prepayment made.

F. Prepayment as a result of Eminent Domain Proceeding or Taking

Subject to applicable law, if any portion of any Parcel of Assessed Property is taken from an owner as a result of eminent domain proceedings or if a transfer of any portion of any Parcel of Assessed Property is made to an entity with the authority to condemn all or a portion of the Assessed

Property in lieu of or as a part of an eminent domain proceeding (a "**Taking**"), the portion of the Assessed Property that was taken or transferred (the "**Taken Property**") shall be reclassified as Non-Benefited Property.

For the Assessed Property that is subject to the Taking as described in the preceding paragraph, the Assessment that was levied against the Assessed Property (when it was included in the Taken Property) prior to the Taking shall remain in force against the remaining Assessed Property (the Assessed Property less the Taken Property,) (the "**Remaining Property**"), following the reclassification of the Taken Property as Non-Benefited Property, subject to an adjustment of the Assessment applicable to the Remaining Property after any required Prepayment as set forth below. The owner of the Remaining Property will remain liable to pay in Annual Installments, or payable as otherwise provided by this Service and Assessment Plan, as updated, or the PID Act, the Assessment that remains due on the Remaining Property, subject to an adjustment in the Assessment applicable to the Remaining Property after any required Prepayment as set forth below. Notwithstanding the foregoing, if the Assessment that remains due on the Remaining Property exceeds the Maximum Assessment, the owner of the Remaining Property will be required to make a Prepayment in an amount necessary to ensure that the Assessment against the Remaining Property does not exceed the Maximum Assessment, in which case the Assessment applicable to the Remaining Property will be reduced by the amount of the partial Prepayment. If the City receives all or a portion of the eminent domain proceeds (or payment made in an agreed sale in lieu of condemnation), such amount shall be credited against the amount of prepayment, with any remainder credited against the assessment on the Remaining Property.

In all instances the Assessment remaining on the Remaining Property shall not exceed the Maximum Assessment.

By way of illustration, if an owner owns 100 acres of Assessed Property subject to a $100 Assessment and 10 acres is taken through a Taking, the 10 acres of Taken Property shall be reclassified as Non-Benefited Property and the remaining 90 acres of Remaining Property shall be subject to the $100 Assessment, (provided that this $100 Assessment does not exceed the Maximum Assessment on the Remaining Property). If the Administrator determines that the $100 Assessment reallocated to the Remaining Property would exceed the Maximum Assessment on the Remaining Property by $10, then the owner shall be required to pay $10 as a Prepayment of the Assessment against the Remaining Property and the Assessment on the Remaining Property shall be adjusted to be $90.

Notwithstanding the previous paragraphs in this subsection (F), if the owner of the Taken Property notifies the City and the Administrator that the Taking prevents the Remaining Property from being developed for any use which could support the Estimated Buildout Value

requirement, the owner shall, upon receipt of the compensation for the Taken Property, be required to prepay the amount of the Assessment required to buy down the outstanding Assessment to the Maximum Assessment on the Remaining Property to support the Estimated Buildout Value requirement. Said owner will remain liable to pay the Annual Installments on both the Taken Property and the Remaining Property until such time that such Assessment has been prepaid in full.

Notwithstanding the previous paragraphs in this subsection (F), the Assessments shall not, however, be reduced to an amount less than the outstanding PID Bonds, if issued.

G. Payment of Assessment in Annual Installments

Assessments that are not paid in full shall be due and payable in Annual Installments. In no case will the Assessment for any Lot Type exceed the Maximum Assessment. Annual Installments are subject to adjustment in each Annual Service Plan Update.

The Administrator shall prepare and submit to the City Council for its review and approval an Annual Service Plan Update to allow for the billing and collection of Annual Installments. Each Annual Service Plan Update shall include updated Assessment Rolls and updated calculations of Annual Installments. Annual Collection Costs shall be allocated pro rata among Assessed Properties for which the Assessments remain unpaid in proportion to the amount of the Annual Installments for the Assessed Property. Annual Installments shall be collected by the City in the same manner and at the same time as ad valorem taxes. Annual Installments shall be subject to the penalties, procedures, and foreclosure sale in case of delinquencies as set forth in the PID Act and in the same manner as ad valorem taxes for the City. The City Council may provide for other means of collecting Annual Installments. Assessments shall have the lien priority specified in the PID Act. For billing purposes only, until a plat has been recorded within the District, the Annual Installment will be billed to each property ID within the District based on the Williamson Central Appraisal District acreage.

Sales of the Assessed Property for nonpayment of Annual Installments shall be subject to the lien for the remaining unpaid Annual Installments against the Assessed Property, and the Assessed Property may again be sold at a judicial foreclosure sale if the purchaser fails to timely pay the Annual Installments as they become due and payable.

The City reserves the right to refund PID Bonds, if issued, in accordance with the PID Act, if such bonds are issued. In the event of a refunding, the Administrator shall recalculate the Annual Installments so that total Annual Installments will be sufficient to pay the refunding bonds, and the refunding bonds shall constitute “PID Bonds.”

Each Annual Installment of an Assessment, including interest on the unpaid principal of the Assessment, shall be updated annually. Each Annual Installment shall be due when billed and

shall be delinquent if not paid prior to February 1 of the following year. Failure of an owner of Assessed Property to receive an invoice for an Annual Installment on the property tax bill or otherwise shall not relieve the owner of Assessed Property of the obligation to pay the Assessment. Assessments, or Annual Installments thereof, that are delinquent shall incur Delinquent Collection Costs.

SECTION VII: ASSESSMENT ROLL

The Major Improvement Area Assessment Roll is attached as **Exhibit F**. The Administrator shall prepare and submit to the City Council for review and approval, proposed revisions to the Assessment Roll and Annual Installments for each Parcel within the Assessed Property as part of each Annual Service Plan Update.

SECTION VIII: ADDITIONAL PROVISIONS

A. Calculation Errors

If the owner of an Assessed Property claims that an error has been made in any calculation required by this Service and Assessment Plan, including, but not limited to, any calculation made as part of any Annual Service Plan Update, the sole and exclusive remedy of the owner of Assessed Property shall be to submit a written notice of error to the Administrator by December 1st of each year following City Council approval of the calculation; otherwise, the owner shall be deemed to have unconditionally approved and accepted the calculation. Upon receipt of a written notice of error from an owner the Administrator shall provide a written response to the City Council and the owner within 30 days of such referral. The City Council shall consider the owner's notice of error and the Administrator's response at a public meeting, and within 30 days after adjourning such meeting, the City Council shall make a final determination as to whether an error has been made. If the City Council determines that an error has been made, the City Council shall take such corrective action as is authorized by the PID Act, this Service and Assessment Plan, the applicable Assessment Ordinance, or the applicable Indenture, or is otherwise authorized by the discretionary power of the City Council. The determination by the City Council as to whether an error has been made, and any corrective action taken by the City Council, shall be final and binding on the owner and the Administrator.

B. Amendments

Amendments to this Service and Assessment Plan must be made by the City Council in accordance with the PID Act. To the extent permitted by the PID Act, this Service and Assessment Plan may be amended without notice to owners of the Assessed Property: (1) to correct mistakes and clerical errors; (2) to clarify ambiguities; and (3) to provide procedures to collect

Assessments, Annual Installments, and other charges imposed by this Service and Assessment Plan.

C. Administration and Interpretation

The Administrator shall: (1) perform the obligations of the Administrator as set forth in this Service and Assessment Plan; (2) administer the District for and on behalf of and at the direction of the City Council; and (3) interpret the provisions of this Service and Assessment Plan. Interpretations of this Service and Assessment Plan by the Administrator shall be in writing and shall be appealable to the City Council by owners of Assessed Property adversely affected by the interpretation. Appeals shall be decided by the City Council after providing an opportunity for all interested parties to be heard at a public meeting of the City Council. Decisions by the City Council shall be final and binding on the owners and developers and their successors and assigns.

D. Severability

If any provision of this Service and Assessment Plan is determined by a governmental agency or court to be unenforceable, the unenforceable provision shall be deleted and, to the maximum extent possible, shall be rewritten to be enforceable. Every effort shall be made to enforce the remaining provisions.

E. Form of Buyer Disclosure

Per Section 5.014 of the Texas Property Code, as amended, this Service and Assessment Plan, and any future Annual Service Plan Updates, shall include a form of the buyer disclosures for the District. The buyer disclosures are attached hereto as **Exhibit L**. Within seven days of approval by the City Council, the City shall file and record in the real property records of the County the executed ordinance approving this Service and Assessment Plan, or any future Annual Service Plan Updates. The executed ordinance, including any attachments, approving this Service and Assessment Plan or any future Annual Service Plan Updates shall be filed and recorded in its entirety.

361.943 ACRES
WILLIAMSON COUNTY, TEXAS

A DESCRIPTION OF 361.943 ACRES (APPROXIMATELY 15,766,246 SQ. FT.) IN THE CHARLES H. DELANEY SURVEY NO.11, ABSTRACT NO. 181 IN WILLIAMSON COUNTY, TEXAS, BEING ALL OF A 362.01 ACRE TRACT CONVEYED TO GVM III, LLC IN A SPECIAL WARRANTY DEED DATED JANUARY 30, 2019 AND RECORDED IN DOCUMENT NO. 2019009671 OF THE OFFICIAL PUBLIC RECORDS OF WILLIAMSON COUNTY, TEXAS; SAID 361.943 ACRES BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING at a 1/2" rebar found in the north right-of-way line of Ronald Reagan Boulevard (right-of-way width varies) as described in Document No. 2006073735 of the Official Public Records of Williamson County, Texas, being the southernmost southeast corner of the said 362.01 acre tract, being also the southwest corner of Lot 5, Block F, Wade Crossing Phase 1, a subdivision recorded in Cabinet T, Slide 61 of the Plat Records of Williamson County, Texas;

THENCE with the north right-of-way line of Ronald Reagan Boulevard and the south line of the said 362.01 acre tract, the following thirteen (13) courses and distances:

1. South 64°21'56" West, a distance of 61.85 feet to a 1/2" rebar with "RPLS 5784" cap found;
2. With a curve to the left, having a radius of 8650.00 feet, a delta angle of 04°26'04", an arc length of 669.48 feet, and a chord which bears South 62°20'34" West, a distance of 669.31 feet to a 1/2" rebar with "PBSJ" cap found;
3. North 30°06'18" West, a distance of 9.99 feet to a 1/2" rebar with "PBSJ" cap found;
4. With a curve to the left, having a radius of 8670.00 feet, a delta angle of 01°28'05", an arc length of 222.14 feet, and a chord which bears South 59°23'20" West, a distance of 222.14 feet to a 1/2" rebar with "RPLS 5784" cap found;
5. South 58°39'00" West, a distance of 254.37 feet to a 1/2" rebar with "PBSJ" cap found;

6. North 31°40'32" West, a distance of 9.94 feet to a 1/2" rebar with "PBSJ" cap found;

7. South 58°39'01" West, a distance of 1518.07 feet to a 1/2" rebar with "PBSJ" cap found;

8. South 31°34'30" East, a distance of 20.03 feet to a 1/2" rebar with "PBSJ" cap found;

9. South 58°39'20" West, a distance of 1706.47 feet to a 1/2" rebar with "PBSJ" cap found;

10. North 32°01'03" West, a distance of 9.97 feet to a 1/2" rebar with "PBSJ" cap found;

11. South 58°40'41" West, a distance of 382.01 feet to a 1/2" rebar with "PBSJ" cap found;

12. South 31°19'19" East, a distance of 10.14 feet a cotton spindle "Early Boundary" washer set;

13. South 58°40'41" West, a distance of 42.16 feet to a 1/2" rebar with "PBSJ" cap found for the southwest corner of said 362.01 acre tract, being the southeast corner of a 523.521 acre tract described in Document No. 2022010857 of the Official Public Records of Williamson County, Texas;

THENCE with the west line of said 362.01 acre tract and the east line of said 523.521 acre tract, the following six (6) courses and distances:

1. North 20°51'09" West, a distance of 1031.61 feet to a 1/2" rebar found in the west side of a live oak tree;

2. North 27°20'27" West, a distance of 238.87 feet to a 1/2" rebar with illegible cap found;

3. North 20°43'00" West, a distance of 451.23 feet to a 1/2" rebar with illegible cap found;

4. North 20°44'15" West, a distance of 766.10 feet to a 1/2" rebar with illegible cap found;

5. North 64°38'15" East, a distance of 15.94 feet to 1/2" rebar found;

6. North 21°03'54" West, a distance of 2128.29 feet to a 1/2" rebar with "RPLS 5784" cap found for the northwest corner of said 362.01 acre tract;

THENCE North 68°43'41" East, with the north line of the 362.01 acre tract and the south line of the 523.521 acre tract, passing a 1/2" rebar with "Bury" cap found at a distance of 729.11 feet and continuing for a total distance of 3065.64 feet to a 1/2" rebar found in the southwest right-of-way line of County Road 248, being the northeast corner of the said 362.01 acre tract, being the easternmost corner of the said 523.521 acre tract;

THENCE with the west right-of-way line of County Road 248 and the east line of the said 362.01 acre tract, the following five (5) courses and distances:

1. South 64°44'40" East, a distance of 923.60 feet to a 1/2" rebar found;
2. South 40°32'58" East, a distance of 91.06 feet to a 1/2" rebar found;
3. South 15°30'30" East, a distance of 728.47 feet to a 6" x 6" square metal fence post;
4. South 38°36'41" East, a distance of 440.03 feet to a 1/2" rebar found;
5. South 60°43'49" East, a distance of 359.07 feet to a 1/2" rebar in concrete found for a southeast corner of the said 362.01 acre tract, being an angle point in the north line of Lot 36, Block F, of said Wade Crossing Phase 1, from which a 1/2" rebar found for angle point in the south right-of-way line of County Road 248, being the northeast corner of Lot 36, bears North 14°44'57" East, a distance of 21.45 feet;

THENCE with the common line of the said 362.01 acre tract, said Wade Crossing Phase 1 and Wade Crossing Phase II, a subdivision recorded in Cabinet V, Slide 227 of the Plat Records of Williamson County, Texas, the following ten (10) courses and distances:

1. South 68°42'08" West, a distance of 700.14 feet to a 1/2" rebar with "Diamond" cap found for the northwest corner of said Lot 36, Block F, of said Wade Crossing Phase 1;
2. South 21°17'04" East, a distance of 160.18 feet to a 1/2" rebar found for the southwest corner of said Lot 36, being the northwest corner of Lot 32, Block F, of said Wade Crossing Phase II;
3. South 21°02'35" East, a distance of 157.37 feet to a 1/2" rebar with illegible cap found for the northwest corner of Lot 31, Block F, of said Wade Crossing Phase II;
4. South 21°13'20" East, a distance of 231.14 feet to a 1/2" rebar with illegible cap found for the southwest corner of said Lot 31, being the northwest corner of Lot 30, Block F, of said of said Wade Crossing Phase II;

5. South 21°10'18" East, a distance of 244.21 feet to a 1/2" rebar with illegible cap found for the southwest corner of said Lot 30, being the northwest corner of Lot 29, Block F, of said Wade Crossing Phase II;

6. South 21°13'23" East, a distance of 296.63 feet to a 1/2" rebar with illegible cap found for the southwest corner of said Lot 29;

7. South 21°15'05" East, a distance of 130.36 feet to a mag nail in concrete found for the southwest corner of Lot 28, Block F, of said Wade Crossing Phase II, from which a 1/2" rebar found, bears North 13°10'21" East, a distance of 0.72 feet;

8. North 69°15'03" East, a distance of 249.83 feet to a 1/2" rebar with illegible cap found for the southeast corner of said Lot 28, being the southwest corner of Lot 27, Block F, of said Wade Crossing Phase II;

9. North 69°12'00" East, a distance of 1231.49 feet to a 1/2" rebar found for the southeast corner of Lot 9, Block F, of said Wade Crossing Phase II;

10. South 17°40'36" East, a distance of 407.67 feet to the **POINT OF BEGINNING**, containing an area of 361.943 acres, more or less.

112.041 ACRES
WILLIAMSON COUNTY, TEXAS

A DESCRIPTION OF 112.041 ACRES (APPROXIMATELY 4,880,523 SQ. FT.) IN THE C.H. DELANEY SURVEY NO. 11, ABSTRACT NO. 181 IN WILLIAMSON COUNTY, TEXAS, BEING A PORTION OF LOT 5, M.C. HAMILTON'S SUBDIVISION, A SUBDIVISION OF RECORD IN VOLUME 27, PAGE 137 OF THE DEED RECORDS OF WILLIAMSON COUNTY, TEXAS, BEING A PORTION OF A 113.5 ACRE TRACT CONVEYED TO EMZIE FISHER IN A DEED DATED APRIL 11, 1979 AND RECORDED IN VOLUME 756, PAGE 287 OF THE DEED RECORDS OF WILLIAMSON COUNTY, TEXAS, SAVE AND EXCEPT A 10,000 SQ. FT. TRACT DESCRIBED IN A MEMORANDUM OF PCS SITE AGREEMENT DATED APRIL 26, 2001, AND RECORDED IN DOCUMENT NO. 2001040420 OF THE OFFICIAL PUBLIC RECORDS OF WILLIAMSON COUNTY, TEXAS, AND AMENDED IN DOCUMENT NO. 2017027880 OF THE OFFICIAL PUBLIC RECORDS OF WILLIAMSON COUNTY, TEXAS; SAID 112.041 ACRES BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING at a concrete highway monument found for a point of tangency in the west right-of-way line of Ranch Road 2338 (variable width right-of-way) as described in Volume 416, Page 60 of the Deed Records of Williamson County, Texas, and shown on TXDOT right-of-way strip map CSJ 2211-01-001, being in the south line of said 113.5 acre tract, same being the south line of said Lot 5, being also in the north line of a 50 acre tract described in Volume 353, Page 94 of the Deed Records of Williamson County, Texas;

THENCE South 69°10'58" West, with the south line of said 113.5 acre tract, same being the south line of said Lot 5, also being the north line of said 50 acre tract, a distance of 374.52 feet to a 1/2" rebar with "Steger Bizzell" cap found for the northernmost northeast corner of Lot 1, G.I.S.D. West Side, a subdivision of record in Document No. 2018043822 of the Official Public Records of Williamson County, Texas;

THENCE South 69°08'50" West, with the south line of said 113.5 acre tract, same being the south line of said Lot 5, also being the north line of said Lot 1, a distance of 1407.11 feet to a 1/2" rebar found;

THENCE South 69°20'01" West, continuing with the south line of said 113.5 acre tract, same being the south line of said Lot 5, also being the north line of said Lot 1, passing

at a distance of 1659.17 feet a 1/2" rebar with "Steger Bizzell" cap found in the east right-of-way line of County Road 248 (right-of-way width varies), being the northwest corner of said Lot 1, also being the northeast corner of a 1.43 acre right-of-way dedication shown on said G.I.S.D. West Side subdivision, passing at an additional distance of 23.47 feet a 1/2" rebar with "Steger Bizzell" cap found for the northwest corner of said 1.43 acre right-of-way dedication and continuing, in all, a total distance of 1730.44 feet to a calculated point in the center of the existing pavement of County Road 248;

THENCE with the centerline of the existing pavement of County Road 248, as approximated by the following courses and distances:

1. North 65°57'11" West, a distance of 456.27 feet to a calculated point;
2. North 67°52'24" West, a distance of 1147.05 feet to a calculated point;
3. North 60°21'36" West, a distance of 78.43 feet to a calculated point for the northwest corner of said 113.5 acre tract, being in the north line of said Lot 5;

THENCE North 68°39'29" East, with the north line of said 113.5 acre tract, same being the north line of said Lot 5, a distance of 45.32 feet to a bent 1/2" rebar found in the east right-of-way line of County Road 248, being the southeast corner of a right-of-way dedication shown on West Ridge Subdivision Section One, a subdivision of record in Cabinet P, Slide 358 of the Plat Records of Williamson County, Texas, also being the southwest corner of Block B of said West Ridge Subdivision Section One;

THENCE North 68°39'29" East, with the north line of said 113.5 acre tract, same being the north line of said Lot 5, and the south line of said Block B, West Ridge Subdivision Section One, and Block B, West Ridge Subdivision Section Two, a subdivision of record in Cabinet Q, Slide 82, of the Plat Records of Williamson County, Texas, and Block B, West Ridge Subdivision Section Three, a subdivision of record in Cabinet Q, Slide 84, of the Plat Records of Williamson County, Texas, and Block B, West Ridge Subdivision Section Four, a subdivision of record in Cabinet Q, Slide 311, of the Plat Records of Williamson County, Texas, a distance of 4632.80 feet to a calculated point for an angle point in the west right-of-way line of Ranch Road 2338, being the southwest corner of a 20' right-of-way dedication shown on said West Ridge Subdivision Section Four;

THENCE North 68°39'29" East, with the right-of-way line of Ranch Road 2338 and the north line of said 113.5 acre tract, same being the north line of said Lot 5, passing at a distance of 18.99 feet to 1/2" rebar found, and continuing, in all, a total distance of 20.00 feet to a calculated point for an angle point in the west right-of-way line of Ranch Road 2338, from which:

- a concrete highway monument found for a point of tangency in the west right-of way line of Ranch Road 2338, bears North 22°14'26" West, a distance of 1814.24 feet,

- a concrete highway monument found in the east right-of-way line of Ranch Road 2338, bears North 22°14'26" West, a distance of 63.67 feet, and North 67°45'34" East, a distance of 80.00 feet;

THENCE crossing said 113.5 acre tract with the west right-of-way line of Ranch Road 2338, the following courses and distances:

1. South 22°14'26" East, a distance of 962.43 feet to a calculated point for a point of curvature, from which a disturbed concrete highway monument found, bears South 67°45'34" West, a distance of 1.30 feet;

2. With a curve to the right, having a radius of 11419.16 feet, a delta angle of 01°14'47", an arc length of 248.41 feet, and a chord which bears South 21°33'43" East, a distance of 248.40 feet to the **POINT OF BEGINNING**, containing an area of 112.271 acres, for a net acreage of 112.041 acres of land, more or less, *of which approximately 1.375 acres lies between the fence and the center of the existing pavement of County Road 248.*

BEING 98.38 acres of land, situated in the Charles H. Delaney Survey, Abstract No. 181, in Williamson County, Texas, said land being a portion of that certain tract of land, called 132.42 acres, as conveyed to Willrae Partners I, Ltd. by deed recorded as Document No. 2004067447 of the Official Records of Williamson County, Texas. Surveyed on the ground in the month of December, 2005, under the supervision of Brian F. Peterson, Registered Professional Land Surveyor, and being more particularly described as follows;

BEGINNING at an iron pin found on the west line of Farm to Market Highway No. 2338, marking the most easterly Northeast corner of the above-referenced Willrae Partners I, Ltd. tract, being the occupied Southeast corner of that certain tract of land, called 50 acres, as conveyed to Emzie Lee Fisher and wife, Elzora Fisher, by deed as recorded in Volume 353, Page 94, of the Deed Records of Williamson County, Texas, for the most easterly Northeast corner hereof;

THENCE, along the said west line of F.M. Highway No. 2338, being an easterly line of the said Willrae Partners I, Ltd. tract, S 20° 59' 45" E, 140.01 feet to an iron pin set for the most northerly Southeast corner hereof;

THENCE, S 69° 36' 15" W, 565.00 feet to an iron pin set for an interior corner hereof;

THENCE, S 24° 18' 15" W, 260.32 feet to an iron pin set for an interior corner hereof;

THENCE, S 20° 59' 45" E, 815.00 feet to an iron pin set; and S 25° 10' 15" E, 944.38 feet to an iron pin set on the north line of County Road No. 248, being the south line of the said Willrae Partners I, Ltd. tract, for the most southerly Southeast corner hereof;

THENCE, along the north and east line of County Road No. 248, being the south and west line of the said Willrae Partners I, Ltd. tract, as follows; N 86° 19' 30" W, 26.23 feet to an iron pin found; N 82° 15' 30" W, 120.16 feet to an iron pin found; N 69° 37' 30" W, 134.82 feet, to an iron pin found; N 65° 08' W, 230.89 feet to an iron pin found; N 68° 34' W, 207.37 feet to an iron pin found at a 10" Hackberry; N 72° 09' 30" W, 270.16 feet to an iron pin found at an 8" Hackberry; N 82° 40' 45" W, 414.51 feet to an iron pin found; N 87° 18' 30" W, 789.19 feet to an iron pin found at a 4" Live Oak; N 77° 36' W, 53.97 feet to an iron pin found; N 63° 23' 15" W, 279.77 feet to an iron pin found; N 51° 54' 15" W, 77.46 feet to an iron pin found; N 38° 08' 30" W, 259.64 feet to an iron pin found at an 8" Live Oak; N 31° 52' 15" W, 64.78 feet to an iron pin found; N 19° 53' W, 223.39 feet to an iron pin found; N 12° 48' 45" W, 198.09 feet to an iron pin found at an 8" Live Oak; N 15° 03' 15" W, 314.92 feet to an iron pin found; N 33° 51' 15" W, 73.71 feet to an iron pin found; N 44° 52' W, 48.30 feet to an iron pin found; N 57° 54' 30" W, 66.91 feet to an iron pin found; N 64° 39' W, 447.55 feet to an iron pin found and N 65° 09' W, 371.07 feet to an iron pin found for the Northwest corner of the said Willrae Partners I, Ltd. tract, being the Southwest corner of that certain tract of land, called 113.50 acres, as conveyed to Emzie Lee Fisher by deed as recorded in Volume 756, Page 287, of the Deed Records of Williamson County, Texas, for the Northwest corner hereof;

Page 1 of 8

THENCE, along the south line of the said 113.50 acre Fisher tract, N 69° 20' E, 1,682.59 feet to an iron pin found marking the most northerly Northeast corner of the said Willrae Partners I, Ltd. tract, for the most northerly Northeast corner hereof;

THENCE, with a fence, along an easterly line of the said Willrae Partners I, Ltd. tract, being the west line of the said 50 acre Fisher tract, as follows; S 14° 54' 15" E, 295.09 feet to a 40d nail found; S 14° 07' 45" E, 185.57 feet to a 40d nail found at a railroad tie post; S 18° 39' 15" E, 80.97 feet to a 40d nail found; S 20° 00' 45" E, 64.09 feet to a 40d nail found; S 21° 35' 45" E, 106.19 feet to a 40d nail found at a 32" Live Oak; S 20° 29' E, 280.39 feet to a 40d nail found and S 20° 59' 45" E, 141.06 feet to an iron pin found marking an interior corner of the said Willrae Partners I, Ltd. tract, being the Southwest corner of the said 50 acre Fisher tract, for an interior corner hereof;

THENCE, N 69° 36' 15" E, 1,841.06 feet to the Place of BEGINNING and containing 98.38 acres of land.

DESCRIPTION OF 1.63 ACRES OF LAND

DESCRIPTION OF A 1.63 ACRE TRACT OF LAND LOCATED IN THE CHARLES H. DULANEY SURVEY NO. 2, ABSTRACT NO. 181, WILLIAMSON COUNTY, TEXAS, BEING A PORTION OF THAT CERTAIN CALLED 34.124 ACRE TRACT OF LAND CONVEYED TO TROOP DURGIN WRIGHT PROPERTIES, LP, BY WARRANTY DEED OF RECORD IN DOCUMENT NUMBER 2016000533, OF THE OFFICIAL PUBLIC RECORDS OF WILLIAMSON COUNTY, TEXAS (OPR), SAID 1.63 ACRE TRACT OF LAND BEING SURVEYED ON THE GROUND IN JANUARY, 2023, UNDER THE DIRECT SUPERVISION OF PATRICK J. STEVENS, RPLS, AND BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING, at a 1/2-inch iron set with cap stamped "STEGER BIZZELL" set in the east boundary line of said 34.124 acre tract, and in the west right of way of Ranch Road 2338, a right of way of variable width of record in Volume 416, Page 60, of the deed records of Williamson County, Texas (DR), for the southeast corner and **POINT OF BEGINNING** of the herein described tract, from which a 1/2-inch iron rod with cap stamped "PBS&J" found in the west line of said Ranch Road 2338 for an easterly corner of said 34.124 acre tract lies South 20°59'34" East, a distance of 158.26 feet;

THENCE, over and across said 34.124 acre tract, North 66°02'25" West, a distance of 35.33 feet to a 1/2-inch iron set with cap stamped "STEGER BIZZELL", and South 69°58'39" West, a distance of 724.89 feet to a cotton spindle set with washer stamped "STEGER BIZZELL" in the east boundary line of that certain called 98.38 acre tract of land conveyed to Georgetown Independent School District by Warranty Deed of record in Document Number 2006075903, OPR, for the southwest corner of the herein described tract, from which a 1/2-inch iron set with cap stamped "STEGER BIZZELL" in the east line of said 98.38 acre tract for a westerly corner of said 34.124 acre tract lies South 20°59'38" East, a distance of 149.72 feet;

THENCE, North 20°59'38" West, a distance of 94.01 feet to a 1/2-inch iron set with cap stamped "STEGER BIZZELL" in the east line of said 98.38 acre tract and in the west line of said 34.124 acre tract for the northwest corner of the herein described tract;

THENCE, over and across said 34.124 acre tract, North 69°58'39" East, a distance of 724.90 feet to a 1/2-inch iron set with cap stamped "STEGER BIZZELL", and North 24°05'34" East, a distance of 35.30 feet to a 1/2-inch iron set with cap stamped "STEGER BIZZELL" in the east line of said 34.124 acre tract, and in the west line of said Ranch Road 2338, for the northeast corner of the herein described tract;

THENCE, with the east line of said 34.124 acre tract, same being the west line of said Ranch Road 2338, South 20°59'34" East, a distance of 143.90 feet to the **POINT OF BEGINNING,** and containing 1.63 acres of land, more or less, within these metes and bounds.

Bearings are based on the Texas Coordinate System of 1983, Central Zone (NAD_83 (2011)). All distances shown hereon are grid values represented in U.S. Survey Feet.

Page 3 of 8

The foregoing metes and bounds description and survey on which it is based is accompanied by and a part of a sketch of the subject tract.

I certify that this description was prepared from an on the ground survey made in January, 2023, by me or under my supervision.

DESCRIPTION OF

DESCRIPTION OF A 38.53 ACRE TRACT OF LAND LOCATED IN THE C.H. DILANEY SURVEY, ABSTRACT 181, WILLIAMSON COUNTY, TEXAS, BEING OUT OF THAT CERTAIN 50 ACRE TRACT OF LAND CONVEYED TO EMZIE LEE FISHER, ET UX, BY WARRANTY DEED OF RECORD IN VOLUME 354, PAGE 94, OF THE DEED RECORDS OF WILLIAMSON COUNTY, TEXAS, SAID 38.53 ACRE TRACT OF LAND BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

COMMENCING, at a 1/2 inch iron rod found on the west right-of-way line of RM 2338, also known as Williams Drive, an 80.00 foot wide roadway, as dedicated in Volume 416, Page 60, said Deed Records, at its intersection with the south line of said 50 acre tract of land, for the eastern most northeast corner of that certain 98.38 acre tract of land conveyed to the Georgetown Independent School District by Warranty Deed of record in Document No. 2006075903, of the Official Public Records of Williamson County, Texas, from which point a 1/2 inch iron rod with cap stamped "5784" found on said west right-of-way line of RM 2338, for the eastern most southeast corner of said 98.38 ac tract of land, same point being the northeast corner of that certain 34.124 acre tract of land conveyed to Troop Durgin Wright Properties, LP, by Special Warranty Deed of record in Document No. 2016000533, said Official Public Records bears South 21°01'00" East, with said right-of-way, a distance of 139.94 feet;

THENCE, South 69°36'44" West, with said south line of the 50 acre tract, same line being a north line of said 98.38 acre tract, a distance of 374.52 feet to a 1/2 inch iron rod with cap stamped "STEGER BIZZELL" set for the southeast corner and **POINT OF BEGINNING** of the herein described tract;

THENCE, South 69°36'44" West, continuing with the common line of the 50 acre tract and the 98.38 acre tract, a distance of 1466.64 feet, to a 1/2 inch iron rod found for the southwest corner of said 50 acre tract, same point being an interior corner of said 98.38 acre tract of land, and for the southwest corner of the herein described tract;

THENCE, with the west line of said 50 acre tract, same line being an east line of said 98.38 acre tract, the following seven (7) courses and distances:

1. North 20°59'16" West, a distance of 141.06 feet, to a 1/2 inch iron rod with cap stamped "STEGER BIZZELL" set;
2. North 20°29'49" West, a distance of 280.19 feet to a 40d nail in a fence post found;
3. North 21°33'45" West, a distance of 106.02 feet, to a 40d nail in a fence post found;
4. North 20°04'23" West, a distance of 64.17 feet, to a 40d nail in a fence post found;

Page 5 of 8

5. North 18°37'34" West, a distance of 80.98 feet, to a 1/2 inch iron rod with cap stamped "STEGER BIZZELL" set;
6. North 14°06'04" West, a distance of 185.59 feet, to a 40d nail in a fence post found;
7. North 14°53'55" West, a distance of 295.09 feet, to a 1/2 inch iron rod found on the south line of that certain 113.5 acre tract of land conveyed to Emzie Lee Fisher by deed of record in Volume 756, Page 287, said Deed Records, for the northwest corner of said 50 acre tract, same point being the northern most northeast corner of said 98.38 acre tract of land, and for the northwest corner of the herein described tract;

THENCE, North 69°09'19" East, with the north line of said 50 acre tract, same line being said south line of the 113.5 acre tract of land, a distance of 1407.10 feet, to a /2 inch iron rod with cap stamped "STEGER BIZZELL" set for the northeast corner of the herein described tract, from which point a Texas Department of Transportation concrete monument with brass disc (TxDOT Type II) found on said west right-of-way line of RM 2338, bears North 69°09'19" East, a distance of 374.50 feet;

THENCE, South 20°59'55" East, severing said 50 acre tract, a distance of 1161.85 feet, to the **POINT OF BEGINNING**, and containing 38.53 acres of land, more or less, within these metes and bounds.

Bearings are based on the Texas Coordinate System of 1983, Central Zone (NAD_83 (2011)). All distances shown hereon are surface values represented in U.S. Survey Feet based on a Grid-to-Surface Combined Adjustment Factor of 1.00015.

The forgoing metes and bounds description and survey on which it is based is accompanied by and a part of survey map of the subject tract.

I certify that this description was prepared from a survey made on the ground in/on June and July 2017, under my supervision.

10.001 ACRES
WILLIAMSON COUNTY, TEXAS

A DESCRIPTION OF 10.001 ACRES (APPROXIMATELY 435,639 SQ. FT.) IN THE C.H. DELANEY SURVEY NO. 11, ABSTRACT NO. 181 IN WILLIAMSON COUNTY, TEXAS, BEING A PORTION OF A 50 ACRE TRACT CONVEYED TO EMZIE AND ELZORA FISHER IN A WARRANTY DEED DATED NOVEMBER 5, 1948 AND RECORDED IN VOLUME 353, PAGE 94 OF THE DEED RECORDS OF WILLIAMSON COUNTY, TEXAS; SAID 10.001 ACRES BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING at a concrete highway monument found for a point of tangency in the west right-of-way line of Ranch Road 2338 (variable width right-of-way) as described in Volume 416, Page 60 of the Deed Records of Williamson County, Texas, and shown on TXDOT right-of-way strip map CSJ 2211-01-001, being in the north line of said 50 acre tract, also being in the south line of a 113.5 acre tract described in Volume 756, Page 287 of the Deed Records of Williamson County, Texas, same being the south line of Lot 5 of M.C. Hamilton's Subdivision, a subdivision of record in Volume 27, Page 137 of the Deed Records of Williamson County, Texas, from which a concrete highway monument found in the east right-of-way line of Ranch Road 2338, bears North 69°31'35" East, a distance of 80.00 feet;

THENCE South 20°59'36" East, with the west right-of-way line of Ranch Road 2338, crossing said 50 acre tract, a distance of 1164.60 feet to a 1/2" rebar with "Early Boundary" cap set for an angle point in the west right-of-way line of Ranch Road 2338, being in the south line of said 50 acre tract, being the northeast corner of a 3,848 sq. ft. right-of-way dedication shown on the G.I.S.D. West Side, a subdivision of record in Document No. 2018043822 of the Official Public Records of Williamson County, Texas, from which a 1/2" rebar with "Steger Bizzell" cap found for the southeast corner of said 3,848 sq. ft. right-of-way dedication, bears South 20°59'36" East, a distance of 139.94 feet;

THENCE South 69°37'24" West, with the right-of-way line of Ranch Road 2338, same being the north line of said 3,848 sq. ft. right-of-way dedication, also being the south line of said 50 acre tract, a distance of 27.50 feet to a 1/2" rebar with "Early Boundary" cap set for the easternmost northeast corner of Lot 1, Block A of said G.I.S.D. West Side, being the northwest corner of said 3,848 sq. ft. right-of-way dedication;

THENCE South 69°37'24" West, with the south line of said 50 acre tract and a north line of said Lot 1, a distance of 347.07 feet to a 1/2" rebar with "Steger Bizzell" cap found for an interior corner of said Lot 1;

THENCE North 20°59'31" West, crossing said 50 acre tract with an east line of said Lot 1, a distance of 1161.72 feet to a 1/2" rebar with "Steger Bizzell" cap found in the north line of said 50 acre tract, being the northernmost northeast corner of said Lot 1, being also in the south line of said 113.5 acre tract, same being the south line of said Lot 5;

THENCE North 69°10'58" East, with the north line of said 50 acre tract, and the south line of said 113.5 acre tract, same being the south line of said Lot 5, a distance of 374.52 feet to the **POINT OF BEGINNING**, containing an area of 10.001 acres, more or less.

Surveyed on the ground on August 28, 2024.

Bearing Basis: The Texas Coordinate System of 1983 (NAD83), Central Zone, utilizing the SmartNet North America Network.

THIS FULL RELEASE OF PUBLIC IMPROVEMENT DISTRICT LIEN (this "Full Release") is executed and delivered as of the Effective Date by the City of Georgetown, Texas.

RECITALS

WHEREAS, the governing body (hereinafter referred to as the "City Council") of the City of Georgetown, Texas (hereinafter referred to as the "City "), is authorized by Chapter 372, Texas Local Government Code, as amended (hereinafter referred to as the "Act"), to create public improvement districts within the corporate limits and extraterritorial jurisdiction of the City; and

WHEREAS, on or about August 26, 2025, the City Council for the City, approved Resolution No. 082625-5.P, creating the Heirloom Public Improvement District; and

WHEREAS, the Heirloom Public Improvement District consists of approximately 622.525 contiguous acres located within the City; and

WHEREAS, on or about ____, ____, the City Council, approved Ordinance No. ____, (hereinafter referred to as the "Assessment Ordinance") approving a service and assessment plan and assessment roll for the Property within the Heirloom Public Improvement District; and

WHEREAS, the Assessment Ordinance imposed an assessment in the amount of $____ (hereinafter referred to as the "Lien Amount") for the following property:

[legal description], a subdivision in Williamson County, Texas, according to the map or plat of record in Document/Instrument No. _____ of the Plat Records of Williamson County, Texas (hereinafter referred to as the "Property"); and

WHEREAS, the property owners of the Property have paid unto the City the Lien Amount.

RELEASE

NOW THEREFORE, the City, the owner and holder of the Lien, Instrument No. _____, in the Real Property Records of Williamson County, Texas, in the amount of the Lien Amount against the Property releases and discharges, and by these presents does hereby release and discharge, the above-described Property from said lien held by the undersigned securing said indebtedness.

HEIRLOOM PUBLIC IMPROVEMENT DISTRICT MAJOR IMPROVEMENT AREA INITIAL PARCEL BUYER DISCLOSURE

NOTICE OF OBLIGATIONS RELATED TO PUBLIC IMPROVEMENT DISTRICT

A person who proposes to sell or otherwise convey real property that is located in a public improvement district established under Subchapter A, Chapter 372, Local Government Code (except for public improvement districts described under Section 372.005), or Chapter 382, Local Government Code, shall first give to the purchaser of the property this written notice, signed by the seller.

For the purposes of this notice, a contract for the purchase and sale of real property having a performance period of less than six months is considered a sale requiring the notice set forth below.

This notice requirement does not apply to a transfer:

1) under a court order or foreclosure sale;
2) by a trustee in bankruptcy;
3) to a mortgagee by a mortgagor or successor in interest or to a beneficiary of a deed of trust by a trustor or successor in interest;
4) by a mortgagee or a beneficiary under a deed of trust who has acquired the land at a sale conducted under a power of sale under a deed of trust or a sale under a court-ordered foreclosure or has acquired the land by a deed in lieu of foreclosure;
5) by a fiduciary in the course of the administration of a decedent's estate, guardianship, conservatorship, or trust;
6) from one co-owner to another co-owner of an undivided interest in the real property;
7) to a spouse or a person in the lineal line of consanguinity of the seller;
8) to or from a governmental entity; or
9) of only a mineral interest, leasehold interest, or security interest

The following notice shall be given to a prospective purchaser before the execution of a binding contract of purchase and sale, either separately or as an addendum or paragraph of a purchase contract. In the event a contract of purchase and sale is entered into without the seller having provided the required notice, the purchaser, subject to certain exceptions, is entitled to terminate the contract.

A separate copy of this notice shall be executed by the seller and the purchaser and must be filed in the real property records of the county in which the property is located at the closing of the purchase and sale of the property.

NOTICE OF OBLIGATION TO PAY IMPROVEMENT DISTRICT ASSESSMENT TO
CITY OF GEORGETOWN, TEXAS
CONCERNING THE FOLLOWING PROPERTY

_____
STREET ADDRESS

MAJOR IMPROVEMENT AREA INITIAL PARCEL PRINCIPAL ASSESSMENT: $20,895,000.00

As the purchaser of the real property described above, you are obligated to pay assessments to City of Georgetown, Texas, (the "City"), for the costs of a portion of a public improvement or services project (the "Authorized Improvements") undertaken for the benefit of the property within ***Heirloom Public Improvement District*** (the "District") created under Subchapter A, Chapter 372, Local Government Code.

AN ASSESSMENT HAS BEEN LEVIED AGAINST YOUR PROPERTY FOR THE AUTHORIZED IMPROVEMENTS, WHICH MAY BE PAID IN FULL AT ANY TIME. IF THE ASSESSMENT IS NOT PAID IN FULL, IT WILL BE DUE AND PAYABLE IN ANNUAL INSTALLMENTS THAT WILL VARY FROM YEAR TO YEAR DEPENDING ON THE AMOUNT OF INTEREST PAID, COLLECTION COSTS, ADMINISTRATIVE COSTS, AND DELINQUENCY COSTS.

The exact amount of the assessment may be obtained from the City. The exact amount of each annual installment will be approved each year by the City of Georgetown, Texas, City Council in the annual service plan update for the District. More information about the assessments, including the amounts and due dates, may be obtained from the City.

Your failure to pay any assessment or any annual installment may result in penalties and interest being added to what you owe or in a lien on and the foreclosure of your property.

[1] To be included in separate copy of the notice required by Section 5.0143, Tex. Prop. Code, to be executed at the closing of the purchase and sale and to be recorded in the deed records of Williamson County when updating for the Current Information of Obligation to Pay Improvement District Assessment.

APPENDIX A – ENGINEER'S REPORT

[Remainder of page left intentionally blank]

Heirloom Tract

MIA PID

HeirloomTX, LLC.

PID Engineering Report

City of Georgetown, Williamson County, Texas

Gray Civil
TBPE Registration No. F-2946

August 2026

Overview –

The Heirloom Combined Tract (Site) is an approximately 622.528 acre development located within the City of Georgetown in Williamson County. The site is located at the northwest corner of the intersection of Ronald Reagan Boulevard and RM 2338. Zoning on the tract consists of zone RS – Residential Single-Family, MF-2 – High-Density Multifamily, TH – Town Home, and zone C-3 – General Commercial, along with a GISD school site and dedicated parkland. Zoning estimates are based on the land plan provided by the client from the Development Plan approved by the City. The Preliminary Plat for the western tract was submitted on September 8th, 2025 consisting of 935 total lots (879 single-family lots, 51 non-residential lots, 2 commercial lots, and 3 multi-family lots). The Preliminary Plat for the eastern tract will be submitted at the beginning of September 2026.

The development is in the North Fork San Gabriel River watershed and lies within the Contributing Zone of the Edwards Aquifer. Refer to Exhibit 1 for a Location Map. There is approximately 1 acre of the site located within the 100-year floodplain as defined on the FEMA Panel No. 48491C0275E and 48491C0100E effective date September 26, 2008.

Public Improvement District –

The Heirloom Tract development is subject to the Planned Unit Development Zoning Ordinance 2025-45. This report focuses on the Major Improvement Area (MIA) consisting of Phase 1 improvements that will be reimbursed with PID Bond Issue #1. See Exhibits 1 and 2 for MIA/district area map and legal descriptions.

MIA contains the full 622.528 acres located across the western and eastern tracts of the site. Phase 1 will contain 7,770 lf of collector road and 26.88 acres of parkland with trail networks, and no single-family lots. It will also include street, drainage, water, and wastewater improvements.

Zoning –

Zoning –

The Heirloom Tract development is located entirely within the City of Georgetown full purpose jurisdiction and is subject to the RS Base district and C3 Base district requirements of the City of Georgetown with modifications described in the 2025-45-PUD zoning ordinance.

Development Improvements –

Paving Improvements

With Phase 1, primary access to the site will be provided via the Heirloom Pkwy. extension, which will continue on the west side of Williams Drive opposite of the existing section of Parmer Ranch Blvd. built with the Parmer Ranch Development. The Heirloom Pkwy. collector will then continue across the site, intersect CR 248 with a proposed roundabout, and turn south before tying into the existing section of Ronald Reagan Blvd. The subsequent residential phases of the development will branch off of Heirloom Pkwy. for access. The collector will utilize a 96’ ROW with a 4-lane divided 50’ pavement section and 10’ sidewalks on either side. Road section design is described in the Planned Unit Development Zoning Ordinance 2025-45-PUD.

Proposed streets have been designed to urban standards consisting of concrete curb and gutter and will be designed with a flexible pavement section consisting of prepared subgrade, crushed limestone base, and hot mix asphaltic concrete (HMAC) pavement surface. The pavement recommendations can be found in the Heirloom tract Geotechnical Investigation reports prepared by MLA Geotechnical dated November 2025.

The proposed street network meets City of Georgetown horizontal and vertical geometric design criteria. Ten-foot sidewalks with ADA ramps will be constructed along the collector on both sides of the street and will be constructed following standard specifications and details. Signage, valley gutters, excavation, embankment, clear and grub, and testing are also included within these improvements. See Heirloom Tract Phase 1 Construction plans prepared by Gray Civil for additional design information and street cross sections.

Water and Wastewater Utilities

The Site will be served water by the City of Georgetown. An existing 24” line is located on the east side of CR 248, an existing 30” line is located on the south side of Ronald Reagan Blvd, and an existing 12” line is located on the west side of RM 2338. As part of the subdivision improvements, a 12” waterline is proposed to be constructed down Heirloom Pkwy. in a dedicated easement and connected to the existing 30” waterline. The northern portion of the site will be served by a proposed 12” line to be connected to the existing 12” line. Water will be provided to the individual lots by proposed 8-inch and 12-inch water lines located within the public ROW. Utility line sizing is preliminary in nature and will ultimately depend on recommendation from GUS and their water model.

The portion of the Site that generally slopes from northeast to southwest will gravity flow via a proposed 12” trunk line into an existing manhole offsite to the southwest corner of the site and to the existing Nolina lift station. For the remainder of the site, a lift station will be constructed at the northeast corner and wastewater flows will be pumped back to an existing manhole connection to a 12” gravity wastewater line along Ronald Reagan Blvd. via a force main. Phase 1 will include the construction of the 12” main trunk line through the site, with 8” local lines within the Heirloom Pkwy. ROW.

Internal wastewater utilities will be typically located within the proposed right-of-way’s standard assignments as established by the City of Georgetown. Internal water mains will be located outside of the pavement within the right-of-way per GUS standard assignment. The internal lines will be constructed in accordance with the GUS water and wastewater system design criteria and specifications. Improvements include trench excavation and embedment, trench safety, piping, valves, hydrants, manholes, service connections, testing , related earthwork, erosion controls and all necessary appurtenances.

Drainage

Stormwater runoff generated within the development will be conveyed by a system of curb and gutters, inlets, storm drains, channels, and ponds before being released into a tributary of either the North Fork San Gabriel River to the south or Berry Creek to the east, and onto neighboring properties. The drainage study performed for the preliminary plat utilizes the NRCS method to determine peak flow runoff for the 2-, 10-, 25-, and 100-year storms. The site is entirely within the Edwards Aquifer Contributing Zone, and will therefore be required to provide water quality treatment and submit a related Contributing Zone Plan to TCEQ for all construction plan submittals.

Most of the site generally slopes in a southerly direction and is bisected by a small tributary of the North Fork San Gabriel River, conveying offsite flows through the site. This tributary constitutes roughly 22.5 acres of existing calculated non-FEMA floodplain on the site, and will necessitate two main culvert/bridge crossings. The portion of the site that flows to the northeast includes the 1 acre of FEMA zone A floodplain and constitutes a tributary to Berry Creek. Water Quality best management practices will be used to meet both the TCEQ's 80% TSS removal requirements along with the City of Georgetown's 85% removal requirement. Detention will be provided to reduce developed flows to pre-developed conditions for the 2, 10, 25, and 100-yr storm events.

Drainage improvements include trench excavation and embankment, trench safety, piping, manholes, junction boxes, inlets, headwalls, channels, and associated outflow structures, testing, related earthwork, and erosion controls.

Parkland Improvements

The improvements to the parkland include the construction of a 10' wide paved hike and bike trail built to ADA standards along with associated benches and lighting. There will also be a network of bench cut, natural surface trails woven throughout the parkland/floodplain area.

Refer to Exhibits 3 through 6 for maps of the improvements.

Soft Costs

Costs related to designing, constructing, installing, and financing the PID Improvements, including land planning and design, City fees, engineering, soil testing, survey, construction management, legal fees, consultant fees, contingency, inspection fees, district formation costs, landscaping and other PID costs incurred and paid by the developer.

District Formation Costs –

District Formation Costs consist of the costs associated with forming the District, including, but not limited to, attorney fees, engineering costs, and any other cost or expense incurred by the City of the Developer directly associated with the establishment of the District.

Funding Sources –

There are no oversized improvement cost sharing or outside funding sources contributing to any portion of the MIA improvements. An Engineer's Opinion of Probable Cost (OPC) is included in Exhibit 7 with line-item descriptions of each improvement. Additionally, Exhibit 8 contains a schedule of construction for MIA improvements.

361.943 ACRES
WILLIAMSON COUNTY, TEXAS

A DESCRIPTION OF 361.943 ACRES (APPROXIMATELY 15,766,246 SQ. FT.) IN THE CHARLES H. DELANEY SURVEY NO.11, ABSTRACT NO. 181 IN WILLIAMSON COUNTY, TEXAS, BEING ALL OF A 362.01 ACRE TRACT CONVEYED TO GVM III, LLC IN A SPECIAL WARRANTY DEED DATED JANUARY 30, 2019 AND RECORDED IN DOCUMENT NO. 2019009671 OF THE OFFICIAL PUBLIC RECORDS OF WILLIAMSON COUNTY, TEXAS; SAID 361.943 ACRES BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING at a 1/2" rebar found in the north right-of-way line of Ronald Reagan Boulevard (right-of-way width varies) as described in Document No. 2006073735 of the Official Public Records of Williamson County, Texas, being the southernmost southeast corner of the said 362.01 acre tract, being also the southwest corner of Lot 5, Block F, Wade Crossing Phase 1, a subdivision recorded in Cabinet T, Slide 61 of the Plat Records of Williamson County, Texas;

THENCE with the north right-of-way line of Ronald Reagan Boulevard and the south line of the said 362.01 acre tract, the following thirteen (13) courses and distances:

1. South 64°21'56" West, a distance of 61.85 feet to a 1/2" rebar with "RPLS 5784" cap found;

2. With a curve to the left, having a radius of 8650.00 feet, a delta angle of 04°26'04", an arc length of 669.48 feet, and a chord which bears South 62°20'34" West, a distance of 669.31 feet to a 1/2" rebar with "PBSJ" cap found;

3. North 30°06'18" West, a distance of 9.99 feet to a 1/2" rebar with "PBSJ" cap found;

4. With a curve to the left, having a radius of 8670.00 feet, a delta angle of 01°28'05", an arc length of 222.14 feet, and a chord which bears South 59°23'20" West, a distance of 222.14 feet to a 1/2" rebar with "RPLS 5784" cap found;

5. South 58°39'00" West, a distance of 254.37 feet to a 1/2" rebar with "PBSJ" cap found;

6. North 31°40'32" West, a distance of 9.94 feet to a 1/2" rebar with "PBSJ" cap found;

7. South 58°39'01" West, a distance of 1518.07 feet to a 1/2" rebar with "PBSJ" cap found;

8. South 31°34'30" East, a distance of 20.03 feet to a 1/2" rebar with "PBSJ" cap found;

9. South 58°39'20" West, a distance of 1706.47 feet to a 1/2" rebar with "PBSJ" cap found;

10. North 32°01'03" West, a distance of 9.97 feet to a 1/2" rebar with "PBSJ" cap found;

11. South 58°40'41" West, a distance of 382.01 feet to a 1/2" rebar with "PBSJ" cap found;

12. South 31°19'19" East, a distance of 10.14 feet a cotton spindle "Early Boundary" washer set;

13. South 58°40'41" West, a distance of 42.16 feet to a 1/2" rebar with "PBSJ" cap found for the southwest corner of said 362.01 acre tract, being the southeast corner of a 523.521 acre tract described in Document No. 2022010857 of the Official Public Records of Williamson County, Texas;

THENCE with the west line of said 362.01 acre tract and the east line of said 523.521 acre tract, the following six (6) courses and distances:

1. North 20°51'09" West, a distance of 1031.61 feet to a 1/2" rebar found in the west side of a live oak tree;

2. North 27°20'27" West, a distance of 238.87 feet to a 1/2" rebar with illegible cap found;

3. North 20°43'00" West, a distance of 451.23 feet to a 1/2" rebar with illegible cap found;

4. North 20°44'15" West, a distance of 766.10 feet to a 1/2" rebar with illegible cap found;

5. North 64°38'15" East, a distance of 15.94 feet to 1/2" rebar found;

6. North 21°03'54" West, a distance of 2128.29 feet to a 1/2" rebar with "RPLS 5784" cap found for the northwest corner of said 362.01 acre tract;

THENCE North 68°43'41" East, with the north line of the 362.01 acre tract and the south line of the 523.521 acre tract, passing a 1/2" rebar with "Bury" cap found at a distance of 729.11 feet and continuing for a total distance of 3065.64 feet to a 1/2" rebar found in the southwest right-of-way line of County Road 248, being the northeast corner of the said 362.01 acre tract, being the easternmost corner of the said 523.521 acre tract;

THENCE with the west right-of-way line of County Road 248 and the east line of the said 362.01 acre tract, the following five (5) courses and distances:

1. South 64°44'40" East, a distance of 923.60 feet to a 1/2" rebar found;
2. South 40°32'58" East, a distance of 91.06 feet to a 1/2" rebar found;
3. South 15°30'30" East, a distance of 728.47 feet to a 6" x 6" square metal fence post;
4. South 38°36'41" East, a distance of 440.03 feet to a 1/2" rebar found;
5. South 60°43'49" East, a distance of 359.07 feet to a 1/2" rebar in concrete found for a southeast corner of the said 362.01 acre tract, being an angle point in the north line of Lot 36, Block F, of said Wade Crossing Phase 1, from which a 1/2" rebar found for angle point in the south right-of-way line of County Road 248, being the northeast corner of Lot 36, bears North 14°44'57" East, a distance of 21.45 feet;

THENCE with the common line of the said 362.01 acre tract, said Wade Crossing Phase 1 and Wade Crossing Phase II, a subdivision recorded in Cabinet V, Slide 227 of the Plat Records of Williamson County, Texas, the following ten (10) courses and distances:

1. South 68°42'08" West, a distance of 700.14 feet to a 1/2" rebar with "Diamond" cap found for the northwest corner of said Lot 36, Block F, of said Wade Crossing Phase 1;
2. South 21°17'04" East, a distance of 160.18 feet to a 1/2" rebar found for the southwest corner of said Lot 36, being the northwest corner of Lot 32, Block F, of said Wade Crossing Phase II;
3. South 21°02'35" East, a distance of 157.37 feet to a 1/2" rebar with illegible cap found for the northwest corner of Lot 31, Block F, of said Wade Crossing Phase II;
4. South 21°13'20" East, a distance of 231.14 feet to a 1/2" rebar with illegible cap found for the southwest corner of said Lot 31, being the northwest corner of Lot 30, Block F, of said of said Wade Crossing Phase II;

5. South 21°10'18" East, a distance of 244.21 feet to a 1/2" rebar with illegible cap found for the southwest corner of said Lot 30, being the northwest corner of Lot 29, Block F, of said Wade Crossing Phase II;

6. South 21°13'23" East, a distance of 296.63 feet to a 1/2" rebar with illegible cap found for the southwest corner of said Lot 29;

7. South 21°15'05" East, a distance of 130.36 feet to a mag nail in concrete found for the southwest corner of Lot 28, Block F, of said Wade Crossing Phase II, from which a 1/2" rebar found, bears North 13°10'21" East, a distance of 0.72 feet;

8. North 69°15'03" East, a distance of 249.83 feet to a 1/2" rebar with illegible cap found for the southeast corner of said Lot 28, being the southwest corner of Lot 27, Block F, of said Wade Crossing Phase II;

9. North 69°12'00" East, a distance of 1231.49 feet to a 1/2" rebar found for the southeast corner of Lot 9, Block F, of said Wade Crossing Phase II;

10. South 17°40'36" East, a distance of 407.67 feet to the **POINT OF BEGINNING**, containing an area of 361.943 acres, more or less.

Surveyed on the ground on March 30, 2023

112.041 ACRES
WILLIAMSON COUNTY, TEXAS

A DESCRIPTION OF 112.041 ACRES (APPROXIMATELY 4,880,523 SQ. FT.) IN THE C.H. DELANEY SURVEY NO. 11, ABSTRACT NO. 181 IN WILLIAMSON COUNTY, TEXAS, BEING A PORTION OF LOT 5, M.C. HAMILTON'S SUBDIVISION, A SUBDIVISION OF RECORD IN VOLUME 27, PAGE 137 OF THE DEED RECORDS OF WILLIAMSON COUNTY, TEXAS, BEING A PORTION OF A 113.5 ACRE TRACT CONVEYED TO EMZIE FISHER IN A DEED DATED APRIL 11, 1979 AND RECORDED IN VOLUME 756, PAGE 287 OF THE DEED RECORDS OF WILLIAMSON COUNTY, TEXAS, SAVE AND EXCEPT A 10,000 SQ. FT. TRACT DESCRIBED IN A MEMORANDUM OF PCS SITE AGREEMENT DATED APRIL 26, 2001, AND RECORDED IN DOCUMENT NO. 2001040420 OF THE OFFICIAL PUBLIC RECORDS OF WILLIAMSON COUNTY, TEXAS, AND AMENDED IN DOCUMENT NO. 2017027880 OF THE OFFICIAL PUBLIC RECORDS OF WILLIAMSON COUNTY, TEXAS; SAID 112.041 ACRES BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING at a concrete highway monument found for a point of tangency in the west right-of-way line of Ranch Road 2338 (variable width right-of-way) as described in Volume 416, Page 60 of the Deed Records of Williamson County, Texas, and shown on TXDOT right-of-way strip map CSJ 2211-01-001, being in the south line of said 113.5 acre tract, same being the south line of said Lot 5, being also in the north line of a 50 acre tract described in Volume 353, Page 94 of the Deed Records of Williamson County, Texas;

THENCE South 69°10'58" West, with the south line of said 113.5 acre tract, same being the south line of said Lot 5, also being the north line of said 50 acre tract, a distance of 374.52 feet to a 1/2" rebar with "Steger Bizzell" cap found for the northernmost northeast corner of Lot 1, G.I.S.D. West Side, a subdivision of record in Document No. 2018043822 of the Official Public Records of Williamson County, Texas;

THENCE South 69°08'50" West, with the south line of said 113.5 acre tract, same being the south line of said Lot 5, also being the north line of said Lot 1, a distance of 1407.11 feet to a 1/2" rebar found;

THENCE South 69°20'01" West, continuing with the south line of said 113.5 acre tract, same being the south line of said Lot 5, also being the north line of said Lot 1, passing

at a distance of 1659.17 feet a 1/2" rebar with "Steger Bizzell" cap found in the east right-of-way line of County Road 248 (right-of-way width varies), being the northwest corner of said Lot 1, also being the northeast corner of a 1.43 acre right-of-way dedication shown on said G.I.S.D. West Side subdivision, passing at an additional distance of 23.47 feet a 1/2" rebar with "Steger Bizzell" cap found for the northwest corner of said 1.43 acre right-of-way dedication and continuing, in all, a total distance of 1730.44 feet to a calculated point in the center of the existing pavement of County Road 248;

THENCE with the centerline of the existing pavement of County Road 248, as approximated by the following courses and distances:

1. North 65°57'11" West, a distance of 456.27 feet to a calculated point;
2. North 67°52'24" West, a distance of 1147.05 feet to a calculated point;
3. North 60°21'36" West, a distance of 78.43 feet to a calculated point for the northwest corner of said 113.5 acre tract, being in the north line of said Lot 5;

THENCE North 68°39'29" East, with the north line of said 113.5 acre tract, same being the north line of said Lot 5, a distance of 45.32 feet to a bent 1/2" rebar found in the east right-of-way line of County Road 248, being the southeast corner of a right-of-way dedication shown on West Ridge Subdivision Section One, a subdivision of record in Cabinet P, Slide 358 of the Plat Records of Williamson County, Texas, also being the southwest corner of Block B of said West Ridge Subdivision Section One;

THENCE North 68°39'29" East, with the north line of said 113.5 acre tract, same being the north line of said Lot 5, and the south line of said Block B, West Ridge Subdivision Section One, and Block B, West Ridge Subdivision Section Two, a subdivision of record in Cabinet Q, Slide 82, of the Plat Records of Williamson County, Texas, and Block B, West Ridge Subdivision Section Three, a subdivision of record in Cabinet Q, Slide 84, of the Plat Records of Williamson County, Texas, and Block B, West Ridge Subdivision Section Four, a subdivision of record in Cabinet Q, Slide 311, of the Plat Records of Williamson County, Texas, a distance of 4632.80 feet to a calculated point for an angle point in the west right-of-way line of Ranch Road 2338, being the southwest corner of a 20' right-of-way dedication shown on said West Ridge Subdivision Section Four;

THENCE North 68°39'29" East, with the right-of-way line of Ranch Road 2338 and the north line of said 113.5 acre tract, same being the north line of said Lot 5, passing at a distance of 18.99 feet to 1/2" rebar found, and continuing, in all, a total distance of 20.00 feet to a calculated point for an angle point in the west right-of-way line of Ranch Road 2338, from which:

- a concrete highway monument found for a point of tangency in the west right-of way line of Ranch Road 2338, bears North 22°14'26" West, a distance of 1814.24 feet,

- a concrete highway monument found in the east right-of-way line of Ranch Road 2338, bears North 22°14'26" West, a distance of 63.67 feet, and North 67°45'34" East, a distance of 80.00 feet;

THENCE crossing said 113.5 acre tract with the west right-of-way line of Ranch Road 2338, the following courses and distances:

1. South 22°14'26" East, a distance of 962.43 feet to a calculated point for a point of curvature, from which a disturbed concrete highway monument found, bears South 67°45'34" West, a distance of 1.30 feet;

2. With a curve to the right, having a radius of 11419.16 feet, a delta angle of 01°14'47", an arc length of 248.41 feet, and a chord which bears South 21°33'43" East, a distance of 248.40 feet to the **POINT OF BEGINNING**, containing an area of 112.271 acres, for a net acreage of 112.041 acres of land, more or less, *of which approximately 1.375 acres lies between the fence and the center of the existing pavement of County Road 248.*

BEING 98.38 acres of land, situated in the Charles H. Delaney Survey, Abstract No. 181, in Williamson County, Texas, said land being a portion of that certain tract of land, called 132.42 acres, as conveyed to Willrae Partners I, Ltd. by deed recorded as Document No. 2004067447 of the Official Records of Williamson County, Texas. Surveyed on the ground in the month of December, 2005, under the supervision of Brian F. Peterson, Registered Professional Land Surveyor, and being more particularly described as follows;

BEGINNING at an iron pin found on the west line of Farm to Market Highway No. 2338, marking the most easterly Northeast corner of the above-referenced Willrae Partners I, Ltd. tract, being the occupied Southeast corner of that certain tract of land, called 50 acres, as conveyed to Emzie Lee Fisher and wife, Elzora Fisher, by deed as recorded in Volume 353, Page 94, of the Deed Records of Williamson County, Texas, for the most easterly Northeast corner hereof;

THENCE, along the said west line of F.M. Highway No. 2338, being an easterly line of the said Willrae Partners I, Ltd. tract, S 20° 59' 45" E, 140.01 feet to an iron pin set for the most northerly Southeast corner hereof;

THENCE, S 69° 36' 15" W, 565.00 feet to an iron pin set for an interior corner hereof;

THENCE, S 24° 18' 15" W, 260.32 feet to an iron pin set for an interior corner hereof;

THENCE, S 20° 59' 45" E, 815.00 feet to an iron pin set; and S 25° 10' 15" E, 944.38 feet to an iron pin set on the north line of County Road No. 248, being the south line of the said Willrae Partners I, Ltd. tract, for the most southerly Southeast corner hereof;

THENCE, along the north and east line of County Road No. 248, being the south and west line of the said Willrae Partners I, Ltd. tract, as follows; N 86° 19' 30" W, 26.23 feet to an iron pin found; N 82° 15' 30" W, 120.16 feet to an iron pin found; N 69° 37' 30" W, 134.82 feet, to an iron pin found; N 65° 08' W, 230.89 feet to an iron pin found; N 68° 34' W, 207.37 feet to an iron pin found at a 10" Hackberry; N 72° 09' 30" W, 270.16 feet to an iron pin found at an 8" Hackberry; N 82° 40' 45" W, 414.51 feet to an iron pin found; N 87° 18' 30" W, 789.19 feet to an iron pin found at a 4" Live Oak; N 77° 36' W, 53.97 feet to an iron pin found; N 63° 23' 15" W, 279.77 feet to an iron pin found; N 51° 54' 15" W, 77.46 feet to an iron pin found; N 38° 08' 30" W, 259.64 feet to an iron pin found at an 8" Live Oak; N 31° 52' 15" W, 64.78 feet to an iron pin found; N 19° 53' W, 223.39 feet to an iron pin found; N 12° 48' 45" W, 198.09 feet to an iron pin found at an 8" Live Oak; N 15° 03' 15" W, 314.92 feet to an iron pin found; N 33° 51' 15" W, 73.71 feet to an iron pin found; N 44° 52' W, 48.30 feet to an iron pin found; N 57° 54' 30" W, 66.91 feet to an iron pin found; N 64° 39' W, 447.55 feet to an iron pin found and N 65° 09' W, 371.07 feet to an iron pin found for the Northwest corner of the said Willrae Partners I, Ltd. tract, being the Southwest corner of that certain tract of land, called 113.50 acres, as conveyed to Emzie Lee Fisher by deed as recorded in Volume 756, Page 287, of the Deed Records of Williamson County, Texas, for the Northwest corner hereof;

THENCE, along the south line of the said 113.50 acre Fisher tract, N 69° 20' E, 1,682.59 feet to an iron pin found marking the most northerly Northeast corner of the said Willrae Partners I, Ltd. tract, for the most northerly Northeast corner hereof;

THENCE, with a fence, along an easterly line of the said Willrae Partners I, Ltd. tract, being the west line of the said 50 acre Fisher tract, as follows; S 14° 54' 15" E, 295.09 feet to a 40d nail found; S 14° 07' 45" E, 185.57 feet to a 40d nail found at a railroad tie post; S 18° 39' 15" E, 80.97 feet to a 40d nail found; S 20° 00' 45" E, 64.09 feet to a 40d nail found; S 21° 35' 45" E, 106.19 feet to a 40d nail found at a 32" Live Oak; S 20° 29' E, 280.39 feet to a 40d nail found and S 20° 59' 45" E, 141.06 feet to an iron pin found marking an interior corner of the said Willrae Partners I, Ltd. tract, being the Southwest corner of the said 50 acre Fisher tract, for an interior corner hereof;

THENCE, N 69° 36' 15" E, 1,841.06 feet to the Place of BEGINNING and containing 98.38 acres of land.

DESCRIPTION OF 1.63 ACRES OF LAND

DESCRIPTION OF A 1.63 ACRE TRACT OF LAND LOCATED IN THE CHARLES H. DULANEY SURVEY NO. 2, ABSTRACT NO. 181, WILLIAMSON COUNTY, TEXAS, BEING A PORTION OF THAT CERTAIN CALLED 34.124 ACRE TRACT OF LAND CONVEYED TO TROOP DURGIN WRIGHT PROPERTIES, LP, BY WARRANTY DEED OF RECORD IN DOCUMENT NUMBER 2016000533, OF THE OFFICIAL PUBLIC RECORDS OF WILLIAMSON COUNTY, TEXAS (OPR), SAID 1.63 ACRE TRACT OF LAND BEING SURVEYED ON THE GROUND IN JANUARY, 2023, UNDER THE DIRECT SUPERVISION OF PATRICK J. STEVENS, RPLS, AND BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING, at a 1/2-inch iron set with cap stamped "STEGER BIZZELL" set in the east boundary line of said 34.124 acre tract, and in the west right of way of Ranch Road 2338, a right of way of variable width of record in Volume 416, Page 60, of the deed records of Williamson County, Texas (DR), for the southeast corner and **POINT OF BEGINNING** of the herein described tract, from which a 1/2-inch iron rod with cap stamped "PBS&J" found in the west line of said Ranch Road 2338 for an easterly corner of said 34.124 acre tract lies South 20°59'34" East, a distance of 158.26 feet;

THENCE, over and across said 34.124 acre tract, North 66°02'25" West, a distance of 35.33 feet to a 1/2-inch iron set with cap stamped "STEGER BIZZELL", and South 69°58'39" West, a distance of 724.89 feet to a cotton spindle set with washer stamped "STEGER BIZZELL" in the east boundary line of that certain called 98.38 acre tract of land conveyed to Georgetown Independent School District by Warranty Deed of record in Document Number 2006075903, OPR, for the southwest corner of the herein described tract, from which a 1/2-inch iron set with cap stamped "STEGER BIZZELL" in the east line of said 98.38 acre tract for a westerly corner of said 34.124 acre tract lies South 20°59'38" East, a distance of 149.72 feet;

THENCE, North 20°59'38" West, a distance of 94.01 feet to a 1/2-inch iron set with cap stamped "STEGER BIZZELL" in the east line of said 98.38 acre tract and in the west line of said 34.124 acre tract for the northwest corner of the herein described tract;

THENCE, over and across said 34.124 acre tract, North 69°58'39" East, a distance of 724.90 feet to a 1/2-inch iron set with cap stamped "STEGER BIZZELL", and North 24°05'34" East, a distance of 35.30 feet to a 1/2-inch iron set with cap stamped "STEGER BIZZELL" in the east line of said 34.124 acre tract, and in the west line of said Ranch Road 2338, for the northeast corner of the herein described tract;

THENCE, with the east line of said 34.124 acre tract, same being the west line of said Ranch Road 2338, South 20°59'34" East, a distance of 143.90 feet to the **POINT OF BEGINNING,** and containing 1.63 acres of land, more or less, within these metes and bounds.

Bearings are based on the Texas Coordinate System of 1983, Central Zone (NAD_83 (2011)). All distances shown hereon are grid values represented in U.S. Survey Feet.

The foregoing metes and bounds description and survey on which it is based is accompanied by and a part of a sketch of the subject tract.

I certify that this description was prepared from an on the ground survey made in January, 2023, by me or under my supervision.

DESCRIPTION OF

DESCRIPTION OF A 38.53 ACRE TRACT OF LAND LOCATED IN THE C.H. DILANEY SURVEY, ABSTRACT 181, WILLIAMSON COUNTY, TEXAS, BEING OUT OF THAT CERTAIN 50 ACRE TRACT OF LAND CONVEYED TO EMZIE LEE FISHER, ET UX, BY WARRANTY DEED OF RECORD IN VOLUME 354, PAGE 94, OF THE DEED RECORDS OF WILLIAMSON COUNTY, TEXAS, SAID 38.53 ACRE TRACT OF LAND BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

COMMENCING, at a 1/2 inch iron rod found on the west right-of-way line of RM 2338, also known as Williams Drive, an 80.00 foot wide roadway, as dedicated in Volume 416, Page 60, said Deed Records, at its intersection with the south line of said 50 acre tract of land, for the eastern most northeast corner of that certain 98.38 acre tract of land conveyed to the Georgetown Independent School District by Warranty Deed of record in Document No. 2006075903, of the Official Public Records of Williamson County, Texas, from which point a 1/2 inch iron rod with cap stamped "5784" found on said west right-of-way line of RM 2338, for the eastern most southeast corner of said 98.38 ac tract of land, same point being the northeast corner of that certain 34.124 acre tract of land conveyed to Troop Durgin Wright Properties, LP, by Special Warranty Deed of record in Document No. 2016000533, said Official Public Records bears South 21°01'00" East, with said right-of-way, a distance of 139.94 feet;

THENCE, South 69°36'44" West, with said south line of the 50 acre tract, same line being a north line of said 98.38 acre tract, a distance of 374.52 feet to a 1/2 inch iron rod with cap stamped "STEGER BIZZELL" set for the southeast corner and **POINT OF BEGINNING** of the herein described tract;

THENCE, South 69°36'44" West, continuing with the common line of the 50 acre tract and the 98.38 acre tract, a distance of 1466.64 feet, to a 1/2 inch iron rod found for the southwest corner of said 50 acre tract, same point being an interior corner of said 98.38 acre tract of land, and for the southwest corner of the herein described tract;

THENCE, with the west line of said 50 acre tract, same line being an east line of said 98.38 acre tract, the following seven (7) courses and distances:

1. North 20°59'16" West, a distance of 141.06 feet, to a 1/2 inch iron rod with cap stamped "STEGER BIZZELL" set;
2. North 20°29'49" West, a distance of 280.19 feet to a 40d nail in a fence post found;
3. North 21°33'45" West, a distance of 106.02 feet, to a 40d nail in a fence post found;
4. North 20°04'23" West, a distance of 64.17 feet, to a 40d nail in a fence post found;

RECORDERS MEMORANDUM

All or parts of the text on this page was not clearly legible for satisfactory recordation

5. North 18°37'34" West, a distance of 80.98 feet, to a 1/2 inch iron rod with cap stamped "STEGER BIZZELL" set;
6. North 14°06'04" West, a distance of 185.59 feet, to a 40d nail in a fence post found;
7. North 14°53'55" West, a distance of 295.09 feet, to a 1/2 inch iron rod found on the south line of that certain 113.5 acre tract of land conveyed to Emzie Lee Fisher by deed of record in Volume 756, Page 287, said Deed Records, for the northwest corner of said 50 acre tract, same point being the northern most northeast corner of said 98.38 acre tract of land, and for the northwest corner of the herein described tract;

THENCE, North 69°09'19" East, with the north line of said 50 acre tract, same line being said south line of the 113.5 acre tract of land, a distance of 1407.10 feet, to a /2 inch iron rod with cap stamped "STEGER BIZZELL" set for the northeast corner of the herein described tract, from which point a Texas Department of Transportation concrete monument with brass disc (TxDOT Type II) found on said west right-of-way line of RM 2338, bears North 69°09'19" East, a distance of 374.50 feet;

THENCE, South 20°59'55" East, severing said 50 acre tract, a distance of 1161.85 feet, to the **POINT OF BEGINNING**, and containing 38.53 acres of land, more or less, within these metes and bounds.

Bearings are based on the Texas Coordinate System of 1983, Central Zone (NAD_83 (2011)). All distances shown hereon are surface values represented in U.S. Survey Feet based on a Grid-to-Surface Combined Adjustment Factor of 1.00015.

The forgoing metes and bounds description and survey on which it is based is accompanied by and a part of survey map of the subject tract.

I certify that this description was prepared from a survey made on the ground in/on June and July 2017, under my supervision.

10.001 ACRES
WILLIAMSON COUNTY, TEXAS

A DESCRIPTION OF 10.001 ACRES (APPROXIMATELY 435,639 SQ. FT.) IN THE C.H. DELANEY SURVEY NO 11, ABSTRACT NO. 181 IN WILLIAMSON COUNTY, TEXAS, BEING A PORTION OF A 50 ACRE TRACT CONVEYED TO EMZIE AND ELZORA FISHER IN A WARRANTY DEED DATED NOVEMBER 5, 1948 AND RECORDED IN VOLUME 353, PAGE 94 OF THE DEED RECORDS OF WILLIAMSON COUNTY, TEXAS; SAID 10.001 ACRES BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING at a concrete highway monument found for a point of tangency in the west right-of-way line of Ranch Road 2338 (variable width right-of-way) as described in Volume 416, Page 60 of the Deed Records of Williamson County, Texas, and shown on TXDOT right-of-way strip map CSJ 2211-01-001, being in the north line of said 50 acre tract, also being in the south line of a 113.5 acre tract described in Volume 756, Page 287 of the Deed Records of Williamson County, Texas, same being the south line of Lot 5 of M.C. Hamilton's Subdivision, a subdivision of record in Volume 27, Page 137 of the Deed Records of Williamson County, Texas, from which a concrete highway monument found in the east right-of-way line of Ranch Road 2338, bears North 69°31'35" East, a distance of 80.00 feet;

THENCE South 20°59'36" East, with the west right-of-way line of Ranch Road 2338, crossing said 50 acre tract, a distance of 1164.60 feet to a 1/2" rebar with "Early Boundary" cap set for an angle point in the west right-of-way line of Ranch Road 2338, being in the south line of said 50 acre tract, being the northeast corner of a 3,848 sq. ft. right-of-way dedication shown on the G.I.S.D. West Side, a subdivision of record in Document No. 2018043822 of the Official Public Records of Williamson County, Texas, from which a 1/2" rebar with "Steger Bizzell" cap found for the southeast corner of said 3,848 sq. ft. right-of-way dedication, bears South 20°59'36" East, a distance of 139.94 feet;

THENCE South 69°37'24" West, with the right-of-way line of Ranch Road 2338, same being the north line of said 3,848 sq. ft. right-of-way dedication, also being the south line of said 50 acre tract, a distance of 27.50 feet to a 1/2" rebar with "Early Boundary" cap set for the easternmost northeast corner of Lot 1, Block A of said G.I.S.D. West Side, being the northwest corner of said 3,848 sq. ft. right-of-way dedication;

THENCE South 69°37'24" West, with the south line of said 50 acre tract and a north line of said Lot 1, a distance of 347.07 feet to a 1/2" rebar with "Steger Bizzell" cap found for an interior corner of said Lot 1;

THENCE North 20°59'31" West, crossing said 50 acre tract with an east line of said Lot 1, a distance of 1161.72 feet to a 1/2" rebar with "Steger Bizzell" cap found in the north line of said 50 acre tract, being the northernmost northeast corner of said Lot 1, being also in the south line of said 113 5 acre tract, same being the south line of said Lot 5;

THENCE North 69°10'58" East, with the north line of said 50 acre tract, and the south line of said 113.5 acre tract, same being the south line of said Lot 5, a distance of 374.52 feet to the **POINT OF BEGINNING**, containing an area of 10.001 acres, more or less.

Surveyed on the ground on August 28, 2024.

Bearing Basis: The Texas Coordinate System of 1983 (NAD83), Central Zone, utilizing the SmartNet North America Network.

CITY OF GEORGETOWN, TEXAS
NOTICE OF PUBLIC HEARING

TO CONSIDER PROPOSED ASSESSMENTS
TO BE LEVIED AGAINST PROPERTY IN MAJOR IMPROVEMENT AREA OF THE HEIRLOOM PUBLIC IMPROVEMENT DISTRICT

Notice is given that the City Council of the City of Georgetown, Texas will conduct a public hearing on Tuesday, October 13, 2026, during the regular City Council meeting beginning at 6:00 P.M. Information about how to participate in the public hearing is provided below. The purpose of the public hearing is to hear and pass on any objections to the assessments proposed to be levied against assessable property located within the Major Improvement Area ("Major Improvement Area") of the Heirloom Public Improvement District (the "District") pursuant to Chapter 372 of the Texas Local Government Code (the "Act"). Written and oral objections will be considered at the hearing.

1. **General Nature of Improvements** – The public improvements for the District (the "Authorized Improvements") may consist of one or more of the public improvements included in Section 372.003(b) of the Act. The general nature of the Authorized Improvements that confer a special benefit on the assessable property in the District are: (i) the establishment of parks and open space, together with the design, construction and maintenance of any ancillary structures, features or amenities such as trails, pavilions, community facilities, swimming pools, irritation, walkways, lighting, benches, trash receptacles, and any similar items location therein; (ii) landscaping; (iii) acquisition, construction, and improvement of water, wastewater and drainage facilities; (iv) acquisition, construction, and improvement of streets, roadways, rights-of-way, signalization and related facilities; (v) entry monumentation and associated features; (vi) signage; (vii) projects similar to those listed in subsections (i)-(vi) above; and (viii) payment of costs associated with constructing and financing the public improvements listed in subparagraphs (i)-(vii) above, including costs of establishing, administering, and operating the District.

The property within the District is expected to be developed in multiple phases, with certain improvements that will benefit and serve all of the property within the District, and certain improvements that will benefit and serve only the property within each phase (an "Improvement Area"). The Major Improvement Area is anticipated to include the (i) acquisition, construction, and/or improvement of streets, roadways, rights-of-way and related facilities; (ii) acquisition, construction, and/or improvement of water, wastewater and drainage facilities; (iii) the acquisition, construction, and/or improvement of parkland and related facilities and (iv) the payment of costs associated with the public improvements described herein. Assessments are only presently proposed for the Major Improvement Area, and no assessments will be considered at the public hearing for the future Improvement Areas.

2. **Estimated Costs of the Major Improvement Area Projects** – The estimated costs of the proposed Major Improvement Area Authorized Improvements (as defined in the proposed Service

and Assessment Plan on file with the City Secretary) are approximately $21,000,000.00 (including issuance and other financing costs). The exact amount will be provided in the approved Service and Assessment Plan.

3. **Proposed Estimated Assessments** – There are no existing assessments in the District. The proposed estimated assessments on property within the Major Improvement Area of the District is approximately the amount of $20,895,000.00.

4. **Boundaries of the Major Improvement Area Within the District**. The District and the Major Improvement Area includes approximately 622 acres of land within the corporate limits of the City as shown below.

5. **How to Participate in the Public Hearing** – The public hearing will be held during the regular City Council meeting on the date and commencing at the time stated above, at the City Council Chambers, 510 W 9th Street, Georgetown, Texas 78626. The agenda for the City Council meetings and information regarding how to participate in the public hearing is available at https://georgetowntexas.gov/government/city_council/meeting_agendas/agendas.php or by calling the City Secretary's Office at 512-930-3651. The Preliminary Service and Assessment Plan and Assessment Roll are available for public inspection at the Office of the City Secretary, 808 Martin Luther King Jr. Street, Georgetown, Texas 78626, and online by selecting the agenda item for this matter from the link provided above.

SUBJECT:
Drainage Improvements - Stormwater Quick Wins Rejection of Bid

SUGGESTED ACTION:
Consideration and possible action to reject the bid related to the Drainage Improvements – Stormwater Quick Wins project in the amount of $270,123.00 -- Wesley Wright, P.E., Systems Engineering Director, and David Herzog, CIP Manager

ITEM SUMMARY:
The scope of work included in this package associated with quick wins identified in the Stormwater Strategy Plan/Drainage CIP Plan (July 2024) includes improvements in five (5) separate areas with flume and inlet improvements, drainage improvements, sawtooth curb improvements, and bollard installation to help with drainage flumes.

The Drainage Improvements – Stormwater Quick Wins project was advertised for bids on June 17, 2026, and June 24, 2026, and bids were opened on July 10, 2026. A total of one (1) bid was submitted for the Drainage Improvements – Stormwater Quick Wins project.

The apparent low bidder was Dalrymple Gravel & Contracting Co., Inc. of New Braunfels, Texas in the amount of $270,123.00. After receiving the bid for the project, Halff, the design consultant, began analyzing the bid for completeness.

Due to the small size of the project, unit price volatility was expected. However, some of the unit prices for low quantity items were still much higher than anticipated. Unfortunately, when we reached out to several of the bidders that did not end up submitting a bid, it was determined that some had intended to provide a bid but were not able to due to extenuating circumstances or decided not to submit a bid based on the small nature of the project.

To promote a more competitive procurement process, staff recommends re-advertising the project and expanding outreach efforts to qualified contractors. These efforts are intended to increase bidder participation and improve competition.

Staff, as well as our design engineer, recommend rejecting the bid for the Drainage Improvements – Stormwater Quick Wins project.

Re: Stormwater Quick Wins – Small Project Design
Bid No.202648
Letter of Bid Rejection

Dear Mr. Morales:

The Stormwater Quick Wins – Small Project Design project was advertised for public bids on June 17 and June 24, 2026, in the Williamson County Sun. Through the eBid portal, seven (7) plan and specification packages were downloaded by interested parties, including general contractors and plan rooms. On July 10, at 2:30 p.m. bids were received electronically through the City of Georgetown eBid portal for the construction of the Stormwater Quick Wins – Small Project Design project and then opened and publicly read aloud. Out of the seven (7) interested parties that requested plans and specifications, one (1) bid was received. The name of the bidder and total base bid amounts are summarized below.

1. Dalrymple Gravel & Contracting Co., Inc. $270,123.00

After reviewing the bids, several items were found that lead us to recommend rejection of all bids and re-bidding in the future. Due to the small nature of the project, unit price volatility was expected. However, some of the unit prices for low quantity items were still higher than anticipated. Additionally, it was found that multiple bid quantities did not reflect the actual plan quantities due to conversion discrepancies when creating the Bid Form, resulting in several key cost items driving the total price higher than it should have been. Thirdly, Halff reached out to several of the bidders that did not end up submitting a bid and determined that some had intended to provide a bid but were not able to due to extenuating circumstances or decided not to submit a bid based on the small nature of the project. Thus, in accordance with Section 00100, Article 19.01, we recommend that the City of Georgetown reject all Bids.

We propose re-advertising and re-bidding this project with an updated Bid Form to reflect accurate plan quantities. We also intend to engage in additional contractor outreach to attempt to receive multiple competitive bids.

Sincerely,

Andy Dutton
Senior Team Leader, Public Works

SUBJECT:
SRO Agreement with GISD for 2026-2027 School Year

SUGGESTED ACTION:
Consideration and possible action to approve the annual School Resource Officer interlocal agreement between the Georgetown Independent School District (GISD) and the City of Georgetown, Texas -- Cory J. Tchida, Police Chief

ITEM SUMMARY:
The agreement for 2026-2027 is substantially the same as the previous agreement with the only modification related to GISD reimbursing the City for NASRO expenses at the established GSA rates. GISD will continue to pay 100% of the costs of any SRO serving in a school outside the city limits.

Interlocal Agreement Between

The Georgetown Independent School District

And

The City of Georgetown, Texas

For

The School Resource Program

THIS AGREEMENT, made and entered into this ___ day of _____, 2026 by and between THE GEORGETOWN INDEPENDENT SCHOOL DISTRICT, (hereinafter referred to as the "District", "GISD" or "Georgetown ISD"), and THE CITY OF GEORGETOWN, TEXAS, (hereinafter referred to as the "City"), sets forth the specific terms and conditions by which the School Resource Officer Program (hereinafter referred to as the "SRO Program") will be administered for the 2026-2027 school year.

SERVICE

Pursuant to Chapter 791, Texas Government Code, the Texas Interlocal Cooperation Act (the "Cooperation Act") the parties are empowered to contract with each other for the performance of governmental functions, including police protection, and as permitted in § 37.081 of the Texas Education Code.

ASSUMPTIONS

A. The District and the City share a mutual goal of ensuring a learning environment in Georgetown that is free from the fear of crime, violence, and victimization by providing law enforcement and related services to the public schools of Georgetown, Texas; and

B. The District and the City recognize the potential outstanding public safety benefits that the SRO Program will provide to the students, teachers, and staff of the public school system and all the citizens of Georgetown Texas; and

C. The District and the City desire to build and maintain a positive relationship between Police Officers and the youth of our community; and

D. The best interests of the District, the City, and the entire community will be served by establishing these programs; and

E. The District and the City desire to continue the SRO Program.

NOW THEREFORE, in consideration of the mutual promises and covenants herein contained, the District and the City hereby agree as follows:

ARTICLE I

The SRO Program is hereby established in the public school system of Georgetown, Texas for the 2026-2027 school year beginning in August 2026 and ending in May 2027.

ARTICLE II

A. Number and Assignment of SROs

1. The Police Department shall assign one (1) regularly employed SRO to the Georgetown High School campus.

2. The Police Department shall assign one (1) regularly employed SRO to the East View High School campus.

3. The Police Department shall assign one (1) regularly employed SRO to the Tippit Middle School campus.

4. The Police Department shall assign one (1) regularly employed SRO to the Forbes Middle School campus.

5. The Police Department shall assign one (1) regularly employed SRO to the Benold Middle School campus.

6. The Police Department shall assign one (1) regularly employed SRO to the Wagner Middle School.

7. The Police Department shall assign one (1) regularly employed SRO who will serve as the Sergeant over the SRO Unit.

8. The SROs will be stationed at their respective campuses but will serve as needed in other areas and/or other campuses as mutually agreed upon between the Chief of Police and the Superintendent of Schools.

9. In the event of an emergency evacuation of a GISD campus to Celebration Church or any other reunification site that occurs during the school day, either an SRO or another Georgetown Police Department Peace Officer will be stationed at the reunification site if practical and available.

10. All SROs shall be full-time Georgetown Police Department employees that are certified Peace Officers for the State of Texas and meet all requirements as set forth by the Texas Commission on Law Enforcement, the City of Georgetown, and the Georgetown Police Department.

B. Qualifications

To be an SRO, an officer must first meet all of the following qualifications:

1. Shall be a commissioned officer and should have at least two (2) years of law enforcement experience;

2. Shall possess a sufficient knowledge of the applicable Federal and State laws, and City ordinances;

3. Shall be capable of conducting criminal investigations;

4. Shall possess even temperament and set a good example for students;

5. Shall possess communications skills that would enable the officer to function effectively within the school environment; and

C. Supervision

1. The day-to-day operation and administrative control of the officer will be the responsibility of the Georgetown Police Department. Responsibility for the officer's conduct, both personally and professionally, shall remain with the Georgetown Police Department.

   The Georgetown Police Department shall provide supervisory personnel to oversee the SRO Program. The Georgetown Police Department shall assign an SRO Sergeant as the supervisor to oversee the officers listed above. The Sergeant may be stationed at any campus mutually agreed upon by the Chief of Police and the Superintendent of Georgetown ISD.

D. Equipment & Training

The Georgetown Police Department shall provide the following, which are deemed necessary to the success of the SRO Program and to the performance of School Resource Officer's ("SRO's") duties:

1. Equipment:

   a. Georgetown Police Department uniforms.

   b. Standard duty gear.

   c. 800 MHz radio.

   d. Vehicle and all costs associated with the operation and maintenance of the vehicle.

e. All City software applications.

2. Training

a. All training required by TCOLE for officers of the State of Texas.

b. The City shall be responsible for funding all training, and all costs related to said training, in areas deemed necessary by the City.

E. School Marshal Program

1. The City will support any District "school marshal" program outlined in the District's Emergency Operations Plan and Board Policy, by:

a. Collaborating on the appropriate training for District employees designated as school marshals and authorized to carry firearms in crisis intervention, management of hostage situations, and other topics as the Board of Trustees or designee may determine necessary or appropriate.

b. Permitting the District designated school marshals to utilize Police Department facilities for any training, firearms practice, or fitness testing deemed necessary for operation of the District's school marshal program outlined in Board Policy. It is understood this is conditional on the scheduling and availability of Police Department facilities.

c. Providing assistance in identifying all necessary equipment for the conduct of the District's school marshal program outlined in Board Policy.

d. When requested, provide assistance to District designated school marshals in inspecting firearms for basic functionality. This is in no way intended as a substitute for any required firearms maintenance by a qualified gunsmith or armorer.

2. City will maintain the confidentiality of the identity of District employees authorized to possess a firearm under any District safety program to the extent allowed by state law.

ARTICLE III

A. Facilities & Equipment

The District shall provide the following, which are deemed necessary to the success of the Program and the performance of the SRO's duties:

1. Access to an air-conditioned and properly lighted private office that shall contain a telephone that may be used for general business purposes.

2. A desk with drawers, a chair, a worktable, a filing cabinet, and office supplies.

3. A computer with a minimum of 900 MHz Processor capable of accessing the City's network.

4. A location for files and records which can be properly locked and secured.

5. Secretarial assistance on an as-needed basis.

6. Office supplies required in the performance of their duties as an SRO.

B. Training

1. The District shall be responsible for funding all costs with attendance at the National School Resource Officers Training Conference.

2. The District shall be responsible for funding all training and related costs in areas deemed necessary by the District.

C. Personnel

1. Campus personnel that observe a criminal act or matter requiring attention or action by the SRO shall serve as a witness to said act. Witnessing includes, but is not limited to, a verbal account of actions involved, preparing a signed written report detailing all the circumstances of the act, and testifying in any court in which a criminal complaint has been filed in the prosecution of said act.

2. The District shall provide an opportunity for the SRO to address teachers and school administrators regarding criminal justice or safety matters relating to students, teachers, or staff during in-service workdays.

3. The District shall provide and encourage classroom participation by SROs.

4. The District shall communicate to the SRO Program Supervisor any expectations or requested changes to the SRO Program in future years.

ARTICLE IV

The following shall establish regular duty hours, compensation for overtime, reassignments, and leave time for the SRO.

A. Duty Hours of School Resource Officers

1. The SRO shall be assigned to the appropriate campus on a full-time basis. The workweek of the SRO shall consist of no more than 40 hours in accordance with Section 142.0015 of the Texas Local Government Code.

2. The Campus Principal and the SRO Supervisor shall agree upon the assigned SRO's work schedule in accordance with Section A.1. above. Assigned SROs must agree to hours in excess of 40 during a calendar week. Work in excess of 40 hours in a calendar week shall be compensated in accordance with Article IV, Section B. During their daily tour of duty, the SRO may be off campus to perform tasks as required by their assignment. Any time the SRO will be off campus, the SRO will notify the Principal,

or the Principal's designee, prior to their absence.

3. Time spent by the SRO attending mandatory training or court arising out of their employment as a Police Officer shall be considered as hours worked under this Agreement.

4. The regular workday hours of the SRO may be adjusted by the School on a temporary basis for specific situations. These adjustments will require the prior approval of the SRO Supervisor.

5. The City may temporarily reassign the SRO for situations deemed to be a Public Safety emergency.

6. Leave time should routinely be taken at times when the school is not in session. The SRO Supervisor and the Principal of the campus to which they are assigned must approve all requests for leave time during the SRO's normal work periods.

B. Overtime Hours for School Resource Officer

1. If the District requests the officer to work in excess of 40 hours within a workweek, the District will reimburse the City for the additional hours at the officer's overtime rate as billed by the City.

2. If the City requests the officer to work in excess of 40 hours within a workweek, the City will be responsible for paying for the additional hours in accordance with established overtime procedures.

3. Officers who enter into a contractual agreement with the District for school-related duties such as coaching duties, intramural after-school programs, or teaching shall be paid by the District in accordance with the District's established procedures. Such contractual agreements shall receive the prior approval of the SRO Supervisor and must be in accordance with Georgetown Police Department and District policy.

4. SROs shall have first priority to work "Direct Pay" overtime hours authorized by school administration, at their respective campus, for security, sporting events, and other special programs or projects. All overtime worked shall be payed by the District in accordance with District policy.

C. Overtime for Backfill Coverage

1. During SRO absences such as mandatory training, authorized vacation, or short-term illness the affected campus will be without an SRO. Options for coverage under these circumstances will include, but are not limited to the following:

   a. place remaining SROs "on call" for the affected campus;

   b. assign remaining SROs to share time across campuses; or

   c. backfill vacancy via “Direct Pay” assignment of an off-duty officer to be paid by GISD.

2. During SRO absences not identified in Article IV.C.1., the Chief of Police and the Superintendent of Georgetown ISD or their designee will collaborate to reach a mutually beneficial decision to ensure adequate campus coverage based upon the anticipated duration of the SRO absence. Options for coverage under these circumstances will include, but are not limited to the following:

    a. place remaining SROs "on call" for the affected campus;

    b. assign remaining SROs to share time across campuses;

    c. backfill vacancy via “Direct Pay" assignment of an off-duty officer to be paid by GISD;

    d. backfill vacancy via internal assignment of an officer to be paid by the City; or

    e. reassignment of a new SRO to the position.

ARTICLE V

Duties of the officers and SRO Supervisor involved in the program shall include, but not be limited to, the following:

A. Duties of SROs Assigned to the School

The following shall be in addition to, and not in lieu of, and will in no way relieve the City of its obligation to provide, routine patrol services on the same basis as are provided to other School campuses or other properties within the City.

1. Duties and responsibilities of the SRO:

    a. Protect the lives and property of the students, teachers, staff members and visitors of the GISD school campuses as directed.

    b. Enforce Federal, State, and Local criminal laws and ordinances.

    c. Investigate criminal activity and accidents occurring at assigned campuses.

    d. Provide traffic control during the arrival and departure of students on an as- needed basis, based upon a law enforcement determination of need.

    e. Provide assistance to other law enforcement officers with outside investigations concerning GISD students or in matters regarding their school assignment.

    f. The SRO shall not act as a school disciplinarian. However, if the principal believes an incident is a violation of the law, the principal may contact the SRO and the SRO shall then determine whether law enforcement action is appropriate.

    g. Make the principal of the school aware of any law enforcement action taken, as soon as practicable.

    h. At the principal's request, take appropriate law enforcement action against intruders and unwanted guests who may appear at the school and related school

functions, to the extent that the SRO may do so under the authority of law.

i. Advise the principal before requesting additional police assistance on campus, when practicable.

j. Coordinate their activities with the principal and staff members concerned.

k. Seek permission, advice, and guidance prior to enacting any program within the School.

l. Encourage individual and small group discussions with students, to further establish rapport with the students.

m. Make themselves available for conference with students, parents, and faculty members in order to assist them with problems of law enforcement or crime prevention nature.

n. Become familiar with all community agencies offering assistance to youths and their families, such as mental health clinics, drug treatment centers, etc. The SRO shall make referrals to such agencies when necessary thereby acting as a resource person to the students, faculty, and staff of the school.

o. Coordinate all security efforts at their assigned campuses including the coordination of a safety audit of the campus and develop a long-range plan for campus safety. The plan will incorporate input from campus staff, students and parents.

p. Assist the principal in identifying situations or school protocol, on campus or during school-sponsored events, which have a potential for becoming dangerous situations, and develop action plans, through long-term problem solving, in an attempt to prevent or minimize their impact.

q. Maintain detailed and accurate records of the operation of the School Resource Officer Program.

r. School Resource Officers are not to be used for routine administrative duties such as lunchroom duty, hall monitor duty, bus duty, or other monitoring duties. If there is a problem in one of these areas, the SRO may assist the school until the problem is solved.

s. Become familiar with all District policies and procedures, including but not limited to Board Policy, and the operation of any safety and security program outlined in the District's Emergency Operations Plan.

2. Instructional responsibility of the SRO at the secondary schools:

a. All instruction by the SRO shall be as a guest speaker. The Principal or a member of the faculty may request the SRO to provide instruction. The SRO shall not be asked to teach on a full-time basis.

b. Make a variety of specialized, short-term law-related presentations available to the

high school faculty and students.

c. Develop expertise in various subjects that can be presented to the students. Such subjects should include a basic understanding of the laws, the role of the police officer and the police mission, and other topics that relate to student or school safety.

3. Duties and Responsibilities of Supervisor

a. Program development and administration.

b. Approve reports, oversee problem-solving efforts, and provide leadership, training, direction, and evaluations.

c. Establish rapport with the school Principals and GISD staff.

d. Perform scheduled and non-scheduled visits to the school campuses.

e. Liaison with School Principals.

ARTICLE VI

Financing of the SRO Program

The District and the City each agree to pay 50% of the total annual cost associated with the SRO Program for schools located within the incorporated city limits of Georgetown, which will include salary, benefits, and all other related costs not specifically addressed elsewhere in this agreement. The District and the City agree that the District will pay 100% of the total annual cost associated with the SRO Program for schools located outside the incorporated city limits of Georgetown, which will include salary, benefits, and all other related costs not specifically addressed elsewhere in this agreement.

The District agrees to provide 100% of National Association of School Resource Officers (NASRO) training for all SROs governed by this agreement. The District will reimburse the City at GSA rates in effect for the area where the NASRO training occurs plus the registration fee for the training. The City agrees to designate the SROs to receive this training by notice to the District.

The City will prepare an itemized summary of the total program cost for the school year immediately approaching and submit it to the District each year prior to the passage of the District's budget in order to estimate an approximate budgetary amount payable by each entity.

The City will prepare and submit an invoice to the District, payable to the City, during the term of the school year.

ARTICLE VII

Dismissal of SRO; Replacement

A. In the event the Principal of the school to which an SRO is assigned feels that the SRO is not effectively performing their duties, the Principal shall request a meeting with the SRO Supervisor in an attempt to correct the situation.

B. If the working relationship between the Principal and the SRO does not improve, mediation between the two parties may be held to attempt to resolve any problems that still exist.

C. If within a reasonable amount of time after such mediation the problems cannot be resolved, the Principal may recommend to the SRO Supervisor that the SRO be removed from the program at his/her school and shall state the reasons therefore in writing.

D. The Chief of Police and the Superintendent of Georgetown ISD shall jointly determine the status of the SRO and a replacement shall be made if the SRO is removed from the assigned campus.

E. The Chief of Police may dismiss or reassign an SRO based upon Department Rules, Regulations, and/or General Orders or when it is in the best interest of the District or the City.

F. In the event of the resignation, termination, dismissal, or reassignment of an SRO the City shall provide a replacement for the SRO within thirty (30) school days of receiving notice of such.

G. In the event of a long-term absence by an SRO, the City shall provide a temporary replacement for the SRO within thirty (30) school days of receiving notice of such absence until such time as the SRO may reassume their duties.

H. Transfers will not be permitted during the school year, except under special circumstances such as vacancies or promotions or when it is deemed in the best interest of the program and subject to the joint approval of the Chief of Police and the Superintendent of Georgetown ISD. SROs requesting transfer to a new school should submit a request in writing prior to the beginning of the school year.

ARTICLE VIII

Termination of Agreement

This agreement may be terminated by either party upon thirty (30) days written notice that either party has failed to substantially perform in accordance with the terms and conditions of this Agreement, and an attempt to mediate the issue has proven unsuccessful.

Either party, upon ninety (90) days written notice, may terminate this Agreement without cause. Termination of this Agreement may only be accomplished as provided herein. In the event this Agreement is terminated, compensation will be made to the City and the District for all services performed to the date of termination.

ARTICLE IX

Access to Education Records

A. School officials shall allow SROs to inspect and copy any public records maintained by the school including student directory information such as yearbooks, unless a parent or a student over 18 years has previously requested confidentiality. SROs may also reasonably inspect and/or copy confidential student education records in situations involving safety

and security. Access to such records shall be made with notice and approval of the relevant school administrator and in compliance with the Family Educational Rights and Privacy Act (FERPA). The parties agree that SROs will not share confidential student education records with other law enforcement personnel except in compliance with FERPA, other legal requirements, and the terms of this Agreement.

B. If the District determines that there is an articulable and significant threat to the health or safety of a student or other individuals and that an SRO needs personally identifiable information from education records to protect the health or safety of the student or other individuals, school officials may disclose to the SRO and any other appropriate law enforcement personnel that information that is needed to respond to the emergency situation. Such a determination shall be made by the District based on the totality of the circumstances, including the seriousness of the threat to someone's health or safety, the need of the information to meet the emergency situation, and the extent to which time is of the essence.

C. If confidential student records information is needed and requested by other law enforcement personnel who are not designated SROs, and the District has not determined that an emergency situation exists, the information may be released only in compliance with the Family Education Rights and Privacy Act (FERPA) and/or other applicable law upon the issuance of a search warrant or subpoena to produce the records.

ARTICLE X

Notices

Any and all notices or any other communication herein required or permitted shall be in writing, and may be effected by personal delivery, or by registered or certified mail, return receipt requested, at the address of the respective parties indicated below:

Superintendent Devin Padavil, Ed.D.
Georgetown Independent School District
507 E. University Ave.
Georgetown, TX 78626

Chief Cory Tchida
Georgetown Police Department
3500 D B Wood Rd.
Georgetown, Texas 78628

ARTICLE XI

Good Faith

The District, the City, their agents and employees agree to cooperate in good faith in fulfilling the terms of this Agreement. Unforeseen difficulties or questions will be resolved by negotiation. Each party hereto acknowledges and represents that their respective governing body has duly authorized this Agreement.

ARTICLE XII

Entire Agreement

This document constitutes the full understanding of the parties and supersedes all prior understandings and agreements between the parties. No terms, conditions, understandings, or agreement purporting to modify or vary the terms of this document shall be binding unless hereafter made in writing and signed by the parties to be charged.

ARTICLE XIII

Non-Assignment

This Agreement, and each and every covenant herein, shall not be capable of assignment, unless the express written consent of the District and the City is obtained.

ARTICLE XIV

Invalid Provisions

Any clause, sentence, paragraph, or article of this Agreement which is determined by a court of competent jurisdiction to be invalid, illegal, or unenforceable in any respect shall not be deemed to impair, invalidate, or nullify the remainder of this Agreement.

ARTICLE XV

Applicable Laws

This Agreement shall be construed in accordance with the laws and constitutions of the United States and the State of Texas. All obligations hereunder are performable in Williamson County, Texas, and venue for any action arising hereunder shall be in Williamson County, Texas.

ARTICLE XVI

Renewal of Agreement

Unless written notice of a party's intent not to renew this Agreement is given to the other party before the date of termination, this Agreement will automatically be renewed for an additional one (1) year term beginning on August 1 and terminating on May 31 of the ensuing year.

ARTICLE XVII

Merger

This Agreement constitutes a final written expression of all the terms of this Agreement and is a complete and exclusive statement of those terms.

IN WITNESS WHEREOF, the parties have caused this Agreement to be signed by their duly authorized officers.

Signed, this the _____ day of _____, 2026, for the 2026-2027 school year.

SUBJECT:
Homeland Security Memorandum of Understanding

SUGGESTED ACTION:
Consideration and possible action to approve a Memorandum of Understanding between U.S. Immigration and Customs Enforcement, Homeland Security Investigations and the City of Georgetown and authorize the Police Chief to execute -- Cory J. Tchida, Police Chief

ITEM SUMMARY:
This Memorandum of Understanding establishes a limited partnership between the Georgetown Police Department and Homeland Security Investigations (HSI) to allow only designated Georgetown Police K9 officers to assist HSI agents when a trained police canine is needed.

Under this agreement, qualified K9 officers may receive a federal “Customs Officer (Excepted)” designation solely to support HSI operations requiring canine capabilities while remaining within all existing laws and departmental policies.

The MOU does not grant authority to enforce immigration administrative violations and does not expand enforcement powers beyond what is necessary for canine assistance. It simply formalizes training, coordination, and accountability between the agencies to ensure safe, lawful, and effective use of Georgetown PD’s K9 resources when requested by HSI.

Georgetown PD - Title 19 MOU.pdf

MEMORANDUM OF UNDERSTANDING

between

U.S. IMMIGRATION AND CUSTOMS ENFORCEMENT
HOMELAND SECURITY INVESTIGATIONS

and

City of Georgetown

regarding

THE DESIGNATION OF City of Georgetown **EMPLOYEES**

AS CUSTOMS OFFICERS (EXCEPTED)

1. **PARTIES.** The Parties to this Memorandum of Understanding (MOU) are U.S. Immigration and Customs Enforcement (ICE) Homeland Security Investigations (HSI) and City of Georgetown .

2. **AUTHORITY.** Title 19, United States Code (U.S.C.), Section 1401(i); 19 U.S.C. § 1589a. This MOU is also authorized under the provisions of Texas Law, as applicable.

3. **PURPOSE.** The Parties agree that effective enforcement of the laws relating to HSI jurisdiction requires close cooperation and coordination between the two Parties. The Parties have therefore entered into this MOU to govern the use of HSI designations by certain employees of City of Georgetown.

Pursuant to section 401(i), Tariff Act of 1930, as amended (19 U.S.C. § 1401(i)), the Secretary of Homeland Security is authorized to designate persons as Customs Officers (Excepted) to perform the duties of a Customs Officer. Within ICE, this authority has been delegated to the HSI Special Agents in Charge. Pursuant to 19 U.S.C. § 1589a, customs officers are authorized to enforce the full range of federal offenses. However, in designating Customs Officers (Excepted), *HSI is not conveying the authority to enforce administrative violations of immigration law.*

There may be instances when HSI determines that it is desirable for certain sworn law enforcement employees of City of Georgetown to perform certain HSI duties. This MOU sets forth the agreement and relationship between the Parties with respect to this determination.

4. **RESPONSIBILITIES.**

The Parties agree as follows:

<u>HSI agrees to:</u>

a. Designate certain employees of City of Georgetown as Customs Officers (Excepted), without additional compensation, to perform the duties as noted on the "Designation, Customs Officer (Excepted) – Title 19 Task Force Officer" (ICE Form 73-001). This form is attached and is hereby made part of this MOU;

b. Issue a "Designation, Customs Officer (Excepted) – Title 19 Task Force Officer" (ICE Form 73-001) to each qualified and designated employee;

c. Provide appropriate training in laws, policies, and procedures to each designated employee;

d. Advise the designated Customs Officers (Excepted) about court proceedings concerning seizures or arrests made by them in accordance with the authorities granted by HSI contemplated under this MOU; and

e. Process, under appropriate regulations, any injury claim submitted as a result of injuries occurring to the designated Customs Officers (Excepted) while such individuals are acting pursuant to this MOU, for compensation under the Federal Employee Workers Compensation Act (5 U.S.C. § 8101, *et seq*.).

City of Georgetown agrees:

a. That only sworn law enforcement officers of City of Georgetown who successfully complete the appropriate HSI Task Force Officer cross-designation Training Course and receive an approved "Designation, Customs Officer (Excepted) – Title 19 Task Force Officer" (ICE Form 73-001) will be designated as Customs Officers (Excepted);

b. That each law enforcement officer will be bound by the Authorities Granted and the Endorsements and Restrictions as noted on the "Designation, Customs Officer (Excepted) – Title 19 Task Force Officer" (ICE Form 73-001);

c. To advise HSI of each court proceeding in which the validity of a Customs Officer (Excepted)'s enforcement authority becomes an issue, and allow HSI to provide legal memoranda or other assistance as deemed necessary by HSI;

d. That agency employees designated as Customs Officers (Excepted) will follow HSI directives and instructions when utilizing enforcement authority conveyed by HSI;

e. To provide to HSI, before designation of each officer and on an ongoing basis, any derogatory information, or information that may call into question the officer's truthfulness or ability to testify in court; and

f. To return all HSI-issued equipment and identification when a cross-designated officer terminates employment or when his or her cross-designation expires.

Both Parties agree:

a. That any abuse of HSI cross-designation authority may lead to the revocation of such cross-designations by HSI; and

b. To schedule periodic meetings to review this MOU, as required.

5. REPORTING AND DOCUMENTATION. HSI SAC offices will maintain the original signed "Designation, Customs Officer (Excepted) – Title 19 Task Force Officer" (ICE Form 73-001). Copies of this form will be held by the Contraband Smuggling Unit at HSI Headquarters, the designated Customs Officer (Excepted), and City of Georgetown.

If applicable, the HSI office will maintain documentation of designated Customs Officers (Excepted) approved to use HSI vehicles and certification that the designated Customs Officers (Excepted) have completed the ICE Fleet Card Training in Virtual University and any other fleet related training.

6. POINTS OF CONTACT.

HSI Office: HSI Austin	Georgetown Police Department:

E-mail Address: barrett.r.mcdaniel@hsi.dhs.gov	E-mail Address: Cory.Tchida@georgetowntexas.gov

7. OTHER PROVISIONS. This MOU is an internal agreement between the Parties and does not confer any rights, privileges, or benefits to any other party or the public.

Nothing in this MOU is intended to conflict with current laws, regulations, or policies of either Party. If a term of this MOU is inconsistent with such authority, that term shall be invalid but the remaining terms and conditions of this MOU shall remain in full force and effect.

Nothing in this MOU is intended or shall be construed to require the obligation, appropriation, or expenditure of any money from the U.S. Treasury in violation of the Anti-Deficiency Act, 31 U.S.C. §§ 1341-1519.

The forms and authorities referenced herein may be renamed or replaced by HSI without prejudice to this MOU.

8. EFFECTIVE DATE. The terms of this MOU will become effective on the date the last Party signs the MOU. The Designation Form of each Customs Officer (Excepted) is effective per the date on that document.

9. MODIFICATION. This MOU may be amended by the written concurrence of both Parties.

10. TERMINATION. This MOU may be terminated by either Party upon a 30-day written notification to the other Party.

SUBJECT:
Regional Vehicle-Related Crime Task Force Interlocal Agreement

SUGGESTED ACTION:
Consideration and possible action to approve an Interlocal Agreement between Georgetown, Round Rock, Hutto, Cedar Park, Leander, Pflugerville, and Williamson County to create a regional vehicle-related crimes task force -- Cory J. Tchida, Police Chief

ITEM SUMMARY:
This agreement establishes a collaborative taskforce between the Cities of Georgetown, Round Rock, Hutto, Cedar Park, Leander, Pflugerville, and Williamson County to address vehicle-related crimes in Central Texas.

Purpose:

- Form a multi-agency team to investigate and reduce vehicle burglaries, auto thefts, and catalytic converter thefts.
- Enhance public safety and efficiency through shared resources, intelligence, and coordinated enforcement.

Key Features:

- Participating law enforcement agencies work together, sharing personnel, equipment, and information.
- The taskforce operates under a Board of Directors made up of police chiefs and the county sheriff.
- Officers retain their agency affiliation but are empowered to operate across jurisdictions.
- The agreement outlines operational standards, supervision, and protocols for collaboration and accountability.
- Funding and equipment responsibilities are shared, with provisions for grants and annual renewal.

Public Impact:

- This partnership aims to provide more effective investigations, deter vehicle crimes, and promote community safety through regional cooperation.

FINANCIAL IMPACT:

RESOLUTION NO. R-2026-022

WHEREAS, Chapter 791 of the Texas Government Code, V.T.C.A., authorizes local governments and agencies of the state to enter into agreements with one another to perform governmental functions and services, and

WHEREAS, the City of Round Rock ("City") wishes to enter into an Interlocal Cooperation Agreement with the Cities of Hutto, Cedar Park, Georgetown, Leander, Pflugerville and Williamson County regarding the creation of a Regional Vehicle Burglary Suppression Taskforce, Now Therefore

BE IT RESOLVED BY THE COUNCIL OF THE CITY OF ROUND ROCK, TEXAS,

That the Mayor is hereby authorized and directed to execute on behalf of the City an Interlocal Cooperation Agreement with the Cities of Hutto, Cedar Park, Georgetown, Leander, Pflugerville and Williamson County, a copy of same being attached hereto as Exhibit "A" and incorporated herein for all purposes.

The City Council hereby finds and declares that written notice of the date, hour, place and subject of the meeting at which this Resolution was adopted was posted and that such meeting was open to the public as required by law at all times during which this Resolution and the subject matter hereof were discussed, considered and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended.

RESOLVED this 22nd day of January, 2026.

CRAIG MORGAN, Mayor
City of Round Rock, Texas

ATTEST:

ANN FRANKLIN, City Clerk

INTERLOCAL COOPERATION AGREEMENT

This INTERLOCAL COOPERATION AGREEMENT ("Agreement") is executed as of this ____ day of _____, 2025, by and between the City of Round Rock ("Round Rock"), the City of Hutto ("Hutto"), the City of Cedar Park ("Cedar Park"), City of Georgetown ("Georgetown"), City of Leander ("Leander"), City of Pflugerville ("Pflugerville") (collectively the "Cities"), and Williamson County (the "County") each of which being a home-rule municipal corporation and/or a political subdivision of Texas (collectively the "parties"), acting by and through their duly authorized representatives.

WHEREAS, the City Councils of the Cities ("Councils") and the County Commissioners Court ("Commissioners Court") each desire to provide highly proficient and professional investigations of auto related crime for their respective communities and the Central Texas region; and

WHEREAS, the Councils and Commissioners Court have each determined that contracting for and with respect to the government services hereinafter described to be performed as a joint effort by each of the Cities and the County will result in increased efficiency and economy, making the most efficient use of their authority and scarce resources by enabling them to cooperate with each other on the basis of mutual advantage and thereby provide a vital service that will best meet and promote the public safety, and welfare of the citizens of the Cities and the County; and

WHEREAS, the Councils and Commissioners Court are each authorized to enter this Agreement pursuant to the general laws and codes of the State of Texas, including but not limited to the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, as amended; and

WHEREAS, the services made the subject of this Agreement are a governmental function and the Councils and Commissioners Court each desire to contract with one another in order to expressly define the Cities' and County's respective roles and responsibilities; and

WHEREAS, each Council and Commissioners Court finds that this Agreement will result in improved services being provided more economically and efficiently and

increased public safety, and welfare for the residents of the Cities and the County;

NOW, THEREFORE, for and in consideration of the covenants, conditions, and undertakings hereinafter described, and the benefits to accrue to the Cities and the County under this Agreement, the Cities and the County hereby contract, covenant, and agree to provide governmental services and functions as follows:

1. Formation of Regional Vehicle Burglary Suppression Taskforce.

The Cities and the County hereby form the Regional Vehicle Burglary Suppression Taskforce ("Taskforce"), a cooperative effort of the jurisdictions and law enforcement agencies identified herein, for the purpose of creating and sustaining an investigative team of trained, highly skilled law enforcement personnel, in order to provide a highly proficient and professional investigative resource for their respective communities and the Central Texas region.

2. Mission Statement.

The Taskforce is committed to protecting the communities of Travis and Williamson Counties by aggressively investigating and reducing vehicle-related crimes, including auto theft, vehicle burglaries, and catalytic converter theft. Through a collaborative, multi-agency approach, the Taskforce strives to hold offenders accountable, recover stolen property, and enhance public safety.

The Taskforce will work proactively by conducting thorough investigations, targeting criminal networks, and engaging in proactive enforcement efforts. Additionally, the Taskforce is dedicated to educating the public and partnering with vehicle-related businesses to implement crime prevention strategies and compliance inspections.

3. Participating Law Enforcement Agencies.

The following law enforcement agencies are identified as Taskforce participants: Round Rock Police Department, Cedar Park Police Department, Georgetown Police Department, Hutto Police Department, Leander Police Department, Pflugerville Police Department, and Williamson County Sheriff's Office ("Participating Law Enforcement Agencies" or "Agencies"). Law enforcement agency participants may be added or removed by written amendment of or addendum to this Agreement.

A representative from a Participating Law Enforcement Agency that is participating in Taskforce activities remains an employee of his/her respective agency and must comply with his/her respective agency's policies and procedures. Nothing in this Agreement should be construed to imply anything different.

4. Effective Date; Term and Termination of Agreement.

a. This Agreement shall be effective from the date of execution for a term of one (1) year (the "Initial Term").

b. From and after the Initial Term, this Agreement shall be automatically and annually renewed, effective as of the anniversary of the effective date.

c. Notwithstanding any other provision hereof, any party may withdraw from the Taskforce and terminate its rights and obligations under this Agreement by giving ninety (90) days written notice of termination to all other parties. This entire Agreement may be terminated and the Taskforce dissolved at any time by writing signed by all parties.

5. Commitments of the Participating Agencies.

Each Participating Law Enforcement Agency commits to further the mission of the Taskforce, at no cost to the Agency, by acting with general spirit of cooperation and collaboration with other participating agencies on matters related to the Taskforce, and specifically by:

a. Identifying and pursuing opportunities to collaborate with other participating agencies on the gathering, analyzing, and reporting of intelligence related to the criminal organizations operating in or affecting the region.

b. Identifying and pursuing opportunities to coordinate with other participating agencies on the prioritization, planning, execution, and review of investigations and operational activities related to the mission of the Taskforce, with the goal of maximizing the disruption of activities that pose a danger to the public, ensuring the successful prosecution of criminals.

6. Operations.

a. Definitions:

i. Auto-related Crime – crimes associated with a vehicle, such as theft of a vehicle, burglary of a vehicle, theft of parts, specifically catalytic converter from a vehicle or other crimes deemed to be auto-related and workable by taskforce officers.

ii. Investigative Supervisor – an individual of the rank of sergeant or above who is responsible for the daily supervision of the investigators assigned to the taskforce, which includes officers conducting investigations assigned through the taskforce.

iii. Taskforce Commander – an individual of the rank of Lieutenant or above appointed by the Board of Directors responsible for the oversight and supervision of the investigative team.

iv. Lead Agency – The agency responsible for the oversight and supervision of the taskforce operations and investigations. This designation is agreed upon by the Board of Directors.

b. All Taskforce operations shall be governed by a Board of Directors to be comprised of the Chiefs of Police or their designee from the Cities and the Sheriff or its designee from the County.

c. The Board of Directors shall designate a "Taskforce Commander" to be responsible for oversight and supervision of the investigative team. The "Taskforce Commander" shall be the rank of Lieutenant or above.

d. The Taskforce Commander will answer to and provide quarterly updates to the Board of Directors on the following:

i. Team Operations such as salvage business inspections, covert operations, arrests, assistance to other agencies and public awareness education
ii. Training Activities
iii. Investigation Overview
iv. Equipment Deployment
v. Budget Updates

e. The Chief of Police from each Participating Law Enforcement Agency shall designate a representative or representatives who shall be authorized to participate in investigative operations, including but not limited to:

i. Field operations such as inspections, or educational activities
ii. Criminal investigation and apprehension
iii. Interview and interrogation
iv. Surveillance
v. Information analysis

j. Any peace officer assigned to the Taskforce by a government entity which is a party to this Agreement shall be empowered to enforce all laws and ordinances applicable in the jurisdiction of the county and municipal entities signatory to this Agreement, including the power to make arrests, execute search warrants, and investigate auto related offenses outside of the geographical jurisdiction from which he or she is assigned, but within the area covered by the jurisdictions of the counties and municipal entities which are parties to this Agreement.

k. While functioning as a peace officer assigned to the Taskforce, he or she shall have all the law enforcement powers of a regular peace officer of such other political entity.

l. In the event that any peace officer assigned to the Task Force is cited as a party defendant to any civil lawsuit, state or federal, arising out of his or her official acts while functioning as a peace officer assigned to the Task Force, said peace officer shall be entitled to the same benefits that such officer would be entitled to receive had such civil action risen out of an official act within the scope of his or her duties as a member and in the jurisdiction of the law enforcement agency from which he or she was assigned. Further, no entity shall be responsible for the acts of a peace officer of another entity assigned to the Task Force. Each entity participating herein indemnifies and holds all other participating entities harmless for all acts of its own officers and employees acting here under, to the full extent permitted by law.

7. Personnel; Direction and Performance Standards.

a. The Board of Directors shall ensure the Taskforce operates under only the most current best practices and widely accepted protocols in the investigative field, including deliberate and regular review of current trends, case law, operational debriefs and investigative publications.

b. The Board of Directors or their designee shall establish policies and procedures governing the process for selecting and retaining team personnel. This shall include:

i. Minimum proficiencies for each assignment
ii. Attendance to training and operations
iii. Personal and professional behavior

iv. Performance during operations and investigations
v. Protocols for removing substandard personnel

c. Officers or employees assigned to work with the Taskforce shall report to the investigative supervisor for any operation or investigation.

d. When officers conduct general investigative duties, they shall communicate intelligence and investigative information to other team members regularly to keep others informed and to deconflict investigative information or targets.

e. Each Participating Law Enforcement Agency shall provide the necessary equipment (vehicle, firearm, protective equipment, computer, etc.) to their officer or employee to conduct any investigative or operational work.

f. If an outside agency has criminal activity that it is requesting the Taskforce to investigate or needs assistance from the Taskforce, it should notify the Taskforce Commander for case adoption, approval or guidance. If the requesting agency is a Participating Law Enforcement Agency, the criminal activity can be reported through the Participating Law Enforcement Agency's assigned officer to be adopted by the Taskforce.

8. Finances.

a. Equipment purchased by the Taskforce Lead Agency is the responsibility of that agency and should be deployed or utilized to meet the mission and objective of the taskforce. The utilization is at the discretion of the Taskforce Commander or the Board of Directors.

b. Each Participating Law Enforcement Agency agrees to furnish the necessary equipment, resources and facilities and to render services pursuant to this Agreement; provided however, no Agency shall be required to unreasonably deplete its own equipment, resources, facilities, and services in furnishing such assistance.

c. Each Participating Law Enforcement Agency shall absorb the costs of training for its own personnel, unless otherwise stated for specific training.

d. Upon withdrawal from this Agreement, a withdrawing Participating Law Enforcement Agency shall keep and maintain any equipment purchased

by that Agency for the Taskforce. Upon termination of this Agreement, equipment purchased for the Taskforce will be kept and maintained by the Agency that originally purchased that equipment.

e. The parties acknowledge that funding under this Agreement will be made from current revenues available to each party, respectively, and funds for the participation in this Agreement, if any, have been provided through the parties' respective budgets approved by their governing bodies for the current fiscal year only. However, the cost of services covered by this Agreement is a recurring obligation and shall be considered a standard and routine expense of the Participating Law Enforcement Agencies for inclusion in each party's proposed budget throughout the term of this Agreement.

f. Participating Law Enforcement Agencies may pursue grant funds at their discretion to fund positions or equipment in support of this Agreement. Application, management, documentation and distribution of those funds will be the responsibility of the receiving Participating Law Enforcement Agency. The award of funds from any grant will be the utilized in accordance with policies, procedures, or statutes associated with the grant and shall not interfere with the operation or function of the Taskforce. Nothing prevents the Taskforce from pursuing grants to further the mission of the Taskforce.

9. Grants of Authority.

For law enforcement purposes associated with this Agreement, peace officers of the Participating Law Enforcement Agencies designated to be members of the Taskforce are granted full peace officer authority throughout the jurisdictions of the Participating Law Enforcement Agencies and have the same powers, duties, rights, privileges and immunities as if the officers were performing duties inside their own jurisdiction; however, nothing herein this Agreement shall be deemed to extend or limit the jurisdiction of any party except as necessary to implement, perform, and obtain the services and duties provided for in this Agreement. Except as necessary to implement, perform, and obtain the services and duties provided for in this Agreement, all governmental and proprietary functions and services traditionally and legally provided by each party hereto this Agreement shall be and remain the sole responsibility of each party, respectively.

10. Contract Supervision and Controls; Notices.

The parties shall each monitor, review, and provide oversight and supervision of the services as they are provided and each hereby agrees to notify the other as soon as reasonably possible in the event the level or quality of any scheduling, operating, service, or performance issue becomes unsatisfactory. Notices provided by any party to this Agreement to the other parties shall be in writing and directed via U.S. Mail or hand delivery, and facsimile or email, to all other parties at the following addresses:

City of Round Rock
Attn: Chief of Police
2701 N. Mays Round Rock, Texas 78665
Email: abanks@roundrocktexas.gov

11. Governmental Services; Independent Contractor.

Notwithstanding any provision to the contrary herein, this Agreement is a contract for and with respect to the performance of governmental functions by governmental entities, the services provided for herein are governmental functions, and the Cities and the County shall be engaged in the conduct of a governmental function while providing and/or performing any service pursuant to this Agreement. The relationship of the Cities and the County shall, with respect to that part of any service or function undertaken pursuant to this Agreement, be that of independent contractors.

12. Interlocal Cooperation.

The Cities and the County agree to cooperate with each other, in good faith and at all times during the term hereof, in order to effectuate the purposes and intent of this Agreement. Each party acknowledges and represents that this Agreement has been duly authorized by its respective governing body.

13. Other Services.

Nothing in this Agreement shall be deemed to create, by implication or otherwise, any duty, responsibility, or right as to any party, except with respect to the receipt and provision of services specifically set forth in this Agreement.

14. No Indemnification.

It is specifically agreed that, as between the parties, each party to this Agreement shall be individually and respectively responsible for responding to, dealing with, insuring against, defending and otherwise handling and managing liability and potential liability pursuant to this Agreement; and that no party shall be held legally liable for any claim or cause of action arising pursuant to, or out of the services provided under, this Agreement except as specifically provided by law.

15. Preservation of Immunity.

Nothing herein this Agreement shall be deemed to waive, modify, or alter any legal or equitable defense available to any part, nor to create any legal or equitable right or claim on behalf of any third party.

16. Entire Agreement.

This Agreement (including any and all exhibits attached hereto) constitutes the entire agreement between the parties hereto with respect to the subject matter hereof. This Agreement may not be amended or modified except in writing executed by all parties pursuant to authorization of their respective Councils or Court.

17. Applicable Laws.

This Agreement must be construed in accordance with the laws and constitution of the State of Texas. All obligations under this Agreement are performable in Williamson or Travis County, Texas, and venue for any action arising under this Agreement will be in Williamson or Travis County, Texas, wherever the action may have occurred. As this Agreement has been entered into pursuant to the authority granted under the Interlocal Cooperation Act, all its terms and provisions shall be construed and interpreted consistently with the Act.

18. Severability.

If any portion of this Agreement is determined by a court of competent jurisdiction to be invalid or unenforceable for any reason, the remaining provisions shall remain in full force and effect.

19. Waiver by Party.

Any failure by a non-defaulting party to provide notice of default to a defaulting party under this Agreement shall not be deemed an act of default, nor shall such failure constitute a waiver of that or any future act of default. Unless otherwise provided in writing by the waiving party, a waiver by any of the parties to this Agreement of any covenant, term, condition, agreement, right, or duty that arises under this Agreement shall be considered a onetime waiver and shall not be construed to be a waiver of any succeeding default thereof or any other covenant, term, condition, agreement, right, or duty that arises under this Agreement.

20. Execution in Counterparts.

This Agreement may be simultaneously executed in multiple counterparts, each of which shall be an original and all of which shall be considered fully executed when all parties have executed an identical counterpart, notwithstanding that all signatures may not appear on the same counterpart.

IN WITNESS WHEREOF, the parties hereby execute this Agreement by their respective officers thereunto duly authorized as of the date first written above.

SIGNED AND EXECUTED this ____ day of _____, 2025.

Renewal No. 1
to the Agreement between
Clean Energy Capital Securities LLC
and the
City of Georgetown, Texas

This First Renewal Agreement ("First Renewal") is entered into by and between the **CITY OF GEORGETOWN**, a Texas Home-Rule Municipal Corporation ("City"), and **CLEAN ENERGY CAPITAL SECURITIES LLC** ("Company"), referred to collectively as the "Parties".

WHEREAS, on February 11, 2025, the Parties entered into an agreement for financial strategy and advisory services regarding water acquisition projects, Contract No. 25-0129-CC ("Original Agreement"); and

WHEREAS, the Original Agreement provided an Initial Term to begin on the date signed by the City through September 30, 2026, for an amount not to exceed $200,000.00; and

WHEREAS, the Original Agreement provided the option to renew for three (3) additional one (1) year renewal terms for a total of four (4) years in an amount not to exceed $120,000.00 per renewal term; and

WHEREAS, on August 26, 2025, the Parties amended the Original Agreement to increase the not-to-exceed amount of the Initial Term from $200,000.00 to $400,000.00; and

WHEREAS, the Parties desire to renew the Original Agreement, as amended, for a First Renewal Term to begin on October 1, 2026, and end on September 30, 2027, in accordance with the terms of the Original Agreement.

NOW, THEREFORE, in consideration of the mutual covenants contained herein, the Parties agree as follows:

1. The Parties agree to renew the Original Agreement for a First Renewal Term which will begin immediately upon the expiration of the Initial Term and will end on September 30, 2027, this being the First Renewal Term.
2. The total compensation for the First Renewal Term shall not exceed $120,000.00.
3. All other terms of the Original Agreement, as amended, not inconsistent with this First Renewal shall apply. Except as expressly modified by this First Renewal, the Original Agreement, as amended, remains unchanged and in full force and effect, subject to its terms.
4. This First Renewal is effective on the date executed by the City.

SUBJECT:
Construction Contract with Keeley Construction Inc. for Park Water Treatment Plant PFAS Pilot Study

SUGGESTED ACTION:
Forwarded from the Georgetown Water Utility Advisory Board (GWUAB):
Consideration and possible action to award a construction contract to Keeley Construction Inc., from New Braunfels, TX, for the Park Water Treatment Plant (WTP) PFAS Pilot Study in the amount of $229,500.00 -- Wesley Wright, PE, Systems Engineering Director and David Herzog, CIP Manager

ITEM SUMMARY:
On April 10, 2024, the EPA implemented new regulations aimed at reducing PFAS levels in drinking water to safeguard public health and the environment. Public water systems have until 2029 to implement solutions if PFAS levels exceed regulatory limits. Initial monitoring must be completed by 2027.

This project includes the procurement of two media skids, 500-gallon polyethylene equalization tank, sodium bisulfite system, and all associated piping needed. During this study, there will be multiple samples taken and submitted, and once all samples are completed, this equipment will be removed.

This project was publicly advertised on June 10, 2026, and June 17, 2026. On July 9, 2026, at 2 p.m., we received three (3) competitive bids. The low qualified bidder for this project was Keeley Construction from New Braunfels, TX, in the amount of $229,500.00. Keeley Construction has completed projects in similar scope and size.

With this contract, substantial completion is within 60 calendar days from notice to proceed, and final completion is 30 days after written notice of completion of pilot activities.

STAFF RECOMMENDATION:
Staff and Freese & Nichols recommend awarding a construction contract for the Park WTP PFAS Pilot Study to Keeley Construction of New Braunfels, TX in the amount of $229,500.00.

BOARD RECOMMENDATION:
This item was unanimously approved at the August 14, 2026, Georgetown Water Utility Advisory Board meeting for recommendation for Council approval.

FINANCIAL IMPACT:
Funds for this expenditure are budgeted and available in the FY26 budget, PRJ000770.

Re: SGPWTP PFAS Pilot Study
FNI Project No. GEO25298
City of Georgetown Bid Number 202628
Recommendation of Award of Contract

Mr. Walker,

On July 9, 2026, a total of three (3) bids were received by the City of Georgetown (City) for the above referenced project. Bids were reviewed and checked for mathematical accuracy. The bidders and bid amounts are as follows:

No.	Bidder	Base Bid Amount
1	Prime Spec Construction	$283,942.00
2	Archer Western	$255,000.00
3	Keeley Construction	$229,500.00

Based on their Statement of Qualifications and the references checked, Keeley Construction appears to be qualified and capable of performing the work for this project. Based on this information, Freese and Nichols, Inc. recommends that the City of Georgetown award the Contract for the referenced project to **Keeley Construction** for the amount of **$229,500.00**.

We appreciate the opportunity to be of service to this City in this phase of the project. If you have any questions or concerns, please let us know.

Sincerely,

Ashley Boullioun, P.E.
Project Manager
Freese and Nichols, Inc.

SUBJECT:
Construction Contract with O & J Coatings, Inc. for Carriage Oaks EST Rehabilitation

SUGGESTED ACTION:
Forwarded from the Georgetown Water Utility Advisory Board (GWUAB):
Consideration and possible action to award a construction contract to O & J Coatings, Inc., from Hurst, TX, for the Carriage Oaks EST Rehabilitation in the amount of $995,270.00 -- Wesley Wright, PE, Systems Engineering Director, and David Herzog, CIP Manager

ITEM SUMMARY:
On June 20, 2025, Dunham Engineering completed a field inspection of the Carriage Oaks EST. While the elevated storage tank was determined to be in overall good structural condition, the inspection identified several repairs and maintenance items that required attention.

This project includes the complete replacement of the tank's interior and exterior protective coating systems, cleaning and recoating of the overflow piping, installation of a new 18-inch butterfly valve, installation of new roof hatches, and completion of various additional miscellaneous improvements identified during the inspection.

To ensure uninterrupted water service throughout construction, a temporary pressure system will be installed and will remain in operation while the elevated storage tank is taken offline. This temporary system will allow continuous service to customers for the duration of the project.

This project was publicly advertised on June 24, 2026, and July 1, 2026. Bid opening was on Thursday, July 23, 2026, at 2:00pm. We received four responses. The low qualified bidder for the project is O & J Coatings, Inc. from Hurst, TX, with a total bid of $995,270.00. O & J Coatings Inc. has completed projects in similar scope and size.

With this contract, substantial completion is within 120 calendar days from notice to proceed and final completion is 150 days after notice to proceed.

STAFF RECOMMENDATION:
Staff and Ardurra Group recommend awarding a construction contract for the Carriage Oaks EST Rehabilitation to O & J Coatings, Inc. of Hurst, TX in the amount of $995,270.00.

BOARD RECOMMENDATION:
This item was unanimously approved at the August 14, 2026, Georgetown Water Utility Advisory Board meeting for recommendation for Council approval.

FINANCIAL IMPACT:
Funds for this expenditure are budgeted and available in the FY26 budget, PRJ000946.

Georgetown, Texas 78626

RE: Carriage Oaks EST Rehabilitation Project
Bid #202566
Contract Award Recommendation

Dear Mr. Hanson,

Bids were received and opened on July 23rd, 2026 at 2:00 P.M. Four (4) bids were received, and the results are shown in the attached Bid Tabulation Summary. The lowest bidder on the project is O&J Coatings, Inc., with a total bid amount of $995,270.00.

I have reviewed the Contractor's bid documents, completed reference checks and based on our experience with similar City projects, O&J Coatings, Inc. is qualified to complete this work. It is my recommendation that the City of Georgetown, contingent on the approval of the City Council and Water Board, award the construction contract for the Carriage Oaks EST Rehabilitation Project to **O&J Coatings, Inc.** for the total bid amount of **$995,270.00**.

If you have any additional questions, I can be contacted at 346-666-5103.

Respectfully Submitted,

Ardurra Group, Inc.
TBPE Firm No. F-10053

SUBJECT:
First Amendment to Task Order FNI-25-001 with Freese & Nichols

SUGGESTED ACTION:
Forwarded from the Georgetown Water Utility Advisory Board (GWUAB):
Consideration and possible action to approve an amendment to Task Order FNI-25-001 with Freese & Nichols, Inc. for professional services related to the Park Water Treatment Plant PFAS Pilot Study in the amount of $1,185,186.00 -- Wesley Wright, PE, Systems Engineering Director, and David Herzog, CIP Manager

ITEM SUMMARY:
On April 10, 2024, the EPA implemented new regulations aimed at reducing PFAS levels in drinking water to safeguard public health and the environment. Public water systems have until 2029 to implement solutions if PFAS levels exceed regulatory limits, and initial monitoring must be completed by 2027.

In April 2025, the City Council approved a task order for Freese & Nichols to develop a PFAS pilot study plan for the Park Water Treatment Plant. Services included project management, utility assessment and compliance planning, technical report, pilot implementation plan, and regulatory review submittal and coordination.

This first task order amendment is for Freese & Nichols to execute the PFAS pilot study that was approved by TCEQ on May 29, 2026. Services with this amendment include project management, bidding of the pilot skid, pilot study monitoring and data analysis, pilot study findings report and regulatory review submittal and coordination.

This task order will get us through the construction/monitoring and reporting of the pilot study, which should be completed in July 2027.

STAFF RECOMMENDATION:
Staff recommends approval of Task Order Amendment to Task Order FNI-25-001 with Freese & Nichols, Inc for professional services related to the Park Water Treatment Plant PFAS Pilot Study.

BOARD RECOMMENDATION:
This item was unanimously approved at the August 14, 2026, Georgetown Water Utility Advisory Board meeting for recommendation for Council approval.

FINANCIAL IMPACT:
Funds for this expenditure are budgeted and available in the FY26 budget, PRJ000770.

AMENDMENT

Task Order No. FNI-25-001-A1, consisting of __10_ pages.

First Amendment to task Order FNI-25-001

In accordance with paragraph 1.01 of the Master Services Agreement between Owner and Freese and Nichols, Inc. ("Engineer") for Professional Services – Task Order Edition, dated January 10, 2013 ("Agreement"), Owner and Engineer agree as follows. All provisions of this Task Order are subject to the Master Service Agreement ("Agreement").

1. **Specific Project Data**

   A. **Title**: PFAS Pilot Study Plan

   B. **Description**: Engineering Services to execute the PFAS Pilot Study. Services include project management, bidding of the pilot skid procurement package, pilot study monitoring and data analysis, pilot study findings report, and regulatory review submittal and coordination.

   C. **Owner of Georgetown Project Number**: PRJ000770

   D. **Owner of Georgetown General Ledger Account Number: CC0553/662**

   E. **Owner of Georgetown Purchase Order Number**:

   F. **Master Services Agreement, Contract Number**: 23-0053-MSA

2. **Services of Engineer**

   See Exhibit A, Scope of Services, attached.

3. **Owner's Responsibilities**

   Subject to the Agreement, Owner shall have those responsibilities set forth in the Agreement in addition to the following:

   a. Not used.

4. **Times for Rendering Services**

TIME OF COMPLETION: Subject to Article 3 of the Agreement, FNI agrees to complete the services in accordance with the following schedule. Time is of the essence.

Kick-off Meeting	15 days following Notice to Proceed (NTP)
Advertisement	15 days following TCEQ Approval and NTP
Pilot Summary Report	90 days following the pilot study period

5. **Payments to Engineer**

A. Owner shall pay Engineer for services rendered as follows:

Summary Fee	
BASIC SERVICES	**TOTAL**
A. Project Management	**$25,363**
B. Bid Phase Services	**$14,547**
C. Pilot Operation	**$949,319**
Site Visits and Vendor Coordination	$34,280
Sampling and Data Analysis	$167,539
Eurofins Lab Sampling Costs	$747,500
D. Pilot Study Final Report	**$95,957**
Basic Services Subtotal (Not to Exceed)	**$1,085,186**
SPECIAL SERVICES	
E. Owner Controlled Allowance	**$100,000**
Special Services Subtotal (Not to Exceed)	**$100,000**
Total (Not to Exceed)	**$1,185,186**

B. The terms of payment are set forth in Article 4 of the Agreement unless modified in this Task Order.

6. **Consultants:** Freese & Nichols, Inc.

7. **Other Modifications to Agreement:** None.

8. **Attachments:**

Exhibit A – Scope of Services

Exhibit B – Pilot Sampling Matrix

Exhibit C – Field Log

9. **Documents Incorporated By Reference:** The Master Service Agreement between Owner of Georgetown and Freese & Nichols, Inc. dated January 10, 2023.

ATTACHMENT 1 TO MSA AMENDMENT

EXHIBIT A

SCOPE OF SERVICES

Background: The City of Georgetown (Owner) has completed its Environmental Protection Agency (EPA) mandated Fifth Unregulated Contaminant Monitoring Rule (UCMR 5) testing for 29 per- and polyfluoroalkyl substances (PFAS) and lithium. The UCMR sampling showed that the Owner had some results for PFAS contaminants above the EPA maximum contaminant limits (MCLs) at raw water wells and entry points to the distribution system of the San Gabriel Park Water Treatment Plant (WTP). In order to remove the contaminants and comply with EPA regulations, the Owner will need to install additional treatment at the San Gabriel Park WTP. Prior to implementing a new PFAS removal treatment system, the Owner will be required to pilot the treatment technology and have a pilot study report approved by the Texas Commission on Environmental Quality (TCEQ). At the project scoping meeting held on February 14, 2025, the Owner requested that the PFAS pilot study effort be divided into two distinct phases. Phase 1, which was the original scope of this contract, consists of the development of the Pilot Implementation Plan. Phase 2, the current scope of this amendment, involves the procurement and execution of the pilot study, as well as the development of a conceptual design for the PFAS treatment system.

With Phase 1 nearing completion and the Pilot Implementation Plan pending regulatory approval, the Owner intends to advance the project toward execution of the pilot study. The next step will involve advertising a bid package for a qualified contractor to furnish, install, and commission the pilot skid in accordance with the pilot protocol established during Phase 1, commission the pilot study, conduct sampling, and prepare a pilot study report.

This Additional Work is for Phase 2 of the pilot study includes the following primary tasks:

- Bid services for the procurement, assembly, and startup of the pilot study, including two (2) pilot skids and a total of eight (8) columns:
    - Pilot Skid #1 – GAC
        - Column 1 – GAC #1, feeds into Column 2
        - Column 2 – GAC #1
        - Column 3 – GAC #2, feeds into Column 4
        - Column 4 – GAC #2
    - Pilot Skid #2 – IX and IX -> GAC in Series
        - Column 1 – IX #1, feeds into Column 2
        - Column 2 – GAC #1, feeds into Column 3
        - Column 3 – GAC #1
        - Column 4 – IX #2
- Routine sampling services, up to twice per week for PFAS sampling for the six-month pilot study period.
- Vendor coordination throughout the pilot study and compilation of media autopsy reports from both media vendors.
- Pilot study results report, outlining technology recommendations for full-scale design, preliminary site layout, and life-cycle cost analysis.
- TCEQ permitting services for approval of the selected technology, based on the pilot study results.

ATTACHMENT 1 TO MSA
AMENDMENT

Project Assumptions and Requirements:

- Project will be design-bid-build delivery.
- City of Georgetown procurement documents will be utilized.
- TCEQ permitting following the pilot study will be the only permit required.
- Daily field sampling will be conducted by the City of Georgetown. Field sampling is defined as such in *Exhibit B – Pilot Sampling Matrix.*
- FNI will provide all sample bottles, labels, and lab services for analysis of lab samples, defined as such in *Exhibit B – Pilot Sampling Matrix*.
- Both pilot skids, all columns, flow meters, pressure indicators, media, piping, and chemical feed system will be provided by either the pilot skid vendor or the Contractor in the Contract documents.
- A chlorine analyzer will be provided by the City of Georgetown.
- Minor repairs of the pilot skid will be performed by City of Georgetown staff. Larger repairs may be delegated to the media vendors or Contractor.
- Connection of the filter effluent will be via the drain piping of Filter 4.
- The existing receptacles are sufficient for the pilot electrical needs. City of Georgetown staff will operate the pilot system throughout the study period. Media vendors will assist in the commissioning and decommissioning of the pilot skid.
- FNI will conduct the lab sampling required for the pilot study. City of Georgetown staff will conduct the field testing required and monitor the operations of the pilot skid, in which minor repairs or adjustments will be required. If the pilot study must be interrupted or becomes inoperable, the City of Georgetown will notify FNI as soon as possible to continue the pilot study.

BASIC SERVICES: Freese and Nichols, Inc. (FNI) shall render the following professional services in connection with the development of the Project:

A. General Project Management

Perform general administrative duties associated with the Project, including progress monitoring and monthly progress reporting, scheduling, general correspondence, documentation, office administration, project team management, and implementation of a Quality Assurance (QA) and Quality Control (QC) program for the Project, and invoicing for the scope items identified below. Documentation shall be in accordance with Owner requirements for the Project. These duties include maintaining regular communication with the Owner to help meet the needs of the Owner in a timely manner and executing work per the work plan, budget, and schedule. The above language is minimal expectations.

1. Conduct eight (8) virtual monthly progress meetings to provide updates on the pilot study.

B. Bid Phase Services: FNI shall provide professional services in this phase as follows:

1. Submit electronic copies of plans, specifications, and bidding documents to the City approved contractors and vendors.

2. Assist the City by responding to questions and interpreting bid documents. Prepare and issue addenda to the bid documents to plan holders if necessary.

3. FNI will assist the City in the opening, tabulating, and analyzing the bids received. Review the qualification information provided by the apparent low bidder to determine if, based on the information available, they appear to be qualified to construct the project. This includes researching contractor qualifications and references. Recommend award of contracts or other actions as appropriate to be taken by the City in the form of a Letter of Recommendation.

4. FNI will create a pre-bid conference agenda, lead the pre-bid conference for construction and coordinate responses to questions. Response to all questions will be in the form of addenda issued after the conference. Attend the tour of the project site after the pre-bid conference.

5. Conform the construction documents by incorporating all addenda items into the plans and specifications.

6. Furnish contractor copies of the drawings and specifications for construction pursuant to the General Conditions of the Construction Contract.

7. Deliverables for the Bid or Negotiation Phase include:

   a. Electronic copies of plans, specifications, bidding documents, and addenda.

   b. Recommendation of Award with tabulation of bids.

   c. Notice of Award to selected bidder.

   d. Conformed contract documents for execution.

   e. Copies of conformed contract documents for Contractor and the City.

C. Pilot Execution Services

1. FNI will coordinate with the City and with the selected Contractor to confirm timing of start-up activities for the pilot skid and assess conformance with the Contract Documents.

2. Conduct up to six (6) site visits to the plant to monitor the pilot skid, confirm Contractor compliance with Contract documents, and troubleshooting potential operational concerns of the pilot skid.

3. Once the pilot skid is commissioned, FNI will perform additional bi-weekly and monthly sampling of the pilot skid influent and each pilot column effluent at the WTP as shown in the table below. Eurofins Environment Testing will conduct water quality and PFAS testing on these samples to evaluate PFAS removal at the WTP. FNI will provide the sample bottles, labeling, and transport the samples to the lab for analysis.

Sample Type	Sampling Frequency	Total Number of Samples
PFAS	Twice a week	468
Inorganics and DBPs	Once every other week	130
Organics	Once a month	12

4. The City will be responsible for operation and routine oversight of the pilot skid for the duration of the study period. Responsibilities include daily operation of the system, collection of required field measurements and samples, and completion of a daily field log documenting operating conditions, observations, and maintenance activities. The City will also be responsible for routine and minor maintenance necessary to maintain continuous operation of the pilot system, including but not limited to minor piping adjustments, tightening fittings, and other standard operational tasks. In the event of operational issues or equipment malfunction, the City will first make reasonable efforts to troubleshoot and resolve the issue. If the issue cannot be resolved by City staff, the City shall notify FNI and the media vendor for further evaluation and direction. Troubleshooting support provided by FNI beyond reasonable coordination and consultation may be considered additional services.

5. FNI will coordinate with media vendors on an as needed basis for preliminary data analysis, troubleshooting, and check-ins to facilitate successful piloting operations and data collection.

D. Pilot Study Technical Report and Regulatory Approval

1. At the conclusion of the pilot study, FNI shall evaluate results of the analytical data collected during Task C to quantify the efficacy of each PFAS removal technology piloted to reduce the six PFAS compounds below the EPA's proposed MCLs.
2. Coordinate with each pilot and media vendor for their final recommendation and pilot test summary report. Vendor pilot test summary reports will be included with the final technical report.
3. Develop an evaluation criterion for selecting the technology to be implemented in final design. The criterion will be based on the previous evaluation criteria utilized for selecting technologies for piloting.

4. Develop a comprehensive Pilot Study Technical Report for TCEQ review for the technologies piloted.

5. Attend one (1) workshop in person to discuss the findings of the pilot study summary report prior to TCEQ submission.

6. Coordinate with TCEQ on final pilot study results report to meet requirements. Respond to questions with TCEQ necessary to receive approval for the selected final-design technology.

7. Deliverables shall include:
   a. One (1) electronic copy of the pilot study summary report, complete with final-design recommendations, lab sampling results, and life cycle costs for each technology piloted.
   b. One (1) electronic copy of all meeting minutes.

SPECIAL SERVICES: FNI has included an Owner controlled allowance for potential vendor, labor, or material overages. Funds from this phase can only be accessed through Owner approval.

ADDITIONAL SERVICES: Additional Services to be performed by FNI, if authorized by OWNER, which are not included in the above-described basic services, are described as follows:

1. Site visits, trainings, and meetings other than what is specified.
2. Conducting additional research other than what is specified.

3. Permitting outside of what is specified in this scope.
4. Survey, geotechnical investigations, or other special services.
5. Evaluating WTP processes outside of this scope.
6. Preparing applications and supporting documents for government grants, loans, or planning advances and providing data for detailed applications outside of what is specified in this scope.
7. Design services for full-scale design other than what is specified.

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
Construction Manager at Risk Contract to Walsh Construction dba Archer - Northlands Water Reclamation Facility

SUGGESTED ACTION:
Forwarded from the Georgetown Water Utility Advisory Board (GWUAB):
Consideration and possible action to award and approve a Construction Manager at Risk (CMAR) Agreement with Walsh Construction Company II, LLC, dba Archer Western of Irving, TX for pre-construction services for the Northlands Water Reclamation Facility (WRF) in an amount of $1,209,500.00 -- Wesley Wright P.E., Systems Engineering Director, and David Herzog, CIP Manager

ITEM SUMMARY:
In late 2024, the City issued a Request for Qualifications for design services for the future Northlands WRF and selected Freese and Nichols. Over the past 18 months, Freese and Nichols has worked through Preliminary Engineering, project scoping, and is approaching 60% design. During the project's preliminary phases, the project delivery method was discussed extensively with staff and management. Given the complexity of the project, the size of the project budget, and the importance of schedule, the decision was made to consider the Construction Manager at Risk (CMAR) project delivery method.

CMAR is a collaborative project delivery process that differs from traditional low bid in several ways. First, a contractor is selected during design and is integral to the decision-making process in virtually all aspects of the project. The contractor is selected through a qualifications-based process. Price is included and considered in the evaluation but is only one factor in the selection process. A firm's experience, key staff resumes, approach to design and cost management, as well as safety and quality assurance programs are all considered. Beyond Preconstruction Services which is currently being considered, through subsequent future agreements, the CMAR will serve as the General Contractor through bidding and ultimately be responsible for the successful completion of construction.

The Northlands WRF Request for Proposals process resulted in eight (8) submittals. Ultimately, after a review, ranking, and interview process, Archer Western was selected as the highest ranked proposer. Many firms were clearly capable of partnering with the City on this project, but Archer Western's experience on multiple similar plants in the area, with similar MBR technology, combined with their key personnel local presence and experience and attention to detail stood out. Additionally, their overall CMAR fee, including Preconstruction Services and future anticipated General Conditions and Project Management, was ultimately the second lowest of all submitters.

Please see attached presentation for additional details and project schedule.

Staff Recommendation:
Staff recommends award for Preconstruction Services for the Northlands WRF to Archer Western.

Board Recommendation:
This item was unanimously approved at the July 9, 2026, Georgetown Water Utility Advisory Board meeting for recommendation for Council approval.

FINANCIAL IMPACT:
Funds are available in the current FY26 Wastewater CIP Budget and has been included in both the current impact fees as well as monthly water rate calculations.

What is CMAR?

City hires a Construction Manager (CM) during design, before construction to provide:

- Material, Equipment Selection Support
- Cost Estimating
- Constructability Reviews
- Scheduling
- Value Engineering
- Risk Management

Later serves as the General Contractor (GC) once a Guaranteed Maximum Price (GMP) is established

Why CMAR?

- Improved budget control
- Better cost estimating through design
- Full cost transparency
- Reduced change orders
- Constructability incorporated into design
- Value engineering opportunities
- Early risk identification/mitigation/allocation
- Faster project delivery
- Far Greater Contractor Interest vs Straight Bid

CMAR Process

- City hires design firm (Request for Qualifications – 2025)
- Design begins (30-60%)
- CMAR Request for Proposals/Interviews/Award
- CMAR Provides Preconstruction Services
- Design continues
- CMAR Provides Guaranteed Maximum Price(s) (GMP)
- City Accepts GMP and Contracts for Work
- CMAR Completes Construction

CMAR Process

- Authorized by Texas Government Code Ch. 2269
- Qualifications based process – best value, not lowest bid
- Request for Proposals Process in March/April
  - Firm Experience (20)
  - Costing Methodology/Project Approach (35)
  - Key Personnel (25)
  - Safety Record/QA-QC (10)
  - Cost (10)
  - Interview (25)

AGREEMENT BETWEEN OWNER AND CONSTRUCTION MANAGER AT RISK

This Agreement is entered into and effective this __ day of _____, 2026, by and between **City of Georgetown, Texas** ("Owner") and **Archer Western Construction, LLC** ("Construction Manager at Risk" or "CMAR").

Terms used in this Agreement have the meanings stated herein and in the General Conditions and the Supplementary Conditions.

Owner and CMAR hereby agree as follows:

ARTICLE 1 — THE PROJECT

1.01 The Project , of which the CMAR Services and the Work under the Contract Documents are a part, is generally described as follows:

Northlands Water Reclamation Facility Project
[Project Number]

1.02 CMAR acknowledges this Contract was awarded at or around the same time, and will be performed generally concurrently with, the contract for the project for Owner's Three Forks water reclamation facility project [#NUMBER]. If CMAR is awarded such project or becomes the construction manager for such project, CMAR is prohibited from using the same project team and/or Key Personnel on both projects, which is a material breach of this Contract, provided that Owner may provide written consent in its sole discretion for approval of an individual to provide discrete or other tasks on both projects as Owner may determine. This paragraph does not prohibit CMAR from using the same Subcontractors on both projects nor from CMAR performing subcontracting services on the other project.

ARTICLE 2 — ENGINEER; OWNER'S PROJECT TEAM; CMAR PERSONNEL; RELATIONSHIP OF PARTIES

2.01 Intentionally deleted.

2.02 The Owner has retained **Freese and Nichols, Inc.** (Engineer) to design the Project, to assume all duties and responsibilities of Engineer during the construction of the Project, assume those duties and responsibilities of advisor to Owner and construction contract administrator on behalf of Owner as specified in the Contract Documents, and to have the rights and authority assigned to Engineer in the CMAR Contract.

2.03 The key members of the CMAR's staff for the Services and the Work shall be persons agreed upon with Owner and identified in Exhibit E ("Key Personnel"). CMAR Key Personnel shall be reasonably satisfactory to the Owner. CMAR Key Personnel shall not be changed without the written consent of the Owner (not to be unreasonably withheld, delayed or conditioned), unless the person becomes unable to perform any such duties due to death, disability or termination of employment with CMAR. Owner may reject any proposed individual or subcontractor in its sole discretion. CMAR shall furnish only skilled, properly trained, and appropriately licensed staff to perform the

Work. Owner shall have the right to require CMAR to dismiss from the Project any employee of CMAR whose performance is not reasonably satisfactory to Owner.

2.04 CMAR agrees to work closely with the Owner and the Engineer and accepts the relationship of trust and confidence established with Owner by this Agreement, including as set forth in Paragraph 3.08. Except as expressly authorized by this Agreement, CMAR has no right or authority of any kind to act as the representative of or on behalf of the Owner. CMAR is an independent contractor and not an agent of Owner.

ARTICLE 3 — CMAR SERVICES

3.01 Scope of CMAR Services

A. CMAR will perform the CMAR Services set forth in Exhibit A, Scope of CMAR Services, as authorized, and other specified CMAR Services as expressly set forth in a Contract Amendment. Services rendered by CMAR to meet its general construction and management obligations are not CMAR Services, and are not compensated as CMAR Services, unless expressly designated as such.

B. CMAR Services are categorized in Exhibit A as Basic Preconstruction Services; Additional Preconstruction Services; Basic Procurement Services; Additional Procurement Services; and Special Services.

C. In Exhibit A and in scope of CMAR Services provisions in Contract Amendments, imperative sentences with respect to the performance of services are directives to CMAR, unless expressly indicated otherwise.

3.02 Basic Services, Additional Services, and Special Services

A. Basic Services are CMAR Services (categorized as Preconstruction or Procurement) that are identified as Basic Services in Exhibit A.

B. In addition to Basic Services, CMAR shall provide specific Additional Preconstruction Services and Additional Procurement Services if Owner authorizes CMAR in writing to do so. Owner will authorize the specified Additional Services in a Contract Amendment. The Contract Amendment will describe the tasks to be performed, the compensation to be paid, the time for performance, the deliverables to be provided, and other applicable terms, if any. If a specific Additional Service has been priced during the CMAR selection process, such price will be binding on CMAR and Owner unless modified by mutual agreement.

C. The hourly billing rates provided for Basic Services and Additional Preconstruction Services and Additional Procurement Services proposed in CMAR's Proposal are binding on CMAR and Owner, and are reflected in Exhibit A-1, CMAR Services Hourly Billing Rates. Such rates shall only be modified by mutual agreement

3.03 Authorization to Provide CMAR Services

A. CMAR is authorized by the execution of this Agreement to begin providing Basic Preconstruction Services set forth in Article 1 in Exhibit A, Scope of CMAR Services, as of the Effective Date of the Contract.

B. CMAR shall provide Basic Procurement Services set forth in Article 3 in Exhibit A, Scope of CMAR Services, upon receipt of notice to commence such services from Owner, and a Contract Amendment establishing the scope and compensation for Procurement Services.

C. All other CMAR Services, including Additional Preconstruction Services, Additional Procurement Services, and Special Services, if any, must be authorized by Owner in writing before services begin.

3.04 Compensation for Basic CMAR Services

A. Basic Preconstruction Services—Owner will compensate CMAR for Basic Preconstruction Services, provided per Article 1, Exhibit A—Scope of Work for CMAR Services, the lump sum (stipulated price) for the Price for CMAR Basic Preconstruction Services shown in Exhibit B Table 2.

B. The compensation amount for Basic Procurement Services will be determined in a Contract Amendment for Procurement Services based on the Billing Rates shown in Exhibit B—Table 2, Compensation for CMAR Services. The scope and compensation for these services will be based on the Procurement Strategy Plan developed in accordance with Exhibit A—Scope of Work for CMAR Services, Paragraph 1.13.

3.05 Compensation for Additional CMAR Services

A. For Additional Preconstruction Services and Additional Procurement Services, Owner will compensate CMAR for each hour earned at the Billing Rates shown in Exhibit B—Table 2, Compensation for CMAR Services.

3.06 Compensation for Special Services

A. Owner will compensate CMAR for Special Services pursuant to the specific compensation terms in the Contract Amendment establishing and authorizing such Special Services.

3.07 Payment for CMAR Services

A. Preparation and Submittal of Invoices

1. CMAR will prepare and submit invoices for CMAR Services to Owner on a monthly basis in a format and in accordance with the procedures designated by Owner.

2. CMAR may not submit invoices and is not entitled to compensation for Additional Services or Special Services unless Owner has authorized such services through execution of a Contract Amendment.

3. As a condition prior to any payments under 3.07.B below being due, CMAR will provide (i) documentation acceptable to the Owner to allow Owner to verify CMAR's charges included in invoices, and (ii) only to the extent an invoice includes a CMAR Service that would entitle CMAR or any Person to a lien or bond claim, the documentation, statements, and information in Paragraph 15.02.B.1.a to 15.02.B.1.e of the General Conditions and required to accompany Applications for Payment for progress payments for Cost of Work completed, provided that for any invoice CMAR submits for CMAR Services without the documentation specified in (ii) CMAR represents and warrants to Owner that none of CMAR and any other Person are entitled to a lien or bond claim for any such CMAR Services.

B. Payments

1. For CMAR Services that are compensated on a Lump Sum (stipulated price) basis:

a. The Lump Sum amount includes compensation for CMAR's services, and services of CMAR Subconsultants that are part of CMAR Services, if any. Appropriate

amounts are to be incorporated in the Lump Sum to account for labor costs, overhead, profit, expenses, and other cost.

b. The amount invoiced each billing period will be based on the CMAR's estimate of the percentage of the total CMAR Services completed during the billing period.

c. The compensation paid to CMAR for Basic Services will not exceed the Lump Sum amount unless duly authorized by a Contract Amendment.

2. For CMAR Services that are compensated using Hourly Billing Rate basis:

a. Owner shall pay CMAR an amount equal to the cumulative hours charged to the Project by CMAR's personnel times Hourly Billing Rates for each applicable Classification.

b. Hourly Billing Rates include all of the following—salaries and wages paid to personnel in each billing classification; the cost of customary and statutory benefits; general and administrative overhead; non-project operating costs; and operating margin or profit.

c. Hourly Billing Rates are to include all expenses related to providing CMAR Services including the following categories:

1) Transportation and subsistence;

2) Technology charges and data charges associated with the use of computers and tablets;

3) Printing and reproduction of documents;

4) Health and safety related equipment and training; and

5) Special equipment used for CMAR Services.

3. The amounts paid to CMAR under this Article are deemed to include full compensation for CMAR's overhead and profit associated with such labor and expenses.

C. Time of Payment

1. Owner will make payments for CMAR Services in compliance with Chapter 2251 of the Texas Government Code.

2. Owner will comply with Section 2251.042 of the Texas Government Code with regard to disputed payments.

D. Compensation for CMAR Services discussed in Article 3 is not compensation for the Work and shall not be included in the GMP. Retainage will be withheld from payments of CMAR Services only to the extent required under any Law or Regulation, including, without limitation, the Texas Property Code and Texas Government Code, or to the extent CMAR or any of its Subconsultants, Subcontractors, or Suppliers may be entitled to a lien or bond claim under any applicable Law or Regulation. For any invoice for CMAR Services that CMAR submits without the documentation set forth in Paragraph 3.07.A.3(ii) above, CMAR makes the same representation to Owner to induce Owner not to withhold any retainage. Additionally, such payments are subject to the set-off provisions in General Conditions Article 15.

ARTICLE 4 — COMPENSATION FOR PERFORMANCE AND COMPLETION OF THE WORK

4.01 Owner shall compensate CMAR for performance and completion of the Work in accordance with the Contract Documents. Payment for Work will consist of the following:

A. Payment for Construction Support Costs in accordance with Article 5, and as set forth in Exhibit B Table 1 lines 2-4;

B. Payment for Cost of the Work as provided in Article 6; and

C. Payment of a CMAR Fee as set forth in Article 7 and in Exhibit B Table 1.

4.02 This Agreement establishes a CMAR Contingency allowance for use in paying for unforeseen costs as set forth in Article 8.

4.03 The amounts for CMAR's compensation summarized in Paragraph 4.01 are subject to additions and deletions as provided in the Contract, up to limitations established in the Guaranteed Maximum Price (GMP) as provided in Article 11.

ARTICLE 5 — CONSTRUCTION SUPPORT COSTS

5.01 Construction Support Costs

A. Construction Support Costs (field overhead or "general conditions" costs) are those costs associated with and in support of construction that are not directly related to specific construction activities. Construction Support Costs are subject to audit under Article 14, are not compensable as Cost of the Work, and must not be included by CMAR in proposed Work Authorizations submitted to the Owner for approval and issuance. Construction Support Costs include without limitation:

1. CMAR project management costs, including project managers, superintendents, field engineering staff, and clerical support, in each case located at the Site;

2. Management of Subcontractors and Suppliers;

3. Management of delegated professional design services by CMAR's subcontractors, if any;

4. Costs associated with safety programs, including safety managers and safety representatives;

5. Quality management not specifically designated to be covered in a Work Authorization;

6. Costs associated with obtaining permits, or paying patent fees or royalties, if not specifically designated to be covered in a Work Authorization;

7. Costs for permit inspections, and other inspections required by Laws and Regulations not specifically designated to be covered in a Work Authorization;

8. Compliance with Laws and Regulations;

9. Taxes, other than those specifically designated to be covered in a Work Authorization, provided that, notwithstanding the foregoing, because Owner is a municipality in the State of Texas, materials and services utilized in the construction of the Project may be exempted from state and local taxes and CMAR is responsible for taking full advantage

of all tax exemptions applicable to the Project, which are not reimbursable Construction Support Costs and will be deducted from any Applications for Payment to the extent paid.

10. Contract administration costs, including costs for:
    a. Meetings, reporting, notifications, and other communications and coordination,
    b. Document management,
    c. Submittals, record data, and other documentation,
    d. Creating and maintaining Project schedules per Article 4 of the General Conditions,
    e. Changes to the CMAR Contract per Article 11 of the General Conditions,
    f. Applications for Payment per Article 15 of the General Conditions,
    g. Maintenance of Record Documents, and
    h. Other contract administration costs included in the Contract Documents;
11. Performance, payment, and warranty bonds, if any, provided to cover the construction of the entire Project;
12. General insurance costs, excluding Builder's Risk or other coverage that applies specifically to Work and specifically designated to be covered in a Work Authorization, and Worker's Compensation Insurance which is to be included in payroll cost per Paragraph 6.02.A.1;
13. Costs associated with CMAR temporary facilities, including utilities, and temporary infrastructure at the Site;
14. The cost of purchasing, renting, or furnishing office supplies, small tools and hand tools. These are defined as any tool or equipment whose current price, if purchased new at retail would be less than $500 **[or insert other threshold price]**;
15. Costs for Site maintenance, storage of materials, waste disposal, environmental controls, management of water, protection of Site and adjacent property, cleaning during construction and final cleaning;
16. Costs associated with startup and commissioning of the Work, including training of Owner's personnel; performance acceptance testing, (including but not limited to Functional Demonstration Tests and Site Acceptance Tests) at the Project Site, if any; and temporary operation of the facility for the limited purpose of startup, commissioning, and testing as described in this paragraph;
17. Costs associated with substantial completion, partial utilization, and final completion; and
18. Costs associated with general warranty, guarantees and correction of defective work during the Correction Period.

B. The organization of the Work into Work Packages will not result in changes to the CMAR's compensation for Construction Support Costs.

C. CMAR represents that all administrative and supervisory personnel costs, direct overhead, and other onsite costs and expenses that are expected to be incurred by the CMAR in the

performance of its administrative, supervisory, and management responsibilities under the Contract are described or itemized in Exhibit B attached hereto and incorporated herein for all purposes.

5.02 Fixed Construction Support Costs

A. Fixed Construction Support Costs are those costs which are not time sensitive and will not increase if the performance of the Work extends beyond the Construction Period designated for Substantial Completion of the Work described in Article 13. The amount for Fixed Construction Support Cost is shown in Exhibit B, Table 3–Basis of Compensation for Fixed Construction Support Costs.

5.03 Time-Sensitive Construction Support Costs

A. Time-Sensitive Construction Support Costs are those costs which will increase if the performance of the Work extends beyond the Construction Period designated for Substantial Completion described in Article 13. The amount for Time-Sensitive Construction Support Costs based on the Construction Period is shown in Exhibit B, Table 4–Basis of Compensation for Time-Sensitive Construction Support Costs.

B. The Construction Support Costs Extended Rate is determined by dividing the Time-Sensitive Construction Support Costs by the projected number of days in the Construction Period. CMAR will be entitled to additional compensation for Time-Sensitive Construction Support Costs at the Construction Support Extended Rate shown in Exhibit B, Table 4–Basis of Compensation for Time-Sensitive Construction Support Cost if the extended time is associated with a compensable delay under the provisions of the General Conditions.

5.04 Changes in Construction Support Costs

A. Owner and CMAR acknowledge that the Construction Support Costs stipulated amounts set forth in this Agreement's Exhibit B, Table 1, lines 2, 3, and 4 (Construction Support Costs Contract Amounts) and the Construction Support Costs Extended Rate (determined as set forth in Paragraph 5.03.B) are the costs intended to liquidate and stipulate CMAR's compensation for Construction Support Costs, encourage efficiency and cost control, and reduce Owner's and CMAR's administrative and accounting effort. The Construction Support Costs Contract Amounts and the Construction Support Costs Extended Rate will not be increased.

5.05 Compensation for Construction Support Costs

A. Payments for Fixed Construction Support Costs will be made in equal monthly increments determined by dividing the Fixed Construction Support Costs Contract Amount by the projected number of months in the Construction Period. No payment will be made for Fixed Construction Support Costs in excess of the Fixed Construction Support Costs Contract Amount unless this Amount is adjusted in accordance with provisions in Paragraph 5.04.

B. Payments for Time-Sensitive Construction Support Costs will be made in equal monthly increments determined by dividing the Time-Sensitive Construction Support Costs Contract Amount by the projected number of months in the Construction Period. No payment will be made for Time-Sensitive Construction Support Costs in excess of the Time-Sensitive Construction Support Contract Amount unless this Amount is adjusted in accordance with provisions in Paragraph 5.04.

C. Payments will be made for Time-Sensitive Construction Support Costs associated with compensable delays under the provisions of the General Conditions at the Construction Support Costs Extended Rate as described in Paragraph 5.03.B.

ARTICLE 6 — COST OF THE WORK

6.01 Purposes for Determination of Cost of the Work

A. The term Cost of the Work is defined in the General Conditions, Article 1, as the sum of eligible costs incurred by CMAR for the performance of the Work or a Work Package, as applicable, as allowed by the Cost of the Work provisions set forth in the Agreement; such provisions are set forth in this Article 6. Cost of the Work is determined for each Work Authorization, subject to any limits described in this Article. The provisions of this Article are used for two distinct purposes:

1. To determine Cost of the Work for purposes of CMAR's base compensation for construction under this Contract; or

2. When needed to determine the value of a Change Proposal, Change Order, Claim, set-off, or other adjustment to the Guaranteed Maximum Price. When the value of any such adjustment is determined based on Cost of the Work, CMAR is entitled only to those additional or incremental costs required because of the change in the Work or because of the event giving rise to the adjustment.

B. For purposes of determining CMAR's base compensation, Cost of the Work applies only to Work that has been duly authorized in a Work Authorization.

C. The Cost of the Work will include only those items identified in Paragraph 6.02.

6.02 Cost of the Work

A. Payroll Cost—If approved in advance by Owner in writing, payroll costs for employees in the direct employ of CMAR performing Work described in Work Authorizations, and excluding those efforts covered in Construction Support costs per Paragraph 5.01. Payroll costs will be based on actual amounts paid. Payroll costs are to include salaries and wages plus the cost of fringe benefits, which include social security contributions, unemployment, excise, and payroll taxes, workers' compensation insurance, health and retirement benefits, sick leave, and vacation and holiday pay applicable thereto. The expenses of performing Work outside of regular working hours, on Saturdays, Sundays, or legal holidays, will be included in the above to the extent authorized by Owner. Payroll costs do not include bonuses, profit sharing, incentive compensation, and any other discretionary payment.

B. Incorporated Equipment and Material Cost—Cost of all materials and equipment furnished or incorporated in the Work, including costs for transportation and storage prior to delivery to the Site. Cost for proper storage at the Site is to be included in Construction Support Cost per Paragraph 5.01. Cost for equipment is to include Suppliers' services for submittals, factory and field testing and inspections (including Factory Witness Tests, Functional Demonstration Tests and Site Acceptance Tests), installation checks, start-up assistance, and training, if any. Cash discounts obtained on payments made by the CMAR shall accrue to the Owner if (1) before making the payment, the CMAR included the amount to be paid, less such discount, in an Application for Payment and received payment from the Owner, or (2) the Owner has deposited funds with the CMAR with which to make payments; otherwise,

cash discounts will accrue to the CMAR. All trade discounts, rebates, and refunds and returns from sale of surplus materials and equipment will accrue to Owner, and CMAR shall make provisions so that they may be obtained. Amounts that accrue to the Owner in accordance with the provisions of this paragraph shall be credited to the Owner as a deduction from the Cost of the Work.

C. Consumable Equipment and Material Cost—Cost, including transportation and maintenance, of all materials, supplies, equipment, tools, and machinery at the Site, which are consumed in the performance of the Work, less market value of such items used but not consumed which remain the property of CMAR. In establishing costs for materials such as scaffolding, plating, or sheeting, consideration will be given to the actual or estimated life of the material for use on other projects; or rental rates may be established on the basis of purchase or salvage value of such items, whichever is less. CMAR will not be eligible for compensation for such items in an amount that exceeds the purchase cost of such items.

D. Subcontractor Cost–Payments made by CMAR to Subcontractors for Work performed by Subcontractors. CMAR shall obtain competitive bids from subcontractors acceptable to Owner and CMAR and shall deliver such bids to Owner, which will then determine, which bids, if any, will be acceptable. If any subcontract provides that the Subcontractor is to be paid on the basis of Cost of the Work plus a fee, the Subcontractor's Cost of the Work and fee will be determined in the same manner as CMAR's Cost of the Work and fee as provided in this Article 6.

E. Construction Equipment Cost—Cost of providing construction equipment and machinery to construct the Work described in the Work Authorization.

1. Include all the costs for transporting, loading, unloading, assembly, dismantling, and removal of the equipment and machinery with Consumable Equipment and Material Cost per Paragraph 6.02.C.

2. Construction equipment and machinery cost will be billed at rates approved by the Owner as part of each Work Authorization.

   a. All operating costs will include costs for fuel, maintenance, parts, and associated labor. Billing rates for equipment fueling and maintenance do not include payroll costs for equipment operators, which will be included in Payroll cost per Paragraph 6.02.A.

   b. Costs for equipment and machinery cannot exceed the rates shown in the "Rental Rates and Specifications" published by the Associated Equipment Distributors (AED), but no higher than 75% of the prevailing competitive rates for rental of similar equipment in the Project vicinity. An hourly rate will be computed by dividing the monthly rates by 176. These rates will include all operating costs per Paragraph 6.02.E.2.a.

   c. Payment for rented equipment will be in accordance with rental agreements as to price, including any surcharge or special rates applicable to overtime use of the construction equipment or machinery, and all such costs will be in accordance with the terms of said rental agreements. The rental of any such equipment, machinery, or parts must cease when the use thereof is no longer necessary for the Work.

   d. Intentionally deleted.

e. Equipment used for Site maintenance is to be included in Construction Support Costs. Equipment used for multiple Work Authorizations must be billed on the basis of time worked on each Work Authorization.

f. CMAR shall use commercially reasonable efforts to return rented equipment to rental company when the equipment is not being used.

3. With respect to Work that is the result of a Change Order, Change Proposal, Claim, set-off, or other adjustment in Guaranteed Maximum Price (changed Work), included costs will be based on the time the equipment or machinery is in use on the changed Work and the costs of transportation, loading, unloading, assembly, dismantling, and removal when directly attributable to the changed Work. The cost of any such equipment or machinery, or parts thereof, must cease to accrue when the use thereof is no longer necessary for the changed Work.

F. Supplemental Costs which consist of the following:

1. The proportion of necessary transportation, travel, and subsistence expenses of CMAR's employees incurred in the discharge of duties connected with the Work Authorization.

2. Costs of special consultants including engineers, architects, testing laboratories, and surveyors, employed or retained for services specifically related to the Work Authorization and expressly excluding costs incurred by consultants performing CMAR Services or consultants performing services related to defective or nonconforming Work.

3. Except for taxes excluded under Paragraph 6.03 below, sales, consumer, use, and other similar taxes related to the Work, and for which CMAR is liable, as imposed by Laws and Regulations.

4. Deposits lost for causes other than the negligence or failure to perform of CMAR, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable.

5. Royalty payments and fees for permits, patents, and licenses directly related to a Work Authorization.

6. The cost of premiums for performance, payment, and warranty bonds obtained by CMAR as a requirement of a Work Authorization, in addition to the bonds purchased for the construction as a whole within the scope of Construction Support Costs per Paragraph 5.01.A.11. Final compensation for such premium costs will be based on reconciled costs at the conclusion of the Work.

7. If approved in writing before enrollment, cost for any Subcontractor bonds recommended by CMAR to protect Owner's and CMAR's interests in the event of a Subcontractor default associated with a Work Authorization. Final compensation for such premium costs will be based on reconciled costs at the conclusion of the Work, provided that bonds shall not be deemed required for Subcontractors enrolled in a subcontractor default insurance program described in Paragraph 6.02.F.9 below.

8. The cost of premiums for Builder's Risk insurance and other Work Authorization–specific insurance that CMAR is required by the Contract Documents to purchase and maintain, but not including costs of commercial general liability, automobile liability,

and contractor's pollution liability insurance which are covered as Construction Support Costs per Article 5. The compensation for worker's compensation is included as part of payroll costs per Paragraph 6.01.A.1. Final compensation for such premium costs will be based on reconciled costs at the conclusion of the Work.

9. If CMAR elects to utilize a subcontractor default insurance program (sometimes referred to as SUBGUARD) and Owner approves in writing, the maximum amount to be considered reimbursable costs under this contract will be 0.7% of the total amount of subcontracts actually enrolled in such an insurance program. Enrollment in any such program will be limited to subcontracts in excess of $100,000. Any CMAR costs incurred in connection with the CMAR's elected subcontractor default insurance program that exceeds the amount reimbursed by the Owner under the formula in this paragraph will be considered to be covered by the CMAR Fee.

10. If CMAR utilizes a Contractor Controlled Insurance Program (CCIP) the maximum amount to be considered reimbursable costs under this contract will be 0.7% of the total amount premium costs associated with such CCIP.

G. Notwithstanding the breakdown or categorization of any costs to be reimbursed in this Article 6 or elsewhere in the Contract Documents, there shall be no duplication of costs.

6.03 Specific Exclusions from Cost of the Work

A. The Cost of the Work expressly excludes the items in this Paragraph 6.03. This express itemization does not confer Cost of the Work or compensable status to otherwise ineligible items not listed here. Cost for any items not included in the Cost of the Work are to be included in the CMAR Fee unless specifically itemized at Construction Support Costs described in Article 5.

1. Payroll costs and other compensation of CMAR's officers, executives, principals, general managers, project managers, superintendents, safety managers, safety representatives, engineers, architects, estimators, attorneys, auditors, accountants, purchasing and contracting agents, expediters, timekeepers, clerks, and other personnel employed by CMAR, whether at the Site or in CMAR's principal or branch office for general administration of the Work. The payroll costs and other compensation excluded here are to be considered administrative costs covered by Construction Support Cost or the CMAR Fee.

2. Expenses of CMAR's principal and branch offices.

3. Any part of CMAR's capital expenses, including interest on CMAR's capital employed for the Work and charges against CMAR for delinquent payments.

4. Costs due to the negligence or fault or failure to perform a contractual obligation of CMAR, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable.

5. Cost for the correction of defective Work, disposal of materials or equipment wrongly supplied, and making good any damage to property.

6. Expenses incurred in preparing and advancing Claims.

7. Other overhead or general expense costs of any kind and the costs of any item not specifically and expressly included in Paragraph 6.02.

8. Costs recovered or reimbursed under other Construction Support Cost or Cost of the Work provisions.

9. Owner is a municipality and materials and services utilized in the construction of the Project may be exempted from state and local sales and use taxes pursuant to the provisions of Tex. Tax Code, Chapter 151. CMAR is responsible for taking full advantage of all tax exemptions applicable to the Project and such taxes are not reimbursable Costs of the Work. Owner will deduct from the Applications for Payment any taxes paid for materials or services that were entitled to tax exemption.

10. Any costs for self-insurance or insurance through a captive insurer owned or controlled by CMAR.

11. The cost of defending suits or claims for infringement of patent rights arising from requirements of the Contract Documents, payments made in accordance with legal judgments against CMAR resulting from such suits or claims, and payments of settlements made with the Owner's consent, if CMAR could have anticipated in the exercise of reasonable investigation that the required design, process or product was an infringement of a copyright or a patent, and failed to promptly furnish such information to the Engineer. The costs of legal defenses, judgments, and settlements, shall not be included in the Cost of the Work used to calculate CMAR's Fee or subject to the Guaranteed Maximum Price.

12. Costs and expenses arising from CMAR's indemnity obligations, including but not limited to, CMAR's costs and expenses in removing or defending against a mechanic's lien claim asserted against the Owner and/or its property, unless such mechanic's lien arises from Owner's wrongful failure to make timely payments for properly performed Work or Services or unless such lien arises from dispute for which CMAR is defending Owner's position.

13. Costs, including co-payments, not reimbursed by insurance, including but not limited to deductibles incurred by CMAR for losses covered under any insurance policy obtained for the Project. Deductible costs actually incurred for an All-Builders' Risk claim may be a Cost of the Work but shall not increase the GMP.

14. Penalties for the failure of the CMAR or a Subcontractor or another party for whom CMAR is responsible under the Contract to comply with applicable Laws and Regulations, unless the penalties are the result of the CMAR's compliance with the Contract Documents.

6.04 Compensation for the Cost of the Work

A. Compensation for the Cost of the Work is based on the amount earned for Work completed for each Work Authorization.

6.05 Savings

A. If upon completion of the Project or any Work Package, the actual Cost of the Work plus the CMAR's Fee is less than the GMP for the Project or such Work Package, as applicable, as set forth herein and as adjusted by Change Orders, the Savings (defined below) will belong to Owner. "Savings" means, with respect to the Project or a Work Package, as applicable, the GMP as adjusted by Change Orders, less (i) the Cost of the Work, (ii) the CMAR's Fee, (iii) the Construction Support Costs, and (iv) used CMAR's Contingency. If this Agreement is

terminated for any reason prior to Substantial Completion of the Work, all Savings shall be kept by the Owner.

6.06 Changes

A. Owner in its sole discretion may, pursuant to the procedures set forth in this Agreement and the General Conditions, authorize changes in the Work, issue additional instructions, require additional Work or direct the omission of Work previously ordered. CMAR will use commercially reasonable efforts to implement and perform such modifications without impacting the established schedule for performing and completing any Work. If it is not possible to avoid such an impact, CMAR will promptly notify Owner of the anticipated impact and obtain Owner's consent prior to implementing the applicable modification. Owner, in its sole discretion, may forego or delay such modifications or temporarily adjust the Work to be performed by CMAR, or the schedules associated therewith, to permit CMAR's implementation and performance of such modifications.

ARTICLE 7 — CONSTRUCTION MANAGER AT RISK FEE

7.01 The CMAR Fee will be determined as follows:

A. The CMAR Fee is a specified percentage of the Cost of the Work as shown in Exhibit B Table 1. No fee will be payable on the basis of costs itemized as excluded in Paragraph 6.03.

ARTICLE 8 — CMAR CONTINGENCY

8.01 CMAR Contingency

A. A separate CMAR Contingency may be established as part of the GMP for each Work Package, and if there are no Work Packages, as part of the GMP for the Project. The nature and amounts of CMAR Contingency will be shown in Exhibit B Table 1 as a separate line item for the Project or each Work Package, as appliable, and the CMAR Contingency funds are for CMAR's use to reimburse CMAR for costs considered reimbursable as Cost of the Work performed due to unforeseen causes or events which cannot reasonably be anticipated at the time Work Authorizations are issued as developed during preconstruction services and agreed to by Owner in writing.

B. CMAR Contingency funds will be included as a separate line item in the Schedule of Values. CMAR will provide a monthly written statement summarizing the CMAR Contingency activity, including buyout savings, and any balance adjustment from the previous period. The CMAR Contingency funds may be used by CMAR upon written authorization of Owner for costs sustained by either CMAR itself or a Subcontractor, for the allowable categories set forth in the Risk Register to be developed by CMAR during Preconstruction Services and agreed to in writing my Owner. The CMAR Contingency funds may not be used for costs which are reimbursable or recoverable under other provisions of the Contract or for correcting mistakes or errors in the Work by CMAR or its Subcontractors except as agreed in writing by Owner prior to issuance of a Work Package or as part of the accepted GMP.

C. If CMAR was paid for the following costs, the money recovered (1) from bonds and insurance coverage payments for such expenditures, and (2) from defaulting Subcontractors or Suppliers, shall be returned to Owner as Savings.

D. The CMAR Contingency will not be used to fund Owner-directed changes in the Work. Such changes will be administered through the contractual procedures established for changes in the scope of the Work, Work Authorizations as modified by Change Order, and Contract Amendments or other modifications that impact the Guaranteed Maximum Price.

E. The CMAR Contingency will not be used to recover the cost of items that are compensable as a Cost of the Work.

F. Not used.

G. Any buyout savings shall be transferred to the CMAR Contingency. The term "buyout savings" refers to the amount by which the actual Cost of the Work as established by a subcontract or purchase order in such form as, and based upon Bids that have been approved by Owner, is less than the amounts shown for such portions of the Work in the Guaranteed Maximum Price. As subcontracts and all other agreements related to a particular Work Authorization are executed, the CMAR shall submit to Owner a log, updated to show the amounts of buyout savings for transfer to the CMAR Contingency

H. The designated CMAR Contingency is the maximum amount available to CMAR to recover eligible costs under this Article; Owner will not increase the CMAR Contingency or otherwise reimburse CMAR for eligible costs incurred in excess of the CMAR Contingency.

I. CMAR will submit applications for reimbursement from the CMAR Contingency to Owner for written approval, in a format acceptable to Owner, together with appropriate documentation. Payments from the CMAR Contingency will be recorded in the Application for Payment.

ARTICLE 9 — WORK AUTHORIZATIONS

9.01 General Provisions Regarding Work Authorizations

A. Work Authorizations will be based on Work Packages prepared by CMAR in consultation with Engineer, and approved by Owner, describing equipment and materials to be purchased for installation or Work to be performed in accordance with the approved Work Authorization.

B. All Work to be provided by CMAR must be authorized by the execution of a Work Authorization specifying or referencing the scope of Work to be conducted.

C. Owner will issue each Work Authorization using the Work Authorization form provided by the Owner.

D. The Work Authorization will indicate the compensation to which CMAR is entitled for providing the authorized Work, including the Cost of the Work, applicable CMAR Fee, applicable Construction Support Costs, and any CMAR Contingency for such Work. Such compensation shall be considered a binding GMP under Article 11.

E. CMAR is not entitled to compensation for providing Work that Owner has not authorized.

9.02 First Work Authorization

A. The first Work Authorization, authorizing the commencement of construction for a portion of the Work, will include, in addition to authorization for a specific Work Package, or multiple specific Work Packages, the authorization of expenditures by CMAR for the following to the extent such expenses are specific to that portion of the Work (1) performance and payment bond premiums (2) Builder's Risk premiums, if CMAR is required to purchase and maintain

Builder's Risk insurance, and (3) premiums for other specific insurance policies required by the Contract.

ARTICLE 10 — PROCUREMENT OF SUBCONTRACTORS; CMAR SELF-PERFORMANCE OF AUTHORIZED WORK

10.01 Performance of the Authorized Work

A. CMAR will, in accordance with applicable Laws and Regulations, publicly advertise and solicit competitive unit price and/or lump sum bids/proposals ("Bids"), as determined in consultation with Owner, from trade contractors or subcontractors for the performance of all major elements of the Work other than the minor Work that may be included in General Conditions. CMAR shall establish the criteria for determining the Bid that provides the best value to the Owner, which shall be subject to Owner's approval, and included in the requests for Bids. The CMAR shall notify the Owner in advance in writing of the date it will receive the Bids.

B. Subject to the requirements in Texas Government Code Chapter 2269, Subchapter F, CMAR may submit a Bid to self-perform up to 60% of the Work of each Work Package (or the Project as a whole if there are no Work Packages) based on a monetary basis, so long as doing so will not limit bidding by competing bidders (prospective Subcontractors), provided that CMAR may request to exceed such limitation upon a showing, as determined in Owner's sole discretion, that (i) despite CMAR's best efforts CMAR could not obtain sufficient qualified competitive Bids from other trade contractors, or (ii) it would provide the best value to Owner or be in Owner's best interest to permit CMAR to self-perform such Work. If CMAR desires to self-perform any Work, CMAR shall submit its Bid for those portions of the Work in the same manner as all other trade contractors or Subcontractors, provided that CMAR shall not have access to, or review, Bids from all other trade contractors or Subcontractors pertaining to such Work prior to the opening of such Bids with the Owner as required by Paragraph 10.01.C below, and further provided that CMAR's Bid shall not duplicate any of CMAR's Construction Support Costs or other costs. For any Work CMAR desires to self-perform CMAR must comply with this paragraph and receive Owner's approval in accordance with this Paragraph 10.01 prior to such Work and the cost therefore being included in a GMP Proposal.

C. All Bids are to be opened in the presence of the Owner. If CMAR has submitted a Bid to self-perform Work as provided by Paragraph 10.01.B above, the Owner will determine whether CMAR's Bid provides the best value for the Owner and will award the subcontract for such Work to the bidder Owner determines provides the best value to Owner, which may be CMAR or a different bidder. For Work that CMAR has not submitted a Bid, CMAR will recommend to the Owner the Bid from the responsible bidder submitting the responsive bid that provides the best value to the Owner for that portion of the Work for which Bids are received.

D. In accordance with the requirements of Texas Government Code Chapter 2269, Subchapter F:

1. For any Bids CMAR reviews, CMAR shall review all such Bids in a manner that does not disclose the contents of any Bid to a party not employed by either a member of the OPT or CMAR.

2. If CMAR reviews, evaluates, and recommends to the Owner a Bid, but Owner requires another Bid be accepted, Owner shall compensate the CMAR by a change in the Contract Price or Contract Time(s) for any additional cost and risk that the CMAR incurs because of the Owner's requirement that such other Bid be accepted. This paragraph does not apply to Bids Owner has accepted accordance with Paragraph 10.01.C above for Work for which CMAR has submitted a Bid to self-perform (regardless of whether Owner accepted the Bid of CMAR or another bidder).

E. All subcontracts must be on a lump sum or unit price basis unless other payment terms are approved in writing and in advance by the Owner. Upon Owner's approval in the final terms of the subcontract, CMAR shall enter into a written subcontract for the subcontract work and promptly provide a copy to the Owner. All Bids shall be publicly available after award of the subcontract or within seven (7) days after the date of final selection, whichever is later.

F. If a selected trade contractor or subcontractor fails to execute a subcontract after being selected in accordance with this Paragraph 10.01 or defaults in the performance of its Work, the CMAR may, with written approval of the Owner and without further advertising, select a replacement trade contractor or subcontractor to do so.

G. CMAR shall include in each Subcontract a provision permitting Contractor to assign to Owner each subcontract upon termination of this Agreement pursuant to Paragraph 16.02 of the General Conditions. Upon such termination, CMAR agrees, upon Owner's written request, to execute an assignment of any or all subcontracts to Owner. Each subcontract shall contain provisions stating that: (1) upon assignment of each subcontract to Owner, Subcontractor shall assume toward the Owner all of the obligations and responsibilities which the CMAR by the Contract Documents, assumes toward the Owner; (2) Owner's liability to Subcontractor for any costs incurred by Subcontractor prior to the assignment shall be limited to amounts that would have been properly owed by Owner to CMAR and by CMAR to the Subcontractor for Work performed by that Subcontractor prior to the termination and for which Owner has not yet issued payment to CMAR unless otherwise agreed to in writing by Owner following the assignment.

H. Value engineering or cost saving alternative proposals contained in any CMAR or Subcontractor bids must be set forth as alternates to bid required by Drawings or Specifications. CMAR shall consult with Owner and Engineer before awarding any alternates to any Subcontractors and shall provide Owner with a copy of each proposed alternate for Owner's review and acceptance. "Value engineering" has its commonly accepted meaning within the construction industry and does not imply the practice of architecture or engineering with or without a license.

ARTICLE 11 — GUARANTEED MAXIMUM PRICE

11.01 Subject to the provisions of Article 4, CMAR guarantees that the maximum amount payable by Owner (Guaranteed Maximum Price, or GMP) for the Work Package(s) or the Project, as applicable, the sum of the amounts for Paragraphs 11.01.A through D that follow will be the binding GMP for the Work or a specified portion thereof, established by the process stated in Paragraphs 11.02 and 11.03 for such Work Package(s) or the Project, as applicable.

A. Construction Support Cost Amount (Article 5);

B. Cost of the Work (Article 6);

C. CMAR Fee (Article 7); and

D. CMAR's Contingency Amount (Article 8).

11.02 The Estimated GMP indicated in Exhibit B Table 1, Item 44—Estimated Guaranteed Maximum Price is a preliminary figure for the entire Project as of the Effective Date of the Contract. CMAR will revise the Estimated GMP as the design is continued and completed.

11.03 A binding GMP for each Work Package will be established following these procedures:

A. When a Work Package(s) reaches a level of design development that the Owner in consultation with CMAR determines is sufficient to establish a binding GMP for such Work Package(s), CMAR will propose a GMP Proposal for such Work Package(s) for Owner's approval, provided that, Owner in its sole discretion may determine the necessary level of design development sufficient to establish such binding GMP. Upon acceptance of a GMP Proposal, a binding GMP is established for that portion of the Work, which shall include Construction Support Costs, the Cost of the Work, the CMAR Fee, and any CMAR Contingency associated with that portion of the Work. Additional GMP Proposals shall be proposed by CMAR as Work Packages are prepared, and as GMP Proposals are accepted, the overall binding GMP for the Project shall increase, provided that Owner is entitled to Savings from each Work Package as provided in Paragraph 6.05. Upon execution of the final GMP Proposal for the Project, the cumulative total of the GMPs for all GMP Proposals executed for the Project shall be the overall binding GMP for the Project, provided that Owner is entitled to Savings from each Work Package as provided in Paragraph 6.05.

1. Owner and CMAR may agree to binding GMPs for defined portions of Work for the Project, comprised of multiple Work Packages and not encompassing the entirety of the Project, if desired. Such arrangements shall be specified in the form of Work Authorizations or other modifications to the Contract.

11.04 In preparing and proposing a GMP Proposal, CMAR represents that:

A. CMAR has included in such GMP Proposal all Work required by and described in the applicable Work Package(s), including Work pending the continued development and completion of the Drawings and Specifications; and

B. Such GMP Proposal excludes only Work that CMAR, could not have reasonably anticipated as a result of changes to the scope of the applicable Work Package(s), including any changes to systems, kinds and qualities of materials, finishes or equipment, after the date of the GMP Proposal.

11.05 CMAR shall not withdraw its GMP Proposal for the Project or the applicable Work Package(s) for sixty (60) days following respective submission to the Owner, subject to changes in the GMP Proposal for the Project based on the development of a new Work Package during such time period that Owner requests is include in such GMP Proposal. If Owner accepts such GMP Proposal, Owner and CMAR shall execute a Work Authorization for such GMP Proposal, which shall become part of the Contract as a Contract Amendment, and CMAR shall perform the Work covered by such Work Authorization in accordance with its terms and the terms hereof.

11.06 CMAR shall prepare and submit each GMP Proposal in accordance with the guidelines and delivered in the format specified by Owner. GMP Proposals and the supporting documents are complementary and, in the event of an irreconcilable conflict between or among them, the

interpretation that provides for the higher quality of material and/or workmanship shall prevail over all other interpretations.

11.07 Each GMP Proposal shall allow for reasonably expected changes and refinements in the Drawings and Specifications through completion of the construction documents except for material changes in scope and shall include the CMAR Contingency.

11.08 Price Escalation—CMAR shall not be entitled to recover an increase in a GMP as a result of price escalations in the marketplace or price increases due to labor or materials shortages or tariffs or to recover such increases in excess of a GMP.

11.09 Owner's Construction Budget

A. Owner will provide to CMAR Owner's construction budget (Budget) and CMAR shall develop its procurement, phasing, and sequencing strategy, identifying each Work Package used to construct the Work, such that the GMP for the entire Project will not exceed Owner's Budget. Owner, working with CMAR, will update this Budget with actual amounts for each line item as Work Authorization amounts identified in the updated Budget are determined.

B. Owner will revise the Budget to incorporate Change Orders that change the funds available for Budget line items. When amounts for all Work Authorizations have been determined and the binding GMP is established for the Project, the Budget must correlate to GMP line items, and the GMP for the Project must be less than or equal to the Budget.

C. Except to the extent CMAR makes a successful Claim in accordance with Article 12 of the General Conditions, if the Cost of the Work, including the CMAR's Construction Support Costs, together with the CMAR's Fee, for Work Package(s) that are included an accepted GMP Proposal, exceed the applicable GMP, then CMAR shall pay such excess from its own funds and shall have no Claim against Owner on account thereof. If Owner is required to pay any such excess for any reason, CMAR shall be obligated to reimburse Owner such amounts plus interest and all costs of collection, including without limitation, attorneys' fees and expert costs.

11.10 Owner's Right to Accept or Reject GMP Proposal

A. The Guaranteed Maximum Price for all Work on the Project and Work Packages cannot exceed the Owner's Budget.

B. Should a GMP Proposal be unacceptable or not submitted in good faith pursuant hereto, in Owner's sole option and discretion (which determination is final), the Owner reserves the right to, in addition to exercising any right afforded under Law or pursuant to the Contract Documents:

1. Negotiate such GMP with CMAR and/or approve an increase in the Owner's Construction Budget in writing.

2. Authorize rebidding or renegotiation for some or all parts of the Project or Work Package within a reasonable time without an increase in the Guaranteed Maximum Price.

3. Cooperate in the revision of the scope of the Project to reduce the actual cost of construction to the Owner's Construction Budget.

4. Abandon the Project, in whole or in part, and terminate this Contract in whole or in part in accordance with applicable termination for convenience provisions, or, if Owner

determines at its sole option and discretion the GMP Proposal was not submitted in good faith, in accordance with applicable termination for cause provisions.

5. Request a GMP Proposal or competitive sealed proposals for the applicable Work Package(s) from other firms.

C. If Owner selects the option described in Paragraph 11.10.B.1, CMAR shall proceed with performance of the Work, and provide CMAR Services as described in these Contract Documents without additional compensation for Procurement Services. Other fees and expenses related to the Cost of Work will be adjusted in accordance with the revised Cost of Work.

D. If Owner selects the option described in Paragraph 11.10.B.2, Owner and CMAR shall proceed with rebidding or renegotiation of some or all parts of the Project. The OPT will work with CMAR to determine if rebidding or restructuring Work Packages is likely to lead to lower bid prices; if so determined, CMAR will rebid selected original Work Packages or restructured Work Packages identified as having the potential to reduce the overall cost of construction to the Owner's Construction Budget. CMAR will advise the OPT of the likely impact to the schedule resulting from rebidding Work Packages. CMAR will provide CMAR Services for rebidding these Work Packages without additional compensation.

E. If Owner selects the option described in Paragraph 11.10.B.3, CMAR shall assist the OPT in studies to revise the scope of the Project to bring the Project cost within the Owner's Construction Budget. CMAR will provide research and cost estimates to evaluate the potential cost savings of each proposed change in scope for Work Packages and advise the OPT of the likely impact to the schedule resulting from rebidding Work Packages and changes in Contract Times that will result from the changed Work Packages. CMAR will provide CMAR Services for consultation in modifying the Project scope and rebidding these Work Packages without additional compensation.

F. CMAR shall revise the project schedule to incorporate delays caused by actions taken to bring the Project within the Owner's Budget.

G. Once accepted by Owner, the amount of the GMP shall not be increased except by written Change Order executed by both Owner and CMAR before any Change Order Work is performed. Accordingly, no course of conduct or dealings between the parties, nor express or implied acceptance of alterations or additions to the Work, and no claim that the Owner has been unjustly enriched by any alteration or addition to the Work, whether or not there is, in fact, any unjust enrichment to the Work, shall be the basis of any claim to any increase in any amounts due under the Contact Documents or a change in any time period provided for in the Contact Documents. CMAR acknowledges that the Owner is relying upon the CMAR's skill and experience in connection with the CMAR Services and Work. CMAR agrees that in determining the Guaranteed Maximum Price and Contract Time, CMAR has exercised the best skill and efforts of the CMAR to make appropriate judgments and inferences in connection with the requirements of the Contract Documents and all inquiries of the Engineer, the Engineer's consultants, and the OPT to clarify the Contract Documents as necessary to calculate and establish both the Guaranteed Maximum Price and Contract Time.

11.11 Conversion of Cost of Work to a Lump Sum Amount

A. If Owner and CMAR mutually agree, compensation for all Work on the Project, or for any Work Authorization, may be converted to a lump sum (stipulated amount). If compensation

for all Work on the Project is converted to a lump sum amount, this lump sum amount will include costs for Construction Support Cost, Cost of the Work, the CMAR Fee, and all other costs associated with the Contract, all as if bid as a lump sum amount. CMAR will no longer have access to CMAR Contingency funds and bears all risk associated with delivering the Work for the lump sum amount.

B. If a Work Authorization is converted to a lump sum amount, this lump sum amount will include costs for Cost of the Work, the CMAR Fee, and all other costs associated with the Work Authorization, all as if bid as a lump sum amount; provided, however, that Construction Support Costs will continue to be compensated per Paragraph 5.05.

C. The following will continue to apply for conversions to lump sum covered in Paragraphs A and B:

1. The Cost of the Work provisions in Article 6 will continue to apply to pricing certain Change Orders and other similar matters, as set forth in Paragraph 6.01.A.2.

2. Construction Support Costs Extended Rate provisions of Paragraph 5.04 will continue to apply for Change Orders.

ARTICLE 12 — RESERVED

ARTICLE 13 — PAYMENT PROCEDURES

13.01 Submittal and Processing of Payments

A. Billing and payment for CMAR Services are addressed in Article 3. The provisions in this Article 13 pertain to billing and payment for the Work.

B. After confirming quantities with the Engineer, CMAR shall submit certified Applications for Payment in accordance with Article 15 of the General Conditions. Applications for Payment will indicate the amount of the CMAR Fee then payable. Applications for Payment will be processed by Owner and Engineer as provided in the General Conditions.

13.02 Progress Payments; Retainage

A. Owner shall make progress payments on the basis of CMAR's Applications for Payment that Owner approves based on CMAR's Applications for Payment and accompanying supporting documentation, within **31** days of receiving CMAR's certified Application for Payment (which shall be the date of the invoice for purposes of Section 2251.021 of the Government Code), provided that such Applications for Payment have been timely submitted and satisfied all requirements of the Contract and conditions for payment, including, without limitation, Paragraph 15.02 of the General Conditions. Notwithstanding the foregoing, Owner shall be entitled to withhold amounts of an Application for Payment that are not certified, or as permitted by Law to the extent there is a bona fide dispute between Owner and CMAR, between CMAR and a Subcontractor or Supplier, or between a Subcontractor and its Subcontractor or Supplier.

B. Progress payments on account of the Cost of the Work will be made for each Work Authorization.

1. Prior to Final Completion of the Project, Owner will withhold 5% as retainage from approved progress payments, which shall be held and disbursed in accordance with Chapter 2252 of the Texas Government Code. Owner may withhold from progress

payments any amount, including but not limited to liquidated damages, Owner is entitled to withhold in accordance with the Contract.

13.03 Final Payment

A. Upon Final Completion and acceptance of the Work, Owner shall pay the remainder of the Contract Price in accordance with Article 15 of the General Conditions.

13.04 Consent of Surety

A. Owner will not make final payment or return or release retainage at Final Completion or any other time, unless CMAR submits written consent of the surety to such payment, return, or release.

13.05 Interest

A. All undisputed amounts not paid when due will accrue interest as prescribed in Texas Government Code Section 2251.021.

13.06 Joint Payments to Subcontractors

A. If Owner withholds certification for payment, Owner may, at its sole option, issue joint checks to CMAR and to any Subcontractor or Supplier to whom the CMAR failed to make payment for Work properly performed or material or equipment suitably delivered. If the Owner makes payments by joint check, Owner will notify CMAR and CMAR shall reflect such payment on its next monthly payment application.

13.07 CMAR acknowledges that the timely and complete performance of its obligations pursuant to the Agreement is critical to the operations of Owner. Accordingly, in the event of a dispute between Owner and CMAR, CMAR will continue to so perform its obligations under the Agreement and Owner will continue to make undisputed payments during the resolution of such dispute until Final Completion or termination of the Contract.

13.08 Notwithstanding any provisions in the Contract Documents to the contrary, the Owner may withhold payment to the CMAR to the extent reasonably necessary to protect its interests hereunder if any one or more of the following conditions exist:

A. CMAR is in default of any of its obligations hereunder or otherwise is in default under any of the Contract Documents and Owner reasonably anticipates it could incur costs as a result of such default;

B. Any part of such payment is attributable to Work which is defective or not performed in accordance with the Contract Documents; provided, however, such payment will be made as to the part thereof attributable to Work which is performed in accordance with the Contract Documents and is not defective (unless otherwise specified herein, only that portion of the Work which is defective will not be paid);

C. CMAR has failed to make payments promptly to Subcontractors for material or labor used in the Work for which the Owner has made payment to the CMAR per the terms of this Agreement and the General Conditions;

D. If Owner in good faith determines that the portion of the GMP then remaining unpaid will not be sufficient to complete the Work in accordance with the Contract Documents, whereupon no additional payments will be due CMAR hereunder unless and until CMAR, at its sole cost, performs a sufficient portion of the Work so that such portion of the GMP that remaining unpaid as determined by Owner to be sufficient to so complete the Work,

provided however, if the shortfall is due to Owner's failure to approve Change Order proposals unless subject to a good faith dispute between the parties, then this provision shall not apply; or

E. CMAR fails to deliver the affidavits, releases and waivers of lien required with an Application for Payment.

ARTICLE 14 — DOCUMENTATION AND AUDIT

14.01 Documentation

A. CMAR and Subcontractors will establish and maintain records of all costs and expenses related to the Project in accordance with in the Audit Exhibit attached hereto as Exhibit D and incorporated herein (as the term "records" is defined in such Exhibit) and in accordance with generally accepted accounting practices (GAAP) in accordance with cost accounting standards issued by the Federal Office of Management and Budget Cost Accounting Standards Board.

B. CMAR will provide documentation of all Costs of the Work with the Application for Payment as required by the Contract Documents.

14.02 Audit

A. Owner shall have the right to inspect and audit all CMAR's records relating to the Project as provided in the Audit Exhibit (as the term "records" is defined in such Exhibit). CMAR shall preserve all such documents and records as prescribed therein and organized by each Application for Payment period. Subcontractors performing any Work will retain such records and afford such access to Owner, and preserve such documents, to the same extent required of CMAR, which obligations CMAR shall incorporate into CMAR's subcontract with Subcontractor.

ARTICLE 15 — CONTRACT TIMES

15.01 Contract Times—Dates

A. The Work for the entire Project will reach Substantial Completion on or before **[date]**, and completed and ready for final payment in accordance with Paragraph 15.06 of the General Conditions on or before **[date]**.

B. The dates by which the Work for each Work Package will reach Substantial Completion, and by which such Work will be completed and ready for final payment with respect to such Work Package, will be set out in a Work Authorization issued after execution of a Contract Amendment confirming Owner's accepted GMP Proposal for such Work Package and will comply with provisions of Article 15.

15.02 Liquidated Damages

A. CMAR and Owner recognize that all time limits for Milestones, if any, Substantial Completion of Work Packages and the Project, and completion and readiness for final payment as stated in the Contract Documents are of the essence of the Contract and that Owner will suffer financial and other losses if the Work is not completed and Milestones not achieved within the Contract Times, as duly modified. The parties also acknowledge the actual delay damages which will be suffered by Owner if the Work is not completed on time is difficult if not

impossible to determine and that the liquidated damages agreed to in the Contract Documents shall not be deemed a penalty, and are a fair and reasonable estimate of the delay damages Owner is expected to suffer.

1. Each Work Authorization and the accepted GMP Proposal will specify the amount of liquidated damages CMAR shall pay Owner for each day that expires after the time, as duly adjusted pursuant to the Contract, specified for Substantial Completion of the Work Authorization or the Projects as applicable. Liquidated Damages for the time between Substantial Completion and Final Completion will also be specified in each Work Authorization and in the accepted GMP Proposal.

2. If Owner recovers liquidated damages for a delay in completion of the Project or any Work Package or a specified Milestone by CMAR, such damages will not limit the Owner from exercising any other rights and remedies under the Contract or entitlement to damages for any injury, damage or loss, including, without limitation, any termination rights that the Owner may have as a result of such delay.

3. The Owner may deduct liquidated damages described in this Paragraph 15.02 from any unpaid amounts due the CMAR under this Agreement. Any liquidated damages not deducted from any unpaid amounts due the CMAR shall be payable to the Owner at the demand of the Owner. In the event the CMAR successfully challenges the enforceability of the liquidated damages set forth in the Contract, then, notwithstanding any provision to the contrary in the Contract Documents, the CMAR shall pay the Owner all actual damages, including consequential damages, incurred by the Owner in connection with the CMAR's failure to achieve Substantial Completion of the Work or specified portion thereof within the specified Contract Time(s), as duly modified, including all costs incurred by the Owner in proving its actual and consequential damages, including all attorneys' fees, experts' fees, costs and expenses.

B. Liquidated damages under this Paragraph 15.02 shall be the Owner's sole and exclusive monetary remedy for delay, except when challenged by CMAR as described in Paragraph 15.02.A.3.

15.03 Intentionally Deleted.

15.04 Time is of the Essence

A. ALL TIME LIMITS STATED IN THE CONTRACT DOCUMENTS ARE OF THE ESSENCE. CMAR agrees to perform its obligations with due diligence and within such time limits set forth in the Contract Documents and shall use reasonable efforts to mitigate any risk of delays.

15.05 Milestones and Associated Damages

A. Milestones and associated damages may be established in Work Authorization(s) executed by the Parties.

ARTICLE 16 — CONTRACT DOCUMENTS

16.01 Contents

A. The Contract Documents consist of all of the following:

1. This Agreement.

2. General Conditions.

3. Supplementary Conditions.
4. General Requirements (Division 01 of the Specifications whether completed as of the Effective Date of the Contract or otherwise.)
5. Drawings and Specifications, whether completed as of the Effective Date of the Contract or otherwise**.**
6. Exhibits to this Agreement (enumerated as follows):
    a. Exhibit A, Scope of CMAR's Services;
    b. Exhibit B, Basis of Compensation;
    c. Exhibit C, Insurance Requirements
    d. Exhibit D, Audit Exhibit
    e. Exhibit E, Key Personnel
    f. Exhibit F, Lien and Bond Claim Release and Waivers (F-1, F-2, F-3, F-4)
    g. Exhibit G, Forms of Bonds
    h. Exhibit H, Foreseeable Bad Weather Days
7. The following which may be delivered or issued on or after the Effective Date of the Contract and are not attached hereto:
    a. Contract Amendments;
    b. CMAR'S GMP Proposal(s) for the Project or Work Package(s) when accepted by Owner, and any executed Work Authorizations, including any exhibits identified as Drawings, Specifications, or other Contract Documents;
    c. Work Authorization Modifications;
        1) Work Change Directives;
        2) Change Orders; and
        3) Field Orders.
    d. Performance and Payment Bonds; and
    e. Warranty Bonds, if any.

B. There are no Contract Documents other than those listed above in this Article 16.

C. The Contract Documents may only be amended, modified, or supplemented as provided in the Contract.

D. If there is any inconsistency, ambiguity, or discrepancy in the Contract Documents, precedence shall be given to the Contract Documents in the following order of priority: (1) the terms of the main body of the Agreement; (2) the terms of the Exhibits to this Agreement; (3) the Supplementary Conditions; (4) the General Conditions; and (5) the Drawings and Specifications, with those of a later date taking precedence over those of an earlier date. If there are conflicting provisions within the individual category of the Contract Documents identified above, unless expressly excused by Owner in writing, the provision that establishes the higher quality or uses the more stringent standard shall prevail. An amendment,

modification, or change to this Contract shall take precedence over the term it amends, and with respect to the other terms of this Contract, will take its precedence regarding the term it amends in accordance with this Section. All other documents and terms and conditions not affected by the amendment, modification, or change shall remain unchanged.

ARTICLE 17 — REPRESENTATIONS, CERTIFICATIONS, AND STIPULATIONS

17.01 CMAR's Representations

A. To induce Owner to enter into this Contract, CMAR makes the following representations:

1. CMAR has examined and carefully studied the Request for Proposals, Contract Documents, including Addenda.
2. CMAR has visited the Site, conducted a thorough visual examination of the Site and adjacent areas, and become familiar with the general, local, and Site conditions that may affect cost, progress, and performance of the Work.
3. CMAR is familiar with all Laws and Regulations that may affect cost, progress, and performance of the Work.
4. CMAR has carefully studied the reports, if any, of explorations and tests of subsurface conditions at or adjacent to the Site and the drawings, if any, of physical conditions relating to existing surface or subsurface structures at the Site that have been identified in the Supplementary Conditions, with respect to the Technical Data in such reports and drawings, and prior to submitting a GMP Proposal will have notified Owner in writing of any concerns about the adequacy of such information or has had the opportunity to conduct its own subsurface investigation.
5. CMAR has carefully studied the reports and drawings, if any, relating to Hazardous Environmental Conditions, if any, at or adjacent to the Site that have been identified in the Supplementary Conditions, with respect to Technical Data in such reports and drawings.
6. CMAR has considered the information known to CMAR itself; information in the Request for Proposals; information commonly known to contractors doing business in the locality of the Site; information and observations obtained from visits to the Site; the Contract Documents; with respect to the effect of such information, observations, on (a) the cost, progress, and performance of the Work; (b) the means, methods, techniques, sequences, and procedures of construction to be employed by CMAR; and (c) CMAR's safety precautions and programs.
7. Based on the information and observations referred to in the preceding paragraph, CMAR agrees that no further examinations, investigations, explorations, tests, studies, or data are necessary for the performance of the Work at the Guaranteed Maximum Price, within the Contract Times, and in accordance with the other terms and conditions of the Contract.
8. CMAR is aware of the nature of work to be performed by Owner and others at the Site that relates to the Work as indicated in the Contract Documents.
9. CMAR has given Owner and Engineer written notice of all conflicts, errors, ambiguities, or discrepancies that CMAR has discovered in the Contract Documents, and of

discrepancies between Site conditions and the Contract Documents, and the written resolution thereof by Owner and Engineer is acceptable to CMAR.

10. The Contract Documents are generally sufficient to indicate and convey understanding of all terms and conditions for performance and furnishing of the Work.

11. CMAR's entry into this Contract constitutes an incontrovertible representation by CMAR that without exception all prices in the Agreement are premised upon performing and furnishing the Work required by the Contract Documents.

12. CMAR has not given, made, promised or paid, nor offered to give, make, promise or pay any gift, bonus, commission, money or other consideration to any person as an inducement to or in order to obtain the work to be provided to the Owner under this Agreement. CMAR further agrees that CMAR shall not accept any gift, bonus, commission, money, or other consideration from any person (other than from the Owner under this Agreement) for any of the services performed by CMAR under or related to this Agreement. If any such gift, bonus, commission, money, or other consideration is received by or offered to CMAR, CMAR shall immediately report that fact to the Owner and, at the sole option of the Owner, the Owner may elect to accept the consideration for itself or to take the value of such consideration as a credit against the compensation otherwise owing to CMAR under this Agreement.

B. CMAR further represents that CMAR will comply with the requirements of Section 552.372(a) of the Texas Government Code. Except as provided by Section 552.374(c) of the Texas Government Code, the requirements of Subchapter J, Chapter 552 of the Government Code, may apply to this Contract, and CMAR agrees that this Contract can be terminated if the CMAR knowingly or intentionally fails to comply with a requirement of that subchapter.

17.02 CMAR's Certifications.

A. CMAR certifies that it has not engaged in corrupt, fraudulent, collusive, or coercive practices in competing for or in executing the Contract. For the purposes of this Paragraph 17.02:

1. "corrupt practice" means the offering, giving, receiving, or soliciting of anything of value likely to influence the action of a public official in the proposal process or in the Contract execution;

2. "fraudulent practice" means an intentional misrepresentation of facts made (a) to influence the Proposal process or the execution of the Contract to the detriment of Owner, (b) to establish proposal Contract prices at artificial non-competitive levels, or (c) to deprive Owner of the benefits of free and open competition;

3. "collusive practice" means a scheme or arrangement between two or more Proposers, with or without the knowledge of Owner, a purpose of which is to establish proposal prices at artificial, non-competitive levels; and

4. "coercive practice" means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the proposal process or affect the execution of the Contract.

IN WITNESS WHEREOF, Owner and CMAR have signed this Agreement.

This Agreement will be effective on **[indicate date on which Contract becomes effective]**, which is the Effective Date of the Contract.

ARTICLE 1 — BASIC PRECONSTRUCTION SERVICES

1.01 Project Management

A. Participate in Project Meetings

1. Participate in Project kick-off meeting. Be prepared to discuss CMAR's team and organizations structure, assignments for responsibilities and CMAR's plan for implementation of Preconstruction Services.

2. Participate in periodic meetings with Owner and Engineer (collectively, Owner's Project Team or OPT) to review progress, coordinate efforts, and discuss planned activities for the next period. It is anticipated that these progress meetings will occur at least monthly, and more frequently before establishing a GMP.

3. Participate in bi-weekly progress meetings with Engineer

B. Provide administration of Agreement for CMAR Preconstruction Services, including Applications for Payment, progress reporting, management of CMAR staff, schedule for services, and deliverables.

1.02 Review of Preliminary Design Report

A. As a priority first task, review Engineer's Preliminary Design Report as soon as it is available.

1. Provide input and advice, according to the general requirements of Exhibit A Paragraph 1.03.D below, regarding the Preliminary Design Report's content concerning coordination of utilities work (both above-ground utilities and Underground Facilities), Underground Facilities Procedure, and mitigation of utilities conflicts, for Engineer's use in the Final Design Phase of Engineer's services.

2. Recommend strategies for the division of the Work under design into Work Packages, and for phased design and authorization of construction of such Work Packages. Work collaboratively with the OPT to finalize the number of Work Packages and their approximate scope, and the schedule for preparation, authorization, and completion of such Work Packages.

1.03 Design-Related Preconstruction Services

A. Attend periodic design meetings to provide consultation on aspects of the design that will impact the budget, schedule, and quality of the completed Work.

B. Advise, assist, and provide recommendations on all aspects of the planning and design of the Work. Consult with the OPT regarding Site use and improvements, and the selection of materials, building systems, and equipment.

C. Provide recommendations to the OPT for the following: on construction feasibility; regarding actions designed to minimize adverse effects on labor productivity or material shortages; on time requirements for procurement (including long-lead items), installation, and construction completion; and on factors related to construction cost including estimates of alternative designs or materials, preliminary budgets, and possible opportunities for savings.

D. Review Contract Documents and in-progress design documents, including the documents variously described as preliminary design documents, preliminary design report, design development documents, and the interim final drafts of the Drawings and Specifications, and provide input and advice on constructability, materials and equipment selections, and availability. Take field measurements and verify field conditions (including as required by 1.03.E below), compare them to such documents, and promptly report to Engineer and Owner any questions, errors, inconsistencies, inadequacies, insufficiencies, or omissions (collectively "Deficiencies") in the Specifications, Drawings, or other design documents. Provide timely suggestions for modifications to improve:

1. Ability to bid the Work:
   a. Identify Work elements that may be difficult to price as presented in the design documents. Provide suggestions to reduce risk and to obtain better pricing from Subcontractors and Suppliers.
   b. Provide suggestions on Work Packages to improve biddability, however, Engineer will not subdivide work into Work Packages for specific trades.
   c. Determine that specified products are readily available and notify Engineer if equal or substitute materials might be available.
2. Constructability, including sequencing or coordination issues:
   a. Adequacy of details for construction;
   b. Potential conflicts during construction;
   c. Feasibility of construction;
   d. Construction sequencing;
   e. Ability to coordinate among Subcontractors and Suppliers; and
   f. Coordination between Contract Documents.
3. Operability:
   a. Ability to minimize disruptions to existing operations;
   b. Ability to complete construction connections to existing facilities or utilities;
   c. Modifications to facilitate initial start-up and/or performance testing; and
   d. Ability of Owner to operate/maintain the facility when completed.
4. Possible use of patented, licensed, or copyrighted products.
5. Requirements for Subcontractor and equipment and materials procurement.
6. Completeness, consistency, and clarity.

E. Subsurface conditions and Underground Facilities

1. Review information made available by Owner.
   a. Review information pertaining to subsurface or physical conditions at the Site. Inform Owner and Engineer of additional examinations, investigations, explorations, testing, or studies (Supplemental Investigations) of subsurface or physical conditions at the Site that CMAR concludes would be beneficial if

conducted prior to commencement of construction. See General Conditions Paragraph 5.03.E.

b. Review information pertaining to Underground Facilities. Collaborate with the Engineer to improve the accuracy and completeness of information regarding Underground Facilities that Engineer incorporates into Work Authorizations in accordance with General Conditions Paragraph 5.05.

2. Owner will issue a Work Authorization for any necessary potholing, exploratory excavations, or other field investigations related to Paragraph E if necessary.

F. Research potential substitutes, furnish data and prepare a Preconstruction Substitute Request prior to a Work Authorization requesting the Owner to authorize the use of other items of equipment or material in accordance with General Conditions Paragraph 7.09.

G. Provide review comments in writing using the processes or procedures prescribed by the Owner. Verify that the Project design can be executed within the Owner's Construction Budget, within the allotted Contract Times, and with available labor, equipment, and materials.

H. CMAR must review the Contract Documents and other documents described in 1.03.D above on a continuous basis throughout performance of its scope of Services and Work and promptly report any Deficiencies or potential Deficiencies that it discovers to the Owner and Engineer. CMAR shall be responsible for the consequences of defects that result from its failure to disclosure Deficiencies that it knew or should have known about in its capacity as a contractor and not as a person licensed or registered under Title 6, Occupations Code. CMAR shall be liable to Owner for the consequence of defects that result from CMAR's failure to promptly disclose potential Deficiencies in writing to Owner and Engineer.

I. To the extent the Owner requires any incidental services, construction consulting, or value engineering, the Owner acknowledges that such services are advisory and not professional design services except to the extent the Construction Documents require professional design services. The Owner will, with due diligence, refer such questions, matters, and inquiries to the design professional and the CMAR shall have no liability to the Owner or the Engineer for its consultation for such services to the extent those services are the kind that must be performed by a person licensed or registered under Title 6, Occupations Code and not by CMAR in its capacity as a contractor.

1.04 Construction Management Plan

A. Develop a written Construction Management Plan that incorporates the following elements:

1. CMAR's organization for the Construction Phase of the project, including assigned responsibilities and level of authority within Project management;

2. Communication plan, including plans for distribution of documents, implementation of Action Item and Decision registers, frequency of reporting and project controls;

3. Document management plan that incorporates Communications Plan and contractual Electronic Data Protocols;

4. Construction contract administration;

5. Cost management;

6. Time management;

7. Quality management;
8. Risk management;
9. Safety management;
10. Site management and environmental controls;
11. Regulatory requirements and permits;
12. Procurement Strategy Plan; and
13. Start up and commissioning program.

B. Work with the OPT to incorporate requirements of the General Conditions and General Requirements (Division 01 of the Specifications) into the plan. Reference provisions in the General Conditions and General Requirements as appropriate. Prepare a draft Construction Management Plan and submit for review and comment by the OPT. Respond to comments and incorporate changes suggested by review comments as appropriate.

1.05 Construction Contract Administration

A. Work with the OPT to incorporate requirements of the General Conditions and General Requirements into administration of the Contract.

B. Communications

1. Assist the OPT with planning Project meetings, participate in these meetings and provide documentation as requested by the OPT.
2. Plan, schedule, and document meetings held with Subcontractors and Suppliers. Include the members of the OPT as appropriate.

1.06 Cost Management

A. Provide a preliminary evaluation of the Owner's program and budget requirements to determine that CMAR will be able to construct the facilities described in that program within the Owner's Construction Budget (Budget) using conceptual estimating techniques. Discuss this initial review of the Budget with the OPT.

B. Work with Owner to update the Budget with supporting data for review by the OPT at the following intervals:

1. Completion of preliminary design documents by the Engineer and approval by the Owner.
2. Completion of design development documents by the Engineer and approval by the Owner.
3. At appropriate intervals agreed to by the OPT and CMAR during the preparation of the Construction Documents to determine that changes to the design can be constructed within the Budget.

C. Assist Owner in preparing an updated line-item Budget based on the CMAR's proposed Procurement Strategy Plan prepared per Paragraph 1.13. This Budget is to include a line item for each anticipated Work Package, as well as line items for Construction Support Costs, the CMAR Fee, and CMAR Contingency and other costs, if any, that will be incorporated into the GMP for the Project.

D. Assess current construction market to determine risk associated with the Budget. As an example, volatility in the cost of selected materials or equipment may drive cost above the Budget. Identify areas where costs may be lower than original estimates and if cost savings may be used to balance the Budget. Report the cost of various design and construction alternatives to the Owner, including the CMAR's assumptions in preparing its analysis, a variance analysis between budget and preliminary Budgets, and recommendations for any adjustments to the Budget. Work with the OPT to consider costs relating to efficiency, usable life, maintenance, energy, and operation as part of the cost analysis.

E. Notify the OPT immediately if any estimated construction cost will cause the projected GMP to exceed the Budget. Make appropriate recommendations to the OPT if cost projections exceed the Budget.

F. Provide the Budget-related services set out in Paragraph 11.04 of the Agreement.

1.07 Time Management

A. Provide a preliminary master schedule for the Contract. Incorporate the Owner's preliminary schedule if any,, and the schedule for design, and preconstruction and procurement services, and construction services into the preliminary master schedule. Include allowances for reasonable periods required for the review and approval of items by the OPT and for approvals of governmental authorities having jurisdiction over the Project. Prepare the preliminary master schedule in a way that the detailed construction schedule can be incorporated into the master schedule as the Project becomes better defined.

B. Identify critical design Milestones that must be met to keep the Project on schedule. Coordinate and integrate the preliminary project schedule with the services and activities of the OPT and CMAR. Update the preliminary project schedule as design develops to indicate proposed activity sequences and durations, Milestone dates for receipt and approval of pertinent information, submittal of a GMP Proposal, preparation and processing of Shop Drawings and Samples, delivery of materials or equipment requiring long-lead time procurement, and the Owner's occupancy requirements.

C. Make appropriate recommendations to the OPT if preliminary project schedule updates indicate that previously approved schedules may not meet Contract Time requirements.

D. Revise the master schedule at appropriate intervals as the design is developed, Work Packages are prepared, and any GMPs are established.

E. Maintain the master schedule covering the entirety of the Work as well as particular portions of the Work, as directed by Owner.

F. Revise the master schedule after the GMP is established.

1.08 Quality Management

A. Prepare CMAR's Quality Control Plan (CQCP) in accordance with the Contract Documents, including the General Requirements.

1. Describe the quality control organization and lines of authority. Quality control plan is to identify the quality control manager and other key individuals involved in CMAR's quality control effort. Provide the services of a dedicated quality control manager unless Owner determines that quality control manager may combine quality control duties with other responsibilities. If quality control manager is to serve in other

capacities, identify those other responsibilities and the percentage of time spent in each role. Describe the qualifications of the quality control manager (in resume format) to demonstrate experience with quality management activities and performance on successful projects.

2. Provide the name and qualifications, in resume format, of other persons assigned a quality control function. Define the roles and responsibilities and authorities for each person and the types of Work or portions of the work for which each person is responsible.

3. Describe CMAR's approach to managing quality during construction. Describe how CMAR will integrate quality control procedures into the execution of the Work, provide testing and inspection required to control the quality of the Work in progress and verification or acceptance testing as required by the Contract Documents and CQCP.

4. Include a testing plan with details of tests to be provided. Designate the organization (Owner, CMAR, or Testing Agency) responsible for each type of testing. Coordinate CQCP Testing Plan with testing to be provided by the Owner.

5. Describe CMAR approach for managing defective Work, including notification and documentation procedures, development and implementation of corrective action plans and documentation that record corrective action has been successful in producing Work that complies with the Contract Documents.

6. Describe the approach for scheduling, reviewing, certifying, and managing documentation provided by Subcontractors and Suppliers. Include the approach for managing the quality of submittals, documentation procedures, and process for tracking and keeping documentation up to date.

1.09 Risk Management

A. Analyze construction risks to assess risk impact and develop appropriate risk management strategies to minimize associated costs.

B. Identify additional information that will help with risk assessment.

C. Provide recommendations for appropriate allocation of construction risks.

D. Review possible impacts associated with the use of patented, licensed, or copyrighted products.

E. Review legal requirements for subcontractor and equipment procurement for risk impacts.

F. Suggest strategies to minimize risk.

G. Prepare and maintain a detailed Risk Register with input from the Owner and other members of the OPT; and provide prompt updates to OPT.

1.10 Safety Management

A. Provide a project-specific Health and Safety Plan for the Contract to address the safety concerns associated with construction activities, including potential hazards, that complies with applicable Laws and Regulations. Write the manual with the ability to readily update the plan to incorporate needed revisions on a regular basis.

B. The Health and Safety Plan is to include at least the following information:

1. Background information identifying the CMAR, Project description, and location;
2. Management accountability structure with authority to implement safety plans, stop work, or make other safety-related decisions;
3. Role of safety representative (see General Conditions, Paragraph 7.16);
4. Provide descriptions of qualifications and certifications related to the performance of safety representatives;
5. Objectives of the Health and Safety Plan;
6. Administration and enforcement of the Health and Safety Plan;
7. Applicability of the Health and Safety Plan to various personnel categories, including the workforce, visitors, and members of the OPT;
8. List of conditions at the Site that may pose a hazard to anyone, hazard types, and those potentially exposed;
9. Procedures for first aid and medical attention;
10. Emergency notifications procedures based on hazard type which specify the entity to be notified for each situation;
11. Site access control requirements to prohibit unauthorized persons from entering the Site;
12. Orientation and training requirements for workers, visitors, and members of the OPT;
13. Hazard communications and awareness plan;
14. Required safety certifications for each type of work;
15. CMAR's safety training program and effort to create and maintain a culture of safety;
16. CMAR's written safety guidelines for project-specific issues as defined by Laws and Regulations;
17. Plan for conducting safety inspection and the audit frequency and schedule;
18. Process for conducting a Job Hazard Analysis for work activities and implementing countermeasures to ensure safety, including checklist specific the Project and type of work; and
19. Accident / incident reporting procedures including monthly reporting.

C. Incorporate Owner's site safety requirements as appropriate.

1.11 Site Management and Environmental Controls

A. Develop a plan for managing the Site during construction. The plan should address, at a minimum, management of the following:

1. Office space for CMAR, Subcontractors and if required by Contract, the OPT;
2. Water, sanitation, electrical, internet, and other utilities for CMAR's and OPT's operations at the Site;
3. Storage facilities, parking, and construction equipment storage and maintenance;

4. Protection of existing structures, trees and other landscaping, buildings, utilities, and Underground Facilities;
5. Site security, site safety, and emergency responses;
6. Temporary roads, temporary signage, barricades, fencing, and other devices to manage traffic to and within the Site, including provisions for delivery of materials and equipment, and maintenance during construction;
7. Environmental conditions including storm water management, pollution control, care of water, soil management, and other temporary controls and their removal when no longer required;
8. Reference data and control points; and
9. Cleaning during construction and containment and disposal of waste materials.

B. Review plan with Owner to identify potential conflicts with operating other facilities, on-going and anticipated construction by other entities. Revise if necessary.

1.12 Regulatory Requirements and Permits

A. Review regulatory requirements and permits required for construction. Develop a written plan for meeting applicable Laws and Regulations and obtaining permits. List the permit requirements, entities responsible for obtaining permits, documentation required for permits and cost for obtaining and complying with these requirements.

B. Incorporate the associated cost into the Cost of Work and inform the Owner so these can be incorporated into the Owner's Construction Budget, or the Owner's Construction Budget may be adjusted as required.

C. Incorporate time for obtaining permits into the project schedule to ensure permits can be obtained and regulatory requirements met in time for the orderly progression of Work.

1.13 Procurement Strategy Plan

A. Provide input to OPT regarding the current construction market, bidding climate, status of key Subcontractor and Supplier markets, and other local economic conditions.

B. As the design develops, organize the Work into Work Packages that will (1) allow for phased construction that will shorten the overall completion schedule for the Work, (2) encourage price competition by prospective Subcontractors and Suppliers, and (3) enhance the quality and safety of the Work.

C. Develop Subcontractor and Supplier interest in the Project consistent with state Laws and Regulations. Furnish the OPT a list of possible Subcontractors and Suppliers, from whom competitive bids will be requested for each principal portion of the Work. Identify preferred providers based on CMAR's previous experience for quality of work, on-time delivery, and ability to complete work within bid amounts. Submission of this list is for information and discussion purposes only and not for prequalification. The review of this list will not require the OPT to investigate the qualifications of proposed Subcontractors and Suppliers, nor does it waive the right of Owner to later object to or reject any proposed Subcontractor or Supplier when bids are considered. CMAR may submit a Change Proposal for any increase in the Guaranteed Maximum Price if this change is made after the GMP has been established.

D. Recommend to the OPT a schedule for procurement of long-lead time items required to meet the project schedule. Provide for procurement of these long-lead items by obtaining competitive bids for these items under a separate Work Authorization, as necessary, to meet the project schedule.

E. Identify critical elements of the Work that may require special procurement processes, such as prequalification of Subcontractors or Suppliers, requirement of certified or prequalified installers, or alternative contracting methods.

F. Advise the Owner of market conditions, bid issues, design issues, or other factors which may have had an impact causing bid prices to be higher than estimated. Discuss opportunities for bringing the Project within budget with the OPT to assist with deciding on how to proceed.

1.14 Value Engineering Studies

A. Participate in Value Engineering reviews at the level appropriate for the projects at the completion of the first draft of the Final Design Phase documents (approximately 60% completion) to assist in identifying ways to improve value to the owner or reduce the cost for the project. Provide cost estimates to quantify potential cost savings to reduce the overall cost for the Project.

B. Assist OA in conducting a workshop to identify potential changes which could reduce the cost of the Project or increase the value of the Project by more than the cost of the changes. Present selected alternatives for more detailed evaluation. The detailed evaluation will consider cost, ability to implement the changes, technical analysis, and the impact of changes on the Project. Ideas that pass the technical and economic analysis, and merit incorporation into the design of the project, will be presented, in a draft report, as a proposal to the OPT for consideration. Incorporate responses of the OPT in the final report.

C. Review and comment on deliverables which include draft and final value engineering recommendation reports.

1.15 Start Up and Commissioning Program

A. Provide CMAR's organizational structure for startup and commissioning. Identify the individuals from CMAR, Subcontractors and Suppliers actively involved in the process. Identify testing personnel required for startup, including independent testing agencies. Work with Owner to develop a table of roles and responsibilities for CMAR team and the OPT.

B. Develop a written start up and commissioning program consistent with the requirements of the Contract Documents. Write the plan in a way that will allow specific details to be added or information updated as equipment and materials are purchased and delivered.

C. Identify all systems to be included in the startup plan, each item of equipment involved with each system and the interface between each item of equipment and other operating equipment. Identify how each equipment component fits into operations of the completed facility.

D. Identify control systems associated with operating the system or facility, and how each is used to start-up, operate, and shut down its associated system. Identify prerequisite conditions for startup and testing for each system and facility. Identify conditions which would merit termination of startup or testing procedures.

E. Compile a list of all documents required for startup, including Contract Documents, Shop Drawings, operations and maintenance manuals, verification of warranty information, lists of spare parts and their location, and contact information for manufacturer's representatives to be included in startup readiness testing /verification and performance testing.

F. Identify testing required for factory witness testing, startup readiness verification, equipment and performance testing, and functional and performance testing.

G. Provide a preliminary schedule for startup and commissioning plans which can be updated as more detailed information is available. Incorporate this schedule in the master schedule and construction schedule for the Project.

ARTICLE 2 — ADDITIONAL PRECONSTRUCTION SERVICES

ARTICLE 3 — BASIC PROCUREMENT SERVICES

3.01 Project Management

A. Participate in Project Meetings

1. Participate in kick-off meeting for Procurement Services. Be prepared to discuss changes in CMAR's team and organization structure for Procurement Services, assignments of responsibilities, and CMAR's plan for implementation of Procurement Services.

2. Participate in periodic meetings with the OPT to review progress, coordinate efforts, and discuss planned activities related to procurement. It is anticipated that these progress meetings will occur **[weekly]** at times when procurement activities for Work Packages are underway.

B. Provide administration of Agreement for CMAR Procurement Services, including Applications for Payment, progress reporting, management of CMAR staff, schedule for services, and deliverables.

3.02 Assembling Work Packages

A. Assemble appropriate bid documents for distribution to prospective bidders for Work Packages in accordance with the procurement strategies defined in the Construction Management Plan and Procurement Strategy Plan (see Basic Preconstruction Services).

3.03 Advertise for Bids

A. Publicly advertise each Work Package, soliciting bids from Subcontractors and Suppliers for each Work Package in accordance with the applicable provisions of Laws and Regulations.

B. Maintain a list of all entities that have requested bid documents for each Work Package (planholders) until bids are received. Provide updates of the planholders as required by the Owner.

C. Encourage multiple Subcontractors and Suppliers to submit bids on the Work Package so a minimum of three bids are received for each Work Package.

3.04 Pre-Bid Conferences

A. Conduct a pre-bid conference with prospective Subcontractor and Suppliers to familiarize them with:

1. Bid opportunities for Work Packages;
2. Special requirements of the Contract Documents;
3. Prevailing wage requirements;
4. Equal employment opportunity requirements; and
5. Diverse Business Enterprise requirements, if any.

B. Obtain responses from the Owner, in consultation with the Engineer, to all questions at pre-bid conferences requiring a modification to the Contract Documents. Prepare a record of the discussions at the pre-bid conference to assist the Owner and Engineer in preparing Addenda as appropriate. Review and comment on Addenda prepared by the Owner in consultation with the Engineer to incorporate responses to questions raised during or as a result of the pre-bid conference.

3.05 Addenda

A. Receive draft Addenda prepared by the Owner in consultation with the Engineer. Review the draft Addenda for clarity, consistency, and coordination, and provide comments to Owner and Engineer. By conducting such reviews and providing comments, CMAR does not assume responsibility or liability, in whole or in part, for all or any part of the Project design or the content of the Contract Documents.

B. Distribute Addenda regarding any changes in the bid process or Contract Documents to all planholders. Require verification from planholders that Addenda have been received.

3.06 Opening Bids

A. Open bids submitted by Subcontractors and Suppliers for all Work Packages at the time and location so indicated in the advertisement for bid or as altered by addendum sent to all planholders as required in Article 10 and all applicable Laws and Regulations.

B. Where allowed by state Laws and Regulations and subject to Paragraph 10.01 of the Agreement, the CMAR may be able to self-perform portions of the Work provided bids for such self-performed work are handled in accordance with Laws and Regulations and as specified in Article 10 of the Agreement..

C. Review all Bids submitted in the presence of the Owner in a way that does not disclose the contents of the Bid during the selection process to any entity other than the OPT and CMAR.

D. Compare Bids received to the line-item budget prepared for the Project prior to the opening of Bids. Resolve discrepancies or overlaps in bid packages to eliminate duplications or the omission of elements of the Work that are not included in Construction Support Costs. Discuss each Bid received with the OPT and recommend which Bid received will provide best value for the Owner.

E. Evaluate any substitutions or alternate bids offered by bidders. Owner, in consultation with the Engineer, will evaluate the substitutions or alternate bids to determine the technical merit and to determine that the modifications offered are consistent with the intent of the Contract Documents. The Owner, in consultation with the Engineer, will determine if the substitution or alternate is acceptable.

F. Except as provided in Paragraph 10.01 of the Agreement, the Owner will adjust the Guaranteed Maximum Price (GMP) if the Owner requires the CMAR to contract with a

Subcontractor or Supplier different from the entity submitting the Bid on which the GMP is based. This adjustment will be made in the GMP or by Change Order if the GMP has already been established by a Work Authorization.

G. In the case of the need to replace a Subcontractor or Supplier under the provisions of the General Conditions Paragraph 7.10.O, Owner may direct the CMAR to obtain competitive Bids for this Work if the cost proposed by the CMAR or substitute Subcontractor or Supplier for this Work differs from the line-item estimate by more than 10 percent of the line-item amount. The CMAR will not be required to advertise this Work as required in Paragraph 1.02.

H. Make all bids available to Owner on request and to public after the award of contract or not later than 7 days after the date of the final selection of bids or proposals.

3.07 Additional Copies of Documents

A. Furnishing additional sets of printed documents.

ARTICLE 4 — ADDITIONAL PROCUREMENT SERVICES[1]

4.01 Prequalification of Bidders

A. Prequalify bidders for the Project using the OPT's prequalification process. If the OPT does not have a prequalification process in place for this Project, CMAR will assist the OPT in developing and implementing a prequalification process. Any prequalification of bidders must also be in accordance with applicable state Laws and Regulations.

4.02 Additional Work Packages

A. Providing additional effort to procure Work Packages in addition to the number of Work Packages stipulated in Paragraph 3.02.

ARTICLE 5 — SPECIAL SERVICES

5.01 The scope of services for Special Services, if any, will be the scope set forth in the Contract Amendment(s) establishing and authorizing such Special Services.

EXHIBIT B–BASIS OF COMPENSATION

ATTACHMENT A–DETAILED INFORMATION FOR AGREEMENT EXHIBIT B

Table 1—Estimated Contract Price

Item	Item Title	Calculation	Comment
1	Compensation for CMAR Services	= Table 2, R 11	Transfers amount for Total Cost for CMAR Services from Table 2—Compensation for CMAR Services.
2	Fixed Construction Support Costs	= Table 3, R 1	Transfers amount for Total Fixed Construction Support Cost from Table 3—Basis of Compensation for Fixed Construction Support Cost.
3	Time Sensitive Construction Support Costs	= Table 4, R 1	Transfers amount for Total Time Sensitive Construction Support Cost from Table 4—Basis of Compensation for Time Sensitive Construction Support Cost.
4	Total Construction Support Costs	**(2 + 3)**	Worksheet calculates Total Construction Support Costs by adding the amount for Fixed Construction Support Cost to the amount for Time Sensitive Construction Support Cost.
5	Estimated Cost of the Work	**[Enter Amount]**	Enter the Estimated Cost of the Work prepared by the Owner. This number is used to determine an estimated Guaranteed Maximum Price (GMP) which is included in calculating an estimated Contract Price.
6	CMAR Fee Percentage	**[Enter %]**	Enter the proposed or negotiated CMAR Fee Percentage.
7	CMAR Fee	**(5 x 6)**	Worksheet calculates the amount of the CMAR Fee by multiplying the Estimated Cost of the Work times the CMAR Fee Percentage. This is the amount of CMAR Fee based on Estimated Cost of the Work. Fee is earned as a percentage of the actual cost on approved Work Authorizations.
8	Cost of the Work with CMAR Fee	**(5 + 7)**	Worksheet calculates the amount of the Cost of the Work with CMAR Fee by adding the Estimated Cost of the Work to the CMAR Fee.
9	Payroll Cost—Estimated Cost of the Work	**[Enter Amount]**	Enter the Estimated Cost of the Work allocated to Payroll Cost.
10	Payroll Cost—CMAR Fee Percentage	**[Enter %]**	Enter the CMAR Fee Percentage proposed or negotiated for Payroll Costs
11	Payroll Cost—CMAR Fee Amount	**(9 x 10)**	Worksheet calculates the CMAR Fee amount for Payroll Cost by multiplying the Estimated Cost of the Work for Payroll times its CMAR Fee Percentage.
12	Payroll Cost—Cost with CMAR Fee	**(9 + 11)**	Worksheet calculates Payroll Cost with CMAR Fee by adding the Estimated Cost of the Work for Payroll to the Payroll Cost CMAR Fee Amount.
13	Incorporated Equipment and Materials—Estimated Cost of the Work	**[Enter Amount]**	Enter the Estimated Cost of the Work allocated to Equipment and Materials Incorporated into the Work.

Item	Item Title	Calculation	Comment
14	Incorporated Equipment and Materials— CMAR Fee Percentage	**[Enter %]**	Enter the CMAR Fee Percentage proposed or negotiated for Equipment and Materials Incorporated into the Work.
15	Incorporated Equipment and Materials—CMAR Fee Amount	**(13 x 14)**	Worksheet calculates the CMAR Fee amount for Incorporated Equipment and Materials by multiplying the Estimated Incorporated Equipment and Materials Cost times its CMAR Fee Percentage.
16	Incorporated Equipment and Materials—Cost with CMAR Fee	**(13 + 15)**	Worksheet calculates Incorporated Equipment and Materials Cost with CMAR Fee by adding the Estimated Cost of Incorporated Equipment and Materials to its CMAR Fee Amount.
17	Consumable Equipment and Materials Cost—Estimated Cost of the Work	**[Enter Amount]**	Enter the Estimated Cost of the Work allocated to equipment and materials consumed in construction of the Work.
18	Consumable Equipment and Materials Cost—CMAR Fee Percentage	**[Enter %]**	Enter the CMAR Fee Percentage proposed or negotiated for equipment and materials consumed in construction of the Work.
19	Consumable Equipment and Materials Cost—CMAR Fee Amount	**(17 x 18)**	Worksheet calculates the CMAR Fee amount for Consumable Equipment and Materials by multiplying the Estimated Consumable Equipment and Materials Cost times its CMAR Fee Percentage.
20	Consumable Equipment and Materials Cost—Cost with CMAR Fee	**(17 + 19)**	Worksheet calculates Consumable Equipment and Materials Cost with CMAR Fee by adding the Estimated Cost of Consumable Equipment and Materials to its CMAR Fee Amount.
21	Subcontractor Cost—Estimated Cost of the Work	**[Enter Amount]**	Enter the Estimated Cost of the Work allocated to Subcontractor Cost.
22	Subcontractor Cost—CMAR Fee Percentage	**[Enter %]**	Enter the CMAR Fee Percentage proposed or negotiated for Subcontractor Cost.
23	Subcontractor Cost—CMAR Fee Amount	**(21 x 22)**	Worksheet calculates the CMAR Fee amount for Subcontractor Cost by multiplying the Estimated Cost of the Work for Subcontractor Cost times its CMAR Fee Percentage.
24	Subcontractor Cost—Cost with CMAR Fee	**(21 + 23)**	Worksheet calculates Subcontractor Cost with CMAR Fee by adding the Estimated Cost of the Work for Subcontractor Cost to its CMAR Fee Amount.
25	Construction Equipment Cost—Estimated Cost of the Work	**[Enter Amount]**	Enter the Estimated Cost of the Work allocated to Construction Equipment Cost.
26	Construction Equipment Cost—CMAR Fee Percentage	**[Enter %]**	Enter the CMAR Fee Percentage proposed or negotiated for Construction Equipment Costs.
27	Construction Equipment Cost—CMAR Fee Amount	**(25 x 26)**	Worksheet calculates the CMAR Fee amount for Construction Equipment by multiplying the Estimated Cost of the Work for Construction Equipment Cost times its CMAR Fee Percentage.

Item	Item Title	Calculation	Comment
28	Construction Equipment Cost—Cost with CMAR Fee	(25 + 27)	Worksheet calculates Construction Equipment Cost with CMAR Fee by adding the Estimated Cost of the Work for Construction Equipment Cost to its CMAR Fee Amount.
29	Supplemental Cost— Estimated Cost of the Work	[Enter Amount]	Enter the Estimated Cost of the Work allocated to Supplemental Cost.
30	Supplemental Cost—CMAR Fee Percentage	[Enter %]	Enter the CMAR Fee Percentage proposed or negotiated for Supplemental Costs
31	Supplemental Cost—CMAR Fee Amount	(29 x 30)	Worksheet calculates the Estimated Cost of the Work for Supplemental Cost by multiplying the Estimated Cost of the Work for Supplemental Cost times its CMAR Fee Percentage.
32	Supplemental Cost—Cost with CMAR Fee	(29 + 31)	Worksheet calculates Supplemental Cost with CMAR Fee by adding the Estimated Cost of the Work for Supplemental Cost to its CMAR Fee Amount.
33	Total Estimated Cost of the Work	∑ (9, 13, 17, 21, 25, 29)	Worksheet calculates the Total Estimated Cost of the Work by summing the Estimated Cost of the Work for each of the Cost of the Work Categories.
34	Total CMAR Fee	∑ (11, 15, 19, 23, 27, 31)	Worksheet calculates the Total CMAR Fee by summing the CMAR Fee for each of the Cost of the Work Categories.
35	Cost of the Work with CMAR Fee	∑ (12, 16, 20, 24, 28, 32)	Worksheet calculates the Total Cost of the Work with CMAR Fee by summing the Cost with CMAR Fee for each of the Cost of the Work Categories.
36	Estimated Cost of the Work	[Enter Amount]	Enter the Estimated Cost of the Work prepared by the Owner. This number is used to determine an estimated Guaranteed Maximum Price (GMP) used for approval of an estimated Contract Price.
37	CMAR Lump Sum (stipulated) Fee	[Enter Value]	Enter the stipulated amount proposed or negotiated for CMAR Fee.
38	Cost of the Work with CMAR Fee	(36 + 37)	Worksheet calculates the Cost of the Work with CMAR Fee by adding the Estimated Cost of the Work to the lump sum CMAR Fee.
39	CMAR Contingency Percentage	[Enter %]	Enter the proposed or negotiated percentage of the Cost of the Work to be used to calculate the CMAR Contingency.
40	Estimated Cost of the Work	[Enter Amount]	Enter the Estimated Cost of the Work prepared by the Owner. This number is used to determine an estimated Guaranteed Maximum Price (GMP) used for approval of an estimated Contract Price.
41	CMAR Contingency	(39 x 40)	Worksheet calculates amount of CMAR Contingency by multiplying the CMAR Contingency Percentage times the Estimated Cost of the Work.
42	Other Specific Product or Contingency	[Enter Amount]	Identify other contingencies proposed or negotiated to be included in the Contract Price. Contingency should be restricted to use for its stated purpose. Contingency amount will be adjusted based on actual cost per applicable General Condition or Supplementary Conditions provisions related to a contingency. Enter a description of the contingency item and the amount for the contingency.
43	Total CMAR and Other Contingency	(41 + 42)	Worksheet calculates Total CMAR and Other Contingency amount by adding the CMAR Contingency to other specified contingency.

Item	Item Title	Calculation	Comment
44	Estimated Guaranteed Maximum Price	**(4 + (8 or 35 or 38 + 43)**	Worksheet calculates the Estimated GMP by summing the cost for Construction Support Costs, Cost of the Work with CMAR Fee, and CMAR and Other Contingency Allowances. Depending on the procedures used for calculating the CMAR Fee, Items **8**, **35**, or **38** may be deleted. Delete terms that appear as **#REF!** in the equation for **44** per the Note to User for this section.
45	Owner's Contingency	**[Enter Amount]**	Enter the Owner's Contingency amount if the Owner's Contingency is to be include in the Contract Price.
46	Total Amount of Contract Award	**(1 + 44 + 45)**	Worksheet calculates The Total Amount of the Contract Award (amount for which Contract will be awarded) by summing the Cost for CMAR Services, the Estimated Guaranteed Maximum Price (calculated using the selected compensation method) and the Owner's Contingency.
47	Substantial Completion Days	**[Enter Days]**	Enter the proposed or negotiated days to Substantial completion in accordance with the applicable General Condition or Supplementary Conditions provisions.
48	Final Completion Days	**[Enter Days]**	Enter the proposed or negotiated days to Final Completion in accordance with the applicable General Condition or Supplementary Conditions provisions.
49	Construction Period Days	**(47 + 48)**	Worksheet calculates the Construction Period by adding the number of day to reach Substantial Completion to the number of additional days to reach Final Completion.

Table 2—Compensation for CMAR Services

Column	Column Title	Calculation	Comment
a	Task	**[Enter Data]**	Enter the Task Number (from the corresponding paragraph number) for each item in the final Agreement Exhibit A Scope of CMAR Services. Standard tasks are shown.
b	Description	**[Enter Data]**	Enter the paragraph title for each item in the final Agreement Exhibit A Scope of CMAR Services. Standard tasks are shown.
c - g	Name of Provider	**[Enter Data]**	Enter the name of each CMAR service Provider. Enter the estimated number of hours for each task for each Provider in the rows below.
	Classification	**[Enter Data]**	Enter the type of service provided by each Provider. Examples: Project Manager, CMAR Services Manager, Estimator, Scheduler etc.
	Billing Rate	**[Enter Amount]**	Enter the hourly billing rate for each Provider. Rate is to include all fringe costs and expenses.
h	Amount	Hrs C c x Rate C c + Hrs C d x Rate C d + Hrs C e x Rate C e + Hrs C f x Rate C f + Hrs C g x Rate C g	Worksheet calculates Amount by multiplying the number of hours for each Task times the Billing Rate in the Column Titles for each Provider and totaling these to determine the total amount for each Task item.

Row	Row Title	Calculation	Comment
1	Total Cost for CMAR Preconstruction Basic Services	∑ C h for Task 1.00	Worksheet calculates total for Preconstruction Basic Services.
2	Total Cost for CMAR Preconstruction Additional Services	∑ C h for Task 2.00	Worksheet calculates total for Preconstruction Additional Services.
3	Total Cost for CMAR Preconstruction Services	**(1 + 2)**	Worksheet calculates total for Preconstruction Services.
4	Total Cost for CMAR Procurement Basic Services	∑ C h for Task 3.00	Worksheet calculates total for Procurement Basic Services.
5	Total Cost for CMAR Procurement Additional Services	∑ C h for Task 4.00	Worksheet calculates total for Procurement Additional Services.
6	Total Cost for CMAR Procurement Services	**(4 + 5)**	Worksheet calculates total for Procurement Services.
7	Total Owner's Contingency for CMAR Special Services (Stipulated Sum)	**[Enter Amount]**	Enter an amount for an Owner's Contingency dedicated to CMAR Special Services. Owner may choose to use Owner's Contingency to cover these additional services or may prefer that these be separate and reserved for CMAR services. This is recommended if Owner Contingency will be established later as part of negotiations for the GMP
8	Owner's Contingency for CMAR Special Services Percentage	**[Enter %]**	Enter the amount for the Owner's Contingency. Owner can base the amount of its contingency for CMAR Special Services as a percentage of totals for Preconstruction Services and Procurement Services. Enter that percentage here.

Row	Row Title	Calculation	Comment
9	Owner's Contingency for CMAR based on Special Services (% of CMAR Services)	**(3 + 6) x 8**	Worksheet calculates the Owner's Contingency based on the percentage for CMAR Special services entered in p and the totals for Preconstruction and Procurement Services. This provides a larger contingency that will adjust if Additional services are added. Change the calculations if the Contingency is to be based on the total for Basic services only ((**1** + **4**) x **8**).
10	Total Owner's Contingency for CMAR Special Services	**= 7 or 9**	Worksheet calculates the Owner's Contingency. If no percentage is entered in **8** the amount in **7** will be returned in **10.** If a percentage is entered in **8,** then **9** will be returned.
11	Total Cost for CMAR Services	**(3 + 6 +10)**	Worksheet calculates the total for CMAR Services. This number is transferred to **Table 1 R 1** to be included in the calculation of the Contract Price. It is not part of the Guaranteed Maximum Price for Work

Table 3—Basis of Compensation for Fixed Construction Support Cost

Column	Column Title	Calculation	Comment
a	CMAR Number	**[Enter Data]**	Enter the CMAR Number for this item as submitted in the Proposal. Used solely for convenience in referencing a line item
b	Contract Reference	**[Enter Data]**	Enter a reference to a specification section or drawing. Used to reference applicable Specification sections.
c	Description	**[Enter Data]**	Enter a brief description of the Fixed Construction Support Cost item.
d	Quantity	**[Enter Number]**	Enter the quantity of each Fixed Construction Support Cost item. If the cost is a lump sum item, the Unit designation would be LS and the quantity would be shown as "1".
e	Units	**[Enter Data]**	Enter the Units of measure. Example: months, weeks, each, or similar units.
f	Unit Cost	**[Enter Amount]**	Enter the Unit Cost per unit for each item.
g	Amount	**(d x f)**	Worksheet calculates the amount for each line item by multiplying the Quantity times the Unit Cost amount for each Item.

Row	Row Title	Calculation	Comment
1	Total Fixed Construction Support Costs	∑ C g	Worksheet calculates the Total Fixed Support Cost by summing all Fixed Support Cost line items. This amount is transferred to Table 1, R 2.

Table 4—Basis of Compensation for Time Sensitive Construction Support Cost

Column	Column Title	Calculation	Comment
a	CMAR Number	**[Enter Data]**	Enter the CMAR Number for this item as submitted in the Proposal. Used solely for convenience in referencing a line item
b	Contract Reference	**[Enter Data]**	Enter a reference to a specification section or drawing. Used to reference applicable Specification sections.
c	Description	**[Enter Data]**	Enter a brief description of the Time Sensitive Construction Support Cost item.
d	Quantity	**[Enter Number]**	Enter the quantity of each Time Sensitive Construction Support Cost item. If the cost is a lump sum item, the Unit designation would be LS and the quantity would be shown as "1".
e	Units	**[Enter Data]**	Enter the Units of measure. Example: months, weeks, each, or similar units.
f	Unit Cost	**[Enter Amount]**	Enter the Unit Cost per unit for each item.
g	Amount	**(d x f)**	Worksheet calculates the amount for each line item by multiplying the Quantity times the Unit Cost amount for each Item.

Row	Row Title	Calculation	Comment
1	Total Time Sensitive Construction Support Costs	**∑ C g**	Worksheet calculates the Total Fixed Support Cost by summing all Time Sensitive Construction Support Cost line items. This amount is transferred to **Table 1**, **R 3**.
2	Construction Period	**= (Table 1, R 49)**	Number of days in the Construction Period. This number is transferred here from **Table 1**, **R 49**.
3	Construction Support Cost Extended Rate	**(1 / 2)**	Worksheet calculates the Extended Rate for Time Sensitive Construction Support Cost by dividing the Total Time Sensitive Construction Support Cost by the number of days in the Construction Period.

MODIFIED GENERAL CONDITIONS OF THE CONSTRUCTION MANAGER AT RISK CONTRACT

ARTICLE 1—DEFINITIONS AND TERMINOLOGY

1.01 Defined Terms

A. Wherever used in the Request for Proposals or Contract Documents, a term printed with initial capital letters, including the term's singular and plural forms, will have the meaning indicated in the definitions below. In addition to terms specifically defined, terms with initial capital letters in the Contract Documents include references to identified articles and Paragraphs, and the titles of other documents or forms.

1. Addenda—Written or graphic instruments issued prior to the receipt of Proposals by the Owner which clarify, correct, or change the Request for Proposals or the proposed Contract Documents.

2. Agreement—The written instrument, including its attached exhibits, executed by Owner and Construction Manager at Risk, that sets forth the Contract Price and Contract Times, identifies the Owner, Construction Manager at Risk, and Engineer, and designates the specific items that are Contract Documents.

3. Application for Payment—The document prepared by Construction Manager at Risk, in a form acceptable to Owner, to request progress or final payments, and which is to be accompanied by such supporting documentation as is required by the Contract Documents.

4. Change Order—A document which is signed by Construction Manager at Risk and Owner after the Effective Date of a governing Work Authorization and authorizes an addition, deletion, or revision in the authorized Work, an adjustment in the applicable Guaranteed Maximum Price or Contract Times, or other revision to such Work Authorization.

5. Change Proposal—A written request by Construction Manager at Risk, duly submitted in compliance with the procedural requirements set forth herein, seeking an adjustment in Guaranteed Maximum Price or Contract Times; contesting a decision by Owner, concerning the requirements of the Contract Documents or the acceptability of Work under the Contract Documents; challenging a set-off against payments due; or seeking other relief with respect to the terms of the Contract.

6. Claim

   a. A Claim includes a written demand or assertion by Owner or Construction Manager at Risk seeking an adjustment of Contract Price or Contract Times or other relief with respect to the terms of the Contract.

   b. A Claim also includes other disputes or unresolved matters between the Owner and CMAR arising out of or related to the Contract.

   c. The party asserting the Claim is responsible for promptly providing documents and information to substantiate the Claim.

   d. A demand for money or services by a third party is not a Claim.

7. CMAR Contingency—Amounts described in Article 8 of the Contract that are established by either a Work Authorization or in the accepted GMP Proposal.

8. CMAR Fee—The component of the Guaranteed Maximum Price that supplements the CMAR's compensation for the Cost of the Work, consisting of a percentage of the Cost of the Work, as set forth in the Agreement.

9. CMAR Services—Those specific planning, organizational, and advisory services to be performed or furnished by CMAR, consisting collectively of Preconstruction Services, Procurement Services, and any other services authorized by Owner and expressly identified in such authorization as CMAR Services. CMAR Services are not part of the Work and do not include items compensable as the Cost of the Work.

10. Constituent of Concern—Asbestos, petroleum, radioactive materials, polychlorinated biphenyls (PCBs), lead-based paint (as defined by the HUD/EPA standard), hazardous waste, and any substance, product, waste, or other material of any nature whatsoever that is or becomes listed, regulated, or addressed pursuant to Laws and Regulations regulating, relating to, or imposing liability or standards of conduct concerning, any hazardous, toxic, or dangerous waste, substance, or material.

11. Construction Manager at Risk (CMAR)—The entity that has entered into the Contract with Owner. Under the Contract the CMAR will provide CMAR Services and perform the Work set out in the Contract Documents, as duly authorized, using the Construction Manager at Risk project delivery method.

12. Construction Period—The period from the commencement of Work on the first Work Authorization, or commencement of Work on a specific phase of the Project if the Project is being constructed under a phased approach, until Substantial Completion of the Work or a designated portion thereof. This is the number of days for which Construction Support Costs will be compensated.

13. Construction Support Costs—See Agreement, Article 5.

14. Contract—The entire and integrated written agreement between Owner and Construction Manager at Risk concerning the CMAR Services and the Work.

15. Contract Amendment—A document signed by Owner and Construction Manager at Risk which modifies the terms and conditions of the Contract, including but not limited to modifications of the time or compensation provisions of the Agreement and the scope of CMAR Services. A Contract Amendment is not used to make changes in the Work or to a Work Authorization, such changes properly being made in a Change Order or supplemental Work Authorization.

16. Contract Documents—Those items so designated in the Agreement, and which together comprise the Contract.

17. Contract Price—The money that Owner has agreed to pay Construction Manager at Risk for performance and completion of the CMAR Services and the Work, in accordance with the Contract Documents. The Contract Price may be subdivided into component parts based on authorized CMAR Services and Work Authorizations. The Contract Price includes the CMAR's compensation for CMAR Services, Construction Support Costs, Cost of the Work, the CMAR Fee, CMAR Contingency if any, and shall not exceed Owner's Construction Budget, except as permitted under the terms of the Contract Documents.

18. Contract Times—The number of days or the dates by which Construction Manager at Risk shall: (a) achieve Milestones, if any; (b) achieve Substantial Completion of all or some of the Work; and (c) complete the Work and all required services. The Contract Times may be subdivided into component parts based on Work Authorizations and authorized CMAR Services.

19. Contractor—The term "Contractor," if used in any Contract Document, means Construction Manager at Risk.

20. Cost of the Work—The sum of eligible costs incurred by CMAR for the performance of the Work, as allowed by the Cost of the Work provisions set forth in the Agreement. Cost of the Work as a defined term does not include Construction Support Costs.

21. Design Documents—The part of the Drawings and technical Specifications that describe Engineer's design of the Project.

22. Drawings—The part of the Contract that graphically shows the scope, extent, and character of the Work to be performed by Construction Manager at Risk.

23. Effective Date of the Contract—The date indicated in the Agreement, on which the Contract becomes effective.

24. Electronic Document—Any Project-related correspondence, attachments to correspondence, data, documents, drawings, information, or graphics, including but not limited to Shop Drawings and other Submittals, that are in an electronic or digital format.

25. Electronic Means—Electronic mail (email), upload/download from a secure Project website, or other communications methods that allow: (a) the transmission or communication of Electronic Documents; (b) the documentation of transmissions, including sending and receipt; (c) printing of the transmitted Electronic Document by the recipient; (d) the storage and archiving of the Electronic Document by sender and recipient; and (e) the use by recipient of the Electronic Document for purposes permitted by this Contract. Electronic Means does not include the use of text messaging, or of Facebook, X, Instagram, or similar social media services for transmission of Electronic Documents.

26. Engineer—The individual or entity that has primary responsibility for preparing or furnishing the Drawings and Specifications and is named as Engineer in the Agreement.

27. Estimated Cost of the Work—An estimate of the Cost of the Work prepared by the Owner for use (a) during the CMAR selection process in evaluating Proposals submitted in response to the Request for Proposals and (b) during the early stages of the Contract in calculating an Estimated Guaranteed Maximum Price until the design has progressed to the point where Owner and CMAR can mutually agree upon a Guaranteed Maximum Price.

28. Estimated Guaranteed Maximum Price—A preliminary Guaranteed Maximum Price calculated on the basis of the Estimated Cost of the Work. This is a non-binding price used on an interim basis for comparison or estimation of Owner's Construction Budget until the design has progressed to the point that a Guaranteed Maximum Price for the Work is established, or a Guaranteed Maximum Price for a portion of the Work is established by issuance of a Work Authorization by the Owner.

29. Field Order—A written order issued and signed by Owner which requires minor changes in the Work but does not change the Guaranteed Maximum Price or the Contract Times.

30. Final Completion—The date when Engineer, after consultation with Owner, certifies (i) the Work is fully complete in accordance with the Contract Documents, including all minor details of construction, landscaping, mechanical adjustment, or installation, as applicable (i.e., punchlist is complete), (ii) items and documents required by the Contract Documents have been delivered to and accepted by the Owner, (iii) all required services have been completed, and the Contract is ready for final payment, and (iv) all the terms and conditions of Paragraph 15.07 below have been achieved by CMAR.

31. Guaranteed Maximum Price (GMP)—The maximum amount to be paid by Owner to CMAR, with respect to the Project or a Work Package, as applicable, for the sum of the Construction Support Costs, plus Cost of the Work, plus the CMAR Fee for the Project or allocable to a Work Package, as applicable, plus CMAR Contingency, if any, and allowances under Paragraph 13.01 of these General Conditions, if any, all as set forth in the Agreement (for the Project) or a Work Authorization (for a Work Package), as applicable.

32. Hazardous Environmental Condition—The presence at the Site of Constituents of Concern in such quantities or circumstances that may present a danger to persons or property exposed thereto.

    a. The presence at the Site of materials that are necessary for the execution of the Work, or that are to be incorporated into the Work, and that are controlled and contained pursuant to industry practices, Laws and Regulations, and the requirements of the Contract, is not a Hazardous Environmental Condition.

    b. The presence of Constituents of Concern that are to be removed or remediated as part of the Work is not a Hazardous Environmental Condition.

    c. The presence of Constituents of Concern as part of the routine, anticipated, and obvious working conditions at the Site, is not a Hazardous Environmental Condition.

33. Laws and Regulations; Laws or Regulations—Any and all applicable laws, statutes, rules, regulations, ordinances, codes, and binding decrees, resolutions, and orders of any and all governmental and quasi-governmental bodies, agencies, authorities, and courts having jurisdiction over the Project and the Work.

34. Liens—Charges, security interests, or encumbrances upon Contract-related funds, real property, or personal property.

35. Milestone—A principal event in the performance of the Work that the Contract requires Construction Manager at Risk to achieve by an intermediate completion date, or by a time prior to Substantial Completion of all the Work.

36. Notice of Award—The written notice by Owner stating that Owner will enter into the Construction Manager at Risk contract with the selected Construction Manager at Risk.

37. Owner—The entity with which Construction Manager at Risk has contracted regarding the CMAR Services and the Work, and which has agreed to pay Construction Manager at Risk for the performance of the CMAR Services and the Work, pursuant to the terms of the Contract.

38. Not Used

39. Owner's Construction Budget (Budget)—The amount budgeted by the Owner to pay CMAR to perform and complete the Work in accordance with the Contract Documents. This amount includes compensation for Cost of the Work, the CMAR Fee, Construction Support Costs, CMAR Contingency, if any, and allowances under Paragraph 13.01 of these General Conditions, if any, but does not include compensation for CMAR Services.

40. Preconstruction Services—Those planning, management, and support services to be performed or furnished by CMAR as set forth in the Scope of CMAR Preconstruction Services Exhibit to the Agreement. Preconstruction Services are separate and distinct from Procurement Services, and from the performance of the Work itself, and are a component of CMAR Services.

41. Preconstruction Services Price—The total amount to be paid to CMAR for the Preconstruction Services described in the Scope of CMAR Preconstruction Services Exhibit to the Agreement.

42. Procurement Services—Those services relating to assembling Work Packages and procurement of construction Subcontractors, Suppliers, and materials and equipment, to be performed or furnished by CMAR as set forth in the procurement-related provisions of the Scope of CMAR Services Exhibit to the Agreement. Procurement Services are separate and distinct from Preconstruction Services, and from the performance of the Work itself, and are a component of CMAR Services.

43. Procurement Services Price—The total amount to be paid to CMAR for providing the Procurement Services described in the Scope of CMAR Procurement Services Exhibit to the Agreement.

44. Progress Schedule—A schedule, prepared and maintained by Construction Manager at Risk and approved by Owner, describing the sequence and duration of the activities comprising Construction Manager at Risk's plan to accomplish the Work, or portion of the Work, within the Contract Times.

45. Project—The total undertaking to be accomplished for Owner by construction managers, engineers, contractors, advisors, and others, including planning, study, design, construction, testing, commissioning, and start-up, and of which the CMAR Services and the Work to be performed under the Contract are a part.

46. Proposal—The response to the Request for Proposals submitted by CMAR.

47. Request for Proposals (RFP)—The solicitation and all accompanying documents issued by the Owner requesting proposals for Construction Manager at Risk services for the Project and all addenda.

48. Samples—Physical examples of materials, equipment, or workmanship that are representative of some portion of the Work and that establish the standards by which such portion of the Work will be judged.

49. Schedule of Submittals—A schedule, prepared and maintained by Construction Manager at Risk, of required Submittals and the time requirements for review of the Submittals.

50. Shop Drawings—All drawings, diagrams, illustrations, schedules, and other data or information that are specifically prepared or assembled by or for Construction Manager at Risk and submitted by Construction Manager at Risk to illustrate some portion of the Work. Shop Drawings, whether approved or not, are not Drawings and are not Contract Documents.

51. Site—Lands or areas indicated in the Contract Documents as being furnished by Owner upon which the Work is to be performed, including rights-of-way and easements, and such other lands or areas furnished by Owner which are designated for the use of Construction Manager at Risk.

52. Specifications—The part of the Contract that consists of written requirements for materials, equipment, systems, standards, and workmanship as applied to the Work, and certain administrative requirements and procedural matters applicable to the Work.

53. Subcontractor—An individual or entity having a direct contract with Construction Manager at Risk or with any other Subcontractor for the performance of a part of the Work, including Suppliers.

54. Submittal—A written or graphic document, prepared by or for Construction Manager at Risk, which the Contract Documents require Construction Manager at Risk to submit to Owner and Engineer, or that is indicated as a Submittal in the Schedule of Submittals accepted by Engineer. Submittals may include Shop Drawings and Samples; schedules; product data; Owner-delegated designs; sustainable design information; information on special procedures; testing plans; results of tests and evaluations, source quality-control testing and inspections, and field or Site quality-control testing and inspections; warranties and certifications; Suppliers' instructions and reports; records of delivery of spare parts and tools; operations and maintenance data; Project photographic documentation; record documents; and other such documents required by the Contract Documents. Submittals, whether approved or accepted by Engineer, are not Contract Documents. Change Proposals, Change Orders, Claims, notices, Applications for Payment, and requests for interpretation or clarification are not Submittals.

55. Substantial Completion—The time at which the Work on the entire Project has progressed to the point where, the Work is sufficiently complete in accordance with the Contract Documents, so that the Work can be utilized for the purpose for which it is intended; provided that, a Work Authorization may set forth additional and supplemental requirements and specifications that must be met to obtain Substantial Completion, including the deadline to achieve such Substantial Completion, with respect to the portion of Work or Work Package encompassed by such Work Authorization. The terms "substantially complete" and "substantially completed" as applied to all or part of the Work refer to Substantial Completion of such Work.

56. Supplementary Conditions—The part of the Contract that amends or supplements these General Conditions.

57. Supplier—A manufacturer, fabricator, supplier, distributor, or vendor having a direct contract with Construction Manager at Risk or with any Subcontractor to furnish materials or equipment to be incorporated in the Work by Construction Manager at Risk or a Subcontractor.

58. Technical Data

    a. Those items expressly identified as Technical Data in the Supplementary Conditions, with respect to either (1) existing subsurface conditions at or adjacent to the Site, or existing physical conditions at or adjacent to the Site including existing surface or subsurface structures, except Underground Facilities, or (2) Hazardous Environmental Conditions at the Site.

    b. If no such express identifications of Technical Data have been made with respect to conditions at the Site, then Technical Data is defined, with respect to conditions at the Site under Paragraphs 5.03, 5.04, and 5.06, as the data contained in boring logs, recorded measurements of subsurface water levels, assessments of the condition of subsurface facilities, laboratory test results, and other factual, objective information regarding conditions at the Site that are set forth in any geotechnical, environmental, or other Site or facilities conditions report prepared for the Project and made available to Construction Manager at Risk.

    c. Information and data regarding the presence or location of Underground Facilities are not intended to be categorized, identified, or defined as Technical Data, and instead Underground Facilities are shown or indicated in the Drawings.

59. Underground Facilities—All active or not-in-service underground lines, pipelines, conduits, ducts, encasements, cables, wires, manholes, vaults, tanks, tunnels, or other such facilities or systems at the Site, including but not limited to those facilities or systems that produce, transmit, distribute, or convey telephone or other communications, cable television, fiber optic transmissions, power, electricity, light, heat, gases, oil, crude oil products, liquid petroleum products, water, steam, waste, wastewater, storm water, other liquids or chemicals, or traffic or other control systems. An abandoned facility or system is not an Underground Facility.

60. Unit Price Work—Work to be paid for based on unit prices.

61. Work—The entire construction or the various separately identifiable parts thereof required to be provided under the Contract Documents. Work includes and is the result of performing or providing all labor, services, and documentation necessary to produce such construction; furnishing, installing, and incorporating all materials and equipment into such construction; and may include related services such as testing, start-up, and commissioning, all as required by the Contract Documents.

62. Work Authorization—A document issued by Owner or Engineer and signed by Owner and CMAR which identifies and defines new Work Packages and establishes the amount to be paid, times for completion, and any special or supplementary provisions applicable to the authorized Work.

63. Work Package–A specific portion of the Work developed by Engineer and Owner in collaboration with the CMAR and subsequently authorized by a Work Authorization.

64. Work Change Directive—A written directive issued and signed by Owner to Construction Manager at Risk on or after the Effective Date of a governing Work Authorization, ordering an addition, deletion, or revision in the Work.

1.02 Terminology

A. The words and terms discussed in Paragraphs 1.02.B, C, D, and E are not defined terms that require initial capital letters, but, when used in the Request for Proposal or Contract Documents, have the indicated meaning.

B. Intent of Certain Terms or Adjectives–The Contract Documents include the terms "as allowed," "as approved," "as ordered," "as directed" or terms of like effect or import to authorize an exercise of professional judgment by Engineer. In addition, the adjectives "reasonable," "suitable," "acceptable," "proper," "satisfactory," or adjectives of like effect or import are used to describe an action or determination of Owner or Engineer as to the Work. It is intended that such exercise of professional judgment, action, or determination by a licensed engineer will be solely to evaluate, in general, the Work for compliance with the information in the Contract Documents and with the design concept of the Project as a functioning whole as shown or indicated in the Contract Documents, unless there is a specific statement indicating otherwise. The use of any such term or adjective is not intended to and will not be effective to assign to Owner or Engineer any duty or authority to supervise or direct the performance of the Work, or any duty or authority to undertake responsibility contrary to the provisions of Article 10 or any other provision of the Contract Documents.

C. Day–The word "day" means a period of 24 hours measured from midnight to the next midnight.

D. Defective–The word "defective," when modifying the word "Work," refers to Work that is unsatisfactory, faulty, or deficient in that it:

1. does not conform to the Contract Documents;

2. does not meet the requirements of any applicable inspection, reference standard, test, or approval referred to in the Contract Documents; or

3. has been damaged prior to Engineer's recommendation of final payment unless responsibility for the protection thereof has been assumed by Owner at Substantial Completion in accordance with Paragraph 15.04 or Paragraph 15.05.

E. Furnish, Install, Perform, Provide

1. The word "furnish," when used in connection with services, materials, or equipment, means to supply and deliver said services, materials, or equipment to the Site, or some other specified location ready for use or installation and in usable or operable condition.

2. The word "install," when used in connection with services, materials, or equipment, means to put into use or place in final position said services, materials, or equipment complete and ready for their intended use.

3. The words "perform" or "provide," when used in connection with services, materials, or equipment, means to furnish and install said services, materials, or equipment complete and ready for their intended use.

4. If the Contract Documents establish an obligation of CMAR with respect to specific services, materials, or equipment, but do not expressly use any of the four words "furnish," "install," "perform," or "provide," then CMAR shall furnish and install said services, materials, or equipment complete and ready for their intended use.

F. Contract Price or Contract Times–References to a change in "Contract Price or Contract Times" or "Contract Times or Contract Price" or similar, indicate that such change applies to (1) Contract Price, (2) Contract Times, or (3) both Contract Price and Contract Times, as warranted, even if the term "or both" is not expressed.

G. Unless stated otherwise in the Contract Documents, words or phrases that have a well-known technical or construction industry or trade meaning are used in the Contract Documents in accordance with such recognized meaning.

ARTICLE 2—PRELIMINARY MATTERS

2.01 Delivery of Performance and Payment Bonds; Evidence of Insurance

A. Performance and Payment Bonds–Within 10 days after CMAR executes the Agreement, CMAR shall also deliver to Owner the performance bond and payment bond required by Article 6, provided that CMAR may furnish a bid bond or other financial security acceptable to Owner to ensure CMAR will furnish such required performance and payment bonds when a Guaranteed Maximum Price is established.

B. Evidence of CMAR's Insurance–When CMAR delivers the signed counterparts of the Agreement to Owner, CMAR shall also deliver to Owner as identified in the Contract, the certificates, endorsements, and other evidence of insurance required to be provided by CMAR in accordance with Article 6.

2.02 Copies of Documents

A. Owner shall furnish to CMAR a copy of the fully executed Agreement in electronic portable document format (PDF). Additional printed copies will be furnished upon request at the cost of reproduction.

2.03 Electronic Transmittals

A. Except as otherwise stated elsewhere in the Contract, the Owner, Engineer, and CMAR may send, and shall accept, Electronic Documents transmitted by Electronic Means.

B. If the Contract does not establish protocols for Electronic Means, then Owner and CMAR shall jointly develop such protocols.

C. Subject to any governing protocols for Electronic Means, when transmitting Electronic Documents by Electronic Means, the transmitting party makes no representations as to long-term compatibility, usability, or readability of the Electronic Documents resulting from the recipient's use of software application packages, operating systems, or computer hardware differing from those used in the drafting or transmittal of the Electronic Documents.

2.04 Construction Management

A. In addition to providing CMAR Services, during the course of the Contract, and especially during the performance of the Work, CMAR will:

1. Organize and manage the resources required for construction of the Work, commissioning, and correction of defective Work after Substantial Completion of the Work.

2. Administer, coordinate, monitor, and report on construction progress and associated activities.

3. Assist the Engineer and Owner in collecting, disseminating, and storing documents and information.
4. Manage the Work to meet Contract goals and objectives and further the interests of the Owner.
5. Recommend action to the Owner related to the management of the Work.
6. Develop schedule and cost control systems to monitor and report on the progress of the overall Contract.

ARTICLE 3—CONTRACT DOCUMENTS: INTENT, REQUIREMENTS, REUSE

3.01 Intent

A. The Contract Documents are complementary; what is required by one Contract Document is as binding as if required by all.

B. It is the intent of the Contract Documents to describe a functionally complete Project, or part thereof, to be constructed in accordance with the Contract Documents.

C. Not used.

D. The Contract supersedes prior negotiations, representations, and agreements, whether written or oral.

E. Engineer will issue clarifications and interpretations of the Design Documents as provided herein.

F. Any provision or part of the Contract Documents held to be void or unenforceable under any Law or Regulation will be deemed stricken, and all remaining provisions will continue to be valid and binding upon Owner and CMAR, which agree that the Contract Documents will be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.

G. Nothing in the Contract Documents creates:

1. any contractual relationship between Owner or Engineer and any Subcontractor, Supplier, or other individual or entity performing or furnishing any of the Work, for the benefit of such Subcontractor, Supplier, or other individual or entity; or
2. any obligation on the part of Owner or Engineer to pay or to see to the payment of any money due any such Subcontractor, Supplier, or other individual or entity, except as may otherwise be required by Laws and Regulations.

3.02 Reference Standards

A. Standards, Specifications, Codes, Laws and Regulations

1. Reference in the Contract Documents to standard specifications, manuals, reference standards, or codes of any technical society, organization, or association, or to Laws or Regulations, whether such reference be specific or by implication, means the standard specification, manual, reference standard, code, or Laws or Regulations in effect at the time of receipt of Proposals, except as may be otherwise specifically stated in the Contract Documents.

2. No provision of any such standard specification, manual, reference standard, or code, and no instruction of a Supplier, will be effective to change the duties or responsibilities of Owner, CMAR, or Engineer from those set forth in the Contract Documents. No such provision or instruction will be effective to assign to Owner, or Engineer any duty or authority to supervise or direct the performance of the Work, or any duty or authority to undertake responsibility inconsistent with the provisions of the Contract Documents.

3.03 Reporting and Resolving Discrepancies

A. Reporting Discrepancies

1. CMAR's Verification of Figures and Field Measurements–Before undertaking each part of the Work, CMAR shall diligently, carefully, and thoroughly study the applicable Drawings and Specifications, and check and verify pertinent figures and dimensions therein, particularly with respect to applicable field measurements and conditions. CMAR shall promptly report in writing to Owner and Engineer any question, inconsistency, inadequacy, insufficiency, omission, conflict, error, ambiguity, or discrepancy (collectively, "Deficiencies") that CMAR discovers in the Drawings and Specifications, or has actual knowledge of, and shall not proceed with any Work affected thereby until the Deficiency is resolved by a written clarification or interpretation by Engineer in consultation with Owner, and, if appropriate, an amendment or supplement to the Contract is issued by Owner pursuant to Paragraph 11.01.

2. CMAR's Review of Drawings and Specifications– Throughout CMAR's performance of the CMAR Services and the Work, CMAR will necessarily review the Contract Documents on a continuous basis for purposes of discovering Deficiencies. If CMAR discovers any Deficiency within the Drawings and Specifications, whether in draft or final form, or between such documents and (a) any applicable Law or Regulation, (b) actual field conditions, (c) any standard specification, manual, reference standard, or code, or (d) any instruction of any Supplier, then CMAR shall promptly report it to Owner and Engineer in writing. CMAR shall not proceed with the Work affected thereby, except in an emergency as required by Paragraph 7.18, until the Deficiency is resolved, by a clarification or interpretation by Engineer in consultation with Owner, and, if appropriate, an amendment or supplement to the Contract is issued by Owner pursuant to Paragraph 11.01. CMAR's review of the Contract Documents for Deficiencies under this Paragraph includes review for clarity, consistency, constructability, maintainability/operability and coordination among trades. CMAR shall consult with Engineer regarding the selection of materials, building systems and equipment, and shall recommend alternative solutions whenever design details affect construction feasibility, schedules, cost or quality and shall provide other value engineering services. CMAR acknowledges that it may be liable, in whole or part, to Owner for consequences that are the direct result of CMAR's failure to promptly disclose in writing to Owner and Engineer under Paragraphs 3.03.A.1 and 3.03.A.2 any Deficiencies of which CMAR knew or should have known about in light of its obligations under the Contract Documents, including but not limited to Preconstruction Services. If CMAR performs any Work or Procurement Services involving a Deficiency in the Contract Documents of which CMAR is aware, or which could reasonably have been discovered by the review required by Paragraph 3.03.A and CMAR's obligation to collaborate described in Paragraph 7.23 below and elsewhere in the Contract Documents, without prompt written notice to the Owner and the Engineer and request for correction, clarification or additional

information, as appropriate, CMAR does so at its own risk and expense and all Claims relating thereafter are specifically waived.

B. Resolving Discrepancies

1. Except as may be otherwise specifically stated in the Contract Documents, the provisions of the Drawings and Specifications take precedence in resolving any Deficiency between such provisions of the Drawings and Specifications and:

a. the provisions of any standard specification, manual, reference standard, or code, or the instruction of any Supplier, whether or not specifically incorporated by reference as a Contract Document; or

b. the provisions of any Laws or Regulations applicable to the performance of the Work, unless such an interpretation of the provisions of the Contract Documents would result in violation of such Law or Regulation.

3.04 Interpretation of the Design Documents

A. During the performance of the Work and until final payment, CMAR shall submit to the Owner and Engineer in writing all matters in question concerning the requirements of the Design Documents (sometimes referred to as requests for information or interpretation) or relating to the performance or acceptability of the Work under the Contract Documents, as soon as possible after such matters arise.

B. Engineer will, with reasonable promptness, render a written clarification, interpretation, or decision on issues submitted requesting clarification of Design Documents, and if appropriate initiate a change to the Drawings or technical Specifications. Owner, in consultation with Engineer, will, with reasonable promptness, render a written clarification, interpretation, or decision relating to the performance or acceptability of the Work under the Contract Documents. In determining its response, Engineer and Owner will consider CMAR's prior involvement and obligations with respect to reviewing and commenting on draft design documents during CMAR's provision of CMAR Services. Engineer's and Owner's written clarification, interpretation, or decision will be final and binding on CMAR, unless CMAR appeals by submitting a Change Proposal.

3.05 Reuse of Documents

A. CMAR and its Subcontractors and Suppliers shall not:

1. have or acquire any title to or ownership rights in any of the Drawings, Specifications, or other documents, or copies of any thereof, prepared for this Project, including electronic media versions, or reuse any such Drawings, Specifications, other documents, or copies thereof on extensions of the Project or any other project without written consent of Owner and Engineer and specific written verification or adaptation by Engineer; or

2. have or acquire any title or ownership rights in any other Contract Documents, reuse any such Contract Documents for any purpose, including internal business purposes, without Owner's express written consent, or violate any copyrights pertaining to such Contract Documents.

B. The prohibitions of this Paragraph 3.05 will survive final payment, or termination of the Contract. Nothing herein precludes CMAR from retaining copies of the Contract Documents

for record purposes in accordance with its retention policy, which shall be reasonable to comply with the prohibitions of this Paragraph 3.05.

ARTICLE 4—COMMENCEMENT AND PROGRESS OF THE WORK

4.01 Commencement of Contract Times; Notice to Proceed

A. The Contract Times will commence to run on the Effective Date of the Contract, or as specified in Work Authorizations.

4.02 Starting the Work

A. CMAR shall start to perform the Work promptly upon receipt of the first Work Authorization. No Work may be done at the Site prior to such authorization unless authorized by Owner in writing.

4.03 Reference Points

A. CMAR shall be responsible for laying out the Work, shall protect and preserve reference points and property monuments, and shall make no changes or relocations without the prior written approval of Owner. CMAR shall report to Owner and Engineer whenever any reference point or property monument is lost or destroyed or requires relocation because of necessary changes in grades or locations, and CMAR shall be responsible for the accurate replacement or relocation of such reference points or property monuments by professionally qualified personnel.

4.04 Progress Schedule

1. CMAR shall adhere to the Progress Schedule established as part of Preconstruction Services, as it may be adjusted from time to time as provided below.

2. CMAR shall submit to Owner and Engineer for its information proposed adjustments in the Progress Schedule that will not result in changing the Contract Times.

3. Proposed adjustments in the Progress Schedule that will change the Contract Times must be submitted in accordance with the requirements of Article 11.

B. CMAR shall carry on the Work and adhere to the Progress Schedule during all disputes or disagreements with Owner. No Work will be delayed or postponed pending resolution of any disputes or disagreements, or during any appeal process, except as permitted by Paragraph 16.04, or as Owner and CMAR may otherwise agree in writing.

C. CMAR represents that CMAR has consulted, or will consult with all necessary public, governmental and private entities, and all necessary utilities prior to the preparation of the Progress Schedule and performance of the Work in order to plan for and coordinate necessary lead times for the various stages of the Work to be substantially completed on or before each applicable milestone date and the Substantial Completion Date, as applicable. Owner hereby advises CMAR that long lead times may be required by such entities where applicable stages of the Work impact public facilities and/or utilities.

D. CMAR acknowledges and accepts that it will be obligated to provide and timely complete the Work, and achieve the applicable dates of Substantial Completion, completion and readiness for final payment, and any applicable Milestones. CMAR shall use its best efforts to re-sequence the Work when necessary or appropriate to overcome or mitigate, to the greatest practicable extent, the effect of any delays. Additional costs due to Owner-approved

resequencing or acceleration of the Work or other mitigation efforts to overcome excusable delays may be included in the Cost of the Work, but only to the extent expressly allowed by this Agreement. CMAR shall diligently prosecute the Work in accordance with the Progress Schedule, as approved by the Owner. CMAR shall schedule and participate in periodic status review meetings to update the Owner on cost, schedule and progress of the Work as Owner desires. CMAR shall provide an updated Progress Schedule for Owner's approval at least monthly (or more frequently if Owner requests), to manage timely performance of the Work. Updates shall provide summary reports to Owner for each update to explain the status of the Work, any circumstances threatening to impact the Progress Schedule, and actions taken by CMAR to maintain the Progress Schedule. Updates shall incorporate current scheduling for all activities of the Project.

4.05 Delays in CMAR's Progress

A. Subject to the other provisions of this Paragraph 4.05, CMAR shall be eligible to request by submitting a Change Proposal an adjustment in Guaranteed Maximum Price or Contract Times if Owner or anyone for whom Owner is responsible, delays, disrupts, or interferes with the performance or progress of the Work. CMAR shall only be entitled to request an adjustment to the GMP under this Paragraph 4.05.A for reasonable, direct costs actually incurred by the CMAR due to such delay, disruption, or interference. Should there be an adjustment in Guaranteed Maximum Price or Contract Times as determined under this Paragraph 4.05, it shall be memorialized by a Change Order.

B. CMAR shall not be entitled to an adjustment in Guaranteed Maximum Price or Contract Times for delay, disruption, or interference (i) caused by or within the control of CMAR, (ii) that could not be limited or avoided by CMAR's notice as soon as possible to the Owner of the delay or reasonable likelihood that a delay will occur, which notice in any event must be provided within three (3) days after the occurrence of such event, or (iii) is of a duration not less than one (1) day. Delay, disruption, and interference attributable to and within the control of a Subcontractor or Supplier are within the control of CMAR. Notwithstanding the foregoing, CMAR is obligated to use best efforts to minimize the consequences of any delay, disruption, or interference and shall not be entitled to an adjustment in Guaranteed Maximum Price or Contract Times without first satisfying this obligation. If CMAR has not provided notice of such delay, disruption, or interference as required by this Paragraph 4.05 and notice of a claim related thereto as required by Article 12, CMAR waives such claim for an adjustment in Guaranteed Maximum Price or Contract Times.

C. If CMAR's performance or progress is delayed, disrupted, or interfered with by a Force Majeure event, then CMAR shall be entitled to request an adjustment in Contract Times, provided that CMAR timely submits a Change Proposal. Such an adjustment will be CMAR's sole and exclusive remedy for the delays, disruption, and interference described in this Paragraph. "Force Majeure" means: strikes, lockouts or labor disputes affecting all or a material part of the work force available to perform the Work; war and/or warlike operations or conditions; sabotage or terrorism affecting the premises that otherwise prevents or interferes with continued Work at the Site; governmental actions; condemnation or eminent domain proceedings affecting a material portion of the Site; fire or other casualty damaging improvements at the Site not caused in whole or in part by CMAR or anyone within the control of CMAR, a Subcontractor, or Supplier; shortages or inability to obtain materials or equipment due to circumstances outside the reasonable control of CMAR, a Subcontractor, or Supplier; and/or adverse weather conditions. Adverse weather conditions include, but are

not limited to, conditions which impact or prevent Work on the Project and which have a direct effect on the CMAR's predefined critical work sequence including days lost due to mud, muck, ice, or other conditions wherein CMAR's access to the Project Site is materially impeded resulting in an adverse effect on the Progress Schedule.

1. Abnormal Weather Conditions

   a. If abnormal weather conditions are the basis for a request for an equitable adjustment in the Contract Times, such request must be documented by data substantiating each of the following: (1) that weather conditions were abnormal for the period of time in which the delay occurred, (2) that such weather conditions could not have been reasonably anticipated, and (3) that such weather conditions had an adverse effect on the Work as scheduled.

   b. The existence of abnormal weather conditions will be determined on a month-by-month basis in accordance with the following:

      1) Every workday on which total precipitation, as rain equivalent, occurs between 7:00 p.m. on the preceding day, regardless of whether such preceding day is a workday, through 7:00 p.m. on the workday in question equals or exceeds .25" of precipitation, as rain equivalent, based on the snow/rain conversion indicated in the table entitled Foreseeable Bad Weather Days; such table is hereby incorporated in this Paragraph by reference.

      2) Every workday on which ambient outdoor air temperature at 11:00 a.m. is equal to or less than the following low temperature threshold: 25 degrees Fahrenheit; or, at 3:00 p.m. the ambient outdoor temperature is equal to or greater than the following high temperature threshold: 108 degrees Fahrenheit.

   c. Determination of actual bad weather days during performance of the Work will be based on the weather records measured and recorded by the onsite weather monitoring station at the Project site. Alternatively, the NOAA weather observation station located at Lake Georgetown may be used for verification or confirmation.

   d. CMAR shall anticipate the number of foreseeable bad weather days per month indicated in the table in Exhibit H: Foreseeable Bad Weather Days.

2. In each month, every bad weather day exceeding the number of foreseeable bad weather days established in the table in Exhibit H—Foreseeable Bad Weather Days will be considered as "abnormal weather conditions." The existence of abnormal weather conditions will not relieve CMAR of the obligation to demonstrate and document that delays caused by abnormal weather are specific to the planned work activities or that such activities thus delayed were on CMAR's then-current Progress Schedule's critical path for the Project.

D. CMAR's entitlement to an adjustment of Contract Times or Guaranteed Maximum Price is limited as follows:

   1. CMAR's entitlement to an adjustment of the Contract Times shall be limited to the number of days by which the critical path to completion of the Work has been delayed by the event giving rise to the right to an extension of Contract Time.

2. CMAR shall not be entitled to an adjustment in Guaranteed Maximum Price or Contract Time for any delay, disruption, or interference if such delay is concurrent with a delay, disruption, or interference caused by or within the control of CMAR.

3. CMAR's entitlement to an adjustment of the Contract Times or Guaranteed Maximum Price is conditioned on CMAR's strict compliance with the Claims procedures required herein, including the submission of a Change Proposal for such requested adjustment.

4. Adjustments of Contract Times or Guaranteed Maximum Price are subject to the provisions of Article 11.

E. Each Change Proposal seeking an increase in Contract Times or Guaranteed Maximum Price must comply with the Change Proposal provisions herein and be supplemented by supporting data that sets forth in detail the following:

1. The circumstances that form the basis for the requested adjustment;

2. The date upon which each cause of delay, disruption, or interference began to affect the progress of the Work;

3. The date upon which each cause of delay, disruption, or interference ceased to affect the progress of the Work;

4. The number of days' increase in Contract Times claimed because of each such cause of delay, disruption, or interference, which must be supported by critical path analysis demonstrating that such increase in the Contract Time(s) is essential to CMAR's ability to complete the Work within the Contract Time(s); and

5. The impact on Guaranteed Maximum Price, in accordance with the provisions of Paragraph 11.07.

CMAR shall also furnish such additional supporting documentation as Owner and Engineer may require including, where appropriate, a revised progress schedule indicating all the activities affected by the delay, disruption, or interference, and an explanation of the effect of the delay, disruption, or interference on the critical path to completion of the Work.

F. Delays, disruption, and interference to the performance or progress of the Work resulting from the existence of a differing subsurface or physical condition that could not reasonably have been identified by CMAR, an Underground Facility that was not shown or indicated by the Contract Documents and could not reasonably have been identified by CMAR, or not shown or indicated with reasonable accuracy, and those resulting from Hazardous Environmental Conditions, are governed by Article 5, together with the provisions of Paragraphs 4.05.D and 4.05.E.

G. If Owner determines there is a delay in any stage of the Progress Schedule caused by an event other than (i) an approved Change Order, (ii) a delay caused by Owner, and (iii) a delay described in the immediately foregoing Paragraph 4.05.F, Owner may direct that the Work be accelerated by means of overtime, additional crews or restructuring of the Work until such time as the Work has progressed so that it complies with the stage of completion required by the Progress Schedule. CMAR shall promptly provide a plan including a recommendation for the most effective and economical acceleration (a "Recovery Plan"). CMAR shall prepare the Recovery Plan in such form and detail as Owner requests. CMAR further agrees it will work as necessary to meet the requirements of the Recovery Plan and bring its Work into compliance with the current Progress Schedule (all without any additional

cost to Owner). No approval by Owner or Engineer pursuant to this paragraph shall constitute a waiver by Owner of any damages or losses Owner may suffer as a result of CMAR's failure to obtain Substantial Completion in accordance with the Contract.

H. Paragraph 8.03 addresses delays, disruption, and interference to the performance or progress of the Work resulting from the performance of certain other work at or adjacent to the Site.

ARTICLE 5—SITE; SUBSURFACE AND PHYSICAL CONDITIONS; HAZARDOUS ENVIRONMENTAL CONDITIONS

5.01 Availability of Lands

A. Owner shall furnish the Site. Owner shall notify CMAR in writing of any encumbrances or restrictions not of general application but specifically related to use of the Site with which CMAR must comply in performing the Work.

B. Not used.

C. CMAR shall provide for all additional lands and access thereto that may be required for temporary construction facilities or storage of materials and equipment.

5.02 Use of Site and Other Areas

A. Limitation on Use of Site and Other Areas

1. CMAR shall confine construction equipment, temporary construction facilities, the storage of materials and equipment, and the operations of workers to the Site, adjacent areas that CMAR has arranged to use through construction easements or otherwise, and other adjacent areas permitted by Laws and Regulations, and shall not unreasonably encumber the Site and such other adjacent areas with construction equipment or other materials or equipment. CMAR shall assume full responsibility for (a) damage to the Site; (b) damage to any such other adjacent areas used for CMAR's operations; (c) damage to any other adjacent land or areas, or to improvements, structures, utilities, or similar facilities located at such adjacent lands or areas; and (d) for injuries and losses sustained by the owners or occupants of any such land or areas; provided that such damage or injuries result from the performance of the Work or from other actions or conduct of the CMAR, its Subcontractors and Suppliers, or those for which any of them is responsible.

2. If a damage or injury claim is made by the owner or occupant of any such land or area because of the performance of the Work, or because of other actions or conduct of the CMAR or those for which CMAR is responsible, (a) CMAR shall take immediate corrective or remedial action as required by Paragraph 7.18, or otherwise; (b) CMAR shall promptly attempt to settle the claim as to all parties through negotiations with such owner or occupant, or otherwise resolve the claim by arbitration or other dispute resolution proceeding, or in a court of competent jurisdiction; and (c) CMAR's indemnity obligations under Paragraph 7.21 shall apply.

B. Removal of Debris During Performance of the Work–During the progress of the Work the CMAR shall keep the Site and other adjacent areas free from accumulations of waste materials, rubbish, and other debris. Removal and disposal of such waste materials, rubbish, and other debris will conform to applicable Laws and Regulations.

C. Cleaning—Prior to Substantial Completion of the Work CMAR shall clean the Site and the Work and make it ready for utilization by Owner. At the completion of the Work CMAR shall remove from the Site and adjacent areas all tools, appliances, construction equipment and machinery, and surplus materials and shall restore to original condition all property not designated for alteration by the Contract Documents.

D. Loading of Structures—CMAR shall not load nor permit any part of any structure to be loaded in any manner that will endanger the structure, nor shall CMAR subject any part of the Work or adjacent structures or land to stresses or pressures that could damage said structures or decrease their durability.

5.03 Subsurface and Physical Conditions

A. Reports and Drawings—:

1. The following table lists the reports of explorations and tests of subsurface conditions at or adjacent to the Site that contain Technical Data, and specifically identifies the Technical Data in the report upon which CMAR may rely: *No items are designated as Technical Data at this time but technical data anticipated to be provided is noted below. Owner will issue an amendment to designate Technical Data prior to GMP and/or any Work Authorization for affected packages.*

Report Title	Date of Report	Technical Data
Geotechnical Data Report	TBD	Boring Logs, Laboratory Test Results
Geophysical Field Services Report	TBD	Results of geophysical exploration

2. The following table lists the drawings of existing physical conditions at or adjacent to the Site, including those drawings depicting existing surface or subsurface structures at or adjacent to the Site, except Underground Facilities, that contain Technical Data, and specifically identifies the Technical Data upon which CMAR may rely: *No items are designated as Technical Data at this time. Owner will issue an amendment to designate Technical Data prior to GMP and/or any Work Authorization for affected packages.*

Drawings Title	Date of Drawings	Technical Data
		[Identify Technical Data]

3. Technical Data, if any, is described in such reports and drawings.

B. Underground Facilities—Underground Facilities are shown or indicated on the Drawings, pursuant to Paragraph 5.05, and not in the drawings referred to in Paragraph 5.03.A. Information and data regarding the presence or location of Underground Facilities are not intended to be categorized, identified, or defined as Technical Data.

C. Reliance by CMAR on Technical Data—CMAR may rely upon the accuracy of the Technical Data expressly identified in 5.03.A with respect to such reports and drawings, but such reports and drawings are not Contract Documents. If no such express identification has been made, then CMAR may rely upon the accuracy of the Technical Data as defined in Paragraph 1.01.A.55.b, subject to CMAR's review obligations under Paragraph 3.03.A and provided such reliance is reasonable.

D. Limitations of Other Data and Documents—Except for reasonable reliance on Technical Data, CMAR may not rely upon or make any claim against Owner or Engineer, or any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors, with respect to:

1. the completeness of such reports and drawings for CMAR's purposes, including, but not limited to, any aspects of the means, methods, techniques, sequences, and procedures of construction to be employed by CMAR, and safety precautions and programs incident thereto;
2. other data, interpretations, opinions, and information contained in such reports or shown or indicated in such drawings;
3. the contents of other Site-related documents made available to CMAR, such as record drawings from other projects at or adjacent to the Site, or Owner's archival documents concerning the Site; or
4. any interpretation of or conclusion drawn by CMAR from any Technical Data or any such other data, interpretations, opinions, or information.

E. Confirmation of Site Conditions—As a part of Preconstruction Services CMAR will inform Owner if CMAR concludes that additional examination, investigation, exploration, testing, or study (Supplemental Investigations) of subsurface or physical conditions at the Site prior to commencement of construction would be advantageous, practical, and cost-effective, and shall specifically identify the nature and scope of any such recommended Supplemental Investigations. If Owner authorizes CMAR to conduct such Supplemental Investigations, through CMAR's own personnel or through a qualified consultant the accuracy of the results resulting therefrom shall be the responsibility of CMAR. If Owner conducts such Supplemental Investigations, including through the Engineer or a consultant, then CMAR will be entitled to rely on the results of the Supplemental Investigations. CMAR shall consider the results of Supplemental Investigations, together with the Technical Data cited above, in planning and pricing construction at the Site.

F. If Owner does not authorize any Supplemental Investigations of Site conditions, then CMAR will proceed with planning and pricing construction based on the Technical Data made available to it.

G. CMAR will be bound by any additional knowledge regarding Site conditions that CMAR gains while providing Preconstruction Services.

H. Notwithstanding CMAR's obligation to confirm Site conditions as part of CMAR's Preconstruction Services, before beginning any Work, CMAR and each Subcontractor shall evaluate and satisfy themselves as to the conditions and limitations under which the Work is to be performed, including, without limitation, (1) the location, condition, layout and nature of the Project Site and surrounding areas including all access, hoisting requirements and conditions, Site logistics, and the geotechnical report, (2) generally prevailing climatic conditions, (3) anticipated labor supply and costs, (4) availability and cost of materials, tools and equipment, (5) any applicable rules and restrictions of Owner relating to construction on the real property and other buildings located in the vicinity of the Project, (6) applicable codes and Laws, and (7) other similar issues. The Owner assumes no responsibility or liability for the physical condition or safety of the Project Site or any improvements located on the Project Site. CMAR and its Subcontractors shall be solely responsible for providing a safe

place for the performance of their Work. The Owner shall not be required to make any adjustment in either the Contract Price or Contract Time in connection with any failure by CMAR or any Subcontractor to comply with the requirements of this Paragraph.

5.04 Differing Subsurface or Physical Conditions

A. Notice by CMAR–If CMAR believes that any subsurface or physical condition that is uncovered or revealed at the Site:

1. is of such a nature as to establish that any Technical Data or Supplemental Investigations results on which CMAR is entitled to rely as provided in Paragraph 5.03 is materially inaccurate;

2. is of such a nature as to require a change in the Drawings or Specifications;

3. differs materially from that shown or indicated in the Contract Documents; or

4. is of an unusual nature, and differs materially from conditions ordinarily encountered and generally recognized as inherent in work of the character provided for in the Contract Documents;

then CMAR shall, promptly after becoming aware thereof and before further disturbing the subsurface or physical conditions or performing any Work in connection therewith, except in an emergency as required by Paragraph 7.18, notify Owner and Engineer in writing about such condition. CMAR shall not further disturb such condition or perform any Work in connection therewith, except with respect to an emergency, until receipt of a written statement permitting CMAR to do so.

B. Engineer's Review: After receipt of written notice as required by the preceding paragraph, Engineer will promptly review the subsurface or physical condition in question; determine whether it is necessary for Owner to obtain additional exploration or tests with respect to the condition; conclude whether the condition falls within any one or more of the differing site condition categories in Paragraph 5.04.A; obtain any pertinent cost or schedule information from CMAR; prepare recommendations to Owner regarding the CMAR's resumption of Work in connection with the subsurface or physical condition in question and the need for any change in the Drawings or Specifications; and advise Owner in writing of Engineer's findings, conclusions, and recommendations.

C. Owner's Statement to CMAR Regarding Site Condition–Owner will issue a written statement to CMAR (with a copy to Engineer) regarding the subsurface or physical condition in question, addressing the resumption of Work in connection with such condition, indicating whether any change in the Drawings or Specifications will be made, and informing CMAR of Engineer's written findings, conclusions, and recommendations in whole or in part.

D. Early Resumption of Work: If at any time Owner or Engineer determines that Work in connection with the subsurface or physical condition in question may resume prior to completion of Engineer's review or Owner's issuance of its statement to CMAR, because the condition in question has been adequately documented, and analyzed on a preliminary basis, then Owner may, or the Engineer may with Owner's approval, instruct CMAR to resume such Work.

E. Possible Price and Times Adjustments

1. Provided CMAR complies with all obligations under Paragraph 5.04, CMAR shall be entitled to an adjustment in Guaranteed Maximum Price or Contract Times, to the extent that the existence of a differing subsurface or physical condition, or any related delay, disruption, or interference, causes an increase or decrease in CMAR's cost of, or time required for, performance of the Work; subject, however, to the following:

    a. Such condition must fall within any one or more of the categories described in Paragraph 5.04.A;

    b. Any adjustment to the Guaranteed Maximum Price under this Paragraph shall be limited to the reasonable, direct costs incurred by the CMAR due to the differing subsurface or physical condition and any delay, disruption, or interference directly resulting from those conditions.

    c. With respect to Work that is paid for on a unit price basis, any adjustment in Guaranteed Maximum Price will be subject to the provisions of Paragraph 13.02; and

    d. CMAR's entitlement to an adjustment of the Contract Times is subject to the provisions of Paragraphs 4.05.D and 4.05.E, and Article 12.

2. CMAR shall not be entitled to any adjustment in the Guaranteed Maximum Price or Contract Times with respect to a subsurface or physical condition if:

    a. CMAR knew of the existence of such condition at the time CMAR made a commitment to Owner with respect to Guaranteed Maximum Price and Contract Times through a Work Authorization;

    b. The existence of such condition reasonably could have been discovered or revealed as a result of any examination, investigation, exploration, test, or study of the Site or contiguous areas expressly required by the Request for Proposals or Contract Documents, including, without limitation the review required by Paragraph 3.03.A above, to be conducted by or for CMAR prior to CMAR's making such commitment;

    c. The existence of such condition reasonably could have been discovered or revealed as a result of practical and cost-effective Supplemental Investigations, as defined in Paragraph 5.03.E, but CMAR did not recommend any such Supplemental Investigations to Owner; or

    d. CMAR failed to give the written notice required by Article 12 and Paragraph 5.04.A.

3. If Owner and CMAR agree regarding CMAR's entitlement to and the amount or extent of any adjustment in the Guaranteed Maximum Price or Contract Times for differing subsurface or physical Site conditions under this Paragraph 5.04, then any such adjustment will be set forth in a Change Order.

4. CMAR may submit a Change Proposal regarding its entitlement to or the amount or extent of any adjustment in the Guaranteed Maximum Price or Contract Times, no later than 14 days after Owner's issuance of the Owner's written statement to CMAR regarding the subsurface or physical condition in question.

F. Underground Facilities; Hazardous Environmental Conditions–Paragraph 5.05 governs rights and responsibilities regarding the presence or location of Underground Facilities. Paragraph 5.06 governs rights and responsibilities regarding Hazardous Environmental

Conditions. The provisions of Paragraphs 5.03 and 5.04 are not applicable to the presence or location of Underground Facilities, or to Hazardous Environmental Conditions.

5.05 Underground Facilities

A. CMAR's Responsibilities–The cost of all the following is included in the Guaranteed Maximum Price, and CMAR shall have full responsibility for:

1. collaborating with Engineer during the design phase, as part of Preconstruction Services, to improve the accuracy and completeness of information regarding Underground Facilities that Engineer gathers and depicts in the final Contract Documents;

2. complying with applicable state and local utility damage prevention Laws and Regulations;

3. verifying the actual location of those Underground Facilities shown or indicated in the Contract Documents as being within the area affected by the Work, by exposing such Underground Facilities prior to construction;

4. coordination of the Work with the owners, including Owner, of such Underground Facilities, during construction; and

5. the safety and protection of all existing Underground Facilities at the Site and repairing any damage thereto resulting from the Work.

B. Notice by CMAR–If CMAR believes that an Underground Facility that is uncovered or revealed at the Site during construction was not shown or indicated on the Drawings, or was not shown or indicated on the Drawings with reasonable accuracy and the existence of such Underground Facility, then CMAR shall, promptly after becoming aware thereof and before further disturbing conditions affected thereby or performing any Work in connection therewith, except in an emergency as required by Paragraph 7.18, notify Owner and Engineer in writing regarding such Underground Facility.

C. Engineer's Review

1. Engineer will:

a. promptly review the Underground Facility and conclude whether such Underground Facility was not shown or indicated on the Drawings, or was not shown or indicated with reasonable accuracy, or reasonably could not have been discovered or revealed as a result of any examination, investigation, exploration, test, or study of the Site or contiguous areas by CMAR expressly required by the Request for Proposals or Contract Documents prior to establishing a GMP with respect to affected Work, including, without limitation the review required by Paragraph 3.03.A above;

b. identify and communicate with the owner of the Underground Facility; prepare recommendations to Owner, and if necessary, issue any preliminary instructions to CMAR regarding the CMAR's resumption of Work in connection with the Underground Facility in question;

c. obtain any pertinent cost or schedule information from CMAR; determine the extent, if any, to which a change is required in the Drawings or Specifications to reflect and document the consequences of the existence or location of the Underground Facility; and

d. Advise Owner in writing of Engineer's findings, conclusions, and recommendations.

During such time, CMAR shall be responsible for the safety and protection of such Underground Facility.

D. Owner's Statement to CMAR Regarding Underground Facility—Owner will issue a written statement to CMAR (with a copy to Engineer) regarding the Underground Facility in question, addressing the resumption of Work in connection with such Underground Facility, indicating whether any change in the Drawings or Specifications will be made, and informing CMAR of Engineer's written findings, conclusions, and recommendations in whole or in part..

E. Early Resumption of Work–If at any time Owner or Engineer determines that Work in connection with the Underground Facility may resume prior to completion of Owner's or Engineer's review or Owner's issuance of its statement to CMAR, because the Underground Facility in question and conditions affected by its presence have been adequately documented, and analyzed on a preliminary basis, then Owner, or the Engineer with Owner's approval, may instruct CMAR to resume such Work.

F. Possible Price and Times Adjustments

1. CMAR shall be entitled to request an adjustment in the Guaranteed Maximum Price or Contract Times, to the extent that any existing Underground Facility at the Site that was not shown or indicated on the Drawings, was not shown or indicated with reasonable accuracy, reasonably could not have been discovered or revealed as a result of any examination, investigation, exploration, test, or study of the Site or contiguous areas by CMAR expressly required by the Request for Proposals or Contract Documents prior to establishing a GMP with respect to affected Work, including, without limitation the review required by Paragraph 3.03.A above, or any related delay, disruption, or interference, causes an increase or decrease in CMAR's cost of, or time required for, performance of the Work; subject, however, to the following limitations:

   a. With respect to Work that is paid for on a unit price basis, any adjustment in Guaranteed Maximum Price will be subject to the provisions of Paragraph 13.02;

   b. Any adjustment to the Guaranteed Maximum Price under this Paragraph shall be limited to the reasonable, direct costs incurred by the CMAR due to any such existing Underground Facility and any delay, disruption, or interference directly resulting from such facility;

   c. CMAR's entitlement to an adjustment of the Contract Times is subject to the provisions of Paragraphs 4.05.D and 4.05.E; and

   d. CMAR gave the notice required in Article 12 and Paragraph 5.05.B.

2. If Owner and CMAR agree regarding CMAR's entitlement to and the amount or extent of any adjustment in the Guaranteed Maximum Price or Contract Times under this Paragraph 5.05, then any such adjustment will be set forth in a Change Order.

3. CMAR may submit a Change Proposal regarding its entitlement to or the amount or extent of any adjustment in the Guaranteed Maximum Price or Contract Times, no later than 14 days after Owner's issuance of the Owner's written statement to CMAR regarding the Underground Facility in question.

4. The information and data shown or indicated on the Drawings with respect to existing Underground Facilities at the Site is based on information and data (a) furnished by the owners of such Underground Facilities, or by others, (b) obtained from available records, or (c) gathered in an investigation conducted in accordance with the current edition of ASCE Manual 38, Standard Guideline for Investigating and Documenting Existing Utilities, by the American Society of Civil Engineers. If such information or data is incorrect or incomplete, CMAR's remedies are limited to those set forth in this Paragraph 5.05.F.

5.06 Hazardous Environmental Conditions at Site

A. Reports and Drawings:

1. The following table lists the reports known to Owner relating to Hazardous Environmental Conditions at or adjacent to the Site, and the Technical Data, if any, upon which CMAR may rely:

Report Title	Date of Report	Technical Data
No reports relating to Hazardous Environmental Conditions have been identified at or adjacent to the Site.	N/A	N/A

2. The following table lists the drawings known to Owner relating to Hazardous Environmental Conditions at or adjacent to the Site, and Technical Data, if any, contained in such Drawings upon which CMAR may rely:

Drawings Title	Date of Drawings	Technical Data
No drawings relating to Hazardous Environmental Conditions have been identified at or adjacent to the Site.	N/A	N/A

3. Technical Data, if any, is described in such reports and drawings.

B. Reliance by CMAR on Technical Data Authorized–CMAR may rely, if reasonable, upon the accuracy of the Technical Data expressly identified in 5.06.A with respect to such reports and drawings, but such reports and drawings are not Contract Documents. If no such express identification has been made, then CMAR may rely, if reasonable, on the accuracy of the Technical Data as defined in Paragraph 1.01.A.55.b. Except for such reliance on Technical Data, CMAR may not rely upon or make any claim against Owner or Engineer, or any of their elected officials, officers, directors, members, partners, employees, agents, consultants, or subcontractors, with respect to:

1. the completeness of such reports and drawings for CMAR's purposes, including, but not limited to, any aspects of the means, methods, techniques, sequences, and procedures of construction to be employed by CMAR, and safety precautions and programs incident thereto;

2. other data, interpretations, opinions, and information contained in such reports or shown or indicated in such drawings; or

3. any CMAR interpretation of or conclusion drawn from any Technical Data or any such other data, interpretations, opinions, or information.

C. CMAR shall not be responsible for removing or remediating any Hazardous Environmental Condition encountered, uncovered, or revealed at the Site unless such removal or remediation is expressly identified in the Contract Documents to be within the scope of the Work.

D. CMAR shall be responsible for controlling, containing, and duly removing all Constituents of Concern brought to the Site by CMAR, Subcontractors, Suppliers, or anyone else for whom CMAR is responsible, and for any associated costs; and for the costs of removing and remediating any Hazardous Environmental Condition created by the presence of any such Constituents of Concern.

E. If CMAR encounters, uncovers, or reveals a Hazardous Environmental Condition whose removal or remediation is not expressly identified in the Contract Documents as being within the scope of the Work, or if CMAR or anyone for whom CMAR is responsible creates a Hazardous Environmental Condition, then CMAR shall immediately: (1) secure or otherwise isolate such condition; (2) stop all Work in connection with such condition and in any area affected thereby, except in an emergency as required by Paragraph 7.18; and (3) notify Owner and Engineer, and promptly thereafter confirm such notice in writing. Owner may consult with Engineer concerning the necessity for Owner to retain a qualified expert to evaluate such condition or take corrective action, if any. After consulting with Engineer, Owner shall take such actions Owner deems are necessary to permit Owner to obtain required permits and provide CMAR with the written notice under Paragraph 5.06.E. If CMAR or anyone for whom CMAR is responsible created the Hazardous Environmental Condition in question, then Owner may remove and remediate the Hazardous Environmental Condition and impose a set-off against payments to account for the associated costs.

F. CMAR shall not resume Work in connection with such Hazardous Environmental Condition or in any affected area until after Owner has obtained any required permits related thereto and delivered written notice to CMAR either (1) specifying that such condition and any affected area is or has been rendered safe for the resumption of Work, or (2) specifying any special conditions under which such Work may be resumed safely.

G. If Owner and CMAR cannot agree as to entitlement to or on the amount or extent, if any, of any adjustment in Guaranteed Maximum Price or Contract Times, as a result of such Work stoppage, such special conditions under which Work is agreed to be resumed by CMAR, or any costs or expenses incurred in response to the Hazardous Environmental Condition, then within 14 days of Owner's written notice regarding the resumption of Work, CMAR may submit a Change Proposal, or Owner may impose a set-off. Entitlement to any such adjustment is subject to the provisions of Paragraphs 4.05.D, 4.05.E, 11.07, and 11.08.

H. If, after receipt of such written notice, CMAR does not agree to resume such Work based on a reasonable belief it is unsafe or does not agree to resume such Work under such special conditions, then Owner may order the portion of the Work that is in the area affected by such condition to be deleted from the Work, following the contractual change procedures in Article 11. Owner may have such deleted portion of the Work performed by Owner's own forces or others in accordance with Article 8.

I. Not used

J. To the fullest extent permitted by Laws and Regulations, CMAR shall indemnify, defend, and hold harmless Owner and its officers, directors, elected officials from and against all claims, costs, losses, and damages, including but not limited to all fees and charges of construction

managers engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs, arising out of or relating to the failure to control, contain, or remove a Constituent of Concern brought to the Site by CMAR or by anyone for whom CMAR is responsible, or to a Hazardous Environmental Condition created by CMAR or by anyone for whom CMAR is responsible.

K. The provisions of Paragraphs 5.03, 5.04, and 5.05 do not apply to the presence of Constituents of Concern or to a Hazardous Environmental Condition uncovered or revealed at the Site.

ARTICLE 6—BONDS AND INSURANCE

CMAR shall obtain Bonds and Insurance and perform and satisfy all obligations related thereto as set forth in the Insurance Requirements Exhibit attached to the Agreement.

ARTICLE 7—CMAR'S RESPONSIBILITIES

7.01 CMAR's Means and Methods of Construction

A. CMAR shall be solely responsible for the means, methods, techniques, sequences, and procedures of construction.

B. If the Contract Documents note, or CMAR determines, that professional engineering or other design services are needed to carry out CMAR's responsibilities for construction means, methods, techniques, sequences, and procedures, or for Site safety, then CMAR shall cause such services to be provided by a properly licensed design professional, at CMAR's expense. Such services are not Owner-delegated professional design services under this Contract, and neither Owner nor Engineer has any responsibility with respect to (1) CMAR's determination of the need for such services, (2) the qualifications or licensing of the design professionals retained or employed by CMAR, (3) the performance of such services, or (4) any errors, omissions, or defects in such services.

7.02 Supervision and Superintendence

A. CMAR shall supervise, inspect, and direct the Work competently and efficiently, using CMAR's best skill and attention thereto and applying such skills and expertise as may be necessary to perform the Work in accordance with the Contract Documents.

B. At all times during the progress of the Work, CMAR shall assign a competent resident superintendent who will not be replaced without prior written notice to Owner and Engineer except under extraordinary circumstances. The superintendent shall remain on the Project during the progress of the Work, and for not less than the number of hours and days necessary to complete the Project within the Contract Time. The superintendent shall not be employed on other projects during the course of this Project.

C. CMAR shall ensure that all Suppliers and Subcontractors adhere to the Contract Documents and that they order and provide materials to the jobsite on time, taking into account the current market and delivery conditions. CMAR shall coordinate its Work with that of all persons or entities performing portions of the Work on the Project, including deliveries, storage, installations and construction of utilities.

D. CMAR shall develop and implement a system and procedures for reviewing its own Work and the work of its Subcontractors for defects and deficiencies, including the preparation of all

appropriate quality control documentation, to assure that all such defects and deficiencies are discovered and corrected. CMAR shall be responsible for inspection of portions of Work already performed under this Contract to determine that such portions are in proper condition to receive subsequent Work.

7.03 CMAR Services—Key Personnel and Subconsultants

A. CMAR will provide the services of the key individuals identified in the Agreement for CMAR Services (Preconstruction Services and Procurement Services) for the duration of the time required to provide these services. CMAR may substitute other individuals for the key individuals identified in the Agreement or for individuals previously approved only upon good cause and with the written consent of the Owner. Subject to the foregoing, not providing the individuals proposed is permissible grounds for Owner's termination of this Contract for cause.

B. CMAR may provide CMAR Services through one or more subconsultants under contract to CMAR provided, however, that CMAR remains responsible to the Owner for all duties and obligations of the CMAR under this Contract, and in rendering services any such subconsultant must comply with all applicable terms and conditions of the Contract Documents. If the Agreement identifies a specific subconsultant, CMAR will provide the services of such subconsultant for the duration of the time required to complete the subcontracted tasks. CMAR may substitute other subconsultants for the subconsultants identified in the Agreement or previously approved only with the written consent of the Owner. Subject to the foregoing, not providing the subconsultants proposed is permissible grounds for Owner's termination of this Contract for cause.

7.04 Quality of CMAR Services

A. The Owner has the right to reject or disapprove any substandard portion of the CMAR Services. Owner will provide written notice stating the reason for the rejection or disapproval. CMAR will revise the services in question to address the inadequacies identified by Owner.

B. CMAR acknowledges that any review or approval of CMAR Services by the Owner does not relieve CMAR of its responsibility to properly and timely perform such services.

7.05 Continuation or Termination of CMAR Services

A. Owner may terminate this Contract for Owner's convenience at any point in the CMAR Services.

7.06 Labor; Working Hours

A. CMAR shall provide competent, suitably qualified personnel to survey and lay out the Work and perform construction as required by the Contract Documents. CMAR shall maintain good discipline and order at the Site. CMAR shall not permit employment of unfit persons or persons not properly skilled in tasks assigned to them or who CMAR knows or through diligence should know is not authorized to work under applicable Laws. At no time shall any individual engage in any illegal activities at the site, consume or possess alcoholic beverages at the Site, or use illegal drugs at the Site. CMAR understands and agrees that if its employees or any other person carrying out the Work engage in unsafe, inappropriate, offensive or disorderly conduct or harasses Owner, its guests, employees or patrons, Owner may require CMAR to permanently remove such offending employees from Site.

B. CMAR shall provide or furnish:

1. Construction-related services as described in Division 00 and Division 01 of the Contract Documents;

2. Post-construction services as described in Division 00 and Division 01 of the Contract Documents; and

3. All other construction-related and post-construction services described in the Contract Documents.

C. CMAR shall be fully responsible to Owner and Engineer for all acts and omissions of CMAR's employees; of subconsultants, Suppliers, and Subcontractors, and their employees; and of any other individuals or entities performing or furnishing any of the CMAR Services or the Work, just as CMAR is responsible for CMAR's own acts and omissions.

D. Except as otherwise required for the safety or protection of persons or the Work or property at the Site or adjacent thereto, and except as otherwise stated in the Contract Documents, all Work at the Site will be performed during regular working hours, Monday through Friday. CMAR will not perform Work on a Saturday, Sunday, or legal holiday. CMAR may perform Work outside regular working hours or on Saturdays, Sundays, or legal holidays only with Owner's written consent, which will not be unreasonably withheld.

E. CMAR shall be responsible for the cost of any overtime pay or other expense incurred by the Owner for Owner's and Engineer's services, including but not limited to, construction observation services, occasioned by the performance of Work on Saturday, Sunday, any legal holiday, or as overtime on any regular work day. If CMAR is responsible but does not pay, or if the parties are unable to agree as to the amount owed, then Owner may impose a reasonable set-off against payments due under Article 15.

7.07 Services, Materials, and Equipment

A. Unless otherwise specified in the Contract Documents, CMAR shall provide and assume full responsibility for all services, materials, equipment, labor, transportation, construction equipment and machinery, tools, appliances, fuel, power, light, heat, telephone, water, sanitary facilities, temporary facilities, and all other facilities and incidentals necessary for the performance, testing, start up, and completion of the Work, whether or not such items are specifically called for in the Contract Documents.

B. All materials and equipment incorporated into the Work must be new and of good quality, except as otherwise provided in the Contract Documents. All special warranties and guarantees required by the Specifications will expressly run to the benefit of Owner. All manufacturer's warranties for materials and equipment shall be assigned to Owner upon incorporation thereof into the Work, and CMAR shall provide all reasonable assistance to Owner and execute any documents to effect such assignments. If required by Engineer or Owner, the CMAR shall furnish satisfactory evidence, including reports of required tests, as to the source, kind, and quality of materials and equipment.

C. All materials and equipment must be stored, applied, installed, connected, erected, protected, used, cleaned, and conditioned in accordance with the manufacturer's or Suppliers instructions except as otherwise may be provided in the Contract Documents.

D. CMAR will be fully responsible for the quality and effectiveness (1) of all services performed or provided by CMAR, including but not limited to CMAR Services and general services in

support of construction, and (2) of the deliverables and documentation associated with all such services.

7.08 "Or Equals"

A. CMAR's Request; Governing Criteria–Whenever an Item of equipment or material is specified or described in the Contract Documents by using the names of one or more proprietary items or specific Suppliers, the Guaranteed Maximum Price has been based upon CMAR furnishing such Item as specified. The specification or description of such an Item is intended to establish the type, function, appearance, and quality required. Unless the specification or description contains or is followed by words reading that no like, equivalent, or "or equal" item is permitted, CMAR may request that Engineer authorize the use of other items of equipment or material, or items from other proposed Suppliers, under the circumstances described below.

1. If Engineer, in consultation with Owner, determines that an Item of equipment or material proposed by CMAR is functionally equal to that named and sufficiently similar so that no change in related Work will be required, Engineer will deem it an "or equal" item. For the purposes of this paragraph, a proposed Item of equipment or material will be considered functionally equal to an Item so named if:

   a. in the exercise of reasonable judgment Engineer, in consultation with Owner, determines that the proposed item:

      1) is at least equal in materials of construction, quality, durability, appearance, strength, and design characteristics;

      2) will reliably perform at least equally well the function and achieve the results imposed by the design concept of the completed Project as a functioning whole;

      3) has a proven record of performance and availability of responsive service; and

      4) is not objectionable to Owner.

   b. CMAR certifies that if the proposed Item is approved and incorporated into the Work:

      1) there will be no increase in cost to the Owner or increase in Contract Times; and

      2) the Item will conform substantially to the detailed requirements of the Item named in the Contract Documents.

B. CMAR's Expense–CMAR shall provide all data in support of any proposed "or equal" Item at CMAR's expense.

C. Engineer's Evaluation and Determination–Engineer will be allowed a reasonable time to evaluate each "or-equal" request and consult with Owner. Engineer may require CMAR to furnish additional data about the proposed "or-equal" item. Engineer in consultation with Owner, will be the sole judge of acceptability. No "or-equal" Item will be ordered, furnished, installed, or utilized until Engineer's review is complete and Engineer, in consultation with Owner, has determined that the proposed Item is equal, which will be evidenced by an approved Shop Drawing or other written communication. Engineer will advise CMAR in writing of any negative determination.

D. Effect of Engineer's Determination–Neither approval nor denial of an "or-equal" request will result in any change in Guaranteed Maximum Price. The Engineer's denial of an "or-equal" request will be final and binding and may not be reversed through an appeal under any provision of the Contract.

E. Treatment as a Substitution Request–If Engineer determines that an Item of equipment or material proposed by CMAR does not qualify as an "or-equal" item, CMAR may request that Engineer consider the Item a proposed substitute pursuant to Paragraph 7.09.

7.09 Substitutes

A. CMAR's Request; Governing Criteria–Unless the specification or description of an Item of equipment or material required to be furnished under the Contract Documents contains or is followed by words reading that no substitution is permitted, CMAR may request that Engineer authorize the use of other items of equipment or material under the circumstances described below.

B. To the extent possible such requests must be made as part of Preconstruction Services, before the completion of the applicable portion of the design, the Procurement of Subcontractors, construction pricing, and execution of the governing Work Authorization (Preconstruction Substitute Requests). Preconstruction Substitute Requests are further addressed in Paragraph 7.09.E below; substitute requests made after the applicable Work Authorization are addressed in Paragraph 7.09.F.

C. The following provisions apply to all substitute requests:

1. CMAR shall submit adequate information as provided below to allow Engineer, in consultation with Owner, to determine if the Item of material or equipment proposed is functionally equivalent to that named and an acceptable substitute therefor. Engineer will not accept requests for review of proposed substitute items of equipment or material from anyone other than CMAR.

2. The requirements for review by Engineer, in consultation with Owner, will be as set forth in Paragraph 7.09.D, as supplemented by the Specifications, and as Engineer, in consultation with Owner, may decide is appropriate under the circumstances.

3. CMAR shall make written application to Engineer and Owner for review of a proposed substitute Item of equipment or material that CMAR seeks to furnish or use. The application:

a. will certify that the proposed substitute Item will:

1) adequately perform the functions and achieve the results called for by the general design;

2) be similar in substance to the Item specified; and

3) be suited to the same use as the Item specified.

b. will state:

1) the extent, if any, to which the use of the proposed substitute Item will necessitate a change in Contract Times;

2) whether use of the proposed substitute Item in the Work will require a change in any of the Contract Documents, or in the provisions of any other direct

contract with Owner for other work on the Project, to adapt the design to the proposed substitute item; and

3) whether incorporation or use of the proposed substitute Item in connection with the Work is subject to payment of any license fee or royalty.

c. will identify:

1) all variations of the proposed substitute Item from the Item specified; and

2) available engineering, sales, maintenance, repair, and replacement services.

d. will contain, to the extent applicable, an itemized estimate of all costs, anticipated price impacts, or credits that will result directly or indirectly from use of such substitute item, including but not limited to changes in Guaranteed Maximum Price, shared savings, costs of redesign, and claims of other contractors affected by any resulting change.

D. Engineer's Determination–Engineer will be allowed a reasonable time to evaluate each substitute request, and to obtain comments and direction from Owner. Engineer may require CMAR to furnish additional data about the proposed substitute item. Engineer, in consultation with Owner, will be the sole judge of acceptability. No substitute will be ordered, furnished, installed, or utilized until Engineer's review is complete and Engineer, in consultation with Owner, determines that the proposed Item is an acceptable substitute.

E. Preconstruction Substitute Requests—CMAR will research potential substitutes, furnish data, and prepare a Preconstruction Substitute Request as compensable Basic Preconstruction Services.

F. For substitute requests made after a Work Authorization, or in an untimely manner such that the substitution cannot be made part of the final design on which binding construction pricing is based, the following apply:

1. Owner's acceptance of Engineer's determination will be evidenced by a Change Order issued by the Owner accounting for the substitute itself and all related impacts, including changes in Guaranteed Maximum Price or Contract Times. Engineer will advise CMAR in writing of any negative determination.

2. Special Guarantee–Owner may require CMAR to furnish at CMAR's expense a special performance guarantee or other surety with respect to the substitute.

3. Reimbursement of Review Cost–Owner and Engineer will record their costs in evaluating the substitute proposed or submitted by CMAR. Whether or not Engineer approves a substitute so proposed or submitted by CMAR, CMAR shall reimburse Owner for the reasonable charges of Owner and Engineer for evaluating each such proposed substitute. CMAR shall also reimburse Owner for the reasonable charges of Owner and Engineer for making changes in the Contract Documents, or in the provisions of any other direct contract with Owner resulting from the acceptance of each proposed substitute.

4. CMAR's Expense–CMAR shall provide all data in support of any proposed substitute at CMAR's expense.

5. Effect of Engineer's Determination–If Owner accepts Engineer's determination and approves the substitute request, CMAR shall execute a Change Order and proceed with

the substitute. The Owner's denial of a substitution request will be final and binding and may not be reversed through an appeal under any provision of the Contract. CMAR may challenge the scope of reimbursement costs imposed under Paragraph 7.09.F.3, by timely submittal of a Change Proposal.

7.10 Concerning Subcontractors and Suppliers

A. CMAR shall retain Subcontractors and Suppliers for the performance of parts of the Work as provided by the Agreement. Such Subcontractors and Suppliers must be acceptable to Owner. The CMAR's retention of a Subcontractor or Supplier for the performance of parts of the Work will not relieve CMAR's obligation to Owner to perform and complete the Work in accordance with the Contract Documents.

B. CMAR shall retain specific Subcontractors and Suppliers for the performance of designated parts of the Work if required by the Contract to do so.

C. As a general matter, CMAR shall retain Subcontractors and Suppliers for Work Packages through the procurement process described in the Agreement, including but not limited to the Procurement Strategy Plan and Exhibit A Article 3 of the Agreement. If there is a conflict between such provisions of the Agreement and this paragraph, the provisions of the Agreement will govern.

D. Subsequent to the submittal of CMAR's Proposal or final negotiation of the terms of the Contract, Owner may not require CMAR to retain any Subcontractor or Supplier against which CMAR has reasonable objection to furnish or perform any of the Work.

E. Prior to entry into any binding subcontract or purchase order, CMAR shall submit to Owner the identity of the proposed Subcontractor or Supplier, unless Owner has already deemed such proposed Subcontractor or Supplier acceptable during the CMAR selection process, the Subcontractor and Supplier procurement process, or otherwise. Such proposed Subcontractor or Supplier will be deemed acceptable to Owner unless Owner raises a substantive, reasonable objection within 5 days.

F. Owner may require the replacement of a Subcontractor or Supplier. Owner also may require CMAR to retain specific replacements; provided, however, that Owner may not require a replacement to which CMAR has a reasonable objection. If CMAR has submitted the identity of certain Subcontractors or Suppliers for acceptance by Owner, through the Subcontractor and Supplier procurement process or otherwise, and Owner has accepted it, either in writing or by failing to make written objection thereto, then Owner may subsequently revoke the acceptance of any such Subcontractor or Supplier so identified solely on the basis of substantive, reasonable objection after due investigation. CMAR shall submit an acceptable replacement for the rejected Subcontractor or Supplier.

G. If Owner requires the replacement of any Subcontractor or Supplier retained by CMAR to perform any part of the Work, then CMAR shall be entitled to request an adjustment in Guaranteed Maximum Price or Contract Times, with respect to the replacement; and CMAR shall initiate a Change Proposal for such adjustment within 30 days of Owner's requirement of replacement.

H. No acceptance by Owner of any such Subcontractor or Supplier, whether initially or as a replacement, will constitute a waiver of the right of Owner to the completion of the Work in accordance with the Contract Documents.

I. On a monthly basis, CMAR shall submit to Owner and Engineer a complete list of all Subcontractors and Suppliers having a direct contract with CMAR, and of all other Subcontractors and Suppliers known to CMAR at the time of submittal.

J. CMAR shall be solely responsible for scheduling and coordinating the work of Subcontractors and Suppliers.

K. The divisions and sections of the Specifications and the identifications of any Drawings do not control CMAR in dividing the Work among Subcontractors or Suppliers, or in delineating the Work to be performed by any specific trade.

L. All Work performed for CMAR by a Subcontractor or Supplier must be pursuant to an appropriate contractual agreement that specifically binds the Subcontractor or Supplier to the applicable terms and conditions of the Contract for the benefit of Owner and Engineer.

M. Owner may furnish to any Subcontractor or Supplier, to the extent practicable, information about amounts paid to CMAR for Work performed for CMAR by the Subcontractor or Supplier.

N. CMAR shall restrict all Subcontractors and Suppliers from communicating with Engineer or Owner, except through CMAR or in case of an emergency, or as otherwise expressly allowed in this Contract.

O. CMAR will perform or undertake the responsibilities of any Subcontractor or Supplier that defaults, fails to perform, declares bankruptcy, or meets any of the other requirements for termination for cause listed as applying to the CMAR as described in Paragraph 16.02 of the General Conditions.

P. Upon receiving a payment from Owner, CMAR shall pay Subcontractors and Suppliers their share of the payment for their work not later than the tenth (10th) day after the date CMAR receives the payment as required by Tex. Gov't Code § 2251.022. CMAR shall ensure Subcontractors and Suppliers similarly comply with their payment obligations under Tex. Gov't Code § 2251.022.

7.11 Patent Fees and Royalties

A. CMAR shall pay all license fees and royalties and assume all costs incident to the use in the performance of the Work or the incorporation in the Work of any invention, design, process, product, or device which is the subject of patent rights or copyrights held by others.

B. Intentionally Deleted.

C. Indemnification obligations by CMAR under Paragraph 7.21 apply with respect to any infringement or claim of infringement of patent rights or copyrights incident to the use in the performance of the Work or resulting from the incorporation in the Work of any invention, design, process, product, or device not specified in the Contract Documents.

7.12 Permits

A. Unless otherwise provided in the Contract Documents, CMAR shall obtain and pay for all construction permits, licenses, and certificates of occupancy. Owner shall assist CMAR, when necessary, in obtaining such permits and licenses. CMAR shall pay all governmental charges and inspection fees necessary for the prosecution of the Work which are applicable at the time of the submission of CMAR's Proposal. Owner shall pay all charges of utility owners for connections for providing permanent service to the Work.

7.13 Taxes

A. CMAR shall pay all sales, consumer, use, and other similar taxes required to be paid by CMAR in accordance with the Laws and Regulations of the place of the Project which are applicable during the performance of the Work. CMAR acknowledges that because Owner is an agency of the State of Texas, materials and services utilized in the construction of the Project may be exempted from state and local taxes and CMAR is responsible for taking full advantage of all tax exemptions applicable to the Project, which are not reimbursable Construction Support Costs and will be deducted from any Applications for Payment to the extent paid.

7.14 Laws and Regulations

A. CMAR shall give all notices required by and shall comply with all Laws and Regulations applicable to the performance of CMAR Services or the Work. Neither Owner nor Engineer will be responsible for monitoring CMAR's compliance with Laws or Regulations.

B. If CMAR performs any CMAR Services or Work or takes any other action knowing or having reason to know that it is contrary to Laws or Regulations, CMAR shall bear all resulting costs and losses, and shall indemnify and hold harmless the Indemnified Parties costs, losses, and damages, including but not limited to all fees and charges of construction managers, engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs, arising out of or relating to such CMAR Services, Work, or other action.

C. It is not CMAR's responsibility to make certain that the Work described in the Contract Documents is in accordance with Laws and Regulations, but this does not relieve CMAR of its obligations under Paragraph 3.03.

D. Owner or CMAR may give written notice to the other party after the issuance of a Work Order or after the parties reach agreement on the GMP for the Project of any changes in Laws or Regulations having an effect on the cost or time of performance of the Work, including but not limited to changes in Laws or Regulations having an effect on procuring permits and on sales, use, value-added, consumption, and other similar taxes. If Owner and CMAR are unable to agree on entitlement to or on the amount or extent, if any, of any adjustment in Guaranteed Maximum Price or Contract Times resulting from such changes, then within 30 days of such written notice CMAR may submit a Change Proposal, or Owner may initiate a Claim.

E. CMAR will be required to pay not less than the prevailing wage of the various classes of labor and shall comply will the applicable provisions of Chapter 2258 of the Texas Government Code Title 10. This determination of prevailing wages shall not be construed to prohibit the payment of more than the rate named. Under no condition shall any laborer, workman or mechanic employed on this job be paid less than the minimum wage scale as determined by the United States Department of Labor in accordance with the Davis-Bacon Act (40 U.S.C. Section 276a et seq.), and its subsequent amendments. CMAR shall post the applicable prevailing wage rate determination in a prominent, easily accessible place at the Project Site as required under the foregoing act. CMAR's payroll records and practices are subject to audit as provided in the Contract Documents to ensure compliance with the Contract.

F. CMAR shall ensure that it and all of its Subcontractors and assigns prevent illegal dumping of litter in accordance with Title 5, Texas Health and Safety Code, Chapter 365.

G. Pursuant to Sections 2107.008 and 2252.903, Texas Government Code, CMAR agrees that any payments owing to CMAR under the Agreement may be applied directly toward any debt or delinquency that CMAR owes the State of Texas or any agency of the State of Texas regardless of when it arises, until such debt or delinquency is paid in full.

7.15 Record Documents

A. CMAR shall maintain in a safe place at the Site one printed record copy of all Drawings, Specifications, Addenda, Change Orders, Work Change Directives, Field Orders, Contract Amendments, Work Packages, Work Authorizations, written interpretations and clarifications, and approved Shop Drawings. CMAR shall keep such record documents in good order and annotate them to show changes made during construction. These record documents, together with all approved Samples, will be available to Owner and Engineer for reference. Upon completion of the Work, CMAR shall deliver these record documents to Owner.

7.16 Safety and Protection

A. CMAR shall be solely responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the Work. Such responsibility does not relieve Subcontractors of their responsibility for the safety of persons or property in the performance of their work, nor for compliance with applicable safety Laws and Regulations.

B. CMAR shall designate a qualified and experienced safety representative whose duties and responsibilities are the prevention of Work-related accidents and the maintenance and supervision of safety precautions and programs.

C. CMAR shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury, or loss to:

1. all persons on the Site or who may be affected by the Work;

2. all the Work and materials and equipment to be incorporated therein, whether in storage on or off the Site; and

3. other property at the Site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, other work in progress, utilities, and Underground Facilities not designated for removal, relocation, or replacement in the course of construction.

D. All damage, injury, or loss to any property referred to in Paragraph 7.16.C.2 or 7.16.C.3 caused, directly or indirectly, in whole or in part, by CMAR, any Subcontractor, Supplier, or any other individual or entity directly or indirectly employed by any of them to perform any of the Work, or anyone for whose acts any of them may be liable, will be remedied by CMAR at its expense, except damage or loss attributable to the fault of Drawings or Specifications or to the acts or omissions of Owner or Engineer or anyone employed by any of them, or anyone for whose acts any of them may be liable, and not attributable, directly or indirectly, in whole or in part, to the fault or negligence of CMAR or any Subcontractor, Supplier, or other individual or entity directly or indirectly employed by any of them.

E. CMAR shall comply with all applicable Laws and Regulations relating to the safety of persons or property, or to the protection of persons or property from damage, injury, or loss; and shall erect and maintain all necessary signage, warnings, and safeguards for such safety and protection.

F. CMAR shall notify Owner and Engineer; the owners of adjacent property; the owners of Underground Facilities and other utilities, if the identity of such owners is known to CMAR; and other contractors and utility owners performing work at or adjacent to the Site, in writing, when CMAR knows that prosecution of the Work may affect them, and shall cooperate with them in the protection, removal, relocation, and replacement of their property or work in progress.

G. CMAR shall comply with the applicable requirements of Owner's safety programs, if any. Any Owner's safety programs that are applicable to the Work are identified or included in the Supplementary Conditions or Specifications.

H. CMAR shall inform Owner and Engineer of the specific requirements of CMAR's safety program with which Owner's and Engineer's employees and representatives must comply while at the Site.

I. CMAR's duties and responsibilities for safety and protection will continue until all the Work is completed, Engineer has issued a written notice to CMAR in accordance with Paragraph 15.07.C that the Work is acceptable, and CMAR has left the Site, except as otherwise expressly provided in connection with Substantial Completion.

J. CMAR's duties and responsibilities for safety and protection will resume whenever CMAR or any Subcontractor or Supplier returns to the Site to fulfill warranty or correction obligations, or to conduct other tasks arising from the Contract Documents.

K. If the Work will involve the digging or use of a trench as defined by Chapter 756 of the Texas Health and Safety Code, the CMAR shall abide by the latest version of the Occupational Safety and Health Administration standards for trench safety in effect at the time of the commencement of the Work. CMAR shall be responsible for selecting an appropriate method of providing trench safety after due consideration of the conditions of the Work, the location of utilities, pavement conditions and other relevant factors. Slope-back methods that may result in unnecessary displacement of utilities or destruction of pavement may not be used without permission from the Owner. CMAR shall be responsible for providing to the Owner and Engineer an acceptable trench safety plan signed and sealed by a professional engineer qualified to do such work and registered to practice in Texas. Devices used to provide trench safety such as trench shields and shoring systems shall likewise be certified by a professional engineer registered in the State of Texas or by a professional engineer registered in the state of manufacture of the shield.

7.17 Hazard Communication Programs

A. CMAR shall be responsible for coordinating any exchange of safety data sheets or other hazard communication information required to be made available to or exchanged between or among employers at the Site in accordance with Laws or Regulations.

7.18 Emergencies

A. In emergencies affecting the safety or protection of persons or the Work or property at the Site or adjacent thereto, CMAR is obligated to act to prevent damage, injury, or loss. CMAR shall give Owner and Engineer prompt written notice if CMAR believes that any significant changes in the Work or variations from the Contract Documents have been caused by an emergency or are required as a result of CMAR's response to an emergency. If Owner, in consultation with Engineer, determines that a change in the Contract Documents is required

because of an emergency or CMAR's response, a Work Change Directive or Change Order will be issued.

7.19 Submittals

A. Shop Drawing and Sample Requirements

1. Before submitting a Shop Drawing or Sample, CMAR shall:

a. review and coordinate the Shop Drawing or Sample with other Shop Drawings and Samples and with the requirements of the Work and the Contract Documents;

b. determine and verify:

1) all field measurements, quantities, dimensions, specified performance and design criteria, installation requirements, materials, catalog numbers, and similar information with respect to the Submittal;

2) the suitability of all materials and equipment offered with respect to the indicated application, fabrication, shipping, handling, storage, assembly, and installation pertaining to the performance of the Work; and

3) all information relative to CMAR's responsibilities for means, methods, techniques, sequences, and procedures of construction, and safety precautions and programs incident thereto;

c. confirm that the Submittal is complete with respect to all related data included in the Submittal.

2. Each Shop Drawing or Sample must bear a stamp or specific written certification that CMAR has satisfied CMAR's obligations under the Contract Documents with respect to CMAR's review of that Submittal, and that CMAR approves the Submittal.

3. With each Shop Drawing or Sample, CMAR shall give Owner and Engineer specific written notice of any variations that the Submittal may have from the requirements of the Contract Documents. This notice must be set forth in a written communication separate from the Submittal; and, in addition, in the case of a Shop Drawing by a specific notation made on the Shop Drawing itself.

B. Submittal Procedures for Shop Drawings and Samples–CMAR shall label and submit Shop Drawings and Samples to Owner and Engineer for Engineer's review in accordance with the accepted Schedule of Submittals.

1. Shop Drawings

a. CMAR shall submit the number of copies required in the Specifications.

b. Data shown on the Shop Drawings must be complete with respect to quantities, dimensions, specified performance and design criteria, materials, and similar data to show the services, materials, and equipment CMAR proposes to provide, and to enable the information to be reviewed for the limited purposes required by Paragraph 7.19.D.

2. Samples

a. CMAR shall submit the number of Samples required in the Specifications.

b. CMAR shall clearly identify each Sample as to material, Supplier, pertinent data such as catalog numbers, the use for which intended and other data as Engineer may require to enable Engineer to review the Sample for the limited purposes required by Paragraph 7.19.D.

C. Proceeding without Engineer's Approval—Where a Shop Drawing or Sample is required by the Contract Documents or the Schedule of Submittals, Owner will not pay for related Work, including equipment or materials, until Engineer approves the Shop Drawing or Sample. If CMAR proceeds without such approval, CMAR will bear the full risk of all resulting delays, costs, and losses, including but not limited to removal, corrective, purchase, and installation costs, if such approval is not granted.

D. Engineer's Review of Shop Drawings and Samples

1. Engineer will provide timely review of Shop Drawings and Samples in accordance with the accepted Schedule of Submittals. Engineer's review will be only to determine if the items covered by the Submittals will, after installation or incorporation in the Work, comply with the requirements of the Contract Documents, and be compatible with the design concept of the completed Project as a functioning whole as indicated by the Contract Documents.

2. Engineer's review and approval, if any, will not extend to means, methods, techniques, sequences, or procedures of construction, or to safety precautions or programs incident thereto.

3. Engineer's review and approval, if any, of a separate Item as such will not indicate approval of the assembly in which the Item functions.

4. Engineer's review and approval, if any, of a Shop Drawing or Sample will not relieve CMAR from responsibility for any variation from the requirements of the Contract Documents unless CMAR has complied with the requirements of Paragraph 7.19.A.3 and Engineer has given written approval of each such variation by specific written notation thereof incorporated in or accompanying the Shop Drawing or Sample. Engineer will document any such approved variation from the requirements of the Contract Documents in a Field Order or other appropriate Contract modification.

5. Engineer's review and approval, if any, of a Shop Drawing or Sample will not relieve CMAR from responsibility for complying with the requirements of Paragraphs 7.19.A and B.

6. Engineer's review and approval, if any, of a Shop Drawing or Sample, or of a variation from the requirements of the Contract Documents, will not, under any circumstances, change the Contract Times or Guaranteed Maximum Price, unless such changes are included in a Change Order.

7. Neither receipt, review, acceptance, or approval of a Shop Drawing or Sample will result in such Item becoming a Contract Document.

8. CMAR shall perform the Work in compliance with the requirements and commitments set forth in approved Shop Drawings and Samples, subject to the provisions of Paragraph 7.19.D.4.

E. Resubmittal Procedures for Shop Drawings and Samples

1. CMAR shall make required corrections and shall return the required number of corrected copies of Shop Drawings and submit, as required, new Samples for review and approval. CMAR shall direct specific attention in writing to revisions other than the corrections called for on previous Submittals.

2. CMAR shall furnish required Shop Drawing and Sample submittals with adequate information and accuracy to obtain required approval of an Item with no more than two resubmittals. Engineer will record Engineer's time for reviewing a third or subsequent resubmittal of a Shop Drawing or Sample, and CMAR shall be responsible for Engineer's charges to Owner for such time. Owner may impose a set-off against payments due CMAR to secure reimbursement for such charges.

3. If CMAR requests a change of a previously approved Shop Drawing or Sample, CMAR shall be responsible for Engineer's charges to Owner for its review time, and Owner may impose a set-off against payments due CMAR to secure reimbursement for such charges, unless the need for such change is beyond the control of CMAR.

F. Submittals Other than Shop Drawings, Samples, and Owner-Delegated Designs

1. The following provisions apply to all Submittals other than Shop Drawings, Samples, and Owner-delegated designs:

a. CMAR shall submit all such Submittals to Owner and Engineer in accordance with the Schedule of Submittals and pursuant to the applicable terms of the Contract Documents.

b. A timely review will be made by Engineer of all such Submittals in accordance with the Schedule of Submittals and return such Submittals with a notation of either Accepted or Not Accepted. Any such Submittal that is not returned within the time established in the Schedule of Submittals will be deemed accepted.

c. Review will be only to determine if the Submittal is acceptable under the requirements of the Contract Documents as to general form and content of the Submittal.

d. If any such Submittal is not accepted, CMAR shall confer with Engineer regarding the reason for the non-acceptance and resubmit an acceptable document.

2. Procedures for the submittal and acceptance of the Progress Schedule, the Schedule of Submittals, and the Schedule of Values are set forth in Paragraphs 4.04, 7.19, and 15.02.

G. Owner-delegated Designs–Submittals pursuant to Owner-delegated designs are governed by the provisions of Paragraph 7.22.

7.20 CMAR's General Warranty and Guarantee

A. CMAR warrants and guarantees to Owner that all Work will be in accordance with the Contract Documents and will not be defective. Owner and Engineer are entitled to rely on CMAR's warranty and guarantee.

B. Owner's rights under this warranty and guarantee are in addition to, and are not limited by, Owner's rights under the correction period provisions of Paragraph 15.09. The time in which Owner may enforce its warranty and guarantee rights under this Paragraph 7.20 is limited only by applicable Laws and Regulations restricting actions to enforce such rights; provided, however, that after the end of the correction period under Paragraph 15.09:

1. Owner shall give CMAR written notice of any defective Work within a reasonable time of the discovery that such Work is defective; and

2. Such notice will be deemed the start of an event giving rise to a Claim under Paragraph 12.01.B, such that any related Claim must be brought as specified therein.

C. CMAR's warranty and guarantee hereunder excludes defects or damage caused by:

1. abuse, or improper modification, maintenance, or operation, by persons other than CMAR, Subcontractors, Suppliers, or any other individual or entity for whom CMAR is responsible; or

2. normal wear and tear under normal usage.

D. CMAR shall perform or provide CMAR Services in accordance with the Contract Documents and good construction management practice. CMAR warrants and guarantees all Work will be performed in a good and workmanlike manner, consistent with the requirements of the Contract Documents, according to construction industry standards, and in compliance with applicable Law.

E. CMAR's obligation to perform and complete the CMAR Services and the Work in accordance with the Contract Documents is absolute. None of the following will constitute an acceptance of CMAR Services or Work that is not in accordance with the Contract Documents, a release of CMAR's obligation to perform the CMAR Services or Work in accordance with the Contract Documents, or a release of Owner's warranty and guarantee rights under this Paragraph 7.20:

1. Observations by Owner or Engineer;

2. Recommendation by Engineer or payment by Owner of any progress or final payment;

3. The acceptance of CMAR Services without objection;

4. The issuance of a certificate of Substantial Completion by Engineer or any payment related thereto by Owner;

5. Use or occupancy of the Work or any part thereof by Owner;

6. Any review and approval of a Shop Drawing or Sample submittal;

7. The issuance of a notice of acceptability by Engineer;

8. The end of the correction period established in Paragraph 15.09;

9. Any inspection, test, or approval by others; or

10. Any correction of defective Work by Owner.

F. If the Contract requires CMAR to accept the assignment of a contract entered into by Owner, then the specific warranties, guarantees, and correction obligations contained in the assigned contract will govern with respect to CMAR's performance obligations to Owner for the Work described in the assigned contract.

7.21 Indemnification

A. **TO THE FULLEST EXTENT PERMITTED BY LAWS AND REGULATIONS, AND IN ADDITION TO ANY OTHER OBLIGATIONS OF CMAR UNDER THE CONTRACT OR OTHERWISE, CMAR SHALL DEFEND, PROTECT, INDEMNIFY AND HOLD HARMLESS OWNER AND ITS ELECTED OFFICIALS**

AND EMPLOYEES, PAST AND PRESENT IN EACH CASE (THE "OWNER INDEMNIFIED PARTIES") FROM AND AGAINST ANY AND ALL CLAIMS, COSTS, LOSSES, AND DAMAGES, INCLUDING BUT NOT LIMITED TO ALL FEES AND CHARGES OF CONSTRUCTION MANAGERS, ENGINEERS, ARCHITECTS, ATTORNEYS, AND OTHER PROFESSIONALS, AND ALL COURT OR ARBITRATION OR OTHER DISPUTE RESOLUTION COSTS, ARISING OUT OF OR RELATING TO SUCH CMAR SERVICES, WORK, OR OTHER ACTION ("LOSSES") THAT ARE SUFFERED, INCURRED OR SUSTAINED BY ANY OF THE OWNER INDEMNIFIED PARTIES OR TO WHICH ANY OF THE OWNER INDEMNIFIED PARTIES BECOMES SUBJECT, FOR ANY ACTUAL OR ASSERTED BODILY INJURY (INCLUDING DEATH) OF EMPLOYEES OF EITHER CMAR OR ANY SUBCONTRACTOR (WITH EACH OF THEIR OFFICERS, DIRECTORS, MEMBERS, PARTNERS, EMPLOYEES, AGENTS, AND CONSULTANTS, THE "CMAR GROUP") ARISING OUT OF OR INCIDENT TO OR RELATED IN ANY WAY TO, DIRECTLY OR INDIRECTLY, THE CONTRACT OR ANY WORK, INCLUDING CLAIMS AND LOSSES ARISING OUT OF OR RELATED TO (A) ANY CONDITION OF THE PREMISES, (B) SEPARATE OPERATIONS BEING CONDUCTED ON THE PREMISES, OR (C) THE IMPERFECTION OR DEFECTIVE CONDITION, WHETHER LATENT OR PATENT, OF ANY MATERIAL OR EQUIPMENT SOLD, SUPPLIED, OR FURNISHED BY CMAR OR ANY OF THE OWNER INDEMNIFIED PARTIES. SUBJECT TO THE APPLICATION OF TEXAS LAW REGARDING INDEMNITY PROVISIONS, IT IS THE EXPRESS INTENT OF THE PARTIES THAT, FOR PURPOSES OF THIS SECTION, CLAIMS, AND CMAR'S OBLIGATIONS TO DEFEND, PROTECT, INDEMNIFY, AND HOLD HARMLESS, WILL INCLUDE CLAIMS ARISING OUT OF OR RELATED TO ANY OF THE OWNER INDEMNIFIED PARTIES' SOLE OR CONCURRENT (I) NEGLIGENCE, (II) GROSS NEGLIGENCE, (III) STRICT LIABILITY, OR (IV) OTHER FAULT OF ANY NATURE.

B. **EXCEPT FOR THOSE CLAIMS AND LOSSES WITHIN THE SCOPE OF PARAGRAPH 7.21.A, CMAR WILL DEFEND, PROTECT, INDEMNIFY AND HOLD HARMLESS THE OWNER INDEMNIFIED PARTIES FROM AND AGAINST ANY AND ALL CLAIMS AND LOSSES THAT ARE SUFFERED, INCURRED OR SUSTAINED BY ANY OF THE OWNER INDEMNIFIED PARTIES OR TO WHICH ANY OF THE OWNER INDEMNIFIED PARTIES BECOMES SUBJECT, ARISING OUT OF OR INCIDENT TO OR RELATED IN ANY WAY TO, DIRECTLY OR INDIRECTLY, THE CONTRACT OR ANY WORK, INCLUDING ANY ACTUAL OR ASSERTED (A) NEGLIGENCE, GROSS NEGLIGENCE OR WILLFUL MISCONDUCT OF ANY MEMBER OF THE CMAR GROUP, (B) FAILURE BY ANY MEMBER OF THE CMAR GROUP TO COMPLY WITH ANY LAW, OR IF ANY WORK (OR ANY PART THEREOF) IS DELAYED OR STOPPED BY ANY GOVERNMENTAL AUTHORITY DUE TO ANY FAILURE BY ANY MEMBER OF THE CMAR GROUP TO COMPLY WITH ANY LAW, (C) BREACH OF ANY OF CMAR'S REPRESENTATIONS, WARRANTIES OR COVENANTS UNDER THE AGREEMENT, OR (D) CLAIMS THAT ANY WORK, WORK PRODUCT, CMAR INTELLECTUAL PROPERTY, OR SOFTWARE, PROCESSES OR OTHER INTELLECTUAL PROPERTY USED TO PERFORM THE WORK, OR THEIR RECEIPT, POSSESSION OR USE BY OWNER, IN EACH CASE WHETHER ALONE OR IN COMBINATION WITH ANYTHING ELSE, INFRINGES UPON OR MISAPPROPRIATES THE PROPRIETARY RIGHTS OF ANY THIRD PARTY. SUBJECT TO THE APPLICATION OF TEXAS LAW REGARDING INDEMNITY PROVISIONS, IT IS THE EXPRESS INTENT OF THE PARTIES THAT, FOR THE PURPOSES OF THIS SECTION, CLAIMS, AND CMAR'S OBLIGATIONS TO DEFEND, PROTECT, INDEMNIFY, AND HOLD HARMLESS, WILL INCLUDE CLAIMS ARISING FROM OR RELATED TO ANY OF THE OWNER INDEMNIFIED PARTIES' CONCURRENT (I) NEGLIGENCE, (II) GROSS NEGLIGENCE, (III) STRICT LIABILITY, OR (IV) OTHER FAULT OF ANY NATURE.**

C. In claims against any person or entity indemnified under this Paragraph 7.21 by any CMAR employee, or the survivor or personal representative of such employee, any Subcontractor, any Supplier, or any individual or entity directly or indirectly employed by any of them to perform any of the Work, or anyone for whose acts any of them may be liable, the indemnification obligation under Paragraph 7.21 will not be limited by a limitation on the amount or type of damages, compensation, or benefits payable by or for CMAR or any such Subcontractor, Supplier, or other individual or entity under workers' compensation acts, disability benefit acts, or other employee benefit acts.

D. Other provisions in the Contract Documents containing indemnification obligations shall be deemed to be cumulative of and to operate independently of the indemnities provided above such that all indemnities provided in the Contract Documents shall be construed to grant indemnity to the Indemnified Parties to the fullest extent possible.

E. The CMAR shall indemnify and hold harmless the Indemnified Parties from and against any costs and expenses (including reasonable attorney's fees) incurred by any of the Indemnified Parties in enforcing any of the CMAR's defense, indemnity, and hold-harmless obligations under this Contract.

7.22 Delegation of Professional Design Services

A. Owner may require CMAR to provide professional design services for a portion of the Work by express delegation in the Contract Documents. Such delegation will specify the performance and design criteria that such services must satisfy, and the Submittals that CMAR must furnish to Engineer and Owner for Engineer's review with respect to the Owner-delegated design.

B. CMAR shall cause such Owner-delegated professional design services to be provided with the professional skill and care ordinarily provided by competent architects or engineers practicing under the same or similar circumstances and professional license, whose signature and seal must appear on all drawings, calculations, specifications, certifications, and Submittals prepared by such design professional. Such design professional must issue all certifications of design required by Laws and Regulations.

C. If a Shop Drawing or other Submittal related to the Owner-delegated design is prepared by CMAR, a Subcontractor, or others for submittal to Engineer and Owner, then such Shop Drawing or other Submittal must bear the written approval of CMAR's design professional when submitted by CMAR to Engineer and Owner.

D. Owner and Engineer shall be entitled to rely upon the adequacy, accuracy, and completeness of the services, certifications, and approvals performed or provided by the design professionals retained or employed by CMAR under an Owner-delegated design, subject to the professional standard of care and the performance and design criteria stated in the Contract Documents.

E. Pursuant to this Paragraph 7.22, Engineer's review, approval, and determinations regarding design drawings, calculations, specifications, certifications, and other Submittals furnished by CMAR pursuant to an Owner-delegated design will be only for the following limited purposes:

1. Checking for conformance with the requirements of this Paragraph 7.22;

2. Confirming that CMAR, through its design professionals, has used the performance and design criteria specified in the Contract Documents; and

3. Establishing that the design furnished by CMAR is consistent with the design concept expressed in the Contract Documents.

F. CMAR is not required to provide professional services in violation of applicable Laws and Regulations.

7.23 CMAR's Collaboration Responsibilities

A. CMAR acknowledges Owner has selected the Construction-Manager-at-Risk project delivery method because it is a collaborative delivery method and CMAR acknowledges and accepts, as a material term of this Contract, CMAR's obligations to collaborate, which include, but are not limited to, CMAR's acknowledgement of and agreement to comply with the following at all times during the term of this Contract:

1. Notwithstanding anything to the contrary contained in this Contract, Owner and CMAR agree and acknowledge that Owner has entered into this Contract in reliance on CMAR's special and unique construction management abilities to perform its obligations hereunder.

2. CMAR accepts that this Contract establishes a relationship of trust and confidence between it and the Owner. CMAR understands the complexity involved in this type of project and the necessity of coordination of the performance of its Work and CMAR Services with the OPT. In addition to the rights and remedies under this Contract, at law or in equity, the CMAR will expeditiously and cost-effectively perform, or cause to be performed, all CMAR Services and the Work, and in no event later than is required to conform to the Contract Time(s).

3. CMAR will perform the CMAR Services and the Work with that degree of professional skill and care practiced by similar firms, using similar collaborative project planning methods, and having industry leading knowledge and skill engaged in providing similar services for major construction projects of comparable value in the United States under the same or similar circumstances.

4. CMAR will furnish efficient business administration and superintendence and perform the CMAR Services and the Work in such manner as to provide Owner the best value. CMAR will employ and exercise the professional judgment of its experienced and qualified construction professionals to further Owner's interests and provide Owner confidence that the Project will be completed in conformity with the design concepts and construction requirements established by the OPT, and it is the intention of the parties that the CMAR will, at all times, act in the Owner's and Project's best interests with respect to the performance of the CMAR Services and all aspects of the Work. CMAR will always exercise exclusive direction and control, and is and will be responsible for proper supervision of all its personnel and all Subcontractors while present on the Site or otherwise performing Work or CMAR Services for the Project.

B. These obligations to collaborate will not, however, be deemed to alter or expand the CMAR's common law duty to Owner with respect to liability for, or the duty to indemnify, defend or hold Owner harmless under the indemnity provisions in this Contract, with respect to Claims or liability for bodily injury or property damage, for which the collaboration responsibilities

will be deemed and construed to be no greater than that imposed upon the CMAR by common law.

ARTICLE 8—OTHER WORK AT THE SITE

8.01 Other Work

A. In addition to and apart from the Work under the Contract Documents, the Owner may perform other work at or adjacent to the Site and CMAR acknowledges Owner will be performing other work at or adjacent to the Site during the term of the Contract. Such other work may be performed by Owner's employees, or through contracts between the Owner and third parties. Owner may also arrange to have third-party utility owners perform work on their utilities and facilities at or adjacent to the Site.

B. If Owner performs other work at or adjacent to the Site with Owner's employees, or through contracts for such other work, then Owner shall give CMAR written notice thereof prior to starting any such other work. If Owner has advance information regarding the start of any third-party utility work that Owner has arranged to take place at or adjacent to the Site, Owner shall provide such information to CMAR.

C. CMAR shall afford proper and safe access to the Site to each contractor that performs such other work, each utility owner performing other work, and Owner, if Owner is performing other work with Owner's employees, and provide a reasonable opportunity for the introduction and storage of materials and equipment and the execution of such other work.

D. CMAR shall do all cutting, fitting, and patching of the Work that may be required to properly connect or otherwise make its several parts come together and properly integrate with such other work. CMAR shall not endanger any work of others by cutting, excavating, or otherwise altering such work; provided, however, that CMAR may cut or alter others' work with the written consent of Engineer and the others whose work will be affected.

E. If the proper execution or results of any part of CMAR's Work depends upon work performed by others, CMAR shall inspect such other work and promptly report to Engineer and Owner in writing any delays, defects, or deficiencies in such other work that render it unavailable or unsuitable for the proper execution and results of CMAR's Work. CMAR's failure to so report will constitute an acceptance of such other work as fit and proper for integration with CMAR's Work except for latent defects and deficiencies in such other work.

F. The provisions of this Article are not applicable to work that is performed by third-party utilities or other third-party entities without a contract with Owner, or that is performed without having been arranged by Owner. If such work occurs, then any related delay, disruption, or interference incurred by CMAR is governed by the provisions of Paragraph 4.05.C.3 as a Force Majeure event if outside of CMAR's reasonable control.

8.02 Coordination

A. If Owner intends to contract with others for the performance of other work at or adjacent to the Site, to perform other work at or adjacent to the Site with Owner's employees, or to arrange to have utility owners perform work at or adjacent to the Site, the following will be set forth in the Supplementary Conditions or provided to CMAR prior to the start of any such other work:

1. The identity of the individual or entity that will have authority and responsibility for coordination of the activities among the various contractors;
2. An itemization of the specific matters to be covered by such authority and responsibility; and
3. The extent of such authority and responsibilities.

B. Unless otherwise provided in the Supplementary Conditions, Owner shall have sole authority and responsibility for such coordination.

8.03 Legal Relationships

A. If, in the course of performing other work for Owner at or adjacent to the Site, the Owner's employees, any other contractor working for Owner, or any utility owner that Owner has arranged to perform work, causes damage to the Work or to the property of CMAR or its Subcontractors, request an adjustment in the Guaranteed Maximum Price for the reasonable, direct costs incurred due to such damage. CMAR must submit any Change Proposal seeking an adjustment in the Guaranteed Maximum Price under this paragraph within 14 days of the event. The entitlement to, and extent of, any such adjustment will consider information, if any regarding such other work that was provided to CMAR in the Contract Documents prior to the submittal of the Proposal or the final negotiation of the terms of the Contract, and any remedies available to CMAR under Laws or Regulations. When applicable, any such adjustment in Guaranteed Maximum Price will be conditioned on CMAR assigning to Owner all CMAR's rights against such other contractor or utility owner with respect to the damage, delay, disruption, or interference that is the subject of the adjustment. CMAR's entitlement to an adjustment of Guaranteed Maximum Price is subject to the provisions of Paragraphs 4.05.D and 4.05.E. CMAR's entitlement to request an adjustment in the Contract Times for a delay or disruption caused by Owner's employees, any other contractor working for Owner, or any utility owner that Owner has arranged to perform work is subject to the applicable provisions of Paragraph 4.05 and Article 12.

B. CMAR shall take reasonable and customary measures to avoid damaging, delaying, disrupting, or interfering with the work of Owner, any other contractor, or any utility owner performing other work at or adjacent to the Site.

1. If CMAR fails to take such measures, and as a result, damages, delays, disrupts, or interferes with the work of any such other contractor or utility owner, then Owner may impose a set-off against payments due CMAR, and assign to such other contractor or utility owner the Owner's contractual rights against CMAR with respect to the breach of the obligations set forth in this Paragraph 8.03.B.
2. When Owner is performing other work at or adjacent to the Site with Owner's employees, CMAR shall be liable to Owner for damage to such other work, and for the reasonable direct delay, disruption, and interference costs incurred by Owner as a result of CMAR's failure to take reasonable and customary measures with respect to Owner's other work. In response to such damage, delay, disruption, or interference, Owner may impose a set-off against payments due CMAR.

C. If CMAR damages, delays, disrupts, or interferes with the work of any other contractor, or any utility owner performing other work at or adjacent to the Site, through CMAR's failure to take reasonable and customary measures to avoid such impacts, or if any claim arising out of CMAR's actions, inactions, or negligence in performance of the Work at or adjacent to the

Site is made by any such other contractor or utility owner against CMAR, Owner, or Engineer, then (1) CMAR shall promptly attempt to settle the claim as to all parties through negotiations with such other contractor or utility owner, or otherwise resolve the claim by arbitration or other dispute resolution proceeding or at law, and (2) CMAR's indemnity obligations under Paragraph 7.21 shall apply.

ARTICLE 9—OWNER'S RESPONSIBILITIES

9.01 Communications to CMAR

A. Except as otherwise provided in these General Conditions, Owner shall issue all communications to CMAR directly or through the Engineer.

9.02 Replacement of Engineer

A. Owner may at its discretion appoint an engineer to replace Engineer. The replacement engineer's status under the Contract Documents will be that of the former Engineer.

9.03 Furnish Data

A. Owner shall furnish the data required of Owner under the Contract Documents.

9.04 Pay CMAR

A. Owner shall make payments to CMAR when they are due as provided in the Agreement.

9.05 Lands and Easements; Reports, Tests, and Drawings

A. Owner's duties with respect to providing lands and easements are set forth in Paragraph 5.01.

B. Owner's duties with respect to providing engineering surveys to establish reference points are set forth in Paragraph 4.03.

C. Article 5 refers to Owner's identifying and making available to CMAR copies of reports of explorations and tests of conditions at the Site, and drawings of physical conditions relating to existing surface or subsurface structures at the Site.

9.06 Insurance

A. Owner's responsibilities, if any, with respect to purchasing and maintaining liability and property insurance are set forth in Article 6.

9.07 Change Orders

A. Owner's responsibilities with respect to Change Orders are set forth in Article 11.

9.08 Inspections, Tests, and Approvals

A. Owner's responsibility with respect to certain inspections, tests, and approvals is set forth in Paragraph 14.02.B.

9.09 Owner's Tasks in Support of CMAR Services

A. Owner shall provide CMAR with criteria and information as to Owner's requirements for the Project including any drafts of proposed Contract Documents, general schedules and completion requirements, reports, surveys, permits, record documents from related previous projects, and other information as required for CMAR to provide services. CMAR

may rely upon, the accuracy and completeness of all such criteria and information, and of any other programs, instructions, data, and other information furnished by Owner to CMAR pursuant to the Agreement. CMAR may use such criteria and information in performing or furnishing CMAR Services. Notwithstanding the foregoing, CMAR may not rely upon such information or any other information provided by or on behalf of the Owner when CMAR knows or reasonably should know that the information is inaccurate, inadequate, incomplete, or otherwise unfit for its intended purpose. The Owner makes no representation or warranty that any information provided to CMAR by or on behalf of the Owner is accurate, correct, complete, fit for its intended purpose or can be used without infringing any patent, copyright, trademark, or other intellectual property rights of third parties.

B. Owner shall provide reasonable assistance to CMAR in securing the release of documents and information held by private entities and by public agencies as needed to provide services required by the Agreement.

C. Owner shall use reasonable efforts to arrange for safe access to and make all provisions for CMAR to enter upon public and private property as required for CMAR to perform services.

D. Owner shall review documents presented by CMAR, make decisions, and carry out Owner's other responsibilities in a reasonable time.

E. Owner shall provide the services of attorneys, insurance consultants, financial advisors, and other professional advisors or consultants Owner desires for the Project, but not provided by the CMAR.

F. Owner is not responsible for discovering deficiencies in the CMAR's Services. CMAR will correct any deficiencies without additional compensation.

9.10 Limitations on Owner's Responsibilities

A. The Owner shall not supervise, direct, or have control or authority over, nor be responsible for, CMAR's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of CMAR to comply with Laws and Regulations applicable to the performance of the Work. Owner will not be responsible for CMAR's failure to perform the Work in accordance with the Contract Documents.

9.11 Undisclosed Hazardous Environmental Condition

A. Owner's responsibility in respect to an undisclosed Hazardous Environmental Condition is set forth in Paragraph 5.06.

9.12 Intentionally Deleted.

9.13 Safety Programs

A. While at the Site, Owner's employees and representatives will reasonably comply with the specific applicable requirements of CMAR's safety programs of which Owner has been informed.

B. Owner shall furnish copies of any applicable Owner safety programs to CMAR.

ARTICLE 10—STATUS OF ENGINEER DURING CONSTRUCTION

10.01 Engineer

A. The general duties, responsibilities, and the limitations of authority of Engineer during construction are set forth below.

10.02 Visits to Site

A. Engineer will either be based at the Site or make visits to the Site on a regular basis. Engineer will observe the Work; check the quality, quantity, and progress of the Work; implement a quality control and assurance program; and perform functions to administer certain portions of the Contract specified therein.

B. Engineer will make visits to the Site at intervals appropriate to the various stages of construction as Engineer deems necessary in order to observe, as an experienced and qualified design professional, the progress that has been made and the quality of the various aspects of CMAR's executed Work. Engineer will not be required to make exhaustive or continuous inspections on the Site to check the quality or quantity of the Work. Engineer will report to Owner regarding information obtained during such Site visits and observations.

C. Engineer's visits and observations are subject to all the limitations on Engineer's authority and responsibility set forth in Paragraph 10.04. Particularly, but without limitation, during or as a result of Engineer's visits or observations of CMAR's Work, Engineer will not supervise, direct, control, or have authority over or be responsible for CMAR's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of CMAR to comply with Laws and Regulations applicable to the performance of the Work.

10.03 Resident Project Representative

A. If Owner and Engineer have agreed that Engineer will furnish a Resident Project Representative to represent Engineer at the Site and assist Engineer in observing the progress and quality of the Work, then the authority and responsibilities of any such Resident Project Representative will be as provided in the Supplementary Conditions, and limitations on the responsibilities thereof will be as provided in the Supplementary Conditions and in Paragraph 10.07.

B. If Owner designates an individual or entity who is not Engineer's consultant, agent, or employee to represent Owner at the Site, then the responsibilities and authority of such individual or entity will be as provided in the Supplementary Conditions.

10.04 Engineer's Authority

A. Engineer has the authority to reject Work in accordance with Article 14.

B. Engineer's authority as to Submittals is set forth in Paragraph 7.19.

C. Engineer's authority as to design drawings, calculations, specifications, certifications and other Submittals from CMAR in response to Owner's delegation (if any) to CMAR of professional design services, is set forth in Paragraph 7.19.

D. Engineer's authority as to changes in the Work is set forth in Article 11.

E. Engineer's authority as to Applications for Payment is set forth in Article 15.

10.05 Determinations for Unit Price Work

A. Engineer will determine the actual quantities and classifications of Unit Price Work performed or furnished by CMAR for Owner's review and approval as set forth in Paragraph 13.02.

10.06 Decisions on Requirements of Design Documents and Acceptability of Work; Exercise of Authority

A. Engineer will render decisions regarding the requirements of the Design Documents as provided in Article 3. Engineer will judge the acceptability of the Work as permitted in Article 14.

B. Owner may at any time request that CMAR furnish proposed changes to Guaranteed Maximum Price and Contract Times that would result from specified proposed changes to the Contract Documents.

10.07 Limitations on Owner's and Engineer's Authority and Responsibilities

A. Neither Owner's nor Engineer's authority or responsibility under this Article 10 or under any other provision of the Contract, nor any decision made by Owner or Engineer in good faith either to exercise or not exercise such authority or responsibility or the undertaking, exercise, or performance of any authority or responsibility by Owner or Engineer, will create, impose, or give rise to any duty in contract, tort, or otherwise owed by Owner or Engineer to CMAR, any Subcontractor, any Supplier, any other individual or entity, or to any surety for or employee or agent of any of them.

B. Neither Owner nor Engineer will supervise, direct, control, or have authority over or be responsible for CMAR's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of CMAR to comply with Laws and Regulations applicable to the performance of the Work. Neither Owner nor Engineer will be responsible for CMAR's failure to perform the Work in accordance with the Contract Documents.

C. Neither Owner nor Engineer will be responsible for the acts or omissions of CMAR or of any Subcontractor, any Supplier, or of any other individual or entity performing any of the Work.

D. Engineer's review of the final Application for Payment and accompanying documentation, and all maintenance and operating instructions, schedules, guarantees, bonds, certificates of inspection, tests and approvals, and other documentation required to be delivered by CMAR under Paragraph 15.07.A, will only be to determine generally that their content complies with the requirements of the Contract Documents, and in the case of certificates of inspections, tests, and approvals, that the results certified indicate compliance with the Contract Documents.

10.08 Compliance with Safety Program

A. While at the Site, Engineer's employees and representatives will comply with the specific applicable requirements of Owner's and CMAR's safety programs of which Engineer has been informed.

ARTICLE 11—CHANGES TO THE CONTRACT

11.01 Amending and Supplementing the Contract

A. The Contract may be amended or supplemented by a Contract Amendment, Work Authorization, Change Order, Work Change Directive, or Field Order. Accordingly, no course of conduct or dealings between the parties, nor express or implied acceptance of alterations or additions to the Work, and no claim that the Owner has been unjustly enriched by any alteration or addition to the Work, whether or not there is, in fact, any unjust enrichment to the Work, shall be the basis of any claim to any increase in any amounts due under the Contact Documents or a change in any time period provided for in the Contact Documents. No action, conduct, omission, prior failure or course of dealing by the Owner shall act to waive, modify, or alter the requirement that a Contract Amendment, Work Authorization, Change Order, Work Change Directive, or Field Order must be in writing and signed by the Owner. This provision supersedes all other provisions in the Contract Documents that provide methods for effecting changes in the Work.

B. A Work Authorization, as more fully defined in Paragraph 1.01, is used to authorize specified Work, and establish related compensation. Change Orders, Work Change Directives, and Field Orders are used to modify a Work Authorization, including but not limited to modifications of the authorized Work and changes to the Guaranteed Maximum Price and Contract Times associated with the Work Authorization.

If a modification under a Work Authorization includes a change in the Guaranteed Maximum Price or the Contract Times, such amendment or supplement must be set forth in a Change Order.

C. A Contract Amendment, as more fully defined in Paragraph 1.01, is used for general contract modification purposes.

D. All changes to the Contract that involve (1) the performance or acceptability of the Work, (2) the design, as set forth in the Drawings, Specifications, or otherwise, or (3) other engineering matters, may be supported by Engineer's recommendation.

11.02 Change Orders

A. With respect to a governing Work Authorization, Owner and CMAR shall execute appropriate Change Orders covering:

1. Changes in Guaranteed Maximum Price or Contract Times which are agreed to by the parties, including any undisputed sum or amount of time for Work performed in accordance with a Work Change Directive;

2. Changes in the Work which are: (a) ordered by Owner pursuant to Paragraph 11.05, (b) required because of Owner's acceptance of defective Work under Paragraph 14.04 or Owner's correction of defective Work under Paragraph 14.07, or (c) agreed to by the parties, subject to the need for Engineer's recommendation if the change in the Work involves the design, as set forth in the Drawings, Specifications, or otherwise, or other engineering matters; and

3. Changes that embody the substance of any final and binding results under: Paragraph 11.03.B, resolving the impact of a Work Change Directive; Paragraph 11.09,

concerning Change Proposals; Paragraph 13.02.D, final adjustments relating to determination of quantities for Unit Price Work; and similar provisions.

B. If CMAR refuses to execute a Change Order that is required to be executed under the terms of Paragraph 11.02.A and Owner has signed the Change Order, it will be deemed to be of full force and effect, as if fully executed.

C. Owner and CMAR will enter into either a Change Order, if related to a specific Work Authorization, or a Contract Amendment with respect to the following:

1. Changes in Guaranteed Maximum Price resulting from an Owner set-off, unless CMAR has duly contested such set-off;

2. Changes that embody the substance of any final and binding results under Article 12, Claims; Paragraph 13.01, final adjustments resulting from allowances; and similar provisions.

D. If the Change Order increases the Guaranteed Maximum Price without increasing the Contract Time(s) it shall not include any Construction Support Costs.

E. Except as otherwise conspicuously and unambiguously stated on the face of the respective Change Order, Change Orders signed by both Owner and CMAR shall constitute a full and final settlement of all matters that are the subject of the Change Order, including, but not limited to, all direct and indirect costs associated with such change in the Work and any and all adjustments to the GMP and Contract Time, as permitted under Tex. Gov't Code, Chapter 2260.

11.03 Work Change Directives

A. A Work Change Directive will not change the Guaranteed Maximum Price or the Contract Times but is evidence that the parties expect that the modification ordered or documented by a Work Change Directive will be incorporated in a subsequently issued Change Order, following negotiations by the parties as to the Work Change Directive's effect, if any, on the Guaranteed Maximum Price and Contract Times; or, if negotiations are unsuccessful, by a determination under the terms of the Contract Documents governing adjustments, expressly including Paragraph 11.07 regarding change of Guaranteed Maximum Price.

B. If Owner has issued a Work Change Directive and CMAR believes that an adjustment in Contract Times or Guaranteed Maximum Price is necessary, then CMAR shall submit any Change Proposal seeking such an adjustment no later than 7 days after the completion of the Work set out in the Work Change Directive. If Owner disagrees with CMAR's request either party may initiate a Claim.

11.04 Field Orders

A. Owner, in consultation with Engineer, may authorize minor changes in the Work if the changes do not involve an adjustment in the Guaranteed Maximum Price or the Contract Times. Such changes will be accomplished by a Field Order, which shall be in writing, and will be binding on Owner and on CMAR, which shall perform the Work involved promptly.

B. If CMAR believes that a Field Order justifies an adjustment in the Guaranteed Maximum Price or Contract Times, then before proceeding with the Work at issue, CMAR shall submit a Change Proposal as provided herein within 7 days of the Field Order.

11.05 Owner-Authorized Changes in the Work

A. Without invalidating the Contract and without notice to or approval from any surety, Owner may, at any time or from time to time, order additions, deletions, or revisions in the Work. Changes involving the design, as set forth in the Drawings, Specifications, or otherwise, or other engineering matters will be supported by Engineer's recommendation.

B. Such changes in the Work may be accomplished by a Change Order, if Owner and CMAR have agreed as to the effect, if any, of the changes on Contract Times or Guaranteed Maximum Price; or by a Work Change Directive. Upon receipt of any such document, CMAR shall promptly proceed with the Work involved; or, in the case of a deletion in the Work, promptly cease construction activities with respect to such deleted Work. Added or revised Work must be performed under the applicable conditions of the Contract Documents.

C. Nothing in this Paragraph 11.05 obligates CMAR to undertake work that CMAR reasonably concludes cannot be performed in a manner consistent with CMAR's safety obligations under the Contract Documents or Laws and Regulations.

11.06 Unauthorized Changes in the Work

A. CMAR shall not be entitled to an increase in the Guaranteed Maximum Price or an extension of the Contract Times with respect to any work performed that is not required by the Contract Documents, as amended, modified, or supplemented, except in the case of an emergency as provided in Paragraph 7.18 or in the case of uncovering Work as provided in Paragraph 14.05.C.2.

11.07 Change of Contract Price

A. The Contract Price may be changed by a Work Authorization, Change Order, or Contract Amendment. Any Change Proposal for an adjustment in the Guaranteed Maximum Price must comply with the provisions of Paragraph 11.09. Any Claim for an adjustment of Contract Price must comply with the provisions of Article 12.

B. An adjustment in the Guaranteed Maximum Price with respect to the Work will be determined as follows:

1. Where the Work involved is covered by unit prices contained in the Contract Documents, then by application of such unit prices to the quantities of the items involved;

2. Where the Work involved is not covered by unit prices contained in the Contract Documents, then by a mutually agreed lump sum; or

3. Where the Work involved is not covered by unit prices contained in the Contract Documents and the parties do not reach mutual agreement to a lump sum, then on the basis of the Cost of the Work determined in accordance with the Cost of the Work provisions in the Agreement, plus the CMAR Fee, applied proportionally, for overhead and profit determined in accordance with the terms in the Agreement.

11.08 Change of Contract Times

A. The Contract Times may be changed by a Work Authorization, Change Order, or Contract Amendment. Any Change Proposal for an adjustment in the Contract Times must comply with the provisions of Paragraph 11.09 and Paragraph 4.05 where applicable. Any Claim for an adjustment in the Contract Times must comply with the provisions of Article 12.

B. Delay, disruption, and interference in the Work, and any related changes in Contract Times, are addressed in and governed by Paragraph 4.05.

11.09 Change Proposals

A. Purpose and Content—CMAR shall submit a Change Proposal to Owner and Engineer to request an adjustment in the Contract Times or Guaranteed Maximum Price; contest a decision by Owner concerning the requirements of the Contract Documents or relating to the acceptability of the Work under the Contract Documents; challenge a set-off against payment due; or seek other relief under the Contract. The Change Proposal will specify any proposed change in Contract Times or Guaranteed Maximum Price, or other proposed relief; identify any governing Work Authorization; indicate CMAR's recommendation for the correct means of amending the Contract (Work Authorization, Change Order, or Contract Amendment) if the proposed change is accepted; and explain the reason for the proposed change, with citations to any governing or applicable provisions of the Contract Documents. Each Change Proposal will address only one issue, or a set of closely related issues.

B. Determination of Changes in Guaranteed Maximum Price for Work—If a Change Order under a Work Authorization entails a change in Guaranteed Maximum Price, then:

1. The change will include the applicable increase or decrease in Cost of the Work, pursuant to Article 6 of the Agreement.

2. The CMAR Fee for changes will be those agreed to Article 7 of the Agreement.

3. If there is a Guaranteed Maximum Price, it will increase or decrease in an amount equal to the increase or decrease in the Cost of the Work and CMAR Fee, as duly determined.

4. The amount of any increases or decreases in the CMAR Fee, or in Guaranteed Maximum Price, will be set forth in the applicable Change Order.

C. Change Proposal Procedures

1. Submittal—CMAR shall submit each Change Proposal to Owner and Engineer within 30 days after the start of the event giving rise thereto.

2. Supporting Data—The CMAR shall submit supporting data, including the proposed change in Guaranteed Maximum Price or Contract Time, if any, to the Engineer and Owner with such Change Proposal.

a. Change Proposals based on or related to delay, interruption, or interference must comply with the provisions of Paragraphs 4.05.D and 4.05.E.

b. Change Proposals related to a change of Guaranteed Maximum Price based on Cost of the Work must include full and detailed account of eligible costs, such as materials incorporated into the Work, labor and equipment used for the subject Work, and Subcontract costs.

The supporting data must be accompanied by a written statement that the supporting data is accurate and complete, and that any requested time or price adjustment is the entire adjustment to which CMAR believes it is entitled as a result of said event.

3. Engineer's Initial Review: Engineer will advise Owner regarding the Change Proposal, and consider any comments or response from Owner regarding the Change Proposal. If in its discretion Engineer concludes that additional supporting data is needed before

conducting a full review and advising Owner regarding the Change Proposal, then Engineer may request that CMAR submit such additional supporting data by a date specified by Engineer, prior to Engineer advising Owner on its full review of the Change Proposal.

4. Owner's Review and Action on the Change Proposal: Upon receipt of Engineer's advice regarding CMAR's Change Proposal, Owner may request that CMAR submit additional supporting data Owner determines is needed for Owner to conduct a full review and make a decision regarding the Change Proposal. Upon receipt of CMAR's supporting data (including any additional data requested by Owner), Owner will conduct a full review of each Change Proposal and, within a reasonable time after such receipt of the CMAR's supporting data, either approve the Change Proposal in whole, deny it in whole, or approve it in part and deny it in part. Such actions must be in writing, with a copy provided to CMAR. If Owner does not take action on the Change Proposal within 30 days, then the Change Proposal is deemed denied, thereby commencing the time for appeal of the denial under Article 12.

5. Binding Decision: Owner's decision is final and binding upon CMAR, unless CMAR appeals the decision by filing a Claim under Article 12.

D. Post-Completion—CMAR shall not submit any Change Proposals after Engineer issues a written recommendation of final payment pursuant to Paragraph 15.07.B.

11.10 Notification to Surety

A. CMAR shall notify the performance and payment bond surety of the issuance of each Work Authorization and confirm that the bonds have been adjusted to reflect the changes in Guaranteed Maximum Price and Contract Times.

B. If the provisions of any bond require notice to be given to a surety of any change affecting the general scope of the Work or the provisions of the Contract Documents, including, but not limited to, Guaranteed Maximum Price or Contract Times, the giving of any such notice will be CMAR's responsibility. The amount of each applicable bond will be adjusted to reflect the effect of any such change.

ARTICLE 12—CLAIMS

12.01 Claims

A. Claims Process—The following disputes between Owner and CMAR are subject to the Claims process set forth in this article:

1. Appeals by CMAR of Owner's decisions regarding Change Proposals;

2. Any demands for adjustments in the Contract Price or Contract Times, or other relief under the Contract Documents provided the party making the demand has complied with all contractual notice requirements in applicable sections of the Contract Documents; and

3. Subject to the waiver provisions of Paragraph 15.08, any dispute arising after Engineer has issued a written recommendation of final payment pursuant to Paragraph 15.07.B.

B. Submittal of Claim—The party submitting a Claim shall deliver it directly to the other party to the Contract promptly, but no later than 21 days after the party recognizes the condition

giving rise to the Claim. In the case of appeals regarding Change Proposals, CMAR shall submit such Claims within 7 days of the decision under appeal. The responsibility to substantiate a Claim rests with the party making the Claim. In the case of a Claim by CMAR seeking an increase in the Contract Times or Contract Price, CMAR shall certify that the Claim (including the days and amounts) is made in good faith, that the supporting data are accurate and complete, and that to the best of CMAR's knowledge and belief the amount of time or money requested accurately reflects the amount to which CMAR is entitled under the Contract Documents. CMAR's strict compliance with the Claim submittal procedures set forth in Paragraph 12.01 shall be considered a condition precedent to the CMAR's entitlement to its relief for any Claim under the Contract Documents.

C. Review and Resolution—The party receiving a Claim shall review it thoroughly and consider its merits. The parties shall seek to resolve the Claim through the exchange of information and direct negotiations. The parties may extend the time for resolving the Claim by mutual agreement. All actions taken on a Claim will be stated in writing and submitted to the other party, with a copy to Engineer.

D. Mediation

1. At any time after initiation of a Claim, Owner and CMAR may mutually agree to mediation of the underlying dispute. The agreement to mediate will stay the Claim submittal and response process.

2. If Owner and CMAR agree to mediation, then after 60 days from such agreement, either Owner or CMAR may in writing unilaterally terminate the mediation process, and the Claim submittal and decision process will resume as of the date of the termination. If the mediation proceeds but is unsuccessful in resolving the dispute, the Claim submittal and decision process will resume as of the date of the conclusion of the mediation, as determined by the mediator.

3. Owner and CMAR shall each pay one-half of the mediator's fees and costs.

E. Partial Approval—If a Claim is only partially approved, such action will be final and binding unless within 30 days of such action unless the other party gives written notice to the denying party of the intent to submit the dispute to mediation or to a court of competent jurisdiction.

F. Denial of Claim—If efforts to resolve a Claim are not successful, the party receiving the Claim may deny it by giving written notice of denial to the other party. If the receiving party does not take action on the Claim within 60 days, then either Owner or CMAR may at any time thereafter submit a letter to the other party indicating that as a result of the inaction, the Claim is deemed denied, thereby commencing the time for appeal of the denial. Owner's denial of CMAR's Claim will be final and binding unless CMAR gives written notice to Owner of the intent to submit the dispute to mediation or to a court of competent jurisdiction within 30 days of the denial.

G. Final and Binding Results—If the parties reach a mutual agreement regarding a Claim; or if a Claim is approved in part and denied in part, or denied in full, and such actions become final and binding; then the results of the agreement or action on the Claim will be incorporated in a Change Order or other written document to the extent they affect the Contract, including the Work, the Contract Times, or the Contract Price.

ARTICLE 13—ALLOWANCES; UNIT PRICE WORK

13.01 Allowances

A. CMAR shall include in the GMP all allowances stated in the Contract Documents. Each allowance item shall contain a detailed breakdown of the assumptions for each allowance, including assumptions pertaining to quantity, quality, assembly factors and inclusion or exclusion of costs. By inclusion of allowance items in the GMP, CMAR represents and warrants to Owner that each such allowance is a reasonable estimate, using CMAR's skill and professional judgment, of the cost pertaining to such allowance item taking into account: (a) the Drawings and Specifications and other information existing at the time the allowance is determined; (b) the labor and material standards and construction means, methods and techniques prevailing in the industry for first class construction; and (c) the level of labor and material costs generally prevailing in the locality of the Project at the time the allowance is determined. Where an allowance item has been provided to CMAR by Owner, CMAR shall review such allowance item, and before including such allowance item in the GMP, determine to the best of CMAR's knowledge and professional judgement, that the cost pertaining to such allowance item is a reasonable estimate taking into account the above criteria. If requested by Owner, CMAR shall provide Owner with a written explanation of how each allowance was determined.

B. Cash Allowances—CMAR agrees that:

1. the cash allowances include the cost to CMAR, less any applicable trade discounts, of materials and equipment required by the allowances to be delivered at the Site, and all applicable taxes, excluding taxes from which Owner and/or the Project are exempt; and

2. CMAR's costs for unloading and handling on the Site, labor, installation, overhead, profit, and other expenses contemplated for the cash allowances have been included in the Guaranteed Maximum Price and not in the allowances, and no demand for additional payment for any of the foregoing will be valid.

C. Prior to final payment, an appropriate Change Order will be issued as recommended by Owner to reflect actual amounts due CMAR for Work covered by allowances, and the Guaranteed Maximum Price will be correspondingly adjusted.

13.02 Unit Price Work

A. Where the Contract Documents provide that all or part of the Work is to be Unit Price Work, initially the Guaranteed Maximum Price will be deemed to include for all Unit Price Work an amount equal to the sum of the unit price for each separately identified Item of Unit Price Work times the estimated quantity of each Item as indicated in the Agreement.

B. The estimated quantities of items of Unit Price Work are not guaranteed and are solely for the purpose of comparison of Proposals and determining an Estimated Guaranteed Maximum Price. Payments to CMAR for Unit Price Work will be based on actual quantities.

C. Each unit price will be deemed to include an amount considered by CMAR or such Subcontractor providing the unit price, as applicable, to be adequate to cover CMAR's, or such Subcontractor's, as applicable, overhead and profit for each separately identified item. Notwithstanding the foregoing, with respect to any CMAR self-performed Work, each unit price shall set forth CMAR's actual cost and CMAR's overhead and profit on such unit price shall be included in CMAR's Fee.

D. Engineer will initially determine the actual quantities and classifications of Unit Price Work performed or furnished by CMAR. Engineer will review with CMAR the Engineer's preliminary determinations on such matters before rendering a written decision thereon, by recommendation of an Application for Payment or otherwise. Engineer's written decision thereon will be final and binding except as modified by Engineer to reflect changed factual conditions or more accurate data upon Owner and CMAR, and the final adjustment of Guaranteed Maximum Price will be set forth in a Change Order, subject to the provisions of the following Paragraph.

E. Adjustments in Unit Price

1. CMAR or Owner shall be entitled to an adjustment in the unit price with respect to an Item of Unit Price Work if:

   a. the quantity of the Item of Unit Price Work performed by CMAR differs materially and significantly from the estimated quantity of such Item indicated in the Agreement; and

   b. CMAR's unit costs to perform the Item of Unit Price Work have changed materially and significantly as a result of the quantity change.

2. The adjustment in unit price will account for and be coordinated with any related changes in quantities of other items of Work, and in CMAR's costs to perform such other Work.

3. Adjusted unit prices will apply to all units of that item.

ARTICLE 14—TESTS AND INSPECTIONS; CORRECTION, REMOVAL, OR ACCEPTANCE OF DEFECTIVE WORK

14.01 Access to Work

A. Owner, Engineer, their consultants and other representatives and personnel of Owner, independent testing laboratories, and authorities having jurisdiction have access to the Site and the Work at reasonable times for their observation, inspection, and testing. CMAR shall provide them with proper and safe conditions for such access and advise them of CMAR's safety procedures and programs so that they may comply with such procedures and programs as applicable.

14.02 Tests, Inspections, and Approvals

A. CMAR shall give Owner and Engineer timely notice of readiness of the Work, or specific parts thereof, for all required inspections and tests and shall cooperate with inspection and testing personnel to facilitate required inspections and tests.

B. Owner shall retain and pay for the services of an independent inspector, testing laboratory, or other qualified individual or entity to perform all inspections and tests expressly required by the Contract Documents to be furnished and paid for by Owner, except those costs incurred in connection with tests or inspections of covered Work will be governed by the provisions of Paragraph 14.05.

C. If Laws or Regulations of any public body having jurisdiction require any Work, or part thereof, specifically to be inspected, tested, or approved by an employee or other representative of such public body, CMAR shall assume full responsibility for arranging and

obtaining such inspections, tests, or approvals, pay all costs in connection therewith, and furnish Owner and Engineer the required certificates of inspection or approval.

D. CMAR shall be responsible for arranging, obtaining, and paying for all inspections and tests required:

1. by the Contract Documents, unless the Contract Documents expressly allocate responsibility for a specific inspection or test to Owner;
2. to attain acceptance of materials or equipment to be incorporated in the Work;
3. by manufacturers of equipment furnished under the Contract Documents;
4. for testing, adjusting, and balancing of mechanical, electrical, and other equipment to be incorporated into the Work; and
5. for acceptance of materials, mix designs, or equipment submitted for approval prior to CMAR's purchase thereof for incorporation in the Work.

Such inspections and tests will be performed by independent inspectors, testing laboratories, or other qualified individuals or entities acceptable to Owner and Engineer.

E. If the Contract Documents require the Work, or part thereof, to be accepted by Owner, Engineer, or another designated individual or entity, then CMAR shall assume full responsibility for arranging and obtaining such approvals.

F. If any Work, or the work of others that is to be inspected, tested, or approved is covered by CMAR without written concurrence of Engineer, CMAR shall, if requested by Engineer or Owner, uncover such Work for observation. Such uncovering will be at CMAR's expense unless CMAR has given Engineer and Owner timely notice of CMAR's intention to cover the same and Engineer had not acted with reasonable promptness in response to such notice.

14.03 Defective Work

A. CMAR's Obligation—It is CMAR's obligation to assure that the Work is not defective.

B. Engineer's and Owner's Authority— Engineer has the authority to determine whether Work is defective, and, in consultation with the Owner, to reject defective Work. Owner has the authority to determine whether Work is defective, and to reject defective Work.

C. Notice of Defects—Prompt written notice of all defective Work of which Owner or Engineer has actual knowledge will be given to CMAR. Prompt written notice of all defective Work of which CMAR has actual knowledge will be given to Owner and Engineer.

D. Correction, or Removal and Replacement—Promptly after knowledge of or receipt of written notice of defective Work, CMAR shall correct all such defective Work, whether or not fabricated, installed, or completed, or, if Owner or Engineer has rejected the defective Work, remove it from the Project and replace it with Work that is not defective.

E. Preservation of Warranties—When correcting defective Work, CMAR shall take no action that would void or otherwise impair Owner's special warranty and guarantee, if any, on said Work.

F. Costs and Damages—In addition to its correction, removal, and replacement obligations with respect to defective Work, CMAR shall pay all claims, costs, losses, and damages arising out of or relating to defective Work, including but not limited to the cost of the inspection, testing, correction, removal, replacement, or reconstruction of such defective Work, fines

levied against Owner by governmental authorities because the Work is defective, and the costs of repair or replacement of work of others resulting from defective Work. Prior to final payment, if Owner and CMAR are unable to agree as to the measure of such claims, costs, losses, and damages resulting from defective Work, then Owner may impose a reasonable set-off against payments due under Article 15.

14.04 Acceptance of Defective Work

A. If, instead of requiring correction or removal and replacement of defective Work, Owner prefers to accept it, Owner may do so in writing. If such acceptance occurs prior to final payment, such acceptance shall be subject to Engineer's confirmation that such acceptance is in general accord with the design intent and applicable engineering principles and will not endanger public safety. CMAR shall pay all claims, costs, losses, and damages attributable to Owner's evaluation of and determination to accept such defective Work; such costs to be approved by Owner as to reasonableness, and for the diminished value of the Work to the extent not otherwise paid by CMAR. If any such acceptance occurs prior to final payment, the necessary revisions in the Contract Documents with respect to the Work will be incorporated in a Change Order. If the parties are unable to agree as to the decrease in the Guaranteed Maximum Price, reflecting the diminished value of Work so accepted, then Owner may impose a reasonable set-off against payments due under Article 15. If the acceptance of defective Work occurs after final payment, CMAR shall pay an appropriate amount to Owner.

14.05 Uncovering Work

A. Each of Engineer and Owner has the authority to require additional inspection or testing of the Work, whether or not the Work is fabricated, installed, or completed.

B. If any Work is covered contrary to the written request of Engineer or Owner, then CMAR shall, if requested by Engineer or Owner, uncover such Work for Owner's or Engineer's observation, and then replace the covering, all at CMAR's expense.

C. If Engineer or Owner considers it necessary or advisable that covered Work be observed by Owner or Engineer, or inspected or tested by others, then Owner or Engineer will so advise CMAR, and CMAR shall uncover, expose, or otherwise make available for observation, inspection, or testing as Engineer or Owner may require, that portion of the Work in question, and provide all necessary labor, material, and equipment.

1. If it is found that the uncovered Work is defective, CMAR shall be responsible for all claims, costs, losses, and damages arising out of or relating to such uncovering, exposure, observation, inspection, and testing, and of satisfactory replacement or reconstruction, including but not limited to all costs of repair or replacement of work of others, and pending CMAR's full discharge of this responsibility the Owner shall be entitled to impose a reasonable set-off against payments due under Article 15.

2. If the uncovered Work is not found to be defective, CMAR shall be allowed an increase in the Guaranteed Maximum Price for the actual, direct costs incurred and substantiated or an extension of the Contract Times for actual impacts to the critical path schedule directly attributable to such uncovering, exposure, observation, inspection, testing, replacement, and reconstruction. If the parties are unable to agree as to the amount or extent thereof, then CMAR may submit a Change Proposal within 7 days of the determination that the Work is not defective.

14.06 Owner May Stop the Work

A. If the Work is defective, or CMAR fails to supply sufficient skilled workers or suitable materials or equipment, or fails to perform the Work in such a way that the completed Work will conform to the Contract Documents, then Owner may order CMAR to stop the Work, or any portion thereof, until the cause for such order has been eliminated. CMAR shall have no right or claim against Owner for an extension of Contract Times or increase in Guaranteed Maximum Price for the resulting delay. This right of Owner to stop the Work will not give rise to any duty on the part of Owner to exercise this right for the benefit of CMAR, any Subcontractor, any Supplier, any other individual or entity, or any surety for, or employee or agent of any of them.

14.07 Owner May Correct Defective Work

A. If CMAR fails within a reasonable time after written notice from Owner or Engineer to correct defective Work, or to remove and replace defective Work as required by Owner or Engineer, then Owner may, after 7 days' written notice to CMAR or such shorter time as may be reasonable under the circumstances, correct or remedy any such deficiency.

B. In exercising the rights and remedies under this Paragraph 14.07, Owner shall proceed reasonably promptly. In connection with such corrective or remedial action, Owner may exclude CMAR from all or part of the Site, take possession of all or part of the Work and suspend CMAR's services related thereto, and incorporate in the Work all materials and equipment stored at the Site or for which Owner has paid CMAR but which are stored elsewhere. CMAR shall allow Owner, Owner's representatives, agents and employees, Owner's other contractors, Engineer, and their consultants access to the Site to enable Owner to exercise the rights and remedies under this paragraph.

C. All claims, costs, losses, and damages incurred or sustained by Owner in exercising the rights and remedies under this Paragraph 14.07 will be charged against CMAR as set-offs against payments due under Article 15. Such claims, costs, losses, and damages will include but not be limited to all costs of repair, or replacement of work of others destroyed or damaged by correction, removal, or replacement of CMAR's defective Work.

D. CMAR shall not be allowed an extension of the Contract Times because of any delay in the performance of the Work attributable to the exercise by Owner of Owner's rights and remedies under this Paragraph 14.07.

ARTICLE 15—PAYMENTS TO CMAR; SET-OFFS; COMPLETION; CORRECTION PERIOD

15.01 Payment for CMAR Services

A. The basis and procedures for payment for CMAR Services are set forth in the Agreement, Article 3. The provisions of this Article 15 pertain to payment for performance and furnishing of the Work, unless noted otherwise.

15.02 Progress Payments

Except as modified in a Work Authorization, Progress Payments shall be governed by this Section 15.02.

A. Basis for Progress Payments

1. CMAR will, at least 10 days prior to applying for Payment, prepare and submit for approval by Engineer a schedule allocating portions of the Guaranteed Maximum Price to various portions of the Work, as determined by the applicable Work Authorizations.

2. CMAR shall submit a schedule of values to the Engineer before the first Application for Payment, allocating the entire Contract Price to the various portions of the Work ("Schedule of Values"). The Schedule of Values shall be prepared in the form, and supported by the data to substantiate its accuracy, required by the Engineer or Owner, and if approved in writing by Owner, the Schedule of Values will serve as the basis for progress payments and will be incorporated by Engineer into an Application for Payment form. Progress payments for Unit Price Work will be based on the number of units completed during the pay period, as determined under the provisions of Paragraph 13.02. Progress payments for cost-based Work will be based on Cost of the Work completed by CMAR during the pay period.

B. Applications for Payments

1. By the last day of the month, but not more often than once a month, CMAR shall submit to Engineer for review an Application for Payment filled out and signed by CMAR covering the Work completed as of the date of the Application and accompanied by such supporting documentation as is required by the Contract Documents. In addition to other required items, each Application for Payment shall be accompanied by the following documentation, statements and information, in form and substance reasonably satisfactory to the Owner and in compliance with applicable state statutes:

   a. a statement, under oath, by CMAR that all bills or obligations incurred by CMAR, for which previous Applications for Payment have been submitted and paid by Owner, have been paid by CMAR, or, if any bill or obligation remains outstanding, the statement shall fully disclose the outstanding bill or obligation by stating the name of the person or entity to whom the bill or obligation remains outstanding, the amount of the outstanding bill or obligation, and the reason why such bill or obligation has not been paid; CMAR's sworn statement must include CMAR's Subcontractor list in Excel electronic format and must reflect the amount of Change Orders entered into, by CMAR with Subcontractors;

   b. a duly executed Conditional Waiver and Release on Progress Payment (as shown in Exhibit F-1 attached to the Agreement) from the CMAR and each Subcontractor and Supplier waiving all liens and claims for payment for the Work covered by the Application for Payment being submitted conditioned upon receipt of payment;

   c. for any payments made by Owner to CMAR at least seven days prior to submission of the pending Application for Payment ("Prior Payments"), a duly executed Unconditional Waiver and Release on Progress Payment (as shown in Exhibit F-2 attached to the Agreement) from each Subcontractor waiving all liens or claims for payment for the Work covered by such Prior Payments;

   d. for any payments made by Owner to CMAR prior to submission of the pending Application for Payment a duly executed Unconditional Waiver and Release on Progress Payment (as shown in Exhibit F-2 attached to the Agreement) from CMAR waiving all liens or claims for payment for the Work covered by the previous Application for Payment; and

e. such other reasonable information, documentation, and material as the Owner or Owner's lender of any may request. Owner shall furnish to CMAR any policies, procedures, or other requirements of Owner, or any construction finance lender or lenders needed to approve and/or authorize payments to CMAR.

2. If payment is requested on the basis of materials and equipment not incorporated in the Work but delivered and suitably stored at the Site or at another location agreed to in writing, the Application for Payment must also be accompanied by: (a) a bill of sale, invoice, copies of subcontract or purchase order payments, or other documentation establishing full payment by CMAR for the materials and equipment; (b) at Owner's request, documentation warranting that Owner has received the materials and equipment free and clear of all Liens; and (c) evidence that the materials and equipment are covered by appropriate property insurance, a warehouse bond, or other arrangements to protect Owner's interest therein, all of which must be satisfactory to Owner.

3. Beginning with the second Application for Payment, each Application must include an affidavit of CMAR stating that all previous progress payments received by CMAR have been applied to discharge CMAR's legitimate obligations associated with prior Applications for Payment.

4. The amount of retainage with respect to progress payments will be as stipulated in the Agreement.

5. Each Application for Payment will constitute a representation by CMAR that:

   a. the Work has progressed to the point indicated;

   b. the quality of the Work is in accordance with the Contract Documents subject to an evaluation of the Work as a functioning whole prior to or upon Substantial Completion, the results of any subsequent tests called for in the Contract Documents, and any other qualifications stated in the Application for Payment, provided that such qualifications shall not obligate Owner to pay for Work not yet completed in accordance with the Contract Documents; and

   c. the conditions precedent to CMAR's being entitled to such payment have been fulfilled and CMAR has not included any amounts in the Application for Payment attributable to a Subcontractor or Supplier for which CMAR does not intend to make payment to such Subcontractor or Supplier.

C. Review of Applications

1. Engineer will, within 20 days after receipt of each Application for Payment, including each resubmittal, either indicate in writing a recommendation of payment and present the Application to Owner, or return the Application to CMAR indicating in writing Engineer's reasons for refusing to recommend payment for all or a portion of the Application for Payment. In the latter case, CMAR may make the necessary corrections and resubmit the Application.

2. Engineer's recommendation of any payment requested in an Application for Payment will constitute a representation by Engineer to Owner, based on Engineer's (a) observations of the executed Work, and (b) review of the Application for Payment

and the accompanying data and schedules, that to the best of Engineer's knowledge, information, and belief:

a. the Work has progressed to the point indicated;

b. the quality of the Work is generally in accordance with the Contract Documents subject to an evaluation of the Work as a functioning whole prior to or upon Substantial Completion, the results of any subsequent tests called for in the Contract Documents, a final determination of quantities and classifications for Unit Price Work under Paragraph 13.02, and any other qualifications stated in the recommendation; and

c. the conditions precedent to CMAR's being entitled to such payment appear to have been fulfilled in so far as it is Engineer's responsibility to observe the Work.

3. By recommending any such payment Engineer will not thereby be deemed to have represented that:

a. inspections made to check the quality or the quantity of the Work as it has been performed have been exhaustive, extended to every aspect of the Work in progress, or involved detailed inspections of the Work beyond the responsibilities specifically assigned to Engineer in the Contract; or

b. there may not be other matters or issues between the parties that might entitle CMAR to be paid additionally by Owner or entitle Owner to withhold payment to CMAR.

4. Neither Engineer's review of CMAR's Work for the purposes of recommending payments nor Engineer's recommendation of any payment, including final payment, will impose responsibility on Engineer:

a. to supervise, direct, or control the Work;

b. for the means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto;

c. for CMAR's failure to comply with Laws and Regulations applicable to CMAR's performance of the Work;

d. to make any examination to ascertain how or for what purposes CMAR has used the money paid by Owner; or

e. to determine that title to any of the Work, materials, or equipment has passed to Owner free and clear of any Liens.

5. Engineer may refuse to recommend the whole or any part of any payment if, in Engineer's opinion, it would be incorrect to make the representations to Owner if the statements in Paragraph 15.02.C.2 cannot be made to Engineer's knowledge, information, and belief.

6. Engineer will recommend reductions in payment (set-offs) necessary in Engineer's opinion to protect Owner from loss because:

a. the Work is defective, requiring correction or replacement;

b. the Guaranteed Maximum Price has been reduced by Change Orders or other Contract modifications;

c. Owner has been required to correct defective Work in accordance with Paragraph 14.07, or has accepted defective Work pursuant to Paragraph 14.04;

d. Owner has been required to remove or remediate a Hazardous Environmental Condition for which CMAR is responsible;

e. Engineer has actual knowledge of the occurrence of any of the events that would constitute a default by CMAR and therefore justify termination for cause under the Contract Documents;

f. Engineer in good faith determines that the portion of the Contract Price then remaining unpaid will not be sufficient to complete the Work in accordance with the Drawings and Specifications, whereupon no additional payments will be due CMAR hereunder unless and until CMAR, at its sole cost, performs a sufficient portion of the Work so that such portion of the Contract Price then remaining unpaid is determined by Owner to be sufficient to so complete the Work; provided however, this provision shall not apply if the shortfall is due to Owner's failure to make timely payment to CMAR of undisputed amounts;

g. CMAR has failed, or Engineer is made aware that CMAR has failed, to make payments promptly to Suppliers or Subcontractors for material or labor used in the Work for which the Owner has made payment to the CMAR per the terms of the Agreement and the General Conditions.

D. Payment Becomes Due

1. Subject to Paragraph 15.02.E below, payments of amounts approved by Owner are due and payable thirty (30) days from the date the Owner receives the certified Application for Payment from CMAR.

E. Reductions in Payment by Owner

1. In addition to any reductions in payment (set-offs) based on Engineer's review of the Application for Payment, and notwithstanding any provisions in the Contract Documents to the contrary, Owner is entitled to impose a set-off against or withhold payment based on any of the following:

a. Claims have been made against Owner based on CMAR's conduct in the performance or furnishing of the Work, or Owner has incurred costs, losses, or damages resulting from CMAR's conduct in the performance or furnishing of the Work, including but not limited to claims, costs, losses, or damages from workplace injuries, adjacent property damage, non-compliance with Laws and Regulations, and patent infringement;

b. CMAR has failed to take reasonable and customary measures to avoid damage, delay, disruption, and interference with other work at or adjacent to the Site;

c. CMAR has failed to provide and maintain required bonds or insurance;

d. Owner has been required to remove or remediate a Hazardous Environmental Condition for which CMAR is responsible;

e. Owner has incurred extra charges for advisory services or engineering costs related to submittal reviews, evaluations of proposed substitutes, tests, and inspections, or return visits to manufacturing or assembly facilities;

f. The Work is nonconforming, defective, requiring correction or replacement;

g. Owner has been required to correct defective Work in accordance with Paragraph 14.07, or has accepted defective Work pursuant to Paragraph 14.04;

h. The Guaranteed Maximum Price has been reduced by Change Orders or other Contract modifications;

i. An event has occurred that would constitute a default by CMAR and therefore justify a termination for cause;

j. CMAR is in default of any of its obligations hereunder or otherwise is in default under any of the Contract Documents;

k. Liquidated or other damages have accrued as a result of CMAR's failure to achieve Milestones, Substantial Completion, or final completion of the Work;

l. CMAR fails to provide the above-required affidavits, releases and waivers of liens and claims, or Liens have been filed or asserted in connection with the Work, except where CMAR has delivered a specific bond satisfactory to Owner to secure the satisfaction and discharge of such Liens;

m. Claims have been made or costs have been incurred arising from CMAR Services;

n. CMAR has failed, or Owner has a reasonable belief that CMAR has failed, to make undisputed payments promptly, or in the time required by Texas Government Code Chapter 2251, to Suppliers or Subcontractors for material or labor used in the Work for which the Owner has made payment to the CMAR per the terms of the Agreement and the General Conditions, provided CMAR has complied with its obligations under Paragraph 15.02.B.5.c;

o. Owner in good faith determines that the portion of the Contract Price then remaining unpaid will not be sufficient to complete the Work in accordance with the Drawings and Specifications, whereupon no additional payments will be due CMAR hereunder unless and until CMAR, at its sole cost, performs a sufficient portion of the Work so that such portion of the Contract Price then remaining unpaid is determined by Owner to be sufficient to so complete the Work; provided however, this provision shall not apply if the shortfall is due to Owner's failure to make timely payment to CMAR of undisputed amounts; or

p. There is reasonable doubt about whether CMAR will complete the Work within the Contract Times; or

q. Other items entitle Owner to a set-off against the amount recommended.

2. If Owner imposes any set-off against payment, Owner will give CMAR prompt written notice stating the reasons for such action and the specific amount of the reduction, and pay CMAR any amount remaining after deduction of the amount so withheld in accordance with the terms of this Article. Owner shall pay CMAR in Owner's next payment of an Application for Payment the amount so withheld, or any adjustment thereto agreed to by Owner and CMAR, if CMAR remedies the reasons for such action. The reduction imposed will be binding on CMAR unless it duly submits a Change Proposal contesting the reduction.

F. Where the Contract Price is based on the Cost of Work, if Owner determines that progress payments made to date substantially exceed the actual progress of the Work, as measured by reference to the Schedule of Values, or present a potential conflict with the Guaranteed Maximum Price, then Owner may require that CMAR prepare and submit a plan for the remaining anticipated Applications for Payment that will bring payments and progress into closer alignment and take into account the Guaranteed Maximum Price, if any, through reductions in billings, increases in retainage, or other measures. Owner will review the plan, discuss any necessary modifications, and implement the plan as modified for all remaining Applications for Payment.

15.03 CMAR's Warranty of Title

A. CMAR warrants and guarantees that title to all Work, materials, and equipment furnished under the Contract will pass to Owner free and clear of (1) all Liens and other title defects, and (2) all patent, licensing, copyright, or royalty obligations, no later than 7 days after the time of payment by Owner.

15.04 Substantial Completion

Except as modified in a Work Authorization, Substantial Completion will be governed by this Paragraph 15.04 and Paragraph 15.05.

A. When CMAR considers the entire Work for the Project is ready for its intended use CMAR shall notify Owner and Engineer in writing that such Work is substantially complete and request that Engineer, issue a certificate of Substantial Completion for the Project. CMAR shall at the same time submit to Owner and Engineer CMAR's proposed comprehensive punch list of items to be completed or corrected before final payment. Failure to include an item on such list does not alter the responsibility of the CMAR to complete all Work in accordance with the Contract Documents.

B. Promptly after CMAR's notification, Owner, CMAR, and Engineer will inspect the Work to determine the status of completion. If the Work is not determined to be substantially complete, Engineer, will notify CMAR in writing, giving the reasons for the determination. After completion or correction of such deficiency, CMAR must again notify Owner and Engineer for reinspection, and submit another request that Engineer issue a certificate of Substantial Completion. If some or all of the Work has been determined not to be at a point of Substantial Completion and will require re-inspection or re-testing by Owner or Engineer, the cost of such re-inspection or re-testing, including the cost of time, travel and living expenses, will be paid by CMAR to Owner. If CMAR does not pay, or the parties are unable to agree as to the amount owed, then Owner may impose a reasonable set-off against payments due under this Article 15.

C. If Engineer deems the Work substantially complete, Engineer, after consultation with Owner, will issue a certificate of Substantial Completion which will fix the date of Substantial Completion. Engineer will attach to the certificate Engineer's punch list of items to be completed or corrected before final payment.

D. At the time of issuance of the certificate of Substantial Completion, Owner may use and occupy the Work, and Owner and CMAR will review the builder's risk insurance policy with respect to the end of the builder's risk coverage, and confirm the transition to coverage of the Work under a permanent property insurance policy held by Owner. CMAR shall bear

responsibility for security, operation, protection of the Work, property insurance, maintenance, heat, and utilities until Owner's use or occupancy of the Work.

E. After Substantial Completion the CMAR shall promptly begin work on the punch list of items to be completed or corrected prior to final payment. In appropriate cases CMAR may submit monthly Applications for Payment for completed punch list items, following the progress payment procedures set forth above.

F. Owner shall have the right to exclude CMAR from the Site after the date of Substantial Completion subject to allowing CMAR reasonable access to remove its property and complete or correct items on the punch list.

15.05 Partial Use or Occupancy; Completion of Authorized Work

A. Prior to Substantial Completion of all the Work for the entire Project, Owner may use or occupy any substantially completed part of the Work which has specifically been identified in the Contract Documents, or which Owner and Engineer agree constitutes a separately functioning and usable part of the Work that can be used by Owner for its intended purpose without significant interference with CMAR's performance of the remainder of the Work, subject to the following conditions:

1. At any time, Owner may use or occupy any such part of the Work that Owner believes to be substantially complete. Engineer will inspect that part of the Work to determine its status of completion and if Engineer agrees that such part of the Work is substantially complete, CMAR, Owner, and Engineer will follow the procedures of Paragraph 15.04.A through 15.04.E for that part of the Work. If Engineer does not consider that part of the Work to be substantially complete, Engineer will notify Owner and CMAR in writing, giving the reasons for its determination.

2. At any time, CMAR may notify Owner and Engineer in writing that CMAR considers any such part of the Work substantially complete and request Engineer to issue a certificate of Substantial Completion for that part of the Work.

3. Within a reasonable time after CMAR makes a request pursuant to Paragraph 15.05.A.2 above, Owner, CMAR, and Engineer will inspect that part of the Work to determine its status of completion. If Engineer does not consider that part of the Work to be substantially complete, Engineer will notify Owner and CMAR in writing, giving the reasons for its determination. If Engineer considers that part of the Work to be substantially complete, then for that part of the Work the provisions of Paragraph 15.04 will apply with respect to certification of Substantial Completion, the division of responsibility, and access.

4. No use or occupancy or separate operation of part of the Work may occur prior to compliance with the requirements of Article 6 and the Insurance Requirements Exhibit to the Agreement regarding builder's risk or other property insurance.

5. Neither the organization of the Work into Work Packages, nor the authorization of specified parts of the Work in a Work Authorization, establishes (a) that such packages or parts of the Work have been identified in the Contract Documents or otherwise as a part of the Work that Owner may use or occupy upon completion, or (b) that any such Work constitutes a separately functioning and usable part of the Work that upon completion can be used by Owner for its intended purpose without significant interference with CMAR's performance of the remainder of the Work. The

determination of whether any part of the Work qualifies for partial use or occupancy under this Paragraph 15.05 will be made on the merits without reference to Work Packages or Work Authorizations.

B. Substantial Completion of Authorized Work

1. When CMAR considers the entire Work authorized under a specific Work Authorization is ready for its intended use, CMAR shall notify Owner and Engineer in writing that such authorized Work is substantially complete and request that Engineer issue a certificate of Substantial Completion applicable solely to such authorized Work. CMAR shall at the same time submit to Owner and Engineer the CMAR's proposed comprehensive punch list of items to be completed or corrected before such authorized Work is deemed complete.

2. CMAR, Owner, and Engineer will follow the procedures of Paragraph 15.04.A through 15.04.E for such authorized Work.

3. The determination of a date of Substantial Completion for such authorized Work under a specific Work Authorization under this Paragraph 15.05.B or part of Work under Paragraph 15.05.A will not mark the commencement of the contractual correction period and applicable warranties required by the Contract for such authorized Work; and the authorized Work will remain the responsibility of CMAR.

15.06 Final Inspection

A. Upon written notice from CMAR that the entire Work or an agreed portion thereof is complete, Engineer will promptly make a final inspection with Owner and CMAR and will notify CMAR in writing of all particulars in which this inspection reveals that the Work, or agreed portion thereof, is incomplete or defective. CMAR shall immediately take such measures as are necessary to complete such Work or remedy such deficiencies.

15.07 Final Payment

A. Application for Final Payment

1. After Engineer determines that CMAR has (a) satisfactorily completed all corrections identified during the final inspection, (b) has delivered, in accordance with the Contract Documents, all maintenance and operating instructions, schedules, guarantees, bonds, certificates or other evidence of insurance, certificates of inspection, annotated record documents, as provided in Paragraph 7.15, and other documents, and (c) completed performance of all services required by the Contract, CMAR may make application for final payment.

2. The final Application for Payment must be accompanied, except as previously delivered by:

a. all documentation required by the Contract Documents, including required certifications;

b. consent of the surety, if any, to final payment;

c. satisfactory evidence that all title issues have been resolved such that title to all Work, materials, and equipment has passed to Owner free and clear of any Liens or other title defects or will so pass upon final payment;

d. a list of all duly pending Change Proposals and Claims; and

e. complete and legally effective releases or waivers, satisfactory to Owner, of all Lien rights arising out of the Work, and of Liens filed in connection with the Work, the form of which are attached as Exhibit F-3 and Exhibit F-4 to the Agreement;

f. an affidavit that payrolls, bills for materials and equipment, and other indebtedness connected with the Work for which the Owner or the Owner's property might be responsible or encumbered (less amounts withheld by Owner) have been paid or otherwise satisfied, the form of which is attached after Exhibit F-4 to the Agreement;

g. a certificate evidencing that insurance required by the Contract Documents to remain in force after final payment is currently in effect;

h. a written statement that the CMAR knows of no reason that the insurance will not be renewable to cover the period required by the Contract Documents;

i. documentation of any special warranties, such as manufacturers' warranties or specific Subcontractor warranties;

j. a certificate from the CMAR that it has performed all of its obligations under the Contract;

k. a final, unconditional certificate of occupancy and all construction-related approvals, licenses and requirements for the Project or Work Package, as applicable, enabling it to be occupied and operated for its intended use, unless such certificates have not been issued solely as a result of the acts or omissions of the Owner;

l. certification that all of the requirements for Substantial Completion under Paragraph 15.04 have been met and all Work, including all punch list items, has been fully and finally completed;

m. a complete list of all Subcontractors and Suppliers, including addresses, telephone numbers, and names of individuals to contact who are familiar with the Project;

n. digital files of all maintenance and operating manuals;

o. digital files of all written guarantees and warranties in the form prescribed in the Contract Documents; and

p. one digital file copy of all other documents as the Owner may reasonably require, which may include, without limitation, those record documents described in Paragraph 7.15 above.

3. If any Subcontractor or Supplier fails to furnish such a release or receipt in full, CMAR may furnish a bond or other collateral satisfactory to Owner to indemnify Owner against any Lien, or Owner at its option may issue joint checks payable to CMAR and specified Subcontractors and Suppliers.

B. Engineer's Review of Final Application and Recommendation of Payment—If, on the basis of Engineer's observation of the Work during construction and final inspection, and review of the final Application for Payment and accompanying documentation as required by the Contract Documents, Engineer is satisfied that CMAR has completed the Work and fulfilled CMAR's other obligations under the Contract, Engineer will, within 10 days after receipt of the final Application for Payment, indicate in writing Engineer's recommendation of final

payment and present the final Application for Payment to Owner for payment. Such recommendation will account for any set-offs against payment that are necessary in Engineer's opinion to protect Owner from loss for the reasons stated above with respect to progress payments. Otherwise, Engineer will return the Application for Payment to CMAR, indicating in writing the reasons for refusing to recommend final payment, in which case CMAR shall make the necessary corrections and complete the Work and all remaining services, and resubmit the Application for Payment.

C. Notice of Acceptability of the Work—In support of its recommendation of payment of the final Application for Payment, Engineer will also give written notice to Owner and CMAR that the Work is acceptable to Engineer, subject to stated limitations in the notice and to the provisions of Paragraph 15.08.

D. Completion of Work—The Work is complete, subject to surviving obligations, when it is ready for final payment as established by the Engineer's written recommendation of final payment and issuance of Notice of Acceptability of the Work and Owner's approval of same.

E. Final Payment Becomes Due—Upon receipt from Engineer of the final Application for Payment and accompanying documentation, Owner shall reject or approve such final Application for Payment, and shall set off against the amount recommended by Engineer for final payment any further sum to which Owner is entitled, including but not limited to set-offs for liquidated damages and set-offs allowed under the provisions of this Contract with respect to progress payments. Upon Owner's approval of the final Application for Payment, as may be adjusted in accordance with this paragraph, Owner shall pay the resulting balance due to CMAR within 30 days of Owner's receipt of the final Application for Payment from Engineer with all required supporting documentation.

15.08 Waiver of Claims

A. The acceptance of final payment by CMAR will constitute a waiver by CMAR of all claims and rights against Owner other than those pending matters CMAR identifies in writing to Owner as of the date of the request for final payment.

15.09 Correction Period

A. Scheduled Correction Period Inspection—Within one month before the end of the Contract's correction period, CMAR will participate in an inspection of the Work with the Owner and Engineer to ascertain whether any portion of the Work or the repair of any damage to the Site or adjacent areas is defective and therefore subject to correction by CMAR.

B. If within two years after the date of Final Completion, or such longer period of time as may be prescribed by the Supplementary Conditions or the terms of any applicable special guarantee required by the Contract Documents, Owner gives CMAR written notice that any Work has been found to be defective, whether as a result of the scheduled correction period inspection or otherwise, or that CMAR's repair of any damages to the Site or adjacent areas has been found to be defective, then after receipt of such notice of defect CMAR shall promptly, without cost to Owner and in accordance with Owner's written instructions:

1. return to the Site with Owner and Engineer to inspect any apparent or discovered defects in the Work, or unrepaired damage to the Site or adjacent areas;

2. consult with Owner and Engineer regarding recommendations as to replacement or correction of such defective Work, or the repair of any damage;

3. correct the defective repairs to the Site or such adjacent areas;

4. correct such defective Work;

5. remove the defective Work from the Project and replace it with Work that is not defective, if the defective Work has been rejected by Owner, and

6. satisfactorily correct or repair or remove and replace any damage to other Work, to the work of others, or to other land or areas resulting from the corrective measures.

C. If, after receipt of a notice of defect within the correction period, CMAR does not promptly comply with the terms of Owner's written instructions, or in an emergency where delay would cause serious risk of loss or damage, Owner may have the defective Work corrected or repaired or may have the rejected Work removed and replaced. CMAR shall pay all costs, losses, and damages, including but not limited to all fees and charges of construction managers, engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs, arising out of or relating to such correction or repair or such removal and replacement, including but not limited to all costs of repair or replacement of work of others. CMAR's failure to pay such costs, losses, and damages within 10 days of invoice from Owner will be deemed the start of an event giving rise to a Claim under Paragraph 12.01.B.

D. Where defective Work, and damage to other Work resulting therefrom, has been corrected or removed and replaced under this paragraph, the correction period hereunder with respect to such Work will be extended for an additional period of one year after such correction or removal and replacement has been satisfactorily completed.

E. CMAR's obligations under this paragraph are in addition to all other obligations and warranties. The provisions of this paragraph are not to be construed as a substitute for, or a waiver of, the provisions of any applicable statute of limitation or repose.

ARTICLE 16—SUSPENSION AND TERMINATION

16.01 Owner May Suspend CMAR Services or Work

A. At any time and without cause, Owner may suspend the CMAR Services or the Work, or any portion thereof, for a period of not more than 90 consecutive days by written notice to CMAR and Engineer. Such notice will fix the date on which CMAR Services or Work will be resumed. CMAR shall resume the CMAR Services or Work on the date so fixed. CMAR shall be entitled to request an adjustment in the Contract Price or an extension of the Contract Times directly attributable to any such suspension lasting longer than 60 consecutive days. Notwithstanding the foregoing, any pause in Work (whether between Work Packages or otherwise) that is provided for in the Progress Schedule shall not be a suspension and shall not be applicable to such 60-consecutive day period. With respect to a suspension of the Work, any Change Proposal seeking such adjustments must be submitted no later than 30 days after the date fixed for resumption of Work. CMAR shall not be entitled to an adjustment in Contract Price or Contract Time to the extent that (i) performance is, was, or would have been, so suspended, delayed, or interrupted, by another cause for which CMAR is responsible; or (ii) an adjustment is made or denied under another provision of the Contract.

16.02 Owner May Terminate for Cause

A. The occurrence of any one or more of the following events will constitute a default by CMAR and justify termination for cause:

1. CMAR's failure to perform the Work in accordance with the Contract Documents, including, but not limited to, failure to supply sufficient skilled workers or suitable materials or equipment, or failure to adhere to the Progress Schedule;

2. CMAR's failure to perform or otherwise to comply with a material term of the Contract Documents, or CMAR's anticipatory breach or repudiation of the Contract;

3. CMAR's disregard of Laws or Regulations of any public body having jurisdiction;

4. CMAR becomes insolvent, files a Petition in Bankruptcy, or is adjudicated bankrupt, or makes a general assignment to the benefit of its creditors, or cannot pay its debts as they generally become due; or

5. CMAR's disregard of the authority of Owner or Engineer; or

6. CMAR's failure to make payment to Subcontractors or Suppliers in accordance with the respective agreements between CMAR and the Subcontractors or Suppliers.

B. If one or more of the events identified in Paragraph 16.02.A occurs, then after giving CMAR and any surety 7 days' written notice that Owner is considering a declaration that CMAR is in default and termination of the Contract may, without prejudice to any other rights or remedies of the Owner, proceed to

1. declare CMAR to be in default, and give CMAR, and any surety, written notice that the Contract is terminated, enforce the rights available to Owner under this Agreement and any applicable performance bond. If a performance or maintenance or warranty bond is required under the Contract, Owner requires CMAR's surety to complete the remaining Work in accordance with the terms of the original Contract. A completing contractor will be considered a subcontractor of the surety. Owner reserves the right to approve or reject proposed subcontractors. Work may resume after Owner receives and approves certificates of insurance required under Paragraph 6.02 above. Such certificates of insurance may be issued in the name of the completing contractor. The surety is responsible for making every effort to expedite the resumption of Work and completion of the Contract. Owner may complete the Work using any or all materials at the work locations it deems suitable and acceptable. Any costs incurred by Owner for the completion of the Work under the Contract will be the responsibility of the surety. Owner will hold all money earned but not disbursed by the date of default. Upon resumption of the Work after the default, all payments will be made to the surety. All costs and charges incurred by Owner as a result of the default, including, without limitation, the cost of completing the Work under the Contract, costs for other work Owner deems necessary, and any applicable liquidated damages or disincentives will be deducted from money due to CMAR for completed portions of Work. If these costs exceed the sum that would have been payable to CMAR under the Contract, the surety will be liable and pay Owner the balance of these costs in excess of the Contract Price. In case the costs incurred by Owner are less than the amount that would have been payable under the Contract if the Work had been completed by CMAR, Owner will be entitled to retain the difference.

C. Subject to the terms and operation of any applicable performance bond and surety's prior rights, if Owner has terminated the Contract for cause, Owner may:

1. Exclude the CMAR from the Site, and take possession of, equipment, tools, and construction equipment and machinery thereon owned by the CMAR;

2. Accept assignment of subcontracts pursuant to the Contract Documents; and

3. Finish the Work by whatever reasonable method the Owner may deem expedient. Upon written request of the CMAR, the Owner shall furnish to the CMAR a detailed accounting of the costs incurred by the Owner in finishing the Work.

D. CMAR's services will not be terminated under Paragraph 16.02.B if CMAR begins to correct its failure to perform within 7 days of receipt of notice of intent to terminate and proceeds diligently to cure such failure within no more than 30 days of receipt of said notice. If the nature of the failure is such it cannot be fully cured within 30 days, Contractor shall within 10 days of the notice provide a detailed resource-loaded schedule for completion of the cure work by the earliest feasible date and the Engineer will have authority to grant additional cure time. Nothing in this paragraph and no extension of cure time shall entitled Contractor to an extension of Contract Time.

E. Notwithstanding the foregoing, if Owner reasonably determines that CMAR's acts or omissions pose an immediate and substantial threat or danger of injury to persons or damage to the Work or other property, Owner may, without prejudice to any other rights or remedies granted by this Contract or by law, immediately suspend CMAR's performance of the Work, take immediate possession of the Project Site, take such further action reasonably necessary to prevent, mitigate against, remove, or repair such threat or damage, and deduct such costs and expenses it reasonably incurs from any sums due and owing to the CMAR or, in the absence thereof, to recover such costs and expenses from the CMAR.

F. If Owner proceeds as provided in Paragraph 16.02.B, CMAR shall not be entitled to receive any further payment until the Work is completed. Upon receipt of any such written notice of termination of the right to proceed, the CMAR shall, at its expense, for that Work affected by any such termination:

1. Make an inventory of all materials and equipment in storage at the Site, in route to the Site, in storage or manufacture away from the Site, and on order from Suppliers;

2. Upon Owner's written instruction, assign to the Owner, subcontracts, supply contracts, and equipment rental agreements all as designated by the Owner;

3. Remove from the Site all construction materials, equipment, and plant listed in said inventory other than such construction materials, equipment, and plant which are designated in writing by the Owner to be used by the Owner in completing such Work;

4. Promptly provide to Owner any and all records, plans, drawings, data, permits, specifications, sketches, reports and other information relating to the terminated Work;

5. Transfer to Owner all data and information contained within the project management software.

If the unpaid balance of the Contract Price exceeds the cost to complete the Work, including all related claims, costs, losses, and damages, including but not limited to all fees and charges of Owner's advisors, engineers, architects, attorneys, and other professionals, sustained by

Owner, such excess will be paid to CMAR. If the cost to complete the Work including such related claims, costs, losses, and damages exceeds such unpaid balance, CMAR shall pay the difference to Owner. Such claims, costs, losses, and damages incurred by Owner will be incorporated in a Change Order. When exercising any rights or remedies under this paragraph, Owner shall not be required to obtain the lowest price for the Work performed.

Where CMAR's services have been so terminated by Owner, the termination will not affect any rights or remedies of Owner against CMAR then existing or which may thereafter accrue, or any rights or remedies of Owner against CMAR or any surety under any payment bond or performance bond. Any retention or payment of money due CMAR by Owner will not release CMAR from liability.

If and to the extent that CMAR has provided a performance bond under the provisions of Paragraph 6.01.A, the provisions of Paragraph 16.02.B will govern over any inconsistent provisions of that bond.

16.03 Owner May Terminate for Convenience

A. Upon 7 days' written notice to CMAR, Owner may immediately, without cause and without prejudice to any other right or remedy of Owner, terminate the Contract in whole or in part for Owner's convenience. In such case, CMAR shall be paid for without duplication of any items:

1. completed and acceptable Work executed in accordance with the Contract Documents prior to the effective date of termination;
2. reasonable expenses sustained prior to the effective date of termination in performing services and furnishing labor, materials, or equipment as required by the Contract Documents in connection with uncompleted Work; and
3. reasonable costs of demobilization incurred by CMAR and reasonable amounts incurred in settlement of terminated subcontracts.

B. CMAR shall not be paid for any loss of anticipated profits or revenue, post-termination overhead costs, or other economic loss arising out of or resulting from such termination.

C. If Owner terminates the Contract under Paragraph 16.02 but it should be determined that CMAR was not in default hereunder, then such termination shall be deemed, as of the date made, to have been made for convenience under Paragraph 16.03.

D. Upon receipt of notice from the Owner of such termination for the Owner's convenience, CMAR shall:

1. cease operations as directed by the Owner in the notice;
2. take actions necessary, or that the Owner may direct, for the protection and preservation of the Work; and
3. except for Work directed to be performed prior to the effective date of termination stated in the notice, terminate all existing subcontracts and purchase orders and enter into no further subcontracts and purchase orders.

16.04 Contingent Assignment of Subcontracts and Purchase Orders

A. Each subcontract and purchase order for a portion of the Work, including all contracts with Subcontractors will expressly provide that such agreement is assigned by CMAR to Owner, provided that:

1. Assignment is effective after any termination of the Contract by Owner and only for those agreements that Owner accepts by notifying the Subcontractor and CMAR in writing, which notice shall be made by Owner to CMAR no later than forty-five (45) days after the termination is effective; and

2. Assignment is subject to the prior rights of the surety, if any, obligated under bond relating to the Contract.

B. When Owner accepts assignment of an agreement under this Paragraph, the Owner assumes the CMAR's rights and obligations following such assignment under such agreement. Assignment does not relieve CMAR of its obligations under the assigned agreement or the Contract Documents, nor shall any assignment be deemed a waiver by Owner of any action or claim that Owner could assert against CMAR.

C. If the Work in connection with a subcontract or purchase order has been suspended for more than ninety (90) days after termination of the Contract by Owner and Owner accepts assignment of such agreement, and such termination is not due in whole or in part to any breach of contract or negligence of the Subcontractor, then the Subcontractor's compensation shall be equitably adjusted for any increase in direct costs incurred by such party as a result of the suspension, if requested and appropriate.

D. Upon assignment to the Owner pursuant to this Paragraph 16.04, Owner may further assign the subject agreement to a successor construction manager-at-risk or other entity.

E. Owner shall have the right to request from any Subcontractor at any time during the course of the Work, a notarized affidavit stating the amount of monies which have been paid to the party as of any certain stipulated date.

F. Each agreement shall specifically provide that Owner shall only be responsible to the Subcontractor for those services and materials furnished and approved by Owner subsequent to Owner's exercise of any rights under this conditional assignment.

16.05 CMAR May Stop Work or Terminate

A. If, through no act or fault of CMAR, (1) the Work is suspended for more than 90 consecutive days by Owner or under an order of court or other public authority, or (2) Owner fails for 30 days to pay CMAR any sum finally determined to be due, then CMAR may, upon 60 days' written notice to Owner, and provided Owner has not taken reasonable steps to remedy such suspension or failure within that time, terminate the contract and recover from Owner payment on the same terms as provided in Paragraph 16.03. In no event shall Owner be liable for lost profits, lost opportunity costs, overhead, or any other costs incurred by reason of the termination.

B. In lieu of terminating the Contract and without prejudice to any other right or remedy, if Owner has failed to act on an Application for Payment within 30 days after it is submitted, or Owner has failed for 30 days to pay CMAR any sum finally determined to be due, CMAR may, 30 days after providing written notice to Owner of such failure, stop the Work until payment is made of all such amounts due CMAR, including interest thereon. The provisions of this

paragraph are not intended to preclude CMAR from submitting a Change Proposal for an adjustment in Contract Price or Contract Times or otherwise for expenses or damage directly attributable to CMAR's stopping the Work as permitted by this paragraph.

ARTICLE 17—MISCELLANEOUS

17.01 Giving Notice

A. Whenever any provision of the Contract requires the giving of written notice to Owner, CMAR, or Engineer when required, it will be deemed to have been validly given only if delivered:

1. in person, by a commercial courier service or otherwise, to the recipient's place of business;
2. by registered or certified mail, postage prepaid, to the recipient's place of business; or
3. by e-mail to the recipient, with the words "Formal Notice" or similar in the e-mail's subject line.

17.02 Computation of Times

A. When any period is referred to in the Contract by days, it will be computed to exclude the first and include the last day of such period. If the last day of any such period falls on a Saturday or Sunday or on a day made a legal holiday by the law of the applicable jurisdiction, such day will be omitted from the computation.

17.03 Cumulative Remedies

A. The duties and obligations imposed by these General Conditions and the rights and remedies available hereunder to the parties hereto are in addition to and are not to be construed in any way as a limitation of, any rights and remedies available to any or all of them which are otherwise imposed or available by Laws or Regulations, by special warranty or guarantee, or by other provisions of the Contract. The provisions of this Paragraph will be as effective as if repeated specifically in the Contract Documents in connection with each particular duty, obligation, right, and remedy to which they apply.

17.04 Limitation of Damages

A. With respect to Change Proposals, Claims, disputes subject to final resolution, and other matters at issue, neither Owner nor Engineer, nor any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors, shall be liable to CMAR for any claims, costs, losses, or damages sustained by CMAR on or in connection with any other project or anticipated project.

B. Notwithstanding any other provisions of the Contract and to the fullest extent permitted by law, the Owner and CMAR, on behalf of themselves, their parent companies, if applicable, their affiliates and their directors, officers and employees, mutually waive all claims against the other for any loss of funding, loss of profits, loss of opportunity, and any other special, consequential or indirect losses or damages, except as expressly permitted in the Contract.

17.05 No Waiver

A. A party's non-enforcement of any provision will not constitute a waiver of that provision, nor will it affect the enforceability of that provision or of the remainder of this Contract.

17.06 Survival of Obligations

A. All representations, indemnifications, warranties, and guarantees made in, required by, or given in accordance with the Contract, as well as all continuing obligations indicated in the Contract, will survive final payment, completion, and acceptance of the Work or termination of the Contract or of the services of CMAR.

17.07 Controlling Law

A. This Contract is to be governed by the law of the State of Texas without regard to conflicts of laws that would apply the laws of a different jurisdiction.

17.08 Assignment of Contract

A. Unless expressly agreed to elsewhere in the Contract, no assignment by a party to this Contract of any rights under or interests in the Contract will be binding on the other party without the written consent of the party sought to be bound; and, specifically but without limitation, money that may become due and money that is due may not be assigned without such consent, except to the extent that the effect of this restriction may be limited by law, and unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under the Contract.

17.09 Successors and Assigns

A. Owner and CMAR each binds itself, its successors, assigns, and legal representatives to the other party hereto, its successors, assigns, and legal representatives in respect to all covenants, agreements, and obligations contained in the Contract Documents.

17.10 Headings

A. Article and Paragraph headings are inserted for convenience only and do not constitute parts of these General Conditions.

17.11 Interpretation

A. The parties expressly agree that this Contract was jointly drafted, and that both parties had opportunity to negotiate its terms and to obtain the assistance of counsel in reviewing its terms prior to execution. Therefore, this Contract shall be construed neither against nor in favor of either party, but shall be construed in a neutral manner.

17.12 CMAR's Additional Representations

A. CMAR and the person or persons executing the Agreement on behalf of CMAR, or representing themselves as executing the Agreement on behalf of CMAR (collectively, the "Signing Entities"), hereby acknowledge that (a) the Signing Entities do not engage in business with Iran, Sudan or any foreign terrorist organization and (b) the Signing Entities are not named on a list prepared and maintained by the Texas Comptroller of Public Accounts under Section 2252.153 or Section 2270.0201, Texas Government Code, and posted on any of the following pages of such officer's internet website:

1. https://comptroller.texas.gov/purchasing/docs/sudan-list.pdf,
2. https://comptroller.texas.gov/purchasing/docs/iran-list.pdf; or
3. https://comptroller.texas.gov/purchasing/docs/fto-list.pdf.

B. Pursuant to Section 2271.002, Texas Government Code, if CMAR has ten or more full-time employees and the Agreement is for goods and services and is valued at or above $100,000, and is to be paid wholly or partly by public funds, then CMAR hereby represents that it does not boycott Israel and subject to or as otherwise required by applicable federal law, including without limitation 50 U.S.C. Section 4607, agrees it will not boycott Israel during the term of the Contract. As used in the immediately preceding sentence, "boycott Israel" shall have the meaning given such term in Section 2271.001, Texas Government Code.

C. Pursuant Section 2274.002 and any other relevant provisions of the Texas Government Code, if the CMAR has ten or more full-time employees and this Contract is for goods or services valued at or above $100,000, and is to be paid wholly or partly by public funds, then CMAR verifies that it does not (i) have a practice, policy, guidance, or directive that discriminates against a firearm entity or a firearm trade association, and will not discriminate against a firearm entity or firearm trade association during the term of the Contract. As used in the immediately preceding sentence, "firearm entity", "firearm trade association", and discriminate against a firearm entity or firearm trade association" shall have the meaning given such term in Section 2274.001, Texas Government Code.

D. Pursuant to Chapter 809, Texas Government Code, CMAR represents that CMAR does not boycott those energy companies identified in Tex. Gov't. Code § 809.01(1) and will not boycott such energy companies during the term of the Contract.

E. By executing the Agreement, CMAR certifies that it is not owned by nor is the majority of the CMAR's stock or other ownership interest held or controlled by the government or citizens of the following countries: China, Iran, North Korea, Russia, and any other country designated by the Governor of Texas as a threat to critical infrastructure under Section 2275.0103, Texas Government Code, as amended (the "Prohibited Countries"). As used in the immediately preceding sentence, "critical infrastructure" shall have the meaning given such term in Section 2275.0101, Texas Government Code. CMAR further certifies that it is not owned, held, or controlled by any company or governmental entity controlled by or headquartered in the Prohibited Countries. The foregoing prohibitions apply regardless of whether the CMAR's securities are publicly traded or whether the CMAR is listed on a public stock exchange.

EXHIBIT C–INSURANCE EXHIBIT

This Exhibit C is part of and incorporated into the Agreement to which this Exhibit is attached, by and between the City of Georgetown ("Owner") and the CMAR. All capitalized terms used but not defined herein have the definitions given to them in the Agreement and references to capitalized terms Contractor or CMAR shall have the same meaning.

ARTICLE 1—BONDS AND INSURANCE

1.01 Performance, Payment, Security and Other Bonds

A. Security Bond—When CMAR delivers the signed counterparts of the Agreement to the Owner, CMAR shall deliver, within ten (10) days of signing the Agreement, a security bond on the form required by Owner in accordance with the terms provided herein ("Security Bond"). Such Security Bond shall remain in full force and effect until a binding GMP for the entirety of the Work of the Project is established and payment and performance bonds covering the entirety of the Work for the Project have been delivered to the Owner as required by Paragraph 1.01.B of this Exhibit.

B. No later than the execution of the first Work Authorization for a Work Package(s), or Owner's acceptance of the GMP Proposal for the Project if earlier, the CMAR shall furnish a performance bond and a payment bond as required by Chapter 2253 of the Texas Government Code, each with a penal sum in an amount at least equal to the GMP covered by such Work Authorization or the Guaranteed Maximum Price for the Project, as applicable, as security for the faithful performance and payment of CMAR's obligations under the Contract. The performance and payment bonds shall be increased as additional Work Authorizations are executed such that the penal sums of the performance and payment bonds are always equal to the total GMPs of all Work Authorizations executed for the Project, including any modifications thereto. Upon delivery of, or increase to, the performance and payment bonds as required for an executed Work Authorization, the Security Bond shall be accordingly decreased by the amount of the penal sum of the performance and payment bonds or increase thereto. Should the GMP of any Work Authorization be amended by Change Order or otherwise, the penal sum of the performance and payment bonds shall be amended such that the penal sum is always equal to the total GMP of all executed Work Authorizations for the Project. The performance and payment bonds must remain in effect until Final Completion, except as provided otherwise by Laws or Regulations, the Supplementary Conditions, or other provisions of the Contract. The premium costs of such bonds are:

1. included in Construction Support Cost if purchased for the Work based on the Owner's Construction Budget.

IF FOR ANY REASON A STATUTORY PAYMENT OR PERFORMANCE BOND IS NOT HONORED BY THE SURETY, CMAR SHALL FULLY INDEMNIFY AND HOLD OWNER HARMLESS OF AND FROM ANY COSTS, LOSSES, OBLIGATIONS OR LIABILITIES OWNER INCURS AS A RESULT.

C. CMAR shall also furnish such other bonds, if any, as are required by the Supplementary Conditions or other provisions of the Contract.

D. All bonds must be in the form included in the Contract Documents or otherwise specified by Owner except as provided otherwise by Laws or Regulations. A bond signed by an agent or attorney-in-fact must be accompanied by a certified copy of that individual's authority to bind the surety. The evidence of authority must show that it is effective on the date the agent or attorney-in-fact signed the accompanying bond.

E. CMAR shall obtain the required bonds from surety companies that are duly licensed or authorized, in the State of Texas in accordance with Surety Bonds and Related Instruments, Chapter 3503 of the Insurance Code, to issue bonds in the required amounts.

F. If the surety on a bond furnished by CMAR is declared bankrupt or becomes insolvent, or the surety ceases to meet the requirements above, then CMAR shall promptly notify Owner in writing and shall, within 20 days after the event giving rise to such notification, provide another bond and surety, both of which must comply with the bond and surety requirements above.

G. If CMAR has failed to obtain a required bond, Owner may exclude the CMAR from the Site and exercise Owner's termination rights under Article 16 of the General Conditions.

H. Upon request to Owner from any Subcontractor, Supplier, or other person or entity claiming to have furnished labor, services, materials, or equipment used in the performance of the Work, Owner shall provide a copy of the payment bond to such person or entity.

I. Upon request to CMAR from any Subcontractor, Supplier, or other person or entity claiming to have furnished labor, services, materials, or equipment used in the performance of the Work, CMAR shall provide a copy of the payment bond to such person or entity.

J. CMAR acknowledges that the Owner is a municipality and that the property that the Project will occupy is publicly owned. As such, neither CMAR nor any Subcontractor or Supplier may file, assert, or obtain a mechanic's or other lien against the Project or any property of the Owner. CMAR shall provide each Subcontractor and Supplier a copy of the payment bond CMAR obtained for this Project at the time the subcontract is executed.

K. CMAR shall provide a warranty/maintenance bond from a company or companies qualified to issue a payment or performance bond pursuant to Chapter 2253 of the Texas Government Code. The amount of said bond shall be equal to a minimum of ten percent (10%) of the Contract Price, as may be adjusted as provided in an accepted GMP Proposal. The bond shall be provided on Owner's forms and shall be issued by the same surety that issues the payment and performance bonds for the Project and shall be for the duration of the correction period after Final Completion provided in Paragraph 15.09 of the General Conditions.

L. Performance Bonds required of certain Subcontractors and Suppliers—see Paragraph 7.10.O of the General Conditions.

1.02 Insurance—General Provisions

A. Owner and CMAR shall obtain and maintain insurance as required in this Exhibit and in the Supplementary Conditions to the Contract, if any.

B. All insurance required by the Contract to be purchased and maintained by Owner or CMAR shall be obtained from insurance companies that are duly licensed or authorized in the state or jurisdiction in which the Project is located to issue insurance policies for the required limits and coverages. Unless a different standard is indicated in the Supplementary Conditions, all companies that provide insurance policies required under this Contract must have an A.M.

Best Financial Strength Rating of A- or better, and an A.M. Best Financial Size Category of VII or larger.

C. Alternative forms of insurance coverage, including but not limited to self-insurance, insurance through a captive insurer owned or controlled by CMAR, and "Occupational Accident and Excess Employer's Indemnity Policies," are not adequate to meet the insurance requirements of this Contract and all costs associated therewith are not reimbursable under the Contract, unless expressly allowed in the Supplementary Conditions.

D. CMAR shall deliver to Owner certificates of insurance and endorsements establishing that CMAR has obtained and is maintaining the policies and coverages required by the Contract. Upon request by Owner or any other insured, CMAR shall also furnish other evidence of such required insurance, including but not limited to copies of policies, documentation of applicable self-insured retentions, if allowed, and deductibles, full disclosure of all relevant exclusions, and evidence of insurance required to be purchased and maintained by Subcontractors or Suppliers. In any documentation furnished under this provision, CMAR, Subcontractors, and Suppliers may block out (redact) (1) any confidential premium or pricing information and (2) any wording specific to a project or jurisdiction other than those applicable to this Contract.

E. Not used

F. Failure of Owner to demand such certificates or other evidence of the other party's full compliance with these insurance requirements, or failure of Owner to identify a deficiency in compliance from the evidence provided, will not be construed as a waiver of CMAR's obligation to obtain, and maintain such insurance.

G. Except with Owner's written approval, and without limiting any of the other obligations or liabilities of CMAR, CMAR shall require each Subcontractor performing work under the Contract, at Subcontractor's own expense, to maintain during the term of the Contract, the same stipulated minimum insurance including the required provisions and additional policy conditions as shown in Paragraph 1.03 below except for professional liability, with the Owner and other Indemnified Parties identified in the Contract as additional insureds on such policies to the extent that CMAR is required to name Owner and such Indemnified Parties as additional insureds on CMAR's coverage; provided, however, that the minimum limit by Subcontractors for their Excess Liability shall be $1,000,000 per occurrence and general aggregate on subcontracts with an aggregate value less than $1,000,000 (inclusive of all Change Orders) and $5,000,000 per occurrence and aggregate for all other Subcontractors. As an alternative, CMAR may include its Subcontractors as additional insureds on its own coverage as prescribed under these requirements. CMAR's certificate of insurance shall note in such event that Subcontractors are included as additional insureds and that CMAR agrees to provide workers' compensation for Subcontractors and their employees. CMAR shall obtain and monitor the certificates of insurance from each Subcontractor in order to assure compliance with the insurance requirements. CMAR must retain the certificates of insurance for the duration of the Contract plus five (5) years and shall have the responsibility of enforcing these insurance requirements among its Subcontractors. Owner shall be entitled, upon request and without expense, to receive copies of these certificates.

1. If a Subcontractor will provide design, engineering, or other similar professional services under this Contract, as the result of a delegation of professional design responsibilities or otherwise, then CMAR shall require that such Subcontractor purchases and maintains

applicable professional liability insurance as is required of CMAR in Paragraph 1.03.M below. This insurance shall provide protection against claims arising out of performance of professional design or related services, and caused by a negligent error, omission, or act for which the insured party is legally liable.

H. If CMAR does not purchase or maintain the insurance required of it by the Contract, CMAR shall notify Owner in writing of such failure to purchase prior to the start of the Work, or of such failure to maintain prior to any cancellation of the required coverage.

I. If CMAR has failed to obtain and maintain required insurance, CMAR's entitlement to enter or remain at the Site will end immediately, and Owner may impose an appropriate set-off against payment for any associated costs, including but not limited to the cost of purchasing necessary insurance coverage, and exercise Owner's termination rights under Article 16 of the General Conditions.

J. Without prejudice to any other right or remedy, if CMAR (or a Subcontractor) has failed to obtain required insurance, Owner may elect, but is in no way obligated, to obtain equivalent insurance to protect its interests at the expense of CMAR, and the Contract Price will be adjusted accordingly. Further, CMAR shall bear all costs attributable to such failure, including, but not limited to, the foregoing costs described in this paragraph.

K. Owner does not represent that insurance coverage and limits established in this Contract necessarily will be adequate to protect CMAR or CMAR's interests. CMAR is responsible for determining whether such coverage and limits are adequate to protect its interests, and for obtaining and maintaining any additional insurance that CMAR deems necessary.

L. The insurance and insurance limits required herein will not be deemed as a limitation on CMAR's liability, or that of its Subcontractors or Suppliers, under the indemnities granted to Owner and other individuals and entities in the Contract or otherwise.

M. All the policies of insurance required to be purchased and maintained under this Contract will contain a provision or endorsement that the coverage afforded will not be canceled, materially changed, or renewal refused, until at least 30 days prior written notice has been given to the purchasing policyholder and Owner. Within two business days of receipt of any such written notice or changed endorsement, the purchasing policyholder must provide a copy of the notice to Owner and each other insured.

1.03 CMAR's Insurance

A. Required Insurance–CMAR shall purchase and maintain worker's compensation, commercial general liability, and other insurance specified in this Paragraph 1.03 and Paragraph 1.04 and pursuant to the specific requirements of the Supplementary Conditions.

B. General Provisions–The policies of insurance required by this Paragraph 1.03 as supplemented must:

1. include at least the specific coverages required;

2. be written for not less than the limits provided, or those required by Laws or Regulations, whichever is greater;

3. remain in effect at least through the maximum period of exposure under the applicable statute of repose, except for Automobile Liability and Worker's Compensation which shall remain until the Work is complete, as set forth in Paragraph 15.07.D of the General

Conditions, and longer if expressly required elsewhere in this Contract, and at all times thereafter when CMAR may be correcting, removing, or replacing defective Work as a warranty or correction obligation, or otherwise, or returning to the Site to conduct other tasks arising from the Contract;

4. apply with respect to the performance of the Work, whether such performance is by CMAR, any Subcontractor or Supplier, or by anyone directly or indirectly employed by any of them to perform any of the Work, or by anyone for whose acts any of them may be liable;
5. include all necessary endorsements to support the stated requirements;
6. be primary with respect to any insurance or self insurance carried by Owner for liability arising out of operations under the Contract;
7. include a waiver of subrogation in favor of Owner.

C. Additional Insureds–The CMAR's commercial general liability, automobile liability, umbrella or excess, asbestos abatement liability, pollution liability, and unmanned aerial vehicle liability policies, if required by this Contract, must:

1. include and list as additional insureds Owner and its officials, directors, employees, representatives, and volunteers, and any individuals or entities identified as additional insureds in the Supplementary Conditions;
2. include coverage for the respective officers, directors, members, partners, employees, and consultants of all such additional insureds;
3. afford primary coverage to these additional insureds for all claims covered thereby, including as applicable those arising from both ongoing and completed operations;
4. not seek contribution from insurance maintained by the additional insured; and
5. as to commercial general liability insurance, apply to additional insureds with respect to liability caused in whole or in part by CMAR's acts or omissions, or the acts and omissions of those working on CMAR's behalf, in the performance of CMAR's operations.

D. Workers' Compensation and Employer's Liability—CMAR shall purchase and maintain Workers' Compensation Insurance with statutory coverage as required in the State of Texas in connection with the performance of the Work and Employers' Liability Insurance. All Workers' Compensation Insurance shall satisfy all requirements of Paragraph 1.07 below. The minimum limits required for the employer's liability insurance are as follows:

Workers' Compensation and Employer's Liability	**Policy limits of not less than:**
Workers' Compensation	
State	Statutory
Employer's Liability	
Each accident	$1,000,000
Disease each employee	$1,000,000
Disease policy limit	$1,000,000

Policies must include (a) other States' endorsement to include Texas if CMAR business is domiciled outside the State of Texas, and (b) a waiver of all rights of subrogation in favor of Owner.

E. Commercial General Liability (Claims Covered)—CMAR shall purchase and maintain commercial general liability insurance, covering all operations by or on behalf of CMAR, including, but not limited to, the liability assumed under the indemnification provisions of this Contract, on an "occurrence" basis, against damages because of bodily injury, sickness or disease, or death of any person other than CMAR's employees.

F. Commercial General Liability (Form and Content)—CMAR's commercial liability policy shall be written on an ISO commercial general liability form (occurrence form) CG 00 01 04 13 or equivalent. The policy shall not include any type of subsidence or earth movement exclusion; classification or business description limitation endorsement; or punitive, exemplary or multiplied damages exclusion. Such insurance shall include the following coverages and endorsements:

1. Products and completed operations coverage:

   a. Such insurance shall be maintained through the later of ten (10) years after completion of the Work or until expiration of the maximum period of exposure under the applicable statute of repose.

   b. CMAR shall furnish Owner and each other additional insured (as identified in the Contract) evidence of continuation of such insurance at final payment and through the statute of repose thereafter.

2. Contractual coverage, including written contracts, subject to the standard policy terms and conditions for "insured contracts" as defined in the definition section of the policy.

3. Severability of interests and no insured-versus-insured or cross-liability exclusions.

4. Additional insured endorsements that include both ongoing operations and products and completed operations and underground hazard, explosion, and collapse coverage through ISO Endorsements CG 20 10 10 01 and CG 20 37 10 01 (together). The policy shall include endorsement CG 25 03 Amendment of Aggregate Limits of Insurance (per Project). If CMAR demonstrates to Owner that the specified ISO endorsements are not commercially available, then CMAR may satisfy this requirement by providing equivalent endorsements.

5. Coverage for Work performed by Subcontractors in the completed operations phase, with no exclusion or endorsement modifying the subcontract exception to the "Your Work" exclusion.

6. Personal injury coverage, with no exclusion modifying or limiting the employer liability exclusion set forth in ISO Form CG 00 01 04 13 or limitation for independent contractors of any tier.

7. If the Work involves any activities within fifty (50) feet of any railroad, railroad protective insurance as may be required by the affected railroad, written for not less than the limits required by such railroad.

G. Commercial General Liability (Excluded Content)—The commercial general liability insurance policy, including its coverages, endorsements, and incorporated provisions, shall not include any of the following:

1. Any modification of the standard definition of "insured contract."
2. Any exclusion for water intrusion or water damage.
3. Any provisions resulting in the erosion of insurance limits by defense costs.
4. Any exclusion of coverage relating to earth subsidence or movement.
5. Any exclusion for the insured's vicarious liability, strict liability, or statutory liability.
6. Any limitation or exclusion based on the nature of CMAR's work.
7. Any professional liability exclusion broader in effect than ISO form CG 22 79 07 98.

H. Commercial General Liability (Minimum Policy Limits)—CMAR shall maintain Commercial General Liability insurance in accordance with the requirements stated herein subject to the following minimum policy limits:

Commercial General Liability	**Policy limits of not less than:**
General Aggregate	$2,000,000
Products—Completed Operations Aggregate	$2,000,000
Personal and Advertising Injury	$1,000,000
Bodily Injury and Property Damage—Each Occurrence	$1,000,000

I. Automobile Liability—CMAR shall purchase and maintain automobile liability insurance, covering all owned, hired, and non-owned vehicles, against claims for damages because of bodily injury or death of any person or property damage arising out of the ownership, maintenance, or use of any motor vehicle. Such insurance is to include coverage for loading and unloading hazards and CMAR shall provide pollution coverage for any vehicle hauling asbestos containing cargo as set forth in Paragraph K below. The automobile liability policy shall be written on an occurrence basis and shall be provided at the following minimum policy limits:

Automobile Liability	**Policy limits of not less than:**
Combined Single Limit	$1,000,000

J. Asbestos Abatement Liability—CMAR shall purchase and maintain a policy covering liability against property damages and bodily injury, sickness or disease, or death arising from the encapsulation, removal, handling, storage, transportation, and disposal of asbestos containing materials. *This requirement applies if the Work or the Project includes asbestos containing materials. Such asbestos abatement liability insurance shall be provided on an occurrence basis at the following minimum limits:

Asbestos Abatement Liability	**Policy limits of not less than:**
Per occurrence	$1,000,000
Employer's Liability	
Each accident	$1,000,000

Asbestos Abatement Liability	Policy limits of not less than:
Disease each employee	$1,000,000
Disease policy limit	$1,000,000

Specific requirement for claims-made form: Required period of coverage will be determined by the following formula: continuous coverage for life of the Contract, plus one (1) year (to provide coverage for the warranty period), and an extended discovery period for a minimum of five (5) years which shall begin at the end of the warranty period.

K. Pollution Liability—CMAR shall purchase and maintain a policy covering third-party injury and property damage claims, including clean-up costs, as a result of pollution conditions arising from CMAR's operations and completed operations. CMAR or any Subcontractor responsible for transporting asbestos or other hazardous materials defined as asbestos shall provide pollution coverage for any vehicle hauling asbestos containing cargo. The policy must include a MCS 90 endorsement and the CA 9948 Pollution Endorsement, or its equivalent. Such pollution liability insurance shall be provided at the following minimum limits:

Pollution Liability	Policy limits of not less than:
Each Claim	$5,000,000
General Aggregate	$5,000,000

L. Umbrella or Excess Liability—CMAR shall purchase and maintain umbrella or excess liability insurance written over the underlying employer's liability, if any, commercial general liability, asbestos abatement liability, and automobile liability insurance (including pollution coverage for transporting asbestos or other hazardous materials) described in the paragraphs above. Subject to industry-standard exclusions, the coverage afforded shall provide coverage at least as broad as, and apply in excess and follow form as to, each and every one of the underlying policies. The policy shall provide "drop down" coverage where underlying primary insurance coverage limits are insufficient or exhausted. Such umbrella or excess liability insurance shall be provided at the following minimum policy limits:

Excess or Umbrella Liability	Policy limits of not less than:
Each Occurrence	$10,000,000
General Aggregate	$10,000,000

M. Contractor's Professional Liability—CMAR shall obtain and keep in force, at its sole cost and expense, a Contractor's Professional Liability insurance policy written on a claims-made basis. The retroactive date, if any, shall be no later than the commencement date of this agreement. Such insurance shall cover damage by reason of any acts, errors, or omissions committed or alleged to have been committed by the CMAR, or any acts for which CMAR is liable. Such Contractor's Professional Liability policy shall be provided at the following minimum limits:

Contractor's Professional Liability	Policy limits of not less than:
Each Claim	$5,000,000
General Aggregate	$5,000,000

1.04 Builder's Risk and Other Property Insurance

A. Builder's Risk–Before the commencement of construction CMAR shall purchase and maintain "All-Risk" builder's risk insurance upon the Work on a completed value basis, in the amount of the full insurable replacement cost of the Work. Such insurance shall be written in the amount of the accepted GMP for the entire Project, plus any subsequent change orders and plus the cost of materials supplied or installed by others, comprising the total value for the entire Project at the site. The insurance shall apply on a replacement cost basis with no coinsurance provision and shall include a margin clause of plus/minus 10% on project value. Such insurance shall include, without limitation, insurance against fire and extended coverage perils, theft, vandalism, malicious mischief, collapse, earthquake, flood, windstorm, boiler and machinery/mechanical breakdown, testing and startup, and terrorism.

For purposes of the builder's risk and other required property insurance, "commencement of construction" first occurs when fabrication commences, in the case of specially fabricated materials, and for non-specially fabricated materials, when materials are in the course of delivery to the Site or an off-site storage location required to be insured if transit coverage is required, or if transit coverage is not required, when materials are delivered to the Site, or an off-site storage location required to be insured. Before commencement of construction, CMAR shall provide to Owner an accurate certificate of insurance that provides specific evidence of all requirements outlined in this Paragraph 1.04. A copy of the policy itself shall be provided to Owner within 30 days after Notice to Proceed.

B. Such builder's risk insurance shall:

1. Cover the entire Work at the site as required in Paragraph 1.04.A above, including but not limited to the following coverages and, if specified, minimum required limits:

a. All structure(s) under construction, including but not limited to retaining walls, paved surfaces and roadways, bridges, glass, foundation(s), footings, underground pipes and wiring, excavations, grading, backfilling or filling; minimum limit required sufficient to cover the anticipated maximum values of such structures;

b. All temporary structures (e.g., fencing, scaffolding, cribbing, falsework, forms, site lighting, temporary utilities and buildings) located at the site; minimum limit required $1 million;

c. All property including materials and supplies on site and off site for installation; minimum limit required sufficient to cover the anticipated maximum values of such materials and supplies onsite and offsite;

d. All property including materials and supplies in transit to the site for installation by all means of transportation other than ocean transit; minimum limit required sufficient to cover the anticipated maximum values in transit;

e. Other property for which CMAR or its Subcontractors or anyone for whom either is responsible, a named insured, or additional insured is liable in connection with the Project, including Owner-furnished or assigned property; minimum limit required sufficient to cover the anticipated maximum values of such property;

f. Ensuing loss arising from error, omission in construction methods, design, specifications, workmanship or materials; minimum limit required $2.5 million;

g. Preservation of Property; minimum limit required sufficient to cover the anticipated maximum values of such property;

h. Existing structure coverage for the renovation portion of the Project, if any; minimum limit required sufficient to cover the maximum values of affected portion of such structure;

i. Debris removal; minimum limit required $2 million;

j. Expediting Expenses; minimum limit required $1 million;

k. Extra Expense; minimum limit required $5 million;

l. Demolition and Increased Cost of Construction; minimum limit required $2 million;

m. Pollutant Clean-Up and Removal; minimum limit required $250,000;

n. Trees, Shrubs, Plants, Lawns and Landscaping (if applicable); minimum limit required $2,500 per item subject to a maximum of $1 million;

A sublimit may be applicable to flood coverage, but sublimit must be at least $10 million. A sublimit of $50 million or the GMP (as amended by Change Order) of the Project, whichever is less, is acceptable for Earthquake. The limit for all other perils, including, but not limited to, Named Windstorm, Wind, and Hail, must be equal to the GMP (as amended by Change Order) for the entire Project at the site.

2. Designate the CMAR as the named insured and the Owner and all Subcontractors as additional insureds;

3. Cover all costs for labor, supervision, materials, equipment, design professional fees, permit fees, and other costs and expenses for the rebuilding, restoring, repair or replacement of any insured property and for debris removal;

4. Allow for partial occupation or use of the Construction by Owner and shall not contain an occupancy clause suspending or reducing coverage should the Owner occupy, or begin beneficial occupancy before the Owner has accepted Final Completion;

5. Include performance/hot testing and start-up;

6. Not include any restriction on coverage relating to placement or maintenance of protective safeguards on the Project;

7. Waive all rights of subrogation against Owner, CMAR and Subcontractors;

8. Be maintained in effect until completion of the entirety of the Work or a designated portion thereof;

9. Be specific as to coverage and shall be primary to any permanent insurance or self-insurance that may be maintained on the Property by Owner;

10. For Flood deductible, as applicable, it shall not exceed 5% of the project values in place at the time of the loss, and for Tier 1 and Tier 2, Named Windstorm deductible shall not exceed 2% of the project values in place at the time of the loss.

C. Not used.

D. Insurance of Other Property; Additional Insurance–If the express insurance provisions of the Contract do not require or address the insurance of a property Item or interest, then the

entity or individual owning such property Item will be responsible for insuring it. If CMAR elects, without right to reimbursement, to obtain other special insurance to be included in or supplement the builder's risk or property insurance policies provided under this Paragraph 1.04, CMAR may do so at its expense.

1.05 Property Losses; Subrogation

A. The builder's risk insurance policy purchased and maintained in accordance with Paragraph 1.04, will contain provisions to the effect that in the event of payment of any loss or damage the insurer will have no rights of recovery against any insureds thereunder, or against Owner, Engineer, or their officers, directors, members, partners, employees, agents, consultants, or subcontractors.

1. Owner and CMAR waive all rights against each other and their respective elected officials, officers, directors, and employees, for all losses and damages caused by, arising out of, or resulting from any of the perils, risks, or causes of loss covered by such policies and any other property insurance applicable to the Work; and, in addition, waive all such rights against Engineer, its consultants, all individuals or entities identified in the Supplementary Conditions as builder's risk insureds, and the officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of them, under such policies for losses and damages so caused.

2. None of the above waivers extends to the rights that any party making such waiver may have to the proceeds of insurance.

1.06 Receipt and Application of Builder's Risk Insurance Proceeds

A. Any insured loss under the builder's risk policy required by Paragraph 1.04 will be adjusted and settled with CMAR, as the named insured that purchased the policy. CMAR will act as fiduciary for the other insureds and give notice to such other insureds that adjustment and settlement of a claim is in progress. Any other insured may state its position regarding a claim for insured loss in writing within 15 days after notice of such claim.

B. CMAR, as the named insured receiving insurance proceeds under the builder's risk insurance required by Paragraph 1.04 must distribute such proceeds in accordance with such agreement as the parties in interest may reach, or as otherwise required under the dispute resolution provisions of this Contract or applicable Laws and Regulations.

C. CMAR shall repair or replace the damaged Work, using insurance proceeds received by CMAR for the specific purpose of repairing or replacing such damaged Work as authorized in writing by Owner. If such proceeds will not be reasonably sufficient to rebuild and restore the affected portion of the Project, then, prior to any expenditure thereof, CMAR shall obtain Owner's approval to use such funds to settle the CMAR's and Owner's financial interests relating to the loss, and to take such other actions as may be in the best interest of Owner. Any excess in proceeds shall be returned to Owner as Savings.

1.07 Additional Workers' Compensation Requirements

A. Workers' compensation insurance coverage must meet the statutory requirements of Tex. Lab. Code § 401.011(44) and specific to construction projects for public entities as required by Tex. Lab. Code § 406.096.

1. The following definitions apply to this Insurance Exhibit:

a. Certificate of coverage ("certificate")- A copy of a certificate of insurance or a coverage agreement (DWC-81, DWC-82, DWC-83, or DWC-84), showing statutory workers' compensation insurance coverage for the person's or entity's employees providing services on a project, for the duration of the project.

b. Duration of the Project - includes the time from the beginning of the work on the project until the Contractor's/person's work on the Project has been completed and accepted by the Owner.

c. Persons providing services on the project ("subcontractor" in Tex. Lab. Code § 406.096) – includes all persons or entities performing all or part of the services or Work the Contractor has undertaken to perform on the project, regardless of whether that person contracted directly with the Contractor and regardless of whether that person has employees. This includes, without limitation, independent Contractors, subcontractors, leasing companies, motor carriers, owner-operators, employees of any such entity, or employees of any entity which furnishes persons to provide services on the project. "Services" include, without limitation, providing, hauling, or delivering equipment or materials, or providing labor, transportation, or other service related to a project. "Services" does not include activities unrelated to the Project.

2. The Contractor shall provide coverage, based on proper reporting of classification codes and payroll amounts and filing of any coverage agreements, which meets the statutory requirements of Texas Labor Code, Section 401.011(44) for all employees of the Contractor providing services on the project, for the duration of the project.

3. The Contractor must provide a certificate of coverage to the Owner prior to being awarded the Contract.

4. If the coverage period shown on the Contractor's current certificate of coverage ends during the duration of the Project, the Contractor must, prior to the end of the coverage period, file a new certificate of coverage with the Owner showing that coverage has been extended.

5. The Contractor shall retain all required certificates of coverage for the duration of the Project and for one year thereafter, except when the Contract requires a longer period in which case the Contractor shall retain such certificates for such required period.

6. The Contractor shall notify the Owner in writing by certified mail or personal delivery, within 10 days after the Contractor knew of any change that materially affects the provision of coverage of any person providing services on the project.

7. The Contractor shall post on each project site a notice, in the text, form and manner prescribed by the Texas Depart of Insurance Division of Workers' Compensation, informing all persons providing services on the project that they are required to be covered, and stating how a person may verify coverage and report lack of coverage.

8. The Contractor shall contractually require each person with whom it contracts to provide services on a Project, to:

   a. provide coverage, based on proper reporting of classification codes and payroll amounts and filing of any coverage agreements, which meets the statutory

requirements of Texas Labor Code, Section 401.011(44) for all of its employees providing services on the Project, for the duration of the Project;

b. provide to the Contractor, prior to that person beginning work on the Project, a certificate of coverage showing that coverage is being provided for all employees of the person providing services on the Project, for the duration of the Project;

c. provide the Contractor, prior to the end of the coverage period, a new certificate of coverage showing extension of coverage, if the coverage period shown on the current certificate of coverage ends during the duration of the Project;

d. obtain from each other person with whom it contracts, and provide to the Contractor:

   1) a certificate of coverage, prior to the other person beginning work on the Project; and

   2) a new certificate of coverage showing extension of coverage, prior to the end of the coverage period, if the coverage period shown on the current certificate of coverage ends during the duration of the Project;

e. retain all required certificates of coverage on file for the duration of the Project and for one year thereafter, except when the Contract requires a longer period in which case such certificates shall be retained for such required period;

f. notify the Owner in writing by certified mail or personal delivery, within 10 days after the person knew of any change that materially affects the provision of coverage of any person providing services on the Project; and

g. contractually require each person with whom it contracts, to perform as required by these paragraphs (a) - (g), with the certificates of coverage to be provided to the person for whom they are providing services.

9. By signing this Contract or providing or causing to be provided a certificate of coverage, the Contractor is representing to the Owner that all employees of the Contractor and any Subcontractor who will provide services on the Project will be covered by workers' compensation coverage for the duration of the Project, that the coverage will be based on proper reporting of classification codes and payroll amounts, and that all coverage agreements will be filed with the appropriate insurance carrier. Providing false or misleading information may subject the Contractor to administrative penalties, criminal penalties, civil penalties, or other civil actions.

10. The Contractor's failure to comply with any of these provisions is a breach of the Contract by the Contractor which entitles the Owner to declare the Contract void if the Contractor does not remedy the breach within ten days after receipt of notice of breach from the Owner.

EXHIBIT D–AUDIT AND EXAMINATION OF RECORDS

This Exhibit D is part of and incorporated into the Agreement to which this Exhibit is attached, by and between the City of Georgetown ("Owner") and the CMAR. All capitalized terms used but not defined herein have the definitions given to them in the Agreement and references to capitalized terms Contractor or CMAR shall have the same meaning.

ARTICLE 1—OWNER'S RIGHT OF AUDIT AND EXAMINATION OF RECORDS

1.01 Right to Audit

A. CMAR understands that acceptance of funds under this Contract acts as acceptance of the authority of the State Auditor's Office, Owner, any successor agency and their representatives, including independent auditors, to conduct an audit or investigation in connection with those funds. CMAR further agrees to cooperate fully with any party conducting the audit or investigation, including providing all records requested.

1.02 Record Retention

A. CMAR shall maintain and retain all records and supporting fiscal and any other documents relevant to showing that any payments under this Contract and funds were expended in accordance with the terms of this Contract, the requirements of Owner, and with the laws and regulations of the State of Texas including, but not limited to, requirements of the Comptroller of the State of Texas and the State Auditor. CMAR shall maintain all such documents and other records relating to this Contract and Owner's property for a period of four (4) years after the date of submission of a request for final payment or until a resolution of all billing questions, whichever is later.

1.03 Access and Cooperation

A. CMAR shall make all records available and subject to audit, scanning, and/or reproduction at reasonable times and upon reasonable notice by Owner, any outside representative engaged by Owner for the purpose of examining such records, or those referenced in Paragraph 1.01.A above. Owner and such persons may conduct such audits or inspections throughout the term of the Contract and for a period of four years after final payment or longer if required by law. Owner and its representatives may (without limitation) conduct verifications such as counting employees at the Site, witnessing the distribution of payroll, verifying information and amounts through interviews and written confirmations with CMAR employees, field and agency labor, vendors, and Subcontractors and their employees. Owner and its representatives shall have reasonable access to the CMAR's facilities, shall be allowed to interview all current or former employees of CMAR and Subcontractors to discuss matters pertinent to the performance of the Contract and shall be provided adequate and appropriate work space, to conduct audits in compliance with this Exhibit.

1.04 Subcontract Audit Provisions

A. CMAR shall ensure that the same provisions of the Contract concerning the authority to audit funds received indirectly by Subcontractors and Suppliers of any tier through the CMAR and the requirement to cooperate are included in all subcontracts for Subcontractors and Suppliers of any tier.

1.05 Liability for Audit

A. If an audit inspection or examination conducted pursuant to this Exhibit, discloses overpricing or overcharges to the Owner (of any nature) by the CMAR and/or Subcontractors of more than $100,000, collectively, CMAR shall reimburse to Owner the reasonable cost of the Owner's audit. Any adjustments and/or payments which must be made as a result of any such audit or inspection of the CMAR's invoices and/or records shall be made within a reasonable amount of time (not to exceed 90 days) from presentation of Owner's findings to CMAR.

1.06 CMAR's Records

A. CMAR's "records" as referred to in this Exhibit shall include any and all information, materials and data of every kind and character, including without limitation, records, books, papers, documents, subscriptions, recordings, agreements, purchase orders, leases, contracts, commitments, arrangements, notes, daily diaries, e-mails, superintendent reports, drawings, receipts, vouchers and memoranda, RFID data, GPS tracking data, and any and all other agreements, sources of information and matters that may in Owner's judgment have any bearing on or pertain to any matters, rights, duties or obligations under or covered by any Contract Document. Such records shall include written policies and procedures; time sheets; payroll registers; payroll records; cancelled payroll checks; subcontract files (including proposals of successful and unsuccessful bidders, bid recaps, negotiation notes, etc.); original bid estimates; estimating work sheets; correspondence; Change Order files (including documentation covering negotiated settlements); back charge logs and supporting documentation; invoices and related payment documentation; general ledger, information detailing cash and trade discounts earned, insurance rebates and dividends; and any other CMAR records that may have a bearing on matters of interest to the Owner in connection with the CMAR Services, the Work, and/or CMAR's dealings with the Owner (all foregoing hereinafter referred to as "records") to the extent necessary to adequately permit evaluation and verification of any or all of the following: compliance with requirements for deliverables; compliance with approved Drawings and Specifications; compliance with Owner's business ethics expectations; compliance with Contract provisions regarding the pricing of Change Orders and selection of Subcontractors; accuracy of CMAR's representations regarding the pricing of invoices and Applications for Payment; accuracy of CMAR's representations related to Claims submitted by CMAR or any Subcontractor or subconsultant; and all payments made by CMAR and the nature and extent of the services provided by CMAR in connection with the Contract.

EXHIBIT G–FORMS OF BONDS

This Exhibit G is part of and incorporated into the Agreement to which this Exhibit is attached, by and between the City of Georgetown ("Owner") and the CMAR. All capitalized terms used but not defined herein have the definitions given to them in the Agreement and references to capitalized terms Contractor or CMAR shall have the same meaning.

The forms of Bonds specified in the Contract are set forth below in this Exhibit G.

FORM OF SECURITY BOND

Surety Bond No. _____ **§**

STATE OF TEXAS **§**

COUNTY OF WILLIAMSON **§**

KNOW ALL MEN BY THESE PRESENTS:

That we, _____, as Principal, and _____, as Surety, are hereby held and firmly bound unto the City of Georgetown, Texas, as Obligee, and its successors and assigns, in the Penal Sum of _____ _____ and __/100 Dollars ($_____), for the Project defined herein below, for payment whereof the said Principal and Surety bind themselves, their heirs, executors, administrators, and successors, jointly and severally, firmly by these presents.

THE CONDITIONS OF THIS OBLIGATION ARE SUCH THAT:

WHEREAS, in connection with the Northlands Water Reclamation Facility construction project ("Project"), the Principal has entered into a Construction Manager at Risk (CMAR) Agreement ("Contract"), which is incorporated herein by reference as if fully set forth herein including all definitions, under the terms of which said Principal is obligated to provide certain CMAR Services for the compensation established in the Contract, and is required to enter into one or more Work Authorizations, establishing one or more Guaranteed Maximum Prices (GMPs) for the construction of the Project, the total of which shall result in a total GMP for the entirety of the Project; and

WHEREAS, Texas Government Code Section 2269.258 requires that the Principal, either, upon entering into the Contract, deliver to Obligee, not later than the tenth (10th) day after the date of Contract execution, performance and payment bonds in an amount equal to the Obligee's construction budget, as specified in the Request for Proposals, or furnish other financial security acceptable to Obligee to ensure that the Principal will furnish the required performance and payment bonds when a GMP for the Project is established; and

WHEREAS, the Obligee has agreed to accept other financial security ensuring that the Principal will furnish the required performance and payment bonds when a GMP is established in the form of this Security Bond (this "Security Bond"); and

WHEREAS, under the Contract, upon entering into a Work Authorization, Principal is obligated to deliver to the Obligee payment and performance bonds for each Work Authorization in the amount of the GMP for such Work Authorization, or to revise the previously provided payment performance bonds to reflect the cumulative value of all executed Work Authorizations.

NOW THEREFORE, the condition of this obligation is such that, if Principal shall, as applicable, in accordance with the Contract:

(i) Perform the CMAR Services as required in the Contract and execute Work Authorization(s) upon Obligee's acceptance of any such Work Authorization(s), for construction of the Project; and

(ii) Upon Obligee's acceptance of any such Work Authorization(s), either

a. Deliver to the Obligee payment and performance bonds for such Work Authorization(s) with a penal sum in the amount of the GMP(s) for such Work Authorization(s); or

b. Revise previously provided payment and performance bonds to reflect the cumulative value of all executed Work Authorizations for a designated portion of the Work, such that payment and performance bonds for such portion of the Work always have a penal sum in the amount of the cumulative value of the applicable, total GMP for that portion of the Work until every Work Authorization has been executed for the Project, an overall GMP has been established for the entirety of Work, and Obligee is in receipt of payment and performance bonds having a penal sum in the cumulative value of the GMP for the entirety of the Work or a specified portion thereof; or

(iii) if the Principal fails to deliver to Obligee the foregoing executed Work Authorizations and payment and performance bonds in the time periods specified herein, Principal shall subsequently cure such failure within ten (10) days of Obligee's written notice of such default to the Principal and Surety, then, this obligation shall be null and void, otherwise to remain in full force and effect.

This Security Bond, with any penal sum adjustment as provided above, shall remain in effect until all Work Authorizations have been executed for the entirety of the Project, and payment and performance bonds have been delivered to the Obligee covering all Work for the Project, as required by the Contract, and all of the conditions stated herein have been fulfilled. Principal's failure to perform the conditions of this Security Bond in a timely manner shall entitle Obligee to immediate payment of the difference between the cost to complete the CMAR Services and the Work required to be performed under the Contract, including the costs Obligee legally incurs in accordance with applicable public procurement laws to reselect a CMAR, and including but not limited to the difference in the amount of Principal's CMAR Fee and Construction Support Costs and the new CMAR's Fee and Construction Support Costs, less the balance of amounts owed under the Contract, up to and not to exceed the then current penal sum of this Bond (as reduced by any adjustment) upon presentation of Obligee's written demand therefor.

FORM OF PERFORMANCE BOND

TEXAS STATUTORY PERFORMANCE BOND

Bond No. _____ §

STATE OF TEXAS §

COUNTY OF WILLIAMSON §

KNOW ALL MEN BY THESE PRESENTS:

THAT, _____ , as principal (hereinafter, the Principal), and _____ _____, a corporation organized and existing under the laws of the State of Texas, licensed to do business in the State of Texas and admitted to write bonds, as surety (hereinafter, the Surety), are held and firmly bound unto the City of Georgetown, Texas, as obligee (hereinafter, the Obligee), in the penal sum of _____Dollars ($_____.____) for the payment whereof, the said Principal and Surety bind themselves, and their heirs, administrators, executors, successors, and assigns, jointly and severally, firmly by these presents.

WHEREAS, the Principal has entered into a certain contract with the Obligee, dated the _____ day of _____, 20___ for Construction Manager at Risk services and work to construct the Northlands Water Reclamation Facility, which contract is hereinafter referred to as the "Contract."

NOW, THEREFORE, THE CONDITION OF THIS OBLIGATION IS SUCH, that if the said Principal shall faithfully perform the work required by the Contract and shall, in all respects, duly and faithfully observe and perform all and singular the covenants, conditions and agreements in and by said Contract, agreed and covenanted by the Principal to be observed and performed, including but not limited to, the repair of any and all defects in said work occasioned by and resulting from defects in materials furnished by or workmanship of, the Principal in performing the work covered by said Contract and occurring within a period of twelve (12) months from the date of Final Completion and all other covenants and conditions, according to the true intent and meaning of said Contract and the Drawings and Specifications hereto annexed, then this obligation shall be void; otherwise to remain in full force and effect;

PROVIDED, HOWEVER, that this bond is executed pursuant to the provisions of Chapter 2253 of the Texas Government Code and all liabilities on this bond shall be determined in accordance with the provision, conditions and limitations of said Chapter to the same extent as if it were copied at length herein.

PROVIDED FURTHER, that the penal sum of this bond shall automatically be increased by the amount of any change order or supplemental agreement which increases the Contract price, but in no event shall a change order or supplemental agreement which reduces the Contract price decrease the penal sum of this bond.

PROVIDED FURTHER, that said Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Contract or to the work performed thereunder, or the plans, specifications, drawings, etc. accompanying same shall in any way affect its

obligation on this bond; and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Contract or to the work to be performed hereunder.

IN WITNESS WHEREOF, the said Principal and Surety have signed and sealed this instrument this _____ day of _____, 20___.

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
Construction Manager at Risk Contract to Sundt Construction, Inc. - Three Forks Water Reclamation Facility

SUGGESTED ACTION:
Forwarded from the Georgetown Water Utility Advisory Board (GWUAB):
Consideration and possible action to award and approve a Construction Manager at Risk (CMAR) Agreement with Sundt Construction, Inc. of Tempe, AZ for pre-construction services in the amount of $2,268,426.00 -- Wesley Wright P.E., Systems Engineering Director, and David Herzog, CIP Manager

ITEM SUMMARY:
In late 2024, the City issued a Request for Qualifications for design services for the future Three Forks WRF and selected CDM Smith. Over the past 18 months, CDM Smith has worked through Preliminary Engineering, project scoping, and is approaching 60% design. During the project's preliminary phases, the project delivery method was discussed extensively with staff and management. Given the complexity of the project, the size of the project budget, and the importance of schedule, the decision was made to consider the Construction Manager at Risk (CMAR) project delivery method.

CMAR is a collaborative project delivery process that differs from traditional low bid in several ways. First, a contractor is selected during design and is integral to the decision-making process in virtually all aspects of the project. The contractor is selected through a qualifications-based process. Price is included and considered in the evaluation but is only one factor in the selection process. A firm's experience, key staff resumes, approach to design and cost management, as well as safety and quality assurance programs are all considered. Beyond Preconstruction Services which is currently being considered, through subsequent future agreements, the CMAR will serve as the General Contractor through bidding and ultimately be responsible for the successful completion of construction.

The Three Forks WRF Request for Proposals process resulted in six (6) submittals. Ultimately, after a review, ranking, and interview process, Sundt was selected as the highest ranked proposer. Many firms were clearly capable of partnering with the City on this project, but Sundt's experience on multiple similar plants in the state, many with similar MBR technology, combined with their key personnel local presence and experience and attention to detail stood out. Additionally, Sundt has successfully completed four other similar utility facility projects with first time CMAR clients.
Please see attached presentation for additional details and project schedule.

Staff Recommendation:
Staff recommends award for Preconstruction Services for the Three Forks WRF to Sundt.

Board Recommendation:

This item was unanimously approved at the July 9, 2026, Georgetown Water Utility Advisory Board meeting for recommendation for Council approval.

FINANCIAL IMPACT:
Funds are available in the current FY26 Wastewater CIP Budget and has been included in both the current impact fees as well as monthly water rate calculations.

What is CMAR?

City hires a Construction Manager (CM) during design, before construction to provide:

- Material, Equipment Selection Support
- Cost Estimating
- Constructability Reviews
- Scheduling
- Value Engineering
- Risk Management

Later serves as the General Contractor (GC) once a Guaranteed Maximum Price (GMP) is established

Why CMAR?

- Improved budget control
- Better cost estimating through design
- Full cost transparency
- Reduced change orders
- Constructability incorporated into design
- Value engineering opportunities
- Early risk identification/mitigation/allocation
- Faster project delivery
- Far Greater Contractor Interest vs Straight Bid

CMAR Process

- City hires design firm (Request for Qualifications – 2025)
- Design begins (30-60%)
- CMAR Request for Proposals/Interviews/Award
- CMAR Provides Preconstruction Services
- Design continues
- CMAR Provides Guaranteed Maximum Price(s) (GMP)
- City Accepts GMP and Contracts for Work
- CMAR Completes Construction

CMAR Process

- Authorized by Texas Government Code Ch. 2269
- Qualifications based process – best value, not lowest bid
- Request for Proposals Process in March/April
  - Firm Experience (20)
  - Costing Methodology/Project Approach (35)
  - Key Personnel (25)
  - Safety Record/QA-QC (10)
  - Cost (10)
  - Interview (25)

AGREEMENT BETWEEN OWNER AND CONSTRUCTION MANAGER AT RISK

This Agreement is entered into and effective this __ day of _____, 2026, by and between **City of Georgetown, Texas** ("Owner") and **Sundt Construction, Inc.** ("Construction Manager at Risk" or "CMAR").

Terms used in this Agreement have the meanings stated herein and in the General Conditions and the Supplementary Conditions.

Owner and CMAR hereby agree as follows:

ARTICLE 1 — THE PROJECT

1.01 The Project , of which the CMAR Services and the Work under the Contract Documents are a part, is generally described as follows:

Three Forks Water Reclamation Facility Project
[Project Number]

1.02 CMAR acknowledges this Contract was awarded at or around the same time, and will be performed generally concurrently with, the contract for the project for Owner's Northlands water reclamation facility project [#NUMBER]. If CMAR is awarded such project or becomes the construction manager for such project, CMAR is prohibited from using the same project team and/or Key Personnel on both projects, which is a material breach of this Contract, provided that Owner may provide written consent in its sole discretion for approval of an individual to provide discrete or other tasks on both projects as Owner may determine. This paragraph does not prohibit CMAR from using the same Subcontractors on both projects nor from CMAR performing subcontracting services on the other project.

ARTICLE 2 — ENGINEER; OWNER'S PROJECT TEAM; CMAR PERSONNEL; RELATIONSHIP OF PARTIES

2.01 Intentionally deleted.

2.02 The Owner has retained **[ENGINEER]** (Engineer) to design the Project, to assume all duties and responsibilities of Engineer during the construction of the Project, assume those duties and responsibilities of advisor to Owner and construction contract administrator on behalf of Owner as specified in the Contract Documents, and to have the rights and authority assigned to Engineer in the CMAR Contract.

2.03 The key members of the CMAR's staff for the Services and the Work shall be persons agreed upon with Owner and identified in Exhibit E ("Key Personnel"). CMAR Key Personnel shall be reasonably satisfactory to the Owner. CMAR Key Personnel shall not be changed without the written consent of the Owner (not to be unreasonably withheld, delayed or conditioned), unless the person becomes unable to perform any such duties due to death, disability or termination of employment with CMAR. Owner may reject any proposed individual or subcontractor in its sole discretion. CMAR shall furnish only skilled, properly trained, and appropriately licensed staff to perform the

Work. Owner shall have the right to require CMAR to dismiss from the Project any employee of CMAR whose performance is not reasonably satisfactory to Owner.

2.04 CMAR agrees to work closely with the Owner and the Engineer and accepts the relationship of trust and confidence established with Owner by this Agreement, including as set forth in Paragraph 3.08. Except as expressly authorized by this Agreement, CMAR has no right or authority of any kind to act as the representative of or on behalf of the Owner. CMAR is an independent contractor and not an agent of Owner.

ARTICLE 3 — CMAR SERVICES

3.01 Scope of CMAR Services

A. CMAR will perform the CMAR Services set forth in Exhibit A, Scope of CMAR Services, as authorized, and other specified CMAR Services as expressly set forth in a Contract Amendment. Services rendered by CMAR to meet its general construction and management obligations are not CMAR Services, and are not compensated as CMAR Services, unless expressly designated as such.

B. CMAR Services are categorized in Exhibit A as Basic Preconstruction Services; Additional Preconstruction Services; Basic Procurement Services; Additional Procurement Services; and Special Services.

C. In Exhibit A and in scope of CMAR Services provisions in Contract Amendments, imperative sentences with respect to the performance of services are directives to CMAR, unless expressly indicated otherwise.

3.02 Basic Services, Additional Services, and Special Services

A. Basic Services are CMAR Services (categorized as Preconstruction or Procurement) that are identified as Basic Services in Exhibit A.

B. In addition to Basic Services, CMAR shall provide specific Additional Preconstruction Services and Additional Procurement Services if Owner authorizes CMAR in writing to do so. Owner will authorize the specified Additional Services in a Contract Amendment. The Contract Amendment will describe the tasks to be performed, the compensation to be paid, the time for performance, the deliverables to be provided, and other applicable terms, if any. If a specific Additional Service has been priced during the CMAR selection process, such price will be binding on CMAR and Owner unless modified by mutual agreement.

C. The hourly billing rates provided for Basic Services and Additional Preconstruction Services and Additional Procurement Services proposed in CMAR's Proposal are binding on CMAR and Owner, and are reflected in Exhibit A-1, CMAR Services Hourly Billing Rates. Such rates shall only be modified by mutual agreement

3.03 Authorization to Provide CMAR Services

A. CMAR is authorized by the execution of this Agreement to begin providing Basic Preconstruction Services set forth in Article 1 in Exhibit A, Scope of CMAR Services, as of the Effective Date of the Contract.

B. CMAR shall provide Basic Procurement Services set forth in Article 3 in Exhibit A, Scope of CMAR Services, upon receipt of notice to commence such services from Owner, and a Contract Amendment establishing the scope and compensation for Procurement Services.

C. All other CMAR Services, including Additional Preconstruction Services, Additional Procurement Services, and Special Services, if any, must be authorized by Owner in writing before services begin.

3.04 Compensation for Basic CMAR Services

A. Basic Preconstruction Services—Owner will compensate CMAR for Basic Preconstruction Services, provided per Article 1, Exhibit A—Scope of Work for CMAR Services, the lump sum (stipulated price) for the Price for CMAR Basic Preconstruction Services shown in Exhibit B Table 2.

B. The compensation amount for Basic Procurement Services will be determined in a Contract Amendment for Procurement Services based on the Billing Rates shown in Exhibit B—Table 2, Compensation for CMAR Services. The scope and compensation for these services will be based on the Procurement Strategy Plan developed in accordance with Exhibit A—Scope of Work for CMAR Services, Paragraph 1.13.

3.05 Compensation for Additional CMAR Services

A. For Additional Preconstruction Services and Additional Procurement Services, Owner will compensate CMAR for each hour earned at the Billing Rates shown in Exhibit B—Table 2, Compensation for CMAR Services.

3.06 Compensation for Special Services

A. Owner will compensate CMAR for Special Services pursuant to the specific compensation terms in the Contract Amendment establishing and authorizing such Special Services.

3.07 Payment for CMAR Services

A. Preparation and Submittal of Invoices

1. CMAR will prepare and submit invoices for CMAR Services to Owner on a monthly basis in a format and in accordance with the procedures designated by Owner.

2. CMAR may not submit invoices and is not entitled to compensation for Additional Services or Special Services unless Owner has authorized such services through execution of a Contract Amendment.

3. As a condition prior to any payments under 3.07.B below being due, CMAR will provide (i) documentation acceptable to the Owner to allow Owner to verify CMAR's charges included in invoices, and (ii) only to the extent an invoice includes a CMAR Service that would entitle CMAR or any Person to a lien or bond claim, the documentation, statements, and information in Paragraph 15.02.B.1.a to 15.02.B.1.e of the General Conditions and required to accompany Applications for Payment for progress payments for Cost of Work completed, provided that for any invoice CMAR submits for CMAR Services without the documentation specified in (ii) CMAR represents and warrants to Owner that none of CMAR and any other Person are entitled to a lien or bond claim for any such CMAR Services.

B. Payments

1. For CMAR Services that are compensated on a Lump Sum (stipulated price) basis:

a. The Lump Sum amount includes compensation for CMAR's services, and services of CMAR Subconsultants that are part of CMAR Services, if any. Appropriate

amounts are to be incorporated in the Lump Sum to account for labor costs, overhead, profit, expenses, and other cost.

b. The amount invoiced each billing period will be based on the CMAR's estimate of the percentage of the total CMAR Services completed during the billing period.

c. The compensation paid to CMAR for Basic Services will not exceed the Lump Sum amount unless duly authorized by a Contract Amendment.

2. For CMAR Services that are compensated using Hourly Billing Rate basis:

a. Owner shall pay CMAR an amount equal to the cumulative hours charged to the Project by CMAR's personnel times Hourly Billing Rates for each applicable Classification.

b. Hourly Billing Rates include all of the following—salaries and wages paid to personnel in each billing classification; the cost of customary and statutory benefits; general and administrative overhead; non-project operating costs; and operating margin or profit.

c. Hourly Billing Rates are to include all expenses related to providing CMAR Services including the following categories:

1) Transportation and subsistence;

2) Technology charges and data charges associated with the use of computers and tablets;

3) Printing and reproduction of documents;

4) Health and safety related equipment and training; and

5) Special equipment used for CMAR Services.

3. The amounts paid to CMAR under this Article are deemed to include full compensation for CMAR's overhead and profit associated with such labor and expenses.

C. Time of Payment

1. Owner will make payments for CMAR Services in compliance with Chapter 2251 of the Texas Government Code.

2. Owner will comply with Section 2251.042 of the Texas Government Code with regard to disputed payments.

D. Compensation for CMAR Services discussed in Article 3 is not compensation for the Work and shall not be included in the GMP. Retainage will be withheld from payments of CMAR Services only to the extent required under any Law or Regulation, including, without limitation, the Texas Property Code and Texas Government Code, or to the extent CMAR or any of its Subconsultants, Subcontractors, or Suppliers may be entitled to a lien or bond claim under any applicable Law or Regulation. For any invoice for CMAR Services that CMAR submits without the documentation set forth in Paragraph 3.07.A.3(ii) above, CMAR makes the same representation to Owner to induce Owner not to withhold any retainage. Additionally, such payments are subject to the set-off provisions in General Conditions Article 15.

ARTICLE 4 — COMPENSATION FOR PERFORMANCE AND COMPLETION OF THE WORK

4.01 Owner shall compensate CMAR for performance and completion of the Work in accordance with the Contract Documents. Payment for Work will consist of the following:

A. Payment for Construction Support Costs in accordance with Article 5, and as set forth in Exhibit B Table 1 lines 2-4;

B. Payment for Cost of the Work as provided in Article 6; and

C. Payment of a CMAR Fee as set forth in Article 7 and in Exhibit B Table 1.

4.02 This Agreement establishes a CMAR Contingency allowance for use in paying for unforeseen costs as set forth in Article 8.

4.03 The amounts for CMAR's compensation summarized in Paragraph 4.01 are subject to additions and deletions as provided in the Contract, up to limitations established in the Guaranteed Maximum Price (GMP) as provided in Article 11.

ARTICLE 5 — CONSTRUCTION SUPPORT COSTS

5.01 Construction Support Costs

A. Construction Support Costs (field overhead or "general conditions" costs) are those costs associated with and in support of construction that are not directly related to specific construction activities. Construction Support Costs are subject to audit under Article 14, are not compensable as Cost of the Work, and must not be included by CMAR in proposed Work Authorizations submitted to the Owner for approval and issuance. Construction Support Costs include without limitation:

1. CMAR project management costs, including project managers, superintendents, field engineering staff, and clerical support, in each case located at the Site;

2. Management of Subcontractors and Suppliers;

3. Management of delegated professional design services by CMAR's subcontractors, if any;

4. Costs associated with safety programs, including safety managers and safety representatives;

5. Quality management not specifically designated to be covered in a Work Authorization;

6. Costs associated with obtaining permits, or paying patent fees or royalties, if not specifically designated to be covered in a Work Authorization;

7. Costs for permit inspections, and other inspections required by Laws and Regulations not specifically designated to be covered in a Work Authorization;

8. Compliance with Laws and Regulations;

9. Taxes, other than those specifically designated to be covered in a Work Authorization, provided that, notwithstanding the foregoing, because Owner is a municipality in the State of Texas, materials and services utilized in the construction of the Project may be exempted from state and local taxes and CMAR is responsible for taking full advantage

of all tax exemptions applicable to the Project, which are not reimbursable Construction Support Costs and will be deducted from any Applications for Payment to the extent paid.

10. Contract administration costs, including costs for:
    a. Meetings, reporting, notifications, and other communications and coordination,
    b. Document management,
    c. Submittals, record data, and other documentation,
    d. Creating and maintaining Project schedules per Article 4 of the General Conditions,
    e. Changes to the CMAR Contract per Article 11 of the General Conditions,
    f. Applications for Payment per Article 15 of the General Conditions,
    g. Maintenance of Record Documents, and
    h. Other contract administration costs included in the Contract Documents;
11. Performance, payment, and warranty bonds, if any, provided to cover the construction of the entire Project;
12. General insurance costs, excluding Builder's Risk or other coverage that applies specifically to Work and specifically designated to be covered in a Work Authorization, and Worker's Compensation Insurance which is to be included in payroll cost per Paragraph 6.02.A.1;
13. Costs associated with CMAR temporary facilities, including utilities, and temporary infrastructure at the Site;
14. The cost of purchasing, renting, or furnishing office supplies, small tools and hand tools. These are defined as any tool or equipment whose current price, if purchased new at retail would be less than $500 **[or insert other threshold price]**;
15. Costs for Site maintenance, storage of materials, waste disposal, environmental controls, management of water, protection of Site and adjacent property, cleaning during construction and final cleaning;
16. Costs associated with startup and commissioning of the Work, including training of Owner's personnel, temporary operation of facilities by the CMAR; and performance acceptance testing, (including but not limited to Functional Demonstration Tests and Site Acceptance Tests) at the Project Site, if any;
17. Costs associated with substantial completion, partial utilization, and final completion; and
18. Costs associated with general warranty, guarantees and correction of defective work during the Correction Period.

B. The organization of the Work into Work Packages will not result in changes to the CMAR's compensation for Construction Support Costs.

C. CMAR represents that all administrative and supervisory personnel costs, direct overhead, and other onsite costs and expenses that are expected to be incurred by the CMAR in the performance of its administrative, supervisory, and management responsibilities under the

Contract are described or itemized in Exhibit B attached hereto and incorporated herein for all purposes.

5.02 Fixed Construction Support Costs

A. Fixed Construction Support Costs are those costs which are not time sensitive and will not increase if the performance of the Work extends beyond the Construction Period designated for Substantial Completion of the Work described in Article 13. The amount for Fixed Construction Support Cost is shown in Exhibit B, Table 3–Basis of Compensation for Fixed Construction Support Costs.

5.03 Time-Sensitive Construction Support Costs

A. Time-Sensitive Construction Support Costs are those costs which will increase if the performance of the Work extends beyond the Construction Period designated for Substantial Completion described in Article 13. The amount for Time-Sensitive Construction Support Costs based on the Construction Period is shown in Exhibit B, Table 4–Basis of Compensation for Time-Sensitive Construction Support Costs.

B. The Construction Support Costs Extended Rate is determined by dividing the Time-Sensitive Construction Support Costs by the projected number of days in the Construction Period. CMAR will be entitled to additional compensation for Time-Sensitive Construction Support Costs at the Construction Support Extended Rate shown in Exhibit B, Table 4–Basis of Compensation for Time-Sensitive Construction Support Cost if the extended time is associated with a compensable delay under the provisions of the General Conditions.

5.04 Changes in Construction Support Costs

A. Owner and CMAR acknowledge that the Construction Support Costs stipulated amounts set forth in this Agreement's Exhibit B, Table 1, lines 2, 3, and 4 (Construction Support Costs Contract Amounts) and the Construction Support Costs Extended Rate (determined as set forth in Paragraph 5.03.B) are the costs intended to liquidate and stipulate CMAR's compensation for Construction Support Costs, encourage efficiency and cost control, and reduce Owner's and CMAR's administrative and accounting effort. The Construction Support Costs Contract Amounts and the Construction Support Costs Extended Rate will not be increased.

5.05 Compensation for Construction Support Costs

A. Payments for Fixed Construction Support Costs will be made in equal monthly increments determined by dividing the Fixed Construction Support Costs Contract Amount by the projected number of months in the Construction Period. No payment will be made for Fixed Construction Support Costs in excess of the Fixed Construction Support Costs Contract Amount unless this Amount is adjusted in accordance with provisions in Paragraph 5.04.

B. Payments for Time-Sensitive Construction Support Costs will be made in equal monthly increments determined by dividing the Time-Sensitive Construction Support Costs Contract Amount by the projected number of months in the Construction Period. No payment will be made for Time-Sensitive Construction Support Costs in excess of the Time-Sensitive Construction Support Contract Amount unless this Amount is adjusted in accordance with provisions in Paragraph 5.04.

C. Payments will be made for Time-Sensitive Construction Support Costs associated with compensable delays under the provisions of the General Conditions at the Construction Support Costs Extended Rate as described in Paragraph 5.03.B.

ARTICLE 6 — COST OF THE WORK

6.01 Purposes for Determination of Cost of the Work

A. The term Cost of the Work is defined in the General Conditions, Article 1, as the sum of eligible costs incurred by CMAR for the performance of the Work or a Work Package, as applicable, as allowed by the Cost of the Work provisions set forth in the Agreement; such provisions are set forth in this Article 6. Cost of the Work is determined for each Work Authorization, subject to any limits described in this Article. The provisions of this Article are used for two distinct purposes:

1. To determine Cost of the Work for purposes of CMAR's base compensation for construction under this Contract; or

2. When needed to determine the value of a Change Proposal, Change Order, Claim, set-off, or other adjustment to the Guaranteed Maximum Price. When the value of any such adjustment is determined based on Cost of the Work, CMAR is entitled only to those additional or incremental costs required because of the change in the Work or because of the event giving rise to the adjustment.

B. For purposes of determining CMAR's base compensation, Cost of the Work applies only to Work that has been duly authorized in a Work Authorization.

C. The Cost of the Work will include only those items identified in Paragraph 6.02.

6.02 Cost of the Work

A. Payroll Cost—If approved in advance by Owner in writing, payroll costs for employees in the direct employ of CMAR performing Work described in Work Authorizations, and excluding those efforts covered in Construction Support costs per Paragraph 5.01. Payroll costs will be based on actual amounts paid as indicated on Certified Payroll reports. Payroll costs are to include salaries and wages plus the cost of fringe benefits, which include social security contributions, unemployment, excise, and payroll taxes, workers' compensation insurance, health and retirement benefits, sick leave, and vacation and holiday pay applicable thereto. The expenses of performing Work outside of regular working hours, on Saturdays, Sundays, or legal holidays, will be included in the above to the extent authorized by Owner. Payroll costs do not include bonuses, profit sharing, incentive compensation, and any other discretionary payment.

B. Incorporated Equipment and Material Cost—Cost of all materials and equipment furnished or incorporated in the Work, including costs for transportation and storage prior to delivery to the Site. Cost for proper storage at the Site is to be included in Construction Support Cost per Paragraph 5.01. Cost for equipment is to include Suppliers' services for submittals, factory and field testing and inspections (including Factory Witness Tests, Functional Demonstration Tests and Site Acceptance Tests), installation checks, start-up assistance, and training, if any. Cash discounts obtained on payments made by the CMAR shall accrue to the Owner if (1) before making the payment, the CMAR included the amount to be paid, less such discount, in an Application for Payment and received payment from the Owner, or (2)

the Owner has deposited funds with the CMAR with which to make payments; otherwise, cash discounts will accrue to the CMAR. All trade discounts, rebates, and refunds and returns from sale of surplus materials and equipment will accrue to Owner, and CMAR shall make provisions so that they may be obtained. Amounts that accrue to the Owner in accordance with the provisions of this paragraph shall be credited to the Owner as a deduction from the Cost of the Work.

C. Consumable Equipment and Material Cost—Cost, including transportation and maintenance, of all materials, supplies, equipment, tools, and machinery at the Site, which are consumed in the performance of the Work, less market value of such items used but not consumed which remain the property of CMAR. In establishing costs for materials such as scaffolding, plating, or sheeting, consideration will be given to the actual or estimated life of the material for use on other projects; or rental rates may be established on the basis of purchase or salvage value of such items, whichever is less. CMAR will not be eligible for compensation for such items in an amount that exceeds the purchase cost of such items.

D. Subcontractor Cost–Payments made by CMAR to Subcontractors for Work performed by Subcontractors. CMAR shall obtain competitive bids from subcontractors acceptable to Owner and CMAR and shall deliver such bids to Owner, which will then determine, which bids, if any, will be acceptable. If any subcontract provides that the Subcontractor is to be paid on the basis of Cost of the Work plus a fee, the Subcontractor's Cost of the Work and fee will be determined in the same manner as CMAR's Cost of the Work and fee as provided in this Article 6.

E. Construction Equipment Cost—Cost of providing construction equipment and machinery to construct the Work described in the Work Authorization.

1. Include all the costs for transporting, loading, unloading, assembly, dismantling, and removal of the equipment and machinery with Consumable Equipment and Material Cost per Paragraph 6.02.C.

2. Construction equipment and machinery cost will be billed at rates approved by the Owner as part of each Work Authorization.

   a. All operating costs will include costs for fuel, maintenance, parts, and associated labor. Billing rates for equipment fueling and maintenance do not include payroll costs for equipment operators, which will be included in Payroll cost per Paragraph 6.02.A.

   b. Costs for equipment and machinery cannot exceed the rates shown in the "Rental Rates and Specifications" published by the Associated Equipment Distributors (AED), but no higher than 75% of the prevailing competitive rates for rental of similar equipment in the Project vicinity. An hourly rate will be computed by dividing the monthly rates by 176. These rates will include all operating costs per Paragraph 6.02.E.2.a.

   c. Payment for rented equipment will be in accordance with rental agreements as to price, including any surcharge or special rates applicable to overtime use of the construction equipment or machinery, and all such costs will be in accordance with the terms of said rental agreements. The rental of any such equipment, machinery, or parts must cease when the use thereof is no longer necessary for the Work.

   d. Intentionally deleted.

e. Equipment used for Site maintenance is to be included in Construction Support Costs. Equipment used for multiple Work Authorizations must be billed on the basis of time worked on each Work Authorization.

f. CMAR shall use commercially reasonable efforts to return rented equipment to rental company when the equipment is not being used.

3. With respect to Work that is the result of a Change Order, Change Proposal, Claim, set-off, or other adjustment in Guaranteed Maximum Price (changed Work), included costs will be based on the time the equipment or machinery is in use on the changed Work and the costs of transportation, loading, unloading, assembly, dismantling, and removal when directly attributable to the changed Work. The cost of any such equipment or machinery, or parts thereof, must cease to accrue when the use thereof is no longer necessary for the changed Work.

F. Supplemental Costs which consist of the following:

1. The proportion of necessary transportation, travel, and subsistence expenses of CMAR's employees incurred in the discharge of duties connected with the Work Authorization.

2. Costs of special consultants including engineers, architects, testing laboratories, and surveyors, employed or retained for services specifically related to the Work Authorization and expressly excluding costs incurred by consultants performing CMAR Services or consultants performing services related to defective or nonconforming Work.

3. Except for taxes excluded under Paragraph 6.03 below, sales, consumer, use, and other similar taxes related to the Work, and for which CMAR is liable, as imposed by Laws and Regulations.

4. Deposits lost for causes other than the negligence or failure to perform of CMAR, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable.

5. Royalty payments and fees for permits, patents, and licenses directly related to a Work Authorization.

6. The cost of premiums for performance, payment, and warranty bonds obtained by CMAR as a requirement of a Work Authorization, in addition to the bonds purchased for the construction as a whole within the scope of Construction Support Costs per Paragraph 5.01.A.11. Final compensation for such premium costs will be based on reconciled costs at the conclusion of the Work.

7. If approved in writing before enrollment, cost for any Subcontractor bonds recommended by CMAR to protect Owner's and CMAR's interests in the event of a Subcontractor default associated with a Work Authorization. Final compensation for such premium costs will be based on reconciled costs at the conclusion of the Work, provided that bonds shall not be deemed required for Subcontractors enrolled in a subcontractor default insurance program described in Paragraph 6.02.F.9 below.

8. The cost of premiums for Builder's Risk insurance and other Work Authorization–specific insurance that CMAR is required by the Contract Documents to purchase and maintain, but not including costs of commercial general liability, automobile liability,

and contractor's pollution liability insurance which are covered as Construction Support Costs per Article 5. The compensation for worker's compensation is included as part of payroll costs per Paragraph 6.01.A.1. Final compensation for such premium costs will be based on reconciled costs at the conclusion of the Work.

9. If CMAR elects to utilize a subcontractor default insurance program (sometimes referred to as SUBGUARD) and Owner approves in writing, the maximum amount to be considered reimbursable costs under this contract will be 0.7% of the total amount of subcontracts actually enrolled in such an insurance program. Enrollment in any such program will be limited to subcontracts in excess of $100,000. Any CMAR costs incurred in connection with the CMAR's elected subcontractor default insurance program that exceeds the amount reimbursed by the Owner under the formula in this paragraph will be considered to be covered by the CMAR Fee.

10. If CMAR utilizes a Contractor Controlled Insurance Program (CCIP) the maximum amount to be considered reimbursable costs under this contract will be 0.7% of the total amount premium costs associated with such CCIP.

G. Notwithstanding the breakdown or categorization of any costs to be reimbursed in this Article 6 or elsewhere in the Contract Documents, there shall be no duplication of costs.

6.03 Specific Exclusions from Cost of the Work

A. The Cost of the Work expressly excludes the items in this Paragraph 6.03. This express itemization does not confer Cost of the Work or compensable status to otherwise ineligible items not listed here. Cost for any items not included in the Cost of the Work are to be included in the CMAR Fee unless specifically itemized at Construction Support Costs described in Article 5.

1. Payroll costs and other compensation of CMAR's officers, executives, principals, general managers, project managers, superintendents, safety managers, safety representatives, engineers, architects, estimators, attorneys, auditors, accountants, purchasing and contracting agents, expediters, timekeepers, clerks, and other personnel employed by CMAR, whether at the Site or in CMAR's principal or branch office for general administration of the Work. The payroll costs and other compensation excluded here are to be considered administrative costs covered by Construction Support Cost or the CMAR Fee.

2. Expenses of CMAR's principal and branch offices.

3. Any part of CMAR's capital expenses, including interest on CMAR's capital employed for the Work and charges against CMAR for delinquent payments.

4. Costs due to the negligence or fault or failure to perform a contractual obligation of CMAR, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable.

5. Cost for the correction of defective Work, disposal of materials or equipment wrongly supplied, and making good any damage to property.

6. Expenses incurred in preparing and advancing Claims.

7. Other overhead or general expense costs of any kind and the costs of any item not specifically and expressly included in Paragraph 6.02.

8. Costs recovered or reimbursed under other Construction Support Cost or Cost of the Work provisions.

9. Owner is a municipality and materials and services utilized in the construction of the Project may be exempted from state and local sales and use taxes pursuant to the provisions of Tex. Tax Code, Chapter 151. CMAR is responsible for taking full advantage of all tax exemptions applicable to the Project and such taxes are not reimbursable Costs of the Work. Owner will deduct from the Applications for Payment any taxes paid for materials or services that were entitled to tax exemption.

10. Any costs for self-insurance or insurance through a captive insurer owned or controlled by CMAR.

11. The cost of defending suits or claims for infringement of patent rights arising from requirements of the Contract Documents, payments made in accordance with legal judgments against CMAR resulting from such suits or claims, and payments of settlements made with the Owner's consent, if CMAR could have anticipated in the exercise of reasonable investigation that the required design, process or product was an infringement of a copyright or a patent, and failed to promptly furnish such information to the Engineer. The costs of legal defenses, judgments, and settlements, shall not be included in the Cost of the Work used to calculate CMAR's Fee or subject to the Guaranteed Maximum Price.

12. Costs and expenses arising from CMAR's indemnity obligations, including but not limited to, CMAR's costs and expenses in removing or defending against a mechanic's lien claim asserted against the Owner and/or its property, unless such mechanic's lien arises from Owner's wrongful failure to make timely payments for properly performed Work or Services or unless such lien arises from dispute for which CMAR is defending Owner's position.

13. Costs, including co-payments, not reimbursed by insurance, including but not limited to deductibles incurred by CMAR for losses covered under any insurance policy obtained for the Project. Deductible costs actually incurred for an All-Builders' Risk claim may be a Cost of the Work but shall not increase the GMP.

14. Penalties for the failure of the CMAR or a Subcontractor or another party for whom CMAR is responsible under the Contract to comply with applicable Laws and Regulations, unless the penalties are the result of the CMAR's compliance with the Contract Documents.

6.04 Compensation for the Cost of the Work

A. Compensation for the Cost of the Work is based on the amount earned for Work completed for each Work Authorization.

6.05 Savings

A. If upon completion of the Project or any Work Package, the actual Cost of the Work plus the CMAR's Fee is less than the GMP for the Project or such Work Package, as applicable, as set forth herein and as adjusted by Change Orders, the Savings (defined below) will belong to Owner. "Savings" means, with respect to the Project or a Work Package, as applicable, the GMP as adjusted by Change Orders, less (i) the Cost of the Work, (ii) the CMAR's Fee, and (iii)

used CMAR's Contingency. If this Agreement is terminated for any reason prior to Substantial Completion of the Work, all Savings shall be kept by the Owner.

6.06 Changes

A. Owner in its sole discretion may, pursuant to the procedures set forth in this Agreement and the General Conditions, authorize changes in the Work, issue additional instructions, require additional Work or direct the omission of Work previously ordered. CMAR will use commercially reasonable efforts to implement and perform such modifications without impacting the established schedule for performing and completing any Work. If it is not possible to avoid such an impact, CMAR will promptly notify Owner of the anticipated impact and obtain Owner's consent prior to implementing the applicable modification. Owner, in its sole discretion, may forego or delay such modifications or temporarily adjust the Work to be performed by CMAR, or the schedules associated therewith, to permit CMAR's implementation and performance of such modifications.

ARTICLE 7 — CONSTRUCTION MANAGER AT RISK FEE

7.01 The CMAR Fee will be determined as follows:

A. The CMAR Fee is a specified percentage of the Cost of the Work as shown in Exhibit B Table 1. No fee will be payable on the basis of costs itemized as excluded in Paragraph 6.03.

ARTICLE 8 — CMAR CONTINGENCY

8.01 CMAR Contingency

A. A separate CMAR Contingency may be established as part of the GMP for each Work Package, and if there are no Work Packages, as part of the GMP for the Project. The nature and amounts of CMAR Contingency will be shown in Exhibit B Table 1 as a separate line item for the Project or each Work Package, as appliable, and the CMAR Contingency funds are for CMAR's use to reimburse CMAR for costs considered reimbursable as Cost of the Work performed due to unforeseen causes, or events which cannot specifically be anticipated at the time Work Authorizations are issued as developed during preconstruction services and agreed to by Owner in writing.

B. CMAR Contingency funds will be included as a separate line item in the Schedule of Values. CMAR will provide a monthly written statement summarizing the CMAR Contingency activity, including buyout savings, and any balance adjustment from the previous period. The CMAR Contingency funds may be used by CMAR upon written authorization of Owner for costs sustained by either CMAR itself or a Subcontractor, for the allowable categories set forth in the Risk Register to be developed by CMAR during Preconstruction Services and agreed to in writing my Owner. The CMAR Contingency funds may not be used for costs which are reimbursable or recoverable under other provisions of the Contract or for correcting mistakes or errors in the Work by CMAR or its Subcontractors except as agreed in writing by Owner prior to issuance of a Work Package or as part of the accepted GMP.

C. The money recovered (1) from bonds and insurance coverage payments for such expenditures, and (2) from defaulting Subcontractors or Suppliers, shall be returned to Owner as Savings.

D. The CMAR Contingency will not be used to fund Owner-directed changes in the Work. Such changes will be administered through the contractual procedures established for changes in the scope of the Work, Work Authorizations as modified by Change Order, and Contract Amendments or other modifications that impact the Guaranteed Maximum Price.

E. The CMAR Contingency will not be used to recover the cost of items that are compensable as a Cost of the Work.

F. The CMAR Fee does not apply to expenditures from the CMAR Contingency. CMAR will not be entitled to any additional overhead, profit, or other markup on any CMAR Contingency expenditure.

G. Any buyout savings shall be transferred to the CMAR Contingency. The term "buyout savings" refers to the amount by which the actual Cost of the Work as established by a subcontract or purchase order in such form as, and based upon Bids that have been approved by Owner, is less than the amounts shown for such portions of the Work in the Guaranteed Maximum Price. As subcontracts and all other agreements related to a particular Work Authorization are executed, the CMAR shall submit to Owner a log, updated to show the amounts of buyout savings for transfer to the CMAR Contingency

H. The designated CMAR Contingency is the maximum amount available to CMAR to recover eligible costs under this Article; Owner will not increase the CMAR Contingency or otherwise reimburse CMAR for eligible costs incurred in excess of the CMAR Contingency.

I. CMAR will submit applications for reimbursement from the CMAR Contingency to Owner for written approval, in a format acceptable to Owner, together with appropriate documentation. Payments from the CMAR Contingency will be recorded in the Application for Payment.

ARTICLE 9 — WORK AUTHORIZATIONS

9.01 General Provisions Regarding Work Authorizations

A. Work Authorizations will be based on Work Packages prepared by CMAR in consultation with Engineer, and approved by Owner, describing equipment and materials to be purchased for installation or Work to be performed in accordance with the approved Work Authorization.

B. All Work to be provided by CMAR must be authorized by the execution of a Work Authorization specifying or referencing the scope of Work to be conducted.

C. Owner will issue each Work Authorization using the Work Authorization form provided by the Owner.

D. The Work Authorization will indicate the compensation to which CMAR is entitled for providing the authorized Work, including the Cost of the Work, applicable CMAR Fee, applicable Construction Support Costs, and any CMAR Contingency for such Work. Such compensation shall be considered a binding GMP under Article 11.

E. CMAR is not entitled to compensation for providing Work that Owner has not authorized.

9.02 First Work Authorization

A. The first Work Authorization, authorizing the commencement of construction for a portion of the Work, will include, in addition to authorization for a specific Work Package, or multiple specific Work Packages, the authorization of expenditures by CMAR for the following to the

extent such expenses are specific to that portion of the Work (1) performance and payment bond premiums (2) Builder's Risk premiums, if CMAR is required to purchase and maintain Builder's Risk insurance, and (3) premiums for other specific insurance policies required by the Contract.

ARTICLE 10 — PROCUREMENT OF SUBCONTRACTORS; CMAR SELF-PERFORMANCE OF AUTHORIZED WORK

10.01 Performance of the Authorized Work

A. CMAR will, in accordance with applicable Laws and Regulations, publicly advertise and solicit competitive unit price and/or lump sum bids/proposals ("Bids"), as determined in consultation with Owner, from trade contractors or subcontractors for the performance of all major elements of the Work other than the minor Work that may be included in General Conditions. CMAR shall establish the criteria for determining the Bid that provides the best value to the Owner, which shall be subject to Owner's approval, and included in the requests for Bids. The CMAR shall notify the Owner in advance in writing of the date it will receive the Bids.

B. Subject to the requirements in Texas Government Code Chapter 2269, Subchapter F, CMAR may submit a Bid to self-perform up to 60% of the Work of each Work Package (or the Project as a whole if there are no Work Packages) based on a monetary basis, so long as doing so will not limit bidding by competing bidders (prospective Subcontractors), provided that CMAR may request to exceed such limitation upon a showing, as determined in Owner's sole discretion, that (i) despite CMAR's best efforts CMAR could not obtain sufficient qualified competitive Bids from other trade contractors, or (ii) it would provide the best value to Owner or be in Owner's best interest to permit CMAR to self-perform such Work. If CMAR desires to self-perform any Work, CMAR shall submit its Bid for those portions of the Work in the same manner as all other trade contractors or Subcontractors, provided that CMAR shall not have access to, or review, Bids from all other trade contractors or Subcontractors pertaining to such Work prior to the opening of such Bids with the Owner as required by Paragraph 10.01.C below, and further provided that CMAR's Bid shall not duplicate any of CMAR's Construction Support Costs or other costs. For any Work CMAR desires to self-perform CMAR must comply with this paragraph and receive Owner's approval in accordance with this Paragraph 10.01 prior to such Work and the cost therefore being included in a GMP Proposal.

C. All Bids are to be opened in the presence of the Owner. If CMAR has submitted a Bid to self-perform Work as provided by Paragraph 10.01.B above, the Owner will determine whether CMAR's Bid provides the best value for the Owner and will award the subcontract for such Work to the bidder Owner determines provides the best value to Owner, which may be CMAR or a different bidder. For Work that CMAR has not submitted a Bid, CMAR will recommend to the Owner the Bid from the responsible bidder submitting the responsive bid that provides the best value to the Owner for that portion of the Work for which Bids are received.

D. In accordance with the requirements of Texas Government Code Chapter 2269, Subchapter F:

1. For any Bids CMAR reviews, CMAR shall review all such Bids in a manner that does not disclose the contents of any Bid to a party not employed by either a member of the OPT or CMAR.
2. If CMAR reviews, evaluates, and recommends to the Owner a Bid, but Owner requires another Bid be accepted, Owner shall compensate the CMAR by a change in the Contract Price or Contract Time(s) for any additional cost and risk that the CMAR incurs because of the Owner's requirement that such other Bid be accepted. This paragraph does not apply to Bids Owner has accepted accordance with Paragraph 10.01.C above for Work for which CMAR has submitted a Bid to self-perform (regardless of whether Owner accepted the Bid of CMAR or another bidder).

E. All subcontracts must be on a lump sum or unit price basis unless other payment terms are approved in writing and in advance by the Owner. Upon Owner's approval in the final terms of the subcontract, CMAR shall enter into a written subcontract for the subcontract work and promptly provide a copy to the Owner. All Bids shall be publicly available after award of the subcontract or within seven (7) days after the date of final selection, whichever is later.

F. If a selected trade contractor or subcontractor fails to execute a subcontract after being selected in accordance with this Paragraph 10.01 or defaults in the performance of its Work, the CMAR may, with written approval of the Owner and without further advertising, select a replacement trade contractor or subcontractor to do so.

G. CMAR shall include in each Subcontract a provision permitting Contractor to assign to Owner each subcontract upon termination of this Agreement pursuant to Paragraph 16.02 of the General Conditions. Upon such termination, CMAR agrees, upon Owner's written request, to execute an assignment of any or all subcontracts to Owner. Each subcontract shall contain provisions stating that: (1) upon assignment of each subcontract to Owner, Subcontractor shall assume toward the Owner all of the obligations and responsibilities which the CMAR by the Contract Documents, assumes toward the Owner; (2) Owner's liability to Subcontractor for any costs incurred by Subcontractor prior to the assignment shall be limited to amounts that would have been properly owed by Owner to CMAR and by CMAR to the Subcontractor for Work performed by that Subcontractor prior to the termination and for which Owner has not yet issued payment to CMAR unless otherwise agreed to in writing by Owner following the assignment.

H. Value engineering or cost saving alternative proposals contained in any CMAR or Subcontractor bids must be set forth as alternates to bid required by Drawings or Specifications. CMAR shall consult with Owner and Engineer before awarding any alternates to any Subcontractors and shall provide Owner with a copy of each proposed alternate for Owner's review and acceptance. "Value engineering" has its commonly accepted meaning within the construction industry and does not imply the practice of architecture or engineering with or without a license.

ARTICLE 11 — GUARANTEED MAXIMUM PRICE

11.01 Subject to the provisions of Article 4, CMAR guarantees that the maximum amount payable by Owner (Guaranteed Maximum Price, or GMP) for the Work Package(s) or the Project, as applicable, the sum of the amounts for Paragraphs 11.01.A through D that follow will be the

binding GMP for the Work or a specified portion thereof, established by the process stated in Paragraphs 11.02 and 11.03 for such Work Package(s) or the Project, as applicable.

A. Construction Support Cost Amount (Article 5);

B. Cost of the Work (Article 6);

C. CMAR Fee (Article 7); and

D. CMAR's Contingency Amount (Article 8).

11.02 The Estimated GMP indicated in Exhibit B Table 1, Item 44—Estimated Guaranteed Maximum Price is a preliminary figure for the entire Project as of the Effective Date of the Contract. CMAR will revise the Estimated GMP as the design is continued and completed.

11.03 A binding GMP for each Work Package will be established following these procedures:

A. When a Work Package(s) reaches a level of design development that the Owner in consultation with CMAR determines is sufficient to establish a binding GMP for such Work Package(s), CMAR will propose a GMP Proposal for such Work Package(s) for Owner's approval, provided that, Owner in its sole discretion may determine the necessary level of design development sufficient to establish such binding GMP. Upon acceptance of a GMP Proposal, a binding GMP is established for that portion of the Work, which shall include Construction Support Costs, the Cost of the Work, the CMAR Fee, and any CMAR Contingency associated with that portion of the Work. Additional GMP Proposals shall be proposed by CMAR as Work Packages are prepared, and as GMP Proposals are accepted, the overall binding GMP for the Project shall increase, provided that Owner is entitled to Savings from each Work Package as provided in Paragraph 6.05. Upon execution of the final GMP Proposal for the Project, the cumulative total of the GMPs for all GMP Proposals executed for the Project shall be the overall binding GMP for the Project, provided that Owner is entitled to Savings from each Work Package as provided in Paragraph 6.05.

1. Owner and CMAR may agree to binding GMPs for defined portions of Work for the Project, comprised of multiple Work Packages and not encompassing the entirety of the Project, if desired. Such arrangements shall be specified in the form of Work Authorizations or other modifications to the Contract.

11.04 In preparing and proposing a GMP Proposal, CMAR represents that:

A. CMAR has included in such GMP Proposal all Work required by and described in the applicable Work Package(s), including Work pending the continued development and completion of the Drawings and Specifications; and

B. Such GMP Proposal excludes only Work that CMAR, could not have reasonably anticipated as a result of changes to the scope of the applicable Work Package(s), including any changes to systems, kinds and qualities of materials, finishes or equipment, after the date of the GMP Proposal.

11.05 CMAR shall not withdraw its GMP Proposal for the Project or the applicable Work Package(s) for sixty (60) days following respective submission to the Owner, subject to changes in the GMP Proposal for the Project based on the development of a new Work Package during such time period that Owner requests is include in such GMP Proposal. If Owner accepts such GMP Proposal, Owner and CMAR shall execute a Work Authorization for such GMP Proposal, which shall become

part of the Contract as a Contract Amendment, and CMAR shall perform the Work covered by such Work Authorization in accordance with its terms and the terms hereof.

11.06 CMAR shall prepare and submit each GMP Proposal in accordance with the guidelines and delivered in the format specified by Owner. GMP Proposals and the supporting documents are complementary and, in the event of an irreconcilable conflict between or among them, the interpretation that provides for the higher quality of material and/or workmanship shall prevail over all other interpretations.

11.07 Each GMP Proposal shall allow for reasonably expected changes and refinements in the Drawings and Specifications through completion of the construction documents except for material changes in scope and shall include the CMAR Contingency.

11.08 Price Escalation—CMAR shall not be entitled to recover an increase in a GMP as a result of price escalations in the marketplace or price increases due to labor or materials shortages or tariffs or to recover such increases in excess of a GMP.

11.09 Owner's Construction Budget

A. Owner will provide to CMAR Owner's construction budget (Budget) and CMAR shall develop its procurement, phasing, and sequencing strategy, identifying each Work Package used to construct the Work, such that the GMP for the entire Project will not exceed Owner's Budget. Owner, working with CMAR, will update this Budget with actual amounts for each line item as Work Authorization amounts identified in the updated Budget are determined.

B. Owner will revise the Budget to incorporate Change Orders that change the funds available for Budget line items. When amounts for all Work Authorizations have been determined and the binding GMP is established for the Project, the Budget must correlate to GMP line items, and the GMP for the Project must be less than or equal to the Budget.

C. Except to the extent CMAR makes a successful Claim in accordance with Article 12 of the General Conditions, if the Cost of the Work, including the CMAR's Construction Support Costs, together with the CMAR's Fee, for Work Package(s) that are included an accepted GMP Proposal, exceed the applicable GMP, then CMAR shall pay such excess from its own funds and shall have no Claim against Owner on account thereof. If Owner is required to pay any such excess for any reason, CMAR shall be obligated to reimburse Owner such amounts plus interest and all costs of collection, including without limitation, attorneys' fees and expert costs.

11.10 Owner's Right to Accept or Reject GMP Proposal

A. The Guaranteed Maximum Price for all Work on the Project and Work Packages cannot exceed the Owner's Budget.

B. Should a GMP Proposal be unacceptable or not submitted in good faith pursuant hereto, in Owner's sole option and discretion (which determination is final), the Owner reserves the right to, in addition to exercising any right afforded under Law or pursuant to the Contract Documents:

1. Negotiate such GMP with CMAR and/or approve an increase in the Owner's Construction Budget in writing.

2. Authorize rebidding or renegotiation for some or all parts of the Project or Work Package within a reasonable time without an increase in the Guaranteed Maximum Price.

3. Cooperate in the revision of the scope of the Project to reduce the actual cost of construction to the Owner's Construction Budget.

4. Abandon the Project, in whole or in part, and terminate this Contract in whole or in part in accordance with applicable termination for convenience provisions, or, if Owner determines at its sole option and discretion the GMP Proposal was not submitted in good faith, in accordance with applicable termination for cause provisions.

5. Request a GMP Proposal or competitive sealed proposals for the applicable Work Package(s) from other firms.

C. If Owner selects the option described in Paragraph 11.10.B.1, CMAR shall proceed with performance of the Work, and provide CMAR Services as described in these Contract Documents without additional compensation for Procurement Services. Other fees and expenses related to the Cost of Work will be adjusted in accordance with the revised Cost of Work.

D. If Owner selects the option described in Paragraph 11.10.B.2, Owner and CMAR shall proceed with rebidding or renegotiation of some or all parts of the Project. The OPT will work with CMAR to determine if rebidding or restructuring Work Packages is likely to lead to lower bid prices; if so determined, CMAR will rebid selected original Work Packages or restructured Work Packages identified as having the potential to reduce the overall cost of construction to the Owner's Construction Budget. CMAR will advise the OPT of the likely impact to the schedule resulting from rebidding Work Packages. CMAR will provide CMAR Services for rebidding these Work Packages without additional compensation.

E. If Owner selects the option described in Paragraph 11.10.B.3, CMAR shall assist the OPT in studies to revise the scope of the Project to bring the Project cost within the Owner's Construction Budget. CMAR will provide research and cost estimates to evaluate the potential cost savings of each proposed change in scope for Work Packages and advise the OPT of the likely impact to the schedule resulting from rebidding Work Packages and changes in Contract Times that will result from the changed Work Packages. CMAR will provide CMAR Services for consultation in modifying the Project scope and rebidding these Work Packages without additional compensation.

F. CMAR shall revise the project schedule to incorporate delays caused by actions taken to bring the Project within the Owner's Budget.

G. Once accepted by Owner, the amount of the GMP shall not be increased except by written Change Order executed by both Owner and CMAR before any Change Order Work is performed. Accordingly, no course of conduct or dealings between the parties, nor express or implied acceptance of alterations or additions to the Work, and no claim that the Owner has been unjustly enriched by any alteration or addition to the Work, whether or not there is, in fact, any unjust enrichment to the Work, shall be the basis of any claim to any increase in any amounts due under the Contact Documents or a change in any time period provided for in the Contact Documents. CMAR acknowledges that the Owner is relying upon the CMAR's skill and experience in connection with the CMAR Services and Work. CMAR agrees that in determining the Guaranteed Maximum Price and Contract Time, CMAR has exercised

the best skill and efforts of the CMAR to make appropriate judgments and inferences in connection with the requirements of the Contract Documents and all inquiries of the Engineer, the Engineer's consultants, and the OPT to clarify the Contract Documents as necessary to calculate and establish both the Guaranteed Maximum Price and Contract Time.

11.11 Conversion of Cost of Work to a Lump Sum Amount

A. If Owner and CMAR mutually agree, compensation for all Work on the Project, or for any Work Authorization, may be converted to a lump sum (stipulated amount). If compensation for all Work on the Project is converted to a lump sum amount, this lump sum amount will include costs for Construction Support Cost, Cost of the Work, the CMAR Fee, and all other costs associated with the Contract, all as if bid as a lump sum amount. CMAR will no longer have access to CMAR Contingency funds and bears all risk associated with delivering the Work for the lump sum amount.

B. If a Work Authorization is converted to a lump sum amount, this lump sum amount will include costs for Cost of the Work, the CMAR Fee, and all other costs associated with the Work Authorization, all as if bid as a lump sum amount; provided, however, that Construction Support Costs will continue to be compensated per Paragraph 5.05.

C. The following will continue to apply for conversions to lump sum covered in Paragraphs A and B:

1. The Cost of the Work provisions in Article 6 will continue to apply to pricing certain Change Orders and other similar matters, as set forth in Paragraph 6.01.A.2.

2. Construction Support Costs Extended Rate provisions of Paragraph 5.04 will continue to apply for Change Orders.

ARTICLE 12 — RESERVED

ARTICLE 13 — PAYMENT PROCEDURES

13.01 Submittal and Processing of Payments

A. Billing and payment for CMAR Services are addressed in Article 3. The provisions in this Article 13 pertain to billing and payment for the Work.

B. After confirming quantities with the Engineer, CMAR shall submit certified Applications for Payment in accordance with Article 15 of the General Conditions. Applications for Payment will indicate the amount of the CMAR Fee then payable. Applications for Payment will be processed by Owner and Engineer as provided in the General Conditions.

13.02 Progress Payments; Retainage

A. Owner shall make progress payments on the basis of CMAR's Applications for Payment that Owner approves based on CMAR's Applications for Payment and accompanying supporting documentation, within **31** days of receiving CMAR's certified Application for Payment (which shall be the date of the invoice for purposes of Section 2251.021 of the Government Code), provided that such Applications for Payment have been timely submitted and satisfied all requirements of the Contract and conditions for payment, including, without limitation, Paragraph 15.02 of the General Conditions. Notwithstanding the foregoing, Owner shall be entitled to withhold amounts of an Application for Payment that are not certified, or as permitted by Law to the extent there is a bona fide dispute between Owner and CMAR,

between CMAR and a Subcontractor or Supplier, or between a Subcontractor and its Subcontractor or Supplier.

B. Progress payments on account of the Cost of the Work will be made for each Work Authorization.

1. Prior to Final Completion of the Project, Owner will withhold 5% as retainage from approved progress payments, which shall be held and disbursed in accordance with Chapter 2252 of the Texas Government Code. Owner may withhold from progress payments any amount, including but not limited to liquidated damages, Owner is entitled to withhold in accordance with the Contract.

13.03 Final Payment

A. Upon Final Completion and acceptance of the Work, Owner shall pay the remainder of the Contract Price in accordance with Article 15 of the General Conditions.

13.04 Consent of Surety

A. Owner will not make final payment or return or release retainage at Final Completion or any other time, unless CMAR submits written consent of the surety to such payment, return, or release.

13.05 Interest

A. All undisputed amounts not paid when due will accrue interest as prescribed in Texas Government Code Section 2251.021.

13.06 Joint Payments to Subcontractors

A. If Owner withholds certification for payment, Owner may, at its sole option, issue joint checks to CMAR and to any Subcontractor or Supplier to whom the CMAR failed to make payment for Work properly performed or material or equipment suitably delivered. If the Owner makes payments by joint check, Owner will notify CMAR and CMAR shall reflect such payment on its next monthly payment application.

13.07 CMAR acknowledges that the timely and complete performance of its obligations pursuant to the Agreement is critical to the operations of Owner. Accordingly, in the event of a dispute between Owner and CMAR, CMAR will continue to so perform its obligations under the Agreement and Owner will continue to make undisputed payments during the resolution of such dispute until Final Completion or termination of the Contract.

13.08 Notwithstanding any provisions in the Contract Documents to the contrary, the Owner may withhold payment to the CMAR to the extent reasonably necessary to protect its interests hereunder if any one or more of the following conditions exist:

A. CMAR is in default of any of its obligations hereunder or otherwise is in default under any of the Contract Documents and Owner reasonably anticipates it could incur costs as a result of such default;

B. Any part of such payment is attributable to Work which is defective or not performed in accordance with the Contract Documents; provided, however, such payment will be made as to the part thereof attributable to Work which is performed in accordance with the Contract Documents and is not defective (unless otherwise specified herein, only that portion of the Work which is defective will not be paid);

C. CMAR has failed to make payments promptly to Subcontractors for material or labor used in the Work for which the Owner has made payment to the CMAR per the terms of this Agreement and the General Conditions;

D. If Owner in good faith determines that the portion of the GMP then remaining unpaid will not be sufficient to complete the Work in accordance with the Contract Documents, whereupon no additional payments will be due CMAR hereunder unless and until CMAR, at its sole cost, performs a sufficient portion of the Work so that such portion of the GMP that remaining unpaid as determined by Owner to be sufficient to so complete the Work, provided however, if the shortfall is due to Owner's failure to approve Change Order proposals unless subject to a good faith dispute between the parties, then this provision shall not apply; or

E. CMAR fails to deliver the affidavits, releases and waivers of lien required with an Application for Payment.

ARTICLE 14 — DOCUMENTATION AND AUDIT

14.01 Documentation

A. CMAR and Subcontractors will establish and maintain records of all costs and expenses related to the Project in accordance with in the Audit Exhibit attached hereto as Exhibit D and incorporated herein (as the term "records" is defined in such Exhibit) and in accordance with generally accepted accounting practices (GAAP) in accordance with cost accounting standards issued by the Federal Office of Management and Budget Cost Accounting Standards Board.

B. CMAR will provide documentation of all Costs of the Work with the Application for Payment as required by the Contract Documents.

14.02 Audit

A. Owner shall have the right to inspect and audit all CMAR's records relating to the Project as provided in the Audit Exhibit (as the term "records" is defined in such Exhibit). CMAR shall preserve all such documents and records as prescribed therein and organized by each Application for Payment period. Subcontractors performing any Work will retain such records and afford such access to Owner, and preserve such documents, to the same extent required of CMAR, which obligations CMAR shall incorporate into CMAR's subcontract with Subcontractor.

ARTICLE 15 — CONTRACT TIMES

15.01 Contract Times—Dates

A. The Work for the entire Project will reach Substantial Completion on or before **[date]**, and completed and ready for final payment in accordance with Paragraph 15.06 of the General Conditions on or before **[date]**.

B. The dates by which the Work for each Work Package will reach Substantial Completion, and by which such Work will be completed and ready for final payment with respect to such Work Package, will be set out in a Work Authorization issued after execution of a Contract Amendment confirming Owner's accepted GMP Proposal for such Work Package and will comply with provisions of Article 15.

15.02 Liquidated Damages

A. CMAR and Owner recognize that all time limits for Milestones, if any, Substantial Completion of Work Packages and the Project, and completion and readiness for final payment as stated in the Contract Documents are of the essence of the Contract and that Owner will suffer financial and other losses if the Work is not completed and Milestones not achieved within the Contract Times, as duly modified. The parties also acknowledge the actual delay damages which will be suffered by Owner if the Work is not completed on time is difficult if not impossible to determine and that the liquidated damages agreed to in the Contract Documents shall not be deemed a penalty, and are a fair and reasonable estimate of the delay damages Owner is expected to suffer.

1. Each Work Authorization and the accepted GMP Proposal will specify the amount of liquidated damages CMAR shall pay Owner for each day that expires after the time, as duly adjusted pursuant to the Contract, specified for Substantial Completion of the Work Authorization or the Projects as applicable. Liquidated Damages for the time between Substantial Completion and Final Completion will also be specified in each Work Authorization and in the accepted GMP Proposal.

2. If Owner recovers liquidated damages for a delay in completion of the Project or any Work Package or a specified Milestone by CMAR, such damages will not limit the Owner from exercising any other rights and remedies under the Contract or entitlement to damages for any injury, damage or loss, including, without limitation, any termination rights that the Owner may have as a result of such delay.

3. The Owner may deduct liquidated damages described in this Paragraph 15.02 from any unpaid amounts due the CMAR under this Agreement. Any liquidated damages not deducted from any unpaid amounts due the CMAR shall be payable to the Owner at the demand of the Owner. In the event the CMAR successfully challenges the enforceability of the liquidated damages set forth in the Contract, then, notwithstanding any provision to the contrary in the Contract Documents, the CMAR shall pay the Owner all actual damages, including consequential damages, incurred by the Owner in connection with the CMAR's failure to achieve Substantial Completion of the Work or specified portion thereof within the specified Contract Time(s), as duly modified, including all costs incurred by the Owner in proving its actual and consequential damages, including all attorneys' fees, experts' fees, costs and expenses.

4. Except when challenged under Paragraph 15.02.A.3 above and as provided in this paragraph, liquidated damages assessed under this Paragraph 15.02 shall be Owner's exclusive monetary remedy for CMAR-caused delay in achieving the applicable Milestone, Substantial Completion, or Final Completion, but shall not limit Owner's rights with respect to termination for cause, correction of defective Work, or indemnity claims for third-party bodily injury or property damage.

15.03 Intentionally Deleted

15.04 Time is of the Essence

A. ALL TIME LIMITS STATED IN THE CONTRACT DOCUMENTS ARE OF THE ESSENCE. CMAR agrees to perform its obligations with due diligence and within such time limits set forth in the Contract Documents and shall use reasonable efforts to mitigate any risk of delays.

15.05 Milestones and Associated Damages

A. Milestones and associated damages may be established in Work Authorization(s) executed by the Parties.

ARTICLE 16 — CONTRACT DOCUMENTS

16.01 Contents

A. The Contract Documents consist of all of the following:

1. This Agreement.
2. General Conditions.
3. Supplementary Conditions.
4. General Requirements (Division 01 of the Specifications whether completed as of the Effective Date of the Contract or otherwise.)
5. Drawings and Specifications, whether completed as of the Effective Date of the Contract or otherwise**.**
6. Exhibits to this Agreement (enumerated as follows):
   a. Exhibit A, Scope of CMAR's Services;
   b. Exhibit B, Basis of Compensation;
   c. Exhibit C, Insurance Requirements
   d. Exhibit D, Audit Exhibit
   e. Exhibit E, Key Personnel
   f. Exhibit F, Lien and Bond Claim Release and Waivers (F-1, F-2, F-3, F-4)
   g. Exhibit G, Forms of Bonds
7. The following which may be delivered or issued on or after the Effective Date of the Contract and are not attached hereto:
   a. Contract Amendments;
   b. CMAR'S GMP Proposal(s) for the Project or Work Package(s) when accepted by Owner, and any executed Work Authorizations, including any exhibits identified as Drawings, Specifications, or other Contract Documents;
   c. Work Authorization Modifications;
      1) Work Change Directives;
      2) Change Orders; and
      3) Field Orders.
   d. Performance and Payment Bonds; and
   e. Warranty Bonds, if any.

B. There are no Contract Documents other than those listed above in this Article 16.

C. The Contract Documents may only be amended, modified, or supplemented as provided in the Contract.

D. If there is any inconsistency, ambiguity, or discrepancy in the Contract Documents, precedence shall be given to the Contract Documents in the following order of priority: (1) the terms of the main body of the Agreement; (2) the terms of the Exhibits to this Agreement; (3) the Supplementary Conditions; (4) the General Conditions; and (5) the Drawings and Specifications, with those of a later date taking precedence over those of an earlier date. If there are conflicting provisions within the individual category of the Contract Documents identified above, unless expressly excused by Owner in writing, the provision that establishes the higher quality or uses the more stringent standard shall prevail. An amendment, modification, or change to this Contract shall take precedence over the term it amends, and with respect to the other terms of this Contract, will take its precedence regarding the term it amends in accordance with this Section. All other documents and terms and conditions not affected by the amendment, modification, or change shall remain unchanged.

ARTICLE 17 — REPRESENTATIONS, CERTIFICATIONS, AND STIPULATIONS

17.01 CMAR's Representations

A. To induce Owner to enter into this Contract, CMAR makes the following representations:

1. CMAR has examined and carefully studied the Request for Proposals, Contract Documents, including Addenda.

2. CMAR has visited the Site, conducted a thorough visual examination of the Site and adjacent areas, and become familiar with the general, local, and Site conditions that may affect cost, progress, and performance of the Work.

3. CMAR is familiar with all Laws and Regulations that may affect cost, progress, and performance of the Work.

4. CMAR has carefully studied the reports, if any, of explorations and tests of subsurface conditions at or adjacent to the Site and the drawings, if any, of physical conditions relating to existing surface or subsurface structures at the Site that have been identified in the Supplementary Conditions, with respect to the Technical Data in such reports and drawings, and prior to submitting a GMP Proposal will have notified Owner in writing of any concerns about the adequacy of such information or has had the opportunity to conduct its own subsurface investigation.

5. CMAR has carefully studied the reports and drawings, if any, relating to Hazardous Environmental Conditions, if any, at or adjacent to the Site that have been identified in the Supplementary Conditions, with respect to Technical Data in such reports and drawings.

6. CMAR has considered the information known to CMAR itself; information in the Request for Proposals; information commonly known to contractors doing business in the locality of the Site; information and observations obtained from visits to the Site; the Contract Documents; with respect to the effect of such information, observations, on (a) the cost, progress, and performance of the Work; (b) the means, methods, techniques, sequences, and procedures of construction to be employed by CMAR; and (c) CMAR's safety precautions and programs.

7. Based on the information and observations referred to in the preceding paragraph, CMAR agrees that no further examinations, investigations, explorations, tests, studies, or data are necessary for the performance of the Work at the Guaranteed Maximum Price, within the Contract Times, and in accordance with the other terms and conditions of the Contract.

8. CMAR is aware of the nature of work to be performed by Owner and others at the Site that relates to the Work as indicated in the Contract Documents.

9. CMAR has given Owner and Engineer written notice of all conflicts, errors, ambiguities, or discrepancies that CMAR has discovered in the Contract Documents, and of discrepancies between Site conditions and the Contract Documents, and the written resolution thereof by Owner and Engineer is acceptable to CMAR.

10. The Contract Documents are generally sufficient to indicate and convey understanding of all terms and conditions for performance and furnishing of the Work.

11. CMAR's entry into this Contract constitutes an incontrovertible representation by CMAR that without exception all prices in the Agreement are premised upon performing and furnishing the Work required by the Contract Documents.

12. CMAR has not given, made, promised or paid, nor offered to give, make, promise or pay any gift, bonus, commission, money or other consideration to any person as an inducement to or in order to obtain the work to be provided to the Owner under this Agreement. CMAR further agrees that CMAR shall not accept any gift, bonus, commission, money, or other consideration from any person (other than from the Owner under this Agreement) for any of the services performed by CMAR under or related to this Agreement. If any such gift, bonus, commission, money, or other consideration is received by or offered to CMAR, CMAR shall immediately report that fact to the Owner and, at the sole option of the Owner, the Owner may elect to accept the consideration for itself or to take the value of such consideration as a credit against the compensation otherwise owing to CMAR under this Agreement.

B. CMAR further represents that CMAR will comply with the requirements of Section 552.372(a) of the Texas Government Code. Except as provided by Section 552.374(c) of the Texas Government Code, the requirements of Subchapter J, Chapter 552 of the Government Code, may apply to this Contract, and CMAR agrees that this Contract can be terminated if the CMAR knowingly or intentionally fails to comply with a requirement of that subchapter.

17.02 CMAR's Certifications.

A. CMAR certifies that it has not engaged in corrupt, fraudulent, collusive, or coercive practices in competing for or in executing the Contract. For the purposes of this Paragraph 17.02:

1. "corrupt practice" means the offering, giving, receiving, or soliciting of anything of value likely to influence the action of a public official in the proposal process or in the Contract execution;

2. "fraudulent practice" means an intentional misrepresentation of facts made (a) to influence the Proposal process or the execution of the Contract to the detriment of Owner, (b) to establish proposal Contract prices at artificial non-competitive levels, or (c) to deprive Owner of the benefits of free and open competition;

3. “collusive practice” means a scheme or arrangement between two or more Proposers, with or without the knowledge of Owner, a purpose of which is to establish proposal prices at artificial, non-competitive levels; and
4. “coercive practice” means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the proposal process or affect the execution of the Contract.

IN WITNESS WHEREOF, Owner and CMAR have signed this Agreement.

This Agreement will be effective on **[indicate date on which Contract becomes effective]**, which is the Effective Date of the Contract.

ARTICLE 1 — BASIC PRECONSTRUCTION SERVICES

1.01 Project Management

A. Participate in Project Meetings

1. Participate in Project kick-off meeting. Be prepared to discuss CMAR's team and organizations structure, assignments for responsibilities and CMAR's plan for implementation of Preconstruction Services.

2. Participate in periodic meetings with Owner and Engineer (collectively, Owner's Project Team or OPT) to review progress, coordinate efforts, and discuss planned activities for the next period. It is anticipated that these progress meetings will occur at least monthly, and more frequently before establishing a GMP.

3. Participate in bi-weekly progress meetings with Engineer

B. Provide administration of Agreement for CMAR Preconstruction Services, including Applications for Payment, progress reporting, management of CMAR staff, schedule for services, and deliverables.

1.02 Review of Preliminary Design Report

A. As a priority first task, review Engineer's Preliminary Design Report as soon as it is available.

1. Provide input and advice, according to the general requirements of Exhibit A Paragraph 1.03.D below, regarding the Preliminary Design Report's content concerning coordination of utilities work (both above-ground utilities and Underground Facilities), Underground Facilities Procedure, and mitigation of utilities conflicts, for Engineer's use in the Final Design Phase of Engineer's services.

2. Recommend strategies for the division of the Work under design into Work Packages, and for phased design and authorization of construction of such Work Packages. Work collaboratively with the OPT to finalize the number of Work Packages and their approximate scope, and the schedule for preparation, authorization, and completion of such Work Packages.

1.03 Design-Related Preconstruction Services

A. Attend periodic design meetings to provide consultation on aspects of the design that will impact the budget, schedule, and quality of the completed Work.

B. Advise, assist, and provide recommendations on all aspects of the planning and design of the Work. Consult with the OPT regarding Site use and improvements, and the selection of materials, building systems, and equipment.

C. Provide recommendations to the OPT for the following: on construction feasibility; regarding actions designed to minimize adverse effects on labor productivity or material shortages; on time requirements for procurement (including long-lead items), installation, and construction completion; and on factors related to construction cost including estimates of alternative designs or materials, preliminary budgets, and possible opportunities for savings.

D. Review Contract Documents and in-progress design documents, including the documents variously described as preliminary design documents, preliminary design report, design development documents, and the interim final drafts of the Drawings and Specifications, and provide input and advice on constructability, materials and equipment selections, and availability. Take field measurements and verify field conditions (including as required by 1.03.E below), compare them to such documents, and promptly report to Engineer and Owner any questions, errors, inconsistencies, inadequacies, insufficiencies, or omissions (collectively "Deficiencies") in the Specifications, Drawings, or other design documents. Provide timely suggestions for modifications to improve:

1. Ability to bid the Work:
   a. Identify Work elements that may be difficult to price as presented in the design documents. Provide suggestions to reduce risk and to obtain better pricing from Subcontractors and Suppliers.
   b. Provide suggestions on Work Packages to improve biddability, however, Engineer will not subdivide work into Work Packages for specific trades.
   c. Determine that specified products are readily available and notify Engineer if equal or substitute materials might be available.
2. Constructability, including sequencing or coordination issues:
   a. Adequacy of details for construction;
   b. Potential conflicts during construction;
   c. Feasibility of construction;
   d. Construction sequencing;
   e. Ability to coordinate among Subcontractors and Suppliers; and
   f. Coordination between Contract Documents.
3. Operability:
   a. Ability to minimize disruptions to existing operations;
   b. Ability to complete construction connections to existing facilities or utilities;
   c. Modifications to facilitate initial start-up and/or performance testing; and
   d. Ability of Owner to operate/maintain the facility when completed.
4. Possible use of patented, licensed, or copyrighted products.
5. Requirements for Subcontractor and equipment and materials procurement.
6. Completeness, consistency, and clarity.

E. Subsurface conditions and Underground Facilities

1. Review information made available by Owner.
   a. Review information pertaining to subsurface or physical conditions at the Site. Inform Owner and Engineer of additional examinations, investigations, explorations, testing, or studies (Supplemental Investigations) of subsurface or physical conditions at the Site that CMAR concludes would be beneficial if

conducted prior to commencement of construction. See General Conditions Paragraph 5.03.E.

b. Review information pertaining to Underground Facilities. Collaborate with the Engineer to improve the accuracy and completeness of information regarding Underground Facilities that Engineer incorporates into Work Authorizations in accordance with General Conditions Paragraph 5.05.

2. Owner will issue a Work Authorization for any necessary potholing, exploratory excavations, or other field investigations related to Paragraph E if necessary.

F. Research potential substitutes, furnish data and prepare a Preconstruction Substitute Request prior to a Work Authorization requesting the Owner to authorize the use of other items of equipment or material in accordance with General Conditions Paragraph 7.09.

G. Provide review comments in writing using the processes or procedures prescribed by the Owner. Verify that the Project design can be executed within the Owner's Construction Budget, within the allotted Contract Times, and with available labor, equipment, and materials.

H. CMAR must review the Contract Documents and other documents described in 1.03.D above on a continuous basis throughout performance of its scope of Services and Work and promptly report any Deficiencies or potential Deficiencies that it discovers to the Owner and Engineer. CMAR shall be responsible for the consequences of defects that result from its failure to disclosure Deficiencies that it knew or should have known about in its capacity as a contractor and not as a person licensed or registered under Title 6, Occupations Code. CMAR shall be liable to Owner for the consequence of defects that result from CMAR's failure to promptly disclose potential Deficiencies in writing to Owner and Engineer.

I. To the extent the Owner requires any incidental services, construction consulting, or value engineering, the Owner acknowledges that such services are advisory and not professional design services except to the extent the Construction Documents require professional design services. The Owner will, with due diligence, refer such questions, matters, and inquiries to the design professional and the CMAR shall have no liability to the Owner or the Engineer for its consultation for such services to the extent those services are the kind that must be performed by a person licensed or registered under Title 6, Occupations Code and not by CMAR in its capacity as a contractor.

1.04 Construction Management Plan

A. Develop a written Construction Management Plan that incorporates the following elements:

1. CMAR's organization for the Construction Phase of the project, including assigned responsibilities and level of authority within Project management;

2. Communication plan, including plans for distribution of documents, implementation of Action Item and Decision registers, frequency of reporting and project controls;

3. Document management plan that incorporates Communications Plan and contractual Electronic Data Protocols;

4. Construction contract administration;

5. Cost management;

6. Time management;

7. Quality management;
8. Risk management;
9. Safety management;
10. Site management and environmental controls;
11. Regulatory requirements and permits;
12. Procurement Strategy Plan; and
13. Start up and commissioning program.

B. Work with the OPT to incorporate requirements of the General Conditions and General Requirements (Division 01 of the Specifications) into the plan. Reference provisions in the General Conditions and General Requirements as appropriate. Prepare a draft Construction Management Plan and submit for review and comment by the OPT. Respond to comments and incorporate changes suggested by review comments as appropriate.

1.05 Construction Contract Administration

A. Work with the OPT to incorporate requirements of the General Conditions and General Requirements into administration of the Contract.

B. Communications

1. Assist the OPT with planning Project meetings, participate in these meetings and provide documentation as requested by the OPT.
2. Plan, schedule, and document meetings held with Subcontractors and Suppliers. Include the members of the OPT as appropriate.

1.06 Cost Management

A. Provide a preliminary evaluation of the Owner's program and budget requirements to determine that CMAR will be able to construct the facilities described in that program within the Owner's Construction Budget (Budget) using conceptual estimating techniques. Discuss this initial review of the Budget with the OPT.

B. Work with Owner to update the Budget with supporting data for review by the OPT at the following intervals:

1. Completion of preliminary design documents by the Engineer and approval by the Owner.
2. Completion of design development documents by the Engineer and approval by the Owner.
3. At appropriate intervals agreed to by the OPT and CMAR during the preparation of the Construction Documents to determine that changes to the design can be constructed within the Budget.

C. Assist Owner in preparing an updated line-item Budget based on the CMAR's proposed Procurement Strategy Plan prepared per Paragraph 1.13. This Budget is to include a line item for each anticipated Work Package, as well as line items for Construction Support Costs, the CMAR Fee, and CMAR Contingency and other costs, if any, that will be incorporated into the GMP for the Project.

D. Assess current construction market to determine risk associated with the Budget. As an example, volatility in the cost of selected materials or equipment may drive cost above the Budget. Identify areas where costs may be lower than original estimates and if cost savings may be used to balance the Budget. Report the cost of various design and construction alternatives to the Owner, including the CMAR's assumptions in preparing its analysis, a variance analysis between budget and preliminary Budgets, and recommendations for any adjustments to the Budget. Work with the OPT to consider costs relating to efficiency, usable life, maintenance, energy, and operation as part of the cost analysis.

E. Notify the OPT immediately if any estimated construction cost will cause the projected GMP to exceed the Budget. Make appropriate recommendations to the OPT if cost projections exceed the Budget.

F. Provide the Budget-related services set out in Paragraph 11.04 of the Agreement.

1.07 Time Management

A. Provide a preliminary master schedule for the Contract. Incorporate the Owner's preliminary schedule if any,, and the schedule for design, and preconstruction and procurement services, and construction services into the preliminary master schedule. Include allowances for reasonable periods required for the review and approval of items by the OPT and for approvals of governmental authorities having jurisdiction over the Project. Prepare the preliminary master schedule in a way that the detailed construction schedule can be incorporated into the master schedule as the Project becomes better defined.

B. Identify critical design Milestones that must be met to keep the Project on schedule. Coordinate and integrate the preliminary project schedule with the services and activities of the OPT and CMAR. Update the preliminary project schedule as design develops to indicate proposed activity sequences and durations, Milestone dates for receipt and approval of pertinent information, submittal of a GMP Proposal, preparation and processing of Shop Drawings and Samples, delivery of materials or equipment requiring long-lead time procurement, and the Owner's occupancy requirements.

C. Make appropriate recommendations to the OPT if preliminary project schedule updates indicate that previously approved schedules may not meet Contract Time requirements.

D. Revise the master schedule at appropriate intervals as the design is developed, Work Packages are prepared, and any GMPs are established.

E. Maintain the master schedule covering the entirety of the Work as well as particular portions of the Work, as directed by Owner.

F. Revise the master schedule after the GMP is established.

1.08 Quality Management

A. Prepare CMAR's Quality Control Plan (CQCP) in accordance with the Contract Documents, including the General Requirements.

1. Describe the quality control organization and lines of authority. Quality control plan is to identify the quality control manager and other key individuals involved in CMAR's quality control effort. Provide the services of a dedicated quality control manager unless Owner determines that quality control manager may combine quality control duties with other responsibilities. If quality control manager is to serve in other

capacities, identify those other responsibilities and the percentage of time spent in each role. Describe the qualifications of the quality control manager (in resume format) to demonstrate experience with quality management activities and performance on successful projects.

2. Provide the name and qualifications, in resume format, of other persons assigned a quality control function. Define the roles and responsibilities and authorities for each person and the types of Work or portions of the work for which each person is responsible.

3. Describe CMAR's approach to managing quality during construction. Describe how CMAR will integrate quality control procedures into the execution of the Work, provide testing and inspection required to control the quality of the Work in progress and verification or acceptance testing as required by the Contract Documents and CQCP.

4. Include a testing plan with details of tests to be provided. Designate the organization (Owner, CMAR, or Testing Agency) responsible for each type of testing. Coordinate CQCP Testing Plan with testing to be provided by the Owner.

5. Describe CMAR approach for managing defective Work, including notification and documentation procedures, development and implementation of corrective action plans and documentation that record corrective action has been successful in producing Work that complies with the Contract Documents.

6. Describe the approach for scheduling, reviewing, certifying, and managing documentation provided by Subcontractors and Suppliers. Include the approach for managing the quality of submittals, documentation procedures, and process for tracking and keeping documentation up to date.

1.09 Risk Management

A. Analyze construction risks to assess risk impact and develop appropriate risk management strategies to minimize associated costs.

B. Identify additional information that will help with risk assessment.

C. Provide recommendations for appropriate allocation of construction risks.

D. Review possible impacts associated with the use of patented, licensed, or copyrighted products.

E. Review legal requirements for subcontractor and equipment procurement for risk impacts.

F. Suggest strategies to minimize risk.

G. Prepare and maintain a detailed Risk Register with input from the Owner and other members of the OPT; and provide prompt updates to OPT.

1.10 Safety Management

A. Provide a project-specific Health and Safety Plan for the Contract to address the safety concerns associated with construction activities, including potential hazards, that complies with applicable Laws and Regulations. Write the manual with the ability to readily update the plan to incorporate needed revisions on a regular basis.

B. The Health and Safety Plan is to include at least the following information:

1. Background information identifying the CMAR, Project description, and location;
2. Management accountability structure with authority to implement safety plans, stop work, or make other safety-related decisions;
3. Role of safety representative (see General Conditions, Paragraph 7.16);
4. Provide descriptions of qualifications and certifications related to the performance of safety representatives;
5. Objectives of the Health and Safety Plan;
6. Administration and enforcement of the Health and Safety Plan;
7. Applicability of the Health and Safety Plan to various personnel categories, including the workforce, visitors, and members of the OPT;
8. List of conditions at the Site that may pose a hazard to anyone, hazard types, and those potentially exposed;
9. Procedures for first aid and medical attention;
10. Emergency notifications procedures based on hazard type which specify the entity to be notified for each situation;
11. Site access control requirements to prohibit unauthorized persons from entering the Site;
12. Orientation and training requirements for workers, visitors, and members of the OPT;
13. Hazard communications and awareness plan;
14. Required safety certifications for each type of work;
15. CMAR's safety training program and effort to create and maintain a culture of safety;
16. CMAR's written safety guidelines for project-specific issues as defined by Laws and Regulations;
17. Plan for conducting safety inspection and the audit frequency and schedule;
18. Process for conducting a Job Hazard Analysis for work activities and implementing countermeasures to ensure safety, including checklist specific the Project and type of work; and
19. Accident / incident reporting procedures including monthly reporting.

C. Incorporate Owner's site safety requirements as appropriate.

1.11 Site Management and Environmental Controls

A. Develop a plan for managing the Site during construction. The plan should address, at a minimum, management of the following:

1. Office space for CMAR, Subcontractors and if required by Contract, the OPT;
2. Water, sanitation, electrical, internet, and other utilities for CMAR's and OPT's operations at the Site;
3. Storage facilities, parking, and construction equipment storage and maintenance;

4. Protection of existing structures, trees and other landscaping, buildings, utilities, and Underground Facilities;
5. Site security, site safety, and emergency responses;
6. Temporary roads, temporary signage, barricades, fencing, and other devices to manage traffic to and within the Site, including provisions for delivery of materials and equipment, and maintenance during construction;
7. Environmental conditions including storm water management, pollution control, care of water, soil management, and other temporary controls and their removal when no longer required;
8. Reference data and control points; and
9. Cleaning during construction and containment and disposal of waste materials.

B. Review plan with Owner to identify potential conflicts with operating other facilities, on-going and anticipated construction by other entities. Revise if necessary.

1.12 Regulatory Requirements and Permits

A. Review regulatory requirements and permits required for construction. Develop a written plan for meeting applicable Laws and Regulations and obtaining permits. List the permit requirements, entities responsible for obtaining permits, documentation required for permits and cost for obtaining and complying with these requirements.

B. Incorporate the associated cost into the Cost of Work and inform the Owner so these can be incorporated into the Owner's Construction Budget, or the Owner's Construction Budget may be adjusted as required.

C. Incorporate time for obtaining permits into the project schedule to ensure permits can be obtained and regulatory requirements met in time for the orderly progression of Work.

1.13 Procurement Strategy Plan

A. Provide input to OPT regarding the current construction market, bidding climate, status of key Subcontractor and Supplier markets, and other local economic conditions.

B. As the design develops, organize the Work into Work Packages that will (1) allow for phased construction that will shorten the overall completion schedule for the Work, (2) encourage price competition by prospective Subcontractors and Suppliers, and (3) enhance the quality and safety of the Work.

C. Develop Subcontractor and Supplier interest in the Project consistent with state Laws and Regulations. Furnish the OPT a list of possible Subcontractors and Suppliers, from whom competitive bids will be requested for each principal portion of the Work. Identify preferred providers based on CMAR's previous experience for quality of work, on-time delivery, and ability to complete work within bid amounts. Submission of this list is for information and discussion purposes only and not for prequalification. The review of this list will not require the OPT to investigate the qualifications of proposed Subcontractors and Suppliers, nor does it waive the right of Owner to later object to or reject any proposed Subcontractor or Supplier when bids are considered. CMAR may submit a Change Proposal for any increase in the Guaranteed Maximum Price if this change is made after the GMP has been established.

D. Recommend to the OPT a schedule for procurement of long-lead time items required to meet the project schedule. Provide for procurement of these long-lead items by obtaining competitive bids for these items under a separate Work Authorization, as necessary, to meet the project schedule.

E. Identify critical elements of the Work that may require special procurement processes, such as prequalification of Subcontractors or Suppliers, requirement of certified or prequalified installers, or alternative contracting methods.

F. Advise the Owner of market conditions, bid issues, design issues, or other factors which may have had an impact causing bid prices to be higher than estimated. Discuss opportunities for bringing the Project within budget with the OPT to assist with deciding on how to proceed.

1.14 Value Engineering Studies

A. Participate in Value Engineering reviews at the level appropriate for the projects at the completion of the first draft of the Final Design Phase documents (approximately 60% completion) to assist in identifying ways to improve value to the owner or reduce the cost for the project. Provide cost estimates to quantify potential cost savings to reduce the overall cost for the Project.

B. Assist OA in conducting a workshop to identify potential changes which could reduce the cost of the Project or increase the value of the Project by more than the cost of the changes. Present selected alternatives for more detailed evaluation. The detailed evaluation will consider cost, ability to implement the changes, technical analysis, and the impact of changes on the Project. Ideas that pass the technical and economic analysis, and merit incorporation into the design of the project, will be presented, in a draft report, as a proposal to the OPT for consideration. Incorporate responses of the OPT in the final report.

C. Review and comment on deliverables which include draft and final value engineering recommendation reports.

1.15 Start Up and Commissioning Program

A. Provide CMAR's organizational structure for startup and commissioning. Identify the individuals from CMAR, Subcontractors and Suppliers actively involved in the process. Identify testing personnel required for startup, including independent testing agencies. Work with Owner to develop a table of roles and responsibilities for CMAR team and the OPT.

B. Develop a written start up and commissioning program consistent with the requirements of the Contract Documents. Write the plan in a way that will allow specific details to be added or information updated as equipment and materials are purchased and delivered.

C. Identify all systems to be included in the startup plan, each item of equipment involved with each system and the interface between each item of equipment and other operating equipment. Identify how each equipment component fits into operations of the completed facility.

D. Identify control systems associated with operating the system or facility, and how each is used to start-up, operate, and shut down its associated system. Identify prerequisite conditions for startup and testing for each system and facility. Identify conditions which would merit termination of startup or testing procedures.

E. Compile a list of all documents required for startup, including Contract Documents, Shop Drawings, operations and maintenance manuals, verification of warranty information, lists of spare parts and their location, and contact information for manufacturer's representatives to be included in startup readiness testing /verification and performance testing.

F. Identify testing required for factory witness testing, startup readiness verification, equipment and performance testing, and functional and performance testing.

G. Provide a preliminary schedule for startup and commissioning plans which can be updated as more detailed information is available. Incorporate this schedule in the master schedule and construction schedule for the Project.

ARTICLE 2 — ADDITIONAL PRECONSTRUCTION SERVICES

ARTICLE 3 — BASIC PROCUREMENT SERVICES

3.01 Project Management

A. Participate in Project Meetings

1. Participate in kick-off meeting for Procurement Services. Be prepared to discuss changes in CMAR's team and organization structure for Procurement Services, assignments of responsibilities, and CMAR's plan for implementation of Procurement Services.

2. Participate in periodic meetings with the OPT to review progress, coordinate efforts, and discuss planned activities related to procurement. It is anticipated that these progress meetings will occur **[weekly]** at times when procurement activities for Work Packages are underway.

B. Provide administration of Agreement for CMAR Procurement Services, including Applications for Payment, progress reporting, management of CMAR staff, schedule for services, and deliverables.

3.02 Assembling Work Packages

A. Assemble appropriate bid documents for distribution to prospective bidders for Work Packages in accordance with the procurement strategies defined in the Construction Management Plan and Procurement Strategy Plan (see Basic Preconstruction Services).

3.03 Advertise for Bids

A. Publicly advertise each Work Package, soliciting bids from Subcontractors and Suppliers for each Work Package in accordance with the applicable provisions of Laws and Regulations.

B. Maintain a list of all entities that have requested bid documents for each Work Package (planholders) until bids are received. Provide updates of the planholders as required by the Owner.

C. Encourage multiple Subcontractors and Suppliers to submit bids on the Work Package so a minimum of three bids are received for each Work Package.

3.04 Pre-Bid Conferences

A. Conduct a pre-bid conference with prospective Subcontractor and Suppliers to familiarize them with:

1. Bid opportunities for Work Packages;
2. Special requirements of the Contract Documents;
3. Prevailing wage requirements;
4. Equal employment opportunity requirements; and
5. Diverse Business Enterprise requirements, if any.

B. Obtain responses from the Owner, in consultation with the Engineer, to all questions at pre-bid conferences requiring a modification to the Contract Documents. Prepare a record of the discussions at the pre-bid conference to assist the Owner and Engineer in preparing Addenda as appropriate. Review and comment on Addenda prepared by the Owner in consultation with the Engineer to incorporate responses to questions raised during or as a result of the pre-bid conference.

3.05 Addenda

A. Receive draft Addenda prepared by the Owner in consultation with the Engineer. Review the draft Addenda for clarity, consistency, and coordination, and provide comments to Owner and Engineer. By conducting such reviews and providing comments, CMAR does not assume responsibility or liability, in whole or in part, for all or any part of the Project design or the content of the Contract Documents.

B. Distribute Addenda regarding any changes in the bid process or Contract Documents to all planholders. Require verification from planholders that Addenda have been received.

3.06 Opening Bids

A. Open bids submitted by Subcontractors and Suppliers for all Work Packages at the time and location so indicated in the advertisement for bid or as altered by addendum sent to all planholders as required in Article 10 and all applicable Laws and Regulations.

B. Where allowed by state Laws and Regulations and subject to Paragraph 10.01 of the Agreement, the CMAR may be able to self-perform portions of the Work provided bids for such self-performed work are handled in accordance with Laws and Regulations and as specified in Article 10 of the Agreement..

C. Review all Bids submitted in the presence of the Owner in a way that does not disclose the contents of the Bid during the selection process to any entity other than the OPT and CMAR.

D. Compare Bids received to the line-item budget prepared for the Project prior to the opening of Bids. Resolve discrepancies or overlaps in bid packages to eliminate duplications or the omission of elements of the Work that are not included in Construction Support Costs. Discuss each Bid received with the OPT and recommend which Bid received will provide best value for the Owner.

E. Evaluate any substitutions or alternate bids offered by bidders. Owner, in consultation with the Engineer, will evaluate the substitutions or alternate bids to determine the technical merit and to determine that the modifications offered are consistent with the intent of the Contract Documents. The Owner, in consultation with the Engineer, will determine if the substitution or alternate is acceptable.

F. Except as provided in Paragraph 10.01 of the Agreement, the Owner will adjust the Guaranteed Maximum Price (GMP) if the Owner requires the CMAR to contract with a

Subcontractor or Supplier different from the entity submitting the Bid on which the GMP is based. This adjustment will be made in the GMP or by Change Order if the GMP has already been established by a Work Authorization.

G. In the case of the need to replace a Subcontractor or Supplier under the provisions of the General Conditions Paragraph 7.10.O, Owner may direct the CMAR to obtain competitive Bids for this Work if the cost proposed by the CMAR or substitute Subcontractor or Supplier for this Work differs from the line-item estimate by more than 10 percent of the line-item amount. The CMAR will not be required to advertise this Work as required in Paragraph 1.02.

H. Make all bids available to Owner on request and to public after the award of contract or not later than 7 days after the date of the final selection of bids or proposals.

3.07 Additional Copies of Documents

A. Furnishing additional sets of printed documents.

ARTICLE 4 — ADDITIONAL PROCUREMENT SERVICES[1]

4.01 Prequalification of Bidders

A. Prequalify bidders for the Project using the OPT's prequalification process. If the OPT does not have a prequalification process in place for this Project, CMAR will assist the OPT in developing and implementing a prequalification process. Any prequalification of bidders must also be in accordance with applicable state Laws and Regulations.

4.02 Additional Work Packages

A. Providing additional effort to procure Work Packages in addition to the number of Work Packages stipulated in Paragraph 3.02.

ARTICLE 5 — SPECIAL SERVICES

5.01 The scope of services for Special Services, if any, will be the scope set forth in the Contract Amendment(s) establishing and authorizing such Special Services.

EXHIBIT B–BASIS OF COMPENSATION

ATTACHMENT A–DETAILED INFORMATION FOR AGREEMENT EXHIBIT B

Table 1—Estimated Contract Price

Item	Item Title	Calculation	Comment
1	Compensation for CMAR Services	= Table 2, R 11	Transfers amount for Total Cost for CMAR Services from Table 2—Compensation for CMAR Services.
2	Fixed Construction Support Costs	= Table 3, R 1	Transfers amount for Total Fixed Construction Support Cost from Table 3—Basis of Compensation for Fixed Construction Support Cost.
3	Time Sensitive Construction Support Costs	= Table 4, R 1	Transfers amount for Total Time Sensitive Construction Support Cost from Table 4—Basis of Compensation for Time Sensitive Construction Support Cost.
4	Total Construction Support Costs	**(2 + 3)**	Worksheet calculates Total Construction Support Costs by adding the amount for Fixed Construction Support Cost to the amount for Time Sensitive Construction Support Cost.
5	Estimated Cost of the Work	**[Enter Amount]**	Enter the Estimated Cost of the Work prepared by the Owner. This number is used to determine an estimated Guaranteed Maximum Price (GMP) which is included in calculating an estimated Contract Price.
6	CMAR Fee Percentage	**[Enter %]**	Enter the proposed or negotiated CMAR Fee Percentage.
7	CMAR Fee	**(5 x 6)**	Worksheet calculates the amount of the CMAR Fee by multiplying the Estimated Cost of the Work times the CMAR Fee Percentage. This is the amount of CMAR Fee based on Estimated Cost of the Work. Fee is earned as a percentage of the actual cost on approved Work Authorizations.
8	Cost of the Work with CMAR Fee	**(5 + 7)**	Worksheet calculates the amount of the Cost of the Work with CMAR Fee by adding the Estimated Cost of the Work to the CMAR Fee.
9	Payroll Cost—Estimated Cost of the Work	**[Enter Amount]**	Enter the Estimated Cost of the Work allocated to Payroll Cost.
10	Payroll Cost—CMAR Fee Percentage	**[Enter %]**	Enter the CMAR Fee Percentage proposed or negotiated for Payroll Costs
11	Payroll Cost—CMAR Fee Amount	**(9 x 10)**	Worksheet calculates the CMAR Fee amount for Payroll Cost by multiplying the Estimated Cost of the Work for Payroll times its CMAR Fee Percentage.
12	Payroll Cost—Cost with CMAR Fee	**(9 + 11)**	Worksheet calculates Payroll Cost with CMAR Fee by adding the Estimated Cost of the Work for Payroll to the Payroll Cost CMAR Fee Amount.
13	Incorporated Equipment and Materials—Estimated Cost of the Work	**[Enter Amount]**	Enter the Estimated Cost of the Work allocated to Equipment and Materials Incorporated into the Work.

Item	Item Title	Calculation	Comment
14	Incorporated Equipment and Materials— CMAR Fee Percentage	**[Enter %]**	Enter the CMAR Fee Percentage proposed or negotiated for Equipment and Materials Incorporated into the Work.
15	Incorporated Equipment and Materials—CMAR Fee Amount	**(13 x 14)**	Worksheet calculates the CMAR Fee amount for Incorporated Equipment and Materials by multiplying the Estimated Incorporated Equipment and Materials Cost times its CMAR Fee Percentage.
16	Incorporated Equipment and Materials—Cost with CMAR Fee	**(13 + 15)**	Worksheet calculates Incorporated Equipment and Materials Cost with CMAR Fee by adding the Estimated Cost of Incorporated Equipment and Materials to its CMAR Fee Amount.
17	Consumable Equipment and Materials Cost—Estimated Cost of the Work	**[Enter Amount]**	Enter the Estimated Cost of the Work allocated to equipment and materials consumed in construction of the Work.
18	Consumable Equipment and Materials Cost—CMAR Fee Percentage	**[Enter %]**	Enter the CMAR Fee Percentage proposed or negotiated for equipment and materials consumed in construction of the Work.
19	Consumable Equipment and Materials Cost—CMAR Fee Amount	**(17 x 18)**	Worksheet calculates the CMAR Fee amount for Consumable Equipment and Materials by multiplying the Estimated Consumable Equipment and Materials Cost times its CMAR Fee Percentage.
20	Consumable Equipment and Materials Cost—Cost with CMAR Fee	**(17 + 19)**	Worksheet calculates Consumable Equipment and Materials Cost with CMAR Fee by adding the Estimated Cost of Consumable Equipment and Materials to its CMAR Fee Amount.
21	Subcontractor Cost—Estimated Cost of the Work	**[Enter Amount]**	Enter the Estimated Cost of the Work allocated to Subcontractor Cost.
22	Subcontractor Cost—CMAR Fee Percentage	**[Enter %]**	Enter the CMAR Fee Percentage proposed or negotiated for Subcontractor Cost.
23	Subcontractor Cost—CMAR Fee Amount	**(21 x 22)**	Worksheet calculates the CMAR Fee amount for Subcontractor Cost by multiplying the Estimated Cost of the Work for Subcontractor Cost times its CMAR Fee Percentage.
24	Subcontractor Cost—Cost with CMAR Fee	**(21 + 23)**	Worksheet calculates Subcontractor Cost with CMAR Fee by adding the Estimated Cost of the Work for Subcontractor Cost to its CMAR Fee Amount.
25	Construction Equipment Cost—Estimated Cost of the Work	**[Enter Amount]**	Enter the Estimated Cost of the Work allocated to Construction Equipment Cost.
26	Construction Equipment Cost—CMAR Fee Percentage	**[Enter %]**	Enter the CMAR Fee Percentage proposed or negotiated for Construction Equipment Costs.
27	Construction Equipment Cost—CMAR Fee Amount	**(25 x 26)**	Worksheet calculates the CMAR Fee amount for Construction Equipment by multiplying the Estimated Cost of the Work for Construction Equipment Cost times its CMAR Fee Percentage.

Item	Item Title	Calculation	Comment
28	Construction Equipment Cost—Cost with CMAR Fee	**(25 + 27)**	Worksheet calculates Construction Equipment Cost with CMAR Fee by adding the Estimated Cost of the Work for Construction Equipment Cost to its CMAR Fee Amount.
29	Supplemental Cost— Estimated Cost of the Work	**[Enter Amount]**	Enter the Estimated Cost of the Work allocated to Supplemental Cost.
30	Supplemental Cost—CMAR Fee Percentage	**[Enter %]**	Enter the CMAR Fee Percentage proposed or negotiated for Supplemental Costs
31	Supplemental Cost—CMAR Fee Amount	**(29 x 30)**	Worksheet calculates the Estimated Cost of the Work for Supplemental Cost by multiplying the Estimated Cost of the Work for Supplemental Cost times its CMAR Fee Percentage.
32	Supplemental Cost—Cost with CMAR Fee	**(29 + 31)**	Worksheet calculates Supplemental Cost with CMAR Fee by adding the Estimated Cost of the Work for Supplemental Cost to its CMAR Fee Amount.
33	Total Estimated Cost of the Work	**∑ (9, 13, 17, 21, 25, 29)**	Worksheet calculates the Total Estimated Cost of the Work by summing the Estimated Cost of the Work for each of the Cost of the Work Categories.
34	Total CMAR Fee	**∑ (11, 15, 19, 23, 27, 31)**	Worksheet calculates the Total CMAR Fee by summing the CMAR Fee for each of the Cost of the Work Categories.
35	Cost of the Work with CMAR Fee	**∑ (12, 16, 20, 24, 28, 32)**	Worksheet calculates the Total Cost of the Work with CMAR Fee by summing the Cost with CMAR Fee for each of the Cost of the Work Categories.
36	Estimated Cost of the Work	**[Enter Amount]**	Enter the Estimated Cost of the Work prepared by the Owner. This number is used to determine an estimated Guaranteed Maximum Price (GMP) used for approval of an estimated Contract Price.
37	CMAR Lump Sum (stipulated) Fee	**[Enter Value]**	Enter the stipulated amount proposed or negotiated for CMAR Fee.
38	Cost of the Work with CMAR Fee	**(36 + 37)**	Worksheet calculates the Cost of the Work with CMAR Fee by adding the Estimated Cost of the Work to the lump sum CMAR Fee.
39	CMAR Contingency Percentage	**[Enter %]**	Enter the proposed or negotiated percentage of the Cost of the Work to be used to calculate the CMAR Contingency.
40	Estimated Cost of the Work	**[Enter Amount]**	Enter the Estimated Cost of the Work prepared by the Owner. This number is used to determine an estimated Guaranteed Maximum Price (GMP) used for approval of an estimated Contract Price.
41	CMAR Contingency	**(39 x 40)**	Worksheet calculates amount of CMAR Contingency by multiplying the CMAR Contingency Percentage times the Estimated Cost of the Work.
42	Other Specific Product or Contingency	**[Enter Amount]**	Identify other contingencies proposed or negotiated to be included in the Contract Price. Contingency should be restricted to use for its stated purpose. Contingency amount will be adjusted based on actual cost per applicable General Condition or Supplementary Conditions provisions related to a contingency. Enter a description of the contingency item and the amount for the contingency.
43	Total CMAR and Other Contingency	**(41 + 42)**	Worksheet calculates Total CMAR and Other Contingency amount by adding the CMAR Contingency to other specified contingency.

Item	Item Title	Calculation	Comment
44	Estimated Guaranteed Maximum Price	**(4 + (8 or 35 or 38 + 43)**	Worksheet calculates the Estimated GMP by summing the cost for Construction Support Costs, Cost of the Work with CMAR Fee, and CMAR and Other Contingency Allowances. Depending on the procedures used for calculating the CMAR Fee, Items **8**, **35**, or **38** may be deleted. Delete terms that appear as **#REF!** in the equation for **44** per the Note to User for this section.
45	Owner's Contingency	**[Enter Amount]**	Enter the Owner's Contingency amount if the Owner's Contingency is to be include in the Contract Price.
46	Total Amount of Contract Award	**(1 + 44 + 45)**	Worksheet calculates The Total Amount of the Contract Award (amount for which Contract will be awarded) by summing the Cost for CMAR Services, the Estimated Guaranteed Maximum Price (calculated using the selected compensation method) and the Owner's Contingency.
47	Substantial Completion Days	**[Enter Days]**	Enter the proposed or negotiated days to Substantial completion in accordance with the applicable General Condition or Supplementary Conditions provisions.
48	Final Completion Days	**[Enter Days]**	Enter the proposed or negotiated days to Final Completion in accordance with the applicable General Condition or Supplementary Conditions provisions.
49	Construction Period Days	**(47 + 48)**	Worksheet calculates the Construction Period by adding the number of day to reach Substantial Completion to the number of additional days to reach Final Completion.

Table 2—Compensation for CMAR Services

Column	Column Title	Calculation	Comment
a	Task	**[Enter Data]**	Enter the Task Number (from the corresponding paragraph number) for each item in the final Agreement Exhibit A Scope of CMAR Services. Standard tasks are shown.
b	Description	**[Enter Data]**	Enter the paragraph title for each item in the final Agreement Exhibit A Scope of CMAR Services. Standard tasks are shown.
c - g	Name of Provider	**[Enter Data]**	Enter the name of each CMAR service Provider. Enter the estimated number of hours for each task for each Provider in the rows below.
	Classification	**[Enter Data]**	Enter the type of service provided by each Provider. Examples: Project Manager, CMAR Services Manager, Estimator, Scheduler etc.
	Billing Rate	**[Enter Amount]**	Enter the hourly billing rate for each Provider. Rate is to include all fringe costs and expenses.
h	Amount	Hrs **C c** **x** Rate **C c** **+** Hrs **C d** **x** Rate **C d** **+** Hrs **C e** **x** Rate **C e** **+** Hrs **C f** **x** Rate **C f** **+** Hrs **C g** **x** Rate **C g**	Worksheet calculates Amount by multiplying the number of hours for each Task times the Billing Rate in the Column Titles for each Provider and totaling these to determine the total amount for each Task item.

Row	Row Title	Calculation	Comment
1	Total Cost for CMAR Preconstruction Basic Services	**∑ C h** for Task 1.00	Worksheet calculates total for Preconstruction Basic Services.
2	Total Cost for CMAR Preconstruction Additional Services	**∑ C h** for Task 2.00	Worksheet calculates total for Preconstruction Additional Services.
3	Total Cost for CMAR Preconstruction Services	**(1 + 2)**	Worksheet calculates total for Preconstruction Services.
4	Total Cost for CMAR Procurement Basic Services	**∑ C h** for Task 3.00	Worksheet calculates total for Procurement Basic Services.
5	Total Cost for CMAR Procurement Additional Services	**∑ C h** for Task 4.00	Worksheet calculates total for Procurement Additional Services.
6	Total Cost for CMAR Procurement Services	**(4 + 5)**	Worksheet calculates total for Procurement Services.
7	Total Owner's Contingency for CMAR Special Services (Stipulated Sum)	**[Enter Amount]**	Enter an amount for an Owner's Contingency dedicated to CMAR Special Services. Owner may choose to use Owner's Contingency to cover these additional services or may prefer that these be separate and reserved for CMAR services. This is recommended if Owner Contingency will be established later as part of negotiations for the GMP
8	Owner's Contingency for CMAR Special Services Percentage	**[Enter %]**	Enter the amount for the Owner's Contingency. Owner can base the amount of its contingency for CMAR Special Services as a percentage of totals for Preconstruction Services and Procurement Services. Enter that percentage here.

Row	Row Title	Calculation	Comment
9	Owner's Contingency for CMAR based on Special Services (% of CMAR Services)	**(3 + 6) x 8**	Worksheet calculates the Owner's Contingency based on the percentage for CMAR Special services entered in p and the totals for Preconstruction and Procurement Services. This provides a larger contingency that will adjust if Additional services are added. Change the calculations if the Contingency is to be based on the total for Basic services only ((**1** + **4**) x **8**).
10	Total Owner's Contingency for CMAR Special Services	**= 7 or 9**	Worksheet calculates the Owner's Contingency. If no percentage is entered in **8** the amount in **7** will be returned in **10.** If a percentage is entered in **8,** then **9** will be returned.
11	Total Cost for CMAR Services	**(3 + 6 +10)**	Worksheet calculates the total for CMAR Services. This number is transferred to **Table 1 R 1** to be included in the calculation of the Contract Price. It is not part of the Guaranteed Maximum Price for Work

Table 3—Basis of Compensation for Fixed Construction Support Cost

Column	Column Title	Calculation	Comment
a	CMAR Number	**[Enter Data]**	Enter the CMAR Number for this item as submitted in the Proposal. Used solely for convenience in referencing a line item
b	Contract Reference	**[Enter Data]**	Enter a reference to a specification section or drawing. Used to reference applicable Specification sections.
c	Description	**[Enter Data]**	Enter a brief description of the Fixed Construction Support Cost item.
d	Quantity	**[Enter Number]**	Enter the quantity of each Fixed Construction Support Cost item. If the cost is a lump sum item, the Unit designation would be LS and the quantity would be shown as "1".
e	Units	**[Enter Data]**	Enter the Units of measure. Example: months, weeks, each, or similar units.
f	Unit Cost	**[Enter Amount]**	Enter the Unit Cost per unit for each item.
g	Amount	**(d x f)**	Worksheet calculates the amount for each line item by multiplying the Quantity times the Unit Cost amount for each Item.

Row	Row Title	Calculation	Comment
1	Total Fixed Construction Support Costs	∑ C g	Worksheet calculates the Total Fixed Support Cost by summing all Fixed Support Cost line items. This amount is transferred to Table 1, R 2.

Table 4—Basis of Compensation for Time Sensitive Construction Support Cost

Column	Column Title	Calculation	Comment
a	CMAR Number	**[Enter Data]**	Enter the CMAR Number for this item as submitted in the Proposal. Used solely for convenience in referencing a line item
b	Contract Reference	**[Enter Data]**	Enter a reference to a specification section or drawing. Used to reference applicable Specification sections.
c	Description	**[Enter Data]**	Enter a brief description of the Time Sensitive Construction Support Cost item.
d	Quantity	**[Enter Number]**	Enter the quantity of each Time Sensitive Construction Support Cost item. If the cost is a lump sum item, the Unit designation would be LS and the quantity would be shown as "1".
e	Units	**[Enter Data]**	Enter the Units of measure. Example: months, weeks, each, or similar units.
f	Unit Cost	**[Enter Amount]**	Enter the Unit Cost per unit for each item.
g	Amount	**(d x f)**	Worksheet calculates the amount for each line item by multiplying the Quantity times the Unit Cost amount for each Item.

Row	Row Title	Calculation	Comment
1	Total Time Sensitive Construction Support Costs	**∑ C g**	Worksheet calculates the Total Fixed Support Cost by summing all Time Sensitive Construction Support Cost line items. This amount is transferred to **Table 1**, **R 3**.
2	Construction Period	**= (Table 1, R 49)**	Number of days in the Construction Period. This number is transferred here from **Table 1**, **R 49**.
3	Construction Support Cost Extended Rate	**(1 / 2)**	Worksheet calculates the Extended Rate for Time Sensitive Construction Support Cost by dividing the Total Time Sensitive Construction Support Cost by the number of days in the Construction Period.

MODIFIED GENERAL CONDITIONS OF THE CONSTRUCTION MANAGER AT RISK CONTRACT

ARTICLE 1—DEFINITIONS AND TERMINOLOGY

1.01 Defined Terms

A. Wherever used in the Request for Proposals or Contract Documents, a term printed with initial capital letters, including the term's singular and plural forms, will have the meaning indicated in the definitions below. In addition to terms specifically defined, terms with initial capital letters in the Contract Documents include references to identified articles and Paragraphs, and the titles of other documents or forms.

1. Addenda—Written or graphic instruments issued prior to the receipt of Proposals by the Owner which clarify, correct, or change the Request for Proposals or the proposed Contract Documents.

2. Agreement—The written instrument, including its attached exhibits, executed by Owner and Construction Manager at Risk, that sets forth the Contract Price and Contract Times, identifies the Owner, Construction Manager at Risk, and Engineer, and designates the specific items that are Contract Documents.

3. Application for Payment—The document prepared by Construction Manager at Risk, in a form acceptable to Owner, to request progress or final payments, and which is to be accompanied by such supporting documentation as is required by the Contract Documents.

4. Change Order—A document which is signed by Construction Manager at Risk and Owner after the Effective Date of a governing Work Authorization and authorizes an addition, deletion, or revision in the authorized Work, an adjustment in the applicable Guaranteed Maximum Price or Contract Times, or other revision to such Work Authorization.

5. Change Proposal—A written request by Construction Manager at Risk, duly submitted in compliance with the procedural requirements set forth herein, seeking an adjustment in Guaranteed Maximum Price or Contract Times; contesting a decision by Owner, concerning the requirements of the Contract Documents or the acceptability of Work under the Contract Documents; challenging a set-off against payments due; or seeking other relief with respect to the terms of the Contract.

6. Claim

   a. A Claim includes a written demand or assertion by Owner or Construction Manager at Risk seeking an adjustment of Contract Price or Contract Times or other relief with respect to the terms of the Contract.

   b. A Claim also includes other disputes or unresolved matters between the Owner and CMAR arising out of or related to the Contract.

   c. The party asserting the Claim is responsible for promptly providing documents and information to substantiate the Claim.

   d. A demand for money or services by a third party is not a Claim.

7. CMAR Contingency—Amounts described in Article 8 of the Contract that are established by either a Work Authorization or in the accepted GMP Proposal.

8. CMAR Fee—The component of the Guaranteed Maximum Price that supplements the CMAR's compensation for the Cost of the Work, consisting of a percentage of the Cost of the Work, as set forth in the Agreement.

9. CMAR Services—Those specific planning, organizational, and advisory services to be performed or furnished by CMAR, consisting collectively of Preconstruction Services, Procurement Services, and any other services authorized by Owner and expressly identified in such authorization as CMAR Services. CMAR Services are not part of the Work and do not include items compensable as the Cost of the Work.

10. Constituent of Concern—Asbestos, petroleum, radioactive materials, polychlorinated biphenyls (PCBs), lead-based paint (as defined by the HUD/EPA standard), hazardous waste, and any substance, product, waste, or other material of any nature whatsoever that is or becomes listed, regulated, or addressed pursuant to Laws and Regulations regulating, relating to, or imposing liability or standards of conduct concerning, any hazardous, toxic, or dangerous waste, substance, or material.

11. Construction Manager at Risk (CMAR)—The entity that has entered into the Contract with Owner. Under the Contract the CMAR will provide CMAR Services and perform the Work set out in the Contract Documents, as duly authorized, using the Construction Manager at Risk project delivery method.

12. Construction Period—The period from the commencement of Work on the first Work Authorization, or commencement of Work on a specific phase of the Project if the Project is being constructed under a phased approach, until Substantial Completion of the Work or a designated portion thereof. This is the number of days for which Construction Support Costs will be compensated.

13. Construction Support Costs—See Agreement, Article 5.

14. Contract—The entire and integrated written agreement between Owner and Construction Manager at Risk concerning the CMAR Services and the Work.

15. Contract Amendment—A document signed by Owner and Construction Manager at Risk which modifies the terms and conditions of the Contract, including but not limited to modifications of the time or compensation provisions of the Agreement and the scope of CMAR Services. A Contract Amendment is not used to make changes in the Work or to a Work Authorization, such changes properly being made in a Change Order or supplemental Work Authorization.

16. Contract Documents—Those items so designated in the Agreement, and which together comprise the Contract.

17. Contract Price—The money that Owner has agreed to pay Construction Manager at Risk for performance and completion of the CMAR Services and the Work, in accordance with the Contract Documents. The Contract Price may be subdivided into component parts based on authorized CMAR Services and Work Authorizations. The Contract Price includes the CMAR's compensation for CMAR Services, Construction Support Costs, Cost of the Work, the CMAR Fee, CMAR Contingency if any, and shall not exceed Owner's Construction Budget, except as permitted under the terms of the Contract Documents.

18. Contract Times—The number of days or the dates by which Construction Manager at Risk shall: (a) achieve Milestones, if any; (b) achieve Substantial Completion of all or some of the Work; and (c) complete the Work and all required services. The Contract Times may be subdivided into component parts based on Work Authorizations and authorized CMAR Services.

19. Contractor—The term "Contractor," if used in any Contract Document, means Construction Manager at Risk.

20. Cost of the Work—The sum of eligible costs incurred by CMAR for the performance of the Work, as allowed by the Cost of the Work provisions set forth in the Agreement. Cost of the Work as a defined term does not include Construction Support Costs.

21. Design Documents—The part of the Drawings and technical Specifications that describe Engineer's design of the Project.

22. Drawings—The part of the Contract that graphically shows the scope, extent, and character of the Work to be performed by Construction Manager at Risk.

23. Effective Date of the Contract—The date indicated in the Agreement, on which the Contract becomes effective.

24. Electronic Document—Any Project-related correspondence, attachments to correspondence, data, documents, drawings, information, or graphics, including but not limited to Shop Drawings and other Submittals, that are in an electronic or digital format.

25. Electronic Means—Electronic mail (email), upload/download from a secure Project website, or other communications methods that allow: (a) the transmission or communication of Electronic Documents; (b) the documentation of transmissions, including sending and receipt; (c) printing of the transmitted Electronic Document by the recipient; (d) the storage and archiving of the Electronic Document by sender and recipient; and (e) the use by recipient of the Electronic Document for purposes permitted by this Contract. Electronic Means does not include the use of text messaging, or of Facebook, X, Instagram, or similar social media services for transmission of Electronic Documents.

26. Engineer—The individual or entity that has primary responsibility for preparing or furnishing the Drawings and Specifications and is named as Engineer in the Agreement.

27. Estimated Cost of the Work—An estimate of the Cost of the Work prepared by the Owner for use (a) during the CMAR selection process in evaluating Proposals submitted in response to the Request for Proposals and (b) during the early stages of the Contract in calculating an Estimated Guaranteed Maximum Price until the design has progressed to the point where Owner and CMAR can mutually agree upon a Guaranteed Maximum Price.

28. Estimated Guaranteed Maximum Price—A preliminary Guaranteed Maximum Price calculated on the basis of the Estimated Cost of the Work. This is a non-binding price used on an interim basis for comparison or estimation of Owner's Construction Budget until the design has progressed to the point that a Guaranteed Maximum Price for the Work is established, or a Guaranteed Maximum Price for a portion of the Work is established by issuance of a Work Authorization by the Owner.

29. Field Order—A written order issued and signed by Owner which requires minor changes in the Work but does not change the Guaranteed Maximum Price or the Contract Times.

30. Final Completion—The date when Engineer, after consultation with Owner, certifies (i) the Work is fully complete in accordance with the Contract Documents, including all minor details of construction, landscaping, mechanical adjustment, or installation, as applicable (i.e., punchlist is complete), (ii) items and documents required by the Contract Documents have been delivered to and accepted by the Owner, (iii) all required services have been completed, and the Contract is ready for final payment, and (iv) all the terms and conditions of Paragraph 15.07 below have been achieved by CMAR.

31. Guaranteed Maximum Price (GMP)—The maximum amount to be paid by Owner to CMAR, with respect to the Project or a Work Package, as applicable, for the sum of the Construction Support Costs, plus Cost of the Work, plus the CMAR Fee for the Project or allocable to a Work Package, as applicable, all as set forth in the Agreement (for the Project) or a Work Authorization (for a Work Package), as applicable.

32. Hazardous Environmental Condition—The presence at the Site of Constituents of Concern in such quantities or circumstances that may present a danger to persons or property exposed thereto.

    a. The presence at the Site of materials that are necessary for the execution of the Work, or that are to be incorporated into the Work, and that are controlled and contained pursuant to industry practices, Laws and Regulations, and the requirements of the Contract, is not a Hazardous Environmental Condition.

    b. The presence of Constituents of Concern that are to be removed or remediated as part of the Work is not a Hazardous Environmental Condition.

    c. The presence of Constituents of Concern as part of the routine, anticipated, and obvious working conditions at the Site, is not a Hazardous Environmental Condition.

33. Laws and Regulations; Laws or Regulations—Any and all applicable laws, statutes, rules, regulations, ordinances, codes, and binding decrees, resolutions, and orders of any and all governmental and quasi-governmental bodies, agencies, authorities, and courts having jurisdiction over the Project and the Work.

34. Liens—Charges, security interests, or encumbrances upon Contract-related funds, real property, or personal property.

35. Milestone—A principal event in the performance of the Work that the Contract requires Construction Manager at Risk to achieve by an intermediate completion date, or by a time prior to Substantial Completion of all the Work.

36. Notice of Award—The written notice by Owner stating that Owner will enter into the Construction Manager at Risk contract with the selected Construction Manager at Risk.

37. Owner—The entity with which Construction Manager at Risk has contracted regarding the CMAR Services and the Work, and which has agreed to pay Construction Manager at Risk for the performance of the CMAR Services and the Work, pursuant to the terms of the Contract.

38. Not Used

39. Owner's Construction Budget (Budget)—The amount budgeted by the Owner to pay CMAR to perform and complete the Work in accordance with the Contract Documents. This amount includes compensation for Cost of the Work, the CMAR Fee, and Construction Support Costs, but does not include compensation for CMAR Services.

40. Preconstruction Services—Those planning, management, and support services to be performed or furnished by CMAR as set forth in the Scope of CMAR Preconstruction Services Exhibit to the Agreement. Preconstruction Services are separate and distinct from Procurement Services, and from the performance of the Work itself, and are a component of CMAR Services.

41. Preconstruction Services Price—The total amount to be paid to CMAR for the Preconstruction Services described in the Scope of CMAR Preconstruction Services Exhibit to the Agreement.

42. Procurement Services—Those services relating to assembling Work Packages and procurement of construction Subcontractors, Suppliers, and materials and equipment, to be performed or furnished by CMAR as set forth in the procurement-related provisions of the Scope of CMAR Services Exhibit to the Agreement. Procurement Services are separate and distinct from Preconstruction Services, and from the performance of the Work itself, and are a component of CMAR Services.

43. Procurement Services Price—The total amount to be paid to CMAR for providing the Procurement Services described in the Scope of CMAR Procurement Services Exhibit to the Agreement.

44. Progress Schedule—A schedule, prepared and maintained by Construction Manager at Risk and approved by Owner, describing the sequence and duration of the activities comprising Construction Manager at Risk's plan to accomplish the Work, or portion of the Work, within the Contract Times.

45. Project—The total undertaking to be accomplished for Owner by construction managers, engineers, contractors, advisors, and others, including planning, study, design, construction, testing, commissioning, and start-up, and of which the CMAR Services and the Work to be performed under the Contract are a part.

46. Proposal—The response to the Request for Proposals submitted by CMAR.

47. Request for Proposals (RFP)—The solicitation and all accompanying documents issued by the Owner requesting proposals for Construction Manager at Risk services for the Project and all addenda.

48. Samples—Physical examples of materials, equipment, or workmanship that are representative of some portion of the Work and that establish the standards by which such portion of the Work will be judged.

49. Schedule of Submittals—A schedule, prepared and maintained by Construction Manager at Risk, of required Submittals and the time requirements for review of the Submittals.

50. Shop Drawings—All drawings, diagrams, illustrations, schedules, and other data or information that are specifically prepared or assembled by or for Construction Manager at Risk and submitted by Construction Manager at Risk to illustrate some portion of the

Work. Shop Drawings, whether approved or not, are not Drawings and are not Contract Documents.

51. Site—Lands or areas indicated in the Contract Documents as being furnished by Owner upon which the Work is to be performed, including rights-of-way and easements, and such other lands or areas furnished by Owner which are designated for the use of Construction Manager at Risk.

52. Specifications—The part of the Contract that consists of written requirements for materials, equipment, systems, standards, and workmanship as applied to the Work, and certain administrative requirements and procedural matters applicable to the Work.

53. Subcontractor—An individual or entity having a direct contract with Construction Manager at Risk or with any other Subcontractor for the performance of a part of the Work, including Suppliers.

54. Submittal—A written or graphic document, prepared by or for Construction Manager at Risk, which the Contract Documents require Construction Manager at Risk to submit to Owner and Engineer, or that is indicated as a Submittal in the Schedule of Submittals accepted by Engineer. Submittals may include Shop Drawings and Samples; schedules; product data; Owner-delegated designs; sustainable design information; information on special procedures; testing plans; results of tests and evaluations, source quality-control testing and inspections, and field or Site quality-control testing and inspections; warranties and certifications; Suppliers' instructions and reports; records of delivery of spare parts and tools; operations and maintenance data; Project photographic documentation; record documents; and other such documents required by the Contract Documents. Submittals, whether approved or accepted by Engineer, are not Contract Documents. Change Proposals, Change Orders, Claims, notices, Applications for Payment, and requests for interpretation or clarification are not Submittals.

55. Substantial Completion—The time at which the Work on the entire Project has progressed to the point where, the Work is sufficiently complete in accordance with the Contract Documents, so that the Work can be utilized for the purpose for which it is intended; provided that, a Work Authorization may set forth additional and supplemental requirements and specifications that must be met to obtain Substantial Completion, including the deadline to achieve such Substantial Completion, with respect to the portion of Work or Work Package encompassed by such Work Authorization. The terms "substantially complete" and "substantially completed" as applied to all or part of the Work refer to Substantial Completion of such Work.

56. Supplementary Conditions—The part of the Contract that amends or supplements these General Conditions.

57. Supplier—A manufacturer, fabricator, supplier, distributor, or vendor having a direct contract with Construction Manager at Risk or with any Subcontractor to furnish materials or equipment to be incorporated in the Work by Construction Manager at Risk or a Subcontractor.

58. Technical Data

    a. Those items expressly identified as Technical Data in the Supplementary Conditions, with respect to either (1) existing subsurface conditions at or adjacent

to the Site, or existing physical conditions at or adjacent to the Site including existing surface or subsurface structures, except Underground Facilities, or (2) Hazardous Environmental Conditions at the Site.

b. If no such express identifications of Technical Data have been made with respect to conditions at the Site, then Technical Data is defined, with respect to conditions at the Site under Paragraphs 5.03, 5.04, and 5.06, as the data contained in boring logs, recorded measurements of subsurface water levels, assessments of the condition of subsurface facilities, laboratory test results, and other factual, objective information regarding conditions at the Site that are set forth in any geotechnical, environmental, or other Site or facilities conditions report prepared for the Project and made available to Construction Manager at Risk.

c. Information and data regarding the presence or location of Underground Facilities are not intended to be categorized, identified, or defined as Technical Data, and instead Underground Facilities are shown or indicated in the Drawings.

59. Underground Facilities—All active or not-in-service underground lines, pipelines, conduits, ducts, encasements, cables, wires, manholes, vaults, tanks, tunnels, or other such facilities or systems at the Site, including but not limited to those facilities or systems that produce, transmit, distribute, or convey telephone or other communications, cable television, fiber optic transmissions, power, electricity, light, heat, gases, oil, crude oil products, liquid petroleum products, water, steam, waste, wastewater, storm water, other liquids or chemicals, or traffic or other control systems. An abandoned facility or system is not an Underground Facility.

60. Unit Price Work—Work to be paid for based on unit prices.

61. Work—The entire construction or the various separately identifiable parts thereof required to be provided under the Contract Documents. Work includes and is the result of performing or providing all labor, services, and documentation necessary to produce such construction; furnishing, installing, and incorporating all materials and equipment into such construction; and may include related services such as testing, start-up, and commissioning, all as required by the Contract Documents.

62. Work Authorization—A document issued by Owner or Engineer and signed by Owner and CMAR which identifies and defines new Work Packages and establishes the amount to be paid, times for completion, and any special or supplementary provisions applicable to the authorized Work.

63. Work Package–A specific portion of the Work developed by Engineer and Owner in collaboration with the CMAR and subsequently authorized by a Work Authorization.

64. Work Change Directive—A written directive issued and signed by Owner to Construction Manager at Risk on or after the Effective Date of a governing Work Authorization, ordering an addition, deletion, or revision in the Work.

1.02 Terminology

A. The words and terms discussed in Paragraphs 1.02.B, C, D, and E are not defined terms that require initial capital letters, but, when used in the Request for Proposal or Contract Documents, have the indicated meaning.

B. Intent of Certain Terms or Adjectives–The Contract Documents include the terms "as allowed," "as approved," "as ordered," "as directed" or terms of like effect or import to authorize an exercise of professional judgment by Engineer. In addition, the adjectives "reasonable," "suitable," "acceptable," "proper," "satisfactory," or adjectives of like effect or import are used to describe an action or determination of Owner or Engineer as to the Work. It is intended that such exercise of professional judgment, action, or determination by a licensed engineer will be solely to evaluate, in general, the Work for compliance with the information in the Contract Documents and with the design concept of the Project as a functioning whole as shown or indicated in the Contract Documents, unless there is a specific statement indicating otherwise. The use of any such term or adjective is not intended to and will not be effective to assign to Owner or Engineer any duty or authority to supervise or direct the performance of the Work, or any duty or authority to undertake responsibility contrary to the provisions of Article 10 or any other provision of the Contract Documents.

C. Day–The word "day" means a period of 24 hours measured from midnight to the next midnight.

D. Defective–The word "defective," when modifying the word "Work," refers to Work that is unsatisfactory, faulty, or deficient in that it:

1. does not conform to the Contract Documents;
2. does not meet the requirements of any applicable inspection, reference standard, test, or approval referred to in the Contract Documents; or
3. has been damaged prior to Engineer's recommendation of final payment unless responsibility for the protection thereof has been assumed by Owner at Substantial Completion in accordance with Paragraph 15.04 or Paragraph 15.05.

E. Furnish, Install, Perform, Provide

1. The word "furnish," when used in connection with services, materials, or equipment, means to supply and deliver said services, materials, or equipment to the Site, or some other specified location ready for use or installation and in usable or operable condition.
2. The word "install," when used in connection with services, materials, or equipment, means to put into use or place in final position said services, materials, or equipment complete and ready for their intended use.
3. The words "perform" or "provide," when used in connection with services, materials, or equipment, means to furnish and install said services, materials, or equipment complete and ready for their intended use.
4. If the Contract Documents establish an obligation of CMAR with respect to specific services, materials, or equipment, but do not expressly use any of the four words "furnish," "install," "perform," or "provide," then CMAR shall furnish and install said services, materials, or equipment complete and ready for their intended use.

F. Contract Price or Contract Times–References to a change in "Contract Price or Contract Times" or "Contract Times or Contract Price" or similar, indicate that such change applies to (1) Contract Price, (2) Contract Times, or (3) both Contract Price and Contract Times, as warranted, even if the term "or both" is not expressed.

G. Unless stated otherwise in the Contract Documents, words or phrases that have a well-known technical or construction industry or trade meaning are used in the Contract Documents in accordance with such recognized meaning.

ARTICLE 2—PRELIMINARY MATTERS

2.01 Delivery of Performance and Payment Bonds; Evidence of Insurance

A. Performance and Payment Bonds–Within 10 days after CMAR executes the Agreement, CMAR shall also deliver to Owner the performance bond and payment bond required by Article 6, provided that CMAR may furnish a bid bond or other financial security acceptable to Owner to ensure CMAR will furnish such required performance and payment bonds when a Guaranteed Maximum Price is established.

B. Evidence of CMAR's Insurance–When CMAR delivers the signed counterparts of the Agreement to Owner, CMAR shall also deliver to Owner as identified in the Contract, the certificates, endorsements, and other evidence of insurance required to be provided by CMAR in accordance with Article 6.

2.02 Copies of Documents

A. Owner shall furnish to CMAR a copy of the fully executed Agreement in electronic portable document format (PDF). Additional printed copies will be furnished upon request at the cost of reproduction.

2.03 Electronic Transmittals

A. Except as otherwise stated elsewhere in the Contract, the Owner, Engineer, and CMAR may send, and shall accept, Electronic Documents transmitted by Electronic Means.

B. If the Contract does not establish protocols for Electronic Means, then Owner and CMAR shall jointly develop such protocols.

C. Subject to any governing protocols for Electronic Means, when transmitting Electronic Documents by Electronic Means, the transmitting party makes no representations as to long-term compatibility, usability, or readability of the Electronic Documents resulting from the recipient's use of software application packages, operating systems, or computer hardware differing from those used in the drafting or transmittal of the Electronic Documents.

2.04 Construction Management

A. In addition to providing CMAR Services, during the course of the Contract, and especially during the performance of the Work, CMAR will:

1. Organize and manage the resources required for construction of the Work, commissioning, and correction of defective Work after Substantial Completion of the Work.

2. Administer, coordinate, monitor, and report on construction progress and associated activities.

3. Assist the Engineer and Owner in collecting, disseminating, and storing documents and information.

4. Manage the Work to meet Contract goals and objectives and further the interests of the Owner.

5. Recommend action to the Owner related to the management of the Work.

6. Develop schedule and cost control systems to monitor and report on the progress of the overall Contract.

ARTICLE 3—CONTRACT DOCUMENTS: INTENT, REQUIREMENTS, REUSE

3.01 Intent

A. The Contract Documents are complementary; what is required by one Contract Document is as binding as if required by all.

B. It is the intent of the Contract Documents to describe a functionally complete Project, or part thereof, to be constructed in accordance with the Contract Documents.

C. Not used.

D. The Contract supersedes prior negotiations, representations, and agreements, whether written or oral.

E. Engineer will issue clarifications and interpretations of the Design Documents as provided herein.

F. Any provision or part of the Contract Documents held to be void or unenforceable under any Law or Regulation will be deemed stricken, and all remaining provisions will continue to be valid and binding upon Owner and CMAR, which agree that the Contract Documents will be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.

G. Nothing in the Contract Documents creates:

1. any contractual relationship between Owner or Engineer and any Subcontractor, Supplier, or other individual or entity performing or furnishing any of the Work, for the benefit of such Subcontractor, Supplier, or other individual or entity; or

2. any obligation on the part of Owner or Engineer to pay or to see to the payment of any money due any such Subcontractor, Supplier, or other individual or entity, except as may otherwise be required by Laws and Regulations.

3.02 Reference Standards

A. Standards, Specifications, Codes, Laws and Regulations

1. Reference in the Contract Documents to standard specifications, manuals, reference standards, or codes of any technical society, organization, or association, or to Laws or Regulations, whether such reference be specific or by implication, means the standard specification, manual, reference standard, code, or Laws or Regulations in effect at the time of receipt of Proposals, except as may be otherwise specifically stated in the Contract Documents.

2. No provision of any such standard specification, manual, reference standard, or code, and no instruction of a Supplier, will be effective to change the duties or responsibilities of Owner, CMAR, or Engineer from those set forth in the Contract Documents. No such provision or instruction will be effective to assign to Owner, or Engineer any duty or authority to supervise or direct the performance of the Work, or any duty or authority to undertake responsibility inconsistent with the provisions of the Contract Documents.

3.03 Reporting and Resolving Discrepancies

A. Reporting Discrepancies

1. CMAR's Verification of Figures and Field Measurements–Before undertaking each part of the Work, CMAR shall diligently, carefully, and thoroughly study the applicable Drawings and Specifications, and check and verify pertinent figures and dimensions therein, particularly with respect to applicable field measurements and conditions. CMAR shall promptly report in writing to Owner and Engineer any question, inconsistency, inadequacy, insufficiency, omission, conflict, error, ambiguity, or discrepancy (collectively, "Deficiencies") that CMAR discovers in the Drawings and Specifications, or has actual knowledge of, and shall not proceed with any Work affected thereby until the Deficiency is resolved by a written clarification or interpretation by Engineer in consultation with Owner, and, if appropriate, an amendment or supplement to the Contract is issued by Owner pursuant to Paragraph 11.01.

2. CMAR's Review of Drawings and Specifications– Throughout CMAR's performance of the CMAR Services and the Work, CMAR will necessarily review the Contract Documents on a continuous basis for purposes of discovering Deficiencies. If CMAR discovers any Deficiency within the Drawings and Specifications, whether in draft or final form, or between such documents and (a) any applicable Law or Regulation, (b) actual field conditions, (c) any standard specification, manual, reference standard, or code, or (d) any instruction of any Supplier, then CMAR shall promptly report it to Owner and Engineer in writing. CMAR shall not proceed with the Work affected thereby, except in an emergency as required by Paragraph 7.18, until the Deficiency is resolved, by a clarification or interpretation by Engineer in consultation with Owner, and, if appropriate, an amendment or supplement to the Contract is issued by Owner pursuant to Paragraph 11.01. CMAR's review of the Contract Documents for Deficiencies under this Paragraph includes review for clarity, consistency, constructability, maintainability/operability and coordination among trades. CMAR shall consult with Engineer regarding the selection of materials, building systems and equipment, and shall recommend alternative solutions whenever design details affect construction feasibility, schedules, cost or quality and shall provide other value engineering services. CMAR acknowledges that it may be liable, in whole or part, to Owner for consequences that are the direct result of CMAR's failure to promptly disclose in writing to Owner and Engineer under Paragraphs 3.03.A.1 and 3.03.A.2 any Deficiencies of which CMAR knew or should have known about in light of its obligations under the Contract Documents, including but not limited to Preconstruction Services. If CMAR performs any Work or Procurement Services involving a Deficiency in the Contract Documents of which CMAR is aware, or which could reasonably have been discovered by the review required by Paragraph 3.03.A and CMAR's obligation to collaborate described in Paragraph 7.23 below and elsewhere in the Contract Documents, without prompt written notice to the Owner and the Engineer and request for correction, clarification or additional information, as appropriate, CMAR does so at its own risk and expense and all Claims relating thereafter are specifically waived.

3. CMAR is not a design, engineering or architectural professional and assumes no professional design, engineering or architectural responsibility, including design calculations, structural design, process flow or design, or effluent water quality at the final effluent. Where the Contract Documents require CMAR to review, comment on, or

provide input regarding design, such review is limited to constructability, coordination, and conflict recognition, and subject to the standard of care of a construction manager-at-risk and not of a design, engineering or architectural professional. CMAR shall promptly notify the City and Engineer when a deficiency or conflict is observed and shall collaborate with the City and Engineer on a reasonable solution and shall also be responsible for costs incurred by the City as a result of CMAR failing to promptly notify the City and Engineer of a deficiency or conflict that CMAR should have identified in its capacity as a construction manager at risk.

B. Resolving Discrepancies

1. Except as may be otherwise specifically stated in the Contract Documents, the provisions of the Drawings and Specifications take precedence in resolving any Deficiency between such provisions of the Drawings and Specifications and:

a. the provisions of any standard specification, manual, reference standard, or code, or the instruction of any Supplier, whether or not specifically incorporated by reference as a Contract Document; or

b. the provisions of any Laws or Regulations applicable to the performance of the Work, unless such an interpretation of the provisions of the Contract Documents would result in violation of such Law or Regulation.

3.04 Interpretation of the Design Documents

A. During the performance of the Work and until final payment, CMAR shall submit to the Owner and Engineer in writing all matters in question concerning the requirements of the Design Documents (sometimes referred to as requests for information or interpretation) or relating to the performance or acceptability of the Work under the Contract Documents, as soon as possible after such matters arise.

B. Engineer will, with reasonable promptness, render a written clarification, interpretation, or decision on issues submitted requesting clarification of Design Documents, and if appropriate initiate a change to the Drawings or technical Specifications. Owner, in consultation with Engineer, will, with reasonable promptness, render a written clarification, interpretation, or decision relating to the performance or acceptability of the Work under the Contract Documents. In determining its response, Engineer and Owner will consider CMAR's prior involvement and obligations with respect to reviewing and commenting on draft design documents during CMAR's provision of CMAR Services. Engineer's and Owner's written clarification, interpretation, or decision will be final and binding on CMAR, unless CMAR appeals by submitting a Change Proposal.

3.05 Reuse of Documents

A. CMAR and its Subcontractors and Suppliers shall not:

1. have or acquire any title to or ownership rights in any of the Drawings, Specifications, or other documents, or copies of any thereof, prepared for this Project, including electronic media versions, or reuse any such Drawings, Specifications, other documents, or copies thereof on extensions of the Project or any other project without written consent of Owner and Engineer and specific written verification or adaptation by Engineer; or

2. have or acquire any title or ownership rights in any other Contract Documents, reuse any such Contract Documents for any purpose, including internal business purposes, without Owner's express written consent, or violate any copyrights pertaining to such Contract Documents.

B. The prohibitions of this Paragraph 3.05 will survive final payment, or termination of the Contract. Nothing herein precludes CMAR from retaining copies of the Contract Documents for record purposes in accordance with its retention policy, which shall be reasonable to comply with the prohibitions of this Paragraph 3.05.

ARTICLE 4—COMMENCEMENT AND PROGRESS OF THE WORK

4.01 Commencement of Contract Times; Notice to Proceed

A. The Contract Times will commence to run on the Effective Date of the Contract, or as specified in Work Authorizations.

4.02 Starting the Work

A. CMAR shall start to perform the Work promptly upon receipt of the first Work Authorization. No Work may be done at the Site prior to such authorization unless authorized by Owner in writing.

4.03 Reference Points

A. CMAR shall be responsible for laying out the Work, shall protect and preserve reference points and property monuments, and shall make no changes or relocations without the prior written approval of Owner. CMAR shall report to Owner and Engineer whenever any reference point or property monument is lost or destroyed or requires relocation because of necessary changes in grades or locations, and CMAR shall be responsible for the accurate replacement or relocation of such reference points or property monuments by professionally qualified personnel.

4.04 Progress Schedule

1. CMAR shall adhere to the Progress Schedule established as part of Preconstruction Services, as it may be adjusted from time to time as provided below.

2. CMAR shall submit to Owner and Engineer for its information proposed adjustments in the Progress Schedule that will not result in changing the Contract Times.

3. Proposed adjustments in the Progress Schedule that will change the Contract Times must be submitted in accordance with the requirements of Article 11.

B. CMAR shall carry on the Work and adhere to the Progress Schedule during all disputes or disagreements with Owner. No Work will be delayed or postponed pending resolution of any disputes or disagreements, or during any appeal process, except as permitted by Paragraph 16.04, or as Owner and CMAR may otherwise agree in writing.

C. CMAR represents that CMAR has consulted, or will consult with all necessary public, governmental and private entities, and all necessary utilities prior to the preparation of the Progress Schedule and performance of the Work in order to plan for and coordinate necessary lead times for the various stages of the Work to be substantially completed on or before each applicable milestone date and the Substantial Completion Date, as applicable.

Owner hereby advises CMAR that long lead times may be required by such entities where applicable stages of the Work impact public facilities and/or utilities.

D. CMAR acknowledges and accepts that it will be obligated to provide and timely complete the Work, and achieve the applicable dates of Substantial Completion, completion and readiness for final payment, and any applicable Milestones. CMAR shall use its best efforts to re-sequence the Work when necessary or appropriate to overcome or mitigate, to the greatest practicable extent, the effect of any delays. Additional costs due to Owner-approved resequencing or acceleration of the Work or other mitigation efforts to overcome excusable delays may be included in the Cost of the Work, but only to the extent expressly allowed by this Agreement. CMAR shall diligently prosecute the Work in accordance with the Progress Schedule, as approved by the Owner. CMAR shall schedule and participate in periodic status review meetings to update the Owner on cost, schedule and progress of the Work as Owner desires. CMAR shall provide an updated Progress Schedule for Owner's approval at least monthly (or more frequently if Owner requests), to manage timely performance of the Work. Updates shall provide summary reports to Owner for each update to explain the status of the Work, any circumstances threatening to impact the Progress Schedule, and actions taken by CMAR to maintain the Progress Schedule. Updates shall incorporate current scheduling for all activities of the Project.

4.05 Delays in CMAR's Progress

A. Subject to the other provisions of this Paragraph 4.05, CMAR shall be eligible to request by submitting a Change Proposal an adjustment in Guaranteed Maximum Price or Contract Times if Owner or anyone for whom Owner is responsible, delays, disrupts, or interferes with the performance or progress of the Work. CMAR shall only be entitled to request an adjustment to the GMP under this Paragraph 4.05.A for reasonable, direct costs, including Time-Sensitive Construction Support Costs as provided in Paragraph 5.03.B of the Agreement, actually incurred by the CMAR due to such delay, disruption, or interference. Should there be an adjustment in Guaranteed Maximum Price or Contract Times as determined under this Paragraph 4.05, it shall be memorialized by a Change Order.

B. CMAR shall not be entitled to an adjustment in Guaranteed Maximum Price or Contract Times for delay, disruption, or interference (i) caused by or within the control of CMAR, (ii) that could not be limited or avoided by CMAR's notice as soon as possible to the Owner of the delay or reasonable likelihood that a delay will occur, which notice in any event must be provided within three (3) days after the occurrence of such event, or (iii) is of a duration not less than one (1) day. Delay, disruption, and interference attributable to and within the control of a Subcontractor or Supplier are within the control of CMAR. Notwithstanding the foregoing, CMAR is obligated to use best efforts to minimize the consequences of any delay, disruption, or interference and shall not be entitled to an adjustment in Guaranteed Maximum Price or Contract Times without first satisfying this obligation. If CMAR has not provided notice of such delay, disruption, or interference as required by this Paragraph 4.05 and notice of a claim related thereto as required by Article 12, CMAR waives such claim for an adjustment in Guaranteed Maximum Price or Contract Times.

C. If CMAR's performance or progress is delayed, disrupted, or interfered with by a Force Majeure event, then CMAR shall be entitled to request an adjustment in Contract Times, provided that CMAR timely submits a Change Proposal. Such an adjustment will be CMAR's sole and exclusive remedy for the delays, disruption, and interference described in this Paragraph. "Force Majeure" means: strikes, lockouts or labor disputes affecting all or a

material part of the work force available to perform the Work; war and/or warlike operations or conditions; sabotage or terrorism affecting the premises that otherwise prevents or interferes with continued Work at the Site; governmental actions; condemnation or eminent domain proceedings affecting a material portion of the Site; fire or other casualty damaging improvements at the Site not caused in whole or in part by CMAR or anyone within the control of CMAR, a Subcontractor, or Supplier; shortages or inability to obtain materials or equipment due to circumstances outside the reasonable control of CMAR, a Subcontractor, or Supplier; and/or adverse weather conditions. Adverse weather conditions include, but are not limited to, conditions which impact or prevent Work on the Project and which have a direct effect on the CMAR's predefined critical work sequence including days lost due to mud, muck, ice, or other conditions wherein CMAR's access to the Project Site is materially impeded resulting in an adverse effect on the Progress Schedule.

1. Abnormal Weather Conditions

    a. If abnormal weather conditions are the basis for a request for an equitable adjustment in the Contract Times, such request must be documented by data substantiating each of the following: (1) that weather conditions were abnormal for the period of time in which the delay occurred, (2) that such weather conditions could not have been reasonably anticipated, and (3) that such weather conditions had an adverse effect on the Work as scheduled.

    b. The existence of abnormal weather conditions will be determined on a month-by-month basis in accordance with the following:

        1) Every workday on which total precipitation, as rain equivalent, occurs between 7:00 p.m. on the preceding day, regardless of whether such preceding day is a workday, through 7:00 p.m. on the workday in question equals or exceeds **[threshold precipitation quantity]** of precipitation, as rain equivalent, based on the snow/rain conversion indicated in the table entitled Foreseeable Bad Weather Days; such table is hereby incorporated in this Paragraph by reference.

        2) Every workday on which ambient outdoor air temperature at 11:00 a.m. is equal to or less than the following low temperature threshold: **[temperature]** degrees Fahrenheit; or, at 3:00 p.m. the ambient outdoor temperature is equal to or greater than the following high temperature threshold: **[temperature]** degrees Fahrenheit.

    c. Determination of actual bad weather days during performance of the Work will be based on the weather records measured and recorded by **[name of the entity operating the weather station]** weather monitoring station at **[location of the weather monitoring station]**.

    d. CMAR shall anticipate the number of foreseeable bad weather days per month indicated in the table in Exhibit **[exhibit number]**: Foreseeable Bad Weather Days.

2. In each month, every bad weather day exceeding the number of foreseeable bad weather days established in the table in Exhibit **[exhibit number]**—Foreseeable Bad Weather Days will be considered as "abnormal weather conditions." The existence of abnormal weather conditions will not relieve CMAR of the obligation to demonstrate and document that delays caused by abnormal weather are specific to the planned work

activities or that such activities thus delayed were on CMAR's then-current Progress Schedule's critical path for the Project.

D. CMAR's entitlement to an adjustment of Contract Times or Guaranteed Maximum Price is limited as follows:

1. CMAR's entitlement to an adjustment of the Contract Times shall be limited to the number of days by which the critical path to completion of the Work has been delayed by the event giving rise to the right to an extension of Contract Time.

2. CMAR shall not be entitled to an adjustment in Guaranteed Maximum Price or Contract Time for any delay, disruption, or interference if such delay is concurrent with a delay, disruption, or interference caused by or within the control of CMAR.

3. CMAR's entitlement to an adjustment of the Contract Times or Guaranteed Maximum Price is conditioned on CMAR's strict compliance with the Claims procedures required herein, including the submission of a Change Proposal for such requested adjustment.

4. Adjustments of Contract Times or Guaranteed Maximum Price are subject to the provisions of Article 11.

E. Each Change Proposal seeking an increase in Contract Times or Guaranteed Maximum Price must comply with the Change Proposal provisions herein and be supplemented by supporting data that sets forth in detail the following:

1. The circumstances that form the basis for the requested adjustment;

2. The date upon which each cause of delay, disruption, or interference began to affect the progress of the Work;

3. The date upon which each cause of delay, disruption, or interference ceased to affect the progress of the Work;

4. The number of days' increase in Contract Times claimed because of each such cause of delay, disruption, or interference, which must be supported by critical path analysis demonstrating that such increase in the Contract Time(s) is essential to CMAR's ability to complete the Work within the Contract Time(s); and

5. The impact on Guaranteed Maximum Price, in accordance with the provisions of Paragraph 11.07.

CMAR shall also furnish such additional supporting documentation as Owner and Engineer may require including, where appropriate, a revised progress schedule indicating all the activities affected by the delay, disruption, or interference, and an explanation of the effect of the delay, disruption, or interference on the critical path to completion of the Work.

F. Delays, disruption, and interference to the performance or progress of the Work resulting from the existence of a differing subsurface or physical condition that could not reasonably have been identified by CMAR, an Underground Facility that was not shown or indicated by the Contract Documents and could not reasonably have been identified by CMAR, or not shown or indicated with reasonable accuracy, and those resulting from Hazardous Environmental Conditions, are governed by Article 5, together with the provisions of Paragraphs 4.05.D and 4.05.E.

G. If Owner determines there is a delay in any stage of the Progress Schedule caused by an event other than (i) an approved Change Order, (ii) a delay caused by Owner, and (iii) a delay

described in the immediately foregoing Paragraph 4.05.F, Owner may direct that the Work be accelerated by means of overtime, additional crews or restructuring of the Work until such time as the Work has progressed so that it complies with the stage of completion required by the Progress Schedule. CMAR shall promptly provide a plan including a recommendation for the most effective and economical acceleration (a "Recovery Plan"). CMAR shall prepare the Recovery Plan in such form and detail as Owner requests. CMAR further agrees it will work as necessary to meet the requirements of the Recovery Plan and bring its Work into compliance with the current Progress Schedule (all without any additional cost to Owner). No approval by Owner or Engineer pursuant to this paragraph shall constitute a waiver by Owner of any damages or losses Owner may suffer as a result of CMAR's failure to obtain Substantial Completion in accordance with the Contract.

H. Paragraph 8.03 addresses delays, disruption, and interference to the performance or progress of the Work resulting from the performance of certain other work at or adjacent to the Site.

ARTICLE 5—SITE; SUBSURFACE AND PHYSICAL CONDITIONS; HAZARDOUS ENVIRONMENTAL CONDITIONS

5.01 Availability of Lands

A. Owner shall furnish the Site. Owner shall notify CMAR in writing of any encumbrances or restrictions not of general application but specifically related to use of the Site with which CMAR must comply in performing the Work.

B. Not used.

C. CMAR shall provide for all additional lands and access thereto that may be required for temporary construction facilities or storage of materials and equipment.

5.02 Use of Site and Other Areas

A. Limitation on Use of Site and Other Areas

1. CMAR shall confine construction equipment, temporary construction facilities, the storage of materials and equipment, and the operations of workers to the Site, adjacent areas that CMAR has arranged to use through construction easements or otherwise, and other adjacent areas permitted by Laws and Regulations, and shall not unreasonably encumber the Site and such other adjacent areas with construction equipment or other materials or equipment. CMAR shall assume full responsibility for (a) damage to the Site; (b) damage to any such other adjacent areas used for CMAR's operations; (c) damage to any other adjacent land or areas, or to improvements, structures, utilities, or similar facilities located at such adjacent lands or areas; and (d) for injuries and losses sustained by the owners or occupants of any such land or areas; provided that such damage or injuries result from the performance of the Work or from other actions or conduct of the CMAR, its Subcontractors and Suppliers, or those for which any of them is responsible.

2. If a damage or injury claim is made by the owner or occupant of any such land or area because of the performance of the Work, or because of other actions or conduct of the CMAR or those for which CMAR is responsible, (a) CMAR shall take immediate corrective or remedial action as required by Paragraph 7.18, or otherwise; (b) CMAR shall promptly

attempt to settle the claim as to all parties through negotiations with such owner or occupant, or otherwise resolve the claim by arbitration or other dispute resolution proceeding, or in a court of competent jurisdiction; and (c) CMAR's indemnity obligations under Paragraph 7.21 shall apply.

B. Removal of Debris During Performance of the Work–During the progress of the Work the CMAR shall keep the Site and other adjacent areas free from accumulations of waste materials, rubbish, and other debris. Removal and disposal of such waste materials, rubbish, and other debris will conform to applicable Laws and Regulations.

C. Cleaning—Prior to Substantial Completion of the Work CMAR shall clean the Site and the Work and make it ready for utilization by Owner. At the completion of the Work CMAR shall remove from the Site and adjacent areas all tools, appliances, construction equipment and machinery, and surplus materials and shall restore to original condition all property not designated for alteration by the Contract Documents.

D. Loading of Structures—CMAR shall not load nor permit any part of any structure to be loaded in any manner that will endanger the structure, nor shall CMAR subject any part of the Work or adjacent structures or land to stresses or pressures that could damage said structures or decrease their durability.

5.03 Subsurface and Physical Conditions

A. Reports and Drawings—:

1. The following table lists the reports of explorations and tests of subsurface conditions at or adjacent to the Site that contain Technical Data, and specifically identifies the Technical Data in the report upon which CMAR may rely: *No items are designated as Technical Data at this time but technical data anticipated to be provided is noted below. Owner will issue an amendment to designate Technical Data prior to GMP and/or any Work Authorization for affected packages.*

Report Title	Date of Report	Technical Data
Geotechnical Data Report	TBD	Boring Logs, Laboratory Test Results
Geophysical Field Services Report	TBD	Results of geophysical exploration

2. The following table lists the drawings of existing physical conditions at or adjacent to the Site, including those drawings depicting existing surface or subsurface structures at or adjacent to the Site, except Underground Facilities, that contain Technical Data, and specifically identifies the Technical Data upon which CMAR may rely: *No items are designated as Technical Data at this time. Owner will issue an amendment to designate Technical Data prior to GMP and/or any Work Authorization for affected packages.*

Drawings Title	Date of Drawings	Technical Data
		[Identify Technical Data]

3. Technical Data, if any, is described in such reports and drawings.

B. Underground Facilities—Underground Facilities are shown or indicated on the Drawings, pursuant to Paragraph 5.05, and not in the drawings referred to in Paragraph 5.03.A.

Information and data regarding the presence or location of Underground Facilities are not intended to be categorized, identified, or defined as Technical Data.

C. Reliance by CMAR on Technical Data—CMAR may rely upon the accuracy of the Technical Data expressly identified in 5.03.A with respect to such reports and drawings, but such reports and drawings are not Contract Documents. If no such express identification has been made, then CMAR may rely upon the accuracy of the Technical Data as defined in Paragraph 1.01.A.55.b, subject to CMAR's review obligations under Paragraph 3.03.A and provided such reliance is reasonable.

D. Limitations of Other Data and Documents—Except for reasonable reliance on Technical Data, CMAR may not rely upon or make any claim against Owner or Engineer, or any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors, with respect to:

1. the completeness of such reports and drawings for CMAR's purposes, including, but not limited to, any aspects of the means, methods, techniques, sequences, and procedures of construction to be employed by CMAR, and safety precautions and programs incident thereto;

2. other data, interpretations, opinions, and information contained in such reports or shown or indicated in such drawings;

3. the contents of other Site-related documents made available to CMAR, such as record drawings from other projects at or adjacent to the Site, or Owner's archival documents concerning the Site; or

4. any interpretation of or conclusion drawn by CMAR from any Technical Data or any such other data, interpretations, opinions, or information.

E. Confirmation of Site Conditions—As a part of Preconstruction Services CMAR will inform Owner if CMAR concludes that additional examination, investigation, exploration, testing, or study (Supplemental Investigations) of subsurface or physical conditions at the Site prior to commencement of construction would be advantageous, practical, and cost-effective, and shall specifically identify the nature and scope of any such recommended Supplemental Investigations. If Owner authorizes CMAR to conduct such Supplemental Investigations, through CMAR's own personnel or through a qualified consultant the accuracy of the results resulting therefrom shall be the responsibility of CMAR. If Owner conducts such Supplemental Investigations, including through the Engineer or a consultant, then CMAR will be entitled to rely on the results of the Supplemental Investigations. CMAR shall consider the results of Supplemental Investigations, together with the Technical Data cited above, in planning and pricing construction at the Site.

F. If Owner does not authorize any Supplemental Investigations of Site conditions, then CMAR will proceed with planning and pricing construction based on the Technical Data made available to it.

G. CMAR will be bound by any additional knowledge regarding Site conditions that CMAR gains while providing Preconstruction Services.

H. Notwithstanding CMAR's obligation to confirm Site conditions as part of CMAR's Preconstruction Services, before beginning any Work, CMAR and each Subcontractor shall evaluate and satisfy themselves as to the conditions and limitations under which the Work is

to be performed, including, without limitation, (1) the location, condition, layout and nature of the Project Site and surrounding areas including all access, hoisting requirements and conditions, Site logistics, and the geotechnical report, (2) generally prevailing climatic conditions, (3) anticipated labor supply and costs, (4) availability and cost of materials, tools and equipment, (5) any applicable rules and restrictions of Owner relating to construction on the real property and other buildings located in the vicinity of the Project, (6) applicable codes and Laws, and (7) other similar issues. The Owner assumes no responsibility or liability for the physical condition or safety of the Project Site or any improvements located on the Project Site. CMAR and its Subcontractors shall be solely responsible for providing a safe place for the performance of their Work. The Owner shall not be required to make any adjustment in either the Contract Price or Contract Time in connection with any failure by CMAR or any Subcontractor to comply with the requirements of this Paragraph.

5.04 Differing Subsurface or Physical Conditions

A. Notice by CMAR–If CMAR believes that any subsurface or physical condition that is uncovered or revealed at the Site:

1. is of such a nature as to establish that any Technical Data or Supplemental Investigations results on which CMAR is entitled to rely as provided in Paragraph 5.03 is materially inaccurate;

2. is of such a nature as to require a change in the Drawings or Specifications;

3. differs materially from that shown or indicated in the Contract Documents; or

4. is of an unusual nature, and differs materially from conditions ordinarily encountered and generally recognized as inherent in work of the character provided for in the Contract Documents;

then CMAR shall, promptly after becoming aware thereof and before further disturbing the subsurface or physical conditions or performing any Work in connection therewith, except in an emergency as required by Paragraph 7.18, notify Owner and Engineer in writing about such condition. CMAR shall not further disturb such condition or perform any Work in connection therewith, except with respect to an emergency, until receipt of a written statement permitting CMAR to do so.

B. Engineer's Review: After receipt of written notice as required by the preceding paragraph, Engineer will promptly review the subsurface or physical condition in question; determine whether it is necessary for Owner to obtain additional exploration or tests with respect to the condition; conclude whether the condition falls within any one or more of the differing site condition categories in Paragraph 5.04.A; obtain any pertinent cost or schedule information from CMAR; prepare recommendations to Owner regarding the CMAR's resumption of Work in connection with the subsurface or physical condition in question and the need for any change in the Drawings or Specifications; and advise Owner in writing of Engineer's findings, conclusions, and recommendations.

C. Owner's Statement to CMAR Regarding Site Condition–Owner will issue a written statement to CMAR (with a copy to Engineer) regarding the subsurface or physical condition in question, addressing the resumption of Work in connection with such condition, indicating whether any change in the Drawings or Specifications will be made, and informing CMAR of Engineer's written findings, conclusions, and recommendations in whole or in part.

D. Early Resumption of Work: If at any time Owner or Engineer determines that Work in connection with the subsurface or physical condition in question may resume prior to completion of Engineer's review or Owner's issuance of its statement to CMAR, because the condition in question has been adequately documented, and analyzed on a preliminary basis, then Owner may, or the Engineer may with Owner's approval, instruct CMAR to resume such Work.

E. Possible Price and Times Adjustments

1. CMAR shall be entitled to request an adjustment in Guaranteed Maximum Price or Contract Times, to the extent that the existence of a differing subsurface or physical condition, or any related delay, disruption, or interference, causes an increase or decrease in CMAR's cost of, or time required for, performance of the Work; subject, however, to the following:

    a. Such condition must fall within any one or more of the categories described in Paragraph 5.04.A;

    b. Any adjustment to the Guaranteed Maximum Price under this Paragraph shall be limited to the reasonable, direct costs, including Time-Sensitive Construction Support Costs as provided in Paragraph 5.03.B of the Agreement, actually incurred by the CMAR due to the differing subsurface or physical condition and any delay, disruption, or interference directly resulting from those conditions.

    c. With respect to Work that is paid for on a unit price basis, any adjustment in Guaranteed Maximum Price will be subject to the provisions of Paragraph 13.02; and

    d. CMAR's entitlement to an adjustment of the Contract Times is subject to the provisions of Paragraphs 4.05.D and 4.05.E, and Article 12.

2. CMAR shall not be entitled to any adjustment in the Guaranteed Maximum Price or Contract Times with respect to a subsurface or physical condition if:

    a. CMAR knew of the existence of such condition at the time CMAR made a commitment to Owner with respect to Guaranteed Maximum Price and Contract Times through a Work Authorization;

    b. The existence of such condition reasonably could have been discovered or revealed as a result of any examination, investigation, exploration, test, or study of the Site or contiguous areas expressly required by the Request for Proposals or Contract Documents, including, without limitation the review required by Paragraph 3.03.A above, to be conducted by or for CMAR prior to CMAR's making such commitment;

    c. The existence of such condition reasonably could have been discovered or revealed as a result of practical and cost-effective Supplemental Investigations, as defined in Paragraph 5.03.E, but CMAR did not recommend any such Supplemental Investigations to Owner; or

    d. CMAR failed to give the written notice required by Article 12 and Paragraph 5.04.A.

3. If Owner and CMAR agree regarding CMAR's entitlement to and the amount or extent of any adjustment in the Guaranteed Maximum Price or Contract Times for differing

subsurface or physical Site conditions under this Paragraph 5.04, then any such adjustment will be set forth in a Change Order.

4. CMAR may submit a Change Proposal regarding its entitlement to or the amount or extent of any adjustment in the Guaranteed Maximum Price or Contract Times, no later than 14 days after Owner's issuance of the Owner's written statement to CMAR regarding the subsurface or physical condition in question.

F. Underground Facilities; Hazardous Environmental Conditions–Paragraph 5.05 governs rights and responsibilities regarding the presence or location of Underground Facilities. Paragraph 5.06 governs rights and responsibilities regarding Hazardous Environmental Conditions. The provisions of Paragraphs 5.03 and 5.04 are not applicable to the presence or location of Underground Facilities, or to Hazardous Environmental Conditions.

5.05 Underground Facilities

A. CMAR's Responsibilities–The cost of all the following is included in the Guaranteed Maximum Price, and CMAR shall have full responsibility for:

1. collaborating with Engineer during the design phase, as part of Preconstruction Services, to improve the accuracy and completeness of information regarding Underground Facilities that Engineer gathers and depicts in the final Contract Documents;

2. complying with applicable state and local utility damage prevention Laws and Regulations;

3. verifying the actual location of those Underground Facilities shown or indicated in the Contract Documents as being within the area affected by the Work, by exposing such Underground Facilities prior to construction;

4. coordination of the Work with the owners, including Owner, of such Underground Facilities, during construction; and

5. the safety and protection of all existing Underground Facilities at the Site and repairing any damage thereto resulting from the Work.

B. Notice by CMAR–If CMAR believes that an Underground Facility that is uncovered or revealed at the Site during construction was not shown or indicated on the Drawings, or was not shown or indicated on the Drawings with reasonable accuracy and the existence of such Underground Facility, then CMAR shall, promptly after becoming aware thereof and before further disturbing conditions affected thereby or performing any Work in connection therewith, except in an emergency as required by Paragraph 7.18, notify Owner and Engineer in writing regarding such Underground Facility.

C. Engineer's Review

1. Engineer will:

a. promptly review the Underground Facility and conclude whether such Underground Facility was not shown or indicated on the Drawings, or was not shown or indicated with reasonable accuracy, or reasonably could not have been discovered or revealed as a result of any examination, investigation, exploration, test, or study of the Site or contiguous areas by CMAR expressly required by the Request for Proposals or Contract Documents prior to establishing a GMP with

respect to affected Work, including, without limitation the review required by Paragraph 3.03.A above;

b. identify and communicate with the owner of the Underground Facility; prepare recommendations to Owner, and if necessary, issue any preliminary instructions to CMAR regarding the CMAR's resumption of Work in connection with the Underground Facility in question;

c. obtain any pertinent cost or schedule information from CMAR; determine the extent, if any, to which a change is required in the Drawings or Specifications to reflect and document the consequences of the existence or location of the Underground Facility; and

d. Advise Owner in writing of Engineer's findings, conclusions, and recommendations.

During such time, CMAR shall be responsible for the safety and protection of such Underground Facility.

D. Owner's Statement to CMAR Regarding Underground Facility—Owner will issue a written statement to CMAR (with a copy to Engineer) regarding the Underground Facility in question, addressing the resumption of Work in connection with such Underground Facility, indicating whether any change in the Drawings or Specifications will be made, and informing CMAR of Engineer's written findings, conclusions, and recommendations in whole or in part..

E. Early Resumption of Work–If at any time Owner or Engineer determines that Work in connection with the Underground Facility may resume prior to completion of Owner's or Engineer's review or Owner's issuance of its statement to CMAR, because the Underground Facility in question and conditions affected by its presence have been adequately documented, and analyzed on a preliminary basis, then Owner, or the Engineer with Owner's approval, may instruct CMAR to resume such Work.

F. Possible Price and Times Adjustments

1. CMAR shall be entitled to request an adjustment in the Guaranteed Maximum Price or Contract Times, to the extent that any existing Underground Facility at the Site that was not shown or indicated on the Drawings, was not shown or indicated with reasonable accuracy, reasonably could not have been discovered or revealed as a result of any examination, investigation, exploration, test, or study of the Site or contiguous areas by CMAR expressly required by the Request for Proposals or Contract Documents prior to establishing a GMP with respect to affected Work, including, without limitation the review required by Paragraph 3.03.A above, or any related delay, disruption, or interference, causes an increase or decrease in CMAR's cost of, or time required for, performance of the Work; subject, however, to the following limitations:

a. With respect to Work that is paid for on a unit price basis, any adjustment in Guaranteed Maximum Price will be subject to the provisions of Paragraph 13.02;

b. Any adjustment to the Guaranteed Maximum Price under this Paragraph shall be limited to the reasonable, direct costs incurred by the CMAR due to any such existing Underground Facility and any delay, disruption, or interference directly resulting from such facility;

c. CMAR's entitlement to an adjustment of the Contract Times is subject to the provisions of Paragraphs 4.05.D and 4.05.E; and

d. CMAR gave the notice required in Article 12 and Paragraph 5.05.B.

2. If Owner and CMAR agree regarding CMAR's entitlement to and the amount or extent of any adjustment in the Guaranteed Maximum Price or Contract Times under this Paragraph 5.05, then any such adjustment will be set forth in a Change Order.

3. CMAR may submit a Change Proposal regarding its entitlement to or the amount or extent of any adjustment in the Guaranteed Maximum Price or Contract Times, no later than 14 days after Owner's issuance of the Owner's written statement to CMAR regarding the Underground Facility in question.

4. The information and data shown or indicated on the Drawings with respect to existing Underground Facilities at the Site is based on information and data (a) furnished by the owners of such Underground Facilities, or by others, (b) obtained from available records, or (c) gathered in an investigation conducted in accordance with the current edition of ASCE Manual 38, Standard Guideline for Investigating and Documenting Existing Utilities, by the American Society of Civil Engineers. If such information or data is incorrect or incomplete, CMAR's remedies are limited to those set forth in this Paragraph 5.05.F.

5.06 Hazardous Environmental Conditions at Site

A. Reports and Drawings:

1. The following table lists the reports known to Owner relating to Hazardous Environmental Conditions at or adjacent to the Site, and the Technical Data, if any, upon which CMAR may rely:

Report Title	Date of Report	Technical Data
No reports relating to Hazardous Environmental Conditions have been identified at or adjacent to the Site.	N/A	N/A

2. The following table lists the drawings known to Owner relating to Hazardous Environmental Conditions at or adjacent to the Site, and Technical Data, if any, contained in such Drawings upon which CMAR may rely:

Drawings Title	Date of Drawings	Technical Data
No drawings relating to Hazardous Environmental Conditions have been identified at or adjacent to the Site.	N/A	N/A

3. Technical Data, if any, is described in such reports and drawings.

B. Reliance by CMAR on Technical Data Authorized–CMAR may rely, if reasonable, upon the accuracy of the Technical Data expressly identified in 5.06.A with respect to such reports and drawings, but such reports and drawings are not Contract Documents. If no such express identification has been made, then CMAR may rely, if reasonable, on the accuracy of the Technical Data as defined in Paragraph 1.01.A.55.b. Except for such reliance on Technical Data, CMAR may not rely upon or make any claim against Owner or Engineer, or any of their elected officials, officers, directors, members, partners, employees, agents, consultants, or subcontractors, with respect to:

1. the completeness of such reports and drawings for CMAR's purposes, including, but not limited to, any aspects of the means, methods, techniques, sequences, and procedures of construction to be employed by CMAR, and safety precautions and programs incident thereto;
2. other data, interpretations, opinions, and information contained in such reports or shown or indicated in such drawings; or
3. any CMAR interpretation of or conclusion drawn from any Technical Data or any such other data, interpretations, opinions, or information.

C. CMAR shall not be responsible for removing or remediating any Hazardous Environmental Condition encountered, uncovered, or revealed at the Site unless such removal or remediation is expressly identified in the Contract Documents to be within the scope of the Work.

D. CMAR shall be responsible for controlling, containing, and duly removing all Constituents of Concern brought to the Site by CMAR, Subcontractors, Suppliers, or anyone else for whom CMAR is responsible, and for any associated costs; and for the costs of removing and remediating any Hazardous Environmental Condition created by the presence of any such Constituents of Concern.

E. If CMAR encounters, uncovers, or reveals a Hazardous Environmental Condition whose removal or remediation is not expressly identified in the Contract Documents as being within the scope of the Work, or if CMAR or anyone for whom CMAR is responsible creates a Hazardous Environmental Condition, then CMAR shall immediately: (1) secure or otherwise isolate such condition; (2) stop all Work in connection with such condition and in any area affected thereby, except in an emergency as required by Paragraph 7.18; and (3) notify Owner and Engineer, and promptly thereafter confirm such notice in writing. Owner may consult with Engineer concerning the necessity for Owner to retain a qualified expert to evaluate such condition or take corrective action, if any. After consulting with Engineer, Owner shall take such actions Owner deems are necessary to permit Owner to obtain required permits and provide CMAR with the written notice under Paragraph 5.06.E. If CMAR or anyone for whom CMAR is responsible created the Hazardous Environmental Condition in question, then Owner may remove and remediate the Hazardous Environmental Condition and impose a set-off against payments to account for the associated costs.

F. CMAR shall not resume Work in connection with such Hazardous Environmental Condition or in any affected area until after Owner has obtained any required permits related thereto and delivered written notice to CMAR either (1) specifying that such condition and any affected area is or has been rendered safe for the resumption of Work, or (2) specifying any special conditions under which such Work may be resumed safely.

G. If Owner and CMAR cannot agree as to entitlement to or on the amount or extent, if any, of any adjustment in Guaranteed Maximum Price or Contract Times, as a result of such Work stoppage, such special conditions under which Work is agreed to be resumed by CMAR, or any costs or expenses incurred in response to the Hazardous Environmental Condition, then within 14 days of Owner's written notice regarding the resumption of Work, CMAR may submit a Change Proposal, or Owner may impose a set-off. Entitlement to any such adjustment is subject to the provisions of Paragraphs 4.05.D, 4.05.E, 11.07, and 11.08.

H. If, after receipt of such written notice, CMAR does not agree to resume such Work based on a reasonable belief it is unsafe or does not agree to resume such Work under such special conditions, then Owner may order the portion of the Work that is in the area affected by such condition to be deleted from the Work, following the contractual change procedures in Article 11. Owner may have such deleted portion of the Work performed by Owner's own forces or others in accordance with Article 8.

I. Not used

J. To the fullest extent permitted by Laws and Regulations, CMAR shall indemnify, defend, and hold harmless Owner and its officers, directors, elected officials from and against all claims, costs, losses, and damages, including but not limited to all fees and charges of construction managers engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs, arising out of or relating to the failure to control, contain, or remove a Constituent of Concern brought to the Site by CMAR or by anyone for whom CMAR is responsible, or to a Hazardous Environmental Condition created by CMAR or by anyone for whom CMAR is responsible.

K. The provisions of Paragraphs 5.03, 5.04, and 5.05 do not apply to the presence of Constituents of Concern or to a Hazardous Environmental Condition uncovered or revealed at the Site.

ARTICLE 6—BONDS AND INSURANCE

CMAR shall obtain Bonds and Insurance and perform and satisfy all obligations related thereto as set forth in the Insurance Requirements Exhibit attached to the Agreement.

ARTICLE 7—CMAR'S RESPONSIBILITIES

7.01 CMAR's Means and Methods of Construction

A. CMAR shall be solely responsible for the means, methods, techniques, sequences, and procedures of construction.

B. If the Contract Documents note, or CMAR determines, that professional engineering or other design services are needed to carry out CMAR's responsibilities for construction means, methods, techniques, sequences, and procedures, or for Site safety, then CMAR shall cause such services to be provided by a properly licensed design professional, at CMAR's expense. Such services are not Owner-delegated professional design services under this Contract, and neither Owner nor Engineer has any responsibility with respect to (1) CMAR's determination of the need for such services, (2) the qualifications or licensing of the design professionals retained or employed by CMAR, (3) the performance of such services, or (4) any errors, omissions, or defects in such services.

7.02 Supervision and Superintendence

A. CMAR shall supervise, inspect, and direct the Work competently and efficiently, using CMAR's best skill and attention thereto and applying such skills and expertise as may be necessary to perform the Work in accordance with the Contract Documents.

B. At all times during the progress of the Work, CMAR shall assign a competent resident superintendent who will not be replaced without prior written notice to Owner and Engineer except under extraordinary circumstances. The superintendent shall remain on the Project

during the progress of the Work, and for not less than the number of hours and days necessary to complete the Project within the Contract Time. The superintendent shall not be employed on other projects during the course of this Project.

C. CMAR shall ensure that all Suppliers and Subcontractors adhere to the Contract Documents and that they order and provide materials to the jobsite on time, taking into account the current market and delivery conditions. CMAR shall coordinate its Work with that of all persons or entities performing portions of the Work on the Project, including deliveries, storage, installations and construction of utilities.

D. CMAR shall develop and implement a system and procedures for reviewing its own Work and the work of its Subcontractors for defects and deficiencies, including the preparation of all appropriate quality control documentation, to assure that all such defects and deficiencies are discovered and corrected. CMAR shall be responsible for inspection of portions of Work already performed under this Contract to determine that such portions are in proper condition to receive subsequent Work.

7.03 CMAR Services—Key Personnel and Subconsultants

A. CMAR will provide the services of the key individuals identified in the Agreement for CMAR Services (Preconstruction Services and Procurement Services) for the duration of the time required to provide these services. CMAR may substitute other individuals for the key individuals identified in the Agreement or for individuals previously approved only upon good cause and with the written consent of the Owner. Subject to the foregoing, not providing the individuals proposed is permissible grounds for Owner's termination of this Contract for cause.

B. CMAR may provide CMAR Services through one or more subconsultants under contract to CMAR provided, however, that CMAR remains responsible to the Owner for all duties and obligations of the CMAR under this Contract, and in rendering services any such subconsultant must comply with all applicable terms and conditions of the Contract Documents. If the Agreement identifies a specific subconsultant, CMAR will provide the services of such subconsultant for the duration of the time required to complete the subcontracted tasks. CMAR may substitute other subconsultants for the subconsultants identified in the Agreement or previously approved only with the written consent of the Owner. Subject to the foregoing, not providing the subconsultants proposed is permissible grounds for Owner's termination of this Contract for cause.

7.04 Quality of CMAR Services

A. The Owner has the right to reject or disapprove any substandard portion of the CMAR Services. Owner will provide written notice stating the reason for the rejection or disapproval. CMAR will revise the services in question to address the inadequacies identified by Owner.

B. CMAR acknowledges that any review or approval of CMAR Services by the Owner does not relieve CMAR of its responsibility to properly and timely perform such services.

7.05 Continuation or Termination of CMAR Services

A. Owner may terminate this Contract for Owner's convenience at any point in the CMAR Services.

7.06 Labor; Working Hours

A. CMAR shall provide competent, suitably qualified personnel to survey and lay out the Work and perform construction as required by the Contract Documents. CMAR shall maintain good discipline and order at the Site. CMAR shall not permit employment of unfit persons or persons not properly skilled in tasks assigned to them or who CMAR knows or through diligence should know is not authorized to work under applicable Laws. At no time shall any individual engage in any illegal activities at the site, consume or possess alcoholic beverages at the Site, or use illegal drugs at the Site. CMAR understands and agrees that if its employees or any other person carrying out the Work engage in unsafe, inappropriate, offensive or disorderly conduct or harasses Owner, its guests, employees or patrons, Owner may require CMAR to permanently remove such offending employees from Site.

B. CMAR shall provide or furnish:

1. Construction-related services as described in Division 00 and Division 01 of the Contract Documents;

2. Post-construction services as described in Division 00 and Division 01 of the Contract Documents; and

3. All other construction-related and post-construction services described in the Contract Documents.

C. CMAR shall be fully responsible to Owner and Engineer for all acts and omissions of CMAR's employees; of subconsultants, Suppliers, and Subcontractors, and their employees; and of any other individuals or entities performing or furnishing any of the CMAR Services or the Work, just as CMAR is responsible for CMAR's own acts and omissions.

D. Except as otherwise required for the safety or protection of persons or the Work or property at the Site or adjacent thereto, and except as otherwise stated in the Contract Documents, all Work at the Site will be performed during regular working hours, Monday through Friday. CMAR will not perform Work on a Saturday, Sunday, or legal holiday. CMAR may perform Work outside regular working hours or on Saturdays, Sundays, or legal holidays only with Owner's written consent, which will not be unreasonably withheld.

E. CMAR shall be responsible for the cost of any overtime pay or other expense incurred by the Owner for Owner's and Engineer's services, including but not limited to, construction observation services, occasioned by the performance of Work on Saturday, Sunday, any legal holiday, or as overtime on any regular work day. If CMAR is responsible but does not pay, or if the parties are unable to agree as to the amount owed, then Owner may impose a reasonable set-off against payments due under Article 15.

7.07 Services, Materials, and Equipment

A. Unless otherwise specified in the Contract Documents, CMAR shall provide and assume full responsibility for all services, materials, equipment, labor, transportation, construction equipment and machinery, tools, appliances, fuel, power, light, heat, telephone, water, sanitary facilities, temporary facilities, and all other facilities and incidentals necessary for the performance, testing, start up, and completion of the Work, whether or not such items are specifically called for in the Contract Documents.

B. All materials and equipment incorporated into the Work must be new and of good quality, except as otherwise provided in the Contract Documents. All special warranties and

guarantees required by the Specifications will expressly run to the benefit of Owner. All manufacturer's warranties for materials and equipment shall be assigned to Owner upon incorporation thereof into the Work, and CMAR shall provide all reasonable assistance to Owner and execute any documents to effect such assignments. If required by Engineer or Owner, the CMAR shall furnish satisfactory evidence, including reports of required tests, as to the source, kind, and quality of materials and equipment.

C. All materials and equipment must be stored, applied, installed, connected, erected, protected, used, cleaned, and conditioned in accordance with the manufacturer's or Suppliers instructions except as otherwise may be provided in the Contract Documents.

D. CMAR will be fully responsible for the quality and effectiveness (1) of all services performed or provided by CMAR, including but not limited to CMAR Services and general services in support of construction, and (2) of the deliverables and documentation associated with all such services.

7.08 "Or Equals"

A. CMAR's Request; Governing Criteria–Whenever an Item of equipment or material is specified or described in the Contract Documents by using the names of one or more proprietary items or specific Suppliers, the Guaranteed Maximum Price has been based upon CMAR furnishing such Item as specified. The specification or description of such an Item is intended to establish the type, function, appearance, and quality required. Unless the specification or description contains or is followed by words reading that no like, equivalent, or "or equal" item is permitted, CMAR may request that Engineer authorize the use of other items of equipment or material, or items from other proposed Suppliers, under the circumstances described below.

1. If Engineer, in consultation with Owner, determines that an Item of equipment or material proposed by CMAR is functionally equal to that named and sufficiently similar so that no change in related Work will be required, Engineer will deem it an "or equal" item. For the purposes of this paragraph, a proposed Item of equipment or material will be considered functionally equal to an Item so named if:

a. in the exercise of reasonable judgment Engineer, in consultation with Owner, determines that the proposed item:

1) is at least equal in materials of construction, quality, durability, appearance, strength, and design characteristics;

2) will reliably perform at least equally well the function and achieve the results imposed by the design concept of the completed Project as a functioning whole;

3) has a proven record of performance and availability of responsive service; and

4) is not objectionable to Owner.

b. CMAR certifies that if the proposed Item is approved and incorporated into the Work:

1) there will be no increase in cost to the Owner or increase in Contract Times; and

2) the Item will conform substantially to the detailed requirements of the Item named in the Contract Documents.

B. CMAR's Expense–CMAR shall provide all data in support of any proposed "or equal" Item at CMAR's expense.

C. Engineer's Evaluation and Determination–Engineer will be allowed a reasonable time to evaluate each "or-equal" request and consult with Owner. Engineer may require CMAR to furnish additional data about the proposed "or-equal" item. Engineer in consultation with Owner, will be the sole judge of acceptability. No "or-equal" Item will be ordered, furnished, installed, or utilized until Engineer's review is complete and Engineer, in consultation with Owner, has determined that the proposed Item is equal, which will be evidenced by an approved Shop Drawing or other written communication. Engineer will advise CMAR in writing of any negative determination.

D. Effect of Engineer's Determination–Neither approval nor denial of an "or-equal" request will result in any change in Guaranteed Maximum Price. The Engineer's denial of an "or-equal" request will be final and binding and may not be reversed through an appeal under any provision of the Contract.

E. Treatment as a Substitution Request–If Engineer determines that an Item of equipment or material proposed by CMAR does not qualify as an "or-equal" item, CMAR may request that Engineer consider the Item a proposed substitute pursuant to Paragraph 7.09.

7.09 Substitutes

A. CMAR's Request; Governing Criteria–Unless the specification or description of an Item of equipment or material required to be furnished under the Contract Documents contains or is followed by words reading that no substitution is permitted, CMAR may request that Engineer authorize the use of other items of equipment or material under the circumstances described below.

B. To the extent possible such requests must be made as part of Preconstruction Services, before the completion of the applicable portion of the design, the Procurement of Subcontractors, construction pricing, and execution of the governing Work Authorization (Preconstruction Substitute Requests). Preconstruction Substitute Requests are further addressed in Paragraph 7.09.E below; substitute requests made after the applicable Work Authorization are addressed in Paragraph 7.09.F.

C. The following provisions apply to all substitute requests:

1. CMAR shall submit adequate information as provided below to allow Engineer, in consultation with Owner, to determine if the Item of material or equipment proposed is functionally equivalent to that named and an acceptable substitute therefor. Engineer will not accept requests for review of proposed substitute items of equipment or material from anyone other than CMAR.

2. The requirements for review by Engineer, in consultation with Owner, will be as set forth in Paragraph 7.09.D, as supplemented by the Specifications, and as Engineer, in consultation with Owner, may decide is appropriate under the circumstances.

3. CMAR shall make written application to Engineer and Owner for review of a proposed substitute Item of equipment or material that CMAR seeks to furnish or use. The application:

a. will certify that the proposed substitute Item will:

1) adequately perform the functions and achieve the results called for by the general design;

2) be similar in substance to the Item specified; and

3) be suited to the same use as the Item specified.

b. will state:

1) the extent, if any, to which the use of the proposed substitute Item will necessitate a change in Contract Times;

2) whether use of the proposed substitute Item in the Work will require a change in any of the Contract Documents, or in the provisions of any other direct contract with Owner for other work on the Project, to adapt the design to the proposed substitute item; and

3) whether incorporation or use of the proposed substitute Item in connection with the Work is subject to payment of any license fee or royalty.

c. will identify:

1) all variations of the proposed substitute Item from the Item specified; and

2) available engineering, sales, maintenance, repair, and replacement services.

d. will contain, to the extent applicable, an itemized estimate of all costs, anticipated price impacts, or credits that will result directly or indirectly from use of such substitute item, including but not limited to changes in Guaranteed Maximum Price, shared savings, costs of redesign, and claims of other contractors affected by any resulting change.

D. Engineer's Determination–Engineer will be allowed a reasonable time to evaluate each substitute request, and to obtain comments and direction from Owner. Engineer may require CMAR to furnish additional data about the proposed substitute item. Engineer, in consultation with Owner, will be the sole judge of acceptability. No substitute will be ordered, furnished, installed, or utilized until Engineer's review is complete and Engineer, in consultation with Owner, determines that the proposed Item is an acceptable substitute.

E. Preconstruction Substitute Requests—CMAR will research potential substitutes, furnish data, and prepare a Preconstruction Substitute Request as compensable Basic Preconstruction Services.

F. For substitute requests made after a Work Authorization, or in an untimely manner such that the substitution cannot be made part of the final design on which binding construction pricing is based, the following apply:

1. Owner's acceptance of Engineer's determination will be evidenced by a Change Order issued by the Owner accounting for the substitute itself and all related impacts, including changes in Guaranteed Maximum Price or Contract Times. Engineer will advise CMAR in writing of any negative determination.

2. Special Guarantee–Owner may require CMAR to furnish at CMAR's expense a special performance guarantee or other surety with respect to the substitute.

3. Reimbursement of Review Cost–Owner and Engineer will record their costs in evaluating the substitute proposed or submitted by CMAR. Whether or not Engineer approves a substitute so proposed or submitted by CMAR, CMAR shall reimburse Owner for the reasonable charges of Owner and Engineer for evaluating each such proposed substitute. CMAR shall also reimburse Owner for the reasonable charges of Owner and Engineer for making changes in the Contract Documents, or in the provisions of any other direct contract with Owner resulting from the acceptance of each proposed substitute.

4. CMAR's Expense–CMAR shall provide all data in support of any proposed substitute at CMAR's expense.

5. Effect of Engineer's Determination–If Owner accepts Engineer's determination and approves the substitute request, CMAR shall execute a Change Order and proceed with the substitute. The Owner's denial of a substitution request will be final and binding and may not be reversed through an appeal under any provision of the Contract. CMAR may challenge the scope of reimbursement costs imposed under Paragraph 7.09.F.3, by timely submittal of a Change Proposal.

7.10 Concerning Subcontractors and Suppliers

A. CMAR shall retain Subcontractors and Suppliers for the performance of parts of the Work as provided by the Agreement. Such Subcontractors and Suppliers must be acceptable to Owner. The CMAR's retention of a Subcontractor or Supplier for the performance of parts of the Work will not relieve CMAR's obligation to Owner to perform and complete the Work in accordance with the Contract Documents.

B. CMAR shall retain specific Subcontractors and Suppliers for the performance of designated parts of the Work if required by the Contract to do so.

C. As a general matter, CMAR shall retain Subcontractors and Suppliers for Work Packages through the procurement process described in the Agreement, including but not limited to the Procurement Strategy Plan and Exhibit A Article 3 of the Agreement. If there is a conflict between such provisions of the Agreement and this paragraph, the provisions of the Agreement will govern.

D. Subsequent to the submittal of CMAR's Proposal or final negotiation of the terms of the Contract, Owner may not require CMAR to retain any Subcontractor or Supplier against which CMAR has reasonable objection to furnish or perform any of the Work.

E. Prior to entry into any binding subcontract or purchase order, CMAR shall submit to Owner the identity of the proposed Subcontractor or Supplier, unless Owner has already deemed such proposed Subcontractor or Supplier acceptable during the CMAR selection process, the Subcontractor and Supplier procurement process, or otherwise. Such proposed Subcontractor or Supplier will be deemed acceptable to Owner unless Owner raises a substantive, reasonable objection within 5 days.

F. Owner may require the replacement of a Subcontractor or Supplier. Owner also may require CMAR to retain specific replacements; provided, however, that Owner may not require a replacement to which CMAR has a reasonable objection. If CMAR has submitted the identity of certain Subcontractors or Suppliers for acceptance by Owner, through the Subcontractor and Supplier procurement process or otherwise, and Owner has accepted it, either in writing or by failing to make written objection thereto, then Owner may subsequently revoke the

acceptance of any such Subcontractor or Supplier so identified solely on the basis of substantive, reasonable objection after due investigation. CMAR shall submit an acceptable replacement for the rejected Subcontractor or Supplier.

G. If Owner requires the replacement of any Subcontractor or Supplier retained by CMAR to perform any part of the Work, then CMAR shall be entitled to request an adjustment in Guaranteed Maximum Price or Contract Times, with respect to the replacement; and CMAR shall initiate a Change Proposal for such adjustment within 30 days of Owner's requirement of replacement.

H. No acceptance by Owner of any such Subcontractor or Supplier, whether initially or as a replacement, will constitute a waiver of the right of Owner to the completion of the Work in accordance with the Contract Documents.

I. On a monthly basis, CMAR shall submit to Owner and Engineer a complete list of all Subcontractors and Suppliers having a direct contract with CMAR, and of all other Subcontractors and Suppliers known to CMAR at the time of submittal.

J. CMAR shall be solely responsible for scheduling and coordinating the work of Subcontractors and Suppliers.

K. The divisions and sections of the Specifications and the identifications of any Drawings do not control CMAR in dividing the Work among Subcontractors or Suppliers, or in delineating the Work to be performed by any specific trade.

L. All Work performed for CMAR by a Subcontractor or Supplier must be pursuant to an appropriate contractual agreement that specifically binds the Subcontractor or Supplier to the applicable terms and conditions of the Contract for the benefit of Owner and Engineer.

M. Owner may furnish to any Subcontractor or Supplier, to the extent practicable, information about amounts paid to CMAR for Work performed for CMAR by the Subcontractor or Supplier.

N. CMAR shall restrict all Subcontractors and Suppliers from communicating with Engineer or Owner, except through CMAR or in case of an emergency, or as otherwise expressly allowed in this Contract.

O. CMAR will perform or undertake the responsibilities of any Subcontractor or Supplier that defaults, fails to perform, declares bankruptcy, or meets any of the other requirements for termination for cause listed as applying to the CMAR as described in Paragraph 16.02 of the General Conditions.

P. Upon receiving a payment from Owner, CMAR shall pay Subcontractors and Suppliers their share of the payment for their work not later than the tenth (10th) day after the date CMAR receives the payment as required by Tex. Gov't Code § 2251.022. CMAR shall ensure Subcontractors and Suppliers similarly comply with their payment obligations under Tex. Gov't Code § 2251.022.

7.11 Patent Fees and Royalties

A. CMAR shall pay all license fees and royalties and assume all costs incident to the use in the performance of the Work or the incorporation in the Work of any invention, design, process, product, or device which is the subject of patent rights or copyrights held by others.

B. Intentionally Deleted.

C. Indemnification obligations by CMAR under Paragraph 7.21 apply with respect to any infringement or claim of infringement of patent rights or copyrights incident to the use in the performance of the Work or resulting from the incorporation in the Work of any invention, design, process, product, or device not specified in the Contract Documents.

7.12 Permits

A. Unless otherwise provided in the Contract Documents, CMAR shall obtain and pay for all construction permits, licenses, and certificates of occupancy. Owner shall assist CMAR, when necessary, in obtaining such permits and licenses. CMAR shall pay all governmental charges and inspection fees necessary for the prosecution of the Work which are applicable at the time of the submission of CMAR's Proposal. Owner shall pay all charges of utility owners for connections for providing permanent service to the Work.

7.13 Taxes

A. CMAR shall pay all sales, consumer, use, and other similar taxes required to be paid by CMAR in accordance with the Laws and Regulations of the place of the Project which are applicable during the performance of the Work. CMAR acknowledges that because Owner is an agency of the State of Texas, materials and services utilized in the construction of the Project may be exempted from state and local taxes and CMAR is responsible for taking full advantage of all tax exemptions applicable to the Project, which are not reimbursable Construction Support Costs and will be deducted from any Applications for Payment to the extent paid.

7.14 Laws and Regulations

A. CMAR shall give all notices required by and shall comply with all Laws and Regulations applicable to the performance of CMAR Services or the Work. Neither Owner nor Engineer will be responsible for monitoring CMAR's compliance with Laws or Regulations.

B. If CMAR performs any CMAR Services or Work or takes any other action knowing or having reason to know that it is contrary to Laws or Regulations, CMAR shall bear all resulting costs and losses, and shall indemnify and hold harmless the Indemnified Parties costs, losses, and damages, including but not limited to all fees and charges of construction managers, engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs, arising out of or relating to such CMAR Services, Work, or other action.

C. It is not CMAR's responsibility to make certain that the Work described in the Contract Documents is in accordance with Laws and Regulations, but this does not relieve CMAR of its obligations under Paragraph 3.03.

D. Owner or CMAR may give written notice to the other party after the issuance of a Work Order or after the parties reach agreement on the GMP for the Project of any changes in Laws or Regulations having an effect on the cost or time of performance of the Work, including but not limited to changes in Laws or Regulations having an effect on procuring permits and on sales, use, value-added, consumption, and other similar taxes. If Owner and CMAR are unable to agree on entitlement to or on the amount or extent, if any, of any adjustment in Guaranteed Maximum Price or Contract Times resulting from such changes, then within 30 days of such written notice CMAR may submit a Change Proposal, or Owner may initiate a Claim.

E. CMAR will be required to pay not less than the prevailing wage of the various classes of labor and shall comply will the applicable provisions of Chapter 2258 of the Texas Government Code Title 10. This determination of prevailing wages shall not be construed to prohibit the payment of more than the rate named. Under no condition shall any laborer, workman or mechanic employed on this job be paid less than the minimum wage scale as determined by the United States Department of Labor in accordance with the Davis-Bacon Act (40 U.S.C. Section 276a et seq.), and its subsequent amendments. CMAR shall post the applicable prevailing wage rate determination in a prominent, easily accessible place at the Project Site as required under the foregoing act. CMAR's payroll records and practices are subject to audit as provided in the Contract Documents to ensure compliance with the Contract.

F. CMAR shall ensure that it and all of its Subcontractors and assigns prevent illegal dumping of litter in accordance with Title 5, Texas Health and Safety Code, Chapter 365.

G. Pursuant to Sections 2107.008 and 2252.903, Texas Government Code, CMAR agrees that any payments owing to CMAR under the Agreement may be applied directly toward any debt or delinquency that CMAR owes the State of Texas or any agency of the State of Texas regardless of when it arises, until such debt or delinquency is paid in full.

7.15 Record Documents

A. CMAR shall maintain in a safe place at the Site one printed record copy of all Drawings, Specifications, Addenda, Change Orders, Work Change Directives, Field Orders, Contract Amendments, Work Packages, Work Authorizations, written interpretations and clarifications, and approved Shop Drawings. CMAR shall keep such record documents in good order and annotate them to show changes made during construction. These record documents, together with all approved Samples, will be available to Owner and Engineer for reference. Upon completion of the Work, CMAR shall deliver these record documents to Owner.

7.16 Safety and Protection

A. CMAR shall be solely responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the Work. Such responsibility does not relieve Subcontractors of their responsibility for the safety of persons or property in the performance of their work, nor for compliance with applicable safety Laws and Regulations.

B. CMAR shall designate a qualified and experienced safety representative whose duties and responsibilities are the prevention of Work-related accidents and the maintenance and supervision of safety precautions and programs.

C. CMAR shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury, or loss to:

1. all persons on the Site or who may be affected by the Work;

2. all the Work and materials and equipment to be incorporated therein, whether in storage on or off the Site; and

3. other property at the Site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, other work in progress, utilities, and Underground Facilities not designated for removal, relocation, or replacement in the course of construction.

D. All damage, injury, or loss to any property referred to in Paragraph 7.16.C.2 or 7.16.C.3 caused, directly or indirectly, in whole or in part, by CMAR, any Subcontractor, Supplier, or any other individual or entity directly or indirectly employed by any of them to perform any of the Work, or anyone for whose acts any of them may be liable, will be remedied by CMAR at its expense, except damage or loss attributable to the fault of Drawings or Specifications or to the acts or omissions of Owner or Engineer or anyone employed by any of them, or anyone for whose acts any of them may be liable, and not attributable, directly or indirectly, in whole or in part, to the fault or negligence of CMAR or any Subcontractor, Supplier, or other individual or entity directly or indirectly employed by any of them.

E. CMAR shall comply with all applicable Laws and Regulations relating to the safety of persons or property, or to the protection of persons or property from damage, injury, or loss; and shall erect and maintain all necessary signage, warnings, and safeguards for such safety and protection.

F. CMAR shall notify Owner and Engineer; the owners of adjacent property; the owners of Underground Facilities and other utilities, if the identity of such owners is known to CMAR; and other contractors and utility owners performing work at or adjacent to the Site, in writing, when CMAR knows that prosecution of the Work may affect them, and shall cooperate with them in the protection, removal, relocation, and replacement of their property or work in progress.

G. CMAR shall comply with the applicable requirements of Owner's safety programs, if any. Any Owner's safety programs that are applicable to the Work are identified or included in the Supplementary Conditions or Specifications.

H. CMAR shall inform Owner and Engineer of the specific requirements of CMAR's safety program with which Owner's and Engineer's employees and representatives must comply while at the Site.

I. CMAR's duties and responsibilities for safety and protection will continue until all the Work is completed, Engineer has issued a written notice to CMAR in accordance with Paragraph 15.07.C that the Work is acceptable, and CMAR has left the Site, except as otherwise expressly provided in connection with Substantial Completion.

J. CMAR's duties and responsibilities for safety and protection will resume whenever CMAR or any Subcontractor or Supplier returns to the Site to fulfill warranty or correction obligations, or to conduct other tasks arising from the Contract Documents.

K. If the Work will involve the digging or use of a trench as defined by Chapter 756 of the Texas Health and Safety Code, the CMAR shall abide by the latest version of the Occupational Safety and Health Administration standards for trench safety in effect at the time of the commencement of the Work. CMAR shall be responsible for selecting an appropriate method of providing trench safety after due consideration of the conditions of the Work, the location of utilities, pavement conditions and other relevant factors. Slope-back methods that may result in unnecessary displacement of utilities or destruction of pavement may not be used without permission from the Owner. CMAR shall be responsible for providing to the Owner and Engineer an acceptable trench safety plan signed and sealed by a professional engineer qualified to do such work and registered to practice in Texas. Devices used to provide trench safety such as trench shields and shoring systems shall likewise be certified by a professional engineer registered in the State of Texas or by a professional engineer registered in the state of manufacture of the shield.

7.17 Hazard Communication Programs

A. CMAR shall be responsible for coordinating any exchange of safety data sheets or other hazard communication information required to be made available to or exchanged between or among employers at the Site in accordance with Laws or Regulations.

7.18 Emergencies

A. In emergencies affecting the safety or protection of persons or the Work or property at the Site or adjacent thereto, CMAR is obligated to act to prevent damage, injury, or loss. CMAR shall give Owner and Engineer prompt written notice if CMAR believes that any significant changes in the Work or variations from the Contract Documents have been caused by an emergency or are required as a result of CMAR's response to an emergency. If Owner, in consultation with Engineer, determines that a change in the Contract Documents is required because of an emergency or CMAR's response, a Work Change Directive or Change Order will be issued.

7.19 Submittals

A. Shop Drawing and Sample Requirements

1. Before submitting a Shop Drawing or Sample, CMAR shall:

a. review and coordinate the Shop Drawing or Sample with other Shop Drawings and Samples and with the requirements of the Work and the Contract Documents;

b. determine and verify:

1) all field measurements, quantities, dimensions, specified performance and design criteria, installation requirements, materials, catalog numbers, and similar information with respect to the Submittal;

2) the suitability of all materials and equipment offered with respect to the indicated application, fabrication, shipping, handling, storage, assembly, and installation pertaining to the performance of the Work; and

3) all information relative to CMAR's responsibilities for means, methods, techniques, sequences, and procedures of construction, and safety precautions and programs incident thereto;

c. confirm that the Submittal is complete with respect to all related data included in the Submittal.

2. Each Shop Drawing or Sample must bear a stamp or specific written certification that CMAR has satisfied CMAR's obligations under the Contract Documents with respect to CMAR's review of that Submittal, and that CMAR approves the Submittal.

3. With each Shop Drawing or Sample, CMAR shall give Owner and Engineer specific written notice of any variations that the Submittal may have from the requirements of the Contract Documents. This notice must be set forth in a written communication separate from the Submittal; and, in addition, in the case of a Shop Drawing by a specific notation made on the Shop Drawing itself.

B. Submittal Procedures for Shop Drawings and Samples–CMAR shall label and submit Shop Drawings and Samples to Owner and Engineer for Engineer's review in accordance with the accepted Schedule of Submittals.

1. Shop Drawings

   a. CMAR shall submit the number of copies required in the Specifications.

   b. Data shown on the Shop Drawings must be complete with respect to quantities, dimensions, specified performance and design criteria, materials, and similar data to show the services, materials, and equipment CMAR proposes to provide, and to enable the information to be reviewed for the limited purposes required by Paragraph 7.19.D.

2. Samples

   a. CMAR shall submit the number of Samples required in the Specifications.

   b. CMAR shall clearly identify each Sample as to material, Supplier, pertinent data such as catalog numbers, the use for which intended and other data as Engineer may require to enable Engineer to review the Sample for the limited purposes required by Paragraph 7.19.D.

C. Proceeding without Engineer's Approval—Where a Shop Drawing or Sample is required by the Contract Documents or the Schedule of Submittals, Owner will not pay for related Work, including equipment or materials, until Engineer approves the Shop Drawing or Sample. If CMAR proceeds without such approval, CMAR will bear the full risk of all resulting delays, costs, and losses, including but not limited to removal, corrective, purchase, and installation costs, if such approval is not granted.

D. Engineer's Review of Shop Drawings and Samples

1. Engineer will provide timely review of Shop Drawings and Samples in accordance with the accepted Schedule of Submittals. Engineer's review will be only to determine if the items covered by the Submittals will, after installation or incorporation in the Work, comply with the requirements of the Contract Documents, and be compatible with the design concept of the completed Project as a functioning whole as indicated by the Contract Documents.

2. Engineer's review and approval, if any, will not extend to means, methods, techniques, sequences, or procedures of construction, or to safety precautions or programs incident thereto.

3. Engineer's review and approval, if any, of a separate Item as such will not indicate approval of the assembly in which the Item functions.

4. Engineer's review and approval, if any, of a Shop Drawing or Sample will not relieve CMAR from responsibility for any variation from the requirements of the Contract Documents unless CMAR has complied with the requirements of Paragraph 7.19.A.3 and Engineer has given written approval of each such variation by specific written notation thereof incorporated in or accompanying the Shop Drawing or Sample. Engineer will document any such approved variation from the requirements of the Contract Documents in a Field Order or other appropriate Contract modification.

5. Engineer's review and approval, if any, of a Shop Drawing or Sample will not relieve CMAR from responsibility for complying with the requirements of Paragraphs 7.19.A and B.

6. Engineer's review and approval, if any, of a Shop Drawing or Sample, or of a variation from the requirements of the Contract Documents, will not, under any circumstances, change the Contract Times or Guaranteed Maximum Price, unless such changes are included in a Change Order.

7. Neither receipt, review, acceptance, or approval of a Shop Drawing or Sample will result in such Item becoming a Contract Document.

8. CMAR shall perform the Work in compliance with the requirements and commitments set forth in approved Shop Drawings and Samples, subject to the provisions of Paragraph 7.19.D.4.

E. Resubmittal Procedures for Shop Drawings and Samples

1. CMAR shall make required corrections and shall return the required number of corrected copies of Shop Drawings and submit, as required, new Samples for review and approval. CMAR shall direct specific attention in writing to revisions other than the corrections called for on previous Submittals.

2. CMAR shall furnish required Shop Drawing and Sample submittals with adequate information and accuracy to obtain required approval of an Item with no more than two resubmittals. Engineer will record Engineer's time for reviewing a third or subsequent resubmittal of a Shop Drawing or Sample, and CMAR shall be responsible for Engineer's charges to Owner for such time. Owner may impose a set-off against payments due CMAR to secure reimbursement for such charges.

3. If CMAR requests a change of a previously approved Shop Drawing or Sample, CMAR shall be responsible for Engineer's charges to Owner for its review time, and Owner may impose a set-off against payments due CMAR to secure reimbursement for such charges, unless the need for such change is beyond the control of CMAR.

F. Submittals Other than Shop Drawings, Samples, and Owner-Delegated Designs

1. The following provisions apply to all Submittals other than Shop Drawings, Samples, and Owner-delegated designs:

a. CMAR shall submit all such Submittals to Owner and Engineer in accordance with the Schedule of Submittals and pursuant to the applicable terms of the Contract Documents.

b. A timely review will be made by Engineer of all such Submittals in accordance with the Schedule of Submittals and return such Submittals with a notation of either Accepted or Not Accepted. Any such Submittal that is not returned within the time established in the Schedule of Submittals will be deemed accepted.

c. Review will be only to determine if the Submittal is acceptable under the requirements of the Contract Documents as to general form and content of the Submittal.

d. If any such Submittal is not accepted, CMAR shall confer with Engineer regarding the reason for the non-acceptance and resubmit an acceptable document.

2. Procedures for the submittal and acceptance of the Progress Schedule, the Schedule of Submittals, and the Schedule of Values are set forth in Paragraphs 4.04, 7.19, and 15.02.

G. Owner-delegated Designs–Submittals pursuant to Owner-delegated designs are governed by the provisions of Paragraph 7.22.

7.20 CMAR's General Warranty and Guarantee

A. CMAR warrants and guarantees to Owner that all Work will be in accordance with the Contract Documents and will not be defective. Owner and Engineer are entitled to rely on CMAR's warranty and guarantee.

B. Owner's rights under this warranty and guarantee are in addition to, and are not limited by, Owner's rights under the correction period provisions of Paragraph 15.09. The time in which Owner may enforce its warranty and guarantee rights under this Paragraph 7.20 is limited only by applicable Laws and Regulations restricting actions to enforce such rights; provided, however, that after the end of the correction period under Paragraph 15.09:

1. Owner shall give CMAR written notice of any defective Work within a reasonable time of the discovery that such Work is defective; and

2. Such notice will be deemed the start of an event giving rise to a Claim under Paragraph 12.01.B, such that any related Claim must be brought as specified therein.

C. CMAR's warranty and guarantee hereunder excludes defects or damage caused by:

1. abuse, or improper modification, maintenance, or operation, by persons other than CMAR, Subcontractors, Suppliers, or any other individual or entity for whom CMAR is responsible; or

2. normal wear and tear under normal usage.

D. CMAR shall perform or provide CMAR Services in accordance with the Contract Documents and good construction management practice. CMAR warrants and guarantees all Work will be performed in a good and workmanlike manner, consistent with the requirements of the Contract Documents, according to construction industry standards, and in compliance with applicable Law.

E. CMAR's obligation to perform and complete the CMAR Services and the Work in accordance with the Contract Documents is absolute. None of the following will constitute an acceptance of CMAR Services or Work that is not in accordance with the Contract Documents, a release of CMAR's obligation to perform the CMAR Services or Work in accordance with the Contract Documents, or a release of Owner's warranty and guarantee rights under this Paragraph 7.20:

1. Observations by Owner or Engineer;

2. Recommendation by Engineer or payment by Owner of any progress or final payment;

3. The acceptance of CMAR Services without objection;

4. The issuance of a certificate of Substantial Completion by Engineer or any payment related thereto by Owner;

5. Use or occupancy of the Work or any part thereof by Owner;

6. Any review and approval of a Shop Drawing or Sample submittal;

7. The issuance of a notice of acceptability by Engineer;

8. The end of the correction period established in Paragraph 15.09;

9. Any inspection, test, or approval by others; or

10. Any correction of defective Work by Owner.

F. If the Contract requires CMAR to accept the assignment of a contract entered into by Owner, then the specific warranties, guarantees, and correction obligations contained in the assigned contract will govern with respect to CMAR's performance obligations to Owner for the Work described in the assigned contract.

7.21 Indemnification

A. **TO THE FULLEST EXTENT PERMITTED BY LAWS AND REGULATIONS, AND IN ADDITION TO ANY OTHER OBLIGATIONS OF CMAR UNDER THE CONTRACT OR OTHERWISE, CMAR SHALL DEFEND, PROTECT, INDEMNIFY AND HOLD HARMLESS OWNER AND ITS ELECTED OFFICIALS AND EMPLOYEES, PAST AND PRESENT IN EACH CASE (THE "OWNER INDEMNIFIED PARTIES") FROM AND AGAINST ANY AND ALL CLAIMS, COSTS, LOSSES, AND DAMAGES, INCLUDING BUT NOT LIMITED TO ALL REASONABLE FEES AND CHARGES OF CONSTRUCTION MANAGERS, ENGINEERS, ARCHITECTS, ATTORNEYS, AND OTHER PROFESSIONALS, AND ALL COURT OR ARBITRATION OR OTHER DISPUTE RESOLUTION COSTS, ARISING OUT OF SUCH CMAR SERVICES, WORK, OR OTHER ACTION ("LOSSES") THAT ARE SUFFERED, INCURRED OR SUSTAINED BY ANY OF THE OWNER INDEMNIFIED PARTIES OR TO WHICH ANY OF THE OWNER INDEMNIFIED PARTIES BECOMES SUBJECT, FOR ANY ACTUAL (OR ,FOR PURPOSES OF THE DUTY TO DEFEND, ASSERTED) BODILY INJURY (INCLUDING DEATH) IN CONNECTION WITH THE WORK, INCLUDING CLAIMS AND LOSSES ARISING OUT OF (A) ANY CONDITION OF THE PREMISES, (B) SEPARATE OPERATIONS BEING CONDUCTED ON THE PREMISES, OR (C) THE IMPERFECTION OR DEFECTIVE CONDITION, WHETHER LATENT OR PATENT, OF ANY MATERIAL OR EQUIPMENT SOLD, SUPPLIED, OR FURNISHED BY CMAR OR ANY OF THE OWNER INDEMNIFIED PARTIES. SUBJECT TO THE APPLICATION OF TEXAS LAW REGARDING INDEMNITY PROVISIONS, IT IS THE EXPRESS INTENT OF THE PARTIES THAT, FOR PURPOSES OF THIS SECTION, CLAIMS, AND CMAR'S OBLIGATIONS TO DEFEND, PROTECT, INDEMNIFY, AND HOLD HARMLESS, WILL INCLUDE CLAIMS ARISING OUT OF OR RELATED TO ANY MEMBER OF THE OWNER INDEMNIFIED PARTIES' SOLE OR CONCURRENT NEGLIGENCE OR OTHER FAULT OF ANY NATURE.**

B. **EXCEPT FOR THOSE CLAIMS AND LOSSES WITHIN THE SCOPE OF PARAGRAPH 7.21.A, CMAR WILL DEFEND, PROTECT, INDEMNIFY AND HOLD HARMLESS THE OWNER INDEMNIFIED PARTIES FROM AND AGAINST ANY AND ALL LOSSES, AS DEFINED IN PART A ABOVE, THAT ARE SUFFERED, INCURRED OR SUSTAINED BY ANY OF THE OWNER INDEMNIFIED PARTIES OR TO WHICH ANY OF THE OWNER INDEMNIFIED PARTIES BECOMES SUBJECT, ARISING OUT OF OR INCIDENT TO THE CONTRACT OR ANY WORK, INCLUDING ANY ACTUAL OR ASSERTED (A) NEGLIGENCE, GROSS NEGLIGENCE OR WILLFUL MISCONDUCT OF ANY MEMBER OF CMAR, ITS SUBCONTRACTORS, CONSULTANTS, SUPPLIERS, AND THEIR RESPECTIVE OFFICERS, DIRECTORS, MEMBERS, PARTNERS, EMPLOYEES, AND AGENTS, (THE "CMAR GROUP"), (B) FAILURE BY ANY MEMBER OF THE CMAR GROUP TO COMPLY WITH ANY LAW, OR IF ANY WORK (OR ANY PART THEREOF) IS DELAYED OR STOPPED BY ANY GOVERNMENTAL AUTHORITY DUE TO ANY FAILURE BY ANY MEMBER OF THE CMAR GROUP TO COMPLY WITH ANY LAW, (C) BREACH OF ANY OF CMAR'S REPRESENTATIONS, WARRANTIES OR COVENANTS UNDER THE AGREEMENT, OR (D) CLAIMS THAT ANY WORK,**

WORK PRODUCT, CMAR INTELLECTUAL PROPERTY, OR SOFTWARE, PROCESSES OR OTHER INTELLECTUAL PROPERTY USED TO PERFORM THE WORK, OR THEIR RECEIPT, POSSESSION OR USE BY OWNER, IN EACH CASE WHETHER ALONE OR IN COMBINATION WITH ANYTHING ELSE, INFRINGES UPON OR MISAPPROPRIATES THE PROPRIETARY RIGHTS OF ANY THIRD PARTY. SUBJECT TO THE APPLICATION OF TEXAS LAW REGARDING INDEMNITY PROVISIONS, IT IS THE EXPRESS INTENT OF THE PARTIES THAT, FOR THE PURPOSES OF THIS SECTION, CLAIMS, AND CMAR'S OBLIGATIONS TO DEFEND, PROTECT, INDEMNIFY, AND HOLD HARMLESS, WILL INCLUDE CLAIMS ARISING FROM OR RELATED TO ANY OF THE OWNER INDEMNIFIED PARTIES' CONCURRENT NEGLIGENCE. CMAR IS NOT OBLIGATED TO INDEMNIFY THE CITY FOR THE COSTS TO CORRECT OR REPAIR WORK TO THE EXTENT THAT THOSE COSTS ARE FOUND TO BE CAUSED BY ERRORS OR OMISSIONS OF THE ENGINEER OF RECORD UNLESS CMAR IS OTHERWISE RESPONSIBLE FOR THOSE COSTS UNDER OTHER PROVISIONS OF THIS AGREEMENT INCLUDING CMAR'S OBLIGATIONS UNDER SECTION 3.03A.

C. In claims against any person or entity indemnified under this Paragraph 7.21 by any CMAR employee, or the survivor or personal representative of such employee, any Subcontractor, any Supplier, or any individual or entity directly or indirectly employed by any of them to perform any of the Work, or anyone for whose acts any of them may be liable, the indemnification obligation under Paragraph 7.21 will not be limited by a limitation on the amount or type of damages, compensation, or benefits payable by or for CMAR or any such Subcontractor, Supplier, or other individual or entity under workers' compensation acts, disability benefit acts, or other employee benefit acts.

D. Other provisions in the Contract Documents containing indemnification obligations shall be deemed to be cumulative of and to operate independently of the indemnities provided above such that all indemnities provided in the Contract Documents shall be construed to grant indemnity to the Indemnified Parties to the fullest extent possible.

E. The CMAR shall indemnify and hold harmless the Indemnified Parties from and against any costs and expenses (including reasonable attorney's fees) incurred by any of the Indemnified Parties in enforcing any of the CMAR's defense, indemnity, and hold-harmless obligations under this Contract.

7.22 Delegation of Professional Design Services

A. Owner may require CMAR to provide professional design services for a portion of the Work by express delegation in the Contract Documents. Such delegation will specify the performance and design criteria that such services must satisfy, and the Submittals that CMAR must furnish to Engineer and Owner for Engineer's review with respect to the Owner-delegated design.

B. CMAR shall cause such Owner-delegated professional design services to be provided with the professional skill and care ordinarily provided by competent architects or engineers practicing under the same or similar circumstances and professional license, whose signature and seal must appear on all drawings, calculations, specifications, certifications, and Submittals prepared by such design professional. Such design professional must issue all certifications of design required by Laws and Regulations.

C. If a Shop Drawing or other Submittal related to the Owner-delegated design is prepared by CMAR, a Subcontractor, or others for submittal to Engineer and Owner, then such Shop

Drawing or other Submittal must bear the written approval of CMAR's design professional when submitted by CMAR to Engineer and Owner.

D. Owner and Engineer shall be entitled to rely upon the adequacy, accuracy, and completeness of the services, certifications, and approvals performed or provided by the design professionals retained or employed by CMAR under an Owner-delegated design, subject to the professional standard of care and the performance and design criteria stated in the Contract Documents.

E. Pursuant to this Paragraph 7.22, Engineer's review, approval, and determinations regarding design drawings, calculations, specifications, certifications, and other Submittals furnished by CMAR pursuant to an Owner-delegated design will be only for the following limited purposes:

1. Checking for conformance with the requirements of this Paragraph 7.22;
2. Confirming that CMAR, through its design professionals, has used the performance and design criteria specified in the Contract Documents; and
3. Establishing that the design furnished by CMAR is consistent with the design concept expressed in the Contract Documents.

F. CMAR is not required to provide professional services in violation of applicable Laws and Regulations.

7.23 CMAR's Collaboration Responsibilities

A. CMAR acknowledges Owner has selected the Construction-Manager-at-Risk project delivery method because it is a collaborative delivery method and CMAR acknowledges and accepts, as a material term of this Contract, CMAR's obligations to collaborate, which include, but are not limited to, CMAR's acknowledgement of and agreement to comply with the following at all times during the term of this Contract:

1. Notwithstanding anything to the contrary contained in this Contract, Owner and CMAR agree and acknowledge that Owner has entered into this Contract in reliance on CMAR's special and unique construction management abilities to perform its obligations hereunder.
2. CMAR accepts that this Contract establishes a relationship of trust and confidence between it and the Owner. CMAR understands the complexity involved in this type of project and the necessity of coordination of the performance of its Work and CMAR Services with the OPT. In addition to the rights and remedies under this Contract, at law or in equity, the CMAR will expeditiously and cost-effectively perform, or cause to be performed, all CMAR Services and the Work, and in no event later than is required to conform to the Contract Time(s).
3. CMAR will perform the CMAR Services and the Work with that degree of professional skill and care practiced by similar firms, using similar collaborative project planning methods, and having industry leading knowledge and skill engaged in providing similar services for major construction projects of comparable value in the United States under the same or similar circumstances.
4. CMAR will furnish efficient business administration and superintendence and perform the CMAR Services and the Work in such manner as to provide Owner the best value.

CMAR will employ and exercise the professional judgment of its experienced and qualified construction professionals to further Owner's interests and provide Owner confidence that the Project will be completed in conformity with the design concepts and construction requirements established by the OPT, and it is the intention of the parties that the CMAR will, at all times, act in the Owner's and Project's best interests with respect to the performance of the CMAR Services and all aspects of the Work. CMAR will always exercise exclusive direction and control, and is and will be responsible for proper supervision of all its personnel and all Subcontractors while present on the Site or otherwise performing Work or CMAR Services for the Project.

B. These obligations to collaborate will not, however, be deemed to alter or expand the CMAR's common law duty to Owner with respect to liability for, or the duty to indemnify, defend or hold Owner harmless under the indemnity provisions in this Contract, with respect to Claims or liability for bodily injury or property damage, for which the collaboration responsibilities will be deemed and construed to be no greater than that imposed upon the CMAR by common law.

ARTICLE 8—OTHER WORK AT THE SITE

8.01 Other Work

A. In addition to and apart from the Work under the Contract Documents, the Owner may perform other work at or adjacent to the Site and CMAR acknowledges Owner will be performing other work at or adjacent to the Site during the term of the Contract. Such other work may be performed by Owner's employees, or through contracts between the Owner and third parties. Owner may also arrange to have third-party utility owners perform work on their utilities and facilities at or adjacent to the Site.

B. If Owner performs other work at or adjacent to the Site with Owner's employees, or through contracts for such other work, then Owner shall give CMAR written notice thereof prior to starting any such other work. If Owner has advance information regarding the start of any third-party utility work that Owner has arranged to take place at or adjacent to the Site, Owner shall provide such information to CMAR.

C. CMAR shall afford proper and safe access to the Site to each contractor that performs such other work, each utility owner performing other work, and Owner, if Owner is performing other work with Owner's employees, and provide a reasonable opportunity for the introduction and storage of materials and equipment and the execution of such other work.

D. CMAR shall do all cutting, fitting, and patching of the Work that may be required to properly connect or otherwise make its several parts come together and properly integrate with such other work. CMAR shall not endanger any work of others by cutting, excavating, or otherwise altering such work; provided, however, that CMAR may cut or alter others' work with the written consent of Engineer and the others whose work will be affected.

E. If the proper execution or results of any part of CMAR's Work depends upon work performed by others, CMAR shall inspect such other work and promptly report to Engineer and Owner in writing any delays, defects, or deficiencies in such other work that render it unavailable or unsuitable for the proper execution and results of CMAR's Work. CMAR's failure to so report will constitute an acceptance of such other work as fit and proper for integration with CMAR's Work except for latent defects and deficiencies in such other work.

F. The provisions of this Article are not applicable to work that is performed by third-party utilities or other third-party entities without a contract with Owner, or that is performed without having been arranged by Owner. If such work occurs, then any related delay, disruption, or interference incurred by CMAR is governed by the provisions of Paragraph 4.05.C.3 as a Force Majeure event if outside of CMAR's reasonable control.

8.02 Coordination

A. If Owner intends to contract with others for the performance of other work at or adjacent to the Site, to perform other work at or adjacent to the Site with Owner's employees, or to arrange to have utility owners perform work at or adjacent to the Site, the following will be set forth in the Supplementary Conditions or provided to CMAR prior to the start of any such other work:

1. The identity of the individual or entity that will have authority and responsibility for coordination of the activities among the various contractors;

2. An itemization of the specific matters to be covered by such authority and responsibility; and

3. The extent of such authority and responsibilities.

B. Unless otherwise provided in the Supplementary Conditions, Owner shall have sole authority and responsibility for such coordination.

8.03 Legal Relationships

A. If, in the course of performing other work for Owner at or adjacent to the Site, the Owner's employees, any other contractor working for Owner, or any utility owner that Owner has arranged to perform work, causes damage to the Work or to the property of CMAR or its Subcontractors, request an adjustment in the Guaranteed Maximum Price for the reasonable, direct costs incurred due to such damage. CMAR must submit any Change Proposal seeking an adjustment in the Guaranteed Maximum Price under this paragraph within 14 days of the event. The entitlement to, and extent of, any such adjustment will consider information, if any regarding such other work that was provided to CMAR in the Contract Documents prior to the submittal of the Proposal or the final negotiation of the terms of the Contract, and any remedies available to CMAR under Laws or Regulations. When applicable, any such adjustment in Guaranteed Maximum Price will be conditioned on CMAR assigning to Owner all CMAR's rights against such other contractor or utility owner with respect to the damage, delay, disruption, or interference that is the subject of the adjustment. CMAR's entitlement to an adjustment of Guaranteed Maximum Price is subject to the provisions of Paragraphs 4.05.D and 4.05.E. CMAR's entitlement to request an adjustment in the Contract Times for a delay or disruption caused by Owner's employees, any other contractor working for Owner, or any utility owner that Owner has arranged to perform work is subject to the applicable provisions of Paragraph 4.05 and Article 12.

B. CMAR shall take reasonable and customary measures to avoid damaging, delaying, disrupting, or interfering with the work of Owner, any other contractor, or any utility owner performing other work at or adjacent to the Site.

1. If CMAR fails to take such measures, and as a result, damages, delays, disrupts, or interferes with the work of any such other contractor or utility owner, then Owner may impose a set-off against payments due CMAR, and assign to such other contractor or

utility owner the Owner's contractual rights against CMAR with respect to the breach of the obligations set forth in this Paragraph 8.03.B.

2. When Owner is performing other work at or adjacent to the Site with Owner's employees, CMAR shall be liable to Owner for damage to such other work, and for the reasonable direct delay, disruption, and interference costs incurred by Owner as a result of CMAR's failure to take reasonable and customary measures with respect to Owner's other work. In response to such damage, delay, disruption, or interference, Owner may impose a set-off against payments due CMAR.

C. If CMAR damages, delays, disrupts, or interferes with the work of any other contractor, or any utility owner performing other work at or adjacent to the Site, through CMAR's failure to take reasonable and customary measures to avoid such impacts, or if any claim arising out of CMAR's actions, inactions, or negligence in performance of the Work at or adjacent to the Site is made by any such other contractor or utility owner against CMAR, Owner, or Engineer, then (1) CMAR shall promptly attempt to settle the claim as to all parties through negotiations with such other contractor or utility owner, or otherwise resolve the claim by arbitration or other dispute resolution proceeding or at law, and (2) CMAR's indemnity obligations under Paragraph 7.21 shall apply.

ARTICLE 9—OWNER'S RESPONSIBILITIES

9.01 Communications to CMAR

A. Except as otherwise provided in these General Conditions, Owner shall issue all communications to CMAR directly or through the Engineer.

9.02 Replacement of Engineer

A. Owner may at its discretion appoint an engineer to replace Engineer. The replacement engineer's status under the Contract Documents will be that of the former Engineer.

9.03 Furnish Data

A. Owner shall furnish the data required of Owner under the Contract Documents.

9.04 Pay CMAR

A. Owner shall make payments to CMAR when they are due as provided in the Agreement.

9.05 Lands and Easements; Reports, Tests, and Drawings

A. Owner's duties with respect to providing lands and easements are set forth in Paragraph 5.01.

B. Owner's duties with respect to providing engineering surveys to establish reference points are set forth in Paragraph 4.03.

C. Article 5 refers to Owner's identifying and making available to CMAR copies of reports of explorations and tests of conditions at the Site, and drawings of physical conditions relating to existing surface or subsurface structures at the Site.

9.06 Insurance

A. Owner's responsibilities, if any, with respect to purchasing and maintaining liability and property insurance are set forth in Article 6.

9.07 Change Orders

A. Owner's responsibilities with respect to Change Orders are set forth in Article 11.

9.08 Inspections, Tests, and Approvals

A. Owner's responsibility with respect to certain inspections, tests, and approvals is set forth in Paragraph 14.02.B.

9.09 Owner's Tasks in Support of CMAR Services

A. Owner shall provide CMAR with criteria and information as to Owner's requirements for the Project including any drafts of proposed Contract Documents, general schedules and completion requirements, reports, surveys, permits, record documents from related previous projects, and other information as required for CMAR to provide services. CMAR may rely upon, the accuracy and completeness of all such criteria and information, and of any other programs, instructions, data, and other information furnished by Owner to CMAR pursuant to the Agreement. CMAR may use such criteria and information in performing or furnishing CMAR Services. Notwithstanding the foregoing, CMAR may not rely upon such information or any other information provided by or on behalf of the Owner when CMAR knows or reasonably should know that the information is inaccurate, inadequate, incomplete, or otherwise unfit for its intended purpose. The Owner makes no representation or warranty that any information provided to CMAR by or on behalf of the Owner is accurate, correct, complete, fit for its intended purpose or can be used without infringing any patent, copyright, trademark, or other intellectual property rights of third parties.

B. Owner shall provide reasonable assistance to CMAR in securing the release of documents and information held by private entities and by public agencies as needed to provide services required by the Agreement.

C. Owner shall use reasonable efforts to arrange for safe access to and make all provisions for CMAR to enter upon public and private property as required for CMAR to perform services.

D. Owner shall review documents presented by CMAR, make decisions, and carry out Owner's other responsibilities in a reasonable time.

E. Owner shall provide the services of attorneys, insurance consultants, financial advisors, and other professional advisors or consultants Owner desires for the Project, but not provided by the CMAR.

F. Owner is not responsible for discovering deficiencies in the CMAR's Services. CMAR will correct any deficiencies without additional compensation.

9.10 Limitations on Owner's Responsibilities

A. The Owner shall not supervise, direct, or have control or authority over, nor be responsible for, CMAR's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of CMAR to comply with Laws and Regulations applicable to the performance of the Work. Owner will not be responsible for CMAR's failure to perform the Work in accordance with the Contract Documents.

9.11 Undisclosed Hazardous Environmental Condition

A. Owner's responsibility in respect to an undisclosed Hazardous Environmental Condition is set forth in Paragraph 5.06.

9.12 Intentionally Deleted.

9.13 Safety Programs

A. While at the Site, Owner's employees and representatives will reasonably comply with the specific applicable requirements of CMAR's safety programs of which Owner has been informed.

B. Owner shall furnish copies of any applicable Owner safety programs to CMAR.

ARTICLE 10—STATUS OF ENGINEER DURING CONSTRUCTION

10.01 Engineer

A. The general duties, responsibilities, and the limitations of authority of Engineer during construction are set forth below.

10.02 Visits to Site

A. Engineer will either be based at the Site or make visits to the Site on a regular basis. Engineer will observe the Work; check the quality, quantity, and progress of the Work; implement a quality control and assurance program; and perform functions to administer certain portions of the Contract specified therein.

B. Engineer will make visits to the Site at intervals appropriate to the various stages of construction as Engineer deems necessary in order to observe, as an experienced and qualified design professional, the progress that has been made and the quality of the various aspects of CMAR's executed Work. Engineer will not be required to make exhaustive or continuous inspections on the Site to check the quality or quantity of the Work. Engineer will report to Owner regarding information obtained during such Site visits and observations.

C. Engineer's visits and observations are subject to all the limitations on Engineer's authority and responsibility set forth in Paragraph 10.04. Particularly, but without limitation, during or as a result of Engineer's visits or observations of CMAR's Work, Engineer will not supervise, direct, control, or have authority over or be responsible for CMAR's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of CMAR to comply with Laws and Regulations applicable to the performance of the Work.

10.03 Resident Project Representative

A. If Owner and Engineer have agreed that Engineer will furnish a Resident Project Representative to represent Engineer at the Site and assist Engineer in observing the progress and quality of the Work, then the authority and responsibilities of any such Resident Project Representative will be as provided in the Supplementary Conditions, and limitations on the responsibilities thereof will be as provided in the Supplementary Conditions and in Paragraph 10.07.

B. If Owner designates an individual or entity who is not Engineer's consultant, agent, or employee to represent Owner at the Site, then the responsibilities and authority of such individual or entity will be as provided in the Supplementary Conditions.

10.04 Engineer's Authority

A. Engineer has the authority to reject Work in accordance with Article 14.

B. Engineer's authority as to Submittals is set forth in Paragraph 7.19.

C. Engineer's authority as to design drawings, calculations, specifications, certifications and other Submittals from CMAR in response to Owner's delegation (if any) to CMAR of professional design services, is set forth in Paragraph 7.19.

D. Engineer's authority as to changes in the Work is set forth in Article 11.

E. Engineer's authority as to Applications for Payment is set forth in Article 15.

10.05 Determinations for Unit Price Work

A. Engineer will determine the actual quantities and classifications of Unit Price Work performed or furnished by CMAR for Owner's review and approval as set forth in Paragraph 13.02.

10.06 Decisions on Requirements of Design Documents and Acceptability of Work; Exercise of Authority

A. Engineer will render decisions regarding the requirements of the Design Documents as provided in Article 3. Engineer will judge the acceptability of the Work as permitted in Article 14.

B. Owner may at any time request that CMAR furnish proposed changes to Guaranteed Maximum Price and Contract Times that would result from specified proposed changes to the Contract Documents.

10.07 Limitations on Owner's and Engineer's Authority and Responsibilities

A. Neither Owner's nor Engineer's authority or responsibility under this Article 10 or under any other provision of the Contract, nor any decision made by Owner or Engineer in good faith either to exercise or not exercise such authority or responsibility or the undertaking, exercise, or performance of any authority or responsibility by Owner or Engineer, will create, impose, or give rise to any duty in contract, tort, or otherwise owed by Owner or Engineer to CMAR, any Subcontractor, any Supplier, any other individual or entity, or to any surety for or employee or agent of any of them.

B. Neither Owner nor Engineer will supervise, direct, control, or have authority over or be responsible for CMAR's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of CMAR to comply with Laws and Regulations applicable to the performance of the Work. Neither Owner nor Engineer will be responsible for CMAR's failure to perform the Work in accordance with the Contract Documents.

C. Neither Owner nor Engineer will be responsible for the acts or omissions of CMAR or of any Subcontractor, any Supplier, or of any other individual or entity performing any of the Work.

D. Engineer's review of the final Application for Payment and accompanying documentation, and all maintenance and operating instructions, schedules, guarantees, bonds, certificates of inspection, tests and approvals, and other documentation required to be delivered by CMAR under Paragraph 15.07.A, will only be to determine generally that their content complies with the requirements of the Contract Documents, and in the case of certificates of inspections, tests, and approvals, that the results certified indicate compliance with the Contract Documents.

10.08 Compliance with Safety Program

A. While at the Site, Engineer's employees and representatives will comply with the specific applicable requirements of Owner's and CMAR's safety programs of which Engineer has been informed.

ARTICLE 11—CHANGES TO THE CONTRACT

11.01 Amending and Supplementing the Contract

A. The Contract may be amended or supplemented by a Contract Amendment, Work Authorization, Change Order, Work Change Directive, or Field Order. Accordingly, no course of conduct or dealings between the parties, nor express or implied acceptance of alterations or additions to the Work, and no claim that the Owner has been unjustly enriched by any alteration or addition to the Work, whether or not there is, in fact, any unjust enrichment to the Work, shall be the basis of any claim to any increase in any amounts due under the Contact Documents or a change in any time period provided for in the Contact Documents. No action, conduct, omission, prior failure or course of dealing by the Owner shall act to waive, modify, or alter the requirement that a Contract Amendment, Work Authorization, Change Order, Work Change Directive, or Field Order must be in writing and signed by the Owner. This provision supersedes all other provisions in the Contract Documents that provide methods for effecting changes in the Work.

B. A Work Authorization, as more fully defined in Paragraph 1.01, is used to authorize specified Work, and establish related compensation. Change Orders, Work Change Directives, and Field Orders are used to modify a Work Authorization, including but not limited to modifications of the authorized Work and changes to the Guaranteed Maximum Price and Contract Times associated with the Work Authorization.

If a modification under a Work Authorization includes a change in the Guaranteed Maximum Price or the Contract Times, such amendment or supplement must be set forth in a Change Order.

C. A Contract Amendment, as more fully defined in Paragraph 1.01, is used for general contract modification purposes.

D. All changes to the Contract that involve (1) the performance or acceptability of the Work, (2) the design, as set forth in the Drawings, Specifications, or otherwise, or (3) other engineering matters, may be supported by Engineer's recommendation.

11.02 Change Orders

A. With respect to a governing Work Authorization, Owner and CMAR shall execute appropriate Change Orders covering:

1. Changes in Guaranteed Maximum Price or Contract Times which are agreed to by the parties, including any undisputed sum or amount of time for Work performed in accordance with a Work Change Directive;

2. Changes in the Work which are: (a) ordered by Owner pursuant to Paragraph 11.05, (b) required because of Owner's acceptance of defective Work under Paragraph 14.04 or Owner's correction of defective Work under Paragraph 14.07, or (c) agreed to by the parties, subject to the need for Engineer's recommendation if the change in the Work

involves the design, as set forth in the Drawings, Specifications, or otherwise, or other engineering matters; and

3. Changes that embody the substance of any final and binding results under: Paragraph 11.03.B, resolving the impact of a Work Change Directive; Paragraph 11.09, concerning Change Proposals; Paragraph 13.02.D, final adjustments relating to determination of quantities for Unit Price Work; and similar provisions.

B. If CMAR refuses to execute a Change Order that is required to be executed under the terms of Paragraph 11.02.A and Owner has signed the Change Order, it will be deemed to be of full force and effect, as if fully executed.

C. Owner and CMAR will enter into either a Change Order, if related to a specific Work Authorization, or a Contract Amendment with respect to the following:

1. Changes in Guaranteed Maximum Price resulting from an Owner set-off, unless CMAR has duly contested such set-off;

2. Changes that embody the substance of any final and binding results under Article 12, Claims; Paragraph 13.01, final adjustments resulting from allowances; and similar provisions.

D. If the Change Order increases the Guaranteed Maximum Price without increasing the Contract Time(s) it shall not include any Construction Support Costs.

E. Except as otherwise conspicuously and unambiguously stated on the face of the respective Change Order, Change Orders signed by both Owner and CMAR shall constitute a full and final settlement of all matters that are the subject of the Change Order, including, but not limited to, all direct and indirect costs associated with such change in the Work and any and all adjustments to the GMP and Contract Time, as permitted under Tex. Gov't Code, Chapter 2260.

11.03 Work Change Directives

A. A Work Change Directive will not change the Guaranteed Maximum Price or the Contract Times but is evidence that the parties expect that the modification ordered or documented by a Work Change Directive will be incorporated in a subsequently issued Change Order, following negotiations by the parties as to the Work Change Directive's effect, if any, on the Guaranteed Maximum Price and Contract Times; or, if negotiations are unsuccessful, by a determination under the terms of the Contract Documents governing adjustments, expressly including Paragraph 11.07 regarding change of Guaranteed Maximum Price.

B. If Owner has issued a Work Change Directive and CMAR believes that an adjustment in Contract Times or Guaranteed Maximum Price is necessary, then CMAR shall submit any Change Proposal seeking such an adjustment no later than 7 days after the completion of the Work set out in the Work Change Directive. If Owner disagrees with CMAR's request either party may initiate a Claim.

11.04 Field Orders

A. Owner, in consultation with Engineer, may authorize minor changes in the Work if the changes do not involve an adjustment in the Guaranteed Maximum Price or the Contract Times. Such changes will be accomplished by a Field Order, which shall be in writing, and will be binding on Owner and on CMAR, which shall perform the Work involved promptly.

B. If CMAR believes that a Field Order justifies an adjustment in the Guaranteed Maximum Price or Contract Times, then before proceeding with the Work at issue, CMAR shall submit a Change Proposal as provided herein within 7 days of the Field Order.

11.05 Owner-Authorized Changes in the Work

A. Without invalidating the Contract and without notice to or approval from any surety, Owner may, at any time or from time to time, order additions, deletions, or revisions in the Work. Changes involving the design, as set forth in the Drawings, Specifications, or otherwise, or other engineering matters will be supported by Engineer's recommendation.

B. Such changes in the Work may be accomplished by a Change Order, if Owner and CMAR have agreed as to the effect, if any, of the changes on Contract Times or Guaranteed Maximum Price; or by a Work Change Directive. Upon receipt of any such document, CMAR shall promptly proceed with the Work involved; or, in the case of a deletion in the Work, promptly cease construction activities with respect to such deleted Work. Added or revised Work must be performed under the applicable conditions of the Contract Documents.

C. Nothing in this Paragraph 11.05 obligates CMAR to undertake work that CMAR reasonably concludes cannot be performed in a manner consistent with CMAR's safety obligations under the Contract Documents or Laws and Regulations.

11.06 Unauthorized Changes in the Work

A. CMAR shall not be entitled to an increase in the Guaranteed Maximum Price or an extension of the Contract Times with respect to any work performed that is not required by the Contract Documents, as amended, modified, or supplemented, except in the case of an emergency as provided in Paragraph 7.18 or in the case of uncovering Work as provided in Paragraph 14.05.C.2.

11.07 Change of Contract Price

A. The Contract Price may be changed by a Work Authorization, Change Order, or Contract Amendment. Any Change Proposal for an adjustment in the Guaranteed Maximum Price must comply with the provisions of Paragraph 11.09. Any Claim for an adjustment of Contract Price must comply with the provisions of Article 12.

B. An adjustment in the Guaranteed Maximum Price with respect to the Work will be determined as follows:

1. Where the Work involved is covered by unit prices contained in the Contract Documents, then by application of such unit prices to the quantities of the items involved;

2. Where the Work involved is not covered by unit prices contained in the Contract Documents, then by a mutually agreed lump sum; or

3. Where the Work involved is not covered by unit prices contained in the Contract Documents and the parties do not reach mutual agreement to a lump sum, then on the basis of the Cost of the Work determined in accordance with the Cost of the Work provisions in the Agreement, plus the CMAR Fee, applied proportionally, for overhead and profit determined in accordance with the terms in the Agreement.

11.08 Change of Contract Times

A. The Contract Times may be changed by a Work Authorization, Change Order, or Contract Amendment. Any Change Proposal for an adjustment in the Contract Times must comply with the provisions of Paragraph 11.09 and Paragraph 4.05 where applicable. Any Claim for an adjustment in the Contract Times must comply with the provisions of Article 12.

B. Delay, disruption, and interference in the Work, and any related changes in Contract Times, are addressed in and governed by Paragraph 4.05.

11.09 Change Proposals

A. Purpose and Content—CMAR shall submit a Change Proposal to Owner and Engineer to request an adjustment in the Contract Times or Guaranteed Maximum Price; contest a decision by Owner concerning the requirements of the Contract Documents or relating to the acceptability of the Work under the Contract Documents; challenge a set-off against payment due; or seek other relief under the Contract. The Change Proposal will specify any proposed change in Contract Times or Guaranteed Maximum Price, or other proposed relief; identify any governing Work Authorization; indicate CMAR's recommendation for the correct means of amending the Contract (Work Authorization, Change Order, or Contract Amendment) if the proposed change is accepted; and explain the reason for the proposed change, with citations to any governing or applicable provisions of the Contract Documents. Each Change Proposal will address only one issue, or a set of closely related issues.

B. Determination of Changes in Guaranteed Maximum Price for Work—If a Change Order under a Work Authorization entails a change in Guaranteed Maximum Price, then:

1. The change will include the applicable increase or decrease in Cost of the Work, pursuant to Article 6 of the Agreement.

2. The CMAR Fee for changes will be those agreed to Article 7 of the Agreement.

3. If there is a Guaranteed Maximum Price, it will increase or decrease in an amount equal to the increase or decrease in the Cost of the Work and CMAR Fee, as duly determined.

4. The amount of any increases or decreases in the CMAR Fee, or in Guaranteed Maximum Price, will be set forth in the applicable Change Order.

C. Change Proposal Procedures

1. Submittal—CMAR shall submit each Change Proposal to Owner and Engineer within 30 days after the start of the event giving rise thereto.

2. Supporting Data—The CMAR shall submit supporting data, including the proposed change in Guaranteed Maximum Price or Contract Time, if any, to the Engineer and Owner with such Change Proposal.

a. Change Proposals based on or related to delay, interruption, or interference must comply with the provisions of Paragraphs 4.05.D and 4.05.E.

b. Change Proposals related to a change of Guaranteed Maximum Price based on Cost of the Work must include full and detailed account of eligible costs, such as materials incorporated into the Work, labor and equipment used for the subject Work, and Subcontract costs.

The supporting data must be accompanied by a written statement that the supporting data is accurate and complete, and that any requested time or price adjustment is the entire adjustment to which CMAR believes it is entitled as a result of said event.

3. Engineer's Initial Review: Engineer will advise Owner regarding the Change Proposal, and consider any comments or response from Owner regarding the Change Proposal. If in its discretion Engineer concludes that additional supporting data is needed before conducting a full review and advising Owner regarding the Change Proposal, then Engineer may request that CMAR submit such additional supporting data by a date specified by Engineer, prior to Engineer advising Owner on its full review of the Change Proposal.

4. Owner's Review and Action on the Change Proposal: Upon receipt of Engineer's advice regarding CMAR's Change Proposal, Owner may request that CMAR submit additional supporting data Owner determines is needed for Owner to conduct a full review and make a decision regarding the Change Proposal. Upon receipt of CMAR's supporting data (including any additional data requested by Owner), Owner will conduct a full review of each Change Proposal and, within a reasonable time after such receipt of the CMAR's supporting data, either approve the Change Proposal in whole, deny it in whole, or approve it in part and deny it in part. Such actions must be in writing, with a copy provided to CMAR. If Owner does not take action on the Change Proposal within 30 days, then the Change Proposal is deemed denied, thereby commencing the time for appeal of the denial under Article 12.

5. Binding Decision: Owner's decision is final and binding upon CMAR, unless CMAR appeals the decision by filing a Claim under Article 12.

D. Post-Completion—CMAR shall not submit any Change Proposals after Engineer issues a written recommendation of final payment pursuant to Paragraph 15.07.B.

11.10 Notification to Surety

A. CMAR shall notify the performance and payment bond surety of the issuance of each Work Authorization and confirm that the bonds have been adjusted to reflect the changes in Guaranteed Maximum Price and Contract Times.

B. If the provisions of any bond require notice to be given to a surety of any change affecting the general scope of the Work or the provisions of the Contract Documents, including, but not limited to, Guaranteed Maximum Price or Contract Times, the giving of any such notice will be CMAR's responsibility. The amount of each applicable bond will be adjusted to reflect the effect of any such change.

ARTICLE 12—CLAIMS

12.01 Claims

A. Claims Process—The following disputes between Owner and CMAR are subject to the Claims process set forth in this article:

1. Appeals by CMAR of Owner's decisions regarding Change Proposals;

2. Any demands for adjustments in the Contract Price or Contract Times, or other relief under the Contract Documents provided the party making the demand has complied

with all contractual notice requirements in applicable sections of the Contract Documents; and

3. Subject to the waiver provisions of Paragraph 15.08, any dispute arising after Engineer has issued a written recommendation of final payment pursuant to Paragraph 15.07.B.

B. Submittal of Claim—The party submitting a Claim shall deliver it directly to the other party to the Contract promptly, but no later than 21 days after the party recognizes the condition giving rise to the Claim. In the case of appeals regarding Change Proposals, CMAR shall submit such Claims within 7 days of the decision under appeal. The responsibility to substantiate a Claim rests with the party making the Claim. In the case of a Claim by CMAR seeking an increase in the Contract Times or Contract Price, CMAR shall certify that the Claim (including the days and amounts) is made in good faith, that the supporting data are accurate and complete, and that to the best of CMAR's knowledge and belief the amount of time or money requested accurately reflects the amount to which CMAR is entitled under the Contract Documents. CMAR's strict compliance with the Claim submittal procedures set forth in Paragraph 12.01 shall be considered a condition precedent to the CMAR's entitlement to its relief for any Claim under the Contract Documents.

C. Review and Resolution—The party receiving a Claim shall review it thoroughly and consider its merits. The parties shall seek to resolve the Claim through the exchange of information and direct negotiations. The parties may extend the time for resolving the Claim by mutual agreement. All actions taken on a Claim will be stated in writing and submitted to the other party, with a copy to Engineer.

D. Mediation

1. At any time after initiation of a Claim, Owner and CMAR may mutually agree to mediation of the underlying dispute. The agreement to mediate will stay the Claim submittal and response process.

2. If Owner and CMAR agree to mediation, then after 60 days from such agreement, either Owner or CMAR may in writing unilaterally terminate the mediation process, and the Claim submittal and decision process will resume as of the date of the termination. If the mediation proceeds but is unsuccessful in resolving the dispute, the Claim submittal and decision process will resume as of the date of the conclusion of the mediation, as determined by the mediator.

3. Owner and CMAR shall each pay one-half of the mediator's fees and costs.

E. Partial Approval—If a Claim is only partially approved, such action will be final and binding unless within 30 days of such action unless the other party gives written notice to the denying party of the intent to submit the dispute to mediation or to a court of competent jurisdiction.

F. Denial of Claim—If efforts to resolve a Claim are not successful, the party receiving the Claim may deny it by giving written notice of denial to the other party. If the receiving party does not take action on the Claim within 60 days, then either Owner or CMAR may at any time thereafter submit a letter to the other party indicating that as a result of the inaction, the Claim is deemed denied, thereby commencing the time for appeal of the denial. Owner's denial of CMAR's Claim will be final and binding unless CMAR gives written notice to Owner of the intent to submit the dispute to mediation or to a court of competent jurisdiction within 30 days of the denial.

G. Final and Binding Results—If the parties reach a mutual agreement regarding a Claim; or if a Claim is approved in part and denied in part, or denied in full, and such actions become final and binding; then the results of the agreement or action on the Claim will be incorporated in a Change Order or other written document to the extent they affect the Contract, including the Work, the Contract Times, or the Contract Price.

ARTICLE 13—ALLOWANCES; UNIT PRICE WORK

13.01 Allowances

A. CMAR shall include in the GMP all allowances stated in the Contract Documents. Each allowance item shall contain a detailed breakdown of the assumptions for each allowance, including assumptions pertaining to quantity, quality, assembly factors and inclusion or exclusion of costs. By inclusion of allowance items in the GMP, CMAR represents and warrants to Owner that each such allowance is a reasonable estimate, using CMAR's skill and professional judgment, of the cost pertaining to such allowance item taking into account: (a) the Drawings and Specifications and other information existing at the time the allowance is determined; (b) the labor and material standards and construction means, methods and techniques prevailing in the industry for first class construction; and (c) the level of labor and material costs generally prevailing in the locality of the Project at the time the allowance is determined. Where an allowance item has been provided to CMAR by Owner, CMAR shall review such allowance item, and before including such allowance item in the GMP, determine to the best of CMAR's knowledge and professional judgement, that the cost pertaining to such allowance item is a reasonable estimate taking into account the above criteria. If requested by Owner, CMAR shall provide Owner with a written explanation of how each allowance was determined.

B. Cash Allowances—CMAR agrees that:

1. the cash allowances include the cost to CMAR, less any applicable trade discounts, of materials and equipment required by the allowances to be delivered at the Site, and all applicable taxes, excluding taxes from which Owner and/or the Project are exempt; and

2. CMAR's costs for unloading and handling on the Site, labor, installation, overhead, profit, and other expenses contemplated for the cash allowances have been included in the Guaranteed Maximum Price and not in the allowances, and no demand for additional payment for any of the foregoing will be valid.

C. Prior to final payment, an appropriate Change Order will be issued as recommended by Owner to reflect actual amounts due CMAR for Work covered by allowances, and the Guaranteed Maximum Price will be correspondingly adjusted.

13.02 Unit Price Work

A. Where the Contract Documents provide that all or part of the Work is to be Unit Price Work, initially the Guaranteed Maximum Price will be deemed to include for all Unit Price Work an amount equal to the sum of the unit price for each separately identified Item of Unit Price Work times the estimated quantity of each Item as indicated in the Agreement.

B. The estimated quantities of items of Unit Price Work are not guaranteed and are solely for the purpose of comparison of Proposals and determining an Estimated Guaranteed Maximum Price. Payments to CMAR for Unit Price Work will be based on actual quantities.

C. Each unit price will be deemed to include an amount considered by CMAR or such Subcontractor providing the unit price, as applicable, to be adequate to cover CMAR's, or such Subcontractor's, as applicable, overhead and profit for each separately identified item. Notwithstanding the foregoing, with respect to any CMAR self-performed Work, each unit price shall set forth CMAR's actual cost and CMAR's overhead and profit on such unit price shall be included in CMAR's Fee.

D. Engineer will initially determine the actual quantities and classifications of Unit Price Work performed or furnished by CMAR. Engineer will review with CMAR the Engineer's preliminary determinations on such matters before rendering a written decision thereon, by recommendation of an Application for Payment or otherwise. Engineer's written decision thereon will be final and binding except as modified by Engineer to reflect changed factual conditions or more accurate data upon Owner and CMAR, and the final adjustment of Guaranteed Maximum Price will be set forth in a Change Order, subject to the provisions of the following Paragraph.

E. Adjustments in Unit Price

1. CMAR or Owner shall be entitled to an adjustment in the unit price with respect to an Item of Unit Price Work if:

a. the quantity of the Item of Unit Price Work performed by CMAR differs materially and significantly from the estimated quantity of such Item indicated in the Agreement; and

b. CMAR's unit costs to perform the Item of Unit Price Work have changed materially and significantly as a result of the quantity change.

2. The adjustment in unit price will account for and be coordinated with any related changes in quantities of other items of Work, and in CMAR's costs to perform such other Work.

3. Adjusted unit prices will apply to all units of that item.

ARTICLE 14—TESTS AND INSPECTIONS; CORRECTION, REMOVAL, OR ACCEPTANCE OF DEFECTIVE WORK

14.01 Access to Work

A. Owner, Engineer, their consultants and other representatives and personnel of Owner, independent testing laboratories, and authorities having jurisdiction have access to the Site and the Work at reasonable times for their observation, inspection, and testing. CMAR shall provide them with proper and safe conditions for such access and advise them of CMAR's safety procedures and programs so that they may comply with such procedures and programs as applicable.

14.02 Tests, Inspections, and Approvals

A. CMAR shall give Owner and Engineer timely notice of readiness of the Work, or specific parts thereof, for all required inspections and tests and shall cooperate with inspection and testing personnel to facilitate required inspections and tests.

B. Owner shall retain and pay for the services of an independent inspector, testing laboratory, or other qualified individual or entity to perform all inspections and tests expressly required by the Contract Documents to be furnished and paid for by Owner, except those costs

incurred in connection with tests or inspections of covered Work will be governed by the provisions of Paragraph 14.05.

C. If Laws or Regulations of any public body having jurisdiction require any Work, or part thereof, specifically to be inspected, tested, or approved by an employee or other representative of such public body, CMAR shall assume full responsibility for arranging and obtaining such inspections, tests, or approvals, pay all costs in connection therewith, and furnish Owner and Engineer the required certificates of inspection or approval.

D. CMAR shall be responsible for arranging, obtaining, and paying for all inspections and tests required:

1. by the Contract Documents, unless the Contract Documents expressly allocate responsibility for a specific inspection or test to Owner;
2. to attain acceptance of materials or equipment to be incorporated in the Work;
3. by manufacturers of equipment furnished under the Contract Documents;
4. for testing, adjusting, and balancing of mechanical, electrical, and other equipment to be incorporated into the Work; and
5. for acceptance of materials, mix designs, or equipment submitted for approval prior to CMAR's purchase thereof for incorporation in the Work.

Such inspections and tests will be performed by independent inspectors, testing laboratories, or other qualified individuals or entities acceptable to Owner and Engineer.

E. If the Contract Documents require the Work, or part thereof, to be accepted by Owner, Engineer, or another designated individual or entity, then CMAR shall assume full responsibility for arranging and obtaining such approvals.

F. If any Work, or the work of others that is to be inspected, tested, or approved is covered by CMAR without written concurrence of Engineer, CMAR shall, if requested by Engineer or Owner, uncover such Work for observation. Such uncovering will be at CMAR's expense unless CMAR has given Engineer and Owner timely notice of CMAR's intention to cover the same and Engineer had not acted with reasonable promptness in response to such notice.

14.03 Defective Work

A. CMAR's Obligation—It is CMAR's obligation to assure that the Work is not defective.

B. Engineer's and Owner's Authority— Engineer has the authority to determine whether Work is defective, and, in consultation with the Owner, to reject defective Work. Owner has the authority to determine whether Work is defective, and to reject defective Work.

C. Notice of Defects—Prompt written notice of all defective Work of which Owner or Engineer has actual knowledge will be given to CMAR. Prompt written notice of all defective Work of which CMAR has actual knowledge will be given to Owner and Engineer.

D. Correction, or Removal and Replacement—Promptly after knowledge of or receipt of written notice of defective Work, CMAR shall correct all such defective Work, whether or not fabricated, installed, or completed, or, if Owner or Engineer has rejected the defective Work, remove it from the Project and replace it with Work that is not defective.

E. Preservation of Warranties—When correcting defective Work, CMAR shall take no action that would void or otherwise impair Owner's special warranty and guarantee, if any, on said Work.

F. Costs and Damages—In addition to its correction, removal, and replacement obligations with respect to defective Work, CMAR shall pay all claims, costs, losses, and damages arising out of or relating to defective Work, including but not limited to the cost of the inspection, testing, correction, removal, replacement, or reconstruction of such defective Work, fines levied against Owner by governmental authorities because the Work is defective, and the costs of repair or replacement of work of others resulting from defective Work. Prior to final payment, if Owner and CMAR are unable to agree as to the measure of such claims, costs, losses, and damages resulting from defective Work, then Owner may impose a reasonable set-off against payments due under Article 15.

14.04 Acceptance of Defective Work

A. If, instead of requiring correction or removal and replacement of defective Work, Owner prefers to accept it, Owner may do so in writing. If such acceptance occurs prior to final payment, such acceptance shall be subject to Engineer's confirmation that such acceptance is in general accord with the design intent and applicable engineering principles and will not endanger public safety. CMAR shall pay all claims, costs, losses, and damages attributable to Owner's evaluation of and determination to accept such defective Work; such costs to be approved by Owner as to reasonableness, and for the diminished value of the Work to the extent not otherwise paid by CMAR. If any such acceptance occurs prior to final payment, the necessary revisions in the Contract Documents with respect to the Work will be incorporated in a Change Order. If the parties are unable to agree as to the decrease in the Guaranteed Maximum Price, reflecting the diminished value of Work so accepted, then Owner may impose a reasonable set-off against payments due under Article 15. If the acceptance of defective Work occurs after final payment, CMAR shall pay an appropriate amount to Owner.

14.05 Uncovering Work

A. Each of Engineer and Owner has the authority to require additional inspection or testing of the Work, whether or not the Work is fabricated, installed, or completed.

B. If any Work is covered contrary to the written request of Engineer or Owner, then CMAR shall, if requested by Engineer or Owner, uncover such Work for Owner's or Engineer's observation, and then replace the covering, all at CMAR's expense.

C. If Engineer or Owner considers it necessary or advisable that covered Work be observed by Owner or Engineer, or inspected or tested by others, then Owner or Engineer will so advise CMAR, and CMAR shall uncover, expose, or otherwise make available for observation, inspection, or testing as Engineer or Owner may require, that portion of the Work in question, and provide all necessary labor, material, and equipment.

1. If it is found that the uncovered Work is defective, CMAR shall be responsible for all claims, costs, losses, and damages arising out of or relating to such uncovering, exposure, observation, inspection, and testing, and of satisfactory replacement or reconstruction, including but not limited to all costs of repair or replacement of work of others, and pending CMAR's full discharge of this responsibility the Owner shall be entitled to impose a reasonable set-off against payments due under Article 15.

2. If the uncovered Work is not found to be defective, CMAR shall be allowed an increase in the Guaranteed Maximum Price for the actual, direct costs incurred and substantiated or an extension of the Contract Times for actual impacts to the critical path schedule directly attributable to such uncovering, exposure, observation, inspection, testing, replacement, and reconstruction. If the parties are unable to agree as to the amount or extent thereof, then CMAR may submit a Change Proposal within 7 days of the determination that the Work is not defective.

14.06 Owner May Stop the Work

A. If the Work is defective, or CMAR fails to supply sufficient skilled workers or suitable materials or equipment, or fails to perform the Work in such a way that the completed Work will conform to the Contract Documents, then Owner may order CMAR to stop the Work, or any portion thereof, until the cause for such order has been eliminated. CMAR shall have no right or claim against Owner for an extension of Contract Times or increase in Guaranteed Maximum Price for the resulting delay. This right of Owner to stop the Work will not give rise to any duty on the part of Owner to exercise this right for the benefit of CMAR, any Subcontractor, any Supplier, any other individual or entity, or any surety for, or employee or agent of any of them.

14.07 Owner May Correct Defective Work

A. If CMAR fails within a reasonable time after written notice from Owner or Engineer to correct defective Work, or to remove and replace defective Work as required by Owner or Engineer, then Owner may, after 7 days' written notice to CMAR or such shorter time as may be reasonable under the circumstances, correct or remedy any such deficiency.

B. In exercising the rights and remedies under this Paragraph 14.07, Owner shall proceed reasonably promptly. In connection with such corrective or remedial action, Owner may exclude CMAR from all or part of the Site, take possession of all or part of the Work and suspend CMAR's services related thereto, and incorporate in the Work all materials and equipment stored at the Site or for which Owner has paid CMAR but which are stored elsewhere. CMAR shall allow Owner, Owner's representatives, agents and employees, Owner's other contractors, Engineer, and their consultants access to the Site to enable Owner to exercise the rights and remedies under this paragraph.

C. All claims, costs, losses, and damages incurred or sustained by Owner in exercising the rights and remedies under this Paragraph 14.07 will be charged against CMAR as set-offs against payments due under Article 15. Such claims, costs, losses, and damages will include but not be limited to all costs of repair, or replacement of work of others destroyed or damaged by correction, removal, or replacement of CMAR's defective Work.

D. CMAR shall not be allowed an extension of the Contract Times because of any delay in the performance of the Work attributable to the exercise by Owner of Owner's rights and remedies under this Paragraph 14.07.

ARTICLE 15—PAYMENTS TO CMAR; SET-OFFS; COMPLETION; CORRECTION PERIOD

15.01 Payment for CMAR Services

A. The basis and procedures for payment for CMAR Services are set forth in the Agreement, Article 3. The provisions of this Article 15 pertain to payment for performance and furnishing of the Work, unless noted otherwise.

15.02 Progress Payments

Except as modified in a Work Authorization, Progress Payments shall be governed by this Section 15.02.

A. Basis for Progress Payments

1. CMAR will, at least 10 days prior to applying for Payment, prepare and submit for approval by Engineer a schedule allocating portions of the Guaranteed Maximum Price to various portions of the Work, as determined by the applicable Work Authorizations.

2. CMAR shall submit a schedule of values to the Engineer before the first Application for Payment, allocating the entire Contract Price to the various portions of the Work ("Schedule of Values"). The Schedule of Values shall be prepared in the form, and supported by the data to substantiate its accuracy, required by the Engineer or Owner, and if approved in writing by Owner, the Schedule of Values will serve as the basis for progress payments and will be incorporated by Engineer into an Application for Payment form. Progress payments for Unit Price Work will be based on the number of units completed during the pay period, as determined under the provisions of Paragraph 13.02. Progress payments for cost-based Work will be based on Cost of the Work completed by CMAR during the pay period.

B. Applications for Payments

1. By the last day of the month, but not more often than once a month, CMAR shall submit to Engineer for review an Application for Payment filled out and signed by CMAR covering the Work completed as of the date of the Application and accompanied by such supporting documentation as is required by the Contract Documents. In addition to other required items, each Application for Payment shall be accompanied by the following documentation, statements and information, in form and substance reasonably satisfactory to the Owner and in compliance with applicable state statutes:

a. a statement, under oath, by CMAR that all bills or obligations incurred by CMAR, for which previous Applications for Payment have been submitted and paid by Owner, have been paid by CMAR, or, if any bill or obligation remains outstanding, the statement shall fully disclose the outstanding bill or obligation by stating the name of the person or entity to whom the bill or obligation remains outstanding, the amount of the outstanding bill or obligation, and the reason why such bill or obligation has not been paid; CMAR's sworn statement must include CMAR's Subcontractor list in Excel electronic format and must reflect the amount of Change Orders entered into, by CMAR with Subcontractors;

b. a duly executed Conditional Waiver and Release on Progress Payment (as shown in Exhibit F-1 attached to the Agreement) from the CMAR and each Subcontractor

and Supplier waiving all liens and claims for payment for the Work covered by the Application for Payment being submitted conditioned upon receipt of payment;

c. for any payments made by Owner to CMAR at least seven days prior to submission of the pending Application for Payment ("Prior Payments"), a duly executed Unconditional Waiver and Release on Progress Payment (as shown in Exhibit F-2 attached to the Agreement) from each Subcontractor waiving all liens or claims for payment for the Work covered by such Prior Payments;

d. for any payments made by Owner to CMAR prior to submission of the pending Application for Payment a duly executed Unconditional Waiver and Release on Progress Payment (as shown in Exhibit F-2 attached to the Agreement) from CMAR waiving all liens or claims for payment for the Work covered by the previous Application for Payment; and

e. such other reasonable information, documentation, and material as the Owner or Owner's lender of any may request. Owner shall furnish to CMAR any policies, procedures, or other requirements of Owner, or any construction finance lender or lenders needed to approve and/or authorize payments to CMAR.

2. If payment is requested on the basis of materials and equipment not incorporated in the Work but delivered and suitably stored at the Site or at another location agreed to in writing, the Application for Payment must also be accompanied by: (a) a bill of sale, invoice, copies of subcontract or purchase order payments, or other documentation establishing full payment by CMAR for the materials and equipment; (b) at Owner's request, documentation warranting that Owner has received the materials and equipment free and clear of all Liens; and (c) evidence that the materials and equipment are covered by appropriate property insurance, a warehouse bond, or other arrangements to protect Owner's interest therein, all of which must be satisfactory to Owner.

3. Beginning with the second Application for Payment, each Application must include an affidavit of CMAR stating that all previous progress payments received by CMAR have been applied to discharge CMAR's legitimate obligations associated with prior Applications for Payment.

4. The amount of retainage with respect to progress payments will be as stipulated in the Agreement.

5. Each Application for Payment will constitute a representation by CMAR that:

a. the Work has progressed to the point indicated;

b. the quality of the Work is in accordance with the Contract Documents subject to an evaluation of the Work as a functioning whole prior to or upon Substantial Completion, the results of any subsequent tests called for in the Contract Documents, and any other qualifications stated in the Application for Payment, provided that such qualifications shall not obligate Owner to pay for Work not yet completed in accordance with the Contract Documents; and

c. the conditions precedent to CMAR's being entitled to such payment have been fulfilled.

C. Review of Applications

1. Engineer will, within 20 days after receipt of each Application for Payment, including each resubmittal, either indicate in writing a recommendation of payment and present the Application to Owner, or return the Application to CMAR indicating in writing Engineer's reasons for refusing to recommend payment for all or a portion of the Application for Payment. In the latter case, CMAR may make the necessary corrections and resubmit the Application.

2. Engineer's recommendation of any payment requested in an Application for Payment will constitute a representation by Engineer to Owner, based on Engineer's (a) observations of the executed Work, and (b) review of the Application for Payment and the accompanying data and schedules, that to the best of Engineer's knowledge, information, and belief:

    a. the Work has progressed to the point indicated;

    b. the quality of the Work is generally in accordance with the Contract Documents subject to an evaluation of the Work as a functioning whole prior to or upon Substantial Completion, the results of any subsequent tests called for in the Contract Documents, a final determination of quantities and classifications for Unit Price Work under Paragraph 13.02, and any other qualifications stated in the recommendation; and

    c. the conditions precedent to CMAR's being entitled to such payment appear to have been fulfilled in so far as it is Engineer's responsibility to observe the Work.

3. By recommending any such payment Engineer will not thereby be deemed to have represented that:

    a. inspections made to check the quality or the quantity of the Work as it has been performed have been exhaustive, extended to every aspect of the Work in progress, or involved detailed inspections of the Work beyond the responsibilities specifically assigned to Engineer in the Contract; or

    b. there may not be other matters or issues between the parties that might entitle CMAR to be paid additionally by Owner or entitle Owner to withhold payment to CMAR.

4. Neither Engineer's review of CMAR's Work for the purposes of recommending payments nor Engineer's recommendation of any payment, including final payment, will impose responsibility on Engineer:

    a. to supervise, direct, or control the Work;

    b. for the means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto;

    c. for CMAR's failure to comply with Laws and Regulations applicable to CMAR's performance of the Work;

    d. to make any examination to ascertain how or for what purposes CMAR has used the money paid by Owner; or

    e. to determine that title to any of the Work, materials, or equipment has passed to Owner free and clear of any Liens.

5. Engineer may refuse to recommend the whole or any part of any payment if, in Engineer's opinion, it would be incorrect to make the representations to Owner if the statements in Paragraph 15.02.C.2 cannot be made to Engineer's knowledge, information, and belief.

6. Engineer will recommend reductions in payment (set-offs) necessary in Engineer's opinion to protect Owner from loss because:

   a. the Work is defective, requiring correction or replacement;

   b. the Guaranteed Maximum Price has been reduced by Change Orders or other Contract modifications;

   c. Owner has been required to correct defective Work in accordance with Paragraph 14.07, or has accepted defective Work pursuant to Paragraph 14.04;

   d. Owner has been required to remove or remediate a Hazardous Environmental Condition for which CMAR is responsible;

   e. Engineer has actual knowledge of the occurrence of any of the events that would constitute a default by CMAR and therefore justify termination for cause under the Contract Documents;

   f. Engineer in good faith determines that the portion of the Contract Price then remaining unpaid will not be sufficient to complete the Work in accordance with the Drawings and Specifications, whereupon no additional payments will be due CMAR hereunder unless and until CMAR, at its sole cost, performs a sufficient portion of the Work so that such portion of the Contract Price then remaining unpaid is determined by Owner to be sufficient to so complete the Work; provided however, this provision shall not apply if the shortfall is due to Owner's failure to make timely payment to CMAR of undisputed amounts;

   g. CMAR has failed, or Engineer is made aware that CMAR has failed, to make payments promptly to Suppliers or Subcontractors for material or labor used in the Work for which the Owner has made payment to the CMAR per the terms of the Agreement and the General Conditions.

D. Payment Becomes Due

1. Subject to Paragraph 15.02.E below, payments of amounts approved by Owner are due and payable thirty (30) days from the date the Owner receives the certified Application for Payment from CMAR.

E. Reductions in Payment by Owner

1. In addition to any reductions in payment (set-offs) based on Engineer's review of the Application for Payment, and notwithstanding any provisions in the Contract Documents to the contrary, Owner is entitled to impose a set-off against or withhold payment based on any of the following:

   a. Claims have been made against Owner based on CMAR's conduct in the performance or furnishing of the Work, or Owner has incurred costs, losses, or damages resulting from CMAR's conduct in the performance or furnishing of the Work, including but not limited to claims, costs, losses, or damages from workplace

injuries, adjacent property damage, non-compliance with Laws and Regulations, and patent infringement;

b. CMAR has failed to take reasonable and customary measures to avoid damage, delay, disruption, and interference with other work at or adjacent to the Site;

c. CMAR has failed to provide and maintain required bonds or insurance;

d. Owner has been required to remove or remediate a Hazardous Environmental Condition for which CMAR is responsible;

e. Owner has incurred extra charges for advisory services or engineering costs related to submittal reviews, evaluations of proposed substitutes, tests, and inspections, or return visits to manufacturing or assembly facilities;

f. The Work is nonconforming, defective, requiring correction or replacement;

g. Owner has been required to correct defective Work in accordance with Paragraph 14.07, or has accepted defective Work pursuant to Paragraph 14.04;

h. The Guaranteed Maximum Price has been reduced by Change Orders or other Contract modifications;

i. An event has occurred that would constitute a default by CMAR and therefore justify a termination for cause;

j. CMAR is in default of any of its obligations hereunder or otherwise is in default under any of the Contract Documents;

k. Liquidated or other damages have accrued as a result of CMAR's failure to achieve Milestones, Substantial Completion, or final completion of the Work;

l. CMAR fails to provide the above-required affidavits, releases and waivers of liens and claims, or Liens have been filed or asserted in connection with the Work, except where CMAR has delivered a specific bond satisfactory to Owner to secure the satisfaction and discharge of such Liens;

m. Claims have been made or costs have been incurred arising from CMAR Services;

n. CMAR has failed, or Owner has a reasonable belief that CMAR has failed, to make payments promptly, or in the time required by Texas Government Code Chapter 2251, to Suppliers or Subcontractors for material or labor used in the Work for which the Owner has made payment to the CMAR per the terms of the Agreement and the General Conditions;

o. Owner in good faith determines that the portion of the Contract Price then remaining unpaid will not be sufficient to complete the Work in accordance with the Drawings and Specifications, whereupon no additional payments will be due CMAR hereunder unless and until CMAR, at its sole cost, performs a sufficient portion of the Work so that such portion of the Contract Price then remaining unpaid is determined by Owner to be sufficient to so complete the Work; provided however, this provision shall not apply if the shortfall is due to Owner's failure to make timely payment to CMAR of undisputed amounts; or

p. There is reasonable doubt about whether CMAR will complete the Work within the Contract Times; or

q. Other items entitle Owner to a set-off against the amount recommended.

2. If Owner imposes any set-off against payment, Owner will give CMAR prompt written notice stating the reasons for such action and the specific amount of the reduction, and pay CMAR any amount remaining after deduction of the amount so withheld in accordance with the terms of this Article. Owner shall pay CMAR in Owner's next payment of an Application for Payment the amount so withheld, or any adjustment thereto agreed to by Owner and CMAR, if CMAR remedies the reasons for such action. The reduction imposed will be binding on CMAR unless it duly submits a Change Proposal contesting the reduction.

F. Where the Contract Price is based on the Cost of Work, if Owner determines that progress payments made to date substantially exceed the actual progress of the Work, as measured by reference to the Schedule of Values, or present a potential conflict with the Guaranteed Maximum Price, then Owner may require that CMAR prepare and submit a plan for the remaining anticipated Applications for Payment that will bring payments and progress into closer alignment and take into account the Guaranteed Maximum Price, if any, through reductions in billings, increases in retainage, or other measures. Owner will review the plan, discuss any necessary modifications, and implement the plan as modified for all remaining Applications for Payment.

15.03 CMAR's Warranty of Title

A. CMAR warrants and guarantees that title to all Work, materials, and equipment furnished under the Contract will pass to Owner free and clear of (1) all Liens and other title defects, and (2) all patent, licensing, copyright, or royalty obligations, no later than 7 days after the time of payment by Owner.

15.04 Substantial Completion

Except as modified in a Work Authorization, Substantial Completion will be governed by this Paragraph 15.04 and Paragraph 15.05.

A. When CMAR considers the entire Work for the Project is ready for its intended use CMAR shall notify Owner and Engineer in writing that such Work is substantially complete and request that Engineer, issue a certificate of Substantial Completion for the Project. CMAR shall at the same time submit to Owner and Engineer CMAR's proposed comprehensive punch list of items to be completed or corrected before final payment. Failure to include an item on such list does not alter the responsibility of the CMAR to complete all Work in accordance with the Contract Documents.

B. Promptly after CMAR's notification, Owner, CMAR, and Engineer will inspect the Work to determine the status of completion. If the Work is not determined to be substantially complete, Engineer, will notify CMAR in writing, giving the reasons for the determination. After completion or correction of such deficiency, CMAR must again notify Owner and Engineer for reinspection, and submit another request that Engineer issue a certificate of Substantial Completion. If some or all of the Work has been determined not to be at a point of Substantial Completion and will require re-inspection or re-testing by Owner or Engineer, the cost of such re-inspection or re-testing, including the cost of time, travel and living expenses, will be paid by CMAR to Owner. If CMAR does not pay, or the parties are unable to agree as to the amount owed, then Owner may impose a reasonable set-off against payments due under this Article 15.

C. If Engineer deems the Work substantially complete, Engineer, after consultation with Owner, will issue a certificate of Substantial Completion which will fix the date of Substantial Completion. Engineer will attach to the certificate Engineer's punch list of items to be completed or corrected before final payment.

D. At the time of issuance of the certificate of Substantial Completion, Owner may use and occupy the Work, and Owner and CMAR will review the builder's risk insurance policy with respect to the end of the builder's risk coverage, and confirm the transition to coverage of the Work under a permanent property insurance policy held by Owner. CMAR shall bear responsibility for security, operation, protection of the Work, property insurance, maintenance, heat, and utilities until Owner's use or occupancy of the Work.

E. After Substantial Completion the CMAR shall promptly begin work on the punch list of items to be completed or corrected prior to final payment. In appropriate cases CMAR may submit monthly Applications for Payment for completed punch list items, following the progress payment procedures set forth above.

F. Owner shall have the right to exclude CMAR from the Site after the date of Substantial Completion subject to allowing CMAR reasonable access to remove its property and complete or correct items on the punch list.

15.05 Partial Use or Occupancy; Completion of Authorized Work

A. Prior to Substantial Completion of all the Work for the entire Project, Owner may use or occupy any substantially completed part of the Work which has specifically been identified in the Contract Documents, or which Owner and Engineer agree constitutes a separately functioning and usable part of the Work that can be used by Owner for its intended purpose without significant interference with CMAR's performance of the remainder of the Work, subject to the following conditions:

1. At any time, Owner may use or occupy any such part of the Work that Owner believes to be substantially complete. Engineer will inspect that part of the Work to determine its status of completion and if Engineer agrees that such part of the Work is substantially complete, CMAR, Owner, and Engineer will follow the procedures of Paragraph 15.04.A through 15.04.E for that part of the Work. If Engineer does not consider that part of the Work to be substantially complete, Engineer will notify Owner and CMAR in writing, giving the reasons for its determination.

2. At any time, CMAR may notify Owner and Engineer in writing that CMAR considers any such part of the Work substantially complete and request Engineer to issue a certificate of Substantial Completion for that part of the Work.

3. Within a reasonable time after CMAR makes a request pursuant to Paragraph 15.05.A.2 above, Owner, CMAR, and Engineer will inspect that part of the Work to determine its status of completion. If Engineer does not consider that part of the Work to be substantially complete, Engineer will notify Owner and CMAR in writing, giving the reasons for its determination. If Engineer considers that part of the Work to be substantially complete, then for that part of the Work the provisions of Paragraph 15.04 will apply with respect to certification of Substantial Completion, the division of responsibility, and access.

4. No use or occupancy or separate operation of part of the Work may occur prior to compliance with the requirements of Article 6 and the Insurance Requirements Exhibit to the Agreement regarding builder's risk or other property insurance.

5. Neither the organization of the Work into Work Packages, nor the authorization of specified parts of the Work in a Work Authorization, establishes (a) that such packages or parts of the Work have been identified in the Contract Documents or otherwise as a part of the Work that Owner may use or occupy upon completion, or (b) that any such Work constitutes a separately functioning and usable part of the Work that upon completion can be used by Owner for its intended purpose without significant interference with CMAR's performance of the remainder of the Work. The determination of whether any part of the Work qualifies for partial use or occupancy under this Paragraph 15.05 will be made on the merits without reference to Work Packages or Work Authorizations.

B. Substantial Completion of Authorized Work

1. When CMAR considers the entire Work authorized under a specific Work Authorization is ready for its intended use, CMAR shall notify Owner and Engineer in writing that such authorized Work is substantially complete and request that Engineer issue a certificate of Substantial Completion applicable solely to such authorized Work. CMAR shall at the same time submit to Owner and Engineer the CMAR's proposed comprehensive punch list of items to be completed or corrected before such authorized Work is deemed complete.

2. CMAR, Owner, and Engineer will follow the procedures of Paragraph 15.04.A through 15.04.E for such authorized Work.

3. The determination of a date of Substantial Completion for such authorized Work under a specific Work Authorization under this Paragraph 15.05.B or part of Work under Paragraph 15.05.A will not mark the commencement of the contractual correction period and applicable warranties required by the Contract for such authorized Work; and the authorized Work will remain the responsibility of CMAR.

15.06 Final Inspection

A. Upon written notice from CMAR that the entire Work or an agreed portion thereof is complete, Engineer will promptly make a final inspection with Owner and CMAR and will notify CMAR in writing of all particulars in which this inspection reveals that the Work, or agreed portion thereof, is incomplete or defective. CMAR shall immediately take such measures as are necessary to complete such Work or remedy such deficiencies.

15.07 Final Payment

A. Application for Final Payment

1. After Engineer determines that CMAR has (a) satisfactorily completed all corrections identified during the final inspection, (b) has delivered, in accordance with the Contract Documents, all maintenance and operating instructions, schedules, guarantees, bonds, certificates or other evidence of insurance, certificates of inspection, annotated record documents, as provided in Paragraph 7.15, and other documents, and (c) completed performance of all services required by the Contract, CMAR may make application for final payment.

2. The final Application for Payment must be accompanied, except as previously delivered by:

   a. all documentation required by the Contract Documents, including required certifications;

   b. consent of the surety, if any, to final payment;

   c. satisfactory evidence that all title issues have been resolved such that title to all Work, materials, and equipment has passed to Owner free and clear of any Liens or other title defects or will so pass upon final payment;

   d. a list of all duly pending Change Proposals and Claims; and

   e. complete and legally effective releases or waivers, satisfactory to Owner, of all Lien rights arising out of the Work, and of Liens filed in connection with the Work, the form of which are attached as Exhibit F-3 and Exhibit F-4 to the Agreement;

   f. an affidavit that payrolls, bills for materials and equipment, and other indebtedness connected with the Work for which the Owner or the Owner's property might be responsible or encumbered (less amounts withheld by Owner) have been paid or otherwise satisfied, the form of which is attached after Exhibit F-4 to the Agreement;

   g. a certificate evidencing that insurance required by the Contract Documents to remain in force after final payment is currently in effect;

   h. a written statement that the CMAR knows of no reason that the insurance will not be renewable to cover the period required by the Contract Documents;

   i. documentation of any special warranties, such as manufacturers' warranties or specific Subcontractor warranties;

   j. a certificate from the CMAR that it has performed all of its obligations under the Contract;

   k. a final, unconditional certificate of occupancy and all construction-related approvals, licenses and requirements for the Project or Work Package, as applicable, enabling it to be occupied and operated for its intended use, unless such certificates have not been issued solely as a result of the acts or omissions of the Owner;

   l. certification that all of the requirements for Substantial Completion under Paragraph 15.04 have been met and all Work, including all punch list items, has been fully and finally completed;

   m. a complete list of all Subcontractors and Suppliers, including addresses, telephone numbers, and names of individuals to contact who are familiar with the Project;

   n. digital files of all maintenance and operating manuals;

   o. digital files of all written guarantees and warranties in the form prescribed in the Contract Documents; and

   p. one digital file copy of all other documents as the Owner may reasonably require, which may include, without limitation, those record documents described in Paragraph 7.15 above.

3. If any Subcontractor or Supplier fails to furnish such a release or receipt in full, CMAR may furnish a bond or other collateral satisfactory to Owner to indemnify Owner against any Lien, or Owner at its option may issue joint checks payable to CMAR and specified Subcontractors and Suppliers.

B. Engineer's Review of Final Application and Recommendation of Payment—If, on the basis of Engineer's observation of the Work during construction and final inspection, and review of the final Application for Payment and accompanying documentation as required by the Contract Documents, Engineer is satisfied that CMAR has completed the Work and fulfilled CMAR's other obligations under the Contract, Engineer will, within 10 days after receipt of the final Application for Payment, indicate in writing Engineer's recommendation of final payment and present the final Application for Payment to Owner for payment. Such recommendation will account for any set-offs against payment that are necessary in Engineer's opinion to protect Owner from loss for the reasons stated above with respect to progress payments. Otherwise, Engineer will return the Application for Payment to CMAR, indicating in writing the reasons for refusing to recommend final payment, in which case CMAR shall make the necessary corrections and complete the Work and all remaining services, and resubmit the Application for Payment.

C. Notice of Acceptability of the Work—In support of its recommendation of payment of the final Application for Payment, Engineer will also give written notice to Owner and CMAR that the Work is acceptable to Engineer, subject to stated limitations in the notice and to the provisions of Paragraph 15.08.

D. Completion of Work—The Work is complete, subject to surviving obligations, when it is ready for final payment as established by the Engineer's written recommendation of final payment and issuance of Notice of Acceptability of the Work and Owner's approval of same.

E. Final Payment Becomes Due—Upon receipt from Engineer of the final Application for Payment and accompanying documentation, Owner shall reject or approve such final Application for Payment, and shall set off against the amount recommended by Engineer for final payment any further sum to which Owner is entitled, including but not limited to set-offs for liquidated damages and set-offs allowed under the provisions of this Contract with respect to progress payments. Upon Owner's approval of the final Application for Payment, as may be adjusted in accordance with this paragraph, Owner shall pay the resulting balance due to CMAR within 30 days of Owner's receipt of the final Application for Payment from Engineer with all required supporting documentation.

15.08 Waiver of Claims

A. The acceptance of final payment by CMAR will constitute a waiver by CMAR of all claims and rights against Owner other than those pending matters CMAR identifies in writing to Owner as of the date of the request for final payment.

15.09 Correction Period

A. Scheduled Correction Period Inspection—Within one month before the end of the Contract's correction period, CMAR will participate in an inspection of the Work with the Owner and Engineer to ascertain whether any portion of the Work or the repair of any damage to the Site or adjacent areas is defective and therefore subject to correction by CMAR.

B. If within two years after the date of Final Completion, or such longer period of time as may be prescribed by the Supplementary Conditions or the terms of any applicable special

guarantee required by the Contract Documents, Owner gives CMAR written notice that any Work has been found to be defective, whether as a result of the scheduled correction period inspection or otherwise, or that CMAR's repair of any damages to the Site or adjacent areas has been found to be defective, then after receipt of such notice of defect CMAR shall promptly, without cost to Owner and in accordance with Owner's written instructions:

1. return to the Site with Owner and Engineer to inspect any apparent or discovered defects in the Work, or unrepaired damage to the Site or adjacent areas;
2. consult with Owner and Engineer regarding recommendations as to replacement or correction of such defective Work, or the repair of any damage;
3. correct the defective repairs to the Site or such adjacent areas;
4. correct such defective Work;
5. remove the defective Work from the Project and replace it with Work that is not defective, if the defective Work has been rejected by Owner, and
6. satisfactorily correct or repair or remove and replace any damage to other Work, to the work of others, or to other land or areas resulting from the corrective measures.

C. If, after receipt of a notice of defect within the correction period, CMAR does not promptly comply with the terms of Owner's written instructions, or in an emergency where delay would cause serious risk of loss or damage, Owner may have the defective Work corrected or repaired or may have the rejected Work removed and replaced. CMAR shall pay all costs, losses, and damages, including but not limited to all fees and charges of construction managers, engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs, arising out of or relating to such correction or repair or such removal and replacement, including but not limited to all costs of repair or replacement of work of others. CMAR's failure to pay such costs, losses, and damages within 10 days of invoice from Owner will be deemed the start of an event giving rise to a Claim under Paragraph 12.01.B.

D. Where defective Work, and damage to other Work resulting therefrom, has been corrected or removed and replaced under this paragraph, the correction period hereunder with respect to such Work will be extended for an additional period of one year after such correction or removal and replacement has been satisfactorily completed.

E. CMAR's obligations under this paragraph are in addition to all other obligations and warranties. The provisions of this paragraph are not to be construed as a substitute for, or a waiver of, the provisions of any applicable statute of limitation or repose.

ARTICLE 16—SUSPENSION AND TERMINATION

16.01 Owner May Suspend CMAR Services or Work

A. At any time and without cause, Owner may suspend the CMAR Services or the Work, or any portion thereof, for a period of not more than 90 consecutive days by written notice to CMAR and Engineer. Such notice will fix the date on which CMAR Services or Work will be resumed. CMAR shall resume the CMAR Services or Work on the date so fixed. CMAR shall be entitled to request an adjustment in the Contract Price or an extension of the Contract Times directly attributable to any such suspension lasting longer than 60 consecutive days. Notwithstanding the foregoing, any pause in Work (whether between Work Packages or otherwise) that is

provided for in the Progress Schedule shall not be a suspension and shall not be applicable to such 60-consecutive day period. With respect to a suspension of the Work, any Change Proposal seeking such adjustments must be submitted no later than 30 days after the date fixed for resumption of Work. CMAR shall not be entitled to an adjustment in Contract Price or Contract Time to the extent that (i) performance is, was, or would have been, so suspended, delayed, or interrupted, by another cause for which CMAR is responsible; or (ii) an adjustment is made or denied under another provision of the Contract.

16.02 Owner May Terminate for Cause

A. The occurrence of any one or more of the following events will constitute a default by CMAR and justify termination for cause:

1. CMAR's failure to perform the Work in accordance with the Contract Documents, including, but not limited to, failure to supply sufficient skilled workers or suitable materials or equipment, or failure to adhere to the Progress Schedule;

2. CMAR's failure to perform or otherwise to comply with a material term of the Contract Documents, or CMAR's anticipatory breach or repudiation of the Contract;

3. CMAR's disregard of Laws or Regulations of any public body having jurisdiction;

4. CMAR becomes insolvent, files a Petition in Bankruptcy, or is adjudicated bankrupt, or makes a general assignment to the benefit of its creditors, or cannot pay its debts as they generally become due; or

5. CMAR's disregard of the authority of Owner or Engineer; or

6. CMAR's failure to make payment to Subcontractors or Suppliers in accordance with the respective agreements between CMAR and the Subcontractors or Suppliers.

B. If one or more of the events identified in Paragraph 16.02.A occurs, then after giving CMAR and any surety 7 days' written notice that Owner is considering a declaration that CMAR is in default and termination of the Contract may, without prejudice to any other rights or remedies of the Owner, proceed to

1. declare CMAR to be in default, and give CMAR, and any surety, written notice that the Contract is terminated, enforce the rights available to Owner under this Agreement and any applicable performance bond. If a performance or maintenance or warranty bond is required under the Contract, Owner requires CMAR's surety to complete the remaining Work in accordance with the terms of the original Contract. A completing contractor will be considered a subcontractor of the surety. Owner reserves the right to approve or reject proposed subcontractors. Work may resume after Owner receives and approves certificates of insurance required under Paragraph 6.02 above. Such certificates of insurance may be issued in the name of the completing contractor. The surety is responsible for making every effort to expedite the resumption of Work and completion of the Contract. Owner may complete the Work using any or all materials at the work locations it deems suitable and acceptable. Any costs incurred by Owner for the completion of the Work under the Contract will be the responsibility of the surety. Owner will hold all money earned but not disbursed by the date of default. Upon resumption of the Work after the default, all payments will be made to the surety. All costs and charges incurred by Owner as a result of the default, including, without limitation, the cost of completing the Work under the Contract, costs for other work

Owner deems necessary, and any applicable liquidated damages or disincentives will be deducted from money due to CMAR for completed portions of Work. If these costs exceed the sum that would have been payable to CMAR under the Contract, the surety will be liable and pay Owner the balance of these costs in excess of the Contract Price. In case the costs incurred by Owner are less than the amount that would have been payable under the Contract if the Work had been completed by CMAR, Owner will be entitled to retain the difference.

C. Subject to the terms and operation of any applicable performance bond and surety's prior rights, if Owner has terminated the Contract for cause, Owner may:

1. Exclude the CMAR from the Site, and take possession of, equipment, tools, and construction equipment and machinery thereon owned by the CMAR;

2. Accept assignment of subcontracts pursuant to the Contract Documents; and

3. Finish the Work by whatever reasonable method the Owner may deem expedient. Upon written request of the CMAR, the Owner shall furnish to the CMAR a detailed accounting of the costs incurred by the Owner in finishing the Work.

D. Notwithstanding the foregoing, if Owner reasonably determines that CMAR's acts or omissions pose an immediate and substantial threat or danger of injury to persons or damage to the Work or other property, Owner may, without prejudice to any other rights or remedies granted by this Contract or by law, immediately suspend CMAR's performance of the Work, take immediate possession of the Project Site, take such further action reasonably necessary to prevent, mitigate against, remove, or repair such threat or damage, and deduct such costs and expenses it reasonably incurs from any sums due and owing to the CMAR or, in the absence thereof, to recover such costs and expenses from the CMAR.

E. If Owner proceeds as provided in Paragraph 16.02.B, CMAR shall not be entitled to receive any further payment until the Work is completed. Upon receipt of any such written notice of termination of the right to proceed, the CMAR shall, at its expense, for that Work affected by any such termination:

1. Make an inventory of all materials and equipment in storage at the Site, in route to the Site, in storage or manufacture away from the Site, and on order from Suppliers;

2. Upon Owner's written instruction, assign to the Owner, subcontracts, supply contracts, and equipment rental agreements all as designated by the Owner;

3. Remove from the Site all construction materials, equipment, and plant listed in said inventory other than such construction materials, equipment, and plant which are designated in writing by the Owner to be used by the Owner in completing such Work;

4. Promptly provide to Owner any and all records, plans, drawings, data, permits, specifications, sketches, reports and other information relating to the terminated Work;

5. Transfer to Owner all data and information contained within the project management software.

If the unpaid balance of the Contract Price exceeds the cost to complete the Work, including all related claims, costs, losses, and damages, including but not limited to all fees and charges of Owner's advisors, engineers, architects, attorneys, and other professionals, sustained by Owner, such excess will be paid to CMAR. If the cost to complete the Work including such

related claims, costs, losses, and damages exceeds such unpaid balance, CMAR shall pay the difference to Owner. Such claims, costs, losses, and damages incurred by Owner will be incorporated in a Change Order. When exercising any rights or remedies under this paragraph, Owner shall not be required to obtain the lowest price for the Work performed.

Where CMAR's services have been so terminated by Owner, the termination will not affect any rights or remedies of Owner against CMAR then existing or which may thereafter accrue, or any rights or remedies of Owner against CMAR or any surety under any payment bond or performance bond. Any retention or payment of money due CMAR by Owner will not release CMAR from liability.

If and to the extent that CMAR has provided a performance bond under the provisions of Paragraph 6.01.A, the provisions of Paragraph 16.02.B will govern over any inconsistent provisions of that bond.

16.03 Owner May Terminate for Convenience

A. Upon 7 days' written notice to CMAR, Owner may immediately, without cause and without prejudice to any other right or remedy of Owner, terminate the Contract in whole or in part for Owner's convenience. In such case, CMAR shall be paid for without duplication of any items:

1. completed and acceptable Work executed in accordance with the Contract Documents prior to the effective date of termination;
2. reasonable expenses sustained prior to the effective date of termination in performing services and furnishing labor, materials, or equipment as required by the Contract Documents in connection with uncompleted Work; and
3. reasonable costs of demobilization incurred by CMAR and reasonable amounts incurred in settlement of terminated subcontracts.

B. CMAR shall not be paid for any loss of anticipated profits or revenue, post-termination overhead costs, or other economic loss arising out of or resulting from such termination.

C. If Owner terminates the Contract under Paragraph 16.02 but it should be determined that CMAR was not in default hereunder, then such termination shall be deemed, as of the date made, to have been made for convenience under Paragraph 16.03.

D. Upon receipt of notice from the Owner of such termination for the Owner's convenience, CMAR shall:

1. cease operations as directed by the Owner in the notice;
2. take actions necessary, or that the Owner may direct, for the protection and preservation of the Work; and
3. except for Work directed to be performed prior to the effective date of termination stated in the notice, terminate all existing subcontracts and purchase orders and enter into no further subcontracts and purchase orders.

16.04 Contingent Assignment of Subcontracts and Purchase Orders

A. Each subcontract and purchase order for a portion of the Work, including all contracts with Subcontractors will expressly provide that such agreement is assigned by CMAR to Owner, provided that:

1. Assignment is effective after any termination of the Contract by Owner and only for those agreements that Owner accepts by notifying the Subcontractor and CMAR in writing, which notice shall be made by Owner to CMAR no later than forty-five (45) days after the termination is effective; and

2. Assignment is subject to the prior rights of the surety, if any, obligated under bond relating to the Contract.

B. When Owner accepts assignment of an agreement under this Paragraph, the Owner assumes the CMAR's rights and obligations following such assignment under such agreement. Assignment does not relieve CMAR of its obligations under the assigned agreement or the Contract Documents, nor shall any assignment be deemed a waiver by Owner of any action or claim that Owner could assert against CMAR.

C. If the Work in connection with a subcontract or purchase order has been suspended for more than ninety (90) days after termination of the Contract by Owner and Owner accepts assignment of such agreement, and such termination is not due in whole or in part to any breach of contract or negligence of the Subcontractor, then the Subcontractor's compensation shall be equitably adjusted for any increase in direct costs incurred by such party as a result of the suspension, if requested and appropriate.

D. Upon assignment to the Owner pursuant to this Paragraph 16.04, Owner may further assign the subject agreement to a successor construction manager-at-risk or other entity.

E. Owner shall have the right to request from any Subcontractor at any time during the course of the Work, a notarized affidavit stating the amount of monies which have been paid to the party as of any certain stipulated date.

F. Each agreement shall specifically provide that Owner shall only be responsible to the Subcontractor for those services and materials furnished and approved by Owner subsequent to Owner's exercise of any rights under this conditional assignment.

16.05 CMAR May Stop Work or Terminate

A. If, through no act or fault of CMAR, (1) the Work is suspended for more than 90 consecutive days by Owner or under an order of court or other public authority, or (2) Owner fails for 30 days to pay CMAR any sum finally determined to be due, then CMAR may, upon 60 days' written notice to Owner, and provided Owner has not taken reasonable steps to remedy such suspension or failure within that time, terminate the contract and recover from Owner payment on the same terms as provided in Paragraph 16.03. In no event shall Owner be liable for lost profits, lost opportunity costs, overhead, or any other costs incurred by reason of the termination.

B. In lieu of terminating the Contract and without prejudice to any other right or remedy, if Owner has failed to act on an Application for Payment within 30 days after it is submitted, or Owner has failed for 30 days to pay CMAR any sum finally determined to be due, CMAR may, 30 days after providing written notice to Owner of such failure, stop the Work until payment is made of all such amounts due CMAR, including interest thereon. The provisions of this paragraph are not intended to preclude CMAR from submitting a Change Proposal for an adjustment in Contract Price or Contract Times or otherwise for expenses or damage directly attributable to CMAR's stopping the Work as permitted by this paragraph.

ARTICLE 17—MISCELLANEOUS

17.01 Giving Notice

A. Whenever any provision of the Contract requires the giving of written notice to Owner, CMAR, or Engineer when required, it will be deemed to have been validly given only if delivered:

1. in person, by a commercial courier service or otherwise, to the recipient's place of business;
2. by registered or certified mail, postage prepaid, to the recipient's place of business; or
3. by e-mail to the recipient, with the words "Formal Notice" or similar in the e-mail's subject line.

17.02 Computation of Times

A. When any period is referred to in the Contract by days, it will be computed to exclude the first and include the last day of such period. If the last day of any such period falls on a Saturday or Sunday or on a day made a legal holiday by the law of the applicable jurisdiction, such day will be omitted from the computation.

17.03 Cumulative Remedies

A. The duties and obligations imposed by these General Conditions and the rights and remedies available hereunder to the parties hereto are in addition to and are not to be construed in any way as a limitation of, any rights and remedies available to any or all of them which are otherwise imposed or available by Laws or Regulations, by special warranty or guarantee, or by other provisions of the Contract. The provisions of this Paragraph will be as effective as if repeated specifically in the Contract Documents in connection with each particular duty, obligation, right, and remedy to which they apply.

17.04 Limitation of Damages

A. With respect to Change Proposals, Claims, disputes subject to final resolution, and other matters at issue, neither Owner nor Engineer, nor any of their officers, directors, members, partners, employees, agents, consultants, or subcontractors, shall be liable to CMAR for any claims, costs, losses, or damages sustained by CMAR on or in connection with any other project or anticipated project.

B. Except for third-party indemnity obligations, fraud, willful misconduct, amounts covered by insurance required by the Contract, and the exception in Section 15.2.A.3 and 15.2.A.4 of the Agreement, neither party shall be liable to the other for consequential, incidental, special, exemplary, or punitive damages, including lost profits, lost revenue, loss of use, loss of financing, loss of business opportunity, or damages on or in connection with any other project or anticipated project other than this Project.

17.05 No Waiver

A. A party's non-enforcement of any provision will not constitute a waiver of that provision, nor will it affect the enforceability of that provision or of the remainder of this Contract.

17.06 Survival of Obligations

A. All representations, indemnifications, warranties, and guarantees made in, required by, or given in accordance with the Contract, as well as all continuing obligations indicated in the Contract, will survive final payment, completion, and acceptance of the Work or termination of the Contract or of the services of CMAR.

17.07 Controlling Law

A. This Contract is to be governed by the law of the State of Texas without regard to conflicts of laws that would apply the laws of a different jurisdiction.

17.08 Assignment of Contract

A. Unless expressly agreed to elsewhere in the Contract, no assignment by a party to this Contract of any rights under or interests in the Contract will be binding on the other party without the written consent of the party sought to be bound; and, specifically but without limitation, money that may become due and money that is due may not be assigned without such consent, except to the extent that the effect of this restriction may be limited by law, and unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under the Contract.

17.09 Successors and Assigns

A. Owner and CMAR each binds itself, its successors, assigns, and legal representatives to the other party hereto, its successors, assigns, and legal representatives in respect to all covenants, agreements, and obligations contained in the Contract Documents.

17.10 Headings

A. Article and Paragraph headings are inserted for convenience only and do not constitute parts of these General Conditions.

17.11 Interpretation

A. The parties expressly agree that this Contract was jointly drafted, and that both parties had opportunity to negotiate its terms and to obtain the assistance of counsel in reviewing its terms prior to execution. Therefore, this Contract shall be construed neither against nor in favor of either party, but shall be construed in a neutral manner.

17.12 CMAR's Additional Representations

A. CMAR and the person or persons executing the Agreement on behalf of CMAR, or representing themselves as executing the Agreement on behalf of CMAR (collectively, the "Signing Entities"), hereby acknowledge that (a) the Signing Entities do not engage in business with Iran, Sudan or any foreign terrorist organization and (b) the Signing Entities are not named on a list prepared and maintained by the Texas Comptroller of Public Accounts under Section 2252.153 or Section 2270.0201, Texas Government Code, and posted on any of the following pages of such officer's internet website:

1. https://comptroller.texas.gov/purchasing/docs/sudan-list.pdf,
2. https://comptroller.texas.gov/purchasing/docs/iran-list.pdf; or
3. https://comptroller.texas.gov/purchasing/docs/fto-list.pdf.

B. Pursuant to Section 2271.002, Texas Government Code, if CMAR has ten or more full-time employees and the Agreement is for goods and services and is valued at or above $100,000, and is to be paid wholly or partly by public funds, then CMAR hereby represents that it does not boycott Israel and subject to or as otherwise required by applicable federal law, including without limitation 50 U.S.C. Section 4607, agrees it will not boycott Israel during the term of the Contract. As used in the immediately preceding sentence, "boycott Israel" shall have the meaning given such term in Section 2271.001, Texas Government Code.

C. Pursuant Section 2274.002 and any other relevant provisions of the Texas Government Code, if the CMAR has ten or more full-time employees and this Contract is for goods or services valued at or above $100,000, and is to be paid wholly or partly by public funds, then CMAR verifies that it does not (i) have a practice, policy, guidance, or directive that discriminates against a firearm entity or a firearm trade association, and will not discriminate against a firearm entity or firearm trade association during the term of the Contract. As used in the immediately preceding sentence, "firearm entity", "firearm trade association", and discriminate against a firearm entity or firearm trade association" shall have the meaning given such term in Section 2274.001, Texas Government Code.

D. Pursuant to Chapter 809, Texas Government Code, CMAR represents that CMAR does not boycott those energy companies identified in Tex. Gov't. Code § 809.01(1) and will not boycott such energy companies during the term of the Contract.

E. By executing the Agreement, CMAR certifies that it is not owned by nor is the majority of the CMAR's stock or other ownership interest held or controlled by the government or citizens of the following countries: China, Iran, North Korea, Russia, and any other country designated by the Governor of Texas as a threat to critical infrastructure under Section 2275.0103, Texas Government Code, as amended (the "Prohibited Countries"). As used in the immediately preceding sentence, "critical infrastructure" shall have the meaning given such term in Section 2275.0101, Texas Government Code. CMAR further certifies that it is not owned, held, or controlled by any company or governmental entity controlled by or headquartered in the Prohibited Countries. The foregoing prohibitions apply regardless of whether the CMAR's securities are publicly traded or whether the CMAR is listed on a public stock exchange.

EXHIBIT C–INSURANCE EXHIBIT

This Exhibit C is part of and incorporated into the Agreement to which this Exhibit is attached, by and between the City of Georgetown ("Owner") and the CMAR. All capitalized terms used but not defined herein have the definitions given to them in the Agreement and references to capitalized terms Contractor or CMAR shall have the same meaning.

ARTICLE 1—BONDS AND INSURANCE

1.01 Performance, Payment, Security and Other Bonds

A. Security Bond—When CMAR delivers the signed counterparts of the Agreement to the Owner, CMAR shall deliver, within ten (10) days of signing the Agreement, a security bond on the form required by Owner in accordance with the terms provided herein ("Security Bond"). Such Security Bond shall remain in full force and effect until a binding GMP for the entirety of the Work of the Project is established and payment and performance bonds covering the entirety of the Work for the Project have been delivered to the Owner as required by Paragraph 1.01.B of this Exhibit.

B. No later than the execution of the first Work Authorization for a Work Package(s), or Owner's acceptance of the GMP Proposal for the Project if earlier, the CMAR shall furnish a performance bond and a payment bond as required by Chapter 2253 of the Texas Government Code, each with a penal sum in an amount at least equal to the GMP covered by such Work Authorization or the Guaranteed Maximum Price for the Project, as applicable, as security for the faithful performance and payment of CMAR's obligations under the Contract. The performance and payment bonds shall be increased as additional Work Authorizations are executed such that the penal sums of the performance and payment bonds are always equal to the total GMPs of all Work Authorizations executed for the Project, including any modifications thereto. Upon delivery of, or increase to, the performance and payment bonds as required for an executed Work Authorization, the Security Bond shall be accordingly decreased by the amount of the penal sum of the performance and payment bonds or increase thereto. Should the GMP of any Work Authorization be amended by Change Order or otherwise, the penal sum of the performance and payment bonds shall be amended such that the penal sum is always equal to the total GMP of all executed Work Authorizations for the Project. The performance and payment bonds must remain in effect until Final Completion, except as provided otherwise by Laws or Regulations, the Supplementary Conditions, or other provisions of the Contract. The premium costs of such bonds are:

1. included in Construction Support Cost if purchased for the Work based on the Owner's Construction Budget.

IF FOR ANY REASON A STATUTORY PAYMENT OR PERFORMANCE BOND IS NOT HONORED BY THE SURETY, CMAR SHALL FULLY INDEMNIFY AND HOLD OWNER HARMLESS OF AND FROM ANY COSTS, LOSSES, OBLIGATIONS OR LIABILITIES OWNER INCURS AS A RESULT.

C. CMAR shall also furnish such other bonds, if any, as are required by the Supplementary Conditions or other provisions of the Contract.

D. All bonds must be in the form included in the Contract Documents or otherwise specified by Owner except as provided otherwise by Laws or Regulations. A bond signed by an agent or attorney-in-fact must be accompanied by a certified copy of that individual's authority to bind the surety. The evidence of authority must show that it is effective on the date the agent or attorney-in-fact signed the accompanying bond.

E. CMAR shall obtain the required bonds from surety companies that are duly licensed or authorized, in the State of Texas in accordance with Surety Bonds and Related Instruments, Chapter 3503 of the Insurance Code, to issue bonds in the required amounts.

F. If the surety on a bond furnished by CMAR is declared bankrupt or becomes insolvent, or the surety ceases to meet the requirements above, then CMAR shall promptly notify Owner in writing and shall, within 20 days after the event giving rise to such notification, provide another bond and surety, both of which must comply with the bond and surety requirements above.

G. If CMAR has failed to obtain a required bond, Owner may exclude the CMAR from the Site and exercise Owner's termination rights under Article 16 of the General Conditions.

H. Upon request to Owner from any Subcontractor, Supplier, or other person or entity claiming to have furnished labor, services, materials, or equipment used in the performance of the Work, Owner shall provide a copy of the payment bond to such person or entity.

I. Upon request to CMAR from any Subcontractor, Supplier, or other person or entity claiming to have furnished labor, services, materials, or equipment used in the performance of the Work, CMAR shall provide a copy of the payment bond to such person or entity.

J. CMAR acknowledges that the Owner is a municipality and that the property that the Project will occupy is publicly owned. As such, neither CMAR nor any Subcontractor or Supplier may file, assert, or obtain a mechanic's or other lien against the Project or any property of the Owner. CMAR shall provide each Subcontractor and Supplier a copy of the payment bond CMAR obtained for this Project at the time the subcontract is executed.

K. CMAR shall provide a warranty/maintenance bond from a company or companies qualified to issue a payment or performance bond pursuant to Chapter 2253 of the Texas Government Code. The amount of said bond shall be equal to a minimum of ten percent (10%) of the Contract Price, as may be adjusted as provided in an accepted GMP Proposal. The bond shall be provided on Owner's forms and shall be issued by the same surety that issues the payment and performance bonds for the Project and shall be for the duration of the correction period after Final Completion provided in Paragraph 15.09 of the General Conditions.

L. Performance Bonds required of certain Subcontractors and Suppliers—see Paragraph 7.10.O of the General Conditions.

1.02 Insurance—General Provisions

A. Owner and CMAR shall obtain and maintain insurance as required in this Exhibit and in the Supplementary Conditions to the Contract, if any.

B. All insurance required by the Contract to be purchased and maintained by Owner or CMAR shall be obtained from insurance companies that are duly licensed or authorized in the state or jurisdiction in which the Project is located to issue insurance policies for the required limits and coverages. Unless a different standard is indicated in the Supplementary Conditions, all companies that provide insurance policies required under this Contract must have an A.M.

Best Financial Strength Rating of A- or better, and an A.M. Best Financial Size Category of VII or larger.

C. Alternative forms of insurance coverage, including but not limited to self-insurance, insurance through a captive insurer owned or controlled by CMAR, and "Occupational Accident and Excess Employer's Indemnity Policies," are not adequate to meet the insurance requirements of this Contract and all costs associated therewith are not reimbursable under the Contract, unless expressly allowed in the Supplementary Conditions.

D. CMAR shall deliver to Owner certificates of insurance and endorsements establishing that CMAR has obtained and is maintaining the policies and coverages required by the Contract. Upon request by Owner or any other insured, CMAR shall also furnish other evidence of such required insurance, including but not limited to copies of policies, documentation of applicable self-insured retentions, if allowed, and deductibles, full disclosure of all relevant exclusions, and evidence of insurance required to be purchased and maintained by Subcontractors or Suppliers. In any documentation furnished under this provision, CMAR, Subcontractors, and Suppliers may block out (redact) (1) any confidential premium or pricing information and (2) any wording specific to a project or jurisdiction other than those applicable to this Contract.

E. Not used

F. Failure of Owner to demand such certificates or other evidence of the other party's full compliance with these insurance requirements, or failure of Owner to identify a deficiency in compliance from the evidence provided, will not be construed as a waiver of CMAR's obligation to obtain, and maintain such insurance.

G. Except with Owner's written approval, and without limiting any of the other obligations or liabilities of CMAR, CMAR shall require each Subcontractor performing work under the Contract, at Subcontractor's own expense, to maintain during the term of the Contract, the same stipulated minimum insurance including the required provisions and additional policy conditions as shown in Paragraph 1.03 below except for professional liability, with the Owner and other Indemnified Parties identified in the Contract as additional insureds on such policies to the extent that CMAR is required to name Owner and such Indemnified Parties as additional insureds on CMAR's coverage; provided, however, that the minimum limit by Subcontractors for their Excess Liability shall be $1,000,000 per occurrence and general aggregate on subcontracts with an aggregate value less than $1,000,000 (inclusive of all Change Orders) and $5,000,000 per occurrence and aggregate for all other Subcontractors. As an alternative, CMAR may include its Subcontractors as additional insureds on its own coverage as prescribed under these requirements. CMAR's certificate of insurance shall note in such event that Subcontractors are included as additional insureds and that CMAR agrees to provide workers' compensation for Subcontractors and their employees. CMAR shall obtain and monitor the certificates of insurance from each Subcontractor in order to assure compliance with the insurance requirements. CMAR must retain the certificates of insurance for the duration of the Contract plus five (5) years and shall have the responsibility of enforcing these insurance requirements among its Subcontractors. Owner shall be entitled, upon request and without expense, to receive copies of these certificates.

1. If a Subcontractor will provide design, engineering, or other similar professional services under this Contract, as the result of a delegation of professional design responsibilities or otherwise, then CMAR shall require that such Subcontractor purchases and maintains

applicable professional liability insurance as is required of CMAR in Paragraph 1.03.M below. This insurance shall provide protection against claims arising out of performance of professional design or related services, and caused by a negligent error, omission, or act for which the insured party is legally liable.

H. If CMAR does not purchase or maintain the insurance required of it by the Contract, CMAR shall notify Owner in writing of such failure to purchase prior to the start of the Work, or of such failure to maintain prior to any cancellation of the required coverage.

I. If CMAR has failed to obtain and maintain required insurance, CMAR's entitlement to enter or remain at the Site will end immediately, and Owner may impose an appropriate set-off against payment for any associated costs, including but not limited to the cost of purchasing necessary insurance coverage, and exercise Owner's termination rights under Article 16 of the General Conditions.

J. Without prejudice to any other right or remedy, if CMAR (or a Subcontractor) has failed to obtain required insurance, Owner may elect, but is in no way obligated, to obtain equivalent insurance to protect its interests at the expense of CMAR, and the Contract Price will be adjusted accordingly. Further, CMAR shall bear all costs attributable to such failure, including, but not limited to, the foregoing costs described in this paragraph.

K. Owner does not represent that insurance coverage and limits established in this Contract necessarily will be adequate to protect CMAR or CMAR's interests. CMAR is responsible for determining whether such coverage and limits are adequate to protect its interests, and for obtaining and maintaining any additional insurance that CMAR deems necessary.

L. The insurance and insurance limits required herein will not be deemed as a limitation on CMAR's liability, or that of its Subcontractors or Suppliers, under the indemnities granted to Owner and other individuals and entities in the Contract or otherwise.

M. All the policies of insurance required to be purchased and maintained under this Contract will contain a provision or endorsement that the coverage afforded will not be canceled, materially changed, or renewal refused, until at least 30 days prior written notice has been given to the purchasing policyholder and Owner. Within two business days of receipt of any such written notice or changed endorsement, the purchasing policyholder must provide a copy of the notice to Owner and each other insured.

1.03 CMAR's Insurance

A. Required Insurance–CMAR shall purchase and maintain worker's compensation, commercial general liability, and other insurance specified in this Paragraph 1.03 and Paragraph 1.04 and pursuant to the specific requirements of the Supplementary Conditions.

B. General Provisions–The policies of insurance required by this Paragraph 1.03 as supplemented must:

1. include at least the specific coverages required;

2. be written for not less than the limits provided, or those required by Laws or Regulations, whichever is greater;

3. remain in effect at least through the maximum period of exposure under the applicable statute of repose, except for Automobile Liability and Worker's Compensation which shall remain until the Work is complete, as set forth in Paragraph 15.07.D of the General

Conditions, and longer if expressly required elsewhere in this Contract, and at all times thereafter when CMAR may be correcting, removing, or replacing defective Work as a warranty or correction obligation, or otherwise, or returning to the Site to conduct other tasks arising from the Contract;

4. apply with respect to the performance of the Work, whether such performance is by CMAR, any Subcontractor or Supplier, or by anyone directly or indirectly employed by any of them to perform any of the Work, or by anyone for whose acts any of them may be liable;
5. include all necessary endorsements to support the stated requirements;
6. be primary with respect to any insurance or self insurance carried by Owner for liability arising out of operations under the Contract;
7. include a waiver of subrogation in favor of Owner.

C. Additional Insureds–The CMAR's commercial general liability, automobile liability, umbrella or excess, asbestos abatement liability, pollution liability, and unmanned aerial vehicle liability policies, if required by this Contract, must:

1. include and list as additional insureds Owner and its officials, directors, employees, representatives, and volunteers, and any individuals or entities identified as additional insureds in the Supplementary Conditions;
2. include coverage for the respective officers, directors, members, partners, employees, and consultants of all such additional insureds;
3. afford primary coverage to these additional insureds for all claims covered thereby, including as applicable those arising from both ongoing and completed operations;
4. not seek contribution from insurance maintained by the additional insured; and
5. as to commercial general liability insurance, apply to additional insureds with respect to liability caused in whole or in part by CMAR's acts or omissions, or the acts and omissions of those working on CMAR's behalf, in the performance of CMAR's operations.

D. Workers' Compensation and Employer's Liability—CMAR shall purchase and maintain Workers' Compensation Insurance with statutory coverage as required in the State of Texas in connection with the performance of the Work and Employers' Liability Insurance. All Workers' Compensation Insurance shall satisfy all requirements of Paragraph 1.07 below. The minimum limits required for the employer's liability insurance are as follows:

Workers' Compensation and Employer's Liability	**Policy limits of not less than:**
Workers' Compensation	
State	Statutory
Employer's Liability	
Each accident	$1,000,000
Disease each employee	$1,000,000
Disease policy limit	$1,000,000

Policies must include (a) other States' endorsement to include Texas if CMAR business is domiciled outside the State of Texas, and (b) a waiver of all rights of subrogation in favor of Owner.

E. Commercial General Liability (Claims Covered)—CMAR shall purchase and maintain commercial general liability insurance, covering all operations by or on behalf of CMAR, including, but not limited to, the liability assumed under the indemnification provisions of this Contract, on an "occurrence" basis, against damages because of bodily injury, sickness or disease, or death of any person other than CMAR's employees.

F. Commercial General Liability (Form and Content)—CMAR's commercial liability policy shall be written on an ISO commercial general liability form (occurrence form) CG 00 01 04 13 or equivalent. The policy shall not include any type of subsidence or earth movement exclusion; classification or business description limitation endorsement; or punitive, exemplary or multiplied damages exclusion. Such insurance shall include the following coverages and endorsements:

1. Products and completed operations coverage:

    a. Such insurance shall be maintained through the later of ten (10) years after completion of the Work or until expiration of the maximum period of exposure under the applicable statute of repose.

    b. CMAR shall furnish Owner and each other additional insured (as identified in the Contract) evidence of continuation of such insurance at final payment and through the statute of repose thereafter.

2. Contractual coverage, including written contracts, subject to the standard policy terms and conditions for "insured contracts" as defined in the definition section of the policy.

3. Severability of interests and no insured-versus-insured or cross-liability exclusions.

4. Additional insured endorsements that include both ongoing operations and products and completed operations and underground hazard, explosion, and collapse coverage through ISO Endorsements CG 20 10 10 01 and CG 20 37 10 01 (together). The policy shall include endorsement CG 25 03 Amendment of Aggregate Limits of Insurance (per Project). If CMAR demonstrates to Owner that the specified ISO endorsements are not commercially available, then CMAR may satisfy this requirement by providing equivalent endorsements.

5. Coverage for Work performed by Subcontractors in the completed operations phase, with no exclusion or endorsement modifying the subcontract exception to the "Your Work" exclusion.

6. Personal injury coverage, with no exclusion modifying or limiting the employer liability exclusion set forth in ISO Form CG 00 01 04 13 or limitation for independent contractors of any tier.

7. If the Work involves any activities within fifty (50) feet of any railroad, railroad protective insurance as may be required by the affected railroad, written for not less than the limits required by such railroad.

G. Commercial General Liability (Excluded Content)—The commercial general liability insurance policy, including its coverages, endorsements, and incorporated provisions, shall not include any of the following:

1. Any modification of the standard definition of "insured contract."
2. Any exclusion for water intrusion or water damage.
3. Any provisions resulting in the erosion of insurance limits by defense costs.
4. Any exclusion of coverage relating to earth subsidence or movement.
5. Any exclusion for the insured's vicarious liability, strict liability, or statutory liability.
6. Any limitation or exclusion based on the nature of CMAR's work.
7. Any professional liability exclusion broader in effect than ISO form CG 22 79 07 98.

H. Commercial General Liability (Minimum Policy Limits)—CMAR shall maintain Commercial General Liability insurance in accordance with the requirements stated herein subject to the following minimum policy limits:

Commercial General Liability	**Policy limits of not less than:**
General Aggregate	$2,000,000
Products—Completed Operations Aggregate	$2,000,000
Personal and Advertising Injury	$1,000,000
Bodily Injury and Property Damage—Each Occurrence	$1,000,000

I. Automobile Liability—CMAR shall purchase and maintain automobile liability insurance, covering all owned, hired, and non-owned vehicles, against claims for damages because of bodily injury or death of any person or property damage arising out of the ownership, maintenance, or use of any motor vehicle. Such insurance is to include coverage for loading and unloading hazards and CMAR shall provide pollution coverage for any vehicle hauling asbestos containing cargo as set forth in Paragraph K below. The automobile liability policy shall be written on an occurrence basis and shall be provided at the following minimum policy limits:

Automobile Liability	**Policy limits of not less than:**
Combined Single Limit	$1,000,000

J. Asbestos Abatement Liability—CMAR shall purchase and maintain a policy covering liability against property damages and bodily injury, sickness or disease, or death arising from the encapsulation, removal, handling, storage, transportation, and disposal of asbestos containing materials. *This requirement applies if the Work or the Project includes asbestos containing materials. Such asbestos abatement liability insurance shall be provided on an occurrence basis at the following minimum limits:

Asbestos Abatement Liability	**Policy limits of not less than:**
Per occurrence	$1,000,000
Employer's Liability	
Each accident	$1,000,000

Asbestos Abatement Liability	Policy limits of not less than:
Disease each employee	$1,000,000
Disease policy limit	$1,000,000

Specific requirement for claims-made form: Required period of coverage will be determined by the following formula: continuous coverage for life of the Contract, plus one (1) year (to provide coverage for the warranty period), and an extended discovery period for a minimum of five (5) years which shall begin at the end of the warranty period.

K. Pollution Liability—CMAR shall purchase and maintain a policy covering third-party injury and property damage claims, including clean-up costs, as a result of pollution conditions arising from CMAR's operations and completed operations. CMAR or any Subcontractor responsible for transporting asbestos or other hazardous materials defined as asbestos shall provide pollution coverage for any vehicle hauling asbestos containing cargo. The policy must include a MCS 90 endorsement and the CA 9948 Pollution Endorsement, or its equivalent. Such pollution liability insurance shall be provided at the following minimum limits:

Pollution Liability	Policy limits of not less than:
Each Claim	$5,000,000
General Aggregate	$5,000,000

L. Umbrella or Excess Liability—CMAR shall purchase and maintain umbrella or excess liability insurance written over the underlying employer's liability, if any, commercial general liability, asbestos abatement liability, and automobile liability insurance (including pollution coverage for transporting asbestos or other hazardous materials) described in the paragraphs above and builders risk insurance described below. Subject to industry-standard exclusions, the coverage afforded shall provide coverage at least as broad as, and apply in excess and follow form as to, each and every one of the underlying policies. The policy shall provide "drop down" coverage where underlying primary insurance coverage limits are insufficient or exhausted. Such umbrella or excess liability insurance shall be provided at the following minimum policy limits:

Excess or Umbrella Liability	Policy limits of not less than:
Each Occurrence	$10,000,000
General Aggregate	$10,000,000

M. Contractor's Professional Liability—CMAR shall obtain and keep in force, at its sole cost and expense, a Contractor's Professional Liability insurance policy written on a claims-made basis. The retroactive date, if any, shall be no later than the commencement date of this agreement. Such insurance shall cover damage by reason of any acts, errors, or omissions committed or alleged to have been committed by the CMAR, or any acts for which CMAR is liable. Such Contractor's Professional Liability policy shall be provided at the following minimum limits:

Contractor's Professional Liability	Policy limits of not less than:
Each Claim	$5,000,000
General Aggregate	$5,000,000

1.04 Builder's Risk and Other Property Insurance

A. Builder's Risk–Before the commencement of construction CMAR shall purchase and maintain "All-Risk" builder's risk insurance upon the Work on a completed value basis, in the amount of the full insurable replacement cost of the Work. Such insurance shall be written in the amount of the accepted GMP for the entire Project, plus any subsequent change orders and plus the cost of materials supplied or installed by others, comprising the total value for the entire Project at the site. The insurance shall apply on a replacement cost basis with no coinsurance provision and shall include a margin clause of plus/minus 10% on project value. Such insurance shall include, without limitation, insurance against fire and extended coverage perils, theft, vandalism, malicious mischief, collapse, earthquake, flood, windstorm, boiler and machinery/mechanical breakdown, testing and startup, and terrorism.

For purposes of the builder's risk and other required property insurance, "commencement of construction" first occurs when fabrication commences, in the case of specially fabricated materials, and for non-specially fabricated materials, when materials are in the course of delivery to the Site or an off-site storage location required to be insured if transit coverage is required, or if transit coverage is not required, when materials are delivered to the Site, or an off-site storage location required to be insured. Before commencement of construction, CMAR shall provide to Owner an accurate certificate of insurance that provides specific evidence of all requirements outlined in this Paragraph 1.04. A copy of the policy itself shall be provided to Owner within 30 days after Notice to Proceed.

B. Such builder's risk insurance shall:

1. Cover the entire Work at the site as required in Paragraph 1.04.A above, including but not limited to the following coverages and, if specified, minimum required limits:

a. All structure(s) under construction, including but not limited to retaining walls, paved surfaces and roadways, bridges, glass, foundation(s), footings, underground pipes and wiring, excavations, grading, backfilling or filling; minimum limit required sufficient to cover the anticipated maximum values of such structures;

b. All temporary structures (e.g., fencing, scaffolding, cribbing, falsework, forms, site lighting, temporary utilities and buildings) located at the site; minimum limit required $1 million;

c. All property including materials and supplies on site and off site for installation; minimum limit required sufficient to cover the anticipated maximum values of such materials and supplies onsite and offsite;

d. All property including materials and supplies in transit to the site for installation by all means of transportation other than ocean transit; minimum limit required sufficient to cover the anticipated maximum values in transit;

e. Other property for which CMAR or its Subcontractors or anyone for whom either is responsible, a named insured, or additional insured is liable in connection with the Project, including Owner-furnished or assigned property; minimum limit required sufficient to cover the anticipated maximum values of such property;

f. Ensuing loss arising from error, omission in construction methods, design, specifications, workmanship or materials; minimum limit required $2.5 million;

g. Preservation of Property; minimum limit required sufficient to cover the anticipated maximum values of such property;

h. Existing structure coverage for the renovation portion of the Project, if any; minimum limit required sufficient to cover the maximum values of affected portion of such structure;

i. Debris removal; minimum limit required 25% of physical damage amount subject to maximum of $5 million or 25% of GMP (as amended by Change Order) of Project, whichever is higher;

j. Expediting Expenses; minimum limit required $1 million;

k. Extra Expense; minimum limit required $5 million;

l. Demolition and Increased Cost of Construction; minimum limit required $2 million or 10% of GMP (as amended by Change Order) of Project, whichever is higher;

m. Pollutant Clean-Up and Removal; minimum limit required $250,000;

n. Trees, Shrubs, Plants, Lawns and Landscaping (if applicable); minimum limit required $2,500 per item subject to a maximum of $1 million;

A sublimit may be applicable to flood coverage, but sublimit must be at least 20% of the GMP (as amended by Change Order) of the Project. A sublimit of $50 million or the GMP (as amended by Change Order) of the Project, whichever is less, is acceptable for Earthquake. The limit for all other perils, including, but not limited to, Named Windstorm, Wind, and Hail, must be equal to the GMP (as amended by Change Order) for the entire Project at the site.

2. Designate the CMAR as the named insured and the Owner and all Subcontractors as additional insureds;

3. Cover all costs for labor, supervision, materials, equipment, design professional fees, permit fees, and other costs and expenses for the rebuilding, restoring, repair or replacement of any insured property and for debris removal;

4. Allow for partial occupation or use of the Construction by Owner and shall not contain an occupancy clause suspending or reducing coverage should the Owner occupy, or begin beneficial occupancy before the Owner has accepted Final Completion;

5. Include performance/hot testing and start-up;

6. Not include any restriction on coverage relating to placement or maintenance of protective safeguards on the Project;

7. Waive all rights of subrogation against Owner, CMAR and Subcontractors;

8. Be maintained in effect until completion of the entirety of the Work or a designated portion thereof;

9. Be specific as to coverage and shall be primary to any permanent insurance or self-insurance that may be maintained on the Property by Owner;

10. For Flood deductible, as applicable, it shall not exceed $250,000 for Zone A, $100,000 for Zone B and $50,000 for all other Zones, and for Tier 1 and Tier 2, Named Windstorm deductible shall not exceed 2% of the project values in place at the time of the loss.

C. Not used.

D. Insurance of Other Property; Additional Insurance–If the express insurance provisions of the Contract do not require or address the insurance of a property Item or interest, then the entity or individual owning such property Item will be responsible for insuring it. If CMAR elects, without right to reimbursement, to obtain other special insurance to be included in or supplement the builder's risk or property insurance policies provided under this Paragraph 1.04, CMAR may do so at its expense.

1.05 Property Losses; Subrogation

A. The builder's risk insurance policy purchased and maintained in accordance with Paragraph 1.04, will contain provisions to the effect that in the event of payment of any loss or damage the insurer will have no rights of recovery against any insureds thereunder, or against Owner, Engineer, or their officers, directors, members, partners, employees, agents, consultants, or subcontractors.

1. CMAR waives all rights against Owner and its elected officials, officers, directors, and employees, for all losses and damages caused by, arising out of, or resulting from any of the perils, risks, or causes of loss covered by such policies and any other property insurance applicable to the Work; and, in addition, waives all such rights against Owner, Engineer, its consultants, all individuals or entities identified in the Supplementary Conditions as builder's risk insureds, and the officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of them, under such policies for losses and damages so caused.

2. None of the above waivers extends to the rights that any party making such waiver may have to the proceeds of insurance.

1.06 Receipt and Application of Builder's Risk Insurance Proceeds

A. Any insured loss under the builder's risk policy required by Paragraph 1.04 will be adjusted and settled with CMAR, as the named insured that purchased the policy. CMAR will act as fiduciary for the other insureds and give notice to such other insureds that adjustment and settlement of a claim is in progress. Any other insured may state its position regarding a claim for insured loss in writing within 15 days after notice of such claim.

B. CMAR, as the named insured receiving insurance proceeds under the builder's risk insurance required by Paragraph 1.04 must maintain such proceeds in a segregated account and distribute such proceeds in accordance with such agreement as the parties in interest may reach, or as otherwise required under the dispute resolution provisions of this Contract or applicable Laws and Regulations.

C. CMAR shall repair or replace the damaged Work, using insurance proceeds received by CMAR for the specific purpose of repairing or replacing such damaged Work as authorized in writing by Owner. If such proceeds will not be reasonably sufficient to rebuild and restore the affected portion of the Project, then, prior to any expenditure thereof, CMAR shall obtain Owner's approval to use such funds to settle the CMAR's and Owner's financial interests relating to the loss, and to take such other actions as may be in the best interest of Owner. Any excess in proceeds shall be returned to Owner as Savings.

1.07 Additional Workers' Compensation Requirements

A. Workers' compensation insurance coverage must meet the statutory requirements of Tex. Lab. Code § 401.011(44) and specific to construction projects for public entities as required by Tex. Lab. Code § 406.096.

1. The following definitions apply to this Insurance Exhibit:

a. Certificate of coverage ("certificate")- A copy of a certificate of insurance or a coverage agreement (DWC-81, DWC-82, DWC-83, or DWC-84), showing statutory workers' compensation insurance coverage for the person's or entity's employees providing services on a project, for the duration of the project.

b. Duration of the Project - includes the time from the beginning of the work on the project until the Contractor's/person's work on the Project has been completed and accepted by the Owner.

c. Persons providing services on the project ("subcontractor" in Tex. Lab. Code § 406.096) – includes all persons or entities performing all or part of the services or Work the Contractor has undertaken to perform on the project, regardless of whether that person contracted directly with the Contractor and regardless of whether that person has employees. This includes, without limitation, independent Contractors, subcontractors, leasing companies, motor carriers, owner-operators, employees of any such entity, or employees of any entity which furnishes persons to provide services on the project. "Services" include, without limitation, providing, hauling, or delivering equipment or materials, or providing labor, transportation, or other service related to a project. "Services" does not include activities unrelated to the Project.

2. The Contractor shall provide coverage, based on proper reporting of classification codes and payroll amounts and filing of any coverage agreements, which meets the statutory requirements of Texas Labor Code, Section 401.011(44) for all employees of the Contractor providing services on the project, for the duration of the project.

3. The Contractor must provide a certificate of coverage to the Owner prior to being awarded the Contract.

4. If the coverage period shown on the Contractor's current certificate of coverage ends during the duration of the Project, the Contractor must, prior to the end of the coverage period, file a new certificate of coverage with the Owner showing that coverage has been extended.

5. The Contractor shall retain all required certificates of coverage for the duration of the Project and for one year thereafter, except when the Contract requires a longer period in which case the Contractor shall retain such certificates for such required period.

6. The Contractor shall notify the Owner in writing by certified mail or personal delivery, within 10 days after the Contractor knew or should have known, of any change that materially affects the provision of coverage of any person providing services on the project.

7. The Contractor shall post on each project site a notice, in the text, form and manner prescribed by the Texas Depart of Insurance Division of Workers' Compensation,

informing all persons providing services on the project that they are required to be covered, and stating how a person may verify coverage and report lack of coverage.

8. The Contractor shall contractually require each person with whom it contracts to provide services on a Project, to:

   a. provide coverage, based on proper reporting of classification codes and payroll amounts and filing of any coverage agreements, which meets the statutory requirements of Texas Labor Code, Section 401.011(44) for all of its employees providing services on the Project, for the duration of the Project;

   b. provide to the Contractor, prior to that person beginning work on the Project, a certificate of coverage showing that coverage is being provided for all employees of the person providing services on the Project, for the duration of the Project;

   c. provide the Contractor, prior to the end of the coverage period, a new certificate of coverage showing extension of coverage, if the coverage period shown on the current certificate of coverage ends during the duration of the Project;

   d. obtain from each other person with whom it contracts, and provide to the Contractor:

      1) a certificate of coverage, prior to the other person beginning work on the Project; and

      2) a new certificate of coverage showing extension of coverage, prior to the end of the coverage period, if the coverage period shown on the current certificate of coverage ends during the duration of the Project;

   e. retain all required certificates of coverage on file for the duration of the Project and for one year thereafter, except when the Contract requires a longer period in which case such certificates shall be retained for such required period;

   f. notify the Owner in writing by certified mail or personal delivery, within 10 days after the person knew or should have known, of any change that materially affects the provision of coverage of any person providing services on the Project; and

   g. contractually require each person with whom it contracts, to perform as required by these paragraphs (a) - (g), with the certificates of coverage to be provided to the person for whom they are providing services.

9. By signing this Contract or providing or causing to be provided a certificate of coverage, the Contractor is representing to the Owner that all employees of the Contractor and any Subcontractor who will provide services on the Project will be covered by workers' compensation coverage for the duration of the Project, that the coverage will be based on proper reporting of classification codes and payroll amounts, and that all coverage agreements will be filed with the appropriate insurance carrier. Providing false or misleading information may subject the Contractor to administrative penalties, criminal penalties, civil penalties, or other civil actions.

10. The Contractor's failure to comply with any of these provisions is a breach of the Contract by the Contractor which entitles the Owner to declare the Contract void if the Contractor does not remedy the breach within ten days after receipt of notice of breach from the Owner.

EXHIBIT D–AUDIT AND EXAMINATION OF RECORDS

This Exhibit D is part of and incorporated into the Agreement to which this Exhibit is attached, by and between the City of Georgetown ("Owner") and the CMAR. All capitalized terms used but not defined herein have the definitions given to them in the Agreement and references to capitalized terms Contractor or CMAR shall have the same meaning.

ARTICLE 1—OWNER'S RIGHT OF AUDIT AND EXAMINATION OF RECORDS

1.01 Right to Audit

A. CMAR understands that acceptance of funds under this Contract acts as acceptance of the authority of the State Auditor's Office, Owner, any successor agency and their representatives, including independent auditors, to conduct an audit or investigation in connection with those funds. CMAR further agrees to cooperate fully with any party conducting the audit or investigation, including providing all records requested.

1.02 Record Retention

A. CMAR shall maintain and retain all records and supporting fiscal and any other documents relevant to showing that any payments under this Contract and funds were expended in accordance with the terms of this Contract, the requirements of Owner, and with the laws and regulations of the State of Texas including, but not limited to, requirements of the Comptroller of the State of Texas and the State Auditor. CMAR shall maintain all such documents and other records relating to this Contract and Owner's property for a period of four (4) years after the date of submission of a request for final payment or until a resolution of all billing questions, whichever is later.

1.03 Access and Cooperation

A. CMAR shall make all records available and subject to audit, scanning, and/or reproduction at reasonable times and upon reasonable notice by Owner, any outside representative engaged by Owner for the purpose of examining such records, or those referenced in Paragraph 1.01.A above. Owner and such persons may conduct such audits or inspections throughout the term of the Contract and for a period of four years after final payment or longer if required by law. Owner and its representatives may (without limitation) conduct verifications such as counting employees at the Site, witnessing the distribution of payroll, verifying information and amounts through interviews and written confirmations with CMAR employees, field and agency labor, vendors, and Subcontractors and their employees. Owner and its representatives shall have reasonable access to the CMAR's facilities, shall be allowed to interview all current or former employees of CMAR and Subcontractors to discuss matters pertinent to the performance of the Contract and shall be provided adequate and appropriate work space, to conduct audits in compliance with this Exhibit.

1.04 Subcontract Audit Provisions

A. CMAR shall ensure that the same provisions of the Contract concerning the authority to audit funds received indirectly by Subcontractors and Suppliers of any tier through the CMAR and the requirement to cooperate are included in all subcontracts for Subcontractors and Suppliers of any tier.

1.05 Liability for Audit

A. If an audit inspection or examination conducted pursuant to this Exhibit, discloses overpricing or overcharges to the Owner (of any nature) by the CMAR and/or Subcontractors of more than $100,000, collectively, CMAR shall reimburse to Owner the reasonable cost of the Owner's audit. Any adjustments and/or payments which must be made as a result of any such audit or inspection of the CMAR's invoices and/or records shall be made within a reasonable amount of time (not to exceed 90 days) from presentation of Owner's findings to CMAR.

1.06 CMAR's Records

A. CMAR's "records" as referred to in this Exhibit shall include any and all information, materials and data of every kind and character, including without limitation, records, books, papers, documents, subscriptions, recordings, agreements, purchase orders, leases, contracts, commitments, arrangements, notes, daily diaries, e-mails, superintendent reports, drawings, receipts, vouchers and memoranda, RFID data, GPS tracking data, and any and all other agreements, sources of information and matters that may in Owner's judgment have any bearing on or pertain to any matters, rights, duties or obligations under or covered by any Contract Document. Such records shall include written policies and procedures; time sheets; payroll registers; payroll records; cancelled payroll checks; subcontract files (including proposals of successful and unsuccessful bidders, bid recaps, negotiation notes, etc.); original bid estimates; estimating work sheets; correspondence; Change Order files (including documentation covering negotiated settlements); back charge logs and supporting documentation; invoices and related payment documentation; general ledger, information detailing cash and trade discounts earned, insurance rebates and dividends; and any other CMAR records that may have a bearing on matters of interest to the Owner in connection with the CMAR Services, the Work, and/or CMAR's dealings with the Owner (all foregoing hereinafter referred to as "records") to the extent necessary to adequately permit evaluation and verification of any or all of the following: compliance with requirements for deliverables; compliance with approved Drawings and Specifications; compliance with Owner's business ethics expectations; compliance with Contract provisions regarding the pricing of Change Orders and selection of Subcontractors; accuracy of CMAR's representations regarding the pricing of invoices and Applications for Payment; accuracy of CMAR's representations related to Claims submitted by CMAR or any Subcontractor or subconsultant; and all payments made by CMAR and the nature and extent of the services provided by CMAR in connection with the Contract.

EXHIBIT G–FORMS OF BONDS

This Exhibit G is part of and incorporated into the Agreement to which this Exhibit is attached, by and between the City of Georgetown ("Owner") and the CMAR. All capitalized terms used but not defined herein have the definitions given to them in the Agreement and references to capitalized terms Contractor or CMAR shall have the same meaning.

The forms of Bonds specified in the Contract are set forth below in this Exhibit G.

FORM OF SECURITY BOND

Surety Bond No. _____ **§**

STATE OF TEXAS **§**

COUNTY OF WILLIAMSON **§**

KNOW ALL MEN BY THESE PRESENTS:

That we, _____, as Principal, and _____, as Surety, are hereby held and firmly bound unto the City of Georgetown, Texas, as Obligee, and its successors and assigns, in the Penal Sum of _____ _____ and __/100 Dollars ($_____), for the Project defined herein below, for payment whereof the said Principal and Surety bind themselves, their heirs, executors, administrators, and successors, jointly and severally, firmly by these presents.

THE CONDITIONS OF THIS OBLIGATION ARE SUCH THAT:

WHEREAS, in connection with the Three Forks Water Reclamation Facility construction project ("Project"), the Principal has entered into a Construction Manager at Risk (CMAR) Agreement ("Contract"), which is incorporated herein by reference as if fully set forth herein including all definitions, under the terms of which said Principal is obligated to provide certain CMAR Services for the compensation established in the Contract, and is required to enter into one or more Work Authorizations, establishing one or more Guaranteed Maximum Prices (GMPs) for the construction of the Project, the total of which shall result in a total GMP for the entirety of the Project; and

WHEREAS, Texas Government Code Section 2269.258 requires that the Principal, either, upon entering into the Contract, deliver to Obligee, not later than the tenth (10th) day after the date of Contract execution, performance and payment bonds in an amount equal to the Obligee's construction budget, as specified in the Request for Proposals, or furnish other financial security acceptable to Obligee to ensure that the Principal will furnish the required performance and payment bonds when a GMP for the Project is established; and

WHEREAS, the Obligee has agreed to accept other financial security ensuring that the Principal will furnish the required performance and payment bonds when a GMP is established in the form of this Security Bond (this "Security Bond"); and

WHEREAS, under the Contract, upon entering into a Work Authorization, Principal is obligated to deliver to the Obligee payment and performance bonds for each Work Authorization in the amount of the GMP for such Work Authorization, or to revise the previously provided payment performance bonds to reflect the cumulative value of all executed Work Authorizations.

NOW THEREFORE, the condition of this obligation is such that, if Principal shall, as applicable, in accordance with the Contract:

(i) Perform the CMAR Services as required in the Contract and execute Work Authorization(s) upon Obligee's acceptance of any such Work Authorization(s), for construction of the Project; and

(ii) Upon Obligee's acceptance of any such Work Authorization(s), either

a. Deliver to the Obligee payment and performance bonds for such Work Authorization(s) with a penal sum in the amount of the GMP(s) for such Work Authorization(s); or

b. Revise previously provided payment and performance bonds to reflect the cumulative value of all executed Work Authorizations for a designated portion of the Work, such that payment and performance bonds for such portion of the Work always have a penal sum in the amount of the cumulative value of the applicable, total GMP for that portion of the Work until every Work Authorization has been executed for the Project, an overall GMP has been established for the entirety of Work, and Obligee is in receipt of payment and performance bonds having a penal sum in the cumulative value of the GMP for the entirety of the Work or a specified portion thereof; or

(iii) if the Principal fails to deliver to Obligee the foregoing executed Work Authorizations and payment and performance bonds in the time periods specified herein, Principal shall subsequently cure such failure within ten (10) days of Obligee's written notice of such default to the Principal and Surety, then, this obligation shall be null and void, otherwise to remain in full force and effect.

This Security Bond, with any penal sum adjustment as provided above, shall remain in effect until all Work Authorizations have been executed for the entirety of the Project, and payment and performance bonds have been delivered to the Obligee covering all Work for the Project, as required by the Contract, and all of the conditions stated herein have been fulfilled. Principal's failure to perform the conditions of this Security Bond in a timely manner shall entitle Obligee to immediate payment of the difference between the cost to complete the CMAR Services and the Work required to be performed under the Contract, including the costs Obligee legally incurs in accordance with applicable public procurement laws to reselect a CMAR, and including but not limited to the difference in the amount of Principal's CMAR Fee and Construction Support Costs and the new CMAR's Fee and Construction Support Costs, less the balance of amounts owed under the Contract, up to and not to exceed the then current penal sum of this Bond (as reduced by any adjustment) upon presentation of Obligee's written demand therefor.

FORM OF PERFORMANCE BOND

TEXAS STATUTORY PERFORMANCE BOND

Bond No. _____ §

STATE OF TEXAS §

COUNTY OF WILLIAMSON §

KNOW ALL MEN BY THESE PRESENTS:

THAT, _____ , as principal (hereinafter, the Principal), and _____ _____, a corporation organized and existing under the laws of the State of Texas, licensed to do business in the State of Texas and admitted to write bonds, as surety (hereinafter, the Surety), are held and firmly bound unto the City of Georgetown, Texas, as obligee (hereinafter, the Obligee), in the penal sum of _____Dollars ($_____.____) for the payment whereof, the said Principal and Surety bind themselves, and their heirs, administrators, executors, successors, and assigns, jointly and severally, firmly by these presents.

WHEREAS, the Principal has entered into a certain contract with the Obligee, dated the _____ day of _____, 20___ for Construction Manager at Risk services and work to construct the Three Forks Water Reclamation Facility, which contract is hereinafter referred to as the "Contract."

NOW, THEREFORE, THE CONDITION OF THIS OBLIGATION IS SUCH, that if the said Principal shall faithfully perform the work required by the Contract and shall, in all respects, duly and faithfully observe and perform all and singular the covenants, conditions and agreements in and by said Contract, agreed and covenanted by the Principal to be observed and performed, including but not limited to, the repair of any and all defects in said work occasioned by and resulting from defects in materials furnished by or workmanship of, the Principal in performing the work covered by said Contract and occurring within a period of twelve (12) months from the date of Final Completion and all other covenants and conditions, according to the true intent and meaning of said Contract and the Drawings and Specifications hereto annexed, then this obligation shall be void; otherwise to remain in full force and effect;

PROVIDED, HOWEVER, that this bond is executed pursuant to the provisions of Chapter 2253 of the Texas Government Code and all liabilities on this bond shall be determined in accordance with the provision, conditions and limitations of said Chapter to the same extent as if it were copied at length herein.

PROVIDED FURTHER, that the penal sum of this bond shall automatically be increased by the amount of any change order or supplemental agreement which increases the Contract price, but in no event shall a change order or supplemental agreement which reduces the Contract price decrease the penal sum of this bond.

PROVIDED FURTHER, that said Surety, for value received, hereby stipulates and agrees that no change, extension of time, alteration or addition to the terms of the Contract or to the work performed thereunder, or the plans, specifications, drawings, etc. accompanying same shall in any way affect its

obligation on this bond; and it does hereby waive notice of any such change, extension of time, alteration or addition to the terms of the Contract or to the work to be performed hereunder.

IN WITNESS WHEREOF, the said Principal and Surety have signed and sealed this instrument this _____ day of _____, 20___.

SUBJECT:
Construction Manager at Risk for the Customer Service Center - Swinerton

SUGGESTED ACTION:
Consideration and possible action to award and approve a Construction Manager at Risk (CMAR) Agreement with Swinerton Builders for pre-construction services for the Customer Service Center in the amount of $30,000 with a General Conditions Percentage of 2.25% -- Jennifer Bettiol, CIP Manager Public Works

ITEM SUMMARY:
The Customer Service Center will bring together thirteen (13) customer service and development departments under one roof in order to improve our customer care experience and efficiency. Located within the new Southwestern 560 Dev, this project will be a critical project for the City of Georgetown, our citizens and for our partnership with Southwestern University. With exceptional qualifications and experience with working with the City of Georgetown in construction our facilities, Swinerton Builders has been selected as the most qualified and best value for the City of Georgetown to act as the Construction Manager at Risk for the Customer Service Center.

FINANCIAL IMPACT:
$30,000.00 for preconstruction services with a 2.25% General Conditions fee.

EXHIBIT B
Insurance Requirements

This Exhibit B is incorporated into the modified AIA A133 Agreement ("Agreement") to which it is attached between the City of Georgetown ("Owner") and Construction Manager at Risk ("Contractor"). The term Contractor as used in this Exhibit means Construction Manager as used in the Agreement.

4.2 Insurance Requirements. Contractor shall carry insurance in the types and amounts indicated in this Exhibit for the duration of the Contract. The required insurance shall include coverage for Owner's property prior to construction, during construction and during the warranty period. The insurance shall be evidenced by delivery to Owner of certificates of insurance executed by the insurer or its authorized agent stating coverages, limits, expiration dates and compliance with all applicable required provisions. Upon request, Owner, and/or its agents, shall be entitled to receive without expense, copies of the policies and all endorsements. Contractor shall update all expired policies prior to submission for monthly payment. Failure to update policies shall be reason for withholding of payment until renewal is provided to Owner.

4.2.1 Contractor, consistent with its status as an independent Contractor, shall provide and maintain all insurance coverage with the minimum amounts described below until the end of the warranty period unless otherwise stated in Owner's Special Conditions. Failure to maintain insurance coverage, as required, is grounds for suspension of Work for cause under the Contract Documents. The Contractor will be notified of the date on which the Builder's Risk insurance policy may be terminated by any means deemed appropriate by Owner.

4.2.2 Coverage shall be written on an occurrence basis by companies authorized and admitted to do business in the State of Texas and rated A-, VII or better by A.M. Best Company or similar rating company or otherwise acceptable to Owner.

4.2.2.1 Insurance Coverage Required.

4.2.2.1.1 Workers' Compensation. Insurance with limits as required by the Texas Workers' Compensation Act and Employer's Liability Insurance with limits of not less than:

$1,000,000 each accident;

$1,000,000 disease each employee; and

$1,000,000 disease policy limit.

Policies must include (a) Other States Endorsement to include TEXAS if business is domiciled outside the State of Texas, and (b) a waiver of all rights of subrogation in favor of Owner.

4.2.2.1.2 Commercial General Liability Insurance, including premises, operations, independent Contractor's liability, products and completed operations and contractual liability, covering, but not limited to, the liability assumed under the indemnification provisions of this Contract, fully insuring Contractor's (or Subcontractor's) liability for bodily injury (including death)

and property damage with a minimum limit of:

$1,000,000 per occurrence;

$2,000,000 general aggregate;

$2,000,000 products and completed operations aggregate; and

Coverage shall be on an "occurrence" basis.

The policy shall include coverage extended to apply to completed operations and explosion, collapse, and underground hazards. The policy shall include endorsement CG2503 Amendment of Aggregate Limits of Insurance (per Project) or its equivalent.

If the Work involves any activities within fifty (50) feet of any railroad, railroad protective insurance as may be required by the affected railroad, written for not less than the limits required by such railroad.

4.2.2.1.3 Asbestos Abatement Liability Insurance, including coverage for liability arising from the encapsulation, removal, handling, storage, transportation, and disposal of asbestos containing materials. *This requirement applies if the Work or the Project includes asbestos containing materials.

The combined single limit for bodily injury and property damage will be a minimum of $1,000,000 per occurrence.

*Specific requirement for claims-made form: Required period of coverage will be determined by the following formula: continuous coverage for life of the Contract, plus one (1) year (to provide coverage for the warranty period), and an extended discovery period for a minimum of five (5) years which shall begin at the end of the warranty period.

Employer's liability limits for asbestos abatement will be:

$1,000,000 each accident;

$1,000,000 disease each employee; and

$1,000,000 disease policy limit.

4.2.2.1.4 Business Automobile Liability Insurance, covering all owned, hired, and non-owned vehicles, with a minimum combined single limit for bodily injury (including death) and property damage of $1,000,000 per occurrence. No aggregate shall be permitted for this type of coverage.

Such insurance is to include coverage for loading and unloading hazards.

Contractor or any subcontractor responsible for transporting asbestos or other hazardous materials defined as asbestos shall provide pollution coverage for any vehicle hauling asbestos containing cargo. The policy must include a MCS 90 endorsement with a $5,000,000 limit and the CA 9948 Pollution Endorsement, or its equivalent.

4.2.2.1.5 All-Risk Builder's Risk Insurance, if applicable (or all-risk installation floater for instances in which the project involves solely the installation of material and/or equipment). Coverage is determined by the Contract Sum, as detailed, below.

BUILDERS RISK REQUIREMENT FOR PROJECTS WITH A CONTRACT SUM <$20 MILLION

4.2.2.1.5.1 Contractor shall purchase and maintain in force builders risk insurance on the entire Work. Such insurance shall be written in the amount of the original contract, plus any subsequent change orders and plus the cost of materials supplied or installed by others, comprising Total Value for the entire Project at the site. The insurance shall apply on a replacement cost basis with no coinsurance provision. A sublimit may be applicable to flood coverage, but sublimit must be at least 20% of the Total Value of the Project. The limit for all other perils, including Named Windstorm, Wind, and Hail, must be equal to the Total Value for the entire Project at the site. (If Installation Floater, limit shall be equal to 100 percent of the contract cost.)

4.2.2.1.5.2 This insurance shall name as insureds the Owner, the Contractor, and all subcontractors and sub-subcontractors in the Work.

4.2.2.1.5.3 Builders risk insurance shall be on an "all risk" or equivalent policy form and shall include, without limitation, insurance against fire and extended coverage perils, theft, vandalism, malicious mischief, collapse, earthquake, flood, windstorm, boiler and machinery/mechanical breakdown, testing and startup, and terrorism.

4.2.2.1.5.4 This insurance shall cover the entire work at the site as required in 4.2.2.1.5.1, including, but not limited to, the following:

- Temporary works including but not limited to scaffolding, form work, fences, shoring, hoarding, falsework and temporary buildings
- Offsite Storage

- Portions of the work in transit
- Debris removal
- Extra Expense
- Expediting Expenses
- Demolition and Increased Cost of Construction
- Pollutant Clean-Up and Removal
- Trees, Shrubs, Plants, Lawns and Landscaping (if applicable)
- Errors & Omissions (applicable to purchase of Builders Risk policy only)

4.2.2.1.5.5 This insurance shall not contain an occupancy clause suspending or reducing coverage should the Owner occupy, or begin beneficial occupancy before the Owner has accepted final completion.

4.2.2.1.5.6 This insurance shall be specific as to coverage and shall be primary to any permanent insurance or self-insurance that may be maintained on the property by Owner.

4.2.2.1.5.7 This insurance shall include a waiver of subrogation in favor of Owner, the Contractor, and all subcontractors and sub-subcontractors in the work.

4.2.2.1.5.8 As applicable, Flood deductible shall not exceed $250,000 for Zone A, $100,000 for Zone B and $50,000 for all other Zones. For Tier 1 and Tier 2, Named Windstorm deductible shall not exceed 2% of the project values in place at the time of the loss.

4.2.2.1.5.9 Before the commencement of the work, Contractor shall provide to Owner an accurate certificate of insurance that provides specific evidence of all requirements outlined in Section 4.2.2.1.5. A copy of the policy itself shall be provided to Owner within 30 days after Notice to Proceed.

4.2.2.1.5.10 Refer to Owner's Special Conditions for possible additional Builders Risk insurance requirements.

BUILDERS RISK REQUIREMENT FOR PROJECTS WITH A CONTRACT SUM ≥$20 MILLION

4.2.2.1.5.1 Contractor shall purchase and maintain in force builders risk insurance on the entire Work. Such insurance shall be written in the amount of the original contract, plus any subsequent change orders and plus the cost of materials supplied or installed by others, comprising Total Value for the entire Project at the site. The insurance shall apply on a replacement cost basis with no coinsurance provision and shall include a margin clause of plus/minus 10% on project value. A sublimit may be applicable to flood coverage, but sublimit must

be at least 20% of the Total Value of the Project. A sublimit of $50 million or the Total Value of the Project, whichever is less, is acceptable for Earthquake. The limit for all other perils, including Named Windstorm, Wind, and Hail, must be equal to the Total Value for the entire Project at the site. (If Installation Floater, limit shall be equal to 100 percent of the contract cost.)

4.2.2.1.5.2 This insurance shall name as insureds the Owner, the Contractor, and all subcontractors and sub-subcontractors in the Work.

4.2.2.1.5.3 Builders risk insurance shall be on an "all risk" or equivalent policy form and shall include, without limitation, insurance against fire and extended coverage perils, theft, vandalism, malicious mischief, collapse, earthquake, flood, windstorm, boiler and machinery/mechanical breakdown, testing and startup, and terrorism.

4.2.2.1.5.4 This insurance shall cover the entire work at the site as required in 4.2.2.1.5.1, including, but not limited to, the following:

Coverage Required	Minimum Limit
Temporary works including but not limited to scaffolding, form work, fences, shoring, hoarding, falsework and temporary buildings	$1 million
Offsite Storage	Sufficient to cover the anticipated n stored offsite
Portions of the work in Transit	Sufficient to cover the anticipated n in transit
Debris Removal	25% of Physical damage amount su maximum of $5 million or 25% of T Project whichever is higher
Expediting Expenses	$1 million
Extra Expense	$5 million
Demolition and Increased Cost of Construction	$2 million or 10% of Total Value o whichever is higher
Pollutant Clean-Up and Removal	$250,000
Trees, Shrubs, Plants, Lawns and Landscaping (if applicable)	$2,500 per item subject to a maxim million
Errors & Omissions (applicable to purchase of Builders Risk policy only)	$2.5 million

4.2.2.1.5.5 This insurance shall not contain an occupancy clause suspending or reducing coverage should the Owner occupy, or begin beneficial occupancy before the Owner has accepted final completion.

4.2.2.1.5.6 This insurance shall be specific as to coverage and shall be primary to any permanent insurance or self-insurance that may be maintained on the property by Owner.

4.2.2.1.5.7 This insurance shall include a waiver of subrogation in favor of Owner, the Contractor, and all subcontractors and sub-subcontractors in the work.

4.2.2.1.5.8 As applicable, Flood deductible shall not exceed $250,000 for Zone A, $100,000 for Zone B and $50,000 for all other Zones. For Tier 1 and Tier 2, Named Windstorm deductible shall not exceed 2% of the project values in place at the time of the loss.

4.2.2.1.5.9 Before the commencement of the work, Contractor shall provide to Owner an accurate certificate of insurance that provides specific evidence of all requirements outlined in Section 4.2.2.1.5. A copy of the policy itself shall be provided to Owner within 30 days after Notice to Proceed.

4.2.2.1.5.10 Refer to Owner's Special Conditions for possible additional Builders Risk insurance requirements.

4.2.2.1.6 "Umbrella" Liability Insurance. Contractor shall obtain, pay for and maintain umbrella liability insurance during the Contract term, insuring Contractor (or Subcontractor) that provides coverage at least as broad as and applies in excess and follows form of the primary liability coverages required above. The policy shall provide "drop down" coverage where underlying primary insurance coverage limits are insufficient or exhausted.

4.2.2.1.7 "Umbrella" Liability Insurance coverage shall be in the following amounts:

- If Contract sum is $1,000,000 or less:
  No Umbrella Required
- If Contract Sum is greater than $1,000,000 up to $3,000,000:
  $1,000,000 each occurrence and $2,000,000 annual aggregate
- If Contract Sum is greater than $3,000,000 up to $5,000,000:
  $5,000,000 each occurrence and $5,000,000 annual aggregate
- If Contract Sum is greater than $5,000,000:
  $10,000,000 each occurrence and $10,000,000 annual aggregate

4.2.3 All Policies must include the following clauses, as applicable:

4.2.3.1 Contractor must provide to Owner immediate notice of cancellation, material change, or non-renewal to any insurance coverages required herein above. This requirement may be satisfied by the Contractor providing a copy of the notice received by the insurer to Owner within two business days of date of receipt or by Endorsement of the policies that require Insurer to provide notice to Owner.

4.2.3.2 It is agreed that Contractor's insurance shall be deemed primary with respect to any insurance or self insurance carried by Owner for liability arising out of operations under the Contract with Owner.

4.2.3.3 Owner, its officials, directors, employees, representatives, and volunteers are added as additional insureds as respects operations and activities of, or on behalf of the named insured performed under Contract with Owner. The additional insured status must cover completed operations as well. This is not applicable to workers' compensation policies.

4.2.3.4 SU560 Land Holdings, LLC, a Texas limited liability company is also added as additional insureds as respects operations and activities of, or on behalf of the named insured performed under Contract with Owner. The additional insured status must cover completed operations as well.

4.2.3.~~4~~5 A waiver of subrogation in favor of Owner shall be provided in all policies.

4.2.3.~~5~~6 If Owner is damaged by the failure of Contractor (or Subcontractor) to maintain insurance as required herein and/or as further described in Owner's Special Conditions, then Contractor shall bear all reasonable costs properly attributable to that failure.

4.2.4 Without limiting any of the other obligations or liabilities of Contractor, Contractor shall require each Subcontractor performing work under the Contract, at Subcontractor's own expense, to maintain during the term of the Contract, the same stipulated minimum insurance including the required provisions and additional policy conditions as shown above. As an alternative, Contractor may include its Subcontractors as additional insureds on its own coverage as prescribed under these requirements. Contractor's certificate of insurance shall note in such event that Subcontractors are included as additional insureds and that Contractor agrees to provide workers' compensation for Subcontractors and their employees. Contractor shall obtain and monitor the certificates of insurance from each Subcontractor in order to assure compliance with the insurance requirements. Contractor must retain the certificates of insurance for the duration of the Contract plus five (5) years and shall have the responsibility of enforcing these insurance requirements among its Subcontractors. Owner shall be entitled, upon request and without expense, to receive copies of these certificates.

4.2.5 Workers' compensation insurance coverage must meet the statutory requirements of Tex. Lab. Code § 401.011(44) and specific to construction projects for public entities as required by Tex. Lab. Code § 406.096.

4.2.5.1 Definitions:

4.2.5.1.1 Certificate of coverage ("certificate")- A copy of a certificate of insurance, a certificate of authority to self-insure issued by the commission, or a coverage agreement (DWC-81, DWC-82, DWC-83, or DWC-84), showing statutory workers' compensation insurance coverage for the person's or entity's employees providing services on a project, for the duration of the project.

4.2.5.1.2 Duration of the project - includes the time from the beginning of the work on the project until the Contractor's/person's work on the project has been completed and accepted by the Owner.

4.2.5.1.3 Persons providing services on the project ("subcontractor" in §406.096) – includes all persons or entities performing all or part of the services the Contractor has undertaken to perform on the project, regardless of whether that person contracted directly with the Contractor and regardless of whether that person has employees. This includes, without limitation, independent Contractors, subcontractors, leasing companies, motor carriers, owner-operators, employees of any such entity, or employees of any entity which furnishes persons to provide services on the project. "Services" include, without limitation, providing, hauling, or delivering equipment or materials, or providing labor, transportation, or other service related to a project. "Services" does not include activities unrelated to the project, such as food/beverage vendors, office supply deliveries, and delivery of portable toilets.

4.2.5.2 The Contractor shall provide coverage, based on proper reporting of classification codes and payroll amounts and filing of any coverage agreements, which meets the statutory requirements of Texas Labor Code, Section 401.011(44) for all employees of the Contractor providing services on the project, for the duration of the project.

4.2.5.3 The Contractor must provide a certificate of coverage to the Owner prior to being awarded the contract.

4.2.5.4 If the coverage period shown on the Contractor's current certificate of coverage ends during the duration of the project, the Contractor must, prior to the end of the coverage period, file a new certificate of coverage with the Owner showing that coverage has been extended.

4.2.5.5 The Contractor shall retain all required certificates of coverage for the duration of the project and for one year thereafter.

4.2.5.6 The Contractor shall notify the Owner in writing by certified mail or personal delivery, within 10 days after the Contractor knew or should have known, of any change that materially affects the provision of coverage of any person providing services on the project.

4.2.5.7 The Contractor shall post on each project site a notice, in the text, form and manner prescribed by the Texas Depart of Insurance Division of Workers' Compensation, informing all persons providing services on the project that they are required to be covered, and stating how a person may verify coverage and report lack of coverage.

4.2.5.8 The Contractor shall contractually require each person with whom it contracts to provide services on a project, to:

(1) provide coverage, based on proper reporting of classification codes and payroll amounts and filing of any coverage agreements, which meets the statutory requirements of Texas Labor Code, Section 401.011(44) for all of its employees providing services on the project, for the duration of the project;

(2) provide to the Contractor, prior to that person beginning work on the project, a certificate of coverage showing that coverage is being provided for all employees of the person providing services on the project, for the duration of the project;

(3) provide the Contractor, prior to the end of the coverage period, a new certificate of coverage showing extension of coverage, if the coverage period shown on the current certificate of coverage ends during the duration of the project;

(4) obtain from each other person with whom it contracts, and provide to the Contractor:

(a) a certificate of coverage, prior to the other person beginning work on the project; and

(b) a new certificate of coverage showing extension of coverage, prior to the end of the coverage period, if the coverage period shown on the current certificate of coverage ends during the duration of the project;

(5) retain all required certificates of coverage on file for the duration

of the project and for one year thereafter;

(6) notify the Owner in writing by certified mail or personal delivery, within 10 days after the person knew or should have known, of any change that materially affects the provision of coverage of any person providing services on the project; and

(7) contractually require each person with whom it contracts, to perform as required by paragraphs (1) - (7), with the certificates of coverage to be provided to the person for whom they are providing services.

4.2.5.9 By signing this contract or providing or causing to be provided a certificate of coverage, the Contractor is representing to the Owner that all employees of the Contractor who will provide services on the project will be covered by workers' compensation coverage for the duration of the project, that the coverage will be based on proper reporting of classification codes and payroll amounts, and that all coverage agreements will be filed with the appropriate insurance carrier or, in the case of a self-insured, with the commission's Division of Self-Insurance Regulation. Providing false or misleading information may subject the Contractor to administrative penalties, criminal penalties, civil penalties, or other civil actions.

4.2.5.10 The Contractor's failure to comply with any of these provisions is a breach of contract by the Contractor which entitles the Owner to declare the contract void if the Contractor does not remedy the breach within ten days after receipt of notice of breach from the Owner.

ARTICLE 1 GENERAL PROVISIONS

§ 1.1 Basic Definitions

§ 1.1.1 The Contract Documents

The Contract Documents are enumerated in the Agreement between the Owner and Contractor (hereinafter the Agreement) and consist of the Agreement, Conditions of the Contract (General, Supplementary and other Conditions), Drawings, Specifications, the Request for Proposals issued by the Owner in anticipation of receiving proposals, and any Addenda to the Request for Proposals issued by the Owner, those sections of the Construction Manager's proposal included as Exhibit [XX] to the Agreement, and Addenda issued prior to execution of the ~~Contract~~Agreement, other documents listed in the Agreement, and Modifications issued after execution of the ~~Contract~~Agreement. A Modification is (1) a written amendment to the Contract signed by both parties, (2) a Change Order, (3) a Construction Change Directive, or (4) a written order for a minor change in the Work issued by the Architect~~. Unless specifically enumerated in the Agreement, the Contract Documents do not include the advertisement or invitation to bid, Instructions to Bidders, sample forms, other information furnished by the Owner in anticipation of receiving bids or proposals, the Contractor's bid or proposal, or portions of Addenda relating to bidding or proposal requirements.~~ or Owner.

§ 1.1.2 The Contract

The Contract Documents form the Contract for Construction. The Contract represents the entire and integrated agreement between the parties hereto and supersedes prior negotiations, representations, or agreements, either written or oral. ~~The~~Contractor represents that it is not relying on any prior communications, negotiations, representations or agreements in entering into this Contract. The Contract may be amended or modified only by a Modification. The Contract Documents shall not be construed to create a contractual relationship of any kind (1) between the Contractor and the Architect or the Architect's consultants, (2) between the Owner and a Subcontractor or a Sub-subcontractor, (3) between the Owner and the Architect or the Architect's consultants, or (4) between any persons or entities other than the Owner and the Contractor. The Architect shall, however, be entitled to performance and enforcement of obligations under the Contract intended to facilitate performance of the Architect's duties.

§ 1.1.3 The Work

The term "Work" means the construction and services required by the Contract Documents, whether completed or partially completed, and includes all other labor, materials, equipment, and services provided or to be provided by the Contractor to fulfill the Contractor's obligations. The Work may constitute the whole or a part of the Project.
f

§ 1.1.4 The Project

The Project is the total construction of which the Work performed under the Contract Documents may be the whole or a part and which may include construction by the Owner and by Separate Contractors.

§ 1.1.5 The Drawings

The Drawings are the graphic and pictorial portions of the Contract Documents showing the design, location and dimensions of the Work, generally including plans, elevations, sections, details, schedules, and diagrams.

§ 1.1.6 The Specifications

The Specifications are that portion of the Contract Documents consisting of the written requirements for materials, equipment, systems, standards and workmanship for the Work, and performance of related services.

§ 1.1.7 Instruments of Service

Instruments of Service are representations, in any medium of expression now known or later developed, of the tangible and intangible creative work performed by the Architect and the Architect's consultants under their respective professional services agreements. Instruments of Service may include, without limitation, studies, surveys, models, sketches, drawings, specifications, and other similar materials.

~~**§ 1.1.8 Initial Decision Maker**~~

~~The Initial Decision Maker is the person identified in the Agreement to render initial decisions on Claims in accordance with Section 15.2. The Initial Decision Maker shall not show partiality to the Owner or Contractor and shall not be liable for results of interpretations or decisions rendered in good faith.~~

User Notes: (1950897523)

§ 1.2 Correlation and Intent of the Contract Documents

§ 1.2.1 The intent of the Contract Documents is to include all items necessary for the proper execution and completion of the Work by the Contractor. The Contract Documents are complementary, and what is required by one shall be as binding as if required by all~~; performance by the Contractor shall be required only to the extent consistent with~~ provided, however, the enumeration of any portion of the Work shall not be construed to exclude other items contemplated by or reasonably inferable from the Contract Documents~~ and reasonably inferable from them as being necessary to produce the indicated results~~.

§ 1.2.1.1 The invalidity of any provision of the Contract Documents shall not invalidate the Contract or its remaining provisions. If it is determined that any provision of the Contract Documents violates any law, or is otherwise invalid or unenforceable, then that provision shall be revised to the extent necessary to make that provision legal and enforceable. In such case the Contract Documents shall be construed, to the fullest extent permitted by law, to give effect to the parties' intentions and purposes in executing the Contract.

~~**§ 1.2.2** Organization of the Specifications into divisions, sections and articles, and arrangement of Drawings shall not control the Contractor in dividing the Work among Subcontractors or in establishing the extent of Work to be performed by any trade.~~

§ 1.2.2. Contractor shall coordinate and complete the various parts of the Work so that no part shall be left in an unfinished or incomplete condition. Contractor covenants and agrees with Owner to Perform its services with the professional skill and care ordinarily provided by a Construction Manager practicing in the same or similar locality under the same and similar circumstances and to cooperate with Owner in furnishing the best interests of Owner and to complete the Project in the most expedient and efficient manner possible

~~**§ 1.2.3** Unless otherwise stated in the Contract Documents, words that have well-known technical or construction industry meanings are used in the Contract Documents in accordance with such recognized meanings.~~

§ 1.2.3

Generally, the Specifications describe work which cannot be readily indicated on the Drawings and indicate types, qualities and locations of installation of the various materials and equipment required for the Work. It is not intended that the specifications will mention every item of Work which can not be adequately shown on the Drawings nor is it intended that they could have been shown thereon. All material or labor for Work which is shown on the Drawings or is reasonable inferable therefrom as being necessary to produce a finished job shall be provided by Contractor whether or not the Work is expressly covered in the Drawings and Specifications.

§ 1.3 Capitalization

Terms capitalized in these General Conditions include those that are (1) specifically defined, (2) the titles of numbered articles, or (3) the titles of other documents published by the American Institute of Architects.

§ 1.4 Interpretation

In the interest of brevity the Contract Documents frequently omit modifying words such as "all" and "any" and articles such as "the" and "an," but the fact that a modifier or an article is absent from one statement and appears in another is not intended to affect the interpretation of either statement.

§ 1.5 Ownership and Use of Drawings, Specifications, and Other Instruments of Service

§ 1.5.1 ~~The Architect and the Architect's consultants shall be deemed the authors and owners of their respective Instruments of Service, including the Drawings and Specifications, and retain~~Subject to any separate agreement between the Owner and the relevant parties, all Drawings, Specifications, plans, other documents, including those in electronic form, and buildings, and the architectural works (as defined by 17 U.S.C. 101) embodied thereby, prepared in connection with the Project by the Architect, Owner, Contractor, Subcontractor, any Sub-subcontractor, consultant, supplier, materialman, or other contractor and copies thereof furnished by any of them are and shall remain, or are herein conveyed to become, the Owner's property upon creation and the Owner shall hold all common law, statutory~~,~~ and other reserved rights~~ in their Instruments of Service~~, including copyrights, rights in them, including all copyright rights (collectively "Work Product"); provided, however, that Work Product shall not include proprietary financial and administrative information developed in the ordinary course of business. Contractor agrees and does hereby assign, grant, transfer and convey to Owner, its successors and assigns, Contractor's entire right, title, interest and ownership in and to such Work Product, including, without limitation, all rights relating to copyright arising under 17 U.S.C. Section 101 et. seq. and any and all copyright registrations or

applications associated therewith. Contractor confirms that Owner and its successors and assigns shall own Contractor's right, title and interest in and to, including the right to use, reproduce, make derivative works, distribute by sale, rental, lease or lending or by other transfer of ownership, to perform publicly, and to display, all such Work Product, whether or not such Work Product constitutes a "work made for hire" as defined in 17 U.S.C. Section 101 or was created by or for Contractor under 17 U.S.C. Section 201(b). Contractor shall use diligent efforts to obtain similar assignments and confirmations from all of its Subcontractors, Sub-subcontractors, consultants, suppliers, and materialmen; provided, however, that Contractor shall not be required to obtain assignment of pre-existing intellectual property rights of any Subcontractor, Sub-subcontractor, consultants, supplier, or materialman and, pursuant to Section 5.3.1, must promptly inform the Owner of any inability to obtain the assignments and confirmations required by this Section. The Work Product is to be used only by the Contractor, its Subcontractors, Sub-subcontractors, consultants, suppliers, and materialmen with respect to this Project and is not to be used on any other project. The Contractor, Subcontractors, Sub-subcontractors, and material or equipment suppliers shall not own or claim a copyright in the Instruments of Service. ~~Submittal~~Contractor, Subcontractors, and material or equipment suppliers are granted a limited license to use and reproduce applicable portions of the Work Product prepared by the Architect appropriate to and for use in the execution of their Work under the Contract Documents. Submission or distribution to meet official regulatory requirements or for other purposes in connection with ~~the~~this Project is not to be construed as publication in derogation of the Architect's or Architect's consultants' reserved rights~~.~~, Owner's copyright or other reserved right. Contractor shall deliver all copies of the Work Product to Owner upon the earlier to occur of the Owner's request, completion of the Work, or termination of the Contract.

§ 1.5.2 The Contractor, Subcontractors, Sub-subcontractors, and suppliers are authorized to use and reproduce the Instruments of Service provided to them, subject to any protocols established pursuant to Sections 1.7 and 1.8, solely and exclusively for execution of the Work. All copies made under this authorization shall bear the copyright notice, if any, shown on the Instruments of Service. The Contractor, Subcontractors, Sub-subcontractors, and suppliers may not use the Instruments of Service on other projects or for additions to the Project outside the scope of the Work without the specific written consent of the Owner, Architect, and the Architect's consultants. The Contractor confirms and agrees that the Owner has and shall retain all rights, title, and interest in and to such drawings, documents, designs and information, including, without limitation, any copyright or other Intellectual Property Rights, and that by use of such drawings, documents, designs and information, the Contractor shall not acquire any right, title, or interest in such drawings, documents, designs and information, including, without limitation, any copyright or other Intellectual Property Rights.

§ 1.5.3 License. To the extent necessary or appropriate to allow Owner to receive the benefit of the Work, Contractor hereby grants to Owner and its affiliates a non-exclusive, irrevocable, worldwide, fully paid-up, royalty-free, assignable license (a) to access and use the software, processes and other intellectual property used to perform the Work under, and (b) to permit Owner's designees to access and use such software, processes and other intellectual property in connection with providing goods or services to, or purchasing goods or services from, Owner.

§ 1.5.4 Ownership. Contractor agrees that, as between Contractor and Owner, all Work Product is the sole property of Owner. Contractor hereby does, and will cause its employees, contractors and subcontractors to, irrevocably, perpetually and unconditionally assign to Owner without further consideration all worldwide rights, title, and interest each may have in any Work Product, including any Proprietary Rights relating thereto of any sort throughout the world, except for any Contractor Intellectual Property contained in any Work Product. Such rights will vest in Owner upon the development, construction, implementation, completion, design, delivery, integration, attachment, incorporation or installation of the relevant Work Product. If any Proprietary Rights, including artists' rights and moral rights, in any Work Product cannot (as a matter of Law) be assigned by Contractor or Contractor's employees, contractors or subcontractors to Owner, then: (a) Contractor irrevocably, perpetually and unconditionally does, and will cause its employees, contractors and subcontractors to, waive the enforcement of such rights and all Claims of any kind against Owner with respect to such rights; and (b) to the extent Contractor or any of its employees, contractors or subcontractors cannot (as a matter of Law) make the waiver in subsection (a) of this Section, Contractor irrevocably, perpetually and unconditionally grants, and will cause its employees, contractors and subcontractors to irrevocably, perpetually and unconditionally grant, to Owner an exclusive (without reservation), perpetual, irrevocable, worldwide, fully paid-up, royalty-free, transferable, assignable license, with the right to sublicense through multiple levels of sublicensees, under any and all such rights: (i) to reproduce, create derivative works of, distribute, publicly perform, publicly display, and digitally perform, and otherwise use and exploit such Work Product in any medium or format, whether now known or hereafter discovered; (ii) to use, make, have made, sell, offer to sell, import, and otherwise exploit such Work Product and any product or service based on,

embodying, incorporating, or derived from such Work Product; and (iii) to exercise any and all other present or future rights not yet known in such Work Product. Contractor hereby assigns, and will cause its employees, contractors and subcontractors to assign, to Owner any and all Claims, past, present, or future, of any nature whatsoever, that Contractor or its employees, contractors or subcontractors may have for infringement, misappropriation, or violation of any Proprietary Right assigned to Owner pursuant to this Section.

§ 1.5.5 Contractor Intellectual Property. Owner acknowledges that the Work Product may include Contractor intellectual Property, and agrees, as between Owner and Contractor, that Contractor will retain ownership of all such Contractor Intellectual Property, including all Proprietary Rights therein and thereto. To the extent that any Contractor Intellectual Property is contained in any Work Product, or necessary for Owner to use or fully exploit any Work Product, then Contractor irrevocably, perpetually and unconditionally grants, and will cause its employees, contractors and subcontractors to irrevocably, perpetually and unconditionally grant, to Owner a non-exclusive, perpetual, irrevocable, worldwide, fully paid-up, royalty-free, transferable, assignable license, with the right to sublicense through multiple levels of sublicensees: (a) to reproduce, create derivative works of, distribute, publicly perform, publicly display, and digitally perform, and otherwise use and exploit such Contractor Intellectual Property in any medium or format, whether now known or hereafter discovered; (b) to use, make, have made, sell, offer to sell, import, and otherwise exploit such Contractor Intellectual Property and any product or service based on, embodying, incorporating, or derived from such Contractor Intellectual Property; and (c) to exercise any and all other present or future rights not yet known in such Contractor Intellectual Property; provided, however, that this license will not permit the commercial exploitation of such Contractor Intellectual Property on a stand-alone basis.

§ 1.5.6 Further Assurances. Subsequent to the execution and delivery of the Contract Documents, and without any additional consideration, Contractor will execute and deliver, and will cause its employees, contractors and subcontractors to execute and deliver, any further legal instruments (in such form as is acceptable to Owner) and perform any acts that in each case are or may become necessary to effectuate the purposes of this Article.

§ 1.6 Notice

§ 1.6.1 Except as otherwise provided in Section 1.6.2, where the Contract Documents require one party to notify or give notice to the other party, such notice shall be provided in writing to the designated representative of the party to whom the notice is addressed and shall be deemed to have been duly served if delivered in person, by mail, by courier, or by electronic transmission if a method for electronic transmission is set forth in the Agreement.

§ 1.6.2 Notice of Claims as provided in Section 15.1.3 shall be provided in writing and shall be deemed to have been duly served only if delivered to the designated representative of the party to whom the notice is addressed by certified or registered mail, or by courier providing proof of delivery.

§ 1.7 Digital Data Use and Transmission

The parties shall agree upon ~~written~~ protocols governing the transmission and use of~~, and reliance on,~~ Instruments of Service or any other information or documentation in digital form.

§ 1.8 Building Information Models Use and Reliance

Any use of, or reliance on, all or a portion of a building information model without agreement to ~~written~~ protocols governing the use of, and reliance on, the information contained in the model shall be at the using or relying party's sole risk and without liability to the other party and its contractors or consultants, the authors of, or contributors to, the building information model, and each of their agents and employees.

ARTICLE 2 OWNER

§ 2.1 General

§ 2.1.1 The Owner is the person or entity identified as such in the Agreement and is referred to throughout the Contract Documents as if singular in number. The Owner shall designate in writing a representative who shall have express authority to ~~bind~~secure approvals on behalf of the Owner with respect to all matters requiring the Owner's approval or authorization. Except as otherwise provided in Section 4.2.1, the Architect does not have such authority. The term "Owner" means the Owner or the Owner's authorized representative.

§ 2.1.2 The Owner shall furnish to the Contractor, within fifteen days after receipt of a written request, information necessary and relevant for the Contractor to evaluate, give notice of, or enforce mechanic's lien rights. Such

information shall include a correct statement of the record legal title to the property on which the Project is located, usually referred to as the site, and the Owner's interest therein.

§ 2.2 Evidence of the Owner's Financial Arrangements

§ 2.2.1 Prior to commencement of the Work and upon written request by the Contractor, the Owner shall furnish to the Contractor reasonable evidence that the Owner has made financial arrangements to fulfill the Owner's obligations under the Contract. ~~The Contractor shall have no obligation to commence the Work until the Owner provides such evidence. If commencement of the Work is delayed under this Section 2.2.1, the Contract Time shall be extended appropriately.~~

§ 2.2.2 Following commencement of the Work and upon written request by the Contractor, the Owner shall furnish to the Contractor ~~reasonable evidence that the Owner has made financial arrangements to fulfill the Owner's obligations under the Contract only if (1) the Owner fails to make payments to the Contractor as the Contract Documents require; (2) the Contractor identifies in writing a reasonable concern regarding the Owner's ability to make payment when due; or (3) a change in the Work materially changes the Contract Sum. If the Owner fails to provide such evidence, as required, within fourteen days of the Contractor's request, the Contractor may immediately stop the Work and, in that event, shall notify the Owner that the Work has stopped. However, if the request is made because a change in the Work materially changes the Contract Sum under (3) above, the Contractor may immediately stop only that portion of the Work affected by the change until reasonable evidence is provided. If the Work is stopped under this Section 2.2.2, the Contract Time shall be extended appropriately and the Contract Sum shall be increased by the amount of the Contractor's reasonable costs of shutdown, delay and start-up, plus interest as provided in the Contract Documents.~~evidence as required by statute.

~~**§ 2.2.3** After the Owner furnishes evidence of financial arrangements under this Section 2.2, the Owner shall not materially vary such financial arrangements without prior notice to the Contractor.~~

§ 2.2.3 Not used.

§ 2.2.4 Where the Owner has designated information furnished under this Section 2.2 as "confidential," the Contractor shall keep the information confidential and shall not disclose it to any other person. However, the Contractor may disclose "confidential" information, after seven (7) days' notice to the Owner, where disclosure is required by law, including a subpoena or other form of compulsory legal process issued by a court or governmental entity, or by court or arbitrator(s) order. The Contractor may also disclose "confidential" information to its employees, consultants, sureties, Subcontractors and their employees, Sub-subcontractors, and others who need to know the content of such information solely and exclusively for the Project and who agree to maintain the confidentiality of such information.

§ 2.3 Information and Services Required of the Owner

§ 2.3.1 ~~Except for permits and fees that are the responsibility of the~~The Contractor ~~under the Contract Documents, including those required under Section 3.7.1,~~shall secure and the Owner shall ~~secure and~~ pay for all necessary approvals, easements, assessments and charges required for construction, use or occupancy of permanent structures or for permanent changes in existing facilities. The Contractor shall obtain the building permit on behalf of the Owner and shall secure and the Owner shall pay for water tap fees, street closure permits, and permits required for delivery materials. The Owner shall not be responsible to pay for any licenses required to be maintained by Contractor or its subcontractors (including any and all trade licenses that Contract and any subcontractor may be required to obtain in connection with the performance of the Work or any portion thereof). Without limiting Contractor's obligations under this paragraph the Contractor shall assist the Owner in obtaining any such approvals as may be reasonably requested by the Owner.

§ 2.3.2 The Owner shall retain an architect lawfully licensed to practice architecture, or an entity lawfully practicing architecture, in the jurisdiction where the Project is located. That person or entity is identified as the Architect in the Agreement and is referred to throughout the Contract Documents as if singular in number.

§ 2.3.3 If the employment of the Architect terminates, the Owner shall employ a successor to whom the Contractor has no reasonable objection and whose status under the Contract Documents shall be that of the Architect.

User Notes: (1950897523)

§ 2.3.4 The Owner shall furnish surveys describing physical characteristics, legal limitations and utility locations for the site of the Project, and a legal description of the site. The Contractor shall be entitled to rely on the accuracy of information furnished by the Owner but shall exercise proper precautions relating to the safe performance of the Work. Notwithstanding the foregoing, the Contractor may not rely upon such information or any other information provided by or on behalf of the Owner when the Contractor knows or reasonably should know that the information is inaccurate, inadequate, incomplete, or otherwise unfit for its intended purpose. The Owner makes no representation or warranty that any information provided to Contractor by or on behalf of the Owner is accurate, correct, complete, fit for its intended purpose or can be used without infringing any patent, copyright, trademark, or other Intellectual Property Rights of third parties. The Contractor shall exercise proper precautions relating to the safe performance of the Work, particularly with respect to the location of utilities and pre-existing conditions.

§ 2.3.5 The Owner shall furnish information or services required of the Owner by the Contract Documents with reasonable promptness. The Owner shall also furnish any other information or services under the Owner's control and ~~relevant~~necessary to the Contractor's performance of the Work with reasonable promptness after receiving the Contractor's written request for such information or services.

§ 2.3.6 Unless otherwise provided in the Contract Documents, the Owner shall furnish to the Contractor one copy of the Contract Documents for purposes of making reproductions pursuant to Section 1.5.2.

§ 2.4 Owner's Right to Stop the Work

If the Contractor fails to correct Work that is not in accordance with the requirements of the Contract Documents as required by Section 12.2 or repeatedly fails to carry out Work in accordance with the Contract Documents, the Owner may issue a written order to the Contractor to stop the Work, or any portion thereof, until the cause for such order has been eliminated; however, the right of the Owner to stop the Work shall not give rise to a duty on the part of the Owner to exercise this right for the benefit of the Contractor or any other person or entity, except to the extent required by Section 6.1.3.

§ 2.5 Owner's Right to Carry Out the Work

If the Contractor defaults or neglects to carry out the Work in accordance with the Contract Documents and fails within a ~~ten-day~~seven-day period after receipt of notice from the Owner to commence and continue correction of such default or neglect with diligence and promptness, the Owner may, without prejudice to other remedies the Owner may have, correct such default or neglect. Such action by the Owner and amounts charged to the Contractor are both subject to prior approval of the Architect and the Architect may, pursuant to Section 9.5.1, withhold or nullify a Certificate for Payment in whole or in part, to the extent reasonably necessary to reimburse the Owner for the reasonable cost of correcting such deficiencies, including Owner's expenses and compensation for the Architect's additional services made necessary by such default, neglect, or failure. If current and future payments are not sufficient to cover such amounts, the Contractor shall pay the difference to the Owner. If the Contractor disagrees with the actions of the Owner or the Architect, or the amounts claimed as costs to the Owner, the Contractor may file a Claim pursuant to Article 15. Notwithstanding the notice requirements of this section, in the event of an emergency, Owner shall be entitled to take remedial and other necessary action immediately and without prior notice. In no event shall the Owner's exercise of any rights or remedies under this Article 2 or the Contract Documents relieve the Contractor from any liabilities arising from any default, violation or failure to abide by the Contract Documents.

ARTICLE 3 CONTRACTOR

§ 3.1 General

§ 3.1.1 The Contractor is the person or entity identified as such in the Agreement and is referred to throughout the Contract Documents as if singular in number. The Contractor shall be lawfully licensed, if required in the jurisdiction where the Project is located. The Contractor shall designate in writing a representative who shall have express authority to bind the Contractor with respect to all matters under this Contract. The term "Contractor" means the Contractor or the Contractor's authorized representative.

§ 3.1.2 The Contractor shall perform the Work in accordance with the Contract Documents.

§ 3.1.3 The Contractor shall not be relieved of its obligations to perform the Work in accordance with the Contract Documents either by activities or duties of the Architect in the Architect's administration of the Contract, or by tests, inspections or approvals required or performed by persons or entities other than the Contractor.

User Notes: (1950897523)

§ 3.2 Review of Contract Documents and Field Conditions by Contractor

§ 3.2.1 Execution of the Contract by the Contractor is a representation that the Contractor has visited the site, become generally familiar with local conditions under which the Work is to be performed, and correlated personal observations with requirements of the Contract Documents. The Contractor and each Subcontractor shall evaluate and satisfy themselves as to the conditions and limitations under which the Work is to be performed, including, without limitation, (1) the location, condition, layout and nature of the Project site and surrounding areas including all access, hoisting requirements and conditions, site logistics, and the geotechnical report, (2) generally prevailing climatic conditions, (3) anticipated labor supply and costs, (4) availability and cost of materials, tools and equipment, (5) any applicable rules and restrictions of Owner relating to construction on the real property and other buildings located in the vicinity of the Project, (6) applicable codes and laws, and (7) other similar issues. The Owner assumes no responsibility or liability for the physical condition or safety of the Project site or any improvements located on the Project site. The Contractor and its Subcontractors shall be solely responsible for providing a safe place for the performance of their Work. The Owner shall not be required to make any adjustment in either the Contract Sum or Contract Time in connection with any failure by the Contractor or any Subcontractor to comply with the requirements of this section.

§ 3.2.2 ~~Because the Contract Documents are complementary, the~~ Contractor shall~~, before starting each portion of the Work~~ exercise reasonable efforts consistent with construction industry standards to diligently, carefully and thoroughly study and compare ~~the various~~all Contract Documents~~ relative to that portion of the Work, as well as the information furnished by the Owner pursuant to Section 2.3.4, shall~~, take field measurements ~~of any existing~~and verify field conditions~~ related to that portion of the Work, and shall observe any conditions at the site affecting it. These obligations are for the purpose of facilitating coordination and construction by the Contractor and are not for the purpose of discovering errors, omissions, or inconsistencies in the Contract Documents; however, the Contractor shall promptly report to the Architect any errors, inconsistencies or omissions discovered by or made known to the Contractor as a request for information in such form as the Architect may require~~, compare them to the drawings and specifications, and will report in writing to Architect and Owner any questions, errors, inconsistencies, inadequacies, insufficiencies, or omissions (collectively "Deficiencies") in the plans, specifications, or other design documents that are identified by Contractor. Throughout Contractor's performance of the scope of work, Contractor will necessarily review the Contract Documents on a continuous basis for purposes of discovering Deficiencies. Contractor's review of the Contract Documents for Deficiencies under this Section includes review for clarity, consistency, constructability, maintainability/operability and coordination among trades. Contractor shall consult with Architect regarding the selection of materials, building systems and equipment, and shall recommend alternative solutions whenever design details affect construction feasibility, schedules, cost or quality and shall provide other value engineering services. It is recognized that the Contractor's review is made in the Contractor's capacity as a contractor and not as a licensed design professional, unless otherwise specifically provided in the Contract Documents.

§ 3.2.3 The Contractor is not required to ascertain that the Contract Documents are in accordance with applicable laws, statutes, ordinances, codes, rules and regulations, or lawful orders of public authorities, except to the extent that it would be expected to do in its capacity as a contractor and not as a licensed design professional, but the Contractor shall promptly report in writing to the Architect ~~any nonconformity discovered by or~~and Owner any Deficiencies that Contractor identifies in the Contract Documents based on its review of the Contract Documents as set forth above in Section 3.2.2 or that Contractor discovers or is made known to the Contractor as a request for information in such form as the Architect or Owner may require. Contractor acknowledges that it may be liable, in whole or part, to Owner for consequences that are the direct result of Contractor's failure to promptly disclose Deficiencies in writing to Owner and Architect. Nothing in Section 3.2.2 or 3.2.3 shall be construed to modify or affect legal, contractual and/or professional obligations of Architect and/or Owner regarding plans, designs, drawings or specifications, or identification and/or handling of Deficiencies.

§ 3.2.4 If the Contractor believes that additional cost or time is involved because of clarifications or instructions the Architect issues in response to the Contractor's notices or requests for information pursuant to Sections 3.2.2 or 3.2.3, the Contractor shall submit Claims as provided in Article 15. If the Contractor fails to perform the obligations of Sections 3.2.2 or 3.2.3, the Contractor shall pay such costs and damages to the Owner, subject to Section 15.1.7, as would have been avoided if the Contractor had performed such obligations. If the Contractor performs those obligations, the Contractor shall not be liable to the Owner or Architect for damages resulting from errors, inconsistencies or omissions in the Contract Documents, for differences between field measurements or conditions

and the Contract Documents, or for nonconformities of the Contract Documents to applicable laws, statutes, ordinances, codes, rules and regulations, and lawful orders of public authorities, except to the extent that Contractor knew or should have known of such matters and failed to promptly notify Owner and/or the Architect as provided herein.

§ 3.3 Supervision and Construction Procedures

§ 3.3.1 The Contractor shall supervise and direct the Work, using the Contractor's best skill and attention. The Contractor shall be solely responsible for, and have control over, construction means, methods, techniques, sequences, and procedures, and for coordinating all portions of the Work under the Contract. If the Contract Documents give specific instructions concerning construction means, methods, techniques, sequences, or procedures, the Contractor shall evaluate the jobsite safety thereof and shall be solely responsible for the jobsite safety of such means, methods, techniques, sequences, or procedures. If the Contractor determines that such means, methods, techniques, sequences or procedures may not be safe, the Contractor shall give timely notice to the Owner and Architect, and shall propose alternative means, methods, techniques, sequences, or procedures. The Architect shall evaluate the proposed alternative solely for conformance with the design intent for the completed construction. Unless the Architect objects to the Contractor's proposed alternative, the Contractor shall perform the Work using its alternative means, methods, techniques, sequences, or procedures.

§ 3.3.2 The Contractor shall be responsible to the Owner for acts and omissions of the Contractor's employees, Subcontractors and their agents and employees, and other persons or entities performing portions of the Work for, or on behalf of, the Contractor or any of its Subcontractors.

§ 3.3.3 The Contractor shall be responsible for inspection of portions of Work already performed to determine that such portions are in proper condition to receive subsequent Work.

§ 3.3.4 The Contractor shall ensure that all material suppliers and Subcontractors adhere to the Contract Documents and that they order and provide materials to the jobsite on time, taking into account the current market and delivery conditions. Contractor shall coordinate its Work with that of all persons or entities performing portions of the Work on the Project, including deliveries, storage, installations and construction of utilities.

§ 3.3.5 The Contractor shall develop and implement a system and procedures for reviewing its own Work and the work of its Subcontractors for defects and deficiencies, including the preparation of all appropriate quality control documentation, to assure that all such defects and deficiencies are discovered and corrected. The Contractor shall be responsible for inspection of portions of Work already performed under this Contract to determine that such portions are in proper condition to receive subsequent Work.

§ 3.3.6 The Contractor shall develop and implement a system and procedures for preparing, reviewing and processing Change Orders which fully complies with Article 7 and assures that the preparation of Change Proposals and responses to Construction Change Directives include the submittal of: (a) an explanation of the reasons for any requested changes in the Contract Sum; (b) identification of all supporting documents to verify any requested cost changes; and (c) a detailed explanation of any critical path schedule impacts.

§ 3.4 Labor and Materials

§ 3.4.1 Unless otherwise provided in the Contract Documents, the Contractor shall provide and pay for labor, materials, equipment, tools, construction equipment and machinery, water, heat, utilities, transportation, and other facilities and services necessary for proper execution and completion of the Work, whether temporary or permanent and whether or not incorporated or to be incorporated in the Work.

§ 3.4.2 Except in the case of minor changes in the Work approved by the Architect in accordance with Section 3.12.8 or ordered by the Architect in accordance with Section 7.4, the Contractor may make substitutions only with the consent of the Owner, after evaluation by the Architect and in accordance with a Change Order or Construction Change Directive.

§ 3.4.3 The Contractor shall enforce strict discipline and good order among the Contractor's employees and other persons carrying out the Work. The Contractor shall not permit employment of unfit persons or persons not properly skilled in tasks assigned to them~~.~~ or who Contractor knows or through diligence should know is not authorized to work under applicable laws. At no time shall any individual engage in any illegal activities at the site, consume or

User Notes: (1950897523)

possess alcoholic beverages at the site, or use illegal drugs at the site. Contractor understands and agrees that if its employees or any other person carrying out the Work engage in unsafe, inappropriate, offensive or disorderly conduct or harasses Owner, its guests, employees or patrons, Owner may require Contractor to permanently remove such offending employees from site.

§ 3.5 Warranty

§ 3.5.1 The Contractor warrants to the Owner and Architect that it will perform all elements of the Work in accordance with the Contract Documents and that materials and equipment furnished under the Contract will be of good quality and new unless the Contract Documents require or permit otherwise. The Contractor further warrants that the Work will conform to the requirements of the Contract Documents and will be free from defects, except for those inherent in the quality of the Work the Contract Documents require or permit. Work, materials, or equipment not conforming to these requirements may be considered defective. The Contractor's warranty excludes remedy for damage or defect caused by abuse, alterations to the Work not executed by the Contractor, improper or insufficient maintenance, improper operation, or normal wear and tear and normal usage. If required by the Architect or Owner, the Contractor shall furnish satisfactory evidence as to the kind and quality of materials and equipment. Contractor's express warranties contained herein are not limited by the provisions of Section 12.2 and shall be in addition to any warranties, indemnities, claims, rights, actions or remedies that Owner may have in the Contract Documents or at law or in equity for defective Work or breach of the Contract Documents.

§ 3.5.2 All material, equipment, or other special warranties required by the Contract Documents shall be issued in the name of the Owner, or shall be transferable to the Owner, and shall commence in accordance with Section 9.8.4. Contractor shall be responsible for providing all such warranties to Owner regardless of any dispute with Owner or with any Subcontractor.

§ 3.5.3 Contractor shall assign Subcontractor, manufacturer and supplier warranties and guarantees directly to the Owner. During the one (1) year period for correction of the Work, Contractor shall enforce the Subcontractors', manufacturers' and suppliers' warranties for the benefit of Owner or its assigns. After expiration of such period, the Contractor shall continue to aid Owner in enforcing any continuing warranties assigned to Owner. Contractors' obligations under this section shall survive the expirations or earlier termination of the Contract.

§ 3.5.4 All guarantees and warranties of materials and services furnished to Contractor or Subcontractors by any Subcontractor, manufacturer or supplier shall be deemed to run for the benefit of the Owner. Contractor hereby assigns to Owner the benefits of all guarantees and warranties of all Subcontractors, manufacturers and suppliers engaged for the Project, but such assignment shall not relieve Contractor of its warranty obligations to Owner under the Contract Documents or Applicable Laws. The Contractor further agrees to perform the Work in such a manner so as to preserve any and all such guarantees and warranties.

§ 3.6 Taxes

The Contractor shall pay sales, consumer, use and similar taxes for the Work provided by the Contractor that are legally enacted when bids are received or negotiations concluded, whether or not yet effective or merely scheduled to go into effect. Notwithstanding the foregoing, Contractor acknowledges Owner is exempt from sales tax and Owner will not pay and Contractor shall not request payment for any such taxes. Contractor will request and Owner will provide Owner's Tax Exempt ID, which Contractor and Subcontractors will use for work and materials on the Project.

§ 3.7 Permits, Fees, Notices and Compliance with Laws

§ 3.7.1 Unless otherwise provided in the Contract Documents, the Contractor shall secure and pay for the building permit as well as for other permits, fees, licenses, and inspections by government agencies necessary for proper execution and completion of the Work that are customarily secured after execution of the Contract and legally required at the time bids are received or negotiations concluded. Unless otherwise required by relevant authorities, the Contractor shall procure all certificates of occupancy (and similar certificates and permits), and pay all charges and fees, and give all notices necessary and incidental to the due and lawful prosecution of the Work. Contractor shall deliver to Owner certificates of inspection, use, and occupancy upon completion of the Work in sufficient time for occupation of the Project in accordance with the approved schedule for the Work.

§ 3.7.2 The Contractor shall comply with and give notices required by applicable laws, statutes, ordinances, codes, rules and regulations, and lawful orders of public authorities applicable to performance of the Work.

AIA Document A201 – 2017. Copyright © 1911, 1915, 1918, 1925, 1937, 1951, 1958, 1961, 1963, 1966, 1970, 1976, 1987, 1997, 2007 and 2017. All rights reserved. User Notes: (1950897523)

§ 3.7.3 If the Contractor performs Work knowing it to be contrary to applicable laws, statutes, ordinances, codes, rules and regulations, or lawful orders of public authorities, the Contractor shall assume appropriate responsibility for such Work and shall bear the costs attributable to correction. Notwithstanding the foregoing, the Contractor shall be solely responsible for complying with all laws, statutes, ordinances, building codes and rules and regulations affecting the means and methods of how the Work is to be performed.

§ 3.7.4 Concealed or Unknown Conditions

If the Contractor encounters conditions at the site that are (1) subsurface or otherwise concealed physical conditions that differ materially from those indicated in the Contract Documents or (2) unknown physical conditions of an unusual nature that differ materially from those ordinarily found to exist and generally recognized as inherent in construction activities of the character provided for in the Contract Documents, the Contractor shall promptly provide notice to the Owner and the Architect before conditions are disturbed and in no event later than ~~14~~three (3) business days after first observance of the conditions. Contractor agrees this is a reasonable notice requirement. The Architect will promptly investigate such conditions and, if the Architect determines that they differ materially and cause an increase or decrease in the Contractor's cost of, or time required for, performance of any part of the Work, will recommend that an equitable adjustment be made in the Contract Sum or Contract Time, or both. If the Architect determines that the conditions at the site are not materially different from those indicated in the Contract Documents and that no change in the terms of the Contract is justified, the Architect shall promptly notify the Owner and Contractor, stating the reasons. If either party disputes the Architect's determination or recommendation, that party may submit a Claim as provided in Article 15.

§ 3.7.5 If, in the course of the Work, the Contractor encounters human remains or recognizes the existence of burial markers, archaeological sites or wetlands not indicated in the Contract Documents, the Contractor shall immediately suspend any operations that would affect them and shall notify the Owner and Architect. Upon receipt of such notice, the Owner shall promptly take any action necessary to obtain governmental authorization required to resume the operations. The Contractor shall continue to suspend such operations until otherwise instructed by the Owner but shall continue with all other operations that do not affect those remains or features. Requests for adjustments in the Contract Sum and Contract Time arising from the existence of such remains or features may be made as provided in Article 15.

§ 3.8 Allowances

§ 3.8.1 The Contractor shall include in the Contract Sum all allowances stated in the Contract Documents. Items covered by allowances shall be supplied for such amounts and by such persons or entities as the Owner may direct, but the Contractor shall not be required to employ persons or entities to whom the Contractor has reasonable objection. Contractor shall obtain written approval from Owner of the actual cost of any item covered by allowances before incurring such costs. The Contractor shall keep separate and adequate records of all allowances and submit records of the allowances to the Owner no less than monthly and with each Application for Payment.

§ 3.8.2 Unless otherwise provided in the Contract Documents,

- **.1** allowances shall cover the cost to the Contractor of materials and equipment delivered at the site and all required taxes, less applicable trade discounts;
- **.2** Contractor's costs for unloading and handling at the site, labor, installation costs, overhead, profit, and other expenses contemplated for stated allowance amounts shall be included in the Contract Sum but not in the allowances; and
- **.3** whenever costs are more than or less than allowances, the Contract Sum shall be adjusted accordingly by Change Order. The amount of the Change Order shall reflect (1) the difference between actual costs and the allowances under Section 3.8.2.1 and (2) changes in Contractor's costs under Section 3.8.2.2.

§ 3.8.3 Materials and equipment under an allowance shall be selected by the Owner with reasonable promptness.

§ 3.9 Superintendent

§ 3.9.1 The Contractor shall employ a competent superintendent and necessary assistants who shall be in attendance at the Project site during performance of the Work. The superintendent shall represent the Contractor, and communications given to the superintendent shall be as binding as if given to the Contractor.

User Notes: (1950897523)

§ 3.9.2 The Contractor~~, as soon as practicable after award of the Contract, shall notify the Owner and Architect of the name and qualifications of a proposed superintendent. Within 14 days of receipt of the information, the Architect may notify the Contractor, stating whether the Owner or the Architect (1) has reasonable objection to the proposed superintendent or (2) requires additional time for review. Failure of the Architect to provide notice within the 14-day period shall constitute notice of no reasonable objection.~~ will include the superintendent in its list of Key Personnel.

§ 3.9.3 The Contractor shall not employ a proposed superintendent to whom the Owner or Architect has made reasonable and timely objection. The Contractor shall not change the superintendent without the Owner's consent, which shall not unreasonably be withheld or delayed.

§ 3.9.4 The Contractor will assign the key personnel of its staff to complete the Work as delineated in Exhibit C Key Personnel and Staffing attached to the Agreement and as agreed to with Owner. The Contractor will not substitute these key personnel without the Owner's prior written permission. If requested by the Owner, the Contractor will replace these key personnel, subcontractors' personnel or any other personnel employed by the contractor with equally capable personnel, subject to the Owner's prior approval, unless the person becomes unable to perform any such duties due to death, disability or termination of employment with the Construction Manager. Owner may reject any proposed individual or subcontractor in Owner's sole discretion.

§ 3.10 Contractor's Construction and Submittal Schedules

§ 3.10.1 The Contractor, ~~promptly after being awarded the Contract, shall submit~~as part of its GMP Proposal, shall include for the Owner's and Architect's information a Contractor's construction schedule for the Work. The schedule shall contain detail appropriate for the Project, including (1) the date of commencement of the Work, interim schedule milestone dates, and the date of Substantial Completion; (2) an apportionment of the Work by construction activity; and (3) the time required for completion of each portion of the Work. The schedule shall provide for the orderly progression of the Work to completion and shall not exceed time limits current under the Contract Documents. The schedule shall be revised at appropriate intervals as required by the conditions of the Work and Project.

§ 3.10.2 The Contractor, promptly after being awarded the Contract and thereafter as necessary to maintain a current submittal schedule, shall submit a submittal schedule for the Architect's approval. The Architect's approval shall not be unreasonably delayed or withheld. The submittal schedule shall (1) be coordinated with the Contractor's construction schedule, and (2) allow the Architect reasonable time to review submittals. If the Contractor fails to submit a submittal schedule, or fails to provide submittals in accordance with the approved submittal schedule, the Contractor shall not be entitled to any increase in Contract Sum or extension of Contract Time based on the time required for review of submittals.

§ 3.10.3 The Contractor shall perform the Work in general accordance with the most recent schedules submitted to the Owner and Architect.

§ 3.10.4 The Contractor must prepare a progress schedule ("Progress Schedule") tracking the progress of the Work, and shall maintain the Progress Schedule in a detailed precedence-style critical path management ("CPM") format reasonably satisfactory to the Owner that shall also (i) provide a graphic representation of all activities and events that will occur during performance of the Work; (ii) identify each phase of construction and occupancy; and (iii) set forth dates that are critical in ensuring the timely and orderly completion of the Work in accordance with the requirements of the Contract Documents (hereinafter referred to as "Milestone Completion Dates"). The Contractor shall monitor the progress of the Work for conformance with the requirements of the Schedule and shall promptly advise the Owner of any delays or potential delays. In the event any delay, the Contractor shall propose an affirmative plan to correct the delay, including overtime and/or additional labor, if necessary. In no event shall any progress report or written notice delivered to the Owner of a delay constitute an adjustment in the Contract Time, any Milestone Completion Date or the Contract Sum unless any such adjustment is agreed to by the Owner and authorized pursuant to a Change Order.

§ 3.10.5 If the Owner, in its reasonable discretion, determines that the performance of the Work has not progressed or reached the level of completion required by the Contract Documents, the Owner shall have the right to require that the Contractor take corrective measures necessary to expedite the progress of construction, including, without limitation, (i) working additional shifts or overtime, (ii) supplying additional manpower, equipment, and facilities,

User Notes: (1950897523)

and (iii) other similar measures. The Contractor shall not be entitled to an adjustment in the Contract Sum in connection with such measures requested by the Owner and implemented by Contractor under or pursuant to this Section 3.10.5, except to the extent of delays arising out of wrongful acts or omissions by Owner or the Architect in violation of the Agreement, force majeure, or other causes beyond the control of Contractor or its subcontractors of any level or suppliers.

§ 3.10.3 Acceleration of Work Not Delayed. Owner shall also have the right to direct that the Work be accelerated by means of overtime, shifts or restructuring of the Work notwithstanding that the Work is progressing without delay in accordance with the established Progress Schedule. Contractor agrees to perform same on the basis of reimbursement of direct costs (i.e., additional supervision and Project Management staff necessary to manage the acceleration, premium portion of overtime pay, actual production loss costs due to loss of production efficiencies, equipment costs and such other items of cost resulting from such acceleration). Contractor shall promptly provide an acceleration plan, including recommendations for the most effective and economical acceleration of the Work, and estimated costs of same. Contractor will use reasonable commercial efforts to minimize production loss costs and will keep Owner apprised of such costs on a weekly basis. All acceleration of Work will be subject to the Change Order Procedure set forth in Article 7 of these General Conditions.

§ 3.11 Documents and Samples at the Site

The Contractor shall make available, at the Project site, the Contract Documents, including Change Orders, Construction Change Directives, and other Modifications, in good order and marked currently to indicate field changes and selections made during construction ("As Built Drawings"), and the approved Shop Drawings, Product Data, Samples, and similar required submittals. These shall be in electronic form ~~or paper copy~~, available to the Architect and Owner, and delivered to the Architect for submittal to the Owner upon completion of the Work as a record of the Work as constructed. These documents shall be available to Architect and Owner during the progress of the Work for review to ensure general conformance with the Project and the requirements of the Contract Documents. As-Built Documents shall contain, but not be limited to: (i) the actual location of the underground utilities and appurtenances as referenced to permanent surface improvements; (ii) the location of internal utilities and appurtenances concealed in building structures; and (iii) significant changes during the construction process and significant detail not shown in the original Contract Documents. The As-Built Documents are to be kept accurately and no work shall be permanently concealed until the required information has been recorded. As part of the Project closeout submittals, and prior to release by Owner of Final Payment, Contractor shall submit one (1) set of accurate and complete As-Built Documents to Architect for Architect's review for general conformance with the Project.

§ 3.12 Shop Drawings, Product Data and Samples

§ 3.12.1 Shop Drawings are drawings, diagrams, schedules, and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier, or distributor to illustrate some portion of the Work.

§ 3.12.2 Product Data are illustrations, standard schedules, performance charts, instructions, brochures, diagrams, and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

§ 3.12.3 Samples are physical examples that illustrate materials, equipment, or workmanship, and establish standards by which the Work will be judged.

§ 3.12.4 Shop Drawings, Product Data, Samples, and similar submittals are not Contract Documents. Their purpose is to demonstrate how the Contractor proposes to conform to the information given and the design concept expressed in the Contract Documents for those portions of the Work for which the Contract Documents require submittals. Review by the Architect is subject to the limitations of Section 4.2.7. Informational submittals upon which the Architect is not expected to take responsive action may be so identified in the Contract Documents. Submittals that are not required by the Contract Documents may be returned by the Architect without action.

§ 3.12.5 The Contractor shall review for compliance with the Contract Documents, approve, and submit to the Architect, Shop Drawings, Product Data, Samples, and similar submittals required by the Contract Documents, in accordance with the submittal schedule approved by the Architect or, in the absence of an approved submittal schedule, with reasonable promptness and in such sequence as to cause no delay in the Work or in the activities of the Owner or of Separate Contractors.

User Notes: (1950897523)

§ 3.12.6 By submitting Shop Drawings, Product Data, Samples, and similar submittals, the Contractor represents to the Owner and Architect that the Contractor has (1) reviewed and approved them, (2) determined and verified materials, field measurements and field construction criteria related thereto, or will do so, and (3) checked and coordinated the information contained within such submittals with the requirements of the Work and of the Contract Documents.

§ 3.12.7 The Contractor shall perform no portion of the Work for which the Contract Documents require submittal and review of Shop Drawings, Product Data, Samples, or similar submittals, until the respective submittal has been approved by the Architect.

§ 3.12.8 The Work shall be in accordance with approved submittals except that the Contractor shall not be relieved of responsibility for deviations from the requirements of the Contract Documents by the Architect's approval of Shop Drawings, Product Data, Samples, or similar submittals, unless the Contractor has specifically notified the Architect of such deviation at the time of submittal and (1) the Architect has given written approval to the specific deviation as a minor change in the Work, or (2) a Change Order or Construction Change Directive has been issued authorizing the deviation. The Contractor shall not be relieved of responsibility for errors or omissions in Shop Drawings, Product Data, Samples, or similar submittals, by the Architect's approval thereof.

§ 3.12.9 The Contractor shall direct specific attention, in writing or on resubmitted Shop Drawings, Product Data, Samples, or similar submittals, to revisions other than those requested by the Architect on previous submittals. In the absence of such notice, the Architect's approval of a resubmission shall not apply to such revisions.

§ 3.12.10 The Contractor shall not be required to provide professional services that constitute the practice of architecture or engineering unless such services are specifically required by the Contract Documents for a portion of the Work or unless the Contractor needs to provide such services in order to carry out the Contractor's responsibilities for construction means, methods, techniques, sequences, and procedures. The Contractor shall not be required to provide professional services in violation of applicable law.

§ 3.12.10.1 If professional design services or certifications by a design professional related to systems, materials, or equipment are specifically required of the Contractor by the Contract Documents, the Owner and the Architect will specify all performance and design criteria that such services must satisfy. The Contractor shall be entitled to rely upon the adequacy and accuracy of the performance and design criteria provided in the Contract Documents. The Contractor shall cause such services or certifications to be provided by an appropriately licensed design professional, whose signature and seal shall appear on all drawings, calculations, specifications, certifications, Shop Drawings, and other submittals prepared by such professional. Shop Drawings, and other submittals related to the Work, designed or certified by such professional, if prepared by others, shall bear such professional's written approval when submitted to the Architect. The Owner and the Architect shall be entitled to rely upon the adequacy and accuracy of the services, certifications, and approvals performed or provided by such design professionals, provided the Owner and Architect have specified to the Contractor the performance and design criteria that such services must satisfy. Pursuant to this Section 3.12.10, the Architect will review and approve or take other appropriate action on submittals only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents.

§ 3.12.10.2 If the Contract Documents require the Contractor's design professional to certify that the Work has been performed in accordance with the design criteria, the Contractor shall furnish such certifications to the Architect at the time and in the form specified by the Architect.

§ 3.13 Use of Site

The Contractor shall confine operations at the site to areas permitted by applicable laws, statutes, ordinances, codes, rules and regulations, lawful orders of public authorities, and the Contract Documents and shall not unreasonably encumber the site with materials or equipment.

§ 3.14 Cutting and Patching

§ 3.14.1 The Contractor shall be responsible for cutting, fitting, or patching required to complete the Work or to make its parts fit together properly. All areas requiring cutting, fitting, or patching shall be restored to the condition existing prior to the cutting, fitting, or patching, unless otherwise required by the Contract Documents.

User Notes: (1950897523)

§ 3.14.2 The Contractor shall not damage or endanger a portion of the Work or fully or partially completed construction of the Owner or Separate Contractors by cutting, patching, or otherwise altering such construction, or by excavation. The Contractor shall not cut or otherwise alter construction by the Owner or a Separate Contractor except with written consent of the Owner and of the Separate Contractor. Consent shall not be unreasonably withheld. The Contractor shall not unreasonably withhold, from the Owner or a Separate Contractor, its consent to cutting or otherwise altering the Work.

§ 3.15 Cleaning Up

§ 3.15.1 The Contractor shall keep the premises and surrounding area free from accumulation of waste materials and rubbish caused by operations under the Contract. At completion of the Work, the Contractor shall remove waste materials, rubbish, the Contractor's tools, construction equipment, machinery, and surplus materials from and about the Project.

§ 3.15.2 If the Contractor fails to clean up as provided in the Contract Documents, the Owner may do so and the Owner shall be entitled to reimbursement from the Contractor.

§ 3.16 Access to Work

The Contractor shall provide the Owner and Architect with access to the Work in preparation and progress wherever located.

§ 3.17 Royalties, Patents and Copyrights

The Contractor shall pay all royalties and license fees. The Contractor shall defend suits or claims for infringement of copyrights and patent rights and shall hold the Owner and Architect harmless from loss on account thereof, but shall not be responsible for defense or loss when a particular design, process, or product of a particular manufacturer or manufacturers is required by the Contract Documents, or where the copyright violations are contained in Drawings, Specifications, or other documents prepared by the Owner or Architect. However, if an infringement of a copyright or patent is discovered by, or made known to, the Contractor, the Contractor shall be responsible for the loss unless the information is promptly furnished to the Architect.

§ 3.18 Indemnification

~~**§ 3.18.1** To the fullest extent permitted by law, the Contractor shall indemnify and hold harmless the Owner, Architect, Architect's consultants, and agents and employees of any of them from and against claims, damages, losses, and expenses, including but not limited to attorneys' fees, arising out of or resulting from performance of the Work, provided that such claim, damage, loss, or expense is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the Work itself), but only to the extent caused by the negligent acts or omissions of the Contractor, a Subcontractor, anyone directly or indirectly employed by them, or anyone for whose acts they may be liable, regardless of whether or not such claim, damage, loss, or expense is caused in part by a party indemnified hereunder. Such obligation shall not be construed to negate, abridge, or reduce other rights or obligations of indemnity that would otherwise exist as to a party or person described in this Section 3.18.~~

§ 3.18.1 CONTRACTOR ACKNOWLEDGES THAT IT WILL HAVE CONTROL OF ALL MEANS, METHODS, AND SAFETY MEASURES, IN CONNECTION WITH THE PERFORMANCE OF THE WORK UNDER THIS AGREEMENT AND, AS A RESULT, THE OWNER HAS A REASONABLE EXPECTATION THAT THE CONTRACTOR WILL HOLD THE OWNER HARMLESS FROM ANY CLAIMS ARISING OUT OF THE CONTRACTOR'S PROSECUTION OF THE WORK. THE CONTRACTOR ALSO ACKNOWLEDGES THAT ANY CLAIM AGAINST THE OWNER ARISING OUT OF THE CONTRACTOR'S WORK AND INCLUDING SUCH CLAIMS AS MAY BE MADE BY EMPLOYEES OF THE CONTRACTOR, OR ANY OF ITS SUB-CONTRACTORS, SUPPLIERS OR AGENTS, WILL ALLEGE SOME CONTRIBUTORY NEGLIGENCE ON THE PART OF THE OWNER AND THAT, FOR THE OWNER TO BE INDEMNIFIED FROM SUCH CLAIMS, THE CONTRACTOR'S INDEMNITY OBLIGATION MUST INCLUDE AN EXPRESS PROVISION INCLUDING OWNER'S OWN CONTRIBUTORY NEGLIGENCE IN SUCH INDEMNITY OBLIGATIONS. THEREFORE, THE CONTRACTOR ACCEPTS AND AGREES TO ITS INDEMNITY OBLIGATIONS AS SET FORTH BELOW. THE INDEMNITY OBLIGATIONS SET FORTH BELOW ARE INTENDED TO PROVIDE THE MAXIMUM INDEMNITY ALLOWED BY LAW, AND TO EXPRESSLY INCLUDE INDEMNITY FOR INJURIES TO EMPLOYEES OF THE CONTRACTOR, ITS SUB-CONTRACTORS, OR ANY TIER, EMPLOYEES OR AGENTS. THIS INDEMNITY SHALL INCLUDE THE MAXIMUM INDEMNITY

ALLOWED UNDER TEXAS INSURANCE CODE CHAPTER 151, INCLUDING INDEMNITY FOR INJURIES TO EMPLOYEES OF THE CONTRACTOR, ITS SUB-CONTRACTORS, OR ANY TIER, EMPLOYEES OR AGENTS.

~~**§ 3.18.2** In claims against any person or entity indemnified under this Section 3.18 by an employee of the Contractor, a Subcontractor, anyone directly or indirectly employed by them, or anyone for whose acts they may be liable, the indemnification obligation under Section 3.18.1 shall not be limited by a limitation on amount or type of damages, compensation, or benefits payable by or for the Contractor or a Subcontractor under workers' compensation acts, disability benefit acts, or other employee benefit acts.~~

TO THE FULLEST EXTENT PERMITTED BY LAW (BUT NO FURTHER), INCLUDING CHAPTER 151 OF THE TEXAS INSURANCE CODE (AND EXCEPT FOR EMPLOYEE INJURY CLAIMS COVERED BY SECTION 3.18.2 BELOW), THE CONTRACTOR WILL BE RESPONSIBLE FOR AND HEREBY AGREES TO PROTECT, INDEMNIFY AND HOLD HARMLESS AND SHALL DEFEND THE OWNER, AND ITS OFFICERS, DIRECTORS, ELECTED OFFICIALS, AND EMPLOYEES (HEREINAFTER REFERRED TO INDIVIDUALLY AS AN "INDEMNIFIED PARTY" AND COLLECTIVELY AS THE "INDEMNIFIED PARTIES") FROM AND AGAINST CLAIMS, ACTIONS, LIABILITIES, LOSSES, JUDGMENTS, AWARDS, FINES, AND EXPENSES, INCLUDING BUT NOT LIMITED TO ATTORNEYS' FEES AND COSTS AND EXPENSES OF LITIGATION OR ARBITRATION INCURRED BY AN INDEMNIFIED PARTY, ARISING OUT OF OR RESULTING FROM THE PERFORMANCE OR A FAILURE IN THE PERFORMANCE OF THE WORK OF THE CONTRACT BY OR THROUGH THE CONTRACTOR OR ANY OTHER NEGLIGENT OR WRONGFUL ACT OR OMISSION OF THE CONTRACTOR OR ONE OF ITS SUBCONTRACTORS OR SUPPLIERS (OF ANY TIER) OR ANYONE ELSE DIRECTLY OR INDIRECTLY EMPLOYED BY THEM OR ANYONE FOR WHOSE ACTS THEY MAY BE LIABLE (HEREINAFTER REFERRED TO COLLECTIVELY AS THE "SUBCONTRACTOR PARTIES"), SUCH OBLIGATION SHALL NOT BE CONSTRUED TO NEGATE, ABRIDGE, OR REDUCE OTHER RIGHTS OR OBLIGATIONS OF INDEMNITY WHICH WOULD OTHERWISE EXIST AS TO A PARTY OR PERSON DESCRIBED IN THIS SECTION 3.18.1.

EXPENSES RECOVERABLE BY AN INDEMNIFIED PARTY AS PART OF THE CONTRACTOR'S INDEMNITY OBLIGATIONS UNDER THIS SECTION 3.18.1 SHALL INCLUDE, WITHOUT LIMITATION, ALL ATTORNEYS' FEES AND ANY COSTS INCURRED BY OWNER IN ENFORCING THE PROVISIONS OF THE CONTRACTOR'S INDEMNITY OBLIGATIONS.

EXCEPT AS PROVIDED IN SUBSECTIONS 3.18.2 THROUGH 3.18.3 BELOW, IN THE EVENT THAT AN INDEMNIFIED PARTY ARE FOUND, BY FINAL JUDGMENT OR ARBITRATION AWARD, TO BE NEGLIGENT OR AT FAULT IN WHOLE OR IN PART, THE INDEMNITY AND HOLD HARMLESS OBLIGATION OF THE CONTRACTOR WITH REGARD TO ATTORNEY'S FEES AND LITIGATION OR ARBITRATION COSTS AND EXPENSES INCURRED BY AN INDEMNIFIED PARTY IN DEFENSE OF SUCH CLAIM SHALL BE REDUCED BY THE PERCENTAGE OF NEGLIGENCE OR FAULT OF THE INDEMNIFIED PARTY AND/OR THEIR DESIGN PROFESSIONALS, CONSULTANTS, OR SEPARATE CONTRACTORS (OTHER THAN THE CONTRACTOR AND THE SUBCONTRACTOR PARTIES).

§ 3.18.2 Broad Form Indemnity for Employee, On-The-Job Bodily Injury Claims:
WITHOUT LIMITING THE FOREGOING, TO THE FULLEST EXTENT PERMITTED BY LAW, THE CONTRACTOR HEREBY INDEMNIFIES, DEFENDS, AND HOLDS HARMLESS THE OWNER AND THE OTHER INDEMNIFIED PARTIES FROM AND AGAINST ALL CLAIMS, DAMAGES, JUDGMENTS, AWARDS, FINES, LOSSES AND EXPENSES, INCLUDING BUT NOT LIMITED TO REASONABLE ATTORNEY'S FEES AND LITIGATION OR ARBITRATION COSTS AND EXPENSES INCURRED BY OWNER AND/OR THE OTHER INDEMNIFIED PARTIES HEREUNDER, IN CONNECTION WITH SUCH ACTIONS AGAINST OWNER AND/OR AN INDEMNIFIED PARTY FOR THE BODILY INJURY OR DEATH AT THE PROJECT SITE OF AN EMPLOYEE OF THE CONTRACTOR OR ITS SUBCONTRACTOR PARTIES OF ANY TIER, OR ANYONE DIRECTLY OR INDIRECTLY EMPLOYED BY THEM, BROUGHT BY SUCH INJURED EMPLOYEE, SURVIVORS, STATUTORY BENEFICIARIES, ASSIGNEES, OR THE EMPLOYEE'S WORKERS COMPENSATION INSURANCE CARRIER (HEREINAFTER REFERRED TO AS AN "EMPLOYEE INJURY CLAIM"),

AIA Document A201 – 2017. Copyright © 1911, 1915, 1918, 1925, 1937, 1951, 1958, 1961, 1963, 1966, 1970, 1976, 1987, 1997, 2007 and 2017. All rights reserved. User Notes: (1950897523)

EVEN TO THE EXTENT OF THE NEGLIGENCE OR FAULT OF THE OWNER OR THE INDEMNIFIED PARTIES.

§ 3.18.3 Broad Form Obligation to Defend Employee Injury Claims upon Owner's Demand.
IN ADDITION TO AND NOTWITHSTANDING THE FOREGOING, UPON TIMELY WRITTEN NOTICE, OWNER MAY, IN ITS SOLE DISCRETION, REQUIRE CONTRACTOR TO DEFEND THE OWNER AND THE OTHER INDEMNIFIED PARTIES IN CONNECTION WITH ANY ACTION (WHETHER IN LITIGATION OR ARBITRATION) ASSERTING AN "EMPLOYEE INJURY CLAIM" TO THE FULLEST EXTENT ALLOWED BY LAW, CONTRACTOR'S OBLIGATION TO DEFEND OWNER OR ANY OTHER INDEMNIFIED PARTY IN AN ACTION ASSERTING AN EMPLOYEE INJURY CLAIM SHALL ARISE REGARDLESS OF THE ALLEGED NEGLIGENCE OR FAULT OF THE OWNER OR SUCH OTHER INDEMNIFIED PARTY FOR WHOM CONTRACTOR IS OBLIGATED TO DEFEND. IN THE EVENT SUCH DEFENSE HAS BEEN TENDERED TO CONTRACTOR AND CONTRACTOR HAS REFUSED OR FAILED TO DEFEND SUCH CLAIM, CONTRACTOR SHALL BE LIABLE AND SHALL REIMBURSE OWNER AND SUCH OTHER INDEMNIFIED PARTIES FOR THEIR ATTORNEY'S FEES AND LITIGATION OR ARBITRATION COSTS AND EXPENSES INCURRED IN SUCH DEFENSE, REGARDLESS OF ANY FINDING OR DETERMINATION OF NEGLIGENCE OR FAULT OF THE OWNER OR SUCH OTHER INDEMNIFIED PARTIES.

§ 3.18.4 THE FOREGOING INDEMNIFICATION AND DUTY TO DEFEND SECTIONS ARE NOT LIMITED BY ANY LIMITATION ON THE AMOUNT OR TYPE OF DAMAGES, COMPENSATION, OR BENEFITS AVAILABLE UNDER ANY INSURANCE POLICY CARRIED BY THE CONTRACTOR.

THE FOREGOING INDEMNIFICATION AND DUTY TO DEFEND SECTIONS SHALL SURVIVE THE TERMINATION OF THIS AGREEMENT FOR ANY REASON AND THE COMPLETION OF ALL WORK WITHIN THE SCOPE OF THIS CONTRACT.

TO THE EXTENT ANY PORTION OF THE ABOVE INDEMNITY OBLIGATIONS MAY BE FOUND BY A COURT OF COMPETENT JURISDICTION TO BE UNENFORCEABLE, OR VOID AS AGAINST PUBLIC POLICY, OR OTHERWISE PROHIBITED BY LAW, THEN THE REMAINDER OF THE ABOVE INDEMNITY OBLIGATIONS SHALL REMAIN IN FULL FORCE AND EFFECT.

§ 3.19 MONTHLY REPORTS*
The Contractor shall perform the Work in general accordance with the most recent schedules submitted to and approved by the Owner and Architect. On or before the first day of each calendar month, the Contractor shall provide a written monthly report in PDF format to each of the Owner and the Architect on the progress of the entire Work (the "Monthly Report"), which includes a narrative noting major activities (both those in progress and those completed) during the preceding month, as well as those activities planned for the following month. An excel file of the latest progress schedule, as compared to the baseline schedule, shall be included in the report. Delays and disruptions incurred during the preceding month shall be noted in such Monthly Report, along with the Contractor's proposal for making up any lost time to ensure that the Work is satisfactorily completed within the Contract Time (as defined in Section 8.1.1). Each Monthly Report shall include a Change Order log, an updated construction schedule (electronic with hard copies in the computer application format), the progress of pending decisions with impacts on the construction schedule, a Request for Information ("RFI") log, a submittal log, project progress photos, and a log of accidents and other incidents involving the safety of persons on or about the Project site. Owner's obligation to release the progress payment for any given month shall be conditioned upon Owner's receipt of a complete and accurate Monthly Report for such previous month. On or before the first day of each calendar quarter, the Contractor shall provide the Owner with a detailed accounting ledger indicating amounts actually paid by Contractor pursuant to the previous calendar quarter's Applications for Payment and accounting for any underpayment or overpayment by Owner on the previous calendar quarter's Progress Payments (the "**Quarterly Accounting Report**"). The Contractor shall develop a system of cost control for the Work, including regular monitoring of actual costs for activities in progress and estimates for uncompleted tasks and proposed changes. The Contractor shall identify variances between actual and estimated costs and report the variances to the Owner and Architect in each Quarterly Accounting Report.

ARTICLE 4 ARCHITECT

§ 4.1 General

§ 4.1.1 The Architect is the person or entity retained by the Owner pursuant to Section 2.3.2 and identified as such in the Agreement.

§ 4.1.2 Duties, responsibilities, and limitations of authority of the Architect as set forth in the Contract Documents shall not be restricted, modified, or extended without written consent of the Owner~~, Contractor,~~ and Architect. Consent shall not be unreasonably withheld.

§ 4.2 Administration of the Contract

§ 4.2.1 The Architect will provide administration of the Contract as described in the Contract Documents ~~and will be an Owner's representative during construction~~ until the date the Architect issues the final Certificate for Payment. The Architect will have authority to act on behalf of the Owner only to the extent provided in the Contract Documents.

§ 4.2.2 The Architect will visit the site at intervals appropriate to the stage of construction, or as otherwise agreed with the Owner, to become generally familiar with the progress and quality of the portion of the Work completed, and to determine in general if the Work observed is being performed in a manner indicating that the Work, when fully completed, will be in accordance with the Contract Documents. However, the Architect will not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. The Architect will not have control over, charge of, or responsibility for the construction means, methods, techniques, sequences or procedures, or for the safety precautions and programs in connection with the Work, since these are solely the Contractor's rights and responsibilities under the Contract Documents.

§ 4.2.3 On the basis of the site visits, the Architect will keep the Owner reasonably informed about the progress and quality of the portion of the Work completed, and promptly report to the Owner (1) known deviations from the Contract Documents, (2) known deviations from the most recent construction schedule submitted by the Contractor, and (3) defects and deficiencies observed in the Work. The Architect will not be responsible for the Contractor's failure to perform the Work in accordance with the requirements of the Contract Documents. The Architect will not have control over or charge of, and will not be responsible for acts or omissions of, the Contractor, Subcontractors, or their agents or employees, or any other persons or entities performing portions of the Work.

§ 4.2.4 Communications

The Owner and Contractor shall include the Architect in all communications that relate to or affect the Architect's services or professional responsibilities. ~~The Owner shall promptly notify the Architect of the substance of any direct communications between the Owner and the Contractor otherwise relating to the Project. Communications by and with the Architect's consultants shall be through the Architect.~~ Communications by and with Subcontractors and suppliers shall be through the Contractor. Communications by and with Separate Contractors shall be through the Owner. The Contract Documents may specify other communication protocols.

§ 4.2.5 Based on the Architect's evaluations of the Contractor's Applications for Payment, the Architect will review and certify the amounts due the Contractor and will issue Certificates for Payment in such amounts.

§ 4.2.6 The Architect with the approval from the Owner has authority to reject Work that does not conform to the Contract Documents. Whenever the Architect considers it necessary or advisable and Owner agrees, the Architect or Owner will have authority to require inspection or testing of the Work in accordance with Sections 13.4.2 and 13.4.3, whether or not the Work is fabricated, installed or completed. However, neither this authority of the Architect or Owner nor a decision made in good faith either to exercise or not to exercise such authority shall give rise to a duty or responsibility of the Architect or the Owner to the Contractor, Subcontractors, suppliers, their agents or employees, or other persons or entities performing portions of the Work.

§ 4.2.7 The Architect will review and approve, or take other appropriate action upon, the Contractor's submittals such as Shop Drawings, Product Data, and Samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. The Architect's action will be taken in accordance with the submittal schedule approved by the Architect or, in the absence of an approved submittal schedule, with reasonable promptness while allowing sufficient time in the Architect's professional judgment to permit adequate review. Review of such submittals is not conducted for the purpose of determining the

accuracy and completeness of other details such as dimensions and quantities, or for substantiating instructions for installation or performance of equipment or systems, all of which remain the responsibility of the Contractor as required by the Contract Documents. The Architect's review of the Contractor's submittals shall not relieve the Contractor of the obligations under Sections 3.3, 3.5, and 3.12. The Architect's review shall not constitute approval of safety precautions or of any construction means, methods, techniques, sequences, or procedures. The Architect's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

§ 4.2.8 The Owner, or the Architect with the Owner's permission will prepare Change Orders and Construction Change Directives, and may order minor changes in the Work as provided in Section 7.4. The Architect will investigate and make determinations and recommendations regarding concealed and unknown conditions as provided in Section 3.7.4.

§ 4.2.9 The Architect will conduct inspections to determine the date or dates of Substantial Completion and the date of final completion; issue Certificates of Substantial Completion pursuant to Section 9.8; receive and forward to the Owner, for the Owner's review and records, written warranties and related documents required by the Contract and assembled by the Contractor pursuant to Section 9.10; and issue a final Certificate for Payment pursuant to Section 9.10.

§ 4.2.10 If the Owner and Architect agree, the Architect will provide one or more Project representatives to assist in carrying out the Architect's responsibilities at the site. The Owner shall notify the Contractor of any change in the duties, responsibilities and limitations of authority of the Project representatives.

§ 4.2.11 The Architect will interpret and decide matters concerning performance under, and requirements of, the Contract Documents on written request of either the Owner or Contractor. The Architect's response to such requests will be made in writing within any time limits agreed upon or otherwise with reasonable promptness.

§ 4.2.12 Interpretations and decisions of the Architect will be consistent with the intent of, and reasonably inferable from, the Contract Documents and will be in writing or in the form of drawings. When making such interpretations and decisions, the Architect will endeavor to secure faithful performance by both Owner and Contractor, will not show partiality to either, and will not be liable for results of interpretations or decisions rendered in good faith.

§ 4.2.13 The Architect's decisions on matters relating to aesthetic effect will be final if consistent with the intent expressed in the Contract Documents.

§ 4.2.14 The Architect will review and respond to requests for information about the Contract Documents. The Architect's response to such requests will be made in writing within any time limits agreed upon or otherwise with reasonable promptness. If appropriate, the Architect will prepare and issue supplemental Drawings and Specifications in response to the requests for information.

ARTICLE 5 SUBCONTRACTORS

§ 5.1 Definitions

§ 5.1.1 A Subcontractor is a person or entity who has a direct or indirect contract with the Contractor or another Subcontractor of any tier to perform a portion of the Work at the site. The term "Subcontractor" is referred to throughout the Contract Documents as if singular in number and means a Subcontractor or an authorized representative of the Subcontractor. The term "Subcontractor" does not include a Separate Contractor or the subcontractors of a Separate Contractor. A material supplier is a Subcontractor.

§ 5.1.2 A Sub-subcontractor is a ~~person or entity who has a direct or indirect contract with a~~ Subcontractor ~~to perform a portion of the Work at the site~~. The term "Sub-subcontractor" is referred to throughout the Contract Documents as if singular in number and means a Sub-subcontractor or an authorized representative of the Sub-subcontractor.

§ 5.2 Award of Subcontracts and Other Contracts for Portions of the Work

§ 5.2.1 ~~Unless otherwise stated in the Contract Documents, the Contractor, as soon as practicable after award of the Contract, shall notify the Owner and Architect of~~Contractor, in accordance with Section 9.3 of the Agreement, shall identify and select the persons or entities proposed for each ~~principal portion~~major element of the Work other than the minor work that may be included in the general conditions, including those who are to furnish materials or

equipment fabricated to a special design. Within 14 days of receipt of the information, the Architect or Owner may notify the Contractor whether the Owner or the Architect (1) has reasonable objection to any such proposed person or entity or (2) requires additional time for review. Failure of the Architect to provide notice within the 14-day period shall constitute notice of no reasonable objection.

§ 5.2.2 The Contractor shall not contract with a proposed person or entity to whom the Owner or Architect has made reasonable and timely objection. The Contractor shall not be required to contract with anyone to whom the Contractor has made reasonable objection.

§ 5.2.3 If the Owner or Architect has reasonable objection to a person or entity proposed by the Contractor, the Contractor shall propose another to whom the Owner or Architect has no reasonable objection. If the proposed but rejected Subcontractor was reasonably capable of performing the Work, the Contract Sum and Contract Time shall be increased or decreased by the difference, if any, occasioned by such change, and an appropriate Change Order shall be issued before commencement of the substitute Subcontractor's Work. However, no increase in the Contract Sum or Contract Time shall be allowed for such change unless the Contractor has acted promptly and responsively in submitting names as required.

§ 5.2.4 The Contractor shall not substitute a Subcontractor, person, or entity for one previously selected if the Owner or Architect makes reasonable objection to such substitution.

§ 5.3 Subcontractual Relations

§ 5.3.1 By appropriate written agreement, the Contractor shall require each Subcontractor, to the extent of the Work to be performed by the Subcontractor, to be bound to the Contractor by terms of the Contract Documents, and to assume toward the Contractor all the obligations and responsibilities, including the responsibility for safety of the Subcontractor's Work that the Contractor, by these Contract Documents, assumes toward the Owner and Architect. The terms and conditions of the Contract Documents shall be incorporated by reference into each subcontract agreement, included as provided below. Each subcontract agreement shall preserve and protect the rights of the Owner and Architect under the Contract Documents with respect to the Work to be performed by the Subcontractor so that subcontracting thereof will not prejudice such rights, and shall allow to the Subcontractor, unless specifically provided otherwise in the subcontract agreement, the benefit of all rights, remedies, and redress against the Contractor that the Contractor, by the Contract Documents, has against the Owner. Where appropriate, the Contractor shall require each Subcontractor to enter into similar agreements with ~~Sub-subcontractors~~its Subcontractors. The Contractor shall make available to each proposed Subcontractor, prior to the execution of the subcontract agreement, copies of the Contract Documents to which the Subcontractor will be bound, and, upon written request of the Subcontractor, identify to the Subcontractor terms and conditions of the proposed subcontract agreement that may be at variance with the Contract Documents. Subcontractors will similarly make copies of applicable portions of such documents available to their respective proposed ~~Sub-subcontractors~~Subcontractors.

§ 5.3.2 Contractor shall receive, review and take action on all requests for payment from Subcontractors and material suppliers performing work and providing materials in the construction of the Project before submitting such requests for payment to Owner or Architect, and Contractor shall pay such Subcontractors and material suppliers within 10 days after receipt of payment from Owner except only for any amounts that Contractor is entitled to retain for retention or for incomplete or unsatisfactory Work or other claims under a Subcontract or purchase order; provided that Contractor's approval of such requests for payment from Subcontractors and material suppliers shall not bind Owner nor serve as Owner's approval of such requests.

§ 5.3.3 Contractor shall furnish the Owner with copies of all executed subcontracts and with a list of all the Subcontractors and major suppliers on the Project. Each subcontract or supply agreement shall contain provisions that:

- **.1** require that the Contract forms a part of such Subcontract to the extent applicable to the Work of the Subcontractor;
- **.2** require that the Work performed pursuant to such subcontract be performed in accordance with the requirements of the Contract Documents (both express requirements and those that are reasonably inferable from the Contract Documents);
- **.3** require submission of Applications for Payment in a form reasonably approved by Owner, together with a reasonably detailed schedule of a values and other supporting documentation required by Owner;

.4 require each Subcontractor and supplier to maintain insurance coverage as provided in the subcontract or other applicable agreement and to file certificates of such coverage with Contractor;

.5 require each Subcontractor and supplier to furnish to Contractor in a timely fashion all information necessary for the preparation and submission of the Monthly Reports and Quarterly Reports required herein; and

.6 require that each Subcontractor and supplier continue to perform under its subcontract if the Contract is terminated for cause and if Owner takes an assignment of the subcontract or supply agreement and requests the Subcontractor or supplier to continue such performance.

§ 5.3.4 Contractor shall require Subcontractors of any tier and suppliers to submit a payment application schedule of values to the Owner for the Owner's approval before the Work commences. Such schedule of values must be consistent with the schedule of values required by Section 9.2 hereof and the Agreement, and must fairly estimate the percentage of the Subcontractor's, Sub-subcontractor's or supplier's work that will be completed (or materially delivered) each application date. The percentage of the total cost reflected in any tier of Subcontractors' and supplier's bid to be requested on each payment application date shall not exceed the percentage of the Work completed (or materials delivered) prior to the submission of such request for payment, less the percentage of the total cost reflected in prior applications for payment. The Contractor shall obtain the Owner's approval of such schedule of values before the Contractor submits the first Application for Payment to the Owner.

§ 5.3.5 The Owner and Architect shall not be obligated to pay or to insure the payment of any monies to subcontractors due to any non-payment to the Contractor or non-payment of subcontractors by the Contractor.

§ 5.3.6 Contractor shall require any potential subcontractor to disclose to the Contractor any ownership interest or familial relationship between the Contractor, Architect, or any Owner related party and the potential subcontractor prior to entering into a subcontract. Contractor shall report to Owner all such disclosures and the Owner shall have the right, in its sole discretion, to reject any such affiliated subcontractor.

§ 5.4 Contingent Assignment of Subcontracts

§ 5.4.1 Each subcontract agreement for a portion of the Work is assigned by the Contractor to the Owner, provided that

.1 assignment is effective only after termination of the Contract by the Owner for cause or convenience pursuant to ~~Section 14.2~~Article 14 and only for those subcontract agreements that the Owner accepts by notifying the Subcontractor and Contractor; and

.2 assignment is subject to the prior rights and obligations of the surety, if any, obligated under bond relating to the Contract~~.~~; and

.3 The Subcontractor provides bonds as required by law of prime contractors and by Owner.

When the Owner accepts the assignment of a subcontract agreement, the Owner assumes the Contractor's rights and Owner assumes those obligations under the subcontract~~.~~ that the Owner agrees in writing with Subcontractor to assume. In no event shall Owner assume any obligation for which a breach occurred prior to the assignment. In no event shall Owner be obligated to pay subcontractors amounts that Owner has already paid to Contractor or for which Owner would not have been obligated to pay Contractor.

§ 5.4.2 Upon such assignment, if the Work has been suspended for more than ~~30~~90 days, the Subcontractor's compensation shall be equitably adjusted for increases in cost resulting from the suspension.

§ 5.4.3 Upon assignment to the Owner under this Section 5.4, the Owner may further assign the subcontract to a successor contractor or other entity. ~~If the Owner assigns the subcontract to a successor contractor or other entity, the Owner shall nevertheless remain legally responsible for all of the successor contractor's obligations under the subcontract.~~

ARTICLE 6 CONSTRUCTION BY OWNER OR BY SEPARATE CONTRACTORS

§ 6.1 Owner's Right to Perform Construction and to Award Separate Contracts

§ 6.1.1 The term "Separate Contractor(s)" shall mean other contractors retained by the Owner under separate agreements. The Owner reserves the right to perform construction or operations related to the Project with the Owner's own forces, and with Separate Contractors retained under Conditions of the Contract substantially similar

AIA Document A201 – 2017. Copyright © 1911, 1915, 1918, 1925, 1937, 1951, 1958, 1961, 1963, 1966, 1970, 1976, 1987, 1997, 2007 and 2017. All rights reserved. to those of this Contract, including those provisions of the Conditions of the Contract related to insurance and waiver of subrogation.

§ 6.1.2 When separate contracts are awarded for different portions of the Project or other construction or operations on the site, the term "Contractor" in the Contract Documents in each case shall mean the Contractor who executes each separate Owner-Contractor Agreement.

§ 6.1.3 The Owner shall provide for coordination of the activities of the Owner's own forces and of each Separate Contractor with the Work of the Contractor, who shall cooperate with them. The Contractor shall participate with any Separate Contractors and the Owner in reviewing their construction schedules. The Contractor shall make any revisions to its construction schedule deemed necessary after a joint review and mutual agreement. The construction schedules shall then constitute the schedules to be used by the Contractor, Separate Contractors, and the Owner until subsequently revised.

§ 6.1.4 Unless otherwise provided in the Contract Documents, when the Owner performs construction or operations related to the Project with the Owner's own forces or with Separate Contractors, the Owner or its Separate Contractors shall have the same obligations and rights that the Contractor has under the Conditions of the Contract, including, without excluding others, those stated in Article 3, this Article 6, and Articles 10, 11, and 12.

§ 6.2 Mutual Responsibility

§ 6.2.1 The Contractor shall afford the Owner and Separate Contractors reasonable opportunity for introduction and storage of their materials and equipment and performance of their activities, and shall connect and coordinate the Contractor's construction and operations with theirs as required by the Contract Documents.

§ 6.2.2 If part of the Contractor's Work depends for proper execution or results upon construction or operations by the Owner or a Separate Contractor, the Contractor shall, prior to proceeding with that portion of the Work, promptly notify the Architect of apparent discrepancies or defects in the construction or operations by the Owner or Separate Contractor that would render it unsuitable for proper execution and results of the Contractor's Work. Failure of the Contractor to notify the Architect of apparent discrepancies or defects prior to proceeding with the Work shall constitute an acknowledgment that the Owner's or Separate Contractor's completed or partially completed construction is fit and proper to receive the Contractor's Work. The Contractor shall not be responsible for discrepancies or defects in the construction or operations by the Owner or Separate Contractor that are not apparent.

§ 6.2.3 The Contractor shall reimburse the Owner for costs the Owner incurs that are payable to a Separate Contractor because of the Contractor's delays, improperly timed activities or defective construction. The Owner shall be responsible to the Contractor for costs the Contractor incurs because of a Separate Contractor's delays, improperly timed activities, damage to the Work or defective construction.

§ 6.2.4 The Contractor shall promptly remedy damage that the Contractor wrongfully causes to completed or partially completed construction or to property of the Owner or Separate Contractor as provided in Section 10.2.5.

§ 6.2.5 The Owner and each Separate Contractor shall have the same responsibilities for cutting and patching as are described for the Contractor in Section 3.14.

§ 6.3 Owner's Right to Clean Up

If a dispute arises among the Contractor, Separate Contractors, and the Owner as to the responsibility under their respective contracts for maintaining the premises and surrounding area free from waste materials and rubbish, the Owner may clean up and ~~the Architect will~~ allocate the cost among those responsible.

ARTICLE 7 CHANGES IN THE WORK

§ 7.1 General

§ 7.1.1 Changes in the Work may be accomplished after execution of the Contract, and without invalidating the Contract, by Change Order, Construction Change Directive or order for a minor change in the Work, subject to the limitations stated in this Article 7 and elsewhere in the Contract Documents.

AIA Document A201 – 2017. Copyright © 1911, 1915, 1918, 1925, 1937, 1951, 1958, 1961, 1963, 1966, 1970, 1976, 1987, 1997, 2007 and 2017. All rights reserved. User Notes: (1950897523)

§ 7.1.2 A Change Order shall be based upon agreement among the Owner, Contractor, and Architect. A Construction Change Directive requires agreement by the Owner and Architect and may or may not be agreed to by the Contractor. An order for a minor change in the Work may be issued by the Architect ~~alone~~with written approval from the Owner.

§ 7.1.3 Changes in the Work shall be performed under applicable provisions of the Contract Documents. The Contractor shall proceed promptly with changes in the Work, unless otherwise provided in the Change Order, Construction Change Directive, or order for a minor change in the Work.

§ 7.2 Change Orders

§ 7.2.1 A Change Order is a written instrument prepared by the Architect or Owner and signed by the Owner, Contractor, and Architect stating their agreement upon all of the following:

- **.1** The change in the Work;
- **.2** The amount of the adjustment, if any, in the Contract Sum; and
- **.3** The extent of the adjustment, if any, in the Contract Time.
