§ 7.2.2.1 Disagreement on Cost of Change Order Work. If Owner and Contractor cannot agree on the cost of any Change Order Work, Contractor shall proceed with the performance of the Change Order Work if Owner issues a written Construction Change Directive. Contractor will maintain cost records with respect to the Construction Change Directive and payment with respect to such Work will be calculated in accordance with Article 7 regarding Cost of the Work to be reimbursed together with the Construction Manager's Fee attributable to the Work on a monthly basis. Pending final determination of the cost of such Construction Change Directive, properly documented amounts shall be included in Applications for Payment.

§ 7.2.2.2 Disagreement on Extension of Contract Time. If Owner and Contractor cannot agree on the extension of the Contract Time caused by any Change Order Work, or the method of determining such extension, Contractor shall proceed with the performance of the Change Order Work if Owner issues a written Construction Change Directive. In such event, the extension of the Contract Time due to such Construction Change Directive shall be referred to the Architect for a recommendation, who shall (within five (5) business days of receipt of such request for recommendation) reasonably recommend a proposed extension to the Contract Time, if any, or method of determining same. If Owner and Contractor do not in good faith agree with Architect's recommendation or Architect does not timely issue a recommendation, either party may submit the issue to mediation.

§ 7.2.2.3 Accurate Change Order Pricing Information. Contractor agrees that it is obligated to mitigate the impacts of any change order by using best efforts to secure fair and reasonable pricing and to submit accurate documentation to support any change order proposals or other contract price adjustments in accordance with the terms of the Contract with respect to pricing of Change Orders.

§ 7.2.2.4 It is understood and agreed that refinement and detailing will be accomplished from time to time with respect to the Drawings and Specifications set forth in the Contract Documents, including after establishing the GMP. Notwithstanding any other provision, Contractor shall not be entitled to an adjustment to the Cost of the Work, Construction Manager's Fee, or the date required for Substantial Completion unless (i) such refinement or detailing results in changes in the scope of the Work, quality, function, and/or intent of the Drawings and Specifications not reasonably inferable or anticipated by Contractor using reasonable judgment, industry standard practices, experience and expertise and (ii) such adjustment to the Cost of the Work, the Construction Manager's Fee, or the date required for Substantial Completion, is first approved in writing by the Owner.

§ 7.2.2.5 Written agreement on any Change Order shall constitute a final settlement on all matters related to the change in the Work that is the subject of the Change Order, including, but not limited to, all direct and indirect Costs associated with such change and any and all adjustments to the Contract Sum, the Contract Time, and/or the construction schedule.

§ 7.3 Construction Change Directives

§ 7.3.1 A Construction Change Directive is a written order prepared by the Architect and signed by the Owner and Architect, directing a change in the Work prior to agreement on adjustment, if any, in the Contract Sum or Contract Time, or both. The Owner may by Construction Change Directive, without invalidating the Contract, order changes

in the Work within the general scope of the Contract consisting of additions, deletions, or other revisions, the Contract Sum and Contract Time being adjusted accordingly.

§ 7.3.2 A Construction Change Directive shall be used in the absence of total agreement on the terms of a Change Order.

§ 7.3.3 If the Construction Change Directive provides for an adjustment to the Contract Sum, the adjustment shall be based on one of the following methods:

- **.1** Mutual acceptance of a lump sum properly itemized and supported by sufficient substantiating data to permit evaluation;
- **.2** Unit prices stated in the Contract Documents or subsequently agreed upon;
- **.3** Cost to be determined in a manner agreed upon by the parties and a mutually acceptable fixed or percentage fee; or
- **.4** As provided in Section 7.3.4.

§ 7.3.4 If the Contractor does not respond promptly or disagrees with the method for adjustment in the Contract Sum, the Architect shall determine the adjustment on the basis of reasonable expenditures and savings of those performing the Work attributable to the change, including, in case of an increase in the Contract Sum, an amount for overhead and profit as set forth in the Agreement, or if no such amount is set forth in the Agreement, a reasonable amount. In such case, and also under Section 7.3.3.3, the Contractor shall keep and present, in such form as the Architect may prescribe, an itemized accounting together with appropriate supporting data. Unless otherwise provided in the Contract Documents, costs for the purposes of this Section 7.3.4 shall be limited to the following:

- **.1** Costs of labor, including applicable payroll taxes, fringe benefits required by agreement or custom, workers' compensation insurance, and other employee costs approved by the Architect;
- **.2** Costs of materials, supplies, and equipment, including cost of transportation, whether incorporated or consumed;
- **.3** Rental costs of machinery and equipment, exclusive of hand tools, whether rented from the Contractor or others;
- **.4** Costs of premiums for all bonds and insurance, permit fees, and sales, use, or similar taxes, directly related to the change; and
- **.5** Costs of supervision and field office personnel directly attributable to the change.

§ 7.3.5 If the Contractor disagrees with the adjustment in the Contract Time, the Contractor may make a Claim in accordance with applicable provisions of Article 15.

§ 7.3.6 Upon receipt of a Construction Change Directive, the Contractor shall promptly proceed with the change in the Work involved and advise the Owner and Architect of the Contractor's agreement or disagreement with the method, if any, provided in the Construction Change Directive for determining the proposed adjustment in the Contract Sum or Contract Time.

§ 7.3.7 A Construction Change Directive signed by the Contractor indicates the Contractor's agreement therewith, including adjustment in Contract Sum and Contract Time or the method for determining them. Such agreement shall be effective immediately and shall be recorded as a Change Order.

§ 7.3.8 The amount of credit to be allowed by the Contractor to the Owner for a deletion or change that results in a net decrease in the Contract Sum shall be actual net cost as confirmed by the Architect. When both additions and credits covering related Work or substitutions are involved in a change, the allowance for overhead and profit shall be figured on the basis of net increase, if any, with respect to that change.

§ 7.3.9 Pending final determination of the total cost of a Construction Change Directive to the Owner, the Contractor may request payment for Work completed under the Construction Change Directive in Applications for Payment. The Architect will make an interim determination for purposes of monthly certification for payment for those costs and certify for payment the amount that the Architect determines, in the Architect's professional judgment, to be reasonably justified. The Architect's interim determination of cost shall adjust the Contract Sum on the same basis as a Change Order, subject to the right of either party to disagree and assert a Claim in accordance with Article 15.

§ 7.3.10 When the Owner and Contractor agree with a determination made by the Architect concerning the adjustments in the Contract Sum and Contract Time, or otherwise reach agreement upon the adjustments, such agreement shall be effective immediately and the Architect will prepare a Change Order. Change Orders may be issued for all or any part of a Construction Change Directive.

§ 7.4 Minor Changes in the Work

The Architect may order minor changes in the Work that are consistent with the intent of the Contract Documents and do not involve an adjustment in the Contract Sum or an extension of the Contract Time. The Architect's order for minor changes shall be in writing. If the Contractor believes that the proposed minor change in the Work will affect the Contract Sum or Contract Time, the Contractor shall notify the Architect and shall not proceed to implement the change in the Work. If the Contractor performs the Work set forth in the Architect's order for a minor change without prior notice to the Architect that such change will affect the Contract Sum or Contract Time, the Contractor waives any adjustment to the Contract Sum or extension of the Contract Time.

ARTICLE 8 TIME

§ 8.1 Definitions

§ 8.1.1 Unless otherwise provided, Contract Time is the period of time, including authorized adjustments, allotted in the Contract Documents for Substantial Completion of the Work.

§ 8.1.2 The date of commencement of the Work is the date established in the Agreement.

§ 8.1.3 The date of Substantial Completion is the date certified by the Architect in accordance with Section 9.8.

§ 8.1.4 The term "day" as used in the Contract Documents shall mean calendar day unless otherwise specifically defined.

§ 8.2 Progress and Completion

§ 8.2.1 Time limits stated in the Contract Documents are of the essence of the Contract. By executing the Agreement, the Contractor confirms that the Contract Time is a reasonable period for performing the Work.

§ 8.2.2 The Contractor shall not knowingly, except by agreement or instruction of the Owner in writing, commence the Work prior to the effective date of insurance required to be furnished by the Contractor and Owner.

§ 8.2.3 The Contractor shall proceed expeditiously with adequate forces and shall achieve Substantial Completion within the Contract Time.

§ 8.3 Delays and Extensions of Time

~~**§ 8.3.1** If the Contractor is delayed at any time in the commencement or progress of the Work by (1) an act or neglect of the Owner or Architect, of an employee of either, or of a Separate Contractor; (2) by changes ordered in the Work; (3) by labor disputes, fire, unusual delay in deliveries, unavoidable casualties, adverse weather conditions documented in accordance with Section 15.1.6.2, or other causes beyond the Contractor's control; (4) by delay authorized by the Owner pending mediation and binding dispute resolution; or (5) by other causes that the Contractor asserts, and the Architect determines, justify delay, then the Contract Time shall be extended for such reasonable time as the Architect may determine.~~

§ 8.3.1 The Contractor acknowledges and agrees that adjustments in the Contract Time will not be permitted for Inexcusable Delays. The Contractor acknowledges and agrees that adjustments in the Contract Time will be permitted for Excusable Delays, but only to the extent (a) such delay (i) is not caused by the Contractor, (ii) could not be limited or avoided by the Contractor's timely notice to the Owner of the delay or reasonable likelihood that a delay will occur, which notice in any event must be provided within five (5) business days after the occurrence of such event, or (iii) is of a duration not less than one (1) day, and (b) the Contractor demonstrates that it has used its best efforts to minimize the consequences of any such delay. In no event shall an extension of the Contract Time be granted unless the activity for which an extension is requested is on the critical path of the most current revision of the schedule that was accepted by the Owner prior to the occurrence of the event for which the extension is requested; provided, however, an extension of the Contract Time may be granted if the activity for which an extension is requested is not on the critical path of the most current revision of the schedule, but the delay causes the activity to fall on the critical path and there is no reasonable alternative to schedule such activity off the critical path.

§ 8.3.2 Claims relating to time shall be made in accordance with applicable provisions of Article 15.

~~**§ 8.3.3** This Section 8.3 does not preclude recovery of damages for delay by either party under other provisions of the Contract Documents.~~

§ 8.3.3 "Excusable Delay" shall mean a delay which is caused by (i) a change in the Work pursuant to a Change Order executed in accordance with the Contract Documents including Change Orders due to unforeseen conditions in accordance with the General Conditions, (ii) a delay caused by Owner, or (iii) a "force majeure event" (defined below). The term "force majeure event" shall refer to a delay in the performance of the Work caused by an event beyond the Contractor's reasonable control or which the Contractor could not have reasonably anticipated and avoided, including Abnormal Weather Conditions as defined in Article 15, unavoidable casualties, strikes, acts of God, moratoriums, or other abnormal governmental restrictions, war, fire or other casualty. Contractor must notify Owner within the time requirements of Section 15.1.3 of the General Conditions of any Claim for Excusable Delay hereunder and must include that Claim in the applicable Monthly Report otherwise Contractor waives that Claim.

§ 8.3.4 "Inexcusable Delay" shall mean a delay in any stage of the Progress Schedule caused by an event other than an Excusable Delay. In the event of Inexcusable Delay, Owner may direct that the Work be accelerated by means of overtime, additional crews or restructuring of the Work until such time as the Work has progressed so that it complies with the stage of completion required by the Progress Schedule. Contractor shall promptly provide a plan including a recommendation for the most effective and economical acceleration (a "Recovery Plan").

§ 8.3.5 Acceleration Plan. In the event of any acceleration requested by Owner not due to Inexcusable Delay, Contractor shall promptly provide a plan including a recommendation for the most effective and economical acceleration (an "Acceleration Plan") and the costs of same. If accepted by Owner, the implementation of such an Acceleration Plan shall be as a Change Order.

ARTICLE 9 PAYMENTS AND COMPLETION

§ 9.1 Contract Sum

§ 9.1.1 The Contract Sum is stated in the Agreement and, including authorized adjustments, is the total amount payable by the Owner to the Contractor for performance of the Work under the Contract Documents.

§ 9.1.2 If unit prices are stated in the Contract Documents or subsequently agreed upon, and if quantities originally contemplated are materially changed so that application of such unit prices to the actual quantities causes substantial inequity to the Owner or Contractor, the applicable unit prices shall be equitably adjusted.

§ 9.2 Schedule of Values

§ 9.2.1 Where the Contract is based on a stipulated sum or Guaranteed Maximum Price, the Contractor ~~shall~~may submit ~~a~~proposed revisions to the schedule of values to the Architect and Owner before the first Application for Payment, allocating the entire Contract Sum to the various portions of the Work. The schedule of values shall be prepared in the form, and supported by the data to substantiate its accuracy, required by the Architect or Owner. This schedule, ~~unless objected to~~if approved in writing by the ~~Architect~~Owner, shall be used as a basis for reviewing the Contractor's Applications for Payment. Any changes to the schedule of values shall be submitted to the Architect and Owner and supported by such data to substantiate its accuracy as the Architect or Owner may require, and ~~unless objected to by the Architect~~if approved in writing by Owner, shall be used as a basis for reviewing the Contractor's subsequent Applications for Payment.

§ 9.2.2 The Contractor and each Subcontractor shall prepare a payment breakdown for the Work for which each is responsible in such detail as required by the Owner. This breakdown shall include a description of the Work with assigned dollar value for the miscellaneous phases and/or items of Work. Once accepted by the Owner, all payment requests shall include this information together with the percent of the Work completed to date, the value of the Work completed to date, the percent of the previous amount billed, the previous amount billed, and the current percent completed. Any trade breakdown which fails to include sufficient detail, is unbalanced, or exhibits "front-loading" of the value of the Work shall be rejected. The Owner shall review each such payment breakdown and shall approve or disapprove such breakdown. If a breakdown has been initially approved and subsequently used, but later found improper for any reason, sufficient funds shall be withheld from future Applications for Payment to ensure an adequate reserve (exclusive of normal retainage) to complete the Work.

§ 9.3 Applications for Payment

§ 9.3.1 ~~At least ten days before the date established for each progress payment, the~~The Contractor shall submit monthly Applications for Payment to the Architect ~~an itemized~~for approval in accordance with this Section . The Application for Payment shall be itemized and prepared in accordance with the schedule of values~~, if~~ required under Section 9.2~~,~~ for completed portions of the Work. The application shall be notarized, if required, and supported by all data substantiating the Contractor's right to payment that the Owner or Architect require, such as copies of requisitions, and releases and waivers of liens from Subcontractors and suppliers, and shall reflect retainage if provided for in the Contract Documents.

.1 One week prior to the monthly OAC meeting, the Contractor shall prepare in accordance with the approved schedule of values, a preliminary draft of the Application for Payment (hereinafter referred to as a "**Pencil Draw**") for review with the Owner and Architect at the OAC meeting. Each line item will be reviewed and either accepted or noted for changes. The Owner may withhold approval for charges as provided herein. If Owner and Architect determine no revisions to the Pencil Draw are needed, Sections 9.3.1.2 and 9.3.1.3 below will not apply for that month.

.2 The Contractor shall revise the Pencil Draw in accordance with any bona fide dispute about the Work, objection or recommendation of the Owner or the Architect that is consistent with the requirements of the Contract Documents. Such revised Pencil Draw shall be re-submitted by the Contractor to the Owner and Architect.

.3 A second meeting will be held with the Owner, Architect, and Construction Manager to review the revised Pencil Draw. If acceptable, the Architect will recommend approval to the Owner. If changes need to occur, the Architect will work with the Construction Manager to get all changes made as soon as possible for acceptance.

.4 Contractor shall submit in accordance with Section 9.3.1, along with all documentation required under this Article and Article 11 of the Agreement, its Application for Payment based on the Pencil Draw, as may have been revised under Sections 9.3.1.2 and 9.3.1.3, for Architect's certification ("Certificate for Payment") under Section 9.4.1. Architect's approved Certificate for Payment shall be considered the "invoice" under Chapter 2251 of the Texas Government Code.

5. Contractor agrees that, for purposes of Texas Government Code Sections 2251.021 and 2251.042, receipt of the Application for Payment by the Architect is the Pencil Draw as provided in the above Section 9.3.1.4 and shall not be construed as receipt of an invoice by the Owner. Contractor further agrees that Owner's receipt of Architect's Certificate for Payment as provided in Section 9.4.1 below shall be construed as receipt of an invoice by the Owner, for purposes of Texas Government Code Sections 2251.021 and 2251.042

§ ~~9.3.1.1~~9.3.1.6 As provided in Section 7.3.9, such applications may include requests for payment on account of changes in the Work that have been properly authorized by Construction Change Directives, ~~or by interim determinations of the Architect,~~ but not yet included in Change Orders.

§ ~~9.3.1.2~~9.3.1.7 Applications for Payment shall not include requests for payment for portions of the Work for which the Contractor does not intend to pay a Subcontractor or supplier, unless such Work has been performed by others whom the Contractor intends to pay.

§ 9.3.2 Unless otherwise provided in the Contract Documents, payments shall be made on account of materials and equipment delivered and suitably stored at the site for subsequent incorporation in the Work. If approved in advance by the Owner, payment may similarly be made for materials and equipment suitably stored off the site at a location agreed upon in writing. Payment for materials and equipment stored on or off the site shall be conditioned upon compliance by the Contractor with procedures satisfactory to the Owner to establish the Owner's title to such materials and equipment or otherwise protect the Owner's interest, and shall include the costs of applicable insurance, storage, and transportation to the site, for such materials and equipment stored off the site.

§ 9.3.2.1 Contractor shall also comply with the following specific requirements related to stored material:

1. The aggregate cost of material stored off site shall not exceed the aggregate amount which has been approved in writing by Owner under Section 9.3.2 above; Payment shall not include any charges for overhead or profit on stored materials;
2. Title to such materials shall be vested in the Owner, as evidenced by documentation satisfactory in form and substance to the Owner and the Owner's construction lender, if any, including, without

User Notes: (1950897523)

limitation, recorded financing statements, UCC filings and UCC searches; Payments for materials or equipment stored on or off the site shall be conditioned upon submission by the Contractor of bills of sale or such other procedures satisfactory to the Owner to establish the Owner's title to such materials or equipment or otherwise protect the Owner's interest, including applicable insurance (naming the Owner as insured and naming the specific materials or equipment stored and their location) for storage and transportation to the site for those materials and equipment stored off the site. Under no circumstances will the Owner reimburse the Contractor for down payments, deposits, or other advance payments for materials or equipment until the materials or equipment are delivered to Owner's site. Failure to follow these procedures shall result in nonpayment for storage of or insurance on stored materials and equipment. Failure to follow these procedures shall also result in nonpayment of materials and equipment until said materials and equipment are incorporated into the Work.

3. With each Application for payment, the Contractor shall submit to the Owner a written list identifying each location where materials are stored off the Project site and the value of materials at each location. The Contractor shall procure insurance satisfactory to the Owner for the materials stored off the Project site in an amount not less than the total value thereof;
4. The location must be a bonded warehouse and the surety hereby consents to prior to payment for any materials stored off the Project site permitted by this section.
5. The Contractor will provide an Observation Report confirming that a Contractor has viewed and confirmed material, quantities and conditions at the stored location and that Representatives of the Owner and Owner's construction lender, if any, shall have the right to make inspections of the storage areas at any time; and
6. Such materials shall be (a) protected from diversion, destruction, theft and damage to the satisfaction of the Owner and Owner's construction lender, if any, (b) specifically marked for the use of the Project, and (c) segregated from other materials at the storage facility.

§ 9.3.3 The Contractor warrants that title to all Work covered by an Application for Payment will pass to the Owner no later than the time of payment. The Contractor further warrants that upon submittal of an Application for Payment all Work for which Certificates for Payment have been previously issued and payments received from the Owner shall, to the best of the Contractor's knowledge, information, and belief, be free and clear of liens, claims, security interests, or encumbrances, in favor of the Contractor, Subcontractors, suppliers, or other persons or entities that provided labor, materials, and equipment relating to the Work.

§ 9.4 Certificates for Payment

§ 9.4.1 The Architect will, within seven days after receipt of the Contractor's Application for Payment submitted in accordance with Section 9.3 above, either (1) issue to the Owner a Certificate for Payment in the full amount of the Application for Payment, with a copy to the Contractor; or (2) issue to the Owner a Certificate for Payment for such amount as the Architect determines is properly due, and notify the Contractor and Owner of the Architect's reasons for withholding certification in part as provided in Section 9.5.1; or (3) withhold certification of the entire Application for Payment, and notify the Contractor and Owner of the Architect's reason for withholding certification in whole as provided in Section 9.5.1.

§ 9.4.2 The issuance of a Certificate for Payment will constitute a representation by the Architect to the Owner, based on the Architect's evaluation of the Work and the data in the Application for Payment, that, to the best of the Architect's knowledge, information, and belief, the Work has progressed to the point indicated, the quality of the Work is in accordance with the Contract Documents, and that the Contractor is entitled to payment in the amount certified. The foregoing representations are subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to results of subsequent tests and inspections, to correction of minor deviations from the Contract Documents prior to completion, and to specific qualifications expressed by the Architect. However, the issuance of a Certificate for Payment will not be a representation that the Architect has (1) made exhaustive or continuous on-site inspections to check the quality or quantity of the Work; (2) reviewed construction means, methods, techniques, sequences, or procedures; (3) reviewed copies of requisitions received from Subcontractors and suppliers and other data requested by the Owner to substantiate the Contractor's right to payment; or (4) made examination to ascertain how or for what purpose the Contractor has used money previously paid on account of the Contract Sum.

§ 9.5 Decisions to Withhold Certification

§ 9.5.1 The Architect or Owner may withhold a Certificate for Payment in whole or in part, to the extent reasonably necessary to protect the Owner, if in the Architect's or Owner's opinion the representations ~~to the Owner~~ required by Section 9.4.2 cannot be made. If the Architect is unable to certify payment in the amount of the Application, the Architect will notify the Contractor and Owner as provided in Section 9.4.1. If the Contractor and ~~Architect~~Owner cannot agree on a revised amount, the Architect or Owner will promptly issue a Certificate for Payment for the amount for which the Architect is able to make such representations to the Owner or for which the Owner agrees. The Architect or Owner may also withhold a Certificate for Payment or, because of subsequently discovered evidence, may nullify the whole or a part of a Certificate for Payment previously issued, to such extent as may be necessary in the Architect's opinion to protect the Owner from loss for which the Contractor is responsible, including loss resulting from acts and omissions described in Section 3.3.2, because of

- **.1** defective Work not remedied;
- **.2** third party claims filed or reasonable evidence indicating probable filing of such claims, unless security acceptable to the Owner is provided by the Contractor;
- **.3** failure of the Contractor to make payments properly to Subcontractors or suppliers for labor, materials or equipment;
- **.4** reasonable evidence that the Work cannot be completed for the unpaid balance of the Contract Sum;
- **.5** damage to the Owner or a Separate Contractor;
- **.6** reasonable evidence that the Work will not be completed within the Contract Time, and that the unpaid balance would not be adequate to cover actual or liquidated damages for the anticipated delay; or
- **.7** ~~repeated~~ failure to carry out the Work in accordance with the Contract Documents.

§ 9.5.2 When either party disputes the Architect's decision regarding a Certificate for Payment under Section 9.5.1, in whole or in part, that party may submit a Claim in accordance with Article 15.

§ 9.5.3 When the reasons for withholding certification are removed, certification will be made for amounts previously withheld.

§ 9.5.4 If the Architect withholds certification for payment under Section 9.5.1.3, the Owner may, at its sole option, issue joint checks to the Contractor and to any Subcontractor or supplier to whom the Contractor failed to make payment for Work properly performed or material or equipment suitably delivered. If the Owner makes payments by joint check, the Owner shall notify the Architect and the Contractor shall reflect such payment on its next Application for Payment.

§ 9.6 Progress Payments

§ 9.6.1 After the Architect has issued a Certificate for Payment, the Owner shall make payment in the manner and within the time provided in the Contract Documents, and shall so notify the Architect.

§ 9.6.2 The Contractor shall pay each Subcontractor, no later than seven days after receipt of payment from the Owner, the amount to which the Subcontractor is entitled, reflecting percentages actually retained from payments to the Contractor on account of the Subcontractor's portion of the Work. The Contractor shall, by appropriate agreement with each Subcontractor, require each Subcontractor to make payments to Sub-subcontractors in a similar manner.

§ 9.6.3 The Architect will, on request, furnish to a Subcontractor, if practicable, information regarding percentages of completion or amounts applied for by the Contractor and action taken thereon by the Architect and Owner on account of portions of the Work done by such Subcontractor.

§ 9.6.4 The Owner has the right to request written evidence from the Contractor that the Contractor has properly paid Subcontractors and suppliers amounts paid by the Owner to the Contractor for subcontracted Work. If the Contractor fails to furnish such evidence within seven days, the Owner shall have the right to contact Subcontractors and suppliers to ascertain whether they have been properly paid. Neither the Owner nor Architect shall have an obligation to pay, or to see to the payment of money to, a Subcontractor or supplier, except as may otherwise be required by law.

§ 9.6.5 The Contractor's payments to suppliers shall be treated in a manner similar to that provided in Sections 9.6.2, 9.6.3 and 9.6.4.

§ 9.6.6 A Certificate for Payment, a progress payment, or partial or entire use or occupancy of the Project by the Owner shall not constitute acceptance of Work not in accordance with the Contract Documents.

§ 9.6.7 Unless the Contractor provides the Owner with a payment bond in the full penal sum of the Contract Sum, payments received by the Contractor for Work properly performed by Subcontractors or provided by suppliers shall be held by the Contractor for those Subcontractors or suppliers who performed Work or furnished materials, or both, under contract with the Contractor for which payment was made by the Owner. Nothing contained herein shall require money to be placed in a separate account and not commingled with money of the Contractor, create any fiduciary liability or tort liability on the part of the Contractor for breach of trust, or entitle any person or entity to an award of punitive damages against the Contractor for breach of the requirements of this provision.

§ 9.6.8 Provided the Owner has fulfilled its payment obligations under the Contract Documents, the Contractor shall defend and indemnify the Owner from all loss, liability, damage or expense, including reasonable attorney's fees and litigation expenses, arising out of any lien claim or other claim for payment by any Subcontractor or supplier of any tier. Upon receipt of notice of a lien claim or other claim for payment, the Owner shall notify the Contractor. If approved by the applicable court, when required, the Contractor may substitute a surety bond for the property against which the lien or other claim for payment has been asserted.

§ 9.7 Failure of Payment

~~If~~**§ 9.7.1** Subject to Article 11 of the Agreement and pursuant to Texas Government Code Section 2251.051, if the Architect does not timely issue a Certificate for Payment, ~~through no fault of the Contractor, within seven days after receipt of the Contractor's Application for Payment,~~ or if the Owner does not pay the Contractor within seven days after the date established in the Contract Documents, the amount certified by the Architect for payment, subject to Owner's right to withhold payment as set out in Section 9.5.1 above, or awarded by binding dispute resolution, then the Contractor may~~, upon seven additional days'~~ give written notice to the Owner and Architect, and Owner shall have fourteen (14) business days after receipt of such notice to provide or obtain a Certificate for Payment. If Owner fails to provide or obtain the Certificate for Payment, Contractor may stop the Work until payment of the amount owing has been received. The Contract Time shall be extended appropriately and the Contract Sum shall be increased by the amount of the Contractor's reasonable costs of shutdown, delay and start-up, verified with receipts or other documentation reasonably acceptable to Owner, plus interest as provided for in the Contract Documents.

§ 9.7.2 If the Owner is entitled to reimbursement or payment from the Contractor under or pursuant to the Contract Documents, such payment shall be made promptly upon demand by the Owner. Notwithstanding anything contained in the Contract Documents to the contrary, if the Contractor fails to promptly make any payment due the Owner, or the Owner incurs any costs and expenses to cure any default of the Contractor or to correct defective Work, the Owner shall have an absolute right to offset such amount against the Contract Sum and may, in the Owner's sole discretion, elect either to: (1) deduct an amount equal to that which the Owner is entitled from any payment then or thereafter due the Contractor from the Owner, or (2) issue a written notice to the Contractor reducing the Contract Sum by an amount equal to that which the Owner is entitled.

§ 9.8 Substantial Completion

§ 9.8.1 Substantial Completion ~~is the stage in the progress of the Work when the Work or designated portion thereof is sufficiently complete in accordance with the Contract Documents so that the Owner can occupy or utilize the Work for its intended use.~~has the definition provided in the Agreement.

§ 9.8.2 When the Contractor considers that the Work, or a portion thereof which the Owner agrees to accept separately, is substantially complete, the Contractor shall prepare and submit to the Architect or Owner a comprehensive list of items to be completed or corrected prior to final payment. Failure to include an item on such list does not alter the responsibility of the Contractor to complete all Work in accordance with the Contract Documents.

§ 9.8.3 Upon receipt of the Contractor's list, the Architect and/or Owner will make an inspection to determine whether the Work or designated portion thereof is substantially complete. If the ~~Architect's~~ inspection discloses any item, whether or not included on the Contractor's list, which is not sufficiently complete in accordance with the

Contract Documents so that the Owner can occupy or utilize the Work or designated portion thereof for its intended use, the Contractor shall, before issuance of the Certificate of Substantial Completion, complete or correct such item upon notification by the Architect or Owner. In such case, the Contractor shall then submit a request for another inspection by the Architect or Owner to determine Substantial Completion.

§ 9.8.4 When the Work or designated portion thereof is substantially complete, the Architect will prepare a Certificate of Substantial Completion that shall establish the date of Substantial Completion; establish responsibilities of the Owner and Contractor for security, maintenance, heat, utilities, damage to the Work and insurance; and fix the time within which the Contractor shall finish all items on the list accompanying the Certificate. Warranties required by the Contract Documents shall commence on the date of Substantial Completion of the Work or designated portion thereof unless otherwise provided in the Certificate of Substantial Completion.

§ 9.8.5 The Certificate of Substantial Completion shall be submitted to the Owner and Contractor for their written acceptance of responsibilities assigned to them in the Certificate. Upon such acceptance, and consent of surety if any, the Owner shall make payment of retainage applying to the Work or designated portion thereof. Such payment shall be adjusted for Work that is incomplete or not in accordance with the requirements of the Contract Documents.

§ 9.9 Partial Occupancy or Use

§ 9.9.1 The Owner may occupy or use any completed or partially completed portion of the Work at any stage when such portion is designated by separate agreement with the Contractor, provided such occupancy or use is consented to by the insurer and authorized by public authorities having jurisdiction over the Project. Such partial occupancy or use may commence whether or not the portion is substantially complete, provided the Owner and Contractor have accepted in writing the responsibilities assigned to each of them for payments, retainage, if any, security, maintenance, heat, utilities, damage to the Work and insurance, and have agreed in writing concerning the period for correction of the Work and commencement of warranties required by the Contract Documents. When the Contractor considers a portion substantially complete, the Contractor shall prepare and submit a list to the Architect and Owner as provided under Section 9.8.2. Consent of the Contractor to partial occupancy or use shall not be unreasonably withheld. The stage of the progress of the Work shall be determined by written agreement between the Owner and Contractor ~~or, if no agreement is reached, by decision of the Architect~~.

§ 9.9.2 Immediately prior to such partial occupancy or use, the Owner, Contractor, and Architect shall jointly inspect the area to be occupied or portion of the Work to be used in order to determine and record the condition of the Work.

§ 9.9.3 Unless otherwise agreed upon, partial occupancy or use of a portion or portions of the Work shall not constitute acceptance of Work not complying with the requirements of the Contract Documents.

§ 9.10 Final Completion and Final Payment

§ 9.10.1 Upon receipt of the Contractor's notice that the Work is ready for final inspection and acceptance and upon receipt of a final Application for Payment and other documents required for final payment, the Architect and/or Owner will promptly make such inspection. When the Architect ~~finds~~and Owner find the Work acceptable under the Contract Documents and the Contract fully performed, the Architect will promptly issue a final Certificate for Payment stating that to the best of the Architect's knowledge, information and belief, and on the basis of the Architect's on-site visits and inspections, the Work has been completed in accordance with the Contract Documents and that the entire balance found to be due the Contractor and noted in the final Certificate is due and payable. The Architect's final Certificate for Payment will constitute a further representation that conditions listed in Section 9.10.2 as precedent to the Contractor's being entitled to final payment have been fulfilled.

§ 9.10.2 Neither final payment nor any remaining retained percentage shall become due until the Contractor submits to the Architect (1) an affidavit that payrolls, bills for materials and equipment, and other indebtedness connected with the Work for which the Owner or the Owner's property might be responsible or encumbered (less amounts withheld by Owner) have been paid or otherwise satisfied, (2) a certificate evidencing that insurance required by the Contract Documents to remain in force after final payment is currently in effect, (3) a written statement that the Contractor knows of no reason that the insurance will not be renewable to cover the period required by the Contract Documents, (4) consent of surety, if any, to final payment, (5) documentation of any special warranties, such as manufacturers' warranties or specific Subcontractor warranties, ~~and~~ (6) if required by the Owner, other data establishing payment or satisfaction of obligations, such as receipts and releases and waivers of liens, claims,

User Notes: (1950897523)

security interests, or encumbrances arising out of the Contract, to the extent and in such form as may be designated by the Owner, (7) a certificate from the Contractor that it has performed all of its obligations under the Contract, (8) a final, unconditional certificate of occupancy and all construction-related approvals, licenses and requirements for the Project enabling it to be occupied and operated for its intended use, unless such certificates have not been issued solely as a result of the acts or omissions of the Owner, (9) certification that all of the requirements for Substantial Completion under Section 9.8 have been met and all Work, including all punch list items, has been fully and finally completed, (10) a complete list of all Subcontractors and principal material and equipment suppliers, including addresses, telephone numbers, and names of individuals to contact who are familiar with the Project, (11) digital files of all maintenance and operating manuals, (12) digital files of all written guarantees and warranties in the form prescribed in the Contract Documents, (13) one digital file copy of all as-built drawings and other documentation required under the Contract Documents, and (14) all other documentation required by the Contract Documents, including required certifications. If a Subcontractor refuses to furnish a release or waiver required by the Owner, the Contractor may furnish a bond satisfactory to the Owner to indemnify the Owner against such lien, claim, security interest, or encumbrance. If a lien, claim, security interest, or encumbrance remains unsatisfied after payments are made, the Contractor shall refund to the Owner all money that the Owner may be compelled to pay in discharging the lien, claim, security interest, or encumbrance, including all costs and reasonable attorneys' fees.

§ 9.10.3 If, after Substantial Completion of the Work, final completion thereof is materially delayed through no fault of the Contractor or by issuance of Change Orders affecting final completion, and the Architect so confirms, the Owner shall, upon application by the Contractor and certification by the Architect, and without terminating the Contract, make payment of the balance due for that portion of the Work fully completed, corrected, and accepted. If the remaining balance for Work not fully completed or corrected is less than retainage stipulated in the Contract Documents, and if bonds have been furnished, the written consent of the surety to payment of the balance due for that portion of the Work fully completed and accepted shall be submitted by the Contractor to the Architect prior to certification of such payment. Such payment shall be made under terms and conditions governing final payment, except that it shall not constitute a waiver of Claims.

~~**§ 9.10.4** The making of final payment shall constitute a waiver of Claims by the Owner except those arising from~~

- ~~**.1** liens, Claims, security interests, or encumbrances arising out of the Contract and unsettled;~~
- ~~**.2** failure of the Work to comply with the requirements of the Contract Documents;~~
- ~~**.3** terms of special warranties required by the Contract Documents; or~~
- ~~**.4** audits performed by the Owner, if permitted by the Contract Documents, after final payment.~~

§ ~~9.10.5~~9.10.4 Acceptance of final payment by the Contractor, a Subcontractor, or a supplier, shall constitute a waiver of claims by that payee except those previously made in writing and identified by that payee as unsettled at the time of final Application for Payment.

§ 9.10.5 Intentionally deleted.

ARTICLE 10 PROTECTION OF PERSONS AND PROPERTY

§ 10.1 Safety Precautions and Programs

The Contractor shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the performance of the Contract.

§ 10.2 Safety of Persons and Property

§ 10.2.1 The Contractor shall take reasonable precautions for safety of, and shall provide reasonable protection to prevent damage, injury, or loss to

- **.1** employees on the Work and other persons who may be affected thereby;
- **.2** the Work and materials and equipment to be incorporated therein, whether in storage on or off the site, under care, custody, or control of the Contractor, a Subcontractor, or a Sub-subcontractor; and
- **.3** other property at the site or adjacent thereto, such as trees, shrubs, lawns, walks, pavements, roadways, structures, and utilities not designated for removal, relocation, or replacement in the course of construction.

§ 10.2.2 The Contractor shall comply with, and give notices required by applicable laws, statutes, ordinances, codes, rules and regulations, and lawful orders of public authorities, bearing on safety of persons or property or their protection from damage, injury, or loss.

§ 10.2.3 The Contractor shall implement, erect, and maintain, as required by existing conditions and performance of the Contract, reasonable safeguards for safety and protection, including posting danger signs and other warnings against hazards; promulgating safety regulations; and notifying the owners and users of adjacent sites and utilities of the safeguards.

§ 10.2.4 When use or storage of explosives or other hazardous materials or equipment, or unusual methods are necessary for execution of the Work, the Contractor shall exercise utmost care and carry on such activities under supervision of properly qualified personnel.

§ 10.2.5 The Contractor shall promptly remedy damage and loss (other than damage or loss insured under property insurance required by the Contract Documents) to property referred to in Sections 10.2.1.2 and 10.2.1.3 caused in whole or in part by the Contractor, a Subcontractor, a Sub-subcontractor, or anyone directly or indirectly employed by any of them, or by anyone for whose acts they may be liable and for which the Contractor is responsible under Sections 10.2.1.2 and 10.2.1.3. The Contractor may make a Claim for the cost to remedy the damage or loss to the extent such damage or loss is attributable to negligent acts or omissions of the Owner or ~~Architect or anyone directly or indirectly employed by either of them, or~~ by anyone for whose acts ~~either of them~~Owner may be liable, and not attributable to the fault or negligence of the Contractor. The foregoing obligations of the Contractor are in addition to the Contractor's obligations under Section 3.18.

§ 10.2.6 The Contractor shall designate a responsible member of the Contractor's organization at the site whose duty shall be the prevention of accidents. This person shall be the Contractor's superintendent unless otherwise designated by the Contractor in writing to the Owner and Architect.

§ 10.2.7 The Contractor shall not permit any part of the construction or site to be loaded so as to cause damage or create an unsafe condition.

§ 10.2.8 Injury or Damage to Person or Property
If either party suffers injury or damage to person or property because of an act or omission of the other party, or of others for whose acts such party is legally responsible, notice of the injury or damage, whether or not insured, shall be given to the other party within a reasonable time not exceeding 21 days after discovery. The notice shall provide sufficient detail to enable the other party to investigate the matter.

§ 10.2.9 The Contractor shall be solely responsible for the security of the Work, the Site and all materials stored at the Site or at any other location by Contractor with the consent of Owner, and shall maintain adequate insurance for same. Contractor shall be responsible for all losses and expenses incurred by reason of failure to maintain reasonable security at the Site or at the location where materials are stored, and such expenses incurred shall not increase the Contract Sum. Contractor shall comply with all reasonable security requirements of Owner.

§ 10.2.10 The Contractor shall be solely responsible for any fines, penalties or charges by any regulatory body by reason of any violation of safety or health regulations in the performance of the Work.

§ 10.2.11 The Contractor shall employ such practices as are necessary to protect all completed and partially completed Work and all existing improvements located on the Site from loss and damage, including theft or damage by weather and, if necessary, shall provide suitable shelter therefor. Contractor shall correct at its own expense any damage or disfigurement to the Work or property (whether or not located on the Site) resulting from any act or omission of Contractor, any Subcontractor, or any other person or entity for whom any of them is legally responsible.

§ 10.3 Hazardous Materials and Substances
§ 10.3.1 The Contractor is responsible for compliance with any requirements included in the Contract Documents regarding hazardous materials or substances. If the Contractor encounters a hazardous material or substance not addressed in the Contract Documents and if reasonable precautions will be inadequate to prevent foreseeable bodily injury or death to persons resulting from a material or substance, including but not limited to asbestos or polychlorinated biphenyl (PCB), encountered on the site by the Contractor, the Contractor shall, upon recognizing the condition, immediately stop Work in the affected area and notify the Owner and Architect of the condition.

§ 10.3.2 Upon receipt of the Contractor's notice, the Owner shall obtain the services of a licensed laboratory to verify the presence or absence of the material or substance reported by the Contractor and, in the event such material or substance is found to be present, to cause it to be rendered harmless. Unless otherwise required by the Contract Documents, the Owner shall furnish in writing to the Contractor and Architect the names and qualifications of persons or entities who are to perform tests verifying the presence or absence of the material or substance or who are to perform the task of removal or safe containment of the material or substance. The Contractor and the Architect will promptly reply to the Owner in writing stating whether or not either has reasonable objection to the persons or entities proposed by the Owner. If either the Contractor or Architect has an objection to a person or entity proposed by the Owner, the Owner shall propose another to whom the Contractor and the Architect have no reasonable objection. When the material or substance has been rendered harmless, Work in the affected area shall resume upon written agreement of the Owner and Contractor. By Change Order, the Contract Time shall be extended appropriately and the Contract Sum shall be increased by the amount of the Contractor's reasonable additional costs of shutdown, delay, and start-up.

§ 10.3.3 To the fullest extent permitted by law, the Owner shall indemnify ~~and hold harmless~~employees of the Contractor~~,~~ or Subcontractors~~, Architect, Architect's consultants, and agents and employees of any of them from and against claims, damages, losses, and expenses, including but not limited to attorneys' fees,~~ for reasonable and necessary medical expenses arising out of or resulting from performance of the Work in the affected area if in fact the material or substance ~~presents~~caused the ~~risk of~~ bodily injury or death as described in Section 10.3.1 and has not been rendered harmless, provided that ~~such claim, damage, loss, or~~ expense is attributable to bodily injury, sickness, disease or death~~, or to injury to or destruction of tangible property (other than the Work itself)~~, except to the extent that such damage, loss, or expense is due to the fault or negligence of the Contractor, Subcontractor, or the party seeking indemnity.

§ 10.3.4 The Owner shall not be responsible under this Section 10.3 for hazardous materials or substances the Contractor brings to the site unless such materials or substances are required by the Contract Documents. The Owner shall be responsible for hazardous materials or substances required by the Contract Documents, except to the extent of the Contractor's fault or negligence in the use and handling of such materials or substances.

§ 10.3.5 The Contractor shall reimburse the Owner for the cost and expense the Owner incurs (1) for remediation of hazardous materials or substances the Contractor brings to the site and negligently handles, or (2) where the Contractor fails to perform its obligations under Section 10.3.1, except to the extent that the cost and expense are due to the Owner's fault or negligence.

§ 10.3.6 If, without negligence on the part of the Contractor, the Contractor is held liable by a government agency for the cost of remediation of a hazardous material or substance solely by reason of performing Work as required by the Contract Documents, the Owner shall reimburse the Contractor for all cost and expense thereby incurred.

§ 10.4 Emergencies

In an emergency affecting safety of persons or property, the Contractor shall act, at the Contractor's discretion, to prevent threatened damage, injury, or loss. Additional compensation or extension of time claimed by the Contractor on account of an emergency shall be determined as provided in Article 15 and Article 7.

ARTICLE 11 INSURANCE AND BONDS

§ 11.1 Contractor's Insurance and Bonds

§ 11.1.1 The Contractor shall purchase and maintain insurance of the types and limits of liability, containing the endorsements, and subject to the terms and conditions, as described in the Agreement or elsewhere in the Contract Documents. The Contractor shall purchase and maintain the required insurance from an insurance company or insurance companies lawfully authorized to issue insurance in the jurisdiction where the Project is located. The Owner, Architect, and Architect's consultants shall be named as additional insureds under the Contractor's commercial general liability policy or as otherwise described in the Contract Documents.

§ 11.1.2 The Contractor shall provide surety bonds of the types, for such penal sums, and subject to such terms and conditions as required by the Contract Documents. The Contractor shall purchase and maintain the required bonds from a company or companies with an "A-X" A.M. Best rating, listed with the US Treasury, and lawfully authorized to issue surety bonds in the jurisdiction where the Project is located. Bonds must comply with Texas Insurance Code § 3503.001 and Texas Government Code Chapter 2253 when applicable.

AIA Document A201 – 2017. Copyright © 1911, 1915, 1918, 1925, 1937, 1951, 1958, 1961, 1963, 1966, 1970, 1976, 1987, 1997, 2007 and 2017. All rights reserved. User Notes: (1950897523)

§ 11.1.3 Upon the request of any person or entity appearing to be a potential beneficiary of bonds covering payment of obligations arising under the Contract, the Contractor shall promptly furnish a copy of the bonds or shall authorize a copy to be furnished.

§ 11.1.3 The failure of Contractor or any Contractor-Related Parties to obtain and maintain the required insurance will constitute a material breach of, and default under, Contract Documents. If Contractor or any Contractor-Related Parties fail to remedy such breach within 5 days after notice from Owner, Owner may, in addition to any other remedy available to it, at the Owner's sole option, purchase such insurance, at the Contractor's expense. **The Contractor will indemnify the Owner, its officers, directors, and employees against any Claims arising from the Contractor's failure to purchase and/or maintain the insurance coverages required by the Contract.**

§ 11.1.4 Notice of Cancellation or Expiration of Contractor's Required Insurance. Within three (~~3~~30) ~~business~~ days of the date the Contractor becomes aware of an impending or actual cancellation or expiration of any insurance required by the Contract Documents, the Contractor shall provide notice to the Owner of such impending or actual cancellation or expiration. Each insurance policy obtained by Contractor shall include an indorsement requiring 30 days notice to Owner before such policy can be modified or cancelled. Upon receipt of notice from the Contractor, the Owner shall, unless the lapse in coverage arises from an act or omission of the Owner, have the right to stop the Work until the lapse in coverage has been cured by the procurement of replacement coverage by the Contractor. The furnishing of notice by the Contractor shall not relieve the Contractor of any contractual obligation to provide any required coverage.

§ 11.1.5 Property Insurance. Contractor shall purchase and maintain, in a company or companies lawfully authorized to do business in the jurisdiction in which the Project is located, property insurance written on a builder's risk "all-risk" or equivalent policy form in the amount of the initial Contract Sum, plus value of subsequent Contract Modifications and cost of materials supplied or installed by others, comprising total value for the entire Project at the site on a replacement cost basis without optional deductibles. Such property insurance shall be maintained, unless otherwise provided in the Contract Documents or otherwise agreed in writing by all persons and entities who are beneficiaries of such insurance, until final payment has been made as provided in Section 9.10 or until no person or entity other than the Owner has an insurable interest in the property required by this Section 11.3 to be covered, whichever is later. This insurance shall include interests of the Owner, the Contractor, Subcontractors and Sub-subcontractors in the Project.

§ 11.2 Owner's Insurance

§ 11.2.1 The Owner shall purchase and maintain insurance of the types and limits of liability, containing the endorsements, and subject to the terms and conditions, as described in the Agreement or elsewhere in the Contract Documents. The Owner shall purchase and maintain the required insurance from an insurance company or insurance companies lawfully authorized to issue insurance in the jurisdiction where the Project is located.

§ 11.2.2 Failure to Purchase Required Property Insurance. If the Owner fails to purchase and maintain the required property insurance, with all of the coverages and in the amounts described in the Agreement or elsewhere in the Contract Documents, the Owner shall inform the Contractor in writing prior to commencement of the Work. Upon receipt of notice from the Owner, the Contractor may delay commencement of the Work and may obtain insurance that will protect the interests of the Contractor, Subcontractors, and Sub-Subcontractors in the Work. When the failure to provide coverage has been cured or resolved, the Contract Sum and Contract Time shall be equitably adjusted. In the event the Owner fails to procure coverage, the Owner waives all rights against the Contractor, Subcontractors, and Sub-subcontractors to the extent the loss to the Owner would have been covered by the insurance to have been procured by the Owner. The cost of the insurance shall be charged to the Owner by a Change Order. If the Owner does not provide written notice, and the Contractor is damaged by the failure or neglect of the Owner to purchase or maintain the required insurance, the Owner shall reimburse the Contractor for all reasonable costs and damages attributable thereto.

§ 11.2.3 Notice of Cancellation or Expiration of Owner's Required Property Insurance. Within three (3) business days of the date the Owner becomes aware of an impending or actual cancellation or expiration of any property insurance required by the Contract Documents, the Owner shall provide notice to the Contractor of such impending or actual cancellation or expiration. Unless the lapse in coverage arises from an act or omission of the Contractor: (1) the Contractor, upon receipt of notice from the Owner, shall have the right to stop the Work until the lapse in coverage

has been cured by the procurement of replacement coverage by either the Owner or the Contractor; (2) the Contract Time and Contract Sum shall be equitably adjusted; and (3) the Owner waives all rights against the Contractor, Subcontractors, and Sub-subcontractors to the extent any loss to the Owner would have been covered by the insurance had it not expired or been cancelled. If the Contractor purchases replacement coverage, the cost of the insurance shall be charged to the Owner by an appropriate Change Order. The furnishing of notice by the Owner shall not relieve the Owner of any contractual obligation to provide required insurance.

§ 11.3 Waivers of Subrogation

§ 11.3.1 The Owner and Contractor waive all rights against (1) each other and any of their subcontractors, sub-subcontractors, agents, and employees, each of the other; (2) the Architect and Architect's consultants; and (3) Separate Contractors, if any, and any of their subcontractors, sub-subcontractors, agents, and employees, for damages caused by fire, or other causes of loss, to the extent those losses are covered by property insurance required by the Agreement or other property insurance applicable to the Project, except such rights as they have to proceeds of such insurance. The Owner or Contractor, as appropriate, shall require similar written waivers in favor of the individuals and entities identified above from the Architect, Architect's consultants, Separate Contractors, subcontractors, and sub-subcontractors. The policies of insurance purchased and maintained by each person or entity agreeing to waive claims pursuant to this section 11.3.1 shall not prohibit this waiver of subrogation. This waiver of subrogation shall be effective as to a person or entity (1) even though that person or entity would otherwise have a duty of indemnification, contractual or otherwise, (2) even though that person or entity did not pay the insurance premium directly or indirectly, or (3) whether or not the person or entity had an insurable interest in the damaged property.

§ 11.3.2 If during the Project construction period the Owner insures properties, real or personal or both, at or adjacent to the site by property insurance under policies separate from those insuring the Project, or if after final payment property insurance is to be provided on the completed Project through a policy or policies other than those insuring the Project during the construction period, to the extent permissible by such policies, the Owner waives all rights in accordance with the terms of Section 11.3.1 for damages caused by fire or other causes of loss covered by this separate property insurance.

§ 11.4 Loss of Use, Business Interruption, and Delay in Completion Insurance

The Owner, at the Owner's option, may purchase and maintain insurance that will protect the Owner against loss of use of the Owner's property, or the inability to conduct normal operations, due to fire or other causes of loss. The Owner waives all rights of action against the Contractor and Architect for loss of use of the Owner's property, due to fire or other hazards however caused.

§11.5 Adjustment and Settlement of Insured Loss

§ 11.5.1 A loss insured under the property insurance required by the Agreement shall be adjusted by the Owner as fiduciary and made payable to the Owner as fiduciary for the insureds, as their interests may appear, subject to requirements of any applicable mortgagee clause and of Section 11.5.2. The Owner shall pay the Architect and Contractor their just shares of insurance proceeds received by the Owner, and by appropriate agreements the Architect and Contractor shall make payments to their consultants and Subcontractors in similar manner.

§ 11.5.2 Prior to settlement of an insured loss, the Owner shall notify the Contractor of the terms of the proposed settlement as well as the proposed allocation of the insurance proceeds. The Contractor shall have 14 days from receipt of notice to object to the proposed settlement or allocation of the proceeds. If the Contractor does not object, the Owner shall settle the loss and the Contractor shall be bound by the settlement and allocation. Upon receipt, the Owner shall deposit the insurance proceeds in a separate account and make the appropriate distributions. Thereafter, if no other agreement is made or the Owner does not terminate the Contract for convenience, the Owner and Contractor shall execute a Change Order for reconstruction of the damaged or destroyed Work in the amount allocated for that purpose. If the Contractor timely objects to either the terms of the proposed settlement or the allocation of the proceeds, the Owner may proceed to settle the insured loss, and any dispute between the Owner and Contractor arising out of the settlement or allocation of the proceeds shall be resolved pursuant to Article 15. Pending resolution of any dispute, the Owner may issue a Construction Change Directive for the reconstruction of the damaged or destroyed Work.

ARTICLE 12 UNCOVERING AND CORRECTION OF WORK

§ 12.1 Uncovering of Work

§ 12.1.1 If a portion of the Work is covered contrary to the Architect's request or to requirements specifically expressed in the Contract Documents, it must, if requested in writing by the Architect or Owner, be uncovered for the Architect's or Owner's examination and be replaced at the Contractor's expense without change in the Contract Time.

§ 12.1.2 If a portion of the Work has been covered that the Architect has not specifically requested to examine prior to its being covered, the Architect may request to see such Work and it shall be uncovered by the Contractor if Owner agrees in writing. If such Work is in accordance with the Contract Documents, the Contractor shall be entitled to an equitable adjustment to the Contract Sum and Contract Time as may be appropriate. If such Work is not in accordance with the Contract Documents, the costs of uncovering the Work, and the cost of correction, shall be at the Contractor's expense.

§ 12.2 Correction of Work

§ 12.2.1 Before Substantial Completion

The Contractor shall promptly correct Work rejected by the Architect or Owner for failing to conform to the requirements of the Contract Documents, discovered before Substantial Completion and whether or not fabricated, installed or completed. Costs of correcting such rejected Work, including additional testing and inspections, the cost of uncovering and replacement, and compensation for the Architect's services and expenses made necessary thereby, shall be at the Contractor's expense.

§ 12.2.2 After Substantial Completion

§ 12.2.2.1 In addition to the Contractor's obligations under Section 3.5, if, within one year after the date of Substantial Completion of the Work or designated portion thereof or after the date for commencement of warranties established under Section 9.9.1, or by terms of any applicable special warranty required by the Contract Documents, any of the Work is found to be not in accordance with the requirements of the Contract Documents, the Contractor shall correct it promptly after receipt of notice from the Owner to do so, unless the Owner has previously given the Contractor a written acceptance of such condition. The Owner shall give such notice promptly after discovery of the condition. During the one-year period for correction of Work, if the Owner fails to notify the Contractor and give the Contractor an opportunity to make the correction, the Owner waives the rights to require correction by the Contractor and to make a claim for breach of warranty. If the Contractor fails to correct nonconforming Work within a reasonable time during that period after receipt of notice from the Owner or Architect, the Owner may correct it in accordance with Section 2.5.

§ 12.2.2.2 The one-year period for correction of Work shall be extended with respect to portions of Work first performed after Substantial Completion by the period of time between Substantial Completion and the actual completion of that portion of the Work.

§ 12.2.2.3 The one-year period for correction of Work shall not be extended by corrective Work performed by the Contractor pursuant to this Section 12.2.

§ 12.2.3 The Contractor shall remove from the site portions of the Work that are not in accordance with the requirements of the Contract Documents and are neither corrected by the Contractor nor accepted by the Owner.

§ 12.2.4 The Contractor shall bear the cost of correcting destroyed or damaged construction of the Owner or Separate Contractors, whether completed or partially completed, caused by the Contractor's correction or removal of Work that is not in accordance with the requirements of the Contract Documents.

§ 12.2.5 Nothing contained in this Section 12.2 shall be construed to establish a period of limitation with respect to other obligations the Contractor has under the Contract Documents. Establishment of the one-year period for correction of Work as described in Section 12.2.2 relates only to the specific obligation of the Contractor to correct the Work, and has no relationship to the time within which the obligation to comply with the Contract Documents may be sought to be enforced, nor to the time within which proceedings may be commenced to establish the Contractor's liability with respect to the Contractor's obligations other than specifically to correct the Work.

§ 12.3 Acceptance of Nonconforming Work
If the Owner prefers to accept Work that is not in accordance with the requirements of the Contract Documents, the Owner may do so instead of requiring its removal and correction, in which case the Contract Sum will be reduced as appropriate and equitable. Such adjustment shall be effected whether or not final payment has been made.

ARTICLE 13 MISCELLANEOUS PROVISIONS

§ 13.1 Governing Law
The Contract shall be governed by the law of the place where the Project is located, excluding that jurisdiction's choice of law rules. If the parties have selected arbitration as the method of binding dispute resolution, the Federal Arbitration Act shall govern Section 15.4.

§ 13.2 Successors and Assigns
§ 13.2.1 The Owner and Contractor respectively bind themselves, their partners, successors, assigns, and legal representatives to covenants, agreements, and obligations contained in the Contract Documents. Except as provided in Section 13.2.2, neither party to the Contract shall assign the Contract as a whole without written consent of the other. If either party attempts to make an assignment without such consent, that party shall nevertheless remain legally responsible for all obligations under the Contract.

§ 13.2.2 The Owner may, without consent of the Contractor, assign the Contract to a lender providing construction financing for the Project, if the lender assumes the Owner's rights and obligations under the Contract Documents. The Contractor shall execute all consents reasonably required to facilitate the assignment.

§ 13.3 Rights and Remedies
§ 13.3.1 Duties and obligations imposed by the Contract Documents and rights and remedies available thereunder shall be in addition to and not a limitation of duties, obligations, rights, and remedies otherwise imposed or available by law.

§ 13.3.2 No action or failure to act by the Owner, Architect, or Contractor shall constitute a waiver of a right or duty afforded them under the Contract, nor shall such action or failure to act constitute approval of or acquiescence in a breach thereunder, except as may be specifically agreed upon in writing.

§ 13.4 Tests and Inspections
§ 13.4.1 Tests, inspections, and approvals of portions of the Work shall be made as required by the Contract Documents and by applicable laws, statutes, ordinances, codes, rules, and regulations or lawful orders of public authorities. Unless otherwise provided, the Contractor shall make arrangements for such tests, inspections, and approvals with an independent testing laboratory or entity acceptable to the Owner, or with the appropriate public authority, and shall bear all related costs of tests, inspections, and approvals. The Contractor shall give the Architect timely notice of when and where tests and inspections are to be made so that the Architect may be present for such procedures. The Owner shall bear costs of tests, inspections, or approvals that do not become requirements until after bids are received or negotiations concluded. The Owner shall directly arrange and pay for tests, inspections, or approvals where building codes or applicable laws or regulations so require.

§ 13.4.2 If the Architect, Owner, or public authorities having jurisdiction determine that portions of the Work require additional testing, inspection, or approval not included under Section 13.4.1, the Architect will, upon written authorization from the Owner, instruct the Contractor to make arrangements for such additional testing, inspection, or approval, by an entity acceptable to the Owner, and the Contractor shall give timely notice to the Architect of when and where tests and inspections are to be made so that the Architect may be present for such procedures. Such costs, except as provided in Section 13.4.3, shall be at the Owner's expense.

§ 13.4.3 If procedures for testing, inspection, or approval under Sections 13.4.1 and 13.4.2 reveal failure of the portions of the Work to comply with requirements established by the Contract Documents, all costs made necessary by such failure, including those of repeated procedures and compensation for the Architect's services and expenses, shall be at the Contractor's expense.

§ 13.4.4 Required certificates of testing, inspection, or approval shall, unless otherwise required by the Contract Documents, be secured by the Contractor and promptly delivered to the Architect.

User Notes: (1950897523)

§ 13.4.5 If the Architect is to observe tests, inspections, or approvals required by the Contract Documents, the Architect will do so promptly and, where practicable, at the normal place of testing.

§ 13.4.6 Tests or inspections conducted pursuant to the Contract Documents shall be made promptly to avoid unreasonable delay in the Work.

§ 13.5 Interest

Payments due and unpaid under the Contract Documents shall bear interest from the date payment is due at the rate the parties agree upon in writing or, in the absence thereof, at the legal rate prevailing from time to time at the place where the Project is located.

§ 13.7 Costs and Fees

If any action at law or in equity is necessary to enforce or interpret the terms of the Contract Documents, the prevailing party shall be entitled to reasonable attorneys' fees, expert witness fees, costs, and necessary disbursements in addition to any relief to which it may be entitled.

§ 13.12 Proprietary Interests and Confidential Information

§ 13.12.1 Neither Architect nor Contractor shall disclose any confidential information of Owner which comes into the possession of Architect or Contractor at any time during the Project, including but not limited to: pending real estate purchases, exchange, lease, or value; information related to litigation; the location and deployment of security devices; security access codes; student likenesses; student record information; employee information; or any other information deemed confidential by law.

§ 13.12.2 The parties acknowledge that, as a public entity in the State of Texas, Owner is subject to, and must comply with, the provisions of the Texas Public Information Act, Texas Government Code Section 552.001, et seq., and the Texas Open Meetings Act, Texas Government Code, Section 551.001, et seq.

ARTICLE 14 TERMINATION OR SUSPENSION OF THE CONTRACT

§ 14.1 Termination by the Contractor

§ 14.1.1 The Contractor may terminate the Contract if the Work is stopped for a period of ~~30~~90 consecutive days through no act or fault of the Contractor, a Subcontractor, a Sub-subcontractor, their agents or employees, or any other persons or entities performing portions of the Work, for any of the following reasons:

- **.1** Issuance of an order of a court or other public authority having jurisdiction that requires all Work to be stopped;
- **.2** An act of government, such as a declaration of national emergency, that requires all Work to be stopped; or
- **.3** Because the Architect has not issued a Certificate for Payment and has not notified the Contractor of the reason for withholding certification as provided in Section 9.4.1, or because the Owner has ~~not made~~without good cause failed to make payment on a Certificate for Payment within the time stated in the Contract Documents~~; or~~.
- ~~**.4** The Owner has failed to furnish to the Contractor reasonable evidence as required by Section 2.2.~~

§ 14.1.2 The Contractor may terminate the Contract if, through no act or fault of the Contractor, a Subcontractor, a Sub-subcontractor, their agents or employees, or any other persons or entities performing portions of the Work, repeated suspensions, delays, or interruptions of the entire Work by the Owner as described in Section 14.3, constitute in the aggregate more than 100 percent of the total number of days scheduled for completion, or 120 days in any 365-day period, whichever is less.

§ 14.1.3 If one of the reasons described in Section 14.1.1 or 14.1.2 exists, the Contractor may, upon ~~seven~~sixty days' notice to the Owner and Architect, and provided Owner has not taken reasonable steps to remedy the breach, terminate the Contract and recover from the Owner payment for Work executed, as well as ~~reasonable overhead and profit on Work not executed, and~~ costs incurred by reason of such termination. In no event shall Owner be liable for lost profits, lost opportunity costs, overhead, any pre-paid labor, pre-purchased materials, or capital financing or related costs, other capital expenditures that were not expressly approved in writing by Owner, or any other costs incurred by reason of the termination. However, no adjustment shall be made under this Article 14 for any suspension, delay, or interruption to the extent that performance would have been so suspended, delayed, or interrupted by any other cause, including the fault or negligence of the Contractor or by anyone for whom

User Notes: (1950897523)

Contractor is responsible, or for which an adjustment is provided for or excluded under any other term or condition of this Contract.

§ 14.1.4 If the Work is stopped for a period of 60 consecutive days through no act or fault of the Contractor, a Subcontractor, a Sub-subcontractor, or their agents or employees or any other persons or entities performing portions of the Work because the Owner has repeatedly failed to fulfill the Owner's obligations under the Contract Documents with respect to matters important to the progress of the Work, the Contractor may, upon ~~seven~~sixty additional days' notice to the Owner and the Architect, terminate the Contract and recover from the Owner as provided in Section 14.1.3.

§ 14.2 Termination by the Owner for Cause

§ 14.2.1 The Owner may terminate the Contract if the Contractor

- **.1** ~~repeatedly~~ refuses or fails to supply enough properly skilled workers or proper materials;
- **.2** fails to make payment to Subcontractors or suppliers in accordance with the respective agreements between the Contractor and the Subcontractors or suppliers;
- **.3** ~~repeatedly~~ disregards applicable laws, statutes, ordinances, codes, rules and regulations, or lawful orders of a public authority; or
- **.4** otherwise is guilty of substantial breach of a provision of the Contract Documents.

Notwithstanding the foregoing, if Owner reasonably determines that Contractor's acts or omissions pose an immediate and substantial threat or danger of injury to persons or damage to the Work or other property, Owner may, without prejudice to any other rights or remedies granted by this Contract or by law, immediately suspend Contractor's performance of the Work, take immediate possession of the Project site, take such further action reasonably necessary to prevent, mitigate against, remove, or repair such threat or damage, and deduct such costs and expenses it reasonably incurs from any sums due and owing to the Contractor or, in the absence thereof, to recover such costs and expenses from the Contractor.

§ 14.2.2 When any of the reasons described in Section 14.2.1 exist, ~~and upon certification by the Architect that sufficient cause exists to justify such action,~~ the Owner may, without prejudice to any other rights or remedies of the Owner and after giving the Contractor and the Contractor's surety, if any, seven days' notice, terminate employment of the Contractor and may, subject to any prior rights of the surety:

- **.1** Exclude the Contractor from the site and take possession of all materials, equipment, tools, and construction equipment and machinery thereon owned by the Contractor;
- **.2** Accept assignment of subcontracts pursuant to Section 5.4; and
- **.3** Finish the Work by whatever reasonable method the Owner may deem expedient. Upon written request of the Contractor, the Owner shall furnish to the Contractor a detailed accounting of the costs incurred by the Owner in finishing the Work.

§ 14.2.3 When the Owner terminates the Contract for one of the reasons stated in Section 14.2.1, the Contractor shall not be entitled to receive further payment until the Work is finished. Upon receipt of any such written notice of termination of the right to proceed, the Contractor shall, at its expense, for that Work affected by any such termination:

- **.1** Make an inventory of all materials and equipment in storage at the site, in route to the site, in storage or manufacture away from the site, and on order from suppliers;
- **.2** Upon Owner's written instruction, assign to the Owner, subcontracts, supply contracts, and equipment rental agreements all as designated by the Owner;
- **.3** Remove from the site all construction materials, equipment, and plant listed in said inventory other than such construction materials, equipment, and plant which are designated in writing by the Owner to be used by the Owner in completing such Work;
- **.4** Promptly provide to Owner any and all records, plans, drawings, data, permits, specifications, sketches, reports and other information relating to the terminated Work; and
- **.5** Transfer to Owner all data and information contained within the Project Management Software.

§ 14.2.4 If the unpaid balance of the Contract Sum exceeds costs of finishing the Work, including compensation for the Architect's services and expenses made necessary thereby, and other damages incurred by the Owner and not expressly waived, such excess shall be paid to the Contractor. If such costs and damages exceed the unpaid balance, the Contractor shall pay the difference to the Owner. The amount to be paid to the Contractor or Owner, as the case

may be, shall ~~be certified by the Initial Decision Maker, upon application, and this obligation for payment shall~~ survive termination of the Contract.

§ 14.3 Suspension by the Owner for Convenience

§ 14.3.1 The Owner may, without cause, order the Contractor in writing to suspend, delay or interrupt the Work, in whole or in part for such period of time as the Owner may determine.

§ 14.3.2 The Contract Sum and Contract Time shall be adjusted for increases in the cost and time caused by suspension, delay, or interruption under Section 14.3.1. Adjustment of the Contract Sum shall include profit. No adjustment shall be made to the extent

- **.1** that performance is, was, or would have been, so suspended, delayed, or interrupted, by another cause for which the Contractor is responsible; or
- **.2** that an equitable adjustment is made or denied under another provision of the Contract.

§ 14.4 Termination by the Owner for Convenience

§ 14.4.1 The Owner may, at any time, terminate the Contract for the Owner's convenience and without cause.

§ 14.4.2 Upon receipt of notice from the Owner of such termination for the Owner's convenience, the Contractor shall

- **.1** cease operations as directed by the Owner in the notice;
- **.2** take actions necessary, or that the Owner may direct, for the protection and preservation of the Work; and
- **.3** except for Work directed to be performed prior to the effective date of termination stated in the notice, terminate all existing subcontracts and purchase orders and enter into no further subcontracts and purchase orders.

§ 14.4.3 In case of such termination for the Owner's convenience, the Owner shall pay the Contractor for Work properly executed; and costs incurred by reason of the termination, including costs attributable to termination of Subcontracts~~; and the termination fee, if any, set forth in the Agreement.~~ as allowed in Section 13.2.3 of the Agreement. In no event shall Owner be liable for lost profits on work not performed or other projects, lost opportunity costs, overhead, or any other costs incurred by reason of the termination.

§ 14.4.4 If Owner terminates the Contract under Section 14.2 but it should be determined that Contractor was not in default hereunder, then such termination shall be deemed, as of the date made, to have been made for convenience under Section 14.4.

ARTICLE 15 CLAIMS AND DISPUTES

§ 15.1 Claims

§ 15.1.1 Definition

A Claim is a demand or assertion by one of the parties seeking, as a matter of right, payment of money, a change in the Contract Time, or other relief with respect to the terms of the Contract. The term "Claim" also includes other disputes and matters in question between the Owner and Contractor arising out of or relating to the Contract. The responsibility to substantiate Claims shall rest with the party making the Claim. This Section 15.1.1 does not require the Owner to file a Claim in order to impose liquidated damages in accordance with the Contract Documents.

§ 15.1.2 Time Limits on Claims

The Owner and Contractor shall commence all Claims and causes of action against the other and arising out of or related to the Contract, whether in contract, tort, breach of warranty or otherwise, in accordance with the requirements of the binding dispute resolution method selected in the Agreement and within the period specified by applicable law, but in any case not more than 10 years after the date of Substantial Completion of the Work. The Owner and Contractor waive all Claims and causes of action not commenced in accordance with this Section 15.1.2. Notwithstanding any provision of the Contract to the contrary, no applicable statute of limitations shall be deemed to have commenced with respect to any portion of the Work which is not in accordance with the requirements of the Contract Documents, which would not be visible or apparent upon conducting a reasonable investigation, and which is not discovered by Owner until after the date which, but for this Section, would be the date of commencement of the applicable statute of limitations; limitations instead shall be deemed to have commenced on the date of such discovery by Owner.

§ 15.1.3 Notice of Claims

§ 15.1.3.1 Claims by either the Owner or Contractor, where the condition giving rise to the Claim is first discovered prior to expiration of the period for correction of the Work set forth in Section 12.2.2, shall be initiated by notice to the other party ~~and to the Initial Decision Maker~~ with a copy sent to the Architect~~, if the Architect is not serving as the Initial Decision Maker~~. Claims by either party under this Section 15.1.3.1 shall be initiated within 21 days after occurrence of the event giving rise to such Claim or within 21 days after the claimant first recognizes the condition giving rise to the Claim, whichever is later.

§ 15.1.3.2 Claims by either the Owner or Contractor, where the condition giving rise to the Claim is first discovered after expiration of the period for correction of the Work set forth in Section 12.2.2, shall be initiated by notice to the other party. ~~In such event, no decision by the Initial Decision Maker is required.~~

§ 15.1.4 Continuing Contract Performance

§ 15.1.4.1 Pending final resolution of a Claim, except as otherwise agreed in writing or as provided in Section 9.7 and Article 14, the Contractor shall proceed diligently with performance of the Contract and the Owner shall continue to make payments in accordance with the Contract Documents.

§ 15.1.4.2 The Contract Sum and Contract Time shall be adjusted in accordance with the Initial Decision Maker's decision, subject to the right of either party to proceed in accordance with this Article 15. The Architect will issue Certificates for Payment in accordance with the decision of the Initial Decision Maker.

§ 15.1.5 Claims for Additional Cost

If the Contractor wishes to make a Claim for an increase in the Contract Sum, notice as provided in Section 15.1.3 shall be given before proceeding to execute the portion of the Work that is the subject of the Claim. Prior notice is not required for Claims relating to an emergency endangering life or property arising under Section 10.4.

§ 15.1.6 Claims for Additional Time

§ 15.1.6.1 If the Contractor wishes to make a Claim for an increase in the Contract Time, notice as provided in Section 15.1.3 shall be given. The Contractor's Claim shall include an estimate of cost and of probable effect of delay on progress of the Work. In the case of a continuing delay, only one Claim is necessary.

~~**§ 15.1.6.2** If adverse weather conditions are the basis for a Claim for additional time, such Claim shall be documented by data substantiating that weather conditions were abnormal for the period of time, could not have been reasonably anticipated, and had an adverse effect on the scheduled construction.~~

§ 15.1.6.2 Contractor shall anticipate and include in the Schedule all days of weather delay that should be anticipated according to the 5-year climatic averages as determined by the National Oceanic and Atmospheric Administration (NOAA) for the location closest to the project site. Lost days due to adverse weather shall include any day on which critical path work cannot be performed for at least four continuous hours, or on which production on critical path activities is reduced to less than four hours of normal production within an 8-hour workday due to rain, snow, freezing rain, fog, low and high temperatures, or high winds. The actual number of lost days due to adverse weather encountered on the project shall be documented by the Contractor recording their occurrence in the Contractor's project management software within 24 hours of the lost day. Monthly and in conjunction with the pay application process, Owner and Contractor shall come to agreement on the number of lost days due to adverse weather for the preceding month that exceed of the number of such expected weather days for such month based on the monthly NOAA data ("Abnormal Weather Conditions"), and calendar day extensions of time shall be accordingly based and granted on monthly account. No weather days unused for previous months may be carried over or accountable for future periods of time.

§ 15.1.7 Waiver of Claims for Consequential Damages

The Contractor and Owner waive Claims against each other for consequential damages arising out of or relating to this Contract. This mutual waiver includes

.1 damages incurred by the Owner for rental expenses, for losses of use, income, profit, financing, business and reputation, and for loss of management or employee productivity or of the services of such persons; and

.2 damages incurred by the Contractor for principal office expenses including the compensation of personnel stationed there, for losses of financing, business and reputation, and for loss of profit, except anticipated profit arising directly from the Work.

This mutual waiver is applicable, without limitation, to all consequential damages due to either party's termination in accordance with Article 14. Nothing contained in this Section 15.1.7 shall be deemed to preclude assessment of liquidated damages, when applicable, in accordance with the requirements of the Contract Documents.

NOTWITHSTANDING ANYTHING TO THE CONTRARY, BUT SUBJECT TO THE NEXT SENTENCE, IN NO EVENT WILL OWNER BE LIABLE TO CONTRACTOR FOR ANY INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES OF ANY NATURE ARISING OUT OF OR IN CONNECTION WITH PERFORMANCE OR FAILURE TO PERFORM UNDER THE CONTRACT, INCLUDING LOST PROFITS OR REVENUES, LOSS OF CUSTOMER GOODWILL, BUSINESS INTERRUPTION COSTS, OVERHEAD COSTS, COSTS OF CAPITAL OR LOSS OF USE OF MONEY, REGARDLESS OF THE FORM OF THE ACTION OR CLAIM OR THE THEORY OF RECOVERY, EVEN IF ADVISED IN ADVANCE OF THE POSSIBILITY OF SUCH DAMAGES. HOWEVER, IT IS EXPRESSLY UNDERSTOOD THAT THE LIMITATION ON LIABILITY PROVIDED FOR IN THIS ARTICLE WILL BE SUBJUGATED TO, AND WILL NOT LIMIT OR OTHERWISE AFFECT IN ANY MANNER, CONTRACTOR'S REMEDIAL AND WARRANTY OBLIGATIONS OR CONTRACTOR'S INDEMNIFICATION OBLIGATIONS.

§ 15.2 Initial Decision Intentionally Deleted

~~**§ 15.2.1** Claims, excluding those where the condition giving rise to the Claim is first discovered after expiration of the period for correction of the Work set forth in Section 12.2.2 or arising under Sections 10.3, 10.4, and 11.5, shall be referred to the Initial Decision Maker for initial decision. The Architect will serve as the Initial Decision Maker, unless otherwise indicated in the Agreement. Except for those Claims excluded by this Section 15.2.1, an initial decision shall be required as a condition precedent to mediation of any Claim. If an initial decision has not been rendered within 30 days after the Claim has been referred to the Initial Decision Maker, the party asserting the Claim may demand mediation and binding dispute resolution without a decision having been rendered. Unless the Initial Decision Maker and all affected parties agree, the Initial Decision Maker will not decide disputes between the Contractor and persons or entities other than the Owner.~~

~~**§ 15.2.2** The Initial Decision Maker will review Claims and within ten days of the receipt of a Claim take one or more of the following actions: (1) request additional supporting data from the claimant or a response with supporting data from the other party, (2) reject the Claim in whole or in part, (3) approve the Claim, (4) suggest a compromise, or (5) advise the parties that the Initial Decision Maker is unable to resolve the Claim if the Initial Decision Maker lacks sufficient information to evaluate the merits of the Claim or if the Initial Decision Maker concludes that, in the Initial Decision Maker's sole discretion, it would be inappropriate for the Initial Decision Maker to resolve the Claim.~~

~~**§ 15.2.3** In evaluating Claims, the Initial Decision Maker may, but shall not be obligated to, consult with or seek information from either party or from persons with special knowledge or expertise who may assist the Initial Decision Maker in rendering a decision. The Initial Decision Maker may request the Owner to authorize retention of such persons at the Owner's expense.~~

~~**§ 15.2.4** If the Initial Decision Maker requests a party to provide a response to a Claim or to furnish additional supporting data, such party shall respond, within ten days after receipt of the request, and shall either (1) provide a response on the requested supporting data, (2) advise the Initial Decision Maker when the response or supporting data will be furnished, or (3) advise the Initial Decision Maker that no supporting data will be furnished. Upon receipt of the response or supporting data, if any, the Initial Decision Maker will either reject or approve the Claim in whole or in part.~~

~~**§ 15.2.5** The Initial Decision Maker will render an initial decision approving or rejecting the Claim, or indicating that the Initial Decision Maker is unable to resolve the Claim. This initial decision shall (1) be in writing; (2) state the reasons therefor; and (3) notify the parties and the Architect, if the Architect is not serving as the Initial Decision Maker, of any change in the Contract Sum or Contract Time or both. The initial decision shall be final and binding on the parties but subject to mediation and, if the parties fail to resolve their dispute through mediation, to binding dispute resolution.~~

~~**§ 15.2.6** Either party may file for mediation of an initial decision at any time, subject to the terms of~~

User Notes: (1950897523)

~~Section 15.2.6.1.~~

~~**§ 15.2.6.1** Either party may, within 30 days from the date of receipt of an initial decision, demand in writing that the other party file for mediation. If such a demand is made and the party receiving the demand fails to file for mediation within 30 days after receipt thereof, then both parties waive their rights to mediate or pursue binding dispute resolution proceedings with respect to the initial decision.~~

~~**§ 15.2.7** In the event of a Claim against the Contractor, the Owner may, but is not obligated to, notify the surety, if any, of the nature and amount of the Claim. If the Claim relates to a possibility of a Contractor's default, the Owner may, but is not obligated to, notify the surety and request the surety's assistance in resolving the controversy.~~

~~**§ 15.2.8** If a Claim relates to or is the subject of a mechanic's lien, the party asserting such Claim may proceed in accordance with applicable law to comply with the lien notice or filing deadlines.~~

§ 15.3 ~~Mediation~~Intentionally Deleted

~~**§ 15.3.1** Claims, disputes, or other matters in controversy arising out of or related to the Contract, except those waived as provided for in Sections 9.10.4, 9.10.5, and 15.1.7, shall be subject to mediation as a condition precedent to binding dispute resolution.~~

~~**§ 15.3.2** The parties shall endeavor to resolve their Claims by mediation which, unless the parties mutually agree otherwise, shall be administered by the American Arbitration Association in accordance with its Construction Industry Mediation Procedures in effect on the date of the Agreement. A request for mediation shall be made in writing, delivered to the other party to the Contract, and filed with the person or entity administering the mediation. The request may be made concurrently with the filing of binding dispute resolution proceedings but, in such event, mediation shall proceed in advance of binding dispute resolution proceedings, which shall be stayed pending mediation for a period of 60 days from the date of filing, unless stayed for a longer period by agreement of the parties or court order. If an arbitration is stayed pursuant to this Section 15.3.2, the parties may nonetheless proceed to the selection of the arbitrator(s) and agree upon a schedule for later proceedings.~~

~~**§ 15.3.3** Either party may, within 30 days from the date that mediation has been concluded without resolution of the dispute or 60 days after mediation has been demanded without resolution of the dispute, demand in writing that the other party file for binding dispute resolution. If such a demand is made and the party receiving the demand fails to file for binding dispute resolution within 60 days after receipt thereof, then both parties waive their rights to binding dispute resolution proceedings with respect to the initial decision.~~

~~**§ 15.3.4** The parties shall share the mediator's fee and any filing fees equally. The mediation shall be held in the place where the Project is located, unless another location is mutually agreed upon. Agreements reached in mediation shall be enforceable as settlement agreements in any court having jurisdiction thereof.~~

~~**§ 15.4 Arbitration**~~

~~**§ 15.4.1** If the parties have selected arbitration as the method for binding dispute resolution in the Agreement, any Claim subject to, but not resolved by, mediation shall be subject to arbitration which, unless the parties mutually agree otherwise, shall be administered by the American Arbitration Association in accordance with its Construction Industry Arbitration Rules in effect on the date of the Agreement. The Arbitration shall be conducted in the place where the Project is located, unless another location is mutually agreed upon. A demand for arbitration shall be made in writing, delivered to the other party to the Contract, and filed with the person or entity administering the arbitration. The party filing a notice of demand for arbitration must assert in the demand all Claims then known to that party on which arbitration is permitted to be demanded.~~

~~**§ 15.4.1.1** A demand for arbitration shall be made no earlier than concurrently with the filing of a request for mediation, but in no event shall it be made after the date when the institution of legal or equitable proceedings based on the Claim would be barred by the applicable statute of limitations. For statute of limitations purposes, receipt of a written demand for arbitration by the person or entity administering the arbitration shall constitute the institution of legal or equitable proceedings based on the Claim.~~

~~**§ 15.4.2** The award rendered by the arbitrator or arbitrators shall be final, and judgment may be entered upon it in accordance with applicable law in any court having jurisdiction thereof.~~

~~**§ 15.4.3** The foregoing agreement to arbitrate and other agreements to arbitrate with an additional person or entity duly consented to by parties to the Agreement, shall be specifically enforceable under applicable law in any court having jurisdiction thereof.~~

~~**§ 15.4.4 Consolidation or Joinder**~~

~~**§ 15.4.4.1** Subject to the rules of the American Arbitration Association or other applicable arbitration rules, either~~

~~party may consolidate an arbitration conducted under this Agreement with any other arbitration to which it is a party provided that (1) the arbitration agreement governing the other arbitration permits consolidation, (2) the arbitrations to be consolidated substantially involve common questions of law or fact, and (3) the arbitrations employ materially similar procedural rules and methods for selecting arbitrator(s).~~

~~**§ 15.4.4.2** Subject to the rules of the American Arbitration Association or other applicable arbitration rules, either party may include by joinder persons or entities substantially involved in a common question of law or fact whose presence is required if complete relief is to be accorded in arbitration, provided that the party sought to be joined consents in writing to such joinder. Consent to arbitration involving an additional person or entity shall not constitute consent to arbitration of any claim, dispute or other matter in question not described in the written consent.~~

~~**§ 15.4.4.3** The Owner and Contractor grant to any person or entity made a party to an arbitration conducted under this Section 15.4, whether by joinder or consolidation, the same rights of joinder and consolidation as those of the Owner and Contractor under this Agreement.~~

ARTICLE 1 INITIAL INFORMATION

§ 1.1 This Agreement is based on the Initial Information set forth in this Section 1.1.
(For each item in this section, insert the information or a statement such as "not applicable" or "unknown at time of execution.")

§ 1.1.1 The Owner's program for the Project, as described in Section 4.1.1:
(Insert the Owner's program, identify documentation that establishes the Owner's program, or state the manner in which the program will be developed.)

« Eleven departments of the City of Georgetown will be consolidated at the new Customer Service Center, including: Building Permitting, Code Compliance, Customer Care, Development Engineering, Economic Development, Fire and Life Safety, Human Resources, Information Technology, Planning, Transportation and CIP Engineering, and Utility Billing. In addition to these departments, real estate personnel, a city-only data center, remote police office, and a retail space will be included in the facility.

§ 1.1.2 The Project's physical characteristics:
(Identify or describe pertinent information about the Project's physical characteristics, such as size; location; dimensions; geotechnical reports; site boundaries; topographic surveys; traffic and utility studies; availability of public and private utilities and services; legal description of the site, etc.)

AIA Document A133 – 2019. Copyright © 1991, 2003, 2009, and 2019. All rights reserved. «The facility is approximately 80,000 sf. It will be located on a 1.88 acre site located in SU 560 Development. The parking lot will be located on an adjacent lot. »

§ 1.1.3 The Owner's budget for the Guaranteed Maximum Price, as defined in Article 6:
(Provide total and, if known, a line item breakdown.)

« »

§ 1.1.4 The Owner's anticipated design and construction milestone dates:

.1 Design phase milestone dates, if any:

«Schematic Design - Complete
Design Development – to be completed in May
Construction Documents – to be completed in September
»

.2 Construction commencement date:

«October 2026 »

.3 Substantial Completion date or dates:

«TBD »

.4 Other milestone dates:

« »

§ 1.1.5 The Owner's requirements for accelerated or fast-track scheduling, or phased construction, are set forth below:
(Identify any requirements for fast-track scheduling or phased construction.)

«NA »

§ 1.1.6 The Owner's anticipated Sustainable Objective for the Project:
(Identify and describe the Owner's Sustainable Objective for the Project, if any.)

«NA »

§ 1.1.6.1 If the Owner identifies a Sustainable Objective, the Owner and Construction Manager shall complete and incorporate AIA Document E234™–2019, Sustainable Projects Exhibit, Construction Manager as Constructor Edition, into this Agreement to define the terms, conditions and services related to the Owner's Sustainable Objective. If E234–2019 is incorporated into this agreement, the Owner and Construction Manager shall incorporate the completed E234–2019 into the agreements with the consultants and contractors performing services or Work in any way associated with the Sustainable Objective.

§ 1.1.7 Other Project information:
(Identify special characteristics or needs of the Project not provided elsewhere.)

«NA »

§ 1.1.8 The Owner identifies the following representative in accordance with Section 4.2:
(List name, address, and other contact information.)

« Jennifer Bettiol, CIP Manager »
«300 Industrial Ave, 1, PO Box 409 »
«Georgetown, TX 78627 »

§ 1.1.9 The persons or entities, in addition to the Owner's representative, who are required to review the Construction Manager's submittals to the Owner are as follows:
(List name, address and other contact information.)

« NA »

§ 1.1.10 The Owner shall retain the following consultants and contractors:
(List name, legal status, address, and other contact information.)

.1 Geotechnical Engineer:

« Terracon »« »
«800 Paloma Dr, Ste 160 »
«Round Rock, TX 78665 »
« »
« »

.2 Civil Engineer:

« »« »
« »
« »
« »
« »

.3 Other, if any:
(List any other consultants retained by the Owner, such as a Project or Program Manager.)

« »

§ 1.1.11 The Architect's representative:
(List name, address, and other contact information.)

« Briant Harkiewicz, AIA »
«Partner »
«Marmon Mok Architecture »
« 1020 NE Interstate 410 Loop, Suite 201 »
«San Antonio, TX 78209 »
« »

§ 1.1.12 The Construction Manager identifies the following representative in accordance with Article 3:
(List name, address, and other contact information.)

«Alison Satt »
« Vice President, Division Manager »
« 2422 E 7th St »
« Austin, TX 78702 »
«512.327.5599 »
« »

§ 1.1.13 The Owner's requirements for the Construction Manager's staffing plan for Preconstruction Services, as required under Section 3.1.9:
(List any Owner-specific requirements to be included in the staffing plan.)

§ 1.1.14 The Owner's requirements for subcontractor procurement for the performance of the Work:
(List any Owner-specific requirements for subcontractor procurement.)

« NA »

§ 1.1.15 Other Initial Information on which this Agreement is based:

«NA »

§ 1.2 The Owner and Construction Manager may rely on the Initial Information. Both parties, however, recognize that such information may materially change and, in that event, the Owner and the Construction Manager shall appropriately adjust the Project schedule, the Construction Manager's services, and the Construction Manager's compensation. The Owner shall adjust the Owner's budget for the Guaranteed Maximum Price and the Owner's anticipated design and construction milestones, as necessary, to accommodate material changes in the Initial Information.

§ 1.3 Neither the Owner's nor the Construction Manager's representative shall be changed without ten days' prior notice to the other party.

ARTICLE 2 GENERAL PROVISIONS

§ 2.1 The Contract Documents

The Contract Documents consist of this Agreement, Conditions of the Contract (General, Supplementary and other Conditions), Drawings, Specifications, Addenda issued prior to execution of this Agreement, all Exhibits attached to this Agreement, other documents incorporated into this Agreement, the Request for Proposals issued by the Owner in anticipation of receiving proposals, and any Addenda to the Request for Proposals issued by the Owner, those sections of the Construction Manager's proposal included as Exhibit C, and Modifications issued after execution of this Agreement, all of which form the Contract and are as fully a part of the Contract as if attached to this Agreement or repeated herein. Upon the Owner's acceptance of the Construction Manager's Guaranteed Maximum Price proposal ("Guaranteed Maximum Price Proposal" or "GMP Proposal"), the Contract Documents will also include the documents described in Section 3.2.3 and identified in the Guaranteed Maximum Price Amendment ("GMP Amendment") and revisions prepared by the Architect and furnished by the Owner as described in Section 3.2.8. The Contract represents the entire and integrated agreement between the parties hereto and supersedes prior negotiations, representations or agreements, either written or oral. If anything in the other Contract Documents, other than a Modification, is inconsistent with this Agreement, this Agreement shall govern. An enumeration of the Contract Documents, other than a Modification, appears in Article 15. If there is any inconsistency, ambiguity, or discrepancy in the Contract Documents, precedence shall be given to the Contract Documents in the following order of priority: (1) written Modifications issued after execution of this Agreement; (2) this Agreement; (3) the General Conditions of the Contract for Construction as modified for this Project; (4) the Final Drawings and Specifications; (5) the Request for Proposals issued by the Owner in anticipation of receiving proposals, and any Addenda to the Request for Proposals issued by the Owner, and (6) those sections of the Construction Manager's proposal included as Exhibit C.

§ 2.2 Relationship of the Parties

The Construction Manager accepts the relationship of trust and confidence established by this Agreement and covenants with the Owner to cooperate with the Architect and exercise the Construction Manager's best skill and judgment in furthering the interests of the Owner to furnish efficient construction administration, management services, and supervision; to furnish at all times an adequate supply of workers and materials; to perform the Work in an expeditious and economical manner consistent with the Owner's interests; and to perform the Work defined in the Contract Documents in accordance with the Owner's requirements and construction cost limitations. The Owner agrees to furnish or approve, in a timely manner, information required by the Construction Manager, subject to the information being necessary for Construction Manager to perform its obligations under this Agreement and further subject to the Owner's ability as a governmental agency to provide information, and to make payments to the Construction Manager in accordance with the requirements of the Contract Documents.

§ 2.3 General Conditions

§ 2.3.1 For the Preconstruction Phase, AIA Document A201™–2017, General Conditions of the Contract for Construction, as modified for this Project (the "General Conditions"), shall apply as follows: Section 1.5, Ownership and Use of Documents; Section 1.7, Digital Data Use and Transmission; Section 1.8, Building Information Model Use and Reliance; Section 2.2.4, Confidential Information; Section 3.12.10, Professional Services; Section 10.3, Hazardous Materials; Section 13.1, Governing Law. The term "Contractor" as used in A201–2017 shall mean the Construction Manager.

§ 2.3.2 For the Construction Phase, the general conditions of the contract shall be as set forth in A201–2017, which document is incorporated herein by reference. The term "Contractor" as used in A201–2017 shall mean the Construction Manager.

§ 2.3.3 Registrations, Approvals and Laws

The Construction Manager and all of its consultants, trade contractors, subcontractors and suppliers shall at all times performing Work or services in connection with the Project possess and maintain all registrations, licenses, certifications and approvals necessary for the performance of any requirements of the Contract. It is the Construction Manager's duty to monitor the compliance of the consultants, trade contractors, subcontractors and suppliers with, and to enforce, the requirements of this provision. The Construction Manager shall, upon request, promptly provide evidence of compliance with such registrations, licenses, certifications and approvals.

ARTICLE 3 CONSTRUCTION MANAGER'S RESPONSIBILITIES

The Construction Manager's Preconstruction Phase responsibilities are set forth in Sections 3.1 and 3.2, and in the applicable provisions of A201-2017 referenced in Section 2.3.1. The Construction Manager's Construction Phase responsibilities are set forth in Section 3.3. The Owner and Construction Manager may agree, in consultation with the Architect, for the Construction Phase to commence prior to completion of the Preconstruction Phase, in which case, both phases will proceed concurrently; provided that Construction Manager shall deliver to Owner all required insurances and bonds prior to beginning any Construction Phase Work. The Construction Manager shall identify a representative authorized to act on behalf of the Construction Manager with respect to the Project. The Construction Manager shall exercise the highest level of care in performing its obligations under the Contract.

§ 3.1 Preconstruction Phase

§ 3.1.1 Extent of Responsibility

The Owner and Architect shall be entitled to rely on, and shall not be responsible for, the accuracy, completeness, and timeliness of services and information furnished by the Construction Manager. The Construction Manager is not required to ascertain that the Drawings and Specifications are in accordance with applicable laws, statutes, ordinances, codes, rules and regulations, or lawful orders of public authorities, except to the extent that it ascertained or reasonably should have ascertained such in its capacity as a construction manager and not as a licensed professional under Title 6 of the Texas Occupation Code. The Construction Manager shall promptly report to the Architect and Owner any nonconformity or Deficiency discovered by or made known to the Construction Manager, including as required by the General Conditions, in such form as the Architect or Owner may require.

§ 3.1.2 The Construction Manager shall provide a preliminary evaluation of the Owner's program, schedule and construction budget requirements, each in terms of the other.

§ 3.1.3 Consultation

§ 3.1.3.1 The Construction Manager shall schedule and conduct meetings with the Architect and Owner to discuss such matters as procedures, progress, coordination, and scheduling of the Work.

§ 3.1.3.2 The Construction Manager shall advise the Owner and Architect on proposed site use and improvements, selection of materials, building systems, and equipment. The Construction Manager shall also provide recommendations to the Owner and Architect, consistent with the Project requirements, on constructability; availability of materials and labor; time requirements for procurement, installation and construction; prefabrication; and factors related to construction cost including, but not limited to, costs of alternative designs or materials, preliminary budgets, life-cycle data, and possible cost reductions. Construction Manager shall review and monitor the various phases of the development of the design documents to determine whether or not the Project as designed by the Architect can meet the program, quality, budget and schedule goals of the Owner. Owner desires to recognize any budget and schedule overruns or program and quality concerns as soon as possible, and it is the Construction Manager's obligation under this

User Notes: (2016497530)

Contract to review the design documents for constructability and to provide estimating services, value engineering services, Project scheduling services, and to perform other Preconstruction Services described herein to help the Owner meet the project program, quality, budget and schedule. At any time that Construction Manager develops any concern about the integrity of the Project quality, program, budget and/or schedule, Construction Manager is to promptly advise the Owner and Architect in writing of the concerns, and make any suggestions Construction Manager may have as to how to address the problem.

§ 3.1.3.3 The Construction Manager shall assist the Owner and Architect in establishing building information modeling and digital data protocols for the Project, using AIA Document E203™–2013, Building Information Modeling and Digital Data Exhibit, to establish the protocols for the development, use, transmission, and exchange of digital data.

§ 3.1.4 Project Schedule

When Project requirements in Section 4.1.1 have been sufficiently identified, the Construction Manager shall prepare and periodically update a Project schedule for the Architect's review and the Owner's acceptance. The Construction Manager shall obtain the Architect's approval for the portion of the Project schedule relating to the performance of the Architect's services. The Project schedule shall coordinate and integrate the Construction Manager's services, the Architect's services, other Owner consultants' services, and the Owner's responsibilities; and identify items that could affect the Project's timely completion. The updated Project schedule shall include the following: submission of the Guaranteed Maximum Price Proposal; components of the Work; times of commencement and completion required for the Work of each Subcontractor; ordering and delivery of products, including those that may need to be ordered in advance of construction; proposed dates for Substantial Completion and Final Completion; and the occupancy requirements of the Owner. If updated Project schedules indicate that previously-approved schedules may not be met, then the Construction Manager shall make appropriate recommendations to the Owner and Architect and, upon written approval of both, shall implement necessary corrective action.

§ 3.1.5 Phased Construction

The Construction Manager, in consultation with the Architect, shall provide recommendations with regard to accelerated or fast-track scheduling, procurement, and sequencing for phased construction. The Construction Manager shall take into consideration cost reductions, cost information, constructability, provisions for temporary facilities, and procurement and construction scheduling issues. The Construction Manager shall make recommendations to the Owner, PM, and Architect regarding the phased issuance of Drawings and Specifications.

§ 3.1.6 Cost Estimates

§ 3.1.6.1 Based on the preliminary design and other design criteria prepared by the Architect, the Construction Manager shall prepare, for the Architect's review and the Owner's approval, preliminary estimates of the Cost of the Work or the cost of program requirements using area, volume, or similar conceptual estimating techniques. If the Architect or Construction Manager suggests alternative materials and systems, the Construction Manager shall provide cost evaluations of those alternative materials and systems.

§ 3.1.6.2 As the Architect progresses with the preparation of the Schematic Design, Design Development and Construction Documents, the Construction Manager shall prepare and update, at appropriate intervals agreed to by the Owner, Construction Manager and Architect, an estimate of the Cost of the Work with increasing detail and refinement. The Construction Manager shall include in the estimate those costs to allow for the further development of the design, price escalation, and market conditions, until such time as the Owner and Construction Manager agree on a Guaranteed Maximum Price for the Work. The estimate shall be provided for the Architect's review and the Owner's approval. The Construction Manager shall inform the Owner and Architect when the estimate of the Cost of the Work exceeds the latest approved Project budget, and make recommendations for corrective action for cost reductions, including but not limited to, substitution of materials or revisions or alterations to the design to bring the Project within the Owner's budget, but without deleting necessary components of the Project without Owner's consent. In the event that the quality or scope identified in the estimates are unacceptable or exceed the Owner's identified budget, the Construction Manager shall develop options, in collaboration with the Architect and Owner, that are acceptable to Owner and are within the Owner's budget.

§ 3.1.6.3 If the Architect is providing cost estimating services as a Supplemental Service, and a discrepancy exists between the Construction Manager's cost estimates and the Architect's cost estimates, the Construction Manager and the Architect shall work together to reconcile the cost estimates.

User Notes: (2016497530)

§ 3.1.7 As the Architect progresses with the preparation of the Schematic Design, Design Development and Construction Documents, the Construction Manager shall consult with the Owner and Architect and make recommendations regarding constructability and schedules, for the Architect's review and the Owner's approval.

§ 3.1.8 The Construction Manager shall provide recommendations and information to the Owner and Architect regarding equipment, materials, services, and temporary Project facilities.

§ 3.1.9 The Construction Manager shall provide a staffing plan for Preconstruction Phase services for the Owner's review and approval.

§ 3.1.10 If the Owner identified a Sustainable Objective in Article 1, the Construction Manager shall fulfill its Preconstruction Phase responsibilities as required in AIA Document E234™–2019, Sustainable Projects Exhibit, Construction Manager as Constructor Edition, attached to this Agreement.

§ 3.1.11 Subcontractors and Suppliers

§ 3.1.11.1 If the Owner has provided requirements for subcontractor procurement in section 1.1.14, the Construction Manager shall provide a subcontracting plan, addressing the Owner's requirements, for the Owner's review and approval.

§ 3.1.11.2 The Construction Manager shall develop bidders' interest in the Project.

§ 3.1.11.3 The processes described in Article 9 shall apply if bid packages will be issued during the Preconstruction Phase.

§ 3.1.12 Procurement

The Construction Manager shall prepare, for the Architect's review and the Owner's acceptance, a procurement schedule for items that must be ordered in advance of construction. The Construction Manager shall expedite and coordinate the ordering and delivery of materials that must be ordered in advance of construction. If the Owner agrees to procure any items prior to the establishment of the Guaranteed Maximum Price, the Owner shall procure the items on terms and conditions acceptable to the Construction Manager. Upon the establishment of the Guaranteed Maximum Price, the Owner shall assign all contracts for these items to the Construction Manager and the Construction Manager shall thereafter accept responsibility for them.

§ 3.1.13 Compliance with Laws

The Construction Manager shall comply with applicable laws, statutes, ordinances, codes, rules and regulations, and lawful orders of public authorities applicable to its performance under this Contract, and with equal employment opportunity programs, and other programs as may be required by governmental and quasi-governmental authorities. Such compliance includes, without limitation, compliance with all applicable provisions of Chapter 2269 of the Texas Government Code government public works procurement by Construction Manager At-Risk.

§ 3.1.14 Other Preconstruction Services

Insert a description of any other Preconstruction Phase services to be provided by the Construction Manager, or reference an exhibit attached to this document

(Describe any other Preconstruction Phase services, such as providing cash flow projections, development of a project information management system, early selection or procurement of subcontractors, etc.)

§ 3.2 Guaranteed Maximum Price Proposal

§ 3.2.1 At a time to be mutually agreed upon by the Owner and the Construction Manager and in consultation with the Architect, but in no case later than Owner's approval of the 95% Construction Documents, the Construction Manager shall prepare a final Guaranteed Maximum Price Proposal for the entire Construction Phase Work for Owner's review and possible acceptance. The Guaranteed Maximum Price in the proposal shall be the sum of the General Conditions Costs, the Construction Manager's estimate of the Cost of the Work, the Construction Contingency described in Section 3.2.4, and the Construction Manager's Fee described in Section 6.1.2.

User Notes: (2016497530)

The Owner shall be entitled to full access to the details of the process of developing the Guaranteed Maximum Price Proposal. It is the intent of this Agreement that all allowances, assumptions, clarifications, and any other elements that could lead to Change Orders are encompassed in the accepted Guaranteed Maximum Price except for Owner-directed changes or uncovered site conditions as set forth in this Agreement.

§ 3.2.2 To the extent that the Contract Documents are anticipated to require further development, the Guaranteed Maximum Price includes the costs attributable to such further development consistent with the Contract Documents and reasonably inferable therefrom. Such further development does not include changes in scope, systems, kinds and quality of materials, finishes, or equipment, all of which, if required, shall be incorporated by Change Order or Construction Change Directive.

§ 3.2.3 The Construction Manager shall include with the Guaranteed Maximum Price proposal a written statement of its basis, which shall include the following:

- **.1** A list of the Drawings and Specifications, including all Addenda thereto, and the Conditions of the Contract;
- **.2** A list of the clarifications and assumptions made by the Construction Manager in the preparation of the Guaranteed Maximum Price proposal, including assumptions under Section 3.2.2;
- **.3** A statement of the proposed Guaranteed Maximum Price, including a statement of the General Conditions Costs, the estimated Cost of the Work organized by trade categories or systems, including allowances; the Construction Contingency, if any, set forth in Section 3.2.4; and the Construction Manager's Fee;
- **.4** An updated Project Schedule to include all major construction milestones, and the anticipated date of Substantial Completion upon which the proposed Guaranteed Maximum Price is based; and
- **.5** The date of Final Completion upon which the Guaranteed Maximum Price is based, which date shall be not more than 30 days after the date of Substantial Completion.

Construction Manager shall not withdraw its Guaranteed Maximum Price Proposal for sixty (60) days following submission to the Owner

§ 3.2.4 In preparing the Construction Manager's Guaranteed Maximum Price Proposal, the Construction Manager shall include a contingency ("Construction Contingency") for the Construction Manager's use when approved by Owner to cover those costs considered reimbursable as the Cost of the Work but not included in a Change Order. The Construction Contingency may be used only with Owner's approval and only for costs incurred in the Work from unforeseeable causes, and not for details which should have been anticipated by the Construction Manager at the time of the Owner's approval of the Guaranteed Maximum Price. Such unforeseeable causes or unanticipated details include, only items that are not reasonably inferable from the Guaranteed Maximum Price documents as determined by Owner in its sole discretion, the correction of minor defects relating to design, and additional costs price increases attributable to material cost and supply impacts due to market volatility, supply chain disruptions, tariff-related escalations, inflationary conditions, or other unanticipated market event that affect the price or availability of materials or labor ("Market Cost Increases") provided that Construction Manager complies with the requirements of Section 3.2.4.1. Construction Manager may request for Owner's approval only those items of cost that meet the definition of Cost of the Work under Section 6.1 to be charged against the Construction Contingency. Any unforeseeable causes or unanticipated details that exceed the Construction Contingency shall not be applied to any Cost of the Work and shall be borne by the Construction Manager at the Construction Manager's sole risk and expense.

It is expressly understood and agreed that, to the extent a Change Order is executed under the terms of this Agreement, the Construction Contingency shall not be utilized. Sums may be requested for Owner's approval to be charged to the Construction Contingency only to the extent the same have been paid or are to be paid by the Construction Manager. Notwithstanding anything in the Contract Documents to the contrary, no charge shall be made against the Construction Contingency without Owner's written consent, which may be provided in its sole discretion. Upon final accounting, all remaining monies in the Construction Contingency shall accrue to the Owner.

§ 3.2.4.1 Construction Manager shall use commercially reasonable efforts to mitigate any cost increases to individual line items within the Cost of the Work as a result of Market Cost Increases, including the following:

.1 promptly satisfy its obligations under Section 9.3 of this Agreement and enter into a written contract with each subcontractor or supplier as required in this Agreement (and require each subcontractor or supplier to do the

User Notes: (2016497530)

same with lower tiered subcontractors or suppliers) who is to provide, directly or indirectly, the materials specified in the Contract Documents for use on the Project;

.2 notify Owner in writing when Construction Manager (and its subcontractors or suppliers) enter into such written contracts for the specified materials and/or labor for use on the Project and provide a copy of each such written contract to Owner;

.3 use good faith and commercially reasonable efforts to require subcontractors and suppliers (of any tier) to perform in accordance with the terms of such written contracts for the provision of the specified materials for the Project;

.4 provide prompt written notice to Owner, and in any event within 7 days, of Construction Manager's discovery of any information or Construction Manager's communications with the subcontractors or suppliers (of any tier) relating to such subcontractor or supplier's actual or anticipated failure or inability to provide the specified materials in accordance with the terms of such subcontractor or supplier's written contract for the provision of such materials and/or labor for the Project; and

.5 provide prompt written notice to Owner, and in any event within 7 days, of Construction Manager's of potential Market Cost Increases or delays relating to same and provide an outline of the actions Construction Manager has taken or proposes to take to mitigate or resolve the impact of such delay or failure or inability of the Construction Manager, subcontractor, or supplier.

§ 3.2.5 The Construction Manager shall meet with the Owner and Architect to review the Guaranteed Maximum Price proposal. In the event that the Owner or Architect discover any inconsistencies or inaccuracies in the information presented, they shall promptly notify the Construction Manager, who shall make appropriate adjustments to the Guaranteed Maximum Price proposal, its basis, or both. If the Guaranteed Maximum Price Proposal submitted to the Owner exceeds the Owner's budget, the Construction Manager shall make appropriate recommendations to the Owner and Architect for cost reductions, including but not limited to, substitution of materials or revisions or alterations to the design, to bring the Project within the Owner's budget, but shall not delete necessary components of the Project without Owner's express written consent. In the event that the quality or scope identified in the Guaranteed Maximum Price Proposal are unacceptable or exceed the Owner's identified budget, the Construction Manager shall develop options, in coordination with the Owner and Architect, that are acceptable to Owner, that are within the Owner's budget, and that meet the Owner's requirements for dates of Substantial Completion and Final Completion.

§ 3.2.6 Should the GMP Proposal be unacceptable or not submitted in good faith pursuant hereto, in Owner's sole option and discretion (which determination is final), the Owner reserves the right to (1) request a GMP Proposal for the Project or any portion thereof from other Construction Manager-at-Risk firms; (2) request from other firms competitive sealed proposals for the Project or any portion thereof; or (3) exercise any other right afforded under law or pursuant to the Contract Documents. Failure to submit a GMP Proposal in good faith may at Owner's option and discretion constitute default by Construction Manager. Should the GMP Proposal be unacceptable to Owner, but Owner does not determine Construction Manager failed to submit the GMP Proposal in good faith, Owner may terminate this Contract for convenience as provided in Article 14 of the General Conditions and Construction Manager shall not be entitled to payment for any Construction Phase services.
If the GMP Proposal is acceptable to Owner, it may accept the GMP Proposal and the Construction Manager at Risk shall perform the Work covered by such GMP Proposal in accordance with its terms and the terms hereof. Following acceptance of a Guaranteed Maximum Price, the Owner and Construction Manager shall execute the Guaranteed Maximum Price Amendment amending this Agreement, a copy of which the Owner shall provide to the Architect. The Guaranteed Maximum Price Amendment shall set forth the agreed upon Guaranteed Maximum Price with the information and assumptions upon which it is based.

§ 3.2.7 The Construction Manager shall not incur any cost to be reimbursed as part of the Cost of the Work prior to the execution of the Guaranteed Maximum Price Amendment, unless the Owner provides prior written authorization for such costs.

§ 3.2.8 The Owner shall authorize preparation of revisions to the Contract Documents that incorporate the agreed-upon assumptions and clarifications contained in the Guaranteed Maximum Price Amendment. The Owner shall promptly furnish such revised Contract Documents to the Construction Manager. The Construction Manager shall notify the

User Notes: (2016497530)

Owner and Architect of any inconsistencies between the agreed-upon assumptions and clarifications contained in the Guaranteed Maximum Price Amendment and the revised Contract Documents.

§ 3.2.9 The Construction Manager shall include in the Guaranteed Maximum Price all sales, consumer, use and similar taxes for the Work provided by the Construction Manager that are legally enacted, whether or not yet effective, at the time the Guaranteed Maximum Price Amendment is executed.

§ 3.3 Construction Phase
§ 3.3.1 General
§ 3.3.1.1 For purposes of Section 8.1.2 of A201–2017, the date of commencement of the Work shall mean the date of commencement of the Construction Phase.

§ 3.3.1.2 The Construction Phase shall commence upon the Owner's execution of the Guaranteed Maximum Price Amendment or, prior to acceptance of the Guaranteed Maximum Price proposal, by written agreement of the parties. The written agreement shall set forth a description of the Work to be performed by the Construction Manager, and any insurance and bond requirements for Work performed prior to execution of the Guaranteed Maximum Price Amendment.

§ 3.3.2 Administration
§ 3.3.2.1 The Construction Manager shall schedule and conduct meetings to discuss such matters as procedures, progress, coordination, scheduling, and status of the Work. The Construction Manager shall prepare and promptly distribute minutes of the meetings to the Owner and Architect.

§ 3.3.2.2 Upon the execution of the Guaranteed Maximum Price Amendment, the Construction Manager shall prepare and submit to the Owner and Architect a construction schedule for the Work and a submittal schedule in accordance with Section 3.10 of A201–2017.

§ 3.3.2.3 Monthly Report
The Construction Manager shall record the progress of the Project. On a monthly basis, or otherwise as agreed to by the Owner, the Construction Manager shall submit written progress reports to the Owner and Architect, showing percentages of completion and other information required by the Owner.

§ 3.3.2.4 Daily Logs
The Construction Manager shall keep, and make available to the Owner and Architect, a daily log containing a record for each day of weather, portions of the Work in progress, number of workers on site, identification of equipment on site, problems that might affect progress of the work, accidents, injuries, and other information required by the Owner.

§ 3.3.2.5 Cost Control
The Construction Manager shall develop a system of cost control for the Work, including regular monitoring of actual costs for activities in progress and estimates for uncompleted tasks and proposed changes. The Construction Manager shall identify variances between actual and estimated costs and report the variances to the Owner and Architect, and shall provide this information in its monthly reports to the Owner and Architect, in accordance with Section 3.3.2.3 above.

§ 3.3.3 The Work
§ 3.3.3.1 The Construction Manager shall fully execute the Work described in the Contract Documents, except as specifically indicated in the Contract Documents to be the responsibility of others. The Construction Manager agrees to perform the Work in a good and workmanlike manner, consistent with the requirements of the Contract Documents, according to construction industry standards, and in compliance with applicable law. Construction Manager will perform all Work described in the Contract Documents, including Work which, although not specifically shown or described, can be reasonably inferred by a competent contractor from the Contract Documents to be required for the completion of the Work.

§ 3.3.3.2 The Construction Manager will cooperate with the Owner and the Architect, and exercise the Construction Manager's skill and judgment to furnish efficient project administration and supervision; to retain at all times an appropriate number of qualified workers and sufficient materials; and to ensure the Work is performed in an expeditious and economical manner consistent with the Contract Documents.

User Notes: (2016497530)

§ 3.3.3.3 The Construction Manager shall furnish only skilled, properly trained, and appropriately licensed staff to perform the Work. Owner shall have the right to require Construction Manager to dismiss from the Project any employee of Construction Manager whose performance is not reasonably satisfactory to Owner.

§ 3.3.3.4 "Substantial Completion" means the date certified by the Architect when construction of the Work is sufficiently complete in accordance with the Contract Documents and Construction Manager has obtained either a certificate of occupancy or temporary certificate of occupancy so that the Owner can beneficially occupy and use the entire Project for its intended purpose.

§ 3.3.3.5 "Final Completion" means the date certified by the Architect when (i) construction of the Work is fully complete in accordance with the Contract Documents, including all minor details of construction, landscaping, decoration, mechanical adjustment, or installation, as applicable (i.e. punchlist is complete) and (2) all requirements of §9.10 of the General Conditions have been achieved by Construction Manager.

§ 3.3.3.6 Continuity. Construction Manager acknowledges that the timely and complete performance of its obligations pursuant to the Contract is critical to the business and operations of Owner. Accordingly, in the event of a dispute between Owner and Construction Manager, Construction Manager will continue to so perform its obligations under the Contract and Owner will continue to make undisputed payments during the resolution of such dispute until Final Completion or termination of the Contract.

ARTICLE 4 OWNER'S RESPONSIBILITIES

§ 4.1 Information and Services Required of the Owner

§ 4.1.1 The Owner shall provide information with reasonable promptness, regarding requirements for and limitations on the Project, including a written program which shall set forth the Owner's objectives, constraints, and criteria, including schedule, space requirements and relationships, flexibility and expandability, special equipment, systems, sustainability and site requirements.

§ 4.1.2 Prior to the execution of the Guaranteed Maximum Price Amendment, the Construction Manager may request in writing that the Owner provide information required under Chapter 56 of the Texas Business & Commerce Code.

§ 4.1.3 The Owner has established an overall budget for the Project based upon consultation with the Construction Manager and Architect.

§ 4.1.4 Structural and Environmental Tests, Surveys and Reports. During the Preconstruction Phase, the Owner shall furnish the following information or services with reasonable promptness. The Owner shall also furnish any other information or services under the Owner's control and relevant to the Construction Manager's performance of the Work with reasonable promptness after receiving the Construction Manager's written request for such information or services. Such documents shall be provided for information only and are not warranted or represented to show the conditions at the Project site accurately. The Construction Manager may use the information at its own risk and shall use customary and reasonable precautions relating to the performance of the Work. Construction Manager shall perform all Work to avoid damaging any cables, pipes, pipelines other utilities, and other property on the Property. Construction Manager shall be responsible for any damage done to such cables, pipes, pipelines, other utilities and other property during the Work. Construction Manager is responsible for notifying the State One Call Board of Texas, or one of its approved service providers (e.g., 1-800-DIG- TESS), for locates as required for all foreign and Owner utilities prior to beginning any Work, unless otherwise directed by the Owner. Prior to any excavation at any site, Construction Manager must call any entity known to have facilities in the excavation area, including municipal utility departments, cable and other telecommunications companies, and any other entities not associated with the State One Call Board of Texas to request locates of that entities' facilities.

§ 4.1.4.1 The Owner shall furnish tests, inspections, and reports, required by law and as otherwise agreed to by the parties, such as structural, mechanical, and chemical tests, tests for air and water pollution, and tests for hazardous materials.

§ 4.1.4.2 The Owner shall furnish surveys describing physical characteristics, legal limitations and utility locations for the site of the Project, and a written legal description of the site. The surveys and legal information shall include, as applicable, grades and lines of streets, alleys, pavements and adjoining property and structures; designated wetlands;

adjacent drainage; rights-of-way, restrictions, easements, encroachments, zoning, deed restrictions, boundaries and contours of the site; locations, dimensions and other necessary data with respect to existing buildings, other improvements and trees; and information concerning available utility services and lines, both public and private, above and below grade, including inverts and depths. All the information on the survey shall be referenced to a Project benchmark.

§ 4.1.4.3 The Owner, when such services are requested, shall furnish services of geotechnical engineers, which may include test borings, test pits, determinations of soil bearing values, percolation tests, evaluations of hazardous materials, seismic evaluation, ground corrosion tests and resistivity tests, including necessary operations for anticipating subsoil conditions, with written reports and appropriate recommendations.

§ 4.1.5 During the Construction Phase, the Owner shall furnish information or services required of the Owner by the Contract Documents with reasonable promptness. The Owner shall also furnish any other information or services under the Owner's control and relevant to the Construction Manager's performance of the Work with reasonable promptness after receiving the Construction Manager's written request for such information or services.

§ 4.1.6 Not used.

§ 4.2 Owner's Designated Representative

The Owner's CIP Manager specified in Section 1.1.8 above or her duly appointed successor or designee shall be the representative authorized to act on behalf of the Owner with respect to the Project. The Owner's representative shall render decisions promptly and furnish information expeditiously, so as to avoid unreasonable delay in the services or Work of the Construction Manager. Except as otherwise provided in Section 4.2.1 of A201–2017, the Architect does not have such authority. The term "Owner" means the Owner or the Owner's authorized representative. Owner's authorized representative shall have authority to act on behalf of the Owner, including appropriate reviews and approvals, with respect to the Project in all circumstances, including Applications for Payment, except approval of any Change Order in excess of $100,000 or, when aggregated with all Change Orders, would increase the Contract Sum by more than 25%.

§ 4.2.1 Legal Requirements. The Owner shall furnish all legal, insurance and accounting services, including auditing services, that may be reasonably necessary at any time for the Project to meet the Owner's needs and interests.

§ 4.3 Architect

The Owner has retained an Architect to provide services described in the agreement between the Owner and the Architect. The Owner shall provide the Construction Manager a copy of the scope of services in the executed agreement between the Owner and the Architect. Owner reserves the right to change the Architect at any time or to modify the terms of its contractual agreement with the Architect. Owner shall give Construction Manager reasonably timely notice of any termination or replacement of the Architect and of any material changes in the scope of services in its contractual agreement with the Architect that bears on the Work hereunder or the responsibilities or liabilities of the Construction Manager arising under this Agreement.

ARTICLE 5 COMPENSATION AND PAYMENTS FOR PRECONSTRUCTION PHASE SERVICES

§ 5.1 Compensation

§ 5.1.1 For the Construction Manager's Preconstruction Phase services described in Sections 3.1 and 3.2, the Owner shall compensate the Construction Manager as follows:

(Insert amount of, or basis for, compensation and include a list of reimbursable cost items, as applicable.)

«30,000.00 »

§ 5.1.2 The hourly billing rates for Preconstruction Phase services of the Construction Manager and the Construction Manager's Consultants and Subcontractors, if any, are set forth below.

(If applicable, attach an exhibit of hourly billing rates or insert them below.)

«NA »

Individual or Position	Rate

To report copyright violations, e-mail docinfo@aiacontracts.com.
User Notes: (2016497530)

§ 5.1.2.1 Hourly billing rates for Preconstruction Phase services include all costs to be paid or incurred by the Construction Manager, as required by law or collective bargaining agreements, for taxes, insurance, contributions, assessments and benefits and, for personnel not covered by collective bargaining agreements, customary benefits such as sick leave, medical and health benefits, holidays, vacations and pensions, and shall remain unchanged unless the parties execute a Modification.

§ 5.1.3 If the Preconstruction Phase services covered by this Agreement have not been completed within « » (« ») months of the date of this Agreement, through no fault of the Construction Manager, the Construction Manager's compensation for Preconstruction Phase services shall be equitably adjusted.

§ 5.2 Payments

§ 5.2.1 Unless otherwise agreed, payments for services shall be made monthly in proportion to services performed.

§ 5.2.2 Payments of undisputed amounts and certified as payable by the Architect are due and payable after receipt of the Construction Manager's submitted Application for Payment for which Architect provides a Certification for Payment. Amounts unpaid « thirty-one » (« 31 ») days after the invoice date shall bear interest in accordance with Texas Government Code Section 2251.025 at the rate set forth therein. No interest shall be due on sums properly retained by Owner, except as provided by law, or on disputed sums unpaid by Owner.
(Insert rate of monthly or annual interest agreed upon.)

« » % « »

ARTICLE 6 COMPENSATION FOR CONSTRUCTION PHASE SERVICES

§ 6.1 Contract Sum

§ 6.1.1 For the Construction Manager's performance of the Construction Phase Work as described in Section 3.3, Owner shall pay the Construction Manager the Contract Sum in current funds for the Construction Manager's proper and timely performance of the Contract after execution of the Guaranteed Maximum Price Amendment. The Contract Sum is the Cost of the Work as defined in Article 7 plus the Construction Manager's Fee plus the General Conditions Costs plus the Construction Contingency, the total of which shall not exceed the Guaranteed Maximum Price agreed to in the GMP Amendment, as adjusted by executed Change Order. For the purposes of Article 5, the Contract Sum does not include any Preconstruction Phase compensation.

§ 6.1.2 The Construction Manager's Fee for completed Construction Phase Work, which is payable as a percentage of the Cost of the Work as set forth in the accepted GMP Proposal and shall not include or be added on top of the General Conditions Costs or any Construction Contingency, is:
(State a percentage of Cost of the Work or other provision for determining the Construction Manager's Fee.)

«2.25% »

The Construction Manager's Fee includes all home office expenses, profit, overhead, transportation, travel, meals, and lodging, legal fees, internal accounting, relocation expenses, administrative support, office trailer equipment & supplies, office printing, training, licensing, and other related expenses and in no event be duplicated in or reimbursable as part of the General Conditions Costs or other compensation under the Contract.

All labor-related costs that are part of the Construction Manager's Fee shall include all costs paid or incurred by the Construction Manager, as required by law or collective bargaining agreements, for taxes, insurance, contributions, assessments and benefits and, for personnel not covered by collective bargaining agreements, customary benefits such as sick leave, medical and health benefits, holidays, vacations and pensions.

§ 6.1.3 The method of adjustment of the Construction Manager's Fee for changes in the Work:

« Construction Manager's Fee will be applied to the Cost of the Work portion of such change (addition or reduction, as applicable) »

§ 6.1.4 Limitations, if any, on a Subcontractor's overhead and profit for increases in the cost of its portion of the Work:

« 10% cumulative on all tiers of subcontractors, including Construction Manager's self-performed work»

AIA Document A133 – 2019. Copyright © 1991, 2003, 2009, and 2019. All rights reserved. User Notes: (2016497530)

§ 6.1.5 General Conditions Costs. Owner and Construction Manager agree that Construction Manager has established the cost for the Construction Manager's general conditions for the Project (the "General Conditions Costs") will be reflected on in the GMP Amendment. Construction Manager represents that all administrative and supervisory personnel costs, direct overhead, and other onsite costs and expenses that are expected to be incurred by the Construction Manager in the performance of its administrative, supervisory, and management responsibilities under the Contract will be described or itemized in the GMP Proposal. The Owner and Construction Manager agree that the General Conditions Costs will be reimbursable to the Construction Manager subject to the limitations and restrictions expressly set forth in this Contract the total amount Construction Manager shall be reimbursed by Owner for General Conditions Costs will not exceed the amount in the GMP Amendment, except as modified by Change Order. The General Conditions Costs shall be paid in each monthly Application for Payment based on the percentage of completion of the Construction Phase at that time such that payment of General Conditions Costs shall equal 100% at Final Completion. Construction Manager's right to payment of General Conditions Costs shall be limited to this monthly amount, subject to the Change Order and Construction Change Directive provisions in in Article 7 of the General Conditions. General Conditions Costs will be subject to audit as provided in Article 10.

§ 6.1.6 Rental rates for Construction Manager-owned equipment shall not exceed « » percent (« » %) of the standard rental rate paid at the place of the Project.

§ 6.1.7 Liquidated damages, if any:
(Insert terms and conditions for liquidated damages, if any.)

« For each consecutive calendar day after the deadline for Substantial Completion the Work is incomplete, the amount of one thousand dollars ($1,000) will be deducted from the money due or that becomes due the Construction Manager, not as a penalty but as liquidated damages representing the parties' estimate at the time of executing this Agreement of the damages that the Owner will sustain for late completion. »

§ 6.1.8 Other:
(Insert provisions for bonus, cost savings or other incentives, if any, that might result in a change to the Contract Sum.)

« NA »

§ 6.2 Guaranteed Maximum Price
The Construction Manager guarantees that the Contract Sum shall not exceed the Guaranteed Maximum Price set forth in the Guaranteed Maximum Price Amendment, subject to additions and deductions by Change Order as provided in the Contract Documents. Costs which would cause the Guaranteed Maximum Price to be exceeded shall be paid by the Construction Manager without reimbursement by the Owner. Except to the extent Construction Manager makes a successful Claim in accordance with the General Conditions of Contract, Article 15, if the Cost of the Work, including the Construction Manager's General Conditions Costs, together with the Construction Manager's Fee, exceed the GMP, then Construction Manager shall pay such excess from its own funds and shall have no claim against Owner on account thereof. If Owner is required to pay any such excess for any reason, Construction Manager shall be obligated to reimburse Owner such amounts plus interest and all costs of collection, including without limitation, attorneys' fees and expert costs.

§ 6.3 Changes in the Work
§ 6.3.1 Owner in its sole discretion may, pursuant to the procedures set forth in this Article 6 and in Article 7 of the General Conditions, authorize changes in the Work, issue additional instructions, require additional Work or direct the omission of Work previously ordered. Construction Manager will use commercially reasonable efforts to implement and perform such modifications without impacting the established schedule for performing and completing any Work. If it is not possible to avoid such an impact, Construction Manager will promptly notify Owner of the anticipated impact and obtain Owner's consent prior to implementing the applicable modification. Owner, in its sole discretion, may forego or delay such modifications or temporarily adjust the Work to be performed by Construction Manager, or the schedules associated therewith, to permit Construction Manager's implementation and performance of such modifications.

§ 6.3.1.1 Not used.

User Notes: (2016497530)

§ 6.3.2 Adjustments to the Guaranteed Maximum Price on account of changes in the Work subsequent to the execution of the Guaranteed Maximum Price Amendment may be determined by any of the methods listed in Article 7 of AIA Document A201–2017, General Conditions of the Contract for Construction.

§ 6.3.3 Adjustments to subcontracts awarded on the basis of a stipulated sum shall be determined in accordance with Article 7 of A201–2017, as they refer to "cost" and "fee," and not by Articles 6 and 7 of this Agreement. Adjustments to subcontracts awarded with the Owner's prior written consent on the basis of cost plus a fee shall be calculated in accordance with the terms of those subcontracts.

§ 6.3.4 In calculating adjustments to the Guaranteed Maximum Price, the terms "cost" and "costs" as used in Article 7 of AIA Document A201–2017 shall mean the Cost of the Work as defined in Article 7 of this Agreement and the term "fee" shall mean the Construction Manager's Fee as defined in Section 6.1.2 of this Agreement.

§ 6.3.5 Not Used.

ARTICLE 7 COST OF THE WORK FOR CONSTRUCTION PHASE

§ 7.1 Costs to Be Reimbursed

§ 7.1.1 The term Cost of the Work shall mean costs necessarily incurred by the Construction Manager in the proper performance of the Work. The Cost of the Work shall include only the items set forth in Sections 7.1 through 7.7. Notwithstanding the breakdown or categorization of any costs to be reimbursed in this Article 7 or elsewhere in the Contract Documents, there shall be no duplication of costs, and no items of the Cost of the Work shall be payable as General Conditions Costs or elsewhere in the Contract. And no costs that should have been included in the General Conditions Costs may be billed as Cost of the Work.

§ 7.1.2 Where, pursuant to the Contract Documents, any cost is subject to the Owner's prior approval, the Construction Manager shall obtain such approval in writing prior to incurring the cost.

§ 7.1.3 Costs shall be at rates not higher than the standard rates paid at the place of the Project, except with prior approval of the Owner.

§ 7.2 Labor Costs

§ 7.2.1 Wages or salaries of construction workers directly employed by the Construction Manager to perform the construction of the Work at the site or, with the Owner's prior approval, at off-site workshops.

§ 7.2.2 Wages or salaries of the Construction Manager's supervisory and administrative personnel when stationed at the site and performing Work, with the Owner's prior approval.

§ 7.2.2.1 Wages or salaries of the Construction Manager's supervisory and administrative personnel when performing Work and stationed at a location other than the site, but only for that portion of time required for the Work, and limited to the personnel and activities listed below:
(Identify the personnel, type of activity and, if applicable, any agreed upon percentage of time to be devoted to the Work.)

«NA »

§ 7.2.3 Wages and salaries of the Construction Manager's supervisory or administrative personnel engaged at factories, workshops or while traveling, in expediting the production or transportation of materials or equipment required for the Work, but only for that portion of their time required for the Work.

§ 7.2.4 Costs paid or incurred by the Construction Manager, as required by law or collective bargaining agreements, for taxes, insurance, contributions, assessments and benefits and, for personnel not covered by collective bargaining agreements, customary benefits such as sick leave, medical and health benefits, holidays, vacations and pensions, provided such costs are based on wages and salaries included in the Cost of the Work under Sections 7.2.1 through 7.2.3.

§ 7.2.5 If agreed rates for labor costs, in lieu of actual costs, are provided in this Agreement, the rates shall remain unchanged throughout the duration of this Agreement, unless the parties execute a Modification.

User Notes: (2016497530)

§ 7.3 Subcontract Costs
Payments made by the Construction Manager to Subcontractors in accordance with the requirements of the subcontracts and this Agreement.

§ 7.4 Costs of Materials and Equipment Incorporated in the Completed Construction
§ 7.4.1 Costs, including transportation and storage at the site, of materials and equipment incorporated, or to be incorporated, in the completed construction.

§ 7.4.2 Costs of materials described in the preceding Section 7.4.1 in excess of those actually installed to allow for reasonable waste and spoilage. Unused excess materials, if any, shall become the Owner's property at the completion of the Work or, at the Owner's option, shall be sold by the Construction Manager. Any amounts realized from such sales shall be credited to the Owner as a deduction from the Cost of the Work.

§ 7.5 Certain Offsite Materials
§ 7.5.1 Not used.

§ 7.5.2 Not used.

§ 7.5.3 Not used.

§ 7.5.4 Not used..

§ 7.5.5 Costs of materials and equipment suitably stored off the site at a mutually acceptable location, subject to the Owner's prior approval, provided the provisions of this section and Section 9.3.2 of the General Conditions are satisfied. Construction Manager will deliver, handle, store and install materials in accordance with the manufacturers' instructions. Construction Manager will store materials for the Project only on-Site or at off-Site locations Owner has pre-approved in writing. Surety for any performance or payment bond on the Project, if any, expressly consents to storage of materials at such off-Site locations approved by Owner.

§ 7.6 Miscellaneous Costs
§ 7.6.1 Premiums for that portion of insurance and bonds required by the Contract Documents that can be directly attributed to this Contract.

§ 7.6.1.1 Not used.

§ 7.6.1.2 Not used.

§ 7.6.2 Sales, use, or similar taxes, imposed by a governmental authority, that are related to the Work and for which the Construction Manager is liable; provided that no tax shall be included as part of the Cost of the Work or otherwise payable for which Owner is not liable as a governmental entity.

§ 7.6.3 Fees and assessments for the building permit, and for other permits, licenses, and inspections, for which the Construction Manager is required by the Contract Documents to pay.

§ 7.6.4 Fees of laboratories for tests required by the Contract Documents; except those related to defective or nonconforming Work for which reimbursement is excluded under Article 13 of AIA Document A201–2017 or by other provisions of the Contract Documents, and which do not fall within the scope of Section 7.7.3.

§ 7.6.5 Royalties and license fees paid for the use of a particular design, process, or product, required by the Contract Documents.

§ 7.6.5.1 The cost of defending suits or claims for infringement of patent rights arising from requirements of the Contract Documents, payments made in accordance with legal judgments against the Construction Manager resulting from such suits or claims, and payments of settlements made with the Owner's consent, unless the Construction Manager had reason to believe that the required design, process, or product was an infringement of a copyright or a patent, and the Construction Manager failed to promptly furnish such information to the Architect as required by Article 3 of AIA

Document A201–2017. The costs of legal defenses, judgments, and settlements shall not be included in the Cost of the Work used to calculate the Construction Manager's Fee or subject to the Guaranteed Maximum Price.

§ 7.6.6 Costs for communications services, electronic equipment, and software, directly related to the Work and located at the site, with the Owner's prior approval.

§ 7.6.7 Costs of document reproductions and delivery charges.

§ 7.6.8 Deposits lost for causes other than the Construction Manager's negligence or failure to fulfill a specific responsibility in the Contract Documents, or the negligence of anyone for whom Construction Manager is responsible or their failure to fulfill a specific responsibility in the Contract Documents.

§ 7.6.9 Not used.

§ 7.6.10 Not used.

§ 7.6.11 Not used.

§ 7.7 Other Costs and Emergencies

§ 7.7.1 Other costs incurred in the performance of the Work, if, and to the extent, approved in advance in writing by the Owner, and to the extent not (a) caused by the negligence of Construction Manager, a Subcontractor, suppliers or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable to fulfill a specific responsibility of the Contract or (b) capable of being prevented through timely notice of an unsafe condition to the Owner..

§ 7.7.2 Costs incurred in taking action to prevent threatened damage, injury, or loss, in case of an emergency affecting the safety of persons and property, as provided in Article 10 of AIA Document A201–2017.

§ 7.7.3 Costs of repairing or correcting damaged or nonconforming Work executed by the Construction Manager, Subcontractors, or suppliers that was damaged by Owner or persons for whom Owner is responsible, provided that such damaged or nonconforming Work was not caused by the negligence of, or failure to fulfill a specific responsibility by, the Construction Manager, and only to the extent that the cost of repair or correction is not recovered by the Construction Manager from insurance, sureties, Subcontractors, suppliers, or others.

§ 7.7.4 The costs described in Sections 7.1 through 7.7 shall be included in the Cost of the Work, notwithstanding any provision of AIA Document A201–2017 or other Conditions of the Contract which may require the Construction Manager to pay such costs, unless such costs are excluded by the provisions of Section 7.9.

§ 7.8 Related Party Transactions

§ 7.8.1 For purposes of this Section 7.8, the term "related party" shall mean (1) a parent, subsidiary, affiliate, or other entity having common ownership of, or sharing common management with, the Construction Manager; (2) any entity in which any stockholder in, or management employee of, the Construction Manager holds an equity interest in excess of ten percent in the aggregate; (3) any entity which has the right to control the business or affairs of the Construction Manager; or (4) any person, or any member of the immediate family of any person, who has the right to control the business or affairs of the Construction Manager.

§ 7.8.2 If any of the costs to be reimbursed arise from a transaction between the Construction Manager and a related party, the Construction Manager shall notify the Owner of the specific nature of the contemplated transaction, including the identity of the related party and the anticipated cost to be incurred, before any such transaction is consummated or cost incurred. If the Owner, after such notification, authorizes the proposed transaction in writing, then the cost incurred shall be included as a cost to be reimbursed, and the Construction Manager shall procure the Work, equipment, goods, or service, from the related party, as a Subcontractor, according to the terms of Article 9. If the Owner fails to authorize the transaction in writing, the Construction Manager shall procure the Work, equipment, goods, or service from some person or entity other than a related party according to the terms of Article 9.

§ 7.9 Costs Not To Be Reimbursed

§ 7.9.1 The Cost of the Work shall not include the items listed below:

AIA Document A133 – 2019. Copyright © 1991, 2003, 2009, and 2019. All rights reserved. User Notes: (2016497530)

.1 Salaries and other compensation of the Construction Manager's personnel stationed at the Construction Manager's principal office or offices other than the site office, except as specifically provided in Section 7.2, or as may be provided in Article 14;

.2 Bonuses, profit sharing, incentive compensation, and any other discretionary payments, paid to anyone hired by the Construction Manager or paid to any Subcontractor or vendor, unless the Owner has provided prior approval;

.3 Expenses of the Construction Manager's principal office and offices other than the site office;

.4 Overhead and general expenses, except as may be expressly included in Sections 7.1 to 7.7;

.5 The Construction Manager's capital expenses, including interest on the Construction Manager's capital employed for the Work;

.6 Costs due to the negligence of, or failure to fulfill a specific responsibility of the Contract by, the Construction Manager, Subcontractors, and suppliers, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable;

.7 Any cost not specifically and expressly described in Sections 7.1 to 7.7;

.8 Costs, other than costs included in Change Orders approved by the Owner, that would cause the Guaranteed Maximum Price to be exceeded;

.9 Costs for services incurred during the Preconstruction Phase;

.10 Costs and expenses arising from Construction Manager's indemnity obligations, including but not limited to, Construction Manager's costs and expenses in removing or defending against a mechanic's lien or bond claim asserted against the Owner and/or its property, unless such mechanic's lien or bond claim arises from Owner's wrongful failure to make timely payments or unless such lien or claim arises from dispute for which Construction Manager is defending Owner's position;

.11 Costs, including co-payments, not reimbursed by insurance, including but not limited to deductibles incurred by Construction Manager for losses covered under any insurance policy obtained for the Project. Deductible costs actually incurred for an All-Builders' Risk claim may be a Cost of the Work but shall not increase the GMP;

.12 Penalties for the failure of the Construction Manager or a Subcontractor or another party for whom Construction Manager is responsible under the Contract to comply with applicable laws and regulations, unless the penalties are the result of the Construction Manager's compliance with the Contract Documents; and

.13 Any costs not expressly included as part of the Cost of the Work in Sections 7.1 – 7.8 above.

ARTICLE 8 DISCOUNTS, REBATES, AND REFUNDS

§ 8.1 Cash discounts obtained on payments made by the Construction Manager shall accrue to the Owner if (1) before making the payment, the Construction Manager included the amount to be paid, less such discount, in an Application for Payment and received payment from the Owner, or (2) the Owner has deposited funds with the Construction Manager with which to make payments; otherwise, cash discounts shall accrue to the Construction Manager. Trade discounts, rebates, refunds, and amounts received from sales of surplus materials and equipment shall accrue to the Owner, and the Construction Manager shall make provisions so that they can be obtained.

§ 8.2 Amounts that accrue to the Owner in accordance with the provisions of Section 8.1 shall be credited to the Owner as a deduction from the Cost of the Work.

ARTICLE 9 SUBCONTRACTS AND OTHER AGREEMENTS

§ 9.1 Those portions of the Work that the Construction Manager does not customarily perform with the Construction Manager's own personnel shall be performed under subcontracts or other appropriate agreements with the Construction Manager. The Owner may designate specific persons from whom, or entities from which, the Construction Manager shall obtain bids. The Construction Manager shall obtain bids from Subcontractors, and from suppliers of materials or equipment fabricated especially for the Work, who are qualified to perform that portion of the Work in accordance with the requirements of the Contract Documents. The Construction Manager shall deliver such bids to the Architect and Owner with an indication as to which bids the Construction Manager intends to accept. The Owner then has the right to review the Construction Manager's list of proposed subcontractors and suppliers in consultation with the Architect and, subject to Section 9.1.1, to object to any subcontractor or supplier. Any advice of the Architect, or approval or objection by the Owner, shall not relieve the Construction Manager of its responsibility to perform the Work in accordance with the Contract Documents. The Construction Manager shall not be required to contract with anyone to whom the Construction Manager has reasonable objection.

User Notes: (2016497530)

§ 9.1.1 When a specific subcontractor or supplier (1) is recommended to the Owner by the Construction Manager; (2) is qualified to perform that portion of the Work; and (3) has submitted a bid that conforms to the requirements of the Contract Documents without reservations or exceptions, but the Owner requires that another bid be accepted, then the Construction Manager may require that a Change Order be issued to adjust the Guaranteed Maximum Price by the difference between the bid of the person or entity recommended to the Owner by the Construction Manager and the amount of the subcontract or other agreement actually signed with the person or entity designated by the Owner.

§ 9.2 Subcontracts or other agreements shall conform to the applicable payment provisions of this Agreement, and shall not be awarded on the basis of cost plus a fee without the Owner's prior written approval. If a subcontract is awarded on the basis of cost plus a fee, the Construction Manager shall provide in the subcontract for the Owner to receive the same audit rights with regard to the Subcontractor as the Owner receives with regard to the Construction Manager in Article 10.

§ 9.3 Trade Contractors, Subcontractors & Suppliers

§ 9.3.1 In consultation with Owner and Architect, Construction Manager shall publicly advertise for, and distribute all necessary bidding materials and receive bids or proposals using competitive sealed proposals procurement process from a minimum of three (3) trade contractors, subcontractors, and suppliers, some of which may be designated by the Owner, for the performance of all major elements of the Project Work other than the minor work that may be included in the general conditions. Construction Manager shall establish criteria for determining the bid/proposal that provides the best value to the Owner. All subcontracts must be on a lump sum basis unless other payment terms are approved in writing and in advance by the Owner

The Construction Manager shall notify the Owner in advance in writing of the date it will receive the bids/proposals. Any bids received before Owner's acceptance of the GMP Proposal shall remain open until after the acceptance by Owner of the GMP Proposal. The Construction Manager may seek, as provided in this paragraph, to self-perform portions of the Work required to be publicly advertised. If the Construction Manager submits its own proposal for any portion of the Work, it shall do so in the same manner as required of all trade contractors, subcontractors, and suppliers and submit shall submit its proposal(s) to the Owner at least twenty-four (24) hours prior to the published opening of bids. Owner shall decide whether Construction Manager's proposal for self-performing portions of the Work offers the best value to Owner. If Construction Manager's proposal is selected by the Owner, the proposed cost for the self-performed work shall be paid to the Construction Manager, pursuant to progress payments, as if Construction Manager were a subcontractor. Such payments to Construction Manager shall be included in the Cost of the Work and the Construction Manager shall not receive the Construction Manager Fee or any additional fee for self-performed work. The Construction Manager shall review with Owner all trade contractor and subcontractor bids or proposals in a manner that does not disclose the contents of the bid or proposal during the selection process to a person not employed by the Owner or Architect or any other professional retained by the Owner. Based on the selection criteria included in the request for proposals, Construction Manager shall recommend to the Owner the bid/proposal that provides the best value. Upon Owner's concurrence in the final terms of the subcontract, Construction Manager shall enter into a written subcontract for the subcontract work and promptly provide a copy to the Owner. All bids or proposals shall be made available to the Owner on request and to the public after the later of the award of the subcontract or the seventh day after the date of final selection of bids or proposals.

If Construction Manager reviews, evaluates, and recommends to Owner a bid/proposal from a reputable trade contractor or subcontractor, but Owner requires another bid/proposal to be accepted, then, pursuant to Texas Government Code Chapter 2269, Subchapter F, the Owner shall compensate the Construction Manager by a change in price, time, and/or the Guaranteed Maximum Price for any additional cost and risk that the Construction Manager actually incurs because of the Owner's requirement that another bid or proposal be accepted. Construction Manager shall state the additional cost and/or risk in writing and shall provide written proof of same before Owner is obligated to compensate Construction Manager. If Owner's requirement that another bid or proposal be accepted results in a lower cost, the GMP shall be reduced by such amount the Owner's required bid or proposal is less than the bid or proposal recommended by Construction Manager.

The Construction Manager shall adhere to and include among the other terms for bidding the following specific requirements of bidders in the information to proposers:

.1 The successful proposer's responsibility to provide workers' compensation insurance and certify its compliance in accordance with Texas Labor Code Chapter 406;

.2 The successful proposer's responsibility to pay prevailing wages pursuant to Texas Government Code Chapter 2258;

User Notes: (2016497530)

.3 A notice of the sales tax exemption for the Work and the procedure for obtaining any required exemption verification or certificate;

.4 The notice regarding trench and shoring safety required by Texas Health and Safety Code, Section 756.02;

.5 Any other notice required by Owner.

Nothing herein shall preclude the Construction Manager from including other notices required or allowed by law. The Construction Manager shall meet the requirements of Chapter 2269, Subchapter F, with respect to selection of and contracting with trade contractors, subcontractors and suppliers.

§ 9.3.2 Construction Manager shall include in each subcontract a provision permitting Construction Manager to assign to Owner each Subcontract upon termination of this Agreement pursuant to Section 14.2 of the General Conditions. Upon such termination, Construction Manager agrees, upon Owner's written request, to execute an assignment of any or all subcontracts to Owner. Each subcontract shall contain provisions stating that: (1) upon assignment of each subcontract to Owner, Subcontractor shall assume toward the Owner all of the obligations and responsibilities which the Construction Manager by the Contract Documents, assumes toward the Owner; (2) Owner's liability to Subcontractor for any costs incurred by Subcontractor prior to the assignment shall be limited to amounts that would have been properly owed by Owner to Construction Manager and by Construction Manager to the Subcontractor for work performed by that Subcontractor prior to the termination and for which Owner has not yet issued payment to Construction Manager unless otherwise agreed to in writing by Owner following the assignment.

§ 9.3.3 Value engineering or cost saving alternative proposals contained in any Construction Manager or Subcontractor bids must be set forth as alternates to bid required by Drawings or Specifications. Construction Manager shall consult with Owner before awarding any alternates to any Subcontractors and shall provide Owner with a copy of each proposed alternate for Owner's review and acceptance. "Value engineering" has its commonly accepted meaning within the construction industry and does not imply the practice of architecture or engineering with or without a license.

ARTICLE 10 ACCOUNTING RECORDS

The Construction Manager shall keep full and detailed records and accounts related to the Cost of the Work and the General Conditions Costs, and exercise such controls, as may be necessary for proper financial management under this Contract and to substantiate all costs incurred. The accounting and control systems shall be satisfactory to the Owner. The Owner and the Owner's auditors shall, during regular business hours and upon reasonable notice, be afforded access to, and shall be permitted to audit and copy, the Construction Manager's records and accounts, including complete documentation supporting accounting entries, books, job cost reports, correspondence, instructions, drawings, receipts, subcontracts, Subcontractor's proposals, Subcontractor's invoices, purchase orders, vouchers, memoranda, and other data relating to this Contract. The Construction Manager shall preserve these records for a period of three years after final payment, or for such longer period as may be required by law.

ARTICLE 11 PAYMENTS FOR CONSTRUCTION PHASE SERVICES

§ 11.1 Progress Payments

§ 11.1.1 Based upon Applications for Payment submitted with all required supporting documentation to the Architect and Owner by the Construction Manager in accordance with the requirements of Section 9.3 of the General Conditions, and Certificates for Payment issued by the Architect, the Owner shall make progress payments on account of the Contract Sum, to the Construction Manager, as provided below and elsewhere in the Contract Documents.

§ 11.1.2 The period covered by each Application for Payment shall be one calendar month ending on the last day of the month, or as follows:

«NA »

§ 11.1.3 Provided that all conditions precedent to payment set forth in the Contract Documents have been satisfied, including, but not limited to, such documentation required by this Article 11 and the General Conditions, then Owner shall make payment of the undisputed certified amount to the Construction Manager not later than « thirty » (« 30 ») days after the Owner receives the Certificate for Payment.
(Federal, state or local laws may require payment within a certain period of time.)

User Notes: (2016497530)

§ 11.1.4 With each Application for Payment, the Construction Manager shall submit payrolls, petty cash accounts, receipted invoices or invoices with check vouchers attached, and any other evidence required by the Owner or Architect to demonstrate that payments already made by the Construction Manager on account of the Cost of the Work equal or exceed progress payments already received by the Construction Manager, plus payrolls for the period covered by the present Application for Payment, less that portion of the progress payments attributable to the Construction Manager's Fee.

§ 11.1.5 Each Application for Payment shall be based on the most recent schedule of values submitted by the Construction Manager in accordance with the Contract Documents. The schedule of values shall allocate the entire Guaranteed Maximum Price among: (1) the various portions of the Work; (2) any contingency for costs that are included in the Guaranteed Maximum Price but not otherwise allocated to another line item or included in a Change Order; and (3) the Construction Manager's Fee.

§ 11.1.5.1 Construction Manager shall update the Schedule of Values monthly to show the progress of the Work in such form and supported by such data to substantiate its accuracy as the Architect may require. The schedule of values shall be used as a basis for reviewing the Construction Manager's Applications for Payment.

§ 11.1.5.2 The allocation of the Guaranteed Maximum Price under this Section 11.1.5 shall not constitute a separate guaranteed maximum price for the Cost of the Work of each individual line item in the schedule of values.

§ 11.1.5.3 When the Construction Manager allocates costs from a contingency to another line item in the schedule of values, the Construction Manager shall submit supporting documentation to the Architect.

§ 11.1.6 Applications for Payment shall show the percentage of completion of each portion of the Work as of the end of the period covered by the Application for Payment. The percentage of completion shall be the lesser of (1) the percentage of that portion of the Work which has actually been completed, or (2) the percentage obtained by dividing (a) the expense that has actually been incurred by the Construction Manager on account of that portion of the Work and for which the Construction Manager has made payment or intends to make payment prior to the next Application for Payment, by (b) the share of the Guaranteed Maximum Price allocated to that portion of the Work in the schedule of values.

§ 11.1.6.1 In addition to other required items, each Application for Payment shall be accompanied by the following documentation, statements and information, in form and substance reasonably satisfactory to the Owner and in compliance with applicable state statutes:

.1 statement under oath by Construction Manager that all bills or obligations incurred by Construction Manager, for which previous Applications for Payment have been submitted and paid by Owner, have been paid by Construction Manager, or, if any bill or obligation remains outstanding, the statement shall fully disclose the outstanding bill or obligation by stating the name of the person or entity to whom the bill or obligation remains outstanding, the amount of the outstanding bill or obligation, and the reason why such bill or obligation has not been paid; Construction Manager's sworn statement must include Construction Manager's Subcontractor list in Excel electronic format and must reflect the amount of change orders entered into, by Construction Manager with Subcontractors;

.2 a duly executed Conditional Waiver and Release on Progress Payment from the Construction Manager and each Subcontractor waiving all such liens or bond claims for payment for the work covered by the Application for Payment being submitted conditioned upon receipt of payment;

.3 a duly executed Unconditional Waiver and Release on Progress Payment from Construction Manager and each Subcontractor waiving all liens or bond claims for payment for the work covered by the previous month's Application for Payment;

.4 such other reasonable information, documentation, and material as the Owner may request.

§ 11.1.7 In accordance with AIA Document A201–2017 and subject to other provisions of the Contract Documents, the amount of each progress payment shall be computed as follows:

§ 11.1.7.1 The amount of each progress payment shall first include:

User Notes: (2016497530)

.1 That portion of the Guaranteed Maximum Price properly allocable to completed Work as determined by multiplying the percentage of completion of each portion of the Work by the share of the Guaranteed Maximum Price allocated to that portion of the Work in the most recent schedule of values;

.2 That portion of the Guaranteed Maximum Price properly allocable to materials and equipment delivered and suitably stored at the site for subsequent incorporation in the completed construction or, if approved in writing in advance by the Owner, suitably stored off the site at a location agreed upon in writing;

.3 That portion of Construction Change Directives that the Architect determines, in the Architect's professional judgment, to be reasonably justified; and

.4 The Construction Manager's Fee, computed upon the Cost of the Work described in the preceding Sections 11.1.7.1.1 and 11.1.7.1.2 at the rate stated in Section 6.1.2 or, if the Construction Manager's Fee is stated as a fixed sum in that Section, an amount that bears the same ratio to that fixed-sum fee as the Cost of the Work included in Sections 11.1.7.1.1 and 11.1.7.1.2 bears to a reasonable estimate of the probable Cost of the Work upon its completion.

§ 11.1.7.2 The amount of each progress payment shall then be reduced by:

.1 The aggregate of any amounts previously paid by the Owner;

.2 The amount, if any, for Work that remains uncorrected and for which the Architect has previously withheld a Certificate for Payment as provided in Article 9 of AIA Document A201–2017;

.3 Any amount for which the Construction Manager does not intend to pay a Subcontractor or material supplier, unless the Work has been performed by others the Construction Manager intends to pay;

.4 For Work performed or defects discovered since the last payment application, any amount for which the Architect may withhold payment, or nullify a Certificate for Payment in whole or in part, as provided in Article 9 of AIA Document A201–2017;

.5 The shortfall, if any, indicated by the Construction Manager in the documentation required by Section 11.1.4 to substantiate prior Applications for Payment, or resulting from errors subsequently discovered by the Owner's auditors in such documentation; and

.6 Retainage withheld pursuant to Section 11.1.8.

§ 11.1.8 Retainage

§ 11.1.8.1 For each progress payment made prior to Final Completion of the Work, the Owner may withhold the following amount, as retainage, from the payment otherwise due:
(Insert a percentage or amount to be withheld as retainage from each Application for Payment. The amount of retainage may be limited by governing law.)

« 5% »

§ 11.1.8.1.1 The following items are not subject to retainage:
(Insert any items not subject to the withholding of retainage, such as general conditions, insurance, etc.)

«NA »

§ 11.1.8.2 Reduction or limitation of retainage, if any, shall be as follows:
(If the retainage established in Section 11.1.8.1 is to be modified prior to Substantial Completion of the entire Work, insert provisions for such modification.)

«NA »

§ 11.1.8.3 Except as set forth in this Section 11.1.8.3, upon Final Completion of the Work, the Construction Manager may submit an Application for Payment that includes the retainage withheld from prior Applications for Payment pursuant to this Section 11.1.8. The Application for Payment submitted at Substantial Completion shall not include retainage as follows:
(Insert any other conditions for release of retainage, such as upon completion of the Owner's audit and reconciliation, upon Substantial Completion.)

«NA »

User Notes: (2016497530)

§ 11.1.9 If final completion of the Work is materially delayed through no fault of the Construction Manager, the Owner shall pay the Construction Manager any additional amounts in accordance with Article 9 of AIA Document A201–2017.

§ 11.1.10 Except with the Owner's prior written approval, including any requirements regarding ownership and insurance, the Construction Manager shall not make advance payments to suppliers for materials or equipment which have not been delivered and suitably stored at the site.

§ 11.1.11 The Owner and the Construction Manager shall agree upon a mutually acceptable procedure for review and approval of payments to Subcontractors, and the percentage of retainage held on Subcontracts, and the Construction Manager shall execute subcontracts in accordance with those agreements.

§ 11.1.12 In taking action on the Construction Manager's Applications for Payment the Architect shall be entitled to rely on the accuracy and completeness of the information furnished by the Construction Manager, and such action shall not be deemed to be a representation that (1) the Architect has made a detailed examination, audit, or arithmetic verification, of the documentation submitted in accordance with Section 11.1.4 or other supporting data; (2) that the Architect has made exhaustive or continuous on-site inspections; or (3) that the Architect has made examinations to ascertain how or for what purposes the Construction Manager has used amounts previously paid on account of the Contract. Such examinations, audits, and verifications, if required by the Owner, will be performed by the Owner's auditors acting in the sole interest of the Owner.

§ 11.1.13 Notwithstanding any provisions in the Contract Documents to the contrary, the Owner may withhold payment to the Construction Manager to the extent reasonably necessary to protect its interests hereunder if any one or more of the following conditions exist:

.1 Construction Manager is in default of any of its obligations hereunder or otherwise is in default under any of the Contract Documents and owner reasonably anticipates it could incur costs as a result of such default;

.2 Any part of such payment is attributable to Work which is defective or not performed in accordance with the Contract Documents; provided, however, such payment will be made as to the part thereof attributable to Work which is performed in accordance with the Contract Documents and is not defective (unless otherwise specified herein, only that portion of the Work which is defective will not be paid);

.3 Construction Manager has failed to make payments promptly to Subcontractors for material or labor used in the Work for which the Owner has made payment to the Construction Manager per the terms of this Agreement and the General Conditions;

.4 If Owner in good faith determines that the portion of the Guaranteed Maximum Price then remaining unpaid will not be sufficient to complete the Work in accordance with the Contract Documents, whereupon no additional payments will be due Construction Manager hereunder unless and until Construction Manager, at its sole cost, performs a sufficient portion of the Work so that such portion of the Guaranteed Maximum Price that remaining unpaid as determined by Owner to be sufficient to so complete the Work; or

.5 Construction Manager fails to deliver the above-required affidavits, releases and waivers of lien.

§ 11.2 Final Payment

§ 11.2.1 Final payment, constituting the entire unpaid balance of the Contract Sum, shall be made by the Owner to the Construction Manager when

.1 the Construction Manager has fully performed the Contract, except for the Construction Manager's responsibility to correct Work as provided in Article 12 of AIA Document A201–2017, and to satisfy other requirements, if any, which extend beyond final payment;

.2 the Construction Manager has submitted a final accounting for the Cost of the Work and a final Application for Payment; and

.3 a final Certificate for Payment has been issued by the Architect in accordance with Section 11.2.2.2.

AIA Document A133 – 2019. Copyright © 1991, 2003, 2009, and 2019. All rights reserved. User Notes: (2016497530)

.4 receipt of confirmation of approval of such completion by local government authorities, as evidenced by a certificate of occupancy or similar final inspection certificate; provided, however, that if the Construction Manager has only obtained a temporary certificate of occupancy due to (i) Owner's failure to complete Owner's obligations which are conditions precedent to obtaining a permanent certificate of occupancy, or (ii) additional requirements made by governmental authorities covering items not in the Contract; then final payment shall be made on the basis of such temporary certificate of occupancy;

.5 receipt by Owner of a bills paid affidavit in the form approved by Owner and conforming to any statutory requirements;

.6 a Conditional Waiver and Release of Lien and Bond Claims of Final Payment in the form approved by Owner waiving the Construction Manager's claim for payment, conditioned upon receipt of payment.

.7 a Conditional Waiver and Release of Lien and Bond Claims on Final Payment in the form approved by Owner from each Subcontractor or supplier, waiving, upon receipt of Final Payment, any and all mechanic's liens bond claims or any other claim for payment; and

.8 satisfaction by Construction Manager of the remaining close-out procedures and other final payment requirements described in the Contract Documents

§ 11.2.2. Upon completion of the Work, with the Application for Payment for Final Payment, the Construction Manager shall submit petty cash accounts, copies of invoices, and any other evidence required by Owner or Architect to demonstrate that cash disbursements already made by the Construction Manager on account of the Cost of the Work equal or exceed (1) progress payments already received by the Construction Manager; less (2) that portion of those payments attributable to the Construction Manager's Fee; plus (3) retainage applicable to prior progress payments. Owner's examination of the Construction Manager's final accounting shall not prelude Owner from exercising its rights of audit under the terms of Article 10 of this Agreement. The Owner's rights to perform an audit in accordance with the terms of Article 10 shall not be waived or otherwise be dependent on whether or not a review is performed by Owner's accountants in accordance with the terms of this Article 11.

§ 11.2.2 Within 30 days of the Owner's receipt of the Construction Manager's final accounting for the Cost of the Work, the Owner shall conduct an audit of the Cost of the Work or notify the Architect that it will not conduct an audit.

§ 11.2.2.1 If the Owner conducts an audit of the Cost of the Work, the Owner shall, within 21 days after completion of the audit, submit a written report based upon the auditors' findings to the Architect or if Owner elects not to request a written report to advise the Architect regarding the auditors' findings.

§ 11.2.2.2 Based upon such Cost of the Work as substantiated by audit and the Construction Manager's final accounting, and provided that the other conditions of Section 11.2.1 have been met, the Architect will either issue to the Owner a final Certificate for Payment with a copy to the Construction Manager, or notify the Construction Manager and Owner in writing of the Architect's reasons for withholding a certificate as provided in Article 9 of AIA Document A201–2017. The time periods stated in this Section 11.2.2 supersede those stated in Article 9 of AIA Document A201–2017. The Architect is not responsible for verifying the accuracy of the Construction Manager's final accounting.

§ 11.2.2.3 If the Owner's auditors' report concludes that the Cost of the Work, as substantiated by the Construction Manager's final accounting, is less than claimed by the Construction Manager, the Construction Manager shall be entitled to request mediation of the disputed amount without seeking an initial decision pursuant to Article 15 of AIA Document A201–2017. A request for mediation shall be made by the Construction Manager within 30 days after the Construction Manager's receipt of a copy of the Architect's final Certificate for Payment. Failure to request mediation within this 30-day period shall result in the substantiated amount reported by the Owner's auditors becoming binding on the Construction Manager. Pending a final resolution of the disputed amount, the Owner shall pay the Construction Manager the amount certified in the Architect's final Certificate for Payment.

§ 11.2.3 The Owner's final payment to the Construction Manager shall be made no later than 30 days after the issuance of the Architect's final Certificate for Payment, or as follows:

«NA »

§ 11.2.4 If, subsequent to final payment, and at the Owner's request, the Construction Manager incurs costs, described in Sections 7.1 through 7.7, and not excluded by Section 7.9, to correct defective or nonconforming Work, the Owner shall reimburse the Construction Manager for such costs, and the Construction Manager's Fee applicable thereto, on the same basis as if such costs had been incurred prior to final payment, but not in excess of the Guaranteed Maximum Price. If

User Notes: (2016497530)

adjustments to the Contract Sum are provided for in Section 6.1.7, the amount of those adjustments shall be recalculated, taking into account any reimbursements made pursuant to this Section 11.2.4 in determining the net amount to be paid by the Owner to the Construction Manager.

§ 11.3 Interest
Payments due and unpaid under the Contract shall bear interest from the date payment is due at the rate stated below.
(Insert rate of interest agreed upon, if any.)

If owed to Construction Manager for payment of undisputed amounts under the Contract, at the rate provided by the Texas Government Code; and if owed to Owner, at the maximum rate permitted by law.

ARTICLE 12 DISPUTE RESOLUTION
§ 12.1 Intentionally deleted.

§ 12.2 Binding Dispute Resolution
For any Claim subject to, but not resolved by mediation pursuant to Article 15 of AIA Document A201–2017, the method of binding dispute resolution shall be as follows:
(Check the appropriate box.)

[« »] Arbitration pursuant to Article 15 of AIA Document A201–2017

[« X »] Litigation in a court of competent jurisdiction

[« »] Other: *(Specify)*

« »

If the Owner and Construction Manager do not select a method of binding dispute resolution, or do not subsequently agree in writing to a binding dispute resolution method other than litigation, Claims will be resolved by litigation in a court of competent jurisdiction.

ARTICLE 13 TERMINATION OR SUSPENSION
§ 13.1 Termination Prior to Execution of the Guaranteed Maximum Price Amendment
§ 13.1.1 If the Owner and the Construction Manager do not reach an agreement on the Guaranteed Maximum Price, the Owner may terminate this Agreement upon not less than seven days' written notice to the Construction Manager as provided in Section 3.2.6 above.

§ 13.1.2 In the event of termination of this Agreement pursuant to Section 13.1.1, the Construction Manager shall be compensated as provided in Section 3.2.6 above for Preconstruction Phase services completed and accepted. In no event shall the Construction Manager's compensation under this Section exceed the compensation set forth in Section 5.1.

§ 13.1.3 Prior to the execution of the Guaranteed Maximum Price Amendment, the Owner may terminate this Agreement upon not less than seven days' written notice to the Construction Manager for the Owner's convenience and without cause.

§ 13.1.4 In the event of termination of this Agreement pursuant to Section 13.1.3, the Construction Manager shall be compensated for Preconstruction Phase services completed and accepted prior to receipt of a notice of termination. In no event shall the Construction Manager's compensation under this Section exceed the compensation set forth in Section 5.1.

§ 13.1.5 If the Owner terminates the Contract pursuant to Section 13.1.3 after the commencement of the Construction Phase but prior to the execution of the Guaranteed Maximum Price Amendment, the Owner shall pay to the Construction Manager an amount calculated as follows, which amount shall be in addition to any compensation paid to the Construction Manager under Section 13.1.4:

.1 Take the Cost of the Work incurred by the Construction Manager to the date of termination;
.2 Add the Construction Manager's Fee computed upon the Cost of the Work to the date of termination at the rate stated in Section 6.1 or, if the Construction Manager's Fee is stated as a fixed sum in that

Section, an amount that bears the same ratio to that fixed-sum Fee as the Cost of the Work at the time of termination bears to a reasonable estimate of the probable Cost of the Work upon its completion;

.3 Subtract the aggregate of previous payments made by the Owner for Construction Phase services; and

4. if Owner determines the GMP Proposal was not submitted in good faith, subtract the costs and damages incurred, or to be incurred, by the Owner under Article 14 of AIA Document A201–2017.

§ 13.1.6 The Owner shall also pay the Construction Manager fair compensation, either by purchase or rental at the election of the Owner, for any equipment owned by the Construction Manager that the Owner elects to retain and that is not otherwise included in the Cost of the Work under Section 13.1.5.1. To the extent that the Owner elects to take legal assignment of subcontracts and purchase orders (including rental agreements), the Construction Manager shall, as a condition of receiving the payments referred to in this Article 13, execute and deliver all such papers and take all such steps, including the legal assignment of such subcontracts and other contractual rights of the Construction Manager, as the Owner may require for the purpose of fully vesting in the Owner the rights and benefits of the Construction Manager under such subcontracts or purchase orders. All Subcontracts, purchase orders and rental agreements entered into by the Construction Manager will contain provisions allowing for assignment to the Owner as described above.

§ 13.2 Termination or Suspension Following Execution of the Guaranteed Maximum Price Amendment

§ 13.2.1 Termination

The Contract may be terminated by the Owner or the Construction Manager as provided in Article 14 of AIA Document A201–2017.

§ 13.2.2 Termination by the Owner for Cause

§ 13.2.2.1 In addition to the reasons set forth in Section 14.2 of the General Conditions, Owner may terminate the Agreement, in whole or in part, for cause effective after providing Construction Manager seven (7) days' notice and opportunity to cure or commence to cure, if any one or more of the following occurs: (a) Construction Manager files a voluntary petition in bankruptcy or an involuntary petition is filed against it, Construction Manager is adjudged bankrupt, a court assumes jurisdiction of the assets of Construction Manager under a federal reorganization act or other statute, a trustee or receiver is appointed by a court for all or a substantial portion of the assets of Construction Manager, Construction Manager becomes insolvent, suspends business or ceases to conduct its business in the ordinary course, or Construction Manager makes an assignment of its assets for the benefit of its creditors; or (b) any negligence, gross negligence or willful misconduct by Construction Manager or persons for whom it is responsible. If the Owner terminates the Contract for cause as provided in this section or Article 14 of AIA Document A201–2017, the amount, if any, to be paid to the Construction Manager under Article 14 of AIA Document A201–2017 shall not cause the Guaranteed Maximum Price to be exceeded, nor shall it exceed an amount calculated as follows:

.1 Take the Cost of the Work incurred by the Construction Manager to the date of termination;

.2 Add the Construction Manager's Fee, computed upon the Cost of the Work to the date of termination at the rate stated in Section 6.1 or, if the Construction Manager' Fee is stated as a fixed sum in that Section, an amount that bears the same ratio to that fixed-sum Fee as the Cost of the Work at the time of termination bears to a reasonable estimate of the probable Cost of the Work upon its completion;

.3 Subtract the aggregate of previous payments made by the Owner; and

.4 Subtract the costs and damages incurred, or to be incurred, by the Owner under Article 14 of AIA Document A201–2017.

§ 13.2.2.2 The Owner shall also pay the Construction Manager fair compensation, either by purchase or rental at the election of the Owner, for any equipment owned by the Construction Manager that the Owner elects to retain and that is not otherwise included in the Cost of the Work under Section 13.2.2.1.1. To the extent that the Owner elects to take legal assignment of subcontracts and purchase orders (including rental agreements), the Construction Manager shall, as a condition of receiving the payments referred to in this Article 13, execute and deliver all such papers and take all such steps, including the legal assignment of such subcontracts and other contractual rights of the Construction Manager, as the Owner may require for the purpose of fully vesting in the Owner the rights and benefits of the Construction Manager under such subcontracts or purchase orders.

§ 13.2.2.3 If it is determined that Owner did not have cause for termination, then the termination for cause shall be treated as a termination for convenience pursuant to § 13.2.3

§ 13.2.3 Termination by the Owner for Convenience

User Notes: (2016497530)

Owner may terminate the Agreement in whole or in part for any reason or no reason effective as of the date specified by the Owner in a termination notice to Construction Manager. If the Owner terminates the Contract for convenience in accordance with Article 14 of AIA Document A201–2017 Owner's only liability will be to pay Construction Manager unpaid balance due Construction Manager for Work actually performed in accordance with the Agreement up to the termination date, costs incurred by reason of the termination, including costs attributable to termination of Subcontracts (but not including overhead and profit on work not performed by Subcontractors), less any outstanding Claim amount Owner has against Construction Manager.

§ 13.3 Suspension

The Work may be suspended by the Owner as provided in Article 14 of AIA Document A201–2017; in such case, the Guaranteed Maximum Price and Contract Time shall be increased as provided in Article 14 of AIA Document A201–2017, except that the term "profit" shall be understood to mean the Construction Manager's Fee as described in Sections 6.1 and 6.3.5 of this Agreement.

ARTICLE 14 MISCELLANEOUS PROVISIONS

§ 14.1 Terms in this Agreement shall have the same meaning as those in A201–2017. Where reference is made in this Agreement to a provision of AIA Document A201–2017 or another Contract Document, the reference refers to that provision as amended or supplemented by other provisions of the Contract Documents.

§ 14.2 Successors and Assigns

§ 14.2.1 The Owner and Construction Manager, respectively, bind themselves, their partners, successors, assigns and legal representatives to covenants, agreements, and obligations contained in the Contract Documents. Except as provided in Section 14.2.2 of this Agreement, and in Section 13.2.2 of A201–2017, neither party to the Contract shall assign the Contract as a whole without written consent of the other. If either party attempts to make an assignment without such consent, that party shall nevertheless remain legally responsible for all obligations under the Contract.

§ 14.2.2 The Owner may, without consent of the Construction Manager, assign the Contract to a lender providing construction financing for the Project, if the lender assumes the Owner's rights and obligations under the Contract Documents. The Construction Manager shall execute all consents reasonably required to facilitate the assignment.

§ 14.3 Insurance and Bonds

§ 14.3.1 Preconstruction Phase

The Construction Manager shall maintain the insurance required by Exhibit B, Insurance Requirements for the duration of the Preconstruction Services performed under this Agreement. If any of the requirements exceed the types and limits the Construction Manager normally maintains, the Owner shall reimburse the Construction Manager for any additional cost provided Construction Manager provides sufficient evidence to document the amount of the costs and that it was required to purchase such coverage solely for this Project.

As required by Chapter 2269 of the Texas Government Code, within 10 days of executing this Agreement, Construction Manager shall provide Owner a bid bond or other financial security acceptable to Owner to ensure Construction Manager provides the required Payment and Performance Bonds when the GMP is established, as specified under § 14.3.2 below.

§ 14.3.1.1 Not used.

§ 14.3.1.2 Not used.

§ 14.3.1.3 Not used.

§ 14.3.1.4 Not used.

§ 14.3.1.5 Not used.

§ 14.3.1.6 Other Insurance

(List below any other insurance coverage to be provided by the Construction Manager and any applicable limits.)

Coverage	Limits

§ 14.3.1.7 Additional Insured Obligations. To the fullest extent permitted by law, the Construction Manager shall cause the primary and excess or umbrella polices for Commercial General Liability and Automobile Liability to include the Owner as an additional insured for claims caused in whole or in part by the Construction Manager's negligent acts or omissions. The additional insured coverage shall be primary and non-contributory to any of the Owner's insurance policies and shall apply to both ongoing and completed operations.

§ 14.3.1.8 The Construction Manager shall provide certificates of insurance to the Owner that evidence compliance with the requirements in this Section 14.3.1.

§ 14.3.2 Construction Phase
After execution of the Guaranteed Maximum Price Amendment, the Owner and the Construction Manager shall purchase and maintain insurance as set forth in, Exhibit B, Insurance Requirements, and elsewhere in the Contract Documents.

When executing the Guaranteed Maximum Price Amendment, Construction Manager shall provide Payment and Performance bonds as required by Texas Government Code Chapter 2253, in the full penal sum of the Guaranteed Maximum Price, subject to increase pursuant to Change Order or Construction Change Directive in accordance with the Contract. Surety hereby consents to any such changes that increase the penal sums of the bonds as specified in this paragraph.

§ 14.3.2.1 The Construction Manager shall provide bonds as set forth in Section 14.3.2 above, and elsewhere in the Contract Documents.

§ 14.4 Notice in electronic format, pursuant to Article 1 of AIA Document A201–2017, may be given in accordance with AIA Document E203™–2013, Building Information Modeling and Digital Data Exhibit, if completed, or as otherwise set forth below:
(If other than in accordance with AIA Document E203–2013, insert requirements for delivering notice in electronic format such as name, title, and email address of the recipient and whether and how the system will be required to generate a read receipt for the transmission.)

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
Project Development Agreement with the City of Georgetown Transportation Enhancement Corporation and the TMLIRP

SUGGESTED ACTION:
Consideration and possible action to approve a Project Development Agreement with the City of Georgetown Transportation Enhancement Corporation and the Texas Municipal League Intergovernmental Risk Pool and to authorize the City Manager to execute the Project Development Agreement in a form substantially similar to the document attached hereto -- Andrew Culpepper, Senior Assistant City Attorney - Real Estate Services

ITEM SUMMARY:
The Texas Municipal League Intergovernmental Risk Pool ("TMLIRP") desires to cause the design and construction of a parking garage on behalf of the City and participate in the costs of the design and construction of the parking garage. The parking garage will be a four-level structured parking garage situated on land owned by the City and will include (i) an area of approximately 184,000 square feet, (ii) not less than four hundred thirty-five (435) parking spaces, and (iii) approximately 16,000 square feet of retail space on the ground floor of the parking garage with entries from Ninth Street or Main Street. This Project Development Agreement sets forth the terms under which TMLRIP will cause the design and construction of the parking garage and under which all of the parties will participate in the costs for the design and construction of the parking garage.

FINANCIAL IMPACT:

SUBMITTED BY:
Andrew Culpepper, City Attorney's Office/ Real Estate

Georgetown GTEC and TMLIRP Project Development Agreement Parking Garage (Final).pdf

STATE OF TEXAS	§	**PROJECT DEVELOPMENT AGREEMENT (PARKING GARAGE)**
	§	
COUNTY OF WILLIAMSON	§	

This **Project Development Agreement** (this "**Agreement**") is made by and among the **City of Georgetown Transportation Enhancement Corporation**, a Type B sales tax corporation ("**GTEC**"), **City of Georgetown**, a Texas home rule municipality ("**City**") and **Texas Municipal League Intergovernmental Risk Pool**, a Texas administrative agency established by Texas local governments pursuant to Texas Government Code Chapters 791 and 2259 and Texas Labor Code Chapter 504 ("**Developer**") (each a "**Party**" and collectively the "**Parties**"), acting by and through their respective authorized officers.

RECITALS:

WHEREAS, City owns the Land (as described below) located at 911 Main Street in Georgetown, Williamson County, Texas; and

WHEREAS, City desires to cause the design and construction of a four-level structured parking garage to provide public parking containing approximately 184,000 square feet and consisting of not less than four hundred thirty-five (435) parking spaces and approximately 16,000 square feet of retail space (the **"Retail Space**") on the ground floor facing Ninth Street and Main Street on the Land (hereinafter defined as the **"Project"**); and

WHEREAS, Developer desires to provide for parking for its employees and guests and others while working, conducting business, or otherwise visiting the TMLIRP Offices (hereinafter defined); and

WHEREAS, Developer has agreed to cause the design and construction of the Project on behalf of City and has agreed to pay 5/7th of the costs for the design and construction of two hundred (200) parking spaces in the Parking Garage (**"Developer's Project Contribution"**) in exchange for a Parking Easement Agreement (hereinafter defined) in accordance with this Agreement; and

WHEREAS, Developer will manage and oversee the design and construction of the Project on behalf of the Parties, and the Parties have agreed upon a total project budget to be attached to the Agreement as an exhibit (the "**Budget**"); and

WHEREAS, the Project team for the Project is anticipated to include approximately forty (40) or more individual consultants and contractors over the life of the Project; and

WHEREAS, the Parties have determined, pursuant to Section 2269.056 of the Texas Government Code, that the Construction Manager at Risk ("**CMAR**") method under Subchapter F of Chapter 2269 of the Texas Government Code represents the best value for this Project, based on the following findings: the CMAR method integrates contractor expertise during the design development process, provides real-time cost validation and constructability input throughout design, allows value engineering decisions to be made before documents are locked, and

establishes a Guaranteed Maximum Price ("**GMP**") that defines the limits of construction cost exposure for both Parties; and

WHEREAS, the procurement of certain professional services for the Project is subject to the Professional Services Procurement Act, Chapter 2254, Subchapter A of the Texas Government Code, which requires that professional services providers be selected on the basis of demonstrated competence and qualifications rather than competitive bidding or is otherwise exempt from competitive bidding; and

WHEREAS, the procurement of the construction contract for the Project will be subject to the Construction Manager-at-Risk method under Subchapter F of Chapter 2269 of the Texas Government Code, which authorizes a governmental entity to contract separately with a construction manager-at-risk to serve as general contractor and to provide consultation during design and construction; and

WHEREAS, GTEC has agreed to provide funding on behalf of City to pay City's costs of the design and construction of the Project (hereinafter defined) as set forth herein; and

WHEREAS, GTEC has adopted programs for promoting economic development; and

WHEREAS, the Development Corporation Act, Chapters 501-505 of the Texas Local Government Code (the "**Act**") authorizes GTEC to provide funding for infrastructure suitable for new or expanded business enterprises; and

WHEREAS, GTEC has determined that providing funds to pay City's costs incurred for the design and construction of the Project to be made hereunder is required or suitable for infrastructure for new and expanded business enterprises and constitutes a "project" as that term is defined in the Act; and

WHEREAS, GTEC has determined that providing the funds in accordance with this Agreement will further the objectives of GTEC, will benefit City and City's inhabitants, and will promote local economic development and stimulate business and commercial activity in the City; and

WHEREAS, Texas Local Government Code Section 271.908 authorizes City to contract with Developer to act as City's agent for the design, development, financing, and construction of the Project; and

WHEREAS, the Parties desire to enter into this Agreement for purposes of designating Developer as City's agent for the design, development, financing, and construction of the Project, subject to the terms, conditions and provisions set forth in this Agreement.

NOW THEREFORE, in consideration of the foregoing, and on the terms and conditions hereinafter set forth, and other consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

Article I
Definitions

Wherever used in this Agreement, the following terms shall have the meanings ascribed to them:

"Act of Default" or "Default" means the failure by a Party to comply with the requirements of this Agreement, subject to applicable notice and cure periods, as more particularly provided in **Article VI** herein.

"Affiliate" of a specified Person means a Person who is directly or indirectly controlling, controlled by, or under common control with, the specified Person, where "control" means the possession, directly or indirectly, of the power to direct the management and policies of the specified Person whether through the ownership of voting securities, by contract or otherwise.

"Applicable Procurement Laws" means Chapter 2269 of the Texas Government Code (relating to contracting and delivery procedures for facility construction), the Professional Services Procurement Act (Chapter 2254, Subchapter A, Texas Government Code), and any other applicable provisions of Texas law governing the procurement of public works contracts and professional services by the Parties, as each may be amended from time to time.

"Bankruptcy or Insolvency" means the dissolution or termination of a Party's existence as a going business, insolvency, appointment of receiver for any part of such Party's property and such appointment is not terminated within ninety (90) days after such appointment is initially made, any general assignment for the benefit of creditors, or the commencement of any proceeding under any bankruptcy or insolvency laws by or against such Party and such proceeding is not dismissed within ninety (90) days after the filing thereof.

"Budget" means the total approved budget for the Project agreed upon by both Parties and attached as an exhibit to this Agreement, setting forth all approved line items, contingencies, and cost categories for the Project.

"Business Day(s)" shall mean Monday through Friday of each week, exclusive of New Year's Day, Martin Luther King, Jr. Day, Memorial Day, Juneteenth, Independence Day, Labor Day, Thanksgiving Day, the day after Thanksgiving, Christmas Eve, and Christmas Day.

"Change Order" means any change to the Plans and Specifications or the Construction Schedule.

"Change Order Contingency" means the contingency funds included in the Budget to manage the risk of unforeseen field conditions, ambiguities in plans, Force Majeure events, and regulatory and permitting issues that may create additional costs during construction.

"City" means the City of Georgetown, a Texas home rule municipality, acting by and through its City Manager, or designee.

"City Engineer" means City's City Engineer or designee.

"City Manager" means City's city manager, or designee.

"CMAR" or "Construction Manager at Risk" means the construction manager-at-risk selected pursuant to Section 3.8(c) to serve as the general contractor for the Project and to provide consultation during the design and construction thereof, in accordance with Subchapter F of Chapter 2269 of the Texas Government Code.

"Commencement of Construction" means that (i) the Plans and Specifications have been prepared and all approvals thereof required by applicable governmental authorities have been obtained for construction of the Project; (ii) all necessary permits for the construction of the Project pursuant to the respective Plans and Specifications have been issued by all applicable governmental authorities; (iii) Developer has issued a written notice to proceed to the CMAR; and (iv) clearing, and/or grading of the Land or relocation of utilities for the construction of the Project has commenced.

"Competition Contract" means any contract awarded by Developer for the design and construction of the Project and for which the cost thereof Developer is to be partially reimbursed by City pursuant to this Agreement.

"Competition Procedures" means the state procurement laws applicable to each Competition Contract. With respect to Competition Contracts for Professional Services (as defined below), such Competition Procedures shall be those set forth in Chapter 2254 of the Texas Government Code. With respect to all other Competition Contracts in excess of $100,000 or other amount as provided by state law, Developer shall have the option of selecting from the procurement methods set forth in Texas Local Government Code Section 252.021 as a means of satisfying the Competition Procedures. Contracts for more than $3,000 but less than $100,000 (excluding those for Professional Services) shall comply with the historically underutilized business requirement set forth in Texas Local Government Code Section 252.0215. Contracts for which the cost thereof is not to be reimbursed by City to Developer pursuant to this Agreement, shall not be subject to any Competition Procedures unless otherwise required by Applicable Procurement Laws.

"Completion of Construction" means the stage at which all work required under the Construction Contract and the Construction Plans has been fully performed, all punch list items have been completed, all required inspections and certifications have been obtained, all permits have been closed out, all final lien waivers have been delivered, all closeout documentation (including as-built drawings, operations and maintenance manuals, and warranty documentation) has been submitted, the Project is ready for final acceptance by City, and City has completed its inspection of the Project and issued a written Final Acceptance Letter in accordance with **Section 3.5 (g)** of this Agreement.

"Construction Contract" means the contract between Developer and the CMAR for construction of the Project.

"CPM Texas" means CPM Texas, the third-party program and project manager retained by Developer to manage the development process for the Project.

"Design Consultants" means design professionals other than the Project Engineer and the Project Architect, selected by Developer to be engaged for the design of the Project.

"Design Standards" means applicable provisions of (i) City's Code of Ordinances; (ii) Historical Architecture Review Committee; (iii) Downtown Master Plan Design requirements; and (iv) all other applicable City ordinances, standards, rules, regulations and construction and development standards applied uniformly by City for all development of similar nature to the Project.

"Developer" has the meaning set forth in the first paragraph of this Agreement.

"Effective Date" means the last date this Agreement has been signed by authorized representatives of the Parties.

"Engineering Services" means the engineering services undertaken by the Project Engineer for the Plans and Specifications for the Project set forth in the Developer's contract with the Project Engineer.

"Expiration Date" means the date the Parties have fully satisfied their respective obligations under this Agreement.

"Final Acceptance" shall have the meaning set forth in **Section 3.9(l)** below.

"Force Majeure" means an occurrence of any contingency or cause beyond the reasonable control of a Party including, without limitation, acts of God or the public enemy, war, riot, terrorism, civil commotion, insurrection, government or de facto governmental action, restrictions or interferences (unless caused by the intentional acts or omissions of the Party), fires, explosions, floods or other inclement weather, strikes, slowdowns or work stoppages, incidence of disease or other illness that reaches outbreak, epidemic, or pandemic proportions or similar causes affecting the area in which the Land is located that results in a reduction of labor force or work stoppage in order to comply with local, state, or national disaster orders, construction delays, shortages or unavailability of supplies, materials or labor, necessary condemnation proceedings, or any other circumstances which are reasonably beyond the control of the Party obligated or permitted under the terms of this Agreement to do or perform the same, regardless of whether any such circumstances are similar to any of those enumerated or not, in which case the Party so obligated or permitted shall be excused from doing or performing the same during such period of delay, so that the time period applicable to such obligation or performance shall be extended for a period of time equal to the period such Party was delayed, provided the Party whose performance is delayed provides written notice to the other Party not later than fifteen (15) business days after the last day of the month of the occurrence of the event(s) or condition(s) causing the delay or the date the Party whose performance has been delayed becomes aware or should have reasonably known of the event, describing such event(s) and/or condition(s) and the date on which such event(s) and/or condition(s) occurred.

"GMP" or "Guaranteed Maximum Price" means the guaranteed maximum price established under the Construction Contract that defines the limits of construction cost exposure for the Project.

"GMP Amendment" means the amendment to the Construction Contract signed by Developer and the CMAR adding the GMP and related terms to the Construction Contract.

"Impositions" means all taxes, assessments, use and occupancy taxes, charges, excises, license and permit fees, and other charges by public or governmental authority, general and special, ordinary, and extraordinary, foreseen, and unforeseen, which are or may be assessed, charged, levied, or imposed by any public or governmental authority on the Developer or any property or any business owned by Developer within City.

"IFC Set" or "Issued-for-Construction Set" means the final set of construction documents incorporating any value engineering modifications and any revisions necessitated by City review comments and regulatory approval conditions received during the permitting process.

"Issued-for-Permit Set" means the drawing set submitted to the City for building permits, which serves as the basis for the CMAR to produce the GMP.

"Land" means that real property described as Lots 1 through 8, inclusive, Block 1, Glasscock Addition to the City of Georgetown, Williamson County, Texas, and more particularly described in that certain Special Warranty Deed dated June 15, 2004, and recorded June 16, 2004, as Instrument No. 2004047277, Official Public Records, Williamson County, Texas.

"Owner's Program Contingency" means the contingency funds included in the Budget to cover additions to the scope of work for the Project.

"Parking Easement Agreement" means the agreement between City and TMLIRP substantially in the form attached hereto as **Exhibit "A"** and incorporated herein by reference.

"Parking Garage" means a four-level structured parking garage to provide public parking conceptually containing approximately 167,800 square feet and consisting not less than four hundred thirty-five (435) parking spaces and approximately 16,000 square feet of retail space on the ground floor facing Ninth Street and Main Street.

"Permits" means all permits and approvals required for the design and construction of the Parking Garage, including site plan approvals and building permits.

"Person" means any individual, trust, estate, partnership (general, limited, or limited liability), joint venture, company, corporation, association, limited liability company, or other legal entity, business organization or enterprise.

"Plans and Specifications" or "Construction Plans" means the final plans, drawings, and specifications for the design and construction of the Project as approved by City, and as modified by Change Order approved by City.

"Professional Services" shall have the meaning assigned in Section 2254.002(2) of the Texas Government Code.

"Project" means, collectively, the design and construction on the Land of the Parking Garage, the Retail Space and other ancillary facilities as described in more detail in **Exhibit "B"** attached hereto and made a part hereof.

"Project Architect" means Perkins & Will, which has been approved by Developer and City to provide the services for the schematic design, the design development construction documents, and construction administration for Developer for the Project.

"Project Costs" means the total cost for the design and construction of the Project determined upon the Completion of Construction and collectively includes Developer's Project Share, City's Project Share, and the Retail Space Costs.

"Project Engineer" means Kimley-Horn, which has been approved by Developer and City to provide the Engineering Services.

"Project Funds" means funds contributed by the Parties and from any other sources to be spent to pay Project Costs.

"Project Schedule" means the schedule for the design, permitting, and construction of the Project, as established by Developer and updated from time to time.

"Purchasing Manager" means City's purchasing manager or designee.

"Retail Space" shall have the meaning assigned in the Recitals.

"Retail Space Costs" means the portion of the Project Costs incurred and/or allocated to the design and construction of the Retail Space.

"Sub-Contractor(s)" means the sub-contractor(s) selected by the CMAR to perform work on the Project.

"Substantial Completion" means the stage at which the Project, or a designated portion thereof, is sufficiently complete in accordance with the Construction Plans so that City can occupy or utilize the Project, or a designated portion thereof, for its intended purpose, and all systems necessary for occupancy and use (including fire protection, life safety, mechanical, electrical, plumbing, and elevator systems) are operational, even though minor punch list items, cosmetic work, or other non-critical items may remain to be completed. A certificate of occupancy or temporary certificate of occupancy issued by the applicable governmental authority shall be evidence of Substantial Completion.

"Substantial Completion Deadline" means two years following Commencement of Construction, subject to extension for Force Majeure and other permitted delays under this Agreement.

"TMLIRP Offices" means the property and buildings owned by Developer and used by Developer as its general headquarters and official place of business located at 205 E. University Avenue in Georgetown, Texas.

Article II
Term

The Term of this Agreement shall begin on the Effective Date and shall continue until the Expiration Date, unless sooner terminated as provided herein (the "**Term**").

Article III
Project

3.1 Project Management and General Authority.

(a) General. Developer shall cause the design and construction of the Project as set forth herein.

(b) CMAR. Developer and City have agreed that Developer shall utilize the CMAR method for the design and construction of the Project; provided, however, Developer and City may agree to select and utilize another procurement method for the design and construction of the Project if necessary or deemed advisable.

(c) Project Manager. Developer will manage and oversee the design and construction of the Project on behalf of City. Developer has retained CPM Texas to serve as its third-party program and project manager for the Project to manage the development process for Developer from beginning to end, including oversight of design, procurement, permitting, construction administration, budget tracking, and project reporting. Developer shall pay CPM Texas's fees directly, and such fees shall be a Project Cost within the Budget.

(d) Pre-Execution Notice to City. Not later than ten (10) business days before Developer's execution of any agreement with the CMAR, the Project Engineer, and the Project Architect, Developer shall provide copies to City for its records. City shall have ten (10) calendar days after receipt of such agreement(s) to notify Developer in writing of any objection to such agreement(s). If City objects, the Parties shall negotiate in good faith to resolve the objection not later than thirty (30) calendar days after City delivers the notice of objection. If the objection remains unresolved at the expiration of such thirty (30) calendar day period, the matter shall be escalated pursuant to the dispute resolution procedure set forth in the Agreement.

3.2 Competition Procedures.

(a) Generally. All Competition Contracts shall be awarded in conformance with the applicable Competition Procedures. Notwithstanding any other provision contained herein, any contract related to the Project the cost of which is not to be reimbursed to Developer by City shall not be considered a Competition Contract and shall not be required to comply with the Competition Procedures except as otherwise required by Applicable Procurement Laws.

(b) Developer's Competition Procedures. The following procedures shall apply to the design and construction of the Project (the "**Developer's Competition Procedures**"):

(1) All requests for sealed proposals, requests for bids, or other solicitation for services shall be submitted to City for review and approval;

(2) All advertisements/notifications and advertisement/notification schedules for requests for sealed proposals, requests for bids, or other solicitations for services shall be submitted to City for review and approval before placement of such advertisements or issuance of such notifications;

(3) City shall be notified in writing of the date, time, and place of all pre-bid/proposal conferences and have the right to attend same;

(4) City shall be notified in writing of the date, time, and place of the opening of all bids/proposals or other responses to solicitations for services and have the right to attend same;

(5) City shall be notified in writing of the date, time, and place of all meetings discussing the evaluation of bids, proposals, or other responses to solicitations for services and have the right to attend same;

(6) City shall have the right to review and approve the CMAR selected by Developer prior to the award and signing of the applicable contract; and

(7) Developer shall provide City with copies of all bids, proposal advertisements and schedules, requests for bids and/or sealed proposals, responses to requests for bids, sealed proposals, and/or other solicitations for services, requests for bids, and/or sealed proposal addendums.

(c) Coordination with City. City's Purchasing Manager and City's Public Works Project Manager shall be responsible for coordinating with Developer regarding City approvals, consents, and guidance for the Developer Competition Procedures of the Project.

3.3 Project Engineer and Project Architect.

(a) Selection of Design Consultants. Developer shall have the right to select the Design Consultants to be engaged for the design of the Project, except for the Project Engineer

and Project Architect, provided the funding for the costs of such Design Consultants are included in the approved Budget.

(b) Project Architect. Developer shall contract with one or more certified and licensed professional architects (or firms) to prepare plans and specifications for the design and construction of the Project for City's benefit. The professional architect (or firm) selected by Developer must be approved in writing by City prior to any services being provided by the selected professional(s). Developer's contract with the Project Architect shall provide that the plans and specifications for the Project are being prepared for the benefit of City and that City (its agents and contractors) may publish, reproduce, and use such plans and specifications for the Project. City has the sole right to approve or reject Developer's selection of the Project Architect and the cost of such services. City has initially approved Perkins & Will as the Project Architect.

(c) Project Engineer. Developer shall contract with one or more professional engineers (or firms) licensed in the State of Texas to provide Engineering Services for the Project for the benefit of City. The professional engineer (or firm) selected by Developer must be approved in writing by City prior to any services being provided by the selected professional(s) (or firm). Developer's contract with the Project Engineer shall provide that the plans and specifications for the Project are being prepared for the benefit of City and that City (its agents and contractors) may publish, reproduce, and use such plans and specifications for the Project. City has the sole right to approve or reject Developer's selection of the Project Engineer. City has initially approved Kimley-Horn as the Project Engineer.

3.4 Construction of Project. Subject to delays caused by events of Force Majeure, Developer agrees to cause the Commencement of Construction of the Project to occur on or before 30 days after issuance of the Permits, and, subject to delays caused by events of Force Majeure or delays caused by the City's failure to comply with the terms of this Agreement, to cause Substantial Completion of the Construction of the Project to occur on or before the Substantial Completion Deadline

3.5 Temporary Construction and Access Easement.

(a) Grant. City hereby grants and conveys to Developer, subject to the terms and conditions set forth in this Agreement a temporary construction easement (the "**Temporary Construction Easement**") on, over, under, and across the Land (the "**Easement Area**").

(b) Easement Purposes. The Temporary Construction Easement, with its rights and privileges, shall be used by Developer, its agents, consultants, and contractors, only for construction purposes, namely for the purpose of temporarily storing supplies, trucks, construction vehicles, construction equipment, and utility equipment and related facilities on and within the Easement Area, and for the purpose of traversing on, over and across the Easement Area in connection with the design and construction of the Project in accordance with this Agreement (the "**Easement Purposes**").

(c) Access Route. On or before the execution of the GMP Amendment, City and Developer agree to establish one or more routes to provide access for vehicles to and from the

Easement Area on and over existing public rights-of-way during construction of the Project (the "**Access Routes**"). Except for the Easement Area and the Access Routes, Developer and its contractors shall not have the right to access any other portion of City's property without City's prior written consent, which shall not be unreasonably withheld or delayed. In establishing the Access Routes, the Parties shall take into consideration (i) the noise and traffic impact the use of a proposed Access Route will have on existing residential properties and adjacent commercial business, (ii) the size and types of vehicles that will require use of one of more of the Access Routes, (iii) the days of the week the vehicles will be operating on the chosen Access Route, (iv) the time of day vehicles will be operating on the chosen Access Route; and (v) the condition of the paving of the Access Route and its ability to withstand the weight of a particular construction vehicle without causing damage to such Access Route. Notwithstanding the foregoing, if, in connection with construction of the Project, Developer determines that because of the size, weight, height, and/or design of a particular vehicle such vehicle is unable to reasonably access the Easement Area over an agreed Access Route, Developer shall provide a written request to City for use of an alternate access route for such vehicle (the "**Alternate Route Request**") setting forth the proposed alternate access route, the reason such vehicle is unable to use an approved Access Route, and the proposed dates and times such vehicle will be operating on such alternate access route. Not later than five (5) Business Days after receipt of the Alternate Route Request, City shall approve or disapprove the use of the alternate route described in the Alternate Route Request, which approval shall not be unreasonably withheld, delayed, or denied. City and Developer agree to use reasonable efforts to not use public rights-of-way through residential areas for Access Routes or an alternate access route; provided, City and Developer acknowledge and agree there may be certain circumstances and certain vehicles that will require the Easement Property to be accessed through public rights-of-way located within a residential area.

(d) Term. The Temporary Construction Easement shall be in effect on the date that Commencement of Construction of the Project has occurred and shall terminate upon the earlier of (i) the date of Completion of Construction of the Project and (ii) after the third (3rd) anniversary of the Effective Date.

(e) Compliance; Condition; Restoration. Developer shall comply with all federal, state, municipal, and other laws, ordinances, rules, and regulations applicable to the use of the Easement Area. Developer shall comply with the terms and conditions of this Agreement, as applicable to the Temporary Construction Easement and the rights granted herein. Developer shall maintain the Easement Area in a good, clean, and well-maintained condition, which shall include promptly removing all trash and debris therefrom. After Completion of Construction of the Project, but in any event prior to the termination date of the Temporary Construction Easement. Developer shall remove all trash, debris, construction equipment, vehicles and other construction materials from the Easement Area and shall return the Easement Area to like or better condition, or as close thereto as reasonably possible.

(f) Not Exclusive. The Temporary Construction Easement is not exclusive, and City hereby expressly reserves the right for itself and its successors and assigns, without the prior written consent of Developer, to grant such other similar or dissimilar easements, rights, benefits, rights-of-way, and privileges to such other persons and for such other purposes, including, without limitation, the right to grant utility or other required easements to utility providers or governmental

authorities on the Easement Area, and to make or construct improvements over, across, upon and under the Easement Area as City, in its sole and absolute discretion, may elect; provided, however, any such easements, rights, benefits, rights-of-way and privileges hereafter granted, and such improvements hereafter made or constructed upon, over, across or under such Easement Area shall not unreasonably interfere with, or unreasonably restrict the use of, the Easement by Developer for the Easement Purpose.

(g) **"AS IS"**. DEVELOPER ACCEPTS THE EASEMENT AREA AS IS, WHERE IS, AND WITH ALL FAULTS AND DEFECTS, LATENT OR OTHERWISE. CITY MAKES NO IMPLIED OR EXPRESS REPRESENTATIONS OR WARRANTIES OF ANY KIND WHATSOEVER REGARDING THE TEMPORARY CONSTRUCTION EASEMENT, OR THE EASEMENT AREA. ALL SUCH REPRESENTATIONS AND WARRANTIES, AS WELL AS ANY IMPLIED WARRANTIES, ARE HEREBY EXPRESSLY DISCLAIMED. DEVELOPER FULLY RELEASES CITY, ITS COUNCIL, OFFICERS, AGENTS, EMPLOYEES, AND CONSULTANTS (EACH, A "**CITY PARTY**"), FROM LIABILITY FOR ANY CLAIMS, DAMAGES, CAUSES OF ACTION, OR LIABILITIES WITH RESPECT TO THE EASEMENT AREA AND/OR THE TEMPORARY CONSTRUCTION EASEMENT EXCEPT FOR ANY CLAIMS, DAMAGES, CAUSES OF ACTION, OR LIABILITIES RESULTING FROM THE NEGLIGENCE, GROSS NEGLIGENCE OR WILLFUL MISCONDUCT OF THE CITY PARTY. THIS PROVISION WILL SURVIVE THE TERMINATION OR RELEASE OF THIS AGREEMENT.

(h) **No Public Dedication**. The Temporary Construction Easement is not a public easement or right-of-way and is not intended, and shall not be construed, to be a dedication to the public use of the Easement Area.

3.6 **Project Costs Contribution**.

(a) **Project Cost Allocation**. The Parties agree that the Parties' share of the costs to design and construct the Project shall be as follows:

(1) ***Developer's Project Share***. Developer's share of the Project Costs (the **"Developer's Project Share"**) shall be a percentage of the Project Costs determined as follows:

(i) The amount of Project Cost to design and construct Two Hundred (200) parking spaces; divided by

(ii) The amount of Project Cost to design and construct the number of parking spaces to be constructed in the Parking Garage as set forth in the Final Budget (hereinafter defined)); multiplied by

(iii) Five/Sevenths (5/7).

For purposes of calculating the Developer's Project Share, the Retail Space Costs as set forth in the Final Budget shall be excluded. For purposes of calculating the Developer's

Project Share, the Parties agree that eighty percent (80%) of the Project Costs set forth in the Final Budget shall be allocated to the Parking Garage, and twenty percent (20%) of the Project Costs shall be allocated to the Retail Space Costs based on the estimated relative construction costs of the Parking Garage and Retail Space. The Retail Space Costs shall be excluded from the Project Costs for purposes of calculating the Developer's Project Share..

(2) ***City's Project Share***. City's share of the Project Costs (the **"City's Project Share"**) shall be the Project Costs (including the Retail Space Costs) less the Developer's Project Share.

(b) Developer's Share Adjustment. Following the Completion of Construction of the Project and City acceptance thereof, Developer's Project Share as determined in Section 3.6(a)(1) above shall be adjusted based on the actual total number of parking spaces constructed for the Project.

(c) Monthly Progress Payment Allocation. For purposes of determining the amount of City's monthly progress payments of the Project Cost as set forth in Section 4.1, the Parties agree that each such monthly payment by City shall be the amount as set forth in the respective monthly payment application less the amount of Developer's Project Share of such payment application amount after applying the Developer's Project Share as set forth in Section 3.6 (a)(1).

3.7 Preliminary Budget.

(a) Generally. Developer has prepared a preliminary budget for the costs to design and construct the Project (the **"Preliminary Budget"**), attached as **Exhibit "C"** hereto. Nothing herein shall be construed as prohibiting the Parties from agreeing to share in excess costs, in which event the Developer's Project Share and City's Project Share shall be reflected in a revised Preliminary Budget mutually approved in writing by the Parties.

(b) Contract Solicitation. Following the Parties' approval of the Preliminary Budget, Developer shall proceed with the process for the solicitation and award of contract(s) for the design and construction of the Project.

(c) Contract Award; Notice; Final Budget. Developer shall provide to City not less than fifteen (15) Business Days' written notice of the date(s) Developer intends to award contracts for the design and construction of the Project, which notice shall include the amounts of such contracts (including the segregated amounts for the Retail Space of the Project). If City approves such contract(s), Developer shall prepare or cause to be prepared a **"Final Budget"** for the Project which shall be used by the Parties for determining the Parties' respective contribution for the Project and City's monthly progress payments to Developer as set forth in Article IV.

(d) "Value Engineering". If after Developer has received proposals for construction of the Project and it is determined that (i) if the contract for construction of the Project were to be awarded pursuant to Section 3.7(c), the Project Costs will exceed the Preliminary Budget, the Parties shall direct the CMAR, Project Architect, and/or Project Engineer, as appropriate, to take such action as reasonable and necessary to re-design the Project in a reasonable effort to reduce

the Project Costs to an amount that can be paid in full by the Parties with funds appropriated and/or budgeted for the Project. The costs for the additional services incurred in redesigning the Project as provided above shall be added to and treated as Project Costs.

(e) Project Costs Reconciliation. Not later than thirty (30) days after Completion of Construction of the Project and City acceptance thereof, the Parties shall reconcile the actual and final Project Costs, including any approved change orders, against the Final Budget and City payments to Developer for the Project Costs as provided in Section 4.1 for the Project to determine whether City and/or Developer have underpaid or overpaid their respective share of the costs of the Project (**"Project Costs Reconciliation")**. Not later than thirty (30) days after completion of the Project Cost Reconciliation, the Party who has overpaid its respective share of the Project Costs shall be reimbursed by the other Party for such overpayment.

3.8 Contract Procurement

(a) Delivery Method. The Parties have determined that the CMAR method under Subchapter F of Chapter 2269 of the Texas Government Code represents the best value for the Project. Developer shall procure the Construction Contract using the CMAR method through a two-step selection process as provided under Chapter 2269.

(b) Two-Step Selection Process.

(1) ***Step One - Request for Qualifications***. Developer shall prepare and issue or cause the preparation and issue of an initial request for qualifications that includes: (i) a statement that the selection process is a two-step process; (ii) general information on the project site, project scope, schedule, selection criteria and the weighted value for each criterion, and estimated budget; and (iii) the time and place for receipt of qualifications. Developer shall not request fees or prices in Step One.

(2) ***Step Two - Request for Proposals***. Developer may request that five (5) or fewer offerors, selected solely on the basis of qualifications, provide additional information, including the CMAR's proposed fee and prices for fulfilling the general conditions.

(3) ***Public Notice***. Developer shall publish notice of the request for qualifications or request for proposals for the CMAR in accordance with the notice requirements of Applicable Procurement Laws, including publication in a newspaper of general circulation in Williamson County, Texas.

(4) ***Public Opening***. At each step, Developer shall receive, publicly open, and read aloud the names of the offerors. At the appropriate step, Developer shall also read aloud the fees and prices, if any, stated in each proposal as the proposal is opened.

(5) ***Pre-Proposal Conferences.*** Developer may, in its discretion, hold one or more pre-proposal conferences to allow prospective offerors to review the Project

documents and ask questions regarding the scope of work. City shall be entitled to have representatives present at any such pre-proposal conference.

(6) ***Evaluation and Ranking***. Not later than the forty-fifth (45th) day after the date on which the final proposals are opened, Developer shall evaluate and rank each proposal submitted in relation to the criteria set forth in the request for proposals.

(7) ***City participation in CMAR selection Process***. City shall be entitled to have at least two (2) representatives participate in the process for the selection of the CMAR by Developer.

(c) Selection of CMAR.

(1) ***Developer Selection; City Participation and Approval.*** Subject to the approval of City, Developer shall select the offeror that submits the proposal that offers the best value for the Parties based on the published selection criteria and on its ranking evaluation as set forth therein. Prior to the selection of the proposal that provides the best value, Developer shall provide City with a written notification which includes all statements of qualifications and responses to requests for proposals received by Developer, identification by Developer of Developer's selected offeror, the selection ranking of the offerors, and the basis for Developer's selection. City shall have fifteen (15) business days to provide written notice to Developer to approve or reject Developer's recommended offeror and selection rankings after receipt of such notification, which approval shall not be unreasonably denied or delayed. Failure of City to timely respond to such notification shall be deemed acceptance of Developer's selection of the offeror.

(2) ***Negotiation with Selected Proposer***. Following the process set forth above, Developer shall first attempt to negotiate a contract with the selected offeror. If Developer is unable to negotiate a satisfactory contract with the selected offeror, Developer shall formally and in writing end negotiations with that offeror and proceed to negotiate with the next offeror in the order of the selection ranking until a contract is reached or negotiations with all ranked offerors end.

(3) ***Disclosure of Rankings***. Not later than the seventh (7th) day after the date the Construction Contract is awarded, Developer shall make the rankings public.

(d) Right to Reject Bids. Developer reserves the right to reject any or all bids or proposals if, in its reasonable judgment, it is in the best interest of the Parties and the Project to do so. If Developer rejects all bids or proposals, Developer shall promptly notify City, and the Parties shall confer regarding whether to re-solicit request for bids or proposals, modify the scope of work, or pursue an alternative delivery method authorized by Applicable Procurement Laws.

(e) Contract Award and Execution. Prior to the award of the Construction Contract, Developer shall provide City with a written summary of the evaluation results and the identity of the recommended CMAR. City shall have seven (7) business days from receipt of such summary to provide written comments or objections. Developer shall consider the City's comments in good

faith before making a final award determination. Upon award, Developer shall negotiate and execute the Construction Contract with the selected CMAR on terms consistent with the solicitation documents and Applicable Procurement Laws.

3.9 <u>Design and Construction of Project</u>.

(a) Conceptual Design and Programming.

(1) Upon mobilization of the Design Consultants, Developer and the Project Architect shall undertake a programming process and develop a conceptual design for the Project. CPM Texas shall prepare an opinion of probable cost in coordination with the design team.

(2) The conceptual design package, including the opinion of probable cost, shall be submitted to City for review. A meeting shall be held to present the package and address questions from City's representatives. City shall respond with written approval or specific written objections to the conceptual design package not later than fifteen (15) business days after receipt of the conceptual design package. The failure to object within the fifteen (15) business day review period shall be deemed approval of the conceptual design package.

(3) Concurrent with conceptual design, the Project Engineer shall advance civil design and prepare a site constraints map. Survey, geotechnical, and SUE work shall be initiated. Utility relocation needs and potential upgrades shall be identified.

(b) Schematic Design.

(1) Upon conceptual design approval by both Parties, the Project Architect shall proceed with schematic design of the Project.

(2) The schematic design package and the CMAR cost estimate shall be presented to the City for review and approval by the city council for City. The city council for City shall have fifteen (15) business days from receipt of such package and estimate to respond with written approval or specific written objections. The failure to object within the fifteen (15) business day review period shall be deemed approval of the schematic design package and the CMAR cost estimate.

(c) Design Development.

(1) Upon schematic design approval and confirmation that the Project is proceeding within budget, design development of the Project shall commence. The CMAR shall engage the precast subcontractor as a delegated design item. Procurement of precast shall be initiated as a critical-path item, and any early release of materials for precast shall be structured as a GMP amendment. The Parties acknowledge that multiple GMP amendments are anticipated during the course of design of the Project as discrete early procurement packages are released.

(2) The CMAR shall perform cost estimates at design development completion. Additional estimates shall be updated as material new scope items are identified, particularly civil-related items arising from utility and site investigation work. All estimates shall be shared with the City for review, and the City shall have fifteen (15) business days from receipt thereof to provide written approval or specific written objections. The failure to object within the fifteen (15) business day review period shall be deemed approval of such estimates. Developer and the Design Consultants shall promptly notify the City in writing of any budget concerns or unforeseen conditions as they arise.

(d) Design and Construction. Following completion of Design Development and approval of the design of the Project but prior to Commencement of Construction, Developer shall make, or cause to be made, application for any necessary permits and approvals that are customarily required by City ordinances and any applicable governmental authorities to be issued for the construction of the Project. City shall expedite the review and approval of those permits and approvals. City shall waive all City inspection fees pertaining to the application and issuance of such necessary permits and approvals for the Project. Developer shall cause the Project Engineer and the Project Architect to design, and the CMAR to construct, the Project in accordance with the Plans and Specifications and the Design Standards.

(e) Plans and Specifications.

(1) Prior to seeking bids or proposals for the Project, Developer shall submit, or cause to be submitted, the proposed Plans and Specifications to City for review and approval, which approval shall follow City customary process for permits and approvals for public works projects and which approval shall not be unreasonably withheld, conditioned, or delayed.

(2) City shall have thirty (30) days following receipt of the initial submittal of proposed Plans and Specifications to review and approve or disapprove the proposed Plans and Specifications, which City review and approval shall not be unreasonably withheld, conditioned, or denied.

(3) If City does not approve the initial set of proposed Plans and Specifications , City shall return the proposed Plans and Specifications to Developer on or before the end of such thirty(30) day period with comments detailing why such Plans and Specifications were not approved.

(4) If disapproved in accordance with paragraph (3), above, Developer shall cause the Project Engineer and/or Project Architect to revise and/or modify the proposed Plans and Specifications and resubmit them to City for review and approval.

(5) City shall (i) approve or (ii) disapprove with written comments the first resubmission of the Plans and Specifications described in paragraph (3), above, not later than thirty (30) days after receipt of such resubmission by Developer.

(6) If disapproved in accordance with paragraph (5), above, Developer shall cause the Project Engineer and/or Project Architect to revise and/or modify the proposed Plans and Specifications and resubmit them to City for review and approval.

(7) The process described in paragraphs (5) and (6), above, shall continue until the Plans and Specifications have been approved by City; provided, however, City shall (i) approve or (ii) disapprove with comments each resubmittal not later than fifteen (15) days after receipt of such resubmittal.

(8) If Developer is unable to perform or satisfy other requirements or deadlines under this Agreement due to City's review, approval or disapproval of the proposed Plans and Specifications beyond the period set forth in paragraphs (2), (5), and (7), above, then Developer shall be excused from doing or performing the same during such period of delay, so that the deadline applicable to completing or performing such obligation or performance shall be extended for the same number of days equal to the number of days between the end of such City approval/disapproval period and the day City actually provides Developer approval or disapproval with comments of the Plans and Specifications. City shall not be in default of this Agreement if City fails to provide City's approval or disapproval of the Plans and Specifications within the times provided in this subsection (e), it being agreed that TMLIRP's sole remedy for such failure being set forth in this paragraph (8).

(f) Change Orders. From time to time, Developer may submit proposed Change Orders to the Plans and Specifications to City for approval, which approval will not be unreasonably withheld, conditioned, or delayed. City shall review, approve, or deny with written comments a requested Change Order not later than thirty (30) days after receipt of the same; provided, however, when a Change Order that results in a change in the Project requires review and/or approval by City's Planning and Zoning Commission, City Council, or other board or commission, City shall have such time to approve such Change Order as may be reasonable and necessary to obtain the recommendation and/or approval of such body(ies). Notwithstanding anything to the contrary in this Agreement, a Change Order resulting in an increase in the Project Costs shall not be deemed approved without City's prior written consent. If Developer is unable to perform or satisfy other requirements or deadlines under this Agreement due to City's review, approval or denial of the proposed Change Order beyond the City's review period, then Developer shall be excused from doing or performing the same during such period of delay, so that the time deadline applicable to completing or performing such obligation or performance shall be extended for the same number of days between the end of such period for approval/disapproval and the day City actually provides Developer approval or disapproval with written comments of the Change Order.

(g) Pre-Construction Conference. Prior to the Commencement of Construction, Developer, the CMAR, the Project Engineer, and the Project Architect shall hold a pre-construction conference with the City Engineer and the applicable private and public utility companies, if necessary. At that time, Developer shall submit a Construction Schedule to City's Public Works CIP Manager setting forth the estimated timelines for the commencement and completion of the Project.

(h) Quality Control and Testing. Developer shall comply with, and shall cause the CMAR to comply with the following:

> Quality control testing of materials used in construction shall be in accordance with the requirements of the City standards and shall be performed by a local qualified accredited laboratory which has been certified as having met the basic requirements of ASTM E 329 "Standard Recommended Practice for Inspection and Testing Agencies for Concrete, Steel and Bituminous Materials as Used in Construction." The laboratory shall be approved by City, which approval shall not be unreasonably withheld, conditioned, or delayed, and the costs of such testing shall be paid as Project Costs. All test results and reports of quality control testing in connection with the Project shall be made available to the City in a timely fashion.

(i) Performance of Work by CMAR.

(1) The CMAR shall publicly advertise for bids or proposals and receive bids or proposals from trade contractors or subcontractors for the performance of all major elements of the work other than the minor work that may be included in the general conditions.

(2) The CMAR may seek to perform portions of the work itself if the CMAR submits its bid or proposal for those portions in the same manner as all other trade contractors or subcontractors, and Developer determines that the CMAR's bid or proposal provides the best value for the Project.

(3) All trade contractor or subcontractor bids or proposals shall be reviewed by the CMAR in a manner that does not disclose the contents of the bid or proposal during the selection process to a person not employed by the CMAR, architect, engineer, or Developer. All bids or proposals shall be made available to Developer and City on request and to the public after the later of the award of the applicable Construction Contract or the seventh (7th) day after the date of final selection of the trade contractor or subcontractor.

(j) Completion of Construction. Developer shall comply with, and shall cause the CMAR to comply with, **Section 3.8** and all applicable local and state laws and regulations regarding the design and construction of the Project in accordance with the Plans and Specifications, including, but not limited to, any applicable requirement relating to payment, performance, and maintenance bonds. Upon Completion of the Project, Developer shall provide City with (i) a final cost summary of all costs incurred and paid associated with the construction of the Project, and (ii) the Final Acceptance Package (hereinafter defined).

(k) Project Inspection. City shall have the right to inspect all aspects of the Project at any time during design and construction, upon reasonable notice to Developer. City may, at its own expense, retain a third-party inspector to perform inspections of the Project. The cost of any such third-party inspector shall be borne solely by City and shall not be a Project Cost. The City Engineer shall have the right to inspect the Project work to determine whether the Project construction is in accordance with the requirements of this Agreement as well as City ordinances and

regulations pertaining to the construction of Project. City shall promptly notify Developer in writing at any time City determines that Project construction is defective, non-compliant, or is not in accordance with this Agreement and/or the Plans and Specifications. The Parties will meet to determine a commercially reasonable solution to any defective or non-compliant Project work and a commercially reasonable period of time in which any such Project work should be remedied; provided Developer shall implement a corrective plan of construction with the agreement of City. Any dispute regarding the existence or scope of a deficiency not resolved by the above process shall be resolved in accordance with the dispute resolution procedure in this Agreement.

(l) Final Acceptance Procedures. The procedures for final acceptance of the Project ("**Final Acceptance**") shall be in accordance with City's standard requirements for City acceptance of a public works project. Developer shall submit a package to the City (the "**Final Acceptance Package**") containing the following items:

(1) An executed Developer's affidavit stating that all payrolls, invoices for materials and equipment, and other liabilities connected with the Project for which City, or City's property, might be responsible, have been fully paid or otherwise satisfied;

(2) An executed Contractor's affidavit that all payrolls, invoices for materials and equipment, and other liabilities connected with the Project for which City, or City's property, might be responsible, have been fully paid or otherwise satisfied;

(3) A consent of surety;

(4) A full set of digital as-built drawings;

(5) Delivery of a bill of sale, deed, or other instrument conveying to City the ownership of any part of the Project not already conveyed to City;

(6) Delivery of all warranties or assignment of warranties described in **Section 4.11**; and

(7) Delivery of an application for the final payment and supporting documentation as described in **Section 4.1**.

Following Developer's delivery of the Final Acceptance Package, City shall use reasonable and good faith efforts to review and approve the Final Acceptance Package as expeditiously as possible, such approval not to be unreasonably withheld, conditioned or delayed. Failure of City to approve or disapprove the Final Acceptance Package on or before thirty (30) days following receipt thereof shall be deemed disapproval. If Developer is unable to perform or satisfy other requirements or deadlines under this Agreement due to City's review, approval, or denial of the Final Acceptance Package extending beyond the 30-day period, then Developer shall be excused from doing or performing the same during such period of delay, so that the deadline applicable to completing or performing such obligation or performance shall be extended for the same number of days equal to the number of days between the end of such 30-day approval/disapproval period

and the day City actually provides Developer approval or disapproval of the Final Acceptance Package.

3.10 Bonds.

(a) Developer shall require each bidder for the Construction Contract to furnish bid security in an amount not less than five percent (5%) of the total bid amount when the GMP Amendment becomes effective, in the form of a cashier's check or surety bond, as permitted by Applicable Procurement Laws.

(b) Prior to Commencement of Construction of the Project, Developer shall cause the CMAR to provide payment bonds and performance bonds for the construction of the Project to ensure completion of the Project in satisfaction of Section 212.073 of the Texas Local Government Code and Chapter 2253, Texas Government Code, as amended in forms reasonably satisfactory to City. Developer shall cause the Contractor to provide maintenance bonds in the amount of 100% of the total construction cost of the Project (for a period of two (2) years following completion of the Project and acceptance by City) in favor of City for the Project in accordance with City's standard requirements and regulations pertaining to maintenance bonds for public improvements uniformly applied by City to construction of projects of similar nature to the Project.

(c) If a fixed contract amount or GMP has not been determined at the time the Construction Contract is awarded, the penal sums of the performance and payment bonds delivered to Developer for the benefit of City shall each be in an amount equal to the construction budget as specified in the request for proposals or qualifications. The CMAR shall deliver the bonds not later than the tenth (10th) day after the date the GMP Amendment is signed, unless the CMAR furnishes a bid bond or other financial security acceptable to Developer and City to ensure that the CMAR will furnish the required performance and payment bonds when a GMP is established.

3.11 Regulatory Requirements. Developer shall, with respect to the design and construction of the Project, comply with, and shall cause each Contractor to comply with the Design Standards, which include the following:

(a) Chapters 1001 and 1051, Texas Occupation Code;

(b) All laws relating to procurement of professional services under Chapter 2254 of the Texas Government Code;

(c) All laws relating to procurement under Chapters 252 and 271 of the Texas Local Government Code that apply to City;

(d) City's design and construction standards;

(e) The Texas Accessibility Standards and ADA requirements and City Public Right-of-Way Accessibility Guidelines;

(f) City's General Terms and Conditions applicable for public works;

(g) Applicable state, local and federal laws; and

(h) City's rules and regulations pertaining to permitted days and hours allowed for construction activities within City.

3.12 **Cleaning the Project Site**. During the construction of the Project, Developer will use commercially reasonable efforts to keep the area within which the Project work is being constructed free and clear of any trash or debris not typically associated with a construction site. Upon final completion of the Project work, Developer shall cause the Project site to be cleaned and cause the removal of all waste, rubbish, temporary structures, and other materials, together with all of Developer's property therefrom. Developer shall cause the disposal of all refuse at a Texas Commission on Environmental Quality approved landfill. Any City property that is damaged by Developer and/or Contractor during the construction of the Project shall be restored to its condition that existed prior to such damage. No additional payment shall be made by City for this work.

3.13 **Access to Work and Inspections**. In addition to City's inspection rights set forth under **Section 3.9(k)** above, City, and its respective representatives, shall have access to the Project site at all times from Commencement of Construction through the Completion of Construction to perform inspections of the Project to ensure that such public infrastructure improvements are being constructed in accordance with the Plans and Specifications. Developer shall take whatever steps reasonably necessary to provide such access when requested. Subject to the foregoing, City shall promptly notify Developer of any defects or non-conformances in the work discovered by or on behalf of City during City inspection. The Parties will meet to determine a commercially reasonable solution to any Project work defects or non-conformance and a commercially reasonable period of time in which any non-conformance should be remedied.

3.14 **Indemnification**.

CITY AND GTEC SHALL NOT BE LIABLE FOR ANY LOSS, DAMAGE, OR INJURY OF ANY KIND OR CHARACTER TO ANY PERSON OR PROPERTY ARISING FROM THE ACTS OR OMISSIONS OF DEVELOPER OR ITS CONTRACTOR PURSUANT TO THIS AGREEMENT. DEVELOPER HEREBY WAIVES ALL CLAIMS AGAINST CITY AND GTEC, THEIR RESPECTIVE COUNCIL, BOARDS, OFFICERS, AGENTS, AND EMPLOYEES (COLLECTIVELY REFERRED TO AS "**CITY PARTIES**") FOR DAMAGE TO ANY PROPERTY OR INJURY TO, OR DEATH OF, ANY PERSON ARISING AT ANY TIME AND FROM ANY CAUSE OTHER THAN THE NEGLIGENCE, GROSS NEGLIGENCE OR WILLFUL ACT OF ANY ONE OR MORE OF THE CITY PARTIES. DEVELOPER DOES HEREBY DEFEND, INDEMNIFY AND SAVE HARMLESS THE CITY PARTIES FROM AND AGAINST ANY AND ALL LIABILITIES, DAMAGES, CLAIMS, SUITS, COSTS (INCLUDING COURT COSTS, REASONABLE ATTORNEYS' FEES AND COSTS OF INVESTIGATION) AND ACTIONS OF ANY KIND BY REASON OF INJURY TO OR DEATH OF ANY PERSON, OR DAMAGE TO OR LOSS OF PROPERTY ARISING FROM DEVELOPER'S BREACH OF ANY OF THE TERMS AND CONDITIONS OF THIS AGREEMENT, OR BY REASON OF ANY NEGLIGENT OR INTENTIONAL ACT OR

OMISSION ON THE PART OF DEVELOPER, ITS OFFICERS, DIRECTORS, SERVANTS, AGENTS, EMPLOYEES, REPRESENTATIVES, CONTRACTOR(S), SUB-CONTRACTOR(S), LICENSEES, SUCCESSORS OR PERMITTED ASSIGNS (COLLECTIVELY REFERRED TO AS "**DEVELOPER PARTIES**") IN THE PERFORMANCE OF THIS AGREEMENT (EXCEPT TO THE EXTENT SUCH LIABILITY, CLAIMS, SUITS, COSTS, INJURIES, DEATHS OR DAMAGES ARISE FROM OR ARE ATTRIBUTED TO THE NEGLIGENCE, GROSS NEGLIGENCE OR WILLFUL ACT OF ONE OR MORE OF THE CITY PARTIES). IN THE EVENT OF JOINT OR CONCURRENT NEGLIGENCE OF ONE OR MORE OF THE CITY PARTIES AND ONE OR MORE OF THE DEVELOPER PARTIES, THE RESPONSIBILITY, IF ANY, SHALL BE APPORTIONED COMPARATIVELY IN ACCORDANCE WITH THE LAWS OF THE STATE OF TEXAS, WITHOUT, HOWEVER, WAIVING ANY GOVERNMENTAL IMMUNITY AVAILABLE TO THE CITY PARTIES AND WITHOUT WAIVING ANY DEFENSES OF THE PARTIES UNDER TEXAS LAW. IF ANY ACTION OR PROCEEDING SHALL BE BROUGHT BY OR AGAINST ONE OR MORE OF THE CITY PARTIES IN CONNECTION WITH ANY SUCH LIABILITY OR CLAIM, DEVELOPER SHALL BE REQUIRED, ON NOTICE FROM CITY, TO DEFEND SUCH ACTION OR PROCEEDINGS AT DEVELOPER'S EXPENSE, BY OR THROUGH ATTORNEYS REASONABLY SATISFACTORY TO CITY. THE PROVISIONS OF THIS SECTION ARE SOLELY FOR THE BENEFIT OF THE PARTIES AND THEIR RESPECTIVE SUCCESSORS AND PERMITTED ASSIGNS AND NOT INTENDED TO CREATE OR GRANT ANY RIGHTS, CONTRACTUAL OR OTHERWISE, TO ANY OTHER PERSON OR ENTITY. DEVELOPER'S OBLIGATIONS UNDER THIS SECTION SHALL NOT BE LIMITED TO THE LIMITS OF COVERAGE OF INSURANCE MAINTAINED OR REQUIRED TO BE MAINTAINED BY DEVELOPER UNDER THIS AGREEMENT. THIS PROVISION SHALL SURVIVE THE TERMINATION OF THIS AGREEMENT.

3.15 Project Records and Audits.

(a) Developer shall maintain complete and accurate records of all Project expenditures, contracts, change orders, and draw requests and packages, and shall require the Contractor to maintain complete and accurate records of all project expenditures, contracts, change orders, draw requests and packages, and other documentation relating to costs incurred under this Agreement for four (4) years following Completion of Construction of the Project; and Developer shall make, and cause the Contractor to make, such materials available to the City for review and inspection during the Term of this Agreement and for a period of four (4) years from the date of Completion of Construction of the Project, or until any pending litigation or claims that arose during the Term, are resolved, whichever is later.

(b) Developer shall provide City, and shall require Contractor to provide City, upon not less than 48 hours' prior written notice, with access to all Project records that are applicable to this Agreement at a location designated by Developer within Williamson County, Texas, during normal business hours for the purpose of making audits, examinations, excerpts, and transcriptions, provided any such audit must be initiated not later than four (4) years following Completion of Construction of the Project.

3.16 **Marketing and Retail Funding**. City intends to file a condominium declaration for the Retail Space and to sell and/or lease such separate units while sharing some common areas. In that regard, City and Developer agree to mutually market the sale and/or lease of such condominium units and to jointly pursue a third-party developer to fund the construction and finish-out of the Retail Space.

Article IV
Project Payments

4.1 **Project Payments; GTEC Funding**.

(a) City shall pay, and Developer shall accept, as full and complete payment for all of the work required herein for the Project, a sum equal to City's Project Share, which shall be paid to Developer by City in accordance with the terms, provisions and conditions set forth in this Article IV.

(b) Following Completion of Construction of the Project, Developer shall provide City with a final written accounting of the final Project Costs.

(c) Developer shall retain or withhold at least five percent (5%) of all sums due the CMAR for subcontracted work as retainage until Completion of Construction of the Project.

(d) Developer shall provide City on a monthly basis a progress report and an itemized statement specifying the Project Costs that have been incurred to date accompanied by copies of invoices from Contractor and copies of all payments made to Contractor relating to such invoice. Said progress report shall also include an up-to-date Project schedule measuring the progress of work with the baseline Project schedule submitted to City prior to Commencement of Construction. The report shall include explanations as to why the Project schedule is ahead or behind the baseline Project schedule. If the Project schedule falls behind the baseline Project schedule, Developer will include in the progress report specific provisions and actions that will be implemented to get the Project schedule back on track and in compliance with the baseline Project schedule.

(e) Based upon Developer's monthly applications for payment submitted to City, City shall make progress payments of City's Project Share of such payment request to Developer. On or before the tenth (10th) day of each calendar month after Commencement of Construction of the Project, Developer shall submit an application for payment for the period ending the last day of the previous calendar month to City in such form and manner, and with such supporting data and content, as City may reasonably require. City will review the application for payment and may also review the Project work to determine whether the quantity and/or quality of the Project work is as represented in the application for payment and is as required by the Plans and Specifications. The amount of each monthly progress payment by City shall be the amount set forth in the respective Developer's payment application after deducting the Developer's Project Share of such monthly payment application amount. City shall make such partial payments of the City's Project Share to Developer not later than thirty (30) days after City's receipt of each application for payment.

(f) Developer warrants that upon submittal of an application for payment, all Project work for which progress payments have been received from City shall be free and clear of liens, claims, security interest or other encumbrances in favor of Developer or any other person or entity whatsoever. Developer shall promptly pay Contractor, and/or cause the Contractor to pay, the Sub-Contractor(s) performing work on the Project for amounts due and, upon written request by City, provide proof to City that such Sub-Contractor(s) have been paid or otherwise satisfied for the amounts due.

(g) Prior to Final Acceptance, no progress payment, nor any use or occupancy of Project by City, shall be interpreted to constitute an acceptance of any Project work not constructed in strict accordance with the Plans and Specifications. City shall have no obligation to pay any portion of the Project Costs during the occurrence of a breach of a term or condition of this Agreement on the part of Developer, but City may do so; provided, however, if City elects to pay any such installment, no such payment shall be deemed a waiver of any remedies City may have in respect to such breach.

(h) City may decline to make payment, may withhold funds, and, if necessary, may demand the return of some or all of the amounts previously paid to Developer for defective Project work, to protect City from loss or damage because of:

(1) Defective Project work not remedied by Developer or, in the reasonable opinion of City, not likely to be remedied by Developer;

(2) Failure by Developer to pay or otherwise satisfy Contractor or others under contract with the Developer with respect to the Project for amounts due in a prompt and timely manner; and/or

(3) Evidence that the Project Work will not be completed in accordance with this Agreement.

(i) GTEC agrees to pay to City funds in an amount not less than $27,596,927, such funds to be used by City solely to pay City's Project Share pursuant to this Agreement. City shall make available to GTEC such records and information relating to the expenditure of GTEC funds for the Project as GTEC may be reasonably requested from time to time by GTEC.

4.2 **Budget.** All Project expenditures shall be made in accordance with and shall not exceed the amounts set forth in the Final Budget except in accordance with this Agreement. Developer shall operate within the Final Budget and shall have the authority to reallocate funds among line items as reasonably necessary to advance the Project; provided, however, no such reallocation shall cause total project expenditures to exceed the Final Budget or either Party's Project Share. Individual line-item approval from City shall not be required.

4.3 Budget Concern Escalation.

(a) If either Party has reasonable concerns that the Project Costs are at risk of exceeding the Final Budget, such Party shall issue those concerns to the other Party in writing. If City provides such notice to Developer, Developer shall respond in writing not later than seven (7) calendar days after receipt of such notice and shall commit to scheduling a meeting within that same window. City shall have seven (7) calendar days following Developer's written response to reply.

(b) If the matter is not resolved through the foregoing exchange, the Parties shall negotiate in good faith to resolve it within thirty (30) calendar days. If the matter remains unresolved at the expiration of such thirty (30) calendar day period, it shall be escalated pursuant to the dispute resolution procedure set forth in the Agreement. No stop-work right shall attach at any point during this process.

4.4. Budget Increases.

(a) Prior to pursuing a formal budget increase under this Section 4.4, the Parties shall first evaluate the availability and appropriateness of utilizing the Owner's Program Contingency as an offset to any potential increase, to the extent Owner's Program Contingency funds remain available and such use is consistent with Section 4.9.

(b) Any increase to the total approved Final Budget shall require the mutual written agreement of both Parties, formally executed as an amendment to the Final Budget. Developer shall have the initial responsibility to prepare a written proposal outlining the requested increase, identifying the specific scope items or conditions necessitating the increase, and specifying the dollar value associated with each. City shall review and respond within fourteen (14) calendar days and shall negotiate in good faith to approve a reasonable Final Budget increase. Such approval shall not be unreasonably withheld; provided, however, in no case shall City be obligated to approve an increase in the Final Budget that results in an increase to the City's Project Share.

4.5 Contingency Structure - General. The Final Budget shall include the following contingency categories:

(a) The Design-Estimating Completion Allowance and Bid Contingency are estimating tools that are reduced as design advances and are resolved through the GMP approval process; and

(b) Three Developer-controlled contingencies: (i) Soft Cost Contingency, (ii) Change Order Contingency, and (iii) Owner's Program Contingency, which are active project reserves governed as described in Sections 4.7 through 4.9.

4.6 Design-Estimating Completion Allowance and Bid Contingency.

(a) Design-Estimating Completion Allowance. The Final Budget shall include a Design-Estimating Completion Allowance to manage the risk associated with developing budgets based on incomplete design documents and the resulting potential inaccuracies in quantity surveys,

unit prices, or improperly applied comparable costs. This allowance shall be reduced proportionally as design advances and shall be eliminated upon the effective date of the GMP Amendment.

(b) **Bid Contingency**. The Final Budget shall include a Bid Contingency to manage the risk of potential marketplace anomalies on bid day that could exceed escalation forecasts. This contingency shall be resolved through the GMP approval process and shall be eliminated upon the effective date of the GMP Amendment.

4.7 **Soft Cost Contingency.** The Final Budget shall include a Soft Cost Contingency as an allowance for future additional soft costs that cannot reasonably be foreseen at the time the Final Budget is created, carried at approximately five percent (5%) of the total budgeted soft costs, including professional services and regulatory and permitting fees. Developer may use the Soft Cost Contingency at its discretion, subject to the following threshold: after any use, the remaining unencumbered Soft Cost Contingency balance must equal or exceed five percent (5%) of the total budgeted soft costs remaining to be expended. If such threshold is at risk of being breached, Developer shall follow the budget concern escalation process in Section 4.3, during which the Parties acknowledge a budget increase under Section 4.4 may be necessary.

4.8 **Change Order Contingency.** The Final Budget shall include a Change Order Contingency to manage the risk of unforeseen field conditions, a reasonable amount for consultant errors and omissions, Force Majeure events, and regulatory and permitting issues that may create additional costs in the execution of the work as designed. When a Change Order is executed during construction, the corresponding dollar amount shall be transferred from the Change Order Contingency into the construction contract value as a budget transfer. Developer may approve and execute Change Orders at its discretion, if, and only if, after any executed change order, the remaining unencumbered Change Order Contingency balance must equal or exceed five percent (5%) of the unearned contract value. "Unearned contract value" is calculated as total contract value minus earned value to date; "earned value" means work completed regardless of whether retainage has been released or payment has been made. If the five percent (5%) threshold is at risk of being breached, Developer shall follow the budget concern escalation process in Section 4.3, during which the Parties acknowledge a Final Budget increase under Section 4.4 may be necessary.

4.9 **Owner's Program Contingency.**

(a) The Final Budget shall include an Owner's Program Contingency to manage the risk associated with programmatic changes to the work that the Parties may decide to add at a later date but that are not currently defined, including elective scope additions such as additional parking capacity, material upgrades, or other City-directed enhancements not included in the original approved program.

(b) The Owner's Program Contingency may only be used upon the written approval of both Parties, which approval shall not be unreasonably withheld and shall be applied toward elective scope additions or programmatic changes not included in the original approved Final Budget. Prior to considering a formal budget increase under Section 4.4, the Parties shall first

evaluate the use of the Owner's Program Contingency as an offset to the extent funds remain available and such use is appropriate.

(c) The Owner's Program Contingency is an active reallocation tool during the design phase. As scope decisions are made, funds shall be transferred from the Owner's Program Contingency into the appropriate Final Budget category, typically the construction budget. Any balance remaining in the Owner's Program Contingency at the time of signing the GMP Amendment shall be carried into the construction phase as a reserve against future elective changes or as a buffer in the event the Change Order Contingency is exceeded.

4.10 **Final Payment**. When Completion of Construction and Final Acceptance of the Project occurs, City will promptly issue a final certificate of acceptance certifying that the Project is complete, and Developer shall be entitled to the remainder of the unpaid City Project Share, if any ("**Final Payment**"). City shall make Final Payment of all remaining sums due Developer within thirty (30) days of City's execution of a final certificate of acceptance. Acceptance of Final Payment shall constitute a waiver of all claims against City by Developer except for those claims previously made in writing against City by Developer pending at the time of Final Payment and identified in writing by Developer as unsettled at the time of its request for Final Payment. Under no circumstance shall Developer be entitled to receive interest on any payments or monies due Developer by City, whether the amount on which the interest may accrue is timely, late, wrongfully withheld, or an assessment of damages of any kind.

4.11 **Assignment of Warranties**. Developer agrees, as a part of the Project Costs, and as consideration of the payment of the City Project Share, to obtain and assign to City the warranties from the Contractor and the Sub-Contractor(s) and suppliers providing labor and/or materials in connection with the Project; provided that such assignment shall not prevent Developer from enforcing the same. Such warranties shall: (a) be at least standard industry warranties with respect to the Project; and (b) obligate Developer's Contractor, Sub-Contractor(s) and suppliers to repair all defects in the Project for a period of two (2) years following Completion of Construction of the Project.

4.12 **Casualty**. Risk of loss due to casualty shall be borne by Developer until Completion of Construction of the Project. Developer shall carry or cause to be carried insurance in amounts sufficient to restore any portion of the Project damaged by casualty to the same condition as existed immediately prior to such casualty. Developer will, in any event, restore any portion of the Project damaged or destroyed by casualty during the Term of this Agreement as part of its obligation to construct the Project.

Article V
Insurance

5.1 **Insurance**. Developer shall cause the Project Engineer, the Project Architect, Contractor, and each Sub-Contractor (as applicable) to obtain and maintain at their expense, the following policies of insurance and coverage:

(a) Commercial General Liability Policy covering bodily injury, death and property damage, including the property of City and City Parties insuring against all claims, demands or actions relating to the work and services provided pursuant to this Agreement with minimum limits on a per Project basis of not less than One Million Dollars ($1,000,000) combined single limit and Two Million Dollars ($2,000,000) aggregate, including products and completed operations coverage. This policy shall be primary to any policy or policies carried by or available to City and GTEC.

(b) Workers' Compensation/Employer's Liability Insurance Policy in full accordance with the statutory requirements of the State of Texas and shall include bodily injury, occupational illness, or disease coverage with minimum Employer's Liability limits of not less than $500,000/$500,000/$500,000.

(c) Automobile Liability Insurance Policy covering all operations of Developer pursuant to this Agreement involving the use of motor vehicles, including all owned, non-owned and hired vehicles with minimum limits of not less than One Million Dollars ($1,000,000) combined single limit for bodily injury, death, and property damage liability.

(d) Excess Liability Insurance Policy with a limit of not less than Ten Million Dollars ($10,000,000) for the Contractor and Five Million Dollars ($5,000,000) for all professional consultants and subcontractors. Such insurance shall be in excess of the commercial general liability insurance, business auto liability insurance and employer's liability insurance. This insurance will apply as primary insurance with respect to any other insurance or self-insurance programs maintained by City and/or GTEC and shall be provided on a "following form basis". Continuing commercial umbrella coverage, if any, shall include liability coverage for damage to the Contractor's completed work, including its sub-Contractor(s), consultants and employees.

(e) Property/Builders Risk Insurance Policy with "all-risk" coverage on the entire Project construction value with replacement cost basis to include the interest of City, Developer, Contractor, and sub-Contractor(s) in the Project work and materials in transit and stored off the Project site destined for incorporation.

(f) Professional Liability Insurance (if applicable) with limit of not less than Two Million Dollars ($2,000,000) for all negligent acts, errors and omissions by the Project Engineer or Project Architect that arise out of the performance of this Agreement.

(g) Waiver of Subrogation Rights. The Commercial General Liability, Worker's Compensation, Business Auto and Excess Liability insurance required pursuant to this Agreement shall provide for waivers of all rights of subrogation against City and GTEC.

(h) Additional Insured Status. With the exception of Worker's Compensation Insurance and any Contractor Professional Liability Insurance, all insurance required pursuant to this Agreement shall include and name City and GTEC as additional insureds using Additional Insured Endorsements that provide the most comprehensive coverage to City and GTEC under Texas law including products/completed operations. The Additional Insured status for City and

GTEC shall remain in force and effect for a minimum of two (2) years following abandonment or completion of the Project work and services provided pursuant to this Agreement and the termination of this Agreement.

5.2 Certificates of Insurance.

(a) Certificates of Insurance and policy endorsements in a form reasonably satisfactory to City shall be delivered to City and GTEC prior to the commencement of any Project work or services under this Agreement and annually for a minimum of two (2) years following termination of this Agreement, abandonment, or completion of Project work. All required policies shall be endorsed to provide City and GTEC with thirty (30) days advance notice of cancellation or material change in coverage. If the companies providing the required insurance are prohibited by law to provide any such specific endorsements, Developer shall provide at least thirty (30) days prior written notice to City and GTEC of any cancellation, and/or non-renewal to any of the policies of insurance. All policies must be written on a primary basis, non-contributory with any insurance coverage and/or self-insurance maintained by City and/or GTEC.

(b) On every date of renewal of the required insurance policies, Developer shall deliver to City and GTEC (and cause the Contractor to deliver to City and GTEC (as applicable)) a Certificate of Insurance and policy endorsements to be issued evidencing the required insurance herein. In addition, Developer shall, within ten (10) business days after written request, provide City with GTEC with Certificates of Insurance and policy endorsements for the insurance required herein (which request may include copies of such policies). The delivery of the Certificates of Insurance and the policy endorsements (including copies of such insurance policies) to City and GTEC is a condition precedent to the payment of any amounts due to Developer by City. The failure to provide valid Certificates of Insurance and policy endorsements shall be deemed a breach of this Agreement. All policies and endorsements shall remain in effect for not less than two (2) years after abandonment of the Project work or services or the completion of the Project work and services provided pursuant to this Agreement.

5.3 Carriers. All policies of insurance required to be obtained by Contractor and Sub-Contractor pursuant to this Agreement shall be maintained with insurance carriers that are satisfactory to City and GTEC and lawfully authorized to issue insurance in the state of Texas for the types and amounts of insurance required herein. All insurance companies providing the required insurance shall be authorized to transact business in Texas and rated at least "A-VII" by AM Best or other equivalent rating service. All policies must be written on a primary basis, non-contributory with any other insurance coverage and/or self-insurance maintained by City and/or GTEC. All insurance coverage required herein shall be evidenced by a certificate of insurance and policy endorsements submitted by Developer's and its Contractor's insurer or broker. Certificates of insurance and policy endorsements received from any other source will be rejected.

Article VI
Default and Remedies

6.1 Developer Default.

(a) Developer Default. Developer shall be deemed in default under this Agreement if Developer: (i) breaches any of the terms and conditions of this Agreement; (ii) fails to comply with its obligations under this Agreement: (iii) subject to delays caused by events of Force Majeure, fails or refuses to prosecute the Project work in a timely manner consistent with its obligations hereunder; (iv) subject to delays caused by events of Force Majeure, abandons the jobsite and fails to resume work within five (5) days of written notice thereof by City; (v) fails to grant or allow access to the Project jobsite by City or the City Engineer; (vi) fails to make prompt payment to or otherwise satisfy Subcontractors for amounts due for materials or labor; (vii) persistently disregards laws, ordinances, rules, regulations or orders of any public authority having jurisdiction; (viii) fails to carry out the Project work in accordance with this Agreement; or (ix) actions or omissions of Developer's Contractor reasonably establishes that the Project will not be substantially completed by the Substantial Completion Deadline t (a "**Developer Default**"), and such failure is not cured and corrected within ninety (90) days after receipt of written notice thereof from City; provided, however, if such breach is not capable of being cured within ninety (90) days, such period may be mutually extended by the Parties for such reasonable periods as may be required under the circumstances so long as Developer is diligently prosecuting the cure of such breach to completion; and further provided that Developer shall have only ten (10) business days to cure a monetary default.

(b) Remedies for Developer Default. Upon the occurrence of a Developer Default, and after expiration of the applicable notice and cure periods, City may exercise any rights or remedies at law or in equity, and/or elect to (i) suspend payment of the City's Project Share, or (ii) terminate this Agreement.

6.2 City Default.

(a) City Default. City shall be deemed in default under this Agreement (a "**City Default**") if City breaches any of the terms and conditions of this Agreement or fails to comply with its obligations under this Agreement and such failure is not cured and corrected within ninety (90) days after receipt of written notice thereof from Developer; provided, however, if such breach is not capable of being cured within ninety (90) days, such period may be mutually extended by the Parties for such reasonable periods as may be required under the circumstances so long as City is diligently prosecuting the cure of such breach to completion. and further provided that City shall have only ten (10) business days to cure a monetary default.

(b) Remedies for City Default. Upon the occurrence of a City Default, Developer may exercise any rights or remedies at law or in equity including a termination of this Agreement, including but not limited to, demanding specific performance of City's obligations under this Agreement.

6.3 Waiver of Consequential, Punitive or Speculative Damages. Neither Party shall be liable to the other Party for any alleged consequential, punitive, or speculative damages arising pursuant to this Agreement.

Article VII
Dispute Resolution

7.1 General Obligation to Continue Performance. Notwithstanding the existence of any dispute between the Parties arising under this Agreement, Developer may, but is not obligated to, continue to perform its obligations with respect to the design, permitting, and construction of the Project during the pendency of such dispute, including without limitation maintaining the construction schedule and directing the work of contractors and subcontractors engaged in the Project. Neither Party shall withhold funding or approvals required to maintain the construction schedule solely on the basis of a pending dispute, except to the extent that the subject matter of such dispute directly prevents the release of such funding or approval.

7.2 Informal Resolution. If a dispute arises between the Parties concerning any matter related to this Agreement, including without limitation disagreements regarding the design of the Project, the scope or necessity of value engineering, the need for a change in the Project Budget, or any other matter requiring mutual agreement of the Parties, the Party raising the dispute shall provide written notice to the other Party describing the nature of the dispute and the resolution sought (a "**Dispute Notice**"). Not later than ten (10) business days following receipt of a Dispute Notice, the designated representatives of Developer and City (respectively, the "**Developer Representative**" and the "**City Representative**") shall meet and confer in good faith to attempt to resolve the dispute informally. Each representative shall have sufficient authority to negotiate and resolve the matter on behalf of their respective Party or shall have direct access to a person with such authority.

7.3 Escalation to Executive Leadership. If the Developer Representative and the City Representative are unable to resolve the dispute within five (5) business days following receipt of the Dispute Notice, either Party may escalate the dispute by providing written notice to the other Party. Not later than ten (10) business days following delivery of such escalation notice, the Developer's Executive Director (or designee) and the City Manager (or designee) shall meet and confer in good faith to attempt to resolve the dispute. Such executive leadership representatives shall have full authority to bind their respective Parties to any resolution reached during this escalation process.

7.4 Mediation. If the Parties are unable to resolve the dispute through the escalation process described above in Section 7.3 within thirty (30) days following delivery of the escalation notice, either Party may initiate non-binding mediation by providing written notice to the other Party. The mediation shall be conducted by a single mediator mutually agreed upon by the Parties. If the Parties are unable to agree on a mediator within ten (10) business days following the notice of mediation, either Party may request the American Arbitration Association to appoint a mediator with experience in public construction projects. The mediation shall take place in Williamson County, Texas, and each Party shall bear its own costs of participation, with the fees of the mediator shared equally between the Parties. The mediator shall not have authority to impose a resolution upon the Parties.

7.5 Interim Decision Authority. Recognizing that Developer bears the obligation to continue construction during the pendency of any dispute and that delays in decision-making may result in increased costs or schedule impacts to the Project, the Parties agree to the following interim decision-making framework:

If a dispute concerns a matter that requires an immediate decision to avoid material delay to the construction schedule or material increase in Project costs, and the Parties have not resolved such dispute within ten (10) business days following delivery of the Dispute Notice, Developer shall have the authority to make a reasonable interim decision on such matter and to direct the work accordingly, provided that: (a) Developer provides written notice to City of the interim decision and the basis therefor; (b) the interim decision is consistent with the overall Project scope and objectives as set forth in this Agreement; and (c) the interim decision does not result in an increase to the Project Budget in excess of 5% without the prior written consent of City. Any interim decision made by Developer under this Section 7.5 shall be subject to subsequent adjustment or reversal through the dispute resolution process set forth herein, and the Parties shall negotiate in good faith an equitable allocation of any costs resulting from such adjustment or reversal.

7.6 Reservation of Rights; No Waiver of Immunity. Except to the extent expressly waived under applicable law, nothing in this Agreement shall be construed to limit, waive, or restrict any right, governmental or sovereign immunity to liability or suit, or defense available to either Party under the Texas Tort Claims Act, the Interlocal Cooperation Act, or any other applicable law. To the extent any dispute cannot be resolved through the process described herein, either Party may pursue any remedy available at law or in equity, subject to the jurisdiction and venue provisions of the Agreement. The dispute resolution procedures set forth in this Article VII are a condition precedent to the initiation of any legal proceeding between the Parties arising out of or related to this Agreement, except that either Party may seek emergency injunctive or other equitable relief from a court of competent jurisdiction without first exhausting the procedures set forth herein if necessary to prevent irreparable harm.

Article VIII
Termination

This Agreement shall terminate on the Expiration Date, or may be terminated earlier upon any one or more of the following:

(a) By written agreement of the Parties;

(b) Exercise by City (and City of behalf of GTEC) or Developer of their remedies set forth in Article VI above upon the occurrence of a Developer Default or City Default, respectively, following the failure to cure such default within the time allowed; or

(c) On the date set forth in a written notice to the other Party if the other Party suffers an event of Bankruptcy or Insolvency.

Article IX
Miscellaneous

9.1 **Binding Agreement; Assignment**. The terms and conditions of this Agreement are binding upon the successors and permitted assigns of the Parties. This Agreement may not be assigned by Developer without the prior written consent of the City Manager and GTEC. Notwithstanding the foregoing, Developer may assign this Agreement in whole, but not in part, to a Developer Affiliate without the consent of City provided (i) Developer provides thirty (30) days' prior written notice thereof to City, and (ii) the assignee assumes all of the rights and obligations of Developer under this Agreement in writing in a form reasonably approved by City. Developer or any permitted assignee of Developer shall have the right to grant a security interest in this Agreement by collaterally assigning all or any portion of Developer's (or permitted assignee's) rights under this Agreement to Developer's Lender as security for a loan for the Project. City agrees to execute and deliver any documents reasonably requested by Developer's Lender to evidence and/or perfect its rights under this Agreement. At no time shall City be required to make any payments under this Agreement to any party other than Developer or a party to whom this Agreement has been fully assigned and has agreed in writing to assume all liabilities and obligations of Developer as set forth in this Agreement.

9.2 **Limitation on Liability**. It is understood and agreed among the Parties that Developer, City, and GTEC, in satisfying the conditions of this Agreement, have acted independently, and assume no responsibilities or liabilities to third parties in connection with these actions.

9.3 **No Joint Venture**. With respect to City and GTEC, Developer shall at all times be an independent contractor. No provision hereof shall be construed to constitute Developer or any of its officers or employees as an employee or employees of City or GTEC. It is acknowledged and agreed by the Parties that the terms hereof are not intended to and shall not be deemed to create a partnership or joint venture among the Parties. Neither City, GTEC, nor Developer shall have the power to bind the other Party except pursuant to the terms of this Agreement. This Agreement is not intended to provide or create any agency relationship among City, GTEC, and Developer.

9.4 **Authorization**. Each Party represents that it has full capacity and authority to grant all rights and assume all obligations that are granted and assumed under this Agreement.

9.5 **Notice**. Any notice required or permitted to be delivered hereunder shall be deemed received: (i) three (3) days after deposit in the United States Mail, certified, return receipt requested, postage prepaid, addressed to the Party at the address set forth below (or such other address as a Party may subsequently designate in writing); (ii) or on the day received if sent by courier or otherwise hand delivered.

Either Party may update its address by providing not less than five (5) days' prior written notice to the other Parties in accordance with this Section 9.5.

9.6 **Entire Agreement**. This Agreement is the entire agreement among the Parties with respect to the subject matter covered in this Agreement. There is no other collateral oral or written agreement among the Parties that in any manner relates to the subject matter of this Agreement, except as provided in any Exhibits attached hereto.

9.7 **Governing Law**. The Agreement shall be governed by the laws of the State of Texas without regard to any choice of law rules; and exclusive venue for any action shall be in the State District Court of Williamson County, Texas. The Parties agree to submit to the personal and subject matter jurisdiction of said court.

9.8 **Amendment**. This Agreement may only be amended by the mutual written and signed agreement of the Parties. The City Manager is authorized to act on behalf of City and GTEC to execute any amendments hereto and any instruments or other agreements related hereto.

9.9 **Legal Construction**. If any one or more of the provisions contained in this Agreement shall for any reason be held to be invalid, illegal, or unenforceable in any respect, such invalidity, illegality, or unenforceability shall not affect other provisions, and it is the intention of the Parties to this Agreement that in lieu of each provision that is found to be illegal, invalid, or

unenforceable, a provision shall be added to this Agreement which is legal, valid and enforceable and is as similar in terms as possible to the provision found to be illegal, invalid or unenforceable.

9.10 **Recitals**. The recitals to this Agreement are incorporated herein.

9.11 **Counterparts**. This Agreement may be executed in identical counterparts. Each of the counterparts shall be deemed an original instrument, but all of the counterparts shall constitute one and the same instrument.

9.12 **Exhibits**. All exhibits to this Agreement are incorporated herein by reference for all purposes wherever reference is made to the same.

9.13 **Survival of Covenants**. Any of the representations, warranties, covenants, and obligations of the Parties, as well as any rights and benefits of the Parties, pertaining to a period of time following the termination of this Agreement shall survive termination.

9.14 **Contract Administration**. This Agreement shall be administered on behalf of the City and GTEC by the City Manager.

9.15 **Boycott Israel; Boycott Energy Companies; and Prohibition of Discrimination Against Firearm Entities and Firearm Trade Associations**.

(a) Developer verifies that it does not Boycott Israel and agrees that during the term of the Agreement will not Boycott Israel as that term is defined in Texas Government Code Section 808.001, as amended.

(b) Developer verifies that it does not Boycott Energy Companies and agrees that during the term of this Agreement will not Boycott Energy Companies as that term is defined in Texas Government Code Section 809.001, as amended.

(c) Developer verifies that it does not have a practice, policy, guidance, or directive that discriminates against a firearm entity or firearm trade association as those terms are defined in Texas Government Code Section 2274.001, as amended; and (ii) will not discriminate during the term of this Agreement against a firearm entity or firearm trade association.

(d) This section does not apply if Developer is a sole proprietor, a non-profit entity, or a governmental entity; and only applies if: (i) Developer has ten (10) or more fulltime employees and (ii) this Agreement has a value of $100,000.00 or more to be paid under the terms of this Agreement.

9.16 **Conditions Precedent**. This Agreement is subject to, and the obligations of the Parties subject to and expressly conditioned upon City Council approval of this Agreement with respect to GTEC obligations herein.

EXHIBIT "A"
Form of Parking Easement Agreement

STATE OF TEXAS	§	
	§	**PARKING EASEMENT AGREEMENT**
COUNTY OF WILLIAMSON	§	

This **Parking Easement Agreement** ("**Agreement**") is made as of the Effective Date by and between the **City of Georgetown** ("**City**"), a Texas home rule municipality, and the **Texas Municipal League Intergovernmental Risk Pool** ("**TMLIRP**"), a Texas administrative agency established by Texas local governments pursuant to Texas Government Code Chapters 791 and 2259 and Texas Labor Code Chapter 504 (each a "**Party**" and collectively the "**Parties**"), acting by and through their respective authorized representatives.

W I T N E S S E T H:

WHEREAS, City owns the **"Land"** (hereinafter defined); and

WHEREAS, City desires to cause the design and construction of the **"Parking Garage"** (hereinafter defined); and

WHEREAS, TMLIRP desires to provide parking for its officers, employees, guests, and others while working, conducting business, or otherwise visiting the **"TMLIRP Offices"** (hereinafter defined); and

WHEREAS, TMLIRP has agreed to cause the design and construction of the Parking Garage on behalf of City and participate in the costs of the design and construction of the Parking Garage pursuant to that certain Project Development Agreement by and among Georgetown Transportation Enhancement Corporation (**"GTEC"**), City and TMLIRP dated _____ (the **"Project Development Agreement"**) in exchange for this Parking Easement Agreement; and

WHEREAS, City has agreed to grant the **"Easement"** (hereinafter defined) to TMLIRP as set forth herein.

NOW THEREFORE, in consideration of the foregoing, and on the terms and conditions hereinafter set forth, and other valuable consideration the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

Article I
Definitions

For purposes of this Agreement, each of the following words and phrases shall have the meaning set forth herein unless the context clearly indicates otherwise:

"Applicable Law" shall mean all applicable laws, rules, regulations and ordinances (federal, state, county, city or otherwise), of any governmental authority including, without limitation, all districts, departments, commissions, boards and officers thereof, and any other body exercising similar functions, including, but not limited to any environmental laws, the Americans with Disabilities Act, and any similar laws, statutes or ordinances relating to handicapped

accessibility.

"Business Day(s)" shall mean Monday through Friday of each week, exclusive of New Year's Day, Martin Luther King, Jr. Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, the day after Thanksgiving, Christmas Eve, and Christmas Day.

"Casualty" shall mean damage or destruction of the Parking Garage caused by fire, natural disaster, or other Event of Force Majeure.

"City" shall mean the City of Georgetown acting by and through its city manager.

"Controlled Access Facilities" shall mean the controlled gated access to and from the parking spaces within the Easement Area and associated pay stations as may be installed within the Easement Area.

"Designated Hours" shall mean (i) the hours of 8:00 a.m. and 5:00 p.m. Central Time every Monday through Friday and (ii) a Special Event Period.

"Easement" shall have the meaning assigned in Article II hereof.

"Easement Area" shall mean the Parking Garage other than the Retail Space.

"Event of Force Majeure" means an occurrence of any contingency or cause beyond the reasonable control of a Party including, without limitation, acts of God or the public enemy, war, riot, terrorism, civil commotion, insurrection, government or de facto governmental action, restrictions or interferences (unless caused by the intentional acts or omissions of the Party), fires, explosions, floods or other inclement weather, strikes, slowdowns or work stoppages, incidence of disease or other illness that reaches outbreak, epidemic, or pandemic proportions or similar causes affecting the area in which the Land is located that results in a reduction of labor force or work stoppage in order to comply with local, state, or national disaster orders, construction delays, shortages or unavailability of supplies, materials or labor, necessary condemnation proceedings, or any other circumstances which are reasonably beyond the control of the Party obligated or permitted under the terms of this Agreement to do or perform the same, regardless of whether any such circumstances are similar to any of those enumerated or not, in which case the Party so obligated or permitted shall be excused from doing or performing the same during such period of delay, so that the time period applicable to such obligation or performance shall be extended for a period of time equal to the period such Party was delayed, provided the Party whose performance is delayed provides written notice to the other Party not later than fifteen (15) business days after the last day of the month of the occurrence of the event(s) or condition(s) causing the delay or the date the Party whose performance has been delayed becomes aware or should have reasonably known of the event, describing such event(s) and/or condition(s) and the date on which such event(s) and/or condition(s) occurred.

"Impositions" shall mean taxes, assessments, use and occupancy taxes, charges, excises, license, and permit fees, and other charges by public or governmental authority, general and special, ordinary, and extraordinary, foreseen, and unforeseen, which are or may be assessed,

charged, levied, or imposed by any public or governmental authority on City with respect to the Parking Garage.

"Land" shall mean the real property described as Lots 1 through 8, inclusive, Block 1, Glasscock Addition to the City of Georgetown, Williamson County, Texas, and more particularly described in that certain Special Warranty Deed dated June 15, 2004, and recorded June 16, 2004, as Instrument No. 2004047277, Official Public Records, Williamson County, Texas.

"Parking Garage" shall mean a four-level structured parking garage constructed on the Land with (i) an area of approximately 184,000 square feet, (ii) no less than four hundred thirty-five (435) parking spaces, and (iii) the Retail Space.

"Partial Taking" shall mean an eminent domain taking which is not a Total Taking. The term "eminent domain taking" includes a voluntary conveyance made under threat or in anticipation of an involuntary eminent domain taking.

"Permitted Use" shall mean the use of no more than two hundred (200) motor vehicle parking spaces in the Parking Garage by Permitted Users during the Designated Hours.

"Permitted Users" shall mean TMLIRP's and Texas Municipal League's ("**TML**") officers, employees, guests, and others who are working, conducting business, or otherwise visiting the TMLIRP Offices.

"Reserved Spaces" shall mean two hundred (200) parking spaces designated by City and TMLIRP on the upper two levels of the Parking Garage for exclusive use by Permitted Users for the Permitted Use in accordance with and subject to Section 2.1(d).

"Retail Space" shall mean approximately 16,000 square feet of retail space located on the ground floor of the Parking Garage with entries from Ninth Street or Main Street.

"Special Event Period" shall mean, subject to Section 2.2, a period on a Business Day beginning after 5:00 p.m. and ending before midnight of the same Business Day designated in writing to City by TMLIRP not less than sixty (60) days prior to the Special Event Period.

"TMLIRP Offices" shall mean the property and buildings owned by TMLIRP and used by TMLIRP as its general headquarters and by TMLIRP and TML as an official place of business located at 205 E. University Avenue in Georgetown, Texas.

"TMLIRP's Pro Rata Share" shall mean the ratio of 200 to the total number of parking spaces in the Parking Garage.

"Total Taking" shall mean an eminent domain taking of all of the Parking Garage or such portion thereof (considering both quantity and configuration) that it is impractical to restore such improvements to a condition which permits them to be used for the Parking Garage.

EXHIBIT "A"
Form of Parking Easement Agreement

Article II
Easement

2.1 Grant of Easement.

(a) Grant of Easement. Upon Completion of Construction of the Parking Garage and acceptance thereof by City (as those terms are defined in Project Development Agreement) and subject to the provisions of this Agreement, City hereby grants and conveys to TMLIRP a perpetual, non-exclusive easement (the "**Easement**"), including the right of ingress, egress, and regress, to use the Parking Garage by Permitted Users for the Permitted Use. The Easement includes the non-exclusive right of Permitted Users to use the sidewalks, stairs, elevators, driveways, drive aisles, ramps, entrances and exits located on the Land and in the Parking Garage for the purpose of providing direct ingress to and egress from the Parking Garage by the Permitted Users to and from the streets and sidewalks located adjacent to the Land.

(b) Reservation by City. City hereby reserves, subject to the provisions hereof, the right for direct access and use of all portions of the Easement Area for the purpose of public parking and conducting repairs and maintenance of the Parking Garage.

(c) Commencement of Easement. Notwithstanding the foregoing or any other provision herein to the contrary, TMLIRP's right to access and utilize the Easement created by this Agreement and all obligations of City under this Agreement shall not be effective until the completion of construction of the Parking Garage as evidenced by the issuance of a certificate of occupancy by City for use thereof, which right shall automatically become effective without further action by the Parties at such time.

(d) Designation of Reserved Spaces.

(1) After Completion of Construction of the Parking Garage, if TMLIRP determines that use of the Parking Garage by Permitted Users combined with the use of the Parking Garage by others regularly results in the unavailability of parking spaces for parking at least 200 vehicles operated by Permitted Users for the Permitted Use during the Designated Hours (excluding parking during Special Event Periods), TMLIRP may deliver a written notice to City requesting the designation of some or all of the Reserved Spaces (the "**Reservation Notice**") accompanied by evidence reasonably supporting TMLIRP's determination of the existence of such unavailability of parking spaces for Permitted Users. Such supporting evidence may include, but not be limited to, occupancy observations taken at various times of day on representative sample of days, reports from Permitted Users of the inability to locate vacant parking spaces, physical parking counts, and similar types of information.

(2) Unless otherwise agreed by City, the designation of Reserved Spaces shall not become effective before ninety (90) days after delivery of the Reservation Notice to City.

(3) During the 90-day period described in paragraph (2), above, the Parties shall

reasonably and in good faith seek to agree in writing on:

(i) Which parking spaces shall be designated as the Reserved Spaces provided, however, if the Parties are unable to reach agreement, the Reserved Spaces shall be designated in contiguous blocks beginning at the uppermost parking level of the Parking Garage and proceeding downward;

(ii) Policies and procedures for use of the Parking Garage generally and the Reserved Spaces specifically by Permitted Users during the Designated Hours that set forth, as a minimum:

(A) Permitted Users will only be allowed to park in the Reserved Spaces during the Designated Hours;

(B) Exceptions to subparagraph (A), above;

(C) Vehicles other than those operated by Permitted Users will not be authorized to park in Reserved Spaces during the Designated Hours;

(D) How the Parties will implement and enforce such policies and procedures, including the restrictions described in (A) and (C), above;

(E) How the Parties will indicate within the Parking Garage which parking spaces are designated as Reserved Spaces and/or indicate which vehicles are authorized to be parked in Reserved Spaces, which may include, but not be limited to, installation of signs, lights, markings, access control gates or other access control mechanisms, and/or the preparation and use of parking permit decals, hangtags, or other similar credentials (collectively, the "**Reservation Mechanisms**"), and determining which Party will be responsible for installing and implementing the Reservation Mechanisms. Except as provided in Section 2.2(c), TMLIRP shall at all times be solely responsible for the reasonable and documented cost and expense relating to installing, implementing, operating, maintaining, and repairing the Reservation Mechanisms; and

(F) Such other matters to which the Parties may include in such policies and procedures.

(4) TMLIRP may specify in a Reservation Notice that fewer than two hundred (200) parking spaces be designated as Reserved Spaces, in which case TMLIRP shall have the right to request that additional parking spaces be designated as Reserved Spaces by the subsequent delivery of one or more Reservation Notices; provided, however, the total of all Reserved Spaces shall never exceed two hundred (200). Each subsequent Reservation Notice for additional Reserved Spaces shall comply with paragraphs (1) and (2) of this Section 2.1(d). Further, with each subsequent Reservation Notice, the Parties shall evaluate the policies and procedures adopted pursuant to paragraph (3) of this Section 2.1(d) and

determine if any changes are necessary as the result of the designation of additional Reserved Spaces.

(5) Notwithstanding the definition of "Reserved Spaces" in Article I, the City Manager shall have the authority to agree to the designation of Reserved Spaces at locations other than the upper two levels of the Parking Garage, which designation may be for a specified time or permanently.

(6) TMLIRP's election under this Section and any period during which TMLIRP's spaces remain unreserved, regardless of duration, shall not: (a) reduce, suspend, or modify TMLIRP's right to two hundred (200) parking spaces; or (b) constitute a waiver, release, abandonment, or relinquishment of any right of TMLIRP under this Agreement or the Easement. No delay by TMLIRP in delivering a Reservation Notice shall impair TMLIRP's right to do so at any later time.

2.2 Limitations on Use for Permitted Use; Use for Special Event Periods.

(a) TMLIRP acknowledges, understands, and agrees that the use of the Easement Area is limited to the Permitted Use.

(b) City shall have the right to install signs directing and identifying the public parking on the Easement Area. City shall have the sole right to: (1) install Controlled Access Facilities or other form of controlled access to the Parking Garage at the entrances to and exits from the Parking Garage, or at such other locations within or around the Parking Garage as City may determine in its reasonable discretion; and (2) charge fees to the public or impose such terms and conditions for public parking or third-party parking in the Parking Garage as City may determine in its sole discretion for parking in the Parking Garage. City shall be entitled to retain all revenues derived therefrom. TMLIRP shall have no claim, right, or interest in any revenues generated by City from such public parking or third-party parking in the Parking Garage.

(c) If City installs Controlled Access Facilities to control access to the Parking Garage, City shall issue appropriate devices to TMLIRP to validate parking for Permitted Users which shall permit access to the Parking Garage for the days and hours of the Permitted Use. TMLIRP shall not cause or otherwise authorize use of such validation device by Permitted Users or others to gain access to or use the Parking Garage outside of the days and hours of the Permitted Use or any Special Event Period.

(d) TMLIRP shall have the right to use the Parking Garage during Special Event Periods subject to the following:

(1) TMLIRP shall notify City in writing not later than sixty (60) days prior to the date(s) TMLIRP will use the Parking Garage for a Special Event Period; and

(2) No Special Event Period may be scheduled for a Friday if City has notified TMLIRP in writing not later than ninety (90) days prior to such Friday that a City-sponsored event will be taking place within City's downtown area such that use of the

Parking Garage by attendees of such event will be needed.

(e) Notwithstanding anything to the contrary in this Agreement, City shall have the right to exclusively use the entire Parking Garage in conjunction with the operation of a City-sponsored event being held in City's downtown area, including, at City's sole option, prohibiting use of the Parking Garage by Permitted Users or reducing the number of parking spaces by Permitted Users (including Reserved Spaces, if applicable) to less than 200; provided:

(1) Such exclusive use by City that reduces the number of available parking spaces for Permitted Users to less than 200 shall be limited to no more than three (3) Fridays during each calendar year;

(2) City will endeavor to deliver written notice to TMLIRP at the beginning of each calendar year identifying the date(s) on which City will exercise its right to such exclusive use but regardless shall deliver written notice of the date(s) City will exercise its right to such exclusive use not later than ninety (90) days prior to such date(s); and

(3) The exercise of City's right to use the Parking Garage exclusively pursuant to this Section 2.2(e) shall include the entire day (i.e. Midnight to 11:59 p.m.) on such Friday unless City otherwise advises TMLIRP that it will not require use of the Parking Garage for the full day.

2.3 **Exclusive Use of Easement Area**. TMLIRP shall not grant, and understands, acknowledges, and agrees that it has no authority to grant or convey an easement or license for, or otherwise consent to, the use of the Easement Area by any third-party for parking or any other purpose on the Easement Area without the written consent of City, which may be withheld at City's sole discretion.

2.4 **Operation, Repair, Replacement and Maintenance of the Easement Area**.

(a) City at its sole expense shall be responsible for the operation of the Parking Garage, and City shall perform all such duties in a good and workmanlike manner, in accordance with industry standards applicable to comparable projects and in accordance with all Applicable Laws.

(b) Except as otherwise expressly set forth in this Agreement, including, but not limited to, Section 2.1, at all times during the term of this Agreement, City shall keep and maintain, or cause to be kept and maintained, the Parking Garage, in a good state of appearance, cleanliness, order, and repair, reasonable wear and tear excepted, including, but not limited to, wiring, electrical, drainage, lighting fixtures and facilities, curbs, curb stops, parking space paint striping, designated handicap parking space signs and related signs, regular and timely removal of all litter, garbage, trash and waste, maintenance of interior lighting within the Parking Garage and elevators, mechanical equipment, the walks, driveways, ramps, elevators, stairwells, striping and restriping parking areas, driveways and the like, and repairing and repainting the exterior of the Parking Garage as may be reasonably necessary or desirable. City shall perform such maintenance and repair as necessary to operate the Parking Garage in accordance with generally accepted commercial standards applicable to a commercial parking facility located within the Austin

Metroplex (downtown Austin or high-density retail areas). The foregoing shall include periodically removing papers, debris, filth, refuse, and surface waters and washing or thoroughly sweeping paved areas. All paved areas of the Easement Area shall be kept free of potholes, cracks larger than one-fourth inch (1/4") or deemed dynamic in nature, and other conditions which could reasonably result in damage to vehicles or a tripping hazard to people traversing the Easement Area.

(c) City's obligations with respect to the maintenance and repair of the Easement Area includes the repair and replacement of all structural components of the Parking Garage, including the walls, support columns, roof, gutters, storm drains, and foundation, elevators, lighting, heating, air conditioning, plumbing and other electrical and mechanical equipment, signs, fixtures and systems, and also including all utility repairs in ducts, conduits, pipes and wiring located in, under and above the Easement Area and all paving, driveways, sidewalks and parking areas (the "**Garage Structural Elements**"). Except where otherwise expressly set forth in this Agreement, including, but not limited to, Section 2.1, TMLIRP shall have no duty, obligation or liability to make any repairs, replacements, or alterations to the Parking Garage or the Easement Area or any portion thereof, at any time during the term of this Agreement. City shall maintain the Garage Structural Elements in a good state of repair, reasonable wear and tear excepted.

(d) The cost of the maintenance, repair and operation of the Parking Garage (including the Easement Area as described in Sections 2.4 (a), 2.4 (b), and 2.4(c) and including the cost of insurance and utility services, conducted or paid by City (collectively, the **"Operating Expenses"**), shall be borne by City.

2.5 **Indemnification**. CITY SHALL NOT BE LIABLE FOR ANY LOSS, DAMAGE, OR INJURY OF ANY KIND OR CHARACTER TO ANY PERSON OR PROPERTY ARISING FROM THE ACTS OR OMISSIONS OF TMLIRP PURSUANT TO THIS AGREEMENT. TMLIRP HEREBY WAIVES ALL CLAIMS AGAINST CITY, ITS OFFICERS, AGENTS AND EMPLOYEES (COLLECTIVELY REFERRED TO AS THE "**CITY REPRESENTATIVES**") FOR DAMAGE TO ANY PROPERTY OR INJURY TO, OR DEATH OF, ANY PERSON ARISING AT ANY TIME AND FROM ANY CAUSE OTHER THAN THE SOLE NEGLIGENCE, GROSS NEGLIGENCE OR WILLFUL ACT OF ONE OR MORE OF THE CITY REPRESENTATIVES. TMLIRP SHALL NOT BE LIABLE FOR ANY LOSS, DAMAGE, OR INJURY OF ANY KIND OR CHARACTER TO ANY PERSON OR PROPERTY ARISING FROM THE ACTS OR OMISSIONS OF CITY PURSUANT TO THIS AGREEMENT. CITY HEREBY WAIVES ALL CLAIMS AGAINST TMLIRP, ITS OFFICERS, AGENTS AND EMPLOYEES (COLLECTIVELY REFERRED TO AS THE "**TMLIRP REPRESENTATIVES**") FOR DAMAGE TO ANY PROPERTY OR INJURY TO, OR DEATH OF, ANY PERSON ARISING AT ANY TIME AND FROM ANY CAUSE OTHER THAN THE SOLE NEGLIGENCE, GROSS NEGLIGENCE OR WILLFUL ACT OF ONE OR MORE OF THE TMLIRP REPRESENTATIVES.

2.6 **Insurance**. City and TMLIRP acknowledge and agree that City may satisfy any of its insurance requirements and obligations under this Agreement with self-insurance through the Texas Municipal League Intergovernmental Risk Pool. Should City choose not to self-insure, City shall obtain and maintain in full force and effect during the term of this Agreement, or shall cause

any contractor conducting work within the Easement Area or on the Parking Garage (the **"Contractor")** to obtain and maintain, the following policies of insurance (the **"Insurance Policies"**) and coverage:

(a) City shall obtain and maintain a Fire and Casualty Insurance Policy with "all-risk" coverage covering all buildings and other improvements located or being constructed on the Land against loss or damage from perils covered by an all risk or special form policy in amounts not less than one hundred (100%) percent of the full insurable value of the buildings and other improvements to be constructed or included in the Land, including the Parking Garage.

(b) City shall obtain and maintain Garagekeeper's Legal Liability Insurance with coverage of not less than One Million Dollars ($1,000,000) per occurrence for property damages and personal injuries arising from or relating to operation and management of the Parking Garage.

(c) If City does not insure through TMLIRP, all insurance required pursuant to this Agreement shall include and name TMLIRP as an additional insured using Additional Insured Endorsements that provide the most comprehensive coverage to the other Party under Texas law including products/completed operations.

(d) Certificates of Insurance and policy endorsements in a form reasonably satisfactory to the other Party shall be delivered to the other Party prior to the commencement of any work or services under this Agreement. All required policies shall be endorsed to provide the other Party with thirty (30) days advance notice of cancellation (ten (10) days advance notice of cancellation for non-payment of premium) or material change in coverage. On every date of renewal of the required insurance policies, a Certificate of Insurance and policy endorsements to be issued evidencing the required insurance herein shall be delivered to the other Party. In addition, each Party shall, within ten (10) days after written request, provide the other Party with Certificates of Insurance and policy endorsements for the insurance required herein. The failure to provide valid Certificates of Insurance and policy endorsements shall be deemed a breach of this Agreement.

(e) All policies of insurance required to be obtained pursuant to this Agreement shall be maintained with insurance carriers that are reasonably satisfactory to City and TMLIRP and lawfully authorized to issue insurance in the State of Texas for the types and amounts of insurance required herein. All insurance companies providing the required insurance shall be authorized to transact business in Texas and rated at least "A-VII" by AM Best or other equivalent rating service. All policies must be written on a primary basis, non-contributory with any other insurance coverage and/or self-insurance maintained by the Parties. All insurance coverage required herein shall be evidenced by a certificate of insurance and policy endorsements submitted by the Party's insurer or broker. Certificates of insurance and policy endorsements received from any other source will be rejected.

(f) The Parties acknowledge that during the term of this Agreement the insurance market may change, and cause (i) certain insurance coverages required by this Agreement to no longer be available, (ii) the binding of other insurance coverages not set forth in this Agreement to become commercially prudent, and/or (iii) the limits of liability set forth in this Section 2.6 to no longer provide the Parties with adequate protection. Hence, the Parties will modify the insurance

coverages hereunder at any time that a Party deems such coverages to no longer be consistent with prudent risk management practices utilized in other similar properties in Georgetown, Texas, taking into account then existing insurance market conditions and utilizing reasonable business judgment. Each Party will act reasonably with respect to any request from the other Party to alter insurance obligations set forth in this Agreement. The requirements to obtain and maintain any particular insurance in accordance with this Section 2.6 may be modified or waived if all Parties agree to such modification or waiver in writing. Notwithstanding anything in the foregoing to the contrary, the minimum coverage limits for Commercial General Liability Insurance and Automobile Liability Insurance set forth in this Section 2.6 shall never be less than twice the amount of the maximum per person and per single occurrence liability for a municipality as set forth in Tex. Civ. Prac. & Rem. Code §101.023(c), as amended or replaced from time to time.

2.7 **Inspection**. Except where this Agreement places such responsibility on TMLIRP, City and/or City's contractors shall (i) conduct regular inspections of the Easement Area and the Parking Garage for compliance with health and safety standards and building codes and for cleanliness, good order, condition, and repair, (ii) buy, clean, and repair all furnishings and equipment in and for the Parking Garage; (iii) periodically paint, renovate, and refurbish the Parking Garage, and related equipment; (iv) hire or contract with sufficient personnel to clean and maintain the Parking Garage; and (v) cause all equipment and fixtures in and about the Parking Garage to be repaired and maintained in good condition, including, but not limited to lights, wiring, plumbing, and other equipment.

2.8 **Damages to Parking Garage**. TMLIRP shall be responsible for damages to the Parking Garage caused by the action of TMLIRP and/or the Permitted Users, in which case TMLIRP shall be responsible for reimbursing City for the costs of making the repair or performing the necessary maintenance resulting from such acts and for the reasonable costs incurred by City for such work.

2.9 **Demolition of Parking Garage.**

(a) Except in connection with the repair and reconstruction of the Parking Garage following fire, or a Casualty as set forth in Section 2.10, City shall not demolish, remove, destroy, or cause or permit the demolition, removal, or destruction of all or any material portion of the Parking Garage without the prior written consent of TMLIRP, which consent shall not be unreasonably conditioned or withheld. Any purported demolition, removal, or destruction of all or any material portion of the Parking Garage undertaken without TMLIRP's prior written consent in violation of this Section shall constitute a default under this Agreement, and TMLIRP shall be entitled to pursue all remedies available at law or in equity, including, without limitation, specific performance and injunctive relief.

(b) Notwithstanding the foregoing, City may, without obtaining TMLIRP's prior written consent, take such emergency measures with respect to the Parking Garage as City reasonably determines are immediately necessary to prevent or mitigate an imminent risk of bodily injury to any person or material damage to property (an **"Emergency Action"**). Any Emergency Action taken by City under this Section shall be limited to the scope reasonably necessary to address the imminent risk giving rise to such Emergency Action, and City shall use commercially

reasonable efforts to minimize any impact on the Permitted Use and TMLIRP's easement rights hereunder. City shall provide TMLIRP with written notice of any Emergency Action as soon as reasonably practicable, but in no event later than forty-eight (48) hours after the commencement of such Emergency Action, which notice shall include a detailed description of the nature of the imminent risk, the Emergency Action taken, and the anticipated effect on the Parking Garage and the Permitted Use.

(c) In the event that an Emergency Action results in the partial or total demolition, removal, or destruction of the Parking Garage, City and TMLIRP shall negotiate in good faith regarding the restoration or reconstruction of the Parking Garage for the Permitted Use, or such other arrangements as may be mutually agreeable to the Parties.

2.10 Casualty Damage to Parking Garage. If the Parking Garage is wholly or partially destroyed or damaged by fire, casualty or Event of Force Majeure, City shall with reasonable diligence, repair, replace, restore and reconstruct (or cause the repair or reconstruction of) such improvements so damaged or destroyed to the extent necessary to restore the Parking Garage to substantially the condition in which it existed prior to such damage or destruction. City shall as soon as practicable under the circumstances, but in any case not later than 270 days after the occurrence of the event that resulted in such damage or destruction, commence to repair, reconstruct or replace the damaged or destroyed portion of the Parking Garage, and pursue the repair, reconstruction, or replacement consistent with industry standards for the operation of similar types of Parking Garages with reasonable diligence so as to restore the Easement Area and the Parking Garage as applicable, to substantially the condition it was in before the casualty. In the event that the insurance proceeds received by City are insufficient to complete such repair or reconstruction, the Parties shall provide funds to cover such deficiency with TMLIRP's share of such deficiency being an amount equal to the amount of such deficiency multiplied by 200 then divided by the total number of parking spaces within the Parking Garage.

2.11 Payment of Insurance Proceeds. The use of insurance proceeds to repair, replace, restore or reconstruct the Easement Area and/or the Parking Garage damaged or destroyed by Casualty ("**Restoration**") shall be subject to City's approval of the plans and specifications for the Restoration of the Easement Area and the Parking Garage prior to the commencement of the Restoration of the Easement Area and the Parking Garage

2.12 Eminent Domain.

(a) In the event of a Partial Taking of any portion of the Parking Garage, City shall, with reasonable diligence, repair or reconstruct (or cause the repair or reconstruction of) such improvements so taken to the extent necessary to restore the remaining portion of the Parking Garage to substantially the condition in which they existed prior to such taking; provided, however, City's obligations and liabilities with respect thereto shall be limited to the condemnation proceeds received by City. In the event that such condemnation proceeds are insufficient to complete such repair or reconstruction and City elects to proceed with the restoration of the Parking Garage, then City shall bear all costs necessary to cover the deficiency.

(b) In the event of a Total Taking of the Parking Garage, this Agreement will terminate

upon the date of such Total Taking, and the condemnation proceeds shall be allocated between City and TMLIRP in proportion to TMLIRP's Pro Rata Share.

2.13 **Benefits of Ownership**. It is the purpose and intent of the Parties that City shall retain the benefits of ownership of the Parking Garage. Accordingly, at all times, City shall be deemed to exclusively own the Parking Garage for tax purposes, and City alone shall be entitled to all of the tax attributes of ownership thereof including, without limitation, the right to claim depreciation or cost recovery deductions, and the right to amortize capital costs and to claim any other tax benefits attributable to the Parking Garage.

2.14 **Revenue Generated by Garage**. All revenue generated from the operation of the Parking Garage shall belong to City.

2.15 **Rules and Regulations.** City shall have the right to establish and enforce reasonable, nondiscriminatory procedures, rules, restrictions and regulations relating to the cleanliness and traffic and parking control within and upon the Parking Garage, subject to TMLIRP's approval, which shall not be unreasonably withheld. All motor vehicles using the Parking Garage shall comply at all times and in all respects with Applicable Laws and shall operate at all times in a manner to minimize noise and exhaust fumes within the Parking Garage. In connection with any towing or other removal or disabling of any vehicle, neither City nor its employees, representatives, agents or contractors, shall have any liability to any person, including liability for any negligent act or omission of City or its employees, representatives, agents or contractors except to the extent arising from the gross negligence or willful act of City.

Article III
Default and Remedies.

3.1 **Default.** If any Party fails to pay or perform any of its obligations under this Agreement or is otherwise in default under this Agreement (any of the foregoing being a "**Breach**"), and such Breach is not cured by the breaching Party on or before the thirtieth (30th) day (or such longer period if by its nature the cure cannot be accomplished within said thirty (30) day period provided such cure is commenced within the original thirty (30) day period and thereafter diligently pursued) following the breaching Party's receipt of a written notice of such Breach from the non-defaulting Party, a default by the breaching Party shall exist hereunder ("**Default**"); provided, however, if any Breach constitutes an emergency condition (an "**Emergency Breach**"), the non-defaulting Party, acting in good faith, shall have the right to cure an Emergency Breach upon such advance notice as is reasonably possible under the circumstances or, if necessary, without advance notice, so long as notice is given as soon as possible thereafter.

3.2 **Remedies**. If a Default exists, the non-defaulting Party that provided notice of such default pursuant to Section 3.1 above (a "**Notice Party**"), shall be entitled to exercise any and all rights and remedies available to it at law or equity in connection therewith and under this Agreement subject to the provisions hereof.

3.3 **Prosecution**. Subject to Section 3.1 above, the Notice Party shall have the right to (a) prosecute any proceedings at law or in equity against the defaulting Party or any other Party or

person violating or attempting to violate or defaulting upon any of the provisions contained in this Agreement, and (b) recover damages for any such violation or Default; provided that each Party to this Agreement hereby waives the right to seek and to recover punitive, special and/or consequential damages. Such proceeding shall include the right to restrain by injunction any violation or threatened violation by another of any of the terms, covenants, or conditions of this Agreement, or to obtain a decree to compel performance of any such terms, covenants, or conditions, it being agreed that the remedy at law for a breach of any such term, covenant, or condition (except those, if any, requiring the payment of a liquidated sum) is not adequate. All of the remedies permitted or available to a Party under this Agreement or at law or in equity shall be cumulative and not alternative, and invocation of any such right or remedy shall not constitute a waiver or election of remedies with respect to any other permitted or available right or remedy.

3.4 **Agreement Shall Continue Notwithstanding Breach**. Unless expressly stated otherwise herein, it is agreed that no Breach of or Default under this Agreement shall entitle any Party to cancel, rescind, or otherwise terminate this Agreement. However, such limitation shall not affect in any manner any other rights or remedies which a Party may have hereunder by reason of any such Breach or Default.

Article IV
Miscellaneous

4.1 **Limitation on Liability**. The Parties acknowledge and agree that in satisfying the conditions of this Agreement, the Parties have acted independently from each other, and TMLIRP and City, respectively, assume no responsibilities or liabilities to third parties in connection with these actions.

4.2 **No Joint Venture**. The Parties acknowledge and agree that the terms hereof are not intended to and shall not be deemed to create a partnership or joint venture among the Parties.

4.3 **Authorization**. Each Party represents that it has full capacity and authority to grant all rights and assume all obligations that are granted and assumed under this Agreement. The undersigned are the properly authorized persons with the necessary authority to execute this Agreement on behalf of the respective Party. City's City Manager is authorized to execute any instruments related to this Agreement, including any amendments to this Agreement.

4.4 **Notice**. Any notice required or permitted to be delivered hereunder shall be deemed received three (3) days thereafter sent by United States Mail, postage prepaid, certified mail, addressed to the Party at the address set forth below (or such other address as such Party may subsequently designate in writing), or on the day actually received if sent by courier or otherwise hand delivered.

4.5 **Entire Agreement**. This Agreement is the entire Agreement between the Parties with respect to the subject matter covered in this Agreement. Except for the Project Development Agreement, there is no other collateral oral or written Agreement between the Parties that in any manner relates to the subject matter of this Agreement.

4.6 **Governing Law**. The Agreement shall be governed by the laws of the State of Texas, without giving effect to any conflicts of law rule or principle that might result in the application of the laws of another jurisdiction; and exclusive venue for any action concerning this Agreement shall be in the State District Court of Williamson County, Texas. The Parties agree to submit to the personal and subject matter jurisdiction of said court.

4.7 **Amendment**. This Agreement may only be amended by the written agreement of the Parties.

4.8 **Legal Construction**. If any one or more of the provisions contained in this Agreement shall for any reason be held to be invalid, illegal, or unenforceable in any respect, such invalidity, illegality, or unenforceability shall not affect other provisions, and it is the intention of the Parties that in lieu of each provision that is found to be illegal, invalid, or unenforceable, a provision shall be added to this Agreement which is legal, valid and enforceable and is as similar in terms as possible to the provision found to be illegal, invalid or unenforceable.

4.9 **Exhibits**. All exhibits to this Agreement are incorporated herein by reference for all purposes wherever reference is made to the same.

4.10 **Successors and Assigns**. This Agreement shall be binding on the Parties and their respective successors and permitted assigns.

4.11 **Recitals**. The recitals to this Agreement are incorporated herein.

4.12 **Counterparts**. This Agreement may be executed in identical counterparts. Each of the counterparts shall be deemed an original instrument, but all of the counterparts shall constitute one and the same instrument.

4.13 **Recordation of Agreement**. This Agreement shall be recorded in the Official Public Records of Williamson County, Texas.

4.14 **Warranty of Title.** Subject to the provisions of this Agreement and all validly existing and presently recorded easements, rights-of-way, and other instruments that affect the Easement Area, City sells, grants, and conveys the Easement to TMLIRP **TO HAVE AND TO HOLD** the Easement Area for the Permitted Use unto TMLIRP, its successors and permitted assigns, forever, and City hereby binds itself, its successors and assigns, to warrant and forever defend, all and singular, the Easement and Easement Area unto TMLIRP, its successors and permitted assigns, against every person whomsoever lawfully claiming or to claim the same or any part thereof when the claim is by, through, or under City but not otherwise.

4.15 **Effective Date**. This Agreement shall be effective on the date it bears the signatures of the authorized representatives of both Parties (the "**Effective Date**").

4.16 **Termination; Assignment**. City may upon the date set forth in written notice to TMLIRP terminate this Agreement if:

(a) TMLIRP vacates or ceases to occupy the TMLIRP Offices or ceases the Permitted Use; provided, however, TMLIRP may in connection with the sale of the TMLIRP Offices assign this Agreement to a successor owner of the TMLIRP Offices provided TMLIRP has provided at least thirty (30) days prior written notice thereof to City and such assignee expressly assumes the obligations of TMLIRP under this Agreement in writing in a form reasonably approved by City; or

(b) The TMLIRP Offices are destroyed or damaged by a Casualty to the extent that TMLIRP and/or TML are unable to occupy the TMLIRP Offices and no building is reconstructed to replace the TMLIRP Offices and occupied on or before the tenth (10th) anniversary of the date of the occurrence of the Casualty that resulted in such damage or destruction.

Exhibit "B"
Project Scope

9th and Main Parking Garage

Preliminary Project Scope

1. Purpose

This document establishes the preliminary scope of the proposed parking garage and associated retail improvements at the 9th and Main site in Georgetown, Texas.
The intent is to define the general project concept, identify the principal elements anticipated to be included in the project, and clarify improvements that are not currently included in the project scope or budget. Detailed configurations and technical requirements will be further refined through the design process.

2. Project Description

The project is anticipated to consist of a four-level public parking garage located at 9th and Main Streets, with ground-floor retail space fronting both 9th Street and Main Street.
The parking garage will extend above the retail space along Main Street. The garage is not anticipated to extend above the retail space along 9th Street.
The retail spaces along both streets are anticipated to be double-height spaces.
The parking structure is currently anticipated to be constructed primarily as a precast concrete structure. The exterior architectural treatment and overall appearance are intended to be commensurate with the conceptual renderings included in the project materials presented to the Georgetown City Council in May 2026.

3. Preliminary Project Yield

Early yield studies indicate that the project may include approximately:

- 168,000 square feet of structured parking.
- Up to 448 parking spaces.
- 16,000 square feet of ground-floor retail space along 9th Street and Main Street.

These quantities are preliminary and will be confirmed and adjusted as the design is refined. The final parking count, parking area, and retail area will depend on the completed structural layout, circulation, access, building systems, and other project requirements.

4. Parking Configuration

The garage is anticipated to include a combination of standard, oversized, and limited compact parking spaces.
The preliminary parking configuration includes:

- Standard spaces approximately 9 feet wide by 18 feet long.
- Oversized spaces approximately 10 feet wide by 20 feet long.
- Compact spaces approximately 7 feet 6 inches wide by 16 feet long, used sparingly and only where appropriate.

Where the garage configuration allows, a 62-foot parking bay may be used to accommodate oversized spaces on one side of the drive aisle and standard spaces on the opposite side.
A 60-foot parking bay may be used where standard spaces are provided on both sides of the drive aisle.
The final mix and arrangement of parking spaces will be established through the design process.

5. Architectural Character

The garage and retail shell will include an enhanced exterior architectural treatment appropriate for the downtown Georgetown location. The project will be subject to Georgetown Historic and Architectural Review Committee guidelines and approval.

Exhibit "B"
Project Scope

The final design is intended to be commensurate with the character, quality, and general appearance represented in the conceptual renderings presented to City Council in May 2026.
The conceptual renderings establish the general architectural direction of the project. They are not intended to represent final construction documents or require that every illustrated feature be incorporated exactly as shown.

6. Retail Scope

The project will include the core and shell construction of the ground-floor retail spaces along 9th Street and Main Street.
The retail scope is anticipated to include:

- The building structure and exterior enclosure.
- Storefront openings and exterior doors.
- Base building utility service brought to or stubbed into the retail spaces.
- Slab leave-outs or similar provisions where needed for future tenant utilities.
- Electrical service provisions associated with the core and shell.
- Electric unit heaters or other limited systems required to maintain the spaces in a cold, dark shell condition.
- Code-required life-safety and base building systems applicable to the shell space.

The project does not include tenant-specific design or construction within the retail spaces. The retail spaces will be delivered in a cold, dark shell condition for future completion by tenants or others.

7. Garage Access and Circulation

The project will include the vehicular and pedestrian access necessary for the operation of the parking garage and access to the retail shell spaces.
The final locations and configurations of garage entrances, exits, internal circulation, ramps, stairs, elevators, and pedestrian connections will be established through the design process in coordination with the City and the overall site plan.

8. Scope Included

The preliminary project scope is anticipated to include:

- The four-level public parking structure.
- Up to approximately 448 parking spaces, subject to refinement through design.
- Parking spaces, drive aisles, ramps, and internal garage circulation.
- Vehicular entrances and exits serving the garage.
- Stairs, elevators, and other vertical circulation required to operate the garage.
- The exterior architectural skin and screening of the garage.
- Approximately 16,000 square feet of ground-floor retail core and shell space.
- Garage-related signage and wayfinding.
- Building systems and equipment required for the operation of the garage and retail shell.
- Utility laterals and connections necessary to serve the project.
- Site improvements located within the project limits and necessary for access to and operation of the garage and retail shell.
- Public right-of-way improvements within the back-of-curb limits immediately adjacent to the project, designed in line with requirements in the City's Downtown Master Plan.
- Design and construction coordination necessary to integrate the garage and retail shell into the 9th and Main site.

9. Scope Not Included

Unless subsequently approved and incorporated into the project through a separate scope and budget authorization, the project does not include the following:

Exhibit "B"
Project Scope

9.1 Retail Tenant Improvements

The project does not include tenant-specific improvements within the retail spaces, including:

- Interior partitions and finishes.
- Tenant-specific mechanical, electrical, or plumbing systems.
- Commercial kitchen systems or equipment.
- Furniture, fixtures, and equipment.
- Tenant signage.
- Tenant-specific utility distribution beyond the core and shell provisions.
- Other improvements required for occupancy by a particular tenant.

9.2 Electrical Transformer at 9th and Church

The City has discussed the potential placement of an electrical transformer near the corner of 9th Street and Church Street.

The project team has not evaluated the impact of this proposed transformer location on the project program, layout, cost, or schedule. No costs associated with relocating, installing, screening, or otherwise accommodating a transformer at this location have been included in the current project budget unless the transformer is determined to be necessary to provide electrical service to the project.

Any transformer improvements requested by the City that are not required to serve the garage and retail shell will be treated as elective City improvements and will not be included as a shared project cost.

9.3 Regional Trash Facility Impacts

The potential impacts of the regional trash facility on the parking garage layout and total parking space count have not yet been evaluated.

Any reduction in the number of parking spaces attributable to the regional trash facility may increase the average cost per parking space without providing a corresponding benefit to TML IRP. Accordingly, costs associated with the regional trash facility, including any resulting increase in the cost per parking space, should not be included in the calculation of TML IRP's share of the project costs.

The parties will need to separately evaluate and agree upon the parking, cost, and cost-sharing impacts associated with the regional trash facility before those impacts are incorporated into the project scope, budget, or cost allocation.

9.4 Burial or Relocation of Overhead Utility Lines

The project does not include the burial, relocation, or broader improvement of existing overhead or aerial utility lines unless an adjustment is directly required to construct or provide service to the garage and retail shell.

The burial or relocation of overhead lines is not currently considered necessary to complete the project. Accordingly, these costs have not been included in the project budget.

Any burial, relocation, or enhancement of overhead utilities requested by the City beyond what is necessary for the project will be treated as an elective City cost and will not be included as a shared project cost.

9.5 Off-Site Utility and Drainage Improvements

The project does not include upgrades or expansion of off-site public utility mains or stormwater conveyance systems, including:

- Off-site stormwater conveyance improvements.
- Upgrades to public water mains.
- Upgrades to public wastewater mains.
- Broader electrical distribution system upgrades.
- Other off-site utility capacity improvements.

The project does include utility laterals, service connections, and localized improvements necessary to connect the project to the existing public systems. This may include lateral upgrades or modifications needed to connect to existing water, wastewater, stormwater, electrical, or other utility infrastructure.
Any required upgrades to public main lines or broader off-site systems have not been included in the current project scope or budget.

9.6 Broader Public Right-of-Way Improvements

The project does not include general streetscape enhancements, roadway reconstruction, or other public right-of-way improvements beyond those directly associated with the project frontage and located generally within the back-of-curb limits.
Improvements outside these limits, or improvements requested for broader City purposes rather than to support the construction and operation of the garage and retail shell, are not included in the current project scope or budget.

10. Scope Refinement and Changes

This preliminary scope establishes the overall intent of the parking garage and retail shell project.
The final design, parking count, square footage, layout, materials, access points, utility connections, and related project elements will be refined through the design process and remain subject to City review and approval.
Any material change to the project concept, parking capacity, retail program, architectural character, utility scope, off-site improvements, or included project components should be separately evaluated for its effect on project cost, schedule, and the agreed allocation of project costs before being incorporated into the project.

05-0200	Owner's Construction Change Order Contingency (5%)	$ 1,415,540
05-0300	Program Contingency (5%)	$ 1,756,925
	GRAND TOTAL (PROGRAM)	$ 36,895,415

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
Parking Easement Agreement with the TMLIRP

SUGGESTED ACTION:
Consideration and possible action to approve a Parking Easement Agreement with the Texas Municipal League Intergovernmental Risk Pool and to authorize the City Manager to execute the Parking Easement Agreement in a form substantially similar to the document attached hereto -- Andrew Culpepper, Senior Assistant City Attorney - Real Estate Services

ITEM SUMMARY:
The Texas Municipal League Intergovernmental Risk Pool ("TMLIRP") desires to cause the design and construction of a parking garage on behalf of the City and participate in the costs of the design and construction of the parking garage pursuant to a Project Development Agreement by and among the City, TMLIRP and the Georgetown Transportation Enhancement Corporation. The parking garage will be a four-level structured parking garage situated on land owned by the City and will include (i) an area of approximately 184,000 square feet, (ii) not less than four hundred thirty-five (435) parking spaces, and (iii) approximately 16,000 square feet of retail space on the ground floor of the parking garage with entries from Ninth Street or Main Street. In exchange for TMLIRP's participation in the design and construction of the parking garage, this Parking Easement Agreement would permit TMLIRP to use 200 parking spaces within the parking garage in accordance with the terms provided for therein.

FINANCIAL IMPACT:

Georgetown TMLIRP Parking Easement Agreement (Final).pdf

STATE OF TEXAS	§	
	§	**PARKING EASEMENT AGREEMENT**
COUNTY OF WILLIAMSON	§	

This **Parking Easement Agreement** ("**Agreement**") is made as of the Effective Date by and between the **City of Georgetown** ("**City**"), a Texas home rule municipality, and the **Texas Municipal League Intergovernmental Risk Pool** ("**TMLIRP**"), a Texas administrative agency established by Texas local governments pursuant to Texas Government Code Chapters 791 and 2259 and Texas Labor Code Chapter 504 (each a "**Party**" and collectively the "**Parties**"), acting by and through their respective authorized representatives.

W I T N E S S E T H:

WHEREAS, City owns the **"Land"** (hereinafter defined); and

WHEREAS, City desires to cause the design and construction of the **"Parking Garage"** (hereinafter defined); and

WHEREAS, TMLIRP desires to provide parking for its officers, employees, guests, and others while working, conducting business, or otherwise visiting the **"TMLIRP Offices"** (hereinafter defined); and

WHEREAS, TMLIRP has agreed to cause the design and construction of the Parking Garage on behalf of City and participate in the costs of the design and construction of the Parking Garage pursuant to that certain Project Development Agreement by and among Georgetown Transportation Enhancement Corporation (**"GTEC"**), City and TMLIRP dated _____ (the **"Project Development Agreement"**) in exchange for this Parking Easement Agreement; and

WHEREAS, City has agreed to grant the **"Easement"** (hereinafter defined) to TMLIRP as set forth herein.

NOW THEREFORE, in consideration of the foregoing, and on the terms and conditions hereinafter set forth, and other valuable consideration the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

Article I
Definitions

For purposes of this Agreement, each of the following words and phrases shall have the meaning set forth herein unless the context clearly indicates otherwise:

"Applicable Law" shall mean all applicable laws, rules, regulations and ordinances (federal, state, county, city or otherwise), of any governmental authority including, without limitation, all districts, departments, commissions, boards and officers thereof, and any other body exercising similar functions, including, but not limited to any environmental laws, the Americans

with Disabilities Act, and any similar laws, statutes or ordinances relating to handicapped accessibility.

"Business Day(s)" shall mean Monday through Friday of each week, exclusive of New Year's Day, Martin Luther King, Jr. Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, the day after Thanksgiving, Christmas Eve, and Christmas Day.

"Casualty" shall mean damage or destruction of the Parking Garage caused by fire, natural disaster, or other Event of Force Majeure.

"City" shall mean the City of Georgetown acting by and through its city manager.

"Controlled Access Facilities" shall mean the controlled gated access to and from the parking spaces within the Easement Area and associated pay stations as may be installed within the Easement Area.

"Designated Hours" shall mean (i) the hours of 8:00 a.m. to 5:00 p.m. Central Time every Monday through Friday and (ii) a Special Event Period.

"Easement" shall have the meaning assigned in Article II hereof.

"Easement Area" shall mean the Parking Garage other than the Retail Space.

"Event of Force Majeure" means an occurrence of any contingency or cause beyond the reasonable control of a Party including, without limitation, acts of God or the public enemy, war, riot, terrorism, civil commotion, insurrection, government or de facto governmental action, restrictions or interferences (unless caused by the intentional acts or omissions of the Party), fires, explosions, floods or other inclement weather, strikes, slowdowns or work stoppages, incidence of disease or other illness that reaches outbreak, epidemic, or pandemic proportions or similar causes affecting the area in which the Land is located that results in a reduction of labor force or work stoppage in order to comply with local, state, or national disaster orders, construction delays, shortages or unavailability of supplies, materials or labor, necessary condemnation proceedings, or any other circumstances which are reasonably beyond the control of the Party obligated or permitted under the terms of this Agreement to do or perform the same, regardless of whether any such circumstances are similar to any of those enumerated or not, in which case the Party so obligated or permitted shall be excused from doing or performing the same during such period of delay, so that the time period applicable to such obligation or performance shall be extended for a period of time equal to the period such Party was delayed, provided the Party whose performance is delayed provides written notice to the other Party not later than fifteen (15) business days after the last day of the month of the occurrence of the event(s) or condition(s) causing the delay or the date the Party whose performance has been delayed becomes aware or should have reasonably known of the event, describing such event(s) and/or condition(s) and the date on which such event(s) and/or condition(s) occurred.

"Impositions" shall mean taxes, assessments, use and occupancy taxes, charges, excises, license, and permit fees, and other charges by public or governmental authority, general and

special, ordinary, and extraordinary, foreseen, and unforeseen, which are or may be assessed, charged, levied, or imposed by any public or governmental authority on City with respect to the Parking Garage.

"Land" shall mean the real property described as Lots 1 through 8, inclusive, Block 1, Glasscock Addition to the City of Georgetown, Williamson County, Texas, and more particularly described in that certain Special Warranty Deed dated June 15, 2004, and recorded June 16, 2004, as Instrument No. 2004047277, Official Public Records, Williamson County, Texas.

"Parking Garage" shall mean a four-level structured parking garage constructed on the Land with (i) an area of approximately 184,000 square feet, (ii) no less than four hundred thirty-five (435) parking spaces, and (iii) the Retail Space.

"Partial Taking" shall mean an eminent domain taking which is not a Total Taking. The term "eminent domain taking" includes a voluntary conveyance made under threat or in anticipation of an involuntary eminent domain taking.

"Permitted Use" shall mean the use of no more than two hundred (200) motor vehicle parking spaces in the Parking Garage by Permitted Users during the Designated Hours.

"Permitted Users" shall mean TMLIRP's and Texas Municipal League's ("**TML**") officers, employees, guests, and others who are working, conducting business, or otherwise visiting the TMLIRP Offices.

"Reserved Spaces" shall mean two hundred (200) parking spaces designated by City and TMLIRP on the upper two levels of the Parking Garage for exclusive use by Permitted Users for the Permitted Use in accordance with and subject to Section 2.1(d).

"Retail Space" shall mean approximately 16,000 square feet of retail space located on the ground floor of the Parking Garage with entries from Ninth Street or Main Street.

"Special Event Period" shall mean, subject to Section 2.2, a period on a Business Day beginning after 5:00 p.m. and ending before midnight of the same Business Day designated in writing to City by TMLIRP not less than sixty (60) days prior to the Special Event Period.

"TMLIRP Offices" shall mean the property and buildings owned by TMLIRP and used by TMLIRP as its general headquarters and by TMLIRP and TML as an official place of business located at 205 E. University Avenue in Georgetown, Texas.

"TMLIRP's Pro Rata Share" shall mean the ratio of 200 to the total number of parking spaces in the Parking Garage.

"Total Taking" shall mean an eminent domain taking of all of the Parking Garage or such portion thereof (considering both quantity and configuration) that it is impractical to restore such improvements to a condition which permits them to be used for the Parking Garage.

Article II
Easement

2.1 Grant of Easement.

(a) Grant of Easement. Upon Completion of Construction of the Parking Garage and acceptance thereof by City (as those terms are defined in Project Development Agreement) and subject to the provisions of this Agreement, City hereby grants and conveys to TMLIRP a perpetual, non-exclusive easement (the "**Easement**"), including the right of ingress, egress, and regress, to use the Parking Garage by Permitted Users for the Permitted Use. The Easement includes the non-exclusive right of Permitted Users to use the sidewalks, stairs, elevators, driveways, drive aisles, ramps, entrances and exits located on the Land and in the Parking Garage for the purpose of providing direct ingress to and egress from the Parking Garage by the Permitted Users to and from the streets and sidewalks located adjacent to the Land.

(b) Reservation by City. City hereby reserves, subject to the provisions hereof, the right for direct access and use of all portions of the Easement Area for the purpose of public parking and conducting repairs and maintenance of the Parking Garage.

(c) Commencement of Easement. Notwithstanding the foregoing or any other provision herein to the contrary, TMLIRP's right to access and utilize the Easement created by this Agreement and all obligations of City under this Agreement shall not be effective until the completion of construction of the Parking Garage as evidenced by the issuance of a certificate of occupancy by City for use thereof, which right shall automatically become effective without further action by the Parties at such time.

(d) Designation of Reserved Spaces.

(1) After Completion of Construction of the Parking Garage, if TMLIRP determines that use of the Parking Garage by Permitted Users combined with the use of the Parking Garage by others regularly results in the unavailability of parking spaces for parking at least 200 vehicles operated by Permitted Users for the Permitted Use during the Designated Hours (excluding parking during Special Event Periods), TMLIRP may deliver a written notice to City requesting the designation of some or all of the Reserved Spaces (the "**Reservation Notice**") accompanied by evidence reasonably supporting TMLIRP's determination of the existence of such unavailability of parking spaces for Permitted Users. Such supporting evidence may include, but not be limited to, occupancy observations taken at various times of day on representative sample of days, reports from Permitted Users of the inability to locate vacant parking spaces, physical parking counts, and similar types of information.

(2) Unless otherwise agreed by City, the designation of Reserved Spaces shall not become effective before ninety (90) days after delivery of the Reservation Notice to City.

(3) During the 90-day period described in paragraph (2), above, the Parties shall reasonably and in good faith seek to agree in writing on:

(i) Which parking spaces shall be designated as the Reserved Spaces provided, however, if the Parties are unable to reach agreement, the Reserved Spaces shall be designated in contiguous blocks beginning at the uppermost parking level of the Parking Garage and proceeding downward;

(ii) Policies and procedures for use of the Parking Garage generally and the Reserved Spaces specifically by Permitted Users during the Designated Hours that set forth, as a minimum:

(A) Permitted Users will only be allowed to park in the Reserved Spaces during the Designated Hours;

(B) Exceptions to subparagraph (A), above;

(C) Vehicles other than those operated by Permitted Users will not be authorized to park in Reserved Spaces during the Designated Hours;

(D) How the Parties will implement and enforce such policies and procedures, including the restrictions described in (A) and (C), above;

(E) How the Parties will indicate within the Parking Garage which parking spaces are designated as Reserved Spaces and/or indicate which vehicles are authorized to be parked in Reserved Spaces, which may include, but not be limited to, installation of signs, lights, markings, access control gates or other access control mechanisms, and/or the preparation and use of parking permit decals, hangtags, or other similar credentials (collectively, the "**Reservation Mechanisms**"), and determining which Party will be responsible for installing and implementing the Reservation Mechanisms. Except as provided in Section 2.2(c), TMLIRP shall at all times be solely responsible for the reasonable and documented cost and expense relating to installing, implementing, operating, maintaining, and repairing the Reservation Mechanisms; and

(F) Such other matters to which the Parties may include in such policies and procedures.

(4) TMLIRP may specify in a Reservation Notice that fewer than two hundred (200) parking spaces be designated as Reserved Spaces, in which case TMLIRP shall have the right to request that additional parking spaces be designated as Reserved Spaces by the subsequent delivery of one or more Reservation Notices; provided, however, the total of all Reserved Spaces shall never exceed two hundred (200). Each subsequent Reservation Notice for additional Reserved Spaces shall comply with paragraphs (1) and (2) of this Section 2.1(d). Further, with each subsequent Reservation Notice, the Parties shall evaluate

the policies and procedures adopted pursuant to paragraph (3) of this Section 2.1(d) and determine if any changes are necessary as the result of the designation of additional Reserved Spaces.

(5) Notwithstanding the definition of "Reserved Spaces" in Article I, the City Manager shall have the authority to agree to the designation of Reserved Spaces at locations other than the upper two levels of the Parking Garage, which designation may be for a specified time or permanently.

(6) TMLIRP's election under this Section and any period during which TMLIRP's spaces remain unreserved, regardless of duration, shall not: (a) reduce, suspend, or modify TMLIRP's right to two hundred (200) parking spaces; or (b) constitute a waiver, release, abandonment, or relinquishment of any right of TMLIRP under this Agreement or the Easement. No delay by TMLIRP in delivering a Reservation Notice shall impair TMLIRP's right to do so at any later time.

2.2 <u>Limitations on Use for Permitted Use; Use for Special Event Periods</u>.

(a) TMLIRP acknowledges, understands, and agrees that the use of the Easement Area is limited to the Permitted Use.

(b) City shall have the right to install signs directing and identifying the public parking on the Easement Area. City shall have the sole right to: (1) install Controlled Access Facilities or other form of controlled access to the Parking Garage at the entrances to and exits from the Parking Garage, or at such other locations within or around the Parking Garage as City may determine in its reasonable discretion; and (2) charge fees to the public or impose such terms and conditions for public parking or third-party parking in the Parking Garage as City may determine in its sole discretion for parking in the Parking Garage. City shall be entitled to retain all revenues derived therefrom. TMLIRP shall have no claim, right, or interest in any revenues generated by City from such public parking or third-party parking in the Parking Garage.

(c) If City installs Controlled Access Facilities to control access to the Parking Garage, City shall issue appropriate devices to TMLIRP to validate parking for Permitted Users which shall permit access to the Parking Garage for the days and hours of the Permitted Use. TMLIRP shall not cause or otherwise authorize use of such validation device by Permitted Users or others to gain access to or use the Parking Garage outside of the days and hours of the Permitted Use or any Special Event Period.

(d) TMLIRP shall have the right to use the Parking Garage during Special Event Periods subject to the following:

(1) TMLIRP shall notify City in writing not later than sixty (60) days prior to the date(s) TMLIRP will use the Parking Garage for a Special Event Period; and

(2) No Special Event Period may be scheduled for a Friday if City has notified TMLIRP in writing not later than ninety (90) days prior to such Friday that a City-

sponsored event will be taking place within City's downtown area such that use of the Parking Garage by attendees of such event will be needed.

(e) Notwithstanding anything to the contrary in this Agreement, City shall have the right to exclusively use the entire Parking Garage in conjunction with the operation of a City-sponsored event being held in City's downtown area, including, at City's sole option, prohibiting use of the Parking Garage by Permitted Users or reducing the number of parking spaces by Permitted Users (including Reserved Spaces, if applicable) to less than 200; provided:

(1) Such exclusive use by City that reduces the number of available parking spaces for Permitted Users to less than 200 shall be limited to no more than three (3) Fridays during each calendar year;

(2) City will endeavor to deliver written notice to TMLIRP at the beginning of each calendar year identifying the date(s) on which City will exercise its right to such exclusive use but regardless shall deliver written notice of the date(s) City will exercise its right to such exclusive use not later than ninety (90) days prior to such date(s); and

(3) The exercise of City's right to use the Parking Garage exclusively pursuant to this Section 2.2(e) shall include the entire day (i.e. Midnight to 11:59 p.m.) on such Friday unless City otherwise advises TMLIRP that it will not require use of the Parking Garage for the full day.

2.3 **Exclusive Use of Easement Area**. TMLIRP shall not grant, and understands, acknowledges, and agrees that it has no authority to grant or convey an easement or license for, or otherwise consent to, the use of the Easement Area by any third-party for parking or any other purpose on the Easement Area without the written consent of City, which may be withheld at City's sole discretion.

2.4 **Operation, Repair, Replacement and Maintenance of the Easement Area**.

(a) City at its sole expense shall be responsible for the operation of the Parking Garage, and City shall perform all such duties in a good and workmanlike manner, in accordance with industry standards applicable to comparable projects and in accordance with all Applicable Laws.

(b) Except as otherwise expressly set forth in this Agreement, including, but not limited to, Section 2.1, at all times during the term of this Agreement, City shall keep and maintain, or cause to be kept and maintained, the Parking Garage, in a good state of appearance, cleanliness, order, and repair, reasonable wear and tear excepted, including, but not limited to, wiring, electrical, drainage, lighting fixtures and facilities, curbs, curb stops, parking space paint striping, designated handicap parking space signs and related signs, regular and timely removal of all litter, garbage, trash and waste, maintenance of interior lighting within the Parking Garage and elevators, mechanical equipment, the walks, driveways, ramps, elevators, stairwells, striping and restriping parking areas, driveways and the like, and repairing and repainting the exterior of the Parking Garage as may be reasonably necessary or desirable. City shall perform such maintenance and repair as necessary to operate the Parking Garage in accordance with generally accepted

commercial standards applicable to a commercial parking facility located within the Austin Metroplex (downtown Austin or high-density retail areas). The foregoing shall include periodically removing papers, debris, filth, refuse, and surface waters and washing or thoroughly sweeping paved areas. All paved areas of the Easement Area shall be kept free of potholes, cracks larger than one-fourth inch (1/4") or deemed dynamic in nature, and other conditions which could reasonably result in damage to vehicles or a tripping hazard to people traversing the Easement Area.

(c) City's obligations with respect to the maintenance and repair of the Easement Area includes the repair and replacement of all structural components of the Parking Garage, including the walls, support columns, roof, gutters, storm drains, and foundation, elevators, lighting, heating, air conditioning, plumbing and other electrical and mechanical equipment, signs, fixtures and systems, and also including all utility repairs in ducts, conduits, pipes and wiring located in, under and above the Easement Area and all paving, driveways, sidewalks and parking areas (the "**Garage Structural Elements**"). Except where otherwise expressly set forth in this Agreement, including, but not limited to, Section 2.1, TMLIRP shall have no duty, obligation or liability to make any repairs, replacements, or alterations to the Parking Garage or the Easement Area or any portion thereof, at any time during the term of this Agreement. City shall maintain the Garage Structural Elements in a good state of repair, reasonable wear and tear excepted.

(d) The cost of the maintenance, repair and operation of the Parking Garage (including the Easement Area as described in Sections 2.4 (a), 2.4 (b), and 2.4(c) and including the cost of insurance and utility services, conducted or paid by City (collectively, the **"Operating Expenses"**), shall be borne by City.

2.5 **Indemnification**. CITY SHALL NOT BE LIABLE FOR ANY LOSS, DAMAGE, OR INJURY OF ANY KIND OR CHARACTER TO ANY PERSON OR PROPERTY ARISING FROM THE ACTS OR OMISSIONS OF TMLIRP PURSUANT TO THIS AGREEMENT. TMLIRP HEREBY WAIVES ALL CLAIMS AGAINST CITY, ITS OFFICERS, AGENTS AND EMPLOYEES (COLLECTIVELY REFERRED TO AS THE "**CITY REPRESENTATIVES**") FOR DAMAGE TO ANY PROPERTY OR INJURY TO, OR DEATH OF, ANY PERSON ARISING AT ANY TIME AND FROM ANY CAUSE OTHER THAN THE SOLE NEGLIGENCE, GROSS NEGLIGENCE OR WILLFUL ACT OF ONE OR MORE OF THE CITY REPRESENTATIVES. TMLIRP SHALL NOT BE LIABLE FOR ANY LOSS, DAMAGE, OR INJURY OF ANY KIND OR CHARACTER TO ANY PERSON OR PROPERTY ARISING FROM THE ACTS OR OMISSIONS OF CITY PURSUANT TO THIS AGREEMENT. CITY HEREBY WAIVES ALL CLAIMS AGAINST TMLIRP, ITS OFFICERS, AGENTS AND EMPLOYEES (COLLECTIVELY REFERRED TO AS THE "**TMLIRP REPRESENTATIVES**") FOR DAMAGE TO ANY PROPERTY OR INJURY TO, OR DEATH OF, ANY PERSON ARISING AT ANY TIME AND FROM ANY CAUSE OTHER THAN THE SOLE NEGLIGENCE, GROSS NEGLIGENCE OR WILLFUL ACT OF ONE OR MORE OF THE TMLIRP REPRESENTATIVES.

2.6 **Insurance**. City and TMLIRP acknowledge and agree that City may satisfy any of its insurance requirements and obligations under this Agreement with self-insurance through the Texas Municipal League Intergovernmental Risk Pool. Should City choose not to self-insure, City

shall obtain and maintain in full force and effect during the term of this Agreement, or shall cause any contractor conducting work within the Easement Area or on the Parking Garage (the **"Contractor")** to obtain and maintain, the following policies of insurance (the **"Insurance Policies"**) and coverage:

(a) City shall obtain and maintain a Fire and Casualty Insurance Policy with "all-risk" coverage covering all buildings and other improvements located or being constructed on the Land against loss or damage from perils covered by an all risk or special form policy in amounts not less than one hundred (100%) percent of the full insurable value of the buildings and other improvements to be constructed or included in the Land, including the Parking Garage.

(b) City shall obtain and maintain Garagekeeper's Legal Liability Insurance with coverage of not less than One Million Dollars ($1,000,000) per occurrence for property damages and personal injuries arising from or relating to operation and management of the Parking Garage.

(c) If City does not insure through TMLIRP, all insurance required pursuant to this Agreement shall include and name TMLIRP as an additional insured using Additional Insured Endorsements that provide the most comprehensive coverage to the other Party under Texas law including products/completed operations.

(d) Certificates of Insurance and policy endorsements in a form reasonably satisfactory to the other Party shall be delivered to the other Party prior to the commencement of any work or services under this Agreement. All required policies shall be endorsed to provide the other Party with thirty (30) days advance notice of cancellation (ten (10) days advance notice of cancellation for non-payment of premium) or material change in coverage. On every date of renewal of the required insurance policies, a Certificate of Insurance and policy endorsements to be issued evidencing the required insurance herein shall be delivered to the other Party. In addition, each Party shall, within ten (10) days after written request, provide the other Party with Certificates of Insurance and policy endorsements for the insurance required herein. The failure to provide valid Certificates of Insurance and policy endorsements shall be deemed a breach of this Agreement.

(e) All policies of insurance required to be obtained pursuant to this Agreement shall be maintained with insurance carriers that are reasonably satisfactory to City and TMLIRP and lawfully authorized to issue insurance in the State of Texas for the types and amounts of insurance required herein. All insurance companies providing the required insurance shall be authorized to transact business in Texas and rated at least "A-VII" by AM Best or other equivalent rating service. All policies must be written on a primary basis, non-contributory with any other insurance coverage and/or self-insurance maintained by the Parties. All insurance coverage required herein shall be evidenced by a certificate of insurance and policy endorsements submitted by the Party's insurer or broker. Certificates of insurance and policy endorsements received from any other source will be rejected.

(f) The Parties acknowledge that during the term of this Agreement the insurance market may change, and cause (i) certain insurance coverages required by this Agreement to no longer be available, (ii) the binding of other insurance coverages not set forth in this Agreement to become commercially prudent, and/or (iii) the limits of liability set forth in this Section 2.6 to no

longer provide the Parties with adequate protection. Hence, the Parties will modify the insurance coverages hereunder at any time that a Party deems such coverages to no longer be consistent with prudent risk management practices utilized in other similar properties in Georgetown, Texas, taking into account then existing insurance market conditions and utilizing reasonable business judgment. Each Party will act reasonably with respect to any request from the other Party to alter insurance obligations set forth in this Agreement. The requirements to obtain and maintain any particular insurance in accordance with this Section 2.6 may be modified or waived if all Parties agree to such modification or waiver in writing. Notwithstanding anything in the foregoing to the contrary, the minimum coverage limits for Commercial General Liability Insurance and Automobile Liability Insurance set forth in this Section 2.6 shall never be less than twice the amount of the maximum per person and per single occurrence liability for a municipality as set forth in Tex. Civ. Prac. & Rem. Code §101.023(c), as amended or replaced from time to time.

2.7 **Inspection**. Except where this Agreement places such responsibility on TMLIRP, City and/or City's contractors shall (i) conduct regular inspections of the Easement Area and the Parking Garage for compliance with health and safety standards and building codes and for cleanliness, good order, condition, and repair, (ii) buy, clean, and repair all furnishings and equipment in and for the Parking Garage; (iii) periodically paint, renovate, and refurbish the Parking Garage, and related equipment; (iv) hire or contract with sufficient personnel to clean and maintain the Parking Garage; and (v) cause all equipment and fixtures in and about the Parking Garage to be repaired and maintained in good condition, including, but not limited to lights, wiring, plumbing, and other equipment.

2.8 **Damages to Parking Garage**. TMLIRP shall be responsible for damages to the Parking Garage caused by the action of TMLIRP and/or the Permitted Users, in which case TMLIRP shall be responsible for reimbursing City for the costs of making the repair or performing the necessary maintenance resulting from such acts and for the reasonable costs incurred by City for such work.

2.9 **Demolition of Parking Garage.**

(a) Except in connection with the repair and reconstruction of the Parking Garage following fire, or a Casualty as set forth in Section 2.10, City shall not demolish, remove, destroy, or cause or permit the demolition, removal, or destruction of all or any material portion of the Parking Garage without the prior written consent of TMLIRP, which consent shall not be unreasonably conditioned or withheld. Any purported demolition, removal, or destruction of all or any material portion of the Parking Garage undertaken without TMLIRP's prior written consent in violation of this Section shall constitute a default under this Agreement, and TMLIRP shall be entitled to pursue all remedies available at law or in equity, including, without limitation, specific performance and injunctive relief.

(b) Notwithstanding the foregoing, City may, without obtaining TMLIRP's prior written consent, take such emergency measures with respect to the Parking Garage as City reasonably determines are immediately necessary to prevent or mitigate an imminent risk of bodily injury to any person or material damage to property (an "**Emergency Action**"). Any Emergency Action taken by City under this Section shall be limited to the scope reasonably necessary to

address the imminent risk giving rise to such Emergency Action, and City shall use commercially reasonable efforts to minimize any impact on the Permitted Use and TMLIRP's easement rights hereunder. City shall provide TMLIRP with written notice of any Emergency Action as soon as reasonably practicable, but in no event later than forty-eight (48) hours after the commencement of such Emergency Action, which notice shall include a detailed description of the nature of the imminent risk, the Emergency Action taken, and the anticipated effect on the Parking Garage and the Permitted Use.

(c) In the event that an Emergency Action results in the partial or total demolition, removal, or destruction of the Parking Garage, City and TMLIRP shall negotiate in good faith regarding the restoration or reconstruction of the Parking Garage for the Permitted Use, or such other arrangements as may be mutually agreeable to the Parties.

2.10 **Casualty Damage to Parking Garage**. If the Parking Garage is wholly or partially destroyed or damaged by fire, casualty or Event of Force Majeure, City shall with reasonable diligence, repair, replace, restore and reconstruct (or cause the repair or reconstruction of) such improvements so damaged or destroyed to the extent necessary to restore the Parking Garage to substantially the condition in which it existed prior to such damage or destruction. City shall as soon as practicable under the circumstances, but in any case not later than 270 days after the occurrence of the event that resulted in such damage or destruction, commence to repair, reconstruct or replace the damaged or destroyed portion of the Parking Garage, and pursue the repair, reconstruction, or replacement consistent with industry standards for the operation of similar types of Parking Garages with reasonable diligence so as to restore the Easement Area and the Parking Garage as applicable, to substantially the condition it was in before the casualty. In the event that the insurance proceeds received by City are insufficient to complete such repair or reconstruction, the Parties shall provide funds to cover such deficiency with TMLIRP's share of such deficiency being an amount equal to the amount of such deficiency multiplied by 200 then divided by the total number of parking spaces within the Parking Garage.

2.11 **Payment of Insurance Proceeds**. The use of insurance proceeds to repair, replace, restore or reconstruct the Easement Area and/or the Parking Garage damaged or destroyed by Casualty ("**Restoration**") shall be subject to City's approval of the plans and specifications for the Restoration of the Easement Area and the Parking Garage prior to the commencement of the Restoration of the Easement Area and the Parking Garage

2.12 Eminent Domain.

(a) In the event of a Partial Taking of any portion of the Parking Garage, City shall, with reasonable diligence, repair or reconstruct (or cause the repair or reconstruction of) such improvements so taken to the extent necessary to restore the remaining portion of the Parking Garage to substantially the condition in which they existed prior to such taking; provided, however, City's obligations and liabilities with respect thereto shall be limited to the condemnation proceeds received by City. In the event that such condemnation proceeds are insufficient to complete such repair or reconstruction and City elects to proceed with the restoration of the Parking Garage, then City shall bear all costs necessary to cover the deficiency.

(b) In the event of a Total Taking of the Parking Garage, this Agreement will terminate upon the date of such Total Taking, and the condemnation proceeds shall be allocated between City and TMLIRP in proportion to TMLIRP's Pro Rata Share.

2.13 Benefits of Ownership. It is the purpose and intent of the Parties that City shall retain the benefits of ownership of the Parking Garage. Accordingly, at all times, City shall be deemed to exclusively own the Parking Garage for tax purposes, and City alone shall be entitled to all of the tax attributes of ownership thereof including, without limitation, the right to claim depreciation or cost recovery deductions, and the right to amortize capital costs and to claim any other tax benefits attributable to the Parking Garage.

2.14 Revenue Generated by Garage. All revenue generated from the operation of the Parking Garage shall belong to City.

2.15 Rules and Regulations. City shall have the right to establish and enforce reasonable, nondiscriminatory procedures, rules, restrictions and regulations relating to the cleanliness and traffic and parking control within and upon the Parking Garage, subject to TMLIRP's approval, which shall not be unreasonably withheld. All motor vehicles using the Parking Garage shall comply at all times and in all respects with Applicable Laws and shall operate at all times in a manner to minimize noise and exhaust fumes within the Parking Garage. In connection with any towing or other removal or disabling of any vehicle, neither City nor its employees, representatives, agents or contractors, shall have any liability to any person, including liability for any negligent act or omission of City or its employees, representatives, agents or contractors except to the extent arising from the gross negligence or willful act of City.

Article III
Default and Remedies.

3.1 Default. If any Party fails to pay or perform any of its obligations under this Agreement or is otherwise in default under this Agreement (any of the foregoing being a "**Breach**"), and such Breach is not cured by the breaching Party on or before the thirtieth (30th) day (or such longer period if by its nature the cure cannot be accomplished within said thirty (30) day period provided such cure is commenced within the original thirty (30) day period and thereafter diligently pursued) following the breaching Party's receipt of a written notice of such Breach from the non-defaulting Party, a default by the breaching Party shall exist hereunder

("**Default**"); provided, however, if any Breach constitutes an emergency condition (an "**Emergency Breach**"), the non-defaulting Party, acting in good faith, shall have the right to cure an Emergency Breach upon such advance notice as is reasonably possible under the circumstances or, if necessary, without advance notice, so long as notice is given as soon as possible thereafter.

3.2 **Remedies**. If a Default exists, the non-defaulting Party that provided notice of such default pursuant to Section 3.1 above (a "**Notice Party**"), shall be entitled to exercise any and all rights and remedies available to it at law or equity in connection therewith and under this Agreement subject to the provisions hereof.

3.3 **Prosecution**. Subject to Section 3.1 above, the Notice Party shall have the right to (a) prosecute any proceedings at law or in equity against the defaulting Party or any other Party or person violating or attempting to violate or defaulting upon any of the provisions contained in this Agreement, and (b) recover damages for any such violation or Default; provided that each Party to this Agreement hereby waives the right to seek and to recover punitive, special and/or consequential damages. Such proceeding shall include the right to restrain by injunction any violation or threatened violation by another of any of the terms, covenants, or conditions of this Agreement, or to obtain a decree to compel performance of any such terms, covenants, or conditions, it being agreed that the remedy at law for a breach of any such term, covenant, or condition (except those, if any, requiring the payment of a liquidated sum) is not adequate. All of the remedies permitted or available to a Party under this Agreement or at law or in equity shall be cumulative and not alternative, and invocation of any such right or remedy shall not constitute a waiver or election of remedies with respect to any other permitted or available right or remedy.

3.4 **Agreement Shall Continue Notwithstanding Breach**. Unless expressly stated otherwise herein, it is agreed that no Breach of or Default under this Agreement shall entitle any Party to cancel, rescind, or otherwise terminate this Agreement. However, such limitation shall not affect in any manner any other rights or remedies which a Party may have hereunder by reason of any such Breach or Default.

Article IV
Miscellaneous

4.1 **Limitation on Liability**. The Parties acknowledge and agree that in satisfying the conditions of this Agreement, the Parties have acted independently from each other, and TMLIRP and City, respectively, assume no responsibilities or liabilities to third parties in connection with these actions.

4.2 **No Joint Venture**. The Parties acknowledge and agree that the terms hereof are not intended to and shall not be deemed to create a partnership or joint venture among the Parties.

4.3 **Authorization**. Each Party represents that it has full capacity and authority to grant all rights and assume all obligations that are granted and assumed under this Agreement. The undersigned are the properly authorized persons with the necessary authority to execute this Agreement on behalf of the respective Party. City's City Manager is authorized to execute any instruments related to this Agreement, including any amendments to this Agreement.

4.4 **Notice**. Any notice required or permitted to be delivered hereunder shall be deemed received three (3) days thereafter sent by United States Mail, postage prepaid, certified mail, addressed to the Party at the address set forth below (or such other address as such Party may subsequently designate in writing), or on the day actually received if sent by courier or otherwise hand delivered.

4.5 **Entire Agreement**. This Agreement is the entire Agreement between the Parties with respect to the subject matter covered in this Agreement. Except for the Project Development Agreement, there is no other collateral oral or written Agreement between the Parties that in any manner relates to the subject matter of this Agreement.

4.6 **Governing Law**. The Agreement shall be governed by the laws of the State of Texas, without giving effect to any conflicts of law rule or principle that might result in the application of the laws of another jurisdiction; and exclusive venue for any action concerning this Agreement shall be in the State District Court of Williamson County, Texas. The Parties agree to submit to the personal and subject matter jurisdiction of said court.

4.7 **Amendment**. This Agreement may only be amended by the written agreement of the Parties.

4.8 **Legal Construction**. If any one or more of the provisions contained in this Agreement shall for any reason be held to be invalid, illegal, or unenforceable in any respect, such invalidity, illegality, or unenforceability shall not affect other provisions, and it is the intention of the Parties that in lieu of each provision that is found to be illegal, invalid, or unenforceable, a provision shall be added to this Agreement which is legal, valid and enforceable and is as similar in terms as possible to the provision found to be illegal, invalid or unenforceable.

4.9 **Exhibits**. All exhibits to this Agreement are incorporated herein by reference for all purposes wherever reference is made to the same.

4.10 **Successors and Assigns**. This Agreement shall be binding on the Parties and their respective successors and permitted assigns.

4.11 **Recitals**. The recitals to this Agreement are incorporated herein.

4.12 **Counterparts**. This Agreement may be executed in identical counterparts. Each of the counterparts shall be deemed an original instrument, but all of the counterparts shall constitute one and the same instrument.

4.13 **Recordation of Agreement**. This Agreement shall be recorded in the Official Public Records of Williamson County, Texas.

4.14 **Warranty of Title.** Subject to the provisions of this Agreement and all validly existing and presently recorded easements, rights-of-way, and other instruments that affect the Easement Area, City sells, grants, and conveys the Easement to TMLIRP **TO HAVE AND TO HOLD** the Easement Area for the Permitted Use unto TMLIRP, its successors and permitted assigns, forever, and City hereby binds itself, its successors and assigns, to warrant and forever defend, all and singular, the Easement and Easement Area unto TMLIRP, its successors and permitted assigns, against every person whomsoever lawfully claiming or to claim the same or any part thereof when the claim is by, through, or under City but not otherwise.

4.15 **Effective Date**. This Agreement shall be effective on the date it bears the signatures of the authorized representatives of both Parties (the "**Effective Date**").

4.16 **Termination; Assignment**. City may upon the date set forth in written notice to TMLIRP terminate this Agreement if:

(a) TMLIRP vacates or ceases to occupy the TMLIRP Offices or ceases the Permitted Use; provided, however, TMLIRP may in connection with the sale of the TMLIRP Offices assign this Agreement to a successor owner of the TMLIRP Offices provided TMLIRP has provided at least thirty (30) days prior written notice thereof to City and such assignee expressly assumes the obligations of TMLIRP under this Agreement in writing in a form reasonably approved by City; or

(b) The TMLIRP Offices are destroyed or damaged by a Casualty to the extent that TMLIRP and/or TML are unable to occupy the TMLIRP Offices and no building is reconstructed to replace the TMLIRP Offices and occupied on or before the tenth (10th) anniversary of the date of the occurrence of the Casualty that resulted in such damage or destruction.

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
Interlocal Agreement for CR 110 Forcemain Relocation

SUGGESTED ACTION:
Consideration and possible action to approve an Interlocal Agreement with Williamson County for the relocation of wastewater improvements associated with County Road 110N roadway improvements -- Wesley Wright, PE, Systems Engineering Director

ITEM SUMMARY:
Williamson County is moving forward with the improvement and realignment of CR110N, near the intersection of Sam Houston/SE1 and Patriot Way. Construction is underway and anticipated to be completed in late 2026.

This agreement authorizes Williamson County to relocate an existing City of Georgetown wastewater forcemain to accommodate the roadway improvements. The forcemain is currently located in a dedicated easement wastewater easement. No customer outages will occur during the relocation as work will be staged to minimize system downtime and bypass pumping will be provided, as necessary.

Under the terms of this agreement, the relocated forcemain will ultimately be moved into the ROW and be afforded the same protections as the current easement. Per the terms of the agreement, Williamson County agrees to fund all costs of the current relocation, as well as any future relocation required by a County project.

Staff recommends approval of the proposed Interlocal Agreement.

FINANCIAL IMPACT:
All costs associated with this agreement will be funded by Williamson County.

INTERLOCAL AGREEMENT BETWEEN WILLIAMSON COUNTY, TEXAS, AND THE CITY OF GEORGETOWN, TEXAS, REGARDING RELOCATION OF WASTEWATER SYSTEM IMPROVEMENTS COUNTY ROAD 110N

THE STATE OF TEXAS	§	
	§	KNOW ALL BY THESE PRESENTS:
COUNTY OF WILLIAMSON	§	

THIS INTERLOCAL AGREEMENT REGARDING RELOCATION OF WASTEWATER SYSTEM IMPROVEMENTS ("**Agreement**") is entered into between the City of Georgetown, Texas (the "**City**"), a Texas home-rule municipality, and Williamson County, Texas, a political subdivision of the State of Texas (the "**County**"). In this Agreement, the City and the County are sometimes individually referred to as "**a Party**" and collectively referred to as "**the Parties.**"

WHEREAS, the County is currently designing proposed construction improvements and acquiring property for the construction of the proposed improvements to County Road 110N, the location of which is shown on Exhibit "A", attached hereto (the "**County Project**"); and

WHEREAS, the County Project includes widening the right-of-way into easements where the City's wastewater system improvements are or will be located; and

WHEREAS, the Parties have determined that the County Project's encroachment into City easements necessitates the relocation of City wastewater lines and other wastewater system improvements in certain segments of the County Project (the "**Relocation Project**") and

WHEREAS, the County will be responsible for the design and construction costs of the Relocation Project; and

WHEREAS, the City will be responsible for the operation and maintenance of the Relocation Project improvements following completion of the Relocation Project; and

WHEREAS, the plans and specifications for the Relocation Project are attached hereto as Exhibit "B" (the "**Plans**"); and

WHEREAS, this Agreement sets forth the terms and conditions pursuant to which the County shall execute the Relocation Project.

NOW, THEREFORE, in consideration of the foregoing premises and the mutual promises and agreements of the Parties contained in this Agreement, the Parties agree as follows:

I.
GENERAL STATEMENT

1.01 General. The purpose of this Agreement is to outline the County's responsibilities for relocating and constructing City wastewater improvements necessitated by the County Project.

1.02 Prior Rights for Future Relocations. Should the County or its successors require the relocation of the City wastewater system improvements relocated by this Agreement of the type and within the limits identified in Exhibit "C" attached hereto, such relocation shall require and be subject to the City's review and written approval, which approval shall not be unreasonably withheld, conditioned, or delayed. The County or its successors shall, at its sole cost and expense, be responsible for all costs associated with any such relocation, including the acquisition of any new or additional easements or property rights necessary to accommodate the relocated improvements. Any such further relocation shall be performed in accordance with plans and specifications submitted to the City. The County shall provide written notice to the City of its intention to relocate any improvements for review and approval, which notice shall reasonably describe the improvements to be relocated, the basis for the relocation, the proposed schedule, the proposed relocation site, any acquisitions anticipated, and any other information deemed necessary by the City. The obligations set forth in this section shall survive any termination or expiration of this Agreement.

1.03 Continuation of Service. The County agrees that the Relocation Project and the County Project shall be undertaken so as to minimize any disruption of wastewater service to existing customers of the City and will not result in the loss of wastewater service to any such customers.

II.
DESIGN AND CONSTRUCTION OF THE RELOCATION PROJECT

2.01 Design of the Relocation Project. The Plans for the Relocation Project have been reviewed and approved by the City. The County shall provide the City with final as-builts at the completion of the construction of the Relocation Project.

2.02 Apportionment of Cost. The Parties mutually acknowledge and agree that the County shall, at its own expense, construct all physical improvements that constitute the Relocation Project. The total estimated cost for design and construction for the Relocation Project is FOUR HUNDRED FIFTY-THREE THOUSAND SEVEN HUNDRED SIXTY-SIX AND 18/100 DOLLARS ($453,766.18) ("**Relocation Project Costs**"). The City's estimated share of the Relocation Project Costs is 0%, and the County's estimated share is 100%.

2.03 Maintenance of the Relocation Project. By execution of this Agreement, City agrees to own, operate, and maintain the Relocation Project improvements upon completion of the Relocation Project.

2.04 Construction Plans. The Relocation Project will be jointly bid and constructed with the County Project in accordance with the Plans.

2.05 Inspection. The City may inspect the relocation of the wastewater lines during construction. If the City's inspectors determine that the construction by the County is not in accordance with the approved Plans, and upon receipt of such written notification from the City, the County shall cease construction until the deficiency can be identified, and a corrective plan of construction can be implemented with the agreement and approval of the City.

2.06 Insurance, Bonds, Warranties, and Construction Permits. The County shall require the contractor for the County Project to name the City as an additional insured on any policies related to the Relocation Project. The County shall require the contractor to provide performance bonds, payment bonds, and maintenance bonds in favor of the City for the Relocation Project in amounts satisfactory to the City. The County shall transfer any warranties for the Relocation Project to the City upon final completion and acceptance of the Relocation Project. The County and/or its contractor or agents shall be solely responsible for obtaining all regulatory permits or other approvals that are required to carry out construction of the Relocation Project in accordance with the Plans; provided that, at no cost to the City, the City shall promptly provide any reasonable assistance or information requested to assist with any permit submission process.

III.
DISPUTES

3.01 Material Breach; Notice and Opportunity to Cure.

(a) In the event that one Party believes that another Party has materially breached one of the provisions of this Agreement, the non-defaulting Party will make written demand to cure and give the defaulting Party up to 30 days to cure such material breach or, if the curative action cannot reasonably be completed within 30 days, the defaulting Party will commence the curative action within 30 days and thereafter diligently pursue the curative action to completion. Notwithstanding the foregoing, any matters specified in the default notice which may be cured solely by the payment of money must be cured within 10 days after receipt of the notice. This applicable time period must pass before the non-defaulting Party may initiate any remedies available to the non-defaulting party due to such breach.

(b) Any non-defaulting Party will mitigate direct or consequential damage arising from any breach or default to the extent reasonably possible under the circumstances.

(c) The Parties agree that they will negotiate in good faith to resolve any disputes and may engage in non-binding mediation, arbitration or other alternative dispute resolution methods as recommended by the laws of the State of Texas.

3.02 <u>Equitable Relief</u>. In recognition that failure in the performance of the Parties' respective obligations could not be adequately compensated in money damages alone, the Parties agree that after providing notice and an opportunity to cure in accordance with Section 3.01 above, the Parties shall have the right to request any court, agency or other governmental authority of appropriate jurisdiction to grant any and all remedies which are appropriate to assure conformance to the provisions of this Agreement. The defaulting Party shall be liable to the other for all costs actually incurred in pursuing such remedies and for any penalties or fines as a result of the failure to comply with the terms of this Agreement including, without limitation, the right to obtain a writ of mandamus or an injunction requiring the governing body of the defaulting Party to levy and collect rates and charges or other revenues sufficient to pay the amounts owed under this Agreement.

3.03 <u>Agreement's Remedies Not Exclusive</u>. The provisions of this Agreement providing remedies in the event of a Party's breach are not intended to be exclusive remedies. The

Parties retain, except to the extent released or waived by the express terms of this Agreement, all rights at law and in equity to enforce the terms of this Agreement.

IV.
GENERAL PROVISIONS

4.01 Authority. This Agreement is made in part under the authority conferred in Chapter 791, *Texas Government Code*.

4.02 Term. This Agreement shall commence upon execution of this Agreement and shall end upon the completion of the Relocation Project. Notwithstanding the foregoing, Section 1.02 (**Prior Rights for Future Relocations)** shall survive termination or expiration of this Agreement.

4.03 Severability. The provisions of this Agreement are severable and, if any provision of this Agreement is held to be invalid for any reason by a court or agency of competent jurisdiction, the remainder of this Agreement will not be affected, and this Agreement will be construed as if the invalid portion had never been contained herein.

4.04 Payments from Current Revenues. Any payments required to be made by a Party under this Agreement will be paid from current revenues available to the Party for such purpose.

4.05 Cooperation. The Parties agree to cooperate at all times in good faith to effectuate the purposes and intent of this Agreement.

4.06 Entire Agreement. This Agreement contains the entire agreement of the Parties regarding the subject matter hereof and supersedes all prior or contemporaneous understandings or representations, whether oral or written, regarding the subject matter and only relates to those portions of the County Project shown in the Relocation Project Plans.

4.07 Amendments. Any amendment of this Agreement must be in writing and will be effective if signed by the authorized representatives of the Parties.

4.08 Applicable Law; Venue. This Agreement will be construed in accordance with Texas law. Venue for any action arising hereunder will be in Williamson County, Texas.

4.09 Notices. Any notices given under this Agreement will be effective if (i) forwarded to a Party by hand-delivery; (ii) transmitted to a Party by confirmed fax machine; or (iii) deposited with the U.S. Postal Service, postage prepaid, certified, to the address of the Party indicated below:

4.10 Counterparts; Effect of Partial Execution. This Agreement may be executed simultaneously in multiple counterparts, each of which will be deemed an original, but all of which will constitute the same instrument.

4.11 Authority. Each Party represents and warrants that it has the full right, power, and authority to execute this Agreement.

EXHIBIT B

GENERAL NOTES

1. ALL CONSTRUCTION SHALL BE IN ACCORDANCE WITH THE CITY OF GEORGETOWN STANDARD SPECIFICATIONS.
2. ALL RESPONSIBILITY FOR THE ADEQUACY OF THESE PLANS REMAINS WITH THE ENGINEER WHO PREPARED THEM. IN REVIEWING THESE PLANS, THE CITY OF GEORGETOWN MUST RELY ON THE ADEQUACY OF THE WORK OF THE DESIGN ENGINEER.
3. DESIGN PROCEDURES SHALL BE IN COMPLIANCE WITH THE CITY OF GEORGETOWN ENGINEERING DESIGN GUIDELINES AND UNIFIED DEVELOPMENT CODE. ALL WAIVERS OR VARIANCES ARE LISTED BELOW:
4. AFTER THE CONSTRUCTION PERMIT HAS BEEN ISSUED AND PRIOR TO THE BEGINNING CONSTRUCTION, THE OWNER OR HIS REPRESENTATIVE SHALL CONVENE A PRE-CONSTRUCTION CONFERENCE BETWEEN THE CITY OF GEORGETOWN, DESIGN ENGINEER, CONTRACTOR(S), WILLIAMSON COUNTY (IF IN THE ETJ), OTHER UTILITY COMPANIES, AND ANY OTHER AFFECTED PARTIES. THE CITY OF GEORGETOWN SHALL BE NOTIFIED AT LEAST 48 HOURS PRIOR TO THE PROPOSED MEETING TIME (512-930-3569).
5. THE CONTRACTOR SHALL GIVE THE CITY OF GEORGETOWN CONSTRUCTION INSPECTOR AT LEAST 48 HOURS NOTICE BEFORE BEGINNING EACH PHASE OF CONSTRUCTION.
6. ANY CHANGES OR REVISIONS TO THESE APPROVED PLANS MUST BE SUBMITTED BY THE DESIGN ENGINEER AND APPROVED BY THE CITY OF GEORGETOWN PRIOR TO CONSTRUCTION OF THE REVISION.
7. ANY EXISTING UTILITIES, PAVEMENT, CURBS, SIDEWALKS, STRUCTURES, TREES, ETC., NOT PLANNED FOR DESTRUCTION OR REMOVAL OR OTHER PUBLIC INFRASTRUCTURE DAMAGED OR REMOVED WILL BE BY THE CONTRACTOR AT HIS EXPENSE BEFORE ACCEPTANCE OF THE SUBDIVISION.
8. BLASTING OR BURNING SHALL NOT BE PERMITTED ON THIS PROJECT.
9. THE CONTRACTOR SHALL VERIFY ALL DEPTHS AND LOCATIONS OF EXISTING UTILITIES PRIOR TO BEGINNING CONSTRUCTION. ANY DISCREPANCIES WITH THE CONSTRUCTION PLANS FOUND IN THE FIELD SHALL BE BROUGHT TO THE ATTENTION OF THE DESIGN ENGINEER IMMEDIATELY. THE DESIGN ENGINEER SHALL BE RESPONSIBLE FOR REVISING THE PLANS AS APPROPRIATE AND SUBMITTING A REVISION TO THE CITY. USE ONE CALL UTILITY SYSTEM: DIAL 1-800-344-8377, 48 HOURS BEFORE YOU DIG.
10. EXCESS SOIL SHALL BE REMOVED AT THE CONTRACTOR'S EXPENSE. NOTIFY THE CITY OF GEORGETOWN IF THE DISPOSAL SITE IS INSIDE THE CITY'S JURISDICTIONAL BOUNDARIES.
11. ALL AREAS DISTURBED OR EXPOSED DURING CONSTRUCTION SHALL BE REVEGETATED IN ACCORDANCE WITH THE PLANS AND SPECIFICATIONS. REVEGETATION OF ALL DISTURBED AREAS OR EXPOSED AREAS SHALL CONSIST OF SODDING OR SEEDING; AT THE CONTRACTOR'S OPTION.
12. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO INSPECT TEMPORARY EROSION CONTROLS ON A DAILY BASIS. ADJUST THE CONTROLS AND/OR REMOVE ANY SEDIMENT BUILDUP AS NECESSARY.
13. CONTRACTOR WILL BE RESPONSIBLE FOR KEEPING ROADS AND DRIVES ADJACENT TO AND NEAR THE SITE FREE FROM SOIL, SEDIMENT AND DEBRIS. CONTRACTOR WILL NOT REMOVE SOIL, SEDIMENT OR DEBRIS FROM ANY AREA OR VEHICLE BY MEANS OF WATER, ONLY SHOVELING AND SWEEPING WILL BE ALLOWED. CONTRACTOR WILL BE RESPONSIBLE FOR DUST CONTROL FROM THE SITE.
14. PRIOR TO ANY CONSTRUCTION, THE CONTRACTOR SHALL APPLY FOR AND SECURE ALL PROPER PERMITS FROM THE APPROPRIATE AUTHORITIES.
15. ALL WET UTILITIES SHALL BE INSTALLED AND ALL DENSITIES MUST HAVE PASSED INSPECTIONS(S) PRIOR TO THE INSTALLATION OF DRY UTILITIES.
16. A TRAFFIC CONTROL PLAN, IN ACCORDANCE WITH THE TEXAS MANUAL OF UNIFORM TRAFFIC CONTROL DEVICES, SHALL BE SUBMITTED TO THE CITY FOR REVIEW AND APPROVAL PRIOR TO ANY PARTIAL OR COMPLETE ROADWAY CLOSURES. TRAFFIC CONTROL PLANS SHALL BE SITE SPECIFIC AND BE SEALED BY A REGISTERED TEXAS PROFESSIONAL ENGINEER.

EROSION AND SEDIMENTATION CONTROL NOTES

1. EROSION CONTROL MEASURES, SITE WORK, AND RESTORATION WORK SHALL BE IN ACCORDANCE WITH THE CITY OF GEORGETOWN'S SUBDIVISION CODE AND CONSTRUCTION STANDARDS MANUAL, EXCEPT AS NOTED BELOW AND APPROVED BY CITY COUNCIL:
2. SLOPES SHALL BE SODDED OR SEEDED WITH THE APPROPRIATE GRASS, GRASS MIXTURES, OR GROUND COVER SUITABLE TO THE AREA AND SEASON TO WHICH THEY ARE APPLIED.
3. SILT FENCES, ROCK BERMS AND SIMILARLY RECOGNIZED TECHNIQUES AND MATERIALS SHALL BE EMPLOYED DURING CONSTRUCTION TO PREVENT POINT SOURCE SEDIMENTATION LOADING OF DOWNSTREAM FACILITIES. SUCH INSTALLATION SHALL BE REGULARLY INSPECTED BY THE CITY OF GEORGETOWN FOR EFFECTIVENESS. ADDITIONAL MEASURES MAY BE REQUIRED IF, IN THE OPINION OF THE CITY ENGINEER, THEY ARE WARRANTED.
4. ALL TEMPORARY EROSION CONTROL MEASURES SHALL NOT BE REMOVED UNTIL FINAL INSPECTION AND APPROVAL OF THE PROJECT BY THE ENGINEER.
5. IT SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR TO MAINTAIN ALL TEMPORARY EROSION CONTROL STRUCTURES AND TO REMOVE EACH STRUCTURE AS APPROVED BY THE ENGINEER.

UTILITY NOTES

1. THESE CONSTRUCTION PLANS WERE PREPARED, SEALED, SIGNED AND DATED BY A TEXAS LICENSED PROFESSIONAL ENGINEER. THEREFORE BASED ON THE ENGINEER'S CONCURRENCE OF COMPLIANCE, THE CONSTRUCTION PLANS FOR CONSTRUCTION OF THE PROPOSED PROJECT ARE HEREBY APPROVED SUBJECT TO THE STANDARD CONSTRUCTION SPECIFICATIONS AND DETAILS MANUAL AND ALL OTHER APPLICABLE CITY, STATE AND FEDERAL REQUIREMENTS AND CODES.
2. THIS PROJECT IS SUBJECT TO ALL CITY STANDARD SPECIFICATIONS AND DETAILS IN EFFECT AT THE TIME OF SUBMITTAL OF THE PROJECT TO THE CITY.
3. THE SITE CONSTRUCTION PLANS SHALL MEET ALL REQUIREMENTS OF THE APPROVED SITE PLAN.
4. WASTEWATER MAINS AND SERVICE LINES SHALL BE SDR 26 PVC.
5. WASTEWATER MAINS SHALL BE INSTALLED WITHOUT HORIZONTAL OR VERTICAL BENDS.
6. MAXIMUM DISTANCE BETWEEN WASTEWATER MANHOLES IS 500 FEET.
7. WASTEWATER MAINS SHALL BE LOW PRESSURE AIR TESTED AND MANDREL TESTED BY THE CONTRACTOR ACCORDING TO CITY OF GEORGETOWN AND TCEQ REQUIREMENTS.
8. WASTEWATER MANHOLES SHALL BE VACUUM TESTED AND COATED BY THE CONTRACTOR ACCORDING TO CITY OF GEORGETOWN AND TCEQ REQUIREMENTS.
9. WASTEWATER MAINS SHALL BE CAMERA TESTED BY THE CONTRACTOR AND SUBMITTED TO THE CITY ON DVD FORMAT PRIOR TO PAVING THE STREETS.
10. PRIVATE WATER SYSTEM FIRE LINES SHALL BE TESTED BY THE CONTRACTOR TO 200 PSI FOR 2 HOURS.
11. PRIVATE WATER SYSTEM FIRE LINES SHALL BE DUCTILE IRON PIPING FROM THE WATER MAIN TO THE BUILDING SPRINKLER SYSTEM, AND 200 PSI C900 PVC FOR ALL OTHERS.
12. PUBLIC WATER SYSTEM MAINS SHALL BE 150 PSI C900 PVC OR DI AND TESTED BY THE CONTRACTOR AT 150 PSI FOR 4 HOURS.
13. ALL BENDS AND CHANGES IN DIRECTION ON WATER MAINS SHALL BE RESTRAINED AND THRUST BLOCKED.
14. LONG FIRE HYDRANT LEADS SHALL BE RESTRAINED.
15. ALL WATER LINES ARE TO BE BACTERIA TESTED BY THE CONTRACTOR ACCORDING TO THE CITY STANDARDS AND SPECIFICATIONS.
16. WATER AND SEWER MAIN CROSSINGS SHALL MEET ALL REQUIREMENTS OF THE TCEQ AND THE CITY.
17. WHEN POSSIBLE, FOSTER ADAPTERS SHALL BE USED TO CONNECT PROPOSED GATE VALVES TO PROPOSED TEE FITTINGS.

CONTRACTOR TO GIVE CITY OF GEORGETOWN A MINIMUM OF TWO WEEKS NOTICE FOR ALL SHUT DOWNS.

FM A 9+75 TO 14+50

GENERAL NOTES:

1. THE LOCATIONS OF EXISTING UNDERGROUND UTILITIES ARE SHOWN IN AN APPROXIMATE WAY ONLY. THE CONTRACTOR SHALL DETERMINE THE EXACT LOCATION OF ALL EXISTING UTILITIES BEFORE COMMENCING WORK AND AGREES TO BE FULLY RESPONSIBLE FOR ANY AND ALL DAMAGES THAT MIGHT BE OCCASIONED BY THE FAILURE TO EXACTLY LOCATE AND PRESERVE ANY AND ALL UNDERGROUND UTILITIES. WHEN THE CONTRACTOR IS USING TRENCHLESS INSTALLATION METHODS, THE CONTRACTOR SHALL LOCATE ALL UTILITIES FOR THE ENTIRE LENGTH OF THE INSTALLATION PRIOR TO ANY ACTIVITIES. ANY DISCREPANCIES FROM WHAT IS SHOWN SHALL BE IMMEDIATELY BROUGHT TO THE ATTENTION OF THE ENGINEER.
2. CONTRACTOR TO GIVE CITY OF GEORGETOWN A MINIMUM OF TWO WEEKS NOTICE FOR ALL SHUTDOWNS.
3. EXISTING FORCE MAIN IS TO BE PROTECTED AND REMAIN IN SERVICE UNTIL THE NEW MAIN IS CONSTRUCTED, TESTED, APPROVED AND THE NEW MAIN IS PLACED IN SERVICE.
4. EXISTING MAINS THAT ARE TO BE ABANDONED IN PLACE AND ARE UNDER THE PROPOSED ROADWAY ARE TO BE CUT, CAPPED, AND FILLED WITH FLOWABLE FILL. SUBSIDIARY TO COST OF PIPE, NO SEPARATE PAY. EXISTING MAINS THAT ARE TO BE ABANDONED IN PLACE AND ARE NOT UNDER THE PROPOSED ROADWAY WILL BE CAPPED.
5. THERE ARE TREES WITHIN THE PROJECT LIMITS. THE CONTRACTOR IS TO PROTECT THE TREE ROOT ZONES DURING CONSTRUCTION. TREE REMOVAL AND REQUIRED MITIGATION ARE NOT COVERED IN THE UTILITY BID ITEMS AND ARE INCLUDED IN THE ROADWAY PS&E.
6. REMOVAL AND REPLACEMENT OF FENCES AND GATES ON PROPERTY ASSOCIATED WITH WATERLINE INSTALLATIONS SHALL BE SUBSIDIARY TO THE COST OF PIPE.
7. FORCE MAIN TO BE INSTALLED PRIOR TO ROADWAY CONSTRUCTION. MINIMUM DEPTH OF COVER SHOWN IS TO FINISHED GRADE. CONTRACTOR SHALL INSTALL APPURTENANCES AS SHOWN. ADJUSTMENTS TO FINISHED GRADE MAY BE NECESSARY DURING ROADWAY CONSTRUCTION.
8. CONTRACTOR TO VERIFY SIZES OF FORCE MAIN PRIOR TO INSTALLATION AND NOTIFY ENGINEER OF ANY DISCREPANCIES.
9. CONTRACTOR REQUIRED TO COORDINATE WITH THE WASTEWATER UTILITY PROVIDER SO THAT THE UPSTREAM LIFT STATION CAN BE SECURED (TAKEN OFF-LINE) TEMPORARILY WHILE THIS TIE-IN IS BEING COMPLETED TO MINIMIZE THE CHANCE OF A RAW SEWAGE SPILL INTO THE SURROUNDING ENVIRONMENT.
10. PVC HAS A MAXIMUM ALLOWABLE DEFLECTION OF 1° AT JOINTS MEANING THE MINIMUM ALLOWABLE RADIUS IS 1145.98' WITH 20' PIPE LAY LENGTHS.

BYPASS NOTES:

1. THIS BYPASS LAYOUT PLAN IS SUGGESTIVE. IT IS PROVIDED ONLY AS REFERENCE TO THE CONTRACTOR TO AID IN BIDDING AND PROJECT PLANNING. IT IS NOT A PLAN SIGNED AND SEALED BY A LICENSED PROFESSIONAL ENGINEER TO BE USED FOR CONSTRUCTION. THE BYPASS PLAN DOES NOT RELIEVE THE CONTRACTOR OF HIS DUTY TO SUBMIT A BYPASS PUMPING PLAN FOR APPROVAL PER SPECIFICATIONS. CONTRACTOR SHALL PROVIDE LAYOUT PLAN WITH DETAILS PRIOR TO SET UP FOR REVIEW AND APPROVAL.
2. ALL BYPASS PUMPS, PIPE, STAGING AREAS, ETC. SHALL BE PLACED WITHIN EXISTING RIGHT-OF-WAY OR EASEMENTS, UNLESS SPECIFICALLY DESIGNATED ON THE PLANS. IF PRIVATE PROPERTY USE IS NECESSARY, CONTRACTOR SHALL COORDINATE WITH PROPERTY OWNER AND CONTRACTOR IS RESPONSIBLE FOR RESTORATION OF ALL DISTURBED AREAS TO THE PROPERTY OWNERS APPROVAL.
3. THE CONTRACTOR SHALL MAINTAIN VEHICULAR ACCESS TO ALL ROADWAYS AND PROPERTIES.
4. THE CONTRACTOR SHALL BE RESPONSIBLE FOR RESTORING EXISTING FENCES, CURBS, STREETS, DRIVEWAYS, LANDSCAPING AND STRUCTURES TO THEIR ORIGINAL OR BETTER CONDITION AS THE RESULT OF THE PROJECTS BYPASS INSTALLATION AND USE. THE COST OF THIS SHALL BE INCLUDED IN THE COST OF BYPASS SYSTEM.

EXHIBIT B

Pipe Size (in)	Fitting	Angle (degrees)	Test Pressure (psi)	Required Joint Restraint (ft)	Cover (ft)	Notes
FORCE MAIN RESTRAINED JOINTS CALCULATIONS						
8	DEAD END	-	200	53	6	1, 2, 3, 5
8	VERT. BEND	5.625	200	3	6	1, 2, 4, 5
8	HORZ. BEND	5.625	200	3	5	1, 2, 4, 5
8	HORZ. BEND	5.625	200	3	6	1, 2, 4, 5
8	HORZ. BEND	11.25	200	3	6	1, 2, 4, 5
8	HORZ. BEND	22.5	200	5	6	1, 2, 4, 5
8	HORZ. BEND	45	200	10	6	1, 2, 4, 5

Notes:

1 All restrained joints must be greater than or equal to the distances given above. If the required restrained joint length occurs to the middle of a pipe segment, then the contractor shall restrain the next joint beyond the required restraint at no

2 If two fittings are close enough that adjacent calculated restrained lengths overlap, then restrain all pipe between the two fittings and assume half of the restrained pipe length beween the two fittings acts to resist the thrust force of

3 This is measured from the location of the dead end or gate valve. For dead ends/stubs, restrain from the end of the line; for gate valves, restrain the length

4 This length is required on each side of the horizontal and vertical bends.

5 These calculations were performed using the EBAA restraint calculator.

Settings:		
	Pipe Material	PVC
	Laying Condition	Type 4
	Soil Designation	CH, Gran. Fill
	Min. Depth of Bury (ft)	5
	Max. Depth of Bury (ft)	6
	Avg. Depth of Bury (ft)	5.9
	Design Pressure (psi)	200
	Safety Factor	1.5

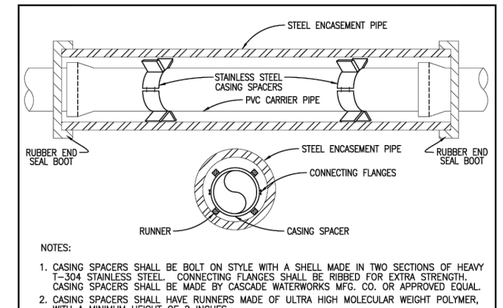
* THE ENGINEER OF RECORD SHALL CALCULATE THE SIZE OF THE DEADMAN REQUIRED AS WELL AS ANY INSTALLATION WHICH IS NOT COVERED BY THE ABOVE.

The Architect/Engineer assumes responsibility for appropriate use of this standard.

ADOPTED 6/21/2006

CITY OF GEORGETOWN
CONSTRUCTION STANDARDS AND DETAILS
TYPICAL THRUST BLOCKS FOR WATER AND FORCE MAIN

W11 | NTS | 1/2003 | MRS | TRB



NOTES:

1. CASING SPACERS SHALL BE BOLT ON STYLE WITH A SHELL MADE IN TWO SECTIONS OF HEAVY T-304 STAINLESS STEEL. CONNECTING FLANGES SHALL BE RIBBED FOR EXTRA STRENGTH. CASING SPACERS SHALL BE MADE BY CASCADE WATERWORKS MFG. CO. OR APPROVED EQUAL.
2. CASING SPACERS SHALL HAVE RUNNERS MADE OF ULTRA HIGH MOLECULAR WEIGHT POLYMER, WITH A MINIMUM HEIGHT OF 2 INCHES.
3. DO NOT USE WEDGES BETWEEN TOP OF PVC CARRIER PIPE AND INSIDE OF CASING TO KEEP PVC FROM MOVING.
4. PRIOR TO INSERTING PVC CARRIER PIPE, ANY WATER SHOULD BE PUMPED OUT OF THE CASING PIPE SO THAT NO MORE THAN A FEW INCHES OF WATER REMAINS.
5. SPACERS WILL BE REQUIRED WITHIN AT LEAST 3 FEET FROM BOTH OPENINGS OF THE ENCASEMENT PIPE AND SPACED NO GREATER THAN 6 FEET THROUGHOUT THE ENCASEMENT PIPE.
6. ENCASEMENT PIPE SHALL BE SMOOTH STEEL 35,000 PSI YIELD STRENGTH WITH THICKNESS ACCORDING TO THE FOLLOWING TABLE:
7. WHEN CASING IS REQUIRED UNDER PAVEMENT WITHIN THE R.O.W., THE CASING SHALL EXTEND OUT TO WITHIN 4' INSIDE OF THE R.O.W. LINE, ON BOTH SIDES.
8. ALL JOINTS SHALL BE RESTRAINED ON PVC CARRIER PIPE.

PIPE SIZE–CARRIER (DIAMETER)	PIPE SIZE–CASING (DIAMETER)(MIN.)	MINIMUM PIPE THICKNESS (INCHES)	
6"	16"		
8"	18"	1/4	0.2500
10"	20"	5/16	0.3125
12" – 14"	24"	3/8	0.3750
16" – 18"	30"	7/16	0.4375
20"	36"	1/2	0.5000
24"	42"	1/2	0.5000
30"	48"	1/2	0.5000

The Architect/Engineer assumes responsibility for appropriate use of this standard.

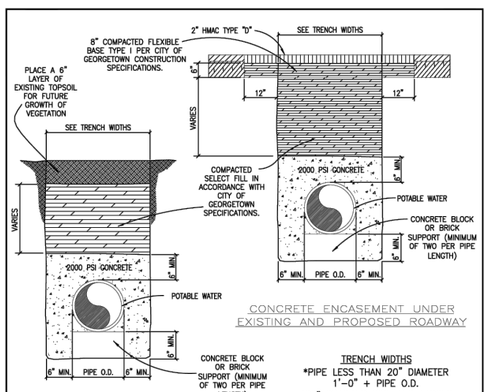
CITY OF GEORGETOWN
CONSTRUCTION STANDARDS AND DETAILS
INSTALLATION OF P.V.C. PIPE THROUGH CASING

W14 | NTS | 1/2003 | MRS | TRB



NOTES:

1. ENCASEMENT TO BE CONSTRUCTED WHERE SEWER LINES PASS OVER OR UNDER A WATER MAIN WITH LESS THAN TWELVE INCHES (12") CLEAR DISTANCE.
2. AT CROSSINGS, ENCASEMENT SHALL EXTEND TEN FEET (10'-0") ON EITHER SIDE OF CROSSING.
3. BEGINNING AND ENDING OF ENCASEMENTS SHALL NOT BE MORE THAN SIX INCHES (6") FROM A PIPE JOINT.
4. WHERE WATER AND SEWER LINES PARALLEL WITH LESS THAN TEN FEET (10'-0") HORIZONTAL CLEAR DISTANCE, NO ENCASEMENT IS REQUIRED IF BOTH LINES ARE 150 PSI PRESSURE PIPE.
5. RAW WATER MAINS SHALL BE 150 PSI PRESSURE RATED WHEN PARALLELING POTABLE WATER MAINS WITH LESS THAN NINE FEET (9'-0") HORIZONTAL CLEARANCE.
6. WHERE MINIMUM COVER, THIRTY SIX INCHES (36") IS NOT AVAILABLE, ENCASEMENT WILL BE REQUIRED.
7. ALL CONCRETE ENCASEMENTS MUST BE FORMED AND INSPECTED BY THE CITY OF GEORGETOWN INSPECTOR PRIOR TO PLACING CONCRETE AND BACKFILLING.
8. CONTRACTOR OR ENGINEER MAY USE FLOWABLE BACKFILL AS AN ALTERNATE BACKFILL MATERIAL (SEE C9 FLOWABLE BACKFILL FOR THE SPECIFICATION).

The Architect/Engineer assumes responsibility for appropriate use of this standard.

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
HydroPro Contract Renewal 22-0098-GC-R4

SUGGESTED ACTION:
Consideration and possible action to approve the fourth renewal of contract # 22- 0098-GC-R4 with HydroPro Solutions, LLC of Cedar Park, TX, for the supply of Master Meter water meters, registers and related items for the City of Georgetown's Advanced Metering Infrastructure System, for an amount not-to-exceed $2,500,000.00 -- Chase Kluge, Water Services Manager

ITEM SUMMARY:
This fourth and final renewal with HydroPro Solutions is for the purchase of Master Meter products such as the Omni and Octave large meters which are used widely throughout the water system for new construction and are needed for maintenance.

FINANCIAL IMPACT:
Funds are available in Fund: 660, Cost Center: CC0524, Spend Category: Water Meters

Fourth Renewal
to the Contract between
the City of Georgetown and
HydroPro Solutions, LLC

This Fourth Renewal Agreement (the "Fourth Renewal") is entered into by and between **CITY OF GEORGETOWN**, a Texas Home-Rule Municipal Corporation (the "City"), and **HYDROPRO SOLUTIONS, LLC,** (the "Contractor"), (collectively, the "**Parties**"). The Parties hereby agree as follows:

WHEREAS, the Parties entered into an Agreement on October 11, 2022, for supply of Master Meter water meters, registers, and related items for the City's advanced metering infrastructure system (the "Services"), Contract No. 22-0098-GC, (the "Original Agreement"); and

WHEREAS, the Original Agreement provided an initial term of twelve (12) months in an amount not to exceed TWO MILLION FIVE HUNDRED THOUSAND DOLLARS and NO CENTS ($2,500,000.00) per year and provided for four (4) additional one- (1-) year renewal terms; and

WHEREAS, on November 14, 2023, the Parties renewed the Original Agreement for the first renewal term in accordance with the terms of the Original Agreement and increased the not-to-exceed amount by $500,000.00 for a total of $3,000,000.00 for the first renewal term; and

WHEREAS, on October 22, 2024, the Parties renewed the Original Agreement for a second renewal term in accordance with the terms of the Original Agreement; and

WHEREAS, on November 25,2025, the Parties renewed the Original Agreement for a third renewal term in accordance with the terms of the Original Agreement; and

WHEREAS, on July 14, 2026, the Parties amended Exhibit 1 of the Original Agreement to update the item descriptions and supplier item numbers; and

WHEREAS, the Parties desire to renew the Original Agreement, as amended, for a fourth renewal term in accordance with the terms of the Original Agreement, as amended.

NOW, THEREFORE, in consideration of the mutual covenants contained herein, the Parties agree as follows:

1. The Parties agree to renew the Original Agreement, as amended, for a fourth renewal term to begin immediately upon the expiration of the original term and end on October 10, 2027.
2. During the fourth renewal term, the total not-to-exceed amount shall be **TWO MILLION AND FIVE-HUNDRED THOUSAND DOLLARS and NO CENTS ($2,500,000.00).**

3. During the fourth renewal term, the cost for products shall adhere to the prices listed in Exhibit 1 to this Fourth Renewal (Exhibit 1 2026-2027 Meter Pricing).
4. All other terms of the Original Agreement, as amended, not inconsistent with this Fourth Renewal shall apply. Except as expressly modified by this Fourth Renewal, the Original Agreement remains unchanged and in full force and effect, subject to its terms.

SUBJECT:
Award of ITB #202670 - Electric Underground Construction and Maintenance Services

SUGGESTED ACTION:
Consideration and possible action to approve the award of ITB No. 202670 for Electric Underground Construction and Maintenance Services to Pedro S S Services, Inc., the lowest bidder, in an annual amount not to exceed $15,000,000.00, and authorizing the City Manager to execute all future renewals -- Richard Pajestka, Electric Engineering and Operations Manager

ITEM SUMMARY:
Staff issued ITB No. 202670 for Electric Underground Construction and Maintenance Services and received three responsive bids. Pedro S S Services, Inc. was determined to be the lowest bidder meeting the specifications and requirements of the solicitation. Staff recommends award to Pedro S S Services, Inc. The contract will be in an annual amount not to exceed $15,000,000.00, with the City Manager authorized to execute future renewals in accordance with the terms of the solicitation.

FINANCIAL IMPACT:
Funds are available in the FY27 CIP Budget

I. INTRODUCTION

City of Georgetown is seeking Bids from entities experienced and qualified to furnish all labor including supervision and administration, tools, machinery, equipment, and transportation required to perform **ELECTRIC UNDERGROUND CONSTRUCTION AND MAINTENANCE SERVICE.**

The Successful Bidder must meet all requirements of the Invitation to Bid, maintain proper licensing, and comply with all federal, state, and local laws and mandates relative to the services specified in this Bid.

II. DEFINITIONS

The following definitions shall be used to identify terms throughout this invitation to bid:

A. AGREEMENT/CONTRACT
A mutually binding legal document obligating the Successful Bidder to furnish the goods or services specified within this solicitation and obligating the City to pay for the goods or services as specified. This may be an authorized purchase order.

B. BID/RESPONSE/OFFER/QUOTATION
A complete, properly signed and submitted response to this solicitation that, if accepted, would bind the Successful Bidder to perform the resulting contract.

C. BIDDER
The entity or individual who is identified throughout the solicitation that they consider themselves qualified to provide the services specified herein and are interested in making an offer to provide the services to the City.

D. CITY
The City of Georgetown, located in Williamson County, Texas.

E. CITY COUNCIL
The governing body of the City of Georgetown, Texas given the authority to exercise such powers and jurisdiction of all City business as conferred by the City Charter and State Constitution and Laws.

F. E-BID SYSTEM
The City's electronic bidding system. This is a web-based system that provides all solicitation documents electronically to potential Bidders and allows interested Bidders to submit Bids in response to advertisement for invitation. The term "e-bid" and/or "electronic bid" means the Bidders' electronic bid submitted to the City by way of the E-bid system. The terms "electronic bid" or "e-bid" are used inter-changeably to describe the above invitation for bid process to submit an authorized bid to the City in response to an Invitation to Bid.

PIGGYBACK CONTRACT
A contract or agreement that has been competitively bid in accordance with State of Texas statutes, rules, policies, and procedures and has been extended for the use of state and local agencies that have entered (or will) into an Interlocal Agreement with the City.

G. PURCHASE ORDER
A purchase order records the financial obligation of the City to pay for goods or services properly received; therefore, a purchase order is also required for all contracts with an expenditure of funds entered into by the City Manager or City Council.

H. SERVICES
All work or labor performed for the City on an independent contractor basis other than construction.

I. SOLICITATION/INVITATION TO BID

This Solicitation document issued by the City containing terms, conditions and specifications for the goods or services to be procured.

J. SUCCESSFUL BIDDER/CONTRACTOR

Person or business enterprise providing goods, equipment, or services to the City as fulfillment of obligations arising from this solicitation.

III. NOTICE TO BIDDERS

Qualified Bidders interested in responding to this Solicitation must submit the following information as part of their bid response. Failure to provide any information requested in this Solicitation may result in disqualification of the bid response.

A. NOTICE

All Bids are due on or before **2:00 p.m. on August 27, 2026. Solicitations are posted and available to download from the City of Georgetown's On-Line Bidding System at https://gtowntx.ionwave.net/SourcingEvents.aspx?SourceType=1**

Bidders may receive notice of solicitations from the City of Georgetown from a variety of channels. Approved methods of dissemination include the City of Georgetown website or the City of Georgetown Purchasing Office. The receipt of solicitations through any other means may result in the receipt of incomplete specifications or addenda which could ultimately render your Bid non-compliant. City of Georgetown accepts no responsibility for the receipt or notification of solicitations through any other source.

B. RECEIPT OF BIDS

1. **Electronic Sealed Bids.** Electronic Bids shall be submitted through the City's web site at: https://gtowntx.ionwave.net All interested Bidders are required to register as a "Bidder" on the City's E-bid System at the above web address and clicking on "Bidder Registration". Registration provides automatic access to the solicitation and its documents (specifications, attachments, exhibits), and for any changes to the solicitation including change(s) to the submission time and date.

   Electronic Bids shall be uploaded in the E-bid system and submitted electronically through this system to the City of Georgetown.

   Electronic Bids must be received prior to the time and date specified in the City's E-bid System. The mere fact that the Bid was dispatched will not be considered; the Bidder must ensure that the Bid was properly uploaded into the System. The time Bids are received shall be determined by the electronic clock in the City's E-bid System.

C. QUESTIONS and INQUIRIES

Questions and inquiries about this Solicitation shall be submitted electronically via the City's E-bid system in writing to the following individual:

Veronica Ferriz
Veronica.ferriz@georgetowntexas.gov

The deadline for written electronic questions **August 21, 2026, at 5:00 p.m.**

D. Offerors shall not attempt to contact City Council members, City staff or Management directly during the pre-proposal or post-proposal period. The City intends to respond to all appropriate questions or concerns; however, the City reserves the right to decline to respond to any question or concern. All material modifications, clarifications or interpretations will be incorporated into an addendum which will be publicly posted. All addenda issued prior to the due date and time for

responses are incorporated into the ITB and must be acknowledged in the Proposal response. Only written information provided shall be binding. Oral or other interpretations shall not be binding and are held without legal effect.

E.

F. SCHEDULE OF IMPORTANT DATES

The tentative schedule for this Solicitation is as follows:

Release ITB to Bidders		**August 12, 2026**
Non-Mandatory Pre-proposal Meeting	11:00 AM CT	**August 18, 2026**
Deadline for Questions and Inquiries	5:00 PM CT	**August 21, 2026**
ITB Due Date	2:00 PM CT	**August 27, 2026**
City Review of Proposals		**August 27 -31,2026**
Earliest Award by City		**August 31**

The City reserves the right to modify these dates.

G. NON-MANDATORY PRE-PROPOSAL MEETING

A NON-MANDATORY virtual Pre-Proposal Conference will be conducted through Microsoft Teams beginning at **11:00 AM on August 18, 2026**. This meeting is not mandatory but recommended. Any questions and answers addressed during the conference meeting will be issued in the City's E-Bid system and all known parties will be notified.

Microsoft Teams Meeting
Join the Meeting Now
Meeting ID: 247 463 978 202 17
Passcode: JJ2SE9kK
Dial in by phone: +1-512-672-8405, 579186603# United States, Austin
Phone conference ID: 579 186 603#3

IV. STANDARD TERMS AND CONDITIONS

A. ACCEPTANCE

Upon acceptance and approval by the City Council, or their designee, this bid effects a working contract between the City and the Successful Bidder. A City of Georgetown Purchase Order is required prior to the delivery of any goods or services provided to the City.

B. ABSENCE of PURCHASE ORDER or AGREEMENT

The City is not responsible for delivery of any commodities, equipment, or services without a proper Purchase Order.

C. ADDENDA

If it becomes necessary to revise any part of this solicitation, prior to the due date and time, a written addendum will be provided to all Bidders. The City is not bound by any oral representations, clarifications, or changes made in the written specification by the City's employees, unless such clarification of change is provided to Bidders in written addendum form from the Purchasing Department.

Addenda will be transmitted by electronic means to all registered Bidders in the City's E-bid system that are known to have downloaded a copy of the solicitation documents and specifications from the City's E-bid system. However, it shall be the sole responsibility of the Bidder to verify issuance of any addenda and to check all avenues of document availability prior to the opening date and time. Bidder shall provide written acknowledgment of all addenda.

D. ADVERTISING and PUBLICITY

The Successful Bidder shall not advertise or otherwise publicize, without the City's prior written consent, the fact that the City has entered into the Agreement, except to the extent required by applicable law.

E. ASSIGNMENTS

The Agreement shall be binding upon and inure to the benefit of the City and the Successful Bidder, and their respective successors and assignees, provided however, that no right or interest in the Agreement shall be assigned and no obligation shall be delegated by the Successful Bidder without the prior written consent of the City. Any attempted assignment or delegation by the Successful Bidder shall be void unless made in conformity with this Paragraph. The Agreement is not intended to confer rights or benefits on any third party.

F. AWARD of CONTRACT

The award of a contract will be made to the Bidder providing the best value to the City. Best value criteria include: conformity to specifications; purchase price, including payment discount terms; the reputation of the Bidder and of the Bidder's goods or services; the quality of the Bidder's goods or services; the extent to which the goods or services meet the City's needs; the Bidder's past relationship with the City; service methods and terms; payment terms; proven methods that are a lesser or reduced effect on human health and the environment; and any relevant criteria specifically listed in this Invitation to Bid.

Although the cost of products to be provided is an essential part of the Bid, the City is not obligated to award a contract on the sole basis of cost.

The City reserves the right to award this Contract in whole, or to award only a portion of a Bidder's Response — including, without limitation, specific unit price categories, specific assembly units, specific geographic areas, or specific scopes of work — where the City determines that a partial award better serves the City's interests. Submission of a Bid does not create any right, expectation, or entitlement in the Bidder to award the entirety of that Bid.

G. BUSINESS PRACTICES

Minority business enterprises and/or historically underutilized businesses will be afforded full opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, religion, sex, national origin, or any of the legally recognized suspect classification, in consideration for an award.

H. CANCELLATION or TERMINATION

1. **Termination For Cause**:
   In the event of default, the City shall have the right to terminate the Agreement for cause by written notice effective ten (10) calendar days after the date of such notice, unless the Successful Bidder cures the default or proves it does not exist within that period. The City is entitled to recover all actual damages, costs, losses, and expenses, including cost of cover, reasonable attorneys' fees, court costs and interest at the maximum lawful rate. The City may remove the Successful Bidder from its Bidder List and disqualify future Offers for up to three (3) years.
2. **Termination Without Cause**:
   The City shall have the right to terminate the Agreement, in whole or in part, without cause any time upon thirty (30) calendar days' prior written notice. Upon receipt of a notice of termination, the Successful Bidder shall promptly cease all further work pursuant to the Agreement, with such exceptions, if any, specified in the notice of termination. The City shall pay the Successful Bidder, to the extent of funds appropriated or otherwise legally

available for such purposes, for all services delivered and obligations incurred prior to the date of termination in accordance with the terms hereof.

3. **Non-Appropriation**:
   The Agreement is a commitment of the City's current revenues only, and the City may terminate if funds are not appropriated to continue it.
4. **Cancellation**:
   The City may cancel the Agreement for default if the Successful Bidder breaches any term, becomes insolvent, or commits acts of bankruptcy, in addition to any other remedies available in law or equity.

I. CERTIFICATION

Bidder must furnish complete contact information for the individual authorized to execute contractual documents and for the individual responsible for answering questions; certify it has not conspired with other potential Bidders to control competitive pricing; and certify it is a duly qualified, capable, bondable business entity not in receivership, contemplating receivership, or bankruptcy.

J. CLAIMS

If a claim, demand, suit, or other action is asserted against the Successful Bidder arising under or concerning the Agreement, or which could materially affect its ability to perform, the Successful Bidder shall give written notice to the City within ten (10) calendar days after receipt of notice, stating the date, claimant information, basis, and named parties, delivered to the Purchasing Department and the City Attorney at PO Box 409, Georgetown, TX 78627.

K. CODES, PERMITS, LICENSES

Successful Bidder shall comply with all federal, state, and local codes, ordinances, and authorities pertaining to services, equipment, and materials used, and shall be responsible for obtaining all necessary permits, certificates, and licenses to fulfill its contractual obligations.

L. COLLUSION

Advanced disclosure of any information to a particular Bidder giving that Bidder an advantage over other interested Bidders, made or permitted by a governing body member, employee, or representative, will void all responses to that solicitation.

M. COMMUNICATION

The City prohibits ex parte communication initiated by a Bidder to any City official or employee evaluating Responses prior to award. All requests for clarification must be directed to the Purchasing Office (PO Box 409, 510 W. 9th Street, Georgetown, TX 78627, 512-930-3647, purchasing@georgetowntexas.gov). Ex parte communication may be grounds for disqualification.

N. CONFIDENTIALITY

Successful Bidder may require access to certain City or licensor Confidential Information. Successful Bidder shall maintain such information in strict confidence and shall not disclose, disseminate, or otherwise use it without the City's prior written consent, except as required by law (with prompt notice to the City to allow it to seek a protective order), using protective measures at least as stringent as those it uses for its own most valuable information.

O. DEFAULT

Successful Bidder is in default if it fails to timely and faithfully perform material obligations under the Agreement or any other City purchasing agreement, fails to pay fees or taxes owed to the City, becomes insolvent or seeks bankruptcy relief, or makes a material misrepresentation. A defaulting or abandoning Bidder may be charged the cost difference of obtaining goods/services elsewhere and may be excluded from future Solicitations for the same purchase type.

P. DELAYS

The City may delay scheduled due dates by written notice if in its best interest. If a delay increases the Successful Bidder's costs, the parties shall negotiate an equitable price adjustment and execute

an amendment; the Successful Bidder must assert its right to adjustment within ten (10) calendar days of the delay notice. Disagreements are resolved under the Dispute Resolution Process, but the delay itself remains in effect regardless.

Q. DISCLOSURE OF CONFLICT OF INTEREST

Effective January 1, 2006, Chapter 176 of the Texas Local Government Code (House Bill 914) requires disclosure of any affiliation or business relationship that might cause a conflict of interest with a local government entity, using the Conflict-of-Interest Questionnaire form from the Texas Ethics Commission (www.ethics.state.tx.us). Concealing a conflict may result in automatic disqualification.

R. DISCLOSURE OF INTERESTED PARTIES

Contracts requiring City Council action/vote, or valued at $1 million or more, may require compliance with Section 2252.908 of the Texas Government Code. The business entity must file Form 1295 with the Texas Ethics Commission, obtain a certification number, and submit it with the signed contract. The City will acknowledge receipt to the TEC within 30 days.

S. DISCLOSURE OF PENDING LITIGATION:

Each Bidder shall include in its response a complete disclosure of any material civil or criminal litigation or pending investigation which involves the Bidder or in which the Bidder has been judged guilty.

T. DISPUTE RESOLUTION

Disputing parties shall provide written notice as soon as practicable and make a good faith effort within ten (10) business days to resolve the matter. If unresolved within sixty (60) days of notice, the parties may submit to non-binding mediation by written consent. If unresolved through mediation within one hundred twenty (120) days of notice, either party may exercise any remedy available under law.

U. EFFECTIVE DATE and TERM

This Bid shall be effective upon Acceptance and issuance of a City Purchase Order and shall continue in effect until all obligations are performed in accordance with the terms and conditions herein.

V. EXCEPTIONS

Any deviations from terms, conditions, or specifications must be clearly indicated in the Response in writing at or before the due date. Deviations are subject to City review and may render the Response disqualified or non-responsive. If no exceptions are stated, full compliance without exception is understood.

W. FORCE MAJEURE

Neither party is liable for default or delay caused by acts of God, fire, riots, civil commotion, labor disruptions, sabotage, sovereign conduct, or other causes beyond reasonable control. The time for performance will be extended, and a conference held within three (3) business days to establish a mutually agreeable recovery period.

X. FORMS

All Responses must be submitted on the form(s) as required by the City and accompanied by all required attachments.

Y. FRAUD

Fraudulent statements by the Bidder on any bid, report, or deliverable are grounds for termination for cause and may result in legal action.

Z. GRATUITIES

The City may cancel the Agreement without liability if it determines gratuities were offered or given by the Successful Bidder to secure the Agreement or favorable treatment, and may recover benefits or payments resulting from the gratuities.

AA. INDEPENDENT CONTRACTOR

Nothing in this bid creates an employer/employee relationship, partnership, or joint venture. The Successful Bidder's services are those of an independent contractor and are not covered by any City employee benefits or insurance.

BB. INDEMNITY

SUCCESSFUL BIDDER SHALL DEFEND, INDEMNIFY AND HOLD HARMLESS THE CITY, ITS OFFICERS, AGENTS, SERVANTS AND EMPLOYEES FROM AND AGAINST ANY AND ALL SUITS, ACTIONS, CLAIMS, DAMAGES, JUDGMENTS, LOSSES, LIENS, COSTS, EXPENSES, ATTORNEYS' FEES, AND ANY OTHER COSTS OR CLAIMS ARISING OUT OF OR RESULTING FROM THE AGREEMENT OR THE GOODS OR SERVICES PROVIDED UNDER IT.

CC. INFRINGEMENT

Successful Bidder represents it will provide good and indefeasible title to deliverables that do not infringe any third-party intellectual property right, and shall defend, indemnify, and hold the City harmless from claims arising from infringement or breach of these warranties, at its sole expense, with the City having the right to monitor or engage co-counsel.

DD. INSURANCE REQUIREMENTS

Successful Bidder shall provide a copy of its insurance policies to the City.

EE. INTERLOCAL AGREEMENT

Other governmental entities may be extended the opportunity to purchase from Solicitations awarded by the City, with consent of the Successful Bidder(s) and the City, conclusively inferred from lack of exception in the Bidder's Response. The City is not a partner, agent, or representative of, and is not liable for the actions or debts of, such outside agencies.

FF. INTERPRETATION

The Agreement is the final, complete, and exclusive statement of the parties' terms; prior dealings, performance, or trade usage are not relevant to supplement or explain it. Provisions shall be construed fairly to both parties. Uniform Commercial Code definitions apply unless otherwise defined in the Agreement.

GG. INVALIDITY

The invalidity of any provision does not affect the validity of the remainder; a void provision is severed and the parties agree to reform the Agreement with a valid substitute unless the void provision is essential to the Agreement.

HH. LIABILITY

Successful Bidder is liable for all damages incurred while performing the Agreement and releases the City from claims for injury, death, or property loss/damage arising out of the Agreement and the Successful Bidder's negligence, regardless of insurance coverage. Certificates of insurance may be required for General Liability, Auto Liability, Workers Compensation, and Professional Liability.

II. LIENS

Successful Bidder shall defend, indemnify, and hold the City harmless from all liens and encumbrances for services, goods, and equipment provided, and shall provide lien releases or evidence of freedom from liens upon the City's request.

JJ. LOCAL BUSINESS PRESENCE

The City seeks opportunities for Georgetown-limits businesses to participate on City contracts. Bidder shall specify whether it or its subcontractors are local businesses. Section 271.9051 of the Texas Local Government Code authorizes consideration of a Bidder's location in certain circumstances. The City may request documentation supporting local preference.

KK. MANAGEMENT

A change in ownership or management may result in cancellation of the Agreement unless mutually agreed to continue with the same terms, conditions, and pricing. The Agreement is nontransferable and nonassignable by either party.

LL. NOTICES

Notices shall be in writing and deemed delivered three (3) business days after postmark if sent by certified/registered mail, or upon receipt if delivered by other means. Notices to the Successful Bidder go to its bid address; notices to the City go to the Purchasing Office, PO Box 409, Georgetown, TX 78627, Attn: Purchasing Manager.

MM. OVERCHARGES

Successful Bidder assigns to the City any claims for overcharges arising under federal or Texas antitrust laws related to this Agreement.

NN. PAYMENT TERMS

1. **Tax Exempt Status**:
   The City is exempt from federal excise, state, and local taxes under Texas Tax Code §151.309; bid prices must be net exclusive of taxes.
2. **Invoicing Requirements**:
   Invoices shall be submitted monthly to Accounts Payable, referencing the Purchase Order number, with itemized billing broken out by station/span as directed.
3. **Payments by Electronic Funds Transfer:**
   The City's preferred payment method is ACH; an ACH Form is available from Accounts Payable
4. **Payment Terms**:
   Payments follow the Texas Prompt Payment Act (Tex. Gov't Code Subtitle F, Ch. 2251) — payment due within thirty days of acceptance, performance, or receipt of a correct invoice, whichever is later, with limited exceptions for bona fide disputes or federal funding restrictions.
5. **Right To Audit**:
   The City may audit Successful Bidder's records related to performance for four (4) years after final payment or resolution of related matters, with any overpayments refunded.
6. **Firm Pricing**:
   Prices remain firm for the Agreement term; no separate line-item charges (equipment rental, demurrage, fuel surcharges, delivery, permit costs, etc.) are permitted
7. **Price Warranty**:
   Bidder warrants prices are not materially higher than its current prices for like deliverables under similar terms; the City may deduct or recover excess amounts.
8. **Travel Expenses:**
   All travel, lodging, and per diem must be included in the original Bid; reimbursement requires prior authorization and is limited to coach/economy airfare.

OO. PERSONAL INTEREST

No City officer, employee, consultant, or elected official involved in this Solicitation's development, evaluation, or decision-making may have a direct or indirect financial interest in the resulting Agreement. Violations may constitute impropriety in office and subject the individual to discipline up to dismissal, and may render the Agreement voidable by the City if the Successful Bidder had knowledge of the violation.

PP. PRIORITY OF DOCUMENTS

In the event there are inconsistencies between the general provisions and special (or other) terms and conditions contained herein, the latter will take precedence.

QQ. PROTEST PROCEDURES

Protests of specifications, terms, or conditions must be made prior to the bid due date; later protests will not be considered. Protests of award must be made no later than five (5) days after the aggrieved party knew or should have known the relevant facts, and must include the protestor's contact information and signature, solicitation/contract number, detailed grounds, and

requested relief, sent to the Purchasing Department, PO Box 409, Georgetown, TX 78627, Attn: the listed buyer.

RR. PUBLIC INFORMATION

Responses are subject to release as public information under the Texas Public Information Act unless shown to be exempt. Bidders should consult legal counsel regarding disclosure and mark confidential material in bold red "CONFIDENTIAL"; vague claims of confidentiality will not be accepted, and unmarked content is automatically considered public.

SS. REIMBURSEMENTS

The City has no obligation to reimburse Bidders for expenses incurred in preparing bids or providing additional information, and will not pay costs to procure a contract.

TT. RESERVATIONS

The City reserves the right to request clarification or additional information after the Solicitation due date, and to accept, award, or reject all or any part of any Response — including individual line items, categories, or portions of pricing — waive any formalities or technical inconsistencies, delete any requirement or specification from the Solicitation, or terminate the Solicitation when deemed to be in the City's best interest. Acceptance of part of a Response shall bind the Bidder only as to the portion accepted.

UU. RESPONSES BECOME PROPERTY OF THE CITY:

Submissions received in response to a Solicitation become the sole property of the City.

VV. RIGHT TO ASSURANCES

If the City, in good faith, questions the Successful Bidder's intent to perform, it may demand written assurances; failure to provide them may be treated as anticipatory repudiation of the Agreement.

WW. SEVERABILITY

The invalidity or unenforceability of any provision does not affect the validity or enforceability of any other provision.

XX. SURVIVABILITY OF OBLIGATIONS

All continuing obligations, including warranty, indemnity, and confidentiality obligations, survive expiration or termination of the Agreement.

YY. SUCCESSFUL BIDDER'S OBLIGATION:

Successful Bidder shall fully and timely provide all deliverables described in this Solicitation, in strict accordance with the Agreement's terms and all applicable laws, rules, and regulations.

ZZ. VENUE

This Agreement is governed by Texas law, including the UCC as adopted in Texas, and is fully performable in Georgetown, Texas. Venue for any related action lies in Williamson County, Texas, without waiving the City's sovereign immunity defense or limiting its right to seek injunctive relief.

AAA. WAIVER

No claim or right arising from a breach may be discharged by waiver unless supported by consideration and in writing signed by the aggrieved party. No waiver of one default operates as a permanent waiver of other rights or future defaults.

BBB. WITHDRAWAL by CITY

The City makes no guarantees or representations that any award will be made and reserves the right to cancel this solicitation for any reason, including:

- Reject any and all bids received as a result of this ITB.
- Waive or decline to waive any informality and any irregularities in any bid or responses received.
- Withhold the award of contract(s).

- Select Bidder(s) that provide the best value to the City.
- Terminate the ITB process.
- Award only a portion of any Response received, including specific pricing categories or scopes of work, without awarding the remainder.

CCC. WITHDRAWAL by BIDDER

Bidder may request withdrawal of a sealed Bid ***prior to the scheduled opening time***, by written submission to Purchasing.. The Ebid system will allow supplier retraction of their electronic submission and resubmission prior to the bid due date.

V. SPECIAL TERMS AND CONDITIONS

A. TERM OF AGREEMENT

1. **Original Term:**
   The initial term of the agreement shall become effective from date of acceptance and approval by the City of Georgetown and shall remain in full force and effect with firm fixed prices for three (3) full years.
2. **Renewal Term:**
   Upon completion of the term of the original agreement and upon mutual agreement of both parties, the original agreement may be renewed for up to two (2) additional one (1) year periods [five (5) years total]. The renewal will be under the same terms and conditions as the original agreement; provided, however, that the unit prices proposed under the original agreement may, by mutual consent, be increased pursuant to any escalation/de-escalation provisions provided herein. In the event a new agreement cannot be executed at the anniversary date of the original term or any renewal term, the agreement may be renewed month-to-month until a new agreement is executed.

B. ESCALATION/DE-ESCALATION

Unit prices are firm for the initial term. If the City exercises a renewal option, a unit price adjustment may be allowed at renewal if requested at least thirty (30) days before expiration, correlated with the Consumer Price Index published by the Bureau of Labor Statistics (baseline index = the month in which the Bid opened). The allowable percent change is calculated by comparing the baseline index to the index at renewal, rounded to the nearest hundredth of one percent, capped at 5% increase per renewal period unless the City approves a greater increase at its discretion. The Successful Bidder may offer price decreases in excess of the allowable percent change.

C. ACCEPTANCE/INSPECTION

Acceptance inspection should not take more than five (5) working days; the Successful Bidder will be notified within that timeframe of any non-compliance and shall reperform services to specification at no additional cost. If an agreement or purchase order is cancelled for non-acceptance, the City may contract with another Bidder, and the Successful Bidder waives any right to payment for the unaccepted work

D. CITY ORDINANCE ON ENVIROMENTAL PROTECTION

The City has adopted a Storm Water Management Program and Illicit Discharge Ordinance (Code of Ordinances Section 13.30) to manage MS4 discharges in compliance with TCEQ/TPDES requirements. Successful Bidder shall comply with stormwater control measures, good housekeeping practices, facility-specific procedures, and applicable TMDL/IPlan requirements, and agrees to meet updated standards as ordinances evolve.

Bidder understands that these Ordinances or regulations might be updated from time to time and agrees to work with the City to meet any new standards.

E. COMPLIANCE WITH ALL SAFETY AND ENVIRONMENTAL REQUIREMENTS

For Services performed on City premises or public rights of way, the Vendor, subcontractors, and their employees shall comply fully with all applicable health, safety, and environmental laws, ordinances, and regulations, including OSHA; the most stringent requirement governs in case of conflict. Vendor shall defend, indemnify, and hold the City harmless from claims arising from breach of this obligation.

F. PERFORMANCE REVIEW

The City reserves the right to review the Successful Bidders' performance anytime during the contract term.

G. PLACE AND CONDITIONS OF WORK, ACCESS TO SITE

The City shall provide the Vendor access to work sites as required for timely, efficient performance, subject to applicable security laws and regulations. The Vendor acknowledges it has satisfied itself as to site conditions and requirements affecting performance, and shall promptly notify the City if actual conditions differ from expected, or else release and hold the City harmless from related claims.

H. STOP WORK NOTICE

The City may issue an immediate Stop Work Notice if the Vendor is performing in violation of applicable guidelines or in a manner unsafe to life or property. The Vendor shall cease all work until notified the violation or unsafe condition is corrected and is liable for costs incurred by the City as a result.

I. SUBCONTRACTORS

If the Successful Bidder utilizes Subcontractors in providing the services under the Agreement, the Bidder shall be fully responsible to the City for all acts and omissions of the Subcontractors just as the Bidder is responsible for the Successful Bidder's own acts and omissions. The Successful Bidder shall:

1. Require that all deliverables to be provided by the Subcontractor be provided in strict accordance with the provisions, specifications and terms of the Agreement;
2. Prohibit the Subcontractor from further subcontracting any portion of the Agreement without the prior written consent of the City and the Successful Bidder.
   The City may require, as a condition to such further subcontracting, that the Subcontractor post a payment bond in form, substance and amount acceptable to the City;
3. Require Subcontractors to submit all invoices and applications for payments, including any claims for additional payments, damages or otherwise, to the Successful Bidder in sufficient time to enable the Successful Bidder to include same with its invoice or application for payment to the City in accordance with the terms of the Agreement;
4. Require that all Subcontractors obtain and maintain, throughout the term of their contract, insurance in the type and amounts specified for the Successful Bidder, with the City being a named insured as its interest shall appear, and a waiver of Subrogation in favor of the City;
5. Require that the Subcontractor indemnify and hold the City harmless to the same extent as the Successful Bidder is required to indemnify the City; and
6. Shall pay each Subcontractor its appropriate share of payments made to the Successful Bidder not later than ten (10) calendar days after receipt of payment from the City

J. WARRANTY OF SERVICES

Vendor warrants and represents that all Services to be provided to the City under the Agreement will be fully and timely performed in good and workmanlike manner in accordance with generally accepted industry standards and practices, the terms, conditions and covenants of the Agreement and all applicable Federal, State and local laws, rules or regulations. This warranty may not be limited, excluded or disclaimed and any attempt to do so will be without force or effect. Unless otherwise specified, the warranty period shall be a minimum of one year from acceptance by the City of Services. In the event any applicable warranty is breached, the Vendor shall promptly

upon receipt of demand of performance, perform the Services again in accordance with the above standard at no additional costs to the City. All costs incidental to such additional performance shall be borne solely by the Vendor. The City shall endeavor to give the Vendor written notice of the breach of warranty within thirty (30) calendar days of discovery of the breach of warranty, but failure to give timely notice shall not impair the City's rights under this section.

In the event the Vendor is unable or unwilling to perform the Services in accordance with the above standards as required by the City, then in addition to any other available remedy, the City may reduce the scope of Services originally required to purchase from the Vendor under the Agreement and procure conforming Services from other sources. In such event, the Vendor shall pay the City upon demand the increased cost, if any, incurred by the city to procure such services from an alternative source.

K. <u>WORKFORCE</u>

Successful Bidder shall:

1. Ensure Successful Bidder 's employees perform the services in a timely, professional and efficient manner;
2. Ensure Successful Bidder's employees, while working on City property or Public Right of Way, wear a company uniform that clearly identifies them as the Successful Bidder's employee;
3. Employ all personnel for work in accordance with the requirements set forth by the United States Department of Labor. The City reserves the right to verify citizenship or right to work in the United States.
4. Successful Bidder shall employ only orderly and competent workers, skilled in the performance of the services which they will perform under the Agreement.
5. Successful Bidder, its employees, subcontractors, and subcontractor's employees while engaged in participating in the Solicitation or while in the course and scope of delivering services under the Agreement may not use or possess alcoholic or other intoxicating beverages, illegal drugs or controlled substances, nor may such workers be intoxicated or under the influence of alcohol or drugs while on the job.
6. If the City or City's representative notifies the Successful Bidder that any worker is incompetent, disorderly, disobedient, or has knowingly or repeatedly violated safety regulations or has possessed or was under the influence of alcohol or drugs on the job, the Successful Bidder shall immediately remove such worker from the City property and may not employ such worker again to perform City services again without the City's prior consent.

L. <u>SAFETY PRECAUTIONS AND SAFEGUARDS</u>

The successful Bidder shall adhere to safe work practices as adopted by the City and prescribed by the APPA Safety Manual 17th edition or its successor, are particularly described in the area of personal protective gear including FR clothing, rubber protective gear, face and body protective gear, arc energy calculations, confined space procedures and minimum approach distances. Safety precautions at the site are a part of the construction techniques and processes for which the successful Bidder shall be solely responsible, including but not limited to, handling and use of hazardous materials or waste, and informing employees of any such hazardous materials or waste. The successful Bidder shall provide copies of all hazardous materials and waste data sheets to the Georgetown Fire Department marked "Attn.: Assistant Chief". The successful Bidder has the sole obligation to protect or warn any individual of potential hazards created by the performance of the work specified in this Bid. The successful Bidder shall, at its own expense, take such precautionary measures for the protection of persons, property, and the work as may be necessary. The successful Bidder shall be held responsible for all damages to property, personal injuries and/or death due to failure of safety devices of any type or nature that may be required to protect or warn any individual of potential hazards created by the performance of the work specified in this Bid; and when any property damage is incurred, the damaged portion

shall immediately be replaced or compensated for by the successful Bidder at its own cost and expense.

Protection for employees and others per current "OSHA" guidelines must be provided at all times. Construction work requires specific attention to the following:

- Personnel protective equipment
- Traffic control and personal protective gear when working adjacent to streets and roadways
- Hot line tags or one-shots in place for employee protection
- Proper equipment and cover-up utilized at all times and/or
- Correctly trained, experienced and licensed personnel performing tasks

All work shall be planned and conducted to adequately safeguard all persons and property from injury, and shall provide warning devices and equipment such as signs, lights, flares, reflectors, flagmen, and any other facilities which may be required. Performance of work shall be directed to insure compliance with reasonable safety regulations including but not limited to "occupational safety and health standards" promulgated by the U.S. Secretary of Labor. The work shall also comply with all local governmental building permit provisions.

M. TRENCH SAFETY

The successful Bidder must comply with the requirements of Texas Health & Safety Code Ann. §756.022-023 (Vernon 1992), as amended, and the requirements of 29 C.F.R., Sections 1926.650 through 1926.653 inclusive, "Excavation, Trenching and Shoring," of the Occupational Safety and Health Administration Standards, as amended. The successful Bidder must include a separate pay item for trench safety complying with trench safety requirements, stating a unit price per linear foot of trench safety systems, as measured along the centerline of trench including manholes and other line structures. Before beginning work on any project, the successful Bidder must submit to the City a complete trench safety program that complies with state and federal regulations. It is the sole duty, responsibility, and prerogative of the successful Bidder, not the City, to determine the specific applicability of the designed trench safety systems to each field condition encountered on the project. The successful Bidder must provide the City the name of the "competent person" required by OSHA standards to perform the trench safety inspections.

The successful Bidder must make daily inspections to ensure that the systems comply with all applicable laws and regulations and must maintain a permanent record of daily inspections available for examination by the City or other government authority. If evidence of possible cave-ins or slides is apparent, the successful Bidder must cease all work in the trench and surrounding area until the necessary precautions have been taken to safeguard personnel entering the trench.

N. PERMITS AND LICENSES

The successful Bidder shall secure and pay for all necessary permits and licenses, governmental fees, and inspections necessary for the proper execution and completion of the work. During the term and any subsequent renewal term during which the successful Bidder is working, the successful Bidder shall give all notices and comply with all laws, ordinances, rules, regulations, and lawful orders of any public authority bearing on the performance of the work.

O. ABANDONMENT

In the event the successful Bidder abandons, fails, or refuses to resume work after written notification or if the successful Bidder fails to comply with the instructions of City Representative when such instructions are consistent with this Bid and any resulting agreement, then the surety on the bond shall be notified in writing and directed to complete the work, and a copy of said notice shall be delivered to the successful Bidder. After receipt of written notice of abandonment, the successful Bidder shall not remove any machinery, equipment, tools, materials, or supplies on the work site; the same may be held for use on the work by the City or the surety of the successful Bidder, or any third party contracted, in completion of the work. The successful Bidder shall not receive any rental or credit (except when used in connection with extra work). If the use

of such equipment and materials will ultimately reduce the cost to complete the work, that reduction shall be reflected in the final settlement.

P. ADDITIONAL ASSEMBLY UNITS

The City reserves the right to add additional Underground Assembly Units, Hourly Rate categories, or other pricing units to this Contract as needed during the Contract term, including any renewal period, when the need for a construction unit not originally priced in this Bid arises. Pricing for any such additional unit shall be established by written agreement between COG and the Contractor prior to the unit's use, consistent with the pricing methodology and unit cost structure of this Contract,and shall be incorporated into the Contract by written change order or contract amendment executed by both parties. Addition of units under this provision does not require re-solicitation of the Contract and does not obligate the City to purchase any minimum quantity of the added unit.

VI. SPECIFICATIONS

The City of Georgetown ("City"), Georgetown Electric Utility Systems, is seeking bids from contractors experienced in providing supplemental labor and equipment on an as-needed basis for Electric Underground Construction and Maintenance Services for the City of Georgetown (COG) electric distribution system, operating at 7.2/12.47 kV and 14.4/24.9 kV.

A. GENERAL:

Services include energized and de-energized construction, re-conductor, rehabilitation, replacement, and retirement of underground distribution facilities, including but not limited to: new feeder and lateral line additions; underground extensions to new customers; placement of primary, secondary, and service conductors; pad-mounted transformers; pedestals; terminations on poles, pull vaults, manholes, and pad-mounted equipment; switch, protective equipment, and sectionalizing device installations; capacitors and automation devices; street light and guard light installations; equipment replacement or relocations; transfer of any other COG facilities; and all connections, jumpers, and similar construction needed for the installation, removal, or transfer of lines and facilities. All work shall be performed in accordance with COG Electric and Distribution Construction Specifications and design criteria.

.

Services will be issued by City Project Coordinators when the need for supplemental labor is determined. Bids are requested on both an assembly unit and an hourly unit basis. The City requires that the specified construction services be performed on an assembly unit basis whenever practical. However, the City recognizes that specifications for certain construction projects may make strictly specifying construction assembly units difficult, and the City allows construction services to be performed on an hourly unit rate basis for labor and equipment where appropriate. The City reserves the sole right to designate which construction services shall be performed on a unit basis and which shall be performed on an hourly rate basis. All work performed on an hourly rate basis must be approved in advance, in writing, by the City prior to commencement of construction.

The City also requests man-hour units to construct each unit and a man-hour cost for each unit. The man-hour unit will be used to schedule manpower as needed for project completions. In other instances, due to project timeline, size, scope, or cost, the City may elect to bid certain projects separately. The Contractor may bid on separately advertised projects.

In most instances, one (1) common unit price is requested for similar 12.5 kV and 24.9 kV assembly units. The City is currently in the process of changing the voltage level of a majority of its distribution system from 12.5 kV to 24.9 kV. In some new construction projects, 24.9 kV insulation will be utilized regardless of current operating voltage. Unit prices shall be the same regardless of current operating voltage level (12.5 kV or 24.9 kV).

B. BOND REQUIREMENTS

1. Payment Bond – The contractor shall provide a payment bond in an initial amount of $1,000,000 annually, within 14 calendar days after notification of award, increased if annual work exceeds $1,000,000 in any one year. The bond secures faithful payment of the contractor's obligations for subcontractors, work, labor, equipment, supplies, and materials, issued by a solvent company authorized to do business in Texas, with reinsurance required for any portion of risk exceeding 10% of the surety's capital and surplus.
2. For bonds exceeding $100,000.00, the surety must also hold a certificate of authority from the U.S. Secretary of the Treasury or have obtained qualifying reinsurance. The payment bond remains in effect throughout the Contract term and each renewal.
3. Performance Bond – The contractor shall provide a performance bond on the same terms, amounts, and renewal basis as the payment bond, securing faithful performance of all contractor obligations under the Contract

C. BIDDER REQUIREMENTS AND QUALIFICATIONS

To be considered qualified, the Bidder must demonstrate:

1. **Experience** – Bidder must be a Company that has been in the Underground Construction and Maintenance of Electric Distribution Lines business for a minimum of two (2) years. Bidder shall provide the number of years Bidder has been in the Underground Construction and maintenance of Electric Distribution Lines business on the Bidder's Information Form (Attachment C).
2. **Organization** – Bidder must have the financial and organizational capacity to carry out multiple projects, simultaneously for emergency and non-emergency calls.
3. **Staffing and Equipment** – Has sufficient staffing and vehicles in order to provide service at more than one location simultaneously, if requested.
4. **Technical Knowledge** – Has technical knowledge and practical experience in the work types specified, including both and underground distribution construction and maintenance.
5. **Safety Program** – Has an on-going safety program that complies with all applicable state and federal laws.
6. **Financial Status -** Has adequate financial status to meet the financial obligations incident to the work.
7. **No Pending Claims** – Has no just or proper claims pending against it or its work.
8. **Confined and Restricted Area Experience** –Experience working in confined areas near fences, utility poles, guy lines, underground electrical lines, cable TV, gas lines/meters, sewer manholes, and clean-outs.

These qualifications shall be demonstrated per the Contractor Experience and Qualifications forms, including for any subcontractors; failure to submit this evidence is just cause for disqualification.

D. FIELD ORGANIZATION AND EQUIPMENT

1. Bidder shall submit an organizational chart naming field management, supervisory, and technical personnel, with a Statement of Qualification for each; COG may select required personnel for crews and Bidder must respond to COG requests about personnel within 72 hours, including applicable licenses/testing status.

2. Equipment – Bidder shall submit specifications describing all proposed equipment, per Attachment E.
3. Local Conditions – Bidder shall visit the COG service area and familiarize itself with all conditions affecting work prosecution, labor availability/cost, and transportation/handling/storage facilities; no claims for financial adjustment based on lack of such investigation will be permitted.

E. DEFINITIONS

1. Acceptance by the City – The status whereas the City's Project Coordinator or Authorized Representative has reviewed and approved of all activities outlined with the scope of the project. This also begins the warranty period for one (1) year following the completion.
2. Assembly Units – Defined symbols and descriptions representing a combination of parts forming a unitized group of materials for installation or removal. The Bid is made on a unit basis;. Unit labor prices are applicable to work performed on de-energized lines unless otherwise noted.
3. City Representative –The City's designated Project Manager or delegate, who may inspect and issue instructions but does not directly supervise the contractor.
4. Confined Space Labor Units –Work performed in a manhole, vault, or pull-box with energized underground electric cable in excess of 600 volts phase to phase, or requiring special apparatus for air quality, rescue, or permitted entry. Pad-mounted transformers, switchgear, and junction boxes are not confined space construction unless the City qualifies them as such prior to construction.
5. Construction Units –Defined symbols and descriptions serving as a combination of parts forming a unitized group of materials for installation or removal, applicable to work on de-energized lines.
6. Current City of Georgetown Utility System Electric Construction Standards and Service Requirements –The current construction and service delivery standards by which the contractor makes installations and removals; provided at the first project and updated as specifications change.
7. Final Completion / Finally Complete –. All specified work completed per specifications and instructions, all punch list items satisfactorily addressed, all payments to material men/subcontractors completed, and all documentation, warranties, and closeout documents reviewed, approved, and executed by the City.
8. Hot Labor Unit or Hot Line Adder Units –A percentage or flat dollar amount added to standard construction units for additional labor cost and/or precautionary cover-up when working at the level of energized conductors, used only where applicable
9. Notice to Proceed –. Verbal or written communication from the Project Coordinator or Authorized City Representative releasing the contractor to begin construction, provided with prints, staking sheets, and material listings.
10. Projects – Construction activities for installations and removals modifying the City's Electric System.
11. Staking Sheets – Written or symbolized instructions on a construction print or separate document conveying activities for construction..
12. Storm Support – Restoration support and back-up services provided by the contractor during inclement weather events, priced per bid specifications and FEMA regulations, with City-defined conditions and requirements.
13. Substantial Completion or Substantially Complete – The City Representative's determination that the Project, including all systems and improvements, is in a condition to serve its intended purpose, potentially with minor remaining work; final payment is withheld until Final Completion.
14. System Control – The group responsible for operation and control of the City's Electric System, including outage notification, SCADA events, power quality events, feeder

holds, and hot line tags.

F. TIME AND MANNER OF WORK

The contractor must be prepared to commence construction of individual projects within thirty (30) calendar days from date of award and adhere to the City-defined construction schedule. At the time of the work order form, the City will provide:.

1. Staking Sheets, to include location and number of the various Construction Units required
2. An itemized materials list and authorization to obtain such materials from the City's material vendor warehouse;
3. Specific instructions regarding work to be performed on energized lines, if any.

G. WEATHER CONDITIONS

Contractor will not be required to, install underground conduit, dig trenches, or perform construction on days when, in the City's judgment, snow, rain, wind, or their effects make operations impracticable. Completion time will be extended for weather delays approved in writing by the City, or for other delays beyond the contractor's control (acts of God, fires, floods, inability to obtain materials, City direction to cease construction, or City acts/omissions), provided the contractor gives written notice within ten (10) days of the event. No such delay results in additional liability to the City unless directly caused by a City act or omission

H. PROTECTION TO PERSONS AND PROPERTY

1. The successful bidder shall at no time and under no circumstances cause or permit any employee to perform any work upon energized lines, that are not qualified to do so.
2. The successful bidder shall so conduct construction so as to cause the least possible obstruction of public highways.
3. The successful bidder shall provide and maintain all guards and other protection for the public required by applicable statutes, ordinances, regulations, local conditions or safe operating standards.
4. The successful bidder shall protect all parallel, converging, and intersecting lines, joint line poles, highways, and other property from damage, and shall restore any damaged property at its own expense to as good a state as before the damage..
5. Where a right-of-way traverses cultivated lands, the successful bidder shall limit crew/equipment movement to minimize damage to crops, orchards, or property, replace opened fences, and prevent livestock escape. The successful bidder is responsible for all damage to livestock caused by construction, and for other property damage not necessarily incident to construction or caused by negligence.
6. Excess earth, rock, debris, underbrush, and other useless materials shall be removed and properly disposed of as rapidly as practicable.
7. The successful bidder shall submit accident reports to the City as prescribed.
8. The successful bidder shall not cut trees or clear right-of-way without written City notification of proper landowner authorization, and shall promptly notify the City of any landowner objection, obtaining written City consent before proceeding.

I. ENERGIZED CONSTRUCTION

Energized construction is any work performed directly on energized electric line conductors, or at or above the level of energized electric line phase conductors (in excess of 600 volts phase to phase). It shall be assumed that all work under this Contract may be performed on energized lines, and all unit prices shall reflect that requirement.

Underground assembly units shall be treated as de-energized except where required to connect to or disconnect from an energized phase using insulated protective equipment (e.g., fuse, load-break elbow, insulated protective cap), which shall be considered hot when connected to an energized line.

The Successful Bidder may request in writing from the City Representative permission to de-energize portions of facilities to perform prescribed work more efficiently or safely, with the understanding that such request may not be approved.

J. CONFINED SPACE CONSTRUCTION

Any work performed in a manhole or pull-box with energized underground electric cable in excess of 600 volts phase to phase constitutes confined space construction. Pad-mounted transformers, switchgear, junction boxes, and other pad-mounted equipment are not confined space construction unless the City qualifies the equipment as such prior to construction. Installed assembly units required to be in a confined space shall use the appropriate Confined Space labor unit; underground unit labor prices apply to de-energized, non-confined work, and the appropriate HOT labor unit applies to energized underground cable per City instruction.

K. ENERGIZING THE PROJECT

Prior to Final Completion, the successful bidder shall energize new construction to verify connections, voltage, and material integrity, notifying the City Representative in advance so City personnel may observe, and notifying System Control to apply circuit holds and hot line tags as required. After energizing and completing checks, the successful bidder shall report findings to the City Representative, who will notify the successful bidder of status upon final acceptance. The successful bidder may temporarily energize portions of the project for verification/testing upon written notice and approval, with all required System Control and other City notifications completed.

L. HOURS OF WORK

1. Normal work hours are Monday through Friday, 7 a.m. to 6 p.m., excluding weekends and legal holidays. Work outside these hours requires advance written City Representative approval and is paid at 1½ unit costs or hourly rate unless otherwise approved. The Substantial Completion timeline is unaffected by work occurring outside normal hours.
2. The straight-time hourly rate applies to eight (8) hours per day / forty (40) hours per week. Overtime rates apply for hours worked before 7:30 a.m., on Saturdays, Sundays, holidays, and hours exceeding 40/week. Hourly jobs must be agreed upon in writing with COG's authorized representative.
3. Successful Bidder shall not charge the City for portal-to-portal transit time, servicing, fueling, pre-operation checks, or equipment down time — these occur on the successful bidder's own time, at no additional charge.

M. STORM SUPPORT

Storm Support means restoration support and backup services provided during inclement weather events, including but not limited to ice, wind, or severe weather storms.

1. **Availability**. Successful Bidder shall be available for Storm Support at any time as required, continuous with other performance obligations and not limited to normal work hours.
2. **First Right of Refusal**. During any declared storm event, the City has first right of refusal over the Successful Bidder's crews and equipment; no release to another utility or third party without the City's explicit written authorization.
3. **Crew Retention During Storm Events**. Once activated crews shall remain on the City's system for the full duration of the storm event or declared.
4. **Crew Release Request**. Any request to release crews to another entity requires written submission to, and sole approval by, the City Representative, who may limit crew numbers or absence duration.

5. **Communication**. Successful Bidder shall maintain continuous contact with the City Representative during storm events; the City is not obligated to compensate for standby/waiting time unless approved in writing, but the Successful Bidder must remain accessible throughout.
6. **FEMA Compliance**. Storm Support work shall follow FEMA Disaster Assistance Policy DAP9580.6 (Electric Utility Repair); the City Representative may direct hourly-basis billing where overtime/emergency rates apply.
7. **Pricing**. Storm Support pricing follows bid specifications and applicable FEMA regulations; hourly equipment and labor rates in this bid are firm for Storm Support for the Contract duration.

N. SCHEDULING

The City will notify by phone or email; Successful Bidder shall respond within twenty-four (24) hours. A written estimate is due within 24 hours for simple/small jobs not requiring a site visit, or 48 hours for more complex jobs requiring site verification. Work shall begin within five (5) days of the original service request and complete within the estimated time, unless otherwise agreed. All work is assigned via a job order containing scope, timelines, and relevant details, with a completion section for the Contractor.

O. INVOICING

Contractor invoices must reference COG job, task order, and purchase order numbers, with an itemized statement of work submitted to the City Representative for certification prior to payment. All billed units are subject to City review and verification; invoices without required as-built prints will not be processed until as-builts are received. For phased projects, the Successful Bidder may invoice at the end of each phase, subject to pre-acceptance of that phase.

P. NATURE OF THE WORK

Bidder understands and agrees that bidder has, by careful examination, satisfied itself as to the nature and location of the work, the confirmation of the ground and soil, the nature of any structures, the character, quality, and quantity of the material to be utilized, the character of equipment and facilities needed for and during the prosecution of the work, the time needed to complete the work, bidder's ability to meet all deadlines and schedules required, the general and local conditions, and all other matters that in any way affect the work described in this Bid. However, the successful bidder shall not perform any act or do any work on the Project/s that places the safety of persons at risk or potentially damages materials or equipment used in the Project/s, and the successful bidder shall do nothing that would render any test or tests erroneous.

Q. WORK STOPPAGE

If work or materials are not in strict accordance with this Bid, or work creates a hazardous condition, the City may order work wholly or partially stopped until the objectionable person, work, or material is removed. Such stoppage does not invalidate the successful bidder's performance obligations (including deadlines), and no extra charge is allowed as a result.

R. SITE CONDITIONS AND MANAGEMENT

The successful bidder shall verify site conditions (including door openings and passages) around existing structures and provide special apparatus as necessary for off-site constructed/manufactured items, at its own expense unless otherwise defined in a pre-construction meeting. The successful bidder shall keep the work area free of debris throughout the project and leave the premises clean and finished upon completion, or the City may remedy and charge back the cost.

S. LAYOUT OF WORK

Except as specifically provided, the successful bidder shall lay out all work per applicable City codes and ordinances, acceptable to the City Representative, who will review the layout at the construction meeting or upon request — without relieving the successful bidder of responsibility for accurate location per the plans and specifications.

T. LINES AND GRADES

The City Representative shall furnish all lines and grades necessary for the work; the successful bidder shall suspend work as necessary to permit this and receive no extra compensation, giving ample advance notice of when lines and grades are needed. Benchmarks and control stakes provided by the City Representative shall be carefully preserved by the successful bidder, who shall replace any destroyed or removed at its own expense (or the City may do so and charge back the cost). Additional construction staking is the successful bidder's sole responsibility, with no extra time or compensation.

U. UNDERGROUND UTILITIES

The successful bidder is responsible for locating all underground utilities via utility location service, spot digging as required, and coordinating with other utility owners **MATERIAL**

All work and materials shall strictly conform to this Bid and recognized industry standards; materials and supplies shall be new and of good quality, with no refurbished, reconditioned, or previously used materials without prior written City authorization. Substitutes of equal quality/function require prior written City authorization, and the City has sole discretion over their use; proof of quality/manufacturer may be required upon request.

The Contractor shall dispose of all transformers, conductors, materials, and related equipment removed from any project at areas designated by COG's Electric Material Vendor, with all equipment, hardware, and wire stripped and returned to COG's Electric Material Vendor for proper disposal; disposal costs are included in unit prices.

V. CITY SUPPLIED MATERIAL

Materials supplied by the City are available at T.E.C., 100 Cooperative Way, Georgetown TX 78626, and/or the Georgetown Municipal Complex, 300-1 Industrial Avenue, Georgetown, Texas 78626, between 8:00 a.m. and 4:00 p.m., or at an agreed pickup time, on regular workdays (or per the Work Order Form for remote warehouse locations). The Successful Bidder is responsible for pickup, shall initial for materials received, and thereafter is responsible for proper handling, transport, storage, and safeguarding, including repair, repaint, or replacement of any damaged or stolen materials. Before transporting City materials, the Successful Bidder shall establish sufficient insurance coverage to the City's satisfaction. The Successful Bidder shall return unused/removed materials and reimburse the City at current invoice cost for any loss or breakage due to its negligence. Non-City-provided materials are subject to City approval prior to purchase, and no refurbished/reconditioned materials are permitted without prior written authorization.

W. REJECTED WORK

The City may reject any work not conforming to specifications, at its sole discretion, regardless of completion stage, time/place of discovery, or prior acceptance through oversight; City inspections/approvals do not relieve the successful bidder's obligation to perform per this Bid. Remedial action for rejected work is at the successful bidder's expense:

1. the successful bidder may be required to remedy and immediately replace rejected work/materials; or
2. the City may contract to correct the damage/errors and deduct all costs from amounts due,

at its sole discretion.

X. TIME OF COMPLETION

Prior to commencing a project, the Substantial Completion date shall be determined by the City Representative with the Successful Bidder's concurrence. Project work is issued at a pre-construction meeting with a Work Order Form and construction package; easement/permit issues and long-delivery material items not yet in the City's possession shall be identified at that meeting, and the Successful Bidder shall indicate whether such issues could cause delay. Work commences on the date in the Notice to Proceed and shall be Substantially Completed within the allotted time; Final Completion and invoicing readiness must occur within thirty (30) calendar days of Substantial Completion. The City may phase work to address service/load demands, with phase-end invoicing permitted.

Y. SUBSTANTIAL COMPLETION

The successful bidder shall notify the City Representative when a project or phase is, in its opinion, Substantially Complete; the City Representative's inspection and as-built print accuracy determine this in its sole judgment. If not Substantially Complete, the successful bidder must complete outstanding items per a final punch list referencing current Electric Construction Standards. Upon determination of Substantial Completion, the successful bidder shall invoice with as-built prints; Substantial Completion does not excuse performance of remaining work. Payment is not processed until as-built prints are received.

Z. FINAL COMPLETION

The successful bidder shall notify the City Representative upon reaching Final Completion; if the City concurs, it will notify the successful bidder of acceptance. Acceptance of an itemized invoice and City Representative certification constitutes acceptance of work performed. The successful bidder shall procure and submit all required government certificates of acceptance/completion; the City may withhold payment pending these. Payment/acceptance does not relieve the successful bidder of responsibility for faulty workmanship or materials, and the City may require remedy of defects or damage appearing after final acceptance.

AA. RESPONSIBILITIES OF THE CITY

1. The City is responsible for issuing projects with all pertinent information, including construction prints, staking sheets/work instructions, executed easements/permits, and materials received and ready for issue.

2. The City will define project scope and other important construction details at a pre-construction meeting.

3. The City will provide information on existing conditions, host contractor provisions, job briefing, system characteristics, design information, confined/enclosed space details, minimum approach distance, exposure to flame/arc hazards, incident energy estimates, automatic reclose devices, additional power sources (back feed), protective ground capacity, hazardous potential transfer, and whether overhead structures can support imposed work stresses.

4. The City and successful bidder shall coordinate work rules and procedures for employee protection; the City may consider, but is not obligated to accept, alternate construction method suggestions.

5. The City will provide a proposed construction schedule and Notice to Proceed via signed work order form (Attachment H) once conditions are met and the successful bidder has agreed to scope and completion time.

BB. RESPONSIBILITIES OF SUCCESSFUL BIDDER

All work shall be performed per the latest Georgetown Electric Utility Systems Electric Construction Specifications. The Successful Bidder is additionally responsible for:

1. Verifying installed material quantities match estimates and returning unused/removed materials as directed;
2. Providing all materials/equipment not supplied by the City per the Work Order Form;
3. Utilizing confined space procedures wherever applicable;
4. Adhering to all City work rules and procedures;
5. Requesting any pertinent safety information not disclosed in the pre-construction meeting or otherwise provided;
6. Promptly correcting any improper installation or failure during the warranty period;
7. Securing utility locates prior to digging and following other utility providers' excavation requirements;
8. Promptly and accurately invoicing for all labor units on each project, subject to review;
9. Removal of any vegetation within 10 feet of the open side of switching cabinets and transformers; and
10. Adherence to all applicable traffic control, street closure, and right-of-way requirements per Section D.2.i (Traffic Control and Street Closures) of these Specifications.

CC. TECHNICAL SPECIFICATIONS

The following technical specifications shall apply unless otherwise noted on the project plan prints, staking sheets, or Work Order Form. All construction work shall be done in accordance with the staking sheets, plans and specifications, and the construction drawings. The 2023 or latest edition of the National Electrical Safety Code (NESC) shall be followed except where local regulations are more stringent, in which case local regulations shall govern.

1. UNDERGROUND DISTRIBUTION

a. Pull Line

Pulling calculations assume proper use of cable pulling lubricant, which is required. Maximum pulling speed for line/cable into conduit with sweeps or bends using a steel pull rope: 200 ft/min at tensions ≤500 lbs; 100 ft/min at 500–1,000 lbs; 60 ft/min at 1,000–4,000 lbs; 30 ft/min above 4,000 lbs.

b. Underground Medium Voltage Power Cable

All work shall be done in a thorough, workmanlike manner per the staking sheets, plans, specifications, and construction drawings. Cable shall be handled carefully, never dragged across the ground, fences, or sharp projections, with ends sealed against moisture and terminated/sealed immediately after cutting. Minimum bending radius: 12x overall diameter for primary cable, 6x for secondary/service cable; no bends within 6 inches of a cable terminal base. Conduit/duct shall be prepped with lubricant before pulling. Maximum pulling strain for primary cables shall not exceed 0.006x circular mil area (aluminum) or 0.008x (copper) with a pulling eye, or the lesser of that value or 1,000 lbs with a basket grip — cable under the grip and the preceding foot shall be discarded after pulling. Pulled cable shall be identified with permanent-type tags (embossing-type tape writer; paper/cloth tags unacceptable), with City-provided identification numbers. All personnel terminating/splicing primary cable must be certified on medium-voltage-rated cable; prefabricated terminations follow manufacturer instructions, with portable covering/shelter used during

splice/termination preparation to protect insulating surfaces from weather. A cable acceptance test may be required as part of the job scope, with method, duration, and acceptance ratings outlined prior to job start.

c. **Pad-Mounted Transformer Units**
A pad-mounted transformer assembly unit consists of installing the pad-mounted transformer, warning sign, over-current protective devices, wildlife protection, grounding loop, and hardware/leads/connectors — excluding pad installation, drainable material, backfilling, compaction, or site preparation (covered under pad assembly units). G prefix denotes a City of Georgetown unit. Transformers may be rated 7.2 kV, 14.4 kV, or dual voltage (VG single primary voltage; DVG dual primary voltage per construction drawings). Secondary voltage designations: 10 = 120/240; 12 = 120/208; 21 = 277/480; 14 = 120/240 3-phase. Unit price includes crane rental as necessary.

d. **Conduit Units**
Cover installation of single or multiple conduits, excluding trench/backfill (covered elsewhere). Billed by conduit footage measured between staking or termination points, including pull tape installation and mandrelling as required.

e. **Trenching Units**
Accommodate conduit installation with at least 3 inches of compacted "F" fill gravel/sand underneath and 6 inches compacted above, backfilled/compacted to 95% standard density to grade, with caution tape 2 feet below grade in the last 6 inches of backfill, and cleanup of adjacent streets/roadways from spoil and tracked dirt. All trench/boring installations include required erosion control. Trench units = one lineal foot of trenching (rock or dirt, specified depth x width in inches), measured parallel to ground surface; changing a dirt-specified unit to rock requires project coordinator permission. Trench Hand Digging units cover hand digging around existing utilities/shrubbery and repair/replacement of damaged fences/property, measured per cubic foot. Trench Bedding units = one lineal foot of 3-inch clean "F" fill gravel/sand bed under the conduit plus a 6-inch layer over it, to trench width, not to exceed total trench lineal footage.

f. **Boring Units**
Conventional Bore units bill per lineal foot of steel crossing pipe (min. 1/2-inch wall) installed via conventional bore, including excavation/backfill of bore and receiving pits, pressure grouting, spoil hauling/disposal, tamping, and surface/landscape/paving/curb/sidewalk restoration; casing pipe depth is specified/inspected by the City, with an adder for pit depth exceeding five (5) feet (BOREPITADDERD for dirt, BOREPITADDERR for rock). Trenchless/Directional Bore units cover boring for a single PVC or steel conduit with pull tape over a specified distance, including excavation/backfill, spoil hauling/disposal, tamping, and surface restoration; bore depth is specified/inspected by the City, with the same pit depth adder applying.

g. **Underground Cable Assembly Units**
Cover installation of 1,000 feet of cable(s) in conduit for underground primaries, secondaries, street lighting, or services. The Contractor and City shall jointly perform cable acceptance tests using City-furnished test equipment; compensation is computed using the distance between stakes paralleling the cable. The conductor removal unit covers removal of 1,000 feet of conductor/cable, reeled or coiled for reuse, returned to the City's warehouse or a designated disposal location.

h. **Underground Secondary and Service Units**

An underground secondary connector block unit covers installation of the secondary connector block in a pull box, pedestal, or transformer secondary bushings without factory-installed termination. An underground secondary and service assembly unit covers installation of the terminal housing, power pedestal (when required), ground rod, mounting hardware, warning sign, directional marker, housing identification marking, and cable identification tags.

i. Traffic Control and Street Closures

The Successful Bidder shall follow all engineer traffic control directions/guidelines and use a certified traffic control vendor; the City reviews and accepts the traffic control plan per project. Steel plates may be required over trenches/pits for public safety and to maintain vehicle routes. Partial closures of major/collector streets and all closures of local streets/alleys require 72-hour advance notice; complete closures of major/collector streets require 7-day advance notice. Closures shall not occur without required notice except during emergencies.

DD. ASSEMBLY UNIT – UNIT PRICES

A. GENERAL

This Bid is priced on an Assembly Unit Basis. The assembly units used for construction and maintenance of and underground electric distribution are listed in the following sections and associated Attachments. Where descriptions are not sufficiently explicit, or when special units are not covered, COG has provided descriptions in the respective sections.

Assembly Unit Pricing:

1. The unit price is the total cost of the specific unit of work to be billed to COG. Each unit price is a firm price and includes installing complete the specific unit designated, along with all associated costs, , and profit markup. These unit prices will be used for any work performed at the written request of COG. Unless specified in the unit description, COG will supply all material. Unit quantities listed are estimates only, and COG shall be billed only for actual quantities installed.
2. Unit prices shall include all necessary labor, Contractor-furnished equipment, vehicles, tools, supervision, fuel, maintenance, travel time, and any associated expense involved, including digging, loading, unloading, and delivery of Owner-furnished material to or from Owner's material yard to job sites.
3. It shall be assumed that all work performed on this Contract will be on energized lines. All unit prices shall reflect the requirement to perform work on an energized circuit.
4. Unit prices shall reflect work accessible by truck-mounted equipment. In non-accessible work areas, the Contractor shall propose an adder - additional cost that, if accepted by COG, will be added to the unit price. The labor adder for non-accessible work shall include any landscape or fence repair required to restore property to its pre-work condition. Pricing for non-accessible work areas shall be agreed upon prior to starting work with a COG Representative.
5. If construction units for which prices are not established in this proposal are necessary, the prices of such additional units shall be as agreed upon in writing by COG and the Contractor prior to the time of installation. Assembly units not listed in the Contract can be added by written change order for an agreed-upon price.

   Assembly units not listed in the Contract may be added by COG at any time during the Contract term, including any renewal period, as operational needs require, by written change order for a price agreed upon in writing by COG and the Contractor prior to the unit's use. Addition of units under this Section does not require re-solicitation of the

Contract, is not limited to units similar to those already priced, and does not obligate COG to purchase any minimum quantity of any added unit. See also Section V.P (Additional Assembly Units).

B. UNIT PRICE CATEGORIES

The assembly unit categories included in this Contract are:

1. Assembly Units – New Install, Retired, and Relocate (Reference Exhibit I,)
2.. Hourly Rates for Labor and Equipment (Reference Exhibit I,)

C. HOURLY WORK

It is the intent of COG that construction work under this Contract be performed on an assembly unit basis whenever practical. However, the City recognizes that occasions will arise for which it is difficult to strictly specify construction assembly units. In these instances, construction may be performed on an hourly rate basis for workers and equipment. The Contractor agrees to perform construction work on an hourly basis, if required, at the rates specified in Attachment I, TAB 3. It shall be the sole right of COG to designate which construction work is to be performed on a unit basis and which on an hourly rate basis.

The straight-time rate will apply to eight (8) hours per day and/or forty (40) hours per week. Overtime rates will be charged for hours worked prior to 7:30 a.m. on any day, on Saturdays, Sundays, and holidays, and for all hours worked in excess of forty (40) hours per week. Hourly jobs must be agreed upon in writing with COG's authorized representative. Service Truck (Crew) and/or Pickup Truck (Foreman) hourly rates will be paid at the same hours as labor hours on projects. All other equipment will be paid at an hourly rate for the hours used for construction or maintenance purposes only.

VII. EVALUATION AND AWARD OF CONTRACT

Written bids must present Bidder's qualifications and understanding of the work to be performed. Bidders are asked to address each evaluation criteria and to be specific in presenting their qualifications. Bids must be as thorough and detailed as possible so that the City may properly evaluate capabilities to provide the requested services.

The City will award this Contract to the Bidder whose bid is determined to be the best value to the City, considering price and the other evaluation factors included in this Bid. By submission of a bid, the Bidder acknowledges acceptance of the evaluation process, the evaluation criteria, scope of work, approach and methodology, and all other terms and conditions set forth in this Bid. Further, Bidders acknowledge that subjective judgments must be made by the City during this process.

The City reserves the right to make multiple awards as determined to be in its best interest. Awards may be made to two or more qualified contractors to ensure adequate capacity, timely response, and continuity of service.

In addition to its right to make multiple awards to two or more qualified Bidders, the City reserves the right to make a partial award to any single Bidder — accepting only certain unit price categories, assembly units, or portions of the scope of services from that Bidder's Response — without obligation to award the Bidder's full Response or to award any specific dollar volume of work. Any resulting Contract shall apply only to the portions of the Bid actually accepted by the City.

VIII. BID RESPONSE REQUIREMENTS

A. Certification and Acknowledgement Form (Attachment A) - to include company name, mailing address, telephone number, e-mail address and a designated individual along with

respective telephone number and e-mail address who will be responsible for answering all questions related to submitted bid.

B. Bid Form (Attachment B) – All pricing must be completed on Attachment B. Unit pricing documents are attached as Excel spreadsheets. An electronic copy must be completed in Excel and submitted in Excel digital format with bid response, as well as two (2) printed hard copies. All fields on the unit pricing documents must be completed with entries except for the areas shaded in gray. All Construction Units are applicable to work performed on de-energized lines. Hot Line Adder Units are listed in the Construction Unit tables for application with Construction Units that are performed on energized lines at the instruction of the City.

C. Bidder's Information Form (Attachment C) – A summary of bidder's qualifications, including length of time in business; subcontractors proposed (with Attachments C, D, E, F, G and licensing/certification copies for each); and any other information demonstrating capabilities and qualifications.

D. Statement of Experience (Attachment D) – Bidder must demonstrate successful completion within the past five years of a minimum of three electric utility underground distribution line projects, showing this as a primary business focus provided continuously for at least five (5) years, with experience with private and public utilities and storm support, covering:s:
   1. Installation /termination of single and multi-phase underground primary / secondary distribution cables for residential development, including installation of pad mounted transformers sectionalization devices, secondary pedestal and street lighting;
   2. Underground primary conductor replacement through switching, isolation and grounding of existing cables to maintain un-interrupted service;
   3. Installation of multi circuit underground electric distribution main feeder lines in a conduit or duct system with terminations and cable racking in manholes and pull boxes below ground utilizing proper confined space requirements;
   4. Working adjacent to roadways / construction areas requiring traffic or work site control ;
   5. Installation of pad mounted switch, above ground junction box and sectionalization devices;
   6. Storm restoration efforts; and
   7. Project Manager or Superintendent Experience.

E. Available Equipment List (Attachment E) – All equipment listed must be specifically intended for use on City projects, with disclosure of whether owned, leased, or readily available to leas

F. Available Workforce (Attachment F) – A list of available workforce by discipline/craft, crew count, and anticipated employee assignments, all properly trained in safe working practices and participating in documented monthly safety meetings.

G. Reference form (Attachment G) - Name, address, phone, and email for at least three (3) firms of comparable size procuring similar goods/services in the last two (2) years; City of Georgetown references do not count. References may be checked prior to award; negative responses may result in disqualification.

H. Copies of Bidder's required licensing/certifications

I. Documentation of current safety program and records documenting accidents involving personnel or public for the past three (3) years;Acknowledgement of any addenda:

J. posted to the City's Bid Information website, acknowledged by signing and submitting with the bid response.

K. Additional Information Requested

1. Include all discounts the City is entitled to, including those from group purchase contracts such as BuyBoard, US Communities and TXMAS.
2. The following items shall be made available after bid due date, upon request by the City prior to award and the approval of any contract or purchase order.
   - W-9: A completed Department of Treasury Internal Revenue Service Form W-9.
   - Completed and submitted Vendor application.
   - Texas Ethics Commission HB 1295 Certificate of Interested Parties (Form 1295).
   - Copy of certified proof of insurance meeting the insurance requirements in the Attachment
3. AWARD - The City will assess all bid packets to review the bidder's information and ensure compliance with bid requirements. Award of the resulting contract shall be made to the responsible bidder whose bid represents The lowest responsive and responsible bid will be determined by reviewing Qualifications and Experience requirements provided with bid submission and will be given a Pass/Fail status.
4. Low Bid Determination: The lowest bid will be determined by adding the column of "Install Unit Labor Prices" for a "Total Install Unit Labor Price", adding the column of "Remove Unit Labor Prices" for a "Total Remove Unit Labor Price", and then adding the "Total Install Unit Labor Price" to the "Total Remove Unit Labor Price" for a "Grand Total".

POST-AWARD - The City and Successful Bidder may hold a post-award meeting to discuss the transition of services; the City's safety/security requirements, policies, and procedures; designated points of contact for both parties; tentative scheduling; and specific milestones, goals, and strategies to meet objectives.

INSURANCE REQUIREMENTS

A. The Successful Proposer agrees to maintain the types and amounts of insurance required in this Agreement throughout the term of the Agreement. The following insurance policies shall be required:

1. Commercial General Liability
2. Business Automobile Liability
3. Workers' Compensation
4. Professional Liability

B. Each policy shall be primary with respect to the City, its officials, agents, employees, and volunteers, whose own insurance or self-insurance is considered excess and non-contributory. Certificates of Insurance and endorsements shall be furnished at execution of this Agreement and approved by the City before work commences.

C. General Requirements Applicable to All Policiesonly licensed Texas-authorized carriers are accepted; deductibles must be listed and are acceptable only on an occurrence basis; "claims made" policies are not accepted except for Professional Liability; coverage shall not be suspended, voided, canceled, or reduced except after thirty (30) calendar days' prior written notice to the City; certificates must be executed by the insurer or authorized agent and confirm Texas licensure, ISO/Texas State Board of Insurance forms, all required endorsements, and the

specified cancellation notice provisions. The City, its officials, agents, employees, and volunteers shall be listed as Additional Insureds on the Commercial General Liability and Business Automobile Liability policies with no special limitations on protection.

D. Commercial General Liability requirements:

E. carrier rated A:VIII or better (A.M. Best); minimum $1,000,000 per occurrence / $2,000,000 annual aggregate for bodily injury and property damage; at least as broad as ISO CG 00 01; no exclusions without City review/acceptance of individual exclusion attachments; coverage shall not exclude premises/operations, independent contracts, products/completed operations, contractual liability, or (where exposures exist) Explosion, Collapse and Underground coverage; the City shall be Additional Insured with the policy endorsed to waive subrogation and be primary/non-contributory.Business Automobile Liability requirements:

carrier rated A:VIII or better; minimum $1,000,000 combined single limit per occurrence; Symbol 1 shown in the Covered Autos section; coverage for owned, leased/rented, non-owned, any, and hired autos.

F. Workers' Compensation Insurance requirements:

G. per 28 Tex. Admin. Code §110.110, all employees (including subconsultants' employees) must be covered directly or via an executed DWC coverage agreement; Employer's Liability limit of $1,000,000 per accident; Texas Waiver of Our Right to Recover From Others Endorsement (WC 42 03 04) included; Texas must appear in Item 3A, or Item 3C must list all states except those in 3A and NV, ND, OH, WA, WV, and WY.Professional Liability requirements:

1. carrier rated A:VIII or better; minimum $1,000,000 per occurrence / $2,000,000 aggregate, maximum $100,000 deductible, financial statements furnished upon request; for "claims made" policies, a 24-month extended reporting period must be available, with the retroactive date shown on the certificate.

CERTIFICATION REQUIRED BY TEXAS GOVERNMENT CODE

The undersigned makes the following certifications or represents that it satisfies the requirements of one or more exceptions to the Texas Government Code provisions listed below:

1. **Contractor Certification Regarding Boycotting Israel.** Pursuant to Chapter 2271, Texas Government Code, Firm certifies that it (1) is a sole proprietorship or company with fewer than ten (10) employees; **or** (2) does not currently boycott Israel and will not boycott Israel during the term of this Agreement.

   1.1. Exception: This provision only applies to contracts for goods and services between a governmental entity and a Company with ten (10) or more full-time employees with a value of $100,000 or more that is to be paid wholly or partly from public funds of the governmental entity.

2. **Contractor Certification Regarding Business with Certain Countries and Organizations.** Pursuant to Subchapter F, Chapter 2252, Texas Government Code, Firm certifies it (1) is a "Company," as that term is defined in Texas Government Code Section 806.001; and (2) is not engaged in business with Iran, Sudan, a foreign terrorist organization, or any company that is identified on a list prepared and maintained under Texas Government Code Section 806.051, 807.051, or 2252.153.

   2.1. Exception: A company that the United States government affirmatively declares to be excluded from its federal sanctions regime relating to Sudan, its federal sanctions regime relating to Iran, or any federal sanctions regime relating to a foreign terrorist organization is not subject to contract prohibition under this subchapter.

3. **Contractor Certification Regarding Boycotting Energy Companies.** Pursuant to Chapter 2274, Texas Government Code, Firm certifies that either (1) is a sole proprietorship or company with fewer than ten (10) employees; **or** (2) Firm does not currently boycott energy companies and will not boycott energy companies during the Term of this Agreement.

   3.1. Exception: This provision only applies to contracts for goods and services between a governmental entity and a Company with ten (10) or more full-time employees with a value of $100,000 or more that is to be paid wholly or partly from public funds of the governmental entity.

4. **Contractor Certification Regarding Boycotting Firearm and Ammunition Industries.** Pursuant to Chapter 2274, Texas Government Code, Firm certifies that either (1) Contractor is a sole proprietorship or company with fewer than ten (10) employees; **or** (2) Firm does not currently boycott firearm and ammunition industries and will not boycott firearm and ammunition industries during the term of this Agreement.

   4.1. Exception: This provision only applies to contracts for goods and services between a governmental entity and a Company with ten (10) or more full-time employees with a value of $100,000 or more that is to be paid wholly or partly from public funds of the governmental entity.

5. **Contractor Certification Regarding Doing Business in Texas.** Firm certifies that it has not been debarred from doing business in the State of Texas.

Firm acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

For purposes of this form, the terms have the meanings assigned by Texas Government Code sections referenced above.

ATTACHMENT B

BID FORM PRICING

A. PRICING

Prices bid should be provided in the appropriate space(s) on the bid form; extraneous entries elsewhere have no effect on designated prices. There shall be no minimum charge on labor, parts, or equipment.

Installation/Removal unit pricing includes labor for installation/removal of new units to new and existing lines, assembling into material items, and all labor/transportation for returning unused/reusable removed materials to the City's warehouse or elsewhere as directed. Materials provided by the City remain City property.

B. DISCOUNTS

Cash discounts will not be considered in determining award; all cash discounts offered will be taken if earned. Respondent will list and deduct all discounts not based on early payment from prices quoted.

.

C. QUANTITIES

Quantities indicated are estimated based on the best available information. The City reserves the right to increase or decrease quantities by any amount deemed necessary to meet its needs without unit price adjustment.

D. UNIT PRICES

Prices should be itemized, set to no more than two (2) decimal places. The City reserves the right to award by individual item, by category (e.g., Underground Assembly Units or Hourly Rates), or by total bid, and to make such award to one or more Bidders, consistent with Section VII (Evaluation and Award of Contract) and the City's reservations of right under Section IV.TT and IV.BBB**.** If discrepancies exist between unit prices and extensions, the unit price prevails.

E. VALIDITY OF PRICING

Pricing will be considered firm for acceptance for a minimum of 60 days after the due date unless otherwise specified, extendable by agreement of the parties.

F. QUOTATION

All Responses must be submitted on Exhibit I – Bid Form Spreadsheet. Bidders should note that the Overhead Assembly Units tab of Exhibit I is being removed as part of this revision — only the Underground Assembly Units and Hourly Rates tabs will remain for pricing.

ATTACHMENT C –

BIDDER INFORMATION FORM

Bidder must answer all questions completely and all information must be clear, accurate and comprehensive. Please attach additional documentation or additional sheets as needed.

Company Name: __Pedro SS Services, Inc._____

Business history and experience:

Number of years in business: __46_____

** Note: A minimum of five (5) years' existence as a business is required under the current company name. Changes in company name during the experience period are acceptable if the continuity of the company structure can be demonstrated.*

If response is "yes" for questions below, provide or attach a brief description or explanation.

Has the Bidder ever defaulted on a contract?

Yes ( ) No (X)_____

_____

Are there currently any judgments, claims, or lawsuits pending against the bidder?

Yes ( ) No (X)_____

_____

Does Bidder currently have any claims, judgments or lawsuits pending against any prior client?

Yes ( ) No (X)_____

_____

Is the Bidder or principals of Bidder now, or has the Bidder or principals of Bidder ever been involved in any bankruptcy or reorganization proceedings?

Yes ( ) No (X)_____

_____

The following information must be completed in detail for experience with electric distribution systems of similar size (20,000 – 40,000 meters) or system configurations to the City. The City may request additional information.

1. Number of years in electric distribution installation & maintenance services:31_____
2. Number of businesses for which the bidder has performed electric distribution installation & maintenance services other than with the City of Georgetown:
   __4_____
3. Number of years the bidder has performed electric construction in Williamson County or with a neighboring County:

_31_____

4. Documentation of an active training program to keeping staff abreast of changes in industry standards, technology updates and safety working practices and procedures (Please attach documentation):

   _Attached_____

Exhibit I - Bid Form Spreadsheet

Hourly Units

It is the intent of the City that the construction work to be accomplished under this Contract be performed on an assembly unit basis whenever practical. However, the City realizes that on occasions, a construction project will arise for which it is difficult to strictly specify construction assembly units. In these instances, the City would propose that the construction be performed on an hourly rate basis for workers and equipment. The Contractor agrees to perform construction work on electric distribution lines on an hourly basis, if required, at the rates as specified below for workers and equipment. It shall, however, be the sole right of the City to allow which construction work is to be performed on a unit basis. Use of hourly rates must be approved by City representative prior to exercising.

Description	Hourly Rate		
Aerial Basket Truck	$ 79.00		
A-Frame Truck	$ 5.00		
Air Compressor	$ 20.00		
Backhoe (¼ yd.)	$ 78.00		
Boom Truck	$ 78.00		
Cable Puller/Tensioner	$ 50.00		
Crane	$ 200.00		
Dirt Trencher	$ 17.00		
Dump Truck	$ 80.00		
Equipment Operator	$ 45.00		
Flatbed Truck	$ 25.00		
Line Foreman	$ 78.00		
Lineman 1st Class (Senior - Lead - Journeyman)	$ 68.00		
Lineman 2nd Class (Apprentice/Lower grade lineman)	$ 60.00		
Lineman's Helper (Groundman - Equipment Operator)	$ 48.00		
Pickup Truck	$ 25.00		
Pole Truck & Trailer	$ 50.00		
Pressure Digger	$ 50.00		
Rock Trencher	$ 40.00		
Superintendent	$ 80.00		
Trackhoe	$ 60.00		
Trenchless Boring Machine	$ 200.00		
Vacuum Truck	$ 100.00		
Water Trailer/Truck	$ 30.00		
Winch Truck	$ 30.00		
Wire Trailer	$ 25.00

Description	Unit No.	Install Unit Labor Price	Remove Unit Labor Price
Secondary J-Box Connector Block	UJ1-4	$ 20.00	$ 20.00
Secondary J-Box Connector Block	UJ1-6	$ 20.00	$ 20.00
Secondary J-Box Connector Block	UJ1-6-500	$ 20.00	$ 20.00
Secondary Meter Pedestal-- No Sockets	UM1-5C	$ 175.00	$ 150.00
Meter Pedestal 320 Amp Secondary	UK5-320 MP	$ 175.00	$ 150.00
Milbank Pedestal for 1 Meter	UK5-MP-2	$ 175.00	$ 125.00
Milbank Pedestal for 2 Meters	UK5-MP-3	$ 175.00	$ 125.00
Hand Hole Junction 17" x 30"	UK6	$ 200.00	$ 125.00
Streetlight Junction Box - Small - 12"	UK6-12	$ 125.00	$ 100.00
Hand Hole Junction 13" x 24"	UK6-SL	$ 125.00	$ 100.00
Concrete Pad for Secondary Meter Pedestal	UM1-5C-SP	$ 435.20	$ 398.80
1-Phase Junction Box	UM3-14	$ 400.00	$ 300.00
Junction Box - 3-Phase	UM33	$ 525.00	$ 420.00
Single-Phase Pad-Mounted Vacuum Switch	UM3E-1A	$ 189.00	$ 141.75
Switchgear- SPRAM45 4S-Buss Tie 27kV	UM3E-3-10T	$ 700.00	$ 450.00
3Ph Pad-Mount Switchgear (3-Source - 1 Load)	UM3E-3-11	$ 700.00	$ 450.00
3Ph Pad-Mount Switchgear 1 source 3-LOAD 200 Amp	UM3E-3-12	$ 700.00	$ 450.00
3Ph Pad-Mounted Switchgear 2 Source & NO Load Compa	UM3E-3-52	$ 700.00	$ 450.00
3Ph Pad-Mounted Switchgear 2 Source & 4 Load Compa	UM3E-3-62	$ 700.00	$ 450.00
3Ph Pad-Mount Switchgear (2-Source - 2 Load)	UM3E-3-9	$ 700.00	$ 450.00
Retire - 3 Point Junction 200A (U-strap)	UM6-21 15A	NB	$ 120.00
Retire - 3 Point Junction 200A (Galv-brkt)	UM6-21 15B	NB	$ 120.00
3 Point Junction 200A JBox (U-strap)	UM6-21 25A	$ 120.00	$ 120.00
3 Point Junction 200A Pull Box (Galv-brkt)	UM6-21 25B	$ 120.00	$ 120.00
Retire - 4 Point Junction 200A (Galv-brkt)	UM6-22 15B	$ 120.00	$ 120.00
4 Point Junction 200A JBox (U-strap)	UM6-22 25A	$ 120.00	$ 120.00
4 Point Junction 200A Pull Box(Galv-brkt)	UM6-22 25B	$ 120.00	$ 120.00
3 Point Junction 600A Pull Box w/Brackets	UM6-23	$ 120.00	$ 120.00
4 Point Junction 600A JBox W/ Brackets	UM6-23-4	$ 120.00	$ 120.00
4 Point Junction 600A Pull Box W/ Brackets	UM6-23-5	$ 120.00	$ 120.00
Primary Pull Box (Closed Bottom)	UM-PB	$ 2,500.00	$ 1,500.00

Protective Bollard Installation	UMPB1.1	$ 150.00	$ 75.00
Communications Pull Box	UM-PB-COMM	$ 630.00	$ 315.00
4'X8'X4' Concrete Pull Box in Rock	UM-PB-CR	$ 2,500.00	$ 1,500.00
3Ph Pad-Mount Switchgear (2-Source - 2 Load) 600A (SD)	UM3E-3-9 600A (SD)	$ 700.00	$ 450.00
3Ph Pad-Mounted Switchgear 2 Source & 4 Load (SD)	UM3E-3-62 600A (SD)	$ 700.00	$ 450.00
Pull Box - Lid	UM-PB-LID	$ 200.00	$ 200.00
3Ph Pad-Mounted ATS 2 Source & 4 Load	UM3E-3-62 ATS	$ 700.00	$ 450.00
3Ph Pad-Mount Switchgear (2-Source - 2 Load) 600A	UM3E-3-9 600A	$ 700.00	$ 450.00
Junction Box-- Secondary Aboveground-- 3Ph-- w/4 connectors	UK5-3	$ 250.00	$ 150.00
Junction Box-- Secondary Aboveground-- 1Ph-- w/3 connectors	UK5-1	$ 175.00	$ 100.00
27 kV 6 Way SF6 Gas Switch	UM1-6C-ATS	$ 675.00	$ 675.00
Junction Box -- Secondary -- Milbank Tap Can	UK5-5	$ 150.00	$ 75.00
3Ph Pad-Mount Switchgear (3-Source - 1 600A Load)	UM3E-3-11-600Amp	$ 700.00	$ 450.00
Primary Pull Box 2' Extension	UM-PB-EXT	$ 900.00	$ 300.00
Primary Pull Box (Closed Bottom) -- 4X8X6	UM-PB-DEEP	$ 3,400.00	$ 2,000.00
GROUND SLEEVE FOR JUNCTION BOX 20 IN X 66 IN X 22 IN	UM-JB-EXT	$ 300.00	$ 300.00

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
Second Amendment Task order CPY-22-001 for the South East Inner Loop Project

SUGGESTED ACTION:
Consideration and possible action to approve a Second Amendment to Task Order CPY-22-001 to CP&Y professional engineering services related to the design of Southeast Inner Loop Expansion Project in the amount of $675,055.00 -- Wesley Wright, PE, Systems Engineering Director

ITEM SUMMARY:
In August of 2022, the City Council approved a task order for the Southeast Inner Loop project to provide engineering services for the reconstruction of Southeast Inner Loop from FM 1460 to SH 29. Design services consisted of two main typical sections: a 5-lane two-way-left turn lane from FM 1460 to Sam Houston, and a 4-lane divided arterial with a raised median from Sam Houston to SH 29.

The original scope included curb and gutter, sidewalks, drainage facilities, water quality, street lighting, traffic signal planning with interim appurtenances and public water / wastewater utility adjustments, and ROW documents. Also included was engineering and technical services for the completion of public involvement, permitting TCEQ, surveying and mapping, identification of utility conflicts, coordination with utility companies, preparation of PS&E, bid phase services and construction phase services.

In March of 2024 City Council approved the first task order amendment to provide additional engineering services associated with the intersection of Sam Houston Avenue and Southeast Inner Loop. The amendment addressed revisions to the intersection and roadway configuration and included additional design for roadway improvements, bridge elements, retaining walls, storm drainage, water quality facilities, and traffic signals.

The proposed Second Amendment to Task Order CPY-22-001 provides additional professional engineering services necessary to advance the project through final design and construction. Additional services include right-of-way and continued utility coordination resulting from design changes and newly identified utility conflicts, roadway and drainage design revisions, landscape and illumination revisions, additional plan revisions, and construction-phase engineering support.

Utility relocates are under way from the following: City Electric, Frontier, AT&T, Wilco Fiber, TCA, Lumen and anticipated to be completed in late 2026. Oncor relocations north of Rockride are anticipated to start in early 2027. The project has been phased to start on the west end between FM1460 and Southwestern Blvd, including the bridge at Sam Houston/SE1, while utility conflicts are fully resolved closer to SH29. SVT is finalizing the design and preparing plans for TCEQ review and bidding. Staff anticipates bidding the project before the end of 2026, starting construction in early 2027 and being completed in approximately 24 months.

Staff has reviewed the additional scope and fee as presented and recommends approval on the

amendment to Task Order CPY-22-001 for the additional services related to the Southeast Inner Loop Expansion Project in the amount of $675,055.00

FINANCIAL IMPACT:
Funds for this expenditure are available in the project budget and sourced from the voter-approved 2021 Road Bond Program

EXHIBIT K, consisting of 26 pages, referred to in and part of the Master Services **Agreement between Owner and CP&Y, Inc ("Engineer") for Professional Services** – Task Order Edition dated August 23, 2022.

Second Amendment to Task Order No. CPY-22-001

1. Specific Project Data:

   A. Title: SE Inner Loop from FM 1460 to SH 29

   B. Description: The Project will reconstruct SE Inner Loop from FM 1460 to SH 29 in Georgetown. This scope of work consists of preparing the preliminary schematics, environmental reports, Plans, Specifications and Estimates (PS&E) and construction phase services for a single alignment. The project length along the anticipated alignment is approximately 2.8 miles

   C. City of Georgetown Project Number: _____

   D. City of Georgetown General Ledger Account No.: _____

   E. City of Georgetown Purchase Order No.: _____

   F. Master Services Agreement, Contract Number: 22-0097-MSA_____

2. Nature of Amendment

   X Additional Services to be performed by Engineer

   X Modifications to Payment to Engineer

   X Modifications to Time(s) for rendering Services

3. Description of Modifications

   A. Engineer shall perform the following Additional Services:
   The Engineer shall add increased level of effort (tasks, services and products) for utility coordination and relocation, design schedule duration, design additions and revisions including:

- Additional project management, administration and coordination duration and requirements
- Additional surveying services for ROW staking and ROW easement docs
- Additional Utility Coordination during both Route and Design Studies and PS&E phases
- Additional PS&E submittal submittals and reviews, design revisions and additional plans for all PS&E tasks
- Additional Bid Phase and Construction Phase services.

D. For the Additional Services or the modifications to Services set forth above, Owner shall pay Engineer the following additional or modified compensation: $675,055 (Six Hundred Seventy-Five Thousand, Fifty-Five and 00/100 Dollars)

E. The schedule for rendering Services is modified as follows: Project schedule is extended through 10/26/2029 (Warranty and Project Closeout)

4. Attachments:
   Exhibit A – Schedule of Engineer's Services
   Exhibit C – Fee Estimate
   Schedule

Terms and Conditions: Owner and Engineer hereby agree to modify the above-referenced Task Order as set forth in this Amendment. All provisions of the Agreement an d the Task Order not modified by this or previous Amendments remain in effect. The Effective Date of this Task Order Amendment is _____.

SE Inner Loop
FM 1460 to SH 29

SUPPLEMENTAL SCOPE OF SERVICES
Second Amendment to Task Order No. CPY-22-001

The Project will reconstruct SE Inner Loop from FM 1460 to SH 29 in Georgetown. This scope of work consists of preparing the preliminary schematics, environmental reports, Plans, Specifications and Estimates (PS&E) and construction phase services for a single alignment. The project length along the anticipated alignment is approximately 2.8 miles.

The original schedule was extended, and the level of effort increased, due to the duration of right-of-way acquisition, utility relocations, unforeseen conditions, and differing site conditions encountered during the project development process. The additional tasks, services and products are more fully ***described*** in the following TASK OUTLINE.

TASK OUTLINE

I. PROJECT MANAGEMENT

A. PROJECT MANAGEMENT

1. Create and submit monthly invoices suitable for payment by the City. ***The original contract assumed 24 month duration ending August 2024; schedule has been extended 26 months through September 2026.***
2. Prepare monthly progress reports for submission with the monthly invoices to provide a written account of the progress made to date on the project. ***The original contract assumed 24 month duration ending August 2024; schedule has been extended 26 months through September 2026.***
3. Meet formally at once a month with the City to review project progress. ***STV met formally at least twice per month with GEC. Met with GEC twice per month during design (May 2023 - November 2025 (1 additional mtg / month for 12 months; 2 additional mtgs / month for 15 months; Totaling 42 meetings)).***
4. Prepare project meeting summaries for applicable meetings during the project development process. ***STV met formally at least twice per month with GEC. Met with GEC twice per month during design (May 2023 - November 2025 (1 additional mtg / month for 12 months; 2 additional mtgs / month for 15 months; Totaling 42 meetings)).***

7. The Engineer will have internal meetings with the consultant design team every two weeks for the length of the project. It is assumed that these meetings will include key personnel from each discipline and will be required to discuss and resolve project issues. ***The original contract assumed 24 month duration ending August 2024; internal meetings have been extended 26 months through September 2026.***

8. The Engineer shall prepare and execute contracts with sub-consultants, monitor sub-consultants activities (staff and schedule), complete monthly reports and review and recommend approval of sub-consultant invoices. ***The original contract assumed 24 month duration ending August 2024; subconsultant management has been extended 26 months through September 2026.***

9. The Engineer will review and coordinate work of sub-consultants to ensure quality products are delivered to the County. The Engineer will also be responsible for the consistency and coordination between plans developed by each sub-consultant on the design team**.** ***The original contract assumed 24 month duration ending August 2024; subconsultant work product review has been extended 26 months through September 2026.***

II. SURVEYING SERVICES

A. PROJECT CONTROL SERVICES

B. DESIGN SERVICES

C. TREE SERVICES

D. GEOTECHNICAL INVESTIGATIONS

E. GEOTECHNICAL LOCATIONS

F. ROW, EASEMENT EXHIBITS & LEGALS

1. The Surveyor shall prepare and provide up to twenty (20) parcel right-of-way acquisition documents. ***The original contract assumed twenty (20) ROW parcel documents, six (6) additional ROW parcel documents were required***.
2. ***STV prepared Jonah Water easement at City's request.***
3. ***STV staked the ROW along the Poarch property at the City's request; STV restaked the ROW along the Poarch property at the City's request which required control be reset. STV staked the ROW along the Poarch property a third time with no fee.***

G. DELIVERABLES

H. ASSUMPTIONS

I. UTILITIES

III. ROUTE AND DESIGN STUDIES

A. DATA COLLECTION

B. ALIGNMENT STUDY

C. SCHEMATIC LAYOUT DEVELOPMENT

D. TRAFFIC DATA COLLECTION

E. UTILITY COORDINATION

***The original contract was assumed that existing utilities would be identified either by SUE or during the initial review by utility owners and addressed once; however, through coordination discussions and/or design revisions, additional unknowns, new installations, or assumed "no impact" areas were identified, this became an on-going process. This occurred several times throughout the design development. The major revisions included the following: AE-G gas regulator station, OCR-T's transmission easement boundaries, unidentified Jonah Water, adjacent project updates (newly relocated utilities), additional turn lane*s.**

Additional site visits and/or utility meetings/reviews, review and coordination of OCR-T's asset protection guidelines and permitting process, easement and plat reviews, updated utility information review, and revisions to utility file were required.

1. The Engineer will develop a contact list of the affected utility owners in the project corridor. ***Additional owners were identified after initial contact list was developed. Multiple updates were made with emerging information, design changes, new installs, unknown utilities, change in ownership, and/or new owners.***
2. The Engineer will contact each utility company and meet individually with them to review their assumed utility locations developed from the SUE process. ***Additional individual meetings were required to review as-builts and SUE data due to discrepancies, new installations, change in ownership, design changes, and/or unidentified utility owners.***
3. The Engineer will prepare scroll plots indicating researched utility locations to provide to utility companies / owners for their review and comment. ***Original scroll plots were performed under original contract. Scroll plots were updated as additional information was added or corrected.***

4. The Engineer (or his subconsultants) will not be responsible for any omission of utility information that is not obtainable via electromagnetic, sonic, or acoustical designating services. Non-metallic piping, inactive electric and/or communication lines may or may not be found by electromagnetic, sonic or acoustical designating practices. The Engineer (or his subconsultants) do not warrant and/or guarantee that all existing utilities will be found.

F. WATER/WASTEWATER DESIGN

G. LANDSCAPE ARCHITECTURE

IV. PUBLIC INVOLVEMENT

V. ENVIRONMENTAL

A. ENVIRONMENTAL CONSTRAINTS ANALYSIS

B. ENVIRONMENTAL DUE DILIGENCE INVESTIGATIONS

C. TXDOT DOCUMENTATION

D. ARCHEOLOGICAL SURVEY

E. GEOLOGIC ASSESSEMENT AND KARST SURVEY

VI. PLANS, SPECIFICATIONS & ESTIMATE

The engineer will develop and submit Plans, Specifications & Estimates (PS&E) plans at levels consistent with and required for City 60%, 90% and final 100% plans. The schematic phase, plots and submittals shall be the 30% submittal. ***The original contract assumed 100% final plans. 100% resubmittal (100% Revision 1 (100% R1)) was required in addition to a second 100% final signed and sealed plan set for all PS&E tasks***

A. RIGHT-OF-WAY AND UTILITY COORDINATION

Utility coordination services were not included during the PS&E phase of the original contract. Under the original scope, this was intended to be done at each stage of plan development, not in multiple intervals between submittals, nor were significant changes after 30% plans expected. Conflicts were re-evaluated and the conflict matrix updated with each design change. Proposed utility relocations were reviewed, coordinated and updated to share with all design disciplines. Oncor's easement guidelines required evaluation, design changes to minimize impacts, permit application where design impacts are unavoidable, conflict resolution for direct impacts, etc. Atmos installed a new gas regulator station on proposed ROW. This had to be reviewed from a utility and right of way impact since the proposed ROW at this location had not been secured.

1. Right of Way

   (a) The Engineer will determine and provide the limits of the proposed ROW to the Surveyor for preparation of Right-of-Way plans.

2. Utility Adjustments

   The Engineer will utilize subsurface utility data throughout the design process. A good faith effort will be made to accommodate existing utility locations. Utility conflicts will be identified during the design process to allow for relocation. The Engineer will coordinate with utility providers on necessary relocations. The Engineer shall include the existing utility information in the plans.

   (a) Identify utility conflicts. The Engineer will provide plan and profiles, culvert layouts, cross sections and other sheets as required to utility providers to assist them in any relocation efforts.

B. ROADWAY DESIGN CONTROLS ***(100% R1; 100% FINAL)***

1. Miscellaneous Plans

   (a) A project title sheet will be prepared as required for the construction plans.
   (b) A detailed index of sheets will be prepared that shows each sheets location in the plan set, as well as its corresponding sheet number. This index will be updated throughout the submittal process to allow for easier reference during the review process.
   (c) Project layout sheets will be prepared at a scale of 1”=200’ that clearly indicates the limits of the entire project.
   (d) Benchmark layout sheets will be completed at a scale of 1”=200’ that clearly indicate the benchmark locations and associated control information. These sheets will later be sealed by a RPLS for submittal.

2. Roadway Plans & Geometry ***(100% R1; 100% FINAL)***

   (a) All plan sheets shall be prepared in an 11” x 17” format; normal scale shall be 1”=50 ft. horizontal and 1”=4 ft. vertical, unless otherwise stated herein.
   (b) Existing typical sections will be completed depicting the existing conditions of the project roadway.
   (c) Proposed typical sections will be completed depicting the improvements to SE Inner Loop, SH 29, Sam Houston and other cross streets as needed. The proposed typical sections are intended to show the general cross-sectional configuration of the roadway in logical sections and will be prepared to the appropriate level of detail and limits to convey that general information.
   (d) A horizontal alignment data sheet will be prepared depicting the horizontal geometric information for the project roadways to be included in the construction plan set.
   (e) SE Inner Loop plan and profile sheets shall be completed depicting the proposed construction.

(f) Supplemental grading sheets will be prepared at a scale of 1”=50’ for areas of the project that require additional grading information for construction or review purposes.
(g) The Engineer shall provide plan sheets of removals at a scale of 1”=100’. Removal sheets shall clearly identify the disposition of roadway appurtenances. Description of removal items, including material, shall be included.
(h) Develop right and left turn lanes to all major intersections.

3. Grading and Details ***(100% R1; 100% FINAL)***

(a) Design cross sections will be completed at 50-foot stations and other locations as necessary for the determination of cut and fill quantities. These sections will also be used to further refine the design vertical geometry. Cut and fill quantities determined from the design cross sections will be shown on the plan/profile sheets. Cross sections will not be developed as a deliverable for phased TCP.
(b) The Engineer shall complete intersection layouts for nine (9) intersections. The intersection layouts will include the design of the pavement and drainage layouts, as needed, as well as other pertinent details not discernable elsewhere in the plans. Intersection layouts shall be developed for the following locations:

(i) FM 1460, Sam Houston/Maple Street, Southwestern Blvd., Rock Ridge Lane, Wey Hill Dr, Belmont Dr, Churchill Farms, Stonehedge Blvd and SH 29

(c) Driveway details will be prepared for each driveway along the project corridor. When possible these driveways will be defined in a tabular format. Non-typical driveways may require special details.
(d) The Engineer will develop driveway profiles as required for the project. These profiles will be developed to show driveway tie-back slopes, as well as limits for the contractor’s information.
(e) Miscellaneous roadway detail sheets will be developed for the project. The sheets will depict details required that are not defined in standard detail sheets. City standards will be used for the project development. Up to two (2) will be developed.

C. DRAINAGE DESIGN ***(100% R1; 100% FINAL)***

Under the original contract, the drainage plans were revised in response to comments received from the GEC during the 30%, 60%, 90%, and 100% submittal reviews. Subsequent direction provided by the City differed from the GEC’s comments and design criteria, requiring substantial revisions beyond the original scope.

1. Data Collection

2. Culverts

(f) Culvert layout sheets will be developed for the twelve (12) culverts not covered by storm sewer plan and profiles. These sheets will be developed at a scale of 1”=50’ H and 1”=4’ V.

3. Storm Sewer Design

(a) Exterior drainage area maps will be finalized at a scale reasonable to fit drainage areas on an 11x17 plan sheet. These maps will depict drainage area boundaries and flow direction arrows. Each area will be identified with a unique number to be used to find run-off information from the calculation sheets.
(b) Interior drainage area maps will be finalized at a scale of 1″=50′. These maps will depict drainage area boundaries and flow direction arrows. Each area will be identified and cross-referenced to the calculation sheets.
(c) Run-off to each inlet and inlet hydraulic information will be calculated in accordance with City of Georgetown Drainage Criteria Manual and shown on the run-off and inlet computation sheets in an approved format.
(d) Storm sewers will be analyzed and computations will be prepared for the storm sewer design using approved design software.
(e) Drainage plan and profile sheets will be completed depicting locations of inlets, manholes, storm sewers, culverts, utilities, channel improvements and ditch locations and flowlines as required. These sheets will be prepared at a scale of 1”=50’. Storm sewer profiles will be prepared at a scale of 1”=50’ H and 1”=4’ V. Storm sewer profiles will show pipe size and type, slope, existing and proposed ground lines above the pipe, pertinent hydraulic information and locations and sizes of inlets and junctions.
(f) Lateral profile sheets will be developed for the project storm sewer systems. These sheets will be developed at a scale of 1”=50’ H and 1”=4’ V.
(g) The Engineer will prepare a tabular ditch layout schedule that depicts pertinent information about the roadside ditch geometry and design. This table will include station, offset, flow line elevation, ditch lining material, as well as ditch bottom width. The tables will be shown on the drainage plan sheets.
(h) The Engineer shall provide drainage design details for “non-standard” drainage structures in instances where they are not covered by City standard details cannot be utilized. The Engineer shall use City standard details where practical.
(i) The Engineer will identify areas within the construction of the storm sewer and culvert construction that will require trench protection or special shoring.

4. SW3P and Erosion Control ***(100% R1; 100% FINAL)***

(a) Erosion control plans will be prepared for the length of project. Temporary storm water management devices will be needed to minimize the sediment runoff during construction of this project. The anticipated design components to be utilized on this project are silt fence, sand bags, rock filter dams, sediment traps and construction exits. One temporary erosion control plan depicting the entire project will be developed with notes that indicate that the contractor is responsible for phasing the devices along with the construction sequencing. Permanent erosion control measures will be included on these sheets as well.
(b) A Storm Water Pollution Prevention Plan (SW3P) will be prepared for this job in accordance with TCEQ regulations.
(c) Erosion control details will be prepared for any related items that are not covered by City of Georgetown standard details.

D. SIGNING, MARKINGS AND SIGNALIZATION ***(100% R1; 100% FINAL)***

1. Signing and Pavement Markings

   (a) Signing and Pavement marking layouts will be prepared at a scale of 1″=50′. Road signs and markings will be shown all on the same plan sheet. Any additional sheets for signing/pavement markings will be included in a future supplemental agreement. These layouts will depict striping and delineator type and location, as well as MBGF location, lengths and end treatments. Each sign will have a corresponding number for cross-reference to the sign summaries.
   (b) Pavement marking details will be prepared for non-standard conditions.
   (c) Detail sheets for small signs will be prepared for non-standard signs. This sheet is intended to show the overall dimensions of the signs by determining letter size and spacing. Details will not be to scale.

3. Traffic Signalization ***(100% R1; 100% FINAL)***

   (a) Traffic signal design and plans will be prepared for new proposed traffic signals or modifications to existing traffic signals to accommodate the proposed intersection configurations. Signal design and plans are assumed for the following locations:

      (i) SH 29 – Remove existing signal and install new signal to accommodate proposed intersection configuration.
      (ii) Stonehedge Dr., Churchill Farms Dr., Belmont Dr., Wey Hill Dr., Southwestern Blvd., Sam Houston Ave./Maple St. – Assume 4 of these locations either meet signal warrants under existing conditions or are expected to meet signal warrants within 5 years. Traffic signals will be designed at these locations.
      (iii) FM 1460 – Signal modification to accommodate proposed 5-lane roadway section, specifically for westbound SE Inner loop.

   (a) Traffic signal plans will be prepared at a scale of 1”=40’ and will include Existing Conditions, Proposed Signal Layout, Signal Details and Schedules, Signal Elevations, Detection Layout, and standard details.
   (b) Signal plans will indicate existing conditions, existing utilities, and proposed roadway improvements. Plans will include location of signal pole foundations, conduit, and ground boxes to be installed under this work authorization or for signals to be installed in the future when signal warrants are met.
   (c) The Engineer will coordinate with the City in identifying future power source and conduit runs.
   (d) In the event that additional signals are warranted by the City, the design and plan production for those facilities will be addressed through a supplemental agreement to this work authorization.
   (e) Traffic signal design and plans at SE Inner Loop & Rockride Ln. are to be prepared by others.

4. Temporary Traffic Signalization ***(100% R1; 100% FINAL)***

(a) Temporary traffic signal design and plans will be prepared at SE Inner Loop & FM 1460, SE Inner Loop & Rockride Ln., and SE Inner Loop & SH 29. Temporary traffic signals will be designed in coordination with the Traffic Control Plans to maintain traffic in all phases and steps of construction. Temporary signals are assumed to be timber pole span-wire style. But existing or proposed steel poles and mast arms may be used as determined during design development and as approved by the City.
(b) Temporary Signal Plans will be prepared at a scale of 1”=40’ and will include Temporary Signal Layouts for each TCP phase and step, Temporary Signal Details and Schedules, and standard details.
(c) Temporary Signal Plans will indicate location of temporary signal poles, controller, electrical service, signal heads, conduits, span wires, and other temporary signal equipment. Existing and proposed utilities, existing topographic features, proposed phased construction, and traffic control devices and lane configuration will also be depicted.
(d) The Engineer will coordinate with the City in identifying temporary power source.

E. MISCELLANEOUS ROADWAY ***(100% R1; 100% FINAL)***

1. Retaining Walls

(a) The Engineer will investigate each wall location and determine what the most suitable wall type is for each application. The anticipated wall type is MSE. It is assume approximately 3,700LF of walls will be included.
(b) The Engineer will provide a location plan of all walls at a scale of 1”=400’. The intent is to show the location of all walls in plan including the wall designation and beginning and ending stations.
(c) The Engineer shall prepare retaining wall layouts at a max scale of 1”=50’. The layouts will show plan and profile views of the retaining wall. It is assumed that six (6) retaining walls will be necessary for the project.
(d) Non-proprietary wall designs (i.e., Tie-back, soil nailed, drill shaft) are not included in this scope of work.

2. Traffic Control Plan

The original contract assumed utility relocations would be completed prior to construction. Due to significant delays in these relocations, the Traffic Control, Maintenance of Traffic (MOT), and Sequence of Construction plans were completely rephased twice to accommodate concurrent roadway construction activities while utility relocations remained in progress. These revisions were necessary to maintain traffic operations, facilitate construction sequencing, and coordinate with the evolving utility relocation schedule.

(a) Traffic control typical sections will be prepared for each stage of the construction sequence to clearly delineate the position of the existing traffic with respect to the proposed construction. Temporary traffic barriers and pavement markings will also be shown and dimensioned, as needed.
(b) The Engineer will prepare 1”=400’ plan layouts of all advance warning signs along SE Inner Loop and cross streets.

(c) A detailed narrative for the sequence of construction and traffic control general notes will be prepared and submitted to the City for review and incorporation into the plans. The narrative will include a phase-by-phase, step-by-step written account of the proposed activities throughout the construction process. This is intended to be a narrative account of the activities shown in the traffic control plan layouts.
(d) Detailed traffic control plans will be prepared at a scale of 1″=50′. These plans will be developed based on the City's approval of the conceptual plans developed at the schematic design level. This plan will describe the maintenance of traffic and sequence of work for each phase of the proposed construction. Detour alignments, location of work areas, temporary paving, temporary shoring, signing, barricades and other details will be required to describe the traffic control plan. The Engineer will be required to ensure that proper drainage can be maintained during each phase of construction. It is assumed three phases will be needed to full reconstruct the roadway.
(e) Traffic control details will be developed for items not covered by City of Georgetown standard details.
(f) An Engineer's opinion of construction schedule will be computed in order to determine an approximate duration for each of the phases of construction. The schedule will be prepared using Microsoft Project.

3. Illumination ***(100% R1; 100% FINAL)***

Receipt of landscape comments post 100% submittal required redesign of median illumination, relocation of proposed electrical conduit and additional electrical services to the irrigation controllers.

(a) The Engineer will design continuous and safety lighting along the project corridor. The lighting will be shown on illumination layouts.
(b) The Engineer shall provide electrical circuit plans and details for the roadway lighting systems within the project limits.
(c) The Engineer will coordinate with the City in identifying power sources, conduit runs and will show them on the project plans. The Engineer shall identify potential overhead utility conflicts and coordinate with the State and the utility company to help resolve the conflicts.

5. Quantities ***(100% R1; 100% FINAL)***

Quantities will be tabulated for each of the following and as necessary to bid this project:

(a) Traffic Control (per each phase)
(b) Earthwork
(c) Roadway
(d) Retaining Walls
(e) Removal
(f) Drainage/Water Quality
(g) Culverts
(h) Small / Large Signs

(i) Pavement Markings
(j) Signals
(k) Illumination
(l) Utilities
(m) Erosion Control and SW3P

6. Summary Sheets

   Quantities that are calculated will be tabulated on individual summary sheets for inclusion in the construction plan set:

   (a) Traffic Control (per each phase)
   (b) Earthwork
   (c) Roadway
   (d) Retaining Walls
   (e) Removal
   (f) Drainage/Water Quality
   (g) Culverts
   (h) Small / Large Signs
   (i) Pavement Markings
   (j) Signals
   (k) Illumination
   (l) Utilities

7. Standards, Specifications and Estimate

   (a) The Engineer shall utilize City standards for the project as appropriate. Standards that require modification will be corrected and sealed by the Engineer. All other standards will have their title blocks filled out with the applicable project data and printed for inclusion in the final plan set.
   (b) A tabulation of applicable specifications, special specifications and special provisions will be prepared for submission with the final PS&E package.
   (c) The Engineer will review general notes provided by the City for applicability to the project. The Engineer will mark-up a set and return it to the City for their inclusion in the final plan set. The Engineer will work with the City to complete the basis of estimate prior to beginning quantity calculations.
   (d) An opinion of probable construction cost will be prepared at the 30%, 90% and prior to final PS&E submittal and supplied to the City in Microsoft Excel format.

8. Bid Documents

   (a) The Engineer will prepare contract bid documents and proposals and make them available in electronic format (PDF) as well as hard copy for the City's use.

F. WATER/WASTEWATER UTILITIES

1. Prepare plan and profile sheets identifying right-of-way, easements, existing utilities and topographic features. Scall will be 1" = 40' horizontal and 1" = 4' vertical. Proposed water and wastewater lines are not anticipated to include service stubs. Plan sheets are expected to include the following, and additional relocations or new utility alignments will be included under a supplemental agreement:

(a) 4,300 LF of new 16-inch water line (9 sheets)
(b) Relocation of 6,000 LF of 12-inch water line (12 sheets)
(c) Relocation of 1,000 LF of 8-inch wastewater line (4 sheets)
(d) Relocation of 100 LF of 16-inch reclaimed water line. (1 sheet)

2. Develop Quantities and provide update at each submittal phase.
3. Develop Quantity Summary Sheets (2 Sheets)
4. Standards, Specifications and Estimate
   (a) The Engineer shall utilize City standards for the project as appropriate. Standards that require modification will be corrected and sealed by the Engineer. All other standards will have their title blocks filled out with the applicable project data and printed for inclusion in the final plan set.
   (b) A tabulation of applicable specifications, special specifications and special provisions will be prepared for submission with the final PS&E package.
   (c) The Engineer will review general notes provided by the City for applicability to the project. The Engineer will mark-up a set and return it to the City for their inclusion in the final plan set. The Engineer will work with the City to complete the basis of estimate prior to beginning quantity calculations.
   (d) An opinion of probable construction cost will be prepared at the 30%, 90% and prior to final PS&E submittal and supplied to the City in Microsoft Excel format.
5. Develop submittal package to TCEQ for sewage collection system (SCS) in the Edwards Aquifer Recharge Zone, and coordination with TCEQ for approval.
6. Bid Documents
   (a) The Engineer will prepare contract bid documents and proposals and make them available in electronic format (PDF) as well as hard copy for the City's use.

G. LANDSCAPE ARCHITECTURE

Under the original contract, the landscape and irrigation plans were revised in response to comments received from PARD during the 95% submittal review. Subsequent direction provided by the City differed from PARD's comments, requiring additional revisions beyond the original scope.

These revisions included relocating ornamental trees, modifying the irrigation design, and revising the tree layout so that individual trees were placed within separate square tree wells rather than grouped within continuous linear tree wells. Additional coordination was also required to integrate the stamped and stained concrete limits with the civil design and to evaluate potential conflicts between the revised tree locations and proposed utilities.

1. Implementation Phase/Construction Documents
   (a) Continue detailed planting plan and hardscape elements in AutoCAD following selected roadway landscape option
   (b) Prepare plan drawings and details showing the landscape and sitework design and intent to meet any of the City of Georgetown landscape requirements
   (c) Prepare drawings and details for irrigation

(d) Prepare technical specifications for grading, planting, and irrigation
(e) Prepare a revised Opinion of Probable total project costs based on the final drawings and specifications
(f) Coordinate with civil engineer for overall document submission

VII. BID AND CONSTRUCTION PHASE SERVICES

The construction duration increased by nine months, from 18 months to 27 months. The number of STV invoice submittals, construction meetings, and Contractor Pay Application reviews increased accordingly. In addition to the increased meeting frequency, time was included for the travel, meeting preparation, agendas, minutes, and documentation associated with each meeting. At the City's request, the number of shop drawing/material submittal reviews and RFI responses increased to a minimum of 50 each.

A. BID PHASE SERVICES

1. The Engineer will coordinate with the City for the Bid Package including but not limited to answering prospective bidder questions and preparing addenda as necessary.
2. The Engineer will attend one pre-bid meeting.
3. The Engineer will assist the City at contract bid opening.
4. The Engineer will tabulate the bids, research low bidder and make a recommendation of award to the City.

B. CONSTRUCTION PHASE SERVICES

1. Create and submit monthly invoices suitable for payment by the City.
2. The Engineer shall attend the pre-construction meeting.
3. The Engineer shall attend up to twelve (12) construction meetings as requested by the City.
4. The Engineer shall provide Construction Support Services at the written request of the City project manager. The written request shall include a description of the work requested, a mutually agreed upon time limit, a mutually agreed upon level of effort, a defined deliverable and any special instructions for coordination and submittal. These services shall include, but are not limited to the following:

   (a) Responding to requests for information (RFIs)
   (b) Providing redesign as directed by the City for Change orders and documentation
   (c) Other project related tasks in support of the City during construction

   The Engineer shall provide minor redesign as requested by the City project manager. In the event that revisions are requested and the work is considered to be additional to that set forth on the original contract or scopes of work, the Engineer shall prepare a budget and a schedule for the additional work requested. The Engineer shall not commence work on a task prior to receiving written approval by the City.

5. Review the Application for Payment and supporting documentation submitted by the Contractor, recommended to the Owner the amount that the Contractor is to be paid on monthly estimates as required by the Construction Contract. An eighteen (18) month construction schedule is assumed.

   Such recommendation for payment to the Contractor shall not be a representation that the Engineer:

   (a) has made exhaustive or continuous on-site observations to check the quality or quantity of the Contractor's work,
   (b) has reviewed construction means, methods, techniques, sequences or procedures,
   (c) has reviewed copies of invoices received from subcontractors, material suppliers or other data requested by the Owner to substantiate the Contractor's right to payment,
   (d) has ascertained how or for what purpose the Contractor has used monies previously paid by the Owner or
   (e) has determined that title to any of the Contractor's work has passed to the Owner free and clear of any liens, claims, security interests or encumbrances.

6. Upon notice from the Contractor that the Contractor's work is ready for its intended use, conduct, in company with the Owner's representative and the Contractor, an inspection to determine if the work is substantially complete. If the Owner and the Engineer consider the work substantially complete, issue a certificate of substantial completion containing a list of required tasks for the Contractor to complete prior to issuance of certificate of final completion. Conduct a final inspection together with the Owner and the Contractor to determine if the work has reached final completion so that the Engineer may recommend final payment to the Contractor. If appropriate, make recommendations to the Owner for final payment to the Contractor.

7. Provide shop drawing review. The shop drawing submittals will be limited to those specifically called for in the construction contract documents (plans, standard specifications, special provisions to the standard specifications and special specifications). Such reviews will not extend to means, methods, techniques, sequences or procedures of construction or to safety precautions and programs incident thereto.

8. An engineer's concurrence letter and 22"x34" record drawings (one Mylar copy and a digital copy on CD) will be submitted to the Public Works Department. The Engineer and Contractor shall verify that all final revisions and changes have been made to the Mylar and digital copy prior to City submittal. Record construction drawings shall be provided to the City in digital format as AutoCAD ". dwg" files, MicroStation ".dgn" files or ESRI ".shp" files as well as PDF ".pdf" on CD. The set of Record Drawings, which are stamped by the Engineer, shall be the sole documents relied upon by the Owner as a reflection of the condition of the project location after completion of the construction activities.

SUBJECT:
Task Order Amendment for KPA-25-002 Related to the Ridgeline Boulevard Extension, Phase 1

SUGGESTED ACTION:
Consideration and possible action to approve a first amendment to Task Order KPA-25-002 with Kasberg, Patrick and Associates, LP. for professional services related to the Ridgeline Boulevard Extension, Phase 1 (Naturita to FM 1460) project in the amount of $640,500.00 -- Wesley Wright, P.E., Systems Engineering Director, and David Herzog, CIP Manager

ITEM SUMMARY:
In 2024, Council approved Task Order KPA-25-002 with Kasberg, Patrick and Associates, LP (KPA) to begin preliminary engineering for Ridgeline Boulevard Extension project from Naturita Drive to Sierra way. This original task order included development of a 30% schematic design consisting of roadway and intersection analysis and layout, drainage calculations, shared-use path routing, water and wastewater extensions, environmental clearance, geotechnical investigations, and preparation of right-of-way (ROW) documents

This Task Order Amendment will advance a portion of the project from the 30% schematic through 100% final design and preparation of construction documents for Phase 1, extending Ridgeline Boulevard from FM 1460 to Naturita Drive. The Phase 1 improvements will include right and left-turn lanes on FM 1460, design of a new traffic signal at the proposed FM 1460 and Ridgeline Boulevard intersection, roadway and drainage improvements, pedestrian facilities, water and wastewater extensions, and coordination with TxDOT.

Advancing Phase 1 is needed to provide an additional connection to the La Conterra neighborhood ahead of construction of the Southeast Inner Loop Improvement Project. During the Southeast Inner Loop construction, left-turn access from northbound Maple Street onto westbound Southeast Inner Loop will be removed as the roadway is reconstructed. Completing the Ridgeline Boulevard connection to FM 1460 will provide residents with a permanent additional access point and improve connectivity to the surrounding roadway network.

A future task order amendment will be needed to advance the remaining portion of the Ridgeline Boulevard Extension from FM 1460 to Sierra Way through final design and construction phase services.

Staff Recommendation:
Staff has reviewed the additional scope and fee as presented and recommends approval on the amendment to Task Order KPA-25-002 for the additional services related to the Ridgeline Boulevard Extension, Phase 1 Project in the amount of $640,500.00

FINANCIAL IMPACT:

Funds for this expenditure are budgeted in the FY 2026 Transportation CIP Budget and sourced from a combination of 2021 Road Bond Intersection funds as well as development transportation improvement/impact fees.

EXHIBIT K, consisting of 12 pages, referred to in and part of the Master Services **Agreement between Owner and Kasberg, Patrick & Associates, LP ("Engineer") for Professional Services** – Task Order Edition dated August 23, 2022.

First Amendment to Task Order No. KPA-25-002

1. Specific Project Data:

   A. Title: FY2025 Street Maintenance – Ridgeline Boulevard Extension

   B. Description: This project involves professional services related to plan preparation for the proposed Ridge Line Boulevard Extension Project – Phase I from FM 1460 to Naturita Drive. This project also includes required right and left turn lanes on FM 1460 and a traffic signal at the proposed intersection of FM 1460 and Ridgeline Boulevard. The professional services for this project will include final roadway design, traffic signal design, drainage design, pedestrian sidewalk design, water/wastewater extension design, WPAP permitting, TxDOT Coordination, bidding phase services, and construction phase services.

   C. City of Georgetown Project Number: Various

   D. City of Georgetown General Ledger Account No.: Various

   E. City of Georgetown Purchase Order No.: PO-2501632; PO-2501633; PO-2501634; PO-2501705; PO-2501706; PO-2501707

   F. Master Services Agreement, Contract Number: 22-0112-MSA

2. Nature of Amendment *[Check those that are applicable and delete those that are inapplicable.]*

   ☒ Additional Services to be performed by Engineer

   ☐ Modifications to Services of Engineer

   ☐ Modifications to Responsibilities of Owner

   ☐ Modifications to Payment to Engineer

   ☐ Modifications to Time(s) for rendering Services

   ☐ Modifications to other terms and conditions of the Task Order

Copyright ©2004 National Society of Professional Engineers for EJCDC. All rights reserved.

3. Description of Modifications

A. Engineer shall perform the following Additional Services:

Additional professional services to final plan preparation for the proposed Ridge Line Boulevard Extension Project – Phase I from FM 1460 to Naturita Drive, as well as, right and left turn lanes on FM 1460 and a traffic signal at the proposed intersection of FM 1460 and Ridgeline Boulevard. The professional services for this project will include final roadway design, traffic signal design, drainage design, pedestrian sidewalk design, water/wastewater extension design, WPAP permitting, TxDOT coordination, bidding phase services, and construction phase services.

B. The Scope of Services currently authorized to be performed by Engineer in accordance with the Task Order and previous Amendments, if any, is modified as follows:

Please find attached Exhibit A – Scope of Services.

C. The responsibilities of Owner are modified as follows:

Provide any record/asbuilt drawings for the existing City owned infrastructure within the project limits.

D. For the Additional Services or the modifications to Services set forth above, Owner shall pay Engineer the following additional or modified compensation:

Lump Sum Amount of $640,500 (See attached Exhibit B – Fee Schedule)

E. The schedule for rendering Services is modified as follows:

Please find the attached Exhibit C – Project Schedule

F. Other portions of the Task Order (including previous Amendments, if any) are modified as follows:

N/A

4. Attachments [if any]:

EXHIBIT A – DETAILED PROJECT SCOPE

SERVICES PROVIDED BY ENGINEER

KASBERG, PATRICK & ASSOCIATES, LP

GEORGETOWN, TEXAS

Ridge Line Boulevard Extension Project – Phase I Description:

This project involves professional services related to plan preparation for the proposed Ridge Line Boulevard Extension Project – Phase I from FM 1460 to Naturita Drive. This project also includes required right and left turn lanes on FM 1460 and a traffic signal at the proposed intersection of FM 1460 and Ridgeline Boulevard. The professional services for this project will include final roadway design, traffic signal design, drainage design, pedestrian sidewalk design, water/wastewater extension design, WPAP permitting, TxDOT Coordination, bidding phase services, and construction phase services.

Scope of Services:

The scope of services associated with this project includes:

I. Project Management/Coordination

a. The ENGINEER shall coordinate, conduct and document a Project Kickoff Meeting with City Staff.
b. The ENGINEER shall attend 30%, 60%, 90% and 100% Project Submittal Meetings with City Staff. The project submittal packages shall include project plans, preliminary opinions of probable construction costs (OPCC's) and other support documentation as requested by City Staff. The ENGINEER shall review the submittal package with City Staff and provide written questions and or comments that may arise during the design process and review those with City Staff and provide recommendations, if required. These meetings may also include meeting with Landowners to review the proposed project alignment. Assume six (6) meetings shall be required.
c. The ENGINEER shall provide Contract Management and Coordination. This shall include developing monthly invoices and progress reports, subconsultant coordination, design coordination with the City and design coordination with dry utilities.
d. The ENGINEER shall obtain and review the existing data provided by the City and that have a direct impact of the proposed project.

e. The ENGINEER shall aid City Staff with permitting and permit support meetings.

II. Final Design

Utility Coordination/Right of Way Support/TxDOT Coordination

a. The ENGINEER will provide project support in the form of project data, exhibits and information to the City's assigned right-of-way agent. The ENGINEER will be available to attend meetings with impacted property owners to address questions and comments, if requested.
b. The ENGINEER shall coordinate, attend and document a Utility Coordination Meeting with the existing utilities located within the proposed corridor to discuss impacts this project on the existing utilities. The ENGINEER shall document the highlights of this meeting. Assume two (2) meetings shall be required.
c. The ENGINEER shall coordinate with City Staff and TxDOT Area Office Staff for design of the proposed turn lanes and traffic signal on FM 1460 and the proposed intersection with Ridge Line Boulevard.

Roadway Design

a. Roadway Geometric Design. The ENGINEER will develop final roadway schematic designs with horizontal and vertical alignments based off the topographic surveys. The alignments will be in compliance with the City of Georgetown, TxDOT and AASHTO Roadway Design Criteria. The ENGINEER will review final schematic alignment with City Staff.
b. Typical Sections. The ENGINEER will utilize the roadway geometric design to develop existing and proposed typical roadway sections for project.
c. Plan & Profile Sheets – Roadway. The ENGINEER will prepared plan & profile sheets for the project. The sheets shall include existing topography, utilities, control data, preliminary roadway geometry (vertical and horizontal), drainage improvements, and other related improvements.
d. Intersection Layouts. The ENGINEER shall design typical intersection layouts that identify all horizontal and vertical geometry along the proposed project route. This will also include obtaining project data and alignment(s) from adjacent and/or connecting design projects as may affect the development of proposed alignment.

e. Cross Sections for Roadway. The ENGINEER will prepare roadway cross sections at intervals not to exceed 100 feet along to the proposed roadway alignment. The cross sections shall include the proposed roadway improvements, multi-use trail facility and other related drainage improvements.
f. Pedestrian Facility. The ENGINEER shall perform final design in order to develop plan and profile drawings for a pedestrian facility along the proposed project route. The design of the multi-use trail facility shall be in accordance with the American with Disabilities Act (ADA), Texas Department of License and Regulations (TDLR) and TxDOT design requirements for pedestrian facilities and AASHTO Guidelines for Bike Facilities.
g. Traffic Signal. The ENGINEER shall perform final design for the proposed Traffic Signal at FM 1460/Ridge Line Boulevard Intersection. Design shall be in accordance with TxDOT and City of Georgetown Standards and shall include coordination with TxDOT Staff.

Drainage Design

a. The ENGINEER will incorporate all design surveys into computer aided drafting and develop topographies and surfaces. This data will be utilized to develop final drainage areas, hydrology and hydraulics. This will include topographic drawings to prepare the final drainage design.
b. The ENGINEER will develop storm water hydrology for the ultimate roadway section for the project area. The hydrology will be modeled utilizing HEC-HMS with City of Georgetown drainage criteria. The model will incorporate the 10%, 4%, 2% and 1% annual chance storm events. Modeling will develop storm water flows to all cross culverts and roadway conveyances. Based on the data developed drainage infrastructure will be designed for final design for the project area.
c. The ENGINEER will develop plan and profile for the proposed storm water collection systems for the project area.
d. The ENGINEER will finalize the requirements for water quality for the roadway section. Designs will be based on the new impervious cover that will be established with the ultimate build out of the project and current TCEQ requirements for construction within the Edwards Aquifer Recharge Zone. The ENGINEER will endeavor to combine conveyance infrastructure with water quality in an effort to minimize project costs.
e. The ENGINEER will provide final design of a detention/water quality pond located on the project route and shall include final design for the pond,

outlet structure, overall grading plan and typical cross sections for the pond.

f. The ENGINEER will determine potential utility conflicts based on final design for the project area. Coordination with utility companies will be performed by meeting with all effected utilities during the preliminary design phase.
g. The ENGINEER will meet with Staff to review the final drainage design, phasing for the project, utility conflicts and relocations, water quality options, etc. All comments and direction from the meeting will be incorporated in to the project.

Water/Wastewater Design

a. The ENGINEER will incorporate the existing City water and wastewater lines into the proposed plan/profile plan sets. The ENGINEER will utilize this existing data to develop connection points for the proposed water and wastewater extensions.
b. The ENGINEER will develop plan and profile for the proposed water line and wastewater line conflicts within the project area.
c. The ENGINEER will provide connection details and layouts for the proposed water and wastewater line relocations.
d. The ENGINEER will provide roadway crossing designs and details.

Incidentals Design

a. The ENGINEER will design erosion control measures to be utilized for the project and shall identify the locations of the measures to be installed in an overall erosion control exhibit to be incorporated into the plans.
b. The ENGINEER will design an overall striping plan for the project route in accordance with City of Georgetown, TxDOT and Texas Manual on Uniform Traffic Control Devices (TMUTCD) requirements.
c. The ENGINEER will prepare a traffic control plan in accordance with the City of Georgetown, TxDOT and Texas Manual on Uniform Traffic Control Devices (TMUTCD) requirements.
d. The ENGINEER will provide miscellaneous construction details required to construct the project.
e. The ENGINEER will develop and prepare project specific technical specifications.
f. The ENGINEER will prepare a project bid schedule. The ENGINEER will perform a quantity take off for the project and will prepare and opinion of probable construction cost based off the 100% plan sets (bidding sets).

g. The ENGINEER will prepare Contract Documents and Technical Specification books and 100% Plan Sets and deliver to the City. (10 Sets)

III. Bidding

a. The ENGINEER will develop the invitation to bid and deliver to City Staff for advertising the project for public bidding. The ENGINEER will also solicit bids from past contractors to acquire as competitive a bidding process as possible.
b. The ENGINEER will manage and distribute bidding documents.
c. The ENGINEER will prepare for the Pre-Bid Conference, develop an agenda and sign in sheet, conduct the Pre-Bid Conference, take notes at the conference, prepare minutes and incorporate into the addenda.
d. The ENGINEER will receive all questions from bidders, log the questions and answer in the form of an addenda.
e. The ENGINEER will conduct the bid letting, receive all bids, tabulate the bids and certify them.
f. The ENGINEER will research the low bidder(s) qualifications and recommend award to the City of Georgetown.

IV. Construction Administration

a. The ENGINEER will prepare two (2) hard copies of the contract documents; forward those to the contractor awarded the project by Georgetown City Council. Once the contractor has executed the contract documents, they will be checked for proper documentation and forwarded to the City of Georgetown for execution.
b. The ENGINEER will prepare and distribute construction plan sets, including three (3) plans sets for City Staff, incorporating information and changes to the plans and specifications that were addressed in the Addenda.
c. The ENGINEER will schedule and conduct the Pre-Construction Conference. Minutes from the conference will be taken and distributed.
d. The ENGINEER will receive and review all submittals and material samples for the project. Documentation for the submittals will be generated and distributed to the City of Georgetown and the contractor.
e. The ENGINEER will hold bi-monthly construction progress meetings. These meetings will include meeting agendas covering project specifics and schedules. Notes will be taken by the ENGINEER at the meetings.

Minutes will then be developed and distributed to the City of Georgetown Staff and the contractor.

f. The ENGINEER will make periodic visits the project site. These site visits are utilized to perform a general overview of the project and answer any questions the contractor may have. The City of Georgetown will provide daily on-site representation for the project.

g. The ENGINEER will develop pay estimate forms for the project. These will be distributed to City Staff and the contractor. The ENGINEER will review the pay requests with City Staff.

h. The ENGINEER shall review and respond to Requests for Information provided by the Contractor or City Staff.

i. The ENGINEER shall review and provide comments, if any, to change order requests provided by the Contractor. The ENGINEER shall prepare the agreed upon change order utilizing the City of Georgetown Change Order Form and distribute for execution.

j. The ENGINEER will conduct a final walk through of the project. Punch list items will be generated during this review. A letter addressed to City Staff will be generated discussing the findings of the walk through. The contractor will be copied on this letter as well.

k. The ENGINEER will develop final record Drawings for the City of Georgetown Staff. The record Drawings will be presented in the form of a DVD with pdf of each plan sheet and a full 11x17 hard copy as well as the CAD file for GIS use.

l. The ENGINEER will prepare a project closeout package that will include final record drawings, final pay estimate, final closeout change order and any other project closeout documentation.

SUBJECT:
Task Order VOL-26-001 Volkert, Inc. to design East SH29 from Haven Lane to Patriot Way

SUGGESTED ACTION:
Consideration and possible action to approve Task Order VOL-26-001 with Volkert, Inc, for professional services related to the East SH29 from Haven Lane to Patriot Way in the amount of $466,442.00 -- Wesley Wright, P.E., Systems Engineering Director, and David Herzog, CIP Manager

ITEM SUMMARY:
In 2023, Council approved Task Order VOL-23-001 with Volkert, Inc. to begin preliminary engineering for SH 29 from Haven Lane to Patriot Way. This task order would take the existing two lane roadway into a major arterial with four main lanes, a continuous center turn lane, and a 10 foot shared use path. The preliminary design also covered drainage, traffic, utilities, and other related improvements. All data collected during this phase was used to develop a 30% schematic.

This Task order will advance the 30% schematic to a 100% schematic. A key component required for completion is drainage. Volkert will prioritize a comprehensive drainage and detention analysis including identification of outfall locations and detention placement.

Converting the existing 2-lane road and turning it into a major arterial will require additional Right-Of Way (ROW). The existing ROW widths varies from 100'-135' and the improved roadway is estimated to require up to 175 feet. As part of this task order Volkert will survey the areas that will need to be acquired and prepare metes and bounds. With the permanent ROW needed, the consultant will also prepare metes and bounds for any temporary construction easements that may be needed. With obtaining all metes and bounds at this time, it will help accelerate the ROW acquisition once funding is obtained.

Volkert estimates completion of the 100% schematic within five months after receiving Notice to Proceed.

FINANCIAL IMPACT:
Funds for this expenditure are budgeted in the FY 2026 Transportation CIP Budget. PRJ000471

TASK ORDER

Task Order No. VOL-26-001, consisting of **15** pages.

Task Order

In accordance with paragraph 1.01 of the Master Services Agreement between Owner and Volkert, Inc. ("Engineer") for Professional Services – Task Order Edition, dated **February 10, 2023** ("Agreement"), Owner and Engineer agree as follows:

1. **Specific Project Data**

   A. Title: SH 29 Improvements

   B. Description: Preliminary & Final 100% Schematic for roadway, drainage, traffic, utility, pedestrian facility, and associated improvements to SH 29 from Havens Lane to Patriot Way for approximately 2.76 miles.

   C. City of Georgetown Project Number: _____

   D. City of Georgetown General Ledger Account No.: _____

   E. City of Georgetown Purchase Order No.: _____

   F. Master Services Agreement, Contract Number: 23-0102-MSA_____

2. **Services of Engineer**

   See EXHIBIT A – Schedule of Engineer's Services

3. **Owner's Responsibilities**

   Owner shall have those responsibilities set forth in the Agreement subject to the following:

   See EXHIBIT B – Schedule of Owner's Responsibilities

4. **Times for Rendering Services**

Phase	Completion Date
Preliminary 100% Schematic	September 11, 2026 (est)
Final 100% Schematic	December 16, 2026 (est)
City/TxDOT Approval	December 31, 2026 (est)

Copyright ©2004 National Society of Professional Engineers for EJCDC. All rights reserved.

5. **Payments to Engineer**

A. Owner shall pay Engineer for services rendered as follows:

Category of Services	***Compensation Method***	***Lump Sum or Not to Exceed Amount of Compensation for Services***
Basic Services		
Preliminary & Final (100%) Schematic Development	*Lump Sum*	*$ 232,389.00*
Preliminary & Final ROW Parcel Exhibits/Descriptions	*Lump Sum*	*$ 234,053.00*
	Total TO	$ 466,442.00

B. The terms of payment are set forth in Article 4 of the Agreement unless modified in this Task Order.

6. **Consultants:**

Volkert, Inc. – Prime (Design & Survey)

7. **Other Modifications to Agreement:**

N/A

8. **Attachments:**

TASK ORDER

Terms and Conditions: Execution of this Task Order by Owner and Engineer shall make it subject to the terms and conditions of the Agreement (as modified above), which Agreement is incorporated by this reference. Engineer is authorized to begin performance upon its receipt of a copy of this Task Order signed by Owner.

The Effective Date of this Task Order is _____, 2026.

EXHIBIT A
SCHEDULE OF ENGINEER'S SERVICES
SH 29 IMPROVEMENTS

PROJECT DESCRIPTION

Project Limits
The project limits are SH 29 from Havens Lane to Patriot Way for approximately 2.76 miles.

Existing Facility
The existing road is a 2-lane roadway with asphalt pavement and with varying widths of existing ROW 100ft to 135ft.

Proposed Facility
Proposed major arterial with four mainlanes (two in each direction), raised center median, curb and gutter, 10' shared use path on both sides, with an approximate proposed ROW width of 135ft to 171ft, from the project limits mention above.

Design Criteria
The proposed design criteria for the project will be developed from City of Georgetown (City) and TxDOT design criteria as applicable.

1. PROJECT MANAGEMENT

   a. Communication:

      - Designate one Licensed Professional Engineer (Texas) to be responsible for the project management, and all communications with the County and its representatives.

   b. Monthly Progress Report, Invoices, and Billings (**5** months assumed):

      - Submit monthly progress status reports to the City. Progress reports will include deliverable table, tasks completed, tasks/objectives that are planned for the upcoming periods, lists or descriptions of items or decisions needed from the City and its representatives. Subconsultant progress will be incorporated into the monthly progress report.
      - Prepare correspondence, invoices, and progress reports on a monthly basis in accordance with current City requirements.

   c. Quality Assurance and Quality Control (QA/QC) Reviews:

      - For each deliverable submittal, provide evidence of their internal review and mark-up of that deliverable as preparation for submittal and in accordance with submitted project specific QA/QC plan.
      - Provide continuous QA/QC throughout the duration of the scheduled services included herein to appraise both technical and business performance and provide direction for project activities.

   d. Project Coordination & Administration:

      - Prepare and maintain routine project record keeping including records of meetings and minutes.

- Correspondence and coordination will be handled through & with the concurrence of the City.
- Manage project activities (including documenting emails, phone and conference calls, maintain project files for the length of the project, meeting agendas, meeting minutes, and schedule meetings), direct Engineer's team/staff, coordinate and review sub-consultant work, correspond with the City and its representatives, and assist the City and its representatives in preparing responses to project-related inquiries.

e. Progress/Coordination Meetings:

- Attend a kickoff meeting and coordination/progress meeting with the City and its representatives and stakeholders, as necessary to communicate development of the project and design issues.
- Prepare agenda and sign-in sheets for external coordination/progress meetings.
- Prepare meeting minutes for review via email within three (3) business days of the external coordination/progress meeting.
- Conduct internal coordination meetings as required to advance the development of the project.

f. Project Schedule:

- Maintain a project schedule indicating tasks, subtasks, critical dates, milestones, and deliverables. Submit to City as requested.

g. **Deliverables:**

- Monthly Invoices and Progress Reports including Deliverable Table
- Meeting Minutes, Sign-In Sheets, and Agendas
- Project Schedule and Updates
- Project Files

2. ROUTE AND DESIGN STUDIES

a. Data Collection:

- Review record research and obtain existing information, including but not limited to: as-built plans, construction plans, right of way maps, traffic data/models, environmental reports, studies, future land use maps, floodplain data, official copies of FEMA floodplain and drainage models and analyses. Obtain site plans, master plans, and/or construction plans for projects within the project limits and abutting roadways. Obtain drainage studies, reports, and mapping for the project area, including reports for developments affecting the drainage area.
- Conduct a field investigation of the proposed roadway alignment and the surrounding area to determine field conditions including photographic record of notable existing features.
- Review the data collected and update organized information as needed.

b. Design Criteria:

- Analyze and identify project-specific design criteria (typical sections, design speed, functional classification, geometric criteria, drainage criteria) in accordance with the latest versions of City of Georgetown design standards, TxDOT design criteria and other associated local/state manuals, as applicable.
- Review design criteria utilized for existing schematic.

c. **Deliverables:**

- Preliminary & Final 100% Design Summary Report Form (pdf)

3. SCHEMATIC DEVELOPMENT

- Prepare Preliminary & Final 100% Schematic submittal per City/TxDOT Schematic submittal checklist and selected design criteria.
- Prepare Preliminary & Final 100% Engineering Costs Estimate for the construction quantities covering all items of the proposed work.
- Prepare Preliminary & Final 100% Cross-sections (every 100') for the construction elements of the proposed work for design purposes.
- Development of 3D model (ORD) reflecting the proposed design elements
- Address review comments from TxDOT & City staff (30% & 100% Reviews)

b. **Deliverables:**

- Preliminary & Final 100% Schematic (roll plots) including cost estimate.
- Preliminary & Final 100% Schematic cross-sections (roll plot or 11"x17" sheets)

4. DRAINAGE

a. Data Collection Review:

- Review information from the City and TxDOT including existing SH 29 and SH 130 and site development plans, project files, automated road inventory sheets, PMIS data, existing geometric conditions, existing typical sections, existing drainage facilities (including storm drain systems, detention, and water quality), existing bridge and culvert data, environmental data.
- Review documents for existing and proposed developments along proposed route from the City and City ordinances related to project development.

b. Cross Drainage Analysis Review:

- Review preliminary hydrology and hydraulic analysis of Smith Creek to confirm location and sizes for cross drainage as needed. Two (2) cross drainage structures were identified at Smith Creek and west of Indian Creek Drive.
- Update the Schematic Cross Drainage Technical Memorandum summarizing methodology, results, and cost estimate.

c. Detention Needs Analysis Review:

- The project currently has limited outfall locations and conversion from open ditch to closed drainage will require the use of offsite drainage easements to serve as outfalls. Identified outfall locations and easement locations will be reviewed for detention placement. These

easements will be along existing City ROW to the greatest extent possible. Storm drain analysis will not be evaluated or analyzed as part of this effort.

- The Engineer will review the amount of the total detention storage, using Malcom Small Watershed Method, to control ROW runoff for the design frequency based on hydrograph routing for the 1% storm event per the City's Drainage Criteria, as well as a rough estimate of the available on-site volume. Engineer will review the 1% storm event analysis to confirm detention storage needs, locations, grading for ponds, and ROW/easement requirements.
- The Engineer will review and update the Schematic Drainage Technical Memorandum as needed. No floodplain permits will be submitted for this schematic phase.

d. Water Quality Needs Analysis Review:

- BMP analysis: The Engineer review all BMPs previously permitted under the TCEQ Edwards Aquifer rules that might be impacted by the project. The Engineer shall review the amount of total suspended solids (TSS) being treated under these permitted BMPs and confirm right-of-way (ROW)/easement requirements for WQ BMPs identified in the schematic.
- TSS load analysis: The Engineer shall review the TSS load calculations to confirm the TSS amount required to be treated under the Edwards Aquifer rules. This calculation is based on the increase in the amount of impervious cover within the project area. The Engineer will review the 80% of the increase in TSS load resulting from the development on the project and confirm the locations identified for water quality BMP placement.
- The Engineer will review and update the Schematic Drainage Technical Memorandum as needed. For all identified permanent BMP treatment options, the Engineer will review the identified treatment options and confirm any necessary drainage easements required for the water quality BMPs. No coordination with TCEQ is anticipated at this schematic phase.

e. **Deliverables:**

- Updated Final 100% Schematic Drainage Technical Memorandum (pdf)

5. RIGHT-OF-WAY SURVEYS:

a. Abstracting:

- Obtain copies of all documents to define the existing ROW including TxDOT ROW maps, ROW conveyances, and subdivision plats indicating dedications of public ROW.
- Obtain copies of all existing ownership documents for the parent tracts along with all subdivision plats and recorded documents defining existing easements within, along or intersecting the existing ROW.

b. Field Surveys:

- Locate existing and set additional horizontal control points, as necessary.
- Obtain right-of-entry to survey on private property and prepare a spreadsheet of the information obtained.

- Locate property corners, ROW monumentation, and improvements within 50 feet of the proposed ROW necessary to produce property descriptions.
- Set appropriate monuments on the proposed ROW lines at intersecting property lines, and all points of curvature (PC), points of tangency (PT), angle points, and intersecting ROW lines of side streets.

c. Property Descriptions:

- Prepare a property description for each parcel in the form of a preliminary and final deliverable. Each property shall include a metes and bounds description and a parcel plat. If a temporary construction easement (TCE) is required, the TCE will require its own metes and bounds description. If a TCE is required, the TCE shall be depicted on the corresponding parcel plat. Each property description shall be signed and sealed by a Texas Registered Professional Land Surveyor (RPLS).
- Prepare a metes and bounds description for each parcel of land to be acquired and TCEs as applicable. The surveyor shall follow the standard formats for metes and bounds descriptions that TxDOT has developed.
- Prepare a parcel plat for each parcel of land to be acquired. The surveyor shall follow the standard formats for parcel plats that TxDOT has developed. If applicable, TCEs shall be depicted on the corresponding parcel plat.

d. **Deliverables:**

- Preliminary property exhibits & descriptions (pdf)
- Final property exhibits & descriptions (pdf)
- Copies of ownership documents indexed by parcel (pdf)
- Right of entry spreadsheet (Excel)

6. DELIVERABLES:

a. Preliminary & Final 100% Schematic:

- Rollplots of Preliminary & Final 100% schematic improvements in accordance with the City/TxDOT Schematic requirements, addressing all review comments from City and TxDOT from previous 30% Schematic phase.
- Preliminary & Final 100% Design Summary Report Forms (pdf)

b. Preliminary & Final 100% Schematic Cost Estimate:

- Include the updated cost estimates in accordance with City/TxDOT Bid Items (pdf)

c. Preliminary & Final 100% Cross-sections:

- Roadway cross-sections provided every 100-ft station (roll plot or 11”x17” sheets), developed from the 3D model (ORD) (pdf)

7. <u>EXCLUSIONS:</u>

   a. The following items are **not** included in this work authorization:

   - RIGHT-OF-WAY (ROW) MAPPING
   - TITLE COMMITMENTS OR LIMITED CERTIFICATES OF TITLE
   - CLOMR OR LOMR
   - PROPOSED RAISED MEDIAN PROJECT ASSESSMENT (required by TxDOT at or prior to 30% PS&E development)
   - ADDITIONAL ENVIRONMENTAL SERVICES FOR REVISIONS OR UPDATES TO APPROVED CE
   - GEOTECHNICAL SERVICES (including pavement design)
   - PLAN PREPARATION (PS&E) SERVICES
   - BIDDING PHASE SERVICES
   - CONSTRUCTION PHASE SERVICES
   - UTILITY COORDINATION, DESIGN, OR RELOCATION PLANS/ESTIMATES
   - ADDITIONAL SUBSURFACE UTILITY INVESTIGATION

EXHIBIT B
SCHEDULE OF OWNER'S RESPONSIBILITIES FOR SH 29 IMPROVEMENTS

In general, City of Georgetown and its representatives, to their best efforts will render services as follows:

1. Name, business address and phone number of City's project manager.

2. Assistance to the Engineer, as necessary, with obtaining data and information from other local, regional, State and Federal agencies required for this project.

3. Obtain Rights of Entry from landowners that are unwilling to grant access to the Engineer.

4. Provide available appropriate City/County data on file, plans and specifications that are deemed pertinent to the completion of the work required by the scope of services (including previous hydraulic studies, models, previous reports and studies, available existing traffic counts, and design year traffic projections).

5. Provide available criteria and full information as to the client's requirements for the project. Provide examples of acceptable format for the required deliverables.

6. Provide timely reviews and decisions necessary for the Engineer to maintain the project work schedule. Review recommendations offered by the Engineer, progress of work, and final acceptance of all documents.

7. Submittal of documentation to regulatory agencies for review and comment, when specified.

8. Support project development efforts with stakeholders, coordinate meetings and interface with stakeholders, as needed.

9. Post and maintain project information for public consumption on the City website.

10. Assist with Coordination between the Engineer, TxDOT, and the City's other subconsultants.

11. Negotiate with all utility companies for any agreements and/or relocations required.

12. Provide an agent as necessary to secure proposed ROW.

13. Review Engineer progress, submittals, and plan changes.

SUBJECT:
Task Order MEI-027-004 with McCord Engineering Inc. 25-0352-MSA

SUGGESTED ACTION:
Consideration and possible action to approve Task Order MEI-27-004 with McCord Engineering, Inc. for Electric Substation Design Services in the amount not to exceed $500,000.00 -- Richard Pajestka, Electric Engineering and Operations Manager

ITEM SUMMARY:
The purpose of this task order is to provide preliminary and final electric design services for unplanned New Development Projects, including service delivery design packages and load impact evaluations for new loads connected to the existing system, along with preliminary and final engineering submittals for construction.

FINANCIAL IMPACT:
Funds are available in the FY27 CIP Budget.

SUBMITTED BY:
Pam Cofer, Electric Department

Task Order No. MEI-27-004
consisting of 3 pages.

Task Order

In accordance with paragraph 1.01 of the Master Services Agreement between Owner and McCord Engineering, Inc. ("Engineer") for Professional Services – Task Order Edition, September 9, 2025 ("Agreement"), Owner and Engineer agree as follows:

I. **Specific Project Data**

A. Title: Electric Substation Design Services

B. Description: The Engineer will provide general electrical engineering support to the City of Georgetown Electric Department regarding substation projects as outlined in Section 2.

C. City of Georgetown Project Number: Various

D. City of Georgetown General Ledger Account No.: Various

E. City of Georgetown Purchase Order No.: Various

F. Master Services Agreement, Contract Number: 25-0352-MSA

2. **Services of Engineer**

Engineer will assist City of Georgetown with the following:

- Design modern, protective-relaying substation schemes and controls to client specification for distribution application. Provide protection schematic design, control panel design, wiring diagrams, relay scheme and program development, logic diagram development, coordination and protection studies, and field programming of relays and IEDs.
- System Planning
- System Analysis and Operational Support
- Project Management
- Construction Management and Full-Scope EPC
- SCADA Implementation and Support
- Field Staking and Design
- Electric System Inspections
- Substation Equipment Testing and Commissioning

3. **Owner's Responsibilities**

Owner shall have those responsibilities set forth in the Agreement subject to the following:

EJCDC E-505 Standard Form of Agreement Between Owner and Engineer Professional Services—Task Order Edition Copyright ©2004 National Society of Professional Engineers for EJCDC. All rights reserved.

Owner will provide access to Partners and electric model for McCord Engineering personnel.

4. **Times for Rendering Services**

N/A since general projects

5. **Payments to Engineer**

A. Owner shall pay Engineer for services rendered as follows:

Category of Services	*Compensation Method*	*Lump Sum or Not to Exceed Amount of Compensation for Services*
Basic Services Substation Engineering Design	A. As needed	NTE $$ 500,000

B. The terms of payment are set forth in Article 4 of the Agreement unless modified in this Task Order.

6. **Consultants:**
N/A

7. **Other Modifications to Agreement:**
N/A

8. **Attachments:**
N/A

9. **Documents Incorporated By Reference:** The Agreement 25-0352-MSA dated September 9, 2025

Terms and Conditions: Execution of this Task Order by Owner and Engineer shall make it subject to the terms and conditions of the Agreement (as modified above), which Agreement is incorporated by this reference. Engineer is authorized to begin performance upon its receipt of a copy of this Task Order signed by Owner.

The Effective Date of this Task Order is_____, 20_26

MASTER SERVICES AGREEMENT BETWEEN OWNER AND ENGINEER FOR PROFESSIONAL SERVICES TASK ORDER EDITION

CONTRACT NO. 25-0352-MSA

THIS IS AN AGREEMENT effective as of _____ ("Effective Date") between the City of Georgetown, A Texas Home Rule Municipal Corporation ("Owner" or "City") and McCord Engineering, Inc., a Texas Corporation ("Engineer").

From time to time Owner may request that Engineer provide professional services for Specific Projects. Each engagement will be documented by a Task Order. This Agreement sets forth the general terms and conditions which shall apply to all Task Orders duly executed under this Agreement.

Owner and Engineer agree as follows:

ARTICLE 1 – SERVICES OF ENGINEER

1.01 *Scope*

A. Engineer's services ("Services") will be detailed in a duly executed Task Order for each Specific Project. Each Task Order will indicate the specific tasks and functions to be performed and deliverables to be provided.

B. The general format of a Task Order is shown in Attachment 1 to this Agreement.

C. This Agreement is not a commitment by Owner to Engineer to issue any Task Orders.

D. A Task Order will be effective when executed by Owner and Engineer. Engineer shall not perform under any prospective Task Order unless and until a Task Order is executed by Owner and Engineer.

1.02 *Task Order Procedure*

A. Owner and Engineer shall agree on the scope, time for performance, and basis of compensation for each Task Order. Each duly executed Task Order shall be subject to the terms and conditions of this Agreement.

B. Engineer will commence performance as set forth in the Task Order. When Services under a Task Order are eighty percent (80 %) complete, Engineer shall provide written notice to Owner's Designated Representative (1) certifying that Engineer will complete the scope of Services for the amount of the Task Order and in the time required by the Task Order; or (2) explaining why Engineer is unable or unwilling to make such certification. When a Task Order includes more than one phase of Services, Engineer shall provide the notice at eighty percent (80%) completion of each phase.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

C. Changes in an approved Task Order may be initiated by the Engineer or Owner by a Task Order Amendment. The Task Order Amendment shall: (i) describe a change in scope, including Services to be added, changed, or deleted; (ii) state the additional cost or cost reduction; and (iii) described schedule changes, if any. A Task Order Amendment will be effective when executed by Owner and Engineer. Engineer shall not perform under any prospective Task Order Amendment unless and until the Task Order Amendment is executed by Owner and Engineer. Oral amendments to a Task Order will have no effect, except in cases of an emergency threatening personal injury or property damage. In such case, the Owner and Engineer will document the Task Order Amendment in writing, as soon as possible.

D. If Engineer becomes aware that a change concerning a Specific Project may require a Task Order Amendment to increase the scope of Services, request additional cost or request additional time, Engineer shall provide written notice to the Owner's Designated Representative within ten (10) days. If Engineer determines that a Task Order Amendment is required as a result of the change, Engineer shall initiate a Task Order Amendment within ten (10) days.

1.03 *Task Order Amount.* Engineer shall provide a not-to-exceed amount to perform the scope of Services included in the Task Order. A Level of Effort Table will be submitted to Owner to document and support Engineer's calculation of the not to exceed amount, including but not limited to a Standard Hourly Rate Schedule and a Reimbursable Expense Schedule.

ARTICLE 2 – OWNER'S RESPONSIBILITIES

2.01 *General.* Owner shall have the responsibilities set forth herein, in this Agreement and in a Task Order.

ARTICLE 3 – TERM; TIMES FOR RENDERING SERVICES

3.01 *Term.* This Agreement shall be effective and applicable to Task Orders issued hereunder for three (3) years from the Effective Date of the Agreement.

3.02 *Times for Rendering Services*

A. The times for performing Services or providing deliverables will be stated in each Task Order. Time is of the essence.

B. Owner shall make decisions and carry out its other responsibilities in a timely manner so as not to delay the Engineer's performance of its Services.

C. If Engineer fails, through its own fault, to complete the performance required in a Task Order within the time set forth, as duly adjusted, then Owner shall be entitled to the recovery of damages resulting from such failure.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition

ARTICLE 4 – PAYMENTS TO ENGINEER

4.01 *Invoices – Preparation and Submittal of Invoices.* Engineer shall prepare invoices in accordance with the specific Task Order. Engineer shall submit invoices to Owner on a monthly basis.

4.02 *Payments*

A. Owner agrees to pay Engineer in accordance with Texas Government Code Chapter 2251. Engineer shall pay all Consultants and other expenses incurred under the Task Order in accordance with Texas Government Code Chapter 2251.

B. *Compensation Methods.* Engineering Services will be compensated in accordance with one or more of the following methods as specified in the Task Order:

1. *Lump Sum Method.* The Lump Sum will include compensation for Engineer's services and services of Consultants, if any. Appropriate amounts will be incorporated in the Lump Sum to account for labor, overhead and profit. Owner will pay Engineer for reasonable and customary Reimbursable Expenses in addition to the Lump Sum.

2. *Standard Hourly Rates Method.* The cumulative hours charged to the Specific Project is calculated by multiplying each class of Engineer's employees by the Standard Hourly Rates for each applicable billing class for all Services performed on the Specific Project and Consultant's charges, if any. Standard Hourly Rates include salaries and wages paid to personnel in each billing class plus the cost of Customary and statutory benefits, general and administrative overhead, non-project operating costs, and operating margin of profit. In addition, Owner will pay Engineer for reasonable and customary Reimbursable Expenses.

C. *Failure to Pay.* If Owner fails to make any payment that is due, Engineer may, after giving seven (7) days written notice to Owner, suspend services under the Task Order until Owner pays the amount due.

D. *Disputed Invoices.* If Owner contests an invoice, Owner may withhold only that portion so contested, and must pay the undisputed portion.

ARTICLE 5 – OPINIONS OF COST

5.01 *Opinions of Cost.*

A. Engineer's opinions of probable Construction Cost are to be made on the basis of Engineer's experience and qualifications and represent Engineer's judgment as an experienced and qualified professional generally familiar with the construction industry. However, Engineer does not guarantee that proposals, bids, or actual Construction Cost will not vary from opinions of probable Construction Cost prepared by Engineer.

B. Engineer's opinions of Total Project Costs are to be made on the basis of Engineer's experience and qualifications and represent Engineer's judgment as an experienced and qualified professional generally familiar with the construction industry. However,

Engineer does not guarantee that Total Project Costs will not vary from opinions of Total Project Costs prepared by Engineer.

5.02 *Designing to Construction Cost Limit*

A. If a Construction Cost limit is established between Owner and Engineer in a Task Order, Engineer's rights and responsibilities with respect thereto will be governed by the terms of the Task Order.

ARTICLE 6 – GENERAL CONSIDERATIONS

6.01 *Standards of Performance*

A. The standard of care for all professional engineering and related services performed or furnished by Engineer under this Agreement will conform to standard engineering practices and applicable rules and regulations of the Texas Engineering Practices Act and the rules of the Texas Board of Professional Engineers. Engineer warrants that the professional engineering and related services performed or furnished by Engineer under this Agreement, and Task Order issued under this Agreement, if any, shall meet or exceed such standard of care.

B. Owner shall not be responsible for discovering deficiencies in the technical accuracy of Engineer's services. Engineer shall correct any such deficiencies in technical accuracy without additional compensation, except to the extent such corrective action is directly attributable to deficiencies in Owner-furnished information, not reasonably known or discoverable by Engineer.

C. Engineer shall serve as Owner's prime professional under each Task Order. Engineer may employ such Consultants as Engineer deems necessary to assist in the performance or furnishing of the Services, subject to reasonable, timely, and substantive objections by Owner.

D. Subject to the standard of care set forth in Paragraph 6.01.A, Engineer and its Consultants may use or rely upon design elements and information ordinarily or customarily furnished by others, including, but not limited to, specialty contractors, manufacturers, suppliers, and the publishers of technical standards.

E. Engineer and Owner shall comply with applicable Laws and Regulations and additional Owner-mandated standards, if any, that Owner has provided to Engineer in writing. This Agreement is based on these requirements as of the Effective Date of each Task Order. Changes to these requirements after the Effective Date of each Task Order may be the basis for modifications to Owner's responsibilities or to Engineer's scope of services, times of performance, and compensation.

F. Engineer shall not be required to sign any documents, no matter by who requested, that would result in Engineer having to certify, guarantee, or warrant the existence of conditions whose existence Engineer cannot ascertain within its Services for that Specific Project. Owner agrees not to make resolution of any dispute with Engineer or payment of

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

any amount due to the Engineer in any way contingent upon Engineer signing any such certification.

G. Engineer shall not at any time supervise, direct, or have control over a Contractor's work, nor shall Engineer have authority over or responsibility for the means, methods, techniques, sequences, or procedures of construction selected or used by a Contractor, for security or safety at any Site, for safety precautions and programs incident to a Contractor's work in progress, nor for any failure of a Contractor to comply with Laws and Regulations applicable to a Contractor's furnishing and performing the Work.

H. Engineer neither guarantees the performance of any Contractor nor assumes responsibility for any Contractor's failure to furnish and perform the Work in accordance with the Contract Documents.

I. Engineer shall not be responsible for the acts or omissions of any Contractor, subcontractor, or supplier, or of any of their agents or employees or of any other persons (except Engineer's own employees and its Consultants) at a Site or otherwise furnishing or performing any of a Contractor's work; or for any decision made on interpretations or clarifications of the Contract Documents given by Owner without consultation and advice of Engineer.

J. Engineer shall at all times be an independent contractor with the sole authority to control and direct the performance of the details of the Services. Engineer shall not purport to be an employee or agent of the City and shall not have any right or power to bind the City to any obligation.

K. Engineer shall procure and maintain at its expense all licenses and permits necessary to perform Services. Engineer shall require that its employees and Consultants are properly licensed to perform their respective portion of Services.

L. The Services to be performed under this Agreement shall be performed entirely at Engineer's risk. Engineer shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the Services to be performed under this Agreement. Engineer shall take all reasonable precautions for the safety of and shall provide all reasonable protection to prevent damage, injury, or loss to employees, the Services, endangered species, or the property affected by this Agreement. All damage or loss to any property caused in whole or in part by Engineer, Consultant, or anyone employed by either of them shall be remedied by Engineer.

6.02 *Ownerships of Documents*

A. City shall have the title to and ownership of all documents produced or developed by Engineer in connection with a Task Order issued pursuant to this Agreement. Documents include publications, plans drawings, designs, specifications, photographs, studies, reports schedules, computer programs, and other data and work product, in any form or media. Owner shall have sole ownership of all copyright interest in all documents to the extent that documents may be copyrighted. Engineer shall deliver all documents to the Owner at completion of the Specific Project under a Task Order, termination of Services under a Task Order, or upon Owner's request. Engineer may retain copies of its work product.

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

6.03 *Insurance*

A. At all times for the term of this Agreement and when any Task Order is under performance, Engineer shall procure and maintain insurance as set forth in Exhibit G, "Insurance." Engineer's failure to purchase and maintain the required insurance shall be grounds for Owner's termination or suspension of this Agreement or a Task Order.

B. Engineer shall cause Owner and its elected officials, officers, directors, employees, representatives and volunteers to be listed as an additional insured on any applicable general liability insurance policy carried by Engineer which is applicable to a Specific Project. The additional insured status must cover completed operations as well, and the policy covering completed work must remain in effect until the expiration of the statute of repose. As respects the Workers Compensation policy, the Engineer will waive subrogation in favor of the Owner.

C. Engineer must complete and forward the required Certificates of Insurance to the Owner when Engineer executes this Agreement as verification of coverage required as indicated. Engineer shall not provide any Services under a Task Order until the required insurance is obtained and until such insurance has been reviewed by the Owner. Approval of insurance by the Owner shall not relieve or decrease the liability of Engineer and shall not be construed to be a limitation of liability on the part of Engineer. Engineer must also complete and forward the required Certificates of Insurance to the Owner whenever a previously indentified policy period has expired as verification of continuing coverage.

D. Engineer's insurance coverage shall be written by companies licensed and authorized to do business in the State of Texas before the policies are issued and shall be written by companies with A.M. Best rating A VIII or better.

E. All endorsements naming the Owner as additional insured, waivers, and notices of cancellation, as well as the Certificates of Insurances shall indicate: City of Georgetown, 300-1 Industrial Avenue, Georgetown, Texas 78626, ATTN: Contract Manager.

F. The "other insurance" clause shall not apply to the Owner where the Owner is an additional insured shown on any policy. It is agreed that the Engineer's general liability insurance shall be considered primary with respect to any insurance or self insurance carried by the Owner. The Owner's insurance shall apply separately to each insured against whom a claim is made and/or lawsuits brought, except with respect to the limits of insured's liability.

G. If insurance policies are not written for the specified amounts, Engineer shall carry Umbrella or Excess Liability Insurance for any differences in amounts specified. If Excess Liability Insurance is provided, it shall follow the form of the primary coverage.

H. Owner shall be entitled, upon request and without expense, to receive "certified copies" of policies and policy endorsements and may make any reasonable requests for deletion or revision or modification of particular policy terms, conditions, limitations, or exclusions except where policy provisions are established by law or regulations binding upon either of the Parties or the underwriter on any such policies.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

I. Owner reserves the right to review the insurance requirements during the effective period of this Agreement and to make reasonable adjustments to insurance coverage, limits and exclusions when deemed necessary and prudent by the Owner. Owner may request, in a Task Order or Task Order Amendment, that Engineer and its Consultants provide additional insurance coverage, increased limits, or revised deductibles that are more protective than those specified in Exhibit G. Engineer shall obtain and shall require its Consultants to obtain such additional insurance coverage, different limits, or revised deductibles for such periods of time as requested by Owner in the Task Order or Task Order Amendment.

J. Engineer shall not allow any insurance to be cancelled nor permit any insurance to lapse during the term of this Agreement or as required in this Agreement. The policies must contain the following language: "This policy shall not be cancelled or not renewed until after thirty (30) days prior written notice has been given to the additional insured, the City of Georgetown." In addition, Engineer shall provide Owner thirty (30) days written notice of erosion of the aggregate limits below occurrence limits for all applicable coverages indicated within the Agreement.

K. Engineer shall be responsible for premiums, deductibles and self-insured retentions, if any, as stated in policies. All deductibles or self-insured retentions shall be disclosed on the Certificates of Insurance.

L. If Owner's property is being transported or stored off-site by Engineer, then the appropriate property policy will be endorsed for transit and storage in an amount sufficient to protect the Owner's property.

M. The insurance coverages required under this Agreement are required minimums and are not intended to limit the responsibility or liability of Engineer.

N. Without limiting any of the other obligations or liabilities of the Engineer, the Engineer shall require each Consultant performing work under a Task Order to maintain during the term of the Task Order, at the Consultant's expense, the same stipulated minimum insurance including the required provisions and additional policy conditions as shown above. As an alternative, the Engineer may include its Consultants as additional insureds on its own coverage as prescribed under these requirements. The Engineer's Certificate of Insurance shall note in such event that the Consultants are included as additional insureds and that Engineer agrees to provide Workers Compensation for the Consultants and their employees. The Engineer shall obtain and monitor the Certificates of Insurance from each Consultant in order to comply with the insurance requirements. The Engineer must retain the Certificates of Insurance for the duration of the Task Order plus five (5) years and shall have the responsibility of enforcing these insurance requirements among its Consultants. The Owner shall be entitled, upon request and without expense, to receive copies of these Certificates of Insurance.

O. Owner shall require Contractors to purchase and maintain general liability and other insurance in accordance with the requirements of Paragraph 5.04 of the Standard General Conditions of the Construction Contract (No. C-700, 2002 Edition) of the Engineers Joint Contract Documents Committee, and to cause Engineer and its Consultants to be listed as

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition

additional insureds with respect to such liability and other insurance purchased and maintained by Contractors.

6.04 *Suspension and Termination*

A. *Suspension*

1. Owner has the right to suspend all or any portion of the Services to be performed under a Task Order upon ten (10) days written notice to Engineer. Upon receipt of a notice of suspension, Engineer shall:

   a. immediately suspend Services on the date and to the extent specified in the notice;

   b. protect and maintain the portion of the Services completed, including the portion of the Services suspended, unless otherwise specifically stated in the notice; and

   c. continue to perform the Services not suspended.

2. If Owner suspends Services to be performed under a Task Order, Owner shall pay Engineer, as specified in the Task Order, for the Services completed to the date of suspension. Owner will also reimburse Engineer for the following costs, without duplication of any item, to the extent that such costs actually result from such suspension of Services:

   a. a reasonable standby charge to compensate Engineer for keeping (to the extent required in the notice) its organization and equipment committed to the Services in standby status;

   b. reasonable costs associated with demobilization of Engineer's facility, forces and equipment; and

   c. reasonable cost of maintaining and protecting that portion of the Services upon which activities have been suspended.

3. Engineer shall not be entitled to receive any other compensation or reimbursement resulting from a suspension in Services under a Task Order.

4. Upon receipt of notice to restart the suspended portion of Services, Engineer shall immediately resume performance to the extent required in the notice. Within ten (10 days after receipt of notice to resume the suspended portion, the Engineer shall submit a revised schedule for approval by Owner. If, as a result of any suspension, the cost to Engineer of subsequently performing the Services or the time required to perform the Services is changed, Engineer may initiate a Task Order Amendment.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

B. *Termination.* The obligation to provide further services under this Agreement, or under a Task Order, may be terminated:

1. For Cause,

a. The obligation to provide further services under this Agreement, or under a Task Order, may be terminated by Owner, for cause, upon ten (10) days written notice in the event of substantial failure by Engineer to perform in accordance with this Agreement or any Task Order. This Agreement, or Task Order, will not terminate if the Engineer corrects the failure to perform and proceeds diligently to cure such failure within no more than thirty (30) days of receipt of the notice. If Engineer fails to cure the default, Owner may provide written notice of termination to Engineer.

b. The obligation to provide further services under this Agreement, or under Task Order, may be terminated by Engineer, for cause, upon ten (10) days written notice in the event of substantial failure by Owner to perform in accordance with the terms of this Agreement or any Task Order. This Agreement, or a Task Order, will not terminate if the Owner corrects the failure to perform and proceeds diligently to cure such failure within no more than thirty (30) days of receipt of the notice. If Owner fails to cure the default, Engineer may provide written notice of termination to Owner.

2. For Convenience,

a. Owner has the right to terminate a Task Order under this Agreement for convenience at any time by providing ten (10) days written notice to Engineer. Upon receipt of a notice of termination for convenience, Engineer shall:

1) immediately cease providing Services under the Task Order; and

2) protect and maintain the portion of the Services completed, unless otherwise specifically stated in the notice.

b. In the event of a termination for convenience, Owner shall pay Engineer, as specified in the Task Order, for the Services completed to the date of termination. Owner shall not be liable for special, incidental, consequential or punitive damages, for loss of anticipated future Services, anticipated profits, administrative costs or overhead on anticipated Services, or other indirect costs as a result of a termination for convenience.

6.05 *Controlling Law*

A. This Agreement is to be governed by and construed in accordance with Texas law. Owner and Engineer each submit to the exclusive jurisdiction of the state and federal courts in Williamson County, Texas. Owner does not waive the defense of sovereign immunity.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

6.06 *Successors, Assigns, and Beneficiaries*

A. Owner and Engineer each is hereby bound and the partners, successors, executors, administrators and legal representatives of Owner and Engineer are hereby bound to the other Party to this Agreement and to the partners, successors, executors, administrators and legal representatives (and said assigns) of such other Party, in respect of all covenants, agreements and obligations of this Agreement.

B. Neither Owner nor Engineer may assign, sublet, or transfer any rights under or interest (including, but without limitation, moneys that are due or may become due) in this Agreement without the written consent of the other, except to the extent that any assignment, subletting, or transfer is mandated or restricted by law. Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement.

C. There are no third-party beneficiaries to this Agreement. The provisions of this Agreement do not, and shall not be construed to, create any legal or equitable right, remedy or claim enforceable by any person or entity other than Owner and Engineer. Unless expressly provided otherwise in this Agreement:

1. Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by Owner or Engineer to any Contractor, Contractor's subcontractor, supplier, other individual or entity, or to any surety for or employee of any of them.

2. All duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of Owner and Engineer and not for the benefit of any other party.

D. Owner agrees that the substance of the provisions of this Paragraph 6.07.C shall appear in the Contract Documents.

6.07 *Dispute Resolution*

A. If a dispute arises under this Agreement or a Task Order, Owner and Engineer agree to negotiate the dispute between them in good faith for a period of 30 days from the date of written notice of the dispute.

B. If the Parties fail to resolve a dispute through negotiation under Paragraph 6.07.A, then Owner and Engineer agree that they shall submit any and all unsettled claims, counterclaims, and other matters in question between them arising out of or relating to this Agreement or a Task Order to mediation.

C. If mediation is unsuccessful in resolving a dispute, then any and all unsettled claims, counterclaims, and other matters in question between Owner and Engineer arising out of or relating to this Agreement or Task Order (a) may be submitted to binding arbitration by written agreement of the Parties, or (b) may be filed by either Party in a court of competent jurisdiction.

D. Upon Owner's request, Engineer shall proceed with performance of Services pending final resolution of a dispute arising under this Agreement or a Task Order.

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

6.08 *Environmental Condition of Site*

A. With respect to each Task Order, Specific Project, and Site:

1. Owner has disclosed to Engineer in writing the existence of all known and suspected Asbestos, PCBs, Petroleum, Hazardous Waste, Radioactive Material, hazardous substances, and other Constituents of Concern located at or near the Site, including type, quantity, and location.

2. Owner represents to Engineer that to its knowledge no Constituents of Concern, other than those disclosed in writing to Engineer, exist at the Site.

3. If Engineer encounters an undisclosed Constituent of Concern, then Engineer shall notify (a) Owner and (b) appropriate governmental officials if Engineer reasonably concludes that doing so is required by applicable Laws or Regulations.

4. If Engineer or any other Party encounters an undisclosed Constituent of Concern, or if investigative or remedial action, or other professional services, are necessary with respect to disclosed or undisclosed Constituents of Concern, then Engineer may, at its option and without liability for consequential or any other damages, suspend performance of services on the portion of the Specific Project affected thereby until the Site is in full compliance with applicable Laws and Regulations.

5. If the presence at the Site of undisclosed Constituents of Concern adversely affects the performance of Engineer's services under a Task Order, then the Engineer shall have the option of (a) submitting a Task Order Amendment for adjustment in its compensation or in the time of completion, or both; or (b) terminating this Agreement for cause.

6.09 *Indemnification*

A. **General Obligation to Indemnify and Defend. TO THE FULLEST EXTENT PERMITTED BY LAW, ENGINEER AGREES TO INDEMNIFY AND HOLD HARMLESS THE OWNER, ITS ELECTED OFFICIALS, OFFICERS, DIRECTORS, AGENTS, EMPLOYEES, REPRESENTATIVES AND VOLUNTEERS OF AND FROM DAMAGES, INJURIES (INCLUDING DEATH), CLAIMS, PROPERTY DAMAGES (INCLUDING LOSS OF USE), LOSSES, DEMANDS, FORFEITURES, PENALTIES, FINES, COSTS, LAWSUITS, LIABILITIES, ACTIONS, AND CAUSES OF ACTION, OF EVERY KIND WHATSOEVER, AND EXPENSES, INCLUDING BUT NOT LIMITED TO FEES AND CHARGES OF ENGINEERS, ATTORNEYS, AND OTHER PROFESSIONALS, AND COURT, ARBITRATION, OR OTHER DISPUTE RESOLUTION COSTS, AND EXPENSES AND COSTS OF INVESTIGATION, ARISING OUT OF OR RELATING TO THIS AGREEMENT, ANY TASK ORDER, OR ANY SPECIFIC PROJECT, TO THE EXTENT CAUSED BY 1) THE NEGLIGENT ACT OR OMISSION OR WILLFUL ACTS OF ENGINEER OR ENGINEER'S OFFICERS, DIRECTORS, PARTNERS, AGENTS, EMPLOYEES, OR CONSULTANTS OR 2) MATERIAL BREACH OF THIS AGREEMENT OR TASK ORDER. ENGINEER FURTHER AGREES TO DEFEND, AT ITS OWN**

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

EXPENSE, ON BEHALF OF THE OWNER AND IN THE NAME OF THE OWNER, SUITS AND PROCEEDINGS INSTITUTED AGAINST OWNER TO WHICH THE INDEMNITY OBLIGATION APPLIES, AND PAY AWARDS OF DAMAGES ASSESSED WHICH RESULT FROM ANY SUCH CLAIM, SUIT OR PROCEEDING, INCLUDING ASSOCIATED EXPENSES, ATTORNEY FEES, COSTS OF INVESTIGATION, ARBITRATION AND/OR LITIGATION.

B. **Intellectual Property.**

1. ENGINEER AGREES TO INDEMNIFY AND HOLD HARMLESS THE OWNER, ITS ELECTED OFFICIALS, OFFICERS, DIRECTORS, AGENTS, EMPLOYEES, REPRESENTATIVES AND VOLUNTEERS OF AND FROM DAMAGES, CLAIMS, LOSSES, DEMANDS, FORFEITURES, PENALTIES, FINES, COSTS, LAWSUITS, LIABILITIES, ACTIONS, CAUSES OF ACTION OF EVERY KIND WHATSOEVER, AND EXPENSES, INCLUDING BUT NOT LIMITED TO FEES AND CHARGES OF ENGINEERS, ATTORNEYS, AND OTHER PROFESSIONALS, AND COURT, ARBITRATION, OR OTHER DISPUTE RESOLUTION COSTS, AND EXPENSES AND COSTS OF INVESTIGATION, TO THE EXTENT CAUSED BY ALLEGED INFRINGEMENT OF PATENT OR COPYRIGHT OF THE UNITED STATES OR OF ANY TRADEMARK OR TRADE SECRET PROTECTED BY EITHER FEDERAL OR STATE LAW BY ENGINEER OR ENGINEER'S OFFICERS, DIRECTORS, PARTNERS, AGENTS, EMPLOYEES, OR CONSULTANTS. ENGINEER SHALL, AT ITS OWN EXPENSE, DEFEND SUITS OR PROCEEDINGS INSTITUTED AGAINST OWNER, AND PAY AWARDS OF DAMAGES ASSESSED WHICH RESULT FROM ANY SUCH CLAIM, SUIT OR PROCEEDING, INCLUDING ASSOCIATED EXPENSES, ATTORNEY FEES, COSTS OF INVESTIGATION, ARBITRATION AND/OR LITIGATION, AND SHALL ABIDE BY RESULTING DECREES AND COMPROMISES.

2. IF A RESTRAINING ORDER OR TEMPORARY INJUNCTION IS GRANTED, ENGINEER SHALL MAKE EVERY REASONABLE EFFORT, BY GIVING A SATISFACTORY BOND OR OTHERWISE, TO SECURE THE SUSPENSION OF ANY SUCH RESTRAINING ORDER OR TEMPORARY INJUNCTION. IF THE SERVICES ARE HELD TO CONSTITUTE AN INFRINGEMENT, AND PERMANENTLY ENJOINED, ENGINEER SHALL MAKE EVERY REASONABLE EFFORT TO SECURE FOR OWNER A LICENSE AT ENGINEER'S EXPENSE AUTHORIZING THE CONTINUED USE OF THE ALLEGED INFRINGING PORTION OF THE SERVICES. IF ENGINEER IS UNABLE TO SECURE SUCH LICENSE WITHIN A REASONABLE TIME, ENGINEER SHALL, AT ITS OWN EXPENSE AND WITHOUT IMPAIRING PERFORMANCE REQUIREMENTS, EITHER PROVIDE NON-INFRINGING REPLACEMENT OR MODIFY THE SERVICES TO ELIMINATE THE INFRINGEMENT. IN ADDITION TO INDEMNIFYING AND SAVING OWNER HARMLESS, ENGINEER SHALL REIMBURSE OWNER FOR

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

ANY COSTS INCURRED AS A RESULT OF THE UNAVAILABILITY OF THE INFRINGING ITEM OR ITS NONINFRINGING REPLACEMENT.

C. Engineer's indemnity obligations are independent covenants and shall survive completion of or termination of the Agreement or any claimed breach of the Agreement.

D. Owner shall promptly notify Engineer, in writing, of receipt of notice of the commencement or threatened commencement of any civil, administrative or investigative action or proceeding involving a claim for which Owner seeks indemnification. No failure to so notify Engineer shall relieve Engineer of its obligations under this Agreement except to the extent that Engineer can demonstrate damages attributable to such failure. Within fifteen (15) days following receipt of written notice from the Owner, but no later than ten (10) days before the date on which any response to a complaint or summons is due, Engineer shall assume control of the defense and/or resolution of the claim.

E. *Release*. Engineer assumes full responsibility for the Services to be performed and releases, relinquishes, and discharges the City, its elected officials, officers, directors, agents, employees, representatives and volunteers from all claims, demands, and causes of action of every kind and character, including the cost of defense, for any injury to or death of any person (whether employees of either Party or other third parties) and any loss of or damage to any property that is caused by or alleged to be caused by, arising out of, or in connection with Services performed under this Agreement or a Task Order. This release shall apply regardless of whether the claims, demands and/or causes of action are covered in whole or in part by insurance, and in the event of injury, death, property damage, or loss suffered by the Engineer, any Consultant, or any person or organization directly or indirectly employed by any of them to perform or furnish Services under this Agreement.

6.10 *Miscellaneous Provisions*

A. *Notices.* Any notice required under this Agreement will be in writing and sent to the Designated Representative by personal delivery, facsimile, registered or certified mail postage prepaid, or a commercial courier service. All notices shall be effective upon the date of receipt.

B. *Survival.* All express representations, waivers, indemnifications, and limitations of liability included in this Agreement will survive its completion or termination for any reason.

C. *Severability.* Any provision or part of the Agreement held to be void or unenforceable under any Laws or Regulations shall be deemed stricken and all remaining provisions shall continue to be valid and binding upon Owner and Engineer.

D. *Waiver.* A Party's non-enforcement of any provision shall not constitute a waiver of that provision, nor shall it affect the enforceability of that provision or of the remainder of this Agreement.

E. *Applicability to Task Orders.* The terms and conditions set forth in this Agreement apply to each Task Order as if set forth in the Task Order, unless specifically modified in the Task Order. In the event of a conflict between this Agreement and a Task Order, the

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

conflicting provisions of the Task Order shall take precedence for that Task Order. Such amendments shall be applicable to all Task Orders issued after the effective date of the amendment if not otherwise set forth in the amendment.

F. *Non-Exclusive Agreement.* Nothing herein shall establish an exclusive relationship between Owner and Engineer. Owner may enter into similar agreements with other professionals for the same or different types of services contemplated hereunder, and Engineer may enter into similar or different agreements with other owners for the same or different services contemplated hereunder.

G. *Certification Regarding Boycotting Israel.* Pursuant to Chapter 2271, Texas Government Code, Engineer certifies that it (1) does not currently boycott Israel; and (2) will not boycott Israel during the term of this Agreement. Engineer acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

H. *Certification Regarding Business with Certain Countries and Organizations.* Pursuant to Subchapter F, Chapter 2252, Texas Government Code, Engineer certifies it is not engaged in business with Iran, Sudan, or a foreign terrorist organization. Engineer acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

I. *Certification Regarding Boycotting Energy Companies.* Pursuant to Chapter 2274, Texas Government Code, Engineer certifies that either (1) it is a sole proprietorship or company with fewer than ten (10) employees or (2) it does not currently boycott energy companies and will not boycott energy companies during the Term of this Agreement. Engineer acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

J. *Certification Regarding Boycotting Firearm and Ammunition Industries.* Pursuant to Chapter 2274, Texas Government Code, Engineer certifies that either (1) it is a sole proprietorship or company with fewer than ten (10) employees or (2) it does not currently boycott firearm and ammunition industries; and will not boycott firearm and ammunition industries during the Term of this Agreement. Engineer acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

ARTICLE 7 – DEFINITIONS

7.01 *Defined Terms*

A. Wherever used in this Agreement (including the Exhibits hereto and any Task Order) terms (including the singular and plural forms) printed with initial capital letters have the meanings indicated in the text above, in the Exhibits or Task Order, or in the following provisions:

1. *Addenda* – Written or graphic instruments issued prior to the opening of Bids which clarify, correct, or change the Bidding Documents.

2. *Additional Services* – Services to be performed for or furnished to Owner by Engineer in accordance with a Task Order which are not included in Basic Services for that Task Order.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

3. *Agreement* – This "Master Services Agreement between Owner and Engineer for Professional Services – Task Order Edition" including those Exhibits listed in Article 8 and any duly executed Task Order.

4. *Application for Payment* – The form acceptable to Engineer which is to be used by a Contractor in requesting progress or final payments for the completion of its Work and which is to be accompanied by such supporting documentation as is required by the Contract Documents.

5. *Asbestos* – Any material that contains more than one percent asbestos and is friable or is releasing asbestos fibers into the air above current action levels established by the United States Occupational Safety and Health Administration.

6. *Basic Services* – Specified services to be performed for or furnished to Owner by Engineer in accordance with a Task Order.

7. *Bid* – The offer or proposal of a bidder submitted on the prescribed form setting forth the prices for the Work to be performed.

8. *Bidding Documents* – The advertisement or invitation to Bid, instructions to bidders, the Bid form and attachments, the Bid bond, if any, the proposed Contract Documents, and all Addenda, if any.

9. *Change Order* – A document recommended by Engineer, which is signed by a Contractor and Owner to authorize an addition, deletion or revision in the Work, or an adjustment in the Contract Price or the Contract Times.

10. *Constituent of Concern* – Any substance, product, waste, or other material of any nature whatsoever (including, but not limited to, Asbestos, Petroleum, Radioactive Material, and PCBs) which is or becomes listed, regulated, or addressed pursuant to (a) the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. §§9601 et seq. ("CERCLA"); (b) the Hazardous Materials Transportation Act, 49 U.S.C. §§1801 et seq.; (c) the Resource Conservation and Recovery Act, 42 U.S.C. §§6901 et seq. ("RCRA"); (d) the Toxic Substances Control Act, 15 U.S.C. §§2601 et seq.; (e) the Clean Water Act, 33 U.S.C. §§1251 et seq.; (f) the Clean Air Act, 42 U.S.C. §§7401 et seq.; and (g) any other federal, state, or local statute, law, rule, regulation, ordinance, resolution, code, order, or decree regulating, relating to, or imposing liability or standards of conduct concerning, any hazardous, toxic, or dangerous waste, substance, or material.

11. *Construction Agreement* – The written instrument which is evidence of the agreement, contained in the Contract Documents, between Owner and a Contractor covering the Work.

12. *Construction Contract* – The entire and integrated written agreement between Owner and a Contractor concerning the Work.

13. *Construction Cost* – The cost to Owner of those portions of an entire Specific Project designed or specified by Engineer. Construction Cost does not include costs of

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

services of Engineer or other design professionals and consultants, cost of land, rights-of-way, or compensation for damages to properties, or Owner's costs for legal, accounting, insurance counseling or auditing services, or interest and financing charges incurred in connection with a Specific Project, or the cost of other services to be provided by others to Owner. Construction Cost is one of the items comprising Total Project Costs.

14. *Consultants* – Individuals or entities having a contract with Engineer to furnish services with respect to a Specific Project as Engineer's independent professional associates, consultants, subcontractors, or vendors. The term Engineer includes Engineer's Consultants.

15. *Contract Documents* – Documents that establish the rights and obligations of the parties engaged in construction and include the Construction Agreement between Owner and a Contractor, Addenda (which pertain to the Contract Documents), a contractor's Bid (including documentation accompanying the Bid and any post-Bid documentation submitted prior to the notice of award) when attached as an exhibit to the Construction Agreement, the notice to proceed, the bonds, appropriate certifications, the General Conditions, the Supplementary Conditions, the Specifications and the Drawings as the same are more specifically identified in the Construction Agreement, together with all Written Amendments, Change Orders, Work Change Directives, Field Orders, and Engineer's written interpretations and clarifications issued on or after the Effective Date of the Construction Agreement. Approved Shop Drawings and the reports and drawings of subsurface and physical conditions are not Contract Documents.

16. *Contract Price* – The moneys payable by Owner to a Contractor for completion of the Work in accordance with the Contract Documents and as stated in the Construction Agreement.

17. *Contract Times* – The numbers of days or the dates stated in a Construction Agreement to: (i) achieve Substantial Completion, (ii) complete the Work so that it is ready for final payment as evidenced by Engineer's written recommendation of final payment, and (iii) meet any other specified milestone.

18. *Contractor* – An individual or entity with whom Owner enters into a Construction Agreement for a Specific Project.

19. *Correction Period* – The time after Substantial Completion during which a Contractor must correct, at no cost to Owner, any Defective Work, normally one year after the date of Substantial Completion or such longer period of time as may be prescribed by Laws or Regulations or by the terms of any applicable special guarantee or specific provision of the Contract Documents.

20. *Defective* – An adjective which, when modifying the word Work, refers to Work that is unsatisfactory, faulty, or deficient, in that it does not conform to the Contract Documents, or does not meet the requirements of any inspection, reference standard, test, or approval referred to in the Contract Documents, or has been damaged prior to Engineer's recommendation of final payment.

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

21. *Documents* – Data, reports, Drawings, Specifications, Record Drawings, and other deliverables, whether in printed or electronic media format, provided or furnished in appropriate phases by Engineer to Owner pursuant to this Agreement.

22. *Drawings* – That part of the Contract Documents prepared or approved by Engineer which graphically shows the scope, extent, and character of the Work to be performed by a Contractor. Shop Drawings are not Drawings as so defined.

23. *Effective Date of the Construction Agreement* – The date indicated in a Construction Agreement on which it becomes effective, but if no such date is indicated, it means the date on which the Construction Agreement is signed and delivered by the last of the two parties to sign and deliver.

24. *Effective Date of the Agreement* – The date indicated in this Agreement on which it becomes effective, but if no such date is indicated, it means the date on which the Agreement is signed and delivered by the last of the two parties to sign and deliver.

25. *Effective Date of the Task Order* – The date indicated in the Task Order on which it becomes effective, but if no such date is indicated, it means the date on which the Task Order is signed and delivered by the last of the two parties to sign and deliver.

26. *Field Order* – A written order issued by Engineer which directs minor changes in the Work but which does not involve a change in the Contract Price or the Contract Times.

27. *General Conditions* – That part of the Contract Documents which sets forth terms, conditions, and procedures that govern the Work to be performed or furnished by a Contractor with respect to a Specific Project. The "Standard General Conditions of the Construction Contract" as prepared by the Engineers Joint Contract Document Committee (Document No. C-700, 2007 Edition) will be used unless both Parties mutually agree in a Task Order to use other General Conditions.

28. *Hazardous Waste* – The term Hazardous Waste shall have the meaning provided in Section 1004 of the Solid Waste Disposal Act (42 USC Section 6903) as amended from time to time.

29. *Laws and Regulations; Laws or Regulations* – Any and all applicable laws, rules, regulations, ordinances, codes, standards, and orders of any and all governmental bodies, agencies, authorities, and courts having jurisdiction.

30. *PCBs* – Polychlorinated biphenyls.

31. *Petroleum* – Petroleum, including crude oil or any fraction thereof which is liquid at 32 degrees Fahrenheit and 14.7 pounds per square inch absolute, such as fuel oil, oil sludge, oil refuse, gasoline, kerosene, and oil mixed with other non-Hazardous Waste and crude oils.

32. *Radioactive Materials* – Source, special nuclear, or byproduct material as defined by the Atomic Energy Act of 1954 (42 USC Section 2011 et seq.) as amended from time to time.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

33. *Record Drawings* – The Drawings as issued for construction on which Engineer, upon completion of the Work, has shown changes due to Addenda or Change Orders and other information which Engineer considers significant based on record documents furnished by Contractor to Engineer and which were annotated by Contractor to show changes made during construction.

34. *Reimbursable Expenses* – Reasonable and customary expenses approved by Owner in a Task Order and incurred directly by Engineer in connection with the performing or furnishing of Services for a Specific Project for which Owner shall pay Engineer.

35. *Resident Project Representative* – The authorized representative, if any, of Engineer assigned to assist Engineer at the Site of a Specific Project during the Construction Phase. The Resident Project Representative will be Engineer's agent or employee and under Engineer's supervision. As used herein, the term Resident Project Representative includes any assistants of Resident Project Representative agreed to by Owner. The duties and responsibilities of the Resident Project Representative will be as set forth in each Task Order.

36. *Samples* – Physical examples of materials, equipment, or workmanship that are representative of some portion of the Work and which establish the standards by which such portion of the Work will be judged.

37. *Shop Drawings* – All drawings, diagrams, illustrations, schedules, and other data or information which are specifically prepared or assembled by or for a Contractor and submitted by a Contractor to Engineer to illustrate some portion of the Work.

38. *Site* – Lands or areas indicated in the Contract Documents for a Specific Project as being furnished by Owner upon which the Work is to be performed, rights-of-way and easements for access thereto, and such other lands furnished by Owner which are designated for use of a Contractor.

39. *Specifications* – That part of the Contract Documents prepared by Engineer consisting of written technical descriptions of materials, equipment, systems, standards, and workmanship as applied to the Work to be performed by a Contractor and certain administrative details applicable thereto.

40. *Specific Project* – An undertaking of Owner as set forth in a Task Order.

41. *Substantial Completion* – The time at which the Work (or a specified part thereof) has progressed to the point where, in the opinion of Engineer, the Work (or a specified part thereof) is sufficiently complete, in accordance with the Contract Documents, so that the Work (or a specified part thereof) can be utilized for the purposes for which it is intended. The terms "substantially complete" and "substantially completed" as applied to all or part of the Work refer to Substantial Completion thereof.

42. *Supplementary Conditions* – That part of the Contract Documents which amends or supplements the General Conditions.

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

43. *Task Order* – A document executed by Owner and Engineer, including amendments if any, stating the scope of services, Engineer's compensation, times for performance of services and other relevant information for a Specific Project.

44. *Total Project Costs* – The sum of the Construction Cost, allowances for contingencies, the total costs of services of Engineer or other design professionals and consultants, cost of land, rights-of-way, or compensation for damages to properties, or Owner's costs for legal, accounting, insurance counseling, or auditing services, or interest and financing charges incurred in connection with a Specific Project, or the cost of other services to be provided by others to Owner.

45. *Work* – The entire completed construction or the various separately identifiable parts thereof required to be provided by a Contractor under Contract Documents for a Specific Project. Work includes and is the result of a Contractor performing or furnishing labor, services, and documentation necessary to produce such construction and furnishing, installing, and incorporating all materials and all equipment into such construction, all as required by the applicable Contract Documents.

46. *Work Change Directive* – A written directive to a Contractor signed by Owner upon recommendation of the Engineer, ordering an addition, deletion, or revision in the Work, or responding to differing or unforeseen subsurface or physical conditions under which the Work is to be performed or to emergencies. A Work Change Directive will not change the Contract Price or the Contract Times but is evidence that the parties expect that the change directed or documented by a Work Change Directive will be incorporated in a subsequently issued Change Order following negotiations by the parties as to its effect, if any, on the Contract Price or Contract Times.

47. *Written Amendment* – A written amendment of the Contract Documents signed by Owner and a Contractor on or after the Effective Date of a Construction Agreement and normally dealing with the non-engineering or non-technical rather than strictly construction-related aspects of the Contract Documents.

8.02 *Total Agreement*

A. This Agreement (together with the Exhibits identified as included above) constitutes the entire agreement between Owner and Engineer and supersedes all prior written or oral understandings. This Agreement may only be amended, supplemented, modified, or canceled by a duly executed written instrument.

8.03 *Designated Representatives*

A. With the execution of this Agreement, Engineer and Owner shall designate specific individuals to act as Engineer's and Owner's representatives with respect to the Services to be performed or furnished by Engineer and responsibilities of Owner under this Agreement. Such individuals shall have authority to transmit instructions, receive information, and render decisions relative to the Agreement on behalf of each respective Party. Each Task Order shall likewise designate representatives of the Parties. The Designated Representative may be changed with written notice to the Designated Representative of the other Party.

IN WITNESS WHEREOF, the Parties execute this Agreement.

EXHIBIT G, consisting of 1 page, referred to in and part of the **Master Services Agreement between Owner and Engineer for Professional Services – Task Order Edition** dated _____.

Insurance

Paragraph 6.03 of the Agreement is amended and supplemented to include the following agreement of the parties.

The limits for Engineer's insurance required by paragraph 6.03 of the Agreement are as follows:

Workers' Compensation with statutory limits. Engineer shall certify in writing that the Engineer provides Workers' Compensation Insurance for all of Engineer's employees involved in the Project. In addition, Engineer shall meet each stipulation required by the Texas Workers Compensation Commission. If you have questions concerning the requirements, you are instructed to contact the TID at (800) 252-3439.

Employers Liability with minimum limits for bodily injury: a) by accident, $250,000 per each accident b) by disease, $250,000 per employee with a per policy aggregate of $500,000.

Commercial General Liability including, but not limited to, Premises/Operations, Personal & Advertising Injury, Products/Completed Operations, Independent Contractors and Contractual Liability with minimum combined bodily injury (including death) and property damage limits of $1,000,000 per occurrence, $2,000,000 general aggregate. If the insurance is written on a claims-made form, coverage shall be continuous (by renewal or extended reporting period) for not less than 36 months following the last to occur: 1) expiration of this Agreement; or 2) Engineer's completion, and Owner's acceptance, of all Services provided under any and all Task Orders, if any, approved pursuant to the Agreement. Coverage, including any renewals, shall have the same retroactive date as the original policy applicable to the Agreement.

Business Automobile Liability covering owned, hired, and non-owned vehicles, with minimum combined bodily injury (including death) and property damage limit of $1,000,000 per occurrence.

Professional Liability $2,000,000 per claim. With written approval of the City's Risk Manager, a Claims Made Policy may be accepted for Professional Liability Insurance.

ADDITIONAL INSURED - PRIMARY AND NON-CONTRIBUTORY

It is understood and agreed that this endorsement amends the **BUSINESS AUTO COVERAGE FORM** as follows:

SCHEDULE
Name of Additional Insured Person Or Organization
ANY PERSON OR ORGANIZATION THAT YOU ARE REQUIRED BY WRITTEN CONTRACT OR WRITTEN AGREEMENT TO NAME AS AN ADDITIONAL INSURED.

1. In conformance with paragraph **A.1.c.** of **Who Is An Insured** of Section II - LIABILITY COVERAGE, the person or organization scheduled above is an insured under this policy.
2. The insurance afforded to the additional insured under this policy will apply on a primary and non-contributory basis if you have committed it to be so in a written contract or written agreement executed prior to the date of the "**accident**" for which the additional insured seeks coverage under this policy.

All other terms and conditions of the policy remain unchanged

This endorsement, which forms a part of and is for attachment to the policy issued by the designated Insurers, takes effect on the Policy Effective date of said policy at the hour stated in said policy, unless another effective date (the Endorsement Effective Date) is shown below, and expires concurrently with said policy.

WAIVER OF TRANSFER OF RIGHTS OF RECOVERY AGAINST OTHERS TO US (WAIVER OF SUBROGATION) – AUTOMATIC WHEN REQUIRED BY WRITTEN CONTRACT OR AGREEMENT

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

This endorsement modifies insurance provided under the following:

AUTO DEALERS COVERAGE FORM

BUSINESS AUTO COVERAGE FORM

MOTOR CARRIER COVERAGE FORM

With respect to coverage provided by this endorsement, the provisions of the Coverage Form apply unless modified by the endorsement.

The **Transfer Of Rights Of Recovery Against Others To Us** Condition does not apply to any person(s) or organization(s) for whom you are required to waive subrogation with respect to the coverage provided under this Coverage Form, but only to the extent that subrogation is waived:

A. Under a written contact or agreement with such person(s) or organization(s); and

B. Prior to the **"accident"** or the **"loss."**

© Copyright Insurance Services Office, Inc., 2019

IMPORTANT: THIS ENDORSEMENT CONTAINS DUTIES THAT APPLY TO THE ADDITIONAL INSURED IN THE EVENT OF OCCURRENCE, OFFENSE, CLAIM OR SUIT. SEE PARAGRAPH C., OF THIS ENDORSEMENT FOR THESE DUTIES.

BLANKET ADDITIONAL INSURED ENDORSEMENT WITH PRODUCTS-COMPLETED OPERATIONS COVERAGE AND BLANKET WAIVER OF SUBROGATION

Architects, Engineers and Surveyors

This endorsement modifies insurance provided under the following:

BUSINESSOWNERS LIABILITY COVERAGE FORM
BUSINESSOWNERS COMMON POLICY CONDITIONS

A. **Who Is An Insured** is amended to include as an insured any person or organization whom you are required to add as an additional insured on this policy under a written contract or written agreement; but the written contract or written agreement must be:

1. Crrently in effect or becoming effective during the term of this policy; and
2. Executed prior to the:
   a. "**Bodily injury**" or "**property damage**"; or
   b. Offense that caused the "**personal and advertising injury**";

   for which the additional insured seeks coverage

B. The insurance provided to the additional insured is limited as follows:

1. The person or organization is an additional insured only with respect to liability for "**bodily injury**," "**property damage**" or "**personal and advertising injury**" caused in whole or in part by:
   a. Your acts or omissions; or
   b. The acts or omissions of those acting on your behalf,

   in the performance of your ongoing operations specified in the written contract or written agreement; or

   c. "**Your work**" that is specified in the written contract or written agreement, but only for "**bodily injury**" or "**property damage**" included in the "**products-completed operations hazard**," and only if:
      (1) The written contract or written agreement requires you to provide the additional insured such coverage; and
      (2) This Coverage Part provides such coverage.
2. The Limits of Insurance applicable to the additional insured are those specified in the written contract or written agreement or in the Declarations of this policy, whichever is less. These Limits of Insurance are inclusive of, and not in addition to, the Limits of Insurance shown in the Declarations.
3. The insurance provided to the additional insured does not apply to "**bodily injury**," "**property damage**" or "**personal and advertising injury**" arising out of an architect's, engineer's, or surveyor's rendering of or failure to render any professional services including:
   a. The preparing, approving, or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications by any architect, engineer or surveyor performing services on a project of which you serve as construction manager; or
   b. Inspection, supervision, quality control, engineering or architectural services done by you on a project of which you serve as construction manager.
4. The insurance provided to the additional insured does not apply to "**bodily injury**," "**property damage**" or "**personal and advertising injury**" arising out of construction or demolition work while you are acting as a construction or demolition contractor.

0002006867013633066277

Copyright, CNA All Rights Reserved.

C. Under **Businessowners Liability Conditions**, the condition entitled **Duties In The Event of Occurrence, Offense, Claim or Suit** is amended to add the following:

An additional insured under this endorsement will as soon as practicable:

1. Give written notice of an occurrence or an offense to us which may result in a claim or "**suit**" under this insurance;
2. Tender the defense and indemnity of any claim or "**suit**" to us for a loss we cover under this Coverage Part;
3. Except as provided for in paragraph **D.2.** below:
   a. Tender the defense and indemnity of any claim or "**suit**" to any other insurer which also has insurance for a loss we cover under this Coverage Part; and
   b. Agree to make available any other insurance which the additional insured has for a loss we cover under this Coverage Part.

We have no duty to defend or indemnify an additional insured under this endorsement until we receive written notice of a claim or "**suit**" from the additional insured.

D. With respect only to the insurance provided by this endorsement, the condition entitled **Other Insurance** of the **BUSINESSOWNERS COMMON POLICY CONDITIONS** is amended to delete paragraphs **2.** and **3.** and replace them with the following:

2. This insurance is excess over any other insurance available to the additional insured, whether primary, excess, contingent or on any other basis, But if required by the written contract or written agreement, this insurance will be primary and noncontributory relative to insurance on which the additional insured is a Named Insured.
3. When this insurance is excess, we will have no duty under **Business Liability** insurance to defend the additional insured against any "**suit**" if any other insurer has a duty to defend the additional insured against that "**suit**" If no other insurer defends, we will undertake to do so, but we will be entitled to the additional insured's rights against all those other insurers.

   When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:

   (a) The total amount that all such other insurance would pay for the loss in the absence of this insurance; and

   (b) The total of all deductible and self-insured amounts under all that other insurance.

   We will share the remaining loss, if any, with any other insurance that is not described in this Excess Insurance provision and was not bought specifically to apply in excess of the Limits of Insurance shown in the Declarations of this Coverage Part.

E. **Additional Insured – Extended Coverage**

When an additional insured is added by this or any other endorsement attached to this Coverage Part, the section entitled **Who Is An Insured** is amended to make the following natural persons insureds:

If the additional insured is:

1. An individual, then his or her spouse is an insured;
2. A partnership or joint venture, then its partners, members and their spouses are insureds;
3. A limited liability company, then its members and managers are insureds;
4. An organization other than a partnership, joint venture or limited liability company, then its executive officers, directors and shareholders are insureds; or
5. Any type of entity, then its employees are insureds;

but only with respect to locations and operations covered by the additional insured endorsement's provisions, and only with respect to their respective roles within their organizations. Furthermore, employees of additional insureds are not insureds with respect to liability arising out of:

(1) "**Bodily injury**" or "**personal and advertising injury**" to any fellow employee or to any natural person listed in paragraphs **1.** through **4.** above;

Copyright, CNA All Rights Reserved.

(2) **"Property damage"** to property owned, occupied or used by their employer or by any fellow employee; or

(3) Providing or failing to provide professional health care services.

F. The condition entitled **Transfer of Rights of Recovery Against Others to Us** of the **BUSINESSOWNERS COMMON POLICY CONDITIONS** is amended to deleted paragraph **2.** and replace it with the following:

2. We waive any right of recovery we may have against any person or organization with whom you have agreed to waive such right of recovery in a written contract or agreement because of payments we make for injury or damage arising out of your ongoing operations or "**your work**" done under a contract with that person or organization and included within the "**products-completed operations hazard.**"

All other terms and conditions of the Policy remain unchanged.

TEXAS WAIVER OF OUR RIGHT TO RECOVER FROM OTHERS ENDORSEMENT

This endorsement applies only to the insurance provided by the policy because Texas is shown in item 3.A. of the Information Page.

We have the right to recover our payments from anyone liable for an injury covered by this policy. We will not enforce our right against the person or organization named in the Schedule, but this waiver applies only with respect to bodily injury arising out of the operations described in the schedule where you are required by a written contract to obtain this waiver from us.

This endorsement shall not operate directly or indirectly to benefit anyone not named in the Schedule.

The premium for this endorsement is shown in the Schedule.

Schedule

1. ( ) Specific Waiver
   Name of person or organization
   (X) Blanket Waiver
   Any person or organization for whom the Named Insured has agreed by written contract to furnish this waiver.

2. Operations: ALL TEXAS OPERATIONS
3. Premium:
   The premium charge for this endorsement shall be **2.00** percent of the premium developed on payroll in connection with work performed for the above person(s) or organization(s) arising out of the operations described.
4. Advance Premium: Included, see Information Page

This endorsement changes the policy to which it is attached effective on the inception date of the policy unless a different date is indicated below.
(The following "attaching clause" need be completed only when this endorsement is issued subsequent to preparation of the policy.)
This endorsement, effective on 1/2/24 **at 12:01 a.m.** standard time, forms a part of:

TASK ORDER

Task Order No. MEI-27-003, consisting of 8 pages.

Task Order

In accordance with paragraph 1.01 of the Master Services Agreement between Owner and McCord Engineering, Inc. ("Engineer") for Professional Services – Task Order Edition, dated September 9, 2025 ("Agreement"), Owner and Engineer agree as follows:

1. **Specific Project Data**

   A. Title: New Development Engineering and Design Assistance

   B. Description: The Engineer will provide general electrical engineering support to the City of Georgetown Electric Department as outlined in Section 2.

   C. City of Georgetown Project Number: Various

   D. City of Georgetown General Ledger Account No.: Various

   E. City of Georgetown Purchase Order No.: Various

   F. Master Services Agreement, Contract Number: 25-0352-MSA

2. **Services of Engineer**

   Prior to the Engineer performing services for the Owner, the Engineer shall submit a Service Order to the Owner detailing the scope of work and the agreed upon engineering not-to-exceed (NTE) amount.

   A. Unplanned Distribution System Construction Assistance. (Electric System Expansion Engineering)

      i. Engineer will be responsible for professional services related to developing preliminary and final engineering submittals sealed for construction for the following unplanned projects:

         1) Residential developmental projects

         2) Commercial developmental projects

         3) Industrial developmental projects

EJCDC E-505 Standard Form of Agreement Between Owner and Engineer Professional Services—Task Order Edition Copyright ©2004 National Society of Professional Engineers for EJCDC. All rights reserved.

4) In the course of developing said submittals, Engineer will adhere to the following scope:Coordinate with City staff on New Development projects assigned to Engineer. This coordination will include the following:

   a) Obtain site and utility information from the City staff to be used in developing base drawings in AutoCAD format (i.e.: civil and landscape design files from the Developer).

   b) Obtain site and utility information from the City staff to be used in developing base drawings in PDF format (i.e.: civil, MEP, and landscape design files from the Developer).

   c) Obtain electric load information from the City staff (i.e.: City Load Analysis Form).

5) Prepare an Engineering Analysis (EA) package for the new development project based on plans given to the Engineer by the City electric staff.

   a) Assure no conflicts with existing or planned utilities.

   b) Identify and coordinate need of any easements/right-of-ways.

   c) Identify any existing City electric infrastructure which must be modified to serve the project.

   d) Notify the City if City fiber is present.

   e) Call in locates, as required, and look for any potential conflicts, if required.

   f) Prepare a preliminary design on AutoCAD (as required) and on Partners and have City electric staff review.

   g) Following approval of the preliminary design, an EA package shall be submitted to the City. The EA package shall include the following documents:

      i.) Preliminary Electric Layout

         a. In AutoCAD (if required)

         b. In Partners

      ii.) Cost Estimates

EJCDC E-505 Standard Form of Agreement Between Owner and Engineer Professional Services—Task Order Edition Copyright ©2004 National Society of Professional Engineers for EJCDC. All rights reserved.

iii.) Cost Estimate Letters 1 and 2

This cost estimate will be the basis for how much the Developer ultimately has to pay for City electric infrastructure inside their development.

iv.) Bill of Materials (BOM)

v.) Load Analysis Report (Provided by the Developer)

vi.) Analysis of the surrounding area and development. Includes consideration of the surrounding development within a vicinity when conducting designs.

vii.) Large Load Analysis Report
Report provided by Engineer to analyze impact of the proposed project on the City's existing electric system.

viii.) Service Order

6) The project will be classified as on "Hold" while the City coordinates with the Developer on the EA package submitted. This coordination shall include the receival of approval from the Developer, and the Developer payment to the City for the full amount due for the new development as specified in Cost Estimate Letters 1 and 2. Please note if design changes are required, an updated EA package will be re-submitted to the City. Note that the City will submit the preliminary documents to the Developer for their review and approval.

7) Prior to the issuance of the "Approved for Construction" package, notification of approvals from the City and Developer are received along with Developer payment receival is required. The "Approved for Construction" package shall include:

a) Approved Electric Layouts

i) In AutoCAD (if required)

ii) In Partners

b) Cost Estimates

c) Bill of Materials (BOM)

EJCDC E-505 Standard Form of Agreement Between Owner and Engineer Professional Services—Task Order Edition Copyright ©2004 National Society of Professional Engineers for EJCDC. All rights reserved.

d) Cost Table

e) Metering Specifications

f) Cost Estimate Letters 1 and 2

g) Load Analysis Report

h) Large Load Analysis

i) Service Order

j) Milsoft project data folder

k) Prepare As-Builts on Milsoft per COG's direction.

8) If requested by the City, Engineer field crews shall conduct staking of the locations of proposed poles, pads, etc. which must be constructed to serve the new project using survey grade GPS equipment.

3. **Owner's Responsibilities** – Owner shall have these responsibilities set forth in the agreement subject to the following:

A. Provide direction on each unplanned or planned engineering project, including performing all initial and subsequent coordination with developers.

B. Submit all civil drawings, load information, etc. to the Engineer for their use in preparing the "For Construction" documents.

C. Prioritize each unplanned or planned engineering project.

D. Provide project completion date required for each unplanned or planned engineering project.

E. Sign and return the Service Order submitted by the Engineer.

4. **Times for Rendering Services**

Phase	Completion Date
Will Vary	Will Vary

EJCDC E-505 Standard Form of Agreement Between Owner and Engineer Professional Services—Task Order Edition Copyright ©2004 National Society of Professional Engineers for EJCDC. All rights reserved.

5. **Payments to Engineer**

A. Owner shall pay Engineer for services rendered as follows:

Category of Services	***Compensation Method***	***Lump Sum or Not to Exceed Amount of Compensation for Services***
New Development Engineering and Design Assistance	*Standard Hourly Rates as shown on Exhibit A*	*$2,000,000*

The Engineer shall invoice the Owner after final submittals are sent to the Owner on each project. The agreed upon engineering fees that the Engineer will charge are in the following table:

Job Type	**Engineering Cost**	**Engineering Cost Notes**
Single Family Residential including Detached Multi-Family and Duplexes	$200 per unit	In addition to the per unit engineering cost, a Not to Exceed (NTE) of 8.5% of the total cost of the "Additional Costs" as defined in the COG Electric Line Extension and Meter Connect Policy shall be added to the per unit engineering cost. The total cost does not include the Developer's civil work or meter connect fees. The total cost does include the estimated total cost (with 10% COG contingency and 8.5% engineering). Any engineering redesign will be requested by COG and not the Developer. The redesign service order needs to be approved by COG prior to any engineering being done on the redesign.
Residential Multi-Family Development (Apartments)	$70 per unit	

EJCDC E-505 Standard Form of Agreement Between Owner and Engineer Professional Services—Task Order Edition Copyright ©2004 National Society of Professional Engineers for EJCDC. All rights reserved.

All other jobs associated with the COG Line Extension and Meter Connect Policy, including Small Commercial Developments and/or Road Improvement Projects (City, Williamson County, or TxDOT)	Minimum NTE of $6,000 for small single-phase projects.	The total cost does not include the Developer's civil work. The total cost does include the estimated total cost (with 10% COG contingency and 10% engineering). Any engineering redesign will be requested by COG and not the Developer. The redesign service order needs to be approved by COG prior to any engineering being done on the redesign.
	Minimum NTE of $9,000 for small three-phase projects.	The total cost does not include the Developer's civil work. The total cost does include the estimated total cost (with 10% COG contingency and 10% engineering). Any engineering redesign will be requested by COG and not the Developer. The redesign service order needs to be approved by COG prior to any engineering being done on the redesign.
All other jobs associated with the COG Line Extension and Meter Connect Policy, including Large Commercial Developments and/or Road Improvement Projects (City, Williamson County, or TxDOT)	NTE 10% of the total cost of electric if exceeds minimum requirements of $6,000 for single phase projects and $9,000 for small three phase projects.	The total cost does not include the Developer's civil work. The total cost does include the estimated total cost (with 10% COG contingency and 10% engineering). Any engineering redesign will be requested by COG and not the Developer. The redesign service order needs to be approved by COG prior to any engineering being done on the redesign.
COG In-House Review Projects	NTE of $3,000	These projects are designed internally by COG and exceed $8,000 in total cost to complete requiring an engineered seal of Approval per Texas Board of Professional Engineers and Land Surveyors (TBPELS) rules. NTE covers coordination, review and sealing of electric designs.

B. The terms of payment are set forth in Article 4 of the Agreement unless modified in this Task Order.

MASTER SERVICES AGREEMENT BETWEEN OWNER AND ENGINEER FOR PROFESSIONAL SERVICES TASK ORDER EDITION

CONTRACT NO. 25-0352-MSA

THIS IS AN AGREEMENT effective as of _____ ("Effective Date") between the City of Georgetown, A Texas Home Rule Municipal Corporation ("Owner" or "City") and McCord Engineering, Inc., a Texas Corporation ("Engineer").

From time to time Owner may request that Engineer provide professional services for Specific Projects. Each engagement will be documented by a Task Order. This Agreement sets forth the general terms and conditions which shall apply to all Task Orders duly executed under this Agreement.

Owner and Engineer agree as follows:

ARTICLE 1 – SERVICES OF ENGINEER

1.01 *Scope*

A. Engineer's services ("Services") will be detailed in a duly executed Task Order for each Specific Project. Each Task Order will indicate the specific tasks and functions to be performed and deliverables to be provided.

B. The general format of a Task Order is shown in Attachment 1 to this Agreement.

C. This Agreement is not a commitment by Owner to Engineer to issue any Task Orders.

D. A Task Order will be effective when executed by Owner and Engineer. Engineer shall not perform under any prospective Task Order unless and until a Task Order is executed by Owner and Engineer.

1.02 *Task Order Procedure*

A. Owner and Engineer shall agree on the scope, time for performance, and basis of compensation for each Task Order. Each duly executed Task Order shall be subject to the terms and conditions of this Agreement.

B. Engineer will commence performance as set forth in the Task Order. When Services under a Task Order are eighty percent (80 %) complete, Engineer shall provide written notice to Owner's Designated Representative (1) certifying that Engineer will complete the scope of Services for the amount of the Task Order and in the time required by the Task Order; or (2) explaining why Engineer is unable or unwilling to make such certification. When a Task Order includes more than one phase of Services, Engineer shall provide the notice at eighty percent (80%) completion of each phase.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

C. Changes in an approved Task Order may be initiated by the Engineer or Owner by a Task Order Amendment. The Task Order Amendment shall: (i) describe a change in scope, including Services to be added, changed, or deleted; (ii) state the additional cost or cost reduction; and (iii) described schedule changes, if any. A Task Order Amendment will be effective when executed by Owner and Engineer. Engineer shall not perform under any prospective Task Order Amendment unless and until the Task Order Amendment is executed by Owner and Engineer. Oral amendments to a Task Order will have no effect, except in cases of an emergency threatening personal injury or property damage. In such case, the Owner and Engineer will document the Task Order Amendment in writing, as soon as possible.

D. If Engineer becomes aware that a change concerning a Specific Project may require a Task Order Amendment to increase the scope of Services, request additional cost or request additional time, Engineer shall provide written notice to the Owner's Designated Representative within ten (10) days. If Engineer determines that a Task Order Amendment is required as a result of the change, Engineer shall initiate a Task Order Amendment within ten (10) days.

1.03 *Task Order Amount.* Engineer shall provide a not-to-exceed amount to perform the scope of Services included in the Task Order. A Level of Effort Table will be submitted to Owner to document and support Engineer's calculation of the not to exceed amount, including but not limited to a Standard Hourly Rate Schedule and a Reimbursable Expense Schedule.

ARTICLE 2 – OWNER'S RESPONSIBILITIES

2.01 *General.* Owner shall have the responsibilities set forth herein, in this Agreement and in a Task Order.

ARTICLE 3 – TERM; TIMES FOR RENDERING SERVICES

3.01 *Term.* This Agreement shall be effective and applicable to Task Orders issued hereunder for three (3) years from the Effective Date of the Agreement.

3.02 *Times for Rendering Services*

A. The times for performing Services or providing deliverables will be stated in each Task Order. Time is of the essence.

B. Owner shall make decisions and carry out its other responsibilities in a timely manner so as not to delay the Engineer's performance of its Services.

C. If Engineer fails, through its own fault, to complete the performance required in a Task Order within the time set forth, as duly adjusted, then Owner shall be entitled to the recovery of damages resulting from such failure.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

ARTICLE 4 – PAYMENTS TO ENGINEER

4.01 *Invoices – Preparation and Submittal of Invoices.* Engineer shall prepare invoices in accordance with the specific Task Order. Engineer shall submit invoices to Owner on a monthly basis.

4.02 *Payments*

A. Owner agrees to pay Engineer in accordance with Texas Government Code Chapter 2251. Engineer shall pay all Consultants and other expenses incurred under the Task Order in accordance with Texas Government Code Chapter 2251.

B. *Compensation Methods.* Engineering Services will be compensated in accordance with one or more of the following methods as specified in the Task Order:

1. *Lump Sum Method.* The Lump Sum will include compensation for Engineer's services and services of Consultants, if any. Appropriate amounts will be incorporated in the Lump Sum to account for labor, overhead and profit. Owner will pay Engineer for reasonable and customary Reimbursable Expenses in addition to the Lump Sum.

2. *Standard Hourly Rates Method.* The cumulative hours charged to the Specific Project is calculated by multiplying each class of Engineer's employees by the Standard Hourly Rates for each applicable billing class for all Services performed on the Specific Project and Consultant's charges, if any. Standard Hourly Rates include salaries and wages paid to personnel in each billing class plus the cost of Customary and statutory benefits, general and administrative overhead, non-project operating costs, and operating margin of profit. In addition, Owner will pay Engineer for reasonable and customary Reimbursable Expenses.

C. *Failure to Pay.* If Owner fails to make any payment that is due, Engineer may, after giving seven (7) days written notice to Owner, suspend services under the Task Order until Owner pays the amount due.

D. *Disputed Invoices.* If Owner contests an invoice, Owner may withhold only that portion so contested, and must pay the undisputed portion.

ARTICLE 5 – OPINIONS OF COST

5.01 *Opinions of Cost.*

A. Engineer's opinions of probable Construction Cost are to be made on the basis of Engineer's experience and qualifications and represent Engineer's judgment as an experienced and qualified professional generally familiar with the construction industry. However, Engineer does not guarantee that proposals, bids, or actual Construction Cost will not vary from opinions of probable Construction Cost prepared by Engineer.

B. Engineer's opinions of Total Project Costs are to be made on the basis of Engineer's experience and qualifications and represent Engineer's judgment as an experienced and qualified professional generally familiar with the construction industry. However,

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition

Engineer does not guarantee that Total Project Costs will not vary from opinions of Total Project Costs prepared by Engineer.

5.02 *Designing to Construction Cost Limit*

A. If a Construction Cost limit is established between Owner and Engineer in a Task Order, Engineer's rights and responsibilities with respect thereto will be governed by the terms of the Task Order.

ARTICLE 6 – GENERAL CONSIDERATIONS

6.01 *Standards of Performance*

A. The standard of care for all professional engineering and related services performed or furnished by Engineer under this Agreement will conform to standard engineering practices and applicable rules and regulations of the Texas Engineering Practices Act and the rules of the Texas Board of Professional Engineers. Engineer warrants that the professional engineering and related services performed or furnished by Engineer under this Agreement, and Task Order issued under this Agreement, if any, shall meet or exceed such standard of care.

B. Owner shall not be responsible for discovering deficiencies in the technical accuracy of Engineer's services. Engineer shall correct any such deficiencies in technical accuracy without additional compensation, except to the extent such corrective action is directly attributable to deficiencies in Owner-furnished information, not reasonably known or discoverable by Engineer.

C. Engineer shall serve as Owner's prime professional under each Task Order. Engineer may employ such Consultants as Engineer deems necessary to assist in the performance or furnishing of the Services, subject to reasonable, timely, and substantive objections by Owner.

D. Subject to the standard of care set forth in Paragraph 6.01.A, Engineer and its Consultants may use or rely upon design elements and information ordinarily or customarily furnished by others, including, but not limited to, specialty contractors, manufacturers, suppliers, and the publishers of technical standards.

E. Engineer and Owner shall comply with applicable Laws and Regulations and additional Owner-mandated standards, if any, that Owner has provided to Engineer in writing. This Agreement is based on these requirements as of the Effective Date of each Task Order. Changes to these requirements after the Effective Date of each Task Order may be the basis for modifications to Owner's responsibilities or to Engineer's scope of services, times of performance, and compensation.

F. Engineer shall not be required to sign any documents, no matter by who requested, that would result in Engineer having to certify, guarantee, or warrant the existence of conditions whose existence Engineer cannot ascertain within its Services for that Specific Project. Owner agrees not to make resolution of any dispute with Engineer or payment of

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

any amount due to the Engineer in any way contingent upon Engineer signing any such certification.

G. Engineer shall not at any time supervise, direct, or have control over a Contractor's work, nor shall Engineer have authority over or responsibility for the means, methods, techniques, sequences, or procedures of construction selected or used by a Contractor, for security or safety at any Site, for safety precautions and programs incident to a Contractor's work in progress, nor for any failure of a Contractor to comply with Laws and Regulations applicable to a Contractor's furnishing and performing the Work.

H. Engineer neither guarantees the performance of any Contractor nor assumes responsibility for any Contractor's failure to furnish and perform the Work in accordance with the Contract Documents.

I. Engineer shall not be responsible for the acts or omissions of any Contractor, subcontractor, or supplier, or of any of their agents or employees or of any other persons (except Engineer's own employees and its Consultants) at a Site or otherwise furnishing or performing any of a Contractor's work; or for any decision made on interpretations or clarifications of the Contract Documents given by Owner without consultation and advice of Engineer.

J. Engineer shall at all times be an independent contractor with the sole authority to control and direct the performance of the details of the Services. Engineer shall not purport to be an employee or agent of the City and shall not have any right or power to bind the City to any obligation.

K. Engineer shall procure and maintain at its expense all licenses and permits necessary to perform Services. Engineer shall require that its employees and Consultants are properly licensed to perform their respective portion of Services.

L. The Services to be performed under this Agreement shall be performed entirely at Engineer's risk. Engineer shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the Services to be performed under this Agreement. Engineer shall take all reasonable precautions for the safety of and shall provide all reasonable protection to prevent damage, injury, or loss to employees, the Services, endangered species, or the property affected by this Agreement. All damage or loss to any property caused in whole or in part by Engineer, Consultant, or anyone employed by either of them shall be remedied by Engineer.

6.02 *Ownerships of Documents*

A. City shall have the title to and ownership of all documents produced or developed by Engineer in connection with a Task Order issued pursuant to this Agreement. Documents include publications, plans drawings, designs, specifications, photographs, studies, reports schedules, computer programs, and other data and work product, in any form or media. Owner shall have sole ownership of all copyright interest in all documents to the extent that documents may be copyrighted. Engineer shall deliver all documents to the Owner at completion of the Specific Project under a Task Order, termination of Services under a Task Order, or upon Owner's request. Engineer may retain copies of its work product.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

6.03 *Insurance*

A. At all times for the term of this Agreement and when any Task Order is under performance, Engineer shall procure and maintain insurance as set forth in Exhibit G, "Insurance." Engineer's failure to purchase and maintain the required insurance shall be grounds for Owner's termination or suspension of this Agreement or a Task Order.

B. Engineer shall cause Owner and its elected officials, officers, directors, employees, representatives and volunteers to be listed as an additional insured on any applicable general liability insurance policy carried by Engineer which is applicable to a Specific Project. The additional insured status must cover completed operations as well, and the policy covering completed work must remain in effect until the expiration of the statute of repose. As respects the Workers Compensation policy, the Engineer will waive subrogation in favor of the Owner.

C. Engineer must complete and forward the required Certificates of Insurance to the Owner when Engineer executes this Agreement as verification of coverage required as indicated. Engineer shall not provide any Services under a Task Order until the required insurance is obtained and until such insurance has been reviewed by the Owner. Approval of insurance by the Owner shall not relieve or decrease the liability of Engineer and shall not be construed to be a limitation of liability on the part of Engineer. Engineer must also complete and forward the required Certificates of Insurance to the Owner whenever a previously indentified policy period has expired as verification of continuing coverage.

D. Engineer's insurance coverage shall be written by companies licensed and authorized to do business in the State of Texas before the policies are issued and shall be written by companies with A.M. Best rating A VIII or better.

E. All endorsements naming the Owner as additional insured, waivers, and notices of cancellation, as well as the Certificates of Insurances shall indicate: City of Georgetown, 300-1 Industrial Avenue, Georgetown, Texas 78626, ATTN: Contract Manager.

F. The "other insurance" clause shall not apply to the Owner where the Owner is an additional insured shown on any policy. It is agreed that the Engineer's general liability insurance shall be considered primary with respect to any insurance or self insurance carried by the Owner. The Owner's insurance shall apply separately to each insured against whom a claim is made and/or lawsuits brought, except with respect to the limits of insured's liability.

G. If insurance policies are not written for the specified amounts, Engineer shall carry Umbrella or Excess Liability Insurance for any differences in amounts specified. If Excess Liability Insurance is provided, it shall follow the form of the primary coverage.

H. Owner shall be entitled, upon request and without expense, to receive "certified copies" of policies and policy endorsements and may make any reasonable requests for deletion or revision or modification of particular policy terms, conditions, limitations, or exclusions except where policy provisions are established by law or regulations binding upon either of the Parties or the underwriter on any such policies.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

I. Owner reserves the right to review the insurance requirements during the effective period of this Agreement and to make reasonable adjustments to insurance coverage, limits and exclusions when deemed necessary and prudent by the Owner. Owner may request, in a Task Order or Task Order Amendment, that Engineer and its Consultants provide additional insurance coverage, increased limits, or revised deductibles that are more protective than those specified in Exhibit G. Engineer shall obtain and shall require its Consultants to obtain such additional insurance coverage, different limits, or revised deductibles for such periods of time as requested by Owner in the Task Order or Task Order Amendment.

J. Engineer shall not allow any insurance to be cancelled nor permit any insurance to lapse during the term of this Agreement or as required in this Agreement. The policies must contain the following language: "This policy shall not be cancelled or not renewed until after thirty (30) days prior written notice has been given to the additional insured, the City of Georgetown." In addition, Engineer shall provide Owner thirty (30) days written notice of erosion of the aggregate limits below occurrence limits for all applicable coverages indicated within the Agreement.

K. Engineer shall be responsible for premiums, deductibles and self-insured retentions, if any, as stated in policies. All deductibles or self-insured retentions shall be disclosed on the Certificates of Insurance.

L. If Owner's property is being transported or stored off-site by Engineer, then the appropriate property policy will be endorsed for transit and storage in an amount sufficient to protect the Owner's property.

M. The insurance coverages required under this Agreement are required minimums and are not intended to limit the responsibility or liability of Engineer.

N. Without limiting any of the other obligations or liabilities of the Engineer, the Engineer shall require each Consultant performing work under a Task Order to maintain during the term of the Task Order, at the Consultant's expense, the same stipulated minimum insurance including the required provisions and additional policy conditions as shown above. As an alternative, the Engineer may include its Consultants as additional insureds on its own coverage as prescribed under these requirements. The Engineer's Certificate of Insurance shall note in such event that the Consultants are included as additional insureds and that Engineer agrees to provide Workers Compensation for the Consultants and their employees. The Engineer shall obtain and monitor the Certificates of Insurance from each Consultant in order to comply with the insurance requirements. The Engineer must retain the Certificates of Insurance for the duration of the Task Order plus five (5) years and shall have the responsibility of enforcing these insurance requirements among its Consultants. The Owner shall be entitled, upon request and without expense, to receive copies of these Certificates of Insurance.

O. Owner shall require Contractors to purchase and maintain general liability and other insurance in accordance with the requirements of Paragraph 5.04 of the Standard General Conditions of the Construction Contract (No. C-700, 2002 Edition) of the Engineers Joint Contract Documents Committee, and to cause Engineer and its Consultants to be listed as

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition

additional insureds with respect to such liability and other insurance purchased and maintained by Contractors.

6.04 *Suspension and Termination*

A. *Suspension*

1. Owner has the right to suspend all or any portion of the Services to be performed under a Task Order upon ten (10) days written notice to Engineer. Upon receipt of a notice of suspension, Engineer shall:

   a. immediately suspend Services on the date and to the extent specified in the notice;

   b. protect and maintain the portion of the Services completed, including the portion of the Services suspended, unless otherwise specifically stated in the notice; and

   c. continue to perform the Services not suspended.

2. If Owner suspends Services to be performed under a Task Order, Owner shall pay Engineer, as specified in the Task Order, for the Services completed to the date of suspension. Owner will also reimburse Engineer for the following costs, without duplication of any item, to the extent that such costs actually result from such suspension of Services:

   a. a reasonable standby charge to compensate Engineer for keeping (to the extent required in the notice) its organization and equipment committed to the Services in standby status;

   b. reasonable costs associated with demobilization of Engineer's facility, forces and equipment; and

   c. reasonable cost of maintaining and protecting that portion of the Services upon which activities have been suspended.

3. Engineer shall not be entitled to receive any other compensation or reimbursement resulting from a suspension in Services under a Task Order.

4. Upon receipt of notice to restart the suspended portion of Services, Engineer shall immediately resume performance to the extent required in the notice. Within ten (10 days after receipt of notice to resume the suspended portion, the Engineer shall submit a revised schedule for approval by Owner. If, as a result of any suspension, the cost to Engineer of subsequently performing the Services or the time required to perform the Services is changed, Engineer may initiate a Task Order Amendment.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

B. *Termination.* The obligation to provide further services under this Agreement, or under a Task Order, may be terminated:

1. For Cause,

a. The obligation to provide further services under this Agreement, or under a Task Order, may be terminated by Owner, for cause, upon ten (10) days written notice in the event of substantial failure by Engineer to perform in accordance with this Agreement or any Task Order. This Agreement, or Task Order, will not terminate if the Engineer corrects the failure to perform and proceeds diligently to cure such failure within no more than thirty (30) days of receipt of the notice. If Engineer fails to cure the default, Owner may provide written notice of termination to Engineer.

b. The obligation to provide further services under this Agreement, or under Task Order, may be terminated by Engineer, for cause, upon ten (10) days written notice in the event of substantial failure by Owner to perform in accordance with the terms of this Agreement or any Task Order. This Agreement, or a Task Order, will not terminate if the Owner corrects the failure to perform and proceeds diligently to cure such failure within no more than thirty (30) days of receipt of the notice. If Owner fails to cure the default, Engineer may provide written notice of termination to Owner.

2. For Convenience,

a. Owner has the right to terminate a Task Order under this Agreement for convenience at any time by providing ten (10) days written notice to Engineer. Upon receipt of a notice of termination for convenience, Engineer shall:

1) immediately cease providing Services under the Task Order; and

2) protect and maintain the portion of the Services completed, unless otherwise specifically stated in the notice.

b. In the event of a termination for convenience, Owner shall pay Engineer, as specified in the Task Order, for the Services completed to the date of termination. Owner shall not be liable for special, incidental, consequential or punitive damages, for loss of anticipated future Services, anticipated profits, administrative costs or overhead on anticipated Services, or other indirect costs as a result of a termination for convenience.

6.05 *Controlling Law*

A. This Agreement is to be governed by and construed in accordance with Texas law. Owner and Engineer each submit to the exclusive jurisdiction of the state and federal courts in Williamson County, Texas. Owner does not waive the defense of sovereign immunity.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

6.06 *Successors, Assigns, and Beneficiaries*

A. Owner and Engineer each is hereby bound and the partners, successors, executors, administrators and legal representatives of Owner and Engineer are hereby bound to the other Party to this Agreement and to the partners, successors, executors, administrators and legal representatives (and said assigns) of such other Party, in respect of all covenants, agreements and obligations of this Agreement.

B. Neither Owner nor Engineer may assign, sublet, or transfer any rights under or interest (including, but without limitation, moneys that are due or may become due) in this Agreement without the written consent of the other, except to the extent that any assignment, subletting, or transfer is mandated or restricted by law. Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement.

C. There are no third-party beneficiaries to this Agreement. The provisions of this Agreement do not, and shall not be construed to, create any legal or equitable right, remedy or claim enforceable by any person or entity other than Owner and Engineer. Unless expressly provided otherwise in this Agreement:

1. Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by Owner or Engineer to any Contractor, Contractor's subcontractor, supplier, other individual or entity, or to any surety for or employee of any of them.

2. All duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of Owner and Engineer and not for the benefit of any other party.

D. Owner agrees that the substance of the provisions of this Paragraph 6.07.C shall appear in the Contract Documents.

6.07 *Dispute Resolution*

A. If a dispute arises under this Agreement or a Task Order, Owner and Engineer agree to negotiate the dispute between them in good faith for a period of 30 days from the date of written notice of the dispute.

B. If the Parties fail to resolve a dispute through negotiation under Paragraph 6.07.A, then Owner and Engineer agree that they shall submit any and all unsettled claims, counterclaims, and other matters in question between them arising out of or relating to this Agreement or a Task Order to mediation.

C. If mediation is unsuccessful in resolving a dispute, then any and all unsettled claims, counterclaims, and other matters in question between Owner and Engineer arising out of or relating to this Agreement or Task Order (a) may be submitted to binding arbitration by written agreement of the Parties, or (b) may be filed by either Party in a court of competent jurisdiction.

D. Upon Owner's request, Engineer shall proceed with performance of Services pending final resolution of a dispute arising under this Agreement or a Task Order.

6.08 *Environmental Condition of Site*

A. With respect to each Task Order, Specific Project, and Site:

1. Owner has disclosed to Engineer in writing the existence of all known and suspected Asbestos, PCBs, Petroleum, Hazardous Waste, Radioactive Material, hazardous substances, and other Constituents of Concern located at or near the Site, including type, quantity, and location.

2. Owner represents to Engineer that to its knowledge no Constituents of Concern, other than those disclosed in writing to Engineer, exist at the Site.

3. If Engineer encounters an undisclosed Constituent of Concern, then Engineer shall notify (a) Owner and (b) appropriate governmental officials if Engineer reasonably concludes that doing so is required by applicable Laws or Regulations.

4. If Engineer or any other Party encounters an undisclosed Constituent of Concern, or if investigative or remedial action, or other professional services, are necessary with respect to disclosed or undisclosed Constituents of Concern, then Engineer may, at its option and without liability for consequential or any other damages, suspend performance of services on the portion of the Specific Project affected thereby until the Site is in full compliance with applicable Laws and Regulations.

5. If the presence at the Site of undisclosed Constituents of Concern adversely affects the performance of Engineer's services under a Task Order, then the Engineer shall have the option of (a) submitting a Task Order Amendment for adjustment in its compensation or in the time of completion, or both; or (b) terminating this Agreement for cause.

6.09 *Indemnification*

A. **General Obligation to Indemnify and Defend. TO THE FULLEST EXTENT PERMITTED BY LAW, ENGINEER AGREES TO INDEMNIFY AND HOLD HARMLESS THE OWNER, ITS ELECTED OFFICIALS, OFFICERS, DIRECTORS, AGENTS, EMPLOYEES, REPRESENTATIVES AND VOLUNTEERS OF AND FROM DAMAGES, INJURIES (INCLUDING DEATH), CLAIMS, PROPERTY DAMAGES (INCLUDING LOSS OF USE), LOSSES, DEMANDS, FORFEITURES, PENALTIES, FINES, COSTS, LAWSUITS, LIABILITIES, ACTIONS, AND CAUSES OF ACTION, OF EVERY KIND WHATSOEVER, AND EXPENSES, INCLUDING BUT NOT LIMITED TO FEES AND CHARGES OF ENGINEERS, ATTORNEYS, AND OTHER PROFESSIONALS, AND COURT, ARBITRATION, OR OTHER DISPUTE RESOLUTION COSTS, AND EXPENSES AND COSTS OF INVESTIGATION, ARISING OUT OF OR RELATING TO THIS AGREEMENT, ANY TASK ORDER, OR ANY SPECIFIC PROJECT, TO THE EXTENT CAUSED BY 1) THE NEGLIGENT ACT OR OMISSION OR WILLFUL ACTS OF ENGINEER OR ENGINEER'S OFFICERS, DIRECTORS, PARTNERS, AGENTS, EMPLOYEES, OR CONSULTANTS OR 2) MATERIAL BREACH OF THIS AGREEMENT OR TASK ORDER. ENGINEER FURTHER AGREES TO DEFEND, AT ITS OWN**

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

EXPENSE, ON BEHALF OF THE OWNER AND IN THE NAME OF THE OWNER, SUITS AND PROCEEDINGS INSTITUTED AGAINST OWNER TO WHICH THE INDEMNITY OBLIGATION APPLIES, AND PAY AWARDS OF DAMAGES ASSESSED WHICH RESULT FROM ANY SUCH CLAIM, SUIT OR PROCEEDING, INCLUDING ASSOCIATED EXPENSES, ATTORNEY FEES, COSTS OF INVESTIGATION, ARBITRATION AND/OR LITIGATION.

B. **Intellectual Property.**

1. ENGINEER AGREES TO INDEMNIFY AND HOLD HARMLESS THE OWNER, ITS ELECTED OFFICIALS, OFFICERS, DIRECTORS, AGENTS, EMPLOYEES, REPRESENTATIVES AND VOLUNTEERS OF AND FROM DAMAGES, CLAIMS, LOSSES, DEMANDS, FORFEITURES, PENALTIES, FINES, COSTS, LAWSUITS, LIABILITIES, ACTIONS, CAUSES OF ACTION OF EVERY KIND WHATSOEVER, AND EXPENSES, INCLUDING BUT NOT LIMITED TO FEES AND CHARGES OF ENGINEERS, ATTORNEYS, AND OTHER PROFESSIONALS, AND COURT, ARBITRATION, OR OTHER DISPUTE RESOLUTION COSTS, AND EXPENSES AND COSTS OF INVESTIGATION, TO THE EXTENT CAUSED BY ALLEGED INFRINGEMENT OF PATENT OR COPYRIGHT OF THE UNITED STATES OR OF ANY TRADEMARK OR TRADE SECRET PROTECTED BY EITHER FEDERAL OR STATE LAW BY ENGINEER OR ENGINEER'S OFFICERS, DIRECTORS, PARTNERS, AGENTS, EMPLOYEES, OR CONSULTANTS. ENGINEER SHALL, AT ITS OWN EXPENSE, DEFEND SUITS OR PROCEEDINGS INSTITUTED AGAINST OWNER, AND PAY AWARDS OF DAMAGES ASSESSED WHICH RESULT FROM ANY SUCH CLAIM, SUIT OR PROCEEDING, INCLUDING ASSOCIATED EXPENSES, ATTORNEY FEES, COSTS OF INVESTIGATION, ARBITRATION AND/OR LITIGATION, AND SHALL ABIDE BY RESULTING DECREES AND COMPROMISES.

2. IF A RESTRAINING ORDER OR TEMPORARY INJUNCTION IS GRANTED, ENGINEER SHALL MAKE EVERY REASONABLE EFFORT, BY GIVING A SATISFACTORY BOND OR OTHERWISE, TO SECURE THE SUSPENSION OF ANY SUCH RESTRAINING ORDER OR TEMPORARY INJUNCTION. IF THE SERVICES ARE HELD TO CONSTITUTE AN INFRINGEMENT, AND PERMANENTLY ENJOINED, ENGINEER SHALL MAKE EVERY REASONABLE EFFORT TO SECURE FOR OWNER A LICENSE AT ENGINEER'S EXPENSE AUTHORIZING THE CONTINUED USE OF THE ALLEGED INFRINGING PORTION OF THE SERVICES. IF ENGINEER IS UNABLE TO SECURE SUCH LICENSE WITHIN A REASONABLE TIME, ENGINEER SHALL, AT ITS OWN EXPENSE AND WITHOUT IMPAIRING PERFORMANCE REQUIREMENTS, EITHER PROVIDE NON-INFRINGING REPLACEMENT OR MODIFY THE SERVICES TO ELIMINATE THE INFRINGEMENT. IN ADDITION TO INDEMNIFYING AND SAVING OWNER HARMLESS, ENGINEER SHALL REIMBURSE OWNER FOR

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

ANY COSTS INCURRED AS A RESULT OF THE UNAVAILABILITY OF THE INFRINGING ITEM OR ITS NONINFRINGING REPLACEMENT.

C. Engineer's indemnity obligations are independent covenants and shall survive completion of or termination of the Agreement or any claimed breach of the Agreement.

D. Owner shall promptly notify Engineer, in writing, of receipt of notice of the commencement or threatened commencement of any civil, administrative or investigative action or proceeding involving a claim for which Owner seeks indemnification. No failure to so notify Engineer shall relieve Engineer of its obligations under this Agreement except to the extent that Engineer can demonstrate damages attributable to such failure. Within fifteen (15) days following receipt of written notice from the Owner, but no later than ten (10) days before the date on which any response to a complaint or summons is due, Engineer shall assume control of the defense and/or resolution of the claim.

E. *Release.* Engineer assumes full responsibility for the Services to be performed and releases, relinquishes, and discharges the City, its elected officials, officers, directors, agents, employees, representatives and volunteers from all claims, demands, and causes of action of every kind and character, including the cost of defense, for any injury to or death of any person (whether employees of either Party or other third parties) and any loss of or damage to any property that is caused by or alleged to be caused by, arising out of, or in connection with Services performed under this Agreement or a Task Order. This release shall apply regardless of whether the claims, demands and/or causes of action are covered in whole or in part by insurance, and in the event of injury, death, property damage, or loss suffered by the Engineer, any Consultant, or any person or organization directly or indirectly employed by any of them to perform or furnish Services under this Agreement.

6.10 *Miscellaneous Provisions*

A. *Notices.* Any notice required under this Agreement will be in writing and sent to the Designated Representative by personal delivery, facsimile, registered or certified mail postage prepaid, or a commercial courier service. All notices shall be effective upon the date of receipt.

B. *Survival.* All express representations, waivers, indemnifications, and limitations of liability included in this Agreement will survive its completion or termination for any reason.

C. *Severability.* Any provision or part of the Agreement held to be void or unenforceable under any Laws or Regulations shall be deemed stricken and all remaining provisions shall continue to be valid and binding upon Owner and Engineer.

D. *Waiver.* A Party's non-enforcement of any provision shall not constitute a waiver of that provision, nor shall it affect the enforceability of that provision or of the remainder of this Agreement.

E. *Applicability to Task Orders.* The terms and conditions set forth in this Agreement apply to each Task Order as if set forth in the Task Order, unless specifically modified in the Task Order. In the event of a conflict between this Agreement and a Task Order, the

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

conflicting provisions of the Task Order shall take precedence for that Task Order. Such amendments shall be applicable to all Task Orders issued after the effective date of the amendment if not otherwise set forth in the amendment.

F. *Non-Exclusive Agreement.* Nothing herein shall establish an exclusive relationship between Owner and Engineer. Owner may enter into similar agreements with other professionals for the same or different types of services contemplated hereunder, and Engineer may enter into similar or different agreements with other owners for the same or different services contemplated hereunder.

G. *Certification Regarding Boycotting Israel.* Pursuant to Chapter 2271, Texas Government Code, Engineer certifies that it (1) does not currently boycott Israel; and (2) will not boycott Israel during the term of this Agreement. Engineer acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

H. *Certification Regarding Business with Certain Countries and Organizations.* Pursuant to Subchapter F, Chapter 2252, Texas Government Code, Engineer certifies it is not engaged in business with Iran, Sudan, or a foreign terrorist organization. Engineer acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

I. *Certification Regarding Boycotting Energy Companies.* Pursuant to Chapter 2274, Texas Government Code, Engineer certifies that either (1) it is a sole proprietorship or company with fewer than ten (10) employees or (2) it does not currently boycott energy companies and will not boycott energy companies during the Term of this Agreement. Engineer acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

J. *Certification Regarding Boycotting Firearm and Ammunition Industries.* Pursuant to Chapter 2274, Texas Government Code, Engineer certifies that either (1) it is a sole proprietorship or company with fewer than ten (10) employees or (2) it does not currently boycott firearm and ammunition industries; and will not boycott firearm and ammunition industries during the Term of this Agreement. Engineer acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

ARTICLE 7 – DEFINITIONS

7.01 *Defined Terms*

A. Wherever used in this Agreement (including the Exhibits hereto and any Task Order) terms (including the singular and plural forms) printed with initial capital letters have the meanings indicated in the text above, in the Exhibits or Task Order, or in the following provisions:

1. *Addenda* – Written or graphic instruments issued prior to the opening of Bids which clarify, correct, or change the Bidding Documents.

2. *Additional Services* – Services to be performed for or furnished to Owner by Engineer in accordance with a Task Order which are not included in Basic Services for that Task Order.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

3. *Agreement* – This "Master Services Agreement between Owner and Engineer for Professional Services – Task Order Edition" including those Exhibits listed in Article 8 and any duly executed Task Order.

4. *Application for Payment* – The form acceptable to Engineer which is to be used by a Contractor in requesting progress or final payments for the completion of its Work and which is to be accompanied by such supporting documentation as is required by the Contract Documents.

5. *Asbestos* – Any material that contains more than one percent asbestos and is friable or is releasing asbestos fibers into the air above current action levels established by the United States Occupational Safety and Health Administration.

6. *Basic Services* – Specified services to be performed for or furnished to Owner by Engineer in accordance with a Task Order.

7. *Bid* – The offer or proposal of a bidder submitted on the prescribed form setting forth the prices for the Work to be performed.

8. *Bidding Documents* – The advertisement or invitation to Bid, instructions to bidders, the Bid form and attachments, the Bid bond, if any, the proposed Contract Documents, and all Addenda, if any.

9. *Change Order* – A document recommended by Engineer, which is signed by a Contractor and Owner to authorize an addition, deletion or revision in the Work, or an adjustment in the Contract Price or the Contract Times.

10. *Constituent of Concern* – Any substance, product, waste, or other material of any nature whatsoever (including, but not limited to, Asbestos, Petroleum, Radioactive Material, and PCBs) which is or becomes listed, regulated, or addressed pursuant to (a) the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. §§9601 et seq. ("CERCLA"); (b) the Hazardous Materials Transportation Act, 49 U.S.C. §§1801 et seq.; (c) the Resource Conservation and Recovery Act, 42 U.S.C. §§6901 et seq. ("RCRA"); (d) the Toxic Substances Control Act, 15 U.S.C. §§2601 et seq.; (e) the Clean Water Act, 33 U.S.C. §§1251 et seq.; (f) the Clean Air Act, 42 U.S.C. §§7401 et seq.; and (g) any other federal, state, or local statute, law, rule, regulation, ordinance, resolution, code, order, or decree regulating, relating to, or imposing liability or standards of conduct concerning, any hazardous, toxic, or dangerous waste, substance, or material.

11. *Construction Agreement* – The written instrument which is evidence of the agreement, contained in the Contract Documents, between Owner and a Contractor covering the Work.

12. *Construction Contract* – The entire and integrated written agreement between Owner and a Contractor concerning the Work.

13. *Construction Cost* – The cost to Owner of those portions of an entire Specific Project designed or specified by Engineer. Construction Cost does not include costs of

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition

services of Engineer or other design professionals and consultants, cost of land, rights-of-way, or compensation for damages to properties, or Owner's costs for legal, accounting, insurance counseling or auditing services, or interest and financing charges incurred in connection with a Specific Project, or the cost of other services to be provided by others to Owner. Construction Cost is one of the items comprising Total Project Costs.

14. *Consultants* – Individuals or entities having a contract with Engineer to furnish services with respect to a Specific Project as Engineer's independent professional associates, consultants, subcontractors, or vendors. The term Engineer includes Engineer's Consultants.

15. *Contract Documents* – Documents that establish the rights and obligations of the parties engaged in construction and include the Construction Agreement between Owner and a Contractor, Addenda (which pertain to the Contract Documents), a contractor's Bid (including documentation accompanying the Bid and any post-Bid documentation submitted prior to the notice of award) when attached as an exhibit to the Construction Agreement, the notice to proceed, the bonds, appropriate certifications, the General Conditions, the Supplementary Conditions, the Specifications and the Drawings as the same are more specifically identified in the Construction Agreement, together with all Written Amendments, Change Orders, Work Change Directives, Field Orders, and Engineer's written interpretations and clarifications issued on or after the Effective Date of the Construction Agreement. Approved Shop Drawings and the reports and drawings of subsurface and physical conditions are not Contract Documents.

16. *Contract Price* – The moneys payable by Owner to a Contractor for completion of the Work in accordance with the Contract Documents and as stated in the Construction Agreement.

17. *Contract Times* – The numbers of days or the dates stated in a Construction Agreement to: (i) achieve Substantial Completion, (ii) complete the Work so that it is ready for final payment as evidenced by Engineer's written recommendation of final payment, and (iii) meet any other specified milestone.

18. *Contractor* – An individual or entity with whom Owner enters into a Construction Agreement for a Specific Project.

19. *Correction Period* – The time after Substantial Completion during which a Contractor must correct, at no cost to Owner, any Defective Work, normally one year after the date of Substantial Completion or such longer period of time as may be prescribed by Laws or Regulations or by the terms of any applicable special guarantee or specific provision of the Contract Documents.

20. *Defective* – An adjective which, when modifying the word Work, refers to Work that is unsatisfactory, faulty, or deficient, in that it does not conform to the Contract Documents, or does not meet the requirements of any inspection, reference standard, test, or approval referred to in the Contract Documents, or has been damaged prior to Engineer's recommendation of final payment.

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

21. *Documents* – Data, reports, Drawings, Specifications, Record Drawings, and other deliverables, whether in printed or electronic media format, provided or furnished in appropriate phases by Engineer to Owner pursuant to this Agreement.

22. *Drawings* – That part of the Contract Documents prepared or approved by Engineer which graphically shows the scope, extent, and character of the Work to be performed by a Contractor. Shop Drawings are not Drawings as so defined.

23. *Effective Date of the Construction Agreement* – The date indicated in a Construction Agreement on which it becomes effective, but if no such date is indicated, it means the date on which the Construction Agreement is signed and delivered by the last of the two parties to sign and deliver.

24. *Effective Date of the Agreement* – The date indicated in this Agreement on which it becomes effective, but if no such date is indicated, it means the date on which the Agreement is signed and delivered by the last of the two parties to sign and deliver.

25. *Effective Date of the Task Order* – The date indicated in the Task Order on which it becomes effective, but if no such date is indicated, it means the date on which the Task Order is signed and delivered by the last of the two parties to sign and deliver.

26. *Field Order* – A written order issued by Engineer which directs minor changes in the Work but which does not involve a change in the Contract Price or the Contract Times.

27. *General Conditions* – That part of the Contract Documents which sets forth terms, conditions, and procedures that govern the Work to be performed or furnished by a Contractor with respect to a Specific Project. The "Standard General Conditions of the Construction Contract" as prepared by the Engineers Joint Contract Document Committee (Document No. C-700, 2007 Edition) will be used unless both Parties mutually agree in a Task Order to use other General Conditions.

28. *Hazardous Waste* – The term Hazardous Waste shall have the meaning provided in Section 1004 of the Solid Waste Disposal Act (42 USC Section 6903) as amended from time to time.

29. *Laws and Regulations; Laws or Regulations* – Any and all applicable laws, rules, regulations, ordinances, codes, standards, and orders of any and all governmental bodies, agencies, authorities, and courts having jurisdiction.

30. *PCBs* – Polychlorinated biphenyls.

31. *Petroleum* – Petroleum, including crude oil or any fraction thereof which is liquid at 32 degrees Fahrenheit and 14.7 pounds per square inch absolute, such as fuel oil, oil sludge, oil refuse, gasoline, kerosene, and oil mixed with other non-Hazardous Waste and crude oils.

32. *Radioactive Materials* – Source, special nuclear, or byproduct material as defined by the Atomic Energy Act of 1954 (42 USC Section 2011 et seq.) as amended from time to time.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

33. *Record Drawings* – The Drawings as issued for construction on which Engineer, upon completion of the Work, has shown changes due to Addenda or Change Orders and other information which Engineer considers significant based on record documents furnished by Contractor to Engineer and which were annotated by Contractor to show changes made during construction.

34. *Reimbursable Expenses* – Reasonable and customary expenses approved by Owner in a Task Order and incurred directly by Engineer in connection with the performing or furnishing of Services for a Specific Project for which Owner shall pay Engineer.

35. *Resident Project Representative* – The authorized representative, if any, of Engineer assigned to assist Engineer at the Site of a Specific Project during the Construction Phase. The Resident Project Representative will be Engineer's agent or employee and under Engineer's supervision. As used herein, the term Resident Project Representative includes any assistants of Resident Project Representative agreed to by Owner. The duties and responsibilities of the Resident Project Representative will be as set forth in each Task Order.

36. *Samples* – Physical examples of materials, equipment, or workmanship that are representative of some portion of the Work and which establish the standards by which such portion of the Work will be judged.

37. *Shop Drawings* – All drawings, diagrams, illustrations, schedules, and other data or information which are specifically prepared or assembled by or for a Contractor and submitted by a Contractor to Engineer to illustrate some portion of the Work.

38. *Site* – Lands or areas indicated in the Contract Documents for a Specific Project as being furnished by Owner upon which the Work is to be performed, rights-of-way and easements for access thereto, and such other lands furnished by Owner which are designated for use of a Contractor.

39. *Specifications* – That part of the Contract Documents prepared by Engineer consisting of written technical descriptions of materials, equipment, systems, standards, and workmanship as applied to the Work to be performed by a Contractor and certain administrative details applicable thereto.

40. *Specific Project* – An undertaking of Owner as set forth in a Task Order.

41. *Substantial Completion* – The time at which the Work (or a specified part thereof) has progressed to the point where, in the opinion of Engineer, the Work (or a specified part thereof) is sufficiently complete, in accordance with the Contract Documents, so that the Work (or a specified part thereof) can be utilized for the purposes for which it is intended. The terms "substantially complete" and "substantially completed" as applied to all or part of the Work refer to Substantial Completion thereof.

42. *Supplementary Conditions* – That part of the Contract Documents which amends or supplements the General Conditions.

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

43. *Task Order* – A document executed by Owner and Engineer, including amendments if any, stating the scope of services, Engineer's compensation, times for performance of services and other relevant information for a Specific Project.

44. *Total Project Costs* – The sum of the Construction Cost, allowances for contingencies, the total costs of services of Engineer or other design professionals and consultants, cost of land, rights-of-way, or compensation for damages to properties, or Owner's costs for legal, accounting, insurance counseling, or auditing services, or interest and financing charges incurred in connection with a Specific Project, or the cost of other services to be provided by others to Owner.

45. *Work* – The entire completed construction or the various separately identifiable parts thereof required to be provided by a Contractor under Contract Documents for a Specific Project. Work includes and is the result of a Contractor performing or furnishing labor, services, and documentation necessary to produce such construction and furnishing, installing, and incorporating all materials and all equipment into such construction, all as required by the applicable Contract Documents.

46. *Work Change Directive* – A written directive to a Contractor signed by Owner upon recommendation of the Engineer, ordering an addition, deletion, or revision in the Work, or responding to differing or unforeseen subsurface or physical conditions under which the Work is to be performed or to emergencies. A Work Change Directive will not change the Contract Price or the Contract Times but is evidence that the parties expect that the change directed or documented by a Work Change Directive will be incorporated in a subsequently issued Change Order following negotiations by the parties as to its effect, if any, on the Contract Price or Contract Times.

47. *Written Amendment* – A written amendment of the Contract Documents signed by Owner and a Contractor on or after the Effective Date of a Construction Agreement and normally dealing with the non-engineering or non-technical rather than strictly construction-related aspects of the Contract Documents.

ARTICLE 8 – EXHIBITS AND SPECIAL PROVISIONS

8.01 *Exhibits*

Included? (Yes or No)	Exhibit Letter	Exhibit Title
Yes		Attachment 1 – Task Order Form
No	A	Schedule of Engineer's Services
No	B	Schedule of Owner's Responsibilities
No	C	Payments to Engineer for Services and Reimbursable Expenses
No	D	Schedule of Duties, Responsibilities and Limitations of Authority of Resident Project Representative
No	E	Notice of Acceptability of Work (Form)
No	F	Construction Cost Limit

Yes	G	Insurance
No	H	Dispute Resolution
No	I	Allocation of Risks
No	J	Reserved
Yes	K	Amendment to Task Order (Form)

8.02 *Total Agreement*

A. This Agreement (together with the Exhibits identified as included above) constitutes the entire agreement between Owner and Engineer and supersedes all prior written or oral understandings. This Agreement may only be amended, supplemented, modified, or canceled by a duly executed written instrument.

8.03 *Designated Representatives*

A. With the execution of this Agreement, Engineer and Owner shall designate specific individuals to act as Engineer's and Owner's representatives with respect to the Services to be performed or furnished by Engineer and responsibilities of Owner under this Agreement. Such individuals shall have authority to transmit instructions, receive information, and render decisions relative to the Agreement on behalf of each respective Party. Each Task Order shall likewise designate representatives of the Parties. The Designated Representative may be changed with written notice to the Designated Representative of the other Party.

IN WITNESS WHEREOF, the Parties execute this Agreement.

EXHIBIT G, consisting of 1 page, referred to in and part of the **Master Services Agreement between Owner and Engineer for Professional Services – Task Order Edition** dated _____.

Insurance

Paragraph 6.03 of the Agreement is amended and supplemented to include the following agreement of the parties.

The limits for Engineer's insurance required by paragraph 6.03 of the Agreement are as follows:

Workers' Compensation with statutory limits. Engineer shall certify in writing that the Engineer provides Workers' Compensation Insurance for all of Engineer's employees involved in the Project. In addition, Engineer shall meet each stipulation required by the Texas Workers Compensation Commission. If you have questions concerning the requirements, you are instructed to contact the TID at (800) 252-3439.

Employers Liability with minimum limits for bodily injury: a) by accident, $250,000 per each accident b) by disease, $250,000 per employee with a per policy aggregate of $500,000.

Commercial General Liability including, but not limited to, Premises/Operations, Personal & Advertising Injury, Products/Completed Operations, Independent Contractors and Contractual Liability with minimum combined bodily injury (including death) and property damage limits of $1,000,000 per occurrence, $2,000,000 general aggregate. If the insurance is written on a claims-made form, coverage shall be continuous (by renewal or extended reporting period) for not less than 36 months following the last to occur: 1) expiration of this Agreement; or 2) Engineer's completion, and Owner's acceptance, of all Services provided under any and all Task Orders, if any, approved pursuant to the Agreement. Coverage, including any renewals, shall have the same retroactive date as the original policy applicable to the Agreement.

Business Automobile Liability covering owned, hired, and non-owned vehicles, with minimum combined bodily injury (including death) and property damage limit of $1,000,000 per occurrence.

Professional Liability $2,000,000 per claim. With written approval of the City's Risk Manager, a Claims Made Policy may be accepted for Professional Liability Insurance.

ADDITIONAL INSURED - PRIMARY AND NON-CONTRIBUTORY

It is understood and agreed that this endorsement amends the **BUSINESS AUTO COVERAGE FORM** as follows:

SCHEDULE
Name of Additional Insured Person Or Organization
ANY PERSON OR ORGANIZATION THAT YOU ARE REQUIRED BY WRITTEN CONTRACT OR WRITTEN AGREEMENT TO NAME AS AN ADDITIONAL INSURED.

1. In conformance with paragraph **A.1.c.** of **Who Is An Insured** of Section II - LIABILITY COVERAGE, the person or organization scheduled above is an insured under this policy.
2. The insurance afforded to the additional insured under this policy will apply on a primary and non-contributory basis if you have committed it to be so in a written contract or written agreement executed prior to the date of the "**accident**" for which the additional insured seeks coverage under this policy.

All other terms and conditions of the policy remain unchanged

This endorsement, which forms a part of and is for attachment to the policy issued by the designated Insurers, takes effect on the Policy Effective date of said policy at the hour stated in said policy, unless another effective date (the Endorsement Effective Date) is shown below, and expires concurrently with said policy.

WAIVER OF TRANSFER OF RIGHTS OF RECOVERY AGAINST OTHERS TO US (WAIVER OF SUBROGATION) – AUTOMATIC WHEN REQUIRED BY WRITTEN CONTRACT OR AGREEMENT

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

This endorsement modifies insurance provided under the following:

AUTO DEALERS COVERAGE FORM

BUSINESS AUTO COVERAGE FORM

MOTOR CARRIER COVERAGE FORM

With respect to coverage provided by this endorsement, the provisions of the Coverage Form apply unless modified by the endorsement.

The **Transfer Of Rights Of Recovery Against Others To Us** Condition does not apply to any person(s) or organization(s) for whom you are required to waive subrogation with respect to the coverage provided under this Coverage Form, but only to the extent that subrogation is waived:

A. Under a written contact or agreement with such person(s) or organization(s); and

B. Prior to the **"accident"** or the **"loss."**

© Copyright Insurance Services Office, Inc., 2019

IMPORTANT: THIS ENDORSEMENT CONTAINS DUTIES THAT APPLY TO THE ADDITIONAL INSURED IN THE EVENT OF OCCURRENCE, OFFENSE, CLAIM OR SUIT. SEE PARAGRAPH C., OF THIS ENDORSEMENT FOR THESE DUTIES.

BLANKET ADDITIONAL INSURED ENDORSEMENT WITH PRODUCTS-COMPLETED OPERATIONS COVERAGE AND BLANKET WAIVER OF SUBROGATION

Architects, Engineers and Surveyors

This endorsement modifies insurance provided under the following:

BUSINESSOWNERS LIABILITY COVERAGE FORM
BUSINESSOWNERS COMMON POLICY CONDITIONS

A. **Who Is An Insured** is amended to include as an insured any person or organization whom you are required to add as an additional insured on this policy under a written contract or written agreement; but the written contract or written agreement must be:

1. Crrently in effect or becoming effective during the term of this policy; and
2. Executed prior to the:
   a. "**Bodily injury**" or "**property damage**"; or
   b. Offense that caused the "**personal and advertising injury**";

   for which the additional insured seeks coverage

B. The insurance provided to the additional insured is limited as follows:

1. The person or organization is an additional insured only with respect to liability for "**bodily injury**," "**property damage**" or "**personal and advertising injury**" caused in whole or in part by:
   a. Your acts or omissions; or
   b. The acts or omissions of those acting on your behalf,

   in the performance of your ongoing operations specified in the written contract or written agreement; or

   c. "**Your work**" that is specified in the written contract or written agreement, but only for "**bodily injury**" or "**property damage**" included in the "**products-completed operations hazard**," and only if:
      (1) The written contract or written agreement requires you to provide the additional insured such coverage; and
      (2) This Coverage Part provides such coverage.
2. The Limits of Insurance applicable to the additional insured are those specified in the written contract or written agreement or in the Declarations of this policy, whichever is less. These Limits of Insurance are inclusive of, and not in addition to, the Limits of Insurance shown in the Declarations.
3. The insurance provided to the additional insured does not apply to "**bodily injury**," "**property damage**" or "**personal and advertising injury**" arising out of an architect's, engineer's, or surveyor's rendering of or failure to render any professional services including:
   a. The preparing, approving, or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications by any architect, engineer or surveyor performing services on a project of which you serve as construction manager; or
   b. Inspection, supervision, quality control, engineering or architectural services done by you on a project of which you serve as construction manager.
4. The insurance provided to the additional insured does not apply to "**bodily injury**," "**property damage**" or "**personal and advertising injury**" arising out of construction or demolition work while you are acting as a construction or demolition contractor.

0002006867013633066277

Copyright, CNA All Rights Reserved.

C. Under **Businessowners Liability Conditions**, the condition entitled **Duties In The Event of Occurrence, Offense, Claim or Suit** is amended to add the following:

An additional insured under this endorsement will as soon as practicable:

1. Give written notice of an occurrence or an offense to us which may result in a claim or "**suit**" under this insurance;
2. Tender the defense and indemnity of any claim or "**suit**" to us for a loss we cover under this Coverage Part;
3. Except as provided for in paragraph **D.2.** below:
   a. Tender the defense and indemnity of any claim or "**suit**" to any other insurer which also has insurance for a loss we cover under this Coverage Part; and
   b. Agree to make available any other insurance which the additional insured has for a loss we cover under this Coverage Part.

We have no duty to defend or indemnify an additional insured under this endorsement until we receive written notice of a claim or "**suit**" from the additional insured.

D. With respect only to the insurance provided by this endorsement, the condition entitled **Other Insurance** of the **BUSINESSOWNERS COMMON POLICY CONDITIONS** is amended to delete paragraphs **2.** and **3.** and replace them with the following:

2. This insurance is excess over any other insurance available to the additional insured, whether primary, excess, contingent or on any other basis, But if required by the written contract or written agreement, this insurance will be primary and noncontributory relative to insurance on which the additional insured is a Named Insured.
3. When this insurance is excess, we will have no duty under **Business Liability** insurance to defend the additional insured against any "**suit**" if any other insurer has a duty to defend the additional insured against that "**suit**" If no other insurer defends, we will undertake to do so, but we will be entitled to the additional insured's rights against all those other insurers.

   When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:

   (a) The total amount that all such other insurance would pay for the loss in the absence of this insurance; and

   (b) The total of all deductible and self-insured amounts under all that other insurance.

   We will share the remaining loss, if any, with any other insurance that is not described in this Excess Insurance provision and was not bought specifically to apply in excess of the Limits of Insurance shown in the Declarations of this Coverage Part.

E. **Additional Insured – Extended Coverage**

When an additional insured is added by this or any other endorsement attached to this Coverage Part, the section entitled **Who Is An Insured** is amended to make the following natural persons insureds:

If the additional insured is:

1. An individual, then his or her spouse is an insured;
2. A partnership or joint venture, then its partners, members and their spouses are insureds;
3. A limited liability company, then its members and managers are insureds;
4. An organization other than a partnership, joint venture or limited liability company, then its executive officers, directors and shareholders are insureds; or
5. Any type of entity, then its employees are insureds;

but only with respect to locations and operations covered by the additional insured endorsement's provisions, and only with respect to their respective roles within their organizations. Furthermore, employees of additional insureds are not insureds with respect to liability arising out of:

(1) "**Bodily injury**" or "**personal and advertising injury**" to any fellow employee or to any natural person listed in paragraphs **1.** through **4.** above;

Copyright, CNA All Rights Reserved.

(2) **"Property damage"** to property owned, occupied or used by their employer or by any fellow employee; or

(3) Providing or failing to provide professional health care services.

F. The condition entitled **Transfer of Rights of Recovery Against Others to Us** of the **BUSINESSOWNERS COMMON POLICY CONDITIONS** is amended to deleted paragraph **2.** and replace it with the following:

2. We waive any right of recovery we may have against any person or organization with whom you have agreed to waive such right of recovery in a written contract or agreement because of payments we make for injury or damage arising out of your ongoing operations or "**your work**" done under a contract with that person or organization and included within the "**products-completed operations hazard.**"

All other terms and conditions of the Policy remain unchanged.

TEXAS WAIVER OF OUR RIGHT TO RECOVER FROM OTHERS ENDORSEMENT

This endorsement applies only to the insurance provided by the policy because Texas is shown in item 3.A. of the Information Page.

We have the right to recover our payments from anyone liable for an injury covered by this policy. We will not enforce our right against the person or organization named in the Schedule, but this waiver applies only with respect to bodily injury arising out of the operations described in the schedule where you are required by a written contract to obtain this waiver from us.

This endorsement shall not operate directly or indirectly to benefit anyone not named in the Schedule.

The premium for this endorsement is shown in the Schedule.

Schedule

1. ( ) Specific Waiver
   Name of person or organization
   (X) Blanket Waiver
   Any person or organization for whom the Named Insured has agreed by written contract to furnish this waiver.

2. Operations: ALL TEXAS OPERATIONS
3. Premium:
   The premium charge for this endorsement shall be **2.00** percent of the premium developed on payroll in connection with work performed for the above person(s) or organization(s) arising out of the operations described.
4. Advance Premium: Included, see Information Page

This endorsement changes the policy to which it is attached effective on the inception date of the policy unless a different date is indicated below.
(The following "attaching clause" need be completed only when this endorsement is issued subsequent to preparation of the policy.)
This endorsement, effective on 1/2/24 **at 12:01 a.m.** standard time, forms a part of:

TASK ORDER

Task Order No. MEI-27-002, consisting of 7 pages.

Task Order

In accordance with paragraph 1.01 of the Master Services Agreement between Owner and McCord Engineering, Inc. ("Engineer") for Professional Services – Task Order Edition, dated September 9, 2025 ("Agreement"), Owner and Engineer agree as follows:

1. Specific Project Data

A. Title: Electric System Engineering Planning and Engineering Assistance

B. Description: The Engineer will provide general electrical engineering support to the City of Georgetown Electric Department as outlined in Section 2.

C. City of Georgetown Project Number: Various

D. City of Georgetown General Ledger Account No.: Various

E. City of Georgetown Purchase Order No.: Various

F. Master Services Agreement, Contract Number: 25-0352-MSA

2. Services of Engineer

Prior to the Engineer performing services for the Owner, the Engineer shall submit a Service Order to the Owner detailing the scope of work and agreed upon engineering not-to-exceed (NTE) amount.

A. General planning and strategic planning meetings concerning the electric system's status.

B. General Electric system model evaluations using Milsoft WindMil® Engineering model for the following:

i. Switching

ii. Motor Start

iii. Conductor capacity

iv. Voltage drop

v. Power factor

vi. Equipment capacity

Copyright ©2004 National Society of Professional Engineers for EJCDC. All rights reserved.

vii. Sectionalizing or system protection

C. City of Georgetown electric staff support as required for preliminary or non specific projects.

i. Preliminary analysis for new development in the early planning stages.

ii. Preliminary review of general building construction plans or site plans.

iii. Review monthly DRC report and return comments at City electric staff's request.

D. Provide general construction specifications and standards at City electric staff's request.

E. General electric system mapping assistance in the following areas:

i. Update project status list.

ii. Phone and email correspondence with City mapping staff and Milsoft in Abilene as required.

iii. Aerial data update to Milsoft WindMil® model.

iv. Help City mapping staff with in-house project insertions into Milsoft WindMil® model.

v. Periodic project update submittals using the Milsoft WindMil® model to the City.

vi. Periodic file download of the monthly electric load into Milsoft WindMil® model.

vii. Field work required to GPS any in-house designed projects or other additions to the electric system performed for System Service Delivery Design, Maintenance or Operations.

viii. General file updates on the Milsoft WindMil® model, including address files, account files, and meter number files.

F. Assist City staff on any recommended changes to the current Electric System Line Extension Policy.

G. Work with City staff to continue to improve the City Partners Staking software.

H. Provide any load projection estimates required by the City's power provider.

I. Assist City staff on any communication attachment requests.

J. Five (5) year CIP update.

i. Data Collection

Copyright ©2004 National Society of Professional Engineers for EJCDC. All rights reserved.

Request from the City load history of all customers for the year 2024.

1) Request from the City substation peak load, power factor, load factor, and bus voltage for each substation transformer and distribution feeder for summer and winter peaks for 2026

2) Request from the City areas in the electric service area that has the potential for load growth.

3) Request from the City any budget constraints for the next five (5) year period of this study.

4) Request from the City any projects the City feels needs to be accelerated in time for the next five (5) year period of this study.

ii. Electric System Evaluation

1) Import data collected above from the City into Milsoft software to calculate electric system loading, power factor, and voltage drop.

2) Evaluate the Milsoft calculations and review electric system for any deficiencies.

3) Evaluate the electric system for any potential load growth.

4) Evaluate any projects the City has indicated that may need to be incorporated into the CIP.

5) Review the existing CIP plan by dropping the previous budget year work and add budget year 2028/2029.

6) Review existing infrastructure projects in existing CIP plan.

7) Identify new infrastructure projects which will address new operational and development changes.

iii. Preliminary Report

1) Update the existing CIP plan by dropping the previous budget year and add budget year 2028/2029.

2) Update the existing infrastructure projects in the existing CIP plan and incorporate revised project estimates under categories of Consulting, Right of Way, Construction, Testing, and Other.

Copyright ©2004 National Society of Professional Engineers for EJCDC. All rights reserved.

3) Prepare cost estimates for newly identified infrastructure projects under categories Consulting, Right of Way, Construction, Testing, and Other.

4) Provide project cost estimates and individual maps for all CIP projects in the new CIP plan.

5) Identify yearly phasing across multiple fiscal years, where appropriate, for identified projects in the new CIP plan.

6) Provide an electric system map to show locations of CIP projects.

7) Meet with City Staff to review.

iv. Final Report - Prepare and submit a revised CIP plan document with any revised cost that occurred.

K. System Capacitor Placement Review and Analysis.

L. System Performance Analysis.

M. Master Plan Update (original master plan completed in 2009 and an updated master plan was completed in 2016).

i. Review and revise the following based on current information system configuration:

1) Electric System Ultimate System capacity.

2) Electric System Ultimate Substation service areas.

3) Electric System Ultimate Feeder requirement and general configuration.

ii. Periodically meet with City staff for their input into the Master Plan update.

iii. Present the Master Plan update to the City Council, as required.

N. System automation plan review and implementation.

O. Line extension policy review and enhancement.

P. Design Criteria Manual Review and Enhancement

Q. Construction Specs and Assembly Unit Review and Enhancement

R. Support Energy Supply Planning

3. **Owner's Responsibilities** – Owner shall have these responsibilities set forth in the agreement subject to the following:

   A. Provide directions on each engineering project.
   B. Prioritize each engineering project.
   C. Provide project completion date required for each engineering project.
   D. Sign and return the Service Order submitted by the Engineer.

4. Times for Rendering Services

Phase	Completion Date
N/A since general projects	Will Vary

5. Payments to Engineer

A. Owner shall pay Engineer for services rendered as follows:

Category of Services	*Compensation Method*	*Lump Sum or Not to Exceed Amount of Compensation for Services*
Electric System Engineering Planning and Engineering Assistance	*Standard Hourly Rates as shown on Exhibit A*	*$500,000*

The Engineer shall invoice the Owner monthly for all system study projects based on their progress. For the communication attachment projects, the Engineer shall invoice as follows:

Pole Loading Analysis (full) - $300 per pole

Pole Loading Analysis (review) - $40 per pole

Make Ready Pole Design - NTE 10% of the total cost of the project

B. The terms of payment are set forth in Article 4 of the Agreement unless modified in this Task Order.

MASTER SERVICES AGREEMENT BETWEEN OWNER AND ENGINEER FOR PROFESSIONAL SERVICES TASK ORDER EDITION

CONTRACT NO. 25-0352-MSA

THIS IS AN AGREEMENT effective as of _____ ("Effective Date") between the City of Georgetown, A Texas Home Rule Municipal Corporation ("Owner" or "City") and McCord Engineering, Inc., a Texas Corporation ("Engineer").

From time to time Owner may request that Engineer provide professional services for Specific Projects. Each engagement will be documented by a Task Order. This Agreement sets forth the general terms and conditions which shall apply to all Task Orders duly executed under this Agreement.

Owner and Engineer agree as follows:

ARTICLE 1 – SERVICES OF ENGINEER

1.01 *Scope*

A. Engineer's services ("Services") will be detailed in a duly executed Task Order for each Specific Project. Each Task Order will indicate the specific tasks and functions to be performed and deliverables to be provided.

B. The general format of a Task Order is shown in Attachment 1 to this Agreement.

C. This Agreement is not a commitment by Owner to Engineer to issue any Task Orders.

D. A Task Order will be effective when executed by Owner and Engineer. Engineer shall not perform under any prospective Task Order unless and until a Task Order is executed by Owner and Engineer.

1.02 *Task Order Procedure*

A. Owner and Engineer shall agree on the scope, time for performance, and basis of compensation for each Task Order. Each duly executed Task Order shall be subject to the terms and conditions of this Agreement.

B. Engineer will commence performance as set forth in the Task Order. When Services under a Task Order are eighty percent (80 %) complete, Engineer shall provide written notice to Owner's Designated Representative (1) certifying that Engineer will complete the scope of Services for the amount of the Task Order and in the time required by the Task Order; or (2) explaining why Engineer is unable or unwilling to make such certification. When a Task Order includes more than one phase of Services, Engineer shall provide the notice at eighty percent (80%) completion of each phase.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

C. Changes in an approved Task Order may be initiated by the Engineer or Owner by a Task Order Amendment. The Task Order Amendment shall: (i) describe a change in scope, including Services to be added, changed, or deleted; (ii) state the additional cost or cost reduction; and (iii) described schedule changes, if any. A Task Order Amendment will be effective when executed by Owner and Engineer. Engineer shall not perform under any prospective Task Order Amendment unless and until the Task Order Amendment is executed by Owner and Engineer. Oral amendments to a Task Order will have no effect, except in cases of an emergency threatening personal injury or property damage. In such case, the Owner and Engineer will document the Task Order Amendment in writing, as soon as possible.

D. If Engineer becomes aware that a change concerning a Specific Project may require a Task Order Amendment to increase the scope of Services, request additional cost or request additional time, Engineer shall provide written notice to the Owner's Designated Representative within ten (10) days. If Engineer determines that a Task Order Amendment is required as a result of the change, Engineer shall initiate a Task Order Amendment within ten (10) days.

1.03 *Task Order Amount.* Engineer shall provide a not-to-exceed amount to perform the scope of Services included in the Task Order. A Level of Effort Table will be submitted to Owner to document and support Engineer's calculation of the not to exceed amount, including but not limited to a Standard Hourly Rate Schedule and a Reimbursable Expense Schedule.

ARTICLE 2 – OWNER'S RESPONSIBILITIES

2.01 *General.* Owner shall have the responsibilities set forth herein, in this Agreement and in a Task Order.

ARTICLE 3 – TERM; TIMES FOR RENDERING SERVICES

3.01 *Term.* This Agreement shall be effective and applicable to Task Orders issued hereunder for three (3) years from the Effective Date of the Agreement.

3.02 *Times for Rendering Services*

A. The times for performing Services or providing deliverables will be stated in each Task Order. Time is of the essence.

B. Owner shall make decisions and carry out its other responsibilities in a timely manner so as not to delay the Engineer's performance of its Services.

C. If Engineer fails, through its own fault, to complete the performance required in a Task Order within the time set forth, as duly adjusted, then Owner shall be entitled to the recovery of damages resulting from such failure.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

ARTICLE 4 – PAYMENTS TO ENGINEER

4.01 *Invoices – Preparation and Submittal of Invoices.* Engineer shall prepare invoices in accordance with the specific Task Order. Engineer shall submit invoices to Owner on a monthly basis.

4.02 *Payments*

A. Owner agrees to pay Engineer in accordance with Texas Government Code Chapter 2251. Engineer shall pay all Consultants and other expenses incurred under the Task Order in accordance with Texas Government Code Chapter 2251.

B. *Compensation Methods.* Engineering Services will be compensated in accordance with one or more of the following methods as specified in the Task Order:

1. *Lump Sum Method.* The Lump Sum will include compensation for Engineer's services and services of Consultants, if any. Appropriate amounts will be incorporated in the Lump Sum to account for labor, overhead and profit. Owner will pay Engineer for reasonable and customary Reimbursable Expenses in addition to the Lump Sum.

2. *Standard Hourly Rates Method.* The cumulative hours charged to the Specific Project is calculated by multiplying each class of Engineer's employees by the Standard Hourly Rates for each applicable billing class for all Services performed on the Specific Project and Consultant's charges, if any. Standard Hourly Rates include salaries and wages paid to personnel in each billing class plus the cost of Customary and statutory benefits, general and administrative overhead, non-project operating costs, and operating margin of profit. In addition, Owner will pay Engineer for reasonable and customary Reimbursable Expenses.

C. *Failure to Pay.* If Owner fails to make any payment that is due, Engineer may, after giving seven (7) days written notice to Owner, suspend services under the Task Order until Owner pays the amount due.

D. *Disputed Invoices.* If Owner contests an invoice, Owner may withhold only that portion so contested, and must pay the undisputed portion.

ARTICLE 5 – OPINIONS OF COST

5.01 *Opinions of Cost.*

A. Engineer's opinions of probable Construction Cost are to be made on the basis of Engineer's experience and qualifications and represent Engineer's judgment as an experienced and qualified professional generally familiar with the construction industry. However, Engineer does not guarantee that proposals, bids, or actual Construction Cost will not vary from opinions of probable Construction Cost prepared by Engineer.

B. Engineer's opinions of Total Project Costs are to be made on the basis of Engineer's experience and qualifications and represent Engineer's judgment as an experienced and qualified professional generally familiar with the construction industry. However,

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition

Engineer does not guarantee that Total Project Costs will not vary from opinions of Total Project Costs prepared by Engineer.

5.02 *Designing to Construction Cost Limit*

A. If a Construction Cost limit is established between Owner and Engineer in a Task Order, Engineer's rights and responsibilities with respect thereto will be governed by the terms of the Task Order.

ARTICLE 6 – GENERAL CONSIDERATIONS

6.01 *Standards of Performance*

A. The standard of care for all professional engineering and related services performed or furnished by Engineer under this Agreement will conform to standard engineering practices and applicable rules and regulations of the Texas Engineering Practices Act and the rules of the Texas Board of Professional Engineers. Engineer warrants that the professional engineering and related services performed or furnished by Engineer under this Agreement, and Task Order issued under this Agreement, if any, shall meet or exceed such standard of care.

B. Owner shall not be responsible for discovering deficiencies in the technical accuracy of Engineer's services. Engineer shall correct any such deficiencies in technical accuracy without additional compensation, except to the extent such corrective action is directly attributable to deficiencies in Owner-furnished information, not reasonably known or discoverable by Engineer.

C. Engineer shall serve as Owner's prime professional under each Task Order. Engineer may employ such Consultants as Engineer deems necessary to assist in the performance or furnishing of the Services, subject to reasonable, timely, and substantive objections by Owner.

D. Subject to the standard of care set forth in Paragraph 6.01.A, Engineer and its Consultants may use or rely upon design elements and information ordinarily or customarily furnished by others, including, but not limited to, specialty contractors, manufacturers, suppliers, and the publishers of technical standards.

E. Engineer and Owner shall comply with applicable Laws and Regulations and additional Owner-mandated standards, if any, that Owner has provided to Engineer in writing. This Agreement is based on these requirements as of the Effective Date of each Task Order. Changes to these requirements after the Effective Date of each Task Order may be the basis for modifications to Owner's responsibilities or to Engineer's scope of services, times of performance, and compensation.

F. Engineer shall not be required to sign any documents, no matter by who requested, that would result in Engineer having to certify, guarantee, or warrant the existence of conditions whose existence Engineer cannot ascertain within its Services for that Specific Project. Owner agrees not to make resolution of any dispute with Engineer or payment of

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

any amount due to the Engineer in any way contingent upon Engineer signing any such certification.

G. Engineer shall not at any time supervise, direct, or have control over a Contractor's work, nor shall Engineer have authority over or responsibility for the means, methods, techniques, sequences, or procedures of construction selected or used by a Contractor, for security or safety at any Site, for safety precautions and programs incident to a Contractor's work in progress, nor for any failure of a Contractor to comply with Laws and Regulations applicable to a Contractor's furnishing and performing the Work.

H. Engineer neither guarantees the performance of any Contractor nor assumes responsibility for any Contractor's failure to furnish and perform the Work in accordance with the Contract Documents.

I. Engineer shall not be responsible for the acts or omissions of any Contractor, subcontractor, or supplier, or of any of their agents or employees or of any other persons (except Engineer's own employees and its Consultants) at a Site or otherwise furnishing or performing any of a Contractor's work; or for any decision made on interpretations or clarifications of the Contract Documents given by Owner without consultation and advice of Engineer.

J. Engineer shall at all times be an independent contractor with the sole authority to control and direct the performance of the details of the Services. Engineer shall not purport to be an employee or agent of the City and shall not have any right or power to bind the City to any obligation.

K. Engineer shall procure and maintain at its expense all licenses and permits necessary to perform Services. Engineer shall require that its employees and Consultants are properly licensed to perform their respective portion of Services.

L. The Services to be performed under this Agreement shall be performed entirely at Engineer's risk. Engineer shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the Services to be performed under this Agreement. Engineer shall take all reasonable precautions for the safety of and shall provide all reasonable protection to prevent damage, injury, or loss to employees, the Services, endangered species, or the property affected by this Agreement. All damage or loss to any property caused in whole or in part by Engineer, Consultant, or anyone employed by either of them shall be remedied by Engineer.

6.02 *Ownerships of Documents*

A. City shall have the title to and ownership of all documents produced or developed by Engineer in connection with a Task Order issued pursuant to this Agreement. Documents include publications, plans drawings, designs, specifications, photographs, studies, reports schedules, computer programs, and other data and work product, in any form or media. Owner shall have sole ownership of all copyright interest in all documents to the extent that documents may be copyrighted. Engineer shall deliver all documents to the Owner at completion of the Specific Project under a Task Order, termination of Services under a Task Order, or upon Owner's request. Engineer may retain copies of its work product.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

6.03 *Insurance*

A. At all times for the term of this Agreement and when any Task Order is under performance, Engineer shall procure and maintain insurance as set forth in Exhibit G, "Insurance." Engineer's failure to purchase and maintain the required insurance shall be grounds for Owner's termination or suspension of this Agreement or a Task Order.

B. Engineer shall cause Owner and its elected officials, officers, directors, employees, representatives and volunteers to be listed as an additional insured on any applicable general liability insurance policy carried by Engineer which is applicable to a Specific Project. The additional insured status must cover completed operations as well, and the policy covering completed work must remain in effect until the expiration of the statute of repose. As respects the Workers Compensation policy, the Engineer will waive subrogation in favor of the Owner.

C. Engineer must complete and forward the required Certificates of Insurance to the Owner when Engineer executes this Agreement as verification of coverage required as indicated. Engineer shall not provide any Services under a Task Order until the required insurance is obtained and until such insurance has been reviewed by the Owner. Approval of insurance by the Owner shall not relieve or decrease the liability of Engineer and shall not be construed to be a limitation of liability on the part of Engineer. Engineer must also complete and forward the required Certificates of Insurance to the Owner whenever a previously indentified policy period has expired as verification of continuing coverage.

D. Engineer's insurance coverage shall be written by companies licensed and authorized to do business in the State of Texas before the policies are issued and shall be written by companies with A.M. Best rating A VIII or better.

E. All endorsements naming the Owner as additional insured, waivers, and notices of cancellation, as well as the Certificates of Insurances shall indicate: City of Georgetown, 300-1 Industrial Avenue, Georgetown, Texas 78626, ATTN: Contract Manager.

F. The "other insurance" clause shall not apply to the Owner where the Owner is an additional insured shown on any policy. It is agreed that the Engineer's general liability insurance shall be considered primary with respect to any insurance or self insurance carried by the Owner. The Owner's insurance shall apply separately to each insured against whom a claim is made and/or lawsuits brought, except with respect to the limits of insured's liability.

G. If insurance policies are not written for the specified amounts, Engineer shall carry Umbrella or Excess Liability Insurance for any differences in amounts specified. If Excess Liability Insurance is provided, it shall follow the form of the primary coverage.

H. Owner shall be entitled, upon request and without expense, to receive "certified copies" of policies and policy endorsements and may make any reasonable requests for deletion or revision or modification of particular policy terms, conditions, limitations, or exclusions except where policy provisions are established by law or regulations binding upon either of the Parties or the underwriter on any such policies.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

I. Owner reserves the right to review the insurance requirements during the effective period of this Agreement and to make reasonable adjustments to insurance coverage, limits and exclusions when deemed necessary and prudent by the Owner. Owner may request, in a Task Order or Task Order Amendment, that Engineer and its Consultants provide additional insurance coverage, increased limits, or revised deductibles that are more protective than those specified in Exhibit G. Engineer shall obtain and shall require its Consultants to obtain such additional insurance coverage, different limits, or revised deductibles for such periods of time as requested by Owner in the Task Order or Task Order Amendment.

J. Engineer shall not allow any insurance to be cancelled nor permit any insurance to lapse during the term of this Agreement or as required in this Agreement. The policies must contain the following language: "This policy shall not be cancelled or not renewed until after thirty (30) days prior written notice has been given to the additional insured, the City of Georgetown." In addition, Engineer shall provide Owner thirty (30) days written notice of erosion of the aggregate limits below occurrence limits for all applicable coverages indicated within the Agreement.

K. Engineer shall be responsible for premiums, deductibles and self-insured retentions, if any, as stated in policies. All deductibles or self-insured retentions shall be disclosed on the Certificates of Insurance.

L. If Owner's property is being transported or stored off-site by Engineer, then the appropriate property policy will be endorsed for transit and storage in an amount sufficient to protect the Owner's property.

M. The insurance coverages required under this Agreement are required minimums and are not intended to limit the responsibility or liability of Engineer.

N. Without limiting any of the other obligations or liabilities of the Engineer, the Engineer shall require each Consultant performing work under a Task Order to maintain during the term of the Task Order, at the Consultant's expense, the same stipulated minimum insurance including the required provisions and additional policy conditions as shown above. As an alternative, the Engineer may include its Consultants as additional insureds on its own coverage as prescribed under these requirements. The Engineer's Certificate of Insurance shall note in such event that the Consultants are included as additional insureds and that Engineer agrees to provide Workers Compensation for the Consultants and their employees. The Engineer shall obtain and monitor the Certificates of Insurance from each Consultant in order to comply with the insurance requirements. The Engineer must retain the Certificates of Insurance for the duration of the Task Order plus five (5) years and shall have the responsibility of enforcing these insurance requirements among its Consultants. The Owner shall be entitled, upon request and without expense, to receive copies of these Certificates of Insurance.

O. Owner shall require Contractors to purchase and maintain general liability and other insurance in accordance with the requirements of Paragraph 5.04 of the Standard General Conditions of the Construction Contract (No. C-700, 2002 Edition) of the Engineers Joint Contract Documents Committee, and to cause Engineer and its Consultants to be listed as

additional insureds with respect to such liability and other insurance purchased and maintained by Contractors.

6.04 *Suspension and Termination*

A. *Suspension*

1. Owner has the right to suspend all or any portion of the Services to be performed under a Task Order upon ten (10) days written notice to Engineer. Upon receipt of a notice of suspension, Engineer shall:

   a. immediately suspend Services on the date and to the extent specified in the notice;

   b. protect and maintain the portion of the Services completed, including the portion of the Services suspended, unless otherwise specifically stated in the notice; and

   c. continue to perform the Services not suspended.

2. If Owner suspends Services to be performed under a Task Order, Owner shall pay Engineer, as specified in the Task Order, for the Services completed to the date of suspension. Owner will also reimburse Engineer for the following costs, without duplication of any item, to the extent that such costs actually result from such suspension of Services:

   a. a reasonable standby charge to compensate Engineer for keeping (to the extent required in the notice) its organization and equipment committed to the Services in standby status;

   b. reasonable costs associated with demobilization of Engineer's facility, forces and equipment; and

   c. reasonable cost of maintaining and protecting that portion of the Services upon which activities have been suspended.

3. Engineer shall not be entitled to receive any other compensation or reimbursement resulting from a suspension in Services under a Task Order.

4. Upon receipt of notice to restart the suspended portion of Services, Engineer shall immediately resume performance to the extent required in the notice. Within ten (10 days after receipt of notice to resume the suspended portion, the Engineer shall submit a revised schedule for approval by Owner. If, as a result of any suspension, the cost to Engineer of subsequently performing the Services or the time required to perform the Services is changed, Engineer may initiate a Task Order Amendment.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

B. *Termination.* The obligation to provide further services under this Agreement, or under a Task Order, may be terminated:

1. For Cause,

a. The obligation to provide further services under this Agreement, or under a Task Order, may be terminated by Owner, for cause, upon ten (10) days written notice in the event of substantial failure by Engineer to perform in accordance with this Agreement or any Task Order. This Agreement, or Task Order, will not terminate if the Engineer corrects the failure to perform and proceeds diligently to cure such failure within no more than thirty (30) days of receipt of the notice. If Engineer fails to cure the default, Owner may provide written notice of termination to Engineer.

b. The obligation to provide further services under this Agreement, or under Task Order, may be terminated by Engineer, for cause, upon ten (10) days written notice in the event of substantial failure by Owner to perform in accordance with the terms of this Agreement or any Task Order. This Agreement, or a Task Order, will not terminate if the Owner corrects the failure to perform and proceeds diligently to cure such failure within no more than thirty (30) days of receipt of the notice. If Owner fails to cure the default, Engineer may provide written notice of termination to Owner.

2. For Convenience,

a. Owner has the right to terminate a Task Order under this Agreement for convenience at any time by providing ten (10) days written notice to Engineer. Upon receipt of a notice of termination for convenience, Engineer shall:

1) immediately cease providing Services under the Task Order; and

2) protect and maintain the portion of the Services completed, unless otherwise specifically stated in the notice.

b. In the event of a termination for convenience, Owner shall pay Engineer, as specified in the Task Order, for the Services completed to the date of termination. Owner shall not be liable for special, incidental, consequential or punitive damages, for loss of anticipated future Services, anticipated profits, administrative costs or overhead on anticipated Services, or other indirect costs as a result of a termination for convenience.

6.05 *Controlling Law*

A. This Agreement is to be governed by and construed in accordance with Texas law. Owner and Engineer each submit to the exclusive jurisdiction of the state and federal courts in Williamson County, Texas. Owner does not waive the defense of sovereign immunity.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

6.06 *Successors, Assigns, and Beneficiaries*

A. Owner and Engineer each is hereby bound and the partners, successors, executors, administrators and legal representatives of Owner and Engineer are hereby bound to the other Party to this Agreement and to the partners, successors, executors, administrators and legal representatives (and said assigns) of such other Party, in respect of all covenants, agreements and obligations of this Agreement.

B. Neither Owner nor Engineer may assign, sublet, or transfer any rights under or interest (including, but without limitation, moneys that are due or may become due) in this Agreement without the written consent of the other, except to the extent that any assignment, subletting, or transfer is mandated or restricted by law. Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement.

C. There are no third-party beneficiaries to this Agreement. The provisions of this Agreement do not, and shall not be construed to, create any legal or equitable right, remedy or claim enforceable by any person or entity other than Owner and Engineer. Unless expressly provided otherwise in this Agreement:

1. Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by Owner or Engineer to any Contractor, Contractor's subcontractor, supplier, other individual or entity, or to any surety for or employee of any of them.

2. All duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of Owner and Engineer and not for the benefit of any other party.

D. Owner agrees that the substance of the provisions of this Paragraph 6.07.C shall appear in the Contract Documents.

6.07 *Dispute Resolution*

A. If a dispute arises under this Agreement or a Task Order, Owner and Engineer agree to negotiate the dispute between them in good faith for a period of 30 days from the date of written notice of the dispute.

B. If the Parties fail to resolve a dispute through negotiation under Paragraph 6.07.A, then Owner and Engineer agree that they shall submit any and all unsettled claims, counterclaims, and other matters in question between them arising out of or relating to this Agreement or a Task Order to mediation.

C. If mediation is unsuccessful in resolving a dispute, then any and all unsettled claims, counterclaims, and other matters in question between Owner and Engineer arising out of or relating to this Agreement or Task Order (a) may be submitted to binding arbitration by written agreement of the Parties, or (b) may be filed by either Party in a court of competent jurisdiction.

D. Upon Owner's request, Engineer shall proceed with performance of Services pending final resolution of a dispute arising under this Agreement or a Task Order.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

6.08 *Environmental Condition of Site*

A. With respect to each Task Order, Specific Project, and Site:

1. Owner has disclosed to Engineer in writing the existence of all known and suspected Asbestos, PCBs, Petroleum, Hazardous Waste, Radioactive Material, hazardous substances, and other Constituents of Concern located at or near the Site, including type, quantity, and location.

2. Owner represents to Engineer that to its knowledge no Constituents of Concern, other than those disclosed in writing to Engineer, exist at the Site.

3. If Engineer encounters an undisclosed Constituent of Concern, then Engineer shall notify (a) Owner and (b) appropriate governmental officials if Engineer reasonably concludes that doing so is required by applicable Laws or Regulations.

4. If Engineer or any other Party encounters an undisclosed Constituent of Concern, or if investigative or remedial action, or other professional services, are necessary with respect to disclosed or undisclosed Constituents of Concern, then Engineer may, at its option and without liability for consequential or any other damages, suspend performance of services on the portion of the Specific Project affected thereby until the Site is in full compliance with applicable Laws and Regulations.

5. If the presence at the Site of undisclosed Constituents of Concern adversely affects the performance of Engineer's services under a Task Order, then the Engineer shall have the option of (a) submitting a Task Order Amendment for adjustment in its compensation or in the time of completion, or both; or (b) terminating this Agreement for cause.

6.09 *Indemnification*

A. **General Obligation to Indemnify and Defend. TO THE FULLEST EXTENT PERMITTED BY LAW, ENGINEER AGREES TO INDEMNIFY AND HOLD HARMLESS THE OWNER, ITS ELECTED OFFICIALS, OFFICERS, DIRECTORS, AGENTS, EMPLOYEES, REPRESENTATIVES AND VOLUNTEERS OF AND FROM DAMAGES, INJURIES (INCLUDING DEATH), CLAIMS, PROPERTY DAMAGES (INCLUDING LOSS OF USE), LOSSES, DEMANDS, FORFEITURES, PENALTIES, FINES, COSTS, LAWSUITS, LIABILITIES, ACTIONS, AND CAUSES OF ACTION, OF EVERY KIND WHATSOEVER, AND EXPENSES, INCLUDING BUT NOT LIMITED TO FEES AND CHARGES OF ENGINEERS, ATTORNEYS, AND OTHER PROFESSIONALS, AND COURT, ARBITRATION, OR OTHER DISPUTE RESOLUTION COSTS, AND EXPENSES AND COSTS OF INVESTIGATION, ARISING OUT OF OR RELATING TO THIS AGREEMENT, ANY TASK ORDER, OR ANY SPECIFIC PROJECT, TO THE EXTENT CAUSED BY 1) THE NEGLIGENT ACT OR OMISSION OR WILLFUL ACTS OF ENGINEER OR ENGINEER'S OFFICERS, DIRECTORS, PARTNERS, AGENTS, EMPLOYEES, OR CONSULTANTS OR 2) MATERIAL BREACH OF THIS AGREEMENT OR TASK ORDER. ENGINEER FURTHER AGREES TO DEFEND, AT ITS OWN**

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

EXPENSE, ON BEHALF OF THE OWNER AND IN THE NAME OF THE OWNER, SUITS AND PROCEEDINGS INSTITUTED AGAINST OWNER TO WHICH THE INDEMNITY OBLIGATION APPLIES, AND PAY AWARDS OF DAMAGES ASSESSED WHICH RESULT FROM ANY SUCH CLAIM, SUIT OR PROCEEDING, INCLUDING ASSOCIATED EXPENSES, ATTORNEY FEES, COSTS OF INVESTIGATION, ARBITRATION AND/OR LITIGATION.

B. **Intellectual Property.**

1. ENGINEER AGREES TO INDEMNIFY AND HOLD HARMLESS THE OWNER, ITS ELECTED OFFICIALS, OFFICERS, DIRECTORS, AGENTS, EMPLOYEES, REPRESENTATIVES AND VOLUNTEERS OF AND FROM DAMAGES, CLAIMS, LOSSES, DEMANDS, FORFEITURES, PENALTIES, FINES, COSTS, LAWSUITS, LIABILITIES, ACTIONS, CAUSES OF ACTION OF EVERY KIND WHATSOEVER, AND EXPENSES, INCLUDING BUT NOT LIMITED TO FEES AND CHARGES OF ENGINEERS, ATTORNEYS, AND OTHER PROFESSIONALS, AND COURT, ARBITRATION, OR OTHER DISPUTE RESOLUTION COSTS, AND EXPENSES AND COSTS OF INVESTIGATION, TO THE EXTENT CAUSED BY ALLEGED INFRINGEMENT OF PATENT OR COPYRIGHT OF THE UNITED STATES OR OF ANY TRADEMARK OR TRADE SECRET PROTECTED BY EITHER FEDERAL OR STATE LAW BY ENGINEER OR ENGINEER'S OFFICERS, DIRECTORS, PARTNERS, AGENTS, EMPLOYEES, OR CONSULTANTS. ENGINEER SHALL, AT ITS OWN EXPENSE, DEFEND SUITS OR PROCEEDINGS INSTITUTED AGAINST OWNER, AND PAY AWARDS OF DAMAGES ASSESSED WHICH RESULT FROM ANY SUCH CLAIM, SUIT OR PROCEEDING, INCLUDING ASSOCIATED EXPENSES, ATTORNEY FEES, COSTS OF INVESTIGATION, ARBITRATION AND/OR LITIGATION, AND SHALL ABIDE BY RESULTING DECREES AND COMPROMISES.

2. IF A RESTRAINING ORDER OR TEMPORARY INJUNCTION IS GRANTED, ENGINEER SHALL MAKE EVERY REASONABLE EFFORT, BY GIVING A SATISFACTORY BOND OR OTHERWISE, TO SECURE THE SUSPENSION OF ANY SUCH RESTRAINING ORDER OR TEMPORARY INJUNCTION. IF THE SERVICES ARE HELD TO CONSTITUTE AN INFRINGEMENT, AND PERMANENTLY ENJOINED, ENGINEER SHALL MAKE EVERY REASONABLE EFFORT TO SECURE FOR OWNER A LICENSE AT ENGINEER'S EXPENSE AUTHORIZING THE CONTINUED USE OF THE ALLEGED INFRINGING PORTION OF THE SERVICES. IF ENGINEER IS UNABLE TO SECURE SUCH LICENSE WITHIN A REASONABLE TIME, ENGINEER SHALL, AT ITS OWN EXPENSE AND WITHOUT IMPAIRING PERFORMANCE REQUIREMENTS, EITHER PROVIDE NON-INFRINGING REPLACEMENT OR MODIFY THE SERVICES TO ELIMINATE THE INFRINGEMENT. IN ADDITION TO INDEMNIFYING AND SAVING OWNER HARMLESS, ENGINEER SHALL REIMBURSE OWNER FOR

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

ANY COSTS INCURRED AS A RESULT OF THE UNAVAILABILITY OF THE INFRINGING ITEM OR ITS NONINFRINGING REPLACEMENT.

C. Engineer's indemnity obligations are independent covenants and shall survive completion of or termination of the Agreement or any claimed breach of the Agreement.

D. Owner shall promptly notify Engineer, in writing, of receipt of notice of the commencement or threatened commencement of any civil, administrative or investigative action or proceeding involving a claim for which Owner seeks indemnification. No failure to so notify Engineer shall relieve Engineer of its obligations under this Agreement except to the extent that Engineer can demonstrate damages attributable to such failure. Within fifteen (15) days following receipt of written notice from the Owner, but no later than ten (10) days before the date on which any response to a complaint or summons is due, Engineer shall assume control of the defense and/or resolution of the claim.

E. *Release.* Engineer assumes full responsibility for the Services to be performed and releases, relinquishes, and discharges the City, its elected officials, officers, directors, agents, employees, representatives and volunteers from all claims, demands, and causes of action of every kind and character, including the cost of defense, for any injury to or death of any person (whether employees of either Party or other third parties) and any loss of or damage to any property that is caused by or alleged to be caused by, arising out of, or in connection with Services performed under this Agreement or a Task Order. This release shall apply regardless of whether the claims, demands and/or causes of action are covered in whole or in part by insurance, and in the event of injury, death, property damage, or loss suffered by the Engineer, any Consultant, or any person or organization directly or indirectly employed by any of them to perform or furnish Services under this Agreement.

6.10 *Miscellaneous Provisions*

A. *Notices.* Any notice required under this Agreement will be in writing and sent to the Designated Representative by personal delivery, facsimile, registered or certified mail postage prepaid, or a commercial courier service. All notices shall be effective upon the date of receipt.

B. *Survival.* All express representations, waivers, indemnifications, and limitations of liability included in this Agreement will survive its completion or termination for any reason.

C. *Severability.* Any provision or part of the Agreement held to be void or unenforceable under any Laws or Regulations shall be deemed stricken and all remaining provisions shall continue to be valid and binding upon Owner and Engineer.

D. *Waiver.* A Party's non-enforcement of any provision shall not constitute a waiver of that provision, nor shall it affect the enforceability of that provision or of the remainder of this Agreement.

E. *Applicability to Task Orders.* The terms and conditions set forth in this Agreement apply to each Task Order as if set forth in the Task Order, unless specifically modified in the Task Order. In the event of a conflict between this Agreement and a Task Order, the

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

conflicting provisions of the Task Order shall take precedence for that Task Order. Such amendments shall be applicable to all Task Orders issued after the effective date of the amendment if not otherwise set forth in the amendment.

F. *Non-Exclusive Agreement.* Nothing herein shall establish an exclusive relationship between Owner and Engineer. Owner may enter into similar agreements with other professionals for the same or different types of services contemplated hereunder, and Engineer may enter into similar or different agreements with other owners for the same or different services contemplated hereunder.

G. *Certification Regarding Boycotting Israel.* Pursuant to Chapter 2271, Texas Government Code, Engineer certifies that it (1) does not currently boycott Israel; and (2) will not boycott Israel during the term of this Agreement. Engineer acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

H. *Certification Regarding Business with Certain Countries and Organizations.* Pursuant to Subchapter F, Chapter 2252, Texas Government Code, Engineer certifies it is not engaged in business with Iran, Sudan, or a foreign terrorist organization. Engineer acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

I. *Certification Regarding Boycotting Energy Companies.* Pursuant to Chapter 2274, Texas Government Code, Engineer certifies that either (1) it is a sole proprietorship or company with fewer than ten (10) employees or (2) it does not currently boycott energy companies and will not boycott energy companies during the Term of this Agreement. Engineer acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

J. *Certification Regarding Boycotting Firearm and Ammunition Industries.* Pursuant to Chapter 2274, Texas Government Code, Engineer certifies that either (1) it is a sole proprietorship or company with fewer than ten (10) employees or (2) it does not currently boycott firearm and ammunition industries; and will not boycott firearm and ammunition industries during the Term of this Agreement. Engineer acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

ARTICLE 7 – DEFINITIONS

7.01 *Defined Terms*

A. Wherever used in this Agreement (including the Exhibits hereto and any Task Order) terms (including the singular and plural forms) printed with initial capital letters have the meanings indicated in the text above, in the Exhibits or Task Order, or in the following provisions:

1. *Addenda* – Written or graphic instruments issued prior to the opening of Bids which clarify, correct, or change the Bidding Documents.

2. *Additional Services* – Services to be performed for or furnished to Owner by Engineer in accordance with a Task Order which are not included in Basic Services for that Task Order.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

3. *Agreement* – This "Master Services Agreement between Owner and Engineer for Professional Services – Task Order Edition" including those Exhibits listed in Article 8 and any duly executed Task Order.

4. *Application for Payment* – The form acceptable to Engineer which is to be used by a Contractor in requesting progress or final payments for the completion of its Work and which is to be accompanied by such supporting documentation as is required by the Contract Documents.

5. *Asbestos* – Any material that contains more than one percent asbestos and is friable or is releasing asbestos fibers into the air above current action levels established by the United States Occupational Safety and Health Administration.

6. *Basic Services* – Specified services to be performed for or furnished to Owner by Engineer in accordance with a Task Order.

7. *Bid* – The offer or proposal of a bidder submitted on the prescribed form setting forth the prices for the Work to be performed.

8. *Bidding Documents* – The advertisement or invitation to Bid, instructions to bidders, the Bid form and attachments, the Bid bond, if any, the proposed Contract Documents, and all Addenda, if any.

9. *Change Order* – A document recommended by Engineer, which is signed by a Contractor and Owner to authorize an addition, deletion or revision in the Work, or an adjustment in the Contract Price or the Contract Times.

10. *Constituent of Concern* – Any substance, product, waste, or other material of any nature whatsoever (including, but not limited to, Asbestos, Petroleum, Radioactive Material, and PCBs) which is or becomes listed, regulated, or addressed pursuant to (a) the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. §§9601 et seq. ("CERCLA"); (b) the Hazardous Materials Transportation Act, 49 U.S.C. §§1801 et seq.; (c) the Resource Conservation and Recovery Act, 42 U.S.C. §§6901 et seq. ("RCRA"); (d) the Toxic Substances Control Act, 15 U.S.C. §§2601 et seq.; (e) the Clean Water Act, 33 U.S.C. §§1251 et seq.; (f) the Clean Air Act, 42 U.S.C. §§7401 et seq.; and (g) any other federal, state, or local statute, law, rule, regulation, ordinance, resolution, code, order, or decree regulating, relating to, or imposing liability or standards of conduct concerning, any hazardous, toxic, or dangerous waste, substance, or material.

11. *Construction Agreement* – The written instrument which is evidence of the agreement, contained in the Contract Documents, between Owner and a Contractor covering the Work.

12. *Construction Contract* – The entire and integrated written agreement between Owner and a Contractor concerning the Work.

13. *Construction Cost* – The cost to Owner of those portions of an entire Specific Project designed or specified by Engineer. Construction Cost does not include costs of

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition

services of Engineer or other design professionals and consultants, cost of land, rights-of-way, or compensation for damages to properties, or Owner's costs for legal, accounting, insurance counseling or auditing services, or interest and financing charges incurred in connection with a Specific Project, or the cost of other services to be provided by others to Owner. Construction Cost is one of the items comprising Total Project Costs.

14. *Consultants* – Individuals or entities having a contract with Engineer to furnish services with respect to a Specific Project as Engineer's independent professional associates, consultants, subcontractors, or vendors. The term Engineer includes Engineer's Consultants.

15. *Contract Documents* – Documents that establish the rights and obligations of the parties engaged in construction and include the Construction Agreement between Owner and a Contractor, Addenda (which pertain to the Contract Documents), a contractor's Bid (including documentation accompanying the Bid and any post-Bid documentation submitted prior to the notice of award) when attached as an exhibit to the Construction Agreement, the notice to proceed, the bonds, appropriate certifications, the General Conditions, the Supplementary Conditions, the Specifications and the Drawings as the same are more specifically identified in the Construction Agreement, together with all Written Amendments, Change Orders, Work Change Directives, Field Orders, and Engineer's written interpretations and clarifications issued on or after the Effective Date of the Construction Agreement. Approved Shop Drawings and the reports and drawings of subsurface and physical conditions are not Contract Documents.

16. *Contract Price* – The moneys payable by Owner to a Contractor for completion of the Work in accordance with the Contract Documents and as stated in the Construction Agreement.

17. *Contract Times* – The numbers of days or the dates stated in a Construction Agreement to: (i) achieve Substantial Completion, (ii) complete the Work so that it is ready for final payment as evidenced by Engineer's written recommendation of final payment, and (iii) meet any other specified milestone.

18. *Contractor* – An individual or entity with whom Owner enters into a Construction Agreement for a Specific Project.

19. *Correction Period* – The time after Substantial Completion during which a Contractor must correct, at no cost to Owner, any Defective Work, normally one year after the date of Substantial Completion or such longer period of time as may be prescribed by Laws or Regulations or by the terms of any applicable special guarantee or specific provision of the Contract Documents.

20. *Defective* – An adjective which, when modifying the word Work, refers to Work that is unsatisfactory, faulty, or deficient, in that it does not conform to the Contract Documents, or does not meet the requirements of any inspection, reference standard, test, or approval referred to in the Contract Documents, or has been damaged prior to Engineer's recommendation of final payment.

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

21. *Documents* – Data, reports, Drawings, Specifications, Record Drawings, and other deliverables, whether in printed or electronic media format, provided or furnished in appropriate phases by Engineer to Owner pursuant to this Agreement.

22. *Drawings* – That part of the Contract Documents prepared or approved by Engineer which graphically shows the scope, extent, and character of the Work to be performed by a Contractor. Shop Drawings are not Drawings as so defined.

23. *Effective Date of the Construction Agreement* – The date indicated in a Construction Agreement on which it becomes effective, but if no such date is indicated, it means the date on which the Construction Agreement is signed and delivered by the last of the two parties to sign and deliver.

24. *Effective Date of the Agreement* – The date indicated in this Agreement on which it becomes effective, but if no such date is indicated, it means the date on which the Agreement is signed and delivered by the last of the two parties to sign and deliver.

25. *Effective Date of the Task Order* – The date indicated in the Task Order on which it becomes effective, but if no such date is indicated, it means the date on which the Task Order is signed and delivered by the last of the two parties to sign and deliver.

26. *Field Order* – A written order issued by Engineer which directs minor changes in the Work but which does not involve a change in the Contract Price or the Contract Times.

27. *General Conditions* – That part of the Contract Documents which sets forth terms, conditions, and procedures that govern the Work to be performed or furnished by a Contractor with respect to a Specific Project. The "Standard General Conditions of the Construction Contract" as prepared by the Engineers Joint Contract Document Committee (Document No. C-700, 2007 Edition) will be used unless both Parties mutually agree in a Task Order to use other General Conditions.

28. *Hazardous Waste* – The term Hazardous Waste shall have the meaning provided in Section 1004 of the Solid Waste Disposal Act (42 USC Section 6903) as amended from time to time.

29. *Laws and Regulations; Laws or Regulations* – Any and all applicable laws, rules, regulations, ordinances, codes, standards, and orders of any and all governmental bodies, agencies, authorities, and courts having jurisdiction.

30. *PCBs* – Polychlorinated biphenyls.

31. *Petroleum* – Petroleum, including crude oil or any fraction thereof which is liquid at 32 degrees Fahrenheit and 14.7 pounds per square inch absolute, such as fuel oil, oil sludge, oil refuse, gasoline, kerosene, and oil mixed with other non-Hazardous Waste and crude oils.

32. *Radioactive Materials* – Source, special nuclear, or byproduct material as defined by the Atomic Energy Act of 1954 (42 USC Section 2011 et seq.) as amended from time to time.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

33. *Record Drawings* – The Drawings as issued for construction on which Engineer, upon completion of the Work, has shown changes due to Addenda or Change Orders and other information which Engineer considers significant based on record documents furnished by Contractor to Engineer and which were annotated by Contractor to show changes made during construction.

34. *Reimbursable Expenses* – Reasonable and customary expenses approved by Owner in a Task Order and incurred directly by Engineer in connection with the performing or furnishing of Services for a Specific Project for which Owner shall pay Engineer.

35. *Resident Project Representative* – The authorized representative, if any, of Engineer assigned to assist Engineer at the Site of a Specific Project during the Construction Phase. The Resident Project Representative will be Engineer's agent or employee and under Engineer's supervision. As used herein, the term Resident Project Representative includes any assistants of Resident Project Representative agreed to by Owner. The duties and responsibilities of the Resident Project Representative will be as set forth in each Task Order.

36. *Samples* – Physical examples of materials, equipment, or workmanship that are representative of some portion of the Work and which establish the standards by which such portion of the Work will be judged.

37. *Shop Drawings* – All drawings, diagrams, illustrations, schedules, and other data or information which are specifically prepared or assembled by or for a Contractor and submitted by a Contractor to Engineer to illustrate some portion of the Work.

38. *Site* – Lands or areas indicated in the Contract Documents for a Specific Project as being furnished by Owner upon which the Work is to be performed, rights-of-way and easements for access thereto, and such other lands furnished by Owner which are designated for use of a Contractor.

39. *Specifications* – That part of the Contract Documents prepared by Engineer consisting of written technical descriptions of materials, equipment, systems, standards, and workmanship as applied to the Work to be performed by a Contractor and certain administrative details applicable thereto.

40. *Specific Project* – An undertaking of Owner as set forth in a Task Order.

41. *Substantial Completion* – The time at which the Work (or a specified part thereof) has progressed to the point where, in the opinion of Engineer, the Work (or a specified part thereof) is sufficiently complete, in accordance with the Contract Documents, so that the Work (or a specified part thereof) can be utilized for the purposes for which it is intended. The terms "substantially complete" and "substantially completed" as applied to all or part of the Work refer to Substantial Completion thereof.

42. *Supplementary Conditions* – That part of the Contract Documents which amends or supplements the General Conditions.

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

43. *Task Order* – A document executed by Owner and Engineer, including amendments if any, stating the scope of services, Engineer's compensation, times for performance of services and other relevant information for a Specific Project.

44. *Total Project Costs* – The sum of the Construction Cost, allowances for contingencies, the total costs of services of Engineer or other design professionals and consultants, cost of land, rights-of-way, or compensation for damages to properties, or Owner's costs for legal, accounting, insurance counseling, or auditing services, or interest and financing charges incurred in connection with a Specific Project, or the cost of other services to be provided by others to Owner.

45. *Work* – The entire completed construction or the various separately identifiable parts thereof required to be provided by a Contractor under Contract Documents for a Specific Project. Work includes and is the result of a Contractor performing or furnishing labor, services, and documentation necessary to produce such construction and furnishing, installing, and incorporating all materials and all equipment into such construction, all as required by the applicable Contract Documents.

46. *Work Change Directive* – A written directive to a Contractor signed by Owner upon recommendation of the Engineer, ordering an addition, deletion, or revision in the Work, or responding to differing or unforeseen subsurface or physical conditions under which the Work is to be performed or to emergencies. A Work Change Directive will not change the Contract Price or the Contract Times but is evidence that the parties expect that the change directed or documented by a Work Change Directive will be incorporated in a subsequently issued Change Order following negotiations by the parties as to its effect, if any, on the Contract Price or Contract Times.

47. *Written Amendment* – A written amendment of the Contract Documents signed by Owner and a Contractor on or after the Effective Date of a Construction Agreement and normally dealing with the non-engineering or non-technical rather than strictly construction-related aspects of the Contract Documents.

ARTICLE 8 – EXHIBITS AND SPECIAL PROVISIONS

8.01 *Exhibits*

Included? (Yes or No)	Exhibit Letter	Exhibit Title
Yes		Attachment 1 – Task Order Form
No	A	Schedule of Engineer's Services

8.02 *Total Agreement*

A. This Agreement (together with the Exhibits identified as included above) constitutes the entire agreement between Owner and Engineer and supersedes all prior written or oral understandings. This Agreement may only be amended, supplemented, modified, or canceled by a duly executed written instrument.

8.03 *Designated Representatives*

A. With the execution of this Agreement, Engineer and Owner shall designate specific individuals to act as Engineer's and Owner's representatives with respect to the Services to be performed or furnished by Engineer and responsibilities of Owner under this Agreement. Such individuals shall have authority to transmit instructions, receive information, and render decisions relative to the Agreement on behalf of each respective Party. Each Task Order shall likewise designate representatives of the Parties. The Designated Representative may be changed with written notice to the Designated Representative of the other Party.

IN WITNESS WHEREOF, the Parties execute this Agreement.

EXHIBIT G, consisting of 1 page, referred to in and part of the **Master Services Agreement between Owner and Engineer for Professional Services – Task Order Edition** dated _____.

Insurance

Paragraph 6.03 of the Agreement is amended and supplemented to include the following agreement of the parties.

The limits for Engineer's insurance required by paragraph 6.03 of the Agreement are as follows:

Workers' Compensation with statutory limits. Engineer shall certify in writing that the Engineer provides Workers' Compensation Insurance for all of Engineer's employees involved in the Project. In addition, Engineer shall meet each stipulation required by the Texas Workers Compensation Commission. If you have questions concerning the requirements, you are instructed to contact the TID at (800) 252-3439.

Employers Liability with minimum limits for bodily injury: a) by accident, $250,000 per each accident b) by disease, $250,000 per employee with a per policy aggregate of $500,000.

Commercial General Liability including, but not limited to, Premises/Operations, Personal & Advertising Injury, Products/Completed Operations, Independent Contractors and Contractual Liability with minimum combined bodily injury (including death) and property damage limits of $1,000,000 per occurrence, $2,000,000 general aggregate. If the insurance is written on a claims-made form, coverage shall be continuous (by renewal or extended reporting period) for not less than 36 months following the last to occur: 1) expiration of this Agreement; or 2) Engineer's completion, and Owner's acceptance, of all Services provided under any and all Task Orders, if any, approved pursuant to the Agreement. Coverage, including any renewals, shall have the same retroactive date as the original policy applicable to the Agreement.

Business Automobile Liability covering owned, hired, and non-owned vehicles, with minimum combined bodily injury (including death) and property damage limit of $1,000,000 per occurrence.

Professional Liability $2,000,000 per claim. With written approval of the City's Risk Manager, a Claims Made Policy may be accepted for Professional Liability Insurance.

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY): 1/1/2025

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must have ADDITIONAL INSURED provisions or be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).

ADDITIONAL INSURED - PRIMARY AND NON-CONTRIBUTORY

It is understood and agreed that this endorsement amends the **BUSINESS AUTO COVERAGE FORM** as follows:

SCHEDULE
Name of Additional Insured Person Or Organization
ANY PERSON OR ORGANIZATION THAT YOU ARE REQUIRED BY WRITTEN CONTRACT OR WRITTEN AGREEMENT TO NAME AS AN ADDITIONAL INSURED.

1. In conformance with paragraph **A.1.c.** of **Who Is An Insured** of Section II - LIABILITY COVERAGE, the person or organization scheduled above is an insured under this policy.
2. The insurance afforded to the additional insured under this policy will apply on a primary and non-contributory basis if you have committed it to be so in a written contract or written agreement executed prior to the date of the "**accident**" for which the additional insured seeks coverage under this policy.

All other terms and conditions of the policy remain unchanged

This endorsement, which forms a part of and is for attachment to the policy issued by the designated Insurers, takes effect on the Policy Effective date of said policy at the hour stated in said policy, unless another effective date (the Endorsement Effective Date) is shown below, and expires concurrently with said policy.

WAIVER OF TRANSFER OF RIGHTS OF RECOVERY AGAINST OTHERS TO US (WAIVER OF SUBROGATION) – AUTOMATIC WHEN REQUIRED BY WRITTEN CONTRACT OR AGREEMENT

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

This endorsement modifies insurance provided under the following:

AUTO DEALERS COVERAGE FORM

BUSINESS AUTO COVERAGE FORM

MOTOR CARRIER COVERAGE FORM

With respect to coverage provided by this endorsement, the provisions of the Coverage Form apply unless modified by the endorsement.

The **Transfer Of Rights Of Recovery Against Others To Us** Condition does not apply to any person(s) or organization(s) for whom you are required to waive subrogation with respect to the coverage provided under this Coverage Form, but only to the extent that subrogation is waived:

A. Under a written contact or agreement with such person(s) or organization(s); and

B. Prior to the **"accident"** or the **"loss."**

© Copyright Insurance Services Office, Inc., 2019

IMPORTANT: THIS ENDORSEMENT CONTAINS DUTIES THAT APPLY TO THE ADDITIONAL INSURED IN THE EVENT OF OCCURRENCE, OFFENSE, CLAIM OR SUIT. SEE PARAGRAPH C., OF THIS ENDORSEMENT FOR THESE DUTIES.

BLANKET ADDITIONAL INSURED ENDORSEMENT WITH PRODUCTS-COMPLETED OPERATIONS COVERAGE AND BLANKET WAIVER OF SUBROGATION

Architects, Engineers and Surveyors

This endorsement modifies insurance provided under the following:

BUSINESSOWNERS LIABILITY COVERAGE FORM
BUSINESSOWNERS COMMON POLICY CONDITIONS

A. **Who Is An Insured** is amended to include as an insured any person or organization whom you are required to add as an additional insured on this policy under a written contract or written agreement; but the written contract or written agreement must be:

1. Crrently in effect or becoming effective during the term of this policy; and
2. Executed prior to the:
   a. "**Bodily injury**" or "**property damage**"; or
   b. Offense that caused the "**personal and advertising injury**";

   for which the additional insured seeks coverage

B. The insurance provided to the additional insured is limited as follows:

1. The person or organization is an additional insured only with respect to liability for "**bodily injury**," "**property damage**" or "**personal and advertising injury**" caused in whole or in part by:
   a. Your acts or omissions; or
   b. The acts or omissions of those acting on your behalf,

   in the performance of your ongoing operations specified in the written contract or written agreement; or

   c. "**Your work**" that is specified in the written contract or written agreement, but only for "**bodily injury**" or "**property damage**" included in the "**products-completed operations hazard**," and only if:
      (1) The written contract or written agreement requires you to provide the additional insured such coverage; and
      (2) This Coverage Part provides such coverage.
2. The Limits of Insurance applicable to the additional insured are those specified in the written contract or written agreement or in the Declarations of this policy, whichever is less. These Limits of Insurance are inclusive of, and not in addition to, the Limits of Insurance shown in the Declarations.
3. The insurance provided to the additional insured does not apply to "**bodily injury**," "**property damage**" or "**personal and advertising injury**" arising out of an architect's, engineer's, or surveyor's rendering of or failure to render any professional services including:
   a. The preparing, approving, or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications by any architect, engineer or surveyor performing services on a project of which you serve as construction manager; or
   b. Inspection, supervision, quality control, engineering or architectural services done by you on a project of which you serve as construction manager.
4. The insurance provided to the additional insured does not apply to "**bodily injury**," "**property damage**" or "**personal and advertising injury**" arising out of construction or demolition work while you are acting as a construction or demolition contractor.

0002006867013633066277

Copyright, CNA All Rights Reserved.

C. Under **Businessowners Liability Conditions**, the condition entitled **Duties In The Event of Occurrence, Offense, Claim or Suit** is amended to add the following:

An additional insured under this endorsement will as soon as practicable:

1. Give written notice of an occurrence or an offense to us which may result in a claim or "**suit**" under this insurance;
2. Tender the defense and indemnity of any claim or "**suit**" to us for a loss we cover under this Coverage Part;
3. Except as provided for in paragraph **D.2.** below:
   a. Tender the defense and indemnity of any claim or "**suit**" to any other insurer which also has insurance for a loss we cover under this Coverage Part; and
   b. Agree to make available any other insurance which the additional insured has for a loss we cover under this Coverage Part.

We have no duty to defend or indemnify an additional insured under this endorsement until we receive written notice of a claim or "**suit**" from the additional insured.

D. With respect only to the insurance provided by this endorsement, the condition entitled **Other Insurance** of the **BUSINESSOWNERS COMMON POLICY CONDITIONS** is amended to delete paragraphs **2.** and **3.** and replace them with the following:

2. This insurance is excess over any other insurance available to the additional insured, whether primary, excess, contingent or on any other basis, But if required by the written contract or written agreement, this insurance will be primary and noncontributory relative to insurance on which the additional insured is a Named Insured.
3. When this insurance is excess, we will have no duty under **Business Liability** insurance to defend the additional insured against any "**suit**" if any other insurer has a duty to defend the additional insured against that "**suit**" If no other insurer defends, we will undertake to do so, but we will be entitled to the additional insured's rights against all those other insurers.

   When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:

   (a) The total amount that all such other insurance would pay for the loss in the absence of this insurance; and

   (b) The total of all deductible and self-insured amounts under all that other insurance.

   We will share the remaining loss, if any, with any other insurance that is not described in this Excess Insurance provision and was not bought specifically to apply in excess of the Limits of Insurance shown in the Declarations of this Coverage Part.

E. **Additional Insured – Extended Coverage**

When an additional insured is added by this or any other endorsement attached to this Coverage Part, the section entitled **Who Is An Insured** is amended to make the following natural persons insureds:

If the additional insured is:

1. An individual, then his or her spouse is an insured;
2. A partnership or joint venture, then its partners, members and their spouses are insureds;
3. A limited liability company, then its members and managers are insureds;
4. An organization other than a partnership, joint venture or limited liability company, then its executive officers, directors and shareholders are insureds; or
5. Any type of entity, then its employees are insureds;

but only with respect to locations and operations covered by the additional insured endorsement's provisions, and only with respect to their respective roles within their organizations. Furthermore, employees of additional insureds are not insureds with respect to liability arising out of:

(1) "**Bodily injury**" or "**personal and advertising injury**" to any fellow employee or to any natural person listed in paragraphs **1.** through **4.** above;

Copyright, CNA All Rights Reserved.

(2) **"Property damage"** to property owned, occupied or used by their employer or by any fellow employee; or

(3) Providing or failing to provide professional health care services.

F. The condition entitled **Transfer of Rights of Recovery Against Others to Us** of the **BUSINESSOWNERS COMMON POLICY CONDITIONS** is amended to deleted paragraph **2.** and replace it with the following:

2. We waive any right of recovery we may have against any person or organization with whom you have agreed to waive such right of recovery in a written contract or agreement because of payments we make for injury or damage arising out of your ongoing operations or "**your work**" done under a contract with that person or organization and included within the "**products-completed operations hazard.**"

All other terms and conditions of the Policy remain unchanged.

TEXAS WAIVER OF OUR RIGHT TO RECOVER FROM OTHERS ENDORSEMENT

This endorsement applies only to the insurance provided by the policy because Texas is shown in item 3.A. of the Information Page.

We have the right to recover our payments from anyone liable for an injury covered by this policy. We will not enforce our right against the person or organization named in the Schedule, but this waiver applies only with respect to bodily injury arising out of the operations described in the schedule where you are required by a written contract to obtain this waiver from us.

This endorsement shall not operate directly or indirectly to benefit anyone not named in the Schedule.

The premium for this endorsement is shown in the Schedule.

Schedule

1. ( ) Specific Waiver
   Name of person or organization
   (X) Blanket Waiver
   Any person or organization for whom the Named Insured has agreed by written contract to furnish this waiver.

2. Operations: ALL TEXAS OPERATIONS
3. Premium:
   The premium charge for this endorsement shall be **2.00** percent of the premium developed on payroll in connection with work performed for the above person(s) or organization(s) arising out of the operations described.
4. Advance Premium: Included, see Information Page

This endorsement changes the policy to which it is attached effective on the inception date of the policy unless a different date is indicated below.
(The following "attaching clause" need be completed only when this endorsement is issued subsequent to preparation of the policy.)
This endorsement, effective on 1/2/24 **at 12:01 a.m.** standard time, forms a part of:

SUBJECT:
Task Order MEI-027-001 with McCord Engineering Inc. 25-0352-MSA

SUGGESTED ACTION:
Consideration and possible action to approve Task Order MEI-27-001 with McCord Engineering, Inc. for Electric System and Planned Capital Improvements in the amount not to exceed $1,000,000.00 -- Richard Pajestka, Electric Engineering and Operations Manager

ITEM SUMMARY:
The purpose of this task order is to provide preliminary and final electric system engineering and design for planned Capital Improvement Projects identified in the task order and the five-year CIP plan.

FINANCIAL IMPACT:
Funds are available in the FY27 CIP Budget.

SUBMITTED BY:
Pam Cofer, Electric Department

ATTACHMENTS:

25-0352-MSA - McCord Master Service Agreement [Fully Executed] (2).pdf

TASK ORDER

Task Order No. MEI-27-001, consisting of 6 pages.

Task Order

In accordance with paragraph 1.01 of the Master Services Agreement between Owner and McCord Engineering, Inc. ("Engineer") for Professional Services – Task Order Edition, dated September 9, 2025 ("Agreement"), Owner and Engineer agree as follows:

1. Specific Project Data

A. Title: Electric System and Planned Capital Improvement Projects

B. Description: The Engineer will provide general electrical engineering support to the City of Georgetown Electric Department as outlined in Section 2.

C. City of Georgetown Project Number: Various

D. City of Georgetown General Ledger Account No.: Various

E. City of Georgetown Purchase Order No.: Various

F. Master Services Agreement, Contract Number: 25-0352-MSA

2. Services of Engineer

Prior to the Engineer performing services for the Owner, the Engineer shall submit a Service Order to the Owner detailing the scope of work and agreed upon engineering not-to-exceed (NTE) amount. The NTE amount will typically be 10% of the total cost of the CIP project.

A. Planned Distribution System Construction Assistance.

i. In the course of developing preliminary and final engineering submittals sealed for construction on planned distribution system projects, Engineer will adhere to the following scope:

1) Field inventory of existing electric facilities. This can be captured using conventional field inventory methods or by using Lidar mounted on an Unmanned Aerial Vehicle (UAV), whichever is most economical.

2) Field review of existing utility locations, drainage structures, services, trees, topography, etc. This can be captured using conventional field inventory methods or by using Lidar mounted on an Unmanned Aerial Vehicle (UAV), whichever is most economical.

3) Incorporate field data onto computer aided drafting schematic.

Copyright ©2004 National Society of Professional Engineers for EJCDC. All rights reserved.

4) Notate all existing utilities near new pole locations.

5) Place all existing easements and right-of-ways on the schematic.

6) Design schematic layout for the proposed power line improvements.

7) Prepare preliminary schematic exhibit for City staff to review and preliminary approval of design.

8) Prepare staking sheets for construction using existing City units and specifications on the Partners Staking program (Partners).

9) Notify City if any City fiber is present.

10) Submit a preliminary cost estimate from Partners.

11) Meet with City Staff to review.

12) Coordinate with City Real Estate Group on any proposed easements required.

13) Incorporate City requested changes into final design.

14) Prepare plan and profile drawings as required for road or utility crossings to ensure proper NESC clearance.

15) Design concrete, steel, ductile iron, wood, or fiberglass poles, as required.

16) Finalize staking sheets on Partners.

17) Use general City construction specifications unless other detailed specifications are required. If required, prepare detailed construction specifications.

18) Review final design on Partners with City Staff and incorporate comments.

19) Prepare the final cost estimate from Partners.

20) Prepare final approved for construction documents on Partners.

3. **Owner's Responsibilities** – Owner shall have these responsibilities set forth in the agreement subject to the following:

A. Provide directions on each engineering project.

B. Prioritize each engineering project.

Copyright ©2004 National Society of Professional Engineers for EJCDC. All rights reserved.

C. Provide project completion date required for each engineering project.

D. Sign and return the Service Order submitted by the Engineer.

4. Times for Rendering Services

Phase	Completion Date
N/A since general projects	Will Vary

5. Payments to Engineer

A. Owner shall pay Engineer for services rendered as follows:

Category of Services	***Compensation Method***	***Not to Exceed Amount of Compensation for Services***
Electric System Engineering Planning and Planned Capital Improvement Projects	*Standard Hourly Rates as shown on Exhibit A*	*$1,000,000*

The Engineer shall invoice the Owner monthly for each CIP project based on their progress. The NTE amount that the Engineer is to invoice the Owner will typically be 10% of the total cost of the CIP project.

B. The terms of payment are set forth in Article 4 of the Agreement unless modified in this Task Order.

Job Type	Engineering Cost	Engineering Cost Notes
Capital Improvement Projects	NTE 10% of the total cost of electric	The total cost does include the estimated total cost featuring electric and civil work required to complete (with 10% COG contingency, and 10% engineering). Any engineering redesign will be requested by COG. The redesign service order needs to be approved by COG prior to any engineering being done on the redesign.

MASTER SERVICES AGREEMENT BETWEEN OWNER AND ENGINEER FOR PROFESSIONAL SERVICES TASK ORDER EDITION

CONTRACT NO. 25-0352-MSA

THIS IS AN AGREEMENT effective as of _____ ("Effective Date") between the City of Georgetown, A Texas Home Rule Municipal Corporation ("Owner" or "City") and McCord Engineering, Inc., a Texas Corporation ("Engineer").

From time to time Owner may request that Engineer provide professional services for Specific Projects. Each engagement will be documented by a Task Order. This Agreement sets forth the general terms and conditions which shall apply to all Task Orders duly executed under this Agreement.

Owner and Engineer agree as follows:

ARTICLE 1 – SERVICES OF ENGINEER

1.01 *Scope*

A. Engineer's services ("Services") will be detailed in a duly executed Task Order for each Specific Project. Each Task Order will indicate the specific tasks and functions to be performed and deliverables to be provided.

B. The general format of a Task Order is shown in Attachment 1 to this Agreement.

C. This Agreement is not a commitment by Owner to Engineer to issue any Task Orders.

D. A Task Order will be effective when executed by Owner and Engineer. Engineer shall not perform under any prospective Task Order unless and until a Task Order is executed by Owner and Engineer.

1.02 *Task Order Procedure*

A. Owner and Engineer shall agree on the scope, time for performance, and basis of compensation for each Task Order. Each duly executed Task Order shall be subject to the terms and conditions of this Agreement.

B. Engineer will commence performance as set forth in the Task Order. When Services under a Task Order are eighty percent (80 %) complete, Engineer shall provide written notice to Owner's Designated Representative (1) certifying that Engineer will complete the scope of Services for the amount of the Task Order and in the time required by the Task Order; or (2) explaining why Engineer is unable or unwilling to make such certification. When a Task Order includes more than one phase of Services, Engineer shall provide the notice at eighty percent (80%) completion of each phase.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

C. Changes in an approved Task Order may be initiated by the Engineer or Owner by a Task Order Amendment. The Task Order Amendment shall: (i) describe a change in scope, including Services to be added, changed, or deleted; (ii) state the additional cost or cost reduction; and (iii) described schedule changes, if any. A Task Order Amendment will be effective when executed by Owner and Engineer. Engineer shall not perform under any prospective Task Order Amendment unless and until the Task Order Amendment is executed by Owner and Engineer. Oral amendments to a Task Order will have no effect, except in cases of an emergency threatening personal injury or property damage. In such case, the Owner and Engineer will document the Task Order Amendment in writing, as soon as possible.

D. If Engineer becomes aware that a change concerning a Specific Project may require a Task Order Amendment to increase the scope of Services, request additional cost or request additional time, Engineer shall provide written notice to the Owner's Designated Representative within ten (10) days. If Engineer determines that a Task Order Amendment is required as a result of the change, Engineer shall initiate a Task Order Amendment within ten (10) days.

1.03 *Task Order Amount.* Engineer shall provide a not-to-exceed amount to perform the scope of Services included in the Task Order. A Level of Effort Table will be submitted to Owner to document and support Engineer's calculation of the not to exceed amount, including but not limited to a Standard Hourly Rate Schedule and a Reimbursable Expense Schedule.

ARTICLE 2 – OWNER'S RESPONSIBILITIES

2.01 *General.* Owner shall have the responsibilities set forth herein, in this Agreement and in a Task Order.

ARTICLE 3 – TERM; TIMES FOR RENDERING SERVICES

3.01 *Term.* This Agreement shall be effective and applicable to Task Orders issued hereunder for three (3) years from the Effective Date of the Agreement.

3.02 *Times for Rendering Services*

A. The times for performing Services or providing deliverables will be stated in each Task Order. Time is of the essence.

B. Owner shall make decisions and carry out its other responsibilities in a timely manner so as not to delay the Engineer's performance of its Services.

C. If Engineer fails, through its own fault, to complete the performance required in a Task Order within the time set forth, as duly adjusted, then Owner shall be entitled to the recovery of damages resulting from such failure.

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

ARTICLE 4 – PAYMENTS TO ENGINEER

4.01 *Invoices – Preparation and Submittal of Invoices.* Engineer shall prepare invoices in accordance with the specific Task Order. Engineer shall submit invoices to Owner on a monthly basis.

4.02 *Payments*

A. Owner agrees to pay Engineer in accordance with Texas Government Code Chapter 2251. Engineer shall pay all Consultants and other expenses incurred under the Task Order in accordance with Texas Government Code Chapter 2251.

B. *Compensation Methods.* Engineering Services will be compensated in accordance with one or more of the following methods as specified in the Task Order:

1. *Lump Sum Method.* The Lump Sum will include compensation for Engineer's services and services of Consultants, if any. Appropriate amounts will be incorporated in the Lump Sum to account for labor, overhead and profit. Owner will pay Engineer for reasonable and customary Reimbursable Expenses in addition to the Lump Sum.

2. *Standard Hourly Rates Method.* The cumulative hours charged to the Specific Project is calculated by multiplying each class of Engineer's employees by the Standard Hourly Rates for each applicable billing class for all Services performed on the Specific Project and Consultant's charges, if any. Standard Hourly Rates include salaries and wages paid to personnel in each billing class plus the cost of Customary and statutory benefits, general and administrative overhead, non-project operating costs, and operating margin of profit. In addition, Owner will pay Engineer for reasonable and customary Reimbursable Expenses.

C. *Failure to Pay.* If Owner fails to make any payment that is due, Engineer may, after giving seven (7) days written notice to Owner, suspend services under the Task Order until Owner pays the amount due.

D. *Disputed Invoices.* If Owner contests an invoice, Owner may withhold only that portion so contested, and must pay the undisputed portion.

ARTICLE 5 – OPINIONS OF COST

5.01 *Opinions of Cost.*

A. Engineer's opinions of probable Construction Cost are to be made on the basis of Engineer's experience and qualifications and represent Engineer's judgment as an experienced and qualified professional generally familiar with the construction industry. However, Engineer does not guarantee that proposals, bids, or actual Construction Cost will not vary from opinions of probable Construction Cost prepared by Engineer.

B. Engineer's opinions of Total Project Costs are to be made on the basis of Engineer's experience and qualifications and represent Engineer's judgment as an experienced and qualified professional generally familiar with the construction industry. However,

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition

Engineer does not guarantee that Total Project Costs will not vary from opinions of Total Project Costs prepared by Engineer.

5.02 *Designing to Construction Cost Limit*

A. If a Construction Cost limit is established between Owner and Engineer in a Task Order, Engineer's rights and responsibilities with respect thereto will be governed by the terms of the Task Order.

ARTICLE 6 – GENERAL CONSIDERATIONS

6.01 *Standards of Performance*

A. The standard of care for all professional engineering and related services performed or furnished by Engineer under this Agreement will conform to standard engineering practices and applicable rules and regulations of the Texas Engineering Practices Act and the rules of the Texas Board of Professional Engineers. Engineer warrants that the professional engineering and related services performed or furnished by Engineer under this Agreement, and Task Order issued under this Agreement, if any, shall meet or exceed such standard of care.

B. Owner shall not be responsible for discovering deficiencies in the technical accuracy of Engineer's services. Engineer shall correct any such deficiencies in technical accuracy without additional compensation, except to the extent such corrective action is directly attributable to deficiencies in Owner-furnished information, not reasonably known or discoverable by Engineer.

C. Engineer shall serve as Owner's prime professional under each Task Order. Engineer may employ such Consultants as Engineer deems necessary to assist in the performance or furnishing of the Services, subject to reasonable, timely, and substantive objections by Owner.

D. Subject to the standard of care set forth in Paragraph 6.01.A, Engineer and its Consultants may use or rely upon design elements and information ordinarily or customarily furnished by others, including, but not limited to, specialty contractors, manufacturers, suppliers, and the publishers of technical standards.

E. Engineer and Owner shall comply with applicable Laws and Regulations and additional Owner-mandated standards, if any, that Owner has provided to Engineer in writing. This Agreement is based on these requirements as of the Effective Date of each Task Order. Changes to these requirements after the Effective Date of each Task Order may be the basis for modifications to Owner's responsibilities or to Engineer's scope of services, times of performance, and compensation.

F. Engineer shall not be required to sign any documents, no matter by who requested, that would result in Engineer having to certify, guarantee, or warrant the existence of conditions whose existence Engineer cannot ascertain within its Services for that Specific Project. Owner agrees not to make resolution of any dispute with Engineer or payment of

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

any amount due to the Engineer in any way contingent upon Engineer signing any such certification.

G. Engineer shall not at any time supervise, direct, or have control over a Contractor's work, nor shall Engineer have authority over or responsibility for the means, methods, techniques, sequences, or procedures of construction selected or used by a Contractor, for security or safety at any Site, for safety precautions and programs incident to a Contractor's work in progress, nor for any failure of a Contractor to comply with Laws and Regulations applicable to a Contractor's furnishing and performing the Work.

H. Engineer neither guarantees the performance of any Contractor nor assumes responsibility for any Contractor's failure to furnish and perform the Work in accordance with the Contract Documents.

I. Engineer shall not be responsible for the acts or omissions of any Contractor, subcontractor, or supplier, or of any of their agents or employees or of any other persons (except Engineer's own employees and its Consultants) at a Site or otherwise furnishing or performing any of a Contractor's work; or for any decision made on interpretations or clarifications of the Contract Documents given by Owner without consultation and advice of Engineer.

J. Engineer shall at all times be an independent contractor with the sole authority to control and direct the performance of the details of the Services. Engineer shall not purport to be an employee or agent of the City and shall not have any right or power to bind the City to any obligation.

K. Engineer shall procure and maintain at its expense all licenses and permits necessary to perform Services. Engineer shall require that its employees and Consultants are properly licensed to perform their respective portion of Services.

L. The Services to be performed under this Agreement shall be performed entirely at Engineer's risk. Engineer shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the Services to be performed under this Agreement. Engineer shall take all reasonable precautions for the safety of and shall provide all reasonable protection to prevent damage, injury, or loss to employees, the Services, endangered species, or the property affected by this Agreement. All damage or loss to any property caused in whole or in part by Engineer, Consultant, or anyone employed by either of them shall be remedied by Engineer.

6.02 *Ownerships of Documents*

A. City shall have the title to and ownership of all documents produced or developed by Engineer in connection with a Task Order issued pursuant to this Agreement. Documents include publications, plans drawings, designs, specifications, photographs, studies, reports schedules, computer programs, and other data and work product, in any form or media. Owner shall have sole ownership of all copyright interest in all documents to the extent that documents may be copyrighted. Engineer shall deliver all documents to the Owner at completion of the Specific Project under a Task Order, termination of Services under a Task Order, or upon Owner's request. Engineer may retain copies of its work product.

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

6.03 *Insurance*

A. At all times for the term of this Agreement and when any Task Order is under performance, Engineer shall procure and maintain insurance as set forth in Exhibit G, "Insurance." Engineer's failure to purchase and maintain the required insurance shall be grounds for Owner's termination or suspension of this Agreement or a Task Order.

B. Engineer shall cause Owner and its elected officials, officers, directors, employees, representatives and volunteers to be listed as an additional insured on any applicable general liability insurance policy carried by Engineer which is applicable to a Specific Project. The additional insured status must cover completed operations as well, and the policy covering completed work must remain in effect until the expiration of the statute of repose. As respects the Workers Compensation policy, the Engineer will waive subrogation in favor of the Owner.

C. Engineer must complete and forward the required Certificates of Insurance to the Owner when Engineer executes this Agreement as verification of coverage required as indicated. Engineer shall not provide any Services under a Task Order until the required insurance is obtained and until such insurance has been reviewed by the Owner. Approval of insurance by the Owner shall not relieve or decrease the liability of Engineer and shall not be construed to be a limitation of liability on the part of Engineer. Engineer must also complete and forward the required Certificates of Insurance to the Owner whenever a previously indentified policy period has expired as verification of continuing coverage.

D. Engineer's insurance coverage shall be written by companies licensed and authorized to do business in the State of Texas before the policies are issued and shall be written by companies with A.M. Best rating A VIII or better.

E. All endorsements naming the Owner as additional insured, waivers, and notices of cancellation, as well as the Certificates of Insurances shall indicate: City of Georgetown, 300-1 Industrial Avenue, Georgetown, Texas 78626, ATTN: Contract Manager.

F. The "other insurance" clause shall not apply to the Owner where the Owner is an additional insured shown on any policy. It is agreed that the Engineer's general liability insurance shall be considered primary with respect to any insurance or self insurance carried by the Owner. The Owner's insurance shall apply separately to each insured against whom a claim is made and/or lawsuits brought, except with respect to the limits of insured's liability.

G. If insurance policies are not written for the specified amounts, Engineer shall carry Umbrella or Excess Liability Insurance for any differences in amounts specified. If Excess Liability Insurance is provided, it shall follow the form of the primary coverage.

H. Owner shall be entitled, upon request and without expense, to receive "certified copies" of policies and policy endorsements and may make any reasonable requests for deletion or revision or modification of particular policy terms, conditions, limitations, or exclusions except where policy provisions are established by law or regulations binding upon either of the Parties or the underwriter on any such policies.

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

I. Owner reserves the right to review the insurance requirements during the effective period of this Agreement and to make reasonable adjustments to insurance coverage, limits and exclusions when deemed necessary and prudent by the Owner. Owner may request, in a Task Order or Task Order Amendment, that Engineer and its Consultants provide additional insurance coverage, increased limits, or revised deductibles that are more protective than those specified in Exhibit G. Engineer shall obtain and shall require its Consultants to obtain such additional insurance coverage, different limits, or revised deductibles for such periods of time as requested by Owner in the Task Order or Task Order Amendment.

J. Engineer shall not allow any insurance to be cancelled nor permit any insurance to lapse during the term of this Agreement or as required in this Agreement. The policies must contain the following language: "This policy shall not be cancelled or not renewed until after thirty (30) days prior written notice has been given to the additional insured, the City of Georgetown." In addition, Engineer shall provide Owner thirty (30) days written notice of erosion of the aggregate limits below occurrence limits for all applicable coverages indicated within the Agreement.

K. Engineer shall be responsible for premiums, deductibles and self-insured retentions, if any, as stated in policies. All deductibles or self-insured retentions shall be disclosed on the Certificates of Insurance.

L. If Owner's property is being transported or stored off-site by Engineer, then the appropriate property policy will be endorsed for transit and storage in an amount sufficient to protect the Owner's property.

M. The insurance coverages required under this Agreement are required minimums and are not intended to limit the responsibility or liability of Engineer.

N. Without limiting any of the other obligations or liabilities of the Engineer, the Engineer shall require each Consultant performing work under a Task Order to maintain during the term of the Task Order, at the Consultant's expense, the same stipulated minimum insurance including the required provisions and additional policy conditions as shown above. As an alternative, the Engineer may include its Consultants as additional insureds on its own coverage as prescribed under these requirements. The Engineer's Certificate of Insurance shall note in such event that the Consultants are included as additional insureds and that Engineer agrees to provide Workers Compensation for the Consultants and their employees. The Engineer shall obtain and monitor the Certificates of Insurance from each Consultant in order to comply with the insurance requirements. The Engineer must retain the Certificates of Insurance for the duration of the Task Order plus five (5) years and shall have the responsibility of enforcing these insurance requirements among its Consultants. The Owner shall be entitled, upon request and without expense, to receive copies of these Certificates of Insurance.

O. Owner shall require Contractors to purchase and maintain general liability and other insurance in accordance with the requirements of Paragraph 5.04 of the Standard General Conditions of the Construction Contract (No. C-700, 2002 Edition) of the Engineers Joint Contract Documents Committee, and to cause Engineer and its Consultants to be listed as

additional insureds with respect to such liability and other insurance purchased and maintained by Contractors.

6.04 *Suspension and Termination*

A. *Suspension*

1. Owner has the right to suspend all or any portion of the Services to be performed under a Task Order upon ten (10) days written notice to Engineer. Upon receipt of a notice of suspension, Engineer shall:

   a. immediately suspend Services on the date and to the extent specified in the notice;

   b. protect and maintain the portion of the Services completed, including the portion of the Services suspended, unless otherwise specifically stated in the notice; and

   c. continue to perform the Services not suspended.

2. If Owner suspends Services to be performed under a Task Order, Owner shall pay Engineer, as specified in the Task Order, for the Services completed to the date of suspension. Owner will also reimburse Engineer for the following costs, without duplication of any item, to the extent that such costs actually result from such suspension of Services:

   a. a reasonable standby charge to compensate Engineer for keeping (to the extent required in the notice) its organization and equipment committed to the Services in standby status;

   b. reasonable costs associated with demobilization of Engineer's facility, forces and equipment; and

   c. reasonable cost of maintaining and protecting that portion of the Services upon which activities have been suspended.

3. Engineer shall not be entitled to receive any other compensation or reimbursement resulting from a suspension in Services under a Task Order.

4. Upon receipt of notice to restart the suspended portion of Services, Engineer shall immediately resume performance to the extent required in the notice. Within ten (10 days after receipt of notice to resume the suspended portion, the Engineer shall submit a revised schedule for approval by Owner. If, as a result of any suspension, the cost to Engineer of subsequently performing the Services or the time required to perform the Services is changed, Engineer may initiate a Task Order Amendment.

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

B. *Termination.* The obligation to provide further services under this Agreement, or under a Task Order, may be terminated:

1. For Cause,

a. The obligation to provide further services under this Agreement, or under a Task Order, may be terminated by Owner, for cause, upon ten (10) days written notice in the event of substantial failure by Engineer to perform in accordance with this Agreement or any Task Order. This Agreement, or Task Order, will not terminate if the Engineer corrects the failure to perform and proceeds diligently to cure such failure within no more than thirty (30) days of receipt of the notice. If Engineer fails to cure the default, Owner may provide written notice of termination to Engineer.

b. The obligation to provide further services under this Agreement, or under Task Order, may be terminated by Engineer, for cause, upon ten (10) days written notice in the event of substantial failure by Owner to perform in accordance with the terms of this Agreement or any Task Order. This Agreement, or a Task Order, will not terminate if the Owner corrects the failure to perform and proceeds diligently to cure such failure within no more than thirty (30) days of receipt of the notice. If Owner fails to cure the default, Engineer may provide written notice of termination to Owner.

2. For Convenience,

a. Owner has the right to terminate a Task Order under this Agreement for convenience at any time by providing ten (10) days written notice to Engineer. Upon receipt of a notice of termination for convenience, Engineer shall:

1) immediately cease providing Services under the Task Order; and

2) protect and maintain the portion of the Services completed, unless otherwise specifically stated in the notice.

b. In the event of a termination for convenience, Owner shall pay Engineer, as specified in the Task Order, for the Services completed to the date of termination. Owner shall not be liable for special, incidental, consequential or punitive damages, for loss of anticipated future Services, anticipated profits, administrative costs or overhead on anticipated Services, or other indirect costs as a result of a termination for convenience.

6.05 *Controlling Law*

A. This Agreement is to be governed by and construed in accordance with Texas law. Owner and Engineer each submit to the exclusive jurisdiction of the state and federal courts in Williamson County, Texas. Owner does not waive the defense of sovereign immunity.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

6.06 *Successors, Assigns, and Beneficiaries*

A. Owner and Engineer each is hereby bound and the partners, successors, executors, administrators and legal representatives of Owner and Engineer are hereby bound to the other Party to this Agreement and to the partners, successors, executors, administrators and legal representatives (and said assigns) of such other Party, in respect of all covenants, agreements and obligations of this Agreement.

B. Neither Owner nor Engineer may assign, sublet, or transfer any rights under or interest (including, but without limitation, moneys that are due or may become due) in this Agreement without the written consent of the other, except to the extent that any assignment, subletting, or transfer is mandated or restricted by law. Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement.

C. There are no third-party beneficiaries to this Agreement. The provisions of this Agreement do not, and shall not be construed to, create any legal or equitable right, remedy or claim enforceable by any person or entity other than Owner and Engineer. Unless expressly provided otherwise in this Agreement:

1. Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by Owner or Engineer to any Contractor, Contractor's subcontractor, supplier, other individual or entity, or to any surety for or employee of any of them.

2. All duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of Owner and Engineer and not for the benefit of any other party.

D. Owner agrees that the substance of the provisions of this Paragraph 6.07.C shall appear in the Contract Documents.

6.07 *Dispute Resolution*

A. If a dispute arises under this Agreement or a Task Order, Owner and Engineer agree to negotiate the dispute between them in good faith for a period of 30 days from the date of written notice of the dispute.

B. If the Parties fail to resolve a dispute through negotiation under Paragraph 6.07.A, then Owner and Engineer agree that they shall submit any and all unsettled claims, counterclaims, and other matters in question between them arising out of or relating to this Agreement or a Task Order to mediation.

C. If mediation is unsuccessful in resolving a dispute, then any and all unsettled claims, counterclaims, and other matters in question between Owner and Engineer arising out of or relating to this Agreement or Task Order (a) may be submitted to binding arbitration by written agreement of the Parties, or (b) may be filed by either Party in a court of competent jurisdiction.

D. Upon Owner's request, Engineer shall proceed with performance of Services pending final resolution of a dispute arising under this Agreement or a Task Order.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

6.08 *Environmental Condition of Site*

A. With respect to each Task Order, Specific Project, and Site:

1. Owner has disclosed to Engineer in writing the existence of all known and suspected Asbestos, PCBs, Petroleum, Hazardous Waste, Radioactive Material, hazardous substances, and other Constituents of Concern located at or near the Site, including type, quantity, and location.

2. Owner represents to Engineer that to its knowledge no Constituents of Concern, other than those disclosed in writing to Engineer, exist at the Site.

3. If Engineer encounters an undisclosed Constituent of Concern, then Engineer shall notify (a) Owner and (b) appropriate governmental officials if Engineer reasonably concludes that doing so is required by applicable Laws or Regulations.

4. If Engineer or any other Party encounters an undisclosed Constituent of Concern, or if investigative or remedial action, or other professional services, are necessary with respect to disclosed or undisclosed Constituents of Concern, then Engineer may, at its option and without liability for consequential or any other damages, suspend performance of services on the portion of the Specific Project affected thereby until the Site is in full compliance with applicable Laws and Regulations.

5. If the presence at the Site of undisclosed Constituents of Concern adversely affects the performance of Engineer's services under a Task Order, then the Engineer shall have the option of (a) submitting a Task Order Amendment for adjustment in its compensation or in the time of completion, or both; or (b) terminating this Agreement for cause.

6.09 *Indemnification*

A. **General Obligation to Indemnify and Defend. TO THE FULLEST EXTENT PERMITTED BY LAW, ENGINEER AGREES TO INDEMNIFY AND HOLD HARMLESS THE OWNER, ITS ELECTED OFFICIALS, OFFICERS, DIRECTORS, AGENTS, EMPLOYEES, REPRESENTATIVES AND VOLUNTEERS OF AND FROM DAMAGES, INJURIES (INCLUDING DEATH), CLAIMS, PROPERTY DAMAGES (INCLUDING LOSS OF USE), LOSSES, DEMANDS, FORFEITURES, PENALTIES, FINES, COSTS, LAWSUITS, LIABILITIES, ACTIONS, AND CAUSES OF ACTION, OF EVERY KIND WHATSOEVER, AND EXPENSES, INCLUDING BUT NOT LIMITED TO FEES AND CHARGES OF ENGINEERS, ATTORNEYS, AND OTHER PROFESSIONALS, AND COURT, ARBITRATION, OR OTHER DISPUTE RESOLUTION COSTS, AND EXPENSES AND COSTS OF INVESTIGATION, ARISING OUT OF OR RELATING TO THIS AGREEMENT, ANY TASK ORDER, OR ANY SPECIFIC PROJECT, TO THE EXTENT CAUSED BY 1) THE NEGLIGENT ACT OR OMISSION OR WILLFUL ACTS OF ENGINEER OR ENGINEER'S OFFICERS, DIRECTORS, PARTNERS, AGENTS, EMPLOYEES, OR CONSULTANTS OR 2) MATERIAL BREACH OF THIS AGREEMENT OR TASK ORDER. ENGINEER FURTHER AGREES TO DEFEND, AT ITS OWN**

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

EXPENSE, ON BEHALF OF THE OWNER AND IN THE NAME OF THE OWNER, SUITS AND PROCEEDINGS INSTITUTED AGAINST OWNER TO WHICH THE INDEMNITY OBLIGATION APPLIES, AND PAY AWARDS OF DAMAGES ASSESSED WHICH RESULT FROM ANY SUCH CLAIM, SUIT OR PROCEEDING, INCLUDING ASSOCIATED EXPENSES, ATTORNEY FEES, COSTS OF INVESTIGATION, ARBITRATION AND/OR LITIGATION.

B. **Intellectual Property.**

1. ENGINEER AGREES TO INDEMNIFY AND HOLD HARMLESS THE OWNER, ITS ELECTED OFFICIALS, OFFICERS, DIRECTORS, AGENTS, EMPLOYEES, REPRESENTATIVES AND VOLUNTEERS OF AND FROM DAMAGES, CLAIMS, LOSSES, DEMANDS, FORFEITURES, PENALTIES, FINES, COSTS, LAWSUITS, LIABILITIES, ACTIONS, CAUSES OF ACTION OF EVERY KIND WHATSOEVER, AND EXPENSES, INCLUDING BUT NOT LIMITED TO FEES AND CHARGES OF ENGINEERS, ATTORNEYS, AND OTHER PROFESSIONALS, AND COURT, ARBITRATION, OR OTHER DISPUTE RESOLUTION COSTS, AND EXPENSES AND COSTS OF INVESTIGATION, TO THE EXTENT CAUSED BY ALLEGED INFRINGEMENT OF PATENT OR COPYRIGHT OF THE UNITED STATES OR OF ANY TRADEMARK OR TRADE SECRET PROTECTED BY EITHER FEDERAL OR STATE LAW BY ENGINEER OR ENGINEER'S OFFICERS, DIRECTORS, PARTNERS, AGENTS, EMPLOYEES, OR CONSULTANTS. ENGINEER SHALL, AT ITS OWN EXPENSE, DEFEND SUITS OR PROCEEDINGS INSTITUTED AGAINST OWNER, AND PAY AWARDS OF DAMAGES ASSESSED WHICH RESULT FROM ANY SUCH CLAIM, SUIT OR PROCEEDING, INCLUDING ASSOCIATED EXPENSES, ATTORNEY FEES, COSTS OF INVESTIGATION, ARBITRATION AND/OR LITIGATION, AND SHALL ABIDE BY RESULTING DECREES AND COMPROMISES.

2. IF A RESTRAINING ORDER OR TEMPORARY INJUNCTION IS GRANTED, ENGINEER SHALL MAKE EVERY REASONABLE EFFORT, BY GIVING A SATISFACTORY BOND OR OTHERWISE, TO SECURE THE SUSPENSION OF ANY SUCH RESTRAINING ORDER OR TEMPORARY INJUNCTION. IF THE SERVICES ARE HELD TO CONSTITUTE AN INFRINGEMENT, AND PERMANENTLY ENJOINED, ENGINEER SHALL MAKE EVERY REASONABLE EFFORT TO SECURE FOR OWNER A LICENSE AT ENGINEER'S EXPENSE AUTHORIZING THE CONTINUED USE OF THE ALLEGED INFRINGING PORTION OF THE SERVICES. IF ENGINEER IS UNABLE TO SECURE SUCH LICENSE WITHIN A REASONABLE TIME, ENGINEER SHALL, AT ITS OWN EXPENSE AND WITHOUT IMPAIRING PERFORMANCE REQUIREMENTS, EITHER PROVIDE NON-INFRINGING REPLACEMENT OR MODIFY THE SERVICES TO ELIMINATE THE INFRINGEMENT. IN ADDITION TO INDEMNIFYING AND SAVING OWNER HARMLESS, ENGINEER SHALL REIMBURSE OWNER FOR

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

ANY COSTS INCURRED AS A RESULT OF THE UNAVAILABILITY OF THE INFRINGING ITEM OR ITS NONINFRINGING REPLACEMENT.

C. Engineer's indemnity obligations are independent covenants and shall survive completion of or termination of the Agreement or any claimed breach of the Agreement.

D. Owner shall promptly notify Engineer, in writing, of receipt of notice of the commencement or threatened commencement of any civil, administrative or investigative action or proceeding involving a claim for which Owner seeks indemnification. No failure to so notify Engineer shall relieve Engineer of its obligations under this Agreement except to the extent that Engineer can demonstrate damages attributable to such failure. Within fifteen (15) days following receipt of written notice from the Owner, but no later than ten (10) days before the date on which any response to a complaint or summons is due, Engineer shall assume control of the defense and/or resolution of the claim.

E. *Release.* Engineer assumes full responsibility for the Services to be performed and releases, relinquishes, and discharges the City, its elected officials, officers, directors, agents, employees, representatives and volunteers from all claims, demands, and causes of action of every kind and character, including the cost of defense, for any injury to or death of any person (whether employees of either Party or other third parties) and any loss of or damage to any property that is caused by or alleged to be caused by, arising out of, or in connection with Services performed under this Agreement or a Task Order. This release shall apply regardless of whether the claims, demands and/or causes of action are covered in whole or in part by insurance, and in the event of injury, death, property damage, or loss suffered by the Engineer, any Consultant, or any person or organization directly or indirectly employed by any of them to perform or furnish Services under this Agreement.

6.10 *Miscellaneous Provisions*

A. *Notices.* Any notice required under this Agreement will be in writing and sent to the Designated Representative by personal delivery, facsimile, registered or certified mail postage prepaid, or a commercial courier service. All notices shall be effective upon the date of receipt.

B. *Survival.* All express representations, waivers, indemnifications, and limitations of liability included in this Agreement will survive its completion or termination for any reason.

C. *Severability.* Any provision or part of the Agreement held to be void or unenforceable under any Laws or Regulations shall be deemed stricken and all remaining provisions shall continue to be valid and binding upon Owner and Engineer.

D. *Waiver.* A Party's non-enforcement of any provision shall not constitute a waiver of that provision, nor shall it affect the enforceability of that provision or of the remainder of this Agreement.

E. *Applicability to Task Orders.* The terms and conditions set forth in this Agreement apply to each Task Order as if set forth in the Task Order, unless specifically modified in the Task Order. In the event of a conflict between this Agreement and a Task Order, the

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

conflicting provisions of the Task Order shall take precedence for that Task Order. Such amendments shall be applicable to all Task Orders issued after the effective date of the amendment if not otherwise set forth in the amendment.

F. *Non-Exclusive Agreement.* Nothing herein shall establish an exclusive relationship between Owner and Engineer. Owner may enter into similar agreements with other professionals for the same or different types of services contemplated hereunder, and Engineer may enter into similar or different agreements with other owners for the same or different services contemplated hereunder.

G. *Certification Regarding Boycotting Israel.* Pursuant to Chapter 2271, Texas Government Code, Engineer certifies that it (1) does not currently boycott Israel; and (2) will not boycott Israel during the term of this Agreement. Engineer acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

H. *Certification Regarding Business with Certain Countries and Organizations.* Pursuant to Subchapter F, Chapter 2252, Texas Government Code, Engineer certifies it is not engaged in business with Iran, Sudan, or a foreign terrorist organization. Engineer acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

I. *Certification Regarding Boycotting Energy Companies.* Pursuant to Chapter 2274, Texas Government Code, Engineer certifies that either (1) it is a sole proprietorship or company with fewer than ten (10) employees or (2) it does not currently boycott energy companies and will not boycott energy companies during the Term of this Agreement. Engineer acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

J. *Certification Regarding Boycotting Firearm and Ammunition Industries.* Pursuant to Chapter 2274, Texas Government Code, Engineer certifies that either (1) it is a sole proprietorship or company with fewer than ten (10) employees or (2) it does not currently boycott firearm and ammunition industries; and will not boycott firearm and ammunition industries during the Term of this Agreement. Engineer acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

ARTICLE 7 – DEFINITIONS

7.01 *Defined Terms*

A. Wherever used in this Agreement (including the Exhibits hereto and any Task Order) terms (including the singular and plural forms) printed with initial capital letters have the meanings indicated in the text above, in the Exhibits or Task Order, or in the following provisions:

1. *Addenda* – Written or graphic instruments issued prior to the opening of Bids which clarify, correct, or change the Bidding Documents.

2. *Additional Services* – Services to be performed for or furnished to Owner by Engineer in accordance with a Task Order which are not included in Basic Services for that Task Order.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

3. *Agreement* – This "Master Services Agreement between Owner and Engineer for Professional Services – Task Order Edition" including those Exhibits listed in Article 8 and any duly executed Task Order.

4. *Application for Payment* – The form acceptable to Engineer which is to be used by a Contractor in requesting progress or final payments for the completion of its Work and which is to be accompanied by such supporting documentation as is required by the Contract Documents.

5. *Asbestos* – Any material that contains more than one percent asbestos and is friable or is releasing asbestos fibers into the air above current action levels established by the United States Occupational Safety and Health Administration.

6. *Basic Services* – Specified services to be performed for or furnished to Owner by Engineer in accordance with a Task Order.

7. *Bid* – The offer or proposal of a bidder submitted on the prescribed form setting forth the prices for the Work to be performed.

8. *Bidding Documents* – The advertisement or invitation to Bid, instructions to bidders, the Bid form and attachments, the Bid bond, if any, the proposed Contract Documents, and all Addenda, if any.

9. *Change Order* – A document recommended by Engineer, which is signed by a Contractor and Owner to authorize an addition, deletion or revision in the Work, or an adjustment in the Contract Price or the Contract Times.

10. *Constituent of Concern* – Any substance, product, waste, or other material of any nature whatsoever (including, but not limited to, Asbestos, Petroleum, Radioactive Material, and PCBs) which is or becomes listed, regulated, or addressed pursuant to (a) the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. §§9601 et seq. ("CERCLA"); (b) the Hazardous Materials Transportation Act, 49 U.S.C. §§1801 et seq.; (c) the Resource Conservation and Recovery Act, 42 U.S.C. §§6901 et seq. ("RCRA"); (d) the Toxic Substances Control Act, 15 U.S.C. §§2601 et seq.; (e) the Clean Water Act, 33 U.S.C. §§1251 et seq.; (f) the Clean Air Act, 42 U.S.C. §§7401 et seq.; and (g) any other federal, state, or local statute, law, rule, regulation, ordinance, resolution, code, order, or decree regulating, relating to, or imposing liability or standards of conduct concerning, any hazardous, toxic, or dangerous waste, substance, or material.

11. *Construction Agreement* – The written instrument which is evidence of the agreement, contained in the Contract Documents, between Owner and a Contractor covering the Work.

12. *Construction Contract* – The entire and integrated written agreement between Owner and a Contractor concerning the Work.

13. *Construction Cost* – The cost to Owner of those portions of an entire Specific Project designed or specified by Engineer. Construction Cost does not include costs of

services of Engineer or other design professionals and consultants, cost of land, rights-of-way, or compensation for damages to properties, or Owner's costs for legal, accounting, insurance counseling or auditing services, or interest and financing charges incurred in connection with a Specific Project, or the cost of other services to be provided by others to Owner. Construction Cost is one of the items comprising Total Project Costs.

14. *Consultants* – Individuals or entities having a contract with Engineer to furnish services with respect to a Specific Project as Engineer's independent professional associates, consultants, subcontractors, or vendors. The term Engineer includes Engineer's Consultants.

15. *Contract Documents* – Documents that establish the rights and obligations of the parties engaged in construction and include the Construction Agreement between Owner and a Contractor, Addenda (which pertain to the Contract Documents), a contractor's Bid (including documentation accompanying the Bid and any post-Bid documentation submitted prior to the notice of award) when attached as an exhibit to the Construction Agreement, the notice to proceed, the bonds, appropriate certifications, the General Conditions, the Supplementary Conditions, the Specifications and the Drawings as the same are more specifically identified in the Construction Agreement, together with all Written Amendments, Change Orders, Work Change Directives, Field Orders, and Engineer's written interpretations and clarifications issued on or after the Effective Date of the Construction Agreement. Approved Shop Drawings and the reports and drawings of subsurface and physical conditions are not Contract Documents.

16. *Contract Price* – The moneys payable by Owner to a Contractor for completion of the Work in accordance with the Contract Documents and as stated in the Construction Agreement.

17. *Contract Times* – The numbers of days or the dates stated in a Construction Agreement to: (i) achieve Substantial Completion, (ii) complete the Work so that it is ready for final payment as evidenced by Engineer's written recommendation of final payment, and (iii) meet any other specified milestone.

18. *Contractor* – An individual or entity with whom Owner enters into a Construction Agreement for a Specific Project.

19. *Correction Period* – The time after Substantial Completion during which a Contractor must correct, at no cost to Owner, any Defective Work, normally one year after the date of Substantial Completion or such longer period of time as may be prescribed by Laws or Regulations or by the terms of any applicable special guarantee or specific provision of the Contract Documents.

20. *Defective* – An adjective which, when modifying the word Work, refers to Work that is unsatisfactory, faulty, or deficient, in that it does not conform to the Contract Documents, or does not meet the requirements of any inspection, reference standard, test, or approval referred to in the Contract Documents, or has been damaged prior to Engineer's recommendation of final payment.

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

21. *Documents* – Data, reports, Drawings, Specifications, Record Drawings, and other deliverables, whether in printed or electronic media format, provided or furnished in appropriate phases by Engineer to Owner pursuant to this Agreement.

22. *Drawings* – That part of the Contract Documents prepared or approved by Engineer which graphically shows the scope, extent, and character of the Work to be performed by a Contractor. Shop Drawings are not Drawings as so defined.

23. *Effective Date of the Construction Agreement* – The date indicated in a Construction Agreement on which it becomes effective, but if no such date is indicated, it means the date on which the Construction Agreement is signed and delivered by the last of the two parties to sign and deliver.

24. *Effective Date of the Agreement* – The date indicated in this Agreement on which it becomes effective, but if no such date is indicated, it means the date on which the Agreement is signed and delivered by the last of the two parties to sign and deliver.

25. *Effective Date of the Task Order* – The date indicated in the Task Order on which it becomes effective, but if no such date is indicated, it means the date on which the Task Order is signed and delivered by the last of the two parties to sign and deliver.

26. *Field Order* – A written order issued by Engineer which directs minor changes in the Work but which does not involve a change in the Contract Price or the Contract Times.

27. *General Conditions* – That part of the Contract Documents which sets forth terms, conditions, and procedures that govern the Work to be performed or furnished by a Contractor with respect to a Specific Project. The "Standard General Conditions of the Construction Contract" as prepared by the Engineers Joint Contract Document Committee (Document No. C-700, 2007 Edition) will be used unless both Parties mutually agree in a Task Order to use other General Conditions.

28. *Hazardous Waste* – The term Hazardous Waste shall have the meaning provided in Section 1004 of the Solid Waste Disposal Act (42 USC Section 6903) as amended from time to time.

29. *Laws and Regulations; Laws or Regulations* – Any and all applicable laws, rules, regulations, ordinances, codes, standards, and orders of any and all governmental bodies, agencies, authorities, and courts having jurisdiction.

30. *PCBs* – Polychlorinated biphenyls.

31. *Petroleum* – Petroleum, including crude oil or any fraction thereof which is liquid at 32 degrees Fahrenheit and 14.7 pounds per square inch absolute, such as fuel oil, oil sludge, oil refuse, gasoline, kerosene, and oil mixed with other non-Hazardous Waste and crude oils.

32. *Radioactive Materials* – Source, special nuclear, or byproduct material as defined by the Atomic Energy Act of 1954 (42 USC Section 2011 et seq.) as amended from time to time.

Modified Version of EJCDC No. E-505 Standard Form of Agreement Between Owner and Engineer for Professional Services – Task Order Edition
Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

33. *Record Drawings* – The Drawings as issued for construction on which Engineer, upon completion of the Work, has shown changes due to Addenda or Change Orders and other information which Engineer considers significant based on record documents furnished by Contractor to Engineer and which were annotated by Contractor to show changes made during construction.

34. *Reimbursable Expenses* – Reasonable and customary expenses approved by Owner in a Task Order and incurred directly by Engineer in connection with the performing or furnishing of Services for a Specific Project for which Owner shall pay Engineer.

35. *Resident Project Representative* – The authorized representative, if any, of Engineer assigned to assist Engineer at the Site of a Specific Project during the Construction Phase. The Resident Project Representative will be Engineer's agent or employee and under Engineer's supervision. As used herein, the term Resident Project Representative includes any assistants of Resident Project Representative agreed to by Owner. The duties and responsibilities of the Resident Project Representative will be as set forth in each Task Order.

36. *Samples* – Physical examples of materials, equipment, or workmanship that are representative of some portion of the Work and which establish the standards by which such portion of the Work will be judged.

37. *Shop Drawings* – All drawings, diagrams, illustrations, schedules, and other data or information which are specifically prepared or assembled by or for a Contractor and submitted by a Contractor to Engineer to illustrate some portion of the Work.

38. *Site* – Lands or areas indicated in the Contract Documents for a Specific Project as being furnished by Owner upon which the Work is to be performed, rights-of-way and easements for access thereto, and such other lands furnished by Owner which are designated for use of a Contractor.

39. *Specifications* – That part of the Contract Documents prepared by Engineer consisting of written technical descriptions of materials, equipment, systems, standards, and workmanship as applied to the Work to be performed by a Contractor and certain administrative details applicable thereto.

40. *Specific Project* – An undertaking of Owner as set forth in a Task Order.

41. *Substantial Completion* – The time at which the Work (or a specified part thereof) has progressed to the point where, in the opinion of Engineer, the Work (or a specified part thereof) is sufficiently complete, in accordance with the Contract Documents, so that the Work (or a specified part thereof) can be utilized for the purposes for which it is intended. The terms "substantially complete" and "substantially completed" as applied to all or part of the Work refer to Substantial Completion thereof.

42. *Supplementary Conditions* – That part of the Contract Documents which amends or supplements the General Conditions.

Copyright © 2004 National Society of Professional Engineers for EJCDC. All rights reserved. Insertions and deletions are available to be reviewed in the document attached as Exhibit "B" to Resolution No. 030811-P in the City Secretary's office.

43. *Task Order* – A document executed by Owner and Engineer, including amendments if any, stating the scope of services, Engineer's compensation, times for performance of services and other relevant information for a Specific Project.

44. *Total Project Costs* – The sum of the Construction Cost, allowances for contingencies, the total costs of services of Engineer or other design professionals and consultants, cost of land, rights-of-way, or compensation for damages to properties, or Owner's costs for legal, accounting, insurance counseling, or auditing services, or interest and financing charges incurred in connection with a Specific Project, or the cost of other services to be provided by others to Owner.

45. *Work* – The entire completed construction or the various separately identifiable parts thereof required to be provided by a Contractor under Contract Documents for a Specific Project. Work includes and is the result of a Contractor performing or furnishing labor, services, and documentation necessary to produce such construction and furnishing, installing, and incorporating all materials and all equipment into such construction, all as required by the applicable Contract Documents.

46. *Work Change Directive* – A written directive to a Contractor signed by Owner upon recommendation of the Engineer, ordering an addition, deletion, or revision in the Work, or responding to differing or unforeseen subsurface or physical conditions under which the Work is to be performed or to emergencies. A Work Change Directive will not change the Contract Price or the Contract Times but is evidence that the parties expect that the change directed or documented by a Work Change Directive will be incorporated in a subsequently issued Change Order following negotiations by the parties as to its effect, if any, on the Contract Price or Contract Times.

47. *Written Amendment* – A written amendment of the Contract Documents signed by Owner and a Contractor on or after the Effective Date of a Construction Agreement and normally dealing with the non-engineering or non-technical rather than strictly construction-related aspects of the Contract Documents.

8.02 *Total Agreement*

A. This Agreement (together with the Exhibits identified as included above) constitutes the entire agreement between Owner and Engineer and supersedes all prior written or oral understandings. This Agreement may only be amended, supplemented, modified, or canceled by a duly executed written instrument.

8.03 *Designated Representatives*

A. With the execution of this Agreement, Engineer and Owner shall designate specific individuals to act as Engineer's and Owner's representatives with respect to the Services to be performed or furnished by Engineer and responsibilities of Owner under this Agreement. Such individuals shall have authority to transmit instructions, receive information, and render decisions relative to the Agreement on behalf of each respective Party. Each Task Order shall likewise designate representatives of the Parties. The Designated Representative may be changed with written notice to the Designated Representative of the other Party.

IN WITNESS WHEREOF, the Parties execute this Agreement.

EXHIBIT G, consisting of 1 page, referred to in and part of the **Master Services Agreement between Owner and Engineer for Professional Services – Task Order Edition** dated _____.

Insurance

Paragraph 6.03 of the Agreement is amended and supplemented to include the following agreement of the parties.

The limits for Engineer's insurance required by paragraph 6.03 of the Agreement are as follows:

Workers' Compensation with statutory limits. Engineer shall certify in writing that the Engineer provides Workers' Compensation Insurance for all of Engineer's employees involved in the Project. In addition, Engineer shall meet each stipulation required by the Texas Workers Compensation Commission. If you have questions concerning the requirements, you are instructed to contact the TID at (800) 252-3439.

Employers Liability with minimum limits for bodily injury: a) by accident, $250,000 per each accident b) by disease, $250,000 per employee with a per policy aggregate of $500,000.

Commercial General Liability including, but not limited to, Premises/Operations, Personal & Advertising Injury, Products/Completed Operations, Independent Contractors and Contractual Liability with minimum combined bodily injury (including death) and property damage limits of $1,000,000 per occurrence, $2,000,000 general aggregate. If the insurance is written on a claims-made form, coverage shall be continuous (by renewal or extended reporting period) for not less than 36 months following the last to occur: 1) expiration of this Agreement; or 2) Engineer's completion, and Owner's acceptance, of all Services provided under any and all Task Orders, if any, approved pursuant to the Agreement. Coverage, including any renewals, shall have the same retroactive date as the original policy applicable to the Agreement.

Business Automobile Liability covering owned, hired, and non-owned vehicles, with minimum combined bodily injury (including death) and property damage limit of $1,000,000 per occurrence.

Professional Liability $2,000,000 per claim. With written approval of the City's Risk Manager, a Claims Made Policy may be accepted for Professional Liability Insurance.

ADDITIONAL INSURED - PRIMARY AND NON-CONTRIBUTORY

It is understood and agreed that this endorsement amends the **BUSINESS AUTO COVERAGE FORM** as follows:

SCHEDULE
Name of Additional Insured Person Or Organization
ANY PERSON OR ORGANIZATION THAT YOU ARE REQUIRED BY WRITTEN CONTRACT OR WRITTEN AGREEMENT TO NAME AS AN ADDITIONAL INSURED.

1. In conformance with paragraph **A.1.c.** of **Who Is An Insured** of Section II - LIABILITY COVERAGE, the person or organization scheduled above is an insured under this policy.
2. The insurance afforded to the additional insured under this policy will apply on a primary and non-contributory basis if you have committed it to be so in a written contract or written agreement executed prior to the date of the "**accident**" for which the additional insured seeks coverage under this policy.

All other terms and conditions of the policy remain unchanged

This endorsement, which forms a part of and is for attachment to the policy issued by the designated Insurers, takes effect on the Policy Effective date of said policy at the hour stated in said policy, unless another effective date (the Endorsement Effective Date) is shown below, and expires concurrently with said policy.

WAIVER OF TRANSFER OF RIGHTS OF RECOVERY AGAINST OTHERS TO US (WAIVER OF SUBROGATION) – AUTOMATIC WHEN REQUIRED BY WRITTEN CONTRACT OR AGREEMENT

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

This endorsement modifies insurance provided under the following:

AUTO DEALERS COVERAGE FORM

BUSINESS AUTO COVERAGE FORM

MOTOR CARRIER COVERAGE FORM

With respect to coverage provided by this endorsement, the provisions of the Coverage Form apply unless modified by the endorsement.

The **Transfer Of Rights Of Recovery Against Others To Us** Condition does not apply to any person(s) or organization(s) for whom you are required to waive subrogation with respect to the coverage provided under this Coverage Form, but only to the extent that subrogation is waived:

A. Under a written contact or agreement with such person(s) or organization(s); and

B. Prior to the **"accident"** or the **"loss."**

© Copyright Insurance Services Office, Inc., 2019

IMPORTANT: THIS ENDORSEMENT CONTAINS DUTIES THAT APPLY TO THE ADDITIONAL INSURED IN THE EVENT OF OCCURRENCE, OFFENSE, CLAIM OR SUIT. SEE PARAGRAPH C., OF THIS ENDORSEMENT FOR THESE DUTIES.

BLANKET ADDITIONAL INSURED ENDORSEMENT WITH PRODUCTS-COMPLETED OPERATIONS COVERAGE AND BLANKET WAIVER OF SUBROGATION

Architects, Engineers and Surveyors

This endorsement modifies insurance provided under the following:

BUSINESSOWNERS LIABILITY COVERAGE FORM
BUSINESSOWNERS COMMON POLICY CONDITIONS

A. **Who Is An Insured** is amended to include as an insured any person or organization whom you are required to add as an additional insured on this policy under a written contract or written agreement; but the written contract or written agreement must be:

1. Crrently in effect or becoming effective during the term of this policy; and
2. Executed prior to the:
   a. "**Bodily injury**" or "**property damage**"; or
   b. Offense that caused the "**personal and advertising injury**";

   for which the additional insured seeks coverage

B. The insurance provided to the additional insured is limited as follows:

1. The person or organization is an additional insured only with respect to liability for "**bodily injury**," "**property damage**" or "**personal and advertising injury**" caused in whole or in part by:
   a. Your acts or omissions; or
   b. The acts or omissions of those acting on your behalf,

   in the performance of your ongoing operations specified in the written contract or written agreement; or

   c. "**Your work**" that is specified in the written contract or written agreement, but only for "**bodily injury**" or "**property damage**" included in the "**products-completed operations hazard**," and only if:
      (1) The written contract or written agreement requires you to provide the additional insured such coverage; and
      (2) This Coverage Part provides such coverage.
2. The Limits of Insurance applicable to the additional insured are those specified in the written contract or written agreement or in the Declarations of this policy, whichever is less. These Limits of Insurance are inclusive of, and not in addition to, the Limits of Insurance shown in the Declarations.
3. The insurance provided to the additional insured does not apply to "**bodily injury**," "**property damage**" or "**personal and advertising injury**" arising out of an architect's, engineer's, or surveyor's rendering of or failure to render any professional services including:
   a. The preparing, approving, or failing to prepare or approve maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications by any architect, engineer or surveyor performing services on a project of which you serve as construction manager; or
   b. Inspection, supervision, quality control, engineering or architectural services done by you on a project of which you serve as construction manager.
4. The insurance provided to the additional insured does not apply to "**bodily injury**," "**property damage**" or "**personal and advertising injury**" arising out of construction or demolition work while you are acting as a construction or demolition contractor.

C. Under **Businessowners Liability Conditions**, the condition entitled **Duties In The Event of Occurrence, Offense, Claim or Suit** is amended to add the following:

An additional insured under this endorsement will as soon as practicable:

1. Give written notice of an occurrence or an offense to us which may result in a claim or "**suit**" under this insurance;
2. Tender the defense and indemnity of any claim or "**suit**" to us for a loss we cover under this Coverage Part;
3. Except as provided for in paragraph **D.2.** below:
   a. Tender the defense and indemnity of any claim or "**suit**" to any other insurer which also has insurance for a loss we cover under this Coverage Part; and
   b. Agree to make available any other insurance which the additional insured has for a loss we cover under this Coverage Part.

We have no duty to defend or indemnify an additional insured under this endorsement until we receive written notice of a claim or "**suit**" from the additional insured.

D. With respect only to the insurance provided by this endorsement, the condition entitled **Other Insurance** of the **BUSINESSOWNERS COMMON POLICY CONDITIONS** is amended to delete paragraphs **2.** and **3.** and replace them with the following:

2. This insurance is excess over any other insurance available to the additional insured, whether primary, excess, contingent or on any other basis, But if required by the written contract or written agreement, this insurance will be primary and noncontributory relative to insurance on which the additional insured is a Named Insured.
3. When this insurance is excess, we will have no duty under **Business Liability** insurance to defend the additional insured against any "**suit**" if any other insurer has a duty to defend the additional insured against that "**suit**" If no other insurer defends, we will undertake to do so, but we will be entitled to the additional insured's rights against all those other insurers.

   When this insurance is excess over other insurance, we will pay only our share of the amount of the loss, if any, that exceeds the sum of:

   (a) The total amount that all such other insurance would pay for the loss in the absence of this insurance; and

   (b) The total of all deductible and self-insured amounts under all that other insurance.

   We will share the remaining loss, if any, with any other insurance that is not described in this Excess Insurance provision and was not bought specifically to apply in excess of the Limits of Insurance shown in the Declarations of this Coverage Part.

E. **Additional Insured – Extended Coverage**

When an additional insured is added by this or any other endorsement attached to this Coverage Part, the section entitled **Who Is An Insured** is amended to make the following natural persons insureds:

If the additional insured is:

1. An individual, then his or her spouse is an insured;
2. A partnership or joint venture, then its partners, members and their spouses are insureds;
3. A limited liability company, then its members and managers are insureds;
4. An organization other than a partnership, joint venture or limited liability company, then its executive officers, directors and shareholders are insureds; or
5. Any type of entity, then its employees are insureds;

but only with respect to locations and operations covered by the additional insured endorsement's provisions, and only with respect to their respective roles within their organizations. Furthermore, employees of additional insureds are not insureds with respect to liability arising out of:

(1) "**Bodily injury**" or "**personal and advertising injury**" to any fellow employee or to any natural person listed in paragraphs **1.** through **4.** above;

Copyright, CNA All Rights Reserved.

(2) **"Property damage"** to property owned, occupied or used by their employer or by any fellow employee; or

(3) Providing or failing to provide professional health care services.

F. The condition entitled **Transfer of Rights of Recovery Against Others to Us** of the **BUSINESSOWNERS COMMON POLICY CONDITIONS** is amended to deleted paragraph **2.** and replace it with the following:

2. We waive any right of recovery we may have against any person or organization with whom you have agreed to waive such right of recovery in a written contract or agreement because of payments we make for injury or damage arising out of your ongoing operations or **"your work"** done under a contract with that person or organization and included within the **"products-completed operations hazard."**

All other terms and conditions of the Policy remain unchanged.

TEXAS WAIVER OF OUR RIGHT TO RECOVER FROM OTHERS ENDORSEMENT

This endorsement applies only to the insurance provided by the policy because Texas is shown in item 3.A. of the Information Page.

We have the right to recover our payments from anyone liable for an injury covered by this policy. We will not enforce our right against the person or organization named in the Schedule, but this waiver applies only with respect to bodily injury arising out of the operations described in the schedule where you are required by a written contract to obtain this waiver from us.

This endorsement shall not operate directly or indirectly to benefit anyone not named in the Schedule.

The premium for this endorsement is shown in the Schedule.

Schedule

1. ( ) Specific Waiver
   Name of person or organization
   (X) Blanket Waiver
   Any person or organization for whom the Named Insured has agreed by written contract to furnish this waiver.

2. Operations: ALL TEXAS OPERATIONS
3. Premium:
   The premium charge for this endorsement shall be **2.00** percent of the premium developed on payroll in connection with work performed for the above person(s) or organization(s) arising out of the operations described.
4. Advance Premium: Included, see Information Page

This endorsement changes the policy to which it is attached effective on the inception date of the policy unless a different date is indicated below.
(The following "attaching clause" need be completed only when this endorsement is issued subsequent to preparation of the policy.)
This endorsement, effective on 1/2/24 **at 12:01 a.m.** standard time, forms a part of:

SUBJECT:
Design and Construction Administration Contract for Fire Station 8

SUGGESTED ACTION:
Consideration and possible action to approve an agreement with GFF, Inc. for the design and construction administration services for Fire Station 8 located on Westinghouse Rd in the amount of $1,031,350.00 -- Jennifer Bettiol, CIP Manager Public Works

ITEM SUMMARY:
With the rapid growth that our community has experienced since 2019, strategic placement of our fire stations is critical to meeting the growing demand and to maintain the high quality of service the City of Georgetown deserves. Fire Station 8, which will be located on City owned property on Westinghouse Rd, will be critical to meet the demands in the southeast region of the Georgetown Fire Department's coverage area. With excellent qualifications and references, GFF has been selected to provide professional architectural services associated with the design and construction administration of Fire Station No. 8.

FINANCIAL IMPACT:
$1,031,350.00

Article 1 Project Architect's Services and Responsibilities

The Project Architect shall provide the usual and customary Basic Services necessary and reasonably inferable to complete the Project and each phase of the project described as Basic Services in the paragraphs below, along with any Additional Services requested by the Owner.

1.1 Basic Services

1.1.1 Basic Services. The Project Architect's Basic Services include all disciplines identified below and all related usual and customary design, consultant, and other services necessary and reasonably inferable to complete the Project, or any phase of the Project, in accordance with the Owner's requirements and the terms of this Agreement. Basic Services shall include the following disciplines:

a) Architectural Services
b) Landscape Architectural Services
c) Civil Engineering Services
d) Structural Engineering Services
e) Mechanical Engineering Services
f) Electrical Engineering Services
g) Plumbing Engineering Services
i) Audio Visual/Data & Telecommunications Engineering Coordination
j) Security Planning Coordination

1.1.2 The Architectural Services, attached as Exhibit A, describes the intended project scope and character along with the anticipated Project Schedule and the Preliminary Project Cost. It is the Project Architect's responsibility to review and understand the requirements of the Programming Document and to perform his professional services so as to achieve those objectives. The Parties agree the terms and conditions of this Agreement shall take precedence and control over any term or provision in an exhibit that in any way conflicts with, differs from, or attempts to alter the terms of this Agreement.

1.1.3 The Fixed Fee for this Project is specified in Article 4. The Project Architect is responsible for managing the design of the Project so that its construction does not exceed the Project Budget.

1.1.4 The Project Architect shall manage the design of the Project to achieve the Programming Document objectives of scope and cost through completion and acceptance of Construction Documents phase. The Project Architect shall advise the Owner of any adjustments to the scope or quality of the Project necessary to comply with the Project Budget during design development as part of Basic Services.

1.1.5 The Project Architect shall submit the names of all consultants, persons, or firms, which the Project Architect proposes to use in the execution of its services. The Project Architect is responsible for coordinating the work of all of its consultants to assure that their services are appropriate for and adequately incorporated into the design of the Project. The Owner reserves the right, in its sole discretion, to reject the employment by Architect of any consultant for the Project to which Owner has a reasonable objection. The Architect, however, shall not be required to contract with any consultant to which it has a reasonable objection.

1.1.6 The Project Architect shall pay for its consultants' services out of its fees. The Owner is not responsible for any consultant fees or costs unless expressly agreed to in writing.

1.1.7 The Project Architect shall submit documents to the Owner for review at completion of the Schematic Design and Design Development phases and at the 50%, 90%, and 100% stages of completion of the Construction Documents. The Project Architect shall incorporate into the documents such corrections and amendments as the Owner requests, unless the Project Architect objects in writing and receives the Owner's consent not to make the changes. The Project Architect will be responsible for any damages incurred by the Owner that are caused by Project Architect's failure to incorporate requested corrections and amendments to the documents.

1.1.8 Project Architect shall provide PDF Documents to the Owner for Owner's use during document review. Owner will provide its review comments to Project Architect through the use of Bluebeam markups and the Project Architect shall provide a detailed written response to each of the Owner's review comments indicating where and how they have been addressed in the design documents. At each required document submittal stage, the Project Architect shall include the completed comment form from the preceding submittal along with a cover letter signed by a firm principal affirming that the previous review comments have been fully addressed in the current submittal. Failure to respond to the previous comments or to provide the written affirmation may result in reduction or rejection of the Project Architect's then-current Statement for Architectural/Engineering Services. Owner's approval of the revised drawing shall not be deemed to be an approval of any unlisted changes, and any costs or expense for any Project Architect's additional services subsequently incurred for such unlisted changes shall be borne or reimbursed by Project Architect.

1.1.9 Project Architect agrees and acknowledges that Owner is entering into this Agreement in reliance on Project Architect's represented professional abilities with respect to performing Project Architect's services, duties, and obligations under this Agreement. Project Architect agrees to use Project Architect's best professional efforts, skill, judgment, and abilities in performing Project Architect's services. Project Architect shall perform its Services diligently and shall endeavor to further the interest of the Owner in accordance with Owner's requirements and procedures. Project Architect agrees to use its best efforts to perform it services (i) in accordance with the usual and customary professional standards of care, skill and diligence consistent with good Architectural practices for Architectural firms in Texas that provide professional design services for projects that are similar in size, scope, and budget to the Project, and (ii) in compliance with all applicable national, federal, state, municipal, and State of Texas laws, regulations, codes, ordinances, orders and with those of any other body having jurisdiction. There are no obligations, commitments, or impediments of any kind known to the Project Architect that will limit or prevent performance by Project Architect of its services. Project Architect hereby agrees to correct, at its own cost, any of its Services, and the services of its consultants, that do not meet the standard of care.

1.1.10 Project Architect shall take reasonable precautions to verify the accuracy and suitability of any drawings, plans, sketches, instructions, information, requirements, procedures, requests for action, and other data supplied to Project Architect (by Owner or any other party) that Project Architect uses for the Project. Project Architect shall identify to the Owner in writing any such documents or data which, in Project Architect's professional opinion, are unsuitable, improper, or inaccurate in connection with the purposes for which such documents or data are furnished. Owner does not warrant for the accuracy or suitability of such documents or data as are furnished unless Project Architect advises Owner in writing that in Project Architect's professional opinion such documents or data are unsuitable, improper, or inaccurate and Owner confirms in writing that it wishes Project Architect to proceed in accordance with the documents or data as originally given.

1.1.11 Project Architect's services shall be reasonably accurate and free from any material errors or omissions. Neither acceptance nor approval of Project Architect's services by the Owner shall relieve Project Architect of any of its professional duties or release it from any liability, it being understood that

Owner is, at all times, relying upon Project Architect for its skill and knowledge in performing Project Architect's services. Owner shall have the right to reject any of Project Architect's services because of any fault or defect in the Project due to any material errors or omissions in the plans, drawings, specifications, and other materials prepared by Project Architect or its consultants. Upon notice of any such errors or omissions, Project Architect shall promptly provide any and all services necessary to correct or remedy them at no additional cost to the Owner. Project Architect's obligation to correct its errors and omissions is in addition to, and not in substitution for, any other remedy for defective services which Owner may have at law or in equity, or both.

1.1.12 The Project Architect shall not proceed to any phase of design not expressly authorized by the Owner, except at the Project Architect's own financial risk.

1.1.13 Project Architect agrees to furnish efficient business administration and superintendence and to use Project Architect's best efforts to design the Project in an expeditious and economical manner consistent with the interest of Owner and Project Architect's professional skill and care.

1.1.14 Project Architect shall allocate adequate time, personnel and resources as necessary to perform its services. Project Architect's Principal(s) responsible for managing the Project is identified in Exhibit C and shall not be changed without the prior approval of the Owner. The day-to-day Project team will be led by the Senior Principal(s) unless otherwise directed by Owner or prevented by factors beyond the control of Project Architect. The Principal(s) shall act on behalf of Project Architect with respect to all phases of Project Architect's Services and shall be available as required for the benefit of the Project and Owner.

1.1.15 Project Architect shall make reasonable efforts to investigate any documents provided by the Owner and the visible existing conditions at the Project site to identify existing systems and construction which must be modified to accommodate the Project Architect's design for the Project and the construction of the Project. The Project Architect shall identify in writing to Owner any discrepancies between the documents and visible conditions, and shall consult with the Owner on any special measures, services or further investigations required for Project Architect to perform its services free from material errors and omissions and to properly coordinate with existing systems and construction. This investigation shall be accomplished by registered, professional architects, as appropriate.

1.1.16 When the project is subject to Texas Commission on Environmental Quality (TCEQ) regulations, Project Architect shall coordinate all related design efforts, including the civil engineer and landscape Architect, so that consideration of site design and Best Management Practices (BMP's) are integrated. The Project Architect shall be responsible for submitting and revising drawings or documents as needed to achieve approval from TCEQ for all applicable permits.

1.1.17 Insurance Coverage. The Project Architect shall carry professional liability/errors and omissions insurance, covering the services provided under this Agreement and other coverages as required below with companies authorized to do business in the State of Texas or an eligible surplus lines insurer operating in accordance with the Texas Insurance Code, having an A.M. Best Rating of A-:VII or better, and in amounts as further described, acceptable to and approved by the Owner. The costs of such insurance will be at the expense of the Project Architect. The insurance policy shall remain in force for a period of two (2) years beyond the final completion date. Each request for payment by the Architect shall include the expiration date of the insurance. Project Architect shall deliver to Owner replacement certificates not less than thirty (30) days after the expiration of any such insurance, and Project Architect may not make any changes to insurance without providing Owner at least thirty (30) days' written notice.

a) Professional Liability (Errors & Omissions) Insurance with limits of not less than $1,000,000 each occurrence, $2,000,000 aggregate. Such insurance shall cover all professional services rendered by or on behalf of the Project Architect and its consultants under the Agreement. Renewal policies written on Claims-Made basis will maintain the same retroactive date as is in effect at the inception of this Agreement. If coverage is written on a claims-made basis, Project Architect agrees to purchase an Extended Reporting Period Endorsement, effective for two (2) full years after the expiration or cancellation of this policy. No professional liability policy written on an occurrence form will include a sunset or similar clause that limits coverage unless such clause provides coverage for at least two years after the expiration or cancellation of this policy.

b) On-Site Insurance: For services performed on Owner's premises, the Project Architect shall furnish to Owner Certificates of Insurance as set forth below prior to the performance of any work hereunder and shall maintain such coverage during the full term of the Agreement.

Worker's Compensation	Statutory Limits
Employer's Liability	
Bodily Injury by Accident	$1,000,000 each accident
Bodily Injury by Disease	$1,000,000 each employee
Bodily Injury by Disease	$1,000,000 policy limit
Commercial General Liability	$1,000,000 each occurrence $2,000,000 aggregate
Business Auto Liability	
Single Limit	$1,000,000 each occurrence

c) Notice of Cancellation: Required insurance shall not be cancelable without thirty (30) days' prior written notice to Owner.

1.1.18 Evidence of insurance on a Texas Department of Insurance approved certificate form verifying the existence of all insurance before the execution and delivery of this Agreement and prior to the performance of any services by Project Architect under this Agreement. Additional evidence of insurance will be provided on a Texas Department of Insurance approved certificate form verifying the continued existence of all required insurance no later than 30 days after each annual insurance policy renewal. All insurance policies, with the exception of worker's compensation, employer's liability and professional liability will be endorsed and name Owner as Additional Insured for activities arising out of this contract on an ISO (CG 20 10 0704) or equivalent form. Worker's compensation insurance policies will be endorsed to provide a waiver of subrogation in favor of Owner. Commercial General Liability and Business Auto Liability insurance policies will be endorsed to provide primary and non-contributory coverage.

1.1.19 Project Architect is responsible for any self-insured retentions, or deductibles that apply to any policy limit required herein.

1.1.20 Certificates of Insurance. Approved Texas Department of Insurance certificates will be mailed or emailed to the following contact.

Contact: City of Georgetown Purchasing

Address: 300-1 Industrial Ave.
Georgetown, TX 78626

1.1.21 The insurance policies required in this Agreement will be kept in force for the periods specified below:

a) Required coverages will be kept in force until receipt of Final Payment to Project Architect;

b) Workers' Compensation Insurance and Employer's Liability insurance will be kept in force until the Work has been fully performed and accepted in writing.

1.1.22 The Owner has or intends to appoint a Construction Manager for this project (the "Construction Manager" or "Contractor"), and the Project Architect shall coordinate its Services (Basic and Additional) hereunder with the Construction Manager. The Owner may direct the Project Architect to recognize the Construction Manager as its representative for the performance of various duties hereunder which are otherwise defined as the responsibility of the Owner hereunder.

1.1.23 The Project Architect shall participate in the development and review of the Construction Managers GMP Proposal. This GMP Proposal will include the qualifications, assumptions, exclusions, value engineering and all other requirements identified in the Agreement between the Owner and the Construction Manager at Risk. Following Owner's Approval of the GMP Proposal, the Project Architect shall be responsible for revising the Construction Documents, incorporating the aforementioned requirements contained in the GMP Proposal. Furthermore, the Project Architect shall participate in the documentation of the Construction Manager's GMP Proposal so as to adequately understand the contents of the Proposal and ultimately confirm that the Construction Documents, when complete, reflect all qualifications, clarifications and assumptions contained within the GMP Proposal. The Project Architect and the Construction Manager shall jointly provide a monthly status report stating the progress of the incorporation of the GMP qualifications, clarifications, assumptions, exclusions and value engineering and all other requirements into the Construction Documents.

1.2 Programming Services Phase

Programming has been completed with a previous contract. Program validation services will be provided per the Architect's Proposal.

1.3 Schematic Design Phase

1.3.1 Based on the mutually agreed upon Programming Document, Project Budget, and the Project Schedule, the Project Architect shall prepare up to three alternative approaches to design and construction of the Project to satisfy Owner's requirements and shall, at completion of this phase, submit Schematic Design Documents. The Project Architect shall review up to three alternative approaches to design and construction for the Project and the Schematic Design Documents as they are being prepared at intervals appropriate to the progress of the Project with the Owner at the Project location. Project Architect shall provide all services necessary to perform the services of this Phase (preparation of Schematic Design Documents).

1.3.2 Project Architect shall work closely with Owner in preparation of schematic drawings and shall specifically conform to Owner's requirements regarding aesthetic design issues.

1.3.3 The Project Architect shall furnish and deliver to the Owner three (3) complete printed half-size sets of Schematic Design documents, as well as a digital copy.

1.3.4 The Project Architect shall review the construction cost estimate provided by the Construction Manager at the conclusion of Schematic Design. If the scope of the project exceeds the Project Budget, the Project Architect shall revise the scope to align with the Project Budget. The Project Architect shall participate in a final review of the Schematic Design Documents with the Owner and Construction Manager. Prior to the Owner's approval of the Schematic Design Documents, the Project Architect shall incorporate such changes as are necessary to satisfy the Owner's review comments, any of which may be appealed for good cause.

1.4 Design Development Phase

1.4.1 Based on the approved Schematic Design Documents and any adjustments to the Programming Document or Project Budget authorized by the Owner, the Project Architect shall prepare, for approval by the Owner Design Development Documents. The Project Architect shall review the Design Development Documents as they are being prepared at intervals appropriate to the progress of the Project with the Owner at the Project location.

1.4.2 The Project Architect shall furnish and deliver to the Owner three (3) complete printed half-size sets of Design Development documents, as well as a digital copy.

1.4.3 The Project Architect shall review the construction cost estimate provided by the Construction Manager at the conclusion of Design Development. If the scope of the project exceeds the Project Budget, the Project Architect shall work to revise the project scope to align with the Project Budget. Before proceeding into the Construction Document Phase, the Project Architect shall obtain Owner's written acceptance of the Design Development documents and approval of the mutually established Project Budget and schedule.

1.4.4 The Project Architect shall prepare presentation materials at completion of Design Development, and if so requested, shall present same to the Owner's governing body at a regular meeting.

1.4.5 The Project Architect shall prepare preliminary recommended furniture layouts for all spaces where it is deemed important to substantiate the fulfillment of program space requirements, or to coordinate with specific Architectural, mechanical and electrical elements.

1.5 Construction Document Phase

1.5.1 Based on the approved Design Development Documents and any further adjustments in the scope or quality of the Project or in the Project Budget authorized by the Owner, the Project Architect shall prepare, for approval by the Owner and review by the Construction Manager, Construction Documents consisting of Drawings and Specifications in accordance with Owner's written requirements setting forth in detail the requirements for construction of the Project. The plans, drawings and specifications for the entire Project shall be so prepared that same will call for the construction of the building and related facilities, together with its built-in permanent fixtures and equipment which will cost not more than the Project Budget accepted by Owner. The Project Architect shall be responsible for managing the design to stay within such the Project Budget. The Project Architect shall review the Construction Documents as they are being prepared at intervals appropriate to the progress of the Project with the Owner and Construction Manager. The Project Architect shall provide the Construction Manager with copies of the Project Architect's documents to assist the Construction Manager in fulfilling its responsibilities to the Owner.

1.5.2 The Project Architect shall advise the Owner and Construction Manager on matters such as construction phasing and scheduling, bid or proposal alternates, special cash allowances, liquidated damages, the construction contract time period, and other construction issues appropriate for the Project The Project Architect shall assist the Owner in the preparation of the necessary bidding information, bidding forms, RFP information, and RFP forms, and the Conditions of the Contract for each trade and/or subcontractor in accordance with statutory requirements.

1.5.3 The Project Architect shall assist the Owner in connection with the Owner's responsibility and procedures for obtaining approval of all authorities having jurisdiction over the Project.

1.5.4 The Project Architect shall ensure coordination and inclusion of sequence of operations for all operable systems in the facility.

1.5.5 The Project Architect shall furnish and deliver to the Owner three (3) complete printed half-size sets of 90% Construction Documents, as well as a digital copy for final review. All printed Final Construction Documents requested by the owner shall be considered reimbursable as outlined in Article 3. One (1) digital copy of the Final Construction Documents shall be provided to the Owner as part of Basic Services.

1.5.6 The Project Architect shall incorporate into the plans, drawings and specifications such changes as are necessary to satisfy the Owner's written review comments or published meeting minutes, any of which may be appealed in writing for good cause.

1.5.7 The Project Architect shall pay for the reproduction of all plans, specifications and other documents for use by the Project Architect and its consultants.

1.5.8 Construction document drawings shall be provided on Revit and PDF as part of the Basic Services. The Owner will define the Revit drawing requirements and the final media for the Revit data.

1.5.9 The Project Architect shall participate in a final review of the Construction Documents with the Owner and Construction Manager. Prior to the Owner's approval of the Construction Documents, the Project Architect shall incorporate such changes as are necessary to satisfy the Owner's review comments.

1.5.10 Before proceeding into the Bidding and Proposal Phase, the Project Architect shall obtain Owner's written acceptance of the Construction Documents and approval of the mutually established Final Project Budget.

1.6 Construction Manager Procurement and Proposal Phase

1.6.1 During the Construction Manager Procurement and Proposal Phase, and at other times as appropriate to the Project, the Project Architect shall assist the Owner and Construction Manager by reviewing Request for Proposal ("RFP") Documents, receiving and resolving questions about RFP Documents; preparing addenda, issuing addenda,; attending pre-bid and pre-proposal conferences. Project Architect shall answer inquiries from proposers at Owner's request and shall prepare and issue any necessary addenda to the proposal documents.

1.6.2 During the Construction Manager Procurement and Proposal Phase, or such other time as Owner may specify to Project Architect, at Owner's sole option and discretion, the Project Architect shall assist the Construction Manager in the preparation of the Guaranteed Maximum Price proposal. The Guaranteed Maximum Price proposal shall be prepared by the Construction Manager based upon the Design

Development Documents and Construction Documents prepared by the Project Architect and approved by the Owner. During the preparation and negotiation of the Guaranteed Maximum Price proposal, the Project Architect shall assist the Owner and advocate the Owner's interests in Owner's negotiations with the Construction Manager in an effort to develop a Guaranteed Maximum Price proposal acceptable to Owner, in Owner's sole option and discretion. If the Owner does not accept the Construction Manager's Guaranteed Maximum Price proposal, the Project Architect shall participate with the Owner and Construction Manager in constructability reviews and shall revise the documents as necessary in order to reach an agreement. If Construction Manager's Guaranteed Price proposal exceeds the cost quantity survey furnished to Owner by Project Architect, and Owner directs Project Architect to revise the documents, then Project Architect shall revise the documents at its own expense so that the Guaranteed Maximum Price proposal for constructing the Project shall not exceed the Owner's Construction Cost limitation and any previously approved construction cost estimate. If it is determined to be in the Owner's best interest, instead of requiring the Project Architect to revise the drawings and specifications, the Owner reserves the right to accept a Guaranteed Maximum Price proposal that exceeds the stipulated Construction Cost Limitation. The Project Architect shall analyze the final Guaranteed Maximum Price proposal document, together with its supporting assumptions, clarifications, and contingencies, and shall submit a detailed written analysis of the document to the Owner. Such analysis shall include, without limitation, reference to and explanation of any inaccurate or improper assumptions and clarifications.

1.6.3 After the Guaranteed Maximum Price proposal has been accepted, the Project Architect shall incorporate into the Design Development Documents and/or Construction Documents any revisions which are necessary due to inaccurate assumptions, clarifications, or changes made in the development of the Guaranteed Maximum Price.

1.7 Construction Phase—Administration of the Construction Contract

1.7.1 The Construction Phase shall commence with the acceptance of the Construction Manager's Guaranteed Maximum Price and issuance of (i) a Notice to Commence On-Site Work or (ii) a Notice to Proceed with Construction Services and terminate sixty (60) days after Final Payment to the Contractor is made, or when all of Project Architect's services, including during the Warranty period have been satisfactorily performed, whichever occurs later.

1.7.2 Project Architect shall provide administration of the Contract for Construction as set forth below.

a) The Project Architect shall coordinate with the Contractor who will establish and maintain a numbering and tracking system for all Project records, including changes, requests for information, submittals, and supplementary instructions and shall provide updated records at each Owner's monthly meeting and when requested. The Project Architect shall manage and execute all Change Orders.

b) The Construction Manager shall chair all meetings scheduled by the Owner or Project Architect and shall promptly provide summary notes to all parties. The Project Architect shall attend Contractor's regularly scheduled planning meetings when requested.

c) The Project Construction Manager shall assist the Owner in making arrangements for a Pre-Construction Conference and shall assist in preparation of an administration agenda for the Pre-Construction Conference and shall distribute copies of the agenda to all parties.

1.7.3 The Project Architect shall review the Contractor's list of proposed subcontractors for the work, initial administrative submittals for Project Schedule, Schedule of Values, Submittal Schedule, and Equipment Matrix to establish appropriate bases for construction monitoring, payment processing, and system commissioning. The Project Architect shall identify necessary revisions to the documents in writing

to the Contractor and recommend acceptance of the documents by the Owner when appropriate. The Project Architect shall review periodic updates of all schedules with Owner and Contractor to evaluate appropriateness.

1.7.4 The Construction Manager shall prepare appropriate materials for and conduct a Pre-Construction Conference at the site prior to commencement of construction by the Contractor.

1.7.5 Site Visits. The Project Architect shall visit the site at least once each month during the entire construction period to observe the progress and quality of the Work and to determine in general if the Work is proceeding in accordance with the Contract Documents. Each of Project Architect's consultants shall visit the site at during construction activities related to the consultant's discipline to observe the progress and quality of the Work and to determine in general if the Work is proceeding in accordance with the Contract Documents. Project Architect and its consultants shall submit written reports of their site visits and meetings. The Project Architect shall not be required to make exhaustive or continuous onsite visits to inspect the quality or quantity of the Work.

a) On the basis of the onsite observations, the Project Architect shall keep the Owner informed of the progress and quality of the Work and shall endeavor to guard the Owner against defects and deficiencies in the Work of the Contractor. Project Architect shall notify Owner and the Contractor in writing of any portions of the work which Project Architect has observed as not being in conformity with the Construction Documents and make written recommendations as to correction of the deficiencies or defects. Project Architect shall make its site representative available and shall consult with Owner and the Contractor on the occasion of all circumstances arising during the course of construction which would make such consultation in Owner's interests.

b) In addition to site visits for observation, the Project Architect and its consultants shall visit the site for specific purposes related to certification of progress payments, start-up or mock-up reviews for significant work activities of the Work. The Project Architect and its consultants shall provide written reports of all site visits to the Owner and Contractor.

1.7.6 The Construction Manager shall prepare an agenda for, and conduct monthly project meetings for attendance by, representatives of the Contractor, major subcontractors, the Project Architect and the Owner, and prepare and distribute minutes of the meetings.

1.7.7 The Project Architect shall not have control or charge of and shall not be responsible for construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the Work, for the acts or omissions of the Contractor, Subcontractors or any other persons performing any of the Work, or for the failure of any of them to carry out the Work in accordance with the Contract Documents.

1.7.8 The Project Architect shall at all times have access to the Work wherever it is in preparation or progress.

1.7.9 The Project Architect shall determine the amounts owing to the Contractor based on observations of Work placed at the site and on evaluations of the Contractor's Application for Payment, and shall coordinate its review and evaluation with the Owner's representatives, and shall certify Contractor's Application for Payment in an appropriate amount.

1.7.10 The certification of a Contractor's Application for Payment shall constitute a representation by the Project Architect to the Owner, based on the Project Architect's observations at the site and on the data comprising the Contractor's Application for Payment, that the Work has progressed to the point

indicated; that, to the best of the Project Architect's knowledge, information and belief, the quality of the work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in the Contractor's Application for Payment); and that the Contractor is entitled to payment in the amount certified. However, the approval of a Contractor's Application for Payment shall not be a representation that the Project Architect has made any examination to ascertain how and for what purpose the Contractor has used the monies paid on account of the Contract Sum.

1.7.11 The Project Architect shall be the interpreter of the technical requirements of the Contract Documents and the judge of the performance of the work of the Contractor. The Project Architect shall render interpretations necessary for the proper execution or progress of the Work with reasonable promptness on written request of either the Owner or the Contractor, and shall render written recommendations within a reasonable time, on all claims, disputes and other matters in question between the Owner and the Contractor relating to the execution or progress of the Work or the interpretation of the Contract Documents.

1.7.12 Interpretations and recommendations of the Project Architect shall be consistent with the intent of and reasonably inferable from the Contract Documents and shall be in written or graphic form.

1.7.13 Subject to approval of the Owner, the Project Architect's decisions in matters relating to artistic effect shall be final if consistent with and reasonably inferable from the intent of the Contract Documents

1.7.14 The Project Architect shall have the responsibility and the authority, with appropriate notification to the parties, to reject Work which does not conform to the Contract Documents. Whenever, in the Project Architect's reasonable opinion, it is necessary or advisable for the implementation of the intent of the Contract Documents, the Project Architect will have authority to require special inspection or testing of the Work in accordance with the provisions of the Contract Documents, whether or not such Work will then be fabricated, installed or completed. The Project Architect shall review construction materials testing and any special testing required and shall provide recommendations for retesting, actions, or any appropriate corrective measures as may be necessary or appropriate based on the results of such tests.

1.7.15 The Project Architect and its consultants shall review and approve or take other appropriate action upon the Contractor's submittals such as Shop Drawings, Product Data and Samples, but only for conformance with the design concept of the Work set forth in the Contract Documents, and shall respond to Contractor's inquiries and questions and provide supplemental information as appropriate. Action on submittals shall be taken with reasonable promptness so as to cause no delay to the Contractor's scheduled progress, but in any event no more than fourteen (14) business days after receipt. The Project Architect's approval of a specific item shall not indicate approval of an assembly of which the item is a component. The Project Architect's review shall not constitute approval of any construction means or methods.

1.7.16 Project Architect shall clarify and interpret the intent and scope of the Construction Documents and, if necessary or appropriate, issue supplemental documents to amplify or explain portions of the Construction Documents.

1.7.17 Project Architect shall provide assistance in the review of the Contractor's requests for change orders or claims for additional time or costs, and make recommendations to Owner as to such requests or claims.

1.7.18 The Project Architect shall prepare Change Orders for the Owner's approval and execution in accordance with the Contract Documents, and shall have authority to order minor changes in the Work not involving an adjustment in the Contract Sum or an extension of the Contract Time which are not inconsistent with the intent of the Contract Documents. In conjunction with each Change, the Project Architect shall recommend to the Owner whether the proposal is acceptable.

1.7.19 Project Architect shall prepare revised Contract Drawings, where appropriate, to illustrate and document the work required by approved Change Orders. All proposed changes to drawings plans and specifications, regardless of how initiated, shall be totally defined in the document depicting them as to scope of work added, removed, or changed. The original copies of the Construction Documents may be revised to show such changes,. Such revisions shall be clearly indicated and a current revision date shall be included on the reproducible copy. Changes to the specifications shall be made by consecutively numbered and dated addenda or change orders. All changes to design documents or specifications will be identified with date of change, revision number and other customary identification references. Areas changed on drawings will be "clouded" to show each change. Clouds designating previous changes will be removed so that only the most recent changes will be clouded.

1.7.20 Project Architect and its consultants shall conduct and participate in concealed space observations, systems start-up observations, systems integration/operational demonstrations, Substantial Completion or pre-Final work observations to determine the Dates of Substantial Completion, and Final work observation. In association with each observation, Project Architect and its consultants shall prepare a list of items which Project Architect and its consultants have observed as deficiencies in the Work, requiring remedial work or replacement, assemble and distribute the official punch(s) to all affected parties, and thereafter review the corrected and/or replaced work and assist in verification of correction of all items.

1.7.21 Project Architect shall review, for conformance with the Contract Documents, Contractor's submission of guarantees and warranties.

1.7.22 The Project Architect and its consultants shall assist the Owner in checking as-built drawings during the course of the Work in association with certifying progress payments and shall review as-built documents for completeness and compliance with Contract requirements at Substantial Completion and at Final Completion of the Project.

1.7.23 Project Architect shall receive and review Contractor's submission of record drawings, operating and maintenance instructions, and all manuals, brochures, drawings, and other close-out documentation furnished by the Contractor, shall require necessary revisions to same, and when acceptable under the terms of the Contract between Owner and Contractor, shall forward to Owner. The Project Architect shall certify final payment to the Contractor when the requirements of the Contract between Owner and Contractor have been met.

1.7.24 Project Architect shall monitor the Contractor's schedule for the construction phase work and assist the Owner in reviewing all relevant activities and advise the Owner of the Contractor's scheduled progress.

1.7.25 Construction Manager shall provide a milestone schedule that is acceptable to the Owner and shall be submitted on a monthly basis prior to submission of construction payment application, in conformance with the project milestone schedule, so that the desired development and construction schedule for the Project shall be maintained.

1.7.26 The Project Architect shall be available after final payment to advise the Owner regarding Warranty items and to Warranty work during the Warranty period. Project Architect shall participate in the Project's one-year warranty review.

1.8 Additional Services

1.8.1 Additional Services are those services which shall be provided if authorized or confirmed in writing by the Owner and for which compensation will be provided as described in this Agreement in addition to Basic Compensation. Prior to commencing any Additional Service, Project Architect shall prepare for acceptance by the Owner an Additional Services Proposal, which shall describe in detail the nature or scope of the Additional Services, the basis upon which Project Architect has determined that such services are Additional Services, and which shall set forth the maximum amount of fees and reimbursable expenses for which Project Architect is prepared to perform such Additional Services, together with a proposed schedule for the performances of such Additional Service. Project Architect shall proceed only after written acceptance by Owner of the Additional Services Proposal.

1.8.2 Upon acceptance by Owner, each Additional Services Proposal and the services performed by Project Architect pursuant to such Additional Services Proposal shall become part of this Agreement and shall be subject to all terms and conditions of this Agreement, as fully and completely as though the same had been included in this Agreement as a Basic Service at the original execution of this Agreement.

1.8.3 Providing services to make detailed investigations of existing conditions or facilities or to make measured drawings of them is an Additional Service except as reasonably necessary to verify the accuracy and completeness of drawings or other information furnished by the Owner and to the extent necessary for the Project Architect to complete its responsibilities hereunder free of material errors and omissions. Project Architect shall not be required to perform any destructive testing or to hire the services of a surveyor unless agreed to as an Additional Service.

1.9 Time

1.9.1 Project Architect shall perform all of Project Architect's services described herein as expeditiously as is consistent with (1) Project Architect's best professional efforts, skill and care, (2) the orderly progress of such services, and (3) in conformance with the project milestone schedules so that the desired development and construction schedule for the Project shall be maintained. Project Architect shall at all times provide sufficient personnel to accomplish Project Architect's services within the time limits set forth in the schedules described herein.

1.9.2 The project schedule shall contain milestone dates which have been established in the Request for Qualifications previously issued or may be modified by the Owner to reflect current conditions. Supplemental activities shown on the schedule, and any associated dates not yet defined, shall be determined at the completion of the Schematic Phase or at such time when both parties mutually agree that the project is sufficiently developed and documented. Changes in this schedule may be made only with the written approval of Owner. Project Architect shall perform all of its services in accordance with the then-current schedule approved by Owner.

Article 2 Owner's Responsibilities

2.1 The Owner shall provide the Project Architect with a full description of the requirements of the Project.

2.2 The Owner shall furnish surveys, geotechnical reports or other special investigations of the Project site as requested by the Project Architect and as reasonably necessary for the completion of Project Architect's Services. The Owner shall furnish structural, mechanical, chemical and other laboratory tests as reasonably required.

2.3 The Owner will review the Project Architect's drawings, specifications and other documents of service produced by Project Architect in the performance of its obligations under this Agreement (collectively the "Design Documents") as required. Owner will notify Project Architect of any design fault or defect in Project Architect's Services or Design Documents of which Owner becomes aware, but Owner shall have no obligation to identify any design faults or defects.

2.4 The Owner shall furnish required information and services and shall render approvals and decisions as expeditiously as necessary for the orderly progress of Project Architect's Services.

2.5 The Owner designates City of Georgetown CIP Manager as its representative authorized to act in the Owner's behalf with respect to the Project.

Article 3 Reimbursable Expenses

3.1 Reimbursable Expenses are in addition to Compensation for Project Architect's Services and include actual and reasonable expenses incurred by the Project Architect, its employees, and sub-consultants solely and directly in connection with the performance of Project Architect's Services for the following:

3.1.1. Expense of transportation (including coach class air travel) and living expenses in connection with out-of-state travel as directed and approved in advance in writing by the Owner. Transportation and living expenses incurred within the State of Texas are not reimbursable unless expressly approved in writing by the Owner in advance.

3.1.2. Fees paid for securing approval of authorities having jurisdiction over the Project.

3.1.3. Professional models and renderings if requested in writing by the Owner, beyond those identified in the original proposal and contract.

3.2 Expenses not allowed for reimbursement include the cost of review documents required to be provided to the Owner under Article 1, telephone charges, FAX service, alcoholic beverages, laundry, valet service, entertainment or any non-project related items.

3.3 Owner shall pay a mark-up not to exceed ten percent (10%) on those reimbursables identified in 3.1.1 through 3.1.5 above. A mark-up shall not be paid on lodging, meals or travel expenses. Project Architect shall submit receipts for all reimbursable expenses along with any reimbursement request.

Article 4 Basis of Compensation

The Owner shall compensate the Project Architect for the services provided in accordance with Article 4. Payments to the Project Architect, and other terms and conditions of this Agreement, shall be as follows:

4.1. Basic Services Fee

4.1.1 In consideration for the services provided under the contract, the Project Architect shall be paid a fixed fee not to exceed amount of **$___1,031,350.00_** in accordance with this Contract. Payment

for services provided shall be made monthly and in accordance with the Milestone Phase Schedule inserted below, following acceptance (or Final Acceptance) of the Services by the City. Reimbursable expenses not to exceed $5,000 shall be in addition to the fixed fee amount and as approved by City.

Milestone Phase	**Amount ($)**
Schematic Design Phase	$159,190
Design Development	$159,190
Construction Documents	$198,988
Bidding/Negotiation Services	$39,797
Construction Administration	$238,785
Civil Engineering & Landscape Architecture	$196,900
Security, Technology and Low Voltage Design	$38,500

4.2. Fees for Change Order Services

If revised construction documents are required due to material changes ordered by the Owner and not due to errors and omissions on the part of the Project Architect, the fee for the additional Basic Services required will be calculated using the same percentage fee used to establish the Basic Services Fee times the lowest bona fide bid or negotiated proposal for the changes to the Work or, if no bid or proposal is received, an up-to-date detailed Construction Cost Estimate for the changes to the Work, but only to the extent that services for the changes to the Work are required.

4.3. Reimbursable Expenses

For reimbursable expenses, as described in Article 3, the Project Architect's reimbursement shall be calculated as an amount not to exceed 1.10 times the amounts actually expended by the Project Architect, the Project Architect's employees and consultants in the interest of the Project.

4.5 Additional Services

4.5.1 Fees for Additional Services are in addition to the Basic Services Fee described above.

4.5.2 The fees for Additional Services will be negotiated by the Owner and the Project Architect as the scope of the Additional Services is defined and shall be calculated in one of the following ways:

a) A pre-established lump sum amount; or

b) An agreed percentage of the Final Construction Cost of the Work resulting from the service being provided.

4.5.3 In the absence of an agreement between the Owner and the Project Architect, the fees for Additional Services shall be calculated on an hourly basis.

Article 5 Payments to the Project Architect

5.1 Project Architect shall present monthly Applications for Payment to the Owner detailing the Project Architect's Services and approved Additional Services performed and the approved Reimbursable Expenses incurred for the Project in the previous month. With each application for payment,

Project Architect shall submit payroll information, receipts, invoices and any other evidence of payment which Owner shall deem necessary to support the amount requested.

5.2 Owner shall promptly review the Application for Payment and notify Project Architect whether the Application is approved or disapproved, in whole or in part. Owner shall promptly pay Architect for all approved services and expenses. For purposes of Texas Government Code 2251, the date performance of services is completed is the date when the Owner approves the Application for Payment. Architect shall pay all sub-consultants and other expenses incurred under this Agreement in accordance with Texas Government Code Chapter 2251.

5.3 Owner shall have the right to withhold from payments due Project Architect such sums as are necessary to protect Owner against any loss or damage which may result from negligence by Project Architect or failure of Architect to perform its obligations under this Agreement.

Article 6 Project Architect Accounting Records

6.1 Records of Project Architect costs and reimbursable expenses pertaining to the Project and payments shall be available to Owner or its authorized representative during business hours and shall be retained for three years after final Payment or abandonment of the Project, unless Owner otherwise instructs Project Architect in writing.

Article 7 Ownership and Use of Documents

7.1 The Owner shall have the title to and ownership of all documents produced or developed by Project Architect and any sub-consultant in connection with this Agreement whether the Project is completed or not. Documents include publications, plans drawings, designs, specifications, photographs, studies, reports schedules, computer programs, and other data and work product, in any form or media. Owner shall have sole ownership of all copyright interest in all documents to the extent that documents may be copyrighted. Project Architect shall deliver all documents to the Owner at completion of the Project, termination of Services, or upon Owner's request. Project Architect may retain copies of its work product.

7.2 The Project Architect shall furnish to the Owner one set of digital files representing the final record drawings, in PDF format.

Article 8 Termination of Agreement

8.1 Termination for Cause. This Agreement may be terminated by either party upon ten (10) days' written notice should the other party fail substantially to perform in accordance with its terms through no fault of the terminating party and if such failure is not fully cured prior to the expiration of the notice period. If a termination for cause under this section is later determined to be improper, the termination shall automatically convert to a termination for convenience and Project Architect's recovery for termination shall be strictly limited as provided below.

8.2 Termination for Convenience. This agreement may be terminated for convenience by the Owner in whole or in part upon at least ten (10) days' written notice to the Project Architect.

8.3 Compensation. In the event of termination not the fault of the Project Architect, the Project Architect shall be entitled to compensation for all services satisfactorily performed to the termination date, together with approved Reimbursable Expenses then due, provided Project Architect

delivers to Owner statements, accounts, reports and other materials as required for payment along with all reports, documents and other materials prepared by Project Architect prior to termination.

Article 9 Successors and Assigns

The Owner and the Project Architect, respectively, bind themselves, their partners, successors, assigns and legal representatives to the other party to this Agreement and to the partners, permitted successors, assigns and legal representatives of such other party with respect to all covenants of this Agreement. This Agreement is a personal service contract for the services of Project Architect, and Project Architect's interest in this Agreement, duties hereunder, and/or fees due hereunder may not be assigned or delegated to a third party. The benefits and burdens of this Agreement are, however, assignable by Owner.

Article 10 Extent of Agreement

This Agreement supersedes all prior agreements, written or oral, between Project Architect and Owner and shall constitute the entire Agreement and understanding between the parties with respect to the subject matter hereof. Terms or conditions that were incorporated into Project Architect's proposal shall not be incorporated into this Agreement, and the parties expressly waive any such terms and conditions. This Agreement and each of its provisions shall be binding upon the parties and may not be waived, modified, amended or altered except by a writing signed by Owner and Project Architect.

Article 11 Indemnity

11.1 TO THE FULLEST EXTENT PERMITTED BY LAW, PROJECT ARCHITECT AGREES TO INDEMNIFY AND HOLD HARMLESS THE OWNER, ITS ELECTED OFFICIALS, OFFICERS, DIRECTORS, AGENTS, EMPLOYEES, REPRESENTATIVES AND VOLUNTEERS OF AND FROM DAMAGES, INJURIES (INCLUDING DEATH), CLAIMS, PROPERTY DAMAGES (INCLUDING LOSS OF USE), LOSSES, DEMANDS, FORFEITURES, PENALTIES, FINES, COSTS, LAWSUITS, LIABILITIES, ACTIONS, AND CAUSES OF ACTION, OF EVERY KIND WHATSOEVER, AND EXPENSES, INCLUDING BUT NOT LIMITED TO FEES AND CHARGES OF ARCHITECTS, ATTORNEYS, AND OTHER PROFESSIONALS, AND COURT, ARBITRATION, OR OTHER DISPUTE RESOLUTION COSTS, AND EXPENSES AND COSTS OF INVESTIGATION, ARISING OUT OF OR RELATING TO THIS AGREEMENT, TO THE EXTENT CAUSED BY 1) THE NEGLIGENT ACT OR OMISSION OR WILLFUL ACTS OF ARCHITECT OR ARCHITECT'S OFFICERS, DIRECTORS, PARTNERS, AGENTS, EMPLOYEES, OR CONSULTANTS OR 2) MATERIAL BREACH OF THIS AGREEMENT.

11.2 **Intellectual Property**

11.2.1 PROJECT ARCHITECT AGREES TO INDEMNIFY AND HOLD HARMLESS THE OWNER, ITS ELECTED OFFICIALS, OFFICERS, DIRECTORS, AGENTS, EMPLOYEES, REPRESENTATIVES AND VOLUNTEERS OF AND FROM DAMAGES, CLAIMS, LOSSES, DEMANDS, FORFEITURES, PENALTIES, FINES, COSTS, LAWSUITS, LIABILITIES, ACTIONS, CAUSES OF ACTION OF EVERY KIND WHATSOEVER, AND EXPENSES, INCLUDING BUT NOT LIMITED TO FEES AND CHARGES OF ARCHITECTS, ATTORNEYS, AND OTHER PROFESSIONALS, AND COURT, ARBITRATION, OR OTHER DISPUTE RESOLUTION COSTS, AND EXPENSES AND COSTS OF INVESTIGATION, TO THE EXTENT CAUSED BY ALLEGED INFRINGEMENT OF PATENT OR COPYRIGHT OF THE UNITED STATES OR OF ANY TRADEMARK OR TRADE SECRET PROTECTED BY EITHER FEDERAL OR STATE LAW BY ARCHITECT OR ARCHITECT'S OFFICERS, DIRECTORS,

PARTNERS, AGENTS, EMPLOYEES, OR CONSULTANTS. ARCHITECT SHALL, AT ITS OWN EXPENSE, DEFEND SUITS OR PROCEEDINGS INSTITUTED AGAINST OWNER, AND PAY AWARDS OF DAMAGES ASSESSED WHICH RESULT FROM ANY SUCH CLAIM, SUIT OR PROCEEDING, INCLUDING ASSOCIATED EXPENSES, ATTORNEY FEES, COSTS OF INVESTIGATION, ARBITRATION AND/OR LITIGATION, AND SHALL ABIDE BY RESULTING DECREES AND COMPROMISES.

11.2.2 IF A RESTRAINING ORDER OR TEMPORARY INJUNCTION IS GRANTED, ARCHITECT SHALL MAKE EVERY REASONABLE EFFORT, BY GIVING A SATISFACTORY BOND OR OTHERWISE, TO SECURE THE SUSPENSION OF ANY SUCH RESTRAINING ORDER OR TEMPORARY INJUNCTION. IF THE SERVICES ARE HELD TO CONSTITUTE AN INFRINGEMENT, AND PERMANENTLY ENJOINED, ARCHITECT SHALL MAKE EVERY REASONABLE EFFORT TO SECURE FOR OWNER A LICENSE AT ARCHITECT'S EXPENSE AUTHORIZING THE CONTINUED USE OF THE ALLEGED INFRINGING PORTION OF THE SERVICES. IF ARCHITECT IS UNABLE TO SECURE SUCH LICENSE WITHIN A REASONABLE TIME, ARCHITECT SHALL, AT ITS OWN EXPENSE AND WITHOUT IMPAIRING PERFORMANCE REQUIREMENTS, EITHER PROVIDE NON-INFRINGING REPLACEMENT OR MODIFY THE SERVICES TO ELIMINATE THE INFRINGEMENT. IN ADDITION TO INDEMNIFYING AND SAVING OWNER HARMLESS, ARCHITECT SHALL REIMBURSE OWNER FOR ANY COSTS INCURRED AS A RESULT OF THE UNAVAILABILITY OF THE INFRINGING ITEM OR ITS NONINFRINGING REPLACEMENT.

11.3 Project Architect's indemnity obligations are independent covenants and shall survive completion of or termination of the Agreement or any claimed breach of the Agreement.

11.4 Owner shall promptly notify Project Architect, in writing, of receipt of notice of the commencement or threatened commencement of any civil, administrative or investigative action or proceeding involving a claim for which Owner seeks indemnification. No failure to so notify Project Architect shall relieve Project Architect of its obligations under this Agreement except to the extent that Project Architect can demonstrate damages attributable to such failure. Within fifteen (15) days following receipt of written notice from the Owner, but no later than ten (10) days before the date on which any response to a complaint or summons is due, Project Architect shall assume control of the defense and/or resolution of the claim.

11.5 Project Architect assumes full responsibility for the Services to be performed and releases, relinquishes, and discharges the Owner, its elected officials, officers, directors, agents, employees, representatives and volunteers from all claims, demands, and causes of action of every kind and character, including the cost of defense, for any injury to or death of any person (whether employees of either Party or other third parties) and any loss of or damage to any property that is caused by or alleged to be caused by, arising out of, or in connection with Services performed under this Agreement or a Task Order. This release shall apply regardless of whether the claims, demands and/or causes of action are covered in whole or in part by insurance, and in the event of injury, death, property damage, or loss suffered by the Architect, any Consultant, or any person or organization directly or indirectly employed by any of them to perform or furnish Services under this Agreement.

Article 12 Miscellaneous Provisions

12.1 **Captions.** The captions of paragraphs in this Agreement are for convenience only and shall not be considered or referred to in resolving questions of interpretation or construction.

12.2 **Governing Law.** This Agreement and all of the rights and obligations of the parties hereto and all of the terms and conditions hereof shall be construed, interpreted and applied in accordance with and governed by and enforced under the laws of the State of Texas, without giving effect to principles of conflicts of laws. The Owner and the Project Architect each submit to exclusive jurisdiction of the courts of Williamson County, Texas. Owner does not waive the defense of sovereign immunity.

12.3 **Waivers.** No delay or omission by either of the parties hereto in exercising any right or power accruing upon the non-compliance or failure of performance by the other party hereto of any of the provisions of this Agreement shall impair any such right or power or be construed to be a waiver thereof. A waiver by either of the parties hereto of any of the covenants, conditions or agreements hereof to be performed by the other party hereto shall not be construed to be a waiver of any subsequent breach thereof or of any other covenant, condition or agreement herein contained.

12.4 **Severability.** In case any provision hereof shall, for any reason, be held invalid or unenforceable in any respect, such invalidity or unenforceability shall not affect any other provision hereof, and this Agreement shall be construed as if such invalid or unenforceable provision had not been included herein.

12.5 **Independent Contractor.** Project Architect acknowledges that it is engaged as an independent contractor and that Owner has no responsibility to provide Project Architect or its employees with transportation, insurance or other fringe benefits normally associated with employee status. Project Architect is not, and will not claim to be, an officer, partner, employee or agent of Owner and shall not make any claim, demand or application to or for any right or privilege applicable to an officer, partner, employee or agent of Owner, including, but not limited to, unemployment insurance benefits, social security coverage or retirement benefits. Project Architect hereby agrees to make Project Architect's own arrangements for any of such benefits as Project Architect may desire and agrees that Project Architect is responsible for all income taxes required by applicable law.

12.6 **Proprietary Interests.** All information owned, possessed or used by Owner which is communicated to, learned, developed or otherwise acquired by Project Architect in the performance of services for Owner, which is not generally known to the public, shall be confidential. Project Architect shall not, beginning on the date of first association or communication between Owner and Project Architect and continuing through the term of this Agreement and any time thereafter, disclose, communicate or divulge, or permit disclosure, communication or divulgence, to another or use for Project Architect's own benefit or the benefit of another, any such confidential information, unless required by law. Except when defined as part of the Work, Project Architect shall not make any press releases, public statements, or advertisement referring to the Project or the engagement of Project Architect as an independent Contractor of Owner in connection with the Project, or release any information relative to the Project for publications, advertisement or any other purpose without the prior written approval of Owner. Project Architect shall obtain assurances similar to those contained in this Subparagraph from persons, vendors and consultants retained by Project Architect. Project Architect acknowledges and agrees that a breach by Project Architect of the provisions hereof will cause Owner irreparable injury and damage. Project Architect, therefore, expressly agrees that Owner shall be entitled to injunctive and/or other equitable relief in any court of competent jurisdiction to prevent or otherwise restrain a breach of this Agreement.

12.7 **Appointment.** Owner hereby expressly reserves the right from time to time to designate by notice to Project Architect a representative to act partially or wholly for Owner in connection with the performance of Owner's obligations hereunder. Project Architect shall act only upon instructions from such representative unless otherwise specifically notified to the contrary.

12.8 **Dispute Resolution.**

12.8.1 If a dispute arises under this Agreement, Owner and Project Architect agree to negotiate the dispute between them in good faith for a period of 30 days from the date of written notice of the dispute.

12.8.2 If the Owner and Project Architect fail to resolve a dispute through negotiation, then Owner and Project Architect agree that they shall submit any and all unsettled claims, counterclaims, and other matters in question between them arising out of or relating to this Agreement to mediation.

12.8.3 If mediation is unsuccessful in resolving a dispute, then any and all unsettled claims, counterclaims, and other matters in question between Owner and Project Architect arising out of or relating to this Agreement (a) may be submitted to binding arbitration by written agreement, or (b) may be filed by either Owner or Architect in a court of competent jurisdiction in Williamson County, Texas.

12.8.4 Upon Owner's request, Project Architect shall proceed with performance of Services pending final resolution of a dispute arising under this Agreement.

12.9 **Notices.** All notices, consents, approvals, demands, requests or other communications provided for or permitted to be given under any of the provisions of this Agreement shall be in writing and shall be deemed to have been duly given or served when delivered by hand delivery or when deposited in the U.S. mail by registered or certified mail, return receipt requested, postage prepaid, and addressed as follows:

If to Owner:
City of Georgetown
300-1 Industrial Ave.
Georgetown, Texas 78626
Attention: Purchasing

With Copies to: N/A

If to Project Architect:

GFF, Inc.
3030 Nowitzki Way, Suite 400
Dallas, TX 75219

or to such other person or address as may be given in writing by either party to the other in accordance with the aforesaid.

12.10 **Authority to Act.** Project Architect warrants, represents, and agrees that (1) it is a duly organized and validly existing legal entity in good standing under the laws of the state of its incorporation or organization; (2) it is duly authorized and in good standing to conduct business in the State of Texas; (3) it has all necessary power and has received all necessary approvals to execute and deliver this Agreement; and (4) the individual executing this Agreement on behalf of Project Architect has been duly authorized to act for and bind Project Architect.

12.11 **Counterparts.** This Agreement may be executed in multiple counterparts, each of which shall be deemed, construed and considered to be an original, but all of which shall constitute one and the same instrument.

12.12 **179 D Benefit Allocation.** Owner may decide to seek the allocation of certain tax benefits pursuant to Section 179D of the Internal Revenue Code of 1986, as amended, (the "Code") through this Agreement with Project Architect.

12.12.1 If the Owner and the Internal Revenue Service (IRS) determine that the Project Architect is eligible to receive the 179D deduction allocation as a "Designer" for the purposes of Section 179D of the Code or that Project Architect could otherwise profit financially from the monetization of the benefit (separately and collectively, the "Rebate"), Project Architect hereby agrees to allocate to the Owner a portion of the Rebate in an amount to be determined and contracted for on mutually agreeable terms when the value of the Rebate becomes ascertainable, net of associated costs realized by the Owner and Project Architect. At its sole discretion, the Owner shall determine whether to receive its portion of the Rebate in cash, discounted Project Architect fees or both.

12.12.2 Owner reserves the right to retain a third-party consultant (the "Consultant") to manage and administer the process of obtaining and monetizing the Rebate derived from the Project(s).

12.12.3 Project Architect agrees to cooperate in all reasonable respects with the Consultant's efforts to obtain and monetize any such Rebates derived from the Project(s) on behalf of the Owner. Certification of eligibility and negotiation of the Rebates should be facilitated by the Owner's 179D Consultant.

12.13 **Contractor Certification Regarding Boycotting Israel.** Pursuant to Chapter 2271, Texas Government Code, Project Architect certifies that either (1) it is a sole proprietorship or company with fewer than ten (10) employees, or (2) it does not currently boycott Israel and will not boycott Israel during the term of this Agreement. Project Architect acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

12.14 **Contractor Certification Regarding Business with Certain Countries and Organizations.** Pursuant to Subchapter F, Chapter 2252, Texas Government Code, Project Architect certifies it is not engaged in business with Iran, Sudan, or a foreign terrorist organization. Project Architect acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

12.15 **Contractor Certification Regarding Boycotting Energy Companies.** Pursuant to Chapter 2274, Texas Government Code, Project Architect certifies that either (1) it is a sole proprietorship or company with fewer than ten (10) employees or (2) it does not currently boycott energy companies and will not boycott energy companies during the Term of this Agreement. Project Architect acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

12.16 **Contractor Certification Regarding Boycotting Firearm and Ammunition Industries.** Pursuant to Chapter 2274, Texas Government Code, Project Architect certifies that either (1) it is a sole proprietorship or company with fewer than ten (10) employees or (2) it does not currently boycott firearm and ammunition industries, and will not boycott firearm and ammunition industries during the Term of this Agreement. Project Architect acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

12.17 **Disclosure of Interested Parties.** By signature hereon, Project Architect certifies that, if the value of this agreement exceeds $50,000, it has complied with Section 2252.908 of the Texas Government Code and Part 1 Texas Administrative Code, Sections 46.1 through 46.3 as implemented by the Texas Ethics Commission (TEC), if applicable, and has provided the Owner with a fully executed TEC Form 1295, certified by the TEC and signed and notarized by the Project Architect.

[SIGNATURES PROVIDED ON FOLLOWING PAGE]

IN WITNESS WHEREOF, the parties have executed this Agreement effective as of the day and year first written above.

RE: 12,000 SF FIRE STATION #8 IN GEORGETOWN, TEXAS, GFF PROJECT #26061.00

Dear Jennifer:

Thank you for the opportunity to submit a proposal on the above referenced project. We understand the City of Georgetown ("City" or "Owner") would like GFF Design ("GFF" or "Architect") to provide Architectural Design Services for Georgetown Fire Station #8 This letter outlines our basic project understanding, the scope of services we propose and the related fees.

PROJECT UNDERSTANDING:

- The City of Georgetown intends to design and construct a new Fire Station No. 8 on Westinghouse Road, west of FM 1460, to support the city's continued growth and maintain emergency response capabilities in a rapidly developing portion of the community.
- The project is anticipated to consist of an approximately 12,000 square foot fire station with three pull through apparatus bays.
- Fire Stations No. 6 and No. 7 will serve as the baseline for programming and operational planning. The design effort will build upon the City's established station prototype while incorporating refinements that improve functionality, efficiency, and long-term operational performance.
- Key operational priorities discussed during project scoping include locating bunker gear storage on the first floor, maintaining a dedicated Battalion Chief office, and eliminating the need for an elevator, if feasible within applicable building code requirements.
- The city has identified several preferred building technology standards to maintain consistency across its facilities. The City will provide fiber service to the building, and the design team will coordinate required technology spaces, conduit pathways, and infrastructure to support these systems.
- The project will include an emergency generator to support continuous operations during power outages.
- Based on current utility information, a fire pump may be required due to available fire water pressure. The design team will coordinate early with the city and utility providers to confirm these requirements.
- GFF understands the project is anticipated to utilize the Construction Manager at Risk (CMAR) delivery method. We recommend engaging the CMAR as early as practical to provide constructability reviews, cost estimating, and schedule input throughout the design process.
- GFF will incorporate structured quality control reviews, including page turn meetings at 100% Design Development, 50% Construction Documents, and 90% Construction Documents to ensure architectural, structural, and MEP systems are fully coordinated prior to issuance.
- The city has identified a construction budget of $8,700,000 for this project.
- The city will provide the geotechnical investigation for the project and is anticipated to provide surveying services.
- Utility coordination will include Oncor as the electrical provider and Georgetown Water for domestic and fire water service, including separate metering for each system.
- The project will include Record Drawings at the completion of construction.
- GFF understands the city's goal is to complete the design effort within an approximately eight-month schedule while maintaining a collaborative review process.

SCOPE OF SERVICES:

Basic Services

- Provide Architectural, Structural and MEP services from Schematic Design through the conclusion of Construction Documents, for the project described above, per the terms of the City of Georgetown's Professional Service Agreement (the "Agreement").
- Visit existing Fire Stations No. 6 and No. 7 and coordinate with City of Georgetown and Fire Department staff to establish a baseline for planning and confirm operational requirements including apparatus bay configuration, living quarters, Battalion Chief suite, bunker gear storage, training support spaces, and support functions.
- The GFF team will provide seven (8) in-person visits throughout the design phase (Schematic Design through Construction Documents).
- GFF will provide up to five (5) architectural renderings of the completed facility's design for use by the city throughout the permitting and construction phases.
- Provide assistance during Permitting, Bidding and Negotiation, per the terms of the Agreement. No in-person site visits are anticipated during this phase.
- Provide standard Contract Administration services for reviewing shop drawings, attending jobsite meetings, clarifying the intent of the construction documents, etc., per the terms of the Agreement for up to twelve (12) months. Basic Services shall include up to twenty-six (26) in-person site visits consisting of two (2) site visits per month and two (2) punch list visits. Services beyond these amounts shall be Additional Services.
- Construction administration phase will start with the first submittal or shop drawing review, regardless of whether a permit has been obtained.

Supplemental Services

1. Civil Engineering & Landscape Architecture Services

- Provide civil engineering design including grading, drainage, paving, utility design, stormwater management, and site permitting required for the project.
- Coordinate with Georgetown Water and Oncor regarding utility service requirements.
- Coordinate Site Development Permit (SDP) requirements and responses throughout the review process.
- Provide bidding and construction phase services including responses to RFIs, submittal reviews, site observations, and system acceptance support.
- Prepare demolition, grading, paving, and striping plans for the proposed right-turn lane improvements, coordinated with and submitted concurrently as part of the on-site civil engineering plan set.
- Provide landscape architectural services for the design and documentation of site landscaping, hardscapes, planting, irrigation, and related landscape improvements associated with the project.

2. Security, Technology and Low Voltage System Design and Coordination

- Develop the Basis of Design and prepare construction documents for security, telecommunications, structured cabling, access control, security camera, audiovisual, alerting and low-voltage systems.
- Coordinate system requirements with the Owner, Fire Department, Owner Vendors, IT staff, and all engineering disciplines to ensure full integration with the building design.
- Prepare plans, riser diagrams, details, schedules, and specifications suitable for bidding and construction.
- Provide bidding and construction phase services including responses to RFIs, submittal reviews, site observations, and system acceptance support.

Additional Services (Not included in contract but can be provided via change order)

1. Civil – Administrative Exception

- Prepare and submit one administrative exception request seeking approval of an alternative design approach to specific Unified Development Code (UDC) standards, with the understanding that approval is subject to City review and cannot be guaranteed.

Other Additional Services include:

- Additional site visits requested by the Owner, other than those listed above.
- Professional renderings, animations, virtual reality presentations, or physical models, other than those listed above.
- Multiple bid packages.
- Specialty consulting services not specifically identified herein.
- Any other services or activities other than those listed above.
- As otherwise defined in the Agreement.

Owner Provided Services

- Geotechnical Investigation
- Topographic and Boundary Survey
- Site platting, easements, and property acquisition, if required
- Utility service agreements
- Owner furnished fiber service to the building
- Graphics and facility signage design
- Testing and inspection services
- Owner shall provide an Overall Project Budget for the Architect to reference

OTHER PROVISIONS:

- Terms and conditions shall be as set forth in the City of Georgetown's Professional Service Agreement unless otherwise specifically set forth herein. "Work", as used therein and further in relation to the Architect's Services, including any documents issued or executed by Architect in the course of providing services under this Agreement, shall mean the construction and services required by any contract documents, within the scope of services set forth in this agreement.

- GFF shall not be required to retain any specific consultant recommended by the Owner. To the extent that the Owner recommends or requires a certain consultant to perform services on the project, Owner shall directly retain such consultant and require such consultant to coordinate its services with those provided by GFF

- Design, coordination and documentation of off-site improvements, cross-access agreements and parking agreements as required by the City, the lender or any other entity is by others.

- GFF shall have the right to rely on the accuracy, thoroughness, and completeness of all information provided by the Owner or Owner's representative(s), including pricing, schedule, or other information provided by the Owner's Construction Manager, Contractor, or similar advisor during all phases of the project, including pre-construction.

- In the event the Owner elects to divide the project into multiple packages to accelerate the construction process, the Owner acknowledges this entails certain inherent risks. These include, but are not limited to, the inability to coordinate early release work with that of later packages, an increased incidence of change orders and field coordination changes, incomplete code interpretations, and work-in-progress modifications. By utilizing multiple packages, the Owner agrees to accept these risks, and the costs and consequences associated with them, in order to achieve the perceived benefits of reduced construction time.

- This proposal is based on all buildings being designed, documented, permitted, and constructed at the same time. Should Owner elect to proceed with the project in phases, GFF can provide that as an additional service.

- GFF's role during value engineering is to preserve the project's design intent, aesthetic quality, and functionality, and to help ensure that the budget cuts do not compromise the long-term performance, safety, or building codes. As such, any value engineering, as presented by others will be evaluated by GFF in accordance with these qualities. These assessments will be provided to the owner for consideration.

- Services regarding trenching operations are not included as part of this agreement. This includes, but is not limited to, trench design, trench shoring design, consultation regarding trenching, and observation of trenching operations. The Owner agrees to require the Contractor to make all provisions for trenching operations.

- Any language, term or condition of this Agreement to the contrary notwithstanding, the Architect makes no express or implied warranties.

- The Owner agrees that the sole liability for any and all claims resides with GFF, Inc. and not the individual owners, shareholders or employees of GFF, Inc.

- The Owner and the Architect understand, acknowledge, and agree that the Architect shall be acting as an independent contractor at all times during the performance of this Agreement and no provision or obligation expressed or implied in this Agreement shall create an employment, agency, or fiduciary relationship.

- The parties acknowledge that no set of plans and specifications is free of errors and omissions and that the existence of an error or omission does not automatically constitute a breach of the Standard of Care. All costs of omissions or other changes which result in "betterment" or "value added" to the Owner shall be borne by the Owner, not the Architect, (to the extent of the betterment or value added) and shall not be the basis of a claim. The Owner shall establish a reasonable contingency line item in the construction budget to cover additional costs resulting from omissions, and the Architect shall not be liable therefore unless the aggregate additional costs (less betterment) of the omissions exceed a reasonable contingency amount and constitute a breach of the Standard of Care.

- The following are not included as a Basic Service: tower crane foundation(s), services relating to exterior signage or graphics (other than that specifically required by code), platting, platting assistance, services relating to special inspections which may be required by any codes or Owner including, but not limited to, special inspections described in Chapter 17 of the *International Building Code*, specialty permitting, including green permitting, any specialty consultants other than those specifically listed herein.

- Owner has or will provide a site-specific geotechnical report for the site for our use in designing the structural systems for the buildings.

- Owner represents and warrants that it is financially solvent, able to pay its debts as they become due, and possesses sufficient working capital to perform its obligations under this Agreement.

- Upon completion, the Architect may, at its option, utilize the Project to qualify for the Energy Efficient Commercial Building Federal Tax Deduction (179D) as permitted under IRS guidelines. If requested, the Owner shall acknowledge the Architect as the “Designer” of the Project by completing an allocation form (that Architect will provide) and shall allow the Architect’s independent third-party evaluation firm (and its licensed inspector) reasonable access to perform a one-time, on-site inspection and certification of the Project’s HVAC, interior lighting and/or building envelope systems.

- If, at the Owner’s request, the Architect’s Work is delayed by more than 30 cumulative days, the Architect’s compensation may be adjusted accordingly.

- This proposal shall be valid for a period of up to 60 days from the date of the proposal.

If this proposal is acceptable, please sign and return one (1) copy to my office, to signify your acceptance, which shall also serve as our authorization to proceed. As an alternative, in the event services or instruments of service are provided by Architect and accepted by you, this shall also constitute acceptance of this proposal.

Thank you again for the opportunity to be a part of your team.

Sincerely,

GFF Design

EXHIBIT B
PROJECT MILESTONE SCHEDULE

Supplemental activities, which dates are not yet defined, shall be determined at the completion of the Phase or at such time when both parties mutually agree that the project is sufficiently developed and documented.

Article 4 The anticipated project milestone durations are as follows: PROJECT SCHEDULE:

GFF proposes the following 10-month design schedule, followed by a 12-month construction schedule:

Design and Construction Documents Phase	
• Design Notice to Proceed (NTP)	
• Schematic Design	3 Months
• Design Development	3 Months
• Construction Documents	4 Months
Total:	10 Months *

*Assumes timely Owner Review periods within this design phase durations

GMP Pricing Phase (Concurrent with Permitting)	
• CMAR Subcontractor Bidding and GMP Contract Negotiations	4 Months
Construction Phase	
• Construction Administration (as negotiated in the construction contract)	12 months
Total Anticipated Project Duration:	**26 months**

EXHIBIT C
PERSONNEL TITLES AND HOURLY RATES

The hourly billing rates for services of the Architect and the Architect's consultants, if any, are set forth below. The rates shall be adjusted in accordance with the Architect's and Architect's consultants' normal review practices. (TO BE PROVIDED BY SELECTED FIRM)

Technical Typist $100.00

EXHIBIT D
CERTIFICATE OF INSURANCE

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
Consulting Agreement with Esource

SUGGESTED ACTION:
Consideration and possible action to approve a contract between the City of Georgetown and Esource for utility billing software assessment services, with a not to exceed amount of $121,000.00 -- Leigh Wallace, Chief Financial Officer

ITEM SUMMARY:
The current Utility Billing Software system has been in place since 2023, with an on-premises original implementation in 2018. As our technology needs and the market for utility billing solutions have evolved, the City needs to understand the current requirements of the five utilities, any gaps between those needs and the current system, the "Total Cost of Ownership" (TCO) of our current system, a market comparison of other systems, and functionality that would be lost or gained from moving to a different system. The findings will be used to inform future strategic planning and budget decisions related to our utility billing operations. The City requested proposals from interested, qualified respondents capable of providing a comprehensive assessment. Esource was selected as the consultant due to their extensive experience providing these services to local governments and utilities, scope of work that closely matches the City's desired deliverables, and their price.

FINANCIAL IMPACT:
Funding for this contract is budgeted within the Utility Billing cost center in the Joint Services Fund.

CONSULTATION AGREEMENT WITH THE CITY OF GEORGETOWN

This Consultation Agreement (the "Agreement") is entered into and made effective on the _____ day of _____, 2026 by and between E Source Companies, LLC ("Consultant") and the City of Georgetown, Texas ("City").

1. **Scope of Services.** Consultant agrees to provide such services as further described in **Exhibit A**, which is attached and incorporated herein. Any request by the Consultant for an increase in the Scope of Services and an increase in the amount listed in paragraph four of this Agreement shall be made and approved by the City prior to the Consultant providing such services, or the right to payment for such additional services shall be **waived.** If there is a dispute between the Consultant and the City respecting any service provided or to be provided hereunder by the Consultant, including a dispute as to whether such service is additional to the Scope of Services included in this Agreement, the Consultant agrees to continue providing on a timely basis all services to be provided by the Consultant hereunder, including any service as to which there is a dispute.

2. **Supplement Provisions**. Supplemental provisions applicable to this Agreement are included in **Exhibit B** and incorporated herein by reference.

3. **City Terms Prevail**. In the event there is a conflict between a term in **Exhibit A** or **Exhibit B** and a term in this Agreement, the terms of this Agreement shall prevail.

4. **Total Compensation.** The total compensation paid by the City to the Consultant, including expenses, under this Agreement for the initial term shall not exceed one hundred twenty-one thousand dollars ($121,000). Payment will be made in accordance with **Exhibit C**, which is attached and incorporated herein.

5. **Term.** This Agreement shall become effective on the date signed by the City. The term of the Agreement shall be from one (1) year.

6. **Performance.** Consultant, its employees, associates, and/or subcontractors shall perform all the services described in the Scope of Services in a professional manner and be fully qualified and competent to perform those services. Consultant shall undertake the work and complete it in a timely manner and in accordance with all applicable federal, state, and local statutes, regulations, ordinances, and other laws.

7. **Amendments.** Any changes to the terms of this agreement will not be effective unless in writing and signed by both parties.

8. **Insurance.** Consultant shall procure and maintain at its sole cost and expense for the duration of this Agreement insurance against claims for injuries to persons or damages to property that may arise from or in connection with the performance of the work hereunder by the Consultant, its agents, representatives, volunteers, employees or subcontractors. The polices, limits and endorsements required are set forth in **Exhibit D**. Consultants insurance certificate satisfying the City insurance requirements is attached as **Exhibit E**.

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

9. **INDEMNITY. THE CONSULTANT SHALL DEFEND, INDEMNIFY AND HOLD HARMLESS THE CITY, ITS OFFICERS, AGENTS, SERVANTS AND EMPLOYEES FROM AND AGAINST ANY AND ALL SUITS, ACTIONS, LEGAL PROCEEDINGS, CAUSES OF ACTION, CLAIMS, DEMANDS, DAMAGES, JUDGMENTS, LOSSES, LIENS, COSTS, EXPENSES, ATTORNEYS' FEES AND ANY AND ALL OTHER COSTS, FEES AND/OR CLAIMS OF ANY KIND OR DESCRIPTION ARISING OUT OF, IN CONNECTION WITH OR RESULTING FROM THE AGREEMENT OR SERVICES PROVIDED UNDER THE AGREEMENT OR FROM ITS NEGLIGENCE OR WILLFUL ACT WHETHER SUCH ACT BE BY THE CONSULTANT OR ITS DESIGNEE. THE CITY, AS A GOVERNMENTAL ENTITY IN THE STATE OF TEXAS, SHALL NOT INDEMNIFY THE CONSULTANT.**

10. **Release by Consultant.** The Consultant releases, relinquishes and discharges the City, its elected officials, officers, directors, agents, employees, representatives and volunteers from all claims, demands, and causes of action of every kind and character, including the cost of defense, for any injury to or death of any person (whether employees of either party or other third parties) and any loss or damage to any property that is caused by or alleged to be caused by, arising out of, or in connection with the work it performed under this Agreement. This release shall apply regardless of whether the claims, demands and/or causes of action are covered in whole or in part by insurance.

11. **Dispute Resolution.** If either the Consultant or the City has a claim or dispute, the parties shall first attempt to resolve the matter through this dispute resolution process. The disputing party shall notify the other party in writing as soon as practicable after discovering the claim, dispute or breach. The notice shall state the nature of the dispute and list the party's specific reasons for such dispute. Within ten (10) business days of receipt of the notice, both parties shall make a good faith effort, in person or through generally accepted means, to resolve any claim, dispute, breach or other matter in question that may arise out of, or in connection with, this Agreement. If the parties fail to resolve the dispute within sixty (60) days of the date of receipt of the notice of the dispute, then the parties may submit the matter to non-binding mediation upon written consent of authorized representatives of both parties. If the parties cannot resolve the dispute through mediation, then either party shall have the right to exercise any and all remedies available under law regarding the dispute.

12. **Ownership of Documents.** The City shall retain ownership of all associated work products and documentation obtained from or created by the Consultant pursuant to this Agreement. Consultant shall deliver all documents or other work product to the City upon request, including original versions if so specified in the request.

13. **Payment Terms.** All payments will be processed in accordance with Texas Prompt Payment Act, Texas Government Code, Subtitle F, Chapter 2251. The City will pay Consultant within thirty days after receipt of a correct invoice for services. The Consultant may charge a late fee (fee shall not be greater than that permitted under the Texas Prompt Payment Act) for payments not made in accordance with this prompt payment policy; however, the policy does not apply to payments made by the City in the event: (a) there is a bona fide dispute between the City

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

and Consultant concerning the goods, supplies, materials, equipment delivered, or the services performed, that causes the payment to be late; (b) the terms of a federal agreement, grant, regulation or statute prevents the City from making a timely payment with Federal funds; (c) there is a bona fide dispute between the Consultant and a subcontractor and its suppliers concerning goods, supplies, material or equipment delivered, or the services performed, which caused the payment to be late; or (d) the invoice is not mailed to the City in accordance with this Agreement.

14. **Termination for Convenience.** The City shall have the right to terminate this Agreement, in whole or in part, without cause any time upon thirty (30) calendar days' prior written notice. Upon receipt of a notice of termination, the Consultant shall promptly cease all further work pursuant to the Agreement, with such exceptions, if any, specified in the notice of termination. The City shall pay the Consultant, to the extent of funds appropriated or otherwise legally available for such purposes, for all services performed and obligations incurred prior to the date of termination.

15. **Termination for Cause.** In addition to the termination rights described above, either party may terminate this Agreement effective upon written notice to the other if the other breaches any of the terms and conditions of this Agreement and fails to cure that breach within thirty (30) days after receiving written notice of the breach. In the event of an incurable breach, the non-breaching party may terminate this Agreement effective immediately upon written notice to the breaching party. In addition to all other remedies available under law and in equity, the City may remove the Consultant from the City's Vendor list in the event that this Agreement is terminated for cause and any offer submitted by the Consultant may be disqualified for up to three (3) years.

16. **Non-Appropriation**. This Agreement is a commitment of City's current revenues only. It is understood and agreed that the City shall have the right to terminate this Agreement at the end of any City fiscal year if the governing body of the city does not appropriate funds sufficient to purchase the services. The City may terminate for non-appropriation by giving the Consultant a written notice of termination at the end of its then current fiscal year.

17. **Notices.** Any notice or communication permitted or required by this Agreement shall be deemed effective when personally delivered or deposited, postage prepaid, in the first class mail of the United States properly, or sent via electronic means, addressed to the appropriate party at the address set forth below:

18. **Independent Contractor.** The Agreement shall not be construed as creating an employer/employee relationship, a partnership or joint venture. The Consultant's services shall be those of an independent contractor. The Consultant agrees and understands that the Agreement does not grant any rights or privileges established for employees of the City. Consultant shall not be within protection or coverage of the City's Worker Compensation insurance, Health Insurance, Liability Insurance or any other insurance that the City, from time to time, may have in force.

19. **Force Majeure.** The City and the Consultant will exert all efforts to perform the tasks set forth herein within the proposed schedules. However, neither the City nor the Consultant shall be held responsible for inability to perform under this Agreement if such inability is a direct result of a force substantially beyond its control, including but not limited to the following: strikes, riots, civil disturbances, fire, insurrection, war, embargoes, failures of carriers, acts of God, or the public enemy.

20. **No Waiver.** The waiver by either party of a breach or violation of any provision of this Agreement shall not operate as or be construed to be a waiver of any subsequent breach hereof.

21. **Nondiscrimination.** The Consultant, with regard to the work performed by it after award and prior to completion of this Agreement, shall not discriminate on the basis of race, color, sex, or national origin in the selection and retention of Sub-consultants, including procurements of materials and leases of equipment. The Consultant shall not participate either directly or indirectly in the discrimination prohibited by any federal, state or local law.

22. **Right to Audit**. The Consultant agrees that the representatives of the City shall have access to, and the rights to audit, examine, or reproduce, any and all Consultant records related to the performance under this Agreement. The Consultant shall retain all such records for a period of four (4) years after final payment on this Agreement or until all audit and litigation matters that the City has brought to the attention of the Consultant are resolved, whichever is longer.

23. **Advertising and Publicity**. Consultant shall not advertise or otherwise publicize, without the City's prior written consent, the fact that the City has entered into the Agreement, except to the extent required by applicable law.

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

24. **Confidential Information**. Each party agrees not to use, disclose, sell, license, publish, reproduce or otherwise make available the Confidential Information of the other party except and only to the extent necessary to perform under this Agreement or as required by the Texas Public Information Act or other applicable law. Confidential Information shall be designated and marked as such at the time of disclosure. Each party agrees to secure and protect the other party's Confidential Information in a manner consistent with the maintenance of the other party's confidential and proprietary rights in the information and to take appropriate action by instruction or agreement with its employees, consultants, or other agents who are permitted access to the other party's Confidential Information to satisfy its obligations under this Section. The provisions of this paragraph shall survive the term of the Agreement.

25. **Consultant Certification Regarding Boycotting Israel.** Pursuant to Chapter 2271, Texas Government Code, Consultant certifies that either (1) it is a sole proprietorship or company with fewer than ten (10) employees, or (2) it does not currently boycott Israel and will not boycott Israel during the term of this Agreement. Consultant acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

26. **Consultant Certification Regarding Business with Certain Countries and Organizations.** Pursuant to Subchapter F, Chapter 2252, Texas Government Code, Consultant certifies Consultant is not engaged in business with Iran, Sudan, or a foreign terrorist organization. Consultant acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

27. **Consultant Certification Regarding Boycotting Energy Companies.** Pursuant to Chapter 2274, Texas Government Code, Consultant certifies that either (1) Consultant is a sole proprietorship or company with fewer than ten (10) employees or (2) Consultant does not currently boycott energy companies and will not boycott energy companies during the Term of this Agreement. Consultant acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

28. **Consultant Certification Regarding Boycotting Firearm And Ammunition Industries.** Pursuant to Chapter 2274, Texas Government Code, Consultant certifies that either (1) Consultant is a sole proprietorship or company with fewer than ten (10) employees or (2) Consultant does not currently boycott firearm and ammunition industries; and will not boycott firearm and ammunition industries during the Term of this Agreement. Consultant acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

29. **Severability.** This Agreement is severable and if any one or more parts of it are found to be invalid, such invalidity shall not affect the remainder of this Agreement if it can be given effect without the invalid parts.

30. **Survivability**. Subject to the limitations and other provisions of this Agreement: (a) the representations and warranties of the Parties contained herein will survive the expiration or earlier termination of this Agreement for a period of twenty-four (24) months after such

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

expiration or termination and (b) the Indemnity and Release of Contractor sections of this Agreement, as well as any other provision that, in order to give proper effect to its intent, should survive such expiration or termination, will survive the expiration or earlier termination of this Agreement for a period of twenty-four (24) months after such expiration or termination.

31. **Governing Law and Venue**. This Agreement shall be governed by the laws of the State of Texas. Venue shall be located in Williamson County, Texas.

32. **Successors and Assigns.** This Agreement shall bind and inure to the benefit of the parties hereto and any subsequent successors and assigns; provided however, that no right or interest in the Agreement shall be assigned and no obligation shall be delegated by the Consultant without the prior written consent of the City. Any attempted assignment or delegation by the Consultant shall be void unless made in conformity with this Paragraph.

33. **Third Party Beneficiaries.** Nothing contained in this Agreement shall create a contractual relationship with or a cause of action in favor of a third party against either the City or the Consultant.

34. **Entire Agreement.** This Agreement, with all exhibits, includes the entire agreement of the City and the Consultant and supersedes all prior and contemporaneous agreements between the parties, whether oral or written, relating to the subject of this agreement.

Exhibit A
Scope of Services
Utility Billing Software Assessment

1. **Summary of Project/Background:**

The City of Georgetown provides five utility services: water, sewer, electric, drainage and solid waste. FY2025 annual billed revenue is projected to be $247 million. There are approximately 75,000 customers; including 66,389 water meters and 35,776 electric meters. The City provides water service, and also bills the external sewer service under interlocal agreements with the City of Liberty Hill, and the Parkside and Highlands MUDs. Conversely, the Jonah Special Utility District provides water service, and therefore bills sewer, drainage, solid waste and streetlight services on behalf of the City of Georgetown.

The City currently utilizes Itineris' UMAX365 for its utility billing and customer management functions. The system has been in place since 2023, with an on-premises original implementation in 2018. (Related products include Service Link for work orders, and the DataHub irrigation detection algorithm.) As our technology needs and the market for utility billing solutions have evolved, the City needs to understand the current requirements of the five utilities, any gaps between those needs and the current system, the "Total Cost of Ownership" (TCO) of our current system, a market comparison of other systems, and functionality that would be lost or gained from moving to a different system.

The purpose of this project is to engage a qualified third-party consultant to conduct a high-level requirements documentation, TCO analysis of our existing utility billing software system and support and to provide a comparative analysis of our current system against the functionality and estimated TCO of a representative selection of current utility billing software systems. A comparison would include estimated costs of a new system, support staff, as well as the upfront implementation costs to determine whether a different system would have a net beneficial cost impact. The findings will be used to inform future strategic planning and budget decisions related to our utility billing operations.

2. **Consultant Responsibilities**.

The Consultant shall:

A. Identify current gaps in utility requirements for rate structures, customer service offerings, reporting, and related business needs.

B. Identify high level functionality that may be gained or lost by transitioning to a new system.

C. Gain a clear and comprehensive understanding of the total financial and operational costs associated with our current utility billing software system.

D. Evaluate the current market of utility billing software systems, identifying key vendors and their capabilities.

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

E. Provide a data-driven, long-term TCO comparison between our existing system and potential replacement options.

F. Address whether cost efficiency could be gained by improving the use of MDM, AMI, and software integrations in conjunction with the existing or a new billing system.

G. Identify opportunities for cost savings and increased efficiency within our utility billing software stack.

The Consultant shall provide the above services through the following phased approach:

Phase 0 Preparation and Kickoff

A. Formal Project Kickoff Meeting and project plan
B. CIS Industry Educational Workshops

Phase 1 System Requirements Gap Analysis

Consultant shall conduct a high-level system needs requirements with all stakeholder departments. Identify business processes and rate structures that the City currently desires to use but that are not available in our current product. Provide analysis of whether these processes/structures can be built in the current product and cost. Additionally, provide analysis as to whether these processes/structures are readily available in the market of comparable systems or require custom code development. Consultant shall also conduct an organizational staffing assessment.

A. Stakeholder departments include: Water/Sewer, Electric, Public Works (Stormwater Drainage, Solid Waste), Customer Care Call Center, Customer Billing, Customer Metering, Information Technology.

B. Needs requirements may include, but is not limited to: rate structures, billing features, customer service program offerings, reports, integrations, etc.

Phase 2 Total Cost of Ownership Analysis of Current System

The Consultant will conduct a thorough TCO analysis of the City's current utility billing software and support. This analysis shall include, but not be limited to, the following cost components:

A. **Direct Costs:**

1. Initial implementation and upgrade costs.
2. Annual software licensing and maintenance fees.
3. Hardware and infrastructure costs (servers, storage, networking).
4. Vendor support and service fees.

B. **Indirect and Operational Costs:**

1. Labor costs for system administration and maintenance.
2. Training costs for new and existing staff.
3. Costs associated with system integrations, customizations, and third-party add-ons.
4. Opportunity costs of inefficiencies and system risks.
5. Costs of future upgrades and migrations.
6. Any other recurring or non-recurring costs related to the system's operation.

Phase 3 Market Analysis and Comparative TSO

The Consultant will evaluate the current market for utility billing software and provide a comparative analysis for a future 10-year period. This will involve:

A. Identifying and profiling at least three to five utility billing software systems that are suitable for a municipality of our size and complexity; including identifying comparable utilities using those systems.

B. Researching each system's capabilities, features, and functionality, with a focus on core needs (meter work orders, billing, payment processing, customer self-service, and reporting) and utilizing the information provided in 3.1 Gap Analysis.

C. Analysis must include rate structures for the current four third-party contracts

D. Conducting a high-level TCO analysis for each of the selected alternative systems. This analysis should project direct, indirect, and operational costs over a 10-year period, using industry benchmarks and best practices. Key cost components should include:

1. Initial implementation, integration and data migration costs.
2. Ongoing licensing and support fees.
3. Projected hardware, infrastructure, and IT support costs.
4. Training and change management costs.

E. Identify 10 to 20 high level business processes or practices currently used by the City of Georgetown across the billing, or payment processing areas, focusing on processes identified by the City or Consultant as most critical; and compare how these processes would generally differ in each of the compared systems. This may also address billing processes that may be unique to

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

Georgetown and not generally supported in billing systems used by similar organizations. Detailed analysis of the process or software steps is not desired, rather a simple comparison of whether the process is "built-in" the different systems and, if so, whether other software tools are known to be more efficient for these processes.

F. Identify additional support services provided by Itineris and compare those to support services provided by other potential providers. These may include services currently provided by Itineris such as on-demand functionality enhancements, development of additional modules such as excessive water use monitoring, and monthly customer success meetings.

G. Review the data analysis and reporting services offered by chosen software companies and provide an opinion on whether the City may lose or gain functionality in this area if different software was used.

Phase 4 High Level Technical review

The Consultant will investigate current and proposed uses of other software systems in the "meter-to-cash" software stack including meter data management (MDM), advanced metering infrastructure (AMI), and integration with other tools (GIS, outage management, work order ticketing, asset management, conservation DataHub) and how these systems are generally used in conjunction with the UMAX 365 billing software.

A. Analyze the City's current and proposed uses of AMI and MDM technologies, including the intention to use different MDM and AMI systems for the Electric and Water Utilities.

B. Identify ways in which billing system costs may be impacted by current and proposed use of MDM and AMI.

C. Determine whether the scope and number of software integrations used by City is comparable with similar organizations.

3. Deliverables. The Consultant shall provide:

A. A requirements matrix identifying functional gaps and comparing the capabilities of the current system to a selection of systems available in the market.

B. A detailed report and presentation summarizing the TCO of the current utility billing system from 2018 through 2028. This report should clearly itemize and categorize all identified costs. Include data how long it would take to recoup the costs of a new implementation and achieve a state where there is a net benefit of a less expensive system.

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

C. A comparative analysis report that outlines the TCO for each alternative system, contrasting it with the TCO of the current system. This report should highlight the strengths and weaknesses of each system from both a functional and financial perspective. Include coverage of the support services provided by Itineris, how other companies or third-party vendors may provide these services, and what are standard costs for those services. Further, a general overview of whether improvements could be made in reporting and data analytics should be included.

D. Conclusions about the efficiency of current and proposed uses of AMI, MDM and software integrations; and, how the City may improve the overall efficiency of the "meter-to-cash" software stack/architecture.

E. A final comprehensive report that includes:

1. An executive summary of the project findings
2. Summary of the current system requirements and gap analysis
3. Comparative analysis of alternative systems including key functionality, support services, and data analytics; specifically stating what might be gained or lost by moving to another software.
4. A list of recommended system improvements, regardless of whether a new system is adopted
5. An overview of the utility billing software market and what might be expected in costs. Include findings on whether the size and functionality of the current system is appropriate for the City
6. The detailed TCO analysis of the current system versus other systems. Provide cost data on a per meter or per customer data after carefully defining what a "customer" or "meter" entails
7. Opinions regarding appropriate support staffing levels for a utility billing system and how those compare to existing levels.
8. General recommendations for more efficient use of MDM, AMI and software integrations in conjunction with the utility billing system
9. A final recommendation on whether the City should continue with the current system or consider a replacement supported by the functional assessment and TCO data.

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

F. A final presentation to the City Manager and relevant Department Directors to present the findings and answer questions.

Items that are not expected as part of the deliverables include:

1. A full software requirements analysis.
2. Software company marketing materials (unless used as a source for critical data), or detailed technical analysis of the utility billing software stack.
3. An in-depth review of MDM systems. AMI systems or software integration is not expected, Instead a broad overview of these technology systems and general recommendations are desired.

4. Performance Standards.

A. Services shall meet the professional industry standards and comply with applicable federal, state, and local laws.

B. Consultant shall adhere to City deadlines unless prior written approval is obtained.

Consultant shall notify the City promptly of any issues that may impact services. Consultant shall be product agnostic.

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

Exhibit B
Supplemental Provisions

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

Exhibit C
Payment Terms

Payment is a fixed fee, including expenses, in the not to exceed amount listed in Section 4 of this Agreement. This amount shall be payable by the City pursuant to the milestone schedule listed below and upon completion of the services and written acceptance by the City.

The City will reimburse for actual travel expenses for up to five site visits provided that all travel must be approved by the City in advance, and reimbursement requests must include receipts with the exception of meals that will be billed per diem pursuant to the GSA rate for Georgetown Texas. Estimate of travel expenses for up to five site visits is $11,000. In no case may travel expenses exceed $11,000.

Schedule of Payment for each phase:

Table 3. Milestone Payment Table Based On Agreed Upon Deliverables

Milestone Payment Number	Deliverable	Milestone Payment Amount (USD)
1	NavigateOne™ CIS Business Requirements Analysis **(City of Georgetown Deliverable A)**	$18,000
2	TCO Analysis of UMAX from 2018 - 2028 **(City of Georgetown Deliverable B)**	$18,000
3	Market Analysis and Comparative TCO **(City of Georgetown Deliverable C)**	$18,000
4	AMI / MDM Technical Review **(City of Georgetown Deliverable D)**	$18,000
5	Draft Assessment Report **(City of Georgetown Deliverable E)**	$18,000
6	Final Assessment Report and Presentation **(City of Georgetown Deliverable F)**	$20,000
	Total Fixed-Fee for Utility Billing Software Assessment	$110,000

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

Exhibit D
Insurance Requirements

I. The Consultant agrees to maintain the types and amounts of insurance required in this Agreement throughout the term of the Agreement. The following insurance policies shall be required:

A. Commercial General Liability
B. Business Automobile Liability
C. Workers' Compensation
D. Professional Liability

II. For each of these policies, the Consultant's insurance coverage shall be primary with respect to the City, its officials, agents, employees and volunteers. Any insurance or self-insurance carried or obtained by the City, its officials, agents, employees or volunteers, shall be considered in excess of the Consultant's insurance and shall not contribute to it. No term or provision of the indemnification provided by the Consultant to the City pursuant to this Agreement shall be construed or interpreted as limiting or otherwise affecting the terms of the insurance coverage. All Certificates of Insurance and endorsements shall be furnished to the City's Representative at the time of execution of this Agreement, attached hereto as Exhibit D, and approved by the City *before* work commences.

III. General Requirements Applicable to All Policies.

A. Only licensed insurance carriers authorized to do business in the State of Texas shall be accepted.
B. Deductibles shall be listed on the certificate of insurance and are acceptable only on an "occurrence" basis.
C. "Claims made" policies are not accepted, except for Professional Liability insurance.
D. Coverage shall not be suspended, voided, canceled, or reduced in coverage or in limits except after thirty (30) calendar days prior written notice has been given to the City of Georgetown.
E. The Certificates of Insurance shall be prepared and executed by the insurance company or its authorized agent. Each certificate shall contain the following provisions and warranties:
    1. The insurance company is licensed and authorized to do business in the State of Texas
    2. The insurance policy is underwritten on forms provided by the Texas State Board of Insurance or ISO
    3. All endorsements and coverages are included according to the requirements of this Agreement
    4. The form of notice of cancellation, termination, or change in coverage provisions is specified in this attachment

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

F. The City of Georgetown, its officials, agents, employees, and volunteers are to be listed as Additional Insureds on the Commercial General Liability and Business Automobile Liability Policies. The coverages shall contain no special limitations on the scope of protection afforded the City, its officials, employees, and volunteers.

V. **Commercial General Liability** requirements:

A. Coverage shall be written by a carrier rated "A: VIII" or better in accordance with the current A. M. Best Key Rating Guide.
B. Minimum Combined Single Limit of $1,000,000 per occurrence per project for bodily injury and property damage with a $2,000,000 annual aggregate limit.
C. Coverage shall be at least as broad as Insurance Service's Office Number CG 00 01.
D. No coverage shall be excluded from the standard policy without notification of individual exclusions being attached for review and acceptance.
E. The coverage shall not exclude: premises/operations; independent contracts; products/completed operations; contractual liability (insuring the indemnity provided herein); and where exposures exist, Explosion, Collapse and Underground coverage.
F. The City shall be listed as Additional Insured, and the policy shall be endorsed to waive rights of subrogation, to be primary and non-contributory with regard to any self-insurance or insurance policy held by the City.

VI. **Business Automobile Liability** requirements:

A. Coverage shall be written by a carrier rated "A:VIII" or better in accordance with the current Best Key Rating Guide.
B. Minimum Combined Single Limit of $1,000,000 per occurrence for bodily injury and property damage.
C. The Business Auto Policy must show Symbol 1 in the Covered Autos portion of the liability section in Item 2 of the declarations page.
D. The coverage shall include owned, leased or rented autos, non-owned autos, any autos and hired autos.

VII. **Workers' Compensation Insurance** requirements:

A. Pursuant to the requirements set forth in Title 28, Section 110.110 of the Texas Administrative Code, *all* employees of the Consultant, the Consultant, *all* employees of any and all subconsultants, and all other persons providing services on the Project must be covered by a workers compensation insurance policy, either directly through their employer's policy (the Consultant's, or subconsultant's policy) or through an executed coverage agreement on an approved DWC form. Accordingly, if a subconsultant does not have his or her own policy and a coverage agreement is used, Consultants and subconsultants *must* use that portion of the form whereby the hiring Consultant agrees to provide coverage to the employees of the

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

subconsultant. The portion of the form that would otherwise allow them not to provide coverage for the employees of an independent Consultant may not be used.

B. The workers compensation insurance shall include the following terms:

1. Employer's Liability limits of $1,000,000 for each accident is required.
2. "Texas Waiver of Our Right to Recover From Others Endorsement, WC 42 03 04" shall be included in this policy.
3. Texas must appear in Item 3A of the Worker's Compensation coverage or Item 3C must contain the following: All States except those listed in Item 3A and the States of NV, ND, OH, WA, WV, and WY.

VIII. **Professional Liability** requirements:

A. Coverage shall be written by a carrier rated "A:VIII" or better in accordance with the current A. M. Best Key Rating Guide.
B. Minimum of $1,000,000 per occurrence and $2,000,000 aggregate, with a maximum deductible of $100,000.00. Financial statements shall be furnished to the City upon request.
C. For "claims made" policies, the availability of a 24-month extended reporting period is necessary. The retroactive date shall be shown on the certificate of liability insurance.

City Council
September 8, 2026

SUBJECT:
Second Reading - Contract Authority Update

SUGGESTED ACTION:
Second Reading of an Ordinance Amending Sec. 4.08.010 of the Code of Ordinances to allow the Council to delegate approval of cooperative agreement contracts to the City Manager -- Leigh Wallace, Chief Financial Officer

ITEM SUMMARY:
Under direction of the City Manager, the Procurement team has been working on various process improvements for efficiency. Staff recommends that annual routine equipment purchases be approved during the budget adoption process. This will eliminate the need for separate agenda items for Council to approve these items. The purpose of updating this authority to contract ordinance and policy is to delegate authority from the Council to the City Manager to approve purchases of such equipment through cooperative agreements. Cooperative agreements are competitively bid and meet State procurement requirements.

There is a corresponding agenda item on this date to adopt the FY2027 budget. That item includes attached lists of routine Fleet and Information Technology equipment planned in the FY2027 budget.

The update also includes a correction to the delegation authority of change orders from the last time the ordinance was updated in October of 2025.

FINANCIAL IMPACT:

Contract Signature Authority Policy Updates

City Council Regular Meeting

August 25, 2026

GEORGETOWN TEXAS

What Prompted the Changes?

- 2026 City Manager Work Plan Priority Item: process improvements in the procurement process
- Streamline the approval process for routine equipment purchases
  - Information Technology equipment
  - Fleet equipment replacement and new
  - Add: the City Manager may approve competitively bid cooperative agreement purchases with the budget
- Correct redline errors from October 2025 policy change
  - The City Manager may approve a change order that is $50,000 or less for a contract required by state law to be competitively bid (correction from $100,000)

Questions?

First Reading of an Ordinance

- AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS AMENDING SECTION 4.08.010, TITLED "AUTHORITY OF THE CITY MANAGER AND CITY STAFF TO CONTRACT," OF THE CODE OF ORDINANCES OF THE CITY OF GEORGETOWN; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; INCLUDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS AMENDING SECTION 4.08.010, TITLED "AUTHORITY OF THE CITY MANAGER AND CITY STAFF TO CONTRACT," OF THE CODE OF ORDINANCES OF THE CITY OF GEORGETOWN; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; INCLUDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

WHEREAS, the City of Georgetown (the "City") routinely procures goods and services necessary to provide municipal services and carry out public purposes; and,

WHEREAS, state law authorizes local governments to use certain cooperative purchasing programs, including programs established under Texas Local Government Code Chapter 271, Subchapter D and Subchapter F, to promote efficiency, economy, and compliance with competitive procurement requirements; and

WHEREAS, the City Council of the City of Georgetown (the "City Council") desires to delegate authority to the City Manager or the City Manager's designee to make purchases and execute contracts through such cooperative purchasing programs when the purchase or contract is authorized by state law and sufficient funds have been appropriated and are available in the adopted budget; and,

WHEREAS, The City enters into many contracts, agreements, and similar documents that are routine in nature or are for certain categories or types of items that have already been approved through the budgeting process, and the City Manager and his or her designee should be authorized to negotiate and enter into these contracts and documents, in accordance with the guidelines established herein, in the interest of efficiency of administrative governmental operations in the City; and,

WHEREAS, the City Council further desires to clarify and update authority for approving change orders to City contracts after legislative changes to prior statutory language governing change-order dollar limits; and,

WHEREAS, the City Council finds that delegating contracting and change-order authority for budgeted items, when authorized by state law, will promote efficient municipal operations while preserving the City Council's authority over appropriations and policy direction.

NOW, THEREFORE BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS:

Section 1. The meeting at which this ordinance was approved was in all things conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

Section 2. The facts and recitations contained in the preamble of this ordinance are hereby found and declared to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

Section 3. Chapter 4.08, "Authority of the City Manager and City Staff to Contract," is amended to read as follows:

"Section 4.08.010. – Delegation of contracting authority

A. Except as specifically provided herein, all contracts, including claim and lawsuit settlement agreements, to which the City is a party shall be approved by the City Council prior to execution. This Section may not be construed to delegate authority to approve or execute, without City Council action, any contract, contract amendment, change order or other legal instrument that is required by State Law to be approved by the City Council.

B. The City Council hereby authorizes the City Manager or the City Manager's designee to approve and execute the following by administrative action without further City Council action:

1. A contract for expenditures in the City Council approved budget for which the contract amount does not exceed the amount which requires compliance with state competitive procurement laws, provided that all such contracts and expenditures are in compliance with the City's annual budget and the City's fiscal and budgetary policy.

2. A change order to a contract required by state law to be procured through either competitive bid or competitive sealed proposal that increases or decreases the contract price by $50,000.00 or less, provided that the original contract price may not be increased by more than 25 percent, and provided that a change order may only make necessary changes to plans or specifications after the performance of the contract has begun or increase or decrease the quantity of goods or services.

3. A contract for the purchase of goods or services through local purchasing programs and cooperative purchasing programs that the City has been approved to be a participant of, provided that the funding for the contract is appropriated in an approved budget.

4. A contract amendment to a contract not required by state law to be procured through competitive bid or competitive sealed proposal modifying the scope of services and increasing or decreasing the contract price by $100,000.00 or less, provided that the original contract price may not be increased or decreased by more than 25 percent of the original contract price.

5. A change order or contract amendment modifying a contract originally approved pursuant to Subsection 4.08.010.B.1., provided however that the total contract price as amended cannot exceed $100,000.00.

6. The exercise of a renewal option, if the expenditure required during the renewal term is $100,000.00 or less.

C. The City Manager may delegate authority granted under this Section to the extent allowed by this Code, the City Charter, or State law. The City Manager may make rules and procedures, which are not in conflict with this Code, the City Charter, or State law, concerning the form and substance of administrative actions necessary for the contracting and change order process.

D. All contracts or expenditures in excess of the amount that requires compliance with the state competitive procurement laws must be approved by the City Council, even if they are included in the City Council-approved budget, except as otherwise provided in Subsection 4.08.010.B.3.

E. If a method of procurement other than competitive sealed bidding or competitive sealed proposals is allowed by law, the City Manager or designee shall have the authority to determine whether to use an alternative method of procurement. If the City Manager or designee is considering using a method other than competitive sealed bidding, the City Manager or designee shall make such determination before notice is given. If the competitive sealed proposals requirement applies to the contract, the City Manager or designee shall consider the criteria described in State Law to determine the best value for the City.

F. The City Council hereby authorizes the City Attorney to approve an agreement for outside attorney legal services for $100,000.00 or less provided that sufficient funds have previously been appropriated by City Council. Any other agreement for outside attorney legal services must be approved by Council."

Section 4. If any provision of this ordinance or application thereof to any person or circumstance, shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this ordinance which can be given effect without the invalid provision or application, and to this end the provisions of this ordinance are hereby declared to be severable. Any portion of this Chapter that is not being amended by this ordinance shall remain valid and in full force.

Section 5. The Mayor is hereby authorized to sign this ordinance and the City Secretary to attest. This Ordinance shall become effective and be in full force and effect in accordance with the provisions of the Charter of the City of Georgetown.

CHAPTER 4.08 AUTHORITY OF CITY MANAGER AND CITY STAFF TO CONTRACT

Sec. 4.08.010. Delegation of contracting authority.

A. Except as specifically provided herein, all contracts, including claim and lawsuit settlement agreements, to which the City is a party shall be approved by the City Council prior to execution. This Section may not be construed to delegate authority to approve or execute, without City Council action, any contract, contract amendment, change order or other legal instrument that is required by State Law to be approved by the City Council.

B. The City Council hereby authorizes the City Manager to approve and execute the following by administrative action without further City Council action:

1. A contract for expenditures in the City Council approved budget for which the contract amount does not exceed the amount which requires compliance with state competitive procurement laws, provided that all such contracts and expenditures are in compliance with the City's annual budget and the City's fiscal and budgetary policy.

2. A change order to a contract required by state law to be procured through either competitive bid or competitive sealed proposal that increases or decreases the contract price by $~~105~~50,000.00 or less, provided that the original contract price may not be increased by more than 25 percent, and provided that a change order may only make necessary changes to plans or specifications after the performance of the contract has begun or increase or decrease the quantity of good and services.

3. A contract for the purchase of goods or services through local purchasing programs and cooperative purchasing programs that the City has been approved to be a participant of, provided that the funding for the contract is appropriated in an approved budget.

4~~3~~. A contract amendment to a contract not required by state law to be procured through competitive bid or competitive sealed proposal modifying the scope of services and increasing or decreasing the contract price by $100,000 or less, provided that the original contract price may not be increased or decreased by more than 25 percent of the original contract price.

5~~4~~. A change order or contract amendment modifying a contract originally approved pursuant to Subsection 4.08.010.B.1., provided however that the total contract price as amended cannot exceed $100,000.00.

6~~5~~. The exercise of a renewal option, if the expenditure required during the renewal term is $100,000.00 or less.

C. The City Manager may delegate authority granted under this Section to the extent allowed by this Code, the City Charter, or State law. The City Manager may make rules and procedures, which are not in conflict with this Code, the City Charter, or State law, concerning the form and substance of administrative actions necessary for the contracting and change order process.

D. All contracts or expenditures in excess of the amount that requires compliance with the state competitive procurement laws must be approved by the City Council, even if they are included in the City Council-approved budget, except as otherwise provided in Subsection 4.08.010.B.3.~~.~~

E. If a method of procurement other than competitive sealed bidding or competitive sealed proposals is allowed by law, the City Manager or designee shall have the authority to determine whether to use an alternative method of procurement. If the City Manager or designee is considering using a method other than competitive sealed bidding, the City Manager or designee shall make such determination before notice is given. If the competitive sealed proposals requirement applies to the contract, the City Manager or designee shall consider the criteria described in State Law to determine the best value for the City.

F. The City Council hereby authorizes the City Attorney to approve an agreement for outside attorney legal services for $100,000.00 or less provided that sufficient funds have previously been appropriated by City Council. Any other agreement for outside attorney legal services must be approved by Council.

SUBJECT:
Second Reading - Administrative Department Updates

SUGGESTED ACTION:
Second Reading of an Ordinance amending § 2.08.010. "Administrative Departments" of the Georgetown Code of Ordinances -- Randi Cormack, Budget Manager

ITEM SUMMARY:
This ordinance formally re-establishes Administrative Departments as required by City Charter for the fiscal year 2027 Annual Budget. This ordinance has not been updated since September 12, 2023. The ordinance reflects new Administrative Departments, Development Services and Intergovernmental Relations and re-naming 311 Call Cetner to AskGTX, Purchasing to Procurement and Contract Services and Building Inspections to Inspection Services.

FINANCIAL IMPACT:

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, AMENDING SECTION 2.08.010 OF THE CODE OF ORDINANCES REGARDING ADMINISTRATIVE DEPARTMENTS; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; INCLUDING A SEVERABILITY CLAUSE; AND SETTING AN EFFECTIVE DATE.

WHEREAS, the City Council has reviewed the proposed 2027 Annual Budget for the City of Georgetown, and the Administrative Department revisions contained therein; and

WHEREAS, City Charter Section 5.04 "Directors of Departments" establishes the City's organizational hierarchy; and

WHEREAS, the Administrative Departments are established and maintained for budgetary purposes, and the City proposes certain changes to the organization of such Departments; and

WHEREAS, the City Council deems it necessary to amend § 2.08.010 of the City of Georgetown Code of Ordinances entitled "Administrative Departments."

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

SECTION 1. The facts and recitations contained in the preamble of this ordinance are hereby found and declared to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

SECTION 2. The City of Georgetown Code of Ordinances, Chapter 2.08, Administration, Section 10, Administrative Departments, is hereby amended to read as follows:

There are hereby established the following administrative departments of the City:

Inspections, Development Services, Planning

City Attorney's Office and Real Estate Services

City Manager's Office, Organizational development, Emergency Management, Intergovernmental Relations

City Secretary's Office

Communications and Public Engagement

Customer Care and AskGTX

Economic Development

Tourism, Downtown, Arts & Events

Electric Services

Finance Administration, Accounting, Fleet, Municipal Court, Procurement and Contract Services, and Utility Billing

Fire and Emergency Medical Services

Human Resources

Information Technology

Library

Parks and Recreation

Police Services and Animal Control

Public Works, Airport, Code Compliance, Environmental Services, Facilities, Stormwater, and Streets

Systems Engineering and Transportation Planning

Water Services

SECTION 3. All ordinances and resolutions, or parts of ordinances and resolutions, in conflict with this Ordinance are hereby repealed, and are no longer of any force and effect.

SECTION 4. If any provision of this Ordinance or application thereof to any person or circumstance shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this Ordinance which can be given effect without the invalid provision or application, and to this end the provisions of this Ordinance are hereby declared to be severable.

SECTION 5. The Mayor is hereby authorized to sign this Ordinance and the City Secretary to attest. This ordinance shall become effective October 1, 2026 with adoption of the 2027 Annual Budget by the City Council of the City of Georgetown, Texas.

PASSED AND APPROVED on First Reading on the 25nd day of August, 2026.

PASSED AND APPROVED on Second Reading on the 8th day of September, 2026.

SUBJECT:
Second Reading - Amendment to Miscellaneous Utility Account Fees

SUGGESTED ACTION:
Second Reading of an Ordinance amending Section 13.04.240 of Chapter 13.04, Article VII of the Code of Ordinances of the City of Georgetown, regarding the Meter Tampering Fee -- Cherie Hernandez, Customer Billing Manager

ITEM SUMMARY:
As part of the FY27 budget process, City staff reviewed miscellaneous utility fees to confirm that the amounts continue to reflect the labor, equipment, materials, and administrative costs associated with providing each service.

The review identified recommended adjustments to the Meter Tampering Fee.

Meter tampering incidents require investigation, documentation, coordination between multiple departments, field response, and the repair or replacement of City equipment. The proposed increase reflects the current costs associated with responding to and correcting these incidents.

The proposed fee will become effective October 1, 2026.

A summary table outlining the current and recommended fee amounts is included below:

Deposit Requirement or Service Charge	Current	Recommended
Meter Tampering Fee	$880	$990

FINANCIAL IMPACT:
Revenue associated with miscellaneous utility fees is budgeted within the City's Utility Fund. The proposed adjustments are intended to recover the City's costs when these services are required and reduce the amount subsidized by the broader utility customer base. The overall revenue impact is expected to be minimal because these fees are assessed only when the applicable service or incident occurs, as these fees are not designed to be revenue generating

Review of Miscellaneous Utility Account Fees

City Council, August 25, 2026

GEORGETOWN TEXAS

Purpose of Review

- Regular review ensure policies align with current service realities
- Confirm that fees continue to reflect the City's current cost to provide each service
- Update charges when labor, equipment, materials or operational requirements have changed.
- Recover incident-specific costs from the customer requiring the service rather than spreading those costs across all utility customers.
- Maintain clear and transparent fees in the City's ordinance.

Methodology

- Review completed by City staff as part of the FY27 Budget process
- Evaluated:
  - Staff time
  - Equipment and vehicle usage
  - Administrative processes
- Recommendations ensure cost recovery and minimize customer subsidy

Summary of Proposed Fee Changes

Deposit Requirement or Service Charge	Current	Proposed
Meter Tampering Fee	$880	$990

Meter Tampering Fee

- Applies when irregular usage or wiring is identified by Billing or field staff
- Covers the investigation and corrective work required to protect City equipment and restore service properly

Process:

🔎 Review and document the irregular usage
🎫 Create a service ticket for investigation
💼 Dispatch a meter technician to inspect the site
⚖️ Coordinate with Billing, Legal, and Police when needed
🔌 Disconnect and reconnect service
📟 Replace the meter and meter can, when necessary

2026 Cost Breakdown:

👷 **Labor:** $281.21
📟 **Meter & Meter Can:** $677.53
🚚 **Service Truck:** $24.45

Total Calculated Cost: $983.19

Meter Tampering Fee

What is Driving the Cost?

Replacement metering equipment represents the largest portion of the cost—approximately 69% of the total calculated fee.

The proposed $990 fee more closely reflects the actual cost of investigating and correcting a meter tampering incident.

Costs Included:

- 👷 Staff time and field investigation
- 📟 Replacement meter and meter can
- 🚚 Service truck and equipment
- 📋 Administrative review and follow-up
- 👷 **+** 📟 **+** 🚚 **= Actual Cost to Respond**

This fee ensures the costs associated with investigating and correcting meter tampering are paid by the responsible customer rather than spread across all utility customers.

Financial Impact

- Revenue associated with miscellaneous utility account fees is budgeted within the City's Utility Funds and the Joint Service Fund
- The proposed adjustments are intended to recover the current labor, equipment, and material costs associated with meter tampering investigations and additional electric service trips.
- The overall revenue impact is expected to be minimal because the fees are assessed only when the applicable service or incident occurs.
- The purpose of the fees is cost recovery – not generating additional revenue.

First Reading of an Ordinance

- AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, AMENDING SECTION 13.04.240(c) OF CHAPTER 13.04, ARTICLE VII OF THE CODE OF ORDINANCES OF THE CITY OF GEORGETOWN, REGARDING THE METER TAMPERING FEE; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; INCLUDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, AMENDING SECTION 13.04.240(c) OF CHAPTER 13.04, ARTICLE VII OF THE CODE OF ORDINANCES OF THE CITY OF GEORGETOWN, REGARDING THE METER TAMPERING FEE; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; INCLUDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

WHEREAS, the City Charter grants the City Council the authority to adopt and amend ordinances necessary for the management of City and fiscal operations; and

WHEREAS, City Staff conducted a review of the Meter Tampering Fee and associated costs as part of the annual budget review process; and

WHEREAS, the review determined that the Meter Tampering Fee should be updated to reflect current labor, material, and equipment costs associated with investigating and responding to meter tampering incidents; and

WHEREAS, the City Council of the City of Georgetown wishes to amend the Meter Tampering Fee in Section 13.04.240(c) of the Code of Ordinances, to be effective October 1, 2026;

NOW THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

Section 1. The meeting at which this ordinance was approved was conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

Section 2. The facts and recitations contained in the preamble of this ordinance are hereby found and declared to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

Section 3. Section 13.04.240(c) of the Code of Ordinances is hereby amended as shown below:

> C. Meter Tampering Fine: $990.00. This fee shall be assessed for any violation of the provisions of this Section, with each violation constituting a separate offense. This fee shall be in addition to any costs accrued for the replacement or repair of damaged meters or meter reading equipment, or unbilled consumption.

Section 4. All ordinances or resolutions that conflict with the provisions of this ordinance are hereby repealed, and all other ordinances or resolutions of the City not in conflict with the provisions of this ordinance shall remain in full force and effect.

Section 5. If any provision of this ordinance, or application thereof, to any person or circumstance, shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this ordinance, which can be given effect without the invalid provision or application, and to this end the provisions of this ordinance are hereby declared to be severable.

Section 6. The Mayor is hereby authorized to sign this ordinance and the City Secretary to attest. This Ordinance shall become effective and be in full force and effect on October 1, 2026, in accordance with the provisions of the City Charter of the City of Georgetown.

SUBJECT:
Second Reading - Adoption of the 2026 National Electric Code

SUGGESTED ACTION:
Second Reading of an Ordinance to adopt the 2026 National Electric Code with local amendments -- Greg Holt, Assistant Chief Building Official

ITEM SUMMARY:
The adoption of this code will allow the city to parallel the state-level adoption by the Texas Department of Licensing and Regulation (TDLR) and to align with modern electrical safety standards and technology.

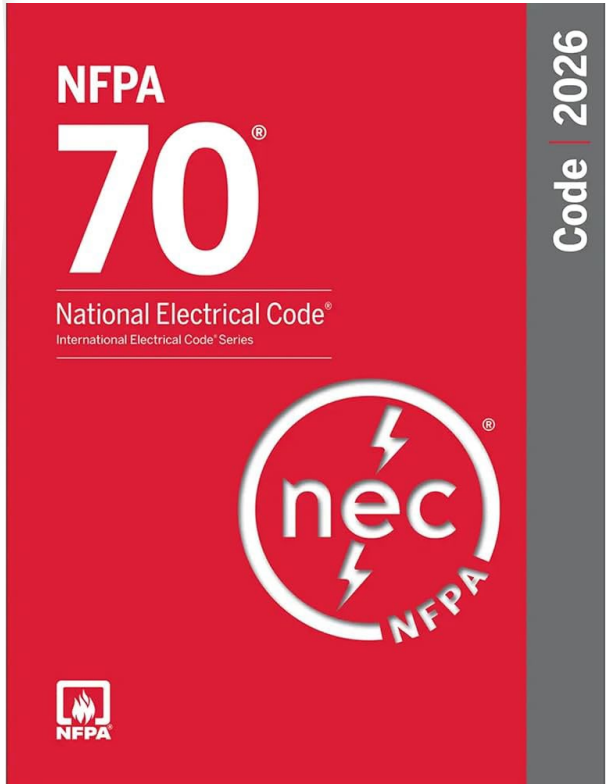
FINANCIAL IMPACT:

SUBMITTED BY:
Cindy Gilbert, Permitting and Inspections

ATTACHMENTS:
2026 NFPA code adoption-National Electric Code Presentation.pdf
Exhibit A_draft_8.25.2026.pdf
Ord_NEC_2026 Adoption_First Reading_draft_8.25.2026.pdf

Adopting the 2026 NFPA 70

National Electrical Code



Texas Department of Licensing and Regulation

Required Licensing: Almost all electrical work in Texas requires a license, with specific exemptions for certain industries like agriculture, manufacturing, and low-voltage work.

Licensing & Types: TDLR issues licenses for different levels, including Apprentice, Journeyman, and Master Electrician.

Safety Standards: Electricians must follow the latest National Electrical Code (NEC) adopted by TDLR.

Code Cycle (NFPA 70): The NEC (NFPA 70) is updated by the National Fire Protection Association every 3 years. Texas adopts these new, safer standards, and continuing education ensures electricians are trained on these updates.

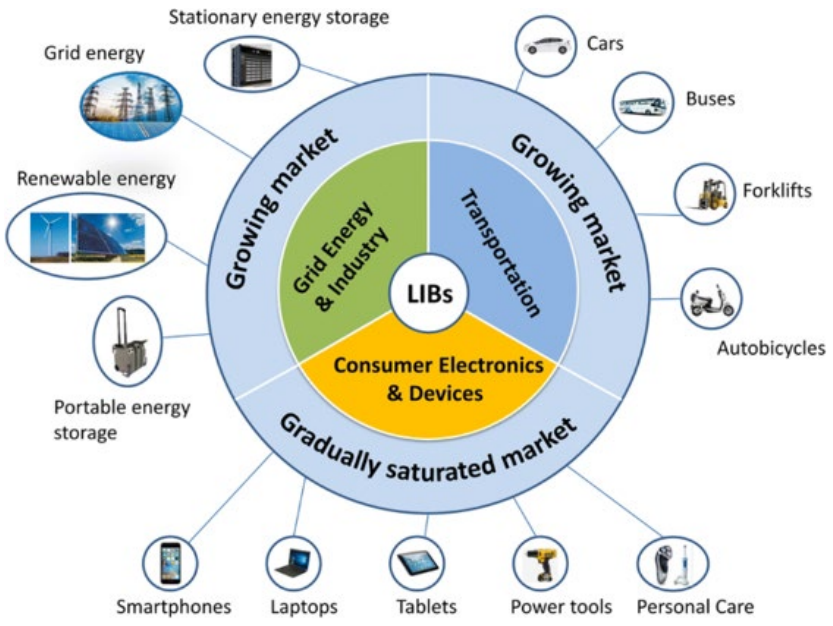
Local Authority (AHJ): While TDLR sets statewide standards, local municipalities (Authorities Having Jurisdiction - AHJs) may have their own ordinances and specific code adoption timelines.

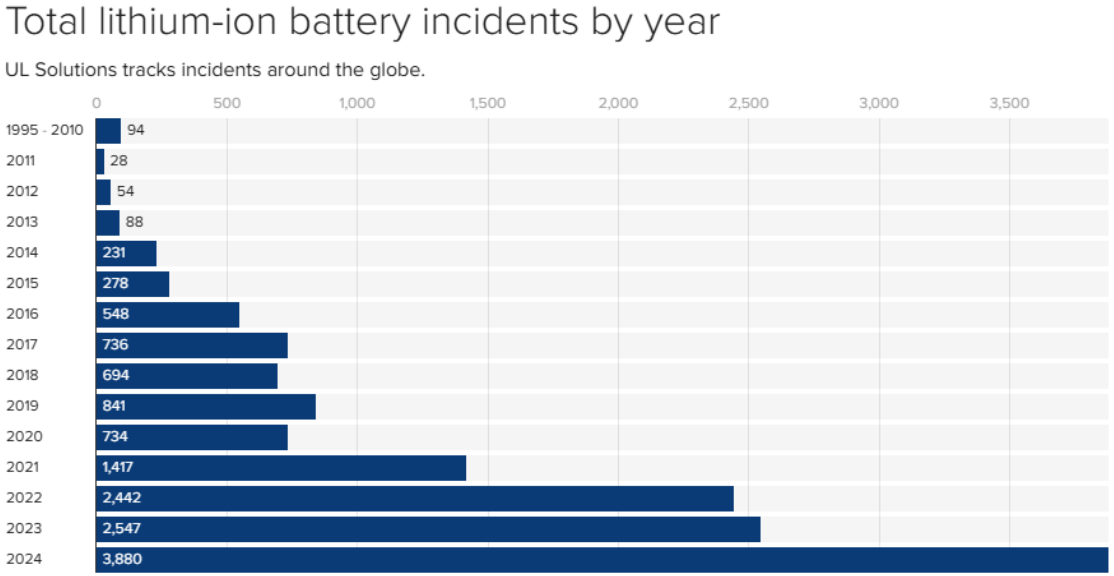
The 2026 NEC features "hundreds of changes" that fundamentally shift the layout of the code.

- **Article Reorganization**: Key articles have been moved, such as **Load Calculations** (moving from Article 220 to **Article 120**) and **Energy Management Systems** (moving from Article 750 to **Article 130**).
- **Medium Voltage Consolidation**: New articles (**265 through 270**) now house requirements for systems over 1000 volts AC and 1500 volts DC, replacing the deleted Article 235.
- **Limited-Energy Realignment**: Chapter 8 (Communications) is no longer a standalone chapter; its content is being integrated into a newly unified framework in **Chapter 7** (Articles 720–750).
- **New Technologies**: A new **Article 624** was added to address Electric Self-Propelled Vehicle Power Transfer Systems (ESVSEs), covering bidirectional charging and mobile power.
- **Expanded Safety Protections**: Significant updates were made to **Arc-Flash Hazard Marking** (Section 110.16) and **GFCI protection** for outdoor HVAC equipment.

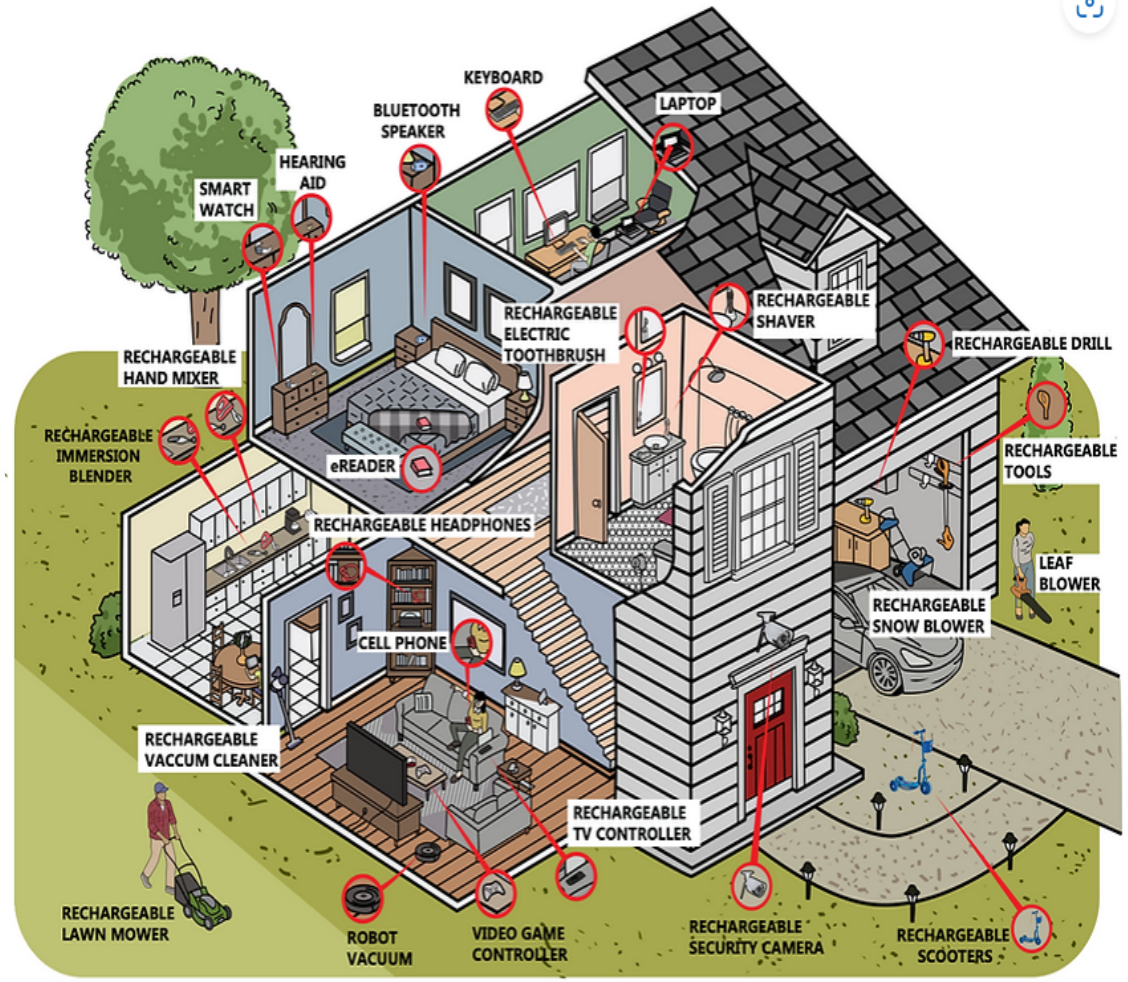
New Technology and More Complicated Systems

Energy Storage Systems (ESS) and Solar: As solar, battery, and alternative energy systems evolve, the 2026 code provides updated safety standards. Operating on older codes leaves installations vulnerable to outdated, less safe methods for disconnecting and servicing these systems.

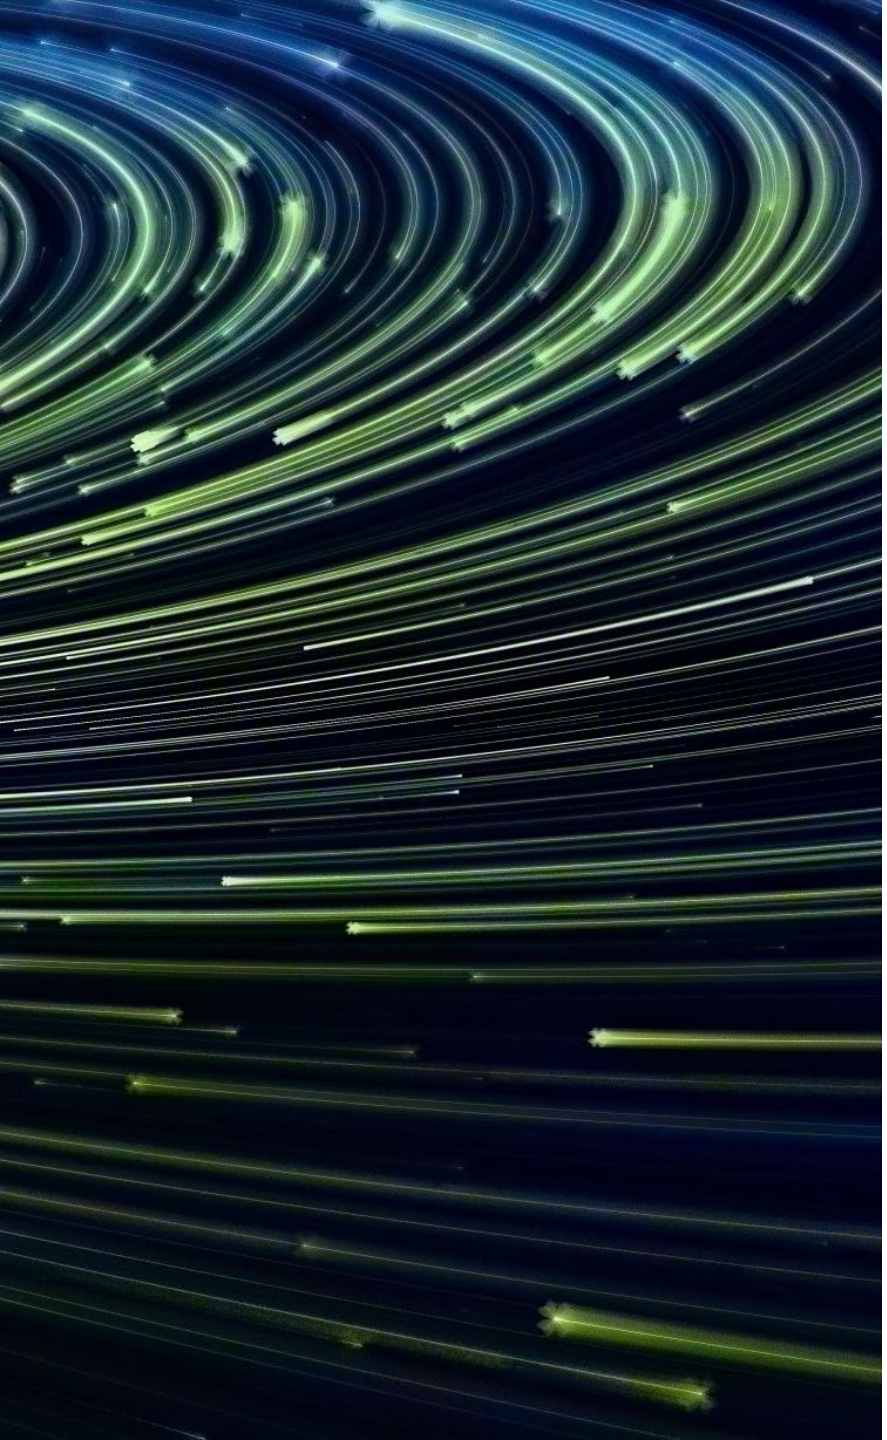




Common Household Items with Lithium-Ion Batteries:



- **Qualified Personnel (Article 625):** Permanent electric vehicle power transfer system equipment must be installed by qualified persons, increasing requirements for professional, licensed installation.
- **Load Calculations (Section 120.57):** For Electric Vehicle Supply Equipment (EVSE), the load calculation is the larger of the nameplate rating or 7200 VA (30A @ 240V). Article 625 allows for load calculation reductions based on Energy Management Systems (EMS).
- **New Article 624 - Electric Self-Propelled Vehicles (ESV):** Addresses charging for non-EV vehicles such as farm equipment, boats, aircraft, and golf carts, covering power transfer and potential bidirectional power export.
- **Emergency Disconnects (Section 625.43):** Expanded requirements for clearly identified emergency disconnects for permanently connected EVSE and Wireless Power Transfer Equipment (WPTE).
- **GFCI Protection (Section 625.54):** Receptacles used for EV charging require GFCI protection, regardless of location.
- **Stationary Batteries (Article 480):** Applies to all stationary battery installations with a capacity greater than 3.6 MJ (1 kWh)
- **Continuous Load Sizing**: EV chargers are classified as continuous loads, requiring branch circuits and overcurrent protection to be sized at **125% of the load**
- **Emergency Disconnects**: EVSE installations now require one or more clearly identified **emergency disconnects** located between **20 and 100 feet** from the equipment.



Safety and Clarity Changes

Reorganized Structure for High-Voltage & Low-Voltage:

High-Voltage: Systems over 1,000V AC or 1,500V DC now have a dedicated "playbook" (Articles 265–270), making it easier to find relevant rules for medium-voltage commercial and industrial jobs.

Limited-Energy: Chapter 7 has been completely remodeled with a new suite of articles (720–750) for technologies like **Power over Ethernet (PoE)** and security systems, reflecting the explosive growth of these low-voltage applications.

Emergency Responder Safety: Refined rules for outdoor service disconnects in one- and two-family dwellings ensure that first responders can quickly and safely cut power during emergencies without entering the building.

Commercial Electrical Changes

Mandatory Arc-Flash Labels: Section **110.16** now aggressively expands arc-flash hazard labeling to almost all non-residential electrical equipment, including switchboards, panelboards, and motor control centers. Equipment must have permanent, visible labels if it could be examined or maintained while energized.

Reorganized Load Calculations: Branch circuit and feeder load calculations—previously scattered—have been completely consolidated into the new **Article 120**. Architects and contractors must update their specifications to avoid permitting delays.

Stricter EV Charging Rules: All 30A, 50A, and 60A Electric Vehicle (EV) charging receptacles must now be specifically listed for EVSE use. The common workaround of using general-purpose 50A receptacles is no longer allowed, and commercial chargers require emergency shutoffs.

Consolidated Medium-Voltage Rules: Grounding and bonding for medium-voltage systems have been consolidated into **Articles 265–270**, potentially requiring larger grounding conductors.

Why Change?

- **Misaligned Inspection Standards:** If an inspector relies on the 2020 or 2023 NEC, they cannot properly enforce new, mandatory safety features, leading to situations where a project is legally compliant locally but technically unsafe by modern standards.
- **Failed Inspections/Callbacks:** Contractors working to the new standard may be unnecessarily delayed or forced to revise work because an inspector is using an outdated, more restrictive, or less specific code, creating "callbacks" and confusion.
- **Enforceability Challenges:** When inspectors use old codes, they struggle to enforce requirements for new technologies that did not exist in older cycles. (e.g., bidirectional EV charging or advanced, smart-enabled panel boards)

Conclusion

- Adopting the **2026 NFPA 70** (National Electrical Code) is a proactive move to align with modern technology, improve worker safety, and simplify complex electrical installations. As the "benchmark for safe electrical design", this edition introduces critical updates that will help the City of Georgetown stay in line with ever changing technology and electrical safety standards.

EXHIBIT A

CHAPTER 15.16. ELECTRICAL CODE

ARTICLE I. GENERAL

Sec. 15.16.005. Purpose and adoption of 2026 National Electrical Code.

The purpose of this Chapter to assist in safeguarding persons and property from hazards arising from the use of electricity. Except as otherwise specifically provided, all references to the term "Code" in this Chapter 15.16 shall be to the NFPA 70, 2026 National Electrical Code, published by the National Fire Protection Association, which is hereby adopted by reference as if set forth in whole except as otherwise specifically stated herein, and including the provisions of that Code pertaining to the registration with the City of Georgetown of the required State of Texas Electrical License for the protection of the public.

Sec. 15.16.010. Enforcement of code provisions.

Article 90 of the Code, Introduction, is specifically adopted by the City. The administration and enforcement of this Chapter shall primarily devolve upon the City Building Official or his/her representative. They shall have the right to inspect and enter upon all premises and surrounding property and the public as a whole when applying current state law allowing right of entry. The Police Department, City Electrical Department, and the Fire Department shall also be charged with the enforcement of this Chapter and shall, so far as possible, act to enforce this Chapter.

Sec. 15.16.020. Appeals Board.

The Building Standards Commission shall be the appeals board for matters relating to interpretation and enforcement of the Code and to licensing registration. The Building Standards Commission will also consider appeals of any decisions made by a City Inspector in accordance with the Building Standards Commission Bylaws. The Building Standards Commission shall perform its duties in accordance with all applicable laws, including without limitation those ordinances and bylaws pertaining to the Building Standards Commission adopted and/or approved by the City Council.

Sec. 15.15.030. Penalty for violation of Chapter.

Any person who shall violate any of the provisions of this Chapter or who shall fail to comply with the requirements of this Chapter shall be deemed guilty of a misdemeanor. Each and every day's continuance of any violation of the provisions of this Chapter shall constitute and be deemed a separate offense. In case of any such corporation, the officers and agents, and person or persons actually performing the work for such corporation shall be subject to the penalties herein provided. Any person violating any provision of this Chapter, or the Code as adopted is prohibited and subject to punishment as provided in Section 1.08.010 of the City of Georgetown Code of Ordinances.

Sec. 15.16.040. Licenses—Registrations, permits required.

No person shall enter upon the erecting, construction, alteration or change of any electrical installation, work, wiring or fitting or electrical machinery covered by this Chapter until such person shall have first secured all necessary State of Texas license registration and permits as required by this Chapter.

Sec. 15.16.050. Supervision of placement of wires, etc.

The City Electrical Department or a regular franchised utility company, is hereby authorized, empowered, and directed to have general supervision over the placing, stringing or attaching of telegraph, telephone, electric light or other wires and cables, and the placing of all poles and appliances, within their own system, so as to prevent fires, accident or injury to persons or property; to cause all such wires and electric lights to be so placed, constructed, and guarded as not to cause fire, accident, or endanger the life or property of any inhabitant of the city; and all such lights and wires or electrical apparatus now existing, as well as those hereafter constructed and placed, shall be subject to such supervision.

Sec. 15.16.060. When wire is to be disconnected.

A. In time of fire, severe weather conditions, or other emergency, where in the safety of lives or property may be endangered by the continued operation of electrical service wires or apparatus providing electrical current, such may be ordered disconnected by the City Electrical Department, the Mayor, the City Manager, Fire Chief, Emergency Operation Coordinator, the Building Official, the Inspection Services Staff or the Chief of Police. Any such order shall be binding on every person owning or controlling such wire or apparatus and such wires or apparatus as may be designated by any of the above authorized officials shall be promptly disconnected and left disconnected until authorization from the City Building Official or designee is given to the electrical utility company for reconnection.

B. The City Utility Department shall request the electrical service to be disconnected from any building and/or premises, except private residences and/or apartment buildings used as residences, each time such buildings or premises have a change of occupants and shall not be reconnected until authorized by the City Building Official or designee.

C. The City Utility Billing Department shall request the electrical service be disconnected for private residences and/or apartment buildings when the occupant or owner, or the City Building Official or designee requests such action. The utility company shall not again supply electricity to such residence and/or apartment building until authorized to do so by the City Building Official or designee.

D. The owners and/or the new occupants of such disconnected buildings and/or premises shall make application to the City Building Official or designee for the inspection. The fee for such inspection shall be set by the City Council. The electrical inspector shall make the inspection as soon as practicable, exclusive of Saturdays, Sundays, and holidays, after such application is made.

Sec. 15.16.070. Reserved.

ARTICLE II. STATE OF TEXAS LICENSE REGISTRATION

Sec. 15.16.080. Definition.

For the purpose of this Chapter:

"Commission" means the Building Standards Commission of the City of Georgetown.

Sec. 15.16.090. Reserved.

Sec. 15.16.100. Categories of electricians.

The City of Georgetown recognizes the same categories of electricians as the State of Texas as set forth in Chapter 1305 of the Texas Occupations Code.

Sec. 15.16.110. Supervision.

All work shall be done under the general supervision of a licensed Master Electrician.

Sec. 15.16.120. Qualifications—Requirements for registration of State licenses.

Any person meeting the requirements of the State of Texas for a particular category of license and possessing a valid license issued by the State of Texas shall be qualified to register that license in the City of Georgetown.

Sec. 15.16.130. Reserved.

Sec. 15.16.140. Examinations of electricians.

Examinations will be conducted by the State of Texas in accordance with the Texas Electrical Safety and License Act.

Sec. 15.16.150. Reserved.

Sec. 15.16.160. Registration.

All electricians will register with the City of Georgetown at the Building Office prior to commencing any work. Every application shall show a valid State of Texas Driver's License Number, and provide the full name, date of birth, weight, height, color of eyes, color of hair, gender, residence address, business address, and a photo ID of the applicant issued by a government agency. The applicant shall be required to have his/her license and registration in his/her possession at all times while on the job.

Sec. 15.16.200. Transfer.

It is unlawful for any person to transfer his/her electrician's State of Texas license or City of Georgetown registration to allow the use of this license directly or indirectly by another person for the purpose of obtaining a permit to do electrical work. It is unlawful for any person not holding a State of Texas license or City of Georgetown registration to use the same of another, for purpose of doing electrical work or securing a permit to do electrical work.

Sec. 15.16.210. Reserved.

Sec. 15.16.220. Revocation of registration.

A. An electrical registration of any class issued by the City under the provisions of this Chapter may be suspended or revoked upon the unanimous decision of the Commission.

B. Registrations may be suspended or revoked should the holder violate any provisions of the Code as adopted, State Law or City Ordinance or regulation relating to or governing electrical wiring, repairing or construction. In the event termination of a suspension or revocation of an electrical license registration should fall within the next registering year.

C. No registration shall be suspended or revoked unless the registrant shall have been given an opportunity to appear and be heard by the Commission. The registrant shall have at least ten days written notice specifying the reason(s) for suspension or revocation.

D. Certain Acts Prohibited. It shall be a violation of this Code for any person:

1. To display, permit to be displayed or to have in one's possession, any instrument purporting to be a registrant issued pursuant to this Code and the State of Texas license, knowing such instrument to be fictitious, canceled, suspended, revoked or altered.

2. To knowingly lend, transfer or permit the use of any registration for the purpose of performing or obtaining a permit for electrical work, to any person not entitled thereto under the provisions of this Code or the State of Texas.

3. To fail or refuse to surrender to the City Building Official or designee, on demand, an electrician's registration, which has been canceled, suspended, revoked or altered as provided by law.

4. To apply for, or have in one's possession, more than one current license of the same type provided for in this Code or the State of Texas.

5. To use a false or fictitious name or address in any registration application, renewal, or duplicate request, or knowingly make a false statement, conceal a material fact or otherwise commit fraud in making said application, renewal or duplicate request.

6. To employ as a Master, Journeyman, or Apprentice Electrician any person not then licensed as provided in this Code or the State of Texas.

7. To perform any electrical work requiring a State of Texas license or City of Georgetown registration, without said license/and or City registration or while said license is suspended or canceled.

8. To perform electrical work in any manner in violation of any restrictions imposed on a licensee.
9. To perform electrical work as a Journeyman or Apprentice Electrician on a job while not employed under the supervision of the Master Electrician of record of said job.
10. To fail to request a final inspection upon completion of all electrical wiring and installation requiring a permit.
11. To use a Contractors License to secure a permit while not a Master Electrician or having a Master employed by the person holding the Contractors License.
12. To perform electrical work as a licensed electrician or person for hire on any job permitted under a homeowners permit or to secure a homeowners permit and then allow someone else to perform the work.

Secs. 15.16.230, 15.16.240. Reserved.

Sec. 15.16.250. Suspension/penalties.

A. The registration of any person may be suspended upon determination by the Commission that said registrant has committed any of the following offenses:
   1. Taking out a permit in the name of person authorized to do the electrical work and thereafter permitting a person not authorized by this Code to perform the electrical work.
   2. Tampering with, diverting from or in any way interfering with the proper action or registration of any electric meter.
   3. Violating any provision of this Code, State law, City Ordinance or regulation relating to or governing electrical wiring, repairing, or construction while on probation imposed by the Commission.
   4. Violating a term of probation or suspension.

B. Suspension provided for in this Code shall in the first instance be for a period of up to six months. For subsequent offenses said suspension shall be for a period of up to one year.

C. The suspension of any registration may be extended for a like period as the original suspension upon a final determination by the Commission that a registrant has been performing electrical work while his/her registration is suspended. Said suspension extension may be in addition to any other penalty assessed, as provided in this Code.

Sec. 15.16.260. Surrender and return of registration.

Any registration which has been suspended pursuant to this Code shall be surrendered to and retained by the City Building Official or designee. At the end of the period of suspension, the surrendered registration shall be returned to the registrant and be valid under the provisions in this Chapter, provided:

A. No further violations of this Chapter or the Code are committed by suspension period; and

B. If the period of suspension extends beyond the normal expiration date of said registration, the registrant has paid all fees in accordance with this Chapter.

Sec. 15.16.270. Reserved.

ARTICLE III. PERMITS AND INSPECTIONS

Sec. 15.16.280. Inspection does not relieve owner responsibility.

This article shall not be construed to relieve from or lessen the responsibilities of any person who owns, operates, or installs electrical wires, appliances, apparatus construction, or equipment for the damage to property or persons, injured by any defect therein nor shall the City or any agent thereof be deemed to assume any such liability by reason of the inspection authorized herein or the certificate of inspection issued by the City Building Official or designee.

Sec. 15.16.290. Permits required.

A. No person shall commence the erection, construction, alteration or change of any electrical installation, machinery, apparatus, work or wiring in the City until a permit has been issued by the City Building Official or designee covering each installation to be made.

B. When any wiring or apparatus is installed in such a manner that the same could be used for electric light or power purposes, it shall be deemed that the wiring or apparatus is used for such purposes and permit shall be required and inspection made as provided for such purpose.

C. It shall be unlawful for the City Electric Department to do any wiring of any nature in or on any building, except power houses and substations of electric light, heat and power companies operating under a franchise granted by the City, for which a permit has not been issued, or to make any electrical connections to any building or electrical wiring or apparatus until a certificate of inspection or written statement authorizing connection has been issued by the City Building Official or designee. All persons operating under a regular franchise granted by the City shall, upon written notice by the City Building Official or designee, disconnect any circuit, main service wires, branch feeder wires, or distribution system, as designated by such notice, and shall not reconnect such installation except upon written permission from the City Building Official or designee.

D. No permit shall be required for the installation of wires to operate telephone, telegraph or district messenger services, or repair or replacement of the same electrical equipment wiring or apparatus.

Sec. 15.16.300. To whom permits shall be issued.

Permits required by the provisions of this article shall be issued only to those persons who have secured a State of Texas Electrical Contractor's and Electrical Sign Contractor's License and have registered with the City or his/her representative under the provisions of this Chapter or to a person whose home is owned and occupied by him/her.

Sec. 15.16.310. Permit fees.

A. Permit fees for Electrical work shall be set forth by the City Building Official or designee and adopted by the City Council.

B. In case any work, for which a permit is required by this Chapter, is started prior to obtaining said permit, the fee above specified shall be doubled. The payment of such doubled fee shall not relieve any person from fully complying with the requirements of this Chapter in the execution of work nor from other penalties prescribed herein.

Sec. 15.16.320. Issuance—Electrical permit.

The City Building Official or designee shall issue an electrical permit showing the permit number, the building or house number, a description of the work to be conducted, and the name of the contractor.

Sec. 15.16.330. Construction power service, general.

Construction power services shall be authorized for a period of time necessary for completion, final inspection, and testing of the building or structure's electrical system. This service is not to exceed six months for dwelling unit or one year for commercial or institutional occupancies. An extension may be granted by the City Building Official or designee for up to three months on dwelling unit construction sites and six months on commercial or industrial sites. Construction power service can be ordered disconnected at any time by the City Building Official or designee when the installation is declared unsafe or construction work ceases for a period of one month. Reconnection of construction service thus ordered shall not be reconnected until approved by the City Building Official or designee and a renewal fee is paid to the City utility department.

A. Temporary Construction Power Poles. A temporary construction power pole shall be authorized to service not more than one construction site and only when the following requirements are met:

1. The responsible contractor applies for service at the City Utility Office; furnishes the assigned address for the site involved; certifies that a temporary metered construction power pole meeting city standards has been erected on the site within 60 feet of utility pole which is capable of providing the service; and the site has been marked with an address-sign clearly visible from the street.
2. The temporary power pole shall be long enough in length to be a minimum of 12 to 14 feet above grade after installation. Pole shall be set in the earth and shall be guyed to withstand lateral pressures of the service under normal weather and wind conditions and will provide a 12-foot clearance over driveways and an 18-foot clearance over public streets.
3. The temporary power pole shall be grounded as per City of Georgetown requirements and have a metered service of sufficient size to meet the construction needs. All receptacle outlets shall be protected by G.F.C.I's as required per Article 590.7 of the Code.

B. Permanent Construction Service. Permanent construction service may be authorized for a building or structure under construction provided that:

1. The permanent service equipment has been installed and the building is dried-in.
2. The service disconnect and service grounding system has been completed.

3. All construction feeders and branch circuits to be activated are installed and properly safe-guarded from electrical shock and overload.
4. A notice is posted on the main disconnect and all activated main and sub-panels indicating they are in-service and are not to be opened except by the responsible electrical contractor.
5. The system has been inspected and approved by the City Building Official or designee.
6. The fuses in the main disconnect switch or the breaker shall be in place when the City Building Official or designee performs the permanent power inspection of the electrical work.

Permanent construction service will be required on the building or structure prior to final inspection and certification by the City Building Official or designee.

Sec. 15.16.340. Inspections.

Inspections by the City Building Official or designee shall be requested by the person performing electrical work for which a permit has been issued. The electrical inspector shall make the inspection as soon as practicable exclusive of Saturdays, Sundays, and holidays. The electrical contractor, electrical sign contractor or the Master Electrician responsible may be required to be present at the construction site during the final inspection.

Sec. 15.16.350. Work not to be concealed.

Work will not be concealed until inspected and approval given of such work by the City Building Official or designee.

Sec. 15.16.360. Reserved.

Sec. 15.16.370. Approval tag.

After inspecting any electrical wiring, the City Building Official or designee shall leave notice in the form of a tag or label attached to the service entrance switch, which such notice shall clearly state whether the wiring is approved or is to be kept open for correction.

Sec. 15.16.380. Defective workmanship.

Any person engaged in the business of electrical construction or the installation of wiring or apparatus for electric light or power in the City who shall fail to correct any defect(s) in any work done by him after having been notified of such defect(s) by the City Building Official or designee and given a specified period of time within which to make such correction and fails or refuses within such time to correct such defect(s) in conformity with this Chapter or the lawful orders of the City Building Official or designee, shall not be issued any further permits until such defect(s) have been corrected. On any case in which any person shall continue to or persistently violate the provisions of this Chapter or the orders of the City Building Official or designee in relation to the same, the license of such person may be suspended or revoked upon recommendation by the Commission.

Sec. 15.16.390. Certificates of inspection.

On the satisfactory completion of the work covered by a permit in accordance with all ordinances and laws, the City Building Official or designee shall issue a certificate of inspection. The certificate of inspection shall certify that the work is in accordance with the rules governing the respective class to which it belongs.

Sec. 15.16.400. Effect of nonconforming existing work on issuance of certificate of inspection.

Where a permit is issued for an addition to existing work, wherein the new work is satisfactorily completed, but the existing work to which it is connected does not conform to the rules laid down by this Chapter, the City Building Official or designee shall issue a written statement to the effect that the new work complies with the rules, but that the existing work may not comply with the provisions of this Chapter. This statement shall constitute notice to the owner or other interested party that the entire installation may not comply with the provisions of this Chapter and may not prevent the issuance of a completion certificate for the new work.

Sec. 15.16.410. Refusal of certificate of inspection.

The City Building Official or designee is hereby given the authority to refuse to issue a certificate of inspection for any addition, or extension to any electrical wiring in or on any building wherein it is determined that the wiring is in an unsafe condition. The City Building Official or designee shall refuse to issue a Certificate of Inspection and no electric light and power company shall connect electrical current to the same if any violations of this Chapter exist.

Sec. 15.16.420. Routine inspection.

It shall be the duty of the City Building Official or designee to inspect all electrical wiring and apparatus in the city at any time in order to ascertain whether such electrical wiring or apparatus is in any respect dangerous to life or property; and, if any part of such electrical wiring or apparatus is found to be in a defective or dangerous condition, the City Building Official or designee shall have the authority to take whatever action is necessary for safety of life and property. City Building Official or designee shall notify the property owner or tenant within a reasonable time of any defect and/or action taken. If the owner of such defective wiring or equipment shall refuse or fail to comply with this requirement, he/she shall be held to be in direct violation of this Chapter.

Sec. 15.16.430. Repealed.

ARTICLE IV. TECHNICAL PROVISIONS

Sec. 15.16.440. 2026 National Electrical Code.

A. The governing edition of the 2026 National Electrical Code shall be that edition accepted by an adopting ordinance approved by the Commission and enacted by the City Council for the City of Georgetown.

B. In the installation, construction, erection, repair, and maintenance of all electrical wiring and apparatus, the rules and the requirements of the 2026 National Electric Code, as published by the National Fire Protection Association, together with such requirements and rules as are provided herein, shall be complied with and become a part of this Code.

C. In the event of any conflict between the provisions of this Chapter and the National Electrical Code, the more stringent of the two Codes, as interpreted by the City Building Official or designee, shall prevail.

Sec. 15.16.450. Services—Location.

All service entrance wires into a building shall be located at a point on the building specified by the Utility provider.

Sec. 15.156.460. Repealed.

Sec. 15.16.470. Service—Entrance.

A. All service entrance wires making overhead entrances into buildings shall follow section 230 and 310 of the 2026 NEC plus any specifications more restrictive by the Utility Provider.

B. The service entrance to the service switch cabinet "Main Disconnect Panel" shall be as short as possible, but in no case greater than three feet within the building without the special permission from the City Building Official or designee.

Sec. 15.16.480. Service—Mast.

A service mast is a service which penetrates a roof or supports a service drop. A mast shall be used anytime proper clearance cannot be achieved without penetrating the roof. A mast shall conform to section 230 of the 2026 NEC and any specifications that are more restrictive by the utility provider.

Sec. 15.16.490. Service lateral.

A. Underground secondary service conductors shall be run in two-inch schedule 40 PVC conduit or better.

B. Conduit trenches shall be left open until they are inspected and approved by the City Building Inspection Department or the City Electrical Department.

C. Conduit Sizing shall follow the Utility provider's requirements.

Sec. 15.16.500. Repealed.

Sec. 15.16.510. Meters—Types.

The Utility provider shall determine the type of metering and its location.

Sec. 15.16.520. Meters—Installation.

A. The meter shall be installed outside the building unless special permission is granted by the Utility provider and the City of Georgetown permitting and inspection department.

B. Under no circumstances shall any meter be moved or relocated unless authorization is given by the Utility provider and the City of Georgetown permitting and inspection department.

C. For one- and two-family dwelling and commercial applications—Meters shall be placed between four feet and six feet above the finished grade measured to center of meter can.

D. For three or more meters installed in anyone location, meters shall be installed not less than four feet from finished grade and no more than six feet from finish grade. Special installation shall be approved by the City Building Official and the Utility provider.

Sec. 15.16.530. Repealed.

Sec. 15.16.540. Repealed.

Sec. 15.16.550. Installation of outlets, switches, receptacle boxes, smoke detectors.

A. All lighting outlets, switches, and receptacle boxes shall be attached to the wood, steel, drywall or masonry framing of the building in accordance with the manufacturer's written instruction.

B. All switch and receptacle devices will be U.L.-listed. No “quick wire” devices are allowed. Wiring must be attached to the device with factory screws or factory screw and pressure plates. No push in pressure devices shall be allowed.

C. All Smoke/CO2 detectors shall be connected to a single dedicated circuit.

Sec. 15.16.560. Outlets—Residential.

A. Refrigerator shall be on a dedicated circuit.

B. In the kitchen, pantry, breakfast room, dining room, or similar area of a dwelling unit, the two or more 20 ampere small appliance branch circuits shall consist of no more than six outlets on each circuit.

Sec. 15.16.570. Grounding.

The grounding and bonding methods shall comply with 2026 National Electrical Code as adopted and as specified by this section for each service installed, including but not limited to:

A. An underground metallic water pipe shall not be used as the only grounding electrode for a service;

B. The grounding and bonding systems for the new construction of Commercial and metal or steel structures shall meet the requirements of the 2026 National Electrical Code and those as specified herein;

C. Bonding and/or grounding conductors shall be installed so as to prevent contact between dissimilar metal(s);

D. Gas piping shall not be permitted for use as a Grounding Electrode. This includes the following systems materials—Metal underground gas piping systems and aluminum;

E. Corrugated Stainless Steel Tubing (CSST) shall be properly bonded and grounded in accordance with manufactures recommendations and specifications and in accordance with Section 250.104(B) of the 2026 National Electric Code;

F. For that of existing structures where the encasement of the primary electrode in concrete is not feasible for a service up-grade, change out, repair, or addition of Services, at least one grounding electrode of the type specified in Article's 250-50 of the 2026 National Electrical Code as adopted shall apply;

G. The interior metal water piping system shall be bonded to the service grounding system with a conductor as per the 2026 National Electrical Code as adopted; the point of attachment shall be accessible. This requirement shall apply to both new construction and up-grade, change out, repair, or addition of services of existing structures;

H. All metallic water piping systems with a softener system shall have a bonding jumper, #6 or larger, between incoming water supply piping and outgoing treated water piping; and shall be installed with an approved bonding clamp inside the wall with accessibility to the clamps;

Sec. 15.16.580. Safeguards.

A. If a Utility service disconnect is required before the meter on 480V systems by the Utility providing service, an "Emergency Disconnect" is still required after the electric meter socket for customer use. Location and installation must meet all requirements of the 2026 NEC.

B. Terminal blocks are to be used in the connection of conductors within gutters.

C. On gutters serving new multiple services the electrical contractor will furnish terminal blocks with the capacity to serve the maximum number of available services (tenants).

D. When adding a meter (tenant) to an existing gutter service, the electrical contractor will be responsible for setting all meter cans and related equipment and furnishing tails long enough to access the existing terminal blocks. The contracted Electrician will make connections after the service has passed inspection and meter is set. Under no circumstances is the electrical contractor to tie in the service before it is inspected.

E. All gutters shall be marked on the exterior with available voltage, amperage and phases.

Sec. 15.16.590. Installation of cabinets and panel requirements.

A. All main and branch circuit panels shall be attached to wall or panel mountings with screws, studs, or toggle bolts.

B. All panels installed for electrical disconnecting means shall be installed with spare spaces and raceways for future use:

1. For each panel in residential buildings, a minimum of one spare one-inch raceway shall be installed from the panel to an accessible location in the attic or crawlspace for recessed panels only. All disconnect panels installed in residential occupancies must be large enough to accommodate the present load requirements and have at least three spare circuits for future use.

2. For each panel installed in commercial buildings, the requirements for that of paragraph (1) of this section shall apply; except that all disconnect panels installed in commercial occupancies shall provide at least four spare circuits for future use.

Sec. 15.16.600. Engineers seal required.

In accordance with the Texas Engineering Practice Act, all drawings pertaining to non-dwelling construction projects of 5,000 square feet or more shall bear the seal of an engineer licensed in the State of Texas. For non-dwelling construction projects of lesser square footage, the Building Official may require all drawings bear a seal of an engineer licensed in the State of Texas.

Sec.15.16.610. Addressing Requirements.

All Meter Sockets must be labeled with correct 911 address including suite number before power is established.

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS AMENDING CHAPTER 15.16 CODE OF ORDINANCES PROVIDING FOR THE ADOPTION THE NFPA 70, 2026 NATIONAL ELECTRIC CODE WITH LOCAL AMENDMENTS; PROVIDING FOR A PENALTY; PROVIDING A SEVERABILITY CLAUSE; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; AND ESTABLISHING AN EFFECTIVE DATE.

WHEREAS, the National Fire Protection Association (NFPA) publishes updates to the National Electric Code every three years in order effectively regulate the safety of emerging technology and provide uniform rules for local governments and those that work in the electrical industry;

WHEREAS, City staff reviews updates to the National Electric Code and makes recommendations to the City of Georgetown Building Standards Commission as to what local amendments, if any, should be adopted in conjunction with the updated code; and

WHEREAS, the City of Georgetown Building Standards Commission has (1) reviewed the effect of the 2026 National Electric Code and local amendments; (2) held public hearings related to same; and (3) made recommendations to the City Council for adoption of the same, including amendments noted herein; and

WHEREAS, the City Council of Georgetown, Texas has determined that the adoption of the NFPA 70, 2026 National Electric Code, and local amendments, facilitates proper inspection activities by Georgetown, Texas relating to electrical standards within the corporate city limits of Georgetown, in extraterritorial jurisdiction of Georgetown, and for commercial buildings served by Georgetown utilities, relating to public safety, health, and general welfare; and

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

Section 1. The meeting at which this ordinance was approved was conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551

Section 2. The facts and recitations contained in the preamble of this ordinance are hereby found and declared to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

Section 3. Chapter 15.16, "Electrical Code," is hereby amended in its entirety as shown on Exhibit A.

Section 4. All projects that are under construction and all projects with complete applications for a building permit accepted by the City of Georgetown, Texas prior to the Effective Date of this shall be allowed to complete construction under the terms of the prior provisions of Chapter 15.16. All permit applications submitted on or after the Effective Date of this Ordinance shall comply with the terms of Chapter 15.16 as amended by this Ordinance in its entirety.

Section 5. If any provision of this ordinance or application thereof to any person or circumstance shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this ordinance which can be given effect without the invalid provision or application, and to this end the provisions of this ordinance are hereby declared to be severable.

Section 6. All ordinances that are in conflict with the provisions of this ordinance be, and the same are hereby, repealed and all other ordinances of the City not in conflict with the provisions of this ordinance shall remain in full force and effect.

Section 7. The Mayor is hereby authorized to sign this ordinance and the City Secretary to attest. This Ordinance shall become effective on October 1, 2026 and in accordance with the provisions of the Charter of the City of Georgetown.

PASSED AND APPROVED on First Reading on the ___ day of _____, 2026.

PASSED AND APPROVED on Second Reading on the ___ day of _____, 2026.

City Council
September 8, 2026

SUBJECT:
Second Reading - Adoption of the 2021 International Fire Code

SUGGESTED ACTION:
Second Reading of an Ordinance to adopt the 2021 International Fire Code with local amendments -- Daniel Bilbrey, Deputy Fire Marshal

ITEM SUMMARY:
The proposed ordinance updates the City's existing local amendments to the 2021 International Fire Code to address emerging fire and life-safety concerns and clarify existing requirements. Key changes include provisions for lithium-ion battery storage and powered micromobility devices, temporary structures and uses, emergency responder radio communications, fire apparatus access and fire lane markings, and other updates related to new technologies and current development practices. This was presented to Council at the City Council Workshop meeting held on August 11, 2026.

Proposed Fire Code Changes

2026 | City Council

GEORGETOWN
TEXAS

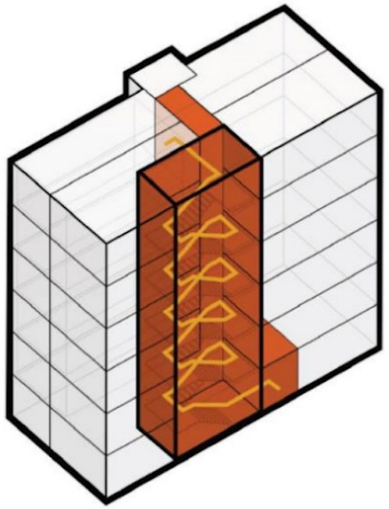
Clarification to Terminology

Definitions

- Frequency
- Frequency license holder
- Occupiable roof or Occupied Roof
- Emergency Responder Communications & Enhancement Systems

Single Exit Buildings

- Residential (R2)
- Max of six stories (<75’)
- Net floor area < 4000sqft
- Sprinklered building
- Elevator access required
- No electric in stairwell



Smart Stair Design

Temporary Structures

- Tents and membranes
- Other temporary occupancies, uses, and systems that may require a Fire Code permit
- Permit (max 365 days)
- Allow for temp utilities
- Aligns with IBC

Valet Trash

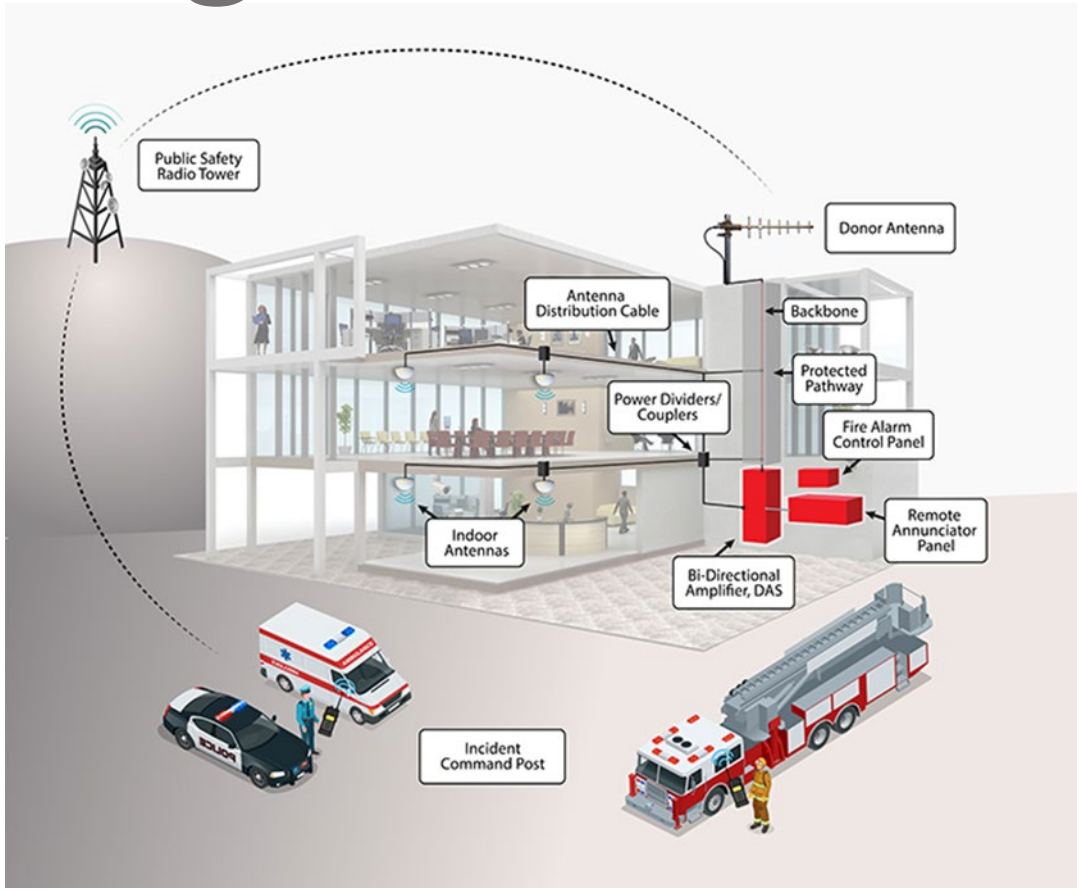
- Permit required
- Reduce risk in older bldgs.
- Protection of safe egress
- Rules established by AHJ

Reclaimed Water

- May be considered a desirable use by COG Water
- 971 Water Treatment Site
- Water testing required
- Limit damage/safety

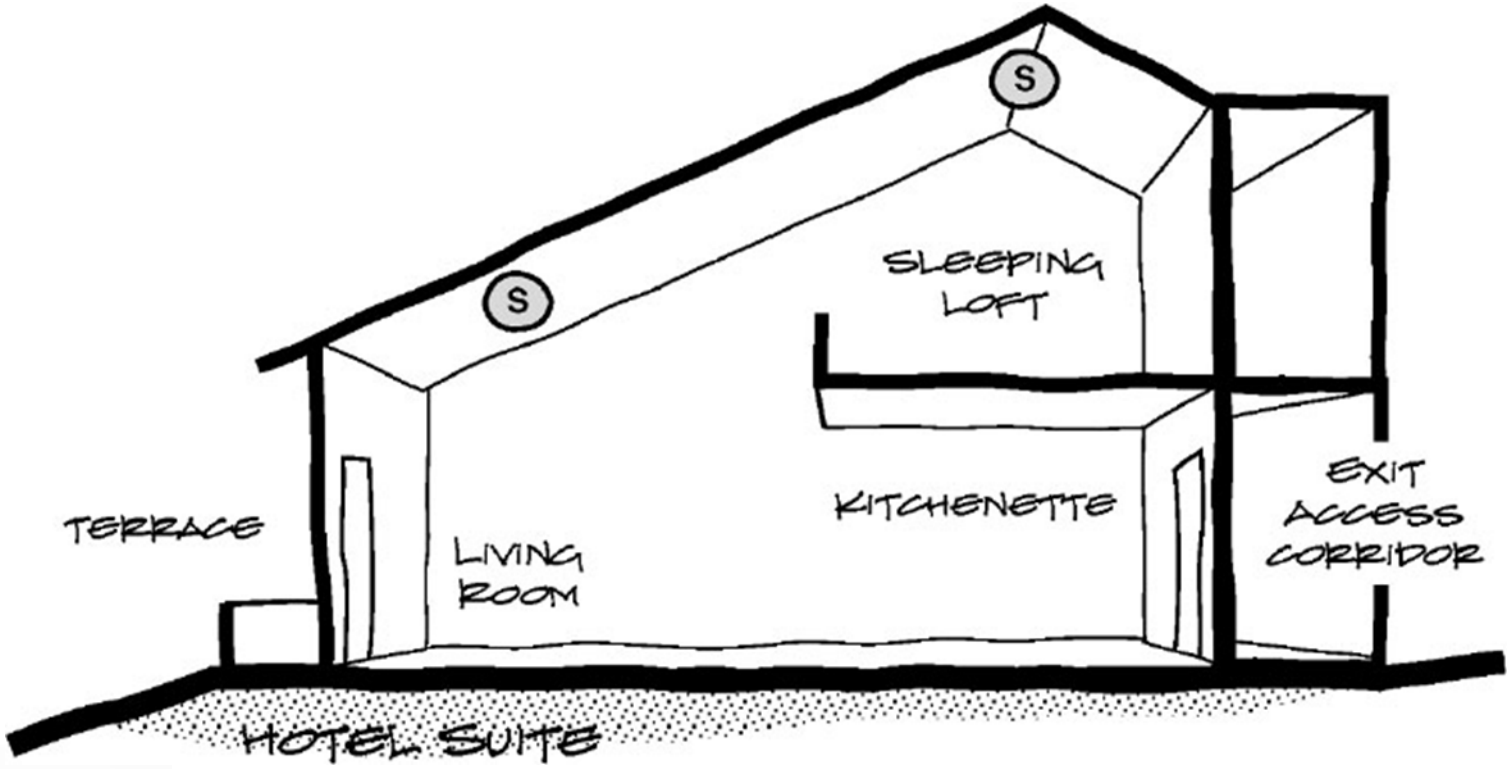
Emergency Responder Communication Coverage

- Clarification & guidance
- Requirement not changing
- Encourage building prep
- Assess post construction



Smoke Alarm

- Safety issue
- Becoming more common
- Proximity to sleeping area
- R-2, R-3, R-4, and I-1



Fire Protection - Post-Fire

- Group I, R-1, R-2, and R-4
- Post-fire repair/reconstruct
- Damage is >50%
- Consistent with the IEBC threshold for added protection
- Unoccupiable for >60days
- Sprinkler to be installed

Extinguisher Use by Pool

- NFPA 400 (2019 Ed)
- Interact w/ pool chemicals
- Avoid ammonium compounds
- Public and MF pool areas
- Possibly explosive (ABC)
- Respiratory irritant

Li-Ion Laboratories

- Proactive code placement
- Sprinkler requirement
- Primarily labs related to battery manufacturers

Storage of Li-Ion Batteries

- Permits w/ > 15cuft
- Limited indoor storage (15)
- Individual container < 7.5cuft
- Outdoor storage options
- Fire detection required
- Exception 2-hr rated walls
- Lesser requirements for less than 30% charge

Micro-mobility Charging

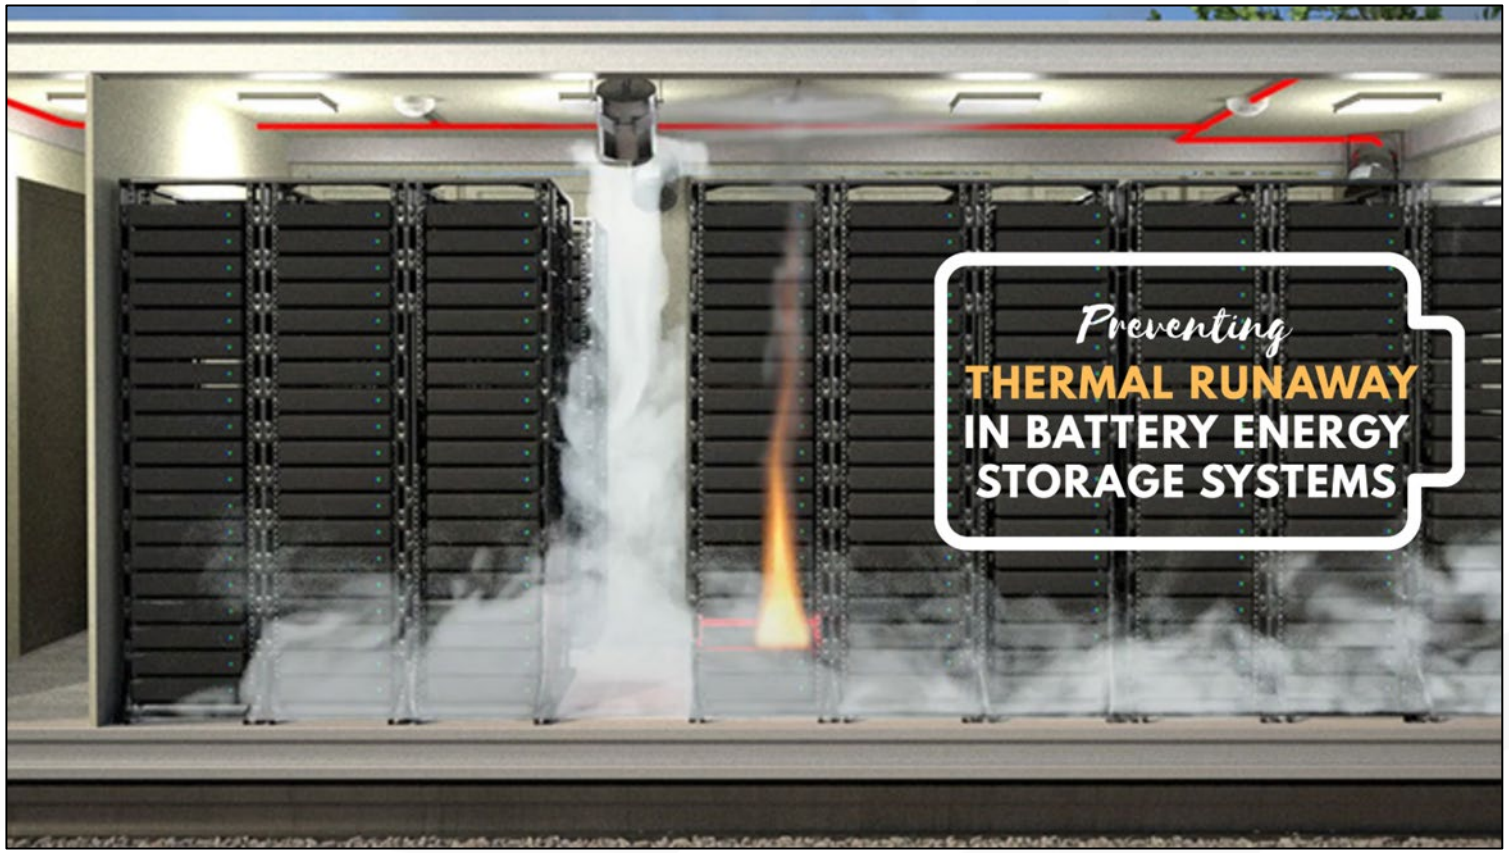
- OEM specs and process
- Listing and labeling per UL
- Specify charging areas
- Fire safety plan is required

Electric Vehicle Charging

- Disconnection requirement
- Emergency shutoff
- Sprinkler required (>500sqft)
- Similar purpose to gasoline/diesel emergency shutoff
- Exception for SFR garage

Pre-existing Energy Storage System

- ESS using Li-ion
- Older batteries/ESS not tested or listed to UL 9540A
- Technical report required
- Early detection for thermal
- Corrective action plan
- Exception for SFR



Fire Lanes in neighborhoods

Adjust Length of No parking 250 to 275 this helps with lot line placement

Move to a standard of painted curbs in neighborhoods.

GEORGETOWN TEXAS 1539

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS AMENDING CHAPTER 8.04 "FIRE PREVENTION CODE" OF THE CODE OF ORDINANCES ADDING AND AMENDING LOCAL AMENDMENTS TO THE 2021 FIRE CODE; PROVIDING FOR A PENALTY; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; INCLUDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

WHEREAS, the City Council of the City of Georgetown previously adopted the 2021 International Fire Code with corresponding amendments for the benefit of public safety, health, and general welfare of the City of Georgetown; and

WHEREAS, the City Council of the City of Georgetown finds it necessary to amend and add local amendments to the 2021 Fire Code to ensure the public safety, health, and general welfare and facilitate proper safety inspections within the City of Georgetown; and

WHEREAS, the Building Standards Commission, which has been appointed by the City Council, has (1) reviewed the effect of the proposed additional local amendments; (2) held public hearings related to same; and (3) made recommendations to the City Council for adoption of the same, including amendments noted herein; and

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

Section 1. The meeting at which this ordinance was approved was in all things conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

Section 2. The facts and recitations contained in the preamble of this ordinance are hereby found and declared to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim

Section 3. Chapter 8.04 "Fire Code" of the Code of Ordinances is hereby amended as shown on Exhibit A.

Section 4. All projects that are under construction and all projects with complete applications for a building permit accepted by the City of Georgetown, Texas prior to the Effective Date of this shall be allowed to complete construction under the terms of the prior provisions of Chapter 8.04 and shall not be required to meet the requirements of the Local Amendments to the 2021 International Fire Code adopted pursuant to this Ordinance. All permit applications submitted on or after the Effective Date of this Ordinance shall comply with the terms of Chapter 8.04 as amended by this Ordinance in its entirety.

Section 5. If any provision of this Ordinance or application thereof to any person or circumstance shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this Ordinance which can be given effect without the invalid provision or application, and to this end the provisions of this Ordinance are hereby declared to be severable.

Section 6. All ordinances that are in conflict with the provisions of this Ordinance be, and the same are hereby, repealed and all other Ordinances of the City not in conflict with the provisions of this Ordinance shall remain in full force and effect.

Section 7. The Mayor is hereby authorized to sign this Ordinance and the City Secretary to attest. This Ordinance shall be effective October 1, 2026.

PASSED AND APPROVED on First Reading on the ___ day of _____, 2026.

PASSED AND APPROVED on Second Reading on the ___ day of _____, 2026.

CHAPTER 8.04. FIRE PREVENTION CODE[1]

Sec. 8.04.010. Fire code adopted.

A. The provisions of the "International Fire Code," 2021 Edition, including Appendices B, C, D, F, H, I, K, and L, with the specific local amendments set forth in this Chapter, are hereby adopted.

B. A copy of the Fire Code shall be placed at the Georgetown Public Library and on file at the office of the Fire Code Official.

Sec. 8.04.020. Section 101.1, Title, amended.

The Fire Code, Section 101.1 Title, is hereby amended to read as follows:

101.1 Title. These regulations shall be known as the Fire Prevention Code of the City of Georgetown, Texas hereinafter referred to as "this Code."

Sec. 8.04.030. Subsection 101.2.1, Appendices, amended.

The Fire Code, Section 101.2.1, Appendices, is hereby amended to read as follows:

101.2.1 Appendices. Provisions in the appendices shall not apply unless specifically adopted.

Therefore, the following appendices are adopted as part of this code:

APPENDIX-B FIRE-FLOW REQUIREMENTS FOR BUILDINGS

APPENDIX-C FIRE HYDRANT LOCATIONS AND DISTRIBUTION

APPENDIX-D FIRE APPARATUS ACCESS ROADS

APPENDIX-F HAZARD RANKING

APPENDIX-H HAZARDOUS MATERIALS MANAGEMENT PLAN (HMMP) AND HAZARDOUS MATERIALS INVENTORY STATEMENT (HMIS) INSTRUCTIONS

APPENDIX-I FIRE PROTECTION SYSTEMS—NONCOMPLIANT CONDITIONS

APPENDIX-K CONSTRUCTION REQUIREMENTS FOR EXISTING AMBULATORY CARE FACILITIES

APPENDIX- L REQUIREMENTS FOR FIRE FIGHTER AIR REPLENISHMENT SYSTEM

Sec. 8.04.040. Section 103, Code Compliance Agency, Amended.

The Fire Code, Section 103, Code Compliance Agency, is hereby amended to read as follows:

103.1 The Georgetown Fire Department Fire Marshal's Office. The Georgetown Fire Department Fire Marshal's Office created by Georgetown City Code Section 2.28.40, is designated as the fire code compliance agency, and the official in charge thereof shall be known as the fire marshal or fire code official. The function of the agency shall be the implementation, administration, and enforcement of the provisions of this Code.

103.2 Appointment. The fire marshal or fire code official shall be appointed by the fire chief of the Georgetown Fire Department.

103.3 Deputies. In accordance with the prescribed procedures of the City of Georgetown and the Georgetown Fire Department and with the concurrence of the fire chief, the fire code official shall have the authority to appoint a deputy fire marshals or deputy fire code officials, other related technical officers, inspectors, and other employees. Such employees shall have powers as delegated by the fire marshal/fire code official.

Sec. 8.04.050. Section 105.5.34, Open Burning, amended.

The Fire Code, Section 105.6.34, Open Burning, is hereby amended to read as follows:

105.5.34 Open burning. An operational permit is required as prescribed in Section 307 for the kindling or maintaining of an open fire or a fire on any public street, alley, road, or other public or private ground. Instructions and stipulations of the permit shall be complied with. Operational permits for recreational fires will be issued on an annual basis. Permits shall only be presented by, and permits issued to, the owner of the land upon which the fire is to be kindled.

105.5.34.1 Commercial burn permits. Commercial burn permits will be issued to the name of the company that will be responsible.

Sec. 8.04.060. Section 107.2, Schedule of Permit Fees, amended.

The Fire Code Section 107.3, Schedule of Permit Fees, is hereby amended to read as follows:

107.2 Schedule of permit fees. Where a permit is required, a fee for each permit shall be paid as required, in accordance with the schedule as established by the Section 2.28.150, 2.28.160, 2.28.170, and 2.28.180 of the Code of the City of Georgetown.

Sec. 8.04.070. Section 107.3, Permit Valuations, amended.

The Fire Code Section 107.3, Permit Valuations, is hereby deleted as follows:

107.3 Reserved.

Sec. 8.04.075. Section 110, Service Utilities, amended

The Fire Code, Section 110, Service Utilities, is hereby amended to read as follows:

Authority to disconnect service utilities.
The fire code official shall have the authority to authorize disconnection of utility service to the building, structure or system in order to safely execute emergency operations or to eliminate an immediate hazard. The fire code official shall notify the serving utility and, where possible, the owner or the owner's authorized agent and the occupant of the building, structure or service system of the decision to disconnect prior to taking such action. If not notified prior to disconnection, then the owner, the owner's authorized agent or occupant of the building, structure or service system shall be notified in writing as soon as practical thereafter.

110.2 Temporary connection.
For temporary buildings, structures, occupancies or uses not governed by the Building Code, the *fire code official* shall have the authority to authorize the temporary connection of the building or system to the utility, the source of energy, fuel, or power, or the water system for the purpose of testing systems or for use under a temporary approval.

Sec. 8.04.080. Section 111.1, Board of Appeals established, amended.

The Fire Code, Section 111.1, Board of Appeals established, is hereby amended to read as follows:

111.1 Board of appeals. The City's Building Standards Commission, codified at Chapter 2.64 of the Georgetown Code of Ordinances, shall hear and decide appeals of orders, decisions, and determinations made by the fire code official or designee relative to the application and interpretation of this Code. Any reference made in this Code to "Means of Appeals" or "Board of Appeals", shall have the same meaning as the "Building Standards Commission."

Sec. 8.04.090. Section 111.3, Qualifications, amended.

The Fire Code, Section 111.3, Qualifications, is hereby amended to read as follows:

111.3 Qualifications. The board of appeals shall consist of members who are appointed in accordance with the City of Georgetown City Code Section 2.64.010 or the most current City ordinance that pertains to this matter.

Sec. 8.04.100. Section 111.5, Administrative Appeal, added.

The Fire Code, Section 111.5, Administrative Appeal, is hereby added to read as follows:

111.4 Administrative appeal. Whenever a violation of this Code has been found and the applicant wishes to appeal the decision based on a claim that the true intent of this code or the rules legally adopted thereunder have been incorrectly interpreted, the provisions of this code do not fully apply, or an equivalent or better form of construction is proposed, an appeal may be filed to the fire chief or a designee, as follows:

1. An appeal shall be filed in writing to the Georgetown Fire Department, Fire and Life Safety Division.
2. The fire chief, or designee, will hear the appeal within 10 working days of the receipt of the appeal.
3. Adequate information shall be provided by the applicant on the petition of appeal to fully describe the condition(s) in question.
4. The fire chief, or designee, may consult fire department staff as appropriate to identify applicable code provisions and the staff position on the appeal under consideration.
5. The applicant may, but is not required to, meet with the fire chief, or designee, to discuss the specifics of the appeal.
6. If the appeal is denied, the applicant shall comply with the requirement(s) of this Code and the administrative appeal decision or file an appeal to the Board of Appeals as provided in section 111.1 of this code.

Sec. 8.04.110. Section 112.4, Violation Penalties, amended.

The Fire Code, Section 112.4, Violation Penalties, is hereby amended to read as follows:

112.4 Violation penalties. Any person who violates a provision of this code or fails to comply with any of the requirements thereof or who erects, constructs, alters, or repairs mechanical work in violation of the approved construction documents or directive of the fire code official, or of a permit or certificate issued under the provisions of this Code is subject to punishment as provided in Section 1.08.010 of the Georgetown Code of Ordinances.

Sec. 8.04.120. Section 113.1, Authority, amended.

The Fire Code, Section 113.1, Authority, is hereby amended to read as follows:

113.1 Authority. Where the fire code official finds any work regulated by this code being performed in a manner contrary to the provisions of this code, without any permit or other approval required by this Code, or in a dangerous or unsafe manner, the fire code official, or the fire code official's designee, is authorized to order the work or construction stopped by notice in writing in accordance with Section 113.2 and served on any person(s) engaged in performing or causing such work to be performed.

Sec. 8.04.130. Section 113.2, Issuance, amended.

The Fire Code, Section 113.2, Issuance, is hereby amended to read as follows:

113.2 Issuance. The fire code official, or the fire code official's designee, may order the work or construction stopped by notice in writing and served on any person(s) engaged in performing or causing such work to be performed. Whenever work or construction is stopped in accordance with this section, a written notice to stop work shall be issued and shall be posted on the property in a manner reasonably visible to any person that performs any work on the property. All persons shall then cease all work or construction on the property until authorized to proceed by the fire code official or the fire code official's designee. The stop work order shall state the reason for the order and the conditions under which the cited work is authorized to resume.

Sec. 8.04.140. Section 113.4, Failure to Comply, amended.

The Fire Code, Section 113.4, Failure to Comply, is hereby amended to read as follows:

113.4 Failure to comply. Any person who shall continue any work after having been served with a stop work order, except such work as that person is directed to perform to remove a violation or unsafe condition, shall be unlawful and punishable in accordance with City Code Section 1.08.010.

Sec. 8.04.145. Section 115, Temporary structures, uses, equipment, and systems. added.

The Fire Code, Section 115, Temporary structures, uses, equipment, and systems, is hereby added to read as follows:

Section 115 Temporary structures, uses, equipment, and systems

115.1 General. The fire code official is authorized to issue a permit for temporary structures, uses, equipment, or systems as required in Sections 105.5 and 105.6. Such permits shall be limited as to time of service but shall not be permitted for more than 365 days. The fire code official is authorized to grant extensions for demonstrated cause.

115.2 Conformance. Temporary uses, equipment, and systems shall conform to the requirements of this code as necessary to ensure health, safety, and general welfare.

115.3 Temporary service utilities. The fire code official is authorized to give permission to temporarily supply service utilities in accordance with Section 112 of the International Building Code.

115.4 Termination of approval. The fire code official is authorized to terminate such permit for temporary uses, equipment or systems and to order the same to be discontinued.

Sec. 8.04.150. Section 202, Definitions, added and amended.

The Fire Code, Section 202, Definitions, is hereby amended to include the following amended or added defined terms:

"Air curtain incinerator (ACI)" means an incinerator that operates by forcefully projecting a curtain of air across an open chamber or pit in which combustion occurs. Incinerators of this type may be constructed

above or below ground and with or without refractory walls or floor. An air trench or burn box operation that promotes efficient burning, producing less smoke and less fire embers.

"Animal housing or care facility" means facilities used for temporary or permanent housing of animals for the purpose of providing a service, participating in a sport, or for providing general board and care. Animal housing or care facilities do not include animal or pet care by pet owners caring for their own animals at their owned or rented residential property, horse stables, facilities used for equestrian purposes, and these facilities do not include Group U agricultural uses for the care and feeding of the agricultural business owner's own livestock.

"Automated external defibrillator (AED)" means a heart monitor and defibrillator that meets the requirements of Chapter 779, Section 779.001 of the Texas Health and Safety Code and any applicable federal laws, as amended.

"Bed and Breakfast" means a private residential structure(s) used for the rental of overnight accommodations and whose owner serves breakfast at no extra cost to its lodgers.

"Commercial burn" means a fire that is generally accomplished by general contractors in a commercial construction application using an air curtain incinerator.

"Cooking fire" means an outdoor fire where fuel (wood, charcoal, natural gas or liquefied petroleum gas) is used in preparation of food prior to consumption. Fuel being burned is contained in a barbeque grill, barbeque pit, fire ring or a similar container. The process of burning wood to create coal will be considered as part of the cooking process.

"Constant supervision" means for Group B animal housing or care facilities, constant supervision means 24-hour on-site staff that is capable of responding to problems or emergencies that could impact the safety or lives of the animals being housed or cared for.

"Controlled burn" means an open fire used for the burning of unwanted vegetation, fallen limbs, and leaves from the same property.

"Driveway" means a vehicular ingress and egress route that serves no more than two buildings or structures, not including accessory structures, or no more than five dwelling units.

"Emergency responder communications enhancement system" or "ERCES" means an infrastructure solution installed within a building to enhance the communications capabilities for first responders that utilizes solutions such as a signal booster, voting receiver, base station or other technology capable of enhancing the radio frequency (RF) to ensure effective public safety communications.

"Frequency" means the particular waveband at which a communications system broadcasts or transmits.

"Frequency license holder(s)" means the person(s) or entity(ies) issued the license from the frequency licensing authority of the United States or other country of jurisdiction for the frequencies being used by both the in-building emergency responder communications enhancement system and the emergency services communications system that it enhances.

"Frequency licensing authority" means the government authority in a country or territory that issues frequency licenses for the use of communications frequencies by authorized entities and individuals.

"NFPA" means the National Fire Protection Association.

"Occupiable roof or Occupied roof" means an exterior space on a roof that is designed for human occupancy, other than maintenance or repair, and which is equipped with a means of egress system meeting the requirements of this code.

"Portable outdoor fireplace" means a solid and/or liquid fuel-burning fireplace that may be constructed of steel, concrete, clay, or other noncombustible material. A portable outdoor fireplace may be open in design

or may be equipped with a small hearth opening and a short chimney or chimney opening in the top. Commercially available examples include chimineas, outdoor fireplaces, and outdoor fire pits.

"Prescribed burn" means a fire used for the purpose of reducing the impact of a wildlife fire, for crop management, for general land clearing, and/or for the prevention of and control of diseased pests/animals.

"Recreational fires" means an outdoor fire burning materials other than rubbish where the fuel being burned is not contained in an incinerator, outdoor fireplace, portable outdoor fireplace, barbeque grill, or barbeque pit and has a fuel area 3 feet or less in diameter and 2 feet or less in height for pleasure, religious, ceremonial, cooking warmth, or similar purpose. Examples of this are traditional campfire rings or fire pits with fuel dimensions stated above.

"Residential Group R-1" means Residential Group R-1 occupancies containing sleeping units where the occupants are primarily transient, including:

Bed and breakfasts with more than 10 guests;

Boarding houses (transient) with more than 10 occupants;

Congregate living facilities (transient) with more than 10 occupants;

Hotels (transient); and

Motels (transient).

“Residential Group R-3" means Residential Group R-3 occupancies where the occupants are primarily permanent in nature or not classified as Group R-1, R-2, R-4 or I, including:

Buildings that do not contain more than two dwelling units

Care facilities that provide accommodations for five or fewer persons receiving care

Congregate living facilities (nontransient) with 16 or fewer occupants

Boarding houses (nontransient)

Convents

Dormitories

Fraternities and sororities

Monasteries

Congregate living facilities (transient) with 10 or fewer occupants

Boarding houses (transient) with 10 or fewer occupants

Lodging houses (transient) with five or fewer guestrooms and 10 or fewer occupants

Bed and breakfasts (transient) with sleeping units for 10 or fewer guests

"Business Group B" means Business Group B occupancy includes, among others, the use of a building or structure, or a portion thereof, for office, professional or service-type transactions, including storage of records and accounts. Business occupancies shall include, but not be limited to, the following:

Airport traffic control towers

Ambulatory care facilities

Animal housing or care facilities, including shelters, breeding, grooming, daycare, hospitals, kennels, and pounds.

Banks

Barber and beauty shops

Car wash

Civic administration

Clinic-outpatient

Dry cleaning and laundries: pick-up and delivery stations and self-service

Educational occupancies for students above the 12th grade, including higher education laboratories

Electronic data processing

Food processing establishments and commercial kitchens not associated with restaurants, cafeterias and similar dining facilities not more than 2,500 square feet (232 m2) in area.

Laboratories: testing and research

Motor vehicle showrooms

Post offices

Print shops

Professional services (architects, attorneys, dentists, physicians, engineers, etc.)

Radio and television stations

Telephone exchanges

Training and skill development not in a school or academic program (This shall include, but not be limited to, tutoring centers, martial arts studios, gymnastics and similar uses regardless of the ages served, and where not classified as a Group A occupancy).

Sec. 8.04.155. Subsection 304.1.1.1 Valet trash, added.

The Fire Code, Section 304.1.1.1, Valet trash is hereby added to read as follows:

304.1.1.1 Valet trash. Valet trash collection shall be permitted only where approved. The owner and valet trash collection service provider shall comply with the rules and limitations established by the jurisdiction.

Sec. 8.04.160. Subsection 307.2 Permit required, amended.

The Fire Code, Section 307.2 Permit required, is hereby amended to read as follows:

307.2 Permit required. An operational permit is required in accordance with Section 105.5 prior to kindling or maintaining of an open fire or a fire on any public street, alley, road, or other public or private ground. With the exception of commercial burn permits, applications for permits shall only be presented by and permits issued to the owner of the land on which the fire is to be kindled. The permit shall be kept on site and readily available for view upon request at all times when burning. A permit shall be obtained from the City of Georgetown fire marshal's office at www.fire.georgetown.org prior to kindling a fire for the following:

1. **Controlled burn.** A controlled burn requires an operational burn permit. Residential controlled burn permits shall be valid for the period indicated on the approved permit and shall not be valid for longer than 365 days from issuance.
2. **Bonfire.** A bonfire requires a bonfire permit. A bonfire shall comply with the requirements of Section 307.4.1. A bonfire permit is only valid on a per event basis.
3. **Prescribed burn.** A prescribed burn is allowed within the City of Georgetown's fire district with issuance of a prescribed burn permit. A prescribed burn permit is valid for 30 days from issuance.

4. **Commercial burn permit.** Commercial burn permits will be issued to the name of the company that will be responsible. A commercial burn permit requires a site approval by the City of Georgetown fire marshal's office and is valid for 30 days from issuance.

Sec. 8.04.170. Subsection 307.2.1 Authorization, amended.

The Fire Code, Section 307.2.1 Authorization, is hereby amended to read as follows:

307.2.1 Authorization. Where required by state or local laws or regulations, open burning shall only be permitted with prior approval from the City of Georgetown and the Texas Commission on Environmental Quality (TCEQ), provided that all conditions specified in the authorization are followed. Persons or entities issued an operational permit may have the permit revoked if not adhering to the guidelines. A City may revoke the permit and refuse to issue another permit to the same person or entity for up to twenty-four (24) months.

Sec. 8.04.180. Subsection 307.2.2 Limiting conditions for conducting open burning, added.

The Fire Code, Section 307.2.2 Limiting conditions for conducting open burning, is hereby added to read as follows:

307.2.2 Limiting conditions for conducting open burning. Burning shall be commenced and conducted only when wind direction and other meteorological conditions are such that smoke and other pollutants will not cause adverse effects to any public road, landing strip, navigable water, or off-site structure. Burning shall not be commenced when surface wind speed is predicted to be less than six miles per hour (MPH) or greater than 23 MPH during the burn period. With the exception of bonfires, cooking fires, recreational fires, and portable fireplace fires, permitted fires shall not be ignited prior to sunrise and shall be extinguished prior to sunset. All TCEQ rules will apply for prescribed burning.

Sec. 8.04.190. Subsection 307.2.3 Open burning not requiring a permit, added.

The Fire Code, Section 307.2.3 Open burning not requiring a permit, is hereby added to read as follows:

307.2.3 Open burning not requiring a permit. The following types of outdoor fires that comply with Section 307.4 as applicable do not require burn permits:

1. **Cooking fires.** Cooking fires are allowed in the Georgetown City limits and Georgetown's Fire Response District without an operational permit from the City. Charcoal burners and other open-flame cooking devices shall not be operated on combustible balconies of any multi-family structure (apartment complex) not equipped with a fire suppression sprinkler system. Charcoal burners and other open-flame cooking devices shall not be operated within 10 feet of combustible construction; this includes balconies and patios for any multi-family dwelling.
2. **Residential portable outdoor fireplace.** Residential portable outdoor fireplaces are allowed within the Georgetown City limits and Georgetown's Fire Response District at single-family, two-family, and townhouse residences.
3. **Recreational fires.** Recreational fires are allowed within the Georgetown City limits and Georgetown's Fire Response District.

Sec. 8.04.200. Subsection 307.3 Extinguishment authority, amended.

The Fire Code, Section 307.3 Extinguishment authority, is hereby amended to read as follows:

307.3 Extinguishment authority. Where open burning creates or adds to a hazardous situation, or a required permit for open burning has not been obtained, the fire code official is authorized to order the

extinguishment of the open burning operation. Open burning that adversely affects public health shall be extinguished.

Sec. 8.04.210. Subsection 307.4 Location, amended.

The Fire Code, Section 307.4 Location, is hereby amended to read as follows:

307.4 Location. Except as otherwise provided in Section 307 and its Subsections, the open burning location shall be not less than 50 feet (15,240 mm) from any structure, and provisions shall be made to prevent the fire from spreading to within 50 feet (15,240 mm) of any structure.

Sec. 8.04.220. Subsection 307.4.1 Bonfires, amended.

The Fire Code, Section 307.4.1 Bonfires, is hereby amended to read as follows:

307.4.1 Bonfires. A bonfire shall not be conducted within 50 feet (15,240 mm) of a structure or combustible material unless the fire is contained in a barbecue pit. Conditions that could cause a fire to spread within 50 feet (15,240 mm) of a structure shall be eliminated prior to ignition. The fuel load of a bonfire shall not exceed 10' x 10' in area.

Sec. 8.04.230. Subsection 307.5 Attendance, amended.

The Fire Code, Section 307.5 Attendance, is hereby amended to read as follows:

307.5 Attendance. Open burning, bonfires, recreational fires, and use of portable outdoor fireplaces shall be constantly attended until the fire is extinguished. Not fewer than one portable fire extinguisher complying with Section 906 with a minimum 4-A rating or other approved on-site fire-extinguishing equipment, such as dirt, sand, water barrel, garden hose, dozer, or water truck, shall be available for immediate utilization.

Sec. 8.04.231. Section 322 Lithium-ion and lithium metal battery storage, added.

The Fire Code, Section 322, Lithium-ion and lithium metal battery storage, is hereby added to read as follows:

Section 322 Lithium-ion and lithium metal battery storage.

322.1 General. The storage of lithium-ion and lithium metal batteries shall comply with Section 322.

Exceptions:

1. New or refurbished batteries installed in the equipment, devices or vehicles they are designed to power.
2. New or refurbished batteries packed for use with the equipment, devices or vehicles they are designed to power.
3. Batteries in original retail packaging that are rated at not more than 300 watt-hours for lithium-ion batteries or contain not more than 25 grams of lithium metal for lithium metal batteries.
4. Temporary storage of batteries or battery components during the battery manufacturing process prior to completion of final quality control checks.
5. Temporary storage of batteries during the vehicle manufacturing or repair process.

322.2 Permits. Permits shall be required for an accumulation of more than 15 cubic feet (0.42 m3) of lithium-ion and lithium metal batteries, other than batteries listed in the exceptions to Section 321.1, as set forth in Section 105.5.28.

322.3 Fire safety plan. A fire safety plan shall be provided in accordance with Section 404. In addition, the fire safety plan shall include emergency response actions to be taken upon detection of a fire or possible fire involving lithium-ion or lithium metal battery storage.

322.4 Storage requirements. Lithium-ion and lithium metal batteries shall be stored in accordance with Section 322.4.1 , 322.4.2 or 322.4.3, as applicable.

322.4.1 Limited indoor storage in containers. Not more than 15 cubic feet (0.42 m3) of lithium-ion or lithium metal batteries shall be permitted to be stored in containers in accordance with all of the following:

1. Containers shall be open top and constructed of noncombustible materials or shall be approved for battery collection.

2. Individual containers and groups of containers shall not exceed a capacity of 7.5 cubic feet (0.21 m3).

3. A second container or group of containers shall be separated by not less than 3 feet (914 mm) of open space or 10 feet (3048 mm) of space that contains combustible materials.

4. Containers shall be located not less than 5 feet (1524 mm) from exits or exit access doors.

322.4.2 Indoor storage areas. Indoor storage areas for lithium-ion and lithium metal batteries, other than those complying with Section 322.4.1, shall comply with Sections 322.4.2.1 through 322.4.2.6 .

322.4.2.1 Technical opinion and report. A technical opinion and report complying with Section 104.2.2 shall be prepared to evaluate the fire and explosion risks associated with the indoor storage area and to make recommendations for fire and explosion protection. The report shall be submitted to the fire code official and shall require the fire code official's approval prior to issuance of a permit. In addition to the requirements of Section 104.2.2, the technical opinion and report shall specifically evaluate the following:

1. The potential for deflagration of flammable gases released during a thermal runaway event.

2. The basis of design for an automatic sprinkler system or other approved fire suppression system. Such design basis shall reference relevant full-scale fire testing or another approved method of demonstrating sufficiency of the recommended design.

322.4.2.2 Construction requirements. Where indoor storage areas for lithium-ion and lithium metal batteries are located in a building with other uses, battery storage areas shall be separated from the remainder of the building by 2-hour rated fire barriers or horizontal assemblies. Fire barriers shall be constructed in accordance with Section 707 of the International Building Code, and horizontal assemblies shall be constructed in accordance with Section 711 of the International Building Code.

Exceptions:

1. Where battery storage is contained in one or more approved prefabricated portable structures providing a complete 2-hour fire-resistance-rated enclosure, fire barriers and horizontal assemblies are not required.

2. Where battery storage is limited to new batteries in packaging that has been demonstrated to and approved by the fire code official as sufficient to isolate a fire in packaging to the package interior, fire barriers and horizontal assemblies are not required.

322.4.2.3 Fire protection systems. Indoor storage areas for lithium-ion and lithium metal batteries shall be protected by an automatic sprinkler system complying with Section 903.3.1.1 or an approved alternative fire suppression system. The system design shall be based on recommendations in the approved technical opinion and report required by Section 322.4.2.1.

322.4.2.4 Fire alarm systems. Indoor storage areas for lithium-ion and lithium metal batteries shall be provided with an approved automatic fire detection and alarm system complying with Section 907. The fire detection system shall use air-aspirating smoke detection, radiant energy-sensing fire detection or both.

322.4.2.5 Explosion control. Where the approved technical opinion and report required by Section 322.4.2.1 recommends explosion control, explosion control complying with Section 911 shall be provided.

322.4.2.6 Reduced requirements for storage of partially charged batteries. Indoor storage areas for lithium-ion and lithium metal batteries with a demonstrated state of charge not exceeding 30 percent shall not be required to comply with Sections 322.4.2.1, 322.4.2.2 and 322.4.2.5, provided that procedures for limiting and verifying that the state of charge will not exceed 30 percent have been approved.

322.4.3 Outdoor storage. Outdoor storage of lithium-ion or lithium metal batteries shall comply with Sections 322.4.3.1 through 322.4.3.3.

322.4.3.1 Distance from storage to exposures. Outdoor storage of lithium-ion or lithium metal batteries, including storage beneath weather protection in accordance with Section 414.6.1 of the International Building Code, shall comply with one of the following:

1. Battery storage shall be located not less than 20 feet (6096 mm) from any building, lot line, public street, public alley, public way or means of egress.

2. Battery storage shall be located not less than 3 feet (914 mm) from any building, lot line, public street, public alley, public way or means of egress, where the battery storage is separated by a 2-hour fire-resistance-rated assembly without openings or penetrations and extending 5 feet (1524 mm) above and to the sides of the battery storage area.

3. Battery storage shall be located not less than 3 feet (914 mm) from any building, lot line, public street, public alley, public way or means of egress, where batteries are contained in approved, prefabricated portable structures providing a complete 2-hour fire-resistance-rated enclosure.

322.4.3.2 Storage area size limits and separation. Outdoor storage areas for lithium-ion or lithium metal batteries, including storage beneath weather protection in accordance with Section 414.6.1 of the International Building Code, shall not exceed 900 square feet (83.6 m2). The height of battery storage in such areas shall not exceed 10 feet (3048 mm). Multiple battery storage areas shall be separated from each other by not less than 10 feet (3048 mm) of open space.

322.4.3.3 Fire detection. Outdoor storage areas for lithium-ion or lithium metal batteries, regardless of whether such areas are open, under weather protection or in a prefabricated portable structure, shall be provided with an approved automatic fire detection and alarm system complying with Section 907. The fire detection system shall use radiant energy-sensing fire detection.

Sec. 8.04.232. Section 323, Powered micromobility devices. added.

The Fire Code, Section 323, Powered micromobility devices, is hereby added to read as follows:

Section 323 Powered micromobility devices

323.1 General. Lithium-ion and lithium metal battery powered micromobility devices shall be operated and maintained in accordance with this section.

Exceptions:

1. Storage, repair and charging in residential occupancies of powered mobility devices, provided that such devices are for personal use by its owner.
2. Charging of a single powered mobility device in any occupancy by its owner.

323.1.1 Prohibited locations. The use of a residential occupancy as a business for the charging of commercially owned powered micromobility devices as part of a rental or sales service shall not be permitted.

323.2 Battery chargers and equipment. Powered micromobility devices shall be charged in accordance with their listing and the manufacturer's instructions using only the original equipment manufacturer-supplied charging equipment or charging equipment in accordance with the listing and manufacturer's instructions.

323.3 Listing. Powered micromobility devices shall be listed and labeled in accordance with UL 2272 or UL 2849, as applicable.

323.4 Battery charging areas. Where approved, powered micromobility devices shall permitted to be charged in a room or area that complies with all of the following:

1. Only listed devices utilizing listed charging equipment shall be permitted to be charged.

2. Is provided with sufficient electrical receptacles to allow the charging equipment for each device to be directly connected to a receptacle. Extension cords and relocatable power taps shall not be used.

3. Storage of combustible materials, combustible waste or hazardous materials shall not be permitted.

4. The charging operation shall not be conducted in or obstruct any required means of egress.

5. Removable storage batteries shall not be stacked or charged in an enclosed cabinet unless the cabinet is specially designed and approved for such purpose.

6. A minimum distance of 18 inches (457.2 mm) shall be maintained between each removable storage battery during charging operations unless each battery is isolated from neighboring batteries by an approved fire-resistant material.

7. A minimum of 18 inches (457.2 mm) shall be maintained between the location of the battery on each powered micromobility device during charging operations.

8. The indoor room or area shall be protected by a fire alarm system utilizing air-aspirating smoke detectors or radiant energy-sensing fire detection.

322.5 Fire safety plan. A fire safety plan shall be provided in accordance with Section 403.10.6. In addition, the fire safety plan shall include emergency response actions to be taken upon detection of a fire or possible fire involving lithium-ion or lithium metal battery storage.

Sec. 8.04.240. Section 503.1, Fire apparatus access roads, where required, amended.

The Fire Code, Section 503.1, Fire apparatus access roads, where required, is hereby amended to read as follows:

503.1 Fire apparatus access roads, where required. Fire apparatus access roads shall be provided and maintained in accordance with Sections 503.1.1 through 503.1.3 and Appendix D.

Sec. 8.04.250. Section 503.1.4 Other fire lanes, added.

The Fire Code, Section 503.1.4 Other fire lanes, is hereby added as follows:

503.1.4 Other fire lanes. The fire code official is authorized to establish such other fire lanes as deemed necessary for the safe and adequate movement of fire trucks and apparatus.

Sec. 8.04.260. Section 503.1.5 Fire lanes near fire stations, added.

The Fire Code, Section 503.1.5 Fire lanes near fire stations, is hereby added as follows:

503.1.5 Fire lanes near fire stations. Fire lanes shall be established to prohibit parking within 20 feet of the driveway entrance to any fire station and on the side of the street opposite the entrance to any fire station within 75 feet of said entrance.

Sec. 8.04.270. Section 503.1.6 Fire lanes closures, added.

The Fire Code, Section 503.1.6 Fire lanes violations, is hereby added as follows:

503.1.6 Fire lane violations. It shall be unlawful for any owner, manager, or person in charge of any premises to abandon or close a fire lane without written permission of the fire code official.

Sec. 8.04.280. Section 503.2, Fire apparatus access roads, specifications, amended.

The Fire Code, Section 503.2, Fire apparatus access roads, specifications, is hereby amended to read as follows:

503.2 Specifications. Fire apparatus access roads shall be installed and arranged in accordance with Sections 503.2.1 through 503.2.8 and Appendix D.

Sec. 8.04.290. Section 503.2.1 Dimension, amended.

The Fire Code, Section 503.2.1 Dimension, is hereby amended to read as follows:

503.2.1 Dimensions. Fire apparatus access roads shall have an unobstructed width of not less than 20 feet (6096 mm), exclusive of shoulders, except for approved security gates in accordance with Section 503.6, and an unobstructed vertical clearance of not less than 14 feet (4267 mm).

Sec. 8.04.300. Section 503.2.3 Surfaces, amended.

The Fire Code, Section 503.2.3 Surfaces, is hereby amended as follows:

503.2.3 Surfaces. Fire apparatus access roads shall be designed and maintained to support the imposed loads of fire apparatus and shall be surfaced so as to provide all-weather driving capabilities. All fire lanes must be maintained and kept in a state of good repair at all times by the owner, manager, or person in charge of the premises and the City bears no responsibility for the maintenance thereof.

Sec. 8.04.310. Section 503.2.4 Turning Radius, amended.

The Fire Code, Section 503.2.4 Turning Radius, is hereby amended to read as follows:

503.2.4 Turning Radius. The required turning radius of a fire apparatus access road shall be 25 feet for the inside radius and 50 feet for the outside radius, or as otherwise determined by the fire code official in accordance with Section 104.9 or 104.10.

Sec. 8.04.320. Section 503.3 Marking, amended.

The Fire Code, Section 503.3 Marking, is hereby amended to read as follows:

503.3 Marking. Where required by the fire code official, approved signs or other approved notices or markings that include the words "NO PARKING", "FIRE LANE", and "TOW-AWAY ZONE" shall be provided for fire apparatus access roads to identify such roads or prohibit the obstruction thereof. The means by which fire lanes are designated shall be maintained in a clean and legible condition at all times and be replaced or repaired when necessary to provide adequate visibility.

Sec. 8.04.330. Section 503.3.1 Responsibility to Maintain, added.

The Fire Code, Section 503.3 Responsibly, is hereby added to read as follows:

503.3.1 Responsibility to Maintain. The owner, manager, or person in charge of any building or property to which fire lanes have been approved or required by the fire code official shall mark and maintain said fire lanes.

Sec. 8.04.340. Section 503.3.2 Details of fire lane marking, added.

The Fire Code, Section 503.3.2 Details of fire lane marking, is hereby added to read as follows:

503.3.2 Details of fire lane marking.

1. All curbs and curb ends shall be painted red with four-inch white lettering stating "FIRE LANE—TOW AWAY ZONE". The words "FIRE LANE" by themselves are not acceptable. Wording may not be spaced more than 30 feet apart.
2. In areas where fire lanes are required but no continuous curb is available, one of the following methods shall be used, in conjunction with the curb markings, to indicate that the fire lane is continuous:

Option 1: A sign 12-inches wide and 18-inches in height with red lettering on a white reflective background and border in red stating "FIRE LANE - TOW AWAY ZONE". The words "FIRE LANE" by themselves are not acceptable. Sign shall be mounted conspicuously along the edge of the fire lane. Sign must be spaced no more than 30 feet apart at a minimum height of to 7 feet above finished grade.

Option 2: From the point the fire lane begins to the point the fire lane ends, including behind all parking spaces which adjoin a fire lane, shall be marked with one continuous six to eight-inch red stripe painted on the drive surface behind the parking spaces. All curbing adjoining a fire lane must be painted red.

Sec. 8.04.350. Section 503.3.3 Certain Subdivision Street fire lanes, added.

The Fire Code, Section 503.3.3 Certain Subdivision street fire lanes is here added to read as follows:

503.3.3 Certain subdivision street fire lanes. In subdivision streets where parking is not allowed on one side or both sides of the street, fire lanes are required and shall be marked and maintained in the following manner: private streets can choose either option 1 or 2. Public streets must do option 2.

1. A sign 12-inches wide and 18-inches in height with red lettering on a white reflective background and border in red stating "fire lane - tow away zone",. The words "fire lane" by themselves are not acceptable. Sign shall be mounted conspicuously along the edge of the fire lane. Sign must be at the beginning of a street and spaced no more than 275 feet apart at a minimum height of 7 feet above finished grade.

2. Red stripes and curbs will contain the wording "NO PARKING - FIRE LANE" or "FIRE LANE - TOW AWAY ZONE" or combination of similar wording painted in is four-inch white letters, the words "FIRE LANE" by itself is not acceptable. Wording must not be spaced more than 30 feet apart.

Sec. 8.04.360. Section 503.3.4 Unlawful, added.

The Fire Code, Section 503.3.4 Unlawful, is hereby added to read as follows:

503.3.4 Unlawful. It is unlawful for any person to attempt or in fact alter, destroy, deface, injure, knock down or remove any sign designating a fire lane or tow-away zone or curb marking erected under the terms of this Code.

Sec. 8.04.370. Section 503.4 Obstruction of fire apparatus access roads, amended.

The Fire Code, Section 503.4, Obstruction of fire apparatus access roads, is hereby amended to read as follows:

503.4 Obstruction of fire apparatus access roads. It is unlawful for any person to park, place, allow, permit, or cause to be parked, placed, or remain unattended, any vehicle or similar obstruction within or upon an area designated as fire lane marked by an appropriate sign or curb marking. Any vehicle or similar obstruction found parked or unoccupied within an area designated as a fire lane as required by this section is declared a nuisance and may be towed without notice. Any such vehicle or similar obstruction parked or unoccupied in such a manner as to obstruct in whole or in part any such fire lane shall be prima facie evidence that the registered owner unlawfully parked, placed, or permitted to be parked or placed such obstruction within a fire lane. The records of the Texas Department of Motor Vehicles showing the name of the person to whom the highway license or boat or trailer license is issued shall constitute prima facie evidence of ownership by the named persons. The minimum widths and clearances established in sections 503.2.1 and 503.2.2 shall be maintained at all times.

Sec. 8.04.380. Section 503.4.2 Enforcement, added.

The Fire Code, Section 503.4.2 Enforcement, is hereby added to read as follows:

503.4.2 Enforcement. The fire chief, fire code official, the chief of police, or their designees are authorized to issue parking citations for any vehicle or similar obstruction. Unauthorized vehicles or obstructions may be removed by towing without further notice. Such vehicle or obstruction may be redeemed by payment of the towage and storage charges at the owner's expense. No parking citations shall be voided nor shall the violator be relieved of any penalty assessed by a judge of the municipal court for any violation of this provision by the redemption of the vehicle or obstruction from the storage facility.

Sec. 8.04.390. Section 503.7 Construction Fire Lanes, added.

The Fire Code, Section 503.7 Construction Fire Lanes, is hereby added to read as follows:

503.7 Construction. The contractor or person in charge of any construction site for commercial, industrial, mercantile, education, instructional, assembly, hotel, motel, multifamily dwelling, or mobile home park occupancies or for any other development for which the fire code official deems appropriate, shall provide and maintain during construction an approved all-weather fire lane, not less than 20 feet in width, as shown on approved plot plans. Final paving of such fire lane shall be completed prior to issuance of any certificate of occupancy.

Sec. 8.04.400. Section 503.8 Traffic control signaling devices, added.

The Fire Code, Section 503.8 Traffic control signaling devices, is hereby added to read as follows:

503.8 Traffic control signaling devices. Fire apparatus access roads, which have new electronic traffic control signaling devices installed, shall include preemptive control equipment compatible with the fire department's existing system.

Sec. 8.04.410. Section 505.1.1 Address Signs, Letter and Number Size, added.

The Fire Code, Section 505.1.1 Address Identification, is hereby added to read as follows:

505.1.1 Address signs, letter, and number size. Address numbers shall be a minimum of four inches in height and shall be of a color contrasting with the color of the structure to which they are attached. The following guidelines shall be used to determine the size of address numbers required when attaching numbers to structures set back from the roadway with an unobstructed view:

DISTANCE FROM CENTERLINE OF ROADWAY TO STRUCTURE BEARING ADDRESS	SIZE OF ADDRESS NUMBERS
0—75 FEET	4—12 INCHES
75—150 FEET	12—20 INCHES
150—225 FEET	20—28 INCHES
OVER 225	APPROVAL OF BUILDING OFFICIAL

Sec. 8.04.420. Section 507.1, Required water supply, amended.

The Fire Code, Section 507.1, Required water supply, is hereby amended to read as follows:

507.1 Required water supply. An approved water supply capable of supplying the required fire flow for fire protection shall be provided to premises on which facilities, buildings, or portions of buildings are hereafter constructed or moved into or within the jurisdiction. Where property is subdivided with or without the creation of public or private streets for the expressed purpose of providing said subdivided parcels for sale or otherwise permitting separate and/or individual development to occur, an approved water supply capable of supplying the projected fire flow for fire protection shall be provided and extended to serve directly any and all subdivided properties. The projected fire flow will be based on the greatest potential demand posed by any type of occupancy allowed by zoning laws on the projected property.

Exception: Additions to existing and newly constructed one- and two-family homes located in areas having substandard water supplies, where the development of full fire-flow is impractical, shall comply with the provisions of Appendix B Section B103 with the approval of the fire code official.

Sec. 8.04.425. Section 507.1.1. Reclaimed or recycled water, added.

The Fire Code, Section 507.1. Reclaimed or recycled water, is hereby added to read as follows:

507.1.1 Reclaimed or recycled water. Where the water supply contains reclaimed water or recycled water, the water shall be analyzed to evaluate any health hazard and to determine whether any materials, chemicals or contaminants in the water will be detrimental to the components of the fire water supply or fire-extinguishing systems. A report shall be submitted to the fire code official for approval prior to acceptance as fulfilling the requirement for water supply.

Sec. 8.04.430. Section 507.2.1, Private Fire Service Mains, amended.

The Fire Code, Section 507.2.1, Private Fire Service Mains, is hereby amended to read as follows:

507.2.1 Private fire service mains. Private fire service mains and appurtenances shall be installed in accordance with NFPA 24. The installation of all private fire lines shall be by a sprinkler contractor registration underground (SGR-U) licensed company.

Sec. 8.04.440. Section 507.2.1.1, Flushing, added.

The Fire Code, Section 507.2.1.1, Flushing, is hereby added to read as follows:

507.2.1.1 Flushing. All private service mains, including lead-ins and remote Fire Department connections, shall be fully flushed per NFPA 24 guidelines before hydrostatically testing the line. Flushing shall be through and open pipe for the lead-ins and Fire Department connections. The open pipe shall be of the minimum size outlined in NFPA 24 and not reduced. Private fire service mains serving only hydrants shall be flushed through the 5.25" hydrant outlet.

Sec. 8.04.450. Section 507.3 Fire flow, amended.

The Fire Code, Section 507.3 Fire flow, is hereby amended to read as follows:

507.3 Fire flow. Fire-flow requirements for buildings or portions of buildings and facilities shall be determined by an approved method, and in accordance with Appendix B.

Sec. 8.04.460. Section 507.5, Fire hydrant systems, amended.

The Fire Code, Section 507.5, Fire hydrant systems, is hereby amended to read as follows:

507.5 Fire hydrant systems. Fire hydrant systems shall comply with Sections 507.5.1 through 507.5.6 and Appendix C.

Sec. 8.04.470. Section 507.5.7 City of Georgetown Fire Hydrant Color Code System, added.

The Fire Code, Section 507.5.7 City of Georgetown Fire Hydrant Color Code System, is hereby added to read as follows:

507.5.7 City of Georgetown Fire Hydrant Color Code System. Private fire hydrant maintenance shall be in accordance with NFPA 291.

A. All private hydrant barrels will be painted red with the bonnet painted using the hydrant flow standard in paragraph c of this section to indicate flow. It will be the customer's responsibility to test and maintain their private fire hydrant(s).

B. Hydrants that are fed from a private fire protection system pump/or storage tank shall be chrome yellow.

C. NON-POTABLE WATER HYDRANT SHALL BE PAINTED SAFETY PURPLE.

D. All private fire hydrants should be inspected, maintained, and flow-tested annually and color coded to indicate the expected fire flow from the hydrant during normal operation. Such color applied to the fire hydrant by painting the bonnet the appropriate color for the expected flow condition.

E. **Hydrant flow coding standards.** Public hydrants will have the bonnets painted silver, the hydrants will be flow tested, and the bonnet painted based on residual pressure of 20 PSI, using the hydrant flow standard in as follows:

FLOW	COLOR
GREATER THAN 1500 GPM	BLUE
1000—1500 GPM	GREEN
500—999 GPM	ORANGE
LESS THAN 500 GPM	RED
NOT WORKING	BLACK OR BAGGED

Sec. 8.04.480. Subsection 507.5.8, Reflective pavement markers, added.

The Fire Code, Section 507.5.8, Reflective pavement markers, is hereby added to reads as follows:

507.5.8 Reflective pavement markers. All fire hydrants shall be identified by the installation of approved blue reflective pavement markers.

Sec. 8.04.490. Subsection 509.1.2, Sign Exhibits, added.

The Fire Code, Section 509.1.1 Sign Exhibits, is hereby added and reads as follows:

509.1.1 Sign exhibits. *See* the City's Fire Department signage criteria manual.

Sec. 8.04.500. Subsection 509.1.3, Electrical service shutoff access, added.

The Fire Code, Section 509.1.2, Electrical service shutoff access, is hereby added and reads as follows:

509.1.2 Electrical service shutoff access. Where electrical service shut off controls are located inside a building, a door providing direct access from the exterior to the room containing such shut off controls shall be provided where required by the fire code official. At the discretion of the fire code official, a remote shunt trip may be required may be installed to disconnect electrical services.

Sec. 8.04.505. Section 510, Emergency responder communications coverage, amended.

The Fire Code, Section 510, Emergency responder communications coverage, is hereby amended to read as follows:

SECTION 510

EMERGENCY RESPONDER COMMUNICATIONS COVERAGE

510.1 Emergency responder communications coverage in new buildings. Approved in-building emergency responder communications coverage for emergency responders shall be provided in all new buildings. ERCES within the building shall be based on the existing coverage levels of the public safety communications systems utilized by the jurisdiction, measured at the exterior of the building. The ERCES, where required, shall be of a type determined by the fire code official and the frequency license holder(s). This section shall not require improvement of the existing public safety communications systems.

Exceptions:

1. Where approved by the building official and the fire code official, a wired communications system in accordance with Section 907.2.13.2 shall be permitted to be installed or maintained instead of an approved communications coverage system.

2. Where it is determined by the fire code official and the frequency license holder that the communications coverage system is not needed based on existing in-building signal strength, quality, and coverage from the public safety communications system(s).

3. In facilities where emergency responder communications coverage is required and such systems, components, or equipment required could have a negative impact on the normal operations of that facility, the fire code official shall have the authority to accept an automatically activated emergency responder communications coverage system.

4. One-story buildings not exceeding 12,000 square feet (1115 m^2) with no below-ground area(s).

510.1.1 Radio frequency (RF) evaluation. A radio frequency (RF) evaluation shall be performed to determine if existing (RF) coverage by the public safety communications system(s) utilized by the jurisdiction exists within the building to meet the signal coverage, strength and quality requirements of NFPA 1225 prior to requiring the installation and operation of an emergency responder communications enhancement system.

510.2 Emergency responder communications coverage in existing buildings.

Existing buildings shall be provided with approved in-building emergency responder communications coverage for emergency responders as required in Chapter 11.

510.3 Permits.

Permits for in-building emergency responder communications enhancement systems shall be in accordance with Sections 510.3.1 and 510.3.2.

510.3.1 Permit required.

A construction permit for the installation of or modification to in-building emergency responder communications enhancement systems and related equipment is required as specified in Section 105.6.5. Maintenance performed in accordance with this code is not considered a modification and does not require a permit.

510.3.2 Operational permit.

Where required by the fire code official, an operational permit shall be issued for the operation of an in-building emergency responder communications enhancement system.

510.4 Technical and design requirements.

The in-building emergency responder communications enhancement system shall be designed in accordance with this code and NFPA 1225.

510.4.1 **Listing.**

Equipment required to provide in-building emergency responder communications enhancement shall be listed in accordance with UL 2524.

510.4.2 Signal strength and quality.

Signal strength shall be sufficient to meet the requirements of the frequencies, applications, and other modulation technologies being utilized by public safety for emergency operations through the coverage area as specified by the fire code official in Section 510.4.2.2.

510.4.2.1 Minimum signal strength into the building.

The minimum downlink signal strength shall be sufficient to provide usable voice communications throughout the coverage area as specified by the fire code official. The downlink signal level shall be sufficient to provide not less than a Delivered Audio Quality (DAQ) of 3.0 throughout the coverage area using either narrowband analog, digital or wideband LTE signals or an equivalent bit error rate (BER), or signal-to-interference-plus-noise ratio (SINR) applicable to the technology for either analog or digital signals.

510.4.2.2 Minimum signal strength out of the building. The minimum uplink signal strength shall be sufficient to provide usable voice communications throughout the coverage area as specified by the fire code official. The uplink signal level shall be sufficient to provide not less than a delivered audio quality (DAQ) of 3.0 using either narrowband analog, digital or wideband LTE digital signals or an equivalent bit error rate (BER), or an equivalent SINR applicable to the technology for either analog or digital signals.

510.4.3 Single supervisory input.

Where approved, a single supervisory input to the fire alarm system to monitor all system supervisory signals shall be permitted.

510.4.4 Additional frequencies and change of frequencies.

The in-building emergency responder communications enhancement system shall be capable of modification or expansion in the event frequency changes are required by the FCC or other frequency licensing authorities, or additional frequencies are made available by the FCC or other frequency licensing authorities.

510.4.5 Design documents.

The fire code official shall have the authority to require “as-built” design documents and specifications for in-building emergency responder communications enhancement systems. The documents shall be in a format acceptable to the fire code official.

510.4.6 Noise interference.

Where a signal booster is used, signal booster type(s) and the uplink signal and noise levels shall be coordinated with and approved by all frequency license holder(s) that may be adversely impacted by any transmitted noise resulting from the in-building emergency responder communications enhancement system. Systems shall be in compliance with all frequency licensing authority requirements.

510.5 Installation requirements.

The installation of the in-building emergency responder communications enhancement system shall be in accordance with NFPA 1225 and Sections 510.5.2 through 510.5.5.

510.5.2 Approval prior to installation.

Communications enhancement systems capable of operating on frequencies licensed to any public safety agency by the FCC or other frequency licensing authority shall not be installed without prior coordination and approval of the fire code official and frequency license holder.

510.5.3 Minimum qualifications of personnel. The minimum qualifications for technical competency of the system designer, and lead installation, maintenance and testing personnel shall include the following:

1. Certification or licensing of in-building system training issued by an approved organization or approved school, or a

2. A certificate issued by the manufacturer of the equipment being installed.

510.6 Testing and maintenance.

The in-building emergency responder communications enhancement system shall be maintained operational at all times in accordance with this code and NFPA 1225.

510.6.1 System testing and proof of compliance.

The testing of the in-building, emergency responder communication enhancement system shall be in accordance with NFPA 1225.

510.6.2 Additional frequencies.

The building owner shall modify or expand the in-building emergency responder communications enhancement system at their expense in the event frequency changes are required by the FCC or other radio licensing authority, or additional frequencies are made available by the FCC or other radio licensing authority. Prior approval of an in-building emergency responder communications enhancement system on previous frequencies does not exempt this section.

510.6.3 **Field testing.** Agency personnel shall have the right to enter onto the property at any reasonable time to conduct field testing to verify the required level of radio coverage.

Sec. 8.04.510. Section 520, Automated External defibrillator (AED) Requirements, added.

The Fire Code, Section 520, Automated External defibrillator (AED) Requirements, is hereby added and reads as follows:

520 Automated External Defibrillator (AED) Requirements

520.1 General. A person or entity that owns or possesses an AED excludes vendors or dealers that own or possess AEDs solely for resale.

520.2 Duties of AED owner. Any person who presently owns or acquires an AED on or after the effective date of this amendment, other than vendors or dealers of AEDs owning or possessing AEDs solely for resale purposes, shall comply with the obligations in subsections 520.2.1 through 520.4 and Texas Health & Safety Occupations Code Chapter 779.

520.2.1 Register the AED with the Georgetown Fire Department. All AED owners shall register the AED with the Georgetown Fire Department. The registration shall include information about AED locations, the names of all persons expected to operate the AED, and dates of training. A form will be provided by the Georgetown Fire Department.

520.2.2 Maintenance and storage. All AED owners shall inspect, test, store, maintain, and service the AED in accordance will all federal and state laws and regulations, and in accordance with any standards established by the AED manufacturer.

520.2.2 AED use. AED owners shall notify the Georgetown Fire Department as soon as possible, but in no event later than 24 hours following any use of the AED, and provide the Georgetown Fire Department with information relevant to the incident, including but not limited to the date, time and location of use, name of person the AED was used upon, the printout from the AED, and the nature of other emergency response to the incident, including the name and address of any hospital, clinic, or medical provider to which the person was transported following the AED use.

520.3 Use and possession for training purposes. Any AED possessed and used solely for demonstration or training purposes, and which would not be operational in an actual emergency use situation shall be exempt from the registration requirements of this section. Any such AED shall be clearly marked on its exterior and readily identifiable as not appropriate for emergency use.

520.4 AED sales. All persons selling an AED within the City, or which may reasonably be anticipated to be used within the City, shall:

520.4.1 Report of the sale of the AED to the Georgetown Fire Department. The information to be reported shall include the date of the sale, manufacturer, model, and serial number of the AED sold, the name and address of the seller, and the name and address of the purchaser, whether the AED sold is new or previously used, and if known, the location where the AED is to be placed; and

520.4.2 Purchaser compliance with law. The purchaser shall maintain evidence that it has or will have complied with the training and other requirements of this title at the time of transfer of the AED to the purchaser for deployment and use by the purchaser.

Sec. 8.04.515. Section 611, Electric Vehicle Charging Equipment Stations, added.

The Fire Code, Section 611, Electric Vehicle Charging Equipment Stations, added.

SECTION 611

ELECTRIC VEHICLE CHARGING EQUIPMENT STATIONS

611.1 Disconnecting Means. For permanently connected electric vehicle supply equipment and wireless power transfer equipment, equipment disconnects, and emergency shutoff shall be installed in a location approved by the fire code official in accordance with NFPA 70, 2026 Edition, Section 625.43.

Sec. 8.04.520. Section 901.2.1 Hydraulic Calculations, added.

The Fire Code, Section 901.2.1 Hydraulic Calculations, is hereby added to read as follows:

901.2.1 Hydraulic calculations. Hydraulic calculations for water-based fire protection systems shall provide a safety factor at the base of the riser. The following are the minimal safety factors required.

1. Residential 13D AND 13R - 10% OR 5 PSI - (lesser of the system demand)
2. Commercial NFPA 13 - LIGHT HAZARD - 10% OR 5 PSI - (lesser of the system demand)
3. Commercial NFPA 13 - ORDINARY HAZARD AND ABOVE - 10 PSI OR 10% (whichever is greater)
4. Standpipe and hose systems NFPA 14 - 10 PSI OR 10% (whichever is greater)
5. Water spray fixed systems NFPA 15 - 10 PSI OR 10% (whichever is greater)
6. Foam water sprinkler and foam water spray systems NFPA 16 - 10 PSI OR 10% (whichever is greater)

Exception: A safety factor less than those defined in this section may be approved by the fire code official only if historical water supply data is available to demonstrate that the reasonable expected fluctuations will not cause the water supply to fall below the system demand.

Sec. 8.04.530. Subsection 901.4.7.1.1, Automatic sprinkler riser location, added.

The Fire Code, Subsection 901.4.7.1.1, Automatic sprinkler riser location, is hereby added to read as follows:

901.4.7.1.1 Automatic sprinkler system riser location. Automatic sprinkler system riser shall be installed within a building with an exterior door that leads directly into the room containing the fire sprinkler riser and shut off controls.

Sec. 8.04.540. Subsection 903.2.1.1, Group A-1, amended.

The Fire Code, Subsection 903.2.1.1, Group A-1, is hereby amended to read as follows:

903.2.1.1 Group A-1. An automatic sprinkler system shall be provided throughout stories containing Group A-1 occupancies and throughout all stories from the Group A-1 occupancy to and including the levels of exit discharge serving that occupancy where one of the following conditions exists:

1. The fire area exceeds 5,000 square feet (464.5 m2);
2. The fire area has an occupant load of 300 or more;
3. The fire area is located on a floor other than a level of exit discharge serving such occupancies; or
4. The fire area contains a multiple-theater complex.

Sec. 8.04.550. Subsection 903.2.1.3, Group A-3, amended.

The Fire Code, Subsection 903.2.1.3, Group A-3, is hereby amended to read as follows:

903.2.1.3 Group A-3. An automatic sprinkler system shall be provided throughout stories containing Group A-3 occupancies and throughout all stories from the Group A-3 occupancy to and including the levels of exit discharge serving that occupancy where one of the following conditions exists:

1. The fire area exceeds 5,000 square feet (464.5 m2);
2. The fire area has an occupant load of 300 or more; or
3. The fire area is located on a floor other than a level of exit discharge serving such occupancies.

Sec. 8.04.560. Subsection 903.2.1.4, Group A-4, amended.

The Fire Code, Subsection 903.2.1.4, Group A-4, is hereby amended to read as follows:

903.2.1.4 Group A-4. An automatic sprinkler system shall be provided throughout stories containing Group A-4 occupancies and throughout all stories from the Group A-4 occupancy to and including the levels of exit discharge serving that occupancy where one of the following conditions exists:

1. The fire area exceeds 5,000 square feet (464.5 m2);
2. The fire area has an occupant load of 300 or more; or
3. The fire area is located on a floor other than a level of exit discharge serving such occupancies.

Sec. 8.04.570. Section 903.2.2 Group B, amended.

The Fire Code, Section 903.2.2 is hereby amended to read as follows:

903.2.2 Group B. An automatic sprinkler system shall be provided for Group B occupancies where the fire area exceeds 10,000 square feet (929 m2).

903.2.2.1 Ambulatory Care Facilities. An automatic sprinkler system shall be installed throughout the entire floor containing an ambulatory care facility where either of the following conditions exist at any time:

Four or more care recipients are incapable of self-preservation, whether rendered incapable by staff or staff has accepted responsibility for care recipients already incapable.

One or more care recipients that are incapable of self-preservation are located at other than the level of exit discharge serving such facility.

In buildings where ambulatory care is provided on levels other than the level of exit discharge, an automatic sprinkler system shall be installed throughout the entire floor where such care is provided as well as all floors between the level of ambulatory care and the nearest level of exit discharge, including the level of exit discharge.

903.2.2.2 Animal housing or care facilities. An automatic sprinkler system in accordance with section 903.3 and 903.4 shall be provided in fire areas containing an animal housing or care facility when the animals are not provided with constant supervision. The following exceptions apply to this requirement:

Exceptions:

1. An automatic sprinkler system is not required in animal housing or care facilities serving 50 or fewer animals where all of the following conditions are met:
   A. Walls and ceilings have a class A finish as specified in section 803; and
   B. The facility is provided with a supervised fire alarm system in accordance with section 907.2.2.2.
2. An automatic sprinkler system is not required in animal housing or care facilities serving 100 or fewer animals where all of the following conditions are met:
   A. The facility is of 1-hour fire resistive construction on both sides of the boundary walls of the kennel area;
   B. Walls and ceilings have a class A finish as specified in section 803; and
   C. The facility is provided with a supervised fire alarm system in accordance with section 907.2.2.2.

3. An automatic sprinkler system is not required in animal housing or care facilities where every animal has immediate and unobstructed access to an exterior area of safety approved by the fire code official and the facility is provided with a supervised fire alarm system in accordance with section 907.2.2.2.

903.2.2.3 Laboratories involving research and development or testing. An automatic sprinkler system shall be installed throughout the fire areas utilized for the research and development or testing of lithium-ion or lithium metal batteries.

Sec. 8.04.580. Subsection 903.2.3, Group E, amended.

The Fire Code, Subsection 903.2.3, Group E, is hereby amended to read as follows:

903.2.3 Group E. An automatic sprinkler system shall be provided for Group E occupancies as follows:

1. Throughout all Group E fire areas greater than 7,500 square feet (696.8 m2) in area.
2. The Group E fire area is located on a floor other than a level of exit discharge serving such occupancies.

Exception: In buildings where every classroom has not fewer than one exterior exit door at ground level, an automatic sprinkler system is not required in any area below the lowest level of exit discharge serving that area.

Sec. 8.04.590. Subsection 903.2.4 Group F-1, amended.

The Fire Code, Section 903.2.4 Group F-1, is hereby amended to read as follows:

903.2.4 Group F-1. An automatic sprinkler system shall be provided throughout all buildings containing a Group F-1 occupancy where one of the following conditions exists:

1. A Group F-1 fire area exceeds 5,000 square feet (464.5 m2).
2. A Group F-1 fire area is located more than three stories above grade plane.
3. The combined area of all Group F-1 fire areas on all floors, including any mezzanines, exceeds 10,000 square feet (929 m2).

903.2.4.1 Woodworking operations. An automatic sprinkler system shall be provided throughout all Group F-1 occupancy *fire areas* that contain woodworking operations in excess of 2,500 square feet (232 m2) in area that generate finely divided combustible waste or use finely divided combustible materials.

903.2.4.2 Group F-1 distilled spirits. An automatic sprinkler system shall be provided throughout a Group F-1 fire area used for the manufacture of distilled spirits.

903.2.4.3 Group F-1 upholstered furniture or mattresses. An *automatic sprinkler system* shall be provided throughout a Group F-1 *fire area* that exceeds 2,500 square feet (232 m2) used for the manufacture of upholstered furniture or mattresses.

Sec. 8.04.600. Subsection 903.2.7 Group M, amended.

The Fire Code, Section 903.2.6 Group M, is hereby amended to read as follows:

903.2.7 Group M. An automatic sprinkler system shall be provided throughout buildings containing a Group M occupancy where one of the following conditions exists:

1. A Group M fire area exceeds 10,000 square feet (929 m2).
2. A Group M fire area is located above or below the first floor above grade plane.
3. The combined area of all Group M fire areas on all floors, including any mezzanines, exceeds 20,000 square feet (1858 m2).

903.2.7.1 High-piled storage. An *automatic sprinkler system* shall be provided as required in Chapter 32 in all buildings of Group M where storage of merchandise is in high-piled or rack storage arrays.

903.2.7.2 Group M upholstered furniture or mattresses. An *automatic sprinkler system* shall be provided throughout a Group M *fire area* where the area used for the display and sale of upholstered furniture or mattresses exceeds 5,000 square feet (464 m2).

Sec. 8.04.610. Subsection 903.2.8.5 Bed and Breakfast, added.

The Fire Code, Subsection 903.2.8.5 Bed and Breakfast, is hereby added to read as follows:

903.2.8.5 Bed and Breakfast. An automatic sprinkler system in accordance with section 903.3 shall be provided throughout all buildings with a group R fire area. Exceptions shall apply solely to existing residential structures that meet one of the following conditions:

1. Bed and Breakfast residence:
    - A. Less than 3 guestrooms with maximum occupancy of 4 guests;
    - B. All guestrooms with direct secondary egress;
    - C. Smoke alarms as required by this Code or the building code;
    - D. Carbon monoxide alarms where required by this Code or the building code;
    - E. Monitored alarm system; and
    - F. Fire extinguishers.
2. Bed and Breakfast inn:
    - A. 3-5 guestrooms with maximum occupancy of more than 4 and less than 10 guests;
    - B. 13-D sprinkler system throughout the structure;
    - C. All guest rooms with direct secondary egress;
    - D. Smoke alarms as required by this Code or the building code;
    - E. Carbon monoxide alarms where required by this Code or the building code;
    - F. Monitored alarm system; and
    - G. Self-closing guestroom doors.
3. Bed and Breakfast lodge:
    - A. 6-8 guestrooms with a maximum occupancy of 16 guests;
    - B. 13-R sprinkler system throughout the structure;
    - C. All guestrooms with direct secondary egress;
    - D. Smoke alarms as required by this code or the building code;
    - E. Carbon monoxide alarms where required by this code or the building code;
    - F. Monitored alarm system;
    - G. Self-closing guestroom doors; and
    - H. Commercial hood system and pull stations.

Sec. 8.04.620. Subsection 903.2.9, Group S-1, amended.

The Fire Code, Subsection 903.2.9, Group S-1, is hereby amended to read as follows:

903.2.9 Group S-1. An automatic sprinkler system shall be provided throughout all buildings containing a Group S-1 occupancy where one of the following conditions exists:

1. A Group S-1 fire area exceeds 5,000 square feet (464.5 m2);
2. A Group S-1 fire area is located above the first floor above or below grade plane;
3. The combined area of all Group S-1 fire areas on all floors, including any mezzanines, exceeds 20,000 square feet (1858 m2); or
4. A Group S-1 fire area used for the storage of commercial motor vehicles where the fire area exceeds 5,000 square feet (464 m2).

Sec. 8.04.630. Subsection 903.2.9.1 Repair Garages, amended.

The Fire Code, Subsection 903.2.9.1 Repair Garages, is hereby amended to read as follows:

903.2.9.1 Repair garages. An automatic sprinkler system shall be provided throughout all buildings used as repair garages in accordance with Section 406.8 of the International Building Code, as shown:

1. Buildings having two or more stories above grade plane, including basements, with a fire area containing a repair garage exceeding 5,000 square feet (464.5 m2).
2. Buildings no more than one story above grade plane, with a fire area containing a repair garage exceeding 5,000 square feet (464.5 m2).
3. Buildings with repair garages servicing vehicles parked in basements.
4. A Group S-1 fire area used for the repair of commercial motor vehicles where the fire area exceeds 5,000 square feet (464 m2).

Sec. 8.04.635. Subsection 903.2.10.3, Lithium-ion or lithium metal powered vehicles, added.

The Fire Code, Subsection 903.2.10.3, Lithium-ion or lithium metal powered vehicles, is hereby added to read as follows:

903.2.10.3 Lithium-ion or lithium metal powered vehicles. An approved automatic sprinkler system shall be provided throughout fire areas used for the parking or storage of lithium-ion or lithium metal powered vehicles where the fire area exceeds 500 square feet (46.4 m2).

Exception: Residential garages in one- and two-family dwellings.

Sec. 8.04.640. Subsection 903.2.11.3, Buildings three or more stories in height, amended.

The Fire Code, Section 903.2.11.3, is hereby amended to read as follows:

903.2.11.3 Buildings three or more stories in height. An automatic sprinkler system shall be installed throughout buildings three or more stories in height.

Exception: Open parking structures (Group S-2) that are compliant with section 903.2.10 of this Code.

Sec. 8.04.650. Section 903.3.1.1.1 Exempt locations, amended.

The Fire Code, Section 903.3.1.1.1, Exempt locations, is hereby amended to read as follows:

903.3.1.1.1 Exempt locations. Automatic sprinklers shall not be required in the following rooms or areas where such rooms or areas are protected with an approved automatic fire detection system in accordance with Section 907.2 that will respond to visible or invisible particles of combustion:

1. A room where the application of water, or flame and water, constitutes a serious life or fire hazard as approved by the fire code official;
2. A room or space where sprinklers are considered undesirable because of the nature of the contents, where approved by the fire code official;
3. Generator and transformer rooms separated from the remainder of the building by walls and floor/ceiling or roof/ceiling assemblies having a fire-resistance rating of not less than 2 hours;
4. Rooms or areas that are of noncombustible construction with wholly noncombustible contents;
5. Fire service access elevator machine rooms and machinery spaces; and
6. Machine rooms, machinery spaces, control rooms and control spaces associated with occupant evacuation elevators designed in accordance with Section 3008 of the International Building Code.

Sprinklers shall not be omitted from a room merely because it is damp, of fire-resistance-rated construction, or contains electrical equipment.

Sec. 8.04.655. Section 903.3.1.1.3, Lithium-ion or lithium metal batteries, added.

The Fire Code, Section 903.3.1.1.3, Lithium-ion or lithium metal batteries, is hereby added to read as follows:

903.3.1.1.3 Lithium-Ion or lithium metal batteries.

Where automatic sprinkler systems are required by this code for areas containing lithium-ion or lithium metal batteries, the design of the system shall be based on a series of fire tests. Such tests shall be conducted or witnessed and reported by an approved testing laboratory. A report prepared by a registered design professional with expertise in fire protection engineering shall be provided to the fire code official for review and approval in accordance with Section 104.2.2 and shall address the range of variables associated with the intended arrangement of the hazards to be protected.

Sec. 8.04.660. Subsection 903.3.1.3, NFPA 13D sprinkler systems, amended.

The Fire Code, Subsection 903.3.1.3, NFPA 13D sprinkler systems, is hereby amended to read as follows:

903.3.1.3 NFPA 13D sprinkler systems. Automatic sprinkler systems installed in one- and two-family dwellings; Group R-3; Group R-4, Condition 1; townhouses, and bed and breakfast occupancies with a maximum occupancy of 10 guests shall be permitted to be installed throughout in accordance with NFPA 13D.

Sec. 8.04.670. Subsection 903.3.9, Backflow protection, added.

The Fire Code, Subsection 903.3.9, Backflow protection, is hereby added as follows:

903.3.9 Backflow protection. Modifications to water-based fire protection systems without backflow protection will require the installation of a backflow preventer per the City of Georgetown's plumbing code. All fire protection systems with a FDC shall have a reduced pressure zone or reduced pressure detector assembly installed.

Sec. 8.04.680. Section 903.4, Sprinkler System Supervision and Alarms, amended.

The Fire Code, Section 903.4, Sprinkler System Supervision and Alarms, is hereby amended to read as follows:

903.4 Sprinkler system supervision and alarms. Valves controlling the water supply for automatic sprinkler systems, pumps, tanks, water levels and temperatures, critical air pressures and waterflow switches on all sprinkler systems shall be electrically supervised by a listed fire alarm control unit.

Exceptions:

1. *Automatic sprinkler systems* protecting one- and two-family *dwellings.*
2. Limited area sprinkler systems in accordance with Section 903.3.8.
3. *Automatic sprinkler systems* installed in accordance with NFPA 13R where a common supply main is used to supply both domestic water and the *automatic sprinkler system,* and a separate shutoff valve for the *automatic sprinkler system* is not provided.
4. Jockey pump control valves that are locked in the open position.
5. Control valves to commercial kitchen hoods, paint spray booths or dip tanks that are locked in the open position.
6. Valves controlling the fuel supply to fire pump engines that are locked in the open position.
7. Trim valves to pressure switches in dry, preaction and deluge sprinkler systems that are locked in the open position.
8. Underground key or hub gate valves in roadway boxes.

Sec. 8.04.690. Subsection 903.4.4, Jockey pump valves, added.

The Fire Code, Subsection 903.4.4, Jockey pump vales, is hereby added as follows:

903.4.4 Jockey pump valves. Jockey pump control valves shall be of the indicating type, electronically supervised, and slow closure as identified by NFPA 13.

Sec. 8.04.700. Subsection 903.4.5, Control valves, added.

The Fire Code, Subsection 903.4.5 Control valves, is hereby added as follows:

903.4.5 Control valves. Backflow prevention devices 2" and smaller shall be equipped with indicating and slow closure type control valves.

Sec. 8.04.710. Subsection 903.4.6, Supervisory switches, added.

The Fire Code, Subsection 903.4.6, Supervisory switches, is hereby added as follows:

903.4.6 Supervisory switches. Plug type supervisory switches will not be allowed as a method to supervise any control valve.

Sec. 8.04.720. Subsection 905.2.1 Hydraulic safety factor, added.

The Fire Code, Subsection 905.2.1, Hydraulic safety factor, is hereby added as follows:

905.2.1 Hydraulic safety factor. Class I standpipe systems shall be hydraulically designed with a 10% safety factor. Safety factor is from the base of the riser on automatic standpipe systems and at the fdc for manual standpipe systems.

Sec. 8.04.730. Subsection 905.2.2 Class 1 Manual Standpipe systems, added.

The Fire Code, Subsection 905.2.2, Class 1 Manual Standpipe systems, is hereby added as follows:

905.2.2 Class 1 Manual Standpipe systems. CLASS 1 (WET OR DRY) MANUAL STANDPIPE SYSTEMS SHALL BE DESIGNED BASED ON AN ENGINE/PUMPER PROVIDING 1250 GPM AT 150 PSI AT THE FDC.

Sec. 8.04.740. Subsection 905.3.9, Travel distance, added.

The Fire Code, Subsection 905.3.9, Travel Distance, is hereby added as follows:

905.3.9 Travel distance. Class 1 standpipe shall also be required on all occupancies in which the distance from accessible points for fire department ingress to any point in the structure exceeds two hundred fifty feet (250') along the route that a fire hose is laid as measured from the fire lane.

Sec. 8.04.750. Section 905.4, Location of Class I standpipe hose connections, amended.

The Fire Code, Section 905.4, Location of Class I standpipe hose connections, is hereby amended to read as follows:

905.4 Location of Class I standpipe hose connections. Class I standpipe hose connections shall be provided in all of the following locations:

1. In every required interior exit stairway, a hose connection shall be provided for each story above and below grade plane. Hose connections shall be located at an intermediate landing between stories unless otherwise approved by the fire code official.

   Exception: A single hose connection shall be permitted to be installed in the open corridor or open breezeway between open stairs that are not greater than 75 feet (22 860 mm) apart.

2. On each side of the wall adjacent to the exit opening of a horizontal *exit.*

   Exception: Where floor areas adjacent to a horizontal exit are reachable from an interior exit stairway hose connection by a 30-foot (9144 mm) hose stream from a nozzle attached to 100 feet (30 480 mm) of hose, a hose connection shall not be required at the horizontal exit.

3. In every exit passageway, at the entrance from the exit passageway to other areas of a building.

   Exception: Where floor areas adjacent to an exit passageway are reachable from an interior exit stairway hose connection by a 30-foot (9144 mm) hose stream from a nozzle attached to 100 feet (30 480 mm) of hose, a hose connection shall not be required at the entrance from the exit passageway to other areas of the building.

4. In covered mall buildings, adjacent to each exterior public entrance to the mall and adjacent to each entrance from an exit passageway or exit corridor to the mall. In open mall buildings, adjacent to each public entrance to the mall at the perimeter line and adjacent to each entrance from an exit passageway or exit corridor to the mall.

5. Where the roof has a slope less than 4 units vertical in 12 units horizontal (33.3-percent slope), a hose connection shall be located on the roof or at the highest landing of stairways with stair or ladder access to the roof. An additional hose connection shall be provided at the top of the most hydraulically remote standpipe for testing purposes. Hose valves located on the roof shall be controlled on the roof and installed in a manner to prevent freezing.

6. Where the most remote portion of a nonsprinklered floor or story is more than 150 feet (45 720 mm) from a hose connection or the most remote portion of a sprinklered floor or story is more than 200

feet (60 960 mm) from a hose connection, the fire code official is authorized to require that additional hose connections be provided in approved locations.

Sec. 8.04.760. Subsection 905.8.1, Standpipe supervision, added.

The Fire Code, Subsection 905.8.1 Standpipe supervision, is hereby added as follows:

905.8.1 Standpipe supervision. All dry standpipe systems shall be monitored with a minimum of 10 PSI and a maximum of 40 PSI air pressure with a high/low alarm and supervised with the guidelines of NFPA 72.

Sec. 8.04.770. Subsection 905.11 Locking Standpipe Outlet Caps, amended and exception added.

The Fire Code, Subsection 905.11 Locking Standpipe Outlet Caps, is amended and an exception is hereby added as follows:

905.11 Locking standpipe outlet caps. The fire code official is authorized to require locking caps on the outlets on standpipes.

Exception: the fire code official has the authority to allow standard hose valve caps in occupancies not susceptible to vandalism or accidental discharge.

Sec. 8.04.780. Section 907.2.2.2 Animal Housing and Care Facilities, added.

The Fire Code, Section 907.2.2.2 is hereby added to read as follows:

907.2.2.2 Animal housing or care facilities. Fire areas containing an animal housing or care facility shall be provided with an electronically supervised automatic smoke detection system. In spaces provided with a source of heat or light but otherwise unconditioned, in lieu of smoke detection the alarm system may be activated by quick response heat detectors with a response time index of less than 100 (e.g. RTI classification of "quick", "ultra fast", "v-fast").

Exception: Smoke detectors and/or quick response heat detectors are not required where the building is equipped throughout with an automatic sprinkler system installed in accordance with Sections 903.3 and 903.4 and activation of the automatic sprinkler system activates notification appliances as required by Section 907.2.2.2.1.

Section 907.2.2.2.1 Notification appliances. Notification appliances shall provide audible and visual alarm signals in office areas and other areas within the fire area where no animals are housed or cared for. Notification appliances within areas where animals are housed or cared for shall provide only visual alarm signals.

Sec. 8.04.790. Subsection 907.2.9.1, Manual Fire alarm system, amended.

The Fire Code, Subsection 907.2.9.1, Manual Fire alarm system, is hereby amended to read as follows:

907.2.9.1 Manual fire alarm system. A manual fire alarm system that activates the occupant notification system in accordance with section 907.5 shall be installed in group R-2 occupancies where any of the following conditions apply:

1. Any dwelling unit or sleeping unit is located three or more stories above the lowest level of exit discharge.
2. Any dwelling unit or sleeping unit is located more than one story below the highest level of exit discharge of exits serving the dwelling unit or sleeping unit.

3. The building contains more than 4 dwelling units or sleeping units. Newer codes now require co detectors in residence, so this will satisfied two different types of detectors.

Sec. 8.04.791, Section 907.2.11.1, Group R-1, amended.

The Fire Code, Section 907.2.11.1, Group R-1, is hereby amended to read as follows:

907.2.11.1 Group R-1. Single- or multiple-station smoke alarms shall be installed in all of the following locations in Group R-1:

1. In each room used for sleeping purposes.

2. In every room in the path of the means of egress from the sleeping area to the door leading from the sleeping unit.

3. In each story within the sleeping unit, including basements. For sleeping units with split levels and without an intervening door between the adjacent levels, a smoke alarm installed on the upper level shall suffice for the adjacent lower level provided that the lower level is less than one full story below the upper level.

4. In the sleeping loft or within the room to which a sleeping loft is open immediately outside the sleeping loft.

Sec. 8.04.792. Section 907.2.11.2 Groups R-2, R-3, R-4, and I-1, amended.

The Fire Code, Section 907.211.2 Groups R-2, R-3, R-4 and I-1, is hereby amended to read as follows:

907.2.11.2 Groups R-2, R-3, R-4, and I-1.

Single- or multiple-station smoke alarms shall be installed and maintained in Groups R-2, R-3, R-4 and I-1 regardless of occupant load at all of the following locations:

1. On the ceiling or wall immediately outside of each separate sleeping area and immediately outside of bedrooms.

2. In each room used for sleeping purposes.

3. In each story within a dwelling unit, including basements but not including crawl spaces and uninhabitable attics. In dwellings or dwelling units with split levels and without an intervening door between the adjacent levels, a smoke alarm installed on the upper level shall suffice for the adjacent lower level provided that the lower level is less than one full story below the upper level.

4. In the sleeping loft or within the room to which a sleeping loft is open immediately outside of the sleeping loft.

Sec. 8.04.793, Section 907.6.6, Monitoring, amended.

The Fire Code, Section 907.6.6, Monitoring, is hereby amended to read as follows:

907.6.6 Monitoring. Fire alarm systems required by this code or by the International Building Code shall be monitored by an approved supervising station in accordance with NFPA 72.

Sec. 8.04.800. Subsection 912.3 Number of hose connections, added.

The Fire Code, Subsection 912.3., Number of hose connections, is hereby added as follows:

912.3 Number and Type of Fire Hose Connections. Fire Department connections shall include a minimum of one 5" storz connections for standpipe systems with a demand up to 500 GPM. Systems with a demand greater than 500 GPM shall require an additional 2.5" connection for each 250 gallons of system demand. This applies to extra hazard group 1 & 2, storage occupancies.

Exception: A single 2.5" FDC inlet is allowed for single risers on 13R systems.

Sec. 8.04.810. Section 912.5, Signs, amended.

The Fire Code, Section 912.5 Signs, is hereby amended to read as follows:

912.5 Signs. Reference Georgetown Fire Department sign manual for signage requirements

Sec. 8.04.820. Section 912.8, Fire Department Connections, added.

The Fire Code, Section 912.8, Fire Department Connections, is hereby added to read as follows:

912.8 Fire Department Connections. All Fire Department Connections (FDCs) shall be marked as approved by the Fire Code Official. Two red street lane reflectors (Stimsonite model 88AB or similar) shall be installed six inches from centerline of the fire apparatus access roadway on the side closest to the FDC. Markers shall be parallel to the FDC having the reflective ends of the street markers facing the director of traffic.

Sec. 8.04.830. Section 913.4, Valve supervision, amended.

The Fire Code, Section 913.4, Valve supervision, is hereby amended to read as follows:

913.4 Valve supervision. Where provided, the fire pump suction, discharge and bypass valves, and isolation valves on the backflow prevention device or assembly shall be supervised open by one of the following methods:

1. Central-station, proprietary or remote-station signaling service.
2. Local signaling service that will cause the sounding of an audible signal at a constantly attended location
3. Locking valves open.

Sec. 8.04.840. Subsection 913.5.5 Test Header, added.

The Fire Code, Subsection 913.5.5, is hereby added as follows:

913.5.5 Fest [Test] header - fire pumps shall be equipped with a test header per NFPA 20 to allow a full flow testing. Test headers shall be installed on the exterior wall or in another location outside the pump room that allows for water discharge during testing.

Sec. 8.04.850. Section 913.6, Fire pump suction pressure, added.

The Fire Code, Section 913.6, Fire pump suction pressure hereby added as follows:

913.6 Fire pump suction pressure. Fire pump suction pressure shall be no less than 20 PSI when flowing 150% of the pumps capacity.

Sec. 8.04.860. Sections 915.1.1 through 915.1.5, amended.

The Fire Code, Sections 915.1.1 through 915.1.5 amended as follows:

915.1.1 Where required. Carbon monoxide detection shall be provided in Group I-1, I-2, I-4 and R occupancies, in Group B fire areas containing an animal housing or care facility, and in classrooms in Group E occupancies in the locations specified in Section 915.2 where any of the conditions in Sections 915.1.2 through 915.1.6 exist.

915.1.2 Fuel-burning appliances and fuel-burning fireplaces. Carbon monoxide detection shall be provided in dwelling units, sleeping units, rooms of animal housing or care facilities where animals are housed or cared for, and classrooms that contain a fuel-burning appliance or a fuel-burning fireplace.

915.1.3 Forced-air furnaces. Carbon monoxide detection shall be provided in dwelling units, sleeping units, rooms of animal housing or care facilities where animals are housed or cared for, and classrooms served by a fuel-burning, forced-air furnace.

Exception: Carbon monoxide detection shall not be required in dwelling units, sleeping units, rooms of animal housing or care facilities where animals are housed or cared for, and classrooms where carbon monoxide detection is provided in the first room or area served by each main duct leaving the furnace, and the carbon monoxide alarm signals are automatically transmitted to an approved location.

915.1.4 Fuel-burning appliances outside of dwelling units, sleeping units, rooms of animal housing or care facilities where animals are housed or cared for, and classrooms. Carbon monoxide detection shall be provided in dwelling units, sleeping units, rooms of animal housing or care facilities where animals are housed or cared for, and classrooms located in buildings that contain fuel burning appliances or fuel-burning fireplaces.

Exceptions:

1. Carbon monoxide detection shall not be required in dwelling units, sleeping units, rooms of animal housing or care facilities where animals are housed or cared for, and classrooms where there are no communicating openings between the fuel-burning appliance or fuel-burning fireplace and the dwelling unit, sleeping unit, room of the animal housing or care facility where animals are housed or cared for, or classroom.
2. Carbon monoxide detection shall not be required in dwelling units, sleeping units, rooms of animal housing or care facilities where animals are housed or cared for, and classrooms where carbon monoxide detection is provided in one of the following locations:
    - 2.1. In an approved location between the fuel burning appliance or fuel-burning fireplace and the dwelling unit, sleeping unit, room of the animal housing or care facility where animals are housed or cared for, or classroom.
    - 2.2. On the ceiling of the room containing the fuel-burning appliance or fuel-burning fireplace.

915.1.5 Private garages. Carbon monoxide detection shall be provided in dwelling units, sleeping units, rooms of animal housing or care facilities where animals are housed or cared for, and classrooms in buildings with attached private garages.

Exceptions:

1. Carbon monoxide detection shall not be required where there are no communicating openings between the private garage and the dwelling unit, sleeping unit, room of the animal housing or care facility where animals are housed or cared for, or classroom.
2. Carbon monoxide detection shall not be required in dwelling units, sleeping units, rooms of animal housing or care facilities where animals are housed or cared for, and classrooms located more than one story above or below a private garage.

3. Carbon monoxide detection shall not be required where the private garage connects to the building through an open-ended corridor.

4. Where carbon monoxide detection is provided in an approved location between openings to a private garage and dwelling units, sleeping units, rooms of animal housing or care facilities where animals are housed or cared for, or classrooms, carbon monoxide detection shall not be required in the dwelling units, sleeping units, rooms of animal housing or care facilities where animals are housed or cared for, or classrooms.

Sec. 8.04.870. Sections 915.3, Detection Equipment, amended.

The Fire Code, Section 915.3, Detection Equipment is hereby amended as follows:

915.3 Detection Equipment. Carbon monoxide detection required by Sections 915.1 through 915.2.3 shall be provided by carbon monoxide alarms complying with Section 915.4 or carbon monoxide detection systems complying with Section 915.5. Electronically supervised carbon monoxide detection systems complying with section 915.5 shall be provided in group B fire areas containing an animal housing or care facility when the animals are not provided with constant supervision.

Sec. 8.04.875. Section 1006.3.4.2, Single Exit Four- to Six-story Group R-2 Occupancies, added.

The Fire Code Section 1006.3.4.2, Single Exit Four- to Six-story Group R-2 Occupancies, is hereby added to read as follows:

1006.3.4.2 Single Exit Four- to Six-story Group R-2 Occupancies. Single Exit Four- to Six Story Group R-2 occupancies with a single exit shall comply with Table 1006.3.4(1) and all the following:

1.The building shall not contain an occupied floor located more than 75 feet (22 860 mm) above the

lowest level of fire department vehicle access (is not a high-rise building as defined in the International Building Code).

2. The net floor area of each floor served by a single exit shall not exceed 4,000 square feet (418.5 m).

3. An exterior exit stairway or interior exit stairway shall be provided at each story served by a single exit. Exit Access Doors into the exit stairway shall swing in the direction of egress travel regardless of the occupant load served.

4. Regardless of the stairway construction type, automatic sprinkler locations in interior exit stairways shall comply with the requirements of NFPA 13 for combustible stairways.

5. There shall be no more than 20 feet (6096 mm) of travel to the exit stairway from the entry/exit door of any dwelling unit.

6. The exit shall not terminate in an egress court where the court depth exceeds the court width unless it is possible to exit in either direction to the public way.

7. Other occupancies shall not communicate with the Group R occupancy portion of the building or with the single-exit stairway.

Exception: Parking garages that are accessory to the Group R occupancy and occupied roofs that comply with IBC section 503.1.4 with an occupant load of less than fifty persons that are accessory to the Group R occupancy are permitted to communicate with the exit stairway.

8. The exit serving the Group R occupancy shall not discharge through any other occupancy, including an accessory parking garage.

9. Openings to the interior exit stairway enclosure shall be limited to those required for exit access into the enclosure from normally occupied spaces, those required for egress from the enclosure, and openings to the exterior. Elevators shall not open into the interior exit stairway enclosure.

10. The fire department connection (FDC) shall be located adjacent to, and be visible from, the primary fire department vehicle access location.

11.A manual fire alarm system and automatic smoke detection system that activates the occupant notification system in accordance with Section 907.5 shall be provided. Smoke detectors shall be in common spaces outside of dwelling units, including but not limited to gathering areas, laundry rooms, mechanical equipment rooms, storage rooms, interior corridors, interior exit stairways, and exit passageways.

12.Electrical receptacles shall be prohibited in the single exit stairway.

13.Elevator access shall be provided.

Sec. 8.04.880. Section 1009.1, Accessible means of egress required, amended.

The Fire Code, Section 1009.1, Accessible means of egress required, is hereby amended to read as follows:

1009.1 Accessible means of egress required. Within the boundaries of Emergency Services District # 8, accessible means of egress shall comply with both this section and the architectural barriers act of the Texas Civil Statutes (Texas Accessibility Standards or TAS). The fire code official is authorized to require the owner, applicant or agent to provide a technical report from a qualified person certifying TAS compliance. Accessible spaces shall be provided with not less than one accessible means of egress. Where more than one means of egress is required by section 1006.2 or 1006.3 from an accessible space, each accessible portion of the space shall be served by not less than two accessible means of egress.

Sec. 8.04.890. Section 1103.7.7, Animal Housing or Care Facilities, added.

The Fire Code, Section 1103.7.7, Animal Housing or Care Facilities is hereby added as follows:

1103.7.7 Animal housing or care facilities. An electronically supervised automatic smoke detection system complying with section 907.2.2.2 shall be installed in all fire areas containing an existing Group B Animal housing or care facility without constant supervision.

Sec. 8.04.891. Section 1107, Fire protection for post-fire repair or reconstruction, added.

The Fire Code, Section 1107, Fire protection for post-fire repair or reconstruction, is hereby added to read as follows:

SECTION 1107

FIRE PROTECTION FOR POST-FIRE REPAIR OR RECONSTRUCTION[JS18.1][CW18.2][CW18.3]

1107.1 Institutional and residential occupancies. Where an unsprinklered Group I, Group R-1, Group R-2, or Group R-4 Occupancy is repaired or reconstructed following a fire incident that caused more than 50-percent of a fire area to remain unoccupiable for a period of 60 or more days, an automatic sprinkler system complying with Section 903.3 shall be installed throughout such fire area or fire areas as part of the repair or reconstruction.

Sec. 8.04.892. Subsection 1207.12, Pre-existing lithium-ion technology energy storage systems, added.

The Fire Code, Section 1207.12, Pre-existing lithium-ion technology energy storage systems, is hereby added to read as follows:

1207.12 Pre-existing lithium-ion technology energy storage systems. The owner of an energy storage system (ESS) utilizing lithium-ion battery technology having capacities exceeding the values in Table 1207.1.3 and installed prior to the jurisdiction's adoption of the 2018 or later edition of the International Fire Code that are not listed to UL 9540 shall provide the fire code official a failure modes and effects analysis (FMEA) or other approved hazard mitigation analysis technical report in accordance with Section 104.2.2 for review and approval.

Exception: Detached one- and two-family dwellings and townhouses.

1207.12.1 Early detection. In addition to the requirements of Sections 1207.1.8.1 and 1207.1.8.2 identifying potential failure events, the analysis report shall include an assessment of the ability of the installed protection systems to provide for early detection and notification of a thermal runaway event in relation to the ability of emergency responders to safely mitigate the size and impact of a thermal runaway event.

1207.12.2 Corrective action plan. Where hazards are identified by the analysis, a plan that includes a timetable for corrective action shall be submitted to the fire code official for review and approval. The plan shall include actions and system improvements necessary for eliminating or mitigating any identified hazards, including listed methods for early detection and notification of a thermal runaway event.

Sec. 8.04.900. Section 3101.1 Scope, amended.

The Fire Code, Section 3101.1 Scope, is hereby amended to read as follows:

3101.1 Scope. Tents, temporary stage and canopies, temporary special event structures and membrane structures shall comply with this chapter and THE CITY OF GEORGETOWN FIRE DEPARTMENT'S SPECIAL EVENT MANUAL Section General Tent and Canopy. The provisions of Section 3103 are applicable only to temporary tents and membrane structures. The provisions of Sections 3104 and 3106 are applicable to temporary and permanent tents and membrane structures. The provisions of Section 3105 are applicable to temporary special event structures. The provisions of Section 3106 are applicable to outdoor assembly events. Other temporary structures shall comply with the International Building Code.

Sec. 8.04.910. Subsection 5706.2.4.4 Locations where above-ground tanks are prohibited, amended.

The Fire Code, Subsection 5706.2.4.4 Locations where above-ground tanks are prohibited, is hereby amended to read as follows:

5706.2.4.4 Locations where above-ground tanks are prohibited. The storage of Class I and II liquids in above-ground tanks is prohibited within the City of Georgetown city limits, with exception of areas that are zoned for industrial use. Storage of Class I and II liquids may be permitted at the discretion of the Fire Code Official following review of the proposed location and the fire protection for storage areas. Storage shall not be allowed within 100 feet (30,480mm) of the property line of any Group E, I, or R occupancies.

Sec. 8.04.920. Chapter 61, Liquified Petroleum Gases, deleted.

The Fire Code, Chapter 61, Liquified Petroleum Gases is hereby deleted in its entirety.

Sec. 8.04.925, subsection 6304.1.9, Dry chemical and CO2 extinguishers, added.

The Fire Code, Subsection 6304.1.9, Dry chemical and CO2 extinguishers, is hereby added to read as follows:

6304.1.9. Dry chemical and CO2 extinguishers. The placement and use of carbon dioxide (CO2) or dry chemical fire extinguishers containing ammonium compounds (Class A:B:C) shall not be used in areas where oxidizers are stored.

Sec. 8.04.930. Appendix B Subsection B105.1, one- and two-family dwellings, Group R-3 and R-4 Buildings and Townhouses amended.

The Fire Code Appendix B Subsection B105.1, one- and two-family dwellings, Group R-3 and R-4 buildings and townhouses, is hereby amended to read as follows:

B105.1 One- and two-family dwellings, Group R-3 and R-4 buildings and townhouses. The minimum fire-flow and flow duration requirements for one- and two-family dwellings, Group R-3 and R-4 buildings and townhouses shall be as specified in Tables B105.1(1) as amended and B105.1(2).

TABLE B105.1(1) LOCAL AMENDMENT REQUIRED FIRE-FLOW FOR ONE-AND-TWO-FAMILY DWELLINGS, GROUP R-3 AND R-4 BUILDINGS AND TOWNHOUSES

FIRE FLOW BY SEPARATION DISTANCE				
FIRE FLOW CALCULATION AREA	**SPRINKLER**	**>10'**	**>30'**	**Flow Duration**
0—3600 SQFT	NO	1000	750	1 hour
3601—5000 SQFT	NO	TABLE B105.1(2)	1000	1 hour
5001 AND GREATER	NO	TABLE B105.1(2)	TABLE B105.1(2)	TABLE B105.1(2)
0—5000 SQFT	YES	1/2 VALUE IN TABLE B 105.1 (2)	500	½ hour
5001 AND GREATER	YES	1/2 VALUE IN TABLE B105.1(2)	1/2 VALUE IN TABLE B105.1(2)	1 hour

Sec. 8.04.940. Appendix D Section D103.2, Grade, amended.

The Fire Code, Appendix D Section D103.2, Grade, is hereby amended to read as follows:

D103.2 Grade. Fire apparatus access roads shall not exceed 10 percent in grade.

Exception: Scored concrete roads and fire lanes with grades steeper than 10 percent as approved by the fire code official.

Sec. 8.04.950. Appendix D Section D103.5, fire apparatus access road gates, amended.

The Fire Code, Appendix D Section D103.5, fire apparatus access road gates, is hereby amended to read as follows:

D103.5 Fire apparatus access road gates. Gates securing the fire apparatus access roads shall comply with all of the following criteria:

1. The minimum unobstructed gate width shall be not less than 20 feet (6096 mm). Where a fire apparatus road consists of a divided roadway, the gate width shall be not less than 12 feet (3658 mm).

   Exception: One- and Two-Family Dwellings as approved by the Fire Code Official.

2. Gates shall be of the swinging sliding type.
3. Construction of gates shall be of materials that allow manual operation by one person.

4. Gate components shall be maintained in an operative condition at all times and replaced or repaired when defective.

5. Electrically operated gates:

   A. Shall be equipped with a means of opening the gate by fire department personnel for emergency access. Emergency access devices shall be approved by the fire code official.

   B. Shall be in the fully-opened position for no more than 30 seconds.

   C. Shall have a manual override system. Manual override operations shall be located on the entrance side of the gate, or when power has failed, the gate(s) shall open and stay open until power is restored for normal operations.

   D. Shall have installed approved preemptive control opening equipment.

      Exceptions:

      i. Driveways serving one- and two-family dwellings as approved by the Fire Code Official.

      ii. Gates serving as an emergency access with 24-hour staffed gatehouses.

6. Manual Opening Gates:

   A. May be locked when approved by the Fire Code Official.

   B. If equipped with a lock, keys shall be provided for installation into an approved Fire Department key box. Keys shall be maintained current.

7. Locking device specifications shall be submitted for approval by the fire code official.

8. Electric gate operators, where provided, shall be *listed* in accordance with UL 325.

9. Gates intended for automatic operation shall be designed, constructed, and installed to comply with the requirements of ASTM F2200.

10. A construction permit in accordance with subsection 503.6 is required to install or modify a gate across fire apparatus roadways.

11. Maintenance of gates securing fire apparatus access. Gates shall be maintained in an operative condition and repaired or replaced when defective. When required by the fire code official, defective gates shall be secured in the open position until repaired.

Sec. 8.04.960. Figure D103.1 (Dead ends), amended.

The Fire Code, Figure 103.1, Dead ends, is hereby amended as follows:

REVISE FIGURE 103.1 AND TABLE 103.4 TO SHOW THAT THE DIAMETER OF CUL-DE-SAC SHALL HAVE A DIAMETER OF 100' AS MEASURED FROM FACE OF CURB TO FACE OF CURB.

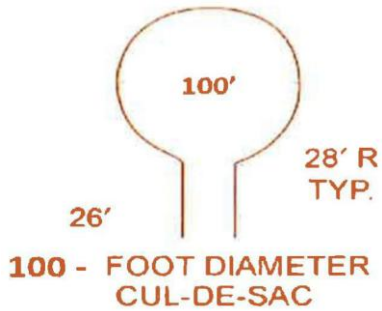

TABLE D103.4 REQUIREMENTS FOR DEAD-END FIRE APPARATUS ACCESS ROADS

LENGTH (feet)	WIDTH (feet)	TURNAROUNDS REQUIRED
0-150	20	None required
151-500	20	120-foot Hammerhead, 60-foot "Y" or 100-foot diameter cul-de-sac in accordance with Figure D103.1
501-750	26	120-foot Hammerhead, 60-foot "Y" or 100-foot diameter cul-de-sac in accordance with Figure D103.1
Over 750	Special approval required	

Sec. 8.04.970. Appendix D Subsection D103.5.1, existing fire apparatus access road gates, added.

The Fire Code, Appendix D Subsection D103.5.1, existing fire apparatus access road gates, is hereby added to read as follows:

D103.5.1 Existing fire apparatus access road gates. Existing gates securing fire apparatus access roads shall comply with Section D103.5.

Sec. 8.04.980. Appendix D subsection D103.6, Signs, amended.

The Fire Code, Appendix D subsection D103.6, Signs, is hereby amended to read as follows:

D103.6 Signs. Where required by the fire code official, fire apparatus access roads shall be marked and signs shall be installed according to the appropriate application:

1. Commercial Application. A sign 12-inches wide and 18-inches in height with red lettering on a white reflective background and border in red stating "FIRE LANE - TOW AWAY ZONE." The words "FIRE LANE" by themselves are not acceptable. Sign shall be mounted conspicuously along the edge of the fire lane. Sign must be spaced no more than 30 feet apart at a minimum height of 7 feet above finished grade.
2. In subdivision streets where parking is not allowed on one side or both sides of the street, fire lanes are required shall be marked and maintained in the following manner: A sign 12-inches wide and 18-inches in height with red lettering on a white reflective background and border in red stating "FIRE LANE - TOW AWAY ZONE." The words "FIRE LANE" by themselves are not acceptable. Sign shall be mounted conspicuously along the edge of the fire lane. Sign must be at the beginning of a street and spaced no more than 250 feet apart at a minimum height of 7 feet above finished grade.

Sec. 8.04.990. Appendix D subsection D103.6.2, Roads more than 26 feet wide, amended.

The Fire Code, Appendix D subsection D103.2, Roads more than 26 feet wide, is hereby amended to read as follows:

Fire lane signs as specified in Section D103.6 shall be posted on one side of fire apparatus access roads more than 26 feet wide (7925 MM) and less than 31 feet wide (9754 MM). Measured from back of curb to back of curb.

Sec. 8.04.1000. Appendix D, Subsection D103.7, Driveways, added.

The Fire Code, Appendix D, Subsection D103.7, Driveways, is hereby added to read as follows:

D103.7 Driveways. Driveways exceeding 150 feet (45,720mm) in length providing access to dwelling units shall provide a minimum unobstructed width of 14 feet (4267mm) and a minimum unobstructed height of 13 feet 6 inches (4115mm). Driveways in excess of 150 feet (45,720mm) in length shall be provided with turnarounds. Driveways in excess of 200 feet (60,960mm) in length and less than 20 feet (6096mm) in width shall be provided with turnouts in addition to turnarounds. A driveway shall not serve in excess of five dwelling units. Driveways that connect with a road or roads at more than one point may be considered as having a turnaround. Driveway turnouts shall be an all-weather road surface at least 10 feet (2048) wide and 30 feet (9144mm) long. Driveway turnouts shall be located as required by the Fire Code Official.

Sec. 8.04.1010. Appendix D, Subsection D103.8, Divided fire apparatus access road turnarounds, added.

The Fire Code, Appendix D, Subsection D103.8, Divided fire apparatus access road turnarounds, is hereby added to read as follows:

D103.8 Divided fire apparatus access road turnarounds. Fire apparatus access roads that are divided with medians shall be provided with median breaks for emergency vehicle turnarounds. The maximum distance between median breaks shall be 2,640 feet (804,700mm).

Sec. 8.04.1020. Appendix D, Section D104.2, Buildings, facilities and shopping centers exceeding 62,000 square feet (5760m) in Gross building fire area, amended.

The Fire Code, Appendix D, Subsection D104.2, is hereby amended to read as follows:

D104.2 Buildings, Facilities, and Shopping Centers exceeding 62,000 square feet (5760m^2) in gross building fire area. Buildings, or facilities, and shopping centers having a gross building fire area of more than 62,000 square feet (5760m^2) shall be provided with two separate and approved fire apparatus access roads.

Sec. 8.04.1030. Section D107.2 Remoteness, amended.

The Fire Code, Section D107.2, Remoteness, is hereby amended to read as follows:

D107.2 Remoteness. where two fire apparatus access roads are required, they shall be placed a distance apart equal to not less than one-half of the length of the maximum overall diagonal dimension of the property or area to be served, measured in a straight line between accesses. At the discretion of the fire code official, the remoteness requirement could be waived, because of location on property, topography, waterways, nonnegotiable grades or other similar conditions.

Sec. 8.04.1040. Section L101.1 Scope, amended.

The Fire Code, Section L101.1, Scope, is hereby amended to read as follows:

L101.1 Scope. Firefighter air replenishment systems (FARS) shall be provided in accordance with this appendix.

L101.1.05 Exception. Depending on specific building characteristics or special hazards that result in the requirement for an installation of a FARS, the fire code official is authorized to assess a fee in lieu of the installation of such a systems. The decision to accept a fee in lieu of system installation shall be based on the

fire department's capability of replenishing firefighter breathing air during sustained emergency operations. Considerations shall include but may not be limited to:

1. Building characteristics, such as number of stories above or below grade plane, floor area, type of construction and fire resistance of the primary structural frame to allow sustained fire-fighting operations based on a rating of not less than 2 hours;
2. Special hazards, other than buildings, that require unique accommodations to allow the fire department to replenish firefighter breathing air;
3. Fire department staffing level; and/or
4. Availability of a fire department breathing air replenishment systems or vehicles.

Sec. 8.04.1050. Section L101.1.1 Required location, added.

The Fire Code, Section L101.1.1, Required Location, is hereby added to read as follows:

L101.1.1 Required location. In new buildings, fill stations shall be required when any on the following conditions occur:

1. Any new building more than 5 stories in height.
2. Any new building more than 2 stories below grade.
3. Any new building 500,000 square feet or more in size.

L101.1.2 Exception. Depending on specific building characteristics or special hazards that result in the requirement for an installation of a FARS, the fire code official is authorized to assess a fee in lieu of the installation of such a systems. The decision to accept a fee in lieu of system installation shall be based on the fire department's capability of replenishing firefighter breathing air during sustained emergency operations. Considerations shall include but may not be limited to:

1. Building characteristics, such as number of stories above or below grade plane, floor area, type of construction and fire resistance of the primary structural frame to allow sustained fire-fighting operations based on a rating of not less than 2 hours.
2. Special hazards, other than buildings, that require unique accommodations to allow the fire department to replenish firefighter breathing air.
3. Fire department staffing level.
4. Availability of a fire department breathing air replenishment systems or vehicles.

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
Second Reading - 2026 Annual Service Plan Update and Assessment Roll for Georgetown Village PID

SUGGESTED ACTION:
Second Reading of an Ordinance approving and adopting the final 2026 Annual Service Plan Update, 2026 Assessment Role, establishing classification for the apportionment of costs and the method of assessing special assessments for the supplemental services and improvements to the property in the Georgetown Village Public Improvement District No. 1 (GVPID), closing the hearing and levying assessments for the cost of certain supplemental services and improvements to be provided in the GVPID during FY27, fixing charges and liens against the property in the GVPID and against the owners thereof, and providing for the collection of the assessments -- Kyle Shafman, P3Works, LLC, City of Georgetown's PID Administrator

ITEM SUMMARY:
The City Council authorized the creation of the Georgetown Village Public Improvement District (GVPID) in 1999 via Resolution No. 990223-N and amended via Resolution Numbers 050801-AA-1, 032602-R, 040803-V-2, 011309-JJ, 062612-M, and 072214-R, to fund certain supplemental services and improvements that benefit the land within the approximate 391.83-acre district (Exhibit "A"). These improvements include pocket parks, landscape areas, signage, distinctive lighting, sidewalks and trails, alleyways, recreational facilities and other hardscape improvements, water quality facilities, and street trees. Additionally, it includes those services necessary for the administration and operation of the district, including those of the City and the annual collection of assessments.

On July 28, 2026, the City Council set August 25, 2026, as the public hearing date for the levy of assessment. The proposed total estimated supplemental services and improvements to be provided for the District for FY2027 is approximately $545,006. The cost to provide and maintain these services will be funded through an assessment of $0.11 per $100 valuation, in addition to dollars from the Replacement and Repair Reserve cash on hand. The average property value based on the 2026 Williamson County Appraisal District is approximately $431,090; therefore, homeowners pay on average around $474 this year. Property owners in the GVPID pay this assessment at the same time as they pay the City of Georgetown property tax.

The final 2026 Annual Service Plan Update ("SAP Update"), which includes the 2026 Assessment Roll, method of assessment and levy of assessment is attached as Exhibit "B". The proposed SAP Update are feasible and sound and will serve the needs and desires of the property owners.

FINANCIAL IMPACT:
The proposed total estimated supplemental services and improvements to be provided for the District for FY2027 is approximately $545,006. The cost to provide and maintain these services will be funded through an assessment of $0.11 per $100 valuation, in addition to dollars from the Replacement and Repair Reserve cash on hand. The average property value based on the 2026

Williamson County Appraisal District is approximately $431,090; therefore, homeowners pay on average around $474 this year. Property owners in the GVPID pay this assessment at the same time as they pay the City of Georgetown property tax.

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS ("CITY"), APPROVING AND ADOPTING THE FINAL 2026 O&M SERVICE PLAN UPDATE, AND THE FINAL 2026 ASSESSMENT ROLL (TO BE KEPT ON FILE WITH THE CITY SECRETARY); ESTABLISHING CLASSIFICATIONS FOR THE APPORTIONMENT OF COSTS AND THE METHODS OF ASSESSING SPECIAL ASSESSMENTS FOR THE SERVICES AND IMPROVEMENTS TO PROPERTY IN THE GEORGETOWN VILLAGE PUBLIC IMPROVEMENT DISTRICT NO. 1; CLOSING THE HEARING AND LEVYING ASSESSMENTS FOR THE COST OF CERTAIN SUPPLEMENTAL SERVICES AND IMPROVEMENTS TO BE PROVIDED IN THE DISTRICT DURING 2027; FIXING CHARGES AND LIENS AGAINST THE PROPERTY IN THE DISTRICT AND AGAINST THE OWNERS THEREOF; PROVIDING FOR THE COLLECTION OF THE ASSESSMENTS; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City is authorized under Chapter 372 of the Texas Local Government Code to create a public improvement district within its corporate limits and within its extraterritorial jurisdiction; and

WHEREAS, on February 23, 1999, the City Council first authorized and created the Georgetown Village Public Improvement District No. 1 (the "District"), as a public improvement district by Resolution No. 990223-N; and

WHEREAS, from 2001 to 2014, the City Council authorized the inclusion of additional real property into the District pursuant to Resolution Numbers 050801-AA-1, 032602-R, 040803-V-2, 011309-JJ, 062612-M, and 072214-R, a Georgetown Village PID Boundary Map of which is attached hereto as **Exhibit "A"** showing the total combined area of approximately 391.83 acres; and

WHEREAS, on July 28, 2025, the City Council authorized a public hearing to be held on August 25, 2026, to receive comments on the proposed 2026 O&M Service Plan Update and Assessment Plan, Levy of Assessment, and approval of the final 2027 Service Plan; and

WHEREAS, the City desired by the calling and holding of such public hearing to provide a reasonable opportunity for owners of property located in the District to speak for or against the assessment against real property and real property improvements exclusive of public rights-of-way, and to continue funding for the District for the purpose of providing supplemental services and improvements; and

WHEREAS, the City Council desires to authorize and adopt the Assessment Roll that was

filed with the City Secretary and subject to public inspection in the City's official records prior to the public hearing; and

WHEREAS, the City Council finds that the Service Plan and Assessment Plan are feasible and sound and will serve the needs and desires of the property owners, and that the assessment rate for the service area in the District is $0.11 per $100.00 of appraised value, as determined by the Williamson Central Appraisal District (WCAD), of the property or improvements to the property located in the District; are reasonable and adequate.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

SECTION 1. All matters stated in the preamble of this Ordinance are found to be true and correct and are incorporated into the body of this Ordinance as if copied in their entirely.

SECTION 2. The action of the City Council closing the August 25, 2026, public hearing in these proceedings is hereby ratified and confirmed.

SECTION 3. The proposed method of assessment, which specifies included or excluded classes of assessable property, is based on the value of the real property and real property improvements as determined by the WCAD. Public rights-of-way and City of Georgetown property are non-assessed. The assessment rate to be billed in 2026 for the service area in the District is $0.11 per $100.00 of appraised valuation.

SECTION 4. The City Council hereby authorizes and adopts the final 2026 Service Plan, the final 2026 Assessment Roll (to be kept on file with the City Secretary), and the Assessment Plan, attached hereto and incorporated herein as **Exhibit "B"**.

SECTION 5. The City Council hereby finds that written notice of the date, hour, place, and purpose of the meeting at which this Ordinance was adopted was posted and that such meeting was open to the public as required by law at all times during which this Ordinance and its subject matter were discussed, considered, and formally acted upon, all as required by the Open Meetings Act, Chapter 551, Texas Government Code, as amended, and the Public Improvements Assessment Act.

SECTION 6. The City Council finds that the assessments as set forth in the Assessment Plan should be made and levied against the respective parcels of land within the District and against the owners thereof, and are substantially in proportion to the benefits to the respective parcels of land by means of maintenance of improvements in the District for which such assessments are levied. The assessments establish substantial justice and equality and uniformity between the respective owners to the respective properties and between all parties concerned considering the benefits received and burdens imposed. The Council further finds that in each case the property assessed is specially benefited by means of the improvements in the District, and further finds that

the apportionment of the cost of the services is in accordance with the law in force in this City and State, and the proceedings of this City heretofore conducted with reference to the formation of the District and the imposition of the assessments for the improvements are in all respects valid and regular.

SECTION 7. There is hereby levied and assessed against the parcels of property within the District, and against the real and true owners thereof (whether such owners be correctly named or not), the sums of the money as listed in the Assessment Roll on file with the City Secretary and subject to public inspection, and the several amounts assessed against the same, and the owners thereof at the assessment rate of $0.11 per $100.00 of appraised value.

SECTION 8. The assessments above mentioned and assessed against the parcels of property and the owners thereof, plus penalties and interest in the same amount as stated in Section 33.01 *et seq.* of the Texas Tax Code, together with reasonable attorney's fees and costs of collection, if incurred, are hereby a first, prior, and superior lien upon the respective parcels of property against which the same are assessed, and a personal liability and charge against the owners of such property, whether such owners be named herein or not, and the liens constitute the first enforceable lien and claim against the property on which such assessments are levied, and shall be superior to all other liens and claims except State, County, School District, and City *ad valorem* taxes.

SECTION 9. Where more than one person or entity owns an interest in any final platted residential lot, each such person or entity shall be personally liable only for his, her, or its pro rata share of the total assessment based on his, her, or its proportionate ownership interest of the lot, and that interest in the lot may be released from the assessment lien upon payment of such proportionate sum.

SECTION 10**.** If default be made in the payment of any of the sums hereby assessed against the property owners and their property, collection thereof, including penalties and interest authorized in Section 8 above, costs, and attorney's fees, shall be enforced by suit in any Court having jurisdiction or by lien foreclosure or both.

SECTION 11. All assessments levied are a personal liability and charge against the owners of the premises described even if such owners are not named, or are incorrectly named.

SECTION 12. The assessments herein levied are made and levied under and by virtue of the terms, powers and provisions of the Public Improvement District Assessment Act, Chapter 372 of the Texas Local Government Code, as amended.

SECTION 13. If any provision of this Ordinance or application thereof to any person or circumstance shall be held invalid, such invalidity shall not affect the other provisions of this Ordinance which can be given effect without the invalid provision, and the provisions of this Ordinance are hereby declared to be severable.

SECTION 14. The Mayor is hereby authorized to sign this ordinance and the City Secretary to attest. This Ordinance shall take effect upon its passage in accordance with State Law and the City Charter.

Georgetown Village Public Improvement District No. 1

2026 O&M ANNUAL SERVICE PLAN UPDATE

AUGUST 25, 2026

P3 WORKS

AUSTIN, TX | NORTH RICHLAND HILLS, TX

INTRODUCTION

On February 23, 1999, after due process, the City Council passed Resolution No. 990223-N approving and authorizing the creation of the District to finance the costs of Authorized Improvements and to fund the cost of the maintenance of the Public Improvements for the Assessed Property within the District.

On April 27, 1999, after due process, the City Council approved the SAP for the District by adopting Ordinance No. 99-22, which approved the levy of the Operations and Maintenance Assessment for Assessed Property within the District.

From 2001 to 2014, after due process, the City Council authorized the inclusion of additional real property into the District pursuant to Resolution No. 050801-AA-1, 032602-R, 040803-V-2, 011309-JJ, 062612-M, and 072214-R for the total combined area of approximately 391.83 acres.

On September 27, 2016, after due process, the City Council approved the annual service and assessment plan update by approving Ordinance No. 2016-61, which provided terms for the Operations and Maintenance Assessment to finance the costs of Authorized Improvements and to fund the cost of the maintenance of the Public Improvements for the Assessed Property within the District and approved the levy of Assessments and Assessment Roll for Operations and Maintenance Costs and Annual Collection Costs.

On August 22, 2017, after due process, the City Council approved the annual service and assessment plan update by approving Ordinance No. 2017-46, which provided terms for the Operations and Maintenance Assessment to finance the costs of Authorized Improvements and to fund the cost of the maintenance of the Public Improvements for the Assessed Property within the District and approved the levy of Assessments and Assessment Roll for Operations and Maintenance Costs and Annual Collection Costs.

On August 28, 2018, after due process, the City Council approved the annual service and assessment plan update by approving Ordinance No. 2018-46, which provided terms for the Operations and Maintenance Assessment to finance the costs of Authorized Improvements and to fund the cost of the maintenance of the Public Improvements for the Assessed Property within the District and approved the levy of Assessments and Assessment Roll for Operations and Maintenance Costs and Annual Collection Costs.

On September 10, 2019, after due process, the City Council approved the annual service and assessment plan update by approving Ordinance No. 2019-68, which provided terms for the Operations and Maintenance Assessment to finance the costs of Authorized Improvements and to fund the cost of the maintenance of the Public Improvements for the Assessed Property within

the District and approved the levy of Assessments and Assessment Roll for Operations and Maintenance Costs and Annual Collection Costs.

On September 8, 2020, after due process, the City Council approved the annual service and assessment plan update by approving Ordinance No. 2020-56, which provided terms for the Operations and Maintenance Assessment to finance the costs of Authorized Improvements and to fund the cost of the maintenance of the Public Improvements for the Assessed Property within the District and approved the levy of Assessments and Assessment Roll for Operations and Maintenance Costs and Annual Collection Costs.

On August 24, 2021, after due process, the City Council approved the 2021 Amended and Restated O&M Service and Assessment Plan and levied Operations and Maintenance Assessment to finance the costs of Authorized Improvements and to fund the cost of the maintenance of the Public Improvements by approving Ordinance No. 2021-60. The SAP identified the Authorized Improvements to be funded by the District, the costs of the Authorized Improvements, the Operations and Maintenance Costs, and the manner of assessing the property specially benefited. The City also adopted an Assessment Roll identifying the Assessment on each Lot within the District, based on the method of assessment identified in the SAP.

On August 23, 2022, the City Council approved the 2022 O&M Annual Service Plan Update and levied Operations and Maintenance Assessment to finance the costs of Authorized Improvements and the Operations and Maintenance Costs and approved an updated Assessment Roll by adopting Ordinance No. 2022-60.

On August 22, 2023, the City Council approved the 2023 O&M Annual Service Plan Update and levied Operations and Maintenance Assessment to finance the costs of Authorized Improvements and the Operations and Maintenance Costs and approved an updated Assessment Roll by adopting Ordinance No. 2023-41.

On August 27, 2024, the City Council approved the 2024 O&M Annual Service Plan Update and levied Operations and Maintenance Assessment to finance the costs of Authorized Improvements and the Operations and Maintenance Costs and approved an updated Assessment Roll by adopting Ordinance No. 2024-23.

On September 9, 2025, the City Council approved the 2025 O&M Annual Service Plan Update and levied Operations and Maintenance Assessment to finance the costs of Authorized Improvements and the Operations and Maintenance Costs and approved an updated Assessment Roll by adopting Ordinance No. 2025-46.

This 2026 O&M Annual Service Plan Update shall (1) levy a 2026 Operations and Maintenance Assessment and associated Annual Collection Costs, (2) create a lien against Assessed Property within the District to finance the costs of Authorized Improvements and Operations and

Maintenance Costs, and (3) serve as the 2026 O&M Annual Service Plan Update in accordance with the PID Act.

PARCEL SUBDIVISION

The following plats have been recorded in the District.

- The final plat for Georgetown Village Section 2A was recorded in the official public records of the County on February 12, 1997, and consists of 66 residential Lots classified as Single-Family Lot Types, and 6 Lots classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 3 was recorded in the official public records of the County on June 23, 1998, and consists of 59 residential Lots classified as Single-Family Lot Types, and 2 Lots classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 2B was recorded in the official public records of the County on February 26, 1999, and consists of 26 residential Lots classified as Single-Family Lot Types, and 1 Lot classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 4 was recorded in the official public records of the County on September 13, 1999, and consists of 1 Lot classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 1 was recorded in the official public records of the County on November 30, 2000, and consists of 1 Lot classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 3B was recorded in the official public records of the County on November 30, 2000, and consists of 78 residential Lots classified as Single-Family Lot Types, and 4 Lots classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 2C was recorded in the official public records of the County on March 12, 2001, and consists of 9 residential Lots classified as Single-Family Lot Types, and 1 Lot classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 4B was recorded in the official public records of the County on November 11, 2001, and consists of 33 residential Lots classified as Single-Family Lot Types, and 0 Lots classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 5 was recorded in the official public records of the County on March 20, 2002, and consists of 52 residential Lots classified as Single-Family Lot Types, and 1 Lot classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 7 was recorded in the official public records of the County on August 25, 2003, and consists of 96 residential Lots classified as Single-Family Lot Types, and 4 Lots classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 8 was recorded in the official public records of the County on June 21, 2006, and consists of 65 residential Lots classified as Single-Family Lot Types, and 1 Lot classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 6 was recorded in the official public records of the County on August 16, 2006, and consists of 117 residential Lots classified as Single-Family Lot Types, and 3 Lots classified as Non-Assessed Property.

- The final plat for Georgetown Village Section 9 Phase 1 was recorded in the official public records of the County on May 28, 2008, and consists of 100 residential Lots classified as Single-Family Lot Types, and 4 Lots classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 9 Phase 3 was recorded in the official public records of the County on September 16, 2009, and consists of 0 residential Lots classified as Single-Family Lot Types, and 1 Lot classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 9 Phase 2 was recorded in the official public records of the County on July 20, 2010, and consists of 1 residential Lot classified as Single-Family Lot Types, and 0 Lots classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 9 Phase 4 was recorded in the official public records of the County on February 7, 2013, and consists of 63 residential Lots classified as Single-Family Lot Types, and 0 Lots classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 9 Phase 5 was recorded in the official public records of the County on November 7, 2013, and consists of 15 residential Lots classified as Single-Family Lot Types, and 0 Lots classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 9 Phase 7 was recorded in the official public records of the County on August 11, 2013, and consists of 32 residential Lots classified as Single-Family Lot Types, and 0 Lots classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 9 Phase 6 was recorded in the official public records of the County on November 8, 2013, and consists of 17 residential Lots classified as Single-Family Lot Types, and 0 Lots classified as Non-Assessed Property.
- The final plat for Creekside at Georgetown Village PUD Phase 1 was recorded in the official public records of the County on February 20, 2014, and consists of 57 residential Lots classified as Single-Family Lot Types, and 6 Lots classified as Non-Assessed Property.
- The final plat for Creekside at Georgetown Village PUD Phase 2 was recorded in the official public records of the County on July 28, 2014, and consists of 85 residential Lots classified as Single-Family Lot Types, and 4 Lots classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 9 Phase 8 was recorded in the official public records of the County on September 29, 2014, and consists of 53 residential Lots classified as Single-Family Lot Types, and 1 Lot classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 9, Phases 9 & 10 was recorded in the official public records of the County on March 9, 2016, and consists of 70 residential Lots classified as Single-Family Lot Types, and 4 Lots classified as Non-Assessed Property.
- The final plat for Creekside at Georgetown Village PUD Phase 3 was recorded in the official public records of the County on June 7, 2016, and consists of 50 residential Lots classified as Single-Family Lot Types, and 5 Lots classified as Non-Assessed Property.
- The final plat for Georgetown Village Section 9, Phase 9A was recorded in the official public records of the County on March 15, 2017, and consists of 0 residential Lots classified as Single-Family Lot Types, and 1 Lot classified as Non-Assessed Property.

- The general warranty deed for Georgetown Village Phase 9 was recorded in the official public records of the County on January 21, 2021, and consists of 0 residential Lots classified as Single-Family Lot Types, and 1 Lot classified as Non-Assessed Property.

See **Exhibit C** for the Buyer Disclosure.

[Remainder of page intentionally left blank.]

AUTHORIZED IMPROVEMENTS AND ANNUAL COLLECTION COSTS

The Operations and Maintenance Assessment will be levied annually on all Parcels of Assessed Property to pay for Operations and Maintenance Costs. The budget for Operations and Maintenance Costs as provided by the City is shown on **Exhibit B**.

The Operations and Maintenance Assessment and Annual Collection Costs shall be subject to penalties and procedures for the Annual Installments as authorized by the PID Act. All Authorized Improvements were designed and constructed in accordance with City standards and specifications and are owned and operated by the City.

The Authorized Improvements of the District include:

- Operation Expenses:
  - PID Administration
    - Improvements including administrative allocation, appraisal contracts, consulting fees, printing, property and casualty insurance
  - Parks and Recreation
    - *Pocket Parks and Landscape Areas*

Improvements including all parks less than 1 acre, landscape easement lots, greenbelts, medians, roundabouts, playscapes, shade structures, and other landscape areas within the rights-of-way. All related general grounds maintenance, tree trimming/pruning, plant and tree removal and replacement, landscaping, irrigation (maintenance, repair, and replacement), and utilities are included. The pocket parks and landscape areas improvements will provide benefit to all Lots within the District.

- *Signage*

Improvements including special street signs replacement, trail signs and markers, park name signs, and subdivision entry and directional signs. All related maintenance, repair and replacement are included. The signage improvements will provide benefit to all Lots within the District.

- *Distinctive Lighting*

Improvements including parks, gazebo, and street antique streetlights within the District. All related maintenance for painting and coating are included. The distinctive lighting improvements will provide benefit to all Lots within the District.

- Public Works
    - *Sidewalks and Trails*

Improvements including public walkways within the perimeter of the PID, trails in park and landscape easement lots, pedestrian alleyways, and sidewalks repair. All related maintenance, repair and replacement are included. The sidewalks and trails improvements will provide benefit to all Lots within the District.

    - *Alleyways*

Improvements including stormwater drainage improvements, inlets, catch basins and buried pipe. All related maintenance, repair and replacement of pavement are included. The alleyways improvements will provide benefit to all Lots within the District.

    - *Recreational Facilities and other Hardscape Improvements*

Improvements including gazebo, playscapes, shade structures, mutt mitt dispenser, park benches, tables, and trash receptacles. All related maintenance and repair are included. The recreational facilities and other hardscape improvements will provide benefit to all Lots within the District.

    - *Water Quality Facilities*

Improvements including water quality ponds. All related pond rehabilitation and ongoing maintenance are included. The water quality facilities improvements will provide benefit to all Lots within the District.

    - *Street Trees*

Improvements including maintenance, removal, and preparation for new tree located in the right of way, between the road and sidewalk. The trees improvements will provide benefit to all Lots within the District.

- Improvement Projects:
    - Parks: Fitness equipment improvements.

OPERATIONS AND MAINTENANCE ASSESSMENT

The City, at its sole cost, will maintain the Authorized Improvements with proceeds from the Operations and Maintenance Assessment. In order to fund all currently budgeted fiscal year 2026-2027 Operations and Maintenance Costs, attached hereto as **Exhibit B**, this 2026 O&M Annual Service Plan Update shall levy an Operations and Maintenance Assessment, due January 31, 2027, as shown on the Assessment Roll on **Exhibit A**. The Operations and Maintenance Assessment will be levied annually on all Parcels of Assessed Property to pay for Operations and Maintenance Costs. For all Parcels of Assessed Property, the Operations and Maintenance Assessment will be an amount that results in a tax rate equivalent equal to $0.11 per $100 of taxable assessed value. In no event will the Operations and Maintenance Assessment exceed the City's actual costs for operating and maintaining the Authorized Improvements.

SERVICE PLAN - FIVE YEAR PROJECTION

The PID Act requires the annual indebtedness and projected costs for the Operations and Maintenance Assessment and Annual Collection Costs to be reviewed and updated annually, and the projection shall cover a period of not less than five years.

EXHIBIT C – BUYER DISCLOSURE

The Buyer Disclosure for all Parcels in the District is found in this Exhibit.

GEORGETOWN VILLAGE PUBLIC IMPROVEMENT DISTRICT – OPERATIONS & MAINTENANCE ASSESSMENT BUYER DISCLOSURE

NOTICE OF OBLIGATIONS RELATED TO PUBLIC IMPROVEMENT DISTRICT

A person who proposes to sell or otherwise convey real property that is located in a public improvement district established under Subchapter A, Chapter 372, Local Government Code (except for public improvement districts described under Section 372.0035), or Chapter 382, Local Government Code, shall first give to the purchaser of the property this written notice, signed by the seller.

For the purposes of this notice, a contract for the purchase and sale of real property having a performance period of less than six months is considered a sale requiring the notice set forth below.

This notice requirement does not apply to a transfer:

1) under a court order or foreclosure sale;
2) by a trustee in bankruptcy;
3) to a mortgagee by a mortgagor or successor in interest or to a beneficiary of a deed of trust by a trustor or successor in interest;
4) by a mortgagee or a beneficiary under a deed of trust who has acquired the land at a sale conducted under a power of sale under a deed of trust or a sale under a court-ordered foreclosure or has acquired the land by a deed in lieu of foreclosure;
5) by a fiduciary in the course of the administration of a decedent's estate, guardianship, conservatorship, or trust;
6) from one co-owner to another co-owner of an undivided interest in the real property;
7) to a spouse or a person in the lineal line of consanguinity of the seller;
8) to or from a governmental entity; or
9) of only a mineral interest, leasehold interest, or security interest

The following notice shall be given to a prospective purchaser before the execution of a binding contract of purchase and sale, either separately or as an addendum or paragraph of a purchase contract. In the event a contract of purchase and sale is entered into without the seller having provided the required notice, the purchaser, subject to certain exceptions, is entitled to terminate the contract.

A separate copy of this notice shall be executed by the seller and the purchaser and must be filed in the real property records of the county in which the property is located at the closing of the purchase and sale of the property.

NOTICE OF OBLIGATION TO PAY IMPROVEMENT DISTRICT ASSESSMENT TO

CITY OF GEORGETOWN, TEXAS

CONCERNING THE FOLLOWING PROPERTY

_____

PROPERTY ADDRESS

As the purchaser of the real property described above, you are obligated to pay assessments to the City of Georgetown, Texas, for the costs of a portion of a public improvement or services project (the "Authorized Improvements") undertaken for the benefit of the property within ***Georgetown Village Public Improvement District*** (the "District") created under Subchapter A, Chapter 372, Local Government Code.

AN ASSESSMENT HAS BEEN LEVIED AGAINST YOUR PROPERTY FOR THE AUTHORIZED IMPROVEMENTS, WHICH MAY BE PAID IN FULL AT ANY TIME. IF THE ASSESSMENT IS NOT PAID IN FULL, IT WILL BE DUE AND PAYABLE IN ANNUAL INSTALLMENTS THAT WILL VARY FROM YEAR TO YEAR DEPENDING ON THE AMOUNT OF INTEREST PAID, COLLECTION COSTS, ADMINISTRATIVE COSTS, AND DELINQUENCY COSTS.

The exact amount of the assessment may be obtained from the City of Georgetown. The exact amount of each annual installment will be approved each year by the City of Georgetown City Council in the annual service plan update for the district. More information about the assessments, including the amounts and due dates, may be obtained from the City of Georgetown.

Your failure to pay any assessment or any annual installment may result in penalties and interest being added to what you owe or in a lien on and the foreclosure of your property.

[1] To be included in separate copy of the notice required by Section 5.0143, Tex. Prop. Code, to be executed at the closing of the purchase and sale and to be recorded in the deed records of Williamson County when updating for the Current Information of Obligation to Pay Improvement District Assessment.

- August 25, 2026 – PH and first reading of ORD

Council Action

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS ("CITY"), APPROVING AND ADOPTING THE FINAL 2026 O&M SERVICE PLAN UPDATE, AND THE FINAL 2026 ASSESSMENT ROLL (TO BE KEPT ON FILE WITH THE CITY SECRETARY); ESTABLISHING CLASSIFICATIONS FOR THE APPORTIONMENT OF COSTS AND THE METHODS OF ASSESSING SPECIAL ASSESSMENTS FOR THE SERVICES AND IMPROVEMENTS TO PROPERTY IN THE GEORGETOWN VILLAGE PUBLIC IMPROVEMENT DISTRICT NO. 1; CLOSING THE HEARING AND LEVYING ASSESSMENTS FOR THE COST OF CERTAIN SUPPLEMENTAL SERVICES AND IMPROVEMENTS TO BE PROVIDED IN THE DISTRICT DURING 2027; FIXING CHARGES AND LIENS AGAINST THE PROPERTY IN THE DISTRICT AND AGAINST THE OWNERS THEREOF; PROVIDING FOR THE COLLECTION OF THE ASSESSMENTS; AND PROVIDING FOR AN EFFECTIVE DATE.

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
Second Reading - 2025-2-PUD - Texas Municipal Center Planned Unit Development

SUGGESTED ACTION:
Second Reading of an Ordinance on a request for a Zoning Map Amendment to rezone 1.322 acres of Block 23, Glasscock Addition, from the Mixed-Use Downtown (MU-DT) zoning district, and 0.257 acres of Lot 4, Lot 3 (SP), Block 21, and 0.414 acres of Lots 5-6, Lot 7 (SP), Block 21 of Glasscock Addition, from the Residential Single-Family (RS) zoning district to the Planned Unit Development (PUD) zoning district with a base zoning district of Mixed-Use Downtown (MU-DT), for the properties generally located at 205 E. University Avenue, 1014 Myrtle Street, and 1009 Church Street (2025-2-PUD) -- Allyson Iiams, Assistant Planning Director

ITEM SUMMARY:
The applicant is requesting to rezone the subject properties, from the Mixed-Use Downtown (MU-DT) zoning district, the Residential Single-Family (RS) zoning district to the Planned Unit Development (PUD) zoning district with a base zoning district of Mixed-Use Downtown (MU-DT). The applicant's letter of intent, outlines their intent to establish the site as the headquarters and corporate offices for the Texas Municipal League Intergovernmental Risk Pool (TMILRP), while also contributing to the vitality of Downtown Georgetown.

FINANCIAL IMPACT:
None. The applicant has paid the required application fees.

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, AMENDING PART OF THE OFFICIAL ZONING MAP TO REZONE 1.322 ACRES OF LOTS 1-8, BLOCK 23, GLASSCOCK ADDITION, 0.256 ACRES OF LOT 4, LOT 3 (SP), BLOCK 21, GLASSCOCK ADDITION, AND 0.41 ACRES OF LOTS 5-6, LOT 7 (SP), BLOCK 21 OF GLASSCOCK ADDITION, GENERALLY LOCATED AT 205 EAST UNIVERSITY AVENUE, 1014 MYRTLE STREET, AND 1009 CHURCH STREET FROM THE MIXED-USE DOWNTOWN (MU-DT), AND RESIDENTIAL SINGLE-FAMILY (RS) ZONING DISTRICTS TO THE PLANNED UNIT DEVELOPMENT (PUD) ZONING DISTRICT WITH A BASE ZONING OF MIXED-USE DOWNTOWN (MU-DT); REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; INCLUDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

WHEREAS, an application has been made to the City for the purpose of amending the Official Zoning Map, adopted on the 12th day of June, 2012, for the specific Zoning District classification of the following described real property ("The Property"):

1.322 acres of Lots 1-8, Block 23, Glasscock Addition, 0.256 acres of Lot 4, Lot 3 (SP), Block 21, Glasscock Addition, and 0.41 acres of Lots 5-6, Lot 7 (SP), Block 21, Glasscock Addition, generally located at 205 East University Avenue, 1014 Myrtle Street, and 1009 Church Street, as recorded in Document Numbers 2026001200, 2026001200, and 2025095233 of the Official Public Records of Williamson County, Texas, hereinafter referred to as "The Property"; and

WHEREAS, public notice of such hearing was accomplished in accordance with State Law and the City's Unified Development Code through newspaper publication, signs posted on the Property, and mailed notice to nearby property owners; and

WHEREAS, the Planning and Zoning Commission, at a meeting on the 21st day of July, 2026, held the required public hearing and submitted a recommendation of approval to the City Council for the requested rezoning of the Property; and

WHEREAS, the City Council, at a meeting on the 25th day of August, 2026, held an additional public hearing prior to taking action on the requested rezoning of the Property.

NOW THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

Section 1. The meeting at which this ordinance was approved was conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

Section 2. The facts and recitations contained in the preamble of this ordinance are hereby found and declared to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

Section 3. The City Council hereby finds that this Ordinance implements the vision, goals, and policies of the Georgetown 2030 Comprehensive Plan and further finds that the enactment of this Ordinance is not inconsistent or in conflict with any other policies or provisions of the 2030 Comprehensive Plan and the City's Unified Development Code.

Section 4. The Official Zoning Map, as well as the Zoning District classification for the Property is hereby amended from the Mixed-Use Downtown (MU-DT) and Residential Single-Family (RS) zoning districts to the Planned Unit Development (PUD) zoning district with a base zoning district of Mixed-Use Downtown (MU-DT), in accordance with the attached ***Exhibit A*** (PUD Development Plan) and incorporated herein by reference.

Section 5. All ordinances or resolutions that conflict with the provisions of this ordinance are hereby repealed, and all other ordinances or resolutions of the City not in conflict with the provisions of this ordinance shall remain in full force and effect.

Section 6. If any provision of this ordinance, or application thereof, to any person or circumstance, shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this ordinance, which can be given effect without the invalid provision or application, and to this end the provisions of this ordinance are hereby declared to be severable.

Section 7. The Mayor is hereby authorized to sign this ordinance and the City Secretary to attest. This Ordinance shall become effective and be in full force and effect immediately in accordance with the provisions of the City Charter of the City of Georgetown.

EXHIBIT A
TEXAS MUNICIPAL CENTER
PLANNED UNIT DEVELOPMENT (PUD)
DEVELOPMENT PLAN
JULY 1, 2026

A. PROPERTY - LEGAL DESCRIPTION

Tract I: A tract or parcel containing 1.322 acres or approximately 57,600 square feet of land being all of Block 23, Glasscock Addition in the City of Georgetown conveyed to Texas Municipal League Intergovernmental Risk Pool in a general warranty deed dated January 5, 2026 and recorded in Document No. 2026001200 of the Official Public Records of Williamson County, Texas; Tract II: A tract or parcel containing 0.257 acres or approximately 11,172 square feet of land, being all of Lot 4 and a portion of Lot 3, Block 21, of the Glasscock Addition to the City of Georgetown conveyed to Texas Municipal League Intergovernmental Risk Pool in a general warranty deed dated January 5, 2026 and recorded in Document No. 2026001200 of the Official Public Records of Williamson County, Texas; and Tract III: A tract or parcel containing 0.414 acres or approximately 18,035 square feet of land being all of Lots 5 and 6, and a portion of Lot 7, Block 21, Glasscock Addition conveyed to Texas Municipal League Intergovernmental Risk Pool in a general warranty deed dated December 2, 2025 and recorded in Document No. 2025095233 of the Official Public Records of Williamson County (collectively approximately 1.993 acres, the "Property"), as reflected in **Exhibit "B"**.

B. PURPOSE

The proposed Texas Municipal Center ("TMC") development is submitted as a Planned Unit Development ("PUD"), with a base zoning district of Mixed-Use Downtown zoning ("MU-DT").

This PUD serves to augment and/or modify the standards for development outlined in the City's Unified Development Code ("UDC") in order to implement the vision for the Property and insure a cohesive, quality development not otherwise anticipated by the underlying base zoning district. In accordance with UDC this Development Plan, titled **Exhibit "A"**, is a summary of the development and design standards for the Property.

The PUD is intended to create a set of development standards for TMC consisting of three (3) existing buildings and an existing parking lot. Two (2) proposed building additions totaling a maximum of 95,000 gross square feet will be added to Tract I. The intended occupancy of these buildings will include, but is not limited to, professional and business offices, general office, and other related uses permitted within the MU-DT base zoning district.

C. APPLICABILITY AND BASE ZONING

In accordance with City of Georgetown ("City") UDC all development of the Property shall conform to the MU-DT base zoning district. Except for those requirements specifically deviated by this Development Plan, all development standards established in the most current version of the UDC at the time of development shall be applicable, including amendments or ordinances adopted after the date of this PUD. In the event that this Development Plan does not address a specific item, the UDC and any other applicable Ordinances shall apply. In the event of a conflict

between the regulations of this PUD and the regulations of the base zoning district, the PUD shall control.

D. CONCEPT PLAN

A Concept Plan is attached as **Exhibit "D"** to illustrate the building footprints, building information and design intent for the Property.

E. LAND USES

The TMC PUD is intended to establish the Property as the general headquarters and corporate office for the Texas Municipal League Intergovernmental Risk Pool ("TMLIRP"). The TMC PUD permitted uses with no limitations or Special Use Permit requirements include the following uses: (i) General Office, (ii) Integrated Office Center (iii) Office, Professional and Business, (iv) Event Facility as an accessory use to the Primary Use, and as a Primary Use, and (v) Personal Services. Uses that are not specified as permitted uses with no limitations or Special Use Permit requirements will be subject to the UDC MU-DT zoning district allowed uses. Prohibited uses are those listed in the UDC under the MU-DT zoning district.

F. DESIGN STANDARDS

1. PURPOSE

In order to provide attention in design and human scale and to minimize the appearance of large walls and structures, articulation techniques, and architectural features shall be incorporated into the building design.

2. OFFICE AREA

The total building square footage on Tract I shall not exceed 95,000.

3. OPEN SPACE

a. Additions are located on site in portions of Property where they are least likely to impact adjacent existing historic structures. The northwest corner of the Property is adjacent to historic homes and will be utilized as outdoor open space. The southeast corner adjacent to St. John's Methodist Church will also remain as open space. Both additions help to transition a large, noncompatible structure to be more compatible with the surrounding area and Old Town Character.

b. The minimum square footage of open space within the PUD will be 6,000 square feet, which will be privately maintained.

4. BUILDING ARTICULATION -HORIZONTAL (FOOTPRINT) and Vertical ARTICULATION (ELEVATION)

a. The UDC and the Historic District Design Guidelines indicate specific building

Articulation and Architectural Features for horizontal and vertical offsets. The existing building and proposed additions will not comply with vertical and horizontal articulation requirements.

b. Horizontal Articulation (Footprint).

Where the length of the wall is less than 120 feet, articulation is not required.

c. Vertical Articulation (Elevation).

No building wall shall extend laterally for a distance greater than four times the building's average height without a change in vertical elevation of at least twenty-five percent (25%) of such height.

5. BUILDING ELEMENTS

a. Roof styles for the new additions will be less than 2-to-12 pitch to be more compatible with the existing building.

b. Roof treatments for the new additions will include parapets that are less than two feet above the roof line to be more compatible with the existing building.

G. PARKING

Parking on the Property shall be in conformance with Chapter 9 of the UDC except as otherwise stated in this Development Plan.

1. Off-street parking is not required when a shared parking agreement is provided. The City of Georgetown parking garage located at East 9th Street and South Main Street will be utilized for off-street parking. The maximum required parking will be 200 spaces.

2. ADA parking will be provided in the R.O.W. along the north side of the Property on 11th Street via an accessible route subject to approval by the City. Loading and trash collection is also proposed to be located in the R.O.W. (area to be determined).

H. VEHICULAR ACCESS AND CIRCULATION

1. The site is bounded by three Local Downtown Streets to the west, north, and east: S Church Street, East 11th street, and south Myrtle Street. The site is bounded by SH 29 to the south. There are no roadway modifications planned for this project.

2. **Exhibit "E"** reflects the existing roadway network and City roadway standards.

I. TREE SURVEY

A tree survey of the Property is reflected in **Exhibit "C"**. The PUD will be subject to the Tree Ordinance 2025-54 or any modifications to the Tree Ordinance at the time of site development plan approval.

J. LANDSCAPE REQUIREMENTS

The landscape plan will comply with the requirements of the UDC as shown on **Exhibit "F"**, Concept Landscape Plan with the following exceptions:

1. The sidewalks under all heritage trees in the R.O.W. along Church and Myrtle Streets will remain in place within the ½ critical root zone to limit disturbance and impact to the root zones. In the event that the sidewalk needs to be repaired/replaced due to damage during construction or unsafe conditions, the sidewalk will be rebuilt in its current location subject to review by the City of Georgetown 8.02.030.

K. IMPERVIOUS COVER

The portion of the Property within the Downtown Overlay District effective on the date of the PUD approval is allowed a 95% maximum impervious cover. Tracts II and III, which are outside of the Downtown Overlay, will be subject to 70% impervious cover at the time either Tract is redeveloped. The existing impervious cover conditions on Tracts II and III will remain as is.

L. PUD MODIFICATIONS

In conformance with the UDC, modifications to this Development Plan shall require City Council approval of an amendment to this PUD except where the Director of Planning determines such modifications to be minor the Director may authorize such modifications. Minor modifications may include changes to building sizes or locations providing those modifications conform to the general intent of this PUD, uses authorized by this PUD, or to applicable provisions of the UDC and any other applicable regulations.

1.322 ACRES
WILLIAMSON COUNTY, TEXAS

A DESCRIPTION OF 1.322 ACRES (APPROXIMATELY 57,600 SQ. FT.), BEING ALL OF BLOCK 23, GLASSCOCK ADDITION IN THE CITY OF GEORGETOWN (NO RECORD INFORMATION FOUND), BEING ALL OF A 1.322 ACRE TRACT OF LAND CONVEYED TO TEXAS MUNICIPAL LEAGUE INTERGOVERNMENTAL RISK POOL, IN A GENERAL WARRANTY DEED DATED JANUARY 5, 2026, RECORDED IN DOCUMENT NO. 2026001200 OF THE OFFICIAL PUBLIC RECORDS OF WILLIAMSON COUNTY, TEXAS; SAID 1.322 ACRES BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING at a 1/2” rebar found at the intersection of the north right-of-way line of E University Avenue (public right-of-way width varies) and the east right-of-way line of S Church Street (public right-of-way width varies), being the southwest corner of said Block 23, same being the southwest corner of the said 1.322 acre tract;

THENCE North 01°58'07" West, with the east right-of-way line of S Church Street and the west line of said Block 23, same being the west line of the said 1.322 acre tract, a distance of 240.00 feet to a 1/2” rebar with “Early Boundary” cap set at the intersection of the east right-of-way line of S Church Street and the south right-of-way line of E 11th Street (apparent 60’ public right-of-way width), being the northwest corner of said Block 23, same being the northwest corner of the said 1.322 acre tract, from which an “X” in concrete found at the intersection of the east right-of-way line of S Church Street and the north right-of-way line of E 11th Street, being the southwest corner of Block 21 of said Glasscock Addition, same being the southwest corner of a 0.41 acre tract described in Document No. 2025095233 of the Official Public Records of Williamson County, Texas, bears North 01°58’07” West, a distance of 59.81 feet;

THENCE North 88°01'53" East, with the south right-of-way line of E 11th Street and the north line of said Block 23, same being the north line of the said 1.322 acre tract, a distance of 240.00 feet to a mag nail with “Early Boundary” washer set at the intersection of the south right-of-way line of E 11th Street and the west right-of-way line of S Myrtle Street (public right-of-way width varies), being the northeast corner of said Block 23, same being the northeast corner of the said 1.322 acre tract, from which a punch/drill hole in concrete found at the intersection of the north right-of-way line of E 11th Street and the west right-of-way line of S Myrtle Street, being the southeast corner

of said Block 21, same being the southeast corner of a 0.256 acre tract described in said Document No. 2026001200, bears North 01°58’07” West, a distance of 60.02 feet;

THENCE South 01°58'07" East, with the west right-of-way line of S Myrtle Street and the east line of said Block 23, same being the east line of the said 1.322 acre tract, a distance of 240.00 feet to a mag nail with “Early Boundary” washer set at the intersection of the west right-of-way line of S Myrtle Street and the north right-of-way line of E University Avenue, being the southeast corner of said Block 23, same being the southeast corner of the said 1.322 acre tract, from which a 1/2” iron pipe found at the intersection of the west right-of-way line of S Myrtle Street and the south right-of-way line of E University Avenue, being the northeast corner of Lot 4, Cody’s Subdivision of Block I of the Hughes Addition, a subdivision of record in Cabinet A, Slide 110 of the Plat Records of Williamson County, Texas, bears South 02°12’17” East, a distance of 86.55 feet, then North 87°47’43” East, a distance of 11.37 feet;

THENCE South 88°01'53" West, with the north right-of-way line of E University Avenue and the south line of said Block 23, same being the south line of the said 1.322 acre tract, a distance of 240.00 feet to the **POINT OF BEGINNING**, containing 1.322 acres of land, more or less.

Surveyed on the ground on March 4, 2026.

TITLE COMMITMENT NOTE (TRACTS I & II):

COMMITMENT FOR TITLE INSURANCE PREPARED BY:

First American Title Guaranty Company

G.F. No.: 15374–2828066 Effective Date: 7/27/23 Issued: 8/3/23

The surveyor has relied upon the referenced Commitment for Title regarding easements, restrictions, and other matters affecting this property. No additional research was done for the purpose of this survey. Items listed are worded according to the commitment, followed by surveyor's notes and/or observations.

Schedule "B" items contained therein and re–listed below were considered:

There are no survey related matters listed in Schedule B to consider.

TITLE COMMITMENT NOTE: (TRACT III)

The Survey for Tract III was prepared without the benefit of a Commitment for Title, and may be subject to additional easements or restrictions not shown hereon. No additional easement research was done for the purpose of this survey.

FLOOD–PLAIN NOTE:

The tract shown hereon lies within Zone "X" (areas determined to be outside the 0.2% annual chance floodplain), as identified by the Federal Emergency Management Agency, National Flood Insurance Program, as shown on map no. 48491C0293F, dated December 20, 2019, for Williamson County, Texas and incorporated areas. If this site is not within an identified special flood hazard area, this flood statement does not imply that the property and/or the structures thereon will be free from flooding or flood damage. This flood statement shall not create liability on the part of the surveyor.

ALTA/NSPS SURVEY NOTES:

(Table A, Item 7b1)
Square footage of buildings, if shown, is based on the outside, ground floor footprint. Unless noted otherwise, the surveyor has not accessed the inside of the building for measurement purposes.

GENERAL SURVEY NOTES:

PROPERTY ADDRESS:

TRACT I: 205 E University Avenue, Georgetown, TX 78626
TRACT II: 1014 S Myrtle St, Georgetown, TX 78626
TRACT III: 1009 S Church Street, Georgetown, TX 78626

ATTACHMENTS: None

UNABLE TO SAFELY OPEN MANHOLES DUE TO VOLUME OF TRAFFIC

BEARING BASIS:

THE TEXAS COORDINATE SYSTEM OF 1983 (NAD83), CENTRAL ZONE, UTILIZING THE SMARTNET NORTH AMERICA NETWORK.

SURVEYOR'S CERTIFICATE:

CERTIFIED TO:

- CPM Texas
- Texas Municipal League Intergovernmental Risk Pool
- First American Title Insurance Company
- First American Title Guaranty Company

This is to certify that this map or plat and the survey on which it is based were made in accordance with the 2021 Minimum Standard Detail Requirements for ALTA/NSPS Land Title Surveys, jointly established and adopted by ALTA and NSPS, and includes Items 1–4, 7a, 7b1, 7c, 8, 9 and 14 of Table A thereof.

- The field work for Tracts I and II was completed on September 9, 2025.
- Updated in the office to add TRACT II on September 30, 2025.
- Updated in the office to reconcile trees with arborist determinations on December 3, 2025.
- The field work for Tract III was completed on March 3, 2026.

Special Area (SA)

- Unique Destinations that emphasize retail, office, and entertainment uses
- Emphasis on building design, landscaping, public spaces
- Pedestrian oriented places that often include shopping streets, shared parking, and strong links to surrounding areas

- **DUA:** ⩾ 14 units or greater
- **Target Ratio:** Development Specific
- **Primary Use:** Mixed-use (high-density residential and retail)
- **Secondary Uses:** Medium-density residential, office, commercial, recreational, and civic uses

Mixed Density Neighborhood (MDN)

- Provides for a variety of single-family and medium density housing types in a compact network of complete, walkable streets
- Consistent with and complimentary to a traditional neighborhood, with an emphasis on connectivity
- Compatibility between housing types can be achieved through development standards like lot size, setbacks, and building design
- Non-residential uses located at arterials and major intersections with appropriate buffering and pedestrian elements

- **DUA:** 5.0 minimum
- **Target Ratio:** 25% detached residential (5-7 DUA), 45% Moderate density residential (townhomes, duplexes, cottage court), 30% nonresidential
- **Primary Use:** Variety of single-family home types (detached, duplex, townhome), small lot single-family detached homes
- **Secondary Uses:** Limited neighborhood-serving retail and service uses, office, institutional, civic, parks, and open space

Current - Residential Single-Family (RS)

- Medium density
- Primarily single-family neighborhoods
- May be located in proximity of neighborhood-friendly commercial
- Protected from incompatible uses

Dimensional Standards

- Min. lot size = 5,500 sq. ft.
- Min. lot width = 45’
- Max building height = 35’
- Front setback = 20’
- Side setback = 6’
- Rear setback = 10’
- Side/rear street setback = 15’
- Street facing garage setback = 25’

Mixed Use Downtown (MU-DT)

- Mix of land uses, including general commercial and retail
- Also includes single-family and multi-family in the downtown area
- Smaller in scale and scope
- Only appropriate in the traditional downtown area
- Shall meet design requirements of the Downtown Overlay District and Design Guidelines

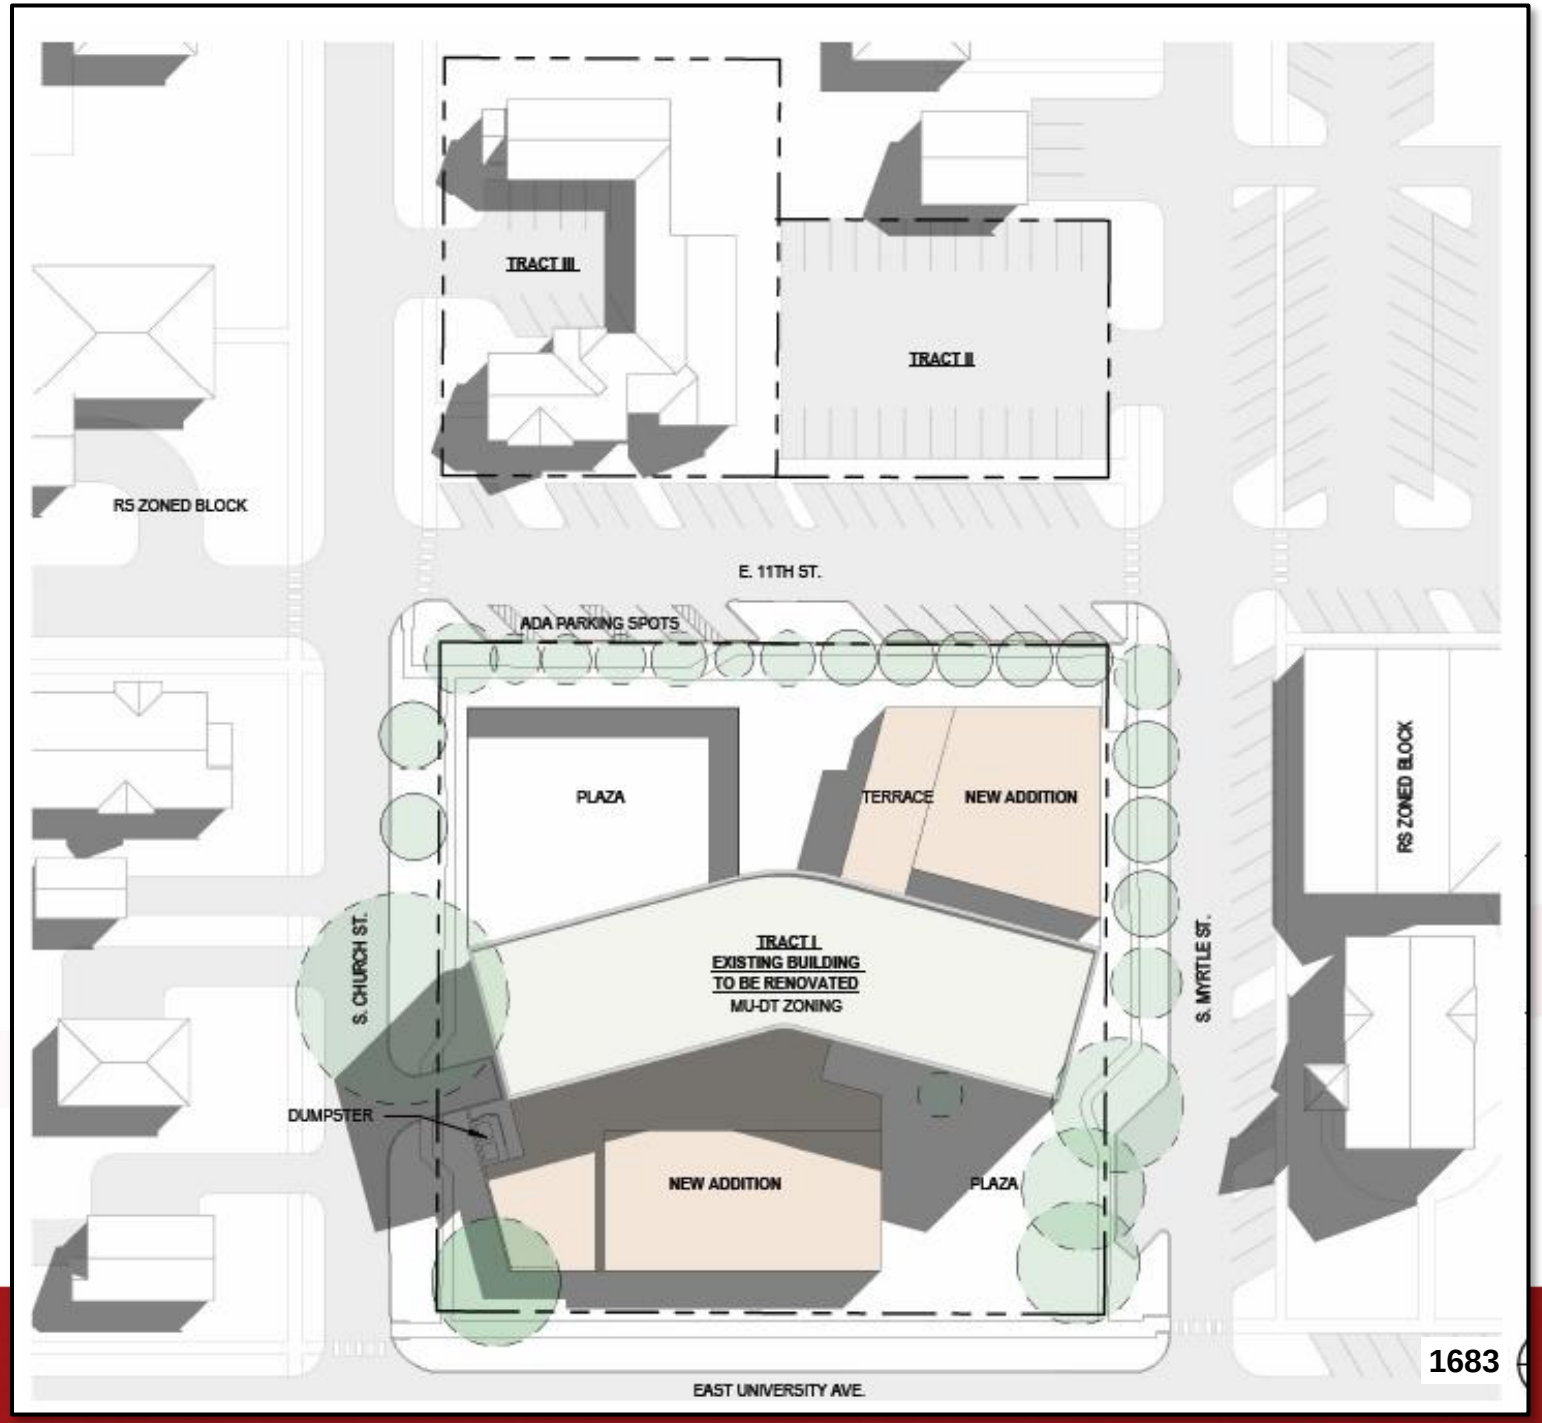
Dimensional Standards

- Max building height = 40’
- Setbacks = 0’
- 90% impervious cover
- 10’ landscape buffer to residential zoning

Planned Unit Development (PUD)

- Special purposed zoning district
- Allows flexibility in planning and design
- Can accommodate unique developments or environmentally-sensitive areas to be developed with a common scheme
- Can accommodate multiple uses

Concept Site Plan



GEORGETOWN TEXAS

Deviations from UDC Standards

UDC Standard	Proposed PUD Standard
UDC Sec. 5.4.020.K. Maximum Office Space	Square footage not to exceed 95,000
UDC Sec. 4.09.090 Open Space	Minimum open space of 6,000 sq ft
UDC Sec. 7.03.050.C. Horizontal & Vertical Articulation	Increase of horizontal articulation requirement to 120’ Increase in vertical articulation requirement to 4 times the building height
UDC Sec. 7.03.040 – Roof Style & Treatment	2:12 Pitch Roof, Parapets less than 2’ above roof line
UDC Sec. 9.02.010 Parking Requirements	Maximum parking requirement of 200 spaces ADA provided in ROW

Approval Criteria – UDC Section 3.06.030

Criteria for Rezoning	Complies	Partially Complies	Does Not Comply
The application is complete and the information contained within the application is sufficient and correct enough to allow adequate review and final action;	X		
The zoning change is consistent with the Comprehensive Plan;	X		
The zoning change promotes the health, safety or general welfare of the City and the safe orderly, and healthful development of the City;	X		

Approval Criteria – UDC Section 3.06.030

Criteria for Rezoning	Complies	Partially Complies	Does Not Comply
The zoning change is compatible with the present zoning and conforming uses of nearby property and with the character of the neighborhood; and	X		
The property to be rezoned is suitable for uses permitted by the district that would be applied by the proposed amendment.	X		

Approval Criteria – UDC Section 3.06.040

Criteria for PUDs	Complies	Partially Complies	Does Not Comply
A variety of housing types, employment opportunities, or commercial services to achieve a balanced community.	X		
An orderly and creative arrangement of all land uses with respect to each other and to the entire community.	X		
A planned and integrated comprehensive transportation system providing for a separation of pedestrian and vehicular traffic, to include facilities such as roadways, bicycle ways, and pedestrian walkways.	X		

Approval Criteria – UDC Section 3.06.040

Criteria for PUDs	Complies	Partially Complies	Does Not Comply
The provisions of cultural or recreational facilities for all segments of the community.	X		
The location of general building envelopes to take maximum advantage of the natural and manmade environment.	X

Planning & Zoning Commission Action

- At their July 21, 2026 meeting, the Planning & Zoning Commission recommended **APPROVAL** of the request (7-0).

City Council Action on First Reading

- At their 8.25.2026 meeting, the City Council APPROVED the first reading of the ordinance (8-0)

Summary

- Second Reading of an Ordinance on a request for a Zoning Map Amendment to rezone 1.322 acres of Lots 1-8, Block 23, Glasscock Addition, from the Mixed-Use Downtown (MU-DT) zoning district, and 0.257 acres of Lot 4, Lot 3 (SP), Block 21, and 0.414 acres of Lots 5-6, Lot 7 (SP), Block 21 of Glasscock Addition, from the Residential Single-Family (RS) zoning district to the Planned Unit Development (PUD) zoning district with a base zoning district of Mixed-Use Downtown (MU-DT), for the properties generally located at 205 E. University Avenue, 1014 Myrtle Street, and 1009 Church Street (2025-2-PUD)
- Per UDC Section 3.06.020.E, the Planning and Zoning Commission shall hold a Public Hearing… and make a recommendation to the City Council

Second Reading of an Ordinance

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, AMENDING PART OF THE OFFICIAL ZONING MAP TO REZONE 1.322 ACRES OF BLOCK 23, GLASSCOCK ADDITION, 0.257 ACRES OF LOT 4, LOT 3 (SP), BLOCK 21 GLASSCOCK ADDITION, AND 0.414 ACRES OF LOTS 5-6, LOT 7 (SP), BLOCK 21 OF GLASSCOCK ADDITION, GENERALLY LOCATED AT 205 EAST UNIVERSITY AVENUE, 1014 MYRTLE STREET, AND 1009 CHURCH STREET FROM THE MIXED-USE DOWNTOWN (MU-DT), AND RESIDENTIAL SINGLE-FAMILY (RS) ZONING DISTRICTS TO THE PLANNED UNIT DEVELOPMENT (PUD) ZONING DISTRICT WITH A BASE ZONING OF MIXED-USE DOWNTOWN (MU-DT); REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; INCLUDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

Planning Department Staff Report

Report Date: **July 15, 2026**
Case Number: **2025-2-PUD**
Case Manager: **Allyson Iiams, Preservation & Redevelopment Program Manager**

AGENDA ITEM DESCRIPTION

Public Hearing and possible action on a request for a Zoning Map Amendment to rezone 1.322 acres of Block 23, Glasscock Addition, from the Mixed-Use Downtown (MU-DT) zoning district, 0.257 acres of Lot 4, Lot 3 (SP), Block 21, and 0.414 acres of Lots 5-6, Lot 7 (SP), Block 21 of Glasscock Addition, from the Residential Single-Family (RS) zoning district to the Planned Unit Development (PUD) zoning district with a base zoning district of Mixed-Use Downtown (MU-DT), for the properties generally located at 205 E. University Avenue, 1014 Myrtle Street, and 1009 Church Street (2025-2-PUD) -- Allyson Iiams, Preservation & Redevelopment Program Manager

AGENDA ITEM DETAILS

Project Name:	Texas Municipal Center Planned Unit Development
Applicant:	Jackson Walker LLP, c/o Pamela Madere
Property Owner:	Texas Municipal League Intergovernmental Risk Pool, c/o Jeffrey Snyder
Property Address:	205 E. University Street, 1014 Myrtle Street, and 1009 Church Street
Legal Description:	1.322 acres of Block 23, Glasscock Addition, 0.257 acres of Lot 4, Lot 3 (SP), Block 21, and 0.414 acres of Lots 5-6, Lot 7 (SP), Block 21 of Glasscock Addition
Current Zoning:	Mixed-Use Downtown (MU-DT), and Residential Single-Family (RS)
Case History:	This is the second public hearing for this request. The request was considered by the Planning and Zoning Commission, in their meeting on July 21, 2026, with a recommendation of approval (7-0).

APPLICANT'S REQUEST

The applicant is requesting a Planned Unit Development with a base zoning of Mixed-Use Downtown (MU-DT) to allow them to establish the site as the headquarters and corporate offices for the TMLIRP.

RECOMMENDATION

Staff <u>recommend approval</u> of the request.

PROPERTY CONTEXT

Neighborhood Character:

The subject property is located within the Downtown Overlay District and the Old Town Neighborhood Overlay District. The site contains the existing Georgetonian building, which is zoned Mixed-Use Downtown (MU-DT), and two Residential Single-Family (RS) lots. The surrounding area consists of residential uses to the north and east, including St. John's Methodist Church and a four-plex adjacent to

a commercial parking lot. To the south and west, the area transitions to additional MU-DT properties with a mix of office, commercial, salon, and residential uses.

Zoning Trends:

Rezoning activity in the surrounding area has been limited. The adjacent property located to the northwest of the subject site was rezoned to MU-DT in 2021. In addition, two properties further north of the site, near the intersection of 3rd and Church Streets, received MU-DT zoning in 2025 and 2026.

Present Property Description:

The project area consists of three separate properties. The southernmost parcel is improved with the historic Georgetonian building, which was previously utilized as office space, with parking located north of the structure. The northeastern parcel is developed as a surface parking lot. The northwestern parcel is improved with a historic residential structure.

STAFF ANALYSIS

Technical Review:

The southern parcel of the subject property has a Future Land Use designation of Special Area, which is intended to integrate a variety of complementary uses with an emphasis on retail, office, and entertainment activities. The two northern parcels are designated Mixed-Density Neighborhood (MDN), which is intended to accommodate medium-density residential development, neighborhood-serving commercial uses, and civic uses.

The proposed rezoning is consistent with the Future Land Use Map. The southern parcel supports the intent of the Special Area designation, while the two northern parcels will accommodate small non-residential uses, including office space and associated parking, consistent with the MDN designation.

The proposed rezoning request was reviewed by all applicable City departments to evaluate the appropriateness of the requested zoning. No comments or concerns were identified.

Staff reviewed the proposed rezoning request and found it complies with the criteria established in UDC Section 3.06.030 for a Zoning Map Amendment and Section 3.06.040 for a Planned Unit Development, as outlined in Exhibit 6.

PUBLIC NOTIFICATION

As required by the Unified Development Code, all property owners within a 300-foot radius of the subject property were notified of the zoning request (82 notices), a legal notice advertising the public hearing was placed in the Sun Newspaper (July 5, 2026) and 8 signs were posted on-site. To date, staff has received 0 written comment in favor, and 0 in opposition to the request.

EXHIBIT A
TEXAS MUNICIPAL CENTER
PLANNED UNIT DEVELOPMENT (PUD)
DEVELOPMENT PLAN
JULY 1, 2026

A. PROPERTY - LEGAL DESCRIPTION

Tract I: A tract or parcel containing 1.322 acres or approximately 57,600 square feet of land being all of Block 23, Glasscock Addition in the City of Georgetown conveyed to Texas Municipal League Intergovernmental Risk Pool in a general warranty deed dated January 5, 2026 and recorded in Document No. 2026001200 of the Official Public Records of Williamson County, Texas; Tract II: A tract or parcel containing 0.257 acres or approximately 11,172 square feet of land, being all of Lot 4 and a portion of Lot 3, Block 21, of the Glasscock Addition to the City of Georgetown conveyed to Texas Municipal League Intergovernmental Risk Pool in a general warranty deed dated January 5, 2026 and recorded in Document No. 2026001200 of the Official Public Records of Williamson County, Texas; and Tract III: A tract or parcel containing 0.414 acres or approximately 18,035 square feet of land being all of Lots 5 and 6, and a portion of Lot 7, Block 21, Glasscock Addition conveyed to Texas Municipal League Intergovernmental Risk Pool in a general warranty deed dated December 2, 2025 and recorded in Document No. 2025095233 of the Official Public Records of Williamson County (collectively approximately 1.993 acres, the "Property"), as reflected in **Exhibit "B"**.

B. PURPOSE

The proposed Texas Municipal Center ("TMC") development is submitted as a Planned Unit Development ("PUD"), with a base zoning district of Mixed-Use Downtown zoning ("MU-DT").

This PUD serves to augment and/or modify the standards for development outlined in the City's Unified Development Code ("UDC") in order to implement the vision for the Property and insure a cohesive, quality development not otherwise anticipated by the underlying base zoning district. In accordance with UDC this Development Plan, titled **Exhibit "A"**, is a summary of the development and design standards for the Property.

The PUD is intended to create a set of development standards for TMC consisting of three (3) existing buildings and an existing parking lot. Two (2) proposed building additions totaling a maximum of 95,000 gross square feet will be added to Tract I. The intended occupancy of these buildings will include, but is not limited to, professional and business offices, general office, and other related uses permitted within the MU-DT base zoning district.

C. APPLICABILITY AND BASE ZONING

In accordance with City of Georgetown ("City") UDC all development of the Property shall conform to the MU-DT base zoning district. Except for those requirements specifically deviated by this Development Plan, all development standards established in the most current version of the UDC at the time of development shall be applicable, including amendments or ordinances adopted after the date of this PUD. In the event that this Development Plan does not address a specific item, the UDC and any other applicable Ordinances shall apply. In the event of a conflict

between the regulations of this PUD and the regulations of the base zoning district, the PUD shall control.

D. CONCEPT PLAN

A Concept Plan is attached as **Exhibit "D"** to illustrate the building footprints, building information and design intent for the Property.

E. LAND USES

The TMC PUD is intended to establish the Property as the general headquarters and corporate office for the Texas Municipal League Intergovernmental Risk Pool ("TMLIRP"). The TMC PUD permitted uses with no limitations or Special Use Permit requirements include the following uses: (i) General Office, (ii) Integrated Office Center (iii) Office, Professional and Business, (iv) Event Facility as an accessory use to the Primary Use, and as a Primary Use, and (v) Personal Services. Uses that are not specified as permitted uses with no limitations or Special Use Permit requirements will be subject to the UDC MU-DT zoning district allowed uses. Prohibited uses are those listed in the UDC under the MU-DT zoning district.

F. DESIGN STANDARDS

1. PURPOSE

In order to provide attention in design and human scale and to minimize the appearance of large walls and structures, articulation techniques, and architectural features shall be incorporated into the building design.

2. OFFICE AREA

The total building square footage on Tract I shall not exceed 95,000.

3. OPEN SPACE

a. Additions are located on site in portions of Property where they are least likely to impact adjacent existing historic structures. The northwest corner of the Property is adjacent to historic homes and will be utilized as outdoor open space. The southeast corner adjacent to St. John's Methodist Church will also remain as open space. Both additions help to transition a large, noncompatible structure to be more compatible with the surrounding area and Old Town Character.

b. The minimum square footage of open space within the PUD will be 6,000 square feet, which will be privately maintained.

4. BUILDING ARTICULATION -HORIZONTAL (FOOTPRINT) and Vertical ARTICULATION (ELEVATION)

a. The UDC and the Historic District Design Guidelines indicate specific building

Articulation and Architectural Features for horizontal and vertical offsets. The existing building and proposed additions will not comply with vertical and horizontal articulation requirements.

b. Horizontal Articulation (Footprint).

Where the length of the wall is less than 120 feet, articulation is not required.

c. Vertical Articulation (Elevation).

No building wall shall extend laterally for a distance greater than four times the building's average height without a change in vertical elevation of at least twenty-five percent (25%) of such height.

5. BUILDING ELEMENTS

a. Roof styles for the new additions will be less than 2-to-12 pitch to be more compatible with the existing building.

b. Roof treatments for the new additions will include parapets that are less than two feet above the roof line to be more compatible with the existing building.

G. PARKING

Parking on the Property shall be in conformance with Chapter 9 of the UDC except as otherwise stated in this Development Plan.

1. Off-street parking is not required when a shared parking agreement is provided. The City of Georgetown parking garage located at East 9th Street and South Main Street will be utilized for off-street parking. The maximum required parking will be 200 spaces.

2. ADA parking will be provided in the R.O.W. along the north side of the Property on 11th Street via an accessible route subject to approval by the City. Loading and trash collection is also proposed to be located in the R.O.W. (area to be determined).

H. VEHICULAR ACCESS AND CIRCULATION

1. The site is bounded by three Local Downtown Streets to the west, north, and east: S Church Street, East 11th street, and south Myrtle Street. The site is bounded by SH 29 to the south. There are no roadway modifications planned for this project.

2. **Exhibit "E"** reflects the existing roadway network and City roadway standards.

I. TREE SURVEY

A tree survey of the Property is reflected in **Exhibit "C"**. The PUD will be subject to the Tree Ordinance 2025-54 or any modifications to the Tree Ordinance at the time of site development plan approval.

J. LANDSCAPE REQUIREMENTS

The landscape plan will comply with the requirements of the UDC as shown on **Exhibit "F"**, Concept Landscape Plan with the following exceptions:

1. The sidewalks under all heritage trees in the R.O.W. along Church and Myrtle Streets will remain in place within the ½ critical root zone to limit disturbance and impact to the root zones. In the event that the sidewalk needs to be repaired/replaced due to damage during construction or unsafe conditions, the sidewalk will be rebuilt in its current location subject to review by the City of Georgetown 8.02.030.

K. IMPERVIOUS COVER

The portion of the Property within the Downtown Overlay District effective on the date of the PUD approval is allowed a 95% maximum impervious cover. Tracts II and III, which are outside of the Downtown Overlay, will be subject to 70% impervious cover at the time either Tract is redeveloped. The existing impervious cover conditions on Tracts II and III will remain as is.

L. PUD MODIFICATIONS

In conformance with the UDC, modifications to this Development Plan shall require City Council approval of an amendment to this PUD except where the Director of Planning determines such modifications to be minor the Director may authorize such modifications. Minor modifications may include changes to building sizes or locations providing those modifications conform to the general intent of this PUD, uses authorized by this PUD, or to applicable provisions of the UDC and any other applicable regulations.

0.414 ACRES
WILLIAMSON COUNTY, TEXAS

A DESCRIPTION OF 0.414 ACRES (APPROXIMATELY 18,035 SQ. FT.), BEING ALL OF LOTS 5 AND 6, AND A PORTION OF LOT 7, BLOCK 21, GLASSCOCK ADDITION TO THE CITY OF GEORGETOWN (NO RECORD INFORMATION FOUND), BEING ALL OF A 0.41 ACRE TRACT OF LAND CONVEYED TO TEXAS MUNICIPAL LEAGUE INTERGOVERNMENTAL RISK POOL IN A GENERAL WARRANTY DEED DATED DECEMBER 2, 2025 AND RECORDED IN DOCUMENT NO. 2025095233 OF THE OFFICIAL PUBLIC RECORDS OF WILLIAMSON COUNTY, TEXAS; SAID 0.414 ACRES BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING at an “X” in concrete found at the intersection of the north right-of-way line of E 11th Street (apparent 60’ right-of-way width) and the east right-of-way line of S Church Street (right-of-way width varies), being the southwest corner said Block 21, same being the southwest corner of the said 0.41 acre tract, from which a 1/2” rebar with “Early Boundary” cap set at the intersection of the south right-of-way line of E 11th Street and the east right-of-way line of S Church Street, being the northwest corner of Block 23 of said Glasscock Addition, same being the northwest corner of a 1.322 acre tract described in Document No. 2026001200 of the Official Public Records of Williamson County, Texas, bears South 01°58’07” East, a distance of 59.81 feet;

THENCE North 02°04'07" West, with the east right-of-way line of S Church Street and the west line of said Block 21, same being the west line of the said 0.41 acre tract, a distance of 150.21 feet to a 1/2” rebar with “Forest RPLS 1847” cap found for the northwest corner of the said 0.41 acre tract, being the southwest corner of a 0.247 acre tract described in Document No. 2013033121 of the Official Public Records of Williamson County, Texas;

THENCE North 87°55'32" East, crossing said Block 21, with the north line of the said 0.41 acre tract and the south line of the said 0.247 acre tract, a distance of 120.22 feet to a calculated point (corner inaccessible at time of survey) for the northeast corner of the said 0.41 acre tract, being the southeast corner of the said 0.247 acre tract, being also in the west line of a tract of land described in Document No. 2023056903 of the Official Public Records of Williamson County, Texas;

THENCE South 01°52'51" East, crossing said Block 21, with the east line of the said 0.41 acre tract and the west line of the tract of land described in said Document No. 2023056903, a distance of 57.33 feet to a 1/2” rebar with “Early Boundary” cap set for the southwest corner of the tract of land described in said Document No. 2023056903, being the northwest corner of a 0.256 acre tract described in Document No. 2026001200 of the Official Public Records of Williamson County, Texas;

THENCE South 01°58'07" East, crossing said Block 21, with the west line of the said 0.41 acre tract and the east line of the said 0.256 acre tract, a distance of 93.00 feet to a 1/2” rebar with an illegible cap found in the north right-of-way line of E 11th Street, being in the south line of said Block 21, being the southeast corner of the said 0.41 acre tract, being also the southwest corner of the said 0.256 acre tract, from which a punch/drill hole in concrete found at the intersection of the north right-of-way line of E 11th Street and the west right-of-way line S Myrtle Street (right-of-way width varies), being the southeast corner of said Block 21, same being the southeast corner of the said 0.256 acre tract, bears North 87°58’51” East, a distance of 120.13 feet;

THENCE South 87°58'51" West, with the north right-of-way line of E 11th Street and the south line of said Block 21, same being the south line of the said 0.41 acre tract, a distance of 119.87 feet to the **POINT OF BEGINNING**, containing 0.414 acres of land, more or less.

Surveyed on the ground on March 4, 2026.

Bearing Basis: The Texas Coordinate System of 1983 (NAD83), Central Zone, utilizing the SmartNet North America Network.

TITLE COMMITMENT NOTE (TRACTS I & II):

COMMITMENT FOR TITLE INSURANCE PREPARED BY:

First American Title Guaranty Company

G.F. No.: 15374–2828066 Effective Date: 7/27/23 Issued: 8/3/23

The surveyor has relied upon the referenced Commitment for Title regarding easements, restrictions, and other matters affecting this property. No additional research was done for the purpose of this survey. Items listed are worded according to the commitment, followed by surveyor's notes and/or observations.

Schedule "B" items contained therein and re–listed below were considered:

There are no survey related matters listed in Schedule B to consider.

TITLE COMMITMENT NOTE: (TRACT III)

The Survey for Tract III was prepared without the benefit of a Commitment for Title, and may be subject to additional easements or restrictions not shown hereon. No additional easement research was done for the purpose of this survey.

FLOOD–PLAIN NOTE:

The tract shown hereon lies within Zone "X" (areas determined to be outside the 0.2% annual chance floodplain), as identified by the Federal Emergency Management Agency, National Flood Insurance Program, as shown on map no. 48491C0293F, dated December 20, 2019, for Williamson County, Texas and incorporated areas. If this site is not within an identified special flood hazard area, this flood statement does not imply that the property and/or the structures thereon will be free from flooding or flood damage. This flood statement shall not create liability on the part of the surveyor.

ALTA/NSPS SURVEY NOTES:

(Table A, Item 7b1)
Square footage of buildings, if shown, is based on the outside, ground floor footprint. Unless noted otherwise, the surveyor has not accessed the inside of the building for measurement purposes.

GENERAL SURVEY NOTES:

PROPERTY ADDRESS:

TRACT I: 205 E University Avenue, Georgetown, TX 78626
TRACT II: 1014 S Myrtle St, Georgetown, TX 78626
TRACT III: 1009 S Church Street, Georgetown, TX 78626

ATTACHMENTS: None

UNABLE TO SAFELY OPEN MANHOLES DUE TO VOLUME OF TRAFFIC

Kelly Triesch, Chief Development Officer
Planning Department
City of Georgetown
808 Martin Luther King, Jr. Street
Georgetown, Texas 78626

Re: Texas Municipal Center ("TMC") Planned Unit Development ("PUD") rezoning application for 205 E. University Avenue, 1014 Myrtle Street and 1009 Church Street consisting of approximately 1.993 acres (collectively the "Property")

Dear Ms. Triesch:

On behalf of Texas Municipal League Intergovernmental Risk Pool (TMLIRP), this rezoning request is for the Property locally known as the "Georgetonian Building", tax parcel #R04250, the parking lot north of the structure addressed as 1014 Myrtle Street, tax parcel #R042510 and tax parcel #R042511 as shown in the attached location map. The purpose of PUD rezoning is to establish the site as the headquarters and corporate offices for TMLIRP, while also contributing to the vitality of Downtown Georgetown.

The Property is currently zoned Mixed-Use Downtown ("MU-DT") and Residential Single-Family ("RS"). The PUD zoning will be subject to the MU-DT zoning base district regulations. The property is situated within the Downtown Overlay District as well as the Old Town Neighborhood Overlay District. The Property is served by existing City of Georgetown utilities.

Surrounding properties along the west, north and east are zoned and developed as follows:

North – RS, residential four-plex and commercial parking lot
East – RS, St. John's Methodist Church
South – MU-DT/OF - Commercial/Office
West – MU-DT/RS – Dental clinic, Salon and Residential

The project proposes the adaptive reuse and renovation of the existing Georgetonian Building, including the removal of its non-conforming fifth floor and the renovation of four stories plus a basement level. Two context-sensitive additions will be constructed: a conference center/training space on the south side of the building and an office space on the north; both of which will be connected to the existing building.

Together, these improvements will provide approximately 95,000+ gross square feet of office, training center space and related accessory uses. The design incorporates landscaped open space, public-facing improvements, and shared parking strategies that align with the City's long-

term downtown mobility vision.

The project will comply with City standards for water, wastewater, stormwater management, and electric service. Parking will be provided through a combination of off-site and shared use agreements with nearby facilities, consistent with City policies.

PUD zoning is necessary to accommodate the unique characteristics of the Georgetonian property while ensuring compatibility with the Downtown and Old Town Neighborhood Overlay Districts.

The existing conditions and zoning standards that frame both the opportunities and constraints for the proposed redevelopment are described below:

- **Existing Zoning:** 205 E. University is zoned as MU-DT (Mixed-Use Downtown), within the Downtown Overlay District. 1014 Myrtle Street is zoned RS (Residential Single Family), within the Old Town Overlay District; 1009 Church Street is zoned RS.
- **Future Land Use:** Special Area and Mixed Density Neighborhood.
- **Acreage:** Approximately 1.993 acres (1.32 acres known as 205 E. University, Lots 1-8, Block 23, Glasscock Addition, 0.26 acres known as 1014 Myrtle Street, Lots 3-4, Block 21, Glasscock Addition and 1.322 acres known as 1009 Church Street, Block 23, Glasscock Addition).
- **Existing Structures:** 64,000 square foot, five-story structure, to be renovated with removal of penthouse and basement renovation; 3,500 square feet of residential use to be converted to office use.
- **Proposed Development:** 95,000 gross square feet total after renovations and additions, serving as offices, training/conference facilities, and membership engagement center with deviations to address office square footage, building height, parking, landscaping and building articulation.

The project is consistent with the following goals and policies of the City's 2030 Comprehensive Plan:

- **Policy LU.1 (Balanced Mix of Uses):** The project delivers a mix of civic, employment, and event functions in a pedestrian-oriented setting.
- **Policy LU.4 (Reinvestment in Existing Areas):** Reuse of a prominent but underutilized downtown structure, bringing vitality back to a key urban block.
- **Policy LU.5 (Adaptive Reuse of Existing Buildings):** Preserves and modernizes the Georgetonian, aligning with the City's desire to rehabilitate historic assets.
- **Policy LU.7 (Placemaking & Gateways):** The University Avenue façade will serve as a civic landmark and visual gateway into downtown Georgetown.
- **Policy LU.13 (Partnering with Institutions):** The project represents a major institutional investment in downtown, strengthening partnerships with the City and community.
- **Policy LU.14 (Connectivity, Parks & Open Space):** On-site open space enhancements and public realm improvements increase downtown walkability and enhance the pedestrian environment.

In addition, the Downtown Master Plan identifies this area as a key opportunity for reinvestment and revitalization, and the proposed project directly supports that vision. It establishes a civic and institutional anchor in the heart of downtown, activates an underutilized site with public-facing improvements, and preserves historic architectural character while introducing

modern additions that complement the surrounding neighborhood. The project also supports economic activity through employment opportunities, training programs, and events, while advancing shared parking strategies and sustainable urban design.

The application satisfies the approval criteria of UDC Section 3.06.030 by:

1. providing a complete submittal with sufficient information for review (3.06.030.A);
2. demonstrating consistency with the 2030 Comprehensive Plan as previously described (3.06.030.B);
3. promoting the health, safety, and general welfare of the community through the revitalization of a historic structure (3.06.030.C);
4. ensuring compatibility with surrounding zoning and historic resources with the proposed building renovations (3.06.030.D); and
5. confirming that the property is suitable for the proposed uses as previously described (3.06.030.E).

The proposal also complies with the PUD criteria in UDC Section 3.06.040(A) by:

1. creating a balanced community through employment, civic, and training opportunities with the proposed renovation of Georgetonian building and new additions (3.06.040.A.1);
2. providing an orderly arrangement of land uses that respects the downtown fabric and adjacent historic properties by revitalizing the Property within the Downtown and Old Town Overlay Districts (3.06.040.A.2);
3. enhancing connectivity and transportation systems including pedestrian and shared parking strategies (3.06.040.A.3); and
4. integrating cultural and civic amenities that contribute to Georgetown's identity and sense of place (3.06.040.A.4–6).

The application is complete, and the information contained within the application is sufficient and correct enough to allow adequate review and final action.

The following documents are included with the PUD major amendment application:

1. Complete application
2. Property Owner's Consent Form
3. Letter of Intent
4. Property Survey
5. UDC Comparison Chart
6. Development Plan
7. Exhibits

TMLIRP are committed to working with City staff, stakeholders, and the community to ensure the success of this important project. We respectfully request approval of this PUD application.

Sincerely,

Pamela Madere

Exhibit 6
UDC Approval Criteria Review

ZONING MAP AMENDMENT (REZONING) APPROVAL CRITERIA	
1. The application is complete and the information contained within the application is sufficient and correct enough to allow adequate review and final action.	**Complies**
This application was reviewed by staff and deemed to be complete.	
2. The zoning change is consistent with the Comprehensive Plan.	**Complies**
The southern parcel of the subject property has a Future Land Use designation of Special Area, which is intended to integrate a variety of complementary uses with an emphasis on retail, office, and entertainment activities. The two northern parcels are designated Mixed-Density Neighborhood (MDN), which is intended to accommodate medium-density residential development, neighborhood-serving commercial uses, and civic uses. The proposed rezoning is consistent with these Future Land Use designations by expanding an established mixed-use district while preserving and adaptively reusing historic structures. The request also advances Land Use Policies #4, #5, #7, and #14 by encouraging reinvestment in downtown, supporting the continued vitality of the urban core, and revitalizing the historic Georgetonian as a prominent gateway landmark. In addition, the proposal supports Land Use Policies #1 and #13 by providing a complementary mix of civic, employment, and community-oriented uses that strengthen institutional investment and reinforce downtown Georgetown as a regional destination.	

3. The zoning change promotes the health, safety or general welfare of the City and the safe orderly, and healthful development of the City.	**Complies**
The requested rezoning promotes the orderly development of the area by extending the existing Mixed-Use Downtown (MU-DT) zoning to parcels that function as part of a unified redevelopment project. While this portion of historic Georgetown has long contained a mix of residential and non-residential uses, the proposed zoning better aligns with the established character of the surrounding area and supports coordinated redevelopment of the site. The project will also preserve historic structures while encouraging reinvestment, which contributes to the long-term health, safety, and general welfare of the community.	
4. The zoning change is compatible with the present zoning and conforming uses of nearby property and with the character of the neighborhood.	**Complies**

The subject property is located within both the Downtown Overlay District and the Old Town Historic Overlay District, an area characterized by a mix of residential, commercial, civic, and institutional uses. Surrounding properties include single-family residences, St. John's Methodist Church, a four-plex, surface parking, office uses, salons, and other Mixed-Use Downtown developments. The requested MU-DT zoning is compatible with the existing pattern of development and provides a logical extension of the surrounding zoning districts. The proposal also supports the adaptive reuse of historic buildings while maintaining the mixed-use character that defines this portion of downtown Georgetown.	
5. The property to be rezoned is suitable for uses permitted by the District that would be applied by the proposed amendment.	**Complies**
The subject property is suitable for development under the proposed Mixed-Use Downtown (MU-DT) zoning district. The site is served by existing public infrastructure, has adequate access, and does not contain natural features or site constraints that would limit development. Additionally, the property's location within downtown Georgetown and adjacent to existing MU-DT zoning makes it well suited for the range of commercial, office, residential, and civic uses permitted within the district.	

PLANNED UNIT DEVELOPMENT (PUD) APPROVAL CRITERIA	
1. A variety of housing types, employment opportunities, or commercial services to achieve a balanced community.	**Complies**
The proposed PUD supports a balanced community by facilitating the adaptive reuse and redevelopment of the Georgetonian site to provide employment, civic, and community-oriented uses. The proposed development will introduce additional services and opportunities within the downtown area while contributing to the continued vitality and mixed-use character of the district.	
2. An orderly and creative arrangement of all land uses with respect to each other and to the entire community.	**Complies**
The proposed PUD provides for an orderly and creative arrangement of land uses by integrating new uses within an existing historic structure and surrounding downtown context. The redevelopment of the Georgetonian site supports the preservation of a significant historic resource while allowing for a complementary mix of uses that strengthens the connection between the Downtown and Old Town areas.	
3. A planned and integrated comprehensive transportation system providing for a separation of pedestrian and vehicular traffic, to include facilities such as roadways, bicycle ways, and pedestrian walkways.	**Complies**

PLANNED UNIT DEVELOPMENT (PUD) APPROVAL CRITERIA	
The proposed PUD supports an integrated transportation system by improving pedestrian connectivity within the downtown area and incorporating shared parking strategies to maximize existing resources. The redevelopment of the Georgetonian site will enhance the pedestrian environment by creating a more active and accessible destination.	
4. The provisions of cultural or recreational facilities for all segments of the community.	**Complies**
The proposed PUD provides community-oriented amenities through the inclusion of civic and conference facilities that will expand opportunities for public gatherings, events, and community engagement. Additionally, the conceptual plan incorporates open space amenities that will enhance the pedestrian experience and provide opportunities for residents and visitors within the Downtown and Old Town areas to enjoy the open space.	
5. The location of general building envelopes to take maximum advantage of the natural and manmade environment.	**Complies**
The proposed PUD takes advantage of the existing natural and built environment by preserving heritage trees onsite, incorporating additional landscaping, and utilizing the existing Georgetonian structure. The adaptive reuse of this historic building maximizes an existing downtown asset and supports reinvestment within a prominent location near the gateway to downtown Georgetown.	
6. The staging of development in a manner which can be accommodated by the timely provision of public utilities, facilities, and services.	**Complies**
The proposed PUD is located within an established area of downtown Georgetown and is already served by existing public utilities, facilities, and services. As a redevelopment project, the proposal will utilize existing infrastructure and can be accommodated through the continued provision of municipal services.	

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
Second Reading - 2025-8-SUP - 2815 N Austin Ave

SUGGESTED ACTION:
Second Reading of an Ordinance on a request for a Special Use Permit (SUP) for the specific use of "Car Wash" in the General Commercial (C-3) zoning district on the property located at 2815 North Austin Avenue, Georgetown, Texas, bearing the legal description of 1.951 acres out of the Antonio Flores Survey, Abstract No. 235 (2025-8-SUP) -- Matt Skawin, Planner

ITEM SUMMARY:
The applicant is requesting approval of a Special Use Permit to allow a car wash on approximately 1.951 acres located at 2815 North Austin Avenue. The property is currently zoned General Commercial (C-3), which permits a car wash only with approval of a Special Use Permit. The proposed development would be located immediately south of the existing QT gas station and convenience store and includes additional buffering and screening measures to address nearby residential uses. Staff reviewed the request against the applicable approval criteria and recommends approval.

FINANCIAL IMPACT:
None. The applicant has paid the required application fees.

SUBMITTED BY:
Anish Dsouza, Planning Department

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, GRANTING A SPECIAL USE PERMIT FOR THE SPECIFIC USES OF A CAR WASH WITHIN THE GENERAL COMMERCIAL (C-3) ZONING DISTRICT, FOR THE PROPERTY LOCATED AT 2815 NORTH AUSTIN AVENUE, BEARING THE LEGAL DESCRIPTION OF 1.951 ACRES OUT OF THE ANTONIO FLORES SURVEY, ABSTRACT NO. 235; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; INCLUDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

WHEREAS, an application has been made to the City for the purpose of allowing a special use of the following described real property ("the Property"):

1.951 acres out of the Antonio Flores Survey, Abstract No. 235, generally located at 2815 North Austin Avenue, as recorded in Document Number 2024056858 of the Official Public Records of Williamson County, Texas, hereinafter referred to as "the Property"; and

WHEREAS, the Planning and Zoning Commission, at a meeting on August 4, 2026, held the required public hearing and submitted a recommendation of approval to the City Council for the requested rezoning of the Property; and

WHEREAS, public notice of such hearing was accomplished in accordance with State Law and the City's Unified Development Code through newspaper publication, signs posted on the Property, and mailed notice to nearby property owners; and

WHEREAS, the City Council, at a meeting on August 25, 2026, held an additional public hearing prior to taking action on the requested special use of the Property.

NOW THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

Section 1. The meeting at which this ordinance was approved was conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

Section 2. The facts and recitations contained in the preamble of this ordinance are hereby found and declared to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

Section 3. The City Council hereby finds that this Ordinance implements the vision, goals, and policies of the Georgetown 2030 Comprehensive Plan and further finds that the enactment of this Ordinance is not inconsistent or in conflict with any other policies or provisions of the 2030 Comprehensive Plan and the City's Unified Development Code.

Section 4. The Zoning District for the Property shall remain General Commercial (C-3) and the Ordinance allowing for the special use of a Car Wash on the property is hereby adopted, in accordance with the attached ***Exhibit A*** (Conceptual Site Plan), subject to the following conditions:

1. Hours of Operation: 7:00 a.m.- 8:00 p.m.

2. The wall and enhanced landscaping, as depicted in the concept plan exhibit, must be shown on the Site Development Plan for the Site Development Plan to be approved.

Section 5. All ordinances or resolutions that conflict with the provisions of this ordinance are hereby repealed, and all other ordinances or resolutions of the City not in conflict with the provisions of this ordinance shall remain in full force and effect.

Section 6. If any provision of this ordinance, or application thereof, to any person or circumstance, shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this ordinance, which can be given effect without the invalid provision or application, and to this end the provisions of this ordinance are hereby declared to be severable.

Section 7. The Mayor is hereby authorized to sign this ordinance and the City Secretary to attest. This Ordinance shall become effective and be in full force and effect immediately in accordance with the provisions of the City Charter of the City of Georgetown.

PASSED AND APPROVED on First Reading on the _____of _____, 2026.

Case Number: 2025-8-SUP

AGENDA ITEM DESCRIPTION

Public Hearing and possible action on a request for a Special Use Permit (SUP) for the specific use of "Car Wash" in the General Commercial (C-3) zoning district on the property located at 2815 North Austin Avenue, Georgetown, Texas, bearing the legal description of 1.951 acres out of the Antonio Flores Survey, Abstract No. 235 (2025-8-SUP). – Matt Skawn, Planner

AGENDA ITEM DETAILS

Project Name:	**QT Bubble Bath #61758**
Applicant:	**Robert Costello**
Property Owner:	**QT South, LLC**
Property Address:	**2815 North Austin Avenue, Georgetown, Texas**
Legal Description:	**1.951 acres out of the Antonio Flores Survey, Abstract No. 235**
Current Zoning:	**General Commercial (C-3)**
Current Use:	**Vacant**

APPLICANT'S REQUEST

The applicant is requesting a special use permit for the use of 'Carwash'. The property is currently zoned General Commercial (C-3).

RECOMMENDATION

Staff <u>recommends approval</u> of the request.

PROPERTY CONTEXT

Neighborhood Character:

The subject property is located along North Austin Avenue just south of the existing QT gas station and convenience store. South of the subject site is a triangular piece of property that is largely undeveloped aside from two single-family residential structures. To the southeast sits a large multi-family development. The multi-family property comes close to bordering the subject property where the vacant triangular property tapers down to a point. The closest multi-family building is roughly 70 ft. from the subject property at its closest point. The property to the east of the subject site is currently undeveloped, with a portion being used for detention; it is zoned General Commercial (C-3).

Zoning Trends:
The subject property, along with a portion of the property to the north, was rezoned from the Agriculture (AG) zoning district to General Commercial (C-3) in 2012. The property south of the subject site was annexed into city limits in 2005 with an initial zoning of AG and has never been rezoned. The first portion of multifamily in the area rezoned to High Density Multifamily (MF-2) in 2016 and then another portion rezoned in 2020. There have been no zoning changes in the area since 2020.

Present Property Description:
Currently, the property is undeveloped aside from a portion of driveway that was constructed when the gas station north of the subject site was developed. There is a foundation remaining from the building that once occupied the site. Trees line the eastern and southern property boundaries.

STAFF ANALYSIS

Staff reviewed the proposed Special Use Permit for a car wash against the applicable approval criteria and found that the request meets the requirements for a Special Use Permit. The proposed site layout and circulation are appropriate, and additional mitigation measures have been incorporated to address the proximity of existing residential development southeast of the site. The concept plan includes a 15-foot landscape buffer along the southern property boundary, a 6-foot masonry buffer wall along the southern and southeastern edges, and increased tree plantings to further reduce noise and vibration. With these improvements, staff can make the required findings that the use will not negatively impact nearby residential properties and is not detrimental to the health, welfare, or safety of the surrounding neighborhood

The proposed rezoning request was reviewed by all applicable City Departments to determine the appropriateness of the requested zoning on the subject property. No comments were made regarding the zoning request.

Staff Reviewed the request against the approval criteria for Special Use Permits found in UDC Section 3.07.030 and found that it complies with four of the criteria in UDC 3.07.030, as outlined in Exhibit 6.

PUBLIC NOTIFICATION

As required by the Unified Development Code, all property owners and registered neighborhood associations within a 300-foot radius of the subject property were notified of the annexation and initial zoning request (7 notices), a legal notice advertising the public hearing was placed in the Sun Newspaper (June 21, 2026) and signs were posted on-site. To date, staff has received 0 written comment in favor, and 0 in opposition to the request.

Regional Center (RC)

- Located around high-volume intersections and arterial/highway roads
- Major shopping centers, large scale mixed-use developments, and supporting flex office and warehouse space
- Context sensitive & quality site design and pedestrian access are encouraged to ensure compatibility with adjacent land uses
- Residential uses should be well integrated with non-residential uses, and standalone multifamily is not a supported use

- **DUA:** ≥ 18
- **Target Ratio:**
  - 75% nonresidential
  - 25% vertical mixed-use multifamily
- **Primary Use:** Large retailers, urban residential, hotels, corporate office, restaurants, multi-tenant commercial, big box commercial, live/work/shop units
- **Secondary Uses:** Mixed use, high density residential, specialty retailers, professional office, civic & institutional uses

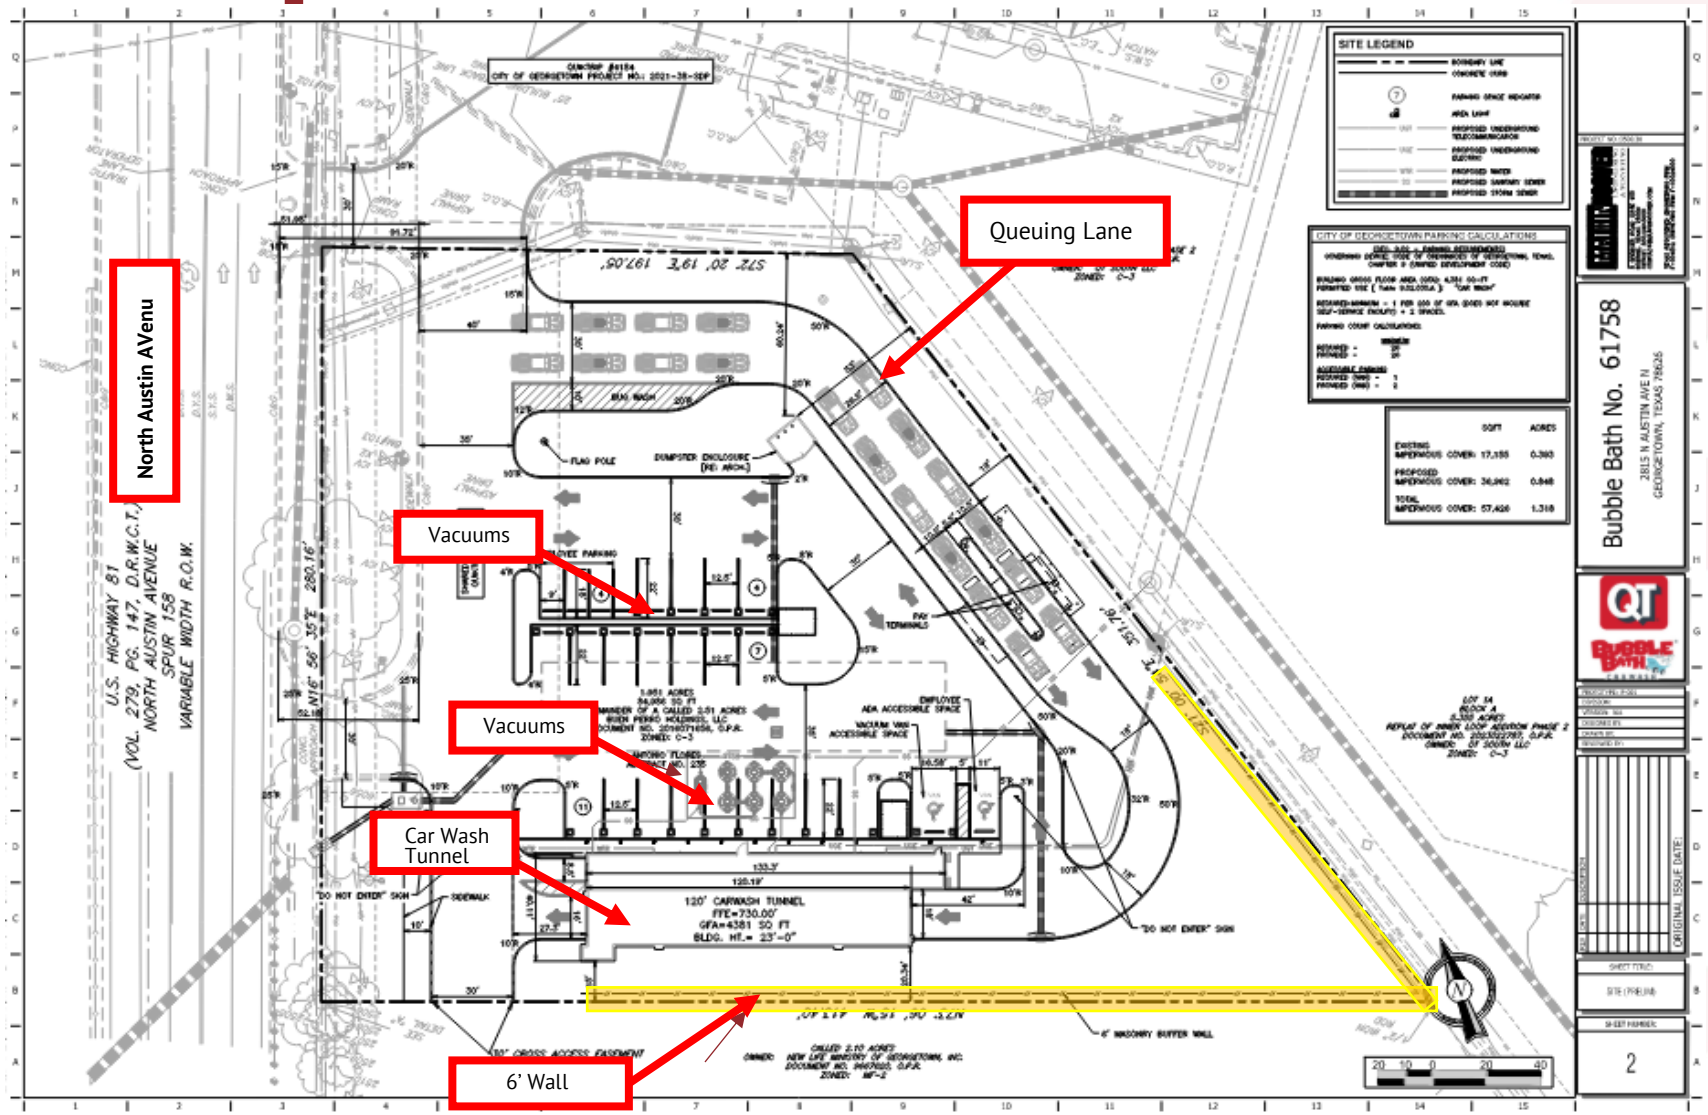
Summary of Request

- Applicant is seeking a Special Use Permit for the “Carwash” use
- UDC 5.02.020.U does not allow a fuel sales site to contain a carwash, however the subject site in this request is its own lot.

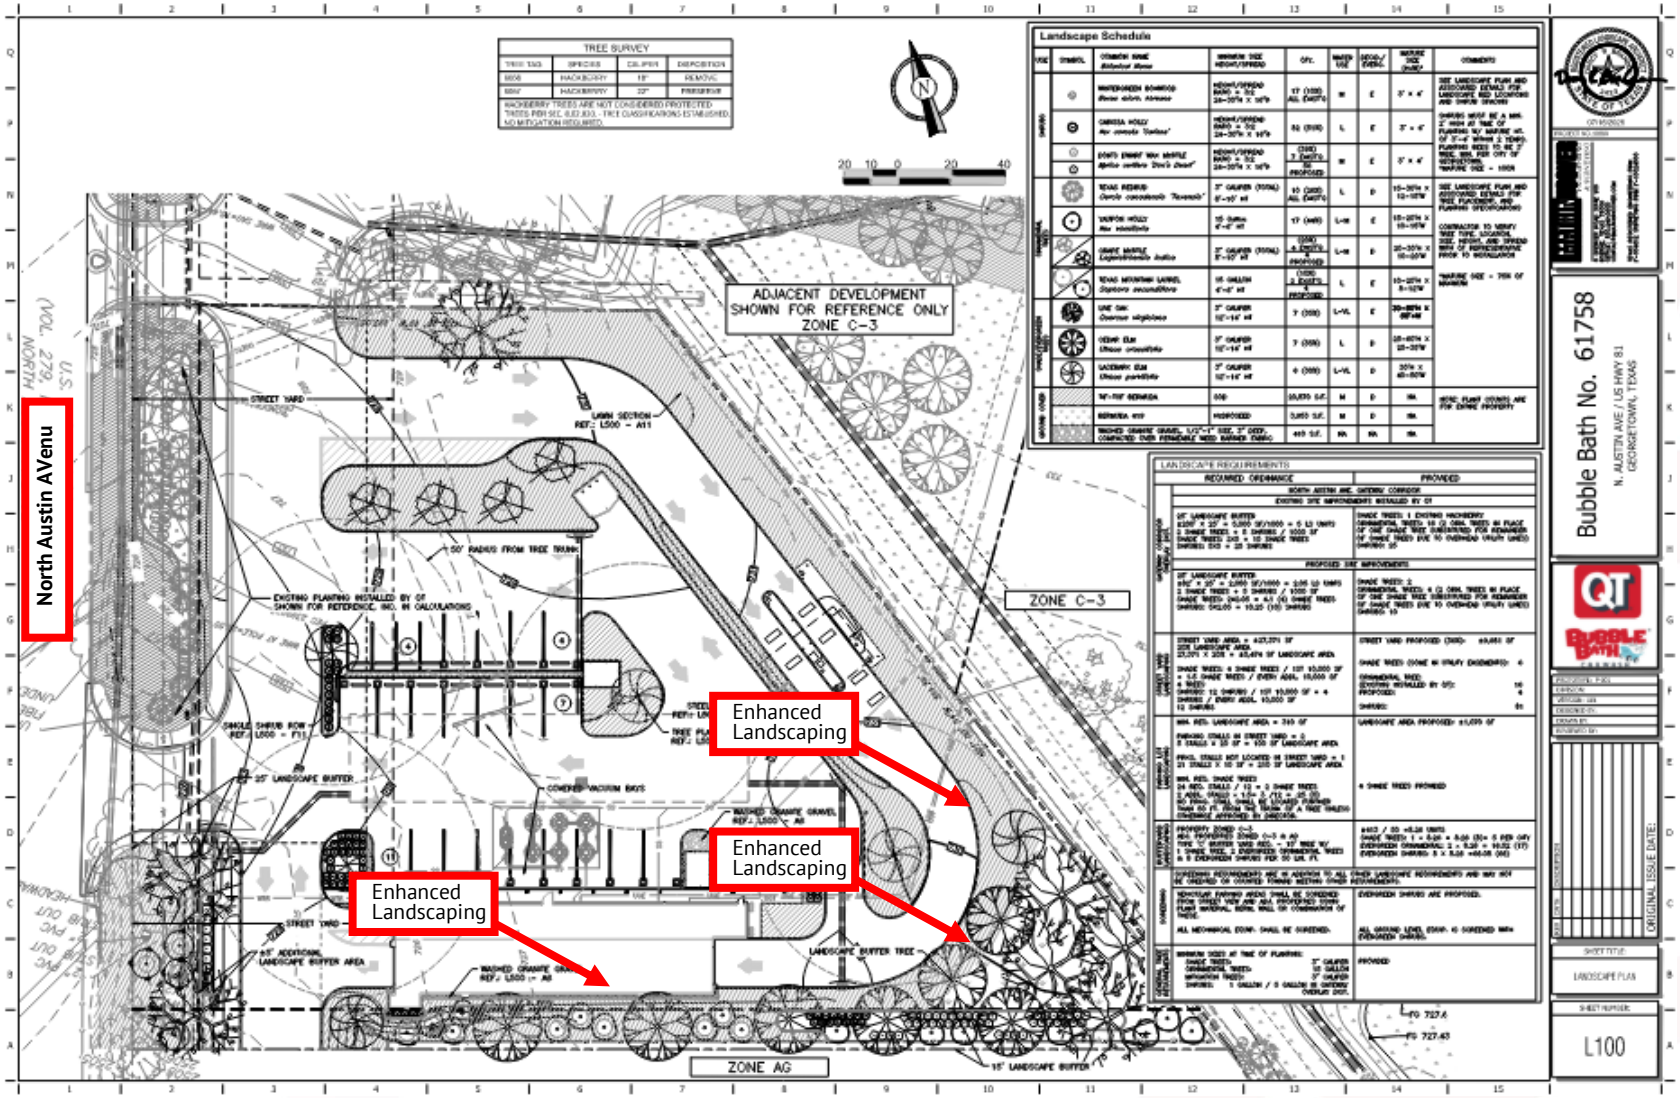
Special Use Permit (SUP)

- The SUP allows for Planning & Zoning Commission and City Council approval of uses with unique or widely varying operating characteristics or unusual site development features, subject to the terms and conditions set forth in the UDC.
- The SUP also allows for additional restrictions to be placed on the use by the Planning & Zoning Commission and the City Council.

Concept Plan



Concept Plan (Landscape)



Approval Criteria – UDC Section 3.07.030

Criteria for SUP	Complies	Partially Complies	Does Not Comply
The proposed special use is not detrimental to the health, welfare, and safety of the surrounding neighborhood or its occupants.	X		
The proposed conceptual site layout, circulation plan, and design are harmonious with the character of the surrounding area.	X		
The proposed use does not negatively impact existing uses in the area and in the City through impacts on public infrastructure such as roads, parking facilities, and water and sewer systems, and on public services such as police and fire protection and solid waste collection and the ability of existing infrastructure and services to adequately provide services.	X		
The proposed use does not negatively impact existing uses in the area and in the City through the creation of noise, glare, fumes, dust, smoke, vibration, fire hazard or other injurious or noxious impact.	X		

Approval Criteria – UDC Section 3.06.030

Criteria for Rezoning	Complies	Partially Complies	Does Not Comply
The application is complete and the information contained within the application is sufficient and correct enough to allow adequate review and final action;	X		
The zoning change is consistent with the Comprehensive Plan;		X	
The zoning change promotes the health, safety or general welfare of the City and the safe orderly, and healthful development of the City;			X

Approval Criteria – UDC Section 3.06.030

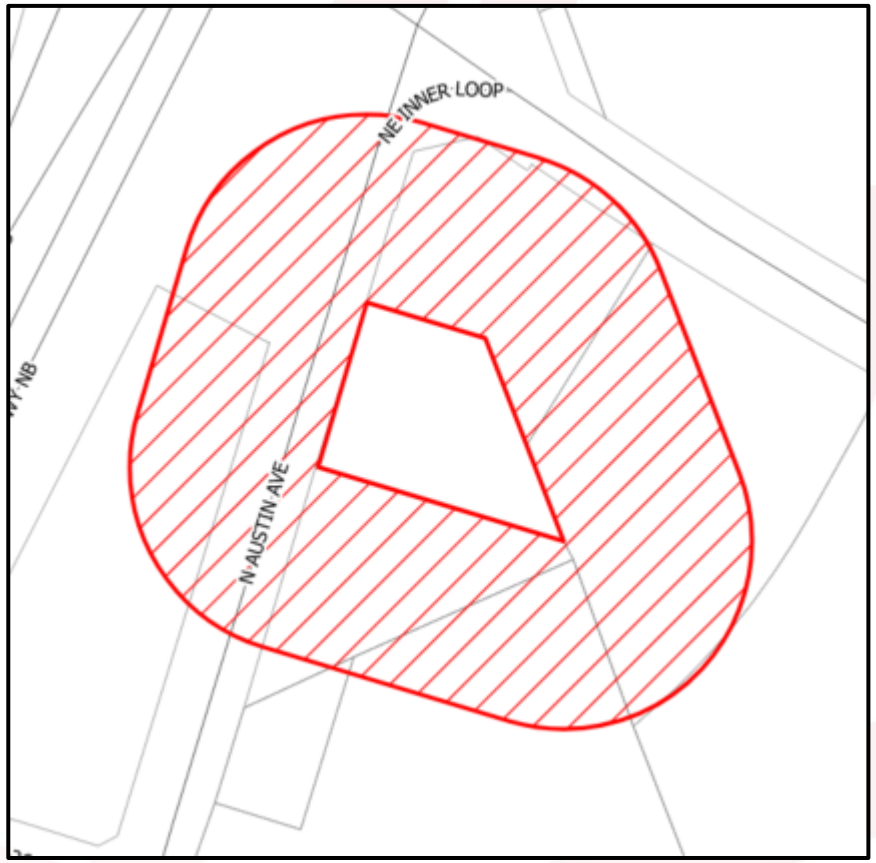
Criteria for Rezoning	Complies	Partially Complies	Does Not Comply
The zoning change is compatible with the present zoning and conforming uses of nearby property and with the character of the neighborhood; and			X
The property to be rezoned is suitable for uses permitted by the district that would be applied by the proposed amendment.	X		

Staff Recommendation

- Staff is recommending approval of the Special Use Permit due to the mitigation measures incorporated into the concept plan. The inclusion of a 6-foot masonry wall along the southern and southeastern portions of the site, along with enhanced landscaping within the 15-foot buffer, substantially reduces potential noise and vibration impacts on nearby residential properties. These features provide meaningful screening and help ensure that the proposed use operates in a manner that protects the surrounding neighborhood.

Public Notifications

- 7 property owners within the 300' buffer
- Notice in Sun News on 6.21.2025
- Signs posted on the property
- To date, staff has received:
  - 0 written comments IN FAVOR
  - 0 written comments OPPOSED



Planning & Zoning Commission Action

- At their 08.04.2026 meeting, the Planning & Zoning Commission recommended Approval of the request (7-0) with the following condition:
  - Hours of Operation: 7:00 a.m.- 8:00 p.m.

City Council Action on First Meeting

- At their 08.25.2026 meeting, the City Council recommended Approval of the request (6-0) with the following condition:
  - Hours of Operation: 7:00 a.m.- 8:00 p.m.

Summary

- Public Hearing and possible action on a request for a Special Use Permit (SUP) for the specific use of “Car Wash” in the General Commercial (C-3) zoning district on the property located at 2815 North Austin Avenue, Georgetown, Texas, bearing the legal description of 1.951 acres out of the Antonio Flores Survey, Abstract No. 235 (2025-8-SUP). – Matt Skawin, Planner
- Per UDC Section 3.07.030, the Planning & Zoning Commission shall hold a Public Hearing… and make a recommendation to the City Council.
- The SUP also allows for additional restrictions to be placed on the use by the Planning & Zoning Commission and the City Council.

Second Reading of an Ordinance

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, GRANTING A SPECIAL USE PERMIT FOR THE SPECIFIC USES OF A CAR WASH WITHIN THE GENERAL COMMERCIAL (C-3) ZONING DISTRICT, FOR THE PROPERTY LOCATED AT 2815 NORTH AUSTIN AVENUE, BEARING THE LEGAL DESCRIPTION OF 1.951 ACRES OUT OF THE ANTONIO FLORES SURVEY, ABSTRACT NO. 235; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; INCLUDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

Re: **QuikTrip Bubble Bath Car Wash 61758 Special Use Permit Application**
2815 N Austin Ave
Georgetown, Texas 78626

To Whom It May Concern:

This letter serves as a formal Letter of Intent and a request for a Special Use Permit (SUP) to develop a state-of-the-art automated tunnel car wash facility located at 2815 N Austin Ave, within a designated Regional Center as defined by the City of Georgetown's 2030 Comprehensive Plan. This project is being pursued with a commitment to aligning with and actively contributing to the city's long-term vision for balanced, sustainable, and fiscally responsible growth.

This development is designed to be in complete compliance with the spirit and specific policies of the 2030 Comprehensive Plan. Our proposed tunnel car wash is a modern, high-quality commercial service that will enhance the economic vitality and quality of life for Georgetown residents.
The project aligns with the following goals and policies of the 2030 Comprehensive Plan:

Goal 1: Balanced Land Use

- **Policy LU.1:** This development will contribute to the balanced mix of commercial and service uses in the Regional Center. A well-integrated car wash facility provides a necessary amenity for the surrounding residential and commercial areas, reducing the need for residents to travel to other parts of the city for this service. This supports the policy of having a balanced mix of uses in the community.
- **Policy LU.2:** The development is designed to be a compact, higher-density use within an appropriate infill location. It will not contribute to urban sprawl but will instead make productive use of an existing commercial area, promoting efficiency in land use.
- **Policy LU.3:** As a commercial use, this car wash will serve as a neighborhood-supporting amenity, contributing to the creation of a "complete neighborhood" by providing a local service that complements existing residential and commercial developments.

Goal 3: Development Framework and Economic Growth

- **Policy LU.8:** This project directly supports Georgetown's economic development goals by providing a new, high-quality commercial service that contributes to the city's tax base. We will create new jobs and provide a valuable service to the community.
- **Regional Center Land Use Category:** The proposed development is entirely consistent with the

definition and intent of a Regional Center as outlined in the Comprehensive Plan. Conveniently located immediately adjacent to an auto-oriented service (QuikTrip), this tunnel car wash is an appropriate use for a Regional Center, which is defined as accommodating "major shopping centers, standalone big-box retailers, or large-scale mixed-use developments, as well as supporting flex office space and office/warehouse development." The complimentary uses will create a synergistic harmony within the area. The project is strategically located with convenient access from major transportation routes, serving the broader community.

Goal 7: High-Quality Infrastructure

- **Policy LU.9:** This development will demonstrate a commitment to environmental stewardship through the use of low-impact development (LID) practices. The facility will be designed with advanced water reclamation and recycling technology, significantly reducing its demand for municipal water supplies. This aligns with the city's goal of maintaining high-quality, sustainable infrastructure.
- **Policy LU.10:** The project will incorporate a comprehensive water management plan, including state-of-the-art systems for capturing and treating all runoff, preventing contaminants from entering the city’s stormwater system.

Goal 10: Transportation Network

- **Policy T.1:** The site plan is meticulously designed to ensure efficient and safe vehicular circulation, minimizing impact on the adjacent street network. The driveways and queuing lanes will be configured to prevent queuing onto the public roadway, thereby improving the flow of traffic in the area and supporting the city's overall transportation goals.

Compliance with UDC Section 3.07.030: Criteria for Approval

Our proposed development has been designed to meet and exceed the criteria for approval for a Special Use Permit as outlined in **UDC Section 3.07.030**.

- **No Significant Negative Impact:** The project's design and operation will not create a significant negative impact on surrounding property or the general public. As an enclosed tunnel wash, the majority of the operations are contained within the building, mitigating noise and spray. The site plan incorporates a comprehensive buffering and landscaping plan to provide a visual and sound buffer to adjacent properties.
- **Compatibility with Character:** The design of the building and the overall site plan will be harmonious with the character of the surrounding Regional Center. The building will utilize modern architectural elements and high-quality materials, while the landscaping will ensure a seamless and attractive transition to the existing commercial landscape.
- **No Negative Impact on Infrastructure:** The development is designed to be fiscally and infrastructurally responsible. Water and sewer connections have been planned to integrate with existing city infrastructure without creating undue burden. Traffic will be managed with dedicated stacking lanes, preventing negative impacts on public roads and ensuring smooth circulation.
- **No Injurious or Noxious Impact:** The facility's closed-loop water reclamation system and waste management plan are specifically designed to prevent the creation of harmful fumes, dust, or runoff. All chemicals are stored indoors, and the wash process is contained, ensuring no injurious or noxious impacts on the surrounding environment or neighborhood.

Project and Site Details

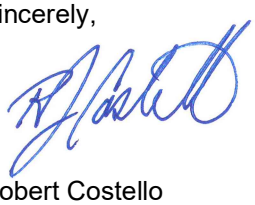
To provide a complete overview of the proposed development and address the requirements of the Special Use Permit application, the following information is included:

- **Legal Description:** The legal description is attached as a separate exhibit to the application.
- **Site Acreage:** The development will be situated on a site of approximately 1.951 acres.
- **Proposed Building:** The single-story building will have a gross floor area of approximately 4,381 square feet and a maximum height of 23 feet.
- **Hours of Operation:** The proposed hours of operation are 8ma-8pm daily.
- **Employees:** The facility will have an average of three employees on-site.
- **Parking:** The site plan includes a total of [Number of Parking Spaces] parking spaces for customer and employee use, in excess of the minimum requirements.
- **Vehicle Trips:** The estimated number of vehicle trips generated by the development is approximately 70 trips during peak hour, with the site plan designed to efficiently manage this traffic flow without impacting public streets.
- **Lighting and Signage:** A detailed plan for all lighting and signage will be included in the formal site plan to ensure compliance with the Unified Development Code (UDC) for brightness, design, and placement, minimizing glare and light pollution to surrounding properties.
- **Buffering and Screening:** The site plan includes a comprehensive landscaping and buffering plan, utilizing a combination shade trees, ornamental trees and shrubbery, to provide a visual screen from adjacent uses and ensure the development is aesthetically harmonious with the surrounding area. All outdoor refuse containers will be fully enclosed and screened from view.

We believe this proposed tunnel car wash is not only a viable commercial project but also a model development that is fully consistent with the City of Georgetown's vision for its future. We are prepared to meet with staff and the Planning and Zoning Commission to discuss this project in greater detail and provide any additional information required.

Thank you for your time and consideration.

Sincerely,



Robert Costello
Real Estate Project Manager
QuikTrip Corporation – Austin Division

Case Number: 2025-8-SUP

UDC Section 3.07.030 – Approval Criteria for Special Use Permits

Special Use Permits allow for City Council approval of uses with unique or widely varying operating characteristics or unusual site development features, subject to the terms and conditions set forth in this Code. Special Use Permits may be issued only for uses that are generally compatible with other uses permitted in a zoning district, but that require individual review of their location, design, intensity, etc. These uses may be in districts as indicated with conditions described in a Special Use Permit recommended by the Planning and Zoning Commission and approved by the City Council.

In addition to the criteria for zoning changes in Section 3.06.030, the City Council may approve an application for a Special Use Permit where it reasonably determines that there will be no significant negative impact upon residents of surrounding property or upon the public.

Staff Reviewed the request against the approval criteria for Special Use Permits found in UDC Section 3.07.030 and found that it complies with four of the criteria as detailed below.

1. The proposed special use is not detrimental to the health, welfare, and safety of the surrounding neighborhood or its occupants.	**Complies**
While the proposed use is located in close proximity to existing residential buildings to the southeast and the car wash building is situated along the southern portion of the lot, the concept plan includes several mitigation measures that address potential impacts on nearby residences. Car washes and associated facilities, such as vacuum stations, can generate noise and vibration; however, the proposed car wash building is approximately 15 feet from the southern property line and roughly 220 feet from the nearest residence, providing physical separation from adjacent homes. In addition, the concept plan includes a 6-foot masonry wall along the southern and southeastern portions of the site and a 15-foot landscape buffer with enhanced tree plantings. These features help reduce noise and vibration and provide effective visual and physical screening for nearby properties. *Continued on next page ->*	

With these mitigation measures in place, staff finds that the proposed use will not adversely affect the surrounding neighborhood or its occupants and therefore satisfies this criterion.	
2. The proposed conceptual site layout, circulation plan, and design are harmonious with the character of the surrounding area.	**Complies**
The proposed concept plan shows a single lane carwash tunnel on the southern boundary of the site with a queuing lane running along the eastern and northern perimeters. Self-serve vacuum stations and additional parking are located internal to the site, buffered by the carwash tunnel and queuing lanes. The site takes access from North Austin Avenue via a driveway on the southern portion of the site. The concept plan also proposes inter-parcel connectivity between this site and the existing QT gas station to the north by way of the existing driveway constructed by QT during the development of the gas station. The proposed site layout does not cause concern in terms of circulation. The design is generally harmonious with the other development we see along North Austin Avenue, which is classified as a Minor Arterial in the City's Overall Transportation Plan. As previously stated, the concern with the proposed Car Wash and its site plan is the location of the carwash tunnel in proximity to the existing residential buildings to the southeast.	
3. The proposed use does not negatively impact existing uses in the area and in the City through impacts on public infrastructure such as roads, parking facilities, and water and sewer systems, and on public services such as police and fire protection and solid waste collection and the ability of existing infrastructure and services to adequately provide services.	**Complies**
The proposed use does not negatively impact existing uses in terms of public infrastructure or public services. Both the city's engineering and fire departments have reviewed the request and all comments concerning infrastructure and fire protection have been addressed. The proposed request is not anticipated to impact the ability of existing infrastructure and services to adequately provide service. *Continued on next page ->*	

4. The proposed use does not negatively impact existing uses in the area and in the City through the creation of noise, glare, fumes, dust, smoke, vibration, fire hazard or other injurious or noxious impact.	**Complies**
As noted in the previous criterion, although the proposed car wash may still generate some noise and vibration due to its proximity to existing residential uses, the concept plan includes several mitigation measures that substantially reduce potential impacts on adjacent properties. The inclusion of a 6-foot masonry buffer wall along the southern and southeastern portions of the site, along with enhanced tree plantings within the 15-foot landscape buffer, helps screen the use and reduce noise transmission, vibration, and other potential nuisances.	

Additionally, staff reviewed the request against the approval criteria for a Zoning Map Amendment found in UDC Section 3.06.030 and found that it complied with 2, partially complied with 1, and did not comply with 2 of the 5 approval criteria, as detailed below.

A. The application is complete and the information contained within the application is sufficient and correct enough to allow adequate review and final action;	**Complies**
This application was reviewed by staff and deemed to be complete.	
B. The zoning change is consistent with the Comprehensive Plan.	**Partially Complies**
The property is located within the Regional Center Future Land Use Designation which calls for high intensity commercial intended for users across the community, according to the Comprehensive Plan. Developments in this Future Land Use Designation are typically auto oriented and along major transportation routes or highway interchanges to maximize visibility and access to the site. With the site's location along North Austin Avenue, the proposed use of a carwash does not substantially conflict with the provisions of the Future Land Use Map. However, Land Use Policy #1 states that there should be a gradual transition in use when examining zoning changes. It cannot be stated that this use will serve as a gradual transition into the residential area to the east, hence staff's finding of partial compliance.	
C. The zoning change promotes the health, safety or general welfare of the City and the safe orderly, and healthful development of the City.	**Does Not Comply**
The proposed use incorporates mitigation measures such as a 6-foot masonry wall along the southern and southeastern portions of the site and a 15-foot	

landscape buffer with enhanced tree plantings, which help reduce potential noise and vibration on nearby residential properties.

While these improvements help address some of the identified impacts, they do not elevate the project into one that meaningfully promotes the health, safety, or general welfare of the surrounding neighborhood.

D. The zoning change is compatible with the present zoning and conforming uses of nearby property and with the character of the neighborhood.	**Does Not Comply**

The character of the area along North Austin Avenue is predominantly commercial and auto-oriented in nature; however, the immediate surroundings of the subject property include two large apartment complexes containing a substantial number of residential units. Introducing a more intensive commercial zoning designation at this location would shift the balance of uses in a way that does not align with the established residential presence directly adjacent to the site. The scale and intensity associated with the proposed zoning change may not be appropriate given the number of residents living along the southern and southeastern boundaries of the property.

E. The property to be rezoned is suitable for uses permitted by the district that would be applied by the proposed amendment.	**Complies**

The subject site is of adequate size and shape to accommodate the proposed use of a carwash. The site is served with adequate utilities and does not cause concern in terms of circulation or fire access.

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
Second Reading - Levy the Property Tax Rate

SUGGESTED ACTION:
Second Reading of an Ordinance levying a property tax rate for the City of Georgetown for the tax year 2026 -- Randi Cormack, Budget Manager

ITEM SUMMARY:
This ordinance sets the ad valorem tax rate for the tax year 2026. This rate is based on net taxable property values at January 1, 2026, to assess taxes for collection during fiscal year 2027. The rate of $0.363167 per $100 valuation is the proposed tax rate for 2026 which is higher than the rate of $0.35300 from the prior year.

The tax rate includes a portion to fund existing debt service, and a portion to fund maintenance and operations of the City. The 2026 No New Revenue Rate is $0.362168. The 2026 Voter Approval rate adjusted for property tax relief is $0.363167. The proposed rate of $0.363167 is equal to the Voter Approval rate adjusted for sales tax.

Per $100 Valuation	**FY2025**
No New Revenue Tax Rate	0.362168
Proposed Tax Rate	***0.363167***
Voter Approval Tax Rate -	
Adjusted for Sales Tax	0.363167

The average existing taxable homestead value decreased by 2.8% compared to 2025. A homeowner with an existing average taxable homestead value of $390,610.00 will pay approximately $0.13 (13 cents) more in taxes than in the previous year.

The City held a public hearing on the tax rate on August 25, 2026.

Per Tax Code 26.05, the tax rate consists of two components, each of which must be approved separately.

<u>I move to approve a tax rate of 11.2630 cents for the maintenance and operations component of the overall tax rate.</u>

<u>I move to approve a tax rate of 25.0537 cents for the debt service component of the overall tax rate.</u>

Furthermore, per Tax Code 26.05, the final motion must be a record vote and must pass by 60% of the governing body.

I move that the property tax rate be increased by the adoption of a tax rate of 36.3167 cents, which is effectively a 0.28 percent increase in the tax rate.

FINANCIAL IMPACT:
This tax rate is used in funding the proposed 2027 Annual Budget.

ORDINANCE NO. _____

AN ORDINANCE LEVYING A TAX RATE FOR THE CITY OF GEORGETOWN, TEXAS, FOR THE TAX YEAR 2026; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; INCLUDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

WHEREAS, the City of Georgetown, Texas is an incorporated Home Rule municipality dependent upon taxes to provide its citizens with services; and

WHEREAS, the City of Georgetown, Texas published the required notices; and

WHEREAS, the City of Georgetown, Texas held a public hearing on August 25, 2026; and

WHEREAS, all notification and public hearing requirements have been satisfied; and

WHEREAS, the City Council finds it necessary to levy taxes for the 2027 fiscal year for the City of Georgetown, Texas; and

WHEREAS, this tax rate will raise more taxes for maintenance and operations than last year's tax rate; and

WHEREAS, the tax rate will effectively be raised by positive 4.32 percent and will raise taxes for maintenance and operations on a $100,000 home by approximately positive $4.66;

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

SECTION 1. The meeting at which this ordinance was approved was conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

SECTION 2. The facts and recitations contained in the preamble of this ordinance are hereby found and declared to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

SECTION 3. The City Council of the City of Georgetown (the "City Council") hereby finds that all of the prerequisites to the levying of a tax rate for this City for the tax year 2026, (including, without limitation, certifications, notices, submittals, and public hearings) as required by law have been complied with.

SECTION 4. The City Council does hereby levy and adopt the tax rate on $100 valuation for the tax year 2026 as follows:

$0.112630	for the purpose of maintenance and operation
$0.250537	for the principal and interest on debt of this city
$0.363167	total tax rate

SECTION 5. All ordinances or resolutions that conflict with the provisions of this ordinance are hereby repealed, and all other ordinances or resolutions of the City not in conflict with the provisions of this ordinance shall remain in full force and effect.

SECTION 6. If any provision of this ordinance, or application thereof, to any person or circumstance, shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this ordinance, which can be given effect without the invalid provision or application, and to this end the provisions of this ordinance are hereby declared to be severable.

SECTION 7. The Mayor is hereby authorized to sign this ordinance and the City Secretary to attest. This Ordinance shall become effective and be in full force and effect in accordance with the provisions of the City Charter of the City of Georgetown.

PASSED AND APPROVED on First Reading on the 25th day of August, 2026.

PASSED AND APPROVED on Second Reading on the 8th day of September, 2026.

Taxing Unit's Website Address

GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the no-new-revenue (NNR) tax rate and voter-approval tax rate for the taxing unit. These tax rates are expressed in dollars per $100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll and the estimated values of properties under protest. The designated officer or employee shall certify that the officer or employee has accurately calculated the tax rates and used values shown for the certified appraisal roll or certified estimate. The officer or employee submits the rates to the governing body by Aug. 7 or as soon thereafter as practicable.

School districts do not use this form, but instead use Comptroller Form 50-859 *Tax Rate Calculation Worksheet, School District without Chapter 313 and JETI Agreements* or Comptroller Form 50-884 *Tax Rate Calculation Worksheet, School District with Chapter 313 and JETI Agreements.*

Water districts as defined under Water Code Section 49.001(1) do not use this form, but instead use Comptroller Form 50-858 *Water District Voter-Approval Tax Rate Worksheet for Low Tax Rate and Developing Districts* or Comptroller Form 50-860 *Developed Water District Voter-Approval Tax Rate Worksheet.*

The Comptroller's office provides this worksheet to assist taxing units in determining tax rates. The information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

Taxing units must include a hyperlink to a document that evidences the accuracy of each entry in the worksheet other than an entry making a mathematical calculation.[1] Source materials must contain data for all worksheets used, including supplemental worksheets.

SECTION 1: No-New-Revenue Tax Rate

The NNR tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of taxes (no new taxes) if applied to the same properties that are taxed in both years. When appraisal values increase, the NNR tax rate should decrease.

The NNR tax rate for a county is the sum of the NNR tax rates calculated for each type of tax the county levies.

While uncommon, it is possible for a taxing unit to provide an exemption for only maintenance and operations taxes. In this case, the taxing unit will need to calculate the NNR tax rate separately for the maintenance and operations tax and the debt tax, then add the two components together.

Line	No-New-Revenue Tax Rate Worksheet	Amount/Rate
1.	**Prior year total taxable value.** Enter the amount of the prior year taxable value on the prior year tax roll today. Include any adjustments since last year's certification; exclude Tax Code Section 25.25(d) one-fourth and one-third over-appraisal corrections from these adjustments. Exclude any property value subject to an appeal under Chapter 42 as of July 25 (will add undisputed value in Line 6). This total includes the taxable value of homesteads with tax ceilings (will deduct in Line 2) and the captured value for tax increment financing (adjustment is made by deducting TIF taxes, as reflected in Line 17).[2]	$ 19,762,602,479
2.	**Prior year tax ceilings.** Counties, cities and junior college districts. Enter the prior year total taxable value of homesteads with tax ceilings. These include the homesteads of homeowners age 65 or older or disabled. Other taxing units enter 0. If your taxing unit adopted the tax ceiling provision last year or a prior year for homeowners age 65 or older or disabled, use this step.[3]	$ 5,128,814,596
3.	**Preliminary prior year adjusted taxable value.** Subtract Line 2 from Line 1.	$ 14,633,787,883
4.	**Prior year total adopted tax rate.**	$ 0.353000 /$100
5.	**Prior year taxable value lost because court appeals of ARB decisions reduced the prior year's appraised value.** **A. Original prior year ARB values:** ..... $ 1,549,090,000 **B. Prior year values resulting from final court decisions:** ..... - $ 1,431,485,747 **C. Prior year value loss.** Subtract B from A.[4]	$ 117,604,253

[1] Tex. Tax Code §§5.07(g)(4) and 26.04(d-1)
[2] Tex. Tax Code §26.012(14)
[3] Tex. Tax Code §26.012(14)
[4] Tex. Tax Code §26.012(13)

Line	No-New-Revenue Tax Rate Worksheet	Amount/Rate
6.	**Prior year taxable value subject to an appeal under Chapter 42, as of July 25.** **A. Prior year ARB certified value:** $ 598,113,774 **B. Prior year disputed value:** - $ 41,867,964 **C. Prior year undisputed value.** Subtract B from A. [5]	$ 556,245,810
7.	**Prior year Chapter 42 related adjusted values.** Add Line 5C and Line 6C.	$ 673,850,063
8.	**Prior year taxable value, adjusted for actual and potential court-ordered adjustments.** Add Line 3 and Line 7.	$ 15,307,637,946
9.	**Prior year taxable value of property in territory the taxing unit deannexed after Jan. 1 of the prior year.** Enter the prior year value of property in deannexed territory. [6]	$ 0
10.	**Prior year taxable value lost because property first qualified for an exemption in the current year.** If the taxing unit increased an original exemption, use the difference between the original exempted amount and the increased exempted amount. Do not include value lost due to freeport, goods-in-transit, temporary disaster exemptions. Note that lowering the amount or percentage of an existing exemption in the current year does not create a new exemption or reduce taxable value. **A. Absolute exemptions.** Use prior year market value: $ 4,730 **B. Partial exemptions.** Current year exemption amount or current year percentage exemption times prior year value: + $ 173,882,026 **C. Value loss.** Add A and B. [7]	$ 173,886,756
11.	**Prior year taxable value lost because property first qualified for agricultural appraisal (1-d or 1-d-1), timber appraisal, recreational/scenic appraisal or public access airport special appraisal in the current year.** Use only properties that qualified for the first time in the current year; do not use properties that qualified in the prior year. **A. Prior year market value:** $ 0 **B. Current year productivity or special appraised value:** - $ 0 **C. Value loss.** Subtract B from A. [8]	$ 0
12.	**Total adjustments for lost value.** Add Lines 9, 10C and 11C.	$ 173,886,756
13.	**Prior year captured value of property in a TIF.** Enter the total value of the prior year captured appraised value of property taxable by a taxing unit in a tax increment financing zone for which the prior year taxes were deposited into the tax increment fund. [9] If the taxing unit has no captured appraised value in line 18D, enter 0.	$ 574,241,622
14.	**Prior year total value.** Subtract Line 12 and Line 13 from Line 8.	$ 14,559,509,568
15.	**Adjusted prior year total levy.** Multiply Line 4 by Line 14 and divide by $100.	$ 51,395,068
16.	**Taxes refunded for years preceding the prior tax year.** Enter the amount of taxes refunded by the taxing unit for tax years preceding the prior tax year. Types of refunds include court decisions, Tax Code Section 25.25(b) and (c) corrections and Tax Code Section 31.11 payment errors. Do not include refunds for the prior tax year. This line applies only to tax years preceding the prior tax year. [10]	$ 540,101
17.	**Adjusted prior year levy with refunds.** Add Lines 15 and 16. [11]	$ 51,935,169

Line	No-New-Revenue Tax Rate Worksheet	Amount/Rate
18.	**Total current year taxable value on the current year certified appraisal roll today.** This value includes only certified values or certified estimate of values and includes the total taxable value of homesteads with tax ceilings (will deduct in Line 20). These homesteads include homeowners age 65 or older or disabled. [12] **A. Certified values:** ..... $ 20,024,990,223 **B. Counties:** Include railroad rolling stock values certified by the Comptroller's office: ..... + $ 0 **C. Pollution control and energy storage system exemption:** Deduct the value of property exempted for the current tax year for the first time as pollution control or energy storage system property: ..... - $ 0 **D. Tax increment financing:** Deduct the current year captured appraised value of property taxable by a taxing unit in a tax increment reinvestment zone for which the current year taxes will be deposited into the tax increment fund. Do not include any new property value that will be included in Line 24 below. [13] Adjustments to the taxable value must be calculated separately for each reinvestment zone using Form 50-110.[14] Enter the total from Form 50-110 ..... - $ 582,008,990 **E. Total current year value.** Add A and B, then subtract C and D.	$ 19,442,981,233
19.	**Total value of properties under protest or not included on certified appraisal roll.** [15] **A. Current year taxable value of properties under protest.** The chief appraiser certifies a list of properties still under ARB protest. The list shows the appraisal district's value and the taxpayer's claimed value, if any, or an estimate of the value if the taxpayer wins. For each of the properties under protest, use the lowest of these values. Enter the total value under protest. [16] ..... $ 404,515,678 **B. Current year value of properties not under protest or included on certified appraisal roll.** The chief appraiser gives taxing units a list of those taxable properties that the chief appraiser knows about but are not included in the appraisal roll certification. These properties also are not on the list of properties that are still under protest. On this list of properties, the chief appraiser includes the market value, appraised value and exemptions for the preceding year and a reasonable estimate of the market value, appraised value and exemptions for the current year. Use the lower market, appraised or taxable value (as appropriate). Enter the total value of property not on the certified roll. [17] ..... + $ 0 **C. Total value under protest or not certified.** Add A and B.	$ 404,515,678
20.	**Current year tax ceilings.** Counties, cities and junior colleges enter current year total taxable value of homesteads with tax ceilings. These include the homesteads of homeowners age 65 or older or disabled. Other taxing units enter 0. If your taxing unit adopted the tax ceiling provision in the prior year or a previous year for homeowners age 65 or older or disabled, use this step.[18]	$ 4,987,198,129
21.	**Anticipated contested value.** Affected taxing units enter the contested taxable value for all property that is subject to anticipated substantial litigation. [19] An affected taxing unit is wholly or partly located in a county that has a population of less than 500,000 and is located on the Gulf of Mexico.[20] If completing this line, the taxing unit must include supporting documentation in Section 9.[21] Taxing units that are not affected, enter 0.	$ 0
22.	**Current year total taxable value.** Add Lines 18E and 19C, then subtract Lines 20 and 21.[22]	$ 14,860,298,782
23.	**Total current year taxable value of properties in territory annexed after Jan. 1, of the prior year.** Include both real and personal property. Enter the current year value of property in territory annexed. [23]	$ 0
24.	**Total current year taxable value of new improvements and new personal property located in new improvements.** New means the item was not on the appraisal roll in the prior year. An improvement is a building, structure, fixture or fence erected on or affixed to land. New additions to existing improvements may be included if the appraised value can be determined. New personal property in a new improvement must have been brought into the taxing unit after Jan. 1, of the prior year and be located in a new improvement. New improvements **do** include property on which a tax abatement agreement has expired for the current year. [24]	$ 520,247,012

28.	**COUNTIES ONLY.** Add together the NNR tax rates for each type of tax the county levies. The total is the current year county NNR tax rate. [26]	$ 0.000000 /$100

Voter Approval Tax Rate

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the tax rate. The type of taxing unit will determine the rate components that apply to a taxing units' overall voter-approval tax rate.

The voter-approval tax rate for a county is the sum of the voter-approval tax rates calculated for each type of tax the county levies. In most cases the voter-approval tax rate exceeds the no-new-revenue tax rate, but occasionally decreases in a taxing unit's debt service will cause the NNR tax rate to be higher than the voter-approval tax rate.

SECTION 2: Maintenance and Operations (M&O) and Debt Tax Rate Worksheet

This section calculates two components of the voter-approval tax rate:

1. **Maintenance and Operations (M&O) Tax Rate:** The M&O portion is the tax rate that is needed to raise the same amount of taxes that the taxing unit levied in the prior year plus the applicable percentage allowed by law. This rate accounts for such things as salaries, utilities and day-to-day operations.
2. **Debt Rate:** The debt rate includes the minimum dollar amount required to be paid toward debt service for the current year.[27] This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

Line	M&O and Debt Tax Rate Worksheet	Amount/Rate
29.	**Prior year M&O tax rate.** Enter the prior year M&O tax rate.	$ 0.113871 /$100
30.	**Prior year taxable value, adjusted for actual and potential court-ordered adjustments.** Enter the amount in Line 8 of the *No-New-Revenue Tax Rate Worksheet.*	$ 15,307,637,946
31.	**Total prior year M&O levy.** Multiply Line 29 by Line 30 and divide by $100.	$ 17,430,960
32.	**Adjusted prior year levy for calculating NNR M&O rate.**	
	A. M&O taxes refunded for years preceding the prior tax year. Enter the amount of M&O taxes refunded in the preceding year for taxes before that year. Types of refunds include court decisions, Tax Code Section 25.25(b) and (c) corrections and Tax Code Section 31.11 payment errors. Do not include refunds for tax year 2025. This line applies only to tax years preceding the prior tax year. + $ 187,779	
	B. Prior year taxes in TIF. Enter the amount of taxes paid into the tax increment fund for a reinvestment zone as agreed by the taxing unit. If the taxing unit has no current year captured appraised value in Line 18D, enter 0. – $ 2,037,229	
	C. Prior year transferred function. If discontinuing all of a department, function or activity and transferring it to another taxing unit by written contract, enter the amount spent by the taxing unit discontinuing the function in the 12 months preceding the month of this calculation. If the taxing unit did not operate this function for this 12-month period, use the amount spent in the last full fiscal year in which the taxing unit operated the function. The taxing unit discontinuing the function will subtract this amount in D below. The taxing unit receiving the function will add this amount in D below. Other taxing units enter 0. +/- $ 0	
	D. Prior year M&O levy adjustments. Subtract B from A. For taxing unit with C, subtract if discontinuing function and add if receiving function. $ -1,849,450	
	E. Add Line 31 to 32D.	$ 15,581,510
33.	**Adjusted current year taxable value.** Enter the amount in Line 26 of the *No-New-Revenue Tax Rate Worksheet.*	$ 14,340,051,770
34.	**Current year NNR M&O rate (unadjusted).** Divide Line 32E by Line 33 and multiply by $100.	$ 0.108657 /$100

SECTION 3: Adjustments for Additional Sales Tax to Reduce Property Taxes

Cities, counties and hospital districts may levy a sales tax specifically to reduce property taxes. Local voters by election must approve imposing or abolishing the additional sales tax. If approved, the taxing unit must reduce its NNR and voter-approval tax rates to offset the expected sales tax revenue.

This section should only be completed by a county, city or hospital district that is required to adjust its NNR tax rate and/or voter-approval tax rate because it adopted the additional sales tax.

Line	Additional Sales and Use Tax Worksheet	Amount/Rate
52.	**Taxable Sales.** For taxing units that adopted the sales tax in November of the prior tax year or May of the current tax year, enter the Comptroller's estimate of taxable sales for the previous four quarters.[40] Estimates of taxable sales may be obtained through the Comptroller's Allocation Historical Summary webpage. Taxing units that adopted the sales tax before November of the prior year, enter 0.	$ 0
53.	**Estimated sales tax revenue.** Counties exclude any amount that is or will be spent for economic development grants from the amount of estimated sales tax revenue. [41] **Taxing units that adopted the sales tax in November of the prior tax year or in May of the current tax year.** Multiply the amount on Line 52 by the sales tax rate (.01, .005 or .0025, as applicable) and multiply the result by .95. [42] **- or -** **Taxing units that adopted the sales tax before November of the prior year.** Enter the sales tax revenue for the previous four quarters. Do not multiply by .95.	$ 3,748,724
54.	**Current year total taxable value.** Enter the amount from Line 22 of the *No-New-Revenue Tax Rate Worksheet*.	$ 14,860,298,782
55.	**Sales tax adjustment rate.** Divide Line 53 by Line 54 and multiply by $100.	$ 0.025226 /$100
56.	**Current year NNR tax rate, unadjusted for sales tax.**[43] Enter the rate from Line 27 or 28, as applicable, on the *No-New-Revenue Tax Rate Worksheet*.	$ 0.362168 /$100
57.	**Current year NNR tax rate, adjusted for sales tax.** **Taxing units that adopted the sales tax in November the prior tax year or in May of the current tax year.** Subtract Line 55 from Line 56. Skip to Line 58 if you adopted the additional sales tax before November of the prior tax year.	$ _____ /$100
58.	**Current year voter-approval tax rate, unadjusted for sales tax.**[44] Enter the rate from Line 50, Line D50 (disaster) or Line 51 (counties) as applicable, of the *M&O and Debt Tax Rate Worksheet*.	$ 0.388393 /$100
59.	**Current year voter-approval tax rate, adjusted for sales tax.** Subtract Line 55 from Line 58.	$ 0.363167 /$100

SECTION 4: Adjustment for Pollution Control

A taxing unit may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The taxing unit's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The taxing unit must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

This section should only be completed by a taxing unit that uses M&O funds to pay for a facility, device or method for the control of air, water or land pollution.

Line	Adjustment for Pollution Control Requirements Worksheet	Amount/Rate
60.	**Certified expenses from the Texas Commission on Environmental Quality (TCEQ).** Enter the amount certified in the determination letter from TCEQ. [45] The taxing unit shall provide its tax assessor-collector with a copy of the letter. [46]	$ _____
61.	**Current year total taxable value.** Enter the amount from Line 22 of the *No-New-Revenue Tax Rate Worksheet*.	$ _____
62.	**Additional rate for pollution control.** Divide Line 60 by Line 61 and multiply by $100.	$ _____ /$100
63.	**Current year voter-approval tax rate, adjusted for pollution control.** Add Line 62 to one of the following lines (as applicable): Line 50, Line D50 (disaster), Line 51 (counties) or Line 59 (taxing units with the additional sales tax).	$ _____ /$100

[45] Tex. Tax Code §26.045(d)
[46] Tex. Tax Code §26.045(i)

SECTION 5: Unused Increment Rate

The unused increment rate is the rate equal to the sum of the prior 3 years Foregone Revenue Amounts divided by the current taxable value. [47] The Foregone Revenue Amount for each year is equal to that year's adopted tax rate subtracted from that year's voter-approval tax rate adjusted to remove the unused increment rate multiplied by that year's current total value. [48]

The difference between the adopted tax rate and adjusted voter-approval tax rate is considered zero in the following scenarios:

- a tax year in which a taxing unit affected by a disaster declaration calculates the tax rate under Tax Code Section 26.042; [49]
- a tax year in which the municipality is a defunding municipality, as defined by Tax Code Section 26.0501(a); [50] or
- after Jan. 1, 2022, a tax year in which the comptroller determines that the county implemented a budget reduction or reallocation described by Local Government Code Section 120.002(a) without the required voter approval. [51]

This section should only be completed by a taxing unit that does not meet the definition of a special taxing unit. [52]

Line	Unused Increment Rate Worksheet	Amount/Rate

SECTION 7: Adjustment for Emergency Revenue Rate

In the tax year after the end of the disaster calculation time period detailed in Tax Code Section 26.042(a), a taxing unit that calculated its voter-approval tax rate in the manner provided for a special taxing unit due to a disaster must calculate its emergency revenue rate and reduce its voter-approval tax rate for that year. [55]

This section will apply to a taxing unit other than a special taxing unit that:

- directed the designated officer or employee to calculate the voter-approval tax rate of the taxing unit in the manner provided for a special taxing unit in the prior year; and
- the current year is the first tax year in which the total taxable value of property taxable by the taxing unit as shown on the appraisal roll for the taxing unit submitted by the assessor for the taxing unit to the governing body exceeds the total taxable value of property taxable by the taxing unit on January 1 of the tax year in which the disaster occurred or the disaster occurred four years ago.

Note: This section does not apply if a taxing unit is continuing to calculate its voter-approval tax rate in the manner provided for a special taxing unit because it is still within the disaster calculation time period detailed in Tax Code Section 26.042(a) because it has not met the conditions in Tax Code Section 26.042(a)(1) or (2).

Line	Emergency Revenue Rate Worksheet	Amount/Rate
75.	**2025 adopted tax rate.** Enter the rate in Line 4 of the *No-New-Revenue Tax Rate Worksheet.*	$ _____/$100
76.	**Adjusted 2025 voter-approval tax rate.** Use the taxing unit's Tax Rate Calculation Worksheets from the prior year(s) to complete this line. [56] If a disaster occurred in 2025 and the taxing unit calculated its 2025 voter-approval tax rate using a multiplier of 1.08 on Disaster Line 42 (D42) of the 2025 worksheet due to a disaster, complete the applicable sections or lines of *Form 50-856-a, Adjusted Voter-Approval Tax Rate for Taxing Units in Disaster Area Calculation Worksheet.* **- or -** If a disaster occurred prior to 2025 for which the taxing unit continued to calculate its voter-approval tax rate using a multiplier of 1.08 on Disaster Line 42 (D42) in 2025, complete form 50-856-a, *Adjusted Voter-Approval Tax Rate for Taxing Units in Disaster Area Calculation Worksheet* to recalculate the voter-approval tax rate the taxing unit would have calculated in 2025 if it had generated revenue based on an adopted tax rate using a multiplier of 1.035 in the years following the disaster. [57] Enter the final adjusted 2025 voter-approval tax rate from the worksheet.	$ _____/$100
77.	**Increase in 2025 tax rate due to disaster.** Subtract Line 76 from Line 75.	$ _____/$100

SECTION 8: Total Tax Rate

Indicate the applicable total tax rates as calculated above.

No-new-revenue tax rate. ..... $ 0.362168 /$100
As applicable, enter the current year NNR tax rate from: Line 27, Line 28 (counties), or Line 57 (adjusted for sales tax).

Indicate the line number used: 27

Voter-approval tax rate ..... $ 0.363167 /$100
As applicable, enter the current year voter-approval tax rate from: Line 50, Line D50 (disaster), Line 51 (counties), Line 59 (adjusted for sales tax), Line 63 (adjusted for pollution control), Line 69 (adjusted for unused increment), or Line 82 (adjusted for emergency revenue).

Indicate the line number used: 69

De minimis rate. ..... $ _____ /$100
If applicable, enter the current year de minimis rate from Line 74.

SECTION 9: Addendum

An affected taxing unit that enters an amount described by Tax Code Section 26.012(6)(C) in line 21 must include the following as an addendum:

1. Documentation that supports the exclusion of value under Tax Code Section 26.012(6)(C); and
2. Each statement submitted to the designated officer or employee by the property owner or entity as required by Tax Code Section 41.48(c)(2) for that tax year.

Insert hyperlinks to supporting documentation:

SECTION 10: Taxing Unit Representative Name and Signature

Enter the name of the person preparing the tax rate as authorized by the governing body of the taxing unit. By signing below, you certify that you are the designated officer or employee of the taxing unit and have accurately calculated the tax rates using values that are the same as the values shown in the taxing unit's certified appraisal roll or certified estimate of taxable value, in accordance with requirements in the Tax Code. Notice About 2026 Tax Rates

Property Tax Rates in City of Georgetown.

This notice concerns the 2026 property tax rates for City of Georgetown.

This notice provides information about two tax rates used in adopting the current tax year's tax rate. The no-new-revenue tax rate would Impose the same amount of taxes as last year if you compare properties taxed in both years. In most cases, the voter-approval tax rate is the highest tax rate a taxing unit can adopt without holding an election. In each case, these rates are calculated by dividing the total amount of taxes by the current taxable value with adjustments as required by state law. The rates are given per $100 of property value.

This year's no-new-revenue tax rate ..... $0.362168/$100.

This year's voter-approval tax rate ..... $0.363167/$100.

To see the full calculations, please visit https://wilcotx.gov/propertytax for a copy of the Tax Rate Calculation Worksheet.

Unencumbered Fund Balances.

The following estimated balances will be left in the taxing unit's accounts at the end of the fiscal year. These balances are not encumbered by corresponding debt obligation.

Type of Fund	Balance
M&O Funds	$0
I&S Funds	$0

Current Year Debt Service.

The following amounts are for long-term debts that are secured by property taxes. These amounts will be paid from upcoming property tax revenues (or additional sales tax revenues, if applicable).

Description of Debt	Principal or Contract Payment To be Paid From Property Taxes	Interest to be Paid From Property Taxes	Other Amounts To be Paid	Total Payment
Other City Facilities	$6,213,811	$3,988,922		$10,202,733
Parks and Recreation	$2,283,150	$1,488,756		$3,771,906
Public Safety	$6,947,250	$3,433,394		$10,380,644
Streets and Transportation	$11,802,100	$9,535,913		$21,338,013

Total required for 2026 debt service	$ 45,693,296
- Amount (if any) paid from funds listed in unencumbered funds	$ 7,212,686
- Amount (if any) paid from other resources	$ 1,250,000
- Excess collections last year	$ 0
= Total to be paid from taxes in 2026	$ 37,230,610
+ Amount added in anticipation that the taxing unit will collect only 100.000000% of its taxes in 2026	$ 0
= Total Debt Levy	$ 37,230,610

This notice contains a summary of the no-new-revenue and voter-approval calculations as certified by Catherine Totty, Williamson County Tax Assessor/Collector, 07/31/2026.

Visit Texas.gov/PropertyTaxes to find a link to your local property tax database on which you can easily access information regarding your property taxes, including information about proposed tax rates and scheduled public hearings of each entity that taxes your property.

The 86th Texas Legislature modified the manner in which the voter-approval tax rate is calculated to limit the rate of growth of property taxes in the state.

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
Second Reading - Annual Operating Budget FY2027

SUGGESTED ACTION:
Second Reading of an Ordinance adopting the City of Georgetown Annual Budget for the fiscal year beginning October 1, 2026, and ending September 30, 2027 -- Randi Cormack, Budget Manager

ITEM SUMMARY:
This Ordinance adopts the Annual Budget for fiscal year 2027, including operating and capital expenditures. The proposed budget was presented to City Council on August 11, 2026 following Council workshop on June 23rd. Public Hearings on the 2026 Tax Rate and the 2027 Annual Budget were held on August 25, 2026. The FY2027 Proposed Budget can be found here: https://city-georgetown-tx-cleardoc.cleargov.com/27040/1111741/d

State law requires that the budget be adopted as a record vote, separate from the adoption of the City's tax rate.

FINANCIAL IMPACT:
This ordinance contains the "All-Funds Schedules" that details the 2027 Annual Budget total appropriation of $1,646,676,880.00

SUBMITTED BY:
Aaron St Pierre, Finance/Purchasing

CITY OF GEORGETOWN
TAXPAYER IMPACT STATEMENT

House Bill 1522, passed by the Texas Legislature in 2025, amends section 551.043 of the Texas Government Code to require that the notice of a meeting required to be posted under section 551.043(a) of the Texas Open Meetings Act, at which a governmental body will discuss or adopt a budget for the governmental body, must include a taxpayer impact statement showing, for the median-valued homestead property, a comparison of the property tax bill in dollars pertaining to the property for the current fiscal year to an estimate of the property tax bill in dollars for the same property in the upcoming fiscal year.

The City of Georgetown's proposed FY2027 budget is set to be adopted on August 25 and September 8, 2026.

Under the budget and tax rate for FY2027, the average homeowner (based on the City's 2026 median homestead taxable value of $361,764 provided by the Williamson Central Appraisal District) would pay:

- $20 less than in the current year
- $4 more than under the no-new- revenue rate

	Tax Year 2025	Tax Year 2026 Proposed Rate	Tax Year 2026 No-New-Revenue Rate*
Median Value Homestead Property	377,872	361,764	361,764
City of Georgetown Tax Rate	0.353000	0.363167	0.362168
Estimated Property Tax Bill	$1,334	$1,314	$1,310

** The No-New-revenue Tax Rate, as calculated under Chapter 26 of the Texas Tax Code, may not be capable of funding a balanced budget for the City.*

The estimates in this Impact Statement are valid only for the budget and tax rate that the City Council is considering at its meeting on **August 25, 2026, and September 8, 2026**. If the City Council intends to discuss the budget at a subsequent meeting, the City will include a Taxpayer Impact Statement in the notice for that meeting which will include updated estimates based on any amendments to the budget and tax rate if applicable.

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, ADOPTING THE ANNUAL BUDGET FOR THE ENSUING FISCAL YEAR BEGINNING OCTOBER 1, 2026, AND ENDING SEPTEMBER 30, 2027, IN ACCORDANCE WITH CHAPTER 102 OF THE LOCAL GOVERNMENT CODE; APPROPRIATING THE VARIOUS AMOUNTS THEREOF; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; INCLUDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

WHEREAS, the City Council has reviewed all priorities, goals, and strategies to be included in the Annual Budget for the upcoming fiscal year; and

WHEREAS, the City Council has received the Proposed Budget and a copy of such Proposed Budget, and all supporting schedules have been filed with the City Secretary of the City of Georgetown; and

WHEREAS, in accordance with Section 102.006 of the Texas Local Government Code, a public hearing was held on August 25, 2026, concerning such Proposed Budget, providing an opportunity for all interested taxpayers and citizens to be heard for or against any item or amount therein; and

WHEREAS, the City Council of the City of Georgetown has determined that the Proposed Budget should be approved and adopted as the City's Annual Budget for the ensuing fiscal year;

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

SECTION 1. The facts and recitations contained in the preamble of this ordinance are hereby found and declared to be true and correct, and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

SECTION 2. The Annual Budget of the revenues of the City of Georgetown and expenses of conducting the affairs thereof, providing a financial plan for the ensuing fiscal year beginning October 1, 2026, and ending September 30, 2027, as submitted to the City Council by the City Manager of said City, and the same is in all things adopted and approved as Exhibit A – All-Funds Summary, incorporated by reference herein.

SECTION 3. The amounts indicated for the following funds are hereby appropriated for payments of expenditures and payments of the individual funds:

Fund	FY2027 Budget
General Fund	126,013,658
Special Revenue Funds	85,942,189
Capital Projects	54,902,680
General Debt Service	53,252,907
Electric Services	230,161,302
Water Services	957,827,708
Other Enterprise Funds	40,469,764
Internal Service Funds	98,106,672
Total Expense	**1,646,676,880**

SECTION 4. Adoption of this ordinance authorizes the City Manager to transfer monies set aside for salary adjustments in the various operating funds to departments as needed for these purposes.

SECTION 5. The City Council hereby approves the appropriation of public funds for the purchase of new and replacement fleet, equipment, and technology related hardware and software as described in Exhibit B, and authorizes the City Manager to execute contracts and documents for those purchases subject to the provisions of Chapter 4.08 of the Code of Ordinances.

SECTION 6. All ordinances and resolutions, or parts of ordinances and resolutions, in conflict with this Ordinance are hereby repealed, and are no longer of any force and effect.

SECTION 7. If any provision of this Ordinance or application thereof to any person or circumstance shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this Ordinance which can be given effect without the invalid provision or application, and to this end the provisions of this Ordinance are hereby declared to be severable.

SECTION 8. The Mayor is hereby authorized to sign this Ordinance and the City Secretary to attest. This Ordinance shall become effective in accordance with the City Charter of the City of Georgetown, Texas.

PASSED AND APPROVED on First Reading on the 25th day of August, 2026.

PASSED AND APPROVED on Second Reading on the 8th day of September, 2026.

*technically new but on the replacement schedule

2027 FISCAL YEAR TECHNOLOGY HARDWARE AND SOFTWARE

Anticipated technology purchases and known cost estimates

Audio-Visual Equipment

Item	Details	Estimated Cost
AV Room Refresh	Planned refresh or emergency replacement needs	$25,000
PSOTC Training Rooms	Training room AV equipment	$175,000
Audio-Visual Total		**$200,000**

Computer Hardware

Item	Details	Estimated Cost
CAD Computer Replacement	Separate computer hardware line item	$40,000
Computer Replacement Cycle	Annual scheduled replacements	$477,000
FY27 Data Center Hardware Lease	FY27 lease cost	$825,000
New Employee Equipment	Equipment for new positions	$100,000
Various CIP Projects	Estimated amount	$100,000
Computer Hardware Total		**$1,542,000**

Network and Infrastructure

Item	Details	Estimated Cost
Airport UPS Replacement	1 UPS	$25,000
Camera Server Replacement	3 servers	$150,000
DR Data Center Batteries	8 batteries	$15,000
Firewall Replacement	High-availability pair	$450,000
Network Switch and Access Point Replacement	20 switches and 50 access points	$250,000
PDU Replacements	15 units	$20,000
Primary Data Center Batteries	4 batteries	$12,000
Network and Infrastructure Total		**$922,000**

Software, Services, and Maintenance

Item	Details	Estimated Cost
Adobe	Annual licensing	$65,000
Akamai Guardicore	Network segmentation	$163,000
Bluebeam	Annual licensing	$25,000
Cisco	Network maintenance and licensing: SmartNet, Webex Contact Center, Meraki, and VoIP	$244,000
CTI AV Service-Level Agreement	Annual support agreement	$30,000
Gartner		$100,000
JIRA		$60,000
Microsoft	Licensing, software, and data center/Azure services	$1,850,000
Palo Alto	Maintenance and Cortex	$250,000
Palo Alto	Firewall maintenance	$200,000
PureSAN	Network storage	$120,000
Radiflow	OT security platform	$200,000
Stewart Organization	Printers and copiers	$145,000
Swagit / Granicus	Annual service	$135,000
TwoConnect	Integration services	$180,000
VMware	Virtualization software	$400,000
VNC	Annual licensing	$8,000
Software, Services, and Maintenance Total		**$4,175,000**

Summary

Category	Estimated Cost
Audio-Visual Equipment	$200,000
Computer Hardware	$1,542,000
Network and Infrastructure	$922,000
Software, Services, and Maintenance	$4,175,000
Known Estimated Total	**$6,839,000**

Fiscal and Budgetary Policy

Adopted: September 8, 2026

I. PURPOSE

The City of Georgetown is committed to financial management through integrity, prudent stewardship, planning, accountability, transparency and communication. The broad purpose of the Fiscal and Budgetary Policies is to enable the City and its related component units, including the Georgetown Transportation Enhancement Corporation (GTEC) and the Georgetown Economic Development Corporation (GEDCO), to achieve and maintain a long-term stable and positive financial condition, and provide guidelines for the day-to-day planning and operations of the City's financial affairs.

Policy scope generally spans areas of accounting, operational and capital budgeting, revenue and expenditure management, financial reporting, internal controls, investment and asset management, debt management and forecasting. This is done in order to:

A. Demonstrate to the residents of Georgetown, the investment community, and the bond rating agencies that the City is committed to a strong fiscal operation;

B. Provide precedents for future policy-makers and financial managers on common financial goals and strategies;

C. Fairly present and fully disclose the financial position of the City in conformity to generally accepted accounting principles (GAAP); and

D. Demonstrate compliance with finance-related legal and contractual issues in accordance with the Texas Local Government Code and other legal mandates.

These policies will be reviewed and updated annually as part of the budget preparation process.

II. FUND STRUCTURE AND BASIS OF BUDGETING

The budgeted funds for the City of Georgetown include:

Governmental Funds:

General Fund which accounts for all financial resources except those required to be accounted for in another fund, and include basic governmental services, such as Street Maintenance, Planning and Development, Police, Fire, and Parks.

Special Revenue Funds (SRF) account for specific revenues that are legally restricted for specified purposes. Examples include Tourism, Parkland Dedication, Library Donations, and Street Maintenance Sales Tax.

Debt Service Fund is used to account for the payment of general long-term debt principal and interest.

Capital Project Funds are used to account for the acquisition or construction of major capital facilities other than those financed by enterprise activities.

Proprietary Funds: ***Internal Service Funds*** account for goods or services provided by one internal department to another. The City uses this system to recognize cost for fleet replacement and maintenance, facility maintenance, computer replacement and maintenance and employee health insurance costs.

Enterprise Funds include the City's business like activities: electric, water and wastewater, drainage, solid waste and the airport.

Basis of Accounting and Basis of Budgeting

The City accounts and budgets for all **Governmental Funds** using the *modified accrual basis of accounting*. This basis means that revenue is recognized in the accounting period in which it becomes available and measurable, while expenditures are recognized in the accounting period in which the liabilities are incurred. Because the appropriated budget is used as the basis for control and comparison of budgeted and actual amounts, the basis for preparing the budget is the same as the basis of accounting. Exceptions to the modified accrual basis of accounting include:

- Grants, which are considered revenue when awarded, not received
- Principal and interest on long-term debt, which are recognized when paid.

Proprietary Funds are accounted and budgeted using the full-accrual basis of accounting. Under this method, revenues are recognized when they are earned and measurable, while expenses are recognized when they are incurred regardless of timing or related cash flows. The basis for preparing the budget is the same as the basis of accounting except for principal payments on long-term debt and capital outlay which are treated as budgeted expenses. Exceptions include:

- Depreciation which is not budgeted
- Non-budgeted accruals such as compensated absences.

III. OPERATING BUDGET

Budgeting is an essential element of the financial planning, control and evaluation process of municipal government. The operating budget is the City's annual financial operating plan. The annual budget includes all of the operating departments of the General Fund, proprietary funds, debt service funds, special revenue funds, and capital improvement funds of the City.

A. Form of Government – The *Charter (Section 1.03)* established a Council-Manager Government wherein the City vests power in the City Council to "enact legislation, adopt budgets, determine policies, and appoint the City Manager who shall execute the laws and administer the government of the City."

B. Comprehensive Plan – The *Charter (Section 1.08)* requires that the City Council "establish comprehensive planning as a continuous and ongoing governmental function in order to promote and strengthen the existing role, processes and powers of the City of Georgetown." The current comprehensive plan is the 2030 Plan adopted in 2006 and updated in 2020.

C. Preparation – The *Charter (Section 6.02)* requires "a proposed budget prepared by the City Manager and submitted to the City Council at least thirty days prior to the end of the fiscal year. The budget shall be adopted not later than the twenty-seventh day of the last month of the fiscal year. No budget will be adopted or appropriations made unless the total estimated revenues, income and funds available shall be equal to or in excess of such budget or appropriations, except otherwise provided."

1. Proposed Budget – A proposed budget shall be prepared by the City Manager with participation of all of the City's Directors within the provision of the *Charter* and the 2030 Plan.

   a. The budget shall include four basic segments for review and evaluation:

      - Revenue
      - Personnel Costs
      - Operations and Maintenance Costs
      - Capital and other non-project Costs

   b. The budget review process will include City Council participation in the development of each segment and allow for resident participation in the process, and will allow for sufficient time to address policy and fiscal issues by the City Council.

   c. A copy of the proposed and approved budgets will be filed with the City Secretary when it is submitted to the City Council and will be available on the City's website.

2. Adoption – Upon finalization of the budget appropriations, the City Council will hold a public hearing, and subsequently adopt by Ordinance the final budget as amended. The budget will be effective for the fiscal year beginning October 1st.

   The Annual Budget document will be submitted annually to the Government Finance Officers Association (GFOA) for evaluation and consideration for the Distinguished Budget Presentation Award.

D. Balanced Budget – The goal of the City is to adopt and maintain a balanced operating budget using sustainable funding sources that are expected to continue to be available in subsequent fiscal years. Excess balances in operating funds from previous fiscal years shall remain in the fund in which they were appropriated until either such excess balances are proposed and adopted pursuant to *Section III. C. Preparation* of this policy; until they are used to reduce outstanding debt obligations of the City; or both.

The *Charter (Section 6.04)* requires that an operating deficit created in any fiscal year shall be paid off and discharged during the following year. In practice, deficit has been interpreted to mean City funds as a whole. The City Council may choose from time to time to allow individual funds to have a negative balance as long as Operating Reserve requirements for the City as a whole are maintained.

E. Planning – The budget process will be coordinated so that major policy issues are identified prior to the budget approval date. This will allow City Council adequate time for consideration of appropriate decisions and analysis of financial impacts.

F. Reporting – Summary financial reports will be presented to the City Council quarterly. These reports will be in a format appropriate to enable the City Council to understand the overall budget and financial status.

G. Control and Accountability – Each Director, appointed by the City Manager, will be responsible for the administration of his/her departmental budget. This includes accomplishing the Goals and Objectives adopted as part of the budget and monitoring each department budget for revenue collections and compliance with spending limitations. Directors may transfer funds up to $25,000 within the operations and maintenance or capital line items within a departmental budget category with approval from Finance. Cost Center Managers may transfer funds up to $5,000 within the operations and maintenance or capital line items within a cost center with approval from Finance. All transfers from or to the Personnel line items require approval of the Chief Financial Officer and City Manager. All other transfers of appropriation or budget amendments require either City Council or City Manager approval as outlined in *Section III.G Budget Amendments* and *Section V.C.4 Use of Excess Salary Savings*.

H. Budget Amendments – The *Charter (Section 6.04)* and the Local Government Code 102.009 and 102.010 provide a method to amend the budget for emergency appropriations and municipal purposes. The City Council may authorize, with a majority plus one vote, an amendment to the original budget. This may be done in cases of grave public necessity, or to meet an unusual and unforeseen condition that was not known at the time the budget was adopted. The following criteria will be used in evaluation of budget amendments:

- Is the request necessary?
- Why was the item not budgeted in the normal budget process?
- Why can't a transfer be done within the Division to remedy the condition?

The Chief Financial Officer must certify availability of revenues or funding sources prior to adoption.

If needed, the City will amend the budget at year end for increased revenue and for expenditures that exceeded budgeted amounts. The City may also amend the budget for any capital project timing adjustments from prior year, as well as any other known adjustments needed and approved at that time.

I. Contingency Appropriations – The budget may include contingency appropriations within designated operating department budgets. These funds are used to offset expenditures for unexpected maintenance or other unanticipated expenses that might occur during the year. Currently, the City maintains contingency appropriations for items such as insurance deductibles, unexpected legal expenses and equipment repairs.

The General Fund, General Government Contracts Cost Center, contains a $300,000 appropriation for emergency circumstances. The purpose of this contingency is for use during locally declared disasters as a short-term temporary measure to fund emergency supplies or services until a long-term solution is developed. Since these funds are appropriated, the Council is authorizing the City Manager or Acting City Manager, in partnership with the Finance Division, to approve use of these funds. Whenever possible, the Mayor will be consulted prior to use. Council will be informed of the purpose and circumstances of use within 48 hours. The public will be informed of purpose and use as soon as practically possible. When these funds are used, they should be restored as soon as practically possible from grant reimbursements, additional revenues, one-time expense savings or other appropriate sources.

J. Use of Unanticipated and Unappropriated General Fund Balances – Within 90 days after fiscal year end, staff will report the projected General Fund balance to Council. In the event that unexpected, unbudgeted amounts are determined to be available in the General Fund after year end close, these funds may be used for any of the following one-time purposes that mitigate increases in property taxes, as approved by the City Council:

1. to fund capital projects;

2. to fund equipment purchases in lieu of issuing debt;

3. to reduce outstanding City debt, including bonded indebtedness and unfunded pension liabilities;

4. to fund contingent liabilities such as the benefit payout reserve, and similar obligations of the City;

5. to hold those funds in reserves for future commitments or contingencies that may be pending, and/or;

6. to fund one-time start-up programs or one-time studies.

IV. REVENUE MANAGEMENT

A. Characteristics – The City will strive for the following optimum characteristics in its revenue system:

1. Simplicity – The City, where possible and without sacrificing accuracy, will strive to keep the revenue system simple in order to reduce compliance costs for the taxpayer or service recipient.

2. Certainty – A knowledge and understanding of revenue sources increases the reliability of the revenue system. The City will understand its revenue sources and enact consistent collection policies to provide assurances that the revenue base will materialize according to budget.

3. Equity – The City shall make every effort to maintain equity in its revenue system; i.e., the City should seek to minimize or eliminate all forms of subsidization between entities, funds, services, utilities, and customer classes, and ensure an on-going return on investment for the City.

   a. The City will make every effort to recognize the benefit that City tax payers contribute to City programs and services.
   b. The Parks and Recreation Department maintains a separate policy on cost recovery goals. This policy will be regularly reviewed and approved by the council.

4. Revenue Adequacy – The City should require there be a balance in the revenue system; i.e., the revenue base will have the characteristics of fairness and neutrality as it applies to cost of service, willingness to pay, and ability to pay.

5. Realistic and Conservative Estimates – Revenues will be estimated realistically, and conservatively, taking into account the volatile nature of various revenue streams.

6. Administration – The benefits of a revenue source should exceed the cost of levying and collecting that revenue.

7. Diversification and Stability – A diversified revenue system with a stable source of income shall be maintained. This will help avoid instabilities in revenue sources due to factors such as fluctuations in the economy and variations in the weather.

B. Other Considerations – The following considerations and issues will guide the City in its revenue policies concerning specific sources of funds:

1. Cost/Benefit of Incentives for Economic Development – The City will use due caution in the analysis of any incentives that are used to encourage development. A cost/benefit (fiscal impact) analysis will be performed as part of the evaluation.

2. Non-Recurring Revenues – One-time or non-recurring revenues should not be used to finance current ongoing operations.

3. Sustainable Revenues – Sustainable means revenue that is consistently available year after year, and includes revenues realized subsequent to adopted projections.

4. Property Tax Revenues – Annually, the City will forecast property tax revenue as part of the budget process. Certified Assessed Value Reports from the Williamson Central Appraisal District are used to forecast property tax. The City will comply with State law regarding publication notices and Truth in Taxation requirements.

5. Interest Income – Interest earned from investments will be distributed to the funds in accordance with the average daily cash balance of the fund from which the monies were provided to be invested.

6. User-Based Fees and Service Charges – For services associated with a user fee or charge, the direct or indirect costs of that service will be offset by a fee where possible. The City will review fees and charges no less than once every five years on a rotating schedule to ensure that fees provide adequate coverage for the cost of services. The City Council will determine how much of the cost of a service should be recovered by fees and charges.

7. Enterprise Activity Rates – The City will review and adopt utility and airport rates as needed to generate revenues required to fully cover operating expenses, meet the legal requirements of all applicable bond covenants, and provide for an adequate level of working capital. Enterprise rates will be reviewed annually as part of the budget process. A rate study will be conducted no less than every 3 years to review rate methodology and ensure revenues will meet future needs. All enterprise rates will be based on standardized cost of service methodologies and conservation goals.

   a. **Water Rates** will recognize at least 50% of the identified fixed costs of service, including debt payments and Payment in Lieu of Taxes costs, within the monthly base charge determined by meter size plus 75% with the first customer tier. Volumetric charge will recognize the balance of fixed costs not included in the base rate, plus all variable costs associated with procuring and treating water and enforcing conservation compliance goals.

   b. **Wastewater Rates** are fixed for all residential customers based on the cost of providing services. Commercial customer rates are fixed and volumetric depending on size and specifications of each commercial customer.

   c. **Electric Rates** include 100% of fixed costs within the base rate, and demand rates, with all variable costs included in the kWh rate.

      - The Power Cost Adjustment (PCA) Factor and Transmission Cost Adjustment (TCA) Factor are determined by comparing forecasted costs against actual costs in a budget year, and seek to recover/credit variances within 6 to 12 months.

- The Very Large Commercial & Industrial Energy Rate Rider is used to recover the Utility's net hedging cost for serving very large-load customers with an installed capacity between 10 – 51 MW. The target account balance for the rate rider is 1% of anticipated total revenues from the Very Large Commercial & Industrial customer class. The City Manager, General Manager or their respective designees are responsible for making periodic adjustments to the Energy Rate Rider, which will be based upon two (2) months of actual power supply costs and six (6) months of forecasted future costs to serve the customers in the Very Large Commercial and Industrial Service class and the cumulative Energy Rate Rider account balance. Changes to the Energy Rate Rider shall have the objective of maintaining a positive cumulative Energy Rate Rider account balance.
- For reference, see Code of Ordinances 13.04.075 and 13.04.080 and 13.04.046.

d. **Stormwater Drainage Fees** are based on a mathematical calculation using impervious cover and applied in compliance with State Law.

e. **Solid Waste and Environmental Services Rates** are based on the wholesale cost of service and retail incentives for conservation, the cost to renovate the transfer station, a return to the General Fund for wear and tear of heavy trucks on City streets, a franchise fee, an administrative allocation for managing the solid waste contract and solid waste departmental programing, and adequate reserves.

f. **Airport Fuel and Lease Rates –** fuel rates are based on the cost of the fuel plus a profit margin to fund operations; lease rates are based on the appraisal of the land or facility plus an escalation for consumer price index and used to fund operations, capital improvement, contingency, and debt service requirements.

8. **Internal Cost Recovery Fees –** Additionally, enterprise activity rates will include transfers to and receive credits from other funds as follows:

a. **General and Administrative Charges** – Administrative costs should be charged to all funds for services of general overhead, such as administration, finance, customer billing, legal and other costs as appropriate. These charges will be determined through an indirect cost allocation following accepted practices and procedures and reviewed annually by the City's external auditors.

b. **Payment for Franchise of Right of Way and Payment in Lieu of Taxes** – The intent of these transfers to the General Fund are to provide a benefit to the citizens for the ownership of the various utility operations.

<u>Water, Wastewater, Irrigation, Solid Waste and Stormwater Drainage</u>

- *In-Lieu-of-Franchise-Fee.* 3% of operating revenues from Charges, Connect Fees, Tap Fees, Penalties and Late Fees.

- *Payment in Lieu of Taxes (PILOT).* The transfer is calculated at 7% of operating revenues from Charges, Connect Fees, Tap Fees, Penalties and Late Fees.

<u>Electric</u>

For customers inside the City, the franchise fee is $0.002947/kWh sold. The payment in lieu of taxes for customers inside the City is 7% of gross revenue of the base monthly charge, and $0.007253/kWh sold. For customers outside the City, there is no franchise fee to the City of Georgetown; however, those customers may be subject to franchise fees in the jurisdiction in which they reside. Outside the City customers are charged a payment in lieu of taxes equal to 7% of gross revenue of the base monthly charge, and $0.0102/kWh sold.

9. Revenue Monitoring – Received revenues will be regularly compared to budgeted revenues and variances will be investigated, and any abnormalities will be included in the quarterly report to the City Council.

10. Other Funding Alternatives

When at all possible, the City will research alternative funding opportunities prior to issuing debt or increasing user-related fees.

a. **Grants** – All grant applications must be approved by the City Council prior to being submitted to a granting agency. Prior to submittal to Council, departments will verify that the benefits of the grant exceed the cost of grant administration and will also provide the required grant forms to Finance for review in accordance with the Grant Acquisition, Management, and Compliance Policy. Finance will review and sign the forms which provides detailed information including, but not limited to, the term of the grant, any matching requirements, the resulting operational requirements once the grant is discontinued, and a budget request detailing the line items to be effected, all of which should be included in the Council agenda item packet requesting approval to apply. The City Council must also authorize acceptance of any grant awards received.

b. **Use of Reserve Funds** – The City may authorize the use of reserve funds to potentially delay or eliminate a proposed bond issue. This may occur due to higher than anticipated fund balances in prior years, thus eliminating or reducing the need for debt proceeds, or postpone a bond issue until market conditions are more beneficial or timing of the related capital improvements does not correspond with the planned bond issue. Reserve funds used in this manner are replenished upon issuance of the proposed debt.

c. **Developer Contributions** – The City will require developers who negatively impact the City's utility capital plans offset those impacts. These policies are further defined within the City's utility line extension policy and other development regulations.

d. **Leases** – The City may authorize the use of lease financing for certain operating equipment when it is determined that the cost benefit of such an arrangement is advantageous to the City.

e. **Impact Fees** – The City will impose impact fees as allowable under state law for transportation, water and wastewater services. These fees will be calculated in accordance with statute and reviewed at least every three years. All fees collected will fund projects identified within the Fee study and as required by state laws.

f. **Donations** - Donations or endowments received by the City will be processed according to the donations policy approved by City Council. Unless authorized stated in the donations policy or other agreement approved by the City Council, if the City receives a donation or endowment exceeding $100,000, a formal process shall be initiated in which City Council will be notified and

provided with all relevant details regarding the source and intent of the funds. City Council shall then deliberate and provide direction on the appropriate use, allocation, or appropriation of these funds, ensuring alignment with intent of the funds, community priorities, legal requirements, and strategic goals. No expenditure of such funds shall occur without Council's express approval.

V. EXPENDITURE MANAGEMENT

A. Appropriations – The point of budget control is at the department level budget for all funds. The *Charter (Section 6.03)* provides that any transfer of appropriation between funds must be approved by the City Council and that the City Manager, without City Council approval, is authorized to transfer appropriations among departments, within the same operational division and fund.

B. Expenditure Monitoring – Expenditures and encumbrances will be regularly compared to budget, variances will be investigated, and any abnormalities will be included in the quarterly report to the City Council. Projected year-end expenditures will be reported in the annual budget.

C. Personnel Costs – Costs related to salaries and benefits are budgeted at 100% total costs, assuming open positions are filled throughout the fiscal year. New positions that are added during the budget process may have staggered hire dates with appropriate costs reflected in the budget.

1. Vacancy Factor – Major Funds with Personnel Budgets will include a vacancy factor of at least 1% of total fund salaries and related benefits (retirement, FICA, Medicare) to offset salary savings within the budget. The vacancy factor will be budgeted as a negative expense within the fund. This factor will be reduced throughout the year as vacant positions are recognized within the department budget.

   Compliance Status – General Fund, Electric Fund, Water Fund and Joint Services Fund FY2027 in compliance.

2. Benefit Payout Reserve – The City will establish a benefit payout reserve equal to 15% of the accrued benefit liability for employees in the General and Joint Services Funds who are currently eligible to retire. Only terminating employee benefit expenses may be paid from this reserve. This reserve shall be funded as an offset to the vacancy factor.

   Compliance Status – Benefit payout reserve FY2027 in compliance.

3. Position Control – The annual budget includes a set number of positions within departments when approved and adopted by City Council. Additional positions cannot be added without approval of the City Council. The City Manager may approve the transfer of authorized positions between departments if funds are available within the department.

   The City Manager may designate a number of placeholder positions in the position control schedule to be available for use throughout the year to respond to service areas with pressure or unusual hiring environment circumstances. The position control schedule is approved by Council as part of the budget adoption process. The position control schedule and the expense budget will be amended by Council to reflect mid-year changes as soon as practical.

4. Use of Excess Salary Savings – Departmental savings generated due to open positions or othersalary line item savings cannot be spent by the department unless previously approved by the City Manager and validated by Finance as excess funds.

D. **Special Purpose Funding** – In order to support community assistance programs, the City designates specific funding for special purposes, including Strategic Partnerships for Community Services, and Public Art. The City reserves the ability to cap this special purpose funding when necessitated by budget contingency or compliance issues, such as revenue shortfalls, or other reasons as determined by City Council.

1. Strategic Partnerships for Community Services – The City of Georgetown values partnerships with organizations that are committed to addressing our communities' greatest public challenges and has identified key partners like the Williamson County Children's Advocacy Center

The City has targeted funding for these partnerships that are determined as a part of the annual budget development process.

Compliance Status – FY2027 in compliance.

D. Public Art Funding – The City may annually allocate up to 15% of Hotel Occupancy Tax funding for Public Art in the Tourism Fund.

Compliance Status – FY2027 in compliance.

Every effort will be made to include public art funding in future City facilities whose primary purpose is for public use. These projects will include a reasonable allowance for public art that fits the scope and purpose of the building so long that it does not negatively impact the project cost beyond the original budget. In the event there is cost savings in the construction of City Facilities, the City Council may consider utilizing that savings on the purchase of public art for the facility.

E. **Purchasing** – The City will maintain and regularly review written Purchasing Policies. All City purchases of goods or services will be made in accordance with the City's Charter, current Purchasing Policy and with State law.

The following table shows a summary of requirements for purchases of goods and services and does not substitute the formal Purchasing Policies.

Dollar Limits:	Procurements:	Requirements:
$3,000 and less	Under the small purchase limit	No competitive bids and City credit cards may be used.
$3,000.01 up to $50,000	Within informal bid limit	No competitive bids; Historically Underutilized Business (HUB) requirements apply in accordance with state law.
$50,000.01 up to $100,000	Within informal bid limit	A minimum of three informal solicitation for bids required unless exempted; Historically Underutilized Business (HUB) requirements apply in accordance with state law.
$100,001 and above	In excess of the informal bid limit	Formal competitive solicitations, which includes public notices, required unless exempted. Advisory board review and recommendation *may* be required. Council approval required.

Common exemptions to the formal competitive solicitation process include the procurement of professional services, the purchase of goods or services from a sole source provider, and purchases for public health emergencies (Texas Local Government Code 252.022).

In addition to the above, all purchases must be approved according to signature authority limits.

F. Contracts, Change Orders and Amendments – Contracts and related change orders and amendments must follow the City's Purchasing Policies, Authority to Contract ordinance (Chapter 4.08 Code of Ordinances), and State Law. Contract term lengths should balance the need for value as well as the ability to respond to changing conditions.

G. Prompt Payment – In accordance with State Law, all invoices approved for payment by the proper City authorities shall be paid within thirty (30) calendar days of receipt of goods or services or invoice date, whichever is later in accordance with State law. The City will take advantage of all purchase discounts, when possible.

H. Risk Management – The City will pursue every opportunity to provide for the Public's and City employees' safety and to manage its risks. The goal shall be to minimize the risk of loss of resources through liability claims with an emphasis on safety programs.

I. Retirement Benefits – Proposals to revise benefits administered and provided by the Texas Municipal Retirement System shall include a written description and a detailed and summary numerical assessments of the changes that would result from the proposed benefit revision.

1. The numerical assessments shall include the following:

   a. The estimated change to the TMRS contribution rate that would result from the proposed change in benefits, expressed as a percentage of employee pay and as an annual dollar amount to the General Fund and to each City fund.

b. The estimated change to the City's unfunded pension liability, expressed as a dollar amount.

c. The estimated change to the City's actuarial funding ratio.

2. The description and numerical assessments must be provided to the City Council at least 72 hours prior to consideration and approval and must be read aloud to the Council prior to Council consideration.

3. The estimated changes to the City's contribution rate and the unfunded pension liability presented pursuant to the section must be based on information provided by the TMRS actuary or by a professional actuary authorized by the TMRS to provide such information.

4. Proposals to revise TMRS benefits must be voted on individually as part of the City Council's legislative agenda.

5. The City will amortize any unfunded actuarial liability (UAAL) over a period not to exceed the amortization period used by the TMRS actuary. The City may amortize its UAAL more quickly by making contributions to TMRS in excess of the rate specified by TMRS.

6. The City may elect to pay a higher contribution rate than required by the TMRS, to reduce the City's unfunded pension liability. Such payment will be approved and authorized by the City Council as part of the City's annual budget process.

J. Retirement Cost-of-Living Adjustment

1. Within 60 days of when the TMRS annual funding update becomes available each year, staff will review and may prepare a summary of costs and options for potential cost-of-living adjustment (COLA) for City of Georgetown retirees.

2. Consistent with state statutes governing the Texas Municipal Retirement System, the City may provide an automatic COLA for members of the TMRS who are retired from the City of Georgetown and receiving a monthly retirement benefit from the TMRS.

3. The City Council may adjust the COLA provided to city retirees based upon the funding level of the City's pension plan, as calculated by the TMRS, and review of a cost/benefit analysis, as follows:

When the funding level of the City's pension plan is	The COLA should be
Less than 70.0%	Zero
70.0% to 79.9%	0.3% of CPI
80.0% to 89.9%	0.5% of CPI
90.0% and greater	0.7% of CPI

4. Adjustments made pursuant to *Subsection J.3.* should reflect the reciprocal effect of the prospective change in the COLA on the funding level of the City's pension plan.

K. Deferred Compensation Benefits – In addition to the retirement benefit administered by the TMRS, the City will sponsor a Deferred Compensation 457 plan and ROTH plan, which are supplementary individual retirement savings plans. The City will encourage employee participation in these plans.

VI. STAFFING AND COMPENSATION

City Council and Management recognize the importance of attracting, hiring, developing, and retaining the best people, and compensating them for the value they create. Our outstanding and innovative City employees work diligently to bring the Vision of Council to life and deliver exceptional services to our customers while exemplifying our Core Values. The following programs are subject to available funding in the annual operating budget.

A. Adequate Staffing – Staffing levels will be adequate for the fiscal functions of the City to operate effectively. Workload allocation alternatives will be explored before adding additional staff.

B. Competitive Compensation – In order to maintain a competitive pay scale, the City has implemented a *Competitive Employee Compensation Maintenance* Program to address competitive market factors and other issues impacting compensation. The program consists of:

1. Annual Pay Plan Review – To ensure the City's pay system is accurate and competitive within the market, the City will review its pay plans annually for any potential market adjustments necessary to maintain the City's competitive pay plans.

2. Pay for Performance – Each year the City will fund performance-based pay adjustments for regular non-Civil Service personnel. This merit-based program aids in retaining quality employees by rewarding their performance. Pay for Performance adjustments are based on the employee's most recently completed performance evaluation.

3. Civil Service Steps – Each year the City will fund anniversary step increases for Civil Service personnel consistent with their respective pay scale design.

C. Self-Insurance Program – The City is committed to providing quality healthcare insurance that offers flexibility in health benefits and options to its employees. In order to provide the most cost-effective solution, the City has determined that establishing a self-funded health insurance plan offers the greatest opportunity to mitigate future cost increases while offering quality health care services to its employees. The City has established a mechanism to manage the accounts and payments associated with this program. Per GASB Statement No. 66, such funding should be accounted for as an Internal Service Fund (ISF).

1. Employee Health Insurance ISF – This fund contains premium contributions from employees and budgeted health insurance contributions included in the City's annual budget process. To maintain stable revenue to this fund, and to clearly set expenditure expectations for departments, any budgeted appropriations for employee health insurance that are unused at the end of each fiscal year may be transferred back to the self-insurance fund after a review of financial metrics regarding historical actual trends, forecasts and reserve levels.

2. Self-Insurance Reserves – Annually through the budget process, staff and the City's Health Benefit Consultant firm will evaluate and recommend to Council the appropriate funding levels for two reserves.

   a. Incurred But Not Reported (IBNR) Reserve: In the event the City stopped self-insuring for health benefits and was required to pay incurred costs, the City will reserve no less than 10 percent and no more than 20% of the annual costs of claims, benefit administration and stop loss coverage.

      Compliance Status – IBNR reserve FY2027 in compliance.

   b. Rate Stabilization Reserve: To alleviate shocks to the City and employees due to sharp increases in health insurance costs, the City will reserve between 10 and 20 percent of annual medical claims, benefit administration and stop loss coverage. Staff and the benefits consultant will consider a 3-year forecast on premiums when determining to utilize the funds or rebuild the reserve.

      Compliance Status – Rate stabilization reserve FY2027 in compliance.

3. Employee Premiums – Annual premiums will be recommended to City Council through a collaborative process between the City's Employee Benefit Committee and external Health Benefits consulting firm using historical data, reserves history and other analytic analysis.

VII. FUND BALANCE POLICIES

The City's Fund Balance is the accumulated difference between assets and liabilities within **governmental funds**, and it allows the City to meet its contractual obligations, fund disaster or emergency costs, provide cash flow for timing purposes and fund non-recurring expenses appropriated by City Council. This policy establishes limitations on the purposes for which Fund Balances can be used in accordance with Governmental Accounting Standards Board (GASB) Statement Number 54.

The City's Fund Balance will report up to five components:

A. Non-spendable Fund Balance – includes inherently non-spendable assets that will never convert to cash, as well as assets that will not convert to cash soon enough to affect the current financial period. Assets included in this category are prepaid items, inventory and non-financial assets held for resale.
B. Restricted Fund Balance – represents the portion of fund balance that is subject to legal restrictions, such as grants or hotel/motel tax and bond proceeds.
C. Committed Fund Balance – describes the portion of fund balance that is constrained by limitations that the City Council has imposed upon itself, and remains binding unless the City Council removes the limitation.
D. Assigned Fund Balance – is that portion of fund balance that reflects the City's *intended* use of the resource and is established in a less formal method by the City for that designated purpose.
E. Unassigned Fund Balance – represents funds that cannot be properly classified in one of the other four categories.

VIII. LONG-TERM LIABILITY RESERVES

The City of Georgetown recognizes certain long-term unfunded commitments and contingencies that will require substantial funding at some point in the future. The City is committed to addressing these commitments in a

fiscally prudent method by acknowledging their future financial impacts and developing strategies and designated reserve funds to mitigate those future impacts.

A. The Chief Financial Officer will maintain a record of unfunded long-term liabilities through the Annual Comprehensive Financial Report and a record of reserve compliance through this fiscal policy document. Council may consider these unfunded commitments as part of the annual budget development process or mid-year budget amendment process.

IX. BUDGET CONTINGENCY PLAN

This policy is designed to establish general guidelines for managing revenue shortfalls resulting from local and national economic downturns that adversely affect the City's revenue streams.

A. Immediate Action – Once a budgetary shortfall is projected, the City Manager will take the necessary actions to offset any revenue shortfall with a reduction in current expenses. The City Manager may:

1. Freeze all new hire and vacant positions except those deemed to be a necessity.
2. Review all planned capital expenditures.
3. Delay all "non-essential" spending or equipment replacement purchases.

The City Manager shall report in a timely manner to the City Council the projected shortfall and the actions taken to resolve it.

B. Further Action – If the actions identified in subsection A are insufficient to offset the projected revenue deficit for the current fiscal year, the City Council may approve the following actions, in the order listed:

1. Apply unspent, unobligated surplus funds from prior fiscal years to fund one-time costs in the current fiscal year budget.
2. Authorize the use of the General Fund Revenue Stability Reserve, contingency reserves, capital reserves or any other reserves appropriate as outlined in the sections XII. CAPITAL MAINTENANCE AND REPLACEMENT and XV. FINANCIAL CONDITIONS, RESERVES, AND STABILITY RATIOS.
3. Direct other reductions in services, including workforce reductions.
4. Authorize a temporary reduction in one or more fund's contingency reserves from 90 days to 75 days.

C. Replenish Fund Balance – Generally, if any existing reserve is used as described above in the budget contingency plan, the reserve should be restored in the next fiscal year. If the restoration within one year is impractical or places an undo strain of City services, staff shall recommend to Council an alternative timeline that is subject to Council approval.

X. CAPITAL IMPROVEMENT PROGRAM (CIP) BUDGET

The City's goal is to maintain City facilities and infrastructure in order to provide excellent services to the customers within the community, meet growth related needs, and comply with all state and federal regulations.

A. Preparation – The City annually updates and adopts a five-year Capital Improvement Program (CIP) schedule as part of the operating budget adoption process. The plan is reviewed and adjusted annually as needed, and year one is adopted as the current year capital budget. The capital budget will include all capital projects, capital resources, and estimated operational impacts.

1. Needed capital improvements are identified through system models, repair and maintenance records and growth demands.

2. A team approach will be used to prioritize CIP projects, whereby City staff from all operational areas provide input and ideas relating to each project and its effect on operations.

3. Citizen involvement and participation will be solicited in formulating the capital budget through master planning processes, board meetings, public hearings and other forums.

4. Capital infrastructure necessary to meet the requirements of the City's Annexation Plan will be identified separately within the CIP plan, so that funding alternatives can be developed if needed.

Prior to Council approval, the following Advisory Boards will review the Capital Projects budget and contracts for expenditures:

Electric Utility Board	Water Utility Board	Parks Advisory Board	Georgetown Transportation Enhancement Corporation (GTEC)
Electric	Water Wastewater	Parks and Recreation	Transportation projects related to economic development

B. Control – All capital project expenditures must be appropriated in the capital budget.

C. Financing Programs – Where applicable, assessments, impact fees, pro rata charges, or other fees should be used to fund capital projects which have a primary benefit to specific identifiable property owners. Debt financing is referenced in *Section XIV. Debt Management* of this document and addresses how capital projects will be funded.

D. Debt will be addressed in Section XIV, but the City strives to balance debt funding with pay as you go funding and will use Council's discretionary funds for projects that qualify.

XI. CAPITAL MAINTENANCE AND REPLACEMENT

The City recognizes that deferred maintenance increases future capital costs. Therefore, a portion of all individual funds with infrastructure should be budgeted each year to maintain the quality within each system.

A. Infrastructure Maintenance — On-going maintenance and major repair costs are included as expense within the departmental operating budgets. These costs are generally considered system repairs and are not capitalized for accounting purposes. They include such items as park and recreation facility repairs, street repair, water line repairs and other general system maintenance.

B. Street Assets and Pavement Condition

The City will continue to hold elections for the Streets Maintenance Sales Tax every four years, as it is the main source of funding for street maintenance activity. The City will utilize the Pavement Condition Index (PCI) and require studies that are operationally logical, timely and feasible to perform adequate maintenance of the assets.

C. Internal Service Funds Capital Maintenance & Replacement – The City currently utilizes internal service funds to maintain and replace existing assets. Assessments are made to other funds for the use of existing equipment and to purchase new equipment. In this way, suitable funds are available for the purchase of operational assets without the issuance of debt.

1. Fleet Maintenance and Replacement – The City has a major investment in its fleet of cars, trucks, tractors, and other equipment. The City will anticipate replacing existing equipment, as necessary and will establish charges that are assigned to the using departments to account for the cost of that replacement. Vehicle maintenance is also allocated in this manner. The targeted asset replacement reserve amount is the average (1/5th) of the next five years on the replacement schedule for cash-funded governmental fund vehicles. Additional available balance above the capital reserve target may be used for one-time expenses, such as capital equipment for the Fleet Shop and costs related to renovating, constructing or expanding the existing Fleet building or a new Fleet related facility.

   Compliance Status – Fleet replacement reserve FY2027 in compliance.

   It is the general policy of the City not to hold back vehicles or equipment from replacement or disposition. Departmental requests to hold back units must be approved by the Fleet Manager and the City Manager.

2. Technology – It is the policy of the City to plan and fund the maintenance and replacement of its computer network and other technology systems. A reserve will be established within the ISF for replacement of major systems and will be funded over time through excess revenues within the Fund. The targeted amount is the average (1/5th) of the next five years on the replacement schedule. While cash funding is preferred, major IT systems and projects may require debt that is amortized over a shorter useful life appropriate for the software or hardware.

   Compliance Status – IT replacement reserve FY2027 in compliance.

3. Facilities Maintenance – The City has established an on-going maintenance program, which includes major repairs, equipment, as well as contracts for maintaining City facilities. The City has anticipated a useful life of such equipment and established a means of charging those costs to the various departments in order to recognize the City's continuing costs of maintaining its facilities. Determination for facility repairs is based on useful life of the various elements of each facility. A

proportional cost for each element is expensed within the budget for capital replacement. The targeted replacement reserve amount is the average (1/5th) of the next five years on the replacement schedule.

Compliance Status – Facilities replacement reserve FY2027 compliance.

D. Departmental Capital Maintenance & Replacement – The City also utilizes department capital maintenance and replacement schedules for specialized assets and equipment necessary to provide services.

1. Parks and Recreation – As part of the City's on-going maintenance program, the City also recognizes the need to regularly maintain and replace playgrounds, equipment and facilities that are part of the City's Parks and Recreation system. Separate replacement and maintenance schedules will be maintained for these items including, but not limited to, playground equipment, buildings, sport courts, trees and grounds, and restroom facilities. The City's goal is to provide level on-going funding to ensure safe, well-maintained facilities for its citizens. The capital equipment replacement schedule will be funded with short-term property-tax backed debt instrument, with term length consistent with useful life of the assets or shorter.

Compliance Status – Parks maintenance replacement FY2027 in compliance.

2. Cemetery Maintenance - The General Fund makes an annual transfer of $75,000 to the cemetery fund to assist with general operations and maintenance activity not covered through cemetery revenues.

3. Public Safety Equipment – As part of the City's on-going maintenance program, the City also recognizes the need to regularly maintain and replace specialized equipment in Police and Fire. Separate replacement and maintenance schedules will be maintained for these items including but not limited to for Fire: SCBA's and other firefighting equipment and protective gear; and for Police: bullet proof vests, armaments and other tactical equipment. The City's goal is to provide level on-going funding to ensure proper protection for employees and residents. The current funding level is an annual appropriation in the General Fund of $80,000 for Fire and $88,000 for Police.

Compliance Status – Public safety equipment replacement FY2027 in compliance.

E. Surplus Property

1. From time to time it is necessary to dispose of certain vehicles or equipment that have been procured with City funds and used in City services.

City staff will maintain reports and records of all surplus property dispositions in accordance with good internal controls.

XII. ACCOUNTING, AUDITING, AND FINANCIAL REPORTING

A. Accounting – The City is solely responsible for the recording and reporting of its financial affairs, both internally and externally. The Chief Financial Officer is responsible for establishing the structure for the City's Chart of Accounts and for assuring that procedures are in place to properly record financial transactions and report the City's financial position.

B. Audit and Finance Sub-Committee – The City may establish a subcommittee consisting of at least 3 City Council members that may meet quarterly to provide additional strategic oversight to the City's Finance operations. The City's Chief Financial Officer will be the liaison for this subcommittee.

C. Audit of Accounts – In accordance with the *Charter*, an independent audit of the City accounts will be performed every year. The auditor is retained by and is accountable directly to the City Council. The auditing firm will serve for up to 5 years, at which time, the City will re-bid these services and change firms if deemed necessary by Audit and Finance Sub-Committee and City Council.

D. External Reporting – Upon completion and acceptance of the annual audit by the City's auditors, the City shall prepare a written Annual Financial Report which shall be presented to the City Council within 180 calendar days of the City's fiscal year end. The report shall be prepared in accordance with Generally Accepted Accounting Principles (GAAP) and shall be presented annually to the Government Finance Officer Association (GFOA) for evaluation and consideration for the Certificate of Achievement in Financial Reporting.

XIII. ASSET MANAGEMENT

A. Cash Management and Investments – The City Council has formally approved a separate Investment Policy for the City of Georgetown that meets the requirements of the Public Funds Investment Act (PFIA), Section 2256 and 2257 of the Texas Local Government Code. This policy is reviewed annually by the City Council and applies to all financial assets held by the City and applies to all entities (component units) included in the City's Annual Financial Report and/or managed by the City. Refer to the separate policy for details regarding:

1. Statement of Cash Management Philosophy
2. Objectives
3. Safekeeping and Custody
4. Standard of Care and Reporting
5. Investment Strategies
6. Authorized Investments and Approved Broker/Dealer List.

B. Fixed Assets – These assets will be reasonably safeguarded and properly accounted for, and prudently insured.

1. Capitalization Criteria – For purposes of budgeting and accounting classification, the following criteria must be met in order to be capitalized:

   a. The asset owned by the City
   b. The expected useful life of the asset must be longer than one year, or extend the life of an identifiable existing asset by more than one year
   c. The original cost of the asset must be at least $5,000
   d. The asset must be tangible, or uniquely intangible like a trademark.

On-going repairs and general maintenance are not capitalized. Public Education and Government (PEG) Funds will capitalize assets in aggregate over $1,000 on an annual basis.

2. New Purchases – All costs associated with bringing the asset into working order will be capitalized as part of the asset cost. This will include startup costs, engineering or consultant type fees as part of the asset cost once the decision or commitment to purchase the asset is made. The cost of land acquired should include all related costs associated with its purchase. Appropriate personnel and overhead costs are capitalized in the Electric fund.

3. Improvements and Replacement – Improvements will be capitalized when they extend the original life of an asset or when they make the asset more valuable than it was originally. The replacement of assets components will normally be expensed unless they are a significant nature and meet all the capitalization criteria.

4. Contributed Capital – Infrastructure assets received from developers or as a result of annexation will be recorded as equity contributions when they are received.

5. Distributions Systems – All costs associated with public domain assets, such as streets and utility distribution systems, will be capitalized in accordance with the capitalization policy. Costs should include engineering, construction and other related costs including right of way acquisition. For the Electric Distribution system, all component parts associated with a capital project shall be accounted for and capitalized in accordance with the Federal Energy Regulatory Commission (FERC) guidelines. These are an exception to the capitalization criteria above.

6. Reporting and Inventory – The Finance Division will maintain the permanent records of the City's fixed assets, including description, cost, department of responsibility, date of acquisition, depreciation and expected useful life. Periodically, random sampling at the department level will be performed to inventory fixed assets assigned to that department. Responsibility for safeguarding the City's fixed assets lies with the department supervisor or manager whose department has been assigned the asset.

XIV. DEBT MANAGEMENT

The City of Georgetown recognizes the primary purpose of capital facilities is to provide services to the community. Using debt financing to meet the capital needs of the community must be evaluated according to efficiency and equity. Efficiency must be evaluated to determine the highest rate of return for a given investment of resources. Equity is resolved by determining who should pay for the cost of capital improvements. In meeting demand for additional services, the City will strive to balance the needs between debt financing and "pay as you go" methods. The City realizes that failure to meet the demands of growth may inhibit its continued economic viability, but also realizes that too much debt may have detrimental effects on the City's long-range financial condition.

The City will issue debt only for the purpose of acquiring or constructing capital assets for the general benefit of its citizens and to allow it to fulfill its various purposes as a city. The City will seek input on major projects funded with debt via bond elections, master planning exercises, board meetings, budget workshops, and other methods as needed.

A Debt Condition Update report will be provided annually.

A. Usage of Debt – Long-term debt financing will be considered for non-continuous capital improvements of which future citizens will benefit. Alternatives for financing will be explored prior to debt issuance and include, but not limited to:

- Grants
- Use of Reserve Funds
- Use of Current Revenues
- Contributions from developers and others
- Leases
- Impact Fees

When the City utilizes long-term financing, it will ensure that the debt is soundly financed by conservatively projecting revenue sources that will be used to pay the debt. It will not finance the improvement over a period greater than the useful life of the improvement and it will determine that the cost benefit of the improvement, including interest costs, is positive to the community.

The City may utilize the benefits of short-term debt financing to purchase operating equipment provided the debt doesn't extend past the useful life of the asset and the potential impact to the tax rate is within policy guidelines.

B. Types of Debt

1. General Obligation Bonds (GO's) – General obligation bonds must be authorized by a vote of the citizens of Georgetown. They are used only to fund capital assets of the general government and are not to be used to fund operating needs of the City. The City's ad valorem taxing authority backs general obligation bonds. Conditions for issuance of general obligation debt include:

   a. When the project will have a significant impact on the tax rate;

   b. When the project may be controversial even though it is routine in nature; or

   c. When the project falls outside the normal bounds of projects the City has typically done.

For debt programs that include multiple projects that will be issued over multiple years at the discretion of the City Council, the City may present an ***Agreement with the Voters*** to manage future property tax rate impacts. The Agreement with the Voters will be included in educational information for all applicable GO Bond elections and will include a maximum **annual** tax rate increase and a cumulative total per bond authorization maximum tax rate increase. The City will include these impacts in its annual Debt Condition report. Council and staff will strive to achieve terms in the Agreement with the Voters, but in order to sell the bonds in the market for the lowest interest rate and achieve cost of borrowing for the citizens, the City will need to retain the legal ability to set a debt tax rate sufficient to repay the bonds in the event conditions in state law, bond market conditions, and taxable assessed values impact the debt tax rate in ways beyond the City's control.

The City Council will carefully manage the ***unissued GO Bond authorization*** through annual review of related projects to ensure full disclosure on future timing of projects included in the bond package. Timing of authorized projects and related bond issuance will be included in the Annual Budget and published on the City's website. Any changes to this schedule require specific Council authorization.

2. Revenue Bonds – Revenue bonds will be issued to provide for the capital needs of any activities where the capital requirements are necessary for the continuation or expansion of a service. The improved activity shall produce a revenue stream to fund the debt service requirements of the necessary improvement to provide service expansion. The average life of the obligation should not exceed the useful life of the asset(s) to be funded by the bond issue, and will generally be limited to no more than twenty (20) years. An exception can be made for plant expansions or related system expansions whose useful life is in excess of 30 years. A cost benefit analysis will be done to fully disclose the impacts of extending debt beyond 20 years.

3. Certificates of Obligation, Contract Obligations (CO's) – Certificates of obligation or contract obligations may be used to fund capital requirements that are not otherwise funded by general obligation or revenue bonds, as allowed by state law. Debt service for CO's may be either from general revenues (tax-supported) or supported by a specific revenue stream(s) or a combination of both. Typically, the City may issue CO's when the following conditions are met:

   a. When the proposed debt will have minimal impact on future effective property tax rates;
   b. When the projects to be funded are within the normal bounds of City capital requirements, such as for roads, parks, various infrastructure and City facilities and equipment; and

c. When the average life of the obligation does not exceed the useful life of the asset(s) to be funded by the issue; and in cases of an emergency when funds must be procured sooner than the bi-annual timing of the bond election.

Certificates of obligation will be the least preferred method of financing and will be used with prudent care and judgment by the City Council during the budget development process.

4. Self-supporting Certificates of Obligation Debt – Refers to certificates of obligation issued for a specific purpose and repaid through dedicated revenues other than ad valorem taxes. The annual debt requirements are not included in the property tax calculation. Both the Airport and Stormwater Drainage funds will issue this type of debt. In addition, the Electric and Water Services Funds can utilize this method of funding non-system capital assets. The City also issues debt on behalf of the Georgetown Transportation Enhancement Corporation (GTEC) and the Georgetown Economic Development Corporation (GEDCO) whom then pledge 4A and 4B sales tax revenue for the repayment of that debt. Tax Increment Reinvestment Zones also may issue self-supporting debt.

5. Internal borrowing between City Funds – The City Council can authorize use of existing long-term reserves as formal loans between funds. The Council will consider the following circumstances:
    1. The emergency or other circumstances and why an internal loan is the best viable option;
    2. The dollar amount of the loan will be within the core balance reserves of the lending fund and will otherwise not be restricted by local or state regulation;
    3. The borrowing fund will repay the loan at a rate consistent with current market conditions. The loan will be considered an investment of working capital reserves by the lending fund. The interest rate will be comparable to prevailing investment rates for public funds at the time the loan is made; and a fixed, variable or other rate structure will be defined at the time the loan is approved;
    4. The maximum maturity will be three (3) years.
    5. A reimbursement resolution may be used to reimburse a short-term loan (up to 1 year maturity) with long-term debt proceeds;
    6. Formal loans will be appropriately recorded and reported.

6. Refundings – The City Council may refinance debt to achieve interest cost savings as market conditions change, or to remove restrictive covenants, or to further other City goals as expressed by Council. The City's Financial Advisor will prepare refunding analysis for consideration and demonstrate that the savings of the refinancing are greater than the issuance costs to refinance, with a target minimum net present value savings of 3-5%.

7. Other Short-term Borrowing – The City may authorize the issuance of Public Property Finance Contractual Obligations (PPFCO) which is short-term obligations for the acquisition of personal public property, such as equipment. PPFCOs are payable from either ad valorem taxes or another dedicated revenue stream. Each issuance will be assessed to ensure cost effectiveness and the repayment schedule will not exceed the useful life of the asset. Multiple equipment acquisitions can be grouped in a single PPFCO issue in order to develop economies of scale.

   In FY2021, the City issued a $48 million PPFCO for the energy costs of Winter Storm Uri. The Council approved a 9.5 year term with a 5 year call option. Because energy costs are an ongoing operating expense, it is the intent of the City to review all options to pay off this debt issue as soon as possible, balanced against rate competitiveness, Electric fund liquidity, and other practical factors.

The City may authorize the issuance of Limited Tax Notes for tax-supported obligations whose issuance timeframe occurs outside of the City's normal bond issuance schedule or for other emergency needs. The Limited Tax Notes must have a maximum maturity of seven years. They may be sold either as public, rated offerings in a competitive or negotiated sale, or they may be privately placed depending on the financing goals of the City and market conditions at the time of sale.
The City may authorize a Note Purchase Agreement for the purposes of establishing a Letter of Credit as collateral to participate in the Electric Reliability Council of Texas (ERCOT) market. Notes would only be delivered under the agreement in the event ERCOT were to draw on the Letter of Credit. Any notes so delivered would be payable from utility revenues and would come due in 90 days after their delivery date.

C. Method of Sale – The City will use a competitive bidding process in the sale of bonds unless conditions in the bond market or the nature of the issue warrant a negotiated bid, private placement or other method. In such situations, the City will publicly present the reasons for the other method. The City will rely on the recommendation of the financial advisor in the selection of the underwriter or direct purchaser. The financial advisor must meet all licensing requirements and comply with all Municipal Securities Rulemaking Board (MSRB) regulations. The City's financial advisor will not act as the underwriter on any City bond issue.

D. Disclosure – Full disclosure of operating costs along with capital costs will be made to the bond rating agencies and other users of financial information. The City staff, with assistance of the financial advisor and bond counsel, will prepare the necessary materials for presentation to the rating agencies and will aid in the production of the Preliminary Official Statements. The City will take responsibility for the accuracy of all financial information released.

E. Federal Requirements – The City will maintain written procedures to follow post issuance compliance rules, arbitrage rebate and other Federal requirements.

1. Post issuance tax compliance rules will include records retention, arbitrage rebate, use of proceeds, and

2. Continuing disclosure requirements under SEC Rule 15c2-12, MSRB standards, or as may be required by bond covenants or related agreements.

F. Debt Structuring – The City prefers to issue bonds with a term of twenty (20) years or less, not to exceed the useful life of the asset acquired. The structure should approximate level debt service unless operational matters dictate otherwise. Market factors, such as the effects of tax-exempt designations, the cost of early redemption options and the like, will be given consideration during the structuring of long term debt instruments. Exceptions to the 20 year term include debt issues for major system expansions, such as water, sewer or electric plants, in which case the City may issue debt greater than 20 years since the useful life of the asset exceeds 30 years. A cost benefit analysis indicating the impacts of extending debt beyond 20 years will be completed.

Fixed interest rate basis will be preferred because it aids in predictable budget and multi-year forecasting for the issuing funds. Variable rate debt can sometimes allow early repayment with no penalty. Variable rate debt may be considered by the Council as a tool to provide flexibility in setting the tax rate and determine use of one-time available fund balances. The City's Financial Advisor will provide an analysis of the benefits of a variable rate structure versus interest rate risk, remarketing risk, and liquidity risk. Because variable rate debt introduces risk and administrative burden on staff and advisors, the amount of allowed variable rate

debt will be limited to no more than ten percent (10%) of the City's outstanding debt principal per system (tax-supported, utility supported).

G. Utility and Self-Supporting Debt Coverage Ratio – Refers to the number of times all utility supported debt service requirements or payments would be covered by the current operating revenues net of on-going operating expenses of the City's combined utilities (Electric, Water, and Wastewater).

The City will maintain a minimum debt service coverage ratio of 1.5 times for the utilities as a whole. The bond ordinances allow the City to forego a debt reserve fund for its utility debt if the coverage is maintained at 1.35 times or better. A coverage ratio of 1.0 times will also be required for all funds issuing self-supporting debt (Airport, Stormwater, Solid Waste, GTEC, GEDCO, PID and TIRZ).

Compliance Status – Debt coverage ratio FY2027 in compliance.

H. Bond Reimbursement Resolutions – The City may utilize bond reimbursements as a tool to manage its debt issues, due to arbitrage requirements and project timing. In so doing, the City uses its capital reserve cash to delay bond issues until such time when issuance is favorable and beneficial to the City.

The City Council may authorize a bond reimbursement resolution for General Capital projects that have a direct impact on the City's ad valorem tax rate when the bonds will be issued within the term of the existing City Council. In the event of unexpected circumstances that delay the timing of projects, or market conditions that prohibit financially sound debt issuance, the approved project can be postponed and considered by a future council until circumstantial issues can be resolved.

The City Council may also authorize revenue bond reimbursements for approved utility and other self-supporting capital projects within legislative limits. Currently revenue bonds must be issued within 18 months after an eligible bond funded project is begun.

The total outstanding bond reimbursements may not exceed the total amount of the City's reserve funds.

XV. FINANCIAL CONDITIONS, RESERVES, AND STABILITY RATIOS

The City of Georgetown will maintain budgeted minimum reserves in the ending working capital/fund balances to provide a secure, healthy financial base for the City in the event of a natural disaster or other emergency, allow stability of City operations should revenues fall short of budgeted projections and provide available resources to implement budgeted expenditures without regard to actual timing of cash flows into the City. Generally, if any existing reserve is used to cover expenses as described, the reserve should be restored in the next fiscal year. If the restoration within one year is impractical or places and undo strain of City services, staff shall recommend to Council an alternative timeline that is subject to Council approval.

A. Operational Coverage – The City's goal is to maintain operations coverage of 1.0 (one), such that operating revenues will at least equal or exceed current operating expenditures. Deferrals, short-term loans, or one-time sources will be avoided as budget balancing techniques. Reserves will be used only for emergencies or non-recurring expenditures, except when balances can be reduced because their levels exceed guideline minimums as stated below.

B. Reserves

1. Citywide Operating Reserve – The City will maintain reserves at a minimum of seventy-five (75) days (20.83%) of net budgeted citywide operating expenditures. Net budgeted operating expenditure is defined as total budgeted expenditures less interfund transfers and charges, capital improvements, direct cost for purchased power, debt service, non-operating special revenue funds and payments to third party grant agents. The amount of these funds are allocated within the following operating funds and using the following guidelines to maintain the fund balance, working capital and retained earnings (reserves) of the various operating funds at levels sufficient to protect the City's creditworthiness, as well as, its financial position from unforeseeable emergencies. For asset replacement reserves, see *Section XI. Capital Maintenance and Replacement.*

   Compliance Status – 75 day citywide reserves FY2027 in compliance.

2. General Fund – General Fund reserves will be assigned on the balance sheet. Reserves are allocated as follows:

   a. Contingency Reserve – will equal ninety (90) days, or 25%, of current year budgeted operating expenditures designated for emergency use only.

   Compliance Status – General Fund 90 day Reserve FY2027 in compliance.

   b. Revenue Stability Reserve – will equal up to 10% of current year budgeted operating expenditures. The reserve will be designated to temporarily offset a decline in any General Fund revenue source during the current fiscal year or in planning the future budget year. The reserve may be used when growth in any General Fund revenue source from one fiscal year to the next is below projections. The reserve will be available to support only existing programs approved in a prior fiscal year.

   Compliance Status – General Fund Stability Reserve FY2027 at 8%.

   c. Master Development Fee Reserve – The City collects Master Development Fees as one-time payment for the impact on City services from a large set of residential units in the City's extra-territorial jurisdiction. The City will reserve these fees below line in the General Fund for one-time expenses such as special projects related to development. Eligible expenses include, but are not limited to: planning studies, construction and maintenance of streets, sidewalks, trails, and parks.

3. Tourism Fund – A minimum ninety (90) days of operating expenditures will be reserved within the fund balance. These funds are designated to be used to offset any potential revenue shortfall that occurs during the fiscal year.

   Compliance Status – Tourism Fund Operating Reserve FY2027 in compliance.

   Excess revenues or expenditure savings may be reserved for future capital infrastructure, capital equipment, one-time programs and studies, or other appropriate one-time uses eligible for hotel occupancy tax expense.

4. Joint Services Fund – A minimum ninety (90) days of operating expenses will be reserved for unexpected delays in revenue or emergency expenses.

Compliance Status – Joint Services Fund Reserve FY2027 in compliance.

5. Fleet Fund – A minimum ninety (90) days of operating expenses will be reserved for unexpected delays in revenue or emergency expenses.

   Compliance Status – Fleet Fund Reserve FY2027 in compliance.

6. Facilities Fund - A minimum ninety (90) days of operating expenses will be reserved for unexpected delays in revenue or emergency expenses.

   Compliance Status – Facilities Fund Reserve FY2027 in compliance.

7. Information Technology Fund - A minimum ninety (90) days of operating expenses will be reserved for unexpected delays in revenue or emergency expenses.

   Compliance Status – IT Fund Reserve FY2027 in compliance.

8. Water Services Fund – The Water Fund will maintain the following reserves and assign them on the balance sheet. These reserves are designated to be used to offset potential revenue shortfalls or fund unexpected or emergency expenses that occur during the fiscal year.

   a. Operations Contingency Reserve – A minimum ninety (90) days or 25% of operating expenses, including wholesale water contracts and transfers out, designated for unexpected or emergency use during the fiscal year. The targeted reserve amount is 120 days, and the maximum amount is 365 days.

   Compliance Status – Operating Water Fund Reserve FY2027 in compliance.

   b. Non-Operating Contingency Reserve – to maintain continuity of debt payments, capital projects and to begin recovering from a natural disaster during the lag time of revenue recovery. This reserve will be a minimum of 50% of the annual debt service in each fiscal year.

   Compliance Status – Non-operating Water Fund Reserve FY2027 in compliance.

   c. Impact Fee Reserve – Impact fees are restricted revenues that may be used for eligible capital project and debt payment expenditures. The City conservatively plans for the use of impact fees by reserving all impact fees received in the current budget year, reconciling the impact fee "child" fund after the annual audit is complete, and appropriating received impact fees towards projects or debt service in future fiscal years.

9. Stormwater Drainage Fund – The Stormwater Fund will maintain the following reserves and assign them on the balance sheet:

   a. A minimum ninety (90) days or 25% of operating expenses, will be reserved in fund balance. These funds are designated to be used to offset any potential revenue shortfall that occurs during the fiscal year.

   Compliance Status – Contingency Reserve FY2027 in compliance.

b. A debt service reserve equal to 1x the upcoming debt service payment for existing debt (example - FY2020 reserve = FY2021 debt payment before new sale).

Compliance Status – Debt Service Reserve FY2027 in compliance.

10. Environmental Services Fund – The Environmental Services Fund will maintain the following reserves and assign them on the balance sheet:

c. A minimum ninety (90) days or 25% of operating expenses, will be reserved in fund balance. These funds are designated to be used to offset any potential revenue shortfall that occurs during the fiscal year.

Compliance Status – Contingency Reserve FY2027 in partial compliance. It will take several years to build up this reserve through cost of service rate increases.

d. A debt service reserve equal to 1x the upcoming debt service payment for existing debt (example - FY2020 reserve = FY2021 debt payment before new sale).

Compliance Status – Debt Service Reserve FY2027 in compliance.

11. Electric Fund – The Electric Fund will maintain the following reserves and assign them on the balance sheet:

a. Operations Contingency Reserve – A minimum ninety (90) days or 25% of operating expenses, designated for unexpected or emergency use during the fiscal year. This reserve excludes purchased power expenses. This reserve includes labor expenses for capital projects. The targeted reserve amount is 120 days, and the maximum amount is 365 days.

Compliance Status – Operating Contingency reserve FY2027 in compliance.

b. Rate Stabilization Reserve – An amount to adequately mitigate the financial risks posed by the wholesale power market, with a target of 4 months (120 days) of the average monthly purchased power costs for the budgeted year. The purpose of this reserve is to protect against energy market exposure and volatility, and to maintain wholesale power contracts and stability until expenses are recovered through revenue generated in the Power Cost Adjustment Factor.

Compliance Status – Rate stabilization reserve FY2027 in compliance.

c. Non-Operating Contingency Reserve – to maintain continuity and begin recovery process from a natural disaster during the lag time of revenue recovery:
   - 1% of historical rate base (total capital assets net of accumulated depreciation)
   - A minimum of 25% of the current year CIP for Ordinary Replacement
   - At least 50% of annual debt service payment

Compliance Status – Non-operating reserve FY2027 in compliance.

d. Uses of Unanticipated and Unappropriated Electric Fund Balances – In the event that fund balance in the Electric Fund exceeds recommended minimum cash as enumerated in the above reserves, the funds may be used for the following purposes as approved by the City Council:
   - Reduce the Power Cost Adjustment

- Reduce outstanding utility debt
- Fund capital projects
- Fund other one-time projects or equipment
- Increase reserves

12. Airport Fund – The Airport Fund will maintain the following reserves and assign them on the balance sheet:
    a. A contingency reserve of ninety (90) days of operating expenses will be maintained in the fund for unforeseen or emergency expenditures. The reserve will represent all operating expenses minus fuel costs and any transfers.

    Compliance Status – Contingency Reserve FY2027 in compliance.

    b. A debt service reserve equal to 1x the upcoming debt service payment for existing debt (example - FY2020 reserve = FY2021 debt payment before new sale).

    Compliance Status – Debt Service Reserve FY2027 in compliance.

13. GEDCO Fund –
    a. A contingency reserve equal to 25% of budgeted sales tax revenue.
    Compliance Status – Contingency Reserve FY2027 in compliance.

    b. A debt service reserve equal to 1x the upcoming debt service payment for existing debt (example - FY2020 reserve = FY2021 debt payment before new sale).

    Compliance Status – Debt Service Reserve FY2027 in compliance.

14. GTEC Fund –
    a. A contingency reserve equal to 25% of budgeted sales tax revenue.

    Compliance Status – Contingency Reserve FY2027 in compliance.

    b. A debt service reserve equal to 1x the upcoming debt service payment for existing debt (example - FY2020 reserve = FY2021 debt payment before new sale).

    Compliance Status – Debt Service Reserve FY2027 in compliance.

15. Rivery TIRZ Fund – A debt service reserve equal to 1x the upcoming debt service payment for existing debt (example - FY2020 reserve = FY2021 debt payment before new sale).

    Compliance Status – Debt Service Reserve FY2027 in compliance.

16. Downtown TIRZ Fund – A debt service reserve equal to 1x the upcoming debt service payment for existing debt (example - FY2020 reserve = FY2021 debt payment before new sale).

    Compliance Status – Debt Service Reserve FY2027 in compliance.

17. General Debt Service Fund – A reserve equal to 30 days of the prior annual debt service requirement, in accordance with IRS guidelines.

    Compliance Status – Debt Fund Reserve FY2027 in compliance.

For all other funds, the fund balance is an indication of the balance of each particular fund at a specific time. The ultimate goal of each such fund is to have expended the fund balance at the conclusion of the activity for which the fund was established.

Reserve requirements will be calculated as part of the annual budget process and any additional required funds to be added to the reserve balances will be appropriated within the budget.

Funds in excess of the minimum reserves within each fund may be expended for City purposes at the will of the City Council once it has been determined that use of the excess will not endanger reserve requirements in future years. This action requires an amendment to the City's Annual Budget and is outlined in *Section III. J. Use of Unanticipated and Unappropriated General Fund Balances.*

B. Liabilities and Receivables – Procedures will be followed to maximize discounts and reduce penalties offered by creditors. Current liabilities will be paid within 30 days of receiving the invoice. Accounts Receivable procedures will target collection for a maximum of 60 days of service. The Chief Financial Officer is authorized to write-off non-collectible, non-utility accounts that are delinquent for more than 180 days, and utility accounts delinquent more than 180 days, provided proper delinquency procedures have been followed, and include this information in the Annual Financial Report to the City Council.

C. Capital Project Funds – Every effort will be made for all monies within the Capital Project Funds to be expended in a timely manner, preferably within thirty-six (36) months of receipt. Due to the long timeline of some projects, unused cash or bond proceeds will be reserved on the fund schedule and appropriated when needed. The fund balance will be invested, and income generated will offset increases in construction costs or other costs associated with the project. Capital project funds are intended to be expended totally, with any unexpected excess to be approved for use according to the bond covenant and opinion of bond counsel.

D. Investment of Reserve Funds – The reserve funds will be invested in accordance with the City's investment policy.

E. Ratios Analysis – Ratios and significant balances will be incorporated into the annual bond rating book for the Electric and Water Funds. The following ratios/balances will be used as key financial indicators:

- Revenue Bond Covenant Debt Coverage Ratio
- Rating Agency Days Cash on Hand
- Rating Agency Fixed Cost Coverage Ratio / Coverage of Full Obligations
- Rating Agency Leverage Ratio

The City will develop minimum/maximum levels for the above ratios/balances through analyzing of City historical trends and future projections as part of the cost of service and five-year forecast modeling process.

XVI. RISK MANAGEMENT AND INTERNAL CONTROLS

A. Written Procedures – Wherever possible, written procedures will be established and maintained by the Chief Financial Officer for all functions involving cash handling and/or accounting throughout the City. These procedures will embrace the general concepts of fiscal responsibility set forth in this policy statement.

B. Internal Audit Program – An internal audit program will be maintained by the Chief Financial Officer to ensure compliance with City policies and procedures and to prevent the potential for fraud.

1. Departmental Audits – departmental processes will be reviewed to ensure dual control of City assets and identify the opportunity for fraud potential, as well as, to ensure that departmental internal procedures are documented and updated as needed.

2. Employees or Transaction Review – Programs to be audited include Petty Cash, City Credit Card accounts, time entry, and travel. All discrepancies will be identified, and the employee's Director will be notified. The City Manager will also be notified depending on the seriousness of the infraction.

3. Fraud Awareness and Reporting – The City will maintain its personnel policy regarding fraud. They will maintain an arrangement with a third party for anonymous reporting of fraud, waste, or abuse of City resources. The City will provide training to all City employees on recognizing and reporting fraud.

4. The Chief Financial Officer and City Manager will present an annual audit plan to the Audit and Finance Sub-Committee. Results of all internal audits will be provided to the Sub-Committee and City Council at year-end.

C. Directors Responsibility – Each Director is responsible for ensuring that good internal controls are followed throughout their department, that all Finance Division directives are implemented and that all independent auditor internal control recommendations are addressed. Departments will develop and periodically update written internal control procedures.

D. Cybersecurity – The Information Technology department shall regularly assess new forms of security risk and maintain multiple layers of protections and controls to thwart cyber attacks. The City will provide regular cybersecurity awareness training for all employees.

E. Electric Utility Risk – Chapter 13.38 of the City's Code of Ordinances establishes Council's authority to oversee all risk of the Electric utility including Congestion Revenue Rights auctions, wholesale power agreements, futures contracts, and other transactions that expose the City to significant risk.

Fiscal and Budgetary Policy

Adopted: September 89, 20265

I. PURPOSE

The City of Georgetown is committed to financial management through integrity, prudent stewardship, planning, accountability, transparency and communication. The broad purpose of the Fiscal and Budgetary Policies is to enable the City and its related component units, including the Georgetown Transportation Enhancement Corporation (GTEC) and the Georgetown Economic Development Corporation (GEDCO), to achieve and maintain a long-term stable and positive financial condition, and provide guidelines for the day-to-day planning and operations of the City's financial affairs.

Policy scope generally spans areas of accounting, operational and capital budgeting, revenue and expenditure management, financial reporting, internal controls, investment and asset management, debt management and forecasting. This is done in order to:

A. Demonstrate to the residents of Georgetown, the investment community, and the bond rating agencies that the City is committed to a strong fiscal operation;

B. Provide precedents for future policy-makers and financial managers on common financial goals and strategies;

C. Fairly present and fully disclose the financial position of the City in conformity to generally accepted accounting principles (GAAP); and

D. Demonstrate compliance with finance-related legal and contractual issues in accordance with the Texas Local Government Code and other legal mandates.

These policies will be reviewed and updated annually as part of the budget preparation process.

II. FUND STRUCTURE AND BASIS OF BUDGETING

The budgeted funds for the City of Georgetown include:

Governmental Funds:

General Fund which accounts for all financial resources except those required to be accounted for in another fund, and include basic governmental services, such as Street Maintenance, Planning and Development, Police, Fire, and Parks.

Special Revenue Funds (SRF) account for specific revenues that are legally restricted for specified purposes. Examples include Tourism, Parkland Dedication, Library Donations, and Street Maintenance Sales Tax.

Debt Service Fund is used to account for the payment of general long-term debt principal and interest.

Capital Project Funds are used to account for the acquisition or construction of major capital facilities other than those financed by enterprise activities.

Proprietary Funds: ***Internal Service Funds*** account for goods or services provided by one internal department to another. The City uses this system to recognize cost for fleet replacement and maintenance, facility maintenance, computer replacement and maintenance and employee health insurance costs.

Enterprise Funds include the City's business like activities: electric, water and wastewater, drainage, solid waste and the airport.

Basis of Accounting and Basis of Budgeting

The City accounts and budgets for all **Governmental Funds** using the *modified accrual basis of accounting*. This basis means that revenue is recognized in the accounting period in which it becomes available and measurable, while expenditures are recognized in the accounting period in which the liabilities are incurred. Because the appropriated budget is used as the basis for control and comparison of budgeted and actual amounts, the basis for preparing the budget is the same as the basis of accounting. Exceptions to the modified accrual basis of accounting include:

- Grants, which are considered revenue when awarded, not received
- Principal and interest on long-term debt, which are recognized when paid.

Proprietary Funds are accounted and budgeted using the full-accrual basis of accounting. Under this method, revenues are recognized when they are earned and measurable, while expenses are recognized when they are incurred regardless of timing or related cash flows. The basis for preparing the budget is the same as the basis of accounting except for principal payments on long-term debt and capital outlay which are treated as budgeted expenses. Exceptions include:

- Depreciation which is not budgeted
- Non-budgeted accruals such as compensated absences.

III. OPERATING BUDGET

Budgeting is an essential element of the financial planning, control and evaluation process of municipal government. The operating budget is the City's annual financial operating plan. The annual budget includes all of the operating departments of the General Fund, proprietary funds, debt service funds, special revenue funds, and capital improvement funds of the City.

A. Form of Government – The *Charter (Section 1.03)* established a Council-Manager Government wherein the City vests power in the City Council to "enact legislation, adopt budgets, determine policies, and appoint the City Manager who shall execute the laws and administer the government of the City."

B. Comprehensive Plan – The *Charter (Section 1.08)* requires that the City Council "establish comprehensive planning as a continuous and ongoing governmental function in order to promote and strengthen the existing role, processes and powers of the City of Georgetown." The current comprehensive plan is the 2030 Plan adopted in 2006 and updated in 2020.

C. Preparation – The *Charter (Section 6.02)* requires "a proposed budget prepared by the City Manager and submitted to the City Council at least thirty days prior to the end of the fiscal year. The budget shall be adopted not later than the twenty-seventh day of the last month of the fiscal year. No budget will be adopted or appropriations made unless the total estimated revenues, income and funds available shall be equal to or in excess of such budget or appropriations, except otherwise provided."

1. Proposed Budget – A proposed budget shall be prepared by the City Manager with participation of all of the City's Directors within the provision of the *Charter* and the 2030 Plan.

   a. The budget shall include four basic segments for review and evaluation:

      - Revenue
      - Personnel Costs
      - Operations and Maintenance Costs
      - Capital and other non-project Costs

   b. The budget review process will include City Council participation in the development of each segment and allow for resident participation in the process, and will allow for sufficient time to address policy and fiscal issues by the City Council.

   c. A copy of the proposed and approved budgets will be filed with the City Secretary when it is submitted to the City Council and will be available on the City's website.

2. Adoption – Upon finalization of the budget appropriations, the City Council will hold a public hearing, and subsequently adopt by Ordinance the final budget as amended. The budget will be effective for the fiscal year beginning October 1st.

   The Annual Budget document will be submitted annually to the Government Finance Officers Association (GFOA) for evaluation and consideration for the Distinguished Budget Presentation Award.

D. Balanced Budget – The goal of the City is to adopt and maintain a balanced operating budget using sustainable funding sources that are expected to continue to be available in subsequent fiscal years. Excess balances in operating funds from previous fiscal years shall remain in the fund in which they were appropriated until either such excess balances are proposed and adopted pursuant to *Section III. C. Preparation* of this policy; until they are used to reduce outstanding debt obligations of the City; or both.

The *Charter (Section 6.04)* requires that an operating deficit created in any fiscal year shall be paid off and discharged during the following year. In practice, deficit has been interpreted to mean City funds as a whole. The City Council may choose from time to time to allow individual funds to have a negative balance as long as Operating Reserve requirements for the City as a whole are maintained.

E. Planning – The budget process will be coordinated so that major policy issues are identified prior to the budget approval date. This will allow City Council adequate time for consideration of appropriate decisions and analysis of financial impacts.

F. Reporting – Summary financial reports will be presented to the City Council quarterly. These reports will be in a format appropriate to enable the City Council to understand the overall budget and financial status.

G. Control and Accountability – Each Director, appointed by the City Manager, will be responsible for the administration of his/her departmental budget. This includes accomplishing the Goals and Objectives adopted as part of the budget and monitoring each department budget for revenue collections and compliance with spending limitations. Directors may transfer funds up to $25,000 within the operations and maintenance or capital line items within a departmental budget category with approval from Finance. Cost Center Managers may transfer funds up to $5,000 within the operations and maintenance or capital line items within a cost center with approval from Finance. All transfers from or to the Personnel line items require approval of the Chief Financial Officer and City Manager. All other transfers of appropriation or budget amendments require either City Council or City Manager approval as outlined in *Section III.G Budget Amendments* and *Section V.C.4 Use of Excess Salary Savings*.

H. Budget Amendments – The *Charter (Section 6.04)* and the Local Government Code 102.009 and 102.010 provide a method to amend the budget for emergency appropriations and municipal purposes. The City Council may authorize, with a majority plus one vote, an amendment to the original budget. This may be done in cases of grave public necessity, or to meet an unusual and unforeseen condition that was not known at the time the budget was adopted. The following criteria will be used in evaluation of budget amendments:

- Is the request necessary?
- Why was the item not budgeted in the normal budget process?
- Why can't a transfer be done within the Division to remedy the condition?

The Chief Financial Officer must certify availability of revenues or funding sources prior to adoption.

If needed, the City will amend the budget at year end for increased revenue and for expenditures that exceeded budgeted amounts. The City may also amend the budget for any capital project timing adjustments from prior year, as well as any other known adjustments needed and approved at that time.

I. Contingency Appropriations – The budget may include contingency appropriations within designated operating department budgets. These funds are used to offset expenditures for unexpected maintenance or other unanticipated expenses that might occur during the year. Currently, the City maintains contingency appropriations for items such as insurance deductibles, unexpected legal expenses and equipment repairs.

The General Fund, General Government Contracts Cost Center, contains a $300,000 appropriation for emergency circumstances. The purpose of this contingency is for use during locally declared disasters as a short-term temporary measure to fund emergency supplies or services until a long-term solution is developed. Since these funds are appropriated, the Council is authorizing the City Manager or Acting City Manager, in partnership with the Finance Division, to approve use of these funds. Whenever possible, the Mayor will be consulted prior to use. Council will be informed of the purpose and circumstances of use within 48 hours. The public will be informed of purpose and use as soon as practically possible. When these funds are used, they should be restored as soon as practically possible from grant reimbursements, additional revenues, one-time expense savings or other appropriate sources.

J. Use of Unanticipated and Unappropriated General Fund Balances – Within 90 days after fiscal year end, staff will report the projected General Fund balance to Council. In the event that unexpected, unbudgeted amounts are determined to be available in the General Fund after year end close, these funds may be used for any of the following one-time purposes that mitigate increases in property taxes, as approved by the City Council:

1. to fund capital projects;

2. to fund equipment purchases in lieu of issuing debt;

3. to reduce outstanding City debt, including bonded indebtedness and unfunded pension liabilities;

4. to fund contingent liabilities such as the benefit payout reserve, and similar obligations of the City;

5. to hold those funds in reserves for future commitments or contingencies that may be pending, and/or;

6. to fund one-time start-up programs or one-time studies.

IV. REVENUE MANAGEMENT

A. Characteristics – The City will strive for the following optimum characteristics in its revenue system:

1. Simplicity – The City, where possible and without sacrificing accuracy, will strive to keep the revenue system simple in order to reduce compliance costs for the taxpayer or service recipient.

2. Certainty – A knowledge and understanding of revenue sources increases the reliability of the revenue system. The City will understand its revenue sources and enact consistent collection policies to provide assurances that the revenue base will materialize according to budget.

3. Equity – The City shall make every effort to maintain equity in its revenue system; i.e., the City should seek to minimize or eliminate all forms of subsidization between entities, funds, services, utilities, and customer classes, and ensure an on-going return on investment for the City.

   a. The City will make every effort to recognize the benefit that City tax payers contribute to City programs and services.
   b. The Parks and Recreation Department maintains a separate policy on cost recovery goals. This policy will be regularly reviewed and approved by the council.

4. Revenue Adequacy – The City should require there be a balance in the revenue system; i.e., the revenue base will have the characteristics of fairness and neutrality as it applies to cost of service, willingness to pay, and ability to pay.

5. Realistic and Conservative Estimates – Revenues will be estimated realistically, and conservatively, taking into account the volatile nature of various revenue streams.

6. Administration – The benefits of a revenue source should exceed the cost of levying and collecting that revenue.

7. Diversification and Stability – A diversified revenue system with a stable source of income shall be maintained. This will help avoid instabilities in revenue sources due to factors such as fluctuations in the economy and variations in the weather.

B. Other Considerations – The following considerations and issues will guide the City in its revenue policies concerning specific sources of funds:

1. Cost/Benefit of Incentives for Economic Development – The City will use due caution in the analysis of any incentives that are used to encourage development. A cost/benefit (fiscal impact) analysis will be performed as part of the evaluation.

2. Non-Recurring Revenues – One-time or non-recurring revenues should not be used to finance current ongoing operations.

3. Sustainable Revenues – Sustainable means revenue that is consistently available year after year, and includes revenues realized subsequent to adopted projections.

4. Property Tax Revenues – Annually, the City will forecast property tax revenue as part of the budget process. Certified Assessed Value Reports from the Williamson Central Appraisal District are used to forecast property tax. The City will comply with State law regarding publication notices and Truth in Taxation requirements.

5. Interest Income – Interest earned from investments will be distributed to the funds in accordance with the average daily cash balance of the fund from which the monies were provided to be invested.

6. User-Based Fees and Service Charges – For services associated with a user fee or charge, the direct or indirect costs of that service will be offset by a fee where possible. The City will review fees and charges no less than once every five years on a rotating schedule to ensure that fees provide adequate coverage for the cost of services. The City Council will determine how much of the cost of a service should be recovered by fees and charges.

7. Enterprise Activity Rates – The City will review and adopt utility and airport rates as needed to generate revenues required to fully cover operating expenses, meet the legal requirements of all applicable bond covenants, and provide for an adequate level of working capital. Enterprise rates will be reviewed annually as part of the budget process. A rate study will be conducted no less than every 3 years to review rate methodology and ensure revenues will meet future needs. All enterprise rates will be based on standardized cost of service methodologies and conservation goals.

   a. **Water Rates** will recognize at least 50~~65~~% of the identified fixed costs of service, including debt payments and Payment in Lieu of Taxes costs, within the monthly base charge determined by meter size plus 75~~90~~% with the first customer tier. Volumetric charge will recognize the balance of fixed costs not included in the base rate, plus all variable costs associated with procuring and treating water and enforcing conservation compliance goals.

   b. **Wastewater Rates** are fixed for all residential customers based on the cost of providing services. Commercial customer rates are fixed and volumetric depending on size and specifications of each commercial customer.

   c. **Electric Rates** include 100% of fixed costs within the base rate, and demand rates, with all variable costs included in the kWh rate.

      - The Power Cost Adjustment (PCA) Factor and Transmission Cost Adjustment (TCA) Factor are determined by comparing forecasted costs against actual costs in a budget year, and seek to recover/credit variances within 6 to 12 months.

- The Very Large Commercial & Industrial Energy Rate Rider is used to recover the Utility's net hedging cost for serving very large-load customers with an installed capacity between 10 – 51 MW. The target account balance for the rate rider is 1% of anticipated total revenues from the Very Large Commercial & Industrial customer class. The City Manager, General Manager or their respective designees are responsible for making periodic adjustments to the Energy Rate Rider, which will be based upon two (2) months of actual power supply costs and six (6) months of forecasted future costs to serve the customers in the Very Large Commercial and Industrial Service class and the cumulative Energy Rate Rider account balance. Changes to the Energy Rate Rider shall have the objective of maintaining a positive cumulative Energy Rate Rider account balance.
- For reference, see Code of Ordinances 13.04.075 and 13.04.080 and 13.04.046.

d. **Stormwater Drainage Fees** are based on a mathematical calculation using impervious cover and applied in compliance with State Law.

e. **Solid Waste and Environmental Services Rates** are based on the wholesale cost of service and retail incentives for conservation, the cost to renovate the transfer station, a return to the General Fund for wear and tear of heavy trucks on City streets, a franchise fee, an administrative allocation for managing the solid waste contract and solid waste departmental programing, and adequate reserves.

f. **Airport Fuel and Lease Rates –** fuel rates are based on the cost of the fuel plus a profit margin to fund operations; lease rates are based on the appraisal of the land or facility plus an escalation for consumer price index and used to fund operations, capital improvement, contingency, and debt service requirements.

8. **Internal Cost Recovery Fees –** Additionally, enterprise activity rates will include transfers to and receive credits from other funds as follows:

a. **General and Administrative Charges** – Administrative costs should be charged to all funds for services of general overhead, such as administration, finance, customer billing, legal and other costs as appropriate. These charges will be determined through an indirect cost allocation following accepted practices and procedures and reviewed annually by the City's external auditors.

b. **Payment for Franchise of Right of Way and Payment in Lieu of Taxes** – The intent of these transfers to the General Fund are to provide a benefit to the citizens for the ownership of the various utility operations.

<u>Water, Wastewater, Irrigation, Solid Waste and Stormwater Drainage</u>

- *In-Lieu-of-Franchise-Fee.* 3% of operating revenues from Charges, Connect Fees, Tap Fees, Penalties and Late Fees.

- *Payment in Lieu of Taxes (PILOT).* The transfer is calculated at 7% of operating revenues from Charges, Connect Fees, Tap Fees, Penalties and Late Fees.

<u>Electric</u>

For customers inside the City, the franchise fee is $0.002947/kWh sold. The payment in lieu of taxes for customers inside the City is 7% of gross revenue of the base monthly charge, and $0.007253/kWh sold. For customers outside the City, there is no franchise fee to the City of Georgetown; however, those customers may be subject to franchise fees in the jurisdiction in which they reside. Outside the City customers are charged a payment in lieu of taxes equal to 7% of gross revenue of the base monthly charge, and $0.0102/kWh sold.

9. Revenue Monitoring – Received revenues will be regularly compared to budgeted revenues and variances will be investigated, and any abnormalities will be included in the quarterly report to the City Council.

10. Other Funding Alternatives

When at all possible, the City will research alternative funding opportunities prior to issuing debt or increasing user-related fees.

a. **Grants** – All grant applications must be approved by the City Council prior to being submitted to a granting agency. Prior to submittal to Council, departments will verify that the benefits of the grant exceed the cost of grant administration and will also provide the required grant forms to Finance for review in accordance with the Grant Acquisition, Management, and Compliance Policy. Finance will review and sign the forms which provides detailed information including, but not limited to, the term of the grant, any matching requirements, the resulting operational requirements once the grant is discontinued, and a budget request detailing the line items to be effected, all of which should be included in the Council agenda item packet requesting approval to apply. The City Council must also authorize acceptance of any grant awards received.

b. **Use of Reserve Funds** – The City may authorize the use of reserve funds to potentially delay or eliminate a proposed bond issue. This may occur due to higher than anticipated fund balances in prior years, thus eliminating or reducing the need for debt proceeds, or postpone a bond issue until market conditions are more beneficial or timing of the related capital improvements does not correspond with the planned bond issue. Reserve funds used in this manner are replenished upon issuance of the proposed debt.

c. **Developer Contributions** – The City will require developers who negatively impact the City's utility capital plans offset those impacts. These policies are further defined within the City's utility line extension policy and other development regulations.

d. **Leases** – The City may authorize the use of lease financing for certain operating equipment when it is determined that the cost benefit of such an arrangement is advantageous to the City.

e. **Impact Fees** – The City will impose impact fees as allowable under state law for transportation, water and wastewater services. These fees will be calculated in accordance with statute and reviewed at least every three years. All fees collected will fund projects identified within the Fee study and as required by state laws.

f. **Donations** - Donations or endowments received by the City will be processed according to the donations policy approved by City Council. Unless authorized stated in the donations policy or other agreement approved by the City Council, if the City receives a donation or endowment exceeding $100,000, a formal process shall be initiated in which City Council will be notified and

provided with all relevant details regarding the source and intent of the funds. City Council shall then deliberate and provide direction on the appropriate use, allocation, or appropriation of these funds, ensuring alignment with intent of the funds, community priorities, legal requirements, and strategic goals. No expenditure of such funds shall occur without Council's express approval.

V. EXPENDITURE MANAGEMENT

A. Appropriations – The point of budget control is at the department level budget for all funds. The *Charter (Section 6.03)* provides that any transfer of appropriation between funds must be approved by the City Council and that the City Manager, without City Council approval, is authorized to transfer appropriations among departments, within the same operational division and fund.

B. Expenditure Monitoring – Expenditures and encumbrances will be regularly compared to budget, variances will be investigated, and any abnormalities will be included in the quarterly report to the City Council. Projected year-end expenditures will be reported in the annual budget.

C. Personnel Costs – Costs related to salaries and benefits are budgeted at 100% total costs, assuming open positions are filled throughout the fiscal year. New positions that are added during the budget process may have staggered hire dates with appropriate costs reflected in the budget.

1. Vacancy Factor – Major Funds with Personnel Budgets will include a vacancy factor of at least 1% of total fund salaries and related benefits (retirement, FICA, Medicare) to offset salary savings within the budget. The vacancy factor will be budgeted as a negative expense within the fund. This factor will be reduced throughout the year as vacant positions are recognized within the department budget.

   Compliance Status – General Fund, Electric Fund, Water Fund and Joint Services Fund FY2027 in compliance.

2. Benefit Payout Reserve – The City will establish a benefit payout reserve equal to 15% of the accrued benefit liability for employees in the General and Joint Services Funds who are currently eligible to retire. Only terminating employee benefit expenses may be paid from this reserve. This reserve shall be funded as an offset to the vacancy factor.

   Compliance Status – Benefit payout reserve FY2027 in compliance.

3. Position Control – The annual budget includes a set number of positions within departments when approved and adopted by City Council. Additional positions cannot be added without approval of the City Council. The City Manager may approve the transfer of authorized positions between departments if funds are available within the department.

   The City Manager may designate a number of placeholder positions in the position control schedule to be available for use throughout the year to respond to service areas with pressure or unusual hiring environment circumstances. The position control schedule is approved by Council as part of the budget adoption process. The position control schedule and the expense budget will be amended by Council to reflect mid-year changes as soon as practical.

4. Use of Excess Salary Savings – Departmental savings generated due to open positions or other salary line item savings cannot be spent by the department unless previously approved by the City Manager and validated by Finance as excess funds.

D. **Special Purpose Funding** – In order to support community assistance programs, the City designates specific funding for special purposes, including Strategic Partnerships for Community Services, and Public Art. The City reserves the ability to cap this special purpose funding when necessitated by budget contingency or compliance issues, such as revenue shortfalls, or other reasons as determined by City Council.

1. Strategic Partnerships for Community Services – The City of Georgetown values partnerships with organizations that are committed to addressing our communities' greatest public challenges and has identified key partners like the Williamson County Children's Advocacy Center

The City has targeted funding for these partnerships that are determined as a part of the annual budget development process.

Compliance Status – FY2027 in compliance.

D. Public Art Funding – The City may annually allocate up to 15% of Hotel Occupancy Tax funding for Public Art in the Tourism Fund.

Compliance Status – FY2027 in compliance.

Every effort will be made to include public art funding in future City facilities whose primary purpose is for public use. These projects will include a reasonable allowance for public art that fits the scope and purpose of the building so long that it does not negatively impact the project cost beyond the original budget. In the event there is cost savings in the construction of City Facilities, the City Council may consider utilizing that savings on the purchase of public art for the facility.

E. **Purchasing** – The City will maintain and regularly review written Purchasing Policies. All City purchases of goods or services will be made in accordance with the City's Charter, current Purchasing Policy and with State law.

The following table shows a summary of requirements for purchases of goods and services and does not substitute the formal Purchasing Policies.

Dollar Limits:	Procurements:	Requirements:
$3,000 and less	Under the small purchase limit	No competitive bids and City credit cards may be used.
$3,000.01 up to $50,000	Within informal bid limit	No competitive bids; Historically Underutilized Business (HUB) requirements apply in accordance with state law.
$50,000.01 up to $100,000	Within informal bid limit	A minimum of three informal solicitation for bids required unless exempted; Historically Underutilized Business (HUB) requirements apply in accordance with state law.
$100,001 and above	In excess of the informal bid limit	Formal competitive solicitations, which includes public notices, required unless exempted. Advisory board review and recommendation *may* be required. Council approval required.

Common exemptions to the formal competitive solicitation process include the procurement of professional services, the purchase of goods or services from a sole source provider, and purchases for public health emergencies (Texas Local Government Code 252.022).

In addition to the above, all purchases must be approved according to signature authority limits.

F. Contracts, Change Orders and Amendments – Contracts and related change orders and amendments must follow the City's Purchasing Policies, Authority to Contract ordinance (Chapter 4.08 Code of Ordinances), and State Law. Contract term lengths should balance the need for value as well as the ability to respond to changing conditions.

G. Prompt Payment – In accordance with State Law, all invoices approved for payment by the proper City authorities shall be paid within thirty (30) calendar days of receipt of goods or services or invoice date, whichever is later in accordance with State law. The City will take advantage of all purchase discounts, when possible.

H. Risk Management – The City will pursue every opportunity to provide for the Public's and City employees' safety and to manage its risks. The goal shall be to minimize the risk of loss of resources through liability claims with an emphasis on safety programs.

I. Retirement Benefits – Proposals to revise benefits administered and provided by the Texas Municipal Retirement System shall include a written description and a detailed and summary numerical assessments of the changes that would result from the proposed benefit revision.

1. The numerical assessments shall include the following:

   a. The estimated change to the TMRS contribution rate that would result from the proposed change in benefits, expressed as a percentage of employee pay and as an annual dollar amount to the General Fund and to each City fund.

b. The estimated change to the City's unfunded pension liability, expressed as a dollar amount.

c. The estimated change to the City's actuarial funding ratio.

2. The description and numerical assessments must be provided to the City Council at least 72 hours prior to consideration and approval and must be read aloud to the Council prior to Council consideration.

3. The estimated changes to the City's contribution rate and the unfunded pension liability presented pursuant to the section must be based on information provided by the TMRS actuary or by a professional actuary authorized by the TMRS to provide such information.

4. Proposals to revise TMRS benefits must be voted on individually as part of the City Council's legislative agenda.

5. The City will amortize any unfunded actuarial liability (UAAL) over a period not to exceed the amortization period used by the TMRS actuary. The City may amortize its UAAL more quickly by making contributions to TMRS in excess of the rate specified by TMRS.

6. The City may elect to pay a higher contribution rate than required by the TMRS, to reduce the City's unfunded pension liability. Such payment will be approved and authorized by the City Council as part of the City's annual budget process.

J. Retirement Cost-of-Living Adjustment

1. Within 60 days of when the TMRS annual funding update becomes available each year, staff will review and may prepare a summary of costs and options for potential cost-of-living adjustment (COLA) for City of Georgetown retirees.

2. Consistent with state statutes governing the Texas Municipal Retirement System, the City may provide an automatic COLA for members of the TMRS who are retired from the City of Georgetown and receiving a monthly retirement benefit from the TMRS.

3. The City Council may adjust the COLA provided to city retirees based upon the funding level of the City's pension plan, as calculated by the TMRS, and review of a cost/benefit analysis, as follows:

When the funding level of the City's pension plan is	The COLA should be
Less than 70.0%	Zero
70.0% to 79.9%	0.3% of CPI
80.0% to 89.9%	0.5% of CPI
90.0% and greater	0.7% of CPI

4. Adjustments made pursuant to *Subsection J.3.* should reflect the reciprocal effect of the prospective change in the COLA on the funding level of the City's pension plan.

K. Deferred Compensation Benefits – In addition to the retirement benefit administered by the TMRS, the City will sponsor a Deferred Compensation 457 plan and ROTH plan, which are supplementary individual retirement savings plans. The City will encourage employee participation in these plans.

VI. STAFFING AND COMPENSATION

City Council and Management recognize the importance of attracting, hiring, developing, and retaining the best people, and compensating them for the value they create. Our outstanding and innovative City employees work diligently to bring the Vision of Council to life and deliver exceptional services to our customers while exemplifying our Core Values. The following programs are subject to available funding in the annual operating budget.

A. Adequate Staffing – Staffing levels will be adequate for the fiscal functions of the City to operate effectively. Workload allocation alternatives will be explored before adding additional staff.

B. Competitive Compensation – In order to maintain a competitive pay scale, the City has implemented a *Competitive Employee Compensation Maintenance* Program to address competitive market factors and other issues impacting compensation. The program consists of:

1. Annual Pay Plan Review – To ensure the City's pay system is accurate and competitive within the market, the City will review its pay plans annually for any potential market adjustments necessary to maintain the City's competitive pay plans.

2. Pay for Performance – Each year the City will fund performance-based pay adjustments for regular non-Civil Service personnel. This merit-based program aids in retaining quality employees by rewarding their performance. Pay for Performance adjustments are based on the employee's most recently completed performance evaluation.

3. Civil Service Steps – Each year the City will fund anniversary step increases for Civil Service personnel consistent with their respective pay scale design.

C. Self-Insurance Program – The City is committed to providing quality healthcare insurance that offers flexibility in health benefits and options to its employees. In order to provide the most cost-effective solution, the City has determined that establishing a self-funded health insurance plan offers the greatest opportunity to mitigate future cost increases while offering quality health care services to its employees. The City has established a mechanism to manage the accounts and payments associated with this program. Per GASB Statement No. 66, such funding should be accounted for as an Internal Service Fund (ISF).

1. Employee Health Insurance ISF – This fund contains premium contributions from employees and budgeted health insurance contributions included in the City's annual budget process. To maintain stable revenue to this fund, and to clearly set expenditure expectations for departments, any budgeted appropriations for employee health insurance that are unused at the end of each fiscal year may be transferred back to the self-insurance fund after a review of financial metrics regarding historical actual trends, forecasts and reserve levels.

2. Self-Insurance Reserves – Annually through the budget process, staff and the City's Health Benefit Consultant firm will evaluate and recommend to Council the appropriate funding levels for two reserves.

   a. Incurred But Not Reported (IBNR) Reserve: In the event the City stopped self-insuring for health benefits and was required to pay incurred costs, the City will reserve no less than 10 percent and no more than 20% of the annual costs of claims, benefit administration and stop loss coverage.

      Compliance Status – IBNR reserve FY2027 in compliance.

   b. Rate Stabilization Reserve: To alleviate shocks to the City and employees due to sharp increases in health insurance costs, the City will reserve between 10 and 20 percent of annual medical claims, benefit administration and stop loss coverage. Staff and the benefits consultant will consider a 3-year forecast on premiums when determining to utilize the funds or rebuild the reserve.

      Compliance Status – Rate stabilization reserve FY2027 in compliance.

3. Employee Premiums – Annual premiums will be recommended to City Council through a collaborative process between the City's Employee Benefit Committee and external Health Benefits consulting firm using historical data, reserves history and other analytic analysis.

VII. FUND BALANCE POLICIES

The City's Fund Balance is the accumulated difference between assets and liabilities within **governmental funds**, and it allows the City to meet its contractual obligations, fund disaster or emergency costs, provide cash flow for timing purposes and fund non-recurring expenses appropriated by City Council. This policy establishes limitations on the purposes for which Fund Balances can be used in accordance with Governmental Accounting Standards Board (GASB) Statement Number 54.

The City's Fund Balance will report up to five components:

A. Non-spendable Fund Balance – includes inherently non-spendable assets that will never convert to cash, as well as assets that will not convert to cash soon enough to affect the current financial period. Assets included in this category are prepaid items, inventory and non-financial assets held for resale.
B. Restricted Fund Balance – represents the portion of fund balance that is subject to legal restrictions, such as grants or hotel/motel tax and bond proceeds.
C. Committed Fund Balance – describes the portion of fund balance that is constrained by limitations that the City Council has imposed upon itself, and remains binding unless the City Council removes the limitation.
D. Assigned Fund Balance – is that portion of fund balance that reflects the City's *intended* use of the resource and is established in a less formal method by the City for that designated purpose.
E. Unassigned Fund Balance – represents funds that cannot be properly classified in one of the other four categories.

VIII. LONG-TERM LIABILITY RESERVES

The City of Georgetown recognizes certain long-term unfunded commitments and contingencies that will require substantial funding at some point in the future. The City is committed to addressing these commitments in a

fiscally prudent method by acknowledging their future financial impacts and developing strategies and designated reserve funds to mitigate those future impacts.

A. The Chief Financial Officer will maintain a record of unfunded long-term liabilities through the Annual Comprehensive Financial Report and a record of reserve compliance through this fiscal policy document. Council may consider these unfunded commitments as part of the annual budget development process or mid-year budget amendment process.

IX. BUDGET CONTINGENCY PLAN

This policy is designed to establish general guidelines for managing revenue shortfalls resulting from local and national economic downturns that adversely affect the City's revenue streams.

A. Immediate Action – Once a budgetary shortfall is projected, the City Manager will take the necessary actions to offset any revenue shortfall with a reduction in current expenses. The City Manager may:

1. Freeze all new hire and vacant positions except those deemed to be a necessity.
2. Review all planned capital expenditures.
3. Delay all "non-essential" spending or equipment replacement purchases.

The City Manager shall report in a timely manner to the City Council the projected shortfall and the actions taken to resolve it.

B. Further Action – If the actions identified in subsection A are insufficient to offset the projected revenue deficit for the current fiscal year, the City Council may approve the following actions, in the order listed:

1. Apply unspent, unobligated surplus funds from prior fiscal years to fund one-time costs in the current fiscal year budget.
2. Authorize the use of the General Fund Revenue~~Economic~~ Stability Reserve, contingency reserves, capital reserves or any other reserves appropriate as outlined in the sections XII. CAPITAL MAINTENANCE AND REPLACEMENT and XV. FINANCIAL CONDITIONS, RESERVES, AND STABILITY RATIOS.
3. Direct other reductions in services, including workforce reductions.
4. Authorize a temporary reduction in one or more fund's contingency reserves from 90 days to 75 days.

C. Replenish Fund Balance – Generally, if any existing reserve is used as described above in the budget contingency plan, the reserve should be restored in the next fiscal year. If the restoration within one year is impractical or places an undo strain of City services, staff shall recommend to Council an alternative timeline that is subject to Council approval.

X. CAPITAL IMPROVEMENT PROGRAM (CIP) BUDGET

The City's goal is to maintain City facilities and infrastructure in order to provide excellent services to the customers within the community, meet growth related needs, and comply with all state and federal regulations.

A. Preparation – The City annually updates and adopts a five-year Capital Improvement Program (CIP) schedule as part of the operating budget adoption process. The plan is reviewed and adjusted annually as needed, and year one is adopted as the current year capital budget. The capital budget will include all capital projects, capital resources, and estimated operational impacts.

1. Needed capital improvements are identified through system models, repair and maintenance records and growth demands.

2. A team approach will be used to prioritize CIP projects, whereby City staff from all operational areas provide input and ideas relating to each project and its effect on operations.

3. Citizen involvement and participation will be solicited in formulating the capital budget through master planning processes, board meetings, public hearings and other forums.

4. Capital infrastructure necessary to meet the requirements of the City's Annexation Plan will be identified separately within the CIP plan, so that funding alternatives can be developed if needed.

Prior to Council approval, the following Advisory Boards will review the Capital Projects budget and contracts for expenditures:

Electric Utility Board	Water Utility Board	Parks Advisory Board	Georgetown Transportation Enhancement Corporation (GTEC)
Electric	Water Wastewater	Parks and Recreation	Transportation projects related to economic development

B. Control – All capital project expenditures must be appropriated in the capital budget.

C. Financing Programs – Where applicable, assessments, impact fees, pro rata charges, or other fees should be used to fund capital projects which have a primary benefit to specific identifiable property owners. Debt financing is referenced in *Section XIV. Debt Management* of this document and addresses how capital projects will be funded.

D. Debt will be addressed in Section XIV, but the City strives to balance debt funding with pay as you go funding and will use Council's discretionary funds for projects that qualify.

XI. CAPITAL MAINTENANCE AND REPLACEMENT

The City recognizes that deferred maintenance increases future capital costs. Therefore, a portion of all individual funds with infrastructure should be budgeted each year to maintain the quality within each system.

A. Infrastructure Maintenance — On-going maintenance and major repair costs are included as expense within the departmental operating budgets. These costs are generally considered system repairs and are not capitalized for accounting purposes. They include such items as park and recreation facility repairs, street repair, water line repairs and other general system maintenance.

B. Street Assets and Pavement Condition

The City will continue to hold elections for the Streets Maintenance Sales Tax every four years, as it is the main source of funding for street maintenance activity. The City will utilize the Pavement Condition Index (PCI) and require studies that are operationally logical, timely and feasible to perform adequate maintenance of the assets.

C. Internal Service Funds Capital Maintenance & Replacement – The City currently utilizes internal service funds to maintain and replace existing assets. Assessments are made to other funds for the use of existing equipment and to purchase new equipment. In this way, suitable funds are available for the purchase of operational assets without the issuance of debt.

1. Fleet Maintenance and Replacement – The City has a major investment in its fleet of cars, trucks, tractors, and other equipment. The City will anticipate replacing existing equipment, as necessary and will establish charges that are assigned to the using departments to account for the cost of that replacement. Vehicle maintenance is also allocated in this manner. The targeted asset replacement reserve amount is the average (1/5th) of the next five years on the replacement schedule for cash-funded governmental fund vehicles. Additional available balance above the capital reserve target may be used for one-time expenses, such as capital equipment for the Fleet Shop and costs related to renovating, constructing or expanding the existing Fleet building or a new Fleet related facility.

   Compliance Status – Fleet replacement reserve FY2027 in compliance.

   It is the general policy of the City not to hold back vehicles or equipment from replacement or disposition. Departmental requests to hold back units must be approved by the Fleet Manager and the City Manager.

2. Technology – It is the policy of the City to plan and fund the maintenance and replacement of its computer network and other technology systems. A reserve will be established within the ISF for replacement of major systems and will be funded over time through excess revenues within the Fund. The targeted amount is the average (1/5th) of the next five years on the replacement schedule. While cash funding is preferred, major IT systems and projects may require debt that is amortized over a shorter useful life appropriate for the software or hardware.

   Compliance Status – IT replacement reserve FY2027 in compliance.

3. Facilities Maintenance – The City has established an on-going maintenance program, which includes major repairs, equipment, as well as contracts for maintaining City facilities. The City has anticipated a useful life of such equipment and established a means of charging those costs to the various departments in order to recognize the City's continuing costs of maintaining its facilities. Determination for facility repairs is based on useful life of the various elements of each facility. A

proportional cost for each element is expensed within the budget for capital replacement. The targeted replacement reserve amount is the average (1/5th) of the next five years on the replacement schedule.

Compliance Status – Facilities replacement reserve FY2027 compliance.

D. Departmental Capital Maintenance & Replacement – The City also utilizes department capital maintenance and replacement schedules for specialized assets and equipment necessary to provide services.

1. Parks and Recreation – As part of the City's on-going maintenance program, the City also recognizes the need to regularly maintain and replace playgrounds, equipment and facilities that are part of the City's Parks and Recreation system. Separate replacement and maintenance schedules will be maintained for these items including, but not limited to, playground equipment, buildings, sport courts, trees and grounds, and restroom facilities. The City's goal is to provide level on-going funding to ensure safe, well-maintained facilities for its citizens. The capital equipment replacement schedule will be funded with short-term property-tax backed debt instrument, with term length consistent with useful life of the assets or shorter.

Compliance Status – Parks maintenance replacement FY2027 in compliance.

2. Cemetery Maintenance - The General Fund makes an annual transfer of $75,000 to the cemetery fund to assist with general operations and maintenance activity not covered through cemetery revenues.

3. Public Safety Equipment – As part of the City's on-going maintenance program, the City also recognizes the need to regularly maintain and replace specialized equipment in Police and Fire. Separate replacement and maintenance schedules will be maintained for these items including but not limited to for Fire: SCBA's and other firefighting equipment and protective gear; and for Police: bullet proof vests, armaments and other tactical equipment. The City's goal is to provide level on-going funding to ensure proper protection for employees and residents. The current funding level is an annual appropriation in the General Fund of $80,000 for Fire and $88,000 for Police.

Compliance Status – Public safety equipment replacement FY2027 in compliance.

E. Surplus Property

1. From time to time it is necessary to dispose of certain vehicles or equipment that have been procured with City funds and used in City services.

City staff will maintain reports and records of all surplus property dispositions in accordance with good internal controls.

XII. ACCOUNTING, AUDITING, AND FINANCIAL REPORTING

A. Accounting – The City is solely responsible for the recording and reporting of its financial affairs, both internally and externally. The Chief Financial Officer is responsible for establishing the structure for the City's Chart of Accounts and for assuring that procedures are in place to properly record financial transactions and report the City's financial position.

B. Audit and Finance Sub-Committee – The City may establish a subcommittee consisting of at least 3 City Council members that may meet quarterly to provide additional strategic oversight to the City's Finance operations. The City's Chief Financial Officer will be the liaison for this subcommittee.

C. Audit of Accounts – In accordance with the *Charter*, an independent audit of the City accounts will be performed every year. The auditor is retained by and is accountable directly to the City Council. The auditing firm will serve for up to 5 years, at which time, the City will re-bid these services and change firms if deemed necessary by Audit and Finance Sub-Committee and City Council.

D. External Reporting – Upon completion and acceptance of the annual audit by the City's auditors, the City shall prepare a written Annual Financial Report which shall be presented to the City Council within 180 calendar days of the City's fiscal year end. The report shall be prepared in accordance with Generally Accepted Accounting Principles (GAAP) and shall be presented annually to the Government Finance Officer Association (GFOA) for evaluation and consideration for the Certificate of Achievement in Financial Reporting.

XIII. ASSET MANAGEMENT

A. Cash Management and Investments – The City Council has formally approved a separate Investment Policy for the City of Georgetown that meets the requirements of the Public Funds Investment Act (PFIA), Section 2256 and 2257 of the Texas Local Government Code. This policy is reviewed annually by the City Council and applies to all financial assets held by the City and applies to all entities (component units) included in the City's Annual Financial Report and/or managed by the City. Refer to the separate policy for details regarding:

1. Statement of Cash Management Philosophy
2. Objectives
3. Safekeeping and Custody
4. Standard of Care and Reporting
5. Investment Strategies
6. Authorized Investments and Approved Broker/Dealer List.

B. Fixed Assets – These assets will be reasonably safeguarded and properly accounted for, and prudently insured.

1. Capitalization Criteria – For purposes of budgeting and accounting classification, the following criteria must be met in order to be capitalized:

   a. The asset owned by the City
   b. The expected useful life of the asset must be longer than one year, or extend the life of an identifiable existing asset by more than one year
   c. The original cost of the asset must be at least $5,000
   d. The asset must be tangible, or uniquely intangible like a trademark.

On-going repairs and general maintenance are not capitalized. Public Education and Government (PEG) Funds will capitalize assets in aggregate over $1,000 on an annual basis.

2. New Purchases – All costs associated with bringing the asset into working order will be capitalized as part of the asset cost. This will include startup costs, engineering or consultant type fees as part of the asset cost once the decision or commitment to purchase the asset is made. The cost of land acquired should include all related costs associated with its purchase. Appropriate personnel and overhead costs are capitalized in the Electric fund.

3. Improvements and Replacement – Improvements will be capitalized when they extend the original life of an asset or when they make the asset more valuable than it was originally. The replacement of assets components will normally be expensed unless they are a significant nature and meet all the capitalization criteria.

4. Contributed Capital – Infrastructure assets received from developers or as a result of annexation will be recorded as equity contributions when they are received.

5. Distributions Systems – All costs associated with public domain assets, such as streets and utility distribution systems, will be capitalized in accordance with the capitalization policy. Costs should include engineering, construction and other related costs including right of way acquisition. For the Electric Distribution system, all component parts associated with a capital project shall be accounted for and capitalized in accordance with the Federal Energy Regulatory Commission (FERC) guidelines. These are an exception to the capitalization criteria above.

6. Reporting and Inventory – The Finance Division will maintain the permanent records of the City's fixed assets, including description, cost, department of responsibility, date of acquisition, depreciation and expected useful life. Periodically, random sampling at the department level will be performed to inventory fixed assets assigned to that department. Responsibility for safeguarding the City's fixed assets lies with the department supervisor or manager whose department has been assigned the asset.

XIV. DEBT MANAGEMENT

The City of Georgetown recognizes the primary purpose of capital facilities is to provide services to the community. Using debt financing to meet the capital needs of the community must be evaluated according to efficiency and equity. Efficiency must be evaluated to determine the highest rate of return for a given investment of resources. Equity is resolved by determining who should pay for the cost of capital improvements. In meeting demand for additional services, the City will strive to balance the needs between debt financing and "pay as you go" methods. The City realizes that failure to meet the demands of growth may inhibit its continued economic viability, but also realizes that too much debt may have detrimental effects on the City's long-range financial condition.

The City will issue debt only for the purpose of acquiring or constructing capital assets for the general benefit of its citizens and to allow it to fulfill its various purposes as a city. The City will seek input on major projects funded with debt via bond elections, master planning exercises, board meetings, budget workshops, and other methods as needed.

A Debt Condition Update report will be provided annually.

A. Usage of Debt – Long-term debt financing will be considered for non-continuous capital improvements of which future citizens will benefit. Alternatives for financing will be explored prior to debt issuance and include, but not limited to:

- Grants
- Use of Reserve Funds
- Use of Current Revenues
- Contributions from developers and others
- Leases
- Impact Fees

When the City utilizes long-term financing, it will ensure that the debt is soundly financed by conservatively projecting revenue sources that will be used to pay the debt. It will not finance the improvement over a period greater than the useful life of the improvement and it will determine that the cost benefit of the improvement, including interest costs, is positive to the community.

The City may utilize the benefits of short-term debt financing to purchase operating equipment provided the debt doesn't extend past the useful life of the asset and the potential impact to the tax rate is within policy guidelines.

B. Types of Debt

1. General Obligation Bonds (GO's) – General obligation bonds must be authorized by a vote of the citizens of Georgetown. They are used only to fund capital assets of the general government and are not to be used to fund operating needs of the City. The City's ad valorem taxing authority backs general obligation bonds. Conditions for issuance of general obligation debt include:

   a. When the project will have a significant impact on the tax rate;

   b. When the project may be controversial even though it is routine in nature; or

   c. When the project falls outside the normal bounds of projects the City has typically done.

For debt programs that include multiple projects that will be issued over multiple years at the discretion of the City Council, the City may present an ***Agreement with the Voters*** to manage future property tax rate impacts. The Agreement with the Voters will be included in educational information for all applicable GO Bond elections and will include a maximum **annual** tax rate increase and a cumulative total per bond authorization maximum tax rate increase. The City will include these impacts in its annual Debt Condition report. Council and staff will strive to achieve terms in the Agreement with the Voters, but in order to sell the bonds in the market for the lowest interest rate and achieve cost of borrowing for the citizens, the City will need to retain the legal ability to set a debt tax rate sufficient to repay the bonds in the event conditions in state law, bond market conditions, and taxable assessed values impact the debt tax rate in ways beyond the City's control.

The City Council will carefully manage the ***unissued GO Bond authorization*** through annual review of related projects to ensure full disclosure on future timing of projects included in the bond package. Timing of authorized projects and related bond issuance will be included in the Annual Budget and published on the City's website. Any changes to this schedule require specific Council authorization.

2. Revenue Bonds – Revenue bonds will be issued to provide for the capital needs of any activities where the capital requirements are necessary for the continuation or expansion of a service. The improved activity shall produce a revenue stream to fund the debt service requirements of the necessary improvement to provide service expansion. The average life of the obligation should not exceed the useful life of the asset(s) to be funded by the bond issue, and will generally be limited to no more than twenty (20) years. An exception can be made for plant expansions or related system expansions whose useful life is in excess of 30 years. A cost benefit analysis will be done to fully disclose the impacts of extending debt beyond 20 years.

3. Certificates of Obligation, Contract Obligations (CO's) – Certificates of obligation or contract obligations may be used to fund capital requirements that are not otherwise funded by general obligation or revenue bonds, as allowed by state law. Debt service for CO's may be either from general revenues (tax-supported) or supported by a specific revenue stream(s) or a combination of both. Typically, the City may issue CO's when the following conditions are met:

   a. When the proposed debt will have minimal impact on future effective property tax rates;
   b. When the projects to be funded are within the normal bounds of City capital requirements, such as for roads, parks, various infrastructure and City facilities and equipment; and

c. When the average life of the obligation does not exceed the useful life of the asset(s) to be funded by the issue; and in cases of an emergency when funds must be procured sooner than the bi-annual timing of the bond election.

Certificates of obligation will be the least preferred method of financing and will be used with prudent care and judgment by the City Council during the budget development process.

4. Self-supporting Certificates of Obligation Debt – Refers to certificates of obligation issued for a specific purpose and repaid through dedicated revenues other than ad valorem taxes. The annual debt requirements are not included in the property tax calculation. Both the Airport and Stormwater Drainage funds will issue this type of debt. In addition, the Electric and Water Services Funds can utilize this method of funding non-system capital assets. The City also issues debt on behalf of the Georgetown Transportation Enhancement Corporation (GTEC) and the Georgetown Economic Development Corporation (GEDCO) whom then pledge 4A and 4B sales tax revenue for the repayment of that debt. Tax Increment Reinvestment Zones also may issue self-supporting debt.

5. Internal borrowing between City Funds – The City Council can authorize use of existing long-term reserves as formal loans between funds. The Council will consider the following circumstances:
    1. The emergency or other circumstances and why an internal loan is the best viable option;
    2. The dollar amount of the loan will be within the core balance reserves of the lending fund and will otherwise not be restricted by local or state regulation;
    3. The borrowing fund will repay the loan at a rate consistent with current market conditions. The loan will be considered an investment of working capital reserves by the lending fund. The interest rate will be comparable to prevailing investment rates for public funds at the time the loan is made; and a fixed, variable or other rate structure will be defined at the time the loan is approved;
    4. The maximum maturity will be three (3) years.
    5. A reimbursement resolution may be used to reimburse a short-term loan (up to 1 year maturity) with long-term debt proceeds;
    6. Formal loans will be appropriately recorded and reported.

6. Refundings – The City Council may refinance debt to achieve interest cost savings as market conditions change, or to remove restrictive covenants, or to further other City goals as expressed by Council. The City's Financial Advisor will prepare refunding analysis for consideration and demonstrate that the savings of the refinancing are greater than the issuance costs to refinance, with a target minimum net present value savings of 3-5%.

7. Other Short-term Borrowing – The City may authorize the issuance of Public Property Finance Contractual Obligations (PPFCO) which is short-term obligations for the acquisition of personal public property, such as equipment. PPFCOs are payable from either ad valorem taxes or another dedicated revenue stream. Each issuance will be assessed to ensure cost effectiveness and the repayment schedule will not exceed the useful life of the asset. Multiple equipment acquisitions can be grouped in a single PPFCO issue in order to develop economies of scale.

   In FY2021, the City issued a $48 million PPFCO for the energy costs of Winter Storm Uri. The Council approved a 9.5 year term with a 5 year call option. Because energy costs are an ongoing operating expense, it is the intent of the City to review all options to pay off this debt issue as soon as possible, balanced against rate competitiveness, Electric fund liquidity, and other practical factors.

The City may authorize the issuance of Limited Tax Notes for tax-supported obligations whose issuance timeframe occurs outside of the City's normal bond issuance schedule or for other emergency needs. The Limited Tax Notes must have a maximum maturity of seven years. They may be sold either as public, rated offerings in a competitive or negotiated sale, or they may be privately placed depending on the financing goals of the City and market conditions at the time of sale.
The City may authorize a Note Purchase Agreement for the purposes of establishing a Letter of Credit as collateral to participate in the Electric Reliability Council of Texas (ERCOT) market. Notes would only be delivered under the agreement in the event ERCOT were to draw on the Letter of Credit. Any notes so delivered would be payable from utility revenues and would come due in 90 days after their delivery date.

C. Method of Sale – The City will use a competitive bidding process in the sale of bonds unless conditions in the bond market or the nature of the issue warrant a negotiated bid, private placement or other method. In such situations, the City will publicly present the reasons for the other method. The City will rely on the recommendation of the financial advisor in the selection of the underwriter or direct purchaser. The financial advisor must meet all licensing requirements and comply with all Municipal Securities Rulemaking Board (MSRB) regulations. The City's financial advisor will not act as the underwriter on any City bond issue.

D. Disclosure – Full disclosure of operating costs along with capital costs will be made to the bond rating agencies and other users of financial information. The City staff, with assistance of the financial advisor and bond counsel, will prepare the necessary materials for presentation to the rating agencies and will aid in the production of the Preliminary Official Statements. The City will take responsibility for the accuracy of all financial information released.

E. Federal Requirements – The City will maintain written procedures to follow post issuance compliance rules, arbitrage rebate and other Federal requirements.

1. Post issuance tax compliance rules will include records retention, arbitrage rebate, use of proceeds, and

2. Continuing disclosure requirements under SEC Rule 15c2-12, MSRB standards, or as may be required by bond covenants or related agreements.

F. Debt Structuring – The City prefers to issue bonds with a term of twenty (20) years or less, not to exceed the useful life of the asset acquired. The structure should approximate level debt service unless operational matters dictate otherwise. Market factors, such as the effects of tax-exempt designations, the cost of early redemption options and the like, will be given consideration during the structuring of long term debt instruments. Exceptions to the 20 year term include debt issues for major system expansions, such as water, sewer or electric plants, in which case the City may issue debt greater than 20 years since the useful life of the asset exceeds 30 years. A cost benefit analysis indicating the impacts of extending debt beyond 20 years will be completed.

Fixed interest rate basis will be preferred because it aids in predictable budget and multi-year forecasting for the issuing funds. Variable rate debt can sometimes allow early repayment with no penalty. Variable rate debt may be considered by the Council as a tool to provide flexibility in setting the tax rate and determine use of one-time available fund balances. The City's Financial Advisor will provide an analysis of the benefits of a variable rate structure versus interest rate risk, remarketing risk, and liquidity risk. Because variable rate debt introduces risk and administrative burden on staff and advisors, the amount of allowed variable rate

debt will be limited to no more than ten percent (10%) of the City's outstanding debt principal per system (tax-supported, utility supported).

G. Utility and Self-Supporting Debt Coverage Ratio – Refers to the number of times all utility supported debt service requirements or payments would be covered by the current operating revenues net of on-going operating expenses of the City's combined utilities (Electric, Water, and Wastewater).

The City will maintain a minimum debt service coverage ratio of 1.5 times for the utilities as a whole. The bond ordinances allow the City to forego a debt reserve fund for its utility debt if the coverage is maintained at 1.35 times or better. A coverage ratio of 1.0 times will also be required for all funds issuing self-supporting debt (Airport, Stormwater, Solid Waste, GTEC, GEDCO, PID and TIRZ).

Compliance Status – Debt coverage ratio FY2027 in compliance.

H. Bond Reimbursement Resolutions – The City may utilize bond reimbursements as a tool to manage its debt issues, due to arbitrage requirements and project timing. In so doing, the City uses its capital reserve cash to delay bond issues until such time when issuance is favorable and beneficial to the City.

The City Council may authorize a bond reimbursement resolution for General Capital projects that have a direct impact on the City's ad valorem tax rate when the bonds will be issued within the term of the existing City Council. In the event of unexpected circumstances that delay the timing of projects, or market conditions that prohibit financially sound debt issuance, the approved project can be postponed and considered by a future council until circumstantial issues can be resolved.

The City Council may also authorize revenue bond reimbursements for approved utility and other self-supporting capital projects within legislative limits. Currently revenue bonds must be issued within 18 months after an eligible bond funded project is begun.

The total outstanding bond reimbursements may not exceed the total amount of the City's reserve funds.

XV. FINANCIAL CONDITIONS, RESERVES, AND STABILITY RATIOS

The City of Georgetown will maintain budgeted minimum reserves in the ending working capital/fund balances to provide a secure, healthy financial base for the City in the event of a natural disaster or other emergency, allow stability of City operations should revenues fall short of budgeted projections and provide available resources to implement budgeted expenditures without regard to actual timing of cash flows into the City. Generally, if any existing reserve is used to cover expenses as described, the reserve should be restored in the next fiscal year. If the restoration within one year is impractical or places and undo strain of City services, staff shall recommend to Council an alternative timeline that is subject to Council approval.

A. Operational Coverage – The City's goal is to maintain operations coverage of 1.0 (one), such that operating revenues will at least equal or exceed current operating expenditures. Deferrals, short-term loans, or one-time sources will be avoided as budget balancing techniques. Reserves will be used only for emergencies or non-recurring expenditures, except when balances can be reduced because their levels exceed guideline minimums as stated below.

B. Reserves

1. Citywide Operating Reserve – The City will maintain reserves at a minimum of seventy-five (75) days (20.83%) of net budgeted citywide operating expenditures. Net budgeted operating expenditure is defined as total budgeted expenditures less interfund transfers and charges, capital improvements, direct cost for purchased power, debt service, non-operating special revenue funds and payments to third party grant agents. The amount of these funds are allocated within the following operating funds and using the following guidelines to maintain the fund balance, working capital and retained earnings (reserves) of the various operating funds at levels sufficient to protect the City's creditworthiness, as well as, its financial position from unforeseeable emergencies. For asset replacement reserves, see *Section XI. Capital Maintenance and Replacement.*

   Compliance Status – 75 day citywide reserves FY2027 in compliance.

2. General Fund – General Fund reserves will be assigned on the balance sheet. Reserves are allocated as follows:

   a. Contingency Reserve – will equal ninety (90) days, or 25%, of current year budgeted operating expenditures designated for emergency use only.

   Compliance Status – General Fund 90 day Reserve FY2027 in compliance.

   b. Revenue Stability Reserve – will equal up to 10% of current year budgeted operating expenditures. The reserve will be designated to temporarily offset a decline in any General Fund revenue source during the current fiscal year or in planning the future budget year. The reserve may be used when growth in any General Fund revenue source from one fiscal year to the next is below projections. The reserve will be available to support only existing programs approved in a prior fiscal year.

   Compliance Status – General Fund Stability Reserve FY2027 at 8%.

   c. Master Development Fee Reserve – The City collects Master Development Fees as one-time payment for the impact on City services from a large set of residential units in the City's extra-territorial jurisdiction. The City will reserve these fees below line in the General Fund for one-time expenses such as special projects related to development. Eligible expenses include, but are not limited to: planning studies, construction and maintenance of streets, sidewalks, trails, and parks.

3. Tourism Fund – A minimum ninety (90) days of operating expenditures will be reserved within the fund balance. These funds are designated to be used to offset any potential revenue shortfall that occurs during the fiscal year.

   Compliance Status – Tourism Fund Operating Reserve FY2027 in compliance.

   Excess revenues or expenditure savings may be reserved for future capital infrastructure, capital equipment, one-time programs and studies, or other appropriate one-time uses eligible for hotel occupancy tax expense.

4. Joint Services Fund – A minimum ninety (90) days of operating expenses will be reserved for unexpected delays in revenue or emergency expenses.

Compliance Status – Joint Services Fund Reserve FY2027 in compliance.

5. Fleet Fund – A minimum ninety (90) days of operating expenses will be reserved for unexpected delays in revenue or emergency expenses.

   Compliance Status – Fleet Fund Reserve FY2027 in compliance.

6. Facilities Fund - A minimum ninety (90) days of operating expenses will be reserved for unexpected delays in revenue or emergency expenses.

   Compliance Status – Facilities Fund Reserve FY2027 in compliance.

7. Information Technology Fund - A minimum ninety (90) days of operating expenses will be reserved for unexpected delays in revenue or emergency expenses.

   Compliance Status – IT Fund Reserve FY2027 in compliance.

8. Water Services Fund – The Water Fund will maintain the following reserves and assign them on the balance sheet. These reserves are designated to be used to offset potential revenue shortfalls or fund unexpected or emergency expenses that occur during the fiscal year.

   a. Operations Contingency Reserve – A minimum ninety (90) days or 25% of operating expenses, including wholesale water contracts and transfers out, designated for unexpected or emergency use during the fiscal year. The targeted reserve amount is 120 days, and the maximum amount is 365 days.

   Compliance Status – Operating Water Fund Reserve FY2027 in compliance.

   b. Non-Operating Contingency Reserve – to maintain continuity of debt payments, capital projects and to begin recovering from a natural disaster during the lag time of revenue recovery. This reserve will be a minimum of 50% of the annual debt service in each fiscal year.

   Compliance Status – Non-operating Water Fund Reserve FY2027 in compliance.

   c. Impact Fee Reserve – Impact fees are restricted revenues that may be used for eligible capital project and debt payment expenditures. The City conservatively plans for the use of impact fees by reserving all impact fees received in the current budget year, reconciling the impact fee "child" fund after the annual audit is complete, and appropriating received impact fees towards projects or debt service in future fiscal years.

9. Stormwater Drainage Fund – The Stormwater Fund will maintain the following reserves and assign them on the balance sheet:

   a. A minimum ninety (90) days or 25% of operating expenses, will be reserved in fund balance. These funds are designated to be used to offset any potential revenue shortfall that occurs during the fiscal year.

   Compliance Status – Contingency Reserve FY2027 in compliance.

b. A debt service reserve equal to 1x the upcoming debt service payment for existing debt (example - FY2020 reserve = FY2021 debt payment before new sale).

Compliance Status – Debt Service Reserve FY2027 in compliance.

10. Environmental Services Fund – The Environmental Services Fund will maintain the following reserves and assign them on the balance sheet:

c. A minimum ninety (90) days or 25% of operating expenses, will be reserved in fund balance. These funds are designated to be used to offset any potential revenue shortfall that occurs during the fiscal year.

Compliance Status – Contingency Reserve FY2027 in partial compliance. It will take several years to build up this reserve through cost of service rate increases.

d. A debt service reserve equal to 1x the upcoming debt service payment for existing debt (example - FY2020 reserve = FY2021 debt payment before new sale).

Compliance Status – Debt Service Reserve FY2027 in compliance.

11. Electric Fund – The Electric Fund will maintain the following reserves and assign them on the balance sheet:

a. Operations Contingency Reserve – A minimum ninety (90) days or 25% of operating expenses, designated for unexpected or emergency use during the fiscal year. This reserve excludes purchased power expenses. This reserve includes labor expenses for capital projects. The targeted reserve amount is 120 days, and the maximum amount is 365 days.

Compliance Status – Operating Contingency reserve FY2027 in compliance.

b. Rate Stabilization Reserve – An amount to adequately mitigate the financial risks posed by the wholesale power market, with a target of 4 months (120 days) of the average monthly purchased power costs for the budgeted year. The purpose of this reserve is to protect against energy market exposure and volatility, and to maintain wholesale power contracts and stability until expenses are recovered through revenue generated in the Power Cost Adjustment Factor.

Compliance Status – Rate stabilization reserve FY2027 in compliance.

c. Non-Operating Contingency Reserve – to maintain continuity and begin recovery process from a natural disaster during the lag time of revenue recovery:
   - 1% of historical rate base (total capital assets net of accumulated depreciation)
   - A minimum of 25% of the current year CIP for Ordinary Replacement
   - At least 50% of annual debt service payment

Compliance Status – Non-operating reserve FY2027 in compliance.

d. Uses of Unanticipated and Unappropriated Electric Fund Balances – In the event that fund balance in the Electric Fund exceeds recommended minimum cash as enumerated in the above reserves, the funds may be used for the following purposes as approved by the City Council:
   - Reduce the Power Cost Adjustment
   - Reduce outstanding utility debt
   - Fund capital projects
   - Fund other one-time projects or equipment
   - Increase reserves

12. Airport Fund – The Airport Fund will maintain the following reserves and assign them on the balance sheet:
    a. A contingency reserve of ninety (90) days of operating expenses will be maintained in the fund for unforeseen or emergency expenditures. The reserve will represent all operating expenses minus fuel costs and any transfers.

    Compliance Status – Contingency Reserve FY2027 in compliance.

    b. A debt service reserve equal to 1x the upcoming debt service payment for existing debt (example - FY2020 reserve = FY2021 debt payment before new sale).

    Compliance Status – Debt Service Reserve FY2027 in compliance.

13. GEDCO Fund –
    a. A contingency reserve equal to 25% of budgeted sales tax revenue.
    Compliance Status – Contingency Reserve FY2027 in compliance.

    b. A debt service reserve equal to 1x the upcoming debt service payment for existing debt (example - FY2020 reserve = FY2021 debt payment before new sale).

    Compliance Status – Debt Service Reserve FY2027 in compliance.

14. GTEC Fund –
    a. A contingency reserve equal to 25% of budgeted sales tax revenue.

    Compliance Status – Contingency Reserve FY2027 in compliance.

    b. A debt service reserve equal to 1x the upcoming debt service payment for existing debt (example - FY2020 reserve = FY2021 debt payment before new sale).

    Compliance Status – Debt Service Reserve FY2027 in compliance.

15. Rivery TIRZ Fund – A debt service reserve equal to 1x the upcoming debt service payment for existing debt (example - FY2020 reserve = FY2021 debt payment before new sale).

    Compliance Status – Debt Service Reserve FY2027 in compliance.

16. Downtown TIRZ Fund – A debt service reserve equal to 1x the upcoming debt service payment for existing debt (example - FY2020 reserve = FY2021 debt payment before new sale).

Compliance Status – Debt Service Reserve FY2027 in compliance.

17. General Debt Service Fund – A reserve equal to 30 days of the prior annual debt service requirement, in accordance with IRS guidelines.

Compliance Status – Debt Fund Reserve FY2027 in compliance.

For all other funds, the fund balance is an indication of the balance of each particular fund at a specific time. The ultimate goal of each such fund is to have expended the fund balance at the conclusion of the activity for which the fund was established.

Reserve requirements will be calculated as part of the annual budget process and any additional required funds to be added to the reserve balances will be appropriated within the budget.

Funds in excess of the minimum reserves within each fund may be expended for City purposes at the will of the City Council once it has been determined that use of the excess will not endanger reserve requirements in future years. This action requires an amendment to the City's Annual Budget and is outlined in *Section III. J. Use of Unanticipated and Unappropriated General Fund Balances.*

B. Liabilities and Receivables – Procedures will be followed to maximize discounts and reduce penalties offered by creditors. Current liabilities will be paid within 30 days of receiving the invoice. Accounts Receivable procedures will target collection for a maximum of 60 days of service. The Chief Financial Officer is authorized to write-off non-collectible, non-utility accounts that are delinquent for more than 180 days, and utility accounts delinquent more than 180 days, provided proper delinquency procedures have been followed, and include this information in the Annual Financial Report to the City Council.

C. Capital Project Funds – Every effort will be made for all monies within the Capital Project Funds to be expended in a timely manner, preferably within thirty-six (36) months of receipt. Due to the long timeline of some projects, unused cash or bond proceeds will be reserved on the fund schedule and appropriated when needed. The fund balance will be invested, and income generated will offset increases in construction costs or other costs associated with the project. Capital project funds are intended to be expended totally, with any unexpected excess to be approved for use according to the bond covenant and opinion of bond counsel.

D. Investment of Reserve Funds – The reserve funds will be invested in accordance with the City's investment policy.

E. Ratios Analysis – Ratios and significant balances will be incorporated into the annual bond rating book for the Electric and Water Funds. The following ratios/balances will be used as key financial indicators:

- Revenue Bond Covenant Debt Coverage Ratio
- Rating Agency Days Cash on Hand
- Rating Agency Fixed Cost Coverage Ratio / Coverage of Full Obligations
- Rating Agency Leverage Ratio

The City will develop minimum/maximum levels for the above ratios/balances through analyzing of City historical trends and future projections as part of the cost of service and five-year forecast modeling process.

XVI. RISK MANAGEMENT AND INTERNAL CONTROLS

A. Written Procedures – Wherever possible, written procedures will be established and maintained by the Chief Financial Officer for all functions involving cash handling and/or accounting throughout the City. These procedures will embrace the general concepts of fiscal responsibility set forth in this policy statement.

B. Internal Audit Program – An internal audit program will be maintained by the Chief Financial Officer to ensure compliance with City policies and procedures and to prevent the potential for fraud.

1. Departmental Audits – departmental processes will be reviewed to ensure dual control of City assets and identify the opportunity for fraud potential, as well as, to ensure that departmental internal procedures are documented and updated as needed.

2. Employees or Transaction Review – Programs to be audited include Petty Cash, City Credit Card accounts, time entry, and travel. All discrepancies will be identified, and the employee's Director will be notified. The City Manager will also be notified depending on the seriousness of the infraction.

3. Fraud Awareness and Reporting – The City will maintain its personnel policy regarding fraud. They will maintain an arrangement with a third party for anonymous reporting of fraud, waste, or abuse of City resources. The City will provide training to all City employees on recognizing and reporting fraud.

4. The Chief Financial Officer and City Manager will present an annual audit plan to the Audit and Finance Sub-Committee. Results of all internal audits will be provided to the Sub-Committee and City Council at year-end.

C. Directors Responsibility – Each Director is responsible for ensuring that good internal controls are followed throughout their department, that all Finance Division directives are implemented and that all independent auditor internal control recommendations are addressed. Departments will develop and periodically update written internal control procedures.

D. Cybersecurity – The Information Technology department shall regularly assess new forms of security risk and maintain multiple layers of protections and controls to thwart cyber attacks. The City will provide regular cybersecurity awareness training for all employees.

E. Electric Utility Risk – Chapter 13.38 of the City's Code of Ordinances establishes Council's authority to oversee all risk of the Electric utility including Congestion Revenue Rights auctions, wholesale power agreements, futures contracts, and other transactions that expose the City to significant risk.

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
Second Reading - Electric Rate Ordinance Updates

SUGGESTED ACTION:
Second reading and final approval of an Ordinance amending amending Chapter 13.04 of the City Code relating to electric rates, fees, and service provisions -- Daniel Bethapudi, Electric Utility General Manager

ITEM SUMMARY:
Second reading of an ordinance amending Chapter 13.04 of the City Code relating to electric rates, fees, and service provisions. The proposed amendments modernize the Electric Rate Ordinance, improve administrative clarity, enhance electric system reliability, and align the ordinance with current utility operations, industry practices, and the City's long-term financial objectives. The proposed revisions were presented to the Electric Utility Advisory Board during its June 2026 meeting and approved by the City Council on first reading. The ordinance updates utility service requirements, customer rate classifications, and electric system operations. Key revisions include requiring utility access rights for new electric services, adding a Definitions section, establishing a Power Pedestal rate class, clarifying the City's authority during ERCOT-directed curtailments and emergency operations, assigning customer responsibility for damage caused by excessive load or voltage disturbances, and requiring City authorization before participation in demand response programs that may affect electric system operations. The ordinance also updates the Very Large Commercial and Industrial Rate Schedule by revising the Energy Rate Rider calculation methodology, adjusting applicable rates and fees, establishing a month-to-month energy rate for customers without an executed Electric Service Agreement, and clarifying the Primary Voltage Discount. In addition, the ordinance establishes a Large Commercial and Industrial month-to-month energy charge, effective September 1, 2026, for customers without an executed Electric Service Agreement. Final approval is recommended to strengthen operational and financial safeguards, improve cost recovery, protect utility infrastructure, and support the continued safe, reliable, and fiscally responsible delivery of electric service.

FINANCIAL IMPACT:
The amendments are expected to improve cost recovery, strengthen the Electric Utility's financial position, and reduce financial risk by aligning rates, fees, and service provisions with the cost of providing electric service. The fiscal impact will vary based on customer demand and participation.

Electric Rate Ordinance Updates: Second Reading

Daniel Bethapudi | Electric Utility General Manager
Michael Simpson| Portfolio Analyst
9/8/26

GEORGETOWN
TEXAS

Staff Recommendations

I. These Ordinance updates were presented to the Electric Board on July 16, 2026, and the Electric Board recommends the proposed options.

II. These Ordinance updates were presented at City Council during Workshop on July 14, 2026.

III. The first reading occurred on August 11, 2026

IV. Staff recommends these updates to the Electric Rate Ordinance.

V. These Ordinance updates will be effective October 1, 2026.

Electric Rate Ordinance Updates Since First Reading

Additional review has identified the following updates to the rate ordinance that shall be captured in the second reading:

The utility is proposing to make several changes to our rate ordinance, including:

1. Sec. 13.04.011: Updated definition of Billed Demand
2. Sec. 13.04.045, 13.04.0451, 13.04.046, & 13.04.0461:
    a. Clarification of demand thresholds between Large Commercial & Industrial and Very Large Commercial & Industrial
    b. Clarified minimum bill calculation
    c. Clarified power factor calculation to be done during the peak demand interval
    d. Inclusion of Primary Voltage Discount eligibility to Month-to-Month Very Large Commercial & Industrial Month-to-Month customers
3. Sec. 13.04.084: Inclusion of Month-to-Month Large Commercial & Industrial & Month-to-Month Very Large Commercial & Industrial customers in EE&C fee schedule

Sec. 13.04.011: Billed Demand Definition

Staff is proposing to modify the definition of "Billed Demand" to clarify that it shall be the highest of the measured demand, minimum demand, or the ratcheted demand (where applicable).

1. Original language: "May be based on the measured peak demand, minimum demand, ratcheted demand"
2. Proposed language: "Shall be based on the highest of the measured peak demand, minimum demand, ratcheted demand"

Sec. 13.04.045, 13.04.0451, 13.04.046, & 13.04.0461

Staff is proposing four updates to the ordinance language for the LC&I, Month-to-Month LC&I, VLC&I, and Month-to-Month VLC&I rate classes:

1. Clarifying the 10,000 kW threshold between the LC&I and VLC&I rate classes, and the 49,999 kW upper threshold of the VLC&I class.
2. Simplifying the language around how Minimum Bills are calculated.
3. Clarifying that the monthly power factor calculation shall be done during the monthly 15-minute peak demand.
4. Inclusion of primary voltage discount eligibility for Month-to-Month Very Large Commercial & Industrial customers.

Sec. 13.04.084: EE&C Fee Schedule

Staff is proposing to include the Month-to-Month LC&I and VLC&I customers in the EE&C Fee Schedule at the same rate as LC&I and VLC&I customers

1. Monthly EE&C fee for month-to-month LC&I and VLC&I customers of $25 per month.

Rate Class	Fee
Residential	$1.00
Net Energy Metering—Residential	$1.00
Small General	$1.00
Net Energy Metering—Small General	$1.00
School	$5.00
Municipal Water and Wastewater Pumping	$5.00
Municipal	$5.00
Large General	$10.00
Commercial & Industrial	$15.00
Large Commercial & Industrial	$25.00
Month-to-Month Large Commercial & Industrial	$25.00
Very Large Commercial & Industrial	$25.00
Month-to-Month Very Large Commercial & Industrial	$25.00

Electric Rate Ordinance Second Reading

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, AMENDING CHAPTER 13.04, TITLE 1 ENTITLED "ELECTRIC RATES" OF THE CODE OR ORDINANCES OF THE CITY OF GEORGETOWN RELATING TO ELECTRIC SERVICE RATES FOR VARIOUS CUSTOMER CLASSES; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; PROVIDING A SEVERABILITY CLAUSE; PROVIDING FOR PUBLICATION; AND ESTABLISHING AN EFFECTIVE DATE.

Other Changes Already Presented in First Reading

Electric Rate Ordinance Changes

The utility is proposing to make several changes to our rate ordinance, including:

1. Sec. 13.04.010: Requirement for new customers to provide service access rights to the Utility for installation and maintenance.
2. Sec. 13.04.011: Adding a "Definitions" section to clearly define the terms used within the rate ordinance, such as:
    a. Difference between "Actual Demand" and "Billed Demand"
    b. Difference between "Requested Load", "Connected Load", "Design Load", and "Installed Capacity"
3. Sec. 13.04.012: Adding a "Initial Rate Classification" section to explain how new customers are assigned to their initial rate classes
    a. Includes description of how customers may be reassigned to a new rate class based on actual operating history.
4. Sec. 13.04.030: Adding a Primary Voltage Discount for Municipal water and wastewater pumping service.
5. Sec. 13.04.045: Adding a "Month-to-Month" rate for Large Commercial & Industrial customers who do not sign an Energy Service Agreement.
6. Sec. 13.04.060: Creation of a "Power Pedestal" Rate Class
7. Sec. 13.04.081: New section detailing the City's right to curtail energy due to ERCOT directives, force majeure, and outages.
8. Sec. 13.04.082: New Section detailing customer's financial liability for causing damage to the electric system
    a. Damage caused by usage exceeding installed capacity, or usage which causes voltage disturbances
9. Sec. 13.04.083: Requirement for customers to receive the City's authorization prior to participating in demand response programs.
10. Sec. 13.04.046: Updated Very Large Commercial & Industrial (VLC&I) Rate Ordinance
    a. Energy Rate Rider (ERR) Calculation Methodology
    b. Customer Charge
    c. Account Set-Up Fee
    d. Month-to-Month Rate
    e. Other provisions

Sec. 13.04.046: VLC&I RATE ORDINANCE CHANGES

Staff is proposing six updates to the VLC&I Rate ordinance:

1. Updating the VLC&I Energy Rate Rider Calculation based on lessons learned since implementation in June 2025.
2. Increasing the VLC&I Energy Rate Rider to $0.0110/kWh
   a. Currently $0.0082/kWh
3. Increasing the VLC&I Customer Charge to $8,125/Month
   a. Currently $5,615/Month
4. Increasing the VLC&I Set-Up Fee to $27,349
   a. Currently $25,645
5. Creation of a VLC&I "Month-to-Month" rate for customers who do not sign ESAs
   a. Current VLC&I Energy Rate: $0.0543/kWh
   b. Rate for customers on a month-to-month rate: $0.08755/kWh
6. More descriptive Primary Voltage Discount definition
7. Requirement for VLC&I Customers to take service at the Primary Voltage.

Sec. 13.04.045: LC&I RATE ORDINANCE CHANGES

Staff is proposing one update to the Large Commercial & Industrial (LC&I) Rate Class:

1. Creation of a LC&I "Month-to-Month" rate for customers who do not sign ESAs
    a. Current LC&I Energy Rate: $0.0543/kWh
    b. Rate for customers on a month-to-month rate: $0.08755/kWh

Sec. 13.04.060: POWER PEDESTAL

Staff is proposing to create a “Power Pedestal” rate class to better serve temporary or seasonal loads related to festivals or public events.

Applicability

Unmetered power pedestals designed to serve multiple temporary loads, which do not qualify for any other established rate schedule.

Proposed Rates:

Customer Charge - $0 / Month

Energy Charge - $0.1205 / kWh

Power Cost Adjustment - $0.01375 / kWh

Sec. 13.04.030: MUNICIPAL WATER & WASTEWATER PUMPING RATE ORDINANCE CHANGES

Staff is proposing one update to the Municipal Water & Wastewater Pumping rate:

1. Addition of the Primary Voltage Discount for Municipal Water & Wastewater Pumping locations that take service at the primary meter.
    1. Proposed discount of $2.24/kW on the demand charge.

Sec. 13.04.010. Rates and charges—Electricity—Schedule.

The monthly rates and charges for the sales made of services rendered by the electric system of the City are established, levied, fixed, and prescribed as set forth in Sections 13.04.010 through 13.04.100. Electric service rendered under this Article is subject to the City's Rules and Regulations, engineering standards and service standards.

By applying for or accepting electric service, the customer shall provide the City access to the customer's premises and electric facilities as necessary for the installation, inspection, operation, maintenance, repair, replacement, reading, disconnection, or removal of City facilities, meters, and equipment, subject to the City's Rules and Regulations. The City may require easements, access rights, or other documentation as a condition of service where necessary to provide safe and reliable service.

Sec. 13.04.011 Definitions

For purposes of this Article, the following terms shall have the meanings set forth below:

1. **Actual Demand.** Actual Demand means the maximum rate at which electric energy is used by a customer, expressed in kilowatts (kW), and measured over a 15-minute interval during the billing period, or such other interval as established by the City's metering standards. Demand is a measure of power and is not a measure of total energy consumption.
2. **Allocated Capacity.** Allocated Capacity means the maximum allowed distribution infrastructure capacity designed and allocated to the Facility based on the Customer's specified load requirements, including Peak Demand and energy needs. This capacity ensures sufficient distribution capacity to meet Peak Demand under normal operating conditions, including substation and feeder capacity.
3. **Billed Demand.** Billed Demand means the kilowatt (kW) demand used to calculate the customer's demand charge under the applicable rate schedule. Billed Demand shall be based on the highest of the measured Peak Demand, minimum demand, ratcheted demand (where applicable), power factor adjustment, or other provisions of the applicable rate schedule or electric service agreement.
4. **City**. The City of Georgetown, Texas, [a home rule municipal corporation that owns and operates a municipal electric utility system known as Georgetown Utility Systems].
5. **City's Rules and Regulations**. City's ordinances, policies, rate schedules, including description of utility services, billing adjustments, policies, service rules and regulations, and other regulatory measures enacted or adopted by City, including its departments, boards and commissions, as may be amended from time to time by the City in its sole discretion, all said regulations being duly adopted.
6. **Connected Load.** Connected Load means the combined electrical capacity or rating of the customer's motors, equipment, appliances, devices, and other electric-consuming facilities that are or will be connected to the customer's electrical system, whether expressed in kilowatts (kW), kilovolt-amperes (kVA), horsepower, amperes, or other electrical units, as converted or evaluated by the City.
7. **Customer or customer**. A person who is currently receiving retail electric service from City in the person's own name or the name of the person's spouse, or the name of an authorized representative of a partnership, corporation, or other legal entity receiving retail electric service from City.
8. **Design Load.** Design Load means the City's estimate of the customer's expected maximum demand, expressed in kilowatts (kW), after applying applicable diversity factors, operating

assumptions, and engineering judgment to the customer's Requested Load, Connected Load, and Load Analysis. Design Load may be used to determine initial rate classification, transformer size, service requirements, and other facilities necessary to serve the customer.

9. **Installed Capacity.** Installed Capacity means the maximum allowed distribution infrastructure capacity, including site-specific infrastructure, designed and installed by City at the Facility and designated to serve the Customer's load requirements, including Peak Demand and energy needs. This capacity ensures sufficient distribution capacity to meet Peak Demand under normal operating conditions. Installed Capacity includes substation and feeder capacity. Installed Capacity may be expressed in kilowatts (kW) or kilovolt-amperes (kVA).

10. **Load Analysis.** Load Analysis means the documentation, engineering review, and evaluation used by the City to determine expected load characteristics, service requirements, rate classification, metering requirements, transformer sizing, system impacts, and any required customer-specific facilities. A Load Analysis may include Requested Load, Connected Load, operating schedules, diversity factors, power factor, motor-starting characteristics, load factor, planned expansions, and other information required by the City.

11. **Peak Demand.** Peak Demand means the highest Actual Demand recorded for a customer during the applicable billing period, expressed in kilowatts (kW), and measured over a 15-minute interval, or such other interval as established by the City's metering standards.

12. **Requested Load.** Requested Load means the total electrical load requested by the customer or the customer's representative as part of a service request, Load Analysis, Electric Line Extension, and Electric Metering Policy application, plans, specifications, or other documentation submitted to the City. Requested Load may include existing load, proposed load, future load, and any planned expansion identified by the customer.

Sec. 13.04.012. Customer classification and demand determination.

A. Customer Classification

1. Regardless of Design Load, Actual Demand, Installed Capacity, or other classification criteria, a customer shall be assigned to the rate schedule applicable to the premises' final intended use, which may differ from the use during construction, as determined by the City from the customer's application and other reasonably required documentation.

B. Initial Rate Classification

1. For new or modified service under 2,000 kW, the City shall assign the applicable rate class based on the customer's Design Load, as determined from the customer's Load Analysis, except as otherwise provided herein.

2. For new or modified service with a Design Load of 2,000 kW or greater, the City shall assign the applicable rate class based on the customer's Installed Capacity or Allocated Capacity on the date of initial energization, as determined solely by the City.

3. For Customers requesting service at existing premises, the City shall not automatically assign the prior customer's rate classification. The City shall consider the following in determination the appropriate rate classification:

   i. If the new customer's expected use is substantially similar to the prior use, the City may use recent demand history to establish the initial rate classification.

   ii. If demand history is unavailable or not representative, the City may require a Load Analysis and classify the customer based on Design Load or Installed Capacity, as applicable. Existing meters, transformers, or other service facilities do not determine the customer's rate classification or service entitlement.

iii. The City may require the customer, at the customer's expense, to make or fund electric distribution infrastructure changes necessary to provide safe and reliable service and comply with the City's service and engineering standards.

iv. The City may reclassify the customer's initial rate classification based on actual usage and Demand data as outlined in Section C below.

C. Rate Class Reclassification based on Demand

1. This subsection applies only to customers with a Design Load or Installed Capacity under 2,000 kW.

2. The City shall reclassify a customer to a higher rate class if the customer's Actual Demand exceeds the applicable demand threshold for that rate class in three (3) or more billing periods within a consecutive twelve (12) month period . The City may require the customer, at the customer's expense, to make or fund electric distribution infrastructure changes necessary to provide safe and reliable service and comply with the City's service and engineering standards.

3. Upon customer's request, the City may reclassify a customer to a lower rate class if the customer's Actual Demand remains below the applicable demand threshold for twelve (12) consecutive months. The City may require the customer, at the customer's expense, to make or fund electric distribution infrastructure changes necessary to provide safe and reliable service and comply with the City's service and engineering standards.

4. Reclassification shall be applied prospectively beginning with the next billing cycle following determination by the City and shall not be applied retroactively.

5. A customer shall not operate electric load in excess of its Installed Capacity, Allocated Capacity, contract demand, or other capacity limit established by the City without the City's prior written approval. If a customer exceeds such limit, the City may require load reduction, additional infrastructure, additional credit support, revised forecasts, a revised electric service agreement, payment of all incremental costs, or a separate service arrangement. The customer shall be responsible for all costs, charges, penalties, ERCOT settlement amounts, procurement costs, infrastructure costs, and administrative costs incurred by the City as a result of such excess load.

6. A customer shall not be eligible for a reduction in rate class based on Actual Demand if the customer has incurred two or more delinquencies within the preceding twelve-month period.

Sec. 13.04.015. Residential service.

A. Availability. This schedule is available to single-phase residential customers for all domestic uses in residences, individual family apartments, and private rooming houses. This schedule is not available to single metered multi-family dwellings. For residential customers other than single-phase, the City, at its sole discretion, may review and apply another appropriate rate schedule for such customer. .

Where a portion of a residential unit is used for nonresidential purposes, the appropriate nonresidential service schedule is applicable to all uses of electric service. However, this rate schedule may be applied to the residential portion of such use provided the customer's wiring is so arranged that use of the electric service for residential purposes can be metered separately from the nonresidential use. Service rendered under this rate is subject to the City's Rules and Regulations.

B. Net Monthly Rate.

1. Customer Charge: $25.32 per month.

2. Energy Charge: $0.0978 per kWh.

3. Minimum Bill: $25.32 per month.

4. Multiple Dwelling Units. Where served under one meter shall be billed under the applicable commercial rate.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

F. Residential customers may request a low-income electric discount that is 30 percent below the current customer charge (base rate) as follows:

1. Request for low-income discount must be made in writing.
2. To qualify for the discount, customer or a permanent resident in the household must participate in the Medicaid Program or such other federal, state, and local government entitlement programs that meet the 200 percent Federal Poverty Income Level (FPIL) eligibility guidelines and are approved by City, and provide verifiable proof of that participation, such as an award letter or other official documentation.
3. Requests for the low-income discount must be renewed annually.

Sec. 13.04.018. Net energy metering (NEM) service.

A. Availability. Available to residential and small general service customers within the City's electric service area that own distributed energy resource (DER) facilities.

The following requirements must be met for customers to be served under NEM:

- Customer has executed an interconnection agreement with City, and City has approved their completed net metering service application.
- DER facility is customer owned and powered by a renewable resource, including, but not limited to, solar, wind, and geothermal sources.
- For all DER facilities approved by the City after October 1, 2020, the DER facility's Installed Capacity must be no greater than ten kW-DC (kilowatts direct current) and receive service at 600 volts or less.
- DER facility is located at the customer's premises, or that is appropriately connected to City's electric distribution system, as solely determined by City.

B. Metering. For DER installations before June 22, 2021, customers served under NEM will have two electric meters installed by City at the customer's premises: a DER Meter, which measures the total amount of generated electricity from the customer's DER facility, and a bi-directional meter that measures both the volumetric energy and renewable energy - received, as defined herein. These bi-directional meter readings are used for generating the NEM customer's monthly bill. For all DER installations for NEM customers after June 22, 2021, DER meters are not required; only bi-directional meters will be installed.

C. Meter Definitions.

"Bi-directional meter." An electric meter with separate registers that measures and records, on an interval basis, the flow of electricity from City to the NEM customer (volumetric energy) as well as the flow of electricity from the customer's DER facility to City (renewable energy - received), as applicable.

"DER Meter." The DER meter measures the total amount of energy generated by the customer's DER facility. The meter records "renewable energy - generated."

D. Energy Definitions.

"Renewable energy generated." The total energy produced by the customer's DER facility for the billing period, as measured and recorded by the DER meter. No charges or credits are associated with the renewable energy - generated. This information is provided to City, and is identified on the customer's bill, for informational purposes only.

"Renewable energy received." Any excess metered energy generated from the customer's DER facility that is not used on-site at the customer's premises and flows back to City during a billing cycle. The renewable energy - received is measured by the bi-directional meter and recorded on an interval basis. City pays NEM customers a credit per kilowatt hour of the renewable energy - received.

"Volumetric energy." The amount of metered energy delivered by City to the customer's premises during a billing cycle. This value is measured by the bi-directional meter and recorded on an interval basis. NEM customers pay City per kilowatt hour for volumetric energy.

E. Charges for Service Definitions.

"Base rate." The base rate is the customer charge for the applicable customer class in which the NEM customer exists. The base rate is a per customer charge on a $/month basis.

"Volumetric energy charge." The volumetric energy charge is the energy charge for the applicable customer class in which the NEM customer exists. The volumetric energy charge is applied to the volumetric energy on a $/kWh basis.

"Renewable energy received credit." The renewable energy - received credit is an energy rate ($/kWh) applied to the NEM customer's renewable energy - received. City pays NEM customers a credit per kilowatt hour for renewable energy - received. The credit on the customer's bill is subject to the limitations discussed in item I.

"Power cost adjustment (PCA)." The PCA charge under this rate schedule shall be increased or decreased to reflect the application of a PCA per kWh of energy delivered by City (volumetric energy) during the billing cycle, as calculated in accordance with Section 13.04.075.

"Transmission delivery cost adjustment (TDCA)." The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy delivered by City (volumetric energy), as calculated in accordance with Section 13.04.080.

F. Reserved.

G. Monthly Rates for NEM Customers. Rates are subject to change as described herein.

Residential Service:

1. Base Rate: $25.32 per month.

2. Volumetric Energy Charge: $0.0978 per kWh.

3. Renewable Energy. The received credit shall be calculated on an annual basis according to the following formula:

$$Credit\left(\frac{\$}{kWh}\right) = \frac{Weighted\ Avg.\ Market\ Price\left(\frac{\$}{kWh}\right) + Avg.Transmission\ Capacity\ Cost\ (\frac{\$}{kWh})}{1 - Losses\ (\%)}$$

Where "weighted avg. market price" represents the previous year's weighted average locational marginal prices coincident with solar producing hours at the Electric Reliability Council of Texas (ERCOT) South Load zone. The periods coincident with ERCOT and/or Public Utility Commission of Texas declared controlled outages and/or grid emergencies are not included in the weighted avg. market price calculation. The "avg. transmission capacity cost" represents the previous year's average transmission-cost-of-service (TCOS) charges ($/kWh) paid by the Utility for transmission, and "losses" represents the most recently calculated value for City's distribution system losses as a percent.

4. PCA: (as determined in Section 13.04.075).

5. TDCA: (as determined in Section 13.04.080).

Small General Service:

1. Base Rate as a City Electric Customer: $51.05 per month.
2. Volumetric Energy Charge: $0.0921 per kWh.
3. Renewable Energy. The received credit shall be calculated on an annual basis according to the following formula:

$$Credit\left(\frac{\$}{kWh}\right) = \frac{Weighted\ Avg.\ Market\ Price\left(\frac{\$}{kWh}\right) + Avg.Transmission\ Capacity\ Cost\left(\frac{\$}{kWh}\right)}{1 - Losses\ (\%)}$$

Where "weighted avg. market price" represents the previous year's weighted average locational marginal prices coincident with solar producing hours at the Electric Reliability Council of Texas (ERCOT) South Load zone. The periods coincident with ERCOT and/or Public Utility Commission of Texas declared controlled outages and/or grid emergencies are not included in the weighted avg. market price calculation. The "avg. transmission capacity cost" represents the previous year's average transmission-cost-of-service (TCOS) charges ($/kWh) paid by the Utility for transmission, and "losses" represents the most recently calculated value for City's distribution system losses as a percent.

4. PCA: (as determined in Section 13.04.075).
5. TDCA: (as determined in Section 13.04.080).

H. Renewable Energy—Received Credit—Annual Update. The renewable energy - received credit will be reviewed and may be adjusted on an annual basis by City according to the formula above.

I. Limit on Renewable Energy—Received Credit. For a billing cycle, and for the purposes of calculating the renewable energy - received credit, the excess renewable energy (kWh) City receives from NEM customers cannot be greater than the volumetric energy (kWh) City delivers to the customer's premises. Renewable energy - received that is in excess of the volumetric energy during the billing cycle is not eligible for compensation to the NEM customer by City. Such excess energy may not be banked by the NEM customer nor rolled over to the following or future billing period(s). Further, such excess energy cannot be utilized to offset other City charges on the NEM customer bill.

J. Sales Taxes. Sales taxes, where applicable, will be charged to the customer, as appropriate, in addition to the above rates.

Sec. 13.04.020. Small general service.

A. Availability. Applicable to nonresidential customers whose Actual Demand is equal to or less than 49 kilowatts (kW) and whose uses are not covered by another specific rate schedule.

B. Net Monthly Rate.

1. Customer Charge: $51.05 per month.
2. Energy Charge: $0.0921 per kWh.
3. Minimum Bill: $51.05 per month.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.025. School services.

A. Availability. Applicable to electric service provided to a school, defined as an educational institution that is recognized, accredited, or otherwise authorized by the State of Texas, including but not limited to:

1. Public school districts and open-enrollment charter schools governed under the Texas Education Code; and
2. Institutions of higher education recognized by the Texas Higher Education Coordinating Board.

Eligibility for service under this rate shall be determined by the City based on documentation demonstrating such recognition or authorization under applicable state law.

Electric service provided to facilities or portions of facilities used for non-educational, commercial, residential, or revenue-generating purposes shall be separately metered and billed under the applicable rate schedule. If such uses are not separately metered, the City may determine the appropriate rate classification.

B. Net Monthly Rate.

1. Customer Charge: $204.02 per month.
2. Energy Charge: $0.1174 per kWh.
3. Minimum Bill: $204.02 per month.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.030. Municipal water and wastewater pumping service.

A. Availability. Applicable to City-owned facilities with electric service furnished for water and wastewater pumping. Service rendered under this rate is subject to the City's Rules and Regulations.

B. Net Monthly Rate.

1. Customer Charge: $199.10 per month.
2. Energy Charge: $0.04600 per kWh.
3. Demand Charge: $19.99 per kW per month.
4. Minimum Bill: $199.10 per month.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Primary Voltage Discount.

Primary Voltage is the nominal electrical voltage of 24.9 kV / 14.4 kV, expressed as a ratio of phase-to-phase voltage over phase-to-neutral voltage, at which the City delivers three-phase medium-voltage AC power to the Point of Service, measured immediately upstream of the Customer-owned transformation equipment utilized to step down such electrical energy for final utilization.

A Primary Voltage Customer is a customer that receives electric service directly from the City's electric distribution system at 24.9 kV / 14.4 kV.

1. Applicable to Municipal water and wastewater pumping service locations that receive electric service at primary distribution voltage and that own, operate, and maintain all facilities on the customer side of the point of interconnection, including but not limited to transformation, protection, and distribution equipment.
2. Monthly Demand Discount Rate. Primary voltage customers' Actual Demand will be reduced (credited) by $2.24/kW.

F. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.035. Large general service.

A. Availability. Applicable to nonresidential customers whose Actual Demand is equal to or greater than 50 kilowatts (kW) but less than 499 kilowatts (kW), and whose uses are not covered by another specific rate schedule, as determined in accordance with Section 13.04.012.

B. Net Monthly Rate.

1. Customer Charge: $178.68 per month.
2. Energy Charge: $0.0668 per kWh.
3. Demand Charge: $11.23 per kW per month, but not less than $561.50 per month.
4. Minimum Bill: $740.18 per month.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Minimum Bill. The minimum bill for Large general service shall consist of the customer charge plus the minimum Billed Demand charge.

F. Minimum Billed Demand. The minimum demand for the Large general service class is 50 kW.

G. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.040. Commercial and industrial (C&I).

A. Availability. Applicable to nonresidential customers whose Actual Demand is equal to or greater than 500 kilowatts (kW) but less than 1,999 kilowatts (kW), and whose Installed Capacity is less than 2,000 kVa, and whose uses are not covered by another specific rate schedule, as determined in accordance with Section 13.04.012.

B. Net Monthly Rate.

1. Customer Charge: $357.35 per month.
2. Energy Charge: $0.0577 per kWh.

3. Demand Charge: $16.34 per kW per month, but not less than $8,170.00 per month.

4. Minimum Bill: $8,527.35 per month.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Minimum Bill. The minimum bill for commercial and industrial service shall consist of the customer charge plus the minimum demand charge.

F. Minimum Billed Demand. The minimum demand for the commercial and industrial class is 500 kW.

G. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.045. Large commercial and industrial (C&I) service

A. Availability. Applicable to non-residential customers whose Installed Capacity or Allocated Capacity is equal to or greater than 2,000 kilowatts (kW) but less than 10,000 kilowatts (kW), as determined in accordance with Section 13.04.012. The City reserves the right in its sole discretion to require certain customers eligible for this rate schedule to enter into an electric service agreement with the City ("Electric Service Agreement").

B. Monthly Rate.

1. Customer Charge: $520.71 per month.

2. Energy Charge: $0.0543 per kWh.

3. Demand Charge: $19.65 per kW per month but not less than $39,300.00 per month.

4. Minimum Bill: $39,820.71 per month.

C. Power Cost Adjustment. The power cost adjustment charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The transmission delivery cost adjustment charge under this rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Minimum Bill. The minimum bill for large commercial and industrial service shall consist of the customer charge plus the minimum demand charge.

F. Minimum Billed Demand. The minimum demand for the large commercial and industrial class is 2,000 kW.

G. Power Factor. Should the power factor be lower than 0.95 lagging during the monthly peak 15-minute interval, the City may adjust the Billed Demand (kW) by the ratio of target power factor in the numerator (0.95) divided by the actual power factor in the denominator (less than 0.95). If the power factor ratio is greater than a value of 1.0, it will be multiplied by the billing cycle's Billed Demand applicable to the customer.

H. Primary Voltage Discount.

Primary Voltage is the nominal electrical voltage of 24.9 kV / 14.4 kV, expressed as a ratio of phase-to-phase voltage over phase-to-neutral voltage, at which the City delivers three-phase medium-voltage AC power to the Point of Service, measured immediately upstream of the Customer-owned transformation equipment utilized to step down such electrical energy for final utilization.

A Primary Voltage Customer is a customer that receives electric service directly from the City's electric distribution system at 24.9 kV / 14.4 kV.

1. Applicable to large commercial and industrial customers that receive electric service at primary distribution voltage and that own, operate, and maintain all facilities on the customer side of the point of interconnection, including but not limited to transformation, protection, and distribution equipment.
2. Monthly Demand Discount Rate. Primary voltage customers' Actual Demand will be reduced (credited) by $2.11/kW.
3. Minimum Bill. The minimum bill for primary voltage customers will be based on the minimum bill for their applicable customer class, as described herein. To the extent that the minimum bill includes the demand charge, calculation of the demand charge will reflect the applicable monthly demand discount rate.
4. Primary Voltage Discount Update. The primary voltage discount will be reviewed and may be adjusted periodically as determined by the City.

I. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.0451. Month-to-Month Large Commercial & Industrial Service.

A. Availability. Applicable to any customer who is required to enter into an Electric Service Agreement and fails to do so within a reasonable period of time, as determined by the City. The customer shall be subject to all provisions herein, as well as the following applicable rates. The customer shall be billed under the Month-to-Month Large Commercial & Industrial Service rates set forth below. Such rates are intended to recover the City's costs, risks, and administrative burdens associated with serving a very large load without agreed forecasting, credit support, operational controls, and wholesale market protections. Month-to-Month Large Commercial & Industrial Service shall continue until an electric service agreement is executed by both the City and the customer or service is otherwise terminated in accordance with this Article and the City's Rules and Regulations.

These rates will be in effect for Customer's electric service until such time as an Electric Service Agreement is signed by both Customer and City, at which time the rates provided in the Electric Service Agreement will apply. The City will make a good-faith effort to complete its review of the Electric Service Agreement and obtain approval in a timely manner.

B. Monthly Rate.

1. Customer Charge: $520.71 per month.
2. Energy Charge: $0.08755 per kWh.
3. Demand Charge: $19.65 per kW per month subject to Billed Demand as outlined in Section F below.
4. Minimum Bill: $39,820.71 per month.

C. Power Cost Adjustment. The power cost adjustment charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The transmission delivery cost adjustment charge under this rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Minimum Bill. The minimum bill for large commercial and industrial service shall consist of the customer charge plus the minimum demand charge.

F. Minimum Billed Demand. The minimum demand for the large commercial and industrial class is 2,000 kW.

G. Power Factor. Should the power factor be lower than 0.95 lagging during the monthly peak 15-minute interval, the City may adjust the Billed Demand (kW) by the ratio of target power factor in the numerator (0.95) divided by the actual power factor in the denominator (less than 0.95). If the power factor ratio is greater than a value of 1.0, it will be multiplied by the billing cycle Billed Demand applicable to the customer.

H. Primary Voltage Discount.

Primary Voltage is the nominal electrical voltage of 24.9 kV / 14.4 kV, expressed as a ratio of phase-to-phase voltage over phase-to-neutral voltage, at which the City delivers three-phase medium-voltage AC power to the Point of Service, measured immediately upstream of the Customer-owned transformation equipment utilized to step down such electrical energy for final utilization.

A Primary Voltage Customer is a customer that receives electric service directly from the City's electric distribution system at 24.9 kV / 14.4 kV.

1. Applicable to large commercial and industrial customers that receive electric service at primary distribution voltage and that own, operate, and maintain all facilities on the customer side of the point of interconnection, including but not limited to transformation, protection, and distribution equipment.
2. Monthly Demand Discount Rate. Primary voltage customers' Actual Demand will be reduced (credited) by $2.11/kW.
3. Minimum Bill. The minimum bill for primary voltage customers will be based on the minimum bill for their applicable customer class, as described herein. To the extent that the minimum bill includes the demand charge, calculation of the demand charge will reflect the applicable monthly demand discount rate.
4. Primary Voltage Discount Update. The primary voltage discount will be reviewed and may be adjusted, as determined by the City.

I. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.046. Very large commercial and industrial (C&I) service.

A. Availability

1. Applicable to nonresidential customers whose Installed Capacity is equal to or greater than 10,000 kW but less than 49,999 kW, including classification based on Installed Capacity where applicable.
2. Customers served under this rate shall be required to receive electric service directly from City's electric distribution system at "Primary Voltage" and they are eligible for the "Primary Voltage Discount"

   "Primary Voltage" is the nominal electrical voltage of 24.9 kV / 14.4 kV, expressed as a ratio of phase-to-phase voltage over phase-to-neutral voltage, at which the City delivers three-phase medium-voltage AC power to the Point of Service, measured immediately upstream of the Customer-owned transformation equipment utilized to step down such electrical energy for final utilization.
3. Customers served under this rate shall be required, as determined by the City, to enter into an electric service agreement, provide load forecasts, or meet additional operational, metering, or financial requirements necessary to support service to large loads and participation in wholesale power markets.
4. Customers shall enter into an Electric Service Agreement (ESA) with a maximum term of three (3) years, including any renewals, unless terminated in accordance with the ESA. In order to maintain a guarantee of future electric service capacity, the ESA must be signed, and the customer must comply with all Line Extension policy requirements and other obligations required within the ESA.

5. As a condition of initial or continued service under this rate, the City may require, prior to energization, execution of an electric service agreement, completion of all required studies, installation of required metering and telemetry, satisfaction of all credit and performance assurance requirements, payment of all applicable fees or contributions, and demonstration that the customer's operation will not adversely affect system reliability or other customers.

6. If a customer's Installed Capacity exceeds 49,999 kW, the City may in its sole discretion require the customer to take service under a separate service arrangement and a separate rate schedule.

7. Service rendered under this rate is subject to the City's Rules and Regulations, provided that Section 13.04.230 shall not apply.

8. If Customer fails to utilize the full Initial Infrastructure Capacity, the full Additional Infrastructure Capacity, or the full amount of any Expansion Request for six (6) consecutive months during the applicable Service Agreement for Electric Service period, then to the extent such capacity is not utilized, City shall have the right in its sole discretion to use the available feeder and substation capacity to serve other customers. Customer's utilization of capacity shall be the maximum kilowatt demand established by Customer for any fifteen (15) minute period during the month, as indicated or recorded by a demand meter.

B. Energy Forecast. By the tenth of each month prior to and after beginning service, Customer must submit to the City an energy forecast of its projected energy usage for the following six months. This energy forecast is a projection of the future forecasted energy consumption by Customer and shall be in the form of an hourly energy profile of expected energy consumption (kWh) for each hour of the following six months.

C. Failure to Submit Energy Forecast. Any Customer who fails to submit an energy forecast when due shall be subject to interruption or termination of electric service, and any other remedies available to the City under its Rules and Regulations. In addition, the City shall have the right to forecast the customers' projected energy load for the energy forecast term, subject to other provisions in this Section 13.04.046.

D. Invoices. Invoices are due and payable immediately upon receipt and considered late if not paid within five days after receipt. The City immediately applies any cash prepayment amount (defined below) or draws on any letter of credit provided by the customer for any late or unpaid amounts owed to the City by the customer, or take any other action provided for under the City's Rules and Regulations. If a Customer needs additional time to pay an invoice, they may post an additional Prepayment Amount to ensure minimum required prepayment balances are constantly maintained. VLC&I customers shall enroll in and maintain electronic billing (e-bill) for all electric service accounts. Delivery of bills by mail shall not extend, delay, or otherwise affect the date a bill is issued, received, or due.

E. Prepayment Amount. Prior to activation of electric service, customer shall provide to the City a minimum cash prepayment amount ("prepayment amount") equal to three months of the highest projected total cost of energy deliveries pursuant to the Electric Service Agreement and this rate schedule, including the customer charge, energy charge, billed demand, power cost adjustment, energy rate rider, transmission delivery cost adjustment, and any other authorized charges. The billed demand shall be calculated pursuant to Section O below, the applicable billed demand multiplied by three months or such additional period of time as the City may require ("prepayment term"). The City shall apply the prepayment amount monthly to the customer's invoice for electric service, and the customer shall pay any amounts owed to the City in addition to the prepayment amount and replenish the prepayment amount each month equal to the amount of the then-current prepayment amount for the then-current prepayment term. The City reserves the right to require additional amounts above the prepayment amount based on the creditworthiness of the customer, energy market volatility, previous payment defaults, or business history of the customer, each as determined by the City in its sole discretion. Any prepayment amounts under this Section 13.04.046 (Very large commercial and industrial service) shall not bear interest and shall be applied to each invoice and replenished by the customer in accordance with this subsection (E). The prepayment amount shall remain in place until December 31 of the year following the year of the

termination date, and Customer's payment in full to City of verifiably documented charges attributable to providing the service prior to termination of this Agreement, including, but not limited to demand charges assessed by ERCOT for usage during peak demand periods.

F. Credit Support. In addition to the prepayment amount in Section E, Customer shall also provide performance assurance pursuant to Section G herein in an amount equal to or greater than three months of the projected revenues to City based on the highest three months of customer's energy forecast. The performance assurance shall remain in place until December 31 of the year following the year of the termination date, and customer's payment in full to City of verifiably documented charges attributable to providing the service prior to termination of this agreement, including, but not limited to demand charges assessed by ERCOT for usage during peak demand periods.

G. Performance Assurance. Customer shall provide to the City either an unconditional irrevocable letter of credit ("letter of credit") or a form of guarantee approved by City ("parental guarantee") letter of credit and parental guarantee are collectively referred to as "performance assurance." Both the letter of credit and the parental guarantee must: (1) be made payable to the City; (2) require at least 60 days written notice to the City upon nonrenewal or termination; and (3) allow for immediate draw by the City for the nonpayment of any invoice by the due date or any other payment default by customer. In the event the City applies all or part of the performance assurance related to any late payment or nonpayment by customer, or any other payment default by the customer, the City may immediately request additional performance assurance from customer in order for the continuance of electric service by the City.

1. The letter of credit shall comply with V.T.C.A., Business and Commerce Code § 5.106 issued by a bank or financial institution with a minimum credit rating of A-from S&P or Fitch, or a minimum rating of A3 from Moody, and that has a physical location or address in the United States in which the letter of credit can be drawn, and that is otherwise acceptable to the City in its sole discretion. The City reserves the right in its sole discretion to require an increase in the amount of the letter of credit, including, but not limited to an increase based on market volatility, creditworthiness of the customer, previous payment defaults, or business history of the customer.

2. A Customer may only provide a parental guarantee if the corporate, or other entity, providing such guarantee has an investment grade rating at least one notch above Baa3 by Moody's, BBB-by S&P Global or BBB- by Fitch Ratings. In the event that the entity providing the parental guarantee drops below investment grade, customer must replace the parental guarantee with a letter of credit within two business days. The City reserves the right in its sole discretion to require an increase in the amount of the parental guarantee, including, but not limited to, an increase based on market volatility, creditworthiness of the customer, previous payment defaults, or business history of the customer.

H. Equipment. Customers under this Rate Ordinance shall also be responsible for all the costs including, but not limited to the cost of any and all additional equipment that the City's City Manager, City's General Manager of Electric Utilities ("General Manager") or each of their respective designees, determines is needed, including, but not limited to advanced metering equipment, to manage the customer's energy load and usage to ensure reliable energy service to all customers of the City.

City shall have no obligation to provide redundant feeders, transformer redundancy, automatic transfer capability, alternate feeder supply, or service from another substation except pursuant to a written agreement.

I. Curtailment Events. Customer understands and agrees that it has no guarantee of an uninterrupted supply of power. City shall have the right to curtail or interrupt delivery of energy to customer (i) in response to curtailment instructions from ERCOT as a result of imminent system reliability need; (ii) during periods of force majeure (defined herein); (iii) during unplanned outages, including failure of transmission or distribution facilities or other equipment, partial or complete forced outage, breakage of or damage to machinery or equipment, or (iv) during planned outages as agreed by City and customer ("curtailment event"). "Force majeure" means an event or circumstance which (i) prevents a party from performing its

obligations under this Rate Ordinance, (ii) which event or circumstance is beyond the reasonable control of such party, (iii) was not reasonably foreseeable by such party, or if reasonably foreseeable could not have been overcome with the exercise of due diligence, (iv) is not the result of such party's negligence or fault, and (v) which by the exercise of due diligence, such party is unable to overcome or avoid or cause to be avoided. If customer is notified of a curtailment event and fails to comply with the curtailment event directives received from City, customer shall be liable to City for any uplift charges, securitization charges, penalties, fines or any other ERCOT charges related to a curtailment event imposed on City (directly or indirectly) as a result of customer's failure to comply with the curtailment event notice, which is in addition to any and all costs and fees for the provision of electric service during the curtailment event under this Rate Ordinance and-any and all related ERCOT fees, settlement costs, sub-QSE fees, ERCOT load ratio share charges, ERCOT administration fees, Electric Reliability Organization fees, ERCOT uplifts to load, ERCOT miscellaneous invoices (collectively, "ERCOT Settlement Amounts"), and any other charges, fees and costs assessed or implemented by any Governmental Authority. "Governmental Authority" means (i) any federal, state, local, municipal, or other government or (ii) any other governmental, quasi-governmental, regulatory or administrative agency, commission, or other authority (including the Texas Attorney General, PUCT, ERCOT, Federal Energy Regulatory Commission, NERC, or Texas Reliability Entity) lawfully exercising or entitled to exercise any administrative, executive, judicial, legislative, police, policy, regulatory, or taxing authority or power. "PUCT" means the Public Utility Commission of Texas. City shall have the right, but not the obligation, to disconnect the electricity supply to Customer to force compliance with the curtailment event directives, subject to any shutdown requirements designed to protect the customer facilities or the ERCOT grid. Subject to the aforementioned notice and shutdown requirements, City shall have no liability for exercising such right, nor shall customer be excused from any damages that may arise in the case that City fails to do so. For purposes of clarity, all customers served by City are subject to curtailment events.

J. Very Large Load Account Set-Up Fee. Prior to the commencement of service, customer shall pay a nonrefundable account set-up fee in the amount of $27,349.00, which may be updated from time to time by the City, for installation of ERCOT EPS meter(s) and any other initiation, installation, or other fees levied by ERCOT or otherwise incurred by the City as a result of providing energy service to the customer.

K. Monthly Rate.

1. Customer Charge: $8,125 per month.
2. Energy Charge: $0.0543 per kWh.
3. Demand Charge: $19.65 per kW per month subject to Billed Demand as outlined in Section O below.

L. Power Cost Adjustment. The power cost adjustment charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

M. Energy Rate Rider. In addition to the charges identified in K and L, Customers shall pay the energy rate rider ($/kWh) ("ERR") for all energy consumed. The City Manager, General Manager or their respective designees are responsible for making periodic adjustments to the ERR, which will be based upon historical actual power supply costs since the implementation of the energy rate rider and six months of forecasted future costs to serve the customers in the very large commercial and industrial service class. Changes to the ERR shall have the objective of maintaining a positive cumulative ERR account balance.

The energy rate rider shall be calculated pursuant to the following equation:

ERR ($/kWh) = ((Power Costs – Energy Revenues) + (TAB-AAB))/TL

Where:

ERR = New Energy Rate Rider

Power Costs = All forecasted power supply costs for the VLC&I class during the 6-month forecast period, broken down into five components:

1. Net Settlement of VLC&I Bilateral Hedges
2. Forecasted VLC&I DAM/RT energy purchases
3. Load ratio share (LRS) portion of net settlement of existing long term PPA contracts, including:
    a. Net settlement of PPA contracts
    b. Settlement of CRR hedges
    c. REC revenues
    d. Resource QSE fees and resource administrative charges.
    e. PTP obligations
4. ERCOT Fees and Ancillary Services, including:
    a. Ancillary services
    b. Other ERCOT fees
    c. LRS and/or directly allocated CARD revenues.
5. Miscellaneous Costs, including:
    a. LRS and/or directly allocated allocation of purchased power consulting costs
    b. LRS and/or directly allocated allocation of ERCOT annual membership fee
    c. LRS and/or directly allocated allocation of quarterly ERO fee
    d. LRS and/or directly allocated allocation of securitization costs
    e. Any other additional unrecovered costs that are incurred to provide electric service to VLC&I customers.

Energy Revenues = Forecasted revenues from the energy charge for the VLC&I class during the 6-month forecast period. Equal to the energy charge multiplied by the forecasted load.

TAB = Target Account Balance. Equal to the highest month of forecasted energy costs for the VLC&I class in the 12 months following the rate update.

AAB = Actual Account Balance. Equal to the cumulative operating income from the collection of the Energy Rate Rider between inception of the ERR and the end of the operating month preceding the ERR calculation update. Operating income for historical months is defined as Energy Revenues plus ERR revenues minus Power Costs for each historical month.

TL = Total Load. Equal to the forecasted VLC&I energy sold during the 6-month forecast period.

The ERR may not be less than zero. The City Manager, General Manager or their respective designees are responsible for making periodic adjustments to the ERR.

N. Ratcheted Demand. In the event that the actual monthly peak demand of the customer exceeds (i) 80 percent of the installed capacity or (ii) the minimum demand as defined in the Electric Service Agreement, such new higher peak demand shall be used to determine the billed demand and shall be applicable for a period of 12 consecutive months from the month in which the highest peak demand is measured ("demand ratchet"). The City may establish procedures and methodologies necessary to administer the Demand Ratchet in a consistent and nondiscriminatory manner.

O. Billed Demand. The billed demand shall be the greater of:

1. The measured maximum 15-minute demand in kilowatts (kW) recorded during the billing period, or
2. The contract minimum demand, if applicable, or
3. The Demand Ratchet, if specified in Section N of this rate schedule.

Billed Demand may be adjusted for power factor if the actual power factor falls below the threshold specified in this tariff.

P. Transmission Delivery Cost Adjustment. The transmission delivery cost adjustment charge under this rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

Q. Minimum Billed Demand. The minimum demand charge shall be 80 percent of the Installed Capacity, or as otherwise provided in the Electric Service Agreement between customer and City.

R. Power Factor. If the customer's power factor during a billing cycle is less than 0.95 lagging during the monthly peak 15-minute interval, the City may adjust the Billed Demand (kW) by applying a multiplier. This multiplier is calculated by dividing the target power factor (0.95) by the customer's actual power factor (which is less than 0.95). The resulting ratio will be multiplied by the Billed Demand for that billing cycle.

S. Primary Voltage Discount.

"Primary Voltage" is the nominal electrical voltage of 24.9 kV / 14.4 kV, expressed as a ratio of phase-to-phase voltage over phase-to-neutral voltage, at which the City delivers three-phase medium-voltage AC power to the Point of Service, measured immediately upstream of the Customer-owned transformation equipment utilized to step down such electrical energy for final utilization.

A "Primary Voltage Customer" is a customer that receives electric service directly from City's electric distribution system at 24.9 kV / 14.4 kV.

1. Applicable to very large commercial and industrial customers that receive electric service at primary distribution voltage and that own, operate, and maintain all facilities on the customer side of the point of interconnection, including but not limited to transformation, protection, and distribution equipment.

2. Monthly Demand Discount Rate. The demand charge for a Primary Voltage Customer shall be reduced by $2.11 per kW of Actual Demand.

T. Minimum Bill. The monthly minimum bill amount related to any customer whose load capacity is between 10,000 kW and less than 49,999 kW shall be an amount equal to the sum of the customer charge, the Billed demand charge and any other authorized charges.

U. Sales Taxes. Sales taxes, where applicable, will be charged to Customer in addition to the above rates.

Sec. 13.04.0461. Month-to-Month Very Large Commercial & Industrial Service.

A. Availability: If a customer eligible for service under this section receives service without an executed electric service agreement, whether due to expiration, refusal, failure to execute, or other circumstance, the customer shall be billed under the Month-to-Month Very Large Commercial & Industrial Service rates set forth below. Such rates are intended to recover the City's costs, risks, and administrative burdens associated with serving a very large load without agreed forecasting, credit support, operational controls, and wholesale market protections. Month-to-Month Very Large Commercial & Industrial Service shall continue until an electric service agreement is executed by both the City and the customer or service is otherwise terminated in accordance with this Article and the City's Rules and Regulations.

These rates will be in effect for Customer's electric service until such time as an Electric Service Agreement is signed by both Customer and City, at which time the rates provided in the Electric Service Agreement will apply. The City will make a good faith effort to complete its review of the Electric Service Agreement and obtain approval in a timely manner.

B. Monthly Rate:

1. Customer Charge: $8,125 per month.

2. Energy Charge: $0.08755 per kWh.

3. Demand Charge: $19.65 per kW per month subject to Billed Demand as outlined in Section F below.

C. Power Cost Adjustment. The power cost adjustment charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Energy Rate Rider. In addition to the charges identified in B and C, Customers shall pay the energy rate rider ($/kWh) ("ERR") for all energy consumed.

E. Ratcheted Demand. In the event that the actual monthly peak demand of the customer exceeds (i) 80 percent of the installed capacity or (ii) the minimum demand as defined in the Electric Service Agreement, such new higher peak demand shall be used to determine the billed demand and shall be applicable for a period of 12 consecutive months from the month in which the highest peak demand is measured ("demand ratchet"). The City may establish procedures and methodologies necessary to administer the Demand Ratchet in a consistent and nondiscriminatory manner.

F. Billed Demand. The billed demand shall be the greater of:

1. The measured maximum 15-minute demand in kilowatts (kW) recorded during the billing period, or
2. The contract minimum demand, if applicable, or
3. The Demand Ratchet, if specified in Section E of this rate schedule.

G. Billed Demand may be adjusted for power factor if the actual power factor falls below the threshold specified in this tariff.

H. Transmission Delivery Cost Adjustment. The transmission delivery cost adjustment charge under this rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

I. Minimum Billed Demand. The minimum demand charge shall be 80 percent of the Installed Capacity or as otherwise provided in the Electric Service Agreement between customer and City.

J. Minimum Bill. The monthly minimum bill amount related to any customer whose load capacity is between 10,000 kW and less than 49,999 kW shall be an amount equal to the sum of the customer charge, Billed demand charge, and any other authorized charges.

J. Primary Voltage Discount.

Primary Voltage is the nominal electrical voltage of 24.9 kV / 14.4 kV, expressed as a ratio of phase-to-phase voltage over phase-to-neutral voltage, at which the City delivers three-phase medium-voltage AC power to the Point of Service, measured immediately upstream of the Customer-owned transformation equipment utilized to step down such electrical energy for final utilization.

A Primary Voltage Customer is a customer that receives electric service directly from the City's electric distribution system at 24.9 kV / 14.4 kV.

1. Applicable to large commercial and industrial customers that receive electric service at primary distribution voltage and that own, operate, and maintain all facilities on the customer side of the point of interconnection, including but not limited to transformation, protection, and distribution equipment.
2. Monthly Demand Discount Rate. Primary voltage customers' Actual Demand will be reduced (credited) by $2.11/kW.
3. Minimum Bill. The minimum bill for primary voltage customers will be based on the minimum bill for their applicable customer class, as described herein. To the extent that the minimum bill includes the demand charge, calculation of the demand charge will reflect the applicable monthly demand discount rate.
4. Primary Voltage Discount Update. The primary voltage discount will be reviewed and may be adjusted, as determined by the City.

Power Factor. If the customer's power factor during a billing cycle is less than 0.95 lagging during the monthly peak 15-minute interval, the City may adjust the Billed Demand (kW) by applying a multiplier. This multiplier is calculated by dividing the target power factor (0.95) by the customer's actual power factor (which is less than 0.95). The resulting ratio will be multiplied by the Billed Demand for that billing cycle.

K. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.050. Electric vehicle (EV) charger service.

A. Availability.

1. Applicable to nonresidential customers operating electric vehicle charging infrastructure whose design load is equal to or greater than 500 kW but less than 2,000 kW during any billing period, as determined in accordance with Section 13.04.012.

2. This rate is available only where the customer’s electric service is primarily used to supply electric vehicle charging load, as determined by the City.

3. Customers must provide sub metered or equivalent data, in a form and frequency acceptable to the City, sufficient to identify electric vehicle charging load and support rate administration.

4. If a customer does not meet the requirements of this section, the City may require the customer to take service under the otherwise applicable rate schedule.

B. Net Monthly Rate.

1. Customer Charge: $357.35 per month.

2. Energy Charge: $0.0577 per kWh.

3. Demand Charge: $16.34 per kW per month, applied to Billed Demand.

i. Billed Demand. The Billed Demand for each billing period shall be the greatest of:

1. The customer’s Actual Demand, as defined in Section 13.04.012;

2. Five hundred kilowatts (500 kW); or

3. The Ratcheted Demand.

ii. Ratcheted Demand. The Ratcheted Demand shall be equal to 80 percent of the highest Demand recorded during the most recent twelve (12) billing periods. Once established, such Ratcheted Demand shall remain in effect for twelve (12) consecutive billing months from the month in which the highest Demand is measured.

iii. Initial Demand Charge. For a new customer or a customer without twelve (12) months of demand history, the Billed Demand shall be the greater of the customer’s Actual Peak Demand or the customer’s Design Load, as determined by the City.

4. Minimum Bill: The minimum bill shall consist of the customer charge plus the minimum demand charge.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.055. Municipal.

A. Availability. Applicable to City-owned and operated facilities whose uses are not covered by a specific rate schedule. Service rendered under this rate is subject to the City's Rules and Regulations.

B. Net Monthly Rate.

1. Customer Charge: $134.77 per month.

2. Energy Charge: $0.0715 per kWh.

3. Minimum Bill: $134.77 per month.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.060. Power Pedestal service.

A. *Availability.* This rate is available for electric service provided through temporary or permanent power pedestal installations used to supply electricity for temporary, intermittent, or seasonal uses, including but not limited to festivals, public events, and decorative lighting. This rate shall apply only where such service:

1. Is provided through pedestal-type distribution infrastructure designed to serve multiple temporary or variable loads; and

2. cannot be reasonably billed to end users under another applicable rate schedule; and

3. Does not qualify for service under any other established rate schedule based on the nature of the load, metering configuration, or customer classification, as determined by the City.

This rate is intended for unique service configurations where standard rate schedules are not practicable. The City reserves the right to determine eligibility for service under this rate.

B. *Net Monthly Rate.*

1. Customer Charge: $0.00 per month.

2. Energy Charge: $0.1205 per kWh.

3. Minimum Bill: $0.00 per month.

C. *Power Cost Adjustment.* The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. *Transmission Delivery Cost Adjustment.* The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. *Sales Taxes.* Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.065. Retail outdoor lighting service.

A. *Applicability.* This rate applies to all unmetered retail outdoor lighting services installed on the customer premises, including municipal premises.

B. *Installation and maintenance.* The customer must request in writing, and the City must approve in writing, any installation of retail outdoor lighting to be installed on the customer's premises. Further, the customer must pay for all costs associated with installation, including, but not limited to all materials, labor, and installation costs. For new installations, a customer must agree to a term of service of not less than one year. The City reserves the right in its sole discretion to refuse or discontinue service at locations where excessive maintenance or lamp replacements occur. The City will maintain all lighting facilities incidental to providing this service.

C. *Billing.* Customer shall be billed monthly for retail outdoor lighting service as set forth in the monthly rates in Subsection D. Service rendered under this rate is subject to the City's Rules and Regulations.

D. *Monthly rate.* High pressure sodium (HPL) lighting:

1. 100 watt HPL or equivalent—$8.50 per month, per light.
2. 200 watt HP or equivalent L—$14.50 per month, per light.
3. 250 watt HPL or equivalent—$16.70 per month, per light.
4. 400 watt HPL or equivalent—$23.50 per month, per light.

E. *Power cost adjustment.* The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used or estimated, calculated in accordance with Section 13.04.075.

F. *Transmission delivery cost adjustment.* The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used or estimated, calculated in accordance with Section 13.04.080.

G. *Sales taxes.* Sales taxes, where applicable, will be charged to the customer in addition to the above rates.

Sec. 13.04.070. Municipal street lighting service fee.

A. Applicability. This fee applies to all residents within the corporate boundaries of the City.

B. Purpose. This fee shall pay for City-owned and operated street lighting on all dedicated public streets, highways, expressways, and thoroughfares within the City limits, from dusk to dawn, or as determined by the City in its sole discretion.

C. Monthly Fee. Streetlight fee per account within City limits: $2.40. In instances where a single account provides service to multiple units (like a master-metered property), the monthly fee shall be assessed per individual unit served by that account.

D. Service. The City will maintain all municipal street lighting facilities within the corporate boundaries of the City. Service rendered under this Section is subject to the City's Rules and Regulations.

Sec. 13.04.071. Reserved.

Sec. 13.04.075. Power cost adjustment factor.

A. *Availability.* The Power Cost Adjustment Factor (PCAF) shall be applied uniformly to the sales to all customers of the City.

B. *Calculation Method.* The purpose of this schedule is to accurately recover from City customers the cost of wholesale power purchases in excess of the base amount included in the City's electric retail rate schedules. Wholesale power purchases shall not include transmission charges, ERCOT Fees, delivery charges, and any other delivery fees necessary. Wholesale power purchases shall include but are not limited to fuel charges and substation charges. All wholesale power cost realized above the base amount shall be billed by the City on its monthly bills as a power cost adjustment, determined in accordance with the provisions set forth below. Periodically, the City will compare the total amount of power cost adjustment revenue to the actual energy costs and adjust the power cost adjustment factor (PCAF). The General Manager of the Utility is responsible to set the PCAF to recover the shortfall from customers or to refund the excess to customers and will report the financial status of the electric fund to the Council on a quarterly basis.

The formula for calculation of the power cost adjustment factor is as follows:

$$PCAF = \frac{WC - (P)(K) - CF}{S}$$

C. *Definitions.*

PCAF = Power cost adjustment ($ per kWh) rounded to the nearest $0.0001/kWh

WC = Total cost of power, not including transmission charges, ERCOT Fees, and delivery charges purchased by the City from its supplier for the immediately preceding wholesale billing period ($).

(P) = Total energy (kWh) purchased by the City from its supplier for the immediately preceding wholesale billing period (kWh).

(S) = Total estimated sales (kWh) to City customers for the current City billing period (kWh).

(K) = Base wholesale power cost included in the City's retail electric rate schedules.

CF = Correction factor adjustment to be applied in the current City billing period to provide for correction of the variance between power cost adjustment expenses which should have been recovered and actual power cost adjustment revenues received for the immediately preceding City billing period prior to the current City billing period ($).

The formula for calculation of the correction factor (CF) is as follows:

CF = (A) - (B)

Where:

(A) = The actual power cost adjustment revenues in dollars received from power cost adjustment for the immediately preceding City billing period.

(B) = The actual wholesale power cost not including transmission, ERCOT, congestion charges and other fees associated with delivery in dollars paid by the City in excess of the base amount of wholesale power cost included in the City's electric retail rate schedules for the second preceding wholesale billing record.

Sec. 13.04.080. Transmission delivery cost adjustment factor.

A. *Availability.* The Transmission Delivery Cost Adjustment Factor (TDCAF) shall be applied uniformly to the sales to all customers of the City, except sales made to guard light or municipal streetlight services.

B. *Calculation Method.* The purpose of this schedule is to accurately recover from City customers the cost of the transmission and delivery of wholesale power purchases in excess of the base amount included in the City's electric retail rate schedules. Transmission and delivery shall include but is not limited to transmission charges, ERCOT Fees, delivery charges, and any other delivery fees necessary. All transmission delivery cost realized above the base amount shall be billed by the City on its monthly bills as a transmission delivery adjustment, determined in accordance with the provisions set forth below. Periodically, the City will compare the total amount of transmission delivery adjustment revenue to the actual transmission delivery costs and adjust the

TDCAF. The General Manager of the Utility is responsible to set the TDCAF to recover any shortfall from customers and refund any excess to customers.

The formula for calculation of the transmission delivery adjustment factor is as follows:

$$TDCAF = \frac{TC - (P)(K) - CF}{S}$$

C. *Definitions.*

TDCAF = Transmission delivery cost adjustment ($ per kWh) rounded to the nearest $0.0001/kWh.

TC = Total estimated transmission delivery cost including but not limited to transmission charges, ERCOT Fees, congestion fees, ancillary costs, QSE fees and any other costs associated with delivery of wholesale power purchased by the City from its supplier for the immediately preceding wholesale billing period ($).

(P) = Total energy (kWh) purchased by the City from its suppliers for the immediately preceding wholesale billing period (kWh).

(S) = Total estimated sales (kWh) to City customers for the current City billing period (kWh).

(K) = Base transmission delivery cost included in the City's retail electric rate schedules ($0.0048 per kWh).

CF = Correction factor adjustment to be applied in the current City billing period to provide for correction of the variance between transmission delivery adjustment expenses which should have been recovered and actual transmission delivery adjustment revenues received for the immediately preceding City billing period prior to the current City billing period ($).

The formula for calculation of the correction factor (CF) is as follows:

$$CF = (A) - (B)$$

Where:

(A) = The actual transmission delivery adjustment revenues in dollars received from transmission delivery cost adjustment for the immediately preceding City billing period.

(B) = The actual transmission delivery costs in dollars paid by the City in excess of the base amount of transmission delivery cost included in the City's electric retail rate schedules for the second preceding wholesale billing record.

Sec. 13.04.081. Curtailment, interruption of service, and ERCOT-related charges

A. No Guarantee of Uninterrupted Service. Electric service is provided subject to the availability of supply and system conditions. The City does not guarantee an uninterrupted supply of electric service.

B. Curtailment and Interruption Authority. The City reserves the right to curtail, reduce, or interrupt delivery of electric service to any customer, in whole or in part (each, a “curtailment event”), under any of the following circumstances:
   1. In response to directives, protocols, or emergency actions issued by the Electric Reliability Council of Texas (ERCOT) or other applicable reliability authority due to system reliability needs;
   2. During events of force majeure;
   3. During unplanned outages, including but not limited to failure of transmission or distribution facilities, equipment malfunction, forced outages, or damage to infrastructure; or
   4. During planned outages or maintenance activities.

   All customers served by the City are subject to curtailment events.

C. Force majeure. “Force majeure” means an event or circumstance that:

1. Prevents a party from performing its obligations under this Article;
2. Is beyond the reasonable control of such party;
3. Was not reasonably foreseeable, or if foreseeable could not have been avoided through the exercise of due diligence;
4. Is not the result of such party's negligence or fault; and
5. Cannot be overcome or avoided through the exercise of due diligence.

D. Customer Compliance. Customers shall comply with all curtailment or interruption directives issued by the City during a curtailment event, including directives to reduce load, cease usage, or otherwise modify consumption as directed.

E. Liability for Non-Compliance. A customer who fails to comply with curtailment directives shall be responsible for any costs, charges, penalties, or liabilities incurred by the City as a result of such non-compliance, including but not limited to ERCOT uplift charges, securitization charges, settlement charges, penalties, fines, or other market-related costs imposed directly or indirectly on the City.

F. ERCOT settlement amounts and cost responsibility. All customers shall be responsible for costs and expenses incurred by the City associated with providing electric service that are attributable to such customer's load, including but not limited to: ERCOT settlement costs; sub-QSE fees; load ratio share charges; ERCOT administrative fees; Electric Reliability Organization fees; uplift charges to load; ancillary service costs; ERCOT miscellaneous invoices; and any other charges, fees, or costs assessed by ERCOT or any governmental authority (collectively, "ERCOT settlement amounts").

   Such costs may include verifiably documented incremental administrative or procurement costs incurred by the City in serving the customer's load. Customers shall also be responsible for costs associated with energy usage that exceeds the customer's designated or reasonably expected load characteristics, including any additional costs incurred by the City to procure energy or ancillary services.

G. Market risk acknowledgment. Customers acknowledge that wholesale electric markets, including the ERCOT market, are subject to price volatility and regulatory change. Such risks may include, but are not limited to, exposure to day-ahead and real-time market prices, changes in ERCOT protocols or pricing structures, transmission constraints, generation availability, weather-related conditions, and changes in regulatory or market requirements. The City does not control such conditions and shall not be responsible for impacts to customer costs resulting from such conditions.

H. Disconnection for Non-Compliance. The City shall have the right to disconnect or otherwise limit electric service to enforce compliance with curtailment directives.

I. Limitation of Liability. The City shall not be liable for any damages resulting from curtailment, interruption, disconnection of service, or market-related costs. Customers shall not be relieved of their obligation to pay for electric service and associated charges during a curtailment event.

J. Governmental authority. "Governmental authority" means any federal, state, local, or municipal government, or any governmental, quasi-governmental, regulatory, or administrative agency, commission, or authority, including but not limited to ERCOT, the Public Utility Commission of Texas (PUCT), the Federal Energy Regulatory Commission (FERC), the North American Electric Reliability Corporation (NERC), or the Texas Reliability Entity.

Sec. 13.04.082. Customer responsibility for interference and damage to electric system.

A. Customer responsibility for system impacts. Customers shall operate their equipment and facilities in a manner that does not cause voltage fluctuations, disturbances, harmonics, waveform distortion,

interference, or other conditions that adversely affect the City's electric system, other customers, or telecommunication facilities.

B. Determination of interference. If the City determines that a customer's equipment or operations are causing or contributing to such conditions, and such conditions are reasonably identified, documented, and capable of verification, the City may require the customer to take corrective action.

C. Corrective action required. The City may require the customer, at the customer's sole cost and expense, to install, operate, and maintain equipment or take other measures necessary to eliminate or mitigate such conditions, including but not limited to power conditioning equipment, filtering devices, or other corrective apparatus.

D. Failure to correct. If the customer fails to take corrective action within a reasonable period after notice from the City, the City shall have the right to take such actions as it deems necessary to protect the electric system and other customers, including but not limited to:

1. Implementing operational restrictions;
2. Temporarily disconnecting or limiting electric service; or
3. Undertaking corrective measures directly.

The customer shall be responsible for all expenses incurred by the City in connection with such actions.

E. Immediate disconnection for safety. The City may disconnect electric service immediately and without prior notice if the customer's equipment or operations create conditions that pose an imminent threat to the safety of persons, the integrity of the electric system, or the protection of property.

F. Limitation of liability. The City shall not be liable for any damages resulting from actions taken under this section.

Sec. 13.04.083. Demand response and third-party load commitments.

A. Applicability. This section applies to customers served under the Large Commercial and Industrial, Very Large Commercial and Industrial, or any electric service agreement rate or service arrangement, and to any other customer whose load the City determines may affect wholesale power supply, ERCOT settlement, system reliability, or City resource obligations.

B. City Consent Required.: Customer shall not enroll in, participate in, or otherwise commit Load served to any Demand Response Program, including (i) current or future ERCOT programs as a Load Resource or Controllable Load Resource, or in Emergency Response Service or (ii) other third-party demand response programs without the prior written consent of City, which consent City may withhold in its sole discretion..

a. Maximum Permissible Load Participation. To the extent that City consents to Customer's participation in ERCOT or other third-party Demand Response Programs, Customer shall obtain the required authorization and approval from the City at least annually, including the Non-Opt-In Entity ("**NOIE**") form or the appropriate authorization from the City, to participate in any demand-side management or load-provided service programs offered by ERCOT or any other third party, and City will determine, in its sole discretion, the maximum permissible participation by Customer in such programs ("**Maximum Permissible Load Participation**"). City has the right to withdraw

attestation of NOIE authorization or its approval of participation in any DR program or adjust the Maximum Permissible Load Participation at any time. Customer shall be responsible for all metering and QSE requirements in connection with such programs and shall comply with the requirements for participation in such programs

b. Customer shall be solely responsible for all liabilities, costs, expenses and penalties in connection with Customer's participation in these programs.

C. Customer Minimum Load.

a. Customer shall be required to maintain a minimum base Load (the "**Customer Minimum Load**"), which represents the Customer's load shed obligations to meet their portion of the City's overall load shed obligations.. This amount of Load may not be eligible to participate in DR Programs, as the Load must be available to shed during ERCOT emergency events. The Customer Minimum Load amount may be updated by the City in its sole discretion. If Customer use falls below any Customer Minimum Load, City reserves the right to assess penalties Notwithstanding the foregoing, the Parties recognize that the foregoing minimum load requirement of Customer during emergency events is subject to actual ERCOT Protocols and Applicable Law at the time of the event, which ERCOT and any other Governmental Authority may revise from time to time, and Customer agrees to comply with the actual ERCOT Protocols and Applicable Law at the time of the event and any applicable revisions to the ERCOT Protocols or Applicable Law. City and Customer will comply with all emergency load shedding obligations imposed by ERCOT, Applicable Law and any Change in Law related to the provision of retail electric service to Customer.

b. Customer shall maintain any Customer Minimum Load at all times (24/7/365) until instructed by City for interruption to meet a load shed requirement. If Customer fails to maintain its Customer Minimum Load at any time during an ERCOT settlement interval in which a Customer Minimum Load is required, then Customer shall pay as a liquidated remedy for such failure, within thirty (30) days of notification of violation by City, a deficiency amount for the deficiency period which shall be measured as the difference between (x) the Customer Minimum Load and (y) the lowest actual Customer Load during such settlement interval, times the ERCOT HCAP, summed for all affected settlement intervals during the applicable payment period. The Customer Minimum Load shall be measured at the Point of Service..

D. Interruption of Service and Participation in DR Programs. City shall have the right in its sole discretion to curtail or interrupt Service to Customer without liability to Customer for any reason, including but not limited to Customer's inability to participate and perform in DR Programs during such curtailment.

E. Conditions of Consent. The City may condition consent on metering, telemetry, operational controls, scheduling protocols, communication requirements, financial assurance, indemnity, or other requirements necessary to protect the City, its customers, and the electric system.

F. Customer Responsibility. A customer that participates in a demand response program without City consent, or fails to comply with conditions of consent, shall be responsible for all costs, charges, penalties, settlement amounts, losses, or liabilities incurred by the City arising from such participation or failure.

G. Participation in any demand response program shall not limit the City's right to curtail, interrupt, reduce, or disconnect service in accordance with the City's Rules and Regulations, ERCOT requirements, or the customer's electric service agreement.

Sec. 13.04.084. Energy efficiency and energy conservation fee.

A. Availability. This monthly fee will be charged to all electric meters for all rate classes.

B. Monthly Rate.

Rate Class	Fee
Residential	$1.00
Net Energy Metering—Residential	$1.00
Small General	$1.00
Net Energy Metering—Small General	$1.00
School	$5.00
Municipal Water and Wastewater Pumping	$5.00
Municipal	$5.00
Large General	$10.00
Commercial & Industrial	$15.00
Large Commercial & Industrial	$25.00
Month-to-Month Large Commercial & Industrial	$25.00
Very Large Commercial & Industrial	$25.00
Month-to-Month Very Large Commercial & Industrial	$25.00

C. Sales taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above fee.

D. Use of Funds. Use of funds collected from the energy efficient and energy conservation fee, including all funds previously collected pursuant to this Section, shall be limited to energy efficiency and conservation program costs, activities, and financial incentives, including, but not limited to the following:

1. Program Design and Administration Costs.

    a. Staffing and Administrative Costs. Salaries and benefits for program managers, coordinators, analysts, and administrative support personnel, along with the associated administrative costs to support such personnel.

    b. Consulting Fees. Costs for hiring external consultants or firms to assist with program design, evaluation, and implementation.

2. Incentives and Rebates.

    a. Direct Incentives. Payments or rebates provided to consumers, businesses, or utilities for adopting certain energy-efficient technologies or practices.

    b. Equipment. Costs for purchasing and dispersing certain energy-efficient appliances to certain customers.

3. Marketing and Outreach Costs.

    a. Public Awareness Campaigns. Costs associated with advertising, media outreach, and educational materials to promote energy efficiency among consumers and businesses.

    b. Workshops and Training. Expenses related to organizing workshops, seminars, and training sessions for stakeholders related to energy-saving practices.

4. Evaluation and Measurement Costs.

    a. Impact Evaluation. Costs associated with conducting studies or evaluations to measure the effectiveness and outcomes of energy efficiency programs.

    b. Data Collection. Expenses for collecting and analyzing data related to energy consumption, savings, and program participation.

5. Regulatory and Compliance Costs. Fees or costs associated with regulatory filings, compliance reporting, and meeting regulatory requirements set by state or local authorities.

6. Long-Term Maintenance and Monitoring Costs. Costs associated with ongoing maintenance, monitoring, and evaluation of installed energy-efficient measures or technologies.

Sec. 13.04.085. Reserved.

Sec. 13.04.090. Reserved.

Secs. 13.04.095, 13.04.100. Reserved.

Sec. 13.04.010. Rates and charges—Electricity—Schedule.

The monthly rates and charges for the sales made of services rendered by the electric system of the City are established, levied, fixed, and prescribed as set forth in Sections 13.04.010 through 13.04.100. Electric service rendered under this Article is subject to the City's Rules and Regulations, engineering standards and service standards.

By applying for or accepting electric service, the customer shall provide the City access to the customer's premises and electric facilities as necessary for the installation, inspection, operation, maintenance, repair, replacement, reading, disconnection, or removal of City facilities, meters, and equipment, subject to the City's Rules and Regulations. The City may require easements, access rights, or other documentation as a condition of service where necessary to provide safe and reliable service.

Sec. 13.04.011 Definitions

For purposes of this Article, the following terms shall have the meanings set forth below:

1. **Actual Demand.** Actual Demand means the maximum rate at which electric energy is used by a customer, expressed in kilowatts (kW), and measured over a 15-minute interval during the billing period, or such other interval as established by the City's metering standards. Demand is a measure of power and is not a measure of total energy consumption.

2. **Allocated Capacity.** Allocated Capacity means the maximum allowed distribution infrastructure capacity designed and allocated to the Facility based on the Customer's specified load requirements, including Peak Demand and energy needs. This capacity ensures sufficient distribution capacity to meet Peak Demand under normal operating conditions, including substation and feeder capacity.

3. **Billed Demand.** Billed Demand means the kilowatt (kW) demand used to calculate the customer's demand charge under the applicable rate schedule. Billed Demand shall~~may~~ be based on the highest of the measured Peak Demand, minimum demand, ratcheted demand (where applicable), power factor adjustment, or other provisions of the applicable rate schedule or electric service agreement.

4. **City**. The City of Georgetown, Texas, [a home rule municipal corporation that owns and operates a municipal electric utility system known as Georgetown Utility Systems].

5. **City's Rules and Regulations**. City's ordinances, policies, rate schedules, including description of utility services, billing adjustments, policies, service rules and regulations, and other regulatory measures enacted or adopted by City, including its departments, boards and commissions, as may be amended from time to time by the City in its sole discretion, all said regulations being duly adopted.

6. **Connected Load.** Connected Load means the combined electrical capacity or rating of the customer's motors, equipment, appliances, devices, and other electric-consuming facilities that are or will be connected to the customer's electrical system, whether expressed in kilowatts (kW), kilovolt-amperes (kVA), horsepower, amperes, or other electrical units, as converted or evaluated by the City.

7. **Customer or customer**. A person who is currently receiving retail electric service from City in the person's own name or the name of the person's spouse, or the name of an authorized representative of a partnership, corporation, or other legal entity receiving retail electric service from City.

8. **Design Load.** Design Load means the City's estimate of the customer's expected maximum demand, expressed in kilowatts (kW), after applying applicable diversity factors, operating

assumptions, and engineering judgment to the customer's Requested Load, Connected Load, and Load Analysis. Design Load may be used to determine initial rate classification, transformer size, service requirements, and other facilities necessary to serve the customer.

9. **Installed Capacity.** Installed Capacity means the maximum allowed distribution infrastructure capacity, including site-specific infrastructure, designed and installed by City at the Facility and designated to serve the Customer's load requirements, including Peak Demand and energy needs. This capacity ensures sufficient distribution capacity to meet Peak Demand under normal operating conditions. Installed Capacity includes substation and feeder capacity. Installed Capacity may be expressed in kilowatts (kW) or kilovolt-amperes (kVA).

10. **Load Analysis.** Load Analysis means the documentation, engineering review, and evaluation used by the City to determine expected load characteristics, service requirements, rate classification, metering requirements, transformer sizing, system impacts, and any required customer-specific facilities. A Load Analysis may include Requested Load, Connected Load, operating schedules, diversity factors, power factor, motor-starting characteristics, load factor, planned expansions, and other information required by the City.

11. **Peak Demand.** Peak Demand means the highest Actual Demand recorded for a customer during the applicable billing period, expressed in kilowatts (kW), and measured over a 15-minute interval, or such other interval as established by the City's metering standards.

12. **Requested Load.** Requested Load means the total electrical load requested by the customer or the customer's representative as part of a service request, Load Analysis, Electric Line Extension, and Electric Metering Policy application, plans, specifications, or other documentation submitted to the City. Requested Load may include existing load, proposed load, future load, and any planned expansion identified by the customer.

Sec. 13.04.012. Customer classification and demand determination.

A. Customer Classification

1. Regardless of Design Load, Actual Demand, Installed Capacity, or other classification criteria, a customer shall be assigned to the rate schedule applicable to the premises' final intended use, which may differ from the use during construction, as determined by the City from the customer's application and other reasonably required documentation.

B. Initial Rate Classification

1. For new or modified service under 2,000 kW, the City shall assign the applicable rate class based on the customer's Design Load, as determined from the customer's Load Analysis, except as otherwise provided herein.

2. For new or modified service with a Design Load of 2,000 kW or greater, the City shall assign the applicable rate class based on the customer's Installed Capacity or Allocated Capacity on the date of initial energization, as determined solely by the City.

3. For Customers requesting service at existing premises, the City shall not automatically assign the prior customer's rate classification. The City shall consider the following in determination the appropriate rate classification:

   i. If the new customer's expected use is substantially similar to the prior use, the City may use recent demand history to establish the initial rate classification.

   ii. If demand history is unavailable or not representative, the City may require a Load Analysis and classify the customer based on Design Load or Installed Capacity, as applicable. Existing meters, transformers, or other service facilities do not determine the customer's rate classification or service entitlement.

iii. The City may require the customer, at the customer's expense, to make or fund electric distribution infrastructure changes necessary to provide safe and reliable service and comply with the City's service and engineering standards.

iv. The City may reclassify the customer's initial rate classification based on actual usage and Demand data as outlined in Section C below.

C. Rate Class Reclassification based on Demand

1. This subsection applies only to customers with a Design Load or Installed Capacity under 2,000 kW.

2. The City shall reclassify a customer to a higher rate class if the customer's Actual Demand exceeds the applicable demand threshold for that rate class in three (3) or more billing periods within a consecutive twelve (12) month period . The City may require the customer, at the customer's expense, to make or fund electric distribution infrastructure changes necessary to provide safe and reliable service and comply with the City's service and engineering standards.

3. Upon customer's request, the City may reclassify a customer to a lower rate class if the customer's Actual Demand remains below the applicable demand threshold for twelve (12) consecutive months. The City may require the customer, at the customer's expense, to make or fund electric distribution infrastructure changes necessary to provide safe and reliable service and comply with the City's service and engineering standards.

4. Reclassification shall be applied prospectively beginning with the next billing cycle following determination by the City and shall not be applied retroactively.

5. A customer shall not operate electric load in excess of its Installed Capacity, Allocated Capacity, contract demand, or other capacity limit established by the City without the City's prior written approval. If a customer exceeds such limit, the City may require load reduction, additional infrastructure, additional credit support, revised forecasts, a revised electric service agreement, payment of all incremental costs, or a separate service arrangement. The customer shall be responsible for all costs, charges, penalties, ERCOT settlement amounts, procurement costs, infrastructure costs, and administrative costs incurred by the City as a result of such excess load.

6. A customer shall not be eligible for a reduction in rate class based on Actual Demand if the customer has incurred two or more delinquencies within the preceding twelve-month period.

Sec. 13.04.015. Residential service.

A. Availability. This schedule is available to single-phase residential customers for all domestic uses in residences, individual family apartments, and private rooming houses. This schedule is not available to single metered multi-family dwellings. For residential customers other than single-phase, the City, at its sole discretion, may review and apply another appropriate rate schedule for such customer. .

Where a portion of a residential unit is used for nonresidential purposes, the appropriate nonresidential service schedule is applicable to all uses of electric service. However, this rate schedule may be applied to the residential portion of such use provided the customer's wiring is so arranged that use of the electric service for residential purposes can be metered separately from the nonresidential use. Service rendered under this rate is subject to the City's Rules and Regulations.

B. Net Monthly Rate.

1. Customer Charge: $25.32 per month.

2. Energy Charge: $0.0978 per kWh.

3. Minimum Bill: $25.32 per month.

4. Multiple Dwelling Units. Where served under one meter shall be billed under the applicable commercial rate.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

F. Residential customers may request a low-income electric discount that is 30 percent below the current customer charge (base rate) as follows:

1. Request for low-income discount must be made in writing.
2. To qualify for the discount, customer or a permanent resident in the household must participate in the Medicaid Program or such other federal, state, and local government entitlement programs that meet the 200 percent Federal Poverty Income Level (FPIL) eligibility guidelines and are approved by City, and provide verifiable proof of that participation, such as an award letter or other official documentation.
3. Requests for the low-income discount must be renewed annually.

Sec. 13.04.018. Net energy metering (NEM) service.

A. Availability. Available to residential and small general service customers within the City's electric service area that own distributed energy resource (DER) facilities.

The following requirements must be met for customers to be served under NEM:

- Customer has executed an interconnection agreement with City, and City has approved their completed net metering service application.
- DER facility is customer owned and powered by a renewable resource, including, but not limited to, solar, wind, and geothermal sources.
- For all DER facilities approved by the City after October 1, 2020, the DER facility's Installed Capacity must be no greater than ten kW-DC (kilowatts direct current) and receive service at 600 volts or less.
- DER facility is located at the customer's premises, or that is appropriately connected to City's electric distribution system, as solely determined by City.

B. Metering. For DER installations before June 22, 2021, customers served under NEM will have two electric meters installed by City at the customer's premises: a DER Meter, which measures the total amount of generated electricity from the customer's DER facility, and a bi-directional meter that measures both the volumetric energy and renewable energy - received, as defined herein. These bi-directional meter readings are used for generating the NEM customer's monthly bill. For all DER installations for NEM customers after June 22, 2021, DER meters are not required; only bi-directional meters will be installed.

C. Meter Definitions.

"Bi-directional meter." An electric meter with separate registers that measures and records, on an interval basis, the flow of electricity from City to the NEM customer (volumetric energy) as well as the flow of electricity from the customer's DER facility to City (renewable energy - received), as applicable.

"DER Meter." The DER meter measures the total amount of energy generated by the customer's DER facility. The meter records "renewable energy - generated."

D. Energy Definitions.

"Renewable energy generated." The total energy produced by the customer's DER facility for the billing period, as measured and recorded by the DER meter. No charges or credits are associated with the renewable energy - generated. This information is provided to City, and is identified on the customer's bill, for informational purposes only.

"Renewable energy received." Any excess metered energy generated from the customer's DER facility that is not used on-site at the customer's premises and flows back to City during a billing cycle. The renewable energy - received is measured by the bi-directional meter and recorded on an interval basis. City pays NEM customers a credit per kilowatt hour of the renewable energy - received.

"Volumetric energy." The amount of metered energy delivered by City to the customer's premises during a billing cycle. This value is measured by the bi-directional meter and recorded on an interval basis. NEM customers pay City per kilowatt hour for volumetric energy.

E. Charges for Service Definitions.

"Base rate." The base rate is the customer charge for the applicable customer class in which the NEM customer exists. The base rate is a per customer charge on a $/month basis.

"Volumetric energy charge." The volumetric energy charge is the energy charge for the applicable customer class in which the NEM customer exists. The volumetric energy charge is applied to the volumetric energy on a $/kWh basis.

"Renewable energy received credit." The renewable energy - received credit is an energy rate ($/kWh) applied to the NEM customer's renewable energy - received. City pays NEM customers a credit per kilowatt hour for renewable energy - received. The credit on the customer's bill is subject to the limitations discussed in item I.

"Power cost adjustment (PCA)." The PCA charge under this rate schedule shall be increased or decreased to reflect the application of a PCA per kWh of energy delivered by City (volumetric energy) during the billing cycle, as calculated in accordance with Section 13.04.075.

"Transmission delivery cost adjustment (TDCA)." The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy delivered by City (volumetric energy), as calculated in accordance with Section 13.04.080.

F. Reserved.

G. Monthly Rates for NEM Customers. Rates are subject to change as described herein.

Residential Service:

1. Base Rate: $25.32 per month.

2. Volumetric Energy Charge: $0.0978 per kWh.

3. Renewable Energy. The received credit shall be calculated on an annual basis according to the following formula:

$$Credit\left(\frac{\$}{kWh}\right) = \frac{Weighted\ Avg.\ Market\ Price\left(\frac{\$}{kWh}\right) + Avg.Transmission\ Capacity\ Cost\ (\frac{\$}{kWh})}{1 - Losses\ (\%)}$$

Where "weighted avg. market price" represents the previous year's weighted average locational marginal prices coincident with solar producing hours at the Electric Reliability Council of Texas (ERCOT) South Load zone. The periods coincident with ERCOT and/or Public Utility Commission of Texas declared controlled outages and/or grid emergencies are not included in the weighted avg. market price calculation. The "avg. transmission capacity cost" represents the previous year's average transmission-cost-of-service (TCOS) charges ($/kWh) paid by the Utility for transmission, and "losses" represents the most recently calculated value for City's distribution system losses as a percent.

4. PCA: (as determined in Section 13.04.075).

5. TDCA: (as determined in Section 13.04.080).

Small General Service:

1. Base Rate as a City Electric Customer: $51.05 per month.

2. Volumetric Energy Charge: $0.0921 per kWh.

3. Renewable Energy. The received credit shall be calculated on an annual basis according to the following formula:

$$Credit\left(\frac{\$}{kWh}\right) = \frac{Weighted\ Avg.\ Market\ Price\left(\frac{\$}{kWh}\right) + Avg.Transmission\ Capacity\ Cost\left(\frac{\$}{kWh}\right)}{1 - Losses\ (\%)}$$

Where "weighted avg. market price" represents the previous year's weighted average locational marginal prices coincident with solar producing hours at the Electric Reliability Council of Texas (ERCOT) South Load zone. The periods coincident with ERCOT and/or Public Utility Commission of Texas declared controlled outages and/or grid emergencies are not included in the weighted avg. market price calculation. The "avg. transmission capacity cost" represents the previous year's average transmission-cost-of-service (TCOS) charges ($/kWh) paid by the Utility for transmission, and "losses" represents the most recently calculated value for City's distribution system losses as a percent.

4. PCA: (as determined in Section 13.04.075).

5. TDCA: (as determined in Section 13.04.080).

H. Renewable Energy—Received Credit—Annual Update. The renewable energy - received credit will be reviewed and may be adjusted on an annual basis by City according to the formula above.

I. Limit on Renewable Energy—Received Credit. For a billing cycle, and for the purposes of calculating the renewable energy - received credit, the excess renewable energy (kWh) City receives from NEM customers cannot be greater than the volumetric energy (kWh) City delivers to the customer's premises. Renewable energy - received that is in excess of the volumetric energy during the billing cycle is not eligible for compensation to the NEM customer by City. Such excess energy may not be banked by the NEM customer nor rolled over to the following or future billing period(s). Further, such excess energy cannot be utilized to offset other City charges on the NEM customer bill.

J. Sales Taxes. Sales taxes, where applicable, will be charged to the customer, as appropriate, in addition to the above rates.

Sec. 13.04.020. Small general service.

A. Availability. Applicable to nonresidential customers whose Actual Demand is equal to or less than 49 kilowatts (kW) and whose uses are not covered by another specific rate schedule.

B. Net Monthly Rate.

1. Customer Charge: $51.05 per month.

2. Energy Charge: $0.0921 per kWh.

3. Minimum Bill: $51.05 per month.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.025. School services.

A. Availability. Applicable to electric service provided to a school, defined as an educational institution that is recognized, accredited, or otherwise authorized by the State of Texas, including but not limited to:

1. Public school districts and open-enrollment charter schools governed under the Texas Education Code; and
2. Institutions of higher education recognized by the Texas Higher Education Coordinating Board.

Eligibility for service under this rate shall be determined by the City based on documentation demonstrating such recognition or authorization under applicable state law.

Electric service provided to facilities or portions of facilities used for non-educational, commercial, residential, or revenue-generating purposes shall be separately metered and billed under the applicable rate schedule. If such uses are not separately metered, the City may determine the appropriate rate classification.

B. Net Monthly Rate.

1. Customer Charge: $204.02 per month.
2. Energy Charge: $0.1174 per kWh.
3. Minimum Bill: $204.02 per month.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.030. Municipal water and wastewater pumping service.

A. Availability. Applicable to City-owned facilities with electric service furnished for water and wastewater pumping. Service rendered under this rate is subject to the City's Rules and Regulations.

B. Net Monthly Rate.

1. Customer Charge: $199.10 per month.
2. Energy Charge: $0.04600 per kWh.
3. Demand Charge: $19.99 per kW per month.
4. Minimum Bill: $199.10 per month.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Primary Voltage Discount.

Primary Voltage is the nominal electrical voltage of 24.9 kV / 14.4 kV, expressed as a ratio of phase-to-phase voltage over phase-to-neutral voltage, at which the City delivers three-phase medium-voltage AC power to the Point of Service, measured immediately upstream of the Customer-owned transformation equipment utilized to step down such electrical energy for final utilization.

A Primary Voltage Customer is a customer that receives electric service directly from the City's electric distribution system at 24.9 kV / 14.4 kV.

1. Applicable to Municipal water and wastewater pumping service locations that receive electric service at primary distribution voltage and that own, operate, and maintain all facilities on the customer side of the point of interconnection, including but not limited to transformation, protection, and distribution equipment.
2. Monthly Demand Discount Rate. Primary voltage customers' Actual Demand will be reduced (credited) by $2.24/kW.

F. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.035. Large general service.

A. Availability. Applicable to nonresidential customers whose Actual Demand is equal to or greater than 50 kilowatts (kW) but less than 499 kilowatts (kW), and whose uses are not covered by another specific rate schedule, as determined in accordance with Section 13.04.012.

B. Net Monthly Rate.

1. Customer Charge: $178.68 per month.
2. Energy Charge: $0.0668 per kWh.
3. Demand Charge: $11.23 per kW per month, but not less than $561.50 per month.
4. Minimum Bill: $740.18 per month.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Minimum Bill. The minimum bill for Large general service shall consist of the customer charge plus the minimum Billed Demand charge.

F. Minimum Billed Demand. The minimum demand for the Large general service class is 50 kW.

G. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.040. Commercial and industrial (C&I).

A. Availability. Applicable to nonresidential customers whose Actual Demand is equal to or greater than 500 kilowatts (kW) but less than 1,999 kilowatts (kW), and whose Installed Capacity is less than 2,000 kVa, and whose uses are not covered by another specific rate schedule, as determined in accordance with Section 13.04.012.

B. Net Monthly Rate.

1. Customer Charge: $357.35 per month.
2. Energy Charge: $0.0577 per kWh.

3. Demand Charge: $16.34 per kW per month, but not less than $8,170.00 per month.

4. Minimum Bill: $8,527.35 per month.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Minimum Bill. The minimum bill for commercial and industrial service shall consist of the customer charge plus the minimum demand charge.

F. Minimum Billed Demand. The minimum demand for the commercial and industrial class is 500 kW.

G. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.045. Large commercial and industrial (C&I) service

A. Availability. Applicable to non-residential customers whose Installed Capacity or Allocated Capacity is equal to or greater than 2,000 kilowatts (kW) but less than 10,000~~9,999~~ kilowatts (kW), as determined in accordance with Section 13.04.012. The City reserves the right in its sole discretion to require certain customers eligible for this rate schedule to enter into an electric service agreement with the City ("Electric Service Agreement").

B. Monthly Rate.

1. Customer Charge: $520.71 per month.

2. Energy Charge: $0.0543 per kWh.

3. Demand Charge: $19.65 per kW per month but not less than $39,300.00 per month.

4. Minimum Bill: $39,820.71 per month.

C. Power Cost Adjustment. The power cost adjustment charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The transmission delivery cost adjustment charge under this rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Minimum Bill. The minimum bill for large commercial and industrial service shall consist of the customer charge plus the minimum demand charge.

F. Minimum Billed Demand. The minimum demand for the large commercial and industrial class is 2,000 kW.

G. Power Factor. Should the power factor be lower than 0.95 lagging during the monthly peak 15-minute interval, the City may adjust the Billed Demand (kW) by the ratio of target power factor in the numerator (0.95) divided by the actual power factor in the denominator (less than 0.95). If the power factor ratio is greater than a value of 1.0, it will be multiplied by the billing cycle's Billed Demand applicable to the customer.

H. Primary Voltage Discount.

Primary Voltage is the nominal electrical voltage of 24.9 kV / 14.4 kV, expressed as a ratio of phase-to-phase voltage over phase-to-neutral voltage, at which the City delivers three-phase medium-voltage AC power to the Point of Service, measured immediately upstream of the Customer-owned transformation equipment utilized to step down such electrical energy for final utilization.

A Primary Voltage Customer is a customer that receives electric service directly from the City's electric distribution system at 24.9 kV / 14.4 kV.

1. Applicable to large commercial and industrial customers that receive electric service at primary distribution voltage and that own, operate, and maintain all facilities on the customer side of the point of interconnection, including but not limited to transformation, protection, and distribution equipment.

2. Monthly Demand Discount Rate. Primary voltage customers' Actual Demand will be reduced (credited) by $2.11/kW.

3. Minimum Bill. The minimum bill for primary voltage customers will be based on the minimum bill for their applicable customer class, as described herein. To the extent that the minimum bill includes the demand charge, calculation of the demand charge will reflect the applicable monthly demand discount rate.

4. Primary Voltage Discount Update. The primary voltage discount will be reviewed and may be adjusted periodically as determined by the City.

I. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.0451. Month-to-Month Large Commercial & Industrial Service.

A. Availability. Applicable to any customer who is required to enter into an Electric Service Agreement and fails to do so within a reasonable period of time, as determined by the City. The customer shall be subject to all provisions herein, as well as the following applicable rates. The customer shall be billed under the Month-to-Month Large Commercial & Industrial Service rates set forth below. Such rates are intended to recover the City's costs, risks, and administrative burdens associated with serving a very large load without agreed forecasting, credit support, operational controls, and wholesale market protections. Month-to-Month Large Commercial & Industrial Service shall continue until an electric service agreement is executed by both the City and the customer or service is otherwise terminated in accordance with this Article and the City's Rules and Regulations.

These rates will be in effect for Customer's electric service until such time as an Electric Service Agreement is signed by both Customer and City, at which time the rates provided in the Electric Service Agreement will apply. The City will make a good-faith effort to complete its review of the Electric Service Agreement and obtain approval in a timely manner.

B. Monthly Rate.

1. Customer Charge: $520.71 per month.

2. Energy Charge: $0.08755 per kWh.

3. Demand Charge: $19.65 per kW per month subject to Billed Demand as outlined in Section F~~G~~ below.

4. Minimum Bill: $39,820.71 per month.

C. Power Cost Adjustment. The power cost adjustment charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The transmission delivery cost adjustment charge under this rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Minimum Bill. The minimum bill for large commercial and industrial service shall consist of the customer charge plus the minimum demand charge.

F. Minimum Billed Demand. The minimum demand for the large commercial and industrial class is 2,000 kW.

G. Power Factor. Should the power factor be lower than 0.95 lagging during the monthly peak 15-minute interval, the City may adjust the Billed Demand (kW) by the ratio of target power factor in the numerator (0.95) divided by the actual power factor in the denominator (less than 0.95). If the power factor ratio is greater than a value of 1.0, it will be multiplied by the billing cycle Billed Demand applicable to the customer.

H. Primary Voltage Discount.

Primary Voltage is the nominal electrical voltage of 24.9 kV / 14.4 kV, expressed as a ratio of phase-to-phase voltage over phase-to-neutral voltage, at which the City delivers three-phase medium-voltage AC power to the Point of Service, measured immediately upstream of the Customer-owned transformation equipment utilized to step down such electrical energy for final utilization.

A Primary Voltage Customer is a customer that receives electric service directly from the City's electric distribution system at 24.9 kV / 14.4 kV.

1. Applicable to large commercial and industrial customers that receive electric service at primary distribution voltage and that own, operate, and maintain all facilities on the customer side of the point of interconnection, including but not limited to transformation, protection, and distribution equipment.
2. Monthly Demand Discount Rate. Primary voltage customers' Actual Demand will be reduced (credited) by $2.11/kW.
3. Minimum Bill. The minimum bill for primary voltage customers will be based on the minimum bill for their applicable customer class, as described herein. To the extent that the minimum bill includes the demand charge, calculation of the demand charge will reflect the applicable monthly demand discount rate.
4. Primary Voltage Discount Update. The primary voltage discount will be reviewed and may be adjusted, as determined by the City.

I. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.046. Very large commercial and industrial (C&I) service.

A. Availability

1. Applicable to nonresidential customers whose Installed Capacity is equal to or greater than 10,000 kW but less than 49,999 kW, including classification based on Installed Capacity where applicable.
2. Customers served under this rate shall be required to receive electric service directly from City's electric distribution system at "Primary Voltage" and they are eligible for the "Primary Voltage Discount"

   "Primary Voltage" is the nominal electrical voltage of 24.9 kV / 14.4 kV, expressed as a ratio of phase-to-phase voltage over phase-to-neutral voltage, at which the City delivers three-phase medium-voltage AC power to the Point of Service, measured immediately upstream of the Customer-owned transformation equipment utilized to step down such electrical energy for final utilization.
3. Customers served under this rate shall be required, as determined by the City, to enter into an electric service agreement, provide load forecasts, or meet additional operational, metering, or financial requirements necessary to support service to large loads and participation in wholesale power markets.
4. Customers shall enter into an Electric Service Agreement (ESA) with a maximum term of three (3) years, including any renewals, unless terminated in accordance with the ESA. In order to maintain a guarantee of future electric service capacity, the ESA must be signed, and the customer must comply with all Line Extension policy requirements and other obligations required within the ESA.

5. As a condition of initial or continued service under this rate, the City may require, prior to energization, execution of an electric service agreement, completion of all required studies, installation of required metering and telemetry, satisfaction of all credit and performance assurance requirements, payment of all applicable fees or contributions, and demonstration that the customer's operation will not adversely affect system reliability or other customers.

6. If a customer's Installed Capacity exceeds 49,999 kW, the City may in its sole discretion~~may~~ require the customer to take service under a separate service arrangement and a separate rate schedule.

7. Service rendered under this rate is subject to the City's Rules and Regulations, provided that Section 13.04.230 shall not apply.

8. If Customer fails to utilize the full Initial Infrastructure Capacity, the full Additional Infrastructure Capacity, or the full amount of any Expansion Request for six (6) consecutive months during the applicable Service Agreement for Electric Service period, then to the extent such capacity is not utilized, City shall have the right in its sole discretion to use the available feeder and substation capacity to serve other customers. Customer's utilization of capacity shall be the maximum kilowatt demand established by Customer for any fifteen (15) minute period during the month, as indicated or recorded by a demand meter.

B. Energy Forecast. By the tenth of each month prior to and after beginning service, Customer must submit to the City an energy forecast of its projected energy usage for the following six months. This energy forecast is a projection of the future forecasted energy consumption by Customer and shall be in the form of an hourly energy profile of expected energy consumption (kWh) for each hour of the following six months.

C. Failure to Submit Energy Forecast. Any Customer who fails to submit an energy forecast when due shall be subject to interruption or termination of electric service, and any other remedies available to the City under its Rules and Regulations. In addition, the City shall have the right to forecast the customers' projected energy load for the energy forecast term, subject to other provisions in this Section 13.04.046.

D. Invoices. Invoices are due and payable immediately upon receipt and considered late if not paid within five days after receipt. The City immediately applies any cash prepayment amount (defined below) or draws on any letter of credit provided by the customer for any late or unpaid amounts owed to the City by the customer, or take any other action provided for under the City's Rules and Regulations. If a Customer needs additional time to pay an invoice, they may post an additional Prepayment Amount to ensure minimum required prepayment balances are constantly maintained. VLC&I customers shall enroll in and maintain electronic billing (e-bill) for all electric service accounts. Delivery of bills by mail shall not extend, delay, or otherwise affect the date a bill is issued, received, or due.

E. Prepayment Amount. Prior to activation of electric service, customer shall provide to the City a minimum cash prepayment amount ("prepayment amount") equal to three months of the highest projected total cost of energy deliveries pursuant to the Electric Service Agreement and this rate schedule, including the customer charge, energy charge, billed demand, power cost adjustment, energy rate rider, transmission delivery cost adjustment, and any other authorized charges. The billed demand shall be calculated pursuant to Section O below, the applicable billed demand multiplied by three months or such additional period of time as the City may require ("prepayment term"). The City shall apply the prepayment amount monthly to the customer's invoice for electric service, and the customer shall pay any amounts owed to the City in addition to the prepayment amount and replenish the prepayment amount each month equal to the amount of the then-current prepayment amount for the then-current prepayment term. The City reserves the right to require additional amounts above the prepayment amount based on the creditworthiness of the customer, energy market volatility, previous payment defaults, or business history of the customer, each as determined by the City in its sole discretion. Any prepayment amounts under this Section 13.04.046 (Very large commercial and industrial service) shall not bear interest and shall be applied to each invoice and replenished by the customer in accordance with this subsection (E). The prepayment amount shall remain in place until December 31 of the year following the year of the

termination date, and Customer's payment in full to City of verifiably documented charges attributable to providing the service prior to termination of this Agreement, including, but not limited to demand charges assessed by ERCOT for usage during peak demand periods.

F. Credit Support. In addition to the prepayment amount in Section E, Customer shall also provide performance assurance pursuant to Section G herein in an amount equal to or greater than three months of the projected revenues to City based on the highest three months of customer's energy forecast. The performance assurance shall remain in place until December 31 of the year following the year of the termination date, and customer's payment in full to City of verifiably documented charges attributable to providing the service prior to termination of this agreement, including, but not limited to demand charges assessed by ERCOT for usage during peak demand periods.

G. Performance Assurance. Customer shall provide to the City either an unconditional irrevocable letter of credit ("letter of credit") or a form of guarantee approved by City ("parental guarantee") letter of credit and parental guarantee are collectively referred to as "performance assurance." Both the letter of credit and the parental guarantee must: (1) be made payable to the City; (2) require at least 60 days written notice to the City upon nonrenewal or termination; and (3) allow for immediate draw by the City for the nonpayment of any invoice by the due date or any other payment default by customer. In the event the City applies all or part of the performance assurance related to any late payment or nonpayment by customer, or any other payment default by the customer, the City may immediately request additional performance assurance from customer in order for the continuance of electric service by the City.

1. The letter of credit shall comply with V.T.C.A., Business and Commerce Code § 5.106 issued by a bank or financial institution with a minimum credit rating of A-from S&P or Fitch, or a minimum rating of A3 from Moody, and that has a physical location or address in the United States in which the letter of credit can be drawn, and that is otherwise acceptable to the City in its sole discretion. The City reserves the right in its sole discretion to require an increase in the amount of the letter of credit, including, but not limited to an increase based on market volatility, creditworthiness of the customer, previous payment defaults, or business history of the customer.

2. A Customer may only provide a parental guarantee if the corporate, or other entity, providing such guarantee has an investment grade rating at least one notch above Baa3 by Moody's, BBB-by S&P Global or BBB- by Fitch Ratings. In the event that the entity providing the parental guarantee drops below investment grade, customer must replace the parental guarantee with a letter of credit within two business days. The City reserves the right in its sole discretion to require an increase in the amount of the parental guarantee, including, but not limited to, an increase based on market volatility, creditworthiness of the customer, previous payment defaults, or business history of the customer.

H. Equipment. Customers under this Rate Ordinance shall also be responsible for all the costs including, but not limited to the cost of any and all additional equipment that the City's City Manager, City's General Manager of Electric Utilities ("General Manager") or each of their respective designees, determines is needed, including, but not limited to advanced metering equipment, to manage the customer's energy load and usage to ensure reliable energy service to all customers of the City.

City shall have no obligation to provide redundant feeders, transformer redundancy, automatic transfer capability, alternate feeder supply, or service from another substation except pursuant to a written agreement.

I. Curtailment Events. Customer understands and agrees that it has no guarantee of an uninterrupted supply of power. City shall have the right to curtail or interrupt delivery of energy to customer (i) in response to curtailment instructions from ERCOT as a result of imminent system reliability need; (ii) during periods of force majeure (defined herein); (iii) during unplanned outages, including failure of transmission or distribution facilities or other equipment, partial or complete forced outage, breakage of or damage to machinery or equipment, or (iv) during planned outages as agreed by City and customer ("curtailment event"). "Force majeure" means an event or circumstance which (i) prevents a party from performing its

obligations under this Rate Ordinance, (ii) which event or circumstance is beyond the reasonable control of such party, (iii) was not reasonably foreseeable by such party, or if reasonably foreseeable could not have been overcome with the exercise of due diligence, (iv) is not the result of such party's negligence or fault, and (v) which by the exercise of due diligence, such party is unable to overcome or avoid or cause to be avoided. If customer is notified of a curtailment event and fails to comply with the curtailment event directives received from City, customer shall be liable to City for any uplift charges, securitization charges, penalties, fines or any other ERCOT charges related to a curtailment event imposed on City (directly or indirectly) as a result of customer's failure to comply with the curtailment event notice, which is in addition to any and all costs and fees for the provision of electric service during the curtailment event under this Rate Ordinance and-any and all related ERCOT fees, settlement costs, sub-QSE fees, ERCOT load ratio share charges, ERCOT administration fees, Electric Reliability Organization fees, ERCOT uplifts to load, ERCOT miscellaneous invoices (collectively, "ERCOT Settlement Amounts"), and any other charges, fees and costs assessed or implemented by any Governmental Authority. "Governmental Authority" means (i) any federal, state, local, municipal, or other government or (ii) any other governmental, quasi-governmental, regulatory or administrative agency, commission, or other authority (including the Texas Attorney General, PUCT, ERCOT, Federal Energy Regulatory Commission, NERC, or Texas Reliability Entity) lawfully exercising or entitled to exercise any administrative, executive, judicial, legislative, police, policy, regulatory, or taxing authority or power. "PUCT" means the Public Utility Commission of Texas. City shall have the right, but not the obligation, to disconnect the electricity supply to Customer to force compliance with the curtailment event directives, subject to any shutdown requirements designed to protect the customer facilities or the ERCOT grid. Subject to the aforementioned notice and shutdown requirements, City shall have no liability for exercising such right, nor shall customer be excused from any damages that may arise in the case that City fails to do so. For purposes of clarity, all customers served by City are subject to curtailment events.

J. Very Large Load Account Set-Up Fee. Prior to the commencement of service, customer shall pay a nonrefundable account set-up fee in the amount of $27,349.00, which may be updated from time to time by the City, for installation of ERCOT EPS meter(s) and any other initiation, installation, or other fees levied by ERCOT or otherwise incurred by the City as a result of providing energy service to the customer.

K. Monthly Rate.

1. Customer Charge: $8,125 per month.
2. Energy Charge: $0.0543 per kWh.
3. Demand Charge: $19.65 per kW per month subject to Billed Demand as outlined in Section O below.

L. Power Cost Adjustment. The power cost adjustment charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

M. Energy Rate Rider. In addition to the charges identified in K and L, Customers shall pay the energy rate rider ($/kWh) ("ERR") for all energy consumed. The City Manager, General Manager or their respective designees are responsible for making periodic adjustments to the ERR, which will be based upon historical actual power supply costs since the implementation of the energy rate rider and six months of forecasted future costs to serve the customers in the very large commercial and industrial service class. Changes to the ERR shall have the objective of maintaining a positive cumulative ERR account balance.

The energy rate rider shall be calculated pursuant to the following equation:

ERR ($/kWh) = ((Power Costs – Energy Revenues) + (TAB-AAB))/TL

Where:

ERR = New Energy Rate Rider

Power Costs = All forecasted power supply costs for the VLC&I class during the 6-month forecast period, broken down into five components:

1. Net Settlement of VLC&I Bilateral Hedges
2. Forecasted VLC&I DAM/RT energy purchases
3. Load ratio share (LRS) portion of net settlement of existing long term PPA contracts, including:
    a. Net settlement of PPA contracts
    b. Settlement of CRR hedges
    c. REC revenues
    d. Resource QSE fees and resource administrative charges.
    e. PTP obligations
4. ERCOT Fees and Ancillary Services, including:
    a. Ancillary services
    b. Other ERCOT fees
    c. LRS and/or directly allocated CARD revenues.
5. Miscellaneous Costs, including:
    a. LRS and/or directly allocated allocation of purchased power consulting costs
    b. LRS and/or directly allocated allocation of ERCOT annual membership fee
    c. LRS and/or directly allocated allocation of quarterly ERO fee
    d. LRS and/or directly allocated allocation of securitization costs
    e. Any other additional unrecovered costs that are incurred to provide electric service to VLC&I customers.

Energy Revenues = Forecasted revenues from the energy charge for the VLC&I class during the 6-month forecast period. Equal to the energy charge multiplied by the forecasted load.

TAB = Target Account Balance. Equal to the highest month of forecasted energy costs for the VLC&I class in the 12 months following the rate update.

AAB = Actual Account Balance. Equal to the cumulative operating income from the collection of the Energy Rate Rider between inception of the ERR and the end of the operating month preceding the ERR calculation update. Operating income for historical months is defined as Energy Revenues plus ERR revenues minus Power Costs for each historical month.

TL = Total Load. Equal to the forecasted VLC&I energy sold during the 6-month forecast period.

The ERR may not be less than zero. The City Manager, General Manager or their respective designees are responsible for making periodic adjustments to the ERR.

N. Ratcheted Demand. In the event that the actual monthly peak demand of the customer exceeds (i) 80 percent of the installed capacity or (ii) the minimum demand as defined in the Electric Service Agreement, such new higher peak demand shall be used to determine the billed demand and shall be applicable for a period of 12 consecutive months from the month in which the highest peak demand is measured ("demand ratchet"). The City may establish procedures and methodologies necessary to administer the Demand Ratchet in a consistent and nondiscriminatory manner. ~~In the event that the maximum kilowatt (kW) demand measured over a 15-minute interval, or such other interval as established by the City's metering standards, during the billing period of the customer exceeds (i) 80 percent of the Installed Capacity or (ii) the minimum demand as defined in the Electric Service Agreement, such demand shall be used to determine the Billed Demand and shall be applicable for a period of 12 consecutive months from the month in which such demand is measured ("Demand Ratchet").~~

O. Billed Demand. The billed demand shall be the greater of:

1. The measured maximum 15-minute demand in kilowatts (kW) recorded during the billing period, or
2. The contract minimum demand, if applicable, or

3. The Demand Ratchet, if specified in Section N of this rate schedule.

Billed Demand may be adjusted for power factor if the actual power factor falls below the threshold specified in this tariff.

P. Transmission Delivery Cost Adjustment. The transmission delivery cost adjustment charge under this rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

Q. Minimum Billed Demand. The minimum demand charge shall be 80 percent of the Installed Capacity, or as otherwise provided in the Electric Service Agreement between customer and City.

R. Power Factor. If the customer's power factor during a billing cycle is less than 0.95 lagging during the monthly peak 15-minute interval, the City may adjust the Billed Demand (kW) by applying a multiplier. This multiplier is calculated by dividing the target power factor (0.95) by the customer's actual power factor (which is less than 0.95). The resulting ratio will be multiplied by the Billed Demand for that billing cycle.

S. Primary Voltage Discount.

"Primary Voltage" is the nominal electrical voltage of 24.9 kV / 14.4 kV, expressed as a ratio of phase-to-phase voltage over phase-to-neutral voltage, at which the City delivers three-phase medium-voltage AC power to the Point of Service, measured immediately upstream of the Customer-owned transformation equipment utilized to step down such electrical energy for final utilization.

A "Primary Voltage Customer" is a customer that receives electric service directly from City's electric distribution system at 24.9 kV / 14.4 kV.

1. Applicable to very large commercial and industrial customers that receive electric service at primary distribution voltage and that own, operate, and maintain all facilities on the customer side of the point of interconnection, including but not limited to transformation, protection, and distribution equipment.

2. Monthly Demand Discount Rate. The demand charge for a Primary Voltage Customer shall be reduced by $2.11 per kW of Actual Demand.

T. Minimum Bill. The monthly minimum bill amount related to any customer whose load capacity is between 10,000 kW and less than 49,999 kW shall be an amount equal to the sum of the customer charge~~, energy charge,~~ the ~~greater of the Ratcheted Demand charge , demand charge~~Billed demand charge ~~or minimum demand charge, power cost adjustment, energy rate rider, transmission delivery cost adjustment,~~ and any other authorized charges.

U. Sales Taxes. Sales taxes, where applicable, will be charged to Customer in addition to the above rates.

Sec. 13.04.0461. Month-to-Month Very Large Commercial & Industrial Service.

A. Availability: If a customer eligible for service under this section receives service without an executed electric service agreement, whether due to expiration, refusal, failure to execute, or other circumstance, the customer shall be billed under the Month-to-Month Very Large Commercial & Industrial Service rates set forth below. Such rates are intended to recover the City's costs, risks, and administrative burdens associated with serving a very large load without agreed forecasting, credit support, operational controls, and wholesale market protections. Month-to-Month Very Large Commercial & Industrial Service shall continue until an electric service agreement is executed by both the City and the customer or service is otherwise terminated in accordance with this Article and the City's Rules and Regulations.

These rates will be in effect for Customer's electric service until such time as an Electric Service Agreement is signed by both Customer and City, at which time the rates provided in the Electric Service Agreement will apply. The City will make a good faith effort to complete its review of the Electric Service Agreement and obtain approval in a timely manner.

B. Monthly Rate:

1. Customer Charge: $8,125 per month.

2. Energy Charge: $0.08755 per kWh.

3. Demand Charge: $19.65 per kW per month subject to Billed Demand as outlined in Section F below.

C. Power Cost Adjustment. The power cost adjustment charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Energy Rate Rider. In addition to the charges identified in B and C, Customers shall pay the energy rate rider ($/kWh) ("ERR") for all energy consumed.

E. Ratcheted Demand. In the event that the actual monthly peak demand of the customer exceeds (i) 80 percent of the installed capacity or (ii) the minimum demand as defined in the Electric Service Agreement, such new higher peak demand shall be used to determine the billed demand and shall be applicable for a period of 12 consecutive months from the month in which the highest peak demand is measured ("demand ratchet"). The City may establish procedures and methodologies necessary to administer the Demand Ratchet in a consistent and nondiscriminatory manner.~~In the event that the maximum kilowatt (kW) demand measured over a 15-minute interval, or such other interval as established by the City's metering standards, during the billing period of the customer exceeds (i) 80 percent of the Installed Capacity or (ii) the minimum demand as defined in the Electric Service Agreement, such demand shall be used to determine the Billed Demand and shall be applicable for a period of 12 consecutive months from the month in which such demand is measured ("Demand Ratchet").~~

F. Billed Demand. The billed demand shall be the greater of:

1. The measured maximum 15-minute demand in kilowatts (kW) recorded during the billing period, or

2. The contract minimum demand, if applicable, or

3. The Demand Ratchet, if specified in Section E of this rate schedule.

G. Billed Demand may be adjusted for power factor if the actual power factor falls below the threshold specified in this tariff.

H. Transmission Delivery Cost Adjustment. The transmission delivery cost adjustment charge under this rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

~~I.~~ Minimum Billed Demand. The minimum demand charge shall be 80 percent of the Installed Capacity~~,~~ or as otherwise provided in the Electric Service Agreement between customer and City.

I. Minimum Bill. The monthly minimum bill amount related to any customer whose load capacity is between 10,000 kW and less than 49,999 kW shall be an amount equal to the sum of the customer charge, ~~energy charge, the greater of the Ratcheted Demand charge ,~~ Billed demand charge~~ or minimum demand charge, power cost adjustment, energy rate rider, transmission delivery cost adjustment~~, and any other authorized charges.

J. Primary Voltage Discount.

Primary Voltage is the nominal electrical voltage of 24.9 kV / 14.4 kV, expressed as a ratio of phase-to-phase voltage over phase-to-neutral voltage, at which the City delivers three-phase medium-voltage AC power to the Point of Service, measured immediately upstream of the Customer-owned transformation equipment utilized to step down such electrical energy for final utilization.

A Primary Voltage Customer is a customer that receives electric service directly from the City's electric distribution system at 24.9 kV / 14.4 kV.

5. Applicable to large commercial and industrial customers that receive electric service at primary distribution voltage and that own, operate, and maintain all facilities on the customer side of the point of interconnection, including but not limited to transformation, protection, and distribution equipment.

6. Monthly Demand Discount Rate. Primary voltage customers' Actual Demand will be reduced (credited) by $2.11/kW.

7. Minimum Bill. The minimum bill for primary voltage customers will be based on the minimum bill for their applicable customer class, as described herein. To the extent that the minimum bill includes the demand charge, calculation of the demand charge will reflect the applicable monthly demand discount rate.

8. Primary Voltage Discount Update. The primary voltage discount will be reviewed and may be adjusted, as determined by the City.

Power Factor. If the customer's power factor during a billing cycle is less than 0.95 lagging during the monthly peak 15-minute interval, the City may adjust the Billed Demand (kW) by applying a multiplier. This multiplier is calculated by dividing the target power factor (0.95) by the customer's actual power factor (which is less than 0.95). The resulting ratio will be multiplied by the Billed Demand for that billing cycle.

K. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.050. Electric vehicle (EV) charger service.

A. Availability.

1. Applicable to nonresidential customers operating electric vehicle charging infrastructure whose design load is equal to or greater than 500 kW but less than 2,000 kW during any billing period, as determined in accordance with Section 13.04.012.

2. This rate is available only where the customer's electric service is primarily used to supply electric vehicle charging load, as determined by the City.

3. Customers must provide sub metered or equivalent data, in a form and frequency acceptable to the City, sufficient to identify electric vehicle charging load and support rate administration.

4. If a customer does not meet the requirements of this section, the City may require the customer to take service under the otherwise applicable rate schedule.

B. Net Monthly Rate.

1. Customer Charge: $357.35 per month.

2. Energy Charge: $0.0577 per kWh.

3. Demand Charge: $16.34 per kW per month, applied to Billed Demand.

i. Billed Demand. The Billed Demand for each billing period shall be the greatest of:

1. The customer's Actual Demand, as defined in Section 13.04.012;

2. Five hundred kilowatts (500 kW); or

3. The Ratcheted Demand.

ii. Ratcheted Demand. The Ratcheted Demand shall be equal to 80 percent of the highest Demand recorded during the most recent twelve (12) billing periods. Once established, such Ratcheted Demand shall remain in effect for twelve (12) consecutive billing months from the month in which the highest Demand is measured.

iii. Initial Demand Charge. For a new customer or a customer without twelve (12) months of demand history, the Billed Demand shall be the greater of the customer's Actual Peak Demand or the customer's Design Load, as determined by the City.

4. Minimum Bill: The minimum bill shall consist of the customer charge plus the minimum demand charge.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.055. Municipal.

A. Availability. Applicable to City-owned and operated facilities whose uses are not covered by a specific rate schedule. Service rendered under this rate is subject to the City's Rules and Regulations.

B. Net Monthly Rate.

1. Customer Charge: $134.77 per month.

2. Energy Charge: $0.0715 per kWh.

3. Minimum Bill: $134.77 per month.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.060. Power Pedestal service.

A. *Availability.* This rate is available for electric service provided through temporary or permanent power pedestal installations used to supply electricity for temporary, intermittent, or seasonal uses, including but not limited to festivals, public events, and decorative lighting. This rate shall apply only where such service:

1. Is provided through pedestal-type distribution infrastructure designed to serve multiple temporary or variable loads; and

2. cannot be reasonably billed to end users under another applicable rate schedule; and

3. Does not qualify for service under any other established rate schedule based on the nature of the load, metering configuration, or customer classification, as determined by the City.

This rate is intended for unique service configurations where standard rate schedules are not practicable. The City reserves the right to determine eligibility for service under this rate.

B. *Net Monthly Rate.*

1. Customer Charge: $0.00 per month.

2. Energy Charge: $0.1205 per kWh.

3. Minimum Bill: $0.00 per month.

C. *Power Cost Adjustment.* The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. *Transmission Delivery Cost Adjustment.* The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. *Sales Taxes.* Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.065. Retail outdoor lighting service.

A. *Applicability.* This rate applies to all unmetered retail outdoor lighting services installed on the customer premises, including municipal premises.

B. *Installation and maintenance.* The customer must request in writing, and the City must approve in writing, any installation of retail outdoor lighting to be installed on the customer's premises. Further, the customer must pay for all costs associated with installation, including, but not limited to all materials, labor, and installation costs. For new installations, a customer must agree to a term of service of not less than one year. The City reserves the right in its sole discretion to refuse or discontinue service at locations where excessive maintenance or lamp replacements occur. The City will maintain all lighting facilities incidental to providing this service.

C. *Billing.* Customer shall be billed monthly for retail outdoor lighting service as set forth in the monthly rates in Subsection D. Service rendered under this rate is subject to the City's Rules and Regulations.

D. *Monthly rate.* High pressure sodium (HPL) lighting:

1. 100 watt HPL or equivalent—$8.50 per month, per light.
2. 200 watt HP or equivalent L—$14.50 per month, per light.
3. 250 watt HPL or equivalent—$16.70 per month, per light.
4. 400 watt HPL or equivalent—$23.50 per month, per light.

E. *Power cost adjustment.* The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used or estimated, calculated in accordance with Section 13.04.075.

F. *Transmission delivery cost adjustment.* The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used or estimated, calculated in accordance with Section 13.04.080.

G. *Sales taxes.* Sales taxes, where applicable, will be charged to the customer in addition to the above rates.

Sec. 13.04.070. Municipal street lighting service fee.

A. Applicability. This fee applies to all residents within the corporate boundaries of the City.

B. Purpose. This fee shall pay for City-owned and operated street lighting on all dedicated public streets, highways, expressways, and thoroughfares within the City limits, from dusk to dawn, or as determined by the City in its sole discretion.

C. Monthly Fee. Streetlight fee per account within City limits: $2.40. In instances where a single account provides service to multiple units (like a master-metered property), the monthly fee shall be assessed per individual unit served by that account.

D. Service. The City will maintain all municipal street lighting facilities within the corporate boundaries of the City. Service rendered under this Section is subject to the City's Rules and Regulations.

Sec. 13.04.071. Reserved.

Sec. 13.04.075. Power cost adjustment factor.

A. *Availability.* The Power Cost Adjustment Factor (PCAF) shall be applied uniformly to the sales to all customers of the City.

B. *Calculation Method.* The purpose of this schedule is to accurately recover from City customers the cost of wholesale power purchases in excess of the base amount included in the City's electric retail rate schedules. Wholesale power purchases shall not include transmission charges, ERCOT Fees, delivery charges, and any other delivery fees necessary. Wholesale power purchases shall include but are not limited to fuel charges and substation charges. All wholesale power cost realized above the base amount shall be billed by the City on its monthly bills as a power cost adjustment, determined in accordance with the provisions set forth below. Periodically, the City will compare the total amount of power cost adjustment revenue to the actual energy costs and adjust the power cost adjustment factor (PCAF). The General Manager of the Utility is responsible to set the PCAF to recover the shortfall from customers or to refund the excess to customers and will report the financial status of the electric fund to the Council on a quarterly basis.

The formula for calculation of the power cost adjustment factor is as follows:

$$PCAF = \frac{WC - (P)(K) - CF}{S}$$

C. *Definitions.*

PCAF = Power cost adjustment ($ per kWh) rounded to the nearest $0.0001/kWh

WC = Total cost of power, not including transmission charges, ERCOT Fees, and delivery charges purchased by the City from its supplier for the immediately preceding wholesale billing period ($).

(P) = Total energy (kWh) purchased by the City from its supplier for the immediately preceding wholesale billing period (kWh).

(S) = Total estimated sales (kWh) to City customers for the current City billing period (kWh).

(K) = Base wholesale power cost included in the City's retail electric rate schedules.

CF = Correction factor adjustment to be applied in the current City billing period to provide for correction of the variance between power cost adjustment expenses which should have been recovered and actual power cost adjustment revenues received for the immediately preceding City billing period prior to the current City billing period ($).

The formula for calculation of the correction factor (CF) is as follows:

$$CF = (A) - (B)$$

Where:

(A) = The actual power cost adjustment revenues in dollars received from power cost adjustment for the immediately preceding City billing period.

(B) = The actual wholesale power cost not including transmission, ERCOT, congestion charges and other fees associated with delivery in dollars paid by the City in excess of the base amount of wholesale power cost included in the City's electric retail rate schedules for the second preceding wholesale billing record.

Sec. 13.04.080. Transmission delivery cost adjustment factor.

A. *Availability.* The Transmission Delivery Cost Adjustment Factor (TDCAF) shall be applied uniformly to the sales to all customers of the City, except sales made to guard light or municipal streetlight services.

B. *Calculation Method.* The purpose of this schedule is to accurately recover from City customers the cost of the transmission and delivery of wholesale power purchases in excess of the base amount included in the City's electric retail rate schedules. Transmission and delivery shall include but is not limited to transmission charges, ERCOT Fees, delivery charges, and any other delivery fees necessary. All transmission delivery cost realized above the base amount shall be billed by the City on its monthly bills as a transmission delivery adjustment, determined in accordance with the provisions set forth below. Periodically, the City will compare the total amount of transmission delivery adjustment revenue to the actual transmission delivery costs and adjust the TDCAF. The General Manager of the Utility is responsible to set the TDCAF to recover any shortfall from customers and refund any excess to customers.

The formula for calculation of the transmission delivery adjustment factor is as follows:

$$TDCAF = \frac{TC - (P)(K) - CF}{S}$$

C. *Definitions.*

TDCAF = Transmission delivery cost adjustment ($ per kWh) rounded to the nearest $0.0001/kWh.

TC = Total estimated transmission delivery cost including but not limited to transmission charges, ERCOT Fees, congestion fees, ancillary costs, QSE fees and any other costs associated with delivery of wholesale power purchased by the City from its supplier for the immediately preceding wholesale billing period ($).

(P) = Total energy (kWh) purchased by the City from its suppliers for the immediately preceding wholesale billing period (kWh).

(S) = Total estimated sales (kWh) to City customers for the current City billing period (kWh).

(K) = Base transmission delivery cost included in the City's retail electric rate schedules ($0.0048 per kWh).

CF = Correction factor adjustment to be applied in the current City billing period to provide for correction of the variance between transmission delivery adjustment expenses which should have been recovered and actual transmission delivery adjustment revenues received for the immediately preceding City billing period prior to the current City billing period ($).

The formula for calculation of the correction factor (CF) is as follows:

$$CF = (A) - (B)$$

Where:

(A) = The actual transmission delivery adjustment revenues in dollars received from transmission delivery cost adjustment for the immediately preceding City billing period.

(B) = The actual transmission delivery costs in dollars paid by the City in excess of the base amount of transmission delivery cost included in the City's electric retail rate schedules for the second preceding wholesale billing record.

Sec. 13.04.081. Curtailment, interruption of service, and ERCOT-related charges

A. No Guarantee of Uninterrupted Service. Electric service is provided subject to the availability of supply and system conditions. The City does not guarantee an uninterrupted supply of electric service.

B. Curtailment and Interruption Authority. The City reserves the right to curtail, reduce, or interrupt delivery of electric service to any customer, in whole or in part (each, a "curtailment event"), under any of the following circumstances:
   1. In response to directives, protocols, or emergency actions issued by the Electric Reliability Council of Texas (ERCOT) or other applicable reliability authority due to system reliability needs;
   2. During events of force majeure;
   3. During unplanned outages, including but not limited to failure of transmission or distribution facilities, equipment malfunction, forced outages, or damage to infrastructure; or
   4. During planned outages or maintenance activities.

   All customers served by the City are subject to curtailment events.

C. Force majeure. "Force majeure" means an event or circumstance that:

   1. Prevents a party from performing its obligations under this Article;
   2. Is beyond the reasonable control of such party;
   3. Was not reasonably foreseeable, or if foreseeable could not have been avoided through the exercise of due diligence;
   4. Is not the result of such party's negligence or fault; and
   5. Cannot be overcome or avoided through the exercise of due diligence.

D. Customer Compliance. Customers shall comply with all curtailment or interruption directives issued by the City during a curtailment event, including directives to reduce load, cease usage, or otherwise modify consumption as directed.

E. Liability for Non-Compliance. A customer who fails to comply with curtailment directives shall be responsible for any costs, charges, penalties, or liabilities incurred by the City as a result of such non-compliance, including but not limited to ERCOT uplift charges, securitization charges, settlement charges, penalties, fines, or other market-related costs imposed directly or indirectly on the City.

F. ERCOT settlement amounts and cost responsibility. All customers shall be responsible for costs and expenses incurred by the City associated with providing electric service that are attributable to such customer's load, including but not limited to: ERCOT settlement costs; sub-QSE fees; load ratio share charges; ERCOT administrative fees; Electric Reliability Organization fees; uplift charges to load; ancillary service costs; ERCOT miscellaneous invoices; and any other charges, fees, or costs assessed by ERCOT or any governmental authority (collectively, "ERCOT settlement amounts").

   Such costs may include verifiably documented incremental administrative or procurement costs incurred by the City in serving the customer's load. Customers shall also be responsible for costs associated with energy usage that exceeds the customer's designated or reasonably expected load characteristics, including any additional costs incurred by the City to procure energy or ancillary services.

G. Market risk acknowledgment. Customers acknowledge that wholesale electric markets, including the ERCOT market, are subject to price volatility and regulatory change. Such risks may include, but are not limited to, exposure to day-ahead and real-time market prices, changes in ERCOT protocols or pricing structures, transmission constraints, generation availability, weather-related conditions, and changes in

regulatory or market requirements. The City does not control such conditions and shall not be responsible for impacts to customer costs resulting from such conditions.

H. Disconnection for Non-Compliance. The City shall have the right to disconnect or otherwise limit electric service to enforce compliance with curtailment directives.

I. Limitation of Liability. The City shall not be liable for any damages resulting from curtailment, interruption, disconnection of service, or market-related costs. Customers shall not be relieved of their obligation to pay for electric service and associated charges during a curtailment event.

J. Governmental authority. "Governmental authority" means any federal, state, local, or municipal government, or any governmental, quasi-governmental, regulatory, or administrative agency, commission, or authority, including but not limited to ERCOT, the Public Utility Commission of Texas (PUCT), the Federal Energy Regulatory Commission (FERC), the North American Electric Reliability Corporation (NERC), or the Texas Reliability Entity.

Sec. 13.04.082. Customer responsibility for interference and damage to electric system.

A. Customer responsibility for system impacts. Customers shall operate their equipment and facilities in a manner that does not cause voltage fluctuations, disturbances, harmonics, waveform distortion, interference, or other conditions that adversely affect the City's electric system, other customers, or telecommunication facilities.

B. Determination of interference. If the City determines that a customer's equipment or operations are causing or contributing to such conditions, and such conditions are reasonably identified, documented, and capable of verification, the City may require the customer to take corrective action.

C. Corrective action required. The City may require the customer, at the customer's sole cost and expense, to install, operate, and maintain equipment or take other measures necessary to eliminate or mitigate such conditions, including but not limited to power conditioning equipment, filtering devices, or other corrective apparatus.

D. Failure to correct. If the customer fails to take corrective action within a reasonable period after notice from the City, the City shall have the right to take such actions as it deems necessary to protect the electric system and other customers, including but not limited to:

    1. Implementing operational restrictions;
    2. Temporarily disconnecting or limiting electric service; or
    3. Undertaking corrective measures directly.

    The customer shall be responsible for all expenses incurred by the City in connection with such actions.

E. Immediate disconnection for safety. The City may disconnect electric service immediately and without prior notice if the customer's equipment or operations create conditions that pose an imminent threat to the safety of persons, the integrity of the electric system, or the protection of property.

F. Limitation of liability. The City shall not be liable for any damages resulting from actions taken under this section.

Sec. 13.04.083. Demand response and third-party load commitments.

A. Applicability. This section applies to customers served under the Large Commercial and Industrial, Very Large Commercial and Industrial, or any electric service agreement rate or service arrangement, and to any other customer whose load the City determines may affect wholesale power supply, ERCOT settlement, system reliability, or City resource obligations.

B. City Consent Required.: Customer shall not enroll in, participate in, or otherwise commit Load served to any Demand Response Program, including (i) current or future ERCOT programs as a Load Resource or Controllable Load Resource, or in Emergency Response Service or (ii) other third-party demand response programs without the prior written consent of City, which consent City may withhold in its sole discretion..

a. Maximum Permissible Load Participation. To the extent that City consents to Customer's participation in ERCOT or other third-party Demand Response Programs, Customer shall obtain the required authorization and approval from the City at least annually, including the Non-Opt-In Entity ("**NOIE**") form or the appropriate authorization from the City, to participate in any demand-side management or load-provided service programs offered by ERCOT or any other third party, and City will determine, in its sole discretion, the maximum permissible participation by Customer in such programs ("**Maximum Permissible Load Participation**"). City has the right to withdraw attestation of NOIE authorization or its approval of participation in any DR program or adjust the Maximum Permissible Load Participation at any time. Customer shall be responsible for all metering and QSE requirements in connection with such programs and shall comply with the requirements for participation in such programs

b. Customer shall be solely responsible for all liabilities, costs, expenses and penalties in connection with Customer's participation in these programs.

C. Customer Minimum Load.

a. Customer shall be required to maintain a minimum base Load (the "**Customer Minimum Load**"), which represents the Customer's load shed obligations to meet their portion of the City's overall load shed obligations.. This amount of Load may not be eligible to participate in DR Programs, as the Load must be available to shed during ERCOT emergency events. The Customer Minimum Load amount may be updated by the City in its sole discretion. If Customer use falls below any Customer Minimum Load, City reserves the right to assess penalties Notwithstanding the foregoing, the Parties recognize that the foregoing minimum load requirement of Customer during emergency events is subject to actual ERCOT Protocols and Applicable Law at the time of the event, which ERCOT and any other Governmental Authority may revise from time to time, and Customer agrees to comply with the actual ERCOT Protocols and Applicable Law at the time of the event and any applicable revisions to the ERCOT Protocols or Applicable Law. City and Customer will comply with all emergency load shedding obligations imposed by ERCOT, Applicable Law and any Change in Law related to the provision of retail electric service to Customer.

b. Customer shall maintain any Customer Minimum Load at all times (24/7/365) until instructed by City for interruption to meet a load shed requirement. If Customer fails to maintain its Customer Minimum Load at any time during an ERCOT settlement interval in which a Customer Minimum Load is required, then Customer shall pay as a liquidated remedy for such failure, within thirty (30) days of notification of violation by City, a deficiency amount for the deficiency period which shall be measured as the difference between (x) the Customer Minimum Load and (y) the lowest actual Customer Load during such settlement interval, times the ERCOT HCAP, summed for all affected settlement intervals during the applicable payment period. The Customer Minimum Load shall be measured at the Point of Service..

D. Interruption of Service and Participation in DR Programs. City shall have the right in its sole discretion to curtail or interrupt Service to Customer without liability to Customer for any reason, including but not limited to Customer's inability to participate and perform in DR Programs during such curtailment.

E. Conditions of Consent. The City may condition consent on metering, telemetry, operational controls, scheduling protocols, communication requirements, financial assurance, indemnity, or other requirements necessary to protect the City, its customers, and the electric system.

F. Customer Responsibility. A customer that participates in a demand response program without City consent, or fails to comply with conditions of consent, shall be responsible for all costs, charges, penalties, settlement amounts, losses, or liabilities incurred by the City arising from such participation or failure.

G. Participation in any demand response program shall not limit the City's right to curtail, interrupt, reduce, or disconnect service in accordance with the City's Rules and Regulations, ERCOT requirements, or the customer's electric service agreement.

Sec. 13.04.084. Energy efficiency and energy conservation fee.

A. Availability. This monthly fee will be charged to all electric meters for all rate classes.

B. Monthly Rate.

Rate Class	Fee
Residential	$1.00
Net Energy Metering—Residential	$1.00
Small General	$1.00
Net Energy Metering—Small General	$1.00
School	$5.00
Municipal Water and Wastewater Pumping	$5.00
Municipal	$5.00
Large General	$10.00
Commercial & Industrial	$15.00
Large Commercial & Industrial	$25.00
Month-to-Month Large Commercial & Industrial	$25.00
Very Large Commercial & Industrial	$25.00
Month-to-Month Very Large Commercial & Industrial	$25.00

C. Sales taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above fee.

D. Use of Funds. Use of funds collected from the energy efficient and energy conservation fee, including all funds previously collected pursuant to this Section, shall be limited to energy efficiency and conservation program costs, activities, and financial incentives, including, but not limited to the following:

1. Program Design and Administration Costs.

   a. Staffing and Administrative Costs. Salaries and benefits for program managers, coordinators, analysts, and administrative support personnel, along with the associated administrative costs to support such personnel.

   b. Consulting Fees. Costs for hiring external consultants or firms to assist with program design, evaluation, and implementation.

2. Incentives and Rebates.

a. Direct Incentives. Payments or rebates provided to consumers, businesses, or utilities for adopting certain energy-efficient technologies or practices.

b. Equipment. Costs for purchasing and dispersing certain energy-efficient appliances to certain customers.

3. Marketing and Outreach Costs.

a. Public Awareness Campaigns. Costs associated with advertising, media outreach, and educational materials to promote energy efficiency among consumers and businesses.

b. Workshops and Training. Expenses related to organizing workshops, seminars, and training sessions for stakeholders related to energy-saving practices.

4. Evaluation and Measurement Costs.

a. Impact Evaluation. Costs associated with conducting studies or evaluations to measure the effectiveness and outcomes of energy efficiency programs.

b. Data Collection. Expenses for collecting and analyzing data related to energy consumption, savings, and program participation.

5. Regulatory and Compliance Costs. Fees or costs associated with regulatory filings, compliance reporting, and meeting regulatory requirements set by state or local authorities.

6. Long-Term Maintenance and Monitoring Costs. Costs associated with ongoing maintenance, monitoring, and evaluation of installed energy-efficient measures or technologies.

Sec. 13.04.085. Reserved.

Sec. 13.04.090. Reserved.

Secs. 13.04.095, 13.04.100. Reserved.

~~ARTICLE I. ELECTRIC RATES[1]~~

Sec. 13.04.010. Rates and charges—Electricity—Schedule.

The monthly rates and charges for the sales made of services rendered by the electric system of the City are established, levied, fixed, and prescribed as set forth in Sections 13.04.010 through 13.04.100. ~~Service~~Electric service rendered under this Article is subject to the City's Rules and Regulations~~.~~, engineering standards and service standards.

By applying for or accepting electric service, the customer shall provide the City access to the customer's premises and electric facilities as necessary for the installation, inspection, operation, maintenance, repair, replacement, reading, disconnection, or removal of City facilities, meters, and equipment, subject to the City's Rules and Regulations. The City may require easements, access rights, or other documentation as a condition of service where necessary to provide safe and reliable service.

Sec. 13.04.011 Definitions

For purposes of this Article, the following terms shall have the meanings set forth below:

1. **Actual Demand.** Actual Demand means the maximum rate at which electric energy is used by a customer, expressed in kilowatts (kW), and measured over a 15-minute interval during the billing period, or such other interval as established by the City's metering standards. Demand is a measure of power and is not a measure of total energy consumption.
2. **Allocated Capacity.** Allocated Capacity means the maximum allowed distribution infrastructure capacity designed and allocated to the Facility based on the Customer's specified load requirements, including Peak Demand and energy needs. This capacity ensures sufficient distribution capacity to meet Peak Demand under normal operating conditions, including substation and feeder capacity.
3. **Billed Demand.** Billed Demand means the kilowatt (kW) demand used to calculate the customer's demand charge under the applicable rate schedule. Billed Demand shall be based on the highest of the measured Peak Demand, minimum demand, ratcheted demand (where applicable), power factor adjustment, or other provisions of the applicable rate schedule or electric service agreement.
4. **City**. The City of Georgetown, Texas, [a home rule municipal corporation that owns and operates a municipal electric utility system known as Georgetown Utility Systems].
5. **City's Rules and Regulations**. City's ordinances, policies, rate schedules, including description of utility services, billing adjustments, policies, service rules and regulations, and other regulatory measures enacted or adopted by City, including its departments, boards and commissions, as may be amended from time to time by the City in its sole discretion, all said regulations being duly adopted.
6. **Connected Load.** Connected Load means the combined electrical capacity or rating of the customer's motors, equipment, appliances, devices, and other electric-consuming facilities that are or will be connected to the customer's electrical system, whether expressed in kilowatts (kW), kilovolt-amperes (kVA), horsepower, amperes, or other electrical units, as converted or evaluated by the City.

7. **Customer or customer**. A person who is currently receiving retail electric service from City in the person's own name or the name of the person's spouse, or the name of an authorized representative of a partnership, corporation, or other legal entity receiving retail electric service from City.

8. **Design Load.** Design Load means the City's estimate of the customer's expected maximum demand, expressed in kilowatts (kW), after applying applicable diversity factors, operating assumptions, and engineering judgment to the customer's Requested Load, Connected Load, and Load Analysis. Design Load may be used to determine initial rate classification, transformer size, service requirements, and other facilities necessary to serve the customer.

9. **Installed Capacity.** Installed Capacity means the maximum allowed distribution infrastructure capacity, including site-specific infrastructure, designed and installed by City at the Facility and designated to serve the Customer's load requirements, including Peak Demand and energy needs. This capacity ensures sufficient distribution capacity to meet Peak Demand under normal operating conditions. Installed Capacity includes substation and feeder capacity. Installed Capacity may be expressed in kilowatts (kW) or kilovolt-amperes (kVA).

10. **Load Analysis.** Load Analysis means the documentation, engineering review, and evaluation used by the City to determine expected load characteristics, service requirements, rate classification, metering requirements, transformer sizing, system impacts, and any required customer-specific facilities. A Load Analysis may include Requested Load, Connected Load, operating schedules, diversity factors, power factor, motor-starting characteristics, load factor, planned expansions, and other information required by the City.

11. **Peak Demand.** Peak Demand means the highest Actual Demand recorded for a customer during the applicable billing period, expressed in kilowatts (kW), and measured over a 15-minute interval, or such other interval as established by the City's metering standards.

12. **Requested Load.** Requested Load means the total electrical load requested by the customer or the customer's representative as part of a service request, Load Analysis, Electric Line Extension, and Electric Metering Policy application, plans, specifications, or other documentation submitted to the City. Requested Load may include existing load, proposed load, future load, and any planned expansion identified by the customer.

Sec. 13.04.012. Customer classification and demand determination.

A. Customer Classification

1. Regardless of Design Load, Actual Demand, Installed Capacity, or other classification criteria, a customer shall be assigned to the rate schedule applicable to the premises' final intended use, which may differ from the use during construction, as determined by the City from the customer's application and other reasonably required documentation.

B. Initial Rate Classification

1. For new or modified service under 2,000 kW, the City shall assign the applicable rate class based on the customer's Design Load, as determined from the customer's Load Analysis, except as otherwise provided herein.

2. For new or modified service with a Design Load of 2,000 kW or greater, the City shall assign the applicable rate class based on the customer's Installed Capacity or Allocated Capacity on the date of initial energization, as determined solely by the City.

3. For Customers requesting service at existing premises, the City shall not automatically assign the prior customer's rate classification. The City shall consider the following in determination the appropriate rate classification:

i. If the new customer's expected use is substantially similar to the prior use, the City may use recent demand history to establish the initial rate classification.

ii. If demand history is unavailable or not representative, the City may require a Load Analysis and classify the customer based on Design Load or Installed Capacity, as applicable. Existing meters, transformers, or other service facilities do not determine the customer's rate classification or service entitlement.

iii. The City may require the customer, at the customer's expense, to make or fund electric distribution infrastructure changes necessary to provide safe and reliable service and comply with the City's service and engineering standards.

iv. The City may reclassify the customer's initial rate classification based on actual usage and Demand data as outlined in Section C below.

C. Rate Class Reclassification based on Demand

1. This subsection applies only to customers with a Design Load or Installed Capacity under 2,000 kW.

2. The City shall reclassify a customer to a higher rate class if the customer's Actual Demand exceeds the applicable demand threshold for that rate class in three (3) or more billing periods within a consecutive twelve (12) month period . The City may require the customer, at the customer's expense, to make or fund electric distribution infrastructure changes necessary to provide safe and reliable service and comply with the City's service and engineering standards.

3. Upon customer's request, the City may reclassify a customer to a lower rate class if the customer's Actual Demand remains below the applicable demand threshold for twelve (12) consecutive months. The City may require the customer, at the customer's expense, to make or fund electric distribution infrastructure changes necessary to provide safe and reliable service and comply with the City's service and engineering standards.

4. Reclassification shall be applied prospectively beginning with the next billing cycle following determination by the City and shall not be applied retroactively.

5. A customer shall not operate electric load in excess of its Installed Capacity, Allocated Capacity, contract demand, or other capacity limit established by the City without the City's prior written approval. If a customer exceeds such limit, the City may require load reduction, additional infrastructure, additional credit support, revised forecasts, a revised electric service agreement, payment of all incremental costs, or a separate service arrangement. The customer shall be responsible for all costs, charges, penalties, ERCOT settlement amounts, procurement costs, infrastructure costs, and administrative costs incurred by the City as a result of such excess load.

6. A customer shall not be eligible for a reduction in rate class based on Actual Demand if the customer has incurred two or more delinquencies within the preceding twelve-month period.

Sec. 13.04.015. Residential service.

A. Availability. This schedule is available to single-phase residential customers for all domestic uses in residences, individual family apartments, and private rooming houses. This schedule is not available to single metered multi-family dwellings. For residential customers other than single-phase, the City, at its sole discretion, may review and apply another appropriate rate schedule for such customer. .

Where a portion of a residential unit is used for nonresidential purposes, the appropriate nonresidential service schedule is applicable to all uses of electric service. However, this rate schedule ~~maybe~~may be applied to the residential portion of such use provided the customer's wiring is so arranged that use of the electric

service for residential purposes can be metered separately from the nonresidential use. Service rendered under this rate is subject to the City's Rules and Regulations.

B. Net Monthly Rate.

1. Customer Charge: $25.32 per month.

2. Energy Charge: $0.0978 per kWh.

3. Minimum Bill: $25.32 per month.

4. Multiple Dwelling Units. Where served under one meter shall be billed under the applicable commercial rate.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

F. Residential customers may request a low-income electric discount that is 30 percent below the current customer charge (base rate) as follows:

1. ~~1.~~ Request for low-income discount must be made in writing.

2. ~~2.~~ To qualify for the discount, customer or a permanent resident in the household must participate in the Medicaid Program or such other federal, state, and local government entitlement programs that meet the 200 percent Federal Poverty Income Level (FPIL) eligibility guidelines and are approved by City, and provide verifiable proof of that participation, such as an award letter or other official documentation.

~~3.~~ Requests for the low-income discount must be renewed annually.

Sec. 13.04.018. Net energy metering (NEM) service.

A. Availability. Available to residential and small general service customers within the ~~City of Georgetown (COG)~~City's electric service area that own distributed energy resource (DER) facilities.

The following requirements must be met for customers to be served under NEM:

- Customer has executed an interconnection agreement with ~~COG~~City, and ~~COG~~City has approved their completed net metering service application.
- DER facility is customer owned and powered by a renewable resource, including, but not limited to, solar, wind, and geothermal sources.
- For all DER facilities approved by the City after October 1, 2020, the DER facility's ~~installed capacity~~Installed Capacity must be no greater than ten kW-DC (~~kilo watts~~kilowatts direct current) and ~~receives~~receive service at 600 volts or less.
- DER facility is located at the customer's premises, or that is appropriately connected to ~~COG's~~City's electric distribution system, as solely determined by ~~COG~~City.

B. Metering. For DER installations before June 22, 2021, customers served under NEM will have two electric meters installed by ~~COG~~City at the customer's premises: a DER Meter, which measures the total amount of generated electricity from the customer's DER facility, and a bi-directional meter that measures both the volumetric energy and renewable energy - received, as defined herein. These bi-directional meter readings are

used for generating the NEM customer's monthly bill. For all DER installations for NEM customers after June 22, 2021, DER meters are not required; only bi-directional meters will be installed.

C. Meter Definitions.

"Bi-directional meter." An electric meter with separate registers that measures and records, on an interval basis, the flow of electricity from ~~COG~~City to the NEM customer (volumetric energy) as well as the flow of electricity from the customer's DER facility to ~~COG~~City (renewable energy - received), as applicable.

"DER ~~meter~~Meter." The DER meter measures the total amount of energy generated by the customer's DER facility. The meter records "renewable energy - generated."

D. Energy Definitions.

"Renewable energy generated." The total energy produced by the customer's DER facility for the billing period, as measured and recorded by the DER meter. No charges or credits are associated with the renewable energy - generated. This information is provided to ~~COG~~City, and is identified on the customer's bill, for informational purposes only.

"Renewable energy received." Any excess metered energy generated from the customer's DER facility that is not used on-site at the customer's premises and flows back to ~~COG~~City during a billing cycle. The renewable energy - received is measured by the bi-directional meter and recorded on an interval basis. ~~COG~~City pays NEM customers a credit per kilowatt hour of the renewable energy - received.

"Volumetric energy." The amount of metered energy delivered by ~~COG~~City to the customer's premises during a billing cycle. This value is measured by the bi-directional meter and recorded on an interval basis. NEM customers pay ~~COG~~City per kilowatt hour for volumetric energy.

E. Charges for Service Definitions.

"Base rate." The base rate is the customer charge for the applicable customer class in which the NEM customer exists. The base rate is a per customer charge on a $/month basis.

"Volumetric energy charge." The volumetric energy charge is the energy charge for the applicable customer class in which the NEM customer exists. The volumetric energy charge is applied to the volumetric energy on a $/kWh basis.

"Renewable energy received credit." The renewable energy - received credit is an energy rate ($/kWh) applied to the NEM customer's renewable energy - received. ~~COG~~City pays NEM customers a credit per kilowatt hour for renewable energy - received. The credit on the customer's bill is subject to the limitations discussed in item I.

"Power cost adjustment (PCA)." The PCA charge under this rate schedule shall be increased or decreased to reflect the application of a PCA per kWh of energy delivered by ~~COG~~City (volumetric energy) during the billing cycle, as calculated in accordance with Section 13.04.075.

"Transmission delivery cost adjustment (TDCA)." The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy delivered by ~~COG~~City (volumetric energy), as calculated in accordance with Section 13.04.080.

F. Reserved.

G. Monthly Rates for NEM Customers. Rates are subject to change ~~and~~ as described herein.

Residential Service:

1. Base Rate: $25.32 per month.
2. Volumetric Energy Charge: $0.0978 per kWh.
3. Renewable Energy. The received credit shall be calculated on an annual basis according to the following formula:

$$Credit\left(\frac{\$}{kWh}\right)=\frac{Weighted\ Avg.\ Market\ Price\left(\frac{\$}{kWh}\right)+Avg.Transmission\ Capacity\ Cost\ (\frac{\$}{kWh})}{1-Losses\ (\%)}$$

Where "weighted avg. market price" represents the previous year's weighted average locational marginal prices coincident with solar producing hours at the Electric Reliability Council of Texas (ERCOT) South Load zone. The periods coincident with ERCOT and/or Public Utility Commission of Texas declared controlled outages and/or grid emergencies are not included in the weighted avg. market price calculation. The "avg. transmission capacity cost" represents the previous year's average transmission-cost-of-service (TCOS) charges ($/kWh) paid by the Utility for transmission, and "losses" represents the most recently calculated value for ~~COG's~~City's distribution system losses as a percent.

4. PCA: (as determined in Section 13.04.075).
5. TDCA: (as determined in Section 13.04.080).

Small General Service:

1. Base Rate as a ~~COG~~City Electric Customer: $51.05 per month.
2. Volumetric Energy Charge: $0.0921 per kWh.
3. Renewable Energy. The received credit shall be calculated on an annual basis according to the following formula:

$$Credit\left(\frac{\$}{kWh}\right)=\frac{Weighted\ Avg.\ Market\ Price\left(\frac{\$}{kWh}\right)+Avg.Transmission\ Capacity\ Cost\ (\frac{\$}{kWh})}{1-Losses\ (\%)}$$

Where "weighted avg. market price" represents the previous year's weighted average locational marginal prices coincident with solar producing hours at the Electric Reliability Council of Texas (ERCOT) South Load zone. The periods coincident with ERCOT and/or Public Utility Commission of Texas declared controlled outages and/or grid emergencies are not included in the weighted avg. market price calculation. The "avg. transmission capacity cost" represents the previous year's average transmission-cost-of-service (TCOS) charges ($/kWh) paid by the Utility for transmission, and "losses" represents the most recently calculated value for ~~COG's~~City's distribution system losses as a percent.

4. PCA: (as determined in Section 13.04.075).
5. TDCA: (as determined in Section 13.04.080).

H. Renewable Energy—Received Credit—Annual Update. The renewable energy - received credit will be reviewed and may be adjusted on an annual basis by ~~COG~~City according to the formula above.

I. Limit on Renewable Energy—Received Credit. For a billing cycle, and for the purposes of calculating the renewable energy - received credit, the excess renewable energy (kWh) ~~COG~~City receives from NEM customers cannot be greater than the volumetric energy (kWh) ~~COG~~City delivers to the customer's premises. Renewable energy - received that is in excess of the volumetric energy during the billing cycle is not eligible for compensation to the NEM customer by ~~COG~~City. Such excess energy may not be banked by the NEM customer nor rolled over to the following or future billing period(s). Further, such excess energy cannot be utilized to offset other ~~COG~~City charges on the NEM customer bill.

J. Sales Taxes. Sales taxes, where applicable, will be charged to the customer, as appropriate, in addition to the above rates.

Sec. 13.04.020. Small general service.

A. ~~A.~~ Availability. Applicable to ~~all commercial and general service consumers~~nonresidential customers whose ~~demands for all uses are~~Actual Demand is equal to or less than ~~50~~ 49 kilowatts (kW) and whose uses are not covered by ~~a~~another specific rate schedule ~~and the metered outdoor lighting of sports fields and arenas in~~

~~which 85 percent of the connected electric load is attributable to the lighting as verified by the City, up to 75 kW of connected load. Service rendered under this rate is subject to the City's Rules and Regulations.~~ .

B. Net Monthly Rate.

1. Customer Charge: $51.05 per month.
2. Energy Charge: $0.0921 per kWh.
3. Minimum Bill: $51.05 per month.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.025. School services.

A. Availability. ~~Available~~Applicable to electric ~~services required by those customers designated as~~ service provided to a school ~~by the City. Service rendered~~, defined as an educational institution that is recognized, accredited, or otherwise authorized by the State of Texas, including but not limited to:

1. Public school districts and open-enrollment charter schools governed under the Texas Education Code; and
2. Institutions of higher education recognized by the Texas Higher Education Coordinating Board.

Eligibility for service under this rate ~~is subject to the City's Rules and Regulations.~~ shall be determined by the City based on documentation demonstrating such recognition or authorization under applicable state law.

Electric service provided to facilities or portions of facilities used for non-educational, commercial, residential, or revenue-generating purposes shall be separately metered and billed under the applicable rate schedule. If such uses are not separately metered, the City may determine the appropriate rate classification.

B. Net Monthly Rate.

1. Customer Charge: $204.02 per month.
2. Energy Charge: $0.1174 per kWh.
3. Minimum Bill: $204.02 per month.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.030. Municipal water and wastewater pumping service.

A. Availability. Applicable to City-owned facilities with electric service furnished for water and wastewater pumping. Service rendered under this rate is subject to the City's Rules and Regulations.

B. Net Monthly Rate.

1. Customer Charge: $199.10 per month.

2. Energy Charge: $0.04600 per kWh.

3. Demand Charge: $19.99 per kW per month.

4. Minimum Bill: $199.10 per month.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Primary Voltage Discount.

Primary Voltage is the nominal electrical voltage of 24.9 kV / 14.4 kV, expressed as a ratio of phase-to-phase voltage over phase-to-neutral voltage, at which the City delivers three-phase medium-voltage AC power to the Point of Service, measured immediately upstream of the Customer-owned transformation equipment utilized to step down such electrical energy for final utilization.

A Primary Voltage Customer is a customer that receives electric service directly from the City's electric distribution system at 24.9 kV / 14.4 kV.

1. Applicable to Municipal water and wastewater pumping service locations that receive electric service at primary distribution voltage and that own, operate, and maintain all facilities on the customer side of the point of interconnection, including but not limited to transformation, protection, and distribution equipment.

2. Monthly Demand Discount Rate. ~~E~~Primary voltage customers' Actual Demand will be reduced (credited) by $2.24/kW.

F. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.035. Large general service.

A. ~~A.~~ Availability. Applicable to nonresidential customers whose ~~design load~~ Actual Demand is equal to or ~~actual usage exceeds~~greater than 50 kilowatts (kW ~~of peak demand,~~) but ~~does not exceed 500~~ less than 499 kilowatts (kW ~~of peak demand,~~), and whose uses are not covered by ~~a~~another specific rate schedule~~. Service rendered under this rate is subject to the City's Rules and Regulations.~~ , as determined in accordance with Section 13.04.012.

B. Net Monthly Rate.

1. Customer Charge: $178.68 per month.

2. Energy Charge: $0.0668 per kWh.

3. Demand Charge: $11.23 per kW per month, but not less than $561.50 per month.

4. Minimum Bill: $740.18 per month.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

~~E~~E. Minimum Bill. The minimum bill for Large general service shall consist of the customer charge plus the minimum Billed Demand charge.

F. Minimum Billed Demand. The minimum demand for the Large general service class is 50 kW.

G. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.040. Commercial and industrial (C&I).

A. ~~A.~~ Availability. Applicable to nonresidential customers whose ~~design load~~ Actual Demand is equal to or ~~actual usage exceeds~~ greater than 500 kilowatts (kW~~ of peak demand,~~) but ~~does not exceed~~less than 1,999 kilowatts (kW), and whose Installed Capacity is less than 2,000 ~~kW of peak demand~~kVa, and whose uses are not covered by ~~a~~another specific rate schedule~~. Service rendered under this rate is subject to the City's Rules and Regulations.~~ , as determined in accordance with Section 13.04.012.

B. ~~B.~~ Net Monthly Rate.

1. ~~1.~~ Customer Charge: $357.35 per month.

2. ~~2.~~ Energy Charge: $0.0577 per kWh.

3. ~~3.~~ Demand Charge: $16.34 per kW per month, but not less than $8,170.00 per month.

4. ~~4.~~ Minimum Bill: $8,527.35 per month.

C. ~~C.~~ Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. ~~D.~~ Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. ~~E.~~ Minimum Bill. The minimum bill for commercial and industrial service shall consist of the customer charge plus the minimum demand charge.

F. Minimum Billed Demand. The minimum demand for the commercial and industrial class is 500 kW.

G. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.045. Large commercial and industrial (C&I) service

A. ~~A.~~ Availability. Applicable to ~~large commercial and industrial~~non-residential customers whose ~~installed capacity is 2,000 kW~~Installed Capacity or Allocated Capacity is equal to or greater than 2,000 kilowatts (kW) but less than 10,000 kilowatts (kW~~ and whose uses are not covered by another specific rate~~), as determined in accordance with Section 13.04.012. The City reserves the right in its sole discretion to require certain customers eligible for this rate schedule~~.~~ to enter into an electric service agreement with the City ("Electric Service ~~rendered under this rate is subject to the City's rules and regulations. "Installed capacity" means the maximum allowed distribution infrastructure capacity designed, installed, and allocated for a customer based on their specified load requirements, including peak demand and energy needs. This capacity ensures sufficient distribution infrastructure to meet peak demand under normal operating conditions.~~ Agreement").

B. ~~B.~~ Monthly Rate.

1. Customer Charge: $520.71 per month.

2. Energy Charge: $0.0543 per kWh.

3. Demand Charge: $19.65 per kW per month but not less than $39,300.00 per month.

4. Minimum Bill: $39,820.71 per month.

C. ~~C.~~ Power Cost Adjustment. The power cost adjustment charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. ~~D.~~ Transmission Delivery Cost Adjustment. The transmission delivery cost adjustment charge under this rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. ~~E.~~ Minimum Bill. The minimum bill for large commercial and industrial service shall consist of the customer charge plus the minimum demand charge.

F. ~~F.~~ Minimum Billed Demand. The minimum demand for the large commercial and industrial class is 2,000 kW.

G. ~~G.~~ Power Factor. Should the power factor be lower than 0.95 lagging during the monthly peak 15-minute interval, the City may adjust the ~~billed demand~~Billed Demand (kW) by the ratio of target power factor in the numerator (0.95) divided by the actual power factor in the denominator (less than 0.95). If the power factor ratio is greater than a value of 1.0, it will be multiplied by the billing ~~cycle billed demand~~cycle's Billed Demand applicable to the customer.

H. ~~H.~~ Primary Voltage Discount.

Primary Voltage is the nominal electrical voltage of 24.9 kV / 14.4 kV, expressed as a ratio of phase-to-phase voltage over phase-to-neutral voltage, at which the City delivers three-phase medium-voltage AC power to the Point of Service, measured immediately upstream of the Customer-owned transformation equipment utilized to step down such electrical energy for final utilization.

A Primary Voltage Customer is a customer that receives electric service directly from the City's electric distribution system at 24.9 kV / 14.4 kV.

1. ~~Applicability.~~ Applicable to large commercial and industrial customers ~~taking~~that receive electric service at primary distribution voltage ~~("primary voltage customers").~~ and that own, operate, and maintain all facilities on the customer side of the point of interconnection, including but not limited to transformation, protection, and distribution equipment.

2. Monthly Demand Discount Rate. Primary voltage ~~customers demand rate~~customers' Actual Demand will be reduced (credited) by $2.11/kW.

3. Minimum Bill. The minimum bill for primary voltage customers will be based on the minimum bill for their applicable customer class, as described herein. To the extent that the minimum bill includes the demand charge, calculation of the demand charge will reflect the applicable monthly demand discount rate.

4. Primary Voltage Discount~~—~~ Update. The primary voltage discount will be reviewed and may be adjusted ~~on an annual or less frequent basis~~periodically as determined by the City.

I. ~~I.~~ Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.0451. Month-to-Month Large Commercial & Industrial Service.

A. Availability. Applicable to any customer who is required to enter into an Electric Service Agreement and fails to do so within a reasonable period of time, as determined by the City. The customer shall be subject to all provisions herein, as well as the following applicable rates. The customer shall be billed under the Month-to-Month Large Commercial & Industrial Service rates set forth below. Such rates are intended to

recover the City's costs, risks, and administrative burdens associated with serving a very large load without agreed forecasting, credit support, operational controls, and wholesale market protections. Month-to-Month Large Commercial & Industrial Service shall continue until an electric service agreement is executed by both the City and the customer or service is otherwise terminated in accordance with this Article and the City's Rules and Regulations.

These rates will be in effect for Customer's electric service until such time as an Electric Service Agreement is signed by both Customer and City, at which time the rates provided in the Electric Service Agreement will apply. The City will make a good-faith effort to complete its review of the Electric Service Agreement and obtain approval in a timely manner.

B. Monthly Rate.

1. Customer Charge: $520.71 per month.
2. Energy Charge: $0.08755 per kWh.
3. Demand Charge: $19.65 per kW per month subject to Billed Demand as outlined in Section F below.
4. Minimum Bill: $39,820.71 per month.

C. Power Cost Adjustment. The power cost adjustment charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The transmission delivery cost adjustment charge under this rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Minimum Bill. The minimum bill for large commercial and industrial service shall consist of the customer charge plus the minimum demand charge.

F. Minimum Billed Demand. The minimum demand for the large commercial and industrial class is 2,000 kW.

G. Power Factor. Should the power factor be lower than 0.95 lagging during the monthly peak 15-minute interval, the City may adjust the Billed Demand (kW) by the ratio of target power factor in the numerator (0.95) divided by the actual power factor in the denominator (less than 0.95). If the power factor ratio is greater than a value of 1.0, it will be multiplied by the billing cycle Billed Demand applicable to the customer.

H. Primary Voltage Discount.

Primary Voltage is the nominal electrical voltage of 24.9 kV / 14.4 kV, expressed as a ratio of phase-to-phase voltage over phase-to-neutral voltage, at which the City delivers three-phase medium-voltage AC power to the Point of Service, measured immediately upstream of the Customer-owned transformation equipment utilized to step down such electrical energy for final utilization.

A Primary Voltage Customer is a customer that receives electric service directly from the City's electric distribution system at 24.9 kV / 14.4 kV.

1. Applicable to large commercial and industrial customers that receive electric service at primary distribution voltage and that own, operate, and maintain all facilities on the customer side of the point of interconnection, including but not limited to transformation, protection, and distribution equipment.
2. Monthly Demand Discount Rate. Primary voltage customers' Actual Demand will be reduced (credited) by $2.11/kW.
3. Minimum Bill. The minimum bill for primary voltage customers will be based on the minimum bill for their applicable customer class, as described herein. To the extent that the minimum bill includes the demand charge, calculation of the demand charge will reflect the applicable monthly demand discount rate.

4. Primary Voltage Discount Update. The primary voltage discount will be reviewed and may be adjusted, as determined by the City.

I. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.046. Very large commercial and industrial (C&I) service.

A. ~~A.~~ Availability~~.~~

1. Applicable to ~~very large commercial and industrial~~nonresidential customers whose ~~installed~~Installed Capacity is equal to or greater than 10,000 kW but less than 49,999 kW, including classification based on Installed Capacity where applicable.

2. Customers served under this rate shall be required to receive electric service directly from City's electric distribution system at "Primary Voltage" and they are eligible for the "Primary Voltage Discount"

   "Primary Voltage" is the nominal electrical voltage of 24.9 kV / 14.4 kV, expressed as a ratio of phase-to-phase voltage over phase-to-neutral voltage, at which the City delivers three-phase medium-voltage AC power to the Point of Service, measured immediately upstream of the Customer-owned transformation equipment utilized to step down such electrical energy for final utilization.

3. Customers served under this rate shall be required, as determined by the City, to enter into an electric service agreement, provide load forecasts, or meet additional operational, metering, or financial requirements necessary to support service to large loads and participation in wholesale power markets.

4. Customers shall enter into an Electric Service Agreement (ESA) with a maximum term of three (3) years, including any renewals, unless terminated in accordance with the ESA. In order to maintain a guarantee of future electric service capacity ~~is greater than ten MW but less than 51 MW.~~ , the ESA must be signed, and the customer must comply with all Line Extension policy requirements and other obligations required within the ESA.

5. As a condition of initial or continued service under this rate, the City may require, prior to energization, execution of an electric service agreement, completion of all required studies, installation of required metering and telemetry, satisfaction of all credit and performance assurance requirements, payment of all applicable fees or contributions, and demonstration that the customer's operation will not adversely affect system reliability or other customers.

6. If a customer's Installed Capacity exceeds 49,999 kW, the City may in its sole discretion require the customer to take service under a separate service arrangement and a separate rate schedule.

7. Service rendered under this rate is subject to the ~~City's~~City's Rules and Regulations, provided that Section 13.04.230 shall not apply. ~~All customers eligible for this rate schedule must also enter into an electric service agreement with the City ("Electric Service Agreement"). "Installed~~

8. If Customer fails to utilize the full Initial Infrastructure Capacity, the full Additional Infrastructure Capacity, or the full amount of any Expansion Request for six (6) consecutive months during the applicable Service Agreement for Electric Service period, then to the extent such capacity~~" means the maximum allowed distribution infrastructure~~ is not utilized, City shall have the right in its sole discretion to use the available feeder and substation capacity ~~designed, installed, and allocated for a customer based on their specified load requirements, including peak demand and energy needs. This~~to serve other customers. Customer's utilization of capacity ~~ensures sufficient distribution infrastructure to meet peak~~shall be the maximum kilowatt demand established by Customer for any fifteen (15) minute period during the month, as indicated or recorded by a demand ~~under normal operating conditions.~~ meter.

B. ~~B.~~ Energy Forecast. By the tenth of each month prior to and after beginning service, Customer must submit to the City an energy forecast of its projected energy usage for the following six months. This energy forecast is a projection of the future forecasted energy consumption by Customer and shall be in the form of an hourly energy profile of expected energy consumption (kWh) for each hour of the following six months.

C. ~~C.~~ Failure to Submit Energy Forecast. Any Customer who fails to submit an energy forecast when due shall be subject to interruption or termination of electric service, and any other remedies available to the City under its Rules and Regulations. In addition, the City shall have the right to forecast ~~customer's~~the customers' projected energy load for the energy forecast term, subject to other provisions in this Section 13.04.046.

D. ~~D.~~ Invoices. Invoices are due and payable immediately upon receipt and considered late if not paid within ~~seven~~five days after receipt. The City ~~can~~ immediately ~~apply~~applies any cash prepayment amount (defined below) or ~~draw~~draws on any letter of credit provided by the customer for any late or unpaid amounts owed to the City by the customer, or take any other action provided for under the City's Rules and Regulations. If a Customer needs additional time to pay an invoice, they may post an additional Prepayment Amount to ensure minimum required prepayment balances are constantly maintained. VLC&I customers shall enroll in and maintain electronic billing (e-bill) for all electric service accounts. Delivery of bills by mail shall not extend, delay, or otherwise affect the date a bill is issued, received, or due.

E. ~~E.~~ Prepayment Amount. Prior to activation of electric service, customer shall provide to the City a minimum cash prepayment amount ("prepayment amount") equal to three months of the highest projected total cost of energy deliveries pursuant to the Electric Service Agreement and this rate schedule, including the customer charge, energy charge, billed demand, power cost adjustment, energy rate rider, transmission delivery cost adjustment, and any other authorized charges. The billed demand shall be calculated pursuant to Section O below, the applicable billed demand multiplied by three months or such additional period of time as the City may require ("prepayment term"). The City shall apply the prepayment amount monthly to the customer's invoice for electric service, and the customer shall pay any amounts owed to the City in addition to the prepayment amount and replenish the prepayment amount each month equal to the amount of the then-current prepayment amount for the then-current prepayment term. The City reserves the right to require additional amounts above the prepayment amount based on the creditworthiness of the customer, energy market volatility, previous payment defaults, or business history of the customer, each as determined by the City in its sole discretion. Any prepayment amounts under this Section 13.04.046 (Very large commercial and industrial service) shall not bear interest and shall be applied to each invoice and replenished by the customer in accordance with this subsection (E). The prepayment amount shall remain in place until December 31 of the year following the year of the termination date, and Customer's payment in full to City of verifiably documented charges attributable to providing the service prior to termination of this Agreement, including, but not limited to demand charges assessed by ERCOT for usage during peak demand periods.

F. ~~F.~~ Credit Support. In addition to the prepayment amount in Section E, Customer shall also provide performance assurance pursuant to Section G herein in an amount equal to or greater than three months of the projected revenues to City based on the highest three months of customer's energy forecast. The performance assurance shall remain in place until December 31 of the year following the year of the termination date, and customer's payment in full to City of verifiably documented charges attributable to providing the service prior to termination of this agreement, including, but not limited to demand charges assessed by ERCOT for usage during peak demand periods.

G. ~~G.~~ Performance Assurance. Customer shall provide to the City either an unconditional irrevocable letter of credit ("letter of credit") or a form of guarantee approved by City ("parental guarantee") letter of credit and parental guarantee are collectively referred to as "performance assurance." Both the letter of credit and the parental guarantee must: (1) be made payable to the City; (2) require at least 60 days written notice to the City upon nonrenewal or termination; and (3) allow for immediate draw by the City for the nonpayment of any invoice by the due date or any other payment default by customer. In the

event the City applies all or part of the performance assurance related to any late payment or nonpayment by customer, or any other payment default by the customer, the City may immediately request additional performance assurance from customer in order for the continuance of electric service by the City.

1. The letter of credit shall comply with V.T.C.A., Business and Commerce Code § 5.106 issued by a bank or financial institution with a ~~minimal~~minimum credit rating of A-from ~~either~~ S&P or Fitch, or a ~~minimal~~minimum rating of A3 from Moody, and that has a physical location or address in the United States in which the letter of credit can be drawn, and that is otherwise acceptable to the City in its sole discretion. The City reserves the right in its sole discretion to require an increase in the amount of the letter of credit, including, but not limited to an increase based on market volatility, creditworthiness of the customer, previous payment defaults, or business history of the customer.

2. A Customer may only provide a parental guarantee if the corporate, or other entity, providing such guarantee has an investment grade rating at least one notch above Baa3 by Moody's, BBB-by S&P Global or BBB- by Fitch Ratings. In the event that the entity ~~proving~~providing the parental guarantee drops below investment grade, customer must replace the parental guarantee with a letter of credit within two business days. The City reserves the right in its sole discretion to require an increase in the amount of the parental guarantee, including, but not limited to, an increase based on market volatility, creditworthiness of the customer, previous payment defaults, or business history of the customer.

H. ~~H.~~ Equipment. Customers under this Rate Ordinance shall also be responsible for all the costs including, but not limited to the cost of any and all additional equipment that the City's City Manager, City's General Manager of Electric Utilities ("General Manager") or each of their respective designees, determines is needed, including, but not limited to advanced metering equipment, to manage the customer's energy load and usage to ensure reliable energy service to all customers of the City.

~~I.~~ City shall have no obligation to provide redundant feeders, transformer redundancy, automatic transfer capability, alternate feeder supply, or service from another substation except pursuant to a written agreement.

I. Curtailment Events. Customer understands and agrees that it has no guarantee of an uninterrupted supply of power. City shall have the right to curtail or interrupt delivery of energy to customer (i) in response to curtailment instructions from ERCOT as a result of imminent system reliability need; (ii) during periods of force majeure (defined herein); (iii) during unplanned outages, including failure of transmission or distribution facilities or other equipment, partial or complete forced outage, breakage of or damage to machinery or equipment, or (iv) during planned outages as agreed by City and customer ("curtailment event"). "Force majeure" means an event or circumstance which (i) prevents a party from performing its obligations under this Rate Ordinance, (ii) which event or circumstance is beyond the reasonable control of such party, (iii) was not reasonably foreseeable by such party, or if reasonably foreseeable could not have been overcome with the exercise of due diligence, (iv) is not the result of such party's negligence or fault, and (v) which by the exercise of due diligence, such party is unable to overcome or avoid or cause to be avoided. If customer is notified of a curtailment event and fails to comply with the curtailment event directives received from City, customer shall be liable to City for any uplift charges, securitization charges, penalties, fines or any other ERCOT charges related to a curtailment event imposed on City (directly or indirectly) as a result of customer's failure to comply with the curtailment event notice, which is in addition to any and all costs and fees for the provision of electric service during the curtailment event under this Rate Ordinance and-any and all related ERCOT fees, settlement costs, sub-QSE fees, ERCOT load ratio share charges, ERCOT administration fees, Electric Reliability Organization fees, ERCOT uplifts to load, ERCOT miscellaneous invoices (collectively, "ERCOT Settlement Amounts"), and any other charges, fees and costs assessed or implemented by any Governmental Authority. "Governmental Authority" means (i) any federal, state, local, municipal, or other government or (ii) any other governmental, quasi-governmental, regulatory or administrative agency, commission, or other authority (including the Texas Attorney General, PUCT, ERCOT, Federal Energy Regulatory Commission, NERC, or Texas Reliability Entity) lawfully exercising or entitled to exercise any administrative, executive, judicial, legislative, police, policy,

regulatory, or taxing authority or power. "PUCT" means the Public Utility Commission of Texas. City shall have the right, but not the obligation, to disconnect the electricity supply to Customer to force compliance with the curtailment event directives, subject to any shutdown requirements designed to protect the customer facilities or the ERCOT grid. Subject to the aforementioned notice and shutdown requirements, City shall have no liability for exercising such right, nor shall customer be excused from any damages that may arise in the case that City fails to do so. For purposes of clarity, all customers served by City are subject to curtailment events.

J. ~~J.~~ Very Large Load Account Set-Up Fee. Prior to the commencement of service, customer shall pay a nonrefundable account set-up fee in the amount of $~~25,645~~27,349.00, which may be updated from time to time by the City, for installation of ERCOT EPS meter(s) and any other initiation, installation, or other fees levied by ERCOT or otherwise incurred by the City as a result of providing energy service to the customer.

K. ~~K.~~ Monthly Rate.

1. Customer Charge: $~~5,615.50~~8,125 per month.
2. Energy Charge: $0.0543 per kWh.
3. Demand Charge: $19.65 per kW per month subject to ~~billed demand~~Billed Demand as outlined in Section O below.

L. ~~L.~~ Power Cost Adjustment. The power cost adjustment charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

~~A. Power Cost Adjustment. The power cost adjustment charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.~~

M. ~~M.~~ Energy Rate Rider. In addition to the charges identified in K and L, Customers shall pay the energy rate rider ($/kWh) ("ERR") for all energy consumed. The City Manager, General Manager or their respective designees are responsible for making periodic adjustments to the ERR, which will be based upon ~~two months of~~ historical actual power supply costs since the implementation of the energy rate rider and six months of forecasted future costs to serve the customers in the very large commercial and industrial service class~~ and the cumulative ERR account balance.~~. Changes to the ERR shall have the objective of maintaining a positive cumulative ERR account balance.

The energy rate rider shall be calculated pursuant to the following equation:

~~FERR = ({(EC +~~ ERR~~) × TL] HG/L - FHC - SM - FLH - AS)+(~~ ($/kWh) = ((Power Costs – Energy Revenues) + (TAB-AAB))/TL

Where:

~~FERR = Future energy rate rider rounded to the nearest $0.0001/kWh. In no event shall the FERR be less than zero ($0.00)~~

~~EC =~~**ERR** = New Energy ~~charge~~ Rate Rider

Power Costs = All forecasted power supply costs for the VLC&I class ~~(currently at $0.05317/kWh) - subject to revision by rate ordinance~~during the 6-month forecast period, broken down into five components:

~~ERR = Energy rate rider in effect for the historical load period~~

~~TL = Total load = $\Sigma_{i=1}^{n}$ Aggregate VLC&I Energy in kWh adjusted for distribution and transmission losses.~~

~~Where n = the number of hours in the eight month calculation period.~~

~~HG/L = Historical hedge gains or losses = $\Sigma_{i=1}^{n}$(HPi * HVi) + (HVi * (HPi - RTPi))~~

~~Where HPi = Hedge price for hour i~~

~~ALi = Actual load for the class for hour i~~

~~HVi = Hedge volume for hour i~~

~~RTPi = Real time price for the ERCOT South Load Zone~~

~~FHC = Future hedge cost = $\Sigma_{i=1}^{n}$FHVi * FHPi~~

~~Where:~~

~~FHVi = Hedged volume in hour i~~

~~FHPi = Hedge price in hour i~~

~~SMP = Spot market purchases (historic and future) = $\Sigma_{i=1}^{n}$SMPi * LMPi~~

~~Where:~~

~~SMPi = spot market purchases in hour i (can be real-time LMP or day-ahead LMP)~~

~~LMPi = LMP for the ERCOT South Load Zone in hour i~~

~~LMP means the locational marginal price~~

~~FLH = Future load hedges = $\Sigma_{i=1}^{n}$FLHi * FPi~~

~~Where:~~

~~FLHi = Future forecasted load to be hedged in hour i~~

~~FPi = Future price in hour i (for future prices the imputed real-time LMP will be used) FLH and SMP are mathematically the same if there are no future hedge volumes to be traded.~~

~~AS = Ancillary service costs = $\Sigma_{i=1}^{n}$ASi * TLi~~

~~Where:~~

~~ASi = Historical ancillary service costs in hour i and the forecasted ancillary service costs for hour i for future load~~

~~TLi = Total Load served, or to be served in hour i~~

~~TAB = Target account balance - the targeted energy rate rider account balance established by the City Manager, General Manager or their respective designees to stabilize the cost of wholesale power to the VLC&I rate class.~~

1. ~~AAB = Actual account balance - the~~ Net Settlement of VLC&I Bilateral Hedges
2. Forecasted VLC&I DAM/RT energy purchases
3. Load ratio share (LRS) portion of net settlement of existing long term PPA contracts, including:
    a. Net settlement of PPA contracts
    b. Settlement of CRR hedges
    c. REC revenues
    d. Resource QSE fees and resource administrative charges.
    e. PTP obligations
4. ERCOT Fees and Ancillary Services, including:
    a. Ancillary services
    b. Other ERCOT fees
    c. LRS and/or directly allocated CARD revenues.
5. Miscellaneous Costs, including:
    a. LRS and/or directly allocated allocation of purchased power consulting costs

b. LRS and/or directly allocated allocation of ERCOT annual membership fee
c. LRS and/or directly allocated allocation of quarterly ERO fee
d. LRS and/or directly allocated allocation of securitization costs
e. Any other additional unrecovered costs that are incurred to provide electric service to VLC&I customers.

Energy Revenues = Forecasted revenues from the energy charge for the VLC&I class during the 6-month forecast period. Equal to the energy charge multiplied by the forecasted load.

TAB = Target Account Balance. Equal to the highest month of forecasted energy costs for the VLC&I class in the 12 months following the rate update.

AAB = Actual Account Balance. Equal to the cumulative operating income from the collection of the ~~energy rate rider~~Energy Rate Rider between inception of the ERR and the end of the operating month preceding the ERR calculation update. Operating income for historical months is defined as Energy Revenues plus ERR revenues minus Power Costs for each historical month.

TL = Total Load. Equal to the forecasted VLC&I energy sold during the 6-month forecast period.

The ERR ~~(and the FERR above)~~ may not be less than zero. The City Manager, General Manager or their respective designees are responsible for making periodic adjustments to the ERR.

N. Ratcheted Demand. In the event that the actual monthly peak demand of the customer exceeds (i) 80 percent of the installed capacity or (ii) the minimum demand as defined in the Electric Service Agreement, such new higher peak demand shall be used to determine the billed demand and shall be applicable for a period of 12 consecutive months from the month in which the highest peak demand is measured ("demand ratchet"). The City may establish procedures and methodologies necessary to administer the Demand Ratchet in a consistent and nondiscriminatory manner.

O. Billed Demand. The billed demand shall be the greater of:

1. The measured maximum 15-minute demand in kilowatts (kW) recorded during the billing period, or
2. The contract minimum demand, if applicable, or
3. The Demand Ratchet, if specified in Section N of this rate schedule.

Billed Demand may be adjusted for power factor if the actual power factor falls below the threshold specified in this tariff.

P. Transmission Delivery Cost Adjustment. The transmission delivery cost adjustment charge under this rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

Q. Minimum Billed Demand. The minimum demand charge shall be 80 percent of the Installed Capacity, or as otherwise provided in the Electric Service Agreement between customer and City.

R. Power Factor. If the customer's power factor during a billing cycle is less than 0.95 lagging during the monthly peak 15-minute interval, the City may adjust the Billed Demand (kW) by applying a multiplier. This multiplier is calculated by dividing the target power factor (0.95) by the customer's actual power factor (which is less than 0.95). The resulting ratio will be multiplied by the ~~.~~ Billed Demand for that billing cycle.

S. Primary Voltage Discount.

"Primary Voltage" is the nominal electrical voltage of 24.9 kV / 14.4 kV, expressed as a ratio of phase-to-phase voltage over phase-to-neutral voltage, at which the City delivers three-phase medium-voltage AC power to the Point of Service, measured immediately upstream of the Customer-owned transformation equipment utilized to step down such electrical energy for final utilization.

A "Primary Voltage Customer" is a customer that receives electric service directly from City's electric distribution system at 24.9 kV / 14.4 kV.

1. Applicable to very large commercial and industrial customers that receive electric service at primary distribution voltage and that own, operate, and maintain all facilities on the customer side of the point of interconnection, including but not limited to transformation, protection, and distribution equipment.

2. Monthly Demand Discount Rate. The demand charge for a Primary Voltage Customer shall be reduced by $2.11 per kW of Actual Demand.

T. Minimum Bill. The monthly minimum bill amount related to any customer whose load capacity is between 10,000 kW and less than 49,999 kW shall be an amount equal to the sum of the customer charge, the Billed demand charge and any other authorized charges.

U. Sales Taxes. Sales taxes, where applicable, will be charged to Customer in addition to the above rates.

Sec. 13.04.0461. Month-to-Month Very Large Commercial & Industrial Service.

A. Availability: If a customer eligible for service under this section receives service without an executed electric service agreement, whether due to expiration, refusal, failure to execute, or other circumstance, the customer shall be billed under the Month-to-Month Very Large Commercial & Industrial Service rates set forth below. Such rates are intended to recover the City's costs, risks, and administrative burdens associated with serving a very large load without agreed forecasting, credit support, operational controls, and wholesale market protections. Month-to-Month Very Large Commercial & Industrial Service shall continue until an electric service agreement is executed by both the City and the customer or service is otherwise terminated in accordance with this Article and the City's Rules and Regulations.

These rates will be in effect for Customer's electric service until such time as an Electric Service Agreement is signed by both Customer and City, at which time the rates provided in the Electric Service Agreement will apply. The City will make a good faith effort to complete its review of the Electric Service Agreement and obtain approval in a timely manner.

B. Monthly Rate:

1. Customer Charge: $8,125 per month.

2. Energy Charge: $0.08755 per kWh.

3. Demand Charge: $19.65 per kW per month subject to Billed Demand as outlined in Section F below.

C. Power Cost Adjustment. The power cost adjustment charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Energy Rate Rider. In addition to the charges identified in B and C, Customers shall pay the energy rate rider ($/kWh) ("ERR") for all energy consumed.

E. Ratcheted Demand. In the event that the actual monthly peak demand of the customer exceeds (i) 80 percent of the installed capacity or (ii) the minimum demand as defined in the Electric Service Agreement, such new higher peak demand shall be used to determine the billed demand and shall be applicable for a period of 12 consecutive months from the month in which the highest peak demand is measured ("demand ratchet~~").~~"). The City may establish procedures and methodologies necessary to administer the Demand Ratchet in a consistent and nondiscriminatory manner.

F. ~~O.~~ Billed Demand. The billed demand shall be the greater of:

1. The measured maximum 15-minute ~~(~~demand in kilowatts (kW) recorded during the billing period, or ~~30-minute, as~~

2. The contract minimum demand, if applicable~~) demand in kilowatts (kW) recorded during the billing period, or~~

~~2. The contract minimum demand, if applicable, or~~

~~3.~~ , or

3. The ~~demand ratchet~~Demand Ratchet, if specified in Section ~~N~~E of this rate schedule.

G. Billed ~~demand~~Demand may be adjusted for power factor if the actual power factor falls below the threshold specified in this tariff.

~~A. P. Transmission Delivery Cost Adjustment. The transmission delivery cost adjustment charge under this rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.~~

H. ~~Q.~~ Transmission Delivery Cost Adjustment. The transmission delivery cost adjustment charge under this rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

Minimum Billed Demand. The minimum demand charge shall be 80 percent of the ~~installed capacity,~~Installed Capacity or as otherwise provided in the Electric Service Agreement between customer and City.

~~R. Power Factor. If the customer's power factor during a billing cycle is less than 0.95 lagging, the City may adjust the billed demand (kW) by applying a multiplier. This multiplier is calculated by dividing the target power factor (0.95) by the customer's actual power factor (which is less than 0.95). The resulting ratio will be multiplied by the billed demand for that billing cycle.~~

~~S. Primary Voltage Discount.~~

~~1. Applicability. Applicable to large commercial and industrial customers taking service at primary distribution voltage ("primary voltage customers").~~

~~2. Monthly Demand Discount Rate. Primary voltage customers demand rate will be reduced (credited) by $2.11/kW.~~

I. ~~T.~~ Minimum Bill. The monthly minimum bill amount related to any customer whose load capacity is between ~~ten MW~~10,000 kW and less than ~~51 MW~~49,999 kW shall be an amount equal to the sum of the customer charge, ~~energy charge,~~Billed demand charge, ~~power cost adjustment, energy rate rider, transmission delivery cost adjustment,~~ and any other authorized charges.

J. ~~U.~~ Primary Voltage Discount.

Primary Voltage is the nominal electrical voltage of 24.9 kV / 14.4 kV, expressed as a ratio of phase-to-phase voltage over phase-to-neutral voltage, at which the City delivers three-phase medium-voltage AC power to the Point of Service, measured immediately upstream of the Customer-owned transformation equipment utilized to step down such electrical energy for final utilization.

A Primary Voltage Customer is a customer that receives electric service directly from the City's electric distribution system at 24.9 kV / 14.4 kV.

5. Applicable to large commercial and industrial customers that receive electric service at primary distribution voltage and that own, operate, and maintain all facilities on the customer side of the point of interconnection, including but not limited to transformation, protection, and distribution equipment.

6. Monthly Demand Discount Rate. Primary voltage customers' Actual Demand will be reduced (credited) by $2.11/kW.

7. Minimum Bill. The minimum bill for primary voltage customers will be based on the minimum bill for their applicable customer class, as described herein. To the extent that the minimum bill

includes the demand charge, calculation of the demand charge will reflect the applicable monthly demand discount rate.

8. Primary Voltage Discount Update. The primary voltage discount will be reviewed and may be adjusted, as determined by the City.

Power Factor. If the customer's power factor during a billing cycle is less than 0.95 lagging during the monthly peak 15-minute interval, the City may adjust the Billed Demand (kW) by applying a multiplier. This multiplier is calculated by dividing the target power factor (0.95) by the customer's actual power factor (which is less than 0.95). The resulting ratio will be multiplied by the Billed Demand for that billing cycle.

K. Sales Taxes. Sales taxes, where applicable, will be charged to ~~Customer~~the consumer in addition to the above rates.

~~(Ord. No. 2025-47, § 3(Exh. A); Ord. No. 2025-33, § 3(Exh. A); Ord. No. 2024-46, § 4(Exh. B))~~

Sec. 13.04.050. Electric vehicle (EV) charger service.

A. ~~A.~~ Availability. ~~Available to~~

1. Applicable to nonresidential customers operating electric vehicle charging infrastructure ~~providers~~ whose design load is equal to or ~~actual usage exceeds~~greater than 500 kW ~~of peak demand,~~ but ~~does not exceed~~less than 2,000 kW ~~of peak demand, within~~during any billing period, as determined in accordance with Section 13.04.012.

2. This rate is available only where the ~~City of Georgetown~~customer's electric service ~~area and whose uses are not covered by a specific~~is primarily used to supply electric vehicle charging load, as determined by the City.

3. Customers must provide sub metered or equivalent data, in a form and frequency acceptable to the City, sufficient to identify electric vehicle charging load and support rate administration.

4. If a customer does not meet the requirements of this section, the City may require the customer to take service under the otherwise applicable rate schedule. ~~Companies must share sub-metered data to qualify for this rate.~~

B. ~~B.~~ Net Monthly Rate.

1. ~~1.~~ Customer Charge: $357.35 per month.

2. ~~2.~~ Energy Charge: $0.0577 per kWh.

3. ~~3.~~ Demand Charge: $16.34 per kW per month, ~~**~~(applied to Billed ~~on greater of actual demand OR~~ Demand.

i. Billed Demand. The Billed Demand for each billing period shall be the greatest of:

1. The customer's Actual Demand, as defined in Section 13.04.012;

2. Five hundred kilowatts (500 kW ~~OR~~); or

3. The Ratcheted Demand.

ii. Ratcheted Demand. The Ratcheted Demand shall be equal to 80 percent of ~~peak~~the highest Demand recorded during the most recent twelve (12) billing periods. Once established, such Ratcheted Demand shall remain in effect for twelve (12) consecutive billing months from the month ~~demand over previous 12 month period). First month demand will be equal to system design demand.~~ in which the highest Demand is measured.

~~4. Minimum Bill: $8,527.35 per month.~~

iii. ~~C.~~ Initial Demand Charge. For a new customer or a customer without twelve (12) months of demand history, the Billed Demand shall be the greater of the customer's Actual Peak Demand or the customer's Design Load, as determined by the City.

4. Minimum Bill: The minimum bill shall consist of the customer charge plus the minimum demand charge.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. ~~D.~~ Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

~~A. E. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.~~

E. ~~**Sec. 13.04.**~~Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.055. Municipal.

A. Availability. Applicable to City-owned and operated facilities whose uses are not covered by a specific rate schedule. Service rendered under this rate is subject to the City's Rules and Regulations.

B. Net Monthly Rate.

1. Customer Charge: $134.77 per month.

2. Energy Charge: $0.0715 per kWh.

3. Minimum Bill: $134.77 per month.

C. Power Cost Adjustment. The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. Transmission Delivery Cost Adjustment. The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. Sales Taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.060. ~~Economic development rate~~Power Pedestal service.

~~A.~~ A. *Availability.* This rate is available for electric service provided through temporary or permanent power pedestal installations used to supply electricity for temporary, intermittent, or seasonal uses, including but not limited to festivals, public events, and decorative lighting. This rate shall apply only where such service:

1. Is provided through pedestal-type distribution infrastructure designed to serve multiple temporary or variable loads; and

2. cannot be reasonably billed to end users under another applicable rate schedule; and

3. Does not qualify for service under any other established rate schedule based on the nature of the load, metering configuration, or customer classification, as determined by the City.

This rate is intended for unique service configurations where standard rate schedules are not practicable. The City reserves the right to determine eligibility for service under this rate.

~~Availability. Applicable to entities eligible for economic development incentives from the City in the City's service territory. Service rendered under this rate is subject to the City's Rules and Regulations.~~

B. *Net Monthly Rate.*

~~1. Determined by contractual agreement with the City.~~1. Customer Charge: $0.00 per month.

2. Energy Charge: $0.1205 per kWh.

3. Minimum Bill: $0.00 per month.

C. *Power Cost Adjustment.* The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.075.

D. *Transmission Delivery Cost Adjustment.* The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used, calculated in accordance with Section 13.04.080.

E. *Sales Taxes.* Sales taxes, where applicable, will be charged to the consumer in addition to the above rates.

Sec. 13.04.065. Retail outdoor lighting service.

A. *Applicability.* This rate applies to all unmetered retail outdoor lighting services installed on the customer premises, including municipal premises.

B. *Installation and maintenance.* The customer must request in writing, and the City must approve in writing, any installation of retail outdoor lighting to be installed on the customer's premises. Further, the customer must pay for all costs associated with installation, including, but not limited to all materials, labor, and installation costs. For new installations, a customer must agree to a term of service of not less than one year. The City reserves the right in its sole discretion to refuse or discontinue service at locations where excessive maintenance or lamp replacements occur. The City will maintain all lighting facilities incidental to providing this service.

C. *Billing.* Customer shall be billed monthly for retail outdoor lighting service as set forth in the monthly rates in Subsection D. Service rendered under this rate is subject to the City's ~~rules~~Rules and ~~regulations~~Regulations.

D. *Monthly rate.* High pressure sodium (HPL) lighting:

1. 100 watt HPL or equivalent—$8.50 per month, per light.
2. 200 watt HP or equivalent L—$14.50 per month, per light.
3. 250 watt HPL or equivalent—$16.70 per month, per light.
4. 400 watt HPL or equivalent—$23.50 per month, per light.

E. *Power cost adjustment.* The PCA charge under the above rate schedule shall be increased or decreased to reflect the application of a power cost adjustment per kWh of energy used or estimated, calculated in accordance with Section 13.04.075.

F. *Transmission delivery cost adjustment.* The TDCA charge under the above rate schedule shall be increased or decreased to reflect the application of a transmission delivery cost adjustment per kWh of energy used or estimated, calculated in accordance with Section 13.04.080.

G. *Sales taxes.* Sales taxes, where applicable, will be charged to the customer in addition to the above rates.

Sec. 13.04.070. Municipal street lighting service fee.

A. Applicability. This fee applies to all residents within the corporate boundaries of the City.

B. Purpose. This fee shall pay for City-owned and operated street lighting on all dedicated public streets, highways, expressways, and thoroughfares within the City limits, from dusk to dawn, or as determined by the City in its sole discretion.

C. Monthly Fee. Streetlight fee per account within City limits: $2.40. In instances where a single account provides service to multiple units (like a master-metered property), the monthly fee shall be assessed per individual unit served by that account.

D. Service. The City will maintain all municipal street lighting facilities within the corporate boundaries of the City. Service rendered under this Section is subject to the City's ~~rules~~Rules and ~~regulations~~Regulations.

Sec. 13.04.071. Reserved.

Sec. 13.04.075. Power cost adjustment factor.

A. *Availability.* The Power Cost Adjustment Factor (PCAF) shall be applied uniformly to the sales to all customers of the City.

B. *Calculation Method.* The purpose of this schedule is to accurately recover from City customers the cost of wholesale power purchases in excess of the base amount included in the City's electric retail rate schedules. Wholesale power purchases shall not include transmission charges, ERCOT Fees, delivery charges, and any other delivery fees necessary. Wholesale power purchases shall include but are not limited to fuel charges and substation charges. All wholesale power cost realized above the base amount shall be billed by the City on its monthly bills as a power cost adjustment, determined in accordance with the provisions set forth below. Periodically, the City will compare the total amount of power cost adjustment revenue to the actual energy costs and adjust the power cost adjustment factor (PCAF). The General Manager of the Utility is responsible to set the PCAF to recover the shortfall from customers or to refund the excess to customers and will report the financial status of the electric fund to the Council on a quarterly basis.

The formula for calculation of the power cost adjustment factor is as follows:

$$PCAF = \frac{WC - (P)(K) - CF}{S}$$

C. *Definitions.*

PCAF = Power cost adjustment ($ per kWh) rounded to the nearest $0.0001/kWh

WC = Total cost of power, not including transmission charges, ERCOT Fees, and delivery charges purchased by the City from its supplier for the immediately preceding wholesale billing period ($).

(P) = Total energy (kWh) purchased by the City from its supplier for the immediately preceding wholesale billing period (kWh).

(S) = Total estimated sales (kWh) to City customers for the current City billing period (kWh).

(K) = Base wholesale power cost included in the City's retail electric rate schedules.

CF = Correction factor adjustment to be applied in the current City billing period to provide for correction of the variance between power cost adjustment expenses which should have been recovered and actual power cost adjustment revenues received for the immediately preceding City billing period prior to the current City billing period ($).

The formula for calculation of the correction factor (CF) is as follows:

CF = (A) - (B)

Where:

(A) = The actual power cost adjustment revenues in dollars received from power cost adjustment for the immediately preceding City billing period.

(B) = The actual wholesale power cost not including transmission, ERCOT, congestion charges and other fees associated with delivery in dollars paid by the City in excess of the base amount of wholesale power cost included in the City's electric retail rate schedules for the second preceding wholesale billing record.

Sec. 13.04.080. Transmission delivery cost adjustment factor.

A. *Availability.* The Transmission Delivery Cost Adjustment Factor (TDCAF) shall be applied uniformly to the sales to all customers of the City, except sales made to guard light or municipal streetlight services.

B. *Calculation Method.* The purpose of this schedule is to accurately recover from City customers the cost of the transmission and delivery of wholesale power purchases in excess of the base amount included in the City's electric retail rate schedules. Transmission and delivery shall include but is not limited to transmission charges, ERCOT Fees, delivery charges, and any other delivery fees necessary. All transmission delivery cost realized above the base amount shall be billed by the City on its monthly bills as a transmission delivery adjustment, determined in accordance with the provisions set forth below. Periodically, the City will compare the total amount of transmission delivery adjustment revenue to the actual transmission delivery costs and adjust the TDCAF. The General Manager of the Utility is responsible to set the TDCAF to recover any shortfall from customers and refund any excess to customers.

The formula for calculation of the transmission delivery adjustment factor is as follows:

$$TDCAF = \frac{TC - (P)(K) - CF}{S}$$

C. *Definitions.*

TDCAF = Transmission delivery cost adjustment ($ per kWh) rounded to the nearest $0.0001/kWh.

TC = Total estimated transmission delivery cost including but not limited to transmission charges, ERCOT Fees, congestion fees, ancillary costs, QSE fees and any other costs associated with delivery of wholesale power purchased by the City from its supplier for the immediately preceding wholesale billing period ($).

(P) = Total energy (kWh) purchased by the City from its suppliers for the immediately preceding wholesale billing period (kWh).

(S) = Total estimated sales (kWh) to City customers for the current City billing period (kWh).

(K) = Base transmission delivery cost included in the City's retail electric rate schedules ($0.0048 per kWh).

CF = Correction factor adjustment to be applied in the current City billing period to provide for correction of the variance between transmission delivery adjustment expenses which should have been recovered and actual transmission delivery adjustment revenues received for the immediately preceding City billing period prior to the current City billing period ($).

The formula for calculation of the correction factor (CF) is as follows:

CF = (A) - (B)

Where:

(A) = The actual transmission delivery adjustment revenues in dollars received from transmission delivery cost adjustment for the immediately preceding City billing period.

(B) = The actual transmission delivery costs in dollars paid by the City in excess of the base amount of transmission delivery cost included in the City's electric retail rate schedules for the second preceding wholesale billing record.

Sec. 13.04.081. ~~Reserved.~~ Curtailment, interruption of service, and ERCOT-related charges

A. No Guarantee of Uninterrupted Service. Electric service is provided subject to the availability of supply and system conditions. The City does not guarantee an uninterrupted supply of electric service.

B. Curtailment and Interruption Authority. The City reserves the right to curtail, reduce, or interrupt delivery of electric service to any customer, in whole or in part (each, a "curtailment event"), under any of the following circumstances:

1. In response to directives, protocols, or emergency actions issued by the Electric Reliability Council of Texas (ERCOT) or other applicable reliability authority due to system reliability needs;
2. During events of force majeure;
3. During unplanned outages, including but not limited to failure of transmission or distribution facilities, equipment malfunction, forced outages, or damage to infrastructure; or
4. During planned outages or maintenance activities.

All customers served by the City are subject to curtailment events.

C. Force majeure. "Force majeure" means an event or circumstance that:

1. Prevents a party from performing its obligations under this Article;
2. Is beyond the reasonable control of such party;
3. Was not reasonably foreseeable, or if foreseeable could not have been avoided through the exercise of due diligence;
4. Is not the result of such party's negligence or fault; and
5. Cannot be overcome or avoided through the exercise of due diligence.

D. Customer Compliance. Customers shall comply with all curtailment or interruption directives issued by the City during a curtailment event, including directives to reduce load, cease usage, or otherwise modify consumption as directed.

E. Liability for Non-Compliance. A customer who fails to comply with curtailment directives shall be responsible for any costs, charges, penalties, or liabilities incurred by the City as a result of such non-compliance, including but not limited to ERCOT uplift charges, securitization charges, settlement charges, penalties, fines, or other market-related costs imposed directly or indirectly on the City.

F. ERCOT settlement amounts and cost responsibility. All customers shall be responsible for costs and expenses incurred by the City associated with providing electric service that are attributable to such customer's load, including but not limited to: ERCOT settlement costs; sub-QSE fees; load ratio share charges; ERCOT administrative fees; Electric Reliability Organization fees; uplift charges to load; ancillary service costs; ERCOT miscellaneous invoices; and any other charges, fees, or costs assessed by ERCOT or any governmental authority (collectively, "ERCOT settlement amounts").

Such costs may include verifiably documented incremental administrative or procurement costs incurred by the City in serving the customer's load. Customers shall also be responsible for costs associated with energy usage that exceeds the customer's designated or reasonably expected load characteristics, including any additional costs incurred by the City to procure energy or ancillary services.

G. Market risk acknowledgment. Customers acknowledge that wholesale electric markets, including the ERCOT market, are subject to price volatility and regulatory change. Such risks may include, but are not limited to, exposure to day-ahead and real-time market prices, changes in ERCOT protocols or pricing structures, transmission constraints, generation availability, weather-related conditions, and changes in regulatory or market requirements. The City does not control such conditions and shall not be responsible for impacts to customer costs resulting from such conditions.

H. Disconnection for Non-Compliance. The City shall have the right to disconnect or otherwise limit electric service to enforce compliance with curtailment directives.

I. Limitation of Liability. The City shall not be liable for any damages resulting from curtailment, interruption, disconnection of service, or market-related costs. Customers shall not be relieved of their obligation to pay for electric service and associated charges during a curtailment event.

J. Governmental authority. "Governmental authority" means any federal, state, local, or municipal government, or any governmental, quasi-governmental, regulatory, or administrative agency, commission, or authority, including but not limited to ERCOT, the Public Utility Commission of Texas (PUCT), the Federal Energy Regulatory Commission (FERC), the North American Electric Reliability Corporation (NERC), or the Texas Reliability Entity.

Sec. 13.04.082. ~~Reserved~~ Customer responsibility for interference and damage to electric system.

A. Customer responsibility for system impacts. Customers shall operate their equipment and facilities in a manner that does not cause voltage fluctuations, disturbances, harmonics, waveform distortion, interference, or other conditions that adversely affect the City's electric system, other customers, or telecommunication facilities.

B. Determination of interference. If the City determines that a customer's equipment or operations are causing or contributing to such conditions, and such conditions are reasonably identified, documented, and capable of verification, the City may require the customer to take corrective action.

C. Corrective action required. The City may require the customer, at the customer's sole cost and expense, to install, operate, and maintain equipment or take other measures necessary to eliminate or mitigate such conditions, including but not limited to power conditioning equipment, filtering devices, or other corrective apparatus.

D. Failure to correct. If the customer fails to take corrective action within a reasonable period after notice from the City, the City shall have the right to take such actions as it deems necessary to protect the electric system and other customers, including but not limited to:

1. Implementing operational restrictions;
2. Temporarily disconnecting or limiting electric service; or
3. Undertaking corrective measures directly.

The customer shall be responsible for all expenses incurred by the City in connection with such actions.

E. Immediate disconnection for safety. The City may disconnect electric service immediately and without prior notice if the customer's equipment or operations create conditions that pose an imminent threat to the safety of persons, the integrity of the electric system, or the protection of property.

F. Limitation of liability. The City shall not be liable for any damages resulting from actions taken under this section.

Sec. 13.04.083. ~~Reserved~~Demand response and third-party load commitments.

A. Applicability. This section applies to customers served under the Large Commercial and Industrial, Very Large Commercial and Industrial, or any electric service agreement rate or service arrangement, and to any other customer whose load the City determines may affect wholesale power supply, ERCOT settlement, system reliability, or City resource obligations.

B. City Consent Required.: Customer shall not enroll in, participate in, or otherwise commit Load served to any Demand Response Program, including (i) current or future ERCOT programs as a Load Resource or Controllable Load Resource, or in Emergency Response Service or (ii) other third-party demand response programs without the prior written consent of City, which consent City may withhold in its sole discretion..

a. Maximum Permissible Load Participation. To the extent that City consents to Customer's participation in ERCOT or other third-party Demand Response Programs, Customer shall obtain the required authorization and approval from the City at least annually, including the Non-Opt-In Entity ("**NOIE**") form or the appropriate authorization from the City, to participate in any demand-side management or load-provided service programs offered by ERCOT or any other third party, and City will determine, in its sole discretion, the maximum permissible participation by Customer in such programs ("**Maximum Permissible Load Participation**"). City has the right to withdraw attestation of NOIE authorization or its approval of participation in any DR program or adjust the Maximum Permissible Load Participation at any time. Customer shall be responsible for all metering and QSE requirements in connection with such programs and shall comply with the requirements for participation in such programs

b. Customer shall be solely responsible for all liabilities, costs, expenses and penalties in connection with Customer's participation in these programs.

C. Customer Minimum Load.

a. Customer shall be required to maintain a minimum base Load (the "**Customer Minimum Load**"), which represents the Customer's load shed obligations to meet their portion of the City's overall load shed obligations.. This amount of Load may not be eligible to participate in DR Programs, as the Load must be available to shed during ERCOT emergency events. The Customer Minimum Load amount may be updated by the City in its sole discretion. If Customer use falls below any Customer Minimum Load, City reserves the right to assess penalties Notwithstanding the foregoing, the Parties recognize that the foregoing minimum load requirement of Customer during emergency events is subject to actual ERCOT Protocols and Applicable Law at the time of the event, which ERCOT and any other Governmental Authority may revise from time to time, and Customer agrees to comply with the actual ERCOT Protocols and Applicable Law at the time of the event and any applicable revisions to the ERCOT Protocols or Applicable Law. City and Customer will comply with all emergency load shedding obligations imposed by ERCOT, Applicable Law and any Change in Law related to the provision of retail electric service to Customer.

b. Customer shall maintain any Customer Minimum Load at all times (24/7/365) until instructed by City for interruption to meet a load shed requirement. If Customer fails to maintain its Customer Minimum Load at any time during an ERCOT settlement interval in which a Customer Minimum Load is required, then Customer shall pay as a liquidated remedy for such failure, within thirty (30) days of notification of violation by City, a deficiency amount for the deficiency period which shall be measured as the difference between (x) the Customer Minimum Load and (y) the lowest actual

Customer Load during such settlement interval, times the ERCOT HCAP, summed for all affected settlement intervals during the applicable payment period. The Customer Minimum Load shall be measured at the Point of Service..

D. Interruption of Service and Participation in DR Programs. City shall have the right in its sole discretion to curtail or interrupt Service to Customer without liability to Customer for any reason, including but not limited to Customer's inability to participate and perform in DR Programs during such curtailment.

E. Conditions of Consent. The City may condition consent on metering, telemetry, operational controls, scheduling protocols, communication requirements, financial assurance, indemnity, or other requirements necessary to protect the City, its customers, and the electric system.

F. Customer Responsibility. A customer that participates in a demand response program without City consent, or fails to comply with conditions of consent, shall be responsible for all costs, charges, penalties, settlement amounts, losses, or liabilities incurred by the City arising from such participation or failure.

G. Participation in any demand response program shall not limit the City's right to curtail, interrupt, reduce, or disconnect service in accordance with the City's Rules and Regulations, ERCOT requirements, or the customer's electric service agreement.

Sec. 13.04.084. Energy efficiency and energy conservation fee.

A. Availability. This monthly fee will be charged to all electric meters for all rate classes.

B. Monthly Rate.

Rate Class	Fee
Residential	$1.00
Net Energy Metering—Residential	$1.00
Small General	$1.00
Net Energy Metering—Small General	$1.00
School	$5.00
Municipal Water and Wastewater Pumping	$5.00
Municipal	$5.00
Large General	$10.00
Commercial & Industrial	$15.00
Large Commercial & Industrial	$25.00
Month-to-Month Large Commercial & Industrial	$25.00
Very Large Commercial & Industrial	$25.00
Month-to-Month Very Large Commercial & Industrial	$25.00

C. Sales taxes. Sales taxes, where applicable, will be charged to the consumer in addition to the above fee.

D. Use of Funds. Use of funds collected from the energy efficient and energy conservation fee, including all funds previously collected pursuant to this Section, shall be limited to energy efficiency and conservation program costs, activities, and financial incentives, including, but not limited to the following:

1. Program Design and Administration Costs.

a. Staffing and Administrative Costs. Salaries and benefits for program managers, coordinators, analysts, and administrative support personnel, along with the associated administrative costs to support such personnel.

b. Consulting Fees. Costs for hiring external consultants or firms to assist with program design, evaluation, and implementation.

2. Incentives and Rebates.

a. Direct Incentives. Payments or rebates provided to consumers, businesses, or utilities for adopting certain energy-efficient technologies or practices.

b. Equipment. Costs for purchasing and dispersing certain energy-efficient appliances to certain customers.

3. Marketing and Outreach Costs.

a. Public Awareness Campaigns. Costs associated with advertising, media outreach, and educational materials to promote energy efficiency among consumers and businesses.

b. Workshops and Training. Expenses related to organizing workshops, seminars, and training sessions for stakeholders related to energy-saving practices.

4. Evaluation and Measurement Costs.

a. Impact Evaluation. Costs associated with conducting studies or evaluations to measure the effectiveness and outcomes of energy efficiency programs.

b. Data Collection. Expenses for collecting and analyzing data related to energy consumption, savings, and program participation.

5. Regulatory and Compliance Costs. Fees or costs associated with regulatory filings, compliance reporting, and meeting regulatory requirements set by state or local authorities.

6. Long-Term Maintenance and Monitoring Costs. Costs associated with ongoing maintenance, monitoring, and evaluation of installed energy-efficient measures or technologies.

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, AMENDING CHAPTER 13.04, TITLE 1 ENTITLED "ELECTRIC RATES" OF THE CODE OR ORDINANCES OF THE CITY OF GEORGETOWN RELATING TO ELECTRIC SERVICE RATES FOR VARIOUS CUSTOMER CLASSES; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; PROVIDING A SEVERABILITY CLAUSE; PROVIDING FOR PUBLICATION; AND ESTABLISHING AN EFFECTIVE DATE.

WHEREAS, the City of Georgetown periodically reviews and adjusts its electric service rates; and

WHEREAS, the City of Georgetown established its current electric rates in 2025; and

WHEREAS, the City of Georgetown has completed a cost-of-service study for the electric utility; and

WHEREAS, the City Council desires to implement rates which fully recover the cost of electric service; and

WHEREAS, the City Council of the City of Georgetown wishes to amend the current electric service rates and adopt the proposed rates, effective on all electric utility services for the entire service period at the rate that was effective on the end date of the service period, on and after **October 1, 2026**.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

Section 1. The meeting at which this ordinance was approved was in all things conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

Section 2. The facts and recitations contained in the preamble of this ordinance are hereby found and declared to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

Section 3. Title 1 of Chapter 13.04 entitled "Electric Rates" of the Code of Ordinances is hereby amended and replaced in its entirety as shown in **Exhibit A**.

Section 4. If any provision of this ordinance or application thereof to any person or circumstance shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this ordinance which can be given effect without the invalid provision or application, and to this end the provisions of this ordinance are hereby declared to be severable.

Section 5. That all ordinances that are in conflict with the provisions of this ordinance be, and the same are hereby, repealed and all other ordinances of the City not in conflict with the provisions of this ordinance shall remain in full force and effect.

Section 6. The Mayor is hereby authorized to sign this ordinance and the City Secretary to attest. This Ordinance shall become effective and be in full force and effect on October 1, 2026, in accordance with the provisions of the Charter of the City of Georgetown.

EXHIBIT "A"

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
First Reading - Civil Service Strength of Force Ordinance

SUGGESTED ACTION:
First Reading of an Ordinance establishing the classifications and number of positions (Strength of Force) for all the City of Georgetown Fire Fighters and Police Officers pursuant to Chapter 143 of the Texas Local Government Code pertaining to Civil Service -- Robyn Iverson, Senior Human Resources Generalist

ITEM SUMMARY:

Chapter 143 of the Texas Local Government Code, Section 143.021, requires that the governing body of a municipality shall establish classifications and numbers of positions by ordinance. This ordinance supplements the Ordinance that adopts the Annual Operating Budget Plan as the ordinance that establishes the classifications and numbers of positions. This "Strength of Force" Ordinance separates and details the specific classifications and numbers of Civil Service positions.

The changes reflected on this Strength of Force are as follows:

Fire: Effective October 1, 2026, Increase to the total number of positions by six (6) from one-hundred and seventy-five (175) to one-hundred and eighty-one (181).

1. Increase authorization by six (6) at the rank of Firefighter and/or Paramedic from ninety-two (92) to ninety-eight (98).
2. Classification of Fire Driver changed to Engineer to reflect Meet & Confer rank structure update.
3. Classification of Paramedic II changed to Paramedic FTO to reflect Meet & Confer rank structure update.

Police: Effective October 1, 2026, Increase to the total number of positions by three (3) from one-hundred and fourteen (114) to one-hundred and seventeen (117).

1. Increase authorization by three (3) at the rank of Police Officer/Detective from eighty-seven (87) to ninety (90).

FINANCIAL IMPACT:
All funding included in FY27 budget.

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS AUTHORIZING A CHANGE TO THE CIVIL SERVICE CLASSIFICATIONS AND NUMBER OF POSITIONS FOR ALL CITY OF GEORGETOWN FIRE FIGHTERS AND POLICE OFFICERS PURSUANT TO CHAPTER 143 OF THE TEXAS LOCAL GOVERNMENT CODE; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; PROVIDING A SEVERABILITY CLAUSE; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the citizens of the City of Georgetown, Texas have adopted the civil service system for its fire and police departments; and

WHEREAS, the civil service system is governed by Chapter 143 of the Texas Local Government Code; and

WHEREAS, Local Government Code, Section 143.021, requires that the governing body of a municipality establish classifications and numbers of positions by ordinance; and

WHEREAS, the City Council finds that the civil service classifications and number of positions shall be amended as stated herein.

NOW THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

Section 1. The meeting at which this ordinance was approved was conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

Section 2. The facts and recitations contained in the preamble of this ordinance are hereby found and declared to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

Section 3. The classification plans for classified positions in the Fire and Police Departments shall be as follows:

PART ONE – FIRE DEPARTMENT

The following classifications of firefighters in the Fire Department shall exist effective on and after the dates set forth herein under the provisions of Chapter 143 of the Texas Local Government Code. These classifications and no others shall exist effective on and after the dates set forth herein with the number shown indicating the number of positions in each classification.

Classification	Number in Classification October 1, 2026~~5~~
Assistant Chief	3
Fire Battalion Chief	7
Fire Marshal	1
Fire Captain	27
EMS Captain	4
Deputy Fire Marshal	4
Fire & Life Safety Specialist	6
~~Fire Driver~~Engineer	24
Paramedic ~~II~~FTO	7
Firefighter and/or Paramedic	~~92~~ 98 (*3)
Total	~~175~~**181**

The classification of the three (3) Assistant Chiefs and the one (1) Fire Marshal are appointed by the head of department pursuant to the current Meet & Confer Agreement between the City of Georgetown and the Georgetown Associations of Professional Fire Fighters.

*The beginning classifications of Firefighter and Paramedic may be staffed by the department head in any combination totaling ~~92~~98, the total authorized ~~175~~ 181 positions include three (3) over hires, authorizing the Department to hire beyond immediate need while training newer staff.

PART TWO – POLICE DEPARTMENT

The following classifications of officers in the Police Department shall exist effective on and after the dates set forth herein under the provisions of Chapter 143 of the Texas Local Government Code. These classifications and no others shall exist effective on and after the dates set forth herein with the number shown indicating the number of positions in each classification.

Public Hearing on the Proposed FY2027 Drainage Utility Fee

SUGGESTED ACTION:
Public Hearing on the Proposed FY2027 Drainage Utility Fee -- April Haughey, Assistant Public Works Director

ITEM SUMMARY:
This hearing provides an opportunity for public comment on the proposed revision of the Drainage Utility Fee.

There is a corresponding action item on this Council agenda to adopt changes to Chapter 13.28 – Drainage Utility.

This public hearing fulfils the requirements of the Texas Local Government Code, Section 552.045 providing public comment on revised drainage charges.

Stormwater Rates

September 8, 2026 | City Council

GEORGETOWN
TEXAS
1983

Agenda

- Stormwater Rate Background
- Stormwater Cost of Service Study Review
- Conduct Stormwater Rate Public Hearing

Stormwater Rate Background

GEORGETOWN
TEXAS
1985

Stormwater Rate Background

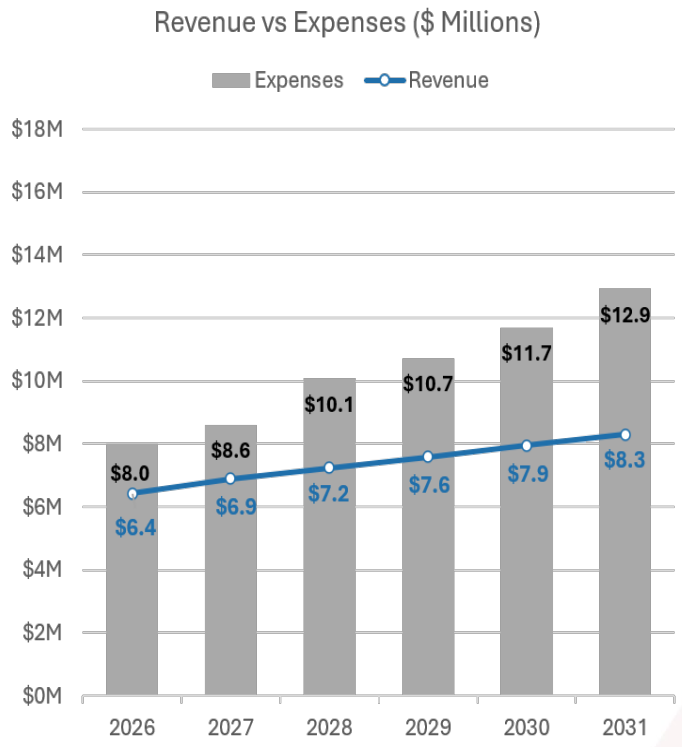
- Stormwater Rate has been $6.50 per Equivalent Residential Unit (ERU) since 2015.
- More than 60% population growth over the last decade has significantly increased stormwater infrastructure maintenance and inspections needs.
- Adherence to the Edwards Aquifer Protection Program through TCEQ.
  - Strict water quality ordinances.
  - Impervious cover limits.
  - Specialized stormwater management plans to prevent groundwater pollution.
- $15.7M in capital investment planned trough FY31.

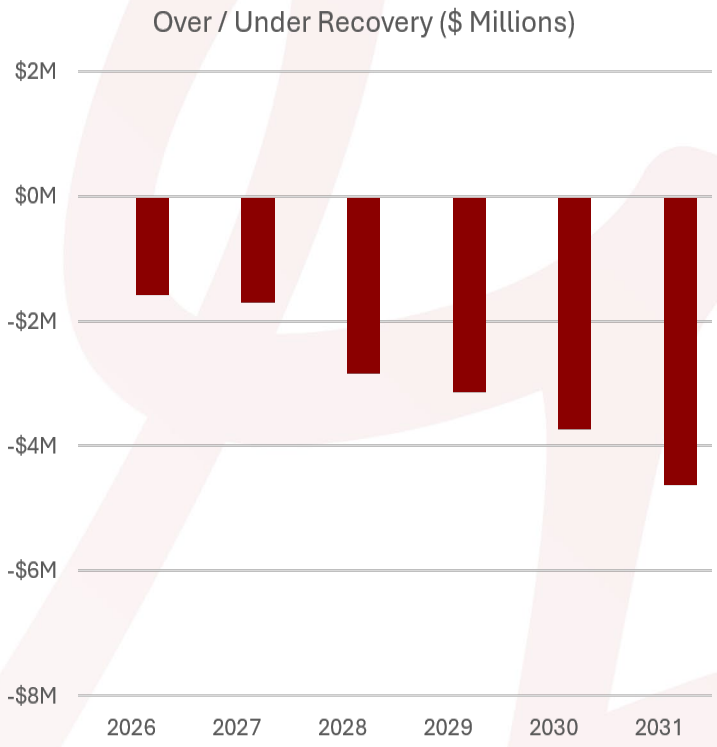
Stormwater Cost of Service Study Review

GEORGETOWN
TEXAS
1987

Stormwater Cost of Service Study Review

- Presented to Council May 26, 2026.
- Current stormwater rates would be insufficient to cover proposed expenses.
- Recommended rate increases in FY27 and FY29 to cover rising expenses and restore fund balance adequacy.





Residential and Nonresidential Rate Impacts

- Residential Impact.
  - Current rate $6.50/ month.
  - Proposed rate $8.00/ month.
- Nonresidential Impact Example.
  - Using 10.0 ERU (average nonresidential property).
    - Current rate $65.00/ month.
    - Proposed rate $80.00/ month.

Next Steps

GEORGETOWN
TEXAS 1990

Next Steps

- As required by state law, notice of the public hearing was published in the Williamson County Sun on Aug. 5, Aug. 9, and Aug. 23.
- Sept. 8: Regular meeting: Public hearing and 1st reading of Chapter 13.28. – Drainage Utility to include rates.
- Sept. 22: Regular meeting: 2nd reading of Chapter 13.28. – Drainage Utility to include rates.
- Oct. 1: New Stormwater rate in effect.

City of Georgetown, Texas
City Council

SUBJECT:
First Reading - Amending Chapter 13.28 - Drainage Utility of the City of Georgetown Code of Ordinances

SUGGESTED ACTION:
First Reading of an Ordinance amending Chapter 13.28 – Drainage Utility of the City of Georgetown Code of Ordinances related to privately owned drainage systems, responsible parties, and the Drainage Utility fees -- April Haughey, Assistant Public Works Director

ITEM SUMMARY:
In FY2026, the City's Stormwater Division conducted a cost of service and rate design study to determine the drainage utility fees required to adequately recover the costs of providing services.

The study's objectives were to develop a forecast of drainage utility fees that allows the City to ensure the drainage utility is collecting the appropriate amount of revenue to:

- Operate the drainage utility.
- Adhere to the stormwater strategic plan adopted in 2024.
- Fund internal City allocations.
- Establish and maintain a debt service reserve balance for debt service obligations.
- Comply with fiscal and budgetary policy requirements related to franchise fees and payments in lieu of taxes.

The City's consultant, NewGen Strategies, assisted with this effort.

The study conducted the current revenues generated by the City's current drainage utility fees will not support the projected operating, debt service, and reserve requirements of the drainage utility. A rate increase is necessary to increase revenues so that the City's drainage utility operating and capital needs are met, and the City maintains reserve levels.

In order to increase revenues that will sustain the drainage utility, NewGen recommended the following rate increases for the City's drainage utility fee.
Recommended Rate Increase: $6.50 per billing unit per month to $8.00 per billing unit per month.

Additionally, this chapter was adopted in 2012 with only a rate change in 2015. Necessary changes are needed to capture updates to State Law, align with current best practice, address new requirements from TCEQ, and mitigate a billing concern identified with nonresidential property owners.

FINANCIAL IMPACT:
Projected revenue for FY2027 is $8,227,550 for Fund 640 Stormwater Services.

Drainage Utility Ordinance Update First Reading

September 8, 2026 | City Council

GEORGETOWN TEXAS 1994

Background

- Chapter 13.28 – Drainage Utility was adopted in 2012 with only a rate update in 2015.
- Changes to State Law needed to be captured in Ordinance.
- Stormwater cost of service study completed and presented to Council May 26, 2026.
- Discussions between Stormwater and Utility Billing identified concern with billing nonresidential property owners.
  - 7 of top 10 unpaid accounts are drainage only.
- Address new requirements from TCEQ to regulate inspections and maintenance of private stormwater infrastructure.

Proposed Amendments

Subhead – white, pt sans, >22

GEORGETOWN
TEXAS
1996

Proposed Amendments

- Minor language cleanup throughout the ordinance for consistency.
- Define privately owned drainage systems.
- Establish maintenance and inspection requirements for privately owned drainage systems.
- Establish the right to access property serviced by the Drainage Utility to inspect, repair, or enforce.
- Update exemptions and penalties to reflect current State Law.

Proposed Amendments

- Sec.13.28.100. – Calculation of Drainage Utility Fees.
  - Billing Unit Impervious Area Value= 2808 square feet
  - Billing Unit rate= $ 8.00 per Billing Unit per month

- Sec.13.28.115. Responsible parties.
  - Nonresidential.
    - Payment is the responsibility of the utility account holder.
    - If no other utilities, payment is the responsibility of the property owner.

FIRST READING OF AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS AMENDING CHAPTER 13.28, TITLED "DRAINAGE UTILITY," OF THE CODE OF ORDINANCES OF THE CITY OF GEORGETOWN; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; INCLUDING A SEVERABILTIY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, AMENDING CHAPTER 13.28 OF THE CODE OF ORDINANCES ENTITLED "DRAINAGE UTILITY" AND REVISING STORMWATER DRAINAGE FEES; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; INCLUDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

WHEREAS, the City of Georgetown has developed and maintains a municipal drainage system for the collection, conveyance, control, and management of stormwater runoff within the City's incorporated limits; and

WHEREAS, the current ordinances, processes and policies adopted on January 10, 2012, are inadequate to effectively regulate and manage the City drainage system; and

WHEREAS, the City of Georgetown wishes to develop more relevant and applicable ordinances, processes, and polices that are more effective, and

WHEREAS, the City established its current stormwater drainage fees in 2012 and has determined that revisions are necessary to ensure that the stormwater drainage utility is self-supporting and that its fees adequately recover the costs of providing stormwater drainage services; and

WHEREAS, the proposed stormwater drainage fees are necessary to fund the utility's operating expenses and capital improvements; and

WHEREAS, after publication of notice three times in the Williamson County Sun as required by state law, the City Council held a public hearing regarding the proposed stormwater drainage fees on September 8, 2026, in accordance with applicable law; and

WHEREAS, the City Council desires to adopt the proposed stormwater drainage fees, effective for utility bills issued on or after October 1, 2026; and

WHEREAS, the City Council finds that the amendments to Chapter 13.28 set forth herein as Exhibit A are necessary, reasonable, and in the best interests of the City and the public; and

NOW THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

Section 1. The meeting at which this ordinance was approved was conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

Section 2. The facts and recitations contained in the preamble of this ordinance are hereby found and declared to be true and correct and are incorporated by reference herein and expressly made a part hereof, as if copied verbatim.

Section 3. Chapter 13.28 "Drainage Utility" of the Code of Ordinances, including Section 13.28.100 "Calculation of Drainage Utility Drainage Fees" is hereby amended as shown in Exhibit A.

Section 4. All ordinances or resolutions that conflict with the provisions of this ordinance are hereby repealed, and all other ordinances or resolutions of the City not in conflict with the provisions of this ordinance shall remain in full force and effect.

Section 5. If any provision of this ordinance, or application thereof, to any person or circumstance, shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this ordinance, which can be given effect without the invalid provision or application, and to this end the provisions of this ordinance are hereby declared to be severable.

Section 6. The Mayor is hereby authorized to sign this ordinance and the City Secretary to attest. This Ordinance shall become effective and be in full force and effect in ten (10) days on and after publication in accordance with the provisions of the City Charter of the City of Georgetown.

PASSED AND APPROVED on First Reading on the 8th day of September, 2026.

Chapter 13.28

Sec. 13.28.010. - Purpose.

The Drainage Utility is established in order to maintain public health and safety, within the City limits, by protecting the community from the loss of life and property caused by surface water overflows, surface water stagnation and pollution arising from nonpoint source runoff within the boundaries of the service area of the utility, as established in this chapter. Drainage Service for Residential Property is provided at a set fee while Drainage service for nonresidential property will be calculated based on impervious cover. All Drainage Service is offered on nondiscriminatory, reasonable and equitable terms within the service area.

Sec. 13.28.020. - Definitions.

The following definitions shall apply to terms within this chapter:

"Benefitted Property" means an Improved Lot or Tract, within the city limits, to which a drainage service is made available under this chapter

"Billing Unit" means a unit of measure used to calculate the Drainage Utility Fee and is based upon the median horizontal Impervious Area for all the Residential and Nonresidential Property within the City limits.

"Billing Unit Impervious Area Value" means the statistical median Impervious Area for Residential and Nonresidential property in the City limits.

"Cost of service" as applied to a drainage system service to any Benefitted Property means:

1. The prorated cost of the acquisition, whether by eminent domain or otherwise, of land, rights-of-way, options to purchase land, easements and interests in land relating to structures, equipment and Facilities used in draining the Benefitted Property;

2. The prorated cost of the acquisition, construction, repair and maintenance of structures, equipment and Facilities used in draining the Benefitted Property;

3. The prorated cost of architectural, engineering, legal and related services, plans and specifications, studies, surveys, estimates of cost and of revenue, and all other expenses necessary or incidental to planning, providing or determining the feasibility and practicability of structures, equipment and Facilities used in draining the Benefitted Property;

4. The prorated cost of all machinery, equipment, furniture and Facilities necessary or incidental to the provision and operation of draining the Benefitted Property;

5. The prorated cost of funding and financing charges and interest arising from construction projects and the start-up cost of a drainage facility used in draining the Benefitted Property;

6. The prorated cost of debt service and reserve requirements of structures, equipment and Facilities provided by revenue bonds or other drainage revenue-pledge securities or obligations issued by the City; and

7. The administrative costs of operating a Drainage Utility system.

"Drainage" means bridges, catch basins, channels, conduits, creeks, culverts, detention ponds, ditches, draws, flumes, pipes, pumps, sloughs, treatment works and appurtenances to those items, whether natural or artificial, or using force or gravity, that are used to draw off surface water from land, carry the water away, collect, store, or treat the water, or divert the water into natural or artificial watercourses.

"Drainage Charge" means:

1. The levy imposed to recover the cost of the service of the City in furnishing Drainage for any Benefitted Property; and

2. An amount made in contribution to funding of future Drainage System construction by the City.

"Drainage Revenue Bonds" means any obligations issued to finance the costs of Facilities payable and secured by a lien on and pledge of Drainage Utility Fees.

"Drainage System" means the Drainage owned or controlled in whole or in part by the City and dedicated to the service of Benefitted Property, including provisions for additions to the system.

"Drainage Utility" means the Public Utility established by the City of Georgetown in Ordinance 92-18.

"Drainage Utility Fee" means the Drainage Charge, including any interest and penalties paid by the owner or tenant of a Benefitted Property for Drainage services provided by the Drainage Utility including, but not limited to, the items described as "cost of service" in the Act.

"Facilities" means the property, either real, personal, or mixed, that is used in providing Drainage and included in the system.

"Impervious Area or Impervious Surface" means a surface which has been compacted or covered with a layer of material, so that it is highly resistant to infiltration by water. Impervious Areas or Surfaces include, but are not limited to, compacted soils, buildings, parking lots, and private ingress/egress roadways.

"Improved lot or tract" means a lot or tract that has a structure or other improvement on it that causes an impervious coverage of the soil under the structure or improvement.

Municipal Drainage Utility Systems Act or the "Act" means the Texas Local Government Code Section 552.041, et seq., as it may be amended by Texas Legislature from time to time to include, but not by way of limitation, the applicable definitions in the Act.

"Nonresidential Property" means any property used for purposes other than domestic habitation,

including commercial, industrial, institutional, and government activities.

"Nonsource Point Runoff" means Runoff that occurs on surfaces before reaching a channel, river or Drainage System

"Public utility" means a Drainage service that is regularly provided by the City, through City property dedicated to that service, to the Users of Benefitted Property within the service area and that is based on:

1. An established schedule of charges;
2. The use of the police power to implement the service; and
3. Nondiscriminatory, reasonable and equitable terms as determined by the City Council.

"Residential property" means any property platted or used for domestic habitation and platted as a residential development (i.e., single-family residential, mobile homes, etc.) upon which a structure has been placed.

"Runoff" means the water from rain, snowmelt or irrigation that flows over the land surface and is not absorbed into the ground, and that instead flows into streams or other surface waters or land depressions.

"Service area" means the geographic area which shall be served by the City's Drainage Utility, as established by this chapter.

"User" means the person or entity who owns or occupies a Benefitted Property.

"Wholly Sufficient and Privately Owned Drainage System" means land owned and operated by a person other than the Drainage Utility the drainage of which does not discharge into a creek, river, slough, culvert, or other channel that is part of Drainage System.

Sec. 13.28.030. - Establishment of drainage utility and dedication of assets.

The City of Georgetown drainage utility is hereby established as a public utility. The City dedicates all City-owned property, facilities, materials and supplies constituting the City's drainage system on the effective date of the ordinance codified in this chapter. All future acquisitions of real or personal property related to drainage shall be maintained as a part of the drainage utility.

Sec. 13.28.040. - Drainage utility service area.

The service area for the Drainage Utility shall include all property within the City limits, as amended from time to time.

Sec. 13.28.050. - Drainage Utility Fund.

A separate fund shall be created, as of the effective date of the ordinance codified in this chapter, known as the Drainage Utility Fund, for the purpose of identifying and controlling all revenues and expenses attributable to the drainage utility. All Drainage Fees collected by the City and such other moneys as may be available to the City for the purpose of drainage shall be deposited in the Drainage Utility Fund, segregated and completely identifiable in municipal accounts. Such utility revenues

shall be used for the purpose of the creation, operation, planning, engineering, inspection, construction, repair, maintenance, improvement, reconstruction administration and other reasonable and customary charges associated with the operation of a utility for the drainage utility of the City.

Sec. 13.28.055 - Drainage Benefitted Property

It is not required that the revenue from Drainage Utility Fees imposed and collected from any property be used specifically to benefit the same property; rather, any revenue collected from Drainage Utility Fees may be used for any qualified purpose of the Drainage Utility that is in the best interest of the City, as decided by the City Council.

Sec. 13.28.060. - Administration of the drainage utility.

The City Manager or designee shall be responsible for the administration of this chapter and the Drainage Utility, including, but not limited to, enacting any procedures necessary for the administration of the Drainage Charges and the consideration of variances, developing maintenance programs, and establishing Drainage criteria and standards for operation of the Drainage System. The City Manager or designee shall keep an accurate record of all properties benefitted or served by the services and facilities of the Drainage Utility of the City and to make changes in accordance with the rules and fees established in this Chapter.

Sec. 13.28.061. – Maintenance.

A. Public drainage improvements conveyed by dedication to the City as right-of-way and/or dedicated drainage easements accepted by the City for drainage maintenance shall be under the jurisdiction and maintenance of the City, unless otherwise modified by agreement.

B. Private drainage improvements not conveyed by dedication to the City as right-of-way or drainage easement shall be maintained by the User. The City has the right to do periodic inspections of privately owned and maintained drainage improvements to ensure that the maintenance is being implemented. Failure to maintain will be a violation of this ordinance.

Sec. 13.28.062. – Access.

The employees of the Drainage Utility shall have access, at all reasonable times, to any Benefitted Property serviced by the Drainage Utility, for inspection, repair of the Drainage Utility, or enforcement of this Chapter.

Sec. 13.28.070. –Exempt properties.

A. The following users shall be exempt from payment of the charges established by this ordinance.

   1. Any property to which a mandatory exemption under Section 552.053 of the Local Government Code applies, including:

      a) Property with proper construction and maintenance of a Wholly Sufficient and Privately Owned Drainage System;

      b) Property held and maintained in its natural state, until such time that the property is developed

and all of the public infrastructure constructed has been accepted by the City for maintenance;

c) A subdivided lot, until a structure has been built on the lot and a certificate of occupancy has been issued by the City;

2. Any property to which a mandatory exemption under Section 580.003 of the Local Government Code applies including:

a) A state agency; and

b) A public or private institution of higher education.

B. Proof of Exemption. If a User asserts their property is exempt pursuant to this section or any other applicable law, such User has the burden to assert such exemption by filing notice of eligibility for such exemption, and sufficient evidence of entitlement to such exemption, using the procedures for appeal provided in Sec. 13.28.125, below.

Sec. 13.28.080. - Liability for floods and nonpoint source pollution.

Floods from Drainage and stormwater Runoff may occasionally occur, which exceed the capacity of the Drainage System maintained and financed with the Drainage Charges. In addition, surface water stagnation and pollution arising from Nonpoint Source Runoff may occasionally occur, which exceed the capacity of the Drainage System maintained and financed with Drainage Charges. This chapter does not imply that properties subject to charges shall always be free from flooding or flood damage, surface water stagnation or nonpoint source pollution or that all flood control and water treatment projects to control the quantity and quality of Runoff can be constructed effectively. Nothing whatsoever in this chapter should be construed as or be deemed to create additional duties, on the part of the City, to hold the City liable for any damages incurred in a flood or from adverse water quality, due to drainage runoff. Nothing in this chapter shall be deemed to waive the City's immunity under State law or reduce the need or necessity for flood insurance.

Sec. 13.28.090. - Establishment of Drainage Utility Fees.

A. A Drainage Utility Fee is imposed upon each Improved Lot or Tract, within the City limits, for services and Facilities provided by the Drainage Utility. For purposes of imposing the Drainage Utility Fee, all Improved Lots or Tracts within the City limits are classified into the following three customer categories:

1. Residential Property;

2. Nonresidential Property;

3. Exempt Property

B. Subject to the provisions of this ordinance, there is hereby imposed on each Benefited Property within the City limits, and the owners thereof, a Drainage Utility Fee. This fee must be directly related to drainage and the terms of the levy, and any classification of the Benefited Properties in the City must be nondiscriminatory, equitable, and reasonable. All of the proceeds of this charge are deemed to be in payment for use of the City drainage system.

Sec. 13.28.100. - Calculation of Drainage Utility Fees.

A. A Billing Unit is hereby established and shall be used to calculate the total monthly Drainage Utility Fee for all property located within the City limits, in accordance with the applicable formula, as codified in this section:

1. Billing Unit Impervious Area Value= 2808 square feet

2. Billing Unit rate= $ 8.00 per Billing Unit per month

B. The following formulas shall be used to calculate the number of Billing Units for any Improved Lot or Tract:

1. Residential Property: Total Billing Units= 1.0 Billing Units per dwelling Unit

2. Nonresidential property: Total Billing Units= Impervious Area/Billing Unit Impervious Area Value.

a) When calculating Billing Units for Nonresidential Property, the final figure shall be rounded to the nearest tenth of a Billing Unit.

b) No single property will be charged less than the equivalent of one Billing Unit.

C. The monthly Drainage Utility Fee for Nonresidential Property will be calculated as follows: Number of Billing Units for each property x the Billing Unit Rate.

D. Exceptions

1. Nonresidential Property that produces Runoff, where the Runoff is directed to property that is not within the City's Drainage service area, may pay a reduced rate that is 20% of the standard Drainage Charge.

2. The following formula shall be used to calculate the reduced Drainage Charge: Reduced Drainage Charge = (Impervious Area/Billing Unit Impervious Area Value) x (Billing Unit Rate x 20%)

E. The City Council may review the foregoing schedule of fees at any time and may, by ordinance, increase or decrease the fees within the schedule upon a determination that such increase or decrease is warranted.

Sec. 13.28.110 - Determination of Impervious Area

The City Manager or designee shall be responsible for determining Impervious Area for Nonresidential Property based on data obtained from site plans for the location approved by the City. If such information is not available within City records, measurements of Impervious Area will be provided by the City using survey-grade technology.

Sec. 13.28.115. Responsible parties.

A. Residential Property.

1. Payment of a Drainage Utility Fee imposed on Residential Property is the responsibility of the person or entity under whose name the utility account is established for the said property.

2. Residential Properties that have all other utilities disconnected will not be billed a Drainage Utility Fee. If any other utilities are connected, whether the property is vacant or not, a Drainage Utility Fee will be billed with the other connected utilities.

B. Nonresidential Property.

1. Payment of a Drainage Utility Fee imposed on Nonresidential Property is the responsibility of the person or entity under whose name the utility account is established for the said property.
2. If the Nonresidential Property has all other Utilities disconnected, then Payment of a Drainage Utility Fee is the responsibility of the owner of the property.
3. All Nonresidential Property Drainage Utility Fees will be billed on a monthly basis, regardless of whether the property is occupied or not.

C. Where the utility account holder is exempt under this chapter or state law, the property owner, if not otherwise exempt, shall be billed.

Sec. 13.28.120. Billing and payment—Penalties.

A. Billing

1. Residential Property.
   a. Drainage Utility Fees for Residential Property shall be billed with the City's other utility charges on a monthly basis and shall be identified separately on the bill as "Drainage Charges".
2. Nonresidential Property.
   a. Drainage Utility Fees for Nonresidential Property shall be billed with the City's other utility charges on a monthly basis and shall be identified separately on the bill as "Drainage Charges".
   b. Properties without an existing utility account with the City will be billed at the address provided by the owner of the Property. If the owner fails to provide a billing address for Drainage Utility Fees, then the Drainage Utility Fee will be billed at the address provided to the City by the Williamson County Appraisal District.

B. Penalties

1. In accordance with Section 552.050 of the Texas Local Government Code, failure of a User of the Drainage Utility system to pay the charges promptly when due shall subject such User to any remedy or penalty provided by law or in this section, including discontinuance of any utility services provided by the City and placement of a lien against the property, unless it is a homestead as protected by the Texas Constitution or unless the lien is otherwise prohibited as set forth in Section 552.0025 of the Texas Local Government Code.

Sec. 13.28.125. - Adjustment of fees and Appeal Process.

A. Any User who disputes the category of land use, size of commercially developed property, or any other factor upon which the Drainage Charge is based may petition the City Manager or designee, in writing, for a decision on the validity of the requested revision or adjustment of the Drainage Charge and shall set forth in detail the grounds upon which relief is sought.

B. The property owner may submit a certified survey and/or a foundation survey, at the owner's cost, to assist in determining Impervious Area. In order to make a determination, additional information may be required, including but not limited to, survey data approved by a Texas registered professional land survey or a detailed development plan approved by the City of

Georgetown. Failure to provide requested information may result in the denial of the appeal or adjustment request.

C. No request for an appeal will be addressed if the rate per Billing Unit is the only factor disputed. Additionally, no Drainage Utility Fee credit shall be given for the installation of Facilities required by City Codes or State Law.

D. The adjustment of Billing Units as part of an appeals process will stand as the User's basis for future billings, whether higher or lower than the original determination, until such time as future changes in land use cover or customer status may warrant further adjustments.

E. A decision shall be rendered in writing within sixty days of the receipt of the written request. In making a determination to grant or deny an appeal or adjustment request, the City Manager or designee shall consider the potential for any adverse impact to the holders of any outstanding municipal Drainage Revenue Bonds.

Chapter 13.28

Sec. 13.28.010. - Purpose.

The Drainage Utility is established in order to maintain ~~the~~ public health and safety, within the City limits, by protecting the community from the loss of life and property caused by surface water overflows, surface water stagnation and pollution arising from nonpoint source runoff within the boundaries of the service area of the utility, as established in this chapter. Drainage Service for Residential Property is provided at a set fee while Drainage service for nonresidential property will be calculated based on impervious cover. ~~, and~~ All Drainage Service is offered on nondiscriminatory, reasonable and equitable terms within the service area.

Sec. 13.28.020. - Definitions.

The following definitions shall apply to terms within this chapter:

~~"Act" means the Municipal Drainage Utility Systems Act of the Texas Local Government Code.~~

"Benefitted Property" means an Improved Lot or Tract, within the city limits, to which a drainage service is made available under this chapter

"Billing Unit" means a unit of measure used to calculate the Drainage Utility Fee and is based upon the median horizontal Impervious Area for all the Residential and Nonresidential Property within the City limits.

"Billing Unit Impervious Area Value" means the statistical median ~~impervious~~ Impervious ~~area~~ Area for R~~r~~esidential and Nonresidential property in the City limits.

"Cost of service" as applied to a drainage system service to any Benefitted Property means:

1. The prorated cost of the acquisition, whether by eminent domain or otherwise, of land, rights-of-way, options to purchase land, easements and interests in land relating to structures, equipment and Facilities used in draining the Benefitted Property;

2. The prorated cost of the acquisition, construction, repair and maintenance of structures, equipment and Facilities used in draining the Benefitted Property;

3. The prorated cost of architectural, engineering, legal and related services, plans and specifications, studies, surveys, estimates of cost and of revenue, and all other expenses necessary or incidental to planning, providing or determining the feasibility and practicability of structures, equipment and Facilities used in draining the Benefitted Property;

4. The prorated cost of all machinery, equipment, furniture and Facilities necessary or incidental to the provision and operation of draining the Benefitted Property;

5. The prorated cost of funding and financing charges and interest arising from construction projects and the start-up cost of a drainage facility used in draining the Benefitted Property;

6. The prorated cost of debt service and reserve requirements of structures, equipment and Facilities provided by revenue bonds or other drainage revenue-pledge securities or obligations issued by the City; and

7. The administrative costs of operating a Drainage Utility system.

"Drainage" means bridges, catch basins, channels, conduits, creeks, culverts, detention ponds, ditches, draws, flumes, pipes, pumps, sloughs, treatment works and appurtenances to those items, whether natural or artificial, or using force or gravity, that are used to draw off surface water from land, carry the water away, collect, store, or treat the water, or divert the water into natural or artificial watercourses.

"Drainage Charge" means:

1. The levy imposed to recover the cost of the service of the ~~municipality~~ City in furnishing Drainage for any Benefitted Property; and

2. An amount made in contribution to funding of future Drainage System construction by the City.

"Drainage Revenue Bonds" means any obligations issued to finance the costs of Facilities payable and secured by a lien on and pledge of Drainage Utility Fees.

"Drainage System" means the Drainage owned or controlled in whole or in part by the City and dedicated to the service of Benefitted Property, including provisions for additions to the system.

"Drainage Utility" means the Public Utility established by the City of Georgetown in Ordinance 92-18.

"Drainage Utility Fee" means the Drainage Charge, including any interest and penalties paid by the owner or tenant of a Benefitted Property for Drainage services provided by the Drainage Utility including, but not limited to, the items described as "cost of service" in the Act.

~~"Exempt Property" means land owned by public or private institutions of higher learning, as provided by State law.~~

"Facilities" means the property, either real, personal, or mixed, that is used in providing Drainage and included in the system.

"Impervious Area or Impervious Surface" means a surface which has been compacted or covered with a layer of material, so that it is highly resistant to infiltration by water. Impervious Areas or Surfaces include, but are not limited to, compacted soils, buildings, parking lots, and private ingress/egress roadways.

"Improved lot or tract" means a lot or tract that has a structure or other improvement on it that causes an impervious coverage of the soil under the structure or improvement.

Municipal Drainage Utility Systems Act or the "Act" means the Texas Local Government Code ~~TEX. LOCAL GOV'T CODE~~ Section 552.041, et seq., as it may be amended by Texas Legislature from time to time to include, but not by way of limitation, the applicable definitions in the Act.

"Nonresidential Property" means any property used for purposes other than domestic habitation, including commercial, industrial, institutional, and government activities.

"Nonsource Point Runoff" means Runoff that occurs on surfaces before reaching a channel, river or Drainage System

"Public utility" means a Drainage service that is regularly provided by the City, through City property dedicated to that service, to the Users of Benefitted Property within the service area and that is based on:

1. An established schedule of charges;
2. The use of the police power to implement the service; and
3. Nondiscriminatory, reasonable and equitable terms as determined by the City Council.

"Residential property" means any property platted or used for domestic habitation and platted as a residential development (i.e., single-family residential, mobile homes, etc.) upon which a structure has been placed.

"Runoff" means the water from rain, snowmelt or irrigation that flows over the land surface and is not absorbed into the ground, and that instead flows into streams or other surface waters or land depressions.

"Service area" means the geographic area which shall be served by the City's Drainage Utility, as established by this chapter.

"User" means the person or entity who owns or occupies a Benefitted Property.

"Wholly Sufficient and Privately Owned Drainage System" means land owned and operated by a person other than the Drainage Utility the drainage of which does not discharge into a creek, river, slough, culvert, or other channel that is part of Drainage System.

Sec. 13.28.030. - Establishment of drainage utility and dedication of assets.

The City of Georgetown drainage utility is hereby established as a public utility. The City dedicates all City-owned property, facilities, materials and supplies constituting the City's drainage system on the effective date of the ordinance codified in this chapter. All future acquisitions of real or personal property related to drainage shall be maintained as a part of the drainage utility.

Sec. 13.28.040. - Drainage utility service area.

The service area for the Drainage Utility shall include all property within the City limits, as amended from time to time.

Sec. 13.28.050. - Drainage ~~utility~~ Utility ~~fund~~Fund.

A separate fund shall be created, as of the effective date of the ordinance codified in this chapter, known as the ~~drainage~~ Drainage ~~utility~~ Utility ~~fund~~Fund, for the purpose of identifying and controlling all revenues and expenses attributable to the drainage utility. All Drainage Fees collected by the City and such other moneys as may be available to the City for the purpose of drainage shall be deposited in the Drainage Utility Fund, segregated and completely identifiable in municipal accounts. Such utility revenues shall be used for the purpose of the creation, operation, planning, engineering, inspection, construction, repair, maintenance, improvement, reconstruction administration and other reasonable and customary charges associated with the operation of a utility for the drainage utility of the City.

Sec. 13.28.055 - Drainage Benefitted Property

It is not required that the revenue from Drainage Utility Fees imposed and collected from any property be used specifically to benefit the same property; rather, any revenue collected from Drainage Utility Fees may be used for any qualified purpose of the Drainage Utility that is in the best interest of the City, as decided by the City Council.

Sec. 13.28.060. - Administration of the drainage utility.

The ~~Assistant~~ City Manager or designee shall be responsible for the administration of this chapter and the Drainage Utility, including, but not limited to, enacting any procedures necessary for the administration of the Drainage Charges and the consideration of variances, developing maintenance programs, and establishing Drainage criteria and standards for operation of the Drainage System. The ~~Assistant~~ City Manager or designee shall keep an accurate record of all properties benefitted or served by the services and facilities of the Drainage Utility of the City and to make changes in accordance with the rules and fees established in this Chapter.

Sec. ~~XXXX~~ 13.28.061. – Maintenance.

A. Public drainage improvements conveyed by dedication to the City as right-of-way and/or dedicated drainage easements accepted by the City for drainage maintenance shall be under the jurisdiction and maintenance of the City, unless otherwise modified by agreement.

B. Private drainage improvements not conveyed by dedication to the City as right-of-way or drainage easement shall be maintained by the User. The City has the right to do periodic inspections of privately owned and maintained drainage improvements to ensure that the maintenance is being implemented. Failure to maintain will be a violation of this ordinance.

Sec. ~~XXXX~~13.28.062. – Access.

The employees of the Drainage Utility shall have access, at all reasonable times, to any Benefitted Property serviced by the Drainage Utility, for inspection, repair of the Drainage Utility, or enforcement of this Chapter.

Sec. 13.28.070. – ~~Reserved.~~ Exempt properties.

A. The following users shall be exempt from payment of the charges established by this ordinance.

   1. Any property to which a mandatory exemption under Section 552.053 of the Local Government Code

applies, including ~~without limitation~~:

a) Property with proper construction and maintenance of a Wholly Sufficient and Privately Owned Drainage System;

b) Property held and maintained in its natural state, until such time that the property is developed and all of the public infrastructure constructed has been accepted by the City for maintenance;

c) A subdivided lot, until a structure has been built on the lot and a certificate of occupancy has been issued by the City;

2. Any property to which a mandatory exemption under Section 580.003 of the Local Government Code applies including ~~without such limitation~~:

a) A state agency; and

b) A public or private institution of higher education.

B. Proof of Exemption. If a User asserts their property is exempt pursuant to this section or any other applicable law, such User has the burden to assert such exemption by filing notice of eligibility for such exemption, and sufficient evidence of entitlement to such exemption, using the procedures for appeal provided in Sec. 13.28.125, below.

Sec. 13.28.080. - Liability for floods and nonpoint source pollution.

Floods from Drainage and stormwater Runoff may occasionally occur, which exceed the capacity of the Drainage System maintained and financed with the Drainage Charges. In addition, surface water stagnation and pollution arising from Nonpoint Source Runoff may occasionally occur, which exceed the capacity of the Drainage System maintained and financed with Drainage Charges. This chapter does not imply that properties subject to charges shall always be free from flooding or flood damage, surface water stagnation or nonpoint source pollution or that all flood control and water treatment projects to control the quantity and quality of Runoff can be constructed effectively. Nothing whatsoever in this chapter should be construed as or be deemed to create additional duties, on the part of the City, to hold the City liable for any damages incurred in a flood or from adverse water quality, due to drainage runoff. Nothing in this chapter shall be deemed to waive the City's immunity under State law or reduce the need or necessity for flood insurance.

Sec. 13.28.090. - Establishment of Drainage Utility Fees.

A. A Drainage Utility Fee is imposed upon each Improved Lot or Tract, within the City limits, for services and Facilities provided by the Drainage Utility. For purposes of imposing the Drainage Utility Fee, all Improved Lots or Tracts within the City limits are classified into the following three customer categories:

1. Residential Property;

2. Nonresidential Property;

3. Exempt Property

B. Subject to the provisions of this ordinance, there is hereby imposed on each Benefited Property within the City limits, and the owners thereof, a Drainage Utility Fee. This fee must be directly related to

drainage and the terms of the levy, and any classification of the Benefited Properties in the City must be nondiscriminatory, equitable, and reasonable. All of the proceeds of this charge are deemed to be in payment for use of the City drainage system.

Sec. 13.28.100. - Calculation of Drainage Utility Fees.

A. A Billing Unit is hereby established and shall be used to calculate the total monthly Drainage Utility Fee for all property located within the City limits, in accordance with the applicable formula, as codified in this section:

1. Billing Unit Impervious Area Value= 2808 square feet

2. Billing Unit rate= $~~4.75~~ ~~6.50~~ 8.00 per Billing Unit per month

B. The following formulas shall be used to calculate the number of Billing Units for any Improved Lot or Tract:

1. Residential Property: Total Billing Units= 1.0 Billing Units per dwelling Unit

2. Nonresidential property: Total Billing Units= Impervious Area/Billing Unit Impervious Area Value.

   a) When calculating Billing Units for Nonresidential Property, the final figure shall be rounded to the nearest tenth of a Billing Unit.

   b) No single property will be charged less than the equivalent of one Billing Unit.

C. The monthly Drainage Utility Fee for Nonresidential Property will be calculated as follows: Number of Billing Units for each property x the Billing Unit Rate.

~~C.~~D. Exceptions

1. Nonresidential Property that produces Runoff, where the Runoff is directed to property that is not within the City's Drainage service area, may pay a reduced rate that is 20% of the standard Drainage Charge.

2. The following formula shall be used to calculate the reduced Drainage Charge: Reduced Drainage Charge = (Impervious Area/Billing Unit Impervious Area Value) x (Billing Unit Rate x 20%)

E. The City Council may review the foregoing schedule of fees at any time and may, by ordinance, increase or decrease the fees within the schedule upon a determination that such increase or decrease is warranted.

~~D. The City Council finds and determines that the Drainage Utility Fee has been established in accordance with the provisions of the Act.~~

Sec. 13.28.110 - Determination of Impervious Area

The ~~Assistant~~ City Manager or ~~his/her~~ designee shall be responsible for determining Impervious Area for Nonresidential Property based on data obtained from site plans for the location approved

by the City. If such information is not available within City records, measurements of Impervious Area will be provided by the City using survey-grade technology.

Sec. 13.28.115. Responsible parties.

A. Residential Property.

1. Payment of a Drainage Utility Fee imposed on Residential Property is the responsibility of the person or entity under whose name the utility account is established for the said property.
2. Residential Properties that have all other utilities disconnected will not be billed a Drainage Utility Fee. If any other utilities are connected, whether the property is vacant or not, a Drainage Utility Fee will be billed with the other connected utilities.

B. Nonresidential Property.

1. Payment of a Drainage Utility Fee imposed on Nonresidential Property is the responsibility of the person or entity under whose name the utility account is established for the said property.
2. If the Nonresidential Property has all other Utilities disconnected, then Payment of a Drainage Utility Fee is the responsibility of the owner of the property.
3. All Nonresidential Property Drainage Utility Fees will be billed on a monthly basis, regardless of whether the property is occupied or not.

C. Where the utility account holder is exempt under this chapter or state law, the property owner, if not otherwise exempt, shall be billed.

Sec. 13.28.120. Billing and payment—Penalties.

A. Billing

1. Residential Property.
   a. Drainage Utility Fees for Residential Property shall be billed with the City's other utility charges on a monthly basis and shall be identified separately on the bill as "Drainage Charges".
2. Nonresidential Property.
   a. Drainage Utility Fees for Nonresidential Property shall be billed with the City's other utility charges on a monthly basis and shall be identified separately on the bill as "Drainage Charges".
   b. Properties –without an existing utility account with the City will be billed at the address provided by the owner of the Property. If the owner fails to provide a billing address for Drainage Utility Fees, then the Drainage Utility Fee will be billed at the address provided to the City by the Williamson County Appraisal District.

B. Penalties

1. In accordance with Section 552.050 of the Texas Local Government Code, failure of a User of the Drainage Utility system to pay the charges promptly when due shall subject such User to any remedy or penalty provided by law or in this section, including discontinuance of any utility services provided by the City and placement of a lien against the property, unless it is a homestead as protected by the Texas Constitution or unless the lien is otherwise prohibited as set forth in Section 552.0025 of the Texas Local Government Code.

~~**Sec. 13.28.115 - Responsible Parties**~~

~~A. Residential Property.~~

~~1. Payment of a Utility Drainage Fee imposed on Residential Property is the responsibility of the occupant of the property.~~

~~2. Vacant Residential Properties that have all other utilities disconnected will not be billed a Utility Drainage Fee. If any other utilities are connected, whether the property is vacant or not, a Utility Drainage Fee will be billed, with the other connected utilities.~~

~~B. Nonresidential Property.~~

~~1. Payment of a Utility Drainage Fee imposed on Nonresidential Property is the responsibility of the owner of the property.~~

~~2. All Nonresidential Property Drainage Utility Fees will be billed to the property owner on a monthly basis, regardless of whether the property is occupied or not.~~

~~Sec. 13.28.120. - Billing and payment Penalties.~~

~~A. Residential Property.~~

~~1. Drainage Charges for Residential Property shall be billed with the City's other utility charges and shall be identified separately on the bill as a Drainage Charge. Any charge that is not paid when due shall subject the User to discontinuance of all utility services at that location provided by the City, including electric and water services.~~

~~2. If Drainage is the only utility provided by the City at a location, utilities provided by other companies may be disconnected pursuant to interlocal agreements.~~

~~B. Nonresidential Property.~~

~~1. Drainage Charges for Nonresidential Property shall be billed to the property owner at the address provided by the owner.~~

~~2. Property Owners without an existing utility account with the City and who fail to provide a billing address for Drainage Charges will be billed at the address provided to the City by the Williamson County Appraisal District.~~

~~3. Failure to pay the Drainage Charge will result in the discontinuance of all utility services, including electric and water services, at the location provided by the City, if the property~~

~~owner is also the occupant of the Nonresidential Property.~~

~~4. Any Drainage Charge that is not paid when due may be recovered in an action at law by the City, in addition to any other remedies or penalties provided by this Chapter or State law.~~

Sec. 13.28.125. - Adjustment of fees and Appeal Process.

A. Any User who disputes the category of land use, size of commercially developed property, or any other factor upon which the Drainage Charge is based may petition the ~~Assistant~~ City

Manager or ~~his/her~~ designee, in writing, for a decision on the validity of the requested revision or adjustment of the Drainage Charge and shall set forth in detail the grounds upon which relief is sought.

B. The property owner may submit a certified survey and/or a foundation survey, at the owner's cost, to assist in determining Impervious Area. In order to make a determination, additional information may be required, including but not limited to, survey data approved by a Texas registered professional land survey or a detailed development plan approved by the City of Georgetown. Failure to provide requested information may result in the denial of the appeal or adjustment request.

C. No request for an appeal will be addressed if the rate per Billing Unit is the only factor disputed. Additionally, no Drainage Utility Fee credit shall be given for the installation of Facilities required by City Codes or State Law.

D. The adjustment of Billing Units as part of an appeals process will stand as the User's basis for future billings, whether higher or lower than the original determination, until such time as future changes in land use cover or customer status may warrant further adjustments.

E. A decision shall be rendered in writing within ~~thirty~~ sixty days of the receipt of the written request. In making a determination to grant or deny an appeal or adjustment request, the ~~Assistant~~ City Manager or ~~his/her~~ designee shall consider the potential for any adverse impact to the holders of any outstanding municipal Drainage Revenue Bonds.

~~**Sec. 13.28.130. - Program responsibility.**~~

~~It shall be the duty of the Assistant City Manager or his/her designee to administer the Drainage Utility. The Assistant City Manager shall keep an accurate record of all properties benefitted or served by the services and facilities of the Drainage Utility of the City and to make changes in accordance with the rules and fees established in this Chapter.~~

~~**Sec. 13.28.140. - Drainage utility fund.**~~

~~A. The Drainage Utility fund may consist of one or more accounts. All Drainage Utility Fees shall be deposited, as collected and received, into this fund and shall be used exclusively for the Drainage services as stated in the Act, which includes, but is not limited to, the following:~~

~~1. Operation and maintenance of the Drainage Utility;~~

~~2. Funding of pollution abatement and peak flow attenuation devices constructed on stormwater systems discharging to the surface water of the City;~~

~~3. Administrative costs associated with the management of the Drainage Utility;~~

~~4. Payment of the debt service requirements on any outstanding drainage revenue bonds, including any fees and expenses incidental thereto;~~

~~5. Engineering consultant fees.~~

~~B.~~A. ~~The income derived from the operation of the Drainage Utility must be segregated and completely identifiable from other City accounts.~~

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
First Reading - Woodside MUD Amended and Restated First Amendment to Consent Agreement

SUGGESTED ACTION:
First Reading of an Ordinance of the City Council of the City of Georgetown, Texas approving the "Amended and Restated First Amendment to Consent Agreement," between the City of Georgetown, Texas, MK Woodside Development, Inc., and Woodside Municipal Development District No. 1 to revise definitions, the applicable land use plan, tree preservation standards, and notice provisions -- Nick Woolery, Assistant City Manager, and Edgar Garcia, Planning Director

ITEM SUMMARY:
The City and MK Madison, LP, previously entered into a Consent Agreement, dated as of July 12, 2022, and recorded under Document No. 2022087835, Official Public Records of Williamson County, Texas, with respect to 486.324 acres in Williamson County, Texas. MK Development acquired the Land from MKLP. On March 15, 2023, the TCEQ approved the creation of a new "in City" municipal utility district known as "Woodside Municipal Utility District No. 1" over the Land, the District executed the Consent Agreement on April 27, 2023, and the Consent Agreement was rerecorded under Document No. 2023035185 of the Official Public Records of Williamson County, Texas.

The City, MK Development, and the District subsequently entered into the Original First Amendment to the Consent Agreement to set out certain agreements regarding tree mitigation. MK Development has not used such provisions and in lieu of such provisions, City and MK Development wish to adopt the City's new Tree Preservation Requirements in developing their project. Separately, MK Development wishes to convert a portion of the Single Family Residential Development Areas from "Single Family Detached Residential" to "Active Adult Residential", and City staff has reviewed the request and has no concerns with it. Accordingly, City and MK Development wish to modify the Consent Agreement to clarify the applicable tree preservation standards and land use for the project.

FINANCIAL IMPACT:
None at this time

SUBMITTED BY:
Cresta Lyons, City Manager's Office

ORDINANCE NO. _____

AN ORDINANCE OF THE CITY COUNCIL OF GEORGETOWN, TEXAS, APPROVING THE "AMENDED AND RESTATED FIRST AMENDMENT TO CONSENT AGREEMENT" BETWEEN THE CITY OF GEORGETOWN, MK WOODSIDE DEVELOPMENT, INC., AND WOODSIDE MUNICIPAL DISTRICT NO. 1 TO REVISE DEFINITIONS, THE APPLICABLE LAND USE PLAN, TREE PRESERVATION STANDARDS, AND NOTICE PROVISIONS; PROVIDING THAT THIS ORDINANCE SHALL BE CUMULATIVE OF ALL ORDINANCES; PROVIDING A SEVERABILITY CLAUSE; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Georgetown (the "City") is a home rule municipality acting under its charter adopted by the electorate pursuant to Article XI, Section 5 of the Texas Constitution and Chapter 9 of the Local Government Code; and

WHEREAS, on April 27, 2023, the City Council of the City (the "City Council") entered into a Consent Agreement with MK Woodside Development, Inc., and Woodside Municipal District No. 1 and recorded said agreement as Document No. 2023035185 in the Official Public Records of Williamson County, Texas, pertaining to approximately 486.324 acres in Williamson County, Texas; and

WHEREAS, the Parties subsequently amended the Consent Agreement to set out certain agreements regarding tree mitigation and land use; and

WHEREAS, the Woodside parties to the Consent Agreement have requested to revise certain land use and tree preservation provisions as set forth in the Amended and Restated First Amendment to Consent Agreement (the "First Amendment") attached as ***Attachment 1*** to this Ordinance; and

WHEREAS, the City Council desires to approve the First Amendment in substantially the form attached as ***Attachment 1***.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

SECTION 1.

1. The meeting at which this Ordinance was approved was in all things conducted in compliance with the Texas Open Meetings Act, Texas Government Code, Chapter 551.

2. The City Council hereby finds that the foregoing recitals are true and correct, and the

recitals are hereby incorporated into this Ordinance by reference for all purposes as set forth in full. The City Council hereby finds that this Ordinance complies with the Vision Statement of the City of Georgetown 2030 Comprehensive Plan.

3. The First Amendment, in substantially the form attached as ***Attachment 1*** to this Ordinance is approved by the City Council and incorporated into this Ordinance for all purposes.

4. The Mayor is authorized to execute this Ordinance and the First Amendment in substantially the form attached hereto as Attachment 1, and the City Secretary is authorized to attest.

SECTION 2.
ORDINANCE CUMULATIVE

This Ordinance shall be cumulative of all provisions of ordinances and of the Code of Ordinances of the City of Georgetown, Texas, as amended, except where the provisions of the is Ordinance are in direct conflict with the provisions of such Ordinances and such Code are hereby repealed.

SECTION 3.
SEVERABILITY

It is hereby declared to be the intention of the City Council that the phrases, clauses, sentences, paragraphs, and sections of this Ordinance are severable, and if any phrase, clause, sentence, paragraph or section of this Ordinance shall be declared unconstitutional by the valid judgment or decree of any court of competent jurisdiction, such unconstitutionality shall not affect any of the remaining phrases, clauses, sentences, paragraphs and sections of this Ordinance, since the same would have been enacted by the City Council without the incorporation in this Ordinance of any such unconstitutional phrase, clause, sentence, paragraph or section.

SECTION 4.
EFFECTIVE DATE

This Ordinance and the Amended and Restated First Amendment to Consent Agreement will become effective in accordance with the terms and conditions stated in the Agreement and the City Charter.

Woodside MUD No. 1

Amended and Restated

1st Amendment to Consent Agreement

September 8, 2026

GEORGETOWN TEXAS 2025

Overview

- Background
- Project Location and Description
- Consent Agreement Amendment
- City Council Deliberation and Action

Background

- July 2022 Consent Agreement recorded
- March 2023 TCEQ approved Woodside MUD No. 1
- January 2025 Original First Amendment to the Consent Agreement - Regarding tree mitigation
- May 26, 2026 Workshop on Woodside MUD Amendment
- July 28, 2026 Second Workshop

Overview of Amendment

- **Adopt the City's new Tree Preservation Requirements**
  - Development previously has specialized requirements, but has now requested to follow the City's new Tree Preservation requirements
- **Convert 143 units in Phase B East from Single Family Detached Residential to Active Adult Residential**
  - In line with the direction provided by Council in regards to the Thompson tract addition to Woodside, this is the first step in amending the overall land plan to convert an existing section of Woodside that lies in between the existing Sun City and future Sun City within the Thompson tract (the next two exhibits show the existing land plan and amended land plan)

Action Requested

AN ORDINANCE OF THE CITY COUNCIL OF GEORGETOWN, TEXAS, APPROVING THE "AMENDED AND RESTATED FIRST AMENDMENT TO CONSENT AGREEMENT" BETWEEN THE CITY OF GEORGETOWN, MK WOODSIDE DEVELOPMENT, INC., AND WOODSIDE MUNICIPAL DISTRICT NO.1 TO REVISE DEFINITIONS, THE APPLICABLE LAND USE PLAN, TREE PRESERVATION STANDARDS, AND NOTICE PROVISIONS; PROVIDING THAT THIS ORDINANCE SHALL BE CUMULATIVE OF ALL ORDINANCES; PROVIDING A SEVERABILITY CLAUSE; AND ESTABLISHING AN EFFECTIVE DATE.

STATE OF TEXAS	§	
	§	**AMENDED AND RESTATED**
COUNTY OF WILLIAMSON	§	**FIRST AMENDMENT TO**
	§	**CONSENT AGREEMENT**
CITY OF GEORGETOWN	§	**WOODSIDE MUD NO. 1 – IN-CITY MUD**

THIS AMENDED AND RESTATED FIRST AMENDMENT TO CONSENT AGREEMENT (this "*First Amendment*") is entered into as of September 8, 2026 by and between the **City of Georgetown, Texas**, a Texas home-rule municipality located in Williamson County, Texas ("*City*"), **MK Woodside Development, Inc.**, a Texas corporation ("*MK Development*"), and **Woodside Municipal District No. 1**, a municipal utility district in Williamson County created under Article XVI, Section 59 of the Texas Constitution and Chapters 49 and 54 of the Texas Water Code (the "*District*"), and amends and restates in its entirety that certain First Amendment to Consent Agreement among City, MK Development and the District dated as of February 12, 2025 and recorded under Document No. 2025011417, Official Public Records of Williamson County, Texas (the "*Original First Amendment*").

RECITALS:

A. City and MK Madison, LP, a Texas limited partnership ("*MKLP*") entered into a Consent Agreement (the "*Consent Agreement*"), dated as of July 12, 2022, and recorded under Document No. 2022087835, Official Public Records of Williamson County, Texas, with respect to 486.324 acres in Williamson County, Texas, more particularly described on Exhibit "A" to the Consent Agreement (the "*Land*").

B. MK Development acquired the Land from MKLP via Assumption Special Warranty Deed, dated as of January 5, 2023 and recorded under Document No. 2023001773, Official Public Records of Williamson County, Texas. Concurrently MKLP assigned to MK Development all rights and obligations of MKLP under the Consent Agreement by Assignment and Assumption Agreement dated as of January 5, 2023 and recorded under Document No. 2023001808, Official Public Records of Williamson County, Texas. MK Development was an Authorized Assignee of MKLP under the Consent Agreement.

C. On March 15, 2023, the TCEQ approved the creation of a new "in City" municipal utility district known as "*Woodside Municipal Utility District No. 1*" over the

Land, the District executed the Consent Agreement on April 27, 2023, and the Consent Agreement was rerecorded under Document No. 2023035185 of the Official Public Records of Williamson County, Texas.

D. City, MK Development and the District entered into the Original First Amendment to set out certain agreements regarding tree mitigation. MK Development has not used such provisions and in lieu of such provisions, City and MK Development wish to adopt the New Tree Preservation Requirements (defined below) in developing the Project. Separately, MK Development wishes to convert a portion of the Single Family Residential Development Areas from "Single Family Detached Residential" to "Active Adult Residential," and City has approved such request. Accordingly, City and MK Development wish to modify the Consent Agreement set out below. Hereafter, the term "*Agreement*" shall mean and refer to the Consent Agreement as amended by this First Amendment.

NOW, THEREFORE, for and in consideration of the promises and the mutual agreements set forth herein, City, MK Development and the District agree as follows:

1. Recitals. The Parties agree that the Recitals A through D are true and correct in all material respects and are a part of this First Amendment.

2. Amended Definitions. Capitalized terms used in this First Amendment and not defined herein will have the meanings set out in the Consent Agreement. In addition, the following definitions, currently set out in Section 2.02 of the Consent Agreement, are modified to read as follows:

   Land Use Plan: Means the Land Use Plan attached as Exhibit "F" to this First Amendment, as said Land Use Plan may be amended from time to time in accordance with the provisions of the applicable Governing Regulations.

   "*PUD Ordinance*" means City Ordinance No. 2022-51, approved July 12, 2022, pertaining to the zoning and land use-related development standards applicable to the Land.

3. New Definitions. Section 2.02 of the Consent Agreement is amended to add the following definitions, to be listed alphabetically as follows:

"*New Tree Preservation Requirements*" means the provisions of Sections 8.01 and 8.02 of the City of Georgetown Unified Development Code (as set out in Exhibits "A" and "B" of City of Georgetown Ordinance 2025-54, respectively) in effect on the date of City Council approval of this First Amendment, together with the review and approval provisions of Section 8.05 of the City of Georgetown Unified Development Code (as set out in Exhibit "C" of City of Georgetown Ordinance 2025-54) in effect on the date of City Council approval of this First Amendment.

4. Amendments to the Consent Agreement.

(a) **Land Use Plan**. The Land Use Plan attached to the Consent Agreement as **Exhibit F** is deleted, and the Land Use Plan attached to this First Amendment as Exhibit "F" is substituted in its place.

(b) **New Section 7.07**. A new Section 7.07, pertaining to tree preservation in Residential Development Areas, is adopted as follows**:**

"7.07 **Tree Preservation Standards.**

(1) *Complete Applications*. For all applications that affect the development and use of the Project that were determined by the City Director of Planning (or authorized designee) to be complete before the effective date of this First Amendment, the Tree Preservation Standards set out in the UDC and applicable to Residential Development Areas apply.

(2) *Incomplete Applications*. For all applications that affect the development and use of the Project that were filed but not determined to be complete by the City Director of Planning (or authorized designee) before the effective date of this First Amendment, the Tree Preservation Standards set out in the UDC and applicable to Residential Development Areas apply; provided however that MK Development (or an End Buyer) shall have the right to withdraw any incomplete application and submit a new application (together with the application fee) conforming to the New Tree Preservation Requirements as to such application.

(3) *New Applications*. For all applications that affect the development and use of the Project that are filed with the City after the effective

date of this First Amendment, the New Tree Preservation Requirements shall apply."

(c) Section 19.02 of the Consent Agreement is amended to read as follows:

"19.02 **Notice**. All notices, requests or other communications required or permitted by this Agreement shall be in writing and shall be sent by (i) by overnight courier or hand delivery, or (ii) certified mail, postage prepaid, return receipt requested, and addressed to the Parties at the following addresses, or to such other address as a Party may from time to time designate by giving notice in writing to the other Parties:

The Parties may change their respective addresses to any other address within the United States of America or designate additional persons to receive notice by giving at least five (5) days' written notice to the other Party.

5. Counterparts. This First Amendment may be executed in multiple counterparts, each of which shall be deemed an original instrument, and all of which, taken together, shall constitute one and the same instrument. The signature of any party hereto to any counterpart hereof shall be deemed a signature to, and may be appended to, any other counterpart hereof.

6. Recording. This First Amendment will be recorded in the Official Records of Williamson County, Texas by MK Development at MK Development's expense.

7. Effect on Original First Amendment. This First Amendment replaces and supersedes in its entirety the First Amendment to Consent Agreement among City, MK Development and the District dated as of February 12, 2025, and recorded under Document No. 2025011417, Official Public Records of Williamson County, Texas, which First Amendment will be of no further force and effect. All terms contained in the Consent Agreement not expressly amended herein shall remain unchanged and are restated as written.

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
Public Hearing and First Reading - Yearwood In-City MUD

SUGGESTED ACTION:
Public Hearing and First Reading of an Ordinance of the City Council of the City of Georgetown, Texas approving the "Consent Agreement" between the City, PIA Captial, LLC-Series I, a Texas limited liability company, PIA Captial, LLC-Series II, a Texas limited liability company, John Edward Boyce Yearwood, an individual (collectively, "Yearwood"); PLI I-D, LP, a Texas limited partnership ("Peregrine"); and Georgetown FCL Owner, LLC, a Delaware limited liability company ("FCL"), consenting to the creation of an In-City Municipal Utility District over approximately 728.38 acres of land generally situated west of the intersection of Ronald W. Reagan Jr. Blvd. and Rattlesnake Road and north of Sun City -- Nick Woolery, Assistant City Manager

ITEM SUMMARY:
Background:
This project was first considered by the City Council at its February 10, 2026 and March 24, 2026 Workshops at which the City Council received information regarding the proposed development, including the proposal to create an in-City municipal utility district (“MUD”) to assist with project financing, and provided feedback to City staff and the developers on the initial land plan to guide negotiations.

The project involves development of approximately 728.38 acres of land generally situated west of the intersection of Ronald W. Reagan Jr. Blvd. and Rattlesnake Road, north of Sun City. The land is currently in the City’s extraterritorial jurisdiction and has operated for several decades as a quarry owned by PIA Capital, LLC-Series I, PIA Capital, LLC-Series II, and John Edward Boyce Yearwood (collectively, “Yearwood”). The two developers associated with the project are PLI I-D, LP (“Peregrine”); and Georgetown FCL Owner, LLC, (“FCL ” aka “Freehold Communities”) (collectively, the “Developers”).

The City Council approvals needed to launch the project include approval of the Ordinance Approving the Consent Agreement (this item), and approval of an Ordinance Annexing and Zoning the land. The Ordinance Annexing and Zoning the land will have much more detail on how the land will be developed, but in general, it will be developed primarily as a residential subdivision, with some commercial uses planned at the corner of Ronald W. Reagan Jr. Blvd. and Rattlesnake Road.

The Consent Agreement (this item) sets forth the terms and conditions under which the City Council consents to creation of an in-City MUD over the land, and also captures the major obligations of the Developer that the City will receive as consideration for its consent to create the MUD. In accordance with the City Council ‘s 2018 MUD Policy, the City staff and Developer worked together to identify aspects of the project that went “above and beyond” the City’s general development requirements, while ensuring that the project is financially viable for the Developers and future homeowners.

Some of the key provisions in the Consent Agreement include the following:

1. Article 3 – Effective Date, Peregrine Termination, District Creation, and Organization Matters

a. Describes the particular sequence of City Council approvals for this project necessary to accommodate Yearwood and the Developers closing schedules and describes allowable exit rights.

b. Addresses the sequence for approving the pending Annexation and Zoning applications.

c. Consents to creation of an in-City MUD

2. Articles 4 and 5 – MUD Bond Issuance; Taxes, Fees and Charges

a. Track the City's 2018 MUD Policy

3. Article 6 -Land Use

a. Approves Conceptual Land Use Plan (consistent with pending PUD Zoning application)

b. Requires compliance with the City's usual "Additional Land Development Standards."

c. Requires MUD or HOA to maintain improvements that are not conveyed to the City or owned by a Lot owner

d. Includes special provisions allowing Shared Driveways

e. Includes special provisions regarding Tree Mitigation (the land has been heavily quarried)

4. Article 7 – Parkland, Open Space, Amenity Centers

a. Approves Conceptual Parks and Open Space Plan

b. Requires dedication of 140 acre park along Berry Creek and construction of a Regional Trail alongside Berry Creek (extending the City's trail network)

c. Requires Community Parks, Internal Trails, and Open Space

d. Requires 2 Amenity Centers

5. Article 8 – Transportation

a. Approves Conceptual Transportation Plan

b. Requires construction of Minor Arterial from Ronald W Reagan Jr Blvd through the land (and ultimately through Rock Bluff Ranch, Developers pending project located north)

c. Requires Developer to reimburse the City for the City's share of the cost under its ILA with WILCO for a right-turn deceleration lane from Ronald Reagan Jr. Blvd. onto the Yearwood Minor Arterial Road

d. Addresses improvements needed to ensure emergency access via two roads at all times.

e. Requires payment of Transportation Impact Fee (TIF), but allows credit for up to 10 years (per ordinance) for building roads in the TIF CIP, and describes credit methodology.

6. Article 9– Wastewater

a. Approves Conceptual Wastewater Plan

b. Describes how wastewater will be provided before the City's Northlands WWTP is completed – requires City to pump and haul at the City's cost if plant not completed by 2032.

c. Requires completion of a segment of a 42" MasterPlan WW Line and makes wastewater impact fee credits available for up to 20 years to reimburse Developer for building the segment.

d. Requires granting of easements to the City to facilitate future build out of the City's wastewater system.

7. Article 10- Water

a. Approves Conceptual Water Plan

b. Requires construction of several water lines that will serve both this project and Rock Bluff Ranch
c. Requires granting of easements to the City to facilitate future build out of the City's water system
d. Requires certain water conservation measures (e.g., prohibits fountains and vanity ponds

FINANCIAL IMPACT:
This is an in-city MUD, so no Master Development fee is charged. The City will have taxing and other jurisdiction over the area. Lot owners will also pay a MUD tax.

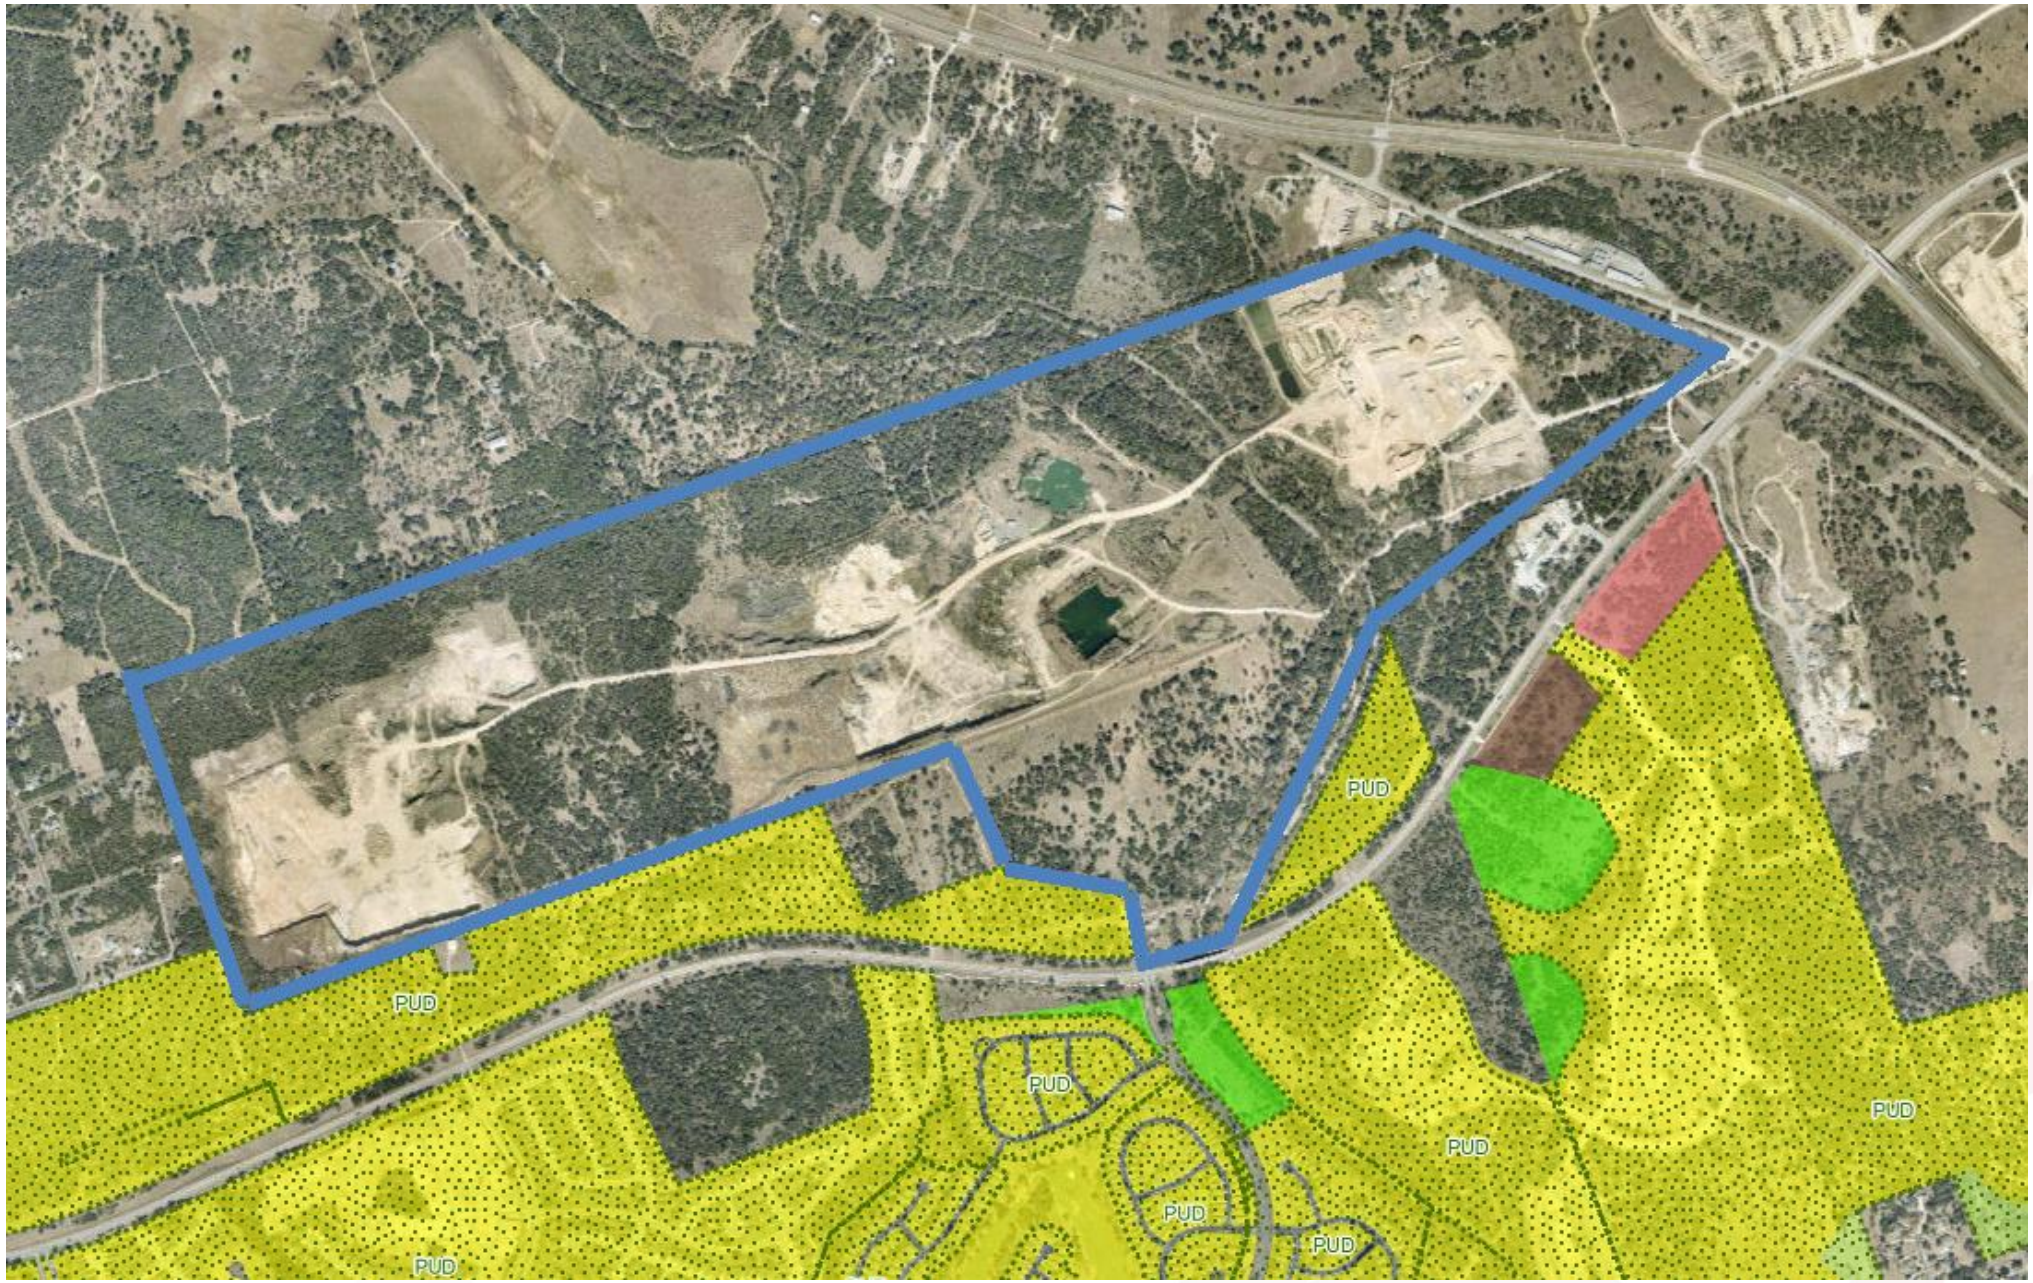
GEORGETOWN TEXAS

Project Timeline

11/21/2025: MUD Declaration of Intent was submitted to the City

2/10/2026: First Council Workshop was held to discuss the project and get feedback from City Council

3/24/2026: Second Council Workshop was held and Council expressed support for staff to negotiate a MUD Consent Agreement



PUD
PUD
PUD
PUD
PUD
PUD
PUD
PUD

Agreement Major Components

- Effective Dates / District Creation
- MUD Bond / Tax Rate Requirements
- Land Use & Development
- Parkland & Amenity Centers
- Transportation
- Water / Wastewater Service

Agreement Parties

Yearwood:	Current landowner
Peregrine:	Anticipated purchaser of the land
FCL (Freehold):	Anticipated developer of the land
District:	Future Municipal Utility District, to be titled once established

- *Yearwood may only assign the agreement to Peregrine or FCL*
- *Peregrine and FCL may only assign the agreement if the eight conditions within the agreement are satisfied*

MUD Consent Agreement
Effective Dates / District Creation

- **Agreement effective if the following happens within 60 days from Council approval:**
  - Agreement executed by all parties
  - Peregrine has acquired fee simple title to the land from Yearwood
- **Voluntary Annexation**
  - Peregrine's request for voluntary annexation will be deemed submitted on the Peregrine closing date
- **Peregrine Termination**
  - Peregrine shall have the right to terminate if the City has not completed the annexation proceedings and PUD zoning within 120 days
- **In-City MUD District**
  - Peregrine and FCL both stipulate the request is for an In-City Municipal Utility District consent and City Council agrees to consent to said district creation

MUD Consent Agreement
MUD Bond / Tax Rate Requirements

- **Authorized purposes in which MUD bonds may be issued for:**
  - Water Infrastructure
  - Wastewater Infrastructure
  - Drainage Infrastructure
  - Roadway Infrastructure
  - Parks and Recreation Facilities
- **MUD Bond Restrictions**
  - The maximum MUD bond maturity shall be no greater than 25 years from each bond issuance
  - MUD shall have ten years from the first issuance to issue all bonds
- **MUD Maximum Tax Rate**
  - District shall be required to maintain a combined debt service and maintenance/operation tax rate at no more than $0.65 per $100 in assessed valuation

MUD Consent Agreement
Land Use & Development

- **Conceptual Land Use Plan**
  - As annexation and zoning have not occurred, the conceptual land use plan will serve as the basis for the impending PUD zoning
- **UDC Compliance**
  - Development shall comply with the new adopted Unified Development Code, except in the instances specifically called out within the agreement
- **Phasing Plan**
  - Agreement includes a phasing plan, which is generally conceptual in nature except when called out in the agreement for the timing of the Major Arterial and Regional Trail
- **Public Safety Site**
  - Developer is required to dedicate a 7 acre public safety site to the City via deed, with frontage along the Major Arterial roadway

Parks, Trails & Amenities

- **Parkland Requirements**
  - 140 acre Primary Park (conveyed to a combination of the City and Williamson County Conservation Foundation) prior to Phase 1
  - 11.4 acres of Community Parks
  - Regional Trail required to be complete prior to Phase 2
  - Connecting Trails and Private Parks required throughout the development
- **Amenity Centers**
  - West Amenity Center required prior to 200th building permit within Phases 1-5
    - Located adjacent to spring-fed pond
  - East Amenity Center required prior to 200th building permit within Phase 6
  - Both amenity centers to have access to a Collector level roadway

MUD Consent Agreement
Transportation

- **Arterial Roadway**
  - Developer to dedicate full width of the ROW for the minor arterial (110')
  - Full cross section built and phased along with the phases of the development
  - First phase of road required to extend to the limits of the WWTP
- **Transportation Impact Fees**
  - Land will be added to a TIF service area upon annexation; arterial road eligible for impact fee credits
- **Ronald Reagan Right-Turn Lane**
  - Developer to fully reimburse the City for design and construction of a right-turn lane onto the arterial roadway prior to or at the time of the first MUD bond issuance

MUD Consent Agreement
Transportation

- **Street Sections**
  - Local Streets designed in accordance with exhibit, reducing street width from 36' to 32', and moving the sidewalks off the back of curb
- **Traffic Calming**
  - In lieu of code requirements, traffic calming to be required at locations shown in exhibit
- **Collector Road Requirements**
  - Residential and Neighborhood Collector Roads required at locations in exhibit
- **Street Spacing & Connectivity**
  - Due to natural topography and platting constraints, UDC requirements regarding street spacing, block lengths, cul-de-sacs and connectivity ratios are not applicable if development is materially consistent with exhibits

Action Requested

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS APPROVING A "CONSENT AGREEMENT" BETWEEN THE CITY, PIA CAPITAL LLC-SERIES I, PIA CAPITAL, LLC-SERIES II, JOHN EDWARD BOYCE YEARWOOD, PLI I-D, LP, AND GEORGETOWN FCL OWNER, LLC CONSENTING TO THE CREATION OF AN IN-CITY MUNICIPAL UTILITY DISTRICT OVER APPROXIMATELY 728.38 ACRES OF LAND GENERALLY SITUATED WEST OF THE INTERSECTION OF RONALD W. REAGAN JR. BLVD. AND RATTLESNAKE ROAD AND NORTH OF SUN CITY; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; AND ESTABLISHING AN EFFECTIVE DATE.

ORDINANCE NO. 2026-_____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS APPROVING A "CONSENT AGREEMENT" BETWEEN THE CITY, PIA CAPITAL LLC-SERIES I, PIA CAPITAL, LLC-SERIES II, JOHN EDWARD BOYCE YEARWOOD, PLI I-D, LP, AND GEORGETOWN FCL OWNER, LLC CONSENTING TO THE CREATION OF AN IN-CITY MUNICIPAL UTILITY DISTRICT OVER APPROXIMATELY 728.38 ACRES OF LAND GENERALLY SITUATED WEST OF THE INTERSECTION OF RONALD W. REAGAN JR. BLVD. AND RATTLESNAKE ROAD AND NORTH OF SUN CITY; REPEALING CONFLICTING ORDINANCES AND RESOLUTIONS; AND ESTABLISHING AN EFFECTIVE DATE.

WHEREAS, by Petition dated June 12, 2026 the City received requests from PIA Capital, LLC-Series I, a Texas Limited Liability Company, PIA Capital, LLC-Series II, a Texas Limited Liability Company, John Edward Boyce Yearwood, an Individual, (collectively, "Yearwood"); PLI I-D, LP, a Texas Limited Partnership ("Peregrine"), and Georgetown FCL Owner, LLC, a Delaware Limited Liability Company ("FCL"), for the City's consent to creation of an In-City Municipal Utility District ("MUD") over approximately 728.38 acres of land generally situated west of the intersection of Ronald W. Reagan Jr. Blvd. and Rattlesnake Road and north of Sun City (the "Land").

WHEREAS, Peregrine and FCL (collectively, the "Developers") have also filed applications to annex the Land into the City limits and zone the Land as a Planned Unit Development "PUD"), which are the subject of a separate ordinance.

WHEREAS, the Texas Local Government Code requires the City's consent to creation of a MUD in the City limits or the City's extraterritorial jurisdiction.

WHEREAS, the purpose of the Consent Agreement and the Related Documents (defined therein) is to set out the mutually agreeable terms and conditions relating to the City's consent to the creation and operation of the MUD, development of the Land, and provision of City services to customers on the Land. The Consent Agreement and the Related Documents are essential elements of the granting of the City's consent to creation of the MUD.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF GEORGETOWN, TEXAS, THAT:

Section 1. The foregoing recitals are hereby found to be true and correct and are incorporated herein by reference as if set forth in full, and adopted as part of this Ordinance for all purposes.

Section 2. The City Council hereby approves the Consent Agreement attached to this Ordinance as ***Attachment 1***, which memorializes the terms of the City Council's written consent to the creation of an In-City Municipal Utility District over approximately 728.38 acres of land generally situated west of the intersection of Ronald W. Reagan Jr. Blvd. and Rattlesnake Road and north of Sun City.

Section 3. All ordinances or resolutions that conflict with the provisions of this ordinance are hereby repealed, and all other ordinances or resolutions of the City not in conflict with the provisions of this ordinance shall remain in full force and effect.

Section 4. If any provision of this ordinance, or application thereof, to any person or circumstance, shall be held invalid, such invalidity shall not affect the other provisions, or application thereof, of this ordinance, which can be given effect without the invalid provision or application, and to this end the provisions of this ordinance are hereby declared to be severable.

Section 5. The Mayor is hereby authorized to sign this ordinance and the Consent Agreement attached as ***Attachment 1***, and the City Secretary to attest. This Ordinance shall become effective and be in full force and effect in accordance with the provisions of the City Charter of the City of Georgetown.

WILLIAMSON COUNTY MUNICIPAL UTILITY DISTRICT NO. __

DATE: _____ ___, 2026

CONSENT AGREEMENT

THE STATE OF TEXAS	§	**WILLIAMSON COUNTY**
	§	
COUNTY OF WILLIAMSON	§	**MUNICIPAL UTILITY DISTRICT NO. __**

This Consent Agreement ("**Agreement**") is between the **City of Georgetown, Texas** (the "**City**"), a home-rule city located in Williamson County, Texas; **PIA Capital, LLC-Series I**, a Texas limited liability company, **PIA Capital, LLC-Series II**, a Texas limited liability company, **John Edward Boyce Yearwood**, an individual (collectively, "**Yearwood**"); **PLI I-D, LP**, a Texas limited partnership ("**Peregrine**"); and **Georgetown FCL Owner, LLC**, a Delaware limited liability company ("**FCL** "). Upon final creation of **Williamson County Municipal Utility District No. __**, a municipal utility district to be created pursuant to Article XVI, Section 59 of the Texas Constitution and under Chapters 49 and 54 of the Texas Water Code (the "**Original District**"), the Original District shall join in this Agreement and be bound by its provisions. The City, Yearwood, Peregrine, and FCL are sometimes collectively referred to herein as "the **Parties**" and individually as "a **Party**."

RECITALS

A. WHEREAS, Yearwood owns approximately 728.38 acres of land in Williamson County, Texas described by metes and bounds on ***Exhibit A-1*** and shown on the location map attached as ***Exhibit A-2*** (the "**Land**").

B. WHEREAS, Peregrine has a contract with Yearwood to purchase the Land and anticipates closing on such contract no later than September 9, 2026 (the "**Peregrine Closing Deadline**").

C. WHEREAS, FCL has a contract with Peregrine to entitle and develop the Land, and for FCL to purchase the Land from Peregrine no later than September 2, 2028 (the "**FCL Closing Deadline**").

D. WHEREAS, as of the Effective Date, the Land lies entirely within the City's ETJ, is contiguous to the City limits, is within the City's water CCN, and is partially within the City's electric CCN and partially within Pedernales Electric Company's electric CCN.

E. WHEREAS, on June 15, 2026, Yearwood filed the Creation Petition with the City Secretary's office requesting the consent of the City to the creation of a municipal utility district encompassing the Land (the "**Creation Petition**").

F. WHEREAS, Peregrine has filed a request for annexation and zoning of the Land, which the City has agreed to review but hold in escrow until the date that is one day after the Peregrine Closing Date, at which time the request for annexation and the zoning application will be deemed to be filed with the City.

G. WHEREAS, Texas Water Code Chapter 54 requires the City's written consent to create a municipal utility district within its ETJ or corporate limits.

H. WHEREAS, City Code of Ordinances Sec. 12.46.120.D.2 (regarding Transportation Impact Fees) allows an offset for the "construction of, contributions to, or dedications of off-site roadway facilities agreed to or required by the City as a condition of development approval and the amount is offset against roadway facilities impact fees otherwise due from the development."

I. WHEREAS, this Agreement requires, among other things, execution of the Related Documents.

J. WHEREAS, the purpose of this Agreement and the Related Documents is to set out the mutually agreeable terms and conditions relating to the creation and operation of a District, development of the Land, and provision of certain utility and other services to customers on the Land. This Agreement and the Related Documents are essential elements of the granting of the City's consent to creation of a District.

AGREEMENT

NOW THEREFORE, for and in consideration of the mutual agreements, covenants, and conditions hereinafter set forth, the Parties contract as follows.

ARTICLE 1. INTRODUCTION

1.01. **Effect of Recitals**. The Parties agree that the foregoing recitals are true and correct and they are incorporated into this Section by this reference.

1.02. **Acknowledgement of Consideration.** The benefits to the Parties set forth above, plus the mutual promises expressed herein, are good and valuable consideration for this Agreement, the receipt and sufficiency of which is hereby acknowledged by the Parties.

ARTICLE 2. DEFINITIONS:

In addition to the terms defined elsewhere in in this Agreement, unless the context clearly indicates otherwise, *(a)* the term "Section" shall refer to a Section of this Agreement, *(b)* the term "Article" shall refer to an Article of this Agreement, and *(c)* the following words when capitalized shall have the meanings set forth in this Article, below.

2.01. *"42" MasterPlan Wastewater Line Segment*" means the portion of the forty-two (42) inch diameter gravity wastewater line included in the City's Wastewater Master Plan that is to be Completed (or caused to be Completed) by Developer, at no cost to the City, within a portion of the 42" Gravity Wastewater Line Easement, commencing at the South Lift Station, thence continuing generally northeastward to a point of connection on its west side with a 24" gravity wastewater line to be Completed (or caused to be Completed) by Developer and on its east side with an 8" wastewater line to be Completed (or caused to be Completed) by Developer, for a total distance of approximately 3,800 linear feet, the location of which is generally shown on the Conceptual Wastewater Plan.

2.02. *"42" MasterPlan Wastewater Line Easement*" means an easement to be granted and conveyed (or caused to be granted and conveyed) by Developer to the City, at no cost to the City, in Approved Form, commencing at the South Lift Station Site and continuing generally northeastward to a point on the northern boundary of the Land, the location of which is generally shown on the Conceptual Wastewater Plan. The width of the easement will be determined during final design but must be the wider of *(a)* forty (40) feet, or *(b)* twice the depth of the deepest portion of the line.

2.03. *"42" MasterPlan Wastewater Line Access Easements*" means, collectively, (*a*) the forty (40) foot wide temporary access easement and (*b*) the forty (40) foot wide permanent access easement, in favor of the City and in Approved Form, situated alongside and outside of the 42" MasterPlan Wastewater Line Easement and not overlapping each other, commencing at the terminus of the 42" MasterPlan Wastewater Line within the Land, and continuing generally northeastward to a point on the northern boundary of the Land parallelling the 42" MasterPlan Wastewater Line Easement.

2.04. *"Access Easements"* means one (1) or more temporary or permanent easements in favor of the City in Approved Form, located within the boundaries of the Land, being at least twenty (20) feet wide and improved with an Access Road, for the purpose of providing access to the Major Water Improvements, Major Wastewater Improvements, South Lift Station Site, and the Regional Trail

until such time, if any, as public roads providing access to same are Complete. The term does not include the "'42" MasterPlan Wastewater Line Access Easements'" which is separately defined.

2.05. "*Access Road*" means a paved road meeting the City's specifications and standards to be Completed (or caused to be Completed) by Developer, at no cost to the City, within an Access Easement.

2.06. "*Additional Land Development Standards*" means the standards attached to this Agreement as ***Exhibit B***.

2.07. "*Amenity Centers*" means , collectively, the two (2) private amenity centers referred to herein as the West (Phases 1-5) Private Amenity Center, and the East (Phase 6) Private Amenity Center, to be Completed by Developer each having recreational and other amenities for the use and benefit of the End Buyers, to be located where generally shown on the Conceptual Land Use Plan and the Conceptual Parks and Open Space Plan.

2.08. "*Approved Form*" means an instrument in the form posted by the City's Real Estate Department on the City's website (currently at https://georgetowntexas.gov/development_services/planning/real_estate/index.php (or its replacement webpage, as the City's website may be updated, redesigned, or revised from time to time in the City's sole discretion), which may be modified only with prior City Attorney approval, as indicated by the City Attorney's signature thereon, but not otherwise. For clarity, as to the easements for the Major Wastewater Improvements, Major Water Improvements, the 42" MasterPlan Wastewater Line Easement, the Pressure Zone 1178 Offsite Water Line Segment Easement, and the permanent 42" MasterPlan Wastewater Line Access Easement, each must be perpetual and exclusively in favor of the City.

2.09. "*Approved Plans*" means the final construction plans prepared in accordance with the Governing Regulations by a professional engineer retained by Developer, and, as to the Public Infrastructure, Parkland Improvements, and the District Areas/Improvements to be financed and constructed by the Districts, as applicable, as approved by the applicable District's professional engineer, if different, in each case, who is registered in and licensed by the State of Texas, and which have been approved in writing by a duly authorized representative of the City for construction of the Public Infrastructure, the Parkland Improvements, and the District Areas/Improvements, as appropriate. The term also includes all recordable easements, in Approved Form, necessary for or related to the construction, operation, and maintenance of the Public Infrastructure, Parkland

Improvements, and the District Areas/Improvements, including temporary construction easements, Access Easements (if applicable), and all easements or deeds for the placement of the relevant improvement.

2.10. "*Assignee*" means, subject to the provisions of **Section 12.02.04**, a person or entity that (*a*) executes a written document assuming all of Developer's then unperformed obligations under this Agreement, and (*b*) has the financial, technical and managerial means to complete such Developer's unperformed obligations under this Agreement.

2.11. "*Bond*" means (1) any instrument, including a bond, note, certificate of participation, or other instrument evidencing a proportionate interest in payments, due to be paid by a District, or (2) any other type of obligation that (a) is issued or incurred by a District under a District's borrowing power, without regard to whether it is subject to annual appropriations, and (b) is represented by an instrument issued in bearer or registered form or is not represented by an instrument but the transfer of which is registered on books maintained for that purpose by or on behalf of a District. The term shall include obligations issued to refund outstanding Bonds but shall not include reimbursement agreements entered into between a District and Developer or bond anticipation notes.

2.12. "*Bond Limit Amount*" means a total of $265,000,000, cumulatively, for all Bonds issued by the Original District plus those issued by any subsequent municipal utility district created by division of the Original District.

2.13. "*City*" means the City of Georgetown, Texas.

2.14. "*City Attorney*" means the City Attorney for the City.

2.15. "*City Council*" means the city council of the City of Georgetown, Texas.

2.16. "*City's 24" Waterline*" means the City's 24" water line generally paralleling Ronald W. Reagan Blvd. which, as of the Effective Date, is complete and operational from the west up to the point where Ronald W. Reagan Blvd. intersects with Barnstead Road, and which, as of the Effective Date, is in the process of being constructed by others up to the point where Ronald W. Reagan Blvd. intersects with Sun City Blvd., and which is planned to be extended further east by the City up to a point near the intersection of Ronald W. Reagan Blvd. and Rattlesnake Road, the general location of which is shown on the Conceptual Water Plan.

2.17. "*City's Northlands WWTP Force Main Easement*" means the twenty (20) foot wide easement over the area described in the survey attached to this Agreement as ***Exhibit C***, to be granted and conveyed (or caused to be granted and conveyed) to the City by Developer, at no cost to the City, in Approved Form when required by **Section 9.06**.

2.18. "*City's Northlands WWTP Site*" means, collectively, the following two tracts of land: (*a*) that certain 20 acres of land described in the Dedication Deed between Del Webb Texas Limited Partnership, an Arizona limited partnership, and Somerset Hills, Ltd., a Texas limited partnership, as grantors, and the City, as grantee, recorded in the Official Public Records of Williamson County, Texas as Document No. 2009060884; and (*b*) that certain 20.579 acres of land described in the Special Warranty Deed between Cook Tierra LLC, a Texas limited liability company, as grantor, and the City, as grantee, recorded in the Official Public Records of Williamson County, Texas as Document No. 2026041741.

2.19. "*City's Ronald W. Reagan Blvd. Water Line Easement*" means the fifty (50) foot wide easement described in the survey attached to this Agreement as ***Exhibit D*** to be granted and conveyed (or caused to be granted and conveyed) to the City by Developer, at no cost to the City, in Approved Form, when required by **Section 10.05**.

2.20. "*Community Parks*" means, collectively and when plural, Community Park A (6.3 Acres) and Community Park B (5.1 Acres), to be dedicated to the City and maintained in perpetuity by the District or the HOA pursuant to a Maintenance Agreement, each located where generally shown on the Parks and Open Space Plan. When singular, the term means one of them.

2.21. "*Complete*" "*Completed*" or "*Completion*" means or is deemed to have occurred on the date all of the following events have occurred:

2.21.01. as to all engineered improvements, a registered professional engineer has certified in writing to the City, District, or HOA accepting the improvement that the improvement is substantially complete such that, as applicable, all pipes, lines, appurtenances, facilities, structures, and equipment have been installed in accordance with the Governing Regulations and are capable of being fully operational following acceptance of the improvement for use by the City, District or HOA, whichever of them is accepting the improvement; and

2.21.02. all testing and inspections by the City, District, or HOA accepting the improvement have been successfully conducted; all final approvals required for use, operation, and maintenance of the improvement from the City, District, or HOA have been obtained; and the City, District, or HOA has accepted the improvement for use, operation and maintenance; and

2.21.03. as to the Public Infrastructure, the City has received and approved all Conveyance Documentation associated with the improvement, and the City has, in writing, accepted the Public Infrastructure for ownership, operation, and maintenance.

2.22. "*Conceptual Wastewater Plan*" means the diagram attached to this Agreement as ***Exhibit E***, showing the Major Wastewater Improvements needed to provide Wastewater Service to the Land.

2.23. "*Conceptual Water Plan*" means the diagram attached to this Agreement as ***Exhibit F***, showing the Major Water Improvements needed to provide Wastewater Service to the Land.

2.24. "*Conceptual Parks and Open Space Plan*" means the diagram attached to this Agreement as ***Exhibit G***, showing the location of the Primary Park, the Connecting Trails, the Arterial Trail, the Amenity Centers, the Community Parks, the Private Parks, the Internal Trails, and the Open Space, subject to adjustments necessary to meet the siting requirements of UDC Section 15.08.040.

2.25. "*Conceptual Transportation Plan*" means the diagram attached to this Agreement as ***Exhibit H***, showing the general locations of the Yearwood Minor Arterial Road, the Emergency Vehicle Access Roads, and the Internal Transportation Improvements, as well as the locations for traffic calming improvements required by **Section 8.10.01**

2.26. "*Connection(s)*" means an Active Connection (defined below) to the City's water or wastewater system on the Land. For the purposes of this Agreement, a ¾" water meter is equivalent to one Connection. The number of Connections associated with multifamily structures or meters larger than ¾" in size shall be the same as the number of "Service Units" calculated using Georgetown's meter equivalency standards set forth in Section 13.32.050 of Georgetown's Code of Ordinances, as said ordinance may be amended from time to time by the City Council. As used in this definition, the term "*Active Connection*" means a Connection for which there is an open utility account with the City during any portion of a monthly billing period.

2.27. "*Connecting Trails*" means, collectively, the four (4) trails to be Completed (or caused to be Completed) by Developer to provide connectivity to the Regional Trail, as generally shown on the Parks and Open Space Plan.

2.28. "*Connecting Trails Easements*" means, collectively, the four (4) easements to be granted and conveyed to a District or HOA within which Developer shall Completed (or cause Completion of) the Connecting Trails, each being twenty (20) feet wide, as generally shown on the Parks and Open Space Plan.

2.29. "*Conveyance Documentation*" means and includes the information required by the City' Real Estate Department for conveyances of interests in land to the City (available on the City's website), and by the City for acceptance of the Completed Public Infrastructure, at minimum, the following information, as applicable:

- As to an Internal Utility Easement for any Internal Utility Facilities that are not located, with the City's pre-approval, within a ROW, a draft easement instrument in Approved Form; the legal description (metes and bounds or platted lot) and map or sketch of the proposed easement area prepared by a licensed surveyor registered with and licensed by the State of Texas; drafts of all Access Easements in Approved Form (if applicable),a draft License to Encroach in Approved Form (if applicable); an ownership and lien affidavit covering the proposed easement area; and a current title commitment showing the encumbrances of record affecting the proposed easement area.

- As to an Internal Trail Easement, a draft easement instrument in Approved Form; the legal description (metes and bounds or platted lot) and map or sketch of the proposed easement area prepared by a licensed surveyor registered with and licensed by the State of Texas; drafts of all Access Easements in Approved Form (if applicable), and a draft License to Encroach in Approved Form (if applicable).

- As to the Emergency Vehicle Access Easements, the 42" MasterPlan Wastewater Line Access Easements, and any other Access Easement, a draft easement instrument in Approved Form; the legal description (metes and bounds or platted lot) and map or sketch of the proposed easement area prepared by a surveyor registered with and licensed by the State of Texas; an ownership and lien affidavit covering the proposed easement area; a current title commitment showing the encumbrances of record affecting the proposed easement area; and a draft License to Encroach in Approved Form (if applicable).

- As to the 42" MasterPlan Wastewater Line Easement, and easements for all Major Wastewater Improvements and Major Water Improvements, draft easement

instruments in Approved Form; the legal descriptions (metes and bounds or platted lot) and map or sketch of the proposed easement areas prepared a surveyor licensed by and registered to practice in the State of Texas; a draft of the Access Easement in Approved Form (if applicable), drafts of all Licenses to Encroach in Approved Form (if applicable); an ownership and lien affidavit covering the proposed easement area; and a current title commitment showing the encumbrances of record affecting the proposed easement areas.

- As to deeds for the Primary Park (the portion outside all floodplains) and the South Lift Station Site, a draft deed instrument in Approved Form; the legal descriptions (metes and bounds or platted lot) and map or sketch of the proposed deeded area prepared by a surveyor licensed by and registered to practice in the State of Texas; a drafts of the Access Easement in Approved Form (if applicable), drafts of all Licenses to Encroach in Approved Form (if applicable); an ownership and lien affidavit covering the proposed deed area; and a current title commitment showing the encumbrances of record affecting the proposed deed area.

- As to a License to Encroach, means an instrument in Approved Form authorizing use of a City easement or City ROW for landscaping or private utility lines, an application for which must describe in detail the proposed improvement and the exact proposed location, pursuant to Chapter 12.09 of the City Code of Ordinances. Developer understands and agrees that no License to Encroach shall be issued by the City for the masonry walls, fences, gates, or any similar improvements within the ROW for the Yearwood Minor Arterial Road or any other ROW owned or controlled or to be owned or controlled by the City. City understands and agrees that a License to Encroach shall be issued by the City to District or HOA for landscape maintenance within the ROW for the Yearwood Minor Arterial Road on execution of a Maintenance Agreement in Approved Form relating to landscape maintenance.

- As to all Public Infrastructure, means the following*:* (a) the financial security required by the UDC for the Completed improvement; (b) a set of construction plans for a Completed improvement certified as "as-built" by the Engineer responsible for preparing the Approved Plans for same; (c) all final, recordable easements or deeds (as applicable), (to the extent said easements or deeds were not delivered with the application for approval of the construction plans for the Completed improvement and approved by the City with the Approved Plans); and (d) all third party warranties and guarantees associated with the improvement.

2.30. "*Day*" or "*days*" means the day or days that the City is open for business.

2.31. "*Develop, Developed, or Development*" means the initiation of any activity governed by the UDC related to land or property modification whether for imminent or future construction activities including, but not limited to, division of a parcel of land into two (2) or more parcels; alteration of the surface or subsurface of the land including mining, grading, filling, or excavating; clearing or removal of natural vegetation in preparation of construction activities; installation of public infrastructure; construction of impervious surfaces; and vertical development. Excluded from this definition are repairs to existing utilities; minimal clearing of vegetation for surveying and testing; removal of ashe juniper trees (but only after City approval of a Tree Survey meeting UDC requirements), filling, grading, and compacting previously mined areas for reclamation (but only after securing any necessary permits for such mining reclamation activities); and bona fide agricultural activities. Notwithstanding the foregoing, operation of the existing stone and aggregate and concrete processing plant, and operation of the existing quarry and plant and related mining reclamation activities that are permitted pursuant to the terms of the existing lease, as previously amended (the "Concrete Lease") between Yearwood and Central Texas Stone and Aggregate ("CTSA") on the Land for the period commencing on Effective Date and ending on September 2, 2027 (as to the stone and aggregate and concrete processing plant) and ending on March 2, 2028 (as to the operation of existing quarry and plant and related mining reclamation activities that are permitted pursuant to the terms of the Concrete Lease) by CTSA and Lauren Concrete (respectively) will not fall under this definition. For clarity, references to an "existing quarry" refers to areas in which trees were removed before the Effective Date.

2.32. "*Developer*" means *(a)* Peregrine, for the period between the Effective Date and the FCL Closing Date; and *(b)* FCL and its permitted assigns under **Section 12.02,** for the period after the FCL Closing Date; provided, however, in the event that FCL does not acquire the Land from Peregrine on or before the FCL Closing Date, then "Developer" shall refer to Peregrine and its permitted assigns.

2.33. "*District*" means the Original District and any subsequent municipal utility district created by division of the Original District.

2.34. "*District Areas/Improvements*" means, collectively, all areas and improvements other than the Public Infrastructure that are to be owned and maintained by a District or the HOA (*i.e.*, not by the City or any other

Governmental Authority or an End Buyer), as applicable, including, without limitation, the Shared Driveways (described in **Section 6.10**), the Drainage Facilities, portions of the Primary Park (described in **Section 7.03.01**), the Community Parks, the Private Parks, the Amenity Centers, the Lakes, the Open Space Areas, the Parkland Improvements, the Connecting Trails, the Internal Trails, Landscape Areas, and improvements or areas that are not Public Infrastructure or constructed by an End Buyer.

2.35. *"District Creation Date"* means the date that the TCEQ issues a final unappealable order approving creation of the Original District.

2.36. *"Drainage Facilities"* means all areas labeled as "Detention" or "Water Quality Ponds" or similarly on the Conceptual Land Use Plan and the Conceptual Parks and Open Space Plan; a drainage facility or improvement shown on any Approved Plan; and all other water quality, stormwater management, detention, or retention facilities to be located on or to serve Development on the Land, excluding only such of those facilities that are within the definition of Transportation-Related Drainage Improvements.

2.37. *"ETJ"* means the extraterritorial jurisdiction of the City as determined under Chapter 42 of the TLGC, as amended.

2.38. "*Effective Date*" has the meaning given in **Section 3.01.**

2.39. "*Eligible Transportation Improvements*" means, collectively, the Yearwood Minor Arterial Road, including drainage infrastructure solely in support of the Yearwood Minor Arterial Road, and the improvement funded by the Interlocal Agreement Costs.

2.40. "*Emergency Vehicle Access Easements*" means, collectively, the twenty feet (20') wide easements in Approved Form granted and conveyed (or caused to be granted and conveyed) by Developer to the City, at no cost to the City, located as to ensure emergency vehicle access to each Development Phase as Development of the Land progresses per the requirements of **Section 8.08** and **Section 8.09**.

2.41. "*Emergency Vehicle Access Road*" has the meaning given in **Section 8.09.**

2.42. "*End Buyer*" means an owner, tenant, or occupant of a Lot, regardless of the proposed use of such Lot.

2.43. "*FCL Closing Date*" means the date that a deed is recorded in the Official Public Records of Williamson County, Texas, evidencing the acquisition by FCL

of fee simple title to the Land from Peregrine, which date must be on or before the FCL Closing Deadline.

2.44. "*FCL Closing Deadline*" has the meaning given in Paragraph C of the Recitals.

2.45. "*Geologic Assessment*" means that certain "Phase II Karst Assessment for the 728.36-acre Yearwood Tract," prepared by Crystal Hall, PG of Gray Civil, Inc. dated March 27, 2026.

2.46. "*Governing Regulations*" means and includes the following laws, regulations and documents in effect as of the Effective Date, except as otherwise expressly stated hereinbelow and to the extent such modifications or changes to the Governing Regulations fall within the exceptions appearing in Section 245.004 TLGC or to the extent Developer elects, in its sole discretion, to comply with modifications or changes amendments or changes to the Governing Regulations::

2.46.01. This Agreement, including all Exhibits; and

2.46.02. The PUD Ordinance; and

2.46.03. The UDC, as defined herein and adopted by the City on August 11, 2026, as amended by the PUD Ordinance and the Additional Land Development Standards; and

2.46.04. The City's Development Manual, and

2.46.05. The City's Parkland Development Guidelines; and

2.46.06. The Approved Plans; and

2.46.07. The Maintenance Agreement(s); and

2.46.08. The City Code of Ordinances; and

2.46.09. TLGC Chapter 245; and

2.46.10. The Edwards Aquifer Recharge Zone Regulations, and any amendments thereto, promulgated by the TCEQ or its successor agency; and

2.46.11. Federal, state, and local laws, and statutes, regulations, permits and orders of a Governmental Authority (other than the City) having jurisdiction over the City's provision of Water Service and/or Wastewater Service,

including any amendments that may be approved from time to time by such Governmental Authority; and

2.46.12. Federal, state, and local laws, and statutes, regulations, permits and orders of a Governmental Authority (other than the City) having jurisdiction over Development of the Land, Service including any amendments that may be approved from time to time by such Governmental Authority; and

2.46.13. the City's Construction Specifications and Standards Manual(s); and

2.46.14. the City's Drainage Criteria Manual; and

2.46.15. the Drainage Study for the Land dated March 20, 2026, prepared by J. Adam Berry, a qualified engineer licensed and registered in the State of Texas, and hereby approved by the City; and

2.46.16. the City's Neighborhood Traffic Management Program (adopted by City Council Resolution No. 042826-5.C); and

2.46.17. final plats for portions of the Land that are approved, from time to time, by the City in accordance with this Agreement and the UDC; and

2.46.18. ordinances, or amendments thereto, that the City is required to adopt from time to time by state or federal law; and

2.46.19. all national and international residential and commercial building codes adopted by the City, (*e.g.*, electric codes, building codes, plumbing codes, mechanical codes, energy conservation codes and fire codes), including changes and local amendments thereto that may be adopted from time to time by the City, provided, that such changes and amendments are uniformly applied to the land within the City's corporate limits.

2.47. "*Governmental Authority*" means the City, the County, TCEQ, TxDOT, U.S. Environmental Protection Agency, U.S. Army Corps of Engineers, the Public Utility Commission of Texas, or other agencies of the State of Texas or the United States of America, to the extent such entities have jurisdiction over the Land, the Project, or the improvements to be constructed on the Land. The term does not include a District.

2.48. "*HOA*" means a homeowners' association formed and operating under the applicable laws of the State of Texas where membership is appurtenant to ownership of a Lot on the Land.

2.49. "*Initial Connection Limit*" means a combined total **300** Service Unit Equivalents (SUEs) from Wastewater Connections located on the Land and/or on Rock Bluff Ranch.

2.50. "*Initial Parties*" means the City, Yearwood, Peregrine, and FCL.

2.51. "*Interim Wastewater Line*" means the wastewater line to be designed and Completed (or caused to be designed and Completed) in accordance with the Approved Plans by Developer at no cost to the City and located within the Interim Wastewater Easement and the City's ROW (but not a County or State ROW) and sized to collect flows up to, but not more than, the Initial Connection Limit.

2.52. "*Interim Wastewater Line Easement*" means the easement in Approved Form to be granted and conveyed (or caused to be granted and conveyed) by Developer to the City, at no cost to the City, for the portion(s) of the Interim Wastewater Line located outside of the City's ROW, commencing at a point on the Land, and terminating at a point of connection with the City's existing eighteen (18) inch wastewater line located in the Sun City Subdivision, as generally shown on the Conceptual Wastewater Plan.

2.53. "*Interlocal Agreement*" means the interlocal agreement to be entered into between the City and the County pursuant to which the City will initially fund, and the County will design and construct, a right-turn deceleration lane from Ronald Reagan Jr. Blvd. onto the Yearwood Minor Arterial Road.

2.54. "*Interlocal Agreement Costs*" means and includes all costs, fees, and expenses incurred by the City under the Interlocal Agreement.

2.55. "*Internal Trails*" means the pedestrian and bicycle trails to be Completed (or caused to be Completed) by Developer at no cost to the City on the Land in the general locations shown on the Conceptual Parks and Open Space Plan being at least ten feet (10') wide, constructed of concrete, or, if approved in advance by the City's Director of Parks and Recreation, of asphalt, crushed granite, or natural materials, and providing for pedestrian and bicycle circulation.

2.56. "*Internal Trails Easements*" means the easement in Approved Form granted and conveyed (or caused to be granted and conveyed) by Developer to the District or HOA for perpetual ownership and maintenance for the Internal Trails in the general location shown on the Conceptual Parks and Open Space Plan.

2.57. "*Internal Transportation Improvements*" means, collectively, all streets and roads to be constructed (or caused to be constructed) by Developer entirely within the Land that are classified as "Local" or "Collector" level roads in Chapter 12 of the UDC which will be dedicated to the City as public streets, and after Completion and acceptance by the City, will be owned and maintained by the City. The term does not include the Yearwood Minor Arterial Road or the Emergency Vehicle Access Roads, which are separately defined.

2.58. "*Internal Wastewater Improvements*" means, collectively, all wastewater lines, piping, valves, and related equipment and appurtenances to be constructed (or caused to be constructed) by Developer, at no cost to the City, within the Land and within an Internal Utility Easement to enable the City to provide retail Wastewater Service to each Lot on the Land. The term does not include Major Wastewater Improvements, which are separately defined.

2.59. "*Internal Water Improvements*" means, collectively, all water lines, piping, valves, and related equipment and appurtenances to be constructed (or caused to be constructed) by Developer, at no cost to the City within the Land and within an Internal Utility Easement to enable the City to provide Waster Service to each Lot on the Land. The term does not include the Major Water Improvements, which are separately defined.

2.60. "*Internal Utility*" or "*Internal Utilities*" means, when singular, an Internal Water Improvement or an Internal Wastewater Improvement, and when plural more than one of either or both of them. The term does not include service lines connecting to a City-owned pipeline on the Lot owner's side of a water meter.

2.61. "*Internal Utility Easements*" easement in Approved Form granted and conveyed (or caused to be granted and conveyed) by Developer to the City, at no cost to the City, for the Internal Wastewater Easements and the Internal Water Improvements which may, with the City's consent evidenced by the City's signature on the final plat and Approved Plans, be within a ROW.

2.62. "*Lakes*" means, collectively, the two (2) man-made water bodies created by quarrying activities on the Land, to be owned by a District and maintained in perpetuity by a District or the HOA, as applicable, pursuant to a Maintenance Agreement, located generally where shown on the Conceptual Land Use Plan and the Conceptual Parks and Open Space Plan.

2.63. "*Land*" approximately 728.38 acres of land in Williamson County, Texas described by metes and bounds on ***Exhibit A-1*** and shown on the Location Map attached to this Agreement as ***Exhibit A-2***.

2.64. "*Landscape Areas*" means and includes (*a*) areas alongside and/or within the Transportation Improvements such as areas within medians, between the paved lanes and sidewalks, and between sidewalks and Walls and Fencing ; (*b*) common areas owned by the HOA; to be owned and maintained in perpetuity by a District or the HOA pursuant to a Maintenance Agreement,

2.65. "*Location Map*" means the map attached to this Agreement as ***Exhibit A-2*** showing the location of the Land, the proposed Rock Bluff Ranch subdivision, Berry Creek, SH 195, Rattlesnake Road, Ronald W. Reagan Blvd., CR 245, Sun City Blvd., Silver Spur Blvd., platted subdivisions, and other existing landmarks.

2.66. "*Lot*" means a legal lot included in a final subdivision plat approved by the City and recorded in the Official Public Records of Williamson County, Texas.

2.67. "*Major Wastewater Improvements*" means, collectively, the South Lift Station, the 42" MasterPlan Wastewater Line Segment, and the 8", 12", 18", and 24" gravity wastewater lines shown on the Conceptual Wastewater Plan. If Developer chooses to construct the Interim Wastewater Line, the term also includes the Interim Wastewater Line.

2.68. "*Major Water Improvements*" means, collectively, Pressure Zone 1065 Major Water Line No. 1, Pressure Zone 1065 Major Water Line No. 2, Pressure Zone 1178 Major Water Line, and the Pressure Zone 1178 Major Water Line Off-Site Segment.

2.69. "*Maintenance Agreement(s)*" means one (1) or more agreements in the form attached as ***Exhibit J*** and related to maintenance in perpetuity of the District Areas/Improvements, to be entered into between the City, Developer, and a District; or between the City, Developer, and the HOA, depending on whether a District or the HOA is to maintain the District Area/Improvement.

2.70. "*Master Covenant*" means, collectively, those certain documents that are in all material respects consistent with this Agreement and the Related Documents, establishing a uniform plan for the governance of the Land by the establishing a declarant for the HOA. The Master Covenant must include the provisions set forth in **Section 6.07.**

2.71. "*Neighborhood Collector*" has the meaning given in the UDC.

2.72. "*Open Space Areas*" means the approximately 168.6 acres out of the Land where all Development is prohibited and which is intended to remain in an undisturbed state and owned and maintained in perpetuity by a District or HOA pursuant to a Maintenance Agreement, labeled as such and located where generally shown on the Conceptual Land Use Plan and the Conceptual Parks and Open Space Plan.

2.73. "*Original District*" means Williamson County Municipal Utility District No. ____ (or next available numerical designation), prior to any division thereof.

2.74. "*Ornamental Water Feature*" means an artificial water feature dug or created on the Land primarily for aesthetic purposes, including but not limited to ponds.

2.75. "*Park Development Fee*" means the Park Development Fee per dwelling unit in effect at the time of the City's approval of a final plat containing the Primary Park or a Community Park.

2.76. "*Parkland Improvements*" means the type and in the number of improvements listed in UDC Sec. 13.08.030.B.3.b, Table 13.08.030.C.3.b, and Sec. 13.08.030.B.3.c., and conforming to the City's Parkland Development Guidelines, as shown on Approved Plans for the Primary Park and the Community Parks.

2.77. "*Parties*" means, collectively, the City, Yearwood, Peregrine, FCL, the Original District, and any District created by division of the Original District; provided, however, that upon conveyance of the Land by Yearwood to Peregrine in accordance with this Agreement, Yearwood shall no longer be a party hereto, and upon conveyance of the Land by Peregrine to FCL in accordance with this Agreement, Peregrine shall no longer be a party hereto.

2.78. "*Party*" means one of the Parties.

2.79. "*Peregrine Closing Date*" means the date that a deed is recorded in the Official Public Records of Williamson County, Texas, evidencing the acquisition by Peregrine of fee simple title to the Land from Yearwood, which date must be on or before the Peregrine Closing Deadline.

2.80. "*Peregrine Closing Deadline*" has the meaning given in Paragraph B of the Recitals.

2.81. "*Phasing Plan*" means the sequence of Development of the Land shown by clearly demarcated spatial boundaries for each phase (lot lines, streets, parks,

trails, and utilities) and the numerical order of each phase, which is attached to this Agreement as ***Exhibit K***.

2.82. "*Pressure Zone 1065 Major Water Line No. 1*" means the water line to be Completed (or caused to be Completed) by Developer at no cost to the City used only to provide Water Service to Connections on the Land within Pressure Zone 1065 connecting at both ends and a mid-point to the City's 24" Water Line that borders the southern boundary of the Land, as generally shown on the Conceptual Water Plan. The diameter of the water line will be determined by the City during final design, but must be a minimum of twelve (12) inches.

2.83. "*Pressure Zone 1065 Major Water Line No. 1 Easement*" means the twenty-five (25) foot wide easement in Approved Form for the Pressure Zone 1065 Major Water Line No. 1 to be granted and conveyed (or caused to be granted and conveyed) by Developer to the City, at no cost to the City, when and as required by this Agreement.

2.84. "*Pressure Zone 1065 Major Water Line No. 2*" means the water line to be Completed (or caused to be Completed) by Developer at no cost to the City used only to provide Water Service to Connections on the Land within Pressure Zone 1065 connecting at its western end to Pressure Zone 1065 Major Water Line No. 1, and, at its eastern end, either *(a)* terminating in a stub out near the intersection of Ronald Reagan Blvd., and Rattlesnake Road, or *(b)* connecting to the City's 24" water line situated alongside Ronald W. Reagan Blvd. if present, as generally shown on the Conceptual Land Use Plan. The diameter of the water line will be determined by the City during final design, but must be a minimum of twelve (12) inches.

2.85. "*Pressure Zone 1065 Major Water Line No. 2 Easement*" means the twenty-five (25) foot wide easement in Approved Form for the Pressure Zone 1065 Major Water Line No. 2 to be granted and conveyed (or caused to be granted and conveyed) by Developer to the City, at no cost to the City, when and as required by this Agreement.

2.86. "*Pressure Zone 1178 Major Water Line*" means the water line to be Completed (or caused to be Completed) by Developer at no cost to the City used only to provide Water Service to Connections on the Land within Pressure Zone 1178 connecting at its southern end to the City's 24" Water Line, and terminating at the northern boundary of the Land, as generally shown on the Conceptual Water Plan. The diameter of the water line will be determined by the City during final design, but must be a minimum of sixteen (16) inches The term does not include the

Pressure Zone 1178 Major Water Line Off-Site Segment, which is separately defined.

2.87. "*Pressure Zone 1178 Major Water Line Easement*" means the twenty-five (25) foot wide easement in Approved Form for the Pressure Zone 1178 Major Water Line to be granted and conveyed (or caused to be granted and conveyed) by Developer to the City, at no cost to the City, when and as required by this Agreement.

2.88. "*Pressure Zone 1178 Major Water Line Off-Site Segment*" means the portion of the Pressure Zone 1178 Major Water Line that commences at the southern boundary of the Land and extends southward to a point of connection with a City 24" Water Line that is alongside Ronald W. Reagan Blvd., which is to be constructed by others, as generally shown on the Conceptual Water Plan. The diameter of the water line will be determined by the City during final design based on the demands for water service within the Land at full buildout, but must be a minimum of sixteen (16) inches.

2.89. "*Pressure Zone 1178 Major Water Line Off-Site Segment Easement*" means the twenty-five (25) foot wide easement in Approved Form to be acquired, granted and conveyed (or caused to be granted and conveyed) by Developer to the City, at no cost to the City, when and as required by this Agreement.

2.90. "*Primary Park*" means the approximately 141.3 acre area labeled as such and located where generally shown on the Conceptual Parks and Open Space Plan, which is to be owned in part by the City (the portion outside of a floodplain) and in part by a District (the portion within a floodplain), , and maintained in perpetuity by a District or the HOA, as applicable, pursuant to a Maintenance Agreement, as described in **Section 7.03.01.**

2.91. "*Private Park*" means the approximately 4.5 acre area labeled as such on the Conceptual Parks and Open Space Plan, which is to be owned and maintained in perpetuity by a District or HOA pursuant to a Maintenance Agreement, located where generally shown on the Parks and Open Space Plan.

2.92. "*Project*" means Development of the Land with up to 1,894 dwelling units and approximately 15 acres of commercial development, plus the District Areas/Improvements and the Public Infrastructure, all in accordance with the Governing Regulations.

2.93. "*Public Infrastructure*" means, collectively, the Transportation Improvements, the Water Improvements, and the Wastewater Improvements. The term does not include the Drainage Facilities.

2.94. "*PUD Ordinance*" means, on its final adoption, the ordinance approved by the City Council adopting a PUD Development Plan for the Land, as said ordinance may be amended from time to time.

2.95. "*Regional Trail*" means the ten (10) foot wide concrete hike and bike trail and associated ancillary appurtenances meeting the specifications set forth in the attached ***Exhibit L***, including low water crossings, to be Completed (or caused to be Completed) by Developer at no cost to the City within the Regional Trail Easement.

2.96. "*Regional Trail Easement*" means the twenty (20) foot wide easement beginning at a point on the Land near the intersection of Sun City Blvd. and the Yearwood Minor Arterial Road, and extending generally northward parallelling Berry Creek on the west side, and ending at the northern boundary of the Land, as generally shown on the Conceptual Parkland and Open Space Plan, adjusted as necessary due to topographical constraints.

2.97. "*Related Documents*" means, collectively, the PUD Ordinance and the Maintenance Agreement(s).

2.98. "*Residential Collector*" has the meaning given in the UDC.

2.99. "*Rock Bluff Ranch*" means that certain 854.8 acres of land situated north of and immediately adjacent to the Land in the location generally shown on the Location Map attached to this Agreement as ***Exhibit A-2***, which will be developed by FCL pursuant to separate agreements between the City, FCL, the owner(s) of Rock Bluff Ranch, and any other necessary parties thereto.

2.100. "*ROW*" means a public right-of-way.

2.101. "*Service Unit Equivalent*" or "*SUE*" has the same meaning as the term "Service Unit Equivalent" as used and defined in City Code of Ordinances Sec. 13.32.F ("Service Unit Equivalent"), the number of which are to be calculated in accordance with City Code of Ordinances Sec. 13.32.050.

2.102. "*South Lift Station*" means a new wastewater lift station to be designed and constructed (or caused to be designed and constructed) by Developer at no cost to the City on the South Lift Station Site. The size of the lift station shall be

determined by the City during final design. Except as otherwise allowed by **Section 9.09**, the lift station shall be designed and constructed with capacity only as required to meet the projected demands for service within the Land consistent with this Agreement, and the Parties' reasonably projected demands for service within Rock Bluff Ranch.

2.103. "*South Lift Station Deed*" means the deed in Approved Form granting and conveying the South Lift Station Site to the City in fee simple at no cost to the City.

2.104. "*South Lift Station Site*" means a one (1) acre portion of the Land accessible from a Completed public road generally located where shown on the Conceptual Wastewater Plan on which Developer will construct (or cause to be constructed) the South Lift Station, and where the City may construct or cause to be constructed an expansion of the South Lift Station. The one (1) acre minimum siting requirement is in addition to the Access Easement required to enter the South Lift Station Site from a Completed public road. As long as a one-quarter (1/4)-acre portion of the one (1) acre site on which the South Lift Station will be located is outside of the FEMA and Atlas 14 floodplains, the remainder of the site may be in a FEMA or Atlas 14 floodplain if it is also outside of a Stream Buffer Area.

2.105. "*Stream Buffer Areas*" means the areas identified as being within the smaller of the FEMA or Atlas 14 floodplain map on the Stream Buffer Location Map attached to the Geologic Assessment as Attachment F, within which all Development is prohibited, excluding construction of the 42" MasterPlan Wastewater Line Segment, if situated as described in **Section 9.05.02.**

2.106. "*TCEQ*" means the Texas Commission on Environmental Quality, or its successor agency having jurisdiction over wastewater treatment and discharge.

2.107. "*TLGC*" means the Texas Local Government Code.

2.108. "*TIF Offset*" means the maximum amount that the Transportation Impact Fee (TIF) may be reduced on Developer's demonstration of compliance with the terms and conditions of this Agreement, calculated after Completion of the Yearwood Minor Arterial Road and payment of the Interlocal Agreement Costs, and the City's acceptance of the TIF Offset Documentation, per **Section 8.11.02.**

2.109. "*TIF Offset Documentation*" means the information described on the attached ***Exhibit N***.

2.110. "*TIF Service Unit*" means one vehicle-mile of travel during the afternoon peak hour of traffic, and is also sometimes referred to in City Code of Ordinances Chapter 12.46 as a "vehicle mile."

2.111. "*Transportation Impact Fee*" or "*TIF*" means the transportation impact fee adopted by the City Council pursuant to Chapter 395 of the TLGC to recoup the costs of capital improvements or expansions to the City's transportation system, in the amount in effect on the "Assessment Date," as the term "Assessment Date" is defined in City Code of Ordinances Section 12.46.090 and which amount may be revised by the City Council after the Effective Date in accordance with the applicable procedures set forth in Texas Local Government Code (TLGC) Chapter 395.

2.112. "*Transportation Improvements*" means, collectively, the Yearwood Minor Arterial Road, the Emergency Vehicle Access Roads, the Internal Transportation Improvements, and the Transportation-Related Drainage Improvements.

2.113. "*Transportation-Related Drainage Improvements*" means those stormwater, drainage, and water quality control facilities required to manage stormwater, drainage, and water quality resulting from public streets and roadways and that are shown on the Approved Plans for the public street or roadway. The term does not include stormwater, drainage, and water quality control facilities that are associated with any other type of Development on the Land.

2.114. "*Unified Development Code*" or "*UDC*" means the City's Unified Development Code approved and adopted by the City Council of the City of Georgetown on August 11, 2026 pursuant to Ordinance No. 2026-39, and effective on November 1, 2026. Notwithstanding the foregoing, Developer may elect, in its sole discretion, to comply with later versions of, or amendments to, the UDC adopted by the City Council after August 11, 2026, if any.

2.115. "*Vertical Development*" means the construction, installation or remodeling of structure(s) for which the City typically requires a building permit or certificate of occupancy.

2.116. "*Walls and Fencing*" means the walls and fencing meeting the Wall and Fencing Standards placed within an Open Space Area or within perpetual easements granted to a District or the HOA, and not in, on, or over any ROW (City or County), PUE, the 42" MasterPlan Wastewater Line Easement, the permanent 42" MasterPlan Wastewater Line Access Easement, or any other City easement for any other Public Infrastructure, to be constructed (or caused to be constructed) by

Developer and maintained in perpetuity by a District or the HOA at no cost to the City, to be located generally where shown on the Conceptual Wall and Fencing Plan subject to the foregoing limitations.

2.117. "*Wall and Fencing Standards*" means the design and construction standards for the Walls and Fencing consistent with the descriptions on the Conceptual Wall and Fencing and as may be specified in more detail in the PUD Ordinance, but in no event shall Walls and Fencing be placed in, on, or over any City easement or ROW.

2.118. "*Wastewater Impact Fee*" means the charges or assessments of money imposed per Service Unit Equivalent by the City pursuant to City Code of Ordinances Chapter 13.32 against new development to generate revenue for funding or recouping the costs of wastewater system capital improvements or facility expansions necessitated by or attributable to new development, in the amount in effect at the time of assessment under City Code of Ordinances Section 12.32.070, as said amount may be revised by the City Council during the Term in accordance with the applicable procedures set forth in TLGC Chapter 395.

2.119. "*Wastewater Impact Fee Credit Documentation*" has the meaning given in **Section 9.05.03.**

2.120. "*Wastewater Improvements*" means, collectively, the Major Wastewater Improvements, the Internal Wastewater Improvements and, if constructed, the Interim Wastewater Line.

2.121. "*Wastewater Service*" means the provision by the City of domestic wastewater collection and treatment services to retail customers within the Land per the rules and regulations promulgated by the City and the terms and conditions of this Agreement.

2.122. "*Water Impact Fee*" means the charges or assessments of money imposed per Service Unit Equivalent by the City pursuant to City Code of Ordinances Chapter 13.32 against new development to generate revenue for funding or recouping the costs of water system capital improvements or facility expansions necessitated by or attributable to new development, in the amount in effect at the time of assessment under City Code of Ordinances Section 12.32.070, as said amount may be revised by the City Council during the Term in accordance with the applicable procedures set forth in TLGC Chapter 395.

2.123. "*Water Improvements*" means, collectively, the Major Water Improvements and the Internal Water Lines.

2.124. "*Water Service*" means the provision by the City of potable water service to retail customers within the Land per the rules and regulations promulgated by the City and the terms and conditions of this Agreement.

2.125. "*Water Softener*" means any devices that, via ion exchange, replaces calcium and magnesium ions with sodium ions in water.

2.126. "*Water Service*" means the provision by the City of potable water and domestic wastewater collection and treatment services to retail customers within the Land per the rules and regulations promulgated by the City.

2.127. "*Yearwood Arterial ROW Exhibit*" means the attached ***Exhibit O*** showing "ROW Area A 0.348 Acres" and "ROW Area B 0.750 Acres" located on the City's Northlands WWTP Site.

2.128. "*Yearwood Minor Arterial Road*" means the roadway and its related Transportation-Related Drainage Improvements to be constructed (or caused to be constructed) by Developer at no cost to the City having a 110-foot ROW width commencing at a point along Ronald W. Reagan Blvd. directly across from Sun City Blvd., traversing the Land in a west-northwesterly direction, and ending at a point along the northwestern boundary the Land, in the general location shown on the Conceptual Transportation Plan.

ARTICLE 3. EFFECTIVE DATE; PEREGRINE TERMINATION; DISTRICT CREATION AND ORGANIZATION MATTERS

3.01. **Effective Date**. The "**Effective Date**" of this Agreement will occur if and on the date that both of the following conditions are met on or before the date that is sixty (60) days after the City Council has approved this Agreement (the "**60-Day Deadline**"): *(a)* the duly authorized representatives of the Initial Parties have executed five (5) originals of this Agreement and returned same to the City; and *(b)* Peregrine has acquired fee simple title to the Land from Yearwood on or before the Peregrine Closing Deadline and provided a copy of the recorded deed evidencing such acquisition to the City Attorney. If either of the foregoing conditions are not met on or before the 60-Day Deadline, this Agreement will not become effective, be null and void, and have no force or effect.

3.02. **Voluntary Annexation Request and Municipal Services Agreement**. The City acknowledges that Peregrine has submitted a written request for voluntary annexation of the Land (the "**Voluntary Annexation Request**") and has executed a Municipal Services Agreement. The Parties agree that the Voluntary Annexation Request and Municipal Services Agreement will be deemed to be submitted to the City on the Peregrine Closing Date, provided that such date is on or before the Peregrine Closing Deadline and the 60-Day Deadline, and agree further that, prior to such time, the City will hold the Voluntary Annexation Request and Municipal Services Agreement in escrow and not commence the voluntary annexation proceedings. The Parties hereby stipulate that the request for annexation of the Land into the City limits is made voluntarily by Peregrine and is consented to by FCL.

3.03. **PUD Zoning Application**. Peregrine agrees to submit, or cause to be submitted, an administratively complete application for zoning of the Land as a Planned Unit Development ("PUD") that is consistent with the terms and conditions of this Agreement (the "**PUD Zoning Application**") within one hundred twenty (120) days after the Peregrine Closing Date.

3.04. **Peregrine Termination**. Peregrine reserves the right, at its election, to terminate this Agreement by delivery of written notice to the City, if the City Council fails to concurrently approve (*i.e.*, such approval to occur at the same City Council meeting) an ordinance annexing the Land into the corporate boundaries of the City limits and adopt the PUD Ordinance for the Land in accordance with the terms and conditions of this Agreement within one hundred twenty (120) days after the Effective Date (a "**Peregrine Termination**"). Upon a Peregrine Termination of this Agreement pursuant to this **Section**, the Parties will have the following rights and obligations, which survive such termination: *(a)* if the City has annexed the Land into its corporate limits, the City shall immediately disannex the Land; *(b)* if Peregrine has submitted, or caused to be submitted, a PUD Zoning Application or any other Development-related applications to the City, such applications will be deemed to have been withdrawn by Peregrine, and Peregrine and FCL each waive any rights under TLGC Section 43.002(a), except as to stone and aggregate and concrete processing plant and mining activities; *(c)* if Peregrine has submitted, or caused to be submitted, any documents pertaining to creation of the Original District to the TCEQ, the Attorney General, or the state legislature, Peregrine shall immediately withdraw such applications or other documents; *(d)* if the District Creation Date has occurred, Peregrine shall immediately pursue TCEQ proceedings or decisions to dissolve the Original District; (*e*) if the City has not annexed the Land, the City shall immediately release from escrow and return

to Peregrine the Voluntary Annexation Request and Municipal Services Agreement; and *(f)* **Section 3.09** shall remain in full force and effect until items *(a)*, *(b)*, *(c)*, *(d)* and/or *(e)* above, as applicable, are completed.

3.05. **Consent to Creation of Original District as In-City District**. By their signatures on this Agreement, Peregrine and FCL hereby stipulate that they each join in the request made in the Creation Petition for consent to creation of a municipal utility district on the Land, and stipulate that they desire creation of an In-City District (not an ETJ District). By execution of this Agreement and subject to the terms and conditions hereof, the City consents to the inclusion of all of the Land within the Original District and the creation of the Original District upon annexation of the Land by the City. The City agrees that this Agreement will constitute and evidence the City's consent to the creation of the Original District as an In-City District. No further consent will be required on the part of the City to evidence the City's consent to the creation of the Original District as an In-City District, but the City agrees to provide a resolution confirming its consent if requested by Developer including to evidence that the conditions to the effectiveness of this Agreement and the City's consent have been met.

3.06. **Organizational Meeting of the Original District's Board.** The first organizational meeting of the Original District's Board must be held within sixty (60) days after the District Creation Date.

3.07. **Execution of this Agreement by District.** At its first organizational meeting, the Original District's Board must approve this Agreement, cause this Agreement to be signed by a duly authorized representative of the Original District's Board, and return a fully executed, certified copy of this Agreement to the City Attorney within fifteen (15) days after the date of the organizational meeting of the Original District's Board.

3.08. **Limit on District's Authority**. Prior to the time that this Agreement is executed by the Original District and the executed Agreement is returned to the City Attorney, the Original District shall not divide, issue Bonds or enter into developer reimbursement agreements (unless such developer reimbursement agreements provide that they are only effective if, and when, the foregoing document has been executed and delivered to the City Attorney) and the Original District shall be prohibited from taking any affirmative act to do so. If the Original District fails to approve, execute, and deliver this Agreement to the City Attorney within thirty (30) days of the first organizational meeting of the Original District's Board, such failure shall constitute a material breach of this Agreement and shall

operate to prohibit the Original District from taking any affirmative act to divide, issue Bonds or executing developer reimbursement agreements until the failure has been cured. In addition, the effectiveness of all reimbursement agreements executed by any District and land development agreements executed by Developer or a District shall be expressly conditioned upon approval and execution by the Original District's Board of this Agreement.

3.09. **Withdrawal of Consent**.

3.09.01. The City's consent to the creation of the Original District shall be deemed withdrawn and this Agreement shall be void and have no force or effect if:

(a) The actions described in **Section 3.01** are not completed on or before the 60-Day Deadline, or a Peregrine Termination occurs under **Section 3.05**; or

(b) The District Creation Date has not occurred within eighteen (18) months after the Effective Date, which deadline shall be tolled for the pendency of any contested case hearing challenging creation of the Original District; or

(c) The Original District has not held a confirmation election within eighteen (18) months after the District Creation Date.

3.09.02. If an event described in **Section 3.09.01** occurs and the District Creation Date has not yet occurred, the intent of the Parties is that the Original District is not to be created and the non-City Parties hereby agree that all applications or other documents pertaining to creation of the Original District or issuance of Bonds submitted to the TCEQ, the Attorney General, or the state legislature shall be withdrawn, no District confirmation election shall be called or held, and shall forbear from executing any documents or instruments or taking any other actions enabling the creation, or confirmation of the creation, of the Original District.

3.09.03. If any event described in **Section 3.09.01** occurs and the District Creation Date has occurred, the City may contest or appeal TCEQ proceedings or decisions to dissolve the Original District.

3.09.04. If any event described in **Section 3.09.01** occurs, Developer expressly and irrevocably waives any claims against the City for repayment of costs and expenses that would otherwise be eligible to be reimbursed to Developer by

Original District pursuant to the rules and regulations of the TCEQ or other applicable law.

3.10. **Required Submittals to the City Prior to Creation of the Original District**. Concurrently with the submission of the Original District creation application to the TCEQ, Developer agrees to submit to the City a copy of the application and all supporting documents, including (without limitation) evidence that the land to be included in the Original District is within the City's jurisdictional city limit boundaries and a financial statement of Developer as required by TCEQ rules. The City shall have thirty (30) business days to review the draft application and provide comments to Developer.

3.11. **No Incorporation; No Other Jurisdiction; No Annexation**. In furtherance of the purposes of this Agreement, each District, Owners, and Developer, on behalf of themselves and their respective successors and assigns, covenant and agree that, except after receiving written consent from the City Council, none of them shall: *(1)* initiate, seek or support any effort to incorporate the Land or any part thereof; or *(2)* sign, join in, associate with, or direct to be signed any document seeking to incorporate the Land or seeking to include the Land within the boundaries of any CCN, special district, governmental assessment jurisdiction, other municipality, or any other governmental entity or area other than the City or a District; or *(3)* initiate, seek or support any effort to annex additional land into the boundaries of a District; or *(4)* initiate, seek or support any effort to disannex all or any portion of the Land from the corporate boundaries of the City or from the City's ETJ.

3.12. **Annexation of Land into a District**. No additional land can be annexed into a District without the prior written consent of the City Council, and amendment of this Agreement and the affected Related Documents. Any attempted annexation of additional land into a District without the prior written consent of the City Council, including amendments to this Agreement and the affected Related Documents, will have no force or effect. Notwithstanding the foregoing, the City acknowledges that in the event of division of the Original District, any portion of the Land may be transferred between individual Districts by annexation or exclusion to ensure individual phases or subdivisions of the Project are within separate Districts, and no City consent shall be required therefor as long as any such annexed or excluded property is within the Land; provided, that the City agrees to provide any documentation evidencing the City's consent to any annexation as may be reasonably requested or required by Developer or the applicable District regarding such annexation, including providing a resolution evidencing its consent within forty-five (45) days of request to the City.

3.13. **Limit on Exercise of Eminent Domain Powers**. Each District is not authorized to exercise the power of eminent domain to acquire any interest in property that is located outside the boundaries of the District except: *(i)* if necessary to obtain off-site easements for any of the construction of any infrastructure contemplated by this Agreement to be built by Developer or the District located outside the boundaries of the Land, including if necessary to obtain easements for the Pressure Zone 1178 Major Water Improvements, the Interim Wastewater Improvements, Transportation-Related Drainage Improvements and Drainage Facilities required hereunder; or *(ii)* when such power is exercised with the express prior written consent of the City Council.

3.14. **Reimbursement of City Costs and Expenses.** As additional consideration for this Agreement, Developer shall pay (or cause payment) to the City an amount equal to all applicable City application fees, plus the City's out-of-pocket costs, fees, and expenses (including but not limited to attorney's fees and other professional service fees), incurred by the City in connection with the City's consent to formation of the Original District, and negotiation and preparation of this Agreement and the Related Documents. All such costs, fees and expenses that were invoiced to Developer prior to the date that this Agreement is scheduled to be considered by City Council shall be paid in full to the City before this Agreement is considered for approval by the City Council. All remaining or additional amounts must be received by the City on or before the Effective Date. In addition, during the term of this Agreement, Developer or the applicable District shall remit to the City within thirty (30) days after receipt of request for same, payment for any additional fees, costs or expenses incurred by the City in the administration or amendment of this Agreement or the Related Documents.

3.15. **Division of Districts**. In connection with each division of the Original District, this Agreement must be assigned by the Original District to the District created by division thereof as this Agreement relates to the real property included in such District such that each District shall be bound by the terms and conditions of this Agreement. The City acknowledges that the Original District shall be authorized to divide into two or more Districts without the City's consent, from time to time, including the further division of a District; provided, that the City agrees to provide any documentation evidencing the City's consent to such division as may be reasonably requested or required by Developer or the applicable District regarding such division, including providing a resolution within forty-five (45) days of request to the City. In the event of such division, Developer shall notify the City of the name and boundaries of each new District containing all or a portion of the Land created by such division.

3.16. **Director Qualifying Lots**. The conveyance, from time to time, by metes and bounds or otherwise of any portion of the Land to any person for the sole purpose of qualifying such person to be a member of the Board of Directors of a District will not be considered a subdivision of land requiring a plat or otherwise requiring the approval of the City.

3.17. **Manufactured or Mobile Homes**. The City agrees that manufactured or mobile homes may be placed on the Land for the following uses: *(1)* for use by residents who intend to vote in a confirmation election (which may include other ballot initiatives), or *(2)* for use as a construction/temporary sales office in connection with the construction of improvements to serve the Land and home sales.

3.18. **Dissolution of Districts**. The City agrees that it will not seek to dissolve any individual District, including pursuant to the authority set forth in Section 43.074 of the TLGC, until after the tenth (10th) anniversary of the date of the first issuance of Bonds by that individual District. Upon dissolution of the applicable District, the City shall assume the indebtedness and legal obligations of the applicable District to the extent required by law.

ARTICLE 4. ISSUANCE OF BONDS BY DISTRICT

4.01. **Restrictions on Issuance of Bonds**. No District shall issue Bonds until after the documents required by **Article 3** are timely and fully executed by the non-City Parties and delivered to the City Attorney.

4.02. **Authorized Purposes**. Except as authorized by this Agreement, no District shall issue Bonds without the prior approval of the City Council. The purposes for which a District may issue Bonds shall be restricted to the following:

4.02.01. Purchase, construction, acquisition, repair, extension and improvement of land, easements, works, improvements, facilities, plants, equipment, and appliances necessary to:

4.02.02. Provide a water supply for the District for municipal, domestic and commercial uses; and

4.02.03. Collect, transport, process, dispose of, and control all domestic, commercial, industrial or communal wastes from the District, whether in fluid, solid or composite state; and

4.02.04. Gather, conduct, divert and control local storm water or other local harmful excesses of water in the District; and

4.02.05. Roads or improvements in aid of roads as authorized by Section 54.234, Texas Water Code, and Article III, Section 52, Texas Constitution; and

4.02.06. Provide parks and recreation facilities for the inhabitants of the District, subject to the provisions of this Agreement and Chapters 49 and 54 of the Texas Water Code; and

4.02.07. After any of the facilities for which the District has issued Bonds have been conveyed to a Governmental Authority in accordance with the terms of this Agreement, which conveyances shall occur within the timeframes specified in this Agreement, the District shall not issue any Bonds to repair or maintain such facilities without the prior written consent of the City Council; and

4.02.08. Payment of costs associated with endangered species permits; and

4.02.09. Payment of organization and administration expenses, initial operation expenses, cost of issuance, interest during construction, capitalized interest and similar expenses typically incurred by municipal utility districts in the issuance of bonds such as the Bonds, including issuance, administrative, insurance and regulatory expenses related to issuance of any Bonds and the land, easements, works, improvements, facilities, plants, equipment, and appliances being financed by the Bonds; and

4.02.10. Refunding of any outstanding Bonds of the District for debt service savings; provided, however that any such refunding Bonds otherwise satisfy the requirements of this Agreement; and

4.02.11. Financing of impact fees and any other purpose now or hereafter authorized under the laws of the State of Texas.

4.03. **Timing of Issuances.** The Original District and Developer contemplate that the Districts may be able to issue Bonds generally as set forth in the Finance Plan dated May 1, 2026 on file with the City Attorney; however, the Parties understand that the actual timing, size and issuance of Bonds will be subject to market, economic and other variables that occur.

4.04. **Amount of Bonds**. In consideration of the City's consent to the creation of the Original District, the Parties agree that the total amount of Bonds issued by all

Districts for all purposes, excluding refunding Bonds, shall not exceed the Bond Limit Amount for any of the authorized purposes in **Section 4.02** of this Agreement, unless specifically approved in advance by the City Council. All non-City Parties acknowledge and agree that the Bond Limit Amount is sufficient to accomplish the purposes of the Districts, and that they have voluntarily agreed to the Bond Limit Amount. District improvements or facilities, if any, the cost of which exceeds the Bond Limit Amount, shall be dedicated to a District without reimbursement, unless otherwise approved in advance by the City Council. In the event of division of a District, the Bond Limit Amount shall represent the cumulative amount of Bonds that may be issued by all Districts.

4.05. **Bond Requirements**. A District shall obtain all necessary authorizations for Bonds in accordance with this Agreement, the UDC, and the laws applicable to the District. To the extent of any inconsistency or conflict with the UDC, the terms of this Agreement shall control. All Bonds issued by a District shall comply with the following requirements:

4.05.01. Maximum maturity of twenty-five (25) years from date of issuance for any one series of Bonds; and

4.05.02. Interest rate that does not exceed two percent (2%) above the highest average interest rate reported by the Daily Bond Buyer in its weekly "20 Bond Index" during the one month period immediately preceding the date that the notice of sale of such Bonds is given; and

4.05.03. The Bonds shall expressly provide that the District shall reserve the right to redeem Bonds at any time beginning not later than the tenth (10th) anniversary of the date of issuance, without premium. No variable rate Bonds shall be issued by a District; and

4.05.04. Any refunding Bonds of a District must *(i)* provide for a minimum of three percent (3%) present value savings, *(ii)* provide that the latest maturity of the refunding Bonds may not extend beyond the latest maturity of the refunded Bonds, and *(iii)* be preceded by delivery of a certificate from the District's financial advisor that demonstrates that the proposed refunding shall comply with this **Section** at least three (3) business days before execution of the purchase agreement for the refunding and must deliver evidence of its compliance with the requirements of this **Section** to the City within three (3) business days after the execution of the purchase agreement for the refunding; and

4.05.05. No Bonds by any District (except for refunding Bonds) shall be issued having an issuance date more than ten (10) years after the date of the first issuance of Bonds by that District.

4.06. **Certifications and Notice**. At least thirty (30) days before submission of an application for issuance of Bonds to the TCEQ or the Attorney General, whichever occurs first, the District shall provide to the City Secretary, City Manager and City Finance Director:

4.06.01. The written certifications (collectively, the "**Certifications**") of *(i)* the District's financial advisor that the Bonds are being issued within the then-current economic feasibility guidelines established by the TCEQ for districts in Williamson County (with respect to Bonds subject to TCEQ regulation) and in conformity with this Agreement; and *(ii)* the District's attorney that the District is not in breach of this Agreement or a Related Document; (*iii*) the Developer that the Developer is not in breach of this Agreement or a Related Document; (*iv*) the District's financial advisor itemizing by issuing District all prior Bond issuance dates, amounts, refunding dates (if applicable), and maturity dates (the "**Prior Issuance Summary**").

4.06.02. A written notice (a "**Bond Issue Notice**") containing *(a)* the amount of Bonds being proposed for issuance together with the Prior Issuance Summary; *(b)* a general description (to include, at a minimum, the name of each project being reimbursed) of the projects to be funded and/or the Bonds to be refunded by such Bonds; *(c)* the proposed debt service of the District, and *(d)* the District's projected total tax rate after the issuance of the Bonds.

4.06.03. As to the Certifications and Bond Issue Notice, and any other matter required by this Article to be certified or submitted to the City in writing, the District issuing Bonds hereby represents and warrants that every statement in any certification shall be true and correct in all material respects and that the person signing the Certifications and Bond Issue Notice will have been given the requisite authority to do so on behalf of the District or the Developer, as applicable. If a District is not required to obtain TCEQ or Attorney General approval of the issuance of the Bonds, the District shall deliver the Certifications and Bond Issue Notice to the City Secretary, City Manager and City Finance Director at least sixty (60) days prior to the issuance of Bonds, except for refunding Bonds.

4.07. **Bond Objections**. The City shall have a period of sixty (60) days after receiving the last of the Certifications and Bond Issue Notices required by **Section**

4.06 within which to object to the Bonds. The only basis for an objection by the City to a proposed Bond issue shall be that the District is in material default of a provision of the Consent Resolution, this Agreement, or a Related Document. If the City objects to a proposed Bond issue ("**City Objection**"), such an objection: *(a)* shall be in writing; *(b)* shall be given to the District; *(c)* shall be signed by the City Manager or the City Manager's designee; and *(d)* shall specifically identify the provision(s) in the Consent Resolution, this Agreement, or a Related Document for which the District is in default. It shall not be a basis for a City Objection that the City disagrees with a District's financial advisor as to the financial feasibility of the Bonds so long as the proposed Bonds are approved by the TCEQ, if applicable, and the Attorney General. In the event a City Objection is timely given to the District with respect to a specific Bond application as required by this **Section 4.07**, the City and the District shall cooperate to resolve the City Objection within a reasonable time (not more than 90 days), and the sale of the Bonds to which the City Objection applies shall be delayed until the City Objection has been cured or waived. Unless otherwise cured by written agreement of the Parties, a City Objection shall only be deemed cured if *(x)* the District files a petition seeking declaratory judgment in state district court, *(y)* not less than thirty (30) days before filing the petition the District gives the City Attorney and the City Manager Notice of, and waives any objections to, the City's right to intervene in, such a declaratory judgment action, and *(z)* the district court (or an appellate court, if an appeal is filed) determines that the applicable District or Developer is not in default with respect to any provision of this Agreement or a Related Document or, alternatively, finds that if such a default had previously occurred, the default has been cured. A City Objection may only be waived by the City Council.

4.08. **Official Statements**. Within thirty (30) days after a District closes the sale of each series of Bonds, the District shall deliver to the City Manager and City Finance Director a copy of the final official statement for such series of the Bonds, and the District shall promptly provide such information at no cost to the City.

4.09. **Reporting**. Each District shall: *(a)* send a copy of each order or other action setting an ad valorem tax rate to the City Manager and City Finance Director within thirty (30) days after the District adopts the rate; *(b)* send a copy of each annual audit to the City Manager and City Finance Director; and *(c)* provide copies of any material event notices filed under applicable federal securities laws or regulations to City Manager and City Finance Director within thirty (30) days after filing such notices with the applicable federal agency.

4.10. **Reimbursement Agreements**. In addition to the limitations on Bond issuance set forth elsewhere in this Agreement, each District agrees not to issue Bonds for purposes of reimbursing Developer for any costs or expenses paid by Developer after the tenth (10th) anniversary of the date of the first issuance of Bonds by that District, which costs and expenses would otherwise be eligible to be reimbursed to Developer by the District pursuant to the rules and regulations of the TCEQ or other applicable law, unless otherwise consented to by the City Council hereafter.

ARTICLE 5.
TAXES, FEES AND CHARGES

5.01. **Tax Rate Considerations for Proposed Bonds**. Before the issuance of Bonds for water, sewer, drainage, and recreational facilities, a District must provide to the City a final TCEQ order approving the Bond issue (and the accompanying staff memorandum) that indicates concurrence by the TCEQ, made in accordance with the TCEQ's then-existing rules, that it is feasible to sell the Bonds and maintain a projected District combined tax rate (*i.e.*, the District's debt service tax rate plus the District's operation and maintenance tax rate) that is not more than $0.65 per $100 (the "**Feasibility Tax Rate**") in assessed valuation on an annual basis. Each District agrees to adopt its annual tax rate in compliance with the legal requirements applicable to municipal utility districts, to report the tax rate set by the District each year to the District's tax assessor/collector, and to perform all acts required by law for its tax rate to be effective. Each District shall maintain all debt service tax revenues in a separate account or accounts from the District's general operating funds. The Developer Parties acknowledge and agree that the Feasibility Tax Rate is sufficient to accomplish the purposes of this Agreement and that the Developer Parties have voluntarily agreed (and each District upon creation will voluntarily agree) to the Feasibility Tax Rate. Notwithstanding the foregoing or anything else in this Agreement to the contrary, however, each District and the City understand that the District's power to levy taxes to pay the principal of and interest on Bonds up to the Bond Limit Amount will be unlimited as to rate and amount if necessary to make authorized Bond payments.

5.02. **District Fees**. Each District agrees that the City shall be exempt from, and will not be assessed, any District fees.

5.03. **Further Reimbursement of City Expenses**. In addition to the fees paid pursuant to **Section 3.14**, during the term of this Agreement Developer or a District shall pay to the City any additional fees, costs and expenses in connection

with the amendment, implementation or administration of the parts of this Agreement related to the City's supervision of a District's activities under this Agreement. The costs, fees and expenses required to be paid by this **Section** shall be paid in full to the City within thirty (30) days of receipt of a statement regarding same from the City. Without limiting the City's right to seek an award of attorney's fees, this **Section** does not apply to costs, fees or expenses incurred as a result of litigation.

ARTICLE 6. LAND USE AND DEVELOPMENT

6.01. **Approval of Conceptual Land Use Plan**. The City hereby approves the Conceptual Land Use Plan attached to this Agreement as ***Exhibit P***. The City Council, in its legislative discretion, shall consider concurrent approval (*i.e.*, such approval to occur at the same City Council meeting) of an ordinance annexing the Land into the corporate boundaries of the City limits and the PUD Ordinance for the Land. The Parties agree and understand that the City Council has legislative discretion in zoning the Land; however, if the City does not adopt the PUD Ordinance in material conformance with the Conceptual Land Use Plan, Additional Land Development Standards and other applicable provisions of this Agreement within one hundred twenty (120) days after the Effective Date, Peregrine may exercise its right to effect a Peregrine Termination pursuant to **Section 3.04**. Regardless of anything to the contrary in this Agreement, the PUD Ordinance, or a Governing Regulation, *(a)* Development of the Land before Annexation is prohibited, and *(b)* no more than ten percent (10%) of the total number of dwelling units on the Land shall be age-restricted.

6.02. **Compliance with UDC Required**. After the effective date of the ordinance annexing the Land into the corporate boundaries of the City limits and the PUD Ordinance, the Land shall be Developed in compliance with the City's Code of Ordinances and the UDC, *provided however*, that when a particular UDC requirement is specifically modified by this Agreement or the PUD Ordinance, the more specific provision in this Agreement or the PUD Ordinance shall control. This section applies to all aspects of Development of the Land. In the event of a conflict between the terms of this Agreement and the PUD Ordinance or UDC, then the terms of this Agreement shall control.

6.03. **Compliance with Phasing Plan Required**. The City hereby approves the Phasing Plan attached to this Agreement as ***Exhibit K***. The Phasing Plan is conceptual only, is subject to change based on market conditions and development, and compliance with the Phasing Plan sequencing and timing is not

a contractual obligation of Developer except as otherwise expressly provided herein. Nothing in this Agreement or the Phasing Plan shall obligate Developer to commence or Complete construction of any Phase by any specific date. Notwithstanding the foregoing, at all times during and after Development of the Land, Developer must provide emergency vehicle access to the final platted portions of the Land from two (2) points of entry via Completed public roadways, or, via the Emergency Vehicle Access Roads described in **Sections 8.08** and **8.09**. The City will not accept final plat applications for the Land or any portion of the Land for which there are not two (2) approved points of entry.

6.04. **Floodplain Determinations**. The Parties agree that the Atlas 14 Floodplain Mapping Study adopted by the Commissioner's Court of Williamson County on March 24, 2026 and available online as of the Effective Date at https://www.wilcotx.gov/Atlas-14, rather than any FEMA Map, will be used to determine floodplain locations on the Land for all purposes other than for the purposes of determining the location of Stream Buffer Areas. Notwithstanding the forgoing, the Parties acknowledge that this provision does not prohibit Developer from reclaiming floodplain areas within the Land through a Letter of Map Revision and other applicable procedures and rules.

6.05. **Stream Buffer Areas**. The Parties agree that for purposes of determination the location of Stream Buffer Areas pursuant to Section 13.06.030 of the UDC, floodplain delineations will be made using the smaller (as of the Effective Date) of the FEMA floodplain, the floodplain as determined by the NOAA Atlas 14 Mapping Study adopted by the Commissioner's Court of Williamson County on March 24, 2026 and available online as of the Effective Date at https://www.wilcotx.gov/Atlas-14, or the calculated floodplain shown in the Geologic Assessment. Provisions relating to the location of the 42" MasterPlan Wastewater Line Segment relative to Stream Buffer Areas are set forth in **Section 9.05.02.**

6.06. **Public Safety Site Conveyance**. Prior to and as a condition of the City's approval of the first final plat for any portion of the Land, Developer agrees to grant and convey, or cause to be granted and conveyed, to the City via deed in Approved Form and at no cost to the City the approximately seven (7) acre portion of the Land identified on the Conceptual Land Use Plan as the "Public Safety Site" having frontage along the Yearwood Minor Arterial Road. The Public Safety Site may not be used for an expansion of the Northlands Wastewater Treatment Plant and may only be used for a public safety facility unless otherwise approved by the Developer. Conveyance shall be in accordance with **Article 11**.

6.07. **District Areas/Improvements**.

6.07.01. **HOA Required**. Prior to the first closing of a sale of a Lot on the Land, but in no event later than the date that the City receives the first application for a building permit for Vertical Development on the Land, Developer will record or cause to be recorded a Master Covenant covering the Land that establishes the obligation of the HOA to implement and enforce the Master Covenant, and, at the Original District's sole option, to maintain a legal right to access and maintain, the District Areas/Improvements located or to be located on the Land. Developer shall provide a copy of the recorded Master Covenant to the City. The Master Covenant shall contain provisions obligating the HOA to enforce the Master Covenant, and, if applicable, to maintain the District Areas/Improvements pursuant to agreement regarding the same with a District and with a Maintenance Agreement with the City, and shall expressly state that such provisions cannot be amended or removed from the Master Covenant.

6.07.02. **Developer Responsibilities to HOA**. Until the later of *(i)* the date on which the assessments to be collected from End Buyers produce sufficient funds to perform the obligations of the HOA under a Maintenance Agreement, and *(ii)* the date on which Developer Completes or causes Completion of those of the District Areas/Improvements conveyed to the HOA for ownership and/or maintenance, Developer will be responsible for performing the HOA's obligation under such Maintenance Agreement. For purposes hereof, the HOA will be deemed to have sufficient funds to perform its obligations if the HOA has operated for two (2) consecutive years after Completion of all District Areas/Improvements without requiring any subsidies from Developer.

6.07.03. **Maintenance Agreements Required**. As to Maintenance Agreements with the HOA or a District, unless an earlier time is specified in this Agreement, before Developer transfers control of the board of the HOA to the End Buyers within the Land or transfers ownership of (or pays a final pay application for) a District Area/Improvement to a District or the HOA, Developer will cause the HOA or a District, as applicable, to enter into a Maintenance Agreement for all District Areas/Improvements for which Developer has determined, in its sole discretion, that the HOA or the District, as applicable, is to be solely or jointly responsible for the ownership, operation, and maintenance of same, in substantially the form attached hereto as ***Exhibit J***. Developer must provide copies of the fully executed Maintenance Agreements to the City. Before a District Area/Improvement is transferred to a

District or the HOA and a Maintenance Agreement pertaining to same is executed, Developer shall be responsible for owning, operating, maintaining, and repairing the District Area/Improvement.

6.07.04. **Required Conveyances to the HOA or a District**. On Completion of each District Area/Improvement that is to be owned by the HOA, Developer shall transfer or convey to the HOA said District Area/Improvement for perpetual ownership (or right of entry thereto), operation, and maintenance. On Completion of each District Area/Improvement that is to be owned by a District, Developer shall transfer or convey to the District said District Area/Improvement for perpetual ownership, operation, and maintenance. The City shall have no responsibility for the District Areas/Improvements, it being the intent of this Agreement that all District Areas/Improvements ultimately be owned and maintained in perpetuity by either the HOA or a District.

6.07.05. **Developer Responsibilities to District**. Until the later of *(i)* the date on which the assessments to be collected from property taxes or fees produce sufficient funds to perform the obligations of a District under a Maintenance Agreement, and *(ii)* the date on which Developer Completes or causes Completion of construction of the District Areas/Improvements serving or located within the Land, Developer will be responsible for advancing funds to the District for the District to perform its obligations under such Maintenance Agreement. For purposes of this **Section**, a District will be deemed to have sufficient funds to perform its obligations if the District has operated for two (2) consecutive years after Completion of all District Areas/Improvements within the District without requiring any subsidies from Developer.

6.08. **Master Covenant**.

6.08.01. Developer agrees to record, or cause to be recorded, in the Official Public Records of Williamson County, Texas, a Master Covenant prior to the first sale of a Lot, and the Master Covenant must include, at a minimum, the provisions set forth below:

(a) a requirement for the creation and perpetual existence of the HOA; and

(b) a requirement that the HOA own or have the perpetual legal right to access those District Areas/Improvements to be maintained by the HOA, and a requirement that a District own or have the perpetual legal right to access those District Areas/Improvements to be owned and maintained by the District; and

(c) a requirement that the HOA a maintain, in perpetuity, all District Areas/Improvements that are not maintained, in perpetuity, by a District, in good working order and repair; and

(d) a requirement prohibiting installation and use of Water Softeners by Developer, any End User, or any other person or entity on the Land; and

(e) a requirement prohibiting use of potable water to fill or re-fill Ornamental Water Features; and

(f) a provision requiring compliance with the Additional Land Development Standards; and

(g) a provision stating that, as to privately-owned fire hydrants (those located outside a utility easement dedicated to the City or serving a non-single-family-residential Lot) must be owned, operated, and maintained by the owner of the Lot on which the hydrant is located, in accordance with the most recent national or international Fire Code adopted by the City, including local amendments to such code; and

(h) a commitment by the HOA to assess and collect such dues, fees, and funds needed to perform the obligations of the HOA under this Agreement and the Related Documents; and

(i) the funding obligations, if any, of Developer with regard to ownership and maintenance of the District Areas/Improvements and enforcement of the Master Covenant; and

(j) a provision stating that the foregoing required provisions of the Master Covenant cannot be amended, revised, removed or otherwise altered or made inapplicable to the Lots on the Land without the prior written consent of the City Council.

6.08.02. The term "Master Covenant" will be deemed to also include ancillary recorded documents such as Notices of Applicability, Development Area Declarations, Design Guidelines, and similar documents.

6.08.03. Developer shall provide a copy of the recorded Master Covenant to the City on recordation, and shall have a continuing duty to do so with any amendments.

6.09. **Hydrants**. The City will own and maintain fire hydrants serving single-family Lots that are located inside of an easement conveyed to the City. The City will not own or maintain fire hydrants serving non-single-family Lots, or those located outside of an easement conveyed to the City. All fire hydrants serving non-single-family Lots or located outside of an easement conveyed to the City must be owned and maintained by the Lot owner (or easement grantee, as appropriate) in accordance with the City's maintenance recommendations. The City may require conveyance of easements to a privately owned fire hydrant if the City determines, in its sole discretion, that access to the privately-owned fire hydrant is needed for fire-fighting purposes.

6.10. **Drainage Facilities**.

6.10.01. **General**. All Drainage Facilities must be designed and constructed to meet all requirements of the Governing Regulations. The Drainage Facilities must be conveyed to a District for ownership, operation, and maintenance**.** A District, may, at its sole option elect to contract with the HOA for shared operating and maintenance of the Drainage Facilities. Developer agrees to record, or cause to be recorded, in the Official Public Records of Williamson County, Texas, prior to and as a condition of the City's issuance of the first building permit (or its commercial use equivalent) on the Land, a Master Covenant and a Maintenance Agreement requiring either a District or the HOA to own and maintain the Drainage Facilities in perpetuity.

6.10.02. **Conveyances of Drainage Facilities**. Within ninety (90) Days of Completion of any Drainage Facilities on or serving more than one (1) Lot on the Land, Developer will convey such Drainage Facilities to a District for ownership, operation and maintenance .Any Drainage Facilities that serve only one (1) Lot will be transferred to and perpetually thereafter owned, operated, and maintained, by the owner of such Lot. Developer and each District shall not dedicate or convey to the City, or cause, suffer, or allow to be dedicated or conveyed, nor will the City accept, Drainage Facilities to the City for any purpose.

6.10.03. **Developer's Right to Reimbursement**. The conveyances of the Drainage Facilities to a District or shall be subject to Developer's right to reimbursement from a District for the cost of such Drainage Facilities in accordance with TCEQ rules. If the HOA is to maintain the Drainage Facilities, a District must grant a license or perpetual easement to the HOA requiring perpetual maintenance by the HOA of the Drainage Facilities when such

conveyance is allowable under Texas law and will not invalidate the "tax-exempt" nature of the Bonds issued to finance such Drainage Facilities. If granting of such a license or perpetual easement to the HOA is not allowable under Texas law or will invalidate the "tax exempt" nature of the Bonds issued to finance the Drainage Facilities, the District shall maintain the Drainage Facilities in perpetuity.

6.10.04. **No City Responsibility**. The City shall have no responsibility for owning or maintaining any Drainage Facilities or similar such facilities on or serving the Land.

6.11. **Shared Driveways**.

(a) **Definition**. The term "**Shared Driveway**" means a paved area separated from a public road used to provide vehicular access to multiple individual driveways via a communal driveway.

(b) **Maintenance and Repair**. All Shared Driveways are deemed to be private facilities. As such, responsibility for maintenance and repair of all Shared Driveways will be with the Lot owner(s), the HOA, or a District. The City shall have no responsibility for maintaining any Shared Driveways on the Land.

6.12. **Special Procedures for Tree Mitigation Plan**.

6.12.01. **Tree Mitigation Plan Required**. Developer shall submit a Tree Mitigation Plan prepared in accordance with UDC Sec. 10.03 (Review & Approval Process). However, under the terms and conditions set forth in **Section 6.12**, in lieu of confining its review of tree mitigation requirements to each individual plat application, the City agrees that, under the circumstances described in **Section 6.12**, the City will broaden its review to look back to the final plat approved immediately before the date of the pending final plat application and, under the circumstances and subject to the limitations described in **Section 6.12**, allow on-site credits to be carried forward from the final plat approved immediately before the pending final plat application to the (one) pending final plat application.

6.12.02. **Applicability**. First, **Section 6.12** will only apply when a Tree Mitigation Plan (in Approved Form) associated with a pending final plat application shows that tree mitigation is required. If no tree mitigation is required for a pending final plat application, then UDC Chapter 8.05 applies,

not this Section. Second, this Section will only apply when the final plat approved immediately before the pending plat application shows a positive balance for tree mitigation credits, and an on-site inspection by the City confirms that the tree preservation/mitigation requirements for the immediately preceding approved final plat are compliant with the associated Tree Mitigation Plan and UDC Chapter 8.05 at the time of review of the pending final plat application. Third, if an approved final plat shows a positive balance for tree mitigation credits, but the final plat application filed immediately after said final plat does not use all those credits, the Parties agree that the credits are lost and they are not to be carried over to any other subsequent Tree Mitigation Plan on the Land. It is the intent of the Parties and **Section 6.12** that the "look back" period for tree mitigation credits is only to the one (1) final plat approved immediately before the date of a pending application , and the "carry forward" period is only to the very next final plat application. For clarity, as used in **Section 6.12**, the words "immediately after" mean "the very next one after," and the words "immediately before" mean "the very next one before," both in reference to time, regardless of location on the Land.

6.12.03. **Variance Conditions**. As to the very next final plat application filed after the City's approval of a final plat having a Tree Mitigation Plan showing a positive tree mitigation credit balance (the "pending application"), if: (*a*) Developer is compliant with the City-approved Tree Mitigation Plans and UDC Chapter 10.03 for the Land, as verified by an on-site inspection by the City; and (*b*) the City-approved Tree Mitigation Plan for the pending plat application shows that tree mitigation is required, then the City will apply the unused tree mitigation credits from the final plat approved immediately before the date of the pending plat application to the pending application. As to any plat application to which carry-over tree mitigation credits are applied, the tree mitigation credit balance for that application will be deemed to be zero. Additional tree mitigation credits, if any, will have to be earned in the Tree Mitigation Plan for a final plat approved after the date the City approved a Tree Mitigation Plan using carry-over tree mitigation credits.

6.12.04. **Documentation Required**. To demonstrate eligibility for the variance granted under **Section 6.12**, Developer must submit the Tree Mitigation Plan (in its Approved Form) associated with the final plat approved immediately before the current plat application showing a positive tree credit balance, together with a proposed Tree Mitigation Plan for the pending plat application showing that tree mitigation is due. In lieu of submitting the form

required by the City's Development Manual, the Tree Mitigation Credit Calculation Form attached to this Agreement as ***Exhibit Q*** must be submitted with each final plat application for which Developer seeks the Tree Mitigation Plan variance.

6.13. **Inspections and Trip Fees**. As the entity issuing permits and performing inspections relating to Development of the Land, the City will inspect the improvement or area and will issue the relevant final inspection certificate when all such inspections are satisfactorily completed. The Parties agree that in addition to other fees assessed by the City, a fee of $50 per trip will be assessed for each trip the City or its authorized agent conducts, and the trip fee will be collected from the contractor/homebuilder as a condition of satisfactory completion of the inspection. Effective when the City adopts a fee schedule with trip fees applicable to the Land (or areas similarly situated as the Land) that are higher than the per trip fee amount stated above, said higher trip fees will apply. The City will retain copies of all inspection reports in accordance with its record-keeping policies, and provide them to a District on request.

6.14. **Underground Electric**. With respect to only the initial, temporary installation of the 3 Phase power supply loop (generally along and adjacent to the Yearwood Minor Arterial Road from Ronald Reagan Blvd. to the Rock Bluff Ranch property boundary), UDC Section 15.06 Electric and Communication Standards requiring all electric distribution lines to be installed underground shall not be applicable. Developer is authorized to install temporary overhead electric as need to completed the 3 Phase loop. The 3 Phase temporary overhead distribution lines must then be removed and re-installed underground following the sequence of the construction of the Yearwood Minor Arterial Road. All other electric distribution lines must be installed underground.

6.15. **Detention Exemption – Berry Creek Watershed**. Berry Creek and its tributaries within the Land's drainage basin have been identified by the County as detention-exempt under the regional drainage program. Consistent with this determination, the Land shall not be required to provide regional stormwater detention for flows discharged to Berry Creek, provided that the following conditions are satisfied:

(a) Stormwater runoff from the Land is conveyed to Berry Creek through a system designed in conformance with the City of Georgetown Drainage Criteria Manual and FEMA regulations;

(b) Local conveyance infrastructure (inlets, storm sewers, channels, and culverts) is sized to pass the design storm under ultimate development conditions per UDC Ch. 13.04; and

(c) Releases of Stormwater from the Land to Berry Creek cannot increase or adversely affect natural flows on adjacent tracts.

ARTICLE 7. PARKLAND, OPEN SPACE, AMENITY CENTERS

7.01. **Approval of Conceptual Parks and Open Space Plan**. The City hereby approves the Conceptual Parks and Open Space Plan attached to this Agreement as ***Exhibit G***. The City agrees that the dedications and/or conveyances to the City of 12.8 acres of land out of the Primary Park, and 11.4 acres of Community Parks collectively meet the parkland dedication requirements of the UDC.

7.02. **Availability to the Public**. The Primary Park, the Regional Trail, the Community Parks, and the Parkland Improvements shall be open to the general public. The Private Parks and the Amenity Centers may be private.

7.03. **Primary Park, Regional Trail, and Connecting Trails**.

7.03.01. **Primary Park**.

(a) The Primary Park shall be at least 140 acres in size. A total of 12.55 acres out of the 140 acres of Primary Park shall be (or caused to be) conveyed to the City by Developer via deed in Approved Form, out of which only 10.1 acres are permitted to be located within a floodplain. The remaining 129.9 acres, all of which may be located within a floodplain, must be conveyed by Developer to a District or to the Williamson County Conservation Foundation. These conveyances are conditions of the City's approval of the first final plat for any portion of the Land. The Conveyance Documentation must demonstrate the floodplain locations so that it is clear that no more than 10.1 acres of land to be dedicated and conveyed to the City is within a floodplain. Conveyances shall be in accordance with **Article 11**. A District or HOA, as applicable, shall maintain the Primary Park (excluding the Regional Trail) in perpetuity pursuant to a Maintenance Agreement. The City shall not be responsible for maintenance of the Primary Park lands conveyed to the City.

(b) In lieu of a District, all or any portion of the Primary Park lands not conveyed to the City may be conveyed by Developer to the Williamson County Conservation Foundation.

7.03.02. **Regional Trail**. Developer will dedicate and convey (or cause dedication and conveyance of) the Regional Trail Easement to the City in Approved Form and Complete (or cause Completion of) the Regional Trail before and as a condition of the City's approval of a final plat for any portion of the Land in Phase 2. The Regional Trail must meet the specifications set forth in the City's Parkland Development Guidelines and the specifications attached as ***Exhibit L***. The Regional Trail must be ADA compliant (as modified by FSORAG). The Regional Trail must be accessible via the Connecting Trails. Developer shall dedicate and convey (or cause dedication and conveyance of) the Regional Trail Easement and the Regional Trail to the City for the City's ownership, operation and maintenance. Conveyances shall be in accordance with **Article 11**.

7.03.03. **Connecting Trails and Connecting Trails Easements**. Developer will Complete (or cause Completion of) the Connecting Trails concurrently with Completion of the Regional Trail. The Connecting Trails must meet the specifications set forth in ***Exhibit L*** and be ADA compliant (as modified by FSORAG). On Completion, Developer shall convey the Connecting Trails Easements and the Connecting Trails to a District or the HOA for ownership and maintenance, as applicable, in perpetuity pursuant to a Maintenance Agreement. The City will have no responsibility or liability for the Connecting Trails.

7.04. **Community Parks**. Developer will convey (or cause to be conveyed) the Community Parks to the City via deed in Approved Form when and as required by the UDC. Conveyances shall be in accordance with **Article 11**. The City shall own, operate, and maintain the Community Parks and any Parkland Improvements installed thereon.

7.05. **Internal Trails, Private Parks, Open Space**.

7.05.01. **Internal Trails**. Developer will Complete (or cause Completion of) the Internal Trails concurrently with their adjacent roadways. The Internal Trail network must provide access to the Connecting Trails from the neighborhoods near or adjacent to the Connecting Trails. The Internal Trails must meet the specifications set forth in the City's Parkland Development Guidelines and be ADA compliant (as modified by FSORAG). On Completion,

Developer shall convey the Internal Trails to a District or the HOA, as applicable, for ownership and maintenance in perpetuity pursuant to a Maintenance Agreement. The City will have no responsibility or liability for the Internal Trails.

7.05.02. **Private Parks, Open Space**. Developer will convey the Private Parks and Open Space to a District or HOA for ownership and maintenance in perpetuity pursuant to a Maintenance Agreement as a condition of the City's approval of a final plat containing a Private Park or any Open Space. The City will have no responsibility or liability for the Private Parks or Open Space.

7.06. **Parkland Improvements/Park Development Fees**. Parkland Improvements approved by the City's Director of Parks and Recreation must be Completed in the Primary Park and/or the Community Parks. Developer shall Complete, or cause to be Completed, the Parkland Improvements identified on Approved Plans in the Primary Park and/or the Community Parks of the type and in the number listed in UDC Sec. 13.08.030.B.3.b, Table 13.08.030.C.3.b, and Sec. 13.08.030.B.3.c., having a construction value not less than the amount equivalent to the Park Development Fee multiplied by the number of Lots (for single-family Development) and/or dwelling units (for multi-family Development) shown on a final plat for the Land, before and as a condition of the City's approval of a final plat containing all or part of the Primary Park or a Community Park (as applicable). The Approved Plans must include a detailed description of the Parkland Improvements and a construction cost estimate for the Parkland Improvements prepared and sealed by Developer's engineer. As an example only, for illustrative purposes using the fee in effect as of the Effective Date, if a final plat contains 100 dwelling units, Developer must demonstrate that it has Completed $120,000 of Parkland Improvements (*i.e.*, 100 * $1,200) in accordance with Approved Plans for same as a condition of the City's approval of that final plat. Before the City's approval of the last final plat containing a residential Lot on the Land, if Developer has not Completed, or caused to be Completed, Parkland Improvements having the construction value equivalent to the amount of the Park Development Fee multiplied by the total number of Lots on the Land, Developer shall pay the City the difference as a condition of the City's approval of the last final plat containing a residential Lot for the Land. No costs associated with the Regional Trail may be counted or credited towards the Park Development Fee.

7.07. **Amenity Centers**. Developer shall include, or cause to be included, the West (Phases 1-5) Amenity Center in the first preliminary plat for Phase 1 and the East (Phase 6) Amenity Center in the first preliminary plat for Phase 6. Developer

shall Complete, or cause Completion to occur, of the West (Phases 1-5) Amenity Center Improvements before and as a condition of the City's issuance of the 200th building permit within Phases 1 through 5. The West (Phases 1-5) Amenity Center Improvements must include the following: a club house, a swimming pool, site furnishings, parking lot(s), lighting, landscaping, land set aside for future sport court improvements, and similar improvements to be constructed by Developer at no cost to the City. Developer shall Complete, or cause Completion to occur, of the East (Phase 6) Amenity Center Improvements before and as a condition of the City's issuance of the 200th building permit within Phase 6. The East (Phase 6) Amenity Center Improvements must include the following: a covered pavilion with picnic tables and chairs, playscape(s), park benches, landscaping, and similar improvements to be constructed by Developer at no cost to the City. Completion of both Amenity Centers and their related improvements (with final certificates of occupancy for each), is a condition of the City's approval of a final plat outside of Phase 1 or Phase 6. Each Amenity Center must have access to a Neighborhood Collector or a Residential Collector level street, as shown in ***Exhibit H***.

ARTICLE 8. TRANSPORTATION

8.01. **Approval of Conceptual Transportation Plan**. The City hereby approves the Conceptual Transportation Plan attached to this Agreement as ***Exhibit H***.

8.02. **Compliance with UDC Required**. Developer shall comply, or cause compliance to occur, with the provisions of the UDC pertaining to the Transportation Improvements as set forth in the UDC, *provided however,* that when a UDC requirement is specifically modified by this Agreement or the PUD Ordinance, the more specific provision in this Agreement or the PUD Ordinance shall control.

8.03. **Requirement to Complete Transportation Improvements**. Developer shall design and Complete, or cause to be designed and Completed, the Transportation Improvements in accordance with the Governing Regulations. After Completion and acceptance by the City of the Transportation Improvements, the City shall own, operate, and maintain the Transportation Improvements.

8.04. **Traffic Impact Analysis Waiver**. In consideration of Developer's Completion of the Transportation Improvements when and as required by this Agreement and the PUD Ordinance, the City agrees that Developer is not required to submit a Traffic Impact Analysis to the City, provided however, that any deviations from the Conceptual Land Use Plan that the City reasonably

determines may materially and adversely affect traffic conditions or increase density by 1,000 or more trips per day, the City may request, and Developer shall prepare and submit to the City, a Traffic Impact Analysis that complies with the UDC, and Developer shall design and construct, or cause the design and construction of, the improvements identified in the Traffic Impact Analysis.

8.05. **City Contribution of ROW for Yearwood Minor Arterial Road.** The City agrees that, by final plat, it will dedicate as ROW those portions of the City's Northlands WWTP Site marked as "ROW Area A 0.348 Acres" and "ROW Area B 0.750 Acres" on the Yearwood Arterial ROW Exhibit attached to this Agreement as ***Exhibit O*** to facilitate construction by Developer of the Yearwood Minor Arterial Road. Nothing in this Agreement, however, requires the City to dedicate the referenced ROW before the time that it would otherwise do so for the City's development of the City's Northlands WWTP Site. If Developer notifies in writing the City that it requires dedication of the referenced ROW before the time that a final plat for the City's Northlands WWTP Site is recorded in the Official Public Records of Williamson County, Texas, Developer agrees that it will (at no cost to the City) prepare the required preliminary and final plat applications or right-of-way deed and submit same for the City's review and approval, and after City approval of the ROW deed or final plat application, record (at no cost to the City) the ROW deed or a final plat for the City's Northlands WWTP Site that includes dedication as ROW those portions of the City's Northlands WWTP Site marked as "ROW Area A 0.348 Acres" and "ROW Area B 0.750 Acres" on the attached ***Exhibit O***.

8.06. **Reimbursement of Interlocal Agreement Costs**. Developer agrees to reimburse the City for the Interlocal Agreement Costs, and the City hereby agrees that such reimbursement payment may be made in the manner described in this **Section**. The Parties agree that reimbursement to the City of the Interlocal Agreement Costs shall be made out of the net proceeds from the first Bond issuance by the first District that issues Bonds. To that end, Developer hereby assigns to the City the amount of the Interlocal Agreement Costs out of the net bond reimbursements which otherwise would be payable to Developer when the first District issues its first Bonds. Each District acknowledges that this **Section** constitutes notice to the District of such assignment. As of the Effective Date, the estimated amount of the Interlocal Agreement Costs is **$756,000** but the Parties each understand and agree that the actual Interlocal Agreement Costs may be more or less than the estimated amount. The City agrees to provide written notice to Developer and each District of the actual amount of the Interlocal Agreement Costs as soon as practicable per the terms of the Interlocal Agreement.

8.07. **Schedule for Completion of Yearwood Minor Arterial Road**. Completion of the Yearwood Minor Arterial Road is permitted to occur over time, in segments, as follows (references are to the Phasing Plan, which must be executed in numerical order):

8.07.01. Developer shall *(a)* Complete the Yearwood Minor Arterial Road to the northeast corner of the City's Northlands WWTP Site; and *(b)* dedicate ROW for entire width and length of Yearwood Minor Arterial Road, before and as a condition of the approval of the first final plat in Phase 1.

8.07.02. Developer shall Complete the Yearwood Minor Arterial Road to the westernmost boundary of Phase 2 before and as a condition of the City's approval of the first final plat in Phase 2.

8.07.03. Developer shall Complete the Yearwood Minor Arterial Road to the westernmost boundary of Phase 3 before and as a condition of the of the first final plat in Phase 3.

8.07.04. Developer shall Complete the Yearwood Minor Arterial Road to the westernmost boundary of the Land before and as a condition of the City's approval of the first final plat in Phase 4.

8.07.05. Developer shall Complete the Yearwood Minor Arterial Road to the westernmost boundary of the Land before and as a condition of the City's issuance of the first final plat in Phase 5.

8.08. **Special Requirements for Emergency Vehicle Access**. A minimum of two (2) emergency vehicle access points are required at all times during Development and after full build-out of the Land.

8.08.01. **Phase 1 and Phase 6 Emergency Vehicle Access**. Developer intends to Develop Phase 1 (west of Berry Creek) and Phase 6 (east of Berry Creek) simultaneously; therefore, the following provisions apply:

(a) **Phase 1**. Developer shall Complete (or cause Completion of) the improvements needed to provide emergency vehicle access from outside the boundaries of the Land to Phase 1 via (1) Completion of the segment of Yearwood Minor Arterial Road fronting Phase 1; and (2) Completion of an Emergency Vehicle Access Road from Ronald Reagan Jr. Blvd. through the City's water tower site to a point within Phase 1, before and as a condition of the City's approval of the first final plat for any portion of the Land

within Phase 1. As a temporary alternative to the referenced Emergency Vehicle Access Road, emergency vehicle access to the area within Phase 1 may be via the City's Northlands WWTP Site, *but only under the following conditions*: (*x*) the City's Northlands WWTP is complete and the plant is operating; (*y*) the City has granted written consent in a form approved by the City Attorney for temporary use of a specifically identified portion of the City's Northlands WWTP Site for emergency vehicle access purposes; and (*z*) only for so long as there are fewer than thirty (30) habitable structures located in Phase 1 after which time the Emergency Vehicle Access Road must be Complete in order for additional Vertical Development within Phase 1 to continue.

(b) **Phase 6**. Developer shall Complete (or cause Completion of) Emergency Vehicle Access Roads to provide emergency vehicle access from outside the boundaries of the Land to Phase 6 via *(1)* Ronald W. Reagan Blvd.; and *(2)* Rattlesnake Road, before and as a condition of the City's approval of the first final plat for any portion of the Land within Phase 6.

8.08.02. **Phase 2 through Phase 5 Emergency Vehicle Access**. Developer shall Complete (or cause Completion of) Emergency Vehicle Access Roads to provide emergency vehicle access to Phase 2 through Phase 5 via *(1)* two Emergency Vehicle Access Roads providing access from outside the boundaries of the Land to Phase 2 and to Phase 5 as shown on the Conceptual Transportation Plan, and *(2)* the segments of Yearwood Minor Arterial Road fronting Phases 2 through Phase 5, respectively, before and as a condition of the City's approval of the first final plat for any portion of the Land within the relevant Development Phase.

8.09. **Emergency Vehicle Access Road Requirements**. Before and as a condition of the City's approval of the first final plat for the portion of the Land within a Phase, Developer shall grant and convey (or cause grant and conveyance of) all Emergency Vehicle Access Easements to the City for all Emergency Vehicle Access Roads required by **Section 8.08** for the relevant Phase, in Approved Form, following the conveyance procedures set forth in **Article 11**. Developer must also Complete (or cause Completion to occur) the applicable "**Emergency Vehicle Access Road**" so as to be at least twenty feet (20') wide, be improved with an all-weather surface, and be designed and constructed to support vehicles that are at least 75,000 pounds.

8.10. **Streets**.

8.10.01. **Street Sections**. Developer shall design and Complete, or cause to be designed and Completed, at no cost to the City, all street sections within the Land according to the Governing Regulations, except for "Local Streets" (as described on Table 14.03.030-1 of the UDC under the column titled "Local Streets"), which may be designed and constructed in accordance with the general specifications shown on ***Exhibit S***. For clarity, this means that all streets other than "Local Streets" must be designed and constructed in accordance with the requirements of the UDC.

8.10.02. **Traffic Calming Locations and Standards**. Developer shall Complete, or cause to be Completed, traffic calming improvements approved by the City and consistent with Appendix D of the City's Neighborhood Traffic Management Program (adopted by City Council Resolution No. 042826-5.C, Appendix D) at the locations shown on ***Exhibit H*** in accordance with the Approved Plans for the affected roadway. (referenced in UDC Section 1.15) .

8.10.03. **Variances for Street Spacing & Connectivity**. Due to natural topography and existing platting constraints, and subject to the proviso below: (*a*) UDC Sec. 14.050.020 regarding street spacing, block lengths, and cul-de-sacs, and connectivity ratios requirements is not applicable so long as the Transportation Improvements are materially consistent with ***Exhibit H*** and ***Exhibit I***; and (*b*) UDC Sec. 14.03.030 regarding the classification of streets is not applicable so long as the Transportation Improvements are materially consistent with ***Exhibit H*** and ***Exhibit I***, ***provided however that***, if the projected average daily trips (ADT) for a planned Local Street within the Land exceeds 1,000 ADT, the street shall be reclassified to either a Residential Collector or a Neighborhood Collector (depending on the projected ADT range), and Developer shall Complete said street as a Collector-level street. The ADT standards to be used for street classification are set forth in UDC Table 14.03.030-1.

8.11. **Transportation Impact Fees**.

8.11.01. **General**. Peregrine and Developer agree on behalf of themselves and their respective successors and assigns, that on annexation of the Land, the City is authorized to add the Land to a Transportation Impact Fee Service Area and to assess and collect Transportation Impact Fees. The City agrees that TIF Offsets are available for the Eligible Transportation Improvements under the terms and conditions of this Agreement and the City Code of Ordinances Chapter 12.46.

8.11.02. **TIF Offset Documentation**. Within one hundred twenty (120) calendar days after Developer's Completion of the Eligible Transportation Improvements when and as required by the Governing Regulations, Developer shall submit the TIF Offset Documentation to the City. The City shall use its best efforts to review the TIF Offset Documentation and notify Developer of any discrepancies or additional information reasonably required within thirty (30) days after Developer's delivery of the TIF Offset Documentation, and Developer agrees to resolve and/or address any discrepancies and/or deliveries of additional information to the City's satisfaction within thirty (30) days of receipt of the City's request. The City and Developer agree to ensure the sufficiency and accuracy of the TIF Offset Documentation so that the TIF Offset can be calculated correctly. The City's failure to respond to Developer within the timeframes does not constitute the City's approval of the TIF Offset Documentation.

8.11.03. **TIF Offset Amount Calculation Methodology**.

(a) Total TIF Offset Amount: The total TIF Offset amount shall be the lesser of the following two amounts:

(1) the amount that is equal to the number of TIF Service Units shown on the final plat(s) for the Land multiplied by the fee per TIF Service Unit shown on the then-current City Code of Ordinances, Ch. 12.46, Schedule 12.46.071(B) or Schedule 12.46.071(C) as of the "Assessment Date" (as the term "Assessment Date" is defined in City Code of Ordinances Chapter 12.46); or

(2) the actual costs to Developer of Completing the Eligible Transportation Improvements supported, to the City's reasonable satisfaction, by the TIF Offset Documentation.

(b) Per TIF Service Unit Amount: The Per TIF Service Unit Offset Amount shall be the Total TIF Offset Amount calculated per **Section 8.11.03(a)**, above, divided by the number of TIF Service Units for the final plat(s) of the Land.

8.11.04. **TIF Offset Creation**. TIF Offsets for construction of Eligible Transportation Improvements shall be deemed created when the Eligible Transportation Improvements are Completed and the City has accepted them for ownership, operation, and maintenance, and the City has approved the TIF Offset Documentation in writing.

8.11.05. **Geographical Limits**. The TIF Offsets shall be associated solely with the final plats for the Land. No TIF Offsets can be applied or used outside the boundaries of the Land.

8.11.06. **When TIF Offset Applied**. A TIF Offset associated with a final recorded plat shall be applied at the time of application for the first building permit for a structure on the Land then successively to each building permit application thereafter, reducing the Per TIF Service Unit Amounts due until the Total TIF Offset Amount is exhausted.

8.11.07. **Expiration of TIF Offsets; Surviving Obligation to Provide TIF Offsets for Completed Eligible Transportation Improvements**. TIF Offsets shall expire f ten (10) years from the date the offset was created. If the City elects to terminate this Agreement because of a failure or default by Developer that remains uncured after expiration of any applicable notice and cure periods in accordance with this Agreement, or if this Agreement expires of its own terms, the City's obligation to provide TIF Offsets will be limited to TIF Offsets associated with an Eligible Transportation Improvement that was Completed before termination or expiration of this Agreement, which obligation shall survive termination or expiration of this Agreement. For clarity, this means that the City's obligation to provide TIF Offsets for Eligible Transportation Improvements that are not Complete before termination or expiration of this Agreement will not survive termination or expiration of this Agreement.

ARTICLE 9. WASTEWATER SERVICE

9.01. **Provision of Wastewater Services**. Subject to Developers' timely Completion of the Wastewater Improvements, timely payment of Wastewater Impact Fees, and other the terms and conditions of this Agreement, the City shall provide Wastewater Service to the Land in a quantity up to 1,900 SUEs as necessary to serve demands within the Land as Development progresses. All Wastewater Improvements shall be designed and constructed in accordance with the Governing Regulations. Upon the request(s) of the City, the Developer shall provide an estimate of projected home sales for the ensuing three (3) years to assist the City in its planning. The City will issue "will-serve" letters from time to time as requested to evidence its commitment to provide retail Wastewater Service to the Land in accordance with this Agreement and other applicable law. After annexation of the Land into the corporate limits of the City, the City shall provide retail Wastewater Service to customers on the Land on the same terms and conditions applicable to the City's other retail wastewater customers located

inside the City limits, including but not limited to payment of Wastewater Impact Fees and wastewater rates.

9.02. **Coordination of Wastewater Service with Development of Rock Bluff Ranch**. Rock Bluff Ranch is located immediately north of and adjacent to the Land. FCL is also the developer of Rock Bluff Ranch. FCL intends to Develop Rock Bluff Ranch simultaneously with the Land (pursuant to separate agreements with the City). Because of the proximity of the Land to Rock Bluff Ranch, and the overlapping Development schedules, the Land and Rock Bluff Ranch will be served by some of the same Major Wastewater Improvements. Therefore, Developer and the City have each evaluated the Wastewater Service requirements for Development of the Land under the PUD Ordinance simultaneously with the predicted Wastewater Service requirements for Rock Bluff Ranch. The Conceptual Wastewater Plan describes the improvements required to be Completed by Developer for the City to provide Wastewater Service to the Land, and some (but not all) of the improvements needed to be Completed by Developer for the City to provide Wastewater Service to both the Land and Rock Bluff Ranch.

9.03. **Approval of Conceptual Wastewater Plan**. The City hereby approves the Conceptual Wastewater Plan attached to this Agreement as ***Exhibit E***.

9.04. **Wastewater Service Infrastructure and Impact Fee Conditions**.

9.04.01. **Completion of City's Northlands WWTP Required**. The Parties acknowledge and agree that the City's Northlands WWTP must be Complete and operational as a condition of the City's agreement to provide Wastewater Service to Connections on the Land and/or on Rock Bluff Ranch at full Development. Nothing in this Agreement obligates the City to accelerate or otherwise revise the plans, specifications, project schedule, or permits related to the City's Northlands WWTP, or to provide Wastewater Service to Connections on the Land or Rock Bluff Ranch via the City's Northlands WWTP prior to it becoming fully operational. Developer may receive Wastewater Service before Completion of the City's Northlands WWTP via the Interim Wastewater Line in a volume not to exceed the Initial Connection Limit, as more fully addressed in **Section 9.04.03**. If the City's Northlands WWTP is not Complete, but the Interim Wastewater Line is Complete and is receiving wastewater flows equal to the Initial Connection Limit, then Developer shall, at its sole cost, provide any additional wastewater service by pump and haul from the South Lift Station. If the City's Northlands WWTP is not Complete by January 31, 2032 for reasons other than *force majeure*, and the Interim

Wastewater Line is Complete and is receiving wastewater flows equal to the Initial Connection Limit, then the City shall be responsible for wastewater collection and treatment costs in excess of the Initial Collection Limit using pump and haul or other means until the City's Northlands WWTP is operational and serves the Land. For clarity, as used in this **Section**, the words "**force majeure**" means Acts of God, strikes, lockouts, or other industrial disturbances, acts of the public enemy, orders of any kind of the government of the United States or the State of Texas, or of any court or agency of competent jurisdiction or any civil or military authority, insurrection, riots, epidemics, landslides, lightning, earthquake, fires, hurricanes, storms, floods, washouts, droughts, arrests, restraints of government and people, civil disturbances, vandalism, explosions, breakage or accidents to machinery, pipelines or canals, or inability of the City to perform due to any other causes not reasonably within the City's control.

9.04.02. **Completion of the Major Wastewater Improvements and Internal Wastewater Improvements Required**. Developer shall Complete, or cause to be Completed, the Major Wastewater Improvements and the Internal Wastewater Improvements when and as required by the UDC and this Agreement. Developer may elect to receive limited Wastewater Service up to the Initial Connection Limit under the conditions described in **Section 9.04.03**.

9.04.03. **Option for City Wastewater Service Up to the Initial Connection Limit Before Completion of City's Northlands WWTP**. To accommodate anticipated demand for housing on the Land and/or on Rock Bluff Ranch before the City's Northlands WWTP becomes operational, the City evaluated its capacity to provide Wastewater Service via its existing wastewater system assuming limited additional growth outside of the Land and Rock Bluff Ranch, and predicted that the City's existing wastewater system can provide Wastewater Service to Connections on the Land and/or Rock Bluff Ranch up to, but not exceeding, the Initial Connection Limit before the City's Northlands WWTP becomes operational *on the conditions that* Developer: *(a)* acquires (or causes acquisition of) the Interim Wastewater Line Easement, and *(b)* Completes (or causes Completion of) the Interim Wastewater Line. When the City's Northlands WWTP becomes operational, the City shall provide notice of same to Developer and, within sixty (60) days after receipt of said notice, Developer shall cause the Interim Wastewater Line to cease receiving wastewater flows. The Interim Wastewater Line may be abandoned in place, *provided that* the Interim Wastewater Line Easement remains in full force and effect.

9.04.04. **Completion of Internal Wastewater Lines Required**. Developer shall Complete, or cause to be Completed, all Internal Wastewater Improvements when and as required by the UDC.

9.04.05. **Payment of Wastewater Impact Fees Required**. Subject to the provisions of **Sections 9.05.02** through **9.05.04**, Wastewater Impact Fees shall be calculated, assessed and collected when and in the amount specified in Chapter 13.32 of the City's Code of Ordinances.

9.05. **Special Provisions Related to the 42" MasterPlan Wastewater Line Segment**.

9.05.01. **General**. The Parties agree that the 42" MasterPlan Wastewater Line Segment shown on the Conceptual Wastewater Plan is a fragment of the City's 42" MasterPlan Wastewater Line that is required by the UDC to be Completed (or caused to be Completed) by Developer from property boundary line to property boundary line within the Land. However, the area located north of the Land, east of Rock Bluff Ranch, and west of SH 195 is already developed and requests for Wastewater Service from the City to those parcels are predicted to be unlikely within the City's current long-range planning horizon. For this reason, the Parties agree that Developer is required to only Complete (or cause Completion of) the 42" MasterPlan Wastewater Line Segment, but in exchange therefor, must grant the City an exclusive easement in Approved Form for the 42" MasterPlan Wastewater Line (from property line to property line) together with the 42" MasterPlan Wastewater Line Access Easements. To that end, Developer agrees to grant and convey (or cause grant and conveyance of) the 42" MasterPlan Wastewater Line Easement and the 42" MasterPlan Wastewater Line Access Easements to the City in Approved Form simultaneously with submittal of draft construction plans for the 42" MasterPlan Wastewater Line Segment. The Developer shall Complete (or cause Completion of) or post fiscal surety for the 42" MasterPlan Wastewater Line Segment within the relevant portion of the 42" MasterPlan Wastewater Line Easement before and as a condition of the City's approval of the first final plat for any portion of the Land.

9.05.02. **Location Relative to Stream Buffer Areas**. The 42" MasterPlan Wastewater Line Segment may be installed within the Stream Buffer Area, roughly parallel to Berry Creek, as long as it is installed on the side of Berry Creek opposite any spring and is installed no closer than 25 feet from the bank

of Berry Creek; and provided further it shall not cross a stream associated with a spring within the Stream Buffer Area.

9.05.03. **Wastewater Impact Fee Credit**. The City acknowledges that the 42″ MasterPlan Wastewater Segment is a larger diameter than would be needed to provide Wastewater Service to only the Land, and that the line is included in the City's current Wastewater Impact Fee Study. Therefore, if Developer Completes (or causes completion of) the 42″ MasterPlan Wastewater Line Segment when and as required by this Agreement and at no cost to the City, as consideration for same, commencing after final acceptance by the City of the 42″ MasterPlan Wastewater Line Segment and the City's written approval of the Wastewater Impact Fee Credit Documentation (described in **Section 9.05.04**), the City shall apply the amount of the Wastewater Impact Fee Credit (calculated as described in **Section 9.05.05**) against the City's then-current, adopted Wastewater Impact Fee on a per-Connection basis for all Connections on the Land for which a final plat is recorded and after the final acceptance by the City of the 42″ MasterPlan Wastewater Line Segment. The Wastewater Impact Fee Credit is only applicable to the City's Wastewater Impact Fees payable for Connections within the Land (not Connections from Rock Bluff Ranch or elsewhere). For clarity, no Impact Fee Credits shall be granted or are allowed for construction of the South Lift Station except under the circumstances specified in **Section 9.07**.

9.05.04. **Wastewater Impact Fee Credit Documentation**. The request for Wastewater Impact Fee Credit must be supported by the Wastewater Impact Fee Credit Documentation. The "**Wastewater Impact Fee Credit Documentation**" must include the following items related to the 42″ MasterPlan Wastewater Line Segment: *(a)* copy of record drawings or as-built plans signed and sealed by the engineer who prepared the Approved Plans; *(b)* invoices or statements from the construction contractor and engineer-certified pay applications; *(c)* bills paid affidavits; and *(d)* a total dollar amount of the actual cost to construct the 42″ MasterPlan Wastewater Line Segment; and *(e)* a written, signed, and notarized statement from Developer attesting to the truth and accuracy of the submitted documentation as the actual construction costs paid (or caused to be paid) by Developer for the 42″ MasterPlan Wastewater Line Segment. Developer agrees to cooperate with the City on its review of the submitted information and agrees to provide additional information and documentation as reasonably necessary for the City to complete its review.

9.05.05. **Amount of Available Wastewater Impact Fee Credit**. The amount of the Wastewater Impact Fee Credit *(a)* shall be given only for the portion of the Wastewater Impact Fee attributable to the design and construction of the 42″ MasterPlan Wastewater Line Segment, but not for the portion of the Wastewater Impact Fee attributable to treatment costs, land costs, or any other costs, fees, or expenses; and (*b*) shall not exceed the actual, documented, design and construction cost of Completing the 42″ MasterPlan Wastewater Line Segment supported by the Wastewater Impact Fee Credit Documentation approved in writing by the City; and *(c)* shall not be given after the date that is twenty (20) years after the Effective Date. Under no circumstances shall the City be required to grant the Wastewater Impact Fee Credit if actual costs for construction of the 42″ MasterPlan Wastewater Line Segment are not documented by Developer and provided to the City, or to increase the amount of the Wastewater Impact Fee Credit, or to increase the period during which it is available.

9.06. **Special Provisions Related to City's Northlands WWTP Force Main Easement**. To facilitate construction of the City's Northlands WWTP, Developer agrees to grant and convey (or cause grant and conveyance) to the City, at no cost to the City, the City's Northlands WWTP Force Main Easement in Approved Form. Developer agrees that no surface improvements of any kind are permitted within the referenced easement area (with the exception of the Emergency Vehicle Access Roads) – this prohibition includes, without limitation, fences, sheds, pools, accessory dwelling units, carports, hardscaping, and landscaping. Conveyance shall be in accordance with **Article 11** and the Conveyance Documentation shall be submitted to the City Attorney within ninety (90) days after Peregrine Closing Date (which must occur before the Peregrine Closing Deadline and the 60-Day Deadline) and provided a copy of the recorded deed evidencing such acquisition to the City Attorney on or before the Peregrine Closing Date.

9.07. **Special Provisions Relating to South Lift Station Site**. Developer shall grant and convey, or cause to be granted and conveyed, via the South Lift Station Deed to the City at no cost to the City the South Lift Station Site before and as a condition of the City's approval of a final plat containing the first Lot that will receive Wastewater Service via the South Lift Station. Conveyance shall be in accordance with **Article 11**.

9.08. **City as Exclusive Wastewater Service Provider/On-Site Septic Systems Prohibited**. The City shall not approve any preliminary or final plat or any other development or plan review application for any portion of the Land that is to be

served by on-site sewage facilities (septic systems), it being the intent of the Parties that Wastewater Service be provided to the Land solely via the City's collectivized wastewater system.

9.09. **Special Provisions Relating to Over-Sizing of the South Lift Station**. Except as otherwise stated in this Section, the South Lift Station shall be designed and Completed with the capacity required to serve the Land and Rock Bluff Ranch (the "**Developer Size**"). If, and only if, at the time of submittal of construction plans for the South Lift Station: (**a**) the South Lift Station is (*i*) included as a project in the capital improvements plan accompanying the City's adopted wastewater impact fee; and (*ii*) is included at a size larger than the Developer Size (the "**Impact Fee Size**"); and (**b**) the City consents to construction of the South Lift Station at the Impact Fee Size, as reflected in the Approved Plans for the South Lift Station requiring the South Lift Station to be designed and Completed at the Impact Fee Size rather than at the Developer Size, (**c**) Developer Completes construction of the South Lift Station at the Impact Fee Size on or before the deadline to Complete the South Lift Station set forth in Agreement , then Impact Fee Credits shall be granted and allowed for the entirety of the design and construction costs associated with the Impact Fee Size South Lift Station subject to the same requirements, limitations and conditions described in **Sections 9.05.03, 9.05.04 and 9.05.05**. For clarity, nothing in this Agreement: *(i)* requires Developer to Complete the South Lift Station at a size larger than the Developer Size; therefore, no Impact Fee Credits shall be granted or are allowed for the construction of the South Lift Station if sized only for the Land and Rock Bluff Ranch; or *(ii)* waives the protections afforded to Developer under TLGC Section 212.904 in the event the City requires oversizing of the South Lift Station.

ARTICLE 10. WATER SERVICE

10.01. **Provision of Water Services**. Subject to Developers' timely Completion of the Water Improvements, timely payment of Water Impact Fees, and to the other the terms and conditions of this Agreement, the City shall provide Water Service to the Land in a quantity up to 1,900 SUEs as necessary to serve demands within the Land as Development progresses. Upon the request(s) of the City, the Developer shall provide an estimate of projected home sales for the ensuing three (3) years to assist the City in its planning. The City will issue "will-serve" letters from time to time as requested addressing the City's ability to provide retail Water Service to the Land in accordance with this Agreement and other applicable law. After annexation of the Land into the corporate limits of the City, the City shall provide retail Water Service to customers on the Land on the same terms and

conditions applicable the City's other retail water customers located inside the City limits, including but not limited to payment of Water Impact Fees and water rates.

10.02. **Approval of Conceptual Water Plan**. The City hereby approves the Conceptual Water Plan attached to this Agreement as ***Exhibit F***.

10.03. **Water Service Infrastructure and Impact Fee Conditions**.

10.03.01. **Completion Required**. Developer shall Complete, or cause to be Completed, the Major Water Improvements and the Internal Water Improvements when and as required by the Governing Regulations.

10.03.02. **Water Service to Connections in Pressure Zone 1065**. Water Service to Connections on the Land in Pressure Zone 1065 shall be provided via Pressure Zone 1065 Major Water Line No. 1 and Pressure Zone 1065 Major Water Line No. 2, as shown on the Conceptual Water Plan. The Pressure Zone 1065 Major Water Line must be designed and Completed so that there are no more than 500 Connections between each isolation valve.

10.03.03. **Water Service to Connections in Pressure Zone 1178**. Water Service to Connections on the Land in Pressure Zone 1178 shall be provided via the Pressure Zone 1178 Major Water Line. The Pressure Zone 1178 Major Water Line must be designed and Completed so that there are no more than 500 Connections between each isolation valve.

10.03.04. **Payment of Water Impact Fees Required**. Water Impact Fees shall be calculated, assessed and collected when and in the amount specified in Chapter 13.32 of the City's Code of Ordinances.

10.04. **Release of Easement**. The City agrees to record a release of the easement recorded at Volume 790, Page 580 as Document No. 198010005DA (Volume 2168, Page 44) of the Official Public Records of Williamson County, Texas, previously conveyed to Chisholm Trail Water Supply Corporation by Mrs. Florence Y. Wray on March 21, 1980 that encumbers the Land (the "CTWSC Easement") on the condition that Peregrine or FCL convey, or cause to be conveyed, replacement easements in Approved Form to the City for any City facilities or improvement currently located within the CTWSC Easement. The City agrees to assist in determining the existence and location of existing City facilities or improvements within the CTWSC Easement. The City shall provide a copy of the recorded

release of the CTWSC Easement to Peregrine and FCL within twenty (20) days after recordation of the replacement easements, if any.

10.05. **Special Provisions Regarding City's Ronald W. Reagan Blvd. Water Line Easement**. Developer agrees to grant and convey, or cause to be granted and conveyed, to the City, at no cost to the City, the City's Ronald W. Reagan Blvd. Water Line Easement, in Approved Form within ninety (90)days after receipt of written notice from the City. Conveyance shall be in accordance with **Article 11**.

10.06. **District Rules Regarding Water Conservation and Drought Management**. If a District adopts orders, rules or regulations regarding water conservation and drought management, said orders, rules, or regulations must be consistent with and at least as stringent as the City's requirements in City Code of Ordinances Chapters 13.15 and 13.16.

10.07. **Ornamental Water Features**. Construction of ornamental water features is prohibited on the Land. If naturally occurring, no City-provided water may be used to fill or refill an Ornamental Water Feature, or to operate a fountain.

10.08. **Landscaping**. All landscaping (including but not limited to plant selection, sod restrictions, soil depth, and irrigation) must meet the requirements in the UDC.

10.09. **Special Provisions Relating to Over-Sizing of Major Water Improvements**. Except as otherwise stated in this Section, the Major Water Improvements shall be designed and Completed with capacity sufficient to serve only the Land and Rock Bluff Ranch at full build out (the "**Developer Size**"). If, and only if, at the time of submittal of the construction plans for a Major Water Improvement: (**a**) the Major Water Improvement is (*i*) included as a project in the capital improvements plan accompanying the City's adopted water impact fee; and (*ii*) is included at a size larger than the Developer Size (the "**Impact Fee Size**"); and (**b**) the City consents to construction of a Major Water Improvement at the Impact Fee Size, as reflected in the Approved Plans the Approved Plans for the Major Water Improvement requiring the Major Water Improvement to be designed and Completed at the Impact Fee Size rather than at the Developer Size, and (**c**) Developer Completes the Major Water Improvement at the Impact Fee Size when and as required by this Agreement, then water impact fee credits or reductions shall be granted and allowed for the entirety of the design and construction costs associated with the Impact Fee Size Major Water Improvement, subject to the same requirements, limitations and conditions described in **Sections 9.05.03, 9.05.04 and 9.05.05**. For clarity, nothing in this Agreement: *(i)* requires

Developer to Complete the Major Water Improvements at a size larger than the Developer Size; therefore, no Impact Fee Credits shall be granted or are allowed for the construction of the Major Water Improvements if sized only for the Land and Rock Bluff Ranch; or *(ii)* waives the protections afforded to Developer under TLGC Section 212.904 in the event the City requires oversizing of a Major Water Improvement.

ARTICLE 11. DEDICATIONS AND CONVEYANCES

11.01. **Internal Utility Easements**. Developer shall, at no cost to the City, grant and convey (or cause grant and conveyance of) Internal Utility Easements for the Internal Wastewater Improvements and the Internal Water Improvements. All Internal Utility Easements must be *(i)* in Approved Form, *(ii)* sized per the requirements of this Agreement, and *(iii)* located generally where shown on the relevant Conceptual Plan. An Internal Utility Easement may overlap with or be within a ROW but only with the City's prior written consent, as evidenced by the City's signature on the relevant Approved Plan and the relevant Approved Form.

11.02. **42" MasterPlan Wastewater Line Easement**. Developer shall, at no cost to the City, grant and convey (or cause grant and conveyance of) the 42" MasterPlan Wastewater Line Easement when required by **Section 9.04.01** of this Agreement. The 42" MasterPlan Wastewater Line Easement must be *(i)* in Approved Form; *(ii)* sized per the requirements of this Agreement; and *(iii)* located generally where shown on the Conceptual Wastewater Plan. The 42" MasterPlan Wastewater Line Easement may not overlap with or be within a ROW, a public utility easement, or any other easement.

11.03. **Other Easements**.

11.03.01. **General**. Developer or a District, if permitted under applicable law, shall, at no cost to the City, obtain the Pressure Zone 1178 Major Water Line Off-Site Segment Easement and the Emergency Vehicle Access Easement, and temporary construction easements necessary for the construction of same and where it is not feasible to utilize existing City ROW or City easements.

11.03.02. **Water and Wastewater**. The easements for the Water Improvements and the Wastewater Improvements each shall *(i)* be sized per the requirements of this Agreement; *(ii)* be at the correct elevation to connect with the City's existing relevant lines; and *(iii)* be located generally where shown on the Conceptual Water or Wastewater Plan attached hereto. In addition, no other

public utility easement of any kind for the benefit of any non-City service provider (including but not limited to electric service easements) are allowed in, under, over, or across any easement for a Water Improvement or a Wastewater Improvement without the City's prior written approval, which may be granted or withheld in the City's sole discretion, and if approved reflected in a License to Encroach in Approved Form. Any temporary construction easements and the Access Easement shall be in widths and locations reasonably acceptable to the City. The City agrees that whenever feasible from an engineering and operational perspectives, as determined in the City's sole discretion, the Water Improvements and Wastewater Improvements may be constructed within a City ROW (but not a County or State ROW) or existing City easements in lieu of acquisition of new easements in Approved Form. By way of example and without limitation, the Pressure Zone 1178 Major Water Line Off-Site Segment shall be located in the City's existing ROW for Silver Spur Blvd. to the maximum extent practicable.

11.04. **Internal Transportation Improvements**. All Internal Transportation Improvements shall be dedicated to the City, at no cost to the City, in the manner required by the UDC.

11.05. **Primary Park and Community Parks**. All dedications and conveyances to the City of the Primary Park (the portion thereof that is outside of any floodplain), and the Community Parks shall be in accordance with UDC Section 13.08.050.

11.06. **South Lift Station Site Deed**. Developer must submit (or cause submission of) the Conveyance Documentation for the South Lift Station Site not later than simultaneously with submittal of draft construction plans for the Major Wastewater Improvements necessary for the City to provide Wastewater Service to Phase 1 or Phase 6 via the City's Northlands WWTP.

11.07. **Other Conveyances**. For any easements located, or to be located, wholly within the boundaries of the Land, all such easements shall be conveyed to the Governmental Authority, District, or HOA responsible for ownership and maintenance of the improvement to be placed therein prior to and as a condition of the City's approval of a final plat for any portion of the Land where such easements are located, or to be located, unless an earlier date is specified in this Agreement.

11.08. **Conveyance Documentation**. At least sixty (60) Days prior to the deadline for conveying or dedicating any interest in property to the City, Developer will provide, or cause to be provided, the applicable Conveyance Documentation to

the City. All conveyance and dedication instruments must be in the applicable Approved Form, as evidenced by the City Attorney's signature on the recordable instrument. The City is not required to accept conveyances or dedications that are not on the appropriate Approved Form or assignments of private easements.

11.09. **Transfers of Improvements**. All transfers of improvements will include transfers of warranties, bonds, and guarantees associated with the transferred improvements, and the form of transfer or assignment and assumption agreement shall be subject to approval by the City, which shall not be unreasonably withheld. Developer shall maintain and repair all improvements until transferred to the City, a District, or the HOA, as applicable.

11.10. **Encumbrances and Liens**. If the Conveyance Documentation includes an ownership and lien affidavit and the affidavit shows a lien or other monetary encumbrance which affects and encumbers all or any portion of the area being conveyed or dedicated to the City, Developer shall cause the holder of such lien or other monetary encumbrance to provide a consent of lienholder in connection with the Conveyance Documentation that subordinates such lien or other monetary encumbrance as per the applicable Approved Form.

11.11. **Costs**. The costs incurred to obtain, grant and convey easements and deeds and to grant Licenses to Encroach (defined in **Section 11.15**) (including costs of acquisition, recording, and preparation of the Conveyance Documentation and costs of issuing title policies required by this Agreement) are the responsibility of Developer, but are reimbursable by a District.

11.12. **Title Policies**. If the Conveyance Documentation includes a title commitment, Developer will provide title insurance for the area to be conveyed or dedicated, as applicable, in an amount approved by the City Attorney and will cause the consent of lienholder or subordination of any liens or other monetary encumbrances reflected on the commitment before the area is conveyed or dedicated to the City. Only the standard pre-printed exceptions and any non-monetary encumbrances approved in advance and in writing by the City Attorney will be reflected on a title policy.

11.13. **Access Easements – Generally**. If no public road exists providing access to Public Infrastructure when the applicable easement or deed, as applicable, is granted, an a temporary and/or permanent Access Easement, in a location and of a size determined by the City during the City's review and approval of construction plans and final plat sufficient to allow the City and its authorized agents to access the applicable improvement via an Access Road within an Access

Easement until such time, if any, as a public road providing such access is Complete. Each temporary Access Easement will be released by the City as each portion thereof is included within a recorded permanent Access Easement in Approved Form or Completed ROW shown on a recorded plat.

11.14. **Access Easements – Regional Trail**. Developer shall provide Access Easements in Approved Form and construct therein Access Roads in accordance with Approved Plans so as to provide means for the City to have vehicular access the Regional Trail from at least one Completed road on the Land so the City can maintain the Regional Trail. Such Access Easements must be included in the Conveyance Documentation for the Regional Trail, and the Access Roads must be Completed simultaneously with Completion of the Regional Trail (or section thereof, if the Regional Trail is constructed in sections). If and when vehicular access to the entirety of the Regional Trail is provided via a Completed public road, the Access Easements will be released by the City.

11.15. **Licenses to Encroach**. Developer may request authorization under City Code of Ordinances Sections 12.08 (ROW Permit) and 12.09 (License to Encroach), and Section 3.23 of the UDC (License to Encroach) (as applicable) (each, for purposes of this Agreement, a "**License to Encroach**") to allow perpendicular crossings of City easements or other City property. Each License to Encroach will be in Approved Form. However, with the exception of the License to Encroach for landscape improvements to be constructed or installed by Developer within the ROW for the Yearwood Minor Arterial Road, nothing in this Agreement or a Related Document obligates the City to approve any request for a License to Encroach.

11.16. **Possible City Assistance with Acquisition of Offsite Easements**. Developer and the District shall each use commercially reasonable efforts to obtain any offsite easements required for the construction of any facilities required to be constructed by Developer or such District under this Agreement. If Developer and the District are unable to obtain any such easements after using good faith efforts to do so (including based on a determination by a District's condemnation counsel that the District does not have the authority to condemn the real property), Developer and the District may request the City to use the City's powers of eminent domain to acquire the easement(s) at no cost to the City. The City shall use its best efforts to acquire the easements, using the City's powers of eminent domain if necessary, at Developer's sole cost and expense and no cost to the City.

On receipt of a valid request for the City's acquisition assistance, the City shall provide a preliminary written estimate to Developer of projected costs and expenses related to acquisition of the easements by eminent domain. Developer or a District shall provide payment in the full amount of the written estimate to the City within thirty (30) days after receipt of the written estimate. Developer or a District shall pay all costs and expenses incurred by the City relating to the acquisition of the offsite easement(s), including, without limitation, costs of negotiating easements with landowners, preparation of easement instruments and surveys, payment of a negotiated sum for purchase of an easement, and purchase or condemnation costs incurred by the City, including any litigation related thereto (including all actual legal fees, witness costs, and court costs). In the event that the actual costs of easement acquisition exceed the original cost estimate, Developer shall provide payment of the additional amount within fifteen (15) days of receipt of a written request for payment from the City. In the event that the actual costs of easement acquisition are less than this sum, the City shall promptly refund the excess amount to Developer or the District, as appropriate.

ARTICLE 12. TERM AND ASSIGNMENT

12.01. **Term**. The term of this Agreement shall commence on the Effective Date and shall continue until *(i)* the date this Agreement becomes null and void or is terminated for the reasons described in Article 3, Article 13 or as otherwise provided herein or allowed by law, or *(ii)* the date this Agreement is terminated in writing by mutual agreement of the Parties; provided, however, the consent of Yearwood shall not be required after Peregrine acquires the Land from Yearwood, and provided, further, that the consent of Peregrine shall not be required after FCL acquires the Land from Peregrine.

12.02. **Assignment**.

12.02.01. **By the City**. The City may only assign this Agreement with the written consent of the Districts and of Developer, provided however, that the consent of Developer is not needed if Developer does not own developable portions of the Land at the time of the assignment.

12.02.02. **By a District**. The Original District may only assign this Agreement to a District created by division of the Original District. A District created by division of the Original District, may only assign this Agreement to the Original District or another District created by division of the Original District.

Prior consent of the City Council is not required for inter-District assignments, but a copy of the executed assignment and assumption agreement(s) must be provided to the City within fifteen (15) days after full execution.

12.02.03. **By Yearwood.** Yearwood may only assign this Agreement to Peregrine or FCL. No other assignments by Yearwood are permitted.

12.02.04. **By Peregrine or FCL**. Peregrine or FCL may assign this Agreement as provided in **Section 12.02.04(a)** or **12.02.04(b)**, and not otherwise.

(a) Peregrine or FCL may assign this Agreement, in whole or in part, and include any obligation, right, title or interest of theirs under this Agreement: (1) to a District; or (2) to an Assignee, *provided that* as to any such assignment by Peregrine or FCL, the following eight (8) conditions are first satisfied:

(1) the City Council has given its prior written consent to a written assignment and assumption agreement describing the rights and obligations of Developer and a District or proposed Assignee;

(2) if to an Assignee who is not a District, the proposed Assignee either is a successor owner of all or any part of the Land or is a Lender to a successor owner of all or any part of the Land;

(3) if to an Assignee who is not a District, the proposed Assignee has a contractual right to be reimbursed for water, sewer, road or drainage improvements from Bonds (or has a lien or other security interest in such reimbursements);

(4) the assignment documents include an assignment to the City by the proposed Assignee of its rights to reimbursement from Bond issued by a District in the amount of the Interlocal Agreement Costs;

(5) the assignment is in writing executed by Developer , a District, or proposed Assignee, and consented to in writing by the City Council, which consent will not be unreasonably withheld;

(6) a District or proposed Assignee expressly assumes in the assignment all assigned obligations and expressly agrees in the assignment to observe, perform, and be bound by this Agreement to the extent this Agreement relates to the obligations, rights, titles, or interests assigned;

(7) the assigning Developer is then in compliance with all terms and conditions of this Agreement and the Related Documents; and

(8) a copy of the executed assignment and assumption agreements are provided to all Parties within fifteen (15) days after its full execution.

Provided all of the foregoing conditions are satisfied, from and after the date an assignment is executed by Developer and a District or Assignee and approved by the City Council, the City agrees to look solely to the District or Assignee for the performance of all obligations assigned to the District or Assignee and agrees that the assigning Developer shall be released from performing the assigned obligations and from any liability that results from the District's or Assignee's failure to perform the assigned obligations. No assignment by a Developer shall release that Developer from any liability that resulted from an act or omission by the Developer that occurred prior to the effective date of the assignment.

(b) **To the HOA**. Developer may only assign ownership and/or maintenance obligations relating to the District Areas/Improvements to the HOA, and only on demonstrating to the City's reasonable satisfaction that the HOA has sufficient funds, and ongoing funding mechanisms, to perform the delegated obligations, and only after execution of a Maintenance Agreement relating to the assigned obligations.

12.02.05. **Written Records**. The assigning Developer Party shall maintain written records of all assignments made by it (including, for each Assignee, the notice information required by this Agreement and a copy of each executed assignment) and shall provide a copy of such records to the City.

12.02.06. **Attempted Assignments Void**. Any assignment or attempted assignment by a Party that is not in conformance with **Section 12.02** of this Agreement is void and shall have no force or effect.

12.03. **Effect of Foreclosure**. It is specifically intended that this Agreement, and all terms, conditions and covenants herein, shall survive a transfer, conveyance, or assignment occasioned by the exercise of foreclosure of lien rights by a Lender or creditor or a Party, whether judicial or non-judicial. This Agreement shall be binding upon and inure to the benefit of the Parties and their respective successors and assignees.

12.04. **Effect on End Buyers**. This Agreement is not binding on and does not create any encumbrance to title as to any End Buyer *except* each End Buyer must comply, at a minimum, with the PUD Ordinance and the Additional Land Development Standards.

12.05. **No Liability for Actions of Others**. Except as expressly set forth herein: *(a)* the liabilities, obligations and responsibilities of each owner of the Land or any portion thereof, their successors and assigns, under this Agreement are several, and not joint; and *(b)* no owner of the Land or any portion thereof, or successor or assign, will be in default under this Agreement or otherwise liable or responsible for any default which is not caused by such landowner or by any person acting by, through or under such owner or successor or assign.

ARTICLE 13. DEFAULT AND REMEDIES

13.01. **General**. In the event of default by any Party (a "**Defaulting Party**"), any non-defaulting Party shall give the Defaulting Party written notice specifying the default (a "**Default Notice**"). If the Defaulting Party fails to fully cure any default that can be cured by the payment of money ("**Monetary Default**") within thirty (30) Days of the date of the Default Notice, or fails to commence the cure of any default specified in the Default Notice that is not a Monetary Default (a "**Non-Monetary Default**") within thirty (30) Days of the date of the Default Notice and complete such cure within ninety (90) Days of the date of the Default Notice (or such longer period the non-Defaulting Parties may mutually agree in writing is reasonable), then the other Party(ies) shall be entitled to a proper writ issued by a court of competent jurisdiction compelling and requiring the Defaulting Party to observe and perform the covenants, obligations and conditions described in this Agreement and/or seek any relief available at law or in equity; *provided, however*, the Parties agree that damages, if any, to which any complying Party may be entitled for a Non-Monetary Default shall not include monetary damages of any kind or amount.

13.02. **Developer Default**. In addition, if Developer is the Defaulting Party, *(i)* the City shall not be obligated to accept, review, or approve any Development applications related to the Land until Developer has cured the default; *(ii)* a District may not pay proceeds from Bonds to a Developer until the Developer has cured the default but instead such District shall retain all such proceeds payable to a Developer pending cure (a District can issue Bonds and pay the proceeds from the Bonds to the City as an installment of the Interlocal Agreement Costs without regard to the default); *(iii)* the City shall have all rights to enjoin the payment of

Bond proceeds to a Developer until the default or breach is cured, and *(iv)* a Developer shall not enter into any agreements with a District or seek reimbursement from a District for any expenses incurred in connection with a District or the Development of the Land until the default or breach has been cured.

ARTICLE 14.MISCELLANEOUS

14.01. **Cooperation**. The Parties shall cooperate with each other as reasonably necessary to carry out the intent of this Agreement, including but not limited to the execution of such further documents as may be reasonably necessary.

14.02. **Filings**. The Parties agree that, for the purposes of Chapter 212 of the TLGC, a plan or plat for all or any part of the Land is deemed to be filed when the application for said plat or plan includes all information required by, and is in compliance with, the Governing Regulations. No Development-related application will be accepted by the City if a material event of default exists with regard to this Agreement or a Governing Regulation as of the filing date of such application.

14.03. **Notice**. Any notice given under this Agreement must be in writing and may be given: *(i)* by depositing it in the United States mail, certified, with return receipt requested, addressed to the party to be notified and with all charges prepaid; or *(ii)* by depositing it with Federal Express or another delivery service guaranteeing "next day delivery," addressed to the Party to be notified and with all charges prepaid; or *(iii)* by personally delivering it to the Party, or any agent of the Party listed in this Agreement. Notice by United States mail will be effective on the earlier of the date of receipt or three (3) days after the date of mailing. Notice given in any other manner will be effective when received. For purposes of notice, the addresses of the Parties, until changed as provided below, will be as follows:

The Parties may change their respective addresses to any other address within the United States of America by giving at least five (5) days' written notice to the other parties. Developer and the District may, by giving at least five (5) days' written notice to the City, designate additional Parties to receive copies of notices under this Agreement.

14.04. **Severability; Waiver**.

14.04.01. If any provision of this Agreement is illegal, invalid, or unenforceable, under present or future laws, it is the intention of the Parties that the remainder of this Agreement not be affected, and, in lieu of each illegal, invalid, or unenforceable provision, that a provision be added to this Agreement by agreement of the Parties that is legal, valid, and enforceable and is as similar in terms to the illegal, invalid or enforceable provision as is possible.

14.04.02. Any failure by a party to insist upon strict performance by the other party of any material provision of this Agreement shall not be deemed a waiver thereof or of any other provision, and such party may at any time thereafter insist upon strict performance of any and all of the provisions of this Agreement.

14.05. **Applicable Law and Venue**. The interpretation, performance, enforcement and validity of this Agreement are governed by the laws of the State of Texas. Venue shall be in a court of appropriate jurisdiction in Williamson County, Texas.

14.06. **Entire Agreement**. This Agreement (including the Exhibits to this Agreement), collectively contain the entire agreement of the Parties as to the subject matters addressed herein.

14.07. **Amendments**. This Agreement may be amended only by mutual written agreement of the City Council and the owner of the portion of the Land affected by the amendment; *provided that (i)* no amendment may be made without Peregrine's consent for so long as the Land is under contract to be sold by Yearwood to Peregrine, *(ii)* no amendment may be made without FCL's consent

for so long as the Land is under contract to be sold by Peregrine to FCL, and *(iii)* no consent from any End Buyer to an amendment to this Agreement is required.

14.08. **Exhibits, Headings, Construction and Counterparts**. All Exhibits referred to in or attached to this Agreement are incorporated into and made a part of this Agreement for all purposes. The Section headings contained in this Agreement are for convenience only and do not enlarge or limit the scope or meaning of the Sections. Wherever appropriate, words of the masculine gender may include the feminine or neutral, and the singular may include the plural, and vice versa. The Parties acknowledge that each of them has been actively and equally involved in the negotiation of this Agreement. Accordingly, the rule of construction that any ambiguities are to be resolved against the drafting party shall not be employed in interpreting this Agreement or any Exhibits hereto.

14.09. **Counterparts**. This Agreement may be executed in any number of counterparts, each of which shall be deemed to be an original, and all of which shall together constitute the same instrument. This Agreement shall become effective only when one (1) or more counterparts, individually or taken together, bear the signatures of all of the Parties.

14.10. **Time**. Time is of the essence of this Agreement. In computing the number of days for purposes of this Agreement, all days will be counted, including Saturdays, Sundays and legal holidays; however, if the final day of any time period falls on a Saturday, Sunday or legal holiday, then the final day will be deemed to be the next day that is not a Saturday, Sunday or legal holiday.

14.11. **Certification Regarding Boycotting Israel**. Pursuant to Chapter 2271, Texas Government Code, the Parties certify that they *(1)* do not currently boycott Israel; and *(2)* will not boycott Israel during the term of this Agreement. The Parties acknowledge this Agreement may be terminated and payment withheld if this certification is inaccurate.

14.12. **Certification Regarding Business with Certain Countries and Organizations**. Pursuant to Subchapter F, Chapter 2252, Texas Government Code, the Parties certify they are not engaged in business with Iran, Sudan, or a foreign terrorist organization. They acknowledge this Agreement may be terminated and payment withheld if this certification is inaccurate.

14.13. **Certification Regarding Boycotting Energy Companies**. Pursuant to Chapter 809, Texas Government Code, the Parties certify that they do not currently boycott energy companies and will not boycott energy companies during the Term

of this Agreement. They acknowledge this Agreement may be terminated and payment withheld if this certification is inaccurate.

14.14. **Certification Regarding Boycotting Firearm and Ammunition Industries**. Pursuant to Chapter 2274, Texas Government Code, the Parties certify that they do not currently boycott firearm and ammunition industries and will not boycott firearm and ammunition industries during the Term of this Agreement. They acknowledge this Agreement may be terminated and payment withheld if this certification is inaccurate.

14.15. **Exhibits**. The following Exhibits are attached to this Agreement, and made a part hereof for all purposes:

Exhibit A-1	Land – Metes and Bounds
Exhibit A-2	Land – Location Map (also showing location of Rock Bluff Ranch)
Exhibit B	Additional Land Development Standards
Exhibit C	Northlands WWTP Force Main Easement
Exhibit D	Ronald W. Reagan Blvd. Water Line
Exhibit E	Conceptual Wastewater Plan
Exhibit F	Conceptual Water Plan
Exhibit G	Conceptual Parks and Open Space Plan
Exhibit H	Conceptual Transportation Plan
Exhibit I	Street Spacing and Connectivity Plan
Exhibit J	Form of Maintenance Agreement
Exhibit K	Phasing Plan
Exhibit L	Regional Trail Specifications
Exhibit M	(intentionally deleted)
Exhibit N	TIF Offset Documentation
Exhibit O	Yearwood Arterial ROW Exhibit
Exhibit P	Conceptual Land Use Plan
Exhibit Q	Tree Mitigation Calculation Form
Exhibit R	Conceptual Wall and Fencing Plan
Exhibit S	Street Sections

14.16. **Effectiveness as to Parties**. This Agreement is effective as to the Initial Parties on the Effective Date. This Agreement is effective as to the Original District when approved by the Board of Directors of the Original District, which is to be at the first organizational meeting of the Original District held after the District Creation Date. This Agreement is effective as to the Districts (other than the Original District) when an assignment of this Agreement to the applicable District

is approved by such District's Board of Directors at an organizational meeting following creation of the applicable District in accordance with **Section 3.11**.

14.17. **Recording**. This Agreement shall be recorded in the Official Records of Williamson County, Texas, at Developer's cost and expense, immediately after the Effective Date.

14.18. **Party Matters**. Notwithstanding any provision herein to the contrary, Yearwood shall no longer be a party to this Agreement for any purpose after conveyance of the Land by Yearwood to Peregrine, and Peregrine shall no longer be a party to this Agreement for any purpose after conveyance of the Land by Peregrine to FCL unless otherwise agreed by Peregrine and FCL.

Legal Description

BEING A DESCRIPTION OF A TRACT OF LAND CONTAINING 728.3636 ACRES (31,727,520 SQUARE FEET) OF LAND, MORE OR LESS, SITUATED IN THE LEMUEL S. WALTERS SURVEY, ABSTRACT NO. 282 AND THE FREDERICK FOY SURVEY, ABSTRACT NO. 229, BOTH OF WHICH IN WILLIAMSON COUNTY, TEXAS, BEING ALL OF A CALLED 99.60 ACRE TRACT OF LAND DESCRIBED AS "TRACT I" CONVEYED TO PIA CAPITAL, LLC – SERIES TRACT I IN DOCUMENT NO. 2020163208, OFFICIAL PUBLIC RECORDS OF WILLIAMSON COUNTY, TEXAS (O.P.R.W.C.T.), BEING ALL OF A CALLED 532.54 ACRE TRACT OF LAND DESCRIBED AS "TRACT II" CONVEYED TO PIA CAPITAL, LLC – SERIES TRACT II IN DOCUMENT NO. 2020163208 (O.P.R.W.C.T.), AND BEING ALL OF A CALLED 96.40 ACRE TRACT OF LAND DESCRIBED AS "TRACT 4" CONVEYED TO JOHN F. YEARWOOD AND PRISCILLA S. YEARWOOD IN DOCUMENT NO. 2020163061 (O.P.R.W.C.T.), SAID 728.3636 ACRES BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING, at a 1/2-inch iron rod with "5784" cap found at the intersection of the southwest right-of-way line of Rattlesnake Road (right-of-way varies), and the northwest right-of-way line of Ronald Reagan Boulevard (right-of-way varies), being the northwest corner of a called 5.94 acre tract of land conveyed to Williamson County, Texas in Document No. 2008057931 (O.P.R.W.C.T.), being the easternmost corner of said 532.54 acre tract, for the easternmost corner and **POINT OF BEGINNING** hereof;

THENCE, leaving the southwest right-of-way line of said Rattlesnake Road, with the northwest right-of-way line of said Ronald Reagan Boulevard and the southeast line of said 532.54 acre tract, **S43°27'05"W**, a distance of **1,013.88** feet to a 1/2-inch iron rod with "5784" cap found for an angle point in the northwest right-of-way line of said Ronald Reagan Boulevard, being the northeast corner of a called 14.521 acre tract of land conveyed to Five Star Concrete, LLC in Document No. 2022199489 (O.P.R.W.C.T.), being an angle point in the northwest line of a called 17.72 acre tract of land conveyed to Williamson County, Texas in Document No. 2009083183 (O.P.R.W.C.T.), being an angle point in the southeast line of said 532.54 acre tract and for an angle point hereof;

THENCE, leaving the northwest right-of-way line of said Ronald Reagan Boulevard, in part with the common line of said 532.54 acre tract, said 14.521 acre tract and the remainder of a called 36.909 acre tract conveyed to Grace Eva Properties, LLC in Document No. 2021050701 (O.P.R.W.C.T.), the following seven (6) courses and distances:

1) **S61°06'16"W**, a distance of **7.41** feet to a 1/2-inch iron rod with "5784" cap found for an angle point hereof;
2) **S68°30'13"W**, a distance of **371.73** feet to a 1/2-inch iron rod with an illegible cap found for an angle point hereof;
3) **S68°35'07"W**, a distance of **511.56** feet to a 1/2-inch iron rod with an illegible cap found for an angle point hereof;

4) **S68°34'03"W**, passing at a distance of 130.56 feet, a 1/2-inch iron rod with "Maples RPLS 5043" cap found, passing at a distance of 410.83 feet, a 1/2-inch iron rod with "Maples RPLS 5043" cap found, passing at a distance of 712.16 feet, a 1/2-inch iron rod with "5367" cap found for the common north corner of said 14.521 acre tract and said remainder of a called 36.909 acre tract, continuing in all a distance of **890.61** feet to a 1/2-inch iron rod with an illegible cap found for an angle point hereof;
5) **S69°07'45"W**, a distance of **548.04** feet to a 1/2-inch iron rod with "5043" cap found for an angle point hereof;
6) **S47°49'17"W**, a distance of **10.47** feet to a 1/2-inch iron rod with "1847" cap found for an angle point hereof;
7) **S12°05'08"E**, a distance of **269.18** feet to a 1/2-inch iron rod with an illegible cap found for and angle point in the south line of said 532.54 acre tract, being an angle point in the west line of said remainder of a called 36.909 acre tract, being the northeast corner of said 99.60 acre tract, for an angle point hereof;

THENCE, in part with the common line of said 99.60 acre tract, said remainder of a called 36.909 acre tract, and a called 19.766 acre tract of land described as "Tract 2" conveyed to Cook Tierra LLC in Document No. 2025103471 (O.P.R.W.C.T.), the following five (5) courses and distances:

1) **S32°33'43"E**, a distance of **147.28** feet to a cotton spindle found for an angle point hereof;
2) **S00°54'14"W**, passing at a distance of 116.57 feet, a 1/2-inch iron rod found for an angle point in the west line of said remainder of a called 36.909 acre tract, for the northeast corner of said 19.766 acre tract, continuing in all a distance of **284.20** feet to a 1/2-inch iron rod found for an angle point hereof;
3) **S19°14'33"W**, a distance of **582.83** feet to a 60D nail found for an angle point hereof;
4) **S27°43'45"W**, a distance of **1,397.53** feet to a calculated point for an angle point of a 50' Gas pipeline easement dedicated in Document No. 2024033023 (O.P.R.W.C.T.) and falls on the east side of the gate of a wire fence for an angle point hereof;
5) **S43°53'34"W**, a distance of **313.90** feet to a 1/2-inch iron rod found for an angle point in north right-of-way line of said Ronald Reagan Boulevard, being an angle point in the west line of said 19.766 acre tract, being an angle point in the north line of a called 11.33 acre tract of land conveyed to Williamson County, Texas and described in "Exhibit 3" in Document No. 2010006962 (O.P.R.W.C.T.), also being an angle point in the south line of said 99.60 acre tract, for a non-tangent point of curvature and southeast corner hereof;

THENCE, in part with the common line of said 99.60 acre tract, said 11.33 acre tract, a called 10.8151 acre tract of land described in "Exhibit D" conveyed to Williamson County, Texas in Document No. 2010006962 (O.P.R.W.C.T.), and the north right-of-way line of said Ronald Reagan Boulevard, along the arc of a curve to the right, whose radius is **2,870.00** feet, passing at an arc length of 1.75 feet, a 1/2-inch iron rod with "McKim & Creed" cap found for the common north corner of said 11.33 acre tract and said 10.8151 acre tract, continuing along the arc of a curve to the right whose total arc length is **682.15** feet and whose chord bears **S73°47'55"W**, a distance of **680.55** feet to a 1/2-inch iron rod with "Forest RPLS 1847" cap found for the common south corner of said 99.60 acre tract and a called 20.57 acre tract of land described as "Tract 1" conveyed to Cook Tierra LLC in Document No. 2025103471 (O.P.R.W.C.T.), for an angle point hereof;

THENCE, leaving the north right-of-way line of said Ronald Reagan Boulevard, with the common line of said 99.60 acre tract and said 20.57 acre tract, the following four (4) courses and distances:

1) **N09°25'19"W**, a distance of **88.76** feet to a 3/4" bolt found for a non-tangent point of curvature hereof;

2) Along the arc of a curve to the left, whose radius is **470.00** feet, whose arc length is **98.40** feet and whose chord bears **N15°21'06"W**, a distance of **98.22** feet to a 3/4" bolt found for an angle point hereof;
3) **N21°23'04"W**, a distance of **257.24** feet to a 1/2-inch iron rod with "Forest RPLS 1847" cap found for an angle point hereof;
4) **N81°06'53"W**, a distance of **984.27** feet to a 1/2-inch iron rod with "Forest RPLS 1847" cap found for the southeast corner of a called 12.7586 acre tract of land described in "Exhibit B" conveyed to the City of Georgetown, Texas in Document No. 2009060884 (O.P.R.W.C.T.), for an angle point hereof;

THENCE, with the common line of said 99.60 acre tract and said 12.7586 acre tract, **N24°33'34"W**, a distance of **869.44** feet to a 1/2-inch iron rod found in the south line of said 532.54 acre tract, for the common north corner of said 99.60 acre tract and said 12.7856 acre tract, for an angle point hereof;

THENCE, with the common line of said 532.54 acre tract, said 12.7586 acre tract, the following three (3) courses and distances:

1) **S67°59'41"W**, a distance of **94.57** feet to a 1/2-inch iron rod with an illegible cap found for an angle point hereof;
2) **S68°12'21"W**, a distance of **373.69** feet to a 1/2-inch iron rod with an illegible cap found for an angle point hereof;
3) **S69°20'13"W**, a distance of **142.62** feet to a 1/2-inch iron rod found for the common north corner of said 12.7586 and a called 7.2414 acre tract described in "Exhibit A" conveyed to the City of Georgetown, Texas in Document No. 2009060884 (O.P.R.W.C.T.) for an angle point hereof;

THENCE, with the common line of said 532.54 acre tract and said 7.2414 acre tract, **S69°26'25"W**, a distance of **392.49** feet to a 1/2-inch iron rod with an illegible cap found for the common north corner of said 7.2414 acre tract and Lot 103, Block A, Somerset Hills Phase B, Final Plat, a subdivision in Williamson County, Texas recorded in Document No. 2025044853 (O.P.R.W.C.T.) for an angle point hereof;

THENCE, with the common line of said 532.54 acre tract and said Lot 103, the following three (3) courses and distances:

1) **S69°25'55"W**, a distance of **1,232.39** feet to a 1/2-inch iron rod found for an angle point hereof;
2) **S69°26'39"W**, a distance of **1,038.69** feet to a 60D nail found for an angle point hereof;
3) **S68°07'57"W**, a distance of **486.46** feet to a 1/2-inch iron rod with an illegible cap found for the common north corner of said Lot 103, and a called 1.1616 acre tract of land conveyed to the City of Georgetown in Document No. 2003110378 (O.P.R.W.C.T.) for an angle point hereof;

THENCE, with the common line of said 532.54 acre tract and said 1.1616 acre tract, the following two (2) courses and distances:

1) **S67°15'39"W**, a distance of **118.60** feet to a 60D nail found for an angle point hereof;
2) **S68°46'43"W**, a distance of **146.55** feet to a 1/2-inch iron rod with "Survcon Inc" cap found for the common north corner of said 1.1616 acre tract and Lot 69, Block A, Replat of Somerset Hills Phase A, a subdivision in Williamson County, Texas in Document No. 2025044670 (O.P.R.W.C.T.) for an angle point hereof;

THENCE, with the common line of said 532.54 acre tract and said Block A, Replat of Somerset Hills Phase A, the following three (3) courses and distances:

1) **S68°00'23"W**, a distance of **347.61** feet to a 60D nail found for an angle point hereof;
2) **S68°15'20"W**, a distance of **1,104.06** feet to a 60D nail found in the top center of a 14" Cedar post found for the southwest corner hereof;
3) **N22°33'39"W**, a distance of **531.36** feet to a 40D nail found for the common east corner of Lot 35 of said Block A, Replat of Somerset Hills Phase A, and a called 1.409 acre tract of land conveyed to the City of Georgetown in Document No. 2004025917 (O.P.R.W.C.T.), for an angle point hereof;

THENCE, with the common line of said 532.54 acre tract and said 1.409 acre tract, **N22°17'48"W**, a distance of **23.49** feet to a 1/2- inch iron rod found for the common east corner of said 1.409 acre tract and Lot 3, Block Two, Whisper Wood I, a subdivision in Williamson County, Texas recorded in Cabinet I, Slides 102-103, Plat Records of Williamson County, Texas (P.R.W.C.T.), for an angle point hereof;

THENCE, with the common line of said 532.54 acre tract and said Block Two, Whisper Wood I, the following seven (7) courses and distances:

1) **N22°34'19"W**, a distance of **320.73** feet to a 1/2-inch iron rod found for an angle point hereof;
2) **N22°13'25"W**, a distance of **403.32** feet to a 1/2-inch iron rod found for the common east corner of Lot 3 and Lot 6, said Block Two, Whisper Wood I, for an angle point hereof;
3) **N20°28'53"W**, a distance of **13.84** feet to a 40D nail found for an angle point hereof;
4) **N22°05'48"W**, a distance of **331.32** feet to a 1/2-inch iron rod found for an angle point hereof;
5) **N21°52'18"W**, a distance of **305.88** feet to a 1/2-inch iron rod found for an angle point hereof;
6) **N21°21'21"W**, a distance of **39.18** feet to a 1/2-inch iron rod found for the common east corner of Lot 6 and Lot 9, said Block Two, Whisper Wood I, for an angle point hereof;
7) **N21°29'48"W**, a distance of **569.71** feet to a 60D nail found in the east line of Lot 9, said Block Two, Whisper Wood I, being the southwest corner of a portion of a called 381.90 acre tract conveyed to RBR Family Partnership, LTD. In Document No. 2012106795 (O.P.R.W.C.T.) for the northwest corner of said 532.54 acre tract and for the northwest corner hereof;

THENCE, with the common line of said 532.54 acre tract and said portion of a called 381.90 acre tract, the following two (2) courses and distances:

1) **N68°57'44"E**, a distance of **615.56** feet to a 1/2-inch iron rod found for an angle point hereof;
2) **N68°57'27"E**, a distance of **614.72** feet to a 1/2-inch iron rod found for the common south corner of said portion of a called 381.90 acre tract and a called 14.97 acre tract of land conveyed to RBR Family Partnership, LTD. in Document No. 2012106795 (O.P.R.W.C.T.), for an angle point hereof;

THENCE, with the common line of said 532.54 acre tract and said 14.97 acre tract, the following two (2) courses and distances:

1) **N69°06'12"E**, a distance of **354.73** feet to a 1/2-inch iron rod with "5781" cap found for an angle point hereof;
2) **N69°07'02"E**, a distance of **80.03** feet to a 5/8-inch iron rod found for the common south corner of said 14.97 acre tract and a called 15.00 acre tract of land described in "Exhibit A" conveyed to Richard J. Hinds and Betty A. Hinds in Document No. 2010055992 (O.P.R.W.C.T.) for an angle point hereof;

THENCE, with the common line of said 532.54 acre tract and said 15.00 acre tract, **N69°10'32"E**, a distance of **435.80** feet to a 5/8-inch iron rod found for the common south corner of said 15.00 acre tract and a called 20.00 acre tract of land conveyed to Jose E. Sanchez and Patricia Tello in Document No. 2023076488 (O.P.R.W.C.T.) for an angle point hereof;

THENCE, with the common line of said 532.54 acre tract and said 20.00 acre tract, the following three (3) courses and distances:

1) **N69°10'26"E**, a distance of **435.53** feet to a 1/2-inch iron rod found for an angle point hereof;
2) **N69°00'21"E**, a distance of **58.03** feet to a 1/2-inch iron rod found for an angle point hereof;
3) **N69°05'25"E**, a distance of **377.06** feet to a 5/8-inch iron rod found for the common south corner of said 20.00 acre tract and a called 15.00 acre tract of land described in "Exhibit A" conveyed to Marion Eugene Lamkin and Katherine L. Arnold in Document No. 2007026088 (O.P.R.W.C.T.) for an angle point hereof;

THENCE, with the common line of said 532.54 acre tract and said 15.00 acre Lamkin and Arnold tract, **N69°10'03"E**, a distance of **435.41** feet to a 1/2-inch iron rod found for the common south corner of said Lamkin and Arnold tract and a called 19.3052 acre tract of land conveyed to Alexander Rankin McMillon in Document No. 2013113652 (O.P.R.W.C.T.) for an angle point hereof

THENCE, in part with the common line of said 532.54 acre tract, said 96.40 acre Yearwood tract, said 19.3052 acre tract, and a called 122.13 acre tract of land conveyed to Jay L. Willman and Catherine M. Willman in Document No. 2023070705 (O.P.R.W.C.T.), the following nine (9) courses and distances:

1) **N69°08'40"E**, a distance of **187.55** feet to a 1/2-inch iron rod with "Forest RPLS 1847" cap found for the northwest corner of said 96.40 acre tract, for an angle point in the north line of said 532.54 acre tract and for an angle point hereof;
2) **N69°05'44"E**, passing at a distance of 426.06 feet, a 1/2-inch iron rod with "1847" cap found for the common south corner of said 19.3052 acre tract and said 122.13 acre tract, for an angle point in the north line of said 96.40 acre tract, continuing in all a distance of **520.26** feet to a 1/2-inch iron rod found for an angle point in the common line of said 96.40 acre tract and said 122.13 acre tract for an angle point hereof;
3) **N69°00'05"E**, a distance of **615.04** feet to a 3/8-inch iron rod found for an angle point hereof;
4) **N69°05'59"E**, a distance of **1,058.95** feet to a 1/2-inch iron rod with an illegible cap found for an angle point hereof;
5) **N69°04'56"E**, a distance of **805.10** feet to a 1/2-inch iron rod with "Forest RPLS 1847" cap found in the south line of said 122.13 acre tract, for the northeast corner of said 96.40 acre tract, for an angle point in the north line of said 532.54 acre tract and for an angle point hereof;
6) **N69°09'02"E**, a distance of **216.75** feet to a 1/2-inch iron rod found for an angle point hereof;
7) **N68°37'16"E**, a distance of **216.25** feet to a 60D nail found for an angle point hereof;
8) **N68°51'08"E**, a distance of **55.44** feet to a 60D nail found for an angle point hereof;
9) **N69°35'50"E**, a distance of **600.51** feet to a 1/2-inch iron rod found for an angle point hereof;

THENCE, in part with the common line of said 532.54 acre tract, said 122.13 acre tract, a called 12.99 acre tract of land described as "Tract 1" conveyed to 95 Florence Properties, LLC in Document No. 2023064289 (O.P.R.W.C.T.), a called 10.00 acre tract of land described as "Tract 13" conveyed to Rodrigo's Custom Homes, LLC in Document No. 2024019270 (O.P.R.W.C.T.), and a called 10.00 acre tract of land described as "Tract 14" conveyed to Rodrigo's Custom Homes, LLC in Document

No. 2024019270 (O.P.R.W.C.T.), **N69°09'28"E**, passing at a distance of 51.46 feet, a 1/2-inch iron rod found for the common south corner of said 122.13 acre tract, and said 12.99 acre tract, passing at a distance of 417.64 feet a cotton spindle found for the common south corner of said 12.99 acre tract and said 10.00 acre "Tract 13", passing at a distance of 758.95 feet, a cotton spindle found for the common south corner of said 10.00 acre "Tract 13" and said 10.00 acre "Tract 14", continuing in all a distance of **1,171.15** feet to a 1/2-inch iron rod found for the common south corner of said 10.00 acre "Tract 14" and a called 17.24 acre tract of land conveyed to Patrick E. Hillary Jr. in Document No. 2020041857 (O.P.R.W.C.T.), for an angle point hereof;

THENCE, with the common line of said 532.54 acre tract and said 17.24 acre tract of land, the following two (2) courses and distances:

1) **N69°07'06"E**, a distance of **331.27** feet to a 1/2-inch iron rod found for an angle point hereof;
2) **N69°08'46"E**, a distance of **577.66** feet to a 1/2-inch iron rod found for the common south corner of said 17.24 acre tract and The Amended Liquor Place, a subdivision in Williamson County, Texas recorded in Cabinet M, Slide 168 (P.R.W.C.T.), for an angle point hereof;

THENCE, with the common line of said 532.54 acre tract and said The Amended Liquor Place, **N69°04'07"E**, a distance of **395.35** feet to a 1/2-inch iron rod with an illegible cap found in the southwest right-of-way line of said Rattlesnake Road, for the northernmost corner of said 532.54 acre tract and for the northernmost corner hereof;

THENCE, with the southwest right-of-way line of said Rattlesnake Road and the northeast line of said 532.54 acre tract, the following four (4) courses and distances:

1) **S67°54'10"E**, a distance of **230.36** feet to a TXDOT concrete monument found, for a non-tangent point of curvature hereof;
2) Along the arc of a curve to the left, whose radius is **5,779.58** feet, whose arc length is 285.79 feet and whose chord bears **S69°15'01"E**, a distance of **285.76** feet to a TXDOT concrete monument found for an angle point hereof;
3) **S70°40'58"E**, a distance of **1,094.05** feet to a TXDOT concrete monument found for an angle point hereof;
4) **S70°42'26"E**, a distance of **1,042.27** feet to the **POINT OF BEGINNING** and containing 728.3636 Acres (31,727,520 Square Feet) of land, more or less.

NOTE:

All bearings are based on the Texas State Plane Coordinate System, Grid North, Central Zone (4203). See attached sketch (reference drawing: 00088.dwg).

EXHIBIT B
Additional Land Development Standards

A. Land Use Areas and Required Unit Mix. The type of development within the Land must be in compliance with the Conceptual Land Use Plan shown in color and development type description in the legend on the Land Plan attached as ***Exhibit P*** to the Consent Agreement.

In addition, to achieve housing type diversification, the following mix of housing types and Lot sizes is required:

UNIT MIX	
Housing Type/Lot Size	**Required Percentage (out of maximum of 1,894 Dwelling Units)**
Duplex/Townhome	0-15%
45' Wide Single Family Lots	15% - 40%
50' to 55' Wide Single Family Lots	35% to 45%
60'+ Wide Single Family Lots	15% to 35%

B. Residential Setbacks and Development Standards.

Development Standards	**RS** (Single Family, Detached)	**RM** (Single Family, Attached)	**RM** (Townhome)	
Access	Front	Front	Front	Alley
Lot Size, Minimum Square Feet	5,100	3,000	2,240	1,300
Lot Width, Minimum	45'	30'	22'	18'
Corner/End lot width, minimum	55'	40'	32'	28'
Front/primary street setback, minimum	20'	20'	15'	10'
Corner side/secondary street setback, minimum	15'	15'	15'	10'
Street-facing garage setback, minimum	20'	20'	20'	N/A
Side setback, minimum	5'	5'	N/A	N/A
Shared/Passive wall side setback, minimum	N/A	N/A	0	0
Non-shared/Active wall side setback,	N/A	N/A	5'	5'

minimum				
Rear setback, minimum	10'	10'	10'	10'
Building height, maximum	35'	35'	35'	35'
Front Porch Setback	15'	15'	N/A	N/A

C. Architectural Standards for Residential.

(1) Exterior Material Treatment.

a) 85% of the exterior surface area of all front elevations, all street-facing elevations, and all elevations facing public/private parkland shall consist of brick, stone, or stucco and board and batten siding (exclusive of roofs, eaves, dormers, soffits, windows, doors, gables, garage doors, decorative trim and trimworks); and

b) 85% of the side and rear elevations not facing a public right-of-way shall consist brick, stone or stucco on the first floor (exclusive of windows, doors or other openings) and brick, stone, stucco or cement-based siding on the second floor; and

c) 85% of street-facing side of homes that back onto or are adjacent to arterial roads or residential collectors shall consist of brick, stone, or stucco on the street-facing side (exclusive of windows, doors, or other openings).

For clarity, Hardie® products do not qualify as materials than can be used to meet the foregoing requirements. Except for second floor applications as defined in B.1.

(2) Front Elevation Features. The front elevation of all single family structures shall contain wall plane articulation. No elevations shall be a single wall plane across the entire width of the front elevation. Each front elevation shall contain a minimum of two (2) of the following elements, to be identified on the architectural plans submitted for building permit:

a) A minimum of two (2) wall planes on the front elevation, offset a minimum of 18 inches.

b) Covered front porch or patio with a minimum size of 60 square feet.

c) A side-entry or swing-in garage entry (for garage doors that do not face the front street).

d) A garage door recessed from the primary front façade a minimum of four (4) feet (for garage doors that face the front street).

e) Enhanced garage door materials (wood, ornamental metal, decorative door, window inserts and hardware, painted or stained to match house).

f) Shed roof or trellis (at least 18" deep) above garage door for additional architectural detail.

g) A combination of at least two (2) roof types (e.g., hip and gable) or two different roof planes of varying height and/or direction.

h) Two (2) or more masonry finishes to compliment the architectural style of the home.

i) The addition of one (1) or more dormers on the front elevation to complement the architectural style of the home.

D. Architectural Standards for Non- Residential. 100% of the exterior surface area shall consist of brick, stone, or stucco and board and batten siding (exclusive of windows, doors, or other openings).

E. Special Provisions for Lots Bordering Concrete Batch Plant Site. Lots that share a property line with the Concrete Batch Plant Site (32501 Ronald W. Reagan Blvd., Georgetown, Texas) must have a minimum backyard depth of 80 feet, measured from the foundation of the house to the farthest point along the back fence. Trees that provide a natural buffer to the concrete batch plant site will remain uncleared by the developer and homebuilder. All other clearing of vegetation will be allowed.

F. Other Variances.

a) Cul-de-Sac Increased Length – Due to quarry and floodplain constraints, two (2) Cul-de-Sacs, as shown on the Conceptual Transportation Plan attached as ***Exhibit H*** to the Consent Agreement, may exceed length and lot frontage requirements in the UDC.

b) Mid-block crossing in Phase 1 is not required, as shown on the Conceptual Transportation Plan attached as ***Exhibit H*** to the Consent Agreement.

EXHIBIT C

METES AND BOUNDS DESCRIPTION

FOR A 2.353 ACRE (102,492 SQ. FT.) TRACT OF LAND SITUATED IN THE FREDERICK FOY SURVEY, ABSTRACT NO. 229, WILLIAMSON COUNTY, TEXAS, AND BEING A PORTION THE CALLED 532.34 ACRE TRACT OF LAND (TRACT II) CONVEYED TO PIA CAPITAL, LLC - SERIES TRACT II (GRANTEE # 2), RECORDED IN DOCUMENT NO. 2020163208 OF THE OFFICIAL PUBLIC RECORDS OF WILLIAMSON COUNTY, TEXAS. SAID 2.353 ACRE TRACT OF LAND BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING at a 60D nail found monumenting the northeast corner of Lot 35, Block A, Somerset Hills Phase A Replat, recorded in Document No. 2025044670 of the Official Public Records of Williamson County, Texas and the southeast corner of the called 1.409 acre tract of land conveyed to the City of Georgetown, recorded in Document No. 2004025917 of the Official Public Records of Williamson County, Texas, same being on the west boundary line of said 532.34 acre PIA Capital, LLC – Series Tract II tract, for the **POINT OF BEGINNING** hereof, from which an iron rod found with cap marked “MCKIM & CREED” monumenting the northwest corner of Lot 33, Block A of said Somerset Hills Phase A, Replat and the northeast corner of Lot 2, Block A, Somerset Hills Parcel 5 Final Plat, recorded in Document No. 2022119426 of the Official Public Records of Williamson County, Texas, same being on the south boundary line of said 1.409 acre City of Georgetown tract, bears S 68°24’56” W for a distance of 309.60 feet;

THENCE, **N 22°18’43” W** with the east boundary line of said 1.409 acre City of Georgetown tract and said west boundary line of the 532.34 acre PIA Capital, LLC – Series Tract II tract for a distance of **23.42 feet** to a 1/2" iron rod found monumenting the southeast corner of Lot 3, Block Two, Whisper Wood I, a subdivision recorded in Cabinet I, Slides 102-103 of the Plat Records of Williamson County, Texas, for the northwest corner hereof, from which a 1/2" iron rod found monumenting an angle point on the east boundary line of said Lot 3, Block Two, Whisper Wood I same being on said west boundary line of the 532.24 acre PIA Capital, LLC - Series Tract II tract, bears N 22°34’30” W, passing at a distance of 0.83 feet the calculated northwest corner of said 1.409 acre City of Georgetown tract, in all a total distance of 320.76 feet;

THENCE, through the interior of said 532.34 acre PIA Capital, LLC - Series Tract II tract, the following nine (9) courses and distances:

1. **N 67°41’17” E** for a distance of **20.00 feet** to a 1/2" iron rod set with cap marked "DIAMOND SURVEYING" for the most northerly northeast corner hereof;

2. **S 22°18’43” E** for a distance of **23.42 feet** to a 1/2" iron rod set with cap marked "DIAMOND SURVEYING";

3. **S 22°21’16’ E** for a distance of **512.62 feet** to a cotton gin spindle set for an interior ell corner hereof;

4. **N 68°09’17” E** for a distance of **1433.71 feet** to a 1/2" iron rod set with cap marked "DIAMOND SURVEYING";

5. **N 68°05’35” E** for a distance of **265.11 feet** to PK nail set;

6. **N 68°09’31’ E** for a distance of **485.58 feet** to a 1/2" iron rod set with cap marked "DIAMOND SURVEYING";

7. **N 69°25’58” E** for a distance of **2272.45 feet** to a cotton gin spindle set;

8. **N 69°26’09” E** for a distance of **111.90 feet** to a 1/2" iron rod set with cap marked "DIAMOND SURVEYING" for the most easterly northeast corner hereof;

9. **S 20°33’51” E** for a distance of **20.00 feet** to a 1/2" iron rod set with cap marked "DIAMOND SURVEYING" on the north boundary line of the called 7.2414 acre tract of land (Exhibit A) conveyed to the City of Georgetown, Texas, recorded in Document No. 2009060884 of the Official Public Records of Williamson County, Texas, same being on the south boundary line of said 532.34 acre PIA Capital, LLC – Series Tract II tract, for the southeast corner hereof, from which a 1/2” iron rod found monumenting the northeast corner of said 7.2414 acre City of Georgetown, Texas tract and the northwest corner of the called 12.7586 acre tract of land (Exhibit B) conveyed to the City of Georgetown, Texas, recorded in said Document No. 2009060884, same being on said south boundary line of the 532.34 acre PIA Capital, LLC – Series Tract II tract, bears N 69°26’09” E for a distance of 280.57 feet;

THENCE, **S 69°26’09” W** with said south boundary line of the 532.34 acre PIA Capital, LLC – Series Tract II tract, same being with said north boundary line of the 7.2414 acre City of Georgetown, Texas tract, for a distance of **111.90 feet** to an iron rod found with illegible cap, monumenting the northwest corner of said 7.2414 acre City of Georgetown, Texas tract and the northeast corner of Lot 103, Block A, Somerset Hills Phase B, a subdivision recorded in Document No. 2025044853 of the Official Public Records of Williamson County, Texas;

THENCE, **S 69°25’58” W** with said south boundary line of the 532.34 acre PIA Capital, LLC – Series Tract II tract and the north boundary line of said Lot 103, Block A, Somerset Hills Phase B, passing at a distance of 1232.34 feet a 1/2" iron rod found, in all a total distance of **2272.23 feet** to a 60d nail set in a 6” cedar post, from which a 60D nail found bears N 58°09’27” E for a distance of 1.17 feet;

THENCE, **S 68°09’31” W** continuing with said south boundary line of the 532.34 acre PIA Capital, LLC – Series Tract II tract and the north boundary line of said Lot 103, Block A, Somerset Hills Phase B, for a distance of **485.34 feet** to an iron rod found with illegible cap monumenting the northwest corner of said Lot 103, Block A, Somerset Hills Phase B and the northeast corner of the called 1.616 acre tract of land conveyed to the City of Georgetown, recorded in Document No. 2003110378 of the Official Public Records of Williamson County, Texas, from which an 1/2" iron rod found monumenting an angle point on the west boundary line of Lot 76, Block A of said Somerset Hills Phase B and the east boundary line of said 1.616 acre City of Georgetown tract, bears S 22°05’09” E for a distance of 72.72 feet;

THENCE, **S 68°05'35" W** with said south boundary line of the 532.34 acre PIA Capital, LLC – Series Tract II tract and the north boundary line of said 1.616 acre City of Georgetown tract, for a distance of **265.13 feet** to an iron rod found with cap marked "SURVCON-INC" monumenting the northwest corner of said 1.616 acre City of Georgetown tract and the northeast corner of Lot 69, Block A of said Somerset Hills Phase A, Replat, from which a 1/2" iron rod found monumenting an angle point on the west boundary line of said 1.616 acre City of Georgetown tract and the east boundary line of said Lot 69, Block A, Somerset Hills Phase A, Replat, bears S 22°11'33" E for a distance of 72.86 feet;

THENCE, **S 68°09'17" W** with said south boundary line of the 532.34 acre PIA Capital, LLC – Series Tract II tract and the north boundary line of said Somerset Hills Phase A, Replat, passing at a distance of 347.56 feet a 60D nail found 0.98' south of this line, passing at an additional 954.36 feet an iron rod found with cap marked "G&R SURVEYING", 0.88' north of this line, continuing for an additional distance of 151.61 feet for a total distance of **1453.53 feet** to a 1/2" iron rod set with cap marked "DIAMOND SURVEYING" on the southwest corner of said 532.34 acre PIA Capital, LLC – Series Tract II and an angle point on the northerly boundary line of Lot 46, Block A of said Somerset Hills Phase A, Replat, for the southwest corner hereof, from which a 60D nail found in a 10" cedar post, bears N 41°33'04" E for a distance of 2.16 feet;

THENCE, **N 22°21'16" W** with said west boundary line of the 532.34 acre PIA Capital, LLC – Series Tract II and an easterly boundary line of said Somerset Hills Phase A, Replat, for a distance of **532.46 feet** to the **POINT OF BEGINNING** and containing 2.353 acres of land more or less.

Bearing Basis: NAD-83, Texas Central Zone (4203) State Plane System. Distances shown hereon are surface distances based on a combined surface adjustment factor of 1.00015.

A drawing has been prepared to accompany this metes and bounds description.

MAINTENANCE AGREEMENT
WILLIAMSON COUNTY MUNICIPAL UTILITY DISTRICT NO. __

STATE OF TEXAS §
COUNTY OF WILLIAMSON §

This Maintenance Agreement (this "Agreement") is made to be effective as of the Effective Date (defined below) by and between the **CITY OF GEORGETOWN, TEXAS**, a home-rule city located in Williamson County, Texas (the "City"), and _____, a _____ (the "Developer"), and [**WILLIAMSON COUNTY MUNICIPAL UTILITY DISTRICT NO**. __, a municipal utility district formed and operating under Chapters 49 and 54 of the Texas Local Government Code (the "District")] OR [_____, a Texas non-profit corporation (the "HOA")], (individually, a "Party" and collectively, the "Parties"), and is as follows:

RECITALS

WHEREAS, [the District OR Williamson County Municipal Utility District No. ___ (the "District")] is a municipal utility district within the City's corporate limits authorized by the Consent Agreement attached to Ordinance No. _____ passed and approved by the Georgetown City Council on _____, 2026 (the "Consent Agreement"); and

WHEREAS, the District consists of _____ acres of land, described by metes and bounds on ***Exhibit A-1*** and by surveyor's sketch on ***Exhibit A*** attached to this Agreement; and

WHEREAS, at full build out the District will have approximately _____ dwelling units; [an amenity center; public and private parkland; man-made (quarried) lakes or ponds; drainage, stormwater, and water quality management features; public trails; walls and fencing; and open space areas]; and

[**WHEREAS**, the HOA is a nonprofit corporation having as its members all persons or entities becoming a holder of all or a portion of the fee simple interest in any Lot in the District, which membership in the HOA is not severable from the ownership of the Lot; and]

[**WHEREAS**, the HOA is created to, among other things, maintain the District Areas/Improvements (as defined in the Consent Agreement) within the District, and otherwise administer the affairs of the HOA in accordance with the terms of the Consent Agreement; and]

[**WHEREAS**, the HOA has the authority to levy Assessments against the Lots within the District to provide a permanent source of funding for the HOA to pay for performing its responsibilities under this Agreement; and]

WHEREAS, pursuant to the Consent Agreement, the District Areas/Improvements have been or will be conveyed by Developer to the [District OR HOA] and will be maintained by the [District OR HOA] per the Consent Agreement; and

NOW, THEREFORE, in consideration of the premises, in furtherance of the mutual benefits to be derived by the general public, [the District OR the members of the HOA], and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the City and the [District OR HOA], agree as follows:

1. **RECITALS AND AGREEMENT ADOPTED**. The recitals set out above are true and correct and are hereby incorporated into this Agreement by this reference as though each were set out in full herein. In addition, the Consent Agreement and the Related Documents (as that term is defined in the Consent Agreement) are incorporated into this Agreement as if all were set out in full.

2. **DEFINITIONS**. In addition to the terms defined in the Recitals to this Agreement, (i) capitalized words used in this Agreement and not defined herein will have the meanings set out in the Consent Agreement, and (ii) the following words, shall, when capitalized, have the following meanings when used in this Agreement:

   2.1 "*Assessments*" means the [ad valorem taxes and/or fees OR assessments] the [District OR HOA] imposes for the purposes of, among other things, funding its obligations under this Agreement.

   2.2 "*Parkland Development Guidelines*" means the parkland development guidelines issued by the City's Parks and Recreation Department.

3. **MAINTENANCE REQUIREMENTS**. The [District OR HOA] shall, at its sole cost and expense, perform or cause to be performed, all repairs, maintenance, and replacement work when and as needed to keep the District Areas/Improvements in good condition suitable for use and enjoyment by the public including, but not limited to, regular mowing, edging, trimming; regular landscape maintenance

including re-planting of trees, shrubs and other landscaping to replace dead or diseased plantings; regular weed, ant, mosquito and algae control; irrigation, and irrigation system maintenance and repair; keeping the areas free of all trash and debris and properly functioning; painting; striping; and other work necessary to maintain the District Areas/Improvements in perpetuity, and to replace those elements at the end of their useful life. The [District OR HOA] shall comply at all times with the Parkland Development Guidelines. The [District OR HOA] shall be solely responsible for maintenance of the District Areas/Improvements, and the City shall have no obligations for same.

4. **WATER CONSERVATION**. The [District OR HOA] agrees that it will install and maintain drought-resistant landscaping and water conserving natural turf, and will not install, or allow to be installed, St. Augustine grass anywhere in the District Areas/Improvements.

5. **NO LIENS**. The [District OR HOA] shall not cause, suffer or allow any liens to be placed on the District Areas/Improvements by, through or under the [District OR HOA].

6. **ASSESSMENTS**.

   6.1 The [District OR HOA] shall levy Assessments in such amounts necessary to perform its responsibilities under this Agreement.

   6.2 The [District OR HOA] shall also levy [District OR HOA] Assessments in such amounts necessary to maintain reserves, and ultimately replace, the District Areas/Improvements at the end of their useful life.

7. **INSURANCE**.

   7.1 Prior to the commencement of any work in the District Areas/Improvements under this Agreement, the [District OR HOA] shall furnish copies of all required endorsements and an original completed Certificate(s) of Insurance to the City Manager, which shall be clearly labeled with the legal name of the [District OR HOA] in the Description of Operations block of the Certificate. The Certificate(s) shall be completed by an agent and signed by a person authorized by that insurer to bind coverage on its behalf. The City will not accept a Memorandum of Insurance or Binders as proof of insurance. The Certificate(s) or form must have the agent's signature, including the signer's company affiliation, title and phone number, and be mailed, with copies of all applicable endorsements, directly from the insurer's authorized representative to the City. Failure to

obtain and maintain the required insurance shall constitute a material default of this Agreement. No officer or employee, other than the City Manager, shall have authority to waive this requirement.

7.2 Notwithstanding the provisions of **Section 7.3** below, the City reserves the right to review the insurance requirements of this Article during the effective period of this Agreement and any extension or renewal hereof and to modify insurance coverages and their limits when deemed necessary and prudent by the City Manager based upon changes in statutory law, court decisions, or circumstances surrounding this Agreement. In no instance will the City allow modification at the request of the [District OR HOA] whereupon the City may incur increased risk.

7.3 The [District's OR HOA's] financial integrity is of interest to the City; therefore, subject to the [District's OR HOA's] right to maintain reasonable deductibles in such amounts as are approved by the City, the [District OR HOA] shall obtain and maintain in full force and effect for the duration of this Agreement, and any extension hereof, at the [District's OR HOA's] sole expense, insurance coverage written on an occurrence basis, by companies authorized and admitted to do business in the State of Texas and with an A.M. Best's rating of no less than A-(VII), in the following types and for an amount not less than the amount listed:

TYPE	**AMOUNTS**
Workers' Compensation	Statutory
Employers' Liability	$1,000,000 / $1,000,000 / $1,000,000
Commercial General Liability Insurance to include coverage for the following: Premises operations *b. Independent Contractors Products/completed operations Personal Injury Contractual Liability *f. Environmental Impairment/Impact sufficiently broad to cover disposal liability	For Bodily Injury and Property Damage of $1,000,000 per occurrence; $2,000,000 General Aggregate, or its equivalent in Umbrella or Excess Liability Coverage

*g. Broad form property damage, to include fire legal liability Business Automobile Liability Owned/leased vehicle Non-owned vehicle Hired Vehicles	Combined Single Limit for Bodily Injury and Property Damage of $1,000,000 per occurrence

*May be waived by the City Manager if not applicable to activities performed by the [District OR HOA].

7.4 The City shall be entitled, upon request and without expense, to receive copies of the policies, declaration page and all endorsements thereto as they apply to the limits required by the City, and may require the deletion, revision, or modification of particular policy terms, conditions, limitations or exclusions (except where policy provisions are established by law or regulation binding upon either of the parties hereto or the underwriter of any such policies) as may be required to comply with the terms of this Agreement. The [District OR HOA] shall be required to comply with any such requests and shall submit a copy of the replacement Certificate of insurance to the City at the address provided below within 30 days of the requested change. The [District OR HOA] shall pay any costs incurred resulting from said changes.

City of Georgetown
Attn. City Manager
P.O. Box 409
Georgetown, TX 78627

7.5 The [District OR HOA] agrees that with respect to the above required insurance, all insurance policies are to contain or be endorsed to contain the following provisions:

7.5.1 Name the City, its officers, officials, employees, volunteers, and elected representatives as additional insured's by endorsement, as respects operations and activities of, or on behalf of, the named insured performed under contract with the City, with the exception of the workers' compensation and professional liability policies; and

7.5.2 Provide for an endorsement that the "other insurance" clause shall not apply to the City when the City is an additional insured shown on the policy; and

7.5.3 Workers' compensation and employers' liability policies will provide a waiver of subrogation in favor of the City.

7.6 The [District OR HOA] agrees to give the City written notice of any suspension, cancellation, non-renewal or material change in coverage of any of the insurance policies required to be obtained and maintained by the [District OR HOA] under the terms of this Agreement. Within five (5) calendar days of a suspension, cancellation or non-renewal of coverage, the [District OR HOA] shall provide a replacement Certificate of Insurance and applicable endorsements to the City. The City shall have the option to suspend the [District's OR HOA's] authorization and liability under this Agreement should there be a lapse in coverage at any time during this Agreement. Failure to provide and to maintain the required insurance shall constitute a material breach of this Agreement.

7.7 Nothing herein contained shall be construed as limiting in any way the extent to which the [District OR HOA] may be held responsible for payments of damages to persons or property resulting from the [District's OR HOA's] performance of the work covered under this Agreement.

7.8 It is agreed that the [District's OR HOA's] insurance shall be deemed primary and non-contributory with respect to any insurance or self-insurance carried by the City for liability arising out of operations under this Agreement.

7.9 It is understood and agreed that the insurance required is in addition to and separate from any other obligation contained in this Agreement.

8. **RELEASE, HOLD HARMLESS, AND INDEMNIFICATION. THE [DISTRICT OR HOA] HEREBY FULLY AND FOREVER RELEASES, HOLDS HARMLESS, AND [, TO THE EXTENT ALLOWED BY LAW,] PROMISES TO INDEMNIFY AND DEFEND THE CITY, ITS OFFICERS, EMPLOYEES, ATTORNEYS, AND AGENTS AND THEIR SUBCONTRACTORS FROM AND AGAINST ALL CLAIMS, DEMANDS, CONTROVERSIES, JUDGEMENTS, DEMANDS, LOSSES, AND CAUSES OF ACTION OF EVERY CONCEIVABLE KIND AND NATURE, PAST, CURRENT, AND FUTURE, ARISING OUT OF OR RELATED TO THE DISTRICT IMPROVEMENTS/AREAS OR THIS AGREEMENT. THIS SECTION IS TO BE**

CONSTRUED UNDER THE LAWS OF THE STATE OF TEXAS, AND IT IS EXPRESSLY RECOGNIZED BY ALL PARTIES THAT IT COMPLIES WITH THE CONSPICUOUSNESS REQUIREMENT AND THE EXPRESS NEGLIGENCE TEST AND IS VALID AND ENFORCEABLE AGAINST THE DISTRICT. THE DISTRICT HAS CAREFULLY READ, FULLY UNDERSTANDS, AND AGREES THAT IT IS BOUND BY THE TERMS AND CONDITIONS OF THIS SECTION.

9. **TERM**. This Agreement shall be effective from the Effective Date and shall continue in effect until the earlier of (i) the District is dissolved and [its OR the HOA's] obligations hereunder are fully assumed by the City, at the City's sole election, or (ii) this Agreement is terminated in writing by mutual agreement of City Council, the Developer, and the [District OR HOA].

10. **ASSIGNMENT**. The [District OR HOA] shall not assign, sublet, or transfer its interest in this Agreement without prior written consent of the City Council, which may be withheld for any reason.

11. **MISCELLANEOUS PROVISIONS.**

    11.1 Laws Observance. The [District OR HOA] shall not do, nor cause to be done, anything on or to the District Areas/Improvements during the term of this Agreement in violation of the laws of the United States, the State of Texas, or any of the ordinances of the City.

    11.2 No Waiver. No waiver by the City of any default or breach of any covenant, condition, or stipulation herein contained shall be treated as a waiver of any subsequent default or breach of the same or any other covenant, condition, or stipulation hereof.

    11.3 Severability. In case any one or more of the provisions contained in this Agreement shall for any reason be held to be invalid, illegal, or unenforceable in any respect, such invalidity, illegality, or unenforceability shall not affect any other provision thereof, and this Agreement shall be considered as if such invalid, illegal, or unenforceable provision had never been contained herein.

    11.4 Notice. Any notices required or appropriate under this Agreement shall be given in writing to the [District OR HOA] at the address shown below, and to the City at City of Georgetown, Attn. City Manager, P.O. Box 409, Georgetown, TX 78627.

    11.5 Headings. The paragraph headings contained herein are for convenience of reference and are not intended to define, extend, or limit any provisions of this Agreement.

    11.6 Jurisdiction and Venue. This Agreement will be interpreted according to the Constitution and laws of the State of Texas. Venue of any court action brought

directly or indirectly by reason of this Agreement shall be in Williamson County, Texas.

11.7 Authorization. The signers of this Agreement each hereby represents that he or she has full authority to execute this Agreement on behalf of the Party for which he or she is acting.

11.8 Entire Agreement. This Agreement and the Consent Agreement, and any attached exhibits to those agreements, contain the final and entire agreement between the Parties hereto and contain all of the terms and conditions agreed upon, and supersedes all other agreements, oral or otherwise, regarding the maintenance of the District Areas/Improvements.

EXECUTED to be effective as of the date of final signature below (the "Effective Date").

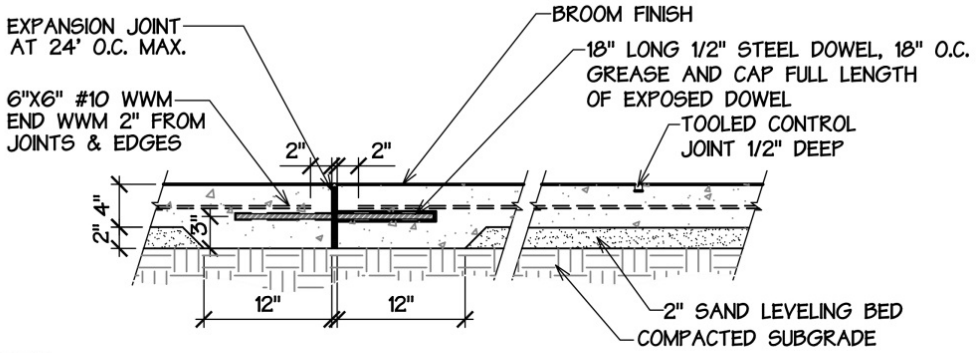
Yearwood – Regional Trail Design Standards

Location: Approximately +/- 1.1 miles of trail, beginning at the southern side of the Yearwood property, near the intersection of Sun City Blvd and Ronald Regan Blvd, following Berry Creek to the northern limits of the Yearwood property. Refer to Exhibit P for conceptual trail alignment.

1. Trail width will be ten (10) feet, as further specified in the Consent Agreement. In limited areas, to navigate extreme topographical conditions or preserve significant features such as rock formations, important vegetation, trees or other environmental features, trail width may be reduced to six (6) feet for a maximum distance of one hundred (100) feet.
2. Trail surface will be reinforced concrete, as detailed below:

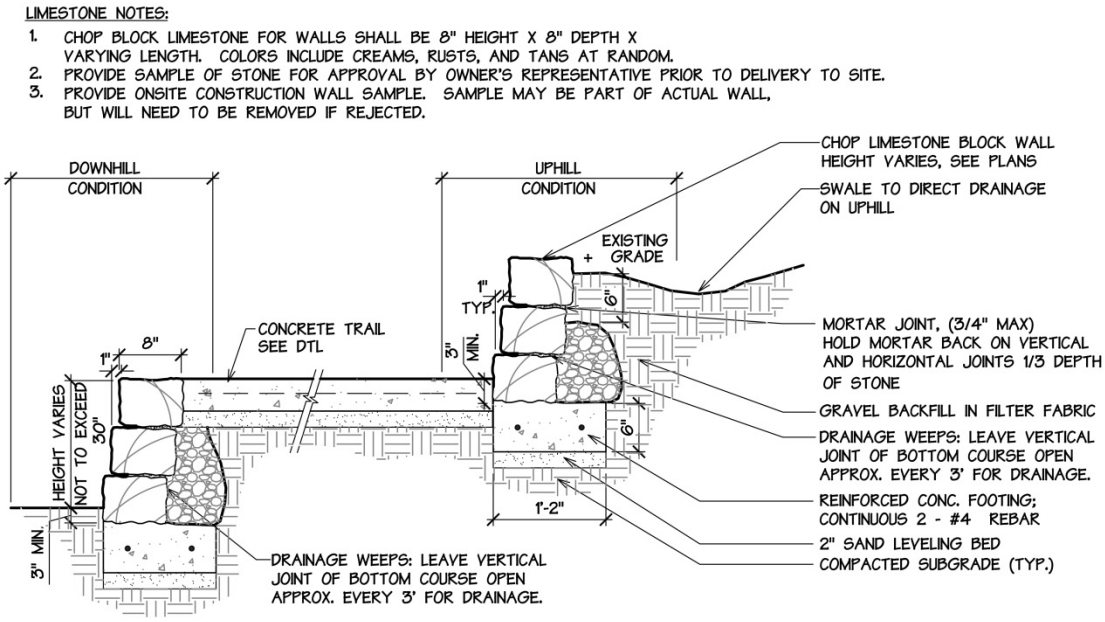


NOTES:

1. SEE TRAIL NOTES & ACCESSIBLE TRAIL NOTES ON CONSTRUCTION PLANS.
2. EXPANSION JOINT TO BE 1/2" ASPHALT IMPREGNATED FIBERBOARD WITH "ZIP STRIP". INSTALL BACKER ROD AND 2-PART SEALANT - GRAY.
3. EXPANSION JOINTS ARE TO BE MAX 24' ON CENTER UNLESS NOTED OTHERWISE ON PLAN.
4. CONTROL JOINTS ARE TO BE SPACED TO MATCH WIDTH OF WALKWAY, UNLESS SHOWN OTHERWISE ON PLAN.
5. ALL EDGES ARE TO BE TOOLED WITH 1/2" RADIUS. MAXIMUM 1/2" CHANGE IN ELEVATION AT WALK/LAWN EDGE.

1. The minimum vegetation cleared zone will be the trail width plus two (2) feet to either side of the trail and seven (7) feet vertical, unless the clear zone is limited due to extreme topographical conditions, important vegetation, trees or environmental features.
2. Whenever possible, sustained running grades will not exceed 5%, and cross slope 2%. A maximum of 8% may occur for distances no further than thirty (30) feet. In limited areas, due to extreme topographical conditions or environmental features, U.S. Forest Service Outdoor Recreation Accessibility Guidelines (FSORAG) will be followed. If trail is not feasible under FSORAG guidelines, Developer will consult with City concerning alternate design options.

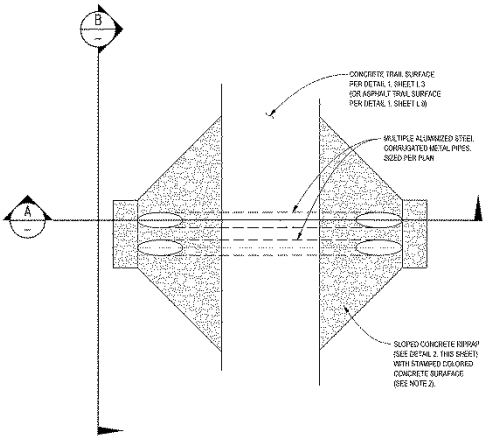
3. Retaining walls will only be used when absolutely necessary, to stabilize slopes and only if natural rock cut will not suffice. Retaining walls under forty-eight inches (48”) tall shall be constructed of native materials, as detailed below:



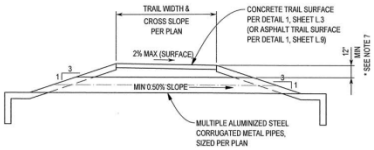
4. Stream and drainage crossings will be located in relatively narrow, shallow sections of drainage ways to minimize negative environmental impacts. Low water crossings will be used whenever possible, culverts will be used when agreed upon by Owner and City. Crossing types and examples are depicted below:

A. Low Water Crossing:

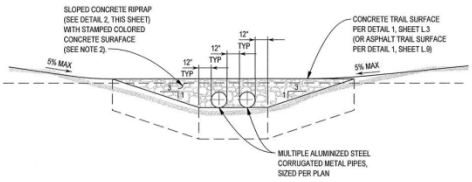
a. Use an appropriate length slab or structure to protect the "wetted perimeter" of the natural flow channel.
b. Protect the structure with cutoff walls, riprap, gabions, concrete slabs, or other scour protection. The downstream edge may require energy dissipaters or riprap protection because of the accelerated flows across the structure.
c. Place foundations into scour resistant material or below the depth of scour. Prevent foundation or channel scour with the use of locally placed heavy riprap, gabion baskets, concrete reinforcement or native vegetation.



PLAN VIEW



SECTION A



SECTION B

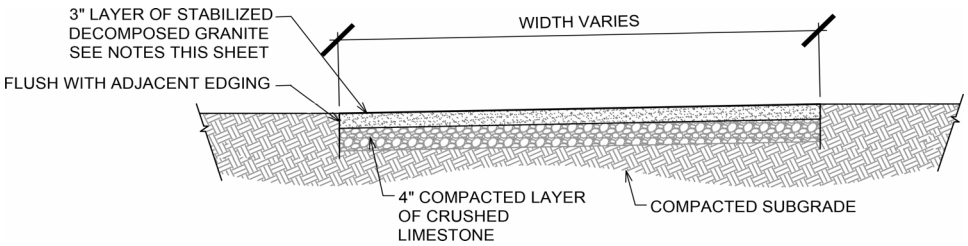
B. Culvert Crossing:

a. Use an appropriate length slab or structure to protect the “wetted perimeter” of the natural flow channel.
b. Culvert sizes appropriate for water shed and flow capacities. All culverts shall be aluminized metal pipe unless noted otherwise. Inlet and outfall pipes shall be cut to conform to slope.
c. Protect the entire structure with cutoff walls, riprap, gabions, concrete slabs, or other scour protection. The downstream edge may require energy dissipaters or riprap protection because of possible accelerated flows across the structure.
d. Place foundations into scour resistant material or below the depth of scour. Prevent foundation or channel scour with the use of locally placed heavy riprap, gabion baskets, concrete reinforcement or native vegetation.

Yearwood – Connector Trail Standards

Purpose: Connector trails are intended to provide access to the greater trail network or to surrounding amenities within the Yearwood property.

1. Connector trails width will be a minimum of five (5) feet. In limited areas, to navigate extreme topographical conditions or preserve significant features such as rock formations, important vegetation, trees, or other environmental features, trail width may be reduced to four (4) feet for a maximum distance of fifty (50) feet.
2. Connector trails shall be ADA compliant in accordance with U.S. Forest Service Outdoor Recreation Accessibility Guidelines (FSORAG) and applicable federal accessibility standards.
3. Trail surface will be a compactable aggregate material, such as decomposed granite, as detailed below:



4. The minimum vegetation cleared zone will be the trail width plus two (2) feet to either side of the trail and seven (7) feet vertical, unless the clear zone is limited due to extreme topographical conditions, important vegetation, trees or environmental features.
5. In areas of transition to the regional trail network, trailheads, or areas of high pedestrian traffic, the trail surface shall transition to reinforced concrete or asphalt.
6. Sustained running grades will not exceed 5%, and cross slope 2%. A maximum of 8% may occur for distances no further than thirty (30) feet. In limited areas, due to extreme topographical conditions or environmental features, FSORAG guidelines will be followed. If trail is not feasible under FSORAG guidelines, Developer will consult with City concerning alternate design options.

EXHIBIT N
TIF Offset Request Documentation
(Required for each Eligible Transportation Improvement)

For Construction, Installation, Other:

- Copy of Approved Plan
- Copy of As-Built Record Drawings
- For each Eligible Transportation Improvement:
    - Notices, Bid Forms, Contract Documents (demonstrating compliance with public procurement requirements)
    - Unit Prices and Quantities
    - Approved Pay Applications
    - Bills Paid Affidavits
    - Certificates of Payment (which may, at Engineer's sole discretion, be delivered as a customary engineer's statement on a Pay Application) executed by Engineer

For All Eligible Transportation Improvements:

- A written, signed, and notarized Developer Certificate in the form set forth below

TIF Agreement Reference (Name, Parties, Date, Subdivision Name): _____

DEVELOPER CERTIFICATE FOR TIF OFFSETS REQUEST

In connection with the request for TIF Offsets under the referenced Agreement, the Developer represents and warrants to the City as follows:

1. The undersigned is a duly authorized officer of the Developer, is qualified to execute this request on behalf of the Developer, and is knowledgeable as to the matters set forth herein.

2. The TIF Offset request has not been the subject of any prior request submitted to the City.

3. The TIF Offset Documentation submitted to the City is a true and accurate representation of the actual costs associated with the construction of the Eligible Transportation Improvements.

4. The Developer is in compliance with the terms and provisions of the Development Agreement between the City and the Developer.

5. The Developer agrees to cooperate with the City in conducting its review of the submitted information and agrees to provide additional information and documentation as is reasonably necessary for the City to complete said review.

6. Improvements for which credit is being sought were publicly bid.

7. The total amount of Eligible Transportation Improvements is $_____

I hereby certify that the above representations and warranties are true and correct.

City of Georgetown, Texas
City Council
September 8, 2026

SUBJECT:
Public Hearing and First Reading - Amendment to Ordinance No. 2021-94 for TIRZ No. 6

SUGGESTED ACTION:
Public Hearing and First Reading of an Amendment to Ordinance No. 2021-94 designating Reinvestment Zone Number 6 -- Cameron Goodman, Economic Development Director

ITEM SUMMARY:
An Ordinance of the City Council of the City of Georgetown, Texas, amending Ordinance No. 2021-94 which designated Tax Increment Reinvestment Zone Number Six by extending the term of Tax Increment Reinvestment Zone Number Six; by adopting the Final Project and Financing Plan for Tax Increment Reinvestment Zone Number Six; by amending the City's participation in the Zone; providing a repealing clause; providing a severability clause; and providing an effective date

FINANCIAL IMPACT:

SUBMITTED BY:
Shelly Sommerfeld, Economic Development plus

ATTACHMENTS:
TIRZ # 6 Amended Ordinance 1st Reading - Final.pdf
Georgetown Ordinance Amending TIRZ No. 6 â€" Termination Date, Project & Financing Plan.pdf
TIRZ 6 Resolution.pdf

Item Under Consideration: TIRZ #6

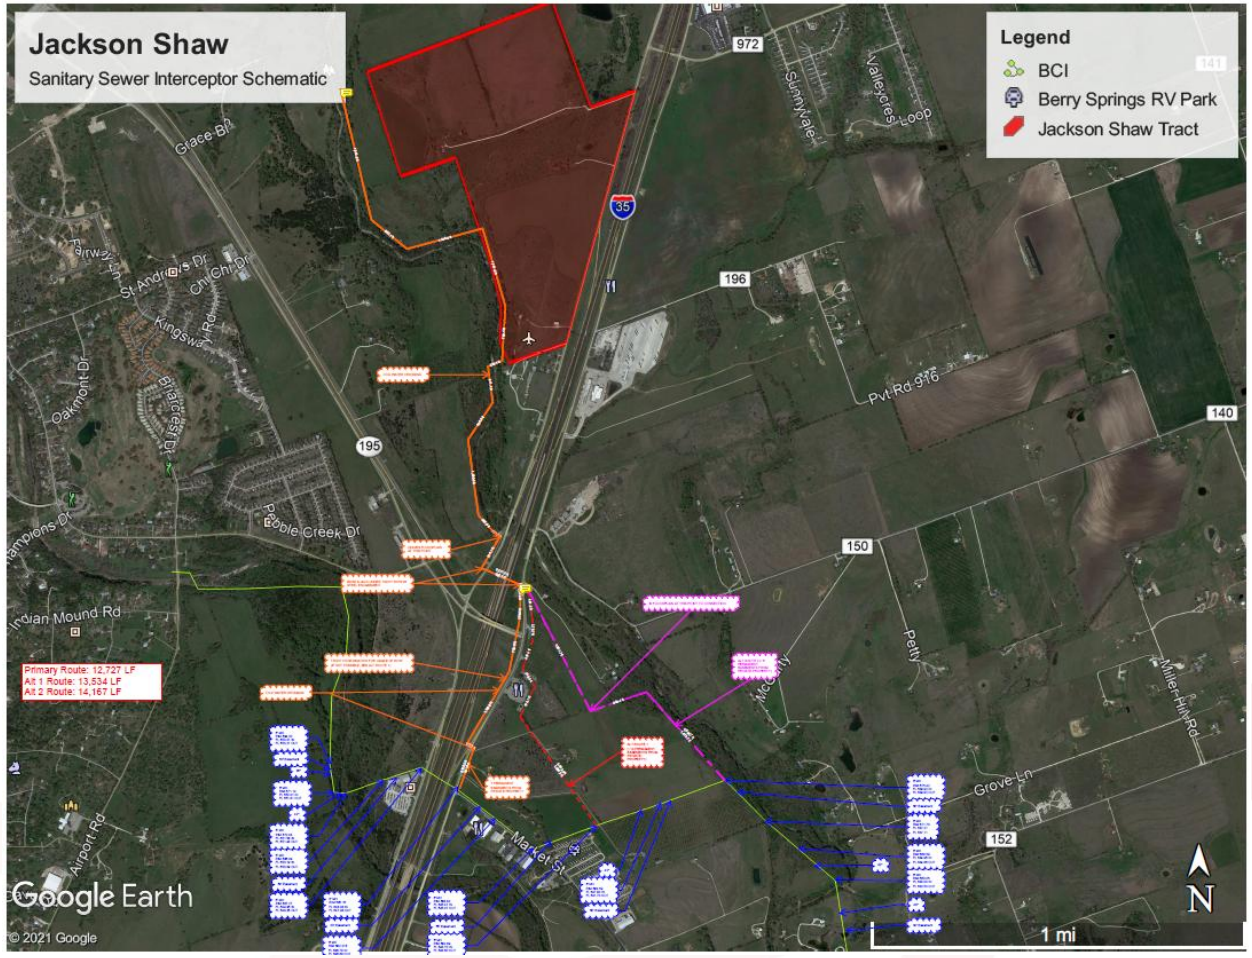
Location of Zone

224 acres generally located at 4800-5300 N. IH 35 on the west side of Interstate 35 in north Georgetown, Texas, positioned north of the State Highway 195 intersection and south of County Road 143.

TIRZ Financed Project

- In December 2021, the Georgetown City Council unanimously approved agreements to create Tax Increment Reinvestment Zone (TIRZ) Number Six.

- The TIRZ was set up to finance the Dry Berry Creek Interceptor, to bring sanitary sewer service to the site
- Over 12,000 linear feet of 36” sanitary sewer trunk line
- Line runs along the Dry Berry Creek bed to connect with the Berry Creek Interceptor
- Jackson Shaw will construct the line
- The original estimated cost of the project was $10,000,000



Original TIRZ Financing Structure

- Creation of a TIRZ with a 2021 “base year”

- City of Georgetown will contribute to the fund based on a 15-year schedule, beginning in 2024 and ending in 2038
  - Years 1-5 = 60% contribution
  - Years 6-10 = 55% contribution
  - Years 11-15 = 50% contribution

Proposed Changes to TIRZ

- Years 1-5(2022-2026) = 60% contribution
- Years 6-10(2027-2031) = 55% contribution
- Years 11-15(2032-2042) = 50% contribution

Item Under Consideration

An Ordinance of the City Council of the City of Georgetown, Texas, amending Ordinance No. 2021-94 which designated Tax Increment Reinvestment Zone Number Six by extending the term of Tax Increment Reinvestment Zone Number Six; by adopting the Final Project and Financing Plan for Tax Increment Reinvestment Zone Number Six; by amending the City's participation in the Zone; providing a repealing clause; providing a severability clause; and providing an effective date.

ORDINANCE NO. 2026-____

An Ordinance of the City Council of the City of Georgetown, Texas, amending Ordinance No. 2021-94 which designated Tax Increment Reinvestment Zone Number Six by extending the term of Tax Increment Reinvestment Zone Number Six; by adopting the Final Project and Financing Plan for Tax Increment Reinvestment Zone Number Six; by amending the City's participation in the Zone; providing a repealing clause; providing a severability clause; and providing an effective date.

Whereas, the City Council adopted Ordinance No. 2021-94 designating Tax Increment Reinvestment Zone Number Six (the "Zone") to promote the development or redevelopment of the area, as authorized by the Tax Increment Financing Act, Chapter 311 of the Texas Tax Code (the "Act"); and

Whereas, Ordinance No. 2021-94 provides that the Zone terminates on December 31, 2038; and

Whereas, the City Council desires to extend the term of Zone so that the Zone terminates on December 31, 2042; and

Whereas, in compliance with the Act, the City called a public hearing to receive comments on the extension of the term of the Zone and its benefits to the City and the property in the Zone; and

Whereas, in compliance with the Act, notice of the public hearing was published in a newspaper of general circulation in the City, such publication date being not later than seven (7) days prior to the date of the public hearing; and

Whereas, such public hearing was convened at the time and place mentioned in the published notice, to -wit, on the _th day of ___.2026 at 6:__ p.m., at the City Council Chambers in the City Hall of the City of Georgetown, Texas, which hearing was then closed; and

Whereas, the City Council, at such public hearing, invited any interested person, or the person's representative, to appear and speak for or against the extension of the term of the Zone Number Six and owners of property within the Zone and other interested parties were given the opportunity at such public hearing to protest the extension of the term of the Zone; and

Whereas, in compliance with the Act, the City previously approved a Preliminary Project and Financing Plan for the Zone; and

Whereas, in compliance with the Act, the Board of Directors of the Zone has reviewed, approved, and recommends that the City Council approve the proposed Final Project and Financing Plan for the Zone attached hereto as Exhibit "A"; and

Whereas, the City Council after having reviewed the proposed Final Project and Financing Plan desires to approve the same;

Now, therefore, be it ordained by the City Council of the City of Georgetown, Texas, that:

Section 1. The facts and recitations contained in the preamble of this Ordinance are hereby found and declared to be true and correct.

Section 2. The Final Project and Financing Plan as set forth in Exhibit "A" attached hereto is hereby approved and adopted.

Section 3. The term of the Zone is hereby amended to provide that the Zone terminates on December 31, 2042 with the collection of 2042 tax increment in 2043; and that Section 5 of Ordinance No. 2021-94 is hereby amended to read as follows:

> "Section 5. The Zone shall take effect on adoption of this Ordinance, and the termination of the Zone shall occur on December 31, 2042 (with collection of 2042 tax increment in 2043), or at an earlier time designated by subsequent ordinance of the City Council, or at such time subsequent to the issuance of any tax increment bonds, if any, that all project costs, tax increment bonds, notes or other obligations of the Reinvestment Zone, and the interest thereon, if any, have been paid in full."

Section 4. The City's participation in the Zone is hereby amended by amending Section 8 of Ordinance No. 2021-94 to read as follows:

> "Section 8. The City will participate in the Zone by contributing and depositing into the Tax Increment Fund sixty percent (60%) of the City's tax increment from real property ad valorem taxes assessed and collected for tax years 2022 through and including 2026; fifty-five percent (55%) of the City's tax increment from real property ad valorem taxes assessed and collected for tax years for years 2027 through and including 2031; and fifty percent (50%) of the City's tax increment from real property ad valorem taxes assessed and collected for tax years 2032 through and including 2042."

Section 5. All provisions of the ordinances of the City of Georgetown, in conflict with the provisions of this Ordinance be, and the same are hereby, repealed, and all other provisions of the ordinances of the City of Georgetown not in conflict with the provisions of this Ordinance shall remain in full force and effect.

Section 6. Should any sentence, paragraph, subdivision, clause, phrase, or section of this Ordinance be adjudged or held to be unconstitutional, illegal, or invalid, the same shall not affect the validity of this Ordinance as a whole or a part or provision thereof other than the part thereof decided to be unconstitutional, illegal, or invalid.

Section 7. This Ordinance shall take effect immediately from and after its passage and the publication of the caption, as the law and charter in such cases provide.

APPROVED on First Reading on the __ day of _____ 2026.

RESOLUTION NO. -____

A Resolution of the Board of Directors of City of Georgetown Texas Tax Increment Reinvestment Financing Zone Number Six (the "North Georgetown TIRZ"), approving the Final Project and Financing Plan for City of Georgetown Tax Increment Reinvestment Financing Zone Number Six; approving Amended and Restated TIF Zone Number Six Infrastructure Reimbursement Agreement with City of Georgetown and JSACQ / Georgetown, LP,; providing for an effective date.

WHEREAS, City Council for the City of Georgetown, Texas adopted Ordinance No. 2021-94- designating Tax Increment Reinvestment Financing Zone Number Six as authorized by the Tax Increment Financing Act, Chapter 311 of the Texas Tax Code (the "Act"); and

WHEREAS, in compliance with the Act, the City Council previously approved a Preliminary Project and Financing Plan for Tax Increment Reinvestment Financing Zone Number Six (the "Preliminary Project and Financing Plan"); and

WHEREAS, in compliance with the Act the Board of Directors has reviewed and recommends that the City Council approve the Final Project and Financing Plan as set forth in Exhibit "A" attached hereto;

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF TAX INCREMENT REINVESTMENT FINANCING ZONE NUMBER SIX, THAT:

SECTION 1. The facts and recitations contained in the preamble of this Resolution are hereby found and declared to be true and correct.

SECTION 2. The Board of Directors hereby approves and recommends that the City Council for the City of Georgetown, Texas, approve the Final Project and Financing Plan as set forth in Exhibit "A" attached hereto.

SECTION 3. Should any sentence, paragraph, subdivision, clause, phrase, or section of this Resolution be adjudged or held to be unconstitutional, illegal, or invalid, the same shall not affect the validity of this Resolution as a whole, or any part or provision thereof other than the part so decided to be invalid, illegal, or unconstitutional.

SECTION 4. All provisions of the resolutions in conflict with the provisions of this Resolution be, and the same are hereby, repealed, and all other provisions not in conflict with the provisions of this Resolution shall remain in full force and effect.

SECTION 5. This resolution shall take effect from and after its passage.

PASSED, APPROVED AND ADOPTED by the Board of Directors of Tax Increment Reinvestment Financing Zone Number Six, on the _____ day of _____, 2026.

CONSULTATION AGREEMENT WITH THE CITY OF GEORGETOWN

This Consultation Agreement (the "Agreement") is entered into and made effective on the _____ day of _____, 2026 by and between E Source Companies, LLC ("Consultant") and the City of Georgetown, Texas ("City").

1. **Scope of Services.** Consultant agrees to provide such services as further described in **Exhibit A**, which is attached and incorporated herein. Any request by the Consultant for an increase in the Scope of Services and an increase in the amount listed in paragraph four of this Agreement shall be made and approved by the City prior to the Consultant providing such services, or the right to payment for such additional services shall be **waived.** If there is a dispute between the Consultant and the City respecting any service provided or to be provided hereunder by the Consultant, including a dispute as to whether such service is additional to the Scope of Services included in this Agreement, the Consultant agrees to continue providing on a timely basis all services to be provided by the Consultant hereunder, including any service as to which there is a dispute.

2. **Supplement Provisions**. Supplemental provisions applicable to this Agreement are included in **Exhibit B** and incorporated herein by reference.

3. **City Terms Prevail**. In the event there is a conflict between a term in **Exhibit A** or **Exhibit B** and a term in this Agreement, the terms of this Agreement shall prevail.

4. **Total Compensation.** The total compensation paid by the City to the Consultant, including expenses, under this Agreement for the initial term shall not exceed one hundred twenty-one thousand dollars ($121,000). Payment will be made in accordance with **Exhibit C**, which is attached and incorporated herein.

5. **Term.** This Agreement shall become effective on the date signed by the City. The term of the Agreement shall be from one (1) year.

6. **Performance.** Consultant, its employees, associates, and/or subcontractors shall perform all the services described in the Scope of Services in a professional manner and be fully qualified and competent to perform those services. Consultant shall undertake the work and complete it in a timely manner and in accordance with all applicable federal, state, and local statutes, regulations, ordinances, and other laws.

7. **Amendments.** Any changes to the terms of this agreement will not be effective unless in writing and signed by both parties.

8. **Insurance.** Consultant shall procure and maintain at its sole cost and expense for the duration of this Agreement insurance against claims for injuries to persons or damages to property that may arise from or in connection with the performance of the work hereunder by the Consultant, its agents, representatives, volunteers, employees or subcontractors. The polices, limits and endorsements required are set forth in **Exhibit D**. Consultants insurance certificate satisfying the City insurance requirements is attached as **Exhibit E**.

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

9. **INDEMNITY. THE CONSULTANT SHALL DEFEND, INDEMNIFY AND HOLD HARMLESS THE CITY, ITS OFFICERS, AGENTS, SERVANTS AND EMPLOYEES FROM AND AGAINST ANY AND ALL SUITS, ACTIONS, LEGAL PROCEEDINGS, CAUSES OF ACTION, CLAIMS, DEMANDS, DAMAGES, JUDGMENTS, LOSSES, LIENS, COSTS, EXPENSES, ATTORNEYS' FEES AND ANY AND ALL OTHER COSTS, FEES AND/OR CLAIMS OF ANY KIND OR DESCRIPTION ARISING OUT OF, IN CONNECTION WITH OR RESULTING FROM THE AGREEMENT OR SERVICES PROVIDED UNDER THE AGREEMENT OR FROM ITS NEGLIGENCE OR WILLFUL ACT WHETHER SUCH ACT BE BY THE CONSULTANT OR ITS DESIGNEE. THE CITY, AS A GOVERNMENTAL ENTITY IN THE STATE OF TEXAS, SHALL NOT INDEMNIFY THE CONSULTANT.**

10. **Release by Consultant.** The Consultant releases, relinquishes and discharges the City, its elected officials, officers, directors, agents, employees, representatives and volunteers from all claims, demands, and causes of action of every kind and character, including the cost of defense, for any injury to or death of any person (whether employees of either party or other third parties) and any loss or damage to any property that is caused by or alleged to be caused by, arising out of, or in connection with the work it performed under this Agreement. This release shall apply regardless of whether the claims, demands and/or causes of action are covered in whole or in part by insurance.

11. **Dispute Resolution.** If either the Consultant or the City has a claim or dispute, the parties shall first attempt to resolve the matter through this dispute resolution process. The disputing party shall notify the other party in writing as soon as practicable after discovering the claim, dispute or breach. The notice shall state the nature of the dispute and list the party's specific reasons for such dispute. Within ten (10) business days of receipt of the notice, both parties shall make a good faith effort, in person or through generally accepted means, to resolve any claim, dispute, breach or other matter in question that may arise out of, or in connection with, this Agreement. If the parties fail to resolve the dispute within sixty (60) days of the date of receipt of the notice of the dispute, then the parties may submit the matter to non-binding mediation upon written consent of authorized representatives of both parties. If the parties cannot resolve the dispute through mediation, then either party shall have the right to exercise any and all remedies available under law regarding the dispute.

12. **Ownership of Documents.** The City shall retain ownership of all associated work products and documentation obtained from or created by the Consultant pursuant to this Agreement. Consultant shall deliver all documents or other work product to the City upon request, including original versions if so specified in the request.

13. **Payment Terms.** All payments will be processed in accordance with Texas Prompt Payment Act, Texas Government Code, Subtitle F, Chapter 2251. The City will pay Consultant within thirty days after receipt of a correct invoice for services. The Consultant may charge a late fee (fee shall not be greater than that permitted under the Texas Prompt Payment Act) for payments not made in accordance with this prompt payment policy; however, the policy does not apply to payments made by the City in the event: (a) there is a bona fide dispute between the City

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

and Consultant concerning the goods, supplies, materials, equipment delivered, or the services performed, that causes the payment to be late; (b) the terms of a federal agreement, grant, regulation or statute prevents the City from making a timely payment with Federal funds; (c) there is a bona fide dispute between the Consultant and a subcontractor and its suppliers concerning goods, supplies, material or equipment delivered, or the services performed, which caused the payment to be late; or (d) the invoice is not mailed to the City in accordance with this Agreement.

14. **Termination for Convenience.** The City shall have the right to terminate this Agreement, in whole or in part, without cause any time upon thirty (30) calendar days' prior written notice. Upon receipt of a notice of termination, the Consultant shall promptly cease all further work pursuant to the Agreement, with such exceptions, if any, specified in the notice of termination. The City shall pay the Consultant, to the extent of funds appropriated or otherwise legally available for such purposes, for all services performed and obligations incurred prior to the date of termination.

15. **Termination for Cause.** In addition to the termination rights described above, either party may terminate this Agreement effective upon written notice to the other if the other breaches any of the terms and conditions of this Agreement and fails to cure that breach within thirty (30) days after receiving written notice of the breach. In the event of an incurable breach, the non-breaching party may terminate this Agreement effective immediately upon written notice to the breaching party. In addition to all other remedies available under law and in equity, the City may remove the Consultant from the City's Vendor list in the event that this Agreement is terminated for cause and any offer submitted by the Consultant may be disqualified for up to three (3) years.

16. **Non-Appropriation**. This Agreement is a commitment of City's current revenues only. It is understood and agreed that the City shall have the right to terminate this Agreement at the end of any City fiscal year if the governing body of the city does not appropriate funds sufficient to purchase the services. The City may terminate for non-appropriation by giving the Consultant a written notice of termination at the end of its then current fiscal year.

17. **Notices.** Any notice or communication permitted or required by this Agreement shall be deemed effective when personally delivered or deposited, postage prepaid, in the first class mail of the United States properly, or sent via electronic means, addressed to the appropriate party at the address set forth below:

18. **Independent Contractor.** The Agreement shall not be construed as creating an employer/employee relationship, a partnership or joint venture. The Consultant's services shall be those of an independent contractor. The Consultant agrees and understands that the Agreement does not grant any rights or privileges established for employees of the City. Consultant shall not be within protection or coverage of the City's Worker Compensation insurance, Health Insurance, Liability Insurance or any other insurance that the City, from time to time, may have in force.

19. **Force Majeure.** The City and the Consultant will exert all efforts to perform the tasks set forth herein within the proposed schedules. However, neither the City nor the Consultant shall be held responsible for inability to perform under this Agreement if such inability is a direct result of a force substantially beyond its control, including but not limited to the following: strikes, riots, civil disturbances, fire, insurrection, war, embargoes, failures of carriers, acts of God, or the public enemy.

20. **No Waiver.** The waiver by either party of a breach or violation of any provision of this Agreement shall not operate as or be construed to be a waiver of any subsequent breach hereof.

21. **Nondiscrimination.** The Consultant, with regard to the work performed by it after award and prior to completion of this Agreement, shall not discriminate on the basis of race, color, sex, or national origin in the selection and retention of Sub-consultants, including procurements of materials and leases of equipment. The Consultant shall not participate either directly or indirectly in the discrimination prohibited by any federal, state or local law.

22. **Right to Audit**. The Consultant agrees that the representatives of the City shall have access to, and the rights to audit, examine, or reproduce, any and all Consultant records related to the performance under this Agreement. The Consultant shall retain all such records for a period of four (4) years after final payment on this Agreement or until all audit and litigation matters that the City has brought to the attention of the Consultant are resolved, whichever is longer.

23. **Advertising and Publicity**. Consultant shall not advertise or otherwise publicize, without the City's prior written consent, the fact that the City has entered into the Agreement, except to the extent required by applicable law.

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

24. **Confidential Information**. Each party agrees not to use, disclose, sell, license, publish, reproduce or otherwise make available the Confidential Information of the other party except and only to the extent necessary to perform under this Agreement or as required by the Texas Public Information Act or other applicable law. Confidential Information shall be designated and marked as such at the time of disclosure. Each party agrees to secure and protect the other party's Confidential Information in a manner consistent with the maintenance of the other party's confidential and proprietary rights in the information and to take appropriate action by instruction or agreement with its employees, consultants, or other agents who are permitted access to the other party's Confidential Information to satisfy its obligations under this Section. The provisions of this paragraph shall survive the term of the Agreement.

25. **Consultant Certification Regarding Boycotting Israel.** Pursuant to Chapter 2271, Texas Government Code, Consultant certifies that either (1) it is a sole proprietorship or company with fewer than ten (10) employees, or (2) it does not currently boycott Israel and will not boycott Israel during the term of this Agreement. Consultant acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

26. **Consultant Certification Regarding Business with Certain Countries and Organizations.** Pursuant to Subchapter F, Chapter 2252, Texas Government Code, Consultant certifies Consultant is not engaged in business with Iran, Sudan, or a foreign terrorist organization. Consultant acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

27. **Consultant Certification Regarding Boycotting Energy Companies.** Pursuant to Chapter 2274, Texas Government Code, Consultant certifies that either (1) Consultant is a sole proprietorship or company with fewer than ten (10) employees or (2) Consultant does not currently boycott energy companies and will not boycott energy companies during the Term of this Agreement. Consultant acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

28. **Consultant Certification Regarding Boycotting Firearm And Ammunition Industries.** Pursuant to Chapter 2274, Texas Government Code, Consultant certifies that either (1) Consultant is a sole proprietorship or company with fewer than ten (10) employees or (2) Consultant does not currently boycott firearm and ammunition industries; and will not boycott firearm and ammunition industries during the Term of this Agreement. Consultant acknowledges this Agreement may be terminated and payment withheld if this certification is inaccurate.

29. **Severability.** This Agreement is severable and if any one or more parts of it are found to be invalid, such invalidity shall not affect the remainder of this Agreement if it can be given effect without the invalid parts.

30. **Survivability**. Subject to the limitations and other provisions of this Agreement: (a) the representations and warranties of the Parties contained herein will survive the expiration or earlier termination of this Agreement for a period of twenty-four (24) months after such

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

expiration or termination and (b) the Indemnity and Release of Contractor sections of this Agreement, as well as any other provision that, in order to give proper effect to its intent, should survive such expiration or termination, will survive the expiration or earlier termination of this Agreement for a period of twenty-four (24) months after such expiration or termination.

31. **Governing Law and Venue**. This Agreement shall be governed by the laws of the State of Texas. Venue shall be located in Williamson County, Texas.

32. **Successors and Assigns.** This Agreement shall bind and inure to the benefit of the parties hereto and any subsequent successors and assigns; provided however, that no right or interest in the Agreement shall be assigned and no obligation shall be delegated by the Consultant without the prior written consent of the City. Any attempted assignment or delegation by the Consultant shall be void unless made in conformity with this Paragraph.

33. **Third Party Beneficiaries.** Nothing contained in this Agreement shall create a contractual relationship with or a cause of action in favor of a third party against either the City or the Consultant.

34. **Entire Agreement.** This Agreement, with all exhibits, includes the entire agreement of the City and the Consultant and supersedes all prior and contemporaneous agreements between the parties, whether oral or written, relating to the subject of this agreement.

Exhibit A
Scope of Services
Utility Billing Software Assessment

1. **Summary of Project/Background:**

The City of Georgetown provides five utility services: water, sewer, electric, drainage and solid waste. FY2025 annual billed revenue is projected to be $247 million. There are approximately 75,000 customers; including 66,389 water meters and 35,776 electric meters. The City provides water service, and also bills the external sewer service under interlocal agreements with the City of Liberty Hill, and the Parkside and Highlands MUDs. Conversely, the Jonah Special Utility District provides water service, and therefore bills sewer, drainage, solid waste and streetlight services on behalf of the City of Georgetown.

The City currently utilizes Itineris' UMAX365 for its utility billing and customer management functions. The system has been in place since 2023, with an on-premises original implementation in 2018. (Related products include Service Link for work orders, and the DataHub irrigation detection algorithm.) As our technology needs and the market for utility billing solutions have evolved, the City needs to understand the current requirements of the five utilities, any gaps between those needs and the current system, the "Total Cost of Ownership" (TCO) of our current system, a market comparison of other systems, and functionality that would be lost or gained from moving to a different system.

The purpose of this project is to engage a qualified third-party consultant to conduct a high-level requirements documentation, TCO analysis of our existing utility billing software system and support and to provide a comparative analysis of our current system against the functionality and estimated TCO of a representative selection of current utility billing software systems. A comparison would include estimated costs of a new system, support staff, as well as the upfront implementation costs to determine whether a different system would have a net beneficial cost impact. The findings will be used to inform future strategic planning and budget decisions related to our utility billing operations.

2. **Consultant Responsibilities**.

The Consultant shall:

A. Identify current gaps in utility requirements for rate structures, customer service offerings, reporting, and related business needs.

B. Identify high level functionality that may be gained or lost by transitioning to a new system.

C. Gain a clear and comprehensive understanding of the total financial and operational costs associated with our current utility billing software system.

D. Evaluate the current market of utility billing software systems, identifying key vendors and their capabilities.

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

E. Provide a data-driven, long-term TCO comparison between our existing system and potential replacement options.

F. Address whether cost efficiency could be gained by improving the use of MDM, AMI, and software integrations in conjunction with the existing or a new billing system.

G. Identify opportunities for cost savings and increased efficiency within our utility billing software stack.

The Consultant shall provide the above services through the following phased approach:

Phase 0 Preparation and Kickoff

A. Formal Project Kickoff Meeting and project plan
B. CIS Industry Educational Workshops

Phase 1 System Requirements Gap Analysis

Consultant shall conduct a high-level system needs requirements with all stakeholder departments. Identify business processes and rate structures that the City currently desires to use but that are not available in our current product. Provide analysis of whether these processes/structures can be built in the current product and cost. Additionally, provide analysis as to whether these processes/structures are readily available in the market of comparable systems or require custom code development. Consultant shall also conduct an organizational staffing assessment.

A. Stakeholder departments include: Water/Sewer, Electric, Public Works (Stormwater Drainage, Solid Waste), Customer Care Call Center, Customer Billing, Customer Metering, Information Technology.

B. Needs requirements may include, but is not limited to: rate structures, billing features, customer service program offerings, reports, integrations, etc.

Phase 2 Total Cost of Ownership Analysis of Current System

The Consultant will conduct a thorough TCO analysis of the City's current utility billing software and support. This analysis shall include, but not be limited to, the following cost components:

A. **Direct Costs:**

1. Initial implementation and upgrade costs.
2. Annual software licensing and maintenance fees.
3. Hardware and infrastructure costs (servers, storage, networking).
4. Vendor support and service fees.

B. **Indirect and Operational Costs:**

1. Labor costs for system administration and maintenance.
2. Training costs for new and existing staff.
3. Costs associated with system integrations, customizations, and third-party add-ons.
4. Opportunity costs of inefficiencies and system risks.
5. Costs of future upgrades and migrations.
6. Any other recurring or non-recurring costs related to the system's operation.

Phase 3 Market Analysis and Comparative TSO

The Consultant will evaluate the current market for utility billing software and provide a comparative analysis for a future 10-year period. This will involve:

A. Identifying and profiling at least three to five utility billing software systems that are suitable for a municipality of our size and complexity; including identifying comparable utilities using those systems.

B. Researching each system's capabilities, features, and functionality, with a focus on core needs (meter work orders, billing, payment processing, customer self-service, and reporting) and utilizing the information provided in 3.1 Gap Analysis.

C. Analysis must include rate structures for the current four third-party contracts

D. Conducting a high-level TCO analysis for each of the selected alternative systems. This analysis should project direct, indirect, and operational costs over a 10-year period, using industry benchmarks and best practices. Key cost components should include:

1. Initial implementation, integration and data migration costs.
2. Ongoing licensing and support fees.
3. Projected hardware, infrastructure, and IT support costs.
4. Training and change management costs.

E. Identify 10 to 20 high level business processes or practices currently used by the City of Georgetown across the billing, or payment processing areas, focusing on processes identified by the City or Consultant as most critical; and compare how these processes would generally differ in each of the compared systems. This may also address billing processes that may be unique to

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

Georgetown and not generally supported in billing systems used by similar organizations. Detailed analysis of the process or software steps is not desired, rather a simple comparison of whether the process is "built-in" the different systems and, if so, whether other software tools are known to be more efficient for these processes.

F. Identify additional support services provided by Itineris and compare those to support services provided by other potential providers. These may include services currently provided by Itineris such as on-demand functionality enhancements, development of additional modules such as excessive water use monitoring, and monthly customer success meetings.

G. Review the data analysis and reporting services offered by chosen software companies and provide an opinion on whether the City may lose or gain functionality in this area if different software was used.

Phase 4 High Level Technical review

The Consultant will investigate current and proposed uses of other software systems in the "meter-to-cash" software stack including meter data management (MDM), advanced metering infrastructure (AMI), and integration with other tools (GIS, outage management, work order ticketing, asset management, conservation DataHub) and how these systems are generally used in conjunction with the UMAX 365 billing software.

A. Analyze the City's current and proposed uses of AMI and MDM technologies, including the intention to use different MDM and AMI systems for the Electric and Water Utilities.

B. Identify ways in which billing system costs may be impacted by current and proposed use of MDM and AMI.

C. Determine whether the scope and number of software integrations used by City is comparable with similar organizations.

3. Deliverables. The Consultant shall provide:

A. A requirements matrix identifying functional gaps and comparing the capabilities of the current system to a selection of systems available in the market.

B. A detailed report and presentation summarizing the TCO of the current utility billing system from 2018 through 2028. This report should clearly itemize and categorize all identified costs. Include data how long it would take to recoup the costs of a new implementation and achieve a state where there is a net benefit of a less expensive system.

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

C. A comparative analysis report that outlines the TCO for each alternative system, contrasting it with the TCO of the current system. This report should highlight the strengths and weaknesses of each system from both a functional and financial perspective. Include coverage of the support services provided by Itineris, how other companies or third-party vendors may provide these services, and what are standard costs for those services. Further, a general overview of whether improvements could be made in reporting and data analytics should be included.

D. Conclusions about the efficiency of current and proposed uses of AMI, MDM and software integrations; and, how the City may improve the overall efficiency of the "meter-to-cash" software stack/architecture.

E. A final comprehensive report that includes:

1. An executive summary of the project findings
2. Summary of the current system requirements and gap analysis
3. Comparative analysis of alternative systems including key functionality, support services, and data analytics; specifically stating what might be gained or lost by moving to another software.
4. A list of recommended system improvements, regardless of whether a new system is adopted
5. An overview of the utility billing software market and what might be expected in costs. Include findings on whether the size and functionality of the current system is appropriate for the City
6. The detailed TCO analysis of the current system versus other systems. Provide cost data on a per meter or per customer data after carefully defining what a "customer" or "meter" entails
7. Opinions regarding appropriate support staffing levels for a utility billing system and how those compare to existing levels.
8. General recommendations for more efficient use of MDM, AMI and software integrations in conjunction with the utility billing system
9. A final recommendation on whether the City should continue with the current system or consider a replacement supported by the functional assessment and TCO data.

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

F. A final presentation to the City Manager and relevant Department Directors to present the findings and answer questions.

Items that are not expected as part of the deliverables include:

1. A full software requirements analysis.
2. Software company marketing materials (unless used as a source for critical data), or detailed technical analysis of the utility billing software stack.
3. An in-depth review of MDM systems. AMI systems or software integration is not expected, Instead a broad overview of these technology systems and general recommendations are desired.

4. Performance Standards.

A. Services shall meet the professional industry standards and comply with applicable federal, state, and local laws.

B. Consultant shall adhere to City deadlines unless prior written approval is obtained.

Consultant shall notify the City promptly of any issues that may impact services. Consultant shall be product agnostic.

Exhibit C
Payment Terms

Payment is a fixed fee, including expenses, in the not to exceed amount listed in Section 4 of this Agreement. This amount shall be payable by the City pursuant to the milestone schedule listed below and upon completion of the services and written acceptance by the City.

The City will reimburse for actual travel expenses for up to five site visits provided that all travel must be approved by the City in advance, and reimbursement requests must include receipts with the exception of meals that will be billed per diem pursuant to the GSA rate for Georgetown Texas. Estimate of travel expenses for up to five site visits is $11,000. In no case may travel expenses exceed $11,000.

Schedule of Payment for each phase:

Table 3. Milestone Payment Table Based On Agreed Upon Deliverables

Milestone Payment Number	Deliverable	Milestone Payment Amount (USD)
1	NavigateOne™ CIS Business Requirements Analysis **(City of Georgetown Deliverable A)**	$18,000
2	TCO Analysis of UMAX from 2018 - 2028 **(City of Georgetown Deliverable B)**	$18,000
3	Market Analysis and Comparative TCO **(City of Georgetown Deliverable C)**	$18,000
4	AMI / MDM Technical Review **(City of Georgetown Deliverable D)**	$18,000
5	Draft Assessment Report **(City of Georgetown Deliverable E)**	$18,000
6	Final Assessment Report and Presentation **(City of Georgetown Deliverable F)**	$20,000
	Total Fixed-Fee for Utility Billing Software Assessment	$110,000

Exhibit D
Insurance Requirements

I. The Consultant agrees to maintain the types and amounts of insurance required in this Agreement throughout the term of the Agreement. The following insurance policies shall be required:

A. Commercial General Liability
B. Business Automobile Liability
C. Workers' Compensation
D. Professional Liability

II. For each of these policies, the Consultant's insurance coverage shall be primary with respect to the City, its officials, agents, employees and volunteers. Any insurance or self-insurance carried or obtained by the City, its officials, agents, employees or volunteers, shall be considered in excess of the Consultant's insurance and shall not contribute to it. No term or provision of the indemnification provided by the Consultant to the City pursuant to this Agreement shall be construed or interpreted as limiting or otherwise affecting the terms of the insurance coverage. All Certificates of Insurance and endorsements shall be furnished to the City's Representative at the time of execution of this Agreement, attached hereto as Exhibit D, and approved by the City *before* work commences.

III. General Requirements Applicable to All Policies.

A. Only licensed insurance carriers authorized to do business in the State of Texas shall be accepted.
B. Deductibles shall be listed on the certificate of insurance and are acceptable only on an "occurrence" basis.
C. "Claims made" policies are not accepted, except for Professional Liability insurance.
D. Coverage shall not be suspended, voided, canceled, or reduced in coverage or in limits except after thirty (30) calendar days prior written notice has been given to the City of Georgetown.
E. The Certificates of Insurance shall be prepared and executed by the insurance company or its authorized agent. Each certificate shall contain the following provisions and warranties:
    1. The insurance company is licensed and authorized to do business in the State of Texas
    2. The insurance policy is underwritten on forms provided by the Texas State Board of Insurance or ISO
    3. All endorsements and coverages are included according to the requirements of this Agreement
    4. The form of notice of cancellation, termination, or change in coverage provisions is specified in this attachment

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

F. The City of Georgetown, its officials, agents, employees, and volunteers are to be listed as Additional Insureds on the Commercial General Liability and Business Automobile Liability Policies. The coverages shall contain no special limitations on the scope of protection afforded the City, its officials, employees, and volunteers.

V. **Commercial General Liability** requirements:

A. Coverage shall be written by a carrier rated "A: VIII" or better in accordance with the current A. M. Best Key Rating Guide.
B. Minimum Combined Single Limit of $1,000,000 per occurrence per project for bodily injury and property damage with a $2,000,000 annual aggregate limit.
C. Coverage shall be at least as broad as Insurance Service's Office Number CG 00 01.
D. No coverage shall be excluded from the standard policy without notification of individual exclusions being attached for review and acceptance.
E. The coverage shall not exclude: premises/operations; independent contracts; products/completed operations; contractual liability (insuring the indemnity provided herein); and where exposures exist, Explosion, Collapse and Underground coverage.
F. The City shall be listed as Additional Insured, and the policy shall be endorsed to waive rights of subrogation, to be primary and non-contributory with regard to any self-insurance or insurance policy held by the City.

VI. **Business Automobile Liability** requirements:

A. Coverage shall be written by a carrier rated "A:VIII" or better in accordance with the current Best Key Rating Guide.
B. Minimum Combined Single Limit of $1,000,000 per occurrence for bodily injury and property damage.
C. The Business Auto Policy must show Symbol 1 in the Covered Autos portion of the liability section in Item 2 of the declarations page.
D. The coverage shall include owned, leased or rented autos, non-owned autos, any autos and hired autos.

VII. **Workers' Compensation Insurance** requirements:

A. Pursuant to the requirements set forth in Title 28, Section 110.110 of the Texas Administrative Code, *all* employees of the Consultant, the Consultant, *all* employees of any and all subconsultants, and all other persons providing services on the Project must be covered by a workers compensation insurance policy, either directly through their employer's policy (the Consultant's, or subconsultant's policy) or through an executed coverage agreement on an approved DWC form. Accordingly, if a subconsultant does not have his or her own policy and a coverage agreement is used, Consultants and subconsultants *must* use that portion of the form whereby the hiring Consultant agrees to provide coverage to the employees of the

Docusign Envelope ID: 572417C5-FC78-88D4-8128-923FA5F9DF62

subconsultant. The portion of the form that would otherwise allow them not to provide coverage for the employees of an independent Consultant may not be used.

B. The workers compensation insurance shall include the following terms:

1. Employer's Liability limits of $1,000,000 for each accident is required.
2. "Texas Waiver of Our Right to Recover From Others Endorsement, WC 42 03 04" shall be included in this policy.
3. Texas must appear in Item 3A of the Worker's Compensation coverage or Item 3C must contain the following: All States except those listed in Item 3A and the States of NV, ND, OH, WA, WV, and WY.

VIII. **Professional Liability** requirements:

A. Coverage shall be written by a carrier rated "A:VIII" or better in accordance with the current A. M. Best Key Rating Guide.
B. Minimum of $1,000,000 per occurrence and $2,000,000 aggregate, with a maximum deductible of $100,000.00. Financial statements shall be furnished to the City upon request.
C. For "claims made" policies, the availability of a 24-month extended reporting period is necessary. The retroactive date shall be shown on the certificate of liability insurance.
