AIRPORT COMMISSION REGULAR MEETING – 6:30 PM

MEETING PARTICIPATION INFORMATION CAN BE FOUND AT THE END OF THE AGENDA

CIVIC CENTER MEETING HALL
WILLIAM M. MENDENHALL COMMUNITY ROOM
1016 S. LIVERMORE AVENUE

Darin Bishop, Chair
David Farley, Commissioner
Christopher Dombrowski, Vice Chair
Victoria L Schellenberger, Commissioner
Jon Lavine, Commissioner

1. CALL TO ORDER

ROLL CALL

Commissioner David Farley
Commissioner Jon Levine
Commissioner Victoria Schellenberger
Vice Chair Christopher Dombrowski
Chair Darin Bishop

2. PLEDGE OF ALLEGIANCE

3. OPEN FORUM

- In conformance with the Brown Act, no Airport Commission action can occur on items presented during Open Forum.
- To provide public comment, please submit a speaker card. When your name is called, walk to the lectern to address the Airport Commission.
- Comments are limited to a maximum of 3 minutes per person, per item. The Chair may reduce the amount of time based on the number of persons wishing to speak.
- Open Forum will conclude after 30 minutes; however, if there are additional speakers, Open Forum will reconvene after Matters for Consideration.

4. CONSENT CALENDAR

Consent Calendar items are considered routine and are acted upon by the Airport Commission with a single action. Members of the audience wishing to provide public input must submit a speaker card.

4.1 Approval of Airport Commission draft minutes for Special Meeting March 19, 2025 and Regular Meeting April 7, 2025.

Recommendation:
Staff recommends the Airport Commission approve the draft minutes.
Attachments:

2. 2025-04-07 - Draft Minutes Airport Commission

4.2 Attested Airport Commission minutes for May 5, 2025

Recommendation:
No action to be taken by Commissioners.
Staff Report
Attachments:
1. 2025-05-05 - Attested Minutes Airport Commission

5. MATTERS FOR CONSIDERATION

5.1 Review of Airport aircraft operations, activity and noise reports for the months of March 2025 and April 2025.

Recommendation:
Staff recommends the Airport Commission accept the reports.
Staff Report
Attachments:
1. LVK Statistics Summary March 2025
2. FAA Aircraft Operations March 2025
3. LVK Activity March 2025
4. Noise Concerns Statistics March 2025
5. Noise Concerns by Operation March 2025
6. Noise Concerns March 2025
7. LVK Statistics Summary April 2025
8. FAA Aircraft Operations April 2025
9. LVK Activity April 2025
10. Noise Concerns Statistics April 2025
11. Noise Concerns by Operation April 2025
12. Noise Concerns April 2025

5.2 Discussion of Livermore Airport Noise Reporting

Recommendation:
Staff recommends the Airport Commission discuss noise reporting at the Livermore Airport.
Staff Report
Attachments:
1. LVK - 2025-04-07 Weekly Noise Report v1.0
2. PAO - 2023 Annual Airport Noise Report
3. SMC - Noise Monthly Report Nov24-Jan25
4. Contra Costa County Noise Report

6. COMMITTEE REPORTS AND MATTERS INITIATED BY STAFF AND COMMISSION MEMBERS

7. ADJOURNMENT

To a regular Airport Commission meeting on Monday, July 7, 2025 at 6:30 pm, Civic Center Meeting Hall, William M. Mendenhall Community Room, 1016 S. Livermore Avenue.

8. HOW TO PARTICIPATE IN THE MEETING

You can participate in the meeting in a number of ways:

Open Forum is an opportunity for the public to speak regarding items not listed on the agenda. Speakers are limited to a maximum of 3 minutes per person. To address the Airport Commission, you must submit a speaker card to the liaison prior to the start of that item. You should be aware that the Airport Commission is prohibited by State law from taking action on any items that are not listed on the agenda. However, if your item requires action, the Commission may place it on a future agenda or direct staff to work with you and/or report to the Commission on the issue.

Other Agenda Items are also open for public input including Consent Calendar or Matters for

Consideration items. These comments are also subject to the 3-minute limit.

Special Meetings, Workshops - The public will have the opportunity to address the Airport Commission regarding the item that is the subject of the special meeting or workshop. Public comments are limited to a maximum of 3 minutes per person.

Submission of Comments Prior to the Meeting:

Email Comments may be submitted by the public to the Commission liaison (arhescher@LivermoreCA.gov). Items received no later than 12:00 pm the day of the meeting will be provided to the Airport Commission and available on the City website prior to the meeting. These items will NOT be read into the record.

eComments may be submitted by the public using the eComment link here. Comments may be up to 1000 characters in length and will be accepted up until 3:30 pm the day of the meeting. These items will NOT be read into the record and are viewable by the Airport Commission and the public upon submittal.

Submission of Comments During the Meeting:

Speakers are limited to a maximum of 3 minutes per person. To submit a comment, you must complete a speaker card for each item. Speaker cards are available in the Civic Center Meeting Hall lobby. Indicate on the card the item number you wish to comment on and submit the card directly to the liaison prior to the start of the item. You should be aware that the Commission is prohibited by State law from taking action on any items that are not listed on the agenda. However, if your item requires action, the Commission may place it on a future agenda or direct staff to work with you and/or report to the Commission on the issue.

If you would like to deliver written materials to the Airport Commission as part of your public comments, please provide 8 copies to the liaison with your speaker card.

The **Airport Commission Agenda and Agenda Reports** are prepared by City staff and are available for public review on Thursday evening, prior to the Airport Commission meeting at 1016 South Livermore Avenue, Livermore. The Agenda is also available on the City's website, http://livermoreca.gov/agenda.

Under Government Code §54957.5, any supplemental material distributed to the members of the Airport Commission after the posting of this agenda will be available for public review at 1052 South Livermore Avenue, Livermore, and included in the agenda packet available on the City's web site at http://livermoreca.gov/agenda.

PURSUANT TO TITLE II OF THE AMERICANS WITH DISABILITIES ACT (CODIFIED AT 42 UNITED STATES CODE SECTION 12101 AND 28 CODE OF FEDERAL REGULATIONS PART 35), AND SECTION 504 OF THE REHABILITATION ACT OF 1973, THE CITY OF LIVERMORE DOES NOT DISCRIMINATE ON THE BASIS OF RACE, COLOR, RELIGION, NATIONAL ORIGIN, ANCESTRY, SEX, DISABILITY, AGE OR SEXUAL ORIENTATION IN THE PROVISION OF ANY SERVICES, PROGRAMS, OR ACTIVITIES. TO ARRANGE AN ACCOMMODATION IN ORDER TO PARTICIPATE IN THIS PUBLIC MEETING, PLEASE

CONTACT THE ADA COORDINATOR AT ADACOORDINATOR@LIVERMORECA.GOV OR CALL (925) 960-4170 (VOICE) OR (925) 960-4104 (TDD) AT LEAST THREE (3) BUSINESS DAYS IN ADVANCE OF THE MEETING.

LIVERMORE
CALIFORNIA

AIRPORT COMMISSION STAFF REPORT **ITEM NO. 5.2**

DATE: June 2, 2025

TO: Chairperson and Members of the Airport Commission

FROM: Benny Stuth, Airport Manager

SUBJECT: Discussion of Livermore Airport Noise Reporting

RECOMMENDED ACTION

Staff recommends the Airport Commission discuss noise reporting at the Livermore Airport.

SUMMARY

In a previous Airport Commission meeting, the Commission discussed noise reporting and how it could be changed to more accurately reflect noise impacts on the local community. The Commission requested Airport staff return at a future meeting with requested information about potential changes that could be made to improve the accuracy of noise reporting. This item responds to that request.

DISCUSSION

The Airport Commission has in previous meetings discussed the monthly noise reports and identified that a relatively small number of households routinely submit a large percentage of the noise concerns, which may not accurately reflect noise impacts experienced by the broader community. The Commission expressed a desire to explore changes to how noise reporting occurs and/or is presented. In response, Airport staff is presenting for the Commission's review the noise report that is submitted weekly to the Livermore City Council. (Attachment 1). Staff has also reviewed the noise reporting practices for the following airports:

- Hayward Executive - Noise Concerns are not reported out.
- Palo Alto Airport - Noise reports are made annually directly to the City Council. (Attachment 2)
- San Mateo County Airports - Noise Concerns are reported out quarterly. (Attachment 3)
- Contra Costa County Airports - Noise concerns are reported out monthly to their Airport Commission. (Attachment 4)

Additionally, the Commission requested that staff explore how the data might be represented if noise reports were limited to one concern submitted per aircraft operation per household. Staff has looked into this and has found the following:

1. It is possible to represent the data with the limit in place; however, this is not a simple function of the Casper software and requires staff to individually look through each entry to find the duplicates.
2. After review of the noise concerns data entries, staff found that instances of multiple concerns submitted by one person for the same flight are relatively rare.
3. With the exception of some duplication in submitted concerns, single households typically submit multiple concerns on multiple aircraft.

No action or vote will be taken on this item. Staff recommends the Airport Commission discuss noise reporting at the Livermore Airport and provide any necessary input to staff.

CITY OF
PALO ALTO

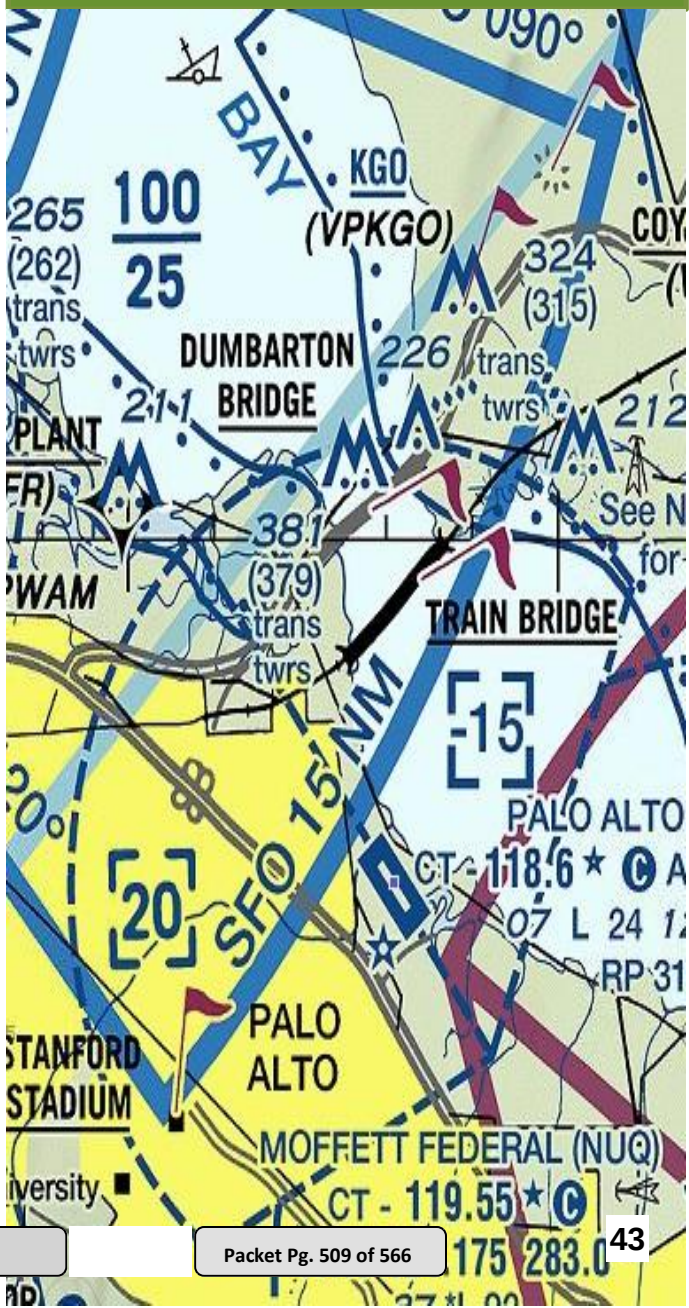
PALO ALTO AIRPORT

PUBLIC WORKS DEPARTMENT

2023 ANNUAL NOISE REPORT

(January 2023 to December 2023)

Vision: Palo Alto Airport strives to balance the interests of pilots to fly with the interests of neighbors in a peaceful living environment. This document is a report of the noise complaints received by the airport in 2023. Airport staff uses this information to identify trends within Palo Alto and neighboring communities. These trends inform communications between airport staff and pilots on the issue of noise.



Introduction:

The following is a report on noise-related operations and complaints received by Palo Alto Airport (PAO) in 2023. The Federal Aviation Administration (FAA) defines air travel routes and procedures, including defining separation distances between aircraft, determining hazards to aviation and all other safety criteria for aircraft, and is responsible for directing and enforcing the movement of aircraft in flight. Although organizations can petition the FAA regarding flight procedures, the FAA has the final say in what is safe and acceptable. The Airport Noise and Capacity Act (ANCA) of 1990 federally prohibits public-use airports from restricting airspace.

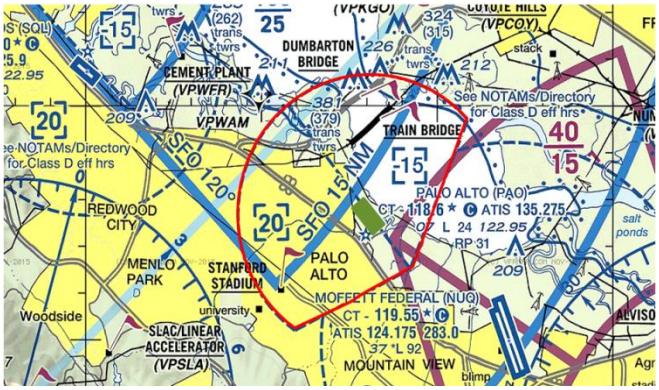
The FAA measures noise based on the Yearly Day and Night Average Sound Level (DNL) and the Community Noise Equivalent Level (CNEL). While both are essentially the same, airports in California use the CNEL method to measure noise. CNEL is a method of averaging single event aircraft noise into a weighted 24-hour average. The system adds penalties to all events occurring during the evening (7pm – 10pm) and the night (10pm – 7am). The Santa Clara County Airport Land Use Commission (SCC ALUC) performed a noise study for the Palo Alto Airport using the CNEL to determine the noise contours for 55, 60, 65, and 70 decibels. The contour map is included as **Attachment A**.

Regarding safety and altitude, the FAA has in place Federal Aviation Regulations (FARs) that establish Minimum Safe Altitudes (MSAs) for aircraft. For fixed wing aircraft, the MSA is 1,000 feet above ground when over congested areas and 500 feet when not over congested areas. These MSAs apply to all fixed wing aircraft except when necessary for landing and takeoff operations. Helicopters are exempt from these altitude restrictions due to the nature of their flight. These minimum altitudes are enforced by the FAA Flight Standards District Office in San Jose, not by Palo Alto Airport. Palo Alto Airport cannot tell pilots when or where to fly; the Airport, however, does have voluntary noise abatement procedures that Palo Alto Airport recommends that pilots follow. (See the Noise Abatement Procedures section below.)

The Airport receives noise complaints via email at pao@cityofpaloalto.org and a noise complaint hotline 650-329-2405. Airport staff review and timely respond to all complaints, ascertaining information from complainants including contact information, date, time, and description of the occurrence. Various flight trackers can be used to help identify the aircraft involved and verify if FAA regulations or Palo Alto Airport procedures were violated. The Airport staff reviews and compiles all data to determine trends with flying activities.

Purpose:

The purpose of the Palo Alto Airport Annual Noise Report is to identify noise trends in the surrounding areas and determine compliance with established voluntary noise abatement procedures.



Palo Alto Airport Sectional Map
Palo Alto Airport in Green
PAO Airspace highlighted in Red
Source: http://vfrmap.com/?type=vfrc&lat=37.461&lon=-122.115&zoom=10

Airspace:

The Palo Alto Airport airspace is unique. The congested Bay Area airspace is dominated by SFO Class Bravo airspace, which encompasses a 30 nautical mile radius around SFO. Underneath the Class Bravo airspace lays the Class Charlie airspace of Oakland and San Jose international Airports. Finally, Moffett Airfield lies approximately 4 nautical miles to the southeast of Palo Alto Airport.

As a result, Palo Alto Airport airspace ends only 1.5 nautical miles southeast of the Palo Alto Airport's single runway (Runway 13/31). To land at Palo Alto Airport, aircraft must turn before entering Moffett's airspace, resulting in aircraft having to space themselves in traffic patterns over the peninsula when take-off/landing volumes peak. The FAA's Air Traffic Control Tower (ATCT) at Palo Alto Airport has a letter of agreement with Moffett's ATCT providing Palo Alto Airport aircraft with extensions into Moffett airspace when Moffett airfield is not in use. The additional airspace is a useful mitigation tool during busy times.

Further restrictions in Palo Alto Airport airspace come from San Jose Class C airspace, starting at 1,500 feet Mean Sea Level, just southeast of Palo Alto Airport and SFO Class B airspace, starting at 2,500 feet Mean Sea Level, just northeast of the Palo Alto Airport. Both are identified on the Palo Alto Airport Sectional Map: San Jose Class C is shown with thick magenta lines and SFO Class B is shown with thick blue lines. These restrictions play a vital role in aircraft departures, in turn influencing noise abatement procedures for the Palo Alto Airport.

Noise Abatement Procedures:

Noise abatement procedures are voluntary procedures that the Airport asks pilots to follow. The Airport is prohibited from restricting airspace. Palo Alto Airport staff will speak with individual pilots and educate them about the voluntary noise abatement procedures. The Palo Alto Airport cannot levy fines on pilots that violate the voluntary noise procedures. For illustrated noise abatement procedures reference Palo Alto Airport Pilots Handout included as **Attachment B**.

The noise abatement procedures depend on the runway that is in use at the time. Depending on weather patterns, aircraft can depart on Runway 31 to the northwest or Runway 13 to the southeast. Approximately 90% of the time, weather conditions require the use of Runway 31. Pilots are asked to not make a left crosswind departure from Runway 31, but instead make a "Left Dumbarton Departure" (fly to the Dumbarton Auto Bridge before making a left turn and flying over East Palo Alto) or a right 270 degree turn before departing to the south or west. When aircraft are using Runway 13, pilots are asked to make

a left 270-degree turn. In addition to these procedures, pilots are asked to climb to 1,500 feet or above ground before crossing Highway 101 and reduce power when safely able.

For arrivals, it is standard practice and necessary for pilots to descend to pattern altitude before entering the traffic pattern around PAO, sometimes requiring aircraft to descend below the 1,500 feet minimum of departing aircraft over Palo Alto. As these aircraft are descending to land the engines are generally powered back and quieter than ascending aircraft.

Airport staff continuously engages with tenants and pilots about the voluntary noise abatement procedures, always noting that safety always supersedes noise.

Findings:

The Palo Alto Airport remains one of the busiest general aviation Airports in the Bay Area with an average of 153,525 operations per year since 2014. Airport Operations for the calendar year of 2023 decreased 8% compared to the calendar year 2022. An operation is defined as either a takeoff or a landing and a touch-and-go procedure will account for two operations.

Table 1. Airport Operations for Palo Alto Airport

Year	Air Taxi	Military	Total	Year	Air Taxi	Military	Total
2004	619	12	199453	2014	1518	22	179900
2005	2397	28	184821	2015	1082	118	172132

AVG	1671.2	100	175043.8	AVG	844.5	66	153524.5

During the 2023 Calendar year, the Airport logged 256 total noise complaints from 23 households. **Table 2** shows the number of complaints by quarter and includes the totals from 2022.

Table 2. Complaints Received

	Quarter 1	Quarter 2	Quarter 3	Quarter 4	Total 2023	Total 2022
Complaints	13	213	20	10	256	383
Households	3	9	7	7	23	33

Table 3 sorts the complaints logged into three sections. The first one is PAO which includes all complaints that involve aircraft that performed an operation at the Airport. The next section is General which includes complaints that did not include a specific aircraft or incident of noise. These complaints may or may not involve aircraft from PAO. The last section is Non-PAO, which include aircraft that are not based or did not operate at the Airport. These flights may include California Highway Patrol, Coast Guard, Air Taxis, Pipe

Surveys, Stanford Life Flight, Angel Flights, and or banner towing operations. Also included in Table 3 are the totals for 2022.

Table 3. Aircraft Association

	Quarter 1	Quarter 2	Quarter 3	Quarter 4	Total 2023	Total 2022
PAO	4	211	16	5	236	337
General	0	0	0	4	4	14
Non-PAO	9	2	4	1	16	32

Table 4 below provides a detailed breakdown of the 256 complaints by City. Most complaints came from the City of Palo Alto, with 227 complaints logged from 8 household. One household in the City of Palo Alto provided 195 complaints as can be seen in Attachment C.

Table 4. PAO Noise Complaints by City

	Quarter 1		Quarter 2		Quarter 3		Quarter 4		Total 2023		Total 2022	
City	C	H	C	H	C	H	C	H	C	H	C	H
Cupertino							1	1	1	1	0	0
East Palo Alto			1	1	2	2	1	1	4	4	6	5
Los Altos			4	1					4	1	1	1
Menlo Park	9	1	3	1					12	2	5	4

Pescadero											19	5
Pleasanton			2	1					2	1	1	1
Portola Valley	1	1							1	1	0	0
San Ramon											1	1
Santa Cruz											1	1
Sunnyvale			1	1					1	1	0	0
Unknown			1	1					1	1	1	1
Woodside			1	1					1	1	0	0
Total	13	3	213	9	20	7	10	7	256	23	383	33

Table 5 below shows the general type of aircraft identified as causing noise complaints at the Airport. There are 2 types of engines for aircraft utilizing PAO. The first is reciprocating which is similar to an automobile engine, and the second is turboprop which is a turbine engine with a propeller that produces thrust. Aircraft are further differentiated by “multi” and “single” which denotes the number of engines for the aircraft. As Table 5, shows single reciprocating aircraft produced the largest portion of noise complaints. This class of aircraft represents most of the fleet at PAO and usually consists of Cessna, Piper and Cirrus aircraft.

Table 5. Aircraft Type

	Helicopter	Multi-Reciprocating	Multi-Turboprop	Single-Reciprocating	Single-Turboprop	Unknown	Drone
2023 Complaints	1	3	4	127	7	101	9
2022 Complaints	15	10	10	241	9	98	0

Table 6 below shows the number of violations of the established noise abatement procedures. Airport staff makes every effort to talk to all pilots that violate these procedures, but it is difficult to talk to all transient pilots about noise abatement procedures. It is not the role of the FAA Air Traffic Control Tower to advise pilots of the noise abatement procedures, however, the City has developed a working relationship with the Air Traffic Control Tower (ATCT) and Air Controllers do advise pilots of the noise abatement procedures when they have the ability to do so.

Table 6. Observed Violations of Noise Abatement Procedures

	Quarter 1	Quarter 2	Quarter 3	Quarter 4	Total
Tenant	1	15	8	3	27
Transient	0	15	1	0	16
Unknown	0	0	1	0	1

Complaints	13	213	20	10	256
Operations	29,707	43,115	42,507	34,530	149,859
% Compliance	99.997%	99.930%	99.976%	99.991%	99.971%

Attachment A

PAO Noise Contour Map

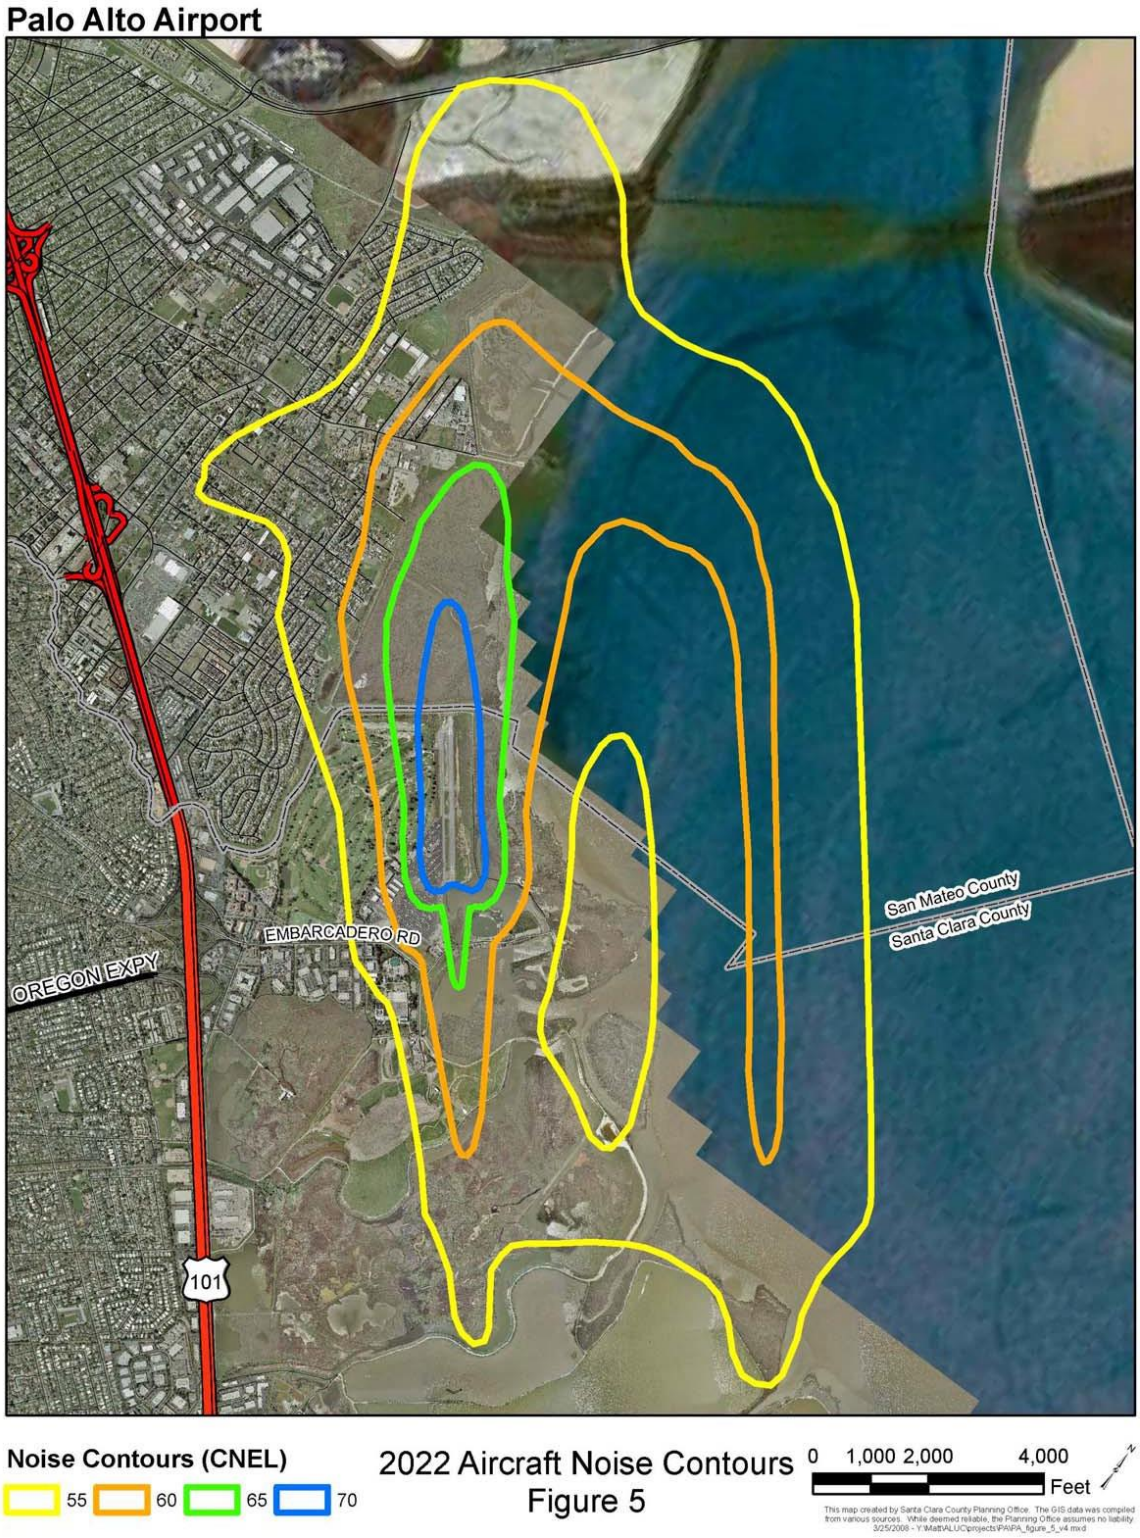
Following is a noise contour map for PAO, adopted by the Santa Clara County Airport Land Use Commission (SCC ALUC) in their 2008 Comprehensive Land Use Plan, reflecting the forecasted noise contours for Palo Alto Airport in 2022.

SCC ALUC used the Integrated Noise Model which considers airport altitude, mean temperature, runway configuration, aircraft flight track definition, aircraft departure and approach profiles, aircraft traffic volume and fleet mix, and flight track utilization by aircraft types. All data is entered into the CNEL formula to prepare the noise contours for Palo Alto Airport.

The 65 decibel (db) noise level of the Airport extends beyond the airport boundaries, but is only over Palo Alto Golf Course, Palo Alto Baylands Nature Preserve, and the salt marshes in San Mateo County.

Refer to https://stgenpln.blob.core.windows.net/document/ALUC_PAO_CLUP.pdf, for a more detailed description of how the SCC ALUC prepared this map.

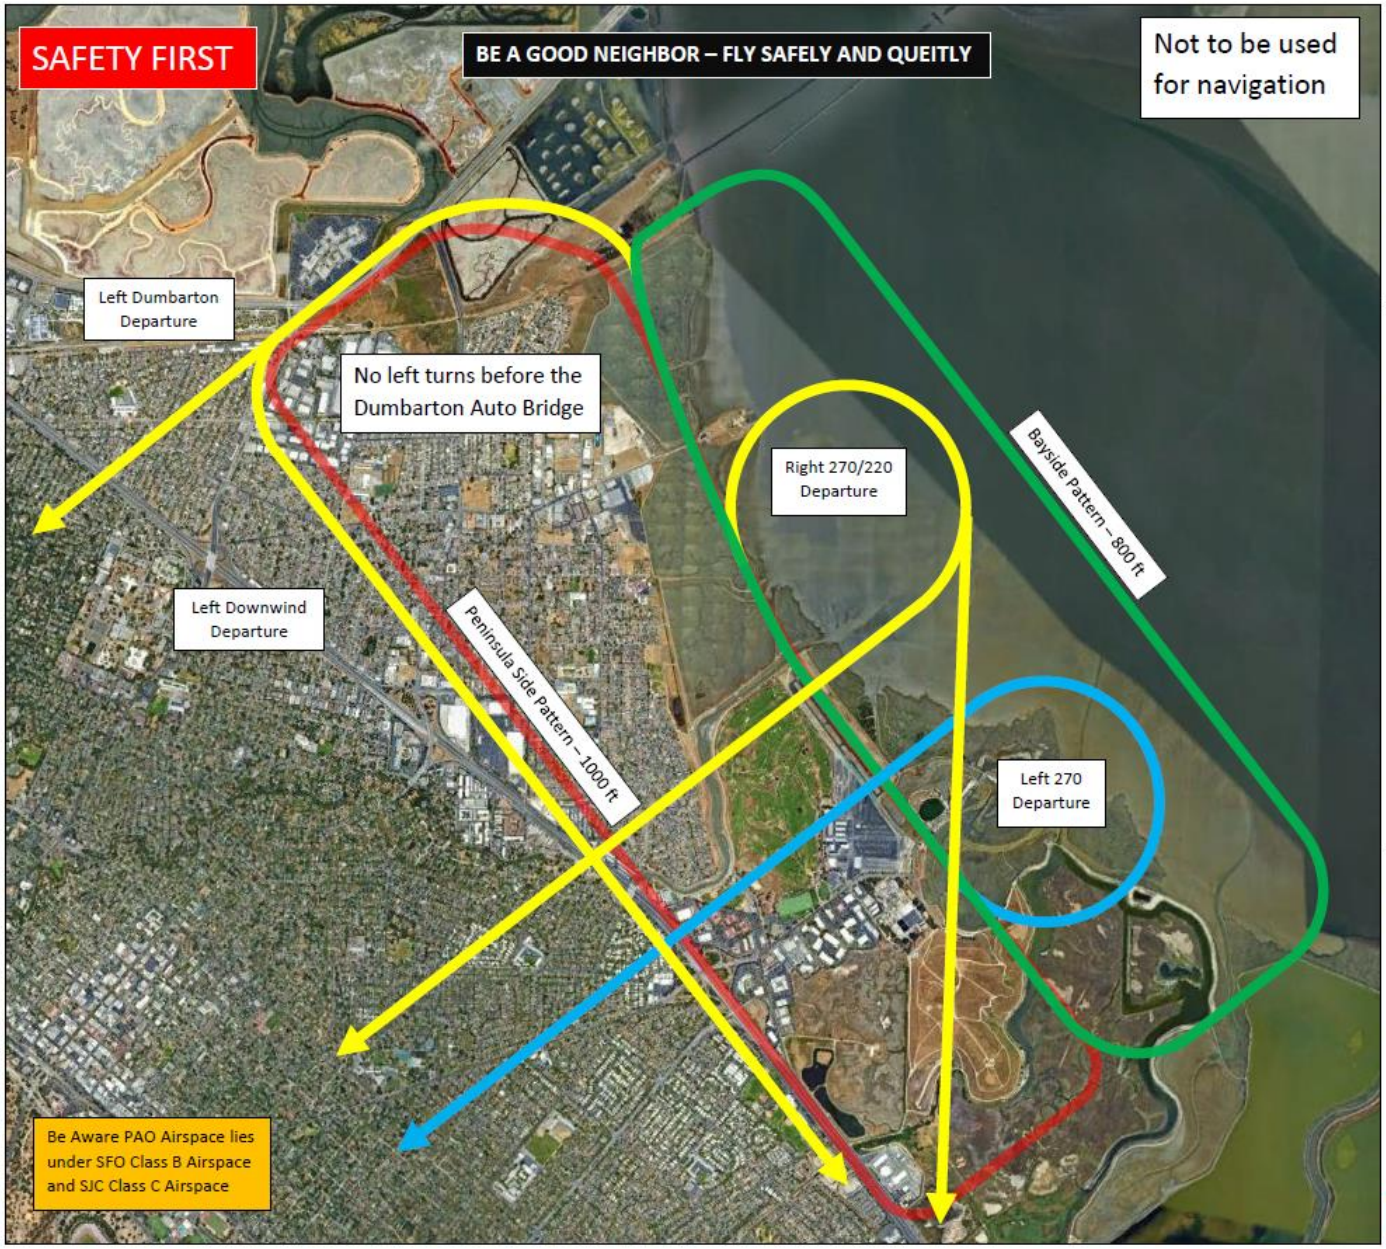
2022 Forecasted Palo Alto Airport Noise Con



Attachment B

PAO Pilot Handout

Santa Clara County created a Pilot Handout for Palo Alto Airport that described the noise abatement procedures. When the City of Palo Alto assumed control of the Airport, the existing noise abatement procedures were adopted, with one exception, “pilots must maintain 1,500 feet or above across Highway 101” was replaced with “Aircraft are asked to climb to and maintain at least 1,500 feet before crossing Highway 101.” The change is consistent with the voluntary nature of noise abatement procedures as Airports are Federally prohibited from instructing pilots how to fly.



PAO Noise Abatement Procedures

Please fly neighborly and be aware of the surrounding communities. There are noise sensitive areas to the West and South of the Airport. **Aircraft are asked to climb to and maintain at least 1500 feet before crossing Hwy 101.**

Fly over the bay whenever possible.

Please use reduced power settings whenever safely possible to reduce noise impacts. Even a reduction in 200 RPM can significantly reduce noise.

Preferred Noise Abatement Procedures

Runway 31

Left Dumbarton Departure

When departing RWY 31 turn right 10° on takeoff and climb over the bay. Fly to the Dumbarton Auto Bridge before making a left turn to fly over the peninsula or to the South. Cross Highway 101 at or above 1500 feet.

Right 270°/220° Departure

After take off climb over the bay while making a 220° turn to the South or 270° turn to the West. Cross Hwy 101 at or above 1500 feet.

- Clearly make request to PAO ATCT the desire to make a 220° or 270 turn. ATCT will deny all right downwind departures.

Runway 13

Left 270° Departure

After takeoff turn left and climb over the bay while making a 270° turn to the West. Cross over Highway 101 at or above 1500 feet.

PAO General Information

Bayside Pattern Altitude – 800 feet
Peninsula Side Pattern Altitude – 1000 feet
ATCT Hours of Operation – 0700 – 2100 hrs
ACT / CTA Frequency – 118.600
ATC Ground Frequency – 125.000
ATIS Frequency – 135.275
Fuel Frequencies – 122.85 or 122.95
Airport Operations Phone Number – (650) 690-5992

Caution

The Palo Alto Baylands preserve is located immediately to the north-east of the airport. Watch for birds on or near the airport.
