RECOMMENDATION

Ratify Resolution 2023-26: Increase in the final price for the Patrol/Rescue Boat.

CONTACT

Geoff Belyea, Fire Chief

BACKGROUND & ANALYSIS

The American Canyon Fire Protection District (District) previously secured a grant from the State of California Department of Parks and Recreation, Division of Boating and Waterways, in the amount of \$44,934.00, for the acquisition of a patrol/rescue boat. On September 26, 2023, the Board of Directors authorized the Fire Chief to accept this grant award. However, subsequent developments necessitate an amendment to Resolution 2023-26.

The patrol/rescue boat is now ready for shipment, but the final price has increased to \$46,745, reflecting a \$1,811 increase. This increase is attributed to the unavailability of the 2023 custom jet hull during construction, resulting in the boat being built with a 2024 custom jet hull. Despite this modification, the grant award amount remains unchanged.

To accommodate the increased cost of the 2024 hull, the District will cover the additional \$1,811 from the Fleet, Facilities, and Equipment (FFE) Fund. Consequently, staff has been directed to ratify Resolution 2023-26 to incorporate this adjustment.

FISCAL IMPACT

The District commits to covering the project expenses associated with the grant, which will be initially funded from the FFE (Fleet, Facilities, and Equipment) fund. Per the term of the grant agreement, reimbursement requests will be submitted within 60 days from the conclusion of the Grant Performance Period. The expected reimbursement amount remains \$44,934.00. Once received, these funds will be reinstated to the FFE Fund. The District will fund the remaining balance of \$1,811 from the FFE fund.

RATIFIED RESOLUTION NO. 2023-26

**RATIFICATION OF RESOLUTION 2023-26, AN INCREASE IN THE
FINAL PRICE FOR THE ACQUISITION OF A PATROL/RESCUE BOAT**

WHEREAS, the American Canyon Fire Protection District (District) has successfully secured a grant in the amount of \$44,934.00 from the State of California Department of Parks and Recreation, Division of Boating and Waterways for the acquisition of a patrol/rescue boat; and

WHEREAS on September 26, 2023, the Board of Directors authorized the Fire Chief to accept this grant award; and

WHEREAS, during the construction process, it was discovered that the 2023 custom jet hull specified in the original plans was not available, leading to the boat being built with a 2024 custom jet hull instead; and

WHEREAS, this substitution has resulted in an increase in the final price of the boat, from the initially estimated \$44,934.00 to \$46,745.00, reflecting a \$1,811.00 increase;

WHEREAS, the District acknowledges the necessity of covering the additional cost of \$1,811.00 to procure the patrol/rescue boat as planned; and

WHEREAS, the District will cover the additional \$1,811 from the Fleet, Facilities, and Equipment (FFE) Fund; and

WHEREAS, to address this, the District will allocate funds from the Fleet, Facilities, and Equipment (FFE) Fund; and

WHEREAS once received, the grant reimbursement of \$44,934.00 will be returned to the FFE Fund, in accordance with the terms of the grant agreement:

NOW THEREFORE, BE IT RESOLVED that the American Canyon Fire Protection District hereby amends Resolution 2023-26 to incorporate the additional cost of \$1,811.00 for the patrol/rescue boat;

BE IT FURTHER RESOLVED that this amendment ensures full compliance with grant terms and reaffirms the District's commitment to enhancing water rescue capabilities for the safety and well-being of the community.

WHEREAS, the American Canyon Fire Protection District (District) has successfully secured a grant in the amount of \$44,934.00 from the State of California Department of Parks and Recreation, Division of Boating and Waterways for the acquisition of a patrol/rescue boat; and

WHEREAS, this grant represents a significant milestone in the District's ongoing commitment to enhancing water rescue capabilities and operational readiness; and

WHEREAS, the limitations of the existing vessel have hindered the District's ability to respond effectively to water-related emergencies and have resulted in missed collaborative opportunities with vital agencies such as the Vallejo Coast Guard Station and CAL-Fire Napa County; and

5. CORPORATE QUALIFICATIONS TO DO BUSINESS IN CALIFORNIA:

- a. When agreements are to be performed in the state by corporations, the contracting agencies will be verifying that the Grantee is currently qualified to do business in California in order to ensure that all obligations due to the state are fulfilled.
- b. "Doing business" is defined in R&TC Section 23101 as actively engaging in any transaction for the purpose of financial or pecuniary gain or profit. Although there are some statutory exceptions to taxation, rarely will a corporate Grantee performing within the state not be subject to the franchise tax.
- c. Both domestic and foreign corporations (those incorporated outside of California) must be in good standing in order to be qualified to do business in California.

Agencies will determine whether a corporation is in good standing by calling the Office of the Secretary of State.

6. RESOLUTION:

A county, city, district, or other local public body must provide the State with a copy of a resolution, order, motion, or ordinance of the local governing body which by law has authority to enter into an agreement, authorizing execution of the agreement.

7. AIR OR WATER POLLUTION VIOLATION:

Under the State laws, the Grantee shall not be: (1) in violation of any order or resolution not subject to review promulgated by the State Air Resources Board or an air pollution control district; (2) subject to cease and desist order not subject to review issued pursuant to Section 13301 of the Water Code for violation of waste discharge requirements or discharge prohibitions; or (3) finally determined to be in violation of provisions of federal law relating to air or water pollution.

8. PAYEE DATA RECORD FORM STD. 204:

This form must be completed by all Grantees that are not another state agency or other governmental entity.

EXHIBIT E**Bid/Proposal Attachment regarding the Darfur Contracting Act of 2008**

Effective January 1, 2009, all Invitations for Bids (IFB) or Requests for Proposals (RFP) for goods or services must address the requirements of the Darfur Contracting Act of 2008 (Act). (Public Contract Code sections 10475, et seq.; Stats. 2008, Ch. 272). The Act was passed by the California Legislature and signed into law by the Governor to preclude State agencies generally from contracting with “scrutinized” companies that do business in the African nation of Sudan (of which the Darfur region is a part), for the reasons described in Public Contract Code section 10475.

A scrutinized company is a company doing business in Sudan as defined in Public Contract Code section 10476. Scrutinized companies are ineligible to, and cannot, bid on or submit a proposal for a contract with a State agency for goods or services. (Public Contract Code section 10477(a)).

Therefore, Public Contract Code section 10478 (a) requires a company that currently has (or within the previous three years has had) business activities or other operations outside of the United States to certify that it is not a “scrutinized” company when it submits a bid or proposal to a State agency. (See # 1 on the sample Attachment).

A scrutinized company may still, however, submit a bid or proposal for a contract with a State agency for goods or services if the company first obtains permission from the Department of General Services (DGS) according to the criteria set forth in Public Contract Code section 10477(b). (See # 2 on the sample Attachment).

The following sample Attachment may be included in an IFB or RFP to satisfy the Act’s certification requirements of bidders and proposers.

Exhibit E - DARFUR CONTRACTING ACT

Pursuant to Public Contract Code section 10478, if a bidder or proposer currently or within the previous three years has had business activities or other operations outside of the United States, it must certify that it is not a “scrutinized” company as defined in Public Contract Code section 10476.

Therefore, to be eligible to submit a bid or proposal, please complete only one of the following three paragraphs (via initials for Paragraph # 1 or Paragraph # 2, or via initials and certification for Paragraph # 3): YOUR BID OR PROPOSAL WILL BE DISQUALIFIED UNLESS YOUR BID OR PROPOSAL INCLUDES THIS FORM WITH EITHER PARAGRAPH #1 OR #2 INITIALED OR PARAGRAPH #3 INITIALED AND CERTIFIED.

1. _____ We do not currently have, or we have not had within the previous three years, business activities or other operations outside of the United States.

7. Top three BOATING safety issues

This is a Federal Pass-Through 'Recreational Boating Safety Grant'. The purpose of the grant is to promote boating safety and to decrease the number of accidents, injuries, and fatalities on U.S. waters. Clearly identify the top three BOATING safety issues that affect recreational boaters in your jurisdiction and describe how the requested grant will address these issues. Your answer to this question will be referenced throughout this grant application.

1. The American Canyon Fire Protection District is in a situation of currently unable to reach victims in shallow water, especially when the tide is out (low tide) due to the inability to launch our current vessel and maneuver into shallow and tight spaces where victims tend to attempt to self-rescue. This is extremely common among the marshland areas. Currently, the rescue team has had to put themselves in a high-risk situation by entering the water to rescue the victim(s). The award of this grant funding would allow for the Swift Water Specialist on each shift to lead a rescue team to an expeditious response, increasing the survivability of the victim and reducing risk to the first responders. The purchase of this vessel would allow deployment in water as shallow as 8 inches. This would be vital in deployment not only to the wetlands but for rapid deployment to any body of water no matter the tide. This can also be used with the expected climate change increased rainfall which will cause flooding set to occur in Napa County due to the recent wildfires and lack of water absorption into the soil. Continued atmospheric river-type weather is expected. This vessel will allow for stranded motorists or trapped residents to be contacted and rescued in both our jurisdiction and in the state-wide mutual aid system.

2. The City of American Canyon is currently in the middle of a major growth spurt with the addition of 3,100 residential units expected within the next 2 years. This increase in population is expected to bring more activity within the Parks and Recreation areas. Wetlands Edge Park Trail is bordered by the Napa River and the marshland. The City of American Canyon has proposed the building of a kayaking ramp that launches directly into the Napa River. ACFPD would like to be proactive in our response and training to prepare and educate recreational kayakers, boaters, and outdoors people on the joys and safety precautions associated with water. The award of this grant funding would allow for patrol time, a patrol boat, and public education.

3. Recently, a 180-passenger cruise ship (plus crew) has started using the Napa River as a destination stop for tourists. The biggest threat to a ship is fire. A quick launch will allow our highly trained crews to make quick access to assist onboard crews to protect the lives of those on board and access anyone onboard who is having a medical emergency between ports creating a stop-gap. The award of these grant funds will allow us to train and protect those enjoying the body of water that is within our jurisdiction.

Are you requesting a new Patrol Boat/PWC or Misc. Equipment.?

- New Patrol Boat/PWC - see definition below
- Equipment / Repairs

NOTE: A "Patrol Boat" is defined as "A Department of Parks and Recreation, Division of Boating and Waterways approved, registered vessel (with or without trailer and/or outboard motor) purchased for use in boating safety and law enforcement activities." **VERIFY THAT YOUR REQUEST IS CORRECTLY CLASSIFIED.** Failure to correctly classify may result in disqualification of your grant application.

* All items purchased with funding provided by the Division of Boating and Waterways are for the exclusive use of the Boating Safety and Enforcement Unit.

Patrol Boat Instructions

PLEASE READ THE FOLLOWING CAREFULLY

ENTER INFORMATION IN THIS SECTION ONLY IF YOU SELECTED 'PATROL' AS A PROPOSAL TYPE

IF YOU DID NOT SELECT 'PATROL BOAT' AS A PROPOSAL TYPE, CLICK ON THE NEXT TAB TO NAVIGATE TO THE NEXT SECTION

10. Describe what you are requesting. You may request only FIVE ITEMS TOTAL (patrol boat and equipment). You may group "like items". "Like items" are related items that work together. You need one to work with the other. Examples of "like items" include a 'patrol boat and a trailer' or 'dive masks and dive suits'."

Item	Cost	Quantity	Total	Priority	List specific items that are in the grouped 'like' items
Patrol Boat/Trailer/Engine/Steering Console	35,485.00	1.00	35,485.00	First	Boat, Steering Console, Engine, and Trailer
TOTAL			35,485.00		

10 a. Describe exactly what you are requesting and how this equipment will help mitigate the boating safety issues you identified in Question 7.

The American Canyon Fire Protection District is requesting grant funding for a patrol/rescue boat in the amount of \$35,485.00 (\$44,934 Total Funding). This funding would be used for the purchase of a shallow water aluminum rigid inflatable boat that can be deployed in as little as 8 inches of shallow water. Our agency responds to the Napa River and Napa-Sonoma Marsh areas and due to the tidally influenced waterways, a boat that can be deployed in very shallow water in a rapid manner is essential in emergency situations.

Our current watercraft is not big enough to hold the minimum crew (3) members and a rescue victim and has not been consistently operational in some time. We have been contacted several times by Vallejo Coast Guard Station and CAL-Fire Napa County to assist with rescues within the waterways and due to the inability to traverse waterways during low tide events and the lack of maneuverability, we have had to decline the assistance.

In a water rescue environment, the standing protocol is "Talk, reach, throw, row, tow, helo, go" which is standard in water rescue. This is due to "go" putting a first responder in the water. This is the most dangerous situation and the last effort used due to the high risk to the first responder. Having the ability to reach our victims with a shallow water boat would be a great asset not only to our community but the safety of our personnel.

The City of American Canyon is also planning on building a new kayaking launch ramp within the next 12 months. Awarding ACFPD this grant funding would allow us to be prepared for the upcoming influx of recreation that is about to occur on our waterways.

Recently a 180-passenger cruise ship has been sailing on the Napa River. (Plus crew members) Should any type of emergency occur, we will be able to deploy and assist with a rescue. (<https://www.nbcbayarea.com/news/local/san-francisco-bay-cruise-american-cruise-lines/2973252>)

10 b. Describe any negative impacts to boating safety and/or boating enforcement if you do not get this grant.

Not being chosen to receive these grant funds will ultimately leave us in the same position that we are currently in. The inability to access our victims and the inability to maneuver safely within our waterways due to the tidal influence. Our inability to launch and maneuver in shallow water will leave us unable to effectively rescue victims in the water.

Exhibit G - BOATING SAFETY AND ENFORCEMENT EQUIPMENT GRANTEE APPLICATION

Also, keeping our first responders safe by not putting them in a high-risk situation by putting them in the water will continue to be a risk factor that we have to balance. We pride ourselves on providing a high level of service to our community and our public safety partners. The lack of grant funding will jeopardize our mission statement: to provide reliable and progressive emergency response while seeking opportunities to make a positive difference in the lives of the people and the community we serve.

10 c. Classify this request by choosing one of the following options and present a strong justification for the request.

Classify this request by choosing one of the following options.

- "Critical" (operations would cease without it)
- "Increased efficiency" (if it would save staff time, identify how much time)
- "Convenience" (it would make life a little easier)
- "Protection" of existing equipment (ex: shade tents, hoists to get the vessels out of the water, etc. to extend longevity)

Justify your classification of this request. (max. 300 characters)

If our request for funds to obtain a shallow-water boat is successful, this would greatly improve our level of service and also increase the odds of victim survivability. The average water temperature in the Napa River is 53 degrees. Once a person enters the water it's less than 15 minutes before the onset of hypothermia symptoms begin to take effect. The victim can potentially succumb to these symptoms within an hour.

With the current activation of the 9-1-1 system, our current watercraft, and the inability to launch in shallow water, the response time can be in excess of 30 minutes. With grant funding our response time would be cut in half, we can raise the survivability rate of the victims and reduce the risk to the first responders.

Percentage of time on the water this vessel will be used for:

Activity	Percentage
Boating Safety Activities	20.00
Search and Rescue Activities	50.00
Other Activities	30.00
TOTAL	100.00

- 10 d. If you are not awarded your full request, would your agency be able to supplement Yes No the difference?

If yes, what percentage can you supplement?

10 e. How and why did you select this particular vessel? Explain if this is a standard patrol boat or do you need something specialized for your waterbody to meet your agency's needs? List less expensive models considered and explain why they are not being requested. List other funding sources available to your agency that could be used to purchase or partially purchase this equipment.

ACFPD has reached out to several agencies that have similar geographical make-up and have the same water rescue needs. While speaking with Swift Water Rescue teams members of our team were able to identify specific needs, challenges, budgetary restrictions, and maintenance needs. Through this research, we have identified a shallow-bottomed, aluminum rigid inflatable boat that will be able to navigate in and out of shallow water, marshland and into deeper water where the channel is deeper.

ACFPD is a Fire Protection District, meaning our funding is limited to property tax and fees. We are not

Exhibit G - BOATING SAFETY AND ENFORCEMENT EQUIPMENT GRANTEE APPLICATION

supplemented by the City of American Canyon and receive no sales tax. With rising costs, rising calls for service, and no rise in income, we are limited with our funds. Our District is being stretched to the financial limits and trying to do more with less. This grant funding would allow us to purchase the appropriate equipment and serve our citizens appropriately.

Another less expensive model is an A12S. This model is not ideal as it is small and cannot hold the appropriate personnel along with a rescue victim. It also does not launch or allow maneuverability in shallow water. This model cannot fit the steering column that is necessary for the agility needed to make an efficient and successful rescue for both the victim and the first responder. The short shaft transom tubes are only 18 inches so to fit the steering column it would require a deep V which makes the hull too deep for launch and the minimum depth would be 18 inches of water.

At this time we do not have funding sources to purchase this boat and equipment. Several of our Advanced Life Support monitors have gone out of service and due to apparatus problems, we have had to order two new fire engines, using the reserves we had set aside. The cost has risen 250% due to supply chain issues.

10 f. What body(s) of water will this boat be used on?

The boat will primarily be used in the Napa River and Napa-Sonoma Marsh but could be used as Mutual Aid in the Carqinez Straight and Suisun Slough.

If YES, complete the table below.

List Other Activity (NOT BOATING RELATED ACTIVITY)	Hours per month on average this vessel will be used for other activity(ies)
Yes, this unit would be used to rescue victims that have found themselves within our waterways and are unable to self-rescue, also partnering with our allied agencies in training, patrolling during high traffic events such as 4th of July or holidays that increase waterway traffic.	15.00

If yes, how many times? Explain. (max. 1024 characters)

10 n. Explain why you are not requesting a repower of this vessel. (max. 1024 characters)

This vessel is too small for our minimum crew as well as a rescue victim. The outboard engine is also underpowered. By upgrading the engine, it would be too big for this particular vessel.

Misc. Equipment Items Questions (Navigation System)

11. Item Details

- 11 a. Is this equipment general all-purpose gear? NOTE: person-specific Yes No items will not be funded.
- 11 b. Describe exactly what you are requesting and how this equipment will help mitigate the boating safety issues you identified in Question 7. If your requested quantity is more than one for any item, explain the need for having multiple items. (max. 2000 characters)

The American Canyon Fire Protection District is requesting a navigation system to be able to locate potential victims and water depth. Without a navigation system, we would not be able to accurately navigate through shallow waters and have the potential to locate deceased victims. A boat would be useless without the proper tools to use with it.

We are also requesting funds for the cranking battery. A cranking battery **allows a marine vessel to start by sending power to the engine when the ignition switch is activated.** For this reason, these batteries are also known as starter batteries. To start a motor, short and strong bursts of energy must be sent from the battery. Without this battery, there is a possibility of our crews being stranded or not being able to deploy at all.

The lighting unit would be used for seeing at night. The only light in the Napa River and marshland is the natural light from the moon. That is not sufficient to see victims or stranded vessels. Without lights, we would not be able to deploy after dusk.

Exhibit G - BOATING SAFETY AND ENFORCEMENT EQUIPMENT GRANTEE APPLICATION

We are requesting the delivery fee of the boat. Without taking possession of the boat, there is no boat.

11 c. Describe any negative impacts to boating safety and/or boating enforcement if you do not get this grant.

Not being chosen to receive these grant funds will ultimately leave us in the same position that we are currently in. The inability to access our victims and the inability to maneuver safely within our waterways due to the tidal influence. The lack of grant funding will jeopardize our mission statement: to provide reliable and progressive emergency response while seeking opportunities to make a positive difference in the lives of the people and the community we serve.

All of the equipment listed is essential to the safe operation of the boat. Without it, the boat will not be functional.

11 d. Classify this request

Classify this request by choosing one of the following options and present a strong justification for the request

Justify your classification of this request. (max. 300 characters)

Our current response time can be in excess of 30 minutes. With funding our time can be cut in half, and we can raise the survivability rate of the victims and reduce the risk to the first responders if we can quickly locate them.

Lighting is a critical need for rescues and deployment after dusk. Without sufficient lighting, we will not be able to locate victims on or stuck in the water due to the inability to locate them.

11 c. Describe any negative impacts to boating safety and/or boating enforcement if you do not get this grant.

EXHIBIT E**Bid/Proposal Attachment regarding the Darfur Contracting Act of 2008**

(Public Contract Code sections 10475, et seq.; Stats. 2008, Ch. 272). The Act was passed by the California Legislature and signed into law by the Governor to preclude State agencies generally from contracting with “scrutinized” companies that do business in the African nation of Sudan (of which the Darfur region is a part), for the reasons described in Public Contract Code section 10475.

A scrutinized company is a company doing business in Sudan as defined in Public Contract Code section 10476. Scrutinized companies are ineligible to, and cannot, bid on or submit a proposal for a contract with a State agency for goods or services. (Public Contract Code section 10477(a)).

Therefore, Public Contract Code section 10478 (a) requires a company that currently has (or within the previous three years has had) business activities or other operations outside of the United States to certify that it is not a “scrutinized” company when it submits a bid or proposal to a State agency. (See # 1 on the sample Attachment).

A scrutinized company may still, however, submit a bid or proposal for a contract with a State agency for goods or services if the company first obtains permission from the Department of General Services (DGS) according to the criteria set forth in Public Contract Code section 10477(b). (See # 2 on the sample Attachment).

The following sample Attachment may be included in an IFB or RFP to satisfy the Act’s certification requirements of bidders and proposers.

Therefore, to be eligible to submit a bid or proposal, please complete only one of the following three paragraphs (via initials for Paragraph # 1 or Paragraph # 2, or via initials and certification for Paragraph # 3): YOUR BID OR PROPOSAL WILL BE DISQUALIFIED UNLESS YOUR BID OR PROPOSAL INCLUDES THIS FORM WITH EITHER PARAGRAPH #1 OR #2 INITIALED OR PARAGRAPH #3 INITIALED AND CERTIFIED.

7. Top three BOATING safety issues

This is a Federal Pass-Through 'Recreational Boating Safety Grant'. The purpose of the grant is to promote boating safety and to decrease the number of accidents, injuries, and fatalities on U.S. waters. Clearly identify the top three BOATING safety issues that affect recreational boaters in your jurisdiction and describe how the requested grant will address these issues. Your answer to this question will be referenced throughout this grant application.

1. The American Canyon Fire Protection District is in a situation of currently unable to reach victims in shallow water, especially when the tide is out (low tide) due to the inability to launch our current vessel and maneuver into shallow and tight spaces where victims tend to attempt to self-rescue. This is extremely common among the marshland areas. Currently, the rescue team has had to put themselves in a high-risk situation by entering the water to rescue the victim(s). The award of this grant funding would allow for the Swift Water Specialist on each shift to lead a rescue team to an expeditious response, increasing the survivability of the victim and reducing risk to the first responders. The purchase of this vessel would allow deployment in water as shallow as 8 inches. This would be vital in deployment not only to the wetlands but for rapid deployment to any body of water no matter the tide. This can also be used with the expected climate change increased rainfall which will cause flooding set to occur in Napa County due to the recent wildfires and lack of water absorption into the soil. Continued atmospheric river-type weather is expected. This vessel will allow for stranded motorists or trapped residents to be contacted and rescued in both our jurisdiction and in the state-wide mutual aid system.

2. The City of American Canyon is currently in the middle of a major growth spurt with the addition of 3,100 residential units expected within the next 2 years. This increase in population is expected to bring more activity within the Parks and Recreation areas. Wetlands Edge Park Trail is bordered by the Napa River and the marshland. The City of American Canyon has proposed the building of a kayaking ramp that launches directly into the Napa River. ACFPD would like to be proactive in our response and training to prepare and educate recreational kayakers, boaters, and outdoors people on the joys and safety precautions associated with water. The award of this grant funding would allow for patrol time, a patrol boat, and public education.

3. Recently, a 180-passenger cruise ship (plus crew) has started using the Napa River as a destination stop for tourists. The biggest threat to a ship is fire. A quick launch will allow our highly trained crews to make quick access to assist onboard crews to protect the lives of those on board and access anyone onboard who is having a medical emergency between ports creating a stop-gap. The award of these grant funds will allow us to train and protect those enjoying the body of water that is within our jurisdiction.

10. Describe what you are requesting. You may request only FIVE ITEMS TOTAL (patrol boat and equipment). You may group "like items". "Like items" are related items that work together. You need one to work with the other. Examples of "like items" include a 'patrol boat and a trailer' or 'dive masks and dive suits'."

Item	Cost	Quantity	Total	Priority	List specific items that are in the grouped 'like' items
Patrol Boat/Trailer/Engine/Steering Console	35,485.00	1.00	35,485.00	First	Boat, Steering Console, Engine, and Trailer
TOTAL			35,485.00		

10 a. Describe exactly what you are requesting and how this equipment will help mitigate the boating safety issues you identified in Question 7.

The American Canyon Fire Protection District is requesting grant funding for a patrol/rescue boat in the amount of \$35,485.00 (\$44,934 Total Funding). This funding would be used for the purchase of a shallow water aluminum rigid inflatable boat that can be deployed in as little as 8 inches of shallow water. Our agency responds to the Napa River and Napa-Sonoma Marsh areas and due to the tidally influenced waterways, a boat that can be deployed in very shallow water in a rapid manner is essential in emergency situations.

Our current watercraft is not big enough to hold the minimum crew (3) members and a rescue victim and has not been consistently operational in some time. We have been contacted several times by Vallejo Coast Guard Station and CAL-Fire Napa County to assist with rescues within the waterways and due to the inability to traverse waterways during low tide events and the lack of maneuverability, we have had to decline the assistance.

In a water rescue environment, the standing protocol is "Talk, reach, throw, row, tow, helo, go" which is standard in water rescue. This is due to "go" putting a first responder in the water. This is the most dangerous situation and the last effort used due to the high risk to the first responder. Having the ability to reach our victims with a shallow water boat would be a great asset not only to our community but the safety of our personnel.

The City of American Canyon is also planning on building a new kayaking launch ramp within the next 12 months. Awarding ACFPD this grant funding would allow us to be prepared for the upcoming influx of recreation that is about to occur on our waterways.

Recently a 180-passenger cruise ship has been sailing on the Napa River. (Plus crew members) Should any type of emergency occur, we will be able to deploy and assist with a rescue. (<https://www.nbcbayarea.com/news/local/san-francisco-bay-cruise-american-cruise-lines/2973252>)

10 b. Describe any negative impacts to boating safety and/or boating enforcement if you do not get this grant.

Not being chosen to receive these grant funds will ultimately leave us in the same position that we are currently in. The inability to access our victims and the inability to maneuver safely within our waterways due to the tidal influence. Our inability to launch and maneuver in shallow water will leave us unable to effectively rescue victims in the water.

Exhibit G - BOATING SAFETY AND ENFORCEMENT EQUIPMENT GRANTEE APPLICATION

Also, keeping our first responders safe by not putting them in a high-risk situation by putting them in the water will continue to be a risk factor that we have to balance. We pride ourselves on providing a high level of service to our community and our public safety partners. The lack of grant funding will jeopardize our mission statement: to provide reliable and progressive emergency response while seeking opportunities to make a positive difference in the lives of the people and the community we serve.

10 c. Classify this request by choosing one of the following options and present a strong justification for the request.

Classify this request by choosing one of the following options.

- "Critical" (operations would cease without it)
- "Increased efficiency" (if it would save staff time, identify how much time)
- "Convenience" (it would make life a little easier)
- "Protection" of existing equipment (ex: shade tents, hoists to get the vessels out of the water, etc. to extend longevity)

Justify your classification of this request. (max. 300 characters)

If our request for funds to obtain a shallow-water boat is successful, this would greatly improve our level of service and also increase the odds of victim survivability. The average water temperature in the Napa River is 53 degrees. Once a person enters the water it's less than 15 minutes before the onset of hypothermia symptoms begin to take effect. The victim can potentially succumb to these symptoms within an hour.

With the current activation of the 9-1-1 system, our current watercraft, and the inability to launch in shallow water, the response time can be in excess of 30 minutes. With grant funding our response time would be cut in half, we can raise the survivability rate of the victims and reduce the risk to the first responders.

Percentage of time on the water this vessel will be used for:

Activity	Percentage
Boating Safety Activities	20.00
Search and Rescue Activities	50.00
Other Activities	30.00
TOTAL	100.00

List any other activities this vessel will be used for:

Other Activities: Training for Search and Rescue Activities.

- 10 d. If you are not awarded your full request, would your agency be able to supplement Yes No the difference?

If yes, what percentage can you supplement?

10 e. How and why did you select this particular vessel? Explain if this is a standard patrol boat or do you need something specialized for your waterbody to meet your agency's needs? List less expensive models considered and explain why they are not being requested. List other funding sources available to your agency that could be used to purchase or partially purchase this equipment.

ACFPD has reached out to several agencies that have similar geographical make-up and have the same water rescue needs. While speaking with Swift Water Rescue teams members of our team were able to identify specific needs, challenges, budgetary restrictions, and maintenance needs. Through this research, we have identified a shallow-bottomed, aluminum rigid inflatable boat that will be able to navigate in and out of shallow water, marshland and into deeper water where the channel is deeper.

ACFPD is a Fire Protection District, meaning our funding is limited to property tax and fees. We are not

Exhibit G - BOATING SAFETY AND ENFORCEMENT EQUIPMENT GRANTEE APPLICATION

supplemented by the City of American Canyon and receive no sales tax. With rising costs, rising calls for service, and no rise in income, we are limited with our funds. Our District is being stretched to the financial limits and trying to do more with less. This grant funding would allow us to purchase the appropriate equipment and serve our citizens appropriately.

Another less expensive model is an A12S. This model is not ideal as it is small and cannot hold the appropriate personnel along with a rescue victim. It also does not launch or allow maneuverability in shallow water. This model cannot fit the steering column that is necessary for the agility needed to make an efficient and successful rescue for both the victim and the first responder. The short shaft transom tubes are only 18 inches so to fit the steering column it would require a deep V which makes the hull too deep for launch and the minimum depth would be 18 inches of water.

At this time we do not have funding sources to purchase this boat and equipment. Several of our Advanced Life Support monitors have gone out of service and due to apparatus problems, we have had to order two new fire engines, using the reserves we had set aside. The cost has risen 250% due to supply chain issues.

10 f. Patrol Boat - Informational

If YES, complete the table below.

10 m. Has the vessel being replaced ever had it's engine or electronics replaced? Yes No

If yes, how many times? Explain. (max. 1024 characters)

10 n. Explain why you are not requesting a repower of this vessel. (max. 1024 characters)

This vessel is too small for our minimum crew as well as a rescue victim. The outboard engine is also underpowered. By upgrading the engine, it would be too big for this particular vessel.

11. Item Details

- 11 a. Is this equipment general all-purpose gear? NOTE: person-specific Yes No items will not be funded.
- 11 b. Describe exactly what you are requesting and how this equipment will help mitigate the boating safety issues you identified in Question 7. If your requested quantity is more than one for any item, explain the need for having multiple items. (max. 2000 characters)

The American Canyon Fire Protection District is requesting a navigation system to be able to locate potential victims and water depth. Without a navigation system, we would not be able to accurately navigate through shallow waters and have the potential to locate deceased victims. A boat would be useless without the proper tools to use with it.

We are also requesting funds for the cranking battery. A cranking battery **allows a marine vessel to start by sending power to the engine when the ignition switch is activated.** For this reason, these batteries are also known as starter batteries. To start a motor, short and strong bursts of energy must be sent from the battery. Without this battery, there is a possibility of our crews being stranded or not being able to deploy at all.

The lighting unit would be used for seeing at night. The only light in the Napa River and marshland is the natural light from the moon. That is not sufficient to see victims or stranded vessels. Without lights, we would not be able to deploy after dusk.

Exhibit G - BOATING SAFETY AND ENFORCEMENT EQUIPMENT GRANTEE APPLICATION

We are requesting the delivery fee of the boat. Without taking possession of the boat, there is no boat.

11 c. Describe any negative impacts to boating safety and/or boating enforcement if you do not get this grant.

Not being chosen to receive these grant funds will ultimately leave us in the same position that we are currently in. The inability to access our victims and the inability to maneuver safely within our waterways due to the tidal influence. The lack of grant funding will jeopardize our mission statement: to provide reliable and progressive emergency response while seeking opportunities to make a positive difference in the lives of the people and the community we serve.

All of the equipment listed is essential to the safe operation of the boat. Without it, the boat will not be functional.

11 d. Classify this request

Classify this request by choosing one of the following options and present a strong justification for the request

Our current response time can be in excess of 30 minutes. With funding our time can be cut in half, and we can raise the survivability rate of the victims and reduce the risk to the first responders if we can quickly locate them.

A cranking battery **allows a marine vessel to start by sending power to the engine when the ignition switch is activated.** For this reason these batteries are also known as starter batteries. To start a motor, short and strong bursts of energy must be sent from the battery. Without the battery, we would not be able to start the boat.

- 11 c. Describe any negative impacts to boating safety and/or boating enforcement if you do not get this grant.

If we don't have a battery, we cannot start or deploy the boat.

11 d. Classify this request

Classify this request by choosing one of the following options and present a strong justification for the request

- "Critical" (operations would cease without it)
- "Increased efficiency" (if it would save staff time, identify how much time)
- "Convenience" (it would make life a little easier)
- "Protection" of existing equipment (ex: shade tents, hoists to get the vessels out of the water, etc. to extend longevity)

Justify your classification of this request. (max. 300 characters)

Without a battery we cannot start or deploy the boat, therefore it is a critical component of the boat.

11 e. If you are not awarded your full request, would your agency be able to supplement the difference? Yes No

If yes, what percentage can you supplement?

11 f. What other capabilities exist in your region for this equipment? Justify why it is not feasible to borrow this equipment from a neighboring agency.

A battery is not something that can be borrowed and returned. It must be permanently affixed to the boat.

11 g. How and why did you select this particular model? Explain if this is standard equipment or do you need something specialized for your waterbody to meet your agency's needs? List less expensive models considered and explain why they are not being requested. List other funding sources available to your agency that could be used to purchase or partially purchase this equipment.

This battery is the optimal battery for this boat and engine type per the manufacturer.

11. Item Details

11 a. Is this equipment general all-purpose gear? NOTE: person-specific Yes No
items will not be funded.

11 b. Describe exactly what you are requesting and how this equipment will help mitigate the boating safety issues you identified in Question 7. If your requested quantity is more than one for any item, explain the need for having multiple items. (max. 2000 characters)

Lighting is a critical need for rescues and deployment after dusk. Without sufficient lighting, we will not be able to locate victims on or stuck in the water due to the inability to locate them.

11 c. Describe any negative impacts to boating safety and/or boating enforcement if you do not get this grant.

If we do not get the funding for lighting we will not be able to deploy after dark.

11 d. Classify this request

Classify this request by choosing one of the following options and present a strong justification for the request

- "Protection" of existing equipment (ex: shade tents, hoists to get the vessels out of the water, etc. to extend longevity)

Justify your classification of this request. (max. 300 characters)

It is imperative that we have lighting to locate victims after dusk. 50% of our calls for rescues occur during the evening hours.

something specialized for your waterbody to meet your agency's needs? List less expensive models considered and explain why they are not being requested. List other funding sources available to your agency that could be used to purchase or partially purchase this equipment.

After working with other agencies and evaluating our geography we came up with the boat style that was needed. From there, working with the manufacturer, we were able to identify the lightest and brightest light system available.

RESOLUTION NO. 2023-26

A RESOLUTION OF THE BOARD OF DIRECTORS OF THE AMERICAN CANYON FIRE PROTECTION DISTRICT AUTHORIZING THE FIRE CHIEF TO ACCEPT A GRANT AWARD IN THE AMOUNT OF \$44,934.00 FROM THE STATE OF CALIFORNIA DEPARTMENT OF PARKS AND RECREATION, DIVISION OF BOATING AND WATERWAYS FOR THE ACQUISITION OF A PATROL/RESCUE BOAT

WHEREAS, the American Canyon Fire Protection District (District) has successfully secured a grant in the amount of \$44,934.00 from the State of California Department of Parks and Recreation, Division of Boating and Waterways for the acquisition of a patrol/rescue boat; and

WHEREAS, this grant represents a significant milestone in the District's ongoing commitment to enhancing water rescue capabilities and operational readiness; and

WHEREAS, the limitations of the existing vessel have hindered the District's ability to respond effectively to water-related emergencies and have resulted in missed collaborative opportunities with vital agencies such as the Vallejo Coast Guard Station and CAL-Fire Napa County; and

WHEREAS, the acquisition of a specialized watercraft, capable of operating in water as shallow as 8 inches, will significantly enhance swift water rescue capabilities, reduce risks for both victims and first responders, and enable proactive measures to address the region's growth and increased recreational activities;

WHEREAS, the District agrees to pay for the project expenses from the FFE Fund and the District shall request grant reimbursements no later than 60 days from the Grant Performance Period in order to be reimburse. Once the grant reimbursement is received, the funds will be returned to the FFE fund; and
