Professional development
We offer a variety of training options to get teachers up-to-speed with the Premium version of NoRedInk and aligned with district goals for the implementation. Live virtual webinars are $500 per 1 hour session (15 teachers) on a variety of topics (menu attached). On-site training is $4,000 per day to train up to 60 individuals, and we are following CDC guidelines.

Our recommendation is to train at least one school level representative in addition to requiring all teachers complete at least one on-demand modular training (15-20 minutes). Webinar training will focus on getting teachers up and running with NoRedInk and will provide best practices for the year. In future years, training can either be adapted to focus on new tools added to the site, optimizing, or training new teachers. Virtual training also does not have to be used at the beginning of each year, and instead, can be used at any point throughout the year.

NoRedInk also has an extensive library of pre-recorded webinars, instructional resources, and video library of assignment types.

If you have other key initiatives or areas of focus for year 1, you can purchase additional webinars to be used flexibly throughout the year to focus on those areas (ie. test prep, differentiation, essay drafting) or with campuses that demonstrate a need for additional support on any topic; however, we include at least one per school per year.

Area of Focus #1 Well-Rounded Educational Opportunities

A. Describe how the program objectives and intended outcomes for activities under this Area of Focus, if applicable.

1.1We will purchase Ukrainian fictional texts. As a result of recent international events this Ukraine, SDMC is anticipating an increase enrollment of Ukrainian students. We utilized the impact of recent international events in Afghanistan as an index for some of the needs Ukrainian students and families will have. SDMC has a broad plan and process to welcome any new Ukrainian families to our school district that also includes Title II and Title IX. These dictionaries will help students academically, with the goal that Ukrainian students will pass at least 90% of all courses taken during the 22-23 School Year

1.2No Red Ink Available for all 11 and 12 grade students to support striving readers in achieving required scores for graduation an effort to increase our graduation rate, we seek to assist our struggling readers Our grad rate last year was 84% Many of our students not meeting high school graduation requirements show deficits reading instruction. According to a case study conducted of Wylie Independent School District (https://www.nored ink.com/about/case studies/wylie), No Red Ink showed promising results with improved performance on EOC's for ELA, noted improvements for ELL, economically disadvantaged, and ESE student populations. Additionally, Common Sense Education.org (https://www.commonsense.org/education/website/nored ink) reviewed this program with an 4-star overall rating. No Red Ink will be utilized in all Intensive Reading classrooms to improve language and editing, equipping students with the skills needed to better communicate through writing and recognize authors' arguments when reading grade level texts. No Red Ink will aid in closing gaps in learning. Students will focus on using this resource in Intensive Reading courses, but all students grades 11 and 12 will have access, allowing ELA teachers to focus on supports in their classrooms to meet the varying needs of all learners. Our District Reading Specialists (Teachers on Assignment) will visit all high schools to support high school classroom teachers in gaining access to and learning how to use No Red Ink during the first few days back for staff (prior to the first day of school). Once school begins, students will spend 30-45 minutes per week on standards based activities designed to promote literacy acquisition. We will monitor effectiveness of this initiative through State and District Assessments during the course of the school year, and assess effectiveness through an improved student graduation rate.

B. Describe how the LEA will periodically evaluate the effectiveness of the activities carried out under this Area of Focus based on objectives and outcomes, if applicable.

☐ No Title IV Part A funds will be used to address this Area of Focus. If this box is checked then the LEA does not need to complete the next question or the budget section for this Area of Focus.

C. Describe the funded activities that will be implemented to address Area of Focus 1.

Activity 1	1.1 Ukranian Dictionaries We will purchase Ukrainian dictionaries. As a result of recent international events in the Ukraine, SDMC is anticipating an increase in enrollment of Ukrainian students. We utilized the impact of recent international events in Afghanistan as an index for some of the needs Ukrainian students and families will have. SDMC has a broad plan and process to welcome any new Ukrainian families to our school district that also includes Title II and Title IX.
Activity 2	1.2 No Red Ink Available for all 11 and 12 grade students Students will focus on using this resource in Intensive Reading courses, but all students in grades 11 and 12 will have access, allowing ELA teachers to focus on supports in their classrooms to meet the varying needs of all learners. Our District Reading Specialists (Teachers on Assignment) will visit all high schools to support high school classroom teachers in gaining access to and learning how to use No Red Ink during the first few days back for staff (prior to the first day of school). Once school begins, students will spend 30-45 minutes per week on standards based activities designed to promote literacy acquisition We will monitor effectiveness of this initiative through State and District Assessments during the course of the school year and assess effectiveness through an improved student graduation rate.
Activity 3	1.3 Document Based Questions (DBQ) Project During the ELA Acceleration course in grade 3-5, teachers will use Document Based Questions (DBQ) Project. implementation components paid for outside this grant include teachers initial 6 hour in-person training on the DBQ project from the vendor This training will be offered in July and again during District Wide Training in August. In addition, the vendor will provide ongoing support and training across the year with virtual check-in sessions after school A follow-up in-person session will be provided for a more in-depth look at the writing component. Self-paced PD is available for teachers as well. Effectiveness of implementation will be measured and monitored through District iReady Diagnostic Assessments conducted two to three times throughout the school year
Activity 4	1.4 FEV Tutor FEV Tutor will be contracted for Live 1:1 Online tutoring for SDMC students in Grades 3-12. SDMC will begin with a bank of approximately 370 hours worth of tutoring. The 22-23 school year will be considered a pilot program. Students will be identified during each Quarter of the school year and offered access to tutoring services through FEV Tutor When students are identified for FEV Tutor assistance, FEV Tutor will analyze existing student data and then create a personalized learning plan for each student. The Title IV Coordinator (or designee) will establish communication with FEV Tutor and SDMC staff to ensure effective program outcomes. The effectiveness of this program will be measured in two ways. First, by the number of hours used. The 22-23 school year will be used to establish a baseline for this initiative. The second measure will be by the percentage of students who had an improved academic outcome after utilizing FEV Tutor during the school year with a goal of 75% or more students experiencing improved academic outcomes.
Activity 5	1.5 First In Math First In Math will provide 'Train-the-Trainer for a math leader and administration at each elementary school site at no charge. Training of math leaders and administrators will occur at the beginning of the school year implementation at each school site will follow soon after The effectiveness of First In Math will be measured by comparing the growth of elementary aged students in math through the Ready Assessments during the 22-23.

2.1 SBHC Providing At-Risk Teens physical and mental health access through a School Based Health Center (SBHC) with MCR Health

The School Based Health Center (SBHC) is a multi-year project that has resulted as a collaboration between the School District of Manatee County and MCR Health, a Federally Qualified Health Center (FQHC). This SBHC was the first of its kind in Manatee County. The MOU signed between both parties in the spring of 2019 accelerated the opening by identifying Southeast High School due to its Title I status and survey results from students, parents and school staff. After renovating two portables, one designated for clinical services and other designated for behavioral health services the School Based Health Center at Southeast High School's Grand Opening has held on February 10, 2020. After the steady growth and success of the School Based Health Center at Southeast High School in the 2022-2023 school year we plan to expand services beyond the students of Southeast High School, to also include all identified Project Heart students in the School District of Manatee County.

This Title IV, Part A funding is essential to funding the positions of personnel critical to making the SBHC work. These positions include:

B. Describe how the LEA will periodically evaluate the effectiveness of the activities carried out under this Area of Focus based on objectives and outcomes, if applicable.

☐ No Title IV Part A funds will be used to address this Area of Focus. If this box is checked then the LEA does not need to complete the next question or the budget section for this Area of Focus.

C. Describe the funded activities that will be implemented to address Area of Focus 2.

Activity 1	2.1 SBHC Providing At-Risk Teens physical and mental health access through a School Based Health Center (SBHC) with MCR Health The future success of this initiative will continue to be measured by the number of visits, as this measure can quantifiably demonstrate the need/demand for services. This Title IV, Part A funding is essential to funding the positions of personnel critical to making the SBHC work. These positions include 1.BDMC Social Worker Students are referred for behavioral health services through the school clinic, school counselors or the discipline office. Staff complete a referral form and submit to the Southeast High School SBHC Social Worker. The SEHS SBHC Social Worker will meet with the student/guardian and discuss student's needs. If additional support services are needed outside the scope of the SEHS SBHC SW, then the student will be referred to the MCR Health SBHC Social Worker 2.BDMC Clerical Will assist the SBHC staff with the collection of data, creating/maintaining Excel spreadsheets and PowerPoint presentations, accessing necessary student data, and other office duties. In addition, this position will assist with the implementation of the activities associated with the SBHC including communicating with partners and medical providers, family engagement activities, patient outreach and community outreach. MCR Health will fund all other medical personnel, which includes an MCR Social Worker an MCR Health nurse/medical assistant, an MCR Health Pediatric Nurse Practioner
Activity 2	2.2 Welcoming Schools Inclusion Training The Title IV grant funds will be used to purchase Professional Development during our District-wide training days. Training will be provided to one pilot school Sugg Middle School. In addition this training will be available to any district-wide staff member who chooses to attend, which includes teachers, Liaisons, School Psychologists/School Social Workers, School Counselors, Deans, Principals, and Student Support Staff. The effectiveness of this initiative will be measured by a decrease of 10% or greater at Sugg Middle School for each of the following referral types, during the 22-23 school year as compared to the 21-22 school year: 1.Disrespectful Behavior 2.Defiant Behavior 3.Total # of Referrals
Activity 3	2.3 CHAMPS 'Project Spark, District-wide behavior framework implementation SDMC will provide all staff with needed training, resources, and support to make this initiative successful. First, SDMC has identified two different vendors #1 Heart & Science, LLC and vendor #2 The Operant Teacher LLC) who will be contracted to deliver Train-the-Trainer Workshops to more than 150 Deans and Student Support Specialist prior to the start of the school year Each workshop is 6 hours long/$3000 and will have 50 or more attendants. Following that, both vendors will each be contracted so that each vendor will provide 12 more hours of training/workshops to help support newly trained Trainers (150+ in all) and to help train staff hired after the start of the school year Deans and Student Support Specialists will need this continued support and training during the 22-23 school year as they will be responsible for the effectiveness of training and coaching teachers and staff at their respective schools. Moreover as a part of professional development for this initiative, all participants will also be provided the most appropriate title of one of the following books: 1. CHAMPS, 2. Coaching Classroom Management, and 3. Discipline in the Secondary Classroom. Effectiveness of this initiative will be measured by comparing the 21-22 Discipline Data to 22-23 Discipline Data, with at least a 10% decrease in total referrals.

3.1. The implementation of an Information Services Coordinator is a multi-year initiative that will assist teachers with the effective implementation of hardware, software, training, and support. This may include supporting the use of technology to deliver CORE instruction and during summer and/or extended school day activities. The technology support translates to teachers providing high quality lessons to students to increase student achievement on the FSA and formative assessments referred to in the needs assessment.

The Information Systems Coordinator will also deliver training to students as needed throughout the school district, with an emphasis on high-need schools. The Coordinator will also provide students hardware and software support to increase academic achievement. The concentration of support at high need schools will increase the effectiveness of technology use for learning. This district serves more than 50,000 K-12 students. These students will be impacted as teachers increase their capacity to successfully and meaningfully integrate technology to improve academic achievement.

During the two years the Information Services Coordinator has been a part of the following initiatives that SDMC wants to continue:
•training to teachers on instructional synchronization between Samsung tablets and Samsung displays along with Promethean Panels installed in classrooms.

1.1.2 The A/E shall provide leadership to the Construction Team on all matters relating to design.

1.1.3 The CM shall provide leadership to the Construction Team on all matters relating to construction.

1.2 The A/E

1.2.1 The A/E shall provide Owner with professional architectural and other professional services described herein in all phases of the Project to which this Agreement applies. All services to be provided by A/E pursuant to this Agreement shall be in conformance with the Scope of Work described herein and within **Exhibits A – D**.

1.2.2 The A/E accepts a relationship of trust and confidence established by the Owner and this Agreement. The A/E represents to Owner that it has expertise in the type of professional services that will be required for the Project. A/E agrees to provide its services using its professional skill and judgment, to use its best efforts to complete the Project in the most expeditious and economical manner consistent with the Owner's interest, and to work with the Owner and the CM to further the interests of the Owner.

1.2.3 A/E shall be acting as an independent contractor at all times during the Project and no provision in the Agreement shall create an employment or agency relationship between the parties.

1.2.4 A/E agrees to cooperate with CM with respect to CM's delivery of services to Owner. A/E agrees to incorporate, whenever practicable and consistent with good design, and after Owner's written approval, all suggestions or recommendations timely made by CM with respect to the Project design.

1.2.5 A/E agrees to obtain and maintain throughout the period of this Agreement all such licenses as are required to do business in the State of Florida and in Manatee County, Florida, including all licenses required by the respective state boards and other governmental agencies responsible for regulating and licensing the professional services to be provided and performed by A/E pursuant to this Agreement.

1.2.6 A/E agrees that, when the services to be provided pursuant to the Agreement relate to a professional service which, under Florida Statutes, requires a license, certificate of authorization or other form of legal entitlement to practice such services, A/E shall employ and/or retain only qualified personnel to provide such services.

1.2.7 A/E agrees that its services provided pursuant to this Agreement shall be subject to Owner's reasonable review and approval. A/E agrees to comply, at its own expense, with all federal, state and local laws, applicable statutes, ordinances, codes, administrative orders, rules, regulations including utility regulations, local and state fire marshal requirements and the Florida Building Code, as well as the requirements of any governmental agencies which regulate or have jurisdiction over the Project or the services to be provided and performed by A/E including, but not limited to, any interlocal agreements between Owner and Manatee County. In the event of any conflicts in these requirements, A/E shall promptly notify Owner of such conflict in writing and utilize its best professional judgment to resolve the conflict. Nothing in this Agreement shall be construed to eliminate A/E's responsibility for compliance of its design, its documents and its services with applicable local, state and federal statutes and regulations and applicable professional practice standards. Owner's approval of the design documents in no way relieves A/E of its obligation to deliver complete and accurate documents necessary for successful construction of the Project.

1.2.8 Any Contract Documents, as defined herein, prepared or furnished by A/E that contain errors, conflicts or omissions will be promptly corrected by A/E at no additional cost to Owner. A/E shall promptly notify Owner in writing of any discovered discrepancies, inconsistencies, or missing information necessary to provide reasonably accurate and complete documents. By execution of this Agreement acknowledges that the key representatives identified on **Exhibit A** have full authority to bind and obligate A/E on all matters arising out of or relating to this Agreement.

1.2.12 A/E Consultants

1.2.12.1 The services to be performed pursuant to this Agreement shall be performed by the A/E and A/E's consultants identified in **Exhibit A** ("**Consultants**") unless otherwise authorized in writing by Owner. The employment of, contract with, or use of the services of any other person or firm by A/E, as independent consultant or otherwise, shall be subject to the prior written approval of Owner. No provision of this Agreement shall, however, be construed as constituting an agreement between Owner and any such other person or firm. Nor shall anything contained herein be deemed to give any such party or any third party any claim or right of action against Owner beyond such as may otherwise exist without regard to this Agreement. Each of A/E's agreements with the Consultants shall specifically provide that Owner shall only be responsible to the Consultants for those obligations of A/E that accrue subsequent to Owner's exercise of its right to take an assignment of such agreement. Each of A/E's agreements with Consultants shall require or provide that: (a) nothing in the Contract Documents will create a contractual relationship between Owner and the Consultant unless Owner elects to accept contingent assignment of the agreement as provided herein, and (b) the Consultant shall resolve all disputes involving Owner in the same manner as provided in Article 13 below.

1.2.12.3 At Owner's request, A/E shall provide to Owner copies of all of A/E's agreements with A/E's Consultants.

1.2.12.4 A/E shall be responsible to Owner for the acts and omissions of A/E's employees and Consultants arising out of or resulting from the performance of services hereunder including those that that do not conform to the A/E's standard of care, would constitute a breach of this Agreement if the act or omission were committed by A/E, or are otherwise wrongful or unlawful.

1.3 Extent of Agreement

1.3.1 This Agreement is complementary to the drawings, specifications, conditions of the contract (General, Supplementary and other Conditions, if applicable), recordings of presentations and interviews (including the content of the audio/visual oral presentation made to the Professional Selection Committee), and, together with them, comprises the full and entire Agreement between the Owner and the A/E and supersedes all prior negotiations, representations or agreements. This Agreement shall not be superseded by any provisions or other documents for construction.

1.3.2 No modification or amendment to the Agreement shall be valid or binding upon the Owner and the A/E unless in writing and executed by the parties intending to be bound by it.

1.3.3 The headings contained within this Agreement are for the purpose of convenience only and shall not be deemed to expand, limit or change the provisions in such articles, sections, paragraphs, schedules, exhibits and/or attachments hereto.

1.3.4 The Owner and A/E acknowledge they have carefully reviewed this Agreement and have been advised by counsel of their choosing with respect thereto, and that they understand its contents and agree that this Agreement shall not be construed more strongly against any party, regardless of who is responsible for its preparation. The remedies granted to Owner in the Agreement are cumulative and not in limitation of any other rights and remedies of Owner at law or in equity.

1.3.5 This Agreement may be simultaneously executed in several counterparts, each of which shall be an original and all of which shall constitute one and the same instrument.

1.3.6 All representations and covenants of the parties shall survive the expiration of the Agreement. All of A/E's representations and indemnifications made in or required by the Agreement, as well as all continuing obligations indicated in the Agreement, will survive final payment to A/E for its services and termination or completion of the Agreement.

A/E SERVICES

3.1 Time

3.1.1 Services to be rendered by A/E shall be commenced subsequent to the execution of this Agreement and upon written "Notice to Proceed" from Owner for all or any designated portion of the Project and shall be performed and completed in accordance with the terms of this Agreement. Upon Owner's acceptance of the Schematic Design Documents, the

Owner and A/E shall mutually agree upon a Design Schedule for the performance of A/E's services and timing of A/E's deliverables as required pursuant to the terms of this Agreement. The Design Schedule shall include allowances for periods of time required for Owner's review, for review by the CM if required, and for approval of submissions by the authorities having jurisdiction over the Project. With Owner's written approval, A/E shall adjust the Design Schedule, if necessary, as the Project proceeds until the commencement of construction. Time is of the essence with respect to the performance of this Agreement.

3.1.2 Should A/E be obstructed or delayed in the prosecution or completion of its services as a result of unforeseeable causes beyond the control of A/E, not due to its own fault or neglect, and which could not be avoided by the exercise of reasonable diligence, including: (1) acts of God or of the public enemy, (2) acts of government, (3) fires, (4) floods, (5) epidemics, (6) quarantine regulation, (7) strikes, and/or (8) lockouts, then A/E shall notify Owner in writing within seven (7) business days (unless Owner expressly agrees in writing to a longer period of time) after commencement of such delay, stating the cause or causes thereof, or be deemed to have waived any right which A/E may have had to request a time extension.

3.1.3 Except as provided within Article 4 or elsewhere in the Agreement, no interruption, interference, inefficiency, suspension or delay in the commencement or progress of A/E's services from any cause whatsoever, including those for which Owner may be responsible in whole or in part, shall relieve A/E of its duty to perform or give rise to any right to damages or additional compensation from Owner. Except as provided within Article 4 or elsewhere in the Agreement, A/E expressly acknowledges and agrees that it shall receive no damages for delay. A/E's sole remedy, if any, against Owner will be the right to seek an extension of time to perform its services; provided, however, the granting of any such time extension shall not be a condition precedent to the aforementioned "No Damage for Delay" provision.

3.1.4 A/E acknowledges that timely delivery of A/E's deliverables required under this Agreement and timely responses to questions, required revisions to Contract Documents, submittals, and requests for information ("RFIs") or clarification, is critical to the Project. A/E's actions in reviewing and responding to the items described within this Section shall be taken in accordance with the timeframes specified in this Agreement, or in the deliverable or submittal schedule approved by Owner or, in the absence of a timeframe specified in this Agreement or an approved schedule, with reasonable promptness, but in no event more than five (5) business days after A/E's receipt of the question, submittal, RFI, or request for clarification or revisions to Contract Documents.

The A/E shall take such action only after consultation with the CM and Project Director.

(s) In the event of a disagreement between the CM and the A/E regarding acceptability of work and conformance with the plans and specifications, the Owner, in its sole discretion shall have the right to determine such acceptability and/or conformance.

(t) The A/E may order minor changes in work, which do not involve a change in the Total Project Cost or an extension of Contract Time. Such changes shall be by written order issued to the CM and endorsed by the Project Director.

A/E shall provide Owner with: one (1) hard copy, one (1) electronic copy in AutoCAD, and one (1) electronic copy in PDF.

ARTICLE 4
OTHER ADDITIONAL SERVICES

4.1 The following Other Additional Services shall cause the A/E to incur extra expense. If the Owner authorizes any of the services as set forth within Article 4, in writing, Owner shall pay A/E for the authorized services as a lump sum or as a multiple of actual payroll costs as determined by the Owner:

4.1.1 Services due to Owner-approved changes in general Project Scope or requirements after approval of Stage III – Project Design and Development: Phase I – Schematic Drawings;

4.1.2 Revising previously approved drawings or specifications to accomplish Owner-approved changes;

4.1.3 Providing detailed cost estimates;

4.1.4 Preparing documents for Change Orders when required by the Owner;

Owner shall not be responsible for the costs of Other Additional Services commenced without Owner's express prior written approval. Failure to obtain prior written approval for Other Additional Services waives A/E's claim that it performed Other Additional Services and, instead, such services will be deemed to be part of the Basic Services required of A/E hereunder.

4.3 Fees for additional services required to correct, modify, alter or change any work as a result of the A/E's failure to properly provide Contract Documents that reflect Owner's Project scope, time, quality and budget are not considered valid extra expenses under the terms of this Agreement.

All reimbursable expenses require prior written authorization from the Owner. Owner shall not be responsible for the costs of reimbursable expenses incurred by A/E without Owner's express prior written approval. The following are considered legitimate reimbursable expenses and will be reimbursed by the Owner:

7.1.1 Transportation and living expenses of A/E employees when traveling in connection with services other than those defined in Article 3;

Payment shall occur on the 10th of the month following the A/E's issuance of request for payment or the following business day should the 10th fall on a weekend or national holiday.

8.5.2 A/E's acceptance of final payment shall constitute a full waiver of any and all claims by it against Owner arising out of this Agreement or otherwise related to the Project, except those previously made in writing and identified by A/E as unsettled at the time of the final payment. Neither the acceptance of A/E's services nor payment by Owner shall be deemed to be a waiver of any of Owner's rights against A/E.

8.6.1 If the Project is suspended or abandoned in whole or part for more than three (3) months due to no fault of the A/E, the A/E shall be paid for all services performed prior to receipt of written notice from the Owner of such suspension or abandonment, including reimbursable expenses due. 12.6 If any insurance provided pursuant to this Agreement expires prior to the completion of the services required hereunder or specified tail or completed operations period, renewal Certificates of Insurance and, if requested by Owner, certified, true copies of the renewal policies and applicable additional insured endorsements, shall be furnished to Owner thirty (30) days prior to the date of expiration.

Owner shall be under no obligation to purchase such insurance, nor shall it be responsible for the coverages purchased or the insurance company/companies used. The decision of Owner to purchase such insurance coverages shall in no way be construed to be a waiver of its rights under this Agreement.

12.8 To the extent damages are covered by property insurance, Owner and A/E waive all rights against each other and against the contractors, consultants, agents and employees of the other for damages, except such rights as they may have to the proceeds of such insurance. 13.1.3 A/E shall provide notice of any Claim in writing to Owner within seven (7) calendar days after the first day of the event giving rise to such Claim or else A/E shall be deemed to have waived the Claim. Written supporting data shall be submitted to Owner within thirty (30) calendar days after the occurrence of the event, unless Owner grants additional time in writing, or else A/E shall be deemed to have waived the Claim.

13.1.4 A/E shall proceed diligently with its performance of services as directed by Owner, regardless of any pending Claim, unless otherwise agreed to by Owner in writing. Owner shall continue to make payments of undisputed amounts due in accordance with this Agreement during the pendency of any Claim.

The negotiation shall be attended by representatives of A/E with full decision-making authority and by Owner representatives who would make the presentation of any settlement reached during negotiations to the School Board of Manatee County. It is the intent of the parties that A/E's indemnification obligations comply fully with Section 725.08, *Florida Statutes*, including any amendments, in all respects. A/E's indemnification obligations in this Agreement are in addition to and not in lieu of any common law indemnification to which any of the Indemnitees are entitled.

A/E's obligation to the Indemnitee(s) shall be at A/E's sole expense. A/E shall respond within fifteen (15) calendar days to the tender of any indemnity claim for defense and/or indemnity by an Indemnitee, unless the Indemnitee agrees in writing to an extension of this time. The defense provided to the Indemnitees by A/E shall be by well qualified, adequately insured and experienced legal counsel acceptable to Owner. By proceeding to an indemnity claim, A/E shall not be deemed to have admitted to an obligation to provide indemnification and defense and A/E may provide a defense under a written reservation of rights.

2.1.1 Stage I – District Project Planning

2.1.1.1 The CM agrees to the Project Description and Scope of Work, the Construction Services Budget, the Substantial Completion date and the Project Schedule as set forth herein. The CM further agrees that the site is appropriate and that the Construction Services Budget is adequate for performance of the Work. The CM agrees that the level of quality of the Project is defined through the School District of Manatee County Planning Manual for Schools & Ancillary Spaces (the "**Planning Manual**") and other requirements set forth in the Contract Documents.

2.1.2 Stage II – Project Budget Endorsement

2.1.2.1 The first ranked A/E and CM shall:

(a) Review the Owner's Project Scope, budget, schedule and quality; and

(b) Provide a Letter of Commitment and School Board presentation publicly, if requested, endorsing the Project Scope, budget, schedule and quality as adequate and appropriate.

2.1.2.2 Project Schedule

(a) The CM shall prepare and submit a preliminary Project Schedule for Owner and A/E review and acceptance, which indicates all relevant activities during Stages II, III and IV of the delivery process.

(b) The Project Schedule will serve as the framework for the development of all future detailed schedules and shall be produced and updated monthly throughout the Project.

(c) The Project Schedule shall indicate proposed activities, dependencies, durations, milestone dates for receipt and approval of pertinent information, submittal of a GMP Proposal, preparation and processing of shop drawings, use of samples, and delivery of materials or equipment requiring long-lead time procurement.

(d) The Project Schedule shall also coordinate the CM services, the A/E services and the Owner responsibilities.

(e) If preliminary Project dates provided in the Project Schedule, which have been previously approved, are later found to be inaccurate, the CM will make appropriate recommendations to Owner's Project Director and A/E.

2.1.2.3 CM shall familiarize itself thoroughly with the evolving plans and

specifications and shall follow the development of design from Schematic Design through Construction Documents Phase. The CM is not responsible for ascertaining that the Drawings and Specifications are in accordance with applicable laws, statutes, ordinances, building codes, or other regulations. However, if CM discovers a conflict, error or discrepancy in the Contract Documents, including during performance of the Work, CM shall report same to A/E and Owner in writing within five (5) days of discovering same, and before proceeding with the Work affected, shall obtain a written interpretation or clarification from A/E.

2.1.2.4 Construction Cost Estimate

(a) CM shall prepare, for Owner and A/E review and approval, a detailed estimate of Construction Costs ("**Construction Cost Estimate**"), which shows the various elements of the Project and costs for construction of same.

(b) The CM shall update and issue the Construction Cost Estimate at the completion of each Phase of Stage III services, including the submission of the GMP Proposal, as follows:

(1) Phase I Schematic Design – more detail with supporting data

(2) Phase II Design Development – systems selected

i. 50% Drawings – only final details missing and establishment of preliminary GMP

ii. 100% Drawings – issuance of final GMP Proposal

(c) CM acknowledges that an accurate Construction Cost Estimate is critical to Owner's ability to establish and verify its Total Project Budget and, therefore, CM shall work closely with A/E and use its best skill and judgment as a contractor familiar with the construction industry in the locality of the Project in preparing its Construction Cost Estimate.

(d) If Construction Costs and/or any estimate exceed previously approved estimates or the Owner's Construction Services Budget, the CM shall make appropriate recommendations to the Owner and A/E for corrective action and propose value engineering and/or alternates for Owner and A/E consideration.

(e) The Construction Cost Estimate shall be reviewed with the Owner's Project Director and the A/E. Any recommendations and advice by the CM concerning design alternatives or value engineering shall be subject to the approval of the Owner's Project Director and the A/E.

2.1.2.5 Stage III – Project Design and Development

(a) At the completion of Stage III: Phase I – Schematic Design, the CM shall:

(1) Provide a second Letter of Commitment and School Board presentation publicly, if requested, stating that the Schematic Design is in conformance with the Project Scope of Work and that the Owner's:

i. Project Schedule continues to be appropriate;

ii. Project level of quality is being achieved; and

iii. Construction Services Budget is adequate.

(2) Or, have its services terminated in accordance with Article 13. If the Agreement is terminated, Phase I documents become the property of the Owner, which may be used or changed by the Owner, solely for the purpose of completing the Project.

(b) At the completion of Stage III: Phase II – Design Development, the CM shall:

(1) Provide a third Letter of Commitment and School Board presentation publicly stating that with professional assistance and appropriate use of value engineering, the Design Development is in conformance with the Project Scope of Work and that the:

i. Project Schedule continues to be appropriate;

ii. Project level of quality is being achieved; and

iii. Construction Services Budget is adequate.

(2) Or, provide evidence prohibiting the commitment.

(c) The CM shall seek to develop subcontractor interest in the Project and shall furnish to the Owner and A/E a list of possible subcontractors and suppliers that may furnish material or equipment for each principal portion of the Work. The Owner and A/E will reply in writing to the CM if there are any objections to a subcontractor or supplier.

(d) Advertising, Bidding and Awarding of Contracts shall be completed per State Requirements for Educational Facilities (SREF), Section 4.2(2).

(e) At 100% completion of Stage III: Phase III – Construction Documents, the CM shall either:

(1) Provide a detailed GMP less than or equal to the Construction Services Budget; and mobilize construction personnel and proceed with Stage IV – Project Construction; or

(2) Provide a detailed GMP greater than the Construction Services Budget after which the Owner shall grant the CM thirty (30) calendar days from 100% completion of Stage III to return with a GMP less than or equal to the Construction Services Budget.

(f) If the CM returns after thirty (30) calendar days with a GMP that exceeds the Construction Services Budget, at the recommendation of the Superintendent of the School District of Manatee County, the Owner may:

(1) Modify the Construction Services Budget thereby increasing the Total Project Budget without additional cost to the Owner including for A/E fees; or

(2) Terminate the CM Agreement allowing the next ranked construction management firm to provide a GMP within the Construction Services Budget and begin construction. If the CM Agreement is terminated under this section, CM's recovery against Owner shall be limited to that portion of the Contract Amount earned through the date of termination together with any retainage withheld and reasonable termination expenses incurred, but CM shall not be entitled to any other or further recovery against Owner, including damages or any anticipated profit on portions of the Work not performed.

2.1.2.6 Guaranteed Maximum Price (GMP) Proposal

(a) When the Owner determines that the drawings and specifications are 100% complete, the CM shall provide a GMP Proposal.

(b) The GMP Proposal shall include the CM Fee and represent the sum total of all costs associated with completing the Work. The GMP Proposal shall also include an itemized statement of CM's General Conditions expenses for the Project, which, once agreed to by Owner shall be specifically included within the GMP Amendment. The CM's General Conditions expenses are to be paid as the Work progresses with each Application for Payment based on percentage of completion of Work. The itemized statements shall be in form and substance and with such detail as may be required by Owner. General Conditions expenses shall each be line items in the Schedule of Values to be included within the GMP Amendment.

(c) The GMP Proposal shall also include a proposed Construction Schedule, as defined herein, which, once approved, shall be attached to the GMP Amendment.

(d) If the Owner determines the drawings and specifications are not 100% complete and a GMP is required to maintain the Project Schedule, the CM shall provide line items within the GMP Proposal for further development of drawings and specifications by the A/E, which shall not include changes in scope, systems, materials or equipment.

(e) The GMP Proposal shall include a written statement thoroughly explaining the foundation on which the GMP is based including, but not limited to the following:

(1) A complete list of all drawings and specifications used to prepare the GMP;

(2) All addenda and changes in conditions of the Agreement used to prepare the GMP;

(3) A complete list of Owner provided allowances and a statement explaining the CM's understanding of their use;

(4) The proposed date of an Owner-approved Substantial Completion; and

(5) A detailed list of assumptions, exclusions, allowances and clarifications that were made in preparing the GMP.

(f) The CM shall meet with the Project Director and A/E to review the contents of GMP Proposal. The Owner and A/E shall identify, in writing, all discrepancies in the GMP Proposal and provide same to CM. After receiving the list of discrepancies, the CM shall make the appropriate adjustments to the GMP Proposal for submission to the Owner and the A/E.

(g) The CM shall not incur any reimbursable Construction Costs, as outlined in Article 6, prior to the Owner's acceptance of the CM's GMP Proposal and issuance of a Notice to Proceed.

(h) Upon the Owner's acceptance of the GMP Proposal, the GMP will become an Amendment to the Agreement ("**GMP Amendment**") and establish the Agreement's GMP, Contract Time, and liquidated damages for incorporated phases of work.

(i) The GMP shall include only those taxes enacted at the time the GMP is established.

(j) If the GMP exceeds the Owner's Construction Services Budget, the terms of Sections 2.1.2.5(e)(2) and 2.1.2.5(f) shall apply.

2.1.2.7 Bonds

(a) Within ten (10) business days after the GMP is approved by Owner and CM and before any portion of the Construction Work to be covered by such bonds is commenced, CM shall provide Owner with a Performance Bond and a Payment Bond (together, the "**Bonds**"), in the form prescribed by AIA A312-2017 forms or those forms provided within Section 255.05, *Florida Statutes*, in the amount of one hundred percent (100%) of the total sum of the GMP, the costs of which are to be paid by CM. The Bonds must comply with the following provisions and must be otherwise acceptable to Owner:

(1) The Bonds must be underwritten by a surety company which has a currently valid Certificate of Authority issued by the State of Florida, Department of Insurance, authorizing it to write surety bonds in the State of Florida.

(2) The Bonds must be fully performable in Florida, with service and venue in Manatee County, Florida.

(b) In accordance with the requirements of Section 255.05(1)(a), *Florida Statutes*, CM shall record in the Public Records of Manatee County, Florida, a copy of the Bonds. CM shall deliver to Owner certified copies of the recorded Bonds within ten (10) days of recording of the Bonds but, in any event, before commencing the Work. The proper recording and delivery of such Bonds are conditions precedent to Owner's obligation to make any progress payments to CM hereunder.

2.1.3 Stage IV – Project Construction and Warranty

2.1.3.1 The construction phase shall commence on the earlier of the following:

(a) The Owner's acceptance of the CM GMP Proposal and issuance of the Notice to Proceed, or

(1) Award a subcontract;

(2) Undertake the Work with CM forces; or

(3) Issue a Purchase Order for materials or equipment required for the Work.

2.1.3.2 Construction Schedule

(a) Within thirty calendar (30) days after the receipt of the Notice to Proceed, the CM shall prepare a Construction Schedule and submit the schedule to the A/E and Project Director for approval. The Construction Schedule shall graphically depict the sequence and duration of all activities required to satisfactorily finish the Project. The Construction Schedule shall represent an accurate assessment of the current status of the Project and of the Work remaining to be accomplished and it shall provide a sound basis for identifying variances and problems and for making management decisions.

(b) Following development and approval of the Construction Schedule, CM shall, at the end of each calendar month occurring thereafter during the period of time required to finally complete the Project, or at such earlier intervals as circumstances may require, update and/or revise the Construction Schedule which shall be submitted to Owner and A/E.

(c) The Project Schedule and the Construction Schedule shall be planned and recorded with a Critical Path Method ("**CPM**") schedule. If requested by Owner or A/E, CM shall furnish any information needed to justify the reasonableness of activity duration. Such information shall include estimated activity manpower, anticipated quantities, and production rates.

(d) If the Construction Schedule or any current updates fail to reflect the Work's actual plan or method of operation, or a contractual milestone date is more than fifteen (15) days behind, Owner may require the CM to submit information or documentation including an updated schedule

to describe the CM's plan to complete the remaining Work by the required milestone date.

2.1.3.3 Bidding and Subcontracts

(a) Unless authorized by Owner, all work shall be performed under subcontracts held by the CM. The CM shall not bid any of the subcontractor work or perform such work with its own forces without prior written consent of the Project Director.

(b) The CM shall develop procedures that are acceptable to the Project Director and the A/E for pre-qualification of subcontractors and material suppliers, develop subcontractor interest in the Project and conduct pre-bid conferences with interested bidders to review the bid package documents and Project Schedule approved by the Construction Team.

(c) The CM shall obtain bids from subcontractors and open such bids in the presence of the Construction Team, specifically the Project Director and A/E. The Construction Team will then analyze the bids and deliver such bids to the Project Director and A/E.

(d) The Project Director will determine, with the advice of the CM and subject to the reasonable objection of the A/E, which bids will be accepted and indicate his or her acceptance by signing the bid tabulation form for each work scope.

(e) The CM shall not be required to contract with any firm with whom the Owner has a reasonable objection. The CM shall provide the Owner with the scope sheet(s) indicating the apparent responsive and responsible subcontractor bids.

(f) Equal Employment Opportunity / Non-Discrimination: In performing all services to be provided hereunder, CM shall not discriminate against any employee or applicant for employment because of race, color, religion, sex or national origin. CM shall take affirmative action to ensure that applicants for employment are employed, and that employees are treated during employment, without regard to their race, color, religion, sex or national origin. Such actions shall include the following: (i) employment, upgrading, demotion or transfer; (ii) recruitment or recruitment advertising; (iii) layoff or termination; (iv) rates of pay or other forms of compensation; and (v) selection for training, including apprenticeship. CM shall post in conspicuous places, available to all employees and applicants for employment notices setting forth the terms of this Equal Employment Opportunity Non-Discrimination Clause and stating that all qualified candidates will receive consideration for employment without regard to race, color, religion, sex or national origin.

2.1.3.4 CM Construction Services

(a) Prior to the commencement of Work, CM may attend a preconstruction conference with Owner and A/E and others, as appropriate for the particular needs of the Project, to discuss the Project Schedule, procedures for handling shop drawings and other submittals, and for

processing Applications for Payment, and to establish a working understanding among the parties as to the Work. During the prosecution of the Work, CM shall attend any and all meetings convened by Owner or A/E with respect to the Project, when directed to do so by Owner or A/E. CM shall have its subcontractors and suppliers attend all such meetings (including the preconstruction conference) as may be directed by Owner or A/E.

(b) The CM shall manage, schedule and coordinate the work, including the work of subcontractors and coordinate the work with the activities and responsibilities of the Project Director, A/E and CM in order to complete the Project in accordance with the Owner's objectives of scope, budget, schedule and quality.

CM is responsible for completing the Work so that it complies accurately and completely with the requirements of the Contract Documents.

ii. The CM shall maintain exclusively for this Project sufficient off-site support staff and competent full-time staff at the Project site authorized to act on behalf of CM to coordinate, inspect, provide general direction and direct the Work and progress of the subcontractors. The CM's on-site management and supervisory personnel shall be consistent with the interview presentation and shall not be removed or replaced without the Project Director's consent. The CM's Project Manager, as defined herein, shall have authority to act on behalf of CM. All communications given to the CM Project Manager shall be as binding as if given to CM. The Owner's Project Director shall have the right to direct the CM to remove any on-site personnel whose performance is unsatisfactory to the Owner. In such event, the CM shall promptly replace such personnel without additional compensation for that replacement.

iii. The CM, in conjunction with the Project Director, shall establish on-site organization and lines of authority to implement the overall plans of the Construction Team.

iv. CM shall establish and maintain lines of authority for its personnel, and shall provide this information to Owner and all other affected parties, such as the code inspectors of any permitting authority, the subcontractors, and A/E. Owner and A/E may attend meetings between CM and its subcontractors; however, such attendance is optional and shall not diminish either the authority or responsibility of CM to administer the subcontracts.

v. CM shall be responsible to Owner for the acts and omissions of its employees and agents and its subcontractors, their agents and employees, and all other persons performing any of the Work or supplying materials under a contract to CM.

vi. CM shall develop and maintain a program, acceptable to Owner and A/E, to assure quality control of the Work. CM shall supervise the Work of all subcontractors, providing instructions to each when their portion of the Work does not conform to the requirements of the Contract Documents and CM shall continue to exert its influence and control over each subcontractor to ensure that corrections are made in a timely manner so as to not affect the efficient progress of the Work.

vii. Should a disagreement occur between CM and A/E over the acceptability of the Work, Owner, in its sole discretion, shall have the right to determine the acceptability.

(e) CM shall provide the following job site administration functions during construction to assure proper documentation, including the following:

(3) Daily Job Logs: The CM shall record the progress of the Work and prepare a daily job log containing a record of weather and CM employees and subcontractors on site including number of workers and work accomplished. The log shall be maintained at the Project site or electronically and made available to the A/E and the Project Director at all times.

(4) Logs for RFIs, Submittals/Shop Drawings, Etc.: The CM shall maintain a log of Requests for Information (RFIs), submittals and shop drawings, status of the Unforeseen Conditions Fund, potential cost items, and Architect's Supplemental Instructions (ASIs) to be reviewed at each Construction Team meeting who shall act on the disposition of these items. CM shall review and approve shop drawings and other submittals and implement procedures for transmittal to the A/E of such submittals for action, and closely monitor their review process.

(5) Submittals:

i. CM shall carefully examine the Contract Documents including

the plans and specifications for the Project, as well as the Planning Manual to determine all requirements for approval of materials to be submitted such as shop drawings, data, test results, schedules and samples. If requested and/or required by the needs of the Project, CM shall prepare a submittal schedule and shall submit the schedule for Owner and A/E approval. The submittal schedule will be coordinated with CM's Construction Schedule and allow A/E reasonable time to review submittals.

ii. If the Project involves submittals and shop drawings, CM shall carefully review and certify for accuracy and completeness all shop drawings and other submittals and then forward the same to A/E for review and action. By submitting shop drawings and other submittals, CM represents to Owner and A/E that CM has: (1) reviewed and approved them, (2) determined and verified materials, field measurements and field construction criteria related thereto, or will do so, and (3) checked and coordinated the information contained within such submittals with the requirements of the Work and of the Contract Documents.

(7) Payments to Subcontractors: Develop and implement a procedure for the review, processing and payment of applications by subcontractors for progress and final payments.

(8) Substantial Completion: The CM shall ascertain when the Work or designated portions thereof are ready for the A/E Substantial Completion inspection after which the CM and A/E will execute and issue a Certificate of Substantial Completion, as required by Owner, including a list of punch list items to be completed or corrected. From the punch list of incomplete or unsatisfactory items prepared by CM and reviewed and supplemented by A/E, CM shall prepare a schedule for completion of the items indicating completion dates for Owner's review. Substantial Completion will also include the issuance of a Certificate of Occupancy by the permitting authority.

(9) Final Completion: The CM shall monitor the subcontractors' performance on the completion of the Work and provide notice to Owner and the A/E when the Work is ready for final inspection. CM shall secure, review and certify compliance with the Contract Documents and then transmit to Owner, through the A/E, and as an express condition precedent to final payment, all closeout items set forth in **Exhibit C** including required guarantees, warranties, affidavits, releases, consent of surety to final payment, bonds, waivers, manuals, as-built drawings, and maintenance books. Final Completion will also include issuance of a Certificate of Occupancy by the permitting authority and Owner taking possession of the

Project.

(f) Safety

(1) CM is responsible for the safety and protection of all persons and property on or about the Project site during the progress of the Work. CM is responsible for protecting from damage or loss all material and equipment to be incorporated into the Work which may be stored off of the Project site.

(2) The CM shall be responsible for initiating, maintaining, implementing and supervising an effective safety program for the Work and requiring similar programs from the subcontractors. OSHA guidelines shall serve as the basis for the safety programs. Copies of the proposed programs shall be distributed to the Construction Team by the CM.

(3) CM shall employ all necessary measures to protect adjoining adjacent property and shall provide barricades, temporary fences and covered walkways required to protect the safety of passersby, local building codes, ordinances or other laws and the Contract Documents.

(4) CM's duties and responsibilities for the safety and protection of the Work and the environment shall continue until such time as the Work is completed and final acceptance by Owner has occurred.

(5) Alcohol, drugs and all illegal substances are strictly prohibited on any Owner property.

(6) At all times CM shall adhere to Owner's safety and security regulations, and shall comply with all security requirements at Owner's facilities, including all safety and security regulations and requirements, as said regulations and requirements may be modified or changed by Owner from time to time.

2.1.3.5 The CM shall keep full and detailed accounts and exercise such controls as may be necessary for proper financial management, in order to substantiate all costs incurred under this Agreement. The accounting and control systems shall be satisfactory to the Owner. The Owner shall be afforded access to the CM's records, correspondence, instructions, drawings, receipts, subcontracts, purchase orders, vouchers, memoranda and all other data relating to the Project at any and all times during normal business hours upon request by Owner. The CM shall preserve all records and supporting documentation that relate to the Work for a period of three (3) years after final payment, or for longer period as may be required by law. CM shall likewise require all subcontractors to retain all Project records and supporting documentation. The Owner's right to audit, inspect and copy Project records and documentation of CM shall survive completion and/or termination of the Agreement. If at any time, Owner conducts such an audit of CM's records and documentation and finds that CM overcharged Owner, CM shall pay to Owner the Overcharged Amount which is defined as the total aggregate overcharged amount together with interest thereon (such

interest to be established at the rate of twelve percent (12%) per annum). If the Overcharged Amount is equal to or greater than Ten Thousand and No/100 Dollars ($10,000.00), CM shall pay to Owner the Overcharged Amount and the Audit Amount, which is defined as the total aggregate of Owner's reasonable audit costs incurred as a result of its audit of CM. Owner may recover the Overcharged Amount and the Audit Amount, as applicable, from any amount due or owing CM with regard to the Project or under any other agreement between CM and Owner. If such amounts owed CM are insufficient to cover the Overcharged Amount and Audit Amount, as applicable, then CM hereby acknowledges and agrees that it shall pay such remaining amounts to Owner within seven (7) business days of its receipt of Owner's invoice for such remaining amounts. In no event shall the Overcharged Amount or the Audit Amount be deemed a reimbursable Cost of Work.

2.1.3.6 Hazardous Materials and Substances

(a) In the event hazardous materials such as asbestos or polychlorinated biphenyl (PCB) are encountered at the Project site that were not specifically noted in the Construction Documents, the CM shall immediately stop Work in the affected area and shall notify the Owner and the A/E in writing of the suspected material within forty-eight (48) hours of discovering same.

(b) Upon receipt of the CM's notice, the Owner shall obtain the services of a licensed laboratory to determine absence or presence of hazardous substance(s), and in the event such material or substance is found to be present, to remediate, abate, or otherwise remove the hazardous substances.

(c) The Owner shall not be responsible under this Section for hazardous materials or substances the CM brings to the site unless such materials or substances required by the Contract Documents, except to the extent of the CM's fault or negligence in the use and handling of such materials or substances.

(d) CM is responsible for compliance with any requirements included in the Contract Documents regarding hazardous materials. If any chemicals, materials, or products containing toxic substances, as defined by 29 C.F.R. 1910, Subpart Z, or any local, state or federal statutes or regulations, are contained in the products used on site or incorporated into the construction by CM or any of its subcontractors, CM shall maintain on site a Safety Data Sheet for each such product. CM shall indemnify and hold the Owner harmless against the cost and expense Owner incurs: (1) for remediation of a material or substance CM brings to the site and negligently handles, or (2) where CM fails to perform its obligations under this Section, except to the extent that the cost and expense are due to Owner's fault or negligence.

2.1.3.7 Emergencies

(a) CM shall take immediate action to prevent injury to any person and injury to any property (including the Work and any adjacent property)

which otherwise might arise from an emergency event at the Project site. Property damage includes environmental impacts to the ground, air, and water.

CM shall give A/E and Owner written notice within forty-eight (48) hours after the occurrence of the emergency, if CM believes that any significant changes in the Work or variations from the Contract Documents have been caused thereby. CM shall also deliver to Owner and A/E copies of any written notice of violations received by CM or subcontractors within forty-eight (48) hours following notification by the regulatory agency.

(b) If A/E determines that a change in the Contract Documents is required because of the action taken in response to an emergency, a Change Order or Amendment shall be issued to document the consequences of the changes or variations. If CM fails to provide the forty-eight (48) hour written notice noted above, CM shall be deemed to have waived any right it otherwise may have had to seek an adjustment to the Contract Amount or an extension to the Contract Time. CM is obligated to promptly report in writing to Owner all accidents relating to the Work that result in any personal injury or property damage. The notice procedures contained in this Section control over any conflicting notice periods herein.

2.1.3.8 Final Completion

(a) Warranties

(1) CM shall obtain and assign to Owner on a non-exclusive basis all warranties given to CM by any subcontractors or by any materialmen supplying materials, equipment or fixtures to be incorporated into the Project.

(2) The CM warrants to the Owner and A/E that materials and equipment furnished under the Contract Documents shall be of good quality and new unless the Contract Documents require or permit otherwise. The CM further warrants that the Work will be free from defects, except for those inherent in the quality of the Work the Contract Documents require or permit. Work, materials or equipment not conforming to these requirements may be considered defective. The CM's warranty excludes remedy for damage or defect caused by abuse, alterations to the Work not executed by the CM, improper or insufficient maintenance, improper operation, or normal wear and tear and normal usage.

(3) Any warranty to be provided will be in such form as is acceptable to Owner and shall not include any exclusions, exceptions or modifications except to the extent approved by Owner in its sole discretion.

(4) In addition to all other rights and remedies available to Owner at law or in equity, including any implied warranties Owner may be entitled to as a matter of law, CM expressly warrants to Owner that

it shall promptly correct, upon receipt of written notice from Owner, any portion of the Work which is found to be defective or otherwise not in conformance with the requirements of the Contract Documents. In the event that any defective or non-conforming work is deemed by Owner in its sole discretion to present an immediate threat to safety or security, Owner shall be entitled to correct and fix such defective or non-conforming portions of the Work, and CM shall reimburse Owner for all costs and expenses incurred by Owner in performing such Work. This obligation to correct defective or nonconforming Work shall run for a period of one (1) year (or such longer period of time as may otherwise be specified in the Contract Documents including the Planning Manual) commencing from the date Substantial Completion is achieved. With respect to the correction of any defective or nonconforming Work, CM shall be liable for all damage to any part of the Work itself and to any adjacent property which is caused by such corrective work.

ARTICLE 3
OWNER'S RESPONSIBILITIES

3.1 The Owner shall provide full information, in a timely manner, regarding the requirements of the Project, including a program setting forth the Owner's objectives, constraints and criteria, including space requirements and relationships, flexibility and expandability requirements, special equipment and systems and site requirements.

3.1.1 The Owner shall establish a Total Project Budget that includes the cost of all Design, Construction and Owner Services. The Total Project Budget shall include contingencies for changes in the work conditions and other costs, which are the responsibility of the Owner.

3.1.2 The Owner shall furnish (unless other provisions are made) the following with reasonable promptness and at the Owner's expense, and the CM shall be entitled to rely on this information:

3.1.2.1 Reports, surveys, drawings and tests concerning the conditions of the site;

3.1.2.2 Surveys describing physical characteristics, legal limitations and utility locations for the project site; and

3.1.2.3 The services of geotechnical engineers when such services are required for site evaluation

3.2 The Owner shall designate a Project Director that will be fully acquainted with the Project and shall define the lines of Owner authority to approve construction budgets and changes in the Project within the Owner approved Scope of Work and Project Budget.

3.3 The Owner shall retain the A/E for design and to prepare Construction Documents for the Project. The duties and responsibilities of A/E are described in the Agreement Between the Owner and the A/E, a copy of which will be furnished to CM. The Agreement between the Owner and A/E shall not be modified without written notification to the CM.

3.4 The Owner's anticipated Sustainable Objectives for the Project are TBD. **Exhibit TBD,** attached hereto and incorporated herein, defines the terms, conditions and services related to the Owner's Sustainable Objectives.

ARTICLE 4
PERMITS, LICENSES, INSPECTIONS AND TAXES

4.1.1 A reviewing authority must approve the final Construction Documents for code compliance and issue the appropriate building permit(s) prior to beginning Work. All changes to the Construction Documents shall be reviewed and approved by the same authority.

4.2 Code Inspections

4.2.1 All components of the Project require detailed code compliance and Construction Document inspections during construction including, but not limited to structural, mechanical, electrical, plumbing and general building as well as threshold inspections where required.

4.2.2 The inspecting authority will provide inspection personnel. The Project Director will provide to the CM names, addresses, email addresses, and telephone numbers of the inspecting authorities. The CM shall notify the appropriate inspector(s) no less than 24 hours in advance of the required inspection.

4.2.3 All Work scheduled for inspection shall be ready for inspection and inspected prior to the work being concealed. Work not inspected and not approved prior to concealment shall be revealed for inspection when directed by the Owner of designated inspecting authority.

4.2.4 All costs associated with inspecting prematurely concealed work shall be borne by the CM.

4.3 Taxes

4.3.1 CM shall pay all sales, consumer, use and other similar taxes associated with the Work or portions thereof, which are applicable during the performance of the Work.

4.3.2 CM shall comply with and fully implement the sales tax savings program with respect to the Work.

4.3.3 Direct Purchasing – Notwithstanding anything herein to the contrary, because Owner is exempt from sales tax and wishes to generate sales tax savings for the Project, Owner reserves the right to make direct purchases of various construction materials and equipment included in the Work.

ARTICLE 5
SUBCONTRACTS

5.1 A subcontractor is a person or organization who has a direct contract with the CM to perform specific work at the jobsite. Nothing in the Contract Documents shall create any contractual relationship between the Owner, A/E or any other subcontractor.

5.2 By appropriate written agreement, the CM shall require each subcontractor, to the extent of the work to be performed by the subcontractor, to be bound to the CM by the terms of the Contract Documents, and to assume toward the CM all obligations and responsibilities which the CM by these documents, assumes to the Owner and the A/E. The CM shall provide the Owner copies of the subcontractor bonds or evidence that bonds have been acquired. All increases and decreases to the Project shall be documented in the bond. CM requested payments for work completed will be withheld until all documentation of bonds is received.

5.3 Requirements

5.3.1 On all subcontracts exceeding $100,000.00 the CM may require subcontractors to provide a 100% performance bond and a 100% payment bond from a surety company authorized to do business in the State of Florida by the Department of Insurance. If the CM wishes to award subcontracts to contractors unable to supply this bonding, CM shall request special authorization from the Owner.

5.3.2 The subcontractor must have successfully completed no less than two projects of similar size and complexity within the last five (5) years unless this requirement is waived by Owner, A/E and CM. Similar projects completed by the subcontractor will be indicated on the scope of work sheet by the CM.

5.3.3 Subcontractor is required to be licensed per Chapter 489 and shall provide proof of licensing prior to start of work. Proof of subcontractor licensure shall be provided electronically to the Owner.

5.3.4 All Subcontracts shall provide:

5.3.4.1 That the Owner will be an additional insured on all insurance policies required to be provided by the subcontractors except workman's compensation and professional liability, if applicable;

5.3.4.2 That all warranties will be assigned directly to Owner;

5.3.4.3 That the Work being performed pursuant to such subcontract be performed in accordance with the requirements and intent of the Contract Documents and provide for retainage as specified within this Agreement;

5.3.4.4 For submission of Applications for Payment in form acceptable to Owner, together with reasonable backup and supporting information and, if requested by Owner, Releases and Affidavits and Waivers of Right to Claim Against the Payment Bond, in the forms required by the Agreement, from all subcontractors or vendors who have filed Notice to Owner, filed Intent to Lien, or have indicated non-payment from CM.

5.3.4.5 That subcontractor agrees to comply, at its own expense, with all federal, state and local laws, codes, statutes, ordinances, rules, administrative orders,

regulations and requirements applicable to the Project, including those dealing with safety (including the Trench Safety Act, Chapter 553, *Florida Statutes*).

5.3.4.6 That the subcontractor will resolve all disputes involving Owner in the same manner as provided in the Agreement;

5.3.4.7 That, upon Owner's request, subcontractor will provide proof of such insurance and additional insured endorsements to Owner;

5.3.4.8 Limitation of Remedy – No damages for delay – that subcontractors' exclusive remedy for delay in the performance of the Work required by the Agreement caused by events beyond its control, including delays claimed to be caused by or attributable to the Owner or A/E and claims based on breach of the Agreement or negligence, shall be an extension of Contract Time; and

5.3.4.9 That, in the event of a change in the Work that is performed by Subcontractors or sub-subcontractors, a maximum of fifteen percent (15%) markup shall be permitted for each of the Subcontractors for all overhead and profit on Subcontractor's direct labor and material costs and actual equipment costs as follows: (i) ten percent (10%) markup for that portion of the Work to be performed by a Subcontractor with its own forces; and (ii) ten percent (10%) markup for that portion of the Work to be performed by a sub-subcontractor with its own forces, or any lower tier of subcontractor, plus five percent (5%) for the Subcontractor. The total combined Change Order fee for Subcontractor and all sub-subcontractors shall not exceed fifteen percent (15%). A detailed breakdown, with necessary backup, shall be provided. Subcontractors, and sub-subcontractors, shall agree that the foregoing constitutes their sole and exclusive remedies for delays and changes in the work and thus eliminate any other remedies or claims for increases in the Contract Amount, damages, losses or additional compensation.

6.2 **CM Fee (Overhead and Profit)**

6.2.1 The Owner shall pay to the CM the CM Fee as defined in Section 1.3.5.2(a) based on the Cost of Work, which is established at the time the GMP is set by the parties.

6.2.2 The total amount of the CM Fee as set forth in Section 1.3.5.2(a) shall be paid proportionally to the Cost of Work in place, excluding stored materials and less retainage.

6.3 **Cost of Work**

6.3.1 The Owner shall pay the CM for the following items, which comprise the "**Cost of Work**":

6.3.1.1 Reimbursable Costs per Article 6.1;

6.3.1.2 General Conditions expenses as defined in Section 2.1.2.6(b). Labor costs that are itemized as Reimbursable Costs may be included within General Conditions expenses, whether or not specifically noted as such, and are not to be billed separately as Reimbursable Costs. CM shall promptly report to Owner any occasion in which the labor/payroll rates paid to personnel is lower than the estimated price included within the GMP Amendment related to the General Conditions expenses. Owner reserves the right to audit CM's payroll and CM shall promptly make available to Owner all records necessary for such purpose;

Unreasonable components of labor burden incurred for the Project (related to wages of CM personnel) as determined by the A/E and Owner including, but not limited to, excessive bonuses, excessive pension/profit sharing costs, excessive retirement costs, club dues, automobile expenses,

training/seminars, uniforms and administrative support shall not be reimbursed. Reasonable components of labor burden include payroll taxes (FICA, SUTA, FUTA), insurance (health, life, dental, disability), retirement plan up to 4%, and workers compensation (reimbursement shall be based on the actual rate for each person charged to the Project and shall include modifiers and discounts);

To the extent permitted by applicable law, all premiums for any insurance and bonds required for the Project shall reflect the net actual costs to the CM after taking into consideration cost adjustments due to experience modifiers, premium discounts, policy dividends, retrospective rating plan premium adjustments, rebates, refunds, etc. The CM's actual cost for insurance and bonds directly attributable to this Agreement shall be considered to be included within the GMP, but shall not be included in the amount for purposes of calculating the CM Fee, and shall be charged at the actual rate paid by CM, provided that such rate shall not exceed the amount allocated to these expenses in the GMP. CM shall invoice Preconstruction Costs monthly and such costs shall be based upon the percent completion of the designated portion of the Preconstruction Services for each particular month as determined by Owner and an itemized statement of reimbursable expenses incurred for such month, respectively, and Owner's receipt of CM's written invoice for such payment. CM's invoices shall be in a form reasonably acceptable to Owner and be accompanied by such other information, documentation, and materials as Owner may reasonably require. The final invoice for Preconstruction Services shall not be submitted until either (i) the GMP

Amendment is executed for the entire Work but prior to construction starting, or (ii) the parties fail to reach agreement on the GMP Amendment and Owner elects to terminate the Agreement as provided herein, whichever occurs first; and

6.3.1.12 Costs associated with the Investigative Report in the total amount of **$__NA_____** will be invoiced monthly and will be paid for by the Owner at the time of GMP approval.

6.3.1.13 Costs not included in the Total "Not to Exceed" Reimbursable Costs listed in 6.1 above:

Safety Awards	(to be billed at 0.04**%** of the Contract Amount)

ARTICLE 7
UNFORESEEN CONDITIONS FUND

7.1 The unforeseen condition fund within the GMP shall be 3-5% of the construction cost and shall be used at the discretion of the Owner. Notwithstanding anything to the contrary herein, the fund will be spent only for changes due to unforeseen conditions, Owner requests, alternatives, items initially value engineered that may be able to be added back to the scope of Project and other legitimate costs of the Project. The CM shall maintain a current listing of the unforeseen conditions transactions and it shall be available to the Construction Team at all times. To the extent the amount of Unforeseen Conditions Fund is insufficient to cover the costs of the additional work attributable to the Unforeseen Condition, the Owner may issue a Change Order or Amendment under Article 8 herein to cover any excess costs. Unspent unforeseen condition funds shall be returned to Owner if not used on the Project.

7.2 If a dispute arises in connection with CM's claim of unforeseen conditions, the dispute resolution procedure set forth in the Contract Documents shall be complied with by the parties.

ARTICLE 8
CHANGES IN THE PROJECT

8.1 Change Orders and Amendments

8.1.1 The Owner, without invalidating this Agreement, may order changes in the Project within the general scope of this Agreement consisting of additions, deletions or other revisions. All changes in the Project, which are not authorized expenses under the Unforeseen Conditions Fund under Article 7 herein shall be authorized by Change Order or Amendment and signed by the Owner before the change is implemented. The GMP and the construction completion date will be adjusted only in accordance with an approved Change Order or Amendment. Except in an emergency endangering life or property, no additions, deletions or other revisions shall be made except upon written order of Owner as described herein, and Owner shall not be liable to CM for any increased compensation or adjustment to the completion date without such written order. Accordingly, no course of conduct or dealings between the parties, nor express or implied acceptance of alterations or additions to the Work, and no claim that Owner has been unjustly enriched by any alteration of or addition to the Work, whether or not there is, in fact, any unjust enrichment to the Work, shall be a basis of any claim to an increase in any amounts due under the Contract Documents or a change in any time period provided in the Contract Documents. All Change Orders and Amendments shall be approved by the Owner. CM agrees to provide, and shall require all Subcontractors to provide, accurate and sufficient cost data to enable Owner to evaluate the appropriate value of all labor, materials and equipment associated with the Change Order including labor by hours and rate, materials, supplies, taxes and insurance and any other reasonable documentation requested by the Owner.

8.1.2 A Change Order or Amendment is a written order to the CM signed by the Owner issued after the execution of this Agreement, authorizing a change in the Project, CM's fee, or the construction completion date. Each adjustment in the GMP resulting from a Change Order or Amendment shall clearly identify the amount attributable to the addition, deletion or other revision.

8.1.3 In the event a requested change is approved by Owner that results in either an increase or decrease to the Contract Amount, a Change Order or Amendment shall be issued, which increases or decreases the GMP by the full amount of CM's actual direct and indirect costs including overhead and profit and general conditions that are to be paid to CM and Subcontractors or sub-subcontractors. Such Change Order or Amendment shall be supported by full documentation of all costs in an itemized cost estimate including labor by hours and rate, materials, supplies, taxes and insurance, and any other documentation required to allow Owner to properly evaluate the cost estimate. The costs of such Change Order or Amendment shall be determined in accordance with Section 5.3.4.9 above as it relates to mark-ups for Subcontractors and sub-subcontractors and/or in one or more of the following ways:

8.1.3.1 By mutual acceptance of a lump sum properly itemized and supported by sufficient data to permit evaluation by the A/E and Project Director;

8.1.3.2 By unit prices stated in the agreement or subsequently agreed upon;

8.1.3.3 By costs defined in Article 6 and a mutually acceptable fixed or percentage fee; and/or

8.1.3.4 By the method in Article 8.2.

8.2 If the above methods in 8.1.3.1 through 8.1.3.3 are not agreed upon, the CM, provided it receives a written order signed by the Owner, shall promptly proceed with the work involved. Work shall then be determined on the basis of the reasonable expenditures and savings of those performing the work attributed to the change. In the event a Change Order or Amendment is issued under these conditions, the A/E will establish an estimated cost of the work and the CM shall not perform any work whose cost exceeds that estimate without prior written approval of the Owner.

8.3 Claims for Additional Cost or Time

8.3.1 All claims for additional cost or time shall be made by a request for Change Order or Amendment within fourteen (14) days of the date, or within a time period otherwise agreed to by Owner in writing, the CM knew or reasonably should have known of the circumstance that may, in CM's opinion, be a change to the Project that justifies a Change Order or Amendment. Only delays that are determined to extend the critical path in the Construction Schedule will result in a time extension.

8.4 Minor Changes

8.4.1 The A/E will have authority to order minor changes in the Project not involving an adjustment to the GMP or any extension of the construction completion date and consistent with the intent of the Construction Documents. Such changes shall be effectuated by written approval of the Owner and CM. Documentation of the changes shall be determined by the Construction Team.

ARTICLE 9
DISCOUNTS AND PENALTIES

9.1 All discounts for prompt payment shall accrue to the Owner to the extent the cost of the Project is paid directly by the Owner or from a fund made available by the Owner to the CM. To the extent permitted by applicable law, all trade discounts, rebates and refunds including, but not limited to insurance premiums, and all returns from sale of surplus material and equipment shall belong to the Owner regardless of when issued and shall be credited to the cost of the Project. To the extent that any discounts, rebates and refunds occur or accrue subsequent to Final Completion of the Project, such funds shall be paid to Owner within fifteen (15) days of receipt by CM. All penalties incurred due to the fault of the CM for late payment of the cost of the Project, except, late payments by Owner, will be paid by the CM.

9.2 Savings will be computed as of the date of Final Completion and shall consist of the difference between (1) the GMP (as it may be adjusted in accordance with the terms of the Contract Documents) and (2) the total aggregate sum of the Cost of Work plus the CM Fee paid by Owner and shall accrue to the sole benefit of Owner. A deductive Change Order or Amendment shall be issued reducing the GMP by the amount of such savings. For the avoidance of doubt, any savings obtained may not be moved to the Unforeseen Conditions Fund or be used to offset cost overruns in other items within the GMP without prior written consent of the Owner.

ARTICLE 10
CONTRACT TIME, TIME EXTENSIONS AND LIQUIDATED DAMAGES

10.1 Contract Time and Extensions

10.1.1 CM shall diligently pursue the completion of the Work and coordinate the work being done on the Project by its subcontractors and materialmen, as well as coordinating its work with all work of others at the Project site, so that its work or the work of others shall not be delayed or impaired by any act or omission by CM or anyone for whom CM is responsible or liable.

10.1.2 Should CM actually be obstructed or delayed in the critical path of the prosecution of, or completion of, the Work as a result of unforeseeable causes: (a) beyond the control of CM, (b) not due to CM's fault or neglect, and (c) which could not be avoided by the exercise of reasonable diligence, including: (i) acts of God or of the public enemy, (ii) acts of government, (iii) fires, (iv) floods, (v) epidemics, (vi) quarantine regulation, (vii) strikes, (viii) lockouts, or (ix) weather conditions abnormal for the period of time (as defined below) which exceed the aggregate number of days allotted for adverse weather conditions in CM's schedule approved by Owner, CM shall notify Owner and A/E in writing within five (5) days after the commencement of such delay, unless otherwise agreed to between the parties in writing, which time period shall control over any conflicting time periods specified elsewhere herein, stating the cause or causes thereof, or be deemed to have waived any right which CM may have had to request a time extension therefor. "Abnormal for the period of time" for purposes of this Section means rain or bad weather (e.g. named tropical storms or hurricanes), only when such rain or bad weather is in excess of the ten (10) year average for that specific period of time (from its commencement to its conclusion, as compared with the historical data for that same period) as published by the National Oceanic and Atmospheric Administration for the area where the Project is located.

10.1.3 CM's Construction Schedule shall allow the number of days it deems necessary for rain and bad weather when CM prepares its schedule and not every day of adverse weather conditions abnormal for the period of time shall be grounds for an extension of time. CM and Owner acknowledge that any Project site rain gauge measurements will not be relied upon for determining rain fall amounts. CM shall use commercially reasonable efforts to mitigate the effects of any delays described in this Section so as to minimize any effect on the schedule for completion of the Work.

10.1.4 No Damages for Delay – CM's exclusive remedy for delay in the performance of the Work required by the Agreement caused by events beyond its control, including delays claimed to be caused by or attributable to the Owner or A/E and claims based on breach of the Agreement or negligence, shall be an extension of Contract Time. CM expressly acknowledges and agrees that it is not entitled to receive damages for delay. However, if final completion of the Work is materially delayed through no fault of the CM and CM suffers direct costs from such delay, CM may submit a proposed Change Order or Amendment to Owner for consideration.

10.2 Liquidated Damages

10.2.1 It is hereby understood and mutually agreed, by and between CM and Owner, that the Contract Time for completion of the Work indicated in the Contract Documents is a reasonable time period in which to complete the Work and achieve Substantial and Final Completion for the Project.

10.2.2 Time is of the essence in this Agreement. Owner and CM recognize that Owner will suffer financial loss if the Work associated with the Construction Phase is not substantially completed within the time specified in the GMP Amendment, as said time may be adjusted as provided for herein. In such event, the total amount of Owner's damages, will be difficult, if not impossible, to definitely ascertain and quantify, because this is a public construction project that will, when completed, benefit the public and enhance the delivery of valuable education to the public, in Manatee County, Florida.

10.2.3 It is hereby agreed that it is appropriate and fair that Owner receive liquidated damages from CM, if CM fails to achieve Substantial Completion of the Work within the required Contract Time. Should CM fail to achieve Substantial Completion of the work within the Contract Time or as otherwise required by the Contract Documents, the Owner shall be entitled to assess as liquidated damages, but not as a penalty, against CM and/or its Surety, the following per diem amounts commencing upon the first day following expiration of the Contract Time and continuing each calendar day until the actual date of Substantial Completion is achieved.

Contract Amount			**Liquidated Damages Per Calendar Day**
$1,000	to	$20,000	$100
20,001	to	75,000	200
75,001	to	150,000	500
150,001	to	350,000	750
350,001	to	750,000	800
750,001	to	1,000,000	1,000
1,000,001	to	2,000,000	1,200
2,000,001	to	3,000,000	1,500
3,000,001	to	4,000,000	1,600
4,000,001	to	5,000,000	1,700
5,000,001	to	6,000,000	1,800
6,000,001	to	7,000,000	1,900

11,000,001	to	12,000,000	2,400
12,000,001	and over		2,500

10.2.4 The Liquidated Damages amount per calendar day are fixed and agreed upon by and between the CM and the Owner because of the impracticality and difficulty of ascertaining actual damages the Owner will sustain. It is agreed that the liquidated damages amount per calendar day is adequate to cover damages, which the Owner will sustain by reason of inconvenience, loss of use, loss of monies, and additional costs of contract administration by the A/E and Owner.

10.2.5 Permitting the CM to continue to finish the Work or any part of the Work after time fixed for its completion or after date to which time for completion may have been extended shall in no way constitute a waiver on the part of the Owner of any rights under the Agreement.

10.2.6 Owner may deduct liquidated damages prescribed in this section from any unpaid amounts then or thereafter due CM under the Agreement and any liquidated damages not

so deducted shall be payable to Owner by CM upon demand by Owner plus interest from the date of demand at the maximum legal rate of interest until paid.

10.2.7 It is further mutually understood and agreed that Owner's assessment of liquidated damages for delays is intended to compensate Owner solely for CM's failure to substantially complete the Work in the Contract Time and shall not release CM from liability from any other breach of Agreement requirements.

10.2.8 If the liquidated damages set forth herein are deemed unenforceable for any reason, Owner instead shall be entitled to recover those actual delay damages that it sustained as a result of CM's failure to achieve Substantial Completion of the Work.

10.2.9 Liquidated Damages shall be assigned to the CM if punch list items have not been completed within ninety (90) days after Substantial Completion. The value of punch list items shall be determined by the A/E and multiplied by two (2). This value shall be withheld until the item has been completed. In addition, the Owner may obtain the services of others to complete unfinished punch list items after ninety (90) days have expired. Costs for this work shall be deducted from the CM's final payment. Liquidated Damages for punch list items shall commence on the ninety-first (91st) day after Substantial Completion and accrue until the final Application for Payment has been approved by the A/E. The CM, and its Surety, shall pay to the Owner any sums hereinafter stipulated as fixed, agreed, and liquidated damages for each calendar day of delay until the punch list items are complete.

200% of Estimated Cost To Complete Punchlist			**Liquidated Damages Per Day**
$1,000	to	$25,000	$100

12,000,001	and over		$12.50 per $100,000

10.2.10 "Days" means consecutive calendar days unless a contrary intent is specifically indicated with regard to any reference to the word "days."

10.2.11 The term "business day" as used herein shall mean all days of the week excluding Saturdays, Sundays and all legal holidays observed by Owner.

ARTICLE 11
PAYMENTS TO THE CONSTRUCTION MANAGER

11.1 Progress Payments

11.1.1 At the time it submits its GMP Proposal to Owner, CM also shall submit to Owner and A/E, for their review, a GMP Budget Summary, which will become the Schedule of Values and is based upon the GMP Proposal listing the major elements of the Work and the dollar value for each element and, if required by Owner, broken down further into the major elements of the Work to be completed during the various phases of the Work. That revised Schedule of Values, as further revised to reflect the final negotiated GMP amount and as approved by Owner, will be attached to the GMP Amendment and shall be used as the basis for CM's monthly Applications for Payment thereafter. This revised Schedule of Values shall be updated for the current month Change Orders and Amendments and submitted each month to A/E along with a completed and notarized copy of the Construction Manager's Application and Certificate for Payment ("**Application for Payment**") form attached to the Agreement as **Exhibit A**.

11.1.2 Each month, the CM shall complete and submit to the Owner the sworn, notarized CM Application for Payment attached hereto as in **Exhibit A** together with an updated Schedule of Values and cost reports required under Article 2 and **Exhibit E**, which detail all costs spent, costs accumulated, or costs incurred in completing the Work during the previous period, plus the amount of the CM Fee that is due as provided in Article 6. Owner shall pay CM any undisputed amounts of CM's Application for Payment within twenty-five (25) business days of Owner's receipt of same. General Conditions and/or General Requirements shall be paid based on the percentage of Work completed on site, with the exception of CM's initial Application for Payment which may include reimbursement for Bond costs. Owner shall have the right to verify and substantiate any amounts listed within the CM's Application for Payment. Five percent (5%) retainage, or the maximum allowed by applicable law, shall be held on all payments; however, when approved by the Owner, certain suppliers and subcontractors may be paid the entire amount due at the Owner's discretion. At the Owner's discretion, the Owner may pay CM the entire amount due without holding retainage for the CM's General Requirements, the CM's Fee, Insurance and Bond Costs. Owner reserves the right, at its sole discretion, to reduce or release any portion of such retainage prior to final payment; provided, however, nothing in this Section shall preclude or limit Owner's right to withhold payment as otherwise permitted by the terms of the Contract Documents or as permitted by law. Any reduction or release of retainage, or portion thereof shall not be a waiver of (i) any of Owner's rights to retainage in connection with other payments to CM, or (ii) any other right or remedy that Owner has under the Contract Documents, at law or in equity. Upon request, CM shall provide Releases and Affidavits and Waivers of Right to Claim Against the Payment Bond, in the form required by the Owner.

11.1.3 In addition to the CM certifications set forth in the Application for Payment form attached as **Exhibit A**, the CM's submission of each Application for Payment to Owner shall also constitute a representation by CM to Owner that: (1) there are no liens or claims outstanding or known to exist at the date of the Application for Payment; (2) duly executed waivers and releases have been obtained from all subcontractors and suppliers for work done and materials furnished through the date of payment; and (3) such Application for Payment has not been front-end-loaded either by CM or by any of its subcontractors or suppliers (including placing a value on a line item that is in excess of its cost, increasing unit prices on early completed items while decreasing unit prices on later completed ones, and/or inflating the percentage of completion on line items).

11.1.4 All Applications for Payment to the Owner must be submitted to the Project Director at the address identified herein. Payments to CM shall in no way imply approval or acceptance of CM's work.

11.2 Payments to Subcontractors

11.2.1 The CM shall promptly, within 10 days after receipt of payment from the Owner, pay all the amount due subcontractors less a retainage of five percent (5%), or the maximum retainage amount allowed by applicable law, based on the CM's evaluation of the subcontractor's acceptable performance. If there should remain items to be completed, the CM and A/E shall list those items required for completion and the CM shall require the retainage of a sum equal to two times the estimated cost of completing any unfinished items, provided that said unfinished items are listed separately and the estimated cost of completing any unfinished items likewise listed separately. Thereafter, the CM shall pay to the subcontractors, monthly, the amount retained for each incomplete item after each of said items is completed. Before issuance of final payment without any retainage, the subcontractor shall submit satisfactory evidence that all payrolls, material bills and other indebtedness connected with the Project have been paid or otherwise satisfied, warranty information is complete, as-builts have been submitted and instructions for the Owner's operating and maintenance personnel is complete.

11.2.2 To the extent a subcontractor has not completed the work in accordance with the Construction Documents (or CM disputes the subcontractor's invoice or pay request in good faith) and the CM notifies the party whose payment is disputed, in writing, of the amount in dispute and the actions required to cure the dispute, the CM may withhold the disputed portion of the payment. Should the CM withhold any payment to a subcontractor, the CM shall provide a weekly report to the Owner listing all outstanding payments to subcontractors. Upon request, the CM shall return the disputed payment to the Owner and CM shall provide a credit to the costs of the Project in the CM's next Application for Payment in the amount of any interest earned on any such disputed payment.

11.2.3 Final payment may be made to certain select subcontractors whose work is satisfactorily completed prior to the total completion of the Project but only upon approval by the Owner, CM and A/E.

11.3 Final Payment to CM

11.3.1 Final Payment constituting the unpaid balance of the Cost of the Project and the CM's fee, shall be due and payable after the Owner has accepted occupancy of the Project, provided that the Project be then finally completed, that the CM has verified by its signature that it has completed all items specified on the attached **Exhibit C**, and that this Agreement has been finally performed. However, if there should remain work to be completed, the CM and the A/E shall list those items prior to the CM receiving final payment. The Owner may retain a sum equal to two times the estimated cost of completing any unfinished work and a portion of the CM's retainage, provided that said unfinished items are likewise listed separately. Thereafter, Owner shall pay to the CM, monthly, the amount retained for each incomplete item after each of said items is completed.

11.4 Payment requests shall be processed and paid in accordance with Part VII, Chapter 218, *Florida Statutes*, known as the Florida Prompt Payment Act, and the terms of this Agreement.

11.4.1 The parties shall develop a single list of items (or if the Project relates to construction of more than one building or structure or is multi-phased, a list of items for each building, structure or Project phase) required to render complete, satisfactory, and acceptance of the construction services. The parties shall specify a process for developing the list, including the responsibilities of Owner and CM in developing and reviewing the list and a reasonable time for developing the list:

11.4.1.1 For construction projects having an estimate cost of less than $10 million, the list shall be developed within thirty (30) calendar days after reaching Substantial Completion; or

11.4.1.2 For construction projects having an estimated cost of $10 million or more, the list shall be developed within thirty (30) calendar days, or, if extended by agreement between the parties, up to sixty (60) calendar days after reaching Substantial Completion of the construction services.

11.4.2 The list of items shall be delivered within five (5) days after the list has been developed and reviewed in accordance with the sections listed above.

11.4.3 The Final Completion date shall be at least thirty (30) days after the delivery of the list of items. If the list is not provided to the CM by the agreed upon date for delivery of the list, the Contract Time for Final Completion must be extended by the number of days the Owner exceeded the delivery date. However, damages may not be assessed against the CM for failing to complete the Project within the time required by the Agreement unless the CM failed to complete the Project within the Contract Time as extended within this Section.

11.4.4 The failure to include any corrective work or pending items not yet completed on the list does not alter the responsibility of the CM to complete all of the construction services under the Agreement.

11.4.5 Upon completion of all items on the list, the CM may submit a payment request for all remaining retainage withheld by the Owner. If a good faith dispute exists as to whether one or more items identified on the list have been completed pursuant to the Agreement, the Owner may continue to withhold up to 150 percent (150%) of the total costs to complete such items.

11.4.6 All items that require correction under the Agreement and that are identified after preparation and delivery of the list remain the obligation of CM as defined within the Agreement.

11.4.7 Warranty items or items not included in the list of items may not affect the final payment of retainage as provided herein or as provided in the Agreement between the CM and subcontractors and suppliers.

11.4.8 Should the Owner fail to comply with its duties to develop the list required herein within the time limitations, the CM may submit a payment request for all remaining retainage withheld by the Owner and payment of any remaining undisputed Contract Amount, less any amount withheld pursuant to the Agreement for incomplete or uncorrected Work, must be paid within twenty (20) business days after receipt of a proper invoice or Application for Payment.

11.4.9 If Owner provides CM within written notice specifying the failure of CM to meet the contract requirements in the development of the list of items to be completed, the Owner is not required to pay or process any Application for Payment for retainage if the CM has, in whole or in part, failed to cooperate with Owner in the development of the list or to perform its duties under the Agreement with regard to the development of the list or if there are items requiring correction that are identified after the preparation and delivery of the list (that will remain the obligation of the CM).

11.5 Payments for Materials and Equipment

11.5.1 Payments will be made for material and equipment not incorporated in the work but delivered and suitably stored at the site or another location subject to prior approval and acceptance by the Owner on each occasion.

ARTICLE 12
INSURANCE, INDEMNITY AND WAIVER OF SUBROGATION

12.1 Indemnity

12.1.1 To cover to the fullest extent permitted by law, the CM shall indemnify, and hold harmless the Owner, the A/E, the A/E consultants, and agents and employees of any of them from and against all claims, damages, losses, expenses, penalties, demands, judgments, actions, proceedings, losses or costs, including reasonable attorneys' fees and paralegals' fees, whether resulting from any claimed breach of the Agreement by CM or arising out of or resulting from the performance of the Work, provided that any such claim, damage, loss, expense, direct or consequential damages, or economic loss is attributable to bodily injury, sickness, disease or death, or injury to or destruction of tangible property including the loss of use resulting therefrom, but only to the extent caused by the negligent acts or omissions, recklessness, or intentional wrongful misconduct of the CM, a Subcontractor, anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, regardless of whether or not such claim, damage, loss, or expense is caused in part by a party indemnified hereunder. Such obligation shall not be construed to negate, abridge or otherwise reduce any other right to obligation of indemnity which would otherwise exist as to any party or person described in this Section.

12.1.2 In any and all claims against the Owner, the A/E, the A/E consultants, and agents and employees of any of them by any employee of the CM, any Subcontractor, anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, the indemnification obligations under this Section shall not be limited in any way by any limitation on the amount or type of damages, compensation or benefits payable by or for the CM or any Subcontractor under workers' compensation acts, disability benefit acts or other employee benefit acts.

12.1.3 CM's indemnification obligations including those specified within this Section, shall be deemed to fully comply with Section 725.06, *Florida Statutes*, including any amendments thereto, in all respects. If any word, clause or provision of any of the indemnification provisions of the Agreement is determined not to be in compliance with Section 725.06, *Florida Statutes*, including any amendments thereto, it shall be stricken and the remaining words, clauses and provisions shall remain in full force and effect. It is the intent of the parties that CM's indemnification obligations comply fully with Section 725.06, *Florida Statutes*, including any amendments, in all respects. CM's

indemnification obligations in the Agreement are in addition to and not in lieu of any common law indemnification to which any of the indemnified parties are entitled.

12.1.4 The Owner shall cause any other CM who may have a contract with the Owner to perform construction installation work in the area where work will be performed under this Agreement, to agree to indemnify the Owner and the CM and hold them harmless from all claims for bodily injury and property damage (other than property insured under this Agreement) that may arise from the CM's operations. Such provisions shall be in a form satisfactory to the CM.

12.2 CM Insurance

12.2.1 During the term of the Agreement or for such longer period as specified in the Contract Documents or required by applicable law, CM shall provide, pay for, and maintain the types of insurance described herein by an insurance company duly licensed and authorized by the Department of Insurance of the State of Florida to transact the appropriate insurance business in the State of Florida. The CM shall not commence any construction Work in connection with this Agreement until it has obtained all of the following types of insurance and such insurance has been approved by the Owner, nor shall the CM allow any subcontractor to commence work on any subcontract until all similar insurance required of the subcontractor has been so obtained and approved. The procuring of required policies of insurance shall not be construed to limit CM's liability or to fulfill the indemnification provisions and requirements of the Agreement.

12.2.2 If any insurance provided pursuant to the Agreement expires prior to the completion of the Services required hereunder, renewal Certificates of Insurance and, if requested by Owner, copies of the renewal policies and applicable additional insured endorsements, shall be furnished to Owner fifteen (15) calendar days prior to the date of expiration. CM shall also notify Owner, in a like manner, within two (2) days after receipt, of any notices of expiration, cancellation, non-renewal or material change in coverages or limits received by CM from its insurer, and nothing contained herein shall relieve CM of this requirement to provide notice.

12.2.3 Owner shall retain the right to review, at any time, coverage, form, and amount of insurance. Should at any time CM not maintain the insurance coverages required in the Agreement, Owner may cancel the Agreement and any Amendments issued pursuant to the Agreement or at its sole discretion shall be authorized to purchase such coverages and charge CM for such coverages purchased. If CM fails to reimburse Owner for such costs within thirty (30) calendar days after demand, Owner has the right to offset these costs from any amount due CM under the Agreement. Owner shall be under no obligation to purchase such insurance, nor shall it be responsible for the coverages purchased or the insurance company/companies used. The decision of Owner to purchase such insurance coverages shall in no way be construed to be a waiver of its rights under the Agreement.

12.2.4 Certificates of Insurance

12.2.4.1 CM shall deliver to Owner properly executed Certificate of Insurance forms and required additional insured endorsements in form acceptable to Owner, evidencing the fact that CM has acquired and put in place the insurance coverages and limits required hereunder. These shall be completed and signed by the authorized Florida Resident Agent, and returned to the Department of Construction Services. The Certificate(s) shall be dated and show:

(a) The name of the insured CM, the specific job by name and number, the name of the insurer, the number of the policy, its effective date, and its termination date;

(b) Statement that the Insurer will mail notice to the Owner and a copy to the A/E at least fifteen (15) days prior to any material changes in provisions or cancellation of the policy;

(c) Certificates of Insurance shall be in the form as approved by Insurance Services Office (ISO) and such Certificate shall clearly state all the coverages required within this Agreement; and

(d) The Owner shall be named as additional insured on the CM's commercial general liability, excess or umbrella liability and builder's risk policy or policies.

12.2.5 The acceptance by Owner of any evidence of the insurance coverages and limits required by the Agreement, including any Certificate of Insurance, policy or additional insured endorsement, does not constitute approval or agreement by Owner that the insurance requirements have been met or that the insurance policies shown on the evidence of insurance comply with the requirements of the Agreement.

12.2.6 All insurance policies required by the Agreement shall include the following provisions and conditions by endorsement to the policies:

12.2.6.1 All insurance policies, other than the Professional Liability policy and the Workers Compensation policy, provided by CM to meet the requirements of the Agreement shall name The School Board of Manatee County, Florida, as that name is defined herein, as an additional insured as to the operations of CM under the Contract Documents. The Owner shall be listed as an additional insured for claims caused in whole or in part by the CM's negligent acts or omissions for which loss occurs during completed operations. The additional insured language shall be primary and non-contributory to any of the Owner's general liability insurance policies and shall apply to both ongoing and completed operations. The term "**The School Board of Manatee County**" shall include the Manatee County Public Schools, the Manatee County School Board, a body corporate, the School District of Manatee County and all Authorities, Boards, Bureaus, Commissions, Divisions, Departments and offices thereof and individual members, officers and employees thereof in their official capacity, and/or while acting on behalf of the Manatee County School Board.

12.2.6.2 All insurance coverages of CM shall be primary to any insurance or self-insurance program carried by Owner applicable to the Agreement, and the "Other Insurance" provisions of any policies obtained by CM shall not apply to any insurance or self-insurance program carried by Owner applicable to the Agreement.

12.2.6.3 Insurance requirements itemized in the Agreement and required of CM shall be provided on behalf of all subcontractors to cover their operations performed under the Agreement. CM shall be held responsible for any modifications, deviations, or omissions in these insurance requirements as they apply to subcontractors.

12.2.7 Worker's Compensation Insurance

12.2.7.1 During the life of this Agreement, the CM shall take out and maintain Worker's Compensation Insurance for all its employees connected with the work of this Project and, in case any work is sublet, the CM shall require the subcontractor similarly to provide Worker's Compensation Insurance for all of the latter's employees unless such employees are covered by the protection afforded by the CM. Such insurance shall comply with the Florida Worker's Compensation Law and include the effects of all discounts, modifiers and rebates. In case any class of employees engaged in hazardous work under this Agreement at the Project site is not protected under the Worker's Compensation statute, the CM shall provide adequate insurance, satisfactory to the Owner, for the protection of employees not otherwise protected.

12.2.8 CM's General Liability and Property Damage Insurance

12.2.8.1 During the life of this Agreement, the CM shall take out and maintain Comprehensive General Liability Insurance as shall protect the CM from claims for damage for personal injury, including accidental death, as well as claims for property damages which may arise from operating under this Agreement whether such operations are by CM or by anyone directly or indirectly employed by CM.

12.2.8.2 The general liability insurance shall be written on an "occurrence" basis, shall be maintained by CM and shall provide coverage for claims including (1) damages because of bodily injury, sickness or disease, including occupational sickness or disease, and death of any person; (2) personal injury and advertising injury; (3) damages because of physical damage to, or destruction of, tangible property, including the loss of use of such property; (4) bodily injury or property damage arising out of completed operations; and (5) CM's indemnity obligations under the Agreement.

12.2.8.3 The general liability insurance shall provide "XCU" (explosion, collapse, underground damage) coverage for those classifications in which they are excluded, Broad Form Property Damage Coverage, Products and Completed Operations Coverages, and Contractual Liability Coverage designed to protect the CM for contractual liabilities assumed by the CM in the performance of this Agreement to the extent covered by a standard Insurance Standards Office (ISO) General Liability policy. Completed Operations coverage must be maintained by CM for not less than five (5) years following completion and acceptance by Owner of the Work performed by CM.

12.2.8.4 The general liability insurance shall not contain an exclusion or restriction of coverage for claims by one insured against another insured, if the exclusion or restriction is based solely on the fact that the claimant is an insured and there would otherwise be no coverage for the claim; claims for property damage to the CM's Work arising out of the products-completed operations hazard where the damaged Work or the Work out of which the damage arise was performed by a subcontractor; and claims related to roofing if the Work involves roofing. Coverage shall not eliminate the subcontractor exception to "damage to your work" exclusion.

12.2.8.5 The amount of such general liability insurance shall be minimum limits as follows:

CM Comprehensive General Liability Coverage, Bodily Injury and Property Damage	$1,000,000 each Occurrence Combined Single Limit

Insurance clauses for both BODILY INJURY AND PROPERTY DAMAGE shall be amended to provide coverage on an occurrence basis.

12.2.9 Automobile Liability Insurance

12.2.9.1 During the life of this Agreement, the CM shall take out and maintain automobile liability insurance as to ownership, maintenance, and use, including loading and unloading, of all owned, non-owned, leased or hired vehicles with limits of not less than:

Automobile Liability Coverages, Bodily Injury and Property Damage	$100,000 Each Occurrence Combined Single Limit

12.2.10 Subcontractor's General Liability and Property Damage Insurance

12.2.10.1 During the life of the subcontracts, the CM shall require each of its subcontractors to procure and maintain insurance of the type specified above or insure the activities of its subcontractors in the CM's policies in an amount that is appropriate for the work to be performed.

12.2.11 Owner's and Construction Manager's Protective Liability Insurance

12.2.11.1 The CM shall procure and furnish, as a cost of the Project, an Owner's and CM's Protective Liability Insurance Policy with the following minimum limits:

Bodily Injury Liability and Property Damage Liability	$1,000,000 each Occurrence Combined Single Limit

12.2.12 Umbrella Liability Insurance or Excess Liability Insurance

12.2.12.1 During the life of this Agreement, the CM shall take out and maintain umbrella liability or excess liability insurance. Coverage shall be excess of the Employers Liability, Commercial General Liability and Automobile Liability coverages required herein. The amount of such umbrella liability or excess liability insurance shall be minimum limits as follows:

Excess Liability, Umbrella Form	$3,000,000 each Occurrence Combined Single Limit

12.2.13 Builder's Risk Coverage

12.2.13.1 During the life of this Agreement, the CM shall take out and maintain a "Builder's Risk Policy" completed value form as a cost of the Project, issued to provide coverages on an "all risk" basis including theft and stored materials. This coverage shall not be lapsed or cancelled because of partial occupancy by the Owner prior to Substantial Completion of the Project. The policy shall have a deductible in an amount acceptable to the Owner and that meets the industry standards and any losses not covered by insurance shall be paid by the Owner out of unforeseen conditions and the Owner shall be listed as an additional insured. Builder's Risk coverage may be waived by the Owner on existing schools, sites or campuses.

12.3 Waiver of Subrogation

12.3.1 The Owner and the CM waive all rights against each other, for damages caused by perils covered by insurance provided under Article 12 to the extent covered by such insurance except such rights as they may have to the proceeds of such insurance held by the Owner and CM as trustees. The CM shall require similar waivers from all subcontractors and their subcontractors.

12.3.2 The Owner and CM waive all rights against each other for loss or damage to any equipment used in connection with the Project and covered by any property insurance. The CM shall require similar waivers from all subcontractors and their sub-subcontractors.

12.3.3 The Owner waives subrogation against the CM on all property and consequential loss policies carried by the Owner on adjacent properties and under property and consequential loss policies purchased for the Project after its completion.

12.3.4 If the policies of insurance referred to in this Article require an endorsement to provide for continued coverage where there is a waiver of subrogation, the Owner of such policies will cause them to be so endorsed, failure to obtain proper endorsement nullifies the waiver of subrogation.

ARTICLE 13
TERMINATION

13.1 Termination by the CM

13.1.1 If the Project is stopped for a period of thirty (30) days under an order of any court or other public authority having jurisdiction or as a result of an act of government other than the Owner, such as a declaration of a national emergency making materials unavailable, through no act or fault of the CM, upon seven (7) days written notice to the Owner, terminate this Agreement and request payment for all work executed, the CM Fee earned to date, and for any proven loss sustained upon any materials, equipment tools, construction equipment, and machinery, demobilization, restocking and cancellation expenses incurred by the CM associated with early termination of the Work.

13.2 Owner's Right to Perform CM's Obligations and Termination by Owner for Cause

13.2.1 If the CM fails to perform any of its obligations under this Agreement including any obligation it performs with its own forces, the Owner may, after seven (7) days without correction, produce a written notice to the CM allowing fourteen (14) days to cure the problem. If during the 14-day period, the CM fails to perform such obligations and make good such deficiencies, the CM's Fee shall be reduced by the cost required to cure the deficiencies.

13.2.2 If the CM is adjudged bankrupt, or if it makes a general assignment for the benefit of its creditors, or if a receiver is appointed on account of its insolvency, or if it persistently or repeatedly refuses or fails, except in case for which extension of time is provided, to supply enough properly skilled workmen or proper materials and fails to maintain an established schedule (failure to maintain schedule shall be defined as any activity on the critical path that falls forty-five (45) days or more behind schedule), which has been adopted by the Construction Team, or if it fails to make prompt payment to subcontractors for materials or labor, or persistently disregards laws, rules, ordinances, regulations, or orders of any public authority having jurisdiction, or otherwise materially breaches a provision of the Agreement or the Contract Documents, then the Owner may, without prejudice to any right or remedy and after giving the CM and its surety, if any, seven (7) days written notice, during which period CM fails to cure the violation, terminate CM's right to proceed under the Agreement in whole or in part and take possession of the site and of all materials, equipment, tools, construction equipment and machinery thereon owned by the CM, and may finish the Project by whatever method it may deem expedient. In such case, the CM shall not be entitled to receive any further payment until the Project is finished nor shall it be relieved from its obligations assumed under Article 16. Reasonable termination expenses incurred by the Owner may be deducted from any payments left owing the CM (excluding monies owed the CM for subcontract work).

13.2.3 If the CM refuses to allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, *Florida Statutes*, and made or received by the CM in conjunction with this Agreement, then the Owner may, without prejudice to any right or remedy and after giving the CM and its Surety, if any, seven (7) days written notice, during which period CM still fails to allow access, terminate the employment of the CM and take possession of the site and of all materials, equipment, tools, construction equipment and machinery thereon, owned by the CM, and may finish the Project by whatever method it may deem expedient. In such case, the CM shall not be entitled to receive any further payment until the Project is finished nor shall it be relieved from its obligations assumed under Article 7. Reasonable termination expenses incurred by the Owner may be deducted from any payments left owing the CM (excluding monies owed to the CM for subcontract work).

13.3 Termination by Owner Without Cause

13.3.1 If the Owner terminates this Agreement without cause, CM's recovery against Owner shall be limited to the unpaid portion of the Contract Amount earned through the date of termination, together with any withheld retainage. The Owner shall also pay the CM fair compensation, either by purchase or rental at the election of the Owner, for any equipment retained. In case of such termination of the Agreement, the Owner shall further assume and become liable for obligations, commitments, and unsettled contractual claims that the CM has previously undertaken or incurred in good faith in connection with said Project. The CM shall, as a condition of receiving the payments referred to in this Article, execute and deliver all such papers and take all such steps including the legal assignment of its contractual rights, as the Owner may require for the

purpose of fully vesting in him the rights and benefits of the CM under such obligations or commitments. CM shall not be entitled to any other or further recovery against Owner, including damages or any anticipated profit on portions of the Work not performed.

13.3.2 After the establishment of the GMP or at the completion of Stage III or any time thereafter, if the final cost estimates or a change in funding makes the Project no longer feasible from the standpoint of the Owner, the Owner may terminate this Agreement and pay the CM its proportionate CM Fee due in accordance with Article 6 plus any costs incurred pursuant to Articles 7 and 8. CM shall not be entitled to any other or further recovery against Owner, including damages or any anticipated profit on portions of the Work not performed.

ARTICLE 14
ASSIGNMENT, GOVERNING LAW, CLAIMS AND DISPUTE RESOLUTION

14.1 Subject to other provisions hereof, the Agreement shall be binding upon and shall inure to the benefit of the successors and permitted assigns of the parties to the Agreement.

14.2 Neither the Owner nor the CM shall assign its interest in this Agreement without the written consent of the other except as to the assignment of proceeds.

14.3 This Agreement shall be interpreted under and its performance governed by the laws of the State of Florida, without regard to its choice of law provisions.

14.4 Claims and Disputes

14.4.1 The term "Claim" as used herein shall mean any and all demands made by one party hereunder against the other party, whether such demand be for money, time or the assertion of any right or obligation that arises out of the Contract Documents.

14.4.2 Initial notice of Claims by CM shall be made in writing to Owner and A/E within seven (7) calendar days after the first day of the event giving rise to such Claim or else CM shall be deemed to have waived the Claim. Written supporting data shall be submitted to Owner and A/E within thirty (30) calendar days after the occurrence of the event, unless Owner grants additional time in writing, or else CM shall be deemed to have waived the Claim.

14.4.3 CM shall proceed diligently with its performance as directed by Owner, regardless of any pending Claim, unless otherwise agreed to by Owner in writing. Owner shall continue to make payments of undisputed amounts due in accordance with the Contract Documents during the pendency of any Claim.

14.4.4 Prior to the initiation of any action or proceeding permitted by this Agreement to resolve disputes between the parties, the parties shall make a good faith effort to resolve any such disputes by negotiation between representatives with decision-making power. Failing resolution, and prior to the commencement of any litigation between the parties with respect to the Project, the parties shall attempt to resolve the dispute through mediation before an agreed-upon Circuit Court Mediator certified by the State of Florida. Should either party fail to submit to mediation as required hereunder, the other party may request a court of law to order mediation under Section 44.102, *Florida Statutes*.

14.5 Litigation

14.5.1 Any litigation between Owner and CM (which term for the purposes of this Section shall include CM's surety), whether arising out of any Claim or arising out of the Agreement or any breach thereof, shall be brought, maintained and pursued only in the appropriate State courts of the State of Florida; and Owner and CM each hereby waive and renounce any and all rights and options which they, or either of them, have or might have to bring or maintain any such litigation or action in the Federal Court system of the United States or in any United States Federal District Court. The exclusive venue of any such litigation between Owner and CM shall lie and be only in the appropriate State courts of the State of Florida's Twelfth Judicial Circuit in and for Manatee County, Florida. CM consents and submits to the jurisdiction of any such court and agrees to accept service of process from the State of Florida in any matter to be submitted to any such court.

14.5.2 In the event of any Claim or dispute arising out of the Agreement, the prevailing party shall be entitled to recover from the non-prevailing party its costs, including reasonable attorneys' fees (including fees for determining the amount of fees due) at all levels, including at trial, on appeal, and in bankruptcy and post-judgment proceedings.

14.6 Waiver of Claims for Consequential Damages

14.6.1 The CM and Owner waive Claims against each other for consequential damages arising out of or relating to this Agreement. The mutual waiver includes: (1) damages incurred by Owner for rental expenses, for losses of use, income, profit, financing, business and reputation, and for loss of management or employee productivity or of the services of such persons; and (2) damages incurred by the CM for principal office expenses including the compensation of personnel stationed there, for losses of financing, business and reputation, and for loss of profit, except anticipated profit arising directly from the Work.

ARTICLE 15
FORCE MAJEURE, FIRE OR OTHER CASUALTY

15.1 Force Majeure

15.1.1 Delays in any performance by any party contemplated or required hereunder due to: fire, flood, earthquake or hurricane, acts of God, war, declaration of hostilities, revolt, civil strife, altercation or commotion, strike, labor dispute, or epidemic, or any law, order, proclamation, regulation or ordinance of any government or any subdivision thereof, or for any other similar cause to those enumerated, beyond the reasonable control and which with due diligence could not have been reasonably anticipated and without the fault or negligence of the party seeking excuse from performance, shall be deemed to be events of Force Majeure and any such delays shall be excused. In the event such party is delayed in the performance of any work or obligation pursuant to this Agreement for any of the events of Force Majeure and any such delays shall be excused. In the event such party is delayed in the performance of any work or obligation pursuant to this Agreement for any of the events of Force Majeure, the date for performance required or contemplated by this Agreement shall be extended by the number of calendar days such party is actually delayed in such Substantial Completion.

15.1.2 The party seeking excuse for nonperformance on the basis of Force Majeure shall promptly give written notice to the Owner, if with respect to the CM, or to the CM, if with respect to the Owner, specifying its, actual or anticipated duration, and weekly thereafter, if such delay shall be continuing, written notice stating whether the condition continues and giving its actual or then anticipated duration. Each party seeking excuse

from nonperformance on the basis for Force Majeure shall use its best efforts to rectify any condition causing a delay and will cooperate with the other party, except that neither party shall be obligated to incur any unreasonable additional costs and expenses, to overcome any loss of time that has resulted.

15.2 Casualty: Actions by Owner and CM

15.2.1 During the construction period, if the Project, or any part thereof, shall have been damaged or destroyed, in whole or in part, the CM shall promptly make proof of loss and Owner and CM shall proceed promptly to collect, or cause to be collected, all valid claims which may have arisen against insurers or others based upon such damage or destruction.

15.2.2 The CM shall diligently assess the damages or destruction and shall prepare an estimate of the cost, expenses and other changes, including normal and ordinary compensation to the CM, necessary for reconstruction of the Project substantially in accordance with the Project Plans and Specifications.

15.2.2.1 Within fifteen (15) days following satisfaction of the express conditions described in subsections (a), (b) and (c) below, CM covenants and agrees diligently to commence reconstruction and to complete the reconstruction or repair of any loss or damage by fire or other casualty to the Project to substantially the same size, floor area, cubic content and general appearance as prior to such loss or damage:

(a) Receipt by the Owner or the Trustee of the proceeds derived from collection of all valid claims against insurers or others based upon such damage or destruction; and receipt of other sums from any source such that the funds necessary to pay the Project Cost and any additions to the Project Cost necessitated for repair or reconstruction are available;

(b) Written agreement executed by the CM and the Owner, by amendment to this Agreement or otherwise, authorizing and approving the repair or reconstruction and any additions to the Project Amount necessitated thereby, including any required amendment to the GMP; and

(c) Final approval by the Owner of the Project plans and specifications for such repair or reconstruction and issuance of any required building permit.

15.3 Approval of Plans and Specifications

15.3.1 The Owner agrees to approve the plans and specifications for such reconstruction or repair if the reconstruction or repair contemplated by such plans and specifications is economically feasible, and will restore the Project, or the damaged portion thereof, to be substantially the same condition as prior to such loss or damage and such plans and specifications conform to the applicable laws, ordinance, codes and regulations. Owner agrees that all proceeds of any applicable insurance or other proceeds received by the Owner or the CM as a result of such loss or damage shall be used solely for payment of the costs, expenses, and other charges of the reconstruction or repair of the Project.

15.4 Notice of Loss or Damage.

15.4.1 CM shall promptly give Owner written notice of any significant damage or destruction to the Project, defined as loss or damage which it is contemplated by CM will increase the GMP or extend the date of Substantial Completion, then expectations of CM as to the effect of such damage or destruction on the use of the Project, and the then proposed schedule, if any, for repair or reconstruction of the Project. Loss or damage, which the CM determines, will not affect the GMP or date of Substantial Completion will be reported to the Owner and A/E within five (5) days and associated corrective actions will be undertaken without delay.

2.1.1 Stage I – District Project Planning

2.1.1.1 The CM agrees to the Project Description and Scope of Work, the Construction Services Budget, the Substantial Completion date and the Project Schedule as set forth herein. The CM further agrees that the site is appropriate and that the Construction Services Budget is adequate for performance of the Work. The CM agrees that the level of quality of the Project is defined through the School District of Manatee County Planning Manual for Schools & Ancillary Spaces (the "**Planning Manual**") and other requirements set forth in the Contract Documents.

2.1.2 Stage II – Project Budget Endorsement

2.1.2.1 The first ranked A/E and CM shall:

(a) Review the Owner's Project Scope, budget, schedule and quality; and

(b) Provide a Letter of Commitment and School Board presentation publicly, if requested, endorsing the Project Scope, budget, schedule and quality as adequate and appropriate.

2.1.2.2 Project Schedule

(a) The CM shall prepare and submit a preliminary Project Schedule for Owner and A/E review and acceptance, which indicates all relevant activities during Stages II, III and IV of the delivery process.

(b) The Project Schedule will serve as the framework for the development of all future detailed schedules and shall be produced and updated monthly throughout the Project.

(c) The Project Schedule shall indicate proposed activities, dependencies, durations, milestone dates for receipt and approval of pertinent information, submittal of a GMP Proposal, preparation and processing of shop drawings, use of samples, and delivery of materials or equipment requiring long-lead time procurement.

(d) The Project Schedule shall also coordinate the CM services, the A/E services and the Owner responsibilities.

(e) If preliminary Project dates provided in the Project Schedule, which have been previously approved, are later found to be inaccurate, the CM will make appropriate recommendations to Owner's Project Director and A/E.

2.1.2.3 CM shall familiarize itself thoroughly with the evolving plans and specifications and shall follow the development of design from Schematic Design through Construction Documents Phase. The CM is not responsible for ascertaining that the Drawings and Specifications are in accordance with applicable laws, statutes, ordinances, building codes, or other regulations. However, if CM discovers a conflict, error or discrepancy in the Contract Documents, including during performance of the Work, CM shall report same to A/E and Owner in writing within five (5) days of discovering same, and before proceeding with the Work affected, shall obtain a written interpretation or clarification from A/E.

2.1.2.4 Construction Cost Estimate

(a) CM shall prepare, for Owner and A/E review and approval, a detailed estimate of Construction Costs ("**Construction Cost Estimate**"), which shows the various elements of the Project and costs for construction of same.

(b) The CM shall update and issue the Construction Cost Estimate at the completion of each Phase of Stage III services, including the submission of the GMP Proposal, as follows:

(1) Phase I Schematic Design – more detail with supporting data

(2) Phase II Design Development – systems selected

(3) Phase III Construction Documents:

i. 50% Drawings – only final details missing and establishment of preliminary GMP

ii. 100% Drawings – issuance of final GMP Proposal

(c) CM acknowledges that an accurate Construction Cost Estimate is critical to Owner's ability to establish and verify its Total Project Budget and, therefore, CM shall work closely with A/E and use its best skill and judgment as a contractor familiar with the construction industry in the locality of the Project in preparing its Construction Cost Estimate.

(d) If Construction Costs and/or any estimate exceed previously approved estimates or the Owner's Construction Services Budget, the CM shall make appropriate recommendations to the Owner and A/E for corrective action and propose value engineering and/or alternates for Owner and A/E consideration.

(e) The Construction Cost Estimate shall be reviewed with the Owner's

Project Director and the A/E. Any recommendations and advice by the CM concerning design alternatives or value engineering shall be subject to the approval of the Owner's Project Director and the A/E.

2.1.2.5 Stage III – Project Design and Development

(a) At the completion of Stage III: Phase I – Schematic Design, the CM shall:

(1) Provide a second Letter of Commitment and School Board presentation publicly, if requested, stating that the Schematic Design is in conformance with the Project Scope of Work and that the Owner's:

i. Project Schedule continues to be appropriate;

ii. Project level of quality is being achieved; and

iii. Construction Services Budget is adequate.

(2) Or, have its services terminated in accordance with Article 13. If the Agreement is terminated, Phase I documents become the property of the Owner, which may be used or changed by the Owner, solely for the purpose of completing the Project.

(b) At the completion of Stage III: Phase II – Design Development, the CM shall:

(1) Provide a third Letter of Commitment and School Board presentation publicly stating that with professional assistance and appropriate use of value engineering, the Design Development is in conformance with the Project Scope of Work and that the:

i. Project Schedule continues to be appropriate;

ii. Project level of quality is being achieved; and

iii. Construction Services Budget is adequate.

(2) Or, provide evidence prohibiting the commitment.

(c) The CM shall seek to develop subcontractor interest in the Project and shall furnish to the Owner and A/E a list of possible subcontractors and suppliers that may furnish material or equipment for each principal portion of the Work. The Owner and A/E will reply in writing to the CM if there are any objections to a subcontractor or supplier.

(d) Advertising, Bidding and Awarding of Contracts shall be completed per State Requirements for Educational Facilities (SREF), Section 4.2(2).

(e) At 100% completion of Stage III: Phase III – Construction Documents, the CM shall either:

(1) Provide a detailed GMP less than or equal to the Construction Services Budget; and mobilize construction personnel and proceed with Stage IV – Project Construction; or

(2) Provide a detailed GMP greater than the Construction Services Budget after which the Owner shall grant the CM thirty (30) calendar days from 100% completion of Stage III to return with a GMP less than or equal to the Construction Services Budget.

(f) If the CM returns after thirty (30) calendar days with a GMP that exceeds the Construction Services Budget, at the recommendation of the Superintendent of the School District of Manatee County, the Owner may:

(1) Modify the Construction Services Budget thereby increasing the Total Project Budget without additional cost to the Owner including for A/E fees; or

(2) Terminate the CM Agreement allowing the next ranked construction management firm to provide a GMP within the Construction Services Budget and begin construction. If the CM Agreement is terminated under this section, CM's recovery against Owner shall be limited to that portion of the Contract Amount earned through the date of termination together with any retainage withheld and reasonable termination expenses incurred, but CM shall not be entitled to any other or further recovery against Owner, including damages or any anticipated profit on portions of the Work not performed.

2.1.2.6 Guaranteed Maximum Price (GMP) Proposal

(a) When the Owner determines that the drawings and specifications are 100% complete, the CM shall provide a GMP Proposal.

(b) The GMP Proposal shall include the CM Fee and represent the sum total of all costs associated with completing the Work. The GMP Proposal shall also include an itemized statement of CM's General Conditions expenses for the Project, which, once agreed to by Owner shall be specifically included within the GMP Amendment. The CM's General Conditions expenses are to be paid as the Work progresses with each Application for Payment based on percentage of completion of Work. The itemized statements shall be in form and substance and with such detail as may be required by Owner. General Conditions expenses shall each be line items in the Schedule of Values to be included within the GMP Amendment.

(c) The GMP Proposal shall also include a proposed Construction Schedule, as defined herein, which, once approved, shall be attached to the GMP Amendment.

(d) If the Owner determines the drawings and specifications are not 100% complete and a GMP is required to maintain the Project Schedule, the CM shall provide line items within the GMP Proposal for further development of drawings and specifications by the A/E, which shall not include changes in scope, systems, materials or equipment.

(e) The GMP Proposal shall include a written statement thoroughly explaining the foundation on which the GMP is based including, but not limited to the following:

(1) A complete list of all drawings and specifications used to prepare the GMP;

(2) All addenda and changes in conditions of the Agreement used to prepare the GMP;

(3) A complete list of Owner provided allowances and a statement explaining the CM's understanding of their use;

(4) The proposed date of an Owner-approved Substantial Completion; and

(5) A detailed list of assumptions, exclusions, allowances and clarifications that were made in preparing the GMP.

(f) The CM shall meet with the Project Director and A/E to review the contents of GMP Proposal. The Owner and A/E shall identify, in writing, all discrepancies in the GMP Proposal and provide same to CM. After receiving the list of discrepancies, the CM shall make the appropriate adjustments to the GMP Proposal for submission to the Owner and the A/E.

(g) The CM shall not incur any reimbursable Construction Costs, as outlined in Article 6, prior to the Owner's acceptance of the CM's GMP Proposal and issuance of a Notice to Proceed.

(h) Upon the Owner's acceptance of the GMP Proposal, the GMP will become an Amendment to the Agreement ("**GMP Amendment**") and establish the Agreement's GMP, Contract Time, and liquidated damages for incorporated phases of work.

(i) The GMP shall include only those taxes enacted at the time the GMP is established.

(j) If the GMP exceeds the Owner's Construction Services Budget, the terms of Sections 2.1.2.5(e)(2) and 2.1.2.5(f) shall apply.

2.1.2.7 Bonds

(a) Within ten (10) business days after the GMP is approved by Owner and CM and before any portion of the Construction Work to be covered by such bonds is commenced, CM shall provide Owner with a Performance Bond and a Payment Bond (together, the "**Bonds**"), in the form prescribed by AIA A312-2017 forms or those forms provided within Section 255.05, *Florida Statutes*, in the amount of one hundred percent (100%) of the total sum of the GMP, the costs of which are to be paid by CM. The Bonds must comply with the following provisions and must be otherwise acceptable to Owner:

(1) The Bonds must be underwritten by a surety company which has a currently valid Certificate of Authority issued by the State of Florida, Department of Insurance, authorizing it to write surety bonds in the State of Florida.

(2) The Bonds must be fully performable in Florida, with service and venue in Manatee County, Florida.

(b) In accordance with the requirements of Section 255.05(1)(a), *Florida Statutes*, CM shall record in the Public Records of Manatee County, Florida, a copy of the Bonds. CM shall deliver to Owner certified copies of the recorded Bonds within ten (10) days of recording of the Bonds but, in any event, before commencing the Work. The proper recording and delivery of such Bonds are conditions precedent to Owner's obligation to make any progress payments to CM hereunder.

2.1.3 Stage IV – Project Construction and Warranty

2.1.3.1 The construction phase shall commence on the earlier of the following:

(a) The Owner's acceptance of the CM GMP Proposal and issuance of the Notice to Proceed, or

(b) The Owner's authorization to the CM to:

(1) Award a subcontract;

(2) Undertake the Work with CM forces; or

(3) Issue a Purchase Order for materials or equipment required for the Work.

2.1.3.2 Construction Schedule

(a) Within thirty calendar (30) days after the receipt of the Notice to Proceed, the CM shall prepare a Construction Schedule and submit the schedule to the A/E and Project Director for approval. The Construction Schedule shall graphically depict the sequence and duration of all activities required to satisfactorily finish the Project. The Construction

Schedule shall represent an accurate assessment of the current status of the Project and of the Work remaining to be accomplished and it shall provide a sound basis for identifying variances and problems and for making management decisions.

(b) Following development and approval of the Construction Schedule, CM shall, at the end of each calendar month occurring thereafter during the period of time required to finally complete the Project, or at such earlier intervals as circumstances may require, update and/or revise the Construction Schedule which shall be submitted to Owner and A/E.

(c) The Project Schedule and the Construction Schedule shall be planned and recorded with a Critical Path Method ("**CPM**") schedule. If requested by Owner or A/E, CM shall furnish any information needed to justify the reasonableness of activity duration. Such information shall include estimated activity manpower, anticipated quantities, and production rates.

(d) If the Construction Schedule or any current updates fail to reflect the Work's actual plan or method of operation, or a contractual milestone date is more than fifteen (15) days behind, Owner may require the CM to submit information or documentation including an updated schedule to describe the CM's plan to complete the remaining Work by the required milestone date.

2.1.3.3 Bidding and Subcontracts

(a) Unless authorized by Owner, all work shall be performed under subcontracts held by the CM. The CM shall not bid any of the subcontractor work or perform such work with its own forces without prior written consent of the Project Director.

(b) The CM shall develop procedures that are acceptable to the Project Director and the A/E for pre-qualification of subcontractors and material suppliers, develop subcontractor interest in the Project and conduct pre-bid conferences with interested bidders to review the bid package documents and Project Schedule approved by the Construction Team.

(c) The CM shall obtain bids from subcontractors and open such bids in the presence of the Construction Team, specifically the Project Director and A/E. The Construction Team will then analyze the bids and deliver such bids to the Project Director and A/E.

(d) The Project Director will determine, with the advice of the CM and subject to the reasonable objection of the A/E, which bids will be accepted and indicate his or her acceptance by signing the bid tabulation form for each work scope.

(e) The CM shall not be required to contract with any firm with whom the Owner has a reasonable objection. The CM shall provide the Owner with the scope sheet(s) indicating the apparent responsive and responsible subcontractor bids.

(f) Equal Employment Opportunity / Non-Discrimination: In performing all services to be provided hereunder, CM shall not discriminate against any employee or applicant for employment because of race, color, religion, sex or national origin. CM shall take affirmative action to ensure that applicants for employment are employed, and that employees are treated during employment, without regard to their race, color, religion, sex or national origin. Such actions shall include the following: (i) employment, upgrading, demotion or transfer; (ii) recruitment or recruitment advertising; (iii) layoff or termination; (iv) rates of pay or other forms of compensation; and (v) selection for training, including apprenticeship. CM shall post in conspicuous places, available to all employees and applicants for employment notices setting forth the terms of this Equal Employment Opportunity Non-Discrimination Clause and stating that all qualified candidates will receive consideration for employment without regard to race, color, religion, sex or national origin.

2.1.3.4 CM Construction Services

(a) Prior to the commencement of Work, CM may attend a preconstruction conference with Owner and A/E and others, as appropriate for the particular needs of the Project, to discuss the Project Schedule, procedures for handling shop drawings and other submittals, and for processing Applications for Payment, and to establish a working understanding among the parties as to the Work. During the prosecution of the Work, CM shall attend any and all meetings convened by Owner or A/E with respect to the Project, when directed to do so by Owner or A/E. CM shall have its subcontractors and suppliers attend all such meetings (including the preconstruction conference) as may be directed by Owner or A/E.

(b) The CM shall manage, schedule and coordinate the work, including the work of subcontractors and coordinate the work with the activities and responsibilities of the Project Director, A/E and CM in order to complete the Project in accordance with the Owner's objectives of scope, budget, schedule and quality.

(c) The CM shall provide for all job-site facilities necessary to enable the CM, the Project Director, Building Official and the A/E to perform their respective duties.

(d) Supervision and Contractor Representative

i. CM is responsible for supervising, coordinating and performing the Work with such care and skill as would be provided by a contractor with extensive and special expertise in the type of work required under the Contract Documents. CM is responsible for completing the Work so that it complies accurately and completely with the requirements of the Contract Documents.

ii. The CM shall maintain exclusively for this Project sufficient off-site support staff and competent full-time staff at the Project site authorized to act on behalf of CM to coordinate, inspect, provide general direction and direct the Work and progress of the subcontractors. The CM's on-site management and supervisory personnel shall be consistent with the interview presentation and shall not be removed or replaced without the Project Director's consent. The CM's Project Manager, as defined herein, shall have authority to act on behalf of CM. All communications given to the CM Project Manager shall be as binding as if given to CM. The Owner's Project Director shall have the right to direct the CM to remove any on-site personnel whose performance is unsatisfactory to the Owner. In such event, the CM shall promptly replace such personnel without additional compensation for that replacement.

iii. The CM, in conjunction with the Project Director, shall establish on-site organization and lines of authority to implement the overall plans of the Construction Team.

iv. CM shall establish and maintain lines of authority for its personnel, and shall provide this information to Owner and all other affected parties, such as the code inspectors of any permitting authority, the subcontractors, and A/E. Owner and A/E may attend meetings between CM and its subcontractors; however, such attendance is optional and shall not diminish either the authority or responsibility of CM to administer the subcontracts.

v. CM shall be responsible to Owner for the acts and omissions of its employees and agents and its subcontractors, their agents and employees, and all other persons performing any of the Work or supplying materials under a contract to CM.

vi. CM shall develop and maintain a program, acceptable to Owner and A/E, to assure quality control of the Work. CM shall supervise the Work of all subcontractors, providing instructions to each when their portion of the Work does not conform to the requirements of the Contract Documents and CM shall continue to exert its influence and control over each subcontractor to ensure that corrections are made in a timely manner so as to not affect the efficient progress of the Work.

vii. Should a disagreement occur between CM and A/E over the acceptability of the Work, Owner, in its sole discretion, shall have the right to determine the acceptability.

(e) CM shall provide the following job site administration functions during construction to assure proper documentation, including the following:

(1) Job Meetings: CM shall arrange and conduct regular Project status meetings with the Construction Team. CM shall prepare written minutes of job meetings described in this section and deliver copies

of such written minutes to Owner and the A/E within five (5) days of each meeting.

(2) PMIS Reports: The CM shall provide a Project Management Information Summary (PMIS) monthly report describing the current cost and payment status of the entire Project. These PMIS reports shall indicate all current encumbrances on and expenditures of the GMP budget. Components of the PMIS are set forth in **Exhibit E**.

(3) Daily Job Logs: The CM shall record the progress of the Work and prepare a daily job log containing a record of weather and CM employees and subcontractors on site including number of workers and work accomplished. The log shall be maintained at the Project site or electronically and made available to the A/E and the Project Director at all times.

(4) Logs for RFIs, Submittals/Shop Drawings, Etc.: The CM shall maintain a log of Requests for Information (RFIs), submittals and shop drawings, status of the Unforeseen Conditions Fund, potential cost items, and Architect's Supplemental Instructions (ASIs) to be reviewed at each Construction Team meeting who shall act on the disposition of these items. CM shall review and approve shop drawings and other submittals and implement procedures for transmittal to the A/E of such submittals for action, and closely monitor their review process.

(5) Submittals:

i. CM shall carefully examine the Contract Documents including the plans and specifications for the Project, as well as the Planning Manual to determine all requirements for approval of materials to be submitted such as shop drawings, data, test results, schedules and samples. If requested and/or required by the needs of the Project, CM shall prepare a submittal schedule and shall submit the schedule for Owner and A/E approval. The submittal schedule will be coordinated with CM's Construction Schedule and allow A/E reasonable time to review submittals.

ii. If the Project involves submittals and shop drawings, CM shall carefully review and certify for accuracy and completeness all shop drawings and other submittals and then forward the same to A/E for review and action. By submitting shop drawings and other submittals, CM represents to Owner and A/E that CM has: (1) reviewed and approved them, (2) determined and verified materials, field measurements and field construction criteria related thereto, or will do so, and (3) checked and coordinated the information contained within such submittals with the requirements of the Work and of the Contract Documents.

(6) Subcontractor Progress: The CM may prepare periodic deficiency logs and punch list logs for subcontractors' work, as the particular needs of the Project requires, including unsatisfactory or incomplete items and schedules for their completion.

(7) Payments to Subcontractors: Develop and implement a procedure for the review, processing and payment of applications by subcontractors for progress and final payments.

(8) Substantial Completion: The CM shall ascertain when the Work or designated portions thereof are ready for the A/E Substantial Completion inspection after which the CM and A/E will execute and issue a Certificate of Substantial Completion, as required by Owner, including a list of punch list items to be completed or corrected. From the punch list of incomplete or unsatisfactory items prepared by CM and reviewed and supplemented by A/E, CM shall prepare a schedule for completion of the items indicating completion dates for Owner's review. Substantial Completion will also include the issuance of a Certificate of Occupancy by the permitting authority.

(9) Final Completion: The CM shall monitor the subcontractors' performance on the completion of the Work and provide notice to Owner and the A/E when the Work is ready for final inspection. CM shall secure, review and certify compliance with the Contract Documents and then transmit to Owner, through the A/E, and as an express condition precedent to final payment, all closeout items set forth in **Exhibit C** including required guarantees, warranties, affidavits, releases, consent of surety to final payment, bonds, waivers, manuals, as-built drawings, and maintenance books. Final Completion will also include issuance of a Certificate of Occupancy by the permitting authority and Owner taking possession of the Project.

(f) Safety

(1) CM is responsible for the safety and protection of all persons and property on or about the Project site during the progress of the Work. CM is responsible for protecting from damage or loss all material and equipment to be incorporated into the Work which may be stored off of the Project site.

(2) The CM shall be responsible for initiating, maintaining, implementing and supervising an effective safety program for the Work and requiring similar programs from the subcontractors. OSHA guidelines shall serve as the basis for the safety programs. Copies of the proposed programs shall be distributed to the Construction Team by the CM.

(3) CM shall employ all necessary measures to protect adjoining adjacent property and shall provide barricades, temporary fences and covered walkways required to protect the safety of passersby,

local building codes, ordinances or other laws and the Contract Documents.

(4) CM's duties and responsibilities for the safety and protection of the Work and the environment shall continue until such time as the Work is completed and final acceptance by Owner has occurred.

(5) Alcohol, drugs and all illegal substances are strictly prohibited on any Owner property.

(6) At all times CM shall adhere to Owner's safety and security regulations, and shall comply with all security requirements at Owner's facilities, including all safety and security regulations and requirements, as said regulations and requirements may be modified or changed by Owner from time to time.

2.1.3.5 The CM shall keep full and detailed accounts and exercise such controls as may be necessary for proper financial management, in order to substantiate all costs incurred under this Agreement. The accounting and control systems shall be satisfactory to the Owner. The Owner shall be afforded access to the CM's records, correspondence, instructions, drawings, receipts, subcontracts, purchase orders, vouchers, memoranda and all other data relating to the Project at any and all times during normal business hours upon request by Owner. The CM shall preserve all records and supporting documentation that relate to the Work for a period of three (3) years after final payment, or for longer period as may be required by law. CM shall likewise require all subcontractors to retain all Project records and supporting documentation. The Owner's right to audit, inspect and copy Project records and documentation of CM shall survive completion and/or termination of the Agreement. If at any time, Owner conducts such an audit of CM's records and documentation and finds that CM overcharged Owner, CM shall pay to Owner the Overcharged Amount which is defined as the total aggregate overcharged amount together with interest thereon (such interest to be established at the rate of twelve percent (12%) per annum). If the Overcharged Amount is equal to or greater than Ten Thousand and No/100 Dollars ($10,000.00), CM shall pay to Owner the Overcharged Amount and the Audit Amount, which is defined as the total aggregate of Owner's reasonable audit costs incurred as a result of its audit of CM. Owner may recover the Overcharged Amount and the Audit Amount, as applicable, from any amount due or owing CM with regard to the Project or under any other agreement between CM and Owner. If such amounts owed CM are insufficient to cover the Overcharged Amount and Audit Amount, as applicable, then CM hereby acknowledges and agrees that it shall pay such remaining amounts to Owner within seven (7) business days of its receipt of Owner's invoice for such remaining amounts. In no event shall the Overcharged Amount or the Audit Amount be deemed a reimbursable Cost of Work.

2.1.3.6 Hazardous Materials and Substances

(a) In the event hazardous materials such as asbestos or polychlorinated biphenyl (PCB) are encountered at the Project site that were not specifically noted in the Construction Documents, the CM shall immediately stop Work in the affected area and shall notify the Owner and the A/E in writing of the suspected material within forty-eight (48) hours of discovering same.

(b) Upon receipt of the CM's notice, the Owner shall obtain the services of a licensed laboratory to determine absence or presence of hazardous substance(s), and in the event such material or substance is found to be present, to remediate, abate, or otherwise remove the hazardous substances.

(c) The Owner shall not be responsible under this Section for hazardous materials or substances the CM brings to the site unless such materials or substances required by the Contract Documents, except to the extent of the CM's fault or negligence in the use and handling of such materials or substances.

(d) CM is responsible for compliance with any requirements included in the Contract Documents regarding hazardous materials. If any chemicals, materials, or products containing toxic substances, as defined by 29 C.F.R. 1910, Subpart Z, or any local, state or federal statutes or regulations, are contained in the products used on site or incorporated into the construction by CM or any of its subcontractors, CM shall maintain on site a Safety Data Sheet for each such product. CM shall indemnify and hold the Owner harmless against the cost and expense Owner incurs: (1) for remediation of a material or substance CM brings to the site and negligently handles, or (2) where CM fails to perform its obligations under this Section, except to the extent that the cost and expense are due to Owner's fault or negligence.

2.1.3.7 Emergencies

(a) CM shall take immediate action to prevent injury to any person and injury to any property (including the Work and any adjacent property) which otherwise might arise from an emergency event at the Project site. Property damage includes environmental impacts to the ground, air, and water.

CM shall give A/E and Owner written notice within forty-eight (48) hours after the occurrence of the emergency, if CM believes that any significant changes in the Work or variations from the Contract Documents have been caused thereby. CM shall also deliver to Owner and A/E copies of any written notice of violations received by CM or subcontractors within forty-eight (48) hours following notification by the regulatory agency.

(b) If A/E determines that a change in the Contract Documents is required because of the action taken in response to an emergency, a Change Order or Amendment shall be issued to document the consequences of the changes or variations. If CM fails to provide the forty-eight (48) hour written notice noted above, CM shall be deemed to have waived any right it otherwise may have had to seek an adjustment to the Contract Amount or an extension to the Contract Time. CM is obligated to promptly report in writing to Owner all accidents relating to the Work that result in any personal injury or property damage. The notice procedures contained in this Section control over any conflicting notice periods herein.

2.1.3.8 Final Completion

(a) Warranties

(1) CM shall obtain and assign to Owner on a non-exclusive basis all warranties given to CM by any subcontractors or by any materialmen supplying materials, equipment or fixtures to be incorporated into the Project.

(2) The CM warrants to the Owner and A/E that materials and equipment furnished under the Contract Documents shall be of good quality and new unless the Contract Documents require or permit otherwise. The CM further warrants that the Work will be free from defects, except for those inherent in the quality of the Work the Contract Documents require or permit. Work, materials or equipment not conforming to these requirements may be considered defective. The CM's warranty excludes remedy for damage or defect caused by abuse, alterations to the Work not executed by the CM, improper or insufficient maintenance, improper operation, or normal wear and tear and normal usage.

(3) Any warranty to be provided will be in such form as is acceptable to Owner and shall not include any exclusions, exceptions or modifications except to the extent approved by Owner in its sole discretion.

(4) In addition to all other rights and remedies available to Owner at law or in equity, including any implied warranties Owner may be entitled to as a matter of law, CM expressly warrants to Owner that it shall promptly correct, upon receipt of written notice from Owner, any portion of the Work which is found to be defective or otherwise not in conformance with the requirements of the Contract Documents. In the event that any defective or non-conforming work is deemed by Owner in its sole discretion to present an immediate threat to safety or security, Owner shall be entitled to correct and fix such defective or non-conforming portions of the Work, and CM shall reimburse Owner for all costs and expenses incurred by Owner in performing such Work. This obligation to correct defective or nonconforming Work shall run for a period of one (1) year (or such

longer period of time as may otherwise be specified in the Contract Documents including the Planning Manual) commencing from the date Substantial Completion is achieved. With respect to the correction of any defective or nonconforming Work, CM shall be liable for all damage to any part of the Work itself and to any adjacent property which is caused by such corrective work.

ARTICLE 3
OWNER'S RESPONSIBILITIES

3.1.1 The Owner shall establish a Total Project Budget that includes the cost of all Design, Construction and Owner Services. The Total Project Budget shall include contingencies for changes in the work conditions and other costs, which are the responsibility of the Owner.

3.1.2 The Owner shall furnish (unless other provisions are made) the following with reasonable promptness and at the Owner's expense, and the CM shall be entitled to rely on this information:

3.1.2.1 Reports, surveys, drawings and tests concerning the conditions of the site;

3.1.2.3 The services of geotechnical engineers when such services are required for site evaluation

3.2 The Owner shall designate a Project Director that will be fully acquainted with the Project and shall define the lines of Owner authority to approve construction budgets and changes in the Project within the Owner approved Scope of Work and Project Budget.

3.3 The Owner shall retain the A/E for design and to prepare Construction Documents for the Project. The duties and responsibilities of A/E are described in the Agreement Between the Owner and the A/E, a copy of which will be furnished to CM. The Agreement between the Owner and A/E shall not be modified without written notification to the CM.

4.2 Code Inspections

4.2.1 All components of the Project require detailed code compliance and Construction Document inspections during construction including, but not limited to structural, mechanical, electrical, plumbing and general building as well as threshold inspections where required.

4.2.2 The inspecting authority will provide inspection personnel. The Project Director will provide to the CM names, addresses, email addresses, and telephone numbers of the inspecting authorities. The CM shall notify the appropriate inspector(s) no less than 24 hours in advance of the required inspection.

4.2.3 All Work scheduled for inspection shall be ready for inspection and inspected prior to the work being concealed. Work not inspected and not approved prior to concealment shall be revealed for inspection when directed by the Owner of designated inspecting authority.

4.2.4 All costs associated with inspecting prematurely concealed work shall be borne by the CM.

4.3 Taxes

4.3.2 CM shall comply with and fully implement the sales tax savings program with respect to the Work.

4.3.3 Direct Purchasing – Notwithstanding anything herein to the contrary, because Owner is exempt from sales tax and wishes to generate sales tax savings for the Project, Owner reserves the right to make direct purchases of various construction materials and equipment included in the Work.

ARTICLE 5
SUBCONTRACTS

5.1 A subcontractor is a person or organization who has a direct contract with the CM to perform specific work at the jobsite. Nothing in the Contract Documents shall create any contractual relationship between the Owner, A/E or any other subcontractor.

5.2 By appropriate written agreement, the CM shall require each subcontractor, to the extent of the work to be performed by the subcontractor, to be bound to the CM by the terms of the Contract Documents, and to assume toward the CM all obligations and responsibilities which the CM by these documents, assumes to the Owner and the A/E. The CM shall provide the Owner copies of the subcontractor bonds or evidence that bonds have been acquired. All increases and decreases to the Project shall be documented in the bond. CM requested payments for work completed will be withheld until all documentation of bonds is received.

5.3 Requirements

5.3.1 On all subcontracts exceeding $100,000.00 the CM may require subcontractors to provide a 100% performance bond and a 100% payment bond from a surety company authorized to do business in the State of Florida by the Department of Insurance. If the CM wishes to award subcontracts to contractors unable to supply this bonding, CM shall request special authorization from the Owner.

5.3.2 The subcontractor must have successfully completed no less than two projects of similar size and complexity within the last five (5) years unless this requirement is waived by Owner, A/E and CM. Similar projects completed by the subcontractor will be indicated on the scope of work sheet by the CM.

5.3.3 Subcontractor is required to be licensed per Chapter 489 and shall provide proof of licensing prior to start of work. Proof of subcontractor licensure shall be provided electronically to the Owner.

5.3.4 All Subcontracts shall provide:

5.3.4.1 That the Owner will be an additional insured on all insurance policies required to be provided by the subcontractors except workman's compensation and professional liability, if applicable;

5.3.4.2 That all warranties will be assigned directly to Owner;

5.3.4.3 That the Work being performed pursuant to such subcontract be performed in accordance with the requirements and intent of the Contract Documents and provide for retainage as specified within this Agreement;

5.3.4.4 For submission of Applications for Payment in form acceptable to Owner, together with reasonable backup and supporting information and, if requested by Owner, Releases and Affidavits and Waivers of Right to Claim Against the Payment Bond, in the forms required by the Agreement, from all subcontractors or vendors who have filed Notice to Owner, filed Intent to Lien, or have indicated non-payment from CM.

5.3.4.5 That subcontractor agrees to comply, at its own expense, with all federal, state and local laws, codes, statutes, ordinances, rules, administrative orders, regulations and requirements applicable to the Project, including those dealing with safety (including the Trench Safety Act, Chapter 553, *Florida Statutes*).

5.3.4.6 That the subcontractor will resolve all disputes involving Owner in the same manner as provided in the Agreement;

5.3.4.7 That, upon Owner's request, subcontractor will provide proof of such insurance and additional insured endorsements to Owner;

5.3.4.8 Limitation of Remedy – No damages for delay – that subcontractors' exclusive remedy for delay in the performance of the Work required by the Agreement caused by events beyond its control, including delays claimed to be caused by or attributable to the Owner or A/E and claims based on breach of the Agreement or negligence, shall be an extension of Contract Time; and

5.3.4.9 That, in the event of a change in the Work that is performed by Subcontractors or sub-subcontractors, a maximum of fifteen percent (15%) markup shall be permitted for each of the Subcontractors for all overhead and profit on Subcontractor's direct labor and material costs and actual equipment costs as follows: (i) ten percent (10%) markup for that portion of the Work to be performed by a Subcontractor with its own forces; and (ii) ten percent (10%) markup for that portion of the Work to be performed by a sub-subcontractor with its own forces, or any lower tier of subcontractor, plus five percent (5%) for the Subcontractor. The total combined Change Order fee for Subcontractor and all sub-subcontractors shall not exceed fifteen percent (15%). A detailed breakdown, with necessary backup, shall be provided. Subcontractors, and sub-subcontractors, shall agree that the foregoing constitutes their sole and exclusive remedies for delays and changes in the work and thus eliminate any other remedies or claims for increases in the Contract Amount, damages, losses or additional compensation.

Notwithstanding anything to the contrary herein, the fund will be spent only for changes due to unforeseen conditions, Owner requests, alternatives, items initially value engineered that may be able to be added back to the scope of Project and other legitimate costs of the Project. The CM shall maintain a current listing of the unforeseen conditions transactions and it shall be available to the Construction Team at all times. To the extent the amount of Unforeseen Conditions Fund is insufficient to cover the costs of the additional work attributable to the Unforeseen Condition, the Owner may issue a Change Order or Amendment under Article 8 herein to cover any excess costs. Unspent unforeseen condition funds shall be returned to Owner if not used on the Project.

7.2 If a dispute arises in connection with CM's claim of unforeseen conditions, the dispute resolution procedure set forth in the Contract Documents shall be complied with by the parties.

ARTICLE 8
CHANGES IN THE PROJECT

8.1 Change Orders and Amendments

8.1.1 The Owner, without invalidating this Agreement, may order changes in the Project within the general scope of this Agreement consisting of additions, deletions or other revisions. All changes in the Project, which are not authorized expenses under the Unforeseen Conditions Fund under Article 7 herein shall be authorized by Change Order or Amendment and signed by the Owner before the change is implemented. The GMP and the construction completion date will be adjusted only in accordance with an approved Change Order or Amendment. Except in an emergency endangering life or property, no additions, deletions or other revisions shall be made except upon written order of Owner as described herein, and Owner shall not be liable to CM for any increased compensation or adjustment to the completion date without such written order. Accordingly, no course of conduct or dealings between the parties, nor express or implied acceptance of alterations or additions to the Work, and no claim that Owner has been unjustly enriched by any alteration of or addition to the Work, whether or not there is, in fact, any unjust enrichment to the Work, shall be a basis of any claim to an increase in any amounts due under the Contract Documents or a change in any time period provided in the Contract Documents. All Change Orders and Amendments shall be approved by the Owner. CM agrees to provide, and shall require all Subcontractors to provide, accurate and sufficient cost data to enable Owner to evaluate the appropriate value of all labor, materials and equipment associated with the Change Order including labor by hours and rate, materials, supplies, taxes and insurance and any other reasonable documentation requested by the Owner.

8.1.2 A Change Order or Amendment is a written order to the CM signed by the Owner issued after the execution of this Agreement, authorizing a change in the Project, CM's fee, or the construction completion date. Each adjustment in the GMP resulting from a Change Order or Amendment shall clearly identify the amount attributable to the addition, deletion or other revision.

8.1.3 In the event a requested change is approved by Owner that results in either an increase or decrease to the Contract Amount, a Change Order or Amendment shall be issued, which increases or decreases the GMP by the full amount of CM's actual direct and indirect costs including overhead and profit and general conditions that are to be paid to CM and Subcontractors or sub-subcontractors. Such Change Order or Amendment shall be supported by full documentation of all costs in an itemized cost estimate including labor by hours and rate, materials, supplies, taxes and insurance, and any other documentation required to allow Owner to properly evaluate the cost estimate. The costs of such Change Order or Amendment shall be determined in accordance with Section 5.3.4.9 above as it relates to mark-ups for Subcontractors and sub-subcontractors and/or in one or more of the following ways:

8.1.3.1 By mutual acceptance of a lump sum properly itemized and supported by sufficient data to permit evaluation by the A/E and Project Director;

8.1.3.2 By unit prices stated in the agreement or subsequently agreed upon;

8.1.3.3 By costs defined in Article 6 and a mutually acceptable fixed or percentage fee; and/or

8.1.3.4 By the method in Article 8.2.

8.2 If the above methods in 8.1.3.1 through 8.1.3.3 are not agreed upon, the CM, provided it receives a written order signed by the Owner, shall promptly proceed with the work involved. Work shall then be determined on the basis of the reasonable expenditures and savings of those performing the work attributed to the change. In the event a Change Order or Amendment is issued under these conditions, the A/E will establish an estimated cost of the work and the CM shall not perform any work whose cost exceeds that estimate without prior written approval of the Owner.

8.3 Claims for Additional Cost or Time

8.3.1 All claims for additional cost or time shall be made by a request for Change Order or Amendment within fourteen (14) days of the date, or within a time period otherwise agreed to by Owner in writing, the CM knew or reasonably should have known of the circumstance that may, in CM's opinion, be a change to the Project that justifies a Change Order or Amendment. Only delays that are determined to extend the critical path in the Construction Schedule will result in a time extension.

8.4 Minor Changes

8.4.1 The A/E will have authority to order minor changes in the Project not involving an adjustment to the GMP or any extension of the construction completion date and consistent with the intent of the Construction Documents. Such changes shall be effectuated by written approval of the Owner and CM. Documentation of the changes shall be determined by the Construction Team.

ARTICLE 9
DISCOUNTS AND PENALTIES

9.1 All discounts for prompt payment shall accrue to the Owner to the extent the cost of the Project is paid directly by the Owner or from a fund made available by the Owner to the CM. To the extent permitted by applicable law, all trade discounts, rebates and refunds including, but not limited to insurance premiums, and all returns from sale of surplus material and equipment shall belong to the Owner regardless of when issued and shall be credited to the cost of the Project. To the extent that any discounts, rebates and refunds occur or accrue subsequent to Final Completion of the Project, such funds shall be paid to Owner within fifteen (15) days of receipt by CM. All penalties incurred due to the fault of the CM for late payment of the cost of the Project, except, late payments by Owner, will be paid by the CM.

9.2 Savings will be computed as of the date of Final Completion and shall consist of the difference between (1) the GMP (as it may be adjusted in accordance with the terms of the Contract Documents) and (2) the total aggregate sum of the Cost of Work plus the CM Fee paid by Owner and shall accrue to the sole benefit of Owner. A deductive Change Order or Amendment shall be issued reducing the GMP by the amount of such savings. For the avoidance of doubt, any savings obtained may not be moved to the Unforeseen Conditions Fund or be used to offset cost overruns in other items within the GMP without prior written consent of the Owner.

ARTICLE 10
CONTRACT TIME, TIME EXTENSIONS AND LIQUIDATED DAMAGES

10.1 Contract Time and Extensions

10.1.1 CM shall diligently pursue the completion of the Work and coordinate the work being done on the Project by its subcontractors and materialmen, as well as coordinating its work with all work of others at the Project site, so that its work or the work of others shall not be delayed or impaired by any act or omission by CM or anyone for whom CM is responsible or liable.

10.1.2 Should CM actually be obstructed or delayed in the critical path of the prosecution of, or completion of, the Work as a result of unforeseeable causes: (a) beyond the control of CM, (b) not due to CM's fault or neglect, and (c) which could not be avoided by the exercise of reasonable diligence, including: (i) acts of God or of the public enemy, (ii) acts of government, (iii) fires, (iv) floods, (v) epidemics, (vi) quarantine regulation, (vii) strikes, (viii) lockouts, or (ix) weather conditions abnormal for the period of time (as defined below) which exceed the aggregate number of days allotted for adverse weather conditions in CM's schedule approved by Owner, CM shall notify Owner and A/E in writing within five (5) days after the commencement of such delay, unless otherwise agreed to between the parties in writing, which time period shall control over any conflicting time periods specified elsewhere herein, stating the cause or causes thereof, or be deemed to have waived any right which CM may have had to request a time extension therefor. "Abnormal for the period of time" for purposes of this Section means rain or bad weather (e.g. named tropical storms or hurricanes), only when such rain or bad weather is in excess of the ten (10) year average for that specific period of time (from its commencement to its conclusion, as compared with the historical data for that same period) as published by the National Oceanic and Atmospheric Administration for the area where the Project is located.

10.1.3 CM's Construction Schedule shall allow the number of days it deems necessary for rain and bad weather when CM prepares its schedule and not every day of adverse weather conditions abnormal for the period of time shall be grounds for an extension of time. CM and Owner acknowledge that any Project site rain gauge measurements will not be relied upon for determining rain fall amounts. CM shall use commercially reasonable efforts to mitigate the effects of any delays described in this Section so as to minimize any effect on the schedule for completion of the Work.

10.1.4 No Damages for Delay – CM's exclusive remedy for delay in the performance of the Work required by the Agreement caused by events beyond its control, including delays claimed to be caused by or attributable to the Owner or A/E and claims based on breach of the Agreement or negligence, shall be an extension of Contract Time. CM expressly acknowledges and agrees that it is not entitled to receive damages for delay. However, if final completion of the Work is materially delayed through no fault of the CM and CM suffers direct costs from such delay, CM may submit a proposed Change Order or Amendment to Owner for consideration.

10.2 Liquidated Damages

10.2.1 It is hereby understood and mutually agreed, by and between CM and Owner, that the Contract Time for completion of the Work indicated in the Contract Documents is a reasonable time period in which to complete the Work and achieve Substantial and Final Completion for the Project.

10.2.2 Time is of the essence in this Agreement. Owner and CM recognize that Owner will suffer financial loss if the Work associated with the Construction Phase is not substantially completed within the time specified in the GMP Amendment, as said time may be adjusted as provided for herein. In such event, the total amount of Owner's damages, will be difficult, if not impossible, to definitely ascertain and quantify, because this is a public construction project that will, when completed, benefit the public and enhance the delivery of valuable education to the public, in Manatee County, Florida.

10.2.3 It is hereby agreed that it is appropriate and fair that Owner receive liquidated damages from CM, if CM fails to achieve Substantial Completion of the Work within the required Contract Time. Should CM fail to achieve Substantial Completion of the work within the Contract Time or as otherwise required by the Contract Documents, the Owner shall be entitled to assess as liquidated damages, but not as a penalty, against CM and/or its Surety, the following per diem amounts commencing upon the first day following expiration of the Contract Time and continuing each calendar day until the actual date of Substantial Completion is achieved.

Contract Amount			Liquidated Damages Per Calendar Day
$1,000	to	$20,000	$100
20,001	to	75,000	200
75,001	to	150,000	500
150,001	to	350,000	750

4,000,001	to	5,000,000	1,700
5,000,001	to	6,000,000	1,800

11,000,001	to	12,000,000	2,400
12,000,001	and over		2,500

10.2.4 The Liquidated Damages amount per calendar day are fixed and agreed upon by and between the CM and the Owner because of the impracticality and difficulty of ascertaining actual damages the Owner will sustain. It is agreed that the liquidated damages amount per calendar day is adequate to cover damages, which the Owner will sustain by reason of inconvenience, loss of use, loss of monies, and additional costs of contract administration by the A/E and Owner.

10.2.5 Permitting the CM to continue to finish the Work or any part of the Work after time fixed for its completion or after date to which time for completion may have been extended shall in no way constitute a waiver on the part of the Owner of any rights under the Agreement.

10.2.6 Owner may deduct liquidated damages prescribed in this section from any unpaid amounts then or thereafter due CM under the Agreement and any liquidated damages not so deducted shall be payable to Owner by CM upon demand by Owner plus interest from the date of demand at the maximum legal rate of interest until paid.

10.2.7 It is further mutually understood and agreed that Owner's assessment of liquidated damages for delays is intended to compensate Owner solely for CM's failure to substantially complete the Work in the Contract Time and shall not release CM from liability from any other breach of Agreement requirements.

10.2.8 If the liquidated damages set forth herein are deemed unenforceable for any reason, Owner instead shall be entitled to recover those actual delay damages that it sustained as a result of CM's failure to achieve Substantial Completion of the Work.

10.2.9 Liquidated Damages shall be assigned to the CM if punch list items have not been completed within ninety (90) days after Substantial Completion. The value of punch list items shall be determined by the A/E and multiplied by two (2). This value shall be withheld until the item has been completed. In addition, the Owner may obtain the services of others to complete unfinished punch list items after ninety (90) days have expired. Costs for this work shall be deducted from the CM's final payment. Liquidated Damages for punch list items shall commence on the ninety-first (91st) day after Substantial Completion and accrue until the final Application for Payment has been approved by the A/E. The CM, and its Surety, shall pay to the Owner any sums hereinafter stipulated as fixed, agreed, and liquidated damages for each calendar day of delay until the punch list items are complete.

12,000,001	and over		$12.50 per $100,000

10.2.10 "Days" means consecutive calendar days unless a contrary intent is specifically indicated with regard to any reference to the word "days."

10.2.11 The term "business day" as used herein shall mean all days of the week excluding Saturdays, Sundays and all legal holidays observed by Owner.

ARTICLE 11
PAYMENTS TO THE CONSTRUCTION MANAGER

11.1 Progress Payments

11.1.1 At the time it submits its GMP Proposal to Owner, CM also shall submit to Owner and A/E, for their review, a GMP Budget Summary, which will become the Schedule of Values and is based upon the GMP Proposal listing the major elements of the Work and the dollar value for each element and, if required by Owner, broken down further into the major elements of the Work to be completed during the various phases of the Work. That revised Schedule of Values, as further revised to reflect the final negotiated GMP amount and as approved by Owner, will be attached to the GMP Amendment and shall be used as the basis for CM's monthly Applications for Payment thereafter. This revised Schedule of Values shall be updated for the current month Change Orders and Amendments and submitted each month to A/E along with a completed and notarized copy of the Construction Manager's Application and Certificate for Payment ("**Application for Payment**") form attached to the Agreement as **Exhibit A**.

11.1.2 Each month, the CM shall complete and submit to the Owner the sworn, notarized CM Application for Payment attached hereto as in **Exhibit A** together with an updated Schedule of Values and cost reports required under Article 2 and **Exhibit E**, which detail all costs spent, costs accumulated, or costs incurred in completing the Work during the previous period, plus the amount of the CM Fee that is due as provided in Article 6. Owner shall pay CM any undisputed amounts of CM's Application for Payment within

twenty-five (25) business days of Owner's receipt of same. General Conditions and/or General Requirements shall be paid based on the percentage of Work completed on site, with the exception of CM's initial Application for Payment which may include reimbursement for Bond costs. Owner shall have the right to verify and substantiate any amounts listed within the CM's Application for Payment. Five percent (5%) retainage, or the maximum allowed by applicable law, shall be held on all payments; however, when approved by the Owner, certain suppliers and subcontractors may be paid the entire amount due at the Owner's discretion. At the Owner's discretion, the Owner may pay CM the entire amount due without holding retainage for the CM's General Requirements, the CM's Fee, Insurance and Bond Costs. Owner reserves the right, at its sole discretion, to reduce or release any portion of such retainage prior to final payment; provided, however, nothing in this Section shall preclude or limit Owner's right to withhold payment as otherwise permitted by the terms of the Contract Documents or as permitted by law. Any reduction or release of retainage, or portion thereof shall not be a waiver of (i) any of Owner's rights to retainage in connection with other payments to CM, or (ii) any other right or remedy that Owner has under the Contract Documents, at law or in equity. Upon request, CM shall provide Releases and Affidavits and Waivers of Right to Claim Against the Payment Bond, in the form required by the Owner.

11.1.3 In addition to the CM certifications set forth in the Application for Payment form attached as **Exhibit A**, the CM's submission of each Application for Payment to Owner shall also constitute a representation by CM to Owner that: (1) there are no liens or claims outstanding or known to exist at the date of the Application for Payment; (2) duly executed waivers and releases have been obtained from all subcontractors and suppliers for work done and materials furnished through the date of payment; and (3) such Application for Payment has not been front-end-loaded either by CM or by any of its subcontractors or suppliers (including placing a value on a line item that is in excess of its cost, increasing unit prices on early completed items while decreasing unit prices on later completed ones, and/or inflating the percentage of completion on line items).

11.1.4 All Applications for Payment to the Owner must be submitted to the Project Director at the address identified herein. Payments to CM shall in no way imply approval or acceptance of CM's work.

11.2 Payments to Subcontractors

11.2.1 The CM shall promptly, within 10 days after receipt of payment from the Owner, pay all the amount due subcontractors less a retainage of five percent (5%), or the maximum retainage amount allowed by applicable law, based on the CM's evaluation of the subcontractor's acceptable performance. If there should remain items to be completed, the CM and A/E shall list those items required for completion and the CM shall require the retainage of a sum equal to two times the estimated cost of completing any unfinished items, provided that said unfinished items are listed separately and the estimated cost of completing any unfinished items likewise listed separately. Thereafter, the CM shall pay to the subcontractors, monthly, the amount retained for each incomplete item after each of said items is completed. Before issuance of final payment without any retainage, the subcontractor shall submit satisfactory evidence that all payrolls, material bills and other indebtedness connected with the Project have been paid or otherwise satisfied, warranty information is complete, as-builts have been submitted and instructions for the Owner's operating and maintenance personnel is complete.

11.2.2 To the extent a subcontractor has not completed the work in accordance with the Construction Documents (or CM disputes the subcontractor's invoice or pay request in good faith) and the CM notifies the party whose payment is disputed, in writing, of the amount in dispute and the actions required to cure the dispute, the CM may withhold the disputed portion of the payment. Should the CM withhold any payment to a subcontractor, the CM shall provide a weekly report to the Owner listing all outstanding payments to subcontractors. Upon request, the CM shall return the disputed payment to the Owner and CM shall provide a credit to the costs of the Project in the CM's next Application for Payment in the amount of any interest earned on any such disputed payment.

11.2.3 Final payment may be made to certain select subcontractors whose work is satisfactorily completed prior to the total completion of the Project but only upon approval by the Owner, CM and A/E.

11.3 Final Payment to CM

11.3.1 Final Payment constituting the unpaid balance of the Cost of the Project and the CM's fee, shall be due and payable after the Owner has accepted occupancy of the Project, provided that the Project be then finally completed, that the CM has verified by its signature that it has completed all items specified on the attached **Exhibit C**, and that this Agreement has been finally performed. However, if there should remain work to be completed, the CM and the A/E shall list those items prior to the CM receiving final payment. The Owner may retain a sum equal to two times the estimated cost of completing any unfinished work and a portion of the CM's retainage, provided that said unfinished items are likewise listed separately. Thereafter, Owner shall pay to the CM, monthly, the amount retained for each incomplete item after each of said items is completed.

11.4 Payment requests shall be processed and paid in accordance with Part VII, Chapter 218, *Florida Statutes*, known as the Florida Prompt Payment Act, and the terms of this Agreement.

11.4.1 The parties shall develop a single list of items (or if the Project relates to construction of more than one building or structure or is multi-phased, a list of items for each building, structure or Project phase) required to render complete, satisfactory, and acceptance of the construction services. The parties shall specify a process for developing the list, including the responsibilities of Owner and CM in developing and reviewing the list and a reasonable time for developing the list:

11.4.1.1 For construction projects having an estimate cost of less than $10 million, the list shall be developed within thirty (30) calendar days after reaching Substantial Completion; or

11.4.1.2 For construction projects having an estimated cost of $10 million or more, the list shall be developed within thirty (30) calendar days, or, if extended by agreement between the parties, up to sixty (60) calendar days after reaching Substantial Completion of the construction services.

11.4.2 The list of items shall be delivered within five (5) days after the list has been developed and reviewed in accordance with the sections listed above.

11.4.3 The Final Completion date shall be at least thirty (30) days after the delivery of the list of items. If the list is not provided to the CM by the agreed upon date for delivery of the list, the Contract Time for Final Completion must be extended by the number of days the Owner exceeded the delivery date. However, damages may not be assessed against the CM for failing to complete the Project within the time required by the Agreement unless the CM failed to complete the Project within the Contract Time as extended within this Section.

11.4.4 The failure to include any corrective work or pending items not yet completed on the list does not alter the responsibility of the CM to complete all of the construction services under the Agreement.

11.4.5 Upon completion of all items on the list, the CM may submit a payment request for all remaining retainage withheld by the Owner. If a good faith dispute exists as to whether one or more items identified on the list have been completed pursuant to the Agreement, the Owner may continue to withhold up to 150 percent (150%) of the total costs to complete such items.

11.4.6 All items that require correction under the Agreement and that are identified after preparation and delivery of the list remain the obligation of CM as defined within the Agreement.

11.4.7 Warranty items or items not included in the list of items may not affect the final payment of retainage as provided herein or as provided in the Agreement between the CM and subcontractors and suppliers.

11.4.8 Should the Owner fail to comply with its duties to develop the list required herein within the time limitations, the CM may submit a payment request for all remaining retainage withheld by the Owner and payment of any remaining undisputed Contract Amount, less any amount withheld pursuant to the Agreement for incomplete or uncorrected Work, must be paid within twenty (20) business days after receipt of a proper invoice or Application for Payment.

11.4.9 If Owner provides CM within written notice specifying the failure of CM to meet the contract requirements in the development of the list of items to be completed, the Owner is not required to pay or process any Application for Payment for retainage if the CM has, in whole or in part, failed to cooperate with Owner in the development of the list or to perform its duties under the Agreement with regard to the development of the list or if there are items requiring correction that are identified after the preparation and delivery of the list (that will remain the obligation of the CM).

11.5 Payments for Materials and Equipment

11.5.1 Payments will be made for material and equipment not incorporated in the work but delivered and suitably stored at the site or another location subject to prior approval and acceptance by the Owner on each occasion.

ARTICLE 12
INSURANCE, INDEMNITY AND WAIVER OF SUBROGATION

12.1 Indemnity

12.1.1 To cover to the fullest extent permitted by law, the CM shall indemnify, and hold harmless the Owner, the A/E, the A/E consultants, and agents and employees of any of them from and against all claims, damages, losses, expenses, penalties, demands, judgments, actions, proceedings, losses or costs, including reasonable attorneys' fees and paralegals' fees, whether resulting from any claimed breach of the Agreement by CM or arising out of or resulting from the performance of the Work, provided that any such claim, damage, loss, expense, direct or consequential damages, or economic loss is attributable to bodily injury, sickness, disease or death, or injury to or destruction of tangible property including the loss of use resulting therefrom, but only to the extent caused by the negligent acts or omissions, recklessness, or intentional wrongful misconduct of the CM, a Subcontractor, anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, regardless of whether or not such claim, damage, loss, or expense is caused in part by a party indemnified hereunder. Such obligation shall not be construed to negate, abridge or otherwise reduce any other right to obligation of indemnity which would otherwise exist as to any party or person described in this Section.

12.1.2 In any and all claims against the Owner, the A/E, the A/E consultants, and agents and employees of any of them by any employee of the CM, any Subcontractor, anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, the indemnification obligations under this Section shall not be limited in any way by any limitation on the amount or type of damages, compensation or benefits payable by or for the CM or any Subcontractor under workers' compensation acts, disability benefit acts or other employee benefit acts.

12.1.3 CM's indemnification obligations including those specified within this Section, shall be deemed to fully comply with Section 725.06, *Florida Statutes*, including any amendments thereto, in all respects. If any word, clause or provision of any of the indemnification provisions of the Agreement is determined not to be in compliance with Section 725.06, *Florida Statutes*, including any amendments thereto, it shall be stricken and the remaining words, clauses and provisions shall remain in full force and effect. It is the intent of the parties that CM's indemnification obligations comply fully with Section 725.06, *Florida Statutes*, including any amendments, in all respects. CM's indemnification obligations in the Agreement are in addition to and not in lieu of any common law indemnification to which any of the indemnified parties are entitled.

12.1.4 The Owner shall cause any other CM who may have a contract with the Owner to perform construction installation work in the area where work will be performed under this Agreement, to agree to indemnify the Owner and the CM and hold them harmless from all claims for bodily injury and property damage (other than property insured under this Agreement) that may arise from the CM's operations. Such provisions shall be in a form satisfactory to the CM.

12.2 CM Insurance

12.2.1 During the term of the Agreement or for such longer period as specified in the Contract Documents or required by applicable law, CM shall provide, pay for, and maintain the types of insurance described herein by an insurance company duly licensed and authorized by the Department of Insurance of the State of Florida to transact the appropriate insurance business in the State of Florida. The CM shall not commence any construction Work in connection with this Agreement until it has obtained all of the following types of insurance and such insurance has been approved by the Owner, nor shall the CM allow any subcontractor to commence work on any subcontract until all similar insurance required of the subcontractor has been so obtained and approved. The procuring of required policies of insurance shall not be construed to limit CM's liability or to fulfill the indemnification provisions and requirements of the Agreement.

12.2.2 If any insurance provided pursuant to the Agreement expires prior to the completion of the Services required hereunder, renewal Certificates of Insurance and, if requested by Owner, copies of the renewal policies and applicable additional insured endorsements, shall be furnished to Owner fifteen (15) calendar days prior to the date of expiration. CM shall also notify Owner, in a like manner, within two (2) days after receipt, of any notices of expiration, cancellation, non-renewal or material change in coverages or limits received by CM from its insurer, and nothing contained herein shall relieve CM of this requirement to provide notice.

12.2.3 Owner shall retain the right to review, at any time, coverage, form, and amount of insurance. Should at any time CM not maintain the insurance coverages required in the Agreement, Owner may cancel the Agreement and any Amendments issued pursuant to the Agreement or at its sole discretion shall be authorized to purchase such coverages and charge CM for such coverages purchased. If CM fails to reimburse Owner for such costs within thirty (30) calendar days after demand, Owner has the right to offset these costs from any amount due CM under the Agreement. Owner shall be under no obligation to purchase such insurance, nor shall it be responsible for the coverages purchased or the insurance company/companies used. The decision of Owner to purchase such insurance coverages shall in no way be construed to be a waiver of its rights under the Agreement.

12.2.4 Certificates of Insurance

12.2.4.1 CM shall deliver to Owner properly executed Certificate of Insurance forms and required additional insured endorsements in form acceptable to Owner, evidencing the fact that CM has acquired and put in place the insurance coverages and limits required hereunder. These shall be completed and signed by the authorized Florida Resident Agent, and returned to the Department of Construction Services. The Certificate(s) shall be dated and show:

(a) The name of the insured CM, the specific job by name and number, the name of the insurer, the number of the policy, its effective date, and its termination date;

(b) Statement that the Insurer will mail notice to the Owner and a copy to the A/E at least fifteen (15) days prior to any material changes in provisions or cancellation of the policy;

(c) Certificates of Insurance shall be in the form as approved by Insurance Services Office (ISO) and such Certificate shall clearly state all the coverages required within this Agreement; and

(d) The Owner shall be named as additional insured on the CM's commercial general liability, excess or umbrella liability and builder's risk policy or policies.

12.2.5 The acceptance by Owner of any evidence of the insurance coverages and limits required by the Agreement, including any Certificate of Insurance, policy or additional insured endorsement, does not constitute approval or agreement by Owner that the insurance requirements have been met or that the insurance policies shown on the evidence of insurance comply with the requirements of the Agreement.

12.2.6 All insurance policies required by the Agreement shall include the following provisions and conditions by endorsement to the policies:

12.2.6.1 All insurance policies, other than the Professional Liability policy and the Workers Compensation policy, provided by CM to meet the requirements of the Agreement shall name The School Board of Manatee County, Florida, as that name is defined herein, as an additional insured as to the operations of CM under the Contract Documents. The Owner shall be listed as an additional insured for claims caused in whole or in part by the CM's negligent acts or omissions for which loss occurs during completed operations. The additional insured language shall be primary and non-contributory to any of the Owner's general liability insurance policies and shall apply to both ongoing and completed operations. The term "**The School Board of Manatee County**" shall include the Manatee County Public Schools, the Manatee County School Board, a body corporate, the School District of Manatee County and all Authorities, Boards, Bureaus, Commissions, Divisions, Departments and offices thereof and individual members, officers and employees thereof in their official capacity, and/or while acting on behalf of the Manatee County School Board.

12.2.6.2 All insurance coverages of CM shall be primary to any insurance or self-insurance program carried by Owner applicable to the Agreement, and the "Other Insurance" provisions of any policies obtained by CM shall not apply to any insurance or self-insurance program carried by Owner applicable to the Agreement.

12.2.6.3 Insurance requirements itemized in the Agreement and required of CM shall be provided on behalf of all subcontractors to cover their operations performed under the Agreement. CM shall be held responsible for any modifications, deviations, or omissions in these insurance requirements as they apply to subcontractors.

12.2.7 <u>Worker's Compensation Insurance</u>

12.2.7.1 During the life of this Agreement, the CM shall take out and maintain Worker's Compensation Insurance for all its employees connected with the work of this Project and, in case any work is sublet, the CM shall require the

subcontractor similarly to provide Worker's Compensation Insurance for all of the latter's employees unless such employees are covered by the protection afforded by the CM. Such insurance shall comply with the Florida Worker's Compensation Law and include the effects of all discounts, modifiers and rebates. In case any class of employees engaged in hazardous work under this Agreement at the Project site is not protected under the Worker's Compensation statute, the CM shall provide adequate insurance, satisfactory to the Owner, for the protection of employees not otherwise protected.

12.2.8 CM's General Liability and Property Damage Insurance

12.2.8.1 During the life of this Agreement, the CM shall take out and maintain Comprehensive General Liability Insurance as shall protect the CM from claims for damage for personal injury, including accidental death, as well as claims for property damages which may arise from operating under this Agreement whether such operations are by CM or by anyone directly or indirectly employed by CM.

12.2.8.2 The general liability insurance shall be written on an "occurrence" basis, shall be maintained by CM and shall provide coverage for claims including (1) damages because of bodily injury, sickness or disease, including occupational sickness or disease, and death of any person; (2) personal injury and advertising injury; (3) damages because of physical damage to, or destruction of, tangible property, including the loss of use of such property; (4) bodily injury or property damage arising out of completed operations; and (5) CM's indemnity obligations under the Agreement.

12.2.8.3 The general liability insurance shall provide "XCU" (explosion, collapse, underground damage) coverage for those classifications in which they are excluded, Broad Form Property Damage Coverage, Products and Completed Operations Coverages, and Contractual Liability Coverage designed to protect the CM for contractual liabilities assumed by the CM in the performance of this Agreement to the extent covered by a standard Insurance Standards Office (ISO) General Liability policy. Completed Operations coverage must be maintained by CM for not less than five (5) years following completion and acceptance by Owner of the Work performed by CM.

12.2.8.4 The general liability insurance shall not contain an exclusion or restriction of coverage for claims by one insured against another insured, if the exclusion or restriction is based solely on the fact that the claimant is an insured and there would otherwise be no coverage for the claim; claims for property damage to the CM's Work arising out of the products-completed operations hazard where the damaged Work or the Work out of which the damage arise was performed by a subcontractor; and claims related to roofing if the Work involves roofing. Coverage shall not eliminate the subcontractor exception to "damage to your work" exclusion.

12.2.8.5 The amount of such general liability insurance shall be minimum limits as follows:

CM Comprehensive General Liability Coverage, Bodily Injury and Property Damage	$1,000,000 each Occurrence Combined Single Limit

Insurance clauses for both BODILY INJURY AND PROPERTY DAMAGE shall be amended to provide coverage on an occurrence basis.

12.2.9 Automobile Liability Insurance

12.2.9.1 During the life of this Agreement, the CM shall take out and maintain automobile liability insurance as to ownership, maintenance, and use, including loading and unloading, of all owned, non-owned, leased or hired vehicles with limits of not less than:

Automobile Liability Coverages, Bodily Injury and Property Damage	$100,000 Each Occurrence Combined Single Limit

12.2.10 Subcontractor's General Liability and Property Damage Insurance

12.2.10.1 During the life of the subcontracts, the CM shall require each of its subcontractors to procure and maintain insurance of the type specified above or insure the activities of its subcontractors in the CM's policies in an amount that is appropriate for the work to be performed.

12.2.11 Owner's and Construction Manager's Protective Liability Insurance

12.2.11.1 The CM shall procure and furnish, as a cost of the Project, an Owner's and CM's Protective Liability Insurance Policy with the following minimum limits:

Bodily Injury Liability and Property Damage Liability	$1,000,000 each Occurrence Combined Single Limit

12.2.12 Umbrella Liability Insurance or Excess Liability Insurance

12.2.12.1 During the life of this Agreement, the CM shall take out and maintain umbrella liability or excess liability insurance. Coverage shall be excess of the Employers Liability, Commercial General Liability and Automobile Liability coverages required herein. The amount of such umbrella liability or excess liability insurance shall be minimum limits as follows:

Excess Liability, Umbrella Form	$3,000,000 each Occurrence Combined Single Limit

12.2.13 Builder's Risk Coverage

12.2.13.1 During the life of this Agreement, the CM shall take out and maintain a "Builder's Risk Policy" completed value form as a cost of the Project, issued to provide coverages on an "all risk" basis including theft and stored materials. This coverage shall not be lapsed or cancelled because of partial occupancy by the Owner prior to Substantial Completion of the Project. The policy shall have a deductible in an amount acceptable to the Owner and that meets the industry standards and any losses not covered by insurance shall be paid by the Owner out of unforeseen conditions and the Owner shall be listed as an additional insured. Builder's Risk coverage may be waived by the Owner on existing schools, sites or campuses.

12.3 Waiver of Subrogation

12.3.1 The Owner and the CM waive all rights against each other, for damages caused by perils covered by insurance provided under Article 12 to the extent covered by such insurance except such rights as they may have to the proceeds of such insurance held by the Owner and CM as trustees. The CM shall require similar waivers from all subcontractors and their subcontractors.

12.3.2 The Owner and CM waive all rights against each other for loss or damage to any equipment used in connection with the Project and covered by any property insurance. The CM shall require similar waivers from all subcontractors and their sub-subcontractors.

12.3.3 The Owner waives subrogation against the CM on all property and consequential loss policies carried by the Owner on adjacent properties and under property and consequential loss policies purchased for the Project after its completion.

12.3.4 If the policies of insurance referred to in this Article require an endorsement to provide for continued coverage where there is a waiver of subrogation, the Owner of such policies will cause them to be so endorsed, failure to obtain proper endorsement nullifies the waiver of subrogation.

ARTICLE 13
TERMINATION

13.1 Termination by the CM

13.1.1 If the Project is stopped for a period of thirty (30) days under an order of any court or other public authority having jurisdiction or as a result of an act of government other than the Owner, such as a declaration of a national emergency making materials unavailable, through no act or fault of the CM, upon seven (7) days written notice to the Owner, terminate this Agreement and request payment for all work executed, the CM Fee earned to date, and for any proven loss sustained upon any materials, equipment tools, construction equipment, and machinery, demobilization, restocking and cancellation expenses incurred by the CM associated with early termination of the Work.

13.2 Owner's Right to Perform CM's Obligations and Termination by Owner for Cause

13.2.1 If the CM fails to perform any of its obligations under this Agreement including any obligation it performs with its own forces, the Owner may, after seven (7) days without correction, produce a written notice to the CM allowing fourteen (14) days to cure the problem. If during the 14-day period, the CM fails to perform such obligations and make good such deficiencies, the CM's Fee shall be reduced by the cost required to cure the deficiencies.

13.2.2 If the CM is adjudged bankrupt, or if it makes a general assignment for the benefit of its creditors, or if a receiver is appointed on account of its insolvency, or if it persistently or repeatedly refuses or fails, except in case for which extension of time is provided, to supply enough properly skilled workmen or proper materials and fails to maintain an established schedule (failure to maintain schedule shall be defined as any activity on the critical path that falls forty-five (45) days or more behind schedule), which has been adopted by the Construction Team, or if it fails to make prompt payment to subcontractors for materials or labor, or persistently disregards laws, rules, ordinances, regulations, or orders of any public authority having jurisdiction, or otherwise materially breaches a provision of the Agreement or the Contract Documents, then the Owner may, without prejudice to any right or remedy and after giving the CM and its surety, if any, seven (7) days written notice, during which period CM fails to cure the violation, terminate CM's right to proceed under the Agreement in whole or in part and take possession of the site and of all materials, equipment, tools, construction equipment and machinery thereon owned by the CM, and may finish the Project by whatever method it may deem expedient. In such case, the CM shall not be entitled to receive any further payment until the Project is finished nor shall it be relieved from its obligations assumed under Article 16. Reasonable termination expenses incurred by the Owner may be deducted from any payments left owing the CM (excluding monies owed the CM for subcontract work).

13.2.3 If the CM refuses to allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, *Florida Statutes*, and made or received by the CM in conjunction with this Agreement, then the Owner may, without prejudice to any right or remedy and after giving the CM and its Surety, if any, seven (7) days written notice, during which period CM still fails to allow access, terminate the employment of the CM and take possession of the site and of all materials, equipment, tools, construction equipment and machinery thereon, owned by the CM, and may finish the Project by whatever method it may deem expedient. In such case, the CM shall not be entitled to receive any further payment until the Project is finished nor shall it be relieved from its obligations assumed under Article 7. Reasonable termination expenses incurred by the Owner may be deducted from any payments left owing the CM (excluding monies owed to the CM for subcontract work).

13.3 Termination by Owner Without Cause

13.3.1 If the Owner terminates this Agreement without cause, CM's recovery against Owner shall be limited to the unpaid portion of the Contract Amount earned through the date of termination, together with any withheld retainage. The Owner shall also pay the CM fair compensation, either by purchase or rental at the election of the Owner, for any equipment retained. In case of such termination of the Agreement, the Owner shall further assume and become liable for obligations, commitments and unsettled contractual

claims that the CM has previously undertaken or incurred in good faith in connection with said Project. The CM shall, as a condition of receiving the payments referred to in this Article, execute and deliver all such papers and take all such steps including the legal assignment of its contractual rights, as the Owner may require for the purpose of fully vesting in him the rights and benefits of the CM under such obligations or commitments. CM shall not be entitled to any other or further recovery against Owner, including damages or any anticipated profit on portions of the Work not performed.

13.3.2 After the establishment of the GMP or at the completion of Stage III or any time thereafter, if the final cost estimates or a change in funding makes the Project no longer feasible from the standpoint of the Owner, the Owner may terminate this Agreement and pay the CM its proportionate CM Fee due in accordance with Article 6 plus any costs incurred pursuant to Articles 7 and 8. CM shall not be entitled to any other or further recovery against Owner, including damages or any anticipated profit on portions of the Work not performed.

ARTICLE 14
ASSIGNMENT, GOVERNING LAW, CLAIMS AND DISPUTE RESOLUTION

14.1 Subject to other provisions hereof, the Agreement shall be binding upon and shall inure to the benefit of the successors and permitted assigns of the parties to the Agreement.

14.2 Neither the Owner nor the CM shall assign its interest in this Agreement without the written consent of the other except as to the assignment of proceeds.

14.3 This Agreement shall be interpreted under and its performance governed by the laws of the State of Florida, without regard to its choice of law provisions.

14.4 Claims and Disputes

14.4.1 The term "Claim" as used herein shall mean any and all demands made by one party hereunder against the other party, whether such demand be for money, time or the assertion of any right or obligation that arises out of the Contract Documents.

14.4.2 Initial notice of Claims by CM shall be made in writing to Owner and A/E within seven (7) calendar days after the first day of the event giving rise to such Claim or else CM shall be deemed to have waived the Claim. Written supporting data shall be submitted to Owner and A/E within thirty (30) calendar days after the occurrence of the event, unless Owner grants additional time in writing, or else CM shall be deemed to have waived the Claim.

14.4.3 CM shall proceed diligently with its performance as directed by Owner, regardless of any pending Claim, unless otherwise agreed to by Owner in writing. Owner shall continue to make payments of undisputed amounts due in accordance with the Contract Documents during the pendency of any Claim.

14.4.4 Prior to the initiation of any action or proceeding permitted by this Agreement to resolve disputes between the parties, the parties shall make a good faith effort to resolve any such disputes by negotiation between representatives with decision-making power. Failing resolution, and prior to the commencement of any litigation between the parties with respect to the Project, the parties shall attempt to resolve the dispute through mediation

before an agreed-upon Circuit Court Mediator certified by the State of Florida. Should either party fail to submit to mediation as required hereunder, the other party may request a court of law to order mediation under Section 44.102, *Florida Statutes*.

14.5 Litigation

14.5.1 Any litigation between Owner and CM (which term for the purposes of this Section shall include CM's surety), whether arising out of any Claim or arising out of the Agreement or any breach thereof, shall be brought, maintained and pursued only in the appropriate State courts of the State of Florida; and Owner and CM each hereby waive and renounce any and all rights and options which they, or either of them, have or might have to bring or maintain any such litigation or action in the Federal Court system of the United States or in any United States Federal District Court. The exclusive venue of any such litigation between Owner and CM shall lie and be only in the appropriate State courts of the State of Florida's Twelfth Judicial Circuit in and for Manatee County, Florida. CM consents and submits to the jurisdiction of any such court and agrees to accept service of process from the State of Florida in any matter to be submitted to any such court.

14.5.2 In the event of any Claim or dispute arising out of the Agreement, the prevailing party shall be entitled to recover from the non-prevailing party its costs, including reasonable attorneys' fees (including fees for determining the amount of fees due) at all levels, including at trial, on appeal, and in bankruptcy and post-judgment proceedings.

14.6 Waiver of Claims for Consequential Damages

14.6.1 The CM and Owner waive Claims against each other for consequential damages arising out of or relating to this Agreement. The mutual waiver includes: (1) damages incurred by Owner for rental expenses, for losses of use, income, profit, financing, business and reputation, and for loss of management or employee productivity or of the services of such persons; and (2) damages incurred by the CM for principal office expenses including the compensation of personnel stationed there, for losses of financing, business and reputation, and for loss of profit, except anticipated profit arising directly from the Work.

ARTICLE 15
FORCE MAJEURE, FIRE OR OTHER CASUALTY

15.1 Force Majeure

15.1.1 Delays in any performance by any party contemplated or required hereunder due to: fire, flood, earthquake or hurricane, acts of God, war, declaration of hostilities, revolt, civil strife, altercation or commotion, strike, labor dispute, or epidemic, or any law, order, proclamation, regulation or ordinance of any government or any subdivision thereof, or for any other similar cause to those enumerated, beyond the reasonable control and which with due diligence could not have been reasonably anticipated and without the fault or negligence of the party seeking excuse from performance, shall be deemed to be events of Force Majeure and any such delays shall be excused. In the event such party is delayed in the performance of any work or obligation pursuant to this Agreement for any of the events of Force Majeure and any such delays shall be excused. In the event such party is delayed in the performance of any work or obligation pursuant to this Agreement for any of the events of Force Majeure, the date for performance required or contemplated by

this Agreement shall be extended by the number of calendar days such party is actually delayed in such Substantial Completion.

15.1.2 The party seeking excuse for nonperformance on the basis of Force Majeure shall promptly give written notice to the Owner, if with respect to the CM, or to the CM, if with respect to the Owner, specifying its, actual or anticipated duration, and weekly thereafter, if such delay shall be continuing, written notice stating whether the condition continues and giving its actual or then anticipated duration. Each party seeking excuse from nonperformance on the basis for Force Majeure shall use its best efforts to rectify any condition causing a delay and will cooperate with the other party, except that neither party shall be obligated to incur any unreasonable additional costs and expenses, to overcome any loss of time that has resulted.

15.2 Casualty: Actions by Owner and CM

15.2.1 During the construction period, if the Project, or any part thereof, shall have been damaged or destroyed, in whole or in part, the CM shall promptly make proof of loss and Owner and CM shall proceed promptly to collect, or cause to be collected, all valid claims which may have arisen against insurers or others based upon such damage or destruction.

15.2.2 The CM shall diligently assess the damages or destruction and shall prepare an estimate of the cost, expenses and other changes, including normal and ordinary compensation to the CM, necessary for reconstruction of the Project substantially in accordance with the Project Plans and Specifications.

15.2.2.1 Within fifteen (15) days following satisfaction of the express conditions described in subsections (a), (b) and (c) below, CM covenants and agrees diligently to commence reconstruction and to complete the reconstruction or repair of any loss or damage by fire or other casualty to the Project to substantially the same size, floor area, cubic content and general appearance as prior to such loss or damage:

(a) Receipt by the Owner or the Trustee of the proceeds derived from collection of all valid claims against insurers or others based upon such damage or destruction; and receipt of other sums from any source such that the funds necessary to pay the Project Cost and any additions to the Project Cost necessitated for repair or reconstruction are available;

(b) Written agreement executed by the CM and the Owner, by amendment to this Agreement or otherwise, authorizing and approving the repair or reconstruction and any additions to the Project Amount necessitated thereby, including any required amendment to the GMP; and

(c) Final approval by the Owner of the Project plans and specifications for such repair or reconstruction and issuance of any required building permit.

15.3 Approval of Plans and Specifications

15.3.1 The Owner agrees to approve the plans and specifications for such reconstruction or repair if the reconstruction or repair contemplated by such plans and specifications is economically feasible, and will restore the Project, or the damaged portion thereof, to be substantially the same condition as prior to such loss or damage and such plans and specifications conform to the applicable laws, ordinance, codes and regulations. Owner agrees that all proceeds of any applicable insurance or other proceeds received by the Owner or the CM as a result of such loss or damage shall be used solely for payment of the costs, expenses, and other charges of the reconstruction or repair of the Project.

The Owner and the A/E, for the consideration set forth herein, agree as follows:

ARTICLE 1
RELATIONSHIP OF PARTIES, EXTENT OF THE AGREEMENT AND DEFINITIONS

1.1 The Construction Team

1.1.1 The CM, the Owner and the A/E comprise the Construction Team and shall work together from the start of Project planning through Final Completion and be available thereafter to the extent additional services are required.

1.1.2 The A/E shall provide leadership to the Construction Team on all matters relating to design.

1.1.3 The CM shall provide leadership to the Construction Team on all matters relating to construction.

1.2 The A/E

1.2.1 The A/E shall provide Owner with professional architectural and other professional services described herein in all phases of the Project to which this Agreement applies. All services to be provided by A/E pursuant to this Agreement shall be in conformance with the Scope of Work described herein and within **Exhibits A – D**.

1.2.2 The A/E accepts a relationship of trust and confidence established by the Owner and this Agreement. The A/E represents to Owner that it has expertise in the type of professional services that will be required for the Project. A/E agrees to provide its services using its professional skill and judgment, to use its best efforts to complete the Project in the most expeditious and economical manner consistent with the Owner's interest, and to work with the Owner and the CM to further the interests of the Owner.

1.2.3 A/E shall be acting as an independent contractor at all times during the Project and no provision in the Agreement shall create an employment or agency relationship between the parties.

1.2.4 A/E agrees to cooperate with CM with respect to CM's delivery of services to Owner. A/E agrees to incorporate, whenever practicable and consistent with good design, and after Owner's written approval, all suggestions or recommendations timely made by CM with respect to the Project design.

1.2.5 A/E agrees to obtain and maintain throughout the period of this Agreement all such licenses as are required to do business in the State of Florida and in Manatee County, Florida, including all licenses required by the respective state boards and other governmental

agencies responsible for regulating and licensing the professional services to be provided and performed by A/E pursuant to this Agreement.

1.2.6 A/E agrees that, when the services to be provided pursuant to the Agreement relate to a professional service which, under Florida Statutes, requires a license, certificate of authorization or other form of legal entitlement to practice such services, A/E shall employ and/or retain only qualified personnel to provide such services.

1.2.7 A/E agrees that its services provided pursuant to this Agreement shall be subject to Owner's reasonable review and approval. A/E agrees to comply, at its own expense, with all federal, state and local laws, applicable statutes, ordinances, codes, administrative orders, rules, regulations including utility regulations, local and state fire marshal requirements and the Florida Building Code, as well as the requirements of any governmental agencies which regulate or have jurisdiction over the Project or the services to be provided and performed by A/E including, but not limited to, any interlocal agreements between Owner and Manatee County. In the event of any conflicts in these requirements, A/E shall promptly notify Owner of such conflict in writing and utilize its best professional judgment to resolve the conflict. Nothing in this Agreement shall be construed to eliminate A/E's responsibility for compliance of its design, its documents and its services with applicable local, state and federal statutes and regulations and applicable professional practice standards. Owner's approval of the design documents in no way relieves A/E of its obligation to deliver complete and accurate documents necessary for successful construction of the Project.

1.2.8 Any Contract Documents, as defined herein, prepared or furnished by A/E that contain errors, conflicts or omissions will be promptly corrected by A/E at no additional cost to Owner. A/E shall promptly notify Owner in writing of any discovered discrepancies, inconsistencies, or missing information necessary to provide reasonably accurate and complete documents. If CM reports to A/E any conflicts, errors or discrepancies in the Contract Documents, including during construction, A/E shall provide a written interpretation or clarification of the Contract Documents within a reasonable time period so as to not delay the Project.

1.2.9 A/E shall be responsible for obtaining and thoroughly and carefully reviewing all surveys and geological reports with respect to the Project including those reports obtained and/or provided by Owner. A/E's design documents shall be consistent and coordinated with the information set forth in all such surveys and geological reports. In the event A/E has any questions or concerns about the contents of any such surveys or reports, A/E shall notify Owner in writing within ten (10) days of A/E's receipt of any such surveys or geological reports. A/E and Owner will attempt to mutually resolve any such questions or concerns.

1.2.10 A/E agrees, for both itself and all of its Consultants, to comply with all of Owner's rules and regulations with respect to safety and security at Owner's facilities as such rules and regulations may be modified and amended by Owner from time to time.

1.2.11 Key representatives for the A/E are shown on **Exhibit A** and shall not be revised without the written approval of the Owner such approval not to be unreasonably withheld. The A/E representatives who are designated are authorized and responsible to act on behalf of A/E with respect to directing, coordinating and administering all aspects of the services to be provided and performed under this Agreement. By execution of this Agreement acknowledges that the key representatives identified on **Exhibit A** have full authority to bind and obligate A/E on all matters arising out of or relating to this Agreement.

1.2.12 A/E Consultants

1.2.12.1 The services to be performed pursuant to this Agreement shall be performed by the A/E and A/E's consultants identified in **Exhibit A** ("**Consultants**") unless otherwise authorized in writing by Owner. The employment of, contract with, or use of the services of any other person or firm by A/E, as independent consultant or otherwise, shall be subject to the prior written approval of Owner. No provision of this Agreement shall, however, be construed as constituting an agreement between Owner and any such other person or firm. Nor shall anything contained herein be deemed to give any such party or any third party any claim or right of action against Owner beyond such as may otherwise exist without regard to this Agreement. Notwithstanding the foregoing, Owner shall enjoy the same benefits and rights as to A/E's Consultants as A/E enjoys with respect to A/E's Consultants and all of A/E's agreements with A/E's Consultants shall be in writing, signed by both parties and shall include the following provision: "Owner is intended to be an express, recognized third-party beneficiary of this Agreement."

1.2.12.2 Should Owner terminate this Agreement with A/E, Owner shall, upon Owner's request, obtain assignment of those of the Consultant's agreement(s) with a different A/E elected by Owner. Each of A/E's agreements with the Consultants shall specifically provide that Owner shall only be responsible to the Consultants for those obligations of A/E that accrue subsequent to Owner's exercise of its right to take an assignment of such agreement. Each of A/E's agreements with Consultants shall require or provide that: (a) nothing in the Contract Documents will create a contractual relationship between Owner and the Consultant unless Owner elects to accept contingent assignment of the agreement as provided herein, and (b) the Consultant shall resolve all disputes involving Owner in the same manner as provided in Article 13 below.

1.2.12.3 At Owner's request, A/E shall provide to Owner copies of all of A/E's agreements with A/E's Consultants.

1.2.12.4 A/E shall be responsible to Owner for the acts and omissions of A/E's employees and Consultants arising out of or resulting from the performance of services hereunder including those that that do not conform to the A/E's standard of care, would constitute a breach of this Agreement if the act or omission were committed by A/E, or are otherwise wrongful or unlawful.

1.3 Extent of Agreement

1.3.1 This Agreement is complementary to the drawings, specifications, conditions of the contract (General, Supplementary and other Conditions, if applicable), recordings of presentations and interviews (including the content of the audio/visual oral presentation made to the Professional Selection Committee), and, together with them, comprises the full and entire Agreement between the Owner and the A/E and supersedes all prior negotiations, representations or agreements. This Agreement shall not be superseded by any provisions or other documents for construction.

1.3.2 No modification or amendment to the Agreement shall be valid or binding upon the Owner and the A/E unless in writing and executed by the parties intending to be bound by it.

1.3.3 The headings contained within this Agreement are for the purpose of convenience only and shall not be deemed to expand, limit or change the provisions in such articles, sections, paragraphs, schedules, exhibits and/or attachments hereto.

1.3.4 The Owner and A/E acknowledge they have carefully reviewed this Agreement and have been advised by counsel of their choosing with respect thereto, and that they understand its contents and agree that this Agreement shall not be construed more strongly against any party, regardless of who is responsible for its preparation. The remedies granted to Owner in the Agreement are cumulative and not in limitation of any other rights and remedies of Owner at law or in equity.

1.3.5 This Agreement may be simultaneously executed in several counterparts, each of which shall be an original and all of which shall constitute one and the same instrument.

1.3.6 All representations and covenants of the parties shall survive the expiration of the Agreement. All of A/E's representations and indemnifications made in or required by the Agreement, as well as all continuing obligations indicated in the Agreement, will survive final payment to A/E for its services and termination or completion of the Agreement.

1.3.7 This Agreement shall not be recorded.

1.3.8 Where necessary to the context hereof, the singular shall include the plural and the plural shall include the singular and any one gender may include any other gender.

3.1.1 Services to be rendered by A/E shall be commenced subsequent to the execution of this Agreement and upon written "Notice to Proceed" from Owner for all or any designated portion of the Project and shall be performed and completed in accordance with the terms of this Agreement. Upon Owner's acceptance of the Schematic Design Documents, the Owner and A/E shall mutually agree upon a Design Schedule for the performance of A/E's services and timing of A/E's deliverables as required pursuant to the terms of this Agreement. The Design Schedule shall include allowances for periods of time required for Owner's review, for review by the CM if required, and for approval of submissions by the authorities having jurisdiction over the Project. Except as provided within Article 4 or elsewhere in the Agreement, A/E expressly acknowledges and agrees that it shall receive no damages for delay. A/E's sole remedy, if any, against Owner will be the right to seek an extension of time to perform its services; provided, however, the granting of any such time extension shall not be a condition precedent to the aforementioned "No Damage for Delay" provision.

3.1.4 A/E acknowledges that timely delivery of A/E's deliverables required under this Agreement and timely responses to questions, required revisions to Contract Documents, submittals, and requests for information ("RFIs") or clarification, is critical to the Project. A/E's actions in reviewing and responding to the items described within this Section shall be taken in accordance with the timeframes specified in this Agreement, or in the deliverable or submittal schedule approved by Owner or, in the absence of a timeframe specified in this Agreement or an approved schedule, with reasonable promptness, but in no event more than five (5) business days after A/E's receipt of the question, submittal, RFI, or request for clarification or revisions to Contract Documents.

3.2 CM at Risk Delivery Process

3.2.1 The A/E agrees to provide professional design and construction administration services while operating within a modified Construction Management at Risk delivery process for the Project as set forth within this Agreement.

3.2.2 Stage I – District Project Planning

3.2.2.1 By entering into this Agreement, the A/E agrees to the Project description, the Total Project Budget, the Substantial Completion date and the Project Schedule as set forth herein.

3.2.2.2 A/E shall review Owner's program documents, including the School District of Manatee County Planning Manual for Schools & Ancillary Spaces (the "**Planning Manual**"), Owner's design objectives and constraints including evaluation of energy efficient design alternatives, space requirements, capacity and performance requirements, any budgetary limitations not addressed with the Scope of Work, and other requirements set forth in the Contract Documents, to ascertain the requirements of the Project and shall agree that it will meet the design requirements set forth therein. The A/E agrees to assist the Owner in developing revisions to the Planning Manual, as necessary, that incorporate standard construction concepts, techniques and building materials. The A/E shall develop Educational Specifications in conjunction with the Owner.

3.2.2.3 The A/E agrees that the Project is necessary, the site is appropriate and that the Project can be designed and successfully constructed within the limits of Owner's Construction Services Budget and Owner's program constraints.

3.2.3 Stage II – Project Budget Endorsement

3.2.3.1 The first ranked A/E and CM shall:

(a) Review the Owner's Project Scope, Total Project Budget, Project Schedule and level of quality required; and,

(b) Provide a Letter of Commitment and School Board presentation publicly, if requested, endorsing the Project Scope, Total Project Budget, Project Schedule and level of quality required as adequate and appropriate.

3.2.3.2 Monthly Reports

(a) During Stage II and until the Notice to Proceed to the CM is issued, and not later than the first of each month therein, the A/E shall submit to the Owner a complete and descriptive status report and a forecasted design and development completion schedule.

(b) The A/E shall take minutes of all meetings held with the Owner and CM during Stage II and through issuance of a Notice to Proceed to the CM and shall provide copies of the minutes to the Owner and CM within ten (10) calendar days following such meetings or prior to the next scheduled meeting.

3.2.3.3 Project Schedule

(a) The CM will prepare and submit a preliminary Project Schedule for Owner and A/E review and acceptance, which indicates all relevant activities during Stages II, III and IV of the delivery process.

(b) The Project Schedule will serve as the framework for the development of all future detailed schedules and the CM shall produce and update the Project Schedule monthly throughout the Project.

(c) The Project Schedule shall indicate proposed activities, dependencies, durations, milestone dates for receipt and approval of pertinent information, submittal of a GMP Proposal, preparation and processing of shop drawings, use of samples, and delivery of materials or equipment requiring long-lead time procurement.

(d) The Project Schedule shall also coordinate the CM services, the A/E services and the Owner responsibilities.

(e) If preliminary Project dates provided in the Project Schedule, which have been previously approved, are later found to be inaccurate, the CM will make appropriate recommendations to Owner's Project Director and the A/E.

3.2.3.4 Construction Cost Estimate

(a) The CM shall prepare, for Owner and A/E review and approval, a detailed estimate of Construction costs ("**Construction Cost Estimate**"), which shows the various elements of the Project and costs for construction of same. A/E shall work closely with CM in the CM's preparation of the Construction Cost Estimate.

(b) The CM will update and issue the Construction Cost Estimate at the completion of each Phase of Stage III Services, including the submission of the GMP Proposal, as follows:

(1) Phase I Schematic Design – with more detail with supporting data

(2) Phase II Design Development – with systems selected

(3) Phase III Construction Documents:

i. 50% Drawings – only final details missing and establishment of preliminary GMP; and

ii. 100% Drawings – issuance of final GMP Proposal

(c) The Construction Cost Estimate shall be reviewed with the Owner's Project Director and the A/E. If Construction Costs and/or any estimate exceed previously approved estimates or the Owner's Construction Services Budget, the CM shall make appropriate recommendations to the Owner and A/E for corrective action and propose value engineering and/or alternates for Owner and A/E consideration.

8.3 Payments for Other Additional Services of the A/E as defined in Article 4 as a multiple of actual payroll costs and for reimbursable expenses as defined in Article 7, shall be made monthly upon presentation of a detailed invoice satisfactory to the Owner.

8.4 Payments Withheld

8.4.1 No deductions shall be made from the A/E's compensation on account of penalty, liquidated damages or other sums merely because payment is withheld from the CM, or because of changes in the construction cost other than those for which the A/E is held legally liable.

8.5 Request for Payment

8.5.1 A/E's request for payment must be presented on the Construction Services Form required by the Owner in the office of the Project Director no later than the 25th of each month. The A/E and the Project Director shall review the payment request, approve, as appropriate, and forward to the Owner by the first of the month following the month in which the A/E's request for payment was presented. The mutual waiver includes, but is not limited to: (1) damages incurred by Owner for rental expenses, for losses of use, income, profit, financing, business and reputation, and for loss of management or employee productivity or of the services of such persons; and (2) damages incurred by the A/E for loss of business and reputation, and for loss of profit, except anticipated profit arising directly from the work.

Owner's review, inspection, acceptance, or payment for any of A/E's services shall not constitute acceptance of services that fail to

conform to the requirements of this Agreement, unless Owner expressly accepts such non-conforming services in writing.

8.6 Project Suspension or Abandonment

8.6.1 If the Project is suspended or abandoned in whole or part for more than three (3) months due to no fault of the A/E, the A/E shall be paid for all services performed prior to receipt of written notice from the Owner of such suspension or abandonment, including reimbursable expenses due. When the Project is resumed, the Architect shall be compensated for any actual expenses incurred in the interruption and resumption of the A/E's services and the time schedules shall be equitably adjusted. Owner shall be under no obligation to purchase such insurance, nor shall it be responsible for the coverages purchased or the insurance company/companies used. The decision of Owner to purchase such insurance coverages shall in no way be construed to be a waiver of its rights under this Agreement.

It is the intent of the parties that A/E's indemnification obligations comply fully with Section 725.08, *Florida Statutes*, including any amendments, in all respects. A/E shall respond within fifteen (15) calendar days to the tender of any indemnity claim for defense and/or indemnity by an Indemnitee, unless the Indemnitee agrees in writing to an extension of this time. The defense provided to the Indemnitees by A/E shall be by well qualified, adequately insured and experienced legal counsel acceptable to Owner. Dear Mr. Medwetz,

Our base proposal for the above referenced project includes basic Construction Administration Services in accordance with our Contract and District Standards for a typical 18-month construction duration as would be anticipated for a project of this scope and budget. Should the duration of construction exceed this timeframe, we would respectfully request an opportunity to submit for additional services compensation in the amount of $28,000 per month based on job costs we are currently seeing for similar projects.

1.1.1 The CM, the Owner and the A/E comprise the Construction Team and shall work together from the start of Project planning through Final Completion and be available thereafter to the extent additional services are required.

1.1.2 The A/E shall provide leadership to the Construction Team on all matters relating to design.

1.1.3 The CM shall provide leadership to the Construction Team on all matters relating to construction.

1.2 The A/E

1.2.1 The A/E shall provide Owner with professional architectural and other professional services described herein in all phases of the Project to which this Agreement applies. All services to be provided by A/E pursuant to this Agreement shall be in conformance with the Scope of Work described herein and within **Exhibits A – D**.

1.2.2 The A/E accepts a relationship of trust and confidence established by the Owner and this Agreement. The A/E represents to Owner that it has expertise in the type of professional services that will be required for the Project. A/E agrees to provide its services using its professional skill and judgment, to use its best efforts to complete the Project in the most expeditious and economical manner consistent with the Owner's interest, and to work with the Owner and the CM to further the interests of the Owner.

1.2.3 A/E shall be acting as an independent contractor at all times during the Project and no provision in the Agreement shall create an employment or agency relationship between the parties.

1.2.4 A/E agrees to cooperate with CM with respect to CM's delivery of services to Owner. A/E agrees to incorporate, whenever practicable and consistent with good design, and after Owner's written approval, all suggestions or recommendations timely made by CM with respect to the Project design.

1.2.5 A/E agrees to obtain and maintain throughout the period of this Agreement all such licenses as are required to do business in the State of Florida and in Manatee County, Florida, including all licenses required by the respective state boards and other governmental agencies responsible for regulating and licensing the professional services to be provided and performed by A/E pursuant to this Agreement.

1.2.6 A/E agrees that, when the services to be provided pursuant to the Agreement relate to a professional service which, under Florida Statutes, requires a license, certificate of authorization or other form of legal entitlement to practice such services, A/E shall employ and/or retain only qualified personnel to provide such services.

1.2.7 A/E agrees that its services provided pursuant to this Agreement shall be subject to Owner's reasonable review and approval. A/E agrees to comply, at its own expense, with all federal, state and local laws, applicable statutes, ordinances, codes, administrative orders, rules, regulations including utility regulations, local and state fire marshal requirements and the Florida Building Code, as well as the requirements of any governmental agencies which regulate or have jurisdiction over the Project or the services to be provided and performed by A/E including, but not limited to, any interlocal agreements between Owner and Manatee County. In the event of any conflicts in these requirements, A/E shall promptly notify Owner of such conflict in writing and utilize its best professional judgment to resolve the conflict. Nothing in this Agreement shall be construed to eliminate A/E's responsibility for compliance of its design, its documents and its services with applicable local, state and federal statutes and regulations and applicable professional practice standards. Owner's approval of the design documents in no way relieves A/E of its obligation to deliver complete and accurate documents necessary for successful construction of the Project.

1.2.8 Any Contract Documents, as defined herein, prepared or furnished by A/E that contain errors, conflicts or omissions will be promptly corrected by A/E at no additional cost to Owner. A/E shall promptly notify Owner in writing of any discovered discrepancies, inconsistencies, or missing information necessary to provide reasonably accurate and complete documents. If CM reports to A/E any conflicts, errors or discrepancies in the Contract Documents, including during construction, A/E shall provide a written interpretation or clarification of the Contract Documents within a reasonable time period so as to not delay the Project.

A/E's design documents shall be consistent and coordinated with the information set forth in all such surveys and geological reports. In the event A/E has any questions or concerns about the contents of any such surveys or reports, A/E shall notify Owner in writing within ten (10) days of A/E's receipt of any such surveys or geological reports. A/E and Owner will attempt to mutually resolve any such questions or concerns.

1.2.10 A/E agrees, for both itself and all of its Consultants, to comply with all of Owner's rules and regulations with respect to safety and security at Owner's facilities as such rules and regulations may be modified and amended by Owner from time to time.

1.2.11 Key representatives for the A/E are shown on **Exhibit A** and shall not be revised without the written approval of the Owner such approval not to be unreasonably withheld. By execution of this Agreement acknowledges that the key representatives identified on **Exhibit A** have full authority to bind and obligate A/E on all matters arising out of or relating to this Agreement.

1.2.12 A/E Consultants

1.2.12.1 The services to be performed pursuant to this Agreement shall be performed by the A/E and A/E's consultants identified in **Exhibit A** ("**Consultants**") unless otherwise authorized in writing by Owner. The employment of, contract with, or use of the services of any other person or firm by A/E, as independent consultant or otherwise, shall be subject to the prior written approval of Owner. No provision of this Agreement shall, however, be construed as constituting an agreement between Owner and any such other person or firm. Nor shall anything contained herein be deemed to give any such party or any third party any claim or right of action against Owner beyond such as may otherwise exist without regard to this Agreement. Notwithstanding the foregoing, Owner shall enjoy the same benefits and rights as to A/E's Consultants as A/E enjoys with respect to A/E's Consultants and all of A/E's agreements with A/E's Consultants shall be in writing, signed by both parties and shall include the following provision: "Owner is intended to be an express, recognized third-party beneficiary of this Agreement."

Each of A/E's agreements with the Consultants shall specifically provide that Owner shall only be responsible to the Consultants for those obligations of A/E that accrue subsequent to Owner's exercise of its right to take an assignment of such agreement. Each of A/E's agreements with Consultants shall require or provide that: (a) nothing in the Contract Documents will create a contractual relationship between Owner and the Consultant unless Owner elects to accept contingent assignment of the agreement as provided herein, and (b) the Consultant shall resolve all disputes involving Owner in the same manner as provided in Article 13 below.

1.2.12.3 At Owner's request, A/E shall provide to Owner copies of all of A/E's agreements with A/E's Consultants.

1.2.12.4 A/E shall be responsible to Owner for the acts and omissions of A/E's employees and Consultants arising out of or resulting from the performance of services hereunder including those that that do not conform to the A/E's standard of care, would constitute a breach of this Agreement if the act or omission were committed by A/E, or are otherwise wrongful or unlawful.

1.3 Extent of Agreement

1.3.1 This Agreement is complementary to the drawings, specifications, conditions of the contract (General, Supplementary and other Conditions, if applicable), recordings of presentations and interviews (including the content of the audio/visual oral presentation made to the Professional Selection Committee), and, together with them, comprises the full and entire Agreement between the Owner and the A/E and supersedes all prior negotiations, representations or agreements. This Agreement shall not be superseded by any provisions or other documents for construction.

1.3.2 No modification or amendment to the Agreement shall be valid or binding upon the Owner and the A/E unless in writing and executed by the parties intending to be bound by it.

1.3.3 The headings contained within this Agreement are for the purpose of convenience only and shall not be deemed to expand, limit or change the provisions in such articles, sections, paragraphs, schedules, exhibits and/or attachments hereto.

1.3.4 The Owner and A/E acknowledge they have carefully reviewed this Agreement and have been advised by counsel of their choosing with respect thereto, and that they understand its contents and agree that this Agreement shall not be construed more strongly against any party, regardless of who is responsible for its preparation. The remedies granted to Owner in the Agreement are cumulative and not in limitation of any other rights and remedies of Owner at law or in equity.

1.3.5 This Agreement may be simultaneously executed in several counterparts, each of which shall be an original and all of which shall constitute one and the same instrument.

1.3.6 All representations and covenants of the parties shall survive the expiration of the Agreement. All of A/E's representations and indemnifications made in or required by the Agreement, as well as all continuing obligations indicated in the Agreement, will survive final payment to A/E for its services and termination or completion of the Agreement.

1.3.7 This Agreement shall not be recorded.

Except as provided within Article 4 or elsewhere in the Agreement, A/E expressly acknowledges and agrees that it shall receive no damages for delay. A/E's sole remedy, if any, against Owner will be the right to seek an extension of time to perform its services; provided, however, the granting of any such time extension shall not be a condition precedent to the aforementioned "No Damage for Delay" provision.

3.1.4 A/E acknowledges that timely delivery of A/E's deliverables required under this Agreement and timely responses to questions, required revisions to Contract Documents, submittals, and requests for information ("RFIs") or clarification, is critical to the Project. (n) Based on such observations at the site and on the Applications for Payment submitted by CM, A/E shall recommend the amount owing to CM and shall execute and issue the Certificates of Payment initially completed by CM for such amounts. The issuance of Certificate of Payment shall constitute a representation by A/E to Owner that: (i) the work has progressed to the point indicated; (ii) that to the best of A/E's knowledge, information and belief, the quality of the work is in accordance with the Construction Documents subject to minor deviations from the Construction Documents correctable prior to completion, and to any specific qualifications stated in the Certificate of Payment; and (iii) CM is entitled to payment in the amount certified.

(q) A/E shall be, in the first instance, the interpreter of the requirements of the Contract Documents. A/E shall render opinions on all claims of CM relating to the execution and progress of the work and on all other matters or questions related thereto. A/E's decisions in matters relating to artistic effect shall be final if consistent with the intent of the Contract Documents, subject to Owner's written approval. A/E shall review for comment or approval any and all proposal requests, supplemental drawings and information, proposed substitutions, value engineering suggestions and proposed Change Orders to Owner's contract with CM. The A/E's decisions on other claims, including those in question between Owner and CM, shall be subject to claims provisions in this Agreement.

(r) The A/E shall have authority to reject work in nonconformance with the Contract Documents. Whenever, in the A/E's reasonable opinion, it becomes necessary or advisable to ensure the proper implementation or the intent of the Contract Documents, subject to Owner' prior written approval, the A/E shall have the authority to require special inspection or testing of any work whether or not such work be fabricated, installed, or completed. The A/E shall take such action only after consultation with the CM and Project Director.

(s) In the event of a disagreement between the CM and the A/E regarding acceptability of work and conformance with the plans and specifications, the Owner, in its sole discretion shall have the right to determine such acceptability and/or conformance.

issue a Certificate of Substantial Completion on the form required by the Owner including a list of punch list items to be completed or corrected. A/E shall review and comment upon, and supplement as appropriate, the punch lists prepared by CM. The A/E shall notify CM in writing of work not complete by providing the final punch list to CM within seven (7) business days after CM has achieved Substantial Completion. CM shall then prepare a schedule for completion of the items indicating completion dates for Owner's and A/E review.

(x) Upon notice from CM, A/E shall conduct a final inspection to determine the date of Final Completion and assist Owner in final acceptance of Project. If requested by Owner, A/E shall issue the Certificate of Final Inspection on the form required by the Florida Department of Education, Office of Educational Facilities, which shall indicate A/E's final acceptance of the Project.

(y) The A/E shall assist the CM in receiving and forwarding to the Owner all closeout documents including required guarantees, warranties, affidavits, releases, consent of surety to final payment, bonds, waivers, manuals, as-built drawings, and maintenance books. The A/E shall review for compliance with CM's obligation under the Contract Documents, all operation and maintenance manual submittals, prior to submittal to Owner.

A/E shall provide Owner with: one (1) hard copy, one (1) electronic copy in AutoCAD, and one (1) electronic copy in PDF.

ARTICLE 4

If the Owner authorizes any of the services as set forth within Article 4, in writing, Owner shall pay A/E for the authorized services as a lump sum or as a multiple of actual payroll costs as determined by the Owner:

4.1.1 Services due to Owner-approved changes in general Project Scope or requirements after approval of Stage III – Project Design and Development: Phase I – Schematic Drawings;

4.1.2 Revising previously approved drawings or specifications to accomplish Owner-approved changes;

4.1.3 Providing detailed cost estimates;

4.1.4 Preparing documents for Change Orders when required by the Owner;

4.1.6 Arranging for work to proceed should the CM default due to delinquency or insolvency; and

4.1.7 Providing prolonged contract administration and observation should the Contract Time be exceeded by 25% due to no fault of the A/E. 4.2 Other Additional Services must be approved in writing in the form of a written and executed amendment to this Agreement prior to starting such services. Owner shall not be responsible for the costs of Other Additional Services commenced without Owner's express prior written approval. Failure to obtain prior written approval for Other Additional Services waives A/E's claim that it performed Other Additional Services and, instead, such services will be deemed to be part of the Basic Services required of A/E hereunder.

4.3 Fees for additional services required to correct, modify, alter or change any work as a result of the A/E's failure to properly provide Contract Documents that reflect Owner's Project scope, time, quality and budget are not considered valid extra expenses under the terms of this Agreement.

The A/E does not warrant that bids or negotiated prices will not vary from the proposed Total Project Budget established or approved by the Owner, or estimates or cost evaluations provided by the CM.

Owner shall not be responsible for the costs of reimbursable expenses incurred by A/E without Owner's express prior written approval. The following are considered legitimate reimbursable expenses and will be reimbursed by the Owner:

7.1.1 Transportation and living expenses of A/E employees when traveling in connection with services other than those defined in Article 3;

Payment shall occur on the 10th of the month following the A/E's issuance of request for payment or the following business day should the 10th fall on a weekend or national holiday.

8.5.2 A/E's acceptance of final payment shall constitute a full waiver of any and all claims by it against Owner arising out of this Agreement or otherwise related to the Project, except those previously made in writing and identified by A/E as unsettled at the time of the final payment. 13.1.4 A/E shall proceed diligently with its performance of services as directed by Owner, regardless of any pending Claim, unless otherwise agreed to by Owner in writing. Owner shall continue to make payments of undisputed amounts due in accordance with this Agreement during the pendency of any Claim.

It is the intent of the parties that A/E's indemnification obligations comply fully with Section 725.08, *Florida Statutes*, including any amendments, in all respects. A/E's indemnification obligations in this Agreement are in addition to and not in lieu of any common law indemnification to which any of the Indemnitees are entitled.

the claimant's description of its claim reasonably appears to be within A/E's indemnification obligation. A/E's obligation to the Indemnitee(s) shall be at A/E's sole expense. A/E shall respond within fifteen (15) calendar days to the tender of any indemnity claim for defense and/or indemnity by an Indemnitee, unless the Indemnitee agrees in writing to an extension of this time. The defense provided to the Indemnitees by A/E shall be by well qualified, adequately insured and experienced legal counsel acceptable to Owner. By proceeding to an indemnity claim, A/E shall not be deemed to have admitted to an obligation to provide indemnification and defense and A/E may provide a defense under a written reservation of rights.

1.1.2.3 CM shall be acting as an independent contractor at all times during the performance of the Work and no provision in the Agreement shall create an employment or agent relationship between the parties.

1.1.2.4 CM represents and warrants that it is authorized to do business in Florida where the Project is located and is properly licensed by all necessary governmental and public and quasi-public authorities having jurisdiction over it and over the Work and the Project and that it is familiar with the local and special conditions under which the Work is to be performed and has, or prior to the submission of the GMP Proposal will have, correlated onsite observations with the requirements of the Contract Documents.

1.1.2.5 Notwithstanding anything to the contrary in the Contract Documents, CM is fully responsible to Owner for all duties of CM under the Contract Documents, including the construction means, methods, techniques, sequences and procedures in performing the Work, for initiating, maintaining and

ARTICLE 2
CM SERVICES

2.1 The CM agrees to provide construction management services while operating within a modified Construction Management at Risk delivery process for the Project as set forth within this Agreement. The modified Construction Management at Risk delivery process includes:

2.1.1 Stage I – District Project Planning

2.1.1.1 The CM agrees to the Project Description and Scope of Work, the Construction Services Budget, the Substantial Completion date and the Project Schedule as set forth herein. The CM further agrees that the site is appropriate and that the Construction Services Budget is adequate for performance of the Work. The CM agrees that the level of quality of the Project is defined through the School District of Manatee County Planning Manual for Schools & Ancillary Spaces (the "**Planning Manual**") and other requirements set forth in the Contract Documents.

2.1.2 Stage II – Project Budget Endorsement

2.1.2.1 The first ranked A/E and CM shall:

(a) Review the Owner's Project Scope, budget, schedule and quality; and

(b) Provide a Letter of Commitment and School Board presentation publicly, if requested, endorsing the Project Scope, budget, schedule and quality as adequate and

appropriate.

2.1.2.2 Project Schedule

(a) The CM shall prepare and submit a preliminary Project Schedule for Owner and A/E review and acceptance, which indicates all relevant activities during Stages II, III and IV of the delivery process.

(b) The Project Schedule will serve as the framework for the development of all future detailed schedules and shall be produced and updated monthly throughout the Project.

(c) The Project Schedule shall indicate proposed activities, dependencies, durations, milestone dates for receipt and approval of pertinent information, submittal of a GMP Proposal, preparation and processing of shop drawings, use of samples, and delivery of materials or equipment requiring long-lead time procurement.

(d) The Project Schedule shall also coordinate the CM services, the A/E services and the Owner responsibilities.

(e) If preliminary Project dates provided in the Project Schedule, which have been previously approved, are later found to be inaccurate, the CM will make appropriate recommendations to Owner's Project Director and A/E.

2.1.2.3 CM shall familiarize itself thoroughly with the evolving plans and specifications and shall follow the development of design from Schematic Design through Construction Documents Phase. The CM is not responsible for ascertaining that the Drawings and Specifications are in accordance with applicable laws, statutes, ordinances, building codes, or other regulations. However, if CM discovers a conflict, error or discrepancy in the Contract Documents, including during performance of the Work, CM shall report same to A/E and Owner in writing within five (5) days of discovering same, and before proceeding with the Work affected, shall obtain a written interpretation or clarification from A/E.

2.1.2.4 Construction Cost Estimate

(a) CM shall prepare, for Owner and A/E review and approval, a detailed estimate of Construction Costs ("**Construction Cost Estimate**"), which shows the various elements of the Project and costs for construction of same.

(b) The CM shall update and issue the Construction Cost Estimate at the completion of each Phase of Stage III services, including the submission of the GMP Proposal, as follows:

(1) Phase I Schematic Design – more detail with supporting data

(2) Phase II Design Development – systems selected

(3) Phase III Construction Documents:

i. 50% Drawings – only final details missing and establishment of preliminary GMP

ii. 100% Drawings – issuance of final GMP Proposal

(c) CM acknowledges that an accurate Construction Cost Estimate is critical to Owner's ability to establish and verify its Total Project Budget and, therefore, CM shall work closely with A/E and use its best skill and judgment as a contractor familiar with the construction industry in the locality of the Project in preparing its Construction Cost Estimate.

(d) If Construction Costs and/or any estimate exceed previously approved estimates or the Owner's Construction Services Budget, the CM shall make appropriate recommendations to the Owner and A/E for corrective action and propose value engineering and/or alternates for Owner and A/E consideration.

(e) The Construction Cost Estimate shall be reviewed with the Owner's Project Director and the A/E. Any recommendations and advice by the CM concerning design alternatives or value engineering shall be subject to the approval of the Owner's Project Director and the A/E.

2.1.2.5 Stage III – Project Design and Development

(a) At the completion of Stage III: Phase I – Schematic Design, the CM shall:

(1) Provide a second Letter of Commitment and School Board presentation publicly, if requested, stating that the Schematic Design is in conformance with the Project Scope of Work and that the Owner's:

i. Project Schedule continues to be appropriate;

ii. Project level of quality is being achieved; and

iii. Construction Services Budget is adequate.

(2) Or, have its services terminated in accordance with Article 13. If the Agreement is terminated, Phase I documents become the property of the Owner, which may be used or changed by the Owner, solely for the purpose of completing the Project.

(b) At the completion of Stage III: Phase II – Design Development, the CM shall:

(1) Provide a third Letter of Commitment and School Board presentation publicly stating that with professional assistance and appropriate use of value engineering, the Design Development is in conformance with the Project Scope of Work and that the:

i. Project Schedule continues to be appropriate;

ii. Project level of quality is being achieved; and

iii. Construction Services Budget is adequate.

(2) Or, provide evidence prohibiting the commitment.

(c) The CM shall seek to develop subcontractor interest in the Project and shall furnish to the Owner and A/E a list of possible subcontractors and suppliers that may

furnish material or equipment for each principal portion of the Work. The Owner and A/E will reply in writing to the CM if there are any objections to a subcontractor or supplier.

(d) Advertising, Bidding and Awarding of Contracts shall be completed per State Requirements for Educational Facilities (SREF), Section 4.2(2).

(e) At 100% completion of Stage III: Phase III – Construction Documents, the CM shall either:

(1) Provide a detailed GMP less than or equal to the Construction Services Budget; and mobilize construction personnel and proceed with Stage IV – Project Construction; or

(2) Provide a detailed GMP greater than the Construction Services Budget after which the Owner shall grant the CM thirty (30) calendar days from 100% completion of Stage III to return with a GMP less than or equal to the Construction Services Budget.

(f) If the CM returns after thirty (30) calendar days with a GMP that exceeds the Construction Services Budget, at the recommendation of the Superintendent of the School District of Manatee County, the Owner may:

(1) Modify the Construction Services Budget thereby increasing the Total Project Budget without additional cost to the Owner including for A/E fees; or

(2) Terminate the CM Agreement allowing the next ranked construction management firm to provide a GMP within the Construction Services Budget and begin construction. If the CM Agreement is terminated under this section, CM's recovery against Owner shall be limited to that portion of the Contract Amount earned through the date of termination together with any retainage withheld and reasonable termination expenses incurred, but CM shall not be entitled to any other or further recovery against Owner, including damages or any anticipated profit on portions of the Work not performed.

2.1.2.6 Guaranteed Maximum Price (GMP) Proposal

(a) When the Owner determines that the drawings and specifications are 100% complete, the CM shall provide a GMP Proposal.

(b) The GMP Proposal shall include the CM Fee and represent the sum total of all costs associated with completing the Work. The GMP Proposal shall also include an itemized statement of CM's General Conditions expenses for the Project, which, once agreed to by Owner shall be specifically included within the GMP Amendment. The CM's General Conditions expenses are to be paid as the Work progresses with each Application for Payment based on percentage of completion of Work. The itemized statements shall be in form and substance and with such detail as may be required by Owner. General Conditions expenses shall each be line items in the Schedule of Values to be included within the GMP Amendment.

(c) The GMP Proposal shall also include a proposed Construction Schedule, as defined herein, which, once approved, shall be attached to the GMP Amendment.

(d) If the Owner determines the drawings and specifications are not 100% complete and a GMP is required to maintain the Project Schedule, the CM shall provide line items within the GMP Proposal for further development of drawings and specifications by the A/E, which shall not include changes in scope, systems, materials or equipment.

(e) The GMP Proposal shall include a written statement thoroughly explaining the foundation on which the GMP is based including, but not limited to the following:

(1) A complete list of all drawings and specifications used to prepare the GMP;

(2) All addenda and changes in conditions of the Agreement used to prepare the GMP;

(3) A complete list of Owner provided allowances and a statement explaining the CM's understanding of their use;

(4) The proposed date of an Owner-approved Substantial Completion; and

(5) A detailed list of assumptions, exclusions, allowances and clarifications that were made in preparing the GMP.

(f) The CM shall meet with the Project Director and A/E to review the contents of GMP Proposal. The Owner and A/E shall identify, in writing, all discrepancies in the GMP Proposal and provide same to CM. After receiving the list of discrepancies, the CM shall make the appropriate adjustments to the GMP Proposal for submission to the Owner and the A/E.

(g) The CM shall not incur any reimbursable Construction Costs, as outlined in Article 6, prior to the Owner's acceptance of the CM's GMP Proposal and issuance of a Notice to Proceed.

(h) Upon the Owner's acceptance of the GMP Proposal, the GMP will become an Amendment to the Agreement ("**GMP Amendment**") and establish the Agreement's GMP, Contract Time, and liquidated damages for incorporated phases of work.

(i) The GMP shall include only those taxes enacted at the time the GMP is established.

(j) If the GMP exceeds the Owner's Construction Services Budget, the terms of Sections 2.1.2.5(e)(2) and 2.1.2.5(f) shall apply.

2.1.2.7 Bonds

(a) Within ten (10) business days after the GMP is approved by Owner and CM and before any portion of the Construction Work to be covered by such bonds is commenced, CM shall provide Owner with a Performance Bond and a Payment Bond (together, the "**Bonds**"), in the form prescribed by AIA A312-2017 forms or those forms provided within Section 255.05, *Florida Statutes*, in the amount of one hundred percent (100%) of the total sum of the GMP, the costs of which are to be paid by CM. The Bonds must comply with the following provisions and must be otherwise acceptable to Owner:

(1) The Bonds must be underwritten by a surety company which has a currently valid Certificate of Authority issued by the State of Florida, Department of Insurance, authorizing it to write surety bonds in the State of Florida.

(2) The Bonds must be fully performable in Florida, with service and venue in Manatee County, Florida.

(b) In accordance with the requirements of Section 255.05(1)(a), *Florida Statutes*, CM shall record in the Public Records of Manatee County, Florida, a copy of the Bonds. CM shall deliver to Owner certified copies of the recorded Bonds within ten (10) days of recording of the Bonds but, in any event, before commencing the Work. The proper recording and delivery of such Bonds are conditions precedent to Owner's obligation to make any progress payments to CM hereunder.

2.1.3 Stage IV – Project Construction and Warranty

2.1.3.1 The construction phase shall commence on the earlier of the following:

(a) The Owner's acceptance of the CM GMP Proposal and issuance of the Notice to Proceed, or

(b) The Owner's authorization to the CM to:

(1) Award a subcontract;

(2) Undertake the Work with CM forces; or

(3) Issue a Purchase Order for materials or equipment required for the Work.

2.1.3.2 Construction Schedule

(a) Within thirty calendar (30) days after the receipt of the Notice to Proceed, the CM shall prepare a Construction Schedule and submit the schedule to the A/E and Project Director for approval. The Construction Schedule shall graphically depict the sequence and duration of all activities required to satisfactorily finish the Project. The Construction Schedule shall represent an accurate assessment of the current status of the Project and of the Work remaining to be accomplished and it shall provide a sound basis for identifying variances and problems and for making management decisions.

(b) Following development and approval of the Construction Schedule, CM shall, at the end of each calendar month occurring thereafter during the period of time required to finally complete the Project, or at such earlier intervals as circumstances may require, update and/or revise the Construction Schedule which shall be submitted to Owner and A/E.

(c) The Project Schedule and the Construction Schedule shall be planned and recorded with a Critical Path Method ("**CPM**") schedule. If requested by Owner or A/E, CM shall furnish any information needed to justify the reasonableness of activity duration. Such information shall include estimated activity manpower, anticipated quantities, and production rates.

(d) If the Construction Schedule or any current updates fail to reflect the Work's actual plan or method of operation, or a contractual milestone date is more than fifteen (15) days behind, Owner may require the CM to submit information or documentation including an updated schedule to describe the CM's plan to complete the remaining Work by the required milestone date.

2.1.3.3 Bidding and Subcontracts

(a) Unless authorized by Owner, all work shall be performed under subcontracts held by the CM. The CM shall not bid any of the subcontractor work or perform such work with its own forces without prior written consent of the Project Director.

(b) The CM shall develop procedures that are acceptable to the Project Director and the A/E for pre-qualification of subcontractors and material suppliers, develop subcontractor interest in the Project and conduct pre-bid conferences with interested bidders to review the bid package documents and Project Schedule approved by the Construction Team.

(c) The CM shall obtain bids from subcontractors and open such bids in the presence of the Construction Team, specifically the Project Director and A/E. The Construction Team will then analyze the bids and deliver such bids to the Project Director and A/E.

(d) The Project Director will determine, with the advice of the CM and subject to the reasonable objection of the A/E, which bids will be accepted and indicate his or her acceptance by signing the bid tabulation form for each work scope.

(e) The CM shall not be required to contract with any firm with whom the Owner has a reasonable objection. The CM shall provide the Owner with the scope sheet(s) indicating the apparent responsive and responsible subcontractor bids.

(f) Equal Employment Opportunity / Non-Discrimination: In performing all services to be provided hereunder, CM shall not discriminate against any employee or applicant for employment because of race, color, religion, sex or national origin. CM shall take affirmative action to ensure that applicants for employment are employed, and that employees are treated during employment, without regard to their race, color, religion, sex or national origin. Such actions shall include the following: (i) employment, upgrading, demotion or transfer; (ii) recruitment or recruitment advertising; (iii) layoff or termination; (iv) rates of pay or other forms of compensation; and (v) selection for training, including apprenticeship. CM shall post in conspicuous places, available to all employees and applicants for employment notices setting forth the terms of this Equal Employment Opportunity Non-Discrimination Clause and stating that all qualified candidates will receive consideration for employment without regard to race, color, religion, sex or national origin.

2.1.3.4 CM Construction Services

(a) Prior to the commencement of Work, CM may attend a preconstruction conference with Owner and A/E and others, as appropriate for the particular needs of the Project, to discuss the Project Schedule, procedures for handling shop drawings and other submittals, and for processing Applications for Payment, and to establish a working understanding among the parties as to the Work. During the prosecution of the Work, CM shall attend any and all meetings convened by Owner or A/E with respect to the Project,

when directed to do so by Owner or A/E. CM shall have its subcontractors and suppliers attend all such meetings (including the preconstruction conference) as may be directed by Owner or A/E.

(b) The CM shall manage, schedule and coordinate the work, including the work of subcontractors and coordinate the work with the activities and responsibilities of the Project Director, A/E and CM in order to complete the Project in accordance with the Owner's objectives of scope, budget, schedule and quality.

(c) The CM shall provide for all job-site facilities necessary to enable the CM, the Project Director, Building Official and the A/E to perform their respective duties.

(d) Supervision and Contractor Representative

i. CM is responsible for supervising, coordinating and performing the Work with such care and skill as would be provided by a contractor with extensive and special expertise in the type of work required under the Contract Documents. CM is responsible for completing the Work so that it complies accurately and completely with the requirements of the Contract Documents.

ii. The CM shall maintain exclusively for this Project sufficient off-site support staff and competent full-time staff at the Project site authorized to act on behalf of CM to coordinate, inspect, provide general direction and direct the Work and progress of the subcontractors. The CM's on-site management and supervisory personnel shall be consistent with the interview presentation and shall not be removed or replaced without the Project Director's consent. The CM's Project Manager, as defined herein, shall have authority to act on behalf of CM. All communications given to the CM Project Manager shall be as binding as if given to CM. The Owner's Project Director shall have the right to direct the CM to remove any on-site personnel whose performance is unsatisfactory to the Owner. In such event, the CM shall promptly replace such personnel without additional compensation for that replacement.

iii. The CM, in conjunction with the Project Director, shall establish on-site organization and lines of authority to implement the overall plans of the Construction Team.

iv. CM shall establish and maintain lines of authority for its personnel, and shall provide this information to Owner and all other affected parties, such as the code inspectors of any permitting authority, the subcontractors, and A/E. Owner and A/E may attend meetings between CM and its subcontractors; however, such attendance is optional and shall not diminish either the authority or responsibility of CM to administer the subcontracts.

v. CM shall be responsible to Owner for the acts and omissions of its employees and agents and its subcontractors, their agents and employees, and all other persons performing any of the Work or supplying materials under a contract to CM.

vi. CM shall develop and maintain a program, acceptable to Owner and A/E, to assure quality control of the Work. CM shall supervise the Work of all subcontractors, providing instructions to each when their portion of the Work does not conform to the requirements of the Contract Documents and CM shall continue to exert its influence and control over each subcontractor to ensure that corrections are made in a timely manner so as to not affect the efficient progress of the Work.

vii. Should a disagreement occur between CM and A/E over the acceptability of the Work, Owner, in its sole discretion, shall have the right to determine the acceptability.

(e) CM shall provide the following job site administration functions during construction to assure proper documentation, including the following:

(1) Job Meetings: CM shall arrange and conduct regular Project status meetings with the Construction Team. CM shall prepare written minutes of job meetings described in this section and deliver copies of such written minutes to Owner and the A/E within five (5) days of each meeting.

(2) PMIS Reports: The CM shall provide a Project Management Information Summary (PMIS) monthly report describing the current cost and payment status of the entire Project. These PMIS reports shall indicate all current encumbrances on and expenditures of the GMP budget. Components of the PMIS are set forth in **Exhibit E**.

(3) Daily Job Logs: The CM shall record the progress of the Work and prepare a daily job log containing a record of weather and CM employees and subcontractors on site including number of workers and work accomplished. The log shall be maintained at the Project site or electronically and made available to the A/E and the Project Director at all times.

(4) Logs for RFIs, Submittals/Shop Drawings, Etc.: The CM shall maintain a log of Requests for Information (RFIs), submittals and shop drawings, status of the Unforeseen Conditions Fund, potential cost items, and Architect's Supplemental Instructions (ASIs) to be reviewed at each Construction Team meeting who shall act on the disposition of these items. CM shall review and approve shop drawings and other submittals and implement procedures for transmittal to the A/E of such submittals for action, and closely monitor their review process.

(5) Submittals:

i. CM shall carefully examine the Contract Documents including the plans and specifications for the Project, as well as the Planning Manual to determine all requirements for approval of materials to be submitted such as shop drawings, data, test results, schedules and samples. If requested and/or required by the needs of the Project, CM shall prepare a submittal schedule and shall submit the schedule for Owner and A/E approval. The submittal schedule will be coordinated with CM's Construction Schedule and allow A/E reasonable time to review submittals.

ii. If the Project involves submittals and shop drawings, CM shall carefully review and certify for accuracy and completeness all shop drawings and other submittals and then forward the same to A/E for review and action. By submitting shop drawings and other submittals, CM represents to Owner and A/E that CM has: (1) reviewed and approved them, (2) determined and verified materials, field measurements and field construction criteria related thereto, or will do so, and (3) checked and coordinated the information contained within such submittals with the requirements of the Work and of the Contract Documents.

(6) Subcontractor Progress: The CM may prepare periodic deficiency logs and punch list logs for subcontractors' work, as the particular needs of the Project requires, including unsatisfactory or incomplete items and schedules for their completion.

(7) Payments to Subcontractors: Develop and implement a procedure for the review, processing and payment of applications by subcontractors for progress and final payments.

(8) Substantial Completion: The CM shall ascertain when the Work or designated portions thereof are ready for the A/E Substantial Completion inspection after which the CM and A/E will execute and issue a Certificate of Substantial Completion, as required by Owner, including a list of punch list items to be completed or corrected. From the punch list of incomplete or unsatisfactory items prepared by CM and reviewed and supplemented by A/E, CM shall prepare a schedule for completion of the items indicating completion dates for Owner's review. Substantial Completion will also include the issuance of a Certificate of Occupancy by the permitting authority.

(9) Final Completion: The CM shall monitor the subcontractors' performance on the completion of the Work and provide notice to Owner and the A/E when the Work is ready for final inspection. CM shall secure, review and certify compliance with the Contract Documents and then transmit to Owner, through the A/E, and as an express condition precedent to final payment, all closeout items set forth in **Exhibit C** including required guarantees, warranties, affidavits, releases, consent of surety to final payment, bonds, waivers, manuals, as-built drawings, and maintenance books. Final Completion will also include issuance of a Certificate of Occupancy by the permitting authority and Owner taking possession of the Project.

(f) Safety

(1) CM is responsible for the safety and protection of all persons and property on or about the Project site during the progress of the Work. CM is responsible for protecting from damage or loss all material and equipment to be incorporated into the Work which may be stored off of the Project site.

(2) The CM shall be responsible for initiating, maintaining, implementing and supervising an effective safety program for the Work and requiring similar programs from the subcontractors. OSHA guidelines shall serve as the basis for the safety programs. Copies of the proposed programs shall be distributed to the Construction Team by the CM.

(3) CM shall employ all necessary measures to protect adjoining adjacent property and shall provide barricades, temporary fences and covered walkways required to protect the safety of passersby, local building codes, ordinances or other laws and the Contract Documents.

(4) CM's duties and responsibilities for the safety and protection of the Work and the environment shall continue until such time as the Work is completed and final acceptance by Owner has occurred.

(5) Alcohol, drugs and all illegal substances are strictly prohibited on any Owner property.

(6) At all times CM shall adhere to Owner's safety and security regulations, and shall comply with all security requirements at Owner's facilities, including all safety and security regulations and requirements, as said regulations and requirements may be modified or changed by Owner from time to time.

2.1.3.5 The CM shall keep full and detailed accounts and exercise such controls as may be necessary for proper financial management, in order to substantiate all costs incurred under this Agreement. The accounting and control systems shall be satisfactory to the Owner. The Owner shall be afforded access to the CM's records, correspondence, instructions, drawings, receipts, subcontracts, purchase orders, vouchers, memoranda and all other data relating to the Project at any and all times during normal business hours upon request by Owner. The CM shall preserve all records and supporting documentation that relate to the Work for a period of three (3) years after final payment, or for longer period as may be required by law. CM shall likewise require all subcontractors to retain all Project records and supporting documentation. The Owner's right to audit, inspect and copy Project records and documentation of CM shall survive completion and/or termination of the Agreement. If at any time, Owner conducts such an audit of CM's records and documentation and finds that CM overcharged Owner, CM shall pay to Owner the Overcharged Amount which is defined as the total aggregate overcharged amount together with interest thereon (such interest to be established at the rate of twelve percent (12%) per annum). If the Overcharged Amount is equal to or greater than Ten Thousand and No/100 Dollars ($10,000.00), CM shall pay to Owner the Overcharged Amount and the Audit Amount, which is defined as the total aggregate of Owner's reasonable audit costs incurred as a result of its audit of CM. Owner may recover the Overcharged Amount and the Audit Amount, as applicable, from any amount due or owing CM with regard to the Project or under any other agreement between CM and Owner. If such amounts owed CM are insufficient to cover the Overcharged Amount and Audit Amount, as applicable, then CM hereby acknowledges and agrees that it shall pay such remaining amounts to Owner within seven (7) business days of its receipt of Owner's invoice for such remaining amounts. In no event shall the Overcharged Amount or the Audit Amount be deemed a reimbursable Cost of Work.

2.1.3.6 Hazardous Materials and Substances

(a) In the event hazardous materials such as asbestos or polychlorinated biphenyl (PCB) are encountered at the Project site that were not specifically noted in the Construction Documents, the CM shall immediately stop Work in the affected area and shall notify the Owner and the A/E in writing of the suspected material within forty-eight (48) hours of discovering same.

(b) Upon receipt of the CM's notice, the Owner shall obtain the services of a licensed laboratory to determine absence or presence of hazardous substance(s), and in the event such material or substance is found to be present, to remediate, abate, or otherwise remove the hazardous substances.

(c) The Owner shall not be responsible under this Section for hazardous materials or substances the CM brings to the site unless such materials or substances required by the Contract Documents, except to the extent of the CM's fault or negligence in the use and handling of such materials or substances.

(d) CM is responsible for compliance with any requirements included in the Contract Documents regarding hazardous materials. If any chemicals, materials, or products containing toxic substances, as defined by 29 C.F.R. 1910, Subpart Z, or any local, state or federal statutes or regulations, are contained in the products used on site or incorporated into the construction by CM or any of its subcontractors, CM shall maintain on site a Safety Data Sheet for each such product. CM shall indemnify and hold the Owner harmless against the cost and expense Owner incurs: (1) for remediation of a material or substance CM brings to the site and negligently handles, or (2) where CM fails to perform its obligations under this Section, except to the extent that the cost and expense are due to Owner's fault or negligence.

2.1.3.7 Emergencies

(a) CM shall take immediate action to prevent injury to any person and injury to any property (including the Work and any adjacent property) which otherwise might arise from an emergency event at the Project site. Property damage includes environmental impacts to the ground, air, and water.

(b) CM shall give A/E and Owner written notice within forty-eight (48) hours after the occurrence of the emergency, if CM believes that any significant changes in the Work or variations from the Contract Documents have been caused thereby. CM shall also deliver to Owner and A/E copies of any written notice of violations received by CM or subcontractors within forty-eight (48) hours following notification by the regulatory agency.

(c) If A/E determines that a change in the Contract Documents is required because of the action taken in response to an emergency, a Change Order or Amendment shall be issued to document the consequences of the changes or variations. If CM fails to provide the forty-eight (48) hour written notice noted above, CM shall be deemed to have waived any right it otherwise may have had to seek an adjustment to the Contract Amount or an extension to the Contract Time. CM is obligated to promptly report in writing to Owner all accidents relating to the Work that result in any personal injury or property damage. The notice procedures contained in this Section control over any conflicting notice periods herein.

2.1.3.8 Final Completion

(a) Warranties

(1) CM shall obtain and assign to Owner on a non-exclusive basis all warranties given to CM by any subcontractors or by any materialmen supplying materials, equipment or fixtures to be incorporated into the Project.

(2) The CM warrants to the Owner and A/E that materials and equipment furnished under the Contract Documents shall be of good quality and new unless the Contract Documents require or permit otherwise. The CM further warrants that the Work will be free from defects, except for those inherent in the quality of the Work the Contract Documents require or permit.

Work, materials or equipment not conforming to these requirements may be considered defective. The CM's warranty excludes remedy for damage or defect caused by abuse, alterations to the Work not executed by the CM, improper or insufficient maintenance, improper operation, or normal wear and tear and normal usage.

(3) Any warranty to be provided will be in such form as is acceptable to Owner and shall not include any exclusions, exceptions or modifications except to the extent approved by Owner in its sole discretion.

(4) In addition to all other rights and remedies available to Owner at law or in equity, including any implied warranties Owner may be entitled to as a matter of law, CM expressly warrants to Owner that it shall promptly correct, upon receipt of written notice from Owner, any portion of the Work which is found to be defective or otherwise not in conformance with the requirements of the Contract Documents. In the event that any defective or non-conforming work is deemed by Owner in its sole discretion to present an immediate threat to safety or security, Owner shall be entitled to correct and fix such defective or non-conforming portions of the Work, and CM shall reimburse Owner for all costs and expenses incurred by Owner in performing such Work. This obligation to correct defective or nonconforming Work shall run for a period of one (1) year (or such longer period of time as may otherwise be specified in the Contract Documents including the Planning Manual) commencing from the date Substantial Completion is achieved. With respect to the correction of any defective or nonconforming Work, CM shall be liable for all damage to any part of the Work itself and to any adjacent property which is caused by such corrective work.

ARTICLE 3

ARTICLE 5
SUBCONTRACTS

5.1 A subcontractor is a person or organization who has a direct contract with the CM to perform specific work at the jobsite. Nothing in the Contract Documents shall create any contractual relationship between the Owner, A/E or any other subcontractor.

5.2 By appropriate written agreement, the CM shall require each subcontractor, to the extent of the work to be performed by the subcontractor, to be bound to the CM by the terms of the Contract Documents, and to assume toward the CM all obligations and responsibilities which the CM by these documents, assumes to the Owner and the A/E. The CM shall provide the Owner copies of the subcontractor bonds or evidence that bonds have been acquired. All increases and decreases to the Project shall be documented in the bond. CM requested payments for work completed will be withheld until all documentation of bonds is received.

5.3 Requirements

5.3.1 On all subcontracts exceeding $100,000.00 the CM may require subcontractors to provide a 100% performance bond and a 100% payment bond from a surety company authorized to do business in the State of Florida by the Department of Insurance. If the CM wishes to award subcontracts to contractors unable to supply this bonding, CM shall request special authorization from the Owner.

5.3.2 The subcontractor must have successfully completed no less than two projects of similar size and complexity within the last five (5) years unless this requirement is waived by Owner, A/E and CM. Similar projects completed by the subcontractor will be indicated on the scope of work sheet by the CM.

5.3.3 Subcontractor is required to be licensed per Chapter 489 and shall provide proof of licensing prior to start of work. Proof of subcontractor licensure shall be provided electronically to the Owner.

5.3.4 All Subcontracts shall provide:

5.3.4.1 That the Owner will be an additional insured on all insurance policies required to be provided by the subcontractors except workman's compensation and professional liability, if applicable;

5.3.4.2 That all warranties will be assigned directly to Owner;

5.3.4.3 That the Work being performed pursuant to such subcontract be performed in accordance with the requirements and intent of the Contract Documents and provide for retainage as specified within this Agreement;

5.3.4.4 For submission of Applications for Payment in form acceptable to Owner, together with reasonable backup and supporting information and, if requested by Owner, Releases and Affidavits and Waivers of Right to Claim Against the Payment Bond, in the forms required by the Agreement, from all subcontractors or vendors who have filed Notice to Owner, filed Intent to Lien, or have indicated non-payment from CM.

5.3.4.5 That subcontractor agrees to comply, at its own expense, with all federal, state and local laws, codes, statutes, ordinances, rules, administrative orders, regulations and requirements applicable to the Project, including those dealing with safety (including the Trench Safety Act, Chapter 553, *Florida Statutes*).

5.3.4.6 That the subcontractor will resolve all disputes involving Owner in the same manner as provided in the Agreement;

5.3.4.7 That, upon Owner's request, subcontractor will provide proof of such insurance

and additional insured endorsements to Owner;

5.3.4.8 Limitation of Remedy – No damages for delay – that subcontractors' exclusive remedy for delay in the performance of the Work required by the Agreement caused by events beyond its control, including delays claimed to be caused by or attributable to the Owner or A/E and claims based on breach of the Agreement or negligence, shall be an extension of Contract Time; and

5.3.4.9 That, in the event of a change in the Work that is performed by Subcontractors or sub-subcontractors, a maximum of fifteen percent (15%) markup shall be permitted for each of the Subcontractors for all overhead and profit on Subcontractor's direct labor and material costs and actual equipment costs as follows: (i) ten percent (10%) markup for that portion of the Work to be performed by a Subcontractor with its own forces; and (ii) ten percent (10%) markup for that portion of the Work to be performed by a sub-subcontractor with its own forces, or any lower tier of subcontractor, plus five percent (5%) for the Subcontractor. The total combined Change Order fee for Subcontractor and all sub-subcontractors shall not exceed fifteen percent (15%). A detailed breakdown, with necessary backup, shall be provided. Subcontractors, and sub-subcontractors, shall agree that the foregoing constitutes their sole and exclusive remedies for delays and changes in the work and thus eliminate any other remedies or claims for increases in the Contract Amount, damages, losses or additional compensation.

7.2 If a dispute arises in connection with CM's claim of unforeseen conditions, the dispute resolution procedure set forth in the Contract Documents shall be complied with by the parties.

ARTICLE 8
CHANGES IN THE PROJECT

8.1 Change Orders and Amendments

8.1.1 The Owner, without invalidating this Agreement, may order changes in the Project within the general scope of this Agreement consisting of additions, deletions or other revisions. All changes in the Project, which are not authorized expenses under the Unforeseen Conditions Fund under Article 7 herein shall be authorized by Change Order or Amendment and signed by the Owner before the change is implemented. The GMP and the construction completion date will be adjusted only in accordance with an approved Change Order or Amendment. Except in an emergency endangering life or property, no additions, deletions or other revisions shall be made except upon written order of Owner as described herein, and Owner shall not be liable to CM for any increased compensation or adjustment to the completion date without such written order. Accordingly, no course of conduct or dealings between the parties, nor express or implied acceptance of alterations or additions to the Work, and no claim that Owner has been unjustly enriched by any alteration of or addition to the Work, whether or not there is, in fact, any unjust enrichment to the Work, shall be a basis of any claim to an increase in any amounts due under the Contract Documents or a change in any time period provided in the Contract Documents. All Change Orders and Amendments shall be approved by the Owner. CM agrees to provide, and shall require all Subcontractors to provide, accurate and sufficient cost data to enable Owner to evaluate the appropriate value of all labor, materials and equipment associated with the Change Order including labor by hours and rate, materials, supplies, taxes and insurance and any other reasonable documentation requested by the Owner.

8.1.2 A Change Order or Amendment is a written order to the CM signed by the Owner issued after the execution of this Agreement, authorizing a change in the Project, CM's fee, or the construction completion date. Each adjustment in the GMP resulting from a Change Order or Amendment shall clearly identify the amount attributable to the addition, deletion or other revision.

8.1.3 In the event a requested change is approved by Owner that results in either an increase or decrease to the Contract Amount, a Change Order or Amendment shall be issued, which increases or decreases the GMP by the full amount of CM's actual direct and indirect costs including overhead and profit and general conditions that are to be paid to CM and Subcontractors or sub-subcontractors. Such Change Order or Amendment shall be supported by full documentation of all costs in an itemized cost estimate including labor by hours and rate, materials, supplies, taxes and insurance, and any other documentation required to allow Owner to properly evaluate the cost estimate. The costs of such Change Order or Amendment shall be determined in accordance with Section 5.3.4.9 above as it relates to mark-ups for Subcontractors and sub-subcontractors and/or in one or more of the following ways:

8.1.3.1 By mutual acceptance of a lump sum properly itemized and supported by sufficient data to permit evaluation by the A/E and Project Director;

8.1.3.2 By unit prices stated in the agreement or subsequently agreed upon;

8.1.3.3 By costs defined in Article 6 and a mutually acceptable fixed or percentage fee; and/or

8.1.3.4 By the method in Article 8.2.

8.2 If the above methods in 8.1.3.1 through 8.1.3.3 are not agreed upon, the CM, provided it receives a written order signed by the Owner, shall promptly proceed with the work involved. Work shall then be determined on the basis of the reasonable expenditures and savings of those performing the work attributed to the change. In the event a Change Order or Amendment is issued under these conditions, the A/E will establish an estimated cost of the work and the CM shall not perform any work whose cost exceeds that estimate without prior written approval of the Owner.

8.3 Claims for Additional Cost or Time

8.3.1 All claims for additional cost or time shall be made by a request for Change Order or Amendment within fourteen (14) days of the date, or within a time period otherwise agreed to by Owner in writing, the CM knew or reasonably should have known of the circumstance that may, in CM's opinion, be a change to the Project that justifies a Change Order or Amendment. Only delays that are determined to extend the critical path in the Construction Schedule will result in a time extension.

8.4 Minor Changes

8.4.1 The A/E will have authority to order minor changes in the Project not involving an adjustment to the GMP or any extension of the construction completion date and consistent with the intent of the Construction Documents. Such changes shall be effectuated by written approval of the Owner and CM. Documentation of the changes shall be detemined by the Construction Team.

ARTICLE 9
DISCOUNTS AND PENALTIES

9.1 All discounts for prompt payment shall accrue to the Owner to the extent the cost of the Project is paid directly by the Owner or from a fund made available by the Owner to the CM. To the extent permitted by applicable law, all trade discounts, rebates and refunds including, but not limited to insurance premiums, and all returns from sale of surplus material and equipment shall belong to the Owner regardless of when issued and shall be credited to the cost of the Project. To the extent that any discounts, rebates and refunds occur or accrue subsequent to Final Completion of the Project, such funds shall be paid to Owner within fifteen (15) days of receipt by CM. All penalties incurred due to the fault of the CM for late payment of the cost of the Project, except, late payments by Owner, will be paid by the CM.

9.2 Savings will be computed as of the date of Final Completion and shall consist of the difference between (1) the GMP (as it may be adjusted in accordance with the terms of the Contract Documents) and (2) the total aggregate sum of the Cost of Work plus the CM Fee paid by Owner and shall accrue to the sole benefit of Owner. A deductive Change Order or Amendment shall be issued reducing the GMP by the amount of such savings. For the avoidance of doubt, any savings obtained may not be moved to the Unforeseen Conditions Fund or be used to offset cost overruns in other items within the GMP without prior written consent of the Owner.

ARTICLE 10
CONTRACT TIME, TIME EXTENSIONS AND LIQUIDATED DAMAGES

10.1 Contract Time and Extensions

10.1.1 CM shall diligently pursue the completion of the Work and coordinate the work being done on the Project by its subcontractors and materialmen, as well as coordinating its work with all work of others at the Project site, so that its work or the work of others shall not be delayed or impaired by any act or omission by CM or anyone for whom CM is responsible or liable.

10.1.2 Should CM actually be obstructed or delayed in the critical path of the prosecution of, or completion of, the Work as a result of unforeseeable causes: (a) beyond the control of CM, (b) not due to CM's fault or neglect, and (c) which could not be avoided by the exercise of reasonable diligence, including: (i) acts of God or of the public enemy, (ii) acts of government, (iii) fires, (iv) floods, (v) epidemics, (vi) quarantine regulation, (vii) strikes, (viii) lockouts, or (ix) weather conditions abnormal for the period of time (as defined below) which exceed the aggregate number of days allotted for adverse weather conditions in CM's schedule approved by Owner, CM shall notify Owner and A/E in writing within five (5) days after the commencement of such delay, unless otherwise agreed to between the parties in writing, which time period shall control over any conflicting time periods specified elsewhere herein, stating the cause or causes thereof, or be deemed to have waived any right which CM may have had to request a time extension therefor. "Abnormal for the period of time" for purposes of this Section means rain or bad weather (e.g. named tropical storms or hurricanes), only when such rain or bad weather is in excess of the ten (10) year average for that specific period of time (from its commencement to its conclusion, as compared with the historical data for that same period) as published by the National Oceanic and Atmospheric Administration for the area where the Project is located.

10.1.3 CM's Construction Schedule shall allow the number of days it deems necessary for rain and bad weather when CM prepares its schedule and not every day of adverse weather conditions abnormal for the period of time shall be grounds for an extension of time. CM and Owner acknowledge that any Project site rain gauge measurements will not be relied upon for determining rain fall amounts. CM shall use commercially reasonable efforts to mitigate the effects of any delays described in this Section so as to minimize any effect on the schedule for completion of the Work.

10.1.4 No Damages for Delay – CM's exclusive remedy for delay in the performance of the Work required by the Agreement caused by events beyond its control, including delays claimed to be caused by or attributable to the Owner or A/E and claims based on breach of the Agreement or negligence, shall be an extension of Contract Time. CM expressly acknowledges and agrees that it is not entitled to receive damages for delay. However, if final completion of the Work is materially delayed through no fault of the CM and CM suffers direct costs from such delay, CM may submit a proposed Change Order or Amendment to Owner for consideration.

10.2 Liquidated Damages

10.2.1 It is hereby understood and mutually agreed, by and between CM and Owner, that the Contract Time for completion of the Work indicated in the Contract Documents is a reasonable time period in which to complete the Work and achieve Substantial and Final Completion for the Project.

10.2.2 Time is of the essence in this Agreement. Owner and CM recognize that Owner will suffer financial loss if the Work associated with the Construction Phase is not substantially completed within the time specified in the GMP Amendment, as said time may be adjusted as provided for herein. In such event, the total amount of Owner's damages, will be difficult, if not impossible, to definitely ascertain and quantify, because this is a public construction project that will, when completed, benefit the public and enhance the delivery of valuable education to the public, in Manatee County, Florida.

10.2.3 It is hereby agreed that it is appropriate and fair that Owner receive liquidated damages from CM, if CM fails to achieve Substantial Completion of the Work within the required Contract Time. Should CM fail to achieve Substantial Completion of the work within the Contract Time or as otherwise required by the Contract Documents, the Owner shall be entitled to assess as liquidated damages, but not as a penalty, against CM and/or its Surety, the following per diem amounts commencing upon the first day following expiration of the Contract Time and continuing each calendar day until the actual date of Substantial Completion is achieved.

Contract Amount			Liquidated Damages Per Calendar Day
$1,000	to	$20,000	$100
20,001	to	75,000	200
75,001	to	150,000	500
150,001	to	350,000	750

3,000,001	to	4,000,000	1,600
4,000,001	to	5,000,000	1,700
5,000,001	to	6,000,000	1,800
6,000,001	to	7,000,000	1,900
7,000,001	to	8,000,000	2,000

11,000,001	to	12,000,000	2,400
12,000,001	and over		2,500

10.2.4 The Liquidated Damages amount per calendar day are fixed and agreed upon by and between the CM and the Owner because of the impracticality and difficulty of ascertaining actual damages the Owner will sustain. It is agreed that the liquidated damages amount per calendar day is adequate to cover damages, which the Owner will sustain by reason of inconvenience, loss of use, loss of monies, and additional costs of contract administration by the A/E and Owner.

10.2.5 Permitting the CM to continue to finish the Work or any part of the Work after time fixed for its completion or after date to which time for completion may have been extended shall in no way constitute a waiver on the part of the Owner of any rights under the Agreement.

10.2.6 Owner may deduct liquidated damages prescribed in this section from any unpaid amounts then or thereafter due CM under the Agreement and any liquidated damages not so deducted shall be payable to Owner by CM upon demand by Owner plus interest from the date of demand at the maximum legal rate of interest until paid.

10.2.7 It is further mutually understood and agreed that Owner's assessment of liquidated damages for delays is intended to compensate Owner solely for CM's failure to substantially complete the Work in the Contract Time and shall not release CM from liability from any other breach of Agreement requirements.

10.2.8 If the liquidated damages set forth herein are deemed unenforceable for any reason, Owner instead shall be entitled to recover those actual delay damages that it sustained as a result of CM's failure to achieve Substantial Completion of the Work.

10.2.9 Liquidated Damages shall be assigned to the CM if punch list items have not been completed within ninety (90) days after Substantial Completion. The value of punch list items shall be determined by the A/E and multiplied by two (2). This value shall be withheld until the item has been completed. In addition, the Owner may obtain the services of others to complete unfinished punch list items after ninety (90) days have expired. Costs for this work shall be deducted from the CM's final payment. Liquidated Damages for punch list items shall commence on the ninety-first (91st) day after Substantial Completion and accrue until the final Application for Payment has been approved by the A/E. The CM, and its Surety, shall pay to the Owner any sums hereinafter stipulated as fixed, agreed and liquidated damages for each calendar day of delay until the punch list items are complete.

200% of Estimated Cost To Complete Punchlist			**Liquidated Damages Per Day**

12,000,001	and over		$12.50 per $100,000

10.2.10 "Days" means consecutive calendar days unless a contrary intent is specifically indicated with regard to any reference to the word "days."

10.2.11 The term "business day" as used herein shall mean all days of the week excluding Saturdays, Sundays and all legal holidays observed by Owner.

ARTICLE 11
PAYMENTS TO THE CONSTRUCTION MANAGER

11.1 Progress Payments

11.1.1 At the time it submits its GMP Proposal to Owner, CM also shall submit to Owner and A/E, for their review, a GMP Budget Summary, which will become the Schedule of Values and is based upon the GMP Proposal listing the major elements of the Work and the dollar value for each element and, if required by Owner, broken down further into the major elements of the Work to be completed during the various phases of the Work. That revised Schedule of Values, as further revised to reflect the final negotiated GMP amount and as approved by Owner, will be attached to the GMP Amendment and shall be used as the basis for CM's monthly Applications for Payment thereafter. This revised Schedule of Values shall be updated for the current month Change Orders and Amendments and submitted each month to A/E along with a completed and notarized copy of the Construction Manager's Application and Certificate for Payment ("**Application for Payment**") form attached to the Agreement as **Exhibit A**.

11.1.2 Each month, the CM shall complete and submit to the Owner the sworn, notarized CM Application for Payment attached hereto as in **Exhibit A** together with an updated Schedule of Values and cost reports required under Article 2 and **Exhibit E**, which detail all costs spent, costs accumulated or costs incurred in completing the Work during the previous period, plus the amount of the CM Fee that is due as provided in Article 6. Owner shall pay CM any undisputed amounts of CM's Application for Payment within twenty-five (25) business days of Owner's receipt of same. General Conditions and/or General Requirements shall be paid based on the percentage of Work completed on site, with the exception of CM's initial Application for Payment which may include reimbursement for Bond costs. Owner shall have the right to verify and substantiate any amounts listed within the CM's Application for Payment. Five percent (5%) retainage, or the maximum allowed by applicable law, shall be held on all payments; however, when approved by the Owner, certain suppliers and subcontractors may be paid the entire amount due at the Owner's discretion. At the Owner's discretion, the Owner may pay CM the entire amount due without holding retainage for the CM's General Requirements, the CM's Fee, Insurance and Bond Costs. Owner reserves the right, at its sole discretion, to reduce or release any portion of such retainage prior to final payment; provided, however, nothing in this Section shall preclude or limit Owner's right to withhold payment as otherwise permitted by the terms of the Contract Documents or as permitted by law. Any reduction or release of retainage, or portion thereof shall not be a waiver of (i) any of Owner's rights to retainage in connection with other payments to CM, or (ii) any other right or remedy that Owner has under the Contract Documents, at law or in equity. Upon request, CM shall provide Releases and Affidavits and Waivers of Right to Claim Against the Payment Bond, in the form required by the Owner.

11.1.3 In addition to the CM certifications set forth in the Application for Payment form attached as **Exhibit A**, the CM's submission of each Application for Payment to Owner shall also constitute a representation by CM to Owner that: (1) there are no liens or claims outstanding or known to exist at the date of the Application for Payment; (2) duly executed waivers and releases have been obtained from all subcontractors and suppliers for work done and materials furnished through the date of payment; and (3) such Application for Payment has not been front-end-loaded either by CM or by any of its subcontractors or suppliers (including placing a value on a line item that is in excess of its cost, increasing unit prices on early completed items while decreasing unit prices on later completed ones, and/or inflating the percentage of completion on line items).

11.1.4 All Applications for Payment to the Owner must be submitted to the Project Director at the address identified herein. Payments to CM shall in no way imply approval or acceptance of CM's work.

11.2 Payments to Subcontractors

11.2.1 The CM shall promptly, within 10 days after receipt of payment from the Owner, pay all the amount due subcontractors less a retainage of five percent (5%), or the maximum retainage amount allowed by applicable law, based on the CM's evaluation of the subcontractor's acceptable performance. If there should remain items to be completed, the CM and A/E shall list those items required for completion and the CM shall require the retainage of a sum equal to two times the estimated cost of completing any unfinished items, provided that said unfinished items are listed separately and the estimated cost of completing any unfinished items likewise listed separately. Thereafter, the CM shall pay to the subcontractors, monthly, the amount retained for each incomplete item after each of said items is completed. Before issuance of final payment without any retainage, the subcontractor shall submit satisfactory evidence that all payrolls, material bills and other indebtedness connected with the Project have been paid or otherwise satisfied, warranty information is complete, as-builts have been submitted and instructions for the Owner's operating and maintenance personnel is complete.

11.2.2 To the extent a subcontractor has not completed the work in accordance with the Construction Documents (or CM disputes the subcontractor's invoice or pay request in good faith) and the CM notifies the party whose payment is disputed, in writing, of the amount in dispute and the actions required to cure the dispute, the CM may withhold the disputed portion of the payment. Should the CM

withhold any payment to a subcontractor, the CM shall provide a weekly report to the Owner listing all outstanding payments to subcontractors. Upon request, the CM shall return the disputed payment to the Owner and CM shall provide a credit to the costs of the Project in the CM's next Application for Payment in the amount of any interest earned on any such disputed payment.

11.2.3 Final payment may be made to certain select subcontractors whose work is satisfactorily completed prior to the total completion of the Project but only upon approval by the Owner, CM and A/E.

11.3 Final Payment to CM

11.3.1 Final Payment constituting the unpaid balance of the Cost of the Project and the CM's fee, shall be due and payable after the Owner has accepted occupancy of the Project, provided that the Project be then finally completed, that the CM has verified by its signature that it has completed all items specified on the attached **Exhibit C**, and that this Agreement has been finally performed. However, if there should remain work to be completed, the CM and the A/E shall list those items prior to the CM receiving final payment. The Owner may retain a sum equal to two times the estimated cost of completing any unfinished work and a portion of the CM's retainage, provided that said unfinished items are likewise listed separately. Thereafter, Owner shall pay to the CM, monthly, the amount retained for each incomplete item after each of said items is completed.

11.4 Payment requests shall be processed and paid in accordance with Part VII, Chapter 218, *Florida Statutes*, known as the Florida Prompt Payment Act, and the terms of this Agreement.

11.4.1 The parties shall develop a single list of items (or if the Project relates to construction of more than one building or structure or is multi-phased, a list of items for each building, structure or Project phase) required to render complete, satisfactory, and acceptance of the construction services. The parties shall specify a process for developing the list, including the responsibilities of Owner and CM in developing and reviewing the list and a reasonable time for developing the list:

11.4.1.1For construction projects having an estimate cost of less than $10 million, the list shall be developed within thirty (30) calendar days after reaching Substantial Completion; or

11.4.1.2For construction projects having an estimated cost of $10 million or more, the list shall be developed within thirty (30) calendar days, or, if extended by agreement between the parties, up to sixty (60) calendar days after reaching Substantial Completion of the construction services.

11.4.2 The list of items shall be delivered within five (5) days after the list has been developed and reviewed in accordance with the sections listed above.

11.4.3 The Final Completion date shall be at least thirty (30) days after the delivery of the list of items. If the list is not provided to the CM by the agreed upon date for delivery of the list, the Contract Time for Final Completion must be extended by the number of days the Owner exceeded the delivery date. However, damages may not be assessed against the CM for failing to complete the Project within the time required by the Agreement unless the CM failed to complete the Project within the Contract Time as extended within this Section.

11.4.4 The failure to include any corrective work or pending items not yet completed on the list does not alter the responsibility of the CM to complete all of the construction services under the Agreement.

11.4.5 Upon completion of all items on the list, the CM may submit a payment request for all remaining retainage withheld by the Owner. If a good faith dispute exists as to whether one or more items identified on the list have been completed pursuant to the Agreement, the Owner may continue to withhold up to 150 percent (150%) of the total costs to complete such items.

11.4.6 All items that require correction under the Agreement and that are identified after preparation and delivery of the list remain the obligation of CM as defined within the Agreement.

11.4.7 Warranty items or items not included in the list of items may not affect the final payment of retainage as provided herein or as provided in the Agreement between the CM and subcontractors and suppliers.

11.4.8 Should the Owner fail to comply with its duties to develop the list required herein within the time limitations, the CM may submit a payment request for all remaining retainage withheld by the Owner and payment of any remaining undisputed Contract Amount, less any amount withheld pursuant to the Agreement for incomplete or uncorrected Work, must be paid within twenty (20) business days after receipt of a proper invoice or Application for Payment.

11.4.9 If Owner provides CM within written notice specifying the failure of CM to meet the contract requirements in the development of the list of items to be completed, the Owner is not required to pay or process any Application for Payment for retainage if the CM has, in whole or in part, failed to cooperate with Owner in the development of the list or to perform its duties under the Agreement with regard to the development of the list or if there are items requiring correction that are identified after the preparation and delivery of the list (that will remain the obligation of the CM).

11.5 Payments for Materials and Equipment

11.5.1 Payments will be made for material and equipment not incorporated in the work but delivered and suitably stored at the site or another location subject to prior approval and acceptance by the Owner on each occasion.

ARTICLE 12
INSURANCE, INDEMNITY AND WAIVER OF SUBROGATION

12.1 Indemnity

12.1.1 To cover to the fullest extent permitted by law, the CM shall indemnify, defend and hold harmless the Owner, the A/E, the A/E consultants, and agents and employees of any of them from and against all claims, damages, losses, expenses, penalties, demands, judgments, actions, proceedings, losses or costs, including reasonable attorneys' fees and paralegals' fees, whether resulting from any claimed breach of the Agreement by CM or arising out of or resulting from the performance of the Work, provided that any such claim, damage, loss, expense, direct or consequential damages, or economic loss is attributable to bodily injury, sickness, disease or death, or injury to or destruction of tangible property including the loss of use resulting therefrom, but only to the extent caused by the negligent acts or omissions, recklessness, or intentional wrongful misconduct of the CM, a Subcontractor, anyone directly or indirectly employed by any of them, or anyone for whose acts any of them may be liable, regardless of whether or not such claim, damage, loss, or expense is caused in part by a party indemnified hereunder. Such obligation shall not be construed to negate, abridge or otherwise reduce any other right to obligation of indemnity which would otherwise exist as to any party or person described in this Section.

12.1.2 In any and all claims against the Owner, the A/E, the A/E consultants, and agents and employees of any of them by any employee of the CM, any Subcontractor, anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, the indemnification obligations under this Section shall not be limited in any way by any limitation on the amount or type of damages, compensation or benefits payable by or for the CM or any Subcontractor under workers' compensation acts, disability benefit acts or other employee benefit acts.

12.1.3 CM's indemnification obligations including those specified within this Section, shall be deemed to fully comply with Section 725.06, *Florida Statutes*, including any amendments thereto, in all respects. If any word, clause or provision of any of the indemnification provisions of the Agreement is determined not to be in compliance with Section 725.06, *Florida Statutes*, including any amendments thereto, it shall be stricken and the remaining words, clauses and provisions shall remain in full force and effect. It is the intent of the parties that CM's indemnification obligations comply fully with Section 725.06, *Florida Statutes*, including any amendments, in all respects. CM's indemnification obligations in the Agreement are in addition to and not in lieu of any common law indemnification to which any of the indemnified parties are entitled.

12.1.4 The Owner shall cause any other CM who may have a contract with the Owner to perform construction installation work in the area where work will be performed under this Agreement, to agree to indemnify the Owner and the CM and hold them harmless from all claims for bodily injury and property damage (other than property insured under this Agreement) that may arise from the CM's operations. Such provisions shall be in a form satisfactory to the CM.

12.2 CM Insurance

12.2.1 During the term of the Agreement or for such longer period as specified in the Contract Documents or required by applicable law, CM shall provide, pay for, and maintain the types of insurance described herein by an insurance company duly licensed and authorized by the Department of Insurance of the State of Florida to transact the appropriate insurance business in the State of Florida. The CM shall not commence any construction Work in connection with this Agreement until it has obtained all of the following types of insurance and such insurance has been approved by the Owner, nor shall the CM allow any subcontractor to commence work on any subcontract until all similar insurance required of the subcontractor has been so obtained and approved. The procuring of required policies of insurance shall not be construed to limit CM's liability or to fulfill the indemnification provisions and requirements of the Agreement.

12.2.2 If any insurance provided pursuant to the Agreement expires prior to the completion of the Services required hereunder, renewal Certificates of Insurance and, if requested by Owner, copies of the renewal policies and applicable additional insured endorsements, shall be furnished to Owner fifteen (15) calendar days prior to the date of expiration. CM shall also notify Owner, in a like manner, within two (2) days after receipt, of any notices of expiration, cancellation, non-renewal or material change in coverages or limits received by CM from its insurer, and nothing contained herein shall relieve CM of this requirement to provide notice.

12.2.3 Owner shall retain the right to review, at any time, coverage, form, and amount of insurance. Should at any time CM not maintain the insurance coverages required in the Agreement, Owner may cancel the Agreement and any Amendments issued pursuant to the Agreement or at its sole discretion shall be authorized to purchase such coverages and charge CM for such coverages purchased. If CM fails to reimburse Owner for such costs within thirty (30) calendar days after demand, Owner has the right to offset these costs from any amount due CM under the Agreement. Owner shall be under no obligation to purchase such insurance, nor shall it be responsible for the coverages purchased or the insurance company/companies used. The decision of Owner to purchase such insurance coverages shall in no way be construed to be a waiver of its rights under the Agreement.

12.2.4 Certificates of Insurance

12.2.4.1 CM shall deliver to Owner properly executed Certificate of Insurance forms and required additional insured endorsements in form acceptable to Owner, evidencing the fact that CM has acquired and put in place the insurance coverages and limits required hereunder. These shall be completed and signed by the authorized Florida Resident Agent, and returned to the Department of Construction

Services. The Certificate(s) shall be dated and show:

(a) The name of the insured CM, the specific job by name and number, the name of the insurer, the number of the policy, its effective date, and its termination date;

(b) Statement that the Insurer will mail notice to the Owner and a copy to the A/E at least fifteen (15) days prior to any material changes in provisions or cancellation of the policy;

(c) Certificates of Insurance shall be in the form as approved by Insurance Services Office (ISO) and such Certificate shall clearly state all the coverages required within this Agreement; and

(d) The Owner shall be named as additional insured on the CM's commercial general liability, excess or umbrella liability and builder's risk policy or policies.

12.2.5 The acceptance by Owner of any evidence of the insurance coverages and limits required by the Agreement, including any Certificate of Insurance, policy or additional insured endorsement, does not constitute approval or agreement by Owner that the insurance requirements have been met or that the insurance policies shown on the evidence of insurance comply with the requirements of the Agreement.

12.2.6 All insurance policies required by the Agreement shall include the following provisions and conditions by endorsement to the policies:

12.2.6.1 All insurance policies, other than the Professional Liability policy and the Workers Compensation policy, provided by CM to meet the requirements of the Agreement shall name The School Board of Manatee County, Florida, as that name is defined herein, as an additional insured as to the operations of CM under the Contract Documents. The Owner shall be listed as an additional insured for claims caused in whole or in part by the CM's negligent acts or omissions for which loss occurs during completed operations. The additional insured language shall be primary and non-contributory to any of the Owner's general liability insurance policies and shall apply to both ongoing and completed operations. The term "**The School Board of Manatee County**" shall include the Manatee County Public Schools, the Manatee County School Board, a body corporate, the School District of Manatee County and all Authorities, Boards, Bureaus, Commissions, Divisions, Departments and offices thereof and individual members, officers and employees thereof in their official capacity, and/or while acting on behalf of the Manatee County School Board.

12.2.6.2 All insurance coverages of CM shall be primary to any insurance or self-insurance program carried by Owner applicable to the Agreement, and the "Other Insurance" provisions of any policies obtained by CM shall not apply to any insurance or self-insurance program carried by Owner applicable to the Agreement.

12.2.6.3 Insurance requirements itemized in the Agreement and required of CM shall be provided on behalf of all subcontractors to cover their operations performed under the Agreement. CM shall be held responsible for any modifications, deviations, or omissions in these insurance requirements as they apply to subcontractors.

12.2.7 Worker's Compensation Insurance

12.2.7.1During the life of this Agreement, the CM shall take out and maintain Worker's Compensation Insurance for all its employees connected with the work of this Project and, in case any work is sublet, the CM shall require the subcontractor similarly to provide Worker's Compensation Insurance for all of the latter's employees unless such employees are covered by the protection afforded by the CM. Such

insurance shall comply with the Florida Worker's Compensation Law and include the effects of all discounts, modifiers and rebates. In case any class of employees engaged in hazardous work under this Agreement at the Project site is not protected under the Worker's Compensation statute, the CM shall provide adequate insurance, satisfactory to the Owner, for the protection of employees not otherwise protected.

12.2.8 CM's General Liability and Property Damage Insurance

12.2.8.1During the life of this Agreement, the CM shall take out and maintain Comprehensive General Liability Insurance as shall protect the CM from claims for damage for personal injury, including accidental death, as well as claims for property damages which may arise from operating under this Agreement whether such operations are by CM or by anyone directly or indirectly employed by CM.

12.2.8.2The general liability insurance shall be written on an "occurrence" basis, shall be maintained by CM and shall provide coverage for claims including (1) damages because of bodily injury, sickness or disease, including occupational sickness or disease, and death of any person; (2) personal injury and advertising injury; (3) damages because of physical damage to, or destruction of, tangible property, including the loss of use of such property; (4) bodily injury or property damage arising out of completed operations; and (5) CM's indemnity obligations under the Agreement.

12.2.8.3The general liability insurance shall provide "XCU" (explosion, collapse, underground damage) coverage for those classifications in which they are excluded, Broad Form Property Damage Coverage, Products and Completed Operations Coverages, and Contractual Liability Coverage designed to protect the CM for contractual liabilities assumed by the CM in the performance of this Agreement to the extent covered by a standard Insurance Standards Office (ISO) General Liability policy. Completed Operations coverage must be maintained by CM for not less than five (5) years following completion and acceptance by Owner of the Work performed by CM.

12.2.8.4The general liability insurance shall not contain an exclusion or restriction of coverage for claims by one insured against another insured, if the exclusion or restriction is based solely on the fact that the claimant is an insured and there would otherwise be no coverage for the claim; claims for property damage to the CM's Work arising out of the products-completed operations hazard where the damaged Work or the Work out of which the damage arise was performed by a subcontractor; and claims related to roofing if the Work involves roofing. Coverage shall not eliminate the subcontractor exception to "damage to your work" exclusion.

12.2.8.5The amount of such general liability insurance shall be minimum limits as follows:

CM Comprehensive General Liability Coverage, Bodily Injury and Property Damage	$1,000,000 each Occurrence Combined Single Limit

Insurance clauses for both BODILY INJURY AND PROPERTY DAMAGE shall be amended to provide coverage on an occurrence basis.

12.2.9 Automobile Liability Insurance

12.2.9.1During the life of this Agreement, the CM shall take out and maintain automobile liability insurance as to ownership, maintenance, and use, including loading and unloading, of all owned, non-owned, leased or hired vehicles with limits of not less than:

Automobile Liability Coverages,	$100,000 Each Occurrence

Bodily Injury and Property Damage	Combined Single Limit

12.2.10 Subcontractor's General Liability and Property Damage Insurance

12.2.10.1 During the life of the subcontracts, the CM shall require each of its subcontractors to procure and maintain insurance of the type specified above or insure the activities of its subcontractors in the CM's policies in an amount that is appropriate for the work to be performed.

12.2.11 Owner's and Construction Manager's Protective Liability Insurance

12.2.11.1 The CM shall procure and furnish, as a cost of the Project, an Owner's and CM's Protective Liability Insurance Policy with the following minimum limits:

Bodily Injury Liability and Property Damage Liability	$1,000,000 each Occurrence Combined Single Limit

12.2.12 Umbrella Liability Insurance or Excess Liability Insurance

12.2.12.1 During the life of this Agreement, the CM shall take out and maintain umbrella liability or excess liability insurance. Coverage shall be excess of the Employers Liability, Commercial General Liability and Automobile Liability coverages required herein. The amount of such umbrella liability or excess liability insurance shall be minimum limits as follows:

Excess Liability, Umbrella Form	$3,000,000 each Occurrence Combined Single Limit

12.2.13 Builder's Risk Coverage

12.2.13.1 During the life of this Agreement, the CM shall take out and maintain a "Builder's Risk Policy" completed value form as a cost of the Project, issued to provide coverages on an "all risk" basis including theft and stored materials. This coverage shall not be lapsed or cancelled because of partial occupancy by the Owner prior to Substantial Completion of the Project. The policy shall have a deductible in an amount acceptable to the Owner and that meets the industry standards and any losses not covered by insurance shall be paid by the Owner out of unforeseen conditions and the Owner shall be listed as an additional insured. Builder's Risk coverage may be waived by the Owner on existing schools, sites or campuses.

12.3 Waiver of Subrogation

12.3.1 The Owner and the CM waive all rights against each other, for damages caused by perils covered by insurance provided under Article 12 to the extent covered by such insurance except such rights as they may have to the proceeds of such insurance held by the Owner and CM as trustees. The CM shall require similar waivers from all subcontractors and their subcontractors.

12.3.2 The Owner and CM waive all rights against each other for loss or damage to any equipment used in connection with the Project and covered by any property insurance. The CM shall require similar waivers from all subcontractors and their sub-subcontractors.

12.3.3 The Owner waives subrogation against the CM on all property and consequential loss policies carried by the Owner on adjacent properties and under property and consequential loss policies purchased for the Project after its completion.

12.3.4 If the policies of insurance referred to in this Article require an endorsement to provide for continued coverage where there is a waiver of subrogation, the Owner of such policies will cause them to be so endorsed, failure to obtain proper endorsement nullifies the waiver of subrogation.

ARTICLE 13
TERMINATION

13.1 Termination by the CM

13.1.1 If the Project is stopped for a period of thirty (30) days under an order of any court or other public authority having jurisdiction or as a result of an act of government other than the Owner, such as a declaration of a national emergency making materials unavailable, through no act or fault of the CM, upon seven (7) days written notice to the Owner, terminate this Agreement and request payment for all work executed, the CM Fee earned to date, and for any proven loss sustained upon any materials, equipment tools, construction equipment, and machinery, demobilization, restocking and cancellation expenses incurred by the CM associated with early termination of the Work.

13.2 Owner's Right to Perform CM's Obligations and Termination by Owner for Cause

13.2.1 If the CM fails to perform any of its obligations under this Agreement including any obligation it performs with its own forces, the Owner may, after seven (7) days without correction, produce a written notice to the CM allowing fourteen (14) days to cure the problem. If during the 14-day period, the CM fails to perform such obligations and make good such deficiencies, the CM's Fee shall be reduced by the cost required to cure the deficiencies.

13.2.2 If the CM is adjudged bankrupt, or if it makes a general assignment for the benefit of its creditors, or if a receiver is appointed on account of its insolvency, or if it persistently or repeatedly refuses or fails, except in case for which extension of time is provided, to supply enough properly skilled workmen or proper materials and fails to maintain an established schedule (failure to maintain schedule shall be defined as any activity on the critical path that falls forty-five (45) days or more behind schedule), which has been adopted by the Construction Team, or if it fails to make prompt payment to subcontractors for materials or labor, or persistently disregards laws, rules, ordinances, regulations, or orders of any public authority having jurisdiction, or otherwise materially breaches a provision of the Agreement or the Contract Documents, then the Owner may, without prejudice to any right or remedy and after giving the CM and its surety, if any, seven (7) days written notice, during which period CM fails to cure the violation, terminate CM's right to proceed under the Agreement in whole or in part and take possession of the site and of all materials, equipment, tools, construction equipment and machinery thereon owned by the CM, and may finish the Project by whatever method it may deem expedient. In such case, the CM shall not be entitled to receive any further payment until the Project is finished nor shall it be relieved from its obligations assumed under Article 16. Reasonable termination expenses incurred by the Owner may be deducted from any payments left owing the CM (excluding monies owed the CM for subcontract work).

13.2.3 If the CM refuses to allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, *Florida Statutes*, and made or received by the CM in conjunction with this Agreement, then the Owner may, without prejudice to any right or remedy and after giving the CM and its Surety, if any, seven (7) days written notice, during which period CM still fails to allow access, terminate the employment of the CM and take possession of the site and of all materials, equipment, tools, construction equipment and machinery thereon, owned by the CM, and may finish the Project by whatever method it may deem expedient. In such case, the CM shall not be entitled to receive any further payment until the Project is finished nor shall it be relieved from its obligations assumed under Article 7. Reasonable termination expenses incurred by the Owner may be deducted from any payments left owing the CM (excluding monies owed to the CM for subcontract work).

13.3 Termination by Owner Without Cause

13.3.1 If the Owner terminates this Agreement without cause, CM's recovery against Owner shall be limited to the unpaid portion of the Contract Amount earned through the date of termination, together with any withheld retainage. The Owner shall also pay the CM fair compensation, either by purchase or rental at the election of the Owner, for any equipment retained. In case of such termination of the Agreement, the Owner shall further assume and become liable for obligations, commitments and unsettled contractual claims that the CM has previously undertaken or incurred in good faith in connection with said Project. The CM shall, as a condition of receiving the payments referred to in this Article, execute and deliver all such papers and take all such steps including the legal assignment of its contractual rights, as the Owner may require for the purpose of fully vesting in him the rights and benefits of the CM under such obligations or commitments. CM shall not be entitled to any other or further recovery against Owner, including damages or any anticipated profit on portions of the Work not performed.

13.3.2 After the establishment of the GMP or at the completion of Stage III or any time thereafter, if the final cost estimates or a change in funding makes the Project no longer feasible from the standpoint of the Owner, the Owner may terminate this Agreement and pay the CM its proportionate CM Fee due in accordance with Article 6 plus any costs incurred pursuant to Articles 7 and 8. CM shall not be entitled to any other or further recovery against Owner, including damages or any anticipated profit on portions of the Work not performed.

ARTICLE 14
ASSIGNMENT, GOVERNING LAW, CLAIMS AND DISPUTE RESOLUTION

14.1 Subject to other provisions hereof, the Agreement shall be binding upon and shall inure to the benefit of the successors and permitted assigns of the parties to the Agreement.

14.2 Neither the Owner nor the CM shall assign its interest in this Agreement without the written consent of the other except as to the assignment of proceeds.

14.3 This Agreement shall be interpreted under and its performance governed by the laws of the State of Florida, without regard to its choice of law provisions.

14.4 Claims and Disputes

14.4.1 The term "Claim" as used herein shall mean any and all demands made by one party hereunder against the other party, whether such demand be for money, time or the assertion of any right or obligation that arises out of the Contract Documents.

14.4.2 Initial notice of Claims by CM shall be made in writing to Owner and A/E within seven (7) calendar days after the first day of the event giving rise to such Claim or else CM shall be deemed to have waived the Claim. Written supporting data shall be submitted to Owner and A/E within thirty (30) calendar days after the occurrence of the event, unless Owner grants additional time in writing, or else CM shall be deemed to have waived the Claim.

14.4.3 CM shall proceed diligently with its performance as directed by Owner, regardless of any pending Claim, unless otherwise agreed to by Owner in writing. Owner shall continue to make payments of undisputed amounts due in accordance with the Contract Documents during the pendency of any Claim.

14.4.4 Prior to the initiation of any action or proceeding permitted by this Agreement to resolve disputes between the parties, the parties shall make a good faith effort to resolve any such disputes by negotiation between representatives with decision-making power. Failing resolution, and prior to the commencement of any litigation between the parties with respect to the Project, the parties shall attempt to

resolve the dispute through mediation before an agreed-upon Circuit Court Mediator certified by the State of Florida. Should either party fail to submit to mediation as required hereunder, the other party may request a court of law to order mediation under Section 44.102, *Florida Statutes*.

14.5 Litigation

14.5.1 Any litigation between Owner and CM (which term for the purposes of this Section shall include CM's surety), whether arising out of any Claim or arising out of the Agreement or any breach thereof, shall be brought, maintained and pursued only in the appropriate State courts of the State of Florida; and Owner and CM each hereby waive and renounce any and all rights and options which they, or either of them, have or might have to bring or maintain any such litigation or action in the Federal Court system of the United States or in any United States Federal District Court. The exclusive venue of any such litigation between Owner and CM shall lie and be only in the appropriate State courts of the State of Florida's Twelfth Judicial Circuit in and for Manatee County, Florida. CM consents and submits to the jurisdiction of any such court and agrees to accept service of process from the State of Florida in any matter to be submitted to any such court.

14.5.2 In the event of any Claim or dispute arising out of the Agreement, the prevailing party shall be entitled to recover from the non-prevailing party its costs, including reasonable attorneys' fees (including fees for determining the amount of fees due) at all levels, including at trial, on appeal, and in bankruptcy and post-judgment proceedings.

14.6 Waiver of Claims for Consequential Damages

14.6.1 The CM and Owner waive Claims against each other for consequential damages arising out of or relating to this Agreement. The mutual waiver includes: (1) damages incurred by Owner for rental expenses, for losses of use, income, profit, financing, business and reputation, and for loss of management or employee productivity or of the services of such persons; and (2) damages incurred by the CM for principal office expenses including the compensation of personnel stationed there, for losses of financing, business and reputation, and for loss of profit, except anticipated profit arising directly from the Work.

ARTICLE 15
FORCE MAJEURE, FIRE OR OTHER CASUALTY

15.1 Force Majeure

15.1.1 Delays in any performance by any party contemplated or required hereunder due to: fire, flood, earthquake or hurricane, acts of God, war, declaration of hostilities, revolt, civil strife, altercation or commotion, strike, labor dispute, or epidemic, or any law, order, proclamation, regulation or ordinance of any government or any subdivision thereof, or for any other similar cause to those enumerated, beyond the reasonable control and which with due diligence could not have been reasonably anticipated and without the fault or negligence of the party seeking excuse from performance, shall be deemed to be events of Force Majeure and any such delays shall be excused. In the event such party is delayed in the performance of any work or obligation pursuant to this Agreement for any of the events of Force Majeure and any such delays shall be excused. In the event such party is delayed in the performance of any work or obligation pursuant to this Agreement for any of the events of Force Majeure, the date for performance required or contemplated by this Agreement shall be extended by the number of calendar days such party is actually delayed in such Substantial Completion.

15.1.2 The party seeking excuse for nonperformance on the basis of Force Majeure shall promptly give written notice to the Owner, if with respect to the CM, or to the CM, if with respect to the Owner, specifying its, actual or anticipated duration, and weekly thereafter, if such delay shall be continuing, written notice stating whether the condition continues and giving its actual or then anticipated duration.

Each party seeking excuse from nonperformance on the basis for Force Majeure shall use its best efforts to rectify any condition causing a delay and will cooperate with the other party, except that neither party shall be obligated to incur any unreasonable additional costs and expenses, to overcome any loss of time that has resulted.

15.2 Casualty: Actions by Owner and CM

15.2.1 During the construction period, if the Project, or any part thereof, shall have been damaged or destroyed, in whole or in part, the CM shall promptly make proof of loss and Owner and CM shall proceed promptly to collect, or cause to be collected, all valid claims which may have arisen against insurers or others based upon such damage or destruction.

15.2.2 The CM shall diligently assess the damages or destruction and shall prepare an estimate of the cost, expenses and other changes, including normal and ordinary compensation to the CM, necessary for reconstruction of the Project substantially in accordance with the Project Plans and Specifications.

15.2.2.1Within fifteen (15) days following satisfaction of the express conditions described in subsections (a), (b) and (c) below, CM covenants and agrees diligently to commence reconstruction and to complete the reconstruction or repair of any loss or damage by fire or other casualty to the Project to substantially the same size, floor area, cubic content and general appearance as prior to such loss or damage:

(a) Receipt by the Owner or the Trustee of the proceeds derived from collection of all valid claims against insurers or others based upon such damage or destruction; and receipt of other sums from any source such that the funds necessary to pay the Project Cost and any additions to the Project Cost necessitated for repair or reconstruction are available;

(b) Written agreement executed by the CM and the Owner, by amendment to this Agreement or otherwise, authorizing and approving the repair or reconstruction and any additions to the Project Amount necessitated thereby, including any required amendment to the GMP; and

(c) Final approval by the Owner of the Project plans and specifications for such repair or reconstruction and issuance of any required building permit.

15.3 Approval of Plans and Specifications

15.3.1 The Owner agrees to approve the plans and specifications for such reconstruction or repair if the reconstruction or repair contemplated by such plans and specifications is economically feasible, and will restore the Project, or the damaged portion thereof, to be substantially the same condition as prior to such loss or damage and such plans and specifications conform to the applicable laws, ordinance, codes and regulations. Owner agrees that all proceeds of any applicable insurance or other proceeds received by the Owner or the CM as a result of such loss or damage shall be used solely for payment of the costs, expenses, and other charges of the reconstruction or repair of the Project.

15.4 Notice of Loss or Damage.

15.4.1 CM shall promptly give Owner written notice of any significant damage or destruction to the Project, defined as loss or damage which it is contemplated by CM will increase the GMP or extend the date of Substantial Completion, then expectations of CM as to the effect of such damage or destruction on the use of the Project, and the then proposed schedule, if any, for repair or reconstruction of the Project. Loss or damage, which the CM determines, will not affect the GMP or date of Substantial Completion will

be reported to the Owner and A/E within five (5) days and associated corrective actions will be undertaken without delay.

ARTICLE 16

No provision of the Agreement shall constitute, or be

interpreted as, a waiver of sovereign immunity, and all defenses relative to sovereign immunity shall be preserved.

It will be the offerors' responsibility to get the submittal to the correct location on time.**
g. For purposes of evaluation, the offeror must indicate any variances from specifications. If variations are not stated in the submittal, it will be assumed that the product or service fully complies with the specifications.
h. Conflict of interest: The award hereunder is subject to the provisions of Chapter 112, Florida Statutes. All offerors must disclose with their submittal the name of any officer, director or agent who is also an employee of the School Board.

SUBMITTAL OF A SOLICITATION: The submittal of a solicitation shall constitute an irrevocable offer to contract with the School Board in accordance with the terms of said solicitation. The offer may not be withdrawn or altered until or unless rejected or not accepted by the School Board except as provided below. Accuracy of all prices and statements contained in the submittal is the responsibility of the offeror, and no change or cancellation thereof may be made. The Director of Materials Management or designee reserves the right to ask the offeror for clarification. In addition, purchasing staff will review the line-by-line prices. Accuracy of additions and extensions, brands and compliance with all instructions will be reviewed in order to ascertain that the offer is made in accordance with the terms of the solicitation. School officials who find any errors in calculations will make adjustments and corrections. Offerors shall normally be held to their submittal but in the event of an error or if an obvious omission is discovered in the submitted document, offerors may request in writing the opportunity to withdraw their submittal. Offerors shall include in their written request sufficient evidence to document that the error or omission was unintentional. Actual original copies of working papers, calculations, etc., may be required at the Director of Materials Management's discretion to support such a request.

PRICES:

a. Prices shall be for the period stated in the "General Specifications" or as otherwise stated in the "Certification."
b. Prices should be stated in units of quantity specified in the solicitation specifications.
c. In case of discrepancy in computing the amount of the submittal, the unit price offered will prevail. Any requirement by the offeror that certain "all or none" groups, quantities, weights, or other criteria must be met in order to qualify for offered prices, may result in disqualification of the solicitation. Likewise, expiration dates or other constraints, which are in conflict with solicitation requirements, will result in disqualification.

TRADE-NAMED ITEMS: When an item appearing in the solicitation document is listed by a registered trade name and the wording "no substitute", "spec only" or "only" is indicated, only that trade-named item will be considered. The district reserves the right to reject products that are listed as approved and waive formalities. Should a vendor wish to have products evaluated for future solicitation consideration, please contact in writing, the Director of Materials Management. If the wording "no substitute", "spec only" or "only" does not appear with the trade name, offerors may submit prices on their trade-named item, providing they attach a descriptive label of their product to this solicitation. Sample merchandise offered hereunder as "offered equal" may be required to be submitted to the purchaser in advance of the solicitation award. Substitutions for items solicitated, awarded and ordered are prohibited except as may be approved by the Director of Materials Management.

SOLICITATION REJECTION: The School Board reserves the right to reject any and all submittals or parts thereof, and to request re-submission. The School Board further reserves the right to accept an offer other than the lowest offer, which in all other respects complies with the solicitation and the submitted document, provided that, in the sole judgment and discretion of the School Board, the item offered at the higher offered price has additional value or function, including, but not limited to: life cycle costing, product performance, quality of workmanship, or suitability for a particular purpose. Delivery dates, availability of item, or other such values or functions, may justify a difference in the price paid. All submittals shall be evaluated on all factors involved, including the foregoing price, quality, delivery schedules and the like. Purchase orders or contracts shall be awarded to the responsive and responsible offeror whose submittal is determined to be advantageous to the School Board, taking into consideration the factors set forth above and all other factors set forth in the solicitation as "lowest or lowest and best offer".

SOLICITATION CHANGES AFTER CLOSING TIME: Submittals may not be changed after the solicitation closing time. The exception would be if there was a misinterpretation of the unit for which the solicitation was requested. In which case, no dollar amount change would be allowed, and only a clarification as to the unit the offer represents will be considered. This must be done in writing 24 hours after notification to the offeror from the Director of Materials Management.

ACCEPTANCE OF SOLICITATION: The School Board shall be the sole judge as to the acceptability of any and all submittals and the terms and conditions thereof, without qualifications or explanation to offerors. In case of any difference of opinion as to the items to be furnished hereunder, the decision of the School Board shall be final and binding on both parties.

INDEMNITY: By submitting an offer, the Contractor agrees to indemnify and hold harmless the School Board, its officers and employees from liabilities, damages, losses and costs, including, but not limited to, reasonable attorneys' fees, to the extent caused by the negligence, recklessness, or intentional wrongful misconduct of the Contractor and persons employed or utilized by the vendor in the performance of its responsibilities pursuant to this solicitation. It is expressly acknowledged that the Contractor is an independent Contractor and, as such, has no authority to act for or on behalf of the Board, or to bind the Board to any contract or in any other manner.

COMPLIANCE WITH REGULATIONS: Federal, state, county, and local laws, ordinances, rules, and regulations that in any manner affect the items covered herein apply. Lack of knowledge by the Contractor will in no way be a cause for relief from responsibility. The Contractor shall have in their possession all applicable insurance, permits, licenses, etc., that may be required by federal, state, or county law to furnish services under the scope of this contract. The Contractor must not be in violation of any zoning or other ordinances in the performance of this contract.

TIE ON UNIT PRICE OR SUBMITTAL: Should there be a tie on either the unit price (if awarded on a per item basis), sections of the solicitation (i.e.: building contracts, or solicitations awarded by section) or the whole solicitation ("all or none" solicitations or service solicitations), the deadlock will be decided upon using the following order:

a. Companies who certify they are a drug-free workplace.
b. Companies located in Sarasota County, Florida.
c. Companies located in Florida.
d. The company receiving the larger dollar award on other items within the solicitation.
e. All else being equal, a coin toss will be made to decide the award.

AGENDA ITEM NO. 10.37

School Board of Manatee County
July 26, 2022 - Regular Board Meeting and Public Hearing
Action Item

Title
Approval of the Report of Teachers Out-of-Field Content, Reading, ESOL (English for Speakers of Other Languages), and/or Long-Term Substitutes

Executive Summary
The Out-of-Field Plan for Manatee County Schools provides that teachers are notified of their out-of-field status at the point that the current certification that they hold does not meet the required certification for the subject(s) they are teaching. State School Board Rule 6A-1.0503 provides that any out-of-field teacher must be appointed by the School Board as being out-of-field after verification that an appropriately certified teacher is not available. The attached list of teachers was appointed by the School Board as out-of-field. These teachers have the option of passing the subject area exam or completing a minimum of six semester hours annually toward certification until such time that they can pass the test if applicable.

The META (Multicultural and Educational Training Advocacy) Consent Decree requires that all teachers of ELLs (English Language Learners) receive training in ESOL (English for Speakers of Other Languages) strategies. The number of required training hours ranges from 18 to 300 hours and is categorized by the subject in which the teacher gives instruction. Categories are I, II, III, and IV. The timeline for completing training hours is also driven by the category. Specifics are given to each teacher at the time of hire or when there is a change of assignment. Category I Teachers who are not ESOL Certified or Endorsed must be reported to the Board as out-of-field. The attached list contains the names of those teachers that are required to be reported to the Board.

This item aligns with the District's Strategic Plan Goal(s) which state(s):

Equitable Recruitment & Retention | Goal 1
Recruit the most qualified, diverse and motivated staff.

Equitable Recruitment & Retention | Goal 2
Improve teacher and other employee retention rates.

1590 - **PERSONNEL FILE**

It is necessary for the orderly operation of the School District to prepare a personal information system for the retention of appropriate files bearing upon an employee's duties and responsibilities to the District and the District's responsibilities to the employee.

The School Board requires that sufficient records exist to determine an employee's qualifications for the job held, compliance with Federal, State, and local benefit programs, conformance with District rules, and evidence of completed evaluations. Such records will be kept in compliance with the laws of the State of Florida. Materials relating to work performance, discipline, suspension, or dismissal will be reduced to writing and signed by a person competent to know the facts or make the judgment. The resignation or termination of an employee before an investigation of alleged misconduct by the employee affecting the health, safety, or welfare of a student is concluded must be clearly indicated in an employee's personnel file.

The term personnel file as used in this section shall mean all records, information, data, or materials maintained by a public school system, in any form or retrieval system whatsoever, with respect to any of its instructional staff, which are uniquely applicable to that employee, whether maintained in one (1) or more locations.

Only that information which pertains to the professional role of the employee and submitted by duly authorized school administrative personnel and the Board may be entered in the official record file.

Pursuant to State law, a complaint of misconduct against a District employee, and all information obtained pursuant to an investigation by the District of the complaint of misconduct, are confidential and exempt from inspection or copying until the investigation ceases to be active, or until the District provides written notice to the employee who is the subject of the complaint, in the manner set forth below, that the District has either:

A. concluded the investigation with a finding not to proceed with disciplinary action or file charges, or

B. concluded the investigation with a finding to proceed with disciplinary action and/or to file charges. If the investigation results in such a finding, the District shall also file a legally sufficient complaint regarding the misconduct as required by State law and Policy 8141 - Mandatory Reporting of Misconduct by Certificated Employees.

Notwithstanding F.S. 1012.31(3)(a)1, 1012.796(4), and this policy, within twenty-four (24) hours after a law enforcement agency provides the Superintendent with written notification pursuant to F.S. 1012.797 that a District employee has been arrested for a felony or a misdemeanor involving the abuse of a minor child or the sale or possession of a controlled substance, the Principal shall notify parents of enrolled students who had direct contact with the employee and include, at a minimum, the name and specific charges against the employee.

Materials relating to work performance, discipline, or dismissal must be reduced to writing and signed by an individual competent to know the facts or make the judgment. In cases of separation due to termination or resignation in lieu of termination, the person shall execute and maintain an affidavit of separation, on the form adopted by the Florida Department of Education, setting forth in detail the facts and reasons for such separation. The affidavit must expressly disclose when separation is due to a report of sexual misconduct with a student. The affidavit of separation must be executed under oath and constitutes an official statement within the purview of F.S. 837.06. The affidavit of separation must include conspicuous language that intentional false execution of the affidavit constitutes a misdemeanor of the second degree.

Regardless of the status of an investigation, any legally sufficient complaint will be filed in writing with Florida Department of Education (FLDOE) within thirty (30) days after the date on which the subject matter of the complaint comes to the attention of the District pursuant to F.S. 1012.796(1, d, 1). A complaint is legally sufficient if it contains ultimate facts that show a violation has occurred as provided in F.S. 1012.795 and defined by rule of the State Board of Education.

Any material that is derogatory to an employee shall not be open to inspection for an additional ten (10) days after the employee has been notified either:

A. by certified mail, return receipt requested, to the employee's ~~his/her~~ address of record; or

B. by personal delivery. The employee's signature on a copy of the materials to be filed shall be proof that such materials were given to the employee, with the understanding that such signature merely signifies receipt and does not necessarily indicate agreement with its contents.

No record in a personnel file which is confidential and exempt from inspection and copying pursuant to applicable law shall be disclosed except as provided by applicable law.

The Superintendent shall maintain a record in each personnel file of those persons reviewing the files each time they are reviewed.

A copy of each such entry shall be given to the employee upon request.

The employee shall have access to the employee's ~~his/her~~ file upon request.

The related procedures manual is entitled Personnel File Procedures.

2520 - SELECTION AND ADOPTION OF INSTRUCTIONAL MATERIALS

The School Board adopts courses of study pursuant to State law. When adopting courses of study, State law also requires the Board to adopt and provide adequate instructional materials to students enrolled in the District.

"Adequate instructional materials" means a sufficient number of student or site licenses or sets of materials that are available in bound, unbound, kit, or package form and may consist of hard-backed or soft-backed textbooks, electronic content, consumables, learning laboratories, manipulatives, electronic media, and computer courseware or software that serves as the basis for instruction for each student in the core courses of mathematics, language arts, social studies, science, reading, and literature.

Furthermore, Federal law requires the Board to provide accessible instructional materials as specified in a student's Individualized Education Program (IEP). Such accessible instructional materials may be of a type or in a format as specified in the definition of adequate instructional materials in this policy.

As required by State law, instructional materials adopted and used in the District shall be consistent with the goals and objectives in the District's adopted course of study and with the course descriptions established by State Board rule. The Board is responsible for the content of all instructional materials and any other materials used in a classroom, made available in a school library, or included on a reading list. Upon written request, an individual will be provided access to material or books specified in the written request that are maintained in a District library if such material or books are available for review. The school principal shall arrange for a convenient time to provide such access.

The Superintendent shall develop administrative procedures that set forth a process to involve staff in the review and evaluation of instructional materials. The staff involved in this process shall recommend to the Superintendent for submission to the Board for adoption the instructional materials that address the goals and objectives for adopted courses of study and the course descriptions established by State Board rule. The instructional materials shall be from the State-adopted instructional materials list if there has been a State adoption or from publishers and other resources if there has not been a State adoption.

The Superintendent's procedures shall also prescribe the process for the acquisition, management, use, accountability, and reporting requirements of all instructional materials.

Adoption of Instructional Materials

Prior to submitting a recommendation to the Board regarding the recommended instructional materials, those materials will be accessible for review online for at least twenty (20) calendar days prior to the open publicly noticed meeting at which a public hearing will be held so that the Board can receive comment, if any, about the instructional material under consideration for adoption. The Superintendent shall establish reasonable safeguards against the unauthorized use, reproduction, and distribution of the instructional material under consideration.

Following the public hearing, the Board may act upon the Superintendent's recommendation to adopt the instructional materials.

At an open publicly noticed meeting following the meeting at which the instructional material is adopted, the Board shall consider a recommendation to approve an annual instructional materials plan that identifies any instructional materials to be purchased pursuant to the instructional materials review process described herein.

The Superintendent shall maintain a list of all adopted instructional materials.

Purchase of Instructional Materials

Following adoption by the Board, requisitions shall be issued to purchase current instructional materials from the State-adopted instructional materials list so that each student in kindergarten through grade 12 will have a major tool of instruction in core courses of the subject areas of mathematics, language arts, science, social studies, reading, and literature. Any materials purchased shall be free of pornography and material prohibited under F.S. 847.012, suited to student needs and their ability to comprehend the material presented, and appropriate for the grade level and age group for which the materials are used or made available.

Requisitions shall also be issued to purchase instructional materials that will be the major tool of instruction for subjects in the State Course Code Directory for which the Board has adopted courses of study, but for which there are no materials on the State-adopted instructional materials list.

The Superintendent shall approve these purchases.

In any year in which the total instructional materials allocation for District has not been expended or obligated prior to June 30th, the unobligated amount shall be carried forward and added to the next year's allocation.

The District shall maintain on its website a current list of instructional materials, by grade level, purchased by the District.

Presentations to Students

Presentations to individuals or students by outside groups are deemed to be instructional, and as such, are subject to principal approval. These presentations must support the District curriculum and be approved by the principal in writing.

Achieving Desired Results from Instructional Materials

To achieve the desired results, the instructional materials must conform to the following:

A. be used as designed, including the recommended protocols of the time required;

B. support the current Florida State standards and District curriculum;

C. be culturally relevant;

D. be used in such a way that appropriate instructional practices meet the needs of all students, included ESE (Exceptional Student Education), ELL (English Language Learners), and gifted;

E. be the most current materials whether adopted, non-adopted, or ancillary;

F. contribute to achieving the District's mission and strategic objectives;

G. be included as part of teachers' lesson plans.

Criteria for Evaluation of Instructional Materials

This inventory includes materials purchased for use in place of State adopted items. The annual instructional materials inventory shall be completed through the District's approved software program for textbook inventory.

B. Each school shall complete and submit reports showing "0" quantity of unaccounted titles along with a list of lost/unaccounted materials to the District Instructional Materials Office to substantiate that the school's instructional materials inventory is complete. Items marked as "unaccounted for" shall remain marked as such in the inventory record for the duration of the adoption for the subject.

Accountability

A. Each District school is accountable to the Board for the replacement or reimbursement of all lost State adopted and District recommended instructional materials.

B. If a student fails to pay for lost or damaged instructional materials either through monetary payment or community service, the principal may suspend the student from participating in extra-curricular activities until the obligation is satisfied.

C. All instructional materials purchased with District or school funds remain the property of the School District and must be retained at the site. Teachers to whom materials are checked out must return these materials before transferring to another school or leaving the District. Teachers will be required to pay for lost or damaged materials. Materials lost by students or teachers will be replaced by the purchase of a duplicate copy in good condition for the first two (2) years after being marked lost or until the end of the adoption whichever comes first or payment of 100% of the original cost. This obligation shall remain open and active until satisfied.

The District's "Code of Student Conduct" will include reference to the student's responsibility for lost books. The school will ensure that the school's teacher handbook includes reference to the teacher's responsibility regarding instructional materials loaned to them for use.

E. The following Florida statute should be included in both student and teacher handbooks. Responsibility of students and parents for instructional materials are as follows:

1. All instructional materials purchased under the provisions of this part are the property of the District. When distributed to the students, these instructional materials are on loan to the students while they are pursuing their courses of study and are to be returned at the direction of the school principal or the teacher in charge. Each parent of a student to whom or for whom instructional materials have been issued, is liable for any loss or destruction of, or unnecessary damage to, the instructional materials or for failure of the student to return the instructional materials when directed by the school principal or the teacher in charge and shall pay for such loss, destruction, or unnecessary damage as provided by law.

2. Nothing in this part shall be construed to prohibit parents from exercising their right to purchase instructional materials from the School District.

Sale of Instructional Materials

A. The Board does not keep an inventory of instructional materials used in the District's schools for loan or sale to community members.

Replacement and Purchase of Instructional Materials by Students/Parents

Students shall be held responsible for the cost of replacing any instructional materials lost, destroyed, or unnecessarily damaged. Failure to provide payment for the damage or loss may result in the suspension of the student from participation in extra-curricular activities, or the debt may be satisfied by the student performing community service activities at the school site as determined by the school principal.

A student or his/her parent(s) may purchase a copy of the designated course instructional materials, regardless of format, for the District's purchase price, including shipping, plus ten percent (10%).

Cost of materials may be charged for materials used in those activities beyond the basic curriculum in which a student elects to participate, particularly in activities where the product becomes the property of the student.

The following individuals may file an objection to the adoption of a specific instructional material:

A. parents of students in the District; and

B. residents of the county.

For purposes of this policy, "resident" means a resident of the county who has maintained his/her residence in Florida for the preceding year, has purchased a home that is occupied by him/her as his/her residence, or has established a domicile in Florida pursuant to F.S. 222.17.

Filing a Petition

A parent or resident must file a petition with the Board within thirty (30) calendar days after the Board's adoption of specific instructional material on a form provided by the Board. The petition form shall be publicly available by visiting any school in person or by accessing the link on the Board's website. The petition must be signed by the parent or resident, include the required contact information, and state the objection to the instructional material based on the criteria set forth in F.S. 1006.31(2) or 1006.40(3)(d).

When the thirty (30) calendar day period following Board adoption of the instructional material in question has expired, the Board will conduct at least one (1) open public hearing before an unbiased and qualified hearing officer for all timely petitions received.

Hearing Officers

Hearing officers are not employees or agents of the District with the exception of any agreement entered into for purposes of conducting the hearings set forth herein. Hearing officers shall be selected annually by the Board from a list of candidates provided by the Superintendent.

Petitioners will have an adequate and fair opportunity to be heard and present evidence to the hearing officer. Hearings shall be conducted as follows:

A. The petitioner may make an opening statement.

B. The District's representative may make an opening statement.

C. The petitioner may present evidence (including documents and testimony from witnesses) that instructional material does not meet the criteria of F.S. 1006.31(2) or 1006.40(3)(d) if it was selected for use in a course or otherwise made available to students in the School District but was not subject to the public notice, review, comment, and hearing procedures under F.S. 1006.283(2)(b)8., 9., and 11.

E. The petitioner may make a closing statement.

F. The District representative may make a closing statement.

Within fourteen (14) days of the date of the hearing, the hearing officer shall submit a recommended order to the Board. The Board shall consider the recommended order and enter a final order at a publicly noticed Board meeting. If the petitioner proves that instructional material does not meet the criteria required under F.S. 1006.28, or contains prohibited material under that statute, it shall be removed in accordance with Florida law. The Board's decision is final and not subject to further petition or review.

Hearings under this policy are not subject to the provisions of F.S. Chapter 120.

Parent and Resident Objections to Instructional Material Used in Classrooms, Made Available in a School Library, or Included on a Reading List

Parents and residents of the county may object to the use of a specific instructional material in the classroom, made available in a school library, or included on a reading list based on the criteria set forth in F.S. 1006.28(2)(a)2. or F.S. 1014.05(1)(c).

For purposes of this policy, "resident" means a resident of the county who has maintained their residence in Florida for the preceding year, has purchased a home that is occupied them as their residence, or has established a domicile in Florida pursuant to F.S. 222.17.

Parents and residents of the county should make any such objection in writing to the principal identifying the specific instructional material and stating the basis for the objection.

The principal will review the objection and may meet with the teacher or objector, or both, in an attempt to resolve the objection, which may include using an alternative instructional material. If the objection is not resolved to the objector's satisfaction, the principal shall refer the matter to the appropriate District-level curriculum supervisor.

The District-level curriculum supervisor will meet with the objector and attempt to resolve the objection. If the objection is still not resolved to the objector's satisfaction, the matter will be referred for a hearing, using the hearing procedures set forth in Policy 2520.

If the Board finds that the instructional material does not meet the criteria under F.S. 1006.28(2)(a)2.a. or that any other material contains prohibited content under F.S. 1006.28(2)(a)2.b., the district will discontinue use of the material for any grade level or age group for which such use is inappropriate or unsuitable. The decision of the Board shall be final.

Free School-Related Instructional Materials

Free instructional materials may be accepted for classroom and school purposes under conditions that meet all the following criteria:

A. The initiative for securing the materials should be of the type that teachers seek rather than materials forwarded to them to promote the interests of an outside agency.

B. The materials should fill a legitimate purpose of the school curriculum.

C. The advertising feature of the materials should be minimized.

D. Educational films should contain a minimum amount of commercial advertising.

Equipment or Instructional Materials Vendors

The principal may permit vendors to demonstrate and show only that equipment and instructional materials which can be used to improve the instructional program and which are under consideration for purchase by the school.

New Worlds Reading Initiative

The New Worlds Reading Initiative, created by the Florida Department of Education, provides high-quality, free books directly to K-5 students who score below a level 3 in the preceding year's statewide English Language Arts Assessment (ELA), or having a substantial reading deficiency. The school district must notify parents of eligible students in writing and provide them with the application form, which must allow for the selection of specific book topics or genres for the student. The district must coordinate monthly book deliveries with the program administrator beginning no later than October and continuing through at least June. However, for the 2021-2022 school year only, delivery may begin no later than December 31, 2021. The district must participate in the initiative by partnering with local nonprofit organizations and raising awareness by using marketing materials provided by the program administrator. A student's eligibility for the initiative continues until promotion to grade 6 or until the parent opts out of the initiative.

The District shall coordinate with each charter school it sponsors for the purposes of identifying eligible students, notifying parents, coordinating book deliveries, providing the opportunity to annually select book topics and genres, and raising awareness of the initiative.

5780 - **STUDENT/PARENT RIGHTS**

The School Board recognizes that students possess not only the right to an education but the rights of citizenship as well. Federal and State law prohibits the Board from adopting any policy or rule, or from entering into any agreement, that infringes upon or waives the rights of freedoms afforded to students by the United States Constitution.

In providing students the opportunity for an education to which they are entitled, the District shall attempt to offer nurture, counsel, and custodial care appropriate to their age and maturity. The District shall, at the same time, guarantee that no student is deprived of the basic right to equal treatment and equal access to the educational program, due process, a presumption of innocence, free expression and association, and the privacy of his/her own thoughts.

Attendant to the rights guaranteed to each student, however, are certain responsibilities, which include respect for the rights of others, obedience to properly constituted school authority, and compliance with the procedures and rules of the District.

Since a student who has reached the age of majority possesses the full rights of an adult, **they** ~~**s/he**~~ may authorize those school matters previously handled by **their** ~~**his/her**~~ parents, but **the student** ~~**s/he**~~ also assumes the responsibility for **their** ~~**his/her**~~ performance in school, attendance, and compliance with school rules.

All K-12 students in Florida are entitled to a uniform, safe, secure, efficient, and high-quality system of education, one that allows students the opportunity to obtain a high-quality education. Parents are responsible to ready their children for school; however, neither the State of Florida nor the District can be a guarantor of any individual student's success.

Parental Access at School

Each parent has the right to pick-up, visit, and meet with **their** ~~**his/her**~~ student at school, without interference of or the need for consent from the other parent, unless the school has received a certified copy of an enforceable court order that provides to the contrary. The Principal may restrict the times, location, frequency, and length of parent visitations at school, based on legitimate pedagogical or scheduling reasons. The District will abide by enforceable "no contact orders" which have been provided to the school.

Educational Decisions

Both parents have an equal right to make decisions about the education and welfare of their student unless the school has received a certified copy of an enforceable court order that specifies that one of the parents, or someone else, has the sole right to make educational and/or general welfare decisions for the student.

If the parents cannot agree on a significant decision about the student's education or on matters affecting the health, safety, or welfare of the student, the school will take action based on what it considers to be in the best interests of the child.

Attendance

A. Termination of Enrollment

A student who attains the age of sixteen (16) years during the school year has the right to file a formal declaration of intent to terminate school enrollment if the declaration is signed by the parent. The parent has the right to be notified by the District of its receipt of the student's declaration of intent to terminate school enrollment.

B. Married or Pregnant

Students who become or have become married or who are pregnant and parenting have the right to attend school and receive the same or equivalent educational instruction as other students.

C. Compulsory Attendance

Parents of students who have attained the age of six (6) years by February 1st of any school year

but who have not attained the age of sixteen (16) years must comply with the compulsory school attendance laws. Parents have the option to comply with the school attendance laws by attendance of the student in a public school; a parochial, religious, or denominational school; a private school; a home education program; or a private tutoring program. (see also Policy 5112 - Entrance Requirements)

D. Absence for Religious Purposes

A parent of a student may request and be granted permission for absence of the student from school for religious instruction or religious holidays. (see also Policy 5225 - Absences for Religious Holidays)

E. Dropout Prevention and Academic Intervention Programs

The parent of a student has the right to receive written notice by certified mail prior to placement of the student in a dropout prevention and academic intervention program. The parent will be notified in writing and entitled to an administrative review of any action by school personnel relating to the student's placement.

F. Absence for Treatment of Autism Spectrum Disorder

A parent of a student may request and be granted permission for absence of the student from school for an appointment scheduled to receive a therapy service provided by a licensed health care practitioner or behavior analyst certified pursuant to Florida law for the treatment of autism spectrum disorder including, but not limited to, applied behavioral analysis, speech therapy, and occupational therapy.

Health Issues

A. **Notice of Health Care Services**

At the beginning of the school year, the District will provide notice to parents of all health care services offered at their student's school and of the option to withhold consent to or decline any specific service. Before administering a student well-being questionnaire or health screening form to a student in kindergarten through grade 3, the District will provide the questionnaire or form to the parent and obtain the permission of the parent.

B. School-Entry Health Examinations

The parent of any student shall be exempt from the requirement of a health examination upon written request stating objections on religious grounds. (see also Policy 5112 - Entrance Requirements)

C. Immunizations

The parent of any student shall be exempt from the school immunization requirements upon meeting any of the specified exemptions. (see also Policy 5320 - Immunizations and Policy 5112 - Entrance Requirements)

H. Substance Abuse Reports

The parent of a student must be timely notified of any verified report of a substance abuse violation by the student.

I. Inhaler Use

Asthmatic students whose parent and physician provide their approval to the school Principal may carry a metered dose inhaler on their person while in school. The school Principal shall be provided a copy of the parent's and physician's approval. (see also Policy 5330.01 - Self-Administered Medication and Epinephrine Use)

J. Epinephrine Use and Supply

A student who has experienced or is at risk for life-threatening allergic reactions may carry an epinephrine auto-injector and self-administer epinephrine by auto-injector while in school, participating in school-sponsored activities, or in transit to or from school or school-sponsored activities if the school has been provided with written parental and physician authorization.

The School District shall be indemnified by the parent of a student who is authorized to carry an epinephrine auto-injector for any and all liability with respect to the student's use of an epinephrine auto-injector pursuant to this policy.

The District and its employees and agents, including the physician who provides the standing protocol for school epinephrine auto-injectors, are not liable for any injury arising from the use of an epinephrine auto-injector administered by trained school personnel who follow the adopted protocol and whose professional opinion is that the student is having an anaphylactic reaction:

1. unless the trained school personnel's action is willful and wanton;

2. notwithstanding that the parents or guardians of the student to whom the epinephrine is administered have not been provided notice or have not signed a statement acknowledging that the School District is not liable; and

3. regardless of whether authorization has been given by the student's parents or guardians or by the student's physician, physician's assistant, or advanced registered nurse practitioner.

(see also Policy 5330.01 - Self-Administered Medication and Epinephrine Use)

K. Diabetes Management

The District may not assign a student who has diabetes to a particular school on the basis that the student has diabetes, that the school does not have a full-time school nurse, or that the school does not have trained diabetes personnel.

Diabetic students whose parent and physician provide their written authorization to the school Principal may carry diabetic supplies and equipment on their person and attend to the management and care of their diabetes while in school, participating in school-sponsored activities, or in transit to

or from school or school-sponsored activities, to the extent authorized by the parent and physician and within the parameters set forth by State Board of Education rule. The written authorization shall identify the diabetic supplies and equipment that the student is authorized to carry and shall describe the activities the child is capable of performing without assistance, such as performing blood-glucose level checks and urine ketone testing, administering insulin through the insulin-delivery system used by the student, and treating hypoglycemia and hyperglycemia.

The District and its employees and volunteers shall be indemnified by the parent of a student who is authorized to carry diabetic supplies or equipment for any and all liability with respect to the student's use of such supplies and equipment pursuant to this policy.

(see also Policy 5330.01 - Self-Administered Medication and Epinephrine Use)

L. Use of Prescribed Pancreatic Enzyme Supplements

A student who has experienced or is at risk for pancreatic insufficiency or who has been diagnosed as having cystic fibrosis may carry and self-administer a prescribed pancreatic enzyme supplement while in school, participating in school-sponsored activities, or in transit to or from school or school-sponsored activities, IF the school has been provided with written authorization from the student's parent and prescribing practitioner.

(see also Policy 5330.01 - Self-Administered Medication and Epinephrine Use)

M. Involuntary Examinations of Students

Before a Principal contacts a law enforcement officer for possible removal of a student from school for involuntary examination, the Principal must verify that the school has used de-escalation strategies and initiated outreach to a mobile response team, unless the Principal reasonably believes that any delay in removing the student will increase the likelihood of harm to the student or others.

The Principal shall make a reasonable attempt to notify a parent of a student before the student is removed from school, school transportation, or a school-sponsored activity to be taken to a receiving facility for an involuntary examination pursuant to F.S. 394.463. Reasonable attempt to notify means the exercise of reasonable diligence and care by the Principal to make contact with the student's parent, guardian, or other known emergency contact whom the student's parent or guardian has authorized to receive notification of an involuntary examination. At a minimum, the Principal must take the following actions:

1. Use available methods of communication to contact the student's parent, guardian, or other known emergency contact including, but not limited to, telephone calls, text messages, e-mails, and voicemail messages following the decision to initiate an involuntary examination of the student;

2. Document the method and number of attempts made to contact the student's parent, guardian, or other known emergency contact, and the outcome of each attempt.

The Principal who successfully notifies any other known emergency contact may share only the information necessary to alert such contact that the parent or caregiver must be contacted. All such information must be in compliance with federal and state law.

The Principal may delay the required notification for no more than twenty-four (24) hours after a student is removed if:

1. the Principal deems the delay to be in the student's best interest and if a report has been submitted to the central abuse hotline, pursuant to F.S. 39.201, based upon knowledge or suspicion of abuse, abandonment, or neglect. (see also Policy 2410 - School Health

Services); or

2. the Principal reasonably believes that such delay is necessary to avoid jeopardizing the health and safety of the student.

M. Sun-protective Measures in School

A student may possess and use a topical sunscreen product while on school property or at a school-sponsored event or activity without a physician's note or prescription if the product is regulated by the United States Food and Drug Administration for over-the-counter use to limit ultraviolet light-induced skin damage.

N. **Face Covering and Quarantine Mandates in Response to COVID-19**

Neither the Board nor any agent or employee of the Board may:

1. **require a student to wear a face mask, a face shield, or any other facial covering that fits over the mouth or nose. However, a parent, at the parent's sole discretion, may allow his/her child to wear a face mask, a face shield, or any other facial covering that fits over the mouth or nose;**

   This prohibition does not apply to safety equipment required as part of a course of study consistent with occupational or laboratory safety requirements.

2. **prohibit a student from attending school or school-sponsored activities, prohibit a student being on school property, or subject a student to restrictions or disparate treatment, based on an exposure to COVID-19, so long as the student remains asymptomatic and has not received a positive test for COVID-19.**

O. **Naloxone Use and Supply**

Schools may purchase a supply of the opioid antagonist naloxone from a wholesale distributor as defined in F.S. 499.003 or may enter into an arrangement with a wholesale distributor or manufacturer as defined in F.S. 499.003 for naloxone at fair-market, free, or reduced prices for use in the event that a student has an opioid overdose. The naloxone must be maintained in a secure location on the school's premises.

Discipline

A. Suspension

A student may be suspended only as provided by policy of the District. A good faith effort must be made to immediately inform the parent by telephone of the student's suspension and the reason. Each suspension and the reason must be reported in writing within twenty-four (24) hours to the parent by United States mail. A good faith effort must be made to use parental assistance before suspension unless the situation requires immediate suspension.

A student with a disability may only be recommended for suspension or expulsion in accordance with State Board of Education rules.

B. Expulsion

Public school students and their parents have the right to written notice of a recommendation of

expulsion, including the charges against the student and a statement of the right of the student to due process.

If an in-field teacher for the student's course and grade level is employed by the school and the transfer would not violate maximum class size requirements, the request shall be approved. The student shall be transferred no later than two (2) weeks from the date Form 5780 F3 is received.

If denied, the Principal shall specify the reasons for the denial.

ACCEL Options

Parents may request student participation in Academically Challenging Curriculum to Enhance Learning (ACCEL) options, including whole grade promotion, midyear promotion or subject matter acceleration. 8141 - **MANDATORY REPORTING OF MISCONDUCT**

The School Board recognizes its responsibilities to effectively address employee misconduct and, where determined appropriate, to provide a measured disciplinary response consistent with due process.

For purposes of this policy, the term "employee(s)" includes all employees of the District and officers of the District as defined in F.S. 1012.01.

Reporting Misconduct

All employees are required to report to the Superintendent alleged misconduct by District employees which affects the health, safety, or welfare of a student, including misconduct that involves engaging in or soliciting sexual, romantic, or lewd conduct with a student.

If the alleged misconduct to be reported is regarding the Superintendent, the District employee shall report the alleged misconduct to the Board attorney. Failure to report such alleged misconduct shall result in appropriate disciplinary action (F.S. 1012.796[d]).

The Superintendent shall investigate any allegation of misconduct by District employees which affects the health, safety, or welfare of a student, including misconduct that involves engaging in or soliciting sexual, romantic, or lewd conduct with a student, and shall report the alleged misconduct to the Department of Education as required in F.S. 1012.796, 1001.51(12, b), 1001.42(7, b), and must notify the Florida Department of Education of the result of the investigation and whether the misconduct warranted termination, regardless of whether the person resigned or was terminated before the conclusion of the investigation.

Staff alleged to have committed such misconduct shall be reassigned pending the outcome of a misconduct investigation.

Parental Notification of Alleged Misconduct

Within thirty (30) days of the date on which the District learns of misconduct by instructional personnel, educational support personnel, and school administrators that affects the health, safety, or welfare of a student, including misconduct that involves engaging in or soliciting sexual, romantic, lewd conduct with a student, or any conduct that would result in disqualification from educator certification or employment as provided in F.S. 1012.315, the parent of a student who was subjected to or affected by such misconduct shall receive notification informing the parent of the following:

A. the alleged misconduct, including which allegations have been substantiated, if any;

B. whether the District reported the misconduct to the FLDOE if required by F.S. 1012.796;

C. the sanctions imposed by the District against the employee, if any; and

D. support the District will make available to the student subjected to or affected by the misconduct.

Parental notification shall be provided consistent with the provisions set forth in Policy 1590, Policy 3590, and Policy 4590, including the statutory requirement that school administrators, educational support personnel, and instructional staff members be provided ten (10) days notice before the disclosure of derogatory material.

Parental Notification of Arrests of Employees

Notwithstanding F.S. 1012.31(3)(a)1 and 1012.796(4), within twenty-four (24) hours after a law enforcement agency provides the Superintendent with written notification pursuant to F.S. 1012.797 that a District employee has been arrested for a felony or a misdemeanor involving the abuse of a minor child or the sale or possession of a controlled substance, the Principal shall notify parents of enrolled students who had direct contact with the employee and include, at a minimum, the name and specific charges against the employee.

Filing a Complaint with the Department of Education

If it is alleged that an instructional staff member, educational support personnel, or administrator has committed a violation as provided in F.S. 1012.795, and defined by rule of the State Board of Education, the Superintendent shall file with the Department of Education a legally sufficient complaint within thirty (30) days after the date on which the subject matter of the complaint came to the attention of the Superintendent, regardless of whether the subject of the complaint is still an employee of the District. A complaint is legally sufficient if it contains ultimate facts that show a violation has occurred as provided in F.S. 1012.795 and defined by rule of the State Board of Education. The Superintendent shall include all known information relating to the complaint with the filing of the complaint. This paragraph does not limit or restrict the power and duty of the Department of Education to investigate complaints, regardless of the District's untimely filing, or failure to file, complaints and follow-up reports (F.S. 1012.796[e]).

Report of Resignation or Termination

If the Superintendent determines that a legally sufficient complaint of misconduct by an instructional staff member or an administrator who holds a certificate issued by the Florida Department of Education, or by any educational support personnel that affects the health, safety, or welfare of a student and the misconduct warrants termination, the staff member may resign or be terminated and the Superintendent must immediately report the misconduct to the Department of Education in the format prescribed by the Department even if the instructional staff member, educational support personnel, or administrator resigns or is terminated before the conclusion of the District's investigation. The Department shall maintain each report of misconduct as a public record in the instructional personnel's certification files (F.S. 1012.796[d]).

Transmittal of False or Incorrect Report

The Superintendent shall not knowingly sign and transmit to any State official a report that the Superintendent knows to be false or incorrect.

The superintendent may not knowingly sign and transmit to any state official a report that the superintendent knows to be false or incorrect or knowingly fail to complete the investigation of any allegation of misconduct, that affects the health, safety, or welfare of a student, that would be a violation of F.S. 800.101 or that would be a disqualifying offense under F.S. 1012.315, or any allegation of sexual misconduct with a student. The superintendent may not knowingly fail to report the alleged misconduct to the Florida Department of Education as required in F.S. 1012.796, or knowingly fail to report misconduct to the law enforcement agencies with jurisdiction over the conduct pursuant to the Board policy under F.S. 1001.42.

Pursuant to F.S. 1001.42(7), a Board member may not knowingly sign and transmit to any State official a report of alleged misconduct by instructional personnel, educational support personnel, or school administrators which affects the health, safety, or welfare of a student which the Board member knows to be false or incorrect.

Requirement of Disclosure of Employee Misconduct

The Board, Superintendent, or any other District employee, may not enter into a confidentiality agreement regarding terminated or dismissed instructional personnel, educational support personnel, or school administrators, or personnel or administrators who resign in lieu of termination, based in whole or in part on misconduct that affects the health, safety, or welfare of a student, and may not provide instructional or educational support personnel, or administrators with employment references or discuss the personnel's performance with prospective employers in another educational setting, without disclosing the personnel's or administrators' misconduct. Any part of an agreement or contract that has the purpose or effect of concealing misconduct by instructional or educational support personnel or administrators that affects the health, safety, or welfare of a student is void, is contrary to public policy, and may not be enforced (F.S. 1001.42[6]).

Posting Requirements

Pursuant to F.S. 1006.061(2), this policy shall be posted in a prominent place at each school site and on each school's internet website, so that the policy and procedures for reporting alleged misconduct by instructional or educational support personnel or school administrators that affects the health, safety, or welfare of a student; the contact person to whom the report is made; and the penalties imposed on

instructional or educational support personnel or school administrators who fail to report suspected or actual child abuse or alleged misconduct by other instructional or educational support personnel or school administrators is effectively communicated to all.

Liability

Employees who report misconduct which affects the health, safety, or welfare of a student may be entitled to certain statutory liability protections as set forth in F.S. 39.203 and 768.095.

D. Response to Notice of Suspected Deficiency from the Office of Safe Schools

The School Safety Specialist is responsible for notifying the Superintendent immediately and no later than the same day of receipt of any notice of suspected deficiency the School Safety Specialist receives from the Office of Safe Schools.

When the notice of suspected deficiency concerns a failure to have a Safe-School officer established or assigned at each school facility, as required by F.S. 1006.12, the School Safety Specialist must respond in writing and verify to the Office of Safe Schools that the school(s) identified in the notice have a Safe-School officer on site by the next school day. Recommendations of the School Safety Specialist

Based on the findings of the school security risk assessment, the School Safety Specialist must provide recommendations to the Superintendent and Board which identify strategies and activities that the Board should implement in order to address the findings and improve school safety and security. The School Safety Specialist's report to the Board shall also include school safety recommendations made by public safety agencies. The Board will review the school security risk assessment findings and the recommendations of the School Safety Specialist at a publicly noticed Board meeting to provide the public an opportunity to hear the Board members discuss and take action. The *School Safety and Security Plan* is, however, confidential and is not subject to review or release as a public record.

The School Safety Specialist shall report the school security risk assessment findings and recommendations and the Board's action(s) to the Office of Safe Schools no later than thirty (30) days after the Board meeting and prior to November 1 of each year.

The School Safety Specialist shall also submit a best-practices assessment in the Florida Safe Schools Assessment Tool.

As a part of the *School Safety and Security Plan*, the Board shall verify that it has procedures in place for keeping schools safe and drug-free that include (see also, Form 8330 F15 entitled Checklist of Policies and Guidelines Addressing No Child Left Behind Act of 2001):

A. safety and security best practices;

B. appropriate and effective school discipline policies that prohibit disorderly conduct, the illegal possession of weapons and the illegal use, possession, distribution, and sale of tobacco, alcohol, and other drugs by students;

C. security procedures at school and while students are on the way to and from school;

D. prevention activities that are designed to maintain safe, disciplined and drug-free environments;

E. a code of conduct or policy for all students that clearly states the responsibilities of students, teachers, and administrators in maintaining a classroom environment that:

1. allows a teacher to communicate effectively to all students in the class;

2. allows all students in the class the opportunity to learn;
3. has consequences that are fair, and developmentally appropriate;
4. considers the student and the circumstances of the situation; and
5. is enforced accordingly.

Safety and Security Best Practices

The Superintendent shall develop administrative procedures for the prevention of violence on school grounds, including the assessment and intervention with individuals whose behavior poses a threat to the safety of the school community.

Persistently Dangerous Schools

The Board has set forth the rules with regard to expected behavior in Policy 5500 - Student Conduct and has established the consequences for violating the policy on student conduct in Policy 5600 - Student Discipline. The Board recognizes that not only Federal, but also State law requires that the District report annually incidents which meet the statutory definition of violent criminal offenses that occur in a school, on school grounds, on a school conveyance, or at a school-sponsored activity, as well as those incidents that would be a Gun-Free Schools Act violation. It is further understood that the Florida Department of Education will then use the data for the offenses identified in the Department's Unsafe School Choice Option Policy to determine whether or not a school is considered "persistently dangerous".

Pursuant to the Board's stated intent to provide a safe school environment, school administrators are expected to respond appropriately to any and all violations of the Student Code of Conduct, especially those of a serious, violent nature. In any year where the number of reportable incidents of violent criminal offenses in any school exceeds the threshold number established in State law, the Superintendent shall discuss this at the annual meeting for the purpose of reviewing the *School Safety and Security Plan* so that a plan of corrective action can be developed and implemented in an effort to reduce the number of these incidents in the subsequent year and/or convene a meeting of the building administrator, representative(s) of the local law enforcement agencies, and any other individuals deemed appropriate for the purpose of developing a plan of corrective action that can be implemented in an effort to reduce the number of these incidents in the subsequent year.

The Superintendent shall make a report to the Board about this plan of corrective action and shall recommend approval and adoption of it.

In the unexpected event that the number of reportable incidents in three (3) consecutive school years exceeds the statutory threshold and the school is identified as persistently dangerous, the Superintendent shall offer parents and eligible students the opportunity to transfer to another school within the District that serves the same grades. If there is another school within the District serving the same grades, the transfer shall be completed in a timely manner. If there is not another school within the District that serves the same grades, then parents and eligible students will be advised that, although Federal and State law provides for an opportunity to transfer, they will be unable to do so.

In addition, the Superintendent shall discuss this at the annual meeting for the purpose of reviewing the *School Safety and Security Plan* so that a plan of corrective action can be developed and implemented in an effort to reduce the number of these incidents in the subsequent year and/or convene a meeting of the building administrator, representative(s) of the local law enforcement agencies, and any other individuals deemed appropriate for the purpose of developing a plan of corrective action that can be implemented in an effort to reduce the number of these incidents in the subsequent year.

If a school in a neighboring district is identified as persistently dangerous and there is not another school or public school academy in that district, the District will admit students from that school in accordance with Board Policy 5113.

Victims of Violent Crime

The Board further recognizes that, despite the diligent efforts of school administrators and staff to provide a safe school environment, an individual student may be a victim of a violent crime in a school, on school grounds, on a school conveyance, or at a school-sponsored activity. In accordance with Federal and State laws the parents or the eligible student shall be offered the opportunity to transfer to another school within the District that serves the same grades. If there is another school serving the same grades, the transfer shall be completed in a timely manner. If there is not another school serving the same grades, the parents or eligible student will be advised that, although they have the right to transfer, they will be unable to do so.

Threat Assessment Teams

The purpose of the threat assessment team is to establish a process focusing on behaviors that pose a threat to school safety while serving as a preventative measure to identify needs and provide support to students. This process is also known as a care assessment. Threat assessment teams are responsible for the coordination of resources and assessment and intervention with individuals whose behavior may pose a threat to the safety of school staff or students consistent with the model policies and procedures developed by the Office of Safe Schools which addresses early identification, evaluation, early intervention, and student support.

Each school-based threat assessment team must meet as often as needed to fulfill its duties of assessing and intervening with persons whose behavior may pose a threat to school staff or students, but no less than monthly. Threat assessment teams shall maintain documentation of their meetings, including meeting dates and times, team members in attendance, cases discussed, and actions taken.

A. Location and Membership

1. Threat assessment teams are located at each school in the District and composed of individuals with expertise in counseling, instruction, school administration, and law enforcement.

Curriculum Associates®

Information on Professional Development Sessions and COVID-19

Protecting the health and safety of the educators we serve and their students, as well as the health and safety of our employees, is of paramount importance to Curriculum Associates. While it is our preference to deliver PD sessions in person, circumstances related to COVID-19 may require us to provide sessions virtually instead. Curriculum Associates' policy is to only provide PD sessions in person where one of our employees can reach the session site by car and where adequate safety measures are in place to protect the health of our session leaders and participants. Curriculum Associates reserves the right to switch any session from in-person to virtual if we cannot reach a session site by car, if adequate safety measures cannot be put in place, or if Curriculum Associates determines that it would otherwise put it employees at risk to provide an in-person session.

If your school or district will not permit visitors at the time of a scheduled session, Curriculum Associates would be happy to provide an equivalent live, virtual session via videoconference. Similarly, Curriculum Associates will comply with your school or district's health and safety requirements regarding on-site visitors if we are given adequate advance notice. Our PD Operations team will work with school or district personnel to hold sessions in a manner that protects the safety of educators and your school community as well as Curriculum Associates employees.

We are pleased to be able to serve you in these challenging times and look forward to providing productive learning sessions to your staff. Any questions regarding scheduling in-person or virtual training sessions should be directed to pdoperations@cainc.com.

AGREEMENT FOR PURCHASE AND SALE OF PROPERTY

THIS AGREEMENT FOR PURCHASE AND SALE OF PROPERTY (the "Agreement") is entered into by and between SMR Taylor Ranch, LLC, a Florida limited liability company (hereinafter referred to as "SMR") and **The School Board of Manatee County, Florida,** a public body corporate (hereinafter referred to as "SCHOOL BOARD").

RECITALS

The parties have agreed that SMR will sell to the SCHOOL BOARD, and the SCHOOL BOARD will purchase from SMR, a tract of land for a future elementary school.

The site for the elementary school has been identified and is set forth on **Exhibit "A"** attached hereto as the "Elementary School Site" or the "Property" and is approximately 20 acres in size. However, its final size and configuration has not yet been determined. The final site will be determined as set forth in this Agreement.

The Elementary School Site is a part of a larger tract of land, the development of which is dependent on a change to the Comprehensive Plan and approval of rezoning to a Planned Development designation. The obligation of the SCHOOL BOARD to purchase the Elementary School Site and the obligation of SMR to sell the Elementary School Site is dependent upon approval of such Comprehensive Plan change and rezoning.

AGREEMENT

1. The Recitals and Definitions as hereinbefore set forth are true and accurate and are incorporated herein.

2. The parties acknowledge the adequacy of the consideration for this Agreement in the form of the mutual promises contained herein. Each party is acting in reliance, to its detriment, on said promises in the event this Agreement was to fail.

ARTICLE I – LEGAL DESCRIPTION

The exact legal description and survey sketches of the Elementary School Site will be prepared by the surveyor performing the survey referenced in **Article II, Section 9.** After such legal description and sketch is prepared by the surveyor, and approved by the parties, such legal description and sketch shall be incorporated into the Agreement as **Exhibit "A-R".** The Elementary School Site shall include all improvements of every nature whatsoever located in or on, or attached to, or used or intended to be used in connection with the real property and all easements, rights of way, gores of land, streets, ways, alleys, passages, governmental entitlements, mineral rights including rights of entry, sewer rights, water rights, water courses, drainage rights, and all estates, rights, titles, interests, privileges, liberties, tenements, hereditaments and appurtenances whatsoever, in any way belonging, relating or appertaining to the real property hereinabove described.

ARTICLE II – TRANSFER OF ELEMENTARY SCHOOL SITE

SMR agrees to transfer to the SCHOOL BOARD the Elementary School Site under the terms and conditions hereinafter set forth.

1. Conveyance. SMR shall convey the Elementary School Site by Special Warranty Deed ("Deed") free and clear of all liens and encumbrances ("title defects") except those that are acceptable to the SCHOOL BOARD after review of the title commitment. Possession shall be

delivered at Closing. SMR makes no warranty or representation that any particular use is allowed on the Elementary School Site**.** The provisions of this **Article II Section 1** shall specifically survive the closing hereof.

2. Purchase Price. The purchase price shall be determined by an appraisal process as set forth in **Article II Section 3** below.

3. Appraisal. Purchase Price shall be determined by the average of two (2) appraisals of the Elementary School Site by two MAI appraisers, with one selected and paid for by each of the parties hereto, which appraisers perform significant appraisal work in Manatee County, Florida. The appraisals and determination of the Purchase Price shall be performed and established during the Feasibility Period set forth in **Article II Section 7** below.

4. Earnest Money. The SCHOOL BOARD shall deposit the sum of Ten Thousand Dollars ($10,000.00) as an Earnest Money Deposit with the Escrow Agent identified in **Article III Section 7** herein within five (5) business days after the Effective Date of this Agreement. The Earnest Money Deposit shall be held by Escrow Agent and returned at Closing, or otherwise distributed for costs in accordance with this Agreement.

5. Title Insurance. No later than ten (10) business days from the Effective Date hereof, SMR shall deliver to the SCHOOL BOARD any existing survey, or alternatively a sketch of the Elementary School Site produced by a surveyor that is of sufficient detail to allow a title company to identify and perform a title search on said parcel at normal search rates. No later than forty five (45) days from the Effective Date hereof, the SCHOOL BOARD shall obtain a title insurance commitment, if desired ("Title Commitment") from a title insurance company (the "Title Company") of its choosing and licensed to do business in the State of Florida, pursuant to the terms of which the title insurance company commits to issue to the SCHOOL BOARD a title insurance policy on the Elementary School Site in the amount of the Purchase Price, free and clear of all liens and encumbrances ("title defects") except for those title defects that are acceptable to the SCHOOL BOARD, which shall be deemed a "Permitted Exception" and listed in the Special Warranty Deed as such. A copy of the Title Commitment and all exceptions and other property data will be furnished to SMR in the event of a title objection. The SCHOOL BOARD shall pay all costs related to the title insurance commitment and policy.

6. Title Defects: Time for Curing. The SCHOOL BOARD shall, within ten (10) business days after delivery of its title commitment, notify SMR of any objections to title other than those to which the conveyance, as stated above, is to be specifically subject. If SMR is notified of existing defects in title, other than those to which the conveyance is, as above provided, to be made subject, and other than those for which recordable discharges are, in accordance with local customs, to be furnished at the Closing, then SMR shall have thirty (30) days after receipt of notice thereof to correct the title defect(s) in order to convey title as required to be provided in this Agreement. If, at the end of such time, title has not been so perfected, The SCHOOL BOARD may, at its option and within five (5) business days after the expiration of said thirty (30) day period, either accept title in the condition that it is then in or terminate this Agreement. Failure of a party to elect, within said five (5) business days period, to accept title, shall constitute its election to terminate this Agreement. SMR shall make a diligent, good faith effort to cure any title objections. SMR may request and shall receive a thirty (30) day extension to the initial thirty (30) days, provided it is taking reasonable efforts to correct any said defects.

7. Feasibility Period and Final Review Period.

a.) The SCHOOL BOARD shall have one hundred twenty (120) days from and after the Effective Date in which to investigate the Elementary School Site for its suitability ("Feasibility Period"). Within five (5) business days after the Effective Date, SMR shall provide SCHOOL BOARD with copies of all plans, environmental studies, surveys, and permits for Elementary School Site. During the Feasibility Period, the SCHOOL BOARD, for any reason, may elect to terminate this Agreement, in which event, this Agreement shall be null and void and of no further force and effect. The SCHOOL BOARD may elect to accept Elementary School Site prior to the expiration of the Feasibility Period by notifying SMR in writing of its acceptance. If the SCHOOL BOARD has not previously notified the SMR regarding acceptability of the SMR Lands, within five (5) business days after the expiration of the Feasibility Period, the SCHOOL BOARD will notify SMR whether or not Elementary School Site is acceptable**.** Failure of the SCHOOL BOARD to notify SMR within ten (10) business days after the expiration of the Feasibility Period shall be deemed an acceptance of the Elementary School Site by the SCHOOL BOARD for feasibility purposes.

SCHOOL BOARD shall have the right to extend the Feasibility Period for an additional sixty (60) days with notice by the Superintendent to SMR prior to expiration of the initial Feasibility Period (the "Extended Feasibility Period").

If the SCHOOL BOARD terminates this Agreement during the Feasibility Period or Extended Feasibility Period, if applicable, then the Earnest Money Deposit shall be returned by the Escrow Agent provided no default exists.

b.) SMR shall diligently pursue at its expense the rezoning of SMRs surrounding property including the Elementary School Site to planned development with approval of a General Site Plan (GDP), and the SCHOOL BOARD shall have sixty (60) days to determine whether the zoning allows the development of a school site as contemplated in this Agreement, including review of any stipulations placed on the site ("Final Review Period"). If the SCHOOL BOARD determines in its reasonable discretion that the site is not suitable for an elementary school, the SCHOOL BOARD may elect to terminate this Agreement, in which event, this Agreement shall be null and void and of no further force and effect. Within ten (10) business days after the expiration of the Final Review Period, the SCHOOL BOARD will notify SMR whether or not the Elementary School Site is acceptable**.** Failure of the SCHOOL BOARD to notify SMR within ten (10) business days after the expiration of the Final Review Period shall be deemed an acceptance of the Elementary School Site by the SCHOOL BOARD. SMR shall give School Board staff regular status updates on the County rezoning process.

If the SCHOOL BOARD terminates this Agreement during the Final Review Period, then the Earnest Money Deposit shall be returned by the Escrow Agent provided no default exists.

8. Manatee County Approval. As a condition of closing, the SCHOOL BOARD must have received a determination of consistency with the Comprehensive Plan from Manatee County for Elementary School Site as a public school site ("County Approval"). If necessary, such approval shall be sought through a joint application of the SCHOOL BOARD and SMR.

The SCHOOL BOARD shall pursue the receipt of such approval during the Final Review Period. The SCHOOL BOARD will have until the completion of the Final Review Period to secure County Approval. SMR shall cooperate with the SCHOOL BOARD in the permitting process, including the reasonable execution of required applications at no cost to SMR. The SCHOOL BOARD shall have reasonable extensions of time to secure the County Approval due to scheduling conflicts with Manatee County. In the event the SCHOOL BOARD does not secure County

approval, this Agreement shall be null and void and of no further force and effect and the Earnest Money Deposit shall be returned by the Escrow Agent provided no default exists.

9. Survey. Within sixty (60) days of the end of the Final Review Period set forth in **Article II Section 7**; i) the SCHOOL BOARD agrees to have an ALTA survey prepared of the Elementary School Site and will deliver a copy to SMR. The survey shall be certified to the SCHOOL BOARD, the title insurance company, and its attorney. In the event the survey discloses any encroachment upon the Elementary School Site or any other survey defect, such encroachment or defect shall be treated in the same manner as a title defect under Article II Paragraph 6 of this Agreement to the extent that the SCHOOL BOARD objects to such matters set forth in the survey. The legal description prepared by the surveyor who provided the survey pursuant to this **Article II Section 9**, shall be the legal description used in the Deed and title insurance policy.

10. Improvements to be made by SMR. This Agreement is conditioned upon SMR, or the Lakewood Ranch Stewardship District, at SMR's option, making the following improvements to and benefitting the Elementary School Site for the benefit of the SCHOOL BOARD ("Improvements") which work shall be completed prior to Closing.

a.) Public water lines, irrigation lines and sewer lines of the size, specification, capacity, and location as previously identified by SMR, the design and installation of which has been initiated by SMR and described in attached **Exhibit "B"**.

Provided all other conditions of this Agreement have been satisfied or waived by the parties, the parties agree that the Closing shall occur within ninety (90) days after the completion of the Improvements set forth in **Article II Section 10** immediately above, or such earlier date after the end of the Feasibility Period at the option of the SCHOOL BOARD. If the improvements set forth in such **Section 10** are not completed by December 31, 2026, this Agreement will terminate unless prior to said date, the SCHOOL BOARD elects to waive the requirement of the completion of said improvements and proceed to Closing by giving notice of said waiver to SMR. The Closing shall be ninety (90) days after such notice. Closing shall be held at the offices of Dye Harrison, Bradenton, Florida, at a date and time mutually agreed upon by the parties and can be conducted through the use of electronic mail and overnight document couriers (i.e., no requirement for a physical meeting). This date may be extended by mutual agreement of the parties. Such agreement to extend closing on behalf of the SCHOOL BOARD can be exercised by the School Board Superintendent. Possession of the Elementary School Site shall be delivered to the SCHOOL BOARD at Closing.

Each party shall bear its own attorney fees associated with this transaction.

13. Closing Documents. SMR through its counsel shall prepare, at its sole cost and expense, and shall deliver to the SCHOOL BOARD's counsel, no later than ten (10) business days before the scheduled Closing Date, closing documents in draft form (which are expressly subject to review and approval) including but not limited to:

The Escrow Agent shall prepare and circulate the closing statement for review, approval and execution by the parties prior to the consummation of the transaction.

14. Taxes and Assessments. DRAFT

The internal audit of the Position Control Function in PeopleSoft was included in the 2021/2022 Internal Audit Plan. When the Personnel Audit was conducted during the 2020/2021 school year, the development of the Position Control Function within PeopleSoft was still in process. The Position Control Function, as it relates to allocation and staffing levels, at the time was manual in nature and was being transitioned to PeopleSoft. Therefore, elements of this process, as noted in the Background Section, were deferred until the function was implemented in PeopleSoft. Additionally, during the Budget Function Audit performed in the 2021/2022 school year, we evaluated certain components that are used as part of the Position Control Function within PeopleSoft as it relates to Full Time Equivalent (FTE) allocation. Therefore, this audit focused on the Position Control Function within PeopleSoft in the areas as follows:

- Procedures and Training
- System Access
- Accuracy of the *Staffing Allocation Report*

There is no "Position Control Module" in PeopleSoft. Rather, a report, the *Staffing Allocation Report,* is produced from multiple modules, data, and applications within the Human Capital Management (HCM) suit in PeopleSoft. HCM is a suite of PeopleSoft modules used to manage employee and human resource functions. The *Staffing Allocation Report* provides a real time staffing report that serves as a one stop resource for departments and schools. The following modules and sources are used to create the *Staffing Allocation Report*:

Human Resources Module - The HR module maintains position and employee data. Data that is stored and updated in this module relates to employee, job, position, compensation, and benefit

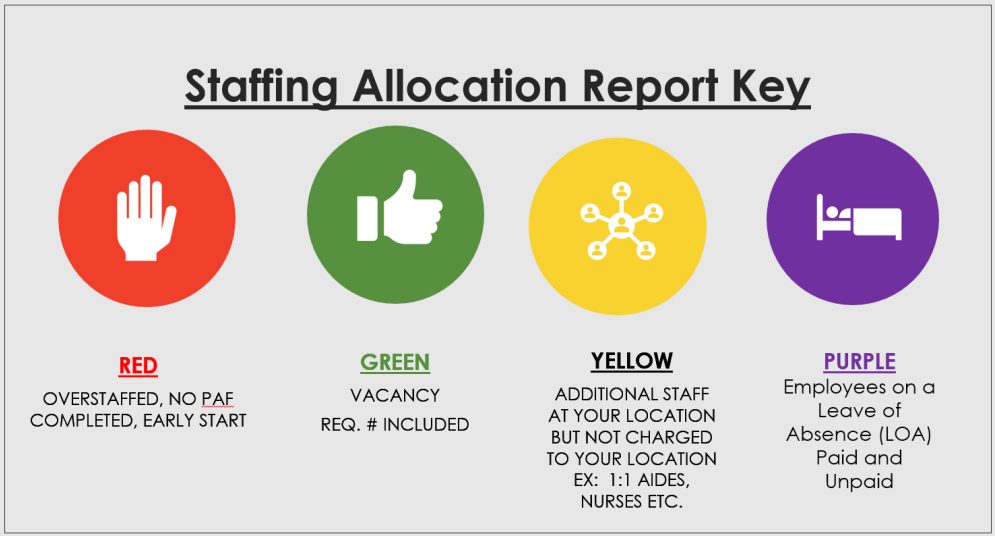
information. Information such as departments, job codes, job data, and base compensation are pulled from this module and used within the report.

Department Budget Module - Budget (Commitment Accounting). PeopleSoft Commitment Accounting is the budgeting module for HR, which enables users to allocate salary costs to different funding sources. The common funding sources are general fund, grants, and referendum.

Position Management Module - Helps organizations structure their human resources system by position rather than by job. In many organizations, employees share a single job code even though they may perform the job in different departments, locations, or business units. The majority of PeopleSoft customers leverage position management to define positions for all the various combinations possible, tie budgets directly to positions where necessary, and ultimately provide greater insight into the HR organizational and cost structures.

Allocation Application – This is a bolt on custom application that was implemented to allocate full time equivalents (FTEs) to positions to allow for the *Staffing Allocation Report* to be created. The positions are input into Allocation application by the Allocation Administrator located in the Budget Department. The Allocation Administrator assigns the coordinating FTEs based on the budget with adjustments made throughout the year.

An example of the *Staffing Allocation Report* can be found at Exhibit 1. The *Staffing Allocation Report* is color coded to help the user easily identify key items within the report as follows:



Note: Personnel Action Form (PAF)

Overall, the specific areas evaluated during this audit as it relates to the Position Control Function in PeopleSoft are rated as ***Satisfactory.*** The *Staffing Allocation Report* was accurate and data within the report was supported. Training was provided to schools and departments in regards to running and

reviewing the report. The *Staffing Allocation Report* provides a real time staffing report that serves as a one-stop resource for departments and schools. This is not, however, an encumbrance tool to evaluate staffing levels as it relates to forecasting salary to the end of the school year compared to the budget. The *Staffing Allocation Report* has replaced the manual spreadsheets that were previously maintained by the Position Control group.

The specific test steps, exceptions, recommendations, and management responses can be found at Appendix A. The following is a summary of the areas that should be addressed:

- ***Allocation Application Procedures (PC-1) –*** As the Position Control Function has recently moved to PeopleSoft, procedures were not yet developed for the Allocation Application. It was recommended that the Allocation Administrator develop a PeopleSoft Job Aid (which was completed prior to the completion of the audit) for the use of the Allocation Application as well as procedures for documenting and maintaining support for allocation inputs and updates (see page 7). *Moderate*

- ***Separation of Duties - System Access (PC-2) -*** We reviewed employees with All Access rights and obtained their job titles to determine if access was appropriate and there was adequate separation of duties. All Access right for both the Allocation Application and the Position Management Module were granted to both employees in the Budget Department and the HR Department. Based on discussion with the PeopleSoft Contractor only the Allocation Administrator was making changes in the Allocation Application, and based on an activity log provided, only HR associates were making changes in the Position Management Module. Therefore the risk was reduced based on current activity in the application and module.. Full Access for the Allocation Application should only be to associates in the Budget Department for the Allocation Application and Full Access for the Position Management Module only to associates in the HR Department. Additionally, another associate in the Budget Department should be provided Full Access rights to serve as a backup to the Allocation Administrator (see page 9). *Moderate*

- ***Overstaffed Positions (PC-3) -*** There was one 1 out of 10 schools and 10 departments that was overstaffed based on our review of the *Staffing Allocation Report*. The system does not limit a HR associate from adding a position even if there is not an allocation. The positions were for a mathematics teacher and a long term substitute. Both of those positions were vacant and not filled, therefore employees were not in those positions. To mitigate risk HR pulls the report prior to posting positions in the recruiting module. Corrections were made to remove the positions. Management should inquire if the Position Management Module could limit adding positions based on allocations. As the Allocation Application resides outside of the Position Management Module, this might limit the ability to implement this control.

  Additionally, Management should create an overstaffed positions exceptions report. This report should highlight any overstaffed positions at a department or school. Although a report is currently available to be pulled for the District as a whole, it is a large report and would require a manual read through to identify those that are overstaffed. The frequency

DRAFT

to review this report should also be determined to timely identify any positions that are overstaffed (see page 10). *Moderate*

- *Best Practice: Although the manual process used by the Allocation Administrator does an adequate job tracking changes to the Allocation Application, Management should pursue adding notes or a function to the Allocation Application to track changes and put notes for reasons of changes (see page 11).*

Critical	Such an issue would be expected to receive immediate attention from Management, but must not exceed 30 days to remedy from the final Audit Report date.
High	Such an issue would be expected to receive urgent corrective action by Management, and must be completed within 60 days of final Audit Report date.
Moderate	Such an issue would be expected to receive corrective action from Management, and must be completed within 90 days of final Audit Report date.
Low	Such an issue does not warrant immediate attention but requires corrective action by Management, and must be completed within 120 days of final Audit Report date.

APPENDIX A

BACKGROUND

The Position Control group is located within the Human Resources (HR) Department and has the responsibility to manage employment transactions as provided by School Board policy and procedure and to determine position approval status to support budgeting. This group also oversees and coordinates the position control function of the School District with the creation, modification, and deletion of positions. When the Personnel Audit was conducted during the 2020/2021 school year, we reviewed new hires and evaluated the controls as it related to approving, posting, and hiring of employees as well as transfers and terminations. At the time of the Personnel Audit, the process was manual in nature and was being transitioned to PeopleSoft and; therefore, elements of this process were deferred until the process was implemented in PeopleSoft. Additionally, during the Budget Function Audit conducted in the 2021/2022 school year, we evaluated certain components that are used as part of the Position Control function within PeopleSoft as it relates to full time equivalent (FTE) allocation. Therefore, the Position Control Function in PeopleSoft Audit focused specifically on the process within PeopleSoft.

OBJECTIVE

To determine whether the Position Control Function within PeopleSoft is adequately documented, data used is accurate and supported, and access is properly granted.

SCOPE

Our internal audit scope reviewed components of the Position Control Function within PeopleSoft during the 2021/2022 school year.

METHODOLOGY

The internal audit focused on the Position Control Function within PeopleSoft and the areas as follows:

- Procedures and Training
- System Access
- Accuracy of the *Staffing Allocation Report*

TESTING & RESULTS

Procedures and Training

Procedures

The Position Control group is located within the HR Department and has the responsibility to manage employment transactions as provided by School Board policy and procedure and to determine position approval status to support PeopleSoft-based budgeting. This group oversees and coordinates the Position Control Function of the School District with the creation, modification, and deletion of positions. During the Personnel Audit we reviewed new hires and evaluated the controls, procedures, and PeopleSoft Job Aids as it related to the approving, posting, and hiring of employees as well as transfers and terminations. This involved those actions conducted within the Position Management Module utilized by the Position Management group, one of the main HCM modules that impacts the *Staffing Allocation Report*.

We reviewed the budgeting process as it relates to FTE allocations in the Budget Function Audit. Budgets for schools are performed through Site-Based Budgeting, which determines the staffing needed based on full-time equivalent (FTE) at each school. The Allocation Administrator, located within the Budget Department, works with schools by providing them a spreadsheet to calculate the staffing needs at that school. Allocations for FTEs of departments are determined by the Zero-based budgeting process. The Allocation Administrator oversees the process of inputting and updating the allocations in the Allocation Application in PeopleSoft. This includes the initial input of budgeted staffing needs and changes throughout the year, as well as the documentation for and tracking of the changes. As it relates to the Allocation Application in PeopleSoft, we noted the following exception:

Allocation Application Procedures (PC-1) ***Moderate***

Condition: There were no written procedures developed for the Allocation Application.

Impact: A back-up or other associate in the Budget Department does not have guidance to perform the necessary duties in the system or maintain adequate back up for changes.

Criteria: Procedures and PeopleSoft Job Aids provide guidance to associates for the execution of necessary functions.

Cause: Procedures and PeopleSoft Job Aids have not yet been developed for the Allocation Application.

Recommendation: The Allocation Administrator should develop a PeopleSoft Job Aid for the use of the Allocation Application as well as written procedures for documenting and maintaining support for allocation inputs and updates.

It should be noted that during the course of the audit Management started the process to develop PeopleSoft Job Aids for the Allocation Application.

DRAFT

Management Response:

Management Response: The Allocation Administrator worked with the Budget Systems Analyst to develop the following PeopleSoft Job Aids:

- ***Updating an Allocation – This Job Aid was created on 3/24/22 to explain how to make changes to the number of positions allocated to a school or department (for example, changing the number of 1st Grade Teacher positions at a school from 5 to 6).***
- ***Adding an Allocation to the Allocation Page – This Job Aid was created on 4/5/22 to explain how to add a new allocation to a school or department (for example, a new job description is board-approved and the allocation for the position needs to be added to a department).***

The Allocation Administrator is developing written procedures that will reference the Job Aids and outline the supporting documentation required to make allocation changes in the PeopleSoft ERP system.

Training

The Staffing Allocation Report Training Presentation was provided to all schools, principals and administrative staff, and departments at the start of the 2021 school year. The training provides an overview and explanation of the report, reference to the PeopleSoft Job Aid created to pull the report, and the Staffing Allocation Report Key, which is documented in the Background section of this report. The report is color coded to highlight certain attributes in the report, such as Overstaffed Positions (Red), Vacancy (Green), Additional Staff not charged to the Location (Yellow), and Employees on Leave (Purple). This allows the user of the report to easily identify any positions or items that need to be addressed, such as over staffing.

The HR Director provided recent agendas of meetings with school principals which involved a refresher on the Staffing Allocation Report. The HR Director noted that meetings of principals and school administrative staff are more common and frequent which allows for refreshers on topics such as the Staffing Allocation Report. As far as departments, there is not as much turnover at the departments for directors and staff. It is more difficult to gather all the various departments together for meetings, therefore, training can be provided when needed. If there is a new director at a department, they are provided with the presentation and PeopleSoft Job Aid and also shown how to obtain and read the *Staffing Allocation Report*.

No exceptions were noted with respect to the materials and training provided to schools and departments.

System Access

Separation of duties is critical within a system to ensure access is limited based on job responsibilities. In regards to the *Staffing Allocation Report*, the main two (2) sources that have the greatest impact in creating the report are the Position Management Module and the Allocation Application. Position Management Specialists in HR are responsible for updating and maintaining the Position

DRAFT

Management Module. The Allocation Administrator in the Budget Department is responsible for updating and maintaining the Allocation Application. As allocations are a function of the Budget Department, access should be limited to those in the Budget Department. An employee in HR should not have the ability to increase an allocation, which might not be budgeted, and at the same time add a position.

We obtained a report from IT that contains access to the Allocations Application and Position Management Module. We reviewed the employees with All Access rights and obtained their job titles to determine if access was appropriate. We discussed the access with Management, and based on our review and discussions, we noted the exception:

Separation of Duties - System Access (PC-2) ***Moderate***

Condition: We noted the following based on our review:

Allocations Application

- There were 2 HR Employees with All Access rights.
- There is not a backup person with access in the Budget Department for the Allocation Administrator.

Position Management Module

- The Allocations Administrator had All Access Rights. (Per a note on the report and discussion with IT, the Allocation Administrator noted that access should be removed.)

Impact: The ability to add an allocation to a position and then add a position could circumvent the control of ensuring a position is only added if budgeted or approved.

It should be noted that based on discussion with the PeopleSoft Contractor that only the Allocation Administrator was making changes in the Allocation Application and that based on an activitylog provided, only HR associates were making changes in the Position Management Module. Therefore the risk was reduced based on current activity in the application and module.

Criteria: Access should be limited based on job responsibilities.

Cause: All Access rights was improperly granted.

Recommendation: Full access for the Allocation Application and the Position Management Module should be given to associates in either the Budget Department for the Allocation Application or the HR Department for the Position Management Module. Additionally, another associate in the Budget Department should be provided full access permission to serve as a backup.

DRAFT

Management Response:

Each member of the Allocation Application team and the Position Control Module team has "full access" to their assigned module and/or application. Some of the members have access to both the module and the application, and during CRI's review of the ERP access assignments/permissions, CRI determined that three team members have unnecessary access to certain functionalities.

District management will review the appropriateness of these three members' access, and either provide additional justification for "all access", or revise access based on need for task-specific functionality.

Staffing Allocation Report Accuracy

Changes in the Allocation Application are made by the Allocation Administrator. During the Budget Function Audit we reviewed the process to obtain FTE calculations for schools and those submitted by departments. The Allocation Administrator uses those results and inputs them into the Allocation Application at the start of the school year. Any changes to schools are documented on the Allocation Spreadsheets for the schools, which we also reviewed during the Budget Audit. Footnotes for the reason of changes are made on these spreadsheets along with any backup documentation, with the corresponding changes then made in the Allocation Application. For departments, the Allocation Administrator will print out a copy of the page for that department in the Allocation Application and make footnotes on each of the sheets to explain any changes and also to save any emails or other supporting documentation. Although documentation is kept outside of the system, changes are made within the system and relied upon for the *Staffing Allocation Report.*

We haphazardly selected 10 departments and 10 schools to test the accuracy of the allocations on the report and performed the following:

- Compared total allocation on the *Staffing Allocation Report* for the Department/School to the total allocation on the final approved budget.
- Obtained supporting documentation and reconciled any differences between the *Staffing Allocation Report* and the final approved budget.
- Determined that the staffing levels matched or were less than the allocation amount. Any staffing level above the allocation amount would indicate that the school/department is overstaffed.
- Reviewed the report for any individual positions that were highlighted in RED. A position highlighted in RED would indicate a position is overstaffed.

We were able to reconcile allocations for the department and schools back to the approved budget. For any differences, we were provided with documentation which contained footnotes and additional support for the changes throughout the school year. We did however note the following:

DRAFT

Overstaffed Positions (PC-3) ***Moderate***

Condition: There was one 1 (school) that was overstaffed based on the report at the time of our review. The allocated amount on the report was 90, which was supported, while the staffing level on the report was 92.

Impact: Positions could be filled for positions that were not budgeted. However, to mitigate risk, HR pulls the report prior to posting positions in the recruiting module

Criteria: Positions should only be added when a positions is allocated in the Allocation Application.

Cause: The positions were created in addition of the budgeted allocation. The system does not limit a HR associate from adding a position even if there is not a budgeted allocation. The positions were for a mathematics teacher and a long term substitute. Both of those positions were vacant and not filled, therefore employees were not in those positions. The Position Control Specialist removed those positions based on our review.

Recommendation: Management should inquire if the Position Management Module could limit adding positions based on budgeted allocations. As the Allocation Application resides outside of the Position Management Module, this might limit the ability to implement this control.

Additionally, Management should create an overstaffed positions exceptions report. This report should highlight any overstaffed positions at a department or school. Although a report is currently available to be pulled for the District as a whole, it is a large report and would require a manual read through to identify those that are overstaffed. The frequency to review this report should also be determined to timely identify any positions that are overstaffed.

Management Response:

Management has created an "IT work ticket" (#72442) to request that Agitech (contracted service provider) enhance the functionality of the Position Management Module to establish a connection with the Allocation Application to ensure posted positions do not exceed allocations.

Management has created an "IT work ticket" (#72444) to request that Agitech (contracted service provider) create an "overstaffed positions exceptions" report, with the recommended specification (above).

DRAFT

Best Practice: Although the manual process used by the Allocation Administrator does an adequate job tracking changes to the Allocation Application, Management should pursue adding notes or a function to the Allocation Application to track changes and put notes for reasons of changes.

Management Response:

Management has created an "IT work ticket" (#72446) to request that Agitech (contracted service provider) add "job-tracking change functionality to the Allocation Application, with the recommended specification (above).

Dear Members of the School Board,

The Citizens' Financial Oversight Committee ("CFOC") has completed its review of the revenue, expenses and operating reserves of the one mill increase in the school ad valorem millage pursuant to "Resolution 2017-11" (the "Resolution") for the fiscal year ending June 30, 2021.

Our review included accessing audited financial records of the Manatee County School District (the "District"), compiling and summarizing detailed records into the data included in this report. We performed certain analytical procedures to verify our conclusions. Also, we relied upon representations of the District, and the internal audit procedures of restricted funds of the District in reaching our conclusions.

Except as otherwise set forth herein, it is our finding that tracking and accounting of Resolution Revenue and Resolution Expenditures were in material compliance with the operating budget established by the District and approved by the Board for the twelve months ending June 30, 2021.

In addition to the CFOCs review of financial records of the District, the CFOC has reviewed certain data to identify relevant outcomes related to the use of the Resolution Revenue (as hereinafter defined) consistent with the stated goals of the Resolution. As illustrated within this report, the district has shown improvement in metrics related to goals set forth in the initiative. This improvement can be attributed to many factors including implementation of the referendum. That said, certain data and analysis being measured at this time are presented in this report.

Note that the CFOC has experienced difficulty in acquiring homogenous datasets for comparison of data before and after the commencement of the use of the Resolution Revenue. The CFOC seeks continued cooperation with the District administration and staff in that regard.

It is the CFOC's opinion that all conclusions in this report are based on materially correct data; however, information and representations made by the District are subject to change.

David Lee N. Ballard

Chair, Citizens' Financial Oversight Committee

DRAFT

Creation of the Citizens' Financial Oversight Committee

The Citizens' Financial Oversight Committee ("CFOC") was created through the Manatee County School District School Board's approval and adoption of Resolution 2017-11 on November 14, 2017, and the subsequent vote in favor of the one mill increase in the operating ad valorem millage by the constituents of Manatee County in the Special Election held on March 20, 2018.

More specifically: (a) the ballot summary question language approved in Resolution 2017-11 stated the funds generated by the one mill increase to the operating ad valorem millage would be "…. overseen by an independent citizens' committee"; and (b) paragraph 4 of Resolution 2017-11 provided as follows: "Provided the millage increase for Manatee County Schools is approved, a financial oversight committee appointed by the School Board shall issue an annual report to insure proper fiscal stewardship of the funds. In addition, the committee shall identify relevant outcomes and report results to the community.

The School Board appointed the initial members of the committee in 2018 who serve subject to the committee charter approved by the CFOC and the School Board. Over the past two years, the Board has appointed subsequent members as terms have expired. As of June 30th, 2022, four members' terms are expiring.

Mission of the CFOC

The Mission of the CFOC is to: (i) provide oversight to ensure proper fiscal stewardship of operating funds provided by the one mill increase in the operating ad valorem millage; (ii) identify and measure relevant outcomes from the deployment of the funds from the one mill increase; and (iii) report results to the School Board and the community.

Operation and Organization of the CFOC

In prior years, three sub-committees of the CFOC were formed. To streamline work and avoid duplicative District-staffed meetings, the Committee switched to single-member liaisons. This member attends meetings with the District's Working Group and reports back to the full committee.

Financial Review and Analysis

We have completed our review of the Resolution Revenue, Expenditures and operating reserves of the Resolution Revenue. Our review included accessing audited financial records of the District, compiling and summarizing detailed records into the data included in this report. We performed certain analytical procedures to verify our conclusions. Also, we relied upon representations the District, and the internal audit procedures of restricted funds of the District in reaching our conclusions.

Defining Terms

- Resolution Revenue: Revenue generated from the one mill increase in the school ad valorem millage pursuant to Resolution 2017-11.
- Core Revenue: All other general fund revenue
- Resolution Expenditures: Expenditures restricted from the Revenue source of the one mill increase in the school ad valorem pursuant to Resolution 2017-11
- Core Expenditures: All other general fund expenditures

Conclusions

Our review concludes that the financial records of the District represent, in all material respects, proper recording and tracking of the Resolution Revenue, Resolution Expenditures and operating reserves related to the Resolution Revenue as presented in the following schedules (appendices to this report):

- Resolution Budget vs. Actual Expenditures/Fund Balance by Project for the Year Ended June 30th, 2021 (Schedule A)
- Recap of Comparative Income and Expense Data and Analysis of Increase/Decrease for the Initial Year of Resolution Amounts (Schedule B)

DRAFT

Analysis

Schedule A presents a comparison of budgeted Resolution Expenditures to actual Resolution Expenditures for the fiscal year ending June 30th 2021. Resolution Revenue budgeted but not spent in a given Project accounting category in the fiscal year ended June 30, 2021 was carried forward to the 2020-2021 budget as adjustments restricted to the Project accounting category the funds were originally budgeted for. Similarly, Resolution Expenditures more than the budgeted amounts were carried forward to the following fiscal year as adjustments in the 2020-2021 budget.

Schedule B presents comparative revenue and expense information and corresponding year over year change analysis. Total expenditures from the General Fund for the District increased by 4.66% with Core Expenditures contributing 2.74% of the increase and Resolution Expenditures contributing 29.66%.

Total revenue for the District also increased 0.54% with Core Revenue and Resolution Revenue contributing -0.20% and 8.71% respectively.

Discussion and Recommendations

Consistent with the CFOC's prior recommendation regarding maintaining increases in Core Expenditures consistent with economic conditions, the CFOC again recommends the School District consider Core Expenditure increases after accounting for inflation. Should there be a correlation between spending in certain areas and the success of the District, in the case of Instruction, there was likely no Core Expenditure increases net of inflation. CPI-U has increased by 10.2% between March 2021 and March 2022, per the Bureau of Labor Statistics.

Incremental increases in Resolution Revenue through an increase in tax assessed values alone will not be sufficient to fund the necessary increases in certain Core Expenditure areas. The following is a breakdown of wage increases over the past 4 years with Core increases and increases that the Referendum brought to wages.

In addition, the CFOC recommends that the district develops and implements a method to track retention and turnover on an employee basis. The current system tracks on the basis of a filled position, regardless of whether the same employee filled that position.

Relevant Outcomes and Results

Pursuant to the Resolution, the CFOC has identified relevant outcomes related to the use of the Resolution Revenue, consistent with the stated goals of the Resolution. In order to measure these outcomes, the CFOC has relied upon representations of the District. There have been persistent limitations to acquiring the information requested from the District. This primarily relates to historical information stored in the previous enterprise management system used by the District that is no longer readily accessible. Where applicable, we have worked with the District to find alternative sources of consistent, reliable data.

As illustrated within this report, the district has shown improvement in metrics related to goals set forth in the initiative. This improvement can be attributed to many factors including implementation of the referendum. There has been recent improvement in this Committee's ability to receive consistent, reliable, and timely information in a format that is conducive to data analysis; however, concern remains that the tracking of relevant outcomes related to the Resolution is spurred by this Committee, and there is not a strong system in place to measure relevant outcomes of the Resolution as it relates to teacher and staff recruitment and retention.

Student achievement has continued to rise (when using school grade as a proxy for student achievement). The recruitment and retention of teachers and staff with competitive salaries has proven to be a challenging area to measure. Limited historical information is available. More recent information regarding teacher retention has only become available as the result of the hard work and resourcefulness of administrative staff members. So far, data is only available for the 2016-2017, 2017-2018, and 2018-2019 school years. Some data was collected for the 2019-2020 school year, but no school grades were assigned due to the COVID-19 pandemic. 2020-2021 school grades were only available if a District opted in. This Committee attempted to collect the information that was readily available, but some of the information previously collected was unavailable. No conclusion can be drawn about the impact of Resolution Revenue on retention. Information related to the expansion of Career and Technical Education and STEM programs supported by the Resolution Revenue is being measured, including the number of programs added as well as student participation in these programs.

"To increase student achievement…"

We have examined the grades of each school in the District from 2015 to 2019. Though the District grade itself has remained consistent as a "B" for the last three years, 2016-'17 thru 2019-20 (not illustrated in this report), individual school performance has improved. By the end of the 2018-2019 school year, all but two schools were a grade C or above. This information was provided by the Florida Department of Education website. We are assuming that school grades can be used as a proxy for student performance. Again, school grades for the 2020-2021 school year are unavailable.

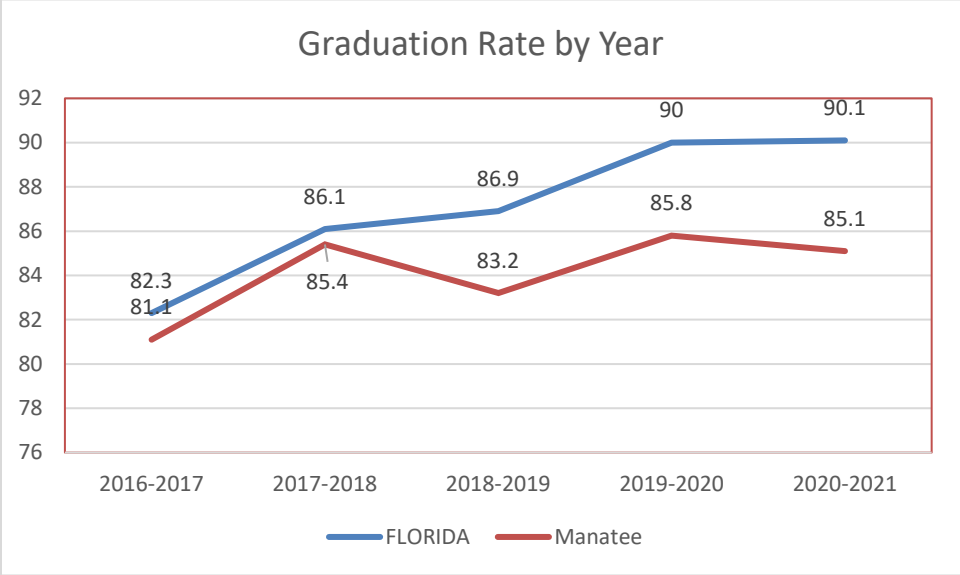
The chart below shows the graduation rate in the district compared to the state as a whole from 2016-17 to 2020-2021. Note the 4% increase over that time period but a widening graduation rate gap compared to the state's 7.8% increase.

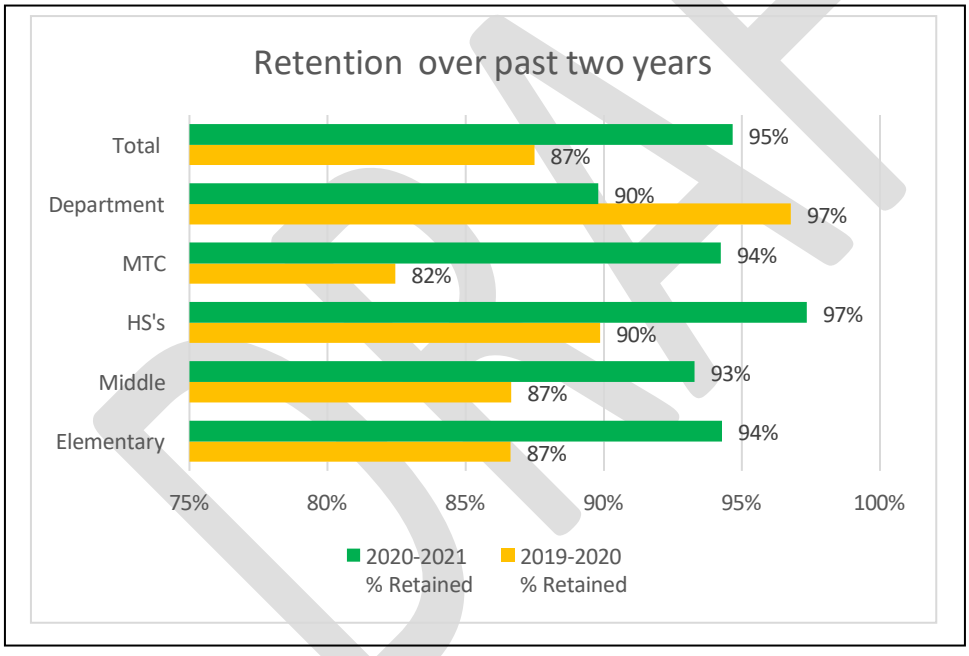


"To recruit and retain teachers and staff…"

This Committee has worked with the District to try to collect sufficient information to establish a historical baseline. Unlike student achievement, this is an area where we would expect to see immediate results. While the Resolution includes both teachers and staff, we have placed special focus on teachers. Some of the relevant outcomes we have identified include:

- Teacher retention
- Teacher vacancy rates
- Number of teachers with advanced degrees
- Average number of years of teaching experience
- Number of first-year teachers versus experienced teachers

The following chart was provided to the CFOC by the Administration showing teacher retention at the elementary, middle, and high school levels, as well as MTC and cross-departmental teachers. This was created by comparing the teachers recorded on 8/10/2020 (the beginning of the school year and comparing it to those recorded on 5/21/2021 (the end of the school year). For data comparison from 2019-20 year, the District used information from beginning of school year from Aug 2019 and Aug 2020. Since it does not use the same methodology as prior years, the CFOC is presenting this information with that caveat for review.



The CFOC recommends that the district develops and implements a method to track retention and turnover on an employee basis. The current system tracks on the basis of a filled position, regardless of whether the same employee filled that position.

The table above shows the number of teachers in the school district with advanced degrees as well as the percentage of the total teacher population holding those degrees. There is a significant jump in the number of teachers holding advanced degrees after the Resolution was implemented. Not enough information is available to determine if this is due to recruitment of more competitive candidates, or if teachers already employed within the district completed advanced degree certifications during this time. Please note that the time periods when these measurements were taken are not uniform, but the Committee felt it was important to present the information that we have. Additionally, there is a drop in 2021 in both the raw number and percentage of teachers with advanced degrees compared to 2020. It is no secret that many teachers nation-wide left the field because of the Pandemic, so to see a drop in these numbers is not surprising. However, it makes it much harder to assess the efficacy of the Referendum in terms of hiring more teachers with advanced degrees.

"Expand Career and Technical Education and STEM programs to prepare students for the workforce…"

This is an area where extensive data is being collected by the District. Much of this information is internally generated by the District and utilized by District leadership, as opposed to the information being collected only at the request of this Committee. We have reviewed plans outlining the intended use of the Resolution Revenue for these areas and provided feedback where appropriate, and the District has made changes accordingly in response to this feedback.

The relevant outcomes that we can measure at this time are the number of programs added and the number of students participating in these programs. A summary of the progress is included as Schedule C in the appendices. As mentioned previously, the CFOC is continuing to track and analyze data to reach conclusions about the success of these programs.

The District has identified the following relevant outcomes that it is measuring:

- Graduation Rates
- Number of Industry certifications earned
- On-the-Job Training experience

The degree of planning that has gone into the deployment of Resolution Revenue to expand career and technical education and STEM programs by the District, as well as the identification of relevant outcomes it is measuring gives this Committee a high degree of confidence that we will be able to continue to collect consistent, reliable information on these programs as the information becomes available. It is encouraging that the District administration and staff overseeing these programs proactively identified relevant outcomes that they wanted to measure for their own purposes.

Conclusions

It is vital that the District takes a more hands on approach with measuring the relevant outcomes of the Resolution and using that information to guide their decision making. For this Committee to uphold its obligation under the Resolution, we need consistent, reliable information provided to us in a timely fashion in a format conducive to data analysis. We are grateful for the help of District staff members who have worked hard to get us the information we have thus far, and we must work together to establish a more streamlined, recurring flow of information. This is particularly true for relevant outcomes for teacher and staff recruitment and retention.

The CFOC requests that the district develops and implements a method to track retention and turnover on an employee basis. The current system tracks on the basis of a filled position, regardless of whether the same employee filled that position.

Recognition of Staff

The CFOC has achieved a good working relationship with District staff that has allowed us to access information in an easier and more timely manner. We would like to specifically thank Tim Bargeron, Doug Wagner, Christian Moreno Hernandez, and Amanda Means for their efforts and guidance.

Schedule C

2020/2021 Career and Technical Education/Vocational Millage Budget:

In 2020/2021, the focus was on renovating and updating equipment in technology labs at district middle and high schools to give students access to state-of-the-art equipment. Agricultural programs received new equipment along with medical programs within the district. With these improvements, students will now be able to excel in these fields. Lincoln Middle School purchased an Anatomage table for their health science program. Southeast High Schools agricultural science program bought a Turf tank which provides students with hands on experience in the application of modern turfgrass equipment. This technology extends to other areas of Agrotechnology and turfgrass management due to the use of GPS guidance. These technologies are already in use in the industry and in the military. Students will be poised to extend their knowledge to other types of equipment and fields like land survey, hydrographic survey and unmanned aerial vehicle navigation, thereby making their skills more marketable after graduation. Manatee High School received new tools for their entire marine engineering program.

2020/2021 Science Millage Budget:

Science millage funds spent in 2020 – 2021 were focused on providing resources, equipment, and materials needed for science teachers to engage in real-world, hands-on lessons. A new science resource teacher position, funded by the science budget, was introduced at Ballard Elementary. Updated science textbooks for grades K through 3 were purchased to bring district curriculum to the forefront of education. The Woz pilot program expanded, and these cutting-edge educational materials were added to Palm View K-8 and Ballard Elementary School. The IXL online science enrichment platform was used as a supplemental curriculum resource to support teachers in preparing for the 8th grade science FSA. Generation Genius and Mystery Science, online enrichment platforms, were used as a supplemental curriculum resource to support teachers in preparing students for the 5th grade science FSA. Classroom technology and equipment upgrades were provided to include light probes, sound probes, incubators, microslide viewers, dissection kits, microscopes, magnetizers, mitosis and meiosis stations, balances, and scales to ensure our students and schools have the most up to date equipment possible keeping our students engaged and excited to learn.

2020/2021 STEM Elementary Millage Budget:

During the 2021 – 2022 school year, the elementary millage budget was used to provide engaging learning opportunities in fresh environments. Furnishings were upgraded in 5 district Elementary STEM labs, with many more receiving updated equipment and software. Legends of Learning was made available to all elementary schools and offered more than 2,000 math & science games and simulations for grades K-5 across 350+ learning objectives. A new agriscience program was established at Myakka City Elementary. Planters, gardens, chicken coops, gardening supplies, and more were purchased to ensure this programs success and to provide hands-on learning opportunities for students. This budget was used to acquire robotics equipment and student iPads, while also granting access to online STEM competitions during a time when they couldn't be held in person. 17 elementary STEM teachers were funded from the millage funds. STEM elementary funds were spent appropriately and carefully to advance the STEM focus and goals of the School District of Manatee County.

2020/2021 Critical Mission School-Based Budget:

All elementary, middle, and high schools in Manatee County were again allocated their portion of this year's millage funds to be used for school-based, developed academic, and STEM learning enhancement projects. These efforts included one-on-one student academic tutoring focused on small group instruction in science and math. Technology enhancement has allowed student coding instruction that strengthens computational thinking skills and helps students explore the fundamentals of the application of academics in applied learning. Students are eager to work and learn new concepts that make a positive impact because of the millage funding.

School Board of Manatee County
July 26, 2022 - Regular Board Meeting and Public Hearing

Title

Board Discussion of Just For Girls, Elementary and Middle School - Millage Equivalent Funding for the 2022-2023 School Year

Executive Summary

Manatee County Girls Club, Inc. d/b/a Just for Girls (JFG) Elementary and Middle School is seeking additional funding for the teachers and staff aligned with the formulas per staff as outlined in the millage documentation, along with the added cost to offset the extended days. The amount is to be determined based upon the enrollment at both schools.

This alternative education program provides an educational program making reading a primary focus, to maintain a safe and secure learning environment for all students participating in the alternative education program.

The additional funding if approved, would result in a First Amendment to both contracts with Just For Girls that if agreed upon by the Board, could be executed thereafter by the Board Chair and Superintendent. This funding is based upon the School Board's expectation of JFG meeting at least two of the criteria of ESSA (Every Student Succeeds Act) standards in the 2022-2023 School Year.
